Your Committee finds that acupuncture is one of the fastest growing fields in American health care due to expanded health insurance benefits and acupuncture's ability to offer patients an alternative to prescription opioids. Despite the field's growth, existing law concerning acupuncture practitioners has remained the same for the past twenty years. To reflect the development of acupuncture practice, this measure updates state laws regulating acupuncture practitioners to reflect changes to national certification standards, accredited educational programs, scope of practice, and titles.

Your Committee notes the Board of Acupuncture's testimony requesting that this measure not take effect for at least two years to allow the Board to adopt rules for its implementation. Should your Committees on Commerce and Consumer Protection and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers the Board of Acupuncture's request.

Your Committee has amended this measure by:

- (1) Removing language that would have authorized the Board of Acupuncture to issue licenses by reciprocity;
- (2) Authorizing the Board of Acupuncture to establish an alternative pathway for physician licensure in acupuncture in alignment with existing Centers for Medicare and Medicaid Services guidelines;
- (3) Clarifying that references to "doctor" refer to a licensed doctor of acupuncture (D.Ac.);
- (4) Inserting an appropriation of an unspecified amount for the Department of Commerce and Consumer Affairs' Professional and Vocational Licensing Division to update its internal database;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 845, as amended herein, and recommends that it pass Second

Reading in the form attached hereto as S.B. No. 845, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 603 Energy, Economic Development, and Tourism on S.B. No. 1287**

The purpose and intent of this measure is to appropriate general funds to the Department of Business, Economic Development, and Tourism for expenses related to the building renovations of its offices on the fifth floor of the No. 1 Capitol District Building, located at 250 South Hotel Street, Honolulu, Hawaii.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Green Infrastructure Authority.

Your Committee finds that in 2022, the Legislature appropriated funds to the Department of Business, Economic Development, and Tourism for its building renovations in the amount of \$660,000. However, the Governor line-item vetoed that amount among other items to comply with the federally mandated Elementary and Secondary School Emergency Relief Funds Maintenance of Effort requirement. Your Committee further finds that due to health and safety concerns and deteriorating conditions, the entire fifth floor of the No. 1 Capitol District Building needs to be completely renovated. The Department of Business, Economic Development, and Tourism currently occupies the fifth floor of the building and will therefore be required to pay for expenses related to the building renovations. This measure will allow the Department of Business, Economic Development, and Tourism to complete necessary building renovations by appropriating funds for expenses related to the building renovations of its offices on the fifth floor of the No. 1 Capitol District Building.

Your Committee has amended this measure by:

- (1) Deleting the appropriation of \$660,000 and inserting a blank amount;
- (2) Inserting an effective date of January 6, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1287, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 604 (Joint/Majority) Government Operations and Labor and Technology on S.B. No. 20**

The purpose and intent of this measure is to require the Department of Accounting and General Services to establish and operate a Child Care Center Pilot Program on Oahu for eligible children of State Employees, one in or near the State Capitol and one in Kapolei for five years.

Your Committees received testimony in support of this measure from the Department of Human Services; Executive Office on Early Learning; Early Learning Board; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawai'i Children's Action Network Speaks!. Your Committees received comments on this measure from one individual.

Your Committees find that there is a shortage of child care facilities in the State. Providing child care to state employees on state property would be of benefit to working parents.

Your Committees have heard the testimony of Hawai'i Children's Action Network Speaks! recommending that a competitive and equitable rate of compensation for the child care workers be considered. Accordingly, your Committees request that when the Department of Accounting and General Services issues a request for proposals that a living wage component for the child care workers be included. Subsequently, your Committees request that the Department of Accounting and General Services also look at indemnification by the State of the contract awardee.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 20, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 20, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Government Operations: Ayes, 2. Noes, 1 (Awa). Excused, 2 (San Buenaventura, Wakai).  
Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Lee).

**SCRep. 605 Government Operations on S.B. No. 509**

The purpose and intent of this measure is to require each executive branch department to:

- (1) Identify existing and planned facilities that are vulnerable to sea level rise, flooding impacts, and natural hazards;

- (2) Assess options for mitigation impacts of sea level rise to existing and planned facilities;
- (3) Establish staff level points of contact to improve interagency coordination for sea level rise adaptation, flooding, and resilience; and
- (4) Submit annual reports to the Governor, Legislature, and Hawaii Climate Change Mitigation and Adaptation Commission.

Your Committee received testimony in support of this measure from the Department of Education, Office of Planning and Sustainable Development, Department of Transportation, University of Hawai'i Sea Grant College Program, and Climate Resilience Collaborative. Your Committee received comments on this measure from the Hawai'i Emergency Management Agency and Department of Land and Natural Resources.

Your Committee finds that sea level rise poses an imminent and unprecedented threat. The University of Hawai'i Sea Grant College Program and Climate Resilience Collaborative provided testimony indicative of a fifteen to thirty percent higher sea level rise for Hawaii in comparison to the global average. It is estimated that by the year 2050, Hawaii will experience close to one foot of sea level rise. The impending vulnerability of coastal communities is punctuated by the projected impact sea level rise will have on the exponential increase of tidal flooding by 2030.

Further, your Committee finds that there is value in a concerted collaborative effort to identify and plan for mitigation efforts for existing and planned facilities that are vulnerable to sea level rise, flooding impacts, and natural hazards.

Your Committee has amended this measure by:

- (1) Specifying that locations where conservation of beaches and coastal environments is desired are to be defined by the heads of each department;
- (2) Inserting language to require each department to ensure its commitment to protecting the public trust while balancing the public interests of health, safety, and welfare of residents;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has received the testimony of the Department of Education and Department of Land and Natural Resources expressing concerns that this measure is duplicative of Act 178, Session Laws of Hawaii 2021 (Act 178). Your Committee appreciates their due diligence and notes that the Department of Transportation and the University of Hawai'i Sea Grant College Program and Climate Resilience Collaborative distinguish that this measure provides additional provisions that are not included in Act 178.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 509, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Wakai).

#### **SCRep. 606      Agriculture and Environment on S.B. No. 792**

The purpose and intent of this measure is to establish and appropriate funds for a local agriculture transportation cost reimbursement incentive program to be administered by the Department of Agriculture to reimburse eligible producers for a portion of the producer's costs to transport agricultural commodities.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farmers Union United, Kuwale Ridge Farms, Ulupono Initiative, Hawai'i Farm Bureau, and one individual. Your Committee received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committee finds that the impacts of the coronavirus 2019 disease pandemic have uncovered the need to strengthen local food systems and reduce dependence on imported foods to ensure that a reliable stream of affordable and nutritious foods are readily available for all residents. Your Committee additionally finds that the Hawaiian islands face significant challenges when it comes to the transportation of goods, particularly for small and medium-sized farms and food producers in the State. Financial assistance can help increase the profitability and competitiveness of local farmers and ranchers, which is essential to the State's food security and sustainability goals. Thus, this measure establishes a reimbursement program to be administered by the Department of Agriculture to provide local food producers with financial assistance to cover the costs of food transportation in the State.

Your Committee has amended this measure by:

- (1) Deleting a reference to the neighbor islands and replacing it with the State with respect to eligible producers;
- (2) Deleting proposed language requiring proof that the producer has annual gross receipts totaling \$50,000 or more;
- (3) Inserting language for reimbursements to cover farmer transportation costs based on tiered total of annual gross income; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 792, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 607 Agriculture and Environment on S.B. No. 1458**

The purpose and intent of this measure is to:

- (1) Establish an Extended Producer Responsibility Program;
- (2) Require certain producers of fast-moving consumer goods to register with the Department of Health and pay an annual fee based on the amount of packaging volume the covered producer places on the market each calendar year;
- (3) Provide for the deposit of fees into an Extended Producer Responsibility Special Fund;
- (4) Provide for the expenditure of moneys from the Extended Producer Responsibility Special Fund for the creation of a report that assesses the resources needed to reduce the volume of packaging waste sent to landfills or power plants that burn municipal solid waste as a fuel by fifty percent and eighty percent by a date to be determined by rule; and
- (5) Appropriate funds for administration of the program and one position.

Your Committee received testimony in support of this measure from the Department of Environmental Management of the County of Hawai'i; one member of the Hawai'i County Council; Atlantic Packaging Corporation; Huli Pac; Chamber of Sustainable Commerce; 350 Hawaii; Our Revolution Hawaii; Association of Home Appliance Manufacturers; Recycle Hawaii; Clean the Pacific; and eighteen individuals. Your Committee received testimony in opposition to this measure from the Consumer Brands Association; Wine Institute; Ameripen; American Cleaning Institute; American Beverage; Product Stewardship Institute; Retail Merchants of Hawaii; Hawai'i Restaurant Association; Island Plastic Bags, Inc.; Hawaii Food Manufacturers Association; and two individuals. Your Committee received comments on this measure from the Department of Health; Department of Budget and Finance; Hawai'i Reef and Ocean Coalition; Upstream; and Abbot labs.

Your Committee finds the accumulation of solid waste in Hawaii to be unsustainable and a growing cause for concern. Consumers and governments have long been burdened by the problems attributed to solid waste, while producers often evade blame and deny responsibility. Extended producer responsibility is a policy approach in which a producer's responsibility for a product is extended to the post-consumer stage of a product's life cycle. Your Committee finds that an Extended Producer Responsibility Program in the State can help to reduce solid waste in Hawaii by requiring certain producers to register with the Department of Health and pay an annual fee based on the amount of packaging volume the producer places on the market each calendar year. Therefore, this measure establishes an Extended Producer Responsibility Program and implements rules to aid in the curbing of solid waste accumulation in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1458, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1458, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 608 Government Operations on S.B. No. 576**

The purpose and intent of this measure is to require reports of out-of-state and intra-state travel by state employees, officers, or other representatives to be made available for public review on the Comptroller's website.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that out-of-state and intra-state travel information by state employees, officers, or other representatives is fragmented making it difficult and time consuming to acquire. There is no accessible, searchable database to find out how often state officials use taxpayer-funded travel and how much it costs. To ensure transparency, all out-of-state and intra-state taxpayer-funded trips by state officials and staff should be disclosed on an easily accessible website after they are completed.

Additionally, your Committee notes that the Department of Accounting and General Services has suggested a collaboration with the Department of Enterprise Technology Services to utilize the Open Data Portal as a platform for the requirement of this measure.

Your Committee has amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 576, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Wakai).

**SCRep. 609 Government Operations on S.B. No. 1121**

The purpose and intent of this measure is to require the Legislative Reference Bureau to conduct a study to determine an appropriate increase to the homestead exemption in bankruptcy proceedings.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that statutory homestead exemptions protect a certain amount of value in a debtor's home from attachment and execution, including in bankruptcy proceedings. Under existing law, the homestead exemption amounts have not been adjusted for

over forty-five years. This measure would provide policymakers with the information necessary to make an informed decision on whether the homestead exemption should be increased and, if so, the appropriate amount of the increase.

Although your Committee was presented with various scenarios by the Legislative Reference Bureau to consider regarding adjustments to the homesteader exemption amount, your Committee is confident that it is best to conduct a study. Your Committee was made aware that there was a drafting defect in this measure. When the measure was initially created, it was intended that the Real Property and Financial Services Section of Hawaii State Bar Association would conduct the study.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that Real Property and Financial Services Section of the Hawaii State Bar Association conduct the homestead exemption study instead of the Legislative Reference Bureau; and
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion.

Your Committee requests that your Committee on Ways and Means, should they choose to review this measure, consider allocating funds for the study to be conducted.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Wakai).

**SCRep. 610 Government Operations on S.B. No. 1441**

The purpose and intent of this measure is to clarify the deadline for submitting written protests that are based on the content of a solicitation.

Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii. Your Committee received comments on this measure from the Department of Accounting and General Services, State Procurement Office, and Department of Transportation.

Your Committee finds that unsatisfied, or aggrieved, vendors routinely challenge officials' procurement decisions through bid protests. A bid protest is a challenge to the terms or award of a public contract. Many public procurement systems have established procedures for allowing vendors to challenge a solicitation. To be considered timely, the protest must be submitted in writing within the prescribed time to allow for efficient resolution.

Your Committee has heard the testimony expressing concerns that this bill may not be necessary as there are provisions in existing law for bidder protest, and that the language in this measure may pose a disadvantage to the bidders as it may further limit the time provided to protest the solicitation. However, your Committee feels that an imposed time limit could help to expedite project completion by limiting the protest time to a defined period.

Your Committee has amended this measure by:

- (1) Clarifying language to reflect the fact that there are only two opportunities to protest; and
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1441, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1441, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Wakai).

**SCRep. 611 Energy, Economic Development, and Tourism on S.B. No. 629**

The purpose and intent of this measure is to require contracts entered into by the Hawaii Tourism Authority for management of the Hawaii Convention Center to include marketing for all uses of the facility.

Your Committee received testimony in opposition to this measure from the Hawai'i Hotel Alliance. Your Committee received comments on this measure from the Hawai'i Tourism Authority.

Your Committee finds that the Hawaii Convention Center provides a venue for the State to host large meetings, conventions, and incentives that draw large numbers of visitors to the State. Your Committee believes that the procurement process for the marketing services of the Hawaii Convention Center should be updated to ensure a competitive bidding process that will effectively market the Convention Center as a premier location for meetings and conventions. This measure will ensure the State receives the best value from proposals for the marketing of the Hawaii Convention Center by requiring contracts entered into by the Hawaii Tourism Authority for management of the Hawaii Convention Center to include marketing for all uses of the facility.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

**SCRep. 612 Commerce and Consumer Protection on S.B. No. 921**

The purpose and intent of this measure is to clarify that no statute of repose shall affect a condominium association's right of action against a condominium developer sooner than two years after the period of developer control terminates.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners, Palehua Hale AOA, Community Associations Institute, and six individuals.

Your Committee finds that under existing law, the statute of limitations affecting a condominium association's right of action against a developer is tolled until the period of developer control terminates. However, existing law does not expressly state that tolling applies to the statute of repose that also limits a condominium association's right of action against a developer. A developer should not be allowed to avoid responsibility for design or construction defects by maintaining control of an association until the statute of repose expires, for the same reasons that it would be unfair and inequitable to allow the statute of limitations to expire during a period of developer control. Accordingly, this measure clarifies that the tolling provision in section 514B-141, Hawaii Revised Statutes, applies to the statute of repose.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 613 Commerce and Consumer Protection on S.B. No. 884**

The purpose and intent of this measure is to, for taxable years 2023-2029, exclude from taxation one hundred per cent of the gain realized by a fee simple owner from the sale of a leased fee interest in units within a condominium project, cooperative project, or planned unit development to the association of apartment owners or the residential cooperative housing corporation of the leasehold units.

Your Committee received testimony in support of this measure from Hawaii Council of Associations of Apartment Owners and five individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, in 2007, the legislature enacted Act 166, Session Laws of Hawaii 2007 (Act 166), which provides an income tax exemption of one hundred percent of capital gains realized by a fee simple owner during taxable years 2008-2012 from the sale of a leased fee interest in units within a condominium project, cooperative project, or planned unit development to the association of apartment owners or residential cooperative corporations of the leasehold units. The purpose of Act 166 was to encourage landowners to sell condominium lessees the fee interest in their units, and thereby promote the long-term stability in Hawaii's condominium housing market. However, Act 166 repealed on December 31, 2012. Your Committee finds that many condominium units are still held in leasehold. Accordingly, this measure reestablishes an income tax exemption of one hundred percent of capital gains realized from sales of leased fee interest in certain residential units.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 884, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 884, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 614 (Majority) Commerce and Consumer Protection on S.B. No. 935**

The purpose and intent of this measure is to:

- (1) Prohibit advertisements for Nevada hotels, resorts, or other recreational services that promote casinos or gambling devices licensed by the Nevada Gaming Commission from being broadcast, televised, marketed in printed publications or displays, distributed online, or otherwise communicated by electronic means within the State; and
- (2) Impose a general excise tax on persons engaged in the arrangement, provision, or sale within the State of vacation packages or other recreational services that promote gambling or gambling devices that is not prohibited by state law of thirty per cent of gross income due to that activity.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from Vacations Hawaii and two individuals. Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that there are an estimated twenty-four thousand people in the State who struggle with compulsive gambling. According to the Las Vegas Convention and Visitors authority, approximately three hundred thousand passengers fly from Hawaii to Las Vegas each year. Despite the alarming number of people with gambling addictions, there is a lack of help in the State for people affected by gambling addiction. Therefore, this measure seeks to address these issues.

Your Committee acknowledges the testimony of the Department of the Attorney General, which notes that this measure's prohibition on advertisements for Nevada hotels, resorts, or other recreational services that promote casinos could be an unconstitutional restriction of commercial speech. Your Committee also notes that while this measure is designed to address gambling

addiction, it does not direct funds for gambling addiction treatment programs. Therefore, this measure requires amendments to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 2 of this measure which would have prohibited advertisements for Nevada hotels, resorts, or other recreational services that promote casinos or gambling devices licensed by the Nevada Gaming Commission from being broadcast, televised, marketed in printed publications or displays, distributed online, or otherwise communicated by electronic means within the State;
- (2) Establishing a Gambling Addiction Special Fund within the Department of Human Services for the treatment of gambling addiction for Hawaii residents;
- (3) Inserting a provision directing the funds collected from the general excise tax established by this measure to the Gambling Addiction Special Fund;
- (4) Blanking out the percentage of the tax to be levied and assessed by this measure;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 935, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 935, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 615 (Majority) Commerce and Consumer Protection on S.B. No. 945**

The purpose and intent of this measure is to establish a program for the licensure, regulation, and oversight of digital currency companies.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Technology Development Corporation, and two individuals. Your Committee received comments on this measure from The Grassroot Institute of Hawaii, Inc.

Your Committee finds that digital currency, such as cryptocurrency, e-money, network money, or e-cash, is an asset that is primarily managed or stored electronically. Digital currency may be recorded on a decentralized ledger on the Internet or a centralized database or ledger system owned by a company. Although digital currency has grown in popularity and acceptance worldwide, there is little regulation of the digital currency industry in the United States. The Division of Financial Institutions of the Department of Commerce and Consumer Affairs and the Hawaii Technology Development Corporation are currently conducting a two-year "sandbox" program to study digital currency transactions. The program has confirmed that a new regulatory framework for digital currency transactions is appropriate. This measure establishes a program for the licensure, regulation, and oversight of digital currency companies.

Your Committee acknowledges the testimony of the Department of Commerce and Consumer Affairs' Commissioner of Financial Institutions, who recommended various amendments to clarify and improve the measure and requested that the appropriation already in the measure be made for establishing and hiring three full-time equivalent (3.0 FTE) permanent examiners to carry out the purposes of the digital currency license program established by the measure. Your Committee also acknowledges the testimony of The Grassroot Institute of Hawaii, Inc., which raised concerns that the measure, as written, could conflict with future federal legislation acknowledging a digital currency as legal tender. Accordingly, amendments are necessary to address these concerns.

Therefore, your Committee has amended this measure by:

- (1) Inserting definitions of "control" and "custodial services" to the digital currency license program established by the measure;
- (2) Inserting a provision exempting a non-custodial digital currency business activity by a person using a digital currency acknowledged as legal tender by the United States, or a government recognized by the United States, or that has been determined to not be a security by a United States regulatory agency;
- (3) Deleting the requirement that a licensee retain a hard copy of its advertising;
- (4) Replacing the appropriation made to implement the licensing program established by the measure with an appropriation made to establish and hire three full-time equivalent (3.0 FTE) permanent examiners to carry out the purposes of the digital currency licensing program;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 945, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 616 (Majority) Commerce and Consumer Protection on S.B. No. 974**

The purpose and intent of this measure is to:

- (1) Establish a framework to regulate controllers and processors with access to personal consumer data;
- (2) Establish penalties for violations of the regulations;
- (3) Establish a new consumer privacy special fund; and
- (4) Appropriate moneys to fund the special fund.

Your Committee received testimony in support of this measure from the Department of the Attorney General and three individuals. Your Committee received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company, Hawaiian Electric, Retail Merchants of Hawaii, and National Association of Mutual Insurance Companies. Your Committee received comments on this measure from the Department of Budget and Finance; TechNet; American Property Casualty Insurance Association; Mayer Brown, LLP; Hawaii Financial Services Association; Hawaii Insurers Council; State Privacy & Security Coalition; and California Privacy Protection Agency.

Your Committee finds that online commerce sites, social media, and mobile devices and apps are becoming an integral part of consumers' lives. However, these applications and devices have the capability to collect and share personal information to an extent not possible previously, and sometimes in ways that are not apparent to consumers. Concerns about privacy are heightened with frequent breaches, cyberattacks, and unauthorized online sharing of personal information. Regulation is needed to provide consumers with some control over their personal information. This measure therefore establishes a framework regulating controllers and processors with access to personal consumer data.

Your Committee acknowledges the concerns of multiple testifiers who note the substantial administrative burdens the measure places on certain businesses with regard to the storage and deletion of a consumer's personal data and the requirement to provide consumers with copies of their personal data. Your Committee also notes the testimony of the Department of the Attorney General, which proposed certain housekeeping amendments.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the calendar year timespan for determining whether a business is subject to the regulation imposed by this measure applies to both thresholds for applicability;
- (2) Deleting language that would have granted the Department of the Attorney General investigatory powers to prosecute violations of the regulations established by this measure and replacing it with a reference to investigatory powers already granted to the Department of the Attorney General under existing law;
- (3) Deleting language that would have required a controller to comply with a consumer's request to delete personal data that the controller did not obtain directly from the consumer;
- (4) Deleting language that would have required a controller to comply with a consumer's request to obtain a copy of the consumer's personal data processed by the controller and replacing it with language that requires a controller to comply with a consumer's request to obtain a copy of the consumer's personal data that the consumer previously provided to the controller;
- (5) Inserting a provision allowing companies that collect consumer data from third parties to either retain a limited amount of data to ensure ongoing deletion of a consumer's data or treat deletion requests as if they were opt-out requests;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 974, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 617 (Majority) Commerce and Consumer Protection on S.B. No. 1027**

The purpose and intent of this measure is to:

- (1) Establish the Combat Sports Commission of Hawaii;
- (2) Provide for the regulation of combat sports;
- (3) Prohibit no rules combat or similar contests; and
- (4) Appropriate funds for an unspecified number of full-time equivalent positions within the Department of Commerce and Consumer Affairs for the Combat Sports Commission of Hawaii.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that that Hawaii has embraced full-contact combat sports that allow the use of striking and grappling techniques; involve both standing and on-the-ground techniques; and blend boxing, wrestling, Brazilian jiu-jitsu, Muay Thai, kickboxing, karate, judo, and other styles. Combat sports events have drawn capacity crowds to the Blaisdell Center Arena. Hawaii

has produced multiple mixed martial arts world title fighters, both male and female, across the major certified promoting and sanctioning bodies. Some of the most accomplished and well-known fighters from Hawaii include B.J. Penn, Max Holloway, Ray Cooper III, Travis Browne, Ilima-Lei Macfarlane, Angela Lee, and others. Despite the success of Hawaii mixed martial artists, the prestigious Ultimate Fighting Championship organization has never staged a show in Hawaii. To continue growing the combat sports industry in the State and to attract events staged by the Ultimate Fighting Championship, and other prestigious organizations, a combat sports commission should be established.

Accordingly, this measure establishes the Combat Sports Commission of Hawaii.

Your Committee notes the concerns of the Department of Commerce and Consumer Affairs, which testified that if this measure were to be enacted into law, the Department would need at least two years to establish, recruit, and hire employees necessary to facilitate the Combat Sports Commission of Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that the members of the Combat Sports Commission of Hawaii shall have staggered terms;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 618 Commerce and Consumer Protection on S.B. No. 1130**

The purpose and intent of this measure is to:

- (1) Make a principal of an activity desk liable for any financial deficiency when the activity desk's client trust account is insufficient to pay consumers or activity providers; and
- (2) Clarify that an activity desk, along with its principal and all persons with an ownership interest in the activity desk, shall be held liable for statutory violations and subsequent damages.

Your Committee received testimony in support of this measure from Activities & Attractions Association of Hawaii, Inc.; Hawai'i Lodging & Tourism Association; Maui Hotel & Lodging Association; Maui Chamber of Commerce; Quicksilver Charters, LLC; Captain Steve's Rafting Adventures; Haleakala Bike Company, Inc.; Lahaina Cruise Company, Inc.; Ocean Tourism Coalition; Extended Horizons, Inc.; and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that an activity desk is a person or organization that, in part, helps customers book activities such as specialized air, land, or sea tour excursions with tour operators. As part of their service, the activity desk receives money from the customer and holds the funds in a trust account on behalf of the tour operator before paying the tour operator for providing the excursion. However, in the past few years, there have been numerous incidences where an activity desk has stolen funds from a client trust account. Recouping these losses through the court system is difficult and costly for activity providers. This measure will help ensure that activity desks operate in a responsible and transparent manner, with clear lines of accountability and protection for consumers and activity providers.

Your Committee has amended this measure by:

- (1) Inserting a definition of the term "ownership interest";
- (2) Clarifying that both a principal and all persons with an ownership interest in the activity desk shall be liable for any financial deficiency when the activity desk's client trust account is insufficient to pay consumers or activity partners;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1130, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 619 Commerce and Consumer Protection on S.B. No. 1379**

The purpose and intent of this measure is to clarify the penalty to be assessed on any person who intentionally operates a care facility without a certificate or license by repealing section 321-486.3, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health and one individual.

Your Committee finds that operating a care home without a certificate or license constitutes a violation of chapter 321, Hawaii Revised Statutes. Section 321-20, Hawaii Revised Statutes, authorizes the assessment of an administrative penalty of up to \$1,000 per day against any person in violation of any provision in chapter 321, Hawaii Revised Statutes. However, section 321-486.3, Hawaii

Revised Statutes, authorizes the assessment of an administrative penalty against any person operating a care facility without a certificate or license, in the amount of \$100 for each day of uncertified or unlicensed operation for the first violation, \$500 for each day for the second violation, and \$1,000 for each day for the third violation. Your Committee finds this dual penalty system unnecessary and confusing. Accordingly, this measure repeals section 321-486.3, Hawaii Revised Statutes, which penalizes any person operating a care facility without a certificate or license to eliminate confusion that the penalty provisions of section 321-20, Hawaii Revised Statutes, shall apply to these violations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1379, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1379, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 620 (Joint/Majority) Health and Human Services and Judiciary on S.B. No. 1492**

The purpose and intent of this measure is to:

- (1) Require the Department of Health to respond to reports about persons having severe mental illness and in need of assistance and to assess whether those persons may fulfill the criteria for assisted community treatment;
- (2) Require the Department of Health to track and publicly report certain data relating to crisis reports, emergency mental health transports, and court-ordered treatments;
- (3) Require the court, when dismissing an involuntary hospitalization petition for a person, to assess whether the person meets the criteria for assisted community treatment and authorizing the court to order the person to obtain assisted community treatment, which may include medication;
- (4) Require the Department of the Attorney General to assist in the preparation and filing of certain assisted community treatment petitions and related court proceedings; and
- (5) Appropriate moneys to the Department of Health for software and data collection and publication.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Health, Hawaii Substance Abuse Coalition, and five individuals. Your Committees received testimony in opposition to this measure from the Judiciary. Your Committees received comments on this measure from the Department of the Attorney General and Hawaii Disability Rights Center.

Your Committees find that the State has several key tools and programs to assist individuals with untreated severe mental illness. These include court-ordered plans of treatment, known in Hawaii as “assisted community treatment” or “ACT” orders, involuntary commitments to the state hospital or similar facility, court-ordered medication, and Department of Health crises programs, among others. This measure will complement programs already in place by granting providers and the judicial system more tools to ensure that individuals struggling with mental health issues receive appropriate treatment. Your Committees note the concerns raised in testimony that section 3 of this measure violates the due process clause and that courts are not independently capable of conducting clinical assessments. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the court to assess whether the person meets the criteria for assisted community treatment and authorized the court to order the person to obtain assisted community treatment, including medication before dismissing an involuntary hospitalization petition for a person;
- (2) Inserting language to establish that a court’s denial of a petition for involuntary commitment shall serve as notification to the Department of Health that the person should be evaluated for assisted community treatment;
- (3) Incorporating changes proposed by the Department of the Attorney General to clarify the Department shall assist with the preparation and filing of certain petitions after July 1, 2023;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1492, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1492, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.  
Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 621 (Majority) Health and Human Services on S.B. No. 1418**

The purpose and intent of this measure is to:

- (1) Beginning July 1, 2025, prohibit with certain exceptions, the emission of excessive amplified noise during certain hours on public sidewalks near certain locations in areas zoned as mixed-use or residential without obtaining prior written approval from the Director of Health;
- (2) Establish penalties for violations;
- (3) Establish a two-year Waikiki Excessive Amplified Noise Control Pilot Program that requires the Department of Health to implement the excessive amplified noise control regulation in the Waikiki Special District and submit reports to the Legislature;
- (4) Require the Department of Health to adopt rules; and
- (5) Appropriate an unspecified amount of funds to establish, implement, and enforce the Waikiki Excessive Amplified Noise Control Pilot Program.

Your Committee received testimony in support of this measure from the Citizens Against Noise and six individuals. Your Committee received testimony in opposition to this measure from Unite Here Local 5. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that all citizens have a right to a healthful and peaceful environment. Your Committee further finds that quiet is an increasingly rare commodity and is constantly under siege from a wide range of sources. This measure would promote the health and well-being of members of the public by regulating excessive noise in areas zoned as mixed-use or residential.

Your Committee acknowledges testimony by the Department of Health recommending that treating excessive noise as an offense of disorderly conduct would better achieve the purposes of this measure. Accordingly, amendments to the measure are necessary to address this recommendation.

Your Committee notes that although this measure contains an appropriation for an unspecified amount, should your Committees on Judiciary and Ways and Means choose to deliberate on this measure, your Committee respectfully requests they consider appropriating \$40,000 for the purchase of decibel meters.

Accordingly, your Committee has amended this measure by:

- (1) Deleting parts I and II of the measure which would have established provisions and penalties related to excessive amplified noise and the two-year Waikiki Excessive Amplified Noise Control Pilot Program;
- (2) Inserting language establishing that a person's conduct that produces, or causes to be produced, noise exceeding eighty dBA as measured with a calibrated sound level meter by a certified individual, at thirty feet from the source of the offending sound during the hours between 7:00p.m. and 7:00a.m. in any area zoned as residential or mixed-use residential, as unreasonable noise that constitutes the offense of disorderly conduct;
- (3) Inserting a blank appropriation amount for the Department of Health to enforce this measure, including funding for:
  - (A) The establishment of one full-time equivalent (1.0 FTE) position within the Department of Health to provide training in the proper use of decibel meters to law enforcement officers in all counties upon request; and
  - (B) The purchase of decibel meters to be supplied to the counties to assist in their enforcement of the decibel limits;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1418, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1418, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 622 Health and Human Services on S.B. No. 1615**

The purpose and intent of this measure is to require the Developmental Disabilities Division of the Department of Health to amend its eligibility criteria for the Medicaid Intellectual and Developmental Disabilities Home and Community-Based Services Waiver (HCBS I/DD waiver) to include individuals having an intellectual or a developmental disability and a comorbid mental illness.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Keiki Education Living Independent Institute dba K.E.L.I.I. Foundation, Hawaii Disability Rights Center, and five individuals. Your Committee received comments on this measure from the Department of Health and Department of Human Services.

Your Committee finds that existing eligibility criteria for the HCBS I/DD waiver unfairly excludes a number of individuals who would otherwise be eligible for services based on their developmental disabilities. This measure will allow individuals who have an intellectual or a developmental disability and a comorbid mental illness to be eligible for the HCBS I/DD waiver.

Your Committee acknowledges testimony that administration of the State's health care services made available to individuals in need, including Medicaid, is fragmented between two separate agencies simultaneously providing services for the same or similar types of individuals. This causes extreme difficulty for people trying to navigate the systems, even more so by individuals with multiple complex needs. Therefore, your Committee strongly urges the Department of Human Services and the Department of Health to work in collaboration to establish a system that would enable the public, especially individuals with a disability, to better navigate through the various services that are available to them.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount for the Department of Health to carry out this measure, including funding for establishing an unspecified number of full-time equivalent positions; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1615, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 623      Judiciary on S.B. No. 669**

The purpose and intent of this measure is to:

- (1) Establish regulations for the cultivation, sale, and personal use of small amounts of cannabis;
- (2) Decriminalize and regulate small amounts of cannabis for personal use; and
- (3) Establish taxes for cannabis sales.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Hawaii High Intensity Drug Trafficking Area, Imua Alliance, Big Island Grown Dispensaries, Marijuana Policy Project, Democratic Party of Hawai'i Education Caucus, Noa Botanicals, Green Aloha, Drug Policy Forum of Hawai'i, Hawai'i Cannabis Industry Association, Aloha Green Holdings Inc., eighteen individuals, and an email petition signed by four hundred seventy-four individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Maui Police Department, Cannabis Society of Hawai'i, Malie Cannabis Clinic, Oahu Cannabis Farms Alliance, Hawaii Substance Abuse Coalition, Roman Catholic Church in the State of Hawaii Diocese of Honolulu, Kauai Farm Planning, Coalition for a Drug-Free Hawaii, Hawaii Family Forum, and fifty individuals. Your Committee received comments on this measure from the Department of Transportation, Department of Taxation, Department of Health, Department of Commerce and Consumer Affairs, Last Prisoner Project, Reason Foundation, Maine Craft Cannabis Association, Mothers Against Drunk Driving Hawaii, Tax Foundation of Hawaii, and six individuals.

Your Committee finds that thirty states and the District of Columbia have decriminalized cannabis in small amounts. Your Committee further finds that legalization in these states has avoided the criminalization of thousands of people, reduced opioid overdose deaths and untreated opioid use disorders, and lowered the number of arrests for driving under the influence of alcohol and other drugs. Your Committee additionally finds that recent polling indicates broad public support in Hawaii for the legalization of marijuana. This measure legalizes cannabis for personal and recreational use.

Your Committee has amended this measure by:

- (1) Incorporating the changes proposed by the Department of the Attorney General by:
  - (A) Specifying that the personal use of cannabis by vaping or smoking shall be regulated in accordance with the State's smoking laws under chapter 328J, Hawaii Revised Statutes;
  - (B) Clarifying that during the pilot period, the necessary forms, procedures, and requirements shall be exempt from chapter 91, Hawaii Revised Statutes;
  - (C) Deleting language that would have directed that the rules adopted by the Hawaii Cannabis Regulatory Authority not require a high investment of risk, money, time, or any other resource or asset that the operation of a cannabis establishment is not worthy of being carried out in practice by a reasonably prudent business person;
  - (D) Adding language authorizing the Hawaii Cannabis Regulatory Authority to make specific penalties such as fines or suspension or revocation of a license;
  - (E) Adding language requiring the Hawaii Cannabis Regulatory Authority to track the cultivation, processing, and sale of cannabis and cannabis products;
  - (F) Restoring language in section 329-14, Hawaii Revised Statutes, that designates marijuana as a schedule I drug in the State Controlled Substances Act;
  - (G) Clarifying that with regards to inspections the Hawaii Cannabis Regulatory Authority shall have the authority of a duly accredited tax official of the State pursuant to section 231-18, Hawaii Revised Statutes, to inspect tax returns of any taxpayer; provided that this authority shall not extend to the inspection of any documents not directly related to the cannabis tax law;

- (H) Deleting language that would have allowed returns, return information, or reports to be made known to the Hawaii Cannabis Regulatory Authority by the Department of Taxation, if not in conflict with section 231-18, Hawaii Revised Statutes; and
- (I) Clarifying language to authorize the Director of Taxation, or its representative, to conduct any civil audit or criminal investigation, investigation, or hearing relating to cannabis taxes in the manner provided in section 231-7, Hawaii Revised Statutes;
- (2) Specifying that personal use of cannabis shall also be prohibited on any location where smoking is prohibited;
- (3) Adding language that allows condominiums to restrict or prohibit the smoking of cannabis in the same manner they may restrict or prohibit the smoking of tobacco on the property;
- (4) Adding language allowing expungement of records for marijuana offenders;
- (5) Specifying that the rate for permit and renewal fees are \$25.00 each and the rate for duplicate permit fees are \$5.00 each;
- (6) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 669, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 669, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

**SCRep. 624 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 1154**

The purpose and intent of this measure is to authorize government agencies to wheel electricity that is produced by their own facilities from renewable energy sources to another government entity, subject to certain conditions determined by the Public Utilities Commission.

Your Committees received testimony in support of this measure from Ulupono Initiative, Sustainable Energy Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from Hawaiian Electric Company, Inc. and International Brotherhood of Electrical Workers Local Union 1260. Your Committees received comments on this measure from Public Utilities Commission, Department of Commerce and Consumer Affairs, Life of the Land, and Kaua'i Island Utility Cooperative.

Your Committees find that facilities such as the University of Hawaii Maui College and nine other campuses across the State have photovoltaic systems installed on their parking shade structures and rooftops. However, the excess electricity generated at these facilities is wasted because there is no system that allows wheeling of the surplus clean energy to another connected facility. Your Committees believe that the production of clean energy may be encouraged if government agencies, as sellers of clean electricity, are allowed to engage in intragovernmental wheeling, in which electric power is transmitted from one agency's power generation to the facilities of other governmental agencies over the existing transmission lines of a third-party electric public utility. This measure will help the State meet its renewable energy goals by authorizing government agencies to wheel electricity that is produced by their own facilities from renewable energy sources to another government entity, subject to certain conditions determined by the Public Utilities Commission.

Your Committees have amended this measure by:

- (1) Requiring the Public Utilities Commission to implement the provisions of this measure either by order of the commission or by rules pursuant to chapter 91, Hawaii Revised Statutes;
- (2) Inserting language exempting member-owned cooperatives from the authorization of government agencies to wheel electricity that is produced by their own facilities from renewable energy sources; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1154, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1154, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

Government Operations: Ayes, 5. Noes, none. Excused, none.

**SCRep. 625 Government Operations on S.B. No. 1465**

The purpose and intent of this measure is to allow agencies to rank fewer than three persons for professional services when fewer than three qualified persons respond to the solicitation or request to use alternative procurement procedures when no qualified person responds to the solicitation.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Transportation, University of Hawai'i System, and Department of Finance of the County of Kauai. Your Committee received testimony in opposition to this measure from Kauahikaua and Chun Architects. Your Committee received comments on this measure from the State Procurement Office, American Council of Engineering Companies of Hawaii, and one individual.

Your Committee finds that existing law requires a minimum of three bids or proposals from qualified persons to proceed with the procurement of professional services. Your Committee further finds that under certain circumstances, particularly in the procurement of specialized services, this requirement cannot be met. Continually reinitiating the solicitation with the same result increases delays and project costs for procuring agencies. Your Committee finds that this measure will allow agencies to keep design projects on schedule, improve project efficiency, and ensure priorities and needs are addressed timely. As such, this measure will facilitate the procurement of specialized professional services in situations where fewer than three qualified persons submit bids or proposals.

Your Committee has amended this measure by:

- (1) Inserting language to specify the process for the award of a professional services contract when less than three or no qualified persons respond to a notice;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received testimony from various concerned stakeholders that provided amended language in response to these concerns. Your Committee has amended this measure to reflect the initial suggestion provided by the parties. However, your Committee finds that there is a need for uniformity and harmony in the proposed amendments between the State Procurement Office and the additional stakeholders that are also invested in the success of this measure. Should this measure carry over to the House of Representatives, it is your Committees' hope that the parties will continue to facilitate productive dialogue.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1465, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1465, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 626 (Joint) Housing and Water and Land on S.B. No. 139**

The purpose and intent of this measure is to:

- (1) Establish that all state-owned lands located within one mile of any rail mass transit station, excluding lands under the jurisdiction of the Department of Hawaiian Home Lands, shall be designated as important housing lands to promote the development of homes priced below market rates for eligible residents; and
- (2) Require state and county housing policies, tax policies, land use plans, ordinances, and rules to promote the long-term viability of important housing lands consistent with certain policies.

Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and City and County of Honolulu. Your Committees received comments on this measure from the Department of Budget and Finance and Office of Planning and Sustainable Development.

Your Committees find that there is a shortage of housing in the State, especially for low-income households. One solution to provide more affordable housing is by creating vibrant, multi-modal, mixed-use neighborhoods around transit stations. This measure establishes that all state-owned lands located within one mile of any rail mass transit station, excluding lands under the jurisdiction of the Department of Hawaiian Home Lands, shall be designated as important housing lands and requires state and county housing policies, tax policies, land use plans, ordinances, and rules to promote the long-term viability of important housing lands consistent with certain policies.

Your Committees acknowledge the testimony from various stakeholders recognizing that although identifying housing lands that could accommodate affordable housing is an important state goal, this measure would not significantly advance that goal.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and:
  - (A) Inserting language that requires the Hawaii Public Housing Authority to conduct a study recommending certain state-owned lands located within a one-half mile radius of any rail mass transit station, excluding lands under the jurisdiction of the Department of Hawaiian Home Lands, that are most suitable for constructing at least one hundred thousand units of housing; and submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024; and
  - (B) Inserting an appropriation in the amount of \$500,000 for the Hawaii Public Housing Authority to conduct the study, or contract services to conduct the study; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 139, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 139, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by President and the Chair on behalf of the Committees.  
Housing: Ayes, 5. Noes, none. Excused, none.  
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 627      Housing on S.B. No. 551**

The purpose and intent of this measure is to clarify that notwithstanding any other law to the contrary, the Hawaii Housing Finance and Development Corporation may develop certain housing projects that shall be exempt from all statutes, ordinances, charter provisions, and rules relating to planning, zoning, and other certain standards, provided that certain conditions are met.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from the Department of Land and Natural Resources and the Hawai'i Emergency Management Agency.

Your Committee finds that Hawaii is in housing crisis and all efforts must be taken to provide the necessary supply. Exempting certain housing projects from certain regulations can expedite the creation of more housing. Your Committee notes, however, that flood damage is among the most common disaster-related claims in the State. The State and four counties participate in the National Flood Insurance Program (NFIP), which requires compliance with the National Flood Insurance Act of 1968. According to testimony received by your Committee, the Federal Emergency Management Agency could suspend a participating community from the NFIP for failing to adequately administer and enforce floodplain development regulations, leading to the loss of federal flood insurance coverage for tens of thousands of property owners in the State and the State's exclusion from certain forms of federal disaster relief.

Accordingly, your Committee has amended this measure by amending language to clarify that the certain housing development projects are exempt only if they are not located within a Special Flood Hazard Area as identified on the current Federal Emergency Management Agency's Flood Insurance Rate Maps.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 551, S.D. 2, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 628      (Majority) Housing on S.B. No. 1139**

The purpose and intent of this measure is to require rental housing projects to maintain, in perpetuity, fifty percent of the project's units for rental to certain low-income tenants eligible for the Hawaii Housing Finance and Development Corporation's Rental Assistance Program.

Your Committee received testimony in support of this measure from Partners in Care and one individual. Your Committee received testimony in opposition to this measure from NAIOP Commercial Real Estate Development Association. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that many rental housing projects that were built decades ago are being converted into less affordable units today. Your Committee believes that the State has a duty to ensure that affordable rental housing is available within its communities. This measure will help create and maintain an inventory of affordable rental units for low-income individuals who are currently on or are eligible for rental assistance vouchers.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 629      (Joint) Housing and Water and Land on S.B. No. 1352**

The purpose and intent of this measure is to:

- (1) Establish the Rental Deposit Loan Program (Loan Program);
- (2) Create tax incentives for the development of affordable housing;
- (3) Address government processes to lower housing costs; and
- (4) Appropriate funds for the establishment of the Loan Program.

Your Committees received testimony in support of this measure from the Chief Housing Officer; Hawaii Housing Finance and Development Corporation; two members of the Kaua'i County Council; NAIOP Commercial Real Estate Development Association, Hawaii Chapter; Hawai'i Association of REALTORS; and Pacific Resource Partnership. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that this administration measure is meant to secure housing for workforce renters and provide incentives for the development of affordable housing through temporary expedited processes, including third-party review, and general excise tax exemptions. Your Committees note the concerns expressed that there is no requirement for the savings from the general excise tax exemption in this measure to be passed along to residents.

Your Committees have amended this measure by:

- (1) Clarifying that the Loan Program is meant to assist residents of the State who are renter-occupants and own no other real property;

- (2) Requiring HHFDC to award grants for the administration of the Loan Program pursuant to chapter 103D, rather than 103F, Hawaii Revised Statutes;
- (3) Inserting certain language from Senate Bill 872, Regular Session of 2023, which allows HHFDC to develop certain housing projects that are exempt from laws, rules, and ordinances, including income restrictions, under certain circumstances;
- (4) Adding a tax certification requirement to the general excise tax exemption to help minimize invalid or fraudulent claims;
- (5) Inserting definitions for “qualified person or firm” and “affordable housing units in the State that are part of a government agency’s or approving body’s condition for approval”;
- (6) Clarifying that the Department of Land and Natural Resources may retain a consultant to perform certain reviews, which shall be subject to approval from the appropriate island burial council and aha moku council before retaining the services of a third-party consultant;
- (7) Authorizing the counties to promote certain labor standards through zoning ordinances;
- (8) Clarifying that every laborer and mechanic employed for the construction of any public work project, including off-site construction where a portion of the building or work is manufactured or constructed for the performance of the contract, shall be paid no less than the prevailing wages, under certain conditions;
- (9) Deleting language that restricts a qualified person or firm of a project from receiving any other direct or indirect financing from any other governmental contracting agency;
- (10) Requiring all orders from the Governor to set aside public lands for the development of affordable housing to contain a provision that the construction of the development shall be subject to Hawaii’s law on the wages and hours of employees on public works;
- (11) Repealing the \$30,000,000 cap and contracting restriction on the general excise tax exemption for all projects approved and certified by HHFDC;
- (12) Deleting language that would have streamlined the county approval process as it would have limited the county’s ability to work with its constituents and stakeholders, thus leading to increased disapprovals of housing projects;
- (13) Adding the establishment of one full-time equivalent (1.0 FTE) staff position in HHFDC to administer the Loan Program;
- (14) Amending section 1 to reflect its amended purpose;
- (15) Inserting an effective date of January 1, 2024; and
- (16) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1352, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1352, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Housing: Ayes, 5. Noes, none. Excused, none.  
 Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 630 (Joint) Higher Education and Health and Human Services on S.B. No. 500**

The purpose and intent of this measure is to appropriate funds for the establishment of three additional permanent full-time equivalent (3.0 FTE) Mental Health Practitioner positions within the University of Hawaii’s Counseling and Student Development Center.

Your Committees received testimony in support of this measure from the University of Hawai’i System, Associated Students of the University of Hawai’i, and seven individuals.

Your Committees find that college students are facing greater and more complex challenges in their personal and academic lives. During the 2020-2021 school year, more than sixty percent of college students nationwide met the criteria for at least one mental health problem. Despite the prevalence of anxiety, stress, and depression amongst University of Hawaii students remaining on par with that of university students nationwide, the number of professionals available to University of Hawaii students falls well below the nationally recommended ratio of one full-time equivalent (1.0 FTE) mental health professional per one thousand five hundred students. The ratio at the University of Hawaii at Manoa is one mental health professional per 3,815 students, more than double the recommended ratio. To increase access to mental health services, this measure appropriates funds to the University of Hawaii at Manoa to establish three additional full-time equivalent (3.0 FTE) Mental Health Practitioner positions.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 500 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).  
 Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 631 (Joint) Higher Education and Health and Human Services on S.B. No. 262**

The purpose and intent of this measure is to appropriate funds to support and expand physician residency training programs in the State’s teaching hospitals, subject to dollar-for-dollar matching funds from private funding sources.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Medical Association, and Hawai'i Primary Care Association. Your Committees received comments on this measure from the University of Hawai'i System.

Your Committees find that there is a growing shortage of qualified physicians in the State. Despite this shortage, many graduates of the University of Hawaii John A. Burns School of Medicine are forced to leave the State due to a lack of residency training programs. Because physicians are more likely than not to remain and practice in their residency locale, expanding medical residency programs in the State is critical to the retention of physicians. Therefore, to address the State's physician shortage, this measure appropriates funds to support and expand physician residency training programs in the State's teaching hospitals.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 262 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).  
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 632 (Joint) Higher Education and Health and Human Services on S.B. No. 62**

The purpose and intent of this measure is to:

- (1) Reestablish the Hawaii Medical Education Special Fund to enable the John A. Burns School of Medicine, in consultation with the Hawaii Medical Education Council, to provide funding for medical education and training in Hawaii; and
- (2) Appropriate moneys to the John A. Burns School of Medicine to:
  - (A) Expand medical residency and training in Hawaii, with an emphasis on supporting residency training on the neighbor islands and in medically underserved populations throughout the State; and
  - (B) Create further medical residency and training opportunities through a partnership between the John A. Burns School of Medicine and the United States Department of Veterans Affairs.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Associated Students of the University of Hawaii, Hawai'i Pacific Health, Hawaii Medical Association, The Queen's Health System, Hawai'i Primary Care Association, and one individual. Your Committees received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committees find that there is a health care provider shortage in the State, particularly on the neighbor islands. Research suggests that physicians who complete medical school and residency training in Hawaii remain in Hawaii to practice, and medical residents who train on the neighbor islands are more likely to practice on the neighbor islands. Because graduate medical costs in the State are largely borne by the University of Hawaii and its affiliated health systems, ongoing medical education funding is critical to the recruitment, training, and retention of physicians in the State. Therefore, to mitigate the State's physician shortage, this measure expands medical and residency training in Hawaii by reestablishing the Hawaii Medical Education Special Fund and appropriating moneys to the University of Hawaii John A. Burns School of Medicine.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 62, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 62, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).  
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 633 (Joint) Higher Education and Labor and Technology on S.B. No. 1249**

The purpose and intent of this measure is to appropriate funds to support cybersecurity and data science programs at the University of Hawaii Maui College.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services, University of Hawai'i System, and six individuals.

Your Committees find that cybersecurity is in high demand across the State. To increase local applicants' ability to compete for high-paying jobs within the industry, a workforce pipeline that couples educational opportunities to earn industry-recognized credentials with hands-on experience is critical. The Center for Cybersecurity Education and Research at the University of Hawaii Maui College is positioned to develop this workforce pipeline through its cybersecurity guidance, training, and workforce development activities. Therefore, to help support workforce development and economic diversification throughout the State, this measure appropriates funds to support cybersecurity and data science programs at the University of Hawaii Maui College, including for laboratories and equipment, laboratory assistants, and lecture support.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1249, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1249, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

**SCRep. 634 Labor and Technology on S.B. No. 1311**

The purpose and intent of this measure is to repeal Act 192, Session Laws of Hawaii 2007, which requires the Employees' Retirement System to divest itself of investments in companies that provide support for genocide in Darfur, Sudan, and to provide annual reports to the Legislature on the status of those divestments.

Your Committee received testimony in support of this measure from the Employees' Retirement System. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 192, Session Laws of Hawaii 2007, was enacted to voice Hawaii's opposition to the humanitarian crisis that was occurring in the Darfur Region of Sudan and place economic pressure on the Sudanese Government by prohibiting the Employees' Retirement System from investing in companies that do business with Sudan. Since then, reports by the United State Department of State concluded that the United States has revoked all sanctions against Sudan and that the President has declared that the government of Sudan has honored its commitments to cease attacks on civilians, demobilize and demilitarize the Janjaweed and associated militias, granted free and unfettered access for deliveries of humanitarian assistance, and allowed for the safe and voluntary return of refugees and internally displaced persons. According to testimony received by your Committee, this measure will also relieve the Employees' Retirement System and its investment manager of a significant monitoring and reporting burden and associated expenses.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1311, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1311, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

**SCRep. 635 Labor and Technology on S.B. No. 460**

The purpose and intent of this measure is to appropriate funds to the Office of Community Services of the Department of Labor and Industrial Relations to fund the purchase, storage, and transportation costs of food for distribution to food banks in the State.

Your Committee received testimony in support of this measure from the Department of Human Services; Office of Community Services; Hawai'i Health & Harm Reduction Center; Hawai'i Primary Care Association; Hawai'i Foodbank, Inc.; Hawai'i Public Health Institute; Hawaii Food Industry Association; 'Elepaio Social Services; Ulupono Initiative LLC, The Food Basket Inc.; Hawai'i Hunger Action Network; Hawai'i Children's Action Network Speaks!; Lanakila Pacific, Hawai'i Farm Bureau; and four individuals.

Your Committee finds that due to the high cost of living and the recent historic inflation and other factors, many people in the State face food insecurity and food banks provide a safety net for local families facing these challenges. According to testimony received by your Committee, not only did the coronavirus disease 2019 (COVID-19) pandemic amplify the need for food and food banks in the State, but inflation, increased food prices, and decreased retail donations have changed the food bank model by increasing the purchases of food that food banks must make. Additional testimony from the Hawai'i Food Bank states that it continues to serve fifty percent more people than it did prior to the COVID-19 pandemic.

Your Committee further finds that many other states support their network of food banks with core funding. According to testimony received during the hearing, your Committee finds that the methodology used by The Emergency Food Assistance Program (TEFAP) of the Food and Nutrition Service of the United States Department of Agriculture to determine the allocation of critical resources for the purchase and distribution of food contains an exemption that will facilitate the allocation of funds to food banks, as defined in title 7 Code of Federal Regulations section 251.3(f), and agencies that function as food banks through title 7 Code of Federal Regulations section 250.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the allocation of funds by the Office of Community Services shall be through TEFAP of the Food and Nutrition Service of the United States Department of Agriculture as provided in title 7 Code of Federal Regulations section 250;
- (2) Clarifying that administering agencies shall use not more than fifteen percent of their allocation for administer the program; and
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 460, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 460, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Lee).

**SCRep. 636 (Majority) Judiciary on S.B. No. 1005**

The purpose and intent of this measure is to establish a date for presidential primaries, as well as signature and fee requirements, for a person to be nominated as a presidential primary candidate.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i, Legislation Committee of the Democratic Party of Hawai'i, and ten individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that state run caucuses reach out and touch a much smaller number of prospective voters, who may or may not reflect the economic, geographical, and social diversity of the State's people, even despite the best efforts of the state parties to be inclusive. The last state-run caucus reached out to approximately eighty thousand prospective voters. This number is much lower than the number of people who vote in primaries for the state governor. Your Committee further finds that the President of the United States of America is arguably the most important leader in the free world. Therefore, it is important to bring the question of who should be President to each and every registered voter in the State. This measure will make it easier for citizens of the State to participate and vote in selecting their national leader.

Your Committee has amended this measure by:

- (1) Incorporating changes proposed by the Office of Elections by:
  - (A) Adding language that specifies that chapter 12, Hawaii Revised Statutes, shall be applicable to the presidential preference primary, but in no way supersede section 11-113, Hawaii Revised Statutes, concerning the names that will appear on the general election ballot;
  - (B) Adding language that specifies that a presidential preference primary election candidate who is not the winner of the presidential preference primary election shall not be precluded from appearing on the general election ballot;
  - (C) Adding language that specifies that nomination papers for a presidential preference primary election shall only be for recognized political parties and shall become available on an unspecified amount of days before the presidential preference primary election to which they correspond;
  - (D) Adding language that specifies that nomination paper requirements shall apply to candidates seeking to appear on the presidential preference primary ballot for a political party recognized under section 11-61, Hawaii Revised Statutes;
  - (F) Specifying that nomination papers for presidential candidates shall be filed with the chief election officer no later than 4:30 p.m. on the eighty-fifth day prior to the date of the primary election;
  - (G) Specifying that the name of no candidate for any office shall be printed upon any official ballot, in any election, including a presidential preference primary election, unless the candidate shall have taken and subscribed to the written oath or affirmation, and filed the oath with the candidate's nomination papers;
  - (H) Adding language that specifies that objections to the nomination papers of presidential candidates be filed in writing no later than 4:30 p.m. on the seventy-fifth day or the next earliest working day prior to the presidential preference primary election;
  - (I) Adding language that specifies that the complaint shall be filed with the clerk of the circuit court no later than 4:30 p.m. on the seventy-fifth day or the next earliest working day prior to the presidential preference primary election;
  - (J) Adding language that specifies that no nonpartisan candidates shall be permitted in a presidential preference primary election and that specifies that there shall not be any names of nonpartisan candidates on the ballot for a presidential preference primary election;
  - (K) Adding language that specifies that a candidate who receives the most votes in a presidential preference primary election shall not necessarily appear on the general election ballot, because the candidates who appear on the general election ballot shall be determined in a manner consistent with section 11-113, Hawaii Revised Statutes;
  - (L) Adding language that specifies that political parties shall send delegates to their respective national conventions with each delegate pledged to a presidential candidate in proportion to the votes that each candidate received during the presidential preference primary election; and
  - (M) Adding language that specifies that an unopposed candidate in a presidential preference primary election shall not be considered to have won the general election outright;
- (2) Adding language that allows parties to opt out of the presidential preference primary six months before the election date;
- (3) Making an appropriation for an unspecified amount to the Office of Elections for the presidential preference primary to be administered;
- (4) Specifying that the effective date for the implementation of the presidential preference primary is June 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$2,787,705.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1005, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1005, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 637 Water and Land on S.B. No. 1144**

The purpose and intent of this measure is to appropriate funds to establish a homelessness coordinator position for the island of Maui within the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Partners In Care.

Your Committee finds that, according to the 2020 Homeless Point-in-Time Count survey, approximately eight hundred people were designated as homeless in the County of Maui in 2020. Additionally, homeless encampments have increased significantly along the north shore as a result of the County of Maui clearing out one of the island's largest homeless camps. Therefore, your Committee finds that establishing a homeless coordinator position could help to coordinate responses across all divisions of the Department of Land and Natural Resources to assist homeless individuals in accessing services, while ensuring that the land is also cared for. Therefore, this measure appropriates funds to establish a homelessness coordinator position for the island of Maui within the Department of Land and Natural Resources.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1144, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 638 (Joint/Majority) Water and Land and Hawaiian Affairs on S.B. No. 736**

The purpose and intent of this measure is to:

- (1) Allow the Hawaii Community Development Authority to approve the residential development on the nine parcels conveyed to the Office of Hawaiian Affairs pursuant to Act 15, Session Laws of Hawaii 2012;
- (2) Raise the building height limit and increase the maximum floor area ratio for residential development on three of the nine parcels;
- (3) Exempt the residential developments on the nine parcels from the:
  - (A) Requirement to dedicate public facilities of land or facilities, or cash payments in lieu thereof, as a condition of development;
  - (B) Prohibition on sale or assignment of fee simple interest in land in the Kakaako Community Development District; and
  - (C) Prohibition on residential development in the Kakaako Makai area; and
- (4) Appropriate funds for repairs of certain structures located on the nine parcels and for compensation relating to the Office of Hawaiian Affairs' pro rata portion of income and proceeds from the public land trust.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Ko'olau Foundation; Iron Workers Stabilization Fund; Kamehameha Schools; Hawaii Hui; Ko'olauloa Hawaiian Civic Club; Friends of Kahana; Native Hawaiian Protocol and Consultant Services, Inc.; Ali'i Pauahi Hawaiian Civic Club; Ke One o Kākuhihewa; Native Hawaiian Chamber of Commerce; Makaha Hawaiian Civic Club; Association of Hawaiian Civic Clubs; Innovations Development Group; and fifty-seven individuals. Your Committees received testimony in opposition to this measure from Hawaii's Thousand Friends; Coalition to Mitigate the Impacts of Sea Level Rise; The Collection Association of Unit Owners; Free Access Coalition; HULI PAC; Friends of Kewalos; Kaka'ako Makai Community Planning Advisory Council; Malama Moana; Kakaako United; and seventy-eight individuals. Your Committees received comments on this measure from the Department of the Attorney General; Hawai'i Community Development Authority; Environmental Caucus of the Democratic Party of Hawai'i; and five individuals.

Your Committees find that in 2012, the Office of Hawaiian Affairs and the State reached a settlement to resolve all claims for back revenues pertaining to the income and proceeds from the public land trust past-due to the Office of Hawaiian Affairs that accumulated during the period between November 7, 1978, up to and including June 30, 2012. Your Committees further find that the settlement, approved by the Legislature and enacted as Act 15, Session Laws of Hawaii 2012 (Act 15), resolved the back revenue claims by conveying to the Office of Hawaiian Affairs nine parcels of land on the island of Oahu, located in the Kakaako Community Development District makai of Ala Moana Boulevard and between Kewalo Basin and the foreign trade zone, known as the Kakaako Makai area.

Your Committees further find that these nine parcels of land conveyed to the Office of Hawaiian Affairs are restricted from residential development use. Your Committees find that the Office of Hawaiian Affairs intends to develop some or all of the parcels of land conveyed pursuant to Act 15 for residential use as part of a master plan with retail and other commercial uses.

Your Committees have heard the testimony of the Department of the Attorney General, expressing concern that this measure is a special law because it proposes to lift the residential and height restrictions on specifically identified parcels of state land. The

Department of the Attorney General testified that to address this constitutional concern, the name “Kakaako Makai” and the identification of parcels by tax map key should be stricken from this measure.

Your Committees have also heard the testimony of the Hawaii Community Development Authority, requesting that the language establishing a public hearing and community-input process for development plans that would be in addition to the existing requirements of sections 206E-5.5 and 206E-5.6, Hawaii Revised Statutes (HRS), should be deleted for the purposes of clarity.

Therefore, your Committees have amended this measure by:

- (1) Removing the name “Kakaako Makai” and the identification of parcels by tax map key from this measure;
- (2) Deleting language specifying that authorization for residential development shall apply regardless of whether a parcel’s tax map key number is amended;
- (3) Deleting the language establishing a public hearing and community-input process for development plans that would be in addition to the requirements of sections 206E-5.5 and 206E-5.6, HRS, for the purposes of clarity;
- (4) Lowering the proposed increase to the building height limit to three-hundred fifty feet, from four hundred feet;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 736, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 736, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5; Ayes with Reservations (Elefante, McKelvey). Noes, none. Excused, none.

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Ihara). Excused, none.

**SCRep. 639 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 1034**

The purpose and intent of this measure is to require the maintenance of at least three hundred parking stalls at Ala Wai Boat Harbor at no cost for recreational ocean access and for the practice of traditional and customary Native Hawaiian rights.

Your Committees received testimony in support of this measure from Surfrider Foundation, Friends of Kewalos, Free Access Coalition, Sea Together Magazine, The Coral Conservancy, and over two hundred twenty individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Hawaii State Aha Moku, Save our Surf, and fourteen individuals. Your Committees received comments on this measure from two individuals.

Your Committees find that the Ala Wai Boat Harbor serves as a melting pot of culture and activity in the community. Its ocean legacy is an asset to cultural and recreational practices and water sport opportunities, such as surfing, paddling, fishing, and Hawaii’s voyaging traditions. For many keiki, the Ala Wai Boat Harbor is their first introduction to canoe paddling, surfing, sailing, boating, and other water activities.

Your Committees further find that the Division of Boating and Ocean Recreation’s approved plan was revised to require no fewer than three hundred free parking stalls; however, the current request for proposals states that the parking plan is subject to change depending on the type and configuration of the new development project for the Ala Wai Boat Harbor. Your Committees find that the removal of free public parking would adversely restrict access to Hawaii’s natural resources for use by the community, increase the burden of transporting beach equipment from the proposed parking structure, and have potential safety consequences for surfers. Therefore, this measure requires the maintenance of at least three hundred parking stalls at Ala Wai Boat Harbor at no cost for recreational ocean access and for the practice of traditional and customary Native Hawaiian rights.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider further examining the creation of signage indicating that free parking stalls are for recreational use only and to request the Division of Boating and Ocean Recreation to draft administrative rules accordingly.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1034, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1034, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Keohokalole). Noes, none. Excused, none.

**SCRep. 640 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 1040**

The purpose and intent of this measure is to:

- (1) Require the Department of Hawaiian Home Lands to establish the Kupuna Housing Pilot Program on the Leeward Coast of Oahu to provide individual or shared micro housing units and services to homeless Native Hawaiian individuals and families;
- (2) Exempt low-income rentals, tiny home villages, and Kauhale from certain provisions for the duration of their underlying leases consistent with the Governor's 2015 and 2018 Proclamations on Homelessness; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Office of the Governor, Governor's Coordinator on Homelessness, Hawaii Substance Abuse Coalition, Hawai'i Health and Harm Reduction Center, Opportunity Youth Action Hawai'i, Malama Makua, Environmental Caucus of the Democratic Party of Hawai'i, and five individuals. Your Committees received testimony in opposition to this measure from Hui Kako'o 'Āina Ho'opulapula and four individuals. Your Committees received comments on this measure from the Department of Land and Natural Resources, Hawaii Emergency Management Agency, Department of Hawaiian Home Lands, State Procurement Office, and Office of Information Practices.

Your Committees find that homelessness continues to be one of Hawaii's most dire and persistent challenges. Your Committees further find that Native Hawaiians are disproportionately affected by the housing crisis. Although Native Hawaiians represent less than twenty percent of the State's population, according to the 2020 point-in-time count, Native Hawaiians represent over half of all homeless individuals.

Your Committees also find that the Department of Hawaiian Home Lands owns lots that are available for development along the Leeward Coast of Oahu. Your Committees believe that these lands can be used to help reduce homelessness and support the needs of those who are homeless.

Your Committees have amended this measure by:

- (1) Inserting additional legislative findings;
- (2) Changing the pilot program to be the Rent-With-Option-To-Purchase Pilot Program for native Hawaiian beneficiaries who are homeless, or threatened with homelessness, and on the Department of Hawaiian Home Lands waiting list, instead of a rental program for Native Hawaiians who meet the definition of homeless as defined by the United States Department of Housing and Urban Development;
- (3) Replacing certain references to "Kauhale" or the "Kauhale Pilot Program" with "rent-with-option-to-purchase" or "Rent-With-Option-to-Purchase Pilot Program";
- (4) Deleting the proposed construction exemptions pursuant to the Governor's 2015 and 2018 proclamations on homelessness;
- (5) Allowing the Department of Hawaiian Home Lands to purchase lands and retain the authority to determine which lands to use for the pilot program pursuant to chapter 91, Hawaii Revised Statutes;
- (6) Requiring the Department of Hawaiian Home Lands to establish any terms, conditions, and requirements as necessary to facilitate the transfer of ownership in a unit to the lessee upon the expiration of the lease;
- (7) Eliminating the minimum and maximum square foot requirements for the proposed dwelling units;
- (8) Adding definitions for "Rent-With-Option-To-Purchase Pilot Program", "Leeward Coast", and "threatened with homelessness";
- (9) Providing that nothing in this measure shall be inconsistent with, or contrary to, any act of the Hawaiian Homes Commission Act 1920, as amended, or any regulation promulgated or standard established pursuant thereto;
- (10) Specifying that the Rent-With-Option-To-Purchase Pilot Program shall not be implemented with any funds from the \$600,000,000 appropriation made to the Department of Hawaiian Home Lands pursuant to Act 279, Session Laws of Hawaii 2022;
- (11) Amending section 1 to reflect its amended purpose; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting an appropriation amount of \$3,000,000.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1040, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1040, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

**SCRep. 641 (Joint/Majority) Hawaiian Affairs and Water and Land on S.B. No. 1354**

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to assume historic preservation review of any proposed project for lands under its jurisdiction except for projects affecting properties listed or nominated for inclusion in the Hawaii Register of Historic Places or the National Register of Historic Places.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Hawaiian Home Lands, and one individual. Your Committees received testimony in opposition to this measure from the Historic Hawai'i Foundation and two individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that section 6E—8, Hawaii Revised Statutes (HRS), plays an important role in the protection and management of the State's historic properties and burial sites. Section 6E-8(b), HRS, requires the Department of Hawaiian Home Lands, prior to any proposed project relating to lands under its jurisdiction, to consult with the Department of Land and Natural Resources regarding the effect of the project upon historic property or a burial site. However, your Committees find that allowing the Department of Hawaiian Home Lands to assume review for certain projects for lands under its jurisdiction would help expedite the work that the Department of Hawaiian Home Lands does in constructing new housing and development for its beneficiaries on the waiting list. Your Committees find that a balance can be struck between the need to preserve important historical and cultural resources and the need to expedite construction for Department of Hawaiian Home Lands beneficiaries. Therefore, this measure allows the Department of Hawaiian Home Lands to assume historic preservation review of any proposed project for lands under its jurisdiction, except for projects affecting properties listed or nominated for inclusion in the Hawaii Register of Historic Places or the National Register of Historic Places.

Your Committees have heard the testimony of the Department of Land and Natural Resources, expressing concerns that language should be included in this measure that will ensure that all interested parties receive notice and know well in advance when any project under review will transition from the Department of Land and Natural Resources to the Department of Hawaiian Home Lands. The Department of Land and Natural Resources also testified that it would prefer to retain authority over reviews that are located in designated historic districts.

Your Committees have also heard the testimony of the Office of Hawaiian Affairs, requesting that the Department of Hawaiian Home Lands ensure that it has adequate resources to perform a satisfactory review before assuming any project from the Department of Land and Natural Resources. The Office of Hawaiian Affairs further testified as to its desire to be consulted by the Department of Hawaiian Home Lands for projects that could have adverse impacts on historic properties that are important to Native Hawaiians, as the Office has databases with invaluable historic and archaeological information that could be useful for those specific reviews.

Therefore, your Committees have amended this measure by:

- (1) Requiring the Department of Hawaiian Home Lands to provide the Department of Land and Natural Resources with specific written notice;
- (2) Allowing the Department of Land and Natural Resources to retain authority for review over projects located in a designated historic district;
- (3) Requiring the Department of Hawaiian Home Lands to have adequate resources to perform the historic review prior to assuming a review from the Department of Land and Natural Resources; and
- (4) Requiring the Department of Hawaiian Home Lands to consult with the Office of Hawaiian Affairs when reviewing historic properties that are important to Native Hawaiians.

Your Committees also note the testimony of the Historic Hawai'i Foundation, expressing concerns that the Department of Hawaiian Home Lands does not have the qualified staff, subject matter expertise, and appropriate administrative framework or other capacity to conduct these reviews. The Historic Hawai'i Foundation also testified as to their concerns over potential conflicts of interest that may arise due to the Department of Hawaiian Home Land's development aims. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers further examining the Historic Hawai'i Foundation's concerns.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1354, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1354, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4; Ayes with Reservations (Ihara, Richards). Noes, 1 (Fevella). Excused, none.

Water and Land: Ayes, 4; Ayes with Reservations (Elefante, McKelvey). Noes, 1 (Fevella). Excused, none.

**SCRep. 642 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Education on S.B. No. 124**

The purpose and intent of this measure is to:

- (1) Prohibit the possession of firearms on school property, school buses, and at school-sponsored functions; and
- (2) Exempt certain law enforcement officers and instructors and participants of certain educational or training programs.

Your Committees received testimony in support of this measure from the Department of Education; Honolulu Police Department; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Students Demand Action; Americans for Democratic Action Hawai'i; and seven individuals. Your Committees received testimony in opposition to this measure from thirty-one individuals. Your Committees received comments on this measure from the Hawai'i State Public Library System, Hawaii Firearms Coalition, and one individual.

Your Committees find that Hawaii currently has no specific state statute to address firearms on school property. To deter or prosecute a person for carrying a firearm on school property, state officials mainly rely on federal laws, specifically the Gun-Free School Zones Act of 1990. However, the Gun-Free School Zones Act was passed more than two decades ago and does not apply to all persons licensed by a state to possess or conceal-carry a firearm on school property. Your Committees believe that Hawaii's firearm laws should be updated to strengthen the State's ability to prosecute persons who bring a firearm on school property. This measure will protect the safety of Hawaii's school children and staff by prohibiting the possession of firearms on school property, school buses, and at school-sponsored functions while exempting certain law enforcement officers and instructors and participants of certain educational or training programs.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 124 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair and President on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 643 (Joint) Public Safety and Intergovernmental and Military Affairs and Higher Education on S.B. No. 710**

The purpose and intent of this measure is to:

- (1) Appropriate funds to the University of Hawaii Windward Community College for the education and reentry program for incarcerated women developed and administered by Hawaii Friends of Restorative Justice; and
- (2) Authorize the University of Hawaii Windward Community College to award grants to a private entity.

Your Committees received testimony in support of this measure from the Department of Public Safety, University of Hawai'i System, Windward Community College, McKinley Community School for Adults, Hawai'i Friends of Restorative Justice, Women's Prison Project, Community Alliance on Prisons, University of Hawaii Professional Assembly, Adult Friends for Youth, and twenty-one individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that in August 2021, the Hawaii Friends of Restorative Justice was awarded \$250,000 from the Governor's Emergency Education Relief Fund to fund the first year of an education and reentry program for incarcerated women developed and administered by Hawaii Friends of Restorative Justice, in partnership with the Women's Community Correctional Center, Windward Community College, University of Hawaii at Manoa, and McKinley Community School for Adults. Your Committees further find that in 2022, the Legislature attempted to fund the second year of the pilot program by making a \$200,000 appropriation to McKinley Community School for Adults. However, McKinley Community School for Adults did not develop and does not directly administer the program, resulting in the appropriated moneys not being distributed. Hawaii Friends of Restorative Justice has continued to administer the program through a private donation while awaiting access to the appropriated funding. Your Committees believe that the program has been successful at assisting incarcerated women in achieving their educational goals and should continue to be funded. This measure will help incarcerated women obtain general educational development certifications by funding the education and reentry program for incarcerated women developed and administered by the Hawaii Friends of Restorative Justice.

Your Committees have amended this measure by:

- (1) Inserting language requiring the McKinley Community School for Adults to work with Hawaii Friends of Restorative Justice to provide counseling services for incarcerated women participating in the education and reentry program for incarcerated women;
- (2) Deleting language that would have appropriated funds for the education and reentry program for incarcerated women, developed and administered by Hawaii Friends of Restorative Justice for fiscal year 2024-2025;
- (3) Clarifying that the appropriation to the Hawaii Friends of Restorative Justice is a grant pursuant to chapter 42F, Hawaii Revised Statutes;
- (4) Inserting language establishing standards for the administrative grant to the Hawaii Friends of Restorative Justice;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 710, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 710, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 5. Noes, none. Excused, none.

**SCRep. 644 (Joint) Public Safety and Intergovernmental and Military Affairs and Higher Education on S.B. No. 711**

The purpose and intent of this measure is to require the University of Hawaii to conduct a comparative study of all programming offered to persons incarcerated at correctional facilities in the State, for the purpose of identifying gaps in programming offered to female inmates.

Your Committees received testimony in support of this measure from the Department of Public Safety, University of Hawai'i System, Stonewall Caucus of the Democratic Party of Hawai'i, and twelve individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that existing law requires parity in the programming offered to women and men incarcerated in the State's correctional facilities. However, based on the information provided in the Department of Public Safety's December 2021 report to the Legislature on gender responsive community-based programs for women, parity does not appear to exist with respect to the range and quality of programming that is currently available to female and male inmates in the State. Your Committees believe that more research is needed to determine what programs are needed to address any gaps in parity that exist between programs offered to men and women incarcerated in the State. This measure will address any gaps and shortfalls in the range and quality of programming currently offered to incarcerated women by appropriating funds to the Hawaii Friends of Restorative Justice and Women's Prison

Project as a grant to conduct a comparative study of all programming offered to persons incarcerated at correctional facilities in the United States.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the University of Hawaii to conduct a comparative study of all programming offered to persons incarcerated at correctional facilities in the State, for the purpose of identifying gaps in programming offered to female inmates;
- (2) Inserting an appropriation of \$120,000 to the Hawaii Friends of Restorative Justice and Women's Prison Project as a grant pursuant to chapter 42F, Hawaii Revised Statutes, to conduct a study of programming offered to persons incarcerated at correctional facilities and convene a group of incarcerated women for the purpose of identifying gaps in programming offered to female inmates;
- (3) Deleting language that would have appropriated funds to the University of Hawaii to conduct the comparative study;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 711, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 711, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 5. Noes, none. Excused, none.

**SCRep. 645 (Joint) Public Safety and Intergovernmental and Military Affairs and Higher Education on S.B. No. 712**

The purpose and intent of this measure is to appropriate moneys to Windward Community College to support a level I trauma-informed certification program for adult corrections officers.

Your Committees received testimony in support of this measure from the Department of Public Safety; Hawaii Correctional System Oversight Commission; Judiciary; Department of Health; University of Hawai'i System; United Public Workers, AFSCME Local 646, AFL-CIO; Opportunity Youth Action Hawai'i; University of Hawaii Professional Assembly; Hawai'i Friends of Restorative Justice; Women's Prison Project; Adult Friends for Youth; and fourteen individuals.

Your Committees find that a significant proportion of the individuals in the corrections and rehabilitation system have experienced serious trauma during their lifetimes. Your Committees further find that when corrections professionals are trained to properly assess and interact with persons who have experienced trauma, those professionals are better able to engage those individuals, which makes those individuals more likely to connect with vital services and less likely to commit disciplinary infractions or recidivate. Your Committees believe that the establishment of a level I trauma-informed certification program may help to ensure that the State's corrections professionals are properly trained in trauma-informed care. This measure will improve the rehabilitation of individuals in the corrections and rehabilitation system by appropriating moneys to Windward Community College to support a level I trauma-informed certification program for adult corrections officers.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 712, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 712, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 5. Noes, none. Excused, none.

**SCRep. 646 (Joint) Public Safety and Intergovernmental and Military Affairs and Labor and Technology on S.B. No. 1158**

The purpose and intent of this measure is to:

- (1) Provide police officers who become members of the Employees' Retirement System after June 30, 2023, with retirement benefits similar to those provided for members of the Employees' Retirement System who became members before July 1, 2012, including but not limited to calculation of retirement allowance, minimum age or years of credited service requirements, and vesting period; and
- (2) Allow retired police officers hired after June 30, 2001, to be treated as if employment began before July 1, 2001, in order to maintain spousal health benefits.

Your Committees received testimony in support of this measure from the State of Hawaii Organization of Police Officers and two individuals. Your Committees received testimony in opposition to this measure from the Department of Budget and Finance and Employees Retirement System. Your Committees received comments on this measure from the Department of the Attorney General and Grassroot Institute of Hawaii.

Your Committees find that the county police departments are suffering from critical officer shortages and are struggling to fill vacancies. Additionally, all four county police departments are losing experienced officers mid-career, as well as officers leaving the force on the day they become eligible to retire. Insufficient staffing means beats and neighborhoods across the State have inadequate police coverage, resulting in delayed response times to 911 calls and in some instances requiring officers to work twelve-hour shifts, six days a week. Your Committees believe that improving benefits will provide a much-needed incentive to recruit and retain more police officers. This measure will improve efforts to recruit and retain police officers by expanding certain retirement benefits for police officers.

Your Committees acknowledge the testimony of the Department of Budget and Finance and Employees' Retirement System expressing concerns that this measure may significantly increase annual fringe benefits costs for public employers in the future and set a precedent for other employee groups to request the same benefit amendments. Your Committees find that these issues raise concerns that merit further consideration and requests further examination by your Committee on Ways and Means.

Your Committees have amended this measure by:

- (1) Deleting language that would have expanded police officer benefits under the Hawaii Employer-Union Health Benefits Trust Fund as the title of this measure is not broad enough for its inclusion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1158, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1158, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

**SCRep. 647 Energy, Economic Development, and Tourism on S.B. No. 1522**

The purpose and intent of this measure is to:

- (1) Establish an Office of Tourism and Destination Management within the Department of Business, Economic Development, and Tourism that encompasses regenerative tourism and best practice destination management;
- (2) Transfer the functions, duties, appropriations, and positions of the Hawaii Tourism Authority to the Office of Tourism and Destination Management;
- (3) Require the Office of Tourism and Destination Management to implement certain county destination management action plans;
- (4) Dissolve the Hawaii Tourism Authority; and
- (5) Appropriate funds.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from Pacific Rim Concepts, LLC and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawai'i Tourism Authority; Department of Taxation; Office of Information Practices; Council for Native Hawaiian Advancement; Maui Hotel and Lodging Association; Kohala Coast Resort Association; Hawaii Lodging and Tourism Association; and two individuals.

Your Committee finds that due to mismanagement by the Hawaii Tourism Authority, the award of a \$34,000,000 contract for the marketing of Hawaii as a tourism destination to the United States major market area has been in limbo since 2021. This situation has been widely publicized and has demonstrated the Hawaii Tourism Authority's noncompliance with the State Procurement Code. Your Committee further finds that, prior to the establishment of the Hawaii Tourism Authority, the Department of Business, Economic Development, and Tourism managed the tourism marketing contracts for the State. This measure will re-establish public confidence in the State procurement process by dissolving the Hawaii Tourism Authority and transferring its duties and functions to the Department of Business, Economic Development, and Tourism.

Your Committee acknowledges certain concerns raised in testimony suggesting definitions for new terms including "regenerative Hawaiian cultural heritage business model", "destination management service", and "integrated marketing". Your Committee finds that these suggestions merit further consideration and requests further examination by your Committee on Ways and Means.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 6, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1522, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1522, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

**SCRep. 648 (Joint) Health and Human Services and Higher Education on S.B. No. 436**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to support and expand the Mental Health Technician Certificate of Competence Program.

Your Committees received testimony in support of this measure from the Judiciary, Department of Health, University of Hawai'i System, University of Hawaii Professional Assembly, and four individuals.

Your Committees find that there is a severe shortage of mental health providers in the State. The University of Hawaii Windward Community College's Mental Health Technician Certificate of Competence Program helps mitigate this shortage by providing introductory training to prepare individuals to enter the mental health workforce. While the online format of the program allows for participation across the State, the program lacks the personnel and funds to render it fully accessible to all interested participants. To increase accessibility to the program, this measure appropriates funds to support and expand Windward Community College's Mental Health Technician Certificate of Competence Program, including for one full-time equivalent (1.0 FTE) Mental Health Technician Certificate of Competence Program Coordinator, a scholarship program, and the defrayal of administrative costs.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting an appropriation amount of \$137,250, to be expended as follows:

- (1) \$75,000 to establish a Mental Health Technician Certificate of Competence Program Coordinator position;
- (2) \$50,000 to establish a scholarship program; and
- (3) \$12,250 for other necessary administrative costs.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 436, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 436, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 649 (Joint) Higher Education and Health and Human Services on S.B. No. 1015**

The purpose and intent of this measure is to appropriate funds for the expansion of the University of Hawaii Maui College's Certified Nurse Aide to Practical Nurse Bridge Program.

Your Committees received testimony in support of this measure from the University of Hawai'i System, University of Hawaii Professional Assembly, The Queen's Health System, Healthcare Association of Hawaii, and Hawai'i – American Nurses Association. Your Committees received comments on this measure from the Hawai'i State Center for Nursing.

Your Committees find that there is a critical shortage of licensed practical nurses statewide. The University of Hawaii Maui College's Certified Nurse Aide to Practical Nurse Bridge Program allows eligible Maui and Oahu certified nurse aides and other health care professionals to continue working while pursuing a licensed practical nurse certification. In response to a great demand for participation in the program, Maui College's goal is to expand the program statewide. To help increase access to the program and mitigate the State's licensed practical nurse shortage, this measure appropriates funds to the University of Hawaii for the expansion of the Certified Nurse Aide to Practical Nurse Bridge Program, including for instructional costs and student aid.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1015 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 650 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on S.B. No. 375**

The purpose and intent of this measure is to:

- (1) Legalize, regulate, and tax cannabis and manufactured cannabis products for responsible, adult use;
- (2) Exempt sales of cannabis and manufactured cannabis products for medical use from the general excise tax;
- (3) Clarify that qualifying out-of-state patients have the same rights and privileges under the medical cannabis law; and
- (4) Allow qualifying out-of-state patients to cultivate medical cannabis.

Your Committees received testimony in support of this measure from the Office of the Public Defender; Drug Policy Forum of Hawai'i; Marijuana Policy Project; Aloha Green Holdings Inc.; Hawai'i Cannabis Industry Association; Noa Botanicals; Green Aloha, Ltd.; Doctors for Cannabis Regulation; Kauakini Hawaiian Civic Club of Kona; Habilitat, Inc.; National Organization for the Reform of Marijuana Laws; Associated Students of the University of Hawai'i; Imua Alliance; Education Caucus of the Democratic Party of

Hawai'i; and eighteen individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, State Procurement Office, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, American Cancer Society Cancer Action Network, Maine Craft Cannabis Association, Cannabis Society of Hawai'i, Hawaii Catholic Conference, Coalition for a Drug-Free Hawaii, Hawaii Family Forum, Kauai Farm Planning, Hawaii Substance Abuse Coalition, and thirty-four individuals. Your Committees received comments on this measure from the Department of Health; Department of Taxation; Department of Commerce and Consumer Affairs; Department of Transportation; Department of Budget and Finance; Lau Ola LLC dba Big Island Dispensaries; Last Prisoner Project; Tax Foundation of Hawaii; Reason Foundation; and two individuals.

Your Committees find that several states, including Hawaii, have enacted medical cannabis laws. Part IX of chapter 329, Hawaii Revised Statutes, was enacted to create a medical use of cannabis exemption from criminal sanctions. Additionally, chapter 329D, Hawaii Revised Statutes, was enacted to establish and regulate medical cannabis dispensaries, which allow cannabis to be cultivated, manufactured, and sold for medical use. Moreover, many states have decriminalized cannabis. The legalization of cannabis for personal or recreational use is a natural, logical, and reasonable outgrowth of the current science of cannabis and attitude toward cannabis. This measure provides for the legalization, regulation, and taxation of responsible, adult-use cannabis; exempts sales of cannabis and manufactured cannabis products for medical use from the general excise tax; provides that qualifying out-of-state patients have the same rights and privileges as qualifying patients with respect to medical cannabis; and allows qualifying out-of-state patients to cultivate medical cannabis.

Your Committees acknowledge the numerous concerns raised by multiple testifiers pertaining to various aspects of this measure. Therefore, your Committees finds it to be in the best interest of the people of the State for the Hawaii Cannabis Authority, established pursuant to this measure, to adopt rules in accordance with chapter 91, Hawaii Revised Statutes, to carry out the purposes of this measure, including rules concerning licensing, fees, operations, and testing, and all issues concerning the dispensing, sale, and taxation of adult-use cannabis. In doing so, your Committees strongly urge the Hawaii Cannabis Authority to work in collaboration with the Dual Use Cannabis Taskforce and other stakeholders, and consider the contents of this measure, public testimony submitted for this measure, and reports submitted by the Dual Use Cannabis Taskforce in its drafting of the rules required by this measure. Amendments to this measure are therefore necessary to reflect this finding.

Accordingly, your Committees have amended this measure by:

- (1) Deleting from section 3 of this measure, language that would have established provisions relating to the issuance of licenses, licensee operations and testing, licensing sanctions, lawful and prohibited acts, and miscellaneous provisions of the Hawaii Responsible, Adult-Use Cannabis Law;
- (2) Inserting language requiring the Hawaii Cannabis Authority to, no later than December 1, 2024, adopt rules pursuant to chapter 91 to effectuate the Hawaii Responsible, Adult-Use Cannabis Law and to carry out its purpose of protecting the health, safety, and welfare of consumers, including rules concerning licensing, fees, operations, and testing, and all issues concerning the dispensing, sale, and taxation of adult-use cannabis;
- (3) Inserting language that requires the filing of license applications pursuant rules adopted by the Hawaii Cannabis Authority to begin no later than January 31, 2025; and the issuance of licenses thereunder to begin no later than March 30, 2025;
- (4) Inserting language legalizing the possession of cannabis by an adult aged twenty-one and over in the amount of not more than four ounces;
- (5) Deleting section 4 of this measure, which would have prohibited counties from restricting use of land for medical cannabis production centers, responsible, adult-use cannabis cultivators; responsible, adult-use cannabis distributors; responsible, adult-use cannabis manufacturers; or responsible, adult-use cannabis retailers pursuant to the Hawaii Responsible, Adult-Use Cannabis Law;
- (6) Deleting sections 5 of this measure, which would have allowed existing medical cannabis dispensaries licensed under chapter 329D, Hawaii Revised Statutes, to apply for licenses pursuant to the Hawaii Responsible, Adult-Use Cannabis Law;
- (7) Deleting section 6 of this measure, which would have allowed the Department of Health to adopt interim rules to carry out the purposes of this the Hawaii Responsible, Adult-Use Cannabis Law;
- (8) Deleting sections 7 and 8 of this measure, which would have appropriated funds for the Hawaii Responsible, Adult-Use Cannabis Law;
- (9) Deleting sections 9 through 27 of this measure, which would have clarified the legality of cannabis and manufactured cannabis products for responsible, adult use with respect to the Uniform Controlled Substances Act and the Hawaii Penal Code;
- (10) Deleting sections 28 through 31 of this measure, which would have imposed an additional tax on the sale of cannabis and manufactured cannabis products for responsible, adult-use and exempted sales for cannabis and manufactured cannabis products from the general excise tax;
- (11) Deleting sections 32 through 34 of this measure, which would have amended the Uniform Controlled Substances Act and law governing medical cannabis dispensary system in the State to provide qualifying out-of-state patients the same rights and privileges as qualifying patients under certain provisions;
- (12) Inserting language that transfers all rights, powers, and responsibilities of the Department of Health pursuant to chapter 329D, Hawaii Revised Statutes, to the Hawaii Cannabis Authority;
- (13) Inserting language requiring the expungement of records relating to the arrest, criminal charge, or conviction of a person for an offense of possessing cannabis in the amount of no more than four ounces;
- (14) Inserting language permitting a person convicted of certain crimes to petition the court for an adjustment of sentence;

- (15) Inserting a blank appropriation amount to be expended by the Department of Health to implement this measure;
- (16) Amending section 1 to reflect its amended purpose; and
- (17) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 375, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 375, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 2; Ayes with Reservations (Aquino). Noes, 1 (Awa). Excused, 2 (Moriwaki, Shimabukuro).

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Richards). Excused, 1 (McKelvey).

**SCRep. 651 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on S.B. No. 1**

The purpose and intent of this measure is to amend state law governing the intentional termination of pregnancy by:

- (1) Authorizing licensed physician assistants to perform certain abortions;
- (2) Repealing the requirement that abortions be performed in a hospital licensed by the Department of Health or operated by the federal government or an agency thereof, a clinic, or an office of a physician or osteopathic physician;
- (3) Declaring that a law of another state that authorizes a person to bring a civil action against a person who terminates or seeks to terminate a pregnancy; performs or induces the termination of a pregnancy; knowingly engages in conduct that aids or abets the performance or inducement of the termination of a pregnancy; or attempts or intends to engage in these acts, is contrary to the public policy of the State and shall not be enforceable in, or afford any basis for the granting of legal or equitable relief by, any court of the State; and
- (4) Prohibiting the State from taking certain actions with regard to civil and criminal actions from another state, including issuance of and enforcement of summons, subpoenas, and investigations related to reproductive health care.

Your Committees received testimony in support of this measure from the Department of Human Services; Department of Health; Hawai'i Civil Rights Commission; Hawai'i State Commission on the Status of Women; two members of the Kaua'i County Council; Hawaii Medical Service Association; Healthcare Association of Hawaii; Hawai'i Friends of Civil Rights; Stonewall Caucus of the Democratic Party of Hawai'i; Planned Parenthood Alliance Advocates – Hawai'i; Save Medicaid Hawaii; Rainbow Family 808.com Inc.; Hawai'i Academy of Physician Assistants; American Association of University Women (AAUW) of Hawaii; Pride at Work Hawai'i; Democratic Party of Hawai'i Women's Caucus; Hawai'i Association of Professional Nurses; Americans for Democratic Action Hawai'i; Hawai'i Section of the American College of Obstetricians and Gynecologists; Hawaii Association of Health Plans; Hawaii State Coalition Against Domestic Violence; and sixty-nine individuals. Your Committees received testimony in opposition to this measure from the Hawaii Family Forum; Ka'u Wellness LLC; and sixty-one individuals. Your Committees received comments on this measure from the Department of the Attorney General, Hawaii Medical Board, Hawai'i Women Lawyers and one individual.

Your Committees find that Hawaii has been and remains at the forefront of efforts to protect the right to privacy and personal autonomy independently of, and more broadly than, the United States Constitution. This is evidenced by the State being the first in the nation to decriminalize abortion through its enactment of Act 1, Session Laws of Hawaii 1970, codified at section 453-16, Hawaii Revised Statutes. Your Committees further find that the Hawaii State Constitution was amended in 1978 to include a separate and distinct section that recognizes the people's right to privacy and requires the Legislature to take affirmative steps to implement this right. In recognition of this fundamental right, existing state law prohibits the State from denying or interfering with a female's right to choose or obtain an abortion of a nonviable fetus or an abortion that is necessary to protect the life or health of the female.

Additionally, your Committees find that while Hawaii has been a long-time leader in protecting reproductive health care rights, your Committees find that the landscape in the remainder of the country is rapidly changing. In *Dobbs v. Jackson Women's Health Org.*, 142 S.Ct. 2228 (2022), the Supreme Court of the United States overruled nearly fifty years of precedent regarding reproductive rights and bodily autonomy, including *Roe v. Wade*, 410 U.S. 113 (1973) and *Planned Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833 (1992), by holding that the United States Constitution does not provide a right to abortion and that the authority to regulate abortion must be returned to the people and their elected representatives. In response to *Dobbs*, an increasing number of states have enacted laws that ban abortion or severely restrict access thereto, including laws allowing enforcement through private, civil lawsuits. In addition, lawmakers in conservative states have threatened to pass laws that would reach across state lines and seek to penalize health care providers in other states who provided abortion-related care to their residents. These laws aim to restrict the residents of those states from not only accessing basic health care in their own state, but also from traveling to any other state to obtain abortion care. This measure declares that such laws and policies are contrary to the public policy of this State and are not enforceable in this State.

In recognition of these important issues, your Committees held a public hearing on this measure on February 1, 2023, and announced various amendments to this measure. However, in further consideration of the testimony provided by the people of the State, your Committees subsequently conferred to reconsider their previous decision and decided to make additional amendments to this measure. Due to the substantive nature of the additional amendments, your Committees held a public hearing on this measure on February 14, 2023, to announce the additional amendments to ensure compliance with the Hawaii State Constitution requirement that a bill pass three readings in each chamber of the Legislature before becoming law.

Additionally, your Committees find that S.B. No. 896, as amended by your Committees on February 1, 2023 (S.B. No. 896, S.D. 1), clearly articulates the State's well-established history of supporting the right to abortion in the preamble of that measure, in addition to providing more detailed, comprehensive protections against any civil and criminal anti-abortion laws of other states compared to this

measure, as currently written. Therefore, in addition to the amendments announced at your Committees' hearing on February 1, 2023, additional amendments to this measure are necessary to address these concerns and incorporate the contents of S.B. No. 896, S.D.1, to further strengthen this measure.

Accordingly, it is the intent of your Committees that this measure, as amended, will reverse and prevent the potential impacts that the *Dobbs* decision may have on the State and return Hawaii to the state of affairs prior to the overruling of *Roe* by the Supreme Court of the United States. Additionally, your Committees note the importance of maintaining a clean effective date to ensure the protections of this measure may apply immediately upon its approval.

Your Committees also acknowledge the concerns raised in testimony on February 1, 2023, pertaining to the rights of minors to consent to the provision of surgery or any treatment to induce abortion and your Committees find that there is a need to further amend this measure to reflect these additional findings. Moreover, to provide additional protections for advanced practice registered nurses, as was intended, your Committees find that certain portions of S.B. No. 890, Regular Session of 2023, should also be incorporated into this measure.

Finally, your Committees acknowledge testimony from the Hawaii Medical Board requesting that your Committees consider ensuring that physician assistants who perform abortions are authorized agents of their supervising physicians or physician group who have been authorized or delegated by the supervising physicians or physician group to perform the abortions. Your Committees note testimony stating that physician assistants are, by their scope of practice, already required to be under the supervision of physicians, and therefore, the Hawaii Medical Board's concern is already taken into account by statute.

Accordingly, pursuant to the amendments announced at the hearing conducted on February 1, 2023, as further amended at the hearing on February 14, 2023, your Committees have collectively amended this measure by:

- (1) Inserting the contents of section 1 of S.B. No. 896, S.D. 1, as section 1 of this measure, and amending it further to reflect this measure's amended purposes;
- (2) Clarifying that a patient has the right to choose to obtain an abortion, or to terminate a pregnancy if the termination is necessary to protect the life or health of the patient, and the State shall not deny or interfere with these rights;
- (3) Deleting language that would have provided protection to people who receive or perform abortions in the State against legal actions imposed by other states with restrictive abortion laws;
- (4) Deleting language that would have prohibited the State from engaging in certain actions with regard to civil and criminal actions from another state, including issuance of and enforcement of summons, subpoenas, and investigations related to reproductive health care;
- (5) Defining "nonviable fetus" as fetus that does not have a reasonable likelihood of sustained survival outside of the uterus;
- (6) Inserting the contents of section 3 of S.B. No. 890, Regular Session of 2023, which further clarifies that advanced practice registered nurses may provide abortion care;
- (7) Inserting the contents of sections 2 through 11 of S.B. No. 896, S.D. 1, which:
  - (A) Prohibits a covered entity from disclosing communication or information relating to reproductive health care services;
  - (B) Prohibits the issuance of a subpoena in connection with an out-of-state proceeding relating to reproductive health care services legally performed in the State;
  - (C) Prohibits agencies from providing information or expending resources in the furtherance of interstate investigations or proceedings relating to reproductive health care services;
  - (D) Prohibits the State from penalizing, prosecuting, or otherwise taking adverse action based on pregnancy outcomes or aiding or assisting a pregnant individual with accessing reproductive health care services;
  - (E) Requires the Governor to deny any demand for surrender of a person charged with a crime involving reproductive health care services unless the conduct constitutes a crime in the State;
  - (F) Enumerates laws contrary to public policy and prohibits their application as rules of decision in the courts;
  - (G) Prohibits the issuance of a summons for persons to testify in another state with regard to lawful reproductive health care services;
  - (H) Clarifies under various licensing statutes that the provision or assistance in receipt or provision of medical, surgical, pharmaceutical, counseling, or referral services related to the human reproductive system cannot form a basis for disciplinary action; and
  - (I) Prohibits the enforcement of a judgment or order arising from a foreign penal civil action or other penal law with respect to reproductive health care services;
- (8) Inserting language that amends the definition of "medical care and services" that a minor aged fourteen through seventeen inclusive, may consent to receive without any other person's consent to include surgery and any treatment to induce an abortion;
- (9) Making it effective upon its approval; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 652 (Joint) Labor and Technology and Government Operations on S.B. No. 284**

The purpose and intent of this measure is to:

- (1) Require the Technology Services Consolidation Working Group (Working Group) to:
  - (A) Decommission the Office of Enterprise Technology Services' (ETS) data center located in the Kalanimoku Building;
  - (B) Relocate the entire ETS data center to a single, standalone facility; and
  - (C) Use cloud storage for all state data;
- (2) Extend the dissolution date of the Working Group to June 30, 2028; and
- (3) Establish requirements for procurement contracts for information technology-related projects.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Office of Enterprise Technology Services, Servpac, and Transform Hawai'i Government. Your Committees received comments on this measure from the State Procurement Office and DR Fortress, LLC.

Your Committees find that ETS' primary data center at the Kalanimoku Building can no longer be brought to acceptable modern data center standards. In order for ETS to ensure the continued, uninterrupted provision of state services, your Committees find that the ETS' primary data center should be decommissioned and relocated to an interim primary, secure, and resilient facility.

Your Committees have amended this measure by:

- (1) Placing language that establishes requirements for procurement contracts for information technology-related projects under part X rather than part III, of the State Procurement Code;
- (2) Clarifying that the preference for cloud systems to be procured be physically located within the State;
- (3) Inserting a definition for "cloud servers and services";
- (4) Requiring the Working Group to make recommendations that include partnering with private providers and carriers;
- (5) Specifying that the ETS data center be relocated to an interim facility;
- (6) Updating the standards of the interim data center facility to include specific resiliency, sea level rise impact, and connectivity requirements;
- (7) Clarifying the specifications of the cloud computing to be used by the Working Group by June 30, 2026;
- (8) Amending section 1 to reflect its amended purpose;
- (9) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting language that provides for the establishment of backup continuity equipment in a secondary geographically-diverse, secure, and resilient facility. It may also review the applicability of federal requirements regarding investments or ties with any countries listed in Export Administration Regulations Supplement No. 1 to Part 740 – Country Group D or E.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 284, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 284, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Wakai).

**SCRep. 653 Higher Education on S.B. No. 547**

The purpose and intent of this measure is to require the University of Hawaii's Board of Regents to approve by majority vote any designee selected to serve or participate for the Chairperson as a voting or nonvoting member of any legislatively established board, commission, working group, or task force.

Your Committee received comments on this measure from the Board of Regents of the University of Hawai'i System.

Your Committee finds that the Chairperson of the University of Hawaii's Board of Regents is often required to serve on various boards, commissions, working groups, and task forces established by the Legislature. Your Committee believes that, should the Chairperson be permitted to and elect to select a designee to serve or participate in place of the Chairperson, the designee should be approved by the Board of Regents. This measure will allow the Board of Regents to ensure that any designee selected by the

Chairperson of the Board of Regents is qualified to represent the University of Hawaii by requiring the University of Hawaii's Board of Regents to approve by majority vote any designee selected to serve or participate for the Chairperson as a voting or nonvoting member of any legislatively established board, commission, working group, or task force.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 547, S.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

**SCRep. 654 Education on S.B. No. 531**

The purpose and intent of this measure is to authorize the School Facilities Authority to appoint an Executive Director and evaluate their performance annually.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the School Facilities Authority carries out an important mission to ensure the development, planning, and construction of all public schools in the State. However, for the School Facilities Authority to fulfill its mission to provide students, educators, and communities with high quality and healthy learning environments, the School Facilities Authority requires effective leadership.

Your Committee further finds that presently, the School Facilities Authority Executive Director is appointed by the Governor, with the advice and consent of the Senate. This process contrasts with other agencies administratively attached to the Department of Education, such as the Executive Office on Early Learning, the Charter School Commission, and the Hawaii State Public Library System, which appoint their Executive Director through an internal process. To promote uniformity, this measure authorizes the School Facilities Authority to appoint its Executive Director and evaluate the Executive Director's performance annually.

Your Committee has amended this measure by:

- (1) Clarifying that the School Facilities Authority Board, rather than the Authority itself, shall appoint the Executive Director;
- (2) Deleting language that would have required the School Facilities Authority Board to evaluate the Executive Director on an annual basis, as the responsibility is already set forth in existing law; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 531, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 531, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

**SCRep. 655 Ways and Means on S.B. No. 295**

The purpose and intent of this measure is to establish and appropriate moneys for a Malama Ohana Working Group within the Governor's Office of Wellness and Resilience to recommended changes to the State's child welfare system.

Your Committee received written comments in support of this measure from the Office of Wellness and Resilience; Stonewall Caucus of the Democratic Party of Hawaii; Hawaii State Coalition Against Domestic Violence; Hawaii Youth Services Network; Hawaii Children's Action Network Speaks!; Converge Consulting, Training, and Research; EPIC Ohana, Inc.-HI HOPES Initiative; and numerous individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that the working group established by this measure will bring together invested partners, community members, and persons with lived experience to help address shortcomings in the State's existing child welfare system.

Your Committee notes that the Department of Human Services requested in its written comments that the working group be exempt from part I of Chapter 92, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Clarifying that the executive director of EPIC Ohana, Inc., or the executive director's designee and the chief executive officer of Hale Kipa, Inc., or the chief executive officer's designee, shall be invited to participate in the working group and serve as co-chairs of the working group; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 295, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 295, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 656 Ways and Means on S.B. No. 809**

The purpose and intent of this measure is to expand the scope of the electric bicycle and electric moped rebate program to include electric micro-mobility devices.

More specifically, this measure:

- (1) Renames the electric bicycle and electric moped rebate program as the electric mobility rebate program;
- (2) Expands the scope of the program to include electric micro-mobility devices and defines the term, "electric micro-mobility device;"
- (3) Establishes an additional rebate type under the program;
- (4) Changes the eligibility requirements for receipt of a rebate under the program; and
- (5) Appropriates moneys to the Department of Transportation for the operation of the program.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii State Energy Office, Hawaii Bicycling League, Ulupono Initiative, and one individual.

Your Committee received written comments on this measure from PeopleForBikes.

Your Committee finds that providing additional rebates for the purchase of electric micro-mobility devices will help the State to more efficiently achieve its goal by 2045 of sequestering more atmospheric carbon and greenhouse gases than are emitted in the State.

Your Committee has amended this measure by:

- (1) Repealing, rather than amending, the existing electric bicycle and electric moped mobility rebate program and electric bicycle and electric moped subaccount of the highway development special fund;
- (2) Establishing a new electric mobility rebate program that enlarges the scope of the electric bicycle and electric moped mobility rebate program to also include electric micro-mobility services;
- (3) Inserting an appropriation for fiscal year 2022-2023;
- (4) Inserting language to clarify that the appropriations made for fiscal years 2022-2023, 2023-2024, and 2024-2025 shall lapse on June 30, 2024; June 30, 2025; and June 30, 2026, respectively;
- (5) Establishing an electric mobility special fund;
- (6) Changing the effective date of the appropriations for fiscal years 2023-2024 and 2024-2025 to July 1, 2051, and the effective date of the remaining provisions of this measure to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 809, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Aquino, Kanuha, Lee).

**SCRep. 657 Ways and Means on S.B. No. 835**

The purpose and intent of this measure is to repeal statutory language relating to the Legislature's annual general fund budget appropriation to the University of Hawaii.

More specifically, the measure repeals section 304A-2101(a), Hawaii Revised Statutes, which provides that the appropriation amount shall be three to five times the university's estimated regular tuition and related fee revenues for that fiscal year.

Your Committee received written comments in opposition to this measure from the University of Hawaii and one individual.

Your Committee believes that the language of section 304A-2101(a), Hawaii Revised Statutes, merely provides guidance or an expression of intent from a previous Legislature to future Legislatures and thus does not require the current Legislature to appropriate funds to the University of Hawaii in any specific amount. This belief is based upon the well-established principle of constitutional law that a legislature may not enact a law that binds the exercise of legislative power by a subsequent legislature. Accordingly, your Committee finds that this statutory provision is ineffective, serves no meaningful purpose, and should be repealed to clarify the appropriation process and prevent potential future confusion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Kanuha, Lee, Moriwaki).

**SCRep. 658 Ways and Means on S.B. No. 296**

The purpose and intent of this measure is to clarify the submission deadline for various reports that state agencies are required to submit to the Legislature.

More specifically, with respect to certain reports having no fixed submission deadline, the measure specifies that these reports shall be submitted to the Legislature no later than twenty days prior to the convening of each Regular Session, or no later than twenty days prior to the next Regular Session, depending on the type of report.

Your Committee received no written comments on this measure.

Your Committee finds that the establishment of specific submission deadlines for certain reports to the Legislature will provide greater certainty for the agencies that must prepare these reports and facilitate efforts to strengthen oversight and accountability of governmental activities.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 296, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 296, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 659      Ways and Means on S.B. No. 299**

The purpose and intent of this measure is to provide the Legislature with the authority to prescribe the forms in which budget requests shall be submitted by the executive branch, judiciary branch, and the Office of Hawaiian Affairs.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that providing the Legislature with the authority to prescribe the forms of certain budget requests will save time and help prevent clerical, typographical, and other errors that may occur in transcribing the requests.

Your Committee recognizes written comments from the Department of Budget and Finance, noting that budget requests for the executive branch are generated from the State's mainframe and the Department's budget eSystems programs and were specifically designed to meet existing statutory requirements. The Department expressed concerns that changes to the reports may require a substantial amount of time for reprogramming.

Your Committee has amended this measure by:

- (1) Making the measure effective upon its approval; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 299, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 299, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 660      Ways and Means on S.B. No. 795**

The purpose and intent of this measure is to provide flexibility for the motion picture, digital media, and film production income tax credit.

Specifically, this measure:

- (1) Requires that taxpayers claiming the motion picture, digital media, and film production income tax credit provide evidence of reasonable efforts to comply with the requirements under title 14, Hawaii Revised Statutes; and
- (2) Requires that taxpayers be given notice and an opportunity to cure any requirements for qualifying for the tax credit.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; IATSE Local 665; Island Film Group; Motion Picture Association; and fourteen individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the language in subsections 235-17(d)(7) and (8), Hawaii Revised Statutes, added last year by section 3 of Act 217, Session Laws of Hawaii 2022, could have the effect of disqualifying a production from all of the available motion picture, digital media, and film production income tax credits because of one or a few relatively minor issues. This measure will help to ensure compliance with requirements to claim the tax credit.

Your Committee has amended this measure by clarifying that section 235-17(d), Hawaii Revised Statutes, does not waive any act required by the motion picture, digital media, and film production income tax credit law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 795, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 795, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 10. Noes, none. Excused, 3 (Kanuha, Lee, Moriwaki).

**SCRep. 661 Ways and Means on S.B. No. 1456**

The purpose and intent of this measure is to support agricultural activities in the State.

More specifically, the measure authorizes the issuance of special purpose revenue bonds of up to \$100,000,000 to assist Honoka'a Land Company, LLC, in acquiring, developing, and renovating various agricultural facilities, including:

- (1) Rebuilding structures for a soil and earth products business based at the Haina Mill;
- (2) Purchasing an agriculture consulting and research and development firm and farm to serve as a research and development facility;
- (3) Acquiring or building organic dairies;
- (4) Promoting green and renewable energy initiatives; and
- (5) Developing affiliated agricultural employee housing.

Your Committee received written comments in support of this measure from Honoka'a Land Company, LLC.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that the agricultural initiatives proposed in this measure will enhance and support agricultural activities in the State and therefore merit the issuance of special purpose revenue bonds to assist Honoka'a Land Company, LLC, an agricultural enterprise, in implementing these initiatives.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1456, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1456, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 662 Ways and Means on S.B. No. 1457**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds to assist Kohala Mountain Fish Company, LLC, in establishing The Village project.

Your Committee received written comments in support of this measure from the Hawaii Department of Agriculture; Agribusiness Development Corporation; Department of Research and Development of the County of Hawaii; North Shore Economic Vitality Partnership; Kohala Mountain Fish Company, LLC; Ulupono Initiative; Hawaii Fish Company, Inc.; Kahua Pa'a Mua; and eight individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance and Office of the Attorney General.

Your Committee finds that the project supported by this measure will help advance the State's food security and provide solutions to challenges that face the State's agriculture industry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1457, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1457, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 663 Ways and Means on S.B. No. 93**

The purpose and intent of this measure is to promote the use of recycled water throughout the State.

More specifically, this measure:

- (1) Requires each nonpotable water user and developer of land within a certain distance of a wastewater treatment plant to use R-1 water for nonpotable water usage; and
- (2) Appropriates moneys to the Department of Land and Natural Resources to enforce R-1 water usage requirements and for the establishment of full-time equivalent positions within the Commission on Water Resource Management.

Your Committee received written comments on this measure from the Department of Health and Department of Land and Natural Resources.

Your Committee finds that water is a precious and finite natural resource requiring management through appropriate preservation and conservation efforts. Your Committee believes that by requiring the use of recycled water for nonpotable uses, this measure will help to reduce the use of potable water for nonpotable demands.

Your Committee has amended this measure by:

- (1) Clarifying that this measure applies to nonpotable water users and to developers of real property located within a certain distance of a wastewater treatment plant;
- (2) Inserting a definition for the term “R-1 water”;
- (3) Inserting language to clarify the purpose of this measure’s appropriation to establish full-time equivalent positions within the Commission on Water Resource Management;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 93, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 93, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 664 Ways and Means on S.B. No. 1317**

The purpose and intent of this measure is to facilitate access to high-speed broadband internet service.

Specifically, the measure:

- (1) Appropriates \$33,000,000 from state general funds to provide the matching funds required to receive federal funds for the Broadband Equity, Access, and Deployment (BEAD) Program;
- (2) Appropriates \$95,000,000 from the funds received by the State from the Infrastructure Investment and Jobs Act (IIJA) for the BEAD Program;
- (3) Appropriates an unspecified amount from state general funds for additional matching fund requirements for federal fund programs related to broadband;
- (4) Requires the Office of the Lieutenant Governor, rather than the University of Hawaii and Hawaii Broadband and Digital Equity Office, to convene the working group that was established pursuant to Act 231, Session Laws of Hawaii 2022, for the purpose of determining the appropriate governance structure to implement, operate, and maintain broadband infrastructure development in the State; and
- (5) Requires the Lieutenant Governor or a designee to serve as the Chair of the foregoing working group.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor; Department of Business, Economic Development and Tourism; Department of Budget and Finance; Hawaii Primary Care Association; and Hawaiian Telcom.

Your Committee finds that access to high-speed internet is essential to enable Hawaii residents to engage in remote work and remote learning and to access telehealth and other critical services. Your Committee recognizes that several federal programs provide states with significant funding to improve broadband access, subject to states providing matching funds.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts in section 2 and section 3 of the measure to unspecified amounts to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1317, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 665 Ways and Means on S.B. No. 1295**

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to:

- (1) Explicitly authorize political subdivisions, such as the counties, to issue tax increment bonds; and
- (2) Exclude tax increment bonds from the calculation of the debt limit of the political subdivisions.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Community Development Authority.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that although section 46-104(2), Hawaii Revised Statutes, statutorily authorizes counties to issue tax increment bonds, this type of bond does not neatly fit within the categories of bonds that the Legislature may authorize a county to issue under article VII, section 12, of the Hawaii State Constitution. Your Committee further finds that passage of the constitutional amendment proposed by this measure would make clear a county's authority to issue tax increment bonds.

Your Committee has amended this measure by:

- (1) Amending the definition of the term "tax increment bonds" to clarify that the bonds are payable from and secured solely by the amount of real property taxes levied and collected by a political subdivision on the difference between:
  - (A) The assessed value of the taxable real property located within a tax increment district in a given year; and
  - (B) The assessed value of the taxable real property in the tax increment district during the year the tax increment district was created;
- (2) Clarifying, in the constitutional ratification question, that the tax increment district is established by the political subdivision; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1295, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1295, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Kanuha, Lee, Moriwaki).

**SCRep. 666      Ways and Means on S.B. No. 821**

The purpose and intent of this measure is to appropriate moneys for the Department of Law Enforcement to purchase drones to monitor the use of illegal fireworks.

Your Committee received written comments in support of this measure from Poi Dogs and Popoki and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Law Enforcement and one individual.

Your Committee finds that the illegal use of aerial fireworks in the State creates dangerous conditions for the affected communities. However, your Committee believes that Senate Bill No. 1339 presents a more appropriate approach to mitigate the illegal use of fireworks and explosives in the State.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language from S.B. No. 1339 that establishes, and appropriates moneys for, an illegal fireworks task force to:
  - (A) Develop a strategic plan to stop the importation of illegal fireworks and explosives in the State;
  - (B) Promote compliance with the state fireworks control laws; and
  - (C) Ensure the safety and security of airports, harbors, and other facilities and institutions in the State against the discharge of illegal fireworks and explosives; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 821, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Kanuha, Lee, Moriwaki).

**SCRep. 667      Ways and Means on S.B. No. 302**

The purpose and intent of this measure is to facilitate the renovation of technology infrastructure in the State.

Specifically, the measure would achieve this purpose by:

- (1) Temporarily reinstating the technology infrastructure renovation tax credit; and
- (2) Expanding the definition of "technology-enabled infrastructure" to include data servers.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation, the Chamber of Commerce Hawaii, and Servpac.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, among other things, Act 221, Session Laws of Hawaii 2001, established the technology infrastructure renovation tax credit to incentivize the growth of high technology businesses and associated industries in the State by defraying the cost of renovating commercial buildings with technology-enabled infrastructure. Your Committee notes that the tax credit has not been available since 2010. Your Committee further finds that technology has advanced since the tax credit was originally enacted, and that data centers and fiber optic networks are now driving forces that support the creation and growth of high technology businesses in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying the taxable years during which the technology infrastructure renovation tax credit shall be available; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 302, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 302, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 668      Ways and Means on S.B. No. 290**

The purpose and intent of this measure is to support Department of Education programs that provide instructional services directly to students.

Specifically, this measure:

- (1) Requires appropriations allocated to Department of Education programs that provide instructional services directly to students to remain within the budget of the program to which the funds were originally allocated;
- (2) Specifies that the retention of an appropriation pursuant to paragraph (1) shall not be used by the Department of Education as a basis for reducing the program's future budget requirements;
- (3) Requires temporary positions created by the Department of Education to provide instructional services directly to students; and
- (4) Requires the Department of Education to report the creation of temporary positions to the Legislature.

Your Committee received written comments in support of this measure from the HE'E Coalition.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that moneys allocated to schools and programs that provide instructional services directly to students should not be reduced to fund the Department of Education's administration costs. Your Committee further finds that those schools and programs should be allowed to carry over a portion of their allocated funds to the following fiscal year.

Your Committee has amended this measure by:

- (1) Deleting the proviso that temporary positions created by the Department of Education must provide instructional services directly to students;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 290, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 669      Ways and Means on S.B. No. 428**

The purpose and intent of this measure is to facilitate the attainment of the State's goal to upgrade or convert all cesspools in the State by 2050.

Specifically, this measure requires each county to:

- (1) Develop a comprehensive integrated wastewater management plan and financial strategy specific to the county; and
- (2) Submit the plan and financial strategy to the Legislature prior to the convening of the Regular Session of 2024.

Your Committee received written comments in support of this measure from the Department of Health, Climate Change Mitigation and Adaptation Commission, Department of Environmental Management of the County of Hawaii, Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i REALTORS, Ulupono Initiative, and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that many cesspools in rural areas, particularly on the neighbor islands, may not be located where existing county infrastructure will allow for easy conversion and connection to a sewer system. Accordingly, your Committee finds that identifying required infrastructure improvements across all counties is a crucial step required for the eventual elimination of all cesspools in the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 428, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 670 Ways and Means on S.B. No. 318**

The purpose and intent of this measure is to require the Department of Health to establish and administer a five-year pilot program to implement a co-management system of care for the diagnosis and treatment of persons having fetal alcohol spectrum disorders.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities, Hawaii Disability Rights Center, Hawaii Fetal Alcohol Spectrum Disorders FASD Action Group, FASD United, Hawaii Substance Coalition, A Family Tree/Pono Roots Counseling Center, and numerous individuals.

Your Committee received written comments on this measure from the Department of Health.

Your Committee finds that this measure implements recommendations made in a 2009 report from the Department of Health that identified issues preventing the wider recognition and diagnosis of fetal alcohol spectrum disorders. Your Committee further finds that the pilot project established by this measure will help the State assess the needs of children and adults affected by fetal alcohol spectrum disorders and to integrate fetal alcohol spectrum disorder services into the State's systems of care.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 318, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 318, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 671 Ways and Means on S.B. No. 833**

The purpose and intent of this measure is to provide for the State's fee simple acquisition of the Wahiawa irrigation system.

More specifically, this measure:

- (1) Requires the Governor to negotiate for the State's fee simple acquisition of the Wahiawa irrigation system;
- (2) Authorizes the Department of Land and Natural Resources, Department of Agriculture, and Agribusiness Development Corporation to acquire certain real properties; and
- (3) Appropriates moneys to the Department of Land and Natural Resources, Department of Agriculture, and Agribusiness Development Corporation to manage and maintain the real properties acquired pursuant to this measure.

Your Committee received written comments in support of this measure from the Department of Agriculture; North Shore Neighborhood Board No. 27; Dole Food Company, Inc.; Hawaii Farm Bureau; Land Use Research Foundation of Hawaii; and Ulupono Initiative.

Your Committee received written comments on this measure from the Agribusiness Development Corporation and Department of Land and Natural Resources.

Your Committee finds that proper maintenance of the Wahiawa irrigation system is essential to agricultural irrigation, flood control, wastewater management, and public recreation in central Oahu. Your Committee therefore believes that the State's acquisition, repair, management, and maintenance of the Wahiawa irrigation system and the associated spillway are in the public interest and will benefit the State.

Your Committee has amended this measure by:

- (1) Specifying additional real properties that the Department of Land and Natural Resources may acquire;
- (2) Changing the appropriations to unspecified amounts;
- (3) Clarifying the purpose of the four full-time equivalent (4.0 FTE) positions established pursuant to this Act; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 833, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 833, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none).

**SCRep. 672 Ways and Means on S.B. No. 1454**

The purpose and intent of this measure is to evaluate the potential use of therapeutic psilocybin in treating mental health conditions.

Specifically, the measure:

- (1) Establishes a therapeutic psilocybin working group within the Department of Health for administrative purposes only;
- (2) Requires the therapeutic psilocybin working group to examine scientific research and laws relating to the use of therapeutic psilocybin;
- (3) Requires the working group to submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024;
- (4) Appropriates moneys for the therapeutic psilocybin working group for fiscal years 2023-2024 and 2024-2025; and
- (5) Dissolves the working group on June 30, 2025.

Your Committee received written comments in support of this measure from the Office of Wellness and Resilience; Aloha Green Holdings, Inc.; Clarity Project; Aloha Integrative Mental Health; Beyond Mental Health; Hawaii Psychological Association; Malama Mushrooms; Hawaii Substance Abuse Coalition; Honolulu Psychotherapy; and thirty-four individuals.

Your Committee received written comments on this measure from the Department of Health.

Your Committee recognizes that psilocybin has been effective in treating a number of mental health conditions, including depression, anxiety, post-traumatic stress disorder, and end-of-life psychological distress. Your Committee notes that the United States Food and Drug Administration designates the therapeutic use of psilocybin for treatment-resistant depression as a breakthrough therapy. Your Committee also notes that Oregon and Colorado have legalized the medicinal use of psilocybin. Your Committee believes that the State should consider whether the drug may be a useful tool in addressing various mental health conditions.

Your Committee has amended this measure by:

- (1) Requiring the working group to submit its report twenty days prior to the Regular Session of 2025, rather than 2024; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1454, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1454, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 673 Ways and Means on S.B. No. 304**

The purpose and intent of this measure is to support the preservation and resiliency of Hawaii's natural resources.

Specifically, this measure:

- (1) Establishes a visitor impact fee program within the Department of Land and Natural Resources, through which visitors will be charged a fee for a license to visit state parks, forests, hiking trails, and other state natural areas; and
- (2) Establishes and appropriates moneys into and out of the visitor impact fee special fund.

Your Committee received written comments in support of this measure from the Office of the Governor, Kauai Climate Action Coalition, Wild Kids, Hawaii Green Fee, Surfrider Maui Chapter, Surfrider Foundation Hawaii Region, Hui Makaainana o Makana, Kupu, Resources Legacy Fund, Imua Alliance, The Nature Conservancy Hawaii, Climate Protectors Hawaii, Hawaii Reef and Ocean Coalition, Malama Learning Center, Hawaii Lodging and Tourism Association, The Trust for Public Land, Maui Hotel and Lodging Association, Sustainable Coastlines Hawaii, Hui o Ho'ohonua, and more than thirty individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawaii Tourism Authority, Tax Foundation of Hawaii, Maui Ocean Center, Kohala Coast Resort Association, Kauai Farm Planning, and two individuals.

Your Committee finds that there is an immediate need for additional resources to protect, restore, sustain, manage, and conserve the State's natural resources in response to escalating visitor impacts. Your Committee further finds that collecting a visitor impact fee has been suggested by the Hawaii Tourism Authority as a potential means to obtain these critical resources.

Your Committee has amended this measure by:

- (1) Changing the amounts appropriated into and out of the visitor impact fee special fund to unspecified sums;
- (2) Correcting a cross-reference;
- (3) Clarifying that certain administrative rules shall be adopted pursuant to chapter 91, Hawaii Revised Statutes; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 304, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 304, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 674      Ways and Means on S.B. No. 1572**

The purpose and intent of this measure is to establish a new collective bargaining unit exclusively for employees of the City and County of Honolulu's Emergency Services Department.

Your Committee received written comments in support of this measure from the United Public Workers and numerous individuals.

Your Committee received written comments in opposition to this measure from the Office of Collective Bargaining.

Your Committee received written comments on this measure from the Department of Budget and Finance and City and County of Honolulu Department of Human Resources.

Your Committee finds that City and County of Honolulu Emergency Services Department employees face challenges that are not shared with other members of their current bargaining units and are therefore rarely addressed in collective bargaining negotiations. Establishing a bargaining unit exclusive to those employees will help them to address staffing shortages and other problems. Further, the establishment of a separate bargaining unit for employees of the City and County of Honolulu Emergency Services Department would treat these employees in a manner similar to firefighters, police officers, and lifeguards who are each currently represented by a unique bargaining unit.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1572, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 675      Hawaiian Affairs on S.C.R. No. 14**

The purpose and intent of this measure is to request the Office of Hawaiian Affairs to establish and maintain Hawaiian cultural centers within the State.

Your Committee received testimony in support of this measure from the Ko'olau Foundation.

Your Committee finds that Native Hawaiians and their rich and vibrant culture are what continues to make Hawaii unique and different from other places in the world. However, your Committee finds that despite the importance of Hawaiian culture in the State, there are no public spaces solely dedicated to the practice and perpetuation of Hawaiian culture. Therefore, this measure requests the Office of Hawaiian Affairs to establish and maintain Hawaiian cultural centers within the State.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 14 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 676      Hawaiian Affairs on S.R. No. 12**

The purpose and intent of this measure is to request the Office of Hawaiian Affairs to establish and maintain Hawaiian cultural centers within the State.

Your Committee received testimony in support of this measure from the Ko'olau Foundation.

Your Committee finds that Native Hawaiians and their rich and vibrant culture are what continues to make Hawaii unique and different from other places in the world. However, your Committee finds that despite the importance of Hawaiian culture in the State, there are no public spaces solely dedicated to the practice and perpetuation of Hawaiian culture. Therefore, this measure requests the Office of Hawaiian Affairs to establish and maintain Hawaiian cultural centers within the State.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 12 and recommends its adoption.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 677      Judiciary on S.B. No. 487**

The purpose and intent of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes or the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors or omissions or to repeal obsolete laws.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 487 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 678 (Majority) Judiciary on S.B. No. 383**

The purpose and intent of this measure is to:

- (1) Require that any person who applies for an identification card or driver's license be automatically registered to vote; and
- (2) Require that the applicant be provided the opportunity to opt-out of voter registration.

Your Committee received testimony in support of this measure from the Americans for Democratic Action Hawai'i, League of Women Voters of Hawaii, and two individuals. Your Committee received testimony in opposition to this measure from West Hawaii GOP and ten individuals. Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that increased voter engagement and participation is beneficial to the civic health of the State. Act 126, Session Laws of Hawaii 2021, requires that a qualified state identification card and driver's license applicant choose whether to register to vote by opting-in. Provisions allowing applicants to affirmatively decline, or opt-out, to register to vote empower voters and ensure that only willing applicants will be entered into the voter registration database. This measure will automatically register a qualified applicant to vote and offer the applicant an opportunity to opt-out of voter registration.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 383 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 679 Judiciary on S.B. No. 160**

The purpose and intent of this measure is to lower the threshold blood alcohol concentration for the offense of operating a vehicle while under the influence of an intoxicant.

Your Committee received testimony in support of this measure from the National Transportation Safety Board; Department of Transportation; Department of the Prosecuting Attorney of the City and County of Honolulu; Office of the Prosecuting Attorney of the County of Hawai'i; Department of the Prosecuting Attorney of the County of Maui; Office of the Prosecuting Attorney of the County of Kaua'i; Honolulu Police Department; Hawai'i Alcohol Policy Alliance; Maui Coalition for Drug-Free Youth; East Hawai'i Drug-Free Coalition; Smart Start, LLC; Intoxalock; Keala Foundation; Alu Like, Inc; Maika'i Cleaners LLC; Foil Fever LLC and twenty-seven individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Kauai Beer Company, Lanikai Brewing Company, Wine Institute, and Hawaiian Craft Brewers Guild. Your Committee received comments on this measure from one individual.

Your Committee finds that in 2013, the National Transportation Safety Board (NTSB) recommended that all fifty states adopt a blood alcohol concentration cutoff of 0.05 compared to the 0.08 standard. According to the NTSB, lowering the rate to 0.05 would save hundreds of lives annually. The NTSB reports that a driver with a blood alcohol concentration of 0.05 would be affected by exaggerated behavior, loss of small-muscle control and eye focus, impaired judgment, lowered alertness, and release of inhibition. This would result in reduced coordination, reduced ability to track moving objects, difficulty steering, and reduced response to emergency driving situations. This measure will save lives, prevent catastrophic injuries, and decrease medical costs by lowering the threshold of blood alcohol content for the offense of operating a vehicle while under the influence of an intoxicant.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 160 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

**SCRep. 680 Judiciary on S.B. No. 179**

The purpose and intent of this measure is to:

- (1) Rename the statewide and county-level Voters with Special Needs Advisory Committees to Elections Accessibility Needs Advisory Committees; and
- (2) Recognize that voting accessibility needs may arise from disabilities other than those of a physical nature.

Your Committee received testimony in support of this measure from the National Federation of the Blind Hawai'i, Disability and Communication Access Board, Office of Elections, Hawaii Disability Rights Center, Aloha Consultants, and three individuals.

Your Committee finds that statewide and county-level Voters with Special Needs Advisory Committees' revised name of Elections Accessibility Needs Advisory Committees is more consistent with the purpose to ensure that people with disabilities have equal and independent access to voter registration, casting of ballots, and all other Office of Elections services. Language is the basis of thoughts and attitudes about people with disabilities. This measure will ensure that the appropriate terminology is used for people with disabilities.

Your Committee notes that there are references to the phrase “special needs” in other chapters of the Hawaii Revised Statutes that need to be amended, however the title of this measure restricts your Committee from making those changes in this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 179 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 681      Judiciary on S.B. No. 51**

The purpose and intent of this measure is to:

- (1) Increase the amount of fines that may be assessed against a noncandidate committee for violations of organizational report requirements;
- (2) Increase the amount of fines that may be assessed against noncandidate committees for violations of advertisement disclosure requirements; and
- (3) Increase the fines for advertisements paid by noncandidate committees making only independent expenditures.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and two individuals.

Your Committee finds that campaign spending and disclosure requirements are important to the health of the electoral process. Your Committee further finds that fines and other penalties should be increased to serve as an effective deterrent to candidate and noncandidate committees of various levels of financial resources from violating campaign spending laws. This measure will help restore faith and trust in the state government.

Your Committee has amended this measure by:

- (1) Removing the twenty-five percent cap on fines that may be assessed against noncandidate committees for violations of advertisement disclosure requirements;
- (2) Removing the twenty-five percent cap on fines for advertisements paid by noncandidate committees making only independent expenditures; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 51, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 51, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 682      Judiciary on S.B. No. 130**

The purpose and intent of this measure is to:

- (1) Allow state courts discretion to not enforce a child-custody determination of a foreign country if the law of the foreign country imposes capital punishment for apostasy, religious or political beliefs, or homosexuality, and a parent or child demonstrates risk of being subject to the law, and
- (2) Define “apostasy”.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai‘i, North Shore Ko‘olau Diversity Collection, Rainbow Family 808, and four individuals. Your Committee received testimony in opposition to this measure from the Commission to Promote Uniform Laws.

Your Committee finds that enforcing a foreign country’s child-custody determination that may result in the child or parents being subject to capital punishment in that country, would be highly unethical and may result in a possible death sentence to those impacted. Your Committee further finds that it must protect individuals’ human rights. This measure will ensure that individuals subject to child-custody law enforcement are not imprisoned or killed by another country based on their practice or beliefs.

Your Committee has amended this measure by:

- (1) Specifying that state courts have the discretion to not enforce a child-custody determination of a foreign country if the child-custody law of the foreign country imposes capital punishment for apostasy, religious or political beliefs, or homosexuality, and a parent or child demonstrates risk of being subject to the law;
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 130, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Elefante, Gabbard, San Buenaventura). Noes, none. Excused, none.

**SCRep. 683 (Majority) Judiciary on S.B. No. 141**

The purpose and intent of this measure is to:

- (1) Require an elector to vote for the candidates whose names appeared on the presidential general election ballot and who are of the political party or group they represent and invalidate an elector's vote for failure to vote accordingly; and
- (2) Require an alternate to vote in place of the original elector if the original elector's vote is invalidated.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Stonewall Caucus of the Democratic Party of Hawai'i, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawaii Commission to Promote Uniform Legislation.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1:

- (1) Aligns Hawai'i law with the Uniform Faithful Presidential Electors Act;
- (2) Requires presidential electors to take a pledge that they will vote for their party's nominee;
- (3) Invalidates the vote of any faithless elector;
- (4) Removes any faithless elector from the position of elector;
- (5) Provides procedures for the replacement of electors; and
- (6) Updates rules for certification of electors and their votes to be in full compliance with federal law.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawaii Commission to Promote Uniform Legislation, League of Women Voters of Hawaii, Stonewall Caucus of the Democratic Party of Hawai'i, and two individuals.

Your Committee finds that ensuring the faithfulness of presidential electors is crucial to the State's democratic system of government. Your Committee notes that presidential and vice presidential candidates are elected not by the popular vote but rather by electors, who are themselves elected during general elections, and who select the president and vice president by a simple majority. Your Committee further finds that electors who do not cast votes for the candidates they were elected to vote for, thereby acting faithlessly, are acting in violation of democratic values by subverting the will of the people. Additionally, the potential exists for faithless electors to have a decisive effect upon a presidential election's outcome, especially when such an election is close. This measure will protect the choices for president and vice president made by the people of Hawaii during a presidential general election.

Your Committee has amended this measure by adopting the proposed S.D.1.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 141, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 684 Judiciary on S.B. No. 182**

The purpose and intent of this measure is to:

- (1) Establish that certain candidates shall file disclosures of financial interests no later than ten days after the nomination filing deadline;
- (2) Establish that the unauthorized release of confidential financial disclosure information is subject to chapter 84, Hawaii Revised Statutes; and
- (3) Amend the fines imposed and procedures relating to disclosures of financial interests.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission and two individuals.

Your Committee finds that current financial disclosure law requires legislators, employees, and candidates to file financial disclosure statements. Presently, failure to submit a financial disclosure results in a \$75 administrative fine, notification from the Hawaii State Ethics Commission, and an assessment of an additional \$10 per day fine for every additional day the financial disclosure remains unfiled. As the current process for financial disclosures is treated similarly to other ethics violations, the Hawaii State Ethics Commission must proceed through a contested case hearing process, a lengthy process that can become cumbersome if there are multiple outstanding unfiled financial disclosures. This measure streamlines the enforcement process for financial disclosure penalties to ensure efficiency while also maintaining accountability.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 182, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 182, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 685      Judiciary on S.B. No. 1212**

The purpose and intent of this measure is to:

- (1) Prohibit the practice known as “redboxing”, by prohibiting any campaign website for any candidate or candidate committee from containing information or manipulating content in any manner that is intended or designed to induce a noncandidate committee to use that content to make expenditures supporting the candidate or candidate committee in a manner suggested by the candidate or candidate committee; and
- (2) Require the Campaign Spending Commission to adopt rules.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that some candidates for elected office design their websites in a manner that is intended to solicit noncandidate committees, especially super political action committees, to publish or produce political advertisements and other materials that benefit those candidates. This campaign tactic, commonly known as “redboxing”, is intended to circumvent campaign finance laws that strictly prohibit candidates from coordinating with noncandidate committee political campaign efforts. This measure will help promote transparency and accountability in the State’s campaign spending laws.

Your Committee has amended this measure by:

- (1) Changing the intent requirement to a reasonable person standard;
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1212, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 686      (Majority) Judiciary on S.B. No. 483**

The purpose and intent of this measure is to update articles I through IV of the Uniform Probate Code to adjust for inflation, provide additional clarity, resolve issues that have arisen in probate practice, and address societal changes in familial relations.

Your Committee received testimony in support of this measure from the Judiciary and Commission to Promote Uniform Laws.

Your Committee finds that it is necessary to update articles I through IV of the Uniform Probate Code, with appropriate amendments to reflect Hawai‘i law and practice where relevant. Adopted in Hawai‘i in 1969 and last updated in 1996, the Uniform Probate Code is a national codification of the law of probate, which provides for greater clarity and uniformity in probate law and interpretation. This measure makes the necessary updates to the Uniform Probate Code.

Your Committee has amended this measure by:

- (1) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 483, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 483, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 687      Judiciary on S.B. No. 1220**

The purpose and intent of this measure is to prohibit persons convicted of certain felony offenses against public administration from becoming a candidate for or holding public office for twenty years after the person’s final discharge.

Your Committee received testimony in support of this measure from the Campaign Spending Commission and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the enhancement of criminal penalties for offenses involving public corruption is the most effective deterrence. Individuals who commit certain felonies may be perceived as being dishonest or unfit to hold public office. This measure will ensure the ethical integrity of public officials by preventing them from holding office for a sufficient duration after the person’s final discharge from certain felony convictions.

Your Committee has amended this measure by changing the twenty-year penalty from holding public office for certain felony offenses to a ten-year penalty.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1220, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 688      Judiciary on S.B. No. 1493**

The purpose and intent of this measure is to prohibit, during legislative sessions and shortly before and after, lobbyist contributions, and promises of contributions, to any elected official or to any candidate or candidate committee who has received contributions or made or incurred expenditures of more than \$100 in the applicable election period requiring the filing of an organizational report with the Campaign Spending Commission.

Your Committee received testimony in support of this measure from seven individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that contributions made during legislative sessions, including extended sessions or special sessions, can create the perception that the contribution is, or is intended to, influence decisions being taken on pending legislation. Your Committee further finds that a number of states restrict or prohibit contributions from lobbyists during legislative sessions. Your Committee concludes that restricting lobbyists from donating, or promising to later donate, to an elected official during a legislative session and the five days before and after the session will further the goal of reducing undue influence and its appearance.

Your Committee has amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1493, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 689      Commerce and Consumer Protection on S.B. No. 395**

The purpose and intent of this measure is to require a seller or its agent in a residential real property transaction to disclose that the United States Postal Service cannot deliver mail or packages to the residential real property being offered for sale.

Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that the ability to receive and send mail from one's home is of considerable importance to a homeowner. Today, many residents obtain critical items using mail services, such as medication, or make online purchases for goods that are not readily accessible on every island of the State. However, your Committee finds that not all properties have a mailbox on the premises that is serviceable by the United States Postal Service, especially in rural areas. Therefore, this measure establishes that the inability of the United States Postal Service to deliver mail or packages is a material fact that shall be disclosed in a residential real property transaction.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 395, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 690      Transportation and Culture and the Arts on S.B. No. 403**

The purpose and intent of this measure is to repeal the designation of black coral as the official gem of the State.

Your Committee received testimony in support of this measure from the Hawaii Reef and Ocean Coalition, Big Island Reef Keepers Hui, Friends of Hanauma Bay, and For the Fishes. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Hawaii's coral reefs are vital to marine ecosystems and are home to many endemic and native species. Designated as the official gem of the State by Act 9, Session Laws of Hawaii 1987, black coral played a significant role in marketing campaigns showcasing Hawaii's beauty. However, the long-term promotion of Hawaii and its natural resources, including black coral, has led to increased commercial use of coral, contributing to the decline and degradation of coral reefs. This measure preserves one of the State's prized natural resources to ensure longevity and revitalization of coral reefs and marine ecosystems across the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 403, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 403, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Inouye).

**SCRep. 691 Agriculture and Environment on S.B. No. 831**

The purpose and intent of this measure is to grant the Department of Agriculture the statutory power to own real, personal, or mixed property for immediate or future use.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, and one individual.

Your Committee finds that the success of ranchers and farmers in Hawaii is a key component to the State's goal of doubling local food production. Your Committee additionally finds that a flourishing agriculture sector in Hawaii requires adequate land availability and long-term leases at affordable and predictable lease rental rates. Thus, this measure authorizes the Department of Agriculture to acquire, acquire by grant, or purchase any real, personal, or mixed property to make available agricultural lands and long-term leases to farmers and ranchers, thereby enhancing the economic viability of Hawaii's agriculture industry.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 831 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 692 (Joint) Agriculture and Environment and Judiciary on S.B. No. 388**

The purpose and intent of this measure is to prohibit the construction, modification, or expansion of any waste or disposal facility for hazardous or solid waste on land that is near or above a significant aquifer as determined by the Department of Health, in consultation with the Commission on Water Resource Management.

Your Committees received testimony in support of this measure from the Board of Water Supply of the City and County of Honolulu, Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, International Brotherhood of Electrical Workers Local Union 1186, and three individuals. Your Committees received comments on this measure from the Department of Health.

Your Committees find that ground water aquifers are precious natural resources that the people of Hawaii are dependent on to sustain life and well-being across the State. Your Committees additionally recognize that after the Red Hill jet fuel leak that contaminated Oahu's sole source aquifer and the Joint Base Pearl Harbor Hickam water system in November 2021, there is significant interest in protecting and preserving the aquifers throughout the State from any further potential toxic contamination. Thus, this measure provides greater protection of the State's valuable aquifers.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 388 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Agriculture and Environment: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.  
Judiciary: Ayes, 5. Noes, none. Excused, none.

**SCRep. 693 Judiciary on S.B. No. 1541**

The purpose and intent of this measure is to specify that Hawai'i voters are prohibited from casting more than one ballot during an election, even if one of those ballots is cast in an election outside of Hawai'i.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii and three individuals. Your Committee received testimony in opposition to this measure from West Hawaii GOP and six individuals. Your Committee received comments on this measure from two individuals.

Your Committee finds that existing law prohibits voters from voting again after having already voted. However, the law does not expressly address the possibility that a person could cast a single vote in Hawai'i and an additional vote in another state or territory of the United States. This measure will make it clear that Hawai'i voters can only vote once during an election and strengthen voter protection.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1541 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 694 (Majority) Judiciary on S.B. No. 45**

The purpose and intent of this measure is to authorize a school counselor, domestic violence victim advocate, or other mental health professional licensed by the State to petition for a protective order on a minor's behalf when the minor's parent or guardian is unable to submit a petition.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, and four individuals. Your Committee received comments on this measure from the Department of Education and Hawai'i State Coalition Against Domestic Violence.

Your Committee finds that adolescents in abusive romantic relationships that were entered into without parental approval may be reluctant to approach their parents for assistance. Some adolescents have the option of seeking the help of another trusted adult who is not their parent, such as a school counselor or domestic violence victim advocate. Trusted adults in the lives of adolescents may be able to help obtain a protective order when it is necessary for the adolescent's safety and protection.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 45, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 695      Judiciary on S.B. No. 236**

The purpose and intent of this measure is to:

- (1) Expand the victim-counselor privilege under the Hawaii Rules of Evidence to include confidential advocates employed by the University of Hawaii; and
- (2) Increase the minimum number of hours of training a domestic violence victims' counselor must complete to be considered a victim counselor.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Education Caucus of the Democratic Party of Hawai'i, Women's Caucus of the Democratic Party of Hawai'i, Every Voice Coalition Hawai'i, Hawai'i State Coalition Against Domestic Violence, Imua Alliance, American Association of University Women of Hawaii, and four individuals.

Your Committee finds that there is no mechanism that guarantees confidentiality to students and employees who seek confidential advocacy support within the University of Hawaii System as a result of sexual harassment, sexual assault, domestic violence, and stalking. According to testimony received by your Committee, Hawaii has one of the lowest training requirements for domestic violence advocates. This measure not only ensures that confidential advocates employed by the University of Hawaii provide confidentiality protections to students and employees who seek the counseling services of these campus-based advocates, but also better prepares domestic violence victims' counselors in the State to work with survivors of domestic violence in a trauma-informed and survivor-centered manner.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 236 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 696      (Majority) Judiciary on S.B. No. 105**

The purpose and intent of this measure is to change the Department of Education's quarterly report requirement on autism spectrum disorder to an annual report.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that the Department of Education is required to submit a quarterly report to the Legislature regarding, among other things, the number of students with autism spectrum disorder. However, your Committee finds that the current frequency of the report is burdensome and unnecessary, as there are few changes reflected between each quarterly reporting period. Therefore, this measure strikes a balance between the benefit of having the informational report and the associated workload required for its production.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 697      Judiciary on S.B. No. 158**

The purpose and intent of this measure is to establish that charging shipping and delivery charges that exceed the actual cost charged to the seller to ship or deliver a commodity to a consumer in the State shall constitute an unfair and deceptive practice.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committee finds that the State's consumers are often unfairly treated by online merchants' imposition of shipping costs as many of these retailers impose an arbitrary shipping cost that does not correlate with their actual cost of shipping. This measure addresses this improper practice to ensure that the State's consumers are not unfairly billed on shipping charges and are assessed only the actual cost of shipping, instead of a bogus rate that has nothing to do with the actual cost. Requiring a merchant to apply the actual shipping cost will facilitate transparency in consumer transactions and will help ensure that the State's consumers no longer fall victim to the arbitrary whims of online merchants in assessing shipping charges.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 158, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 698 Commerce and Consumer Protection on S.B. No. 1370**

The purpose and intent of this measure is to:

- (1) Establish a standard license to solemnize marriages, valid for one year from the date of issuance;
- (2) Establish a short-term license to solemnize marriages, valid for sixty days from the date of issuance;
- (3) Establish a fee of \$100 per year for the issuance of a standard license;
- (4) Establish a fee of \$25 per sixty-day period for a short-term license; and
- (5) Specify in what amount and to which fund license fees shall be deposited.

Your Committee received testimony in support of this measure from the Department of Health and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that there are over twenty thousand marriage licenses issued in Hawaii each year that are performed by one of eleven thousand licensed individuals in the State. Extensive state resources are required to process licenses authorizing individuals to solemnize marriages, with costs absorbed by the State. However, individuals who solemnize marriages charge couples for services that range from \$100 to \$500 per ceremony, allowing licensed individuals to quickly recover the cost of a license. This measure establishes equity between religious and non-religious license terms and fees to solemnize marriages in the State to ensure efficiency of state services and the timely processing of marriage licenses.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1370, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 699 Ways and Means on S.B. No. 283**

The purpose and intent of this measure is to provide equitable funding for all public school students.

Specifically, this measure excludes from the public charter school per-pupil funding calculation all amounts relating to programs that provide comparable benefits to all public school students, regardless of whether the student attends a Department of Education school or a public charter school.

Your Committee received written comments in support of this measure from the Hawaii State Teachers Association, Halau Ku Mana Public Charter School, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Hawaii State Public Charter School Commission.

Your Committee finds that this measure directs the Department of Education's Committee on Weights, when calculating the per-pupil amount for public charter schools, to not include amounts relating to programs that provide comparable benefits to students in both Department of Education schools and public charter schools.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 283 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 700 Ways and Means on S.B. No. 1535**

The purpose and intent of this measure is to authorize the Department of Transportation to exempt certain ground transportation facility plans from certain historic preservation requirements and the environmental impact statement law.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; City and County of Honolulu, Department of Transportation Services; Bikeshare Hawaii; Hawaii Bicycling League; and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received comments on this measure from Kauai Path, Inc., and one individual.

Your Committee finds that the exemptions established by this measure will help the Department of Transportation to more efficiently address the needs of the public when infrastructure improvements are necessary to accommodate non-motorized modes of travel.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1535, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 701 (Majority) Commerce and Consumer Protection on S.B. No. 973**

The purpose and intent of this measure is to:

- (1) Require rental vehicle companies using state facilities to pay or reimburse the State to install new or utilize existing state electric vehicle charging infrastructure at public facilities beginning January 1, 2028;
- (2) Establish a task force to develop and implement electric vehicle charging infrastructure to support one hundred percent electric vehicle rental car fleets in the State by 2035; and
- (3) Require annual reports by the task force to the Legislature.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawaii State Energy Office, Climate Protectors Hawai'i, Ulupono Initiative, and two individuals. Your Committee received comments on this measure from the Avis Budget Group, Enterprise Holdings, and two individuals.

Your Committee finds that many major vehicle manufacturers are planning to phase out the sale of new fossil fuel vehicles, with some states and nations having already set prohibitions for these vehicles by 2035. Your Committee additionally finds that the State is eager to quickly reduce carbon emissions and limit the use of new fossil fuel powered vehicles, particularly when considering that rental car fleets represent one of the largest passenger vehicle fleets in the State. However, Hawaii lacks sufficient electric vehicle charging infrastructure to support its zero emission goals. Thus, this measure establishes a task force to determine, develop, and implement electric vehicle charging infrastructure for rental car fleets and requires rental car companies to install charging infrastructure by leveraging public-private partnerships to help the State reach its net negative emission goals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 973, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 702 Ways and Means on S.B. No. 646**

The purpose and intent of this measure is to respond to threats posed by plant pathogens to the commercial production of ornamental ginger.

More specifically, the measure appropriate funds to the University of Hawaii for:

- (1) Statewide research into ornamental ginger pathogens;
- (2) Prevention of the spread of these pathogens;
- (3) Production and distribution of pathogen-free ornamental ginger plants; and
- (4) Outreach to producers of ornamental ginger plants.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Farm Bureau, East Oahu County Farm Bureau, Land Use Research Foundation of Hawaii, Aina Ho'okupu o Kilauea, Waimanalo Agricultural Association, Hawaii Floriculture and Nursery Association, Hawaii Cattlemen's Council, and five individuals.

Your Committee finds that this measure's multi-faceted approach to addressing existing and emerging plant pathogens affecting the commercial production of ornamental ginger will help to control and prevent the spread of these pathogens and thus protect the health of ornamental ginger plants and their long-term sustainability as a floriculture product.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$125,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 646, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 703 Ways and Means on S.B. No. 710**

The purpose and intent of this measure is to provide educational opportunities to incarcerated women to improve their post-release prospects.

More specifically, the measure:

- (1) Requires the McKinley Community School for Adults to work with Hawaii Friends of Restorative Justice to provide counseling services for incarcerated women participating in the education and reentry program for incarcerated women that is developed and administered by Hawaii Friends of Restorative Justice; and
- (2) Appropriates moneys for the education and reentry program.

Your Committee received written comments in support of this measure from the Department of Education, Department of Public Safety, University of Hawaii, Hawaii Friends of Restorative Justice, The Women's Prison Project, and two individuals.

Your Committee finds that providing funding to continue this successful program, which has helped incarcerated women achieve their educational goals and increase their passage rates for the General Educational Development test, will have positive impacts on incarcerated women and help to lower recidivism rates in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$225,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 710, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 710, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 704      Ways and Means on S.B. No. 898**

The purpose and intent of this measure is to temporarily expand the State Rent Supplement Program to provide additional assistance to qualified persons who are sixty-two years of age or older and homeless, or at imminent risk of becoming homeless.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Disability and Communication Access Board, AARP Hawaii, Catholic Charities Hawaii, Partners in Care, and numerous individuals.

Your Committee received written comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that rising costs and elders' fixed incomes make elders especially vulnerable to homelessness. The rent assistance program established by this measure will help ensure that the State's at-risk kupuna have access to safe and affordable housing.

Your Committee notes that the Hawaii Public Housing Authority estimates that an appropriation of approximately \$1,000,000 and the creation of one full-time equivalent (1.0 FTE) Housing Specialist II position will be needed to serve approximately two hundred fifty households.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 898, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 705      Ways and Means on S.B. No. 1277**

The purpose and intent of this measure is to appropriate funds to satisfy claims against the State or its officers or employees for the overpayment of taxes, or for refunds, reimbursements, payments of judgments or settlements, or other liabilities.

Your Committee received written comments in support of this measure from the Department of Education, Department of the Attorney General, and Department of Transportation.

Your Committee finds that the State has a responsibility to promptly satisfy all claims against the State upon the resolution of those claims and that timely passage of this measure will help to minimize the State's obligation to pay interest that accrues on the claim amounts.

Your Committee has amended this measure by:

- (1) Including, at the request of the Department of the Attorney General, one additional claim that has been resolved and two miscellaneous claims for the reissuance of outdated checks that were misplaced or lost and for which a claim has been filed with the Attorney General in compliance with section 37-77, Hawaii Revised Statutes;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1277, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 706      Ways and Means on S.B. No. 1354**

The purpose and intent of this measure is to authorize the Department of Hawaiian Home Lands to assume historic preservation review of the effect of certain proposed projects for lands under its jurisdiction.

The authorization requires the Department of Hawaiian Home Lands to:

- (1) Designate each review to a competent and experienced preservation officer;
- (2) Ensure that copies of certain documents are provided to the Department of Land and Natural Resources for incorporation into the historic preservation digital document management system and library;
- (3) Provide the Department of Land and Natural Resources with written notice of certain information; and
- (4) Consult with the Office of Hawaiian Affairs when reviewing historic properties that are important to Native Hawaiians.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee received written comments in opposition to this measure from the Historic Hawaii Foundation.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that state historic preservation law is important for the protection and management of the State's historic properties and burial sites. Your Committee further finds that the law requires the Department of Hawaiian Home Lands, before it proceeds with any proposed project relating to lands under its jurisdiction, to consult with the Department of Land and Natural Resources regarding the effect of the project upon a historic property or burial site. However, your Committee believes that authorizing the Department of Hawaiian Home Lands to assume review for certain projects, as proposed by this measure, would facilitate the review process without sacrificing the preservation of important historical and cultural resources.

Your Committee has amended this measure by:

- (1) Clarifying that the date upon which the Department of Hawaiian Home Lands will assume responsibility for project review shall be among the information included in the written notice that the Department of Hawaiian Home Lands provides to the Department of Land and Natural Resources;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1354, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1354, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 707      Ways and Means on S.B. No. 629**

The purpose and intent of this measure is to require that contracts entered into by the Hawaii Tourism Authority for the management of the convention center facility also include marketing for the uses of the facility.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Hawaii Tourism Authority.

Your Committee finds that combining the management and marketing contracts for the Hawaii Convention Center into one contract will help to ensure that the State receives the best value on the use of the moneys appropriated for the convention center.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 629, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 708      (Majority) Judiciary on S.B. No. 627**

The purpose and intent of this measure is to authorize election candidates to use campaign funds for child care and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Hawai'i Children's Action Network Speaks!, Vote Mama Foundation, and two individuals.

Your Committee finds that individuals who take on primary child and other dependent caregiving roles offer important, unique insights into policymaking. However, the high cost of child and dependent care may prohibit individuals, particularly those from working class backgrounds, from seeking office. Recognizing that child care obligations weigh heavily on an individual's decision to run for election, in 2018, the Federal Election Commission authorized federal candidates to spend campaign funds on child care expenses. This measure therefore aligns state statute with federal regulations to help support child caregivers running for office in the State and extend the same treatment to other vital household dependent caregivers.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 627 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 709 (Majority Judiciary on S.B. No. 455)**

The purpose and intent of this measure is to:

- (1) Extend the term of the Oversight Coordinator for the Hawaii Correctional System Oversight Commission;
- (2) Require the Oversight Coordinator be subject to the advice and consent of the Senate;
- (3) Specify that the Commission shall take measures as necessary to maintain confidentiality in investigations; and
- (4) Broaden the Oversight Coordinator's power to make inquiries, obtain information, and inspect the premises of agencies and correctional facilities.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Correctional System Oversight Commission, Community Alliance on Prisons, Hawai'i Health and Harm Reduction Center, and one individual. Your Committee received testimony in opposition to this measure from the Civil Beat Law Center for the Public Interest. Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that transforming a corrections system that has been focused on punishment and isolation to a more rehabilitative and therapeutic model will take time. Your Committee believes that a two-year term for the Oversight Coordinator of the Hawaii Correctional System Oversight Commission is insufficient to facilitate the transition of the corrections system to a rehabilitative and therapeutic model. This measure will support the creation of a more just and equitable corrections system by extending the term of the Oversight Coordinator, ensuring that a qualified person serves as the Oversight Coordinator, and granting the Commission the authority to hold meetings closed to the public when conducting investigations to maintain confidentiality.

Your Committee notes that various testifiers made valid points in their testimony regarding the scope of the exemption from open meeting requirements provided by this measure, and respectfully requests that these concerns be considered as this measure moves forward in the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 455, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 710 Judiciary on S.B. No. 422**

The purpose and intent of this measure is to make a housekeeping amendment to section 341-6, Hawaii Revised Statutes, to delete a reference to a repealed section.

Your Committee received testimony in support of this measure from the State Environmental Advisory Council and Office of Planning and Sustainable Development.

Your Committee finds that Act 152, Session Laws of Hawaii 2021 (Act 152), repealed sections 341-3 and 341-4, Hawaii Revised Statutes, to facilitate the administrative transfer of the Environmental Advisory Council from the Department of Health to the Office of Planning and Sustainable Development. However, Act 152 neglected to repeal all references to these sections throughout the Hawaii Revised Statutes. Therefore, this measure removes the reference to section 341-4, Hawaii Revised Statutes, from section 341-6, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 422, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 711 Judiciary on S.B. No. 156**

The purpose and intent of this measure is to:

- (1) Require the Board of Education to hold not less than six community forums annually, with at least one community forum in each county;
- (2) Require the Board to include an open forum for public comments on non-agenda items; and

- (3) Require a report to the Legislature on implementing open forums.

Your Committee received testimony in support of this measure from the Office of Information Practices and one individual. Your Committee received comments on this measure from the Board of Education.

Your Committee finds that the Board of Education's mission is to "promote excellence and equity in Hawai'i's public schools and enable all students to meet their own unique and varied potentials". Your Committee also finds that the Board strives to achieve its mission through the enactment of public policy. However, the ability to craft effective policy requires a full and robust understanding of the needs and concerns of parents, students, and families. This, in turn, requires ample opportunities for public input and participation. However, your Committee finds that under the existing law, the Board is required to hold just one community meeting annually in each county. Therefore, this measure will increase the opportunities for public participation by requiring the Board to hold at least six community forums annually.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 156, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 712      Judiciary on S.B. No. 107**

The purpose and intent of this measure is to:

- (1) Authorize a majority of the members of the Board of Education to elect a chairperson from among the members of the Board;
- (2) Authorize the members to annually elect a chairperson upon the start of the next confirmed term for members; and
- (3) Remove the requirement that the chairperson be an at-large member.

Your Committee received comments on this measure from the Board of Education.

Your Committee finds that in 2010, the Legislature passed H.B. 2376, H.D. 3, S.D. 2, C.D. 1, which proposed an amendment to the Hawaii State Constitution to change the Board of Education composition from one elected by voters to one appointed by the Governor. Hawai'i voters approved the constitutional amendment later that year. Presently, the Board of Education chairperson is selected from among the at-large members by the Governor. However, in periods of transition between administrations, a delay in the appointment of a Board of Education chairperson may affect official business. This measure stabilizes the Board of Education's leadership, especially in periods of transition, to ensure the continuation of policy that provides Hawai'i's keiki with a high quality education.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 713      (Majority) Judiciary on S.B. No. 54**

The purpose and intent of this measure is to:

- (1) Prohibit the operation of gasoline-powered leaf blowers in any urban land use district;
- (2) Increase the fine for offenses of leaf blower restrictions and provide for the forfeiture of gasoline-powered leaf blowers upon a third violation; and
- (3) Remove the exemption on leaf blower restrictions for government agencies.

Your Committee received testimony in support of this measure from the Department of Transportation and four individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and two individuals. Your Committee received comments on this measure from the Department of Education and Department of the Attorney General.

Your Committee finds that gasoline-powered leaf blowers are a public nuisance. The obnoxious noise created by gasoline-powered leaf blowers annoys, awakens, and frustrates people, detracting from the general quality of life of those nearby. Further, operating at approximately ninety decibels, gasoline-powered leaf blowers can cause hearing loss after just two hours of exposure, which is an especially serious issue for landscape workers. Additionally, gasoline-powered leaf blowers contribute to carbon emissions. Your Committee finds that while perhaps efficient in its purpose, quieter and equally viable alternatives to gasoline-powered leaf blowers are available. Therefore, this measure prohibits the use of gasoline-powered leaf blowers in any urban land use district.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 54, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 714      Judiciary on S.B. No. 22**

The purpose and intent of this measure is to:

- (1) Prohibit landlords, including those operating in public housing and educational dorm settings, from renting a dwelling unit that the landlord knows has a current bed bug infestation; and
- (2) Establish procedures that landlords shall take upon receiving notice of an actual or suspected bed bug infestation.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority and one individual. Your Committee received comments on this measure from the United State Department of Housing and Urban Development, Hawaii Pest Control Association, and one individual.

Your Committee finds that bed bug infestations are a growing problem in the United States. The United States Department of Agriculture, Environmental Protection Agency, and the Centers for Disease Control and Prevention consider bed bugs a public health pest. Although the insects are not known to transmit disease, bites may itch and cause an allergic reaction in some people, which may lead to secondary infections. The presence of bed bugs may also contribute to stress or anxiety. By addressing the prevalence of possible bed bug infestations in rental units, the State can protect renters from an emerging public health problem.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 22, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 715      Judiciary on S.B. No. 7**

The purpose and intent of this measure is to make necessary amendments to clarify certain references to the school facilities authority used in section 302A-1151.1, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the School Facilities Authority.

Your Committee finds that occasionally statutes require clarifying amendments. Act 217, Session Laws of Hawaii 2021, replaced the terms “department”, “board”, or “board of education” with “school facilities authority” in section 302A-1151.1, Hawaii Revised Statutes. The amended statute, however, contains redundant and confusing references that need clarification. This measure will clarify certain references to “school facilities authority”.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 7 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 716      Judiciary on S.B. No. 1396**

The purpose and intent of this measure is to amend section 4 of Act 153, Session Laws of Hawaii 2018, to make permanent the requirements under section 329-38.2, Hawaii Revised Statutes, to check the electronic prescription accountability system in certain situations as enumerated.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of Law Enforcement.

Your Committee finds that Act 153, Session Laws of Hawaii 2018, requires that the State’s prescription database be reviewed before the prescribing of opioids under certain conditions. This policy was created as part of the State’s strong response to prevent the opioid epidemic from taking a strong hold in the State. Moreover, the comprehensive efforts to reduce opioid prescriptions in Hawai‘i have been successful. This measure will make permanent the requirements under section 329-38.2, Hawaii Revised Statutes, to review the electronic prescription accountability system in certain situations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1396 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 717      Judiciary on S.B. No. 739**

The purpose and intent of this measure is to:

- (1) Reduce the requisite state of mind for the criminal offense of desecration from “intentionally” to “knowingly”; and
- (2) Simplify the definition of “desecrate”.

Your Committee received testimony in support of this measure from the Council for Native Hawaiian Advancement.

Your Committee finds that the historic and cultural heritage of the State is among its important assets. Tourism benefits the State through generation of economic activity; however, there is a need to ensure that visitors and residents treat cultural and historic resources with care and respect, and that historic and cultural sites are protected from abuse, vandalism, and desecration. Therefore, your Committee finds that this measure will increase protection of the State’s assets and facilitate the enforcement of the prohibition of acts of desecration at sites that possess significant cultural and historic value.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 739 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 718 (Majority) Judiciary on S.B. No. 47**

The purpose and intent of this measure is to:

- (1) Require candidate names to be randomized on individual ballots and randomly rotated across precincts;
- (2) Require the Office of Elections to inform voters and candidates, by a method suited for the voting system, that the names of candidates may not be in alphabetical order; and
- (3) Require that any new contract entered into by the Office of Elections for equipment or services relating to preparing ballots or counting votes include the capability to randomize the names of candidates appearing on the ballot if technologically possible.

Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Office of Elections and League of Women Voters of Hawaii.

Your Committee finds that numerous studies show that the candidate listed first on a ballot has an advantage. Under existing law, candidates' names are listed in alphabetical order from top to bottom, giving advantage to whomever's surname begins at the start of the alphabet. Therefore, your Committee finds that to ensure that candidates are not continually advantaged due to preferential ballot placement of their name, placement of candidate's names should be randomized.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 47 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Awa). Excused, none.

**SCRep. 719 Judiciary on S.B. No. 466**

The purpose and intent of this measure is to prohibit noncandidate committees from making expenditures on the day of any election and the two-week period preceding any election.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that allowing noncandidate committees to make expenditures on or around the day of an election could create the perception that the expenditures are for the purpose of influencing the outcome of the election. Your Committee further finds that there are concerns of growing apathy and lack of participation in the government process due partially to the lack of faith and trust in the government. This measure imposes limitations on the making of certain expenditures, which will help to restore confidence in state elections.

Your Committee has amended this measure by specifying that a noncandidate committee shall also not make any contribution or disseminate any advertisements on the day of any election, nor during the two-week period preceding any election.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 466, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 720 Judiciary on S.B. No. 228**

The purpose and intent of this measure is to:

- (1) Establish the offense of fraud as a class B felony;
- (2) Establish the offense of making a false, fictitious, or fraudulent claim against the State or a county as a class C felony; and
- (3) Establish the offense of the use of false statements or entries in matters within the jurisdiction of the executive, legislative, or judicial branches of the State.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Campaign Spending Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, Commission to Improve Standards of Conduct, and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the League of Women Voters of Hawaii.

Your Committee finds that the state laws should be amended to reflect the egregious nature of certain offenses, such as bribery, that involve a serious abuse of authority, or the betrayal of the public's trust to a heightened degree. Every day, thousands of dedicated government workers serve the public diligently and honorably, and their hard work and good reputation should not be marred by those who would selfishly seek their own profits. Therefore, criminal penalties should be enhanced for offenses involving public corruption. This measure will provide a mechanism to increase the public's trust and confidence in state and local government while providing law enforcement with a tool to adequately deter and commensurately punish acts of public corruption.

Your Committee has amended this measure by:

- (1) Incorporating changes proposed by the Department of the Attorney General by:

- (A) Deleting language that would have required that a person convicted for fraud be sentenced to a mandatory minimum term of imprisonment of one year, without the possibility of probation;
  - (B) Deleting language that would have prohibited any person charged with the offense of making a false, fictitious, or fraudulent claim from being eligible for a deferred acceptance of guilty plea or nolo contendere plea;
  - (C) Changing the requisite mindset for the offense of use of false statements or entries from “knowingly and willfully” to “intentionally or knowingly”;
  - (D) Clarifying that the offense of use of false statements or entries, includes the use of a false document if that document is being used in a way that the false information is being presented as true, or the false information is being used to substantiate a conclusion; and
  - (E) Making the use of false statements or entries a class C felony; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 228, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 721      Judiciary on S.B. No. 911**

The purpose and intent of this measure is to clarify that a prospective juror is disqualified to serve as a juror if they have been convicted of a felony and have not been finally discharged, in addition to not being pardoned.

Your Committee received testimony in support of this measure from the Office of Public Defender, Community Alliance on Prisons, Drug Policy Forum of Hawai‘i, Hawai‘i Health & Harm Reduction Center, and four individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that it is estimated that there are approximately four thousand nine hundred residents in Hawai‘i who have been convicted of felonies and served their sentence. Despite having served their sentence, existing law prevents these residents from serving on a jury, perpetuating the stigma that a convicted individual is incapable of reintegrating back into society. Your Committee believes it is in the best interest of Hawai‘i’s democratic system for the State to work toward affirming the rights of all individuals to be allowed fair and equitable participation in the State’s judicial system.

Your Committee has amended this measure by:

- (1) Amending legislative findings to specify that nineteen states and the District of Columbia allow individuals who have completed their incarceration for a felony are, after varying passages of time, eligible to serve on a jury, and four states: Colorado, Illinois, Iowa, and Maine, do not have any automatic exclusion of the right to serve on a jury;
- (2) Adding a definition of “finally discharged”; and
- (3) Inserting an effective date of January 1, 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 911, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 722      Judiciary on S.B. No. 410**

The purpose and intent of this measure is to:

- (1) Require the court to automatically seal or remove from the Judiciary’s publicly accessible database any information relevant to the arrest or case of a person for whom an expungement order has been entered; and
- (2) Require the Judiciary and the Examiner of Drivers to no longer include dismissed traffic citations in public driver’s records.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Opportunity Youth Action Hawai‘i, Community Alliance on Prisons, and five individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that court records that have been dismissed or expunged from a person’s record may still be accessed by prospective employers, landlords, lenders, educational institutions, and others. Though dismissed or expunged, these records can be regarded negatively and have a significant and long-lasting impact on a person’s future. Your Committee further finds that there is no process currently available to request traffic citations that have been dismissed to be excluded from a person’s record, such as a traffic abstract. For a person who has received an expungement order, the current process to have their records and other information pertaining to the arrest or case sealed or removed from the Judiciary’s publicly accessible electronic database requires an additional petition. This measure will streamline the process for people who need their records to be expunged.

Your Committee has amended this measure by:

- (1) Adding legislative findings to explain the purpose of the measure;

- (2) Inserting language that prohibits dismissed traffic citations from appearing in the traffic abstract for all drivers, not just commercial drivers; and
- (3) Inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 410, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 723 (Majority) Judiciary on S.B. No. 109**

The purpose and intent of this measure is to replace gender-specific terminology used in adoption and divorce matters with gender-neutral terminology.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, and nine individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that gender-inclusive language is a powerful way to promote gender equality and remove gender bias from this world. The usage of gender-neutral terminology allows individuals to have a safe space that does not perpetuate the exclusion of gender nonconforming individuals from the legal system. This, alone, empowers success, promotes inclusiveness, and demonstrates respect for all backgrounds. This measure will ensure that all individuals are recognized and respected in the legal system, regardless of their gender identity.

Your Committee has amended this measure by:

- (1) Incorporating the changes proposed by the Department of the Attorney General by:
  - (A) Replacing the references to "mother" with "birthing parent" and replacing the references to "father" with "non-birthing parent" throughout;
  - (B) Replacing the references to "stepfather" with "birthing parent's spouse" throughout; and
  - (C) Replacing the reference to "uncle and niece, aunt and uncle" with "a person and the person's biological sibling";
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 109, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Gabbard). Noes, 1 (Awa). Excused, none.

**SCRep. 724 Judiciary on S.B. No. 789**

The purpose and intent of this measure is to:

- (1) Prohibit the construction of new farm dwellings on agricultural park lots beginning January 1, 2024; and
- (2) Prohibit residence within an unpermitted farm dwelling and authorize inspections for enforcement.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from Hydroponics Alternatives LLC and two individuals. Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that Hawai'i communities are suffering from various difficulties, including health and safety issues, caused by farm dwellings on agricultural park lots. Furthermore, your Committee recognizes that the concerns about farm dwellings stemming from their residential use are not only arising from community residents, but from farmers and ranchers as well. Your Committee believes that the well-being of the State's local citizens is of paramount importance, therefore, this measure aims to address dust, noise pollution, and other nuisances caused by the inappropriate usage of farm dwellings by authorizing comprehensive evaluations for current farm dwellings and establishing a date where new farm dwellings shall not be constructed on any agricultural park lot.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 789 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 725 Judiciary on S.B. No. 775**

The purpose and intent of this measure is to:

- (1) Require hunting guides who take their clients to hunt on private lands to first obtain written permission from the owner of the private land, or occupier or holder, where appropriate; and

- (2) Require hunting guides to provide copies of the written permissions obtained to hunt on private lands as part of their annual reports to the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Cattlemen's Council, Inc.; and three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that hunting access is important as a food source, recreation, and to remove unmanaged ungulates from the land. However, proper management of hunting is of paramount importance to ensure the safety of hunters and wildlife. Hunting guides are currently required to submit an annual report to the Department of Land and Natural Resources within thirty days of their guide license expiration. The addition of a written permission form to be submitted with the annual report for hunts guided on private lands would not only provide greater accountability, but the additional form would not be an administrative burden to the State. This measure creates greater accountability of hunting guides who lead hunts on private lands while also ensuring continued hunting access across the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 775, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 726      Judiciary on S.B. No. 671**

The purpose and intent of this measure is to:

- (1) Exclude from the definition of drug paraphernalia, testing products utilized in determining whether a controlled substance contains chemicals, toxic substances, or hazardous compounds in quantities that can cause physical harm or death, including but not limited to fentanyl test strips; and
- (2) Define "fentanyl test strip".

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Health and Harm Reduction Center, Drug Policy Forum of Hawai'i, and four individuals.

Your Committee finds that there were seventy-four fatal opioid poisonings in the State in 2021, of which fifty were linked to synthetic opioids, including fentanyl. Fentanyl test strips may be useful to determine if drugs were mixed with fentanyl and help to prevent deadly overdoses. This measure will aid the State in the ongoing opioid crisis by providing greater awareness to the community of the illicit drug supply and necessary steps to prevent and reduce overdoses.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 671, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 727      Judiciary on S.B. No. 655**

The purpose and intent of this measure is to give authority to the Department of Agriculture to align state hemp production administrative rules with federal law, with regard to exemptions for fiber, fuel, and seed grain hemp crops.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Hemp Farmers Association, Hawaiian Choice, Agripelago, Hawai'i Farm Bureau, Hawai'i Farmers Union United, and two individuals. Your Committee received comments on this measure from Hawai'i Sustainable Farms.

Your Committee finds that hemp continues to provide an opportunity for farmers to diversify and expand agriculture production into new areas. Despite this, overregulation slows the growth of the hemp industry, which otherwise could foster sustainable resources and food security in the State. This measure will support and grow Hawai'i's hemp industry by giving the Department of Agriculture the authority to align certain state hemp production administrative rules with federal law.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 655, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 728      (Majority) Judiciary on S.B. No. 372**

The purpose and intent of this measure is to require greater accountability and transparency in the government's provision of law enforcement services by:

- (1) Providing that a law enforcement officer has a duty to intervene if the law enforcement officer reasonably believes that another law enforcement officer is using unnecessary or excessive force on an arrestee;
- (2) Requiring the law enforcement officer to report the incident to the fellow law enforcement officer's supervisor; and
- (3) Requiring relevant departments to submit annual reports to the Legislature.

Your Committee received testimony in support of this measure from the Honolulu Police Department and two individuals. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee finds that building trust with the community is fundamental to effective policing. However, that integral trust has been shaken recently due to several national high profile killings of unarmed young black men and women by law enforcement officers through the use of excessive and unreasonable force. Your Committee further finds that establishing a duty to intervene for law enforcement officers who observe instances of excessive force will provide accountability for police misconduct. Your Committee finds that, while the county police departments may currently have policies and procedures in place to ensure that law enforcement officers intervene when they reasonably believe that another officer is using unnecessary force, this measure will serve to enshrine that duty in statute and help rebuild public confidence and trust, improve community interactions, and ensure that all citizens are held equal under the law.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 372, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 729      Judiciary on S.B. No. 346**

The purpose and intent of this measure is to make it discretionary for authorized emergency vehicles to use sirens when responding to an emergency or in other specified situations if the siren is not reasonably necessary under the circumstances.

Your Committee received testimony in support of this measure from the State of Hawaii Organization of Police Officers, Liliuokalani Gardens Association of Apartment Owners, and three individuals.

Your Committee finds that providing emergency responders with the flexibility to use their sirens in certain situations will alleviate noise pollution; decrease any unnecessary disturbance of citizens, especially in high-density residential areas at night when the streets are empty of cars and pedestrians; and curb unnecessary traffic situations and panic.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 346, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 730      (Majority) Judiciary on S.B. No. 316**

The purpose and intent of this measure is to establish additional penalties for dog owners whose dog destroys property while on land zoned for agricultural use.

Your Committee received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc. and one individual.

Your Committee finds that dogs that are unleashed or improperly secured can wander onto farms and other lands zoned for agricultural use and cause harm to a landowner's property, which may include sheep, cattle, goats, hogs, and chickens. Your Committee further finds that a penalty is necessary to act as a deterrent against irresponsible dog owners and to protect farmers and landowners from the unnecessary burdens caused by unleashed or improperly secured dogs. Therefore, this measure establishes a fine for damages to property caused by dogs on land zoned for agricultural use.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 316 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 731      Judiciary on S.B. No. 214**

The purpose and intent of this measure is to establish the offense of interference with the operation of a public transit vehicle.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board and Department of Transportation Services of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that many people rely on accessible public transit to participate in education, employment, health care, housing, and community life. Damage to accessible public transit vehicles may force transit agencies to take a vehicle out of service. This measure will maintain public transit services for everyone by protecting public transit vehicles from intentional damage.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 214, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 732      Judiciary on S.B. No. 74**

The purpose and intent of this measure is to:

- (1) Establish additional exclusions from the definition of "development" in chapter 205A, Hawaii Revised Statutes, to reduce the need for special management area permits for certain activities;
- (2) Repeal the seven thousand five hundred square foot threshold relating to the exclusion of single-family residences from the definition of "development"; and

- (3) Authorize the counties to further define single-family residence by ordinance for purposes of “development”.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawai‘i State Association of Counties, Office of the Mayor of the County of Maui, and one member of the Maui County Council.

Your Committee finds that the current statutory definition of “development” is broad and can result in a special management area use permit review being needed for projects that may not warrant the economic burdens of the rising costs of labor, building materials, and delays that accompany it. Your Committee further finds that the expansion of exclusions from the definition of “development” in existing law will ultimately help facilitate projects that are intended to preserve and protect Hawai‘i’s natural and cultural resources. This measure will assist in expediting the special management area permits process to avoid the increasing costs of labor and materials. Additionally, this measure will also advance the timely approval of significant projects, including the improvements of pedestrian and bicycling infrastructure, environmental and wildlife protection, and security at public facilities.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 74, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 733      Judiciary on S.B. No. 16**

The purpose and intent of this measure is to require that the Hawaiian version of a law be held binding if the law in question was originally drafted in Hawaiian and then translated into English.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and two individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that language is the carrier of culture. When cultures are vastly different, incongruence is often prevalent in the interpretation of one language by the other. ‘Ōlelo Hawai‘i, the Hawaiian language, is an enigmatically poetic language that invokes metaphor and kaona, hidden meaning, which pose a formidable challenge to interpret without a deep understanding of Native Hawaiian culture. Current law provides that the English version of a law is binding whenever there is any radical and irreconcilable difference between the English and Hawaiian version of any laws of the State. This measure brings further parity to both languages by recognizing ‘Ōlelo Hawai‘i as the original language of the land while also ensuring the continuity of the State’s legal tradition and history.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 16 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 734      Judiciary on S.B. No. 921**

The purpose and intent of this measure is to clarify that no statute of repose shall affect a condominium association’s right of action against a condominium developer sooner than two years after the period of developer control terminates.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that a condominium association’s right of action against a developer is expressly tolled during the period of developer control pursuant to section 514B-141(c), Hawaii Revised Statutes (HRS). In other words, the two-year statute of limitations period will not begin to run against a condominium association until the developer terminates control, ensuring that a condominium association will not lose its right to sue for design or construction defects if a developer purposefully maintains control for a period longer than two years.

However, your Committee also finds that section 514B-141(c), HRS, does not directly address the effect of the statute of repose contained in section 657-8, HRS, which relates to damages based on construction improvements. Your Committee further finds that this ambiguity could lead courts to interpret section 514B-141(c), HRS, to apply only to the statute of limitations and not to the statute of repose. Your Committee finds that the same rationale for tolling the statute of limitations until developer control terminates exists for the statute of repose. Therefore, this measure clarifies the existing law and preserves the rights of condominium associations to sue.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 921 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 735      (Majority) Commerce and Consumer Protection on S.B. No. 442**

The purpose and intent of this measure is to:

- (1) Authorize advanced practice registered nurses, in addition to physicians, to provide services under the Our Care, Our Choice Act (OCOCA) in accordance with their scope of practice and prescribing authority;
- (2) Authorize advanced practice registered nurses, in addition to psychiatrists, psychologists, and clinical social workers, to provide counseling to a qualified patient for purposes of the OCOCA;

- (3) Reduce the mandatory waiting period required by the OCOCA, between a patient's oral requests from twenty days to five days; and
- (4) Waive the mandatory waiting period for those terminally ill individuals not expected to survive the mandatory waiting period under the OCOCA, subject to certain conditions.

Your Committee received testimony in support of this measure from the Department of Health, Board of Nursing, Compassion and Choices, American Nurses Association in Hawai'i, Hawai'i Association of Professional Nurses, Hawaii Society of Clinical Oncology, Hawai'i Pacific Health, Hawai'i Psychological Association, Hawaiian Islands Association for Marriage and Family Therapy, Kūpuna Caucus of the Democratic Party of Hawai'i, and forty individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawai'i State Center for Nursing.

Your Committee finds that the OCOCA allows terminally ill individuals to request and receive prescription medication that allows them to end life in a peaceful, humane, and dignified manner. Your Committee further finds that since the OCOCA was enacted, a shortage of physicians on the neighbor islands has unintentionally created barriers and burdens to receiving timely care. Furthermore, evidence from other medical-aid-in-dying authorized states demonstrates that even with full access to a supportive health care facility and providers, a high percentage of terminally ill individuals die while waiting to complete the legal requirements to qualify for medication under the respective state laws. Hawaii's waiting periods are the longest among the states that have enacted medical-aid-in-dying laws. Therefore, this measure amends the OCOCA to ease these barriers while maintaining the safeguards intended to protect patients.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 442, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 736 Commerce and Consumer Protection on S.B. No. 473**

The purpose and intent of this measure is to exempt drug manufacturers, wholesale prescription drug distributors, and third-party logistics providers of home dialysis drugs, supplies, and devices from the license, registration, and permit requirements for pharmacies, under certain conditions.

Your Committee received testimony in support of this measure from Liberty Dialysis-Hawaii. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Board of Pharmacy.

Your Committee finds that patients who need dialysis may have the option to obtain treatment in the comfort of their own home rather than at an outpatient dialysis center. Home dialysis provides greater scheduling flexibility, fewer food restrictions, and better patient outcomes. Additionally, home dialysis treatments can also be completed in longer, more frequent sessions that are gentler on the patient. To provide dialysis patients with an improved quality of life, this measure will promote increased access to care for home dialysis drugs and devices in the State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 473, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (McKelvey, Richards). Noes, none. Excused, none.

**SCRep. 737 Commerce and Consumer Protection on S.B. No. 599**

The purpose and intent of this measure is to:

- (1) Allow certain physician assistants to sign orders for respiratory therapy and plans of care; and
- (2) Expand the class of health care providers under whom respiratory therapists may practice respiratory care to include osteopathic physicians, physician assistants, and advanced practice registered nurses.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Board of Nursing, Hawaii Medical Board, Hawai'i Academy of Physician Assistants, Hawai'i Association of Professional Nurses, Hawai'i State Center for Nursing, Hawai'i Pacific Health, Kaiser Permanente Hawai'i, and two individuals.

Your Committee finds that, to provide patients in the State with high quality care despite the State's chronic provider shortage, it is crucial that the scopes of practice of health care providers reflect the full extent of their training and capabilities. Your Committee further finds that physician assistants and advanced practice registered nurses are credentialled to provide critical care to both adults and children, and are educated, trained, and authorized to write orders to manage ventilators. Your Committee also finds that federal regulations allow qualified non-physician health care providers, including physician assistants and advanced practice registered nurses, to order respiratory therapy for patients to be implemented by respiratory therapists, but existing state law prohibits them from prescribing, ordering, or directing respiratory care services. This measure aligns state law with federal standards to provide greater access to respiratory health care services for the residents of the State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 599, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 738 Commerce and Consumer Protection on S.B. No. 608**

The purpose and intent of this measure is to:

- (1) Require pharmacies to:
  - (A) Provide accessible prescription drug label information to individuals who have difficulty seeing or reading standard printed prescription drug container labels; and
  - (B) Inform the public that prescription drug label information is available in alternate accessible formats for individuals who have difficulty seeing or reading prescription drug container labels; and
- (2) Require the Board of Pharmacy to adopt certain rules by December 31, 2023.

Your Committee received testimony in support of this measure from the Hawaii State Committee of Blind Vendors, National Federation of the Blind of Hawaii, National Organization of Parents of Blind Children, and nine individuals.

Your Committee finds that regulation of prescription drug labels is largely a state, not a federal, responsibility. Your Committee also finds that existing state law requires dispensing pharmacies to label each prescription drug container with specific information that identifies the drug and provides information necessary for health and safety. However, individuals with low vision or blindness may experience difficulty in reading the labels, leading them to inadvertently take the wrong type of medication, the wrong dosage at the wrong time or under the wrong instructions, thereby endangering their health and safety. This measure addresses this concern by requiring pharmacies to provide prescription drug label information in alternate formats accessible to individuals who are unable to effectively read standard prescription labels.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 739 Ways and Means on S.B. No. 1291**

The purpose and intent of this measure is to increase the resiliency of state facilities to climate change and sea level rise.

Specifically, this measure requires the Office of Planning and Sustainable Development, in cooperation with each state agency having operational responsibilities over state facilities, to develop a standardized process for assessing the vulnerability of state facilities to sea level rise, including:

- (1) A standardized procedure and template; and
- (2) Guidance to agencies for conducting the vulnerability assessments.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; University of Hawaii; Climate Change Mitigation and Adaptation Commission; Office of Planning and Sustainable Development; Environmental Caucus of the Democratic Party of Hawaii; Wild Kids; Imua Alliance; and one individual.

Your Committee finds that approximately two hundred seventy-five facilities within the sea level rise exposure area are owned and managed by twenty different state agencies. Your Committee further finds that this measure will assist the State in prioritizing future capital improvements required to adapt to sea level rise.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1291, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 740 Ways and Means on S.B. No. 1161**

The purpose and intent of this measure is to require the State to pay military personnel called to active duty, without delay and at the same rate as their active duty counterparts, and to provide them with a basic housing allowance.

Your Committee received no written comments on this measure.

Your Committee finds that this measure will ensure that military members who are ordered to active duty to assist the State during times of disaster receive equitable and timely pay and benefits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1161, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 741 Ways and Means on S.B. No. 784**

The purpose and intent of this measure is to establish and appropriate moneys for a one-year airline subsidy pilot program at Molokai airport to assist airlines in offsetting the costs of operation.

Your Committee received written comments in support of this measure from Maui Chamber of Commerce and one individual.

Your Committee received written comments in opposition to this measure from three individuals.

Your Committee received written comments on this measure from the Department of the Attorney General and four individuals.

Your Committee finds that incentivizing the provision of air transport services to Molokai will help to offset the airfare costs borne by those Molokai residents who must travel to and from the island.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 742 (Majority) Commerce and Consumer Protection on S.B. No. 385**

The purpose and intent of this measure is to establish registration requirements and driver's licensing requirements for the operation of electric rickshaws.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that there is a growing need for cost-effective transportation alternatives to combat rising fuels costs and curb vehicle carbon emissions in the State. Your Committee further finds that the electric rickshaw, also known as the tuk-tuk or e-tuk, is a popular and commonly used vehicle in India and other Southeast Asian nations that readily provide transport, taxi, and delivery services for visitors and residents. This measure allows for individuals or parties to register and operate an electric rickshaw on a public street, road, or highway in the State with a valid type 3 driver's license and sets certain safety requirements and parameters regarding the operation of electric rickshaws.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 385, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 743 Judiciary on S.B. No. 18**

The purpose and intent of this measure is to require domestic and foreign corporations to provide their shareholders with reports of independent expenditures and political contributions.

Your Committee received comments on this measure from the Hawaii Bankers Association.

Your Committee finds that the State's corporate reporting requirements deter actual corruption by corporations attempting to circumvent reporting and disclosure requirements and enable corporations to avoid the appearance of corruption by exposing the source of contributions and expenditures. Shareholders may use this information to file derivative suits. Your Committee further finds that corporate reporting requirements provide a means of detecting violations of valid contribution limitations and preventing circumvention of the State's campaign spending limitations, including rules that bar contributions by foreign corporations. This measure will provide additional scrutiny of compliance with reporting and disclosure requirements.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 18, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 744 Judiciary on S.B. No. 465**

The purpose and intent of this measure is to authorize qualifying patients and qualifying out-of-state patients to transport cannabis between islands of the State for personal medical use; provided that no individual or entity shall be required to violate federal law.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawai'i, Akamai Cannabis Consulting, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Transportation and Department of Health.

Your Committee finds that patients sometime need to travel interisland with their medical cannabis in order to get treatment for their health. This measure will specifically allow qualifying patients to travel interisland with their medical cannabis.

Your Committee has amended this measure by:

- (1) Specifying that no individual or entity shall be required to violate federal law with regard to the interstate transport of cannabis;
- (2) Specifying that state law and its protections apply only within the jurisdictional limits of the State, which extend twelve nautical miles from the perimeter of each island and connect Oahu, Maui, Molokai, Lanai, and Kahoolawe;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 465, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 465, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 745 (Majority) Judiciary on S.B. No. 353**

The purpose and intent of this measure is to clarify that when trespass involves public land, all state and county law enforcement officers are authorized to and shall enforce trespass laws, without regard to whether the land is owned by the State or by a county.

Your Committee received testimony in support of this measure from the Hawai'i State Public Library System and University of Hawai'i System. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that jurisdictional uncertainties have limited cooperation between county and state law enforcement officers to effectively remove trespassers from public property. This measure will make it clear that either state or county law enforcement can enforce trespass violations regardless of which governmental entity owns or controls a parcel of public land.

Your Committee has amended this measure by:

- (1) Adding language that specifies that this measure shall not affect native Hawaiian traditional and customary rights as set forth in the Hawaii State Constitution;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 353, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 353, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 746 (Majority) Judiciary on S.B. No. 224**

The purpose and intent of this measure is to:

- (1) Allow for noise control infractions to be processed under the traffic and emergency period infractions adjudication process; and
- (2) Grant the District Court concurrent jurisdiction over noise control infractions committed by minors.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Office of the Mayor of the City and County of Honolulu, Department of the Prosecuting Attorney of the City and County of Honolulu, and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that many living in urban and high-density areas make legitimate noise complaints quite frequently. Each county has adopted noise control ordinances, violations of which result in the issuance of a citation. The State currently has an expedited adjudication process for similar citations issued for violations of traffic and emergency period infractions. This measure will provide an extra tool for county police officers to expedite the adjudication of noise control infractions and maintain acceptable living standards for the residents of the State.

Your Committee has amended this measure by:

- (1) Clarifying that the preaddressed envelope included with the notice of traffic infraction, notice of emergency period infraction, or notice of noise control infraction be directed to the traffic violations bureau of the applicable district court; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 224, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 224, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 747 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 490**

The purpose and intent of this measure is to appropriate monies to the Department of Law Enforcement to hire law enforcement officers dedicated to investigating complaints, conducting investigations, and cooperating with enforcement authorities to ensure compliance with all state laws and rules and county ordinances on Hawaiian home lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands. Your Committees received comments on this measure from the Department of Law Enforcement.

Your Committees find that illegal activity occurring on Hawaiian home lands threatens the health and safety of the community. Responses to these issues by law enforcement, however, are inconsistent across the different counties. This measure appropriates monies to hire law enforcement officers dedicated to the Hawaiian home lands, which will allow for better coordination between state and county law enforcement and sufficient enforcement personnel for the Hawaiian home lands.

Your Committees have amended this measure by:

- (1) Adding language to provide that the law enforcement officers hired, though dedicated to the Hawaiian home lands, shall not be prohibited from exercising their law enforcement authority outside of the Hawaiian home lands; and
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion.

Your Committees note that the Senate Draft 2 of this measure contains an unspecified appropriation amount. Should subsequent committees to which this measure is referred choose to deliberate on this measure, your Committees respectfully request that consideration be given to inserting an appropriation amount of \$1,132,000 for twelve full-time equivalent (12.0 FTE) law enforcement officers.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 490, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 490, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwiki).

**SCRep. 748 Commerce and Consumer Protection on S.B. No. 504**

The purpose and intent of this measure is to prohibit the manufacture, sale, offer for sale, distribution for sale, and distribution for use of any food packaging, food service ware, cosmetic, or personal care product that contains perfluoroalkyl and polyfluoroalkyl substances, beginning on December 31, 2026.

Your Committee received testimony in support of this measure from the Department of Health, Chamber of Sustainable Commerce, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and nine individuals. Your Committee received testimony in opposition to this measure from the Personal Care Products Council and Retail Merchants of Hawaii.

Your Committee finds that perfluoroalkyl and polyfluoroalkyl substances (PFAS), commonly termed "forever chemicals", are toxic and regularly used chemical compounds that do not breakdown in the environment and can accumulate in animal and human tissue when consumed, applied directly on the skin, or when eating foods packaged with material containing these substances. Hawaii is not isolated from the global ubiquitous occurrences of these extremely toxic and persistent compounds, and may be far more vulnerable to the consequences of PFAS entering groundwater sources, streams, soil, and aquatic life ecosystems. This measure expands on Act 152, Session Laws of Hawaii 2022, by prohibiting additional types of food containers, food service ware, and cosmetic and personal care products, to continue to support the efforts to decrease the overall burden of PFAS contamination in Hawaii's environment.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 504, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 504, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fukunaga, Richards). Noes, none. Excused, none.

**SCRep. 749 (Majority) Commerce and Consumer Protection on S.B. No. 506**

The purpose and intent of this measure is to require self-service stations to put labels on gas dispensing equipment that advise consumers on the effects of fossil fuel consumption to human health and the environment.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Hawaii State Energy Office, Climate Protectors Hawai'i, Green Mobilists Sweden, and eight individuals. Your Committee received testimony in opposition to this measure from the Hawaii Energy Marketers Association and four individuals. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that Hawaii is particularly vulnerable to the effects of climate change. Accordingly, the State has established certain renewable energy goals to decrease the harmful effects of burning fossil fuels. Burning gasoline, diesel, and ethanol fuel also has major consequences on human health and the environment, including its contribution to climate change, and has been shown to lead to respiratory disorders and other negative health outcomes. This measure would require warning labels at fuel pumping stations to educate consumers of these negative impacts and help protect consumers and raise awareness as to how individual behavior can impact the climate, the environment, and public health.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 506, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 506, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey, Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 750 Commerce and Consumer Protection on S.B. No. 516**

The purpose and intent of this measure is to require that the identity statement used for labeling or advertising hemp products identify the percentage of Hawaii-grown hemp and hemp of other origins contained in hemp products.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Hawai'i Hemp Farmers Association; Kanalani Ohana Farm; Maui Farmers Union; Adaptations, Inc.; 'Ai Pōhaku; and twenty-one individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that hemp continues to provide an opportunity for farmers in the State to diversify and expand agricultural production into new areas. Currently, there is no law that requires hemp producers to disclose the origin of the hemp in their products, which limits Hawaii hemp farmers' ability to promote Hawaii hemp products. This measure will provide customers the opportunity to make an informed decision about the source of their purchases and provide local hemp farmers the opportunity to distinguish Hawaii hemp products on the global market.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 516, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 516, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 751 Commerce and Consumer Protection on S.B. No. 602**

The purpose and intent of this measure is to:

- (1) Establish permitting and education requirements for pharmacists ordering or collecting specimens for certain diagnostic tests or tests waived pursuant to the Clinical Laboratory Improvement Amendments of 1988 (CLIA); and
- (2) Expand the definition of "practice of pharmacy" to include the ordering of certain tests and collecting specimens for certain diagnostic or CLIA-waived tests.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo, Daniel K. Inouye College of Pharmacy; Board of Pharmacy; and two individuals.

Your Committee finds that there is a severe shortage of health care professionals in the State. Pharmacists can help fill the void of medical services, as pharmacies are geographically dispersed throughout the community with extended hours of operation, making access to health care provided through pharmacies convenient for patients in each locality. Furthermore, patients have established relationships of trust with and recognize pharmacists as health care professionals. Pharmacists possess the skills and knowledge necessary to perform diagnostic and CLIA-waived tests, which are non-technical and have a low risk for erroneous results. This measure expands the "practice of pharmacy" to include the performance of certain diagnostic or CLIA-waived tests to expand access to care across the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 602, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 752 Commerce and Consumer Protection on S.B. No. 390**

The purpose and intent of this measure is to repeal the sunset date of section 2 of Act 119, Session Laws of Hawaii 2021 (Act 119), thereby making permanent:

- (1) The requirement that the Hawaii Medical Board issue licenses in four levels of emergency response practice in counties with a population of five hundred thousand or greater; and
- (2) The creation of an additional licensure category for Emergency Medical Technicians 1, who are certified at a higher practice level than emergency medical technicians but do not provide ambulance services.

Your Committee received testimony in support of this measure from the Hawaii Medical Board.

Your Committee finds that emergency medical technicians, including firefighters and ocean safety lifeguards, provide immediate life-saving interventions to critical care patients while awaiting arrival of additional emergency medical services and are a vital part of a comprehensive emergency medical services system response. Emergency medical technicians, however, do not provide emergency ambulance services. Until 2021, state law relating to the certification of emergency medical personnel addressed only emergency ambulance service personnel and had no licensure category for emergency medical technicians who hold a National Registry Emergency Medical Technician certification. Accordingly, Act 119 created an additional licensure category of "Emergency Medical Technicians 1" and requires the Hawaii Medical Board to issue licenses in four levels of emergency response practice, including

Emergency Medical Technicians 1, in counties with a population of five hundred thousand or greater. However, these provisions of Act 119 are scheduled to repeal on July 1, 2027. This measure repeals this sunset date, thereby making permanent the authority given to the Hawaii Medical Board to license Emergency Medical Technicians who hold a National Registry Emergency Medical Technician certification.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion;

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 390, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 390, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 753 Commerce and Consumer Protection on S.B. No. 162**

The purpose and intent of this measure is to allow the Board of Dentistry to issue without examination:

- (1) A community service license to practice dental hygiene in the employment of a community health center and allow eligible candidates to submit as documentation and credentials, diplomas and certificates of graduation from a dental hygiene college or dental college that has a reciprocal agreement with the American Dental Association Commission on Dental Accreditation, recognized and approved by the Board;
- (2) A community service license to practice dentistry in the employment of a community health center and allow eligible candidates to submit as documentation and credentials, diplomas and certificates of graduation from a dental hygiene college or dental college that has a reciprocal agreement with the American Dental Association Commission on Dental Accreditation, recognized and approved by the Board, and certificates or other evidence satisfactory to the Board of having passed the Integrated National Board Dental Examination; and
- (3) A temporary license to practice dentistry exclusively under the auspices of a dental residency program, to graduates from a dental college that has a reciprocal agreement with the American Dental Association Commission on Dental Accreditation, recognized and approved by the Board.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Children's Action Network Speaks!, Hawaii Dental Association, Hawaii Dental Hygienists' Association, Hawaii Dental Service, Hawai'i Oral Health Coalition, Waikiki Health, and four individuals. Your Committee received comments on this measure from the University of Hawai'i System, Board of Dentistry, and Grassroot Institute of Hawaii.

Your Committee finds that there is a shortage of medical professionals in the State, including dentists. Public health dentists and dental hygienists are often the primary providers for Hawaii's medically underserved areas. Improving the shortage in health care workers requires a multipronged strategy that includes addressing the State's regulatory scheme for health care professionals by easing the regulatory burdens and cost associated with becoming a licensed health care professional in the State. This measure addresses the oral health care professional shortfall to help support the most underserved and vulnerable populations, including Medicaid recipients and improve access to care.

Your Committee acknowledges testimony noting that the provision requiring a community dental license applicant to submit a certificate demonstrating the applicant passed the Integrated National Board Dental Examination should also apply to applicants for standard dentist licenses.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a provision allowing an applicant for a dentist license to submit a certificate or other evidence satisfactory to the Board of Dentistry that the applicant passed the Integrated National Board Dental Examination; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 162, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 754 (Majority) Commerce and Consumer Protection on S.B. No. 72**

The purpose and intent of this measure is to:

- (1) Beginning July 1, 2023, require the Public Utilities Commission (PUC) to render decisions on certain renewable projects, power purchase agreements, and cost recovery applications within one hundred eighty days of the filing of the application;
- (2) Exempt certain power purchase agreement amendments from the PUC review and approval process in certain circumstances; and
- (3) For ratemaking proceedings, require the PUC to complete its deliberations and issue its decision before six months from the date a public utility has filed its application for approval.

Your Committee received testimony in support of this measure from Hawaiian Electric and one individual. Your Committee received testimony in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Life of the Land, Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Citizens' Caucus,

350Hawaii, Climate Protectors Hawai'i, Americans for Democratic Action, and five individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that the timely completion and successful development of renewable energy projects is critically important to meet the State's renewable energy goals and to reduce reliance on fossil fuels, stabilize and reduce the volatility of customers' utility bills, and reduce greenhouse gas emissions. Achieving the State's decarbonization goals requires cooperation between all stakeholders, including public utilities, the PUC, developers, the community, agencies, and regulators. This measure requires the PUC to adhere to certain timelines in rendering decisions for applications for certain renewable projects, power purchase agreements, and cost recovery to better assist the State in meeting its goals.

Your Committee notes the concerns raised in the testimony submitted by the PUC that the time limits proposed by this measure would inhibit the PUC's ability to provide adequate procedural steps, such as holding evidentiary hearings, in considering applications that may require additional time to provide for due process. Additionally, the PUC noted that while it is typically able to complete application decisions in the time limits under existing law, there are exceptional cases that require more time due to delays outside the PUC's control. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language clarifying that this measure shall apply to applications filed on or after July 1, 2023;
- (2) Inserting language establishing the procedures and requirements for applications submitted to the PUC after July 1, 2023;
- (3) Inserting language establishing additional conditions that must be satisfied for amendments to a previously approved power purchase agreement to be exempt from the PUC's approval;
- (4) Inserting language that requires a public utility requesting an amendment to a power purchase agreement to submit an informational filing to the PUC and all original parties;
- (5) Deleting language that would have reduced the deadline for the PUC to complete its decisions concerning ratemaking proceedings from nine months to six months;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 72, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 72, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Fukunaga). Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 755 (Majority) Commerce and Consumer Protection on S.B. No. 764**

The purpose and intent of this measure is to:

- (1) Allow banks in the State to invest, in aggregate, up to two percent of the bank's total assets in limited partnerships, limited liability partnerships, limited liability companies, and corporations formed to invest in affordable housing residential properties; and
- (2) Require approval from the Commissioner of Financial Institutions to exceed this amount.

Your Committee received testimony in support of this measure from Central Pacific Bank, EAH Housing, Housing Hawai'i's Future, HPM Building Supply, Hawai'i Association of REALTORS, and Ahe Group. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the State needs up to 45,497 additional housing units to meet demand in Hawai'i by 2030. Your Committee additionally finds that Hawaii is presently facing a housing shortage across the islands and is especially in need of creative options to promote investment in the development of low-income affordable housing rentals. This measure increases the low-income housing tax credit investment limit for local banks to a level already permitted by the federal government to increase the available supply of capital, which will reduce unnecessary constraints in addressing soaring demand for affordable rental housing.

Your Committee has amended this measure by inserting an effective date of July 1, 2050 to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 764, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 756 Commerce and Consumer Protection on S.B. No. 756**

The purpose and intent of this measure is to establish the Access to Local Food Act to allow cottage food operations to sell cottage food products, under certain conditions, upon receiving a permit from the Department of Health.

Your Committee received testimony in support of this measure from the Chamber of Sustainable Commerce; Hawai'i Food+ Policy Internship 2023; Hawai'i Alliance for Progressive Action; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Hawaiian Goodness, LLC; and three individuals. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that the cottage food industry in the State has the potential to increase food security and the overall availability of locally-made food products in Hawaii. Your Committee also finds that the existing regulatory framework is challenging and burdensome for entrepreneurs of cottage food products. For example, all food producers are required to process their foods in licensed commercial kitchens, regardless of the type of food or size of business, this requirement can be costly and particularly difficult to comply with for small operations. This measure will benefit small-scale cottage food producers by allowing them to use non-licensed kitchens to process and sell certain food products, while balancing public health interests, to promote operational flexibility and the creation of jobs and investment opportunities for the local economy.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 756, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 756, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 757      Ways and Means on S.B. No. 1414**

The purpose and intent of this measure is to support research and training activities at the University of Hawaii.

Specifically, this measure:

- (1) Exempts certain University of Hawaii contracts involving research and training from the Hawaii Public Procurement Code;
- (2) Requires the Board of Regents to develop internal policies and procedures for the exempted procurements;
- (3) Repeals the requirement that the Board of Regents develop internal policies and procedures for the procurement of construction;
- (4) Authorizes the President of the University of Hawaii to delegate procurement authority for research and training to the Vice President for Research and Innovation; and
- (5) Requires the University of Hawaii to submit its procurement policies and procedures and certain procurement data to the Legislature.

Your Committee received written comments in support of this measure from the University of Hawaii.

Your Committee finds that the procurement exemptions granted to the University of Hawaii by this measure will help to strengthen the University's sponsored research and training activities.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1414, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1414, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 758      Ways and Means on S.B. No. 1024**

The purpose and intent of this measure is to reduce greenhouse gas emissions and achieve zero emissions across all transportation modes within the State.

More specifically, this measure:

- (1) Establishes goals for the State to reduce greenhouse gas emissions and achieve zero-emissions transportation across all sectors of ground, interisland, and transpacific transportation;
- (2) Establishes the clean ground transportation working group and the interisland and transpacific clean transportation working group to help the State to achieve these goals; and
- (3) Requires the Department of Transportation, Office of Planning and Sustainable Development, and Hawaii State Energy Office to take certain actions to help the State achieve zero-emissions transportation.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Big Island Electric Vehicle Association, Blue Planet Foundation, Climate Protectors Hawaii, Hawaii Bioeconomy Trade Organization, Hawaii EV Association, Hawaiian Airlines, Kauai Climate ACTION Coalition, SanHi Government Strategies, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Office of Planning and Sustainable Development, Hawaii Automobile Dealers' Association, SanHi Government Strategies, and Ulupono Initiative.

Your Committee finds that greenhouse gas emissions from transportation account for the largest share of energy sector greenhouse gas emissions in the State. Accordingly, your Committee believes that for the State to achieve its goal by 2045 of sequestering more greenhouse gases than emitted, this measure's focus on promoting clean ground, interisland, and transpacific transportation alternatives is important.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1024, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1024, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 759      Ways and Means on S.B. No. 1023**

The purpose and intent of this measure is to increase access to preschool.

Specifically, this measure:

- (1) Appropriates moneys for the Preschool Open Doors program;
- (2) Provides flexibility regarding the accreditation required for Preschool Open Doors program service providers;
- (3) Expands eligibility for the Executive Office on Early Learning Public Prekindergarten program from children in their year prior to the year of kindergarten eligibility to three- and four-year-old children who are in the two years prior to entry into kindergarten;
- (4) Expands eligibility for the Preschool Open Doors program to include children who are three years old and are in the two years prior to entry into kindergarten; and
- (5) Authorizes the Preschool Open Doors Special Fund to accept federal funds.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor, Early Learning Board, Hui for Excellent in Education, Kamehameha Schools, Hawaii Children's Action Network Speaks!, Early Childhood Action Strategy, Hawaii Association of Independent Schools, Stonewall Caucus of the Democratic Party of Hawaii, and two individuals.

Your Committee received written comments on this measure from the Department of Human Services, Executive Office on Early Learning, Department of Budget and Finance, and one individual.

Your Committee finds that children who attend two years of preschool are much better prepared for success than children who attend one year of preschool or no preschool at all. Your Committee also finds that this measure will help to increase the number of preschool classrooms in the State, especially classrooms for economically disadvantaged children who would not otherwise attend preschool.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1023, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 760      Ways and Means on S.B. No. 927**

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to modify the method of reapportionment.

More specifically, the measure proposes to amend Article IV, sections 4 and 6, of the Hawaii State Constitution to specify that reapportionment shall be based on the resident population, as reported by the decennial United States census for the respective reapportionment year, rather than the permanent resident population.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that this measure's proposed change to the current method of reapportionment, if ratified by voters at the next general election, will ensure that state Senate and House of Representatives districts will be more representative of the people who live in those districts, by including all residents of each district in the population total used by the state Reapportionment Commission to

allocate state Senate and House of Representatives districts, rather than only including each district's "permanent residents," a category that excludes "usual residents" such as members of the military, military dependents, and college students. Your Committee further finds that the proposed amendment, if ratified, will align Hawaii's approach to reapportionment with that of the other forty-nine states, which base their reapportionment process on United States census data and the concept of "usual residents."

Your Committee has amended this measure by:

- (1) Rephrasing the question to be printed on the ballot as follows:
  - (A) Specifying that reapportionment is the redrawing of electoral district boundaries in the State; and
  - (B) Referencing the current practice of basing reapportionment on the total number of permanent residents in the State; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 927, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 927, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 761 Ways and Means on S.B. No. 917**

The purpose and intent of this measure is to propose an amendment to article I, section 4, of the Constitution of the State of Hawaii to provide that freedom of speech protections under the state constitution do not include the expenditure of money to influence elections.

Your Committee received written comments in support of this measure from the Stonewall Caucus of the Democratic Party of Hawaii, Kauai Women's Caucus, and four individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the United States Supreme Court's decision in *Citizens United v. Federal Election Commission*, 558 U.S. 310 (2010), reversed certain campaign finance restrictions as violative as free speech protections under the First Amendment of the Constitution of the United States. Your Committee also finds that the Court's decision has led to significant increases in political expenditures by corporations, special interest groups, and political action committees. Your Committee recognizes that this proposed amendment to the state constitution, even if adopted, will have no immediate effect, due to the supremacy of the United States Supreme Court's decision. However, your Committee recognizes that this amendment may be valuable if *Citizens United* is overturned in the future.

Your Committee notes that a portion of the measure's proposed constitutional ratification question appears to exceed the scope of the actual proposed state constitutional amendment. The language in question speculates on when the proposed state constitutional amendment might "take effect", based on hypothetical future events. The language also incorrectly states that the United States Congress may "override" the *Citizens United* court decision, and provides a truncated summary of that decision. In short, your Committee finds that this language may be unnecessary, and may potentially run afoul of section 11-118.5(a), Hawaii Revised Statutes, which requires that a constitutional ratification question "shall be phrased in a manner to enable voters to express their choice on the constitutional amendment by providing a 'yes' or 'no' response" and that the "language and meaning of a constitutional amendment shall be clear and it shall be neither misleading nor deceptive." Accordingly, your Committee suggests that, if this measure continues to move through the legislative process, it may be appropriate for future committees to further amend the measure by limiting the constitutional ratification question to a description of the text of the proposed constitutional amendment.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 917, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 762 Ways and Means on S.B. No. 828**

The purpose and intent of this measure is to facilitate the certification of documents.

Specifically, the measure:

- (1) Establishes a fee, to be assessed by the Lieutenant Governor, for the issuance of apostilles or non-apostille certifications;
- (2) Establishes an apostilles and certifications special fund, from which moneys may be expended for certain operational expenses; and
- (3) Appropriates moneys into and out of the apostilles and certifications special fund for operational expenses relating to the purposes of the measure.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor.

Your Committee finds that each year, the Office of the Lieutenant Governor provides thousands of authentications for public and general documents that fall within the scope of this measure. These documents include certain powers of attorney, marriage certificates, birth certificates, divorce decrees, wills, judgments, agreements, and transcripts. Your Committee finds that this measure would help provide the Office with funding necessary to improve its efficiency in processing these documents.

Your Committee has amended this measure by:

- (1) Including legislative appropriations as a funding source for the apostilles and certifications special fund; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 828, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 828, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 763 Ways and Means on S.B. No. 826**

The purpose and intent of this measure is to clarify how moneys that were previously appropriated to the School Facilities Authority are to be administered.

Specifically, the measure:

- (1) Transfers general funds previously appropriated to the School Facilities Authority to the school facilities special fund; and
- (2) Appropriates moneys out of the school facilities special fund.

Your Committee received written comments in support of this measure from the University of Hawaii, Executive Office on Early Learning, HE'E Coalition, and Kamehameha Schools.

Your Committee received written comments on this measure from the Office of the Lieutenant Governor, Department of Budget and Finance, and School Facilities Authority.

Your Committee finds that transferring the appropriation of general funds made by Act 257, Session Laws of Hawaii 2022, into the school facilities special fund will provide the School Facilities Authority greater flexibility to construct pre-kindergarten classrooms in coordination with its program partners.

Your Committee has amended this measure by:

- (1) Establishing an appropriation ceiling for the school facilities special fund that is equivalent to the balance of moneys in the special fund;
- (2) Changing the amount transferred into and out of the school facilities special fund from \$200,000,000 to an unspecified sum;
- (3) Providing for the deposit and expenditure of moneys in fiscal year 2023-2024, rather than fiscal year 2022-2023; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 826, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 764 Ways and Means on S.B. No. 818**

The purpose and intent of this measure is to transfer the Aquaculture Development Program from the Department of Agriculture to the Agribusiness Development Corporation of the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Agribusiness Development Corporation.

Your Committee received written comments in opposition to this measure from the Hawaii Aquaculture and Aquaponics Association; Jamestown Point Whitney Ventures, LLC; Kauai Sea Farm; Aquaculture Planning and Advocacy; and one individual.

Your Committee received written comments on this measure from the Department of Agriculture and Pacific Coast Shellfish Growers Association.

Your Committee finds that the Department of Agriculture primarily functions as a regulatory and enforcement body. Conversely, the Aquaculture Development Program primarily functions to promote innovation and produce economic opportunities in aquaculture. Accordingly, the goals of the Aquaculture Development Program more closely align with the Department of Business, Economic Development, and Tourism, which, after the transfer, will be better positioned to support the program's efforts to increase aquaculture in the State.

Your Committee has amended the measure by:

- (1) Adding a new section that explains the purpose of the measure;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 818, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Fevella). Noes, none. Excused, 3 (Aquino, DeCoite, Kidani).

**SCRep. 765 Ways and Means on S.B. No. 699**

The purpose and intent of this measure is to establish a state capitol tours program.

More specifically, this measure:

- (1) Establishes within the Legislative Reference Bureau's Public Access Room a state capitol tours program;
- (2) Requires the maintenance and regular updating of a virtual tour website; and
- (3) Appropriates moneys to establish one full-time equivalent (1.0 FTE) position to conduct and host capitol tours.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Legislative Reference Bureau and Office of the Lieutenant Governor.

Your Committee finds that providing state capitol tours is a meaningful public service that provides visitors to the Hawaii State Capitol with an appreciation for the State and the democratic process.

Your Committee has amended this measure by:

- (1) Clarifying that the Public Access Room coordinator is required to administer and facilitate the state capitol tours program;
- (2) Clarifying that paper brochures and information about the virtual tour website shall be made available to the public in the Public Access Room; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 699, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 699, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Aquino, DeCoite, Kidani).

**SCRep. 766 Ways and Means on S.B. No. 660**

The purpose and intent of this measure is to require and appropriate moneys for the Department of Agriculture to establish a healthy soils program.

Your Committee received written comments in support of this measure from the State of Hawaii Climate Change Mitigation and Adaptation Commission; Pacific Agricultural Land Management Systems; Kauai Climate Change Coalition; Kipahulu Ohana, Inc.; Kanalani Ohana Farm; Capture the Carbon; Aina Hookupu o Kilauea; Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party; Hawaii Alliance for Progressive Action; Good Food Movement; Chamber of Sustainable Commerce; Adaptations, Inc.; Kona Coffee Farmers Association; The Seeger Institute; Hawaii Forest Industry Association; Hawaii Farmers Union United; Green Islands Acres, LLC; Food + Policy Internship; Kohana Family Farms; Hawaii Environmental Change Agents Carbon Sequestration Task Force; Ka Ohana O Na Pua; Ai Pohaku - The Stone Eaters; Kuwale Ridge Farms; and numerous individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Farm Bureau, Hawaii Cattlemen's Council, and Hawaii Floriculture and Nursery Association.

Your Committee received written comments on this measure from the Department of the Attorney General, Hawaii Department of Agriculture, Hawaii Farmers Union United, and 350 Hawaii.

Your Committee finds that the healthy soils program established by this measure will provide awards, financial incentives, and technical assistance to help small farmers, ranchers, and landowners improve soil health and build carbon stocks.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation from \$500,000 to an unspecified sum to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 660, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 660, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 767 Ways and Means on S.B. No. 1442**

The purpose and intent of this measure is to reduce homelessness in the State by providing funding and other support for the Ohana Zones Pilot Program.

More specifically, the measure:

- (1) Appropriates funds for the Ohana Zones Pilot Program, including expenses relating to operations, upkeep of facilities, provision of services, and administrative costs;
- (2) Authorizes the issuance of general obligation bonds for the construction of facilities for the pilot program;
- (3) Establishes one position within the Office of the Governor to deploy the capital improvement funds appropriated by this measure; and
- (4) Provides that certain enumerated exemptions shall apply to Ohana Zone construction.

Your Committee received written comments in support of this measure from the Office of the Governor, AARP Hawaii, Partners in Care, Opportunity Youth Action Hawaii, and four individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that this measure's further support of the Ohana Zones Pilot Program, which was established by the Legislature in 2018, will address the urgent and ongoing need to reduce homelessness in the State.

Your Committee has amended this measure by:

- (1) Changing the appropriation and general obligation bond issuance amounts from \$15,000,000 to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1442, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1442, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 768 Ways and Means on S.B. No. 1609**

The purpose and intent of this measure is to facilitate the improvement of Native Hawaiian communities and culture.

Specifically, this measure:

- (1) Appropriates moneys for the Department of Business, Economic Development, and Tourism and Department of Land and Natural Resources to issue grants tailored to improving Native Hawaiian communities;
- (2) Imposes certain requirements relating to the foregoing grants; and
- (3) Amends Act 195, Session Laws of Hawaii 2022, to impose similar requirements relating to the grants funded pursuant to that Act.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Maui, a member of the Maui County Council, the Council for Native Hawaiian Advancement, Kapolei Chamber of Commerce, and three individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Budget and Finance; Department of Business, Economic Development, and Tourism; and Department of the Attorney General.

Your Committee finds that Native Hawaiian communities are in need of effective assistance with respect to education, business and entrepreneurship mentoring, farming, cultural training, environmental management, and other fields. Your Committee believes that funding for certain grants, as proposed by this measure, will help meet those needs.

Your Committee has amended this measure by:

- (1) Clarifying that certain allocations apply to both fiscal year 2023-2024 and fiscal year 2024-2025;
- (2) Changing the appropriations and allocations to unspecified amounts;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1609, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1609, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 769 Ways and Means on S.B. No. 1568**

The purpose and intent of this measure is to amend the county surcharge on state tax.

More specifically, this measure:

- (1) Extends the period in which a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2019, to December 31, 2023;
- (2) Authorizes, in certain instances, the use of county surcharge revenues for housing infrastructure; and
- (3) Temporarily authorizes counties that have previously adopted a surcharge on state tax to amend the rates and uses of the surcharge.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of the Mayor of the County of Maui, Maui Hotel and Lodging Association, and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the development of housing is of critical importance to the State. Your Committee also finds that the high cost of infrastructure is a factor that makes homes expensive, to the point of being unobtainable for many local families. Your Committee further finds that making counties, rather than private developers, responsible for the location, planning, and development of infrastructure to support housing would result in more efficient community planning.

Your Committee has amended this measure by:

- (1) Clarifying that any change to a county's surcharge rate shall take effect on January 1, 2025; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1568, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1568, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 770 Ways and Means on S.B. No. 1532**

The purpose and intent of this measure is to establish the Hawaii Leadership Awards Program to recognize persons from Hawaii who have made outstanding contributions to the State and who serve as an inspiration to others.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts.

Your Committee finds that the awards established by this measure will allow the State to recognize leadership and celebrate Hawaii's achievements while investing in the State's overall economy.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1532, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1532, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 771 Ways and Means on S.B. No. 1510**

The purpose and intent of this measure is to appropriate moneys to establish a center for the design, development, and fabrication of ground-based astronomical instruments at the University of Hawaii.

Your Committee received written comments in support of this measure from the University of Hawaii, Maunakea Observatories, and one individual.

Your Committee finds that the center funded by this measure will help support the long-term success of astronomy in Hawaii and will create a robust high-tech workforce pipeline for local talent, including Native Hawaiians, women, and other groups that are underrepresented in astronomy.

Your Committee has amended this measure by:

- (1) Changing the appropriations to unspecified sums;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1510, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1510, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 772 Ways and Means on S.B. No. 1506**

The purpose and intent of this measure is to promote pedestrian and bicyclist safety.

More specifically, this measure:

- (1) Establishes within the Department of Transportation for administrative purposes a safe routes for people implementation program and safe routes for people implementation committee;
- (2) Clarifies the responsibilities of various entities in relation to the safe routes to school program;
- (3) Renames the safe routes to school program special fund as the safe routes for people special fund and clarifies the moneys to be deposited into, and authorizes uses of the moneys in, the special fund; and
- (4) Appropriates moneys to the Department of Transportation to address bicycle and pedestrian facilities in state and county transportation systems.

Your Committee received written comments in support of this measure from the Department of Health; Hawaii Climate Change Mitigation and Adaptation Commission; State Council on Developmental Disabilities; City and County of Honolulu, Department of Transportation Services; Hawaii County Council; Honolulu Police Department; AARP Hawaii; Bikeshare Hawaii; Cycle On Hawaii; Hawaii Bicycling League; Hawaii Children's Action Network Speaks!; Hawaii Public Health Institute; Malama Kauai; Ulupono Initiative; We Are One, Inc.; and numerous individuals.

Your Committee received written comments on this measure from the Department of the Attorney General and Department of Transportation.

Your Committee finds that the establishment of a safe routes for people implementation program will support the creation and maintenance of a transportation system that provides safe mobility for all modes of transportation and all users.

Your Committee has amended this measure by:

- (1) Inviting, rather than requiring, representatives from specific private entities to serve on the safe routes for people implementation committee;
- (2) Including as an invited member of the safe routes for people implementation committee, one member representing the Hawaii Association of Independent Schools;
- (3) Repealing the requirement that the safe routes for people implementation committee, in consultation with the Department of Education, Department of Health, and Hawaii Association of Independent Schools, provide safe routes to school funds for certain workshops and projects;
- (4) Requiring that the safe routes for people implementation committee develop recommendations for school-based and community-based workshops, review project proposals, and select certain priority infrastructure and non-infrastructure projects;
- (5) Repealing, rather than amending, the requirement that each county submit to the Legislature an annual report on the status and progress of that county's safe routes to school program;
- (6) Repealing the requirement that the Director of Transportation submit an annual report to the Legislature on the status and progress of the safe routes to school program;
- (7) Deleting the requirement that a certain percentage of safe routes for people funds intended for safe routes to school projects be allocated for certain activities;
- (8) Clarifying the required contents of the Department of Transportation's annual report to be submitted to the Legislature pursuant to section 291C-4(c), Hawaii Revised Statutes;
- (9) Clarifying the purpose of the appropriation contained in this measure;
- (10) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (11) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1506, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1506, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 773 Ways and Means on S.B. No. 1482**

The purpose and intent of this measure is to establish and appropriate moneys for an Aerospace Development Office within the Hawaii Technology Development Corporation.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Bushtex, Inc.; and one individual.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the program established by this measure will facilitate dialogue and coordination among Hawaii's public, private, and academic sectors and between state-based entities and public and private international organizations to promote the growth and diversification of the State's aerospace and aeronautics industries.

Your Committee has amended this measure by:

- (1) Establishing a development program, rather than a development office;
- (2) Adding "aeronautics" to the program name, as suggested in written comments from an individual;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1482, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1482, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 774      Ways and Means on S.B. No. 314**

The purpose and intent of this measure is to make the nursing facility sustainability program permanent and appropriate moneys from the nursing facility sustainability program special fund for the program.

Your Committee received written comments in support of this measure from the Department of Human Services, Hilo Medical Center, Hawaii Primary Care Association, Healthcare Association of Hawaii, Kaiser Permanente, Hawaii Pacific Health, Ohana Pacific Management Company/Hale Makua Services, Queen's Health System, Palolo Chinese Home, and one individual.

Your Committee received written comments on this measure from the Department of Taxation and Aloha Nursing Rehab Centre.

Your Committee finds that the nursing facility sustainability program, which imposes provider fees on nursing facilities in the State has resulted in a substantial increase in Medicaid payments without placing more constraints on the State's budget. Your Committee also finds that the program has enabled nursing facilities to serve uninsured and underinsured patients and protected the sustainability of the State's health care system.

Your Committee has amended this measure by:

- (1) Amending other provisions within the Hawaii Revised Statutes to conform to the statutory amendments made by this measure;
- (2) Clarifying the process by which facilities may be excluded from assessments;
- (3) Changing the appropriation from \$24,000,000 to an unspecified amount to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 314, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 314, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 775      Ways and Means on S.B. No. 293**

The purpose and intent of this measure is to require that the Governor ensure that certain program memoranda accurately reflect the current responsibilities of the applicable state programs, address the current and future needs of the State, and align with budget-related submittals.

Your Committee received written comments on this measure from Department of Budget and Finance.

Your Committee finds that requiring program memoranda to accurately reflect the current responsibilities of the applicable state programs, address the current and future needs of the State, and align with budget-related submittals, will provide for the effective and prudent management of the State's finances.

Your Committee has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 293, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 293, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 776 Ways and Means on S.B. No. 291**

The purpose and intent of this measure is to require that the Governor ensure that certain program memoranda and variance reports accurately reflect the current responsibilities of the applicable state programs, address the current and future needs of the State, and align with budget-related submittals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that requiring program memoranda and variance reports to accurately reflect the current responsibilities of the applicable state programs, address the current and future needs of the State, and align with budget-related submittals, will ensure that the State's finances are managed in a more effective and prudent manner.

Your Committee has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 291, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 291, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 777 Ways and Means on S.B. No. 284**

The purpose and intent of this measure is to facilitate the State's use of information technology.

Specifically, the measure:

- (1) Requires the technology services consolidation working group to:
  - (A) Make certain upgrades relating to the Office of Enterprise Technology Services' data center; and
  - (B) Submit certain reports to the Legislature;
- (2) Extends to June 30, 2028, the dissolution date of the working group; and
- (3) Establishes requirements for procurement contracts for information technology-related projects.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Transform Hawaii Government, and one individual.

Your Committee received written comments on this measure from Servpac.

Your Committee finds that the Office of Enterprise Technology Services' data center, created more than forty years ago, has received few, if any, upgrades. Your Committee believes that extensive upgrades to the data center, as proposed by this measure, will help ensure the continued and uninterrupted provision of state services.

Your Committee has amended this measure by:

- (1) Clarifying the scope of the information to be reported to the Legislature prior to the Regular Session of 2025;
- (2) Clarifying that the technology services consolidation working group shall implement the use of cloud computing at the Office of Enterprise Technology Services' data center;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 284, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 284, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 778 Ways and Means on S.B. No. 281**

The purpose and intent of this measure is to provide a state income tax deduction for certain contributions to any college savings program established under section 529 of the Internal Revenue Code.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Department of Taxation, Department of Budget and Finance, and Tax Foundation of Hawaii.

Your Committee finds that providing a state income tax deduction for contributions to a college savings program will provide an additional tax incentive for families to save for college and allow Hawaii to join the approximately thirty other states that provide a tax deduction or credit for similar contributions.

Your Committee has amended this measure by clarifying that any contributions that exceed the maximum deductible amount for a taxable year may be used as an income tax deduction for four subsequent tax years or until the excess amount is exhausted, whichever occurs first.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 281, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 281, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (Lee, Moriwaki).

**SCRep. 779      Ways and Means on S.B. No. 164**

The purpose and intent of this measure is to increase access to healthcare in underserved areas of the State.

Specifically, this measure appropriates moneys to the Department of Health for the Hawaii State Loan Repayment Program, which provides loan repayments for health care professionals who commit to work in federally-designated health professional shortage areas.

Your Committee received written comments in support of this measure from the Department of Health, Department of Labor and Industrial Relations, University of Hawaii, Hawaii Primary Care Association, Healthcare Association of Hawaii, Hawaii Pacific Health, Hawai'i State Center for Nursing, The Queen's Health System, Hawaii Medical Association, Hawaii Substance Abuse Coalition, Hawaii Psychological Association, and two individuals.

Your Committee finds that, since September 2012, the Hawaii State Loan Repayment Program has supported seventy-six recipients in exchange for commitments from the recipients to work in underserved geographic practice areas in the State. Your Committee further finds that approximately eighty percent of these program participants have remained in Hawaii and more than half have remained at the site at which they performed their service under the program.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,000,000 to an unspecified sum to facilitate further discussion on the measure; and
- (2) Correcting the names of National Health Service Corps and the Maui Community Correctional Center.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 164, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 164, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 780      Ways and Means on S.B. No. 430**

The purpose and intent of this measure is to alleviate food shortages in the State while promoting local agriculture.

More specifically, the measure:

- (1) Establishes a Hawaii farm to food bank program, to be administered by the Office of Community Services of the Department of Labor and Industrial Relations, to relieve food shortages experienced by low-income and unemployed residents of the State by distributing fresh, locally grown or produced food to those persons;
- (2) Establishes the Hawaii food assistance program special fund, capitalizes the special fund with \$5,000,000 from the general fund, and appropriates this amount for hunger relief efforts; and
- (3) Exempts the Hawaii food assistance program special fund from certain provisions of Chapter 36, Hawaii Revised Statutes, relating to management of state funds.

Your Committee received written comments in support of this measure from the Office of Community Services of the Department of Labor and Industrial Relations, Maui County Council, Hawaii Children's Action Network Speaks!, Hawaii Public Health Institute, Hawaii Primary Care Association, Hawaii Farm Bureau, Ulupono Initiative, Hawaii Farmers Union United, 350Hawaii.org, Hawaii Cattlemen's Council, Hawaii Foodbank, Hawaii Food Plus Policy, and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii farm to food bank program established by this measure will serve the State's food needs, provide local food producers with a wider market to support their operations, and keep moneys circulating within the State to boost the local economy.

Your Committee has amended this measure by:

- (1) Clarifying that the role of the Hawaii farm to food bank program is to provide financial support for the distribution of food to persons in need;
- (2) Changing the appropriation from \$5,000,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 430, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 430, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 781 (Majority) Commerce and Consumer Protection on S.B. No. 1502**

The purpose and intent of this measure is to:

- (1) Require hourly peer-to-peer car sharing operators to insure shared cars with personal injury protection benefit and basic liability coverage;
- (2) Authorize the Department of Transportation to regulate peer-to-peer car sharing parking at state airports; and
- (3) Authorize the counties to regulate peer-to-peer car sharing parking on county streets.

Your Committee received testimony in support of this measure from GETAROUND, INC. and three individuals. Your Committee received testimony in opposition to this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Association for Justice, and Hawaii Insurers Council. Your Committee received comments on this measure from Turo.

Your Committee finds that peer-to-peer car sharing services (P2P car sharing) have grown in popularity across the State. Generally, under a P2P car sharing program, participating car owners are able to charge a fee to rent out their vehicles when they are not using them and participating renters can access nearby and affordable vehicles and pay only for the time they need to use them. Thus, while serving as an efficient alternative mode of transportation for many tourists and residents--especially in light of Hawaii's recent rental car crunch and the increasing cost of car ownership--the unique agreement-based nature of P2P car sharing programs exempt them from certain insurance requirements, placing the burden of risk on other insured drivers.

Your Committee finds that to address the problem of uninsured or underinsured P2P car sharing drivers, the Legislature enacted Act 56, Session Laws of Hawaii 2022 (Act 56). Under Act 56, P2P car sharing programs are required to ensure that during each car-sharing period, a shared car is insured under a policy that provides primary insurance coverage in amounts not less than \$750,000 for death, bodily injury, and property damage per accident, in addition to costs of defense. However, according to testimony received by your Committee, this has resulted in Hawaii requiring that all shared cars be insured at nearly nineteen times the State's minimum amounts for auto liability per accident. Therefore, this measure serves to ease the burden on hourly P2P car sharing participants and ensure affordable, accessible options for residents and visitors in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1502, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1502, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 782 (Majority) Commerce and Consumer Protection on S.B. No. 1462**

The purpose and intent of this measure is to establish an organizational and regulatory framework for limited-profit housing associations.

Your Committee received testimony in support of this measure from one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and Department of Taxation.

Your Committee finds that there is a desperate need to create additional housing in the State. Your Committee further finds that the limited-profit housing association model is a sustainable option to develop long-term housing, under which any profit generated by a housing project must be used for the creation of more housing. This measure establishes the framework necessary to authorize limited-profit housing associations in Hawaii. Your Committee notes that this measure, as currently written, requires clarification and regulate to identify the entity responsible for issuing the approvals identified in this measure.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Limited-Profit Housing Council shall be the entity responsible for issuing any necessary approvals or permissions required for a limited-profit housing association;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1462, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1462, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 783 Commerce and Consumer Protection on S.B. No. 1447**

The purpose and intent of this measure is to:

- (1) Clarify that county ordinances or regulations that regulate the sale of cigarettes, tobacco products, and electronic smoking devices are null and void only if they are in direct conflict with or less stringent than state law that governs smoking; and

- (2) Clarify that counties retain the authority to adopt ordinances that regulate the sale of cigarettes, tobacco products, and electronic smoking devices, as long as the ordinances do not directly conflict with and are more stringent than the provisions in state law that govern smoking.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i State Association of Counties, American Cancer Society Cancer Action Network, American Heart Association, Friends of Kamalani and Lydgate Park, Hawaii COPD Coalition, Hawai'i Public Health Institute, Campaign for Tobacco-Free Kids, American Lung Association in Hawai'i, Coalition for a Tobacco-Free Hawai'i's Youth Council, and twelve individuals. Your Committee received testimony in opposition to this measure from Aloha Petroleum, Ltd. dba Aloha Petroleum; Kalalau Awawa, LLC dba Minit Stop; Par Hawaii, LLC; Americans for Tax Reform; Retail Merchants of Hawaii, Inc.; Hawaii Smokers Alliance; and eleven individuals.

Your Committee finds that geographic tobacco-related disparities are a serious public health problem in Hawaii that requires innovative, community-based solutions. According to the Department of Health, while 11.6 percent of adults in the general population smoke, adults in Hawaii County have the highest prevalence of smoking at 14.0 percent. Smoking within certain subcommunities throughout the State are even higher. Your Committee further finds that youth who live on neighbor islands evidence more current tobacco use than those who live in the City and County of Honolulu. Given the existence of these geographic disparities, there is an urgent need for counties to have the ability to regulate access to tobacco products especially among youth. Additionally, existing state laws have created ambiguity in the effectiveness of county ordinances to regulate smoking that are not in direct conflict with other provisions. This measure will preserve the legal ability of counties to adopt ordinances that regulate the sale of cigarettes, tobacco products, and electronic smoking devices in a manner that is more stringent than but not in direct conflict with state law in an effort to be responsive to pressing community needs.

Your Committee acknowledges the concerns raised in testimony that this measure, as currently written, does not clearly express that counties can pass local laws that are more stringent than state laws. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Repealing existing statutory language that provides that all local ordinances or regulations that regulate the sale of cigarettes, tobacco products, and electronic smoking devices are preempted and that existing local laws and regulations conflicting with state law that governs smoking are null and void;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1447, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1447, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

#### **SCRep. 784 Commerce and Consumer Protection on S.B. No. 1340**

The purpose and intent of this measure is to:

- (1) Expand the exemption from the behavior analyst licensing requirements for certain teachers working in collaboration with a licensed behavior analyst or licensed psychologist;
- (2) Remove the exemption from the behavior analyst licensing requirements for direct support workers; and
- (3) Allow a registered behavior technician who is under the direction of a licensed psychologist to implement applied behavior analysis services.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Council on Developmental Disabilities, Hawaii State Teachers Association, and Special Education Advisory Council. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawai'i Association for Behavior Analysis.

Your Committee finds that the Department of Education has a shortage of qualified individuals to offer Applied Behavior Analysis (ABA) services to youth with autism. ABA is the leading practice that can help individuals with autism succeed. ABA helps curb inappropriate behaviors, improve academic performance, and enhance everyday functional skills. This measure will bolster the State's ABA workforce by allowing certain classroom teachers and registered behavior technicians under the direction of a licensed psychologist to implement ABA services.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1340, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1340, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 785 (Majority) Commerce and Consumer Protection on S.B. No. 1344**

The purpose and intent of this measure is to:

- (1) Allow the administration of medication to public school students by health assistants with the approval of a health care professional within the Department of Education, Department of Health, or a health care service per a written agreement with the Department of Education; and
- (2) Revise statutory references from “school health aides” to “school health assistants” to reflect recent changes to the job title.

Your Committee received testimony in support of this measure from the Department of Health, Department of Education, University of Hawai‘i at Mānoa Nancy Atmospera-Walch School of Nursing, Hawai‘i State Center for Nursing, Epilepsy Foundation of Hawaii, and two individuals.

Your Committee finds that under existing law, all medication administered by school health assistants in Hawaii public schools must be reviewed and approved by the Department of Health. Many public schools currently have a registered nurse, advanced practice registered nurse, or other specialized health care provider on campus through written agreements with the Department of Education, such as school-based health centers from federally qualified health centers and the University of Hawaii at Manoa School of Nursing. However, existing law prevents these health care professionals who are already on campus from performing the function of medication administration approval. This measure authorizes these health care professionals to approve medication administered by school health assistants to public school students.

Your Committee acknowledges the testimony submitted by the Epilepsy Foundation of Hawaii, which offers amendments to this measure clarifying the types of medication that a school health assistant may administer to students.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that nasal and other premeasured medication, including but not limited to auto-injectable epinephrine for anaphylaxis, bronchodilators for asthma, and seizure rescue medication for seizure disorders, may be administered by school health assistants;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1344, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1344, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 786 Commerce and Consumer Protection on S.B. No. 1389**

The purpose and intent of this measure is to require mandatory disclosure of all existing permitted and unpermitted shoreline erosion control structures and the annual coastal erosion rates for shoreline properties in real estate transactions.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawai‘i Climate Change Mitigation and Adaptation Commission, and Surfriider Foundation. Your Committee received comments on this measure from the Hawai‘i Association of REALTORS.

Your Committee finds that as sea level rise continues to accelerate, the State must maintain a constant and ongoing effort to adopt policies and programs to support adaptation to a changing world and climate. Some shoreline property owners maintain erosion control structures or seawalls, a number of which are either unpermitted, or remain in place under expired permits beyond their allotted authorization. Accordingly, these structures present an enforcement challenge for the Department of Land and Natural Resources when a shoreline property changes ownership. This measure will help remove harmful and dangerous unpermitted erosion control structures from state lands to improve access to public trust resources and provide greater accountability for private property owners for the removal of unpermitted encroachments.

Your Committee has amended this measure by:

- (1) Inserting language recommended by the Department of Land and Natural Resources, which specifies that erosion rates need only be disclosed when they are publicly available; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1389, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1389, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 787 Commerce and Consumer Protection on S.B. No. 823**

The purpose and intent of this measure is to:

- (1) Provide an exemption for flatbed trucks from registration renewals and initial registrations of motor carrier vehicles when used as marine terminal equipment temporarily moving in or between certain terminals; and
- (2) Add new terminal locales, times, and roadways to be covered under the exemption.

Your Committee received testimony in support of this measure from the Department of Transportation and fifty-eight individuals.

Your Committee finds that existing law limits unregistered motor vehicles used as marine terminal equipment to operate only between specified terminals on public roads. This measure allows for unregistered flatbed trucks to also be used temporarily as marine terminal equipment to expediate movement between terminals and also expands the list of roadways that may be used by marine terminal equipment.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 823, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 788      Ways and Means on S.B. No. 1567**

The purpose and intent of this measure is to support the increase of workforce development pathways.

Specifically, this measure:

- (1) Authorizes the State Board for Career and Technical Education to represent the State and designate entities to allow the State to receive funds for career and technical education;
- (2) Requires the State Board for Career and Technical Education to develop and implement workforce development pathways that align with regional economic development, assets, and facilities and address statewide initiatives and mandates;
- (3) Amends the composition of the Career and Technical Education Coordinating Advisory Council;
- (4) Appropriates moneys to develop and implement career and technical education workforce development pathways;
- (5) Appropriates moneys for career and technical education workforce development pathways; and
- (6) Appropriates moneys for differential pay increases for career and technical education teachers.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations; Department of Business, Economic Development, and Tourism; Hawaii State Teachers Association; and Democratic Party of Hawaii Education Caucus.

Your Committee received written comments on this measure from the Department of Human Resources Development, Department of Budget and Finance, Department of the Attorney General, and Hawaii P-20 Partnerships for Education.

Your Committee finds that this measure will help to create statewide-aligned career pathways for students while in Department of Education schools that will continue through their post-secondary education. Your Committee further finds that this early career and technical education will help fulfill Hawaii's workforce needs while building careers for participants.

Your Committee has amended this measure by:

- (1) Moving the placement of the Career and Technical Education Coordinating Advisory Council from the University of Hawaii to the Department of Labor and Industrial Relations for the purpose of complying with section 6, Article V of the Hawaii State Constitution; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1567, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1567, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 789      Ways and Means on S.B. No. 1413**

The purpose and intent of this measure is to require the Board of Regents of the University of Hawaii to allow students to qualify for resident tuition fees for any semester beginning within two years of that student's graduation from a high school in Hawaii.

Your Committee received written comments in support of this measure from the University of Hawaii, University of Hawaii Board of Regents, and Department of Education.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that some University of Hawaii students experience nontraditional family arrangements or are unaware of their parents' or caregivers' tax filings. This may create difficulties for those students to satisfy the University of Hawaii's

qualifications for resident tuition fee. This measure will make college more accessible by helping to streamline the process for Hawaii high school graduates to qualify for the lower tuition fee.

Your Committee has amended this measure by:

- (1) Clarifying that students who previously qualified for resident tuition fee under the expanded requirements may continue to be qualified for resident tuition fee throughout their undergraduate degree program for periods following a date two years after high school graduation; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1413, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1413, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 790      Ways and Means on S.B. No. 1411**

The purpose and intent of this measure is to improve the administration of drug and alcohol toxicology testing.

Specifically, the measure:

- (1) Specifies that moneys in the state highway fund may be expended for the cost of establishing and maintaining a drug and alcohol toxicology testing laboratory;
- (2) Renames the state drug and alcohol toxicology testing laboratory special fund to remove the word “state”;
- (3) Specifies that moneys in the drug and alcohol toxicology testing laboratory special fund shall be administered and expended by the Department of Transportation or appropriated as a grant-in-aid to the Emergency Services Department of the City and County of Honolulu;
- (4) Prior to each of the Regular Sessions of 2025 and 2026, requires the Department of Health and City and County of Honolulu to submit to the Legislature a report on the expenditures made from the drug and alcohol toxicology testing laboratory special fund; and
- (5) Appropriates moneys from the state highway fund into the drug and alcohol toxicology testing laboratory special fund.

Your Committee received written comments in support of this measure from Department of Transportation, City and County of Honolulu Emergency Services Department, and one individual.

Your Committee finds that improving highway safety and protecting the lives of community members and visitors should be high priorities. Your Committee believes that establishment of a drug and alcohol toxicology testing laboratory, which will be facilitated by this measure, will provide law enforcement personnel and adjudicators with the resources necessary to protect the public from impaired drivers.

Your Committee has amended this measure by:

- (1) Replacing certain references to the City and County of Honolulu with references to a county with a population of five hundred thousand or more;
- (2) Authorizing the unspecified sums appropriated out of the drug and alcohol toxicology testing laboratory special fund to be appropriated as a grant-in-aid to the City and County of Honolulu;
- (3) Clarifying language intended to prevent the untimely lapsing of funds;
- (4) Requiring the Department of Transportation, rather than the Department of Health, to share responsibility with the City and County of Honolulu to submit the measure’s mandatory reports to the Legislature;
- (5) Making conforming amendments to certain session laws to conform to the extended repeal date of the drug and alcohol toxicology testing laboratory special fund;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure;
- (7) Inserting a proviso to the effective date to ensure that the appropriations within the measure will take effect at the beginning of a fiscal year; and
- (8) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1411, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1411, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 791      Ways and Means on S.B. No. 1120**

The purpose and intent of this measure is to facilitate the display of art in public places.

Specifically, the measure:

- (1) Requires the State Art Museum to provide opportunities for the counties and private organizations located in the State to display art through loan arrangements with the State Foundation on Culture and the Arts; provided that certain loan arrangements may be subject to a fee determined by the Foundation;
- (2) Provides that in the acquisition of art funded through the works of art special fund, artists residing in the State shall receive a selection preference; and
- (3) Requires the State Foundation on Culture and the Arts to submit to the Legislature an inventory report on works of art under the art in public places program.

Your Committee received written comments on this measure from the State Foundation on Culture and the Arts.

Your Committee finds that the display of art in public places is an educational experience. Your Committee believes that an art loan program, as proposed by this measure, may increase the prevalence of publicly-displayed art and help the promotion of art.

Your Committee notes that article III, section 14, of the Constitution of the State of Hawaii provides that each law shall embrace but one subject, which shall be expressed in its title. Thus, the scope of the title cannot be narrower than the scope of the subject matter of the bill. The title of the measure is "A Bill for an Act Relating to the Works of Art Special Fund." However, sections 1 and 3 of the measure do not specifically address the special fund. Your Committee also notes that the measure's preference for artists who are state residents may face questions about its constitutionality. Accordingly, your Committee respectfully suggests that the bill's proponents may wish to contact the Attorney General, or the Senate Majority Attorney, as appropriate, to determine if the foregoing issues pose constitutional problems.

Your Committee has amended this measure by:

- (1) Providing that fees collected pursuant to certain loan arrangements authorized by the measure shall be deposited into the works of art special fund; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1120, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1120, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 792      Ways and Means on S.B. No. 1046**

The purpose and intent of this measure is to establish a vehicle weight tax exemption for noncommercial motor vehicles registered to veterans.

Your Committee received written comments in support of this measure from the Department of Defense, Office of Veterans' Services; Environmental Caucus of the Democratic Party of Hawaii; Military Affairs Council; Oahu Veterans Council and Center; and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that exempting from the vehicle weight tax, noncommercial motor vehicles registered to veterans is an appropriate way to provide financial relief to service members who served to protect the freedom and liberties of their fellow citizens.

Your Committee has amended this measure by making a technical nonsubstantive amendment for purpose of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1046, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 793      Commerce and Consumer Protection on S.B. No. 415**

The purpose and intent of this measure is to hold general contractors entering into or under contracts in the State for work on buildings, structures, or other private works liable for debt incurred by subcontractors for wages due to claimants for performance of labor in the contract between the general contractor and owner.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaii Regional Council of Carpenters. Your Committee received testimony in opposition to this measure from Associated Builders and Contractors, Subcontractors Association of Hawaii, and one individual. Your Committee received comments on this measure from the General Contractors Association of Hawaii.

Your Committee finds that for state construction projects, a general contractor is the party in direct privity with the State and is responsible for the day-to-day oversight of the construction project. A general contractor often subcontracts for specialized work to satisfy its obligations under its contract with the State. If a general contractor hires a subcontractor who fails to pay its employees'

wages, the employee has no recourse against the general contractor. This measure holds general contractors liable for a subcontractor's failure to pay its employees for certain construction projects.

Your Committee notes the concerns raised in testimony that an amendment to the definition of "employer" in Hawaii's wage laws is necessary for this measure to be enforceable.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language amending the definition of "employer" in section 388-1, Hawaii Revised Statutes, to include general contractors for purposes of wages owed to a subcontractor's employees; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 415, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 415, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (McKelvey).

**SCRep. 794 Commerce and Consumer Protection on S.B. No. 479**

The purpose and intent of this measure is to:

- (1) Require a water common carrier to receive approval from the Public Utilities Commission (PUC) before entering into long-term leases of more than five years, instead of three years; and
- (2) Clarify that a water common carrier must receive approval from the PUC before entering into leverage leases for waterborne vessels.

Your Committee received testimony in support of this measure from Young Brothers, LLC; Matson Navigation Company, Inc.; and Hawaii Harbor Users Group. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs and one individual. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that the ability for residents and business to move goods between the islands at affordable rates is critical to the neighbor island communities' economic well-being, as they are reliant on the interisland cargo services that water common carriers provide. Long-term leases and leverage lease agreements impact and add to a water common carriers' costs which in turn, are a component of the rates that water common carriers impose on residents and businesses. Under existing law, a water common carrier must receive approval from the PUC before entering into a long-term lease of more than three years or a leverage lease. However, the approval process can impede a water common carrier's ability to timely secure needed equipment or property. This measure would narrow the scope of the types of leases that require approval and provide water common carriers greater flexibility in entering into leases without PUC approval.

Your Committee notes concerns raised in testimony that underscores the importance of the PUC retaining the ability to approve certain leases in order to protect consumers. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required PUC approval for leases longer than five years and leverage leases for leases of water-borne vessels and inserting language exempting from the requirement that a water common carrier secure the prior approval of the PUC to issue stocks and stock certificates and enter long-term leases of more than three years and leverage leases:
  - (A) Land leases from a governmental entity; provided that either the water common carrier or governmental entity provides a letter to the commission outlining terms of the lease agreement in a reasonable timeframe after the agreement is executed; and
  - (B) Leases of any equipment of which the annual cost of the lease is below a threshold as determined by the commission in the most recently approved rate case or other ratemaking proceeding; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 479, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 479, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 795 Commerce and Consumer Protection on S.B. No. 1038**

The purpose and intent of this measure is to:

- (1) Clarify reimbursement for services provided through telehealth via an interactive telecommunications system, consistent with the 2023 Medicare Physician Fee Schedule; and
- (2) Define "interactive telecommunications system".

Your Committee received testimony in support of this measure from the Department of Human Services; University of Hawai'i System; AARP Hawai'i; Alzheimer's Association; American Cancer Society Cancer Action Network; Hawaii Medical Association;

Hawai'i Pacific Health; Hawai'i Primary Care Association; Hawai'i Public Health Institute; Hawaiian Islands Association for Marriage and Family Therapy; Hawai'i Psychological Association; National Association of Social Workers, Hawai'i Chapter; Kapolei Chamber of Commerce; Epilepsy Foundation of Hawaii; and two individuals. Your Committee received comments on this measure from the Department of the Attorney General and Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the State faces a continued shortage of health care providers, particularly on the neighbor islands and in rural areas. The definition of "telehealth" has traditionally required both audio and video capabilities and excluded standard telephone contacts. However, elderly, as well as medically- and socially-complex patients often face limited broadband access and personal difficulty navigating the technological requirements of accessing traditional video telehealth care services. In these instances, telephonic communication has become a viable alternative for many in these communities to overcome barriers enabling them to access health care remotely. Including audio-only communication in the definition of "interactive telecommunications system" in certain circumstances, will allow these patients to better access and utilize the telehealth option.

Your Committee further finds that interested stakeholders in the health care community have had the opportunity to discuss potential amendments to this measure to further clarify the reimbursement provisions for audio-only communication. Amendments to this measure are therefore necessary to incorporate this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) For provisions of the measure relating to private insurers, inserting language requiring that two-way, real time audio-only communication technology for purposes of diagnosis, evaluation, or treatment of a mental health disorder to a patient in their home be reimbursed at eighty percent of the same services provided via face-to-face contact between a health care provider and a patient, under certain conditions;
- (2) Inserting a repeal date of December 31, 2025; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1038, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1038, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 796 Commerce and Consumer Protection on S.B. No. 1057**

The purpose and intent of this measure is to require job listings to disclose the hourly rate or salary range reasonably reflecting the actual expected compensation.

Your Committee received testimony in support of this measure from Fujiwara and Rosenbaum, LLLC; American Association of University Women of Hawaii; Hawaii Appleseed Center for Law and Economic Justice; Hawai'i State Democratic Women's Caucus; Hawai'i Women Lawyers; and twelve individuals. Your Committee received testimony in opposition to this measure from the Society of Human Resource Management Hawaii and Retail Merchants of Hawaii.

Your Committee finds that when employers are not transparent about pay, gender and racial wage gaps widen, and women and people of color receive less pay for the same or similar work. Research shows that pay negotiations are unfavorable to women and employers tend to perceive women negatively and as greedy and aggressive when they negotiate. Consequently, women's negotiations are less likely to be met with higher pay and promotions. When a company publicly posts salary ranges, it incentivizes them to proactively review and evaluate their compensation practices and address any unjustified disparities between employees. This measure helps reduce pay inequality by requiring employers to be transparent about a job opening's pay or salary.

Your Committee acknowledges the concerns raised by several testifiers that while this measure will help reduce pay inequality, it does not go far enough to ensure pay equality for people in protected categories for substantially similar work performed by other employees. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language prohibiting an employer from discriminating between employees because of any protected category, including race; sex, including gender identity or expression; sexual orientation; age; religion; color; ancestry; disability; marital status; arrest and court record; reproductive health decision; or domestic or sexual violence victim status in certain circumstances, by paying wages to employees in an establishment at a rate less than the rate at which the employer pays wages to other employees in the establishment for substantially similar work on jobs the performance of which requires equal skill, effort, and responsibility, and that are performed under similar working conditions;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1057, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (McKelvey).

**SCRep. 797 (Majority) Commerce and Consumer Protection on S.B. No. 1104**

The purpose and intent of this measure is to:

- (1) Amend the definition of “cannabis” to include cannabis propagules, cuttings, and seeds;
- (2) Define “cannabis cutting” and “cannabis propagule”;
- (3) Allow qualifying patients and primary caregivers who are authorized to cultivate cannabis for medical use to purchase cannabis propagules, cuttings, and seeds from licensed dispensaries in the State under certain conditions;
- (4) Establish quantity limits and quality requirements for the dispensing of cannabis propagules, cuttings, and seeds; and
- (5) Require the Department of Health to adopt rules regarding the dispensing of cannabis propagules, cuttings, and seeds.

Your Committee received testimony in support of this measure from Maui Grown Therapies and two individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that existing State law authorizes qualified medical cannabis patients and caregivers to cultivate a limited number of plants at a location that a patient or caregiver owns or controls, but the law does not address how patients can acquire propagative material. Your Committee further finds that existing laws force patients or their primary caregivers to resort to obtaining propagative material through illicit means, which can result in material with unknown genetic provenance or poor therapeutic value. Thus, this measure includes cannabis propagules, cuttings, and seeds in the definition of “cannabis” to establish a legal, transparent channel for the distribution and testing of propagative material through licensed dispensaries in the State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 798 Commerce and Consumer Protection on S.B. No. 1135**

The purpose and intent of this measure is to require cash or protest bonds to be returned to an unsuccessful initiating party, minus administrative costs, except in cases where the appeal is found to be frivolous or made in bad faith.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii; Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee; Ralph S. Inouye Co., Ltd.; Subcontractors Association of Hawaii; and one individual.

Your Committee finds that only seven states in the county impose a bond requirement to submit a bid protest or seek an appeal of a bid protest decision. Of these seven states, Hawaii is the only one to impose immediate forfeitures of the bond to the State’s general fund if a protestor loses an appeal. Your Committee further finds that a policy designed to deter appeals has the effect of deterring legitimate appeals, which works at the disservice of the public. Thus, this measure incorporates an approach recommended by the National Association of State Procurement officials to fairly evaluate bid protests and help ensure a level playing field for all vendors.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 799 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 1378**

The purpose and intent of this measure is to:

- (1) Clarify that any person, corporation, or entity is prohibited from knowingly referring or transferring patients to an uncertified or unlicensed care facility; and
- (2) Repeal the provision that allows a landlord to be exempt from care facility licensure if the landlord permits a tenant to receive care services from licensed care providers and the landlord does not require a tenant to use or pay for care services as a condition of the rental agreement (“landlord exclusion”).

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that the Department of Health has investigated a troubling number of aging-in-place care homes masquerading as rental homes with multiple unrelated tenants all requiring care services. Although these rental homes meet the definition of an adult residential care home, which would require licensure under existing law, the owners of these rental homes cite the landlord exclusion to avoid the State’s enforcement and licensing requirements. These homes, along with the caregiver services provided at these homes, should be inspected to ensure that their residents are not living in conditions that could be hazardous to their health, safety, or welfare. This measure repeals the landlord exclusion, thereby ensuring that homes and facilities providing care services meet certain health and safety standards to be enforced by the Department of Health.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1378, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.  
Judiciary: Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 800 Health and Human Services on S.B. No. 715**

The purpose and intent of this measure is to designate the month of September as Fetal Alcohol Spectrum Disorder Awareness Month to promote public awareness of the risks of alcohol consumption during pregnancy.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Hawaii Disability Rights Center, Hawaii Fetal Alcohol Spectrum Disorders (FASD) Action Group, Hawai'i Public Health Institute, and nine individuals.

Your Committee finds that prenatal alcohol exposure is the most commonly known cause of preventable birth defects and developmental disorders in the United States. Your Committee also finds that one in twenty children in the United States are born with Fetal Alcohol Spectrum Disorder (FASD), an umbrella term that encompasses the wide array of physical and neurobehavioral developmental disorders caused by in-utero exposure to alcohol. According to testimony received by your Committee, despite data showing FASDs to be more prevalent than autism spectrum disorders, at least ten percent of pregnant women still drink during pregnancy. Furthermore, due to the complex, subtle, and often undetectable nature of FASDs, the preventable lifelong brain-based disorders are often not recognized by parents, providers, educators, probation officers, homeless advocates, and society in general, thereby leaving many individuals with FASDs undiagnosed or misdiagnosed and improperly or not treated. This measure will promote the public's awareness of the risks of alcohol consumption during pregnancy, increase awareness and understanding of the various symptoms of FASDs, and help individuals with FASD and their families receive the necessary support.

Your Committee acknowledges the testimony of the State Council on Developmental Disabilities requesting an appropriation of \$35,000 to organize outreach events to ensure that an annual public awareness campaign preventing FASD can be established within the State. Your Committee finds that this request merits further consideration and requests that subsequent committees that may deliberate on this measure as it progresses through the legislative process consider the funding request.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 715 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 801 Commerce and Consumer Protection on S.B. No. 438**

The purpose and intent of this measure is to:

- (1) Reduce the period for which an application shall be considered abandoned from two years to one year after specified notices are provided;
- (2) Specify the conditions under which applications for licenses and examinations will be deemed abandoned;
- (3) Provide that the one-year period after which an application is considered abandoned cannot be extended;
- (4) Provide that a licensing authority shall not be required to act on and may destroy any abandoned applications; and
- (5) Clarify that an application submitted after an abandoned application shall be treated as a new application and that the applicant shall comply with any new licensing requirements in effect at the time of the new application.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs and Board of Nursing.

Your Committee finds that the Vocational Licensing Division of the Department of Commerce and Consumer Affairs (Division) has experienced a higher than usual backlog of certain health care licensing applications. Many health care workers who intend to be in the State on a temporary basis apply for licensure, but fail to complete the application process prior to leaving the State. Currently, applications must be held open for a period of two years. This measure reduces the amount of time an application must be held open from two years to one year, thereby reducing the volume of applications that the Division must treat as pending, thus allowing the Division to direct its resources to applications requiring active attention.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 802 Judiciary on S.B. No. 1187**

The purpose and intent of this measure is to increase the post-employment lobbying restriction for former legislators from twelve months to twenty-four months.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Animal Rights Hawai'i, and two individuals.

Your Committee finds that it is in the public interest to keep a distinct wall of separation between lobbyists and the State's elected officials. Creating an element of durational separation between former legislators and their former colleagues prior to any formal representation of private interests before these colleagues would promote good governing. Accordingly, this measure maintains the public's trust in state government by extending current post-employment lobbying restrictions for state legislators.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1187 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 803      Judiciary on S.B. No. 1179**

The purpose and intent of this measure is to protect the State's democratic self-governance by:

- (1) Prohibiting foreign entities and foreign-influenced business entities from making independent expenditures, electioneering communications, or contributions to candidates or committees, or contributions or donations to other persons earmarked for those purposes;
- (2) Requiring every business entity that contributes or expends funds in a state election to file a statement of certification regarding its status as a foreign-influenced business entity or foreign corporation; and
- (3) Requiring noncandidate committees making only independent expenditures to obtain a statement of certification from each top contributor required to be listed in an advertisement.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, League of Women Voters of Hawaii, Center for American Progress, Free Speech for People, and five individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that political spending by foreign-influenced business entities can weaken, interfere with, or disrupt Hawaii's democratic self-governance and the trust that the electorate has in its elected representatives. Your Committee believes that existing law does not adequately protect against foreign interference through corporate political spending by United States corporations with significant foreign ownership. This measure will protect the integrity of Hawaii's democratic self-government by preventing foreign-influenced business entities from influencing Hawaii's elections through political spending.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2026; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1179, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 804      (Majority) Judiciary on S.B. No. 944**

The purpose and intent of this measure is to extend and modify the task force established by Act 201, Session Laws of Hawaii 2021, to recommend amendments to update existing parentage laws that reflect outdated, cisheteronormative concepts of families, parenthood, and parental rights to December 31, 2024.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawai'i Women Lawyers, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Northshore Ko'olau Diversity Collective, and three individuals. Your Committee received testimony in opposition to this measure from three individuals. Your Committee received comments on this measure from the Judiciary, Department of Health, Donor Sibling Registry, and two individuals.

Your Committee finds that existing parentage laws reflect outdated, cisheteronormative concepts of families, parenthood, and parental rights. Under existing law, only male partners of birthing people are afforded the option to volunteer themselves as the other legal parent and establish parenthood on a birth certificate. As a result, non-male LGBTQ+ parents are subject to a "queer parent penalty". That is, female, non-binary, and queer partners are forced to undergo extreme financial and emotional burdens to obtain an adoption decree for legal recognition as their child's parent. This measure updates and extends a task force to recommend amendments to the Hawaii Revised Statutes to update existing paternity laws to reflect modern concepts of family, parenthood, and parental rights.

Your Committee has amended this measure by:

- (1) Rather than extending and modifying the task force established by Act 201, Session Laws of 2021, establishing a new task force for the same purpose;
- (2) Specifying that the task force shall submit a report of its findings and recommendations, including any proposed legislation, to the Legislature no later than forty days prior to the convening of the Regular Session of 2025;
- (3) Inserting an effective date of March 22, 2025, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 944, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 944, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Gabbard). Noes, 1 (Awa). Excused, none.

**SCRep. 805      Judiciary on S.B. No. 933**

The purpose and intent of this measure is to allow petitioners of temporary restraining orders to remotely attend temporary restraining orders hearings when:

- (1) Domestic violence or intimate partner violence is alleged; or
- (2) The petitioner has been diagnosed with post-traumatic stress disorder.

Your Committee received testimony in support of this measure from the Institute for Human Services, Inc.; Hawai'i State Coalition Against Domestic Violence; Hawai'i Women Lawyers; Restraining Orders without Borders; and three individuals. Your Committee received comments on this measure from the Judiciary and one individual.

Your Committee finds that since the onset of the coronavirus disease 2019 pandemic, there has been an increase in gender-based violence against women in Hawaii, particularly through domestic and intimate partner violence. Your Committee further finds that survivors of domestic and intimate partner violence often lack access to transportation and paid time off, which can make mandatory in-person hearings especially burdensome for petitioners. According to testimony received by your Committee, this measure would result in greater safety for victims of domestic violence, while ensuring economic justice and equitable access to the courts. Your Committee recognizes that there are concerns relating to the broad language requiring a diagnosis of post-traumatic stress disorder in this measure.

Accordingly, your Committee has amended this measure by:

- (1) Amending language to limit petitioners of temporary restraining orders to attend hearings remotely only when domestic abuse is alleged;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 933, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 933, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 806      (Majority) Judiciary on S.B. No. 926**

The purpose and intent of this measure is to provide pedestrians with greater freedom by allowing them to cross the street when a reasonably careful pedestrian would determine it is safe to do so.

Your Committee received testimony in support of this measure from Hawai'i Public Health Institute and seven individuals. Your Committee received testimony in opposition to this measure from the Department of Transportation, Honolulu Police Department, and one individual. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that existing laws relating to pedestrians are needlessly restrictive and have a disproportionate impact on people who do not drive and who primarily rely upon walking as a means of transportation. Additionally, in many situations, the perception and judgment of pedestrians can be more effective in mitigating injuries than traffic lights or street markings. Your Committee believes that pedestrians should be trusted to cross the street when the absence of oncoming traffic makes it reasonably safe to cross. This measure will provide pedestrians with greater freedom to make determinations about the safety conditions of vehicular traffic.

Your Committee has amended this measure by:

- (1) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 926, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Elefante). Excused, none.

**SCRep. 807      Ways and Means on S.B. No. 1469**

The purpose and intent of this measure is to appropriate moneys to the Hawaii Technology Development Corporation for the development of the first responders technology campus and cybersecurity data center.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, Department of Defense, Department of Law Enforcement, Hawaii Community Development Authority, Hawaii Emergency Management Agency, Hawaii Technology Development Corporation, Office of Enterprise Technology Services, Honua Consulting, and three individuals.

Your Committee received testimony in opposition to this measure from 350Hawaii, Kauai Women's Caucus, Malama Kauai, Our Revolution Hawaii, and numerous individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that the development of a first responders technology campus and cybersecurity data center in central Oahu, outside of the inundation zone, will ensure that the critical infrastructure and data systems needed for state and county first responders are not impacted by sea level rise.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1469, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1469, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kidani).

**SCRep. 808      Ways and Means on S.B. No. 303**

The purpose and intent of this measure is to appropriate moneys for operating and capital improvement grants for fiscal year 2023-2024.

Your Committee received testimony in support of this measure from Hawaii Youth Services Network; West Hawaii Community Health Center; Aloha House, Inc.; Parents And Children Together; Laiopua Community Development Corporation; Waimanalo Health Center; Kokua Kalihi Valley; Hawaii Primary Care Association; Waiohuli Hawaiian Homesteaders Association; Hana Health; Hawai'i Parkinson Association; Laiopua 2020; Lana'i Community Health Center; Epilepsy Foundation of Hawaii; and one individual.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the moneys appropriated by this measure will assist Hawaii's private organizations to provide essential and impactful services to residents and communities.

Your Committee has amended this measure by:

- (1) Adding a legislative finding that the grants made pursuant to Chapter 42F, Hawaii Revised Statutes, under this measure are in the public interest and for the public health, safety, and general welfare;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 303, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 303, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kidani).

**SCRep. 809      Ways and Means on S.B. No. 1437**

The purpose and intent of this measure is to authorize certain pass-through entities to elect to pay Hawaii income tax at the entity level.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii, Goodfellow Bros. Inc., Maui Brewing Co., Maui Chamber of Commerce, Pas De Deux Hawaii, and Trilogy Corporation.

Your Committee received comments on this measure from the Department of Taxation; Grassroot Institute of Hawaii; Pacific Rim Land, Inc; and Tax Foundation of Hawaii.

Your Committee finds that the federal Tax Cuts and Jobs Act of 2017 capped the state and local tax deduction for individuals at \$10,000 for the 2018-2025 taxable years, which deprived individual taxpayers of significant federal tax benefits. Your Committee also finds that, in response, several states have enacted laws to authorize certain pass-through entities to elect to pay state income tax at the entity level, thus bypassing the \$10,000 cap amount. Your Committee believes that this measure will help Hawaii's small businesses by allowing taxpayers to deduct Hawaii state income taxes paid on their federal income tax returns.

Your Committee notes the Department of Taxation's concern that the measure will require significant tax form and system changes and its request that the measure take effect no earlier than January 1, 2025.

Your Committee has amended this measure by:

- (1) Providing that the credit provided by the measure to a member of an electing pass-through entity for the member's pro rata share of taxes paid to another state shall be refundable;
- (2) Adding a Ramseyer clause to denote statutory amendments;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1437, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1437, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kidani).

**SCRep. 810 Commerce and Consumer Protection on S.B. No. 477**

The purpose and intent of this measure is to require the Public Utilities Commission (PUC) to complete its review and issue a decision within nine months from the date that a public utility, other than an investor-owned electric utility company, files its completed application seeking approval for a merger, consolidation, acquisition, or other change of control, and within twelve months from the date of the application for an investor-owned electric utility company.

Your Committee received testimony in support of this measure from Hawaiian Telcom. Your Committee received testimony in opposition to this measure from Life of the Land. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that the telecommunications market in the State is highly competitive both in terms of consumer and business service offerings and workforce talent. There are currently more than two hundred companies authorized by the Public Utilities Commission to provide telecommunications services in the State. Greater certainty on the maximum length of time it takes to process change of control or merger applications would be beneficial to telecommunications companies to minimize loss of customers and employees. This measure requires the PUC to complete its review within nine months for certain public utility applications seeking approval for a merger, consolidation, acquisition or other change of control or within twelve months for investor-owned electric utility companies.

Your Committee acknowledges the concerns raised in testimony that placing a time restriction on the PUC's application review may hamper the PUC's ability to make an informed decision on what could be a complicated merger. Thus, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that, rather than completing its review and issuing a decision within the prescribed time period, the PUC shall make every effort to complete its review of applications for merger, consolidation, acquisition, or other change of control, within the prescribed time;
- (2) Inserting a provision requiring the PUC to, if a decision is rendered after the relevant nine- or twelve-month period, submit a report to the Legislature in writing, on paper or electronically, detailing the reasons for failing to meet the prescribed time period within thirty days after rendering the decision;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 477, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 477, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (McKelvey).

**SCRep. 811 (Majority) Commerce and Consumer Protection on S.B. No. 476**

The purpose and intent of this measure is to exempt a public utility from the required Public Utilities Commission (PUC) authorization when disposing of a fully depreciated asset or property with a zero net book value.

Your Committee received testimony in support of this measure from Hawaiian Electric. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that existing law requires a utility company to obtain approval from the PUC for each asset or property it seeks to dispose of or donate. These assets often have minimal remaining value, and therefore the benefit of going through a PUC proceeding may not be worth the time and administrative resources required. This measure allows utilities to efficiently dispose of these assets and decreases the workload for the PUC and Division of Consumer Advocacy, which currently must review these routine transactions.

Your Committee acknowledges the testimony of the Department of Commerce and Consumer Affairs and PUC, which raised concerns that although an asset is fully depreciated or has a zero book value for accounting purposes, it may still have actual value. Therefore, amendments to this measure are necessary to ensure that consumers benefit from any potential windfall gained from the sale of a fully depreciated or zero net book value asset that has actual value.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that a public utility or water carrier does not need authorization from the PUC if the public utility or water carrier is disposing at a loss or donating a fully depreciated asset or property with a zero net book value that is no longer used or useful; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 476, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 812 (Majority) Commerce and Consumer Protection on S.B. No. 434**

The purpose and intent of this measure is to:

- (1) Require sponsored captive insurance companies to maintain separate protected cells for separate participant contracts;
- (2) Authorize captive insurance companies, other than risk retention captive insurance companies, to apply for an exemption from examination from the Insurance Commissioner, provided certain conditions are met;
- (3) Require protected cells established by sponsored captive insurance companies to be approved by the Insurance Commissioner;
- (4) Authorize sponsored captive insurance companies to establish and maintain protected cells to insure risks of parties unaffiliated with a participant under certain circumstances; and
- (5) Require a participant, through a sponsored captive insurance company, to insure only risks approved by the Insurance Commissioner.

Your Committee received testimony in support of this measure from the Hawaii Captive Insurance Council; Freeman Decorating, Co.; Aon Insurance Managers, Inc.; and one individual. Your Committee received testimony in opposition to a portion of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Hawaii has two hundred fifty-five licensed and operating captive insurance companies whose parent companies are headquartered across the United States, Japan, and Europe. This industry provides meaningful economic benefit to Hawaii, including local, professional job opportunities, and it is estimated that the captive industry contributes nearly \$67,000,000 to Hawaii's economy annually. This measure ensures that state law is flexible to support the captive industry domiciled in Hawaii; and that the regulatory environment remains responsive and efficient to incentivize prospective captive owners to choose to do business in the state.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 434, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 434, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 813 Commerce and Consumer Protection on S.B. No. 717**

The purpose and intent of this measure is to:

- (1) Expand the definition of "beer" under the liquor regulatory laws to mean any alcoholic beverage containing no less than 0.5 percent alcohol by volume obtained by fermentation of any infusion or decoction of malt or any substitute, including alcohol seltzer beverages and excluding sake, cooler beverages, and other distilled products; and
- (2) Authorize brewpubs to sell beer they manufacture, or beer manufactured on their premises, subject to certain conditions.

Your Committee received testimony in support of this measure from Maui Brewing Co., Lanikai Brewing Co., Big Island Brewhaus, and Kauai Beer Company.

Your Committee finds that under existing law, the term "beer" is defined as any beverage obtained by the alcoholic fermentation of barley or other grain, malt, and hops. However, craft beer brewers across the country have created a wider range of beer styles with a variety of additional ingredients in their recipes including other types of grains as base ingredients, other fermentable sugar sources, and brewed hard seltzers. Under federal Alcohol and Tobacco Tax and Trade Bureau regulations, both malt-based and sugar-based hard seltzers are considered "beer". This measure aligns the term "beer" to more closely follow the definition used for "beer" under the Internal Revenue Code, federal regulations, and standards in the craft beer brewing industry to promote expanded local production opportunities.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 717, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 814 Judiciary on S.B. No. 197**

The purpose and intent of this measure is to:

- (1) Increase from \$1,000 to \$5,000 the fine amount that may be assessed against a noncandidate committee making only independent expenditures that has received at least one contribution of more than \$10,000, or spent more than \$10,000 in an election period, for campaign spending law violations; and
- (2) Allow the Campaign Spending Commission to order the fine be up to three times the amount of the unlawful contribution or expenditure, and to order that the payment of the fine assessed against a noncandidate committee, or any portion thereof, be paid from the personal funds of an officer of the noncandidate committee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, League of Women Voters of Hawaii, and three individuals.

Your Committee finds that the Campaign Spending Commission is funded by various sources and enforces the State's campaign finance laws, including the assessment of fines for campaign spending violations. Increasing campaign spending violation fines and allowing the Campaign Spending Commission to recover costs incurred from violators enables the Commission to maintain adequate funding and continue to deter potential violators, including political action committees that make only independent expenditures. Implementation of this measure promotes the integrity and transparency of the campaign finance process and ensures the continued enforcement of the State's campaign finance laws.

Your Committee has amended this measure by:

- (1) Specifying that the payment of any fine assessed against a noncandidate committee, or any portion thereof, be paid from the noncandidate committee or, if the noncandidate committee cannot pay, then from the personal funds of the candidate or officers of the noncandidate committee; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 197, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 815      Judiciary on S.B. No. 201**

The purpose and intent of this measure is to extend the ban on campaign contributions from state and county contractors to grantees of the State under chapter 42F, Hawaii Revised Statutes, and to the owners, officers, employees, and immediate family of the government contractor or state grantee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Department of the Attorney General, Commission to Improve Standards of Conduct, and three individuals.

Your Committee finds that it is common for contractors to circumvent the ban on campaign contributions from state and county contractors by having persons connected to the contractor make political contributions. A few of these situations also involve false name contributions where the contributors are reimbursed for their contributions. Grantees, similar to contractors, receive state funds and thus should be treated similarly in the context of political contributions. This measure will help to prevent the corruption, or at least the appearance of corruption, of elected officials.

Based on concerns raised in testimony that this measure's application is overbroad, your Committee has amended this measure by removing employees of any state or county contractor from those who are banned from making campaign contributions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 201, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 816      Judiciary on S.B. No. 1267**

The purpose and intent of this measure is to:

- (1) Allow nonresidents to apply for a temporary restraining order or order for protection in cases of domestic abuse; and
- (2) Allow nonresidents to apply for a temporary restraining order and an injunction from further harassment.

Your Committee received testimony in support of this measure from Restraining Orders Without Borders, Rainbow Family 808, Hawai'i State Coalition Against Domestic Violence, and eleven individuals. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that states inconsistently apply case law and the minimum contacts requirement when determining jurisdiction in cases of interstate sexual and domestic violence. As a result, courts are denying restraining orders to resident survivors due to jurisdiction concerns over a nonresident offender, leaving the survivor to turn to the offender's court for protection. In Hawai'i, this is not possible, as a nonresident may not petition for a restraining order. This measure will protect nonresident victims from their harasser in the State.

Your Committee heard the testimony of the Judiciary, and accordingly has amended this measure by:

- (1) Specifying that an application for a temporary restraining order may be filed in the family court in the circuit in which:

- (A) The petitioner resides or is temporarily located;
  - (B) The respondent resides;
  - (C) The subject of the petition, a petitioner's family or household member who is a minor or who is an incapacitated person, or who is physically unable to go to the appropriate place to complete or file the petition, resides or is temporarily located; or
  - (D) The domestic abuse occurred; and
- (2) Specifying that any person who has been subjected to harassment may petition the district court for a temporary restraining order and an injunction from further harassment in the district in which:
- (A) The petitioner resides or is temporarily located;
  - (B) The respondent resides; or
  - (C) The harassment occurred.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1267, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1267, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 817      Agriculture and Environment on S.B. No. 637**

The purpose and intent of this measure is to amend hemp processing rules to allow licensed hemp farmers to process hemp in agricultural structures and buildings that are permit-exempt under section 46-88, Hawaii Revised Statutes, as well as food hubs and agricultural parks, as was allowed prior to 2021.

Your Committee received testimony in support of this measure from Hawaii Farmers Union United; Hawai'i Hemp Farmers Association; Maui Farmers Union; Hydroponics Alternatives, LLC; Hawai'i Farm Bureau; and seventeen individuals. Your Committee received testimony in opposition to this measure from the Department of Health and one individual. Your Committee received comments on this measure from the Department of Agriculture and one individual.

Your Committee finds that prior to 2021, Hawaii licensed hemp producers processed small batches of hemp on their farms in agricultural buildings and structures while also regularly using them to store and process other crops without restrictions. However, in 2021, new hemp processing rules were adopted that unintentionally eliminated a farmer's ability to process hemp on their farm and in state-defined agricultural buildings. Your Committee further finds that due to the current rules adopted in 2021, hemp farmers now rely on off-site hemp processing that creates unnecessary processing and shipping costs and also diminishes the overall quality of transported hemp crops. Thus, this measure allows licensed hemp farmers to process hemp on their farms in agricultural structures and in food hubs and agricultural parks.

Your Committee has amended this measure by:

- (1) Inserting language to specify that permissible hemp processing in an enclosed indoor agricultural facility does not include heat or volatile compounds or gases under pressure, such as cold water extraction; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 637, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 637, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (DeCoite).

**SCRep. 818      (Majority) Commerce and Consumer Protection on S.B. No. 1325**

The purpose and intent of this measure is to:

- (1) Align the State's money transmitters law with provisions of the Model Money Transmitters Modernization Act; and
- (2) Authorize the State to share resources, data, and technology tools with other states.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the business of money transmitters has evolved with advances in financial technology. However, the State's existing laws regulating money transmitters have not kept pace with the advances in technology and provide insufficient consumer protection. This measure aligns the State's money transmitters law with the Model Money Transmitters Modernization Act, thus providing the benefit of a stronger multi-state system of financial regulation.

Your Committee has amended this measure by:

- (1) Deleting the reference to the "Act" and inserting the appropriate Hawaii Revised Statutes chapter adopting the Model Money Transmitters Modernization Act;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1325, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 819 Commerce and Consumer Protection on S.B. No. 1327**

The purpose and intent of this measure is to authorize the Public Utilities Commission to use electronic filing processes, including electronic service of documents, to conform to the provisions of chapters 269 (Public Utilities Commission), 271 (Motor Carriers), and 271G (Water Carriers), Hawaii Revised Statutes, and current practices.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; Young Brothers, LLC; and Hawaiian Telcom, Inc.

Your Committee finds that various provisions in chapters 269 (Public Utilities Commission), 271 (Motor Carriers), and 271G (Water Carriers), Hawaii Revised Statutes, require the Public Utilities Commission (PUC) to employ hard copy service or filing. Hard copy filings to the PUC are often very lengthy, sometimes exceeding ten thousand pages and filling ten to fifteen boxes. In response to the coronavirus disease 2019 pandemic, temporary emergency orders were issued to allow for all electronic filings to the PUC. As a result, the PUC's filing process became dramatically streamlined and efficient, enhanced the regulatory process, and created better outcomes for the PUC and its staff, as well as stakeholders, regulated utilities, and the general public. Accordingly, this measure makes those operational improvements permanent.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1327, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1327, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 820 Commerce and Consumer Protection on S.B. No. 1523**

The purpose and intent of this measure is to require the State Board of Professional Engineers, Architects, Surveyors, and Landscape Architects (State Board) to, upon its denial of an application for licensure, provide the applicant with a written notice of denial accompanied by a written explanation describing the reasons for the State Board's denial.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu. Your Committee received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee finds that applicants who are denied an engineer, architect, surveyor, or landscape architect license should be advised of the reasons that their application was denied so they can focus on how to correct, supplement, or improve their application for proper qualification. This measure requires the State Board to provide applicants who were denied licensure a written explanation of the reason for their denial.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1523, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1523, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 821 (Majority) Commerce and Consumer Protection on S.B. No. 729**

The purpose and intent of this measure is to require members of boards of directors and officers of condominium associations, cooperative housing corporations, and planned community associations to certify their receipt and reading of certain documents or complete a board leader course from an instructor certified by the Community Associations Institute, or similar nationally recognized organization.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment Owners dba Hawaii Council of Community Associations, Community Associations Institute, Palehua Townhouse Association, and five individuals. Your Committee received testimony in opposition to this measure from the Real Estate Commission, Hawai'i State Association of Parliamentarians, Honolulu Tower AOA, Waikoloa Village Association, and fifteen individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that the members of boards of directors and officers of condominium associations, cooperative housing corporations, and planned community associations (board members) are volunteers elected by their co-owners who serve for altruistic reasons with the best interests of their communities in mind. Existing law imposes a level of care and loyalty on board members to their associations to the level and extent required of an officer or director of a corporation. To improve board members' decision-making and governance skills, and to minimize disputes by and among owners and their boards, it is imperative that board members receive proper education and training. This measure requires board members to certify that they have received proper education and training, or understand their duties to promote better governance. Your Committee acknowledges the concerns raised in testimony that this measure imposes education requirements on board members, but does not provide support for these new requirements.

Accordingly, your Committee has amended this measure by:

- (1) Inserting new language that:
  - (A) Establishes a Cooperative Housing Corporation Education Trust Fund and Planned Community Association Education Trust Fund and authorizing the Real Estate Commission to use the respective funds to finance education requirements for board members;
  - (B) Requires cooperative housing corporations and planned community associations to pay an education trust fund fee;
  - (C) Establishes requirements for management of the Cooperative Housing Corporation Education Trust Fund and Planned Community Association Education Trust Fund; and
  - (D) Requires cooperative housing corporations and planned community associations to register with the Department of Commerce and Consumer Affairs;
- (2) With respect to a board member's educational requirements, clarifying that:
  - (A) A board member shall, within ninety days after being elected to the board of directors, certify that the member has received and reviewed a copy of the association's or corporation's articles of incorporation, bylaws, rules and regulations, and chapter 421I, 421J, or 514B, Hawaii Revised Statutes, as appropriate; provided that, for any member elected to the board of directors before the effective date of this measure, the member shall provide the written certification to the board of directors within ninety days of the effective date of this measure;
  - (B) A board member shall, within one year after being elected to the board of directors, obtain a board leader course completion certificate from a course approved by the Real Estate Commission; provided that, for any member elected to the board of directors before the effective date of this measure, the member shall obtain the course completion certification within one year of the effective date of this measure; and
  - (C) A board member's failure to both certify that the member has received and reviewed the necessary documents and completed the required board leader course shall disqualify the member from serving on the board of directors;
- (3) Inserting language requiring the Real Estate Commission, with input from stakeholders as to the curriculum to be used, to approve and administer board leadership courses that members of board of directors are required to complete;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 729, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 729, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 822 Commerce and Consumer Protection on S.B. No. 797**

The purpose and intent of this measure is to:

- (1) Specify that primary and secondary plan documents be listed in the public disclosure statement of a time share plan;
- (2) Clarify the manner in which the required disclosure of liens, title defects, or encumbrances on the titles of units may be made; and
- (3) Provide that a review of encumbrances be waived upon the certification from the developer that the time share interest is free and clear of blanket liens or that identifies all blanket liens.

Your Committee received testimony in support of this measure from Marriott Vacations Worldwide Corporation, ARDA – Hawai'i, Hilton Grand Vacations and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the laws governing time sharing plans in Hawaii were first adopted in 1980. At the time, most time sharing plans were confined to a single site and buyers would typically receive a deed of a fractional interest in a specific condominium unit together with the right to use that unit for a specific week in every year. Listing the encumbrances for a single condominium project was simple and added one or two pages to the disclosure statement. It was also appropriate since the buyer would be a co-owner of a condominium unit in the condominium project. However, modern time share plans frequently involve hundreds of units at dozens of sites. The list of encumbrances, which formerly added one or two pages, now adds fifty or more pages to the disclosure statement and lists items that are not likely to be of interest to the time share buyer, such as electrical easements and waterline easements. Furthermore, in modern time share plans, buyers do not typically receive a deed to a unit at any given site. Instead, title is

lodged in a land trust, and buyers own a beneficial interest in the trust. As a result, if the disclosure statement becomes too long, buyers will likely not read any of it. This measure decreases the size of disclosure statements provided to time share buyers and promotes consumer protection by increasing access to documents electronically and simplifying review processes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 797, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 823 Commerce and Consumer Protection on S.B. No. 855**

The purpose and intent of this measure is to require condominiums to include the estimated cost of fire safety equipment or installations as part of their annual update of their reserves study.

Your Committee received testimony in support of this measure from the Hawaii Council of Associations of Apartment owners dba Hawaii Council of Community Associations, Community Associations Institute Hawaii Legislative Action Committee, Palehua Townhouse Association, and six individuals.

Your Committee finds that under existing law, a condominium's board of directors is required to create an annual operating budget and at a minimum update the association's reserve study annually. These two documents determine the amount of maintenance fees homeowners must pay to maintain the association property. Due to a City and County of Honolulu ordinance, certain condominiums are required to make fire safety upgrades unless the condominium can meet certain exceptions. These upgrades can cost a condominium association millions of dollars and, as a result, force it to drastically increase its maintenance fees. This measure would ensure that condominium association's provide complete and accurate information on required expenditures to allow association members to plan accordingly.

Your Committee heard from several testifiers who voiced concerns that this measure, as currently written, could create the unintended consequence of impacting the long-term planning of major condominium maintenance projects with the addition of fire safety upgrades required by the City and County of Honolulu's ordinance. Therefore, amendments to this measure are necessary to address these concerns.

- (1) Inserting language clarifying a condominium association's budget shall include a summary of certain details, including:
  - (A) A disclosure as to whether the budget has been prepared on a cash or accrual basis;
  - (B) The estimated costs of fire safety equipment or installations that meet the requirements of a life safety evaluation required by the applicable county for any building located in a county with a population greater than five hundred thousand; provided that the reserve study may forecast a loan or special assessment to fund life safety components or installation;
  - (C) The estimated reserves contributions that the association will require to maintain the property based on a reserve study performed by or on behalf of the association; provided that the reserve study, if not prepared by an independent reserve study preparer, shall be reviewed by an independent reserve study preparer not less than every three years; provided further that a managing agent with industry reserve study designations shall not be considered as having a conflict of interest for purposes of this requirement; and
  - (D) A general explanation of how the estimated replacement reserves contributions are computed and detailing other specific information;
- (2) Inserting a definition for "independent reserve study preparer";
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 855, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 824 Commerce and Consumer Protection on S.B. No. 930**

The purpose and intent of this measure is to:

- (1) Allow a landlord or landlord's agent to charge an application screening fee at the time a rental application is processed for residential property;
- (2) Cap the amount of an application screening fee at \$25 and prohibit fees to be charged for each member of a household;

- (3) Require the landlord or landlord's agent to provide a receipt for payment of the application screening fee and copy of any report obtained, if requested by the applicant, and within ten days of the applicant's request; and
- (4) Require the landlord or landlord's agent to return any unauthorized fee amounts to the applicant.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that existing law does not regulate the nature and amount of application fees that a landlord may charge prospective tenants. The absence of an application fee cap has led to abuses by landlords, who charge an applicant more than the cost of an application screening fee. This is particularly egregious where landlords or their agents receive many applications for one rental unit, most of which are not seriously considered. Accordingly, this measure will deter this conduct by directly addressing this inequity.

Your Committee acknowledges the concerns raised in testimony that the \$25 application fee cap is not sufficient to cover the cost of a screening report, and that the provision limiting an application to one member of a household could be in violation of fair housing laws, which require equal treatment for all applicants, including within the same household.

Therefore, your Committee has amended this measure by:

- (1) Deleting the \$25 application screening fee cap and inserting a blank amount;
- (2) Deleting language that would have limited a landlord or their agent to charge only one application screening fee per application and prohibited charging an application screening fee for each member of a household;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 930, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 930, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 825 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 910**

The purpose and intent of this measure is to restrict the sale of liquor under temporary liquor licenses to confined and demarcated spaces not located on public streets, roads, sidewalks, or pedestrian walkways.

Your Committees received testimony in support of this measure from the Chinatown Business and Community Association and one individual.

Your Committees find that outdoor events on public streets and spaces are beneficial for residents, businesses, and communities. However, the consumption of alcohol on public streets and sidewalks has led to excessive noise, parking issues, and other related problems for businesses, residents, transportation services, and law enforcement. Thus, this measure ensures the service and consumption of alcohol at events is limited to certain non-public areas.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 910, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 910, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (McKelvey, Richards). Noes, none. Excused, none.

Judiciary: Ayes, 4; Ayes with Reservations (Elefante). Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 826 Commerce and Consumer Protection on S.B. No. 1578**

The purpose and intent of this measure is to:

- (1) Add additional considerations for the Director of Commerce and Consumer Affairs (Director) to take into account when ensuring that the terms and conditions required for operation of an access organization are fair to the public in its designated service area; and
- (2) Require cable operators to include viewership numbers in its reports to the Director.

Your Committee received testimony in support of this measure from 'Ōlelo Community Media. Your Committee received testimony in opposition to this measure from Charter Communications. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that community media provides local, educational, public interest, and government programming by hundreds of community and student producers, allowing the community to share and receive information and increase civic engagement. This measure requires the Director to consider placing designation requirements on public, educational, and government

access organizations to enable connectivity, and to provide digital literacy education, media literacy training, and workforce development. Additionally, reporting requirements regarding viewership will help inform future policy making.

Your Committee acknowledges the concerns raised in testimony of Charter Communications, which raised concerns that this measure would require cable operators to report their competitively sensitive viewership data.

Therefore, your Committee has amended this measure by:

- (1) Clarifying that viewership data included in a cable operator's report shall only be for channels designated for public, educational, and government access use; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1578, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1578, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 827 Commerce and Consumer Protection on S.B. No. 799**

The purpose and intent of this measure is to:

- (1) For time share plans that use title-holding trusts, require the developer to submit a title report evidencing that the title is vested in the trustee;
- (2) For time share plans that use a notice of time share plan, require the recordation of the notice and its submission; and
- (3) For time share plans that use alternative arrangements, require the recordation of any alternative arrangement documents.

Your Committee received testimony in support of this measure from the Marriott Vacations Worldwide Corporation, ARDA Hawai'i, Hilton Grand Vacations, and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that existing law requires that a developer application for registration of a time share plan include a title report or other evidence of title. The State's law governing time sharing plans requires that the rights of time share owners be protected from blanket liens, such as mortgages, that could be used to deprive the time share owners of the use of the time share units. Foreclosure of a mortgage could cause the time share owners to lose their occupancy rights. As a result, the time share industry has implemented various means to ensure that a time share owner's right to use the time share is protected, such as title-holding trusts, notice of time share plan, and other alternative arrangements. In these cases, developers are, or should be, required to submit an update to title report; however, once blanket lien protections are in place, there is no further need for the developer to submit additional title reports. This measure streamlines the review of timeshare registration filings while continuing to maintain high levels of consumer protection.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 799, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 799, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 828 Commerce and Consumer Protection on S.B. No. 687**

The purpose and intent of this measure is to increase the amount of malt beverages, wine, and alcohol that a small craft producer pub licensee may produce during the license year.

Your Committee received testimony in support of this measure from Lanikai Brewing Co., Craft 'Ohana, Kauai Beer Company, and one individual.

Your Committee finds that existing law places limits on the amount of malt beverages, wine, and alcohol that a small craft producer pub licensee may produce during the license year. The existing limits do not allow room for economic growth for a small craft producer, or the industry at large. To meet current demands and promote economic growth, these production limits should be increased. This measure allows local businesses to continue to grow and create more manufacturing jobs.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 687, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 687, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 829 Commerce and Consumer Protection on S.B. No. 1201**

The purpose and intent of this measure is to:

- (1) Require condominium associations to register on an annual basis, rather than on a biennial basis;
- (2) Add an additional annual condominium education trust fund fee to be used to support the annual registration with attached documents of the association;
- (3) Amend the documents required for association registration;
- (4) Broaden the list of documents an association shall maintain; and
- (5) Amend the requirements and procedures for a condominium association to provide association documents to unit owners.

Your Committee received testimony in support of this measure from the Waikiki Neighborhood Board, Kokua Council, Hui 'Oia'i'o, and eleven individuals. Your Committee received testimony in opposition to this measure from the Legislative Action Committee of the Community Associations Institute, Hawaii Chapter; Hawaii Council of Associations of Apartment Owners dba Hawaii Council of Community Associations; Honolulu Tower Townhouse Association; Palehua Hale AOA; and ten individuals. Your Committee received comments on this measure from the Real Estate Commission.

Your Committee finds that existing law requires condominiums to register with the Real Estate Commission on an biennial basis. However, due to board turnover, owners moving in and out of the condominiums, and other factors, the registration information the Real Estate Commission has for condominiums, including names of the board members, or management company agents, can quickly become out of date. Up to date information about a condominium and its finances is important for a purchaser of a unit in the condominium. Therefore, this measure requires condominiums to register more frequently on an annual basis and makes other amendments improving condominium associations' transparency and accountability.

Your Committee acknowledges the concerns raised in testimony that this measure, as currently drafted, requires the Real Estate Commission and Department of Commerce and Consumer Affairs to maintain a database, which is partially duplicative and could potentially contain personal identifiable information protected by federal privacy laws. Accordingly, amendments to this measure are necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the Real Estate Commission and Department of Commerce and Consumer Affairs to maintain a publicly available and searchable database on the Department's website containing the registration information;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1201, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 830 (Joint) Higher Education and Ways and Means on S.B. No. 838**

The purpose and intent of this measure is to require the University of Hawaii Vice President for Community Colleges to report directly to the Board of Regents.

Your Committees received testimony in opposition to this measure from the University of Hawai'i System and two individuals.

Your Committees find that the University of Hawaii provides essential postsecondary education and workforce development programs to Hawaii residents. To increase access to these educational and career advancement opportunities, the University of Hawaii has community colleges located across the State, with at least one campus in each county. Despite the vital role the community colleges play in increasing the University's reach, they lack administrative representation within the University. This measure will provide the community colleges with a voice at the administrative level to promote and support access to education across the State.

Your Committees further find that the Hawaii Community College Promise Program, which funds qualified community college students' direct education costs, is essential to the University of Hawaii's efforts to increase access to education. In addition to funding for the Hawaii Community College Promise Program, the community colleges have identified the establishment of additional Security Officer positions as a critical need. Amendments to this measure are therefore necessary to support access to education and student safety at the University of Hawaii Community Colleges.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an appropriation of \$3,700,000 for the continuation of the Hawaii Community College Promise Program;
- (2) Inserting an appropriation of \$693,780 for fiscal year 2023-2024 and \$1,456,938 for fiscal year 2024-2025 to establish thirty-one full-time equivalent (31.0 FTE) Security Officer positions for the University of Hawaii Community Colleges;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 838, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 838, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).  
Ways and Means: Ayes, 13. Noes, none. Excused, none.

**SCRep. 831      Judiciary on S.B. No. 767**

The purpose and intent of this measure is to:

- (1) Prohibit the Governor or a Mayor from suspending requests for public records or vital statistics during a declared state of emergency; and
- (2) Allow for a reasonable delay in an agency's response to a request as a result of extenuating circumstances.

Your Committee received testimony in support of this measure from the Civil Beat Law Center for the Public Interest, League of Women Voters of Hawaii, All News Hawaii, Iron Workers Stabilization Fund, and four individuals. Your Committee received comments on this measure from the Hawai'i Emergency Management Agency, Department of Human Services, Department of Health, Office of Information Practices, and Grassroot Institute of Hawaii.

Your Committee finds that the Governor's Twenty-First Emergency Proclamation relating to the coronavirus disease 2019 (COVID-19) emergency included a suspension of the Uniform Information Practices Act to the extent that it contains any deadlines for agencies or the Office of Information Practices, relating to requests for government records or complaints to the Office of Information Practices, subject to minimum requirements. One requirement is that the completion of the request must directly impair the agency's COVID-19 response effort. This requirement allowed government agencies to freely deny access to public information for an indefinite time period even as COVID-19 vaccination rates increase and the economy begins to reopen. This measure prevents future suspensions of the acquisition of critical public records.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 767 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 832      Judiciary on S.B. No. 40**

The purpose and intent of this measure is to:

- (1) Establish provisions relating to civil remedies for discriminatory reporting to a law enforcement officer; and
- (2) Provide that a person who summons or reports to a law enforcement officer, without reason to suspect a crime, offense, or imminent danger has occurred or is occurring, because of that person's belief or perception involving a member of a protected class shall be civilly liable.

Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committee finds that the vigilance of individual citizens can keep communities safe through the reporting of witnessed criminal conduct to law enforcement. However, in certain circumstances, individuals have misused the ability to summon law enforcement officers to discriminate against persons of protected classes without reason to suspect a crime is being committed. This measure will allow civil remedies, including injunctions and compensation, for people who have been contacted by police based on discriminatory reporting by those with intent to cause harm based on a person's protected class.

Your Committee has amended this measure by:

- (1) Adding language that specifies that a person shall be civilly liable if the person knowingly contacts a law enforcement officer to come to a location to contact a person on the basis of the person's actual or perceived race, color, ancestry, ethnicity, national origin, place of birth, sex, age, religion, disability, sexual orientation, or gender identity with the specific intent to infringe upon the person's rights under the Hawaii State Constitution or United State Constitution; discriminate against the person; cause the person to feel harassed, humiliated, or embarrassed; cause the person to be expelled from a place that the person is lawfully located; damage the person's reputation or standing within the community; or damage the person's financial, economic, consumer, or business prospects or interest;
- (2) Deleting language that would have made civilly liable a person who summons or reports to a law enforcement officer, without reason to suspect a crime, offense, or imminent danger has occurred or is occurring, because of that person's belief or perception involving a member of a protected class;
- (3) Clarifying that any person injured by discriminatory reporting may sue for punitive damages;
- (4) Adding language that specifies that if the judgment is for the plaintiff, the plaintiff shall be awarded damages of not less than \$1,000 plus attorneys' fees and costs;
- (5) Deleting language that would have specified that a person lacks reason to suspect a violation of the Hawaii Penal Code, any other criminal conduct, or an imminent danger to a person or property has occurred or is occurring if a reasonable person would not suspect such a violation, criminal conduct, or imminent danger has occurred or is occurring;

- (6) Adding language that requires the Department of the Attorney General, in consultation with the Hawai'i Civil Rights Commission, to provide guidance to the public on the enactment of this measure;
- (7) Adding language that requires the Department of Law Enforcement to provide guidance to the public on this measure starting January 1, 2024; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that other jurisdictions, including Grand Rapids, New Jersey, New York, Oregon, San Francisco, and Washington have laws that allow damages for discriminatory reporting. Your Committee also notes that there is an existing criminal false reporting statute in Hawai'i. Therefore, your Committee requests that future committees consider the possibility of requiring that a violation of the criminal law be deemed prima facie evidence that the civil discriminatory reporting statute was violated.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 40, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 833 (Majority) Judiciary on S.B. No. 110**

The purpose and intent of this measure is to require gender-specific terminology used in adoption and divorce matters to be construed in a gender-neutral manner.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, and seven individuals. Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that for many individuals, including queer and gender nonconforming individuals, the ability to start a family is a significant life event. Presently, certain laws maintain gender-specific terminology that is not only exclusionary, but also erases the experiences and identities of individuals who do not fit into the gender binary. This measure requires gender-specific terminology used in adoption and divorce matters to be construed in a gender-neutral manner to allow all individuals to be recognized and respected in the legal system regardless of their gender identity.

Your Committee notes that this measure's approach is piecemeal, and future committees may wish to consider a more comprehensive approach that applies to all state laws.

Your Committee has amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 110, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 110, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Gabbard). Noes, 1 (Awa). Excused, none.

**SCRep. 834 Judiciary on S.B. No. 591**

The purpose and intent of this measure is to establish the operation of an illegal gambling business as a class C felony.

Your Committee received testimony in support of this measure from the Honolulu Police Department and two individuals. Your Committee received testimony in opposition to this measure from the Office of the Public Defender. Your Committee received comments on this measure from Pono Advocacy.

Your Committee finds that numerous studies have confirmed that gambling causes problems such as bankruptcy, theft, embezzlement, suicide, child abuse and neglect, divorce, incarceration, and homelessness. Studies have also demonstrated that gambling schemes are essentially regressive taxes on low-income people, those who can least afford to participate. This measure creates a clear definition of "illegal gambling businesses", establishes forfeiture procedures, and designates consequences.

Your Committee has amended this measure by:

- (1) Deleting language that, for the purposes of obtaining search warrants and arrest, would have allowed probable cause that a business received gross revenue in excess of \$2,000 in any single day to be deemed established when certain gambling business activities by five or more persons continues for two or more successive days;
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 591, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 591, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 835 (Majority) Judiciary on S.B. No. 1079**

The purpose and intent of this measure is to require courts to, upon written request, expunge records of convictions for:

- (1) Operating a vehicle after consuming a measurable amount of alcohol while under the age of twenty-one, if the sentencing occurred prior to 1998; and
- (2) Certain property offenses, if the sentencing occurred prior to 1998.

Your Committee received testimony in support of this measure from the Office of the Public Defender. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that, currently, any individual who has committed the offense of operating a vehicle after consuming a measurable amount of alcohol while under the age of twenty-one or committed certain property offenses, if the sentencing for either offense occurred prior to 1998, is now likely in a very different place in their life. While the offenses occurred a lifetime ago, these individuals are otherwise forced to continue to suffer the harsh consequences of being saddled with a criminal record when engaging in common activities, such as finding employment or housing. Studies show that criminal convictions impact broader everyday issues such as educational opportunities, housing options, starting or expanding a family, public assistance, insurance premiums, volunteering in community work, and privacy. This measure will assist many in finding better employment and improving their overall quality of life.

Your Committee has amended this measure by:

- (1) Specifying that the criteria for expungement of certain offenses where the person be under the age of twenty-one at the time of the offense means twenty-one years;
- (2) Clarifying that the court shall issue a court order to expunge the record of conviction for certain offenses if the person has fulfilled the terms of the sentence imposed by the court; and
- (3) Inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1079, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 836 (Joint/Majority) Commerce and Consumer Protection and Judiciary on S.B. No. 26**

The purpose and intent of this measure is to

- (1) Prohibit a landlord from recovering possession of a dwelling unit from a tenant if the habitability of the premises is significantly impaired;
- (2) Limit a tenant's liability for rent if the habitability of the premises is significantly impaired; and
- (3) Provide remedies for retaliatory evictions.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs and one individual. Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that the State has one of the highest percentages of renter households in the nation, but the least amount of affordable housing. As a result, thousands of families in Hawaii, many of whom are already facing eviction, are unable to find alternative housing. Your Committees further find that eviction procedures must carefully balance the landlord's need for sufficient enforcement against the tenant's need for sufficient protection. Under existing law, it is difficult for tenants to defend themselves against wrongful evictions. While the Landlord-Tenant Code clearly outlines landlords' responsibilities, it fails to provide tenants with suitable methods of recourse and ways to hold landlords accountable in various situations. Although existing law guarantees compensation for certain landlord offenses, it also places on the tenant the burden of proving entitlement to compensation for a landlord's retaliation. The result is often that tenants who have been retaliated against are not made whole, allowing landlords to continue these retaliatory practices. This measure provides greater protections for tenants against eviction and incentivizes landlords to keep their rental units in a safe and sanitary condition.

Your Committees acknowledge the concerns raised in testimony that the cap on the damages in an amount equal to two months' rent may be an insufficient remedy for a tenant who is subjected to a particularly egregious eviction. Therefore, amendments to this measure are necessary to set the two months' rent as a floor for damages, rather than a cap.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language allowing a tenant who was retaliatorily evicted by a landlord to recover damages in an amount equal to not less than two months' rent;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 26, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 26, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, none.

Judiciary: Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 837 Judiciary on S.B. No. 1189**

The purpose and intent of this measure is to require incumbent state legislators, or the treasurer of their candidate committee, to file large contribution reports with the Campaign Spending Commission within ten days of receiving a contribution of an amount aggregating more than \$500 during a legislative session.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that reporting requirements are an essential safeguard to prevent the undue influence of special interests in the legislative process. By requiring timely disclosure of large campaign contributions, voters are better equipped to make informed decisions about who they choose to elect to public office. This transparency promotes the integrity of the political process and helps to maintain public trust in democratic institutions. This measure is an important step towards ensuring that the State's campaign finance laws are transparent and accountable and that the influence of big money in politics is kept in check.

Your Committee has amended this measure by:

- (1) Removing language that would have required incumbent state legislators, or the treasurer of their candidate committee, to file large contribution reports with the Campaign Spending Commission within ten days of receiving a contribution of an amount aggregating more than \$500 during a legislative session;
- (2) Inserting language that requires all state legislators, or the treasurer of their candidate committee, to file a preliminary report on February 28 of the year of a general election;
- (3) Inserting an effective date of January 1, 2026; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1189, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 838 Commerce and Consumer Protection on S.B. No. 64**

The purpose and intent of this measure is to:

- (1) Require issuers of Medigap insurance in the State to accept an eligible individual's application for coverage at any time throughout the year and prohibit issuers from denying the applicant a Medigap policy or certificate or making any premium rate distinctions due to various reasons, including health status; and
- (2) Require the Insurance Commissioner to amend or adopt rules accordingly.

Your Committee received testimony in support of this measure from two individuals. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Medicare beneficiaries can incur substantial cost-sharing and out-of-pocket expenses for their medical care, especially if they have a serious health problem. Many Medicare beneficiaries supplement their Medicare benefits with private insurance, such as Medigap plans, to help lessen the cost of copayments, coinsurance, and deductibles. However, the open enrollment period for Medigap insurance is limited to the first six months of a beneficiary's Medicare eligibility. This measure ensures that Medigap plans continue to offer meaningful benefits and affordable choices for beneficiaries and protects them from high out-of-pocket costs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 64, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 839 Commerce and Consumer Protection on S.B. No. 746**

The purpose and intent of this measure is to:

- (1) Expand the coffee labeling and advertising requirements to include ready-to-drink coffee beverages and inner packages and inner wrapping labels;
- (2) Require a disclosure on the label of coffee blends of the respective geographic and regional origins and percent by weight of the blended coffees; and
- (3) Prohibit the use of the term "All Hawaiian" in labeling or advertising for roasted coffee or instant coffee not produced entirely from green coffee beans grown and processed in Hawaii.

Your Committee received testimony in support of this measure from the Department of Agriculture; Adaptations, Inc.; Chamber of Sustainable Commerce; Cyanotech Corporation; Cassandra Farms; Growing Together Edible Landscaping; Hawai'i Alliance for Progressive Action; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Hawaii's Thousand Friends; Ka Ohana O Na Pua; Kealaola, LLC; Kanalani Ohana Farm; Kona Coffee Farmers Association; Kuaiwi Farm; Kuwale Ridge Farms; Life of the Land; Rancho Aloha Coffee Farm; and thirty individuals.

Your Committee finds that Hawaii is the only region in the world where local laws allow the use of the region in the name of the product with only ten percent genuine regional content. When consumers purchase what they believe is "Kona Coffee", but is in fact ninety percent foreign-grown, local farmers suffer economically. This measure protects consumers by promoting integrity in the labeling of products and supports one of the State's most valuable signature crops.

Your Committee has amended this measure by:

- (1) inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 746, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 746, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 840 Commerce and Consumer Protection on S.B. No. 690**

The purpose and intent of this measure is to prohibit the sale of certain fluorescent lamps as a new manufactured product, with certain exemptions.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, Appliance Standards Awareness Project of the American Council for an Energy Efficient Economy, Blue Planet Foundation, Hawai'i Energy, Ulupono Initiative, and two individuals. Your Committee received comments on this measure from the Alliance for Automotive Innovation.

Your Committee finds that all fluorescent bulbs contain mercury, a potent neurotoxin that threatens human health and the environment. When fluorescent bulbs are accidentally broken, they present a health hazard to those nearby and to the environment. Light-emitting diodes, or LEDs, last about twice as long as fluorescent bulbs and use approximately half the electricity to produce the same amount of light. LEDs also do not contain mercury, so they can be disposed of conveniently and more cheaply than fluorescents. This measure will help avoid the dumping of hazardous lamps in Hawaii from other locations that have banned these products, reduce electricity bills, reduce greenhouse gas emissions, and avoid the production of harmful mercury.

Your Committee acknowledges concerns raised in testimony that while fluorescent lamps have been phased out for new vehicles, older vehicles still utilize fluorescent lamps to light up display units and must be replaced by subsequent fluorescent lamps, as there is no alternative for replacement. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language exempting fluorescent lamps used to replace a lamp installed as original equipment in previously manufactured motor vehicles from the prohibitions established in this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 690, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 690, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 841 Judiciary on S.B. No. 1381**

The purpose and intent of this measure is to repeal section 328-106, Hawaii Revised Statutes, which provides the Department of Health with the authority to regulate pharmacy benefit managers that reimburse a contracting pharmacy for a drug on a maximum allowable cost basis.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that it is not the Legislature's intent for the Department of Health to enforce and regulate an appeals process between private entities nor is it in the scope of the Department of Health's purview and expertise to do so. Your Committee further finds that disputes between pharmacy benefit managers and pharmacies over contractually obligated reimbursements should be enforced by the courts. According to testimony received by your Committee, the regulatory mechanism established in section 328-106, Hawaii Revised Statutes, is ineffective and does not offer pharmacies realistic or substantive relief from the volatile price fluctuations of the prescription drug market.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1381, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 842      Judiciary on S.B. No. 1268**

The purpose and intent of this measure is to make technical changes to the statutory definitions of “agricultural enterprise lands” and “non-agricultural park lands” for the purposes of clarity and consistency.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai‘i Farm Bureau.

Your Committee finds that Act 221, Session Laws of Hawaii 2022, created the Agricultural Enterprise Program within the Hawaii Department of Agriculture to give the Department the ability to lease lands managed by the Department for related agricultural activity, rather than solely for crop development and production. However, the definition of “agricultural enterprise lands” inadvertently created an inconsistency with the existing definition of “non-agricultural park lands” in chapter 166E, Hawaii Revised Statutes. This measure makes technical changes to the statutory definitions of “agricultural enterprise lands” and “non-agricultural park lands” to remedy the inconsistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 843      Judiciary on S.B. No. 1196**

The purpose and intent of this measure is to clarify that board and commission holdover members shall not hold office beyond the end of the second regular legislative session following the expiration of the member’s term of office regardless of any conflicting statutes.

Your Committee did not receive testimony for this measure.

Your Committee finds that when a member’s seat on a state board or commission has expired, current law allows for the member to act as a holdover member until a successor is nominated and appointed, unless the holdover member is disqualified from serving by either not receiving the advice and consent of the Senate or by exceeding term limits. However, holdover members have argued that certain statutory provisions allow them to continue to hold office indefinitely until the governor appoints a replacement, even if they have exceeded statutory term limits. This measure makes clear that a holdover member shall not hold office beyond the end of the second regular legislative session following the expiration of the member’s term of office and that this interpretation of the law shall take precedence over all conflicting statutes concerning holdover members.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 844      Judiciary on S.B. No. 1138**

The purpose and intent of this measure is to:

- (1) Prohibit a procurement officer from disclosing a competing offeror’s proposal or evaluation score during a debriefing requested by a non-selected offeror; and
- (2) Authorize the disclosure of a competing offeror’s proposal or evaluation score after a protest is resolved and the contract is executed.

Your Committee received testimony in support of this measure from the State Procurement Office and Department of Transportation.

Your Committee finds that the intention of public procurement is to make available government contracts to the public in a manner that is fair and seamless. Your Committee also finds that the many offerors of government contracts have competing interests and release sensitive information to the procurement office that can be detrimental to offerors and the procurement process when released publicly at an inappropriate time. Thus, this measure prohibits the disclosure or release of an offeror’s proposal or evaluation score to a non-selected offeror until after any protest is resolved and the contract is executed.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1138 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 845      Judiciary on S.B. No. 1131**

The purpose and intent of this measure is to amend the definitions of “time share interest” and “time share plan” to include any fractional ownership plan for a joint homeownership limited liability company, or any other entity.

Your Committee finds that a time share plan is a shared ownership model of vacation real estate in which multiple purchasers own allotments of usage, typically in one-week increments, in the same property. Because of its fractional ownership structure, time share plans are popular in vacation locales where owners may want only occasional control of a property, such as for vacation stays.

Your Committee further finds that, while the State regulates time share plans under chapter 514E, Hawaii Revised Statutes (HRS), a new form of time share, the joint homeownership limited liability company, does not currently fall within the scope of the State’s time share laws. Under this new scheme, buyers can purchase shares in a limited liability company that owns a property and the buyers can

then use the property as a second home. The result of these vacation homes masquerading as joint homeownership limited liability companies has resulted in the evasion of county taxes and state regulations to the detriment of communities, particularly on Maui. Your Committee finds that despite its new form, the joint homeownership limited liability company is substantively a time share plan. Therefore, this measure will require that joint homeownership limited liability companies are appropriately regulated under chapter 514E, HRS.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 846      Judiciary on S.B. No. 1112**

The purpose and intent of this measure is to:

- (1) Prohibit bans on dwelling unit rentals having a term between one and five months for interisland relocations and temporary workers; and
- (2) Authorize county councils to adopt any ordinances necessary to implement the prohibition by June 30, 2024.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Community Associations Institute, Hawaii Chapter and one individual. Your Committee received comments on this measure from Airbnb.

Your Committee finds that short-term rentals and their hosts, guests, and transitional residents support a number of local small businesses, from housekeeping and landscaping to restaurants and local markets. Your Committee believes that residents who are relocating to an interisland destination and temporary workers should have the option to stay at a short-term rental. This measure will allow individuals to relocate and work on temporary job sites and benefit local economies and businesses.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1112 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 847      Judiciary on S.B. No. 1056**

The purpose and intent of this measure is to clarify that the engineering study required prior to the setting of a maximum speed limit shall not apply to reductions of speed limits.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Transportation Services of the City and County of Honolulu, Bikeshare Hawaii, and Hawaii Cycling League.

Your Committee finds that the safety of all roadway users is of paramount importance. Speed limits alert all motorists to safe speeds on roadways, particularly in residential areas or high traffic thoroughfares that are also shared with pedestrians and bicyclists. This measure prioritizes the protection of all roadway users to reflect responsibility and safety.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1056 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, none. Excused, 1 (Awa).

**SCRep. 848      Judiciary on S.B. No. 989**

The purpose and intent of this measure is to:

- (1) Prohibit trespass with an unmanned aircraft system, with exceptions; and
- (2) Establish a penalty.

Your Committee received testimony in support of this measure from the Honolulu Tower Association of Apartment Owners and two individuals.

Your Committee finds that usage of unmanned aircraft systems, commonly known as drones, has become increasingly popular across the State. Drones have approached private property, hovering nearby at various times throughout the day. However, there is presently a lack of regulation regarding drone usage and enforcement in private areas. This measure addresses the concerns of residents across the State while also establishing enforcement measures to promote responsible drone usage.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 989 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 849      Judiciary on S.B. No. 966**

The purpose and intent of this measure is to allow as punishment for felony disposal of solid waste and petty misdemeanor disposal of solid waste, forfeiture of any vehicle used in the commission of the offenses.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Reef and Ocean Coalition, and Climate Protectors Hawai'i.

Your Committee finds that vehicles, commercial or personal, are usually involved in the illegal dumping and transport of solid waste. Without landfill safeguards such as dumping, especially of hazardous materials and construction and demolition waste, can pollute the neighboring environment, harm human health, and have negative economic consequences. Thus, this measure allows for the forfeiture of any vehicle owned and operated by a person in the commission of an illegal dumping offense in addition to the possibility of imprisonment and fines, to create a more powerful deterrent effect.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 966 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 850      Judiciary on S.B. No. 673**

The purpose and intent of this measure is to authorize health care facilities to allow terminally ill patients to use medical cannabis under certain conditions.

Your Committee received testimony in support of this measure from the Drug Policy Forum of Hawai'i and six individuals. Your Committee received comments on this measure from the Department of Public Safety, Palolo Chinese Home, and Healthcare Association of Hawaii.

Your Committee finds that medical cannabis is most commonly used for pain relief, improvement of appetite, reduction of nausea, and as a substitute for heavy pain relievers such as fentanyl and morphine. Certain terminally ill patients may use cannabis for treatment or pain relief and wish to continue that use while at the hospital or other health care facility. While medical cannabis is legal in the State, cannabis remains classified as a Schedule I drug at the federal level. As health care facilities that are Medicare or Medicaid providers receive accreditation from the Centers for Medicare and Medicaid Services, these facilities are required to comply with county, state, and federal laws to receive reimbursements. Additionally, health care facilities may have adopted policies prohibiting cannabis on the premises out of perceived risk of losing federal funding. In order to balance the needs of terminally ill patients who use medical cannabis with the various regulations on health care facilities, this measure provides the option for health care facilities in the State, other than chemical dependency recovery hospitals, the State Hospital, and the Department of Public Safety-operated health care programs, to authorize terminally ill patients, subject to certain requirements, to use non-smoked medical cannabis.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 673, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 851      Judiciary on S.B. No. 497**

The purpose and intent of this measure is to:

- (1) Prohibit commercial vehicles weighing ten thousand pounds or more from driving in the left lane on all roadways with two lanes unless the commercial vehicle is able to maintain speed with existing traffic flow and is in the process of passing another vehicle;
- (2) Provide exceptions for commercial vehicles turning or exiting left, or preparing to turn or exit left;
- (3) Prohibit commercial vehicles weighing ten thousand pounds or more from driving in the left lane on all roadways with three or more lanes; and
- (4) Exempt buses and van pools operated by the counties.

Your Committee received testimony in support of this measure from the Department of Transportation Services of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that traffic mitigation strategies allow roadway users to safely navigate across the State. Improvement of traffic flow on state roadways also decreases the likelihood of traffic congestion and motor vehicle collisions that may cause serious injuries or death. Oversized vehicles especially have the potential to slow traffic flow for smaller vehicles by restricting their operation in the left lane of roadways. This measure ensures the safety of all roadway users while also addressing traffic flow solutions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 497, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 852      (Majority) Judiciary on S.B. No. 406**

The purpose and intent of this measure is to:

- (1) Allow the court to award reasonable visitation rights to a petitioning grandparent of a minor child when the child's parent is unable to exercise parental visitation due to death or incarceration and denial of reasonable grandparent visitation rights would cause significant harm to the child;

- (2) Set forth procedures, considerations, and standards for the court to grant grandparent visitation rights; and
- (3) Specify that any person who violates the terms and conditions of a court order granting reasonable grandparent visitation rights may be held in contempt of court.

Your Committee received testimony in support of this measure from twelve individuals.

Your Committee finds that the incarceration or death of a parent is a highly traumatic experience for a child. Your Committee believes that grandparents can give critical support to children to help them recover from the loss of a parent by providing the child with cultural and ancestral lessons, important familial medical history, and a sense of belonging. This measure will support children suffering from the traumatic experience of losing a parent by allowing courts to award reasonable visitation rights to a grandparent of a minor child when the child's parent is unable to exercise parental visitation due to death or incarceration.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 406, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 853 Commerce and Consumer Protection on S.B. No. 1016**

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2024, require the Chief Executive Officer of the Hawaii Health Systems Corporation or the Chief Executive Officer's designee, to provide written comments to the Governor before the State enters into any new agreement with a private entity or modifies or terminates any existing agreement to transfer the right and responsibility to manage, operate, and otherwise provide health care services at one or more facilities of the Maui Regional System; and
- (2) Expand the definition of "private entity" to include business organizations that are authorized to transact business in the State, including nonprofit management entities that have a certificate of need or license to operate one or more community hospitals or hospitals serving a rural population licensed under the laws of any state.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the Hawaii Health Systems Corporation has faced financial challenges, which pose a risk to the public health care services provided in the State. To strengthen the viability of Hawaii Health Systems Corporation's public hospital system on the island of Maui, the Legislature passed Act 103, Session Laws of Hawaii 2015, which allowed for the transfer of the operations and management of the Hawaii Health Systems Corporation's Maui Regional System to a private entity. On January 14, 2016, Maui Health System, A Kaiser Foundation Hospitals LLC, entered into a transfer agreement with the State of Hawaii and other entities. According to testimony received by your Committee, the contract to take over was negotiated by the then Governor, so certain promises made to the Maui Regional System Board were not incorporated into the contract. This measure expands the choice of private entities to which the Hawaii Health Systems Corporation may transfer its Maui Regional System facilities and ensures that any representations made by the selected private entity to the Hawaii Health Systems Corporation is conveyed to the Governor during the negotiation process.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 854 Commerce and Consumer Protection on S.B. No. 382**

The purpose and intent of this measure is to:

- (1) Prohibit motor vehicle manufacturers from charging subscription fees for certain services that employ equipment already installed in the motor vehicle at the time of sale as a new motor vehicle; and
- (2) Provide that the prohibition shall not apply to entertainment streaming subscription services and vehicle navigation.

Your Committee received testimony in support of this measure from the Department of Transportation. Your Committee received testimony in opposition to this measure from the Alliance for Automotive Innovation. Your Committee received comments on this measure from the Big Island Electric Vehicle Association.

Your Committee finds that motor vehicle manufacturers have begun charging subscription fees for consumers to use certain features in their vehicles, including remote locking, remote ignition, and automatic high-beam headlights. Your Committee further finds that additional manufacturer's fees and other factors unnecessarily contribute to the increase in transportation costs for residents in Hawaii. Thus, this measure prohibits vehicle manufacturers from charging subscription fees for the use of certain services that employ equipment installed in a motor vehicle at the time of sale.

Your Committee has amended this measure by:

- (1) Clarifying that manufacturers may charge consumers for traffic information and safety-related services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 382, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 382, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 855 (Joint/Majority) Commerce and Consumer Protection and Judiciary on S.B. No. 478**

The purpose and intent of this measure is to:

- (1) Repeal chapter 440J, Hawaii Revised Statutes (HRS), relating to telecommunications and cable industry information reporting requirements for broadband service providers;
- (2) Amend the definitions of "broadband infrastructure" and "broadband service" under chapter 206R, HRS, relating to the Broadband Infrastructure Grant Program; and
- (3) Require the Department of Commerce and Consumer Affairs (DCCA) to make available for public inspection all broadband coverage reports that providers previously filed pursuant to chapter 440J, HRS.

Your Committees received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Business, Economic Development, and Tourism; CTIA; Hawaiian Telcom; Charter Communications; and Maui Chamber of Commerce. Your Committees received testimony in opposition to this measure from AARP Hawai'i.

Your Committees find that chapter 440J, HRS, requires broadband service providers to report annually to the DCCA, the percentage of each census block that does not have access to broadband service based on the Federal Communications Commission's (FCC) definition of broadband service. While this information was useful when chapter 440J, HRS, was first enacted, the FCC has since required broadband service providers to file more granular location-specific service information. Additionally, the data submitted by broadband service providers and collected and reported into the FCC's National Broadband Data Map is publicly available. This measure therefore repeals chapter 440J, HRS, as it is no longer necessary, to reduce the administrative burdens of broadband service providers in the State.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 478, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 478, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (Fukunaga, McKelvey, Richards). Noes, 1 (Awa).  
Excused, none.  
Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 856 Judiciary on S.B. No. 352**

The purpose and intent of this measure is to implement amendments to the Uniform Commercial Code set forth by the Uniform Law Commission.

Your Committee received testimony in support of this measure from the State of Hawaii Commission to Promote Uniform Legislation. Your Committee received comments on this measure from the Uniform Law Commission.

Your Committee finds that the Uniform Commercial Code is a set of rules to govern commercial transactions. For over sixty years the Uniform Commercial Code has worked to facilitate commerce throughout the United States because it has been adopted in nearly identical form by every United States jurisdiction. As a result, the law governing transactions is substantially the same regardless of what states the parties to the transactions are located. This measure will update the Uniform Commercial Code to keep pace with legal and technological developments and ensure that the Uniform Commercial Code continues to facilitate commercial activity well into the future.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 352, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 352, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 857 Judiciary on S.B. No. 1505**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Transportation to delay or deny approval for port entry or departure in instances when the Department of Transportation receives notice from a federal agency or other agency that a vessel or its crew has engaged in

activity that has violated any federal, state, or county law or rule pertaining to environmental protection or maritime transportation; and

- (2) Authorize the Department of Transportation to grant approvals for use of any commercial harbor facility by a vessel in coordination with a federal agency or other agency.

Your Committee received testimony in support of this measure from the Department of Transportation, Surfrider Foundation, Benioff Ocean Science Laboratory, and one individual.

Your Committee finds that the Pacific Ocean's marine resources are a vital source of income, foreign exchange, employment, and nutrition for local communities. However, the illicit extraction and collection of these valuable resources is sadly increasing. Foreign vessels have encroached upon other nations' protected areas to illegally collect fish and resources and are beginning to scout waters near Hawai'i for undersea mining. However, undersea mining, even when legal, has impacts beyond the specific areas of a mine site, causing sediment plumes, noise, and the destruction of vulnerable marine habitats.

Your Committee finds that the ocean and its seafloor underpin Hawai'i's cultural heritage, in addition to its multi-billion dollar tourism and fishing industries. Your Committee further finds that action is necessary to protect the State's marine resources and to prevent the potential irreparable damage caused by illegal maritime activities. Therefore, this measure provides the Department of Transportation with the authority to prevent vessels engaged in illegal conduct from freely entering or departing from the State's commercial harbors and ports.

Your Committee has amended this measure by:

- (1) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1505, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1505, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 858      Judiciary on S.B. No. 1468**

The purpose and intent of this measure is to:

- (1) Authorize professional land surveyors and any assistant under the direct supervision of the land surveyor, to enter any private property to perform land surveying, subject to certain provisions regarding notice, identification, and liability; and
- (2) Shield land surveyors and their assistants from prosecution under criminal trespass laws when performing their duties.

Your Committee received testimony in support of this measure from the Department of Design and Construction of the City and County of Honolulu and seven individuals. Your Committee received testimony in opposition to this measure from the Department of the Attorney General. Your Committee received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee finds that Hawaii surveyors are in need of access to private property for the purpose of producing a thorough survey. Such surveys protect the public interest, maintain the State's unique land title system, and support governmental land use goals. The current practice is for surveyors to verbally ask for permission to enter a property for the purpose of surveying; however, sometimes obtaining verbal permission is not an option. This measure will protect the surveyor from liability while informing the property owner of the proposed survey.

Your Committee has amended this measure by:

- (1) Adding language specifying that if real property is to be surveyed the surveyor must first provide the landowner with written notice not less than an unspecified number of days before the proposed date of entry;
- (2) Adding language specifying that the written notice shall include:
  - (A) The date and time the entry shall occur;
  - (B) A description of the work to be performed;
  - (C) The approximate duration of the entry;
  - (D) A statement that the landowner may refuse entry by making a timely written objection; and
  - (E) A statement of the date, time, and method by which a landowner may object;
- (3) Adding language specifying that any objection shall be expressly communicated to the land surveyor in writing no later than an unspecified number of days before the date the survey work is to be performed;
- (4) Adding language specifying that if a landowner makes a timely objection, a professional land surveyor shall not be authorized to enter the private property of the objecting landowner;
- (5) Deleting language that would have provided that the land surveyor and the land surveyor's assistants shall not be liable for any incidental minor damage to property as a result of land surveying, except for damages that result from the land surveyor's or the land surveyor's assistants' gross negligence or wanton acts or omissions; and

- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1468, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1468, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 859      Judiciary on S.B. No. 1173**

The purpose and intent of this measure is to:

- (1) Prohibit a person from causing a diesel or gas-powered vehicle to discharge clearly visible smoke, soot, or other exhaust emissions onto another person or motor vehicle; and
- (2) Establish penalties.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association and three individuals.

Your Committee finds that the proliferation of intentional discharge of diesel exhaust, also known as “rolling coal”, poses a threat to the environment and public health. “Rolling coal” is emitted when motorists modify vehicles to pump excessive fuel into the engines, increasing horsepower and torque. While advances in emission technology have improved to capture and burn soot with diesel particulate filter systems, the intentional modification of such systems creates a public nuisance and further environmental harm. This measure protects public health and safety while also reducing the concentration of air contaminants.

Your Committee has amended this measure by inserting a fine amount of \$500.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1173, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1173, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 860      Judiciary on S.B. No. 1086**

The purpose and intent of this measure is to amend the composition and duties of the State Highway Safety Council.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Bicycling League.

Your Committee finds that the State Highway Safety Council serves an important mission to advise on matters relating to the programs and activities of the State with regard to highway safety. As the State incorporates objectives to ensure efficiency of transportation infrastructure while also adhering to overall public policy goals, prioritizing transparency will allow the State to achieve its goals and outcomes. This measure provides greater professional and community perspectives to the Highway Safety Council to ensure the safety of all highway users.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1086, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1086, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 861      (Majority) Judiciary on S.B. No. 587**

The purpose and intent of this measure is to:

- (1) Increase the minimum and maximum fines for violating provisions relating to the installation of noisy mufflers; and
- (2) Authorize police officers with probable cause to stop vehicles with noisy mufflers to inspect their mufflers.

Your Committee received testimony in support of this measure from three individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from Waikiki Neighborhood Board No. 9.

Your Committee finds that growing noise pollution and disturbances from loud mufflers on motor vehicles are a problem. This noise adversely affects sleep in the early and late hours, which has a negative impact on public health and safety as well as general enjoyment and quality of life. This measure would deter violators by increasing fines for the installation of loud mufflers on motor vehicles.

Your Committee has amended this measure by:

- (1) Clarifying that any enforcement officer of the State shall have the authority to conduct examinations and inspections if the officer has probable cause to believe that a vehicle's excessively noisy muffler is evidence of violations of provisions relating to the installation of noisy mufflers;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 587, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 587, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 862 (Majority) Judiciary on S.B. No. 586**

The purpose and intent of this measure is to:

- (1) Specify that a certificate of inspection shall be issued if a vehicle is not equipped with a noisy muffler or exhaust system;
- (2) Require rules regarding safety check inspections to ensure that a motorcycle, moped, or motor vehicle is not equipped with a noisy muffler or exhaust system;
- (3) Suspend, revoke, or refuse renewal of a permit for an official inspection station upon a third or subsequent willful violation of any rule regarding inspecting a noisy muffler or exhaust system;
- (4) Make violating the noisy muffler laws a petty misdemeanor; and
- (5) Include repairing or installing a noisy muffler or exhaust system as a prohibited practice for motor vehicle repair regulations.

Your Committee received testimony in support of this measure from the Department of Transportation and four individuals. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the growing noise pollution and disturbance from loud mufflers on motor vehicles may have impacts on public health and safety, as well as peaceful enjoyment and quality of life. Existing law prohibits the operation of a motor vehicle of which the exhaust pipe or muffler has been modified to increase the volume of the vehicle's motor; however, this law is regularly violated due to insufficient penalties. Your Committee finds that the increases in fines proposed by this measure will serve as a stronger deterrent.

Your Committee has amended this measure by:

- (1) Deleting language that makes the offense of installing a muffler that will increase the noise emitted by a motor vehicle a violation or traffic infraction; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 586, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 586, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

**SCRep. 863 (Majority) Judiciary on S.B. No. 551**

The purpose and intent of this measure is to clarify that certain housing projects developed by the Hawaii Housing Finance and Development Corporation on lands that are not within a Special Flood Hazard Area, as identified on the current Federal Emergency Management Agency's Flood Insurance Rate Maps, shall be exempt from all statutes, ordinances, charter provisions, and rules relating to planning, zoning, and other certain standards, provided that certain conditions are met.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from the Department of Land and Natural Resources and Office of Hawaiian Affairs.

Your Committee finds that housing is a critical need in the State and that exempting certain housing projects from certain regulations can streamline the delivery of affordable housing to those most in need of housing. Your Committee notes the concerns raised by the Office of Hawaiian Affairs regarding the need to protect and conserve lands and natural resources and finds that this merits further consideration and respectfully request that these issues and concerns be examined as this measure moves forward in the legislative process.

Accordingly, your Committee has amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 551, S.D. 3.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 864      Judiciary on S.B. No. 376**

The purpose and intent of this measure is to:

- (1) Prohibit the mining, extraction, and removal of minerals from the seabed in all state marine waters; and
- (2) Prohibit the issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, University of Hawai'i System, Hawai'i State Youth Commission, Hawai'i Reef and Ocean Coalition, Parley for the Oceans, Environmental Caucus of the Democratic Party of Hawai'i, Sustainable Ocean Alliance Hawai'i, Sierra Club of Hawai'i, Hawai'i Youth Climate Coalition, Hawai'i Wildlife Fund, Hawai'i's Thousand Friends, Mālama Pūpūkea-Waimea, Sustainable Coastlines Hawai'i, National Parks Conservation Association, Deep Sea Mining Campaign, Oceanic Preservation Society, 350Hawai'i, The Surfrider Foundation, Blue Climate Initiative, Tetiaroa Society, Rev Ocean, Benioff Ocean Science Laboratory, The Marine Mammal Center, The Conservative Collective, The Ocean Foundation, Marine Conservation Institute, Greenpeace USA, Kauai Women's Caucus, Te Ipukarea Society, Moana Ohana, Friends of Hanauma Bay, For the Fishes, Animal Welfare Institute, Wild Kids, Na Mamo O Mu'olea, HULI PAC, Maui Nui Marine Resource Council, and forty-three individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the State's marine waters are home to rich, diverse, and globally significant ecosystems that host thousands of species, with a biodiversity that may be comparable with tropical rainforests. Your Committee also finds that Hawaii's deep water column and seafloor are critically important to its people, who maintain strong spiritual, cultural, and economic connections to the deep ocean. Your Committee finds that seabed mining poses an unacceptably high risk of damage and disruption to these important marine environments and ecosystems, which may take decades, if not hundreds of years to recover, and threaten ocean-dependent industries, including commercial and recreational fishing and tourism. Your Committee therefore finds that seabed mining is inconsistent with the public interest and the State's obligation to protect its waters under the Hawaii State Constitution. This measure will protect the State's marine ecosystem by prohibiting seabed mining and related activities from occurring in state marine waters.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 376, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 376, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 865      Judiciary on S.B. No. 56**

The purpose and intent of this measure is to:

- (1) Require the use of broadband audible reverse warning systems (back-up beepers) on state and county-owned vehicles purchased on or after January 1, 2026; and
- (2) Authorize the Director of Transportation to provide an exemption in the event broadband sirens are unavailable.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that studies have determined that a traditional tonal back-up beeper is inefficient in alerting people to a reversing vehicle. Your Committee further finds that the broadband sound is both better in preventing fatalities and reducing noise pollution in the surrounding area because the broadband sound system allows for a variety of sounds and the focusing of the alarm's sound. This measure will help protect the State's residents from disruptive noise pollution and utilize safer vehicular reversing practices by requiring the use of broadband reversing alarms instead of tonal alarms.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 56, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 56, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 866      (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 798**

The purpose and intent of this measure is to clarify that a developer is responsible for ensuring that the use of out-of-state time share units for time sharing purposes complies with zoning and land use laws and rules of the jurisdiction where the time share units are located but is not required to submit evidence of such compliance to register in Hawaii.

Your Committees received testimony in support of this measure from Marriot Vacations Worldwide Corporation, American Resort Development Association – Hawaii, and one individual. Your Committees received testimony in opposition to this measure from UNITE HERE! Local 5. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that existing law prohibits time sharing in areas of Hawaii that are not zoned for time sharing. This law was adopted to protect residential neighborhoods in the State from being transient neighborhoods with homes used for time shares. However, this has had the unintended consequence of causing the Department of Commerce and Consumer Affairs to require time share developers to provide evidence that the developers' time share units located outside the State are also in compliance with local zoning laws in their respective locations. No other state requires this information and providing this information is costly and time consuming for developers. This measure restates and clarifies the original intent of the zoning confirmation requirement by requiring developers to ensure that time share units located in Hawaii comply with local zoning laws and clarifies that developers are not required to submit evidence of compliance of out-of-state time share units complying with legal requirements of other jurisdictions upon registering in Hawaii, thus protecting consumers of time share units in Hawaii while streamlining the time share registration process.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 798, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 867      Judiciary on S.B. No. 327**

The purpose and intent of this measure is to allow counties to prohibit discrimination against renters based on their source of income.

Your Committee received testimony in support of this measure from the Hawaii State Council on Developmental Disabilities, Hawai'i Civil Rights Commission, Hawai'i Health & Harm Reduction Center, Hawai'i Children's Action Network Speaks!, and two individuals. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that the cost of housing in Hawaii is among the highest in the country. Many in the State rely on housing assistance programs and vouchers to afford safe and decent housing. This measure allows counties to combat discriminatory practices that prevent those who rely on housing assistance programs from finding appropriate housing.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 327, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

**SCRep. 868      Judiciary on S.B. No. 610**

The purpose and intent of this measure is to recognize American Sign Language (ASL) as a fully developed, autonomous, natural language with its own distinct grammar, syntax, vocabulary, and cultural heritage.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Disability and Communication Access Board, Aloha State Association of the Deaf, and eleven individuals.

Your Committee finds that ASL is a language that is tied deeply to culture and identity, similar to other languages that are characteristic of ancestry or national origin. Your Committee additionally finds that other states have legally recognized ASL as a language, due to its importance to the United States' deaf and hard-of-hearing population. Furthermore, Hawai'i took initiative in acknowledging ASL by recognizing it as a world language for public school language requirement purposes through section 302A-322, Hawaii Revised Statutes. This measure will ultimately increase public understanding of the State's deaf and hard-of-hearing population, which will essentially lead to equitable access in employment, public awareness, and civil participation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 610 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 869      Judiciary on S.B. No. 1130**

The purpose and intent of this measure is to:

- (1) Make a principal of an activity desk, and all persons with an ownership interest in the activity desk, jointly and severally liable for any financial deficiency when the activity desk's client trust account is insufficient to pay consumers or activity providers; and
- (2) Clarify that an activity desk, along with its principal and all persons with an ownership interest in the activity desk, shall be held liable for statutory violations and subsequent damages.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawai'i Lodging and Tourism Association; Activities and Attractions Association of Hawaii, Inc.; Warren and Annabelle's; Captain Steve's Rafting; Holo Charters; Maui Hotel and Lodging Association; and Maui Chamber of Commerce.

Your Committee finds that activity desks act as intermediaries that sell, contract for, and arrange tour excursions and activities, such as surf lessons, helicopter rides, and whale watching tours. These activity desks, often conveniently located in hotels and shopping malls, provide visitors and residents with an expedient way to schedule and plan recreational activities.

Your Committee also finds that as part of their service, an activity desk may receive money from a customer in advance and hold those funds in a client trust account to be used as payment to a tour operator or provider once their services are performed. However, in some cases, an activity desk has stolen or misused the funds from the client trust account, or held insufficient funds, leaving the customer and tour operator at a loss. Your Committee finds that while recourse is always available through the legal system, recovering lost or owed funds is often difficult and costly. Therefore, this measure will help to incentivize all those responsible for an activity desk to take care and properly carry out their fiduciary responsibilities by establishing liability for all persons associated with an activity desk.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 870      Judiciary on S.B. No. 1372**

The purpose and intent of this measure is to clarify the definitions of “caregiver support services”, “kupuna care services”, and “respite care” with respect to programs administered by the Executive Office on Aging.

Your Committee received testimony in support of this measure from the Executive Office on Aging.

Your Committee finds that clarifying the definitions of “caregiver support services”, “kupuna care services”, and “respite care” will allow care recipients, unemployed caregivers, and employed caregivers to access support, adult day care, and respite care services. Your Committee further finds that this measure will allow the Executive Office on Aging and county Area Agencies on Aging to offer adult day and respite care services to care recipients, unemployed caregivers, and employed caregivers.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1372, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 871      Judiciary on S.B. No. 1379**

The purpose and intent of this measure is to clarify the penalty to be assessed on any person who intentionally operates a care facility without a certificate or license by repealing section 321-486.3, Hawaii Revised Statutes.

Your Committee did not receive any testimony on this measure.

Your Committee finds that this measure will allow the Department of Health to effectively enhance enforcement and consumer protections for vulnerable senior citizens and residents of unlicensed care homes by repealing unnecessary provisions that may cause confusion in penalty amounts.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1379, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 872      Judiciary on S.B. No. 1386**

The purpose and intent of this measure is to:

- (1) Clarify the conditions, manner, and areas in which the Commission on Water Resource Management (Commission) of the Department of Land and Natural Resources can declare water shortages and issue emergency orders;
- (2) Require the water shortage plan developed by the Commission to be statewide;
- (3) Allow the Commission to impose restrictions on well and stream diversion owners that are outside of water management areas; and
- (4) Clarify the Commission’s authority to modify, suspend, or revoke water use permits in the case of a long-term or permanent reduction of the available water source due to a water shortage or emergency.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Honolulu Board of Water Supply.

Your Committee finds that recent emergencies, including wild fires and the Red Hill crisis, demonstrate that the existing State Water Code did not envision water shortages due to an immediate degradation of water quality. This measure would allow the Commission on Water Resource Management to react to crises in a swift and comprehensive manner to protect public trust resources without suspending sections of the State Water Code.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1386, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 873      Judiciary on S.B. No. 1577**

The purpose and intent of this measure is to require the Department of Commerce and Consumer Affairs to make all business registration applications available online and to require all applications to contain certain contact information of the registering entity.

Your Committee received testimony in support of this measure from the Chamber of Commerce Hawaii. Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the internet and digital technology have forever changed the way citizens interact -- and expect to interact -- with both public and private institutions. Digitization can benefit business-to-customer processes, such as a registration process, by improving user experiences and increasing productivity and efficiency through the elimination of tasks that would otherwise be done manually. However, your Committee finds that while the Department of Commerce and Consumer Affairs may provide business registration forms on its website for the public to use and review, and are thus technically available online, your Committee believes that making all forms available online and requiring the forms to contain certain contact information of the registering entity would better serve both the Department and customers alike.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1577, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 874      Judiciary on S.B. No. 1405**

The purpose and intent of this measure is to require vehicle weights to be consistent with federal weight limits with respect to the legal limits for gross vehicle weight and axle loads traveling on all public roadways.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that thousands of travelers utilize state transportation infrastructure daily. While the State has commenced some work on modernization of new and existing infrastructure, there are some roadways that are aging and require improvements to ensure the safety of roadway users. Additionally, because motor vehicles of varying weights utilize state roadways daily, vehicle weight limit enforcement allows the State to adequately preserve roadway and bridge infrastructure. This measure ensures the longevity of the State's roadways while also enforcing vehicle weight limits that may adversely impact fragile infrastructure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1405, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1405, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 875      Judiciary on S.B. No. 753**

The purpose and intent of this measure is to:

- (1) Require retail establishments with an employee toilet facility to allow a customer suffering from an eligible medical condition to use that restroom during normal business hours under certain conditions;
- (2) Exempt retail establishments and employees from civil liability in allowing an eligible customer to use an employee toilet facility in certain circumstances; and
- (3) Establish fines.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission and three individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committee finds that people who suffer from certain diseases such as inflammatory bowel disease and Crohn's disease often need urgent and sudden access to a toilet facility. Ally's law requires retail establishments to allow customers access to employee-only bathrooms if the customer has an eligible medical condition requiring immediate access to a toilet and has been passed in numerous other states. This measure joins those states and adopts Ally's law in Hawai'i.

Your Committee has amended this measure by:

- (1) Deleting language that would have exempted retail establishments and employees from civil liability in allowing an eligible customer to use an employee toilet facility in certain circumstances; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 753, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 876      Judiciary on S.B. No. 741**

The purpose and intent of this measure is to:

- (1) Exclude from any waiting list maintained by the Department of Hawaiian Home Lands any lessee or successor who sells or transfers their lease on a tract of Hawaiian home lands for personal gain; and
- (2) Establish that the Hawaiian Homes Commission shall have a right of first refusal for the sale or transfer of a lessee's interest in the lease when the sale or transfer is for personal gain.

Your Committee received testimony in support of this measure from four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Hawaiian Home Lands and Department of the Attorney General.

Your Committee finds that the practice of churning can be described as obtaining a Hawaiian home lands lease, selling or conveying it to others for a fee or other personal gain, then applying again to be placed on the waiting list to receive another lease. Your Committee further finds that the large number of applications is due in part to an applicant being allowed to submit more than one application for the different awards of leases, such as pastoral, agricultural, and residential leases, where the applicant is eligible to apply for all three and hoping to receive just one award. With the number of applications continuing to grow, some eligible native Hawaiian beneficiaries may remain on the list for an extended number of years before receiving a Hawaiian home lands lease or may never obtain a lease. Your Committee finds this practice of churning unacceptable, as it prevents many native Hawaiians from ever obtaining a lease, and that this practice must be prohibited to ensure fairness in the distribution of leases to all beneficiaries.

To align the measure with the existing authority and practice of the Department of Hawaiian Home Lands, your Committee has amended this measure by:

- (1) Specifying that the Hawaiian Homes Commission shall have the right of first refusal by requiring the lessee to surrender the lease to the Department of Hawaiian Home Lands whenever the lessee seeks to sell or transfer the lessee's interest in the lease for personal gain; provided that if the Hawaiian Homes Commission does not exercise the right of first refusal, the respective lessee may proceed in the sale or transfer in accordance with the law; and
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 741, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 741, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 877      (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 609**

The purpose and intent of this measure is to require health insurance policies and contracts issued on or after January 1, 2024, to provide coverage for the cost of hearing aids at a minimum of an unspecified amount per hearing aid for each hearing-impaired ear every thirty-six months.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board and twelve individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Hawaii Employer-Union Health Benefits Trust Fund Board of Trustees, and Hawaii Medical Service Association.

Your Committees find that untreated hearing loss can cause depression and a feeling of isolation that can hinder an individual's ability to attend work or school, resulting in lost income and less participation and engagement in their communities. Your Committees further find that untreated hearing loss is the largest modifiable risk factor for developing dementia. Your Committees also find that hearing aids can significantly improve the quality of life for individuals with hearing impairments by allowing them to access and comprehend information and their surroundings and improve the communication level with their communities. Your Committees find however, that many individuals with hearing impairments often delay or forgo the purchase of hearing aids because of the significant out-of-pocket costs. This measure establishes minimum insurance coverage requirements through private insurers to promote access to affordable hearing aids.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 609, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 878      (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 321**

The purpose and intent of this measure is to establish a working group to study the feasibility and effects of the State adopting the Advanced Practice Registered Nurse Compact and submit a report to the Legislature.

Your Committees received testimony in support of this measure from the United States Department of Defense and Aloha Care. Your Committees received testimony in opposition to this measure from the Board of Nursing, Hawai'i Association of Professional Nurses, Hawaii Society of Anesthesiologists, and two individuals. Your Committees received comments on this measure from Grassroot Institute of Hawaii and Hawai'i State Center for Nursing.

Your Committees find that Hawaii is suffering from a shortage of nurses. Research indicates that nearly twenty-five percent of nurses in the State have considered leaving the workforce, largely due to the stresses caused by the coronavirus disease 2019 pandemic, but also due in part to the pressures from the workforce shortage. Your Committees believe that Hawaii joining interstate licensure compacts may address the difficulties medical professionals face in the State with regard to recruitment and retention. This measure establishes a working group to comprehensively study the effects of the State adopting the Advanced Practice Registered Nurse Compact to help address the urgent shortage of nurses in the State.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 321, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12; Ayes with Reservations (Inouye). Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 879 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 320**

The purpose and intent of this measure is to establish a working group to study the feasibility and effects of the State adopting the Psychology Interjurisdictional Compact and require a report to the Legislature.

Your Committees received testimony in support of this measure from the United States Department of Defense, Aloha Care, and Hawaii Association of Health Plans. Your Committees received comments on this measure from the Board of Psychology and Grassroot Institute of Hawaii.

Your Committees find that the State is facing a severe health care worker shortage. Not only does Hawaii need additional physicians and nurses, but the State needs more licensed psychologist professionals. For many, the aggregate effects of the coronavirus disease 2019 pandemic triggered an alarming rise in anxiety and depression, adding to the pre-existing backlogs of individuals attempting to obtain appointments for mental health care, placing persons needing care at an even greater risk of harm. The Psychology Interjurisdictional Compact may offer a potential solution to help serve the State's most vulnerable residents, Medicaid beneficiaries, and those living in rural communities by allowing out-of-state licensed psychologists to practice in Hawaii under certain circumstances. Therefore, this measure establishes a working group to study the feasibility and potential effectiveness of Hawaii's adoption of the Psychology Interjurisdictional Compact.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 320, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 880 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 319**

The purpose and intent of this measure is to establish a working group to study the feasibility and effects of the State adopting the Recognition of Emergency Medical Services Personnel Licensure Interstate Compact and require a report to the Legislature.

Your Committees received testimony in support of this measure from the United States Department of Defense and Hawaii Association of Health Plans. Your Committees received comments on this measure from the Hawaii Medical Board and Grassroot Institute of Hawaii.

Your Committees find that the State is facing a severe health care worker shortage. Not only does Hawaii need additional physicians and nurses, but the State needs more emergency medical services personnel, such as emergency medical technicians (EMTs), advanced EMTs, and paramedics. Moreover, the need for emergency personnel is just as urgent for rural and neighbor island communities. Certain emergency proclamations issued during the coronavirus disease 2019 pandemic demonstrated the need to embrace license portability to make it easier for certain medical professionals to work in other states. Hawaii's adoption of the Emergency Medical Services Personnel Licensure Interstate Compact may offer a potential solution to eliminate unnecessary regulatory barriers and increase the number of qualified emergency medical services personnel in the State. Therefore, this measure establishes a working group to study the feasibility and potential effectiveness of Hawaii's adoption of the Emergency Medical Services Personnel Licensure Interstate Compact.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 319, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 881 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 287**

The purpose and intent of this measure is, for condominium property regimes located within agricultural districts, to authorize counties to require its approval of the subdivision of land greater than ten acres prior to the effective date of the condominium property regime.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning and Sustainable Development, and Department of Planning and Permitting of the City and County of Honolulu. Your Committees received

testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that condominium property regimes are a specific form of property ownership that entitles the unit owner to a dwelling unit and a percentage of undivided interest in the common elements. However, the proliferation of condominium property regimes has also raised concerns regarding the effect on increasing agricultural land values and the amount of agricultural production occurring on condominium property regime developments. This measure broadens the role of the counties to enforce county zoning laws and address concerns of condominium property regime activity on agricultural lands.

Your Committees also note the testimony of the Department of the Attorney General regarding the usage of the term “subdivision” in this measure, which is commonly used to refer to a specific county process that involves the division of a single parcel of land into two or more parcels. A county subdivision is a lengthy process that involves specific design requirements and a county-approval process. Establishment of a condominium property regime is a process separate from the county subdivision process, as a condominium property regime involves the division of ownership over land into multiple units. As condominium property regimes do not require county approval, the usage of the term “subdivision” may be unclear. Your Committees therefore find this concern merits further consideration, should this measure continue through the legislative process.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 287, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 882      Ways and Means on S.B. No. 817**

The purpose and intent of this measure is to expand the pool of eligible companies that can participate in the Enterprise Zone program.

More specifically, this measure amends the definition of “eligible business activity” to include the processing of value-added agricultural products grown within an enterprise zone and the development or production of renewable energy.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Clean Power Alliance; Hawaii Farm Bureau; Hawaii Food Industry Association; Hawaii Forest Industry Association; Hawaii Gas; Ulupono Initiative; and one individual.

Your Committee received written comments on this measure from the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that the Enterprise Zone program was enacted as a cooperative program between the State and the counties to promote jobs in areas of high unemployment. Your Committee believes that this measure will incentivize development in the agriculture and renewable energy industries, which are of critical importance to the State’s self-sufficiency and sustainability.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 817 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 883      Ways and Means on S.B. No. 853**

The purpose and intent of this measure is to appropriate moneys to the Executive Office on Aging for the Hawaii Healthy Aging Partnership.

Your Committee received written comments in support of this measure from the Policy Advisory Board for Elder Affairs, Office on Aging for the County of Maui, Office of the Mayor for the County of Maui, AARP Hawaii, Pearl City Community Church, Hawaii Family Caregiver Coalition, Agency on Elderly Affairs for the County of Kauai, and seven individuals.

Your Committee received written comments on this measure from the Department of Health Executive Office on Aging.

Your Committee finds that Hawaii Healthy Aging Partnership helps the State save money on overall healthcare costs and has a significant impact on elders’ quality of life and independence through its evidence-based intervention programs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 853, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 884      Ways and Means on S.B. No. 822**

The purpose and intent of this measure is to encourage economic growth through the development of creative activities in the community.

More specifically, this measure:

- (1) Creates a process for the establishment of a creative district;
- (2) Establishes a five-year income tax credit for creative districts;

- (3) Permits counties to enact incentives for creative districts; and
- (4) Requires the State Foundation on Culture and the Arts to submit an annual report to the Legislature on creative districts.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts, Department of Planning of the County of Kauai, Ebb & Flow Arts, The Friends of Kamalani & Lydgate Park, Honolulu Printmakers, Kauai Museum, and six individuals.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism and its Creative Industries Division; Department of Taxation; Office of Hawaiian Affairs; Office of Information Practices; and Tax Foundation of Hawaii.

Your Committee finds that, in many states, businesses within designated cultural or creative districts have evolved to improve the quality of life for residents of the area and have rejuvenated those communities. Your Committee also finds that creative districts utilize the cultural and artistic resources within designated areas to stimulate economic development, revitalize communities, and unleash the artistic and cultural potential of those who live, work, and play within the designated areas.

Your Committee has amended this measure by:

- (1) Clarifying that petitions to establish a creative district shall initially be submitted to the State Foundation on Culture and the Arts;
- (2) Clarifying that an advisory committee shall conduct a public meeting prior to rendering a decision on a petition to establish a creative district;
- (3) Clarifying that a taxpayer claiming the tax credit established by the measure shall allocate and apportion the taxpayer's taxable income based on business conducted inside and outside of the creative district;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 822, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 822, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 885      Ways and Means on S.B. No. 830**

The purpose and intent of this measure is to improve emergency medical responses at Department of Education schools.

Specifically, the measure:

- (1) Requires each Department of Education school to establish a critical emergency response team and meet certain criteria for emergency medical responses; and
- (2) Appropriates moneys to implement critical medical emergency response teams.

Your Committee received written comments in support of this measure from five individuals.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that critical medical emergencies require immediate attention, as long-term injuries, including brain damage and death, can result from the absence of that attention. Your Committee also finds that although the Department of Education has some additional emergency response capabilities, training, preparedness, and resources are necessary to ensure timely medical emergency responses at department schools.

Your Committee has amended this measure by:

- (1) Clarifying that the measure's critical emergency response requirements and appropriations apply only to Department of Education schools;
- (2) Clarifying that if a school undergoes three or more drills resulting in a response time longer than three minutes, the school shall take corrective actions, which shall be reviewed by the appropriate complex area superintendent;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 830, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 886      Ways and Means on S.B. No. 844**

The purpose and intent of this measure is to allow the counties to issue special motor vehicle number plates to commemorate Malama Puuloa, and provide a revenue source for the restoration of Pearl Harbor.

More specifically, this measure:

- (1) Authorizes the issuance of special motor vehicle number plates commemorating Malama Puuloa;
- (2) Requires the Director of Finance of the City and County of Honolulu to design the special number plates, based on certain guidelines;
- (3) Requires the Director of Finance of each county to charge a special number plate fee and fundraising fee, and authorizes the Director to charge an additional fundraising fee for renewal of the special number plate; and
- (4) Provides that a portion of the revenue generated by the fundraising fees be deposited in the name of Malama Puuloa in a separate budget account.

Your Committee received written comments in support of this measure from Alii Pauahi Hawaiian Civic Club, Hui o Hoohonua, and two individuals.

Your Committee finds that the issuance of a special number plate commemorating Malama Puuloa is an appropriate way to support the organization’s mission to restore Puuloa, or Pearl Harbor.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 844, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 887      Ways and Means on S.B. No. 1538**

The purpose and intent of this measure is to appropriate moneys to the Judiciary for capital improvement projects for the fiscal biennium beginning July 1, 2023, and ending June 30, 2025.

Your Committee received written comments in support of this measure from the Judiciary and one individual.

Your Committee finds that the Judiciary requested the following amounts for its capital improvement program budget for fiscal biennium 2023-2025:

JUDICIARY	FY 2024	FY 2025
General Obligation Bond Funds	\$16,225,000	\$0
Total by All Means of Financing	\$16,225,000	\$0

Your Committee has amended this measure to appropriate the following amounts to the Judiciary for its capital improvement program budget:

SENATE	FY 2024	FY 2025
General Obligation Bond Funds	\$12,730,000	\$0
General Funds	\$3,000,000	\$0
Total by All Means of Financing	\$15,730,000	\$0

Your Committee further amended this measure by changing the effective date to January 7, 2059, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1538, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1538, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 888      Ways and Means on S.B. No. 861**

The purpose and intent of this measure is to facilitate the consideration of a housing savings account program for the State.

Specifically, the measure:

- (1) Requires the Legislative Reference Bureau to:
  - (A) Propose a system for the establishment and implementation of a housing savings account program for the State; and
  - (B) Evaluate and report on the viability of the proposed system; and
- (2) Authorizes and appropriates moneys for the Legislative Reference Bureau to contract for services to conduct the evaluation and study required under the measure.

Your Committee received testimony in support of this measure from the Hawaii Credit Union League.

Your Committee received written comments on this measure from the Legislative Reference Bureau.

Your Committee finds that there is a shortage of affordable housing within the State. Your Committee believes that the development of a system for a housing savings account program, with participation by employees and employers, as contemplated by this measure, may be a viable solution.

Your Committee has amended this measure by:

- (1) Authorizing the Legislative Reference Bureau to contract for services to develop the proposed system and program;
- (2) Changing the appropriation from \$500,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 861, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 861, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 889      Ways and Means on S.B. No. 866**

The purpose and intent of this measure is to promote the development of affordable rental housing in the State.

More specifically, this measure:

- (1) Provides that affordable housing projects that comply with certain prevailing wage requirements may receive a waiver of real property taxes and various development fees from a county; and
- (2) Removes the limit on the type of costs eligible for exemption from the general excise tax for development of affordable rental housing certified by the Hawaii Housing Finance and Development Corporation.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee received written comments on this measure from the Department of Taxation.

Your Committee finds that market conditions and high costs of construction make it difficult to build affordable rental housing in the State. Your Committee further finds that the stacking of available state and county exemptions may provide the necessary incentives to make the development of more affordable rental housing projects feasible.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 866, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 890      Ways and Means on S.B. No. 879**

The purpose and intent of this measure is to appropriate moneys to support the administration of the Unemployment Insurance Program.

Your Committee received written comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that the supplemental funds provided by this measure will help ensure the long-term sustainability of the Unemployment Insurance Program.

Your Committee notes that the Department of Labor and Industrial Relations has requested an appropriation of \$1,900,000 to support fifteen vacant positions that are not federally-funded.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 879, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 891      Ways and Means on S.B. No. 884**

The purpose and intent of this measure is to temporarily exclude from income taxation one hundred percent of the gain realized by a fee simple owner from the sale of a leased fee interest in units within a condominium project, cooperative project, or planned unit development to the association of apartment owners or the residential cooperative housing corporation of the leasehold units.

Your Committee received written comments in support of this measure from three individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure proposes an exemption modeled after the exemption authorized by Act 166, Session Laws of Hawaii 2007, which was repealed on December 31, 2012. Your Committee believes that the reestablishment of the exemption will give landowners an incentive to sell to condominium lessees the fee interest in their units, and bring stability to the State's condominium housing market.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 884, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 892 Ways and Means on S.B. No. 894**

The purpose and intent of this measure is to facilitate the provision of trauma-informed services.

Specifically, the measure:

- (1) Requires the trauma-informed care task force to serve as an advisory board to the Office of Wellness and Resilience;
- (2) Extends to June 30, 2025, the dissolution date of the task force; and
- (3) Effective July 1, 2025:
  - (A) Transfers the Office of Wellness and Resilience (which is temporarily established within the Office of the Governor) to the Department of Human Services;
  - (B) Requires the Office of Wellness and Resilience to make certain annual reports to the Legislature; and
  - (C) Establishes within the Office of Wellness and Resilience a permanent Wellness and Resilience Advisory Board, to make and develop certain recommendations relating to trauma-informed care.

Your Committee received written comments in support of this measure from the Department of Public Safety, Department of Human Services, Executive Office on Early Learning, Office of Wellness and Resilience, State Council on Mental Health, HawaiiKidsCAN, Hawaii Primary Care Association, Kamehameha Schools, Hawaii Youth Services Network, and Hawaii Children's Action Network Speaks.

Your Committee received written comments on this measure from the Department of Health.

Your Committee recognizes the need for trauma-informed and responsive practices to help build wellness and resilience. Your Committee believes that this measure will solidify the State's commitment to provide comprehensive, coordinated, culturally sensitive services to survivors of trauma and help children and families avoid adverse childhood experiences.

Your Committee has amended this measure by:

- (1) Replacing certain references to an interagency task force with references to the trauma-informed care task force or the wellness and resiliency advisory board;
- (2) Inserting language to facilitate the transfer of certain powers and duties from the Department of Human Services to the Office of Wellness and Resilience; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 894, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 894, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 893 Ways and Means on S.B. No. 902**

The purpose and intent of this measure is to expand the State's caregiving workforce to better meet the needs of Hawaii's growing kupuna population.

More specifically, the measure:

- (1) Establishes a Workforce Development and Support Center within the Executive Office on Aging and authorizes the Center to develop a workforce pilot project to, among other things:
  - (A) Provide career development courses and pathways for advancement to the non-clinical direct care workforce;
  - (B) Provide support to address the health and well-being of caregivers; and
  - (C) Develop an outreach and marketing plan for a comprehensive statewide recruitment campaign for new health care workers; and
- (2) Appropriates an unspecified sum to establish the Workforce Development and Support Center.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Healthcare Association of Hawaii, AARP Hawaii, Kupuna Caucus of the Democratic Party of Hawaii, Hawaii Family Caregiver Coalition, and nine individuals.

Your Committee finds that this measure represents a concerted effort to address the health care workforce shortage by establishing the necessary infrastructure to create a robust caregiving workforce pipeline and also provide education and training to unpaid caregivers whose labor enables kupuna to continue living at home.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 894      Ways and Means on S.B. No. 924**

The purpose and intent of this measure is to increase state funds.

More specifically, this measure:

- (1) Eliminates the home mortgage interest deduction for second homes under Hawaii income tax law; and
- (2) Requires the amount of state tax revenues gained by eliminating the deduction to be deposited into the Dwelling Unit Revolving Fund.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Association of Public Accountants and Hawaii Association of REALTORS.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee notes the comments of the Department of Taxation, stating that it would not be able to calculate the actual amount of revenue gained as a result of eliminating the home mortgage interest deduction for second homes under Hawaii income tax law, as doing so would require the calculation of alternative tax liabilities for each taxpayer.

Your Committee has amended this measure by:

- (1) Removing the requirement that state tax revenues be deposited into the Dwelling Unit Revolving Fund;
- (2) Clarifying that section 2 of the measure shall apply to taxable years beginning after December 31, 2022;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 924, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 895      Ways and Means on S.B. No. 941**

The purpose and intent of this measure is to increase teacher housing.

Specifically, this measure:

- (1) Authorizes the School Facilities Authority to partner with public and private development agencies to develop teacher housing; and
- (2) Appropriates an unspecified sum for the construction of teacher and educator housing at Mililani High School, Waipahu High School, and Nanakuli High School.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning and Hawaii State Teachers Association.

Your Committee received written comments on this measure from the School Facilities Authority and Hawaii Government Employees Association.

Your Committee finds that housing continues to be one of the largest expenses for teachers and other residents of Hawaii. Your Committee further finds that providing affordable, on-campus housing for teachers will help to address one financial burden of teachers, which will help to recruit and retain teachers, thereby reducing the current teacher shortage.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from an unspecified amount to \$185,000,000, to be allocated as follows:
  - (A) \$65,000,000 to Mililani High School;
  - (B) \$60,000,000 to Waipahu High School; and
  - (C) \$60,000,000 to Nanakuli High School;
- (2) Expanding the appropriation to include the construction of classrooms;

- (3) Changing the effective date to July 1, 2050, to encourage further discussion; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 941, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 941, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 896      Ways and Means on S.B. No. 951**

The purpose and intent of this measure is to facilitate the administration of the tax credit for research activities.

Specifically, the measure:

- (1) Limits to \$1,500,000 the amount of tax credits for research activities that an eligible taxpayer and the taxpayer's related entities may receive per taxable year;
- (2) Consolidates the survey and certification requirements for tax credits for research activities;
- (3) Increases from \$5,000,000 to \$15,000,000 the annual aggregate cap on tax credits for research activities that the Department of Business, Economic Development, and Tourism may certify;
- (4) Requires certification of the tax credits for research activities on a first-come, first-served basis to be based on the date that a complete application is received, subject to certain conditions; and
- (5) Extends from December 31, 2024, to December 31, 2029, the sunset date for the tax credit.

Your Committee received written comments in support of this measure from High Technology Development Corporation and Makai Ocean Engineering, Inc.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Taxation, Tax Foundation of Hawaii, and Oceanit.

Your Committee finds that the tax credit for research activities makes the State competitive in the global technology industry. Your Committee believes that updating the statutory provisions relating to the tax credit, as proposed by this measure, will ensure that offering the tax credit continues to facilitate efforts to diversify the State's economy and promote job creation.

Your Committee has amended this measure by:

- (1) Deleting the requirement that a high technology business shall maintain and operate a physical place of business in the State where at least seventy-five per cent of the business' employees are located;
- (2) Inserting a definition of "small business", to mean "a company with no more than five hundred employees, including affiliates";
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 951, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Kidani).

**SCRep. 897      Ways and Means on S.B. No. 968**

The purpose and intent of this measure is to reduce transportation costs for public employees and residents of public housing in the State.

More specifically, this measure:

- (1) Requires the Department of Accounting and General Services, in collaboration with the Department of Transportation, to:
  - (A) Make parking stall sharing available to public employees, subject to certain conditions;
  - (B) Ensure that every new parking stall constructed and made available to public employees is pre-wired to accommodate certain electric vehicle charging stations;
  - (C) Develop a plan to retrofit certain existing parking facilities to enable workplace charging capabilities by 2030;
  - (D) Provide a reasonable number of bicycle storage lockers at certain parking facilities, subject to certain conditions; and
  - (E) Develop, implement, administer, and manage various transportation system programs that include parking stall sharing, construction or conversion of parking stalls to accommodate electric vehicle charging, and secure bicycle storage lockers at public facilities;
- (2) Requires that all new public housing parking stalls be pre-wired to accommodate certain electric vehicle charging stations; and

(3) Requires that all new public housing developments provide bicycle storage lockers, subject to certain conditions.

Your Committee received written comments in support of this measure from 350Hawaii, Big Island Electric Vehicle Association, Climate Protectors Hawaii, Hawaii Bicycling League, KauaiEV, and several individuals.

Your Committee received written comments on this measure from the Department of Accounting and General Services, Hawaii State Energy Office, and Ulupono Initiative.

Your Committee finds that preparing for the future installation of electric vehicle charging stations and enabling the safe storage of bicycles and micro-mobility devices in public employee parking and public housing facilities will help to reduce greenhouse gas emissions throughout the State.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Accounting and General Services is required to collaborate with the Department of Transportation to develop, implement, administer, and manage programs to:
  - (A) Make parking stall sharing available to public employees, subject to certain conditions;
  - (B) Ensure that every new parking stall constructed and made available to public employees is pre-wired to accommodate certain electric vehicle charging stations;
  - (C) Develop a plan to retrofit certain existing parking facilities to enable workplace charging capabilities by 2030; and
  - (D) Provide a reasonable number of bicycle storage lockers at certain parking facilities, subject to certain conditions;
- (2) Codifying these requirements in statute, rather than session law;
- (3) Clarifying the definition of “level 2 electric vehicle charging station”; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 968, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 968, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 898      Ways and Means on S.B. No. 971**

The purpose and intent of this measure is to address student transportation needs throughout the State.

More specifically, this measure:

- (1) Requires the Department of Education to collect data on the city bus pass program for public high school students and charter school students and submit a report to the Legislature on the Department’s findings and data collected; and
- (2) Appropriates moneys for bus passes for all public high school and charter school students.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Public Charter School Commission, Department of Transportation Services of the City and County of Honolulu, Democratic Party of Hawaii Education Caucus, Hawaii Public Health Institute, OahuMPO, Ulupono Initiative, and two individuals.

Your Committee finds that providing high school students with access to public transportation will help to address the State’s shortage of school bus drivers and increase the affected students’ educational well-being.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Education shall collect data on the EXPRESS county bus pass program;
- (2) Clarifying that the Department of Education is only required to submit reports to the Legislature through the duration of the EXPRESS county bus program;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 971, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 899      Ways and Means on S.B. No. 974**

The purpose and intent of this measure is to protect certain consumer data.

More specifically, this measure:

- (1) Establishes a framework for the regulation of controllers and processors having access to personal consumer data;

- (2) Enumerates consumers' personal data rights;
- (3) Establishes a consumer privacy special fund; and
- (4) Appropriates moneys for consumer data protection.

Your Committee received written comments in support of this measure from BSA The Software Alliance and Fellow of Information Privacy.

Your Committee received written comments in opposition to this measure from Hawaiian Electric Company, National Insurance Crime Bureau, and State Farm.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs, Office of Consumer Protection; Department of the Attorney General; American Property Casualty Insurance Association; California Privacy Protection Agency; Consumer Reports; Hawaii Bankers Association; Hawaii Credit Union League; Hawaii Financial Services Association; Hawaii Insurers Council; State Privacy & Security Coalition; TechNet; and one individual.

Your Committee finds that enumerating a strong set of consumer rights and establishing restrictions on the use of consumer data and the responsibilities of controllers and processors will provide each consumer with increased control over the consumer's personal data and increased transparency for the use of consumer data.

Your Committee has amended this measure by:

- (1) Exempting the National Insurance Crime Bureau from certain consumer data protection requirements;
- (2) Clarifying that if a controller sells personal data to third parties or processes personal data for targeted advertising, the controller shall disclose the processing to the affected consumer;
- (3) Clarifying the required contents of contracts between a controller and a processor; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 974, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 974, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 900      Ways and Means on S.B. No. 992**

The purpose and intent of this measure is to propose an amendment to the Constitution of the State of Hawaii to increase the mandatory retirement age for justices and judges to the age of seventy-five years.

Your Committee received written comments in support of this measure from the Office of the Public Defender and three individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee finds that many people work and are productive well beyond the age of seventy. Your Committee believes that increasing the judicial retirement age, as proposed by this measure, will ensure the continued availability of experienced justices and judges.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 992, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 901      Ways and Means on S.B. No. 1005**

The purpose and intent of this measure is to establish and make certain administrative changes for presidential preference primaries.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii and six individuals.

Your Committee received written comments in opposition to this measure from the Stonewall Caucus of the Democratic Party of Hawaii.

Your Committee received written comments on this measure from the Office of Elections; the Office of the County Clerk, County of Hawaii; Office of the County Clerk, County of Kauai; Office of the City Clerk, City and County of Honolulu; and Office of the County Clerk, County of Maui.

Your Committee finds that state-run caucuses to choose presidential nominees reach a limited scope of people. Your Committee believes that presidential preference primaries, as proposed by this measure, will facilitate public participation in choosing candidates for this important federal office.

Your Committee has amended this measure by:

- (1) Deleting language for a new discounted filing fee for presidential candidates' verified participation in the State's partial public financing program, as the program is only for qualifying candidates for state and county elected offices;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1005, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1005, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 902 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1615**

The purpose and intent of this measure is to:

- (1) Require the Developmental Disabilities Division of the Department of Health to amend its eligibility criteria for the Medicaid Intellectual and Developmental Disabilities Home and Community-Based Services Waiver (HCBS I/DD waiver) to include individuals having an intellectual or a developmental disability and a comorbid mental illness; and
- (2) Appropriate an unspecified amount of funds to the Department of Health, which includes funding for establishing an unspecified number of full-time equivalent positions, to address amending its eligibility criteria for the HCBS I/DD waiver.

Your Committees received testimony in support of this measure from the Hawaii Disability Rights Center, Hawaii Autism Foundation, Keiki Education Living Independent Institute dba K.E.L.I.I. Foundation, and one individual. Your Committees received comments on this measure from the Department of Human Services, Department of Health, and State Council on Developmental Disabilities.

Your Committees find that the navigation, access, and coverage of Medicaid services under the State's present system of care can be complicated to understand and that the accessibility and utilization of essential services can be particularly challenging for certain individuals. This measure seeks to close the gap in services for those with an intellectual or developmental disability and a comorbid mental illness by allowing all individuals who are diagnosed with an intellectual or developmental disability and a comorbid mental illness to be eligible for home and community-based services, regardless of the institutional level of care needed.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1615, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1615, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.  
Ways and Means: Ayes, 13. Noes, none. Excused, none.

**SCRep. 903 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1473**

The purpose and intent of this measure is to:

- (1) Require the Department of Health and Department of Human Services to:
  - (A) Develop and adopt rules, policies, and plan amendments necessary to ensure that the state Medicaid program covers medically necessary services, including applied behavior analysis services, for individuals aged twenty-one and older with neurodevelopmental disorders, including autism spectrum disorder; and
  - (B) Apply for any necessary approvals from the Centers for Medicare and Medicaid Services to amend the state Medicaid plan to provide reimbursements for medically necessary services, including applied behavior analysis services to Medicaid-eligible individuals aged twenty-one and older with neurodevelopmental disorders, including autism spectrum disorder; and
- (2) Appropriate an unspecified amount to the Department of Human Services for the development and adoption of the aforementioned rules, policies, and plan amendments.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Hawai'i Association for Behavior Analysis, Hawaii Disability Rights Center, Hawaii Fetal Alcohol Spectrum Disorders (FASD) Action Group, and ten individuals. Your Committees received comments on this measure from the Department of Human Services and Department of Health.

Your Committees find that state Medicaid program beneficiaries diagnosed with autism spectrum disorder no longer receive coverage for medically necessary services after age twenty-one. The state Medicaid program also does not cover medically necessary services for individuals with other neurodevelopmental disorders, regardless of an individual's age. Your Committees further find that an individual's clinical needs, rather than the individual's age, should guide treatment, and private insurance providers cover medically necessary services for an individual with autism spectrum disorder across the individual's lifespan. Therefore, to ensure health care parity for state Medicaid program beneficiaries, this measure requires the Department of Health and Department of Human Services to

take necessary actions to ensure the state Medicaid program covers medically necessary services for any individual with a neurodevelopmental disorder across the individual's lifespan.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1473, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1473, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 904 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1264**

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to establish limited entry commercial fisheries where appropriate or necessary to maintain sustainable and healthy fisheries.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and three individuals.

Your Committees find that existing law requires the Department of Land and Natural Resources to manage and administer the aquatic life and aquatic resources of the State. Successful aquatic resource management includes ensuring abundance while also allowing sustainable levels of take. However, certain commercial fishery resources have become depleted and can no longer sustain unregulated and unlimited harvest, as the Department of Land and Natural Resources is not authorized under existing law to establish limited entry commercial fisheries. Limited commercial entry is a management method in which an agency or governing body limits the number of participants or vessels participating in a certain fishery as a means of reducing commercial fishing pressure on a particular fish species or group of fish species while still allowing some commercial take. This measure authorizes the Department of Land and Natural Resources to establish limited entry commercial fisheries to accomplish its goal of balancing sustainable yet commercially viable fisheries in the State.

Your Committees recognize that federal law preempts the Department of Land and Natural Resources' ability to cap or otherwise limit the number of entrants into commercial fisheries subject to federal fisheries regulations. Therefore, amendments to this measure are necessary to prevent a conflict between state and federal law.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language that limits the Department of Land and Natural Resources' ability to establish limited entry commercial fisheries to those that are not subject to federal fisheries regulations; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1264, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1264, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 905 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 781**

The purpose and intent of this measure is to:

- (1) Require government entities in the State that issue building permits to implement SolarAPP+ or a functionally equivalent online automated permitting platform that verifies code compliance and issues permits to licensed contractors for solar distributed energy resource systems in real time by January 1, 2024;
- (2) Require government entities in the State that issue building permits to adopt self-certification for solar distributed energy resource systems that are not SolarAPP+ compatible;
- (3) Exempt work with respect to residential distributed energy resource systems from the professional engineers, architects, surveyors, and landscape architects licensure law; and
- (4) Increase the estimated cost of work threshold for certain structures below which the professional engineers, architects, surveyors, and landscape architects licensure law is inapplicable.

Your Committees received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Alternate Energy, Inc.; Blue Planet Foundation; Climate Protectors Hawai'i; Environmental Caucus of the Democratic Party of Hawai'i; Fortress Power; Grand Solar, Inc.; Hawaii Food Industry Association; Hawaii Solar Energy Association; Kaua'i Climate Action Coalition; Malama Kaua'i; Our Revolution Hawaii; Photonworks Engineering LLP; Sierra Club of Hawai'i; Sunnova; Sungage Financial, LLC; Sunrun; Sunspare Energy, LLC; Ulupono Initiative; 350Hawaii.org; Tesla; Hawai'i Unified Industries, LLC; and fifty-one individuals. Your Committees received testimony in opposition to this measure from the American Institute of Architects Hawaii State Council and one individual. Your Committees received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects and Kaua'i Island Utility Cooperative.

Your Committees find that permitting bottlenecks and backlogs impede progress and add unnecessary cost, time, and risk to the State's transition to renewable energy. This impacts all residents and businesses in Hawaii, particularly those that have not yet been able to install or participate in a solar and energy storage project. As the cost to install renewable energy decreases and systems become more available and accessible to underserved members of the community, this measure removes the burdensome and time-consuming review process and replaces it with a standardized, peer-reviewed national product safety certification and product documentation requirement, thus facilitating the continued transition to renewable energy.

Your Committees acknowledge the concerns raised in testimony that the exemptions to the professional engineers, architects, surveyors, and landscape architects licensure law for certain projects made by this measure could jeopardize the safety of those projects. Your Committees also recognize that the self-certification process requirements established by this measure should apply only in territories served by an investor-owned electric utility, rather than an electric cooperative.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to clarify that the self-certification process requirements established by this measure shall apply only to a government entity in the State that issues building permits in territories served by an investor-owned electric utility;
- (2) Deleting language that would have created an exemption from the professional engineers, architects, surveyors, and landscape architects licensure law for work with respect to residential distributed energy resource systems and for certain structures under a certain dollar amount; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 781, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 781, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 906 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 682**

The purpose and intent of this measure is to prohibit the sale, offer for sale, display for sale, trade, or distribution of certain animal fur products in the State.

Your Committees received testimony in support of this measure from the Animal Legal Defense Fund, Animal Defenders International, Animal Rights Hawai'i, Collective Fashion Justice, Four Paws USA, Hawaiian Humane Society, Humane Society Veterinary Medical Association, The Humane Society of the United States, In Defense of Animals, Last Chance for Animals, People for the Ethical Treatment of Animals, Project Coyote, and six individuals. Your Committees received testimony in opposition to this measure from the Natural Fibers Alliance. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that animals raised on fur farms typically spend their entire lives in cramped and filthy cages. Fur farmers typically use the cheapest killing methods available, including suffocation, electrocution, gas, and poison. Additionally, fur farms are sources and transmission vectors for dangerous zoonotic disease, including SARS coronaviruses, that threaten public health. Moreover, the fur production process is energy intensive and has a significant environmental impact, including air and water pollution. This measure prevents the unnecessary killing and cruel treatment of animals, harm to the environment, and the public health risks created by fur farming practices.

Your Committees note the concerns raised in testimony that this measure, as currently drafted, does not identify an agency responsible for implementing and enforcing its provisions. The Department of Land and Natural Resources currently enforces a similar statute prohibiting the sale of animal products, including fur, of certain exotic wildlife. Therefore, amendments to this measure are necessary to place the enforcement of this measure within the Department of Land and Natural Resources.

Accordingly, your Committees have amended this measure by:

- (1) Establishing the provisions of this measure as a new section in chapter 183D, Hawaii Revised Statutes, rather than as a new chapter;
- (2) Inserting language authorizing the Department of Land and Natural Resources to adopt rules to implement and enforce the provisions of this measure;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 682, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 682, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 907 Ways and Means on S.B. No. 35**

The purpose and intent of this measure is to expand access to civil legal services in the State.

More specifically, the measure appropriates funds to the Judiciary to purchase civil legal services for low- and moderate-income persons.

Your Committee received written comments in support of this measure from the Department of Human Services, Hawaii Friends of Civil Rights, The Legal Clinic, Hawaii Coalition for Immigrant Rights, Volunteer Legal Services Hawaii, Legal Aid Society of Hawaii, Hawaii Access to Justice Commission, and two individuals.

Your Committee finds that this measure's appropriation will support nonprofit and volunteer organizations that provide quality legal services to low- and moderate-income persons who require these services but cannot afford to pay for them.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$1,200,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 35, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 35, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 908      Ways and Means on S.B. No. 62**

The purpose and intent of this measure is to promote and increase medical education and training.

Specifically, this measure:

- (1) Reestablishes the Hawaii medical education special fund to support graduate medical education and training programs;
- (2) Appropriates moneys for the creation of additional medical residencies and training opportunities for medical students in counties with populations of not more than five hundred thousand; and
- (3) Appropriates moneys for the expansion of medical residency and training opportunities in partnership with the United States Department of Veterans Affairs.

Your Committee received written comments in support of this measure from Hawaii Pacific Health, Hawaii Primary Care Association, Kaiser Permanente, The Queen's Health System, and Hawaii Medical Association.

Your Committee received written comments on this measure from the University of Hawaii, Department of the Attorney General, and Department of Budget and Finance.

Your Committee finds that the State currently faces a shortage of physicians, which has resulted in some residents being unable to obtain timely and appropriate care. Your Committee further finds that this measure will help to both increase the number of physicians and encourage those physicians to practice medicine in the State.

Your Committee has amended this measure by:

- (1) Adding a new section that appropriates moneys from the Hawaii medical education special fund for the purposes of medical education and training programs; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 62, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 62, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 909      Ways and Means on S.B. No. 86**

The purpose and intent of this measure is to require the Department of Agriculture to update the state agriculture functional plan.

Your Committee received written comments in support of this measure from Hawaii Farmers Union United, Hawaii Farm Bureau, and two individuals.

Your Committee received written comments on this measure from the Office of Planning and Sustainable Development and Department of Agriculture.

Your Committee finds that since the state agriculture functional plan was last updated in 1991, Hawaii's agricultural industry has significantly grown and diversified to include flowers and nursery products, vegetables, fruits, forest products, cacao, coffee, and aquaculture. Updating the state agriculture functional plan will help to provide guidance for agricultural development in Hawaii that considers how agriculture has changed over the past thirty years.

Your Committee has amended this measure by:

- (1) Removing the requirement for the Department of Agriculture to include seafood sustainability in the updated state agriculture functional plan;
- (2) Clarifying that the State's priorities are increasing local food self-sufficiency and exports;

- (3) Providing the Governor with one additional year to submit the updated state agriculture functional plan;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 86, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 86, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 910 Ways and Means on S.B. No. 98**

The purpose and intent of this measure is to require:

- (1) The Auditor to conduct an audit of the Department of Land and Natural Resource's Aquatic Resources Division's expenditures of funds received from the federal Wildlife and Sport Fish Restoration program and to submit a report to the Legislature prior to the convening of the Regular Session of 2024; and
- (2) The Division of Aquatic Resources to submit an annual report to the Legislature, beginning in 2025, summarizing the Division's expenditure of funds received from the Wildlife and Sport Fish Restoration program for the preceding year and providing the recipient and purpose of each expenditure.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee received written comments on this measure from the Office of the Auditor.

Your Committee finds that the oversight provided by this measure's annual reporting requirements will help ensure that federal funds are being used most effectively to support fishing, hunting, and wildlife conservation in the State.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the Auditor conduct an audit, based on written comments from the Office of the Auditor;
- (2) Codifying in section 187A-9, Hawaii Revised Statutes, the requirement that the Division of Aquatic Resources submit an annual report to the Legislature; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 98, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 98, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 911 Ways and Means on S.B. No. 106**

The purpose and intent of this measure is to provide greater flexibility in the reporting of information on coronavirus disease 2019 (COVID-19) by the Department of Education.

More specifically, the measure:

- (1) Authorizes the Department of Health to require the Department of Education to report COVID-19 case counts and other related information in a manner most appropriate to public health and safety, as determined by the Department of Health; and
- (2) Repeals the requirement that weekly reports be published on the Department of Education's website.

Your Committee received written comments in opposition to this measure from three individuals.

Your Committee received written comments on this measure from the Department of Education and Department of Health.

Your Committee finds that the existing weekly COVID-19 reporting requirement is an administrative burden on Department of Education schools and that modifying the nature of the reporting in a manner that is acceptable to the Department of Health will require the two departments to continue their collaborative efforts to respond to potential outbreaks of infectious illnesses in schools and, accordingly, will continue to ensure public health and safety.

Your Committee has amended this measure by changing the description of the COVID-19 information to be reported from "case counts and related information" to "potential outbreaks and related information."

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 106, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 106, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 912 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 693**

The purpose and intent of this measure is to mandate reimbursement for services provided by participating registered pharmacists practicing within their scope of practice by private and public health plans in the State beginning January 1, 2024.

Your Committees received testimony in support of this measure from the University of Hawai'i at Hilo; Daniel K. Inouye College of Pharmacy; Board of Pharmacy; American Pharmacists Association; American Society of Health-System Pharmacists; AARP Hawai'i; Community First, Inc.; Big Island Docs; Hawai'i Pacific Health; Hawai'i Pharmacists Association; The Family Medicine Center; KTA Super Stores; Pharmicare Hawaii; Walgreen Co.; National Community Pharmacists Association; The Keto Prescription Clinic, LLC; and twenty-eight individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Human Services, Department of Commerce and Consumer Affairs, and The Queen's Health System.

Your Committees find that pharmacists provide various services to patients other than dispensing medication, including educating them on how and when to check blood sugar, ways to avoid and manage hypoglycemia, how to take their medications correctly to avoid adverse effects, and various medication utilization techniques; performing immunizations; ordering routine drug therapy related tests; providing consultations to patients; and prescribing and dispensing opioid antagonists. Your Committees further find that pharmacies are geographically dispersed throughout the communities of the State with extended hours of operation, making them convenient places for patients to access health care, especially in rural areas and neighbor islands experiencing a shortage of health care providers. Your Committees find however, that many pharmacies in the State are closing due to the lack of a methodology by which pharmacists can submit claims to a patient's insurance plan for services other than dispensing medication. This measure will ensure that pharmacists are directly reimbursed for services they perform within their scope of practice, allowing them to continue to serve their communities and provide patients with access to health care throughout the State.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 693, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 913 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 674**

The purpose and intent of this measure is to:

- (1) Adopt the Interstate Medical Licensure Compact to create a comprehensive process that complements the existing licensing and regulatory authority of state medical boards and provides a streamlined process that allows physicians to become licensed in multiple states;
- (2) Require the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Compact; and
- (3) Appropriate funds for the implementation of the Compact.

Your Committees received testimony in support of this measure from the Hawaii Medical Board, AlohaCare, Hawaii Association of Health Plans, Hawaii Medical Association, Hawai'i Primary Care Association, Hawai'i Pacific Health, Healthcare Association of Hawaii, The Queen's Health System, and Hawaii Medical Service Association. Your Committees received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committees received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Grassroot Institute of Hawaii, and one individual.

Your Committees find that the State is experiencing a severe shortage of professionals in the health care workforce, especially in rural areas. This shortage became even more evident during the coronavirus disease 2019 pandemic when health care facilities were forced to require staff to work additional hours and consecutive shifts to meet increased demand. This measure will address the shortage of medical providers in the State by streamlining the process for physicians to become licensed in multiple states and mobilize where there is the greatest need.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 674, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

**SCRep. 914 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 463**

The purpose and intent of this measure is to:

- (1) Require each county to adopt, no later than June 30, 2024, ordinances applicable to subdivisions not approved by July 1, 2024, requiring as a condition of approval, the subdivider or developer to obtain a street address and install a mailbox for lots, parcels, structures, or units of a structure within the subdivision before the sale or lease thereof;
- (2) Require condominium maps recorded in the Bureau of Conveyances or registered in the Land Court after June 30, 2024, to include a mailbox plan for the condominium property regime, showing the location of all mailboxes for all units in the regime;
- (3) Define approval, mail, mailbox, street address, subdivider, and subdivision; and

- (4) Require, prior to the sale of residential real property, the disclosure as to the existence of a United States Postal Service deliverable mailbox for the property.

Your Committees received testimony in support of this measure from two individuals. Your Committees received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that certain post offices do not have the capacity to deal with the growing populations they serve. This problem is becoming increasingly urgent as many of those affected by the lack of mail service rely on the United States Postal Service as their means of receiving correspondence, obtaining prescriptions, and paying bills. Ensuring that all parcels within newly created subdivisions have a mailbox will reduce the strain on local post offices and bring much needed relief to affected residents throughout the State.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 463, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 463, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 915 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 389**

The purpose and intent of this measure is to require all places of public accommodation and state building construction constructed after December 31, 2023, to provide universal changing accommodations that are equally accessible to men and women.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities; Disability and Communication Access Board; Hawaii Disability Rights Center; Epilepsy Foundation of Hawaii; Hawai'i Family Caregiver Coalition; Rainbow Family 808.com Inc.; and six individuals. Your Committees received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committees find that families and caregivers of people with disabilities who require changing facilities want to participate in as many activities and outings as possible. However, extensive planning and consideration must be given to their outings, including daily activities, to ensure accessible spaces and disability-friendly rest areas. Implementation of universal changing accommodations increase the number of spaces families and caregivers can incorporate into daily outings or trips. This measure provides equity for all individuals accessing public spaces by providing universal, safe, and dignified accommodations.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 389, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 389, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 916 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 63**

The purpose and intent of this measure is to:

- (1) Allow the Board of Nursing to issue temporary permits for six-month periods to registered nurses and practical nurses licensed in another jurisdiction under certain circumstances, and except from license requirements nurses who are licensed in another state, territory, or country accompanying a patient from out-of-state for a period of less than two weeks and not employed or affiliated with a health care facility in the State; and
- (2) Allow an out-of-state registered nurse or licensed practical nurse to simultaneously apply for a license to practice and a temporary permit, and in such circumstances, extends the validity of a temporary permit to until the Board of Nursing approves the application to practice.

Your Committees received testimony in support of this measure from Hawai'i Pacific Health, The Queen's Health System, Healthcare Association of Hawaii, Hawaii Association of Health Plans, and Hawai'i State Center for Nursing. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Nursing, and Grassroot Institute of Hawaii.

Your Committees find that the State is faced with a shortage of health care professionals in every field, including nurses. There are approximately one thousand open nursing positions statewide. To meet the shortfall of nurses, hospitals hire temporary and traveling nurses. These nurses must apply for a temporary permit and fulfill certain credentialing requirements before they are eligible to work in the State. However, there is considerable lag time between the submission of an application for a temporary permit and its issuance. In the meantime, the nurse is unable to work, and unable to help alleviate the State's nurse staffing shortage. This measure will help streamline the permitting process for temporary nurses to address the shortage of health care professionals in the State.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 63, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 63, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 917 Ways and Means on S.B. No. 360**

The purpose and intent of this measure is to facilitate the development of a paid family leave insurance program in the State.

Specifically, this measure:

- (1) Requires the Department of Labor and Industrial Relations to study the development of a family leave insurance program that pays family leave insurance benefits and to submit a report of its findings and recommendations prior to the Regular Session of 2024; and
- (2) Appropriates moneys to, and establishes positions in, the Department of Labor and Industrial Relations to conduct the study.

Your Committee received written comments in support of this measure from Rainbow Family 808, Hawaii State Democratic Women's Caucus, AAUW of Hawaii, Americans for Democratic Action Hawaii, Hawaii Public Health Institute, Hawaii Women Lawyers, Hawaii Foodbank, Hawaii Family Support Institute, Samuel N. and Mary Castle Foundation, Hawaii State Coalition Against Domestic Violence, Hawaii Friends of Restorative Justice, Sunshine Therapy, and more than twenty individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Department of Labor and Industrial Relations; We Are One, Inc.; Democratic Party of Hawaii Labor Caucus; Hawaii State Teachers Association; Stonewall Caucus of the Democratic Party of Hawaii; Chamber of Commerce Hawaii; Democratic Party of Hawaii Education Caucus; Imua Alliance; Hawaii Children's Action Network Speaks!; League of Women Voters Hawaii; Parents and Children Together; IATSE 665; SHRM Hawaii; Hawaii Alliance for Progressive Action; Chamber of Sustainable Commerce; Save Medicaid Hawaii; and more than fifteen individuals.

Your Committee finds that, as of 2018, only seventeen percent of workers in the United States had access to paid family leave through their employers. Your Committee further finds that women, as primary caregivers of infants, children, and elderly parents, are disproportionately affected by the absence of a paid family leave system.

Your Committee has amended this measure by:

- (1) Requiring the Department of Labor and Industrial Relations to develop a procedural manual to implement a family leave insurance system, rather than conduct a study;
- (2) Requiring the Department of Labor and Industrial Relations to consult with the Insurance Commissioner in developing the procedural manual;
- (3) Clarifying that the Department of Labor and Industrial Relations shall submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (4) Removing language that would have established an unspecified number of full-time equivalent positions; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 360, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 360, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 918 Ways and Means on S.B. No. 732**

The purpose and intent of this measure is to honor and commemorate the histories, cultures, and traditions of indigenous peoples.

More specifically, the measure:

- (1) Designates the second Monday in October as Indigenous Peoples' Day;
- (2) Establishes Indigenous Peoples' Day as a state holiday; and
- (3) Repeals the designation of general election days as state holidays.

Your Committee received written comments in support of this measure from the Volcano School of Arts and Sciences and one individual.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee received written comments on this measure from the Department of Human Resources Development and Department of Budget and Finance.

Your Committee finds that the designation of Indigenous Peoples' Day as a state holiday will foster greater appreciation for the State's obligation to the original inhabitants of the Hawaiian Islands and the State's continued protection of customary and traditional rights exercised by the descendants of those indigenous people.

Your Committee notes the written comments of the Department of Budget and Finance estimating that the annual cost of this additional state holiday in a non-election year is approximately \$17,000,000 with respect to lost productivity. Your Committee respectfully requests that this projected cost be considered as the measure moves forward in the legislative process.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 732, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 732, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 919 Ways and Means on S.B. No. 733**

The purpose and intent of this measure is to mandate the establishment and maintenance of, require certain reports regarding, and appropriate moneys relating to Hawaiian cultural centers within the State.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that Native Hawaiian culture and history make Hawaii a unique place in the world. Your Committee believes that the establishment of the cultural centers proposed by this measure will help bring proper recognition of this culture and history.

Your Committee has amended this measure by:

- (1) Referring to the proposed centers as "Native Hawaiian cultural centers;"
- (2) Providing that each Native Hawaiian cultural center shall focus on elevating and uplifting the Native Hawaiian people;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 733, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 733, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 920 Ways and Means on S.B. No. 743**

The purpose and intent of this measure is to support and protect Hawaii's coffee industry by responding effectively to ongoing and severe threats posed by coffee pests.

More specifically, the measure:

- (1) Extends the sunset date of the Department of Agriculture's coffee berry borer and coffee leaf rust pesticide subsidy program to June 30, 2025;
- (2) Extends the Department of Agriculture's pesticide subsidy program manager position until June 30, 2026; and
- (3) Appropriates funds for the program and program manager position.

Your Committee received written comments in support of this measure from the Department of Agriculture, University of Hawaii, Hawaii Coffee Association, Kona Coffee Farmers Association, Hawaii Farm Bureau, Kanalani Ohana Farm, Kona Restoration Farm, and five individuals.

Your Committee finds that this measure's extension of the pesticide subsidy program, which helps coffee farmers offset the costs of purchasing United States Food and Drug Administration-approved pesticides to control coffee pest infestations, will help to protect the health of the local coffee industry and ensure the continued production of this important crop.

Your Committee has amended this measure by:

- (1) Changing each of the appropriation amounts from \$150,000 to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 743, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 743, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 921 Ways and Means on S.B. No. 755**

The purpose and intent of this measure is to require the State Council on Developmental Disabilities to submit a report to the Legislature on the health disparities experienced by persons in the State having developmental or intellectual disabilities.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, State Council on Developmental Disabilities, Disability and Communication Access Board, University of Hawaii, and one individual.

Your Committee received written comments on this measure from one individual.

Your Committee finds that the report required by this measure will help the State better understand the health disparities experienced by, and social determinants of health for, persons in the State having developmental or intellectual disabilities. This data will allow the State to identify the optimal allocation of resources to support persons having developmental or intellectual abilities and to improve their access to care.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$500,000 to an unspecified sum, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 755, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 755, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 922 Ways and Means on S.B. No. 759**

The purpose and intent of this measure is to facilitate the provision of health care for rural residents in the County of Hawaii.

Specifically, the measure:

- (1) Requires the Department of Health's Office of Primary Care and Rural Health to establish and administer a pilot program to address the health and wellness needs of the County of Hawaii's most underserved residents and develop a 2030 one shared health vision plan for the County of Hawaii; and
- (2) Appropriates moneys for one full-time equivalent (1.0 FTE) program specialist IV position within the Department of Health's Family Health Services Division.

Your Committee received written comments in support of this measure from the Hawaii State Youth Commission, Hawaii Island Community Health Center, and one individual.

Your Committee received comments on this measure from the Department of Health and West Hawaii Community Health Center.

Your Committee finds that residents in rural areas of the State face barriers in obtaining access to health care. Your Committee therefore believes that the State should take steps to oversee and support community efforts to address the health and wellness needs of these residents.

Your Committee has amended this measure by:

- (1) Replacing the proposed pilot program a requirement that the Office of Primary Care and Rural Health oversee and support community efforts to collaboratively address the health and wellness needs of the State's most underserved rural residents to develop plans that align with appropriate providers' goals and objectives;
- (2) Replacing the measure's legislative report requirement with a requirement that the Office of Primary Care and Rural Health include a one-time summary of community plans with the report that is to be submitted to the Legislature prior to the Regular Session of 2024, pursuant to section 321-1.5, Hawaii Revised Statutes; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 759, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 759, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 923 Ways and Means on S.B. No. 801**

The purpose and intent of this measure is to encourage the development of work-based educational programs in the State.

More specifically, this measure:

- (1) Establishes a qualified internship income tax credit for employers of qualified interns;
- (2) Requires qualified internships to fulfill requirements of the Department of Education and University of Hawaii work-based learning programs;
- (3) Provides an application and certification process for claims of credits to be administered by the Department of Labor and Industrial Relations;
- (4) Requires reports to the Legislature from the Department of Taxation and Department of Labor and Industrial Relations; and
- (5) Appropriates an unspecified amount of funds to the Department of Taxation to establish and implement the tax credit.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, University of Hawaii, Chamber of Commerce Hawaii, Hawaii Gas, Hawaii Restaurant Association, HawaiiKidsCAN, and two individuals.

Your Committee received written comments on this measure from the Department of Education, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that local students will have a better chance at thriving in Hawaii if they have an opportunity to participate in a high-quality work-based learning experience before they graduate from high school. Your Committee also finds that, to drastically increase work-based learning experience opportunities for students, offering additional financial resources for employers will both incentivize companies to offer work-based learning opportunities and increase capacity to host student interns.

Your Committee has amended this measure by:

- (1) Clarifying that a taxpayer may claim a tax credit for each qualified intern the taxpayer employs;
- (2) Establishing an aggregate cap amount for the tax credit;
- (3) Clarifying that the tax credit is nonrefundable;
- (4) Clarifying the certification responsibilities of the Department of Labor and Industrial Relations;
- (5) Removing inapplicable language regarding refundable tax credits;
- (6) Providing that the Department of Taxation's report to the Legislature shall be submitted no later than January 1, 2026;
- (7) Clarifying that section 2 of the measure shall apply to taxable years beginning after December 31, 2023;
- (8) Clarifying that section 5 of the measure shall take effect on July 1, 2023; and
- (9) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 801, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 801, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 924 Ways and Means on S.B. No. 811**

The purpose and intent of this measure is to provide for more accurate demographic data processing by the State.

More specifically, this measure:

- (1) Requires state agencies, boards, and commissions to use certain demographic data categories and tabulations;
- (2) Requires the Department of Health, Department of Labor and Industrial Relations, Department of Human Services, and each county police department to make certain disaggregated data available to the Office of Hawaiian Affairs, Office of Health Equity, and general public; and
- (3) Establishes a task force on twenty-first century data governance to assess the current data collection, processing, retention, and sharing procedures; needs; and challenges across state agencies.

Your Committee received written comments in support of this measure from Filipinos for Affirmative Action, Hawaii Coalition for Immigrant Rights, and four individuals.

Your Committee received written comments on this measure from the Department of Education, Department of Labor and Industrial Relations, University of Hawaii, Hawaii Friends of Civil Rights, and Papa Ola Lokahi.

Your Committee finds that using separate collection categories and tabulations for demographic data on Native Hawaiian, Asian, and Pacific Islander groups will ensure that the data is collected by the State in a manner that accurately represents the diversity of these communities.

Your Committee has amended this measure by:

- (1) Clarifying the task force on twenty-first century data governance's subject matter scope;
- (2) Inserting a dissolution date of June 30, 2024, for the task force; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 811, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 811, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 925      Ways and Means on S.B. No. 813**

The purpose and intent of this measure is to require the Judiciary to increase the hourly fees, reimbursement rate, and commuter-time compensation rate for court interpreters to reflect the significant increase in the cost of living in Hawaii.

Your Committee received written comments in support of this measure from the Judiciary, Office of Language Access, Hawaii Coalition for Immigrant Rights, and two individuals.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that court interpreters are valued professionals who provide critical language access in the State's courts. Court interpreters should be paid fairly for their work, and your Committee finds that a rate adjustment is warranted.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 813, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 926      Ways and Means on S.B. No. 814**

The purpose and intent of this measure is to require the Office of Enterprise Technology Services, in consultation with the Office of Language Access and a working group comprising stakeholders, to develop, publish, review, and update multilingual electronic information technology accessibility standards to be implemented by all state entities.

Your Committee received written comments in support of this measure from the Hawaii Coalition for Immigrant Rights, Hawaii Friends of Civil Rights, Hawaii Children's Action Network Speaks!, and two individuals.

Your Committee received written comments on this measure from the Department of Human Services, Office of Language Access, and Disability and Communication Access Board.

Your Committee finds that developing statewide electronic information technology accessibility standards to assist persons having limited English proficiency will help residents navigate government programs and improve residents' engagement with public services.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation from \$100,000 to an unspecified sum to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 814, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 814, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 927      Ways and Means on S.B. No. 726**

The purpose and intent of this measure is to repeal the administrative assistant position within the Department of Human Resources Development and to reassign the responsibilities of the administrative assistant to the assistant to the director.

Your Committee received written comments on this measure from the Department of Human Resources Development.

Your Committee finds that this measure repeals and reassigns the responsibilities of a currently unbudgeted position.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 726, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 928      Ways and Means on S.B. No. 467**

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution that states that limitations on moneys expended by any noncandidate committee making only independent expenditures to influence the outcome of a state election shall be as provided by law.

Your Committee received written comments in support of this measure from the Democratic Party of Hawaii and two individuals.

Your Committee received written comments on this measure from the Department of the Attorney General and Campaign Spending Commission.

Your Committee finds that certain well-funded entities expend significant sums of money in their attempts to influence the outcomes of state elections. Your Committee believes that these expenditures should be limited, as provided by law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 929      Ways and Means on S.B. No. 419**

The purpose and intent of this measure is to appropriate moneys for the Hawaii carbon smart land management assistance pilot program to help keep forests and farmlands intact and sequester additional carbon on the lands.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Climate Change Mitigation and Adaptation Commission, Pacific Agricultural Land Management Systems, The Nature Conservancy Hawaii, Kauai Climate Action Coalition, Hawaii Farm Bureau, Hawaii Environmental Change Agents Carbon Sequestration Task Force, Capture the Carbon, Hawaii Forest Industry Association, Hawaii Farmers Union United, Food+ Policy Internship, Hawaii Cattlemen's Council, and ten individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee finds that the State has committed to achieving carbon neutrality by 2045. To meet this commitment, the State must make investments to reduce emissions of carbon dioxide and methane and mitigate the effects of past emissions. Your Committee further finds that this measure will allow small farmers, ranches, foresters, and landowners and lessees to be compensated for measures taken to help the State achieve carbon neutrality.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 419, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 419, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 930      Ways and Means on S.B. No. 409**

The purpose and intent of this measure is to support fire prevention efforts within the State.

More specifically, the measure:

- (1) Appropriates funds for the community fuels reduction project of the Division of Forestry and Wildlife, Department of Land and Natural Resources, to support wildfire prevention and hazardous fuel reduction measures; and
- (2) Requires the Department of Land and Natural Resources, beginning with fiscal year 2025-2026 and each fiscal year thereafter, to establish the project as a separate line item within the Department's budget.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii State Fire Council, Maui Fire Department, Big Island Invasive Species Committee, and two individuals.

Your Committee finds that wildfires are a significant and growing hazard across the State, and that the funding provided by this measure will support efforts by the Department of Land and Natural Resources to reduce hazardous fuels on the landscape that threaten watersheds, adjacent communities, and critical public infrastructure such as power lines and communication facilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 409, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 931      Ways and Means on S.B. No. 393**

The purpose and intent of this measure is to promote the use of mediation for certain landlord-tenant disputes.

More specifically, this measure:

- (1) Until December 31, 2024:
  - (A) Extends the period for notice of termination of a rental agreement;
  - (B) Requires landlords to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule mediation; and

- (C) Requires landlords to include specific information in the notice provided to tenants and certain mediation centers;
- (2) Appropriates moneys for the pre-litigation mediation program; and
- (3) Appropriates moneys for and creates an emergency rent relief program to provide resources to help certain participants in pre-litigation mediation to avoid eviction and maintain stable tenancies.

Your Committee received written comments on this measure from Hawaii REALTORS.

Your Committee finds that extending the pre-litigation mediation program created by Act 57, Session Laws of Hawaii 2021, will help many residents of the State to remain in stable housing and avoid costly judicial proceedings and judgments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 932 Ways and Means on S.B. No. 270**

The purpose and intent of this measure is to improve wage and hour laws and compliance with those laws.

Specifically, this measure:

- (1) Requires the Department of Labor and Industrial Relations to submit an annual report regarding enforcement of the wage and hour law, including information on the complaints filed, investigatory actions taken, violations found, and penalties collected;
- (2) Requires the Director of Labor and Industrial Relations to establish investigation standards to protect employees who report labor law violations; and
- (3) Requires the Director of Labor and Industrial Relations to establish a program to provide education on wage and hours laws.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations; International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts of the United States, its Territories and Canada, Local 665; Maui Chamber of Commerce; and five individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Restaurant Association, Magics Beach Grill, and Tiki's Grill and Bar.

Your Committee received written comments on this measure from the Democratic Party of Hawaii Labor Caucus, Hawaii Ironworkers Stabilization Fund, Stonewall Caucus of the Democratic Party of Hawaii, Save Medicaid Hawaii, Chamber of Sustainable Commerce, Imua Alliance, Democratic Party of Hawaii Education Caucus, Hawaii Workers Center, and sixteen individuals.

Your Committee finds that requiring the Department of Labor and Industrial Relations to submit a report regarding enforcement of the wage and hour law will help the Legislature to develop policies to improve wages and compliance with state employment laws.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 270, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 933 Ways and Means on S.B. No. 404**

The purpose and intent of this measure is to expand and make permanent the Hospital Sustainability Program.

Specifically, this measure:

- (1) Repeals the sunset date of the Hospital Sustainability Program;
- (2) Authorizes the Department of Human Services to modify, add, or remove the facilities that are subject to the assessment, under certain conditions;
- (3) Authorizes the Department of Human Services to determine the fee rate of the program;
- (4) Requires managed health care plans to expend all of their increased payments for the purposes of the program;
- (5) Requires that the hospital sustainability fee shall be discontinued if the Department of Human Services reduces certain reimbursement rates; and
- (6) Appropriates \$200,000,000 to the hospital sustainability program special fund.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association, Kaiser Permanente, Hawaii Pacific Health, Queen's Health System, Hilo Medical Center, and Palolo Chinese Home.

Your Committee received written comments on this measure from the Department of Human Services and Healthcare Association of Hawaii.

Your Committee finds that the Hospital Sustainability Program has helped to fund hospital services for Medicaid recipients by assessing fees on the hospitals, using the revenue from those fees to obtain matching federal funds, and returning more moneys to the hospitals than were assessed in fees, which are then used to supplement the cost of providing services for Medicaid recipients. Your

Committee further finds that making the program permanent will help to ensure the long-term financial sustainability of hospitals in Hawaii.

Your Committee has amended this measure by:

- (1) Requiring the Department of Human Services to pay the hospital sustainability fee within sixty days after the end of the month that the Department imposes the fee;
- (2) Changing the appropriation to an unspecified amount; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 404, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 404, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 934      Ways and Means on S.B. No. 340**

The purpose and intent of this measure is to ensure the continued availability of public housing units in the State.

More specifically, the measure appropriates \$20,200,000 in each of fiscal years 2023-2024 and 2024-2025 for the Hawaii Public Housing Authority to rehabilitate, remodel, renovate, and repair two hundred and fifty-five public housing units in the State.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority, Partners in Care, Catholic Charities Hawaii, and two individuals.

Your Committee finds that the funding provided by this measure will enable the Hawaii Public Housing Authority to maintain its inventory of public housing units in a safe and habitable condition.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$20,200,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 340, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 340, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 935      Ways and Means on S.B. No. 297**

The purpose and intent of this measure is to provide for greater legislative oversight of certain activities involving grants awarded under Chapter 42F, Hawaii Revised Statutes.

More specifically, the measure requires an organization to obtain legislative approval prior to the disposition of land acquired by the organization using a state grant, beginning July 1, 2024.

Your Committee received written comments on this measure from the Office of Community Services of the Department of Labor and Industrial Relations.

Your Committee finds that this measure provides the Legislature with discretion to authorize, on a case-by-case basis, a grant recipient's request to dispose of land acquired using grant moneys, and that this discretion will allow for closer examination of the manner in which the State's financial resources are used.

Your Committee has amended this measure by:

- (1) Deleting the reference to July 1, 2024, and adding a provision clarifying that the legislative authorization requirement shall only apply to land that was acquired after the enactment of this measure;
- (2) Changing the effective date to upon approval; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 297, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 297, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 936 Ways and Means on S.B. No. 292**

The purpose and intent of this measure is to require that the Governor ensure that certain variance reports accurately reflect the current responsibilities of the applicable state programs, address the current and future needs of the State, and align with budget-related submittals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that by requiring that variance reports accurately reflect the current responsibilities of the applicable state programs, address the current and future needs of the State, and align with budget-related submittals, this measure will ensure fiscal transparency and the long-term financial health of the State.

Your Committee has amended this measure by changing the effective date to upon its approval.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 292, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 292, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 937 Ways and Means on S.B. No. 724**

The purpose and intent of this measure is to update the State's technology infrastructure.

More specifically, the measure:

- (1) Appropriates an unspecified sum to the Department of Human Resources Development for the enhancement of its technology resources, including the establishment of an unspecified number of full-time staff positions; and
- (2) Authorizes the issuance of general obligation bonds in an unspecified amount for the foregoing purposes.

Your Committee received written comments in support of this measure from Transform Hawaii Government.

Your Committee received written comments on this measure from the Department of Human Resources Development.

Your Committee finds that modernizing the computers and network infrastructure of the Department of Human Resources Development will allow the Department to provide faster responses, improve digital efficiencies, reduce paper usage, and better fulfill its mission.

Your Committee has amended this measure by:

- (1) Deleting the provision authorizing the issuance of general obligation bonds and including an unspecified appropriation out of the general fund to fund this initiative; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 724, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 724, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 938 Ways and Means on S.B. No. 722**

The purpose and intent of this measure is to establish the occupational safety and health special fund and direct that certain fees and penalties be deposited into the special fund.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

Your Committee received written comments in opposition to this measure from the Subcontractors Association of Hawaii.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that establishing a designated source of funding for the Department of Labor and Industrial Relations' personnel and operating expenses, and staff development and training, will help the Department with its staff development and retention efforts.

Your Committee has amended this measure by:

- (1) Changing the name of the occupational safety and health special fund to the workforce safety and health special fund; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 722, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 722, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 939 Ways and Means on S.B. No. 667**

The purpose and intent of this measure is to clarify the application of the general excise tax law with regard to gross income derived from unrelated trade or business activities of nonprofit organizations.

Your Committee received written comments in support of this measure from Aloha Diaper Bank; American Cancer Society Cancer Action Network; American Heart Association; Association of Fundraising Professionals Aloha Chapter; Big Brothers Big Sisters Hawaii; Catholic Charities Hawaii; Child & Family Service; Epilepsy Foundation of Hawaii; Family Promise of Hawaii; Grow Some Good; H.T. Hayashi Foundation; Hale Kipa, Inc.; Hawaii Alliance of Nonprofit Organizations; Hawaii Care Choices; Hawaii Fetal Alcohol Spectrum Disorders FASD Action Group; Hawaii Forest Industry Association; Hawaii Youth Services Network; Hawaiian Humane Society; Kilinahe Foundation; Kuikahi Mediation Center; Malama Kauai; The Nature Conservancy of Hawaii and Palmyra; Oahu Economic Development Board; Outrigger Duke Kahanamoku Foundation; Parents and Children Together; Samaritan Counseling Center Hawaii; YMCA of Honolulu; and ten individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure aligns the state general excise tax law with the federal income tax law by exempting from the State's general excise tax the fundraising income generated by tax-exempt nonprofit organizations, while retaining the general excise tax for gross income derived from any "unrelated trade or business," as defined by the Internal Revenue Code.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 667, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 940 Ways and Means on S.B. No. 588**

The purpose and intent of this measure is to require and appropriate moneys for the Department of Transportation, in conjunction with any county having a population greater than five hundred thousand, to develop a pilot program to use noise detection traffic cameras to address excessive traffic noise in urban areas of each participating county.

Your Committee received written comments in support of this measure from the Department of Transportation, Waikiki Neighborhood Board, Honolulu City Council, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that excessive noise created by traffic is a prevalent issue throughout the State, especially in urban areas. Your Committee believes that establishing a pilot program to use noise detection traffic cameras is an appropriate method of addressing this issue.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Transportation, in conjunction with certain counties, is required to develop and implement the pilot program; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 588, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 588, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 941 Ways and Means on S.B. No. 576**

The purpose and intent of this measure is to promote openness and transparency in state government.

More specifically, the measure:

- (1) Requires reports of official travel by employees, officers, or other representatives of state departments or agencies to be made available for public review on the Comptroller's website, except for personally identifiable information; and
- (2) Appropriates funds to the Department of Accounting and General Services to implement and manage public access to the travel reports.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the reporting required by this measure will enhance open government, transparency, and accountability by improving public access to this information.

Your Committee has amended this measure by:

- (1) Specifying that the Judiciary and University of Hawaii are included among the state departments and agencies whose employees or other representatives are required to report official travel;

- (2) Changing the appropriation from \$100,000 to an unspecified amount; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 576, S.D. 3.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 942      Ways and Means on S.B. No. 520**

The purpose and intent of this measure is to support the growth of the State's agricultural industry.

More specifically, the measure:

- (1) Establishes within the University of Hawaii community college system a five-year farm succession pilot program to further the knowledge and technical skills of young farmers;
- (2) Requires the University of Hawaii community college system to submit a report of its findings and recommendations, including any proposed legislation, to the 2029 Legislature; and
- (3) Appropriates funds in unspecified amounts to:
  - (A) The University of Hawaii, for implementation of the farm succession pilot program; and
  - (B) The Department of Agriculture, for extension of the farmer apprentice mentoring program established by Act 304, Session Laws of Hawaii 2022.

Your Committee received written comments in support of this measure from the Department of Agriculture, Hawaii Farm Bureau, Hawaii Food Hub Hui, Hawaii Farmers Union United, Hawaii Cattlemen's Council, and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General and Ulupono Initiative.

Your Committee recognizes that more farmers are growing older and retiring from the agricultural industry, thus exacerbating an ongoing shortage of agricultural labor. Your Committee finds that the farm succession pilot program established by this measure, combined with extension of the existing farmer apprentice mentoring program, will alleviate this shortage and support the next generation of farmers in the State.

Your Committee notes that the cost to fund this measure would be \$910,000.

Your Committee has amended this measure by:

- (1) Establishing the farm succession pilot program within Leeward Community College rather than the University of Hawaii community college system, and replacing references to "University of Hawaii" with "Leeward Community College" where appropriate;
- (2) Including within the appropriation for the farm succession pilot program an unspecified allocation for the establishment of four full-time equivalent staff positions;
- (3) Clarifying that the appropriation in Section 3 of the measure shall be expended by the Department of Agriculture for purposes of Act 304, Session Laws of Hawaii 2022, which established the farmer apprentice mentoring program;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 520, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 520, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 943      Ways and Means on S.B. No. 494**

The purpose and intent of this measure is to address the potential hazards associated with vacant and abandoned residential properties.

Specifically, this measure:

- (1) Requires each county to establish an expedited procedure for approvals of demolition permits for vacant residential properties; and
- (2) Allows the Department of Taxation to seek nonjudicial foreclosure sales of vacant and abandoned residential properties with outstanding recorded state tax liens.

Your Committee received written comments in support of this measure from one individual.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that vacant and abandoned residential properties pose significant public safety hazards and may lead to a decline in values of surrounding properties and a reduction in the tax base for local governments.

Your Committee has amended this measure by:

- (1) Inserting an appropriation to fulfill the State's share of any mandated costs to the counties pursuant to Article VIII, section 5, of the Hawaii State Constitution; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 494, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 494, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 944 Ways and Means on S.B. No. 493**

The purpose and intent of this measure is to amend motor vehicle safety inspection requirements for new motor vehicles and electric vehicles for a period of three years.

More specifically, this measure:

- (1) Exempts new motor vehicles from motor vehicle safety inspection requirements for a period of three years;
- (2) Requires electric vehicles to be certified every twenty-four months; and
- (3) Establishes a basis for road usage charge fees to be paid for certain electric vehicles,

until June 30, 2026.

Your Committee received written comments on this measure from the Department of Transportation and Hawaii Automobile Dealers' Association.

Your Committee finds that exempting new vehicles from vehicle inspection requirements for three years and requiring that electric vehicles receive these inspections once every two years will allow the State to maintain high vehicle safety standards while also addressing the State's shortage of safety inspectors.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 493, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 945 Ways and Means on S.B. No. 485**

The purpose and intent of this measure is to establish an additional district court judgeship in the First Circuit.

Your Committee received written comments in support of this measure from the Judiciary, Department of the Prosecuting Attorney, Hawaii State Bar Association, and one individual.

Your Committee finds that the establishment of an additional District Court judge will help the court better manage court dockets, be more responsive to the needs of the community, increase the capacity of rural courts, and develop or expand specialized court calendars.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 485, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 946 Ways and Means on S.B. No. 420**

The purpose and intent of this measure is to establish a sustainable food system in the State that supports a vibrant and resilient local food economy.

More specifically, the measure:

- (1) Establishes within the Department of Agriculture a sustainable food systems working group to develop an interagency food systems plan that addresses, among other things:
  - (A) Food as a human right and healthy food for all persons;

- (B) Food system resilience and sustainability; and
- (C) Sustainable education, workforce development, and fair labor;
- (2) Requires the working group to submit the interagency food systems plan and any recommendations, including any proposed legislation, to the 2025 Legislature; and
- (3) Appropriates funds to the Department of Agriculture for:
  - (A) Expenses incurred by the working group; and
  - (B) An unspecified number of full-time equivalent sustainability specialist positions.

Your Committee received written comments in support of this measure from the Office of Hawaiian Affairs, Hawaii Tourism Authority, Hawaii Climate Change Mitigation and Adaptation Commission, North Shore Economic Vitality Partnership, Hawaii Public Health Institute, Hawaii Fishermen's Alliance for Conservation and Tradition, Kauai Climate Action Coalition, Malama Kaua'i, Hawaii Farm Bureau, HECA Carbon Sequestration Task Force, Hawaii Alliance for Progressive Action, Good Food Movement, Hawaii Food Industry Association, Hawaii Food Plus Policy Internship, Hawaii Cattleman's Council, Hawaii Foodbank, Ka Ohana O Na Pua, and numerous individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Agriculture, Pacific Agricultural Land Management Systems, Ulupono Initiative, Hawaii Farmers Union United, and one individual.

Your Committee finds that the development of a more sustainable food system in Hawaii represents an opportunity to create a new food economy that integrates the objectives of "green" job creation, sustainable economic development, land stewardship, food security, environmental protection, and climate change resiliency with community health and well-being, and accordingly, will enhance and sustain the environmental, economic, and social health of the State.

Your Committee has amended this measure by:

- (1) Adjusting the composition of the sustainable food systems working group by:
  - (A) Adding one representative to be selected by the Office of Hawaiian Affairs; and
  - (B) Clarifying that the two members of the Native Hawaiian community to be selected by the Chairperson of the Board of Agriculture shall instead be two persons having familiarity, experience, or expertise in the Native Hawaiian community;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 420, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 420, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 947      Ways and Means on S.B. No. 1066**

The purpose and intent of this measure is to establish and appropriate moneys for a water security working group to study and recommend priority capital improvement projects that leverage public-private investment to increase the State's water security.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Board of Water Supply, Hawaii Department of Water Supply, Ulupono Initiative, Hawaii Community Foundation, and three individuals.

Your Committee finds that establishing a water security working group to identify priority capital improvement projects to enhance the State's water security will help to ensure the long-term protection and management of the State's water resources.

Your Committee notes that in its written comments in support of this measure, the Department of Land and Natural Resources recommended reducing the appropriation from \$200,000 to \$50,000.

Your Committee has amended this measure by:

- (1) Specifically placing the water security working group within the Commission on Water Resource Management, rather than the Department of Land and Natural Resources;
- (2) Clarifying that the Deputy Director of the Commission on Water Resource Management's designee may serve on the working group;
- (3) Inviting, rather than requiring, specific private entities to serve on the working group;
- (4) Changing the appropriation from \$200,000 to an unspecified amount to facilitate further discussion on the measure;
- (5) Changing the expending agency from the Department of Land and Natural Resources to the Commission on Water Resource Management; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1066, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 948      Ways and Means on S.B. No. 113**

The purpose and intent of this measure is to promote the “Hawaii Made” and “Made in Hawaii” labeling programs.

More specifically, this measure:

- (1) Clarifies the requirements for an item to be labeled “Hawaii Made” or “Made in Hawaii”; and
- (2) Appropriates moneys to the Department of Business, Economic Development, and Tourism to promote and develop the “Made in Hawaii” brand.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Forest Industry Association; Maui Chamber of Commerce; and one individual.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that including operating and overhead expenses incurred and spent within the State in the “Hawaii Made” and “Made in Hawaii” calculations will enable more products to qualify for the “Hawaii Made” and “Made in Hawaii” labels.

Your Committee has amended this measure by:

- (1) Clarifying that, for the “Hawaii Made” and “Made in Hawaii” labeling programs, the calculations to determine the percentage of value added by production within the State include operating and overhead expenses incurred and spent within the State;
- (2) Changing the appropriation from \$150,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making a technical nonsubstantive amendment for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 113, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 113, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 949      Ways and Means on S.B. No. 116**

The purpose and intent of this measure is to allow the counties to issue special number plates to commemorate Duke Kahanamoku.

More specifically, this measure:

- (1) Authorizes the issuance of special number plates commemorating Duke Kahanamoku;
- (2) Requires the Director of Finance of the City and County of Honolulu to design the special number plates, based on certain guidelines;
- (3) Requires the Director of Finance of each county to charge a special number plate fee and fundraising fee, and authorizes the Director to charge an additional fundraising fee for renewal of the special number plate; and
- (4) Provides that the net revenue generated by the fundraising fees be directed to the Outrigger Duke Kahanamoku foundation to fund certain programs.

Your Committee received written comments in support of this measure from Duke’s Oceanfest; Hawaii Aquatics Foundation; North Shore Swim Series; Outrigger Duke Kahanamoku Foundation; Servco Pacific, Inc.; and numerous individuals.

Your Committee finds that the issuance of a special number plate commemorating Duke Kahanamoku is an appropriate way to honor and remember Duke Kahanamoku while helping to promote water safety and swim education throughout the State.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 116, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 116, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 950      Ways and Means on S.B. No. 139**

The purpose and intent of this measure is to require and appropriate moneys for the Hawaii Public Housing Authority to conduct a study on certain state-owned lands that are located within a certain distance of rail mass transit stations and that are most suitable for constructing at least one hundred thousand housing units.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority and four individuals.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that providing high-density affordable housing along Honolulu's rail mass transit line will help the State to effectively satisfy Hawaii's housing needs without creating widespread urban sprawl.

Your Committee has amended this measure by:

- (1) Authorizing the Hawaii Public Housing Authority to contract for services to conduct the required study;
- (2) Changing the appropriation from \$500,000 to an unspecified amount;
- (3) Changing the effective date of the appropriations for fiscal years 2023-2024 and 2024-2025 to July 1, 2051, and the effective date of the remaining provisions of this measure to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 139, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 139, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 951      Ways and Means on S.B. No. 1015**

The purpose and intent of this measure is to increase the number of licensed nursing professionals in the State.

More specifically, the measure appropriates funds for the expansion of the certified nurse aide to practical nurse bridge program at the University of Hawaii Maui College, as follows:

- (1) \$130,000 for instructional costs, including the cost of casual employees and overload pay; and
- (2) \$200,000 for student aid to program participants, including tuition, fees, supplies, and related costs.

Your Committee received written comments in support of this measure from the University of Hawaii, Healthcare Association of Hawaii, The Queen's Health System, and University of Hawaii Professional Assembly.

Your Committee finds that the certified nurse aide to practical nurse bridge program is designed especially for working certified nurse aides and other health care professionals who want to become licensed practical nurses, and that the financial support provided by this measure will help the University of Hawaii Maui College to meet its goal of expanding the program statewide to accommodate a threefold increase in student enrollment.

Your Committee has amended this measure by:

- (1) Changing the appropriations from \$130,000 and \$200,000 to unspecified amounts; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1015, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1015, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 952      Ways and Means on S.B. No. 155**

The purpose and intent of this measure is to augment the services and educational experiences provided by the University of Hawaii.

Specifically, the measure:

- (1) Establishes and appropriates moneys for a network improvement community task force to develop a kindergarten through grade twelve science, technology, engineering, and mathematics teacher education degree at the University of Hawaii; and
- (2) Appropriates moneys to the University of Hawaii Maui College for study abroad programs.

Your Committee received written comments in support of this measure from the University of Hawaii and two individuals.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that facilitating the development of a dedicated degree program for science, technology, engineering, and mathematics teachers will help address the State's critical need for teachers in these fields. Your Committee also finds that funding study abroad programs will help enhance students' learning.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 155, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 155, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 953      Ways and Means on S.B. No. 1040**

The purpose and intent of this measure is to assist certain beneficiaries under the Hawaiian Homes Commission Act, 1920, as amended, who are homeless or threatened with homelessness.

Specifically, the measure:

- (1) Establishes under the Department of Hawaiian Home Lands the rent-with-option-to-purchase pilot program on the Leeward Coast of Oahu, which shall provide to the foregoing beneficiaries certain housing units and services; and
- (2) Appropriates moneys to establish and administer the pilot program.

Your Committee received written comments in support of this measure from the State Procurement Office; Governor's Coordinator on Homelessness; Environmental Caucus of the Democratic Party of Hawaii; Hydroponics Alternatives, LLC; Malama Makua; and thirteen individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Hawaiian Home Lands, Office of Information Practices, and one individual.

Your Committee finds that Native Hawaiians are affected by homelessness at a higher rate than other ethnicities. Your Committee also finds that a pilot program, as proposed by this measure, can help reduce homelessness among this population.

Your Committee has amended this measure by:

- (1) Deleting an unnecessary reference to chapter 91, Hawaii Revised Statutes;
- (2) Clarifying the circumstance under which the Department of Hawaiian Home Lands shall facilitate the transfer of ownership of a housing unit;
- (3) Providing that the use of the individual or shared micro housing units may be used for affordable housing as may be determined by the Department of Hawaiian Home Lands;
- (4) Redefining the term "threatened with homelessness" to refer to the certain expenses associated with maintaining a residence;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1040, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 954      Ways and Means on S.B. No. 1064**

The purpose and intent of this measure is to facilitate the improvement or removal of deficient dams and appurtenances.

Specifically, the measure:

- (1) Establishes the dam and appurtenance improvement or removal grant program to provide funding to private dam owners for plans, design, construction, and equipment used to improve or remove deficient dams and appurtenances;
- (2) Establishes the dam and appurtenance improvement or removal revolving fund to support the awarding of grants under the foregoing program; and
- (3) Appropriates moneys for certain operating expenses and the establishment of two full-time equivalent (2.0 FTE) positions in the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources and Hawaii Farm Bureau.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that many privately owned dams and appurtenances are not properly maintained and may be hazardous to public safety. Your Committee also finds that as the costs of improvement or removal are often prohibitive, a grant program to provide funding for these costs, as proposed by this measure, may be appropriate.

Your Committee recognizes that the Department of Land and Natural Resources has requested a one-time seed funding of \$15,000,000 in general funds into the dam and appurtenance improvement or removal revolving fund for use as the initial funding source.

Your Committee finds that the new dam and appurtenance improvement or removal revolving fund may not comply with section 37-52.4, Hawaii Revised Statutes, particularly with respect to the requirement that a revolving fund demonstrate the capacity to be self-sustaining. Your Committee notes that legislative appropriations are the sole source of funding for the revolving fund and, consequently, for the grant program. Accordingly, it appears more appropriate to fund the grant program directly through legislative appropriations rather than through a new revolving fund.

Your Committee has amended this measure by:

- (1) Deleting the establishment of the dam and appurtenance improvement or removal revolving fund;
- (2) Specifying that the two full-time equivalent (2.0 FTE) positions established by the measure are permanent positions; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1064, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 955      Ways and Means on S.B. No. 1074**

The purpose and intent of this measure is to propose amendments to the Hawaii State Constitution that amend the procedure by which justices and judges are appointed.

Specifically, this measure proposes amendments to Article VI, section 3, of the Hawaii State Constitution to:

- (1) Extend from thirty days to forty-five days certain time periods relating to the appointment and consideration of a justice's or judge's appointment; and
- (2) Amend the Senate confirmation procedures for district court judge nominees to mirror the process used to consent to Supreme Court justice nominees and Intermediate Court of Appeals and circuit court judge nominees.

Your Committee received written comments in support of this measure from the Judiciary.

Your Committee received written comments in opposition to this measure from the Community Alliance on Prisons and one individual.

Your Committee finds that providing more time to consider a justice or judge's appointment will allow for more thoughtful and reasoned deliberation over a nominee's qualifications for judicial office. Your Committee also finds that the current procedure for Senate confirmation of district court judge nominees differs from the procedure used to confirm Supreme Court justice nominees and Intermediate Court of Appeals and circuit court judges. This measure proposes to amend the consent procedures for district court judgeships to be consistent with the procedures used for other state judges and justices.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1074, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 956      Ways and Means on S.B. No. 1129**

The purpose and intent of this measure is to increase the expediency and efficiency of small purchase procurements.

Specifically, this measure increases the procurement threshold for small purchases from \$25,000 to \$50,000.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii State Public Library System, and Subcontractors Association of Hawaii.

Your Committee received written comments in opposition to this measure from the State Procurement Office.

Your Committee finds that the cost of supplies, equipment, construction materials, and services have rapidly increased. Your Committee further finds the adjustment to the procurement threshold for small purchases will help agencies make routine purchases in an efficient and expeditious manner.

Your Committee has amended this measure by:

- (1) Clarifying that small purchase procurements for construction shall be subject to section 103D-302(b), Hawaii Revised Statutes, rather than section 103D-305(b), Hawaii Revised Statutes; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1129, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 957 Ways and Means on S.B. No. 1478**

The purpose and intent of this measure is to establish, require legislative reports regarding, and appropriate moneys for an offensive cybersecurity program within the Office of Enterprise Technology Services.

Your Committee received written comments in support of this measure from the Judiciary.

Your Committee finds that cyber threats are increasing, and their attacks against government entities are prevalent. Your Committee therefore believes that a specialized program that engages in offensive cybersecurity, as proposed by this measure, will help the State in its efforts to combat these threats.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1478, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 958 Ways and Means on S.B. No. 1400**

The purpose and intent of this measure is to increase the total aggregate value of capital advancement contracts that the Department of Transportation may execute per fiscal year to improve harbors.

More specifically, this measure:

- (1) Increases from \$2,000,000 to \$5,000,000 the contract value of capital advancement contracts to improve harbors that the Department of Transportation may execute without legislative approval;
- (2) Repeals the requirement that, for capital advancement contracts having a contract value of more than \$2,000,000, the Department of Transportation obtain legislative approval in the form of the adoption of a concurrent resolution; and
- (3) Increases the total aggregate value of capital advancement contracts that the Department of Transportation may execute to improve harbors from \$5,000,000 in any calendar year to \$20,000,000 in any fiscal year.

Your Committee received written comments in support of this measure from the Department of Transportation; Hawaii Harbor Users Group; and Matson Navigation Company, Inc.

Your Committee finds that capital advancement contracts have proven to be an effective tool in expediting project completion. Your Committee believes that increasing the current capital advancement contract limits for harbor improvements will allow the Department of Transportation to improve the State's harbors system more efficiently and effectively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1400, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 959 Ways and Means on S.B. No. 1385**

The purpose and intent of this measure is to amend the wage and hour law by repealing the exclusion from coverage for individuals guaranteed a monthly compensation of \$2,000 or more per month.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations; Rainbow Family 808; We Are One, Inc.; Labor Caucus of the Democratic Party of Hawaii; Stonewall Caucus of the Democratic Party of Hawaii; Education Caucus of the Democratic Party of Hawaii; Imua Alliance; Hawaii Nurses' Association OPEIU Local 50; Hawaii Public Health Institute; Hawaii State AFL-CIO; IATSE 665; Hawaii Alliance for Progressive Action; Save Medicaid Hawaii; and numerous individuals.

Your Committee finds that this measure will strengthen Hawaii's workforce by providing more workers with the protections afforded by the minimum wage rates, overtime rates, and recordkeeping requirements that exist for employers and employees covered under the wage and hour law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1385, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 960 Ways and Means on S.B. No. 1022**

The purpose and intent of this measure is to ensure that the composition of the Early Learning Board reflects the diversity of the early care and education field across the State.

Specifically, this measure:

- (1) Amends the composition and qualifications of the Early Learning Board to consist of individuals from each county, instead of from particular entities or types of providers; and
- (2) Establishes general qualifications for the members of the Early Learning Board who are appointed by the Governor.

Your Committee received written comments on this measure from the Early Learning Board.

Your Committee finds that each county of the State has different early childhood education needs. Your Committee further finds that the amendments made by this measure to the composition and qualifications of the Early Learning Board will help to ensure that these diverse needs are addressed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 961 Ways and Means on S.B. No. 154**

The purpose and intent of this measure is to reduce hunger in Hawaii's public schools by expanding access to school meal subsidies for students.

More specifically, the measure:

- (1) Requires the Department of Education to develop and implement a school meal subsidy program intended for students whose families are not otherwise eligible for free lunch under the Department's current program, subject to income eligibility participation requirements; and
- (2) Appropriates funds for the school meal subsidy program.

Your Committee received written comments in support of this measure from the Department of Education, Executive Office on Early Learning, Hawaii State Teachers Association, State Council on Developmental Disabilities, Hawaii Public Health Institute, Malama Kaua'i, Democratic Party of Hawaii Education Caucus, Hawaii Children's Action Network Speaks!, Hawaii Alliance for Progressive Action, Hawaii Hunger Action Network, Hawaii Appleseed Center for Law and Economic Justice, and four individuals.

Your Committee finds that, according to the Department of Education, an estimated fifteen thousand children each year from gap groups do not qualify for free or low-cost school lunches, and that the program established by this measure will help to close that gap.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 154, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 962 Ways and Means on S.B. No. 1509**

The purpose and intent of this measure is to ensure the preservation of, and long-term public access to, government records.

More specifically, this measure:

- (1) Establishes additional sources of moneys to be deposited into the state archives preservation and long-term access special fund; and
- (2) Appropriates moneys for the preservation of, and long-term access to, government records.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services; Ukulele Friend, LLC; and four individuals.

Your Committee received written comments on this measure from the University of Hawaii.

Your Committee finds that providing for additional sources of funding for the state archives preservation and long-term access special fund will assist the State Archives in providing more content and serving more public and government stakeholders.

Your Committee has amended this measure by expanding the scope of the state archives preservation and long-term access special fund to include the preservation of, and long-term access to, other materials preserved at the State Archives.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1509, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1509, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 963 Ways and Means on S.B. No. 1476**

The purpose and intent of this measure is to address West Maui's critical need for an acute care facility.

More specifically, the measure:

- (1) Authorizes the Department of Budget and Finance to issue special purpose revenue bonds in an amount not to exceed \$20,000,000 to assist West Maui Hospital Foundation, Inc., in the design and construction of West Maui Hospital and Medical Center, including any necessary infrastructure improvements; and
- (2) Provides that the Department of Budget and Finance shall not issue any special purpose revenue bonds unless the County of Maui serves as guarantor of any debt service on the special purpose revenue bonds.

Your Committee received written comments in support of this measure from the Maui County Council; West Maui Hospital Foundation, Inc.; Maui Hotel and Lodging Association; West Maui Taxpayers Association, Inc.; Maui Chamber of Commerce, 0889019BC, Ltd.; and eleven individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that West Maui needs a hospital facility due to its growing population and rising visitor numbers, and that the hospital and medical center financed by this measure will help to meet the region's emergency medical needs, provide crucial bed capacity, and potentially provide this isolated region with access to specialty and long-term care.

Your Committee has amended this measure by:

- (1) Inserting a provision that explicitly exempts this measure from the requirements of Act 182, Session Laws of Hawaii 2022, which placed a moratorium on the issuance of new private activity bonds within the period after June 30, 2022, and before December 31, 2028, by prohibiting the authorization of special purpose revenue bonds requiring an allocation of the annual state ceiling under section 39B-2, Hawaii Revised Statutes, unless requested by the Governor and approved by the Legislature; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

Your Committee notes that Article VII, section 12, of the Hawaii State Constitution prohibits special purpose revenue bonds from being secured by the issuer. Section 5 of the measure requires the County of Maui to serve as guarantor of any debt service on the special purpose revenue bonds. Consequently, it is unclear if this requirement violates the constitutional prohibition stated in Article VII, section 12, of the Hawaii State Constitution. Your Committee respectfully requests that this issue be considered as the measure moves forward in the legislative process.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1476, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1476, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 964      Ways and Means on S.B. No. 1465**

The purpose and intent of this measure is to improve the expediency and efficiency of professional services procurements.

Specifically, this measure allows agencies to:

- (1) Rank fewer than three persons when procuring professional services when fewer than three qualified persons respond to a solicitation; and
- (2) Request to use alternative procurement procedures when no qualified person responds to a solicitation.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Maui and Division of Purchasing of the County of Kauai.

Your Committee received written comments on this measure from the State Procurement Office, AIA Hawaii State Council, and American Council of Engineering Companies of Hawaii.

Your Committee finds that current state law does not allow for an alternative procedure if less than three qualified persons respond to a professional services notice. Your Committee further finds that this measure will provide state agencies with an option to proceed when the requisite number of responses to a procurement solicitation are not received.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1465, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1465, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 965      Ways and Means on S.B. No. 1416**

The purpose and intent of this measure is to encourage legislative review of government studies, audits, and newly established programs.

Specifically, this measure requires:

- (1) A public hearing or informational briefing by the subject matter committee of each legislative chamber on certain audits and studies enacted with an appropriation or adopted by concurrent resolution within one year of the receipt of the study; and
- (2) Reports to the Legislature on newly established programs.

Your Committee received written comments in support of this measure from the Office of the Auditor and one individual.

Your Committee finds that conducting and completing studies requires a significant investment of time and resources by state agencies. Your Committee further finds that reports resulting from these agencies are often not widely reviewed.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1416, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1416, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 966 Ways and Means on S.B. No. 1415**

The purpose and intent of this measure is to increase transparency and accountability for public employees.

Specifically, this measure requires the University of Hawaii to submit annual reports of all university employees who performed work from a location outside of the State during an applicable year.

Your Committee did not receive written comments on this measure.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1415, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1415, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 967 Ways and Means on S.B. No. 1522**

The purpose and intent of this measure is to dissolve the Hawaii Tourism Authority and replace it with an Office of Tourism and Destination Management.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Hawaii Tourism Authority; Kohala Coast Resort Association; Hawaii Lodging and Tourism Association; and Maui Hotel and Lodging Association.

Your Committee finds that replacing the Hawaii Tourism Authority with a new agency that is subject to different requirements will help to improve the State's management of marketing Hawaii as a tourism destination.

Your Committee has amended this measure by:

- (1) Making the Office of Tourism and Destination Management more independent of the Department of Business, Economic Development, and Tourism;
- (2) Establishing that the Office of Tourism and Destination Management will be headed by an Executive Director rather than an Administrator;
- (3) Redefining "regenerative tourism";
- (4) Amending the responsibilities of the Tourism and Marketing Branch and the Destination Management Branch;
- (5) Establishing the Board of Directors of the Office of Tourism and Destination Management;
- (6) Transferring the rights, powers, duties, employees, contracts, and rules of the Hawaii Tourism Authority to the Office of Tourism and Destination Management, instead of the Department of Business, Economic Development, and Tourism;
- (7) Specifying positions in the Office of Tourism and Destination Management; and
- (8) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1522, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1522, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13; Ayes with Reservations (Inouye, Kanuha). Noes, none. Excused, none.

**SCRep. 968 Ways and Means on S.B. No. 285**

The purpose and intent of this measure is to facilitate upgrades of wastewater systems within the State.

Specifically, the measure:

- (1) Establishes and appropriates moneys to implement a three-year new wastewater system demonstration pilot program within the University of Hawaii; and
- (2) Appropriates moneys for two full-time equivalent (2.0 FTE) positions within the Department of Health's wastewater branch.

Your Committee received written comments in support of this measure from the Department of Health, University of Hawaii, Department of Hawaiian Home Lands, Hawaii Climate Change Mitigation and Adaptation Commission, Environmental Caucus of the Democratic Party of Hawaii, Hawaii Reef and Ocean Coalition, Hawaii REALTORS, Ulupono Initiative, WAI: Wastewater Alternatives and Innovations, and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that thousands of cesspools in the State need to be converted to septic or aerobic treatment unit systems, or connected to a central sewerage system. Your Committee recognizes that affordability and technology options are crucial in reaching this goal. Your Committee believes that an innovative pilot program, as proposed by this measure, will lead to the wide implementation of new and cost-effective solutions.

Your Committee has amended this measure by:

- (1) Correcting a reference to the Hawaii State Constitution;
- (2) Inserting language to prevent the lapsing of funds from the appropriation for the pilot program before June 30, 2026;
- (3) Inserting language to ensure that the measure's appropriation from the water pollution control revolving fund will be made, notwithstanding section 342D-83, Hawaii Revised Statutes, or any other law to the contrary;
- (4) Changing the appropriations to unspecified amounts;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 285, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 285, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 969      Ways and Means on S.B. No. 262**

The purpose and intent of this measure is to appropriate moneys to support and expand physician residency training programs in state teaching hospitals; provided that the funding is matched dollar-for-dollar by private funding sources.

Your Committee received written comments in support of this measure from the Hawaii Primary Care Association and Hawaii Medical Association.

Your Committee received written comments on this measure from the University of Hawaii.

Your Committee finds that the medical residency programs supported by this measure will help address the State's critical physician workforce shortage and help ensure an adequate physician workforce to deliver statewide medical care, including care to underserved areas on neighbor islands.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 262, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 262, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 970      Ways and Means on S.B. No. 193**

The purpose and intent of this measure is to broaden the expertise of the State Fire Council.

More specifically, the measure adds to the membership of the State Fire Council, and to the membership of advisory committees that the Council may appoint, representatives from the Hawaii State Aircraft Rescue Fire Fighting Unit and the Division of Forestry and Wildlife of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, State Fire Council, and Honolulu Fire Department.

Your Committee finds that this measure's addition of members to the State Fire Council ensures that the Council's membership appropriately reflects all non-federal firefighting agencies in the State.

Your Committee has amended this measure by:

- (1) Clarifying in the measure's preamble that the State Fire Council is required, rather than authorized, to establish statewide qualifications for testing, certifying, and credentialing individuals who maintain and test fire safety equipment and systems; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 193, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 193, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 971 Ways and Means on S.B. No. 1598**

The purpose and intent of this measure is to help ensure water safety and quality in the County of Maui.

Specifically, this measure appropriates moneys to support water testing at the University of Hawaii Maui College.

Your Committee received written comments in support of this measure from the University of Hawaii.

Your Committee finds that there is currently only one water quality testing laboratory on the island of Maui, which is operated by the County of Maui and only serves the County of Maui's agencies. Other water quality testing samples must be sent to the island of Oahu and take up to twelve weeks to be returned. Your Committee further finds that the appropriation made by this measure will allow for faster water quality test results for Maui residents and communities.

Your Committee has amended this measure by:

- (1) Inserting a legislative finding that identifies water quality testing as a matter of statewide concern;
- (2) Clarifying the purpose of the appropriation;
- (3) Changing the amount of the appropriation from \$215,000 to an unspecified sum; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1598, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1598, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 972 Ways and Means on S.B. No. 1594**

The purpose and intent of this measure is to establish and appropriate moneys for a crisis intervention and diversion program within the Department of Health to divert persons in crisis from the criminal justice system to the appropriate health care system and services.

Your Committee received written comments in support of this measure from the Judiciary, Department of Health, Hawaii Substance Abuse Coalition, and three individuals.

Your Committee received written comments on this measure from the Honolulu Police Department.

Your Committee finds that establishing a crisis intervention and diversion program will help ensure that persons having mental illnesses or co-occurring mental illnesses and substance use disorders receive treatment for their conditions. This treatment can reduce or eliminate the person's reoccurring involvement with the criminal justice system.

Your Committee has amended this measure by:

- (1) Deleting the definition of "crisis center," and making other clarifying amendments, as recommended in written comments from the Department of Health;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1594, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1594, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 973 Ways and Means on S.B. No. 1592**

The purpose and intent of this measure is to better protect the State's seniors by combating fraudulent activities that target or exploit kupuna.

More specifically, the measure appropriates funds to the Executive Office on Aging for three additional staff positions within the State's Senior Medicare Patrol Program.

Your Committee received written comments in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, AARP Hawaii, Kupuna Caucus of the Democratic Party of Hawaii, Hawaii Family Caregiver Coalition, and one individual.

Your Committee received written comments on this measure from one individual.

Your Committee finds that the additional staff positions funded by this measure will enable the Senior Medicare Patrol Program to more effectively meet the rising demand for assistance resulting from increasing reports of fraud, medical billing errors, and abuse.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1592, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1592, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 974 Ways and Means on S.B. No. 1543**

The purpose and intent of this measure is to facilitate the public funding of candidate campaigns for elected office.

Specifically, the measure:

- (1) Establishes a comprehensive system of public financing for all candidates seeking election to state and county public offices, beginning with the 2024 general election year;
- (2) Requires the Campaign Spending Commission to submit to the Legislature two reports to facilitate the implementation of the measure; and
- (3) Appropriates moneys into and out of the Hawaii election campaign fund.

Your Committee received written comments in support of this measure from the Commission to Improve Standards of Conduct, a member of the Hawaii County Council, Common Cause Hawaii, Kauai Women's Caucus, the Friends of Makakilo, Kauhako Ohana Association, Hawaii Alliance for Progressive Action, Chamber Of Sustainable Commerce, Sierra Club of Hawaii, 350Hawaii, Democratic Party of Hawaii Education Caucus, Imua Alliance, League of Women Voters of Hawaii, Pono Hawaii Initiative, Our Revolution Hawaii, Global HOPE, LGF Consulting Hawaii, Hawaii Workers Center, HOPE Services Hawaii, Kihei Community Association, Hui Aloha Aina Women's Patriotic League, Free Access Coalition, Huli PAC, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Campaign Spending Commission, Our Hawaii, and Clean the Pacific.

Your Committee recognizes that the current campaign finance system is widely perceived to be favorable to wealthy donors who use campaign donations to unduly influence candidates and elected officials. Your Committee finds that a comprehensive system of public financing, as proposed by this measure, may help increase public confidence in the integrity of candidates and public office holders.

Your Committee has amended this measure by:

- (1) Postponing the commencement of the comprehensive system of public financing until the 2026 general election year;
- (2) For candidates for the Board of Trustees for the Office of Hawaiian Affairs:
  - (A) Increasing from fifty to one hundred the number of qualifying contributions;
  - (B) Increasing from \$20,000 to \$40,000 the amount of comprehensive public funds distributed to each qualifying candidate for each election cycle;
  - (C) Changing from \$13,400 to an unspecified sum the amount of comprehensive public funds distributed to each qualifying candidate for a primary election; and
  - (D) Changing from \$6,600 to an unspecified sum the amount of comprehensive public funds distributed to each qualifying candidate for a general election;
- (3) For candidates for the Office of Prosecuting Attorney of a county with a population of not less than one hundred fifty thousand but not more than 194,999:
  - (A) Establishing an unspecified number of qualifying contributions; and
  - (B) Establishing unspecified sums for the comprehensive public funds distributed to each qualifying candidate for each election cycle;
- (4) Providing that if a certified candidate is successful in the general election, the certified candidate shall return to the Hawaii election campaign fund all unexpended public funds within thirty days after the general election;
- (5) Postponing by two years the submission dates of the Campaign Spending Commission's two reports to the Legislature;
- (6) Changing the appropriations to unspecified amounts to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1543, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1543, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 975 Ways and Means on S.B. No. 1531**

The purpose and intent of this measure is to facilitate consideration of new treatments for certain mental health conditions.

Specifically, the measure establishes within the Department of Health, for administrative purposes only, the Beneficial Treatments Advisory Council, which shall:

- (1) Examine laws and information relating to mental health conditions and treatment;
- (2) Develop a strategic plan to ensure the availability of certain medications; and
- (3) Advise the Department on new and revised mental health treatment options.

Your Committee received written comments in support of this measure from the Office of Wellness and Resilience, Clarity Project, Aloha Integrative Mental Health, Kupuna Caucus of the Democratic Party of Hawaii, Hawaii Psychological Association, Malama Mushrooms, Beyond Mental Health, Honolulu Psychotherapy, and thirty individuals.

Your Committee received written comments on this measure from the Department of Health and one individual.

Your Committee recognizes that recent research on the use of alternative therapies to treat mental health disorders has shown promising outcomes. Your Committee finds that establishment of the Beneficial Treatments Advisory Council, as proposed by this measure, can provide an ongoing venue for a continuous review of current and future therapies.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

Your Committee notes that the Department of Health has requested further amendments to this measure, to authorize the Department to convene a temporary working group whenever the United States Food and Drug Administration makes a breakthrough therapy designation for any treatment intended for mental health and substance abuse.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1531, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1531, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 976 Ways and Means on S.B. No. 1518**

The purpose and intent of this measure is to increase the expediency and efficiency of small purchase procurements.

Specifically, this measure provides certain procurement exemptions for the Department of Education for the procurement of certain goods, services, and construction.

Your Committee received written comments in support of this measure from the Department of Education.

Your Committee received written comments in opposition to this measure from the State Procurement Office.

Your Committee finds that the exemptions granted to the Department of Education under this measure will provide the Department flexibility to procure educational materials in a more timely and less cumbersome manner. Your Committee further finds that this measure will allow the Department of Education to focus on innovating and engaging students through the use of technology as the education landscape rapidly evolves.

Your Committee has amended this measure by:

- (1) For clarity, integrating uncodified provisions in section 5 of the measure into the new Hawaii Revised Statutes sections created by sections 2 and 3 of the measure;
- (2) Clarifying that, upon the measure's repeal on June 30, 2026, section 103D-102, Hawaii Revised Statutes, shall be reenacted in the form in which it read on the day before the effective date of the measure;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1518, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1518, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 977 Ways and Means on S.B. No. 57**

The purpose and intent of this measure is to support the broader use of Hawaiian as one of the State's two official languages.

More specifically, the measure appropriates \$300,000 to the Judiciary to support its 'Ōlelo Hawai'i projects.

Your Committee received written comments in support of this measure from the Judiciary and Office of Hawaiian Affairs.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee finds that the Judiciary has begun to implement its 'Ōlelo Hawai'i program, which includes court interpretation, website translation, archival legal language research, and other services and resources for the public, and that this measure's appropriation will allow for the continuation and expansion of these important initiatives.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$300,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 57, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 57, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 978      Ways and Means on S.B. No. 261**

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to provide to beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended, a monthly accountability report that includes an accounting of certain expenditures relating to leases and fiscal matters.

Your Committee received written comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that transparency and accountability in the Department of Hawaiian Home Lands, which has certain trust responsibilities toward Native Hawaiian beneficiaries, are crucial for the fulfillment of those responsibilities. Your Committee also finds that the monthly accountability reports proposed by this measure may enhance transparency and accountability with regard to the Department's fiscal matters.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 261, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 261, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 979      Ways and Means on S.B. No. 832**

The purpose and intent of this measure is to facilitate the redevelopment of Hawaii's public schools.

Specifically, this measure:

- (1) Authorizes the School Facilities Authority to:
  - (A) Acquire real property from a county;
  - (B) Adopt administrative rules that supersede all other inconsistent ordinances and rules relating to the zoning of land and construction;
  - (C) Engage in commercial enterprise activities; and
  - (D) Manage the leasing and property management of housing projects;
- (2) Exempts the School Facilities Authority from county assessments and state taxes;
- (3) Authorizes state and county agencies to render services to the School Facilities Authority upon request of the Authority; and
- (4) Establishes a deadline for the transfer of properties from the City and County of Honolulu to the Department of Education pursuant to Act 206, Session Laws of Hawaii 2017, as amended by Act 272, Session Laws of Hawaii 2019.

Your Committee received written comments in support of this measure from the School Facilities Authority.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Budget and Finance, and Department of Land Management of the City and County of Honolulu.

Your Committee finds that authorizing the Authority to work with other state and county agencies and establishing a deadline for previously required land transfers will assist the Authority in effectuating its charge to redevelop the State's public schools into twenty-first century institutions.

Your Committee has amended this measure by:

- (1) Correcting the text of section 2 of Act 206, Session Laws of Hawaii 2017, as amended by section 4 of Act 272, Session Laws of Hawaii 2019, for consistency with the printed version of the Session Laws of Hawaii;

- (2) Correcting the name of Kahuku High and Intermediate School; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 832, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 832, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 980      Ways and Means on S.B. No. 1258**

The purpose and intent of this measure is to require that the Department of Land and Natural Resources develop and implement a management system for the Kaena Point State Park, Makua, and Keawaula regions, subject to certain conditions.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Hawaii State Aha Moku; Hawaii Iron Workers Stabilization Fund; Hydroponics Alternatives, LLC; Protectors of Paradise; and two individuals.

Your Committee finds that requiring the Department of Land and Natural Resources to develop and implement an improved management system for the Kaena Point State Park, Makua, and Keawaula regions will help to ensure that these areas are protected and made safer for current and future generations.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources is required to, among other things:
  - (A) Develop and implement an improved management system for the Kaena Point State Park, Makua, and Keawaula regions;
  - (B) Work with all parties having jurisdiction over the land and marine areas encompassed in the improved management system; and
  - (C) Determine whether proper measures have been employed to address and resolve certain issues;
- (2) Clarifying the areas to which the Department of Land and Natural Resources is required to limit access; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1258, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 981      Ways and Means on S.B. No. 1351**

The purpose and intent of this measure is to provide for the delivery of mental health services to certain children and infants.

More specifically, this measure:

- (1) Establishes the infant and early childhood mental health program to provide and support mental health services for children from birth to five years of age;
- (2) Requires the program to develop and implement strategies for the delivery of mental health services and workforce training and promote a better understanding of the needs of infants and young children, the importance of positive early relationships, and benefits of trauma-informed care; and
- (3) Appropriate moneys to the Department of Health for the establishment and operation of the program and the establishment of one permanent full-time equivalent (1.0 FTE) position.

Your Committee received written comments in support of this measure from the Department of Health; Early Learning Board; Executive Office on Early Learning; Office of the Governor; Office of Wellness and Resilience; Commit to Keiki; Early Childhood Action Strategy; Hawaii Association for Infant Mental Health; Hawaii Children's Action Network Speaks!; Hawaii Community Foundation; Hawaii Family Support Institute; Parents And Children Together; Rainbow School, Inc.; Samuel N. and Mary Castle Foundation; and three individuals.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that supporting the emotional and social development of children in the State will help to increase parenting and child development knowledge and strengthen each affected family's ability to observe and respond to their child's needs.

Your Committee has amended this measure by:

- (1) Changing the appropriations of \$800,000 and \$1,700,000, respectively, to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1351, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1351, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 982      Ways and Means on S.B. No. 1527**

The purpose and intent of this measure is to ensure the safety of victims of domestic abuse, sexual offenses, or stalking.

More specifically, the measure:

- (1) Replaces the Office of the Lieutenant Governor with the Department of Law Enforcement as the governmental entity responsible for administering the Address Confidentiality Program for victims of domestic abuse, sexual offenses, or stalking, beginning January 1, 2024;
- (2) Establishes the Address Confidentiality Program Governance Committee within the Department of Law Enforcement; and
- (3) Appropriates unspecified funds for operating costs, equipment, and an unspecified number of full-time equivalent positions to support the Department of Law Enforcement in administering the Address Confidentiality Program.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor.

Your Committee received written comments on this measure from the Department of Law Enforcement.

Your Committee finds that the open and accessible nature of the Lieutenant Governor's office and State Capitol building creates safety concerns, and it would thus be more appropriate to house the Address Confidentiality Program within the Department of Law Enforcement, where offenders would be deterred from visiting.

Your Committee notes the written comments of the Department of Law Enforcement indicating that an appropriation of \$280,000, including funding for two full-time equivalent positions, should be sufficient for fiscal years 2023-2024 and 2024-2025.

Your Committee has amended this measure by:

- (1) Deleting Section 1 of the measure, which would have established an Address Confidentiality Program Governance Committee within the Department of Law Enforcement;
- (2) Allowing the Department of Law Enforcement to contract with a third party for program services involving mail forwarding and acceptance of service of legal process;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1527, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1527, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 983      Ways and Means on S.B. No. 1078**

The purpose and intent of this measure is to streamline and modernize the issuance and processing of traffic citations.

More specifically, the measure:

- (1) Establishes a statewide electronic citation program within the Judiciary and requires the Judiciary to adopt procedures to implement the program;
- (2) Appropriates unspecified sums to the Judiciary for the establishment, implementation, operation, oversight, and repair and maintenance of a statewide electronic citation program;
- (3) Appropriates \$51,024 to the Judiciary for the establishment of one permanent full-time equivalent accountant position; and
- (4) Appropriates unspecified sums to the police departments of the Counties of Maui, Hawaii, Kauai, and the City and County of Honolulu as grants-in-aid for the establishment, implementation, operation, oversight, and repair and maintenance of a statewide electronic citation program.

Your Committee received written comments in support of this measure from the Department of Transportation, County of Hawaii Police Department, and one individual.

Your Committee received written comments on this measure from the Judiciary.

Your Committee finds that the statewide electronic citation program established by this measure will provide numerous benefits to law enforcement agencies, the Judiciary, and the general public, including improved efficiency and accuracy in the issuance of traffic citations and in related data entry and record management processes. Your Committee further finds that the resulting streamlined processes will allow law enforcement agencies to direct more resources toward other important matters, such as responding to community concerns.

Your Committee notes the written comments of the Judiciary indicating that:

- (1) An estimated \$370,000 is needed for the one-time cost of fully integrating electronic citations within the Judiciary Information Management System;
- (2) An estimated \$25,000 is needed annually for the recurring cost for licenses of FileNet, the Judiciary's document management system, to enable staff of the Traffic Violations Bureau to verify that documents received from county police departments are properly uploaded to the Judiciary's system; and
- (3) \$68,556 is needed to fund one permanent project specialist position, in lieu of the accountant position established in Section 8 of the measure.

Your Committee has amended this measure by:

- (1) Changing the title of the permanent full-time equivalent position established within the Judiciary in Section 8 of the measure from "accountant" to "project specialist" and changing the amount appropriated for the new position from \$51,024 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1078, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 984      Ways and Means on S.B. No. 1082**

The purpose and intent of this measure is to provide for the modernization of paid public parking.

More specifically, this measure:

- (1) Requires that, beginning January 1, 2025:
  - (A) All parking lots in the State containing paid public parking spaces accept payment by credit card or debit card; and
  - (B) All parking meters be maintained in working order to accept payment by credit card or debit card; and
- (2) Requires the Department of Accounting and General Services and each county to submit an annual progress report to the Legislature.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services and Department of Transportation Services of the City and County of Honolulu.

Your Committee finds that the decreased use of cash and coins throughout the State necessitates the implementation of public parking systems that accept credit cards and debit cards.

Your Committee has amended this measure by:

- (1) Clarifying the contents of the required annual reports to the Legislature;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1082, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 985      Ways and Means on S.B. No. 1091**

The purpose and intent of this measure is to facilitate the repair and maintenance of roads in the State.

More specifically, this measure authorizes certain counties to use county surcharge on state tax revenues and fuel tax revenues for the repair and maintenance of private roadways that are open to and used by the public.

Your Committee received written comments in support of this measure from a member of the Hawaii County Council, Friends of Puna's Future, and five individuals.

Your Committee received written comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that, in certain areas of the State, private subdivisions struggle to adequately fund road maintenance, due to current constraints on counties that prevent the expenditure of public funds on private roads. Your Committee also finds that, in these areas, many private roads serve as important routes for first responders, public transportation, and emergency services. Your

Committee further finds that the lack of maintenance on these roads creates a public safety hazard, not only for the residents of these areas, but for everyone who relies on those roads.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1091, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 986      Ways and Means on S.B. No. 1099**

The purpose and intent of this measure is to amend the county surcharge on state tax.

More specifically, this measure:

- (1) Extends the period in which a county may adopt a surcharge on state tax, under certain conditions;
- (2) Authorizes the use of county surcharge revenues for affordable and workforce housing infrastructure in counties having a population of five hundred thousand or less; and
- (3) Authorizes, in all counties that adopt or have adopted a surcharge on state tax, the use of county surcharge revenues for housing infrastructure, including roadways, water, and sewer.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Maui, two members of the Maui County Council, Maui Hotel and Lodging Association, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure supports the development of affordable and workforce housing, which will allow skilled employees to remain in the State instead of leaving due to a lack of affordable housing options.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1099, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 987      (Joint) Judiciary and Ways and Means on S.B. No. 44**

The purpose and intent of this measure is to:

- (1) Create a minimum penalty of \$50 for every violation of the State Water Code;
- (2) Raise the maximum penalty to \$25,000 for every violation of the State Water Code;
- (3) Clarify that each day that a violation exists or continues is a separate offense; and
- (4) Require the Commission on Water Resource Management (Commission) to determine the amount of the penalty based on the circumstances of the violation.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committees find that this measure will support the Commission in its affirmative duty to protect, control, and regulate the use of Hawaii's water resources in accordance with article XI, section 7, of the Hawaii State Constitution. According to testimony received by your Committees, many violations of the State Water Code go unchecked due to the limited number of Commission staff. Your Committees further find that none of the staff at the Commission are dedicated solely to investigating and correcting violations of the State Water Code.

Accordingly, your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount to the Department of Land and Natural Resources for two full-time equivalent (2.0 FTE) general professional positions within the Commission to ensure compliance and enforce the State Water Code;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 44, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 44, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 13. Noes, none. Excused, none.

**SCRep. 988 (Joint) Judiciary and Ways and Means on S.B. No. 507**

The purpose and intent of this measure is to:

- (1) Add definitions for “floodway”, “natural stormwater infrastructure”, and “wetlands” to section 343-2, Hawaii Revised Statutes;
- (2) Require a proposed housing project of the Hawaii Housing Finance and Development Corporation that is exempt from all statutes, ordinances, charter provisions, and rules of any government agency relating to planning, zoning, and construction standards to ensure that the proposed project does not impact wetlands or natural stormwater infrastructure; and
- (3) Require an environmental assessment for actions under the environmental impact statements law that propose any development that would impact wetlands or natural stormwater infrastructure.

Your Committees received testimony in support of this measure from The Nature Conservancy, Wild Kids, and three individuals. Your Committees received testimony in opposition to this measure from the Office of the Governor and Hawai‘i YIMBY. Your Committees received comments on this measure from the Department of Health, Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, State Environmental Advisory Council, and Grassroot Institute of Hawaii.

Your Committees find that wetlands are some of the most productive and biodiverse habitats on the planet. Wetlands protect beaches against erosion, recharge aquifers, provide flood alleviation, support endangered species, and sequester carbon. Your Committees further find that the destruction of wetlands and waterways is a major concern because development in these areas leads to excessive flooding and inhibits the natural processes that filter sediments and nutrients from stormwater runoff before reaching coral reefs. This measure will establish an ahupuaa-based protection of wetlands and watersheds, and protect natural stormwater infrastructure.

Your Committees have amended this measure by:

- (1) Specifying that the definition of “wetlands” does not apply for the purposes of chapter 342D, Hawaii Revised Statutes;
- (2) Specifying that the development of exempt proposed housing projects shall not have a significant adverse impact on wetlands or natural stormwater infrastructure as defined in section 343-2, Hawaii Revised Statutes;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 507, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 507, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 989 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1384**

The purpose and intent of this measure is to:

- (1) Amend chapter 202, Hawaii Revised Statutes, to be consistent with the General Appropriations Act of 2021, Act 88, Session Laws of Hawaii 2021;
- (2) Rename “Hawaii Workforce Development Council” to “Hawaii Workforce Development Board”;
- (3) Require the Hawaii Workforce Development Board and local workforce development boards to develop written conflict of interest policies consistent with federal law and regulations;
- (4) Require the Governor to select the chairperson of the Hawaii Workforce Development Board from among the seventeen private sector members;
- (5) Require the Hawaii Workforce Development Board to assist the Governor in the coordinating of local workforce development boards to improve and develop a statewide workforce development system; and
- (6) Repeal the requirement for the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the activities of the K-12 Agriculture Workforce Development Pipeline Initiative.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that nationwide state workforce development boards assist governors by reviewing statewide policies and programs, and making recommendations to align workforce, education, training, and employment funding programs in a state in a manner that supports a comprehensive and streamlined workforce development system in the state. As part of the statewide review function in assisting the governors, the federal Workforce Innovation and Opportunity Act and related regulations outline requirements

regarding conflicts of interest for recipients and subrecipients of federal awards as well as for state and local workforce development board and standing committee members. This measure will amend the Hawaii Workforce Development Council law to be consistent with the state budget as enacted in Act 88, Session Laws of Hawaii 2021, and to conform the State Workforce Development Board statute to the nomenclature and conflict of interest provisions found in the Workforce Innovation and Opportunity Act and related regulations in the Code of Federal Regulations.

Your Committees have amended this measure by:

- (1) Clarifying that there is established the Hawaii Workforce Development Board that shall be placed within the Department of Labor and Industrial Relations for administrative purposes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1384, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1384, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 990 (Majority) Judiciary on S.B. No. 151**

The purpose and intent of this measure is to:

- (1) Require any department or agency employing a law enforcement officer to maintain a publicly available policy that provides a minimum standard on the use of force;
- (2) Allow use of force policies and training to be considered in legal proceedings involving a law enforcement officer's use of force;
- (3) Require a law enforcement officer who observes the use of excessive force by another law enforcement officer to report the use of excessive force; and
- (4) Require that law enforcement officers receive training designed to minimize the use of force.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Kauai Police Department, and one individual. Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and one individual. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that ensuring that force used by officers in the performance of duties is proper, lawful, and necessary is crucial to provide for public safety and maintain the trust of the public. To that end, providing increased training and enacting policy and procedures regarding lawful use of force is necessary. This measure strengthens the laws that regulate police conduct in order to minimize the use of force.

Your Committee has amended this measure by:

- (1) Specifying that the division head shall complete an investigation and notify the chief of police of the respective county or the state department deputy director, as applicable, of the outcome of the investigation in writing;
- (2) Specifying that the chief of police or the state department deputy director who received the written notification shall notify the police commission of the respective county or the state department director, as applicable, of the outcome of the investigation in writing;
- (3) Specifying that if the department head is the subject of the use of force report, the reporting officer shall report directly to the police commission of the respective county or the state department director, as applicable, within seven days of observing the use of force, and the police commission or the state department director shall complete an investigation;
- (4) Deleting language that would have required that the investigation of the department head be completed within fifteen days;
- (5) Clarifying that any police commission or state department director who receives a report of use of force shall begin conducting an investigation as soon as practicable and reach a timely determination on the merits; and
- (6) Adding definitions for "department head" and "division head".

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 151, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 151, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 991 Ways and Means on S.B. No. 1101**

The purpose and intent of this measure is to conform statutes relating to state debt limit statements to include tax increment bonds if a constitutional amendment authorizing the use of tax increment bonds, and excluding tax increment bonds from determination of the counties' funded debt, is ratified.

Your Committee received testimony in support of this measure from the Department of Transportation and Office of Planning and Sustainable Development.

Your Committee received written comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that tax increment financing allows a portion of property taxes in excess of a base assessed value to be dedicated to finance the costs of a project through the issuance of bonds.

Your Committee has amended this measure by:

- (1) Deleting provisions of the bill amending state debt limit statement laws;
- (2) Inserting provisions that amend Chapter 47C, Hawaii Revised Statutes, relating to the indebtedness of the counties, to allow counties to exclude tax increment bonds from the debt limit of the counties; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1101, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 992      Ways and Means on S.B. No. 1139**

The purpose and intent of this measure is to require rental housing projects to maintain, in perpetuity, fifty percent of the project's units for certain low-income tenants in order to be eligible for the Hawaii Housing Finance and Development Corporation's rental assistance program.

Your Committee received written comments in opposition to this measure from the Hawaii Housing Finance and Development Corporation; Affordable Housing Connections, LLC; and the Hawaii chapter of NAIOP.

Your Committee finds that the requirements established by this measure will help the State create and maintain an inventory of affordable rental units for persons who are receiving, or are eligible to receive, rental assistance.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1139, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 993      Ways and Means on S.B. No. 1141**

The purpose and intent of this measure is to facilitate the administration of workers' compensation matters for the Hawaii State Public Library System.

Specifically, the measure:

- (1) Transfers to the Department of Human Resources Development all rights, powers, functions, duties, and resources of the Department of Education relating to workers compensation for the Hawaii State Public Library System and its employees; and
- (2) Appropriates moneys to the Department of Human Resources Development for the administration and costs of workers compensation for the Hawaii State Public Library System.

Your Committee received written comments in support of this measure from the Hawaii State Public Library System.

Your Committee finds that since 2012, the Department of Human Resources Development has managed and administered the workers' compensation claims of the public library employees through memoranda of agreement, but the Department of Human Resources Development has not received any additional staff or funding from the Department of Education for these administrative responsibilities. Your Committee finds that the official transfer of duties and related appropriations, as proposed by this measure, will help the Department of Human Resources Development more effectively fulfill these responsibilities.

Your Committee recognizes that the Hawaii State Public Library System has requested that, if its budget for workers' compensation claims and payments is transferred to the Department of Human Resources Development, approximately \$50,000 remain with the System to address workers' compensation claims for employees that are currently processed through the State payroll system.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1141, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 994 Ways and Means on S.B. No. 1153**

The purpose and intent of this measure is to provide for the conservation of Honolua Bay.

More specifically, this measure:

- (1) Establishes the Honolua Bay Advisory Board to administer the Honolua Bay special fund and oversee the conservation of Honolua Bay;
- (2) Establishes the Honolua Bay special fund;
- (3) Requires the Department of Land and Natural Resources to include and incorporate Honolua Bay into the Division of State Parks' online reservation system;
- (4) Exempts the Honolua Bay special fund from departmental administrative expense requirements; and
- (5) Appropriates moneys to the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from Hawaii State Aha Moku and one individual.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources; Crystal Seahorse, Ltd.; Kapalua Kai Sailing, Inc.; and two individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that that establishing an advisory board to oversee the conservation of Honolua Bay will help to appropriately safeguard the bay.

Your Committee has amended this measure by:

- (1) Clarifying the membership of the Honolua Bay Advisory Board;
- (2) Clarifying the appointing authority for certain members of the advisory board;
- (3) Requiring the Department of Land and Natural Resources to create, maintain, and operate an online reservation system to limit public access to Honolua Bay or include or incorporate Honolua Bay into the Division of State Parks' online reservation system;
- (4) Clarifying that the advisory board is required to establish a permit structure for Honolua Bay that is modeled after the permit structure used for Waianapanapa State Park; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1153, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1153, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 995 Ways and Means on S.B. No. 1158**

The purpose and intent of this measure is to provide police officers who become members of the Employees' Retirement System after June 30, 2023, with retirement benefits similar to those provided for members of the Employees' Retirement System who became members before July 1, 2012.

Your Committee received written comments in support of this measure from the Maui Police Department and one individual.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance and Employees' Retirement System.

Your Committee received written comments on this measure from the State of Hawaii Organization of Police Officers and Grassroot Institute of Hawaii.

Your Committee finds that county police departments currently face officer shortages. Your Committee believes that the prospect of enhanced retirement benefits, as proposed by this measure, may incentivize qualified individuals to apply for and fill these vacancies.

Your Committee recognizes that the Department of Budget and Finance expressed concerns that the measure will significantly increase annual fringe benefit costs for public employers in the future and set a precedent for other employee groups to request the same benefit amendment. The Department further commented that the measure represents a setback to efforts to address the State's unfunded actuarial accrued liabilities, which, combined with the increased annual fixed cost requirements burdening the State's budget, will negatively impact the State's credit ratings.

Your Committee also recognizes that the Employees' Retirement System raised concerns similar to those of the Department of Budget and Finance. The System also opined that the measure violates section 88-99, Hawaii Revised Statutes, which imposes a moratorium on enhanced benefits until the the actuarial value of the system's assets is one hundred percent of the system's actuarial accrued liability. The System further commented that the measure will provide new officers with better benefits than members hired between July 1, 2012, and the measure's effective date.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1158, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 996 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 77**

The purpose and intent of this measure is to:

- (1) Before the transfer of non-agricultural park lands, authorize the Department of Agriculture to request information from the Department of Land and Natural Resources related to the establishment of necessary and reasonable easements upon the lands;
- (2) Amend legislative findings regarding non-agricultural park lands;
- (3) Delete the requirements that the Board of Land and Natural Resources approve and that it and the Board of Agriculture mutually agree in order to transfer non-agricultural park lands;
- (4) Require the Department of Agriculture to accept the transfer of and manage certain qualifying non-agricultural park lands;
- (5) Require the Department of Agriculture, prior to offering a lease, to inquire with the Department of Land and Natural Resources regarding any easements required for access to landlocked forest reserves or other assets on the lands subject to the lease;
- (6) Continue to require the lessee to maintain a conservation plan; and
- (7) Require approval from the Board of Land and Natural Resources and the Board of Agriculture before removing pasture lands for reforestation, or other public purposes.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc.; Larry Jeffs Farms LLC; Ponoholo Ranch Limited; Kealia Ranch; Local Food Coalition; Hawaii Fish Company Inc.; Ulupono Initiative; Hawai'i Farm Bureau; Land Use Research Foundation of Hawaii; Kapāpala Ranch; McCandless Ranch; Hawaii Sustainable Beef Enterprises; and thirteen individuals. Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawaii's Thousand Friends, The Nature Conservancy, Sierra Club of Hawai'i, Conservation Council for Hawai'i, Ahahui Malama I Ka Lokahi, Environmental Caucus of the Democratic Party of Hawai'i, HECA Carbon Sequestration Task Force, and seven individuals. Your Committees received comments on this measure from the Department of Agriculture and Office of Hawaiian Affairs.

Your Committees find that Act 90, Session Laws of Hawaii 2003 (Act 90), was enacted to transfer certain non-agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture. In 2021, the Act 90 Working Group, established by Act 139, Session Laws of Hawaii 2021, determined that lands under the Department of Land and Natural Resources used for the primary purpose of agricultural production should be transferred to the Department of Agriculture following the conditions and procedures set out by Act 90. While parcels totaling approximately forty thousand acres have been transferred since 2003, many others have not been transferred. This measure will further facilitate land transfers.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 77, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.  
Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Lee, Moriwaki, Fevella).

**SCRep. 997 Judiciary on S.B. No. 89**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to comply with the rulemaking process of chapter 91, Hawaii Revised Statutes (HRS), when designating marine management areas.

Your Committee received testimony in support of this measure from the Ocean Tourism Coalition and five individuals. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that section 188-53, HRS, does not expressly require the Department of Land and Natural Resources to comply with the rulemaking requirements of chapter 91, HRS, when designating fishery management areas. Your Committee believes that, although the Department of Land and Natural Resources has historically complied with chapter 91, HRS, when designating fishery management areas, it is important to specifically require that the Department continues to comply with these rulemaking processes to ensure that the designation process is transparent and fair. This measure will assure stakeholders that designated marine management areas are based on the best available science and are consistent with state and federal laws.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 89, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 998 Judiciary on S.B. No. 313**

The purpose and intent of this measure is to:

- (1) Reduce the number of members on the State Rehabilitation Council (Council) from twenty-one to fifteen; and
- (2) Authorize the Council to establish quorum and conduct business without regard to vacancies.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Health, State Rehabilitation Council, and Hawaii Disability Rights Center.

Your Committee finds that this measure aligns the State's statute regarding the membership size, determination of quorum, and term limits of the Council with federal requirements. This measure not only ensures that the Council can fulfill its duties and responsibilities, but also that the State retains federal funding for vocational rehabilitation services.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 313 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 999      Ways and Means on S.B. No. 1136**

The purpose and intent of this measure is to require the Department of Land and Natural Resources to conduct a carrying capacity study of Makena State Park, located in the County of Maui.

Your Committee received written comments in support of this measure from the Office of the Mayor of the County of Maui; Sierra Club Maui; Maui Tomorrow Foundation, Inc.; and one individual.

Your Committee received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that access to Makena State Park has been a continuing concern for Maui residents due to increasing visitor use of the parking lot and grounds. Your Committee further finds that this measure will help to determine the appropriate levels of use of the park with consideration of the natural and cultural resources of the area.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1000      Ways and Means on S.B. No. 696**

The purpose and intent of this measure is to clarify the computation of wages of certain employees for the purpose of determining workers' compensation benefits.

More specifically, this measure:

- (1) Permits, rather than prohibits, the consideration of wages of other employees in comparable employment in computing the average weekly wages of an injured public board member, reserve police officer, police chaplain, sheriffs' chaplain, volunteer firefighter, volunteer boating enforcement officer, or volunteer conservation and resources enforcement officer; and
- (2) Clarifies the computation of an injured volunteer firefighter's average weekly wages for purposes of determining workers' compensation benefits.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that it is appropriate for injured public board members, reserve police officers, police chaplains, sheriffs' chaplains, volunteer firefighters, volunteer boating enforcement officers, or volunteer conservation and resources enforcement officers to be afforded equitable workers' compensation benefits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1001      Ways and Means on S.B. No. 597**

The purpose and intent of this measure is to amend the income tax law.

More specifically, this measure excludes from the state income tax income received from deferred compensation retirement plans by taxpayers who meet certain income requirements.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the intent of this measure is to address inequity in the taxation of retirement income, which results in many seniors in Hawaii struggling to make ends meet.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 597, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1002      Ways and Means on S.B. No. 481**

The purpose and intent of this measure is to amend testing and reporting requirements for the State's public schools.

Specifically, the measure:

- (1) Repeals standardized assessment requirements for students entering kindergarten; and
- (2) Requires the Department of Education to submit annual reports on data collected on early learning programs pursuant to section 302A-1166, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the University of Hawaii; Ke Kula 'O Nāwahīkalanī 'ōpu'u; 'Aha Pūnana Leo, Inc.; HE'E Coalition; and numerous individuals.

Your Committee received written comments on this measure from the Department of Education, Department of the Attorney General, Board of Education, Hawaii State Teachers Association, Hawaii State Public Charter School Commission, and one individual.

Your Committee finds that the reports required by this measure will provide the Legislature with relevant and important data regarding the State's early learning programs. Your Committee further finds that eliminating standardized assessments for students entering public kindergarten will help ensure that schools' time and resources are used effectively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 481, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (DeCoite).

**SCRep. 1003 Ways and Means on S.B. No. 460**

The purpose and intent of this measure is to appropriate moneys to the Office of Community Services of the Department of Labor and Industrial Relations to fund the costs of purchasing, storing, and transporting food for distribution to food banks in the State.

Your Committee received written comments in support of this measure from the Department of Human Services; Hawaii Office of Community Services; Hawaii Primary Care Association; Hawaii Children's Action Network Speaks!; Hawaii Food Industry Association; Hawaii Hunger Action Network; Hawaii Farm Bureau; Waianae Coast Community Foundation; Angel Network Charities; Ulupono Initiative; Hawaii Foodbank; The Food Basket, Inc.; St. Elizabeth's Church; and four individuals.

Your Committee finds that the State's food banks are a critical safety net in Hawaii's food and disaster response system. The moneys appropriated by this measure will help ensure that the food banks may continue to serve the State's communities efficiently and effectively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 460, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 1004 Ways and Means on S.B. No. 163**

The purpose and intent of this measure is to appropriate moneys for the Executive Office on Aging's Alzheimer's disease and related dementias public health campaign.

Your Committee received written comments in support of this measure from AARP Hawaii; Alzheimer's Association; Hawaii Family Caregiver Coalition; Hawaii Iron Workers Stabilization Fund; Hawaii Primary Care Association; Hawaii Psychological Association; National Association of Social Workers, Hawaii Chapter; The Hawaiian Islands Association for Marriage and Family Therapy; The Kupuna Caucus of the Democratic Party of Hawaii; United Public Workers; and numerous individuals.

Your Committee received written comments on this measure from the Executive Office on Aging of the Department of Health.

Your Committee finds that increasing the public's awareness of early diagnosis of Alzheimer's disease and related dementias will help affected residents to mitigate the severity of these illnesses and allow their families to plan better care for their affected loved ones.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 163, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1005 (Majority) Ways and Means on S.B. No. 1167**

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to protect an individual's reproductive freedom in their most intimate decisions, including the right to abortion and contraceptives.

Your Committee received written comments in support of this measure from the Hawaii Civil Rights Commission, Imua Alliance, Education Caucus of the Democratic Party of Hawaii, Stonewall Caucus of the Democratic Party of Hawaii, Save Medicaid Hawaii, and nine individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Family Forum, Hawaii Catholic Conference, Hawaii Women Lawyers, and numerous individuals.

Your Committee finds that the constitutional amendment proposed in this measure will serve as a strong reaffirmation of the express right to privacy already guaranteed in the Hawaii State Constitution.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1167, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, 1 (Fevella). Excused, none.

**SCRep. 1006 Ways and Means on S.B. No. 1247**

The purpose and intent of this measure is to require the Hawaii State Energy Office to enter into a public-private partnership to develop a waste-to-energy generating facility.

Your Committee received written comments in support of this measure from the Hawaii Iron Workers Stabilization Fund, IBEW Local Union 1186, Operating Engineers Local 3 - Hawaii, and one individual.

Your Committee received written comments in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawaii, 350Hawaii, Climate Protectors Hawaii, Kauai Climate Action Coalition, Zero Waste Kauai, Zero Waste Oahu, Sierra Club of Hawaii, Covanta, Kauai Women's Caucus, and seven individuals.

Your Committee received written comments on this measure from the Department of Public Safety, Hawaii State Energy Office, and Hawaiian Electric.

Your Committee finds that engaging with private partners to fund a waste-to-energy generating facility will positively leverage state resources and facilitate collaboration to help improve Hawaii's energy efficiency.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1247, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1247, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1007 Ways and Means on S.B. No. 1254**

The purpose and intent of this measure is to establish the Kaiwi Coast State Park.

More specifically, this measure:

- (1) Designates lands within the Kaiwi Coast State Park as conservation land to be preserved in perpetuity in a wild and natural state;
- (2) Designates certain lands within the Kaiwi State Scenic Shoreline as the Kaiwi Coast State Park;
- (3) Establishes full-time positions within the Department of Land and Natural Resources to support proper land and parks management at the Kaiwi Coast and other areas; and
- (4) Appropriates moneys for the establishment, planning, and design of the Kaiwi Coast State Park and Maunaloa-Makapuu scenic byway improvements.

Your Committee received written comments in support of this measure from Friends of Hanauma Bay; Hawaii Bicycling League; Ka Iwi Coalition; Livable Hawaii Kai Hui; Sierra Club of Hawaii; Surfrider Foundation, Hawaii Region; and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that establishing the Kaiwi Coast State Park and requiring that park lands remain undeveloped in perpetuity will help to ensure that the Kaiwi Coast's ecological and cultural character remains intact for current and future generations.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1254, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1254, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 1008 Ways and Means on S.B. No. 1296**

The purpose and intent of this measure is to meet federal statutory requirements for designation as an Economic Development District by establishing an economic development district planning organization within the Department of Business, Economic Development, and Tourism Office of Planning and Sustainable Development.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; Hawaii Island Economic Development Board; and Maui Chamber of Commerce.

Your Committee finds that the Economic Development District designation facilitated by this measure will give the Department of Business, Economic Development, and Tourism; other state agencies; and non-profit organizations in the State access to federal resources, including federal funds, that are only available to formally designated Economic Development Districts.

Your Committee has amended this measure by:

- (1) Clarifying that the two full-time equivalent economic development planning analyst positions created by the measure should be hired without regard to Chapters 76 and 89, Hawaii Revised Statutes;
- (2) Changing the amount of the appropriation from \$200,000 to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1296, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1296, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 1009 Ways and Means on S.B. No. 1297**

The purpose and intent of this measure is to establish a public policy framework to address the State's goals in the area of economic diversification.

Specifically, the measure:

- (1) Appropriates moneys to the Hawaii Technology Development Corporation to implement specific projects that address the State's economic diversification goals;
- (2) Requires the Hawaii Technology Development Corporation to submit annual reports to the Legislature;
- (3) Authorizes the Hawaii Technology Development Corporation to temporarily re-establish the Hawaii Office of Naval Research Grant Program to provide fifty percent matching grants to Hawaii awardees of alternative energy research grants from the Department of Defense Office of Naval Research; and
- (4) Establishes and appropriates moneys into, and out of, the Alternative Energy Research and Development Revolving Fund.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Department of Business, Economic Development, and Tourism; Hawaii County Councilmember for District 5; Makai Ocean Engineering, Inc.; HIplan; Guide Star Engineering, LLC; Experiad Solutions; Chamber of Commerce Hawaii; Maui Brewing Co.; Oceanic Imaging Consultants; Pacific Asian Center for Entrepreneurship; Hawaii Venture Capital Association; Mana Up; Blue Startups; Hawaii Island Economic Development Board; Purple Maia Foundation; Hawaii Fish Company, Inc.; Tea Hawaii & Company; VisSidus Technologies, Inc.; Hub Coworking Hawaii; HNu Photonics; Nalu Scientific, LLC; Hyperspective Studios, Inc.; Elemental Excelerator; Hawaiian Vinegar & Spice Company; Hawaii Hui, LLC; and three individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that this measure provides a framework to accelerate the State's economic diversification efforts through substantial, strategic, coordinated investments that align individual projects with larger State objectives.

Your Committee notes that Oceanit requested in written comments that the matching grant fund be increased to \$5,000,000.

Your Committee has amended this measure by:

- (1) Amending the composition of the Hawaii Technology Development Corporation Board of Directors to include the Chairperson of the Board of Regents of the University of Hawaii, unless the Chairperson, with the approval of the Board of Regents and subject to quorum and majority requirements, designates another Regent to serve;
- (2) Amending sunset dates to establish the Hawaii Office of Naval Research Grant Program as a three-year program, rather than a two-year program;
- (3) Changing the appropriation amounts to unspecified sums;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical, nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1297, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1297, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 1010 Ways and Means on S.B. No. 1287**

The purpose and intent of this measure is to provide resources for the upkeep of state facilities.

More specifically, the measure appropriates an unspecified sum to the Department of Business, Economic Development, and Tourism to renovate its offices on the fifth floor of the No. 1 Capitol District Building located at 250 South Hotel Street in Downtown Honolulu.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Green Infrastructure Authority.

Your Committee finds that the entire fifth floor of the No. 1 Capitol District Building needs to be completely renovated due to health and safety concerns and deteriorating conditions, and that the appropriation made by this measure is needed to cover renovation-related expenses not included in the building renovation contract, such as moving and storage of items, replacement of partitions and furniture, and temporary office rental and relocation expenses.

Your Committee notes the written comments of the Department of Business, Economic Development, and Tourism requesting \$660,000 for expenses not included in the renovation contract.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1287, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1011 Ways and Means on S.B. No. 1206**

The purpose and intent of this measure is to encourage the development of housing projects in the State.

More specifically, this measure authorizes the Director of Finance to exempt a depository from the requirement to pay all deposits of public funds upon demand, under the condition that the depository has provided loans with below-market interest rates and longer terms for housing projects where all dwelling units are exclusively reserved for owner-occupants who own no other real property and are residents of the State.

Your Committee received written comments on this measure from the Department of Budget and Finance and Department of Commerce and Consumer Affairs.

Your Committee notes the concerns expressed by the Department of Budget and Finance that the measure has the potential to cause substantial portions of the state treasury to become illiquid, which would hinder the State's ability to pay its obligations. The Department of Budget and Finance further stated that the measure could allow financial institutions to withhold the State's cash on deposit and possibly prevent the payment of state checks, should the Director of Finance grant them an exemption.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1206, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1206, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1012 Ways and Means on S.B. No. 1166**

The purpose and intent of this measure is to allow for the renewal of driver's licenses by mail or online.

Your Committee received written comments in support of this measure from three individuals.

Your Committee received written comments on this measure from the City and County of Honolulu Department of Customer Services.

Your Committee finds that allowing driver's licenses to be renewed online will make renewal more convenient and reduce wait times at satellite city halls.

Your Committee has amended this measure by:

- (1) Clarifying that online renewal applicants are required to provide a medical statement, notarized statement, and other information to confirm the applicant's identity, as recommended in written comments from the City and County of Honolulu Department of Customer Services; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1166, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1013 Ways and Means on S.B. No. 1151**

The purpose and intent of this measure is to increase accessibility to higher education at the State's community colleges.

Specifically, this measure exempts University of Hawaii community college students enrolled in certificate programs from the requirement to complete the Free Application for Federal Student Aid (FAFSA) each academic year to be eligible for the Hawaii Community College Promise Program.

Your Committee received written comments in support of this measure from the University of Hawaii, State Council on Developmental Disabilities, Disability and Communication Access Board, and University of Hawaii Professional Assembly.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that requiring students to complete the Free Application for Federal Student Aid in order to be eligible for the Hawaii Community College Promise Program may act as a barrier for students pursuing post-graduate certificates, including students with developmental disabilities. Your Committee further finds that the exemption provided under this measure will help to increase access to higher education.

Your Committee has amended this measure by:

- (1) Declaring that access to the Hawaii Community College Promise Program is a matter of statewide concern;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1151, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1151, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1014 Ways and Means on S.B. No. 1145**

The purpose and intent of this measure is to require housing projects developed by the Hawaii Housing Finance Development Corporation to be subject to a restrictive covenant that requires units designated as affordable housing to remain as affordable housing in perpetuity.

Your Committee received written comments in support of this measure from three individuals.

Your Committee received written comments in opposition to this measure from NAIOP Hawaii; Stanford Carr Development, LLC; Highridge Costa; Housing Hawaii's Future; Affordable Housing Connections, LLC d/b/a AHC Hawaii; and one individual.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation, Department of Land and Natural Resources, and Maui Chamber of Commerce.

Your Committee finds that when the Hawaii Housing Finance and Development Corporation or another entity develops affordable housing that is exempt from the various planning, zoning, and construction laws pursuant to section 201H-38, Hawaii Revised Statutes, requiring those housing units developed to remain affordable in perpetuity will help to increase the supply of affordable housing statewide.

Your Committee has amended this measure by:

- (1) Specifying that the exemptions authorized by section 201H-38, Hawaii Revised Statutes, do not apply to any housing development within a special flood hazard area as identified on the current Federal Emergency Management Agency's flood insurance rate maps;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1145, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1015 Ways and Means on S.B. No. 1163**

The purpose and intent of this measure is to appropriate moneys for the operational expenses of the Hawaii Wing of the Civil Air Patrol.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that the appropriation made by this measure will help civilian auxiliary aviation operations provide flight operations and training in support of state and county civil defense agencies.

Your Committee has amended this measure by:

- (1) Clarifying that the appropriation is for civilian auxiliary aviation operations of the type performed by the Civil Air Patrol, including search and rescue, damage assessments, aerial photography of impacted areas, alerts and notifications, and transportation of supplies, as recommended in written comments from the Department of the Attorney General;

- (2) Changing the amount of the appropriation from \$150,000 to an unspecified sum;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1163, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1016 Ways and Means on S.B. No. 1215**

The purpose and intent of this measure is to help address the State's shortage of healthcare workers.

Specifically, this measure amends the preceptor tax credit law by:

- (1) Amending the definitions of "preceptor" and "volunteer-based supervised clinical training rotation" to increase accessibility to the tax credit;
- (2) Adding physician assistants, social workers, and licensed dietitians to the list of preceptors;
- (3) Amending the definition of "eligible student" to include physician assistant students, dietitian students, and social work students; and
- (4) Adding the Director of Health to the preceptor credit assurance committee.

Your Committee received written comments in support of this measure from the Department of Health, University of Hawaii, Hawaii Pacific Health, Hawaii Primary Care Association, Hawaii Association of Professional Nurses, Hawaii Pacific University Physician Assistant Program, Kaiser Permanente, Hawaii Academy of Physician Assistants, The Queen's Health System, Hawai'i Center for Nursing, and one individual.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the preceptor tax credit program promotes mentorship by experienced clinicians, which is a key aspect of medical training. Your Committee further finds that this measure amends certain provisions of the program to make the tax credit easier to access, thereby encouraging more healthcare professionals to serve as preceptors.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1215, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1215, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1017 Ways and Means on S.B. No. 1223**

The purpose and intent of this measure is to support agriculture in the State by providing assistance to an agricultural enterprise.

More specifically, the measure authorizes the Department of Budget and Finance, with the Governor's approval, to issue special purpose revenue bonds in a total amount not exceeding \$30,000,000 to assist MauiGrown Coffee, Inc. with the expanded operation of its coffee farm and mill in Puukoolii, Maui.

Your Committee received written comments in support of this measure from the Department of Agriculture; MauiGrown Coffee, Inc.; Hawaii Coffee Association; Hawaii Farm Bureau; and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure will reauthorize and renew a prior 2017 issuance of special purpose revenue bonds to assist MauiGrown Coffee, Inc., which lapsed on June 30, 2022, and that this measure's renewal of assistance for the Maui-based company to expand its operations will benefit the local coffee industry and enhance agricultural efforts in the State.

Your Committee has amended this measure by:

- (1) Changing the maximum bond issuance amount from \$30,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1223, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1223, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1018 Ways and Means on S.B. No. 1232**

The purpose and intent of this measure is to allow the Hawaii State Public Library System greater flexibility in certain aspects of its operations.

More specifically, the measure allows the state librarian to:

- (1) Impose and collect rates, rents, fees, fines, and charges for the use of state library facilities, provided that contracting for concessions within a library facility shall not be subject to the requirements of section 102-147, Hawaii Revised Statutes; and revise these rates, rents, fees, fines, and charges with the approval of the Board of Education; and
- (2) Prescribe procedures relating to certain costs, fines, and fees without regard to Chapter 91, Hawaii Revised Statutes.

Your Committee received written comments on this measure from the Hawaii State Public Library System.

Your Committee finds that this measure will simplify the Hawaii State Public Library System's process for updating fee schedules, which currently requires use of the administrative rulemaking process set forth in Chapter 91, Hawaii Revised Statutes, and thus would provide the public library system with the flexibility it needs to adjust its services in response to changing community needs.

Your Committee has amended this measure by:

- (1) Correcting an erroneous reference to section 102-147, Hawaii Revised Statutes, to instead reference section 102-14, Hawaii Revised Statutes, which authorizes registered and permitted blind or visually disabled persons to operate vending facilities and machines in public buildings;
- (2) Specifying that the statutory amendments made by this measure shall be repealed after five years;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1232, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1232, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1019 Ways and Means on S.B. No. 1240**

The purpose and intent of this measure is to provide the State with additional tools to help deter bribery and corruption.

Specifically, the measure:

- (1) Amends the offense of bribery to increase the maximum financial penalty to \$250,000;
- (2) Requires the Commission on Salaries to consider certain factors to retain qualified persons and to deter bribery and corruption; and
- (3) Amends the effective dates of salary increases recommended by the Commission on Salaries.

Your Committee received written comments on this measure from the Department of the Attorney General, Judiciary, and Department of Human Resources Development.

Your Committee finds that bribery severely harms the legislative process and breaches the public's trust in government. This measure provides salary incentives and additional prosecutorial tools, and allows judges to impose sanctions that are more severe, to help deter bribery and corruption.

Your Committee has amended this measure by:

- (1) Clarifying that a maximum fine of \$250,000 may be imposed for bribery, notwithstanding any law to the contrary, based on written comments from the Department of the Attorney General; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1240, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1020 Ways and Means on S.B. No. 1492**

The purpose and intent of this measure is to provide additional oversight and resources to help persons suffering from severe mental illness.

Specifically, the measure:

- (1) Requires the Department of Health to track and publicly report certain data relating to crisis reports, emergency mental health transports, and court-ordered treatments;

- (2) Requires the Department of Health to review reports of persons having severe mental illnesses who are in need of assistance; assess whether the person fulfills the criteria for assisted community treatment; and, if the person meets the criteria, initiate the process for an assisted community treatment order;
- (3) Establishes that a court's denial of a petition for involuntary treatment shall serve as notification to the Department of Health that the person should be evaluated for assisted community treatment;
- (4) Requires the Department of the Attorney General to assist with the preparation and filing of petitions for assisted community treatment and related court proceedings, unless the petitioner declines the assistance; and
- (5) Appropriates moneys to the Department of Health for software, data collection, and publication.

Your Committee received written comments in support of this measure from the Office of the Governor, Judiciary, Hawaii Substance Abuse Coalition, and one individual.

Your Committee received written comments on this measure from the Department of Health.

Your Committee finds that the data, oversight, and assistance required by this measure will help support the efforts of state agencies, service providers, and community stakeholders to expand the State's continuum of care for persons in crisis.

Your Committee notes that the Department of Health estimated in written comments that an appropriation of \$4,000,000 will be needed to implement the provisions of this measure.

Your Committee has amended this measure by:

- (1) Changing the amount of the appropriation from \$100,000 to an unspecified sum to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1492, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1492, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

#### **SCRep. 1021 Ways and Means on S.B. No. 1498**

The purpose and intent of this measure is to improve protections for wetland taro lands and ancient wetland agricultural structures.

Specifically, this measure:

- (1) Prohibits the Board of Land and Natural Resources from disturbing or acquiring for development certain wetland taro-growing lands;
- (2) Establishes a taro lands classification for public lands;
- (3) Permits structures for loi taro fields in the agricultural district;
- (4) Establishes growth and perpetuation of traditional Hawaiian crops as a goal of the Hawaii State Planning Act; and
- (5) Authorizes the Land Use Commission to create an inventory of taro lands.

Your Committee received written comments in support of this measure from Malama Kaua'i, Hawaii Farmers Union United, Food+Policy Internship, Hawai'i Alliance for Progressive Action, Malama Makua, and sixteen individuals.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs and one individual.

Your Committee finds that key structural elements for viable wetland taro production are currently at risk of being destroyed, severed, or built upon by private and public development because of gaps in land use, historic preservation, and planning laws and policies. Your Committee further finds that this measure will improve protections for taro growing lands, support taro farmers, and encourage the cultivation of an important Hawaiian staple food.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for the purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1498, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1498, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

#### **SCRep. 1022 Ways and Means on S.B. No. 1511**

The purpose and intent of this measure is to amend the purposes and powers of the Research Corporation of the University of Hawaii.

Specifically, this measure:

- (1) Clarifies the purposes of the Research Corporation of the University of Hawaii;
- (2) Amends certain powers of the Research Corporation of the University of Hawaii to better reflect those purposes;
- (3) Repeals the requirement that the University of Hawaii contract with the Research Corporation when the University of Hawaii determines that various other agencies cannot more effectively or efficiently accomplish certain research and training activities;
- (4) Requires the University of Hawaii to notify the exclusive representative of the appropriate bargaining unit to review conformance of positions with exceptions to collective bargaining for each project or program involving the Research Corporation and a state employee;
- (5) Limits the scope of the special accounts that the Research Corporation may establish to moneys received for research and training purposes;
- (6) Requires the Research Corporation to follow certain University of Hawaii administrative procedures for revolving fund service orders; and
- (7) Limits internal service orders and revolving accounts of the Research Corporation that use University intramural funds to certain projects and requires biannual reports to the Legislature.

Your Committee received written comments in support of this measure from the University of Hawaii and Hawaii Government Employees Association.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the Research Corporation of the University of Hawaii has gradually expanded its undertakings over the years beyond its original mandate. Your Committee further finds that this measure provides clarity to the Research Corporation of the University of Hawaii's purpose.

Your Committee has amended this measure by:

- (1) Clarifying that the purposes of the Research Corporation of the University of Hawaii include:
  - (A) Encouraging and aiding in the education or training of persons in the conduct of training, investigations, research, and study; provided that the persons being educated or trained are engaged in the conduct of research; and
  - (B) Assisting in the dissemination of knowledge from research studies by establishing staff positions, fellowships, scholarships, publications, and lectures;
- (2) Clarifying the allowable uses of internal service orders and revolving accounts that involve the use of University of Hawaii intramural funds;
- (3) Clarifying the dates on which certain biannual reports must be submitted to the Legislature;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1511, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1511, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

#### **SCRep. 1023 Ways and Means on S.B. No. 1520**

The purpose and intent of this measure is to require and appropriate moneys for the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and other related aspects of the State's hydrogen energy industry.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office; Department of Business, Economic Development, and Tourism; University of Hawaii; Sustainable Energy Hawaii; Servco; and two individuals.

Your Committee finds that the development of the Hawaii Pacific Hydrogen Hub, as supported by this measure, will help the State develop clean energy investments, well-paying jobs, and improved energy security.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1520, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1520, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1024 Ways and Means on S.B. No. 1534**

The purpose and intent of this measure is to help the State adapt to the increased adoption of new modes of transportation.

More specifically, this measure:

- (1) Replaces the \$50 annual vehicle registration surcharge fee with a state mileage-based road usage charge for certain electric vehicles; and
- (2) Repeals the existing State Highway Safety Council and establishes a new Hawaii Highway Safety and Modernization Council.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Hawaii EV Association, Kauai Climate ACTION Coalition, Ulupono Initiative, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Big Island Electric Vehicle Association, Climate Protectors Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that the establishment of a state mileage-based road usage charge for certain electric vehicles will help to address fuel tax revenue decreases by creating a more sustainable source of funding for the State's roadway maintenance costs.

Your Committee has amended this measure by:

- (1) Deleting the requirement that the state arborist serve as a member of the Hawaii Highway Safety and Modernization Council;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1534, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1534, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1025 Ways and Means on S.B. No. 1547**

The purpose and intent of this measure is to establish a food and product innovation network within the Agribusiness Development Corporation and to appropriate moneys for food and product innovation facilities on the islands of Molokai and Oahu.

Your Committee received written comments in support of this measure from the Agribusiness Development Corporation, Hawaii Department of Agriculture, University of Hawaii, Hawaii Farm Bureau, Hawaii Food Industry Association, Ulupono Initiative, and two individuals.

Your Committee finds that the creation of a food and product innovation network will allow the agencies and businesses involved in creating value-added products to share expertise, information, and ideas, and will help support entrepreneurs and spur statewide economic development.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1547, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1547, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1026 Ways and Means on S.B. No. 1551**

The purpose and intent of this measure is to establish and appropriate moneys for a supportive housing pilot program within the Statewide Office of Homelessness and Housing Solutions to provide housing and coordinated services for persons and families having special needs.

Your Committee received written comments in support of this measure from the Department of Public Safety, Hawaii Housing Finance and Development Corporation, Judiciary, State Procurement Office, Hawaii Public Housing Authority, State Council on Developmental Disabilities, Office of the Governor, Hawaii Substance Abuse Coalition, Catholic Charities Hawaii, AARP Hawaii, Hawaiian Humane Society, Hawaii State Coalition Against Domestic Violence, and numerous individuals.

Your Committee finds that the pilot program established and funded by this measure will provide housing and coordinated services to vulnerable populations, including persons who are chronically homeless, have disabilities, are transitioning from incarceration, and who suffer from a substance abuse disorder.

Your Committee has amended this measure by:

- (1) Changing the appropriation amounts to unspecified sums, to facilitate further discussion on the measure; and

- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1551, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1551, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1027 Ways and Means on S.B. No. 1552**

The purpose and intent of this measure is to address the impact of little fire ants.

Specifically, this measure appropriates moneys to the Department of Land and Natural resources to support the Hawaii Ant Lab in mitigating the effects of little fire ants in the State.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Kona Coffee Growers Association; Sage Farms Hawaii, LLC; Wakefield & Sons, Inc.; Hawaii Farm Bureau; Big Island Invasive Species Committee; Hawaii Ant Lab; Synergistic Hawaii Agriculture Council; and ten individuals.

Your Committee finds that little fire ants are an invasive species that have a painful sting and have caused significant disruption and economic damage to Hawaii. Your Committee further finds that the Hawaii Ant Lab was established to address the overwhelming need for research, advice, and technical assistance to address and eradicate rapidly spreading little fire ant infestations.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$550,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1552, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1552, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1028 Ways and Means on S.B. No. 1569**

The purpose and intent of this measure is to establish a temporary Telework Working Group.

Your Committee received written comments in support of this measure from the Department of Human Resources Development, Department of Human Services, Department of Labor and Industrial Relations, Office of Planning and Sustainable Development, Hawaii State Energy Office, and Hawaii Government Employees Association.

Your Committee finds that the establishment of a temporary working group to evaluate and address workplace issues related to telework will help the State assess the effectiveness of telework programs and identify where improvements are needed.

Your Committee has amended this measure by:

- (1) Providing that the Director of Business, Economic Development, and Tourism, or the Director's designee, shall serve on the telework working group, rather than the Director of the Office of Planning and Sustainable Development; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1569, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1569, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1029 Ways and Means on S.B. No. 1573**

The purpose and intent of this measure is to ensure the availability of water for the future development of affordable housing.

Specifically, this measure:

- (1) Establishes a working group within the Office of the Governor to:
  - (A) Inventory all available water resources statewide; and
  - (B) Streamline the well permit approval process to ensure an available water supply; and
- (2) Requires the working group to submit an interim report to the Legislature no later than September 15, 2023, and a final report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Housing and Community Development of the County of Hawaii, Department of Water Supply of the County of Hawaii, Hawaii REALTORS, and Natural Energy Laboratory of Hawaii Authority.

Your Committee received written comments on this measure from the Department of Land and Natural Resources

Your Committee finds that the State currently faces an acute shortage of affordable housing. Your Committee further finds that this ongoing crisis merits a thorough examination of every impediment to the development of affordable housing, including access to potable water.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1573, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1573, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1030 Ways and Means on S.B. No. 1588**

The purpose and intent of this measure is to assist Hawaii farmers in obtaining Good Agricultural Practices certifications.

Specifically, this measure appropriates funds for the establishment of a GroupGAP food safety training and certification program.

Your Committee received written comments in support of this measure from the Department of Education, University of Hawaii, Office of the Mayor of the County of Maui, North Shore Economic Vitality Partnership, Hawaii Farm Bureau, Ulupono Initiative, Hawaii Fish Company Inc., Hawaii Food+ Policy, and three individuals.

Your Committee received written comments on this measure from the Hawaii Department of Agriculture.

Your Committee finds that the GroupGAP program was created by the United States Department of Agriculture in 2015 to assist small farms with attaining Good Agricultural Practices certification. Your Committee further finds that the GroupGAP program reduces the cost of food safety certification by spreading the training, technical assistance, and auditing costs between all farms in the group.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$1,000,000 to an unspecified sum;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1588, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1588, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1031 Ways and Means on S.B. No. 1596**

The purpose and intent of this measure is to establish a pilot program to develop on-campus housing for teachers, staff, and administrators of Lahainaluna High School and Kulanihako'i High School.

Your Committee received written comments in support of this measure from the School Facilities Authority, Hawaii State Teachers Association, and a member of the Maui County Council.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that providing on-campus housing will help to recruit and retain teachers. Your Committee further finds that the School Facilities Authority does not have the expertise or authority to manage housing programs. Accordingly, the administration of on-campus housing should be assigned to the Hawaii Public Housing Authority following the completion of construction.

Your Committee has amended this measure by:

- (1) Specifying that the Hawaii Public Housing Authority shall administer the on-campus housing and assume any annual reporting responsibilities of the School Facilities Authority after construction is completed by the School Facilities Authority; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1596, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1596, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1032 Ways and Means on S.B. No. 1614**

The purpose and intent of this measure is to establish a new bargaining unit for adult corrections officers.

More specifically, this measure:

- (1) Establishes a separate bargaining unit for adult corrections officers of the Department of Public Safety's Corrections Division or its successor agency; and

(2) Transitions the affected personnel to the new bargaining unit (16).

Your Committee received written comments in support of this measure from the Department of Public Safety, United Public Workers, and four individuals.

Your Committee received written comments in opposition to this measure from the Department of Human Resources Development, Department of Public Safety, and one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that due to the unique challenges faced by, and needs of, adult corrections officers in the Department of Public Safety's Corrections Division, placing these officers into a separate bargaining unit is appropriate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1614, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1033 (Majority) Ways and Means on S.B. No. 1315**

The purpose and intent of this measure is to discontinue employer reimbursement of Medicare Part B income related monthly adjustment amounts for certain employees hired after June 30, 2023, and their spouses.

Your Committee received written comments in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund and the Department of Budget and Finance.

Your Committee received written comments in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee received written comments on this measure from the Hawaii Government Employees Association.

Your Committee finds that eliminating the Medicare Part B income related monthly adjustment amounts is consistent with the non-reimbursement for Medicare Part D premiums and will save the State an estimated \$400,000,000 over the next thirty years.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1315, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1315, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 1 (Fevella). Excused, 1 (Aquino).

**SCRep. 1034 Ways and Means on S.B. No. 1332**

The purpose and intent of this measure is to clarify the scope of the State's Comprehensive Emergency Management Plan and to increase the amount of state funds that may be made available for the purpose of matching federal disaster relief funds.

Your Committee received written comments in support of this measure from the Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu.

Your Committee finds that clarifying the scope of the State's Comprehensive Emergency Management Plan will support a more holistic and cost-effective approach to emergency management and disaster response and recovery. Your Committee also finds that increasing the amount of state moneys available for the purpose of matching federal disaster relief funds will further support cost-effective disaster recovery and resilience in the State's communities.

Your Committee has amended this measure by:

- (1) Appropriating \$12,000,000 to the Hawaii Emergency Management Agency for the planning and design of a new facility to be situated within the First Responders Technology Campus in Mililani, Oahu;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1332, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1332, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Aquino, DeCoite, Kidani).

**SCRep. 1035 Ways and Means on S.B. No. 1352**

The purpose and intent of this measure is to promote and encourage the development of affordable housing in the State.

Specifically, this measure:

- (1) Establishes the Rental Deposit Loan Program to help Hawaii residents provide security deposits for rentals;
- (2) Creates tax incentives for the development of affordable housing;

- (3) Addresses various government processes to lower housing construction costs;
- (4) Authorizes the Hawaii Housing Finance and Development Corporation to develop certain housing projects that are exempt from laws, rules, and ordinances, including income restrictions, under certain circumstances;
- (5) Authorizes the Department of Land and Natural Resources to retain a consultant to perform certain reviews;
- (6) Requires that laborers and mechanics employed for the construction of any public work project be paid no less than the prevailing wages, under certain conditions;
- (7) Requires that orders from the Governor to set aside public lands for the development of affordable housing contain a provision that the construction of the development shall be subject to Hawaii's wages and hours law for employees on public works;
- (8) Repeals the \$30,000,000 cap and contracting restriction on the general excise tax exemption for projects approved and certified by the Hawaii Housing Finance and Development Corporation; and
- (9) Appropriates funds for the establishment of the Rental Deposit Loan Program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Office of the Governor, a member of the Kauai County Council, Pacific Resource Partnership, and Hawaii Regional Council of Carpenters.

Your Committee received written comments on this measure from the Department of Taxation, Hawaii Housing Finance and Development Corporation, Tax Foundation of Hawaii, Maui Chamber of Commerce, and one individual.

Your Committee finds that requiring contractors to comply with wage and hour laws for all government housing construction projects will help to provide workers with a living wage and promote compliance with Hawaii employment laws.

Your Committee has amended this measure by:

- (1) Deleting sections 2 through 8 and section 13 from the measure;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Changing from \$30,000,000 to an unspecified amount the general excise tax exemption limit that the Hawaii Housing Finance and Development Corporation may approve and certify for a housing project;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1352, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1352, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (DeCoite).

**SCRep. 1036 Ways and Means on S.B. No. 55**

The purpose and intent of this measure is to amend the income tax credit for low-income household renters.

More specifically, this measure:

- (1) Increases the income thresholds and credit amounts of the income tax credit for low-income household renters by using tax brackets for individuals and different categories of households; and
- (2) Annually adjusts the income thresholds and credit amounts of the income tax credit for low-income household renters for inflation, based on the Consumer Price Index.

Your Committee received written comments in support of this measure from Catholic Charities Hawaii, Democratic Party of Hawaii Education Caucus, Hawaii Alliance for Community-Based Economic Development, Hawaii Alliance for Progressive Action, Hawaii Children's Action Network Speaks!, Imua Alliance, and four individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Taxation, Tax Foundation of Hawaii, and one individual.

Your Committee finds that the income tax credit for low-income household renters is intended to help alleviate the high cost of housing in the State. Your Committee also finds that, since 1989, the cost of housing has increased by three hundred ninety percent. Your Committee further finds that the income eligibility threshold of the income tax credit for low-income household renters was last adjusted in 1989 and the credit amount of the income tax credit for low-income household renters was last adjusted in 1981.

Your Committee notes that the Department of Taxation estimates that this measure will result in revenue losses of \$9,300,000 for Fiscal Year 2024, \$8,800,000 for Fiscal Year 2025, \$9,000,000 for Fiscal Year 2026, \$9,000,000 for Fiscal Year 2027, \$9,100,000 for Fiscal Year 2028, and \$9,100,000 for Fiscal Year 2029.

Your Committee has amended this measure by:

- (1) Clarifying that the income thresholds and credit amounts of the income tax credit for low-income household renters shall be adjusted for inflation on an annual basis;
- (2) Clarifying the names of the price indices to be used for the inflation adjustment;

- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 55, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 55, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1037 Ways and Means on S.B. No. 1398**

The purpose and intent of this measure is to conform Hawaii income and estate and generation-skipping transfer tax laws to the Internal Revenue Code.

Your Committee received written comments in support of this measure from the Department of Taxation.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation in compliance with section 235-2.5, Hawaii Revised Statutes, which requires the Department to annually submit a measure to maintain state income tax conformity with the federal Internal Revenue Code. This measure is also intended to comply with section 236E-4, Hawaii Revised Statutes, which requires the Department to annually submit a measure to maintain state estate and generation-skipping transfer tax conformity with the federal Internal Revenue Code. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

Your Committee has amended this measure by:

- (1) Making corrections to the quoted text of section 235-2.5, Hawaii Revised Statutes, in the measure to accurately reflect the printed version of the Hawaii Revised Statutes;
- (2) Clarifying that sections 3 and 4 of the measure shall apply to taxable years beginning after December 31, 2022;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1398, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1398, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1038 Ways and Means on S.B. No. 711**

The purpose and intent of this measure is to ensure gender parity in programming offered to incarcerated women and men in the State.

More specifically, the measure appropriates funds to the Hawaii Friends of Restorative Justice and Women's Prison Project as a grant under Chapter 42F, Hawaii Revised Statutes, to conduct a study of programming offered to persons incarcerated at correctional facilities and to convene a group of incarcerated women for the purpose of identifying gaps in programming offered to female inmates.

Your Committee received written comments in support of this measure from the Department of Public Safety, Women's Prison Project, and Stonewall Caucus of the Democratic Party of Hawaii.

Your Committee recognizes the apparent lack of parity in the range and quality of programming that is currently available to female and male inmates in the State, based upon information in a December 2021 report of the Department of Public Safety to the Legislature on gender responsive, community-based programs for women. Accordingly, your Committee finds that the activities funded by this measure are necessary to identify the scope of the issue and possible solutions.

Your Committee has amended this measure by:

- (1) Removing references to the Women's Prison Project in the measure's appropriation section;
- (2) Changing the appropriation from \$120,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 711, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1039 Ways and Means on S.B. No. 1470**

The purpose and intent of this measure is to enhance safety and promote accountability for staff and inmates in the State's correctional system.

More specifically, the measure:

- (1) Requires the Department of Public Safety, by July 1, 2024, to install digital cameras in all guard control rooms of correctional centers that house women, and requires the Department to ensure the documentation and accessibility of video evidence that may pertain to misconduct, negligent or abusive treatment, or criminal activity; and
- (2) Appropriates funds for the purchase and installation of the cameras.

Your Committee received written comments in support of this measure from the Department of Public Safety, Hawaii Correctional System Oversight Commission, United Public Workers, Opportunity Youth Action Hawaii, and six individuals.

Your Committee received written comments on this measure from the Community Alliance on Prisons.

Your Committee finds that requiring and funding the installation of video cameras in guard control rooms of correctional facilities that house women will improve conditions for both staff and inmates by helping to prevent and deter sexual assaults, movement of contraband, and other unlawful or inappropriate activities.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$100,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1470, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1470, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1040 Ways and Means on S.B. No. 1474**

The purpose and intent of this measure is to improve access to and the quality of long-term care services in the State.

Specifically, this measure appropriates moneys to the Department of Human Services for the achievement of full funding of Medicaid home- and community-based services.

Your Committee received written comments in support of this measure from the Executive Office on Aging, AARP Hawaii, The Kupuna Caucus of the Democratic Party of Hawaii, Hawaii Medical Service Association, ILWU Local 1000, Evergreen Adult Day Care, and five individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that Medicaid home- and community-based services provide critical services to low-income seniors and individuals with disabilities. Your Committee further finds that investing in these home- and community-based services will improve access to those services for seniors and individuals with disabilities, while also providing fair wages and career advancement opportunities for the workers who care for them.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1474, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1474, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1041 Ways and Means on S.B. No. 1486**

The purpose and intent of this measure is to prevent food waste and reduce food insecurity by expanding meat processing capacity in the State, including the processing of wild game.

More specifically, the measure:

- (1) Requires the Department of Agriculture, in collaboration with the Hawaii Interagency Council on Homelessness; Department of Land and Natural Resources, Division of Forestry and Wildlife; and Department of Health, Food Safety Branch; and in consultation with the County of Maui Axis Deer Task Force, to develop and implement a plan to expand the meat processing capacity in the State to allow for meat from axis deer and other wild game to be processed for distribution by nonprofit food distribution services by July 1, 2024; and
- (2) Appropriates funds to the Department of Agriculture for implementation of the plan.

Your Committee received written comments in support of this measure from the Department of Agriculture, Maui County Council, Hawaii Farm Bureau, Aina Ho'okupu o Kilauea, Maui County Farm Bureau, Hawaii Forest Industry Association, Hawaii Farmers Union United, Hawaii Cattlemen's Council, and eight individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that this measure's solution to two existing challenges--an overabundance of wild game and statewide food insecurity--by expanding the State's meat processing and distribution capacity, with assistance from community-based nonprofit food distribution organizations, will allow for more efficient distribution of available food resources to under-resourced communities.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of the measure is to appropriate funds to expand the State's meat processing and distribution capacity, including a donation program;
- (2) Clarifying that the deadline of July 1, 2024, is the date by which distribution of meat under the plan shall commence; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1486, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1486, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1042 Ways and Means on S.B. No. 1488**

The purpose and intent of this measure is to require the University of Hawaii College of Tropical Agriculture and Human Resources, in consultation with livestock industry stakeholders, to conduct a study to assess the effects of heat stress on beef cattle during interisland ocean transportation.

Your Committee received written comments in support of this measure from the Department of Agriculture; Animal Rights Hawaii; Hawaii Sustainable Beef, LLC; Hawaii Cattlemen's Council; Animal Welfare Institute; Hawaii Farm Bureau; Ponoholo Ranch, Ltd; and seven individuals.

Your Committee received written comments on this measure from the University of Hawaii.

Your Committee finds that the study required by this measure will help the State better understand the impacts of interisland ocean transport, as currently practiced, on animal welfare and meat quality and to develop practices that are best for the animals and the industry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1488, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1488, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1043 Ways and Means on S.B. No. 652**

The purpose and intent of this measure is to respond to threats posed by invasive species to the State's livestock ranching industry.

More specifically, the measure:

- (1) Appropriates unspecified funds to the Department of Agriculture to mitigate and control infestations of the two-lined spittlebug and undertake recovery efforts for lands damaged by the two-lined spittlebug; and
- (2) Requires the Department of Agriculture to submit a report to the 2023 Legislature.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; University of Hawaii; Haleakala Ranch; Larry Jefts Farms, LLC; McCandless Ranch; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council; Hawaii Forest Industry Association; Big Island Invasive Species Committee; Hawaii Farm Bureau; Ulupono Initiative; Hawaii Sustainable Beef Enterprises, LLC; Ponoholo Ranch, Ltd.; Kealia Ranch; and nine individuals.

Your Committee received written comments on this measure from the Department of the Attorney General and Department of Agriculture.

Your Committee finds that it is crucial to control infestations of the two-lined spittlebug, an invasive insect that has reduced the quality of forage pastures relied upon by the State's highly productive and extremely valuable livestock ranching industry, to protect jobs and food security in the State. However, your Committee also finds that the noticeable increase in the State's feral chicken, rooster, and pig populations raises various health and safety concerns, and that this measure should also provide for the mitigation and control of these additional threats.

Your Committee has amended this measure by:

- (1) Correcting an erroneous reference to the Regular Session of 2023 with respect to the deadline for the Department of Agriculture's report to the Legislature on two-lined spittlebug control and mitigation, and instead requiring the Department to submit an interim report to the 2024 Legislature and a final report to the 2026 Legislature;
- (2) Inserting new provisions that:
  - (A) Require the Department of Agriculture to establish a five-year pilot program to provide traps to members of the public to mitigate and control the State's feral chicken, rooster, and pig populations, and to submit an interim report to the 2026 Legislature and a final report to the 2028 Legislature; and
  - (B) Appropriate funds for the five-year pilot program;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 652, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 652, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1044 Ways and Means on S.B. No. 606**

The purpose and intent of this measure is to make hearing aids more affordable.

More specifically, this measure exempts from the general excise tax, gross receipts received by a hospital, infirmary, medical clinic, health care facility, pharmacy, or a practitioner licensed to administer drugs to an individual, from the sale of hearing aids.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, Kupuna Caucus of the Democratic Party of Hawaii, and eight individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that hearing is an important sense upon which an individual depends for communication. Your Committee also finds that adding the general excise tax to the cost of hearing aids may preclude people who rely on these devices from being able to afford them.

Your Committee notes the Department of Taxation's request that the measure take effect on January 1, 2024, to allow sufficient time to make necessary form and system changes.

Your Committee has amended this measure by adding a sunset date of January 1, 2026.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 606, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (DeCoite).

**SCRep. 1045 Ways and Means on S.B. No. 511**

The purpose and intent of this measure is to support local agricultural operations by exploring the use of alternative farm technology.

More specifically, the measure:

- (1) Requires the Department of Agriculture to establish a pilot program to identify and purchase the outer shell of small equipment tractors used in foreign agriculture, and attempt to retrofit their engines to comply with Environmental Protection Agency standards;
- (2) Requires the Department of Agriculture to submit a report to the 2024 Legislature; and
- (3) Appropriates funds for the pilot program.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau, Land Use Research Foundation of Hawaii, Aina Ho'okupu o Kilauea, Hawaii Floriculture and Nursery Association, Maui County Farm Bureau, Ulupono Initiative, Hawaii Crop Improvement Association, Hawaii Cattlemen's Council, and seven individuals.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that the use of farm technologies such as small equipment tractors from Japan is a way for farmers and ranchers to increase the efficiency of their operations, provided that this equipment can be retrofitted to comply with Environmental Protection Agency standards. Your Committee further finds that the pilot program funded by this measure is a creative solution to the State's farm labor shortage.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 511, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1046 Ways and Means on S.B. No. 500**

The purpose and intent of this measure is to appropriate moneys for the establishment of three mental health practitioner positions within the University of Hawaii's Counseling and Student Development Center.

Your Committee received written comments in support of this measure from the University of Hawaii and two individuals.

Your Committee finds that establishing additional full-time mental health practitioner positions within the University of Hawaii's Counseling and Student Development Center will allow the Center to more effectively provide clinical support to students.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 500, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 500, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 1047 Ways and Means on S.B. No. 426**

The purpose and intent of this measure is to implement the recommendations of the cesspool conversion working group by requiring priority level 1 cesspools to be upgraded, converted, or connected before January 1, 2030, and priority level 2 cesspools to be upgraded, converted, or connected before January 1, 2035.

Your Committee received written comments in support of this measure from the Department of Health, Department of Land and Natural Resources, Hawaii Green Infrastructure Authority, State of Hawaii Climate Change Mitigation and Adaptation Commission, Department of Environmental Management for the County of Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Surfriider Foundation Hawaii Region, Ulupono Initiative, Wastewater Alternatives and Innovations, Hawaii Reef and Ocean Coalition, and numerous individuals.

Your Committee received written comments in opposition to this measure from three individuals.

Your Committee received written comments on this measure from Hawaii REALTORS.

Your Committee finds that accelerating upgrades for high-priority cesspools that pose the greatest threat to nearshore water quality and human health will help minimize future contamination of Hawaii's fragile aquatic areas.

Your Committee has amended this measure by:

- (1) Providing that priority level 1 cesspools on recreational residence leases within the Kokee State Park and Waimea Canyon State Park on the island of Kauai shall be upgraded, converted, or connected before January 1, 2035, as recommended in written testimony from the Department of Land and Natural Resources;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 426, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 1048 Ways and Means on S.B. No. 391**

The purpose and intent of this measure is to stimulate and revitalize the State's post-pandemic economic recovery by investing in workforce development programs.

More specifically, the measure appropriates funds for administration, training, personnel, and student support components of the workforce development programs administered by the University of Hawaii community colleges.

Your Committee received written comments in support of this measure from the Department of Education, State Council on Developmental Disabilities, University of Hawaii, University of Hawaii Professional Assembly, ACT, Maui Hotel and Lodging Association, and four individuals.

Your Committee finds that the workforce development programs funded by this measure will prepare participants for initial employment, career advancement, continuing education, or entering a new profession, and thus provide pathways to rewarding career opportunities, especially for high school graduates.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 391, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 391, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1049 Ways and Means on S.B. No. 362**

The purpose and intent of this measure is to amend the conveyance tax law.

More specifically, this measure:

- (1) Increases the rate of the conveyance tax for condominiums and single family residences with a value of at least \$2,000,000, and for which the purchaser is ineligible for a county homeowner's exemption;
- (2) Exempts from the conveyance tax documents and instruments conveying real property subject to a government assistance program approved and certified by the Hawaii Housing Finance and Development Corporation and used exclusively for the provision of affordable housing for qualified persons who:
  - (A) Are residents of the State;
  - (B) Are owner-occupants or renter-occupants of the real property; and
  - (C) Own no other real property; and
- (3) Removes the maximum dollar amount of conveyance tax revenues that are to be paid into the Rental Housing Revolving Fund each fiscal year.

Your Committee received written comments in support of this measure from Catholic Charities Hawaii, EAH Housing, and two individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Association of REALTORS and Land Use Research Foundation of Hawaii.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Taxation, Hawaii Housing Finance and Development Corporation, Democratic Party of Hawaii Education Caucus, Grassroot Institute of Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Imua Alliance, Partners In Care, Tax Foundation of Hawaii, and two individuals.

Your Committee finds that conveyance tax revenues are a reliable source of funding for the Rental Housing Revolving Fund, which provides gap financing necessary for rental housing projects to feasibly be developed under the Low-Income Housing Tax Credit program. Your Committee further finds that greater access to this financing is necessary to increase the State's affordable housing inventory.

Your Committee has amended this measure by:

- (1) Providing two distinct conveyance tax exemptions for documents and instruments conveying real property:
  - (A) To a government assistance program qualified by the Hawaii Housing Finance and Development Corporation; and
  - (B) To owner-occupants or renter-occupants who own no other real property;
- (2) Removing the definition for "qualified persons" and references thereto;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

Your Committee notes that, in their written comments on the measure, Catholic Charities Hawaii, Partners In Care, and the Hawaii Appleseed Center for Law and Economic Justice have requested that the measure be amended to allocate ten percent of conveyance tax revenues for homeless services and supportive housing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 362, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 362, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1050 Ways and Means on S.B. No. 330**

The purpose and intent of this measure is to provide the Hawaii Housing Finance and Development Corporation with the right of first refusal for the development of certain state lands near rail transit stations.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority and Hawaii Housing Finance and Development Corporation.

Your Committee received written comments on the measure from the Office of Hawaiian Affairs, Department of Budget and Finance, Department of Hawaiian Home Lands, Department of Land and Natural Resources, and University of Hawaii.

Your Committee finds that the lack of affordable housing in the State is driven, in part, by the limited availability of land. Your Committee further finds that this measure will help to make otherwise unavailable lands available for mixed-use projects that incorporate housing and the original proposed purpose.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 330, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 330, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 1051 Ways and Means on S.B. No. 298**

The purpose and intent of this measure is to provide the Hawaii Emergency Management Agency with additional flexibility to carry out the agency's mission.

More specifically, this measure:

- (1) Authorizes the Hawaii Emergency Management Agency to:
  - (A) Acquire any real, personal, or mixed property for the agency's immediate or future use;
  - (B) Own, hold, improve, rehabilitate, sell, assign, exchange, transfer, convey, lease, or dispose of any real, personal, or mixed property acquired; and
  - (C) Acquire by condemnation real property for the agency's immediate or future use; and
- (2) Excludes from the definition of "public lands" any lands to which the Hawaii Emergency Management Agency holds title.

Your Committee received written comments in opposition to this measure from UNITE HERE Local 5 and one individual.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs and Hawaiian Electric Company.

Your Committee finds that by providing the Hawaii Emergency Management Agency with additional flexibility to carry out the agency's mission, this measure will help the agency to implement hazard mitigation efforts more efficiently and effectively.

Your Committee notes that in its written comments on this measure, the Office of Hawaiian Affairs expressed concern that enactment of this measure will facilitate the permanent alienation of public land trust lands from which the Office of Hawaiian Affairs receives a pro rata share. The Office of Hawaiian Affairs suggested amending this measure to include in the definition of "public lands" any lands to which the Hawaii Emergency Management Agency holds title that are crown and government lands commonly referred to as "ceded lands" and that were conveyed to the State by virtue of the Admissions Act. However, your Committee believes that the Office of Hawaiian Affairs' concerns would be best addressed by enactment of Senate Bill No. 1235, which, among other things, requires that the working group established by Act 226, Session Laws of Hawaii 2022, complete a final inventory of all ceded lands in the public land trust.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 298, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 298, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1052 Ways and Means on S.B. No. 278**

The purpose and intent of this measure is to honor the legacy of Prince Jonah Kuhio Kalaniana'ole.

Specifically, this measure requires certain public buildings and structures near mass transit projects and on Hawaiian home lands to display a portrait of Prince Jonah Kuhio Kalaniana'ole.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies and one individual.

Your Committee finds that requiring certain public buildings and structures near mass transit projects and on Hawaiian home lands to display a portrait of Prince Jonah Kuhio Kalanianaʻole is an appropriate way to honor the Prince's legacy as the author of the Hawaiian Homes Commission Act.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 278, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 278, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 1053 Ways and Means on S.B. No. 1373**

The purpose and intent of this measure is to clarify the allowable revenues to be deposited into the Executive Office on Aging's Administrative Claiming Special Fund.

Your Committee received written comments in support of this measure from the Department of Health Executive Office on Aging and Department of Public Health Kupuna Caucus.

Your Committee finds that expanding Medicaid Administrative Claiming to include the Long-Term Care Ombudsman Program and the State Insurance Assistant Program will help support kupuna and persons with disabilities who need long-term services, and will bring more federal moneys into the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1373, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1054 Ways and Means on S.B. No. 1417**

The purpose and intent of this measure is to promote climate resiliency within the Kakaako and Kalaeloa Community Development Districts.

Specifically, this measure requires the Hawaii Community Development Authority to consider the impacts of climate change, sea level rise, and climate resilient development in the design and siting of buildings in the Kakaako and Kalaeloa Community Development Districts.

Your Committee received written comments in support of this measure from the Hawaii Community Development Authority, Office of Planning and Sustainable Development, Climate Protectors Hawaii, Hawaii's Thousand Friends, and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that the Kakaako Community Development District is threatened by the effects of climate change, including sea level rise, king tides, and heavy rainfall. Your Committee further finds that the lack of drainage infrastructure in the Kalaeloa Community Development District makes that district vulnerable to heavy rainfall and other effects of climate change. Accordingly, your Committee finds that development within these districts must recognize and plan for these impacts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1417, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1055 Ways and Means on S.B. No. 752**

The purpose and intent of this measure is to require the Comptroller to identify state office buildings that can provide equitable telecommunication access to allow certain residents, including residents having disabilities, to participate remotely in legislative hearings.

Your Committee received written comments in support of this measure from the State Council on Developmental Disabilities.

Your Committee received written comments on this measure from the Office of Information Practices, Hawaii State Public Library System, Department of Accounting and General Services, and Disability and Communication Access Board.

Your Committee finds that the telecommunication access supported by this measure will help make the legislative process more accessible to the State's residents, including residents having intellectual or developmental disabilities and residents who live on neighbor islands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 752, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1056 Ways and Means on S.B. No. 782**

The purpose and intent of this measure is to increase the amount of taro grown in the State.

More specifically, the measure:

- (1) Establishes a grant program within the Department of Agriculture to assist taro farmers in meeting the costs of cultivating taro for consumption, subject to certain specified terms and conditions; and
- (2) Appropriates unspecified amounts for the grant program.

Your Committee received written comments in support of this measure from the Department of Agriculture, Office of the Mayor of the County of Maui, Hawaii Farmers Union United, Hawaii Farm Bureau, Hawaii Alliance for Progressive Action, Food+ Policy Internship, and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General.

Your Committee finds that this measure recognizes the critical importance of protecting and perpetuating taro farming as a traditional cultural practice and, accordingly, also finds a compelling public interest in providing grant funding to taro farmers to continue the traditional practice of taro farming in the State.

Your Committee has amended this measure by:

- (1) Inserting a list of standards with which grant applicants and recipients must comply, to address a constitutional concern raised by the Department of the Attorney General in its written comments;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 782, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 782, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1057 Ways and Means on S.B. No. 777**

The purpose and intent of this measure is to establish a financial incentive to reduce the number of cesspools in the State.

More specifically, this measure establishes a temporary income tax credit for the cost of upgrading or converting a qualified cesspool to a wastewater system approved by the Director of Health, or connecting to a sewerage system.

Your Committee received written comments in support of this measure from the Department of Health, State of Hawaii Climate Change Mitigation and Adaptation Commission, University of Hawaii, Environmental Caucus of the Democratic Party of Hawaii, Hawaii Association of REALTORS, and two individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that cesspools are a major source of pollution to Hawaii's waters. Your Committee also finds that there are approximately eighty-three thousand cesspools in the State, discharging millions of gallons of untreated sewage into the groundwater every day. The sewage-polluted groundwater flows into drinking water sources, streams, and the ocean, harming public health and the environment, including beaches and coral reefs. Your Committee believes that cesspools should be phased out to eliminate threats to drinking water and recreational waters.

Your Committee has amended this measure by:

- (1) Making a technical amendment to clarify the certification of expenses used to claim the tax credit; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 777, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 1058 Ways and Means on S.B. No. 744**

The purpose and intent of this measure is to effectively respond to an invasive species that is plaguing the State's coffee industry.

More specifically, the measure requires the Hawaii Invasive Species Council to:

- (1) Amend its administrative rules, by an unspecified date, to classify the fungal pathogen that causes coffee leaf rust as an invasive species; and
- (2) Expend any available moneys for mitigation efforts, research, and prevention or control actions with respect to coffee leaf rust.

Your Committee received written comments in support of this measure from the Department of Agriculture, Councilmember representing District 8 (North Kona) of the Hawaii County Council, Hawaii Coffee Association, Kona Coffee Farmers Association, Hawaii Farm Bureau, Kona Restoration Farm, Hawaii Coffee Growers Association, and five individuals.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that previous efforts spearheaded by the Hawaii Invasive Species Council to mount a comprehensive response to the invasive, non-indigenous fungal pathogen that causes rapid ohia death resulted in effective mitigation of that threat, and that the requirements of this measure will facilitate similar efforts by the Council to effectively mitigate the threat posed by coffee leaf rust to the State's coffee industry.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 744, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 744, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1059 Ways and Means on S.B. No. 725**

The purpose and intent of this measure is to require and appropriate moneys for the Department of Human Resources Development to submit an annual report to the Legislature on the telework policies of the executive branch.

Your Committee received written comments in support of this measure from the Department of Human Resources Development and Transform Hawaii Government.

Your Committee finds that the metrics and reports required by this measure will help the State assess the effectiveness of the Executive Branch Telework Program Guidelines.

Your Committee has amended this measure by:

- (1) Establishing requirements and appropriating an unspecified amount for a telework monitoring system to assess the productivity of telework employees; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

Your Committee estimates that a total appropriation of \$20,000,000 may be needed to implement the provisions of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 725, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 725, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (DeCoite).

**SCRep. 1060 Ways and Means on S.B. No. 712**

The purpose and intent of this measure is to improve the quality of interaction between incarcerated persons who have experienced trauma and adult corrections officers.

More specifically, the measure appropriates funds to Windward Community College to support a level I trauma-informed certification program for adult corrections officers, at no cost to the adult corrections officers.

Your Committee received written comments in support of this measure from the Judiciary, Department of Public Safety, Hawaii Correctional System Oversight Commission, Department of Health, Office of Wellness and Resilience of the Office of the Governor, University of Hawaii, United Public Workers, Hawaii Friends of Restorative Justice, University of Hawaii Professional Assembly, Hawaii Substance Abuse Coalition, and three individuals.

Your Committee finds that this measure's funding of a trauma-informed certification program for adult corrections officers will ensure that officers have the necessary skills to properly assess and interact with the significant proportion of inmates who have experienced trauma, and thus increase the likelihood that these inmates will connect with vital services, be less likely to commit disciplinary infractions, and experience improved rehabilitation and less recidivism.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$100,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 712, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 712, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1061 Ways and Means on S.B. No. 948**

The purpose and intent of this measure is to reduce the damage caused by future natural disasters by mitigating the proliferation of albizia trees.

Specifically, this measure appropriates moneys to the Division of Forestry and Wildlife of the Department of Land and Natural Resources to coordinate the removal of invasive albizia trees that potentially threaten public and private land.

Your Committee received written comments in support of this measure from the University of Hawaii, Department of Land and Natural Resources, Hawaiian Electric, Hawaii Forest Industry Association, and five individuals.

Your Committee finds that the dangers posed by albizia trees were made clear in August 2014, when strong winds from Tropical Storm Iselle toppled thousands of albizia trees in Puna, blocking roads and disrupting power lines. Your Committee further finds that the disruption caused by the toppled albizia trees caused tens of thousands of people to be stranded for weeks without power and obstructed access by first responders to affected areas.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 948, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 948, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.

**SCRep. 1062 Ways and Means on S.B. No. 239**

The purpose and intent of this measure is to assist child care providers in obtaining accreditation.

More specifically, this measure:

- (1) Establishes the Child Care Accreditation Program to provide grants to child care providers who have committed to obtaining accreditation;
- (2) Extends the deadline for Preschool Open Doors service providers to commence and obtain accreditation; and
- (3) Appropriates funds for the Child Care Accreditation Program.

Your Committee received written comments in support of this measure from the Early Learning Board, Executive Office on Early Learning, Hawaii Association of Independent Schools, Hawaii Children's Action Network Speaks!, American Association of University Women of Hawaii, Early Childhood Action Strategy, and seven individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that accreditation is among the most well-known measures of quality in early childhood education. However, obtaining accreditation is an expensive and time-consuming process. Your Committee further finds that supporting child care providers in their process to obtain accreditation will help to ensure the highest quality of child care in the State.

Your Committee requests that the need for additional grant award standards, as described in the written comments submitted by the Department of the Attorney General, be considered for inclusion by subsequent subject matter committees hearing this measure.

Your Committee has amended this measure by:

- (1) Authorizing the Child Care Accreditation Program to award grant funding to a child care provider that has committed to obtaining accreditation from an accrediting organization approved by the Director of Human Services;
- (2) Adding a new section to appropriate funds out of the child care grant program special fund for the purposes of the child care grant program; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 239, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 239, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1063 Ways and Means on S.B. No. 99**

The purpose and intent of this measure is to promote self-reliance within the State's agricultural industry.

More specifically, the measure:

- (1) Requires the Department of Agriculture to establish, implement, and administer a meat and poultry inspection program and submit an annual report to the Legislature on inspection program activities; and
- (2) Appropriates funds to the Department of Agriculture for the inspection program.

Your Committee received written comments in support of this measure from the Land Use Research Foundation of Hawaii, Hawaii Farmers Union United, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Maui Chamber of Commerce, and one individual.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that instead of relying on the United States Department of Agriculture's Food Safety and Inspection Service under a cooperative agreement to inspect the safety and labeling of meat, poultry, and egg products produced in the State, Hawaii would benefit from having its own state-run inspection program, as established by this measure.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 99, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 99, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1064 Ways and Means on S.B. No. 73**

The purpose and intent of this measure is to authorize the Department of Agriculture to extend certain agricultural leases by an additional thirty years.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau, Land Use Research Foundation, Hawaii Crop Improvement Association, Hawaii Floriculture and Nursery Association, Maui County Farm Bureau, Local Food Coalition, Hawaii Cattlemen's Council, Ono Nut Farms, Panaewa Foliage, and nine individuals.

Your Committee received written comments on this measure from the Office of Hawaiian Affairs, Department of Agriculture, and Kupuna for the Moopuna.

Your Committee finds that this measure will help farmers having less than fifteen years remaining on their lease to obtain significant lease extensions, which will make it economically feasible for those individuals and entities to invest more capital into their farms and help to increase food production in Hawaii.

Your Committee acknowledges that the Office of Hawaiian Affairs has requested that the public land trust lands be excluded from this measure. In this regard, your Committee emphasizes its support for Senate Bill No. 1235, which, if enacted, would help to complete the long-awaited inventory of ceded lands.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 73, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 73, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1065 (Majority) Commerce and Consumer Protection on S.B. No. 668**

The purpose and intent of this measure is to:

- (1) Authorize the Governor to enter the State into the multi-state Physical Therapy Licensure Compact, which will allow a physical therapist licensed by a home state to practice under a multi-state licensure privilege in each party state; and
- (2) Require the Department of Commerce and Consumer Affairs to adopt rules to implement and administer the Compact.

Your Committee received testimony in support of this measure from the United States Department of Defense, Physical Therapy Compact Commission, and Hawaii Chapter of the American Physical Therapy Association Hawaii. Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice. Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs, Board of Physical Therapy, and Grassroot Institute of Hawaii.

Your Committee finds that there is a chronic shortage of health care professionals, including physical therapists, in the State. This shortage has impacted the delivery of proper rehabilitation services, particularly on the neighbor islands. By joining a Compact of States who have enacted the same needed legislation, physical therapists and physical therapist assistants who are already properly licensed in other states would be allowed to quickly practice in Hawaii rather than waiting for the Board of Physical Therapy, who meets every other month, to review applications for physical therapist and physical therapist assistant licensure. As a result, this

measure would facilitate increased access to necessary physical therapy health care in the State, while maintaining regulatory safeguards.

Your Committee acknowledges the concerns raised in testimony that the Physical Therapy Licensure Compact requires applicants to undergo criminal background checks, but that the Department of Commerce and Consumer Affairs does not have the authority to conduct criminal background checks on applicants for physical therapist and physical therapist assistant licensure. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language requiring applicants for physical therapist or physical therapist assistant licensure to submit a full set of electronic fingerprints for the purpose of obtaining federal and state criminal history record checks;
- (2) Inserting language authorizing the Department of Commerce and Consumer Affairs to conduct criminal background checks on applicants for physical therapist or physical therapist assistant licensure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 668, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 668, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

**SCRep. 1066 Ways and Means on S.B. No. 945**

The purpose and intent of this measure is to regulate digital currency companies that do business in the State.

Your Committee received written comments in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Technology Development Corporation, and one individual.

Your Committee received written comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that while digital currency has grown in popularity and acceptance locally, nationwide, and globally, there is a lack of regulation of the industry. The new regulatory and licensing framework for digital currency companies, as proposed by this measure, may provide appropriate protection for Hawaii consumers while allowing digital currency to flourish.

Your Committee has amended this measure by:

- (1) Correcting references to certain federal laws;
- (2) Clarifying the different ranges of transactions subject to quarterly assessments;
- (3) Correcting certain internal statutory cross-references;
- (4) Changing the appropriation for the hiring of three full-time examiners to an unspecified amount; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 945, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1067 Ways and Means on S.B. No. 824**

The purpose and intent of this measure is to require commodities and manifested cargo requiring tug assistance to be manned by an existing, operational stevedoring company that is currently operating in the State.

Your Committee received written comments in support of this measure from the Inlandboatmen's Union of the Pacific Hawaii Region and numerous individuals.

Your Committee received written comments in opposition to this measure from Hawaiian Cement; Centerline Logistics; Island Energy Services; American Marine Corporation, Sause Bros., Inc.; and Aloha Marine Lines.

Your Committee received written comments on this measure from the Department of the Attorney General; Par Hawaii; Aloha Petroleum, LLC; and Hawaii Gas.

Your Committee finds that requiring that mooring lines from vessels requiring tug assistance for certain harbor operations be secured by a stevedoring company that is currently operating in the State will help ensure that these operations are performed by workers who are familiar with Hawaii's unique harbors and will help keep crews safe.

Your Committee has amended this measure by:

- (1) Making substantive amendments to clarify the relationship between the purpose of the measure and the subject matter expressed in the measure's title, as recommended in written comments from the Department of the Attorney General;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and

- (3) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 824, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 824, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1068 Ways and Means on S.B. No. 965**

The purpose and intent of this measure is to promote the use of green transportation infrastructure throughout the State.

More specifically, this measure:

- (1) Requires the incorporation of green infrastructure into transportation system designs to achieve certain goals and objectives;
- (2) Defines “green infrastructure”;
- (3) Requires the Department of Transportation to endeavor to reduce temperatures and provide for cooler transit by incorporating green infrastructure in transportation system designs; and
- (4) Establishes the green transportation infrastructure task force to examine, evaluate, and develop best practices to guide the design, implementation, and maintenance of green transportation infrastructure.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Transportation; Department of Urban and Regional Planning of the University of Hawaii; Hawaii Climate Change Mitigation and Adaptation Commission; Office of Planning and Sustainable Development; University of Hawaii; Architectural Metal Glassworkers Local Union 1889 AFL-CIO Stabilization Trust Fund; Carpet, Linoleum and Soft Tile Local Union 1926 Market Recovery Trust Fund ; Hawaii Glaziers; Hawaii Tapers Market Recovery Trust Fund; International Union of Painters and Allied Trades, District Council 50; Maui Metropolitan Planning Organization; Painters Industry of Hawaii Labor Management Cooperation Trust Fund; Trees for Honolulu’s Future; and four individuals.

Your Committee received written comments on this measure from the Environmental Caucus of the Democratic Party of Hawaii.

Your Committee finds that the incorporation of green infrastructure into transportation system designs will help to beautify the State, decrease traffic noise, decrease temperatures, and improve the general well-being of residents of and tourists to the State.

Your Committee has amended this measure by:

- (1) Changing the dissolution date of the green transportation infrastructure task force to June 30, 2025;
- (2) Changing the effective date for sections 2 and 3 of this measure to June 30, 2052, and the effective date of the remaining provisions of this measure to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 965, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 965, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Aquino).

**SCRep. 1069 Ways and Means on S.B. No. 1044**

The purpose and intent of this measure is to appropriate moneys to hire complex-based behavioral health specialists for Hawaii’s rural public schools.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii Youth Services Network, Opportunity Youth Action Hawaii, and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Hawaii Association of School Psychologists.

Your Committee finds that increasing the behavioral health specialist workforce in the State’s rural public schools will help the Department of Education meet the needs of students who are experiencing trauma, grief, family separation, depression, and other crises.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$861,000 to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1044, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1044, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1070 Ways and Means on S.B. No. 1068**

The purpose and intent of this measure is to address state planning policies relating to the physical environment, including shoreline resources.

Specifically, this measure:

- (1) Amends the Hawaii State Planning Act by:
  - (A) Including as a policy the promotion of a statewide beach assessment study and beach and shoreline restoration; and
  - (B) Providing that the pursuit of compatible relationships among activities, facilities, and natural resources should also take into account Native Hawaiian traditional practices mauka to makai; and
- (2) Appropriates moneys to the Office of Planning and Sustainable Development for the development of a statewide beach assessment study and a beach and shoreline restoration and conservation plan.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Climate Change Mitigation and Adaptation Commission, University of Hawaii, and one individual.

Your Committee received written comments on this measure from the Office of Planning and Sustainable Development and Office of Hawaiian Affairs.

Your Committee finds that the State's beaches and shoreline areas are at risk from climate change, sea level rise, and coastal erosion. Your Committee further finds that the assessment developed pursuant to this measure will help agencies better understand these risks and plan to protect Hawaii's shorelines.

Your Committee has amended this measure by:

- (1) Clarifying that the statewide beach assessment study and shoreline restoration and conservation plan shall be submitted to the Legislature prior to the convening of the Regular Session of 2025;
- (2) Correcting a reference to fiscal year 2023-2024 in section 2 of the measure; and
- (3) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1068, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1068, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1071 Ways and Means on S.B. No. 1076**

The purpose and intent of this measure is to increase voter knowledge and engagement.

Specifically, this measure:

- (1) Requires the Office of Elections to prepare and publish a digital voter information guide that meets certain accessibility standards;
- (2) Requires printed copies of the guide to be distributed to public libraries and members of the public upon request;
- (3) Requires the Office of Elections to mail with each primary election ballot a notice to voters that the digital voter information guide is available on the Office of Elections website; and
- (4) Makes an appropriation to the Office of Elections.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, Community Alliance on Prisons, League of Women Voters of Hawaii, and nine individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Office of Elections.

Your Committee finds that the voter information guide proposed by this measure would create a more informed electorate and increase voter participation and engagement.

Your Committee has amended this measure by:

- (1) Adopting amendments requested by the Office of Elections to:
  - (A) Require the Attorney General and each county corporation counsel to translate their respective ballot question explanations into certain languages required under the federal Voting Rights Act and submit the explanations to the Office of Elections no later than seventy-five days before the general election;
  - (B) Clarify that physical copies of the digital voter information guide be distributed to public libraries for public viewing, rather than dissemination; and
  - (C) Remove the requirement that the Office of Elections print and mail a physical copy of the digital voter information guide to a voter upon request;

- (2) Clarifying that the explanation of a proposed constitutional amendment drafted by the Attorney General is the explanation currently required pursuant to section 11-118.5(b), Hawaii Revised Statutes;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1076, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1072 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 839**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Electricity Reliability Surcharge Special Fund;
- (2) Require the Public Utilities Commission to establish reliability standards and interconnection requirements for all users, owners, or operators of the Hawaii electric system and determine the responsibility of costs associated with any reliability standards or inter-connection requirements;
- (3) Require the Public Utilities Commission to establish:
  - (A) The distinction between interconnection facilities and utility network upgrades;
  - (B) That the cost of interconnection facilities shall be the responsibility of the interconnection customer; and
  - (C) That the cost of utility network upgrades shall be the sole responsibility of the transmission provider;
- (4) Establish a timeline and requirements for interconnection procedures to be established by the Public Utilities Commission for certain utility-scale renewable energy projects;
- (5) Require implementation of the Hawaii Electricity Reliability Administrator Law upon establishment of the Hawaii Electricity Reliability Administrator Surcharge;
- (6) Beginning January 1, 2024, require the surcharge to be imposed on certain customers to cover the costs of the Administrator to be deposited into the Hawaii Electricity Reliability Surcharge Special Fund Subaccount;
- (7) Require the Public Utilities Commission to submit a report and assessment of the Hawaii Electric Reliability Administrator to the Legislature; and
- (8) Appropriate funds to be deposited into the Hawaii Electricity Reliability Surcharge Special Fund.

Your Committees received testimony in support of this measure from the Hawaii Clean Power Alliance. Your Committees received testimony in opposition to this measure from the Hawaiian Electric Company, Inc. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Ulupono Initiative.

Your Committees find that accelerating the development of renewable energy to reduce greenhouse gases is a high priority and that the Legislature has enacted numerous Acts to achieve this objective. The timely completion of grid-connected renewable energy projects will help the State achieve the targets and limits established through prior legislation. However, your Committees find that electric public utility companies are experiencing interconnection delays that increase development costs and extend renewable project timelines. Additionally, the State does not regulate interconnection costs, which results in the ratepayer bearing the full financial burden of both interconnection costs and utility network upgrades in the electricity rates. Your Committees believe that this measure will establish grid reliability standards, regulate the timely and transparent interconnection of utility-scale renewable energy projects, and help distinguish the cost responsibilities between interconnection facilities and utility network upgrades to assist the State in achieving its ambitious energy goals.

Your Committees have amended this measure by:

- (1) Clarifying the Hawaii Electricity Reliability Administrator surcharge shall be imposed on the bills of customers of investor-owned electric utility companies, rather than Hawaiian Electric customers;
- (2) Inserting a blank appropriation amount;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 839, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 839, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.  
Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 1073 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 1154**

The purpose and intent of this measure is to authorize government agencies to wheel electricity over the existing transmission lines of a third-party electric public utility, excluding member-owned cooperatives, that is produced by their own facilities from renewable energy sources to another government agency's facilities, subject to certain restrictions.

Your Committees received testimony in support of this measure from the Ulupono Initiative. Your Committees received testimony in opposition to this measure from Hawaiian Electric and International Brotherhood of Electrical Workers Local Union 1260. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, Life of the Land, and Sustainable Energy Hawai'i.

Your Committees find that due to rising energy costs, many state departments and agencies, particularly educational facilities, face severe cost shortfalls prompting a need for emergency appropriations. However, other state facilities generate a surplus of electricity from renewable resources that goes unused, despite being connected to the same electricity grid as other state facilities that need the electricity. Wheeling occurs when electric power is transmitted from a seller's power generation facility to a customer's power-consuming facilities over the existing transmission lines of a third-party electric public utility. By allowing intragovernmental wheeling, it may encourage government agencies that have excess land or rooftop space at one facility to generate renewable energy on site, even if it cannot all be used at the same location, to reduce the cost of energy overall for state facilities and benefit tax-payers. This measure allows wheeling by government agencies, which promotes energy efficiency.

Your Committees acknowledge the concerns raised in testimony that this measure could impair economic development and cause job displacement. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language clarifying that the Public Utilities Commission's docket to determine terms to ensure wheeling is done in the public interest may include:
  - (A) The timely execution of a workforce and community agreement with all stakeholders who may be economically impacted or displaced prior to authorization; and
  - (B) Maintaining compliance with conditions for certain federal funding; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1154, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1154, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 1074 (Majority) Commerce and Consumer Protection on S.B. No. 691**

The purpose and intent of this measure is to:

- (1) Authorize the Chief Energy Officer of the Hawaii State Energy Office to adopt rules to enforce minimum efficiency standards for certain products and adopt or amend minimum efficiency standards in certain situations; and
- (2) Regulate the minimum efficiency standards for air purifiers, electric vehicle supply equipment, portable electric spas, residential ventilating fans, toilets, urinals, and water coolers.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply, Ulupono Initiative, Blue Planet Foundation, and Hawai'i Energy. Your Committee received comments on this measure from the Hawaii State Energy Office, Plumbing and Mechanical Contractors Association of Hawaii, and Plumbing Manufacturers International.

Your Committee finds that information regarding appliance efficiency standards empowers consumers to make informed choices based on energy, water and financial considerations regarding the equipment. Appliance efficiency standards also protect consumers in the State from "dumping" by manufacturers who cannot sell less efficient products in markets where efficiency standards exist. This measure adds several appliances to the State's minimum appliance efficiency standards to decrease energy and water use and help consumers save money.

Your Committee notes the concerns raised in testimony that some of the appliance efficiency standards established by this measure reference industry standards that have recently been updated or do not match federal standards. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language exempting urinals and toilets designed and marketed exclusively for use in prisons and mental health care facilities from the appliance efficiency standards;
- (2) Clarifying that certain wall-mounted urinals shall have a maximum flush volume of 0.5 gallons per flush, rather than 0.125 gallons per flush;
- (3) Deleting a reference to the ENERGY STAR Program Requirements Product Specification for Water Coolers, Version 2.0, and replacing it with a reference to Version 3.0;
- (4) Clarifying that the provisions of this measure shall apply to appliances that are manufactured on or after January 1, 2025;

- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 691, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 691, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 1075      Judiciary on S.B. No. 435**

The purpose and intent of this measure is to:

- (1) Impose the penalty on both the person and the firm upon the finding of repeat violation of the state law governing wages and hours of employees on public works; and
- (2) Require each notice of violation to contain the names of the firm and the person, including sole proprietors, principle responsible managing employees, and all subordinate responsible managing employees.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee. Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii. Your Committee received comments on this measure from General Contractors Association of Hawaii.

Your Committee finds that this measure seeks to prevent the circumvention of the law by entities that transfer key personnel to a separate company and continue bidding on new public works projects under a new name though they have been suspended from such bidding due to violations of chapter 104, Hawaii Revised Statutes. Your Committee notes concerns raised in the testimony of the Department of Labor and Industrial Relations regarding the definition of "person", and your Committee respectfully requests that this concern be considered as this measure moves forward in the legislative process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 435, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 1076      (Majority) Judiciary on S.B. No. 837**

The purpose and intent of this measure is to authorize the Department of Business, Economic Development, and Tourism to acquire real, personal, or mixed property; to clear, improve, and rehabilitate and to sell, assign, exchange, transfer, convey, lease, dispose, or encumber the property; and acquire property by condemnation.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. Your Committee received testimony in opposition to this measure from UNITE HERE Local 5. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that normally, acquisitions conducted by the Department of Business, Economic Development, and Tourism are subject to approval by the Board of Land and Natural Resources and a rigorous due diligence process including title review, appraisal, land survey and environmental hazards study, and possible mitigation. This measure would provide the Department of Business, Economic Development, and Tourism with the discretion to conduct its due diligence in a manner it deems fit and appropriate under the circumstances.

Your Committee has amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 837, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1077      (Majority) Judiciary on S.B. No. 875**

The purpose and intent of this measure is to authorize counties, after adoption of an ordinance, to sell private property after all notices, orders, and appeal proceedings are exhausted and to use those revenues to pay unpaid civil fines related to that property.

Your Committee received testimony in support of this measure from the Department of Planning and Permitting of the City and County of Honolulu and one member of the Honolulu City Council. Your Committee received testimony in opposition to this measure from four individuals. Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that currently, the counties must go through an arduous process to enforce violations of land use ordinances and building codes. The counties must issue a notice of violation, allow time for the violator to cure, then if the violator fails to comply, impose a civil fine. Once the fine accrues to a certain amount, the counties may place a lien on the property. However, if the violator continues to be noncompliant, eventually the county will pursue a judicial foreclosure, which is a lengthy and costly process. This measure will provide the counties with a more viable, efficient, and effective method to collect liens on properties for civil fines.

Your Committee has amended this measure by adding language that requires the counties to sell property at not less than the market value of similarly situated properties and that all revenues received from the sale that exceed the amount of the unpaid civil fines be refunded to the property owner.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 875, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 875, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1078      Judiciary on S.B. No. 1513**

The purpose and intent of this measure is to require a public agency board to report any discussion or final action taken during an executive meeting; provided that such disclosure is not inconsistent with the purpose of convening the executive meeting and gives the board discretion to maintain confidentiality.

Your Committee received testimony in support of this measure from the Office of Information Practices.

Your Committee finds that a state government board is not required to summarize its discussions for the public, report actions taken, or indeed say anything about what happened in its executive session when it reconvenes in the open meeting at which the executive meeting is held. While some boards routinely summarize their executive sessions for the public, many others do not. Your Committee further finds that current law allows government boards to go into a closed executive session for a limited list of purposes, but the minutes of an executive session can only be withheld to the extent necessary to protect the purpose of the executive session and does not require a board to summarize its discussions for the public. Your Committee believes that requiring government boards to report their discussions and final actions when they reconvene to the public portion of the meeting will promote public access without undermining a board's ability to use executive sessions when authorized to do so. Therefore, this measure requires government boards to report and make available to the public, discussions and final actions taken by the board while preserving the boards ability to maintain confidentiality for as long as disclosure would defeat the purpose of convening the executive meeting.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1513 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1079      (Majority) Judiciary on S.B. No. 1**

The purpose and intent of this measure is to:

- (1) Repeal the requirement that abortions, including aspiration abortions performed by advance practice registered nurses, be performed at certain locations;
- (2) Clarify that a patient has the right to choose to obtain an abortion, or, if necessary to protect the life or health of the patient, to terminate the pregnancy and the State shall not deny or interfere with these rights;
- (3) Define "abortion" and "nonviable fetus";
- (4) Prohibit a covered entity from disclosing certain communication or information relating to reproductive health care services;
- (5) Prohibit the issuance of a subpoena in connection with an out-of-state proceeding relating to reproductive health care services legally performed in the State;
- (6) Prohibit agencies from providing information or expending resources in the furtherance of interstate investigations or proceedings relating to reproductive health care services;
- (7) Prohibit the State from penalizing, prosecuting, or otherwise taking adverse action based on pregnancy outcomes or for aiding or assisting a pregnant individual accessing reproductive health care services;
- (8) Require the Governor to deny any demand for surrender of a person charged with a crime involving reproductive health care services unless the conduct constitutes a crime in the State;
- (9) Enumerate laws contrary to public policy and prohibit their application as rules of decision in the courts;
- (10) Prohibit the issuance of a summons for persons to testify in another state with regard to lawful reproductive health care services;
- (11) Clarify under various licensing statutes that the provision or assistance in receipt or provision of medical, surgical, pharmaceutical, counseling, or referral services related to the human reproductive system cannot form a basis for disciplinary action;
- (12) Prohibit the enforcement of a judgment or order arising from a foreign penal civil action or other penal law with respect to reproductive health care services; and
- (13) Amend the definition of "medical care and services" so that a minor may consent to receive, without any other person's consent, surgery or any treatment to induce abortion.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Human Services; Hawai'i Civil Rights Commission; Hawai'i State Commission on the Status of Women; one member of the Hawai'i County Council; Women's Caucus of the Democratic Party of Hawai'i; Hawaii Friends of Civil Rights; Stonewall Caucus of the Democratic

Party of Hawai'i; American Association of University Women of Hawaii; Imua Alliance; AlohaCare; Hawaii Medical Services Association; Hawai'i Section of the American College of Obstetricians and Gynecologists; Planned Parenthood Alliance Advocates - Hawai'i; Early Childhood Action Strategy; Hawaii Academy of Physician Assistants; Patsy T. Mink Political Action Committee; Hawaii Medical Association; Kaiser Permanente Hawai'i; Hawai'i Women Lawyers; Hawaii Maternal and Infant Health Collaborative; Healthcare Association of Hawaii; Hawai'i State Center for Nursing; Hawai'i State Coalition Against Domestic Violence; Unite Here! Local 5; Papa Ola Lokahi; Hawai'i Association of Professional Nurses; Japanese American Citizens League; Fujiwara and Rosenbaum, LLC; Pride at Work – Hawaii; and fifty-three individuals. Your Committee received testimony in opposition to this measure from Hawaii Family Forum and one individual. Your Committee received comments on this measure from the Hawaii Medical Board and one individual.

Your Committee finds that the people of the State have a long tradition of protecting an individual's right to privacy and bodily autonomy independently of, and more broadly than, the United States Constitution. In 1970, Hawai'i became the first state in the nation to decriminalize abortion with the enactment of Act 1, Session Laws of Hawaii 1970. In 1978, the 1978 Hawaii State Constitutional Convention proposed, and the electorate approved, an amendment to explicitly codify the right to privacy in article I, section 6, of the Hawaii State Constitution. However, your Committee further finds that existing developments in the legal landscape threaten the State's policy to protect an individual's right to privacy and personal autonomy over their body within state boundaries. In June 2022, the Supreme Court of the United States held in *Dobbs v. Jackson Women's Health Organization*, 142 S.Ct. 2228 (2022), that the United States Constitution does not confer a right to an abortion. *Dobbs* overrules *Roe v. Wade*, 410 U.S. 113 (1973), and *Planned Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833 (1992), and the nearly fifty years of federal precedent regarding reproductive rights. The impact of *Dobbs* has resulted in many states either banning or severely restricting access to abortion.

Your Committee also finds that during the previous administration, Governor Ige issued Executive Order 22-5 on October 11, 2022, which outlined the Governor's policy to limit cooperation with other states in investigations, proceedings, or warrants involving the provision of reproductive health care services in the State, provided that the provision of the reproductive health care service is legal in the State. This measure codifies and expands on that policy.

Your Committee has amended this measure by:

- (1) Adding language to the legislative findings to support the measure;
- (2) Specifying that a licensed physician assistant may provide medication or aspiration abortion care in the first trimester of pregnancy;
- (3) Specifying that the State shall not deny or interfere with a pregnant person's right to (a) choose to obtain an abortion or (b) if necessary to protect the life or health of the pregnant person, to terminate a pregnancy;
- (4) Specifying that a covered entity, as defined in title 45 Code of Federal Regulations section 160.103, is not prohibited from disclosing communication or information relating to reproductive health care services as authorized under the Health Insurance Portability and Accountability Act of 1996, P.L. 104-191, and federal regulations promulgated thereunder;
- (5) Excepting a warrant issued by a court, government agency, or legislative body of another state commanding the production, copying, or inspection of medical records relating to reproductive health care services from the lawful sharing of medical records and applying these criteria to subpoenas;
- (6) Specifying that no court or clerk of a court shall order the issuance of a subpoena requested by an officer, appointed according to the laws or usages of another state or government, or by any court of the United States or of another state or government, in connection with an out-of-state or interstate investigation or proceeding relating to reproductive health care services legally performed in the State;
- (7) Specifying that agencies are prohibited from providing information or expending resources in the furtherance of out-of-state or interstate investigations or proceedings upon a person or entity paying for or assisting in paying for reproduction health care services in the State;
- (8) Deleting language that would have specified that the Governor is not required to deny any demand for surrender if the person who is the subject of the demand for surrender was physically present in the requesting state at the time of the commission of the alleged crime and thereafter fled from that state, and instead specifying that the Governor is not required to deny any demand for surrender made under Article IV, section 2, of the United States Constitution;
- (9) Specifying that a law of another state authorizing a civil action or criminal prosecution based on a person paying for reproductive health care services is contrary to the public policy of the State;
- (10) Specifying that a law of another state authorizing a civil action or criminal prosecution based on certain reproductive health care services is contrary to the public policy of the State in accordance with the laws of the State;
- (11) Specifying that no judge shall issue a summons in a case where prosecution is pending, or where a grand jury investigation has commenced or is about to commence for a criminal violation of a law of another state involving paying for reproductive health care services; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Gabbard, Awa). Excused, none.

**SCRep. 1080      Judiciary on S.B. No. 735**

The purpose and intent of this measure is to establish that the public auction requirement for the disposition of water rights shall not be required for a lease of water for commercial kalo cultivation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Youth Food Council. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that kalo is a significant staple crop to the people of Hawai'i for its nutritional density and cultural properties. Your Committee believes that increased kalo production will allow for a greater cultural connection to traditional Hawaiian customs. However, the existing water leasing process imposes burdensome requirements on water lease applicants, especially smaller agricultural users such as kalo farmers. This measure will promote kalo production and reduce uncertainty for applicants by exempting water leases for commercial taro cultivation from the public auction requirement.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 735, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1081      Judiciary on S.B. No. 1122**

The purpose and intent of this measure is to require nominees for the position of Deputy Director, First Deputy, or Deputy Chair, as the case may be, of principal departments to be subject to advice and consent of the Senate.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that nominees for the positions of Deputy Director, First Deputy, and Deputy Chair should be subject to the advice and consent of the Senate, and such process should be codified in law. These positions are key leadership roles, and therefore hold significant authority and influence, both in executing the core duties of the departments and also in the executive branch as a whole. Codifying the practice of advice and consent for these positions would absolve any legal ambiguity as to the process and ensure that the nominees also are worthy and knowledgeable to execute the duties and responsibilities of the departments.

Your Committee has amended this measure by:

- (1) Adding language to require multiple deputy directors, first deputies, and deputy chairs, as the case may be, for each department that has multiple individuals who serve in the same role to also be subject to the advice and consent of the Senate;
- (2) Adding language that requires a person to file a disclosure of financial interest within thirty days of a person's nomination to any state position enumerated in section 84-17(d), Hawaii Revised Statutes, that is subject to the advice and consent of the Senate; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1122, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1082      Judiciary on S.B. No. 1230**

The purpose and intent of this measure is to:

- (1) Establish the crime of carrying a firearm in a sensitive location or on the private property of another without authorization;
- (2) Define "sensitive location";
- (3) Require the Attorney General to publish an annual report on licenses to carry firearms;
- (4) Require a person carrying a firearm in public pursuant to a license to maintain insurance coverage;
- (5) Establish a duty to maintain possession of a license while carrying a firearm;
- (6) Establish a duty to disclose that a person is carrying a firearm when stopped by a law enforcement officer;
- (7) Amend section 134-1, Hawaii Revised Statutes, to add definitions for "concealed", "locked container", and "unconcealed", and amend the definition of "crime of violence" to include additional crimes;
- (8) Prohibit issuing authorities from issuing permits to acquire the ownership of a firearm to any person where the issuance would not be in the interest of the public health, safety, or welfare because the person is found to be lacking the essential character or temperament necessary to be entrusted with a firearm;
- (9) Require issuing authorities to consider the risks associated with firearms in the home and consider the likelihood an applicant would bring the firearm outside of the home to engage in violence or carry unlawfully in public;
- (10) Add a definition of "enclosed container" for purposes of the transport of lawfully acquired pistols and revolvers relating to hunting game mammals;
- (11) Set requirements for applications for a license to carry a concealed firearm;

- (12) Establish an appeals process for the denial or revocation of an application for a permit to acquire the ownership of a firearm or to carry a concealed firearm;
- (13) Set revocation conditions for licenses to carry concealed firearms;
- (14) Require firearms be kept in a locked container and out of plain view when in an unattended vehicle and establish penalties;
- (15) Allow county police departments to conduct criminal history record checks for licenses to carry a firearm; and
- (16) Establish penalties for violations.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; Department of Transportation; University of Hawai'i System; Hawai'i State Public Library System; one member of the Hawai'i County Council; Brady Hawaii; Hawaii Bankers Association; Everytown for Gun Safety; Moms Demand Action for Gun Sense in America; Students Demand Action for Gun Sense in America; Island Naturals Market and Deli; Stonewall Caucus of the Democratic Party of Hawai'i; Church of the Crossroads; Healthcare Association of Hawaii; Hawaii Family Support Institute; Indivisible Hawaii; and more than three hundred forty individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, Hawaii County Game Management Advisory Commission, Pu'uoloa Rifle and Pistol Club, and more than one hundred twenty-five individuals. Your Committee received comments on this measure from the Honolulu Police Department, Hawai'i Primary Care Association, and two individuals.

Your Committee finds that, pursuant to article IX, sections 1 and 10, of the Constitution of the State of Hawai'i, the State is obligated to protect the health and safety of the public. Your Committee further finds that Hawai'i's firearms laws are an important reason that Hawai'i leads the nation in preventing incidents of gun violence. Your Committee recognizes that, in *New York State Rifle & Pistol Association, Inc. v. Bruen*, 142 S. Ct. 2111 (2022), the United States Supreme Court held that the public carrying of firearms "could be prohibited consistent with the Second Amendment" in "sensitive places". This measure will protect the public health and safety in a manner consistent with the Second Amendment of the Constitution of the United States.

Your Committee has amended this measure by:

- (1) Adding language to the legislative findings to support the measure;
- (2) Specifying that "private property of another person without authorization" means residential, commercial, industrial, agricultural, institutional, or undeveloped property that is privately leased, unless:
  - (A) The owner, lessee, operator, or manager of the property has provided express authorization to carry a firearm on the property or premises to the person carrying a concealed firearm pursuant to a license issued under section 134-9, Hawaii Revised Statutes, or in accordance with title 18, United States Code section 926B or 926C;
  - (B) The owner, lessee, operator, or manager of the property clearly and conspicuously posts a sign at the entrance of the building or on the premises indicating that carrying firearms is authorized on that property or premises; or
  - (C) The person carrying a concealed firearm pursuant to a license issued under section 134-9, Hawaii Revised Statutes, or in accordance with title 18, United States Code section 926B or 926C is an owner, lessee, operator, or manager of the property, including but not limited to an ownership interest in a common element or limited common element of the property;
- (3) Including adjacent areas and parking areas in the definition of all sensitive locations;
- (4) Specifying that "sensitive location" includes:
  - (A) Research facilities that are part of a public or private college or university;
  - (B) A shelter or residential facility operated by a government entity or a charitable organization serving adults, including but not limited to unhoused adults; and
  - (C) A voter service center, place of deposit, or appurtenance to a voter service center or place of deposit, including any area designated for voters waiting to vote, routes of access, and any other areas specified in section 11-132, Hawaii Revised Statutes, and any area within a two hundred foot radius from the perimeter of those locations;
- (5) Clarifying that "sensitive location" includes a bar, restaurant, or establishment issued a license for on-premise consumption of liquor;
- (6) Requiring the Attorney General to publish the number of violations of sensitive location restrictions in the annual report on licenses to carry;
- (7) Specifying that mandatory insurance coverage for licensees is effective one year after the Insurance Commissioner makes a formal determination that suitable policies are commercially available;
- (8) Adding language that requires the mandatory insurance coverage to include negligent storage of a firearm;
- (9) Adding language stating that nothing in chapter 134, Hawaii Revised Statutes, shall be construed to affect the authority of any county to impose requirements relating to firearms that exceed the statewide provisions established, including but not limited to prohibitions against carrying or possessing a firearm in additional locations or premises within that county;
- (10) Adding language to provide qualified immunity to physician assistants and advanced practice registered nurses who provide information on permit or license applicants;

- (11) Adding language specifying that all provisions in sections 134-2 and 134-9, Hawaii Revised Statutes, that state that a permit or license "shall" be granted shall be construed as discretionary, rather than mandatory, in the event the Attorney General certifies that the United States Supreme Court has overruled the holding of *New York State Rifle & Pistol Association, Inc. v. Bruen*, 142 S.Ct. 2111 (2022); and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1230, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Awa).

**SCRep. 1083 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 669**

The purpose and intent of this measure is to:

- (1) Establish regulations for the cultivation, sale, and personal use of specified small amounts of cannabis;
- (2) Decriminalize and regulate specified small amounts of cannabis for personal use; and
- (3) Establish taxes for cannabis sales.

Your Committees received testimony in support of this measure from the Office of the Public Defender; Aloha Green Holdings, Inc.; Big Island Grown Dispensaries; Democratic Party of Hawai'i Education Caucus; Green Aloha, Ltd.; Hawai'i Cannabis Industry Association; Manoa Botanicals, LLC; Marijuana Policy Project; Imua Alliance; Drug Policy Forum of Hawai'i; and over three hundred individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General; Department of the Prosecuting Attorney of the City and County of Honolulu; Cannabis Society of Hawai'i; Coalition for a Drug-Free Hawaii; Hawaii Substance Abuse Coalition; Hawai'i Public Health Institute; Hawaii Family Forum; Hawaii Catholic Conference; Smart Approaches to Marijuana Hawaii; Oahu Cannabis Farms Alliance; Pakaloha Care Clinic; Te Awa Rivers of Hope House, Inc.; Independent and Sovereign Nation State of Hawai'i; Maile Cannabis Clinic; and forty-eight individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, Department of Taxation, Tax Foundation of Hawaii, and Reason Foundation.

Your Committees find that there is a nationwide movement to legalize the medical and recreational use of cannabis. As of 2022, thirty-seven states, including Hawaii, and four United States territories allow the use of cannabis for either or both medical and personal purposes. Further, many of these states have decriminalized cannabis. The legalization of cannabis for personal or recreational use is the natural, logical, and reasonable outgrowth of the current science and attitude towards cannabis. Additionally, cannabis cultivation and sales hold potential for economic development, increased tax revenues, and reduction in crime. This measure establishes the framework to legalize and regulate cannabis for personal use, while promoting public health and safety.

Your Committees acknowledge the concerns raised in testimony from multiple stakeholders that this measure, as currently drafted, lacks certain features that could impede the transition to legalized personal use of cannabis and the successful regulation of the personal use cannabis industry. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language establishing a cannabis manufacturing facility license;
- (2) Clarifying the definition of "personal use" of cannabis to specify the amounts of cannabis plant material, cannabis concentrate, or other cannabis products with a certain amount of tetrahydrocannabinol that an eligible person may possess;
- (3) Clarifying that cannabis advertising shall be prohibited within one thousand feet of a youth-centered area;
- (4) Inserting language authorizing cannabis cultivation facility licensees, retail cannabis store licensees, cannabis testing facility licensees, and cannabis manufacturing facility licensees to transport cannabis and cannabis products to other licensees;
- (5) Inserting language authorizing cannabis cultivation facility licensees, retail cannabis store licensees, and cannabis manufacturing facility licensees to sell or wholesale cannabis to other licensees;
- (6) Inserting language authorizing:
  - (A) A cannabis cultivation facility licensee to establish one cultivation facility that shall be not larger than five thousand square feet of total indoor or outdoor canopy space;
  - (B) A retail cannabis store licensee to establish not more than two retail cannabis stores; and
  - (C) A manufacturing facility licensee to establish not more than two cannabis manufacturing facilities;
- (7) Clarifying that a person may have an interest in more than one license established by this measure, but shall not have an interest in more than one license in each category; provided that no person granted a cannabis testing facility license or a dual use cannabis license shall have an interest in any other license established by this measure;
- (8) Inserting language requiring existing medical cannabis dispensaries to submit to and obtain approval from the Department of Health, a medical preservation plan prior to operating as a dual use cannabis dispensary;
- (9) Clarifying that a license shall be issued no later than one hundred twenty days, rather than thirty days, after the agency's receipt of an application for a license;

- (10) Inserting language clarifying that this measure shall not be construed to prevent an employer from refusing to hire or taking an adverse employment action against a person because of the person's violation of policies restricting the use of cannabis or working while under the influence of cannabis;
- (11) Inserting language clarifying that a contract is not void or voidable as against public policy if it pertains to lawful activities authorized by this measure;
- (12) Inserting language establishing civil penalties against any person who intentionally operates a cannabis cultivation facility, cannabis manufacturing facility, cannabis testing facility, dual use cannabis dispensary, or retail cannabis store without a license;
- (13) Updating section 1 to reflect its amended purpose; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 669, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 669, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Fukunaga).

Ways and Means: Ayes, 10; Ayes with Reservations (Aquino, Wakai, Fevella). Noes, 2 (Inouye, Moriwaki). Excused, 1 (Shimabukuro).

**SCRep. 1084 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 211**

The purpose and intent of this measure is to ensure that employment, work, and pay that are eligible for the purpose of calculating public employee retirement benefits include retroactive reinstatement, retroactive rescission of suspension, retroactive pay differential, and back pay that are restored to an employee pursuant to a final adjudication of a court of competent jurisdiction.

Your Committees received written comments in support of this measure from the Department of Human Resources of the City and County of Honolulu, Hawaii Fire Fighters Association, Hawaii Government Employees Association, Hawaii State Teachers Association, State of Hawaii Organization of Police Officers, University of Hawaii Professional Assembly, and United Public Workers.

Your Committees received written comments on this measure from the Employees' Retirement System.

Your Committees find that including a public employee's retroactive reinstatement, retroactive rescission of suspension, retroactive pay differential, and back pay in determining retirement benefits is appropriate. Your Committee believes that enumerating this inclusion in statute will help to avoid potential uncertainties.

Your Committees have amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 211, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 211, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 12. Noes, 1 (Fevella). Excused, none.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1085 (Joint) Ways and Means and Judiciary on S.B. No. 300**

The purpose and intent of this measure is to prohibit expenditures of public moneys for improvements of lands not owned or leased by the State, subject to exceptions for certain legislative appropriations and for grants made pursuant to Chapter 42F, Hawaii Revised Statutes.

Your Committees received written comments in opposition to this measure from the Department of Land and Natural Resources.

Your Committees find that public moneys are held for the benefit of the public. Your Committees believe that placing certain limitations on the expenditure of those moneys, as proposed by this measure, will ensure that those moneys are used for public purposes.

Your Committees have amended this measure by exempting from the measure's prohibition:

- (1) Any expenditure for a project with the purpose of natural or cultural resource management; and
- (2) Any state grant.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 300, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 300, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 13; Ayes with Reservations (Kim). Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1086 (Joint/Majority) Ways and Means and Commerce and Consumer Protection on S.B. No. 459**

The purpose and intent of this measure is to appropriate moneys for the administration of the zero-emission vehicle fueling system rebate program.

Your Committees received written comments in support of this measure from Servco Pacific, Inc. and Alliance of Automotive Innovation.

Your Committees received written comments on this measure from the Public Utilities Commission.

Your Committees find that the appropriations made by this measure are necessary to ensure the proper administration of the zero-emission vehicle fueling system rebate program.

Your Committees have amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 459, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 459, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1087 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 498**

The purpose and intent of this measure is to require the establishment of, provide funding for, and require legislative reports regarding a program, led by the Department of Public Safety, to conduct random inspections of shipping containers for illegal fireworks and explosives.

Your Committees received written comments in support of this measure from the Department of Law Enforcement, Pearl City Neighborhood Board No. 21, Hawaiian Humane Society, and four individuals.

Your Committees received written comments on this measure from the Department of the Attorney General; Department of Budget and Finance; Department of Transportation; Department of the Prosecuting Attorney of the City and County of Honolulu; Matson Navigation Company, Inc.; Hawaii Harbor Users Group; and Young Brothers, LLC.

Your Committees find that the use of illegal fireworks is a persistent problem in the State. Your Committees believe that the program proposed by this measure may be effective in addressing this problem and preventing the use of illegal fireworks.

Your Committees have amended this measure by:

- (1) Inserting certain references to the Department of Law Enforcement, in anticipation of the transfer on January 1, 2024, to that department of certain powers and duties currently exercised by the Department of Public Safety;
- (2) Providing that any additional inspections shall be conducted by members of an appropriate bargaining unit who are subject to Chapter 89, Hawaii Revised Statutes, and not by individuals who are contracted or subcontracted by the Department of Public Safety or Department of Law Enforcement, as the case may be;
- (3) Amending the definitions of "aerial devices" and "fireworks" within state fireworks law;
- (4) Changing the appropriation from \$1,000,000 to an unspecified amount to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 498, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 498, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1088 (Joint) Ways and Means and Judiciary on S.B. No. 975**

The purpose and intent of this measure is to regulate electronic smoking devices and e-liquids in the same manner as traditional tobacco products.

More specifically, the measure:

- (1) Establishes the criminal offense of unlawful shipment of tobacco products;
- (2) Amends the definition of "tobacco products," as used in the State's cigarette tax and tobacco tax law, to include electronic smoking devices and e-liquids, thereby:
  - (A) Subjecting electronic smoking devices and e-liquids to the excise tax on tobacco products;
  - (B) Requiring retailers of electronic smoking devices or e-liquids to obtain a retail tobacco permit to sell, possess, keep, acquire, distribute, or transport these items;

- (C) Prohibiting persons from engaging in the business of a wholesaler or dealer of electronic smoking devices or e-liquids without first obtaining a license from the Department of Taxation; and
- (D) Applying other requirements of the cigarette tax and tobacco tax law to electronic smoking devices and e-liquids;
- (3) Increases the license fee for persons engaged as wholesalers or dealers of cigarettes and tobacco products;
- (4) Increases the retail tobacco permit fee for retailers engaged in the retail sale of cigarettes and tobacco products; and
- (5) Repeals various statutory provisions relating to electronic smoking devices, to avoid conflict with taxation and regulation under the cigarette tax and tobacco tax law.

Your Committees received written comments in support of this measure from the Department of the Attorney General; Department of Health; Coalition for a Tobacco-Free Hawaii Youth Council; Hawaii COPD Coalition; Keiki Injury Prevention Coalition; We Are One, Inc.; Hawaii Public Health Institute; Hawaii Primary Care Association; American Heart Association; Student Health Advisory Council of the University of Hawaii at Manoa; Parents for Public Schools of Hawaii; Hawaii Dental Association; Hawaii Community Foundation; Campaign for Tobacco-Free Kids; and numerous individuals.

Your Committees received written comments in opposition to this measure from the Hawaii Smokers Alliance, Aloha Petroleum, Minit Stop, Par Hawaii, National Taxpayers Union, and Americans for Tax Reform.

Your Committees received written comments on this measure from the Department of Taxation, Tax Foundation, Reason Foundation, and Tax Foundation of Hawaii.

Your Committees recognize the dramatic increase in the use of electronic smoking devices, or “vaping,” by Hawaii’s youth, and the lack of a state tobacco tax on electronic smoking devices and e-liquids. Your Committees find that the State has a substantial interest in reducing the number of individuals of all ages who use tobacco products, and a particular interest in protecting adolescents from the harms of tobacco dependence, including associated illnesses and premature death. Your Committees believe that this measure’s classification of electronic smoking devices and e-liquids as tobacco products will provide parity in the pricing and regulation of these products and ultimately encourage youth to make healthier choices by providing financial disincentives for purchasing these products.

Your Committees have amended this measure by:

- (1) Deleting the section of the measure that repealed section 328J-11.5, Hawaii Revised Statutes, which provides that state law preempts and voids all local ordinances or regulations that govern the sale of cigarettes, tobacco products, and electronic smoking devices and conflict with Chapter 328J, Hawaii Revised Statutes, to address concerns that the repeal of this section would result in fragmented regulation of cigarette, tobacco product, and electronic smoking device sales across the State; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 975, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 975, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).  
 Judiciary: Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 1089 (Joint) Ways and Means and Commerce and Consumer Protection on S.B. No. 1035**

The purpose and intent of this measure is to amend the general excise tax law.

More specifically, this measure exempts from the general excise tax amounts received by a hospital, infirmary, medical clinic, health care facility, pharmacy, or a medical practitioner for health care-related goods and services purchased under Medicaid, Medicare, or TRICARE.

Your Committees received written comments in support of this measure from the Office of the Mayor of the County of Hawaii; University of Hawaii; AARP Hawaii; Abinsay Pediatrics; Ahahui o na Kauka; Community First Hawaii; East Hawaii Independent Physicians Association; Hawaii Association of Professional Nurses; Hawaii Family Caregiver Coalition; Hawaii Independent Physicians Association; Hawaii Institute for Pain; Hawaii Medical Association; Hawaii Nurses Association-OPEIU Local 50; Hawaii Physician Shortage Crisis Task Force; Hawaii Provider Shortage Crisis Task Force; Hawaii Radiological Society; Hawaii Substance Abuse Coalition; Joyful Living, LLC; Maui Chamber of Commerce; Maui Lani Physicians and Surgeons; Pacific Radiology Group; Peter A. Matsuura, M.D.; Philippine Medical Association of Hawaii, and thirty-two individuals.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees received written comments on this measure from the Department of Taxation, Grassroot Institute of Hawaii, Hawaii Dental Service, Hawaii Society of Naturopathic Physicians; and Tax Foundation of Hawaii.

Your Committees find that, under the existing general excise tax law, there is an incongruity in the way medical service providers are treated. Your Committees also find that medical services rendered at a nonprofit hospital, infirmary, or sanitarium are exempt from the general excise tax, whereas the same services rendered by individual or group practices or clinics are fully taxable. Your Committees further find that government programs, such as Medicare, Medicaid, and TRICARE, do not compensate for the tax differential, leading some health care providers to bear additional economic costs.

Your Committees have amended this measure by:

- (1) Adding a sunset date of January 1, 2026; and

- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1035, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1035, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1090 (Joint) Ways and Means and Judiciary on S.B. No. 1280**

The purpose and intent of this measure is to stabilize and increase funding for the Tobacco Enforcement Unit within the Department of the Attorney General.

More specifically, this measure increases the:

- (1) Amount of funds that the Tobacco Enforcement Special Fund may carry over at the end of each fiscal year;
- (2) Cigarette tax stamp fee and the percentage of that fee allotted to the Tobacco Enforcement Special Fund; and
- (3) Sum of moneys received from the tobacco settlement as set forth in sections 28-15(c), 245-26(a), and 328L-2(a), Hawaii Revised Statutes.

Your Committees received written comments in support of this measure from the Department of the Attorney General, Department of Health, Department of Taxation, American Cancer Society Cancer Action Network, Hawaii Public Health Institute, and Hawaii Primary Care Association.

Your Committees received written comments in opposition to this measure from three individuals.

Your Committees received written comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the Tobacco Enforcement Special Fund supports efforts of the Tobacco Enforcement Unit of the Department of the Attorney General's to administer, monitor, and enforce the Tobacco Master Settlement Agreement and related Hawaii laws, including Chapters 486P and 675, Hawaii Revised Statutes. Your Committees also find that, pursuant to section 245-26(a)(2), Hawaii Revised Statutes, the Tobacco Enforcement Special Fund is partially funded by the cigarette tax stamp fee. However, the amounts of the cigarette tax stamp revenues deposited into the Tobacco Enforcement Special Fund have noticeably dropped in recent years. Your Committees further find that, to maintain the Tobacco Enforcement Unit's diligent enforcement efforts and to minimize the risk of losing the Master Settlement Agreement annual payments, it is critical that the unit receive adequate and continuous funding.

Your Committees have amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1280, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1280, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

Judiciary: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1091 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 1286**

The purpose and intent of this measure is to facilitate the development of affordable housing.

Specifically, this measure authorizes the Hawaii Community Development Authority to lease certain real property for a term of ninety-nine years.

Your Committees received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Community Development Authority; Stanford Carr Development, LLC; and one individual.

Your Committees received written comments on this measure from the Office of Hawaiian Affairs.

Your Committees find that although the development of leasehold housing units is a viable strategy to meet housing demand, the lease terms must be long enough to attract buyers and lenders. Your Committees further find that a term of ninety-nine years is an adequate length to attract lenders and buyers.

Your Committees have amended this measure by:

- (1) Providing that, in addition to lands that were classed as crown lands prior to August 15, 1895, the lease of lands that were classed as government lands prior to August 15, 1895, shall also have a term not to exceed sixty-five years;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1286, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1286, S.D. 1.

Signed by the Chairs on behalf of the Committees.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).  
 Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1092 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 81**

The purpose and intent of this measure is to clarify that the Board of Land and Natural Resources' authority shall supersede the Mauna Kea Stewardship and Oversight Authority for all Mauna Kea lands designated under the state conservation district.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and three individuals. Your Committees received testimony in opposition to this measure from the Mauna Kea Stewardship and Oversight Authority and three individuals.

Your Committees find that Act 255, Session Laws of Hawaii 2022 (Act 255), established the Mauna Kea Stewardship and Oversight Authority (MKSOA) and placed it within the Department of Land and Natural Resources for administrative purposes. The intent of Act 255 was to transfer management authority over Mauna Kea lands from the University of Hawaii to the MKSOA over a five-year transition period, during which the MKSOA and the University of Hawaii will jointly manage Mauna Kea lands, provided that the MKSOA's day-to-day operations shall be carried out by the Center for Mauna Kea Stewardship for the transition period. Following the end of the transition period, or sooner, the Department of Land and Natural Resources shall then be subject to the oversight of the MKSOA regarding the control and management of Mauna Kea lands. Act 255 is ambiguous as to which agency has jurisdiction over conservation district lands. Therefore, this measure clarifies this ambiguity.

Your Committees have amended this measure by:

- (1) Specifying that the Chairperson of the University of Hawaii Board of Regents, with approval of the Board of Regents subject to quorum and majority requirements, may designate a member of the Board of Regents or past member of the Board of Regents with experience with Mauna Kea, to serve as the Chairperson of the University of Hawaii Board of Regents' Designee on the MKSOA; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 81, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 81, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1093 (Joint) Judiciary and Ways and Means on S.B. No. 94**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to approve or deny an application for a special activity permit (SAP) for aquatic research within ninety days from the date that it was submitted; and
- (2) Establish and appropriate \$250,000 for two full-time equivalent (2.0 FTE) positions within the Division of Aquatic Resources to support the SAP review process.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and three individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that any individual associated with certain institutions who collects regulated aquatic organisms or resources, uses regulated gear, or conducts activities in regulated aquatic areas for research, educational, management, or propagation purposes is required to hold a one-year SAP permit pursuant to section 187A-2, Hawaii Revised Statutes. Your Committees note the hardship on SAP applicants caused by the lengthy SAP review process, which can take over twelve months. This measure will facilitate the timely review of SAP applications and the issuance of these permits.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount for the establishment of two full-time equivalent (2.0 FTE) positions within the Division of Aquatic Resources; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 94, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 94, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1094 (Joint) Judiciary and Ways and Means on S.B. No. 67**

The purpose and intent of this measure is to:

- (1) Prohibit any commercial vendor from presetting commercial beach equipment on any public beach under the jurisdiction of the Department of Land and Natural Resources, unless the customer is physically present;
- (2) Require commercial vendors to expeditiously remove commercial beach equipment after the customer has finished using it;
- (3) Allow the Department of Land and Natural Resources to grant exemptions through rules; and
- (4) Establish administrative fines for violations.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and three individuals. Your Committees received comments on this measure from the Hawai'i Tourism Authority.

Your Committees find that many residents complain to state officials about equipment presetting on state beaches by the visitor industry and that issues persist due to the lack of a clear definition of presetting. Your Committees additionally find that the State has worked to address the presetting of beach umbrellas and chairs on beaches by issuing citations, but courts have dismissed many of these citations due to concessionaires stating that they were setting up umbrellas for customers with prior reservations. Thus, this measure prohibits any commercial vendor from presetting commercial beach equipment on any public beach when customers are not present and requires that vendors remove the equipment once the customers leave or no longer are using the equipment.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 67, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 10. Noes, none. Excused, 3 (Kanuha, Moriwaki, Fevella).

**SCRep. 1095 (Joint) Judiciary and Ways and Means on S.B. No. 1404**

The purpose and intent of this measure is to authorize the Department of Transportation Airports Division to:

- (1) Demand and collect reimbursement from any airport contractor, tenant, or user for the entire amount of fines and penalties levied for the violation of federal, state, or county laws related to environmental protection or the United States Department of Homeland Security; and
- (2) Enter into a capital advancement contract with a private party for public improvement or construction projects at State airports under certain circumstances.

Your Committees received testimony in support of this measure from the Department of Transportation.

Your Committees find that in the past three years, the Department of Transportation was fined by the United States Transportation Security Administration approximately \$150,000 for violations caused by tenants and contractors at State airports. Therefore, providing the Department with the statutory authority to demand and collect reimbursements from violators will help streamline the general recourse process and ensure that funds ceded as fines are reclaimed for the betterment of the airports.

Your Committees also find that the need for airport improvements can arise unexpectedly and that oftentimes, these projects require a quick response that is not typically available through public financing methods. Therefore, allowing the Department to enter into certain capital advancement contracts with private parties will allow for the timely completion of necessary airport improvements, as they arise, to the benefit of the traveling public.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1404, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1096 (Joint) Judiciary and Ways and Means on S.B. No. 306**

The purpose and intent of this measure is to:

- (1) Require the full text of the proposed administrative rules of all state agencies to be posted on the website of the Office of the Lieutenant Governor in a digitally accessible and searchable format;
- (2) Require all state agencies to make the full text of their administrative rules available in a digitally accessible and searchable format on the website of the Office of the Lieutenant Governor;
- (3) Require the Office of the Lieutenant Governor to submit a report on the long-range plans for the expansion, cross-referencing, and centralization of the Hawaii Administrative Rules on its website, along with the implementation of the plans, to the Legislature prior to the Regular Session of 2024; and
- (4) Appropriate an unspecified amount to the Office of the Lieutenant Governor for the establishment of two full-time equivalent positions to implement and maintain the centralization and accessibility of the Hawaii Administrative Rules on the Lieutenant Governor's website.

Your Committees received testimony in support of this measure from the State of Hawaii Organization of Police Officers and two individuals. Your Committees received comments on this measure from the Office of the Lieutenant Governor.

Your Committees find that this measure will make it easier for the public and community stakeholders to view and understand the proposed administrative rule changes that will impact their lives. Requiring information to be digitally accessible will enable individuals with disabilities to access this information. Therefore, this measure will increase transparency across all state agencies.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 306, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 13. Noes, none. Excused, none.

**SCRep. 1097 (Joint) Judiciary and Ways and Means on S.B. No. 786**

The purpose and intent of this measure is to require government entities to seek reimbursement for search and rescue expenses for persons who require rescue after ignoring warning signs, leaving a hiking trail to enter a prohibited area, or hiking on a trail closed to the public.

Your Committees received testimony in support of this measure from the Department of Law Enforcement. Your Committees received testimony in opposition to this measure from the Honolulu Police Department. Your Committees received comments on this measure from the State Fire Council, Department of Fire & Public Safety of the County of Maui, and Honolulu Fire Department.

Your Committees find that state and county agencies are regularly called upon to participate in search and rescue operations for people who have ignored posted warnings, left defined hiking trails, and ventured into closed areas. Standard search and rescue of lost or injured persons are anticipated and part of the expected operations of first responders, but when an individual chooses to ignore warnings of government agencies or private landowners to maintain public safety, ongoing operations must be put on hold and agencies must incur additional unbudgeted costs and expenses to find and rescue these individuals. This measure requires agencies to pursue reimbursement of those extra costs and expenses from an individual who unreasonably disregarded their safety by ignoring warnings or leaving hiking trails, resulting in the need for rescue services.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 786, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1098 (Joint) Judiciary and Ways and Means on S.B. No. 745**

The purpose and intent of this measure is to:

- (1) Expand the offense of false labeling of Hawaii-grown coffee to include roasted coffee;
- (2) Impose a \$10,000 fine for each separate offense of false labeling of Hawaii-grown roasted coffee; and
- (3) Appropriate an unspecified amount of funds for one full-time equivalent (1.0 FTE) measurements standards inspector position within the Department of Agriculture.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Hawaii Farmers Union United, Synergistic Hawai'i Agriculture Council, Kona Coffee Farmers Association, Rancho Aloha Coffee Farm, and one individual.

Your Committees find that it is important for the State to continue to protect its distinctive, premium brand of coffee. Your Committees recognize that some producers of roasted coffee that includes a blend of one or more Hawaii-grown coffees use a label that contains the geographic origin of the Hawaii-grown coffee, thereby misleading consumers into believing that all of the roasted coffee was exclusively grown in the named region of the State. The stricter penalty and increased enforcement resulting from this measure will help deter the distribution of roasted coffee that is falsely labeled as Hawaii-grown and protect the reputation of Hawaii's coffee industry.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 745, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1099 (Joint) Judiciary and Ways and Means on S.B. No. 612**

The purpose and intent of this measure is to:

- (1) Require sellers or providers of emotional support animals and sellers or providers of certificates, identifications, tags, vests, leashes, and harnesses identifying an animal as an emotional support animal to provide a disclaimer that the animal is not a service animal and the user is not accorded by law the same rights and privileges as those of service animal users; and
- (2) Establish penalties for violations of these requirements.

Your Committees received testimony in support of this measure from the Department of Human Services, Disability and Communication Access Board, and one individual. Your Committees received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committees find that many people are unaware of the difference between a service animal and an emotional support animal. To qualify as a service animal pursuant to state law, a dog must be individually trained to do work or perform tasks for the benefit of an individual with a disability. The same training is not required of an animal designated as an emotional support animal. Due to this difference in training, emotional support animals misrepresented as service animals can endanger the health and safety of individuals with disabilities by distracting their service animals. To protect the health and safety of these individuals, this measure reduces the unwitting misrepresentation of emotional support animals as service animals by requiring disclaimers regarding an animal's certification and a user's rights and privileges upon receipt of an emotional support animal or emotional support animal certificate or accessory.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 612, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1100 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 398**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to collect and analyze data to determine the impact of expanding post-permanency services to families receiving benefits from the State's Adoption Assistance Program and report its findings and recommendations to the Legislature before the convening of the Regular Session of 2025; and
- (2) Appropriate funds to the Department of Human Services for the procurement of contracted services to provide additional support, resources, and monitoring of families receiving benefits from the State's Adoption Assistance Program.

Your Committees received testimony in support of this measure from the Department of Human Services. Your Committees received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform and one individual.

Your Committees find that additional measures are needed to strengthen the network of state systems that protect and ensure the safety and security of at-risk children who are or have previously been under the protection and legal jurisdiction of the State. One means to accomplish this goal is to extend the oversight of child welfare services beyond foster care to include children whose families receive payments through the State's Adoption Assistance Program. This measure would assist the Department of Human Services in their efforts to improve the child welfare system by assisting with family strengthening and the maintenance of a safe home environment for adopted children.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 398, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1101 (Joint) Judiciary and Ways and Means on S.B. No. 384**

The purpose and intent of this measure is to:

- (1) Authorize each county to adopt ordinances to enforce the design, construction, and signage requirements of the federal Americans with Disabilities Act of 1990 (ADA), as amended; part III of chapter 291, Hawaii Revised Statutes; and any administrative rules adopted under that part, including the establishment of penalties for failure to comply with the ordinance; and
- (2) Clarify that an official appointed by a county may enter property of places of public accommodation to enforce violations of the ordinances adopted by the county.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board.

Your Committees find that more than one hundred thousand residents in Hawai'i have an active disability parking permit issued pursuant to the Statewide Program on Parking for Persons with Disabilities. Your Committees find, however, that many places of public accommodation fail to comply with the ADA and state requirements for providing parking spaces reserved for persons with disabilities, including their number, location, design, and signage. Although existing law sets forth penalties for public and private entities that fail to comply with these requirements and allows law enforcement officers and commissioned volunteer enforcement officers to enter private property for enforcement, the statute has not been enforced since its enactment on July 1, 2002, because the law does not designate a specific government agency to impose or collect the penalties. This measure will allow the counties to adopt ordinances to enforce the ADA and state requirements through appointed county officials.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 384, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1102 (Joint) Judiciary and Ways and Means on S.B. No. 235**

The purpose and intent of this measure is to require the Department of the Attorney General to:

- (1) Develop and implement a statewide program to prevent human trafficking and provide increased support and assistance to victims of human trafficking and victims of the commercial sexual exploitation of children;
- (2) Submit a report to the Legislature before the Regular Session of 2024 on the State's efforts to address the commercial sexual exploitation of children; and
- (3) Submit a report to the Legislature before the Regular Session of 2025 on the State's efforts to address human trafficking.

Your Committees received testimony in support of this measure from the Department of Health, Department of Human Services, Office of Hawaiian Affairs, Rainbow Family 808, Zonta Club of Hilo, Catholic Charities Hawai'i, and two individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that human trafficking and the commercial sexual exploitation of children have been a growing issue both in the State and throughout the United States. Your Committees also find that the covert nature of the crimes and the reluctance of the exploited individuals to report or identify themselves as victims make the crimes extremely difficult to detect and counter. Your Committees further find that while the State has implemented multiple programs to prevent and fight these crimes, there is a need for a more coordinated and comprehensive effort. This measure furthers the State's efforts in countering human trafficking and commercial sexual exploitation of children by establishing a robust and comprehensive statewide framework.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 235, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1103 (Joint) Judiciary and Ways and Means on S.B. No. 129**

The purpose and intent of this measure is to:

- (1) Require providers of no-cost emergency shelter and related services to maintain separation for unrelated adults and minor children; and
- (2) Make permanent the amendments to the definition of "provider" to include organizations, which are not child placing organizations or child caring institutions that meet certain criteria.

Your Committees received testimony in support of this measure from Rainbow Family 808, Hawai'i Youth Services Network, and Opportunity Youth Action Hawai'i. Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that there is a population of unaccompanied homeless minors who avoid the use of shelter services due to fear of being placed into the foster care system or into a shelter situation that they do not want to be in. To allow these youth to access emergency shelters, Act 23, Session Laws of Hawaii 2021 (Act 23), expanded the definition of a "provider" who may provide consenting minors with no-cost emergency shelter and related services to include organizations that are not child placing organizations or child caring institutions under certain conditions. However, Act 23 is scheduled to be repealed on June 30, 2023. This measure repeals the sunset date for Act 23, thereby making the expanded definition of "provider" permanent and provides further protection to minors in emergency shelters by requiring the providers to maintain fully separated service areas between unrelated minors and adults.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 129, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1104 (Joint) Judiciary and Ways and Means on S.B. No. 937**

The purpose and intent of this measure is to reform the decision-making process of the Land Use Commission by:

- (1) Clarifying that a simple majority of affirmative votes of the members of the Land Use Commission present at a meeting and qualified to vote is required for any boundary amendment; and
- (2) Reducing the number of days within which the Land Use Commission must act for certain actions related to amendments to district boundaries.

Your Committees received testimony in support of this measure from the Hawai'i Association of REALTORS. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committees received comments on this measure from the Land Use Commission and the Grassroot Institute of Hawaii.

Your Committees find that one of the major causes for the slow production of housing in the State are the delays that stem from the long and unpredictable planning and permitting process. According to testimony received by your Committees, the State's average delay in the permit and approval process is three times the length of the national mean. This measure seeks to expedite the necessary approval from the Land Use Commission for any boundary amendments, especially district boundaries involving land areas greater than fifteen acres.

Your Committees note the concerns raised by the Land Use Commission regarding the reduction of days within which it must conduct a hearing and vote to approve, deny, or modify a petition to amend district boundaries involving land areas greater than fifteen acres, and find that this merits further consideration. Your Committees respectfully request that these issues and concerns be examined as this measure moves forward in the legislative process.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 937, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12; Ayes with Reservations (Kim). Noes, none. Excused, 1 (Fevella).

**SCRep. 1105 (Joint) Judiciary and Ways and Means on S.B. No. 962**

The purpose and intent of this measure is to:

- (1) Add or clarify signage, manufactured cannabis product, and escort requirements for the medical cannabis dispensary program;
- (2) Establish annual reporting requirements to increase public transparency regarding the medical cannabis registry program; and
- (3) Make various housekeeping amendments.

Your Committees received testimony in support of this measure from the Department of Health, Pono Life Maui, Cure Oahu, and one individual. Your Committees received comments on this measure from Akamai Cannabis Consulting.

Your Committees find that streamlining medical cannabis dispensary operations and resources allows businesses to remain operational and serve patient needs. Additionally, informing medical cannabis patients through signage allows patients to make informed decisions before purchasing specific products. Creating transparency between medical cannabis dispensaries and patients also promotes safer public health practices. This measure ensures continued access to medical cannabis while also addressing consumer protection and public health concerns.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 962, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1106 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1018**

The purpose and intent of this measure is to:

- (1) Require the Governor to ensure continued operation of medical facilities upon declaration of a state of emergency and during times of health or pandemic emergencies; and
- (2) Allow hospitals to suspend elective surgeries during the period of emergency to address the facility's bed capacity.

Your Committees received comments on this measure from the Healthcare Association of Hawaii.

Your Committees find that Hawai'i fared far better than other states during the coronavirus disease 2019 pandemic, with far lower infection and death rates. Your Committees believe that this success was achieved through cooperation between public and private entities, with hospitals, nursing homes, and other medical facilities working extensively with both federal and state officials to ensure the continuation of essential services. This measure will allow the State to remain resilient during a state of emergency by ensuring that residents retain access to necessary services.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1018, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1107 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1357**

The purpose and intent of this measure is to:

- (1) Make permanent Act 141, Session Laws of Hawaii 2009, which requires the counties to issue affordable housing credits to the Department of Hawaiian Home Lands upon the Department's request; and
- (2) Make permanent Act 98, Session Laws of Hawaii 2012, which requires the counties to issue affordable housing credits for each residential unit developed by the Department of Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Dowling Company, Inc.; and one individual.

Your Committees find that affordable housing credits provide the Department of Hawaiian Home Lands greater opportunities to gain resources to develop homesteads. For example, the Department of Hawaiian Home Lands offers a price reduction of housing units offered by homebuilders on Hawaiian home lands through the affordable housing credits program. Additionally, the Department of Hawaiian Home Lands affordable housing program also offers affordable housing options to beneficiaries at no cost to the State. While affordable housing credits provide the Department of Hawaiian Home Lands with flexibility to continue its mission to effectuate the Hawaiian Homes Commission Act of 1920, as amended, the affordable housing credits are temporary in nature and set to expire in 2024. This measure ensures continuity of the affordable housing credits program to allow the Department of Hawaiian Home Lands to continue its mission to serve the native Hawaiian people.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1357, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1108 (Joint) Judiciary and Ways and Means on S.B. No. 1377**

The purpose and intent of this measure is to:

- (1) Revise chapter 342D, Hawaii Revised Statutes, to add definitions that are consistent with federal Clean Water Act regulations;
- (2) Increase certain statutory civil penalties relating to water pollution; and
- (2) Clarify the Director of Health's role as a certifying agency, including enforcement of water quality certifications.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that this measure's inclusion of "wetlands" within the definition of "state waters" is consistent with the revised definition of "waters of the United States" as published on January 18, 2023, in the Federal Register. Your Committees further find that the maximum statutory civil penalty provided in section 342D-30(a), Hawaii Revised Statutes, relating to water pollution has not been updated since 1997. Thus, this measure adds definitions to and updates penalties in chapter 342D, Hawaii Revised Statutes, to match federal standards and inflation-adjusted penalty amounts to deter water polluters.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1377, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1109 (Joint) Judiciary and Ways and Means on S.B. No. 1391**

The purpose and intent of this measure is to authorize the Board of Land and Natural Resources to place a lien on property for noncompliance with administrative enforcement action.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and Surfrider Foundation Hawai'i Region. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that coastal erosion facilitated by rising sea levels is a threat to Hawaii's iconic beaches and shoreline homes. In response to rising tides, many private citizens who have property near public beaches have resorted to building erosion control structures. However, while these shoreline hardening structures may help protect a homeowner's private property, they often encroach upon public lands and beaches, to the detriment of the beachgoing public. Further, the debris from these illegal structures – which can include rocks, concrete, rebar, and textiles – may create serious public hazards along the shoreline and in the water. Your Committees find that the Department of Land and Natural Resources has struggled to resolve the described problems caused by encroaching structures that are typically unpermitted or have remained under an expired permit far beyond their allotted authorization. Therefore, this measure serves to aid the Department in addressing noncompliant and potentially hazardous shoreline hardening structures by allowing the Department to attach a lien on the owner's property.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1391, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1110 (Joint) Judiciary and Ways and Means on S.B. No. 1490**

The purpose and intent of this measure is to require the State to:

- (1) Defend professionally licensed or certified state employees from civil actions when the employee was acting within the scope of their employment and was not grossly negligent or wanton; and
- (2) File a motion to be heard with the court when the State refuses to defend a state or county employee from civil actions on certain grounds.

Your Committees received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and Hawaii Association for Justice. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that in *Slingsuff v. State*, 131 Hawai'i 239, 317 P.3d 683 (Haw. Ct. App. 2013), the Intermediate Court of Appeals held that physicians employed by the State exercising purely medical discretion in diagnosing and treating patients, were not protected from medical malpractice claims under the doctrine of qualified immunity. Thus, to override the Intermediate Court of Appeals' holding, the Legislature enacted Act 44, Session Laws of Hawaii 2022 (Act 44), which clarified, among other things, that when a professionally licensed or certified employee of the State acts within the scope of their employment, the State will be exclusively liable for civil tort claims resulting from the negligent or wrongful acts or omissions should the State agree to be exclusively liable and that any civil actions for money damages against the state employee thereafter would be precluded.

However, your Committees find that Act 44 did not clarify the circumstances in which the State has a duty to defend its professionally licensed or certified employees deemed to be acting within the scope of their employment when it chooses not to invoke exclusive liability for civil tort claims. Therefore, this measure provides the missing protection needed for professionally licensed or certified state employees.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1490, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1111 (Joint) Judiciary and Ways and Means on S.B. No. 867**

The purpose and intent of this measure is to:

- (1) Prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to buyers who are residents of the State, are owner-occupants, and do not own any other real property; and
- (2) Require each county to submit a report on inclusionary zoning requirements to the Legislature every year until the Regular Session of 2028.

Your Committees received testimony in support of this measure from Hawaii Housing Financing and Development Corporation. Your Committees received testimony in opposition to this measure from Department of Planning and Permitting of the City and County of Honolulu. Your Committees received comments on this measure from the Grassroot Institute of Hawaii.

Your Committees find that the counties play a major role in setting policies that impact the production of housing in the State. Your Committees recognize that counties have used inclusionary zoning rules to encourage the creation of affordable housing in the State. According to testimony received by your Committees, well-intentioned inclusionary zoning makes housing less affordable, since developers respond to such mandates by building fewer affordable housing units. This measure would provide a strong incentive for the production of housing units at all price points, thereby allowing developers to meet the housing needs of the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 867, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 867, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1112 (Joint) Judiciary and Ways and Means on S.B. No. 869**

The purpose and intent of this measure is to clarify that a majority of the members appointed to the Youth Commission shall constitute a quorum to do business.

Your Committees received testimony in support of this measure from the Department of Human Services, Office of Youth Services, Hawai'i State Youth Commission, and four individuals.

Your Committees find that under existing law, eight members of the Youth Commission are required to conduct official business. This requirement has hindered the Youth Commission's ability to fulfill its purpose and mission in recent years, as staggered terms and reduced membership have prevented the Commission from reaching quorum. To help facilitate the work of the Commission, this measure ensures the number of Commissioners required to constitute quorum reflects the majority of appointed, rather than statutorily provided for, Commissioners.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 869, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 869, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1113 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 763**

The purpose and intent of this measure is to temporarily exempt Hawaii Housing Finance and Development Corporation affordable housing projects from certain state and county fees and exactions when the units of the housing project are exclusively made available to certain qualified residents.

Your Committees did not receive any testimony on this measure.

Your Committees find that this measure would reduce the costs for developers to construct affordable housing, thereby encouraging the production of much-needed affordable housing units in the State.

Your Committees have amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 763, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 763, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1114 (Joint) Judiciary and Ways and Means on S.B. No. 738**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to administer a lease award program for beneficiaries on the homestead lease waiting list who are sixty years old or older or terminally ill, under certain conditions;
- (2) Authorize the qualified successor of a beneficiary who passed away while on the homestead lease waiting list to file a claim for a lease award within four years of this measure's effective date; and
- (3) Require the Department of Hawaiian Home Lands to adopt rules for the administration of this measure within one year of its effective date.

Your Committees received testimony in support of this measure from Hydroponics Alternatives, LLC and seven individuals. Your Committees received comments on this measure from the Department of Hawaiian Home Lands.

Your Committees find that beneficiaries may spend their entire lives on the Department of Hawaiian Home Lands' homestead lease waiting list without receiving a lease award. While a beneficiary's eligible descendants may claim a beneficiary's lease award upon the beneficiary's passing, many descendants are deemed ineligible to do so under existing law, and beneficiaries are unable to designate a successor. To address the intergenerational waiting times to receive a homestead lease award, this measure authorizes the Department to administer an additional program through which certain beneficiaries who are elderly or terminally ill may receive lease awards and allow these beneficiaries to each designate a qualified successor.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 738, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 738, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1115 (Joint) Judiciary and Ways and Means on S.B. No. 521**

The purpose and intent of this measure is to establish a Surplus Military Land Task Force within the Office of Planning and Sustainable Development to:

- (1) Plan for the remediation and restoration of lands currently under federal control that are anticipated to be returned to the State;
- (2) Consider potential alternative uses; and
- (3) Identify any lands that should continue under federal control for the next ten years.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development and two individuals. Your Committees received comments on this measure from the Office of Hawaiian Affairs, Department of Land and Natural Resources, and Hawaii Military Affairs Council.

Your Committees find that it is necessary for the State to continue to take a proactive approach as the upcoming expirations of land leases between the State and the United States government lead to the return of state ceded lands. This measure seeks to facilitate the remediation and restoration of properties in the State that have been used as military facilities.

Your Committees have amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 521, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 521, S.D. 2.

Signed by the Chairs on behalf of the Committees.  
 Judiciary: Ayes, 5. Noes, none. Excused, none.  
 Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1116 (Joint) Judiciary and Ways and Means on S.B. No. 445**

The purpose and intent of this measure is to:

- (1) Increase civil penalties for the violation of various pollution provisions; and
- (2) Establish and appropriate funds for one full-time equivalent environmental health specialist position.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees find that various pollution provisions have not been updated for more than twenty years and that, due to inflation and other economic changes, the fines in these provisions have lost their ability to deter polluting behavior. For many polluting entities, the economic benefit of polluting may outweigh the cost of paying the fines in place. Thus, this measure increases the penalties of several pollution provisions to ensure that any financial or economic gain of committing such violations are eliminated, thereby reducing pollution in the State.

Your Committees have amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 445, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 445, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1117 (Joint) Judiciary and Ways and Means on S.B. No. 366**

The purpose and intent of this measure is to establish penalties for the failure to comply with a County Director of Finance's request that a vehicle number plate or special number plate be returned.

Your Committees received testimony in support of this measure from the Department of Customer Services of the City and County of Honolulu.

Your Committees find that occasionally it is necessary to recall a specialty license plate after it has been issued. However, there is currently no incentive for the owner of a specialty license plate to comply with a request to return the plate. This measure will impose a civil fine to promote compliance with a request to recall a specialty license plate.

Your Committees have amended this measure by:

- (1) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 366, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 366, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1118 (Joint) Judiciary and Ways and Means on S.B. No. 210**

The purpose and intent of this measure is to establish a Criminal Justice Data Sharing Working Group to make recommendations for a statewide criminal justice data repository.

Your Committees received testimony in support of this measure from the Department of Law Enforcement, Department of Public Safety, Hawaii Correctional System Oversight Commission, Office of the Mayor of the City and County of Honolulu, and Department of the Prosecuting Attorney of the City and County of Honolulu. Your Committees received testimony in opposition to this measure from the Department of the Attorney General. Your Committees received comments on this measure from the Criminal Justice Research Institute, Legislative Reference Bureau, and The Civil Beat Law Center for the Public Interest.

Your Committees find that the establishment of a statewide criminal justice data repository will increase the efficiency of the State's criminal justice system and improve public safety and homeland security. Your Committees further find that the establishment of a working group to address the complexities of statewide data sharing in the criminal justice system will allow all state and county criminal justice agencies to securely and efficiently share appropriate and essential data.

Your Committees have amended this measure by:

- (1) Specifying that the working group shall provide annual updates to the Legislature;
- (2) Clarifying that the Legislative Reference Bureau, upon request of the working group's chairperson by no later than October 1st of each year, may draft proposed legislation for the working group;
- (3) Specifying that the working group members and their respective departments and agencies shall protect the information and data that may be shared as part of the working group;
- (4) Specifying that the working group shall cease to exist on July 1, 2029;
- (5) Inserting an effective date of March 22, 2075, to encourage further discussion; and

- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 210, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 210, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1119 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 990**

The purpose and intent of this measure is to:

- (1) Establish a Traffic Fines Task Force that will examine the Finnish tiered traffic fines system;
- (2) Determine whether a similar system could be implemented in Hawai'i;
- (3) Provide recommendations as to how a system could be implemented; and
- (4) Appropriate funds.

Your Committees received comments on this measure from the Judiciary.

Your Committees find that a primary purpose for speeding fines is to deter speeding. However, flat fines fail to deter affluent offenders, as their wealth allows them to easily pay the fines. Your Committees believe that a scaled system for traffic fines, such as the system utilized by Finland, may be effective in deterring wealthy offenders. This measure will explore the feasibility of a scaled fine system by establishing a Traffic Fines Task Force to determine whether a scaled fine system could be implemented in the State.

Your Committees have amended this measure by:

- (1) Inserting an unspecified appropriation amount for the establishment of the Traffic Fines Task Force; and
- (2) Inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 990, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 990, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1120 (Joint) Judiciary and Ways and Means on S.B. No. 1014**

The purpose and intent of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to retain independent legal counsel where the opposing party to the reasonably anticipated litigation is the State or another state agency; and
- (2) Provide that fees owed to independent legal counsel shall be paid by the State.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committees received testimony in opposition to this measure from the Department of the Attorney General and one individual.

Your Committees find that the Department of Hawaiian Home Lands has a trust obligation to faithfully carry out the mission and spirit of the Hawaiian Homes Commission Act of 1920, as amended, for the native Hawaiian beneficiaries. Further, to ensure the Department of Hawaiian Home Lands fulfills its trust obligations to the fullest extent, the Department may, at times, find strategic plans and alternatives that may not align with other agencies. As a result of its unique history, the Department of Hawaiian Home Lands should be allowed to utilize legal counsel that will best represent the interests of the client, the native Hawaiian people. This measure authorizes the Department of Hawaiian Home Lands to continue its mission to effectuate the purposes of the Hawaiian Homes Commission Act of 1920, as amended.

Your Committees have amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1014, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1014, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1121 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1311**

The purpose and intent of this measure is to repeal Act 192, Session Laws of Hawaii 2007, which requires the Employees' Retirement System to divest itself of investments in companies that provide support for the genocide in Darfur, Sudan, and to provide annual reports to the Legislature on the status of those divestments.

Your Committees received testimony in support of this measure from the Employees' Retirement System Board of Trustees. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the Legislature enacted Act 192, Session Laws of Hawaii 2007 (Act 192), to voice its opposition to the humanitarian crisis that was occurring in Darfur, Sudan, and to place economic pressure on the Sudanese Government by joining the international community in establishing sanctions. To that end, Act 192 prohibited the Employees' Retirement System (ERS) from investing in companies that do business with Sudan and required the ERS administrator to identify and monitor those companies.

Your Committees further find that Act 192 was to remain in effect only insofar as it continued to be consistent with the foreign policy of the United States. Further, Act 192 set forth specific triggering conditions that, upon their occurrence, would necessitate its repeal. Your Committees find that one or more of these triggering conditions was satisfied by the following: (1) Executive Order 13761 of January 13, 2017, Recognizing Positive Actions by the Government of Sudan and Providing for the Revocation of Certain Sudan-Related Sanctions; (2) Department of State Public Notice 10156, Notice Regarding Positive Actions by the Government of Sudan; and (3) the Presidential Memorandum of October 26, 2020, Certification Pursuant to Section 6(E) of the Comprehensive Peace in Sudan Act of 2004, as Amended by the Darfur Peace and Accountability Act of 2006. Therefore, this measure accordingly repeals Act 192.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1311, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1311, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1122 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 1418**

The purpose and intent of this measure is to:

- (1) Establish a person's conduct that produces, or causes to be produced, noise exceeding a certain decibel level during night time hours in any area zoned as residential or mixed-use residential as unreasonable noise that constitutes the offense of disorderly conduct; and
- (2) Appropriate funds for enforcement.

Your Committees received testimony in support of this measure from the Department of Health, Waikiki Neighborhood Board No. 9, and eleven individuals. Your Committees received testimony in opposition to this measure from the Honolulu Police Department, UNITE Here Local 5, and one individual.

Your Committees find that Waikiki and similarly boisterous and densely populated areas in the State are plagued by excessive noise pollution from noisy, backfiring mufflers and amplified loud music from cars, motorcycles, and mopeds. Your Committees further find that residents in these areas who were once able to sleep soundly through the night with their windows open to allow for cooling winds, must now keep their windows closed to minimize excessive street noise with some resorting to buying air conditioning units and noise-cancelling headphones to ensure a restful and undisturbed sleep. This measure seeks to improve the health and quality of life for residents living in the State's urban areas by restricting unreasonable noise exceeding a specified level during night time hours in any area zoned as residential or mixed-use residential zoned.

Your Committees have amended this measure by changing the noise restriction time period from 7:00 p.m. to 7:00 a.m., to 10:00 p.m. to 6:00 a.m.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1418, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 1418, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1123 Ways and Means on S.B. No. 449**

The purpose and intent of this measure is to appropriate moneys to the Department of Business, Economic Development, and Tourism for the Commission on the Thirteenth Festival of Pacific Arts and Culture to plan for the Festival of Pacific Arts and Culture to be held in Honolulu from June 6 to June 16, 2024.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Tourism Authority; Commission on the 13th Festival of Pacific Arts & Culture; and one individual.

Your Committee finds that the Festival of Pacific Arts and Culture provides a venue for celebrating indigenous cultures and traditions from throughout the Pacific region. Your Committee further finds that the festival is expected to generate up to \$27,000,000 in direct sales and \$3,200,000 in state tax revenues.

Your Committee has amended this measure by requiring the Department of Business, Economic Development, and Tourism to submit to the Legislature:

- (1) Prior to the release of the moneys appropriated by this measure, a report detailing how any state moneys that were previously appropriated for the festival were expended; and
- (2) No later than twenty days prior to each Regular Session until the moneys appropriated by this measure are expended or lapse, a report on the Commission on the Thirteenth Festival of Pacific Arts and Culture's expenses for the preceding year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 449, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 449, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1124 Ways and Means on S.B. No. 458**

The purpose and intent of this measure is to promote the discovery and development of geothermal resources in the State.

More specifically, this measure:

- (1) Establishes additional sources of funding for, and authorized uses of moneys deposited into, the university innovation and commercialization initiative special fund;
- (2) Requires the Board of Land and Natural Resources, certain counties, and the Hawaii Groundwater and Geothermal Resources Center to submit annual reports to the Legislature on the use of geothermal royalties; and
- (3) Provides for the distribution of geothermal royalties to certain entities.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Hawaii Center for Advanced Transportation Technologies of the Hawaii Technology Development Corporation; Office of Hawaiian Affairs; University of Hawaii; DaRubbahSlippahGroup.com; Hawaiian Electric; Servco Pacific, Inc.; Ulupono Initiative; and numerous individuals.

Your Committee received written comments in opposition to this measure from the Hawaii County Council and one individual.

Your Committee received written comments on this measure from the Hawaii State Energy Office.

Your Committee finds that using geothermal royalties as a source of funding for projects that promote and advance renewable energy resources development will help the State to achieve its clean renewable energy goals.

Your Committee has amended this measure by:

- (1) Deleting the provision establishing new funding sources for, and authorized uses of moneys in, the university innovation and commercialization initiative special fund; and
- (2) Deleting the provision requiring the Board of Land and Natural Resources, certain counties, and the Hawaii Groundwater and Geothermal Resources Center to submit annual reports to the Legislature;
- (3) Establishing a renewable energy resources development special fund and the funding sources for, and authorized uses of moneys in, the special fund;
- (4) Requiring the Department of Business, Economic Development, and Tourism to submit an annual report to the Legislature on the revenue and expenditures of the renewable energy resources development special fund;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 458, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 458, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1125 Ways and Means on S.B. No. 865**

The purpose and intent of this measure is to increase the supply of affordable housing for residents of the State.

More specifically, this measure:

- (1) Establishes the ALOHA homes program to develop low-cost homes on state- and county-owned land in urban redevelopment sites near public transit stations, to be sold to qualified residents;
- (2) Exempts ALOHA homes program developments from land component impact fee or fee in lieu requirements and construction cost component impact fee requirements; and
- (3) Appropriates moneys to the Hawaii Public Housing Authority for the ALOHA homes program, including the establishment of program manager and development specialist positions.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority, Church of the Crossroads, Land Use Research Foundation of Hawaii, and numerous individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Land and Natural Resources, Grassroot Institute of Hawaii, and Sierra Club of Hawaii.

Your Committee finds that increasing the supply of low-cost homes for residents of the State near public transit stations will help to address the State's housing needs without creating widespread urban sprawl.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Public Housing Authority is required to administer the ALOHA homes revolving fund;
- (2) Clarifying that moneys appropriated by the Legislature are a lawful source of funding for the revolving fund;
- (3) Requiring the Hawaii Public Housing Authority to submit annual reports to the Legislature on the progress of ALOHA homes program projects;
- (4) Clarifying that the amendments made to section 302A-1603(b), Hawaii Revised Statutes, by this measure shall not be repealed when that section is reenacted on July 1, 2024;
- (5) Inserting a repeal date of July 1, 2053;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 865, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 865, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1126 Ways and Means on S.B. No. 874**

The purpose and intent of this measure is to exempt various forms of housing development from the imposition of school impact fees.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority, NAIOP Hawaii, Ikenakea Development, HNL Development, and four individuals.

Your Committee received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committee received written comments on this measure from the Department of Education, School Facilities Authority, and Tax Foundation of Hawaii.

Your Committee finds that school impact fees contribute to the cost of constructing housing projects. Exempting certain housing projects from school impact fees will help to streamline construction and ensure that all funding for a project is focused on building housing for local families.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 874, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 874, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1127 Ways and Means on S.B. No. 900**

The purpose and intent of this measure is to appropriate moneys to the Executive Office on Aging for three program specialist positions for the Hawaii state health insurance assistance program.

Your Committee received written comments in support of this measure from the Executive Office on Aging of the Department of Health, AARP Hawaii, Catholic Charities Hawaii, and numerous individuals.

Your Committee finds that establishing program specialist positions for the Hawaii state health insurance assistance program will help the Executive Office on Aging to meet the State's growing aging population's demand for accurate, timely, and unbiased services.

Your Committee has amended this measure by:

- (1) Requiring the Executive Office on Aging to submit to the Legislature an annual progress report on the Hawaii state health insurance assistance program; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 900, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1128 Ways and Means on S.B. No. 1027**

The purpose and intent of this measure is to provide for the regulation of combat sports contests within the State.

More specifically, the measure:

- (1) Establishes the Combat Sports Commission of Hawaii within the Department of Commerce and Consumer Affairs and gives the Commission sole jurisdiction and control over all combat sports contests held within the State;
- (2) Requires the Commission to adopt administrative rules pursuant to Chapter 91, Hawaii Revised Statutes;
- (3) Defines "combat sports" as unarmed combat involving the use of a combination of techniques from different martial arts disciplines, including grappling, kicking, and striking, subject to certain limits;
- (4) Prohibits no-rules combat or similar contests; and
- (5) Appropriates unspecified funds to the Department of Commerce and Consumer Affairs for an unspecified number of staff positions for the Commission.

Your Committee received written comments in support of this measure from the Councilmember representing Honolulu City Council District 9, and four individuals.

Your Committee received written comments in opposition to this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Hawaii residents have embraced full-contact combat sports, as evidenced by the capacity crowds attending these events at large venues, and that a combat sports commission should be established to encourage the continued growth of this industry and attract high profile sporting events.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1027, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1129 Ways and Means on S.B. No. 1191**

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate the revenues from the bonds to the Department of Business, Economic Development, and Tourism for statewide planning for and coordination of transit-oriented development projects identified in the state strategic plan for transit-oriented development.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii State Energy Office, Office of Planning and Sustainable Development, Department of Accounting and General Services, AARP Hawaii, Land Use Research Foundation of Hawaii, and one individual.

Your Committee finds that the promotion of mixed-use development and affordable housing within transit-oriented development areas stimulates economic development and increases affordable housing. Your Committee recognizes that since 2016, the Legislature has made numerous appropriations to the Office of Planning and Sustainable Development to support planning for transit-oriented development projects. However, the funding requests have exceeded available funds. Your Committee further finds that moneys to maintain and enhance capacity for transit-oriented development projects should now be appropriated.

Your Committee has amended this measure:

- (1) By specifying certain projects to be funded;
- (2) Changing the source of the funding to general funds;
- (3) Changing the expending agency from the Department of Business, Economic Development, and Tourism to the Hawaii Community Development Authority; and
- (4) Making conforming amendments to reflect the above-identified changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1191, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1191, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1130 Ways and Means on S.B. No. 1197**

The purpose and intent of this measure is to increase procurement accountability at the University of Hawaii.

Specifically, this measure:

- (1) Designates the Vice President for Budget and Finance and Chief Financial Officer as the chief procurement officer for the University of Hawaii;
- (2) Appropriates moneys to effectuate the transfer of chief procurement officer duties; and
- (3) Appropriates moneys to the University of Hawaii for repair and maintenance of University of Hawaii campus buildings and infrastructure.

Your Committee received written comments in opposition to this measure from the University of Hawaii.

Your Committee finds that the President of the University of Hawaii's role as the leader of the University of Hawaii System may conflict with the duty of a chief procurement officer to oversee ethical public procurement in accordance with the Hawaii Public Procurement Code. Your Committee further finds that this measure eliminates this potential conflict of interest by ensuring that the two roles are held by separate individuals.

Your Committee has amended this measure by:

- (1) Deleting the appropriation of an unspecified sum of general funds for repair and maintenance of University of Hawaii campus buildings and infrastructure;
- (2) Inserting language that authorizes the issuance of general obligation bonds in the sum of \$20,000,000, and appropriating the bond proceeds to University of Hawaii, Systemwide Support (UOH900) to renew, improve, and modernize facilities; and
- (3) Amending the preamble to reflect the measure's amended purpose.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1197, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1131 Ways and Means on S.B. No. 1235**

The purpose and intent of this measure is to facilitate the calculation of the twenty percent pro rata share of income and proceeds from the public land trust due annually to the Office of Hawaiian Affairs for the betterment of the conditions of Native Hawaiians.

Specifically, the measure:

- (1) Provides that the working group established pursuant to Act 226, Session Laws of Hawaii 2022:
  - (A) Shall be a temporary Public Land Trust Working Group;
  - (B) Shall be established in the Office of the Governor, and for administrative purposes only;
  - (C) Shall have the primary special purpose of compiling an inventory of all ceded lands in the public land trust;
  - (D) Shall use its reasonable best efforts to complete the inventory within twenty-four months of the effective date of the measure;
  - (E) Shall include one member appointed by the Speaker of the House of Representatives and one member appointed by the President of the Senate;
  - (F) Shall appoint an Executive Director to oversee the day-to-day operations of the working group and perform other functions as directed by the working group;
  - (G) May employ certain persons that the working group deems necessary for the performance of the working group's functions; and
  - (H) Shall submit annual reports to the Legislature and quarterly reports to the Legislature, Office of Hawaiian Affairs, and Governor;
- (2) Requires all state agencies to provide certain information to the working group, to the extent required by the working group to fulfill its purpose of identifying all lands in the public land trust inventory;
- (3) Requires the Office of Hawaiian Affairs to provide the working group with a comprehensive list of certain parcels of land; and
- (4) Appropriates unspecified moneys to the Office of the Governor to carry out the purposes of the measure.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee recognizes the importance of the public land trust described in section 4, and referred to in section 6, of article XII of the Hawaii State Constitution. Accordingly, your Committee believes that the compilation of a definitive inventory of those lands should be the sole purpose of a new working group.

Your Committee has amended this measure by:

- (1) Providing that the temporary public land trust working group shall:
  - (A) Have the special purpose of compiling an inventory of all lands in the public land trust and, once an inventory is completed, establishing a valuation of the lands in the inventory; and
  - (B) Terminate on an unspecified date;
- (2) Inserting \$65,000,000 in general fund appropriations for fiscal years 2023-2024 and 2024-2025 for certain repairs within parcels conveyed to the Office of Hawaiian Affairs pursuant to Act 15, Session Laws of Hawaii 2012;
- (3) Inserting new provisions relating to Office of Hawaiian Affairs development projects within the Kakaako Community Development District makai area, which:

- (A) Require the Office of Hawaiian Affairs to prepare a programmatic environmental impact statement for those projects; and
- (B) Appropriate \$6,000,000 in general funds for fiscal years 2023-2024 for the foregoing purpose;
- (4) Inserting a \$13,000,000 general fund appropriation for fiscal year 2023-2024 for architectural and engineering design, water supply, and other construction costs for the development of Kukaniloko;
- (5) Inserting a severability clause;
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1235, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Keith-Agaran). Noes, none. Excused, none.

**SCRep. 1132 Ways and Means on S.B. No. 1237**

The purpose and intent of this measure is to facilitate film production in the State.

Specifically, the measure:

- (1) Establishes the Hawaii Film Commission and transfers certain rights, powers, functions, and duties of the existing Hawaii State Film Office to the Commission;
- (2) Establishes and appropriates \$140,000 for each of the fiscal years 2023-2024 and 2024-2035 for an executive director position within the Hawaii Film Commission; and
- (3) Extends from December 31, 2032, to December 31, 2038, the sunset date for the motion picture, digital media, and film production income tax credit.

Your Committee received written comments in support of this measure from the Screen Actors Guild – American Federation of Television and Radio Artists, Teamsters Local 996, IATSE LOCAL 665, and twenty-three individuals.

Your Committee received written comments on this measure from the University of Hawaii System; Department of Taxation; Department of Business, Economic Development, and Tourism; and Tax Foundation of Hawaii.

Your Committee finds that the film industry plays an important role in the State's economy. Your Committee believes that the administrative changes and tax credit extension proposed by this measure will improve and strengthen the industry.

Your Committee has amended this measure by:

- (1) Establishing a new film studio tax credit and qualifications to claim the tax credit;
- (2) Amending the administration of the motion picture, digital media, and film production income tax credit;
- (3) Changing from \$50,000,000 to an unspecified sum the statutory annual aggregate cap amount on the motion picture, digital media, and film production income tax credit;
- (4) Requesting the Auditor to conduct a performance and financial audit of the Hawaii Film Office and appropriating an unspecified amount for the audit;
- (5) Clarifying that the person who served as the State Film Commissioner immediately before the effective date of the measure shall serve as the initial executive director of the Hawaii Film Commission, until that person resigns or until the Commission appoints a replacement, whichever occurs first;
- (6) Inserting language to facilitate the transfer of certain rights, powers, functions, and duties from the Hawaii State Film Office to the Hawaii Film Commission;
- (7) Changing to an unspecified amount the appropriation to fund the executive director position;
- (8) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (9) Making numerous technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1237, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1237, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

**SCRep. 1133 Ways and Means on S.B. No. 1504**

The purpose and intent of this measure is to preserve and share Hawaii's history.

Specifically, this measure:

- (1) Establishes a Museum of Modern Hawaii History; and
- (2) Establishes and appropriates moneys for a task force within the State Foundation on Culture and the Arts to develop plans for the establishment, construction, and operation of a Museum of Modern Hawaii History.

Your Committee received written comments in support of this measure from the Judiciary, Department of Accounting and General Services, State Foundation on Culture and the Arts, and one individual.

Your Committee finds that Hawaii has contributed significantly to national and global events and progress. Your Committee further finds that the establishment of a Museum of Modern Hawaii History will allow the State to highlight these contributions and provide a location to properly exhibit the vast collection of historical documents and artifacts currently within the possession of the Hawaii State Archives.

Your Committee has amended this measure by:

- (1) Clarifying that the representative of the University of Hawaii shall be appointed by the President of the University of Hawaii;
- (2) Clarifying:
  - (A) That the task force shall submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025; and
  - (B) The contents of the report;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1504, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1134 Ways and Means on S.B. No. 1317**

The purpose and intent of this measure is to facilitate access to high-speed broadband internet service.

Specifically, the measure:

- (1) Appropriates an unspecified amount from the state general fund to provide the matching funds required to receive federal funds for the Broadband Equity, Access, and Deployment (BEAD) Program;
- (2) Appropriates an unspecified amount from the funds received by the State from the Infrastructure Investment and Jobs Act (IIJA) for the BEAD Program;
- (3) Appropriates an unspecified amount from state general funds for additional matching fund requirements for federal fund programs related to broadband;
- (4) Requires the Office of the Lieutenant Governor, rather than the University of Hawaii and Hawaii Broadband and Digital Equity Office, to convene the working group that was established pursuant to Act 231, Session Laws of Hawaii 2022, for the purpose of determining the appropriate governance structure to implement, operate, and maintain broadband infrastructure development in the State; and
- (5) Requires the Lieutenant Governor or a designee to serve as the Chair of the foregoing working group.

Your Committee received written comments in support of this measure from the University of Hawaii; Department of Business, Economic Development, and Tourism; Department of Budget and Finance; AARP Hawaii; and one individual.

Your Committee recognizes that access to high-speed internet, which the measure promotes, is essential for Hawaii residents.

Your Committee has amended this measure by:

- (1) Transferring the Hawaii Broadband and Digital Equity Office from the Department of Business, Economic Development, and Tourism to the Office of the Lieutenant Governor on a temporary, four-year basis; and
- (2) Redirecting the measure's appropriations to the Office of the Lieutenant Governor.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1317, S.D. 3.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Fevella).

**SCRep. 1135 Ways and Means on S.B. No. 1521**

The purpose and intent of this measure is to facilitate planning for the future use of agricultural lands in the State.

Specifically, this measure:

- (1) Requires the Office of Planning and Sustainable Development to create an integrated land use study for lands within the agricultural district; and
- (2) Requires the Hawaii State Energy Office, Department of Agriculture, Department of Transportation, and Hawaii Tourism Authority to update various state functional plans; and
- (3) Appropriates moneys for the study and functional plan updates.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, State Land Use Commission, Hawaii State Energy Office, Hawaii Gas, Hawaiian Electric, Hawaii Farm Bureau, Ulupono Initiative, Hawaii Forest Industry Association, and Climate Protectors Hawaii.

Your Committee received written comments on this measure from the Department of Agriculture and Office of Planning and Sustainable Development.

Your Committee finds that the creation of an integrated land use study that incorporates information and goals from other studies and reports will help the State make decisions on the future use of agricultural lands. However, your Committee acknowledges that this measure may be overly ambitious as presently drafted, and that the scope may need to be narrowed as it moves through the legislative process.

Your Committee has amended this measure by:

- (1) Making a clarifying edit to the purpose section, as recommended by the Office of Planning and Sustainable Development; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1521, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1521, S.D. 2.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1136 Ways and Means on S.B. No. 1586**

The purpose and intent of this measure is to promote a healthy agricultural industry in the State.

Specifically, this measure appropriates moneys to the University of Hawaii to establish five full-time equivalent (5.0 FTE) extension specialist agents at the College of Tropical Agriculture and Human Resources.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Farm Bureau, Hawaii Floriculture and Nursery Association, University of Hawaii Professional Assembly, Hawaii Cattlemen's Council, and three individuals.

Your Committee finds that the extension agents of the College of Tropical Agriculture and Human Resources offer critical services to the State's agricultural community, including education, information transfer, and specifically-tailored research. Your Committee further finds that as climate change creates new pressures on agriculture, the services provided by extension agents will become even more critical to the success of Hawaii's farmers.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1586, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1586, S.D. 1.

Signed by the Chair on behalf of the Committee.  
Ayes, 13. Noes, none. Excused, none.

**SCRep. 1137 Ways and Means on H.B. No. 1514**

The purpose and intent of this measure is to appropriate moneys for the legislative branch of the State of Hawaii.

Specifically, this measure appropriates moneys for:

- (1) The Senate and the House of Representatives for the period up to and including June 30, 2024; and
- (2) The Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission for fiscal year 2023-2024.

Your Committee received testimony in support of this measure from the Office of the Ombudsman, Office of the Auditor, and Legislative Reference Bureau.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that this measure appropriates sufficient funds to defray necessary expenses of the Senate and House of Representatives, including expenses for a legislative information system and legislative broadcasting program, along with funds necessary to support the operations of the Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission.

Your Committee has amended this measure by correcting an arithmetic error in section 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1514, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1514, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 12. Noes, none. Excused, 1 (Kidani).

**SCRep. 1138 Education on H.B. No. 69**

The purpose and intent of this measure is to appropriate funds for the Department of Education's Resources for Enrichment, Athletics/Academics, Culture, and Health program.

Your Committee received testimony in support of this measure from the Department of Education, Hui for Excellence in Education, Hawai'i Afterschool Alliance, Food+ Policy Internship 2023, Hawaii Friends of Restorative Justice, Hawai'i Children's Action Network Speaks!, Island of Hawaii YMCA, and four individuals.

Your Committee finds that the Resources for Enrichment, Athletics/Academics, Culture, and Health (REACH) program provides critical, developmentally-aligned out-of-school time opportunities to students in middle or intermediate public and charter schools at no additional cost. REACH provides these students with opportunities to explore their interests, make positive connections with mentors, and cultivate a sense of belonging. As REACH is the only state-funded out-of-school time program for middle schools in the State, providing additional funding will allow each community to structure and design programs that meet unique needs of area students. This measure appropriates funds for the REACH program to support social and emotional growth and development outside of the classroom.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider the Department of Education's request for an appropriation in the amount of \$2,500,000 for the expansion of REACH to provide more support to schools offering after-school programs.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 69, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 69, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kanuha, Fevella).

**SCRep. 1139 Education on H.B. No. 1045**

The purpose and intent of this measure is to:

- (1) Require a minor student's parent or legal guardian, rather than the student, to produce the required student records when transferring schools;
- (2) Clarify that emancipated minors may produce the required student records when transferring schools;
- (3) Clarify that the transfer process is the same whether a transfer is within the same complex area or to another complex area; and
- (4) Exempt students eligible for assistance provided under the federal McKinney-Vento Homeless Assistance Act of 1987 from producing required student records when transferring schools.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that existing law requires a student transferring to another school to produce a certificate of release from the last school attended. However, as minors do not have legal capacity independent of their parents, except for emancipated minors or minors under the McKinney-Vento Homeless Assistance Act of 1987, the parent or legal guardian is the most appropriate person to provide a certificate of release for a minor student. This measure clarifies Department of Education policies regarding required student records to streamline processes for transfer students.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1045, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1045, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kanuha, Fevella).

**SCRep. 1140 Education on H.B. No. 1330**

The purpose and intent of this measure is to appropriate funds to the Department of Education for school bus services.

Your Committee received testimony in support of this measure from the Department of Education, Education Caucus of the Democratic Party of Hawai'i, and one individual.

Your Committee finds that providing Hawai'i's keiki with reliable school bus transportation allows each student to achieve their academic and extracurricular goals while also reducing tardiness and poor attendance. While the Department of Education strives to provide school bus services for public school students, recent challenges such as a shortage of qualified bus drivers has impacted all routes, with rural and remote school bus routes facing a critical shortage. This measure ensures continuity of funding for school bus transportation to ensure all keiki have an opportunity to learn and grow.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider the Department of Education's testimony requesting an appropriation in the amount of \$22,000,000 to expand the pool of qualified drivers at the school level, waive school bus fees until consistent service can resume, and provide flexibility in supporting the Department of Education's current bus contractor staff.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1330, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1330, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Kanuha, Fevella).

**SCRep. 1141 (Majority) Health and Human Services on H.B. No. 378**

The purpose and intent of this measure is to:

- (1) Include as a factor for determining whether the issuance of a controlled substances registration is in the public interest, the prevention of activities within an applicant's areas that are potentially injurious to the health, safety, and welfare of the public and neighborhood;
- (2) Establish a Substance Use Disorder Services Clinic Working Group to collaborate and consult on issues relating to addiction recovery and public safety; and
- (3) Require the Substance Use Disorder Services Clinic Working Group to report to the Legislature before the Regular Session of 2024.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Education, Department of Health, and one individual. Your Committee received testimony in opposition to this measure from the CHAMP Clinic and fifty-one individuals. Your Committee received comments on this measure from the Hawai'i Primary Care Association and Hawaii Substance Abuse Coalition.

Your Committee finds that every person who manufactures, distributes, prescribes, dispenses, or conducts reverse distribution with any controlled substance within this State is required to obtain a controlled substance registration issued by the Department of Public Safety. When issuing the registration, the Department is required to determine whether doing so would be inconsistent with the public interest based on numerous factors, including factors relevant to and consistent with the public health and safety. This measure provides further protection to the health and safety of neighboring communities by requiring the Department to consider prevention of activities within an applicant's areas that are potentially injurious to the health, safety, and welfare of the public and neighborhood when a new controlled substance registration is being evaluated for issuance. Furthermore, recommendations by the working group established by this measure, comprised of representatives of various state agencies, schools, methadone clinics, and other stakeholders, will be critical for the Legislature to balance the needs of persons receiving treatment for substance use disorders with the needs of public safety.

Your Committee acknowledges the testimony of CHAMP Clinic and its employees and clients attesting to the essential nature of the clinic's current location that is in close proximity to a bus stop, workplaces, and various other medical facilities, but is also within seven hundred fifty feet of a school. Your Committee further acknowledges the testimony of the Department of Education regarding concerns raised by schools pertaining to the proximity of methadone clinics and certain resulting negative conditions such as disturbances to education and effects on the school's safety and security. Your Committee finds that the balancing of patients' needs to access care and schools that must maintain safety for its students is a multi-faceted, complex issue that cannot be resolved easily and requests that future committees that may hear this measure consider the appropriateness of addressing this issue.

Accordingly, your Committee has amended this measure by inserting an effective date of June 30, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 378, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 378, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1142 Health and Human Services on H.B. No. 1369**

The purpose and intent of this measure is to:

- (1) Repeal the sunset dates of Act 156, Session Laws of Hawaii 2012, and Act 124, Session Laws of Hawaii 2014, to make the Nursing Sustainability Program permanent and permanently exempt the program from the central service and administrative expenses assessments;
- (2) Repeal the Nursing Facility Tax; and
- (3) Appropriate an unspecified amount of funds from the Nursing Facility Sustainability Program Special Fund.

Your Committee received testimony in support of this measure from the Department of Human Services, Hawai'i Primary Care Association, Healthcare Association of Hawaii, The Queen's Health System, Kaiser Permanente Hawai'i, and Hawai'i Pacific Health. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that, in recognition that reimbursements from Medicaid to nursing facilities are less than the actual costs of care provided to Medicaid recipients, the Legislature established the Nursing Facility Sustainability Program and the Nursing Facility Sustainability Program Special Fund in 2012 to increase Medicaid payments to nursing facilities. The program functions by assessing provider fees on health care items or services provided by nursing facilities and using the collected fees as a basis to obtain federal Medicaid matching funds. The aggregate state and federal funds are then distributed to nursing facilities as supplemental payments to reduce uncompensated Medicaid losses, which has successfully helped Hawai'i's nursing facilities continue to treat the most vulnerable patients in the State. The program, however, is scheduled to be repealed on December 31, 2023, with funding provisions scheduled to repeal on June 30, 2024. This measure will enhance and make the Nursing Facility Sustainability Program permanent, which will preserve and improve access to quality health care for Medicaid recipients in the State.

Your Committee has amended this measure by:

- (1) Amending other provisions within the Hawaii Revised Statutes to conform to the statutory amendments made by this measure;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1369, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1369, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 1143 Health and Human Services on H.B. No. 899**

The purpose and intent of this measure is to designate the month of September as Fetal Alcohol Spectrum Disorder Awareness Month to promote public awareness of the risks of alcohol consumption during pregnancy.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Hawaii Fetal Alcohol Spectrum Disorders (FASD) Action Group, Hawaii Disability Rights Center, and four individuals.

Your Committee finds that prenatal alcohol exposure is the most commonly known cause of preventable birth defects and developmental disorders in the United States. Your Committee also finds that one in twenty children in the United States are born with Fetal Alcohol Spectrum Disorder (FASD), an umbrella term that encompasses the wide array of physical and neurobehavioral developmental disorders caused by in-utero exposure to alcohol. According to testimony received by your Committee, despite data showing FASDs to be more prevalent than autism spectrum disorders, at least ten percent of pregnant women still drink during pregnancy. Furthermore, due to the complex, subtle, and often undetectable nature of FASDs, the preventable lifelong brain-based disorders are often not recognized by parents, health care providers, educators, probation officers, homeless advocates, and society in general, thereby leaving many individuals with FASDs undiagnosed or misdiagnosed, and improperly or untreated. This measure will help promote the public's awareness of the risks of alcohol consumption during pregnancy, increase understanding and the identification of the various symptoms of FASDs, and help individuals with FASD and their families receive the necessary support.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 899, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Transportation and Culture and the Arts.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 1144 Water and Land on H.B. No. 1394**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources for operating costs and personnel to support the management of certain trailheads as part of the Na Ala Hele Hawaii Trail and Access System program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Land Use Research Foundation of Hawaii, and nine individuals. Your Committee received comments on this measure from the Hawai'i Tourism Authority.

Your Committee finds that the Hawai'i Tourism Authority developed destination management plans for each county, which identified certain "hot spots" that are popular with visitors. Notably, these hot spots are often challenged with overcrowding, congestion, and the degradation of resources due to heavy traffic. Your Committee further finds that many of these hot spots are trailheads that are part of the Na Ala Hele Hawaii Trail and Access System program operated by the Division of Forestry and Wildlife of the Department of Land and Natural Resources. Your Committee finds that funding for personnel and resources would help support management activities on trailheads such as the Kokee region of Kauai; Maunawili Falls and Kaiwa Ridge Trails on Oahu; multiple

areas on Maui; Naha Trail on Lanai; and Pololu Valley, Waipio Valley, and Mauna Kea on Hawaii island. Therefore, this measure appropriates funds to help provide residents and visitors with a positive, enjoyable, and memorable experience while hiking Hawaii's most popular trails.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1394, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1145 Water and Land on H.B. No. 12**

The purpose and intent of this measure is to clarify that a developer is responsible for ensuring that the use of time share units located outside the State for time sharing purposes complies with zoning and land use laws and rules of the jurisdiction where the time share units are located but is not required to submit evidence of such compliance to register in Hawaii.

Your Committee received testimony in support of this measure from the American Resort Development Association-Hawaii, Hilton Grand Vacations, Marriott Vacations Worldwide Corporation, and one individual. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that the 1980 Hawaii Time Share Act — which prohibits time sharing in areas that are not specifically zoned for time sharing -- was enacted to prevent time sharing in local residential neighborhoods that are popular with visitors, such as Hawaii Kai or Kailua, from being disrupted by time sharing activities to the detriment of local residents. However, the 1980 Hawaii Time Share Act did not contemplate that, over time, the State would serve as a regulatory safeguard for Hawaii purchasers of out-of-state time share units, by investigating whether time share units located outside the State were similarly compliant with the foreign zoning and land use requirements of the jurisdiction where the time share units were located.

Your Committee finds that the Department of Commerce and Consumer Affairs has been requiring that developers with time share units located outside the State submit confirmations or legal opinions that the developer's time share units are in compliance with the zoning laws of the jurisdiction where the time share units are located before they can register those units in the State. Your Committee finds that no other state requires this type of information and that developers have complained that complying with the Department's request has caused delays and is burdensome. Therefore, this measure clarifies the existing law and preempts the Department's requirement that a developer submit evidence that its time share units located outside the State are in compliance with foreign zoning and land use laws prior to registration.

Your Committee has heard the testimony of the Department of Commerce and Consumer Affairs, which expressed concerns that this measure, as written, provides inadequate protections and recourse for Hawaii purchasers of time share units located outside the State, as developers would no longer be required to provide any proof of compliance or even make a representation to a purchaser that this is true.

Therefore, your Committee has amended this measure by:

- (1) Requiring a developer to submit a certification to the Department of Commerce and Consumer Affairs that the developer has reviewed and concluded that the time share units located outside the State are in compliance with the zoning and land use laws and regulations of the jurisdiction where the time share units are located; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 12, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 12, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1146 Water and Land on H.B. No. 153**

The purpose and intent of this measure is to:

- (1) Add a minimum penalty of \$50 and a maximum penalty of \$25,000 per violation of the State Water Code and make each day that a violation exists or continues to exist a separate offense; and
- (2) Require the Commission on Water Resource Management to determine the amount of the penalty based on the circumstances of the violation.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Reef and Ocean Coalition.

Your Committee finds that in 1987, the State Water Code was adopted to protect the precious water resources of the State. Your Committee further finds that to better enable the Commission on Water Resource Management to carry out its mission, the State Water Code's penalties and fines must be amended and increased to serve as an effective deterrence to violators. Therefore, this measure provides a necessary update to the penalties and fines for violations of the State Water Code to meet the current needs of today.

Your Committee has amended this measure by:

- (1) Increasing the proposed maximum penalty to \$60,000 per violation, from \$25,000 per violation; and

- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 153, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 153, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1147 Water and Land on H.B. No. 201**

The purpose and intent of this measure is to expand the definition of “historic property” for purposes of the Historic Preservation Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Association of REALTORS, Land Use Research Foundation of Hawaii, and Hawai'i YIMBY. Your Committee received testimony in opposition to this measure from the Climate Protectors Coalition and Historic Hawai'i Foundation.

Your Committee finds that the current definition of “historic property”, which is based solely on the age of the property, is flawed. When age alone is used as the measure of a property's historical value, what is ignored is the property's relationship to people and events, its architectural distinction, and other valuable historic, scientific, and cultural information associated with the property. Therefore, this measure amends the definition of “historic property” to incorporate these important contextual considerations.

Your Committee has amended this measure by:

- (1) Amending the proposed definition of “historic property” to include, among others, “heiau or an underwater site”, from “heiau and an underwater site”;
- (2) Deleting the proposed provision that would include, without any precedent contextual considerations, any building, structure, object, district, area, or site, including a heiau or underwater site, that is over one hundred years old within the definition of “historic property”; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 201, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 201, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1148 Water and Land on H.B. No. 364**

The purpose and intent of this measure is to clarify that when a trespass involves public land, all state and county law enforcement officers are authorized to and shall enforce trespass laws, without regard to whether the land is owned by the State or by a county.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Hawai'i State Public Library System. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committee received comments on this measure from one individual.

Your Committee finds that jurisdictional uncertainties over who is responsible for a certain area of public land can deter necessary and expedient responses from law enforcement to remove trespassers. This delay or inaction from law enforcement can further result in the taking or damaging of the State's precious natural resources and can have serious impacts on public safety. Therefore, this measure removes any jurisdictional confusion by authorizing and requiring all state and county law enforcement officers to enforce trespass laws, without concern over which government entity is jurisdictionally responsible.

Your Committee has amended this measure by:

- (1) Providing that any state or county law enforcement officer “may” enforce the trespass laws, as opposed to “shall”; and
- (2) Inserting language to ensure that Native Hawaiians are not criminalized when exercising their constitutionally protected rights on public lands.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 364, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1149 Water and Land on H.B. No. 365**

The purpose and intent of this measure is to expand the list of exclusions from the definition of “development” as it applies to special management areas to reduce the need for special management area permits for certain activities.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Maui Metropolitan Planning Organization, Office of the Mayor of the County of Maui, Department of Planning and Permitting of the City and County of Honolulu, and one member of the Maui County Council.

Your Committee finds that targeted amendments to the definition of “development” as it relates to special management areas will promote, not weaken, the environmental controls that special management area regulations are intended to protect. Under existing law, the broad definition of “development” can trigger a mandatory special management area use permit review for the installation, maintenance, and repair of minor improvements and incidental structures and for trash and vegetation removal that do not generally warrant such intense scrutiny, which can be both costly and time consuming. Therefore, this measure establishes additional exclusions from the definition of “development” to hone and refine the existing law.

Your Committee has amended this measure by exempting “incidental ground disturbances” related to trash removal or invasive vegetation removal from the definition of “development”.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 365, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 365, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1150 (Majority) Agriculture and Environment on H.B. No. 307**

The purpose and intent of this measure is to allow the Department of Agriculture to extend the agricultural park lease of any lessee who holds a lease with a remaining term of fifteen years or less, provided that the land covered by the lease is twenty-five acres or less and located in a county with a population of less than five hundred thousand.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawai‘i; Maui County Farm Bureau; Hawaii Floriculture and Nursery Association; Ponoholo Ranch Limited; Land Use Research Foundation of Hawaii; Hawai‘i Farm Bureau; Local Food Coalition; Ono Nut Farms; Hawaii Cattlemen’s Council, Inc.; Aloha ‘Aina Landscaping LLC; Pacific Floral Exchange, Inc.; Hawaii Crop Improvement Association; and fourteen individuals. Your Committee received comments on this measure from the Department of Agriculture; Bromeliads Hawaii, LLC; and one individual.

Your Committee finds that agricultural park leases are structured to advance agriculture in the State and that long-term leases make it possible for farmers and ranchers to prudently invest in operational and infrastructure improvements on leased lands. Your Committee further finds that when faced with the uncertainty of continued tenancy, lessees have little incentive to make major investments or improvements to their infrastructure or ensure the long-term maintenance of their facilities, which may deteriorate as a result. Thus, this measure allows the Department of Agriculture to extend certain leases with a remaining term of fifteen years or less to encourage further investment and production on agricultural park lands.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 307, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, none.

**SCRep. 1151 Agriculture and Environment on H.B. No. 606**

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture, in collaboration with other state agencies, to develop and implement a plan by July 1, 2025, to expand the meat processing capacity in the State to allow for meat from axis deer and other wild game to be processed for distribution by non-profit food distribution services; and
- (2) Appropriate funds for implementation.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Mayor of the County of Maui; one member of the County Council of the County of Maui; Maui County Farm Bureau; Ponoholo Ranch Limited; Hawai‘i Forest Industry Association; Hawai‘i Farmers Union United; Hawai‘i Farm Bureau; Hawaii Cattlemen’s Council, Inc.; and nine individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that axis deer in Maui County devastate crops, vegetation, and native species and their over-grazing of these plants severely impacts the environment by contributing to soil erosion, which can decrease soil fertility. Despite ongoing efforts to control the growing axis deer population, it is estimated that more than sixty thousand axis deer freely roam Maui County, which has particularly impacted the ranchers and farmers who rely on natural vegetation and robust soil fertility to sustain their livestock and crop rotations. Your Committee further finds that other states facing similar issues have implemented programs that aim to make more food available for underprivileged groups by allowing for the hunting and meat processing of wild game animals. This measure appropriates funds and requires the Department of Agriculture, in collaboration with other state agencies, to develop and implement a plan that allows for axis deer and other wild game to be processed for distribution by nonprofit food distribution services and expand the meat processing capacity in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 606, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1152 Energy, Economic Development, and Tourism on H.B. No. 192**

The purpose and intent of this measure is to prohibit the sale of certain fluorescent lamps in the State as a new manufactured product, with certain exemptions.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii State Energy Office, Hawai'i Climate Change Mitigation and Adaptation Commission, Department of Environmental Management for the county of Hawai'i, Blue Planet Foundation, Hawai'i Energy, Appliance Standards Awareness Project, Ulupono Initiative, Climate Protectors Hawaii, and nine individuals. Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii. Your Committee received comments on this measure from the Alliance for Automotive Innovation.

Your Committee finds that fluorescent bulbs were once the preferred option for many uses. However, light-emitting diodes (LEDs) have emerged as readily-available replacements for fluorescents in a variety of shapes and sizes and do not contain any of the toxic mercury found in fluorescent bulbs. Additionally, LEDs use less energy than fluorescents, last twice as long, and typically cost far less to purchase and operate over their lifetime. This measure will prevent additional toxic pollutants from being brought into the State's ecosystem, reduce energy use, and save consumer money by phasing out the sale of mercury-containing bulbs in the State.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 192, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1153 Energy, Economic Development, and Tourism on H.B. No. 963**

The purpose and intent of this measure is to appropriate funds to match federal funds for state broadband initiatives.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Hawaii State Council on Developmental Disabilities; University of Hawai'i System; Disability and Communication Access Board; Chamber of Commerce Hawaii; Hawaiian Telcom; Broadband Hui; Hawai'i Primary Care Association; AARP Hawai'i; Maui Chamber of Commerce; and three individuals.

Your Committee finds that equitable access to high-speed internet is an essential need for the State and is critical for telehealth services, remote-work, and remote-learning. Your Committee further finds that there are several federal programs that provide significant amounts of funding to states to improve broadband access. However, some of these programs, including the Broadband Equity, Access, and Deployment (BEAD) Program, require matching funds from the State. This measure appropriates funds to maximize access to federal funding and address the lack of broadband accessibility in certain areas of the State.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 963, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1154 Energy, Economic Development, and Tourism on H.B. No. 989**

The purpose and intent of this measure is to appropriate funds to the Department of Business, Economic Development, and Tourism for expenses related to building renovations.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Green Infrastructure Authority.

Your Committee finds that the entire fifth floor of the No. 1 Capitol District Building requires extensive renovations due to health and safety concerns and deteriorating conditions. The Department of Business, Economic Development, and Tourism currently occupies the fifth floor of the building and will be required to pay for expenses related to the renovations. In 2022, the Legislature appropriated \$660,000 to the Department of Business, Economic Development, and Tourism to pay for the renovations. However, the Governor line-item vetoed the appropriation as well as other items to comply with the federally mandated Elementary and Secondary School Emergency Relief Funds Maintenance of Effort requirement. This measure will appropriate funds to cover necessary renovation-related expenses not included in the building renovation contract, such as moving and storage of items, replacement of partitions and furniture, and temporary office rental and relocation expenses.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 989, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1155 Energy, Economic Development, and Tourism on H.B. No. 991**

The purpose and intent of this measure is to:

- (1) Change the cap for awards to assist businesses applying for the Small Business Innovation Research Grant Program and the Small Business Technology Transfer Grant Program to an unspecified amount; and
- (2) Add purchasing of renewable energy systems as an eligible expense, and clarify that training on both new and existing manufacturing equipment is an eligible expense, for the Manufacturing Development Grant Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Makai Ocean Engineering, Inc.; Oceanit; Hawaii Food Manufacturers Association; and one individual.

Your Committee finds that the Hawaii Technology Development Corporation's core grant programs provide leverage and positive economic development value for the State. These programs further help diversify the State's economy by providing grant incentives for manufacturers and small businesses conducting research for the federal government. Your Committee believes that the existing funds awarded as a reimbursement for grant writing assistance are no longer sufficient and the cap should be increased to encourage new applicants. Additionally, adding renewable energy systems as an eligible expense will help manufacturers offset high energy costs in the State. This measure will provide funding to spur more economic growth and continue the advancement of technology and innovation in the State.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 991, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1156 Energy, Economic Development, and Tourism on H.B. No. 999**

The purpose and intent of this measure is to promote economic recovery and diversification by:

- (1) Establishing state goals for economic growth fueled by innovation and technology;
- (2) Appropriating funds to the Hawaii Technology Development Corporation to implement specific projects that address those goals; and
- (3) Requiring the Hawaii Technology Development Corporation to submit annual reports over three years to the Legislature.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Makai Ocean Engineering, Inc.; Oceanit; Hawaii Fish Company, Inc.; Island Plastic Bags, Inc.; Hawaii Investment Ready; Hyperspective Studios, Inc.; Blue Startups; Purple Mai'a; Elemental Excelsator; Mana Up; Startup Capital Ventures x SBI Fund, LP; Hawaii Venture Capital Association; Min Plastics and Supply, Inc.; Nalu Scientific, LLC; Hawaii Food Manufacturers Association; 3D Innovations, LLC; Pacific Asian Center for Entrepreneurship; Hawaii Hui, LLC; and four individuals.

Your Committee finds that the State's ongoing economic recovery from the coronavirus disease 2019 pandemic has emphasized the State's need to accelerate its economic diversification efforts through substantial strategic and coordinated investments. Your Committee believes that, through public-private partnerships, Hawaii Technology Development Corporation programs will provide leverage to the State and accelerate economic diversification. This measure will put the State on the path toward economic prosperity by having the Hawaii Technology Development Corporation serve as a facilitative catalyst for innovation in the State.

Your Committee has amended this measure by:

- (1) Inserting certain language from Senate Bill No. 1297, SD2 (2023) to:
  - (A) Establish a three-year Hawaii Office of Naval Research Grant Program to provide grants to qualified businesses conducting research and development in alternative energy; and
  - (B) Establish the Alternative Energy Research and Development Revolving Fund and make a blank appropriation for the fund;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 999, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 999, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1157 Judiciary on H.B. No. 99**

The purpose and intent of this measure is to limit to \$100 the total amount of cash a candidate, candidate committee, or noncandidate committee may accept from a single person during each election period.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, and two individuals.

Your Committee finds that cash contributions are difficult to trace. Your Committee further finds that there should be a cap on the amount of cash that a candidate, candidate committee, or noncandidate committee may accept in an election year. This measure will make violations of certain campaign finance law violations easier to detect and prevent.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 99, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1158 (Majority) Judiciary on H.B. No. 130**

The purpose and intent of this measure is to change the deadline for the validation of ballots following an election.

Your Committee received testimony in support of this measure from the Office of Elections and League of Women Voters of Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that section 11-106, Hawaii Revised Statutes, provides that voters have five business days after the election to cure their ballots. Currently, the Statehood Day holiday for the Primary Election and Veterans' Day holiday for the General Election make the time required for the County Elections Divisions to validate ballots up to nine calendar days after the election. This does not align with the deadline in section 11-108(c), Hawaii Revised Statutes, of seven days after an election for the clerks to complete the validation process. This measure will align the deadline by which voters have to cure any deficiency with their return envelope with the deadline for the county election divisions to validate ballots.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 130, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1159 Judiciary on H.B. No. 137**

The purpose and intent of this measure is to, beginning January 1, 2025, require the statement of expenditures filed by lobbyists and other persons who engage in lobbying activities to include certain information on the identity of the legislative or administrative action that was commented on, supported by, or opposed by the person filing the statement during the statement period.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Commission to Improve Standards of Conduct, League of Women Voters of Hawaii, and two individuals.

Your Committee finds that the State's lobbying laws are intended to provide transparency around lobbyist activity. This measure furthers that purpose by requiring specific descriptions of the legislative measures and other details on which the lobbyist engaged, versus a broad reference to the subject area. While this may put an additional burden on lobbyists, the net benefit to the public greatly outweighs the burden.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 137, H.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1160 Judiciary on H.B. No. 140**

The purpose and intent of this measure is to provide the Hawai'i State Ethics Commission with the discretion to maintain or destroy records of financial disclosure statements beyond the current six-year statutory requirement, to be applied retroactively to applicable disclosures that are in the Hawai'i State Ethics Commission's possession and control.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that section 84-17.5, Hawaii Revised Statutes, requires financial disclosure statements to be destroyed after six years. With respect to publicly filed statements, it is unclear whether this requirement serves a purpose. Public financial disclosure statements are frequently downloaded or posted on other websites. This information will never be truly destroyed, and it may be misleading to treat these documents as if they could be removed from the internet. This housekeeping measure helps establish greater uniformity with document retention requirements and allows the Hawai'i State Ethics Commission to manage records more efficiently.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 140, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1161 Judiciary on H.B. No. 142**

The purpose and intent of this measure is to prohibit lobbyists from making gifts that are prohibited under state ethics law.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Commission to Improve Standards of Conduct, and two individuals.

Your Committee finds that the same gifting regulations that apply to state employees, legislators, and board and commission members should apply to lobbyists. This will lessen the number of situations where a legislator or state employee must refuse a prohibited gift. This measure will prohibit lobbyists from making prohibited gifts to legislators and state employees with administrative fines imposed for violations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 142, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1162 Judiciary on H.B. No. 97**

The purpose and intent of this measure is to:

- (1) Require the Campaign Spending Commission to serve preliminary determinations of probable cause via first-class mail and electronic mail; and
- (2) Establish a presumption of receipt when mailed to the address contained in the candidate or committee organizational report.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, and one individual.

Your Committee finds that presently, the Campaign Spending Commission is required to serve the preliminary determination of probable cause by certified mail. The Campaign Spending Commission, in addition to certified mail, has been sending the preliminary determination of probable cause by first-class mail. In several cases, although the document was sent by first-class mail and was not returned as undeliverable, if the document was also sent by certified mail and is not claimed by the candidate or committee, then it is returned to the Campaign Spending Commission. Under existing law, if there is no service by certified mail, the Campaign Spending Commission is unable to enforce its order and the case remains in limbo. Therefore, allowing the Campaign Spending Commission to serve the preliminary determination of probable cause by first-class mail will allow the Campaign Spending Commission to proceed with enforcement of its orders.

Your Committee has amended this measure by:

- (1) Removing language that would have required the Campaign Spending Commission to serve the preliminary determination of probable cause by electronic mail;
- (2) Inserting language that specifies that, as a courtesy, the Campaign Spending Commission shall send the preliminary determination of probable cause to the respondent by electronic mail; provided that the electronic mail shall not constitute service; and
- (3) Increasing the number of days for the presumption of receipt when mailed to the address contained in the candidate or committee organizational report to take effect from five days to seven days.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 97, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 97, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1163 Judiciary on H.B. No. 138**

The purpose and intent of this measure is to require the Hawai'i State Ethics Commission to establish and administer a lobbyist training course and make the lobbyist training course mandatory for all lobbyists.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Commission to Improve Standards of Conduct, League of Women Voters of Hawaii, and two individuals.

Your Committee finds that education is one of the core functions of the Hawai'i State Ethics Commission. In addition to providing ethics training for state elected officials, employees, and members of state boards and commissions, the Hawai'i State Ethics Commission staff conducts annual trainings for registered lobbyists and organizations engaged in lobbying activities at the state level. Requiring lobbyists to take a lobbyist training course will help educate organizations and lobbyists about the state lobbyists law and rules, and ensure greater compliance with the lobbyist registration laws.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 138, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1164 Energy, Economic Development, and Tourism on H.B. No. 1193**

The purpose and intent of this measure is to:

- (1) Extend the repeal date of the tax credit for research activities for an additional five years;
- (2) Add a maximum amount on the tax credit for research activities that may be claimed by a taxpayer and its related entities;

- (3) Consolidate the survey and certification requirements for the tax credit for research activities;
- (4) Change the annual aggregate cap amount of the tax credit for research activities to an unspecified amount;
- (5) Require certification of the tax credit for research activities on a first—come, first—served basis to be based on the date that a complete application is received, subject to certain conditions; and
- (6) Require a qualified high technology business and at least seventy—five percent of its employees to occupy a business address and location in the State to qualify for the tax credit for research activities.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Makai Ocean Engineering, Inc.; Oceanit; and Maui Chamber of Commerce. Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the Small Business Innovation Research (SBIR) Program is a highly competitive federal program that encourages domestic small businesses to engage in federal research and development that has the potential for commercialization. Through the Hawaii SBIR Program, Hawaii-based companies receive matching funds that can help them to enhance their project development, compete for more lucrative awards, and ultimately reach successful commercialization. However, many businesses are unable to access the program. For example, as in 2022, the entire \$5,000,000 cap for the Hawaii SBIR Program was claimed in the first twenty-three seconds after the applications opened. Your Committee believes that providing a maximum amount of tax credits that a taxpayer and its related entities may be eligible for and changing the annual aggregate cap amount of tax credits allowed in a calendar year will enable more Hawaii-based companies to access the tax credit for research activities. Your Committee further finds that streamlining certain procedures and requirements for the collection of information and approval of applications for the tax credit for research activities will improve the process and allow more businesses to participate in the program. This measure will allow the Hawaii Technology Development Corporation to continue to provide the necessary support to local businesses in the State through a commercialization assistance program.

Your Committee has amended this measure by:

- (1) Inserting language clarifying that, in determining the allowable credit, research that has been funded by a grant, forgivable loan, or other amounts not included in gross income shall not be eligible research;
- (2) Amending the certification deadline to March 31 of each calendar year;
- (3) Deleting language that would have required a qualified high technology business to occupy a business location and address in the State where at least seventy-five percent of the business's employees are located; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1193, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1193, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1165 Energy, Economic Development, and Tourism on H.B. No. 1194**

The purpose and intent of this measure is to ensure that Hawaii is eligible for the substantial benefits of a United States Economic Development Administration-designated economic development district by:

- (1) Establishing the Hawaii Economic Development District Planning Organization and governing board to be administratively attached to the Office of Planning and Sustainable Development; and
- (2) Establishing four full-time equivalent temporary positions and appropriating funds to support the operations of the Hawaii Economic Development District Planning Organization.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and Maui Chamber of Commerce.

Your Committee finds that designation as an economic development district by the United States Economic Development Administration advances the establishment of a long-term relationship with the Administration and will allow the State to benefit significantly from increased access to federal funding to support the continuous development and implementation of the Statewide Comprehensive Economic Development Strategy. Additionally, the Economic Development Administration is much more likely to award funds to projects within a designated economic development district. This measure will provide necessary resources and satisfy statutory requirements to qualify the State for designation as an economic development district by the United States Economic Development Administration.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1194, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1166 Energy, Economic Development, and Tourism on H.B. No. 1408**

The purpose and intent of this measure is to:

- (1) Establish the Digital Equity Grant Program to award grants to deploy digital equity projects to covered populations consisting of certain individuals in the State; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawai'i State Council on Developmental Disabilities; Hawai'i State Public Library System; University of Hawai'i System; Hawai'i Climate Change Mitigation and Adaptation Commission; Disability and Communication Access Board; Kapolei Chamber of Commerce; Hawaiian Telcom; Broadband Hui; AARP Hawai'i; and three individuals.

Your Committee finds that digital equity across the State and in every community is essential to the well-being and economic realities of all the State's residents. Inequitable digital access has had a tremendously negative effect in many areas, with the devastating impacts of the recent coronavirus disease 2019 pandemic highlighting the need for digital access to all residents across the State, particularly in rural and socio-economically disadvantaged communities. Your Committee believes that digital literacy and broadband access are critical tools for persons seeking access to social services, such as unemployment, Supplemental Nutrition Assistance Program benefits, vital records, and other essential government, educational, and medical services. This measure will enhance the State's overall economic development, education, health care, and emergency services by furthering digital equity for all residents, consumers, and businesses across the State.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1408, H.D. 3, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1167      Judiciary on H.B. No. 90**

The purpose and intent of this measure is to require candidate committees and noncandidate committees to file fundraiser notices regardless of the price or suggested contribution for attending the function.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, and two individuals.

Your Committee finds that presently, a fundraiser notice of intent only needs to be filed with the Campaign Spending Commission if the price or suggested contribution for attending the fundraiser is more than \$25 per person. This measure will increase transparency in the political fundraising process by requiring a notice of intent to be filed with the Commission regardless of the price charged for attendance to the fundraiser.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 90, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

**SCRep. 1168      Judiciary on H.B. No. 93**

The purpose and intent of this measure is to require the Campaign Spending Commission to publish on its website the names of candidates and persons who qualify as noncandidate committees who fail to file an organizational report or a corrected organizational report with the Campaign Spending Commission.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, and two individuals.

Your Committee finds that a noncandidate committee cannot file required disclosure reports without first registering with the Campaign Spending Commission by filing an organizational report. Your Committee further finds that organizational reports should be timely filed and the failure to file organizational reports should be disclosed to the public in some manner. This measure will allow the Campaign Spending Commission to publish the names of noncandidate committees who fail to file an organizational report, which will motivate them to do so.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 93, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1169      Labor and Technology on H.B. No. 161**

The purpose and intent of this measure is to:

- (1) Require the representative of labor on the Hawaii Labor Relations Board to be a person whose name has been selected by a simple majority of the exclusive representatives of the collective bargaining units and submitted to the Governor for appointment;
- (2) Require the Governor to submit the name of the nominee to the Senate for advice and consent no later than twenty days after the exclusive representatives' submittal of the nominee's name to the Governor; and

- (3) Provide that if the Governor fails to do so, that the exclusive representatives who recommended the nominee shall transmit the nominee's name directly to the Senate for confirmation.

Your Committee received testimony in support of this measure from United Public Workers, AFSCME Local 646, AFL-CIO; University of Hawaii Professional Assembly; Hawaii State Teachers Association; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; State of Hawaii Organization of Police Officers; and Hawaii Fire Fighters Association. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawaii Labor Relations Board (Board) is a quasi-judicial board that ensures that collective bargaining is conducted in accordance with State law, with jurisdiction over state public sector collective bargaining, state private sector collective bargaining, and cases pertaining to state occupational safety and health citations and whistleblower discrimination claims. The Board consists of three members who represent three distinct interests -- the Chair, who is the representative of the public, one member who is a representative of management, and another member who is a representative of labor. Your Committee notes that, under existing law, the representative of labor is appointed by the Governor from a list of three nominees submitted by mutual agreement from a majority vote of the six exclusive representatives of the fifteen collective bargaining units. This measure will allow the collective bargaining units to select their representative on the Hawaii Labor Relations Board by a simple majority of their exclusive representatives.

Your Committee has amended this measure by:

- (1) Deleting the timing requirement that the Governor transmit the nominees name to the Senate for advice and consent within 20 days of submission of the name to the Governor; and
- (2) Deleting the provision that would have required the exclusive representatives to transmit the nominee's name directly to the Senate for confirmation if the Governor fails to submit the name of the nominee to the Senate for advice and consent.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 161, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 161, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1170 Labor and Technology on H.B. No. 1006**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (7) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, University of Hawai'i System, and University of Hawaii Professional Assembly.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (7) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1006, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1171 Labor and Technology on H.B. No. 1007**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (8) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (8) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1007, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1172 Labor and Technology on H.B. No. 1008**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (9) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (9) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1008, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1173 Labor and Technology on H.B. No. 1009**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (10) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Health Systems Corporation.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (10) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1009, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1174 Labor and Technology on H.B. No. 1010**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (11) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Health Systems Corporation.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (11) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1010, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1175 Labor and Technology on H.B. No. 1011**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (13) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawaii Health Systems Corporation.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (13) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1011, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 1176 Labor and Technology on H.B. No. 1012**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (14) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1012, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1177 Labor and Technology on H.B. No. 38**

The purpose and intent of this measure is to reclassify the Human Resources Development Special Fund as a revolving fund pursuant to the recommendation made by the Auditor in Auditor's Report No. 22-12, which reviewed the special funds, revolving funds, trust funds and trust accounts of the Department of Human Resources Development.

Your Committee received testimony in support of this measure from the Department of Human Resources Development. Your Committee received comments from the Tax Foundation of Hawaii.

Your Committee finds that the Human Resources Development Special Fund was established to support the Department's entrepreneurial initiatives, including claims management fees for administering workers compensation claims for charter schools and other administrative fees, and fees from training activities, programs, and administration. Your Committee further finds that the costs for these initiatives, training activities, and programs are replenished through fees assessed for those services, which aligns with the function and definition of a revolving fund as defined by section 37-62, Hawaii Revised Statutes.

Your Committee recognizes that for the correct conversion of the special fund to a revolving fund, a corresponding adjustment must be made to the operating budget bill to change the special fund ceiling (B funds) to a revolving fund ceiling (W funds).

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 38, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1178 Labor and Technology on H.B. No. 564**

The purpose and intent of this measure is to appropriate an unspecified amount of funds for the Department of Human Resources Development to:

- (1) Establish two full-time equivalent (2.0 FTE) Information Technology Specialist positions;
- (2) Upgrade information technology systems, including network upgrades, and purchase and install desktop computers, workstations, and laptops; and
- (3) Train personnel.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that this measure is necessary for the Department of Human Resources Development to administer the state human resources program more effectively and efficiently. According to oral testimony received by your Committee, the Department currently has one information technology specialist to support the entire department. This measure provides necessary resources to the Department of Human Resources Development.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 564, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1179 Labor and Technology on H.B. No. 717**

The purpose and intent of this measure is to, beginning July 1, 2023, prohibit legislators and public employees from taking or participating in certain actions related to the public employment of, or award of contracts to, relatives or household members.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Hawaii State Ethics Commission, Holomua Collaborative, and four individuals.

Your Committee finds that the State Ethics Commission receives numerous complaints alleging unwarranted benefits or preferential treatment to an employer's relatives each year. According to testimony received by your Committee, the Commission's investigations into these complaints are confidential so that even when no ethics code violations are found, the Commission cannot adequately address the appearance of impropriety. Your Committee recognizes that the existing fair treatment law is not enough to address the appearance of impropriety that occurs with the hiring or promotion of an employer's relative. This measure seeks to promote faith in state government by improving standards of conduct regarding nepotism within state agencies.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 717, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 1180 Labor and Technology on H.B. No. 1506**

The purpose and intent of this measure is to:

- (1) Require that the purpose of investments of the Employee's Retirement System shall be for the exclusive benefit of its members and their beneficiaries;
- (2) Require the Employees' Retirement System to consider, in evaluating venture capital investments, the benefits to its members and their beneficiaries;
- (3) Encourage the Employees' Retirement System to consider, in evaluating venture capital investments, opportunities in industries that will sustain Hawaii's natural environment or produce economic opportunities for its residents;
- (4) Require the Board of Trustees of the Employees' Retirement System to report the rationale for not investing in industries that will sustain Hawaii's natural environment or produce economic opportunities for its residents in its annual report to the Legislature; and
- (5) Appropriate an unspecified amount of funds to be invested by the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Employees' Retirement System and two individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that this measure would help the Board of Trustees of the Employees' Retirement System pursue more financially sound investments locally. According to oral testimony received by your Committee, this measure would allow the Board to expand into ESG (environmental, social, and governance) and infrastructure-focused investments to continue its efforts to deploy capital where financially feasible to the local economy. Your Committee further finds that this measure would better position the System to meet its fiduciary responsibilities to its members while also lowering the State's unfunded liabilities.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1506, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 1181 Labor and Technology on H.B. No. 1000**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (1) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Health Systems Corporation.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (1) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1000, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1182 Labor and Technology on H.B. No. 1001**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (2) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (2) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1001, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1183 Labor and Technology on H.B. No. 1002**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (3) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawaii Health Systems Corporation.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (3) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1002, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1184 Labor and Technology on H.B. No. 1003**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (4) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (4) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1003, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1185 Labor and Technology on H.B. No. 1004**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (5) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Hawaii State Teachers Association, and one individual.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (5) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1004, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1186 Labor and Technology on H.B. No. 1005**

The purpose and intent of this measure is to appropriate funds for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining unit (6) and for their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining unit (6) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2023 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1005, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1187 Housing on H.B. No. 674**

The purpose and intent of this measure is to repeal the percentage requirements for the Hawaii Public Housing Authority related to the admission of applicants, with or without preferences, into federal and state low-income public housing units.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that federal regulations allow public housing agencies to develop tenant residency requirements or local preferences for the selection and admission process for their public housing programs. Existing state law requires the Hawaii Public Housing Authority to establish maximum limits of annual net income for tenant selection and conditions as to eligibility or preference, provided that not less than fifty percent of available units shall be for applicants without preference and up to fifty percent of available units shall be for applicants with preference. According to testimony received by your Committee, the removal of preference

percentage requirements would allow the Hawaii Public Housing Authority to conduct its admission of applicants into federal and state low-income public housing units in a more fair and appropriate manner based on the State's current needs and availability of funds, and according to its adopted administrative rules, which will continue to prioritize housing for families with preference through its non-profit partners.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 674, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 674, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1188 Housing on H.B. No. 675**

The purpose and intent of this measure is to require, if sufficient funding is available, the Hawaii Housing Finance and Development Corporation (HHFDC) to open at minimum two application periods each year for the receipt of applications for financing for the development of affordable housing in the State from the Low-Income Housing Tax Credit Program, Hula Mae Multi-Family Revenue Bond Program, Rental Housing Revolving Fund Program, and Dwelling Unit Revolving Fund Program.

Your Committee received testimony in support of this measure from the Office of the Governor's Chief Housing Officer, Hawaii Housing Finance and Development Corporation, EAH Housing, and one individual.

Your Committee finds that there is a critical housing shortage in the state. HHFDC currently requires projects to submit approved permits for housing developments prior to applying for tax credits, bonds, and the Rental Housing Revolving Fund Program. This measure will therefore increase the number of opportunities for HHFDC to award funding to developers of affordable housing and reduce regulatory constraints and delays to utilize financing more effectively and efficiently.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 675, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 675, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1189 Housing on H.B. No. 679**

The purpose and intent of this measure is to amend the general fund appropriation to the Hawaii Housing Finance and Development Corporation's Rental Housing Revolving Fund under Act 236, Session Laws of Hawaii 2022, to ensure the State meets its American Rescue Plan Act maintenance of effort obligations.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation.

Your Committee finds that Act 236, Session Laws of Hawaii 2022, Section 3, appropriated \$300,000,000 for infusion into the Rental Housing Revolving Fund (RHRF). However, Governor Ige conditioned expenditure of the funds to be after June 30, 2023 to comply with the federal American Rescue Plan Act. According to testimony received by your Committee, this measure is critical to the Hawaii Housing Finance and Development Corporation's ability to fund the RHRF financing award commitments that were made last year and extends the lapse date to the following fiscal year to further allow for the expenditure of general funds into RHRF to fulfill its financing award commitments and maintain the financial pipeline for affordable housing projects.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 679, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 679, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1190 Housing on H.B. No. 992**

The purpose and intent of this measure is to clarify Act 248, Session Laws of Hawaii 2022, as it pertains to the appropriation for the Affordable Homeownership Revolving Fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Housing Finance and Development Corporation.

Your Committee finds that Act 248, Session Laws of Hawaii 2022, in part, appropriates general funds for the Hawaii Housing Finance and Development Corporation to provide, in whole or in part, loans to nonprofit community development financial institutions and nonprofit housing development organizations for the development of affordable homeownership housing projects. This measure clarifies that the funds be deposited into the Affordable Homeownership Revolving Fund then expended out of the fund, allowing monies to revolve back into the fund when loans are repaid, as intended.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 992, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 992, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1191 Housing on H.B. No. 1246**

The purpose and intent of this measure is to:

- (1) Authorizes the Hawaii Housing Finance Development Corporation to issue bonds for infrastructure projects and to finance the development of regional state infrastructure projects;
- (2) Authorize the issuance of an unspecified amount of general obligation bonds with the funds to be deposited into the Dwelling Unit Revolving Fund; and
- (3) Appropriate an unspecified amount of funds into and out of the Dwelling Unit Revolving Fund.

Your Committee received testimony in support of this measure from the Chief Housing Officer of the Office of the Governor; Hawaii Housing Finance and Development Corporation; Hawai'i Association of REALTORS; NAIOP Commercial Real Estate Development Association, Hawaii Chapter; EAH Housing; and Housing Hawaii's Future. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the cost of off-site infrastructure is a major barrier to the development of affordable housing statewide. These costs are typically paid by private housing developers, who in turn, pass them on to homebuyers in the form of higher prices. Accordingly, this measure offers another source of funding for counties to pay for housing infrastructure to increase affordable housing inventory in the State. Additionally, according to testimony received by your Committees, this measure will also help offset some of the burden on the Dwelling Unit Revolving Fund, which is currently being depleted by the State's historical infrastructure obligations in Waiahole Valley and in the Villages of Kapolei.

Your Committee has amended this measure by:

- (1) Clarifying that the Hawaii Housing Finance and Development Corporation may issue bonds for infrastructure projects that are for a housing project or projects;
- (2) Inserting language to require the Hawaii Housing Finance and Development Corporation to submit a report to the Legislature on the housing units to be generated by the infrastructure projects;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1246, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1246, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1192 Housing on H.B. No. 1395**

The purpose and intent of this measure is to appropriate funds for the planning and design for up to one hundred fourteen affordable housing units at the Kapaa public housing project site in Kapaa, Kauai.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that the Kapaa public housing project is a federal public housing property that consists of thirty-six units and was constructed nearly sixty years ago. The Hawaii Public Housing Authority's Ka Lei Momi Project aims to redevelop certain underutilized state assets into ten thousand new affordable housing units statewide through developing a combination of different housing types and to deconcentrate poverty within the State's communities and empower low-income families by providing them with greater access to better healthcare, schooling, and job opportunities. This measure would redevelop the Kapaa public housing project as a part of the Ka Lei Momi Project, with a one-to-one replacement for all existing units on the site and add an additional seventy-eight units to help house more residents in the State. Your Committee notes that the total budget for the Ka Lei Momi Project is \$62,200,000.

Your Committee has amended this measure by:

- (1) Reinserting an appropriation amount of \$2,000,000;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1395, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1395, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1193 Agriculture and Environment on H.B. No. 974**

The purpose and intent of this measure is to:

- (1) Establish a program grant specialist position within the Department of Agriculture and appropriate funds for the position; and
- (2) Require the program grant specialist to prioritize assistance for farmers and ranchers who produce local food for which at least some portion is consumed within the State.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Hawaiian Affairs; Food+ Policy Internship 2023; Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawaii; Hawaii Cattlemen's Council, Inc.; Hawai'i Seed Growers Network; and three individuals.

Your Committee finds that the decrease in direct federal appropriations for agriculture has resulted in a fiscal policy landscape characterized by a dependance on and competition for limited grant funding options. Grant writing typically involves complex application processes that can be difficult to navigate, particularly for farmers and ranchers heavily preoccupied with their day-to-day farming or ranching operations. Your Committee further finds that farmers and ranchers can often lack the time, know-how, and skills required to draft compelling grant applications, despite clear and apparent needs for funding of their operations, which in itself can often deter farmers and ranchers from applying all together. Therefore, this measure establishes and appropriates funds for a grant specialist position at the Department of Agriculture to assist farmers and ranchers in applying for and obtaining grants offered by the United States Department of Agriculture and other sources.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 974, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1194 Agriculture and Environment on H.B. No. 975**

The purpose and intent of this measure is to clarify the requirements for participation under the Cover Crop Reimbursement Pilot Program.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farmers Union United, Hawai'i Farm Bureau, and two individuals. Your Committee received testimony in opposition to this measure from the Hawaii Smokers Alliance. Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the Cover Crop Reimbursement Pilot Program was established by Act 312, Session Laws of Hawaii 2022, to provide an up to seventy-five percent cost reimbursement for farming operations to feasibly acquire cover crop seeds, green manure, or compost. Your Committee recognizes that the use of cover crops, green manure, and compost increases agricultural productivity and is beneficial for sustainably building soil structure and soil nutrient capacity over the long-term, but can often be costly and expensive to completely implement. This housekeeping measure addresses potential deficiencies of the Cover Crop Reimbursement Pilot Program by clarifying requirements for the submission of applications and disbursement of grants for participants to strengthen this program and enhance the sustainability of agricultural lands in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 975, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1195 Agriculture and Environment on H.B. No. 1149**

The purpose and intent of this measure is to appropriate funds for existing positions and activities related to coconut rhinoceros beetle infestation control.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; East Oahu County Farm Bureau; Pacific Agricultural Land Management Systems; Palakamoon Farms; Waimanalo Agricultural Association; Happy Plants Nursery; Island Grower Supplies, LLC; Natura Nursery; Coastline Landscaping; Coordinating Group on Alien Pest Species; Island Food Scaping; Waimanalo Agricultural Association; University of Hawaii Professional Assembly; and six individuals.

Your Committee finds that the coconut rhinoceros beetle is a major pest of coconut and ornamental palms and can also be found in betelnut, Pandanus species, banana, pineapple, papaya, sugarcane, and taro plants. The coconut rhinoceros beetle damages living palms and either kills the trees by direct damage, or exposes the tree for damage and death by other insects. The coconut rhinoceros beetle thrives on islands in the Pacific due to a lack of natural predators and in Palau, where the beetle first invaded in 1942, the

coconut palm was eradicated entirely on some islands. Your Committee further acknowledges that the coconut rhinoceros beetle was initially identified on Oahu in 2013 at the Joint Base Pearl Harbor-Hickam during a routine survey by the Department of Agriculture and the University of Hawaii. The unregulated movement of green waste has led to the spread of the coconut rhinoceros beetle throughout Oahu and continued investment in monitoring, research, and management is necessary to mitigate further damage on Oahu and prevent the beetle's spread to other islands. Therefore, this measure appropriates funds to support existing coconut rhinoceros beetle response positions and activities to mitigate and reduce the presence and detrimental impacts of the coconut rhinoceros beetle.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1149, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1196 Agriculture and Environment on H.B. No. 1248**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for the continued administration of the Hawaii Healthy Food Incentive Program and to provide matching funds to beneficiaries who participate in the Supplemental Nutrition Assistance Program.

Your Committee received testimony in support of this measure from the Department of Human Services; Department of Agriculture; Executive Office on Early Learning; one member of the County Council of the County of Maui; Aloha Harvest; Hawai'i Primary Care Association; We Are One, Inc.; Ho'ōla Farms; Okimoto Corporation; Hawai'i Family Caregiver Coalition; Hawai'i Alliance for Progressive Action; Food+ Policy Internship 2023; Hawai'i Reef and Ocean Coalition; Hawai'i Pacific Health; Hawaii Farmers Union United – Hana Chapter; Hawai'i Food Bank; Malama Kaua'i, Hawaii Medical Service Association; Hawaii Appleseed Center for Law and Economic Justice; The Kūpuna Caucus of the Democratic Party of Hawai'i; American Heart Association; Farm Link Hawai'i; Hawai'i Public Health Institute; Hawai'i Children's Action Network Speaks!; Ulupono Initiative; 350Hawaii; Hawaii Food Industry Association; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Early Childhood Action Strategy; Aloha Care; Hawai'i Good Food Alliance; Hawai'i Hunger Action Network; The Food Basket; KTA Super Stores; Hawai'i Chapter of the American Academy of Pediatrics; Kaiser Permanente; and fifty-five individuals.

Your Committee finds that the Supplemental Nutrition Assistance Program (SNAP) is the largest federal food assistance program in the nation, which provides eligible Hawaii residents with monthly benefits to purchase food. According to the Center on Budget and Policy Priorities, more than sixty percent of SNAP beneficiaries are members of families with children in Hawaii. Your Committee additionally finds that the Hawaii Healthy Food Incentive Program, also known as Double Up Food Bucks or DA BUX, is a state program that offers discounts on Hawaii grown fruits and vegetables to low-income recipients of the Supplemental Nutrition Assistance Program. The DA BUX Program has the added benefit of supporting local agriculture and enhancing public health and food security, while retaining dollars in-state to support Hawaii's local economy. Your Committee further acknowledges that the 2019 Coronavirus Disease Pandemic has exacerbated the need for programs like DA BUX, since many residents continue to face economic and health-related challenges in its aftermath. Therefore, this measure appropriates funds for the continued administration of the Hawaii Healthy Food Incentive Program and provides matching funds to eligible Supplemental Nutrition Assistance Program recipients in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1248, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1197 Agriculture and Environment on H.B. No. 1382**

The purpose and intent of this measure is to:

- (1) Provide for the donation of wild game to under-resourced communities;
- (2) Establish a meat processing task force to develop and implement a masterplan to expand meat processing capacity in the State; and
- (3) Appropriate funds for the meat processing task force.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Department of Agriculture; Office of the Mayor of the County of Maui; one member of the County Council of the County of Maui; Hawai'i Forest Industry Association; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committee finds that axis deer is an invasive species in the State, which is especially prolific in the County of Maui. Axis deer eat cattle food sources, agricultural crops, contribute to soil erosion through over grazing, and threaten native plant species. Your Committee additionally finds that nonprofit organizations that aim to fight hunger in the State often lack fresh sources of animal protein to offer and make available for residents in need. The intent of this measure is to tackle these two issues simultaneously by encouraging the reduction of the axis deer population on Maui and providing locally-sourced meat to the State's hungry and undernourished. This measure also establishes and appropriates funds for a meat processing task force to develop and execute a masterplan to increase meat processing in the State, which aligns with the State's mandate to bolster local agricultural sustainability and food security in Hawaii.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1382, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

**SCRep. 1198 Public Safety and Intergovernmental and Military Affairs on H.B. No. 1033**

The purpose and intent of this measure is to add to the State Building Code Council one member who represents the Hawaii Emergency Management Agency, to be appointed by the Director of Hawaii Emergency Management.

Your Committee received testimony in support of this measure from the Department of Defense, Hawai'i Emergency Management Agency, and Hawaii State Energy Office.

Your Committee finds that Federal Emergency Management Agency grants are available to help communities with mitigation projects to reduce risks from natural and human-caused hazards and threats. However, the State has not been able to successfully compete for and obtain those funds, largely due to the significant obstacle of the State's building code. The State's building code varies considerably from county to county, with none of the counties meeting the most current national standards. This measure will provide the State Building Code Council with necessary expertise on how to update building codes to make the State more resilient to future disasters and hazards and make the State more competitive in securing federal mitigation grants by adding a Hawaii Emergency Management representative to the Council.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1033, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1199 Public Safety and Intergovernmental and Military Affairs on H.B. No. 1036**

The purpose and intent of this measure is to formally establish the Hawaii State Fusion Center as a program under the Office of Homeland Security, to be transferred to the Department of Law Enforcement on January 1, 2024, and delineate its roles and responsibilities.

Your Committee received testimony in support of this measure from the Department of Defense, Department of Human Services, Department of Law Enforcement, Office of Homeland Security, and Retail Merchants of Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawaii State Fusion Center functions as the nexus of information and intelligence sharing between federal, state, county, and private-sector partners that collectively work to keep Hawaii and the nation safe. Additionally, the Fusion Center offers critical real-time and strategic intelligence analysis, threat assessments, and targeted violence prevention program management and assists the public safety community in preventing, protecting against, and responding to crime, terrorism, and emerging threats. Your Committee believes that the Fusion Center plays a vital role in the State's homeland security. This measure will bring official state-level recognition to the Fusion Center's value and provide the necessary support to keep the State, residents, and critical infrastructure safe.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1036, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1200 Public Safety and Intergovernmental and Military Affairs on H.B. No. 418**

The purpose and intent of this measure is to appropriate funds for repairing warning sirens statewide.

Your Committee received comments on this measure from the Hawai'i Emergency Management Agency.

Your Committee finds that multiple warning sirens in the State have been out of operation for various reasons. Vandalism, supply-chain delays, and scheduling repair visits continue to hinder the needed timely repairs to sirens across the State. This measure will assist the Hawaii Emergency Management Agency to repair damaged sirens and allow the Agency to deliver excellent siren maintenance services statewide.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 418, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (McKelvey). Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1201 Public Safety and Intergovernmental and Military Affairs on H.B. No. 451**

The purpose and intent of this measure is to:

- (1) Amend Act 125, Session Laws of Hawaii 2022, to extend the time to expend appropriations for the establishment of a pilot visitation and family resource center at Waiawa Correctional Facility on Oahu;
- (2) Make conforming amendments related to the establishment of the Department of Corrections and Rehabilitation; and

- (3) Appropriate additional funds to implement the pilot visitation and family resource center at Waiawa Correctional Facility on Oahu.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Human Services, Hawaii Correctional System Oversight Commission, Papa Ola Lokahi, Hawai'i Children's Action Network Speaks!, Hawai'i Youth Services Network, Hawai'i 'Ohana Support Network, Community Alliance on Prisons, Blueprint for Change, and nine individuals.

Your Committee finds that families play a crucial role in the rehabilitation of inmates. It is difficult for families to have a meaningful reconnection unless the families are allowed to have face-to-face contact in a suitable setting. Your Committee believes that the Waiawa Correctional Facility is an appropriate facility for a pilot visitation and family resource center because most of its inmates are transferred from the Halawa Correctional Facility or the Saguaro Correctional Facility in Arizona, where there is precious little opportunity for face-to-face interaction between inmate fathers and their children. Moreover, the challenges facing children of the incarcerated are well-documented. This measure provides necessary resources to help children deal with the trauma caused by parental incarceration and assist in the rehabilitation of inmate parents.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 451, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1202 Public Safety and Intergovernmental and Military Affairs on H.B. No. 823**

The purpose and intent of this measure is to:

- (1) Expand the scope of inmate and corrections employee deaths that are reported and require the reports of deaths to be published on the Department of Corrections and Rehabilitation's website; and
- (2) Clarify the information to be included in the reports after the official cause of death is determined and mandate public access to certain information within those reports.

Your Committee received testimony in support of this measure from the Hawaii Correctional System Oversight Commission, Civil Beat Law Center for the Public Interest, Opportunity Youth Action Hawai'i, Community Alliance on Prisons, and six individuals. Your Committee received comments on this measure from the Department of Public Safety.

Your Committee finds that Arizona, California, and Nevada require the public reporting of the deaths of incarcerated persons. Your Committee believes that the public should know the identity of people who die while incarcerated. This measure will promote governmental transparency by codifying a process for the public disclosure of deaths of incarcerated individuals.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 823, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1203 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 824**

The purpose and intent of this measure is to create a medical or compassionate release program for certain ill or impaired inmates who pose a low risk to public safety.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Correctional System Oversight Commission, and five individuals. Your Committee received comments on this measure from the Hawaii Paroling Authority.

Your Committee finds that compassionate release allows inmates who have complex medical needs to spend their remaining days outside of jail or prison in the company of their family and friends. Inmates with complex medical needs are not only some of the costliest individuals to house within jails and prisons, but are also the least likely to pose any threat to society once released. Your Committee believes that inmates should be released when they are too debilitated to commit further crimes, too compromised to benefit from rehabilitation, or too impaired to be aware of punishment. This measure will reduce the prison population, reduce costs to the Department of Public Safety, and elevate a level of humanity in corrections that aligns with a rehabilitative and therapeutic model.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 824, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

**SCRep. 1204 Public Safety and Intergovernmental and Military Affairs on H.B. No. 1035**

The purpose and intent of this measure is to establish protections for critical infrastructure information that is received or maintained by the Office of Homeland Security for use regarding the security of critical infrastructure.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Hawai'i Office of Homeland Security, Department of Law Enforcement, Office of Enterprise Technology Services, Hawaii State Energy Office, Honolulu Board of Water Supply, Hawai'i Gas, and Hawaiian Electric. Your Committee received testimony in opposition to this

measure from one individual. Your Committee received comments on this measure from the Department of Defense and Office of Information Practices.

Your Committee finds that, for the Office of Homeland Security and the Hawaii State Fusion Center to work closely with the private sector involved in the ownership, operation, or management of critical infrastructure, it must be able to assure private partners that proprietary information relating to the security of critical infrastructure is protected from disclosure to the public. Protection of proprietary information helps the Office of Homeland Security to establish and develop relationships and access information necessary for it to help protect the public and critical infrastructure relied upon by people in the State. This measure will enhance sharing of critical infrastructure information between infrastructure owners and operators and the State while offering additional protections to provide partners reassurance that their proprietary information provided to the State will be protected.

Your Committee has amended this measure by clarifying the definition of “critical infrastructure information” to mean information not customarily in the public domain and related to the security of critical infrastructure or protected systems.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1035, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1035, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1205 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 1132**

The purpose and intent of this measure is to:

- (1) Extend the term of the Oversight Coordinator for the Hawaii Correctional System Oversight Commission;
- (2) Require the Commission to publish a summary of an investigation and any action taken by the Commission in response;
- (3) Authorize the Commission to hold a meeting closed to the public to discuss with the Oversight Coordinator a complaint investigated when necessary to maintain confidentiality, under certain conditions; and
- (4) Broaden the Oversight Coordinator’s power to make inquiries, obtain information, and inspect the premises of agencies and correctional facilities.

Your Committee received testimony in support of this measure from the Department of Public Safety, Hawaii Correctional System Oversight Commission, Criminal Justice Research Institute, Community Alliance on Prisons, and four individuals. Your Committee received comments on this measure from the Hawaii Paroling Authority.

Your Committee finds that the Hawaii Correctional System Oversight Commission was established to facilitate a transition to a rehabilitative and therapeutic model of corrections. Your Committee believes that broadening the Oversight Coordinator’s power to make inquiries, obtain information, and inspect correctional facilities is necessary to achieve this goal. Additionally, extending the term of the Oversight Coordinator of the Hawaii Correctional System Oversight Commission will allow the Oversight Coordinator to gain intimate knowledge of the State’s correctional systems and develop working relationships with elected and appointed officials, private entities, and their staff. This measure will therefore help the Hawaii Correctional System Oversight Commission to achieve its goal of transitioning the correctional system to a rehabilitative and therapeutic model.

Your Committee has amended this measure by:

- (1) Requiring members of the Hawaii Correctional System Oversight Commission be subject to the advice and consent of the Senate;
- (2) Amending the Oversight Coordinator’s term to four years; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1132, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1132, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

**SCRep. 1206 Hawaiian Affairs on H.B. No. 1508**

The purpose and intent of this measure is to appropriate moneys to:

- (1) The Department of Business, Economic Development, and Tourism to improve Native Hawaiian communities and culture through various assistance services, including but not limited to services that offer Native Hawaiian historic preservation, business training, entrepreneurship, and mentoring; and
- (2) The Department of Land and Natural Resources for repatriation and reburials of Native Hawaiians nationally and internationally.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Business, Economic Development, and Tourism; Council for Native Hawaiian Advancement; Kapolei Chamber of Commerce; and

three individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of Hawaiian Affairs.

Your Committee finds that small business education and training programs for Native Hawaiian communities can help empower new entrepreneurs and assist them in navigating the complex and highly technical aspects of licensing, capital raising, personnel, e-commerce, and business strategy. Your Committee further finds that Native Hawaiian communities can especially benefit from services such as a virtual marketplace and a collaborative co-working space, which can respectively serve as an effective sales and marketing platform and an incubator where ideas, innovation, and networking can flourish. Therefore, this measure appropriates moneys to allow the Department of Business, Economic Development, and Tourism to provide important small business and entrepreneurship services. This measure also separately appropriates moneys to allow the Department of Land and Natural Resources to assist Native Hawaiians in repatriating iwi kupuna.

Your Committee also notes the testimony of the Office of Hawaiian Affairs, which expressed their belief that they are the proper agency to administer the programs and funds provided by this measure as the principal public agency in the State responsible for the performance, development, and coordination of programs and activities relating to Native Hawaiians. Your Committee also notes the testimony of the Department of Land and Natural Resources, which requested that, should they receive the funding appropriated by this measure for the repatriation of iwi kupuna, that one full-time-equivalent position be established within the State Historic Preservation Division to carry out the activity effectively and efficiently. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider further examining whether the Office of Hawaiian Affairs is in fact the proper agency for this measure. Alternatively, should your Committee on Ways and Means decide that the Department of Business, Economic Development, and Tourism and the Department of Land and Natural Resources are best-suited to carry out this measure, your Committee respectfully requests that it consider appropriating funds to the Department of Land and Natural Resources for additional staffing.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1508, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1508, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1207 Hawaiian Affairs on H.B. No. 37**

The purpose and intent of this measure is to abolish the Native Hawaiian Rights Fund of the Office of Hawaiian Affairs pursuant to the recommendation contained in Auditor's Report No. 22-02.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs. Your Committee received testimony in opposition to this measure from two individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Office of the Auditor's *Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Office of Hawaiian Affairs*, Report No. 22-02 (Feb. 2022), recommended that the Native Hawaiian Rights Fund be closed because the fund no longer serves the purpose for which it was created. According to the Auditor's report, the Native Hawaiian Rights Fund was administratively created by the Office of Hawaiian Affairs in 1987 to hold attorney's fees and costs recovered by the Native Hawaiian Legal Corporation's Land Title Project. Subsequently, the Office of Hawaiian Affairs established a direct legal services contract with the Native Hawaiian Legal Corporation and transferred the balance in the fund to the Public Land Trust on July 14, 2015. Thus, while the fund has been inactivated internally, it still exists in the Financial Accounting and Management Information System. Therefore, this measure formally abolishes the Native Hawaiian Rights Fund.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 37, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 37, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 1208 Hawaiian Affairs on H.B. No. 1058**

The purpose and intent of this measure is to allow an adopted individual to be considered as a child of both their adopted parents and natural parents for the sole purpose of determining familial relationships under the Hawaiian Homes Commission Act of 1920, as amended (HHCA).

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that adoption can impact the ability of an adopted individual, or members of an individual's natural family who are subsequently adopted, to succeed to a homestead lease or application on the Department of Hawaiian Home Lands waiting list. Under the current law, a native Hawaiian child whose biological parents are on the homestead waiting list would lose their legal ability to succeed to a homestead lease following their adoption by non-native Hawaiian parents. Therefore, this measure serves to address situations such as this, by allowing an adopted individual to maintain their natural family's relationship status and thereby succeed to a lease. Your Committee notes that this measure does not alter any other requirements under the HHCA, such as the blood quantum

requirement for successor lessees, and thus would not allow a child who does not meet the requisite blood quantum requirement to succeed to a lease under the HHCA after being adopted by non-native Hawaiian parents.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1058, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1209 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 426**

The purpose and intent of this measure is to:

- (1) Establish standards of conduct for the firearm industry;
- (2) Authorize any person who has suffered harm because of a firearm industry member's violation of the standards of conduct to bring a civil action; and
- (3) Authorize the Attorney General or any county attorney or public prosecutor to bring a civil action against a firearm industry member for violation of standards of conduct.

Your Committee received testimony in support of this measure from the Brady Campaign to Prevent Gun Violence, Everytown for Gun Safety, Moms Demand Action for Gun Sense in America, Students Demand Action for Gun Sense in America, and twenty-five individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association of America, Hawaii Firearms Coalition, and more than one hundred individuals.

Your Committee finds that the firearm industry currently has no financial incentive to deter irresponsible conduct of third parties who use firearms for dangerous, negligent, and unlawful actions. Your Committee believes that the possibility of civil liability will not only provide justice for victims and survivors, but also encourage the gun industry to act responsibly to help stem the tide of gun crimes that harm the people of Hawaii and the nation, particularly in urban areas where communities of color are disproportionately harmed. This measure will lead to safer products and conduct from the firearm industry to ensure justice and safety for the public.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 426, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 1210 Water and Land on H.B. No. 1371**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to prepare a master plan for the Sand Island State Recreation Area.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Land and Natural Resources, PA'I Foundation, Friends of Hanauma Bay, and sixty individuals.

Your Committee finds that residents and visitors alike are seeking additional outdoor recreational opportunities and are attracted to safe and well-maintained parks near the beach and ocean. Your Committee also finds that the Sand Island State Recreation Area is one such urban park in Honolulu, that accommodates both land- and ocean-based recreational activities. Presently, there is an undeveloped section of the Sand Island State Recreation Area that abuts the Sand Island Wastewater Treatment Plant, which contains hazardous abandoned military infrastructure, illegally dumped waste, and long-thorn Kiawe. Your Committee finds that the undeveloped portion of the park could potentially be transformed into an open grass area for picnicking, walking and biking paths, and a variety of other recreational uses. Therefore, this measure requires the Department of Land and Natural Resources to develop a master plan for the Sand Island State Recreation Area that will also incorporate plans for the establishment of a Native Hawaiian arts and cultural center for community uses.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1371, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1211 Water and Land on H.B. No. 1134**

The purpose and intent of this measure is to:

- (1) Prohibit commercial ocean use activity in Kaneohe Bay without a permit; and
- (2) Prohibit any person from advertising any commercial ocean use activity in Kaneohe Bay for which the person does not have a permit.

Your Committee received testimony in support of this measure from the Hawaii State Aha Moku, Kāne'ohe Bay Regional Council, Ko'olau Foundation, Ko'olaupoko Hawaiian Civic Club, and five individuals. Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the over-commercialization of Kaneohe Bay has been unnaturally encouraged by social media and through unpermitted tour operators who advertise and operate without regard for rules, regulations, and cultural awareness. Your Committee finds that action is necessary to ensure that Kaneohe Bay's rich cultural history and scenic natural environment are preserved and protected for the use and enjoyment of all. Therefore, this measure updates the law regarding restricted activities in Kaneohe Bay.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1134, H.D. 2, and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1212 Water and Land on H.B. No. 1088**

The purpose and intent of this measure is to amend the conditions, manner, and areas in which the Commission on Water Resource Management of the Department of Land and Natural Resources can declare water shortages and emergencies.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Office of the Mayor of the County of Maui, Honolulu Board of Water Supply, County of Hawaii Department of Water Supply, and Department of Water of the County of Kaua'i.

Your Committee finds that under existing law, a water shortage must be declared through a rule-making process and in accordance with an established water shortage plan before the Commission on Water Resource Management can declare a water emergency. Thus, the existing law does not contemplate water shortages or emergencies caused by an immediate degradation of water quality -- such as the fuel leak that occurred at the Red Hill Bulk Fuel Storage Facility -- which can happen in an instant. Therefore, this measure will allow the Commission to react to a crisis, whether within or outside of a water management area, in a swift and comprehensive manner.

Your Committee has heard the testimony of the Office of the Mayor of the County of Maui, expressing concerns, among other things, that:

- (1) Allowing the Commission to declare a water emergency without a prior water shortage declaration would appear to preempt and usurp the executive authority provided under section 127A-14(c), Hawaii Revised Statutes (HRS), which provides that "[t]he [G]overnor or [M]ayor shall be the sole judge of the existence of the danger, threat, or circumstances giving rise to a declaration of a state of emergency in the State or a local state of emergency in the county, as applicable";
- (2) Allowing the Commission to impose restrictions on permits outside of water management areas would contravene the intent and purpose of section 174C-41(a), HRS, which provides that a water designation area can be designated only when "it can be reasonably determined, after conducting scientific investigations and research, that the water resources in an area may be threatened by existing or proposed withdrawals or diversions of water"; and
- (3) Striking the language from section 174C-62(g), HRS, would relieve the Commission from performing its due diligence to make certain findings before imposing restrictions on permittees, thereby nullifying the procedural and substantive due process protections provided by the State Water Code.

Your Committee also heard the testimony of the Honolulu Board of Water Supply, which expressed similar concerns regarding the contravention of section 174C-41(a), HRS, and the nullification of due process by striking the language from section 174C-62(g), HRS.

Should your Committee on Judiciary choose to deliberate on this measure, your Committee respectfully requests that it consider further examining the concerns expressed by the Office of the Mayor of the County of Maui and the Honolulu Board of Water Supply.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1088, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (Elefante, McKelvey, Fevella). Noes, none. Excused, none.

**SCRep. 1213 Water and Land on H.B. No. 361**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources and its partner, or partners, for the continuation of the Green Jobs Youth Corps.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii State Energy Office, Holomua Collaborative, Kupu, Hawai'i Energy, Kua 'Āina Ulu 'Auamo, Re-use Hawai'i, HPM Building Supply, Hawai'i Community Foundation, Hui o Hauula, The Nature Conservancy, Hawai'i Reef and Ocean Coalition, and three individuals.

Your Committee finds that the Green Jobs Youth Corps Program, established in 2020, provides important employment and training opportunities for young adults interested in conservation, sustainable agriculture, clean energy, and other sustainability-related industries. Your Committee finds that the Program, which provides approximately one hundred workforce and training opportunities each year, not only helps to address youth unemployment, but helps the State to diversify the economy and reach its environmental and self-sustainability goals. Therefore, this measure will continue the Program and provide further opportunities for emerging professionals to gain skills related to natural resource management.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 361, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1214 Water and Land on H.B. No. 953**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to develop and publish a website that includes the application processes for a permit, license, or reservation needed to conduct recreational and commercial activities in the State that are regulated by or under the jurisdiction of the Department;
- (2) Require the Department of Land and Natural Resources to convert existing application processes into a digital format to be used on the website; and
- (3) Appropriate funds for the establishment of the website.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, and one individual. Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that many residents, visitors, and businesses have difficulty finding the correct applications required to use lands administered by the Department of Land and Natural Resources. This confusion can lead to a variety of illegal activities, such as trespass, illegal camping, and unauthorized commercial tour activities. Your Committee further finds that the current online process is labyrinthian, requiring an individual to navigate multiple links to find an appropriate Division and thereafter navigate through more links to find a correct application. Therefore, this measure provides for the creation of a website that will consolidate all necessary forms and application processes of the Department to help streamline the permitting process for the benefit of residents, visitors, and businesses alike.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 953, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1215 Energy, Economic Development, and Tourism on H.B. No. 852**

The purpose and intent of this measure is to amend the definition of "eligible business activity" to include the processing of value-added agricultural products grown within an enterprise zone and the development or production of renewable energy.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii State Energy Office; Hawai'i Farm Bureau; Hawaii Food Industry Association; Hawai'i Forest Industry Association; Hawaii Clean Power Alliance; Hawai'i Gas; Hawaiian Electric; Ulupono Initiative; and one individual. Your Committee received testimony in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawai'i. Your Committee received comments on this measure from the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that the Hawaii Enterprise Zone Program was established to incentivize the growth of business and increase employment in designated areas of the State. The Enterprise Zone Program uniquely benefits rural communities because it is one of the few programs that focuses efforts on supporting agriculture and forestry, which are often the main business activities in rural communities. Your Committee further finds that allowing a broader range of renewable energy projects to participate in Hawaii's Enterprise Zone Program will stimulate growth and development in the private sector, lead to advances in renewable energy, and help lower the cost of renewable energy projects. This measure will help to strengthen the local economy, support local farmers and rural communities, and help the State reach its renewable energy goals.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 852, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Fevella).

**SCRep. 1216 Water and Land on H.B. No. 670**

The purpose and intent of this measure is to specify that a simple majority of affirmative votes from the members serving on the Land Use Commission is required for any boundary amendment.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS. Your Committee received testimony in opposition to this measure from the Office of Hawaiian Affairs. Your Committee received comments on this measure from the Land Use Commission and Grassroot Institute of Hawaii.

Your Committee finds that under existing law, six out of the nine members of the Land Use Commission must affirmatively vote to approve any boundary amendment. However, your Committee finds that this requirement is unnecessarily high, especially in light of the fact that members of the Land Use Commission are volunteers whose busy schedules do not always permit them to attend every meeting. Your Committee also finds that delays in land use permitting and approvals substantially increase the time and cost required

to build new housing, and the uncertainty surrounding the current process can disincentivize development. Therefore, this measure will help to reduce the State's excessive permit approval times and expedite development by allowing the Land Use Commission to approve boundary amendments by a simple majority.

Your Committee notes that the companion to this measure, S.B. No. 937, S.D. 1 (Regular Session of 2023), which was previously passed by the Senate, is a substantially similar measure that also amends the affirmative vote requirement of the Land Use Commission for boundary amendments to a simple majority. Your Committee concludes that S.B. No. 937, S.D. 1, is preferable because it further simplifies the process of amending district boundaries by requiring only a simple majority of votes from the members present and qualified to vote, as opposed to a simple majority of votes from the members serving on the Commission. Your Committee further finds that S.B. No. 937, S.D. 1, is preferable because it includes a section that would reduce the number of days within which the Land Use Commission must act for certain actions related to district boundary amendments. Your Committee believes this will further expedite the approval process and support housing development generally.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 937, S.D. 1, a substantially similar measure, which:

- (1) Clarifies that a simple majority of affirmative votes of the members of the Land Use Commission present at a meeting and qualified to vote is required for any boundary amendment;
- (2) Reduces the number of days within which the Land Use Commission must act for certain actions related to amendments to district boundaries;
- (3) Inserts an effective date of July 1, 2050; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 670, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 670, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey). Noes, none. Excused, 1 (Fevella).

**SCRep. 1217 Water and Land on H.B. No. 908**

The purpose and intent of this measure is to amend the maximum amount of conveyance tax revenues allocated to the Land Conservation Fund.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Kua 'Āina Ulu 'Auamo, The Nature Conservancy, Hawai'i Reef and Ocean Coalition, and one individual. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that despite regulations on land use and development in Hawaii, lands that hold important natural or cultural resources are often unprotected, inaccessible, or threatened with damage and destruction. The Land Conservation Fund was established in 1973 for the purpose of funding the protection of such lands, through the provision of grants to government agencies and community organizations to purchase and protect lands that shelter unique, threatened, and endangered resources. Your Committee finds that the current maximum amount of conveyance tax revenues allocated to the Land Use Conservation Fund -- which is ten percent of all conveyance taxes collected for the fiscal year or \$5,100,000, whichever is less -- does not provide the sufficient buying power in today's real estate market to carry out the purposes of the Fund. Therefore, this measure increases the maximum amount of conveyance tax revenues allocated to the Land Conservation Fund to help ensure that adequate funding is available to meet the cost of acquiring land for public and ecological benefit.

Your Committee has amended this measure by specifying the maximum amount of conveyance tax revenues allocated to the Land Use Conservation Fund to be ten percent of all conveyance taxes collected for the fiscal year or \$9,800,000, whichever is less.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 908, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 908, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1218 Water and Land on H.B. No. 994**

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development to perform a study to refine rural district policies and make recommendations to the Legislature for the reclassification of lands from the agricultural district to the rural district.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Planning and Sustainable Development; Department of Business, Economic Development, and Tourism; Hawai'i Farm Bureau; and Ulupono Initiative.

Your Committee finds that all lands in the State must be placed within four major land use districts: urban, rural, agricultural, or conservation districts. Over the years, the agricultural district has been used imprecisely, resulting in certain rural lifestyle farms and residences with no farm activity being classified as agricultural districts. These types of misclassifications can increase the cost of land for bona fide farming operations and also cause high-yield commercial lands to instead be used for residential purposes, thereby thwarting the highest and best-use of a property and the State's self-sustainability goals.

Your Committee finds that while less than one percent of all lands in the State are currently classified as rural districts, there is potential for greater use of this land category. In 2022, the Office of Planning and Sustainable Development completed a state use land review and found that redefining and thereby reinvigorating the rural district classification could help prevent further fragmentation and conversion of agricultural lands to other uses. Your Committee finds that by appropriately differentiating rural communities and lifestyle farms from commercial agricultural lands, the State can better preserve and regulate open spaces, rural communities, and working lands. Therefore, this measure requires and appropriates funds for the Office to continue working toward the reimagining of the rural district class.

Your Committee notes that the companion to this measure, S.B. No. 85, S.D. 1 (Regular Session of 2023), which was previously passed by the Senate, is a substantially similar measure that also requires the Office to conduct a study to refine rural district policies. Your Committee concludes that the language in S.B. No. 85, S.D. 1, is preferable because it requires the Office to complete its interim and final report on a more expedient timeline and appropriates funds to the Office for two fiscal years, as opposed to just one.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 85, S.D. 1, a substantially similar measure, which:

- (1) Requires an interim report to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2024;
- (2) Requires a final report to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (3) Appropriates an unspecified amount of funds for fiscal years 2023-2024 and 2024-2025 for the Office of Planning and Sustainable Development to conduct the study and complete all required reports; and
- (4) Inserts an effective date of July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 994, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 994, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1219 Water and Land on H.B. No. 1079**

The purpose and intent of this measure is to:

- (1) Revise chapter 342D, Hawaii Revised Statutes, to add definitions that are consistent with federal Clean Water Act regulations;
- (2) Consolidate separate water quality certification statutes into one section for clarity;
- (3) Clarify the authority of the Director of Health to conduct water quality certifications; and
- (4) Revise certain civil penalty amounts for consistency within the Department of Health and certain civil penalty amounts to conform with federal inflation adjusted penalties under the federal Clean Water Act.

Your Committee received testimony in support of this measure from the Department of Health and Hawai'i Reef and Ocean Coalition.

Your Committee finds that the Department of Health has been authorized by the United States Environmental Protection Agency to administer the National Pollution Discharge Elimination program and section 401 Water Quality Certification of the federal Clean Water Act. This authority was codified in chapter 342D, Hawaii Revised Statutes. Your Committee further finds that to effectively administer the programs under the Clean Water Act, the definitions and penalties under chapter 342D, Hawaii Revised Statutes, should be amended to be consistent with their federal counterparts. Therefore, this measure amends the State's definitions and penalties for various consistency purposes and consolidates the water quality certification statutes into one section for clarity.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1079, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1079, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1220 Water and Land on H.B. No. 1090**

The purpose and intent of this measure is to:

- (1) Amend the methods by which the Department of Land and Natural Resources can issue new commercial use permits for ocean recreation activity occurring in an ocean recreation management area and renew existing commercial use permits; and
- (2) Establish an Ocean Recreation Commercial Permits Working Group within the Division of Boating and Ocean Recreation of the Department of Land and Natural Resources to study viable methods for issuing and renewing commercial use permits for ocean recreation activity in high use areas with limited permits.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Ocean Tourism Coalition, and Hui Maka'ainana O Makana. Your Committee received testimony in opposition to this measure from Anelakai Adventures.

Your Committee finds that the Department of Land and Natural Resources has been struggling to address the rampant amount of commercial marine activity taking place in near-shore waters. Consequently, the Department believes that limiting the total number of commercial use permits for ocean recreation activity occurring in an ocean recreation management area to be an effective and practical solution. Your Committee finds that under a proposed limited commercial permit system, the Department believes that the fairest way to issue permits is to award them to businesses that have been operating with a valid permit the longest and that once the maximum number of permits is reached, any new operating permits should be awarded via public auction. Therefore, this measure authorizes the Department to implement its proposed seniority and auction-based commercial use permit program. Separately, this measure will also establish a working group to study whether other viable methods to fairly and efficiently issue commercial use permits in high use areas with limited permits can be implemented in lieu of the proposed seniority and auction-based program.

Your Committee has heard the testimony of the Department of Land and Natural Resources, attesting that the Department has met with stakeholders as well as the House Committee on Water and Land and that all are in agreement that the Ocean Recreation Commercial Permits Working Group is no longer needed.

Therefore, your Committee has amended this measure by:

- (1) Deleting the proposed Ocean Recreation Commercial Permits Working Group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1090, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1090, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1221 Water and Land on H.B. No. 1091**

The purpose and intent of this measure is to require the disclosure of all existing permitted and unpermitted erosion control structures on the parcel, or on state land seaward and adjacent to the parcel, along with the annual coastal erosion rate for the zoning lot in real estate transactions when residential real property lies adjacent to the shoreline.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of Planning and Sustainable Development; University of Hawai'i Climate Resilience Collaborative and Sea Grant College Program; Hawai'i Climate Change Mitigation and Adaptation Commission; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Surfrider Foundation Hawai'i Region; and Hawai'i Reef and Ocean Coalition. Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that through Act 179, Session Laws of Hawaii 2021, the Legislature recognized the existential threat of sea level rise to real property and required that a seller disclose when residential real property lies within a sea level rise exposure area in residential real property transactions. However, your Committee finds that additional disclosures for shoreline properties are necessary to provide purchasers with adequate notice of how quickly the coast is eroding near the property and whether erosion control structures have been built or erected on the parcel, or on state land seaward and adjacent to the parcel. Therefore, this measure accordingly updates the notification requirements under section 508D-15, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Removing the proposed requirement for a seller to disclose all permitted and unpermitted erosion control structures on state land seaward and adjacent to a parcel;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1091, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1091, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1222 Water and Land on H.B. No. 1183**

The purpose and intent of this measure is to exempt parking lot operations designated as concessions and certain concessions determined to be environmentally, culturally, historically, or operationally unique at state parks from the competitive bidding requirement for concession contracts on public lands pursuant to section 102-2, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in 2020, a pilot integrated parking and shuttle reservation system was implemented for Haena State Park, Kauai, as part of a strategic master plan that aimed to reduce overcrowding and other associated negative park experiences related to

high traffic and insufficient parking. To that end, the Division of State Parks partnered with Hui Makaainana O Makana, a nonprofit organization dedicated to perpetuating and teaching skills, knowledge, and Native Hawaiian practices through the interpretation, restoration, care, and protection of natural and cultural resources in Haena, the Hui's ancestral home. Thus, in addition to managing the parking and reservation system, the Hui also conducted conservation activities and resource enhancement in the park.

However, your Committee finds that because parking lot operations at state parks are designated as concessions under section 102-2, Hawaii Revised Statutes, despite the program's success, the Division of State Parks remains unable to negotiate a long-term lease or management agreement with Hui Makaainana O Makana without going through a burdensome and cost-focused competitive bidding process -- a process which may not properly consider the cultural suitability of a group such as the Hui. Currently, the Hui operates on a month-to-month revocable permit. Your Committee further notes that the Department intends to expand, if feasible, its successful integrated parking and shuttle reservation system to other state parks, such as Kealahou Bay, Kiholo Bay, and Kaena Point. Therefore, this measure provides a necessary exemption to the concession law's competitive bidding requirement to allow the State and culturally sensitive nonprofit organizations to mutually benefit from current and future integrated parking and shuttle reservation plans.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1183, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1183, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante, McKelvey). Noes, none. Excused, 1 (Fevella).

**SCRep. 1223 Water and Land on H.B. No. 1200**

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to establish an unmanned aircraft systems program;
- (2) Authorize Division of Conservation and Resources Enforcement officers to use unmanned aircraft systems; and
- (3) Require the Department of Land and Natural Resources to submit a biennial report of the effectiveness of the unmanned aircraft systems program to the Legislature.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Reef and Ocean Coalition; Hawaii Marine Education and Research Center; Kauhakō Ohana Association; Kua 'Āina Ulu 'Auamo; The Nature Conservancy; Mālama Pūpūkea-Waimea; Skydio, Inc.; and four individuals.

Your Committee finds that the Department of Land and Natural Resources faces challenges in investigating and prosecuting natural resource violations due to the fact that many of the lands and waters under the jurisdiction of the Department are located in remote or inaccessible areas. Your Committee further finds that unmanned aircraft systems, commonly known as drones, can provide a unique solution to this problem, as their ability to remotely fly into difficult-to-access locations makes them well-suited for monitoring and recording violators and capturing before-and-after images of impacted natural environments. Therefore, this measure will provide the Department and its conservation enforcement officers with an innovative, efficient, and cost-effective method to deter illegal conduct on public lands and waters and obtain admissible evidence for enforcement proceedings.

Your Committee has amended this measure by:

- (1) Inserting language prohibiting the Department of Land and Natural Resources from purchasing, operating, or otherwise acquiring or using unmanned aircraft systems manufactured or assembled by a covered foreign entity and defining "covered foreign entity";
- (2) Requiring the Department of Land and Natural Resources to submit an annual report to the Legislature on the effectiveness of the unmanned systems program beginning on January 1, 2026, rather than a biennial report beginning on January 1, 2027;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1200, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1200, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1224 (Majority) Water and Land on H.B. No. 1385**

The purpose and intent of this measure is to:

- (1) Establish a framework for designating certain public lands for redevelopment;
- (2) Amend the generally applicable lease requirements for public lands to promote redevelopment;
- (3) Designate the public lands on the Waiakea Peninsula on the island of Hawaii as the Waiakea Peninsula Redevelopment District; and
- (4) Appropriate funds for the Waiakea Peninsula Redevelopment District.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council and one individual. Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, Ke Kula O Waimanalo, Native Hawaiian Legal Corporation, League of Women Voters of Hawaii, Kupuna for the Mo'opuna, Hawai'i Alliance for Progressive Action, UNITE HERE Local 5, Chamber of Sustainable Commerce, Ka Lahui Hawaii, and one hundred twelve individuals. Your Committee received comments on this measure from the Department of Budget and Finance and Office of Hawaiian Affairs.

Your Committee finds that the State, as majority landowner in East Hawaii, has an enormous influence on the vision, economic development, and overall success of the East Hawaii community. However, because many public land lessees face uncertain futures following the expiration of their leases, there is little incentive for lessees to make major improvements to their infrastructure. Consequently, the accumulation of deferred maintenance has led to the dilapidation, deterioration, or obsolescence of many formerly vibrant buildings and structures. This measure would establish and authorize planning committees to redevelop districts on public lands and, among other things, negotiate leases in redevelopment districts, beginning with the Waiakea Peninsula in Hilo, Hawaii island.

Your Committee notes that a separate measure, S.B. No. 97, S.D. 1 (Regular Session of 2023), which was passed by your Committee, is a similar measure that would refine and limit the Board of Land and Natural Resources' authority regarding certain lease extensions made pursuant to Act 149, Session Laws of Hawaii 2018 (Act 149). Notably, Act 149 was enacted to help facilitate improvements and economic opportunities in the Hilo Community Economic District (HCED) -- which encompasses the Waiakea Peninsula -- by establishing a ten-year pilot project to authorize the Board of Land and Natural Resources to extend leases in the HCED for up to forty years for lessees who commit to making substantial improvements to their property through new construction or renovations. Your Committee concludes that the language in S.B. No. 97, S.D. 1, is preferable because it would better address the issues involving Kanoehua Industrial Area leases in the Waiakea Peninsula. Your Committee also notes that the issues surrounding the Banyan Drive leases and the condemned Uncle Billy's Hilo Bay Hotel property are better addressed administratively.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 97, S.D. 1, a similar measure, which:

- (1) Clarifies that the Board of Land and Natural Resources shall not unilaterally amend the terms and conditions of any lease of public lands being extended pursuant to Act 149, codified at part X of chapter 171, Hawaii Revised Statutes, except as otherwise provided therein;
- (2) Clarifies that if the Board of Land and Natural Resources wishes to amend the terms and conditions of any lease of public lands being extended pursuant to Act 149 to reflect the Board's most current lease form and leasing practices and policies, such lease form and leasing practices and policies must be included in the rules of the Board governing the extension of leases pursuant to Act 149 or chapter 171, Hawaii Revised Statutes, adopted by the Board in accordance with chapter 91, Hawaii Revised Statutes, and
- (3) Inserts an effective date of July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1385, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1385, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Fevella). Excused, none.

#### **SCRep. 1225 (Majority) Water and Land on Gov. Msg. No. 506**

Recommending that the Senate advise and consent to the nomination of the following:

#### DIRECTOR, OFFICE OF PLANNING AND SUSTAINABLE DEVELOPMENT

G.M. No. 506 SCOTT GLENN, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Scott Glenn for service as the Director of the Office of Planning and Sustainable Development.

Your Committee received testimony in support of the nomination for the appointment of Mr. Glenn from the Governor; Chief Housing Officer of the Office of the Governor; Department of Land and Natural Resources; Department of Transportation; Department of Business, Economic Development, and Tourism; Department of Public Safety; Department of Agriculture; Department of Budget and Finance; Department of Health; Department of Labor and Industrial Relations; Department of Defense; Department of Education; Department of Human Services; Department of Taxation; Natural Energy Laboratory of Hawaii Authority; Agribusiness Development Corporation; Hawaii Green Infrastructure Authority; Office of Enterprise Technology Services; Hawaii Technology Development Corporation; Hawaii State Aha Moku; Hawaii Public Housing Authority; Hawai'i Community Development Authority; State Environmental Advisory Council; Office of the Mayor of the City and County of Honolulu; Hawaii Regional Council of Carpenters; Kaa'i Island Utility Cooperative; Par Hawaii; Blue Planet Foundation; Pacific Resource Partnership; Pacific Biodiesel Technologies, LLC; Waikiki Improvement Association; AES; Hawaii Solar Energy Association; One Shared Future; Longroad Energy; and seventy-three individuals. Your Committee received testimony in opposition to the nomination for the appointment of Mr. Glenn from Pride at Work Hawai'i and six individuals.

Mr. Glenn has served as the interim Director of the Office of Planning and Sustainable Development since December 2022 and has adeptly navigated the duties and responsibilities of the position. Previously, Mr. Glenn served as the Chief Energy Officer of the Hawaii State Energy Office following his appointment in 2019 and subsequent confirmation by the Legislature. Mr. Glenn demonstrated his leadership ability by reinvigorating the Hawaii State Energy Office after the Legislature reestablished the agency in 2019 as part of an effort to help the State achieve a more resilient, clean energy economy. Prior to that, Mr. Glenn served as the

Director of the Office of Environmental Quality Control, where he was responsible for the modernization of the State's environmental review process. During that time, Mr. Glenn coordinated extensive public outreach and community engagement with interested stakeholders, and carefully balanced competing interests when updating the State's environmental review policy.

Mr. Glenn also holds notable experience in the private sector, where he focused on planning, asset management, and risk analysis, and led or held key roles on multiple multi-million-dollar projects for both public and private clients. Mr. Glenn is also active in the community and was the Co-Founder of Better Block Hawai'i, a nonprofit empowering communities through collaborative placement projects. Mr. Glenn also served as a member of the State Environmental Council from 2011 through 2015. Mr. Glenn received a Masters degree in Urban and Regional Planning from the University of Hawai'i at Manoa and a Bachelor of Arts degree in Philosophy and Classical Archaeology from the University of Evansville, Indiana.

Your Committee believes that Mr. Glenn, with nearly a decade's worth of public service experience in high-profile leadership positions, possesses the requisite qualifications to serve as the Director of the Office of Planning and Sustainable Development. Your Committee finds that Mr. Glenn's demonstrated innovative and inclusive approach to policymaking and his core institutional knowledge on state planning, clean energy projects, and environmental sustainability, will benefit the Office as it strives to fulfill its mandate and lead on important issues, such as those relating to housing, sea level rise, and transit-oriented development. Your Committee further believes that Mr. Glenn's close familiarity with the environmental review process will serve him well, as one of the key roles of the position is to be an advisor on all matters relating to environmental review. Your Committee further notes the extensive number of positive comments made by testifiers as to Mr. Glenn's unimpeachable character and his collaborative, thoughtful, hardworking, and dedicated approach to public service. Your Committee therefore recommends that Scott Glenn be appointed as Director of the Office of Planning and Sustainable Development based on his knowledge, experience, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Fevella). Excused, none.

**SCRep. 1226 Water and Land on Gov. Msg. No. 528**

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY TO THE CHAIRPERSON, DEPARTMENT OF LAND AND NATURAL RESOURCES

G.M. No. 528 LAURA KAAKUA, for a term to expire 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Laura Kaakua for service as the Deputy to the Chairperson of the Board of Land and Natural Resources.

Your Committee received testimony in support of the nomination for the appointment of Ms. Kaakua from the Governor, Chief Housing Officer of the Office of the Governor; Department of Land and Natural Resources; Department of Transportation; Office of Planning and Sustainable Development; Department of Labor and Industrial Relations; Department of Agriculture; Department of Budget and Finance; Department of Health; Department of Public Safety; Department of Taxation; Department of Human Services; Department of Defense; Hawaii State Aha Moku; Office of Enterprise Technology Services; Hawaii Public Housing Authority; Office of the Mayor of the City and County of Honolulu; one member of the Honolulu City Council; one member of the Maui County Council; Ko'olau Foundation; Hawaii Regional Council of Carpenters; Matson Navigation Company, Inc.; Hawaii Harbor Users Group; Young Brothers, LLC; Trust for Public Land; Hawai'i Land Trust; Kuahiwi Ranch; Sierra Club of Hawai'i; Livable Hawaii Kai Hui; Maunalua Fishpond Heritage Center; Council for Native Hawaiian Advancement; Hui Maunawili-Kawainui; Protect Kaho'olawe 'Ohana; and sixty-four individuals. Your Committee received testimony in opposition to the nomination for the appointment of Ms. Kaakua from one individual.

Ms. Kaakua has served as the interim Deputy to the Chairperson of the Board of Land and Natural Resources since December 2022 and has since worked closely with the interim Chairperson on a number of important issues, including the grounding of a luxury yacht in Honolua Bay, Maui. In addition, Ms. Kaakua has competently and effectively represented the Department before the Legislature during this Regular Session of 2023. Previously, Ms. Kaakua served as the President and Chief Executive Officer of the Hawai'i Land Trust. As President and CEO, Ms. Kaakua established the organization's strategic vision and goals on land protection, land stewardship, community education, and caretaking. Notably, the Hawai'i Land Trust was responsible for more than seven preserves and fifty conservation easements. Prior to that, Ms. Kaakua served as the Native Lands Program Manager for the Trust for Public Land, a national nonprofit focused on park creation and public land preservation. At Trust for Public Land, Ms. Kaakua made significant progress on eleven active land protection projects across Hawaii and worked with Native Hawaiian and broader local communities to protect open space lands of critical cultural importance. Ms. Kaakua also co-taught the legal course, *Conservation Transactions*, at the University of Hawaii William S. Richardson School of Law, where she covered basic real estate finance, strategy, and land due diligence relating to conservation issues, and provided practical lessons to the next generation of lawyers regarding the importance of working in Native Hawaiian communities and the need for cultural and historic sensitivity in land management.

Ms. Kaakua has also served, among other positions, as a Coordinator for Envision Hawai'i and as a Law Clerk to the Honorable Greg K. Nakamura, Hawaii Circuit Court Judge for the Third Circuit. Ms. Kaakua is active in community organizations such as the Hawaii State Bar Association and Kupu, where she received an award for excellent service to the community in the field of conservation. Ms. Kaakua received a Juris Doctorate from the University of Hawaii William S. Richardson School of Law and dual Bachelor of Arts degrees in Political Science and Communications from Boston College, Massachusetts.

Your Committee believes that Ms. Kaakua, with a demonstrated background in law, project management, community engagement, and land conservation, possesses the requisite qualifications to serve as the Deputy to the Chairperson of the Board of Land and Natural Resources. Your Committee was impressed with Ms. Kaakua's proactive and engaged response in helping to resolve the grounded luxury yacht fiasco in Honolua Bay. Further, testifiers commented on Ms. Kaakua's dedication, as evidenced through her

work and community service, to land protection and stewardship, making her an ideal candidate to carry out the mission and responsibilities of the Department. Your Committee notes the tremendous amount of positive testimony in support of Ms. Kaakua's nomination, which highlight not only her career achievements, but her collaborative, honest, accountable, and responsive approach to leadership. Your Committee believes that these qualities will benefit the Department as it strives to fulfill its mandate. Therefore, your Committee recommends that Laura Kaakua be appointed as the Deputy to the Chairperson of the Board of Land and Natural Resources based on her knowledge, experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1227 Labor and Technology on H.B. No. 40**

The purpose and intent of this measure is to:

- (1) Provide an income tax credit to every resident individual taxpayer of the State to satisfy constitutionally mandated requirements;
- (2) Appropriate an unspecified amount of funds into the Emergency and Budget Reserve Fund established under section 328L-3, Hawaii Revised Statutes; and
- (3) Appropriate an unspecified amount of funds into the Other Post-Employment Benefits Trust Fund established under section 87A-42, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Budget and Finance. Your Committee received comments on this measure from the Department of Taxation, Hawaii Emergency Management Agency, and Tax Foundation of Hawaii.

Your Committee finds that when certain conditions are met, article VII, section 6, of the Hawaii State Constitution requires the Legislature to depose of excess fund revenues in a specific manner. This measure is necessary for the State to meet its obligation under the Hawaii Constitution.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 40, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 1228 Labor and Technology on H.B. No. 163**

The purpose and intent of this measure is to:

- (1) Require a public employer to initiate negotiations on repricing of classes within a bargaining unit within thirty days of its receipt of the exclusive representative's written request to negotiate; and
- (2) Establish that the public employer's failure to initiate the negotiation within such time frame and the parties' failure to reach an agreement within ninety days of the exclusive representative's written request to negotiate or by January 31 of a year in which the collective bargaining agreement is due to expire, whichever is earlier, constitute an impasse to which the impasse procedures in section 89-11, Hawaii Revised Statutes, shall apply.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; State of Hawaii Organization of Police Officers; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawai'i Psychological Association. Your Committee received testimony in opposition to this measure from the Department of Human Resources Development, Department of Public Safety, and Department of Human Resources of the City and County of Honolulu. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that Act 253, Session Laws of Hawaii 2000 (Act 253), in part, repealed chapter 77, Hawaii Revised Statutes, regarding the state compensation law, and with it, the public employee compensation appeals board that heard and made decisions on repricing requests. Repricing is the reassignment of an existing class from one pay range to another without a change in duties when it has been found that the class is not in proper internal alignment with other classes in the same bargaining unit. Act 253 also established the repricing processes in section 89-9, Hawaii Revised Statutes, in which the exclusive representative may negotiate the repricing of classes. If repricing is not negotiated, a five-year periodic repricing review is conducted by each jurisdiction.

Your Committee recognizes that it is extremely difficult for employees to seek the repricing of their classifications under the existing process as an employer may deny the employees' repricing requests by merely announcing its determination that all current position pricing is appropriate without providing a basis to which there is no recourse for the employees to appeal or adjudicate the employer's determination. Your Committee further recognizes that this measure seeks to ensure that public employees are being paid competitive and fair wages, which will allow public employers to better recruit and retain qualified workers.

While your Committee understands these concerns, your Committee additionally recognizes that providing mandatory timeframes within which repricing negotiations must be initiated and an agreement reached, the failure of which would cause impasse procedures to apply, may jeopardize an employer's ability to maintain an equitable pay system and pay relationships; expose an employer to serious claims of unequal pay or discrimination; and lead to costly arbitration hearings.

Therefore, your Committee has amended this measure by deleting its contents and replacing it with language that requires the Department of Human Resources Development to:

- (1) Conduct a study to review the repricing processes in section 89-9, Hawaii Revised Statutes, to allow for timely appeal and determination within state and federal law;
- (2) In conducting the study, work with other state and county employers and unions, including the Hawaii Government Employees Association and United Public Workers; and
- (3) Submit a report of its findings and recommendations, including proposed legislation, to the Legislature prior to the convening of the Regular Session of 2024.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 163, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 163, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

**SCRep. 1229 Labor and Technology on H.B. No. 983**

The purpose and intent of this measure is to add the definitions of “public officer or employee” and “government” to section 701-108, Hawaii Revised Statutes, to clarify the scope and applicability of provisions relating to time limitations to bring prosecution based on misconduct in office.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that section 701-108(3)(b), Hawaii Revised Statutes, allows an extension of time to bring prosecution based on misconduct in office by public officers or employees. Your Committee recognizes that this statute is an important tool used by prosecutors to combat corruption as the misconduct by public officials often takes time to discover and investigate. According to oral testimony received by your Committee, although the terms “public officer or employee” and “government” do not seem ambiguous, these terms are currently the subject of litigation in other jurisdictions. Your Committee further finds that the definition of “public officer or employee” proposed in this measure is the same definition as “public servant” under section 710-1000, Hawaii Revised Statutes.

Accordingly, your Committee has amended this measure by:

- (1) Changing references of “public officer or employee” to “public servant”;
- (2) Clarifying the definition of “public servant” to reference the definition of the same term in section 710-1000, Hawaii Revised Statutes;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 983, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 983, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Ihara).

**SCRep. 1230 Labor and Technology on H.B. No. 1014**

The purpose and intent of this measure is to clarify the conditions under which service-connected disability and accidental death benefits are provided to members of the Employees’ Retirement System.

Your Committee received testimony in support of this measure from the Employees’ Retirement System.

Your Committee finds that the purpose of the State’s service-connected disability retirement and accidental death provisions is to provide a unique set of benefits to compensate members in hazardous occupations who have incurred certain permanent injuries while in the performance of their duties, accidental death in the performance of their duties, and for the cumulative impact of exposure to occupational hazards. However, recent court rulings have awarded service-connected disability retirement and accidental death provisions in a similar manner as service retirement, ordinary disability retirement, ordinary death benefits, workers’ compensation, and social security disability benefits. Not only is this interpretation of the State’s service-connected disability retirement and accidental death provisions beyond the Legislature’s intent, but the awards under this interpretation are increasing the unfunded liabilities of the State. Your Committee further finds that this measure will not affect the current provision of service-connected disability retirement and accidental death benefits to existing members of the Employees’ Retirement System.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1014, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1014, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

**SCRep. 1231 Labor and Technology on H.B. No. 1087**

The purpose and intent of this measure is to remove the exclusion of employees who are guaranteed a monthly compensation of \$2,000 or more from the definition of "employee" for purposes of the Wage and Hour Law.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Rainbow Family 808.com Inc., Labor Caucus of the Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, Hawai'i State AFL-CIO, Hawai'i Appleseed Center for Law & Economic Justice, International Alliance of Theatrical Stage Employees Local 665, Imua Alliance, and one individual.

Your Committee finds that this administration measure is meant to increase the amount of employees and employers covered under chapter 387, Hawaii Revised Statutes, relating to Hawaii's Wage and Hour Law, and thereby promote the health, efficiency, and well-being of Hawaii's workforce. Your Committee further finds that this measure will provide workers who are guaranteed compensation totaling \$2,000 or more a month with the protection afforded by the minimum wage rates, overtime rates, and employer recordkeeping requirements in chapter 387, Hawaii Revised Statutes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1087, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1087, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

**SCRep. 1232 Higher Education on H.B. No. 848**

The purpose and intent of this measure is to appropriate funds for the establishment of three permanent full-time equivalent (3.0 FTE) support staff positions for the Hawaii Institute of Marine Biology.

Your Committee received testimony in support of this measure from the University of Hawai'i System, He'eia National Estuarine Research Reserve, Pacific American Foundation, Kāne'ohe Bay Regional Council, Ko'olaupoko Hawaiian Civic Club, and six individuals.

Your Committee finds that the Hawaii Institute of Marine Biology performs cutting-edge oceans and coastal research and provides internationally recognized training for students in conservation-oriented and place-based scientific research. The Institute is also developing vocational and technical training opportunities, such as paid experiential learning internship programs for students of local community colleges. As the Institute grows its programs, the Institute's need for permanent support staff consequently also increases. This measure therefore supports the programmatic expansion of the Hawaii Institute of Marine Biology by appropriating funds for the establishment of additional permanent support staff positions.

Your Committee has amended this measure by:

- (1) Inserting language authorizing the Governor to correct any manifest clerical, typographical, or other mechanical errors that may be found in this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 848, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 848, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1233 Judiciary on H.B. No. 141**

The purpose and intent of this measure is to, beginning January 1, 2025, require each state legislator to include within the legislator's disclosure of financial interests the names of certain lobbyists with whom the legislator has a relationship.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission, Commission to Improve Standards of Conduct, League of Women Voters of Hawaii, All Hawaii News, and four individuals.

Your Committee finds that the public has a right to know who is in a position to influence legislators' decisions. Requiring additional disclosures that include identification of business relationships with lobbying groups will assist in identifying potential conflicts of interest, as well as ensure greater public confidence in the integrity of legislators.

Your Committee has amended this measure by adding language that specifies that each member of the legislature shall disclose the name of any person that is subject to section 97-3, Hawaii Revised Statutes, and that is a client of the member, member's partner, or member's employer, who is on the lobbyist list and not just a client with a lobbyist, where the client provided at least \$5,000 of income during the preceding calendar year.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 141, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 141, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1234 (Majority) Judiciary on H.B. No. 349**

The purpose and intent of this measure is to:

- (1) Expand the original jurisdiction of Family Court to include proceedings for declaration of emancipation of minors;
- (2) Specify the rights of an emancipated minor; and
- (3) Establish procedures for the emancipation of minors.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Hawai'i Youth Services Network, Residential Youth Services and Empowerment, and one individual. Your Committee received testimony in opposition to this measure from the AHA Foundation. Your Committee received comments on this measure from the Judiciary, Department of Health, and one individual.

Your Committee finds that when a minor who has reached the age of sixteen petitions the Family Court for emancipation, the Family Court must act to protect the best interests of the petitioning minor. Your Committee further finds that due to levels of physical and emotional maturity, comparatively low access to resources, and various legal requirements relating to age, safeguards must be established to ensure the minor is not inequitably disadvantaged. This measure provides a pathway to emancipation for minors.

Your Committee has amended this measure by:

- (1) Specifying that the mental health evaluation to be conducted prior to the minor's emancipation be conducted by the Department of Human Services' Child Welfare Services Branch;
- (2) Specifying that the Family Court shall grant emancipation for a minor if numerous conditions are met including that the minor resides separately and apart from the minor's parents or guardian at the minor's own will, with or without the parents' or guardian's consent, and in absence of undue influence or coercion by a third party;
- (3) Specifying that the Family Court shall grant emancipation for a minor if numerous conditions are met including that the minor is not seeking emancipation under duress, including by coercion of a parent, guardian, or any other third party;
- (4) Making it effective On September 1, 2023; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 349, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 349, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

**SCRep. 1235 Judiciary on H.B. No. 386**

The purpose and intent of this measure is to prohibit, in certain circumstances, the publication of the personal information of federal and state judges and other judicial staff whose duties put them at risk for acts of violence or threats.

Your Committee received testimony in support of this measure from the Judiciary, State of Hawaii Organization of Police Officers, and Hawaii State Bar Association.

Your Committee finds that threats and inappropriate communications to judges and court personnel have escalated in recent years. Your Committee further recognizes that, given the expanded availability of personal information of judges and judiciary staff through various sources, additional measures are needed to ensure the safety of judges and judiciary personnel. This measure will prohibit the publication of personal information of judges and judiciary staff, which will minimize the risk of threats or violence to these individuals.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 386, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1236 Judiciary on H.B. No. 463**

The purpose and intent of this measure is to lower the threshold for disclosure of campaign expenditures for noncandidate committees to \$100.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that the State has sufficiently important government interests in an informed electorate, deterring corruption and the appearance of corruption, and gathering the data necessary to detect campaign spending violations. Campaign disclosure requirements directly serve these sufficiently important government interests. The State's existing campaign finance laws fail to reveal the source of campaign expenditures for noncandidate committees when the expenditures are under \$1,000. Because of this arbitrary limit, there is a lack of transparency that fails to inform the public about who is trying to influence an election. This measure will

enhance transparency by lowering the threshold for disclosure of campaign expenditures, thus providing greater accountability and public awareness.

Your Committee has amended this measure by inserting an effective date of March 22, 2075, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 463, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 463, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1237 Judiciary on H.B. No. 1100**

The purpose and intent of this measure is to conform Hawaii income and estate and generation-skipping transfer tax laws to the Internal Revenue Code of 1986, as amended as of December 31, 2022.

Your Committee received testimony in support of this measure from the Department of Taxation. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this annual conformity measure is submitted by the Department of Taxation to ensure state income tax and state estate and generation-skipping transfer tax laws conform to the federal Internal Revenue Code as it exists on December 31 preceding each Regular Session. The purpose of conformity is to update the state tax laws with those changes made to the federal Internal Revenue Code during the past year and to adopt those changes that are appropriate for Hawaii law.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1100, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1100, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

**SCRep. 1238 (Majority) Agriculture and Environment on H.B. No. 197**

The purpose and intent of this measure is to:

- (1) Require the Department of Health to establish a Refrigerant Management Program to reduce emissions of high global warming potential refrigerants and any refrigerant that is an ozone depleting substance from stationary, commercial, and industrial refrigeration systems and air conditioning systems and adopt rules for the regulation of the use of such refrigerants;
- (2) Require the State Building Code Council to establish codes and standards consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons when updating the State Building Code;
- (3) Specify that no law, rule, ordinance, or code, including the State Building Code, shall prohibit or limit the use of a refrigerant deemed acceptable under federal law; and
- (4) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawai'i Environmental Change Agents' Decarbonization of Buildings Task Force; Kauai Climate Action Coalition; Environmental Caucus of the Democratic Party of Hawai'i; Air-Conditioning, Heating, and Refrigeration Institute, Climate Protectors Hawai'i; and ten individuals. Your Committee received testimony in opposition to this measure from the Building Industry Association of Hawaii and one individual.

Your Committee finds that hydrofluorocarbons are chemicals commonly used in air conditioning, refrigeration, and insulating foam and as propellants. Some types of hydrofluorocarbons are potent greenhouse gases with very high global warming potentials contributing to climate change. If hydrofluorocarbons continue to be used, it is estimated that they could account for up to twenty percent of global greenhouse gas emissions by 2050. This measure will establish a Refrigerant Management Program, which will help prevent the emission of high global warming potential hydrofluorocarbons into the atmosphere.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 197, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 2. Noes, 1 (Awa). Excused, 2 (DeCoite, Richards).

**SCRep. 1239 Agriculture and Environment on H.B. No. 609**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for its meat inspection program, including the establishment of three full-time equivalent (3.0 FTE) inspectors to perform meat inspection services.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of the Mayor of the County of Maui; Maui County Farm Bureau; Ponoholo Ranch Limited; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and nine individuals.

Your Committee finds that food safety is a priority for a healthy community. Inspection of livestock prior to slaughter is a critical step to ensuring the safety of the State's food supply. Hawaii formerly had its own meat inspection capacity, in addition to those meat

inspectors provided by the federal government. However, due to economic conditions, the State eliminated these positions, wholly relying on federal inspection capacity. This measure restores the State's meat inspection program thus enabling an increase in local meat production while maintaining food safety standards.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 609, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1240 Agriculture and Environment on H.B. No. 610**

The purpose and intent of this measure is to establish the farm workforce retention tax credit for farm employers or owners of farm employers who employ eligible farm employees.

Your Committee received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farmers Union United, Kuwale Ridge Farms, Ponoholo Ranch Limited, and seven individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, like many industries in Hawaii, local agriculture struggles with a labor shortage. Due to the many costs that overwhelm farmers and ranchers and the high concentration of farms in certain areas of the State, it can be especially challenging to retain and attract high quality agricultural workers. Your Committee additionally acknowledges that the State is committed to doubling agricultural production and increasing food security in the State and that these goals would be inconceivable without farms offering competitive wages and appealing job opportunities. Therefore, this measure strives to provide financial relief for farmers and employers of farm employees by providing a tax credit for farms retaining employees for at least five hundred hours in the taxable year.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 610, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1241 Agriculture and Environment on H.B. No. 692**

The purpose and intent of this measure is to increase administrative and criminal monetary penalties for violators of the Hawaii pesticides law.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Alliance for Progressive Action, Kanalani Ohana Farm, Food+ Policy Internship 2023, Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Farmers Union United, Imua Alliance, Pono Hawaii Initiative, Education Caucus of the Democratic Party of Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, and twenty-four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Pest Control Association; Expert Exterminators, Inc.; and one individual. Your Committee received comments on this measure from the Hawaii Crop Improvement Association.

Your Committee finds that state pesticide laws have not been amended in twenty-two years for commercial pesticide applicators and in nearly fifty years for private pesticide applicators. The Pesticides Branch of the Department of Agriculture has issued and closed almost one hundred violation notices for companies or individuals that repeatedly violate state pesticide laws. Your Committee further finds that twenty percent of repeat offenders have multiple notices of violation within the same time frame and that some offenders have had as many as four enforcement actions brought against them for the same types of violations. Your Committee, therefore, recognizes that the penalties for violating state pesticide laws require strengthening to ensure that individuals and companies are deterred from using pesticides outside of their legal limits and conditions. Thus, this measure increases the monetary fines for pesticide violations for pesticide misuse to protect public health and safety.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 692, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1242 Agriculture and Environment on H.B. No. 619**

The purpose and intent of this measure is to establish an income tax credit for qualified farms that donate eligible food products or prepared food to food banks or food pantries located in the State.

Your Committee received testimony in support of this measure from the Department of Agriculture, one member of the Maui County Council, Ulupono Initiative, Hawai'i Public Health Institute, Ponoholo Ranch Limited, Hawai'i Farmers Union United, Hawai'i Farm Bureau, Kuwale Ridge Farms, and nine individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that food insecurity has been a concern for many households in the State and was further exacerbated by the coronavirus disease 2019 pandemic. Local farmers often have surplus produce that goes to waste because it cannot be sold or stored

for long periods. By donating this food to food banks, farmers can help increase the amount of food available to food bank recipients. This measure provides a financial incentive to local farms that donate food to local food banks, thus decreasing food insecurity.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 619, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1243 Agriculture and Environment on H.B. No. 971**

The purpose and intent of this measure is to:

- (1) Establish the Agricultural Emergency Loan Revolving Fund, to be administered by the Department of Agriculture, to fund Class D emergency loans; and
- (2) Appropriate funds for the Agricultural Emergency Loan Revolving Fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Ulupono Initiative; Hawai'i Farm Bureau; and one individual.

Your Committee finds that climate change-related and economic disasters now occur with greater frequency and create added hardship onto already struggling farm and ranch operations throughout the State. The Department of Agriculture supplies loans to farmers who have not been able secure funding elsewhere, but draws from a fund that is barely sufficient to meet demand. Thus, the Department of Agriculture has not been able to reserve any funds specifically for emergency or disaster relief loans. Your Committee further finds that during the 2022 Regular Session, the Legislature provided a one-time appropriation of \$1,500,000 for emergency loans to assist farmers and ranchers in the County of Maui adversely affected by drought and axis deer. However, the Department of Agriculture remains severely limited due to the lack of a dedicated and readily available emergency loan funding source. Therefore, this measure creates a revolving fund dedicated to funding agricultural emergency loans and appropriates funds to bolster the Department's ability to offer financial assistance.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 971, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1244 Agriculture and Environment on H.B. No. 972**

The purpose and intent of this measure is to add revenue generated by the State Veterinary Laboratory and Animal Disease Control Branch as sources for the Animal Industry Special Fund and clarify that the funds from the special fund may be expended to make laboratory improvements.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and two individuals.

Your Committee finds that the Animal Industry Special Fund is used by the Department of Agriculture to fund the operations of its Animal Industry Division (Division), which is responsible for safeguarding the State's livestock and poultry industries by controlling and preventing the entry and spread of pests and diseases; operating the rabies quarantine program and the airport holding facility; conducting investigations into violations of animal quarantine and importation statutes; and providing veterinary laboratory support for diagnosing animal diseases. Under existing law, the Animal Industry Special Fund is funded by the use or rental of the Division's properties or facilities and by appropriations made by the Legislature. This measure directs revenue from work performed by the Division's veterinary laboratory into the special fund, thus ensuring that the Division's important operations are properly funded.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 972, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1245 Agriculture and Environment on H.B. No. 973**

The purpose and intent of this measure is to repeal the requirement for additional rules by the Department of Agriculture to address nuisance issues, including smell, noise, and excessive lighting arising out of the activities of hemp growers.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Hawai'i Farmers Union United, Hawai'i Hemp Farmers Association, Hawai'i Sustainable Farms, and three individuals.

Your Committee finds that pre-existing regulations and authority under the Department of Health and county land use ordinances address, and are the appropriate method of addressing, the areas of nuisance relating to hemp. Where pre-existing frameworks of regulatory oversight for nuisance and other issues are present, a deferral to and reliance on those regulatory frameworks is the proper and preferred means to avoid any ambiguities that may arise. This measure will repeal the nuisance rules requirement that adds additional and duplicative regulations for Hawaii's hemp farmers.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 973, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1246 Agriculture and Environment on H.B. No. 612**

The purpose and intent of this measure is to establish an income tax credit to alleviate the high costs of production for farmers, ranchers, and fishers and incentivize growth in the agricultural sector.

Your Committee received testimony in support of this measure from the Department of Agriculture; one member of the Maui County Council; Ulupono Initiative; Hawai'i Farmers Union United; Kanalani Ohana Farm; Ponoholo Ranch Limited; Ancient Valley Growers; Tinyville Farm; Hawai'i Farm Bureau; Kuwale Ridge Farms; Hawaii Cattlemen's Council, Inc; and thirteen individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the cost of doing business is a constraining factor for agriculture in Hawaii and that costs only continue to climb. Land, labor, equipment, and utility costs are on the rise, reducing an already small profit margin for farmers and ranchers and limiting the capacity and incentives for agriculture to grow and prosper. This measure will provide much-needed support for local food production by providing an income tax credit equal to one hundred percent of the qualified expenses of an eligible farmer and capped at an unspecified amount.

Your Committee has amended this measure by:

- (1) Removing language that would have provided a tax credit equal to one hundred percent of qualified expenses and instead setting tiered credit amounts based on net farm sales;
- (2) Removing language that would have made the tax credit refundable for eligible farmers with federal adjusted gross income under \$250,000;
- (3) Delaying the applicability date to taxable years beginning after December 31, 2023, to allow the Department of Taxation time to prepare proper forms; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 612, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 612, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1247 Agriculture and Environment on H.B. No. 690**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Agricultural Investment Program to support local agricultural producers;
- (2) Require annual reports; and
- (3) Appropriate funds for the program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Ponoholo Ranch Limited; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Hawai'i Alliance for Progressive Action; Local Food Coalition; Hawaii Cattlemen's Council, Inc.; Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i; Kuwale Ridge Farms; Food+ Policy Internship 2023; and thirteen individuals. Your Committee received comments on this measure from The Humane Society of the United States.

Your Committee finds that the State seeks to reduce food insecurity in Hawaii by investing heavily into local agriculture. Your Committee additionally notes that because more than eighty-five percent of all food consumed in the State is imported, the State is committed to doubling local food production by 2030. Therefore, sizeable investment and support is required to reach this goal. This measure establishes the Hawaii Agricultural Investment Program to serve as a dedicated funding source for local agriculture in Hawaii and allows the Department of Agriculture to invest funds directly to the farmers and ranchers to alleviate the financial strains on the agricultural sector in the State.

Your Committee has amended this measure by:

- (1) Adding appropriations for two full-time (2.0 FTE) positions to the Department of Agriculture Hawaii Agricultural Investment Program to manage the procurement process to award grants, generate and administer contracts, and manage the accounting oversight resulting from the awarding of grants; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 690, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 690, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

**SCRep. 1248 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on H.B. No. 1383**

The purpose and intent of this measure is to

- (1) Establish a task force to identify the top ten fruits or vegetables that are imported into the State and can also be commercially grown in the State; and
- (2) Create an income tax credit to incentivize the production of those fruits or vegetables to obviate the need to import them into the State.

Your Committees received testimony in support of this measure from the Department of Agriculture, Ulupono Initiative, Hawai'i Farmers Union United, Kanalani Ohana Farm, Food+ Policy Internship 2023, Hawai'i Farm Bureau, and five individuals. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that the State is committed to reducing Hawaii's dependency on food imports by supporting local agriculture. Hawaii currently imports almost ninety percent of its food and requires significant investment, foresight, and planning to enhance food security in the State. Your Committees further find that it is beneficial for the State that a task force be established to determine what imported fruits and vegetables can be produced locally. Therefore, this measure establishes a task force to identify the top ten most imported fruits and vegetables and creates an income tax credit for farmers that seek to produce these foods, thus bolstering food security in the State.

Your Committees have amended this measure by:

- (1) Adding a representative from the Hawaii Farmers Union United to the Agricultural Import Replacement Task Force;
- (2) Adding representatives from each of the county's economic development departments to the Agricultural Import Replacement Task Force; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1383, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1383, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.  
Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1249 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on H.B. No. 1384**

The purpose and intent of this measure is to create an income tax credit to incentivize the food manufacturing industry in the State.

Your Committees received testimony in support of this measure from the Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Hawaii Technology Development Corporation, Hawaii Food Manufacturers Association, Retail Merchants of Hawaii, Hawai'i Farm Bureau, Hawaii Food Industry Association, Ulupono Initiative, Chamber of Commerce Hawaii, and two individuals. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that value-added products sourced from the local agriculture sector face significant challenges to success. High labor, land, transportation, utility, and supply costs result in narrow profit margins for value-added food producers, and they often are just able to break even financially. However, "adding value" to raw agricultural crops can reduce waste from off-grade or excess production and can also pay off in new business opportunities, increased employment, and expansion into other markets. This measure establishes an income tax credit to incentivize food producers to invest further into their value-added products to promote local agriculture, farm profitability, and food availability in Hawaii.

Your Committees have amended this measure by:

- (1) Reducing the income tax credit coverage from full coverage to fifty percent coverage of qualified expenses;
- (2) Requiring the Department of Agriculture to verify that qualified taxpayer applicants are manufacturing food with at least fifty-one percent of its wholesale value added by manufacture, assembly, fabrication, or production within the State; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1384, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1384, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.  
Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1250 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on H.B. No. 1426**

The purpose and intent of this measure is to:

- (1) Establish a Food and Product Innovation Network within the Agribusiness Development Corporation; and
- (2) Appropriate funds for Food and Product Innovation Facilities on the islands of Molokai, Oahu, and Hawaii.

Your Committees received testimony in support of this measure from Agribusiness Development Corporation, Ulupo Initiative, Hawai'i Farm Bureau, Hawai'i Forest Industry Association, Sustainable Molokai, Molokai Hunting Club, and two individuals. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that farmers and food producers in the State seek to create additional revenue streams through value-added products, which are raw agricultural crops that undergo specified processes that add to their appeal in the marketplace, like packaged salad mix, for example. While there are economic incentives for farmers to innovate and create value-added products, they typically must resort to using facilities on the mainland, which can be too expensive to justify. Your Committees further find that value-added products can reduce food waste at farms by providing a use for cosmetically imperfect food crops that would otherwise be wasted. Therefore, this measure establishes food and product innovation facilities on Molokai, Oahu, and Hawaii islands to make available the infrastructure for farmers and ranchers in the State to create value-added products. This measure also establishes the Food and Product Innovation Network to provide support in actively addressing local food issues as they become increasingly complex and challenging.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1426, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1251 Higher Education on H.B. No. 580**

The purpose and intent of this measure is to:

- (1) Expand the victim-counselor privilege under the Hawaii Rules of Evidence to include confidential advocates employed by the University of Hawaii; and
- (2) Increase the minimum number of hours of training a domestic violence victims' counselor must complete to be considered a victim counselor.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i State Coalition Against Domestic Violence, Women's Caucus of the Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, American Association of University Women of Hawaii, The Every Voice Coalition, Imua Alliance, and fourteen individuals.

Your Committee finds that domestic violence survivors who receive services from the University of Hawaii are not afforded the same confidentiality protections as survivors who receive services from community advocates and service providers. The lack of protections offered by the University may dissuade survivors from accessing resources and seeking justice. To encourage survivors to utilize University supports, this measure ensures communications between domestic violence survivors and University of Hawaii confidential advocates are afforded the legal privilege of confidentiality status.

Your Committee further finds that the number of training hours required for domestic violence victims' counselors in the State is one of the lowest in the nation. On average, states require thirty-five hours of training to qualify as a domestic violence victims' counselor, whereas Hawaii requires twenty-five. This measure aligns the number of training hours required of Hawaii domestic violence victims' counselors with national requirements to ensure Hawaii counselors are equipped with the necessary skills and best practices to serve the people of the State.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 580, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1252 Public Safety and Intergovernmental and Military Affairs on H.B. No. 522**

The purpose and intent of this measure is to remove the ability of the Governor or a mayor to suspend electronic media transmission during a state of emergency.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; League of Women Voters of Hawaii; Civil Beat Law Center for the Public Interest; Hawaii Bulletin; For Our Rights; Society of Professional Journalists, Hawaii Chapter; Big Island Press Club; All Hawaii News; Hawaii Association of Broadcasters, Inc.; National Association of Broadcasters; and three individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency and twenty-four individuals. Your Committee received comments on this measure from the Grassroot Institute of Hawaii and one individual.

Your Committee finds that the power of a mayor or the Governor to suspend the transmission of electronic media during a state of emergency is overly broad and vague. Electronic media could include not only all radio and television broadcasts, but also text messages, emails, and posts to social media platforms. Your Committee believes that suspensions of electronic media transmission may unduly restrain lawful free speech and publication and violate the First Amendment of the United States Constitution during a period of emergency. This measure will ensure that the public's First Amendment rights remain protected during a state of emergency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 522, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

**SCRep. 1253 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 984**

The purpose and intent of this measure is to clarify, revise, and update the State's firearms laws by:

- (1) Prohibiting firearms in certain locations and premises and providing for enhanced sentencing;
- (2) Requiring possession and disclosure of a license to carry;
- (3) Prohibiting an unsecured and unattended firearm in a vehicle;
- (4) Prohibiting consuming or being under the influence of alcohol, an intoxicating liquor, or a controlled substance when carrying a firearm;
- (5) Prohibiting carrying or possessing firearms on certain private property open to the public without express authorization;
- (6) Requiring annual reports from the Department of the Attorney General on carry licenses;
- (7) Amending the requirements for obtaining, and revocation of, firearms permits and licenses;
- (8) Amending the disqualification of persons from owning, possessing, or controlling a firearm; and
- (9) Expanding the qualified immunity for health care providers who provide information on firearms applicants to include physician assistants and advanced practice registered nurses.

Your Committee received testimony in support of this measure from the Department of the Attorney General; Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; University of Hawai'i System; Hawai'i State Public Library System; Department of Transportation Services of the City and County of Honolulu; Healthcare Association of Hawaii; Hawai'i Children's Action Network Speaks!; Brady Campaign to Prevent Gun Violence; Retail Merchants of Hawaii; Hawai'i State Coalition Against Domestic Violence; Hawaii Bankers Association; Church of the Crossroads United Church of Christ; Everytown for Gun Safety; Moms Demand Action for Gun Sense in America; Students Demand Action for Gun Sense in America; Indivisible Hawaii; Hawaii Coalition to Prevent Gun Violence; Hale Ola Spa and Apothecary; Hawaii Credit Union League; Epic 'Ohana, Inc.; and more than two hundred individuals. Your Committee received testimony in opposition to this measure from the National Rifle Association of America; Hawaii Firearms Coalition; Rosa's Arms, LLC; Hawaii Federation of Republican Women; and more than one hundred individuals. Your Committee received comments on this measure from the Honolulu Police Department and Domestic Violence Action Center.

Your Committee finds that the United States Supreme Court held in *New York State Rifle and Pistol Association v. Bruen*, 142 S. Ct. 2111 (2022) that the Second Amendment requires that state law must provide clear and objective criteria to determine when licenses to carry firearms in public will be granted; and if an applicant meets the statutory criteria established by the state legislature, then a license to carry a concealed weapon in public shall be granted. The Supreme Court's *Bruen* decision will result in a significant increase in the presence of firearms in public, with more individuals carrying concealed firearms in Hawaii than ever before in the State's history. Your Committee believes that this presents serious challenges for public health and safety. This measure addresses the serious hazards to public health, safety, and welfare posed by firearms and gun violence by clarifying, updating, and revising the State's firearms laws.

Your Committee has amended this measure by:

- (1) Including the following as locations where carrying a firearm is prohibited:
  - (A) All public library property, buildings, facilities, meeting rooms, and spaces used for community programming;
  - (B) Research facilities at any public or private community college, college, or university;
  - (C) Any shelter, residential, or programmatic facility operated by a government entity or a charitable organization serving unhoused persons or victims of domestic violence or children, including children involved in the juvenile justice system; and
  - (D) Paratransit vans and bus shelters; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 984, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 984, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 1254 (Joint) Public Safety and Intergovernmental and Military Affairs and Government Operations on H.B. No. 1037**

The purpose and intent of this measure is to update the statutes regarding the Statewide Interoperable Communications Executive Committee to reflect the migration of the Office of Homeland Security from the Department of Defense to the Department of Law Enforcement.

Your Committees received testimony in support of this measure from the Department of Defense, Department of Law Enforcement, and Office of Homeland Security. Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that Statewide Interoperable Communications functions are currently part of the Office of Homeland Security. Your Committees further find that the Office of Homeland Security is migrating from the Department of Defense to the Department of Law Enforcement. This measure will make necessary updates to statutory language to reflect the transfer of the Office of Homeland Security from the Department of Defense to the Department of Law Enforcement.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1037, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

**SCRep. 1255 Labor and Technology on H.B. No. 1205**

The purpose and intent of this measure is to clarify that exclusive representatives of public employees are not required to provide grievance representation to collective bargaining unit members who do not pay dues or dues equivalents and who decline to pay reasonable costs of the representation.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly and State of Hawaii Organization of Police Officers. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments from one individual.

Your Committee finds that section 89-8, Hawaii Revised Statutes, currently requires exclusive representatives to provide grievance representation to all employees within the collective bargaining unit, regardless of their membership status. Your Committee recognizes that the United States Supreme Court, through *Janus v. AFSCME*, 138 S.Ct. 1338, (2018), held that non-member public employees cannot be compelled by law to pay agency fees, which were intended to cover the pro-rata costs of representation, namely contract negotiation and administration. According to testimony received by your Committee, this measure is an essential tool to address the unique demands of a bargaining unit that historically has a significant percentage of non-members, while simultaneously providing all public sector bargaining units with the same essential tools. Your Committee further notes that the scope of this measure is limited to the provision of grievance representation of the non-member employee. Your Committee further recognizes that due to the potentially long and costly grievance process, the exclusive bargaining representative may decline to provide grievance representation for non-member employees who decline to pay the reasonable costs for the representation.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1205, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1256 Labor and Technology on H.B. No. 413**

The purpose and intent of this measure is to appropriate an unspecified amount of funds for the Department of Human Resources Development to retain the services of an online employment marketplace or networking platform to assist in recruiting employees for the State.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that the State currently has over four thousand vacant positions. According to oral testimony received by your Committee, the Department of Human Resources Development is actively recruiting over four hundred positions at any given time. This measure would allow the Department of Human Resources Development to simultaneously reach a wider audience and execute a targeted recruitment strategy to attract qualified individuals to fill the State's vacant positions.

Your Committee has amended this measure by inserting language that clarifies that the appropriation is meant to match the federal funds obtained by the Department of Human Resources Development to develop recruitment teams to work with line agencies to expedite recruitment of employees for the State.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount to the Department of Human Resources Development. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$50,000.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 413, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 413, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

**SCRep. 1257      Judiciary on H.B. No. 68**

The purpose and intent of this measure is to appropriate funds to establish a centralized statewide criminal pretrial justice data reporting and collection system pursuant to state law.

Your Committee received testimony in support of this measure from the Judiciary, Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Correctional System Oversight Commission, Women's Prison Project, Opportunity Youth Action Hawai'i, and one individual.

Your Committee finds that criminal justice research is critical to address the questions and pressing needs of policymakers, decision-makers, and the community on criminal justice matters. This is particularly an issue when seeking research on dynamic populations and trends such as those related to jails and pretrial procedures. The research that is needed to allow these stakeholders to make timely and informed data-driven decisions about Hawai'i's criminal justice system is not possible without a pretrial database and reporting system. This measure will establish a centralized statewide criminal pretrial justice data reporting and collection system that will allow for better decision-making and planning.

Your Committee has amended this measure by:

- (1) Stipulating that ongoing staff support for the centralized statewide criminal pretrial justice data reporting and collection system be conducted by the Criminal Justice Research Institute's staff and not be contracted to another entity;
- (2) Requiring the Criminal Justice Research Institute to protect any information and data that may be shared;
- (3) Requiring the Criminal Justice Research Institute to submit a semi-annual report regarding the creation of the centralized statewide criminal pretrial justice data reporting and collection system to the Legislature for two years;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$1,372,864 for fiscal year 2023-2024 and \$1,030,868 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 68, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 68, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

**SCRep. 1258      (Majority) Judiciary on H.B. No. 586**

The purpose and intent of this measure is to:

- (1) Require the Judiciary to develop, implement, and administer an automated court appearance reminder system that generates text message and electronic mail notifications for upcoming court appearances in certain types of cases; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Opportunity Youth Action Hawai'i, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Judiciary.

Your Committee finds that cases become backlogged when the parties to a court proceeding fail to appear and cause the proceeding to be delayed. However, if a court issues a text message reminder or other type of reminder regarding the future court appearance, cases are more likely to proceed as scheduled. This measure will require the Judiciary to implement an automated court appearance reminder system, which will encourage people who have a scheduled court appearance to voluntarily comply, reduce rates of "failure to appear", and thus help to maximize the efficiency of the Judiciary's operations.

Your Committee has amended this measure by deleting language that would have allowed the Judiciary to contract the administration of the automated court appearance reminder system to a third party.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 586, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 586, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1259      (Majority) Judiciary on H.B. No. 264**

The purpose and intent of this measure is to:

- (1) Make intentionally or knowingly causing bodily injury to a sports official a class C felony; and
- (2) Authorize a court to enjoin the offender from attending any sports event of the type at which the sports official was engaged in the lawful discharge of the sports official's duties.

Your Committee received testimony in support of this measure from the Department of Education, Honolulu Policy Department, and one individual. Your Committee received comments on this measure from the Department of the Attorney General and Office of the Public Defender.

Your Committee finds that there is a shortage of sports officials and although there are several factors responsible for this shortage, harassment by unruly spectators and fans is a major contributing factor, especially when threats to cause bodily harm and other more serious assaultive conduct are made. This measure provides added protection of the justice system for sports official when threats and bodily harm are made by spectators and fans.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 264, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 264, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

**SCRep. 1260 Health and Human Services on H.B. No. 841**

The purpose and intent of this measure is to require domestic abuse protective order cases to be reported to the Department of Human Services when the case involves allegations of child abuse or neglect, rather than allegations of domestic abuse.

Your Committee received testimony in support of this measure from the Department of Human Services, Judiciary, Hawai'i State Coalition Against Domestic Violence, Domestic Violence Action Center, Hawaii Coalition for Child Protective Reform, and one individual.

Your Committee finds that the automatic referral of domestic abuse protective order cases to the Department of Human Services' Child Welfare Services Branch can deter parents of children experiencing domestic violence from pursuing a temporary restraining order against abusers. Abusers often use the threat of child removal or custody to dissuade victims from reporting domestic violence, and Child Welfare Services Branch investigations often cause domestic violence survivors further traumatization and victimization. This measure supports domestic violence survivors by limiting the scope of cases required for referral to the Department of Human Services, and reserves the Department's resources for investigations of reports of child abuse.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 841, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1261 Health and Human Services on H.B. No. 617**

The purpose and intent of this measure is to:

- (1) Establish an Oral Health Task Force to review information and data relating to the status of oral health in the State and make recommendations to improve the State's oral health infrastructure; and
- (2) Appropriate funds to help facilitate the work of the Oral Health Task Force.

Your Committee received testimony in support of this measure from the Department of Human Services; Department of Health; State Council on Developmental Disabilities; Hawaii Disability Rights Center; Hawaii Dental Service; Hawai'i Oral Health Coalition; Hawai'i Children's Action Network Speaks!; Papa Ola Lōkahi; AlohaCare; Hawaii Dental Hygienists' Association; The Queen's Health System; Kūpuna Caucus of the Democratic Party of Hawai'i; Hawaii Dental Association; We Are One, Inc.; and five individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that oral health is essential to an individual's overall physical, psychological, social, and economic well-being. Despite the importance of oral health, Hawaii residents generally suffer from poor oral health, and Hawaii has among the highest prevalence in the nation of preventable dental decay in children and adults. Further, the Department of Health's Dental Health Division was eliminated as part of the 2009 budget cuts. To address this public health concern, this measure establishes a task force to identify and develop strategies to improve oral health outcomes for Hawai'i's residents.

Your Committee notes the testimony submitted by the Hawaii Dental Association that recommends the membership of the task force include more dentists and that at least one dentist from each county should be invited to serve on the Oral Health Task Force. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider further examining the composition of the Oral Health Task Force to address this concern.

Your Committee has amended this measure by:

- (1) Clarifying that community advocates and representatives of private entities shall be invited to serve on, rather than be appointed to, the Oral Health Task Force;
- (2) Requiring that the interim report on the Oral Health Task Force's findings and recommendations be submitted to the Legislature by December 1, 2024, rather than December 1, 2023, and the final report be submitted by December 1, 2025, rather than December 1, 2024;
- (3) Designating that the Department of Health, rather than the Oral Health Task Force, shall submit the final report on the Task Force's findings and recommendations to the Legislature;

- (4) Requiring the Oral Health Task Force to dissolve on June 30, 2026, rather than June 30, 2025;
- (5) Specifying that the funds appropriated for the establishment of two full-time equivalent (2.0 FTE) Program Specialist positions shall be for two permanent full-time equivalent (2.0 FTE) Program Specialist positions;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Making it effective upon its approval; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 617, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 617, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1262 Health and Human Services on H.B. No. 781**

The purpose and intent of this measure is to require that a child under eighteen years old in the custody of a law enforcement officer have contact with legal counsel and, to the extent practicable, a parent, guardian, or legal custodian, before waiving any right against self-incrimination and before any custodial interrogation.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Human Rights for Kids, Community Alliance on Prisons, and four individuals.

Your Committee finds that children require special and additional legal protections and assistance to help them understand, process, and participate in any custodial interrogation in which their constitutional rights are impacted. Children are particularly vulnerable to pressure and susceptible to giving false confessions. According to testimony received by your Committee, in 2017, eighty-six percent of minors who were later exonerated in the United States and were fourteen years old and under at the time of their interrogation reported they had falsely confessed to having committed a crime. To reduce incidents of false confessions and wrongful convictions of children, this measure ensures a child who is arrested has access to legal counsel before any custodial interrogation.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 781, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 781, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1263 Health and Human Services on H.B. No. 579**

The purpose and intent of this measure is to:

- (1) Establish a statewide Human Trafficking Prevention Program within the Department of the Attorney General to provide services and assistance to commercially sexually exploited children and victims of human trafficking; and
- (2) Require the Department of the Attorney General to report to the Legislature on the State's efforts to address the commercial sexual exploitation of children and human trafficking.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Hawaiian Affairs, Catholic Charities Hawai'i, Zonta Club of Hilo, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General and Department of Health.

Your Committee finds that Hawaii has the highest rate of missing persons per capita in the nation. Collaboration between departments, federal and state law enforcement, stakeholders, and providers is critical to locating victims and helps minimize the duplication of efforts across entities. To promote more structured, systematic, streamlined collaboration between agencies, this measure establishes a statewide program to address human trafficking.

Your Committee has amended this measure by:

- (1) Requiring the Department of the Attorney General to submit a report on the State's efforts to address the commercial sexual exploitation of children to the Legislature no later than twenty days prior to the convening of the Regular Session of 2026, rather than twenty days prior to the convening of the Regular Session of 2024;
- (2) Requiring the Department of the Attorney General to submit a report on the State's efforts to address human trafficking to the Legislature no later than twenty days prior to the convening of the Regular Session of 2027, rather than twenty days prior to the convening of the Regular Session of 2025;
- (3) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 579, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 579, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1264 Health and Human Services on H.B. No. 225**

The purpose and intent of this measure is to grant the Department of Human Services flexibility in developing a comprehensive child welfare information system, as required by Act 317, Session Laws of Hawaii 2022.

Your Committee received testimony in support of this measure from the Department of Human Services and three individuals.

Your Committee finds that the information technology system currently utilized by the Department of Human Services' Child Welfare Services Branch is outdated, time-consuming to use, and inaccessible to many partner agencies. The Department has begun to plan for the retirement of this existing system and development of an improved system. To ensure the Department procures a high-quality, cost-effective information technology system, this measure allows the Department to contract with multiple software providers and grants the Department more time to expend previously appropriated state funds.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 225, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 225, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1265 Health and Human Services on H.B. No. 914**

The purpose and intent of this measure is to:

- (1) Require the Department of Health to prioritize investigations of complaints against state-licensed or state-certified care facilities based on the degree of severity of the allegations;
- (2) Clarify that any person, corporation, or any other entity in the health care or human services community is prohibited from knowingly referring or transferring patients to an uncertified or unlicensed care facility; and
- (3) Repeal existing law providing that a landlord, under specified conditions, shall not be deemed to be providing home care services or operating a care facility that requires a license.

Your Committee received testimony in support of this measure from the Adult Foster Homecare Association of Hawaii, United Caregivers of Hawaii, Community Homecare Association of Hawaii, Alliance of Professional Primary Care Administrators, Provider Helping Hands of Hawaii, and four individuals. Your Committee received testimony in opposition to this measure from the Hawaii Substance Abuse Coalition and one individual. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that uncertified or unlicensed long-term care facilities in the State endanger the health and safety of the State's elderly and vulnerable populations, as these facilities charge excessive amount of fees to its patients, but are not required to follow health and consumer protection regulations. Your Committee finds, however, that certain licensed care home operators and other persons continue to refer or transfer patients to these facilities, unbeknownst to the patients. Your Committee also finds that certain unlicensed care homes are abusing existing provisions of law that excludes certain landlords from licensing requirements to avoid the Department of Health's regulatory oversight. This measure will bolster the Department of Health's enforcement activities to protect the health, safety, and welfare of the State's elderly and vulnerable populations.

Your Committee has amended this measure by:

- (1) Repealing the provision in existing law that requires the Department of Health to conduct unannounced visits and inspections, including inspections for relicensing or recertification, of state-licensed special treatment facilities;
- (2) Clarifying that any person, corporation, or any other entity that provides health care or human services is prohibited from knowingly referring or transferring patients to an uncertified or unlicensed care facility;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 914, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 914, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1266 Health and Human Services on H.B. No. 278**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a working group to plan and implement a public health campaign for awareness of Alzheimer's disease and other related dementias; and

- (2) Appropriate funds for the Executive Office on Aging to create an Alzheimer's disease and related dementias public health campaign.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; Alzheimer's Association – Hawaii; Hawai'i Primary Care Association; Hawai'i Family Caregiver Coalition; United Public Workers, AFSCME Local 646, AFL-CIO; AARP Hawai'i; Iron Workers Stabilization Fund; and eight individuals. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committee finds that Alzheimer's disease is a public health crisis across the country and is currently the sixth leading cause of death in the United States. In Hawaii, approximately twenty-nine thousand individuals aged sixty-five and older live with Alzheimer's disease, a figure that is projected to increase by 20.7 percent by 2025. Furthermore, 6.7 percent of individuals in the State aged forty-five and over reported an increase in confusion or worsening memory loss, putting them at risk of later developing dementia; however, more than two-thirds have not discussed the issue with their health care providers. Your Committee also finds that a number of new therapies approved by the federal Food and Drug Administration may allow more people to participate in daily activities, remain independent, and decide on the future of their health. These therapies are beneficial at the early onset of the disease, and therefore, early detection and diagnosis are critical. This measure will allow implementation of a public awareness campaign to educate the public on early signs of cognitive impairment, the value of early detection and diagnosis, and the importance of discussing with health care professionals any changes in memory and thinking.

Your Committee acknowledges testimonies raising concerns that the establishment of a working group under this measure would be duplicative, since the Executive Office on Aging received the Building Our Largest Dementia (BOLD) Infrastructure for Alzheimer's Program Award from the federal Centers for Disease Control and Prevention in 2020, which led to the development of working groups, including one that is centered on addressing public awareness and education. Accordingly, amendments to this measure are necessary to address this concern.

Your Committee notes that although this measure contains an unspecified appropriation amount, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider appropriating \$500,000 for fiscal year 2023-2024 for the Executive Office on Aging to create an Alzheimer's disease and related dementias public health campaign.

Your Committee has amended this measure by:

- (1) Deleting language that would have established and appropriated funds for a working group to plan and implement a public health campaign for awareness of Alzheimer's disease and other related dementias;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 278, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 278, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1267 Transportation and Culture and the Arts on H.B. No. 704**

The purpose and intent of this measure is to:

- (1) Provide an exemption for flatbed trucks from registration renewals and initial registrations of motor carrier vehicles when used as marine terminal equipment temporarily moving in or between certain terminals; and
- (2) Add new terminal locales and roadways to be covered under the exemption.

Your Committee received testimony in support of this measure from International Longshore and Warehouse Union, Local 142 and ninety-five individuals.

Your Committee finds that as an island state, Hawaii relies on key highways, harbors, and airports to ensure the timely movement of cargo. As the majority of goods are imported to the State, removing certain restrictions will allow for more cargo to be transported statewide. This measure creates greater efficiency in the cargo transportation sector to maintain a constant flow of goods across the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 704, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1268 (Majority) Transportation and Culture and the Arts on H.B. No. 1319**

The purpose and intent of this measure is to authorize operators of bicycles, motorcycles, and mopeds to proceed through an intersection on a steady red signal during certain hours if the traffic signal is controlled by a vehicle detection device that is inoperative due to the size or composition of the bicycle, motorcycle, or moped.

Your Committee received testimony in support of this measure from the Department of Transportation, Indian Motorcycle Rider's Group, Street Bikers United Hawaii, and six individuals. Your Committee received testimony in opposition to this measure from the Honolulu Police Department.

Your Committee finds that operators of bicycles, motorcycles, and mopeds traveling during periods of lighter traffic volume during the evening and early morning hours may not trigger traffic signals, due to their weight and composition varying significantly from passenger motor vehicles. As traffic signals may not change until a car, truck, or other heavier motor vehicle approaches the intersection, operators of bicycles, motorcycles, and mopeds may wait an unreasonable amount of time for a traffic signal to change. This measure ensures operators of bicycles, motorcycles, and mopeds can safely navigate intersections while also ensuring a degree of personal responsibility and public safety.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1319, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante, Inouye). Noes, 1 (Awa). Excused, none.

**SCRep. 1269 (Majority) Transportation and Culture and the Arts on H.B. No. 1108**

The purpose and intent of this measure is to amend the law relating to vehicle weight violations by replacing the fine schedule and increasing the potential fines based on multitude and magnitude of vehicle weight violations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the State's highway infrastructure transports thousands of users each day. However, certain roadways may experience greater strain resulting from grossly overweight vehicles in addition to typical volume. This measure preserves the State's crucial roadway and bridge infrastructure while also ensuring public safety for all roadway users.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1108, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1270 Transportation and Culture and the Arts on H.B. No. 1107**

The purpose and intent of this measure is to make state law consistent with federal law regarding legal limits for gross vehicle weight and axle loads traveling on all public roadways.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that presently, there are inconsistencies between state and federal weight limits for vehicles traveling on all public roadways. Without uniform application across the State, certain roadways and transportation infrastructure may be adversely impacted by vehicles beyond permissible weight limits. This measure preserves the State's crucial transportation infrastructure while also ensuring the safety of all roadway users.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1107, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1271 Transportation and Culture and the Arts on H.B. No. 1104**

The purpose and intent of this measure is to repeal the exemption relating to the issuance of citations for violations of section 291-35, Hawaii Revised Statutes, relating to vehicle gross weight, axle, and wheel loads.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Department of Transportation oversees hundreds of miles of highways and associated infrastructure across the State. Presently, the Department of Transportation receives funding from the Federal Highway Administration for infrastructure improvements and maintenance that are contingent upon adherence to federal regulations for the size and weight program for motor vehicles traveling on the Interstate Systems. This measure conforms existing law with federal regulations to minimize premature deterioration to public infrastructure while also ensuring the safety of all roadway users.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1104, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1272 Transportation and Culture and the Arts on H.B. No. 74**

The purpose and intent of this measure is to establish a five-year general excise tax exemption beginning January 1, 2024, for amounts received from the servicing and maintenance of helicopters in an aircraft service and maintenance facility or from the

construction of a facility that services and maintains helicopters where at least seventy-five percent of the helicopters serviced and maintained annually in the facility are equipped with quiet technology.

Your Committee received testimony in support of this measure from the Department of Transportation, Aircraft Owners and Pilots Association, and Blue Hawaiian. Your Committee received testimony in opposition to this measure from Jack Harter Helicopters. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the aviation industry is a major stakeholder in the State's transportation sector and economy. The State's remote geography requires a reliance on a variety of air transportation, including medical operations, air tours, and disaster relief. Your Committee further finds that, with the prevalence of daily air transportation operations, certain communities are affected by noise pollution. Incentivizing aircraft service and maintenance facilities to service and maintain more helicopters that are equipped with quiet technology may provide timely, continued air transportation service while also prioritizing public health needs. This measure modernizes existing law to provide parity for smaller aviation operators while also addressing public health concerns arising from noise pollution.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "quiet technology" to specify the usage of a shrouded tail rotor or removal of the tail rotor to achieve a reduction or redirection of sound; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 74, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 74, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

**SCRep. 1273 Transportation and Culture and the Arts on H.B. No. 600**

The purpose and intent of this measure is to:

- (1) Establish the Safe Routes to School Advisory Committee within the Planning Branch of the Highways Division of the Department of Transportation; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Transportation; Department of Education; State Council on Developmental Disabilities; Hawai'i Climate Change Mitigation and Adaptation Commission; Honolulu Police Department; Department of Transportation Services of the City and County of Honolulu; Maui Metropolitan Planning Organization; Hawaii State Teachers Association; Ulupono Initiative; Hawai'i Public Health Institute; Hawaii Primary Care Association; Malama Kauai; We Are One, Inc.; AlohaCare; Hawaii Children's Action Network Speaks!; and fourteen individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that safe routes to schools provide Hawai'i's keiki with safe and secure alternative transportation methods while also promoting physical exercise and healthy habits. Presently, elementary school students who live within one mile and secondary students who live within one and a half miles of their home school are not eligible for transportation provided by the Department of Education. Additionally, some families may be unable to walk, bike, roll, or ride with their students to school because of employment obligations or other factors. This measure will improve safe routes to schools to protect Hawai'i's keiki while also reducing traffic congestion across the State.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the Safe Routes to School Advisory Committee;
- (2) Requiring the Safe Routes to School Program Coordinator, rather than the Safe Routes to School Advisory Committee, to develop a comprehensive statewide Safe Routes to School Plan;
- (3) Requiring the comprehensive statewide Safe Routes to School Plan to include performance measures, goals, strategies, and accountability for improving safety, active mode share, community investment in supportive programming, and infrastructure quality;
- (4) Adding language that authorizes the Safe Routes to School Program Coordinator to consult with relevant stakeholders;
- (5) Clarifying that the Safe Routes to School Program Coordinator shall be a central point of contact for all Safe Routes to School Programs, rather than federal Safe Routes to School Program;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 600, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 600, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 1274 Transportation and Culture and the Arts on H.B. No. 474**

The purpose and intent of this measure is to appropriate federal funds to sustain and support the State of Hawaii Museum of Natural and Cultural History.

Your Committee received testimony in support of this measure from the Bishop Museum, Historic Hawai'i Foundation, Society for Hawaiian Archaeology, and four individuals.

Your Committee finds that the State Museum of Natural and Cultural History, also known as Bishop Museum, serves a pivotal and integral role in education, research, and preservation and advancement of culture and science. The Bishop Museum's collections encompass more than twenty-five million catalogued objects. The Bishop Museum's researchers have also discovered over seventeen thousand species of plants, animals, and insects throughout the Pacific region in addition to other discoveries related to migration, settlement, and daily life of Pacific peoples. This measure provides continued support to the State Museum of Natural and Cultural History to ensure the stories of Hawaii and other Pacific nations can be shared with residents, tourists, and the rest of the world.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 474, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4; Ayes with Reservations (Elefante). Noes, none. Excused, 1 (Keohokalole).

**SCRep. 1275 Transportation and Culture and the Arts on H.B. No. 1113**

The purpose and intent of this measure is to:

- (1) Authorize funds in the State Highway Fund to be expended to maintain the drug and alcohol toxicology testing laboratory;
- (2) Authorize funds in the Drug and Alcohol Toxicology Testing Laboratory Special Fund to be administered and expended by the Department of Transportation or appropriated as a grant-in-aid to the City and County of Honolulu Emergency Services Department to support the laboratory;
- (3) Require reports to the Legislature; and
- (4) Appropriate funds for the laboratory.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the safety of all roadway users is of paramount importance. Presently, the Department of Health does not have enough resources to fulfill the increased need for blood alcohol testing across the State. Additionally, the Emergency Services Department of the City and County of Honolulu processes all alcohol blood level tests for the entire State, including tests for suspected cases of driving under the influence. This measure eases the resource-intensive strain on blood alcohol level testing to create safer roadways for Hawaii's people.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1113, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 1276 Transportation and Culture and the Arts on H.B. No. 819**

The purpose and intent of this measure is to designate Limu Kala (*Sargassum echinocarpum*) as the official Hawaii state limu.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Limu Hui of Kua'aina Ulu 'Auamo, Kua'aina Ulu 'Auamo, Mālama Pūpūkea-Waimea, Mālama Limu Club of Kamehamea Schools, Hui Maka'ainana O Makana, and seven individuals.

Your Committee finds that limu plays a critical role in the State's natural environment and its cultural significance to Hawaii's people. While the term "limu" includes a broad range of organisms such as moss and lichen, limu kala is a species that grows in brackish environments where streams or springs connect to river mouths or estuaries, eventually connecting to the ocean. This measure recognizes the importance of limu kala in cultural and scientific settings while also raising awareness of all limu species across the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 819, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 1277 Transportation and Culture and the Arts on H.B. No. 475**

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts for the Art in Private Places Program and to establish one position for the Foundation.

Your Committee received comments on this measure from the State Foundation on Culture and the Arts.

Your Committee finds that providing works of art in public spaces allows residents and tourists to appreciate the State's cultural heritage. Presently, the State Foundation on Culture and the Arts displays sixty-eight percent of its collection, allowing thousands of people to view the State's art history at various public institutions. However, providing additional access to the arts through partnerships with private institutions and places will allow for greater exposure of art. This measure provides greater accessibility to the arts to share Hawaii's artistic heritage.

Your Committee also finds that the performing arts, which include singing, dancing, theater, and musical performances, provide engaging experiences and opportunity to share meaningful stories of Hawaii's history and culture, and should be recognized as an artistic medium within the purview of the State Foundation on Culture and the Arts.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that establishes the Art in Private Places and Performing Arts Committee within the State Foundation on Culture and the Arts;
- (2) Requiring the Art in Private Places and Performing Arts Committee to establish an Art in Private Places Pilot Program;
- (3) Requiring the Art in Private Places and Performing Arts Committee to establish a Performing Arts Pilot Program under which the Committee will solicit, review, and select grant proposals for performing arts grants;
- (4) Requiring the Art in Private Places and Performing Arts Committee to submit annual reports to the Legislature;
- (5) Inserting language that establishes the Performing Arts Special Account to be utilized for the coordination, planning, promotion, marketing, and execution of performing arts events;
- (6) Including the Performing Arts Pilot Program and the coordination, planning, promotion, marketing, and execution of performing arts events within the purposes of the State Foundation on Culture and the Arts;
- (7) Defining "performing arts"; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 475, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 475, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 1278 Health and Human Services on H.B. No. 546**

The purpose and intent of this measure is to:

- (1) Require the Fuel Tank Advisory Committee to hold no fewer than one regular meeting in each quarter of a calendar year; and
- (2) Appropriate an unspecified amount of funds for the Department of Health to obtain contractor support for additional meetings of the Fuel Tank Advisory Committee.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Honolulu Board of Water Supply, Environmental Caucus of the Democratic Party of Hawai'i, Sierra Club of Hawai'i, and one individual. Your Committee received comments on this measure from one individual.

Your Committee finds that the Fuel Tank Advisory Committee was established in 2016 to study issues related to leaks of certain fuel storage tanks throughout the State, specifically issues surrounding leaks at the Red Hill Bulk Fuel Storage Facility (Red Hill Facility) managed by the United States Department of Navy (Navy) and the United States Department of Defense's Defense Logistics Agency (DLA). According to testimony, the Fuel Tank Advisory Committee meetings are the only consistent venue for members of the public to receive and request information relating to the Red Hill Facility, and although the frequency of its meetings was increased from once to twice a year following the fuel release at the Red Hill Facility in November 2021, progress made by the Navy and DLA in mitigating the contamination remains unclear. Requiring the Advisory Committee to hold quarterly meetings will allow for more timely disclosure of spill events and the responses to deal with them; better communication regarding current efforts for aquifer recovery and remediation; better opportunities for the public to present their concerns; and more coordination of members of the Advisory Committee to address concerns related to the 2015 Red Hill Administrative Order on Consent that requires the investigation, cleanup, and prevention of releases, and the proposed 2023 Red Hill Administrative Order on Consent that sets forth steps to ensure the safe defueling and closure of the facility.

Your Committee notes that although this measure contains an unspecified appropriation amount, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers appropriating \$350,000 to fund contractor services to assist the Department of Health in the preparation, facilitation, and execution of the Fuel Tank Advisory Committee's quarterly meetings.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 546, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1279 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Water and Land on H.B. No. 1303**

The purpose and intent of this measure is to appropriate funds to the City and County of Honolulu Board of Water Supply to create a pilot program that incentivizes residential homeowners in certain dry areas to replace water-intensive landscaping with alternatives that reduce water use.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Honolulu Board of Water Supply, Hawaii Reef and Ocean Coalition, Environmental Caucus of the Democratic Party of Hawai'i, and one individual.

Your Committees find that water conservation and efficiency of water use are essential because climate change is expected to reduce future freshwater availability in the State and may cause an increase in the frequency and severity of drought events. Your Committees believe that incentives for residential homeowners to replace water-intensive landscaping with alternatives that use less water is an effective way to reduce residential water use in the State. This measure will conserve the State's finite water resources and ensure the health of the State's fresh water supply.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1303, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1303, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

**SCRep. 1280 Housing on H.B. No. 217**

The purpose and intent of this measure is to increase the cost valuations of work on buildings for the work to qualify for an exemption from the requirement that plans and specifications for construction projects be prepared by a licensed engineer or architect.

Your Committee received testimony in support of this measure from Sunrun, Inc.; 350Hawaii.org; and two individuals. Your Committee received testimony in opposition to this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects. Your Committee received comments on this measure from the AIA Hawaii State Council.

Your Committee finds that existing law establishes exemptions from professional stamp requirements for home renovation projects based on the cost valuation of the work. However, the current cost valuations have not been updated since 1979. Since that time, the American Institute for Economic Research has found that the value of the United States dollar has inflated by over three hundred percent. This measure will reduce time and costs for individuals looking to perform smaller-scale projects on their homes, especially rooftop solar and storage projects.

Your Committee has amended this measure by:

- (1) Aligning the measure with its title relating to home renovations by specifying that the requirement for certain plans to be prepared by a licensed engineer or architect shall not apply to work in respect to any:
  - (A) Privately owned or privately controlled one-storied building or structure, the estimated cost of which does not exceed \$40,000, nor to any privately controlled two-storied building or structure, the estimated cost of which does not exceed \$35,000; or
  - (B) Privately owned or privately controlled one-storied residence, the estimated cost of which does not exceed \$96,500, nor to any privately owned or privately controlled two-storied residence, the cost of which does not exceed \$86,500; provided that, for this exemption to apply to the construction of a new residence, it shall be noted and recorded with the Bureau of Conveyances;
- (2) Inserting language clarifying that the following work shall not be exempt from the requirements of chapter 464, Hawaii Revised Statutes:
  - (A) Any structure or improvement for which public officials having jurisdiction require the use of an appropriately licensed design professional; and
  - (B) Any improvement under rules established by a landowner or an association of owners for private property under their respective jurisdiction;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 217, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 217, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Aquino).

**SCRep. 1281 (Joint/Majority) Housing and Health and Human Services on H.B. No. 224**

The purpose and intent of this measure is to:

- (1) Establish a two-year Public Housing Tenant Upward Mobility Pilot Program to provide public housing tenants with part-time, on-the-job paid training and work experience to fulfill minimum qualifications needed for future part-time and full-time employment; and
- (2) Appropriate an unspecified amount of funds for the implementation of the pilot program.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority and five individuals. Your Committees received comments on this measure from one individual.

Your Committees find that some public housing tenants lack adequate training or work experience needed to find gainful employment. By empowering public housing tenants to learn valuable skills and earn higher incomes, these residents may eventually be able to leave public housing and break cycles of poverty.

Your Committees further find that the Hawaii Public Housing Authority, recently received “Moving to Work” designation from the United States Department of Housing and Urban Development, which allows public housing authorities some flexibility with federal funds to design and test innovative ways to address local housing needs in communities across the country. According to testimony received by your Committees, the Hawaii Public Housing Authority believes that this general funded pilot program can lead the way for a future expansion enabled by federal funding to further implement upward mobility workforce development programs for public housing tenants.

Your Committees have amended this measure by:

- (1) Requiring the Hawaii Public Housing Authority to submit an interim and final report to the Legislature concerning the pilot program;
- (2) Re-inserting the original appropriation amount of \$500,000; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 224, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 224, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1282 Housing on H.B. No. 677**

The purpose and intent of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to establish a five-year Dwelling Unit Revolving Fund Equity Pilot Program;
- (2) Establish one full-time equivalent Housing Development Specialist III position to support the pilot program; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State is in a housing crisis. Your Committee further finds that this measure seeks to increase homeownership opportunities for certain Hawaii residents, particularly those at the eighty percent to one hundred twenty percent area median income level. According to testimony received by your Committee, the intent of the Dwelling Unit Revolving Fund Equity Pilot Program (Pilot Program) is for the Hawaii Housing Finance and Development Corporation (HHFDC) to purchase equity in for-sale developments, which will then be allocated to specific units within the development, in order to lower the price of the unit for eligible buyers.

Your Committee notes that for any program that offers potentially considerable benefits, it is critical for the eligibility requirements to be clearly specified and to ensure they meet the State’s priorities and goals. Your Committee further notes that it is therefore necessary for HHFDC to collaborate with the Legislature when establishing the criteria to prioritize eligible buyers of the Pilot Program to make sure any awards are proper and aligned with the policies of the State. Criteria established by HHFDC may include factors such as the length of time on a Department of Hawaiian Home Lands waitlist, lack of gift funds, whether the eligible buyer or the eligible buyer’s family has ever owned real property, government employment, and other relevant factors.

Accordingly, your Committee has amended this measure by:

- (1) Requiring HHFDC to:
  - (A) Establish criteria for the prioritization of eligible buyers of the Pilot Program to be based on the State’s goals and policies; and
  - (B) Submit a report to the Legislature regarding the criteria for the prioritization of eligible buyers of the Pilot Program prior to the Regular Session of 2024;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 677, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 677, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Aquino).

**SCRep. 1283 Housing on H.B. No. 923**

The purpose and intent of this measure is to:

- (1) Require counties with a private activity bond issuance program to exhaust their allotment before applying to the State for the state allocation;
- (2) Require the State, if it receives a county allocation, to award that same amount to a project or projects in that county before awarding to projects in other counties;
- (3) Require a project to first apply to the county in which the project is located, if the county has a private activity bond issuance program, before applying to the State; and
- (4) Require the directors of finance of each county to report to the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation the amount of the county's unused or unassigned allocation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Housing and Community Development of the County of Hawaii, and Affordable Housing Connections LLC.

Your Committee finds that private activity bonds are currently the most limited multi-family rental housing financing resource. This measure will ensure fairness and equity in the allocation of private activity bonds, especially for the counties of Maui and Hawaii, which do not have private activity bond issuance programs.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 923, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 923, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Aquino).

**SCRep. 1284 Housing on H.B. No. 951**

The purpose and intent of this measure is to appropriate funds to the Rental Housing Revolving Fund to be used to provide grants or loans to mixed-income rental projects or units for qualifying individuals and families.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Housing Hawaii's Future; EAH Housing; Hawai'i Association of REALTORS; NAIOP Commercial Real Estate Development Association, Hawaii Chapter; Highridge Costa Development Corporation; and two individuals.

Your Committee finds that the Hawaii Housing Finance and Development Corporation awarded a total of \$142,000,000 last year to finance nearly seven hundred sixty mixed-income rental housing units through its Rental Housing Revolving Fund Tier II Pilot Program. According to testimony received by your Committee, this measure will enable the Hawaii Housing Finance and Development Corporation to extend a second round of Rental Housing Revolving Fund Tier II funding to maintain financing for affordable rentals to working families in light of the private activity bond cap.

Your Committee has amended this measure by:

- (1) Extending the lapse date for any unused and unencumbered appropriation amounts that may be used for certain rental housing projects from June 30, 2024, to June 30, 2025, so as to preserve the consideration for Tier II funding applications; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 951, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 951, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Aquino).

**SCRep. 1285 Housing on H.B. No. 1054**

The purpose and intent of this measure is to:

- (1) Establish a temporary Rental Deposit Loan Program and Rental Deposit Loan Program Revolving Fund;
- (2) Appropriate funds for the Rental Deposit Loan Program; and
- (3) Appropriate funds for the establishment of two full-time equivalent (2.0 FTE) positions to implement the Rental Deposit Loan Program.

Your Committee received testimony in support of this measure from the Chief Housing Office of the Office of the Governor; one member of the Maui County Council; AARP Hawai'i; Hawai'i Association of REALTORS; NAIOP Commercial Real Estate Development Association, Hawaii Chapter; Maui Chamber of Commerce; and two individuals. Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that a Rental Deposit Loan Program that provides no-interest loans to certain individuals is one method to provide the financial support that residents need to secure rental units. However, according to testimony received by your Committee, the shortage of existing rental units in every county, coupled with the uncertainty in the length of time it will take for a county or nonprofit organization to process a loan request, verify eligibility, and issue a check, raises concerns regarding the practicality and effectiveness of the Rental Deposit Loan Program proposed in this measure as currently written.

Your Committee notes that the purpose and intent of the original version of this measure was to secure housing for workforce renters and provide incentives for the development of affordable housing through temporary expedited processes, including third-party review. Your Committee concludes that the language in the original version of this measure is preferable because it offers multiple incentives to both increase the rental housing inventory in the State and decrease costs for renters or buyers.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. 1054, Regular Session of 2023, the original version of this measure, which:
  - (A) Establishes the Rental Deposit Loan Program;
  - (B) Creates tax incentives for the development of affordable housing;
  - (C) Addresses government processes to lower housing costs; and
  - (D) Appropriates funds for the establishment of the Loan Program;
- (2) Further amending H.B. 1054, by deleting language that would have created a tax exemption for qualified persons and firms for the planning, design, financing, construction, sale, or lease of affordable housing units in the State that are part of a government agency's or approving body's condition for approval;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1054, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1054, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Aquino).

**SCRep. 1286 Health and Human Services on H.B. No. 1255**

The purpose and intent of this measure is to:

- (1) Authorize the issuance of special purpose revenue bonds to assist West Maui Hospital Foundation, Inc. in the construction of West Maui Hospital and Medical Center in the County of Maui, including any necessary infrastructure; and
- (2) Require the County of Maui to serve as guarantor of any debt service on the special purpose revenue bonds.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui; Maui County Council; Maui Hotel & Lodging Association; West Maui Hospital Foundation, Inc.; Maui Chamber of Commerce; and nine individuals. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that despite West Maui being home to several of Maui County's largest residential communities and renowned as one of Hawaii's premier visitor destinations, the region has no acute care hospital or related medical campus. Your Committee further finds that the unprecedented projected rates of growth in the number of residents and visitors in the region will substantially increase health care demands for an already underserved West Maui population. West Maui Hospital Foundation, Inc. is embarking on a project to complete the West Maui Hospital and Medical Center, a five-bed critical access hospital with a twenty-four-hour emergency room, three operating rooms, radiology, laboratory, pharmacy, and inpatient and outpatient services. Your Committee finds that this project will provide the West Maui region with its first acute care hospital and create significant job opportunities for local residents trained in health care. Your Committee therefore finds that authorizing the issuance of special purpose revenue bonds to assist in the financing of this project is in the best interest of public health.

Your Committee notes the testimony of the Department of Budget and Finance that should this measure be approved, approval of the issuance of the special purpose revenue bonds and conduit loan will require further review of the financing proposal to ensure compliance with all federal, state, and credit underwriting requirements.

Your Committee also notes that Act 182, Session Laws of Hawaii 2022, placed a moratorium on the issuance of new private activity bonds within the period after June 30, 2022, and before December 31, 2028, by prohibiting the authorization of special purpose revenue bonds requiring an allocation of the annual state ceiling under section 39B-2, Hawaii Revised Statutes, unless requested by the Governor and approved by the Legislature. Accordingly, amendments to this measure are necessary to explicitly exempt the special purpose revenue bonds issued pursuant to this measure from the limitation of Act 182, Session Laws of Hawaii 2022.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a provision that explicitly exempts this measure from the requirements of Act 182, Session Laws of Hawaii 2022; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1255, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1255, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 1287 Health and Human Services on H.B. No. 1356**

The purpose and intent of this measure is to appropriate funds to provide enhanced payments for coronavirus disease 2019-related costs and lost revenues to type I adult residential care homes and developmental disabilities domiciliary homes caring for Medicaid patients, under certain conditions.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Kūpuna Caucus of the Democratic Party of Hawai'i, United Group of Home Operators, International Longshore & Warehouse Union Local 1000, and more than one hundred individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that type I (five residents or fewer) adult residential care homes and developmental disabilities domiciliary homes provide necessary care to vulnerable populations of the State. Licensed care homes provide for the daily needs, comfort, companionship, and supervision of residents at a lower cost than skilled nursing facilities and hospitals and serve as a cost-effective alternative to these facilities. The coronavirus disease 2019 pandemic and recent periods of high rates of inflation have had significant impacts on the costs necessary to operate local care homes. Therefore, this measure would appropriate funds to support the continued operation of type I adult residential care homes and developmental disabilities domiciliary homes in the State.

Your Committee notes the concerns raised in testimony that although the residents of type I adult residential care homes may be covered by Medicaid, type I adult residential care homes do not qualify for Medicaid payments for their residents, since these care homes do not meet the level of care criteria for professional health services provided in an intermediate care facility or skilled nursing facility. Further, the Department of Health's Developmental Disabilities Division, not the Department of Human Services, sets the rates for and directly reimburses developmental disabilities domiciliary homes. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the appropriated funds shall be for enhanced payments to providers of state-licensed adult residential care homes and developmental disabilities domiciliary homes that are caring for residents, rather than patients, who receive Medicaid benefits;
- (2) Clarifying that either the Department of Human Services or the Developmental Disabilities Division of the Department of Health, whichever is applicable, shall obtain the maximum amount of federal matching funds available for the appropriated funds; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1356, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1356, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1288 Health and Human Services on H.B. No. 1357**

The purpose and intent of this measure is to appropriate funds for enhanced payments for each Medicaid-eligible client under the care of certain care homes between July 1, 2009, and June 30, 2023, for each year the client received care.

Your Committee received testimony in support of this measure from the Kūpuna Caucus of the Democratic Party of Hawai'i, United Group of Home Operators, International Longshore and Warehouse Union Local 1000, and more than one hundred individuals. Your Committee received testimony in opposition to this measure from the Department of Human Services.

Your Committee finds that care homes, including community care foster family homes, type I adult residential care homes, expanded adult residential care homes, and developmental disabilities domiciliary homes, provide necessary care to vulnerable populations of the State. Licensed care homes serve as a cost-effective alternative to skilled nursing facilities and hospitals while providing for the daily needs, comfort, companionship, and supervision of residents. Therefore, this measure appropriates funds to support the continued operation of these care homes.

Your Committee notes, per testimony submitted by the Department of Human Services, that the funds appropriated for the enhanced payments provided for in this measure, as currently written, would not qualify for federal Medicaid matching. Therefore, the proposed enhanced payments would be funded entirely by state general funds. Your Committee further notes that the Department of Human Services does not reimburse developmental disabilities domiciliary homes. Rather, the Department of Health's Developmental Disabilities Division develops the rates for and makes payments to these care homes. In addition, the Department of Human Services does not reimburse type I adult residential care homes for home and community-based services, since these care homes do not meet the level of care criteria to qualify for reimbursement. Amendments to this measure are therefore necessary to address these issues.

Your Committee further finds that, similar to the intent of this measure, House Bill No. 1309, H.D. 1, introduced in the Regular Session of 2023, also addresses the financial hardships faced by certain care homes, including type I adult residential care homes, developmental disabilities domiciliary homes, and community care foster family homes. Whereas this measure currently appropriates funds for enhanced payments to certain care homes for Medicaid-eligible residents, House Bill No. 1309, H.D. 1, increases the maximum state supplemental payment amount the Department of Human Services is authorized to provide to certain care homes on behalf of a resident who is eligible for federal Supplemental Security Income or public assistance, or both, for expenses relating to the resident's care. The language of House Bill No. 1309, H.D. 1, is therefore preferable to that of this measure, as it does not require the Department of Human Services to act beyond its designated capacity by reimbursing care homes. Further, the state supplemental payment budget includes sufficient funds to accommodate the increased payment amounts proposed by House Bill No. 1309, H.D. 1, rendering an additional appropriation of state funds unnecessary.

Therefore, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of House Bill No. 1309, H.D. 1, a measure that:
  - (A) Beginning on July 1, 2023, requires that the state supplemental payment for type I adult residential care homes, licensed developmental disabilities domiciliary homes, community care foster family homes, and certified adult foster homes increase from \$651.90 to \$772; and
  - (B) Appropriates funds to provide state supplemental payments in the amount of \$772 to certain care home providers for each resident under the provider's care who is eligible for federal Supplemental Security Income or public assistance, or both;
- (2) Further amending House Bill No. 1309, H.D. 1, by:
  - (A) Increasing the maximum state supplemental payment for type I adult residential care homes, licensed developmental disabilities domiciliary homes, community care foster family homes, and certified adult foster homes to \$767, beginning on July 1, 2023;
  - (B) Increasing the maximum state supplemental payment for type II adult residential care homes from \$759.90 to \$857, beginning on July 1, 2023; and
  - (C) Deleting language that would have appropriated funds to the Department of Human Services;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1357, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1357, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1289 Health and Human Services on H.B. No. 1074**

The purpose and intent of this measure is to clarify the definitions of "caregiver support services", "kupuna care services", and "respite care" for the Executive Office on Aging's Kupuna Care Program.

Your Committee received testimony in support of this measure from the Executive Office on Aging and Policy Advisory Board for Elder Affairs.

Your Committee finds that existing law limits caregiver support services and respite care provided by the Executive Office on Aging's Kupuna Care Program solely to employed caregivers. According to testimony received by your Committee, of the approximately 155,000 caregivers in the State, the great majority provide care to a spouse, family member, or loved one at home and without compensation. Additionally, many of these caregivers are kupuna themselves. This measure would not only allow area agencies on aging to provide stipends, respite care, and other caregiver support services to all caregivers, regardless of employment status, but also ensures that all care recipients, caregivers, and employed caregivers have access to the necessary services and supports provided by the Kupuna Care Program.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1074, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1074, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1290 Health and Human Services on H.B. No. 872**

The purpose and intent of this measure is to appropriate funds to the Executive Office on Aging for the Hawaii Healthy Aging Partnership.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, Office of the Mayor of the County of Maui, Agency on Elderly Affairs of the County of Kauai, AARP Hawai'i, Hawai'i Family Caregiver Coalition, Pearl City Community Church, and more than one hundred individuals.

Your Committee finds that the Hawaii Healthy Aging Partnership furthers the Hawaii State Plan on Aging's first goal of maximizing opportunities for older adults to age well, remain active, and enjoy higher quality lives while engaging in their communities. The Partnership offers two programs, Better Choices Better Health and EnhanceFitness. Better Choices Better Health helps reduce pain, fatigue, shortness of breath, stress, and visits to physicians' offices and emergency rooms and has served 3,185 individuals across the State since its inception. EnhanceFitness helps kupuna avoid long-term complications associated with chronic conditions and has served 1,872 individuals since its inception. Despite the demand for these two programs, your Committee notes that the Partnership has not received state funding since 2019, when the Legislature appropriated \$550,000 to the Partnership. Without additional funding, the Partnership will be unable to continue offering Better Choices Better Health and EnhanceFitness. Therefore, this measure appropriates funds to the Hawaii Healthy Aging Partnership to continue to improve the health and well-being of Hawai'i's kupuna.

Your Committee has amended this measure by:

- (1) Specifying that the Executive Office on Aging of the Department of Health shall expend the appropriated funds; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 872, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 872, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1291 Health and Human Services on H.B. No. 470**

The purpose and intent of this measure is to:

- (1) Require a provider who renders no cost emergency shelter and related services to a minor to take steps to ensure that pertinent youth obtain and receive services from the juvenile justice or child welfare systems; and
- (2) Make permanent the definition of "provider" as it relates to entities eligible to provide no cost emergency shelter and related services to consenting minors.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Opportunity Youth Action Hawai'i, and one individual. Your Committee received comments on this measure from the Department of Human Services, Hawai'i Youth Services Network, and Residential Youth Services & Empowerment.

Your Committee finds that minors experiencing homelessness in the State is an issue that needs to be addressed separately from adult and family homelessness. In this regard, in 2011, the Legislature passed Act 179, Session Laws of Hawaii 2011, to allow certain child placing organizations and child caring institutions to provide emergency shelter and related services to minors at no cost under certain circumstances. In 2021, recognizing that there is a population of homeless minors who avoid the use of no cost shelter services due to fear of being placed into the foster care system or an undesirable shelter situation, the Legislature passed Act 23, Session Laws of Hawaii 2021 (Act 23), expanding the definition of a "provider" who may render no-cost emergency shelter and related services to consenting minors to include organizations that are not child placing organizations or child caring institutions. Despite its critical importance to minors experiencing homelessness, Act 23 is scheduled to be repealed on June 30, 2023. This measure repeals the sunset date for Act 23, thereby making the expanded definition of "provider" permanent and provides further protection to minors in emergency shelters by requiring the providers to ensure that minors obtain and receive services from the juvenile justice or child welfare systems.

Your Committee acknowledges the concerns raised by testimony that the idea of being forced to accept services from the juvenile justice or child welfare systems may be a deterrent for minors who have unpleasant and traumatic experiences with those systems to access no cost emergency shelters. Your Committee also notes that S.B. No. 129, S.D. 1 (2023), a similar measure that was previously heard by your Committee, also repeals the sunset date for Act 23. Your Committee finds that the language in S.B. No. 129, S.D. 1, is preferable because it does not require no cost emergency shelter providers to ensure that pertinent youth obtain and receive services from the juvenile justice or child welfare systems, and provides further protection to minors utilizing no cost emergency shelters by requiring the shelters to maintain separation for unrelated adults and minors.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 129, S.D. 1, which requires providers of no cost emergency shelter and related services to maintain separation for unrelated adults and minor children, and repeals the sunset date for Act 23, thereby making permanent the amendments to the definition of "provider" to include organizations that are not child placing organizations or child caring institutions that meet certain criteria;
- (2) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 470, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 470, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1292 Health and Human Services on H.B. No. 581**

The purpose and intent of this measure is to:

- (1) Require certain individuals attempting to serve as child custody evaluators to complete a training course on the dynamics of domestic violence every three years; and
- (2) Require the individuals to submit a letter or certificate of completion to the family court.

Your Committee received testimony in support of this measure from the Judiciary, Hawai'i State Coalition Against Domestic Violence, Domestic Violence Action Center, EPIC Ohana, Hawai'i Women's Coalition, Early Childhood Action Strategy, Child and Family Service, Women's Caucus of the Democratic Party of Hawai'i, Hawai'i Children's Action Network (HCAN) Speaks!, and seven individuals. Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform and three individuals.

Your Committee finds it essential that professionals who work before the family court and who have an impact on the safety and well-being of children and families understand the dynamics of domestic violence. Your Committee further finds that knowledge pertaining to domestic violence, including its lethality, subtlety, and prevalence, is especially important for child custody evaluators who provide written reports to the court and testify at court hearings and trials, so that their recommendations to the court truly serve the best interests of the child. This measure strengthens the quality of child custody proceedings in the State by ensuring that child custody evaluators receive continuing education on the issue of domestic violence.

Your Committee has amended this measure by:

- (1) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 581, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 581, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1293 Health and Human Services on H.B. No. 573**

The purpose and intent of this measure is to exclude fentanyl test strips from the definition of "drug paraphernalia" in the Uniform Controlled Substances Act.

Your Committee received testimony in support of this measure from the Department of Health, Community Alliance on Prisons, and four individuals.

Your Committee finds that there were seventy-four fatal opioid poisonings in Hawaii in 2021, fifty of which were caused by synthetic opioids containing fentanyl. Your Committee further finds that fentanyl test strips are a critical and low-cost harm reduction tool that helps prevent fatal overdose. Despite their potential to save lives, fentanyl test strips are classified as drug paraphernalia under existing state law, and possession of a single strip is subject to a fine of up to \$500. This measure therefore legalizes the possession and use of fentanyl test strips to address the rising number of overdose deaths caused by synthetic opioids.

Your Committee has amended this measure by:

- (1) Clarifying that the definition of "drug paraphernalia" does not include testing products utilized in determining whether a controlled substance contains chemicals, toxic substances, or hazardous compounds in quantities that can cause physical harm or death, including but not limited to fentanyl test strips; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 573, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 573, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1294 (Majority) Health and Human Services on H.B. No. 660**

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$240,000,000, in one or more series, to assist Hawai'i Pacific Health and one or more of its nonprofit affiliates in financing the costs of the construction of, improvements to, and equipping of their health care facilities at Straub Medical Center.

Your Committee received testimony in support of this measure from Hawai'i Pacific Health. Your Committee received comments on this measure from the Department of Budget and Finance and Disability and Communication Access Board.

Your Committee finds that the Department of Budget and Finance is authorized to issue special purpose revenue bonds to finance projects for not-for-profit corporations that provide health care facilities to the general public. Your Committee further finds that Hawai'i Pacific Health is such an entity. Your Committee also finds that Hawai'i Pacific Health is embarking on a multiphase, multiyear modernization and redevelopment of its existing health care facilities at Straub Medical Center to create a future-forward medical facility to serve the people of Hawaii in the years ahead. Your Committee finds that in light of the evolution and changes in the way care is provided, the redevelopment of Straub Medical Center is crucial to providing high quality health care to the

community, and authorizing the issuance of special purpose revenue bonds to assist Hawai'i Pacific Health in financing the project is in the best interests of public health.

Your Committee notes the testimony of the Department of Budget and Finance that should this measure be approved, approval of the issuance of the special purpose revenue bonds and conduit loan will require further review of the financing proposal to ensure compliance with all federal, state, and credit underwriting requirements.

Your Committee also notes that Act 182, Session Laws of Hawaii 2022, placed a moratorium on the issuance of new private activity bonds within the period after June 30, 2022, and before December 31, 2028, by prohibiting the authorization of special purpose revenue bonds requiring an allocation of the annual state ceiling under section 39B-2, Hawaii Revised Statutes, unless requested by the Governor and approved by the Legislature. Accordingly, it is necessary to amend this measure to explicitly exempt the special purpose revenue bonds issued thereunder from this limitation.

Your Committee has amended this measure by:

- (1) Inserting a provision that explicitly exempts this measure from the requirements of Act 182, Session Laws of Hawaii 2022; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 660, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 660, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1295 Health and Human Services on H.B. No. 314**

The purpose and intent of this measure is to appropriate funds to the Office of Community Services within the Department of Labor and Industrial Relations for the purchase, storage, and transportation costs of food to be distributed to those in need, allocated to the four counties using the methodology utilized by the Office of Community Services in administering The Emergency Food Assistance Program (TEFAP), a federal food security program.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Labor and Industrial Relations Office of Community Services, Hawai'i Public Health Institute, Hawaii Food Industry Association, Hawai'i Primary Care Association, Hawai'i Children's Action Network Speaks!, Hawai'i Hunger Action Network, Ulupono Initiative, Hawai'i Farm Bureau, Hawaii Medical Service Association, Maui Food Bank, Hawai'i Food Bank, Hawai'i Food Bank Kaua'i, and six individuals.

Your Committee finds that one in every six residents in the State, including one in every four children, faces food insecurity. The Office of Community Services administers federal food security programs, including TEFAP, which helps supplement the diets of low-income individuals by providing them with emergency food assistance at no cost. Under TEFAP, the Office of Community Services receives large amounts of surplus food from the United States Department of Agriculture that is distributed to low-income individuals in the State through the Hawaii food banks. This measure will appropriate the necessary funds to allow Hawaii's food banks to continue meeting residents' ongoing food security needs.

Your Committee has amended this measure by:

- (1) Updating the legislative findings to clarify that, during fiscal year 2020-2021, Hawaii's four food banks distributed 36,500,000 pounds of food statewide;
- (2) Clarifying that the purpose of the appropriation is to fund the purchase, storage, and transportation costs of food for distribution to the food banks in the State through the Office of Community Services;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 314, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 314, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1296 (Majority) Health and Human Services on H.B. No. 485**

The purpose and intent of this measure is to require the Department of Health to issue, upon receipt of required supporting documentation, new marriage certificates to individuals who have changed their gender, sex, and, if applicable, name.

Your Committee received testimony in support of this measure from the Department of Health; Hawai'i Civil Rights Commission; North Shore Ko'olau Diversity Collective; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808.com, Inc.; and nine individuals.

Your Committee finds that transgender individuals experience high levels of discrimination in all aspects of their lives. To help address discrimination, in 2019, the State expanded gender designation options to include the gender designation of "X" for state driver's licenses and identification cards. This measure will similarly advance more equitable treatment for the transgender community by allowing individuals to change their marriage certificates to reflect their gender identity.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 485, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 485, H.D. 3, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1297 Health and Human Services on H.B. No. 907**

The purpose and intent of this measure is to authorize reimbursement of services provided through telehealth by way of an interactive telecommunications system.

Your Committee received testimony in support of this measure from the Department of Human Services, Disability and Communication Access Board, University of Hawaii John A. Burns School of Medicine, The Hawaiian Islands Association for Marriage and Family Therapy, National Association of Social Workers – Hawai‘i, Hawai‘i Primary Care Association, AARP Hawai‘i, OhanaPsych, Hawai‘i Psychological Association, Alzheimer’s Association – Hawaii, Hawaii Substance Abuse Coalition, Epilepsy Foundation of Hawaii, Hawai‘i Pacific Health, Hawai‘i Public Health Institute, American Cancer Society Cancer Action Network, Hawaii Medical Association, AlohaCare, and eighteen individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of the Attorney General, and Hawaii Medical Service Association.

Your Committee finds that the State faces a continued shortage of health care providers, making telehealth an important tool that enables individuals to access health care, particularly on the neighbor islands and in rural areas. Your Committee finds however, that the definition of “telehealth” in terms of health insurance coverage, has traditionally required both audio and video capabilities, making it difficult to be utilized by elderly patients, as well as medically- and socially-complex patients, who often face limited broadband access and may experience difficulty navigating the technological aspects of traditional telehealth. Your Committee further finds that the federal Centers for Medicare and Medicaid Services authorizes coverage of audio-only services used in the treatment of mental health and substance abuse, under certain circumstances, allowing federally qualified health centers and rural health clinics to use audio-only telehealth to care for remote patients. This measure authorizes the use of standard telephone contacts for telehealth purposes in certain circumstances to ensure coverage parity across managed care plans and commercial health care plans in the State.

Your Committee notes that interested stakeholders in the health care community in this State have discussed potential amendments to this measure to further clarify the reimbursement provisions for audio-only communication telehealth services, and that their consensus language was incorporated into S.B. No. 1038, S.D. 2 (2023), which is the companion to this measure that was previously passed by the Senate. Amendments to this measure are therefore necessary to incorporate this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that reimbursement for services provided through telehealth via an interactive telecommunications system shall be equivalent to reimbursement for the same services provided via face-to-face contact between a health care provider and a patient; provided that reimbursement for two-way, real-time audio-only communication technology for purposes of diagnosis, evaluation, or treatment of a mental health disorder to a patient in their home shall be equivalent to eighty per cent of the reimbursement for the same services provided via face-to-face contact between a health care provider and a patient; provided further that the health care provider has conducted an in-person or telehealth visit with the patient no longer than six months prior to the audio-only service and at least twelve months prior to any subsequent audio-only visit;
- (2) Clarifying that “interactive telecommunications system” has the same meaning as the term is defined in title 42 Code of Federal Regulations section 410.78(a), as amended; provided that, as used in the definition of “interactive telecommunications system”, “two-way, real-time audio-only communication” is subject to the same meaning and conditions as in title 42 Code of Federal Regulations section 410.78, as amended;
- (3) Clarifying that standard telephone contacts, facsimile transmissions, or e-mail text, in combination or alone, do not constitute telehealth services, except as otherwise provided in state law;
- (4) Amending section 453-1.3, the Hawaii Revised Statutes, to conform to the amendments made by this measure;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 907, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 907, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1298 Health and Human Services on H.B. No. 1245**

The purpose and intent of this measure is to appropriate funds to the Department of Health to purchase one advanced life support ambulance and related equipment to be based in central Maui and fund pay-related personnel costs for state-certified emergency medical services personnel.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Maui, one member of the Maui County Council, American Medical Response, Maui County Paramedics Association, Global Medical Response, Maui Hotel & Lodging Association, and four individuals. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that despite the substantial population increase in central Maui, the area has only one ambulance unit providing emergency medical services to residents. Providing timely response to a 911 call is critical to increasing the likelihood of successful outcomes for injured or sick individuals. The advanced life support ambulance, equipment, and medical service personnel funded by this measure will help reduce death and disability among residents of and visitors to central Maui by facilitating timely responses to calls for emergency medical services.

Your Committee acknowledges the testimony of the Department of Health requesting a separate appropriation amount to establish a more robust and resilient air ambulance network system within the State, including procurement of a helicopter to transport patients between all islands of the State.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a blank appropriation to the Department of Health to increase the predictability and stability of available air ambulance services for all islands in the State;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although this measure contains unspecified appropriation amounts, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider appropriating:

- (1) \$1,500,000 for the purchase of one advanced life support ambulance and related equipment to be based in the central Maui area, and to fund pay-related personnel costs for one state-certified emergency medical technician and one state-certified paramedic for fiscal year 2023-2024;
- (2) \$1,600,000 for the purchase of one advanced life support ambulance and related equipment to be based in the central Maui area, and to fund pay-related personnel costs for one state-certified emergency medical technician and one state-certified paramedic for fiscal year 2024-2025; and
- (3) \$10,000,000 to establish a more robust and resilient air ambulance network system within the State, including procurement of a helicopter to transport patients between all islands of the State.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1245, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1245, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1299 Health and Human Services on H.B. No. 948**

The purpose and intent of this measure is to establish and appropriate funds for a two-year Child and Adolescent Crisis Mobile Outreach Team Pilot Program on Oahu and one neighbor island site to expand existing crisis response services.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Mental Health, Hawaii Medical Association, Parents and Children Together, Hina Mauka, Opportunity Youth Action Hawai'i, Hawai'i Youth Services Network, and one individual.

Your Committee finds that crisis mobile outreach can be a vital resource for youth as they navigate significant challenges related to adolescence. In particular, crisis mobile outreach has the potential to positively impact youth on the neighbor islands, where resources for mental health are less robust. Crisis mobile outreach would reduce difficulties, costs, and time transporting neighbor island youth to Oahu for acute care and other high-level services. To help strengthen crisis response for youth in the State, this measure expands access to child and adolescent mobile crisis services.

Your Committee notes that the Department of Health estimates the cost of crisis mobile outreach to be \$1,340,000 for each island. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting an appropriation amount of \$2,680,000; provided that \$1,340,000 shall be appropriated for crisis mobile outreach on Oahu and the remainder for crisis mobile outreach on a neighbor island.

Your Committee has amended this measure by:

- (1) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 948, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 948, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1300 Health and Human Services on H.B. No. 1296**

The purpose and intent of this measure is to establish and appropriate funds for an Early Intervention Services Working Group within the Department of Health to study and recommend ways to assist and support deaf and hard of hearing children.

Your Committee received testimony in support of this measure from the Department of Health, Department of Human Services, and Executive Office on Early Learning.

Your Committee finds that the Department of Health's Early Intervention Section provides services to children from birth up to three years old who have developmental delays or health conditions that place them at risk for developmental delays, including children who are deaf or hard of hearing. The Early Intervention Section also provides information and support to these children's parents and guardians to help their children's development, as early intervention strategies promote access to language and communication skills needed for learning in school. To ensure these children, parents, and guardians receive the services and information they need, this measure establishes a working group to help guide the Department of Health's practices for supporting deaf and hard of hearing children.

Your Committee also notes the concern raised in testimony that the working group established by this measure, as currently written, does not include any deaf or hard of hearing individuals or parents of deaf or hard of hearing children. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Requiring that the Early Intervention Services Working Group include in its membership:
  - (A) A representative of the Department of Health's Early Intervention Section;
  - (B) The Director of the Executive Office on Early Learning, or the Director's designee; and
  - (C) A parent of a deaf or hard of hearing child under five years old who receives or has received early intervention services; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1296, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1296, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1301 (Majority) Government Operations on H.B. No. 964**

The purpose and intent of this measure is to:

- (1) Increase the fee for the issuance of an apostille or non-apostille certification to \$10;
- (2) Establish the Apostilles and Certifications Special Fund; and
- (3) Authorize the Office of the Lieutenant Governor to expend moneys in the fund for operational expenses.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor and Department of Health. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Lieutenant Governor provides approximately seven thousand five hundred authentication services for all public and general documents annually. Authenticated documents include powers of attorney, marriage or birth certificates, divorce decrees, probated and un-probated wills, and other documents. The current system used for authentication is archaic as the system is unable to accept web-based payment such as credit cards, requiring requestors to send \$1 in cash or cashier's check. Additionally, requestors who live outside of the United States are unable to provide a self-addressed stamped envelope with American postage, creating additional postage costs for the Office of the Lieutenant Governor. This measure updates the current document certification process to ensure the timely processing and delivery of documents for Hawaii's people.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 964, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 964, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Wakai).

**SCRep. 1302 (Joint) Housing and Public Safety and Intergovernmental and Military Affairs on H.B. No. 668**

The purpose and intent of this measure is to:

- (1) Condition the authority of a county whose population is greater than five hundred thousand to exercise state housing powers upon a county's continued compliance with provisions regarding acceptance of the dedication of infrastructure and public highways in affordable housing developments; and
- (2) Amend various provisions relating to the dedication of infrastructure to a county.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that while the City and County of Honolulu has collected real property tax revenues from the Villages of Kapolei for the past thirty years, it has yet to accept dedication of its infrastructure improvements, including roads, sidewalks, and other infrastructure. As a result, the State, through the Hawaii Housing Finance and Development Corporation (HHFDC), has been maintaining and improving these infrastructure improvements at an average cost of over \$1,000,000 per year. According to testimony received by your Committees, necessary road rehabilitation work in the Villages of Kapolei will soon increase these maintenance and improvement costs to about \$10,000,000 per year. Your Committees note that HHFDC has been paying for the infrastructure improvements with monies from the Dwelling Unit Revolving Fund and that the accepted dedication of these infrastructure improvements by the City and County of Honolulu would allow those funds to be used toward infrastructure of newly-constructed affordable housing statewide.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 668, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 668, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4; Ayes with Reservations (Elefante, Fukunaga). Noes, none. Excused, 1 (McKelvey).

**SCRep. 1303 (Joint/Majority) Housing and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1363**

The purpose and intent of this measure is to:

- (1) Extend the period within which a county may adopt a surcharge on state tax, under certain conditions, from March 31, 2019 to December 31, 2023;
- (2) Authorize the use of county surcharge revenues for housing infrastructure in counties having a population of five hundred thousand or less; and
- (3) Temporarily authorize counties that have previously adopted a surcharge on state tax to amend the uses of the surcharge.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, Office of the Mayor of the County of Maui, two members of the Maui County Council, Planning Department of the County of Hawai'i, Maui Metropolitan Planning Organization, Hawai'i Community Foundation, Hawai'i Association of REALTORS, and Land Use Research Foundation of Hawaii. Your Committees received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that the cost of off-site infrastructure is a major barrier to the development of affordable housing statewide. Accordingly, this measure offers another source of funding for counties to pay for housing infrastructure, thereby accelerating housing project delivery and reducing housing costs at the county level. Additionally, according to testimony received by your Committees, this measure will also help offset some of the burden on the Dwelling Unit Revolving Fund, which is currently being depleted by the State's historical infrastructure obligations in Waiahole Valley and in the Villages of Kapolei.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Housing and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1363, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1363, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 3; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, 1 (Aquino).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

**SCRep. 1304 (Joint/Majority) Housing and Health and Human Services on H.B. No. 1397**

The purpose and intent of this measure is to:

- (1) Establish a Supportive Housing Pilot Program in the statewide Office on Homelessness and Housing Solutions to provide and maintain affordable housing opportunities and supportive services for certain individuals and families with special needs; and
- (2) Appropriate an unspecified amount of funds for the Supportive Housing Pilot Program, including the establishment of positions.

Your Committees received testimony in support of this measure from the Governor's Coordinator on Homelessness; Judiciary; Department of Human Services; Hawaii Public Housing Authority; Hawaii State Council on Developmental Disabilities; Disability and Communication Access Board; Hawaii Housing Finance and Development Corporation; Hope Services Hawaii, Inc.; AARP Hawai'i; Hawaii Substance Abuse Coalition; Hawai'i Association of REALTORS; Catholic Charities Hawai'i; Habitat for Humanity Hawaii Island, Inc.; AlohaCare; Fuller Lives; Kaiser Permanente Hawai'i; Partners in Care; and seven individuals. Your Committees received comments on this measure from the Department of Public Safety and State Procurement Office.

Your Committees find that people with disabilities are twice as likely to live below poverty level. Without action to address the affordable housing shortage, more people with disabilities are at risk of becoming homeless or institutionalized. Supportive housing is an innovative solution to house special needs populations, which includes the chronically homeless individuals with disabilities, those transitioning from incarceration, and those suffering from substance abuse, and has been shown to decrease homelessness, reduce burdens and costs on public systems, and decrease crime rates. This measure would establish a pilot program to develop and provide supportive housing and services to vulnerable populations to help individuals stay housed and live more productive lives in their communities.

Your Committees received testimony at the public hearing on this measure that it is challenging to determine the results of supportive housing initiatives within the timeframe required by this measure as currently drafted. Your Committees further find that exempting the Hawaii Public Housing Authority and the Statewide Office on Homelessness and Housing Solutions from the State Procurement Code in selecting qualifying nonprofit organizations to administer components of the pilot program serves a compelling public purpose and will assist in efficiently demonstrating to the Legislature the results of the pilot program. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have capped project-based rent supplement payments at \$500 per month to grant the Hawaii Public Housing Authority more flexibility regarding the project-based rent supplement payments;
- (2) Including employment services as a supportive services to be provided to residents participating in the pilot program;
- (3) Clarifying that supportive services funding shall be not more than \$800 per unit per month;
- (4) Exempting the statewide Office on Homelessness and Housing Solutions from chapter 103F, Hawaii Revised Statutes, in selecting a qualified nonprofit organization to administer supportive services payments under the pilot program;
- (5) Extending the deadlines for the joint interim report and joint final report to the Legislature of the findings and recommendations relating to the Supportive Housing Pilot Program by one year;
- (6) Inserting appropriation amounts of:
  - (A) \$50,000,000 for supportive housing projects or supportive housing units in rental projects targeted for certain special needs individuals and families and for the establishment of one full-time equivalent Permanent Housing Finance Specialist I position;
  - (B) \$14,000,000 for contracts with new supportive housing rental projects or supportive housing rental units in rental projects for project-based rent supplement payments for the Pilot Program and for the establishment of full-time equivalent Permanent Housing Public Housing Specialist position;
  - (C) \$10,500,000 for the provision of support services for qualified individuals and families in new supportive housing projects and the establishment of one full-time equivalent permanent position; and
  - (D) \$500,000 for the development of a supportive housing information system;
- (7) Updating section 1 to reflect its amended purpose and further specifying the compelling and public purposes for granting certain exemptions from the State Procurement Code;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1397, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1397, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1305 Hawaiian Affairs on H.B. No. 133**

The purpose and intent of this measure is to appropriate moneys to fund the operating expenses of the Office of Hawaiian Affairs for the fiscal biennium beginning on July 1, 2023, and ending on June 30, 2025.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs.

Your Committee finds that the Office of Hawaiian Affairs is a semi-autonomous state agency established by the Hawaii State Constitution that is responsible for the betterment of conditions of native Hawaiians and Hawaiians. This measure appropriates funds for the Office of Hawaiian Affairs' operating budget in support of its plans for the upcoming biennium and is vital to fulfilling the mandates of the Office.

Your Committee has amended this measure by:

- (1) Inserting a blank dollar amount for all appropriations of general funds and trust funds; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although the appropriations are blank, the Office of Hawaiian Affairs' testimony requests an appropriation of the following sums:

- (1) \$500,000 in general funds and \$500,000 in trust funds for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for Office of Hawaiian Affairs beneficiaries for occupancy-ready housing needs;
- (2) \$415,000 in general funds and \$415,000 in trust funds for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for social services, including referral services and case management, to at-risk Office of Hawaiian Affairs beneficiaries to immediately address unexpected crises;
- (3) \$615,000 in general funds and \$615,000 in trust funds for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for educational improvement programs for Native Hawaiian students;
- (4) \$600,000 in general funds and \$600,000 in trust funds for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for legal services and legal representation to Office of Hawaiian Affairs beneficiaries;
- (5) \$500,000 in general funds and \$500,000 in trust funds for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for protections of 'āina (land and water), including climate change adaptation, mitigation, and resiliency strategies and practices; and
- (6) \$370,000 in general funds and \$370,000 in trust funds for fiscal year 2023-2024 and the same sum for fiscal year 2024-2025 for 'ohana (families and communities) economic stability.

Your Committee's intent in recommending this measure for passage is for the adjustments requested to be incorporated into the General Appropriations Act of 2023, or other appropriate legislative vehicle or to be adopted separately. As such, your Committee requests that your Committee on Ways and Means strongly consider incorporating the adjustments expressed by this measure to include any provisions necessary to effectuate its purpose and intent.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 133, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 133, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1306 (Joint) Higher Education and Agriculture and Environment on H.B. No. 313**

The purpose and intent of this measure is to appropriate funds to establish the Foreign Agriculture Small Equipment Pilot Program at a University of Hawaii community college to identify and purchase foreign agricultural technology and retrofit engines to comply with the United States Environmental Protection Agency's emission standards for small engines.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Ulupono Initiative; Maui County Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawaii Crop Improvement Association; and nine individuals.

Your Committees find that mechanization is a major impediment to the expansion of farming in the State, since much of crop production depends upon manual labor. According to testimony received by your Committees, sixty-six percent of the State's 7,328 farms are between one to nine acres, and seventy-eight percent of farms statewide produce less than \$25,000 in sales. Mechanized equipment from foreign jurisdictions, specifically designed for small-scale farms, has been proven to increase productivity over time but, due to importation prohibitions, is inaccessible to local farmers. To help small-scale farms increase the amount of food they produce, this measure establishes a pilot program that will increase access to appropriately-sized mechanized farming equipment for small-scale farms in the State.

Your Committees note that the University of Hawaii is not the most appropriate entity to administer the Foreign Agriculture Small Equipment Pilot Program proposed by this measure. While the University of Hawaii Community Colleges would provide critical workforce development to support the Pilot Program, another entity is needed to coordinate the various departments and institutions involved in the Pilot Project. Further, although the University of Hawaii College of Tropical Agriculture and Human Resources' Cooperative Extension works directly with state farmers to identify their needs and conduct crop technology trials, the purview of the Pilot Program aligns more closely with that of the Department of Agriculture. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language that requires the Department of Agriculture, in collaboration with the University of Hawaii, to administer the Foreign Agriculture Small Equipment Pilot Program;
- (2) Specifying that the Department of Agriculture, rather than the University of Hawaii, shall expend the appropriated funds;
- (3) Requiring the Department of Agriculture, rather than the University of Hawaii, to submit a report to the Legislature;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 313, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 313, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
 Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).  
 Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1307 (Joint/Majority) Water and Land and Government Operations on H.B. No. 676**

The purpose and intent of this measure is to authorize the appropriate county land use decision-making authority to determine district boundary amendments involving certain land areas greater than fifteen acres if the county has adopted an ordinance that meets certain requirements.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Housing and Community Development of the County of Hawai'i, Hawai'i Association of REALTORS, Building Industry Association of Hawaii, and Maui Chamber of Commerce. Your Committees received testimony in opposition to this measure from the Office of Hawaiian Affairs, Life of the Land, Hawai'i Farm Bureau, Kihei Community Association, The Friends of Makakilo, Hawai'i's Thousand Friends, Ka Makani O Kohala Ohana, Hawaii Reef and Ocean Coalition, Climate Protectors Hawaii, and six individuals. Your Committees received comments on this measure from the Land Use Commission, Department of Agriculture, Sierra Club of Hawai'i, and Grassroot Institute of Hawaii.

Your Committees find that the lack of affordable housing in the State requires innovative solutions to incentivize development. Your Committees further find that currently, the Land Use Commission has the sole authority over district boundary amendments involving lands greater than fifteen acres, which at times can create a bottleneck. Your Committees believe that by granting the counties instead with such authority, in certain circumstances, affordable housing projects can be expedited, thereby lowering developer costs and ultimately increasing the general availability of affordable housing units throughout the State. Therefore, this measure amends the law relating to district boundary amendments to help counties accelerate the development of affordable housing.

Your Committees have amended this measure by:

- (1) Adding that the ordinance adopted by a county shall require that at least seventy-five percent of the housing units on the land be set aside for persons and families with incomes at or below one hundred percent of the area median income; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Lastly, your Committees expressed concerns that although this measure appropriately gives additional authority and flexibility to the counties to make certain district boundary amendments to lands greater than fifteen acres, this measure does not provide any cap or limiting authority that would, upon reaching a certain acreage size, return the authority back to the Land Use Commission. Your Committees note that the measure, S.B. No. 469, S.D. 1 (Regular Session 2023), a substantially similar measure that was passed by your Committee on Water and Land, included a cap on county authority by limiting the counties' jurisdiction to amendments involving fifteen to fifty acres of land. Should your Committee on Judiciary choose to deliberate on this measure, your Committees respectfully request that it considers further examining establishing a cap or limit on the counties' district boundary amendment authority.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 676, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 676, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.  
 Water and Land: Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Fevella). Excused, none.  
 Government Operations: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Gabbard, San Buenaventura).

**SCRep. 1308 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1511**

The purpose and intent of this measure is to appropriate funds as a grant-in-aid to the Honolulu Board of Water Supply to plan, design, and construct seven monitoring wells and an exploratory well.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Honolulu Board of Water Supply, Ulupono Initiative, Environmental Caucus of the Democratic Party of Hawai'i, and Sierra Club of Hawai'i. Your Committees received comments on this measure from one individual.

Your Committees find that the 2021 Red Hill Bulk Fuel Storage Facility fuel leak caused an unprecedented contamination of Oahu's drinking water supply, which affected nearly 100,000 residents. However, your Committees also find that this disastrous and catastrophic leak was just one such incident in a long history of repeated fuel leaks and chemical spills in the Red Hill area caused by the United States Department of Defense. Your Committees further find that despite this history of fuel leaks, the United States Department of Defense has not established an adequate monitoring well network capable of identifying whether leaked fuel has migrated to other critical water sources, such as the water wells in Aiea and Halawa. Your Committees believe that the federal government has thus far neglected its responsibility and that the State must now step in and fulfill its obligation to protect the public. Therefore, this measure appropriates funds to the Honolulu Board of Water Supply to increase its ability to detect water supply contamination and monitor the condition of Oahu's groundwater aquifer, independently of the United States Department of Defense, and to evaluate the impacts on Oahu's precious and finite water supply.

Your Committees have amended this measure by:

- (1) Requiring the Honolulu Board of Water Supply to consult with the Department of Health and the Commission on Water Resource Management prior to siting and installing the proposed monitoring wells;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1511, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1511, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1309 Health and Human Services on H.B. No. 883**

The purpose and intent of this measure is to appropriate an unspecified amount of funds to the Department of Health to operate mobile clinics staffed with medical professionals, including behavioral therapists trained in cognitive-behavioral and contingency management interventions, to provide medication-assisted treatment throughout the State.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Substance Abuse Coalition.

Your Committee finds that according to the National Survey on Drug Use and Health for 2016-2018, there are over twenty-three thousand individuals in the State aged eighteen and older who need, but are not receiving, treatment for illicit drug use. Your Committee further finds that mobile clinics, with the flexibility to travel to various areas in the State, play a key role in serving individuals residing in areas that lack access to health care. This measure addresses the disparity in health care by enabling the Department of Health to provide health care, including treatment for mental health, to those individuals.

Your Committee notes that although this measure contains an unspecified appropriation amount, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers appropriating \$1,500,000 to fund the operation of the mobile clinics.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 883, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1310 Health and Human Services on H.B. No. 1486**

The purpose and intent of this measure is to appropriate funds to the Department of Health for the Kupuna Care Program within the Executive Office on Aging.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Disability and Communication Access Board, Catholic Charities Hawai'i, Alzheimer's Association – Hawaii, Rainbow Family 808, Hawai'i Family Caregiver Coalition, and more than three hundred individuals.

Your Committee finds that the Kupuna Care Program assists older adults and their caregivers with much needed home- and community-based services to kupuna aged sixty years and older, who have two or more deficits in Activities of Daily Living or Instrumental Activities of Daily Living. The program provides various services to the State's kupuna, including personal care, attendant care, chore, homemaker, case management, home-delivered meals, adult day care, transportation, and respite care, as well as support services for caregivers. Your Committee finds that in 2021, the base budget for the Kupuna Care Program was reduced by approximately \$1,800,000. This measure aims to restore funding for the program to pre-pandemic levels, thereby allowing the Executive Office on Aging to provide kupuna and their caregivers with the much needed care services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1486, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1311 Health and Human Services on H.B. No. 222**

The purpose and intent of this measure is to:

- (1) Adjust the method by which the Department of Human Services calculates Medicaid payments to providers of medical care and long-term supports and services; and
- (2) Appropriate an unspecified amount of funds to cover any costs that may arise while the Department of Human Services establishes new Medicaid payment rates for long-term supports and services.

Your Committee received testimony in support of this measure from the Adult Foster Homecare Association of Hawai'i, United Caregivers of Hawaii, Community Homecare Association of Hawai'i, Alliance of Professional Primary Care Administrators, Providers Helping Hands of Hawaii, AARP Hawai'i, and twenty-four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that home- and community-based care homes that provide Medicaid beneficiaries with opportunities to receive services in their own home or community rather than institutions or other isolated settings are a vital part of the State's long-term health care continuum. Your Committee also finds that the effects of the coronavirus disease 2019 pandemic caused a forty percent increase in Medicaid enrollment in the State, and nearly one-third of the State's residents are now enrolled in Medicaid.

Despite the increase in costs incurred by home- and community-based care homes in providing their services, the Medicaid reimbursement rates for these facilities have not been updated for over fourteen years, and a study commissioned by the Department of Human Services on rates paid to home- and community-based services showed significant wage pressure given the current labor market. This measure ensures that these long-term supports and services providers are fairly and fully funded.

Your Committee notes that this measure contains an unspecified appropriation amount for fiscal year 2023-2024 to fund any costs that may arise while the Department of Human Services establishes payment rates for long-term supports and services. Your Committee also acknowledges the testimony of the Department of Human Services setting forth the possible fiscal impacts of payment rate increases for three different types of home- and community-based services (residential services, in-home services, and case management services) under three (low, medium, and high) rate increase scenarios as listed in the table below, which can be chosen independently of each other. Your Committee further acknowledges that for the rate increases to continue beyond fiscal year 2023-2024, the appropriation must be added to the Department’s base budget in the executive budget bill.

Scenarios	Low		Medium		High	
	Estimated Payment Change	Estimated General Fund	Estimated Payment Change	Estimated General Fund	Estimated Payment Change	Estimated General Fund
Residential Services	\$13.50	\$5.59M	\$27.90	\$11.56M	\$30.10M	\$12.47M
In-Home Services	\$23.80	\$9.86M	\$34.70	\$14.38M	\$40.40M	\$16.74M
Case Management Services	\$0.50	\$0.21M	\$1.30	\$0.54M	\$2.30M	\$0.95M
Total Rate Study Services	\$37.90	\$15.71M	\$64.00	\$26.52M	\$72.90M	\$30.21M

Accordingly, should your Committee on Ways and Means choose to deliberate on this measure and determine that the appropriation includes payment rate increases that have been recommended by the Department of Human Services based on reviews that have already been completed, your Committee respectfully requests that it appropriate funds at the low-rate increase scenario level of \$9,860,000, due to other measures currently moving through the legislative process that minimally increase the payment rates.

Your Committee has amended this measure by:

- (1) Inserting an effective date of June 30, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 222, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 222, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1312 Health and Human Services on H.B. No. 652**

The purpose and intent of this measure is to establish and appropriate funds for a Caregiver Workforce Support and Development Center within the Department of Health’s Executive Office on Aging.

Your Committee received testimony in support of this measure from AARP Hawai’i, Gimme a Break, Healthcare Association of Hawaii, Hawai’i Family Caregiver Coalition, and nine individuals. Your Committee received comments on this measure from the Executive Office on Aging.

Your Committee finds that the State is experiencing a severe health care workforce shortage, particularly within long-term care settings. While various efforts exist to increase the number of professionally trained health care personnel in the State, little attention has been given to existing non-professional caregivers and the essential role they play in meeting the caregiving demands of their family members or friends. In recognition of the vital care caregivers provide, this measure establishes the Caregiver Workforce Support and Development Center to develop, educate, and train caregivers, including existing and unpaid caregivers.

Your Committee notes the testimony submitted by the Executive Office on Aging requesting \$100,000 for fiscal year 2023-2024 and \$400,000 for fiscal year 2024-2025 for the establishment of the Workforce Development and Support Center. The funds appropriated for fiscal year 2023-2024 would facilitate the development of professional standards of care and the identification of resources and gaps in the system for paraprofessional workers and family caregivers. The funds appropriated for fiscal year 2024-2025 would facilitate the implementation of a statewide recruitment and retention marketing campaign. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriation amount of \$100,000 for fiscal year 2023-2024 and \$400,000 for fiscal year 2024-2025.

Your Committee has amended this measure by:

- (1) Clarifying that the Executive Office on Aging shall establish a Workforce Development and Support Center, rather than a Caregiver Workforce Support and Development Center;
- (2) Requiring the Workforce Development and Support Center to develop a Workforce Pilot Project, support caregivers through education and training, and develop an active aging strategy related to kupuna and kupuna caregiver health;

- (3) Specifying that the purpose of the Workforce Pilot Project is to identify existing resources and gaps in the system for paraprofessional workers and family caregivers, develop a statewide recruitment and retention campaign to attract residents to the health care workforce, and develop certain standards for the nonclinical direct care workforce that provides long-term care;
- (4) Specifying that the education and training provided by the Workforce Development and Support Center to support caregivers includes active aging programs and resources, programs for informal caregivers, and professional development courses for existing employers and employees;
- (5) Requiring the Workforce Pilot Project to terminate on June 30, 2026;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 652, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 652, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1313 Health and Human Services on H.B. No. 982**

The purpose and intent of this measure is to stabilize and increase funding for the Tobacco Enforcement Unit within the Department of the Attorney General by:

- (1) Amending the amount of funds that the Tobacco Enforcement Special Fund can carry over at the end of the fiscal year;
- (2) Increasing the cigarette tax stamp fee and concurrently increasing the percentage of the cigarette tax stamp fee deposited to the Tobacco Enforcement Special Fund; and
- (3) Amending the amount of funds to be deposited in the Tobacco Enforcement Special Fund from the Hawaii Tobacco Settlement Special Fund.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of Health, Department of the Attorney General, American Cancer Society Cancer Action Network, Hawai'i Primary Care Association, and Hawai'i Public Health Institute. Your Committee received testimony in opposition to this measure from nine individuals. Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Tobacco Enforcement Special Fund supports efforts of the Tobacco Enforcement Unit of the Department of the Attorney General to administer, monitor, and enforce the Tobacco Master Settlement Agreement and related state laws, including Chapters 486P and 675, Hawaii Revised Statutes. Your Committee also finds that, pursuant to section 245-26(a)(2), Hawaii Revised Statutes, the Tobacco Enforcement Special Fund is partially funded by the cigarette tax stamp fee. However, the amounts of the cigarette tax stamp revenues deposited into the Tobacco Enforcement Special Fund have noticeably dropped in recent years. Your Committee further finds that, to maintain the Tobacco Enforcement Unit's diligent enforcement efforts and to minimize the risk of losing the Master Settlement Agreement annual payments as a result of future arbitrations, it is critical that the unit receive adequate and continuous funding.

Your Committee acknowledges that this measure, as originally drafted, increased the amount of funds that the Tobacco Enforcement Special Fund can carry over at the end of the fiscal year from \$500,000 to \$750,000 and the amount of funds to be deposited in the Tobacco Enforcement Special Fund from the Hawaii Tobacco Settlement Special Fund from \$350,000 to \$750,000. Your Committee further notes the request of the Department of the Attorney General that these amounts be reinserted into this measure.

Accordingly, your Committee has amended this measure by:

- (1) Reinserting \$750,000 as the amount of unencumbered and unexpended moneys in the Tobacco Enforcement Special Fund that can be carried over at the end of the fiscal year without lapsing to the credit of the general fund;
- (2) Reinserting \$750,000 as the amount of the tobacco settlement moneys received by the State each fiscal year that shall be deposited to the credit of the Tobacco Enforcement Special Fund;
- (3) Inserting an effective date of July 1, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 982, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 982, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1314 (Majority) Health and Human Services on H.B. No. 1073**

The purpose and intent of this measure is to:

- (1) Amend the marriage license fee and compensation for a marriage license agent per license;

- (2) Authorize deposits of marriage license fees into the Vital Statistics Improvement Special Fund; and
- (3) Adjust the distribution of the marriage license fee among various domestic violence prevention special funds.

Your Committee received testimony in support of this measure from the Department of Health, Domestic Violence Action Center, and one individual.

Your Committee finds that there are approximately twenty thousand marriage licenses issued every year by the Department of Health's Office of Health Status Monitoring at a fee of \$60 per license. The \$60 fee is currently disbursed to the general fund, Spouse and Child Abuse Special Fund administered by the Department of Human Services, Spouse and Child Abuse Special Account administered by the Judiciary, and Birth Defects Special Fund administered by the Department of Health. Private marriage license agents appointed by the Department of Health also receive \$9 per license issued, as benefit and compensation. Your Committee further finds that despite performing all the work necessary to issue marriage licenses, the Office of Health Status Monitoring does not receive any portion of the collected fees. Furthermore, compensation for the private agents have not been increased for more than twenty-five years. This measure therefore increases the marriage license fee to allow for modernization, quality improvement, and customer satisfaction activities within the Office of Health Status Monitoring.

Your Committee notes that this measure, as currently drafted, does not specify the amended marriage license fee, compensation for the marriage license agent, and distribution amounts to the various funds and accounts. Your Committee further notes that the companion to this measure, S.B. No. 1371, S.D. 1 (2023), which was previously deliberated and recommended for passage by your Committee, specifies all of these amounts. It is therefore necessary to amend this measure to incorporate the amounts set forth in S.B. No. 1371, S.D. 1.

Accordingly, your Committee has amended this measure by:

- (1) Inserting the amount of \$100 for the marriage license fee to be collected by a marriage license agent per license;
- (2) Inserting the following amounts; provided that the marriage license agent is not a civil service employee:
  - (A) \$15 as the portion of the collected marriage license fee to be retained by the marriage license agent for the agent's benefit and compensation;
  - (B) \$85 as the portion of the collected marriage license fee to be remitted to the Director of Health;
  - (C) \$35 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the general fund of the State;
  - (D) \$5 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Spouse and Child Abuse Special Fund;
  - (E) \$5 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Spouse and Child Abuse Special Account;
  - (F) \$20 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Birth Defects Special Fund; and
  - (G) language that requires the Director of Health to deposit \$20 of the remitted fees to the Vital Statistics Improvement Special Fund;
- (3) Inserting the following amounts; provided that the marriage license agent is a civil service employee:
  - (A) \$44 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Spouse and Child Abuse Special Fund;
  - (B) \$5 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Spouse and Child Abuse Special Fund;
  - (C) \$5 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Spouse and Child Abuse Special Account;
  - (D) \$20 as the portion of the remitted fees that the Director of Health shall deposit to the credit of the Birth Defects Special Fund; and
  - (E) Language that requires the Director of Health to deposit \$26 of the remitted fees to the Vital Statistics Improvement Special Fund;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1073, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1073, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1315 Health and Human Services on H.B. No. 1366**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish a three-year Return-to-Home Pilot Program to return homeless individuals in the State to families and relatives in their home states; and
- (2) Appropriate an unspecified amount of funds for the implementation of the Return-to-Home Pilot Program.

Your Committee received testimony in support of this measure from the Institute for Human Services, Inc.; Hawai'i Lodging & Tourism Association; and five individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that homelessness continues to be one of the State's most significant and challenging social problems. Your Committee further finds that many homeless individuals from the continental United States are currently stranded in the State, wanting to return to their families and relatives in their home states but lacking the financial resources to do so. This measure will assist such homeless individuals in returning to their home states.

Your Committee acknowledges that this measure, as currently written, includes a provision that requires Pilot Program participants or their family or relatives in their home state to bear one-half of the transportation costs for the participants' return to their home states, except in cases where the participant is indigent and lacks financial resources. Your Committee finds that this provision is unenforceable and unnecessary because the Pilot Program's underlying eligibility criteria requires that the participant be indigent and lack financial resources. Your Committee also acknowledges the testimony of the Department of Human Services stating that it will need one full-time equivalent planner position to draft rules, procure services, and oversee the Pilot Program. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required participants of the Pilot Program or the participant's family or relatives in the participant's home state to be responsible for one-half of the cost of any transportation used to return the participant to the participant's home state; and
- (2) Inserting language that appropriates an unspecified amount of funds to establish one full-time equivalent (1.0 FTE) planner position within the Department of Human Resources to draft rules, procure services, and oversee the Pilot Program.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider appropriating \$90,000 to establish the one full-time equivalent (1.0 FTE) planner position for the Department of Human Services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1366, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1366, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1316 Health and Human Services on H.B. No. 834**

The purpose and intent of this measure is to recognize American Sign Language as a fully developed, autonomous, natural language with its own grammar, syntax, vocabulary, and cultural heritage.

Your Committee received testimony in support of this measure from the Department of Human Services, Disability and Communication Access Board, Hawai'i Civil Rights Commission, Hawaii Disability Rights Center, Aloha State Association of the Deaf, and thirteen individuals.

Your Committee finds that American Sign Language (ASL) is not a mere translation of spoken English, but a complex visual-spatial language that is closely tied to the nation's culture and identity and has served as the backbone of the United States' deaf and hard-of-hearing population, including the people of Hawaii. Your Committee further finds that statutory recognition of ASL as a distinct language allows increased equitable access in numerous areas, including employment, public awareness, and civic participation. In this regard, over forty states recognize ASL in varying degrees, with at least a dozen states enacting laws to acknowledge ASL as its own distinct language. This measure, by codifying the recognition of ASL as a distinct language, advances and promotes the public's understanding and acknowledgment of ASL as a fully developed, autonomous, natural language with its own distinct grammar, syntax, vocabulary, and cultural heritage.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 834, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 834, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1317 Energy, Economic Development, and Tourism on H.B. No. 193**

The purpose and intent of this measure is to extend and further develop the energy-efficiency portfolio standards established and overseen by the Public Utilities Commission.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Public Utilities Commission; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Ulupono Initiative; Blue Planet Foundation; Climate Protectors Hawai'i; Hawaii Solar Energy Association; and two individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy and Hawai'i Energy.

Your Committee finds that Act 155, Session Laws of Hawaii 2009 (Act 155), codified the Hawaii Clean Energy Initiative's goals for energy efficiency under section 269-96, Hawaii Revised Statutes. Act 155 set the statewide energy efficiency goal for 2030 at four thousand three hundred gigawatt hours and directed the Public Utilities Commission to establish interim goals for 2015, 2020, and 2025. Your Committee believes that now, nearly fifteen years later, it is appropriate to extend these goals so that the Public Utilities Commission can continue its efforts to develop and oversee the State's energy-efficiency portfolio standards beyond 2030. This measure will ensure the continued impact of energy efficiency programming benefits and align the State's renewable energy portfolio standard target date with the State's target dates for its renewable energy and carbon negative goals.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 193, H.D. 1, and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1318 (Joint) Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs on H.B. No. 419**

The purpose and intent of this measure is to require the counties to exempt from county permitting requirements the installation of off-grid residential photovoltaic energy generating systems on the rooftops of residential properties, under certain circumstances.

Your Committees received testimony in support of this measure from three individuals. Your Committees received comments on this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committees find that the State has set the target of one hundred percent renewable energy by 2045. Your Committees believe that taking advantage of available rooftop space on residential properties will be critical to achieve this goal. This measure will strengthen energy security, self-sufficiency, and diversification in the State by allowing for greater adoption of renewable energy technology and infrastructure.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 419, H.D. 1, and recommend that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Fevella).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5; Ayes with Reservations (Elefante, Fukunaga). Noes, none. Excused, none.

**SCRep. 1319 (Joint/Majority) Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs on H.B. No. 654**

The purpose and intent of this measure is to create a building benchmarking program that uses the ENERGY STAR Portfolio Manager to encourage state buildings to become more environmentally sustainable, particularly with respect to greenhouse gas emissions and energy and water consumption.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Honolulu Board of Water Supply, Climate Protectors Hawai'i, Ulupono Initiative, Blue Planet Foundation, Hawai'i Energy, Hawaii Environmental Change Agents' Decarbonization of Buildings Task Force, Building Owners and Managers Association of Hawai'i, and four individuals. Your Committees received comments on this measure from the Department of Accounting and General Services and Hawaiian Electric.

Your Committees find that building benchmarking requires the measuring and reporting of a building's energy and water usage trends using the United State's Environmental Protection Agency's ENERGY STAR Portfolio Manager measurement and tracking tool as a conservation metric to incentivize reduction. Your Committees believe that by establishing a building benchmarking program, building owners will have better information to assess and reduce their water and energy usage on an annual basis. This measure will reduce utility bills, preserve natural resources, and help the State meet its sustainability goals.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 654, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1320 (Joint) Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1375**

The purpose and intent of this measure is to:

- (1) Establish the powers, duties, and responsibilities of the Destination Management Agency, including its director and commission;
- (2) Establish the Tourism Special Fund and County Assistance Special Fund, to receive allocations from transient accommodations tax revenue; and
- (3) Repeal the Hawaii Tourism Authority.

Your Committees received testimony in opposition to this measure from Fair Wind Cruises. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Hawai'i Tourism Authority; Tax Foundation of Hawaii; Maui Hotel and Lodging Association; and Kohala Coast Resort Association.

Your Committees find that due to mismanagement by the Hawaii Tourism Authority, the award of a \$34,000,000 contract for the marketing of Hawaii as a tourism destination to the United States major market area has been in limbo since 2021. This situation has been widely publicized and has negatively affected public perception of the Authority while demonstrating the Authority's noncompliance with the State Procurement Code. Your Committees further find that the Department of Business, Economic Development, and Tourism managed the tourism marketing contracts for the State prior to the establishment of the Hawaii Tourism Authority. This measure will address these public concerns and re-establish public confidence in the State management of tourism.

Your Committees note that S.B. No. 1522, S.D. 2 (Regular Session of 2023), which was previously passed by the Senate, is a substantially similar measure that establishes an Office of Tourism and Destination Management within the Department of Business, Economic Development, and Tourism and repeals the Hawaii Tourism Authority. Your Committees find that the language in S.B. No. 1522, S.D. 2, is preferable because it appropriates funds to establish the Office of Tourism and Destination Management to effectuate the transfer from the Hawaii Tourism Authority, with a focus on destination management headed by a board of directors that consists of nine members.

Your Committees also note that this measure, as amended herein, contains an appropriation amount of \$50,000,000 for the establishment, administration, and operation of the Office of Tourism and Destination Management. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider appropriating \$75,000,000 for the establishment, administration, and operation of the Office of Tourism and Destination Management, with designated earmarks.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1522, S.D. 2, a substantially similar measure, which:
  - (A) Establishes an Office of Tourism and Destination Management within the Department of Business, Economic Development, and Tourism;
  - (B) Transfers the functions, duties, appropriations, and positions of the Hawaii Tourism Authority to the Office of Tourism and Destination Management;
  - (C) Requires the Office of Tourism and Destination Management to implement certain county destination management action plans;
  - (D) Dissolves the Hawaii Tourism Authority; and
  - (E) Appropriates funds; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1375, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1375, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

**SCRep. 1321 (Joint) Energy, Economic Development, and Tourism and Commerce and Consumer Protection on H.B. No. 949**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a solar energy storage system loan program to provide asset limited, income constrained, employed households with low-interest loans to purchase and install solar energy storage systems; and
- (2) Establish and appropriate funds for a renewable energy system installation loan program to provide asset limited, income constrained, employed households with low-interest loans to purchase and install residential photovoltaic and energy storage systems, including battery storage systems.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Hawaii State Energy Office; Department of Commerce and Consumer Affairs'

Division of Consumer Advocacy; Hawaii Solar Energy Association; Hawaii Environmental Change Agents; Hawaiian Electric; 350Hawaii; Climate Protectors Hawai'i; Ulupono Initiative; Elemental Excelerator; Sunrun, Inc.; Chamber of Sustainable Commerce; Blue Planet Foundation; and thirteen individuals. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that forty-four percent of the State's families are classified as asset limited, income constrained, employed, also known as ALICE families, and are facing financial burdens due to rising inflation and unprecedented spikes in electricity costs. Your Committees believe that additional loan capital for photovoltaic and energy storage systems is necessary to help underserved ratepayers reduce their growing financial energy burdens while helping the State achieve its goal of a one hundred percent renewable portfolio standard in energy production by 2045. This measure will support struggling families, facilitate an equitable transition to renewable energy, and enhance the resiliency and stability of electrical grids.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 949, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1322 (Joint) Labor and Technology and Health and Human Services on H.B. No. 1409**

The purpose and intent of this measure is to:

- (1) Extend the family leave period from four weeks to eight weeks for employees who are unable to perform their employment duties because the employee has given birth to a child who is required to stay in a neonatal intensive care unit; provided that during the additional period of family leave, the employee:
  - (A) Provides kangaroo care to the child; or
  - (B) Expresses breast milk for the child; and
- (2) Require the Department of Health to amend its administrative rules to ensure that neonatal care is included as a related medical condition on par with pregnancy, childbirth, or related medical conditions.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations and two individuals.

Your Committees find that in 2020, one in ten babies born in the State were born preterm or before thirty-seven completed weeks of gestation. These babies need extended time in neonatal intensive care units (NICU), which requires their parents to also spend additional time at the NICU to support the babies' care. This measure seeks to prioritize the health of preterm babies and to maintain the employment status of parents of a preterm baby by extending the family leave period of these employees by an additional time period equivalent to the duration of their baby's stay at the NICU for up to eight weeks.

Your Committees have amended this measure by inserting an effective date of June 30, 2032, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1409, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1409, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1323 (Joint) Labor and Technology and Health and Human Services on H.B. No. 339**

The purpose and intent of this measure is to permanently exempt nine certain positions within the Department of Human Services from civil service.

Your Committees received testimony in support of this measure from the Department of Human Services, Hawaii Children's Action Network Speaks!, and one individual.

Your Committees find that although the Department of Human Services (DHS) oversees nearly \$4,000,000,000 in funds, over eighty offices statewide, and a staff of nearly two thousand positions to provide financial assistance, food assistance, health care coverage, child care subsidies, rental assistance, vocational rehabilitation services, homeless services, and protective services to Hawaii residents, it only has four permanent positions within its director's office. According to testimony received by your Committees, other departments with similar levels of work, budget, and staffing operate with significantly larger directors' offices that include multiple deputies and additional permanent positions, and that the nine positions specified within this measure require a high level of professional experience and expertise that does not currently exist within the civil service.

Your Committees recognize the diversity and magnitude of DHS programs and that, with the upcoming end of federal pandemic programs and program waivers, DHS needs continuity of leadership with knowledge and experience to support its ever-evolving and complex operations. This measure will provide the necessary infrastructure for DHS to continue serving the community and fulfill its duties and responsibilities with minimal disruptions to residents' access to benefits and services.

Your Committees have amended this measure by inserting an effective date of June 30, 2032, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 339, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 339, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1324 Health and Human Services on H.B. No. 218**

The purpose and intent of this measure is to:

- (1) Require certain pharmacies to:
  - (A) Provide accessible prescription drug label information to individuals who have difficulty seeing or reading prescription drug container labels; and
  - (B) Inform the public that prescription drug label information is available in alternate accessible formats for individuals who have difficulty seeing or reading prescription drug container labels; and
- (2) Require the Board of Pharmacy to adopt certain rules necessary for the purposes of this Act by December 31, 2025.

Your Committee received testimony in support of this measure from the National Federation of the Blind of Hawaii, National Organization of Parents of Blind Children, Hawaii Disability Rights Center, Hoopono, and eight individuals. Your Committee received testimony in opposition to this measure from the Hawai'i Pharmacists Association. Your Committee received comments on this measure from the Department of Human Services and Board of Pharmacy.

Your Committee finds that regulation of prescription drug labels is largely a state, not a federal, responsibility. Your Committee further finds that existing state law requires dispensing pharmacies to label each prescription drug container with specific information identifying the drug and providing information necessary for health and safety. However, individuals who have vision impairments may experience difficulty in reading the labels, leading them to inadvertently take the wrong type or dosage of medication at the wrong time or under the wrong instructions, thereby endangering their health and safety. This measure addresses this concern by requiring pharmacies to provide prescription drug label information in alternate accessible formats for individuals who are unable to effectively read standard printed prescription labels.

Your Committee has amended this measure by:

- (1) Requiring the Board of Pharmacy to adopt rules to carry out the purposes of this Act by December 31, 2024;
- (2) Requiring the Board of Pharmacy to adopt rules in accordance with this measure applicable to hospital pharmacies and manufacturers of medication who provide their products directly to consumers;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 218, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 218, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1325 Health and Human Services on H.B. No. 870**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to:
  - (A) Establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program that supplements existing statewide services by providing training and other services to neighbor island residents who are blind or visually impaired;
  - (B) Establish a Neighbor Islands Blind and Visually Impaired Service Pilot Program Working Group to develop a pilot program implementation plan and submit the plan to the Legislature before the Regular Session of 2024; and
  - (C) Submit a report on the Neighbor Islands Blind and Visually Impaired Service Pilot Program to the Legislature before the Regular Session of 2027; and
- (2) Appropriate funds for the establishment and operation of the pilot program and working group.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, National Organization of Parents of Blind Children, National Federation of the Blind of Hawaii, State Committee of Blind Vendors, and ten individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that approximately two thousand neighbor island residents who are blind or visually impaired do not have access to or are ineligible for existing state and local support services, including training, adjustments to blindness services, and transportation. The Neighbor Islands Blind and Visually Impaired Service Pilot Program to be established pursuant to this measure

will supplement existing statewide services and enable these individuals to receive the necessary training and other services to improve their quality of life and independence and enable them to have full and integrated lives in their communities.

Your Committee notes that although this measure contains an unspecified appropriation amount, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider appropriating to the Department of Human Services \$100,000 to contract services for a facilitator to convene the working group and for pilot program planning efforts, and \$93,000 to establish a 1.0 full-time equivalent (1.0 FTE) position within the Department of Human Services to oversee the contract and pilot program.

Your Committee further acknowledges the testimony of the Department of Human Services requesting that the establishment of the Neighbor Islands Blind and Visually Impaired Service Pilot Program pursuant to this measure take effect at least six months to a year from this measure's enactment to give the Department sufficient time to work with the community to determine the scope of the pilot program and develop an appropriate budget. Your Committee finds that this request merits consideration and requests that it be further examined by your Committee on Ways and Means.

Your Committee has amended this measure by:

- (1) Amending section 1 to clarify its purposes;
- (2) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 870, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 870, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1326 Health and Human Services on H.B. No. 1263**

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to use funds deposited into the Hawaii ABLE Savings Program Trust Fund for any expenses incurred in developing and administering the Hawaii ABLE Savings Program;
- (2) Establish a position within the State Council on Developmental Disabilities of the Department of Health to provide statewide outreach, advocacy, and relationship management for the Hawaii ABLE savings program; and
- (3) Appropriate funds to be deposited into the Hawaii ABLE Savings Program Trust Fund.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Executive Office on Aging, Disability and Communication Access Board, Hawaii Disability Rights Center, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds the Hawaii ABLE Savings Program is a program that provides individuals with disabilities with the same types of flexible savings accounts that people without disabilities have, such as college savings accounts, health savings accounts, and individual retirement accounts, where interest earned on savings are tax-exempt. ABLE accounts also enable individuals with a disability to accrue funds to pay for a variety of expenses, such as medical and dental care, education, community-based supports, employment training, assistive technology, housing, and transportation. There are approximately forty-three thousand individuals with disabilities in the State who are eligible for the ABLE Savings Program; however, many of them are reluctant to enroll due to misinformation about the program or hesitation to provide their personal information online, which is currently the only means by which one can apply for an ABLE account. This measure will enable the Hawaii ABLE Savings Program to engage in necessary outreach to educate and encourage these individuals to enroll in the program to save money for their futures.

Your Committee notes that S.B. No. 672, S.D. 1 (2023), a substantially similar measure that was previously passed by the Senate, is preferable because it also clarifies the sources of the moneys deposited into the trust fund, allows the moneys in the trust fund to be expended to provide incentive payments to program enrollees, and appropriates moneys out of the trust fund to be expended by appropriate agencies for the program and the newly established outreach position.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 672, S.D. 1 (2023), a measure that:
  - (A) Repeals language that gives the Director of Finance discretion to use moneys in the Hawaii ABLE Savings Program Trust Fund if the Director elects to accept deposits from contributors instead of sending deposits directly to the ABLE Program Manager;
  - (B) Authorizes the Director of Finance to expend moneys in the Hawaii ABLE Savings Program Trust Fund to provide incentive payments to Hawaii public school ABLE account owners; and
  - (C) Establishes one full-time equivalent permanent position to provide statewide outreach advocacy, and relationship management; and
- (2) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1263, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1263, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1327 (Joint/Majority) Agriculture and Environment and Higher Education on H.B. No. 306**

The purpose and intent of this measure is to appropriate funds for statewide research through the University of Hawaii College of Tropical Agriculture and Human Resources into ornamental ginger pathogens, the prevention of the spread of ornamental ginger pathogens, the production and distribution of pathogen-free ornamental ginger plants, and outreach to ornamental ginger producers.

Your Committees received testimony in support of this measure from the Department of Agriculture, University of Hawai'i College of Tropical Agriculture and Human Resources, Maui County Farm Bureau, Land Use Research Foundation, Hawai'i Farm Bureau, Hawaii Floriculture and Nursery Association, East Oahu County Farm Bureau, and seven individuals.

Your Committees find that commercial production of ornamental ginger has been on a steady decline for years, due to the emergence of several deadly plant viruses and diseases. In 2018, a team of specialists and virologists from the College of Tropical Agriculture and Human Resources, Hawaii Farm Bureau, and Department of Agriculture, identified a combination of six viruses, including two viruses discovered during the survey, which are responsible for the demise of ornamental ginger plants in Hawaii. The viruses were found to be present statewide, but are most prevalent on Oahu and Hawaii island. Your Committees further find that virus-infected plants cannot be cured and that most large-scale growing operations have plants that are virus-infected. Without more research and the implementation of informed prevention strategies through a multi-agency outreach approach, these viruses can spread further and impact the profitability and long-term survivability of the local ornamental and landscape production industries. Therefore, this measure appropriates funds for further research into ornamental ginger viruses, pathogens, and diseases, and potential prevention strategies and production methods for disease-free plants, and provides funds for outreach to inform ornamental ginger growers of any new and valuable disease-related discoveries.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 306, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.  
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Keith-Agaran).

**SCRep. 1328 Agriculture and Environment on H.B. No. 608**

The purpose and intent of this measure is to establish an organic foods production tax credit applicable to taxable years beginning after December 31, 2023, and sunseting December 31, 2033.

Your Committee received testimony in support of this measure from the Department of Agriculture; Wakefield and Sons, Inc.; Rancho Aloha Coffee Farm; Hawai'i Farmers Union United; Tinyville Farm; Hawai'i Farm Bureau; Hawai'i Alliance for Progressive Action; Manowaiopae Excellent Adventure Farm; Hawai'i Reef Ocean Coalition; Kuwale Ridge Farms; Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i; Food+ Policy Internship 2023; and fourteen individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that organic farming practices improve soil fertility and structure, promote biodiversity, and reduce the risks of human, animal, and environmental exposure to toxic materials. Your Committee notes that these beneficial practices often require additional costs and expenses to farmers who in turn expect price premiums that are afforded to them by their organic certification and certified organic label. However, due to the relatively small size of many farms in Hawaii and the lack of a state certification program, local farms are dissuaded from the costly United States Department of Agriculture organic certification process and therefore neglect pursuing organic certification, despite high demand for such produce and products in the State. Instead, certified organic produce and products from larger operations on the mainland dominate local markets and enjoy the price premiums afforded to them by the certified organic label. This measure establishes the organic foods production tax credit to alleviate the cumbersome costs associated with equipment, materials, or supplies necessary for organic certification for organic farmers applying for organic certification.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 608, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

**SCRep. 1329 (Joint) Agriculture and Environment and Higher Education on H.B. No. 694**

The purpose and intent of this measure is to appropriate funds to support the Aquaculture Disease Diagnostic Laboratory at the Department of Agriculture Animal Industry Division Veterinary Laboratory Services Branch, in partnership with the University of Hawaii College of Tropical Agriculture and Human Resources.

Your Committees received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Hawai'i Farm Bureau; Local Food Coalition; Shrimp Improvement Systems, LLC; Hawaii Aquaculture and Aquaponics Association; and two individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees acknowledge the importance of Hawaii's aquaculture industry and recognize that supporting local aquacultural production advances and supports the State's food sustainability and economic diversification goals. Your Committees find that

currently, local aquaculture samples are sent to the University of Arizona for testing, which creates significant delays, results in excessive costs, and delays timely industry action. While the Department of Agriculture and the University of Hawaii College of Tropical Agriculture and Human Resources have laboratory capabilities, they lack the appropriate personnel and industry focus that a burgeoning local aquaculture industry demands. Therefore, this measure appropriates funds to support and create new positions at the Aquaculture Disease Diagnostic Laboratory at the State Veterinary Laboratory building in the Department of Agriculture Animal Industry Division Veterinary Laboratory Services Branch, in partnership with the University of Hawaii College of Tropical Agriculture and Human Resources, to support its development of and assistance to local aquaculture production.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 694, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 3. Noes, none. Excused, 2 (Keith-Agaran, Fevella).

**SCRep. 1330 (Joint) Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs on H.B. No. 695**

The purpose and intent of this measure is to allow for the use of battery-charged security fences used for non-agricultural purposes, under certain circumstances.

Your Committees received testimony in support of this measure from Amarak Ultimate Perimeter Security.

Your Committees find that property valued at approximately \$85,000,000 was reported stolen in Hawaii in 2022 and that electric fences may deter future attempted thefts. Your Committees further find that farmers and ranchers can also use electric fences to maintain the integrity of their livestock and food crops. Thus, this measure allows for the use of battery-charged security fences used for non-agricultural purposes on agricultural lands under certain conditions.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 695, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

**SCRep. 1331 (Joint) Agriculture and Environment and Health and Human Services on H.B. No. 1266**

The purpose and intent of this measure is to allow wild game to be donated as food.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau; Maui County Farm Bureau; Maui Chamber of Commerce; Hawaii Cattlemen's Council, Inc; Hawai'i Forest Industry Association; Hawai'i Farmers Union United; and four individuals. Your Committees received testimony in opposition to this measure from the Department of Health. Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that across Hawaii, various invasive species are creating havoc in agriculture as well as the ecosystems in which they exist. Maui County's axis deer crisis is one example of an invasive species with populations exploding due to abundant forage following rainfall events. Axis deer continue to destroy crops and pasture lands by devouring vegetation and eating almost any crop they come across. Feral pigs can damage pasture grasses, killing desired plant species and often encouraging the growth of undesired weed species. Feral pigs also devastate orchards by consuming fruit, citrus, and nuts, and their rooting can severely damage, or even kill saplings, shrubs, and vines directly or by facilitating the spread of soil-based fungal diseases. Your Committees additionally recognize that feral animals inhibit farmer and rancher operations by causing damage to infrastructure and consuming crops and, as Hawaii feral animal populations continue to expand, these damages, costs, and risks will only continue to rise. Therefore, this measure allows for the donation of wild game to under-resourced communities to incentivize the reduction of feral animals in Hawaii by way of wild game hunting.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1266, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 1332 Agriculture and Environment on H.B. No. 947**

The purpose and intent of this measure is to establish a Food Manufacturer Tax Credit for certain qualified expenses of manufacturers that produce valued-added products.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Ulupono Initiative, Hawaii Food Industry Association, Maui Chamber of Commerce, Hawaii Food Manufacturers Association, Chamber of Commerce Hawaii. Your Committee received comments on this measure from the Department of Taxation, Hawaii Technology Development Corporation, and Tax Foundation of Hawaii.

Your Committee finds that farmers and value-added food producers in the State face high production costs and narrow profit margins, which work to disincentivize the creation and distribution of manufactured food products in Hawaii. Substantial amounts of food of subpar cosmetic quality, unfit for the competitive marketplace yet full of nutrients and calories, are wasted each year due to stringent market quality standards. Value-added food products utilize these perfectly good and discarded foods to create new edible products, reducing food waste and increasing revenue streams for farmers and food manufacturers. Your Committee further finds that a tax credit can incentivize food manufacturers to utilize local agricultural yields to reduce food waste and increase revenues for local farmers and ranchers in the State. Therefore, this measure establishes the Food Manufacturer Tax Credit to be equal to the qualified expenses of a qualified taxpayer food manufacturer, as part of the larger and ongoing statewide effort to bolster local agriculture and enhance food security in Hawaii.

Your Committee has amended this measure by:

- (1) Amending the definition of “qualified taxpayer” to mean food manufacturers that produce local value-added processed, agricultural, or food products;
- (2) Adding a definition for the term “local value-added processed, agricultural, or food products” to mean at least fifty-one percent of the product’s primary agricultural product is grown, raised, and harvested in Hawaii; and
- (3) Adding a definition for the term “primary agricultural product” to mean the major agricultural product in a processed or value-added agricultural or food product.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 947, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 947, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 1333 Agriculture and Environment on H.B. No. 607**

The purpose and intent of this measure is to create an interisland produce shipping income tax credit for taxpayers who are farmers, or are producers of agricultural commodities, cooperatives, broad line distributors, or food hubs who ship products and agricultural goods between counties.

Your Committee received testimony in support of this measure from the Department of Agriculture; Kanalani Ohana Farm; Ulupono Initiative; Ponoholo Ranch Limited; Hawai’i Farmers Union United; Hawai’i Farm Bureau; Hawai’i Alliance for Progressive Action; Kuwale Ridge Farms; North Shore Economic Vitality Partnership; Hawaii Cattlemen’s Council, Inc.; Hawaii Food Industry Association; and twenty individuals. Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee recognizes the State’s vision of supporting local farmers and food producers so that they may enter the marketplace with affordable and fresh food and food products for Hawaii’s residents and visitors. Your Committee further finds that due to Hawaii’s unique geographical constraints, farmers and food producers in the State often face burdensome costs when shipping or transporting their perishable products over ocean channels or from rural farm lands to consumers in urban areas. These costs can discourage the expansion of interisland commerce and impede growth incentives for the smaller operations that encompass a great majority of the farms, ranches, and food producers in the State. This measure will alleviate the burdensome costs of interisland shipping and transport for farmers, ranchers, and food producers by providing a tiered tax credit system to encourage local agriculture to expand and make available affordable food options for Hawaii residents and visitors.

Your Committee has amended this measure by:

- (1) Removing inconsistent language that allowed the tax credit to be claimed by a developer of a commercial building for renovation costs, and clarifying that the credit may be claimed for transportation costs; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 607, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 607, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1334 Agriculture and Environment on H.B. No. 308**

The purpose and intent of this measure is to:

- (1) Establish the Sustainable Food Systems Working Group within the Department of Agriculture;
- (2) Require the working group to submit a plan, any recommendations for implementing the plan, and any proposed legislation to the Legislature; and
- (3) Appropriate funds to establish the working group and develop the plan and for an unspecified number of sustainability specialist positions to be employed by the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Hawaiian Affairs; University of Hawai’i College of Tropical Agriculture and Human Resources; Hawai’i Farm Bureau; Sierra Club of Hawai’i; North

Shore Economic Vitality Partnership; Hawai'i Public Health Institute; Ulupono Initiative; Hawaii Food Industry Association; Climate Protectors Hawaii; Hawai'i Tourism Authority; Hawaii Cattlemen's Council, Inc; Hawai'i Farmers Union United; and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that developing a more sustainable food system for Hawaii represents an opportunity to create a new food economy that integrates the objectives of green job creation, sustainable economic development, land stewardship, food security, environmental protection, and climate change resiliency with the principles of public health and collective well-being. Your Committee acknowledges that the State must lead the way with policies and plans that can propel Hawaii in this new direction pragmatically. However, your Committee recognizes that the Legislature is limited in what it can accomplish on its own, and therefore must rely on and work closely with industry, government agencies, and policy experts to bring its ideas and goals into fruition. Thus, this measure establishes within the Department of Agriculture the Sustainable Food Systems Working Group, a collection of thirty-two representatives from across the State's government agencies and agriculture sector, to develop an interagency food systems plan and appropriates funds and positions to support this group.

Your Committee has amended this measure by:

- (1) Adding to the Sustainable Food Systems Working Group a representative from the Department of Health, to be selected by the Director of Health, and a representative from the Hawaii Cattlemen's Council, Inc., to be selected by the president of the Hawaii Cattlemen's Council, Inc.; and
- (2) Replacing the selector of the two representatives of the University of Hawaii System who have experience in food systems, with the Dean of the College of Tropical Agriculture and Human Resources, and the selector of the representative of the Hawaii Farm Bureau, with the President of the Hawaii Farm Bureau.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 308, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 308, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1335 (Joint) Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1396**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a County Cesspool Conversion Pilot Program at the Department of Health to work with each county to identify a priority area to expand the county sewage system or other centralized treatment system to connect individual properties in the priority area and reduce or eliminate cesspools in the identified area;
- (2) Create a cesspool conversion section at the Department of Health to facilitate the conversion of cesspools within the State;
- (3) Establish and appropriate funds for cesspool conversion positions at the Department of Health;
- (4) Establish an income tax credit for the cost of upgrading or converting a qualified cesspool to a Director of Health-approved wastewater system or connecting to a sewerage system; and
- (5) Require certain information regarding cesspools on real property to be included in seller mandatory disclosures for real property transactions.

Your Committees received testimony in support of this measure from the Department of Health, University of Hawai'i Sea Grant College Program and Water Resources Research Center, Office of the Mayor of the County of Kauai, Friends of Hanauma Bay, Hawai'i Association of REALTORS, Ulupono Initiative, Environmental Caucus of the Democratic Party of Hawai'i, Wastewater Alternatives and Innovations, Public Access to Sunscreens Coalition, Hawai'i Reef and Ocean Coalition, and three individuals. Your Committees received comments on this measure from the Department of Taxation.

Your Committees find that there are over eighty thousand cesspools in the State that discharge about fifty million gallons of raw sewage into groundwater sources every day. The discharge is of significant concern to residents and exacerbates public health and environmental challenges that are pressed upon the State. Thus, the State has established the mandate to connect to a sewerage system, upgrade, or convert all cesspools in Hawaii by 2050. This measure contains some of the substantive groundwork that is required to achieve this goal and includes the establishment and funding of a County Cesspool Conversion Pilot Program; a Cesspool Conversion Section and funding for positions at the Department of Health; an income tax credit to incentivize landowners and homeowners to convert their cesspools; and mandatory public disclosure of cesspools on real property in seller mandatory disclosures for real property transactions.

Your Committees have amended this measure by:

- (1) Inserting a new part that allows the Department of Health to retain experts to identify necessary public outreach and education resources and tools, and develop a comprehensive public outreach strategy and website to provide necessary information to educate homeowners regarding the State's cesspool upgrade, conversion, or connection to a sewerage system requirements and deadlines; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of

H.B. No. 1396, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1396, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

**SCRep. 1336 (Majority) Energy, Economic Development, and Tourism on Gov. Msg. No. 505**

Recommending that the Senate not advise and consent to the nomination of the following:

DIRECTOR, DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT & TOURISM

G.M. No. 505 CHRIS SADAYASU, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Chris Sadayasu for service as the Director of Business, Economic Development, and Tourism.

Your Committee received testimony in support of the nomination for the appointment of Chris Sadayasu from the Governor; Chief Housing Officer of the Office of the Governor; Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Department of Human Resources Development; Department of Public Safety; Department of Transportation; Department of Labor and Industrial Relations; Department of Human Services; Department of Commerce and Consumer Affairs; Department of Agriculture; Department of Budget and Finance; Department of Health; Department of Law Enforcement; Hawaii Technology Development Corporation; Hawai'i Tourism Authority; Office of Planning and Sustainable Development; Agribusiness Development Corporation; Hawai'i Community Development Authority; Hawaii Green Infrastructure Authority; Hawai'i State Aha Moku; Hawaii State Energy Office; Natural Energy Laboratory of Hawaii Authority; Stadium Authority; Office of Enterprise Technology Services; Hawaii Public Housing Authority; Department of Taxation; University of Hawai'i at Manoa Pacific Asian Center for Entrepreneurship; International Brotherhood of Electrical Workers Local 1260; Hawai'i Hotel Alliance; Central Pacific Bank; Outrigger Hospitality Group; Airport Concessionaires Committee; AES; Hawai'i Community Foundation; Kekaha Agriculture Association; Omnitrak; Roberts Hawaii; Koolau Foundation; Hawaii Regional Council of Carpenters; Kakoo Oihi; Hookipa Specialists, LLC; and forty-three individuals.

Your Committee notes that Mr. Sadayasu has over twenty years of professional experience working in various government roles and has served as the acting Director of the Department of Business, Economic Development, and Tourism since December 2022. Mr. Sadayasu has a Bachelor's degree in Economics and Accounting from Claremont McKenna College and a Juris Doctorate from the William S. Richardson School of Law. Previous to his current role, Mr. Sadayasu served as a Housing Development Specialist with the Hawaii Housing Finance and Development Corporation, an Asset Manager and Compliance Assurance and Community Outreach Officer with the Hawaii Community Development Authority, Asset Management Administrator with the City and County of Honolulu Office of Strategic Development, Tourism Brand Manager for the Hawaii Tourism Authority, and Charities Program Administrator with the Department of the Attorney General's Tax and Charities Division. Mr. Sadayasu was also previously an associate attorney at Ching, Yuen & Morikawa for a number of years where he worked on cases involving real estate transactions, foreclosures, corporate and securities law, quiet title, and land use matters.

Your Committee finds that the Department of Business, Economic Development, and Tourism (Department) is tasked with undertaking statewide business and economic development activities, energy development and management, economic research and analysis, planning for the use of the State's ocean resources, and the development and promotion of industry and international commerce. The Director is also tasked with ensuring appropriate coordination among the Department's programs and other state departments and external agencies. As head of the Department, your Committee expects the Director to communicate effectively and be prepared to work with policymakers to move the State forward in areas such as clean energy development, economic diversification, and tourism. However, your Committee notes that on multiple occasions, Mr. Sadayasu has been unprepared to respond to questions posed by senators during hearings to consider a number of measures involving the Department or its programs. While Mr. Sadayasu eventually provided answers to the senators' questions, his responses have often come in subsequent hearings and meetings. Mr. Sadayasu's failure to adequately prepare for senate hearings and meetings has required the Senate to schedule additional, unnecessary hearings to work with the Department. Although Mr. Sadayasu has apologized for his lack of preparedness and has promised to improve, your Committee is concerned that this behavior will continue to result in inefficiencies and a lack of communication between the Department and the Legislature. This lack of communication is especially troubling during a time that your Committee believes will require collaboration in order for the State to succeed in accomplishing its important goals and policies.

Your Committee further notes that Mr. Sadayasu has had issues attending meetings relating to his duties as the acting Director of the Department and has left some essential meetings prior to their completion. Although Mr. Sadayasu often left these meetings early to attend to other matters as acting Director, your Committee believes that to effectively lead the Department, the Director must make every effort to plan their schedule appropriately to allow their full participation in all necessary meetings in their entirety. Additionally, your Committee has concerns regarding Mr. Sadayasu's ability to lead and effectively manage the hundreds of employees in the Department. While Mr. Sadayasu does have previous experience managing employees, your Committee notes he has managed the maximum of four employees at any one given time prior to his role as acting Director. This track record of failing to participate in meetings in their entirety and lack of experience managing a large number of employees, especially when coupled with his problem to effectively communicate with the Legislature, concerns your Committee and affords it little confidence in Mr. Sadayasu's ability to effectively lead the Department and fulfill the duties and responsibilities of the Director.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, recommends that the Senate not advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fukunaga). Excused, none.

**SCRep. 1337 Government Operations on Gov. Msg. No. 520**

Recommending that the Senate advise and consent to the nomination of the following:

COMPTROLLER, DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

G.M. No. 520 KEITH REGAN, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Keith Regan for service as the Comptroller for the Department of Accounting and General Services.

Your Committee received testimony in support of the nomination for the appointment of Keith Regan from the Governor; Department of Budget and Finance; Department of Taxation; Department of Labor and Industrial Relations; Department of Land and Natural Resources; Department of Public Safety; Department of Human Services; Department of Agriculture; Department of Education; Department of Health; Department of Human Resources Development; Department of Defense; State Procurement Office; Office of Information Practices; Enterprise Technology Services; Office of Elections; Hawai'i Tourism Authority; Hawaii Public Housing Authority; State of Hawaii Organization of Police Officers; General Contractors Association of Hawaii; Mahi Pono; Hawai'i Lodging and Tourism Association; Operating Engineers Local Union No. 3; Hawaii Harbor Users Group; Matson Navigation Company, Inc; Boy Scouts of America Troop 325; and sixty-two individuals.

Upon review of the testimony, your Committee finds that Keith Regan's experience, knowledge, and proven leadership qualify him for appointment to Comptroller at the Department of Accounting and General Services. Your Committee finds that Mr. Regan has served as the interim Comptroller since December 2022. For almost twenty years, Mr. Regan has worked at both the state and county levels, in various executive management positions, including at the Department of Commerce and Consumer Affairs, Hawaii Tourism Authority, and Department of Management and the Department of Finance of the County of Maui. In these leadership positions, Mr. Regan has proven his commitment to public service and ability to lead with a clear vision.

Your Committee finds that Mr. Regan is uniquely suited to the role of Comptroller. Mr. Regan earned a Master's degree in Public Administration from the University of Southern California and a Master of Business Administration from the University of Phoenix. He also completed the Senior Executives in State & Local Government program at Harvard Kennedy School of Government in Cambridge, Massachusetts. Coupled with his public administration and government service-focused education, Mr. Regan's professional duties throughout his career have allowed him to sharpen his knowledge and skills in the areas of general supervision, finance, budget, compliance, procurement, emergency management, information technology, and more. The efforts he has made to develop professionally provide him with a solid foundation and acumen to perform the duties of Comptroller.

Testifiers acknowledge that he is dedicated to achieving administration goals in an honest, transparent, accountable, and responsible manner and that he has the essential management, policy-making, and decision-making skills to lead coordination efforts with private, state, and county agencies. Testifiers also praised his expertise of government operations and his innovativeness and responsiveness in times of crisis. Additionally, Mr. Regan's prior public service demonstrates his ability to improve operational capabilities and long-range program planning. Testifiers also praise his commitment to community-minded volunteerism through active participation in various capacities at organizations such as the Aloha Council of the Boy Scouts of America, Honolulu Japanese Chamber of Commerce, and Kiwanis Club of Honolulu. Your Committee therefore recommends that Keith Regan be appointed as Comptroller based on his knowledge of government operations, honed management and interpersonal skills, and proven leadership.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1338 (Majority) Hawaiian Affairs on Gov. Msg. No. 524**

Recommending that the Senate advise and consent to the nomination of the following:

CHAIRPERSON, DEPARTMENT OF HAWAIIAN HOMELANDS

G.M. No. 524 KALI WATSON, for a term to expire 12-31-2026

Your Committee reviewed the personal history, resume, and statement submitted by Kali Watson for service as the Chairperson of the Department of Hawaiian Home Lands.

Your Committee received testimony in support of the nomination of Mr. Watson from the Governor; Department of Land and Natural Resources; Department of Labor and Industrial Relations; Department of Transportation; Department of Health; Department of Budget and Finance; Department of Public Safety; Department of Law Enforcement; Department of Defense; Department of Taxation; Department of Agriculture; Office of Planning and Sustainable Development; Hawaii Public Housing Authority; Office of Enterprise Technology Services; one member of the Kaua'i County Council; one member of the Maui County Council; one former Chairperson of the Department of Hawaiian Home Lands; Hawaii State Aha Moku; Ko'olaupoko Hawaiian Civic Club; PBR Hawaii and Associates, Inc.; Waiohuli Hawaiian Homesteaders Association, Inc.; Hawaii Regional Council of Carpenters; Waimea Hawaiian Homesteaders Association; Ho'omana Pono, LLC; Kalihi Palama Hawaiian Civic Club; Kainalu Surf Shop; Piihonua Hawaiian Homestead Community Association; Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee; Ko'olau Foundation; Keaukaha Pana'ewa Farmers Association; Hawai'i Community Lending, Inc.; Friends of Waimanalo; and forty individuals. Your Committee received testimony in opposition to the nomination of Mr. Watson from Ka Lāhui Hawai'i and thirty-five individuals.

Upon review of the testimony, your Committee finds that Mr. Watson's background and extensive experience qualify him to be appointed as the Chairperson of the Department of Hawaiian Home Lands. Mr. Watson currently serves as the President and Chief Executive Officer of the Hawaiian Community Development Board (HCDB), a nonprofit established in 2000 with the express mission

of supporting and promoting housing, community, and economic development projects that benefit low-income Native Hawaiian families living in the Hawaiian Home Lands and communities throughout the State. As President and CEO, Mr. Watson has worked closely with homestead beneficiary leaders and numerous Native Hawaiian organizations and has cultivated relationships with both nonprofit and private developers to bring such projects to life. For example, Mr. Watson served as the project director for the Nanakuli Hawaiian Homestead Community Association where he coordinated the planning, design, and construction of a six-acre multi-use retail and health services commercial project known as the Nanakuli Village Center, which serves as the locale for the Kamehameha Schools' Kalanihookaha Hawaiian Cultural Center, a commercial center, a satellite of the Waianae Coast Comprehensive Health Center, and a forty-eight-unit affordable rental housing project. Mr. Watson also served as the project director for the Kahikolu Ohana Hale O Waianae where he developed the Kahikolu Housing Project, which includes seventy-two affordable multi-family apartments. Your Committee finds that these projects, among the many others, demonstrate Mr. Watson's leadership, vision, and dedication to providing much needed housing and economic opportunities for the predominantly Native Hawaiian families living in the often-neglected leeward community.

Especially relevant, Mr. Watson previously served as the Director of the Department of Hawaiian Home Lands and Chairman of the Hawaiian Homes Commission from 1995 through 1998, under the administration of then Governor Benjamin Cayetano. During his tenure, Mr. Watson was responsible for coordinating the development of over 3,100 residential lots on Hawaiian Home Lands and helped transfer 16,518 acres of state lands to the Hawaiian Home Lands Trust. Mr. Watson was also instrumental in the passage and transfer of over nine hundred acres of federal lands into the Hawaiian Home Lands Trust through the federal Hawaiian Home Lands Recovery Act of 1995. Your Committee finds that Mr. Watson's core institutional knowledge of the Department of Hawaiian Home Lands and his deep understanding of the issues pertinent to homestead communities -- both of which were on full display during the hearing on March 16, 2023 -- will suit him well as he returns to once again lead the Department.

Further, a lawyer by trade, Mr. Watson previously served as a state Deputy Attorney General, where he was assigned to the Department of Hawaiian Home Lands and helped oversee the Department's management and development of commercial and industrial properties. Mr. Watson also served as legal counsel for the Office of Hawaiian Affairs, where he advised the Board of Trustees on ceded land negotiations and fashioned settlement packages designed to increase and expand the Office's real estate development potential. Mr. Watson is a member of the Native Hawaiian Bar Association and was formerly involved with organizations such as the Native Hawaiian Chamber of Commerce, Legal Aid Society of Hawaii, Habitat for Humanity, and others. Mr. Watson received a Juris Doctorate from the William S. Richardson School of Law and a Bachelor of Business Administration and Management degree from the University of Hawai'i at Manoa.

Your Committee believes that Mr. Watson's extensive project development and legal background, combined with his life-long service on behalf of Native Hawaiian housing and cultural issues, qualifies him to serve as the Chairperson of the Department of Hawaiian Home Lands. Your Committee finds that Mr. Watson is an established and sophisticated project developer with a proven track record of success and that his subject matter expertise and fluency in the complex field of housing development -- which encompasses bond financing, housing tax credits, project management, and land use and zoning laws -- will allow him to immediately take the helm and begin putting plans into action for the benefit of the Native Hawaiian people. Your Committee finds that one of the chief concerns for many who testified was the need to quickly and efficiently encumber the \$600,000,000 appropriated by the Legislature through Act 279, Session Laws of Hawaii 2022, before the funds lapse, and your Committee appreciates Mr. Watson's expressed intent to aggressively pursue the twenty projects identified in the strategic plan approved by the Hawaiian Home Lands Commission.

Lastly, your Committee inquired, in performing its due diligence, whether any actual or perceived conflicts of interest might arise in relation to Mr. Watson's nonprofit, HCDB, and the Department of Hawaiian Home Lands, which have collaborated together on several projects over the years. Your Committee finds that Mr. Watson provided clear and candid responses to questions and notes that Mr. Watson testified that, should he be confirmed, he would step down from the HCDB and recuse himself from any action involving HCDB and the Department of Hawaiian Home Lands. Therefore, your Committee recommends that Kali Watson be appointed as the Chairperson of the Department of Hawaiian Home Land based on his knowledge, experience, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Ihara). Noes, 1 (Fevella). Excused, none.

**SCRep. 1339 (Majority) Health and Human Services on H.B. No. 261**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish a Child Care Accreditation Program to assist licensed and registered child care providers in obtaining accreditation;
- (2) Authorize the use of the Child Care Grant Program Special Fund for Child Care Accreditation Program grants;
- (3) Extend the deadlines by which existing Preschool Open Doors Program service providers shall commence the accreditation process and obtain accreditation;
- (4) Appropriate funds for the Child Care Accreditation Program, including funding for the establishment of one full-time equivalent (1.0 FTE) position; and
- (5) Appropriate funds into and out of the Child Care Grant Program Special Fund for the Child Care Accreditation Program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Early Learning Board, Hawai'i Children's Action Network Speaks!, Early Childhood Action Strategy, Stonewall Caucus of the Democratic Party of Hawaii, Parents and Children Together, Rainbow Family 808, and ten individuals. Your Committee received testimony in opposition from one

individual. Your Committee received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committee finds that the Preschool Open Doors Program is the State's school readiness program that serves low- to moderate-income families whose children will be eligible for kindergarten in the following school year. The program provides critical subsidies for income-eligible families sending their children to a licensed preschool during the year prior to kindergarten entry. To ensure that children participating in the program are receiving certain levels of care, existing law requires service providers who have not obtained accreditation from a national early learning accrediting organization by July 1, 2022, to start the accreditation process no later than July 1, 2024, and be accredited by July 1, 2029. However, the effects of the coronavirus disease 2019 (COVID-19) pandemic have delayed this process for many child care providers. This measure will provide the additional time and funds needed for child care providers to obtain the necessary accreditation.

Your Committee acknowledges the testimony of the Department of Human Services raising concerns over the inability of child care facilities to maintain sufficient staff levels due to the continuing economic impacts of the COVID-19 pandemic, and requesting that the accreditation requirement for service providers receiving funds from the Preschool Open Doors Program be made voluntary until the child care workforce in the State is more stabilized or subsidized. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Making the accreditation requirement for service providers receiving funds from the Preschool Open Doors Program voluntary;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 261, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 261, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1340 Higher Education on H.B. No. 1301**

The purpose and intent of this measure is to appropriate funds for the University of Hawaii Cancer Center to conduct a multiethnic cohort study focusing on the social determinants of health, lifestyles, environmental exposures, and resilience factors of Native Hawaiians, Pacific Islanders, and Filipinos.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Office of Hawaiian Affairs, Hawai'i Primary Care Association, 'Ahahui o nā Kauka, Leukemia & Lymphoma Society, Hawaii Medical Association, American Cancer Society Cancer Action Network, and eleven individuals.

Your Committee finds that medical research has the potential to develop safe and effective methods to prevent, detect, diagnose, treat, and ultimately cure cancer. Despite developments in cancer research, Native Hawaiians, Pacific Islanders, and Filipinos continue to experience high rates of common cancers, and this problem continues to be understudied. A new multiethnic cohort study of these populations is vitally important to address this gap in research. Findings by the cohort study will be useful to present and future cancer treatment and research affecting Native Hawaiians, Pacific Islanders, and Filipinos and will foster partnerships between these communities and medical and research communities to define common priority research areas. Therefore, this measure appropriates funds for the University of Hawaii Cancer Center to conduct a multiethnic cohort study to improve lifestyle, social, cultural, and economic determinants of cancer prevention, screening, early detection, treatment, and survivorship for Native Hawaiians, Pacific Islanders, and Filipinos.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1301, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1301, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1341 Higher Education on H.B. No. 968**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Pamantasan Council for three full-time equivalent Academic and Support Services Specialist positions.

Your Committee received testimony in support of this measure from the Hawaii Friends of Civil Rights, Sariling Gawa Youth Council, and nineteen individuals.

Your Committee finds that Filipino Americans continue to be underrepresented as undergraduates at the University of Hawaii compared to the proportion of Filipino Americans enrolled in the State's public schools. Filipino faculty, particularly holding tenure track positions, and administrators are also severely underrepresented across all University campuses. The University of Hawaii Pamantasan Council leads and supports efforts to address this underrepresentation of Filipinos at the University through workforce and

curriculum development, research, and community service. Therefore, this measure appropriates funds to support the University of Hawaii Pamantasan Council's work to increase Filipino access, equity, and inclusion at the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 968, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1342 (Joint) Water and Land and Higher Education on H.B. No. 88**

The purpose and intent of this measure is to:

- (1) Establish and appropriate funds for a two-year program at the University of Hawaii to study sand movement patterns and coastal erosion along the coast between Sunset Beach Park and Ehukai Beach Park on the North Shore of Oahu, including the impact of sandbag walls, tarps, rocks placed in the shoreline, sand pushing, and coastal restoration on beach processes; and
- (2) Establish a temporary moratorium on the use of sandbag walls on state lands, unless authorized by an emergency permit from the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawaii'i System, and one individual. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that areas of Hawaii's iconic and world-famous North Shore have been under threat from coastal erosion. Compounding this problem, many private homeowners have resorted to placing sandbags and other shoreline hardening structures on state lands and public beaches to protect their properties from sea level rise, which can interfere with the natural dynamic of beach sand and potentially result in further erosion. Your Committees find that further investigation is needed to help the State understand how coastal erosion and shoreline hardening structures might affect beaches on the North Shore. Therefore, this measure enlists the University of Hawaii to further study the problem and submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025.

Your Committees have amended this measure by:

- (1) Inserting language that clarifies that, because the findings produced by the proposed study will be generally applicable to other beaches and coastal areas statewide, this measure is consequently a matter of statewide concern; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 88, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 88, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Water and Land: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Chang, McKelvey).  
Higher Education: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1343 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on H.B. No. 892**

The purpose and intent of this measure is to appropriate funds from the Boating Special Fund for the hire of three full-time equivalent (3.0 FTE) positions under the Department of Land and Natural Resources to provide security at small boat harbors on Maui.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committees find that small boat harbors on Maui have been plagued by vandalism, graffiti, illegal dumping, homelessness, damage to restrooms, and general unsanitary conditions. Therefore, this measure provides funding for additional security at Maui small boat harbors to help prevent and deter acts of vandalism and ensure that Maui's harbors are safe, clean, and hospitable for all.

Your Committees have amended this measure by:

- (1) Inserting a blank amount for the number of full-time equivalent permanent positions to be established;
- (2) Providing that appropriations will be used to establish positions for security at small boat harbors statewide, as opposed to solely for the island of Maui; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 892, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 892, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).  
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1344 (Joint/Majority) Water and Land and Agriculture and Environment on H.B. No. 952**

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to address the impacts of climate change in the State.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Land and Natural Resources, Department of Defense, University of Hawai'i Climate Resilience Collaborative and Sea Grant College Program, Hawai'i Climate Change Mitigation and Adaptation Commission, The Nature Conservancy, Hawai'i Forestry Industry Association, Kauai Climate Action Coalition, and five individuals.

Your Committees find that climate change is the overarching challenge for the State. Therefore, this measure will ensure that the Department of Land and Natural Resources has the necessary resources to carry out plans and strategies to mitigate the current and future effects of climate change, including through the protection, management, and restoration of native forests, native plants and animals, aquatic resources, coastal lands, and freshwater sources.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 952, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1345 (Joint/Majority) Water and Land and Agriculture and Environment on H.B. No. 1101**

The purpose and intent of this measure is to:

- (1) Exempt the State and its departments and agencies that maintain or operate a stormwater management system that is interconnected to a county stormwater system from county stormwater user fees; and
- (2) Prohibit each county from denying services to the State or its departments or agencies by reason of nonpayment of user fees.

Your Committees received testimony in support of this measure from the Department of Transportation; Matson Navigation Company, Inc.; and Hawai'i Harbors Users Group. Your Committees received testimony in opposition to this measure from the Department of Facility Maintenance of the City and County of Honolulu; Hawai'i Community Foundation; Building Owners and Managers Association of Hawai'i; and one individual. Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that the Department of Transportation, City and County of Honolulu, and County of Maui each manage their own Municipal Separate Storm Sewer Systems (MS4). Your Committees also find that at certain locations, the facilities of the Department of Transportation -- as well other departments and agencies -- will connect with storm drains belonging to the counties, and vice versa. Your Committees further find that, over the past three years, the City and County of Honolulu has undertaken a comprehensive program to develop its own stormwater fee pursuant to Act 42, Session Laws of Hawaii 2015 (codified as section 46-1.5(5)(E), Hawaii Revised Statutes), and intends to eventually charge and collect user fees from the State.

Your Committees find that the Department of Transportation already pays approximately \$24,000,000 annually to maintain its MS4, which also supports counties at certain locations at no cost. Thus, your Committees believe that preempting the counties' ability to charge the State stormwater user fees -- or potentially and irresponsibly deny stormwater services to the State altogether due to nonpayment -- will help manage taxpayer costs and promote better coordination between the State and the counties. Therefore, this measure will exempt the State from county stormwater user fees and help prevent any future unintended consequences that might result from inter-jurisdictional rivalry over an important and critical segment of public infrastructure.

Notwithstanding, your Committees have heard the testimony of the Department of Transportation, expressing that, in the interest of compromise, the Department is open to paying county stormwater user fees so long as a reasonable aggregate fee cap amount is provided. Therefore, your Committees have amended this measure by:

- (1) Establishing a fee cap amount for county stormwater user fees that may be charged against or collected from the Department of Transportation of \$1,500,000 in the aggregate per year;
- (2) Prohibiting each county from denying services to the Department of Transportation by reason of nonpayment of user fees, as opposed to the original proposed language, which would have prohibited the denial of service to the State or its departments or agencies; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1101, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1101, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, none.

**SCRep. 1346 Housing on H.B. No. 678**

The purpose and intent of this measure is to require the counties to issue affordable housing credits for affordable housing units that are constructed pursuant to chapter 201H, Hawaii Revised Statutes, until June 30, 2028.

Your Committee received testimony in support of this measure from NAIOP Hawaii; NAIOP Hawaii Developing Leaders; 'Ikenākea Development, LLC; American Savings Bank; Highridge Costa Development Company; Housing Hawai'i's Future; and one individual. Your Committee received testimony in opposition to this measure from the Hawaii Housing Finance and Development Corporation. Your Committee received comments on this measure from the Office of Housing and Community Development of the County of Hawaii, Maui Chamber of Commerce, and one individual.

Your Committee finds that the State is in a housing crisis and that additional housing units will need to be immediately developed in mass quantities to meet the projected demand. Your Committee recognizes that the recent increases in home loan and construction loan interest rates have neutralized the incentives for market developers to build income-specified housing units under chapter 201H, Hawaii Revised Statutes. Housing credits help provide an opportunity to alleviate some of the strain on the current availability of resources to finance important housing projects with less risk. This measure is intended to encourage the production of more affordable units in the State through the creation of a temporary affordable housing credit program that provides affordable housing credits to eligible developers of residential projects that are required to be sold or rented to individuals within a specific income range.

Your Committee has amended this measure by:

- (1) Amending language to allow the Hawaii Housing Finance and Development Corporation to enter into memorandums of agreement with any county;
- (2) Inserting an effective date of January 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 678, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 678, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Awa).

**SCRep. 1347 Health and Human Services on H.B. No. 622**

The purpose and intent of this measure is to:

- (1) Make permanent the Prevent Suicide Hawaii Task Force within the Department of Health;
- (2) Require the Task Force to focus on reducing the suicide rate among Native Hawaiians and Pacific Islanders in the State; and
- (3) Require annual reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Public Safety, Prevent Suicide Hawai'i Taskforce, University of Hawai'i at Manoa John A. Burns School of Medicine, Stonewall Caucus of the Democratic Party of Hawaii, Papa Ola Lokahi, Hawai'i Primary Care Association, Hawai'i Family Forum, Hawaii Medical Association, 'Ahaui o nā Kauka, and five individuals. Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that there are on average, one hundred ninety-six suicide deaths in the State per year, which constitutes approximately twenty-two percent of all fatal injuries in the State, and that the number of suicide attempts are five times as many. Your Committee also finds that the Prevent Suicide Hawaii Task Force is a partnership of state, public, and private individuals, organizations, and community groups working in the area of suicide prevention, who collaborate to provide leadership, set goals and objectives, develop strategies, coordinate activities, and monitor the progress of suicide prevention efforts in the State. Your Committee further finds that Native Hawaiians and Pacific Islanders have a higher rate of suicide compared to other ethnicities such as Caucasians, Japanese, and Filipinos. This measure ensures that a strategic plan is developed and maintained to reduce suicides in the State, with particular focus on the Native Hawaiian and Pacific Islander communities.

Your Committee acknowledges the testimony of the Department of Health stating that this measure is premature, since the Prevent Suicide Hawaii Task Force is currently in the process of developing a strategic plan to reduce suicides in the State by at least twenty-five percent by 2025, as requested by H.C.R. No. 66 (2016). Your Committee also acknowledges the Department's request for the Legislature to await taking action on this matter, including naming participants to a permanent task force, in light of the fact that the task force has submitted an interim report to the Legislature in December 2017, and is currently working towards the development of a strategic plan to be delivered in 2025. Therefore, it is necessary to amend this measure to address this request.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have made permanent the Prevent Suicide Hawaii Task Force within the Department of Health;
- (2) Inserting language that:
  - (A) Creates a Prevent Suicide Hawaii Working Group within the Office of Wellness and Resilience;
  - (B) Designates the Executive Director of the Office of Wellness and Resilience to serve as the chair of the working group;
  - (C) Requires the working group to examine, evaluate, and determine methods to improve education, awareness, support services, and outreach to best prevent suicides in the State, particularly among Native Hawaiians, Pacific Islanders, farmers, youth, LGBTQIA+, veterans, and other populations identified by the federal Centers for Disease Control and Prevention as a high-risk population for suicide;
  - (D) Requires the working group to implement the recommendations in the interim report issued by the Prevent Suicide Hawaii Task Force pursuant to H.C.R. No. 66, S.D. 1 (2016);

- (E) Sets forth the members of the working group; and
- (F) Requires the working group to report to the Legislature before the Regular Session of 2025;
- (3) Deleting section 1;
- (4) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 622, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 622, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1348 Health and Human Services on H.B. No. 950**

The purpose and intent of this measure is to:

- (1) Extend the time period that a family court may order continued assisted community treatment; and
- (2) Reduce the time period that a family court needs to determine whether assisted community treatment should continue.

Your Committee received testimony in support of this measure from the State Council on Mental Health and one individual. Your Committee received comments on this measure from the Department of Health.

Your Committee finds that if a person suffers from a serious mental illness or severe substance abuse, but can still make decisions, treatment cannot be administered to the person unless the person consents to treatment. However, if the person suffering from a serious mental illness or severe substance abuse does not have decision making capacity, under existing law, a family court may order the person to obtain assisted community treatment for a period of not more than one year. Your Committee finds that for persons who meet the criteria for court ordered assisted community treatment, one year is often not enough time for the person to be stabilized. In these cases, another court order is necessary for the person to receive another one-year period of assisted community treatment. This measure extends the time a court may order assisted community treatment from one year to two years, allowing a person suffering from a serious mental illness or severe substance abuse to receive an appropriate level of treatment to address their needs.

Your Committee has amended this measure by:

- (1) Deleting language that would have extended the time period that a family court may order continued assisted community treatment to two years and inserting a blank number of years instead; and
- (2) Inserting an effective date of June 30, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 950, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 950, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1349 (Joint) Higher Education and Hawaiian Affairs on H.B. No. 1430**

The purpose and intent of this measure is to establish the Institute of Indigenous Education, Science, and Outreach within the University of Hawaii at Hilo.

Your Committees received testimony in support of this measure from the University of Hawai'i System, Ke Kula 'O Nāwahīokalani'ōpu'u, Ukwanshin Kabudan, 'Aha Pūnana Leo, National Coalition of Native American Language Schools and Programs, Japanese Chamber of Commerce & Industry of Hawaii, Hawai'i Island Chamber of Commerce, Kupuna for the Mo'opuna, and eighty-four individuals.

Your Committees find that the University of Hawaii at Hilo Hawaiian Language College and the University of Hawaii at Hilo Imiloa Astronomy Center are establishing a Hawaiian language medium early education pathway. The establishment of this pathway has required great agility on behalf of the College and the Center, including in areas such as scheduling courses outside of the University's standard semesters to provide curriculum and instruction to pre-kindergarten to grade twelve institutions and teaching at the College's laboratory school program to fill gaps in instruction. Your Committees further find that the structure of an institute would allow the College and Center to more effectively respond to these unique needs for the pathway's development. Therefore, this measure establishes the Institute of Indigenous Education, Science, and Outreach as a collaboration between the University of Hawaii at Hilo Hawaiian Language College and the University of Hawaii at Hilo Imiloa Astronomy Center to allow the College and Center to more effectively carry out their joint work.

As affirmed by the records of votes of the members of your Committees on Higher Education and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1430, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).  
Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

**SCRep. 1350 (Joint) Higher Education and Health and Human Services on H.B. No. 353**

The purpose and intent of this measure is to appropriate funds for the expansion of the Certified Nurse Aide to Practical Nurse Bridge Program at the University of Hawaii Maui College.

Your Committees received testimony in support of this measure from the University of Hawai'i System, The Queen's Health System, Healthcare Association of Hawaii, and one individual.

Your Committees find that there is a statewide shortage of licensed practical nurses in the State. To address this shortage and the insufficient number of opportunities for education and training of individuals to become licensed practical nurses, the Certified Nurse Aide to Practical Nurse Bridge Program was established at the University of Hawaii Maui College. The Program utilizes an "earn and learn" model to deliver online didactic curriculum and hands-on clinical education at a student's place of work. Results from a pilot program launched in January 2023 demonstrate great demand for the Certified Nurse Aide to Practical Nurse Bridge Program, and the Program hopes to expand to meet this demand. Therefore, this measure appropriates funds for instructional costs and student aid to expand participation in the Certified Nurse Aide to Practical Nurse Bridge Program to help increase access to health care across the State.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 353, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

**SCRep. 1351 (Joint) Health and Human Services and Transportation and Culture and the Arts on H.B. No. 415**

The purpose and intent of this measure is to appropriate funds to the Department of Health to implement the recommendations of the Task Force on Mobility Management established pursuant to Act 214, Session Laws of Hawaii 2013 (Act 214).

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, AARP Hawai'i, Hawaii Disability Rights Center, Maui Metropolitan Planning Organization, National Federation of the Blind of Hawaii, Oahu Metropolitan Planning Organization, and five individuals. Your Committees received comments on this measure from the Department of Transportation.

Your Committees find it paramount that the State has a comprehensive transportation network that can offer its residents, including kupuna and individuals with disabilities, efficient, safe, and affordable transportation options. To enable the State to make an informed decision on the best means by which this objective can be effectuated, the Legislature passed Act 214, which established the Task Force on Mobility Management to make recommendations on establishing a transportation framework to assist kupuna and individuals with disabilities with transportation needs in each county, including recommendations relating to funding through the state budget and program development. The task force's final report, submitted to the Legislature on January 30, 2015, recommended that the State continue to support the counties' efforts in developing their respective Mobility Management Program by various means. This measure will allow those recommendations to be implemented and thereby promote the establishment of a comprehensive, reliable transportation system in each county, enabling its residents to fully access the economic, health, and social aspects of their communities.

Your Committees acknowledge concerns raised in testimony stating that the Department of Transportation, whose purview includes the planning and designing of various transportation modes in the State in coordination with other government agencies, is better suited to implement the recommendations of the Task Force on Mobility Management. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Amending the expending agency of the appropriated funds from the Department of Health to the Department of Transportation to implement the recommendations made by the Task Force on Mobility Management established pursuant to Act 214;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 415, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 415, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1352 (Joint) Health and Human Services and Higher Education on H.B. No. 1148**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to expand and support the Mental Health Technician Certificate of Competence Program.

Your Committees received testimony in support of this measure from the Judiciary, Department of Health, State Council on Mental Health, University of Hawai'i System, and one individual.

Your Committees find that there is a severe shortage of mental health workers in the State. In response, the University of Hawaii Windward Community College, in collaboration with the Hawaii State Hospital, developed the Mental Health Technician Certificate of Competence Program (Program) to provide foundational knowledge to potential mental health workers and to upskill existing workers. Despite the relative youth of the Program, which was first implemented in the spring of 2022, the Program has already helped to alleviate the State's dire need for mental health services, particularly at the Hawaii State Hospital, where nearly half of the program's graduates are now employed. To continue to build the capacity of the State to implement effective, supportive mental health care, this measure appropriates funds to support the expansion of the Mental Health Technician Certificate of Competence Program.

Your Committees have amended this measure by:

- (1) Amending section 1 to specify that this measure addresses an issue of statewide concern;
- (2) Inserting an effective date of June 30, 2023, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1148, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1148, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1353 (Joint) Health and Human Services and Higher Education on H.B. No. 838**

The purpose and intent of this measure is to reestablish and appropriate funds for the Long-Term Care Commission within the University of Hawaii College of Social Sciences' Social Science Research Institute to identify the needs and funding opportunities related to long-term care in the State.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board, University of Hawai'i System, AARP Hawai'i, Kūpuna Caucus of the Democratic Party of Hawai'i, Healthcare Association of Hawaii, and two individuals. Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that Act 224, Session Laws of Hawaii 2008, established a Long-Term Care Commission to identify needed reforms of the long-term care system, research programmatic changes and resources necessary to meet the State's long-term care public policy goals, and explore funding options to support the provision of long-term care services in the future. The State's long-term care system has evolved since the Commission issued its report more than a decade ago in 2012, particularly through the expansion of home and community-based services and the effects of the coronavirus disease 2019 pandemic. Therefore, a review of the Commission's assessments, conclusions, and recommendations is needed to update the State's long-term care policy goals and guiding principles and public and private financing options to achieve these goals and any related reforms. To conduct this review, this measure reestablishes the Long-Term Care Commission.

Your Committees note the testimony of the University of Hawaii, which states that the implementation of this measure would require an annual appropriation amount of \$520,000, which would establish and support one full-time equivalent Faculty Specialist or Program Manager position and two part-time equivalent Graduate Research Assistant positions. In addition, the University would require annual funds to commission third-party research and release faculty from teaching duties to engage in research. Therefore, should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting an appropriation amount of \$520,000.

Your Committees have amended this measure by:

- (1) Amending section 1 to specify that this measure addresses an issue of statewide concern;
- (2) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 838, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 838, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1354 Government Operations on H.B. No. 32**

The purpose and intent of this measure is to clarify the Office of the Legislative Analyst.

Your Committee did not receive any testimony on this measure.

Your Committee finds that Act 347, Session Laws of Hawaii 1990, established the Office of the Legislative Analyst. The Office of the Legislative Analyst was originally intended to assist the Legislature with information, facts, and analyses concerning fiscal, budgetary, and tax matters of the State. As the Legislature meets for approximately four months of the year, it has come to rely heavily on the use of session-only legislative staff. Additionally, the reliance on session-only legislative staff creates gaps in institutional knowledge and requires annual training that may delay the research process. This measure clarifies the Office of the Legislative

Analyst, which would create continuity with fiscal and budgetary research while also providing the Legislature with timely information to make informed policy decisions for the State.

Your Committee has amended this measure by inserting a new effective date of July 1, 2112, to continue to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 32, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 32, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 1355 Government Operations on H.B. No. 1184**

The purpose and intent of this measure is to provide a process by which agencies may procure professional services when fewer than three qualified persons respond to an additional solicitation.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services, University of Hawai'i System, Office of the Mayor of Maui County, and Department of Budget and Fiscal Services of the City and County of Honolulu. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the State Procurement Office, Department of Finance of the County of Kauai, American Institute of Architects Hawaii State Council, and American Council of Engineering Companies of Hawaii.

Your Committee finds that state agencies may procure professional services for certain projects that require additional expertise. However, for certain state and county agencies, especially agencies located on the neighbor islands, there is a lack of accessibility to readily available and qualified vendors or professional services to ensure projects continue in a timely manner. This measure eases the procurement process for certain solicitations to ensure the continuation of projects vital to state functions.

Your Committee notes that the companion to this measure, S.B. No. 1465, S.D. 2 (Regular Session of 2023), which was previously passed by the Senate, is a substantially similar measure that also authorizes agencies to rank fewer than three individuals for professional services when fewer than three qualified persons respond to the solicitation or request to use alternative procurement procedures when no qualified person responds to the solicitation. Your Committee concludes that the language in S.B. No. 1465, S.D. 2, is preferable because it:

- (1) Reflects the consensus language of stakeholders that best represents the agreement reached through their discussions thus far;
- (2) Provides additional parameters for purchasing agencies to fulfill in the event of a bid receiving fewer than three qualified persons; and
- (3) Ensures the structural and procedural adherence consistent with existing procurement law while also authorizing state and county agencies to seek repetitive and alternative means to award critical professional service contracts to entities who have been deemed qualified to provide vital services.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 1465, S.D. 2, a substantially similar measure, which authorizes agencies, upon approval by the Chief Procurement Officer, to rank fewer than three persons for the procurement of professional services, and:

- (1) In the event two qualified persons respond to the solicitation, authorizes the agencies to rank the respondents using specified criteria;
- (2) In the event one qualified person responds to the solicitation, authorizes the agencies to evaluate the person's qualifications and provide the name of the person to the head of the purchasing agency to negotiate a contract at a fair and reasonable price;
- (3) In the event no qualified person responds to the solicitation, specifies alternative procurement procedures to select a qualified person; and
- (4) Inserts an effective date of July 1, 2112.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1184, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1184, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 1356 (Joint) Health and Human Services and Labor and Technology on H.B. No. 547**

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish and implement a two-year Infant and Toddler Child Care Worker Subsidy Pilot Program to retain the existing early child care workforce in licensed infant and toddler child care center settings; and
- (2) Appropriate funds for the Pilot Program.

Your Committees received testimony in support of this measure from the Executive Office on Early Learning; Early Learning Board; Hawai'i State Coalition Against Domestic Violence; Holomua Collaborative; Early Childhood Action Strategy; Hawai'i Children's Action Network Speaks!; Rainbow Family 808; Stepping Stones Academy; Tori Richard, Ltd.; Parents and Children

Together; aio, LLC; Malama Kaua'i; American Association of University Women of Hawaii; HPM Building Supply; Little Hoku Montessori Academy; Hawai'i Gas; Title Guaranty of Hawai'i; and twenty-six individuals. Your Committees received comments on this measure from the Department of Human Services and Department of the Attorney General.

Your Committees find that a strong child care and early education workforce is essential to support Hawaii's children, working families, and communities. Your Committees also find that despite working in a specialized field with health, safety, and educational requirements more stringent than the average American worker, compensation for many early childhood care and education providers remain at the second or third percentile in the United States Bureau of Labor and Statistics' rankings of occupation, making their pay comparable to parking attendants, bartenders, and laundry workers. Your Committees further find that the State is having an increasingly difficult time recruiting and retaining infant and toddler child care workers, which has been exacerbated by the effects of the coronavirus disease 2019 pandemic. This measure improves compensation for infant and toddler child care workers in the State to ensure retention of the existing early child care workforce in licensed infant and toddler child care center settings.

Your Committees note that although this measure contains an unspecified appropriation amount, should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider appropriating \$6,336,000 for the Infant and Toddler Child Care Worker Subsidy Pilot Program.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2023; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 547, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 547, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 1357 (Joint/Majority) Hawaiian Affairs and Housing on H.B. No. 567**

The purpose and intent of this measure is to:

- (1) Exempt from general excise taxes certain projects developed by the Department of Hawaiian Home Lands;
- (2) Make permanent the exemption from school impact fee requirements for new housing projects developed by the Department of Hawaiian Home Lands;
- (3) Make permanent the issuance of county affordable housing credits to the Department of Hawaiian Home Lands; and
- (4) Ensure that the \$600,000,000 appropriated to the Department of Hawaiian Home Lands pursuant to Act 279, Session Laws of Hawaii 2022 (Act 279), is available for expenditure until June 30, 2025.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of Education, Land Use Research Foundation of Hawaii, and seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Taxation, School Facilities Authority, Office of Housing and Community Development of the County of Hawai'i, Tax Foundation of Hawaii, and Maui Chamber of Commerce.

Your Committees find that the State has a duty to provide affordable housing to native Hawaiians and that the excessively long beneficiary waitlist has resulted in lost opportunities for many beneficiaries and families. Thus, in 2022, the Legislature enacted Act 279 to help resolve the existing backlog, which provided \$600,000,000 in funds for the Department of Hawaiian Home Lands for the development of new housing and to provide housing assistance to those still on the waitlist. However, your Committees note that because appropriations are generally restricted from exceeding a period of three years, the \$600,000,000 in funding may be subject to lapse prior to its enacted sunset date. Therefore, this measure will ensure that the funds intended by Act 279 remain available for expenditure until June 30, 2025, as originally provided.

Your Committees also find that the Department of Hawaiian Home Lands' mission to provide below-market housing to beneficiaries warranted the provision of county affordable housing credits (as an incentive to private developers) and exemption from school impact fees (to help increase the amount of new housing developed and to offset the loss of Hawaiian Home Lands withdrawn for use as public schools). Your Committees find that while the laws that provided this necessary assistance are currently set to terminate in 2024, they remain just as important and critical today. Therefore, this measure eliminates the sunset provisions for these laws and makes permanent the affordable housing credits and school impact fee exemption for the Department of Hawaiian Home Lands. Further, this measure provides a new exemption from general excise taxes for certain Department of Hawaiian Home Lands housing projects to further support new housing development.

Your Committees have amended this measure by:

- (1) Expanding the proposed exemption from general excise taxes to both developments for homestead lots and housing projects;
- (2) Amending section 46-15.1(b), Hawaii Revised Statutes, to allow the County of Hawaii to enter into a memorandum of agreement with the Department of Hawaiian Home Lands to establish, modify, or clarify the conditions for the issuance, transfer, and redemption of county affordable housing credits, from the existing law, which only allows the County of Kauai and the City and County of Honolulu to do so;

- (3) Inserting an effective date of January 1, 2024, to allow the Department of Taxation time to make necessary system and form changes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Lastly, your Committees note that the proposed new section, which exempts from general excise taxes certain projects developed by the Department of Hawaiian Home Lands, requires all claims for an exemption to be filed with and certified by the Department of Hawaiian Home Lands, and subsequently forwarded to the Department of Taxation. Your Committees note the testimony of the Department of Taxation, expressing concerns that while it would defer to the Department of Hawaiian Home Lands regarding its ability to certify the exemption pursuant to the requirements set forth in this measure, the Department of Taxation requests that a third-party certification requirement be utilized, as the Department of Taxation lacks the subject matter expertise to determine eligibility for the proposed exemption. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider implementing a process for third-party certification for general excise tax exemption claims.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 567, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 567, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Ihara).

Housing: Ayes, 4; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, none.

**SCRep. 1358 (Joint) Agriculture and Environment and Water and Land on H.B. No. 441**

The purpose and intent of this measure is to appropriate funds to the University of Hawaii for the:

- (1) Development of a database and data portal from data sources detailed in the May 2022 report on social vulnerability to climate change in Hawaii, under certain conditions; and
- (2) Maintenance and updating of the data portal.

Your Committees received testimony in support of this measure from the Department of Health, Office of Planning and Sustainable Development, Hawai'i Climate Change Mitigation and Adaptation Commission, Environmental Caucus of the Democratic Party of Hawai'i, Wild Kids, Blue Planet Foundation, Climate Future Forum, Imua Alliance, and eight individuals. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that helping communities and county, state, and federal agencies to better understand the social impacts of climate change in the State is key to increasing statewide resilience. According to testimony received by your Committees, federal equity tools do not sufficiently address local realities and are not refined enough to effectively inform decision-makers, nonprofit organizations, and community leaders as they allocate their resources and plan adaptive and mitigation strategies. This measure would provide localized data and specifically identify which residents and communities are most vulnerable to the numerous environmental, economic, and public health impacts of climate change, thereby allowing the State to address these issues more effectively.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 441, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

**SCRep. 1359 (Joint) Agriculture and Environment and Water and Land on H.B. No. 615**

The purpose and intent of this measure is to clarify that any provision in a private agreement contained in a conveyance of land recorded on or before July 8, 2003, that has since expired but has not been renewed and recorded in the Bureau of Conveyances is prohibited from restricting bona fide agricultural uses and activities on agricultural land.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning and Sustainable Development, and Hawai'i Farm Bureau.

Your Committees find that some "private agreements" established on subdivided and condominiumized agricultural lands with lot or unit owner associations prior to the effective date of section 205-4.6, Hawaii Revised Statutes, contained limitations and prohibitions on agricultural activities and uses. These constraints can severely impact farming operations and include limitations on hours of operation of farm equipment, height of windbreaks, and types of crops that are allowed to be cultivated. The measure will prevent these private agreements created prior to July 8, 2003, that have since expired and not been renewed, from being enforced.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 615, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

**SCRep. 1360 (Joint) Agriculture and Environment and Water and Land on H.B. No. 995**

The purpose and intent of this measure is to:

- (1) Clarify the decision-making process for the Land Use Commission adoption of county maps and designation of important agricultural lands; and
- (2) Repeal the provision for farm dwelling and employee housing on important agricultural lands and adopt a new provision for farm cluster housing as an incentive for the designation of lands as important agricultural lands.

Your Committees received testimony in support of this measure from the Department of Agriculture, Office of Planning and Sustainable Development, and Hawai'i Farm Bureau. Your Committees received comments on this measure from the Land Use Commission.

Your Committees find that the identification of important agricultural lands (IAL) is a constitutional mandate pursuant to article XI, section 3, of the Hawaii State Constitution. This mandate conserves and protects agricultural lands, promotes diversified agriculture, increases agricultural self-sufficiency, and assures the availability of agriculturally suitable lands. However, because of the lack of clarity on how IAL designations may affect land use and rights, many small agricultural landowners are uneasy about seeking IAL designations. Your Committees further find that some landowners question whether an IAL designation will restrict their occupancy of farm dwellings, causing them to worry that they may be forced to leave their homes once they are no longer physically able to work the land. This measure will allow the Department of Agriculture to offer more clarity about IAL designations through the rulemaking process and provides incentives for the development of housing for farmers and their employees.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 995, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3; Ayes with Reservations (Elefante). Noes, none. Excused, 2 (McKelvey, Fevella).

**SCRep. 1361 (Joint/Majority) Agriculture and Environment and Water and Land on H.B. No. 1182**

The purpose and intent of this measure is to appropriate funds to the Department of Agriculture for the preparation of an environmental impact statement for lessees to drill non-potable water wells on individual parcels at Panaewa Agricultural Park, Hawaii island.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau. Your Committees received testimony in opposition to this measure from the Department of Agriculture.

Your Committees find that an affordable and reliable water source for irrigation is a basic requirement of sustainable agriculture. However, your Committees find that access to reliable water remains a challenge for many farmers, as the current law requires a time-consuming and often cost-prohibitive environmental impact statement to be prepared before a farmer can drill for non-potable water on their land. Your Committees further find that subsidizing the cost of an environmental impact statement for Panaewa farmers would not only support the individual farms, but consumers of agricultural products throughout the State. Therefore, this measure will help subsidize Panaewa farmers and additionally support the State's general effort to meet its self-sustainability goals.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1182, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 2. Noes, 1 (Elefante). Excused, 2 (McKelvey, Fevella).

**SCRep. 1362 (Joint) Public Safety and Intergovernmental and Military Affairs and Higher Education on H.B. No. 1129**

The purpose and intent of this measure is to appropriate funds as a grant to the Hawaii Friends of Restorative Justice for the education and reentry program for incarcerated women.

Your Committees received testimony in support of this measure from the Department of Education, Department of Public Safety, University of Hawai'i System, one member of the Kahalu'u Neighborhood Board, Hawai'i Friends of Restorative Justice, Women's Prison Project, Community Alliance on Prisons, Rainbow Family 808, and seven individuals.

Your Committees find that in 2021, the Hawaii Friends of Restorative Justice developed and administered an education and reentry program for incarcerated women in partnership with the Women's Community Correctional Center, Windward Community College, University of Hawaii at Manoa, and McKinley Community School for Adults. Your Committees further find that in 2022, the Legislature attempted to fund the second year of the program by making a \$200,000 appropriation to the McKinley Community School for Adults. However, the McKinley Community School for Adults did not develop and does not directly administer the program, and as of November 1, 2022, the funding has not been distributed. The Hawaii Friends of Restorative Justice has continued to administer the program through a private donation while awaiting access to the funding. This measure will assist incarcerated women in achieving their educational goals and increase their passage rates for the General Educational Development test.

Your Committees note that the companion to this measure, S.B. No. 710, S.D. 2, which was previously passed by the Senate, provides educational opportunities to incarcerated women to improve their post-release prospects. Your Committees conclude that the language in S.B. No. 710, S.D. 2, is preferable because it requires the McKinley Community School for Adults to work with the Hawaii Friends of Restorative Justice to provide counseling services for incarcerated women participating in the education and reentry program for incarcerated women that is developed and administered by the Hawaii Friends of Restorative Justice and establishes standards for the administrative grant to the Hawaii Friends of Restorative Justice.

Accordingly, your Committees have amended this measure by deleting its contents and inserting the contents of S.B. No. 710, S.D. 2, a substantially similar measure, which:

- (1) Requires the McKinley Community School for Adults to work with the Hawaii Friends of Restorative Justice to provide counseling services for incarcerated women participating in the education and reentry program for incarcerated women that is developed and administered by the Hawaii Friends of Restorative Justice; and
- (2) Appropriates moneys for the education and reentry program for incarcerated women that is developed and administered by the Hawaii Friends of Restorative Justice.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1129, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1129, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1363 (Joint) Public Safety and Intergovernmental and Military Affairs and Higher Education on H.B. No. 1131**

The purpose and intent of this measure is to require the University of Hawaii to conduct a comparative study of all programming offered to persons incarcerated at correctional facilities in the State for the purpose of identifying gaps in programming offered to female inmates.

Your Committees received testimony in support of this measure from the Department of Public Safety, Women's Prison Project, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, and one individual. Your Committees received comments on this measure from the Department of the Attorney General and University of Hawai'i System.

Your Committees find that although existing law requires that female prisoners be provided a range and quality of programming substantially equivalent to the range and quality of programming offered to male persons who are similarly situated, parity does not appear to exist. This measure will assist the Department of Public Safety's efforts to create successful pathways for offenders as they re-enter the community by identifying inequalities in programming offered to inmates and addressing discrepancies offered to incarcerated women.

Your Committees note that the companion to this measure, S.B. No. 711, S.D. 2, which was previously passed by the Senate, ensures gender parity in programming offered to incarcerated women and men in the State. Your Committees conclude that the language in S.B. No. 711, S.D. 2, is preferable because it appropriates funds to the Hawaii Friends of Restorative Justice, instead of the University of Hawaii, to conduct a study of programming offered to persons incarcerated at correctional facilities, expands the scope of the study, and convenes a group of incarcerated women for the purpose of identifying gaps in programming offered to female inmates.

Accordingly, your Committees have amended this measure by deleting its contents and inserting the contents of S.B. No. 711, S.D. 2, a substantially similar measure, which appropriates funds to the Hawaii Friends of Restorative Justice as a grant to:

- (1) Conduct a study of programming offered to persons incarcerated at correctional facilities; and
- (2) Convene a group of incarcerated women for the purpose of identifying gaps in programming offered to female inmates.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1131, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1131, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1364 (Joint) Judiciary and Health and Human Services on H.B. No. 1442**

The purpose and intent of this measure is to:

- (1) Expand the Criminal Justice Diversion Program;
- (2) Amend the allowable period of court-ordered assisted community treatment and considerations for extensions;
- (3) Allow courts to require certain probation violators to undergo mental health evaluation and treatment as a condition of continued probation;
- (4) Require the Department of Health to contract with behavioral health crisis centers; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Judiciary, Department of Health, Hawaii Correctional System Oversight Commission, Office of the Public Defender, Honolulu Police Department, Hawaii Substance Abuse Coalition, and one individual. Your Committees received comments on this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committees find that a multi-pronged approach is necessary to address the many challenges to the criminal justice system presented by the prevalence of serious mental illness in the community. This measure provides tools that strengthen the government's ability to respond to these challenges. When one is in crisis, the addition of crisis centers, improvements to laws regarding assisted community treatment, and enhanced opportunities to ensure treatment of individuals remain viable alternatives to the criminal justice system.

Your Committees have amended this measure by:

- (1) Restoring statutory language that excludes nonviolent misdemeanants and defendants charged with promoting a dangerous drug in the third degree from the Criminal Justice Diversion Program;
- (2) Specifying the time period in which, if the defendant's clinical team determines that the defendant meets the criteria for involuntary hospitalization, the Director of Health shall file a petition for involuntary hospitalization with the family court to be within seven days of the clinical team's determination;
- (3) Removing language that would have required the clinical team to have previously determined that an assisted community treatment plan was appropriate for the defendant, and the defendant declined to accept the treatment plan on multiple occasions in a set time frame, before the Director of Health would be required to file the assisted community treatment petition with the family court;
- (4) Specifying that if the defendant declines to accept the mental health services described in the certificate for assisted community treatment, then the Director of Health, within ten days of the defendant's refusal of services described in the certificate, shall file the assisted community treatment petition with the family court;
- (5) Adding language that specifies that when a petition for assisted community treatment has been filed for a defendant, the defendant committed to the custody of the Director of Health shall remain in custody until the family court issues a decision on the petition;
- (6) Adding a new part that requires the Judiciary, in consultation with the Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Public Defender, and Department of Health, to:
  - (A) Submit annual reports to the Legislature on the progress and effectiveness of the agreements establishing procedures for post-booking jail diversion programs in the first circuit for the next four years; and
  - (B) Submit monthly reports on the progress to date of the post-booking jail diversion programs in the first circuit beginning September 1, 2023;
- (7) Adding a new part to require and appropriate a blank amount of funds for the Department of Health to purchase, staff, and operate a statewide Hawaii Urgency Response Center;
- (8) Amending section 1 to reflect part I's amended purpose; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the Senate Draft 1 of this measure contains numerous unspecified appropriation amounts. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it considers:

- (1) Inserting an appropriation amount of \$68,556 for fiscal year 2023-2024 and \$71,016 for fiscal year 2024-2025 for a law clerk for the Judiciary as provided for in section 6 of this measure;
- (2) Working with the Department of Health on an appropriation amount for the additional resources provided for in section 7 of this measure;
- (3) Inserting an appropriation amount of \$10,000,000 for fiscal years 2023-2024 and 2024-2025 for the Department of Health to establish and operate a statewide Hawaii Urgency Response Center as provided for in section 24 of this measure;
- (4) Inserting an appropriation amount of \$915,000 for fiscal years 2023-2024 and 2024-2025 for the Department of Health to staff a statewide Hawaii Urgency Response Center as provided for in section 25 of this measure; and
- (5) Inserting an appropriation amount of \$60,912 for fiscal year 2023-2024 and \$63,096 for fiscal year 2024-2025 for the Judiciary to restore funding for probation officer services for the mental health court as provided in section 27 of this measure.

Further, your Committees respectfully request:

- (1) The Judiciary, Department of Health, and Department of Public Safety to examine the necessary staffing and resources to implement the telehealth requirements in part I of this measure for the appropriations in sections 8, 9, and 10 of this measure; and
- (2) The Department of Health to evaluate the necessity and costs of county-based behavior health crises centers for the appropriation in section 22 of this measure.

As affirmed by the records of votes of the members of your Committees on Judiciary and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1442, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1442, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

**SCRep. 1365 Commerce and Consumer Protection on H.B. No. 525**

The purpose and intent of this measure is to implement the 2022 Uniform Commercial Code Amendments set forth by the Uniform Law Commission.

Your Committee received testimony in support of this measure from the Commission to Promote Uniform Legislation. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Uniform Commercial Code provides a set of laws for broad categories of commercial transactions including the sale or lease of goods, negotiable instruments, bank deposits and collections, funds transfers, letters of credit, documents of title, investment property, and secured transactions in personal property. The Uniform Commercial Code has been adopted, in part, by all fifty states and the District of Columbia. In 2022, the Uniform Commercial Code was amended to reflect the economy's shift towards services, software, and information-based transactions. This measure adopts the Uniform Commercial Code's amendments, updating the State's law to reflect the current economy.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 525, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 525, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1366 Commerce and Consumer Protection on H.B. No. 159**

The purpose and intent of this measure is to exempt renewals of liquor licenses from the application notarization requirement.

Your Committee received testimony in support of this measure from the Liquor Commission of the City and County of Honolulu, Department of Liquor Control of the County of Kauai, Retail Merchants of Hawaii, Craft 'Ohana, Kauai Beer Company, Big Island Brewhaus LLC, Honolulu Beerworks, Waikiki Brewing Company, Maui Chamber of Commerce, and two individuals.

Your Committee finds that existing law requires initial reapplications for liquor licenses to be notarized. Your Committee finds that once a licensee has been approved, it is unnecessary to require notarization on a license renewal application when the licensee is already licensed. However, existing law also requires licensees to notarize license renewal applications. Your Committee finds that this requirement is not only unnecessary, but also hinders the counties' efforts to switch to electronic license renewals. This measure removes the notarization requirement for liquor license renewals, thus streamlining the application process.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 159, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 159, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1367 Commerce and Consumer Protection on H.B. No. 647**

The purpose and intent of this measure is to expand and make consistent the definition of "beer" under the State's liquor tax and liquor regulatory laws.

Your Committee received testimony in support of this measure from Kauai Beer Company; Big Island Brewhaus; Honolulu Beerworks; Craft 'Ohana; Lanikai Brewing Company; Waikiki Brewing Company; Pacific Business Advocates, LLC; Kauai Island Brewing Company; and one individual. Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that under existing law, the term "beer" is defined as any beverage obtained by the alcoholic fermentation of barley or other grain, malt, and hops. However, under federal Alcohol and Tobacco Tax and Trade Bureau regulations, both malt-based and sugar-based hard seltzers are considered "beer". The federal definition of beer reflects current standards in the craft beer brewing industry, as craft brewers have created a wider range of beer styles with a variety of additional ingredients in their recipes including other types of grains as base ingredients, other fermentable sugar sources, and brewed hard seltzers. This measure aligns the term "beer" as defined in State law to more closely follow the definition used for "beer" under the Internal Revenue Code, federal regulations, and standards in the craft beer brewing industry to promote expanded local production opportunities.

Your Committee acknowledges the concerns raised in testimony that certain amendments made to the definition of "beer" by this measure are potentially ambiguous and unnecessarily limiting. Your Committee also notes the concern raised in testimony that certain spirits based, ready-to-drink beverages containing a low percentage of alcohol by volume are taxed at a rate more than six times higher than malt beverages and beer with similar alcohol by volume. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a definition of "low alcohol by volume spirits beverage";
- (2) Clarifying that the definition of "beer" includes beer obtained by the fermentation of other fermentable sugar sources;
- (3) Deleting the specific reference to "alcoholic seltzer beverages" from the definition of "beer";

- (4) Inserting language establishing a tax for low alcohol by volume spirits beverages at a rate of \$1.98 per wine gallon; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 647, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 647, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1368 Commerce and Consumer Protection on H.B. No. 933**

The purpose and intent of this measure is to appropriate funds and require the Public Utilities Commission to use moneys in the Universal Service Fund to provide free telecommunications access to certain information for individuals with a print disability.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawaii State Committee of Blind Vendors, National Federation of the Blind of Hawaii, National Organization of Parents of Blind Children – Hawaii, and seven individuals. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Public Utilities Commission, and Hawaiian Telcom.

Your Committee finds that the lack of timely access to information can be a daily problem for several thousand residents in the State who cannot see or use standard print as their primary form of communication. These residents are at an information deficit in keeping up with current events or opportunities that may benefit them. Accessible formats provide information in an alternative manner or form that gives persons with print disabilities access to information that is equivalent to access for a person without a disability. Accessible formats include: a free telephone service that offers state and local government information, including public notices, and other important information such as daily newspapers, magazines, emergency alerts, job opportunities, and other timely content; and the conversion of printed information into an audio format, Braille, or both. This measure will ensure that persons with print disabilities have greater access to information in alternative, accessible formats.

Your Committee acknowledges the concerns raised in testimony that the Universal Service Fund has never been active and currently has no funds. Your Committee further acknowledges the concerns raised in testimony that the Public Utilities Commission does not have explicit or specific authorization to expend funds for the Universal Service Fund program as part of its budget ceiling. As such, funding for free telecommunications access to certain information for individuals with a print disability must instead come from the State's general funds. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the Public Utilities Commission to use funds from the Universal Service Fund to provide the services required by this measure;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 933, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 933, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1369 Higher Education on H.B. No. 554**

The purpose and intent of this measure is to:

- (1) Require the University of Hawaii to ensure that any individual who participates in implementing the University's disciplinary process has training or experience in handling sexual misconduct complaints and the University's disciplinary process;
- (2) Require the University of Hawaii to provide mandatory annual trauma-informed, gender-inclusive, LGBTQ+-inclusive sexual misconduct primary prevention and awareness programming for University students and employees;
- (3) Prohibit the University of Hawaii from taking disciplinary action against individuals reporting sexual misconduct, unless certain exceptions apply; and
- (4) Establish and appropriate funds for four full-time equivalent (4.0 FTE) positions within the University of Hawaii.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, University of Hawai'i System, Hawai'i State Coalition Against Domestic Violence, Women's Caucus of the Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, American Association of University Women of Hawaii, The Every Voice Coalition, Stonewall Caucus of the Democratic Party of Hawai'i, Imua Alliance, and twenty individuals. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that evidence-based training on sexual assault prevention and response empowers all members of a community to take action to stop sexual violence. According to testimony received by your Committee, one in three transgender or nonbinary University of Hawaii students experience sexual harassment, and students with disabilities are at least two times more likely than their peers without disabilities to experience sexual harassment. Therefore, your Committee believes it imperative that certain

training programs be culturally accessible, trauma-informed, and inclusive of underserved and vulnerable populations. This measure supports the implementation of inclusive and trauma-informed sexual misconduct prevention and awareness programming for University of Hawaii students and employees to ensure a safe environment for all.

Furthermore, according to testimony received by your Committee, a recent survey found that a significant number of students who experienced gender-based violence did not report it to the University of Hawaii because they feared retaliation or discipline by the University. This measure further supports victims by prohibiting disciplinary action against individuals who report sexual misconduct.

Your Committee notes the concerns raised by the University of Hawai'i System that this measure, as currently written, may cause unintended consequences due to its overly broad language. In particular, the University notes the scope of immunity against disciplinary action that students or witnesses reporting sexual misconduct who ask for an investigation are entitled to under this measure and the inclusion of all forms of sex-based discrimination in the definition of "sexual misconduct". Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have prohibited the University of Hawaii from subjecting a reporting party or witness who asks for an investigation of sexual misconduct to a disciplinary proceeding or sanction for a violation of the University's policy related to trespassing or unauthorized entry of University facilities, or other violations of University policy or the University's code of conduct, under certain circumstances;
- (2) Deleting language that would have allowed the University of Hawaii to subject a reporting party or witness who asks for an investigation of sexual misconduct to a disciplinary proceeding or sanction for an egregious violation of University policy or the University's code of conduct;
- (3) Deleting language that would have included in the definition of "sexual misconduct" incidences of stalking, harassment, and gender-based harassment or violence not otherwise included in the definition;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 554, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 554, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1370 (Joint/Majority) Commerce and Consumer Protection and Transportation and Culture and the Arts on H.B. No. 1415**

The purpose and intent of this measure is to appropriate funds and require the Public Utilities Commission (PUC) to administer an Electric Vehicle Charging System Loan Program to provide loans to applicants who install eligible electric vehicle charging systems.

Your Committees received testimony in support of this measure from the Public Utilities Commission, Big Island Electric Vehicle Association, Ulupono Initiative, Climate Protectors Hawai'i, 350Hawaii.org, Hawaii Electric Vehicle Association, and seven individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that although there are now over twenty-two thousand electric vehicles in the State, this number represents only two percent of the State's passenger vehicles. Hawaii drivers consume over thirty million gallons of gasoline each month. This translates into a massive carbon footprint and highlights the State's dependence on energy imports and the security risks that this presents. The transition to clean transportation must be equitable for the State to achieve its decarbonization goals. This measure will reduce the cost burden of installing home charging equipment and help make the transition to a clean energy future possible for everyone, regardless of income.

Your Committees acknowledge the concerns raised in testimony that this measure, as currently drafted, does not authorize the PUC to design the Electric Vehicle Charging System Loan Program and provides the PUC with little flexibility to administer the program. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language authorizing the PUC to design the Electric Vehicle Charging System Loan Program and providing the PUC with greater flexibility to administer the program;
- (2) Deleting language that would have prohibited a person from receiving both an electric vehicle charging system loan recipient and electric vehicle charging system rebate;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1415, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1415, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Fukunaga, Richards).

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Inouye).

**SCRep. 1371 (Joint) Higher Education and Public Safety and Intergovernmental and Military Affairs on H.B. No. 67**

The purpose and intent of this measure is to appropriate funds for the establishment of three full-time equivalent (3.0 FTE) positions for the University of Hawaii Windward Community College's Pu'uhonua Program.

Your Committees received testimony in support of this measure from the Department of Public Safety, University of Hawai'i System, Kahalu'u Neighborhood Board No. 29, Community Alliance on Prisons, Hawai'i Friends of Restorative Justice, Ko'olaupoko Hawaiian Civic Club, and eleven individuals.

Your Committees find that completing college coursework while incarcerated significantly benefits incarcerated individuals, the carceral environment, and society as a whole. In recognition of these benefits, the University of Hawaii Windward Community College established the Pu'uhonua Program (Program) to offer credit-bearing college coursework and support services to incarcerated individuals. Since the Program's establishment in 2017, two hundred eighteen students have enrolled in college coursework, collectively earning over one thousand college credits and thirteen certificates. While the Program continues to experience strong engagement from students each year, the nonrenewable federal extramural funding supporting the Program and its staff will expire in 2023. Therefore, this measure appropriates funds for counselor and coordinator positions within the University of Hawaii Windward Community College's Pu'uhonua Program to support the educational development of the State's incarcerated individuals.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 67, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 67, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1372 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on H.B. No. 406**

The purpose and intent of this measure is to:

- (1) Require the Department of Health and Oahu Regional Health Care System to develop a strategic plan for the utilization of all Oahu Regional Health Care System facilities and report to the Legislature before the Regular Session of 2024;
- (2) Extend the deadline to assimilate the Daniel K. Akaka State Veterans Home from the Department of Defense to the Oahu Regional Health Care System to June 30, 2024; and
- (3) Require the Oahu Regional Health Care System and the Department of Defense to provide a joint progress report to the Legislature regarding construction of and the hiring of an operator for the Daniel K. Akaka State Veterans Home before the Regular Session of 2024.

Your Committees received testimony in support of this measure from the Hawaii Health Systems Corporation Oahu Region. Your Committees received comments on this measure from the Department of Health, Department of Defense Office of Veterans' Services, and one individual.

Your Committees find that the Daniel K. Akaka State Veterans Home (Veterans Home), a facility planned to provide long-term care for veterans, their spouses, and gold-star parents in the Kapolei area of the island of Oahu, has been under construction by the Department of Accounting and General Services and Department of Defense with an expected completion date of spring 2023. Your Committees further find that Act 285, Session Laws of Hawaii 2022, required the Veterans Home to be assimilated into the Oahu Regional Health Care System by June 30, 2023. Your Committees find however, that the effects of the coronavirus disease 2019 pandemic has resulted in the expected completion date of Veterans Home being pushed back to sometime in 2024. This measure accommodates this unexpected delay by extending the assimilation deadline and requires a progress report on the construction of, and the hiring of an operator for, the Veterans Home.

Your Committees commend the efforts of the Department of Defense and Hawaii Health Systems Corporation Oahu Region in the execution of a Memorandum of Agreement pertaining to their responsibilities associated with the assimilation deadline. Your Committees note that this measure merely extends the assimilation deadline and does not require them to await completion of the assimilation if they are able to do so before the extended deadline provided by this measure.

Your Committees also acknowledge testimony of the Oahu Regional Health Care System regarding its proposed joint venture with the Emergency Medical Services Department of the City and County of Honolulu to help alleviate the waitlist issues being faced by acute care facilities throughout Oahu by repurposing unused space on its Leahi Hospital campus to provide medical services and transitional housing for certain lower acuity patients. Your Committees note the additional capital improvement funding request of \$1,000,000 by the Oahu Regional Health Care System, which is its half of the total funds necessary to complete the construction of a transitional treatment and housing facility at the Leahi Hospital campus, with the remainder to be covered by the City and County of Honolulu. Therefore, amendments to this measure are necessary to accommodate this request.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language that appropriates \$1,000,000 to the Hawaii Health Systems Corporation Oahu Region (HTH 215) for the capital improvement project to construct a transitional treatment and housing facility on the Leahi Hospital campus; provided that no funds shall be expended unless matched on a dollar-for-dollar basis by funds from the City and County of Honolulu; and
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 406, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 406, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1373 (Joint) Health and Human Services and Transportation and Culture and the Arts on H.B. No. 1201**

The purpose and intent of this measure is to:

- (1) Establish noise generated by helicopters exceeding a certain decibel level as a public nuisance and a source of noise pollution in violation of the State's noise pollution law;
- (2) Establish fines for any owner or operator of a helicopter in violation;
- (3) Establish a private right of action, allowing any aggrieved person to bring a civil action against the owner or operator of the helicopter in violation and collect damages and litigation costs; and
- (4) Establish exceptions for:
  - (A) Helicopters owned or operated by a government agency or organization or used to supply emergency services; and
  - (B) Violations that occur within a certain radius of an airport.

Your Committees received testimony in support of this measure from one individual. Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Aircraft Owners and Pilots Association, and Helicopter Association International. Your Committees received comments on this measure from the Department of Health and Department of Transportation.

Your Committees find that excessive noise can adversely affect an individual's health and quality of life and can cause stress-related illnesses, high blood pressure, speech interference, hearing loss, sleep disruption, and lost productivity. Your Committees further find that helicopters have become a significant source of noise pollution in the State. This measure addresses this issue by establishing a maximum allowable decibel level for noise generated by helicopters and setting fines and private rights of action for violations, with certain exceptions.

Your Committees acknowledge the concerns raised in testimony that this measure may be subject to constitutional challenge and be preempted by federal law, as regulation of air traffic and relating noise fall under the exclusive jurisdiction of the federal government pursuant to the Federal Aviation Act. However, your Committees believe that the private citizen has a right as a private attorney general to pursue and enforce existing laws. Therefore, it is necessary to amend this measure to address these issues.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have:
  - (A) Established noise generated by helicopters exceeding a certain decibel level as a public nuisance and a source of noise pollution in violation of the State's noise pollution law;
  - (B) Established fines for any owner or operator of a helicopter in violation; and
  - (C) Established exceptions for violations that occur within a certain radius of an airport;
- (2) Clarifying that any person who is aggrieved by a violation of the Federal Aviation Act and existing federal laws shall have a private right of action and may bring a civil action against the owner or operator of the helicopter;
- (3) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1201, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1201, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4; Ayes with Reservations (Moriwaki). Noes, none. Excused, 1 (Shimabukuro).

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1374 Education on H.B. No. 388**

The purpose and intent of this measure is to:

- (1) Adopt the National Instructional Materials Accessibility Standard; and
- (2) Require the Department of Education to obtain instructional materials in accessible formats for eligible students.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawaii State Committee of Blind Vendors, National Federation of the Blind of Hawaii, National Organization of Parents of Blind Children Hawaii, and eighteen individuals. Your Committee received comments on this measure from the Department of Education.

Your Committee finds that providing appropriate instructional materials for all students, including accessibility to appropriate instructional materials for students with disabilities, allows all students an equal opportunity to achieve academic success. Presently, the Department of Education adheres to the National Instructional Materials Accessibility Standard and coordinates with the National Instructional Materials Access Center to provide accessible instructional materials for students. However, existing state law pertaining to instructional materials requires publishers to adhere to requirements that are outdated due to technological advancements. This measure conforms state requirements with federal law to ensure all students have timely access to instructional materials in appropriate accessible formats.

Your Committee has amended this measure by:

- (1) Amending the definition of “print instructional materials” to include:
  - (A) Digital instructional materials obtained in an appropriate accessible format for an eligible student; or
  - (B) Materials that can be provided by the National Instructional Materials Access Center in a valid National Instructional Materials Accessibility format;
- (2) Authorizing, rather than requiring, the Department of Education to enter into a written contract with a publisher of print instructional materials to prepare and provide the National Instructional Materials Access Center electronic files containing the contents of the print materials;
- (3) Authorizing the Department of Education to purchase new or innovative start-up instructional materials or instructional materials published by a Hawaii-based publisher on a pilot basis for up to one calendar year;
- (4) Requiring the eligible student’s individualized education program to identify the print instructional materials and other instructional materials, including but not limited to textbooks, articles, handouts, posters, bulletin boards, maps, charts, graphics, audio-visual presentations, digital instructional materials, and all other printed materials available to students in elementary and secondary classrooms, and other instructional materials to be used by students without disabilities; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 388, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 388, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Richards).

**SCRep. 1375 Education on H.B. No. 503**

The purpose and intent of this measure is to:

- (1) Require the Board of Education to work with the Department of Education to conduct an analysis on the need, impact, and feasibility of making computer science a graduation requirement;
- (2) Require the Board of Education to determine whether making computer science a graduation requirement would be in the best interests of public school students and the public;
- (3) Require a report to the Legislature; and
- (4) Appropriate funds for teacher professional development in computer science.

Your Committee received testimony in support of this measure from HawaiiKidsCAN, Chamber of Commerce Hawaii, Code.org, Purple Mai’a Foundation, TechNet, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Education and Board of Education.

Your Committee finds that computer science skills have become increasingly foundational to quality academic and career success. As a rapidly growing field, computer science and related skills provide increased job opportunities within the technology industry. Additionally, computer skills beyond basic technology literacy courses have become commonplace in the workplace, making basic computer science knowledge foundational for professionals. This measure solidifies the State’s commitment to computer science education by preparing Hawaii’s keiki for twenty-first century academic and career pathways.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 503, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 503, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Richards).

**SCRep. 1376 Education on H.B. No. 960**

The purpose and intent of this measure is to:

- (1) Transfer \$200,000,000 of general funds previously appropriated to the School Facilities Authority of the Department of Education to the School Facilities Special Fund; and
- (2) Appropriate an unspecified amount of funds out of the School Facilities Special Fund for the School Facilities Authority to expand access to eligible children for pre-kindergarten.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, School Facilities Authority, Executive Office on Early Learning, Early Learning Board, University of Hawai'i System, Hawaii State Teachers Association, Hui for Excellence in Education, and Kamehameha Schools. Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that pre-kindergarten programs offer Hawaii's youngest keiki the opportunity to begin their educational journeys while also undergoing critical stages of development. However, there is a shortage of available classroom space to support current demand for pre-kindergarten programs. This measure provides the School Facilities Authority with flexibility to ensure pre-kindergarten facilities are available across the State to support the education, welfare, and economic future of Hawaii's working families.

Your Committee has amended this measure by clarifying that the appropriation into and out of the School Facilities Special Fund shall be for fiscal year 2023-2024, rather than fiscal year 2022-2023.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 960, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 960, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1377 Education on H.B. No. 961**

The purpose and intent of this measure is to:

- (1) Appropriate funds for the Preschool Open Doors Program and Executive Office on Early Learning to expand access to preschool and to implement program changes required by previous acts;
- (2) Expand the types of entities from which a Preschool Open Doors service provider may obtain accreditation;
- (3) Expand the Preschool Open Doors Program application process to eligible three-year-old children; and
- (4) Authorize the Preschool Open Doors Special Fund to receive federal funds.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Human Services, Early Learning Board, Executive Office on Early Learning, University of Hawai'i System, Hawaii Children's Action Network Speaks!, Hui for Excellence in Education, Hawai'i Association of Independent Schools, Stonewall Caucus of the Democratic Party of Hawaii, Early Childhood Action Strategy, Parents and Children Together, Chamber of Commerce Hawaii, Commit to Keiki, Kamehameha Schools, and one individual. Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that access to preschool is a social justice issue for the State as pre-kindergarten programs are key in preparing Hawaii's keiki for future academic, social, and career success. This year, the State launched the Ready Keiki Initiative, a multi-faceted plan to expand high-quality childcare and pre-kindergarten programs for three- and four-year-old students by 2032. To ensure the success of the Ready Keiki Initiative, expansion of the Preschool Open Doors Program, additional opportunities and pathways for educators, and additional classroom space are needed to support increased demand. This measure provides critical support to the Preschool Open Doors Program and to enable receipt of federal funding to ensure Hawaii's keiki are prepared and ready to learn.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 961, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 961, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fevella).

**SCRep. 1378 Education on H.B. No. 1046**

The purpose and intent of this measure is to:

- (1) Replace the term "school health aides" with "school health assistants" to reflect recent changes to the job title; and

- (2) Authorize the administration of medication to public school students by school health assistants with the approval of a health care professional within the Department of Education, the Department of Health, or a health care service pursuant to a written agreement with the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, University of Hawai'i System, Hawai'i State Center for Nursing, and Epilepsy Foundation of Hawaii. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that providing high quality student health care during school hours allows students to receive timely treatments on site and minimize time spent away from the classroom. Presently, all medication requests in a public school setting are reviewed and require approval by the Department of Health. Additionally, current law prevents health care professionals who are already on campus from performing the function of medication administration approval. This measure streamlines the process for health care administration in Department of Education schools to ensure all students have access to needed medication.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1046, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1046, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Richards).

**SCRep. 1379 Education on H.B. No. 1329**

The purpose and intent of this measure is to:

- (1) Require the Department of Education to work with certain organizations to develop and implement an active shooter training program in all public schools under the jurisdiction of the Department of Education; and
- (2) Exempt public school students from participation in an active shooter training program of the Department of Education.

Your Committee received testimony in support of this measure from the Department of Education, Department of Law Enforcement, State Public Charter School Commission, and one individual. Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that providing increased security and training in Hawaii's schools can help create safer learning environments for students. However, the majority of public schools in the State are constructed in a distinct open-air setting, which may pose an array of security concerns for school administrators and law enforcement. While the Department of Education has collaborated with and continues to work with local and federal law enforcement and its contracted active shooter training vendor, the recent unprecedented increase in school shootings nationwide has created an urgent need to enhance the Department of Education's commitment to provide a robust active threat training program. This measure creates additional safety measures for Department of Education schools to protect Hawaii's keiki.

Your Committee has amended this measure by:

- (1) Clarifying that charter schools shall also be included in the Department of Education's active shooter training program; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1329, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1329, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Richards).

**SCRep. 1380 Education on H.B. No. 1412**

The purpose and intent of this measure is to:

- (1) Prohibit any contract or license agreement between a publisher and library in the State from precluding, limiting, or otherwise restricting the library from performing customary operational and lending functions; restricting the library from disclosing any terms of its license agreements to other libraries; and requiring, coercing, or enabling a library to violate rules regarding confidentially of a patron's library records; and
- (2) Deem contracts that contain prohibited provisions an unfair or deceptive act or practice and void and unenforceable.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Public Library System, and two individuals. Your Committee received testimony in opposition to this measure from the Association of American Publishers, Inc.; The Yellowkeed Corporation; Bess Press, Inc.; Independent Book Publishers Association; Left Coast Creative, Inc.; Copyright Alliance; The Authors Guild; and thirty-one individuals. Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that the digital resource landscape is rapidly changing, creating new licensing models that are being developed and offered by publishers. Digital books have become a vital part of library collections across the State, with over one

million digital books in circulation within the Hawaii State Public Library System. However, certain licensing models are prohibitive, as publishers may place embargoes on the release date of high demand titles for digital copies offered at public libraries. Additionally, publishers may charge higher fees for leases of digital copies, rather than rights to ownership, that are four to five times higher than traditional physical copies. This measure maintains the diversity of books available at public libraries while also providing equitable access to digital books for Hawaii residents.

Should your Committee on Judiciary choose to deliberate on this measure, your Committee respectfully requests that it consider intellectual property and copyright law concerns raised by the Department of the Attorney General. Additionally, your Committee respectfully requests your Committee on Judiciary to also consider any potential litigation concerns regarding this measure.

Your Committee has amended this measure by:

- (1) Deleting academic libraries, research libraries, and special libraries from the definition of “library”;
- (2) Prohibiting a library from producing a printed copy of electronic literary material purchased by a library;
- (3) Inserting language to exempt any existing contracts that are currently in force providing libraries with electronic literary products from vendors and aggregators from the provisions of this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1412, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1412, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Fevella).

**SCRep. 1381 (Joint) Higher Education and Education on H.B. No. 1204**

The purpose and intent of this measure is to establish and appropriate funds for the Public Education Scholarship Program within the University of Hawaii to pay for a participant’s University tuition in return for the participant’s commitment to teach in a public school or public charter school classroom in the State.

Your Committees received testimony in support of this measure from the Department of Education, State Public Charter School Commission, University of Hawai’i System, Hawaii State Teachers Association, University of Hawaii Professional Assembly, Education Caucus of the Democratic Party of Hawai’i, and one individual.

Your Committees find that the Department of Education struggles to attract and retain teachers in the State’s public schools. Teachers in Hawaii receive some of the lowest salaries in the nation once adjusted for the State’s high cost of living. Additionally, teachers often use personal funds to pay for teaching and classroom supplies. These financial hardships disincentive individuals from pursuing teaching careers, especially since many students graduate from university in debt. This measure offers individuals a debt-free university education in exchange for a postgraduate teaching commitment to help increase the recruitment and retention of teachers in the State.

Your Committees recognize that many factors beyond the cost of higher education contribute to the State’s teacher shortage. While the tuition waiver proposed by this measure is not a panacea, your Committees believe it is imperative that every possible avenue be pursued to support the recruitment and retention of teachers in the State. To understand the efficacy of the tuition waiver proposed by this measure in increasing recruitment and retention, systems must be developed to monitor recipient outcomes. Your Committees note, per discussion with the Department of Education, that the Department does not have an automated system in place to track the number of years an individual completing a service commitment has taught in a Department classroom. Without an efficient method of monitoring service completion, the Department of Education would be unable to collect tuition repayments from Public Education Scholarship Program recipients who fail to fulfill their service commitment. Given that the University of Hawaii has historically struggled to collect tuition monies from its students, your Committees stress the importance of the Department of Education and the University of Hawaii developing systems to monitor Public Education Scholarship Program recipients as they complete their baccalaureate degrees and fulfill their service commitments.

Your Committees have amended this measure by:

- (1) Specifying that a student must be a state resident to qualify for the Public Education Scholarship Program;
- (2) Prohibiting a recipient from receiving more than an unspecified amount of funds from the Public Education Scholarship Program;
- (3) Specifying that the service commitment to teach in certain classrooms required by the Public Education Scholarship Program shall not exceed seven years within the ten years following graduation and licensure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1204, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1204, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Education: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1382      Judiciary on H.B. No. 382**

The purpose and intent of this measure is to appropriate moneys for the Judiciary for the fiscal biennium that begins on July 1, 2023, and ends on June 30, 2025.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association, Hawaii State Bar Association Appellate Section, Hawaii State Bar Association Collection Law Section, Hawaii Access to Justice Commission, Legal Aid Society of Hawaii, Maui County Bar Association, Volunteer Legal Services Hawaii, and one individual.

Your Committee received comments on this measure from the Domestic Violence Action Center.

Your Committee finds that the appropriations made by this measure are intended to assist the Judiciary in its efforts to fulfill its constitutional and statutory duties during the 2023-2025 fiscal biennium.

Your Committee notes that the Judiciary indicated in its testimony that this measure and its related budget worksheets inadvertently reflect an incorrect number of authorized permanent positions for JUD601 (Administration). Your Committee has amended this measure to accurately reflect two hundred twenty-eight full-time equivalent (228.0 FTE) permanent positions. However, your Committee notes that the corresponding budget worksheets also must be amended to correct this error and requests that your Committee on Ways and Means make the corresponding corrections.

Your Committee also notes the testimony of the Domestic Violence Action Center, which requested that the amount of moneys available for nonprofit organizations providing legal and social services procured through purchase of service contracts be increased by five percent, to ensure that these entities have sufficient funds to meet the costs of doing business in the State and to further ensure that these organizations are able to recruit and retain qualified staff members. Accordingly, your Committee has amended this measure to increase the appropriation for JUD601 (Administration) by \$447,207, to meet this need. These additional funds are intended for nonprofit organizations providing legal and social services throughout the Judiciary, and your Committee notes that your Committee on Ways and Means may need to adjust this figure or redistribute the funds across other program IDs throughout the Judiciary as needed.

Your Committee has further amended this measure by:

- (1) Increasing the amount appropriated to the Third Circuit in each fiscal year of the biennium by \$75,000 to fund the Zero to Three Court;
- (2) Increasing the amount appropriated to the First Circuit (JUD310) by \$618,000 for fiscal year 2023-2024 and \$622,000 for fiscal year 2024-2025 to:
  - (A) Establish one new First Circuit district court judge position and three new support staff positions; and
  - (B) Restore funding for a First Circuit Court judge position and an Adult Client Services Branch judicial clerk position;
- (3) Increasing the number of permanent full-time equivalent positions authorized for the First Circuit to reflect the four new positions;
- (4) Increasing the appropriation amounts to the Fifth Circuit (JUD350) by \$61,000 in fiscal year 2023-2024 and \$63,000 in fiscal year 2024-2025 to restore funding for a social worker position;
- (5) Increasing the amount of general obligation bond funds authorized for the Kaahumanu Hale elevator upgrade and modernization project by \$5,000,000;
- (6) Removing from the measure \$6,000,000 of general obligation bond funds authorized for the Children's Justice Center, Oahu;
- (7) Changing the amount of general obligation bonds authorized for issuance to reflect the amended capital improvement project authorizations; and
- (8) Changing the effective date to July 1, 2023.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 382, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 382, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1383      Commerce and Consumer Protection on H.B. No. 351**

The purpose and intent of this measure is to establish a nonrefundable income tax credit for owners of condominium units whose association is increasing maintenance fees to comply with a county ordinance requiring an automatic fire sprinkler system or alternative fire prevention and fire safety system.

Your Committee received testimony in support of this measure from four individuals. Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that due to a City and County of Honolulu ordinance, certain condominiums are required to make fire safety upgrades unless the condominium meets specified exceptions. These fire safety upgrades can cost a condominium association millions of dollars and, as a result, force it to drastically increase its maintenance fees on the unit owners. This measure will provide some financial relief to condominium unit owners who have incurred extra maintenance fees to make their condominiums safer.

Your Committee notes the concerns raised in testimony that condominium boards can also raise money for fire safety upgrades by imposing special assessments on unit owners; however, this measure as currently drafted provides tax credits for increases in maintenance fees only. Your Committee also notes the testimony of the Department of Taxation, proposing amendments that would

facilitate the administration of the tax credit created by this measure. Therefore, amendments to this measure are necessary to address these matters.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the tax credit established by this measure shall also apply to a qualified taxpayer who is an owner of a unit whose condominium association is imposing a special assessment to comply with a county ordinance requiring an automatic sprinkler system or alternative fire prevention and fire safety system;
- (2) Inserting language requiring the Department of Taxation to certify the tax credits established by this measure;
- (3) Inserting language to apply the tax credit to taxable years beginning after December 31, 2023; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 351, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 351, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey, Richards). Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1384 (Joint) Commerce and Consumer Protection and Agriculture and Environment on H.B. No. 1250**

The purpose and intent of this measure is to:

- (1) Impose labeling requirements for mamaki tea grown in the State; and
- (2) Appropriate funds to the Department of Agriculture to administer the mamaki tea labeling requirements.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Farmers Union United, Hawai'i Farm Bureau, Hawai'i Sustainable Farms, and three individuals.

Your Committees find that mamaki is a plant that is endemic to Hawaii. The leaves of mamaki can be brewed into an herbal tea that is high in anti-oxidants and has a number of health benefits, such as helping to reduce high blood pressure. The mamaki tea industry is a new, yet quickly growing industry. This measure protects the mamaki tea industry from deceptive or misleading labeling.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1250, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1385 Transportation and Culture and the Arts on H.B. No. 478**

The purpose and intent of this measure is to appropriate funds for the State Foundation on Culture and the Arts Artist Fellowship Program for the awarding of one-time fellowships to promising artists.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts; Sounding Joy Music Therapy, Inc.; Hawai'i Arts Alliance; and eight individuals. Your Committee received comments on this measure from one individual.

Your Committee finds that from 1995 to 2008, the State Foundation on Culture and the Arts provided fellowships in the areas of visual and performing arts. However, the State Foundation on Culture and the Arts has only recently restarted its program to recognize artists, cultural practitioners, and teaching artists across the State. Additionally, the visual and performing arts communities continue to face challenges from the coronavirus disease 2019 pandemic. This measure recognizes and celebrates the State's rich cultural landscape by supporting and encouraging the works and artistic endeavors of individuals who contribute to the artistic heritage and economic health of the State.

Your Committee has amended this measure by:

- (1) Specifying the qualifications of commission members to the State Foundation on Culture and the Arts Commission;
- (2) Requiring the commission to have at least one member with a background or experience in each of the following:
  - (A) Needs of public education;
  - (B) Neighbor island communities;
  - (C) Native Hawaiian culture and diversity; and
  - (D) Urban design and public infrastructure;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 478, H.D. 1, as amended herein, and recommends that

it pass Second Reading in the form attached hereto as H.B. No. 478, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1386 (Joint) Transportation and Culture and the Arts and Agriculture and Environment on H.B. No. 1406**

The purpose and intent of this measure is to:

- (1) Require that asphalt removed from roads and driveways be recycled;
- (2) Require the Department of Transportation to adopt rules regarding best practices for paving projects, asphalt processing, and asphalt disposal; and
- (3) Require the Department of Health to designate asphalt storage sites or develop a centralized asphalt state processing and storage facility.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, Climate Protectors Hawai'i, and three individuals. Your Committees received testimony in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu, Hawaii Asphalt Paving Industry, and General Contractors Association of Hawaii. Your Committees received comments on this measure from the Department of Transportation and Department of Health.

Your Committees find that asphalt is a petroleum-based product that has become integral to the State's transportation infrastructure. The Department of Transportation has already published a Construction Best Management Practices Field Manual, last updated in 2021, which provides guidance on stockpile management to prevent release of old asphalt into the environment. However, further addressing the proper disposal of asphalt, including recycling, will protect the State's finite natural resources. While your Committees support the recycling of asphalt, your Committees find that further study is necessary at this time.

Accordingly, your Committees have amended this measure by deleting its contents and inserting language that requires the Department of Transportation to complete a two-year study to maximize usage of recycled asphalt, including a determination of water retention and permeability of recycled asphalt, and report to the Legislature prior to the Regular Session of 2025.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1406, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1406, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.  
Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.  
Agriculture and Environment: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

**SCRep. 1387 Transportation and Culture and the Arts on H.B. No. 105**

The purpose and intent of this measure is to:

- (1) Require license plates to include 'okina in the word "Hawai'i"; and
- (2) Authorize the use of all uppercase letters, all lowercase letters, or initial capital letters in the words "Hawai'i" and "Aloha State" on license plates.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Requiring license plates to include 'okina in the word "Hawai'i";
- (2) Establishing requirements for number plates issued for zero-emission, hybrid, and gasoline-powered vehicles beginning January 1, 2025; and
- (3) Requiring the continued use of the rainbow number plate design for hybrid and gasoline-powered vehicles.

Your Committee received testimony in opposition of the proposed S.D. 1 from the Department of Customer Services of the City and County of Honolulu.

Your Committee finds that the Hawaiian language is one of two official languages of the State. The diacritical markings of 'okina and kahakō provide necessary distinction in the appropriate pronunciation of words as the Hawaiian language evolved and transformed from predominantly spoken to written language. While the inclusion of 'okina in license plates represents a small step to recognizing 'Ōlelo Hawai'i, the incorporation of 'okina maintains the integrity of written and spoken forms of 'Ōlelo Hawai'i.

Your Committee further finds that the State is nearing the end of its current motor vehicle license plate numbering system. Additionally, your Committee finds that the proliferation of electric vehicles across the State has also caused the temporary electric vehicle numbering system to near the end of its respective system. Therefore, establishing requirements for zero-emission, hybrid, and gasoline-powered vehicles while also requiring the usage of 'okina in motor vehicle license plates recognize the State's commitment to sustainability goals and the cultural significance of 'Ōlelo Hawai'i.

Your Committee has amended this measure by:

- (1) Adopting the proposed S.D. 1; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 105, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 105, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1388 Transportation and Culture and the Arts on H.B. No. 473**

The purpose and intent of this measure is to appropriate funds for the State Foundation on Culture and the Arts Creative Workforce Grant Program for the awarding of grants to eligible nonprofit arts and culture organizations to support the living wage of creative workers.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts; Sounding Joy Music Therapy, Inc.; Hawai'i Arts Alliance; Honolulu Printmakers; and nine individuals.

Your Committee finds that Hawaii's creative arts workforce of culture and arts organizations, individual artists, and cultural practitioners are an important and unique resource to Hawaii's economy and local communities. Creative workforce grants will provide support towards a living wage in the regional area where the creative worker performs their work, as some may face barriers to participation and employment in creative works industries. Additionally, supporting creative work through workforce grants will also support arts and cultural programming and projects that are publicly available and accessible. This measure supports artists, cultural practitioners, and other creative workers who contribute to the State's growing visual and performing arts sectors.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 473, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1389 Transportation and Culture and the Arts on H.B. No. 480**

The purpose and intent of this measure is to:

- (1) Amend the definitions of "special interest vehicle", "street rod replica vehicle", and "street rod vehicle", for purposes of the Hawaii Highway Safety Act, to be based on the age of the vehicle or the parts used, rather than a certain year of manufacture; and
- (2) Require vehicles to meet the safety standards that were in effect at the time of manufacture.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that the popularity of street rod replica vehicles and street rod vehicles, also known as "classic cars", has grown in the State. However, owners of certain classic cars face challenges as existing law defines classic cars by year rather than age. This measure allows for more recent vehicles to be considered and treated as "street rod" vehicles while also ensuring the safety of both the vehicle and its user.

Your Committee has amended this measure by:

- (1) Establishing a task force to examine the motor vehicle safety inspection and motor vehicle registration processes in the State to determine requirements, qualifications, and streamlined processes that are simplified for consumers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 480, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 480, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1390 (Joint) Agriculture and Environment and Water and Land on H.B. No. 837**

The purpose and intent of this measure is to:

- (1) Establish green infrastructure objectives, policies, and priority guidelines for state facility systems, infrastructure, transit projects, and other areas in the Hawaii State Planning Act to improve the quality of life for residents and visitors;
- (2) Add a definition of "green infrastructure"; and
- (3) Require the Office of Planning and Sustainable Development, in partnership with the Greenhouse Gas Sequestration Task Force, to submit a report to the Legislature making recommendations for implementing the green infrastructure objectives, policies, and priority guidelines.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Climate Change Mitigation and Adaptation Commission, Office of Planning and Sustainable Development, Climate Future Forum, Climate Protectors Hawai'i, Hawai'i Reef and Ocean Coalition, and four individuals.

Your Committees find that green infrastructure is a crucial tool to reduce urban temperatures and carbon emissions, improve air quality, and capture water to replenish the water table. Green infrastructure measures include usage of plant or soil systems, permeable pavement, stormwater harvesting and reuse, or landscaping to conserve water. As the State's natural resources are finite and fragile, additional protection of natural resources is needed to adapt to climate change, coastal erosion, and sea level rise. This measure reaffirms the State's commitment to climate change mitigation and adaptation by prioritizing natural solutions to meet the State's objectives, policies, and goals.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$150,000 for:
  - (A) The establishment of one full-time equivalent (1.0 FTE) policy analyst position, which shall be exempt from chapter 76, Hawaii Revised Statutes; and
  - (B) Program funding;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 837, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 837, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

**SCRep. 1391 (Joint/Majority) Agriculture and Environment and Health and Human Services on H.B. No. 1326**

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Zero Waste Initiative to, among other things, manage the State's transition to a zero solid waste economy;
- (2) Establish the Packaging Waste Advisory Council;
- (3) Require the Department of Health to develop an assessment of statewide needs to determine the resources required to reduce packaging waste by seventy percent from the baseline amount;
- (4) Require the Department of Health to establish a Packaging Waste Reduction and Reuse Program;
- (5) Establish the Packaging Waste Special Fund; and
- (6) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Health, Department of Budget and Finance, Hawai'i Climate Change Mitigation and Adaptation Commission, Council Chair of the Hawai'i County Council, one member of the Hawai'i County Council, Department of Environmental Management of the County of Hawai'i, Office of the Mayor of the County of Maui, Hawai'i State Association of Counties, Sierra Club of Hawai'i, Upstream, Hawai'i Alliance for Progressive Action, Zero Waste Kauai, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, 350Hawaii, Wild Kids, Hawaii Environmental Change Agents Solid Waste Task Force, Zero Waste Hawai'i Island, NO POHO, Energy and Climate Action Committee and Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i, and thirty-four individuals. Your Committees received testimony in opposition to this measure from the Hawaii Food Manufacturers Association; American Chemistry Council; Ameripen; Flexible Packaging Association; The Toy Association; Hawaiian Host Group; Consumer Technology Association; Wine Institute; Consumer Brands Association; Foodservice Packaging Institute; FCH Enterprises; Triple F Holdings, LLC; American Beverage; Island Plastic Bags, Inc; and one individual. Your Committees received comments on this measure from Sustainable Food Policy Alliance, Plastics Industry Association, and Hawai'i Restaurant Association.

Your Committees recognize that Hawaii's failures to account for the continuous production of solid waste and the externalized costs of a consumption-based economy have resulted in significant and ever-growing impacts to the environment, public health, and overall quality of life in the State. Leachates from landfills threaten to contaminate water resources; toxic emissions and ash from Oahu's waste-to-energy incineration facility have raised the risks of lung and heart disease, neurological complications, reproductive issues, and cancer; and the limited land and sensitive ecosystems severely limit the space available to receive and store waste byproducts. Your Committees therefore find that addressing the pollution of packaging waste will substantially benefit the State and protect the long-term well-being of the environment, economy, and public health. By establishing a foundational framework to reduce, reuse, and repurpose solid waste streams, this measure takes momentous strides in ensuring that the Hawaiian islands can continue to sustain themselves with fortitude and grace, and with it, the people's social and economic systems that rely on a healthy and prosperous natural environment.

Your Committees have amended this measure by:

- (1) Deleting language that would have established a Packaging Waste Reduction and Reuse Program and Packaging Waste Special Fund, and appropriated monies from the special fund for the Department of Health to fund contractors or packing reduction coordinator positions for the Program;

- (2) Deleting language that would have required the Department of Health, by rule, to establish dates and interim goals under the Hawaii Zero Waste Initiative;
- (3) Revising the role, duties, and membership of the Packaging Waste Advisory Council;
- (4) Inserting language to allow for the establishment of a nonprofit producer responsibility organization;
- (5) Revising the requirements of the statewide needs assessment;
- (6) Allowing the Department of Health to contract with a third party for assistance in preparing the needs assessment;
- (7) Allowing the Department of Health to charge covered producers or the producer responsibility organization for reimbursement of costs of the needs assessment;
- (8) Requiring the Department of Health, in collaboration with the Packaging Waste Advisory Council and nonprofit producer responsibility organization, to develop a proposal to implement a producer-funded packaging reduction, reuse, and recycling program to achieve the goal of seventy percent reduction in packaging waste deposited in landfills or incinerated in the State by 2035;
- (9) Requiring the Department of Health to submit draft legislation to implement the producer-funded Packaging Reduction, Reuse, and Recycling Program, based on the needs assessment and input from the Packaging Waste Advisory Council and nonprofit producer responsibility organization, to the Legislature by December 31, 2026;
- (10) Excluding other producers as determined by the Department of Health from the definition of “covered producer”;
- (11) Adding definitions of “packaging”, “packaging waste”, “producer responsibility organization”, “recycle” or “recycling”, and “reusable”;
- (12) Updating definitions of “producer”, “returnable”, “reusable packaging”, and “reuse and refill”;
- (13) Amending section 1 to reflect its amended purpose; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1326, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1326, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (DeCoite, Richards). Noes, 1 (Awa). Excused, none.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Moriwaki).

**SCRep. 1392 (Joint) Agriculture and Environment and Commerce and Consumer Protection on H.B. No. 1359**

The purpose and intent of this measure is to:

- (1) Repeal redundant regulations on hemp production, which will reduce costs for the State and Hawaii farmers;
- (2) Amend the hemp law in a manner that recognizes the unique constraints of Hawaii farmers, while protecting human health;
- (3) Allow licensed hemp producers to sell hemp biomass;
- (4) Require and appropriate moneys for the Department of Health to hire or consult a toxicologist or consultant familiar with hemp industry standards for the purpose of setting defined action limits or exposure levels for different types of hemp products; and
- (5) Extend the State’s hemp processor law through July 1, 2027.

Your Committees received testimony in support of this measure from Hawai’i Hemp Farmers Association, Hawai’i Farmers Union United, Kauai Hemp Co., Environmental Caucus of the Democratic Party of Hawai’i, Hawai’i Sustainable Farms, and eleven individuals. Your Committees received testimony in opposition to this measure from Omaopio Piliwale Ohana and ten individuals. Your Committees received comments on this measure from the Department of Agriculture, Department of Health, and one individual.

Your Committees find that Hawaii’s hemp industry is heavily burdened by overregulation, which has significantly stifled the growth of this potentially lucrative and resourceful industry in the State. Furthermore, overregulation of hemp production and processing has driven many farmers out-of-business or out-of-state, while consumers have grown accustomed to relying on hemp sourced from other places. Your Committees additionally recognize that hemp has more than fifty thousand recognized uses, ranging from its use as a fuel source, food, clothing and building material, and natural plastic alternative. Under a more welcoming regulatory atmosphere, hemp has vast potential as a agricultural revenue stream and natural resource in the State due to Hawaii’s bountiful rainfall, ample year-round sunshine, and geographic limitations. Therefore, this measure repeals and reduces the burdensome regulations that unduly impede and stifle the hemp industry in Hawaii and implements policies and appropriates funds to propel and support the industry moving forward.

Your Committees have amended this measure by:

- (1) Replacing the proposed one-hundred foot residential buffer zone requirement with a blank number of feet;
- (2) Specifying that the Department of Agriculture may require reports that include copies of the United States Department of Agriculture test results for transported commercial hemp;

- (3) Clarifying the requirements of identity statements used for labeling and advertisements of commercial hemp relating to the identification of the percentage of Hawaiian grown hemp and origin of other hemp;
- (4) Limiting the definition of “hemp biomass” to mean only the stalks of hemp plants;
- (5) Specifying that “finished hemp product” means a product with a delta-9-tetrahydrocannabinol concentration of no more than 0.3 percent;
- (6) Clarifying the packaging labeling requirements for the sale of hemp products relating to the identification of the percentage of Hawaiian grown hemp and origin of other hemp;
- (7) Requiring the Department of Agriculture and Department of Health to jointly convene a Hawaii Hemp Task Force to gather data and information to understand industry needs and inform strategies and actions that support agriculture and a robust hemp industry in the State and to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (8) Requiring the Department of Agriculture to hire a third-party consultant to work with the Hawaii Hemp Task Force and identify infrastructure needs of Hawaii hemp farmers and the hemp industry on each island and who shall issue a report by July 1, 2024;
- (9) Appropriating funds for the hiring of the third-party consultant;
- (10) Amending section 1 to reflect its amended purpose; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1359, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1359, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5; Ayes with Reservations (DeCoite). Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1393 Commerce and Consumer Protection on H.B. No. 884**

The purpose and intent of this measure is to exempt, under certain conditions, out-of-state traveling team physicians who accompany a sports team to Hawaii from state licensure requirements.

Your Committee received testimony in support of this measure from the University of Hawaii System and American Medical Society for Sports Medicine. Your Committee received comments on this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Hawaii Medical Board.

Your Committee finds that athletes who compete in intercollegiate or professional leagues often travel across state lines to attend tournaments, bowl and exhibition games, and other types of competitions. The athletes typically prefer that a team physician, along with other health care professionals, travel with the athletes, as team physicians have knowledge of the athletes’ medical histories, current medical statuses, and specific medical skills pertaining to sports medicine. Despite the passage of federal legislation to address this issue, existing state law remains unclear regarding the out-of-state licensure of traveling team physicians. By granting out-of-state traveling team physicians temporary licensure, this measure provides out-of-state athletes competing in the State with access to their preferred medical provider while maintaining professional health standards.

Your Committee has amended this measure by inserting language authorizing physicians invited by an intercollegiate league or professional league to provide services to team members and coaching staff at an event or competition in the State that is sanctioned by the intercollegiate league or professional league, under certain circumstances.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 884, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 884, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1394 (Joint/Majority) Commerce and Consumer Protection and Judiciary on H.B. No. 1439**

The purpose and intent of this measure is to:

- (1) Establish a Pre-Litigation Mediation Pilot Program that:
  - (A) Extends the period for a notice of termination of the rental agreement from five business days to ten calendar days;
  - (B) Requires landlords to engage in mediation and stays the filing of an action for summary possession if a tenant schedules or attempts to schedule a mediation; and
  - (C) Requires landlords to provide specific information during the ten-calendar-day notice period to tenants, which shall also be provided to a mediation center that offers free mediation for residential landlord-tenant disputes;
- (2) Appropriate funds for the Pre-Litigation Mediation Pilot Program; and
- (3) Establish and appropriate funds for an Emergency Rent Relief Program.

Your Committees received testimony in support of this measure from the Judiciary; Department of Human Services; Hawaii Public Housing Authority; Hawaii Appleseed Center for Law and Economic Justice; Catholic Charities Hawai'i; AlohaCare; Hawai'i Children's Action Network Speaks!; Housing Hawai'i's Future; Hawai'i Housing Affordability Coalition; Mediation Center of the Pacific, Inc.; Papa Ola Lokahi; Ku'ikahi Mediation Center; Hawaiian Humane Society; Family Promise of Hawai'i; West Hawai'i Mediation Center; Planning for Community, LLC; HOPE Services Hawai'i; and eight individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Hawai'i Association of REALTORS.

Your Committees find that the Legislature enacted Act 57, Session Laws of Hawaii 2021 (Act 57), in response to the tens of thousands of Hawaii residents losing their jobs during the coronavirus disease 2019 pandemic, leaving them unable to pay their rent. Act 57 provided a number of protections for tenants who could not pay rent, including requiring landlords to engage in mediation and staying the filing of an action for summary possession in certain circumstances. Act 57 helped to preserve housing stability and avert an anticipated eviction crisis and flooding of the court system. As a result of Act 57, eighty-five percent of the cases mediated statewide settled without litigation, and in the First Circuit, eighty-five percent of the settlements resulted in tenants remaining in their homes. While the procedures created by Act 57 were successful, Act 57 automatically repealed in 2022. This measure makes permanent certain provisions of Act 57, thus protecting renters from eviction and preventing a further worsening of the State's homelessness crisis.

Your Committees acknowledge the concerns raised in testimony that this measure's effective date of September 1, 2023 for the Pre-Litigation Mediation Pilot Program, would not allow for landlords and landlord associations to update necessary documents such as standard rental agreement forms and to educate landlords on this measure's requirements. Your Committees find that November 1, 2023, is a more appropriate effective date, as November is the time of year in the realtor industry when standard forms are updated. Your Committees note that the extension of this measure's effective date in no way prohibits pre-litigation mediations between landlord and tenants that are currently ongoing.

Therefore, your Committees have amended this measure by:

- (1) Inserting an effective date of November 1, 2023, and a repeal date of November 1, 2025, for certain amendments made to section 521-68, Hawaii Revised Statutes, by this measure;
- (2) Inserting unspecified amounts of rent relief payments that participants in the Emergency Rent Relief Program established by this measure are eligible to receive;
- (3) Inserting an unspecified amount of total payments that may be made under the Emergency Rent Relief Program each year;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1439, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1439, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Fukunaga, Richards).

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1395 (Majority) Health and Human Services on H.B. No. 350**

The purpose and intent of this measure is to establish that the exemption from mandatory reporting by members of the clergy does not apply when the clergy member believes that there exists a substantial risk that child abuse or neglect that is especially heinous, atrocious, or cruel, manifesting exceptional depravity, may occur in the reasonably foreseeable future.

Your Committee received testimony in support of this measure from the Department of Human Services; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808.com, Inc.; and three individuals.

Your Committee finds that existing law exempts clergy from the mandate to report child abuse or neglect, or the potential for child abuse or neglect, when the information regarding the abuse or neglect is obtained solely through penitential communication. However, given the history of clergy abuse, particularly of children, in the State and around the world, the exemption from mandatory reporting by clergy requires limitations to ensure that child abuse, by clergy or another party, is properly addressed. Therefore, to support the safety and well-being of children in the State, this measure limits the scope of the mandatory reporting exemption by clergy to require clergy to report certain abuse, even when received in penitential communications.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 350, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 350, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1396 Commerce and Consumer Protection on H.B. No. 1081**

The purpose and intent of this measure is to clarify the penalty assessed on any person who intentionally operates a care facility without a certificate or license by repealing section 321-486.3, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that operating a care home without a certificate or license constitutes a violation of chapter 321, Hawaii Revised Statutes. Section 321-20, Hawaii Revised Statutes, authorizes the assessment of an administrative penalty of up to \$1,000 per day against any person in violation of any provision in chapter 321, Hawaii Revised Statutes. However, section 321-486.3, Hawaii Revised Statutes, authorizes the assessment of an administrative penalty against any person operating a care facility without a certificate or license, in the amount of \$100 for each day of uncertified or unlicensed operation for the first violation, \$500 for each day for the second violation, and \$1,000 for each day for the third violation. Your Committee finds this dual penalty system unnecessary and confusing. Accordingly, this measure repeals section 321-486.3, Hawaii Revised Statutes, to eliminate confusion and make clear that the penalty provisions of section 321-20, Hawaii Revised Statutes, apply to these violations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1081, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

**SCRep. 1397 (Majority) Judiciary on H.B. No. 91**

The purpose and intent of this measure is to:

- (1) Deem the right to a contested case hearing waived if a person fails to request the hearing within a certain time after receipt of the Campaign Spending Commission's preliminary determination; and
- (2) Allow the Campaign Spending Commission to file its order in the First Circuit Court for confirmation as a civil judgment.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Commission to Improve Standards of Conduct, and two individuals. Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Campaign Spending Commission is unable to issue a fine against a person without providing the person with written notice and an opportunity to be heard at a hearing. Your Committee further finds that a person may waive these rights by written stipulation or consent. Your Committee additionally finds that the enforcement actions of the Campaign Spending Commission can be unduly delayed if a person declines to participate in the hearing process. This measure will establish an implied waiver of a person's rights to notice and to be heard at a contested case hearing if the person fails to request a hearing prior to a preliminary determination, and will allow the Commission to file orders with the First Circuit Court and enable those orders to be enforceable and collectable in the same manner as other judgments of the court.

Your Committee has amended this measure by amending subsections 11-405(b) and 11-410(b), Hawaii Revised Statutes, to change the number of days within which a person has to request a contested case hearing from twenty to thirty days of receipt of the preliminary determination.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 91, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 91, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 1 (San Buenaventura). Excused, 1 (Awa).

**SCRep. 1398 (Joint/Majority) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on H.B. No. 118**

The purpose and intent of this measure is to clarify that each county may, by ordinance, designate certain sections of county highways as areas in which stopping, standing, or parking vehicles is prohibited or restricted.

Your Committees received testimony in support of this measure from the Department of Transportation, Maui County Council, and Hawai'i State Association of Counties. Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Act 250, Session Laws of 2019, established the State Highway Enforcement Program after a surge in unsafe and hazardous problems caused by illegal parking. Additionally, vehicles that stop, stand, or park on highways may create hazards for other drivers, emergency services or law enforcement personnel, and pedestrians. This measure authorizes the counties to utilize the State Highway Enforcement Program to protect all roadway users across the State.

Your Committees have amended this measure by clarifying that a federal or state agency authorizing a road closure shall supersede a county ordinance.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 118, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 118, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.  
Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Inouye).  
Public Safety and Intergovernmental and Military Affairs: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Fukunaga, McKelvey).

**SCRep. 1399 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1109**

The purpose and intent of this measure is to meet federal requirements on fraudulent activity relating to commercial learner's permits and commercial driver's licenses.

Your Committees received testimony in support of this measure from the Department of Transportation.

Your Committees find that motor carriers provide various services across the State. Presently, the Department of Transportation is required by the Federal Motor Carrier Safety Administration, pursuant to title 49 of the Code of Federal Regulations section 383.73(k)(2), to implement policies that result, at minimum, in the disqualification of the commercial learner's permit or commercial driver's license for applicants who are suspected of fraud related to the testing and issuance of the permit or license. This measure provides additional accountability for drivers who obtain a commercial learner's permit or commercial driver's license while also satisfying mandatory conformance to federal requirements.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1109, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Inouye).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, McKelvey).

**SCRep. 1400 Transportation and Culture and the Arts on H.B. No. 24**

The purpose and intent of this measure is to remove the requirement that water common carriers secure prior approval of the Public Utilities Commission to enter into long-term leases of more than three years and leverage leases.

Your Committee received testimony in support of this measure from Hawaii Harbor Users Group; Matson Navigation Company, Inc.; and Young Brothers, LLC. Your Committee received testimony in opposition to this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs. Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that as an island state, Hawaii relies on commercial harbors and water common carriers to ensure the continued and unimpeded flow of cargo throughout the State. Over ninety percent of goods in the State are imported, including fuel, food, goods, construction materials, and motor vehicles. While the current regulatory framework provides safeguards to water common carrier operations, certain requirements may impede the timely flow of goods in the State. This measure improves regulatory efficiency for water common carriers while also ensuring an uninterrupted supply chain in the State.

Your Committee has amended this measure by:

- (1) Clarifying that a water common carrier, upon prior approval of the Public Utilities Commission, may:
  - (A) Enter into vessel leases longer than five years; or
  - (B) Enter into leverage leases for vessels;
- (2) Clarifying the definitions of "property" and "facilities" to prohibit water common carriers from entering into vessel leases longer than five years or enter into leverage leases for vessels to acquire property or to construct, complete, extend, improve, or add to its facilities or service;
- (3) Clarifying that any vessel leases longer than five years and all leverage leases for vessels without an authorizing order of the Public Utilities Commission shall be deemed void; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 24, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 24, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1401 Transportation and Culture and the Arts on H.B. No. 714**

The purpose and intent of this measure is to:

- (1) Require that the securing of mooring lines from vessels requiring tug assistance to commercial docks, wharves, piers, quays, and landings be performed by a stevedoring company; and
- (2) Define "stevedoring company".

Your Committee received testimony in support of this measure from the International Longshore and Warehouse Union, Local 142; Hawai'i State AFL-CIO; International Longshore and Warehouse Union, Local 100; Operating Engineers Local Union No. 3; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and ninety-four individuals. Your Committee received testimony in opposition to this measure from Island Energy Services, LLC; Par Hawaii; and Island Plastic Bags, Inc. Your Committee received comments on this measure from the Department of Transportation; Public Utilities Commission; Young Brothers, LLC; General Contractors Association of Hawaii; American Marine Corporation; Hawai'i Gas; and Hawaiian Cement.

Your Committee finds that to transport goods to the State's harbors, tugs are required to tow large vessels to docks for offloading and unloading of cargo. Recently, certain tug and barge crews that were tasked with securing vessels to docks were found to belong to out-of-state companies, and such crews may not be properly trained and certified under current state regulations. This measure supports the local maritime industry workforce while also ensuring the timely transport of cargo.

Your Committee notes that relevant stakeholders are continuing to discuss consensus language for this measure and requests that your Committee on Ways and Means consider the proposed language, should it choose to hear this measure.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with their intent and purpose of H.B. No. 714, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

**SCRep. 1402 (Joint) Health and Human Services and Labor and Technology on H.B. No. 777**

The purpose and intent of this measure is to authorize the Department of Human Services to conduct background checks for current and prospective employees, volunteers, contractors, contractors' employees and volunteers, subcontractors, and subcontractors' employees and volunteers, who are in positions that require close proximity to certain minors, young adults, or vulnerable adults.

Your Committees received testimony in support of this measure from the Department of Human Services, Disability and Communication Access Board, and six individuals. Your Committees received comments on this measure from the Hawai'i Civil Rights Commission.

Your Committees find that under existing State employment practices, background checks for prospective employees consist of searching the State of Hawaii name-based criminal history record check. This method relies on prospective new hires to self-report any convictions outside of the State. Authorizing the Department of Human Services to conduct comprehensive national and State fingerprint-based criminal history record checks and periodic, subsequent checks will allow the Department to obtain information directly from the Federal Bureau of Investigations and the Hawaii Criminal Justice Data Center. This measure will further ensure the health, safety, and well-being of minors, young adults, and vulnerable adults receiving child welfare, child protective services, extended foster care and higher education supports, social services, and adult protective or community services from the Department of Human services.

Your Committees acknowledge the concerns raised in testimony that this measure's technical renumbering of the paragraphs in sections 378-2.5(d) and 846-2.7(b), Hawaii Revised Statutes, will have substantive unintended impacts, as the state departments often base administrative rules or other policies and procedures on the existing paragraph numbers. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting technical amendments that would have renumbered and reordered the paragraphs in sections 378-2.5(d) and 846-2.7(b), Hawaii Revised Statutes;
- (2) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 777, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 777, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Keith-Agaran).

**SCRep. 1403 Transportation and Culture and the Arts on H.B. No. 541**

The purpose and intent of this measure is to require proper head lamp specifications for vehicle safety inspections.

Your Committee received testimony in support of this measure from the Department of Transportation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which requires proper head lamp specifications for vehicle safety inspection and requires the Department of Transportation to amend its administrative rules to allow motor vehicle owners whose motor vehicle registration and safety check are both expired to register their motor vehicle without first obtaining a certificate of inspection or obtain a certificate of inspection without first registering their motor vehicle.

Your Committee received testimony in support of the proposed S.D. 1 from one individual.

Your Committee finds that motor vehicle safety inspections ensure that all vehicle safety equipment is properly maintained to provide maximum safety for all roadway users. However, current processes for motor vehicle safety inspections require a valid motor vehicle registration. For certain motor vehicle owners who have expired motor vehicle registration, this creates a cumbersome process that requires the owner to fail a motor vehicle safety inspection, pay for a new motor vehicle registration, and return to the motor vehicle safety inspection site to receive a new inspection. This measure will add clarity to and streamline the process of motor vehicle safety inspections.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by specifying that the owner of a motor vehicle whose registration and safety check are both expired shall first obtain a certificate of inspection, then register the motor vehicle.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 541, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 541, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1404 Health and Human Services on H.B. No. 1340**

The purpose and intent of this measure is to authorize the Director of Health to establish a Temporary Breakthrough Therapy Designation Advisory Council within three months of a breakthrough therapy designation approval by the United States Food and Drug Administration.

Your Committee received testimony in support of this measure from the Department of Health, Clarity Project, Heroic Hearts Project, Hawai'i Psychological Association, SoundMind Institute, Beyond Mental Health, and twenty-seven individuals.

Your Committee finds that the United States Food and Drug Administration grants certain "breakthrough therapy" designations to expedite research and potential approval for drugs that treat a serious condition and whose preliminary clinical evidence indicates a substantial improvement over other available therapies. Although the post-breakthrough approval process can sometimes take four to six years following designation, your Committee believes that by concurrently reviewing the applicable scientific, legal, and regulatory background for each new therapy, the State will be better prepared to more quickly implement new breakthrough therapies once they receive federal approval. Further, your Committee believes that this improved process will also help expedite already-designated breakthrough therapies that are nearing federal approval, such as MDMA and psilocybin, which are proving to be promising therapies for a wide range of mental and psychiatric diagnosis. Therefore, this measure allows the Director of Health to convene a Temporary Breakthrough Therapy Designation Advisory Council for each new breakthrough therapy and to review any new treatment to help get life-changing therapies to the people of Hawaii faster and more efficiently.

Your Committee has amended this measure by:

- (1) Designating the Executive Director of the Office of Wellness and Resilience as the Chairperson of any established Temporary Breakthrough Therapy Designation Advisory Council, rather than the Director of Health;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1340, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1340, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1405 Government Operations on H.B. No. 719**

The purpose and intent of this measure is to provide more equitable access to government records by:

- (1) Imposing a cap on charges for the reproduction of certain government records;
- (2) Waiving the cost of duplication of government records provided to requestors in an electronic format;
- (3) Imposing a cap on charges for searching for, reviewing, and segregating records;
- (4) Providing for a waiver of fees when the public interest is served by a record's disclosure; and
- (5) Appropriating funds for two permanent positions within the Office of Information Practices.

Your Committee received testimony in support of this measure from the Commission to Improve Standards of Conduct, The Civil Beat Law Center for the Public Interest, Hawaii Bulletin, Big Island Press Club, Hawaii Chapter of the Society of Professional Journalists, League of Women Voters of Hawaii, American Civil Liberties Union of Hawai'i, Community Alliance on Prisons, Holomua Collaborative, All Hawaii News, and six individuals. Your Committee received testimony in opposition to this measure from the Department of Design and Construction of the City and County of Honolulu. Your Committee received comments on this measure from The Grassroot Institute of Hawaii.

Your Committee finds that public records laws provide a critical mechanism to maintain government accountability and transparency and support citizen involvement in government decision-making. This measure seeks to address the imposition of high search and reproduction costs as a deterrent to pursue Uniform Information Practices Act requests. Although your Committee recognizes a need to discourage nuisance requests or abuse of the public records law, and it also recognizes that agencies may vary in their interpretation of the current language regarding the waiver of fees when the public interest is served. Therefore, amendments are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the legislative findings;

- (2) Waiving reproduction costs charged for the first one hundred pages if the disclosure serves the public interest, will likely contribute significantly to the public understanding of the government's operations or activities, and is not primarily in the commercial interest; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 719, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 719, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1406 Health and Human Services on H.B. No. 1156**

The purpose and intent of this measure is to:

- (1) Authorize the provision of long-acting psychotropic medication to patients who are subject to emergency examination or hospitalization;
- (2) Authorize certain health care facilities to request the Director of Health to file a petition for an order for treatment over a patient's objection;
- (3) For requests that satisfy the requirements for administration of treatment over a patient's objection, require the Director of Health to pursue a petition to request an order for treatment over the patient's objection or convene an administrative panel, under certain conditions;
- (4) Expand which individuals may be ordered to receive treatment over an individual's objection;
- (5) Require the Family Court or an administrative panel to file a final order on a petition to request an order for treatment over the patient's objection within thirty days of the date the petition is filed;
- (6) Authorize psychiatrists, advanced practice registered nurses, and interested parties to request the Director of Health to file an assisted community treatment petition;
- (7) For requests that satisfy the criteria for assisted community treatment, require the Director of Health to file a petition for assisted community treatment within a certain number of days;
- (8) Require the Family Court to file a final order on an assisted community treatment petition within thirty days of the date the petition is filed;
- (9) Authorize the Family Court to use online hearings for assisted community treatment petitions;
- (10) Authorize the subject of a petition for assisted community treatment to stipulate to the petition and the Family Court to enter the stipulated order without an evidentiary hearing, under certain circumstance; and
- (11) Require the Department of Health to report to the Legislature on the number of requests for petitions for assisted community treatment submitted to the Director of Health after a certain date.

Your Committee received testimony in support of this measure from the State Council on Mental Health; The Institute for Human Services, Inc.; and two individuals. Your Committee received testimony in opposition to this measure from the Department of Health, Hawaii Disability Rights Center, American Civil Liberties Union of Hawai'i, and one individual. Your Committee received comments on this measure from the Judiciary and The Queen's Health System.

Your Committee finds that certain individuals presented to hospitals in emergency situations may be living with a chronic mental illness or experiencing a psychiatric crisis that requires stabilization. In these situations, due to the importance of timely treatment, it may be necessary to administer certain appropriate medications over a patient's objection. This measure would expedite the process for obtaining authorization to treat over objection, including for assisted community treatment, to ensure individuals living with behavioral health issues receive the care they need at the appropriate time.

However, your Committee notes the concerns raised in testimony that part I of this measure, as currently written, violates individuals' constitutional protections, particularly for individuals living with disabilities and mental health conditions. In addition, this measure, as currently written, does not adhere to the judicial procedure for the involuntary treatment of an individual established in state case law, is infeasible to implement, and would lead to greater inefficiencies and costs.

Your Committee further notes the concerns raised by the Judiciary regarding part II of this measure. Specifically, the Judiciary notes concerns that the proposed requirement for the Family Court to file a final order on a petition for assisted community treatment within thirty days of the date the petition is filed unless exigent circumstances exist is not clearly defined and may result in unintended consequences. Additionally, the Judiciary notes that the statutory definition of an individual who qualifies for assisted community treatment may preclude the individual from knowingly and voluntarily stipulating to a proposed order for treatment. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have:
  - (A) Authorized the provision of long-acting psychotropic medication to patients who are subject to emergency examination or hospitalization;

- (B) Authorized certain health care facilities to request the Director of Health to file a petition for an order for treatment over a patient's objection;
  - (C) For requests that satisfy the requirements for administration of treatment over a patient's objection, required the Director of Health to pursue a petition to request an order for treatment over the patient's objection or convene an administrative panel, under certain conditions;
  - (D) Expanded which individuals may be ordered to receive treatment over an individual's objection; and
  - (E) Required the Family Court or an administrative panel to file a final order on a petition to request an order for treatment over the patient's objection within thirty days of the date the petition is filed;
- (2) Deleting language that would have required the Family Court to endeavor to file a final order on a petition for assisted community treatment within thirty days of the date the petition is filed unless exigent circumstances exist;
  - (3) Deleting language that would have authorized the subject of a petition for assisted community treatment to stipulate to the petition, including the proposed treatment plan, and the Family Court to enter the stipulated order without an evidentiary hearing, under certain circumstances;
  - (4) Inserting an appropriation of an unspecified amount for the Judiciary to obtain applicable resources to effectuate this measure;
  - (5) Inserting an effective date of June 30, 2050, to encourage further discussion; and
  - (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1156, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1156, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1407 Health and Human Services on H.B. No. 233**

The purpose and intent of this measure is to establish a refundable state child tax credit payable on a monthly basis.

Your Committee received testimony in support of this measure from the Office of the Governor; one member of the Hawai'i County Council; Holomua Collaborative; Hawai'i Workers Center; Hawaii Appleseed Center for Law & Economic Justice; Hawai'i Health & Harm Reduction Center; Hawai'i Public Health Institute; Hawai'i State Coalition Against Domestic Violence; Hawai'i Children's Action Network Speaks!; HPM Building Supply; Hawaiian Host Group; JN Group; aio; Education Caucus of the Democratic Party of Hawai'i; Imua Alliance; Catholic Charities Hawai'i; Hawai'i Hunger Action Network; Title Guaranty of Hawaii; Hawai'i Foodbank; Hawai'i Alliance for Progressive Action; Tori Richard, Ltd.; and eighteen individuals. Your Committee received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that in 2022, twenty-nine percent of Hawaii's residents were categorized as Asset Limited, Income Constrained, Employed (ALICE) and fifteen percent were living in poverty. Therefore, a total of forty-four percent of Hawaii's population struggled to afford basic necessities in 2022. Given that families with children experience higher rates of poverty than those without, your Committee recognizes the dire need for strategies and supports that address the financial hardships uniquely borne by families with children.

Pursuant to its testimony, the Department of Taxation recommends that the tax credit established by this measure be made nonrefundable, as refundable credits are more prone to fraudulent claims, and to remove the provision that requires the credit to be equally distributed to a qualifying individual taxpayer over twelve consecutive months due to concerns that the credit is claimed against the net income tax liability for the taxable year and would complicate any refund of the remainder of the credit over the twelve consecutive months. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the awarded tax credit to be equally distributed to a qualifying individual taxpayer over twelve consecutive months;
- (2) Making the tax credit nonrefundable and conforming the measure accordingly;
- (3) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 233, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 233, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1408 (Joint) Health and Human Services and Government Operations on H.B. No. 977**

The purpose and intent of this measure is to repeal the Community Council on Purchase of Health and Human Services.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services and State Procurement Office.

Your Committees find that the Community Council on Purchase of Health and Human Services (Council) was established in 1997 to advise the State Procurement Administrator in the development of an improved standardized process for the purchase of health and human services that optimizes information-sharing, planning, and service delivery efforts. Your Committees further find that the services of the Council are no longer necessary, as the administrative rules for chapter 103F, Hawaii Revised Statutes, which govern the procurement process for purchases of health and human services, have been well established and any further rule amendments may be made by the Procurement Policy Board, established pursuant to section 103D-201, Hawaii Revised Statutes. As such, the Council has accomplished its statutory requirement and has not met since April 22, 2010. Accordingly, this measure repeals existing law that established the Council, which has since become obsolete.

Your Committees have amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 977, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 977, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 1409 (Joint) Government Operations and Health and Human Services on H.B. No. 978**

The purpose and intent of this measure is to:

- (1) Authorize heads of purchasing agencies to issue requests for statements of qualification and to establish lists of qualified providers for treatment purchase of services; and
- (2) Increase the small purchase threshold for health and human services.

Your Committees received testimony in support of this measure from the State Procurement Office and Department of Accounting and General Services.

Your Committees find that agencies under the treatment purchase of service procurement method are unable to establish and use their own lists of qualified providers as needed, specifically for the provision of health and human services. Your Committees further find that the small purchase threshold for health and human services, established under section 103F-405, Hawaii Revised Statutes, has remained unchanged at \$25,000 since the establishment of chapter 103F, Hawaii Revised Statutes, in 1997. Therefore, this measure authorizes heads of purchasing agencies to establish lists of qualified providers for treatment purchase of service procurement and provides adjustments to the small purchase threshold, which will benefit state agencies that purchase health and human services by reducing administrative costs, accelerating small purchase procedures, and freeing up scarce resources to execute complex high-dollar value procurements.

Your Committees have amended this measure by removing the independent numerical limit for the small purchases of health and human services and aligning it instead with the threshold for goods and services established in section 103D-305(a), Hawaii Revised Statutes, which is currently \$100,000.

As affirmed by the records of votes of the members of your Committees on Government Operations and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 978, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 978, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).

**SCRep. 1410 Government Operations on H.B. No. 1145**

The purpose and intent of this measure is to require all places of public accommodation and state building construction that is constructed after December 31, 2023, to provide universal changing accommodations in public restrooms.

Your Committee received testimony in support of this measure from State Council on Developmental Disabilities, Disability and Communication Access Board, Hawaii State Public Library System, Rainbow Family 808, Epilepsy Foundation of Hawaii, Stonewall Caucus of the Democratic Party of Hawai'i, and four individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Department of Accounting and General Services and Hawai'i Civil Rights Commission.

Your Committee finds that families and caregivers of people with disabilities should have equal opportunity to participate in as many civic activities and outings as possible. However, they must often plan or research their trip or daily activities to ensure that accessible spaces are included along their path of travel, taking into consideration the disability-friendly rest areas that provide a safe and dignified toileting area along a certain route. Implementing universal changing accommodations will ensure that people with disabilities have more equity in access, removing barriers to travel that currently hamper full participation and integration in daily activities. This measure will greatly increase access to public spaces for people with disabilities.

Your Committee acknowledges the concern raised in testimony that this measure does not allow state agencies to reasonably redesign projects already in progress to meet its requirements and could lead to numerous claims for hardship due to unreasonable time constraints. Accordingly, an amendment to this measure is necessary to address this concern.

Therefore, your Committee has amended this measure by clarifying that bids for state building construction projects submitted after June 30, 2024, shall include universal changing accommodations, where feasible and cost effective.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1145, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1145, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1411 (Majority) Government Operations on H.B. No. 167**

The purpose and intent of this measure is to make general contractors that enter into or are under contracts for work on buildings, structures, or other private works liable for debt incurred by subcontractors for wages due to claimants for performance of labor in the contract between the general contractor and owner in the State.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Operating Engineers Local Union No.3, Hawaii Regional Council of Carpenters, and Pacific Resource Partnership. Your Committee received testimony in opposition to this measure from Structural Builders Hawaii, Inc.; Building Industry Association of Hawaii; Graham Builders; JT Smith Construction, LLC; and two individuals. Your Committee received comments on this measure from the Department of Accounting and General Services, General Contractors Association of Hawaii, and Subcontractors Association of Hawaii.

Your Committee finds that there have been numerous construction projects in the State where unscrupulous employers engage in payroll and tax fraud by hiring dubious subcontractors. One such scheme was revealed at the Maile Sky Court construction site in Waikiki where the general contractor working on the site utilized subcontractors who underpaid employee wages without providing necessary benefits and safety standards. While the subcontractor received several fines from federal and state agencies, the general contractor involved went unpenalized and accrued all financial benefits of the scheme without repercussions. This individual's misuse of subcontractors allowed him to underbid legitimate contractors, report and pay lower taxes, and avoid liability of unpaid wages. Your Committee therefore finds this measure necessary to ensure that general contractors are liable for unpaid wages of their subcontractors, and provide a tool for general contractors to ensure all subcontractor workers are being paid properly and in compliance with the law.

Your Committee has amended this measure by:

- (1) Replacing the term "private work" with "private construction work" throughout the measure;
- (2) Clarifying that contractor liability applies to private construction work not subject to chapter 104, Hawaii Revised Statutes;
- (3) Inserting language to require payments be made in a timely manner consistent with prompt payments under section 103-10.5, Hawaii Revised Statutes;
- (4) Making conforming changes to the definition of "employer" in chapter 388, Hawaii Revised Statutes, relating to payment of wages and other compensation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 167, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 167, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1412 Government Operations on H.B. No. 565**

The purpose and intent of this measure is to establish and appropriate funds for the State Self-Insurance Against Property and Casualty Risks Special Fund to be administered by the Comptroller to provide the State with self-insurance coverage against property and casualty risks.

Your Committee received comments on this measure from the Department of Accounting and General Services and Department of Budget and Finance.

Your Committee finds that property and casualty insurance is a prudent risk mitigation strategy, which can cover costs for the damage, theft, or vandalism of property and provide liability protection for accidents or injuries to other people or their belongings. For this reason, the State currently purchases third-party insurance through its Risk Management and Insurance Administration. However, your Committee finds that the State's annual insurance premiums have been costly and notes that they are always subject to future premium increases.

Your Committee notes that one way to address the ever-increasing cost of third-party insurance is to require the State to self-insure against property and casualty risks by creating a state captive, which has been done in many other states. This measure requires that the State self-insure against property and casualty risk through the State Self Insurance Against Property and Casualty Risks Special Fund and eliminates the Comptroller's discretionary ability to purchase third-party property and casualty insurance in the future.

However, your Committee finds that these requirements could force the State to set aside hundreds of millions of dollars to meet the actuarial risk of large-scale disasters and could potentially generate huge losses for the State.

Your Committee has heard the testimony of the Department of Accounting and General Services, which expressed serious and grave concerns that an immediate conversion to a fully self-insured program could compromise the State's fiscal position and its ability to manage risk exposure. The Department notes that the better way to address the third-party cost issues described is to follow the lead of other states and to accelerate the creation of a state captive to underwrite the State's property and casualty risks.

Your Committee also finds that, generally, a captive insurer in an insurance company that is wholly-owned and controlled by its insured parties, or party, which in this case would be the State. The Department of Accounting and General Services testified that a captive insurance program could meet the goals of helping to minimize the total cost of insurance, while still protecting the State against catastrophic losses, and may contain other future benefits. Your Committee notes that in order to fully realize the benefits of a state captive, the Department would need to continue to have discretionary ability for reinsurance purposes.

Therefore, your Committee has amended this measure by:

- (1) Inserting a new section to chapter 41D, Hawaii Revised Statutes, to establish a captive insurance program;
- (2) Deleting the amendments to sections 41D-2 and 41D-4, Hawaii Revised Statutes, which removed the Comptroller's discretion to purchase property and casualty insurance and to pay property and casualty claims from the State Risk Management Revolving Fund;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Lastly, your Committee notes that while the Department provided suggested language to establish a captive insurance program, the Department testified that additional statutory sections are necessary to establish a trust fund and to provide the applicable investment authorization. Should your Committees on Ways and Means and Judiciary choose to deliberate on this measure, your Committee respectfully requests that it considers further examining whether additional statutory sections are necessary, and if so, in what form, to establish a captive insurance program.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 565, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 565, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, none. Excused, 1 (Wakai).

**SCRep. 1413 (Majority) Health and Human Services on H.B. No. 1217**

The purpose and intent of this measure is to make various amendments to laws regarding medical cannabis to provide clear parameters regarding the medical use of cannabis for qualifying patients, primary caregivers, qualifying out-of-state patients, and caregivers of qualifying out-of-state patients.

Your Committee received testimony in support of this measure from the Department of Health, Cure Oahu, PONO LIFE MAUI, and four individuals. Your Committee received testimony in opposition to this measure from Care Waialua, LLC; Fire Farms Maui, LLC; Kauai Farm Planning; and more than two hundred individuals. Your Committee received comments on this measure from Aloha Green Holdings, Inc.

Your Committee finds that chapter 329, Hawaii Revised Statutes, regulates the individual use of medical cannabis, and chapter 329D, Hawaii Revised Statutes, regulates medical cannabis dispensaries. As a result, any activity that falls outside of these existing laws is not regulated and clarity is needed as to what activities are permitted to support the fundamentals of the regulation system. This measure amends various provisions of laws regarding medical cannabis to ensure safe and legal access to medical cannabis, and resolve existing confusion with regard to the medical cannabis marketplace and its patients.

Your Committee acknowledges the concerns raised in testimony that this measure, as currently drafted, only allows five qualifying patients to cultivate medical cannabis at a particular location, which equates to only fifty cannabis plants. Your Committee also acknowledges the concerns raised in testimony that this measure is overly restrictive for qualifying patients who wish to cultivate medical cannabis for themselves. Accordingly, amendments to this measure are necessary to address these concerns.

Therefore, your Committee has amended this measure by:

- (1) Inserting language increasing the number of qualifying patients that may use a particular location to cultivate cannabis from five to fifty;
- (2) Removing the sunset date of December 31, 2024, which would have prohibited primary caregivers from cultivating cannabis for qualifying patients after that date;
- (3) Repealing existing law that exempts certain qualifying patients from obtaining medical cannabis or manufactured cannabis products from authorized sources;
- (4) Clarifying that no person shall produce, manufacture, or dispense cannabis or manufactured cannabis products without a dispensary license unless authorized pursuant to chapter 329, part IX, Hawaii Revised Statutes;
- (5) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1217, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1217, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, 2 (Shimabukuro, Awa). Excused, none.

**SCRep. 1414 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on H.B. No. 650**

The purpose and intent of this measure is to amend the Our Care, Our Choice Act to:

- (1) Authorize advanced practice registered nurses to practice medical-aid-in-dying in accordance with their scope of practice and prescribing authority;
- (2) Authorize advanced practice registered nurses with a psychiatric or clinical nurse specialization, in addition to psychiatrists, psychologists, and clinical social workers, to provide counseling to a qualified patient;
- (3) Reduce from twenty to five days, the mandatory waiting period between the two oral requests required for a qualified patient to obtain a prescription for medication that may be self-administered to end the patient's life in accordance with applicable state law; and
- (4) Waive the mandatory waiting period for terminally ill qualified patients who are not expected to survive the mandatory waiting period.

Your Committees received testimony in support of this measure from the Department of Health; Board of Nursing; Stonewall Caucus of the Democratic Party of Hawai'i; Kūpuna Caucus of the Democratic Party of Hawai'i; Compassion & Choices; Hawaii Society of Clinical Oncology; Hawai'i Association of Professional Nurses; The Hawaiian Islands Association for Marriage and Family Therapy; Hawai'i – American Nurses Association; Rainbow Family 808.com Inc.; Hawai'i Pacific Health; Hawai'i Psychological Association; and fifty-four individuals. Your Committees received testimony in opposition to this measure from Not Dead Yet, Hawaii Family Forum, and three individuals. Your Committees received comments on this measure from the Hawai'i State Center for Nursing.

Your Committees find that the State enacted the Our Care, Our Choice Act in 2018, to provide certain terminally ill individuals the option to receive prescription medication to allow them to die in a peaceful, humane, and dignified manner. However, many individuals experience difficulty in receiving this compassionate end-of-life care due to various barriers, including the lack of access to health care providers who can administer medical-aid-in-dying. Furthermore, according to testimony, during the past four years, twenty-seven percent of terminally ill patients in the State who made oral requests for a prescription died during the twenty-day mandatory waiting period, which is the longest waiting period among all states that have authorized medical-aid-in-dying. This measure addresses these barriers by authorizing additional medical practitioners to facilitate medical-aid-in-dying and reducing the mandatory waiting period.

Your Committees acknowledge the concerns raised in testimony that marriage and family therapists, identified by the United States Health Resources and Services Administration as one of the five core mental health professions, should also be authorized to provide counseling to determine whether the patient is capable and does not appear to be suffering from undertreatment or nontreatment of conditions that may interfere with the patient's ability to make an informed decision. Your Committees also acknowledge the request for clarification that advanced practice registered nurses authorized to provide counseling services pursuant to this measure also be required to have training in providing mental health services.

Accordingly, your Committees have amended this measure by:

- (1) Amending the definition of "counseling" to include consultations provided by:
  - (A) An advanced practice registered nurse or clinical nurse specialist licensed under chapter 457, Hawaii Revised Statutes, with psychiatric or mental health training; and
  - (B) A marriage and family therapist licensed pursuant to chapter 451J, Hawaii Revised Statutes;
- (2) Clarifying that, if the qualified patient's attending provider attests that the qualified patient will, within a reasonable medical judgment, die within five days after making the initial oral request, the mandatory five-day waiting period shall be waived;
- (3) Inserting language clarifying that if any provision of this the measure, or the application thereof to any person or circumstance, is held invalid, the invalidity does not affect other provisions or applications of the measure that can be given effect without the invalid provision or application, to the end that the provisions of the measure are severable;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 650, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 650, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.  
Health and Human Services: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Aquino, Moriwaki).  
Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1415 (Joint) Transportation and Culture and the Arts and Energy, Economic Development, and Tourism on H.B. No. 346**

The purpose and intent of this measure is to:

- (1) Require that the design of new state facilities be electric vehicle charger-ready;
- (2) Require the Hawaii State Energy Office, in consultation with the Department of Accounting and General Services and Department of Transportation, to survey and identify high priority state facilities for which the Office will consider cost assessments for retrofitting;
- (3) Establish a goal of the State to retrofit state facilities to be electric vehicle charger-ready; and
- (4) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaii State Energy Office, Department of Accounting and General Services, Hawai'i Climate Change Mitigation and Adaptation Commission, Ulupono Initiative, Blue Planet Foundation, Climate Protectors Hawai'i, Hawaii Electric Vehicle Association, Climate Future Forum, Wild Kids, Big Island Electric Vehicle Association, Hawaiian Electric, Kauai Climate Action Coalition, 350Hawaii.org, and twelve individuals. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from one individual.

Your Committees find that Act 74, Session Laws of Hawaii 2021, requires the State to transition its light-duty fleets to zero-emission vehicles by 2035. While the State has experienced an increase of electric vehicle ownership, there are few facilities that offer broad support for workplace electric vehicle charging. Your Committees further find that workplace charging can shift charging demand from peak hours, typically in the early evening, to times during the day when renewable energy is more economical and plentiful. This measure ensures greater equity for electric vehicle charging infrastructure to support the State's clean energy goals.

Your Committees have amended this measure by:

- (1) Clarifying that a minimum of twenty-five percent of parking stalls shall be electric vehicle-charger ready; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 346, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 346, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Awa).  
Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1416 Transportation and Culture and the Arts on H.B. No. 640**

The purpose and intent of this measure is to:

- (1) Amend the required coverage for shared cars that are made available through a peer-to-peer car-sharing program;
- (2) Clarify when the requirements for motor vehicle insurance coverage are satisfied; and
- (3) Repeal the sunset of the peer-to-peer car-sharing insurance requirements.

Your Committee received testimony in support of this measure from Turo. Your Committee received testimony in opposition to this measure from Hawaii Association for Justice and Hawaii Insurers Council. Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and Office of Consumer Protection of the Department of Commerce and Consumer Affairs.

Your Committee finds that the proliferation of peer-to-peer car sharing has provided residents and tourists with multiple transportation options to navigate the State. To address the growing popularity of peer-to-peer car sharing platforms, the Legislature enacted Act 56, Session Laws of Hawaii 2022, to establish mandatory insurance terms for peer-to-peer car sharing platforms regarding mandatory insurance coverage. However, as peer-to-peer car sharing platforms are relatively new, additional protections are needed to address liability and safety concerns. This measure increases consumer protection safeguards on peer-to-peer car sharing platforms to ensure the safety of both vehicle owners and users.

Your Committee has amended this measure by providing that for peer-to-peer car-sharing companies whose insurance coverage falls below an unspecified amount, the counties may adopt ordinances to regulate peer-to-peer vehicles, to repeal on July 1, 2025.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 640, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 640, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1417 Transportation and Culture and the Arts on H.B. No. 110**

The purpose and intent of this measure is to authorize the use of diacritical marks for Hawaiian words on special number plates.

Your Committee received testimony in opposition of this measure from the Honolulu Police Department.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and inserting language authorizing the issuance of special number plates to commemorate Duke Kahanamoku.

Your Committee received testimony in support of the proposed S.D. 1 from the Ocean Safety Division of the Department of Emergency Services of the City and County of Honolulu; Outrigger Duke Kahanamoku Foundation; Ikaika Hawaii; Servco Pacific, Inc.; Hawaii Aquatics Foundation; and thirteen individuals.

Your Committee finds that Duke Kahanamoku is a legendary waterman who was a five-time Olympic medalist in swimming and water polo, a dedicated public servant, and Hawaii's first ambassador of aloha. As one of the first internationally recognized surfers and Native Hawaiians, Duke Kahanamoku shared surfing and the aloha spirit, which brought international attention to Hawaii. This measure honors Duke Kahanamoku's world-renowned achievements while also raising awareness for water safety and swim education in Hawaii's coastal areas.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 110, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 110, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1418 Government Operations on H.B. No. 710**

The purpose and intent of this measure is to:

- (1) Establish the class C felony offense of using or making false statements or entries in matters within the jurisdiction of the executive, legislative, or judicial branch of the State, or any county;
- (2) Disqualify a person charged with using or making a false statement or entry from receiving public financing for elections for a period of ten years; and
- (3) Amend the offense of obstruction of justice.

Your Committee received testimony in support of this measure from the Commission to Improve Standards of Conduct, Honolulu Police Department, and one individual.

Your Committee finds that making false statements or entries within local government can weaken democracy. The issuance of false statements or entries undoubtedly impacts government resources and conditions. Your Committee further finds that the federal false claims statement statute established a class C felony offense for persons who, when dealing with state or county government, knowingly or willfully falsify, conceal, or cover up a material fact; make a materially false, fictitious, or fraudulent statement or representation; or make or use any false writing or document known to have materially false information. This measure will establish a similar offense in Hawaii, which will help state and county law enforcement root out corruption and misconduct in state and county government rather than rely on federal law enforcement.

Your Committee agrees with the testimony provided that the bar against service for ten years after a conviction of the class C felony is constitutional and as such has restored the original language that was in the draft of the measure as introduced.

Your Committee further finds that while there is a bar against running for office in the legislative branch after a conviction, no bar exists if someone in the executive or judicial branch is convicted of the same offense. As such, your Committee feels that it is important to ensure that should an offense occur in these other two branches, the same prohibition should apply to them as well.

Your Committee has amended this measure by:

- (1) Removing the legislative findings;
- (2) Changing the penalty for any person convicted of using or making false statements or entries in matters within the jurisdiction of the executive, legislative, or judicial branch of the State or any county from being disqualified from receiving public financing under part XIII, subpart J of chapter 11, Hawaii Revised Statutes, for a period of ten years from the date of conviction to being disqualified from holding any elected or appointed office in the executive, legislative, or judicial branches for a period of ten years from the date of conviction; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 710, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 710, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1419 (Majority) Government Operations on H.B. No. 712**

The purpose and intent of this measure is to:

- (1) Exempt licensing boards under the Department of Commerce and Consumer Affairs from the requirement that board meetings be recorded;
- (2) Encourage boards to maintain recordings of board meetings on the board's website regardless of whether the written minutes of the meeting have been posted;
- (3) Require boards to provide the state archives with a copy of any recording of a board meeting before removing the recording from the board's website; and
- (4) Require the written minutes of board meetings to include a link to the electronic audio or video recording, if available online.

Your Committee received testimony in support of this measure from the Department of Public Safety, Department of Land and Natural Resources, Commission to Improve Standards of Conduct, and two individuals. Your Committee received testimony in opposition to this measure from The Civil Beat Law Center for the Public Interest and League of Women Voters of Hawaii. Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Accounting and General Services, Office of Information Practices, and Disability and Communication Access Board.

Your Committee finds that requiring public boards to post any recordings of meetings on their websites and to submit those recordings to the State Archives so that they can remain available for public view represents sound government practice and would be beneficial for both the public and the State. This measure will help increase the transparency of public board meetings.

Your Committee notes that it is unnecessary to exempt licensing boards from the recording requirement because if there is confidential information being discussed, the board may go into executive session, thus preserving the ability of licensees and the public to view board meetings of importance to them.

Accordingly, your Committee has amended this measure by:

- (1) Eliminating the exemption for licensing boards under the Department of Commerce and Consumer Affairs from the requirement that board meetings be recorded; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 712, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 712, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1420 Government Operations on H.B. No. 723**

The purpose and intent of this measure is to expand the application of the State's Sunshine Law to legislatively appointed bodies, including task forces, working groups, commissions, special committees, and select committees, unless specifically exempted by the Legislature.

Your Committee received testimony in support of this measure from the Office of Information Practices, Commission to Improve Standards of Conduct, League of Women Voters of Hawaii, and four individuals. Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Sunshine Law is Hawaii's open meeting law and governs the manner in which all state and county boards must conduct their official business. This measure expands the Sunshine Law onto groups and bodies related to and created by the Legislature thereby increasing transparency of the State and better informing the public.

Your Committee has amended this measure by:

- (1) Deleting the legislative findings;
- (2) Removing language that would have allowed the Legislature to provide an exemption to the Sunshine Law in any bill or resolution establishing a legislatively appointed body; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 723, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 723, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1421 (Joint) Health and Human Services and Commerce and Consumer Protection on H.B. No. 1082**

The purpose and intent of this measure is to:

- (1) Define "waiting room" within a medical cannabis retail dispensing location and specify who may have access to the waiting room;
- (2) Clarify the Department of Health's rulemaking authority;

- (3) Establish system access and integration requirements for the computer software tracking system for medical cannabis dispensaries;
- (4) Require the Department of Health to annually report to the Legislature on data captured using the computer software tracking system;
- (5) Amend the medical cannabis dispensary program licensing fee structure;
- (6) Add or clarify requirements for the medical cannabis dispensary program related to signage, types of permitted manufactured cannabis products, supervision of certain personnel who are onsite at a retail dispensing location or medical cannabis production center, and the continuing education and training program conducted by the Department of Health;
- (7) Clarify that each day a violation of the medical cannabis dispensary program law occurs shall constitute a separate violation;
- (8) Establish annual reporting requirements for the Department of Health regarding the medical cannabis patient registry program;
- (9) Require the Department of Business, Economic Development, and Tourism to submit a report to the Legislature analyzing de-identified aggregated information regarding the medical cannabis patient registry program and medical cannabis dispensary program; and
- (10) Make various housekeeping amendments.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Metrc; Lau Ola LLC, dba Big Island Grown Dispensaries; Cure Oahu; Maui Grown Therapies; Aloha Green Holdings, Inc.; Hawai'i Cannabis Industry Association; and one individual. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, and Akamai Cannabis Consulting.

Your Committees find that existing laws governing the State's Medical Cannabis Dispensary Program and Medical Cannabis Registry Program need to be enhanced and streamlined for the Department of Health's efficient enforcement of its regulatory authority in order to improve access to medical cannabis for qualifying patients in the State and to protect the health and safety of patients and the general public. This measure effectuates these objectives by allowing caregivers to assist patients in waiting rooms of retail dispensary locations, preserving the Department's interim rulemaking authority to timely address various concerns, clarifying penalties for violations to facilitate enforcement of dispensary compliance, reducing administrative barriers and assisting medical cannabis dispensaries with streamlining operations and resources.

Your Committees further find that the language in the companion to this measure, S.B. No. 1380, S.D. 1 (2023), which was previously heard by your Committees, is preferable because it requires that written certifications for a patient with a chronic condition be valid for three years; removes the requirement that a certifying physician or advanced practice registered nurse have a "bona fide" physician-patient or advanced practice registered nurse-patient relationship to certify that a patient has a debilitating medical condition pursuant to chapter 329, Hawaii Revised Statutes; amends the rule-making authority for dispensary-to-dispensary sales; and requires medical cannabis dispensaries, in conjunction with physicians and advanced practice registered nurses who issue written certifications pursuant to section 329-123, Hawaii Revised Statutes, rather than the Department of Health, to conduct the continuing education and training program required by section 329D-26, Hawaii Revised Statutes.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1380, S.D. 1, a substantively similar measure, which also allows caregivers to assist patients in waiting rooms of retail dispensary locations and clarifies penalties for violations to facilitate streamlined enforcement of dispensary compliance;
- (2) Inserting language that amends the definition of "manufactured cannabis product" to include devices that provide safe pulmonary administration, edible cannabis products, and pre-rolled cannabis flower products;
- (3) Inserting language that allows dispensaries to transport not more than eight hundred ounces of cannabis or manufactured cannabis products to another dispensary within a thirty-day period, or other amounts with prior approval of the Department of Health;
- (4) Inserting language that amends the types of medical cannabis products that may be manufactured and distributed to reflect the amended definition of "manufactured cannabis product";
- (5) Inserting an effective date of June 30, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1082, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1082, H.D. 3, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Aquino, Moriwaki).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1422 (Joint) Health and Human Services and Commerce and Consumer Protection on H.B. No. 1300**

The purpose and intent of this measure is to:

- (1) Establish provisional or associate-level licensure requirements for marriage and family therapists, mental health counselors, and psychologists and authorize insurance reimbursements in certain circumstances;

- (2) Allow psychologist license applicants to sit for the licensing examination before completing supervised experience requirements;
- (3) Allow the Board of Psychology to grant licensure waivers in certain circumstances for psychologists;
- (4) Authorize insurance reimbursements for services provided by a supervised social work intern in certain circumstances; and
- (5) Appropriate funds to the Department of Commerce and Consumer Affairs to:
  - (A) Establish, recruit, and hire one full-time equivalent (1.0 FTE) office assistant V position to process new license applications; and
  - (B) Make appropriate updates to the Professional and Vocational Licensing Division's internal databases to create new license types established by this measure.

Your Committees received testimony in support of this measure from the Department of Public Safety; Department of Health; State Council on Mental Health; The Hawaiian Islands Association for Marriage and Family Therapy; Hawai'i Psychological Association; Kaliko Counseling Services, LLC; Elemental Guidance, LLC; Erik E. Acuna, LCSW LLC; Root2Rise Counseling Center; AlohaCare; Kauhale Healing, LLC; Xplor Counseling, LLC; Alan R. Spector, LCSW Psychotherapy; Talk It Out, LLC; Catholic Charities Hawai'i; Anuhea St. Laurent - Marriage and Family Therapy, LLC; National Association of Social Workers, Hawai'i Chapter; Hawai'i Counselors Association; Center for Healing & Transformation, LLC; and fifty-six individuals. Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Board of Psychology, and Hawaii Medical Service Association.

Your Committees find that there is a shortage of mental health professionals throughout the State, especially in rural areas. A significant cause of this shortage is that new mental health professionals seeking to complete their required hours of supervised practice can encounter tremendous financial difficulty due to Hawaii's high cost of living and the fact that their services are not eligible for insurance reimbursement. This measure would reduce the financial hardship for early career mental health providers and those seeking licensure in the field of mental health by allowing for reimbursement under certain conditions, thus helping to reduce the State's shortage of qualified mental health professionals.

Your Committees acknowledge the concerns raised in testimony that this measure authorizes a holder of a doctoral degree in clinical, counseling, and school psychology to sit for the Examination for Professional Practice required for licensure prior to meeting pre-doctoral internship and post-doctoral experience requirements. Your Committees note that internship experience and degree completion are essential to successfully passing the exam, which primarily tests the theoretical knowledge psychologists learn in their education program. Furthermore, your Committees also note that certain amendments made by this measure are redundant and unnecessary. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have authorized a holder of a doctoral degree in clinical, counseling, and school psychology to sit for the Examination for Professional Practice required for licensure prior to meeting pre-doctoral internship and post-doctoral experience requirements and inserting language requiring an applicant for licensure as a psychologist to have a doctoral degree, complete one year of post-doctoral supervised experience in psychology, and complete either an approved internship or one year of supervised experience in an internship or residency program to be eligible to take the Examination for Professional Practice;
- (2) Deleting redundant language that would have authorized the Board of Psychology to grant waivers or extensions to licensees who are unable to comply with continuing education requirements;
- (3) Inserting an effective date of June 30, 2050, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although the appropriations in this measure are blank, the Department of Commerce and Consumer Affairs requests an appropriation in the amount of \$67,876 to establish, recruit, and hire one full-time equivalent (1.0 FTE) office assistant V position to process new license applications, and \$75,000 to make appropriate updates to the Professional and Vocational Licensing Division's internal databases to create new license types established by this measure. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request it consider inserting these requested amounts.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1300, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1300, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Aquino, Moriwaki).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1423      Judiciary on H.B. No. 384**

The purpose and intent of this measure is to enact portions of the Uniform Parentage Act of 2017 to replace the Uniform Parentage Act of 1973.

Your Committee received testimony in support of this measure from the Judiciary, Commission to Promote Uniform State Laws, Stonewall Caucus of the Democratic Party of Hawai'i, and one individual. Your Committee received testimony in opposition to this

measure from three individuals. Your Committee received comments on this measure from the Department of Human Services, Hawai'i Women Lawyers, and three individuals.

Your Committee finds that the State has made some amendments over the years to chapter 584, Hawaii Revised Statutes, including the addition of an "expedited process of paternity" in 1996. However, in general, the law has not kept up with the changes in the make-up of families. This measure will ensure the equal treatment of children born to all parents so that no children are needlessly stigmatized and left without the protections and rights that they deserve.

Your Committee has amended this measure by:

- (1) Specifying that each birthing facility shall send to the Department of Health the original acknowledgment of parentage or an electronic version as allowed by statute, so that the birth certificate issued includes the names of the signatories and the genetic parents, and any information attenuated with the genetic parents to the extent that information is available, which shall be promptly recorded by the Department of Health;
- (2) Restoring the \$100 fee for determinations of parent-child relationship;
- (3) Restoring the \$50 surcharge for parent education for separating parties in matrimonial actions, where either party has a minor child, and for parties in parentage actions;
- (4) Inserting an effective date of March 22, 2075, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that if the Parentage Task Force of the Department of Health continues its work, then it is encouraged to suggest further amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 384, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 384, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard, San Buenaventura). Noes, none. Excused, 1 (Awa).

**SCRep. 1424      Judiciary on H.B. No. 724**

The purpose and intent of this measure is to amend the prohibition against contributions to a candidate committee or noncandidate committee by state and county contractors to include state and county grantees and the owners, officers, and immediate family members of a state or county contractor or state or county grantee.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, League of Women Voters of Hawaii, and five individuals. Your Committee received testimony in opposition to this measure from one individual. Your Committee received comments on this measure from the Commission to Improve Standards of Conduct.

Your Committee finds that under existing campaign finance law, only a state or county contractor is prohibited from making campaign contributions. However, owners, officers, employees, and family members of the contractor can still make contributions to election campaigns. Grantees, similar to contractors, receive state funds and thus should be treated similarly in the context of political contributions. This measure extends the ban to grantees of the state and counties, and the owners and officers of the grantee, and their immediate family, which will reduce the potential for donations to unduly influence policymaking.

Your Committee has amended this measure by specifying that section 11-335, Hawaii Revised Statutes, shall not apply to the partial public financial system.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 724, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 724, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1425      Judiciary on H.B. No. 980**

The purpose and intent of this measure is to:

- (1) Allow notice of a bond or recognizance forfeiture to be sent to either the surety or surety insurer, by certified mail, to start the thirty-day forfeiture countdown for the surety or surety insurer to locate and surrender a principal or file a motion or application to set aside the bond or recognizance forfeiture; and
- (2) Provide the State with an avenue to appeal when the court grants a motion or application to set aside a bail bond forfeiture.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that under section 804-51, Hawaii Revised Statutes, a surety has thirty days from receiving notice of a bail bond forfeiture, by personal service or certified mail, to locate and surrender the criminal defendant and to file a motion or application to set aside a bail bond forfeiture. If the surety is unable to locate the criminal defendant within the thirty-day search period, the surety must pay the full amount of the bond to the State. Sureties have been able to evade service of the notice. When sureties evade service, there is no incentive for them to locate criminal defendants who fail to appear in court and the State is not able to collect the moneys owed under the bonds. The surety and its insurer form an agency relationship when the surety registers a bond or recognizance with a

court. This measure will allow the notice to be sent to the surety insurer, which will reduce a loophole used by a surety to avoid its obligations on the bond or recognizance.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 980, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 980, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1426      Judiciary on H.B. No. 1097**

The purpose and intent of this measure is to update the Uniform Controlled Substances Act by adding substances scheduled under federal law.

Your Committee received testimony in support of this measure from the Department of Public Safety and Department of Law Enforcement.

Your Committee finds that this measure is necessary to make Hawaii's Uniform Controlled Substance Act, chapter 329, Hawaii Revised Statutes, consistent with changes to federal law and that these updates to Hawaii's Uniform Controlled Substances Act are in the interest of public health and safety.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1097, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1097, H.D. 2, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

**SCRep. 1427      (Joint) Health and Human Services and Transportation and Culture and the Arts on H.B. No. 794**

The purpose and intent of this measure is to designate the month of October as "Disability Awareness Month: Employment, Enrichment, and Inclusion" in recognition of the employment challenges and successes of persons with disabilities in the State.

Your Committees received testimony in support of this measure from the Department of Human Services, State Council on Developmental Disabilities, Office of Hawaiian Affairs, Disability and Communication Access Board, Hawaii Disability Rights Center, Hawai'i Family Caregiver Coalition, and seven individuals.

Your Committees find that according to the Centers for Disease Control and Prevention, one in five adult residents in the State identifies as having at least one disability that could affect their ability to work. Your Committees further find that although many individuals with a disability are successfully employed, others, especially with intellectual or developmental disabilities, continue to face disparities in the workforce. Your Committees also find that October was designated by the United States Congress as National Disability Employment Awareness Month in 1945 to educate the general public on the issues experienced by workers with disabilities and how employers can be more inclusive in their hiring practices, which has also been recognized in the State through gubernatorial and mayoral proclamations. By codifying October as "Disability Awareness Month: Employment, Enrichment, and Inclusion", this measure solidifies the State's commitment to the creation and maintenance of an inclusive workforce in the State.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 794, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 794, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.  
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).  
Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

**SCRep. 1428      Health and Human Services on Gov. Msg. No. 512**

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR, DEPARTMENT OF HUMAN SERVICES

G.M. No. 512    CATHERINE BETTS, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Catherine Betts for service as the Director of the Department of Human Services.

Your Committee received testimony in support of the nomination for the reappointment of Catherine Betts from the Office of the Governor; Department of Labor and Industrial Relations; Department of Land and Natural Resources; Department of Transportation; Department of Agriculture; Department of Taxation; Department of Budget and Finance; Department of Defense; Department of Health; Executive Office on Early Learning; Hawaii Public Housing Authority; Crime Victim Compensation Commission; Office of

Enterprise Technology Services; Office of Planning and Sustainable Development; Hawaii Family Support Institute; AlohaCare; Hawai'i Primary Care Association; Early Childhood Action Strategy; Parents and Children Together; Hawai'i Children's Action Network Speaks!; Hawaii Association of Health Plans; Hawai'i Public Health Institute; Healthcare Association of Hawaii; Hawai'i State Coalition Against Domestic Violence; Hawaii Friends of Civil Rights; Domestic Violence Action Center; Pū'ā Foundation; EPIC 'Ohana, Inc.; Child and Family Service; Partners in Development Foundation; SanHi Government Strategies, LLP; and twenty-seven individuals. Your Committee received testimony in opposition to the nomination for the reappointment of Catherine Betts from the Hawaii Coalition for Child Protective Reform, Hawaii Family Advocacy Group, and three individuals.

Upon review of the testimony, your Committee finds that Director Betts' experience, knowledge, and proven leadership as the Director of the Department of Human Services (Department) qualify her for reappointment as the Director of the Department. Director Betts has a Bachelor of Arts in Sociology from the University of California, Los Angeles and her Juris Doctorate from the William S. Richardson School of Law. Director Betts has served as the Director of Human Services since September 2020 and has spent the last twenty years serving the people of Hawaii in various roles in the field of human services. Her dedicated service has enabled her to gain an intimate understanding of the operations of the Department, the mission it serves, and the needs and concerns of many hardworking team members in the offices and divisions that carry out the Department's functions.

Your Committee further finds that prior to serving as the Director of Human Services, Director Betts served as Deputy Director for three years where she worked closely with the Social Services Division's Child Welfare Services Branch to improve staff morale and retention, ensure increased staff training and communication with the Judiciary and community partners, and maximize federal funding mechanisms for the Division. Director Betts has also previously served as the Executive Director of the Hawaii State Commission on the Status of Women; as an attorney in private practice handling family law, divorce, and custody matters; as a Deputy Attorney General in the Family Law Division where she handled child abuse and neglect cases and represented the Department of Health in involuntary commitment hearings; and as a community outreach and educator at the Sex Abuse Treatment Center at Kapiolani Medical Center for Women and Children. Her extensive experience in both the public and private sector, and with the Department in various roles, has enabled her to be a strong advocate for children, families, and residents that face many burdens and challenges across the State.

During Director Betts' service as Director of Human Services, she has delivered many accomplishments for the Department, despite the challenges imposed by the coronavirus disease 2019 pandemic. Director Betts has effectively managed the Department's operations, policy, budget decisions, and approximately two thousand employees. Under her leadership, Director Betts has fostered cross-sector collaboration, cultivating relationships with community stakeholders, nonprofits, and national policy organizations, and has been a valued partner in policy conversations with regard to social programs and services, housing, public health and safety, and other desperately needed services to assist Hawaii's most disadvantaged populations. She has also chaired numerous task forces and working groups and convened city, county, and state agencies and community stakeholders, to ensure initiatives and solutions were centered in and driven by the community. Notably, during Director Betts' tenure, the State implemented 'Ohana Nui, a multigenerational approach and framework to eliminating intergenerational poverty for Hawaii's families. The implementation of 'Ohana Nui under Director Betts' leadership demonstrates Director Betts' capacity for adapting evidence-based strategies that build upon the unique strengths of Hawaii's families and individuals to address their equally unique and complex needs. Evolving the Department into a modern, employee-responsive workforce is an area that Director Betts has identified for improvement, and her compassionate, empathetic leadership will help recruit and retain qualified professionals at a time when human services organizations across the country, including the Department, are experiencing critical staffing shortages.

Your Committee further finds that Director Betts is an active participant in her community and has demonstrated a commitment to public service. Director Betts currently serves on the Committee on Equality and Access to the Courts and on the Board of Directors for the Hawaii Filipino Lawyers Association. Your Committee additionally notes the testimony submitted on behalf of Director Betts that substantiates the integrity, compassion, and collaborative spirit with which she leads and dedicates herself to the State and community.

Your Committee finds that Director Betts' leadership abilities, professional experience, and accomplishments will continue to be an invaluable asset to the Department of Human Services, the State of Hawaii, and its residents, especially those of vulnerable and marginalized communities. Your Committee therefore recommends that Catherine Betts be reappointed as the Director of Human Services based on her extensive knowledge, background, and dedication to serving the public.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

#### **SCRep. 1429 Commerce and Consumer Protection on S.C.R. No. 17**

The purpose and intent of this measure is to request the Auditor to conduct a social and financial assessment of proposed mandatory health insurance coverage for services provided by pharmacists.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Board of Pharmacy, Hawaii Medical Service Association, Hawai'i Pacific Health, Hawai'i Primary Care Association, Keto Prescription Clinic, Walgreen Co., Hawaii Pharmacists Association, and twelve individuals. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that section 23-51, Hawaii Revised Statutes, requires that "[b]efore any legislative measure that mandates health insurance coverage for specific health services, specific diseases, or certain providers of health care services as part of individual or group health insurance policies, can be considered, there shall be concurrent resolutions passed requesting the auditor to prepare and submit to the legislature a report that assesses both the social and financial effects of the proposed mandated coverage." Senate Bill No. 693, introduced in the Regular Session of 2023, mandates reimbursement for services provided by participating registered

pharmacists practicing within their scope of practice by private and public health plans in the state beginning January 1, 2024. Accordingly, this measure requests the Auditor to conduct a social and financial assessment of the proposed mandatory health insurance coverage as set forth in Senate Bill No. 693, in accordance with the requirements of State law.

Your Committee has amended this measure by inserting references to Senate Bill No. 693, Regular Session of 2023, where necessary.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 17, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 17, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1430 Commerce and Consumer Protection on S.C.R. No. 4**

The purpose and intent of this measure is to request the Auditor to conduct a sunrise review of the licensure of associate physicians.

Your Committee received testimony in support of this measure from the Hawaii Medical Board and Hawaii Medical Service Association. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that persons who have graduated from an accredited medical school but who have not been accepted to a medical residency program are not eligible to be licensed to practice medicine in the State. Senate Bill No. 61, introduced during the 2023 Regular Session, proposes the authorization of associate physicians to practice medicine in the State and the regulation and licensure of associate physicians. Section 26H-6, Hawaii Revised Statutes, requires new measures subjecting unregulated professions and vocations to licensing or other regulatory controls to be referred, via concurrent resolution, to the Auditor for analysis. Accordingly, this measure requests the Auditor to analyze the proposed licensure of associate physicians pursuant to section 26H-6, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Specifying Senate Bill No. 61 (2023) as the measure requested to be analyzed by the Auditor; and
- (2) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 4, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 4, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1431 (Majority) Commerce and Consumer Protection on S.C.R. No. 18**

The purpose and intent of this measure is to request the Auditor to conduct a social and financial assessment of proposed mandatory health insurance coverage for various sexual and reproductive health care services.

Your Committee received testimony in support of this measure from the Hawaii Medical Service Association, Planned Parenthood Alliance Advocates – Hawai‘i, Stonewall Caucus of the Democratic Party of Hawaii, Rainbow Family 808, and one individual. Your Committee received comments on this measure from the Office of the Auditor.

Your Committee finds that section 23-51, Hawaii Revised Statutes, requires that “[b]efore any legislative measure that mandates health insurance coverage for specific health services, specific diseases, or certain providers of health care services as part of individual or group health insurance policies, can be considered, there shall be concurrent resolutions passed requesting the auditor to prepare and submit to the legislature a report that assesses both the social and financial effects of the proposed mandated coverage.” House Bill No. 1179, introduced in the Regular Session of 2023, proposes to expand existing health insurance coverage, without cost-sharing, to cover various sexual and reproductive health care services. Additionally, House Bill No. 1180, introduced in the Regular Session of 2023, proposes to expand existing health insurance coverage and allows cost-sharing to cover various sexual and reproductive health care services. This measure requests the Auditor to conduct a social and financial assessment of the proposed mandatory health insurance coverage, with and without cost-sharing, for various sexual and reproductive health care services proposed by House Bill No. 1179 (2023) and House Bill No. 1180 (2023), respectively, in accordance with section 23-51, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting references to House Bill No. 1179 and House Bill No. 1180, Regular Session of 2023, where necessary; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 18, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 18, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

**SCRep. 1432 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts on S.C.R. No. 164**

The purpose and intent of this measure is to:

- (1) Urge the United States to support Taiwan's participation in international organizations, including the World Health Organization, United Nations Framework Convention on Climate Change, and International Civil Aviation Organization; and
- (2) Urge international organizations to grant Taiwan membership, observer, or other appropriate status.

Your Committees received testimony in support of this measure from the Taipei Economic and Cultural Office in Honolulu.

Your Committees find that Taiwan has a gross domestic product of \$828,600,000,000, making it the twenty-first largest economy in the world. Additionally, Taiwan is the fifty-seventh most populous nation or dependency in the world with a population of approximately twenty-three and a half million. Your Committees further find that Taiwan has full membership in forty intergovernmental organizations or their subsidiary bodies, including the World Trade Organization, Asia-Pacific Economic Cooperation, and Central American Bank for Economic Integration. Despite those memberships and statuses, Taiwan is not a member of the World Health Organization, International Criminal Police Organization, United Nations Framework Conventions on Climate Change, or International Civil Aviation Organization. This measure support efforts for Taiwan to obtain membership, observer, or other appropriate status in international organizations.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 164 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Fukunaga, McKelvey).

Transportation and Culture and the Arts: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Inouye).

**SCRep. 1433 Hawaiian Affairs on S.C.R. No. 191**

The purpose and intent of this measure is to urge the establishment of a Native Hawaiian Intellectual Property Working Group to discuss policies and legislation with respect to Native Hawaiian intellectual property.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Waimea Hawaiian Civic Club; and twelve individuals.

Your Committee finds that Native Hawaiians possess collective intellectual property rights derived from the traditional and cultural practices that their ancestors developed over thousands of years and passed down from generation to generation. This collective intellectual property takes many forms and includes but is not limited to ka 'ōlelo Hawai'i, hula, mele, mo'olelo, lei making, kapa making, kākau, weaving, feather work, carving, and wayfinding. Your Committee further finds that as legal disputes between Native Hawaiians and third-party users of indigenous knowledge have increased -- including the recent incident where a non-Hawaiian food chain in Chicago, Aloha Poke Co., issued cease-and-desist letters to poke food businesses in Hawaii seeking to prevent their use of the words "Aloha" and "Poke" in a blatant attempt to claim ownership of these Native Hawaiian cultural expressions -- a working group is necessary to investigate and discuss how Native Hawaiian groups can best protect their collective intellectual property rights.

Your Committee has amended this measure by:

- (1) Inserting additional findings relating to the 2003 Paoakalani Declaration compiled at the Native Hawaiian Intellectual Property Rights Conference and the 2021 ratification of the *Huamakahikina Declaration on the Integrity, Stewardship, and Protection of Hula*;
- (2) Adding the Association of Hawaiian Civic Clubs to the Native Hawaiian Intellectual Property Working Group;
- (3) Requesting that the Native Hawaiian Intellectual Property Working Group consult with the Creative Industries Division of the Department of Business, Economic Development, and Tourism, in addition to other Native Hawaiian communities and organizations deemed appropriate;
- (4) Requesting the Native Hawaiian Intellectual Property Working Group members and the named organizations and entities to have discretion to include additional Native Hawaiian organizations and entities through consensus;
- (5) Requesting the Native Hawaiian Intellectual Property Working Group to monitor the upcoming, June 5-9, 2023, forty-seventh session of the World Intellectual Property Organization's Intergovernmental Committee on Intellectual Property and Genetic Resources, Traditional Knowledge and Folklore;
- (6) Adding the President of the Association of Hawaiian Civic Clubs and the Director of the Department of Business, Economic Development, and Tourism to the list of certified copy recipients; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Lastly, your Committee notes that testifiers in support requested that Native Hawaiians be granted continued access to, and use of, any traditional or new intellectual property designated as Native Hawaiian intellectual property by the Working Group.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 191, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 191, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

**SCRep. 1434 Government Operations on Gov. Msg. No. 533**

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY COMPTROLLER, DEPARTMENT OF ACCOUNTING AND GENERAL SERVICES

G.M. No. 533 MEOH-LENG SILLIMAN, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Meoh-Leng Silliman for service as Deputy Comptroller of the Department of Accounting and General Services.

Your Committee received testimony in support of Ms. Silliman's nomination and appointment as Deputy Comptroller of the Department of Accounting and General Services from the Office of the Governor; State Procurement Office; Department of Budget and Finance; Department of Taxation; Department of Labor and Industrial Relations; Department of Defense; Office of Information Practices; Hawaii Public Housing Authority; Department of Health; Department of Transportation; Department of Land and Natural Resources; Department of Public Safety; Department of Human Services; Department of Agriculture; Department of Education; Stadium Authority of the Department of Business, Economic Development, and Tourism; Office of Enterprise Technology Services; Campaign Spending Commission; Office of Elections; Office of Planning and Sustainable Development; Department of Human Resources Development; and thirty individuals.

Upon review of the testimony, your Committee finds that Ms. Silliman's background, experience, and desire to serve the State qualify her to be nominated for appointment as the Deputy Comptroller of the Department of Accounting and General Services. Your Committee notes that Ms. Silliman began working for the State through the Research Corporation University of Hawaii as a Manager at their Youth Technology Mentoring Program. Since then, Ms. Silliman has worked at the Department of Education, Department of Commerce and Consumer Affairs, Department of Budget and Finance, and the Department of Accounting and General Services. Ms. Silliman has proven herself to be an asset for the State through her diligent service record and dedication to the people of Hawaii. Your Committee is convinced that in each new position at a state administrative agency, Ms. Silliman brought energy, creativity, innovation, vision, and the sincere dedication to the long-term best interests of the organization.

Ms. Silliman's extensive experience working for the State provides her with experience in major functional areas in management. Testifiers in support of Ms. Silliman's nomination praise not only her technical knowledge, but also her capacity to be generous with sharing knowledge and mentoring others. At a time when the State is faced with high position vacancy rates, it is imperative that its leaders embrace responsibility for developing the next generation of leaders and cultivate the professional development of the State's workforce. Her record of proven leadership and management skills have prepared her for the unique challenges of the Department of Accounting and General Services. Her diverse background has provided her with the requisite qualifications to serve the State well in the capacity of Deputy Comptroller.

Your Committee therefore recommends that Meoh-Leng Silliman be appointed as Deputy Comptroller of the Department of Accounting and General Services based on her background, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

**SCRep. 1435 Public Safety and Intergovernmental and Military Affairs on Gov. Msg. No. 509**

Recommending that the Senate advise and consent to the nomination of the following:

ADJUTANT GENERAL, DEPARTMENT OF DEFENSE

G.M. No. 509 KENNETH HARA, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Kenneth S. Hara for service as the Adjutant General of the Department of Defense.

Your Committee received testimony in support of the nomination for the appointment of Major General Kenneth Hara from the Governor, Department of Land and Natural Resources, Department of Labor and Industrial Relations, Department of Public Safety, Office of Enterprise Technology Services, Department of Budget and Finance, Department of Taxation, Department of Education, Department of Transportation, Department of Agriculture, Department of Human Services, Department of Health, Hawaii Paroling Authority, Department of Defense, Department of Budget and Finance, Hawai'i Office of Homeland Security, Office of Planning and Sustainable Development, Hawai'i State Fusion Center, Hawaii Technology Development Corporation, Maui Emergency Management Agency, Hawaiian Electric Industries, Hawaii Military Affairs Council, Hawai'i Lodging and Tourism Association, and twenty-four individuals.

Upon review of the testimony, your Committee finds that Major General Hara's experience, background, and knowledge of military and emergency management qualify him for appointment as the Adjutant General of the Department of Defense. Major General Hara has a career with the Hawaii National Guard spanning over thirty-eight years and has served as Adjutant General of the Department of Defense since 2019, where he oversaw the Hawaii Emergency Management Agency, Office of Homeland Security, and training and readiness of the 5,500 soldiers and airmen of the Hawaii National Guard. Major General Hara has a Master of Strategic Studies from the United States Army War College and a Bachelor of Arts degree in Human Services from Hawaii Pacific University. He also previously served as the Deputy Adjutant General of the Department of Defense; Chief of the Joint Staff of the Hawaii National Guard; Commander and Deputy Commander of the Twenty-Ninth Infantry Brigade Combat Team of the Hawaii Army National Guard; Deputy G3 of the Hawaii Army National Guard; and Battalion Commander of the First Squadron, Two Hundred Ninety-Ninth Cavalry and Second Battalion, Two Hundred Ninety-Ninth Infantry.

Your Committee finds that, over the course of Major General Hara's career with the Hawaii National Guard, he has commanded at every level. His military experience and leadership includes combat deployments to Iraq, Kuwait, and the Islamic Republic of Afghanistan, where he demonstrated his ability to defend the nation and its national interests. Additionally, Major General Hara has

received numerous awards and decorations, including the Legion of Merit, Bronze Star Medal, and Hawaii National Guard Association Field Grade Officer of the Year.

Your Committee further finds that, as Adjutant General and Deputy Adjutant General, Major General Hara led departmental initiatives related to natural disasters, including overseeing disaster response efforts with federal, state, county, and private partners across the State, and helped to maintain the State's force structures. Your Committee notes that Major General Hara was instrumental in the State's response to and recovery from the coronavirus disease 2019 (COVID-19) pandemic and served as the State's Incident Commander for the COVID-19 pandemic. As the Incident Commander, Major General Hara collaborated with a wide variety of stakeholders and government officials to safeguard the State's residents and visitors and organized and executed over \$100,000,000 of federal Coronavirus Aid, Relief, and Economic Security Act (CARES) funding to provide protective equipment, contact tracing, isolation, and sanitization capabilities to the State. Major General Hara was also designated as the Dual Status Commander for the 2018 Kilauea lava flow that threatened numerous lives and left a path of devastating destruction for many, as well as for Hurricane Lane that posed an immeasurable threat to the State that same year. As Dual Status Commander, he was afforded command authority over active duty forces, which is a testament to the confidence and regard the leadership of the United States Indo-Pacific Command has in his abilities. Your Committee, therefore, finds that Major General Hara has been an effective leader and has clearly demonstrated the capacity, technical knowledge, and leadership necessary to ensure the safety and security of Hawaii's people as the Adjutant General of the Department of Defense.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1436 Public Safety and Intergovernmental and Military Affairs on Gov. Msg. No. 510**

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR, DEPARTMENT OF LAW ENFORCEMENT

G.M. No. 510 JORDAN LOWE, for a term to expire at noon on 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by Jordan Lowe for service as the Director of the Department of Law Enforcement.

Your Committee received testimony in support of the nomination for the appointment of Jordan Lowe from the Governor; Office of Enterprise Technology Services; Department of Land and Natural Resources; Department of Education; Department of Human Services; Department of Taxation; Department of Defense; Department of Public Safety; Department of Transportation; Department of Health; Department of Agriculture; Department of Labor and Industrial Relations; Hawaii Paroling Authority; Department of Budget and Finance; Hawai'i Office of Homeland Security; Hawai'i State Fusion Center; Office of Planning and Sustainable Development; Department of the Prosecuting Attorney of the City and County of Honolulu; State of Hawaii Organization of Police Officers; Hawaii High Intensity Drug Trafficking Area; Care Hawaii, Inc.; RD Aton Enterprises, LLC; and sixty-one individuals.

Upon review of the testimony, your Committee finds that Jordan Lowe's experience, background, and knowledge of law enforcement qualify him for appointment as the Director of the Department of Law Enforcement. Mr. Lowe has over forty years of law enforcement experience with various federal, state, and local law enforcement agencies. Most recently, Mr. Lowe served as Deputy Director of Law Enforcement for the Department of Public Safety, where he managed administrative oversight for the Sheriff Division and Narcotics Enforcement Division. He also previously served as the Chief Investigator for the Department of the Prosecuting Attorney of the City and County of Honolulu, Chief Special Agent for the Criminal Investigation Section of the Department of Taxation, and as the Resident Agent in Charge and a supervisory special agent for the United States Bureau of Alcohol, Tobacco, Firearms, and Explosives. Prior to joining the United States Bureau of Alcohol, Tobacco, Firearms, and Explosives in Honolulu, Mr. Lowe worked as a special agent for the Criminal Investigation Division of the Internal Revenue Service's San Francisco Field Division.

Your Committee finds that over the course of Mr. Lowe's career in law enforcement, he worked closely with law enforcement agencies at various levels of government. This is particularly critical in Hawaii where collaboration between agencies is essential in addressing multi-jurisdictional issues that are often a challenge to combating criminal activity in the State. He conducted significant multi-defendant narcotics investigations that were regional, national, and international in scope; provided technical assistance to state and local bomb squads as a Certified Explosives Specialist; directed other personnel assigned to high-risk operations as an Assistant Team Leader for Crisis Negotiations; and supervised and managed multifaceted financial investigations relating to Internal Revenue Service law enforcement. In addition to receiving numerous commendations and awards for performance in service, Mr. Lowe has also acquired the necessary managerial and supervisory experience to lead at the departmental level.

Your Committee notes that many testimonies in support of his appointment reference Mr. Lowe's considerable leadership skills, which has garnered the respect of those with whom he has interacted throughout his career based on his fairness, integrity, honesty, and strong work ethic. Your Committee, therefore, finds that Mr. Lowe brings to the Department of Law Enforcement extensive expertise in public service in law enforcement and will be a crucial asset in forming the newly-created Department, developing its investigation programs, and centralizing its enforcement functions.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1437 Agriculture and Environment on Gov. Msg. No. 501**

Recommending that the Senate advise and consent to the nomination of the following:

CHAIRPERSON, DEPARTMENT OF AGRICULTURE

G.M. No. 501 SHARON HURD, for a term to expire at noon on 12-31-2026

Your Committee reviewed the personal history, resume, and statement submitted by Sharon Hurd for service as the Chairperson of the Board of Agriculture.

Your Committee received testimony in support of Ms. Hurd's nomination and appointment as Chairperson of the Board of Agriculture from the Office of the Governor; Department of Health; Department of Transportation; Department of Budget and Finance; Department of Land and Natural Resources; Department of Labor and Industrial Relations; Department of Commerce and Consumer Affairs; Department of Taxation; Department of Public Safety; Office of Planning and Sustainable Development; Hawaii Technology Development Corporation; Office of Enterprise Technology Services; Maui County Farm Bureau; Hawaii Export Nursey Association; Big Island Association of Nurserymen; Pohaku Farm; Matson Navigation Company, Inc; Hawaii Harbor Users Group; Hawai'i Hemp Farmers Association; Kauai Kunana Dairy; Lokoea Farms; Puna Flower Power; Kuahiwi Ranch; MauiGrown Coffee, Inc.; Synergistic Hawaii Agriculture Council; North Shore Economic Vitality Partnership; Ponoholo Ranch Limited; Hawaii Farmers Union United; Kona Coffee Farmers Association; Kona Earth, LLC; Green Point Nurseries, Inc.; Huahua Farm; Meadow Gold Dairies Hawaii; Elevation Coffee Farm; Adaptations, Inc; Hawaii Foodservice Alliance, LLC; Hawaii Floriculture and Nursery Association; Orchid Growers of Hawai'i; Hawaii Tropical Flower Council; Hawaii Ulu Producers Cooperative; Diamond B Ranch, LLC; Hawai'i Alliance for Progressive Action; Hawaii Agriculture Research Center; Hawaii Food Industry Association; Funder Hui; Kona Perfect; Hawaii Meats, LLC; Larry Jefts Farms, LLC; Hawai'i Forest Industry Association; Kahua Pa'a Mua; Ho'ōla Farms; Palani Ranch; Wakefield and Sons, Inc.; Isla Custom Coffees, LLC; Hawaii Master Food Preservers; Rancho Aloha Coffee Farm; Ulupono Initiative; Hibiscus Lady Nursery; Hawaii Tropical Fruit Growers; Hawaii Coffee Association; Hawaii Cattlemen's Council, Inc.; Plant Hawaii; Hawai'i Farm Bureau; Hawaii Avocado Association; Hawaii Aquaculture and Aquaponics Association; Kau Coffee Growers Cooperative; Kapāpala Ranch; Manowaiopae Excellent Adventure Farm; Aina Ho'okupu o Kilauea; The Food Basket, Inc.; Mahi Pono; Rusty's Hawaiian, LLC; Island Harvest; Maui Floral; Waimanalo Agricultural Association; Trees for Honolulu's Future; Hawaii Organic Farming Association; Hua Orchards; and ninety-nine individuals.

Upon review of the testimony, your Committee finds that Ms. Hurd's background, experience, and desire to serve Hawai'i's agriculture community qualify her to be nominated for appointment as the Chairperson of the Board of Agriculture. Your Committee notes that Ms. Hurd has been with the Department of Agriculture since 2007 as a Business Development Program Manager where she focused primarily on securing and administering federal grants to increase the quantity and quality of locally grown food and to enhance the competitiveness of Hawai'i specialty crops. Furthermore, your Committee finds that Ms. Hurd has proved pivotal throughout several agricultural policy initiatives, which has allowed her to develop a reputation as a committed leader throughout Hawai'i's agricultural industry and state government.

Ms. Hurd earned her Bachelors of Arts in Zoology from the University of Hawaii at Manoa and worked at Delta Air Lines as a Cargo Sales Manager, gaining twenty-five years of experience and insight into air cargo sales, contract negotiation, logistical planning, and customer service. Ms. Hurd has a demonstrated track record of achievement that spans over forty years and a wide range of knowledge with state and federal regulations, specializing in procurement, grant administration, and contracting procedures.

As the Chairperson of Board of Agriculture, Ms. Hurd pledges to commit the Department of Agriculture to the full implementation of Act 90, Regular Session 2003 (Act 90), which was enacted to transfer certain non-agricultural park lands from the Department of Land and Natural Resources to the Department of Agriculture. While three hundred parcels consisting of approximately nineteen thousand acres have been transferred, many parcels have yet to be. Ms. Hurd pledges to complete this transfer in one year and to provide a progress report of the implementation of Act 90 in eight to nine months to the Legislature. Ms. Hurd additionally pledges to focus on biosecurity and invasive species management. Furthermore, as the Chairperson of the Board of Agriculture, Ms. Hurd's top priority will be to shift Hawai'i agriculture towards commercial production by supporting subsistence farmers to aid in their transition, and to develop a masterplan for food security that will support all of agriculture and its subsectors.

Ms. Hurd is also committed to expanding agriculture, with sensitivity towards farm buffer zones near residential areas, to ensure that neighborhoods bordering agricultural lands are not victims to unreasonable amounts of noise, debris, or smells that may reduce their quality of life. She is committed to compensating homeowners; redoing leases; and handling noise, debris, and pollution issues diplomatically, as is needed. Lastly, Ms. Hurd has made the commitment to your Committee to bring attention to the water meter issue on Molokai, where over twenty-five farmer and rancher retirees are being overcharged for water use despite the removal of their meters years ago, which are used to calculate water usage. Your Committee therefore recommends that Sharon Hurd be appointed as Chairperson of the Board of Agriculture based on her background, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.  
Ayes, 5. Noes, none. Excused, none.

**SCRep. 1438 (Joint) Agriculture and Environment and Health and Human Services on S.C.R. No. 3**

The purpose and intent of this measure is to request the Department of Health to adopt rules for a permit to discharge pollutants that include the major factors that are considered in identifying the functional equivalent of a direct discharge for point sources or non-point sources.

Your Committees received testimony in support of this measure from the Hawaii Reef and Ocean Coalition. Your Committees received testimony in opposition to this measure from one individual. Your Committees received comments on this measure from the Department of Health.

Your Committees find that on July 26, 2021, the Hawaii District Court concluded that the County of Maui was required to obtain a National Pollutant Discharge Elimination System permit for the Lahaina Wastewater Reclamation Facility's discharge into the Pacific Ocean based on the United States Supreme Court case ruling in *County of Maui v. Hawaii Wildlife Fund*. Furthermore, this measure requests that the Department of Health use the ruling of the United States Supreme Court in *County of Maui v. Hawaii Wildlife Fund* and guidelines established by the United States Environmental Protection Agency to adopt rules for a permit to discharge that include the major factors that are considered in identifying, for point sources or non-point sources, the functional equivalent of a direct discharge.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 3 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Moriwaki).

**SCRep. 1439 Higher Education on S.C.R. No. 27**

The purpose and intent of this measure is to request the University of Hawaii to support ending menstrual inequity by providing menstrual products to all persons, free of charge, in all University of Hawaii restrooms.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, University of Hawai'i System, Ma'i Movement Hawai'i, PERIOD., Hawaii Women's Coalition, Midwives Alliance of Hawaii, Zen Den Midwifery, and twenty-nine individuals.
