- (5) Inserting language clarifying that communications about a request for proposals, contract, or vendor relationship are not considered "lobbying" if they are initiated by a legislator or state employee;
- (6) Deleting language that would have repealed the definition of "administrative action" in section 97-1, Hawaii Revised Statutes;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawai'i State Ethics Commission.

Your Committee received testimony in opposition of the proposed S.D. 1 from the Hawai'i Federation of Republican Women, Godwits Mercy Inc., and more than one hundred forty individuals.

Your Committee received comments on the proposed S.D. 1 from the Grassroot Institute of Hawaii and two individuals.

Your Committee finds that transparent disclosure of lobbying activities is in the public interest. Under the existing lobbying law, chapter 97, Hawaii Revised Statutes, "lobbying" an administrative agency only regards formal rulemaking or other actions governed by section 91-3, Hawaii Revised Statutes. This measure will promote government transparency by providing the public with additional information regarding lobbying at the administrative agency level and promote a level playing field for all businesses.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Deleting language that would have created a presumption that an individual submitting testimony or engaging in lobbying activities is acting on behalf of a paying person rather than in an individual capacity unless the testimony pertains to a subject not relevant to the paying person;
- (2) Inserting language creating a presumption that any individual with a substantial ownership interest in or a paid employee, officer, or director of an organization, who actively participates in lobbying activities that directly benefit that organization, is receiving compensation from the organization for their lobbying efforts;
- (3) Replacing the term "transaction" with "contract";
- (4) Deleting language that would have amended the definition of "lobbyist" to include any individual who submits testimony ten or more times during any calendar year;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2219, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2765 Judiciary on S.B. No. 3036

The purpose and intent of this measure is to:

- (1) Clarify the definition of "profits from prostitution" to include money or property received regardless of expenditures or if it was a reimbursement or repayment of a debt; and

- (2) Amend the sex trafficking and promoting prostitution criminal offense statutes by inserting relevant definitions in those statutes and repealing a statute that is no longer needed.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Honolulu Police Department, one member of the Hawai'i County Council, and Imua Alliance.

Your Committee finds that the Supreme Court of Hawaii's decision in *State v. Ibarra*, 526 P.3d 575 (Haw. 2023), indicated a need for the sex trafficking and promoting prostitution criminal offense statutes to be further clarified. While the State has made concerted efforts since the 2010s to reduce and combat sex trafficking in the State, not enough has been done to define criminal offense statutes. By resolving the ambiguity of these critical statutes, this measure will assist prosecutions of sex traffickers and those who promote prostitution.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3036, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2766 Judiciary on S.B. No. 2958

The purpose and intent of this measure is to amend or repeal various provisions of the Hawaii Revised Statutes or the Session Laws of Hawaii for the purposes of correcting errors and references, clarifying language, or deleting obsolete or unnecessary provisions.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this statutory revision measure is submitted by the Legislative Reference Bureau pursuant to chapter 23G, Hawaii Revised Statutes. All of the statutory amendments proposed by this measure are intended to be technical in nature to correct errors or omissions or to repeal obsolete laws.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2958 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2767 Judiciary on S.B. No. 2683

The purpose and intent of this measure is to protect individuals who make claims of sexual misconduct from defamation lawsuits unless the claims were proven to be made with malice.

Your Committee received testimony in support of this measure from Hawai'i Women Lawyers, American Association of University Women of Hawaii, and one individual.

Your Committee received comments on this measure from the Hawai'i Civil Rights Commission and one individual.

Your Committee finds that defamation lawsuits are sometimes brought against individuals who are making truthful claims about sexual misconduct, which can be used to silence victims. The threat of lawsuits may negatively impact victims and good-faith reporters attempting to report sexual misconduct. This measure will create safer communities in the State by providing additional protections to individuals who make truthful claims about sexual misconduct.

Your Committee has amended this measure by:

- (1) Deleting language that would have made a protected communication made by an individual, without malice, immune from any defamation action; and
- (2) Inserting language preventing an individual from being liable in damages in any defamation action for making a protected communication without malice.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2683, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2683, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2768 (Majority) Judiciary on S.B. No. 2601

The purpose and intent of this measure is to:

- (1) Expand the time period by which a civil action for childhood sexual abuse may be initiated; and
- (2) Authorize a court to require personnel of legal entities to undergo training on trauma-informed response.

Your Committee received testimony in support of this measure from the Sex Abuse Treatment Center, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Hawai'i Health and Harm Reduction Center, Hawai'i State Coalition Against Domestic Violence, Democratic Party of Hawai'i, Imua Alliance, Hawaii Association for Justice, Hawai'i Children's Action Network Speaks!, YWCA Kaua'i, and fourteen individuals.

Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Insurers Council.

Your Committee finds that it is well documented that children of sexual abuse delay their disclosure of abuse, oftentimes for many years, as many victims are not ready to speak on their trauma as children. This is also true for children who suffer chronic abuse within their homes by a close family member who grooms the child to keep their abuse secret. The trauma of withholding abuse can have lasting effects, impacting the ability to disclose instances of abuse as the child grows older. For some survivors, it may take decades before the individual feels comfortable and safe enough to disclose being abused. Therefore, this measure provides an extended window for survivors of childhood sexual abuse to disclose the abuse to ensure each survivor has an opportunity to seek justice and accountability.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2601 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (San Buenaventura). Excused, 1 (Gabbard).

SCRep. 2769 Commerce and Consumer Protection on S.B. No. 2476

The purpose and intent of this measure is to authorize licensed dental hygienists to perform preventative dental sealant screenings and apply dental sealants on individuals, under certain conditions, in a Department of Education school-based oral health program.

Your Committee received testimony in support of this measure from the Department of Education; Department of Health; Disability and Communication Access Board; Board of Dentistry; University of Hawai'i System; We Are One, Inc.; Hawaii Dental Association; Hawai'i Oral Health Coalition; Hawaii Dental Service; Hawai'i Children's Action Network Speaks!; AlohaCare; and forty-six individuals.

Your Committee finds that the State is not providing sufficient resources to help individuals prevent tooth decay, which can increase health care costs for many families. Your Committee further finds that school-based dental sealant programs provide sealants to children least likely to receive them otherwise. Studies have shown that tooth decay of molars dropped an average of sixty percent up to five years after sealant application in a school program. Sealants also prevent decay at one-third the expense of filling a cavity. This measure will significantly reduce the labor costs of a dentist performing dental sealant screenings in schools and eliminate an expensive barrier to promote and sustain school-based sealant and oral health programs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2770 Commerce and Consumer Protection on S.B. No. 3329

The purpose and intent of this measure is to require the disclosure of any little fire ant infestation as part of any sale of residential real property.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee received comments on this measure from the Department of Agriculture and Hawaii Pest Control Association.

Your Committee finds that the *Wasmannia auropunctata*, commonly known as the little fire ant, threatens native biodiversity, alters tropical ecosystems, impairs human health, diminishes agricultural and horticultural productivity, and ranks among one of the world's worst invasive species. Your Committee further finds that there are individuals who do not take reasonable steps to prevent little fire ant infestations, nor do they have any responsibility to treat their property once it has been infested, thereby leading to the spread of little fire ants on numerous properties in the State. Your Committee additionally finds that existing law governing mandatory seller disclosures in real property transactions requires a written disclosure statement prepared by the seller, or at the seller's direction, that purports to fully and accurately disclose all material facts relating to residential real property being offered for sale. This measure requires disclosure of known little fire ant infestations, as part of the sale of residential real property, to help raise awareness of the dangers posed by little fire ants and provide prospective buyers with information to help anticipate any future mitigation costs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3329, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2771 Commerce and Consumer Protection on S.B. No. 2119

The purpose and intent of this measure is to authorize out-of-state pharmacists to transfer prescription information for the initial fill of a prescription.

Your Committee received testimony in support of this measure from the Department of Health, Board of Pharmacy, Kaiser Permanente Hawai'i, CVS Health, Walgreen Co., and one individual.

Your Committee finds that the State is a significant travel destination for many out-of-state visitors, some of whom may require a prescription refill while on vacation or business in the State, which may delay treatment for existing conditions. Existing practices require these patients to contact their health care practitioner, who provides a verbal order for a prescription to a pharmacist. Because existing State law does not explicitly allow out-of-state pharmacists to transfer prescription information to in-state pharmacists for an initial prescription fill, local pharmacists must contact out-of-state health care practitioners for verbal order, resulting in treatment delays for out-of-state patients. This measure therefore reduces barriers by providing timely access to prescriptions.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2119 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2772 Judiciary on S.B. No. 2529

The purpose and intent of this measure is to amend the definition of “patient’s provider” in state law governing provider orders for life-sustaining treatment (POLST) by removing language that requires the provider to examine the patient.

Your Committee received testimony in support of this measure from the Department of Health, State Health Planning and Development Agency, Kaiser Permanente Hawai‘i, Kōkua Mau, Hawai‘i Care Choices, Healthcare Association of Hawaii, Hospice Maui, and six individuals.

Your Committee finds that POLST is a portable medical order that sets out a patient’s care plan and documents the patient’s wishes and directions concerning resuscitative and life-sustaining measures. Your Committee further finds that POLST forms are currently required to be signed by the “patient’s provider”, defined as a licensed physician, advanced practice registered nurse, or physician assistant “who has physically examined the patient”. This examination requirement impedes critical medical processes regarding a patient, particularly when a sudden and unexpected change in their health requires urgent POLST documentation but the patient is unable to find a provider, potentially leading to patients receiving unwanted life-prolonging treatments. This measure will aid patients in creating or updating POLST documentation by removing lengthy and inefficient requirements.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2529, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2773 Ways and Means on S.B. No. 3010

The purpose and intent of this measure is to clarify the roles of the Department of Land and Natural Resources and Department of Business, Economic Development, and Tourism in achieving the State’s renewable energy goals.

More specifically, the measure proposes to expedite the development of renewable energy resources by:

- (1) Requiring the Department of Land and Natural Resources to work with utility companies and renewable energy developers on certain planning, leasing, and permitting processes; and
- (2) Requiring the Department of Business, Economic Development, and Tourism to direct the Hawaii State Energy Office and work with utility companies and renewable energy developers regarding certain planning, leasing, and permitting processes.

Your Committee received written comments in support of this measure from Hawaii Gas.

Your Committee received written comments on this measure from the Hawaii State Energy Office and Public Utilities Commission.

Your Committee finds that streamlining planning, leasing, and permitting processes to expedite the development of renewable energy resources will help promote the production of clean electricity in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3010, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2774 Commerce and Consumer Protection on S.B. No. 2747

The purpose and intent of this measure is to require the Director of Transportation to adopt rules that require tour aircraft operators to have aircraft liability insurance coverage not less than a certain percentage of the highest minimum similar coverage required by a United States international airport per person per incident.

Your Committee received testimony in support of this measure from Blue Hawaiian Helicopters.

Your Committee received testimony in opposition to this measure from Jack Harter Helicopters, Inc.

Your Committee finds that helicopter tours in Hawaii offer residents and visitors alike the opportunity to experience the State’s mountains, valleys, coastlines, waterfalls, and urban skylines from a unique perspective. However, your Committee finds that because there is no existing state law establishing a minimum insurance coverage amount for tour aircraft operations within the State, some tour aircraft operators are flying without adequate insurance, shifting the financial risk to passengers in the event of an accident. Your Committee finds that it is critical to support and incentivize safety in the tour aircraft operator industry and to establish certain minimum insurance requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2747, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2775 (Majority) Judiciary on S.B. No. 2236

The purpose and intent of this measure is to require law enforcement to post notice that a warranted or warrantless search has been conducted on a property if a resident was not present at the time of the search.

Your Committee received testimony in support of this measure from the ACLU of Hawai'i and Godwits Mercy Inc.

Your Committee received testimony in opposition to this measure from twenty-five individuals.

Your Committee finds that the Fourth Amendment of the United States Constitution grants the constitutional right to live free of unreasonable searches and seizures. Similarly, the Hawaii State Constitution affords individuals the right to be free from unreasonable searches and seizures and explicitly protects the right to privacy. Your Committee believes that, given the highly intrusive nature of searches in houses, stores, and buildings, at minimum, law enforcement should be required to post a notice that a search has occurred, and to secure the premises to prevent trespass, theft, and further invasions of privacy. This measure will support constitutional rights, provide further transparency into government operations, and build trust between law enforcement and the community.

Your Committee has amended this measure by:

- (1) Requiring that an officer always post notice of a warranted or warrantless search upon completion of the search, instead of only when a resident is absent at the time of the search;
- (2) Clarifying that an officer is required to include the office contact number for at least one of the officers involved in the search rather than callback numbers in the notice of a search; and
- (3) Clarifying that an officer is required to secure any entrance used by the officer upon completion of a warranted or warrantless search.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2236, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2236, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2776 Ways and Means on S.B. No. 2500

The purpose and intent of this measure is to help the State meet its agricultural and economic diversification goals.

More specifically, this measure:

- (1) Establishes a food and product innovation network within the Agribusiness Development Corporation; and
- (2) Appropriates moneys for the food and product innovation network.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; University of Hawaii; Hawaii Food Industry Association; Hawaii Farmers Union; Ulupono Initiative; Hawaii Farm Bureau; Hawaii Forest Industry Association; Chamber of Commerce Hawaii; and Maui Chamber of Commerce.

Your Committee finds that establishing a food and product innovation network will help the State meet its agricultural and economic diversification goals. Your Committee recognizes that product research and development is risky and requires up-front capital, which often discourages emerging agribusinesses and entrepreneurs from exploring new markets. Your Committee believes that establishing a food and product innovation network will decrease the risk of investment for growing businesses and accelerate their efforts in developing new products to promote food resiliency and Hawaii's export marketing.

Your Committee has amended this measure by:

- (1) Clarifying the duties of the food and product innovation network;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2500, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2500, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2777 Ways and Means on S.B. No. 3364

The purpose and intent of this measure is to clarify the Hawaii Tourism Authority's powers and duties.

More specifically, this measure:

- (1) Requires the Hawaii Tourism Authority to develop and execute destination management action plans;
- (2) Authorizes the Hawaii Tourism Authority to:
 - (A) Engage the services of qualified persons to implement the State's strategic tourism management plan;
 - (B) Coordinate the development of certain tourism programs;
 - (C) Undertake initiatives to enhance the State's tourism industry; and
 - (D) Enter into certain additional contracts and agreements; and
- (3) Renames the Hawaii Tourism Authority's tourism marketing plan as the strategic tourism management plan and amends the required components of the plan.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority, Hawaii Lodging and Tourism Association, Maui Chamber of Commerce, Maui Hotel and Lodging Association, and one individual.

Your Committee finds that requiring the Hawaii Tourism Authority to develop and execute destination management action plans will help to ensure a more coordinated and proactive approach to managing tourism in the State.

Your Committee has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3364, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3364, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2778 Ways and Means on S.B. No. 3153

The purpose and intent of this measure is to assist private dam owners in either maintaining their dams and bringing them into compliance with current safety standards or removing it.

Specifically, this measure:

- (1) Establishes the dam and appurtenance improvement or removal grant program special fund; and
- (2) Appropriates moneys into and out of the dam and appurtenance improvement or removal grant program special fund for purposes of the dam and appurtenance improvement or removal grant program.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Agribusiness Development Corporation, Hawaii Farm Bureau, Maui County Farm Bureau, Hawaii Crop Improvement Association, Land Use Research Foundation of Hawaii, and three individuals.

Your Committee finds that the establishment of a special fund to hold the moneys for the dam and appurtenance improvement or removal grant program will help the Department of Land and Natural Resources to award grants to qualifying dam owners without concerns about those moneys lapsing to the general fund.

Your Committee has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3153, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3153, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

SCRep. 2779 Ways and Means on S.B. No. 2362

The purpose and intent of this measure is to appropriate moneys to the University of Hawaii for statewide research into ornamental ginger pathogens, prevention of the spread of ornamental ginger pathogens, production and distribution of pathogen-free ornamental ginger plants, and outreach to ornamental producers.

Your Committee received written comments in support of this measure from the University of Hawaii, East Oahu County Farm Bureau, Hawaii Farm Bureau, Maui County Farm Bureau, Hawaii Floriculture and Nursery Association, Land Use Research Foundation of Hawaii, and four individuals.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that ornamental ginger is a valued plant and is one of Hawaii's most commonly used shrubs and cut flowers in floral arrangements and tropical landscape designs. Your Committee further finds that red ginger production has declined significantly over the past ten years due to viral pathogens, including six pathogens identified by University of Hawaii researchers and an additional fourteen pathogens identified by the Department of Agriculture. Your Committee finds that more research is needed to save this important agricultural product.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$125,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2362, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2362, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2780 Ways and Means on S.B. No. 2143

The purpose and intent of this measure is to appropriate moneys to the Wildfire Management Branch of the Department of Land and Natural Resources Division of Forestry and Wildlife to award grants to nonprofit organizations for wildfire preparedness and mitigation programming.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Hawaii Forest Industry Association, and Maui Chamber of Commerce.

Your Committee finds that the Department of Land and Natural Resources Division of Forestry and Wildlife is the primary responder for wildland fires across 1,368,002 acres of the State, accounting for twenty-six per cent of the land area in Hawaii. The Division is also tasked with coordinating prevention outreach and planning efforts, including assisting communities in developing Community Wildfire Protection Plans and applying for federal grant programs. Your Committee further finds that the Division does not have the staffing capacity or resources to adequately provide programming for all the State's wildfire preparedness needs, and instead partners with nonprofit organizations to fill this gap. These nonprofit partners are often outcompeted by larger, national nonprofit organizations for federal grants, and therefore rely on funding from the State to provide education, training, and support for communities and large landowners to manage fire risks through mitigation plans and projects.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$500,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2143, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2143, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2781 Ways and Means on S.B. No. 2156

The purpose and intent of this measure is to appropriate moneys to the Department of Land and Natural Resources to conduct maintenance dredging at state boat harbors, boat launch ramp facilities, and other state boating facilities and waterways, including design, permitting, and dredging work, as identified by the Department.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Agribusiness Development Corporation, and two individuals.

Your Committee finds that there are numerous facilities around the State that require regular maintenance dredging. The estimated average cost of each maintenance dredging project is approximately \$1,000,000 to \$1,500,000. Your Committee further finds that appropriating sufficient moneys to the Department of Land and Natural Resources will help the Department complete necessary maintenance dredging projects each year.

Your Committee has amended this measure by:

- (1) Changing the appropriation from \$3,000,000 to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2156, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2156, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2782 Ways and Means on S.B. No. 2284

The purpose and intent of this measure is to require and appropriate moneys for the University of Hawaii to establish and implement a two-year program to develop a wildfire forecast system for the State using artificial intelligence.

Your Committee received written comments in support of this measure from the University of Hawaii.

Your Committee believes that forecasting wildfires can help reduce the overall impacts of wildfires through rapid response and suppression efforts. Your Committee finds that the system proposed by the measure has the potential to assist authorities in forecasting wildfires across the State, which will enhance public safety and the State's ability to prepare for potential disasters.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2284, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2284, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2783 Ways and Means on S.B. No. 2287

The purpose and intent of this measure is to improve the accessibility of state information technology services.

Specifically, this measure requires the Information Technology Steering Committee to assist the Chief Information Officer in developing a plan to enhance and increase the usage of the hawaii.gov mobile internet application.

Your Committee received written comments in support of this measure from the Office of Enterprise Technology Services.

Your Committee finds that the coronavirus disease 2019 pandemic demonstrated the importance of ensuring that state services are accessible to individuals using mobile communication devices. Your Committee further finds that directing the Information Technology Steering Committee to help enhance the State's mobile internet application will facilitate increased usage of that application by residents and visitors.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2287, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2287, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2784 Ways and Means on S.B. No. 2288

The purpose and intent of this measure is to facilitate transparency with respect to travel conducted for official state business.

Specifically, the measure:

- (1) Generally, requires that travel reports submitted by state employees, officers, or other representatives of state departments or agencies, in connection with out-of-state or intra-state travel for purposes of official state business, be made available for public review on the Comptroller's website; and
- (2) Appropriates moneys for the Department of Accounting and General Services to provide digital and searchable public access to the travel reports.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development and Tourism and Department of Accounting and General Services.

Your Committee received written comments on this measure from the Department of Education and Department of Commerce and Consumer Affairs.

Your Committee finds that state business travel reports should generally be readily available to the public, so that the operations state departments and agencies are more transparent. Your Committee believes that transparency promotes accountability and helps to ensure that the governmental entities are good stewards of public moneys.

Your Committee has amended this measure by:

- (1) Providing that a travel report relating to off-island travel need only be made available on the Comptroller's website if the travel was for a non-essential purpose;
- (2) Providing that a travel report need not be made available on the Comptroller's website if the travel was:
 - (A) Necessitated by due process compliance, litigation, prosecution, or a student referral or placement that requires confidentiality of the travel event; or
 - (B) Only intra-island and was made by a member of a board, commission to or from a meeting of that board or commission;
- (3) Changing the effective date to July 1, 2026; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2288, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2785 Ways and Means on S.B. No. 2413

The purpose and intent of this measure is to obtain better data regarding state agricultural lands.

Specifically, this measure requires the Board of Agriculture to submit a report to the Legislature on:

- (1) The percentage of each tax map key of agricultural lands leased by the State that are suitable for farming and actively being farmed; and
- (2) Certain dollar amounts relating to lease transfers between lessees.

Your Committee received written comments in support of this measure from the Hawaii Farmers Union, Hawaii Farm Bureau, Hawaii Cattlemen's Council, and Food+ Policy.

Your Committee received written comments in opposition to this measure from the Department of Agriculture.

Your Committee finds that it is vital that the State identify and effectively utilize its most productive agricultural lands. The data collected pursuant to this measure will help to ensure that productive agricultural lands remain in agricultural use.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2413, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2413, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2786 Ways and Means on S.B. No. 2502

The purpose and intent of this measure is to increase the State's capacity to mitigate wildfire risks.

Specifically, this measure:

- (1) Requires the University of Hawaii to establish and implement a two-year program to generate web-GIS wildfire susceptibility and vulnerability maps for use by the State to determine which communities, landscapes, buildings, and infrastructure are most vulnerable to future wildfires; and
- (3) Appropriates moneys for the program.

Your Committee received written comments in support of this measure from the University of Hawaii and Hawai'i Forest Industry Association.

Your Committee received written comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that making wildfire susceptibility and vulnerability maps available will help decision-makers identify the areas that are most susceptible to wildfire hazards and prioritize those areas for targeted risk-reduction strategies. Your Committee further finds that wildfire vulnerability maps can help guide future zoning rules and other land use policies to reduce the impacts of wildfires on communities.

Your Committee has amended this measure by:

- (1) Correcting an internal cross-reference;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2502, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2787 Ways and Means on S.B. No. 2505

The purpose and intent of this measure is to ensure the resilience of the State's electric system.

More specifically, this measure:

- (1) Includes the resilience of the Hawaii electric system as a metric to be monitored and considered by the Public Utilities Commission; and

- (2) Requires that moneys collected through the Hawaii electricity reliability surcharge be transferred to both the Hawaii Electricity Reliability Administrator and the Public Utilities Commission.

Your Committee received written comments in support of this measure from the Public Utilities Commission and Hawaii Clean Power Alliance.

Your Committee received written comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and from Hawaiian Electric.

Your Committee finds that authorizing the Public Utilities Commission to monitor and consider the resilience of the State's electric system will help the State to prepare for and recover from future disasters more efficiently and effectively.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2505, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2505, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

SCRep. 2788 Commerce and Consumer Protection on S.B. No. 2091

The purpose and intent of this measure is to:

- (1) Require all telecommunications service providers to communicate relevant information relating to the deenergization of electrical lines to public safety or emergency response offices for the affected areas;
- (2) Require all electric utilities to operate electrical lines and equipment in a manner that shall minimize the risk of catastrophic wildfire posed by the electrical lines and equipment;
- (3) Require each electric utility to prepare a wildfire mitigation plan approved by the Public Utilities Commission and protocols for deenergizing electrical lines; and
- (4) Allow the Public Utilities Commission to adopt rules.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaiian Electric.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Disability and Communication Access Board.

Your Committee finds that the August 2023 Maui wildfire that was fueled by strong winds from Hurricane Dora resulted in one of the worst natural disasters in the State's history, causing significant loss of life, the displacement of thousands of residents, and the destruction of nearly all of Lahaina. In the aftermath, many questions were raised as to whether the State's electric utilities had previously considered or adopted any plans, preparations, or policies to mitigate against the risk of a wildfire, such as a procedure to orderly and expediently deenergize electric power lines out of an abundance of caution. Your Committee finds that it is in the public interest for the State to oversee and require electric utilities to establish wildfire mitigation and deenergization plans, so that future incidents can be prevented or minimized through proper contingency planning.

Your Committee has amended this measure by:

- (1) Amending from one hundred eighty days to an unspecified number of days the time period by which the Public Utilities Commission must approve, approve with conditions, or update a wildfire mitigation plan after receipt of the plan or plan update from an electric utility;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2091, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2091, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (McKelvey).

SCRep. 2789 Ways and Means on S.B. No. 2513

The purpose and intent of this measure is to implement new wastewater technologies and solutions in certain areas of the State.

More specifically, this measure:

- (1) Establishes within the University of Hawaii Water Resources Research Center a new waste management solution and cesspool system demonstration pilot program; and
- (2) Appropriates moneys for the pilot program and the establishment of engineer positions within the Wastewater Branch of the Department of Health.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Department of Land and Natural Resources, University of Hawaii, and Hawaii Reef and Ocean Coalition.

Your Committee received written comments on this measure from the Department of Health.

Your Committee finds that establishing a new waste management solution and cesspool system demonstration pilot program to analyze new wastewater technology systems will help to provide affected property owners with cost-effective wastewater technology alternatives.

Your Committee has amended this measure by:

- (1) Placing the pilot program within the University of Hawaii Sea Grant College Program rather than the University of Hawaii Water Resources Research Center;
- (2) Requiring the University of Hawaii Sea Grant College Program to collaborate with the University of Hawaii Water Resources Research Center in implementing the pilot program;
- (3) Requiring the University of Hawaii Sea Grant Program, rather than the University of Hawaii Water Resources Research Center, to submit reports to the Legislature;
- (4) Clarifying the University of Hawaii Sea Grant Program's reporting requirements;
- (5) Changing one of the expending agencies from the University of Hawaii Water Resources Research Center to the University of Hawaii Sea Grant Program;
- (6) Changing the appropriations from \$3,025,468; \$89,500; and \$82,700, respectively, to unspecified amounts;
- (7) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2513, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2513, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2790 Ways and Means on S.B. No. 2556

The purpose and intent of this measure is to permanently establish the Community Outreach Court as a division of the District Court of the First Circuit and appropriate moneys to continue its operation through the 2024-2025 fiscal year.

Your Committee received written comments in support of this measure from the Department of Human Services, Statewide Office on Homelessness and Housing Solutions, Office of the Public Defender, Judiciary, Department of Law Enforcement, Honolulu Department of the Prosecuting Attorney, Partners In Care, National Alliance on Mental Illness Hawaii, and Hawaii Substance Abuse Coalition.

Your Committee finds that Act 55, Session Laws of Hawaii 2017, formalized a community court outreach project to adjudicate cases of homeless persons charged with nonviolent offenses. Your Committee recognizes the success of the outreach project, as it has addressed more than ten thousand cases, recalled more than nine hundred bench warrants, lifted more than six thousand driver license stoppers, and assisted more than six hundred participants access social services or referrals. Accordingly, your Committee finds it appropriate to permanently establish a community outreach court.

Your Committee has amended this measure by:

- (1) Changing all of the measure's appropriations to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2556, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2791 Ways and Means on S.B. No. 2746

The purpose and intent of this measure is to direct the Department of Transportation to require that the securing of mooring lines from vessels requiring tug assistance to commercial docks, wharves, piers, quays, and landings be performed by stevedoring companies.

Your Committee received written comments in support of this measure from Hawaii Ports Maritime Council; Hawaii Teamsters and Allied Workers Local 996; IBEW Local Union 1186; International Longshore and Warehouse Union Local 142; International Union of Painters and Allied Trades, District Council 50; Laborers' International Union Local 368; Marine Firemen's Union; Operating Engineers Local 3; Plumbers and Fitters Local 675; and numerous individuals.

Your Committee received written comments in opposition to this measure from American Marine Corporation; American Waterways Operators; Chamber of Commerce Hawaii; Contractors Association of Kauai; General Contractors Association of Hawaii; Hawaii Cost of Living Coalition; Hawaii Energy Marketers Association; Hawaii Shippers' Council; Hawaiian Cement; Island Energy Services; Island Plastic Bags, Inc.; Maui Chamber of Commerce; Par Hawaii; and Retail Merchants of Hawaii.

Your Committee received written comments on this measure from the Department of Transportation; Public Utilities Commission; Building Industry Association of Hawaii; Hawaii Gas; and Sause Bros., Inc.

Your Committee finds that requiring the use of a stevedoring company to secure mooring lines when vessels are pulled into a harbor by tug will help to ensure the safety of the State's harbors and harbor workers. However, your Committee recognizes the need to balance the safety of the State's harbors and harbor workers with the timely delivery of supplies to the neighbor islands. Accordingly, your Committee believes that an appropriate method of achieving balance is to exempt from the requirements of this measure the securing of mooring lines by any tug operator that is both regulated by the United States Coast Guard and a signatory to a collective bargaining agreement.

Your Committee has amended this measure by:

- (1) Exempting from the requirements of this measure the securing of mooring lines by any tug operator that is both regulated by the United States Coast Guard and a signatory to a collective bargaining agreement; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2746, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2746, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2792 Ways and Means on S.B. No. 2943

The purpose and intent of this measure is to establish within the Department of Transportation a working group to increase awareness of the ground transportation industry and its workforce needs, and to develop possible career paths for commercial drivers.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii State Council on Developmental Disabilities, and Hawaii Food Industry Association.

Your Committee received written comments on this measure from the Department of Education.

Your Committee finds that taking steps, including the development of possible career paths for commercial drivers, to address the shortage of commercial drivers in the State will help to make the State's public and private sectors function more efficiently and reliably.

Your Committee has amended this measure by:

- (1) Clarifying the makeup and duties of the working group;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2943, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2943, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2793 Ways and Means on S.B. No. 3007

The purpose and intent of this measure is to improve the efficiency of hiring government employees.

Specifically, this measure:

- (1) Authorizes a state department, division, or agency, rather than the Department of Human Resources Development, to conduct the minimum qualification review of applicants for vacant positions within the department, division, or agency; and
- (2) Requires the Department of Human Resources Development to provide state departments, divisions, and agencies the applications received for vacancies under certain circumstances.

Your Committee received written comments in support of this measure from the Department of Transportation and Department of Law Enforcement.

Your Committee received written comments in opposition to this measure from the Department of Human Resources Development.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Corrections and Rehabilitation; Hawaii Housing Finance and Development Corporation; Hawaii State Public Library System; and Office of Planning and Sustainable Development.

Your Committee finds that, for some departments, the existing process to hire a new employee to fill a civil service position may take seven months or longer. Your Committee further finds that this measure will help to shorten the hiring process and allow departments, divisions, and agencies to expeditiously fill job vacancies.

Your Committee has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3007, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3007, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

SCRep. 2794 Ways and Means on S.B. No. 3008

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii that authorize the use of tax increment bonds.

Specifically, the measure proposes state constitutional amendments that:

- (1) Expressly provide that the Legislature may authorize political subdivisions, such as the counties, to issue tax increment bonds; and
- (2) Exclude tax increment bonds from determinations of the funded debt of the political subdivisions.

Your Committee received written comments in support of this measure from the Office of Planning and Sustainable Development, Stadium Authority, Move Oahu Forward, and NAIOP Hawaii Chapter.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that tax increment financing is a financing method in which a portion of property taxes in excess of a base assessed value is dedicated to fund the costs of a project through the issuance of bonds. Your Committee further finds that capital raised using tax increment bonds may be used to fund a variety of projects, including regional public infrastructure and transit-oriented development projects.

Your Committee has amended this measure by:

- (1) Amending the definition of “tax increment bonds” to mean all bonds, the principal and interest on which are in fact payable from and secured by the amount of real property taxes levied and collected by a political subdivision on the difference between the assessed value of the taxable real property in a tax increment district in:
 - (A) A given year; and
 - (B) The fiscal year prior to the creation of the tax increment district;
- (2) Clarifying, in the constitutional ratification question, that the tax increment district is established by the political subdivision; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3008, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

SCRep. 2795 Ways and Means on S.B. No. 3022

The purpose and intent of this measure is to establish a transportation network company fee.

Specifically, the measure establishes the transportation network company fee and:

- (1) Assesses the fee on each ride originated through a transportation network company application; and
- (2) Deposits fee revenues into the Safe Routes to School Program special fund.

Your Committee received written comments in support of this measure from the Department of Transportation, Climate Change Mitigation and Adaptation Commission, Hawaii State Energy Office, Department of Transportation Services of the City and County of Honolulu, Maui Metropolitan Planning Organization, Oahu Metropolitan Planning Organization, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Bicycling League, Ulupono Initiative, and two individuals.

Your Committee received written comments in opposition to this measure from Uber Technologies.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the assessment of a transportation network company fee is an appropriate funding mechanism for the State’s Safe Routes to School Program. Your Committee notes that, in its testimony, the Maui Metropolitan Planning Organization recommended depositing into the Safe Routes to Schools Program special fund half of the transportation network company fees collected, and distributing to the counties the remainder of the fees collected.

Your Committee has amended this measure by:

- (1) Amending the purpose section to more accurately reflect the contents of the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3022, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3022, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Inouye, Fevella). Noes, none. Excused, none.

SCRep. 2796 Ways and Means on S.B. No. 3128

The purpose and intent of this measure is to facilitate the efficient use of state resources.

Specifically, this measure:

- (1) Repeals the requirement to transfer the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health; and
- (2) Requires the Oahu Regional Health Care System to enter into an agreement with the Department of Health regarding the Oahu Regional Health Care System providing care for low acuity patients in the Department of Health's custody by the end of 2024.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Health Systems Corporation, and Oahu Region of the Hawaii Health Systems Corporation.

Your Committee finds that a report submitted by the Department of Health to the Legislature at the end of 2021 detailed the complexity and high costs of transferring the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health. Your Committee further finds that this measure will avoid those complexities and costs while still achieving the intended goals of the transfer envisioned by Act 212, Session Laws of Hawaii 2021.

Your Committee has amended this measure by:

- (1) Amending section 323F-7.6, Hawaii Revised Statutes, to remove certain statutory provisions added by Act 212, Session Laws of Hawaii 2021;
- (2) Repealing part XLVI of Chapter 321, Hawaii Revised Statutes, which was enacted by Act 212, Session Laws of Hawaii 2021;
- (3) Repealing certain other portions of Act 212, Session Laws of Hawaii 2021, that would have facilitated the transfer of the Oahu Regional Health Care System to the Department of Health;
- (4) Correcting the text of Act 212, Session Laws of Hawaii 2021, as amended by Act 150, Session Laws of Hawaii 2022, to reflect the printed version of the Session Laws of Hawaii; and
- (5) Making a technical nonsubstantive amendment for the purpose of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3128, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3128, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2797 (Majority) Ways and Means on S.B. No. 3125

The purpose and intent of this measure is to authorize certain minors to consent to medical care for sexually transmitted infections, pregnancy, and family planning services.

More specifically, this measure:

- (1) Permits minors who are fourteen to seventeen years of age to consent to certain medical care and services;
- (2) Replaces the term "venereal disease", as it relates to medical care and services for minors, with the term "sexually transmitted infection", and defines that term;
- (3) Authorizes licensed health care providers to submit insurance claims for certain minor-initiated medical care and services; and
- (4) Establishes confidentiality protections for minors initiating medical care and services.

Your Committee received written comments in support of this measure from the Department of Health, Disability and Communication Access Board, Essential Access Health, Hawaii Health and Harm Reduction Center, Pride at Work Hawaii, Stonewall Caucus of the Democratic Party of Hawaii, and numerous individuals.

Your Committee finds that minors are often reluctant to seek crucial medical care for reproductive health services, including sexually transmitted infections and pregnancy. Your Committee believes that allowing minors to initiate certain medical care, with assurances of confidentiality, will help to improve the health of minors throughout the State and reduce the transmission of sexually transmitted infections among the State's youth.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3125, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3125, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 1 (Fevella). Excused, 2 (DeCoite, Inouye).

SCRep. 2798 Ways and Means on S.B. No. 2289

The purpose and intent of this measure is to clarify the reporting requirements for the Department of Health regarding Kalaupapa Settlement.

More specifically, this measure:

- (1) Requires the Department of Health to:
 - (A) Include in its annual report on the Kalaupapa Settlement details and updated information regarding the permanent transfer of the Department's powers and duties over Kalaupapa Settlement to other governmental entities; and
 - (B) Report on its community engagement efforts with community stakeholders and the Molokai community; and
- (2) Requires the Governor to issue a proclamation to affirm the date of completion of the transfer of all powers and duties of the Department of Health regarding Kalaupapa Settlement.

Your Committee received written comments in support of this measure from the Department of Health, Office of Hawaiian Affairs, and one individual.

Your Committee received written comments on this measure from Ka Ohana O Kalaupapa and one individual.

Your Committee finds that it is imperative for the Legislature to remain informed and updated regarding plans for the future transfer of the Department of Health's existing statutory jurisdiction over Kalawao County and other duties related to Kalaupapa. Your Committee further recognizes the importance of community involvement in decision-making regarding the future of Kalaupapa.

Your Committee has amended this measure by:

- (1) Clarifying that the transfer of the Department of Health's powers and duties over Kalaupapa Settlement will be to qualified non-governmental entities as well as governmental entities; and
- (2) Adding Ka Ohana O Kalaupapa and a non-governmental organization from the non-peninsular area of Molokai to the transition team.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2289, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2289, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2799 Ways and Means on S.B. No. 2837

The purpose and intent of this measure is to provide for the future management of the proposed Maui State Veterans Home.

Specifically, this measure requires the transfer of the Maui State Veterans Home from the Department of Defense to the Oahu Regional Health Care System.

Your Committee received written comments in support of this measure from the Oahu Region of the Hawaii Health Systems Corporation and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Government Employees Association.

Your Committee received written comments on this measure from the Hawaii Health Systems Corporation.

Your Committee finds that although the Department of Defense is currently planning for the construction of the Maui State Veterans Home, the management, operation, and staffing of that facility should be placed under a state agency that has the expertise to manage a long-term care facility.

Your Committee has amended this measure by:

- (1) Amending section 323F-2, Hawaii Revised Statutes, to expressly authorize the Oahu Regional Health Care System to include the Maui State Veterans Home;
- (2) Authorizing the assimilation of the Maui State Veterans Home on Maui into a state agency other than the Oahu Regional Health Care System;
- (3) Changing the effective date to upon its approval; and
- (4) Making a technical nonsubstantive amendment for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2837, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2800 Ways and Means on S.B. No. 2285

The purpose and intent of this measure is to facilitate the administration of the State Health Planning and Development Agency.

Specifically, the measure:

- (1) Amends the functions and duties of the State Health Planning and Development Agency;
- (2) Inserts a new definition of “health care” into relevant law; and
- (3) Appropriates moneys for administrative costs and eight new full-time equivalent positions within the State Health Planning and Development Agency.

Your Committee received written comments in support of this measure from the Department of Human Services, Hawaii State Council on Developmental Disabilities, Executive Office on Aging, State Health Planning and Development Agency, Hawaii Primary Care Association, AARP Hawaii, AlohaCare, and six individuals.

Your Committee received written comments on this measure from the Hawaii Health Systems Corporation and Healthcare Association of Hawaii.

Your Committee recognizes that many of Hawaii’s residents lack equitable access to high-quality and affordable health and long-term care services. Your Committee finds that modernizing the State Health Planning and Development Agency’s functions and duties will advance the State’s ability to provide necessary care to residents in a cost-effective manner.

Your Committee notes that the State Health Planning and Development Agency has stated that it needs \$1,933,435 for fiscal year 2024-2025 for administrative costs relating to the measure, including the following seven new positions:

- (1) One full-time equivalent (1.0 FTE) administrative specialist IV position;
- (2) One full-time equivalent (1.0 FTE) research statistician VI position, who shall serve as a state healthcare informaticist;
- (3) Two full-time equivalent (2.0 FTE) research statistician V positions, who shall serve as administrative data specialists;
- (4) Two full-time equivalent (2.0 FTE) program specialist V positions, who shall serve as state health planners; and
- (5) One full-time equivalent (1.0 FTE) administrative officer VI position, who shall serve as the contracts management, procurement, and human resources officer of the agency.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2285, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2285, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2801 Ways and Means on S.B. No. 3383

The purpose and intent of this measure is to gather information regarding the unfilled workforce needs for home- and community-based service providers.

Specifically, this measure:

- (1) Requires the Executive Office on Aging to contract for a statewide assessment that identifies the number of, type of, and competencies needed by workers to fulfill the home- and community-based service provider positions throughout the State;
- (2) Requires the Executive Office on Aging, as part of the statewide assessment, to make recommendations for the expansion or development of training and other workforce development programs; and
- (3) Appropriates moneys for the statewide assessment.

Your Committee received written comments in support of this measure from the Executive Office on Aging, AARP Hawaii, and Healthcare Association of Hawaii.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds the information gathered by the statewide assessment and the associated recommendations for training and other workforce development programs will help to inform decision-makers on the appropriate course of action to increase the number of skilled workers necessary to meet the needs of Hawaii’s home- and community-based services.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion on the measure; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3383, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3383, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2802 Ways and Means on S.B. No. 3242

The purpose and intent of this measure is to increase pedestrian and vehicular safety throughout the State.

More specifically, this measure:

- (1) Exempts the Department of Transportation and each county from certain engineering study requirements in conjunction with the reduction of a maximum speed limit within one mile of a school; and
- (2) Requires certain departments and county agencies to identify and develop plans to address high-risk or dangerous corridors and intersections in the State.

Your Committee received written comments in support of this measure from the Department of Transportation, Department of Transportation Services of the City and County of Honolulu, Hawaii Bicycling League, and one individual.

Your Committee finds that exempting speed limit reductions near schools from the relevant engineering study requirements, and providing for the identification and addressing of high-risk and dangerous corridors and intersections in the State, will facilitate improved pedestrian and vehicular safety throughout the State.

Your Committee has amended this measure by:

- (1) Codifying in statute, rather than session law, the requirement that certain departments and county agencies define, regularly identify, and address high-risk and dangerous corridors and intersections;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3242, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3242, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2803 Ways and Means on S.B. No. 2516

The purpose and intent of this measure is to facilitate the administration of the Office of Enterprise Technology Services.

Specifically, the measure:

- (1) Renames the position of Chief Information Officer to Deputy Comptroller for Information Technology;
- (2) Provides that the Deputy Comptroller for Information Technology shall be appointed by and report to the Comptroller; and
- (3) Matches the salary of the Deputy Comptroller for Information Technology to that of the First Deputy Comptroller.

Your Committee received written comments on this measure from the Department of Accounting and General Services and Office of Enterprise Technology Services.

Your Committee recognizes that, although the Office of Enterprise Technology Services is established within the Department of Accounting and General Services, the Chief Information Officer, who heads the Office, is appointed by and reports to the Governor, rather than the Comptroller. Your Committee also recognizes that this situation was inadvertently created when the Chief Information Officer position was transferred from the Governor's office to the Department. Your Committee finds that this measure is appropriate to correct this structural deficiency.

Your Committee has amended this measure by renaming the position of "Deputy Comptroller for Information Technology" to "Chief Information Officer and Deputy Comptroller."

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2516, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2516, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2804 Ways and Means on S.B. No. 3281

The purpose and intent of this measure is to ensure that the operations of the State of Hawaii Museum of Natural and Cultural History and the State of Hawaii Museum of Monarchy History are aligned with the State's vision for the museums.

Specifically, this measure:

- (1) Renames the State of Hawaii Museum of Natural and Cultural History as the State of Hawaii Museum of Natural and Indigenous History;

- (2) Requires the governing boards of the State of Hawaii Museum of Natural and Indigenous History and the State of Hawaii Museum of Monarchy History to each include two non-voting members to represent certain state agencies and departments;
- (3) Requires the State of Hawaii Museum of Natural and Indigenous History to submit an annual report to the Legislature; and
- (4) Establishes requirements for the State of Hawaii Museum of Natural and Indigenous History to receive state funds in the future.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services.

Your Committee received written comments on this measure from the Friends of Hawaii History, Bishop Museum, and one individual.

Your Committee finds that this measure will help to ensure that State funds appropriated for the State of Hawaii Museum of Monarchy History and the State of Hawaii Museum of Natural and Indigenous History are expended in an accountable, auditable, and appropriate manner.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated from \$5,000,000 to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3281, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3281, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2805 Ways and Means on S.B. No. 2710

The purpose and intent of this measure is to establish the Hawaii Leadership Awards Program to honor individuals who have made considerable and outstanding contributions to Hawaii and who serve as an inspiration to others.

Your Committee received written comments in support of this measure from the State Foundation on Culture and the Arts and Department of Accounting and General Services.

Your Committee received written comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that many exceptional and notable individuals are deserving of recognition for their contributions to the State. Hawaii currently honors, with the Aloha Order of Merit, those individuals who have made national and international contributions and achieved recognition. Your Committee believes that there should be a similar program to honor exceptional and notable individuals specifically for their contributions to Hawaii.

Your Committee has amended this measure by making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2710, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2710, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2806 Ways and Means on S.B. No. 3371

The purpose and intent of this measure is to assist the gathering and dissemination of information about state employee teleworking. Specifically, this measure:

- (1) Requires the Department of Human Resources Development to submit an annual report on state teleworking use and policies;
- (2) Requires the Department of Human Resources Development to purchase and implement a telework monitoring system to measure productivity of state employees; and
- (3) Appropriates moneys to purchase and implement the telework monitoring system.

Your Committee received written comments in support of this measure from the Department of Human Resources Development.

Your Committee received written comments in opposition to this measure from the Hawaii Government Employee Association.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that gathering and disseminating data on state employee teleworking will help to guide future legislation, policy recommendations, and decision-making, and will help assure the public that state employees who telework remain productive.

Your Committee has amended this measure by:

- (1) Clarifying that the telework monitoring system shall be obtained through a National Association of State Procurement Officials cooperative contract or a procurement subject to Chapter 103D, Hawaii Revised Statutes (Hawaii Public Procurement Code); and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3371, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3371, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2807 Ways and Means on S.B. No. 849

The purpose and intent of this measure is to facilitate the provision of certain social services.

Superficially, the measure:

- (1) Sets the state supplemental payment ceiling at \$809 for type I adult residential care homes, licensed developmental disabilities domiciliary homes, community care foster family homes, and certified adult foster homes;
- (2) Sets the state supplemental payment ceiling at \$917 for type II adult residential care homes;
- (3) Includes the care rate and personal needs allowance in all of the foregoing state supplemental payments; and
- (4) Sets the monthly needs allowance at \$75.

Your Committee received written comments in support of this measure from the Department of Human Services; Disability and Communication Access Board; Hawaii State Council on Developmental Disabilities; Executive Office on Aging; Long-Term Care Ombudsman; The Arc in Hawaii; AARP Hawaii; ILWU – Local 1000/Sebastian’s Arch, LLC; Family Services of Oahu; Clubhouse International; and five individuals.

Your Committee recognizes that state supplemental payments help ensure that there are an adequate number of facilities to assist individuals in need of social services. Your Committee finds the state supplemental payment ceilings have not been adjusted in sixteen years, therefore, increases in supplemental payment ceilings may be warranted. Your Committee also finds that an increase in the monthly needs allowance from \$50 to \$75 may be advisable due to inflation.

Your Committee has amended this measure by commencing the implementation of the measure’s state supplemental payment provisions on October 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 849, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 849, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2808 Ways and Means on S.B. No. 2257

The purpose and intent of this measure is to authorize the Hawaii Teacher Standards Board to consider a high school diploma with education and coursework comparable to an associate’s degree, as an appropriate qualification for persons who have not received an associate’s degree to teach career and technical education in public schools.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii Teacher Standards Board, Hawaii P-20 Partnerships for Education, and one individual.

Your Committee finds that this measure will help the Department of Education to fill career and technical education teacher vacancies while ensuring that licensed educators possess the same or a higher level of knowledge as currently qualified teachers.

Your Committee has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2257, S.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2257, S.D. 3.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2809 Ways and Means on S.B. No. 572

The purpose and intent of this measure is to improve the State’s biosecurity efforts.

More specifically, this measure:

- (1) Authorizes the Department of Agriculture to:
 - (A) With the approval of the Governor, declare a biosecurity emergency in certain circumstances;
 - (B) Fine agricultural commodity importers who fail to comply with the Department’s requirements;

- (C) Subpoena necessary documentation from agricultural commodity importers relating to a known or suspected infestation of pests; and
 - (D) Quarantine any farm, facility, or business that is known to be infested with pests; and
- (2) Requires the Department of Agriculture to implement certain requirements for agricultural commodity importers.

Your Committee received written comments in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Hawaii Cattlemen's Council, and Hawaii Farm Bureau.

Your Committee finds that invasive species have become a steadily increasing problem impacting Hawaii. Invasive species damage the State's environment and economy and pose a serious threat to the agricultural industry. Your Committee further finds that authorizing the Department of Agriculture to declare a biosecurity emergency will enable the Department to acquire the necessary resources to rapidly respond to new pest introductions and more effectively prevent and mitigate the spread of invasive species.

Your Committee has amended this measure by:

- (1) Clarifying the purpose of the biosecurity program's multi-dimensional system; and
- (2) Deleting a provision authorizing the Department of Agriculture to fine agricultural commodity importers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 572, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2810 Ways and Means on S.B. No. 2286

The purpose and intent of this measure is to promote workforce development by establishing an on-the-job training work experience program.

Specifically, this measure:

- (1) Authorizes the Department of Labor and Industrial Relations to contract with employers and registered apprenticeship program sponsors to train interns and reimburse those entities up to \$20.00 per hour for wages paid to the interns;
- (2) Extends state workers' compensation coverage to interns participating in the program; and
- (3) Appropriates moneys for the on-the-job training work experience program.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Department of Labor and Industrial Relations, Hawaii Tourism Authority, Department of Education, Hawaii Primary Care Association, Hawaii Food Industry Association, Hawaii Farm Bureau, Kapolei Chamber of Commerce, Chamber of Commerce Hawaii, Hawaii Lodging and Tourism Association, and Kohala Coast Resort Association.

Your Committee finds that this measure will help young people develop the skills necessary to thrive in their future careers and will help businesses by expanding the pool of applicants having requisite skills and experiences.

Your Committee has amended this measure by:

- (1) Clarifying the authority of the Department of Labor and Industrial Relations to administer the on-the-job training work experience program;
- (2) Adding a requirement that entities participating in the program indemnify the State;
- (3) Adding a requirement that the Department of Labor and Industrial Relations collaborate with the Department of Human Resources Development to process program applications and place interns;
- (4) Adding a requirement that the Department of Labor and Industrial Relations provide the Department of Human Resources Development with certain information about each intern;
- (5) Adding an annual reporting requirement;
- (6) Specifying that the State's worker compensation coverage for recent graduates shall lapse on the last day of February of the graduating year for a fall semester graduate and July 31 of the graduating year for a spring semester graduate; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2286, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2286, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2811 Ways and Means on S.B. No. 2329

The purpose and intent of this measure is to appropriate moneys to support aquacultural efforts of the Department of Land and Natural Resources.

Your Committee received written comments in support of this measure from the Department of Agriculture, Marine Science Learning Center at Waianae High School, Alii Pauahi Hawaiian Civic Club, Food+ Policy, Hanalei Watershed Hui, Hawaii Alliance for Progressive Action, Hawaii Farmers Union, Hawaii SEED, Kuaaina Ulu Auamo, Kumuola Marine Science Education Center, Maunaloa Fishpond Heritage Center, and numerous individuals.

Your Committee finds that native fish hatcheries contribute to food security, cultural preservation, and education and collaboration. Your Committee further finds that dependable hatchery operations are a key component to sustained aquaculture development.

Your Committee has amended this measure by:

- (1) Changing the appropriations from \$4,500,000 and \$150,000, respectively, to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2329, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2329, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2812 Ways and Means on S.B. No. 2504

The purpose and intent of this measure is to repeal certain provisions relating to the proposed Hawaii Pacific Hydrogen Hub.

Specifically, this measure repeals part II of Act 66, Session Laws of Hawaii 2023, which:

- (1) Requires the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that supported the development of the Hawaii Pacific Hydrogen Hub; and
- (2) Appropriates moneys to the Department of Business, Economic Development, and Tourism to develop the Hawaii Pacific Hydrogen Hub.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office and Environmental Caucus of the Democratic Party of Hawaii.

Your Committee finds that part II of Act 66, Session Laws of Hawaii 2023, was enacted to support the State's pursuit of federal funding for the development of a Hawaii Pacific Hydrogen Hub. Your Committee further finds that although Hawaii's application was not selected by the federal government for funding, the Hawaii State Energy Office gained knowledge through the development process that will be useful in advancing future green hydrogen projects.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical nonsubstantive amendments to correct bill section numbering errors.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2504, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2813 Ways and Means on S.B. No. 2518

The purpose and intent of this measure is to appropriate moneys to the Hawaii Technology Development Corporation for geothermal energy exploration, including both surface and subsurface exploration, and for community engagement.

Your Committee received written comments in support of this measure from the Hawaii Technology Development Corporation; Ulupono Initiative; Innovation Development Group, Inc.; Blue Planet Foundation; Hawaiian Electric; Chamber of Commerce Hawaii; Indigenous Consultants; and three individuals.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee received written comments on this measure from the Hawaii State Energy Office.

Your Committee finds that geothermal energy was identified as both a near-term and mid-term decarbonization opportunity in the Hawaii Pathways to Decarbonization Report, submitted to the Legislature prior to the start of the Regular Session of 2024. Your Committee believes geothermal energy has the potential to play a significant role in meeting Hawaii's energy objectives of reliability, affordability, and diversification, and that the State could benefit from further exploration of this renewable energy source.

Your Committee has amended this measure by changing the appropriation to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2518, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2518, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2814 Ways and Means on S.B. No. 2537

The purpose and intent of this measure is to clarify the reporting requirements of the Chief Energy Officer of the Hawaii State Energy Office.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office and two individuals.

Your Committee finds that Act 122, Session Laws of Hawaii 2019, did not amend three certain sections of the Hawaii Revised Statutes pertaining to the reporting of certain energy matters to the Legislature. Your Committee further finds that these omissions should be rectified for clarity by making technical housekeeping amendments to those statutory sections.

Your Committee has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2537, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2537, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2815 Ways and Means on S.B. No. 2677

The purpose and intent of this measure is to transfer authority over solar water heater system variances from the State to the counties.

More specifically, this measure:

- (1) Changes the entity responsible for approving a variance for the installation of solar water heater systems from the state Chief Energy Officer to the appropriate county authority having jurisdiction over building permits; and
- (2) Requires that the fees collected by each respective county authority be deposited into the appropriate county operating fund.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office and two individuals.

Your Committee received written comments in opposition to this measure from the County of Maui, City and County of Honolulu Department of Planning and Permitting, Green Party of Hawaii, Kauai Climate Action Coalition, Blue Planet Foundation, Solar Help Hawaii, 350 Hawaii, Hawaii Solar Energy Association, Solaray Corporation, Sol-Ark, Alternate Energy, Inc., and numerous individuals.

Your Committee received written comments on this measure from Hawaii Gas, Land Use Research Foundation of Hawaii, and one individual.

Your Committee finds that state law establishes certain criteria for a solar water heater system variance request. Your Committee further finds that the State, rather than the counties, should be responsible for determining the outcome of variance requests based on state standards. Your Committee recognizes that the counties do not presently have the requisite expertise to review and decide solar water heater system variance requests; nevertheless, the counties should be provided an opportunity to comment on the variance requests.

Your Committee has amended this measure by:

- (1) Retaining the Chief Energy Officer's jurisdiction over and responsibility for approving variances for the installation of solar water heater systems;
- (2) Requiring the Chief Energy Officer to provide a copy of the application for a variance to the appropriate county authority having jurisdiction over building permits;
- (3) Retaining the Director of Business, Economic Development, and Tourism's authority to impose and collect fees to cover the costs of administering solar water heater variances, and requiring the fees collected to be deposited into the energy security special fund;
- (4) Authorizing applicants for a solar water heater variance to submit their request concurrently with a building permit application;
- (5) Changing the effective date to July 1, 2024; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2677, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2677, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2816 Ways and Means on S.B. No. 2727

The purpose and intent of this measure is to enable residential high-rise condominium properties to participate in commercial property assessed financing, also known as commercial property assessed clean energy and resiliency, or C-PACER financing.

Your Committee received written comments in support of this measure from the Hawaii Green Infrastructure Authority; Office of Planning and Sustainable Development; Hawaii State Energy Office; Island Insurance Companies' CastleGreen Finance; Holomua Collaborative; Hawaii REALTORS; Hawaii Insurers Council; PACE Loan Group; CPACE Lending; Association of Apartment Owners of Pat's at Punaluu; Parkland Gardens Association of Apartment Owners Board of Directors; Petros PACE Finance, LLC; Hawaii Energy; C-PACE Alliance, Inc.; Nuveen Green Capital; Ulupono Initiative; Hawaii Bankers Association; The Laborer's International Union Local 368; The Plumbers & Fitters Local 675; and three individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that high-rise condominium properties require financing for the installation of equipment relating to fire safety, energy efficiency, renewable energy, water conservation, and resiliency. Your Committee recognizes the merits of granting high-rise condominium property regimes access to C-PACER financing, through which commercial property owners may finance qualifying improvements on their properties, then repay through a voluntary assessment that is similar to a real property tax.

Your Committee has amended this measure by:

- (1) Amending the definition of "commercial property" as used for the purposes of the Hawaii Green Infrastructure Loan Program to include any condominium regime having units in a building that is not less than an unspecified height;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2727, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2727, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2817 Ways and Means on S.B. No. 3365

The purpose and intent of this measure is to prohibit the distribution of untreated wood chips, compost, and filter socks between any location outside the State and any location inside the State, and between islands of the State.

Your Committee received written comments in support of this measure from the Department of Agriculture.

Your Committee recognizes that as travel and the importation of goods expand, the State and its environment could become victims of new and devastating invasive species from outside the State. Your Committee finds that the proper treatment of plant care components before they are distributed to, within, and from the State, will help prevent the spread of invasive pests and diseases.

Your Committee has amended this measure by:

- (1) Providing that no person shall distribute within the State any plant care component that originated outside the State, unless the component has been treated immediately after entering the State, as certified by the Department of Agriculture; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3365, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3365, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2818 Ways and Means on S.B. No. 2159

The purpose and intent of this measure is to require the Department of Agriculture, in coordination with the Office of Planning and Sustainable Development, to prepare and periodically update, beginning prior to the 2026 Regular Session, the state agriculture functional plan to include food-related information on aquaculture.

Your Committee received written comments in support of this measure from the Office of Planning and Sustainable Development; Agribusiness Development Corporation; Hawaii Farmers Union; Kupu Place Aquaponics, LLC; Hawaii Farm Bureau; Food+ Policy; Chamber of Commerce Hawaii; Hawaii Fishermen's Alliance for Conservation and Tradition; and one individual.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that seafood is crucial for food and nutrition security. Your Committee also finds, however, that to help the wild seafood system reach its potential and to expand the State's priority on food by including freshwater and saltwater aquatic organisms as viable food sources, the State needs relevant, regularly updated information from the Department of Agriculture and Office of Planning and Sustainable Development.

Your Committee has amended this measure by:

- (1) Inserting into the Hawaii Revised Statutes the requirement for the Department of Agriculture to periodically update the state agricultural functional plan; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2159, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2159, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2819 Ways and Means on S.B. No. 2419

The purpose and intent of this measure is to appropriate moneys to the Department of Agriculture's biosecurity program to develop and implement projects for clean seed and new varietal improvements, agricultural treatments, diagnostics, and pest management.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources; Department of Agriculture; Honolulu City Council; Hawaii Young Republicans; Hawaii Farm Bureau; Hawaii Farmers Union; Larry Jeffs Farms, LLC; Maui County Farm Bureau; Ulupono Initiative; Hawaii Crop Improvement Association; Hawaii Floriculture and Nursery Association; Land Use Research Foundation of Hawaii; Hawaii Food+ Policy; Aina Hookupu o Kilauea; Hawaii Cattlemen's Council, Inc.; and six individuals.

Your Committee finds that invasive species pose a significant risk to Hawaii's agriculture, environment, natural resources, public health, and economy. Your Committee further finds that the Department of Agriculture is required to implement the comprehensive biosecurity program to control and prevent increasing threats of pests and prohibited or restricted organisms lacking a permit from entering and spreading throughout the State. Your Committee recognizes the Department's need for further appropriations to effectuate the biosecurity program.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making a technical nonsubstantive amendment for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2419, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2419, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2820 Ways and Means on S.B. No. 2133

The purpose and intent of this measure is to authorize the Hawaii Housing Finance and Development Corporation to issue and use bond financing for infrastructure projects required to support housing development statewide.

More specifically, the measure:

- (1) Authorizes the Hawaii Housing Finance and Development Corporation to use bond financing for housing project infrastructure and to finance the development of regional state infrastructure projects;
- (2) Exempts from state, county, and municipal taxation, bonds issued by the Hawaii Housing Finance and Development Corporation for improvements by assessments, and the interest on these bonds, with certain exceptions;
- (3) Includes proceeds from bonds issued from regional state infrastructure projects as a source of revenue for regional state infrastructure subaccounts; and
- (4) Authorizes the use of regional state infrastructure subaccount revenues to repay regional state infrastructure project bond holders.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, Partners in Care – Oahu's Continuum of Care, NAIOP Hawaii Chapter, and Land Use Research Foundation of Hawaii.

Your Committee finds that allowing the Hawaii Housing Finance and Development Corporation to finance the cost of infrastructure projects, which are typically paid by private developers, will help address a major barrier to the development of affordable housing in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2133 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2821 Ways and Means on S.B. No. 2322

The purpose and intent of this measure is to require and appropriate moneys for the Department of Health to continue testing water quality during brown water advisories under certain circumstances.

Your Committee received written comments in support of this measure from the Department of Health, Kihei Community Association, Surfriider Foundation, Windward Coalition, and numerous individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that robust water testing and public notification during brown water advisories is important for public health and safety, enabling the beach-going public to have the necessary information to determine where it is safe to surf, swim, and play at the beach. Your Committee further finds that an expansion of the Hawaii Beach Monitoring Program will require additional work and resources, including up to \$1,120,000 and nine additional full-time equivalent (9.0 FTE) positions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2322, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2822 Ways and Means on S.B. No. 2070

The purpose and intent of this measure is to exempt from the Hawaii Public Procurement Code purchases of career and technical education goods and services made by the Department of Education.

Your Committee received written comments in support of this measure from the Department of Education; Department of Business, Economic Development, and Tourism; and Hawaii State Energy Office.

Your Committee received written comments on this measure from the State Procurement Office.

Your Committee finds that the procurement exemption authorized by this measure will help the Department of Education to timely acquire career and technical education equipment and services thus enabling the Department to provide students with the skills and knowledge that meet current industry standards.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2823 Ways and Means on S.B. No. 2828

The purpose and intent of this measure is to require the Department of Accounting and General Services to convert six engineer (buildings) V positions to project manager II positions and establish the salaries comparable to project manager II class, SR-26.

Your Committee received written comments on this measure from the Department of Accounting and General Services.

Your Committee finds that converting the specified positions will help the Department of Accounting and General Services to more efficiently support public works projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2824 Ways and Means on S.B. No. 2951

The purpose and intent of this measure is to appropriate moneys to the Agribusiness Development Corporation for maintenance of and improvements to the East Kauai Irrigation System, including the establishment of positions to implement the maintenance and improvements.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands; Department of Land and Natural Resources; Agribusiness Development Corporation; County of Kauai; County of Kauai Office of Economic Development; ADC; Hawaii Cattlemen's Council; Hawaii Farm Bureau; Hawaii Farmers Union; Kauai Chamber; Kalepa Coalition; Larry Jefts Farms, LLC; Local Food Coalition; Saiva Siddhanta Church; Ulupono Initiative; and one individual.

Your Committee finds that the East Kauai Irrigation System is critical for agricultural production in Hawaii, and that the system is relied upon by numerous farmers and ranchers. Your Committee also finds that the system is a critical source of water for land held by the Department of Hawaiian Home Lands. Your Committee further finds that the East Kauai Irrigation System is a century-old system that requires repair, renovation, and improvements. Your Committee therefore believes that it is necessary to provide funding for the Agribusiness Development Corporation to assume responsibility for the system.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2951, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2825 Ways and Means on S.B. No. 3087

The purpose and intent of this measure is to expand access to early learning programs by allowing those programs to operate on public properties outside of Department of Education school campuses.

Your Committee received written comments in support of this measure from the Department of Human Services, Department of Education, Executive Office on Early Learning, Office of Hawaiian Affairs, HE'E Coalition, Hawaii Children's Action Network Speaks!, Early Childhood Action Strategy, Kamehameha Schools, Chamber of Commerce Hawaii, and one individual.

Your Committee finds that this measure will help to increase the number of available locations for early learning programs without expending state moneys, which will help the State to meet its goal of providing all three- and four-year-old children with access to preschool by December 31, 2032, as established by section 26-61, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2826 Ways and Means on S.B. No. 3305

The purpose and intent of this measure is to exempt public charter schools that offer exclusively prekindergarten programs from various requirements applicable to other public charter schools.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, Hawaii Children's Action Network Speaks!, and Parents And Children Together.

Your Committee finds that in January 2024, the State Public Charter School Commission approved the first prekindergarten-only public charter school. Your Committee further finds that this measure will help to expand access to early education by removing unnecessary requirements for that school and similar future schools.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3305 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2827 Ways and Means on H.B. No. 2520

The purpose and intent of this measure is to appropriate moneys for the legislative branch of the State of Hawaii.

Specifically, this measure appropriates moneys for:

- (1) The Senate and House of Representatives for the period up to and including June 30, 2025; and
- (2) The Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission for fiscal year 2024-2025.

Your Committee received testimony in support of this measure from the Legislative Reference Bureau, Office of the Auditor, Office of the Ombudsman, Hawaii State Ethics Commission, and one individual.

Your Committee received comments on this measure from one individual.

Your Committee finds that this measure appropriates sufficient funds to defray necessary expenses of the Senate and House of Representatives, including expenses for a legislative information system and legislative broadcasting program, along with funds necessary to support the operations of the Office of the Auditor, Legislative Reference Bureau, Office of the Ombudsman, and State Ethics Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2520, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Fevella).

SCRep. 2828 Commerce and Consumer Protection on S.B. No. 2861

The purpose and intent of this measure is to:

- (1) Make it unlawful for an exclusive listing agreement to last longer than twelve months from the date the agreement was made; and
- (2) Make it unlawful to present for recording or filing, or to otherwise attempt to record or file, with the Bureau of Conveyances, an exclusive listing agreement of any duration.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Hawai'i Association of REALTORS, and AARP Hawai'i.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that an exclusive listing is a type of real estate listing agreement in which a property seller appoints and specifically authorizes one real estate broker to act as the seller's sole agent. By contrast, in an open, or non-exclusive listing, the seller has the right to employ any number of brokers as agents. Your Committee also finds that it is common for more established, successful real estate agents and agencies to require these exclusive listing agreements, ensuring that the agent or their agency receives commissions throughout the duration of the agreement every time the home changes hands, no matter who actually finds the buyer. Your Committee further finds that the exclusive listing agreements are recorded as liens on the property, placing a cloud on the property's title and hampering the homeowner's ability to borrow money through a mortgage or home equity loan. Furthermore, because the agreement attaches to the property and not the person who entered into the exclusive listing agreement, subsequent owners of the property are also subject to the terms and conditions of the agreement. Your Committee finds that many consumers are unaware

of the consequences of entering into exclusive listing agreements, as advertisements and explanations of this practice are deceptive and fail to fully explain the terms. Therefore, this measure will curb the uncompetitive practice of long-term exclusive listing agreements that can unfairly encumber a property owner's title, reduce their equity, and have an anti-competitive effect on the sale of real estate, thereby promoting the free choice of agents for property sellers.

Prior to the decision-making hearing on this measure, your Committee circulated and made available to its members consensus language prepared by the Office of Consumer Protection and the Bureau of Conveyances to clarify that recorded exclusive listing agreements shall not operate as a lien and establishing certain remedies. Amendments to this measure are therefore necessary to incorporate this consensus language.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to clarify that an exclusive listing agreement is void and unenforceable under state law that governs unfair and deceptive practices if the agreement:
 - (A) Lasts longer than twelve months from the date the agreement was made;
 - (B) Purports to run with the land or be binding on future owners of interests in the residential real property;
 - (C) Allows for assignment of the right to provide services without notice to and the consent of the owner of the residential real property; or
 - (D) Purports to create a lien, encumbrance, or other real property security interest;
- (2) Inserting language clarifying that an exclusive listing agreement made or presented for recording or filing with the Bureau of Conveyances in violation of the requirements proposed in this measure:
 - (A) Shall not be enforceable, have any legal effect, or provide actual or constructive notice to any person interested in the residential real property identified in the exclusive listing agreement; and
 - (B) Shall not operate as a lien, encumbrance, or security interest;
- (3) Inserting language:
 - (A) Relieving owners or buyers of residential real property subject to an exclusive listing agreement made or presented for recording or filing with the Bureau of Conveyances in violation of the requirements proposed in this measure from the burden of recording documents to remove the agreement from the property's records;
 - (B) Allowing a person with an interest in the residential real property subject to an exclusive listing agreement, notice, or memorandum of agreement recorded in violation of the requirements proposed in this measure to apply for a court order declaring the agreement, notice, or memorandum of agreement void and unenforceable; and
 - (C) Allowing a person with an interest in the residential real property subject to a void and unenforceable exclusive listing agreement to recover damages, costs, and attorney's fees that may be proved against the service provider named in the agreement;
- (4) Inserting language providing that a service provider has no right to a refund of the consideration paid to the owner of residential real property in connection with a void exclusive listing agreement;
- (5) Amending the definition of "exclusive listing agreement" to apply only to "residential real property";
- (6) Inserting definitions of "residential real property" and "service provider" for the purposes of clarity;
- (7) Deleting language that would have established certain prohibitions in chapter 502, Hawaii Revised Statutes;
- (8) Amending section 1 to reflect its amended purpose;
- (9) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2861, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2861, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2829 Commerce and Consumer Protection on S.B. No. 3083

The purpose and intent of this measure is to amend various sections of chapter 431, article 11, Hawaii Revised Statutes, to adopt revisions to the National Association of Insurance Commissioners (NAIC) Model No. 440, Insurance Holding Company System Regulatory Act.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and American Council of Life Insurers.

Your Committee received testimony in opposition to this measure from the Tradewind Group, Inc.

Your Committee finds that the ability to accurately monitor the strength and stability of an insurer is critical for both the State and those insured. Your Committee further finds that the NAIC updated certain provisions of the Insurance Holding Company System

Regulatory Act, relating to, among other things, the group capital assessment and calculation, which captures insurer risk at the level of the entire group, and liquidity stress test calculation. Accordingly, this measure makes various technical updates to the State's Insurance Holding Company System law to conform with the NAIC revisions.

Your Committee has amended this measure by:

- (1) Restoring language in the existing Insurance Holding Company System law that exempts the ultimate controlling person of a domestic insurance holding company system from the requirement of filing an annual enterprise risk report with the Insurance Commissioner;
- (2) Inserting language that exempts the ultimate controlling person of a domestic insurance holding company system from the requirement of filing annual group capital calculations with the Insurance Commissioner;
- (3) Inserting language that exempts the ultimate controlling person of a domestic insurance holding company system scoped into the liquidity stress test framework from the requirement of filing the results of a specific year's liquidity stress test with the Insurance Commissioner;
- (4) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3083, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (McKelvey).

SCRep. 2830 Commerce and Consumer Protection on S.B. No. 524

The purpose and intent of this measure is to authorize the Insurance Commissioner to require the Commissioner's pre-approval for certain salary increases granted to any person receiving a salary over a certain amount from an insurer.

Your Committee received testimony in opposition to this measure from the National Association of Mutual Insurance Companies.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that certain insurance companies that enjoy generous tax breaks have been compensating their top executives and board members generously, while increasing their insurance rates and cutting the jobs of many rank-and-file employees through company restructurings, resulting in questions being raised regarding corporate accountability and the erosion of public trust. Your Committee finds that by authorizing the Insurance Commissioner to approve certain insurer salary increases, this measure will restore public trust, increase corporate accountability, and ensure that employees and policyholders are not financing the exorbitant compensation of certain insurance executives and board members.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 524, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 524, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Fukunaga, Richards). Noes, none. Excused, 1 (Awa).

SCRep. 2831 Commerce and Consumer Protection on S.B. No. 2695

The purpose and intent of this measure is to:

- (1) Add the definitions of "identifier" and "specified data element" and amend the definition of "personal information" for the purposes of notifying affected persons of data and security breaches under existing state law that governs the security breach of personal information; and
- (2) Include licensees subject to the Insurance Data Security Law, article 3B, chapter 431, Hawaii Revised Statutes, among the businesses deemed compliant with security breach notice requirements existing under state law.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Department of Education, Office of Enterprise Technology Services, Student Advocates for Responsible Technology, and one individual.

Your Committee received testimony in opposition to this measure from TechNet, State Privacy & Security Coalition, Hawaii Financial Services Association, and Consumer Data Industry Association.

Your Committee received comments on this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs, Hawaii Bankers Association, and Hawaii Credit Union League.

Your Committee finds that the expansion of the Internet and related digital technologies has resulted in the need to safeguard personal and sensitive data from exploitation, identity theft, financial fraud, and even blackmail. To that end, the Legislature adopted House Concurrent Resolution No. 225, H.D. 1, S.D. 1 (2019), which requested a Twenty-First Century Privacy Law Task Force be convened to examine and recommend laws and regulations relating to internet privacy; the collection, transmission, processing, protection, storage, and sale of personal data; hacking; data breaches; and other similar subjects. Your Committee finds that the

Twenty-First Century Privacy Law Task Force determined that certain definitional amendments to the state law governing the security breach of personal information under chapter 487N, Hawaii Revised Statutes, were necessary to make privacy protection more robust and expansive. Therefore, this measure, among other things, makes various technical updates to conform with the Twenty-First Century Privacy Law Task Force's recommendations.

Your Committee has amended this measure by:

- (1) Repealing the Office of Thrift Supervision as one of the federal regulators on the list of businesses deemed to be in compliance with security breach notice requirements under section 487N-2, Hawaii Revised Statutes;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2695, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2695, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 2832 Judiciary on S.B. No. 2384

The purpose and intent of this measure is to lower the blood alcohol concentration threshold for driving while under the influence of alcohol from 0.08 to 0.05.

Your Committee received testimony in support of this measure from the National Transportation Safety Board, Office of the Governor, Department of Transportation, Department of Health, Department of the Prosecuting Attorney of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, Office of the Prosecuting Attorney of the County of Kaua'i, Office of the Prosecuting Attorney of the County of Hawai'i, Honolulu Police Department, Hawai'i Police Department, one member of the Hawai'i County Council, Oahu Metropolitan Planning Organization, Mothers Against Drunk Driving Hawaii, Hawai'i Alcohol Policy Alliance, Smart Start LLC, Advocates for Highway and Auto Safety, FIA Foundation, Kids and Car Safety, Liam's Life Foundation, National Safety Council, .05 Saves Lives Coalition, Trauma Foundation, Keala Foundation, Hawaii Substance Abuse Coalition, Lokahi Treatment Centers, SparksInitiatives, Maui Coalition for a Drug-Free Youth, U.S. Alcohol Policy Alliance, Maika'i Cleaning Services LLC, and thirty-nine individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Mahalo Aleworks, Big Island Brewhaus, Kauai Beer Company, Lanikai Brewing Company, Maui Chamber of Commerce, Craft 'Ohana, and three individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that there is growing concern regarding impaired driving in the State, as intoxicated driving is the leading cause of traffic fatalities and leaves permanent impacts on the lives of innocent people. In 2013, the National Transportation Safety Board recommended that all fifty states adopt a blood alcohol concentration (BAC) limit of 0.05 compared to the 0.08 BAC standard, which would save approximately five hundred to eight hundred lives annually across the country. Your Committee further finds that there is an increasing rate of fatal crashes in the State involving intoxicated drivers. In 2021, there were one hundred twenty-seven drivers involved in deadly crashes, which increased to one hundred sixty-five drivers involved in fatal crashes in 2022. In addition, your Committee believes that lowering the BAC to .05 will have a strong deterrent effect and discourage impaired driving in the State. Accordingly, this measure creates stronger safeguards against intoxicated driving while ensuring greater protection of roadway users and the State's communities.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2384 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 2833 Judiciary on S.B. No. 3236

The purpose and intent of this measure is to clarify that if no personal property designation appears in the recorded instrument, the interests of the beneficiaries shall be real property.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the Department of Hawaiian Home Lands (Department) has been aggressively pursuing the fulfillment of its mission to fully support self-sufficiency for Native Hawaiians by providing the opportunity for homestead leases and homeownership. One initiative that the Department is pursuing in an effort to accelerate the fulfillment of that goal is to create the opportunity for lower-income Native Hawaiians on the wait lists to access Hawaii Housing Finance and Development Corporation funding involving the Low-Income Housing Tax Credits Program (LIHTC). With the use of LIHTCs, there is a fifteen-year compliance period whereby participants must satisfy certain requirements and are considered "renters" until the end of the compliance period, where they are then given the option to purchase and own the units. However, participants are not issued a homestead lease until the fifteen-year compliance period is finished, at which point the renter takes out a loan to pay off the remaining debt and is then issued a Hawaiian Homestead ninety-nine-year lease. Unfortunately, if the "renter" dies before the fifteen-year conversion point, and their successor is less than fifty percent Hawaiian, the unit cannot be transferred to their heir and the heir receives nothing. This measure will address this problem by placing certain Hawaiian Home Lands in a land trust and clarify that the beneficial interest under the trust will be deemed real property rather than personal property.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3236 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2834 Judiciary on S.B. No. 3034

The purpose and intent of this measure is to explicitly categorize defenses based on intoxication that is pathological or not self-induced as affirmative defenses.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Law Enforcement, and Office of the Prosecuting Attorney of the County of Kaua'i.

Your Committee finds that intoxication as a defense creates inequity in the judicial system when the defendant raises, or infers the possibility of, an intoxication defense to the prosecution months after the incident has occurred. In some cases, crucial substantive or tangible evidence may be destroyed, lost, or tampered with before a defendant raises an intoxication defense. Additionally, the prosecution is left at a severe disadvantage as the prosecution and law enforcement are unable to thoroughly investigate the claims beyond a reasonable doubt. This measure ensures fair and just prosecution while providing for instances of legitimate defense.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3034 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2835 Judiciary on S.B. No. 2487

The purpose and intent of this measure is to:

- (1) Increase the minimum amount of marijuana necessary for a person to commit the offense of promoting a detrimental drug in the second degree from one ounce to more than two ounces;
- (2) Increase the amount of marijuana a person may have for the offense of promoting a detrimental drug in the third degree to be a violation from three grams or less of marijuana to one ounce or less; and
- (3) Amend the fine for a violation under promoting a detrimental drug in the third degree.

Your Committee received testimony in support of this measure from the Office of the Public Defender, one member of the Kaua'i County Council, ACLU of Hawaii, Marijuana Policy Project, Drug Policy Forum of Hawai'i, Hawai'i Public Health Institute, Aloha Green Holdings Inc., Last Prisoner Project, Democratic Party of Hawai'i, Cannabis Society of Hawai'i, Rainbow Family 808, and five individuals.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Honolulu Police Department, Department of the Prosecuting Attorney of the City and County of Honolulu, and three individuals.

Your Committee received comments on this measure from the Hawaii Substance Abuse Coalition.

Your Committee finds that the consequences of arresting, prosecuting, and incarcerating people for personal drug use are devastating. People who have been convicted of possession of small amounts of marijuana cycle through the criminal justice system and are not able to successfully contribute to society or have the support of their social network. Additionally, a criminal record can carry lasting, detrimental effects on finding employment, housing, and accessing educational opportunities. This measure will make the State's cannabis laws more responsible, just, and equitable.

Your Committee has amended this measure by:

- (1) Changing the minimum amount of marijuana necessary for a person to commit the offense of promoting a detrimental drug in the second degree from more than two ounces to thirty grams or more;
- (2) Deleting language that would have repealed marijuana from the offense of promoting a detrimental drug in the third degree;
- (3) Decreasing the amount of marijuana a person may possess for the offense of promoting a detrimental drug in the third degree to be a violation from one ounce or less of marijuana to fifteen grams or less;
- (4) Deleting language that would have adjusted the fine for committing a violation under the offense of promoting a detrimental drug in the third degree to an unspecified amount; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2487, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2487, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2836 Judiciary on S.B. No. 3159

The purpose and intent of this measure is to clarify that a contested case hearing is not required when a tribunal has already issued a final decision and order in a substantially similar contested case proceeding that was not appealed, or where a court of last resort has already issued a final decision on the proceeding or on other substantially similar matters.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received comments on this measure from Life of the Land.

Your Committee finds that requiring agencies to hold multiple contested case hearings on matters that are substantially similar impedes agencies from acting to address critical issues and is unduly burdensome on agency staff and financial resources. Additionally, having multiple contested cases on substantially similar matters could lead to conflicting decisions and greater legal ambiguity. This measure will prevent the exploitation of the contested case process while also protecting the due process rights of a party seeking a contested case for a matter that has not been previously adjudicated.

Your Committee has amended this measure by:

- (1) Specifying that a contested case hearing may be denied when a requesting party alleges or raises a cause of action, claim, controversy, issue, fact, or substantive law that is identical or arising from the same factual situation as another administrative matter that has been finally adjudicated;
- (2) Deleting language that would have required a denial for a contested case hearing to identify the previous administrative matter and reference the previous cause of action, claim, controversy, issue, fact, or substantive law and include findings that it was finally adjudicated;
- (3) Inserting language requiring a denial for a contested case hearing to include the agency's findings of facts and conclusions of law within the body of the decision; provided that a previous contested case may be utilized in whole or in part;
- (4) Inserting an effective date of April 14, 2112, to encourage further discussion;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3159, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2837 Judiciary on S.B. No. 3350

The purpose and intent of this measure is to:

- (1) Require judges, justices, and nominees for judicial vacancies to file certain disclosures with the State Ethics Commission; and
- (2) Require the Commission on Salaries to consider the deterrence of bribery and corruption when making its salary recommendations.

Your Committee received testimony in opposition to this measure from the Judiciary.

Your Committee received comments on this measure from the Hawai'i State Ethics Commission and League of Women Voters of Hawaii.

Your Committee finds that the State is responsible for upholding an ethical position on the deterrence of conflicts of interest, bribery, and corruption in all branches of government. When government is idle about combatting corruption, this can erode public trust and confidence for state leaders and exacerbate social tensions, which could contribute to violence. This measure will improve public confidence in the ethical standing of nominees for justices and judges.

Your Committee has amended this measure by:

- (1) Inserting language requiring:
 - (A) An appointee for a judge or justice to file a disclosure of financial interests within five business days of the appointee's appointment;
 - (B) That the disclosure be made available to the Senate in addition to the State Ethics Commission; and
 - (C) That the disclosure be made public by the State Ethics Commission;
- (2) Deleting language that would have required judges and justices to file a disclosure of financial interests annually with the State Ethics Commission;
- (3) Requiring appointees for justices and judges, instead of nominees for justices and judges, to file with the State Ethics Commission an initial disclosure of financial interests;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3350, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2838 Judiciary on S.B. No. 2687

The purpose and intent of this measure is to:

- (1) Prohibit a person from distributing, or entering into an agreement with another person to distribute, materially deceptive media unless the media contains a disclaimer;
- (2) Establish remedies for parties injured by the distribution of materially deceptive media; and
- (3) Establish criminal penalties for distributing materially deceptive media.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; Hawaii State AFL-CIO; League of Women Voters of Hawaii; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Motion Picture Association; and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Association of Broadcasters, Inc.; Surfing 4 Truth; and sixty individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that although artificial intelligence (AI) technology can greatly benefit certain aspects of society, it can also have dangerous consequences if applied maliciously. For example, the use of deepfakes or generative AI in elections can be a powerful tool used to spread disinformation and misinformation, which can increase political tensions and result in electoral-related conflict and violence. Several states, including Michigan, Minnesota, and Washington, have enacted legislation governing the use of AI elections. This measure will protect the democratic process in the State by establishing necessary regulations on the use of deepfake and generative AI technologies to influence elections.

Your Committee notes that your Committee intends for the Campaign Spending Commission to have the ability to refer violations of the new section established by this measure for prosecution pursuant to section 11-411, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Clarifying that the new section added by this measure is placed in chapter 11, part XIII, Hawaii Revised Statutes;
- (2) Changing the applicable state of mind requirement from intentional to knowing for the prohibition on the distribution of the materially deceptive media that will harm the reputation or electoral prospects of a candidate in an election or to change the voting behavior of electors in an election by deceiving the electors into incorrectly believing that the depicted individual in fact engaged in the speech or conduct depicted;
- (3) Inserting language exempting broadcasters from the prohibition against distributing materially deceptive media if the broadcaster is required to run the materially deceptive media without editing the media pursuant to federal law or rule;
- (4) Allowing a Commissioner of the Campaign Spending Commission to maintain a cause of action for injunctive or other equitable relief against a person who is reasonably believed to violate or who is in the course of violating the prohibition against distributing materially deceptive media;
- (5) Clarifying that “materially deceptive media” must be an advertisement, as defined in section 11-302, Hawaii Revised Statutes;
- (6) Inserting an effective date of April 14, 2112, to encourage further discussion;
- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2687, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2687, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2839 Judiciary on S.B. No. 2686

The purpose and intent of this measure is to:

- (1) Exempt certain personal information of public servants from government records that are subject to disclosure under the State’s Uniform Information Practices Act;
- (2) Establish within the State’s Address Confidentiality Program protection for public servants that prohibits upon written request from the public servant or representative any person or organization from disclosing certain personal information; and
- (3) Establish the offense of unlawful publication of personal information that prohibits any person or organization from knowingly disclosing protected personal information of public officials with the intent to cause reputational harm, emotional injury, or bodily injury.

Your Committee received testimony in support of this measure from the Judiciary; Employees' Retirement System; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; RELX Group; Hawaii State AFL-CIO; American Judicature Society; and one individual.

Your Committee received testimony in opposition to this measure from the Public First Law Center, Software and Information Industry Association, League of Women Voters of Hawaii, and TechNet.

Your Committee received comments on this measure from the Department of Law Enforcement, Department of Land and Natural Resources, Department of the Attorney General, Office of Information Practices, Department of Budget and Fiscal Services of the City and County of Honolulu, and Coalition for Sensible Public Records Access.

Your Committee finds that across the country, elected state and local officials, judges, election officials, school board officials, and others in decision-making positions that directly impact the public or an individual in other high-profile government positions have experienced an alarming increase in acts of violence, or attempts to engage in acts of violence, at their personal residence or the residence of a family member. In the past three years, two government officials and the family member of another were killed at their home. Additionally, federal judges and other court personnel were the targets of more than four thousand five hundred threats and other inappropriate communications in 2021, representing an increase of eighty-one percent from the number of threats in the fiscal year 2016. At the state level, the number of threats and other inappropriate communications to judges in the State have increased tenfold since 2012. This measure will prevent harm to public servants and their families by protecting their personal information from being used to threaten or harass those individuals.

Your Committee notes that your Committee intends that a representative of a covered public servant will include the covered public servant's employer. For example, the Judiciary may make a request on behalf of a judge if the judge authorizes it.

Your Committee has amended this measure by:

- (1) Deleting language that would have exempted certain personal information of public servants from government records that are subject to disclosure under the State's Uniform Information Practices Act;
- (2) Deleting language that would have defined "covered public servant" to mean:
 - (A) Any person employed or retired, appointed, or volunteering for the State or any of its political subdivisions or agencies;
 - (B) Members of boards and commissions who are appointed and confirmed pursuant to section 26-34, and other individuals including volunteers who are responsible for or assisting with government responsibilities; or
 - (C) Any active, formerly active, or retired justice of the United States Supreme Court, judge of the United States Court of Appeals, or judge or magistrate judge of the United States District Court or United States Bankruptcy Court, provided the person resides in the State;
- (3) Inserting language defining "covered public servant" to mean:
 - (A) The Governor;
 - (B) The Lieutenant Governor;
 - (C) The State Administrative Director appointed pursuant to section 26-3, Hawaii Revised Statutes;
 - (D) Any head of a state department established under section 26-4, Hawaii Revised Statutes;
 - (E) Any member of the Legislature;
 - (F) Any active, formerly active, or retired justice of the Hawaii Supreme Court; judge of the Hawaii Intermediate Court of Appeals; judge of a Hawaii circuit court or circuit family court; judge of a Hawaii district court or district family court; or per diem judge of a Hawaii district court or district family court;
 - (G) Any active, formerly active, or retired justice of the United States Supreme Court; judge of the United States Court of Appeals; judge or magistrate judge of the United States District Court; or judge of the United States Bankruptcy Court who resides in the State, formerly resided in the State while serving as a federal judge, or owns real property in the State;
 - (H) The Administrative Director of the courts;
 - (I) The Deputy Administrative Director of the courts;
 - (J) Any employee or volunteer of the Office of Elections; or
 - (K) Any person designated for good cause by the Governor, Chief Justice, Chairperson of the Office of Hawaiian Affairs, President of the Senate, or Speaker of the House of Representatives in the designator's respective body;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2686, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2686, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2840 Commerce and Consumer Protection on S.B. No. 2850

The purpose and intent of this measure is to authorize the Director of Commerce and Consumer Affairs to appoint an organization as the limited owner of a cemetery, under certain circumstances, for the purpose of providing perpetual care and security measures for the cemetery.

Your Committee received testimony in support of this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Pearl City Neighborhood Board No. 21, and one individual.

Your Committee finds that Sunset Memorial Park in Pearl City, Oahu, has been neglected for years and has been the subject of numerous complaints by individuals who have family members buried there. The cemetery has been described as having a damaged mausoleum, sinking graves, and markers that are hidden under overgrown grass and bushes. Your Committee also finds that with no owner to take responsibility, Sunset Memorial Park currently relies on volunteers to maintain the cemetery.

Your Committee further finds that although the Department of Commerce and Consumer Affairs has taken certain positive steps to remediate the condition of Sunset Memorial Park, the lack of an owner for the cemetery, who could provide ongoing maintenance and security measures, has left the property in a state of disrepair, and subject to vandalism and desecration. Therefore, this measure will help restore the sanctity of Sunset Memorial Park--along with other cemeteries who are currently without an owner--and deliver peace to the relatives and friends of the deceased.

Your Committee has amended this measure by:

- (1) Inserting language authorizing an appointed limited owner of a cemetery to contract for certain major repair work and to generate and raise long-term funding in support of the cemetery;
- (2) Inserting language requiring an appointed limited owner of a cemetery to submit annual reports to the Department of Commerce and Consumer Affairs regarding the status and progress of any new and existing initiatives undertaken to improve the cemetery;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2850, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2850, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2841 Judiciary on S.B. No. 2706

The purpose and intent of this measure is to expand eligibility for, and automate, the expungement of conviction records if certain criteria are met, including the lack of a conviction record for a specified time period following the date of conviction.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Democratic Party of Hawai'i, Hawai'i Innocence Project, Beyond Guilt Hawai'i, Opportunity Youth Action Hawai'i, ACLU of Hawai'i, and four individuals.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General, Crime Victim Compensation Commission, Office of the Prosecuting Attorney of the County of Kaua'i, Department of the Prosecuting Attorney of the County of Maui, Office of the Prosecuting Attorney of the County of Hawaii, Mothers Against Drunk Driving Hawaii, Sex Abuse Treatment Center, Retail Merchants of Hawaii, Hawai'i State Coalition Against Domestic Violence, and five individuals.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that approximately seventy-seven million people in the United States, or one in three adults, have a criminal record, which can adversely affect a person's financial and housing security by limiting the person's access to employment, housing, or a professional license. Many states, including Hawai'i, have laws that allow persons who meet certain eligibility criteria to petition or apply for the removal of a criminal record. A procedure for automatic expungement of criminal records could streamline the legal process and eliminate the need for the eligible person to navigate the process, including at times hiring an attorney. Automatic expungement may also reduce recidivism and promote fairness and equity in the criminal justice system. However, your Committee finds that moving to an automatic expungement process is complex and should be carefully considered. Accordingly, your Committee believes that a task force should first examine the issues and develop a state-initiated program to clear convictions records.

Your Committee has amended this measure by:

- (1) Deleting language that would have:
 - (A) Expanded eligibility for, and automated, the expungement of conviction records if certain criteria were met; and
 - (B) Required the Attorney General, beginning December 1, 2026, to issue automatic expungement orders and the Judiciary to seal or remove information from publicly accessible databases;
- (2) Inserting language establishing the Clean Slate Expungement Task Force to develop a state-initiated record clearing program;
- (3) Amending section 1 to reflect its amended purpose; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2706, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2706, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2842 (Joint) Ways and Means and Judiciary on S.B. No. 3175

The purpose and intent of this measure is to authorize the Department of Taxation to serve administrative subpoenas in jurisdictions outside the State.

Your Committees received testimony in support of this measure from the Department of Taxation and one individual.

Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that in the digital economy, a growing number of taxpayers engage in business in Hawaii but do not have a physical presence in the State where administrative subpoenas may be served. Your Committees believe that by engaging in business in the State, a taxpayer implicitly consents to the exercise of the State's taxation power. Accordingly, your Committees find that this measure will allow the Department of Taxation to serve administrative subpoenas on these businesses and thus enforce state tax laws.

Your Committees have amended this measure by adding a savings clause section and renumbering subsequent sections accordingly.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3175, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3175, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 13. Noes, none. Excused, none.
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2843 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 3176

The purpose and intent of this measure is to improve the enforcement of tax laws in the State.

More specifically, this measure:

- (1) Provides deadlines for taxpayers under audit to comply with demands to produce documents and evidence; and
- (2) Authorizes the tax appeal court to preclude documents or information not produced pursuant to a demand from being introduced in evidence in a tax appeal or action under section 40-35, Hawaii Revised Statutes, unless the failure was due to reasonable cause.

Your Committees received testimony in support of this measure from the Department of Taxation.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Tax Foundation of Hawaii.

Your Committees find that, under current state law, taxpayers are required to maintain account and transaction records and permit the Department of Taxation to examine those records. Taxpayers under audit are also subject to criminal penalties for willfully failing to supply information requested by the Department. However, there is presently no statutory deadline for taxpayers to comply with requests for information and documents made by the Department.

Your Committees have amended this measure by:

- (1) Changing the deadline to comply with information and document requests from "twenty days" to "thirty business days"; and
- (2) Specifying the taxable years and taxable transactions to which the measure applies.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3176, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3176, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 13; Ayes with Reservations (Fevella). Noes, none. Excused, none.
Judiciary: Ayes, 3. Noes, 2 (San Buenaventura, Awa). Excused, none.

SCRep. 2844 Ways and Means on S.B. No. 3173

The purpose and intent of this measure is to conform the state income tax law and estate and generation—skipping transfer tax law to the Internal Revenue Code of 1986, as amended as of December 31, 2023.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee recognizes that this measure serves to comply with sections 235-2.5(c) and 236E-4(c), Hawaii Revised Statutes, which require the Department of Taxation to submit legislation to conform relevant state tax laws to the Internal Revenue Code as it existed on the December 31 preceding each Regular Session, to the extent appropriate for the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3173 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2845 Ways and Means on S.B. No. 2725

The purpose and intent of this measure is to reduce the income tax burden on small businesses.

More specifically, this measure:

- (1) Adds a definition for “qualified member” and repeals the definitions for “direct member” and “indirect member”, as used in the State’s pass-through entity taxation election law; and
- (2) Allows certain qualified members entitled to a tax credit to use the credit against the member’s net income tax liability in subsequent years until exhausted.

Your Committee received testimony in support of this measure from the Department of Taxation; Accuity, LLP; Chamber of Commerce Hawaii; Grassroot Institute of Hawaii; and Hawaii Restaurant Association.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 50, Session Laws of Hawaii 2023, allowed certain pass-through entities to elect to pay Hawaii income tax at the entity level. Act 50 was enacted to help Hawaii’s small businesses by allowing taxpayers to deduct Hawaii state income taxes paid on their federal income tax returns. These deductions from federal taxable income were eliminated through changes to the federal tax code in 2017, which deprived Hawaii taxpayers of significant federal tax benefits. Under Act 50, the entity level tax is calculated by applying the highest individual income tax rate to the taxable income to be distributed, entitling qualified pass-through entity members to receive a nonrefundable income tax credit that cannot be carried forward to a subsequent year if the credit exceeds the tax liability. Your Committee further finds that, due to the inability to carry forward the tax credit, many members remain unable to benefit from Act 50 as intended. Your Committee believes that this measure will help small businesses reduce their income tax burden while concomitantly reducing the administrative burden on the Department of Taxation.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2725 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2846 Ways and Means on S.B. No. 2831

The purpose and intent of this measure is to assist in the collection of county transient accommodations taxes.

More specifically, this measure authorizes the Department of Taxation to assist a requesting county in levying, assessing, collecting, and otherwise administering the county transient accommodations tax, including delinquencies and penalties, for a two-year period beginning January 1, 2025.

Your Committee received testimony in support of this measure from the Maui County Mayor, Maui County Council, and Maui Chamber of Commerce.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that, in the wake of the August 2023 Maui wildfires, the County of Maui is facing unanticipated revenue shortfalls, including in tax collections. Your Committee also finds that, due to understaffing, the County of Maui has experienced significant delinquencies in collection of the county transient accommodations tax. Your Committee further finds that temporary assistance from the Department of Taxation in the collection of the county transient accommodations tax would allow the County of Maui to clear the existing backlog while it hires and trains needed personnel.

Your Committee has amended this measure by:

- (1) Clarifying the conditions under which the Department of Taxation is authorized to assist a county in levying, assessing, collecting, and otherwise administering the county transient accommodations tax;
- (2) Changing the period that the Department of Taxation is authorized to assist a county in levying, assessing, collecting, and otherwise administering the county transient accommodations tax, from two years to six years;
- (3) Specifying the purposes for which a county assisted under this measure may use the tax revenues collected;
- (4) Appropriating moneys to the Department of Taxation to assist a county in levying, assessing, collecting, and otherwise administering the county transient accommodations tax; and
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2831, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2831, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2847 Ways and Means on S.B. No. 3177

The purpose and intent of this measure is to amend the minimum qualifications for the Chairperson of the Taxation Board of Review.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that amending the minimum qualifications for the Chairperson of the Taxation Board of Review will help the State attract for the position a wider pool of qualified candidates who have relevant experience in Hawaii state tax law.

Your Committee has amended this measure by:

- (1) Clarifying that both attorneys and accounting professionals must have experience in Hawaii state taxes to be eligible to serve as Chairperson of the Taxation Board of Review;
- (2) Inserting a savings clause to clarify that the experience requirement does not apply to the Chairperson in office as of the measure's effective date; and
- (3) Making technical nonsubstantive edits for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3177, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3177, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2848 Judiciary on S.B. No. 2692

The purpose and intent of this measure is to:

- (1) Define what constitutes a dangerous dog; and
- (2) Establish penalties for owners of dangerous dogs.

Your Committee received testimony in support of this measure from the Office of the Prosecuting Attorney of the County of Hawaii, two members of the Hawai'i County Council, Hawaiian Humane Society, Aloha Animal Advocates, Hawaii Animal Welfare Association, Americans for Democratic Action Hawai'i, Animal Interfaith Alliance in Britain, and seventy-one individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender, American Kennel Club, and two individuals.

Your Committee received comments on this measure from the Department of the Attorney General and two individuals.

Your Committee finds that the State struggles with the problem of loose dogs that behave aggressively. Although some aggressive dogs are feral or abandoned, others have owners who have failed to control or train their dogs. This measure will hold owners accountable for the aggressive actions of their dogs that harm persons or other animals.

Your Committee has amended this measure by:

- (1) Deleting language that would have included a private contractor retained by a county to enforce animal laws in the definition of "animal control authority";
- (2) Deleting language that would have defined "serious bodily injury";
- (3) Inserting a definition for "substantial bodily injury" to have the same meaning as defined in section 707-700, Hawaii Revised Statutes;
- (4) Replacing the term "serious injury to a domestic animal" with "substantial injury to any animal";
- (5) Inserting language allowing the owner of a dog declared to be a dangerous dog to initiate a contested case with the declarant officer's department or agency within thirty days following the service date of the declaration;
- (6) Specifying that the owner of a dangerous dog is required to keep the dangerous dog on a fixed and secure leash no longer than four feet in length when the dangerous dog is outside on the owner's premises and attended;
- (7) Specifying that the owner of a dangerous dog is required to keep the dangerous dog on a fixed and secure leash no longer than four feet in length and muzzled with a properly fitted basket muzzle when the dangerous dog is outdoors outside the owner's premises;
- (8) Specifying that the owner of a dangerous dog is required to place a sign or signs provided by the animal control authority on the owner's premises informing the public of the presence and dangerousness of the dangerous dog;
- (9) Clarifying that unless a dangerous dog has been or is ordered to be euthanized, instead of humanely destroyed, the owner of the dangerous dog is required to meet certain conditions and obtain liability insurance;

- (10) Deleting language that would have allowed any enforcement officer to have a dangerous dog seized and impounded upon finding probable cause of a violation or if the dangerous dog poses an imminent threat to a person or another animal;
- (11) Inserting language allowing a law enforcement officer, after obtaining a search warrant and if the officer finds probable cause to believe that a dangerous dog has been involved in a violation of negligent failure to control a dangerous dog, or if a dangerous dog poses an imminent threat of bodily injury to a person or another animal, to enter the premises where the dangerous dog is located and seize and impound the dog;
- (12) Inserting language requiring a law enforcement officer who impounds a dangerous dog to, if, after reasonable effort, the owner or person having custody of the dangerous dog cannot be found and notified of the impoundment, post an impoundment notice on the premises and within seventy-two hours after the posting send the notice by certified mail to the address, if any, from which the dangerous dog was removed;
- (13) Inserting language protecting a law enforcement officer who impounded a dangerous dog from liability for any damage resulting from entry involving the impoundment, unless the damage was caused by acts beyond the scope of the officer's authority, or the officer's negligence, gross negligence, or intentional misconduct;
- (14) Deleting redundant language that would have required a citation to notify the owner of the dangerous dog that is seized and impounded that if the owner fails to appear at the time and place stated in the court summons, the dangerous dog will be subject to relinquishment; and
- (15) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2692, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2692, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2849 Hawaiian Affairs on S.B. No. 541

The purpose and intent of this measure is to designate the seventeenth day of January of each year as Reconciliation Day, to commemorate the memory of Queen Liliuokalani and the illegal overthrow of the Kingdom of Hawaii.

Your Committee received testimony in support of this measure from seven individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that on January 17, 1893, the Kingdom of Hawaii witnessed the unjust and illegal overthrow of its sovereign monarch, Queen Liliuokalani, resulting in the disruption of the Hawaiian government and the sovereignty of the Hawaiian people. The actions that culminated in the overthrow of Queen Liliuokalani and the Kingdom of Hawaii were inconsistent with the principles of justice, self-determination, and international law. In 1993, the United States Congress, through P.L. 103-150, formally acknowledged and apologized for the wrongful acts that the United States committed on January 17, 1893. This measure establishes Reconciliation Day to recognize and remember this historical injustice and to advance efforts made towards reconciliation.

Your Committee notes that Reconciliation Day should be a state holiday and recognizes that establishing Reconciliation Day without granting it full state holiday status is a step towards that goal. In the future, your Committee believes that the State should organize and encourage events that educate the public and state employees about the illegal overthrow of the Kingdom of Hawaii, its ongoing legacy, and the dispossession of the Hawaiian people.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 541, S.D. 1, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Keohokalole). Noes, none. Excused, none.

SCRep. 2850 (Joint) Ways and Means and Judiciary on S.B. No. 578

The purpose and intent of this measure is to assist the Department of the Attorney General in temporarily filling certain positions.

Specifically, this measure:

- (1) Authorizes the Department of the Attorney General to employ retirants of the Employees' Retirement System as investigators without re-enrolling in the Employees' Retirement System if the position is identified as a labor shortage or difficult-to-fill position; and
- (2) Requires the appropriate director of human resources to report the employment of those retirants to the Legislature.

Your Committees received written comments in support of this measure from the Department of the Attorney General.

Your Committees received comments on this measure from the Department of Law Enforcement and Employees' Retirement System.

Your Committees find that the Department of Agriculture has also been experiencing difficulty filling management positions excluded from collective bargaining and that adding a similar authorization for qualified retirants will assist the State in temporarily filling those positions.

Your Committees have amended this measure by:

- (1) Authorizing the Department of Agriculture to hire retirants of the Employees' Retirement System for management positions excluded from collective bargaining, under certain conditions; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 578, S.D. 2, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 578, S.D. 3.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 13. Noes, none. Excused, none.
 Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2851 (Joint) Ways and Means and Judiciary on S.B. No. 2512

The purpose and intent of this measure is to establish notice and reporting requirements for the transfer of certain contributions and grants received by the Governor through the exercising of emergency management powers.

Your Committees received written comments in support of this measure from one individual.

Your Committees received written comments in opposition to this measure from the Hawaii Emergency Management Agency.

Your Committees received written comments on this measure from the Department of Budget and Finance.

Your Committees find that establishing notice and reporting requirements for the Governor's transfer of contributions and grants received through the exercising of emergency management powers will help to improve government transparency.

Your Committees have amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2512, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2512, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 13. Noes, none. Excused, none.
 Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2852 (Joint) Ways and Means and Judiciary on S.B. No. 3009

The purpose and intent of this measure is to improve the protection of public officials and employees in the State.

More specifically, this measure:

- (1) Establishes a specific statutory duty of the Department of Law Enforcement and its Sheriff Division to ensure the safety and security of all judicial and legislative personnel and facilities; and
- (2) Requires the Sheriff Division to pursue accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc., as recommended by the Auditor in 2010 in Auditor Report No. 10-06, and to obtain and maintain that accreditation.

Your Committees received written comments in support of this measure from the Judiciary.

Your Committees received written comments on this measure from the Department of Law Enforcement.

Your Committees find that public officials and employees increasingly face the risk of personal reprisal from individuals affected by decisions made in the exercise of their official duties. Your Committees also find that, in Hawaii, threats and other inappropriate communications towards judges have increased tenfold, and threats towards judiciary social workers providing probation oversight have increased ninefold, over the last decade. Your Committees further find that, in light of the escalating safety risks for public officials, statutory amendments are necessary to specify the Sheriff Division's responsibilities for legislative and judicial security.

Your Committees have amended this measure by changing the effective date to July 1, 2024.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3009, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3009, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 13. Noes, none. Excused, none.
 Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2853 Ways and Means on S.B. No. 2085

The purpose and intent of this measure is to re-establish the Division of the State Fire Marshal within the Department of Law Enforcement.

Your Committee received written comments in support of this measure from the Office of the Governor, Department of Law Enforcement, Department of Labor and Industrial Relations, Maui Fire Department, Democratic Party of Hawaii, and one individual.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Land and Natural Resources, and Maui Chamber of Commerce.

Your Committee finds that state fire marshals serve an integral role in coordinating fire prevention efforts between state and county agencies. Your Committee further finds that the devastation of the August 8, 2023, Maui wildfires demonstrated a need for Hawaii to re-establish the Office of the State Fire Marshal. Your Committee recognizes that the State Fire Council is best equipped to appoint a state fire marshal, and that the Council is administratively placed within the Department of Labor and Industrial Relations.

Your Committee has amended this measure by:

- (1) Changing the administrative placement of the Division of the State Fire Marshal from the Department of Law Enforcement to the Department of Labor and Industrial Relations;
- (2) Changing the entity responsible for appointing the State Fire Marshal from the Director of Law Enforcement to the State Fire Council;
- (3) Removing police powers from the State Fire Marshal's duties and requiring the State Fire Marshal to work with state and county law enforcement agencies on enforcement of the State Fire Code;
- (4) Changing the appropriation's expending agency to the Department of Labor and Industrial Relations;
- (5) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2085, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2085, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2854 Ways and Means on S.B. No. 2291

The purpose and intent of this measure is to cultivate workforce development in the State.

Specifically, this measure establishes advisory boards focused on workforce development, for the Agribusiness Development Corporation, Hawaii Technology Development Corporation, and Natural Energy Laboratory of Hawaii Authority.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Hawaii Technology Development Corporation; Natural Energy Laboratory of Hawaii Authority; Hawaii Farm Bureau; and Hawaii Farmers Union.

Your Committee finds that the advisory boards created by this measure will help each respective agency to identify workforce needs and improve coordination and alignment with Hawaii businesses, community partners, and other agencies. This increased coordination and alignment will foster development of the local workforce and increase the State's economic sustainability.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2024; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2291, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2855 Commerce and Consumer Protection on S.B. No. 2092

The purpose and intent of this measure is to require the Public Utilities Commission to direct each electric utility company in the State to file proposals for programs to provide certain benefits to residential property owners in fire-prone areas that install electric infrastructure improvements to reduce or eliminate the impacts of wildfires on their residential properties or purchase emergency equipment or supplies for use in deenergization events.

Your Committee received testimony in opposition to this measure from the Kaua'i Island Utility Cooperative and Life of the Land.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaiian Electric, and Maui Chamber of Commerce.

Your Committee finds that for those who reside in fire-prone areas, contingency planning is essential to preventing and minimizing the damages from wildfires. While many homeowners have already taken steps to prepare themselves in the event of a wildfire by upgrading certain electric infrastructure or installing a home backup solar generator, these types of improvements can be expensive and cost-prohibitive for others, especially lower-income households. Therefore, this measure will engage the State's public utilities to develop innovative fire mitigation benefit programs for certain homeowners to incentivize and assist Hawaii's residents in creating safer and more fire-wise communities.

Your Committee has amended this measure by:

- (1) Amending the language to allow, rather than require, the benefits provided to residential property owners under each electric utility company's proposed benefits program to include financial assistance, rebates, subsidized tariffs or rates, and payment programs; and
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2092, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey). Noes, none. Excused, 1 (Awa).

SCRep. 2856 (Joint/Majority) Commerce and Consumer Protection and Judiciary on S.B. No. 2461

The purpose and intent of this measure is to:

- (1) Amend the circumstances under which medical cannabis may be transported by and between dispensaries; and
- (2) Require the Department of Health to adopt rules no later than nine months after a medical cannabis product is permitted to be manufactured and distributed by dispensaries.

Your Committees received testimony in support of this measure from the Hawaii Cannabis Industry Association, Cure Oahu, Pono Life Maui, and Hawaiian Ethos.

Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees received comments on this measure from Akamai Cannabis Consulting.

Your Committees find that the practice of wholesaling, which means the act of buying a large number of goods directly from a manufacturer or producer, storing them, and preparing them for sale in smaller quantities to retailers, is a well-established business practice that provides cost savings through bulk purchasing and economies of scale and streamlined inventory management that can help stabilize supply chains. Your Committees also find that for medical cannabis, under existing law, wholesale only occurs upon request by a dispensary who can show an emergency or proof of need, with the Department of Health having no specific timeline to respond and complete discretion to reject any request. This limited wholesale approach has impaired dispensaries' abilities to efficiently plan their business operations and has led to the disruption in supply of medical cannabis to many patients in need. Therefore, this measure amends the medical cannabis dispensary system law in Hawaii to clarify that any medical cannabis dispensary may purchase cannabis and manufactured cannabis products directly from another dispensary as a matter of course, without the need to demonstrate a need for the purchase.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2461, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2461, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2857 Judiciary on S.B. No. 2693

The purpose and intent of this measure is to:

- (1) Establish the offense of charitable fraud during a state of emergency; and
- (2) Provide that a person commits charitable fraud during a state of emergency if that person, during a state of emergency proclaimed by the Governor, performs certain deceptive acts or practices in connection with the solicitation of a contribution to assist persons affected by a disaster or emergency.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that natural disasters present an opportunity for persons to fraudulently solicit contributions for disaster relief victims during a state of emergency declared by the Governor. This measure provides the State with a means to prosecute persons engaging in charitable fraud and theft in the wake of an emergency.

Your Committee has amended this measure by:

- (1) Deleting language that would have made the measure apply retroactively to July 1, 2023; and
- (2) Inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2693, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2693, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2858 (Joint) Ways and Means and Judiciary on S.B. No. 3139

The purpose and intent of this measure is to establish and appropriate moneys for a crisis intervention and diversion services program within the Department of Health and to define the term “mental health emergency worker.”

Your Committees received written comments in support of this measure from the Judiciary, Department of Health, Disability and Communication Access Board, State Council on Mental Health, Hawaii Substance Abuse Coalition, Opportunity Youth Action Hawaii, Community Alliance on Prisons, and one individual.

Your Committees received written comments on this measure from The Queen’s Health System.

Your Committees find that the crisis intervention and diversion services program established by this measure will help ensure that persons having mental illnesses or co-occurring mental illnesses and substance use disorders receive appropriate treatment. Your Committees further find that these services will help reduce or prevent the person’s involvement with the criminal justice system.

Your Committees note that the Department of Health requested amendments to this measure, including technical amendments to Sections 2 and 5, and the deletion of the proposed definition of “mental health emergency worker” and the requirement that the Department of Health establish standards and rules for the designation of such workers, contained in Sections 3 and 4, respectively.

Your Committees have amended this measure by making technical nonsubstantive edits for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3139, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3139, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 13. Noes, none. Excused, none.
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2859 (Joint) Ways and Means and Judiciary on S.B. No. 3141

The purpose and intent of this measure is to improve data tracking and mental health services for persons experiencing mental health crises.

Specifically, the measure:

- (1) Requires the Department of Health to track and publicly report certain data relating to crisis reports, emergency mental health transports, and court-ordered treatments;
- (2) Requires the Department of Health to respond to reports about persons having severe mental illnesses who are in need of assessment, assess whether the person may fulfill the criteria for assisted community treatment, and coordinate the process for an assisted community treatment order if indicated;
- (3) Establishes that a court’s denial of a petition for involuntary commitment serves as notification to the Department of Health that the person should be evaluated for assisted community treatment;
- (4) Appropriates moneys to the Department of Health for software, data collection, and data publication; and
- (5) Appropriates moneys to the Department of Health for statewide education and training on policies related to emergency examination and hospitalization and assisted community treatment.

Your Committees received written comments in support of this measure from the State Council on Mental Health, Disability and Communication Access Board, Department of Health Behavioral Health Administration, and Hawaii Substance Abuse Coalition.

Your Committees received written comments on this measure from the Queen’s Health System.

Your Committees find that the data tracking and mental health services required by this measure will help establish baseline metrics and improve the State’s continuum of care for persons experiencing mental health crises.

Your Committees have amended this measure by:

- (1) Repealing the sunset date of Act 111, Session Laws of Hawaii 2017, which allows a patient who has been involuntarily committed to a psychiatric facility to be ordered to receive treatment over the patient’s objection; and
- (2) Making technical nonsubstantive edits for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3141, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3141, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Lee).
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2860 (Joint) Judiciary and Ways and Means on S.B. No. 2029

The purpose and intent of this measure is to prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale or rent in perpetuity to buyers or renters who are residents of the State, are owner-occupants or renters, and do not own any other real property.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Grassroot Institute of Hawaii, and Church of the Crossroads.

Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting and UNITE HERE Local 5.

Your Committees find that the State is experiencing a severe shortage of affordable housing. However, there has been a lack of measurable progress at the county level to enact policies that will stimulate housing production to meet the housing demand. Your Committees believe that this measure incentivizes the production of housing units at all price points and encourages more developers to build affordable housing in the State for residents.

Your Committees have amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2029, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2029, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

SCRep. 2861 (Joint) Judiciary and Ways and Means on S.B. No. 2991

The purpose and intent of this measure is to:

- (1) Require the Hawaii Labor Relations Board to adopt rules establishing criteria for the creation of new bargaining units;
- (2) Require any employee, employer, or exclusive representative proposing a new bargaining unit to submit an application to the Hawaii Labor Relations Board;
- (3) Require the Hawaii Labor Relations Board to consider certain criteria in determining the appropriateness of a new bargaining unit;
- (4) Require the Hawaii Labor Relations Board to, upon its approval of the application, submit a report to the Legislature, including proposed legislation for the Legislature to consider and enact to create the new bargaining unit, accompanied by a decision and order issued by the Board;
- (5) Set forth procedures that the Hawaii Labor Relations Board must follow when it denies an application; and
- (6) Appropriate funds.

Your Committees received no testimony on this measure.

Your Committees find that although there are a number of interested groups seeking to form bargaining units, existing law does not provide clear criteria or procedures to make those determinations. This measure will establish the authority for the Hawaii Labor Relations Board to develop the criteria for and to assess requests for determination of new bargaining units.

Your Committees have amended this measure by:

- (1) Inserting legislative findings;
- (2) Inserting language allowing any employee, employer, or executive representative to petition the Hawaii Labor Relations Board to determine the appropriateness of a new bargaining unit;
- (3) Deleting language that would have set forth procedures that the Hawaii Labor Relations Board must follow when it denies an application;
- (4) Clarifying that the blank appropriation in this measure is for the development of the criteria and procedures established by this measure and to establish one full-time equivalent (1.0 FTE) position within the Hawaii Labor Relations Board to implement the criteria and procedures established by this measure; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2991, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2991, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

SCRep. 2862 Ways and Means on S.B. No. 2345

The purpose and intent of this measure is to improve the State's crisis intervention practices.

More specifically, this measure:

- (1) Requires the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and crisis intervention officers;
- (2) Requires the Department of Health to certify crisis intervention officers;
- (3) Defines “crisis intervention officer”;
- (4) Establishes and appropriates moneys for crisis intervention coordinator positions; and
- (5) Appropriates moneys for the training and certification of crisis intervention officers.

Your Committee received written comments in support of this measure from the Department of Health; Department of Law Enforcement; Disability and Communication Access Board; State Council on Mental Health; Alzheimer’s Association; Hawaii Health and Harm Reduction Center; Hawaii Primary Care Association; Hawaii Substance Abuse Coalition; Institute for Human Services, Inc.; National Alliance on Mental Illness Hawaii; Opportunity Youth Action Hawaii; and three individuals.

Your Committee finds that, in response to an influx of habitual offenders, some of whom suffer from chronic conditions relating to drugs, alcohol, or mental illness, mental health service providers have been working with appropriate law enforcement agencies and the criminal justice system to implement crisis intervention programs. Your Committee also finds that a critical member of a crisis intervention team is the law enforcement officer, and that de-escalation and prevention efforts have been successful when law enforcement officers are trained in mental health first aid and crisis intervention.

Your Committee has amended this measure by:

- (1) Requiring the Department of Law Enforcement and county law enforcement agencies to identify one or more nationally recognized crisis intervention organizations able to provide training and certification for crisis intervention officers;
- (2) Deleting the requirement that the Department of Health certify crisis intervention officers;
- (3) Inserting language to allow a crisis intervention officer to respond to a call for assistance from a law enforcement officer who has reason to believe that a person is imminently dangerous to themselves or others;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2345, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2345, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2863 Ways and Means on S.B. No. 2514

The purpose and intent of this measure is to improve enforcement of the State’s tax laws.

More specifically, this measure requires attorneys who are applying for a pro hac vice appearance in the State’s courts to provide:

- (1) Evidence of local counsel’s Hawaii business registration;
- (2) The applicant’s Hawaii general excise tax license number;
- (3) An affirmation that both the applicant and local counsel shall pay all state income tax due for Hawaii business activities; and
- (4) All other information or documentation required by the rules of the Hawaii Supreme Court.

Your Committee received written comments in opposition to this measure from the Judiciary.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii and one individual.

Your Committee finds that out-of-state attorneys who practice in Hawaii’s courts pro hac vice may be unaware that they owe the state general excise tax. Your Committee also finds that, unlike a sales tax in most other states, Hawaii’s general excise tax applies to both gross rental income and gross service income. Your Committee believes that amending the process by which out-of-state attorneys are admitted to practice law in Hawaii’s courts will help inform the attorneys of their state tax obligations when conducting business in Hawaii.

Your Committee further notes the concerns raised by the Judiciary and Tax Foundation of Hawaii that the measure, as currently drafted, may pose a constitutional problem. Article VI, section 7, of the Hawaii State Constitution states that “[t]he supreme court shall have power to promulgate rules and regulations in all civil and criminal cases for all courts relating to process, practice, procedure and appeals, which shall have the force and effect of law.” By requiring the Supreme Court to amend its rules regarding the admittance of pro hac vice counsel, this measure presents a separation of powers question.

To allow for further discussion, your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2514, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2514, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2864 Ways and Means on S.B. No. 2842

The purpose and intent of this measure is to improve wildfire safety and prevention efforts in the State.

More specifically, this measure establishes the Wildfire Mitigation Working Group within the Department of Land and Natural Resources to advise and make recommendations to state agencies concerning the State's wildfire safety and prevention efforts.

Your Committee received written comments in support of this measure from the Office of Planning and Sustainable Development, Democratic Party of Hawaii, Hawaii Forest Industry Association, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Land and Natural Resources and Public Utilities Commission.

Your Committee finds that wildfires pose an increasing threat to the communities, natural resources, and economy of the State. Your Committee also finds that a comprehensive and collaborative approach is needed to address this growing challenge. Your Committee further finds that a working group comprising government agencies, fire experts, landowners, and stakeholders is required to identify solutions that address the State's wildfire preparedness and mitigation challenges and improve the State's wildfire preparedness and mitigation practices.

Your Committee has amended this measure by:

- (1) Clarifying the Wildfire Mitigation Working Group's duties with regard to developing and making recommendations to the Public Utilities Commission; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2842, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2842, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 2865 Ways and Means on S.B. No. 3006

The purpose and intent of this measure is to help ensure funding for the Hawaii Convention Center facility.

Specifically, the measure:

- (1) Authorizes the Hawaii Tourism Authority to sell or lease naming rights in and on the convention center facility; and
- (2) Facilitates advertising and marketing in or on the facility.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority and Hawaii Lodging & Tourism Association.

Your Committee received written comments in opposition to this measure from UNITE HERE! Local 5.

Your Committee received written comments on this measure from the Department of Budget and Finance.

Your Committee finds that the Hawaii Convention Center has hosted numerous high-profile convenings, national and local conferences and conventions, festivals, and events held by local, national, and international entities. Your Committee believes that selling or leasing naming rights to this well-recognized center has the potential to create funding opportunities to address the center's future repair and maintenance needs.

Your Committee has amended this measure by:

- (1) Clarifying that the provision limiting outdoor advertising devices to the display of certain words applies to any outdoor advertising device in or on the convention center facility that faces away from the facility;
- (2) Changing the effective date from January 1, 2060, to upon its approval; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3006, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3006, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2866 Ways and Means on S.B. No. 3279

The purpose and intent of this measure is to facilitate the provision of mental health services.

Specifically, the measure:

- (1) Establishes within the Office of the Wellness and Resilience a state of well-being project to assess and enhance certain mental health support services; and

- (2) Appropriates moneys to the Office of the Wellness and Resilience to establish an unspecified number of full-time equivalent mental health specialist positions.

Your Committee received written comments in support of this measure from the Executive Office on Early Learning, Office of the Public Defender, Office of Wellness and Resilience, Catholic Charities Hawaii, Maui Chamber of Commerce, Elected Officials to Protect America Code Blue Water Solutions, and two individuals.

Your Committee recognizes that mental health issues affect many people of all ages across the State. Your Committee believes that providing for trauma-informed care, which understands and responds to the widespread impact of trauma, would be of great benefit to individuals in need of mental health support services.

Your Committee has amended this measure by:

- (1) Inserting definitions for the terms “tier 1 mental health support” and “tier 2 mental health support”;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3279, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3279, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2867 Ways and Means on S.B. No. 3282

The purpose and intent of this measure is to replace the Hawaii State Energy Office with the Energy Division of the Department of Business, Economic Development, and Tourism.

More specifically, this measure:

- (1) Renames the Hawaii State Energy Office as the Energy Division and repeals its administrative attachment to the Department of Business, Economic Development, and Tourism provision;
- (2) Transfers the Energy Division to the Department of Business, Economic Development, and Tourism;
- (3) Clarifies the powers and duties of the Energy Division;
- (4) Renames the Chief Energy Officer of the Hawaii State Energy Office as the Chief Energy Administrator of the Energy Division;
- (5) Amends the eligibility requirements for, and the duties of, the Chief Energy Administrator; and
- (6) Appropriates moneys for the Energy Division.

Your Committee received written comments on this measure from the Hawaii State Energy Office.

Your Committee finds that by amending the powers and duties of the Chief Energy Administrator and the Energy Division of the Department of Business, Economic Development, and Tourism, this measure will help the State to more efficiently and effectively achieve its clean power generation goals.

Your Committee has amended this measure by:

- (1) Clarifying that the Chief Energy Administrator and Energy Division are required to advocate only for the State’s energy goals, rather than the State’s energy and decarbonization goals;
- (2) Changing the appropriation from \$12,105,644 to \$2,664,394; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3282, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3282, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (DeCoite, Inouye).

SCRep. 2868 (Joint/Majority) Commerce and Consumer Protection and Judiciary on S.B. No. 2492

The purpose and intent of this measure is to:

- (1) Allow the Governor to enter the State into the multi-state Nurse Licensure Compact, which will allow a nurse who is licensed by a home state to practice under a multi-state licensure privilege in each party state, effective January 1, 2026; and
- (2) Beginning January 1, 2026, allow the State Board of Nursing to charge different fees for registered nurses and licensed practical nurses who hold a multi-state license issued by the State.

Your Committees received testimony in support of this measure from the United States Department of Defense; Department of Labor and Industrial Relations; Disability and Communication Access Board; Hawaii Health Systems Corporation; Hawai‘i Health Systems Corporation, West Hawai‘i Region; Hawai‘i State Center for Nursing; Hawai‘i Primary Care Association; Kaiser Permanente

Hawai'i; Palolo Chinese Home; Indivisible Hawaii Healthcare Team; Hawai'i Affiliate of the American College of Nurse-Midwives; Hawai'i Pacific Health; Healthcare Association of Hawaii; Grassroot Institute of Hawaii; Hawai'i Care Choices; The Queen's Health System; Save Medicaid Hawaii; Hawaii Military Affairs Council; Hawaii Young Republicans; and thirteen individuals.

Your Committees received testimony in opposition to this measure from the Hawai'i Nurses' Association – OPEIU Local 50, Hawai'i American Nurses Association, and two individuals.

Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs and Board of Nursing.

Your Committees find that the nursing shortage in Hawaii poses challenges to the long-term workload for available nurses and poses a threat to public safety during emergencies. Your Committees also find that the multi-state Nurse Licensure Compact, which allows a nurse who is licensed by a home state to practice under a multi-state licensure privilege in states that are a party to the compact, could help alleviate the State's nursing shortage by allowing more nurses to practice in Hawaii without the burden of obtaining an additional license. In addition, the multi-state Nurse Licensure Compact could allow nurses to quickly cross state borders and provide vital services in the event of a disaster, such as the August 2023 Maui wildfires. Your Committees find that it is in the public interest to allow the Governor to enter the State into the multi-state Nurse Licensure Compact to expand the much-needed pool of qualified nurses and improve health care services statewide.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2492, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2492, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

Judiciary: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2869 Commerce and Consumer Protection on S.B. No. 3195

The purpose and intent of this measure is to amend the narrow definition of "renewable energy producer" in section 171-95, Hawaii Revised Statutes (HRS), which allows the Board of Land and Natural Resources to lease public lands to renewable energy producers without public auction, to:

- (1) Incorporate the definition of "renewable energy" as defined in section 269-91, HRS, relating to the State's renewable portfolio standards; and
- (2) Repeal the requirement that the renewable energy producer or developer sell all of the net power produced from the demised public land to an electric utility company regulated under chapter 269, Hawaii Revised Statutes, and all of the thermal energy it produces to customers of district cooling systems.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office and Department of Land and Natural Resources.

Your Committee received testimony in opposition to this measure from the Kaua'i Island Utility Cooperative.

Your Committee received comments on this measure from the Public Utilities Commission, Hawaiian Electric, and Ulupono Initiative.

Your Committee finds that section 171-95, HRS, allows the Board of Land and Natural Resources to lease public lands to renewable energy producers without public auction, enabling the renewable energy producers to directly negotiate with the Board for favorable terms and conditions. However, under existing law, to be eligible for a directly negotiated lease, a renewable energy producer is required to sell all of the net power produced from the demised premises to an electric utility company regulated under the state Public Utilities Commission law. Your Committee finds that by amending the definition of "renewable energy producer" to remove these limitations, this measure will expand the pool of potential applicants eligible for leases, provide the Board of Land and Natural Resources with greater flexibility to generate revenue, and support the State in achieving its ambitious renewable energy goals.

Your Committee has amended this measure by:

- (1) Inserting language to include any provider of district heating or cooling services utilizing renewable energy within the definition of "renewable energy producer" under section 171-95, HRS;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3195, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3195, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2870 Commerce and Consumer Protection on S.B. No. 3287

The purpose and intent of this measure is to:

- (1) Change the fees that a towing company may charge to tow vehicles left unattended on private and public property; and
- (2) Allow a towing company or parking management company to charge a fee for the placement or removal of vehicle immobilization devices.

Your Committee received testimony in support of this measure from Pinky Tows Pacific, Inc.; Finest Towing; RJ's Towing and Recovery; IEH Towing, LLC; Honolulu Towing, Inc.; Cachola Towing, LLC; and five individuals.

Your Committee received comments on this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and Hawaii Insurers Council.

Your Committee finds that certain statutory tow rates for vehicles left unattended on private and public property have remained the same since they were last amended by Act 269, Session Laws of Hawaii 2007. Your Committee recognizes that in the near decade and a half since then, the cost of operating a business in the State has increased, including the costs of labor, fuel, insurance, and towing equipment. Therefore, this measure will provide much needed assistance to the towing industry and ensure that the actual cost of a tow is reflected in the statutory rates allowed per tow. Further, this measure will allow towing and parking management companies to take advantage of the innovative vehicle immobilization technologies that have emerged on the market.

Your Committee has amended this measure by:

- (1) Inserting language that requires towing companies that charge fees to tow vehicles left unattended on private and public property and towing or parking management companies that charge fees for the placement or removal of vehicle immobilization devices to:
 - (A) Accept payment by the vehicle owner for the charges by cash, credit card, and debit card; and
 - (B) Prohibit the company from directing an individual to use an on-site automated teller machine in lieu of accepting payment by credit card and debit card; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3287, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3287, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2871 Judiciary on S.B. No. 3025

The purpose and intent of this measure is to:

- (1) Clarify that the Department of Agriculture shall not require inspections or sampling of hemp that duplicate inspections and sampling required by the United States Department of Agriculture; and
- (2) Repeal the requirement for the Department of Agriculture to adopt rules necessary to address nuisance issues, including smell, noise, and excessive lighting, arising out of the activities of certain hemp growers.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds that existing law requires the Department of Agriculture to create additional rules to address nuisance issues, including smell, noise, and excessive lighting arising out of the activities of hemp growers. However, pre-existing regulations and authority under the Department of Health and county land use ordinances address these types of nuisances. Your Committee believes that these pre-existing frameworks of regulatory oversight for nuisance and other issues are the proper and preferred means to avoid any ambiguity that may arise. This measure will avoid the creation of a duplicative enforcement framework that may result in confusion and challenges due to incompatible oversight and conflicting actions and decisions.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2872 Judiciary on S.B. No. 3026

The purpose and intent of this measure is to replace representatives of the sugar and pineapple industries on the Advisory Committee on Pesticides with representatives of the coffee and diversified agriculture industries.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i College of Tropical Agriculture and Human Resources, Hawai'i Farm Bureau, Hawai'i Alliance for Progressive Action, and Hawai'i Food+ Policy.

Your Committee finds that there has been a significant reduction in the agricultural footprint of the sugar and pineapple industries in the State since the Advisory Committee on Pesticides was established. Coffee is now among the top three most economically significant crops in the State, and diversified agriculture and minor crops comprise a large portion of agricultural production in the State. Your Committee believes that as the State's agricultural landscape evolves, it is imperative that advisory committees reflect

these changes to provide effective guidance and oversight. This measure will bring much-needed expertise and perspective to the Advisory Committee on Pesticides and ensure that decisions regarding pesticide regulations and management strategies are informed by a diverse range of stakeholders.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3026 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2873 Judiciary on S.B. No. 2753

The purpose and intent of this measure is to clarify that no state or county building code shall prohibit the use of a substitute refrigerant allowed by the Environmental Protection Agency if the applicable equipment is listed and installed in compliance with the latest safety standards.

Your Committee received testimony in support of this measure from the Department of Health, Building Decarbonization Task Force of the Hawai'i Environmental Change Agents, 350Hawaii.org, Climate Protectors Hawai'i, and one individual.

Your Committee finds that hydrofluorocarbons (HFCs) are chemicals commonly used in air conditioning, refrigeration, insulating foam, and as propellants. Although HFCs were designed to replace ozone depleting substances that were harming the planet's protective ozone layer, HFCs are now acting as greenhouse gasses that are thousands of times more potent than carbon dioxide in contributing to climate change. This measure will require necessary building code updates to provide the certainty that the manufacturing industry needs to comply with federal regulations and to ensure that the transition to alternate refrigerants is safe and efficient.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2753 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2874 Judiciary on S.B. No. 2960

The purpose and intent of this measure is to:

- (1) Require lessees and purchasers of farm lots and ranch lots use that land for farming and producing food; and
- (2) Authorize agricultural cooperatives to apply for farmlands.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and Hawaii Food+ Policy.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that "gentlemen estates", or homes on agricultural lands where wealthy individuals can purchase large parcels of land on which to live and pursue farming as a hobby, often conflict with bona fide farmers in surrounding areas when dust, odors, smoke, and noise from legitimate farms offend those who live on the gentlemen estates. Additionally, agricultural lands that were developed to create gentlemen estates, where little to no farming exists, also increase the cost of agricultural land, making it nearly impossible for bona fide farmers to purchase farmland. This measure will ensure that agricultural lands are used primarily for productive agricultural purposes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2960, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2875 Judiciary on S.B. No. 2631

The purpose and intent of this measure is to:

- (1) Prohibit commercial website operators from publishing mugshots; and
- (2) Establish exemptions.

Your Committee received no testimony on this measure.

Your Committee finds that booking or arrest photographs, also known as mugshots, are publicly available on law enforcement websites and sometimes utilized for commercial purposes. However, the availability of mugshots for commercial consumption can be extremely harmful to one's reputation and compromises possible employment opportunities. As arrests regularly occur without resulting in actual criminal charges, widespread publication of booking or arrest photographs may be distressing for the individual depicted in the photograph. Therefore, this measure clarifies the usage of booking or arrest photographs to prohibit certain uses that may harm the individual depicted.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2631 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2876 (Majority) Judiciary on S.B. No. 3147

The purpose and intent of this measure is to clarify that the Director of Law Enforcement has authority to issue subpoenas as part of the investigative powers of the Department of Law Enforcement.

Your Committee received testimony in support of this measure from the Department of Law Enforcement.

Your Committee received testimony in opposition of this measure from one individual.

Your Committee finds that the Director of Law Enforcement currently does not have subpoena powers to competently conduct investigations. This measure will provide the Department of Law Enforcement with the powers to fulfill its duties in reducing crime and protecting the safety and security of the public.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3147, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

SCRep. 2877 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 2715

The purpose and intent of this measure is to make it unlawful for an employer to discharge, discipline, or otherwise penalize or threaten any adverse employment action against an employee because the employee declines to attend or participate in an employer-sponsored meeting that communicates the opinion of the employer about political matters, or declines to receive or listen to a communication from the employer that communicates the opinion of the employer about political matters.

Your Committees received testimony in support of this measure from the International Longshore and Warehouse Union Local 142; Hawaii State AFL-CIO; International Union of Painters and Allied Trades, District Council 50; and thirty-nine individuals.

Your Committees received testimony in opposition to this measure from the Maui Chamber of Commerce.

Your Committees received comments on this measure from the NFIB's Hawaii Chapter and Society for Human Resource Management Hawaii.

Your Committees find that "captive audience meetings", where employee attendance is mandatory or de facto mandatory, are sometimes used by employers to spread political views that have little to no relevance to the employee's work duties or the workplace. Under existing law, there are few protections for employees who refuse to attend, which can result in employees being treated negatively or suffering from repercussions put in place by their employer. Your Committees find that participation in these meetings should be voluntary, and there should be no penalty imposed should an employee decide not to attend. Therefore, this measure protects workers from being penalized for refusing to attend such meetings.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2715, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2878 Judiciary on S.B. No. 3121

The purpose and intent of this measure is to make housekeeping amendments to sections 356D-8, 356D-10, 356D-21, 356D-22, 356D-23, and 356D-24, Hawaii Revised Statutes (HRS), to incorporate the definition of "housing project" in section 356D-11, HRS, to align with previous amendments to chapter 356D, HRS, under Act 251, Session Laws of Hawaii 2022.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that concentrating public housing for extremely low-income families in dense urban areas has shown to not be an effective use of scarce affordable housing resources. Your Committee also finds that the mixed-income and mixed-finance redevelopment model is a proven and successful redevelopment model nationwide and supported and encouraged by the federal government. Accordingly, this measure clarifies statutory references to give an opportunity to people of all income levels to live side by side in a community that does not isolate the poor.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3121 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2879 Judiciary on S.B. No. 2977

The purpose and intent of this measure is to:

- (1) Make it unlawful for an unlicensed contractor to offer or perform repairs or improvements to a residential or nonresidential structure or property, or add to or subtract from grounds in connection with the structure or property, for damage or destruction caused by a natural disaster for which a state of emergency or disaster is proclaimed by the Governor; and
- (2) Require violations to be punished by a fine of not more than \$10,000, imprisonment up to one year, or both, in addition to all other remedies or penalties.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Contractors License Board, Maui Chamber of Commerce, and Subcontractors Association of Hawaii.

Your Committee finds that existing law provides for enhanced civil and criminal penalties for unlicensed contracting after a disaster, but only when a person without a contractor license is performing repairs that require a contractor's license to perform. This may deter unlicensed contracting after a disaster when the property damage resulting from the disaster is property damage that can be repaired, but will not deter unlicensed contracting after a disaster when the property damage that results from the disaster is destruction of existing structures. This measure will protect property owners in the State by reducing the risks of poor workmanship, jobsite injuries, and contractor fraud following a disaster.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2977 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2880 Judiciary on S.B. No. 2597

The purpose and intent of this measure is to clarify that the prohibition against board and commission holdover members from holding office beyond the end of the second regular legislative session following the expiration of the member's term of office takes precedence over any conflicting statutes.

Your Committee received no testimony on this measure.

Your Committee finds that boards and commissions provide a valuable function to government through policy formulation, fiscal analysis, and community engagement. Full membership of a board or commission ensures proper representation, greater participation, and valuable insight into various matters before a board or commission. However, certain boards and commissions may have holdover members. Therefore, this measure clarifies how long a person can serve on a board or commission after their term has expired.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2597 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2881 (Majority) Judiciary on S.B. No. 3167

The purpose and intent of this measure is to:

- (1) Authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission; and
- (2) Establish procedures for selection and succession of commissioners.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii Fishermen's Alliance for Conservation and Tradition.

Your Committee finds that the Pacific States Marine Fisheries Commission's mission closely aligns with the mission of the Department of Land and Natural Resources to work with the people of Hawai'i to manage, conserve, and restore the State's unique aquatic resources and ecosystems for present and future generations. While the Commission has no regulatory or management authority, your Committee notes that it serves a number of vital functions including providing a forum for the discussion of interstate fisheries resources management issues, coordinating research and management projects related to interstate fisheries, and dispersing federal fishery funds. This measure will facilitate improved management of state and regional marine fishery resources and allow the State to increase its collaboration with other Pacific Ocean states.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3167, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

SCRep. 2882 Judiciary on S.B. No. 3124

The purpose and intent of this measure is to authorize the Director of Health to allow persons to apply for civil union and marriage licenses through online access in lieu of in-person applications.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the in-person requirement for licenses was established prior to modern day telecommunication technology advancements and was intended to assure persons seeking a marriage or civil union license were not under duress. Your Committee further finds that during and after the coronavirus disease 2019 pandemic, the issuance of licenses to marry online remained a legitimate way, with the adaptation of high-definition fidelity video and audio devices, to afford a marriage agent the opportunity to observe for certain signs of duress. With over twenty thousand marriage licenses a year, most from out-of-state couples, there has only been one case where questions were raised. This measure will permanently authorize the online option to issue licenses, which will increase public access to government services via the Internet with minimal additional burdens or risks.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3124 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2883 Judiciary on S.B. No. 3059

The purpose and intent of this measure is to clarify the requirements to establish a quorum to do business and validate acts of the Stadium Authority.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Stadium Authority.

Your Committee finds that the Stadium Authority has had issues establishing a quorum under existing law and has been unable to take any official action or adopt measures. Your Committee further finds that clear quorum requirements for the Stadium Authority will foster transparent and accountable decision-making and enhance the public's trust in the Stadium Authority. This measure provides needed clarity to ensure the Stadium Authority can establish quorum to conduct its important business.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3059, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2884 Judiciary on S.B. No. 3133

The purpose and intent of this measure is to authorize the Department of Health to conduct fingerprinting and criminal history record checks on applicants who apply for a permit to operate as a hemp processor.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that certain aspects of the hemp industry are regulated by both the Department of Agriculture and the Department of Health. Presently, the Department of Health regulates hemp products and the processing of hemp within the State, including permit requirements for hemp processors. However, as the Department of Health does not have the authority to conduct criminal history checks on consenting hemp processor applicants, only applicants with a valid United States Department of Agriculture license are eligible to apply to be a permitted hemp processor. Therefore, this measure effectuates the legislative intent of Act 263, Session Laws of Hawaii 2023, to provide prospective hemp processor applicants with alternative eligibility requirements for criminal history checks.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3133, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2885 Judiciary on S.B. No. 2859

The purpose and intent of this measure is to authorize the use of a master certificate of title for new common interest communities to simplify and streamline the operation of the land court.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the existing process for the land court system requires the certificate of title of each unit to note any amendment to the documents governing a condominium or planned community. By utilizing a master certificate of title that lists encumbrances of general application, certificates of title for individual units can accurately incorporate by reference the encumbrances on the master certificate of title, creating a history of amendments to a specific condominium or planned community. This measure streamlines the land court process by eliminating requirements to certificate of title amendments for each unit to reflect any changes in the encumbrances of general application to the condominium or planned community.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2859, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2886 (Joint) Judiciary and Ways and Means on S.B. No. 3362

The purpose and intent of this measure is to:

- (1) Authorize the temporary assignment of permanent legislative staff during the interim to executive or judicial branch agencies; and
- (2) Establish that while on temporary assignment, the temporarily assigned employee is still considered an employee of the Legislature and exempt from civil service.

Your Committees received testimony in support of this measure from the Department of Transportation.

Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that, pursuant to the Hawaii State Constitution, the Legislature convenes annually for sixty days, beginning on the third Wednesday in January. Your Committees believe that assigning permanent legislative employees to other state departments and agencies while the Legislature is not in session will provide the staffer with a breadth of experience and knowledge. This measure will allow permanent legislative employees to learn the operational work of executive or judicial branch agencies, which will be invaluable to the Legislature upon the staffers' return.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3362, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

SCRep. 2887 (Joint) Judiciary and Ways and Means on S.B. No. 3171

The purpose and intent of this measure is to:

- (1) Mandate the Office of the Lieutenant Governor or the appropriate county clerk's office to ensure access to paper or electronic copies of all meeting notices; and
- (2) Repeal the requirement to post notices in a central location in a public building.

Your Committees received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Land and Natural Resources, one member of the Maui County Council, and one individual.

Your Committees received comments on this measure from the Office of Information Practices.

Your Committees find that to meet statutory requirements, the Office of the Lieutenant Governor posts physical copies of meeting notices daily in the chamber of the State Capitol for the public to view. However, posting physical copies no longer serves the function it once did as most people can access notices online in the comfort of their home or office. Furthermore, it is impractical for residents from neighbor islands to fly to Oahu to view the notices. This measure increases efficiency, reduces waste, and ensures public access to notices and agendas.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3171 and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

SCRep. 2888 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 3122

The purpose and intent of this measure is to authorize the Director of Health to issue public health standing orders for patients to self-refer to certain health care screening services.

Your Committees received testimony in support of this measure from the Department of Health, AlohaCare, and four individuals.

Your Committees received comments on this measure from Hawai'i Pacific Health.

Your Committees find that public health standing orders, which are written protocols describing a specific medical practice that will be delegated to non-physicians without a patient-specific order signed by a physician, can help reduce provider administrative burdens while increasing access to evidence-based clinical preventive services. Public health standing orders not only help more individuals receive secondary prevention services, such as mammography screenings for breast cancer, but are already used in urgent or emergency settings upon the occurrence of a population-wide health event, such as the coronavirus disease 2019 pandemic. Therefore, this measure will help to increase the receipt of preventative care, advance population health, and increase the healthful quality of life for residents in the State.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3122, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2889 Higher Education on Gov. Msg. No. 532

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 532 LAUREN AKITAKE, for a term to expire 06-30-2028

Your Committee reviewed the personal history, resume, and statement submitted by Lauren Akitake for service on the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of the nomination for the appointment of Lauren Akitake from the University of Hawaii Professional Assembly; Law Offices of Marvin S.C. Dang; and one hundred seven individuals.

Upon review of the testimony, your Committee finds that Ms. Akitake's experience, knowledge, and desire to serve as a regent for the Board of Regents of the University of Hawaii qualify her for appointment as a regent representing Maui County pursuant to section 26-11, Hawaii Revised Statutes. Your Committee finds that Ms. Akitake presently serves as a private practice attorney and per diem district court judge for the Second Circuit. Your Committee notes that, according to the personal statement submitted by Ms. Akitake, the Judiciary confirmed she can serve as a Regent while serving as a per diem District Court Judge. As a private practice attorney, Ms. Akitake has over fifteen years of experience in diverse areas of law, including estate planning, civil litigation, business law, and conservatorship and guardianship proceedings. Ms. Akitake is also a recognized member of the Hawaii legal community, serving as a 2020 Hawaii State Bar Association Leadership Institute Fellow, 2016 Hawaii Emerging Legal Practitioners Access to Justice Fellow, and a former Maui County Bar Association board member. Additionally, Ms. Akitake is an active member of her community, serving as a board member of Women Helping Women and as co-President nominee of the American Association of University Women of Maui. Ms. Akitake holds a Juris Doctorate from the University of Kansas School of Law and a Master of Science in Applied Social Research from the University of Stirling, Scotland. Your Committee notes that Ms. Akitake understands the roles and responsibilities of board members, and her extensive experience in the practice of law and prior teaching experience at the University of Hawaii Maui College will be assets to the Board of Regents of the University of Hawaii.

Your Committee further finds that Ms. Akitake has served as an interim regent since July 2023, where she has served as a proactive leader driving change within the Board of Regents. Ms. Akitake's leadership has brought a fresh perspective to the Board of Regents, where she implemented a collaborative approach to addressing pressing university issues through transformation of the University's audit process. Presently, Ms. Akitake serves as chairperson of the Independent Audit Committee, which is responsible for exercising oversight of the University's external auditors and Office of Internal Audit. As chairperson, Ms. Akitake has been instrumental in raising concerns regarding the condition of student housing at the University of Hawaii at Manoa and the University of Hawaii at Hilo. Ms. Akitake commenced a two-track audit utilizing historical data and forward-looking opportunities for regents policy changes regarding student housing to provide improvements to student life while ensuring accountability of university administration. Further, Ms. Akitake's leadership has also incited change regarding outstanding audits of the Warrior Recreation Center at the University of Hawaii at Manoa and Waikiki Aquarium to allow the Board of Regents an opportunity to explore other matters within the University of Hawaii System. Aligned with her collaborative leadership, Ms. Akitake has also encouraged other regents to offer audit topics that may improve the university community. Through Ms. Akitake's leadership, she aims to change the perception of audits and audit topics and shift the negative connotation of corrective actions to promote opportunities for positive change.

According to Ms. Akitake at the public hearing on her nomination, she noted that the Board of Regents should strengthen accountability of the University of Hawaii President and administration. Noting that the University of Hawaii System has a responsibility to the State as the only system of public higher education, Ms. Akitake commented that the strength of the University of Hawaii System is reliant on the effective leadership of the University of Hawaii President and administration. Additionally, Ms. Akitake pledged to be an advocate and ardent supporter of change in regard to increased reports of sexual violence on University of Hawaii campuses. Ms. Akitake's interest in student housing is grounded in her legal background, and she is committed to prioritizing student health and safety on campus. Your Committee is confident that Ms. Akitake will be a valuable voice for the Board of Regents and an asset to the University of Hawaii community. Your Committee therefore recommends Lauren Akitake be appointed to the Board of Regents of the University of Hawaii based on her leadership, accountability, and proactivity to serve the University of Hawaii community.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2890 (Majority) Higher Education on Gov. Msg. No. 596

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 596 NEIL ABERCROMBIE, for a term to expire 06-30-2028

Your Committee reviewed the personal history, resume, and statement submitted by Neil Abercrombie for service on the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of the nomination for the appointment of Neil Abercrombie from eight individuals.

Your Committee received testimony in opposition to the nomination for the appointment of Neil Abercrombie from Academic Labor United and twenty-three individuals.

Upon review of the testimony, your Committee finds that Dr. Abercrombie's experience, knowledge, and desire to serve as a regent qualify him for appointment to the Board of Regents of the University of Hawaii as a regent representing Honolulu County pursuant to section 26-11, Hawaii Revised Statutes. Your Committee finds that Dr. Abercrombie is the owner-operator of Pacific Strategies, LLC, where he provides counseling and advice services for business development. Dr. Abercrombie served as the seventh Governor of the State from 2010-2014. As Governor of Hawaii, Dr. Abercrombie facilitated the establishment of major projects for the University of Hawaii System to expand access to education, including the opening of the University of Hawaii – West Oahu campus; began construction of the Palamanui Campus in Kona, Hawaii County; and incorporated the University of Hawaii President and Superintendent of Education into cabinet-level meetings for cross-department coordination. Dr. Abercrombie has dedicated nearly forty years of service to the State in a variety of public service roles, including as Representative for the First District to the United States House of Representatives, member of the Honolulu City Council, Representative of District 13 in the Hawaii State House of

Representatives, and Senator of District 6 in the Hawaii State Senate. Before his career in public service, Dr. Abercrombie earned a Doctor of Philosophy in American Studies from the University of Hawaii at Manoa. Your Committee further finds that Dr. Abercrombie's extensive experience in public service and prior experience in academia will be assets to the Board of Regents of the University of Hawaii.

Your Committee further finds that Dr. Abercrombie has served as an interim regent since July 2023. According to Dr. Abercrombie's statements at the public hearing on his nomination, his long relationship with the University of Hawaii began as a graduate student in the Sociology Department at the University of Hawaii at Manoa. In his short tenure as interim regent, Dr. Abercrombie has proven to be an emerging voice of accountability for university administration, especially with regards to the administration's budget. As the policymaking body of the University of Hawaii, Dr. Abercrombie asserted that the role of regents should focus on setting overall goals for the system that incorporates feedback from administrators to effectively operate the university community while providing avenues for growth, innovation, and revenue generation.

Your Committee additionally notes that Dr. Abercrombie expressed concerns regarding a disconnect between the University of Hawaii administration, the Legislature, the Governor, and the Board of Regents. Dr. Abercrombie affirmed his goal as regent to re-establish and strengthen the cooperative relationship between the Legislature and Governor with the University of Hawaii and the Board of Regents. Additionally, Dr. Abercrombie pledged to engage with university issues as an active, involved regent rather than a receptor of decisions made by the administration. While Dr. Abercrombie has served as an informal liaison between the Board of Regents and the Legislature, he noted that additional engagement by Board of Regents leadership is imperative to ensuring effective policymaking and initiation of key projects and goals.

Your Committee notes testimony received in opposition to Dr. Abercrombie's nomination by certain students and community members of the University of Hawaii. Your Committee raised concerns that Dr. Abercrombie's decorum at recent meetings of the Board of Regents is troubling. According to the students' testimony, Dr. Abercrombie was not receptive to concerns regarding student representation at Board of Regents meetings. Dr. Abercrombie noted that his response was intense and regrets the reception of his response, as his perspective was based on loyalty to and responsibility of his role. Despite the concerns raised in testimony and in light of Dr. Abercrombie's statements in response, your Committee therefore recommends that Neil Abercrombie be appointed to the Board of Regents of the University of Hawaii based on his extensive public service, experience in higher education, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Fukunaga). Noes, 2 (Kidani, Fevella). Excused, none.

SCRep. 2891 Higher Education on Gov. Msg. No. 597

Recommending that the Senate not advise and consent to the nomination of the following:

BOARD OF REGENTS OF THE UNIVERSITY OF HAWAII

G.M. No. 597 ALAPAKI NAHALE-A, for a term to expire 06-30-2028

Your Committee reviewed the personal history, resume, and statement submitted by Alapaki Nahale-a for service on the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of the nomination for the reappointment of Alapaki Nahale-a from the Office of Hawaiian Affairs, University of Hawaii Professional Assembly, Office of the Mayor of the County of Hawaii, The Leader Project, and sixteen individuals.

Your Committee received testimony in opposition to the nomination for the reappointment of Alapaki Nahale-a from Academic Labor United and twenty individuals.

Your Committee received comments on the nomination for the reappointment of Alapaki Nahale-a from two individuals.

Your Committee acknowledges the testimony received in support of Mr. Nahale-a to continue to serve as a Regent on the Board of Regents of the University of Hawaii. Specifically, your Committee notes Mr. Nahale-a's extensive experience in working in community education and engagement, land management, and as an advocate for Native Hawaiian issues.

ROLE OF THE BOARD OF REGENTS

Your Committee finds that a position on the Board of Regents of the University of Hawaii is an important and high-profile office. Regents make critical decisions that guide the direction of the University of Hawaii System and are sometimes provided opportunities to comment publicly regarding decisions made by the Board. Pursuant to section 304A-104, Hawaii Revised Statutes, the Senate is required to consider the combination of abilities, breadth of experiences, and characteristics of the Board of Regents, as a whole, that will best serve the diverse interests and needs of the students of the university system and assist the university system in achieving its strategic goals and performance indicators.

Your Committee notes that Mr. Nahale-a has been serving on the Board of Regents of the University of Hawaii as Regent of Hawaii County since 2019, and is currently serving as Chairperson of the Board of Regents, a position he has held since July 2023. However, for the reasons discussed below, your Committee finds that Mr. Nahale-a is not the appropriate person to continue to serve on the Board of Regents going forward.

TRANSPARENCY AND LACK OF ACCOUNTABILITY

Your Committee is troubled by reports from the Board of Regents that the formulation of monthly meetings of the Board involve input from University of Hawaii administrators. In a public hearing on his nomination, Mr. Nahale-a confirmed that there is pushback by administrators on certain potential agenda items, creating instances where pressing university matters may not be addressed in a public forum or acknowledged in a way to ensure prompt action by the Board of Regents. While the Board of Regents has an exemption to the Sunshine Law that authorizes Board leadership to discuss agenda items for future meetings, which includes the presence of general counsel, there is no official documentation of conversations held during agenda setting meetings between Regents or with administrators present. Mr. Nahale-a noted that the Board Secretary is present to take notes, but the documentation of information is informal in nature. Your Committee believes that the creation of monthly agendas should be a collaborative process that considers topics from individual Regents and the Board as a whole, rather than university administrators.

Your Committee also notes that the lack of transparency with the University of Hawaii administration poses significant issues that have not led to any consequences for administrators. Despite five years of service as a Regent, Mr. Nahale-a's actions as a member have not reflected a high level of engagement that would challenge the complacency of university operations. While Mr. Nahale-a noted that the culture of the Board of Regents is shifting to address issues such as student housing, university athletics, graduate student unionization, and workforce development, your Committee is not adequately assured that Mr. Nahale-a would be an initiator of change.

While Mr. Nahale-a noted that he supports a University of Hawaii President who is solely focused on system-level issues and priorities, your Committee expressed concerns regarding the inaction of the Board of Regents on holding the University of Hawaii President accountable for the various responsibilities assigned to the role. Presently, the University of Hawaii President also serves as Chancellor of the University of Hawaii at Manoa, Chief Procurement Officer, and as the Principal Investigator for four major Department of Defense contracts through the Applied Research Laboratory. Further, concerns were expressed that the University of Hawaii System focuses efforts on development of the University of Hawaii at Manoa, rather than growth at other campuses, including neighbor island institutions. Despite the amount of work done to fulfill the requirements of various roles, the Board of Regents has not fully addressed diversification of University of Hawaii System programs.

Accordingly, your Committee cannot recommend with full confidence a nominee who neither takes initiative to hold administrators accountable nor promotes transparency within the governance of the university system. Because the only measurements of accountability for Regents are meeting recordings, minutes, and specific actions taken, it is imperative that nominees for the Board of Regents are transparent with their deliberations to provide clear insight to the public of the Board of Regent's operations.

REACTIVE LEADERSHIP

Your Committee finds that Mr. Nahale-a has not displayed traits and attributes of a proactive leader who is willing to assert policy goals that will shape the overall direction of the University of Hawaii. While Mr. Nahale-a has contributed to the beginning of a cultural shift within the Board of Regents since assuming the position of Chairperson in July 2023, your Committee expressed concerns regarding Mr. Nahale-a's previous four years of service as a Regent. Mr. Nahale-a himself admitted that he was "disappointed" at his own inaction regarding the condition of student housing at the University of Hawaii at Manoa and University of Hawaii at Hilo despite having previous knowledge of the poor condition of the housing. Additionally, prior inaction on high profile incidents involving high-level administrators raises additional concerns that the Board of Regents is reactive rather than proactive in addressing situations.

Your Committee also notes that Mr. Nahale-a's leadership style is too deferential to the University of Hawaii President and administration. Mr. Nahale-a confirmed that the Board of Regents had a limited role in the formulation of the University of Hawaii's 2024 supplemental budget for the 2023-2025 fiscal biennium. The Regents received the draft budget from university administration, but Mr. Nahale-a noted that the Board did not have sufficient time to review all items included. Mr. Nahale-a also noted that the budget presented to the Board of Regents was separated by campus priorities rather than thematic priorities for the overall university system, creating difficulties in the ability to scrutinize the budget. Your Committee expressed concerns that Mr. Nahale-a voted to approve the budget despite issues with the review process. Instead, Mr. Nahale-a relied on historical budget data from previous years to examine consistency with spending and other university projects. Without parameters to ensure accountability over the budget and revenue generation, it is ultimately the students and the people of Hawaii who suffer the consequences of inaction.

The Chairperson of the Board of Regents should have a proactive, engaging role and voice for the Board in external matters such as appearances at legislative informational briefings, university events, and community engagements that require the presence of the Regents. However, since assuming the role of Chairperson, Mr. Nahale-a has been notably absent from legislative informational briefings that would have provided insight into the perspective and position of the Board of Regents. Mr. Nahale-a has also been absent from legislative hearings regarding legislation pertaining to the University of Hawaii and its budget. Additionally, while Mr. Nahale-a did attend a tour orchestrated by another Regent, Mr. Nahale-a, as chairperson, has not initiated any site visits of his own volition to tour university campuses or student housing facilities to proactively understand persistent issues faced by University of Hawaii students.

As the policymaking body of the University of Hawaii, accountability of the University of Hawaii President and administration is imperative to promote transparency in the formulation of university policy. Being the only system of public higher education in the State, the University of Hawaii should be accountable to the people of Hawaii through oversight by the Board of Regents. However, without initiative and proactive leadership from the Board of Regents to address the concerns of students, faculty, staff, and the greater university community, the questionable culture and operations of the university will remain unchanged.

POTENTIAL OR PERCEIVED CONFLICT OF INTEREST

Your Committee finds that Mr. Nahale-a was previously employed as the Chief Executive Officer at 'Iole. However, the University of Hawaii intended to appoint board members during Mr. Nahale-a's tenure, as the President of Arizona State University also serves as a member. Additionally, two other high-level University of Hawaii administrators also serve as members of the Board at 'Iole. Mr. Nahale-a confirmed that he sought ethics guidance from the State Ethics Commission, but he did not obtain a formal opinion. The

State Ethics Commission discouraged the University of Hawaii President from serving on the board, as Mr. Nahale-a would have served as a direct supervisor. Further, guidance provided also suggested a separate point of contact between projects at 'Iole and the University of Hawaii. However, Mr. Nahale-a did not publicly disclose the conflict of interest nor did he seek an official ruling from the State Ethics Commission, as there was uncertainty regarding continuity of his role as a Regent. Mr. Nahale-a subsequently resigned from the position of Chief Executive Officer of 'Iole but did so only after he was reappointed to the Board of Regents for a second term rather than immediately upon the realization that a conflict could arise. Your Committee therefore expressed concerns regarding the questionable timing of Mr. Nahale-a's resignation given the gravity of the potential or perceived conflict of interest.

As a Regent of the University of Hawaii, Mr. Nahale-a is involved in the evaluation of the University of Hawaii President. Regardless of whether actual conflicts of interest exist, the mere perception of a conflict of interest may generate questions about the impartiality of decisions made by the Board of Regents concerning the President or any matter concerning the university. Your Committee is therefore concerned as to what extent Mr. Nahale-a can effectively perform his responsibilities and duties as a Regent and Chairperson of the Board.

A Regent's duty to serve as an ambassador to the community and consider the community's interests rely, in part, on active engagement with the public and with relevant university stakeholders, rather than reacting to issues after the fact. Your Committee therefore finds that Mr. Nahale-a has not demonstrated a sufficient level of engagement within his role as a Regent and as Chairperson of the Board to lead the formulation of university policy and hold university administration accountable.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, recommends that the Senate not advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

SCRep. 2892 Judiciary on S.B. No. 2758

The purpose and intent of this measure is to support survivors of sex trafficking by authorizing civil claims to be made against a business, owner, or operator of a transient accommodation, or other commercial entity that profits from sexual exploitation.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, Imua Alliance, St. Michael the Archangel Church, and thirty-two individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that sex trafficking is a form of modern-day slavery. Additionally, Imua Alliance, a victim service provider for survivors of sex trafficking and sexual violence, estimates that one hundred fifty establishments participate in the commercial sex trade in the State, increasing the high risk for sex trafficking. This measure will empower survivors of sexual exploitation to seek civil remedies from the owner and operators of establishments in which they have been harmed.

Your Committee has amended this measure by:

- (1) Clarifying that a cause of action for coercion into sexual exploitation or sex trafficking exists against a person, business, an owner of a business, or an operator of a business;
- (2) Clarifying that, regarding a cause of action for coercion into sexual exploitation or sex trafficking, "business" includes a transient accommodation or other commercial activity;
- (3) Clarifying that the act of disregarding notification or other indications that an individual is being coerced into sexual exploitation or sex trafficking on premises controlled by a person, business, an owner of a business, or an operator of a business may serve as evidence in support of a claim for coercion into sexual exploitation or sex trafficking;
- (4) Deleting redundant language that would have explicitly included punitive damages as a form of damages an individual may recover for a claim for coercion into sexual exploitation or sex trafficking; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2758, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2758, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2893 Judiciary on S.B. No. 2017

The purpose and intent of this measure is to require defendants convicted of causing the death of a parent or legal guardian of a minor child by the operation of a vehicle in a negligent manner while under the influence of drugs or alcohol to make restitution in the form of financial support to each surviving child of the victim.

Your Committee received testimony in support of this measure from the Department of Transportation, Mothers Against Drunk Driving Hawaii, and three individuals.

Your Committee received comments on this measure from the Department of Corrections and Rehabilitation.

Your Committee finds that the trauma a minor experiences due to suddenly losing the stability and support of a parent or legal guardian is only compounded by the financial hardship that usually accompanies this type of sudden loss. This measure will deter drivers from driving under the influence and provide necessary funding to minors to access professional counseling to help them work

through their trauma constructively and obtain guidance and support needed to overcome the tragedy of suddenly losing a parent or legal guardian.

Your Committee has amended this measure by:

- (1) Inserting language requiring defendants convicted of causing the death of a parent or legal guardian of an adult dependent child with disabilities by the operation of a vehicle in a negligent manner while under the influence of drugs or alcohol to make restitution in the form of financial support to each surviving adult dependent child with disabilities of the victim;
- (2) Deleting language that would have required the court to consider the standard of living to which the child is accustomed as a relevant factor in determining an amount that is reasonable and necessary for the financial support of the victim's child; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2017, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2017, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2894 Judiciary on S.B. No. 2757

The purpose and intent of this measure is to align the State's sex trafficking laws with federal law by making the commercial sexual exploitation of a minor a form of sex trafficking.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Department of the Prosecuting Attorney of the County of Maui, Stonewall Caucus of the Democratic Party of Hawai'i, Hawai'i Youth Services Network, Imua Alliance, St. Michael the Archangel Church, Hawaii Workers Center, and thirty-nine individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that existing state law does not identify soliciting a minor for prostitution as a form of sex trafficking. However, under title 18 United States Code section 1591, federal law recognizes offering to engage in sexual activity with a minor for anything of value as a form of sex trafficking. Laws that target the solicitation of minors for sex trafficking have proven to be effective in reducing the demand for sexual exploitation that provides the financial incentive for the commercial sex trade, without relying on criminal systems that often misidentify, retraumatize, penalize, stigmatize, or incarcerate sex trafficking victims. This measure sends a clear message that the State is committed to protecting the rights and well-being of all individuals, especially the State's most vulnerable populations.

Your Committee has amended this measure by:

- (1) Clarifying that all of the newly-added criteria for sex trafficking require the offender to be older than eighteen years of age;
- (2) Clarifying that a person is strictly liable with respect to the attendant circumstance that the victim was a minor when committing the offense of intentionally, knowingly, or recklessly providing anything of value to a minor or third person as compensation for having engaged in sexual conduct with a minor;
- (3) Deleting language that would have:
 - (A) Included the newly-added criteria for sex trafficking as a condition for being a habitual commercial sexual exploitation offender; and
 - (B) Made habitual commercial sexual exploitation a class A felony if the instant offense was one of the newly-added criteria for sex trafficking; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2757, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2895 Judiciary on S.B. No. 2685

The purpose and intent of this measure is to establish judicial procedures to prevent and remedy abusive litigation.

Your Committee received testimony in support of this measure from the Hawai'i State Coalition Against Domestic Violence, Domestic Violence Action Center, Hawaii Women's Coalition, Democratic Party of Hawai'i Women's Caucus; and eight individuals.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that abusive litigation in the intimate partner violence context is a unique issue that needs to be addressed. Individuals who abuse their intimate partners may also take advantage of court proceedings to control, harass, intimidate, coerce, and impoverish the abused partner, even after a relationship has ended. Even if a lawsuit is meritless, forcing a survivor to spend time, money, and emotional resources responding to the action provides a means for the abuser to assert power and control over the survivor. Your Committee notes that two states, Tennessee and Washington, have already enacted laws to prevent and remedy abusive litigation.

This measure will provide a critical new protective tool for intimate partner violence survivor safety, empowerment, financial independence, economic justice, and peace.

Your Committee has amended this measure by:

- (1) Deleting language that would have excluded persons who have a child in common that was conceived through sexual assault from the definition of “intimate partners”;
- (2) Deleting language that would have excluded persons who have or have had a dating relationship from the definition of “intimate partners” if one or more person is less than thirteen years of age;
- (3) Inserting language defining “dating relationship” the same as it is defined in section 586-1, Hawaii Revised Statutes;
- (4) Inserting language providing that “intimate” in regards to the term “intimate partner” has no romantic connotations;
- (5) Deleting language that would have defined “litigation” as it is defined in section 634J-1, Hawaii Revised Statutes;
- (6) Defining the term “litigation” to mean any civil action or proceeding, commenced, maintained, or pending in any state or federal court of record;
- (7) Inserting language clarifying that abusive litigation occurs where the opposing parties have a current or former intimate partner relationship or have filed on behalf of a minor or incapacitated person who has a current or former intimate partner relationship;
- (8) Inserting language clarifying that abusive litigation occurs where the party who is filing, initiating, advancing, or continuing the litigation has been found by a court to have committed intimate partner violence against the other party including by a temporary restraining order or order for protection that the court found was necessary due to domestic violence;
- (9) Inserting language clarifying that abusive litigation occurs where the parties had agreed to an order for protection in a case of domestic violence pursuant to:
 - (A) A criminal conviction or a plea of nolo contendere, in the State or any other jurisdiction for the crimes identified in sections 709-906, 711-1106, or 711-1106.5, Hawaii Revised Statutes; or a filing for any offense related to a domestic violence offense;
 - (B) A pending criminal charge, in the State or any other jurisdiction, of domestic violence, as a result of which a court has imposed criminal conditions of release pertaining to the safety of the victim;
 - (C) A temporary restraining order issued pursuant to section 586-4, Hawaii Revised Statutes;
 - (D) An order for protection issued pursuant to section 586-3, Hawaii Revised Statutes;
 - (E) A protective order issued pursuant to section 586-5.5, Hawaii Revised Statutes;
 - (F) A no contact order pursuant to section 709-906(4), Hawaii Revised Statutes;
 - (G) A foreign protective order credited pursuant to section 586-21, Hawaii Revised Statutes;
 - (H) An order or decree issued pursuant to section 571-46 or section 580-74, Hawaii Revised Statutes; or
 - (I) A signed affidavit from a domestic violence or sexual assault agency that assists victims of domestic violence and sexual assault;
- (10) Deleting language that would have specified that litigation is harassing, intimidating, or maintaining contact with the other party when the litigation is filed with the intent or is primarily designed to exhaust, deplete, impair, or adversely impact the other party’s financial resources unless punitive damages were requested and appropriate or a change in the circumstances of the parties provides a good faith basis to seek a change to a financial award, support, or distribution of resources;
- (11) Inserting language clarifying that litigation is harassing, intimidating, or maintaining contact with the other party when the litigation is filed with the intent or is primarily designed to, among other actions, prevent or interfere with the ability of the other party to raise a child or children for whom the other party has sole or joint legal custody;
- (12) Deleting language that would have specified that litigation is harassing, intimidating, or maintaining contact with the other party when the litigation is filed with the intent or primarily designed to prevent or interfere with the ability of the other party to raise a child or children for whom the other party has legal custody in the manner the other party deems appropriate unless the party filing the litigation has a lawful right to interfere and a good faith basis for doing so;
- (13) Deleting language that would have specified that litigation is harassing, intimidating, or maintaining contact with the other party when the litigation is filed with the intent or primarily designed to force, coerce, or attempt to force or coerce the other party to alter, engage in, or refrain from engaging in lawful conduct which the other party has the right to engage in;
- (14) Deleting language that would have specified that litigation is harassing, intimidating, or maintaining contact with the other party when the litigation is filed with the intent or primarily designed to prevent, interfere, or adversely impact the ability of the other party to pursue or maintain a livelihood or lifestyle at the same or better standard as the other party enjoyed prior to the filing of the action, primarily for the purpose of harassing or maliciously injuring the civil action defendant;
- (15) Inserting language clarifying that litigation that is filed with the intent or primarily designed to impair, diminish, or tarnish the other party’s reputation in the community or alienate the other party’s friends colleagues, attorneys, or professional associates by, including but not limited to, subjecting parties without knowledge of or not reasonably relevant to the litigation to

unreasonably or unnecessarily complex, lengthy, or intrusive interrogatories or depositions is litigation that is harassing, intimidating, or maintaining contact with the other party;

- (16) Deleting language that would have allowed evidence of the same or substantially similar issues between the same or substantially similar parties that were litigated within the past five years in the same court or any other court of competent jurisdiction to create a rebuttable presumption that litigation is being initiated, advanced, or continued primarily for the purpose of harassing, intimidating, or maintaining contact with the other party;
- (17) Inserting language to allow evidence of proffered legal claims not based on existing law or by a reasonable argument for the extension, modification, or reversal of existing law, or the establishment of new law to create a rebuttable presumption that litigation is being initiated, advanced, or continued primarily for the purpose of harassing, intimidating, or maintaining contact with the other party;
- (18) Deleting language that would have allowed evidence of the same or substantially similar issues between the same or substantially similar parties that have been raised, pled, or alleged in the past five years and were dismissed on the merits or with prejudice to create a rebuttable presumption that litigation is being initiated, advanced, or continued primarily for the purpose of harassing, intimidating, or maintaining contact with the other party;
- (19) Inserting language to allow evidence of allegations and other factual contentions made without adequate evidentiary support or that are unlikely to have evidentiary support after a reasonable opportunity for further investigation to create a rebuttable presumption that litigation is being initiated, advanced, or continued primarily for the purpose of harassing, intimidating, or maintaining contact with the other party;
- (20) Inserting language to allow evidence of an issue or issues that are the basis of the litigation, that have previously been filed in one or more other courts or jurisdictions and have prompted actions which have been litigated and disposed of unfavorably to the party filing, initiating, advancing, or continuing the litigation, to create a rebuttable presumption that the litigation is being initiated, advanced, or continued primarily for the purpose of harassing, intimidating, or maintaining contact with the other party;
- (21) Clarifying that evidence that a court of record in another judicial circuit or jurisdiction has determined the party allegedly engaging in abusive litigation has previously engaged in abusive litigation or similar conduct and has been subject to a court order imposing pre-filing restrictions creates a rebuttable presumption that litigation is being initiated, advanced, or continued primarily for the purpose of harassing, intimidating, or maintaining contact with the other party;
- (22) Deleting language that would have required an order restricting abusive litigation to impose pre-filing restrictions upon the party found to have engaged in abusive litigation for a period of not less than forty-eight months;
- (23) Inserting language allowing the time period of pre-filing restrictions imposed by an order restricting abusive litigation to be extended beyond the maximum if the party found to have engaged in abusive litigation, since the effective date of the order, has engaged in further abusive litigation or caused further abuse including coercive control, domestic abuse, extreme psychological abuse, and malicious property damage;
- (24) Specifying that a person subject to an order restricting abusive litigation who wishes to initiate a new case or file a motion in an existing case during the time the person is under filing restrictions shall first file an application or motion before the court that imposed the order;
- (25) Inserting language clarifying that, based on reviewing the records as well as any evidence submitted as sworn statements from the person who is subject to the order restricting abusive litigation, if the court determines the proposed litigation is abusive litigation, then it is not necessary for the person protected by the order to appear or participate in any way;
- (26) Requiring the courts to create new forms for the motion for order restricting abusive litigation and develop relevant instructions by January 1, 2025, instead of September 1, 2024; and
- (27) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2685, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2896 Transportation and Culture and the Arts on S.B. No. 2657

The purpose and intent of this measure is to establish Makahiki Commemoration Day.

Your Committee received testimony in support of this measure from ten individuals.

Your Committee finds that Makahiki, a festival dedicated to the god Lono, is a celebration beginning when the star cluster Makali'i rises over Hawaii. Your Committee further finds that the festival is a Hawaiian celebration of the new year, emphasizing harvest, bounty, and peace. This measure will recognize the importance of the Makahiki traditions by commemorating it each year.

Your Committee notes that the Makahiki season spans four consecutive months. Due to Makahiki's dependence upon the star cluster Makali'i's orbit, the beginning of the festival can fall between late October to early November. For this reason, your Committee respectfully requests any subsequent committee to which this measure is referred to deliberate on an appropriate day for Makahiki Commemoration Day to be celebrated.

Your Committee has amended this measure by inserting an unspecified date for Makahiki Commemoration Day.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2657, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2657, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 2897 Transportation and Culture and the Arts on S.B. No. 2841

The purpose and intent of this measure is to designate May 15 of each year as Water Safety Day, to recognize and spread awareness of the drowning pandemic and educate Hawaii's youth in becoming safer in and around the water.

Your Committee received testimony in support of this measure from Hawai'i Children's Action Network Speaks!, Hawaii Water Safety Coalition, Outrigger Duke Kahanamoku Foundation, Pool and Hot Tub Alliance, and two individuals.

Your Committee finds that the Department of Health recently reported that drowning was the leading cause of death for children one to seventeen years of age in Hawaii between 2018 and 2022. Your Committee further finds that International Water Safety Day is a worldwide effort to spread awareness of the drowning pandemic and to educate youth in becoming safer in and around the water. This measure will increase water safety awareness to help prevent and reduce the number of fatal and non-fatal child drowning incidents in the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2841 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 2898 (Joint) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 2911

The purpose and intent of this measure is to designate certain snail species as official state snails.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, Le Jardin Academy Kāhuli Hui, and thirty-three individuals.

Your Committees find that land snails are among the most threatened of all animal groups in the world, with more recorded extinctions than birds and mammals combined. Your Committees further find that in 2023, the Bishop Museum organized a statewide voting campaign where students and community members chose which snail species to recommend to the Legislature to be designated as the official state snail for each island. This measure will increase awareness of the imperiled status and cultural and ecological relevance of Hawaiian land snails, preserve their cultural and ecological significance, and encourage continued conservation of Native Hawaiian invertebrates by designating official state snails.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2911 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 2899 Transportation and Culture and the Arts on S.B. No. 3312

The purpose and intent of this measure is to adopt, establish, and designate the shaka as the official gesture of the State.

Your Committee received testimony in support of this measure from the Hawaii Bulletin; Leveraged Leadership, LLC; Pono Connections LLC; ID8 Studios; and twenty-nine individuals.

Your Committee finds that while multiple Hawaii ethnic cultures and resident groups have contributed varying layers of meaning to the shaka hand gesture, there is a shared agreement in the shaka's positive sentiments and usage. Your Committee further finds that the shaka is a key brand symbol for the State, offering influential power to build the State's economy, global brand, and resident pride. It is therefore appropriate that the shaka be honored as the official gesture of the State to secure recognition of Hawaii as the shaka's place of origin, to preserve the meaning of the shaka as originated in Hawaii, to preserve Hawaii's brand association with the gesture, and to share the aloha spirit around the world.

Your Committee notes that testimony was received by the descendants of Hamana Kalili, the potential originator of the shaka sign. Should subsequent committees choose to deliberate on this measure, your Committee respectfully requests that they consider incorporating how to properly phrase and address the recognition of the potential originator into the measure's preamble.

Your Committee has amended this measure by:

- (1) Adding language to authorize the State Foundation on Culture and the Arts to develop a public work of art related to the shaka and its history to be displayed in a prominent location for residents and visitors to Hawaii; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3312, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3312, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2900 (Joint) Transportation and Culture and the Arts and Energy, Economic Development, and Tourism on S.B. No. 370

The purpose and intent of this measure is to require owners of multiple parking facilities within any county of the State who aggregate the required parking spaces for electric vehicles to aggregate the spaces within that same county.

Your Committees received testimony in support of this measure from the Hawai'i State Energy Office, Hawaiian Electric, Hawaii Electric Vehicle Association, 350Hawaii.org, and Ulupono Initiative.

Your Committees received testimony in opposition to this measure from the Retail Merchants of Hawaii.

Your Committees received comments on this measure from the Disability and Communication Access Board.

Your Committees find that as the number of electric vehicles in Hawaii rises, the buildout of adequate electric vehicle infrastructure, including publicly accessible charging stations, is critical. Your Committees further find that it is necessary to clarify that the aggregation of electric vehicle charging systems by an owner of multiple parking facilities should remain within the same county to prevent required electric vehicle charging systems from being aggregated from one county to another, ensuring a more even adoption of electric vehicle infrastructure for each county. This measure will ensure the equitable installation of electric vehicle charging stations to neighbor islands that lack publicly available electric vehicle infrastructure.

Your Committees have amended this measure by:

- (1) Removing language that would have required owners of multiple parking facilities within any county of the State who aggregate the required spaces for electric vehicles to aggregate the spaces within that same county;
- (2) Repealing language that allows owners of multiple parking facilities to designate and electrify fewer parking spaces than required in one or more of their own properties if the requirements on all of their owned properties was met;
- (3) Inserting language to authorize the counties to adopt ordinances regulating electric vehicle charging systems, including maintenance requirements, for places of public accommodation with few than one hundred parking spaces available for use by the general public;
- (4) Inserting language to task the Clean Ground Transportation Working Group with developing plans for electric vehicle charging systems on each neighbor island and a permitting process for electric vehicle charging systems, to be implemented by the appropriate permitting entities;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 370, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 370, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Kim).

SCRep. 2901 Ways and Means on S.B. No. 2279

The purpose and intent of this measure is to amend state income tax law with regard to graduate assistants.

More specifically, this measure:

- (1) Requires any qualified tuition reduction for graduate assistants enrolled in graduate level coursework to be considered taxable income; and
- (2) Restricts the qualified tuition reduction for graduate assistants enrolled in graduate level coursework to be equal to an amount not more than a certain percentage of the resident tuition fee.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Taxation, University of Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that, to offset the cost of graduate education, universities may provide a tuition waiver of a certain number of credit hours in exchange for work as a graduate assistant, teaching assistant, or research assistant. Your Committee also finds that, under existing law, this added benefit may not be considered taxable income for all graduate assistants. Your Committee further finds that, as a quantifiable benefit, tuition waivers for graduate assistants should be considered taxable income for the purpose of state income taxation.

Your Committee has amended this measure by:

- (1) Amending section 235-2.4, Hawaii Revised Statutes, to specifically state that section 117(d) of the federal Internal Revenue Code shall not be operative with respect to qualified tuition reductions provided to graduate assistants; and
- (2) Making conforming amendments to the definition of "qualified tuition reduction".

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2279, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2279, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2902 Ways and Means on S.B. No. 2280

The purpose and intent of this measure is to improve state facilities.

Specifically, this measure authorizes the issuance of general obligation bonds and appropriates funds for various capital improvement projects in the State.

Your Committee received testimony in support of this measure from the Department of Health and Hawaii Health Systems Corporation.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the appropriations authorized by this measure will help to facilitate urgently needed upgrades, repairs, and replacements of aging state infrastructure.

Your Committee has amended this measure by:

- (1) Requiring each capital improvement project funded through a public-private partnership to:
 - (A) Be approved by the Attorney General and Director of Finance;
 - (B) Adhere to the requirements of section 37D-2, Hawaii Revised Statutes, relating to financing agreements; and
 - (C) Not be a general obligation of the State pursuant to section 37D-5, Hawaii Revised Statutes;
- (2) Correcting the name of Uncle Billy's Hilo Bay Hotel;
- (3) Changing the amount of general obligation bonds authorized for issuance from \$81,800,000 to an unspecified sum;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2280, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2280, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2903 Ways and Means on S.B. No. 582

The purpose and intent of this measure is to appropriate moneys for expenses related to noncongregate housing and other costs relating to the provision of food, housing, or other assistance for individuals affected by the August 8, 2023, Maui wildfires.

Your Committee received written comments in support of this measure from the Hawaii Emergency Management Agency, Department of Budget and Finance, Department of Human Services, Department of the Attorney General, the Chair of the Maui County Council, and one individual.

Based on the recent informational briefings by your Committee, the State's obligations in response to the Maui wildfires will significantly surpass the \$200,000,000 that was deposited into the Major Disaster Fund for fiscal year 2023-2024. Governor's Message No. 3 did not specify the amounts needed in the emergency appropriation, as is typical of past practice. Without a clear plan for cost containment, it is difficult for the Legislature to pass a balanced budget.

As a result of the aforementioned issues, your Committee has taken the following actions:

- (1) On February 19, 2024, your Committee sent a letter to each department requesting a list of budget reductions totaling ten percent and fifteen percent of the department's general fund grand totals from Finance Memorandum No. 23-19, which can include existing cash balances from non-general funds; and
- (2) On February 22, 2024, your Committee sent a letter to each department requesting feedback and input on proposed cash transfers from non-general fund accounts that meet the following criteria:
 - (A) Fiscal year 2022-2023 revenues that were greater than fiscal year 2022-2023 expenditures;
 - (B) Fiscal year 2022-2023 ending cash balance that was greater than two times fiscal year 2022-2023 expenditures; and
 - (C) Fiscal year 2022-2023 ending cash balance that was greater than \$50,000.

In working with the departments, your Committee identified excess balances in non-general fund accounts that could be transferred in lieu of budget reductions, which will help to improve the State's financial plan.

The amounts proposed were calculated by subtracting the fiscal year 2022-2023 ending cash balance by two times the fiscal year 2022-2023 expenditures for non-general fund accounts that met the above criteria. The amounts identified reflect the maximum amounts in excess of the requirements of each fund to maintain operations over the next biennium.

Your Committee finds that transferring these excess amounts to the general fund will help the State to pass a balanced budget and meet its financial obligations to provide assistance to victims of the August 8, 2023, Maui wildfires.

Accordingly, your Committee has amended this measure by:

- (1) Adding language that authorizes the Director of Finance to transfer from the following funds or accounts the following amounts to the general fund:
- (A) S-303-A-AGRICULTURAL LOAN REVOLVING FUND: \$2,000,000;
 - (B) S-305-A NON-AGRICULTURAL PARK LANDS SPECIAL FUND: \$45,000;
 - (C) S-310-A AQUACULTURE LOAN RESERVE FUND: \$408,135;
 - (D) S-315-A-MILK CONTROL SPECIAL FUND: \$11,881;
 - (E) S-317-A AGRICULTURAL PARKS SPECIAL FUND: \$45,000;
 - (F) S-320-A-IRRIGATION SYSTEM REVOLVING FUND: \$87,000;
 - (G) S-322-A INDUSTRIAL HEMP PROGRAM SPECIAL FUND: \$90,374;
 - (H) S-305-N-DNA REGISTRY SPECIAL FUND: \$79,996;
 - (I) S-350-N-INTERNET CRIMES AGAINST CHILD SPECIAL FUND: \$181,386;
 - (J) S-305-B-ENERGY SECURITY FUND: \$463,555;
 - (K) S-342-B-STRATEGIC DEVELOPMENT PROGRAMS REVOLVING FUND: \$5,000,000;
 - (L) S-348-B-TOURISM SPECIAL FUND: \$1,325,891;
 - (M) S-361-B-CONVENTION CENTER ENTERPRISE SPECIAL FUND: \$11,000,000;
 - (N) S-376-B-HOUSING FINANCE REVOLVING FUND: \$2,000,000;
 - (O) S-352-G-HAZARD MITIGATION SPECIAL FUND: \$390,320;
 - (P) S-353-G-RESILIENT HI REVOLVING LOAN FUND: \$435,622;
 - (Q) S-317-K-GENERAL ASSISTANCE PAYMENTS: \$901,783;
 - (R) S-310-P-HUMAN RESOURCES DEVELOPMENT SPECIAL FUND: \$149,760;
 - (S) S-331-H-EARLY INTERVENTION SPECIAL FUND: \$204,329;
 - (T) S-338-H-VITAL STATISTICS IMPROVEMENT SPECIAL FUND: \$11,074;
 - (U) T-981-H-STATE HOSPITAL - DONATIONS (NOT IN S/T): \$50,407;
 - (V) T-904-L-WAGE CLAIM FUND: \$2,000,000;
 - (W) S-302-C-CONSERVATION & RESOURCES ENFORCEMENT: \$650,858;
 - (X) S-303-C-WATER AND LAND DEVELOPMENT: \$509,063;
 - (Y) S-309-C-BUREAU OF CONVEYANCES SPECIAL FUND: \$250,000;
 - (Z) S-316-C-SPECIAL LAND DEVELOPMENT FUND: \$1,000,000;
 - (AA) S-325-C-BEACH RESTORATION SPECIAL FUND: \$2,166,442;
 - (BB) S-326-C-WATER RESOURCE MANAGEMENT FUND: \$65,740;
 - (CC) S-342-C-NATURAL AREA RESERVE & WATERSHED MANAGEMENT: \$174,853;
 - (DD) S-349-C-CONSERVATION AND RESOURCES ENFORCEMENT: \$841,237;
 - (EE) S-359-C-OCEAN-BASED RECREATION SPECIAL FUND: \$2,000,000;
 - (FF) S-318-D-SAFE ROUTES TO SCHOOL PROGRAM: \$1,814,826; and
 - (GG) S-329-D-MOTORCYCLE/MOTOR SCOOTER OPERATORS EDUCATIONAL FUND: \$723,725; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 582, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 582, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Lee).

SCRep. 2904 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 279

The purpose and intent of this measure is to:

- (1) Require Medicaid and insurance coverage of ketamine therapy to treat depression; and
- (2) Make an appropriation for costs resulting from Medicaid coverage of ketamine therapy.

Your Committees received testimony in support of this measure from Beyond Mental Health; Kahala Clinic for Children and Family; Marian L. Miller, PSY.D., Inc.; and six individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Department of Human Services, and Hawai'i Medical Service Association.

Your Committees find that research has shown that, for some people, ketamine therapy may relieve depressive symptoms and restore quality of life when all other treatments have failed. Given its efficacy for people with suicidal ideation, it is plausible that ketamine may also be lifesaving. Your Committees find, however, that this life-saving agent is too cost-prohibitive. Your Committees find that making ketamine more easily accessible as an alternative therapy for individuals with treatment-resistant depression, who otherwise feel they have no hope, can protect and improve public health. Therefore, this measure requires much needed Medicare and insurance coverage for those Hawaii residents who suffer from major or severe depression.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 279, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 279, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Richards).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2905 Ways and Means on S.B. No. 1170

The purpose and intent of this measure is to increase the supply of affordable housing in the State.

More specifically, this measure requires the counties to issue affordable housing credits for affordable housing units that are constructed pursuant to chapter 201H, Hawaii Revised Statutes.

Your Committee received written comments in support of this measure from the Hawaii Community Development Authority, AARP Hawaii, EAH Housing, Hawaii Association of REALTORS, Kobayashi Group, Maui Chamber of Commerce, and NAIOP Hawaii.

Your Committee received written comments in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu and Office of Housing and Community Development of the County of Hawaii.

Your Committee received written comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State is experiencing an acute housing shortage. Your Committee also finds that there has been a lack of measurable progress at the county level to enact policies that will stimulate housing production to meet project demand. Your Committee further finds that increases in home loan and construction loan interest rates have severely impaired the ability of the Hawaii Housing Finance and Development Corporation to increase the affordable housing supply in the State.

Your Committee has amended this measure by:

- (1) Deleting references to the Hawaii Community Development Authority;
- (2) Correcting the text of section 46-15.1, Hawaii Revised Statutes, to accurately reflect the printed version of the statute;
- (3) Making a correction to accurately reflect the date that section 46-15.1, Hawaii Revised Statutes, is scheduled to be repealed and reenacted, pursuant to Act 90, Session Laws of Hawaii 2023; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1170, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2906 Ways and Means on S.B. No. 2202

The purpose and intent of this measure is to amend the minimum amounts for certain purchases made in accordance with small purchase procedures under the public procurement code.

More specifically, the measure:

- (1) Increases from \$25,000 to \$50,000 the minimum amount for purchases constituting small purchase procurements; and

- (2) Sets at \$75,000 the minimum amount for purchases constituting small purchase procurements in a federally declared disaster area; provided that the procurement is through an electronic system and reported to the State Procurement Office.

Your Committee received written comments in opposition to this measure from the State Procurement Office.

Your Committee finds that increasing the minimum amount for purchases constituting small purchase procurements will help account for inflation and the rising cost of goods. Your Committee also finds that increasing the small purchase threshold for a federally declared disaster area will help facilitate response and recovery efforts after disasters.

Your Committee has amended this measure by:

- (1) Making the measure effective upon approval; and
- (2) Making technical nonsubstantive edits for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2202, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2202, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2907 Ways and Means on S.B. No. 2401

The purpose and intent of this measure is to control the feral chicken population across the State.

Specifically, the measure appropriates moneys to:

- (1) Each county, as a grant-in-aid, for the implementation of feral chicken control programs; and
- (2) The Department of Health for a feeding of feral animals education campaign.

Your Committee received written comments in support of this measure from the Department of Health; Department of Agriculture; City and County of Honolulu, Department of Customer Services; County of Maui; and Hawaii Farm Bureau.

Your Committee received written comments on this measure from the Hawaiian Humane Society.

Your Committee finds that feral chickens have become a persistent nuisance in Hawaii, particularly in suburban and residential communities. Your Committee further finds that controlling these feral populations is in the best interest of the environment, human health, and the animals themselves.

Your Committee has amended this measure by:

- (1) Changing the appropriations and grant-in-aid to each county to unspecified amounts;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2401, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2401, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2908 Ways and Means on S.B. No. 2526

The purpose and intent of this measure is to improve the resiliency of state information technology infrastructure.

Specifically, this measure:

- (1) Requires the Technology Services Consolidation Working Group to:
 - (A) Assist the Office of Enterprise Technology Services in working with certain state agencies to ensure that critical state information technology systems and data are hosted in a facility with certain redundancy requirements; and
 - (B) Ensure that all consolidated state information technology data facilities possess certain resiliency features; and
- (2) Extends the repeal date of the Technology Services Consolidation Working Group to June 30, 2026.

Your Committee received written comments in support of this measure from the Office of Enterprise Technology Services and Servpac.

Your Committee finds that power outages, cooling system malfunctions, and network disruptions have the potential to disrupt critical state information technology infrastructure, causing major negative repercussions for residents and businesses. Your Committee further finds that ensuring that state information technology and data infrastructure possess certain resiliency and redundancy features will help to prevent downtime and safeguard the availability of critical government services.

Your Committee has amended this measure by:

- (1) Amending the existing reporting requirements in sections 2(d) and (e) of Act 179, Session Laws of Hawaii 2022, to reflect the additional reports that the Technology Services Consolidation Working Group is required to submit;

- (2) Changing the effective date to upon its approval; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2526, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2526, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2909 Ways and Means on S.B. No. 2731

The purpose and intent of this measure is to create special number plates to honor veterans of the wars in Iraq and Afghanistan.

Your Committee received written comments in support of this measure from the Department of Defense, Hawaii Military Affairs Council, and three individuals.

Your Committee finds that special number plates are available for combat veterans of certain wars and conflicts. Your Committee further finds that creating a special number plate for Iraq and Afghanistan war veterans is an expression of gratitude for their service in protecting the State and nation.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2731, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2731, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2910 Ways and Means on S.B. No. 2787

The purpose and intent of this measure is to require and appropriate moneys for the Office of Community Services to establish an Immigration Services and Access Unit to promote immigrant economic self-sufficiency, community inclusion, and integration.

Your Committee received written comments in support of this measure from the Department of Human Services, Office of Language Access, Office of Community Services, Hawaii Friends of Civil Rights, Hawaii Children's Action Network Speaks!, The Legal Clinic, Hawaii Coalition for Immigrant Rights, Hawaii Alliance for Progressive Action, World Education Services, Roots Reborn, Kaibigan ng Lahaina, and eight individuals.

Your Committee received written comments in opposition to this measure from the Hawaii Federation of Republican Women and sixty-one individuals.

Your Committee recognizes that many immigrants use their time and energy to contribute to local communities, and they are an essential part of the State's economy. Your Committee finds that because immigrants often face issues relating to language barriers, immigration status, integration, and other matters, the State should provide immigrants with appropriate support services.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2787, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2911 Ways and Means on S.B. No. 2890

The purpose and intent of this measure is to implement and appropriate moneys for a statewide system to track the status of the capital improvement projects of each department and agency.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, Department of Labor and Industrial Relations Office of Community Services, and Office of Enterprise Technology Services.

Your Committee finds that implementing a statewide tracking system for capital improvement projects will help ease the administrative burden of manually tracking expenditures for those projects.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2890, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2912 Ways and Means on S.B. No. 2974

The purpose and intent of this measure is to establish, and require a legislative report from, a Business Revitalization Task Force to identify methods to improve Hawaii's general economic competitiveness and business climate.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development and Tourism; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Retail Merchants of Hawaii; Hawaii Farm Bureau; and Maui Chamber of Commerce.

Your Committee received written comments in opposition to this measure from UNITE HERE! Local 5.

Your Committee recognizes that Hawaii ranks below other states in new business formations, early survival rates for startups, self-employment, and business climate. Your Committee finds it appropriate to explore possible methods to improve the State's environment for businesses and economic growth.

Your Committee has amended this measure by:

- (1) Providing that members of the task force selected from the local business community shall serve without compensation but shall be reimbursed for expenses, including travel expenses, necessary for the performance of their duties;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2974, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2913 Ways and Means on S.B. No. 3070

The purpose and intent of this measure is to phase in a lower maximum projected funding period limit in which to amortize the total unfunded actuarial accrued liability of the Employees' Retirement System.

Your Committee received written comments in support of this measure from the Employees' Retirement System and Department of Budget and Finance.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that this measure's requirement to incrementally reduce the amortization period for employer contribution rate amortization from thirty years to twenty years by 2029 will help to strengthen both the Employees' Retirement Systems' funding policy and the State's long-term financial position by providing a prudent and timely response to address the plan's unfunded actuarial accrued liability.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2914 Ways and Means on S.B. No. 3084

The purpose and intent of this measure is to exempt Hawaii National Guard servicemembers who are ordered into state active duty from membership in the Employees' Retirement System.

Your Committee received written comments in support of this measure from the Department of Defense and Hawaii Emergency Management Agency.

Your Committee received written comments on this measure from the Employees' Retirement System.

Your Committee finds that many Hawaii National Guard Servicemembers who are ordered to state active duty are not currently state or county employees in their civilian occupations and subsequently will not complete a sufficient period of service in order to vest in the Employees' Retirement System if they are required to contribute. Exempting National Guard servicemembers will help these individuals retain more of their pay without sacrificing their benefits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3084, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2915 Commerce and Consumer Protection on S.B. No. 3129

The purpose and intent of this measure is to:

- (1) Establish the Hui Ho'omana Task Force within the State Health Planning and Development Agency to develop a comprehensive plan to provide universal access to equitable and affordable high-quality health care for state residents; and
- (2) Require the Hui Ho'omana to submit reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Human Services, Insurance Division of the Department of Commerce and Consumer Affairs, Executive Office on Aging, State Council on Developmental Disabilities, State Health Planning and Development Agency, University of Hawai'i System, AARP Hawai'i, Hawai'i Primary Care Association, Hawai'i Association of Health Plans, and AlohaCare.

Your Committee received comments on this measure from the Hawai'i State Center for Nursing, Healthcare Association of Hawaii, Papa Ola Lokahi, Kaiser Permanente Hawai'i, Hawai'i Pacific Health, and The Queen's Health System.

Your Committee finds that access to quality, affordable health care enables individuals to lead productive and fulfilling lives. However, with approximately eighty thousand uninsured residents, and many more underinsured, the State must do more to promote health equity, increase access to primary care services, set health care expenditures on a more sustainable trajectory, and lower health care costs for residents. Therefore, this measure seeks to address these issues by establishing a task force to make recommendations on how the State can best achieve universal access and equity to quality health care at an affordable cost for Hawaii residents.

Your Committee has amended this measure by:

- (1) Adding the Dean of the University of Hawaii Nancy Atmospera-Walch School of Nursing or the Dean's designee as a voting member of the Hui Ho'omana, thereby increasing the total number of the task force's voting members from twenty-five to twenty-six;
- (2) Replacing the Regional President of Kaiser Permanente Southern California and Hawaii Region or the Regional President's designee with one representative of the Kaiser Foundation Health Plan and Hospital, as a voting member of the Hui Ho'omana to be invited by the Administrator of the State Health Planning and Development Agency; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3129, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3129, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2916 Commerce and Consumer Protection on S.B. No. 3194

The purpose and intent of this measure is to authorize independent generators of renewable energy to wheel the renewable electricity they produce to users of renewable energy under administrative rules established by the Public Utilities Commission.

Your Committee received testimony in support of this measure from Tawhiri Power LLC, Hawaii Solar Energy Association, and Blue Planet Foundation.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, Ulupono Initiative, Kaua'i Island Utility Cooperative, and Hawaiian Electric.

Your Committee finds that retail wheeling, also known as third party access, is when a generator of power, whether an independent power producer, utility, or broker, sells power directly to an end user in another electric utility's territory. Through retail wheeling, a power generator bypasses the end-user's local electric utility, but uses the electric utility's transmission lines to sell to the electric utility's customer. In return, the power generator pays reasonable compensation to the electric utility for the use of its infrastructure. Your Committee finds that by authorizing retail wheeling for independent renewable energy generators, this measure, in its proposed form, would incentivize the development of more renewable energy projects, such as large solar and windmill farms, create new markets for clean and cost-efficient renewable energy throughout the State, and help Hawaii meet its ambitious renewable energy goals.

Your Committee has amended this measure by:

- (1) Inserting language that requires the Public Utilities Commission to first determine whether retail wheeling is in the public interest and if so determined, adopt administrative rules or establish orders, policies, and procedures to implement retail wheeling;
- (2) Inserting language to require the Public Utilities Commission to submit a report of its decision on retail wheeling, along with its findings and recommendations, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2026;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3194, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3194, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Awa).

SCRep. 2917 (Joint/Majority) Ways and Means and Judiciary on S.B. No. 2640

The purpose and intent of this measure is to provide to any beneficiary under the Hawaiian Homes Commission Act, 1920, as amended, who is on the Department of Hawaiian Homes Lands waitlist, a cash award to purchase a residential lot outside of Department of Hawaiian Home Lands trust lands, or to pay the beneficiary's existing mortgage note or rent, in lieu of awarding the beneficiary a lease.

Your Committees received written comments in support of this measure from the Makaha Hawaiian Civic Club and five individuals.

Your Committees received written comments in opposition to this measure from the Center for Hawaiian Sovereignty Studies.

Your Committees received written comments on this measure from the Department of the Attorney General, Department of Hawaiian Home Lands, and one individual.

Your Committees recognize that the Department of Hawaiian Home Lands lacks sufficient suitable land to provide leases to all of the approximately twenty-four thousand Hawaiian home land beneficiaries on the Department's waitlist. Your Committees find that cash awards will serve as a reasonable alternative to direct leases, help the Department meet the housing needs of beneficiaries, and reduce the number of beneficiaries on its waitlist.

Your Committees have amended this measure by:

- (1) Inserting clarifying language to accommodate potential variation in the amount of the cash award granted, subject to an unspecified maximum amount, for any qualifying beneficiary;
- (2) Clarifying that a beneficiary who accepts a cash award as proposed by the measure shall relinquish the beneficiary's right to receive a lease award directly from the Department of Hawaiian Home Lands under the Hawaiian Homes Commission Act; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2640, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2640, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 12; Ayes with Reservations (DeCoite). Noes, 1 (Fevella). Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2918 (Joint) Ways and Means and Judiciary on S.B. No. 2645

The purpose and intent of this measure is to establish within the Department of Hawaiian Home Lands a compliance and enforcement program on Hawaiian home lands to investigate complaints, conduct investigations, and cooperate with law enforcement authorities to ensure compliance with applicable laws.

Your Committees received written comments in support of this measure from the Department of Hawaiian Home Lands, a member of the Hawaiian Homes Commission, and God Forgives Bad Boys & Bad Girls.

Your Committees received written comments on this measure from the Department of Law Enforcement.

Your Committees find that safety and compliance with laws should be priorities in all communities, including homestead communities. Your Committees also find that law enforcement authorities' inconsistent responses to illegal activities occurring on Hawaiian home lands effectively helps perpetuate those activities. Your Committees believe that establishing compliance personnel with the Department of Hawaiian Home Lands, and improving coordination between the Department and law enforcement authorities, are necessary.

Your Committees have amended this measure by:

- (1) Changing the name of the new program to the "compliance program on Hawaiian home lands" and deleting certain provisions relating to law enforcement activities by the Department of Hawaiian Home Lands and police powers of the Hawaiian Homes Commission;
- (2) Specifying that mutual aid agreements developed by officers of the program and law enforcement authorities may include provisions for the latter to assist in the enforcement of laws on lands under the Department of Hawaiian Home Lands' jurisdiction;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2645, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2645, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2919 (Joint) Ways and Means and Judiciary on S.B. No. 3328

The purpose and intent of this measure is to grant to the Department of Education authority over the State's public education facilities.

More specifically, this measure:

- (1) Requires the Department of Education to establish, maintain, and operate the State's public education facilities;
- (2) Authorizes the Department of Education to enter into certain agreements with other departments for the establishment, maintenance, and operation of the State's public education facilities;

- (3) Clarifies that the Superintendent of Education is responsible for the management of the internal improvements of the State's public education facilities;
- (4) Establishes within the Department of Education the Office of Facilities and Real Estate Development and the Office of School Operations and Services and the duties and powers of each;
- (5) Establishes the educational facilities and real estate development special fund;
- (6) Transfers to the Department of Education the rights, powers, functions, duties, employees, records, documents, and equipment of the School Facilities Authority; and
- (7) Repeals the School Facilities Authority.

Your Committees received written comments in support of this measure from the Board of Education, Department of Education, and one individual.

Your Committees received written comments in opposition to this measure from UNITE HERE Local 5.

Your Committees received written comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committees find that granting the Department of Education authority over the State's public education facilities will help to optimize the State's efforts to manage and improve these facilities.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3328, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

Judiciary: Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

SCRep. 2920 (Joint) Ways and Means and Judiciary on S.B. No. 3332

The purpose and intent of this measure is to establish an alternative eviction process for tenants on Maui who are unable to pay rent due to losses resulting from the 2023 Maui wildfires.

Specifically, this measure:

- (1) Establishes a pre-litigation mediation requirement and process for tenancies on Maui; and
- (2) Appropriates moneys for a rent relief program to help tenants avoid eviction and to maintain stable tenancies.

Your Committees received written comments in support of this measure from the Judiciary; Office of Economic Revitalization of the City and County of Honolulu; Kuikahi Mediation Center; The Mediation Center of the Pacific, Inc.; Catholic Charities Hawaii; Hawaii Children's Action Network Speaks!; Mediation Centers of Hawaii; Hawaii State Coalition Against Domestic Violence; and nine individuals.

Your Committees received comments on this measure from the Department of the Attorney General, Hawaii Realtors, and Hawaii Appleseed Center for Law and Economic Justice.

Your Committees find that the alternative eviction process established by this measure will help to reduce the number of evictions and burden on the courts following the termination of the Governor's final emergency proclamation containing an eviction moratorium for Maui tenants affected by the 2023 Maui wildfires.

Your Committees have amended this measure by:

- (1) Amending the definition of the term "final eviction moratorium" and clarifying that the Governor may reinstate or issue a new emergency proclamation that contains a prohibition against residential evictions; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3332, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3332, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2921 (Joint) Judiciary and Ways and Means on S.B. No. 2682

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2025, require physicians to perform or order a test for lead in minor patients at certain intervals, and if the physician performs the test, include the results in the minor patient's record of immunization;
- (2) Require the Department of Health to adopt recommendations; and
- (3) Provide certain exemptions for the mandatory lead poisoning testing of minors.

Your Committees received testimony in support of this measure from the Department of Health, Disability and Communication Access Board, Hawai'i Chapter of the American Academy of Pediatrics, Hawai'i Children's Action Network Speaks!, and four individuals.

Your Committees find that children with lead in their blood above the Centers for Disease Control and Prevention reference level who are not tested miss the opportunity for identification and removal of the lead source. Additionally, other children may be exposed to that lead source if it is not identified and removed. This measure will prevent children from being exposed to lead, identify children already exposed to lead so the source can be removed, and connect families with recommended services.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2682, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

SCRep. 2922 (Joint/Majority) Judiciary and Commerce and Consumer Protection on S.B. No. 2342

The purpose and intent of this measure is to:

- (1) Change the penalties for violations of certain traffic laws and required motor vehicle insurance minimums; and
- (2) Require the Insurance Commissioner to solicit rate filings from motor vehicle insurers.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaii Association for Justice, and four individuals.

Your Committees received testimony in opposition to this measure from the American Property Casualty Insurance Association and State Farm Mutual Automobile Insurance Company.

Your Committees received comments on this measure from the Department of the Attorney General, Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, and Turo Inc.

Your Committees find that the State has one of the lowest requirements for mandatory minimum coverage for motor vehicles. However, the State's lower mandatory minimum coverage requirements may place undue burdens on motor vehicle collision victims and their families, who often must pay out-of-pocket for expenses that were not covered by insurance. Therefore, this measure promotes safety on the State's roadways while providing additional accountability for motor vehicle owners and operators.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2342, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2342, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 3. Noes, 1 (Awa). Excused, 1 (San Buenaventura).

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

SCRep. 2923 Judiciary on S.B. No. 2020

The purpose and intent of this measure is to make it a deceptive practice to advertise, display, or offer a price for goods or services that does not include all mandatory fees or charges, with certain exceptions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and two individuals.

Your Committee received testimony in opposition to this measure from CTIA, Hawai'i Restaurant Association, Chamber of Progress, TechNet, and Maui Chamber of Commerce.

Your Committee received comments on this measure from Expedia Group and National Association of Theatre Owners.

Your Committee finds that there is national support to reduce and eliminate mandatory fees that often hide the full price of a good or service and surprise fees that consumers learn about after purchase. This measure provides consumers the ability to make better and more informed purchasing decisions by prohibiting any person, other than those providing certain broadband internet access services, from advertising, displaying, or offering a price for a good or service that does not include all mandatory fees other than taxes imposed by a government or reasonable postage or carriage charges.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2020, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2924 Judiciary on S.B. No. 2018

The purpose and intent of this measure is to:

- (1) Prohibit a county from changing the land use designation or zoning of a parcel or parcels of property to a less intensive use or reducing the intensity of land use within an existing zoning district below what was allowed under the general plan or specific land use designation and zoning ordinances in effect on January 1, 2024; and
- (2) Allow a county to change a land use designation or zoning ordinance to a less intensive use if the county concurrently enacts measures to ensure that there is no net loss in residential capacity.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii.

Your Committee received testimony in opposition to this measure from the Department of Planning and Permitting of the City and County of Honolulu.

Your Committee finds that when a county downzones, or changes the land use designation or zoning of a property to a less intensive use, it reduces the potential housing supply in the State. This measure prevents counties from exacerbating the housing crisis and protects the State's potential housing supply, while preserving the county's authority to downzone land in accordance with the needs of its community.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2018 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante). Noes, none. Excused, 1 (Gabbard).

SCRep. 2925 Judiciary on S.B. No. 2569

The purpose and intent of this measure is to allow a person who employs or contracts with a health care worker who suffers an act of violence at the health care facility to report the event to law enforcement and petition for a temporary restraining order and injunction under certain circumstances.

Your Committee received testimony in support of this measure from the Hawai'i State Center for Nursing, Waianae Coast Comprehensive Health Center, and one individual.

Your Committee finds that while Act 147, Session Laws of Hawaii 2018, expanded protections for all health care workers who are victims of an act of violence, more can be done via legislation to provide a health care worker the legal safeguards that are critical in the aftermath of an assault. Your Committee further finds that a 2023 report published by the Hawai'i State Center for Nursing found that sixty-four percent of all nurses experienced some type of physical or verbal violence by a patient or visitor in the last twelve months. This measure will prioritize the safety and security of health care workers by allowing an employer to seek proper legal and safety protections in the event of an act of violence.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2569, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2569, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2926 Judiciary on S.B. No. 3303

The purpose and intent of this measure is to:

- (1) Clarify labeling requirements for macadamia nuts;
- (2) Require the country of origin to be included on the label of a consumer package of raw or processed macadamia nuts; and
- (3) Allow a private right of action for violations.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farm Bureau, Maui County Farm Bureau, Big Island Juicing, Hawaii Ulu Cooperative, Synergistic Hawaii Agriculture Council, Hawaiian Macadamia Nut Services, Hawaii Macadamia Nut Association, Hamakua Macadamia Nut Company, Macadamia Growers of Hawai'i, Ka'u Farms Management LLC, Island Harvest Inc., and more than one hundred fifty individuals.

Your Committee received testimony in opposition to this measure from Hawaiian Host Group and more than one hundred fifty individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that with more than six hundred twenty farms operating on seventeen thousand acres, the State is the fifth largest producer of macadamia nuts in the world after Australia, South Africa, China, and Kenya. However, the State's macadamia nut industry is under significant stress from economic and environmental pressures, with one of the greatest threats to the viability of macadamia farming in the State being the misleading labeling of macadamia nut products. This measure will enact positive changes to protect macadamia nut farmers and the premium brand of goods grown and produced in the State.

Your Committee has amended this measure by:

- (1) Deleting language that would have required a listing of the countries of origin of the portion of the raw macadamia nuts not grown in the Hawai'i that are included in the package to be shown on the label; and

- (2) Inserting language clarifying that if the regulations established by this measure conflict at any time with federal law, then the federal law shall prevail.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3303, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3303, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Elefante). Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2927 Judiciary on S.B. No. 3123

The purpose and intent of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to access vital records for purposes of verifying native Hawaiian ancestry for beneficiary programs; and
- (2) Require the Department of Health and the Department of Hawaiian Home Lands to enter into a Memorandum of Agreement to assure appropriate access and handling of confidential records and sealed records that have been unsealed pursuant to court order.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of Health, and Department of Human Services.

Your Committee finds that, pursuant to existing law and administrative rules, the Department of Hawaiian Home Lands must verify the requisite amounts of native Hawaiian or Hawaiian lineage for beneficiaries. The current length for the Department of Hawaiian Home Lands to receive vital records once requested is approximately four to six weeks. This measure will ease certain administrative inefficiencies for the Department of Hawaiian Home Lands and directly benefit beneficiaries, who suffer the most when the requirement to obtain, and then verify, certain records delays requests to transfer their application or lease rights.

Your Committee has amended this measure by clarifying that the Department of Hawaiian Home Lands is authorized to access vital records for purposes of verifying Native Hawaiian ancestry for beneficiary programs.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3123, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3123, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2928 Judiciary on S.B. No. 2983

The purpose and intent of this measure is to:

- (1) Regulate charitable fundraising platforms and activities of platform charities during declared federal disasters;
- (2) Establish provisions relating to the misuse of funds;
- (3) Impose vicarious liability upon a platform charity for a charitable fundraising platform's misuse of funds, and vice versa; and
- (4) Exempt national disaster charitable organizations from established provisions.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee received comments on this measure from the Hawai'i Alliance of Nonprofit Organizations.

Your Committee finds that the August 2023 Maui wildfires presented government officials with numerous challenges that ranged from helping victims find housing, food, and other necessities of life to handling the massive influx of donations from around the world. The wildfires also brought out the best of intentions in people who reached out with offers of financial and in-kind gifts intended to help alleviate the suffering. However, managing donations presented a series of challenges to assure the generosity went to where it was intended, and that fraud was identified and limited. This measure will prevent the likelihood of deception, confusion, or misunderstanding when donations are made during an emergency period.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2983, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2983, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2929 Judiciary on S.B. No. 2066

The purpose and intent of this measure is to require certain projects meeting the criteria of section 201H-38(a)(1), Hawaii Revised Statutes (HRS), to be exclusively for sale or rent to qualified residents as defined in section 201H-32, HRS, who are deemed to be a moderate income household.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and NAIOP Hawaii.

Your Committee finds that the State has been building homes at a rate of only two thousand units per year, far lower than the ten thousand necessary to house residents. The State's limited housing production coupled with sky-high demand drives Hawai'i's people to the mainland, causing the State's population to decline for the last seven consecutive years. This measure aims to mitigate this exodus through making housing available to residents who meet certain criteria.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2066, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2066, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2930 Ways and Means on S.B. No. 3239

The purpose and intent of this measure is to require and appropriate moneys for the Office of Wellness and Resilience to design and implement a three-year pilot program, in collaboration with health care providers, to acquire and forgive outstanding medical debt.

Your Committee received written comments in support of this measure from the Office of Wellness and Resilience, State Health Planning and Development Agency, American Cancer Society Cancer Action Network, The Queen's Health System, Healthcare Association of Hawaii, Aloha United Way, Hawaii Health and Harm Reduction Center, and three individuals.

Your Committee recognizes that medical debt can be a crushing burden on a person's mental health and physical well-being. Your Committee finds it appropriate for the State to help alleviate this financial burden that many Hawaii residents carry.

Your Committee has amended this measure by:

- (1) Authorizing the Office of Wellness and Resilience to develop, implement, and execute a permanent program, rather than a pilot program, to acquire and forgive outstanding medical debt;
- (2) Deleting language that would have required the Office of Wellness and Resilience to collaborate with health care providers in the design and implementation of the pilot program;
- (3) Authorizing the Office of Wellness and Resilience to contract with an entity with demonstrated experience partnering with hospitals and health systems to acquire and forgive outstanding medical debt;
- (4) Specifying that the program acquire and forgive the medical debt of households at no more than four hundred percent of the federal poverty level, or households with a medical debt balance of five percent or more of household income;
- (5) Establishing certain medical privacy requirements;
- (6) Authorizing the Office of Wellness and Resilience to receive private funds, federal funds, and any funds appropriated by the Legislature for the purpose of acquiring and forgiving outstanding medical debt;
- (7) Requiring the Office of Wellness and Resilience to submit annual progress reports to the Legislature;
- (8) Deleting the measure's appropriation; and
- (9) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3239, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3239, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2931 Ways and Means on S.B. No. 2836

The purpose and intent of this measure is to establish a council to coordinate the housing recovery efforts for Maui following the 2023 Maui wildfires.

Specifically, this measure:

- (1) Establishes the Interagency Council for Maui Housing Recovery to coordinate and facilitate Maui's permanent housing recovery and facilitate consultation and collaboration between state and county agencies on housing recovery initiatives for Maui; and
- (2) Appropriates \$500,000 for the Interagency Council for Maui Housing Recovery and to assist the state and Maui County agencies in applying for federal loans and grants.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawaii Public Housing Authority, Council Chair of the Maui County Council, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Department of Human Services and the Office of the Governor.

Your Committee finds that establishing an entity to coordinate and monitor the State and County of Maui's housing recovery efforts will help to streamline housing construction for wildfire victims. Your Committee further finds that, due to the large number of members of the council and the potential that a majority of the members may not be present at all meetings, the majority of members present at any noticed public meeting should constitute a quorum for conducting council meetings.

Your Committee has amended this measure by:

- (1) Specifying that a majority of members present at any noticed public meeting shall constitute a quorum for the Hawaii Interagency Council for Maui Housing Recovery to do business;
- (2) Changing the amount appropriated from \$500,000 to an unspecified amount; and
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2836, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2836, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2932 Ways and Means on S.B. No. 2406

The purpose and intent of this measure is to require that any contract entered into by the Hawaii Tourism Authority for the management of the Hawaii Convention Center also include marketing of the facility.

Your Committee received written comments on this measure from the Hawaii Tourism Authority.

Your Committee finds that requiring one entity to oversee both the management and marketing of the Hawaii Convention Center will help to increase government efficiency and ensure closer coordination between the use and advertisement of the Hawaii Convention Center.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2406, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2933 Ways and Means on S.B. No. 2319

The purpose and intent of this measure is to propose a constitutional amendment to increase the mandatory retirement age for state justices and judges from seventy to seventy-five years of age.

Your Committee received written comments in support of this measure from the Judiciary, Community Alliance on Prisons, and one individual.

Your Committee received written comments in opposition to this measure from two individuals.

Your Committee finds that state justices and judges are able to perform their judicial duties past the age of seventy. Your Committee further finds that many of the justices and judges who were forced to retire at age seventy continue to be active in the legal community and other community-based endeavors.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2319 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2934 Ways and Means on S.B. No. 3290

The purpose and intent of this measure is to require the Disability and Communication Access Board to convene a working group to study and, with the assistance of the Department of Health, report to the Legislature regarding the state of American Sign Language services in Hawaii.

Your Committee received written comments in support of this measure from the Department of Human Services, Disability and Communication Access Board, and four individuals.

Your Committee recognizes that there is a shortage of American Sign Language interpreters in the State to assist deaf and hard-of-hearing individuals. Your Committee finds that it is crucial to explore means to facilitate the availability of American Sign Language interpretation services statewide.

Your Committee has amended this measure by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3290, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3290, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2935 Ways and Means on S.B. No. 3116

The purpose and intent of this measure is to explicitly establish that the priority of selection for preschool open doors program participation shall apply only to the priority application period between February 1 and the start of each state fiscal year.

Your Committee received written comments in support of this measure from the Department of Human Services, Executive Office on Early Learning, Hui for Excellence in Education Coalition, Early Childhood Action Strategy, and Hawaii Children's Action Network Speaks!

Your Committee recognizes that the current procedures for prioritizing applications for the preschool open doors program during an application period result in a brief, one- to two-month period after the application period ends and the next application period starts. Your Committee finds that by specifying that the priority criteria shall be applicable through the priority application period, the State can both preserve the prioritization process and facilitate the review of applications.

Your Committee has amended this measure by:

- (1) Clarifying that for the purposes of priority of selection for the preschool open doors program, the Department of Humans Services shall adopt administrative rules to determine a child's underserved or at-risk status; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3116, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3116, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2936 Ways and Means on S.B. No. 3103

The purpose and intent of this measure is to require attestations or declarations to the Department of Business, Economic Development, and Tourism regarding project labor standards for certain large-scale renewable energy projects.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, Pacific Resource Partnership, Operating Engineers Local 3, and Hawaii Regional Council of Carpenters.

Your Committee received written comments on this measure from Hawaiian Electric.

Your Committee finds that the compliance and reporting requirements established by this measure will help encourage the use of local labor and the payment of prevailing wages to provide economic stability for Hawaii's residents.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3103, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3103, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2937 Ways and Means on S.B. No. 2885

The purpose and intent of this measure is to establish and appropriate moneys for a working group to develop a triage center program serving homeless individuals having substance abuse issues or mental illnesses.

Your Committee received written comments in support of this measure from the State Health Planning and Development Agency, Statewide Office on Homelessness and Housing Solutions, Aloha United Way, Hawaii Substance Abuse Coalition, Partners In Care – Oahu's Continuum of Care, and one individual.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that substance abuse and mental illness are pervasive issues affecting homeless individuals throughout the State. Your Committee therefore believes that establishing a triage center program will offer many homeless individuals the opportunity to receive effective treatment.

Your Committee has amended this measure by:

- (1) Inserting an unspecified termination date for the triage center program working group;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2885, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2885, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2938 Ways and Means on S.B. No. 2782

The purpose and intent of this measure is to remove language barriers and improve language accessibility in state information technology systems.

Specifically, this measure:

- (1) Requires the Office of Enterprise Technology Services to develop multilingual accessibility standards in consultation with the Office of Language and Access; and
- (2) Appropriates moneys to establish one full-time equivalent (1.0 FTE) permanent program manager position.

Your Committee received written comments in support of this measure from the Department of Human Services, Office of Language Access, Office of Enterprise Technology Services, Hawaii Friends of Civil Rights, Hawaii Children's Action Network Speaks!, The Legal Clinic, Hawaii Coalition for Immigrant Rights, Hawaii Alliance for Progressive Action, Kaibigan ng Lahaina, and seven individuals.

Your Committee finds that providing equal access to state services and information for individuals with limited English proficiency upholds fundamental fairness principles and fosters economic growth. Your Committee further finds that ensuring compliance with multilingual accessibility standards will help to avoid costly miscommunications, legal disputes, and inefficiencies.

Your Committee has amended this measure by:

- (1) Codifying the Office of Enterprise Technology Services' responsibility to create multilingual accessibility standards in a new section of Chapter 27, Hawaii Revised Statutes, rather than in section 27-43, Hawaii Revised Statutes;
- (2) Correcting references to the Office of Enterprise Technology Services;
- (3) Clarifying the definition of the terms "access" and "accessibility";
- (4) Deleting the definition of a term that is not used within the measure; and
- (5) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2782, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2782, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2939 Ways and Means on S.B. No. 2599

The purpose and intent of this measure is to limit the salaries of Executive Branch employees to amounts designated in the budget enacted by the Legislature or other legislative enactments.

Your Committee received written comments in opposition to this measure from the Department of Budget and Finance.

Your Committee received written comments on this measure from the Department of Human Resources Development.

Your Committee finds that limiting salaries to amounts specifically authorized by the Legislature will uphold legislative intent, promote transparency, and increase fiscal responsibility.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2599, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2940 Judiciary on S.B. No. 2992

The purpose and intent of this measure is to, beginning July 1, 2025, and every ten years thereafter, require the Department of Health to convene an Advisory Committee on Mental Health Code Review.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Mental Health, and Hawaii Health System Corporation.

Your Committee received comments on this measure from the Queen's Health System.

Your Committee finds that existing law relating to mental health and involuntary transport, examination, hospitalization, and treatment lack clarity and contain inconsistencies. Your Committee believes that it is important that such an important part of state law receives full and deliberate attention from time to time to ensure the law's continued force and effectiveness. This measure will maintain coherence and effectiveness of the State's mental health laws while advancing the overall goal of improving mental health in the State.

Your Committee has amended this measure by:

- (1) Inserting language adding to the membership of the Advisory Committee on Mental Health Code Review a representative from a private acute care hospital that offers psychological or mental health services, to be selected by the Governor;
- (2) Inserting language adding to the membership of the Advisory Committee on Mental Health Code Review a representative from the Hawaii Health Systems Corporation, to be selected by the Governor;

- (3) Requiring the Advisory Committee on Mental Health Code Review to submit its report no later than forty days prior to the convening of the regular session immediately following the convening of the Advisory Committee instead of twenty days prior; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2992, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2941 (Majority) Judiciary on S.B. No. 2845

The purpose and intent of this measure is to:

- (1) Prohibit a person from selling ammunition to a person under the age of twenty-one; and
- (2) Prohibit a person under the age of twenty-one from owning, possessing, or controlling ammunition, with exceptions.

Your Committee received testimony in support of this measure from Everytown for Gun Safety; Moms Demand Action for Gun Sense in America, Hawaii Chapter; Students Demand Action for Gun Sense in America, Hawaii Chapter; Hawai'i State Coalition Against Domestic Violence; and four individuals.

Your Committee received testimony in opposition to this measure from the National Rifle Association and more than one hundred sixty individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that research shows that individuals aged eighteen to twenty commit gun homicides at three times the rate of adults aged twenty-one years and older. Restricting access to ammunition for persons under the age of twenty-one will save lives if an individual under the age of twenty-one is able to obtain an illegal firearm. This measure will improve public safety and conform the State's laws regulating ammunition with the State's existing firearm laws.

Your Committee has amended this measure by:

- (1) Clarifying that no person shall intentionally, knowingly, or recklessly sell, offer to sell, distribute, or otherwise transfer ammunition for any firearm to any person who is under the age of twenty-one;
- (2) Clarifying that it is not a violation of the prohibition against the sale of ammunition to a person under the age of twenty-one if the person under the age of twenty-one meets the criteria to possess a firearm under section 134-5, Hawaii Revised Statutes, and is actively engaged in hunting or target shooting or going to or from the place of hunting or target shooting;
- (3) Inserting language requiring any person who sells, offers for sale, distributes, or otherwise transfers ammunition for any firearm to check the government-issued photographic identification of the buyer or recipient to establish the age of the buyer or recipient before making the transfer;
- (4) Deleting language that would have made it a defense to a prosecution for the sale of ammunition to a person under the age of twenty-one that the defendant sold the ammunition to the person under the age of twenty-one with the belief, which was reasonable under the circumstances, that the person under the age of twenty-one had attained the age of twenty-one;
- (5) Inserting language that makes it an affirmative defense to the prohibition against the sale of ammunition to a person under the age of twenty-one that the seller, distributor, or transferor of the ammunition had requested, examined, and reasonably relied upon a government-issued photographic identification establishing the age of the buyer or recipient as at least twenty-one years of age before making the transfer of the ammunition;
- (6) Clarifying that the exemption to the prohibition against a person under the age of twenty-one from owning, possessing, or controlling ammunition applies to a person in an exempt category identified in section 134-11(a), Hawaii Revised Statutes;
- (7) Inserting a savings clause; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2845, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 2 (Gabbard, Awa). Excused, none.

SCRep. 2942 Judiciary on S.B. No. 2819

The purpose and intent of this measure is to require slow-moving vehicles on a two-lane highway, behind which five vehicles are formed in a line, to pull over where possible to let the trailing vehicles proceed when passing is unsafe.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that unsafe driving conditions may be created on two-lane roadways where the lead vehicle is moving slowly, with a backup of vehicles behind it, and traffic moving in the opposite direction makes it hazardous to pass. This measure will prevent collisions, improve operational efficiency, and minimize road rage statewide.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2943 (Majority) Judiciary on S.B. No. 2832

The purpose and intent of this measure is to:

- (1) Specify that the counties may issue traffic infractions for violations for any law prohibiting or restricting the stopping, standing, or parking of vehicles on all highways; and
- (2) Authorize stopping, standing, and parking restrictions, and prohibitions on property under jurisdiction of the Director of Transportation and the counties, respectively.

Your Committee received testimony in support of this measure from the Office of the Mayor of Maui County.

Your Committee finds that existing law does not allow the counties to issue traffic infractions for violations of laws prohibiting or restricting the stopping, standing, or parking of vehicles on highways. This measure will lead to increased parking management, greater enforcement flexibility, and enhanced traffic safety.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2832, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2944 Judiciary on S.B. No. 2697

The purpose and intent of this measure is to require the Department of Commerce and Consumer Affairs to revoke the licenses of architects who have been, or caused a government employee to be, convicted of a criminal offense involving the acceptance of a bribe.

Your Committee received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee finds that existing law does not require the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects to revoke the licenses of architects in the State who have been convicted of bribing a government employee. Your Committee believes that allowing architects convicted of bribery to continue to retain their licenses undermines public trust. This measure will ensure that architects convicted of bribery face appropriate consequences.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2697, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2945 Judiciary on S.B. No. 2759

The purpose and intent of this measure is to:

- (1) Prohibit the State from leasing any public lands, or extending the lease of any public lands, to any individual, corporation, or federal agency that is in arrears in the payment of certain moneys to the State, noncompliant with a consent decree or memoranda of agreement with the State that requires environmental maintenance or remediation with regard to the subject public lands, or convicted of a crime;
- (2) Require certification by the Office of the Governor before the issuance or extension of any federal lease that the individual, corporation, or federal agency is in good standing with the State; and
- (3) Provide that, if any existing lessee of public lands is found not to be in good standing with the State, the lessee shall have three years, or until the end of the lease term, whichever is sooner, to correct the violation or the lease shall be terminated.

Your Committee received testimony in support of this measure from the Chamber of Sustainable Commerce, Sierra Club of Hawai'i, Hawai'i Peace and Justice, and Hawai'i Alliance for Progressive Action.

Your Committee received testimony in opposition to this measure from the Hawaii Military Affairs Council.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that public lands are held in trust for the benefit of present and future generations, with government entities such as the Department of Land and Natural Resources having fiduciary obligations to apply standards of due diligence and prudent decision-making in the management of these lands. Your Committee believes that the State should ensure that all of its lessees meet all financial, contractual, and legal obligations and exercise its right to terminate a lease when a lessee engages in criminal activity on the property. This measure will provide a safeguard against the issuance of leases to unreliable entities who have a history of noncompliance or other problematic behavior.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2759, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2946 Judiciary on S.B. No. 2172

The purpose and intent of this measure is to prohibit staff members from assuming the authority and duties of the chairperson of a board or commission.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that boards and commissions have important responsibilities and duties. Therefore, this measure aims to ensure that only qualified individuals may temporarily take the place of the chair or co-chairs of a board or commission in their absence.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2172, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2947 Judiciary on S.B. No. 2575

The purpose and intent of this measure is to:

- (1) Prohibit the mining, extraction, and removal of minerals from the seabed in all state marine waters, under certain conditions; and
- (2) Prohibit the issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committee received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Sustainable Ocean Alliance Hawai'i; Parley for the Oceans, Hawai'i; Hawai'i Youth Climate Coalition; Hawai'i Wildlife Fund; Mālama Pūpūkea-Waimea; Deep Sea Mining Campaign; Rev Ocean; Friends of Haunama Bay; Marine Conservation Institute; Kauai Women's Caucus; Hawai'i's Thousand Friends; Sustainable Coastlines Hawai'i, National Parks Conservation Association; Oceanic Preservation Society; Marine Mammal Center; Greenpeace USA; HULIPAC; Te Ipukarea Society; Benioff Ocean Science Laboratory; Surfrider Foundation Hawai'i; Sierra Club of Hawai'i; FutureSwell; Kua'āina Ulu 'Auamo; Environmental Caucus of the Democratic Party of Hawai'i; Ocean Foundation; For the Fishes; Hawaii Reef and Ocean Coalition; 350Hawaii.org; The Nature Conservancy; Hawai'i Alliance for Progressive Action; Greenpeace Hawaii; Chamber of Sustainable Commerce; Blue Climate Initiative – Tetiaroa Society US; and thirty-one individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that that seabed mining is the antithesis of the Hawaii State Constitution's commitment to safeguard Hawaii's waters for future generations. Your Committee further finds that the mining, extraction, and removal of minerals from the seabed is extremely destructive to ocean ecosystems that are already severely stressed due to rising temperatures, acidification, overfishing, and other effects caused by climate change. Your Committee notes that even though mining companies frequently use renewable energy as a justification to conduct mineral extraction from seabeds, the risks far outweigh any perceived benefit that mining would have on fighting the climate crisis. This measure will ensure the protection of the State's ocean environment from further damage, disruption, and destruction caused by seabed mining.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2575 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2948 Ways and Means on S.B. No. 3183

The purpose and intent of this measure is to establish a county mileage-based road usage charge.

More specifically, this measure:

- (1) Subjects certain vehicles to a county mileage-based road usage charge;
- (2) Establishes the methodology for calculating each county's mileage-based road usage charge;
- (3) Provides for the disposition of each county's mileage-based road usage charge into the highway fund;
- (4) Expands the authorized uses of moneys in the state highway fund;
- (5) Repeals the requirement that the Department of Transportation establish county subaccounts within the state highway fund;
- (6) Excludes taxes, fees, and charges that are collected pursuant to the state mileage-based road usage charge from being deposited into a county highway fund;
- (7) Establishes a sunset date of June 30, 2028, for the \$50 maximum state mileage-based road usage charge;

- (8) Authorizes the counties to adopt administrative rules for establishing and administering their respective county mileage-based road usage charge; and
- (9) Excludes motor scooters from the definition of "motor vehicles", as it relates to motor vehicle insurance.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii State Energy Office, Oahu Metropolitan Planning Organization, Ulupono Initiative, and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Automobile Dealer Association.

Your Committee received written comments on this measure from Tax Foundation of Hawaii.

Your Committee finds that establishing a county mileage-based road usage charge will help to create a more sustainable and equitable funding mechanism for the Department of Transportation.

Your Committee has amended this measure by:

- (1) Deleting a redundant provision regarding the collection, deposit, and expenditure of county mileage-based road usage charge moneys;
- (2) Clarifying the applicability of certain definitions relating to the establishment of the county mileage-based road usage charge;
- (3) Clarifying that each county is responsible for establishing, by resolution, the rates to be used to calculate each county's respective mileage-based road usage charge;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3183, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3183, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2949 Ways and Means on S.B. No. 3120

The purpose and intent of this measure is to clarify organizational roles within the Hawaii Public Housing Authority.

More specifically, the measure:

- (1) Establishes and makes exempt from chapter 76, Hawaii Revised statutes, the position of Housing Policy and Program Coordinator;
- (2) Clarifies that the employment of staff for certain positions and the adjustment of salaries for those positions are authorized by the Executive Director of the Hawaii Public Housing Authority, not the Hawaii Public Housing Authority Board of Directors; and
- (3) Repeals the wage ceiling requirement for positions in the Hawaii Public Housing Authority.

Your Committee received written comments in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that the new role and management structures established by this measure will help the Hawaii Public Housing Authority address more efficiently the State's critical shortage of affordable housing.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3120, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2950 Ways and Means on S.B. No. 3085

The purpose and intent of this measure is to authorize the payment of allowances for TRICARE Reserve Select coverage to junior officers, warrant officers, or enlisted personnel of the Hawaii National Guard who are ordered to active duty for more than thirty days in service to the State.

Your Committee received written comments in support of this measure from the Department of Defense and Hawaii Emergency Management Agency.

Your Committee finds that the healthcare coverage provided by this measure will help demonstrate the State's appreciation and support for the National Guard members who serve and protect Hawaii, and their families.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3085, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2951 Ways and Means on S.B. No. 3202

The purpose and intent of this measure is to facilitate the availability of homes for residents of the State.

Specifically, the measure:

- (1) Authorizes the development of a minimum of four homes per lot in the state urban land use district;
- (2) Authorizes approval for subdivisions of parcels with a minimum lot size of one thousand two hundred square feet in the state urban land use district; and
- (3) Amends the calculation of impact fees for certain developments.

Your Committee received written comments in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, Mayor of Maui County, one member of the Kauai County Council, County of Kauai Planning Department, County of Hawaii Planning Department, AARP Hawaii, Hawaii YIMBY, Housing Hawaii's Future, Hawaii Appleseed Center for Law and Economic Justice, NAIOP Hawaii Chapter, Holomua Collaborative, Grassroot Institute of Hawaii, Chamber of Commerce Hawaii, Maui Chamber of Commerce, Land Use Research Foundation of Hawaii, and five individuals.

Your Committee received written comments in opposition to this measure from the Outdoor Circle, HI Good Neighbor, and numerous individuals.

Your Committee received written comments on this measure from the City and County of Honolulu Department of Planning and Permitting, Hawaii REALTORS, and one individual.

Your Committee recognizes that our island state has limited lands that are suitable for residential development. Your Committee finds that promoting higher density, compact development, and efficient use of residential lands in urban areas addresses the State's shortage of housing units and reduces the pressure to convert agricultural and conservation lands into urban uses.

Your Committee has amended this measure by:

- (1) Deleting its findings and purpose section;
- (2) Replacing language that authorizes the development of a minimum of four homes per lot in the state urban land use district with language that requires each county to allow for at least two additional dwelling units on residentially zoned lots;
- (3) Authorizing counties to adopt and apply certain zoning-relating requirements;
- (4) Providing that any application for subdivision, consolidation, or resubdivision of parcels within the state urban land use district shall be reviewed and acted upon by the director of the county agency responsible for land use;
- (5) Requiring that all resulting parcels subdivided, consolidated, or resubdivided be residentially zoned and at least two thousand square feet in area, except that a county may by ordinance or rule allow for smaller residentially zoned parcels;
- (6) Expanding the scope of historic sites that are protected from subdivision, consolidation, or resubdivision;
- (7) Prohibiting the subdivision, consolidation, or resubdivision of a parcel that is subject to any land condition or features that render the site unsuitable or hazardous to the health, safety, and welfare of future residents or the surrounding community;
- (8) Providing that condominium law under Chapter 514B, Hawaii Revised Statutes, shall not apply to parcels resulting from a subdivision, consolidation, or resubdivision made pursuant to section 46-4(g), Hawaii Revised Statutes; and
- (9) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3202, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3202, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 13; Ayes with Reservations (Kim). Noes, none. Excused, none.

SCRep. 2952 Ways and Means on S.B. No. 3217

The purpose and intent of this measure is to require the Hawaii Employer-Union Health Benefits Trust Fund to increase employer contribution amounts based on changes to the Medicare Part B premiums between the two previous years, instead of changes between the previous and current years.

Your Committee received written comments in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that due to unfortunate timing, the health coverage open enrollment period for the Hawaii Employer-Union Health Benefits Trust Fund retirees can occur before the publication of the applicable Medicare Part B premium amount, which results in retirees not knowing the employers' contribution amount during open enrollment. Your Committee further finds that this measure will help to correct the timing issue by calculating employer contribution amounts based on the Medicare Part B premium publications from the previous two years, which are published well before the open enrollment period. Your Committee finds that this change will help to accurately inform retirees of their potential health coverage costs during the open enrollment period.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3217 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2953 Ways and Means on S.B. No. 2474

The purpose and intent of this measure is to establish a family leave insurance program.

More specifically, this measure:

- (1) Requires the Department of Labor and Industrial Relations to establish a family leave insurance program and pay family leave insurance benefits, submit annual reports to the Legislature, and conduct a family leave insurance program public outreach and education campaign;
- (2) Establishes a regulatory framework for the family leave insurance program;
- (3) Establishes a family leave insurance trust fund;
- (4) Establishes eligibility requirements for receipt of family leave insurance benefits;
- (5) Expands the definitions of “child”, “employer”, and “parent”, as those terms relate to family leave;
- (6) Amends the criteria for family leave, including eligibility, duration, and qualifying events;
- (7) Clarifies employers’ powers and rights relating to paid family leave; and
- (8) Appropriates moneys for the establishment, operation, and administration of the family leave insurance program.

Your Committee received written comments in support of this measure from the Department of Human Services; Disability and Communication Access Board; Executive Office on Aging; Executive Office on Early Learning; Office of Hawaiian Affairs; Office of Wellness and Resilience; AARP Hawaii; AF3IRM Hawaii; African American Lawyers Association of Hawaii; Aloha United Way; AlohaCare; American Academy of Pediatrics - Hawaii Chapter; American Civil Liberties Union of Hawaii; Breastfeeding Hawaii; Catholic Charities Hawaii; Chamber of Sustainable Commerce; Democratic Party of Hawaii; Democratic Party of Hawaii Education Caucus; Democratic Party of Hawaii Labor Caucus; Hawaii Alliance for Progressive Action; Hawaii Appleseed Center for Law and Economic Justice; Hawaii Children’s Action Network Speaks!; Hawaii Family Caregiver Coalition; Hawaii Health and Harm Reduction Center; Hawaii Hunger Action Network; Hawaii Public Health Association; Hawaii Public Health Institute; Hawaii State Association of Counties; Hawaii State Coalition Against Domestic Violence; Hawaii State Teachers Association; Hawaii Women Lawyers; Hawaii Workers Center; Hawaiian Community Assets; Imua Alliance; Mental Health America of Hawaii; Pacific Birth Collective; Papa Ola Lokahi; Parents And Children Together; Pride at Work Hawaii; Rainbow Family 808; Save Medicaid Hawaii; Stonewall Caucus of the Democratic Party of Hawaii; UNITE HERE Local 5; We Are One, Inc.; and numerous individuals.

Your Committee received written comments in opposition to this measure from Chamber of Commerce Hawaii, Hawaii Energy Marketers Association, Hawaii Government Employees Association, Hawaii Restaurant Association, Maui Chamber of Commerce, National Federation of Independent Business, Retail Merchants of Hawaii, SHRM Hawaii, and United Public Workers.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of Labor and Industrial Relations, Department of the Attorney General, American Council of Life Insurers, and Grassroot Institute of Hawaii.

Your Committee finds that establishing a family leave insurance program will help to more effectively support families across the State having young children and elderly or ill family members.

Your Committee notes that, in its written comments on this measure, the Department of the Attorney General recommended amending this measure to:

- (1) Clarify the administration of the paid family leave program;
- (2) Change the reference to “part V of chapter 392”, Hawaii Revised Statutes, in section 398-I, Hawaii Revised Statutes, to read “section 398-24”, Hawaii Revised Statutes;
- (3) Address the ambiguity of administration of the paid family leave insurance program in sections 398-21, 398-23, 398-24, and 398-26, Hawaii Revised Statutes, to specifically provide that these sections cannot be applied to the two administrative models described in this measure;
- (4) Amend sections 398-6, 398-7, 398-9, 398-10, 398-25, 398-26, and 398-27, Hawaii Revised Statutes, to clarify whether the sections apply to employees, covered individuals, or both, in accordance with the method of administering the paid family leave insurance program;
- (5) Replace the term “employee” with “covered individual” in sections 398-A(c)(1) and (c)(3), Hawaii Revised Statutes;
- (6) Delete the phrase “funds collected pursuant to section 398-I”, Hawaii Revised Statutes, in section 398-D, Hawaii Revised Statutes, if the Legislature intends to create two separate administrative models;
- (7) Provide a method for calculating contribution rates;
- (8) Change the reference to “department of labor and industrial relation” in section 398-D, Hawaii Revised Statutes, to read “department”;
- (9) Delete the words “an officer of” in section 398-I(b), Hawaii Revised Statutes; and
- (10) Change the phrase “appeal the petition for redetermination” in section 398-I(b), Hawaii Revised Statutes, to read “appeal the department’s determination”.

Your Committee has amended this measure by:

- (1) Correcting a reference to the trust fund for disability benefits; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2474, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2474, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2954 Ways and Means on S.B. No. 2501

The purpose and intent of this measure is to require the Hawaii Invasive Species Council to prioritize the protection of exceptional trees from invasive species.

Your Committee received written comments in support of this measure from the Hawaii Farm Bureau.

Your Committee received written comments on this measure from the Hawaii Invasive Species Council.

Your Committee finds that it is the policy of the State to safeguard exceptional trees from destruction. Your Committee further finds that invasive species pose a serious risk to exceptional trees and that those trees should thus be prioritized for protection.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2501, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2955 Ways and Means on S.B. No. 2536

The purpose and intent of this measure is to encourage the growth and sustainability of businesses that employ Hawaii residents by providing those businesses with a competitive advantage in government contracts.

More specifically, this measure:

- (1) Establishes a new accounting services procurement preference for certain Hawaii accounting service businesses; and
- (2) Clarifies that the existing reciprocity procurement preference includes offerors pursuant to sections 103D-302 and 103D-303, HRS.

Your Committee received written comments in support of this measure from Accuity, LLP.

Your Committee received written comments in opposition to this measure from the State Procurement Office.

Your Committee finds that the measure will help ensure that a robust accounting profession is maintained in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2536, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2956 Ways and Means on S.B. No. 2942

The purpose and intent of this measure is to regulate the employment of minors.

More specifically, this measure:

- (1) Allows minors under the age of sixteen years to work in theatrical employment; provided that the employer procures a valid certificate of employment and the minor is accompanied by a parent, guardian, or a certain responsible adult;
- (2) Requires a nurse certified in basic life support to accompany, supervise, and advocate on behalf of an infant on set who is under the age of one year;
- (3) Requires a studio teacher to accompany, teach, and attend to the health, safety, and well-being of minors who have attained the age of five years when work is performed during periods when the minors are required to attend school but have been excused by school authorities from attending; and
- (4) Defines “nurse” and “studio teacher”.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Hawaii State AFL-CIO, IATSE Local 665, Kathy Muller Agency, Pride at Work - Hawaii, Rainbow Family 808, SAG-AFTRA Hawaii Local, Stonewall Caucus of the Democratic Party of Hawaii, and twenty-five individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee finds that there is currently no state law that requires a nurse or studio teacher to be on set each day that a minor is employed in theatrical employment. Your Committee also finds that current agreements between studios and SAG-AFTRA only require that a studio teacher be on set every three consecutive days. As a result, some production companies have intentionally

scheduled a minor's work in such a way as to avoid having a studio teacher on set at all. Your Committee believes that this measure will help to mitigate risks and provide essential support for minors navigating the challenges of a fast-paced and demanding work environment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2942, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2957 Ways and Means on S.B. No. 3067

The purpose and intent of this measure is to facilitate the achievement of state treasury investment objectives.

Specifically, this measure:

- (1) Moves the Hurricane Reserve Trust Fund into the state treasury; and
- (2) Makes housekeeping amendments relating to the Hurricane Reserve Trust Fund.

Your Committee received written comments in support of this measure from the Department of Budget and Finance and Hawaii Emergency Management Agency.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the state treasury maintains an investment pool consisting of participating state accounts. Your Committee further finds that transferring the Hurricane Reserve Trust Fund into the state treasury will enhance the state treasury's ability to pool funds and meet its investment objectives of safety, liquidity, and yield.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3067, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2958 Ways and Means on S.B. No. 2866

The purpose and intent of this measure is to facilitate government transparency with regard to capital improvement projects.

More specifically, this measure requires the Executive Branch of the State to develop and maintain a publicly accessible online project management platform.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services and Office of Enterprise Technology Services.

Your Committee finds that capital improvement projects are construction projects that provide improvements or additions to land, buildings, and infrastructure. Your Committee believes that, since these projects are typically large and expensive, the public should have the ability to review information on pending or completed projects.

Your Committee further notes that the Department of Accounting and General Services estimates that an appropriation of \$2,000,000 would be required for Fiscal Year 2025 to design and implement an online project management platform.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2866, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2866, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2959 Ways and Means on S.B. No. 3000

The purpose and intent of this measure is to require and appropriate moneys for the Department of Accounting and General Services to maintain and distribute free menstrual products in certain restrooms in covered public buildings.

Your Committee received written comments in support of this measure from the Department of Accounting and General Services, Hawaii State Council on Developmental Disabilities, Hawaii State Public Library System, Judiciary, Kauai High School, Waimanalo Elementary and Intermediate School, Kauai County Council, AF3IRM Hawaii, Alliance for Period Supplies, Aloha Lokahi Association - Hawaiian Culture Education, Big Island Substance Abuse Council, Breastfeeding Hawaii, DreamHouse Ewa Beach Public Charter School, Hawaii Health and Harm Reduction Center, Hawaii Medical Service Association, Hawaii State Coalition Against Domestic Violence, Hawaii Women's Coalition, Mai Movement Hawaii, Midwives Alliance of Hawaii, Period Law, PERIOD., Planned Parenthood Alliance Advocates, Pride at Work Hawaii, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawaii, Zen Den Midwifery, Zonta Club of Hilo, and numerous individuals.

Your Committee received written comments in opposition to this measure from numerous individuals.

Your Committee finds that providing free menstrual products in state buildings will help persons meet their basic health and hygiene needs.

Your Committee has amended this measure by:

- (1) Deleting the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Deleting the appropriation of \$600,000 for the stocking of free menstrual products and installation of dispensers or other devices;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3000, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3000, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2960 Ways and Means on S.B. No. 3207

The purpose and intent of this measure is to increase the salary cap of the Superintendent of Education to not more than \$300,000 and makes permanent the annual performance evaluation requirements for the Superintendent.

Your Committee received written comments in support of this measure from the Board of Education.

Your Committee received written comments in opposition to this measure from numerous individuals.

Your Committee finds that the salary of the Superintendent of Education is set by the Board of Education, subject to a salary cap. Act 90, Session Laws of Hawaii 2014, amended provisions relating to the Superintendent's salary to subject the Superintendent to an annual performance evaluation by the Board of Education. Your Committee believes that the Board of Education is in the best position to determine the salary of the Superintendent of Education based upon an annual performance evaluation.

Your Committee has amended this measure by removing the salary cap for the Superintendent of Education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3207, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3207, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 2961 (Majority) Judiciary on S.B. No. 2945

The purpose and intent of this measure is to establish a task force to conduct a statewide study on the accessibility of ignition interlock devices and any national best practices.

Your Committee received testimony in support of this measure from Intoxalock.

Your Committee received testimony in opposition to this measure from Mothers Against Drunk Driving Hawaii and one individual.

Your Committee received comments on this measure from the Department of Transportation and Hawaii Medical Association.

Your Committee finds that existing law requires the Department of Transportation to select a single vendor to install ignition interlock devices statewide. However, Hawai'i is the only state in the nation that has a single vendor to implement an ignition interlock device program, with the national average being 6.8 certified ignition interlock device vendors per state. This measure will allow the State to ensure that ignition interlock devices are readily available, affordable, and of sufficient quality throughout the State.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2945, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2945, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2962 Judiciary on S.B. No. 2997

The purpose and intent of this measure is to require electric utilities to design a risk-based wildfire protection plan approved by the Public Utilities Commission.

Your Committee received testimony in support of this measure from Ulupono Initiative and Hawaiian Electric.

Your Committee received comments on this measure from the Office of the Governor, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, and Maui Chamber of Commerce.

Your Committee finds that the Maui wildfires that arose on August 8, 2023, resulted in an unbearable loss of lives, homes, infrastructure, and businesses. The Maui wildfires are a wake-up call that due to climate change, the risk of catastrophic wildfires and

other natural disasters in the State has increased. Your Committee further finds that as the risk of catastrophic wildfires in the State increases, electric utilities must develop and implement effective plans for wildfire risk mitigation. This measure will encourage electric utilities to proactively manage their wildfire risk by requiring that they design a risk-based wildfire protection plan approved by the Public Utilities Commission.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2997, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2997, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2963 (Majority) Judiciary on S.B. No. 2721

The purpose and intent of this measure is to clarify that violation of part I of chapter 200, Hawaii Revised Statutes, relating to ocean recreation and coastal areas, or any rules adopted thereunder are subject to criminal penalties.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that without sufficient penalties to deter repeat violations, the rates of illegal activities at small boat harbors and boating facilities will remain the same or increase. This measure will help the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources respond to instances of vandalism, theft, trespassing, and squatting at small boat harbors and boating facilities.

Your Committee has amended this measure by:

- (1) Inserting a savings clause; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2721, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2721, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2964 Judiciary on S.B. No. 2948

The purpose and intent of this measure is to:

- (1) Authorize residential uses in areas zoned for commercial to be considered permitted as long as the residential use is limited by ordinance to floors above the ground floor of a building or structure and development standards are met;
- (2) Exempt areas zoned under the Hawaii Community Development Authority;
- (3) Require each county to adopt ordinances that allow for adaptive reuse of existing commercial buildings in the county's building codes; and
- (4) Require counties to facilitate compliance with the Americans with Disabilities Act when adopting an adaptive reuse building code ordinance.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Kaua'i County Council, NAIOP Hawaii, Housing Hawai'i's Future, Grassroot Institute of Hawaii, Oahu Metropolitan Planning Organization, Hawai'i YIMBY, Maui Chamber of Commerce, and three individuals.

Your Committee received comments on this measure from the Disability and Communication Access Board.

Your Committee finds that allowing mixed commercial and residential uses will create vibrant neighborhoods by enabling residents to live near businesses and employers and preserve the State's natural beauty and agricultural land by allowing housing in developed commercial areas rather than on undeveloped land. This measure will reduce the need for long commutes, decrease traffic congestion, lower carbon emissions, and address housing shortages in the State.

Your Committee notes that certain areas highlight the disadvantages of having no zoning at all, such as Houston, Texas. Your Committee further notes that subsequent Committees may wish to consider amending this measure to specify minimum requirements for people with communication and mobility disabilities.

Your Committee has amended this measure by:

- (1) Making it effective on January 1, 2025; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2948, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2948, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2965 Judiciary on S.B. No. 2308

The purpose and intent of this measure is to establish additional fines and penalties for convictions of speeding in a school zone.

Your Committee received testimony in support of this measure from the Department of Transportation and Department of Education.

Your Committee finds that school zones are planned to help ensure that students arrive at and leave school safely. Your Committee further finds that common contributing factors in school zone related accidents are speed and distracted drivers. Even though speed reduction laws in school zones already exist, students are still injured in these types of accidents. This measure will establish additional fines for those convicted of speeding in school zones, which will deter them from committing future violations.

Your Committee has amended this measure by:

- (1) Inserting a savings clause; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2308, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2308, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, none. Excused, 1 (Gabbard).

SCRep. 2966 Judiciary on S.B. No. 2591

The purpose and intent of this measure is to impose a fine of \$1,000 on any private landowner who:

- (1) Fails to disclose or record the existence of burial sites or archaeological sites on their property to the Bureau of Conveyances that the landlord knew or should have known of; or
- (2) Fails to record their property with the Hawaii Register of Historic Places prior to or concurrent with a real estate transaction when they knew or should have known that an obligation existed.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Malama Mauka, and one individual.

Your Committee finds that it is important for the State to encourage property owners to allow access to their lands to identify burial sites and to carry out cultural practices relating to burial sites. Your Committee further finds that it is crucial to stress that private landowners be accountable for these sites. This measure will preserve and guard burial sites by instituting fines on private property owners that fail to disclose and record these historical sites.

Your Committee has amended this measure by:

- (1) Deleting language that would have imposed a fine of \$1,000 on any private landowner who fails to record their property with the Hawaii Register of Historic Places prior to or concurrent with a real estate transaction when they knew or should have known that an obligation existed;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2591, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2591, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2967 Judiciary on S.B. No. 2227

The purpose and intent of this measure is to authorize the Governor to suspend the mortgage foreclosure provisions of chapter 667, Hawaii Revised Statutes, for any property having substantial damage resulting from a disaster for which a state of emergency has been declared by the Governor.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council; one member of the Maui County Council; Hawai'i State Association of Counties; Lāhainā Strong; UNITE HERE Local 5; We Are One, Inc.; Tagnawa; and forty-five individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS, Hawaii Bankers Association, and Mortgage Bankers Association of Hawaii.

Your Committee received comments on this measure from the Hawaii Credit Union League and Hawaii Financial Services Association.

Your Committee finds that federal regulations allow homeowners a ninety-day forbearance on mortgage payments in the aftermath of a natural disaster. After this period passes, however, homeowners are required to resume payments and cover the ninety days of missed payments. This measure will provide the Governor with express authority to suspend mortgage foreclosure provisions, which will provide stability and security to victims of natural disasters and emergencies in the State.

Your Committee has amended this measure by:

- (1) Clarifying that the Governor is authorized to suspend the mortgage foreclosure provisions of chapter 667, Hawaii Revised Statutes, for any property having substantial damage of \$10,000 or more resulting from a disaster for which a state of emergency has been declared by the Governor; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2227, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2227, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante, San Buenaventura). Noes, none. Excused, 1 (Gabbard).

SCRep. 2968 (Majority) Judiciary on S.B. No. 2532

The purpose and intent of this measure is to:

- (1) Clarify that the secured areas appurtenant to a building, including a multi-unit building, are included as dwellings for the purposes of prosecuting offenses under chapter 708, Hawaii Revised Statutes; and
- (2) Allow the owner of a multi-unit building, a property manager, or an authorized representative of the condominium association to act as a complainant for the purpose of investigating and prosecuting a burglary in the first degree in a multi-unit building.

Your Committee received testimony in support of this measure from the Honolulu Tower Association of Apartment Owners and four individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that certain individuals, who are neither residents nor guests of a multi-unit dwelling, have increasingly engaged in illicit activities within the secured areas of multi-unit dwellings, which include secured parking and storage areas. However, law enforcement officers and prosecutors often choose not to investigate and charge crimes that occur in these areas as burglaries because they are not obvious “dwellings”, despite the very real threat these crimes pose to building residents. This measure will deter criminal acts from occurring in secured areas of multi-unit dwellings.

Your Committee has amended this measure by replacing language that would have specified certain qualifications of an appurtenant parking or storage area that is a “dwelling” with language clarifying that an appurtenant parking or storage area must have its entry clearly restricted to only the building’s residents, by means of signage or security apparatus or both, to qualify as a “dwelling”.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2532, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2532, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2969 (Majority) Judiciary on S.B. No. 2350

The purpose and intent of this measure is to:

- (1) Establish a separate prohibition on driving motor vehicles having noisy mufflers on public highways in high-density areas;
- (2) Authorize police officers to conduct examinations and inspections of motor vehicle mufflers in high-density areas;
- (3) Establish separate fines for violations of motor scooter and motor vehicle muffler regulations; and
- (4) Define “high-density areas”.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, one member of the Waikiki Neighborhood Board, and five individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that noise pollution and disturbances from low restriction mufflers on motor vehicles, predominantly motorcycles, have plagued residents throughout the State, especially those living in high-density areas. Although existing law forbids vehicle owners from installing mufflers that intensify the noise of their vehicle, the penalties are negligible and fail to deter violations. This measure will reduce noise, improve public health and safety, and allow residents and visitors in the State to enjoy peace and a higher quality of life.

Your Committee has amended this measure by:

- (1) Replacing the penalty for a violation of the prohibition against the use of a muffler that noticeably increases the noise emitted by a motor vehicle above that emitted by the vehicle as equipped by the factory on a public highway in a high-density area with tiered fines of:
 - (A) A fine of not more than \$200 for the first conviction;
 - (B) A fine of not more than \$500 for a second conviction committed within five years; and
 - (C) A fine of not more than \$1,500 for a third or subsequent conviction within five years;
- (2) Deleting language that would have allowed any police officer to conduct examinations and inspections if the officer has probable cause to believe that a vehicle's excessively noisy muffler is evidence of a violation of the prohibition against the use of a muffler that noticeably increases the noise emitted by a motor vehicle above that emitted by the vehicle as equipped by the factory on a public highway in a high-density area;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2350, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2350, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2970 (Majority) Judiciary on S.B. No. 2735

The purpose and intent of this measure is to:

- (1) Require driver's license examinations to test the applicant's knowledge of the dangers that larger motor vehicles present to pedestrians; and
- (2) Require offenders who are found to be excessively speeding or driving while intoxicated to retake and pass the driver's license examination for each offense.

Your Committee received testimony in support of this measure from the Department of Transportation and Oahu Metropolitan Planning Organization.

Your Committee finds that educating new drivers about the potential hazards of driving a larger motor vehicle will improve pedestrian safety. Additionally, the inconvenience of having to retake the driver licensing exam will deter irresponsible driving. This measure will reduce motor vehicle fatalities and injuries, improve pedestrian safety, and deter dangerous driving behaviors.

Your Committee has amended this measure by:

- (1) Inserting language requiring the examination required by the examiner of drivers for every applicant for a driver's license to include a test of the applicant's knowledge of the dangers that large vehicles, including trucks, pose to bicyclists;
- (2) Clarifying that any person convicted of habitually operating a vehicle under the influence of an intoxicant is required to retake and pass a driver's license examination as provided in section 286-108, Hawaii Revised Statutes;
- (3) Inserting a savings clause;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2735, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2971 Judiciary on S.B. No. 3192

The purpose and intent of this measure is to make permanent the Innovation and Commercialization Initiative Program established within the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that research conducted at the University of Hawaii is sometimes transformed into viable commercial enterprises. As the State's only system of public higher education, the University of Hawaii plays a critical role in workforce development and diversification of economic industries in the State. This measure offers continued support of research activities at the University of Hawaii while providing additional avenues of economic development for the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3192, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2972 Judiciary on S.B. No. 3191

The purpose and intent of this measure is to permanently authorize the University of Hawaii to continue to regulate conflicts of interest and other ethical issues for technology transfer activities sponsored by the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that Act 38, Session Laws of Hawaii 2017 (Act 38), provided the University of Hawaii with the authority to comport technology transfer activities with principles embodied in the State Ethics Code regarding commercialization of inventions and discoveries made by students, faculty, and alumni. Act 8, Special Session Laws of Hawaii 2021, established a sunset date of June 30, 2024, for requirements established by Act 38. However, the University of Hawaii has since taken a proactive approach to codify compliance requirements. Therefore, this measure allows the University of Hawaii to become an innovator and driver of economic development through the transformation of inventions and discoveries into commercially viable products and businesses.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3191, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2973 Judiciary on S.B. No. 2245

The purpose and intent of this measure is to:

- (1) Clarify certain definitions under the Child Protective Act;
- (2) Authorize the child's family to consent to protective custody or temporary foster custody of a child;
- (3) Clarify the circumstances when police officers shall assume protective custody of a child and when the Department of Human Services shall assume temporary foster custody of the child; and
- (4) Authorize the Department of Human Services to file a petition and seek an order for protective custody if there is reasonable cause to believe that a child is subject to imminent harm.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Judiciary, and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform, Hawaii Family Advocacy Group, and five individuals.

Your Committee finds that protecting the health and safety of the State's children is of the utmost importance. Certain situations in which the child is in imminent danger may necessitate emergency action, including assumption of temporary custody of a child by a police department or temporary foster placement. This measure ensures the safety of the child by providing a way to remove the child from a dangerous situation in some circumstances.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2974 Judiciary on S.B. No. 2546

The purpose and intent of this measure is to require hunting guides to:

- (1) Obtain written permission from the owners of private lands before taking their clients to hunt on the private land; and
- (2) Submit a copy of the written permission to the Department of Land and Natural Resources as part of their annual reports.

Your Committee received testimony in support of this measure from Kealia Ranch; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and twelve individuals.

Your Committee finds that unpermitted hunting on private land is extremely dangerous for both the landowner and the hunter. While existing law forbids hunters from hunting on private lands without the landowner's consent, recent incidents of livestock slaughtering, theft, vandalism, crop destruction, and poaching have become prevalent throughout the State. Your Committee further finds that more is needed to help farmers, ranchers, and private land owners to manage responsible access to their lands. Therefore, this measure addresses the concerns of landowners by enforcing proper management of hunting activities.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2546, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2975 (Majority) Judiciary on S.B. No. 2561

The purpose and intent of this measure is to:

- (1) Prohibit intentionally leaving or confining pet animals in a vehicle under conditions that endanger their health, safety, or well-being;
- (2) Permit law enforcement officers, animal control officers, and firefighters to enter an unattended vehicle to protect the health, safety, or well-being of a pet animal that is endangered by being left or confined in an unattended vehicle; and
- (3) Allow private citizens to rescue a pet animal that has been left in an unattended vehicle under certain circumstances.

Your Committee received testimony in support of this measure from the Animal Legal Defense Fund, Animal Interfaith Alliance in Britain, and fourteen individuals.

Your Committee received comments on this measure from the Department of the Attorney General, Hawaii Association for Justice, and Hawaiian Humane Society.

Your Committee finds that every year, hundreds of pet animals lose their lives when their owners leave them alone in parked vehicles in extreme temperatures. Your Committee further finds that fourteen states have already passed measures granting certain immunities from civil and criminal liability for individuals who rescue unattended pets left in vehicles. By protecting individuals who intervene to remove unattended animals contained in vehicles, this measure will protect and save pet animals from injury or death due to dangerous temperatures.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments` for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2561, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2561, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2976 Judiciary on S.B. No. 2908

The purpose and intent of this measure is to prohibit residential rent increases in affected areas for an unspecified period after a severe storm warning or issuance of an emergency proclamation.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency; We Are One, Inc.; Ohana Guardians Group; Tagnawa; Lāhainā Strong; Hawai'i Alliance for Progressive Action; one member of the Maui County Council; and fifty-five individuals.

Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that emergencies can overwhelm individuals and families, both due to physical housing damage caused by disasters and by predatory pricing in the aftermath of an emergency. Your Committee recognizes that it is critical to prevent behavior such as rental increases and termination of rental agreements in order to prioritize Hawai'i's residents in emergency situations. This measure provides protections to renters and tenants during a state of emergency by prohibiting predatory practices.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2908, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 2977 Judiciary on S.B. No. 3114

The purpose and intent of this measure is to:

- (1) Clarify that a confirmed report of harm or threatened harm, as defined in chapter 587A, Hawaii Revised Statutes, or child abuse and neglect, as defined in chapter 350, Hawaii Revised Statutes, will result in the maintenance of the perpetrator's name in Hawaii's Child Abuse and Neglect Central Registry;
- (2) Clarify when a confirmed report may be expunged from the Central Registry; and
- (3) Establish a process for expungement from the Central Registry upon request.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Human Services, and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform.

Your Committee finds that when the Department of Human Services confirms that a person is the perpetrator of child abuse or neglect, and the person's name is placed in the Central Registry, the information remains in the Central Registry indefinitely unless it is expunged. The Central Registry's information can be used as a basis for licensing and employment decisions and may also affect a person's ability to adopt a child. Information in the Central Registry can only be expunged if the report of abuse or neglect is later determined to be unconfirmed or through a judicial proceeding. This measure will clarify the process to challenge a Department of Human Services investigation and provide certain individuals with a way to have their information expunged from the Central Registry.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3114, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2978 Judiciary on S.B. No. 3135

The purpose and intent of this measure is to:

- (1) Authorize the Examiner of Drivers to suspend the driver's license of a person using a parking permit issued to a deceased person who was deceased when the permit was issued to obtain parking privileges;
- (2) Provide that fifty percent of any fine imposed for violating the law relating to parking for disabled persons is remitted to the law enforcement agency that issued the citation;
- (3) Authorize each county to enact ordinances to enforce the design and construction requirements for the provision of accessible parking spaces, including the establishment of penalties for failure to comply with the ordinances; and
- (4) Authorize officials appointed by a county to enter the property of places of public accommodation to enforce violations of the county ordinances.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawaii State Council on Developmental Disabilities, one member of the Kaua'i County Council, and four individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that a statewide parking program for persons with disabilities provides individuals with the ability to park in accessible parking spaces via the use of parking placards. However, there are instances of abuse in the use of these placards exacerbating the challenge for participants who genuinely need access to these parking spaces. This measure addresses the abuse of accessible parking, ensuring that these spaces remain available for those who truly need them.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3135, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2979 Judiciary on S.B. No. 3138

The purpose and intent of this measure is to clarify that the definition of "manufactured hemp products" includes hemp products specified in rules adopted by the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee received comments on this measure from the Department of Agriculture and Hemptuary Hawaii.

Your Committee finds that Hawai'i retailers may only sell manufactured hemp products that comply with state regulations. However, the definition of "manufactured hemp product" was inadvertently amended by Act 263, Session Laws of Hawaii 2023, to be ambiguous and may read to limit the Department of Health rulemaking authority to regulate new types of hemp products as manufactured hemp products. This measure supports Hawai'i's emerging hemp industry by allowing the Department of Health to evaluate and consider additional types of hemp products to be legally manufactured and sold in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3138, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2980 Judiciary on S.B. No. 3243

The purpose and intent of this measure is to:

- (1) Prohibit foreign entities and foreign-influenced business entities from making contributions, expenditures, electioneering communications, or donations for election purposes;
- (2) Require every business entity that contributes or expends funds in a state election to file a statement of certification regarding its limited foreign influence; and
- (3) Require noncandidate committees making only independent expenditures to obtain a statement of certification from each top contributor required to be listed in an advertisement.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Free Speech For People, International Longshore and Warehouse Union Local 142, Center for American Progress, and twenty-eight individuals.

Your Committee received comments on this measure from the Campaign Spending Commission.

Your Committee finds that campaign financing should ensure maximum participation by citizens in the political process. However, certain corporations and similar entities may prioritize the interests of shareholders, including investors around the world, which may diverge substantially from the policy goals and interests of the State's people. Your Committee further finds that prioritizing

transparency ensures the public's right to know who is using money to influence elections. This measure advances the State's clean election goals while preventing foreign influence with state elections.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3243, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2981 (Majority) Judiciary on S.B. No. 2565

The purpose and intent of this measure is to:

- (1) Prohibit counties from prohibiting leashed dogs in public parks; and
- (2) Establish penalties for leaving dog excrement on public or private property.

Your Committee received testimony in support of this measure from one member of the Maui County Council, Hawaiian Humane Society, Kaua'i Humane Society, and seventeen individuals.

Your Committee received testimony in opposition to this measure from thirteen individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there are limited options where dog owners can safely walk their pets. County parks are some of the few places where bathroom facilities are available and easily accessible to the public. However, many county parks prohibit dogs, which requires owners to leave their dogs unattended while they use the public restroom and puts dogs at risk of being stolen. This measure will promote responsible dog ownership and support the health of people and pets in the State.

Your Committee has amended this measure by:

- (1) Deleting language that would have established redundant penalties for leaving dog excrement on public or private property;
- (2) Inserting a savings clause; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2565, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2565, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2982 Judiciary on S.B. No. 3137

The purpose and intent of this measure is to clarify and update the responsibilities of the Child and Adolescent Mental Health Division of the Department of Health to reflect the current mental health systems of care to address the mental health needs of children and adolescents in the State.

Your Committee received testimony in support of this measure from the Child & Adolescent Mental Health Division of the Department of Health, Office of Wellness and Resilience, Office of the Public Defender, Disability and Communication Access Board, State Council on Mental Health, and one individual.

Your Committee finds that there is an ongoing need for mental health services for the children and adolescents in the State. Your Committee further finds that over the past thirty years, the Child & Adolescent Mental Health Division has leveraged federal system of care grants to actively develop and improve the child and adolescent mental health service system of care in the State based on national standards and best practices. This measure clarifies and better communicates the actual responsibilities of the Child & Adolescent Mental Health Division to align with their most recent practices.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3137, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3137, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2983 Judiciary on S.B. No. 2762

The purpose and intent of this measure is to prohibit a landlord from renting or leasing, or offering to rent or lease, a dwelling unit in a rent-controlled county at a rate that exceeds the rate established by resolution adopted by the appropriate county council, subject to certain exceptions.

Your Committee received testimony in support of this measure from one member of the Maui County Council, Democratic Party of Hawai'i, Lāhainā Strong, UNITE HERE Local 5, Kaibigan ng Lāhaina, Hawai'i Alliance for Progressive Action, and sixty individuals.

Your Committee received testimony in opposition to this measure from the Grassroot Institute of Hawaii.

Your Committee received comments on this measure from the Hawai'i Association of REALTORS.

Your Committee finds that housing shortages and higher rental prices have risen in the aftermath of the August 2023 Maui wildfires. Your Committee further finds that when a community is impacted by a natural disaster, county councils are especially well-suited to determine whether, and at what rate, a rent ceiling should be established within its local jurisdiction. This measure allows certain counties to establish a rent ceiling through a resolution, which will protect vulnerable communities and advance basic societal interests of the State.

Your Committee has amended this measure by clarifying that the penalty for renting or leasing, or offering to rent or lease, a dwelling unit in a rent-controlled county at a rate that exceeds the rate established by resolution adopted by the appropriate county council is a misdemeanor.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2762, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2762, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 2984 Judiciary on S.B. No. 2904

The purpose and intent of this measure is to amend the emergency management law to protect tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a gubernatorial or mayoral emergency proclamation.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency; one member of the Maui County Council; Lāhainā Strong; We Are One, Inc.; Tagnawa; Hawai'i Alliance for Progressive Action; and fifty-five individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS, Wailuku Federal Credit Union, Hickam Federal Credit Union, Hawaii Credit Union League, Maui Federal Credit Union, Hawaii State Federal Credit Union, Land Use Research Foundation of Hawaii, Valley Isle Community Federal Credit Union, Pearl Hawaii Federal Credit Union, Honolulu Federal Credit Union, Aloha Pacific Federal Credit Union, NAIOP Hawaii, Hawaiian Financial Federal Credit Union, Building Owners and Managers Association of Hawaii, Maui County Federal Credit Union, Consumer Data Industry Association, Hawaii Bankers Association, Big Island Federal Credit Union, and two individuals.

Your Committee received comments on this measure from the Department of the Attorney General, Division of Financial Institutions of the Department of Commerce and Consumer Affairs, Building Industry Association of Hawaii, and Hawaii Financial Services Association.

Your Committee finds that the unprecedented events of the August 2023 Maui wildfires have shown the need to offer emergency economic assistance to those directly impacted by devastating emergency situations. Your Committee further finds that it is imperative to provide all impacted parties with a comprehensive understanding of their rights and options before, during, and after an emergency, which includes ensuring that individuals are fully informed about their rights and available courses of action throughout the duration of a proclamation. This measure grants residential tenants, business and home owners, as well as other affected individuals, the right to manage their personal and business affairs in response to the event, allowing them to put their lives back in order amidst the emergency.

Your Committee has amended this measure by:

- (1) Clarifying that the Governor or mayor may declare that the mortgagee of a property in an area that is subject to an emergency proclamation is required to:
 - (A) Upon receipt of a request from a mortgagor of the property, defer the collection of mortgage payments for up to three years; and
 - (B) Upon receipt of a subsequent request from a mortgagor of the property, defer the collection of mortgage payments for up to an unspecified number of years for good cause;
- (2) Inserting language clarifying that a consumer reporting agency or user of a consumer report that receives a request to exclude consideration of certain adverse information from a person permitted to request the exclusion pursuant to an emergency proclamation is required to:
 - (A) Respond to the requestor within the time period prescribed by 15 U.S.C. §1681i; and
 - (B) Honor the person's request, or in the alternative, should federal law bar the consumer reporting agency or user of a consumer report from honoring the request, provide a written explanation identifying the basis for refusal;
- (3) Deleting language that would have prohibited an association, as defined in section 421J-2 or 514B-3, Hawaii Revised Statutes, from requiring any unit owner to purchase insurance for emergencies or disasters likely to be addressed by proclamations under chapter 127A, Hawaii Revised Statutes, except to the extent the association is authorized by the association's governing documents or applicable federal or state law; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2904, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2904, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante, San Buenaventura). Noes, none. Excused, none.

SCRep. 2985 Judiciary on S.B. No. 2397

The purpose and intent of this measure is to prohibit lessees who sell or transfer their interest in a Hawaiian Home Lands tract for personal gain from being placed on any subsequent waiting list maintained by the Department of Hawaiian Home Lands for an additional lease.

Your Committee received testimony in support of this measure from five individuals.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that native Hawaiian beneficiaries of the Department of Hawaiian Home Lands should be able to enter the Hawaiian Homes Commission Act Program with a reasonable expectation of obtaining a lease. However, certain native Hawaiian beneficiaries eligible for a lease pursuant to the Hawaiian Homes Commission Act 1920, as amended, acquired a lease, sold or transferred their interest in the lease, and then placed their name on the waiting list for a second lease of Hawaiian Home Lands, which has exacerbated the issue that many native Hawaiians have not received a lease offer. This measure ensures fairness in the distribution of leases to all beneficiaries.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2397, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2986 Judiciary on S.B. No. 2560

The purpose and intent of this measure is to require each lease that the Department of Agriculture (Department) enters into, renews, or extends after a certain date to contain provisions that allow the Department to:

- (1) Enter the premises at any time to identify, investigate, control, or eradicate invasive pests; and
- (2) Terminate the lease if the lessee:
 - (A) Refuses the Department entry; or
 - (B) Is found in violation of any applicable law, rule, or order relating to the control or eradication of invasive pests.

Your Committee received testimony in support of this measure from the Sierra Club of Hawai'i, Hawai'i Farm Bureau, and three individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Department of Agriculture and Hawaii Cattlemen's Council, Inc.

Your Committee finds that invasive pests in the State have inflicted widespread and potentially irreversible damage. Invasive plants and wildlife have been found to overtake entire watersheds, impacting native habitats, increasing the State's vulnerability to natural disasters, and destroying nearshore reefs. Invasive parasites have impacted local food production, jeopardizing public health and aquatic ecosystems. Your Committee recognizes that stronger policies and investments are critical to mitigating damage caused by invasive pests. This measure will strengthen biosecurity protections by regulating lessees of agricultural lands to mitigate the spread of harmful invasive pests.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2560, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2560, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2987 Judiciary on S.B. No. 3363

The purpose and intent of this measure is to provide that a living beneficiary's place on the Department of Hawaiian Home Lands' waitlist for any residential or commercial agricultural tract may be designated for transfer to a successor if the living beneficiary dies before receiving an offer for a tract; provided that the successor shall be at least 1/32 Hawaiian.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC and one individual.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that the population of eligible native Hawaiian beneficiaries of the Department of Hawaiian Home Lands continues to decline, while the number of native Hawaiians on the Department of Hawaiian Home Lands' waitlist continues to grow.

This measure assists the Department of Hawaiian Home Lands' mission to develop and deliver land to native Hawaiians by recognizing the importance of succession rights of native Hawaiian beneficiaries.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3363, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3363, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2988 Judiciary on S.B. No. 3089

The purpose and intent of this measure is to:

- (1) Require that licensed teachers have their license revoked by the Hawai'i Teacher Standards Board if the teacher is resigning or retiring during the pendency of any investigation into allegations of sexual assault, sexual harassment, or other physical abuse of a student;
- (2) Require a licensed teacher to surrender their license if the teacher retires or resigns from teaching before the completion of an investigation; and
- (3) Require the Hawai'i Teacher Standards Board to report the surrendered license to the National Association of State Directors of Teacher Education and Certification.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee received comments on this measure from the Department of the Attorney General and Hawai'i Teacher Standards Board.

Your Committee finds that the State's keiki deserve a high quality education in safe, protected learning environments. However, certain individuals who inflict harm or exploit their positions to take advantage of students jeopardize the safety of school communities. Further, certain individuals may resign or retire in lieu of termination, allowing them to continue abuse at another educational institution. Therefore, this measure implements an additional safeguard within the State's public schools to ensure the protection of children.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3089, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3089, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2989 (Majority) Judiciary on S.B. No. 2405

The purpose and intent of this measure is to authorize an election candidate, treasurer, or candidate committee to use campaign funds for the candidate's child care and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, ACLU of Hawaii, Vote Mama Foundation, AAUW of Hawaii, Women's Caucus of the Democratic Party of Hawai'i, and one individual.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that balancing family obligations with a political campaign is a difficult task for many political candidates. Women, who are often caregivers, are disproportionately impacted by these challenges, and so are single parents. These individuals can face additional difficulty as political candidates if they lack access to child care. Existing law provides for candidates to utilize their campaign funds for a number of expenses, including donations to public schools and libraries, scholarships for higher education, and consumer goods for mixed benefit of the candidate. Therefore, this measure expands permissible uses of campaign funds to include child care to provide candidates an opportunity to engage in campaign activity in a fair and equitable way.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2405 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2990 Judiciary on S.B. No. 2718

The purpose and intent of this measure is to allow the Hawaii Labor Relations Board to admit and consider hearsay evidence.

Your Committee received testimony in support of this measure from the Hawai'i Labor Relations Board.

Your Committee finds that existing law is contradictory with regard to whether the Hawaii Labor Relations Board is permitted to admit or consider hearsay evidence in its proceedings. While the Hawaii Labor Relations Board is prohibited from considering hearsay

evidence, there are a myriad of exceptions in the Hawaii Rules of Evidence that allow certain types of hearsay evidence to be admissible, meaning certain evidence could be properly introduced in any other court or administrative proceeding under a hearsay exception. This measure clarifies that the Hawaii Labor Relations Board is permitted to admit and consider hearsay evidence in its proceedings, which will level the playing field and provide a fair hearing for all parties involved.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2718, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2991 Judiciary on S.B. No. 2637

The purpose and intent of this measure is to require the third meeting of a board to deliberate and act on a matter investigated by a group of its members to be held at least six days after the second meeting.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii.

Your Committee received comments on this measure from the Office of Information Practices and Public First Law Center.

Your Committee finds that existing law allows a government board to set up what is commonly called a permitted interaction group (PIG), of less than a quorum of members to work together outside the context of a board meeting to investigate an issue. This provision for an "investigatory" PIG requires three separate board meetings: the first to assign the PIG members and set the scope of their investigation and authority, the second to hear their report without discussion (at which point the PIG is effectively dissolved), and the third for the full board to discuss and perhaps take action on the issue the PIG investigated. However, on multiple occasions over the years, boards have attempted to circumvent the legislative intent to provide the public and the board with an opportunity to digest the report before any substantive discussions are held, by scheduling the second and third meetings back-to-back. This measure will set a clear standard for how much time must elapse between the meeting where an investigatory PIG reports and the meeting at which the board discusses and acts on the report, to prevent efforts to circumvent the requirements of existing law.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2637, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2637, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2992 (Majority) Judiciary on S.B. No. 2630

The purpose and intent of this measure is to:

- (1) Authorize pedestrians to act contrary to the Statewide Traffic Code when a reasonably careful pedestrian would determine that there is no immediate danger of a collision with a moving vehicle; and
- (2) Require that any person that drives a motor vehicle greater than the speed limit be fined not less than \$100.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council, Grassroot Institute of Hawaii, Hawai'i Public Health Institute, and five individuals.

Your Committee received testimony in opposition to this measure from the Keiki Injury Prevention Coalition.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that jaywalking laws do not reduce pedestrian deaths or make streets safer. Additionally, jaywalking laws are disproportionately enforced against disadvantaged groups and minorities, with fines for pedestrians having a disproportionate impact on people who do not drive and who primarily rely on walking as a means of transportation. This measure will encourage more people to walk while making the streets friendlier to pedestrians.

Your Committee notes that the requirement that any person that drives a motor vehicle greater than the speed limit be fined not less than \$100 contained in section 3 of this measure may exceed the scope of the measure's title.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 2 (Elefante, Awa). Excused, none.

SCRep. 2993 Judiciary on S.B. No. 3154

The purpose and intent of this measure is to clarify that failure to comply with approved mitigation commitments, conduct an archaeological inventory survey, or comply with other administrative requirements pertaining to archaeology approved by the Department of Land and Natural Resources shall result in civil and administrative violations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, and Historic Hawai'i Foundation.

Your Committee finds that regulation of archaeological activities is one of the specific purposes for which the Department of Land and Natural Resources State Historical Preservation Division was established. However, your Committee recognizes that the State

Historical Preservation Division does not have the resources to examine in the field whether historic property and burial site projects have complied with administrative requirements. This measure will provide the State Historical Preservation Division with stronger mechanisms with which to regulate archaeological activities in the State in order to protect historic properties and burial sites.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3154, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 2994 Judiciary on S.B. No. 2239

The purpose and intent of this measure is to:

- (1) Prohibit any person from advertising, displaying, or offering a price for a transient accommodation or resort time share vacation interest, plan, or unit that does not include all taxes and fees imposed by a government entity at the time of purchase;
- (2) Require a person to clearly and conspicuously display in each advertisement for a transient accommodation or resort time share vacation interest, plan, or unit a rate or price that includes all taxes and fees imposed by a government entity; and
- (3) Require any taxes and fees that are displayed as a percentage of the cost on a booking transaction to also be displayed as a dollar amount at the time of purchase.

Your Committee received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and one individual.

Your Committee received testimony in opposition to this measure from the Chamber of Progress, TechNet, and Expedia Group.

Your Committee received comments on this measure from the Hawai'i Tourism Authority and ARDA Hawaii.

Your Committee finds that while government-related taxes and fees may be itemized during the purchase process, consumers have a right to make informed purchases regarding the total price to be paid before a transaction commences. Your Committee also finds that there is national support to reduce and eliminate mandatory fees that often hide the full price of a good or service and surprise fees that consumers learn about after purchase. This measure will enable consumers to make informed decisions and purchases by requiring advertisers to be transparent.

Your Committee has amended this measure by:

- (1) Removing resort time share vacation interests and plans from the required pricing and advertisement disclosures;
- (2) Specifying that the required pricing and advertisement disclosures apply to the rental and letting of transient accommodations;
- (3) Specifying that the required disclosure of taxes and fees imposed by a government entity applies to those taxes and fees charged to a renter or guest;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2239, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2239, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2995 Judiciary on S.B. No. 2450

The purpose and intent of this measure is to authorize the Department of Transportation to weigh any ocean transport container offloaded at any harbor in the State and fine any company that offloads an ocean transport container having an excessive gross weight.

Your Committee received comments on this measure from Matson Navigation Company, Inc.

Your Committee finds that the efficiency of a commercial harbor's supply chain is critical to ensure the flow of goods like food and necessary supplies. Given the critical role of the State's commercial harbors, it is imperative that the State support dependable and efficient cargo transportation and handling to service the State's residents and businesses. This measure will aid state harbors in the effective distribution of goods and supplies by outlining regulations that promote safety and efficiency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2450, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2996 Judiciary on S.B. No. 2011

The purpose and intent of this measure is to allow the construction of multi-family dwelling units on any lot within certain designated county zoning districts, subject to reasonable standards adopted by each county.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, one member of the Maui County Council, Building Industry Association of Hawaii, Grassroot Institute of Hawaii, Maui Chamber of Commerce, and one individual.

Your Committee received testimony in opposition to this measure from the Office of the Mayor of the County of Maui and City and County of Honolulu Department of Planning and Permitting.

Your Committee finds that large scale housing developments often occur in “greenfield” developments, which require significant upfront costs for major infrastructure projects. Your Committee further finds that by creating opportunities to develop multi-family projects on all non-residential zoned lands in each county, developers will not incur large infrastructure costs if sufficient capacity is available at the project site and will be encouraged to develop more housing. This measure incentivizes the development of more housing in the State by alleviating the upfront infrastructure costs for housing development through allowing construction of multi-family dwelling units on land with existing infrastructure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2011, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2011, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 2997 (Majority) Judiciary on S.B. No. 3196

The purpose and intent of this measure is to:

- (1) Amend the prohibition on certain assault weapons to include assault rifles, assault shotguns, .50 caliber rifles, and assault weapon attachments;
- (2) Modernize the prohibition on assault pistols to include pistols with one or more prohibited feature;
- (3) Expand the ban on pistols with a detachable magazine with over a ten round capacity to any firearm with a detachable magazine with over a ten round capacity;
- (4) Prohibit persons from bringing or causing to be brought into the State an assault rifle or assault shotgun;
- (5) Prohibit the sale or transfer of an assault rifle or assault shotgun in the State, unless the assault rifle or assault shotgun is sold or transferred to an authorized individual; and
- (6) Create exceptions for the acquisition and possession of prohibited firearms for members of law enforcement and the military.

Your Committee received testimony in support of this measure from GIFFORDS; Everytown for Gun Safety; Hawai'i Chapter of Moms Demand Action for Gun Sense in America; Hawai'i Chapter of Students Demand Action for Gun Sense in America; Brady Campaign to Prevent Gun Violence Hawaii Chapter; Hawaii Friends of Civil Rights; League of Women Voters of Hawaii; Institute for Human Services, Inc.; Indivisible Hawaii; Hui Malama Pono Hawaii Foundation; Hawai'i State Coalition Against Domestic Violence; Hawaii Coalition to Prevent Gun Violence; North Hawaii Community Action Network; Church of the Crossroads; a form letter signed by more than one hundred individuals; and more than two hundred eighty individuals.

Your Committee received testimony in opposition to this measure from the National Rifle Association; National Association for Gun Rights; Firearms International, LLC; Hawaii Rifle Association; Hawaii Firearms Coalition; Hawaii Federation of Republican Women; Hawaii Hunters; Volcano Neighborhood Watch; Pu'uoloa Rifle and Pistol Club; SDM Training Group; Bows 'N Bullets; Maui Ammo and Gun Supply; S. Tokunaga Store Inc; Diamond Training Group, LLC; Hawaii Tactical Outfitter; Young Guns; 50th Holster Works; Koffin Wurks; Honolulu Sporting Goods, LLC; Red Letter Industries; Epowersports; and more than one thousand two hundred seventy-five individuals.

Your Committee received comments on this measure from the Honolulu Police Department and two individuals.

Your Committee finds that for decades, the State's leaders have prioritized the safety and well-being of the people in the State by enacting and implementing proactive, research-informed policy solutions that prevent gun violence, save lives, and spare communities from loss, trauma, and cycles of violence. However, the State's assault weapons ban fails to ban assault weapon attachments, such as large capacity magazines, and .50 caliber rifles. Your Committee believes that banning .50 caliber rifles and large capacity magazines is important because they are designed to be capable of mass violence and have a potential for mass murder that far outweighs any plausible use for hunting, recreation, or self-defense. This measure will reaffirm the State's commitment to protecting the safety and well-being of its citizens by strengthening the State's firearms laws to address the serious hazards to public safety posed by .50 caliber rifles and large capacity magazines.

Your Committee has amended this measure by:

- (1) Deleting language that would have, after July 8, 2024, prohibited a person from bringing or causing to be brought into the State an assault rifle or assault shotgun;
- (2) Deleting language that would have, after July 8, 2024, prohibited an assault rifle or assault shotgun from being sold or transferred to anyone within the State;

- (3) Deleting language that would have required a person who obtains title by bequest or intestate succession to an assault rifle or assault shotgun to, within ninety days, render the weapon permanently inoperable, sell or transfer the weapon to a licensed dealer or chief of police of any county, or remove the weapon from the State;
- (4) Deleting language that would have prohibited the manufacture, possession, barter, trade, gift, transfer, or acquisition of assault rifles or assault shotguns;
- (5) Restoring statutory language clarifying that the manufacture, possession, sale, barter, trade, gift, transfer, or acquisition of detachable ammunition magazines with a capacity in excess of ten rounds that are designed for or capable of use with a pistol is prohibited;
- (6) Inserting language prohibiting the manufacture, possession, sale, barter, trade, gift, transfer, or acquisition of detachable ammunition magazines with a capacity in excess of twenty rounds that are designed for or capable of use with any firearm other than a pistol, but excluding magazines originally designed to accept more than twenty rounds of ammunition which have been modified to accept no more than twenty rounds and which are not capable of being readily restored to a capacity of more than twenty rounds;
- (7) Inserting language clarifying that the mens rea requirement for a person violating the prohibitions against the manufacture, possession, sale, barter, trade, gift, transfer, or acquisition of certain firearms and firearm attachments is an intentionally or knowingly standard;
- (8) Deleting language that would have established exemptions for the acquisition and possession of assault rifles and assault shotguns;
- (9) Inserting a severability clause;
- (10) Inserting an effective date of April 14, 2112, to encourage further discussion;
- (11) Amending section 1 to reflect its amended purpose; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3196, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3196, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 2 (Gabbard, Awa). Excused, none.

SCRep. 2998 Judiciary on S.B. No. 3226

The purpose and intent of this measure is to provide that a maximum time period to grant or deny a business or development-related permit, license, or approval shall only apply if a request for a contested case has not been filed or is required by law.

Your Committee received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu and Office of the Mayor of the County of Hawai'i.

Your Committee finds that Act 164, Session Laws of Hawaii 1998 (Act 164), enhanced the State's business environment to prevent administrative agency delays. However, Act 164 did not consider the applicable timeframe to grant or deny the permit, license, or approval when a contested case request has been made or is required by law. This measure clarifies that the maximum time period does not apply while the contested case process is proceeding.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3226, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2999 (Majority) Judiciary on S.B. No. 2129

The purpose and intent of this measure is to expand the definition of "historic property" for purposes of the Historic Preservation Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Building Industry Association of Hawaii; Historic Hawai'i Foundation; and Stanford Carr Development, LLC.

Your Committee received testimony in opposition to this measure from the Mayor of the County of Maui; NAIOP Hawaii, and Society for Hawaiian Archaeology.

Your Committee finds that the current definition of "historic property" relies on the age of the property as the sole criteria for designation as a historic property. Your Committee further finds that this approach is unnecessarily broad and presumes that the age of the property equates to historic importance. This measure will develop a more nuanced approach by establishing criteria in addition to age for properties over fifty years old and less than one hundred years old.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2129, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2129, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 3000 (Majority) Judiciary on S.B. No. 2562

The purpose and intent of this measure is to:

- (1) Prohibit individuals without a valid unrevoked license obtained from the Hawaii Board of Veterinary Medicine from performing any surgical procedure on any animal;
- (2) Make performing any surgical procedure on any animal without a valid unrevoked license obtained from the Hawaii Board of Veterinary Medicine a class C felony; and
- (3) Make cropping and docking offenses of cruelty to animals in the first degree.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Animal Welfare Institute, Animal Interfaith Alliance in Britain, and sixteen individuals.

Your Committee received testimony in opposition to this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Kealia Ranch LLC; Diamond B Ranch, LLC; PonoHolo Ranch, Limited; Hawaii Veterinary Medical Association; Kapapala Ranch; Dave's Piggery; 3B Livestock; and fifty-five individuals.

Your Committee received comments on this measure from the Hawaii Board of Veterinary Medicine.

Your Committee finds that the existing statute regarding animal cruelty contains a loophole that exempts non-veterinarians from facing penalties when performing surgical procedures on animals. Your Committee further finds that this loophole in the veterinary licensing statute has resulted in pet animals being injured by procedures conducted by inexperienced owners. This measure ensures the protection of pet animals from significant injury by clarifying and strengthening the statute banning unauthorized and unlicensed individuals from performing veterinary procedures on animals.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2562, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2562, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (San Buenaventura). Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 3001 Judiciary on S.B. No. 2937

The purpose and intent of this measure is to repeal the sunset date for the exemption of laboratory school programs of the College of Hawaiian Language at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee received testimony in support of this measure from the University of Hawai'i at Hilo, Executive Office on Early Learning, Kūpuna for the Mo'opuna, 'Aha Pūnana Leo, Hawai'i Children's Action Network Speaks!, Ke Kula 'O Nāwahīokalani'ōpu'u, and nineteen individuals.

Your Committee finds that Ka Haka 'Ula O Ke'elikōlani, or the College of Hawaiian Language at the University of Hawaii at Hilo, is recognized worldwide as being the leader in indigenous education. This measure will address the shortage of Hawaiian-proficient certified teachers for state and charter elementary Hawaiian language programs and ensure the continuation of a laboratory school program, which is currently a Hawaiian-medium program, at the University of Hawaii at Hilo.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2937, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2937, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3002 Judiciary on S.B. No. 2127

The purpose and intent of this measure is to allow an applicant to request a certified copy of the applicant's criminal background check and credit report from one landlord or the landlord's agent to provide to another landlord or that landlord's agent in lieu of paying a fee to cover the costs of obtaining another criminal background check or credit report.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS and one individual.

Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that in a tight housing market, the costs of multiple applications for prospective tenants can result in significant economic hardship. Applicants may be required to submit multiple application fees to landlords or their agents who are using those fees to obtain similar information. This measure will reduce the financial burden of applying for rental units while reducing the work of landlords and their agents to obtain certain information.

Your Committee has amended this measure by:

- (1) Clarifying that a landlord or a landlord's agent is prohibited from charging an application fee for a criminal background check or credit report if the applicant provides a copy of the criminal background check or credit report that has not been falsely altered, instead of requiring the applicant to provide a certified copy;
- (2) Clarifying that upon request by the applicant, a landlord or the landlord's agent is required to provide the applicant a copy of the applicant's criminal background checks and credit reports that are less than thirty days old, instead of requiring the landlord or the landlord's agent to provide a certified copy;
- (3) Inserting language establishing that it is a violation, punishable by a fine of \$1,000, for an applicant to present a copy of the applicant's criminal background check or credit report that has been falsely altered;
- (4) Inserting language defining "falsely altered" to mean, in relation to a written instrument, a written instrument that has been changed, without the authority of the ostensible maker, drawer, or issuing commercial establishment, whether complete or incomplete, by means of erasure, obliteration, deletion, insertion of new matter, transposition of matter, or in any other manner, so that the instrument so altered falsely appears or purports to be in all respects an authentic creation of its ostensible maker, or authorized by the maker or issuing commercial establishment;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2127, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2127, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3003 (Majority) Judiciary on S.B. No. 3011

The purpose and intent of this measure is to prohibit any non-government entity or agent thereof from operating a weed whacker in or within one hundred feet of a residential zone, except between 8:00 a.m. and 7:00 p.m. on most days.

Your Committee received testimony in support of this measure from the Department of Health, Waikiki Neighborhood Board, and two individuals.

Your Committee received comments on this measure from one member of the Waikiki Neighborhood Board and one individual.

Your Committee finds that many residents and communities in the State are regularly disrupted by excessively loud weed whackers, especially in the early morning and late evening hours. This measure will improve public health and protect local communities from noise pollution and disturbance by restricting weed whacker use.

Your Committee has amended this measure by:

- (1) Inserting language exempting government entities, and agents acting on behalf of government entities, from the restrictions against using weed whackers during certain hours if the use occurs during an emergency as defined in section 127A-2, Hawaii Revised Statutes;
- (2) Clarifying that government entities, and agents acting on behalf of government entities, will remain exempt from the restrictions against using leaf blowers during certain hours; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3011, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3011, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3004 (Majority) Judiciary on S.B. No. 2120

The purpose and intent of this measure is to:

- (1) Require retail stores that sell pet animals to:
 - (A) Maintain records regarding the source and medical history of animals sold; and
 - (B) Provide records to pet purchasers, subject to the discretion of the retail pet store;
- (2) Impose penalties for violations; and
- (3) Authorize retail pet stores to showcase pet animals owned by a nonprofit animal welfare organization.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Animal Interfaith Alliance in Britain, Animal Welfare Institute, and fifteen individuals.

Your Committee received testimony in opposition to this measure from Koolau Pets and eight individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that although thirty-three states license commercial pet breeders, thirty-one states set minimum standards of care for breeders, and thirty states regulate the sale of puppies by pet stores, Hawai'i does not regulate the retail pet business. Your Committee recognizes that although there are responsible and ethical breeders who offer a transparent process to prospective pet owners, a lack of oversight on retail pet businesses contributes to animal and consumer health and welfare issues in the State. This measure not only promotes responsible and ethical practices of commercial pet breeders, but also protects pet animals in the State.

Your Committee has amended this measure by:

- (1) Clarifying that a retail pet store that fails to maintain records regarding the source and medical history of pet animals sold and provide records to pet purchasers commits a violation and is subject to a \$1,000 fine; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2120, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2120, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 3005 (Joint) Ways and Means and Judiciary on S.B. No. 2617

The purpose and intent of this measure is to explore the possible creation of regulations relating to the sale of real property to favor owner-occupied resident ownership.

Specifically, the measure:

- (1) Requires the Legislative Reference Bureau to conduct a study on the “states in the country that have enacted laws limiting the sale of property to foreign individuals or entities, and how those laws and related constitutional precedents could inform demand-side regulations for the real estate market in Hawaii in favor of resident ownership, specifically owner-occupied resident ownership”;
- (2) Requires that the study, to the extent feasible, include:
 - (A) Descriptive information detailing the laws limiting the sale of property to foreign individuals or entities and the related constitutional precedents of each jurisdiction;
 - (B) Identified strengths and weaknesses of each particular legislative approach; and
 - (C) Recommendations on whether the laws enacted by other jurisdictions could be adapted for Hawaii, to favor owner-occupied resident ownership of real property in Hawaii or interests therein;
- (3) Requires the Legislative Reference Bureau to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025; and
- (4) Appropriates an unspecified sum of moneys to the Bureau to conduct the study.

Your Committees received written comments in support of this measure from three individuals.

Your Committees recognize that homeownership strengthens communities and is a critical component of the State's economy. Your Committees also recognize the problem of the shortage of affordable homes in the State, which is exacerbated by the purchasing power of affluent nonresidents, including noncitizens. Your Committees find it appropriate to study potential constitutional and other legal barriers to restrictions on real property sales to foreign individuals or entities.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2617, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3006 (Joint) Ways and Means and Judiciary on S.B. No. 3050

The purpose and intent of this measure is to authorize the Hawaii Community Development Authority to render services to, assist, and enter into cooperative arguments with state and county agencies upon request.

Your Committees received written comments in support of this measure from the Department of Land and Natural Resources and Hawaii Community Development Authority.

Your Committees find that authorizing the Hawaii Community Development Authority to provide services and assistance to other state and county agencies will promote government efficiency by allowing the Authority to share its experience and knowledge in master planning communities, infrastructure development and improvement, and project management.

Your Committees have amended this measure by changing the effective date to upon approval.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3050, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3050, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3007 (Joint) Ways and Means and Judiciary on S.B. No. 2475

The purpose and intent of this measure is to protect students from individuals who have committed certain acts of misconduct.

Specifically, the measure:

- (1) Establishes a harm to students registry for all prekindergarten through grade twelve educational institutions within the State to report instances of acts by school personnel or volunteers that demonstrate harm to students;
- (2) Establishes qualified immunity for any employer who provides any good-faith information or opinion on a current or former employee's employment performance; and
- (3) Requires the Hawaii Teacher Standards Board to revoke the licenses of certain individuals who have resigned or retired during a pending investigation into allegations of sexual assault or sexual harassment.

Your Committees received written comments in support of this measure from the Department of Education, Executive Office on Early Learning, Early Learning Board, Kamehameha Schools, Hawaii Association of Independent Schools, and Punahou School.

Your Committees received written comments on this measure from the Department of Human Services, Department of the Attorney General, Office of Information Practices, Hawaii Teacher Standards Board, and State Public Charter School Commission.

Your Committees recognize that in recent years, the safety and security of Hawaii's schoolchildren have sometimes been violated by nefarious school employees. All too often, the offending employees seek and obtain employment at other schools. Your Committees find that a system that facilitates investigations and the sharing of information between educational institutions, as contemplated by this measure, will help ensure safer learning environments and hold irresponsible individuals accountable.

Your Committees have amended this measure by:

- (1) Clarifying that certain information shall be exempt only from the disclosure requirements of the Uniform Information Practices Act (Chapter 92F, Hawaii Revised Statutes);
- (2) Providing that the third member of the Superintendent of Education's temporary commission shall be a representative of private schools located in the State, as invited by the superintendent; provided that the right of first refusal to serve on the commission shall go to the Executive Director of the Hawaii Association of Independent Schools or the Executive Director's designee;
- (3) Providing that the Department of Education may share information from the harm to students registry with the Department of Human Services;
- (4) Deleting language relating to exemptions from criminal liability for good faith reporters;
- (5) Deleting language that would have required that a person's resignation or retirement during an investigation automatically result in the revocation of the person's teaching license and placement of the person on the harm to student registry;
- (6) Clarifying teacher license surrender provisions relating to any person who retires or resigns before the completion of an investigation; and
- (7) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2475, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2475, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3008 Ways and Means on S.B. No. 2553

The purpose and intent of this measure is to promote retirement savings for employees in the private sector.

Specifically, this measure:

- (1) Requires covered employers to automatically enroll their covered employees into the Hawaii Retirement Savings Program unless the employee opts out of enrollment; and
- (2) Clarifies the definition of "covered employer" under the Hawaii Retirement Savings Act.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Executive Office on Aging, AARP Hawaii, Hawaii Family Caregiver Coalition, Hawaii Primary Care Association, and eleven individuals.

Your Committee received written comments on this measure from the Retail Merchants of Hawaii and Maui Chamber of Commerce.

Your Committee finds that establishing automatic enrollment in the Hawaii Retirement Savings Program will increase participation, align Hawaii's law with laws of other states requiring automatic enrollment in similar savings programs, and greatly increase the viability of the program by ensuring a sufficient number of participants.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2553, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3009 Ways and Means on S.B. No. 2079

The purpose and intent of this measure is to authorize the electronic distribution, completion, and transmittal of the Hawaii State Plant and Animal Declaration Form.

Your Committee received written comments in support of this measure from the Office of the Lieutenant Governor; Department of Business, Economic Development, and Tourism; Airlines for America; Alaska Airlines; Hawaii Farm Bureau; and SMS Research and Marketing Services, Inc.

Your Committee received written comments on this measure from the Department of Agriculture.

Your Committee finds that the Hawaii State Plant and Animal Declaration Form helps to prevent harmful pests from being transported into Hawaii's unique environment and communities. Your Committee recognizes that many travelers entering the State would prefer to complete an electronic version of the Plant and Animal Declaration Form on their personal electronic devices. However, it is unclear whether electronic forms are permitted under existing law. Your Committee believes that clarifying the law to allow people to complete the form electronically will make the plant and animal declaration process more efficient.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2079 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3010 Ways and Means on S.B. No. 2659

The purpose and intent of this measure is to reduce the negative impacts of tourism in the State.

Specifically, this measure:

- (1) Incorporates a regenerative tourism framework into the Hawaii State Planning Act by expanding objectives and policies for the tourism industry;
- (2) Requires the Hawaii Tourism Authority to prepare and periodically update the Tourism Functional Plan to include the updated tourism economic goals, Hawaii Tourism Authority's strategic plan, and Hawaii 2050 Sustainability Plan; and
- (3) Requires an updated Tourism Functional Plan to be submitted to the Legislature prior to the convening of the Regular Session of 2025.

Your Committee received written comments in support of this measure from the Hawaii Tourism Authority and Office of Planning and Sustainable Development.

Your Committee finds that the incorporation of a regenerative tourism framework into state planning objectives and policies will help to maintain a high-quality visitor experience while counterbalancing many of the social, economic, and environmental impacts of tourism.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2659, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3011 Ways and Means on S.B. No. 3361

The purpose and intent of this measure is to include oilseed cover crops, such as camelina, carinata, pennycress, and sunflower, among the crops for which the costs of acquisition may be reimbursed to farming operations pursuant to the three-year cover crop reimbursement pilot program.

Your Committee received written comments in support of this measure from the Biotechnology Innovation Organization; Hawaii Farm Bureau; Pacific Biodiesel Technologies, LLC; and two individuals.

Your Committee recognizes that Act 312, Session Laws of Hawaii 2022, established the cover crop reimbursement pilot program to provide farming operations with an incentive to use land management practices that enhance the quality and sustainability of agricultural lands. Your Committee also recognizes that oilseed cover crops may be used to produce renewable energy and increase pollinator health and biodiversity. Your Committee finds that including oilseed cover crops in the cover crop reimbursement pilot program is appropriate, as those crops will both increase agricultural productivity and further the State's agricultural sustainability goals.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3361 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3012 (Joint/Majority) Judiciary and Ways and Means on S.B. No. 2443

The purpose and intent of this measure is to:

- (1) Establish the Automated Speed Enforcement Systems Program for ten school zones;
- (2) Authorize the state or counties to administer the Automated Speed Enforcement Systems Program;
- (3) Require fines collected beginning January 1, 2025, for violations on a county highway to be expended for the operation of the Automated Speed Enforcement Systems Program;
- (4) Create a new offense of noncompliance with the posted speed limit under the Automated Speed Enforcement System; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Transportation, Disability and Communication Access Board, Department of Transportation Services of the City and County of Honolulu, Oahu Metropolitan Planning Organization, and two individuals.

Your Committees received testimony in opposition to this measure from the Office of the Public Defender and two individuals.

Your Committees received comments on this measure from the Judiciary and Department of Budget and Finance.

Your Committees find that pedestrians and other roadway users are increasingly at risk of bodily harm due to the prevalence of drivers speeding and violating other state traffic laws. According to the Department of Transportation, speeding has been one of the top contributing factors in motor vehicle fatalities for the past decade. Due to the dangers of speeding to pedestrians, your Committees recognize the need for automated speed enforcement cameras, which can be powerful tools to reduce motor vehicle crashes and fatalities. This measure will ensure the safety of pedestrians by establishing an Automated Speed Enforcement Systems Program.

Your Committees have amended this measure by:

- (1) Inserting language specifying that:
 - (A) The procedures regarding answering, court hearings, and court actions in chapter 291D, Hawaii Revised Statutes, apply to summons or citations issued under the Automated Speed Enforcement Systems Program;
 - (B) It is not a defense of any citation issued under the Automated Speed Enforcement Systems Program that another person was driving the defendant's motor vehicle at the time of the incident, unless the motor vehicle was stolen as documented by a police report; and
 - (C) Any reference to the defendant's commission of the traffic infraction or similar language must be interpreted to mean commission of the traffic infraction;
- (2) Deleting language that would have allowed the owner of a vehicle cited under the Automated Speed Enforcement Systems Program to present certain evidence to rebut the violation;
- (3) Clarifying that the registered owner is strictly liable for a speeding violation; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2443, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2443, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary: Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, 1 (Awa). Excused, none.
Ways and Means: Ayes, 11; Ayes with Reservations (Kim). Noes, none. Excused, 2 (Kanuha, Shimabukuro).

SCRep. 3013 (Joint) Judiciary and Ways and Means on S.B. No. 3237

The purpose and intent of this measure is to:

- (1) Facilitate the control and eradication of invasive species and pests;
- (2) Establish a plant nursery licensing program;
- (3) Require the Department of Agriculture to designate certain species as pests for control or eradication;
- (4) Impose certain limits on imports and transportation; and
- (5) Update the method by which the Department of Agriculture's noxious weed list is updated.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Hawai'i County Council, 'Ahahui o nā Kauka, Kua'āina Ulu 'Auamo, Conservation Council for Hawai'i, Boys and Girls Club of Hawaii, Sierra Club of Hawai'i, Livable Hawaii Kai Hui, Coordinating Group on Alien Pest Species, Council for Native Hawaiian Advancement, Ahahui Mālama I Ka Lokahi, Hawaii Environmental Restoration, Ka Ohana O Na Pua, and sixty individuals.

Your Committees received testimony in opposition to this measure from the Department of Agriculture; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and one individual.

Your Committees received comments on this measure from the Department of the Attorney General, Big Island Invasive Species Committee, Hawai'i Forest Industry Association, Hawai'i Farm Bureau, and one individual.

Your Committees find that the State has one of the highest levels of endemism in both its native animals and plants, encompassing one of the highest levels of biodiversity in the world. However, the presence of invasive plant and animal species threatens native ecosystems and has contributed to a significant loss of endemic birds, plant species, and other organisms. Due to the State's geographic isolation, many plant and animal species have not evolved adaptations to new threats, including invasive species. Therefore, this measure strengthens the State's regulation on imported plant species to prioritize natural resource management and protection of native species.

Your Committees acknowledge the legitimate concerns raised by the Department of the Attorney General and the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO, regarding amendments that are needed to ensure passage through the legislative process. Accordingly, your Committees respectfully request subsequent Committees to address this concern.

Your Committees have amended this measure by:

- (1) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3237, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3237, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 11; Ayes with Reservations (Inouye). Noes, none. Excused, 2 (Kanuha, Shimabukuro).

SCRep. 3014 (Joint) Judiciary and Ways and Means on S.B. No. 2919

The purpose and intent of this measure is to:

- (1) Allow the counties to regulate by zoning ordinance the time, place, manner, and duration in which uses of land structures may take place;
- (2) Allow the counties to amortize or phase out transient accommodations uses in residential or agricultural zoned areas; and
- (3) Expand the scope of the transient accommodations tax law to include certain shelters and vehicles with sleeping accommodations.

Your Committees received testimony in support of this measure from one member of the Maui County Council, Housing Hawai'i's Future, Lāhainā Strong, ILWU Local 142, UNITE HERE Local 5, Hawaii Hotel Alliance, Hawai'i's Thousand Friends, American Hotel and Lodging Association, Hawai'i Lodging and Tourism Association, Keep it Kailua, and forty-four individuals.

Your Committees received testimony in opposition to this measure from GL Robinson Inc; Luana Cottage LLC; Hawai'i Association of REALTORS; Maui Miracle LLC; REALTORS Association of Maui, Inc.; Serendipity Associates; Hawai'i Island REALTORS; Honolulu Board of REALTORS; Attention to Detail Maui LLC; Hawai'i Mid and Short-Term Rental Alliance; Rosie's Rentals; Tisuli Property Group LLP; Papakea; Tropica USA Corp.; Maui Vacation Rental Association; Maui Chamber of Commerce; Kama'āina Occupied Short-Term Rentals O'ahu; Airbnb; O'ahu Short-Term Rental Alliance; Wailea Ekahi Gardens 52D LLC; BRX Rentals Inc.; Rental by Owners Awareness Association; Kinas Maui Condo Rentals LLC; and more than five hundred twenty individuals.

Your Committees received comments on this measure from the Department of Taxation, Land Use Commission, Grassroot Institute of Hawaii, Maui Eldorado Kaanapali, and three individuals.

Your Committees find that not only do short-term rentals disrupt the State's traditional and economically indispensable lodging industries, they also disrupt the character and fabric of residential neighborhoods. Short-term rentals that may not violate land use designations must be regulated so that transactions mutually benefit clients and community members alike. This measure promotes the orderly development of each county and ensures the greatest benefit to the State as a whole by creating a comprehensive regulatory scheme for short-term rentals of dwelling units and enhancing the zoning powers of the counties to eliminate future nonconforming uses over time.

Your Committees have amended this measure by:

- (1) Making the expanded scope of transient accommodations, that includes certain shelters and vehicles with sleeping accommodations, take effect on January 1, 2025; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2919, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2919, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

SCRep. 3015 Ways and Means on S.B. No. 2170

The purpose and intent of this measure is to establish a regulatory framework for combat sports contests to replace the regulatory frameworks for boxing contests and mixed martial arts contests.

More specifically, this measure:

- (1) Renames the State Boxing Commission as the Combat Sports Commission of Hawaii;
- (2) Clarifies the scope, makeup, powers, duties, and jurisdiction of the Combat Sports Commission of Hawaii;
- (3) Establishes a regulatory framework for professional combat sports contests;
- (4) Repeals Chapter 440E, Hawaii Revised Statutes, which regulated mixed martial arts contests; and
- (5) Appropriates moneys to fund an unspecified number of full-time equivalent positions within the Department of Commerce and Consumer Affairs for the Combat Sports Commission of Hawaii.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Mayor of the County of Hawaii; and three individuals.

Your Committee received written comments on this measure from one individual.

Your Committee finds that regulating, and establishing a commission to oversee, combat sports contests in the State will help to protect the safety and well-being of combat sports athletes while promoting the professional combat sports industry in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2170, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3016 Ways and Means on S.B. No. 2770

The purpose and intent of this measure is to authorize the counties to establish a program that allows an annual payment in lieu of real property taxes on land or improvements that are used to produce or store renewable energy.

Your Committee received written comments in support of this measure from the Hawaii State Energy Office, City and County of Honolulu Department of Budget and Fiscal Services, Longroad Energy, Ulupono Initiative, Hawaii Solar Energy Association, Hawaiian Electric, and one individual.

Your Committee finds that the opt-in program authorized by this measure will help support the State's renewable energy goals by providing financial certainty to renewable energy producers under long-term power purchase contracts, while also minimizing lost revenues for the counties.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2770 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3017 Ways and Means on S.B. No. 3060

The purpose and intent of this measure is to better assess the risk to the State from climate change.

Specifically, this measure:

- (1) Requires the Office of Planning and Sustainable Development to develop and publish a statewide climate adaptation and resilience implementation plan; and
- (2) Appropriates moneys to the Office of Planning and Sustainable Development to establish three full-time equivalent positions and pay for certain expenses.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Office of Planning and Sustainable Development; Democratic Party of Hawaii; and Hawaii Food Industry Association.

Your Committee finds that Hawaii faces substantial financial risks due to climate change, including infrastructure damage, financial losses, and negative impacts to agriculture and fisheries. Your Committee further finds that although many specific plans relating to climate adaptation have been published, there is currently no statewide climate adaptation and resilience implementation plan that assesses the overall financial risk to the State associated with climate change.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3060, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3018 Ways and Means on S.B. No. 3265

The purpose and intent of this measure is to promote the continued development of the state film industry.

More specifically, this measure:

- (1) Establishes the Hawaii Film Advisory Council;
- (2) Amends the Motion Picture, Digital Media, and Film Production Income Tax Credit to:
 - (A) Increase the aggregate cap amount from \$50,000,000 to \$60,000,000;
 - (B) Extend the sunset date of the tax credit to January 1, 2039;
 - (C) Clarify the requirements for an independent third-party certification; and
 - (D) Expand the definition of “qualified production” to include streaming platforms;
- (3) Provides a general excise tax exemption for certified development of film studio facilities; and
- (4) Makes an appropriation for the establishment of one full-time equivalent (1.0 FTE) film industry development liaison within the Creative Industries Division of the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawaii; Honolulu Film Office; Kauai Film Commission; Hawaii International Film Festival; Hawaii Lodging and Tourism Association; Hawaii Media, Inc.; Hawaii State AFL-CIO; IATSE Local 665; Island Film Group; SAG-AFTRA Hawaii Local; and twenty-four individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that economic diversification is crucial to the resiliency of the State. Your Committee also finds that the film production industry contributes to the State’s small businesses and public educational institutions, and aids in marketing the State as a visitor destination. Your Committee believes that this measure incentivizes film production in the State, as well as the building of much needed infrastructure.

Your Committee has amended this measure by:

- (1) Changing the aggregate cap amount of the Motion Picture, Digital Media, and Film Production Income Tax Credit to an unspecified amount;
- (2) Amending the definition of “qualified production costs” under the Motion Picture, Digital Media, and Film Production Income Tax Credit to include fashion production and music production costs;
- (3) Changing the amount of the appropriation for the full-time equivalent employee from \$130,000 to an unspecified amount; and
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3265, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3265, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3019 (Joint) Judiciary and Ways and Means on S.B. No. 2520

The purpose and intent of this measure is to:

- (1) Require the State to defend professionally licensed or certified state employees from civil actions when the employee was acting within the scope of their employment and was not grossly negligent or wanton, or failing to cooperate;
- (2) Clarify that the employee may employ their own attorney at the employee’s own expense; and
- (3) Require that if the State refuses to defend a state employee from civil actions on certain grounds, the Attorney General shall first work with the employee to amicably transfer representation to the replacement counsel, and if necessary, file a motion to withdraw as counsel as a confidential document.

Your Committees received testimony in support of this measure from the Hawaii Association for Justice; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawaii State AFL-CIO.

Your Committees find that currently state employees are not supported if they face civil action even if the employee’s actions are within the scope of employment. Your Committees further find that it is critical to appropriately balance the protection of a resident’s rights while providing protection to state employees if legal issues arise. This measure will prevent undue stress and financial burdens on state employees by providing protections if an employee faces civil action due to actions conducted in their capacity as a public employee.

Your Committees have amended this measure by clarifying that if the Attorney General and state employee cannot amicably transfer representation, the Attorney General shall file a motion to withdraw as counsel, regardless of any determination as to whether a motion to withdraw as counsel is required to be filed.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2520, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2520, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Judiciary: Ayes, 5. Noes, none. Excused, none.
Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

SCRep. 3020 (Joint) Judiciary and Ways and Means on S.B. No. 2351

The purpose and intent of this measure is to:

- (1) Require the Workforce Development Council and local workforce development boards to develop written conflict of interest policies consistent with federal law and regulations;
- (2) Require the Governor to select the Chairperson of the Council from among the seventeen private sector members;
- (3) Require the Workforce Development Council to assist the Governor in coordinating local workforce development boards to improve the workforce development system; and
- (4) Repeal the requirement for the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the activities of the K-12 Agriculture Workforce Development Pipeline Initiative.

Your Committees received testimony in support of this measure from IATSE Local 665.

Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations.

Your Committees find that Act 88, Session Laws of Hawaii 2021, eliminated the program identification number for the Hawaii Workforce Development Council and transferred its appropriation and positions to the Workforce Development Division of the Department of Labor and Industrial Relations. Your Committees believe that the Hawaii Workforce Development Council performs essential functions in assisting the Governor by serving as a planning and policy advisor to the Governor on workforce issues and is a primary architect of overall state workforce strategy. Your Committees additionally find that in order to conform to the Workforce Innovation and Opportunity Act and related Code of Federal Regulations, the Workforce Development Council should be renamed the Hawaii Workforce Development Board, therefore amendments to this measure are necessary.

Your Committees have amended this measure by:

- (1) Renaming the "Hawaii Workforce Development Council" the "Hawaii Workforce Development Board" and replacing the terms "workforce development council" or "council" with "workforce development board" or "board" as necessary;
- (2) Requiring the Governor to appoint the Chairperson of the Hawaii Workforce Development Board from among all of the members, instead of from among only the seventeen private sector members;
- (3) Deleting language that would have exempted the Executive Director of the Hawaii Workforce Development Board from chapter 89, Hawaii Revised Statutes;
- (4) Restoring statutory language that allows the Hawaii Workforce Development Board to hold hearings as the Board may deem advisable;
- (5) Restoring statutory language that allows the Hawaii Workforce Development Board to administer funds allocated for its work and accept, disburse, and allocate funds which may become available from other governmental and other private sources;
- (6) Inserting language restoring and transferring to the Hawaii Workforce Development Board the program identification number and positions that were transferred to the Workforce Development Division of the Department of Labor and Industrial Relations from the Hawaii Workforce Development Council by Act 88, Session Laws of Hawaii 2021;
- (7) Inserting a blank appropriation amount for an unspecified number of positions within the Hawaii Workforce Development Board;
- (8) Making conforming amendments;
- (9) Amending section 1 to reflect its amended purpose; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2351, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2351, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 13. Noes, none. Excused, none.

SCRep. 3021 (Joint) Judiciary and Ways and Means on S.B. No. 2615

The purpose and intent of this measure is to authorize the counties to adopt labor standards that include but are not limited to standards for living wages, benefits, and requirements for participation in state-approved apprenticeship programs; provided that the labor standards adopted by the counties do not directly conflict with labor standards established by the State.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Office of the Mayor of the City and County of Honolulu, one member of the Kaua'i County Council, one member of the Honolulu City Council, one member of the Maui County Council, Pacific Resource Partnership, Hawaii Harbors Users Group, and Hawaii Regional Council of Carpenters.

Your Committees received testimony in opposition to this measure from the Maui Chamber of Commerce and Retail Merchants of Hawaii.

Your Committees find that labor violations harm the State's local workforce and their livelihoods. Your Committees further find that some businesses deploy "underground economy" schemes to obscure or distort their responsibilities as employers to comply with regulatory requirements, including those related to wages, payroll taxes, insurance, licensing, and safety. Granting the counties the capacity to adopt labor standards empowers them to protect and ensure the well-being of workers and their families. This measure provides the counties an opportunity to cultivate positive change while instituting fair labor standards and practices.

As affirmed by the records of votes of the members of your Committees on Judiciary and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2615, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

SCRep. 3022 Ways and Means on S.B. No. 2527

The purpose and intent of this measure is to promote development of the high technology industry in the State.

More specifically, this measure:

- (1) Temporarily reinstates the Technology Infrastructure Renovation Tax Credit;
- (2) Amends the definition of "renovation costs" to include the repair, replacement, monitoring, and testing of technology-enabled infrastructure machinery; and
- (3) Expands the definition of "technology-enabled infrastructure" to include data servers.

Your Committee received written comments in support of this measure from Charter Communications, Hawaiian Electric, Hawaiian Telcom, and Servpac.

Your Committee received written comments on this measure from the Department of Taxation, Chamber of Commerce Hawaii, and Tax Foundation of Hawaii.

Your Committee finds that upgrading and modernizing equipment necessary for data storage will improve resilience against physical damage caused by weather-related events and cybersecurity threats, and will ensure the continued, uninterrupted provision of services to Hawaii businesses, state government, satellite agencies, and residents. Your Committee believes that this measure will promote the development of the high technology industry in the State and yield greater investment from within and outside of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2527, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3023 Ways and Means on S.B. No. 2768

The purpose and intent of this measure is to require the Hawaii State Energy Office to adopt rules establishing a clean fuel standard for gasoline and diesel fuel in the State.

Your Committee received written comments in support of this measure from Clean Energy, Neste, Biotechnology Innovation Organization, Clean Fuel Hawaii, Island Energy Services, and Simonpietri Enterprises.

Your Committee received written comments on this measure from the Hawaii State Energy Office, Par Hawaii, and one individual.

Your Committee finds that the clean fuel standard required by this measure will help decarbonize Hawaii's transportation fuels and aligns with the State's goal of achieving one hundred percent clean energy by 2045.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2768, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3024 Ways and Means on S.B. No. 2182

The purpose and intent of this measure is to make permanent the Ocean Stewardship Special Fund.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Kuaaina Ulu Auamo, Nature Conservancy, Sierra Club of Hawaii, and one individual.

Your Committee received written comments in opposition to this measure from the Ocean Tourism Coalition.

Your Committee finds that Hawaii's ocean waters and marine resources are some of the State's most ecologically, economically, and culturally valuable environmental assets. Your Committee further finds that Act 46, Session Laws of Hawaii 2021, created the Ocean Stewardship Special Fund to provide a sustainable funding source for the conservation, restoration, enhancement, and management of the State's marine resources. Your Committee finds that making the special fund permanent will ensure that fees paid by ocean users will continue to be used for ongoing conservation efforts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2182 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3025 Ways and Means on S.B. No. 3360

The purpose and intent of this measure is to incentivize locally grown, produced, generated, or collected renewable fuel.

More specifically, this measure amends the Renewable Fuels Production Tax Credit by:

- (1) Changing the cap amount from \$3,500,000 to seventy-five per cent of the aggregate cap amount;
- (2) Changing the aggregate cap amount from \$20,000,000 to an unspecified amount;
- (3) Changing the credit period from ten consecutive years to an unspecified number of years;
- (4) Establishing an additional tax credit for renewable fuels produced from renewable feedstock locally grown or recycled in the State;
- (5) Establishing an additional tax credit for renewable fuels produced with lifecycle greenhouse gas emissions that are at least seventy-five per cent below that of fossil fuels; and
- (6) Defining the terms “lifecycle greenhouse gas emissions” and “locally grown”.

Your Committee received written comments in support of this measure from the Biotechnology Innovation Organization; Hawaii Farm Bureau; Hawaii Forest Industry Association; Island Energy Services; Pacific Biodiesel Technologies, LLC; Par Hawaii; Pono Pacific Land Management, LLC; and two individuals.

Your Committee received written comments in opposition to this measure from one individual.

Your Committee received written comments on this measure from the Department of the Attorney General, Department of Taxation, Hawaii State Energy Office, Airlines for America, Environmental Caucus of the Democratic Party of Hawaii, Hawaiian Airlines, and Tax Foundation of Hawaii.

Your Committee finds that, in order for electric utility companies to meet the renewable portfolio standards required by section 269-92(a), Hawaii Revised Statutes, each electric utility company’s renewable portfolio standard must include sufficient locally sourced firm, renewable energy sources to offset the intermittent nature of wind- and solar-powered renewable energy. Your Committee also finds that, to ensure sustainable inventories of these energy sources, long-term planning that includes incentives are essential for investment and development of locally sourced firm, renewable energy production.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3360, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12; Ayes with Reservations (Wakai). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3026 (Majority) Ways and Means on S.B. No. 3157

The purpose and intent of this measure is to encourage the productive use of public lands.

Specifically, this measure authorizes the use of direct negotiation to dispose of public land leases for agricultural, commercial, industrial, resort, and hotel purposes.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources.

Your Committee received written comments in opposition to this measure from UNITE HERE Local 5 and League of Women Voters of Hawaii.

Your Committee received written comments on this measure from a member of the Hawaii County Council.

Your Committee finds that the public auction process that is normally used to dispose of leases has become protracted, cumbersome, and uncertain, to the extent that it discourages participation by potential lessees. As a result, certain state properties have remained vacant, generating no income and serving no public benefit, while in some cases incurring management costs for the Department of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Providing that only public lands that do not qualify for disposition under section 171-59(a), Hawaii Revised Statutes, are eligible for disposition by negotiation under section 171-59(b), Hawaii Revised Statutes;
- (2) Requiring the Board of Land and Natural Resources to approve the disposition;
- (3) Correcting the text of section 171-59(b), Hawaii Revised Statutes, to reflect the printed version of the Hawaii Revised Statutes; and
- (4) Changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3157, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3157, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, 1 (Fevella). Excused, 1 (Shimabukuro).

SCRep. 3027 Ways and Means on S.B. No. 2305

The purpose and intent of this measure is to establish and appropriate moneys for a Silver Alert Program within the Department of Law Enforcement to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled.

Your Committee received written comments in support of this measure from the Department of Law Enforcement, Department of Human Services, Executive Office on Aging, Hawaii State Council on Developmental Disabilities, United Public Workers, Catholic Charities Hawaii, Hawaii Primary Care Association, Gimme A Break, Kokua Council, Papa Ola Lokahi, Alzheimer's Association, UNITE HERE Local 5, Chamber of Commerce Hawaii, AARP Hawaii, Hawaii Disability Rights Center, Hawaii Teamsters 996, Hawaii Family Caregiver Coalition, Easterseals Hawaii, Hawaii Public Health Institute, Hawaii Medical Service Association, Hawaii Government Employee Association, Hawaii Public Health Association, Oahu Search and Rescue, Association of Hawaiian Civic Clubs, and numerous individuals.

Your Committee finds that silver alerts have proven effective in thirty-seven other states. Establishing a Silver Alert Program in Hawaii will help law enforcement officers locate and protect the elderly and other vulnerable persons in the State who are missing.

Your Committee has amended this measure by changing the appropriation to an unspecified sum, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2305, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2305, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3028 Ways and Means on S.B. No. 3109

The purpose and intent of this measure is to ensure that the efforts under Act 279, Session Laws of Hawaii 2022 (Act 279), to reduce the number of applicants on the Department of Hawaiian Home Lands waitlist comply with applicable provisions of the Hawaii State Constitution.

Your Committee received written comments in support of this measure from the Department of Hawaiian Home Lands, Department of Budget and Finance, and two individuals.

Your Committee received written comments on this measure from the Tax Foundation of Hawaii.

Your Committee recognizes that the appropriation made by Act 279 does not comply with Article VII, section 11, of the Hawaii State Constitution, which provides that appropriations for which the source is general funds shall not be made for a period exceeding three years. Your Committee finds that this measure proposes an appropriate solution to this issue by correcting Act 279's original general fund appropriation lapse date and making a new appropriation for fiscal year 2024-2025.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3109, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3109, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3029 Ways and Means on S.B. No. 2764

The purpose and intent of this measure is to transfer the King Kamehameha Celebration Commission and State Foundation on Culture and the Arts to the Department of Business, Economic Development, and Tourism.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism, Department of Accounting and General Services, Hawaii International Film Festival, and one individual.

Your Committee received written comments in opposition to this measure from SAG-AFTRA Hawaii Local, IATSE Local 665, and two individuals.

Your Committee received written comments on this measure from the State Foundation on Culture and the Arts.

Your Committee finds that the King Kamehameha Celebration Commission and State Foundation on Culture and the Arts are currently housed within the Department of Accounting and General Services. Your Committee further finds that transferring the Commission and Foundation to the Department of Business, Economic Development, and Tourism will improve administrative efficiency and facilitate the operations of the transferred entities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2764, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3030 Ways and Means on S.B. No. 3126

The purpose and intent of this measure is to improve access to emergency aeromedical services on the neighbor islands.

More specifically, the measure:

- (1) Establishes an Emergency Aeromedical Services Partnership Program to be administered by the Department of Health in counties having populations of less than five hundred thousand;
- (2) Requires revenue-sharing and cost-sharing for program operations and maintenance costs between the State and the Counties of Hawaii, Kauai, and Maui; and
- (3) Authorizes deposits into the Emergency Medical Services Special Fund.

Your Committee received written comments in support of this measure from the Department of Health, Hawaii Fire Department, Hawaii Pacific Health, Global Medical Response, and one individual.

Your Committee finds that providing the neighbor islands with greater access to emergency aeromedical services will help improve health care and health outcomes, especially for residents in medically-underserved rural areas of the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3126, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3031 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2673

The purpose and intent of this measure is to require that the authorized insurance benefits for chiropractic treatments for personal injury protection benefits under motor vehicle insurance be tied to the charges, and any subsequent increases in charges, permissible under the workers' compensation supplemental medical fee schedule.

Your Committees received testimony in support of this measure from the Hawaii State Chiropractic Association, Turning Point Chiropractic, Aloha Family Chiropractic, Dr. Jill Dawrs Family Chiropractic Clinic, and eleven individuals.

Your Committees received testimony in opposition to this measure from the American Property Casualty Insurance Association.

Your Committees received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and Hawaii Insurers Council.

Your Committees find that Act 251, Session Laws of Hawaii 1997, amended the Motor Vehicle Insurance law and established the personal injury protection benefit for chiropractic treatments, which was set out as the lesser of thirty visits at not more than \$75 per visit or treatment as defined by the Hawaii State Chiropractic Association guidelines. Your Committees find that in the nearly three decades since this benefit was first established, the cost of chiropractic care has continually increased, while the statutory benefit provided has remained the same. Therefore, this measure aligns the authorized benefit for chiropractic care with that for acupuncture treatments, which ties charges to those permissible under the workers' compensation supplemental medical fee schedule, and ensures equitable, fair, and accessible chiropractic care for individuals recovering from automobile accidents.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2673, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3032 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2503

The purpose and intent of this measure is to:

- (1) Require all places of public accommodation and state building constructions constructed after December 31, 2024, to provide universal changing accommodations that are equally accessible regardless of gender; and
- (2) Require state building construction projects that are bid on after June 30, 2025, to include universal changing accommodations that are equally accessible regardless of gender, when doing so is feasible and cost effective.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Disability and Communication Access Board, State Council on Developmental Disabilities, Stonewall Caucus of the Democratic Party of Hawai'i, Hawai'i Youth Services Network, and four individuals.

Your Committees received comments on this measure from the Retail Merchants of Hawaii.

Your Committees find that universal changing stations, which generally have height-adjustable, adult-size changing tables that can accommodate all persons, are necessary in places of public accommodation, such as restaurants, hotels, and movie theaters, to allow individuals with disabilities an equal opportunity to participate in the activities and enjoyments of everyday life. By requiring new public accommodations and state buildings to provide universal changing accommodations, this measure will provide safe, hygienic, and dignified access to public restrooms for individuals who may not be able to access standard accessible restrooms, and move Hawaii ever closer towards its goal of achieving a truly inclusive society.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2503, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2503, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3033 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 3220

The purpose and intent of this measure is to:

- (1) Transfer the jurisdiction of enforcement of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation;
- (2) Make conforming amendments related to the transfer of jurisdiction; and
- (3) Make an appropriation to support the transfer of functions related to the Motor Carrier Law to the Department of Transportation.

Your Committees received testimony in support of this measure from the Department of Transportation; Hawaii Transportation Association; Moniz Trucking LLC; and Pineridge Farms, Inc.

Your Committees received comments on this measure from the Public Utilities Commission.

Your Committees find that under the Motor Carrier Law, the Public Utilities Commission regulates certain passenger and property motor carriers. Passenger carriers are classified by authorized vehicle seating capacity and include tour companies, limousine services, and other transportation providers. Property carriers are classified by the types of commodities transported and the nature of services performed, such as general commodities, household goods, commodities in dump trucks, and specific commodities. Your Committees further find that the Department of Transportation, which has jurisdiction over the State's facilities and infrastructure in all modes of transportation (land, air, and water), would be better-suited to regulate and enforce the Motor Carrier Law, as the regulation of vehicles over the public highways would more naturally fall under its purview. Your Committees also find that the Department of Transportation has a larger number of enforcement officers than the Public Utilities Commission and a better enforcement presence throughout the State. Therefore, this measure transfers jurisdiction over the enforcement of the Motor Carrier Law to the Department of Transportation for the purpose of improving administrative efficiency.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3220, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3220, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3034 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 3316

The purpose and intent of this measure is to:

- (1) Require monthly rather than annual reporting of restricted use pesticides;
- (2) Amend the contents of reports to include specific geospatial data and information, specific site information including commodity or crop information, and increased detail on the amount of restricted use pesticides used; and
- (3) Require the Department of Agriculture to develop an online reporting tool for restricted use pesticides.

Your Committees received testimony in support of this measure from the Green Party of Hawai'i, Kauai Climate Action Coalition, When We Shine Foundation, Kanalani Ohana Farm, Hawai'i Alliance for Progressive Action, Hawai'i Farmers Union United, Greener Hawaii, and forty-seven individuals.

Your Committees received testimony in opposition to this measure from the Department of Agriculture, Hawaii Pest Control Association, Hawai'i Farm Bureau, National Pest Management Association, and one individual.

Your Committees received comments on this measure from Sugarland Farms, Inc. and CropLife America.

Your Committees find that restricted use pesticide exposure can cause significant harm to public health and the environment. Act 45, Session Laws of Hawaii 2018, established certain requirements intended to address and curb restricted use pesticide abuse in Hawaii, and required all users of restricted use pesticides to annually report their use to the Department of Agriculture. However, your Committees find that the infrequency of these reports and the lack of detailed information provided therein have made it difficult for policymakers, environmental experts, and the residents who reside near large tracts of agricultural land where restricted use pesticides are commonly sprayed, to determine what was sprayed, where, when, and in what quantities. This measure updates the Hawaii Pesticides Law by improving the reporting requirements relating to restricted use pesticides to allow policymakers and public health experts to better monitor and make evidence-based decisions regarding its use.

However, your Committees recognize the concerns raised in testimony regarding the challenges that monthly reporting would place on small farm operations and other small agricultural businesses that use restricted use pesticides. Your Committees also recognize the

concerns regarding the reporting of specific site information, including commodity or crop information as the disclosure can lead to an increase in trespassing, vandalism, and theft.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have required monthly reporting of pesticide use and replacing it with language that requires quarterly reporting of restricted pesticide use to the Department of Agriculture;
- (2) Deleting language that would have required the contents of the reports to include, and the Department of Agriculture to disclose to the public, specific site information including commodity or crop information where the restricted use pesticide application occurred;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3316, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3316, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 12; Ayes with Reservations (DeCoite). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3035 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2106

The purpose and intent of this measure is to establish the Access to Local Value-Added Products Act to allow homemade food operations to sell homemade food products, under certain conditions, upon registering with and receiving a permit from the Department of Health.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; Hawaii Tropical Fruit Growers; Hawai'i Farm Bureau; Institute for Justice; Grassroot Institute of Hawaii; Maui Chamber of Commerce; Hawaiian Goodness LLC; Hawaii Master Food Preservers, Inc.; Pukana Lā Farms; Sally Jane's Sweets and Savories; and four individuals.

Your Committees received testimony in opposition to this measure from the Department of Health.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the homemade food industry, which includes home-cooked food products that are sold directly to consumers, is a small but growing industry that is preferred by certain consumers who are mindful of responsible food sourcing, interested in a healthy lifestyle, and want to support the local communities and individuals who produce the foods that they enjoy. Your Committees find that despite the great interest in homemade food, the existing regulatory framework creates many challenges and burdens for those who cannot easily comply with the requirements established by the Department of Health. Your Committees find that by enacting this measure, the State can help support and grow small businesses, offer locally-made alternatives to imported brands, create local employment opportunities, and keep more money within local communities.

Your Committees have amended this measure by:

- (1) Deleting language that would have established a permitting system for homemade food operations administered by the Department of Health and replacing it with language requiring homemade food operations to register with the Department of Health;
- (2) Inserting language to require a homemade food operation to submit for each homemade food operator proof of a valid food safety manager certificate issued by a program accredited by the American National Standards Institute, in addition to a food handlers education certificate;
- (3) Deleting language that would have exempted the production and sale of homemade food products regulated under this measure from all other licensing, permitting, inspection, packaging, and labeling laws administered by the Department of Health, subject to certain conditions;
- (4) Deleting language that would have established certain requirements regulating the sale and delivery of non-potentially hazardous homemade food products and potentially hazardous homemade food products;
- (5) Deleting language that would have clarified that homemade food operations shall be allowed to the maximum extent permitted by federal law and that homemade food operations shall be allowed to sell certain poultry, poultry byproducts, poultry food products, and seafood;
- (6) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2106, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2106, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3036 (Joint) Commerce and Consumer Protection and Ways and Means on S.B. No. 2122

The purpose and intent of this measure is to amend and extend the deadline to achieve the State's energy efficiency portfolio standards target from 2030 to 2045 and to further develop and clarify procedures for the energy efficiency portfolio standards established and overseen by the Public Utilities Commission.

Your Committees received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Hawaii State Energy Office; Public Utilities Commission; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Hawaiian Electric; Blue Planet Foundation; Ulupono Initiative; Wild Kids Hawai'i; 350Hawaii.org; Hawai'i Energy; Hawaii Solar Energy Association; Democratic Party of Hawai'i; and nine individuals.

Your Committees find that energy efficiency is a means of using less energy to provide the same or greater level of energy services to end-users. Act 155, Session Laws of Hawaii 2009, codified energy efficiency goals for the State by establishing an energy efficiency portfolio standard of reducing statewide electricity use by 4,300 gigawatt-hours by 2030, requiring the Public Utilities Commission to establish interim goals for electricity use reduction to maximize cost-effective energy-efficiency programs and technologies. Your Committees find that tremendous progress has been made towards this goal and this measure, by updating the energy-efficiency portfolio standards target to 6,000 gigawatt-hours of cumulative persisting electricity savings by 2045, will ensure that Hawaii residents will continue to see the benefits from energy-efficiency programming over the next two decades. Further, by aligning the energy-efficiency portfolio standards target date with that of the State's renewable energy portfolio standards target date, this measure will help facilitate improved monitoring and coordinated planning across the state energy sector.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2122, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3037 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 2605

The purpose and intent of this measure is to, beginning January 1, 2025:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to provide health insurance coverage for various sexual and reproductive health care services; and
- (2) Apply the health insurance coverage for various sexual and reproductive health care services to health benefits plans under the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committees received testimony in support of this measure from one member of the Hawai'i County Council; Save Medicaid Hawaii; Stonewall Caucus of the Democratic Party of Hawai'i; Rainbow Family 808; Hawaii State Democratic Women's Caucus; Hawai'i Health & Harm Reduction Center; Planned Parent Alliance Advocates – Hawai'i; QueerDoc, PLLC; Hawaii Medical Service Association; the Hawai'i Section of the American College of Obstetricians and Gynecologists; and twenty-eight individuals.

Your Committees received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Kaiser Permanente Hawaii, and Hawaii Association of Health Plans.

Your Committees find that Hawaii has long been at the forefront of advancing reproductive rights and advocating for access to affordable and comprehensive sexual and reproductive health care. For example, in 1970, Hawaii became the first state to legalize abortion, three years before that right was determined to be a constitutional right protected nationwide by the United States Supreme Court. While Hawaii has since continued to make great strides in providing and expanding access to sexual and reproductive health care, your Committees find that, over time, these benefits and protections have remained under threat from those who desire to limit or prevent access to them entirely. Therefore, this measure will ensure that health insurance coverage for sexual and reproductive health care services will remain available for all people in Hawaii, protecting each resident's individual freedom to make their own sexual and reproductive health care decisions.

Your Committees note the concerns raised in testimony pertaining to the discrepancies in this measure regarding the definition of "contraceptive supplies" and whether coverage is required for alternative contraceptive supplies when a contraceptive supply covered by a policy is deemed medically inadvisable by the insured's health care provider. Accordingly, amendments to this measure are necessary to address these concerns.

Therefore, your Committees have amended this measure by:

- (1) Amending the definition of "contraceptive supplies" throughout the measure to exclude contraceptive drugs, devices, or products used by the partner of the insured, subscriber, or member;
- (2) Deleting language that would have required a mutual benefit society to cover an alternative contraceptive supply prescribed by a health care provider if a contraceptive supply covered by a policy is deemed medically inadvisable by the insured's health care provider, to conform with the coverage requirement for individual or group accident and health or sickness insurers, and health maintenance organizations; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2605, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2605, S.D. 2.

Signed by the Chairs on behalf of the Committees.
 Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).
 Ways and Means: Ayes, 11. Noes, 1 (Fevella). Excused, 1 (Shimabukuro).

SCRep. 3038 Ways and Means on S.B. No. 3002

The purpose and intent of this measure is to appropriate moneys to the Department of Transportation to implement the recommendations of the statewide Mobility Management Task Force in consultation with the Aging and Disability Resource Center.

Your Committee received written comments in support of this measure from the Disability and Communication Access Board, Executive Office on Aging, Oahu Metropolitan Planning Organization, State Rehabilitation Council, AARP Hawaii, National Federation of the Blind of Hawaii, and three individuals.

Your Committee received written comments on this measure from the Department of Human Services.

Your Committee finds that reliable transportation is essential for people with disabilities to be independent, have an active lifestyle, and access necessary services such as medical care. Your Committee further finds that Act 214, Session Laws of Hawaii 2013, established a task force on mobility management. The task force submitted a report to the Legislature in 2015 making a variety of recommendations for establishing a transportation framework to assist elders and people with disabilities with transportation needs in each county. Your Committee recognizes that there remains a strong need for mobility management in the State, and believes that implementing the recommendations made by the task force is critical to meeting the transportation needs of the State's disabled and elderly population.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3002, S.D. 1.

Signed by the Chair on behalf of the Committee.
 Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3039 Ways and Means on S.B. No. 3021

The purpose and intent of this measure is to expand the scope of the electric bicycle and electric moped rebate program.

More specifically, this measure:

- (1) Renames the electric bicycle and electric moped rebate program as the electric mobility rebate program and expands the scope of the program to include additional types of electric mobility devices;
- (2) Increases the rebate amount available under the rebate program; and
- (3) Clarifies the Department of Transportation's duties regarding the rebate program.

Your Committee received written comments in support of this measure from the Department of Transportation, Hawaii State Energy Office, Oahu Metropolitan Planning Organization, Blue Planet Foundation, Hawaii Appleseed Center for Law and Economic Justice, Hawaii Bicycling League, Ulupono Initiative, and numerous individuals.

Your Committee finds that providing increased rebates for more types of electric mobility devices in addition to electric bicycles and electric mopeds will help to reduce carbon emissions in the State, thus helping the State to achieve its decarbonization goals.

Your Committee notes that in its written comments on this measure, the Department of Transportation recommended amending this measure by:

- (1) Inserting in Section 1 of the measure a provision stating that the measure is recommended by the Governor for immediate passage in accordance with section 9 of article VII of the Constitution of the State of Hawaii;
- (2) Deleting the provision authorizing the Department of Transportation to prepare a retailer application and portal; and
- (3) Inserting an appropriation of moneys into and out of the electric mobility subaccount of the highway development special fund for fiscal years 2023-2024 and 2024-2025, and clarifying that:
 - (A) Any unencumbered funds shall lapse on June 30, 2025, and June 30, 2026, respectively; and
 - (B) The moneys appropriated shall be expended by the Department of Transportation for the electric mobility rebate program.

Your Committee has amended this measure by:

- (1) Correcting the name of the funding mechanism for the electric mobility rebate program;
- (2) Clarifying that the Department of Transportation shall provide its annual reports on the rebate program to the Legislature no later than twenty days prior to the convening of each regular session;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3021, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3021, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3040 Ways and Means on S.B. No. 2497

The purpose and intent of this measure is to encourage high technology research in the State.

Specifically, this measure amends the tax credit that is available for research activities by:

- (1) Increasing the total amount of certified credits to an unspecified sum;
- (2) Extending the sunset date of the credit; and
- (3) Amending the definition of the term “qualified high technology business.”

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Hawaii Food Industry Association; Chamber of Commerce Hawaii; H Nu Photonics LLC; PaeMar Technologies; Nalu Scientific, LLC; and two individuals.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that research activities stimulate the State’s economy and create beneficial employment opportunities for residents. Your Committee further finds that the amendments made by this measure to the tax credit available for research activities will allow for a wider distribution of tax credits to qualified companies.

Your Committee has amended this measure by amending the definition of the term “qualified high technology business” to remove the requirement that the employees of a business’s affiliates be included when determining the number of employees that the business employs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2497, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3041 Ways and Means on S.B. No. 2817

The purpose and intent of this measure is to appropriate moneys to the University of Hawaii to establish five full-time equivalent (5.0 FTE) faculty positions in the College of Tropical Agriculture and Human Resources to provide for additional extension specialist and extension agent positions.

Your Committee received written comments in support of this measure from the University of Hawaii, Hawaii Cattlemen’s Council, Hawaii Farm Bureau, Ulupono Initiative, and University of Hawaii Professional Assembly.

Your Committee finds that there are significant gaps in the reach of the University of Hawaii College of Tropical Agriculture and Human Resources Cooperative Extension programs due to staff vacancies. Your Committee further finds that the Cooperative Extension programs rely on the knowledge and experience of county extension agents and extension specialists to extend research-based knowledge from the land-grant university out to the residents and agricultural producers of the State. Your Committee also finds that these positions are essential for the health and well-being of Hawaii’s agricultural producers and consumers.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2817, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3042 Ways and Means on S.B. No. 2726

The purpose and intent of this measure is to require the Legislative Reference Bureau to conduct a study on certain other states’ approaches to various issues regarding condominiums.

Your Committee received written comments in support of this measure from AARP Hawaii, Community Associations Institute, Honolulu Tower AOA, and nine individuals.

Your Committee received written comments on this measure from the State Procurement Office and two individuals.

Your Committee finds that Act 189, Session Laws of Hawaii 2023, established the Condominium Property Regime task force and required an interim report to the Legislature before the Regular Session of 2024. Your Committee further finds that in the interim

report, the task force requested that the Legislative Reference Bureau study and report to the Legislature on certain subjects relating to condominiums to enable the task force to better recommend legislation on an informed and objective basis.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2726, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3043 Ways and Means on S.B. No. 2044

The purpose and intent of this measure is to facilitate the collection of conveyance-related taxes.

Specifically, the measure:

- (1) Establishes that the transfer of a controlling interest in an entity that owns real property in the State shall be subject to the conveyance tax established in Chapter 247, Hawaii Revised Statutes;
- (2) Requires an unspecified amount of revenue from taxes established under Chapter 247, Hawaii Revised Statutes, to be deposited into the dwelling unit revolving fund; and
- (3) Requires the Department of Taxation to adopt applicable administrative rules.

Your Committee received written comments in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawaii Housing Finance and Development Corporation, Partners In Care, and two individuals.

Your Committee received written comments in opposition to this measure from the Grassroot Institute of Hawaii, NAIOP Hawaii, and Land Use Research Foundation of Hawaii.

Your Committee received written comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee recognizes that current taxation law inadvertently allows parties, usually large investors, to avoid paying conveyance taxes by transferring real property through entity-level transactions. Your Committee finds it appropriate to close this legal loophole and deposit a portion of resulting tax revenues into the dwelling unit revolving fund, which is used to support state housing development programs and regional state infrastructure programs.

Your Committee has amended this measure by inserting a definition of the term "fair market value" into the relevant tax statute.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2044, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2044, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3044 (Joint) Ways and Means and Judiciary on S.B. No. 2913

The purpose and intent of this measure is to establish a regulatory framework for the sale of travel insurance in the State.

Your Committees received written comments in support of this measure from Allianz Global Assistance Service Company, American Property Casualty Insurance Association, Hawaii Insurers Council, and United States Travel Insurance Association.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees received written comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committees find that the provisions of this measure closely mirror a model regulatory framework that has been adopted by thirty-five other states. Your Committees believe that adopting a regulatory framework for the sale of travel insurance in the State that is substantially similar to the widely adopted model framework will help to benefit consumers, empower regulators, ensure that the travel insurance marketplace is operated fairly, and provide increased clarity to the application of the State's insurance regulations.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2913, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3045 (Joint) Ways and Means and Judiciary on S.B. No. 3234

The purpose and intent of this measure is to enable the Hawaii Property Insurance Association and the Hawaii Hurricane Relief Fund to underwrite certain insurance risks in the State.

More specifically, this measure:

- (1) Establishes a separate transient accommodation tax rate to be levied and assessed on transient vacation rentals, and provides for the distribution of tax revenues levied and assessed on transient vacation rentals;
- (2) Establishes a property insurance surcharge on conveyance tax to be levied and assessed on certain transfers and conveyances of real property, and provides for the distribution of revenues from the surcharge on conveyance tax;
- (3) Clarifies the duties of the Hawaii Property Insurance Association, including requiring the Hawaii Property Insurance Association to establish in its plan of association may be eligible to be insured by the Hawaii Property Insurance Association, establish a reserve trust fund, and receive moneys from certain taxes, fees, and surcharges;
- (4) Authorizes the Hawaii Property Insurance Association to provide property insurance other than fire insurance for certain real properties organized as a condominium;
- (5) Requires Hawaii Property Insurance Association member insurers to impose a surcharge on certain insurance premiums to recoup assessments paid to cover extraordinary losses incurred by the Hawaii Property Insurance Association;
- (6) Requires property and casualty insurers to impose a surcharge on certain insurance premiums to recoup assessments paid to the Hawaii Hurricane Relief Fund;
- (7) Amends specific coverage limits, fund capitalization amounts, and assessment percentages; and
- (8) Authorizes the Insurance Commissioner to reinstate the special mortgage recording fee.

Your Committees received written comments in support of this measure from the Hawaii Green Infrastructure Authority, Community Associations Institute, Hawaii Bankers Association, Hawaii Financial Services Association, Honolulu Tower Association of Apartment Owners, and one individual.

Your Committees received written comments on this measure from the Department of Commerce and Consumer Affairs, Department of Taxation, Hawaii REALTORS, Maui Chamber of Commerce, State Farm Mutual Automobile Insurance Company, and Tax Foundation of Hawaii.

Your Committees find that enabling the Hawaii Property Insurance Association and Hawaii Hurricane Relief Fund to underwrite certain insurance risks that may otherwise not be underwritten will help to stabilize the State's property insurance market and encourage property insurers to continue to do business in the State.

Your Committees note that in its written comments on this measure, the Department of Taxation recommended amending this measure to:

- (1) In lieu of imposing an additional tax on four different categories of transient vacation rentals, either:
 - (A) Increase the transient accommodations tax imposed on all transient accommodations; or
 - (B) Adopt a single definition of "transient vacation rental", without reference to county ordinance, to apply uniformly to all short-term rentals in the State;
- (2) Remove the proposed allocation formulas in section 237D-2(f), Hawaii Revised Statutes, and instead establish set funding allocation dollar amounts or percentages of all transient accommodations tax revenues collected under section 237D-6.5, Hawaii Revised Statutes; and
- (3) If the Department of Taxation's recommendations are adopted, changing the effective date for Sections 2, 3, 4, and 5 of this measure to January 1, 2026, to provide sufficient time for the Department of Taxation to:
 - (A) Develop the necessary forms, instructions, computer system, and administrative changes; and
 - (B) Provide taxpayer education about the increased taxes and requirements.

Your Committees also note that this measure does not include provisions that address insurance coverage for commercial properties in lava zones 1 and 2. Accordingly, your Committees respectfully request that this issue be considered as the measure moves forward in the legislative process.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3234, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

Judiciary: Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 3046 Ways and Means on S.B. No. 2081

The purpose and intent of this measure is to promote the growth and diversification of Hawaii's aerospace and aeronautics industries.

Specifically, this measure:

- (1) Establishes the Aerospace and Aeronautics Development Program;
- (2) Establishes the powers and duties of the program and its director; and
- (3) Appropriates moneys to establish the program.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development and Tourism; Hawaii Technology Development Corporation; and Chamber of Commerce Hawaii.

Your Committee finds that this measure will help to diversify and strengthen the State's economy by promoting the growth and diversification of Hawaii's aerospace and aeronautics businesses, which create high-paying jobs and take advantage of the State's unique geographic positioning and geological features.

Your Committee has amended this measure by deleting the appropriation to establish the program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2081, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3047 Ways and Means on S.B. No. 2814

The purpose and intent of this measure is to inventory and assess the State's existing water infrastructure.

Specifically, this measure:

- (1) Requires the Department of Agriculture, in collaboration with the Agribusiness Development Corporation and the counties, to conduct a water infrastructure study; and
- (2) Appropriates moneys to the Department of Agriculture to conduct the study.

Your Committee received written comments in support of this measure from the Agribusiness Development Corporation, Ulupono Initiative, Hawaii Farm Bureau, Local Food Coalition, and Hawaii Community Foundation.

Your Committee received written comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the regulation and monitoring of wells, irrigation ditches, reservoirs, and pump stations in the State are overseen by multiple agencies that have overlapping priorities and objectives. These agencies provide several informational inputs into a disjointed monitoring system that relies upon cooperation among the different agencies. As a result, the State presently lacks a complete inventory and comprehensive data system to track the condition and maintenance needs of water infrastructure in Hawaii.

Your Committee has amended this measure by:

- (1) Changing the amount appropriated to an unspecified sum; and
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2814, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2814, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3048 Ways and Means on S.B. No. 2728

The purpose and intent of this measure is to reestablish the regulation of appraisal management companies.

More specifically, this measure:

- (1) Reestablishes the appraisal management company registration program; and
- (2) Appropriates moneys to the Department of Commerce and Consumer Affairs for the implementation of the appraisal management company registration program.

Your Committee received written comments in support of this measure from Hawaii Bankers Association, Hawaii Financial Services Association, Hawaii REALTORS, Mortgage Bankers Association of Hawaii, and Real Estate Valuation Advocacy Association.

Your Committee received written comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that Chapter 466L, Hawaii Revised Statutes, establishing the appraisal management company registration program, was effectively repealed on June 30, 2023, pursuant to section 26H-4, Hawaii Revised Statutes. However, your Committee believes that the reestablishment of the registration program will help the State to avoid a mortgage availability shortage.

Your Committee has amended this measure by:

- (1) Specifically repealing chapter 466L, Hawaii Revised Statutes;
- (2) Changing the effective date for:
 - (A) Section 6 of this measure to an unspecified date in 2050;
 - (B) Section 7 of this measure to July 1, 2050; and
 - (C) The remaining provisions of this measure to September 30, 2050,to facilitate further discussion on the measure; and

(3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2728, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2728, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3049 Ways and Means on S.B. No. 3094

The purpose and intent of this measure is to establish, appropriate moneys for, and require a legislative report from a Peer Support Specialist Working Group that is tasked to develop and make recommendations for a framework for peer support specialists in the State.

Your Committee received written comments in support of this measure from the Judiciary, Department of Human Services, Department of Health, Hawaii State Council on Developmental Disabilities, Office of Wellness and Resilience, State Council on Mental Health, Commit to Keiki, Hawaii Substance Abuse Coalition, Hawaii Families as Allies, National Alliance on Mental Illness Hawaii, Hawaii Health and Harm Reduction Center, Hawaii Children's Action Network Speaks!, EPIC Ohana, Pua Foundation, Opportunity Youth Action Hawaii, Pacific Peer Connection, Koolau Clubhouse, Oahu Lived Experience Council, and numerous individuals.

Your Committee recognizes that peer support specialists have real life experience receiving services from systems of care, and peer support specialists draw upon their own experiences to assist other individuals experiencing similar situations through shared understanding, respect, and mutual empowerment.

Your Committee finds that increasing opportunities for peer support specialists to provide assistance is essential to creating a framework of trauma-informed care and peer support for homeless persons, individuals suffering from mental health disorders, and others in need.

Your Committee has amended this measure by changing the appropriation to an unspecified amount to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3094, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3094, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3050 Ways and Means on S.B. No. 2107

The purpose and intent of this measure is to authorize the Attorney General to appoint a special counsel to assume the Attorney General's powers and responsibilities over an investigation, prosecution, or administrative action if direct involvement of the Department of the Attorney General presents a conflict of interest, and having outside counsel is in the public interest.

Your Committee received written comments in opposition to this measure from the Department of the Attorney General.

Your Committee finds that authorizing the Attorney General to appoint a special counsel in certain matters will provide the Attorney General with another means to resolve conflicts of interest that involve the Attorney General personally or the Department of the Attorney General as a whole.

Your Committee has amended this measure by changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2107, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2107, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3051 Ways and Means on S.B. No. 2337

The purpose and intent of this measure is to authorize each county to exercise the same powers as the Hawaii Housing Finance and Development Corporation for the purposes of developing, constructing, financing, refinancing, and otherwise providing low- and moderate-income housing projects and mixed-use developments.

Your Committee received written comments in support of this measure from the Office of Planning and Sustainable Development, City and County of Honolulu Department of Planning and Permitting, Maui County Mayor, and Maui Chamber of Commerce.

Your Committee received written comments on this measure from the Disability and Communication Access Board and Grassroot Institute of Hawaii.

Your Committee finds that authorizing each county to use affordable housing bonds to develop mixed-use affordable housing projects will help to better address each county's affordable housing shortage.

Your Committee has amended this measure by:

- (1) Inserting a sunset date of June 30, 2028;

- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2337, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3052 (Joint) Ways and Means and Judiciary on S.B. No. 3327

The purpose and intent of this measure is to provide greater protection for the State's waters.

Specifically, this measure:

- (1) Establishes a public trust purpose for the Commission on Water Resource Management;
- (2) Allows the Commission on Water Resource Management to retain independent legal counsel;
- (3) Repeals the position of Deputy to the Chairperson of the Commission on Water Resource Management, and establishes the position of Executive Director of the Commission on Water Resource Management;
- (4) Provides for the Commission on Water Resource Management to be attached to the Department of Land and Natural Resources for administrative purposes only;
- (5) Amends the structure of the Commission on Water Resource Management;
- (6) Authorizes entities to challenge an emergency order of the Commission on Water Resource Management under certain conditions; and
- (7) Amends the penalties that the Commission on Water Resource Management may impose to enforce its rules and orders.

Your Committees received written comments in support of this measure from the Department of Hawaiian Home Lands, Honolulu Board of Water Supply, Sierra Club of Hawai'i, Na Kia'i Kai, Koolau Foundation, Haumana o Ke Kula Kaiapuni 'O Kekaulike, Lahaina Strong, Native Hawaiian Legal Corporation, Free Access Coalition, 'Ahaui o Hawai'i, Keaukaha Community Association, Hawaii Alliance for Progressive Action, Kupuna for the Moopuna, Clean the Pacific, Earthjustice, Shimanchu Wai Protectors, Council for Native Hawaiian Advancement, E Ola Kakou Hawaii, Save Honolulu Coalition, Oahu Water Protectors, and more than one hundred individuals.

Your Committees received written comments in opposition to this measure from the Department of Land and Natural Resources and one individual.

Your Committees received written comments on this measure from the Department of the Attorney General.

Your Committees find that this measure will provide greater accountability and protection of the State's waters by clarifying the Commission on Water Resource Management's purpose and reforming the Commission's leadership structure and board composition.

Your Committees note the testimony of the Department of Land and Natural Resources, which requested certain amendments relating to the enforcement mechanisms available to the Commission on Water Resource Management, including:

- (1) Additional language to section 174C-15, Hawaii Revised Statutes, that establishes a presumption that a violator's economic and financial condition allow for the payment of the penalty, and places the burden of proof to the contrary on the violator; and
- (2) A recommended maximum fine of \$25,000.

Your Committees respectfully ask that these requested amendments be considered as this measure moves forward in the legislative process.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3327, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3053 Ways and Means on S.B. No. 3099

The purpose and intent of this measure is to reduce certain Employees' Retirement System members' service requirements for vested benefit status eligibility.

More specifically, this measure:

- (1) Reduces from ten years to five years the minimum number of years of credited service a qualified Tier 2 Employees' Retirement System member must have to be eligible for vested benefit status for service retirement allowance purposes; and
- (2) Appropriates moneys for investments of the Employees' Retirement System.

Your Committee received written comments in support of this measure from the Department of Labor and Industrial Relations, Department of Budget and Finance, Office of the Governor, Employees' Retirement System Board of Trustees, City and County of Honolulu Department of Human Resources, United Public Workers, and University of Hawaii Professional Assembly.

Your Committee received written comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that reducing certain service requirements for vested benefit status eligibility will help the State improve employee recruitment and retention without having to adjust pension retirement benefits.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount to facilitate further discussion on the measure; and
- (2) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3099, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3054 (Joint) Ways and Means and Judiciary on S.B. No. 3142

The purpose and intent of this measure is to facilitate the timely disbursement of certain federal grant moneys.

Specifically, this measure authorizes the Director of Health to transfer federal capitalization grant moneys between the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund.

Your Committees received written comments in support of this measure from the Department of Health and Ulupono Initiative.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees find that the United States Environmental Protection Agency oversees the State's implementation of the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund programs and may withhold or delay future capitalization grants if those programs struggle to expeditiously disburse grant moneys. Your Committees further find that the ability to move moneys between the two funds will help facilitate timely disbursement of grants.

Your Committees note the testimony of the Department of Health, which requested certain amendments to this measure, including amendments that:

- (1) Provide that the Attorney General's certification that the transfer of moneys between the funds is permitted by state law be required only for the initial transfer;
- (2) Provide to the Governor or the Governor's designee, rather than the Director of Health, the authority to transfer funds; and
- (3) Clarify that the fund transfer available under this measure is not limited to only the capitalization grant.

Your Committees respectfully ask that these requests be considered as this measure moves forward in the legislative process.

Your Committees have amended this measure by:

- (1) Correcting a spelling error; and
- (2) Making technical nonsubstantive amendments for purposes of consistency and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3142, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3142, S.D. 2.

Signed by the Chairs on behalf of the Committees.
Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3055 (Joint) Ways and Means and Judiciary on S.B. No. 2922

The purpose and intent of this measure is to establish the Catastrophic Wildfire Securitization Act, which includes a process by which the Public Utilities Commission may authorize public utilities to securitize rates in order to raise capital that can be used to pay for costs and expenses arising out of catastrophic wildfires.

Your Committees received written comments in support of this measure from the International Brotherhood of Electrical Workers Local Union 1260, Kauai Island Utility Cooperative, Hawaiian Electric, Clearway Energy Group, Longroad Energy, and Ulupono Initiative.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees received written comments on this measure from the Office of the Governor, Department of Commerce and Consumer Affairs, Department of the Attorney General, Department of Budget and Finance, Public Utilities Commission, and Maui Chamber of Commerce.

Your Committees find that, in the aftermath of the wildfires that spread on Maui in August 2023, public utilities need capital to finance the development and implementation of plans for wildfire risk mitigation, and to contribute to disaster relief funds. Your Committees also find that, in order to prevent ratepayers from bearing the full burden of mitigation efforts, shareholder contributions must be a part of utility capitalization moving forward.

Your Committees believe that while this measure may present challenges to a utility, further discussion is warranted. Your Committees recognize that concerns exist regarding alternative models of ownership for utilities, as referenced in this measure. In 2019, the Department of Business, Economic Development, and Tourism published a study on alternative models of ownership, including co-operatives, in the State. The study noted that regulatory reform may be a better option for achieving state energy goals. In the interest of further discussion, your Committees encourage a re-evaluation of these issues as this measure progresses in the legislative process.

Your Committees have amended this measure by:

- (1) Clarifying use of recovery costs by providing that:
 - (A) Any payments into the wildfire relief fund shall not be used for replenishment due to imprudent conduct; and
 - (B) The Public Utilities Commission may consider allowing litigation and settlements or related expenses to be paid for by securitized capital if the capital is the lowest cost for ratepayers, and if shareholder contributions are considered first;
- (2) Clarifying that an application submitted by a public utility to the Public Utilities Commission and that fully complies with the Catastrophic Wildfire Securitization Act shall also be deemed to comply with any requirements imposed by any applicable provision of chapter 269, Hawaii Revised Statutes;
- (3) Making numerous amendments to the conditions that must be met before a financing order is issued;
- (4) Requiring the Public Utilities Commission to issue certain financing orders within one hundred eighty days of the filing of a completed application, if the Commission determines that the amounts identified in the application are recovery costs;
- (5) Deleting statutory provisions executing a pledge by the State to unknown parties;
- (6) Providing that access to securitized funds shall be limited to a public utility whose bond rating is below investment grade;
- (7) Providing that the Public Utilities Commission shall incorporate its findings relating to the Catastrophic Wildfire Securitization Act into the Commission's annual report to the Legislature;
- (8) Inserting a sunset date of June 30, 2030; and
- (9) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2922, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 2922, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

Judiciary: Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 3056 (Joint) Ways and Means and Commerce and Consumer Protection on S.B. No. 1590

The purpose and intent of this measure is to expand Hawaii's meat inspection capacity.

Specifically, this measure:

- (1) Requires the Department of Agriculture to assess the steps necessary for the State to supplement federal authority to perform meat inspections within the State;
- (2) Requires the Department of Agriculture to assess the steps necessary to transfer full authority over meat inspections from federal authority to the State; and
- (3) Appropriates moneys to establish three full-time equivalent (3.0 FTE) inspector positions within the Department of Agriculture to conduct meat inspections.

Your Committees received written comments in support of this measure from the Department of Agriculture, Land Use Research Foundation of Hawaii, Hawaii Cattlemen's Council, Hawaii Farm Bureau, Ulupono Initiative, and Maui Chamber of Commerce.

Your Committees received written comments in opposition to this measure from one individual.

Your Committees find that the State's meat inspection program was discontinued in the mid-1990s due to budget cuts and staffing reductions. Your Committees further find that restoring and updating this program will help to grow Hawaii's livestock industry and facilitate the beneficial use of axis deer and other ungulates.

Your Committees note the testimony of the Department of Agriculture, which requested:

- (1) The establishment of one full-time equivalent (1.0 FTE) meat inspection supervisor/VMO position; and
- (2) An annual, recurring appropriation of \$1,000,000 to pay for payroll and operating costs.

Your Committees respectfully ask that these requests be considered as this measure moves forward in the legislative process.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1590, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
 Ways and Means: Ayes, 9. Noes, none. Excused, 4 (Aquino, Hashimoto, Kim, Shimabukuro).
 Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3057 (Joint/Majority) Commerce and Consumer Protection and Ways and Means on S.B. No. 3335

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Cannabis Authority and Cannabis Control Board within the Department of Commerce and Consumer Affairs to regulate all aspects of the cannabis plant;
- (2) Establish the Cannabis Control Implementation Advisory Committee;
- (3) Beginning January 1, 2026, legalize the personal adult use of cannabis;
- (4) Establish taxes for adult-use cannabis and medical cannabis sales;
- (5) Transfer the personnel and assets of the Department of Health and assets of the Department of Agriculture to the Hawaii Cannabis Authority; and
- (6) Make appropriations.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawaii Cannabis Industry Association; Big Island Grown, LLC; Cultivation Sector Consulting, LLC; Techmana, LLC; Hawaiian Ethos; THC Ministry; two members of the Kaua'i County Council; and twenty-six individuals.

Your Committees received testimony in opposition to this measure from the Department of the Prosecuting Attorney for the City and County of Honolulu, Retail Merchants of Hawaii, Keiki Injury Prevention Coalition, Hawaii Substance Abuse Coalition, Smart Approaches to Marijuana Hawaii, Coalition for a Drug-Free Hawaii, Hawaii Family Forum, and sixty-eight individuals.

Your Committees received comments on this measure from the Department of Health, Department of Commerce and Consumer Affairs, Department of Law Enforcement, Department of the Attorney General, Department of Budget and Finance, Department of Education, Department of Taxation, Catholic Charities Hawai'i, Healthcare Association of Hawaii, Tax Foundation of Hawaii, Hawai'i Alliance for Cannabis Reform, Hawai'i Appleseed Center for Law and Economic Justice, Last Prisoner Project, Akamai Cannabis Consulting, Democratic Party of Hawai'i, American Cancer Society Cancer Action Network, Oahu Cannabis Farms Alliance, Hawai'i Public Health Institute, Cannabis Society of Hawai'i, and seven individuals.

Your Committees find that the legalization of cannabis in Hawaii has been the subject of an ongoing conversation within the Legislature that has now spanned nearly twenty-five years. Beginning in 2000, Governor Ben Cayetano first signed into law Act 228, Session Laws of Hawaii 2000, which legalized the use of marijuana for strictly medical purposes under the Medical Cannabis Registry Program, codified as chapter 329, Hawaii Revised Statutes (HRS), making Hawaii the eighth state to do so at that time. However, access to medical cannabis remained a challenge for many patients, as there were no legal markets or dispensaries available. To resolve this issue, Act 241 Session Laws of Hawaii 2015, established the Hawaii Medical Marijuana Dispensary System, codified as chapter 329D, HRS, creating the regulated statewide dispensary system for medical marijuana that exists today, ensuring that qualifying patients have access to medical marijuana.

The following year, Act 228, Session Laws of Hawaii 2016, established the State's Industrial Hemp Pilot Program, allowing the cultivation of industrial hemp and distribution for purposes of agricultural or academic research. Further, Act 14, Session Laws of Hawaii 2020, amended state law to allow for the growth and cultivation of hemp in the State through the United States Department of Agriculture (USDA) Hemp Production Program, in alignment with the federal 2018 "Farm Bill". In 2020, Act 273, Session Laws of Hawaii 2019, was enacted to decriminalize small amounts of cannabis.

Your Committees find that, after years of debate and discussion, now is the time for the State to legalize cannabis to include non-medical adult use. The legalization of cannabis for adult use is a natural, logical, and reasonable outgrowth of the current science of, and evolving attitude towards, cannabis. Twenty-four other jurisdictions across the United States have already enacted laws to regulate the sale and adult use of non-medical cannabis. The State is familiar with and has successfully administered the Medical Marijuana Dispensary Program since 2015; has had ample time to study the costs and benefits of establishing an adult-use cannabis program through, among others, the Dual Use Cannabis Task Force established pursuant to S.B. 1139, H.D. 1, S.D. 2, C.D. 1 (2021); and has been able to observe and learn lessons from other States regarding the best practices for the legalization of adult-use cannabis. Your Committees further find that cannabis cultivation and sales hold great potential for economic development, reduced crime, and increased tax revenues--revenues that the State urgently needs to fund various institutions and programs following the August 2023 Maui wildfire.

Accordingly, your Committees therefore find it is appropriate to move forward with the legalization of adult-use cannabis, and this measure will, among other things, establish a framework to centralize all forms of cannabis under a single regulatory authority.

Notwithstanding, your Committees have heard the concerns raised by testifiers on behalf of the hemp industry, requesting certain amendments to help facilitate and transition the regulation of hemp under a single regulatory authority. Therefore, amendments to this measure are necessary to address these various issues.

Accordingly, your Committees have amended this measure by:

- (1) Changing the names of the Cannabis Control Board, Hawaii Cannabis Authority, and Cannabis Control Implementation Advisory Committee to the Hemp and Cannabis Control Board, Hawaii Hemp and Cannabis Authority, and Hemp and Cannabis Control Implementation Advisory Committee, respectively;
- (2) Clarifying the definitions of "cannabis", "crude hemp extract", "cultivate" or "cultivation", "hemp product", "smoke" or "smoking", and "tetrahydrocannabinol" or "THC";

- (3) Inserting definitions for the terms “hemp coordinator”, “hemp extract product”, and “industrial hemp product”;
- (4) Deleting the definition of the term “industrial hemp”;
- (5) Adding one full-time equivalent position of Hemp Coordinator to the Hawaii Hemp and Cannabis Authority;
- (6) Clarifying the use of the terms “hemp extract products” and “hemp extract processor” throughout;
- (7) Adjusting the membership of the Hemp and Cannabis Control Implementation Advisory Committee to include representatives of the hemp industry;
- (8) Deleting language that would have required the rules adopted by the Hemp and Cannabis Control Board to include requirements that prohibit or restrict cannabis processors or hemp processors from altering or utilizing commercially processed or manufactured food products when processing cannabis or hemp unless the food product was commercially manufactured specifically for use by the cannabis processors or hemp processors to infuse with cannabis or hemp;
- (9) Authorizing the Cannabis Social Equity, Public Health and Education, and Public Safety Special Fund to be expended for the implementation and administration of the Hawaii Hemp Grant Program;
- (10) Clarifying that the permissible use of cannabis shall not result in the denial of certain rights relating to custody, visitation, and the parenting of a child or be construed as a violation of any condition of parole, probation, or pre-trial release;
- (11) Clarifying that the State and any of its political subdivisions shall not impose any penalty or deny any benefit or entitlement for the permissible use of cannabis for a person who is at least twenty-one years of age;
- (12) Inserting language authorizing the possession and distribution of cannabis paraphernalia;
- (13) Clarifying that the five-year durational residency requirement for a person or business entity shall not apply to an applicant for a hemp cultivator or hemp processor license;
- (14) Clarifying that the controlling interest residency requirement for a business entity shall not apply to an applicant for a hemp cultivator or hemp processor license;
- (15) Clarifying that a person convicted of a felony that resulted in a term of probation, incarceration, or supervised release that was completed more than ten years ago may apply for a cannabis business or hemp business license, as well as manage, control, and work for a licensed cannabis or hemp business;
- (16) Clarifying the Board’s adoption of rules to establish requirements, restrictions, and standards regarding the types, ingredients, and designs of cannabis and restricted cannabis products;
- (17) Deleting language that would have authorized the Hemp and Cannabis Control Board to issue industrial hemp permits;
- (18) Inserting language to specify that the restricted cannabinoid product list shall not include hemp extract products that are intended only for external topical application to the skin or hair and certain tinctures;
- (19) Clarifying that no person shall process hemp into a hemp extract product without a hemp extract processor license, the requirement for which shall not apply to processing hemp into an industrial hemp product;
- (20) Clarifying that hemp shall be processed into a hemp extract product in an indoor facility or within an agricultural building or structure pursuant to section 46-88, Hawaii Revised Statutes; provided that the hemp is processed without the use of heat, volatile compounds, or gases under pressure except for carbon dioxide (CO2);
- (21) Clarifying that hemp extract processors shall comply with all applicable building ordinances;
- (22) Clarifying that a permit shall not be required to sell hemp products that are not restricted cannabinoid products;
- (23) Exempting from certain regulations industrial hemp products; provided that any industrial hemp products comply with all other applicable laws, rules, and regulations;
- (24) Inserting language to establish the Hawaii Hemp Grant Program;
- (25) Exempting from certain nuisance regulations hemp and cannabis products and any foul or noxious odor, gas, or vapor derived from hemp and cannabis products;
- (26) Amending section 1 to reflect its amended purpose;
- (27) Inserting unspecified amounts for all appropriations and full-time equivalent positions, to encourage further discussion; and
- (28) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3335, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3335, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (Fukunaga, Richards). Noes, none. Excused, 1 (McKelvey).

Ways and Means: Ayes, 7; Ayes with Reservations (Aquino, DeCoite). Noes, 5 (Inouye, Kidani, Moriwaki, Wakai, Fevella). Excused, 1 (Shimabukuro).

SCRep. 3058 (Joint) Ways and Means and Judiciary on S.B. No. 3344

The purpose and intent of this measure is to establish and appropriate moneys for a Hawaii Wildfire Relief Fund and Hawaii Wildfire Relief Fund Corporation to provide compensation for property damage caused by catastrophic wildfires in the State.

Your Committees received written comments in support of this measure from the Hawaii Farm Bureau, International Brotherhood of Electrical Workers Local Union 1260, Hawaiian Electric, Clearway Energy Group, Maui Chamber of Commerce, and Ulupono Initiative.

Your Committees received written comments in opposition to this measure from the Hawaii Association for Justice, State Farm, and two individuals.

Your Committees received written comments on this measure from the Office of the Governor, Department of Commerce and Consumer Affairs, Office of Administrative Hearings of the Department of Commerce and Consumer Affairs, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Department of Budget and Finance, Public Utilities Commission, Office of the Auditor, Tax Foundation of Hawaii, and Kauai Island Utility Cooperative.

Your Committees find that the Wildfire Relief Fund and Wildfire Relief Fund Corporation established by this measure will help to address the financial aftermath of any future catastrophic wildfires in the State by mitigating financial losses and compensating for resulting property damage.

Your Committees have amended this measure by:

- (1) Inserting a definition for “eligible claim”;
- (2) Clarifying the requirements for the risk-based wildfire protection plan that an electric utility subject to proceedings for liability or insolvency claims related to a catastrophic wildfire must have approved by the Public Utilities Commission in order for the utility to participate in the Wildfire Relief Fund;
- (3) Inserting provisions allowing the Public Utilities Commission to determine the timeline for submitting the risk-based wildfire protection plan, and at what point on the timeline the electric utility may participate in the Wildfire Relief Fund;
- (4) Providing that a supplemental contribution by the State may not exceed the largest contribution paid by other contributors;
- (5) Providing that fifty percent of an investor-owned utility’s contributions to the Wildfire Relief Fund may be recovered from its customers in rates;
- (6) Clarifying that if total supplemental payments are insufficient to meet the fund administrator’s required amount, the State may loan the fund an amount up to the depletion percentage identified in section -16(d) of the measure; and
- (7) Making technical nonsubstantive edits for purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Ways and Means and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3344, S.D. 1, as amended herein, and recommend that it pass Third Reading in the form attached hereto as S.B. No. 3344, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ways and Means: Ayes, 11. Noes, none. Excused, 2 (Kanuha, Shimabukuro).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 3059 Ways and Means on S.B. No. 3068

The purpose and intent of this measure is to make various appropriations to support the State’s continued response to the August 2023 Maui wildfires.

Your Committee received written comments in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Department of Transportation, Department of Land and Natural Resources, and Department of Budget and Finance.

Your Committee finds that the \$200,000,000 that was previously transferred into the Major Disaster Fund will be spent or obligated before the end of the current fiscal year. However, the Executive Branch expects to spend an additional \$400,000,000 in fiscal year 2023-2024 to address ongoing costs of the Maui wildfire response, primarily covering noncongregate sheltering costs, which brings the State’s total obligation to approximately \$600,000,000. Additionally, the \$600,000,000 total does not include the \$65,000,000 to pay for settlements through the One Ohana Fund.

Your Committee further finds that the costs for fiscal years 2024-2025, 2025-2026, and 2026-2027 are still unclear since both a temporary and a permanent housing plan have not yet been presented to the Legislature, which may result in additional noncongregate shelter expenses.

Your Committee notes that the lapse date for the funds deposited into the Major Disaster Fund may require an extension to meet the ongoing cash flow needs and expenses of the State.

Your Committee believes that these undetermined costs could potentially decrease the State’s carryover balance in fiscal year 2024-2025 to critically low levels that impact the State’s six-year financial plan.

Your Committee has added \$175,560,000 in capital improvement project funds to this measure, consisting of a \$63,560,000 general obligation bond authorization to the County of Maui and two capital improvement project authorizations consisting of \$40,000,000 and \$75,000,000 for the Hawaii Housing Finance and Development Corporation. Your Committee intends that these moneys be expended for infrastructure and temporary housing at the Lahaina Recreational Center, Maui Land and Pineapple in Napili, and Front Street area.

Your Committee requests that the Department of Budget and Finance provide timely reports to the Legislature on expenditures authorized in this measure.

Lastly, your Committee notes the Department of Budget and Finance's request of \$237,915,320 in general fund appropriations.

Your Committee has amended this measure by:

- (1) Increasing from \$30,000,000 to \$230,000,000 the investment capital appropriation to the Hawaii Housing Finance and Development Corporation for fiscal year 2024-2025;
- (2) Appropriating \$900,000 from the Public Utilities Commission Special Fund for consultant contracts for utility dockets;
- (3) Authorizing \$63,560,000 in reimbursable general obligation bonds for capital improvement projects involving infrastructure to be expended by the County of Maui;
- (4) Authorizing \$40,000,000 in reimbursable general obligation bonds for capital improvement projects involving temporary housing in West Maui to be expended by the Hawaii Housing Finance and Development Corporation;
- (5) Authorizing \$75,000,000 in reimbursable general obligation bonds for capital improvement projects involving modular housing for temporary units in West Maui to be expended by the Hawaii Housing Finance and Development Corporation; and
- (6) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3068, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3068, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 12; Ayes with Reservations (Aquino, DeCoite, Dela Cruz, Inouye, Kanuha, Kidani, Kim, Lee, Moriwaki, Wakai, Fevella). Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3060 Ways and Means on S.B. No. 3381

The purpose and intent of this measure is to establish the Lele Community District to facilitate the rebuilding of Lahaina following the destructive wildfire on August 8, 2023.

Your Committee received written comments in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Community Development Authority; Hoomana Pono, LLC; and ten individuals.

Your Committee received written comments in opposition to this measure from two Maui County Council members; Lahaina Strong; Hawaii General Jural Assembly; We Are One, Inc.; Hawaii Alliance For Progressive Action; Maui Chamber of Commerce; Lai Hauola, and numerous individuals.

Your Committee received written comments on this measure from the Department of Budget and Finance; Office of Elections; State Disaster Recovery Coordinator; County of Maui; Kaibigan ng Lahaina; Starn, O'Toole, Marcus and Fisher; and one individual.

Your Committee finds that the community district and board established by this measure are intended to be a model and template for all communities in Hawaii. This model is also intended to instill a strong sense of local self-governance to ensure that the future of Lahaina and other places in the State are controlled by members of those communities, for the benefit of those communities. Your Committee intends that the Lele Community District Board be established to create a path for self-determination by the Lahaina community.

Your Committee requests that the Lele Community District Board integrate the West Maui county plan in designing the master plan for the Lele Community District and establish rules for receiving community input as soon as practicable to ensure that all community voices are heard and accounted for.

Your Committee finds that the Lele Community District Board should have the authority to exercise the power of eminent domain to acquire property interests necessary for the greater public purpose; provided that the power of eminent domain may only be used to achieve the community master plan.

Your Committee further finds that there should be limits on the amounts of campaign donations to community district board candidates in an effort to encourage grassroots and community participation in board elections. Your Committee acknowledges that in the future, access to public financing may become an option if the applicable law is amended to provide for public financing for community board candidates.

Your Committee notes that the Lele Community District may need to be expanded to include communities in North Lahaina.

Accordingly, your Committee has amended this measure by:

- (1) Authorizing the Lele Community District Board to exercise the power of eminent domain under limited circumstances;
- (2) Establishing a \$100 cap during an election period on campaign contributions to a candidate seeking nomination or election to the Lele Community District Board or to a candidate committee;
- (3) Making various election requirements applicable to the Lele Community District Board; and
- (4) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3381, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3381, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3061 Judiciary on H.B. No. 159

The purpose and intent of this measure is to exempt from the notarization requirement those applications which are submitted for a renewal of a liquor license.

Your Committee received testimony in support of this measure from the Department of Liquor Control; Liquor Commission of the City and County of Honolulu; Mayor of the County of Maui; Retail Merchants of Hawaii; Techmana, LLC; and two individuals.

Your Committee finds that existing law requires the notarization of initial applications as well as renewal applications for liquor licenses. According to the American Association of Notaries, a benefit of notarization, among other things, is to assure the document recipient that the signer was properly identified. Your Committee finds that, in the case of license renewal, where the licensee is already licensed, is known to a particular commission, and is in the system, it is unnecessary to re-identify the applicant. Your Committee further finds that requiring the notarization of a renewal application will hinder the four counties' efforts to switch to digital or electronic license renewal. This measure will streamline the liquor license renewal application process.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 159, H.D. 1, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3062 Agriculture and Environment on H.B. No. 2104

The purpose and intent of this measure is to appropriate an unspecified amount of funds to support the Hawaii Invasive Species Council to ensure its long-term viability and prevent future problems.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Farm Bureau; Coordinating Group on Alien Pest Species; The Nature Conservancy; Hawai'i Forest Industry Association; Sierra Club of Hawai'i; Waiehu Land, L.L.C.; and one individual.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that despite the growing threat of invasive species in the State, the annual net funding allocation for the Hawaii Invasive Species Council (Council) has not increased in over four years. Your Committee recognizes that approximately ninety percent of the Council's funding is used as bridge funding to supplement strategic interagency projects and programs under other state agencies and as competitive grants for innovative projects that address invasive species prevention, control, outreach, and research. This measure will provide necessary funding for the Council to ensure its viability to control and eradicate invasive species in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2104, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3063 Agriculture and Environment on H.B. No. 2133

The purpose and intent of this measure is to:

- (1) Establish an Invasive Species Grant Pilot Program to provide grants through the Department of Agriculture to individuals, businesses, and organizations for the eradication of invasive species on property located in the State that is owned by the individual, business, or organization; and
- (2) Appropriate an unspecified amount of funds to provide grants under the Invasive Species Grant Pilot Program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawai'i Farm Bureau; Hawai'i Forest Industry Association; Sierra Club of Hawai'i; Living Life Source Foundation; Waiehu Land, L.L.C.; and two individuals.

Your Committee finds that there are property owners in the State who would like to eradicate invasive species, such as coqui frogs, in and on their property, but are unable to adequately do so because of financial factors. This measure provides financial assistance to make it affordable for individuals, businesses, and organizations to eradicate the invasive species like coqui frogs on their property, thus further mitigating the spread of invasive species in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2133, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3064 Agriculture and Environment on H.B. No. 2139

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish and implement an invasive species inspection placard program to:
 - (A) Enhance the control, removal, and eradication of invasive species on the premises of an agricultural producer; and
 - (B) Inform the public of the most recent invasive species inspection results for agricultural producers; and
- (2) Appropriate an unspecified amount of funds to mitigate the spread of the little fire ant and coconut rhinoceros beetle in the State.

Your Committee received testimony in support of this measure from the Sierra Club of Hawai'i and three individuals.

Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee received comments on this measure from the Department of Land and Natural Resources, Hawai'i Farm Bureau, Coordinating Group on Alien Pest Species; and Hawai'i Farmers Union United.

Your Committee finds that horticultural trade is a high-risk pathway through which invasive pests, such as little fire ants and coconut rhinoceros beetles, are spread around the State. This measure not only will help restrict the movement of plants from a nursery, farm, or agriculture-related business that are infested with little fire ants or coconut rhinoceros beetles, but also help control the spread of these invasive pests within each island and across the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2139, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

SCRep. 3065 Agriculture and Environment on H.B. No. 2590

The purpose and intent of this measure is to appropriate an unspecified amount of funds for food bank purchases from local farmers, to be expended by the Department of Agriculture via requests for proposals.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Hawaiian Affairs; one member of the Kauai County Council; Ulupono Initiative; Hawaii Food Bank, Inc.; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Healthy Eating + Active Living Coalition; Young Brothers, LLC; Hawaii chapter of 350.org; Hawai'i Children's Action Network Speaks!; Pele Lani Farm LLC; The Food Basket Inc.; Green Party of Hawai'i; Hawaii Medical Service Association; Go Blue Communities; Hawaii Food+ Policy; Hawaii Food Industry Association; Chamber of Sustainable Commerce; and thirty-one individuals.

Your Committee finds that the cost of food in the State has increased by more than five percent in the last twelve months. Your Committee further finds that food banks need additional support to expand its food storage capacity to combat the rise of food insecurity in the State. This measure will not only support the efforts of Hawaii's food banks, but also provide local food producers with a wider market to support their operations.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2590, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3066 Agriculture and Environment on H.B. No. 2619

The purpose and intent of this measure is to appropriate an unspecified amount of funds for the biosecurity program of the Department of Agriculture to develop and implement projects for clean plant material, agricultural treatments, diagnostics, and pest management.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Office of the Mayor of the County of Maui; Hawai'i Farm Bureau; Maui County Farm Bureau; Hawai'i Farmers Union United; Ulupono Initiative; Land Use Research Foundation of Hawaii; Hawaii Crop Improvement Association; Hawaii Cattlemen's Council, Inc.; Ka 'Ohana O Na Pua; Hawaii Floriculture and Nursery Association; Hawai'i Forest Industry Association; Larry Jeffs Farms, LLC; Hawaii Aquaculture and Aquaponics Association; and six individuals.

Your Committee finds that the entry and establishment of a new, devastating pest or disease is an ever-present reality, given the increase and expansion of global trade and travel. Your Committee further finds that the State's biosecurity program established by the Department of Agriculture is vital to prevent and manage invasive species from entering and spreading throughout the State. This measure will provide necessary resources for the Department of Agriculture to build local capacity and execute operations to effectively protect the fragile environment of the State's island communities against invasive species on multiple fronts.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2619, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3067 Agriculture and Environment on H.B. No. 2546

The purpose and intent of this measure is to:

- (1) Allow for the use of fine meshed nets for the protection of plants against invasive species; and
- (2) Require the Department of Agriculture to establish a registration program for purchasers of fine meshed nets in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Hawai'i Farm Bureau, Waianae Coast Comprehensive Health Center, and one individual.

Your Committee received comments on this measure from the Department of Agriculture and one individual.

Your Committee finds that treatment options to manage the coconut rhinoceros beetle are still relatively limited. Your Committee recognizes that there are no natural enemies of this beetle in the Pacific Islands. Your Committee further finds that the use of fine meshed nets is an effective alternative to pesticides and other complex treatment options that are not practical for the general public. This measure aims to further protect the delicate environment of the State from invasive pests.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2546, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3068 Agriculture and Environment on H.B. No. 2131

The purpose and intent of this measure is to:

- (1) Appropriate an unspecified amount of funds for the mitigation and control of the two-lined spittlebug and for the recovery of areas affected by infestation; and
- (2) Require the Department of Agriculture to submit a report to the Legislature twenty days before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; University of Hawai'i System; Ulupono Initiative; Hawai'i Farm Bureau; Hawai'i Farmers Union United; Hawaii Cattlemen's Council, Inc.; Coordinating Group on Alien Pest Species; Big Island Invasive Species Committee; Hawai'i Forest Industry Association; Larry Jefts Farms, LLC; Sierra Club of Hawaii; and eleven individuals.

Your Committee finds that the two-lined spittlebug threatens the State's pasture lands, emerging cattle industry, the flora in watersheds, and other natural areas critical to the environment and cultural resources of the State. According to testimony received by your Committee, the two-lined spittlebug not only damages forage grasses, but also leaves pasture land vulnerable to soil loss and other invasive weeds, such as fireweed and wild blackberry. This measure aims to protect both the ranching industry and natural areas of the State against the effects of the two-lined spittlebug by funding activities to mitigate and control infestations of the two-lined spittlebug.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2131, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3069 Agriculture and Environment on H.B. No. 2134

The purpose and intent of this measure is to appropriate an unspecified amount of funds to establish an unspecified number of Grant Specialist positions within the Department of Agriculture to assist farmers and ranchers in applying for, obtaining, and fulfilling the requirements of grants offered by federal, state, county, or private entities.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Maui County Farm Bureau; Ulupono Initiative; Local Food Coalition; Hawai'i Farmers Union United; Land Use Research Foundation of Hawaii; Hawaii Cattlemen's Council, Inc.; Hawaii Floriculture and Nursery Association; Hawaii Aquaculture and Aquaponics Association; Hawaii Food+ Policy; and seven individuals.

Your Committee finds that there are many federal funding opportunities for agricultural purposes that remain untapped or overlooked due to the lack of adequate grant writing and expertise in the Department of Agriculture. This measure enhances the Department's capacity to pursue and maximize the availability of federal funds to bolster the State's efforts towards food security and sustainability, while easing the burden of complex application procedures and compliance challenges on farmers, ranchers, and other agricultural operators who pursue federal and other funding.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2134, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3070 Agriculture and Environment on H.B. No. 2390

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission (PUC) to explicitly consider the effect of the State's reliance on fossil fuels on lifecycle greenhouse gas emissions when making determinations of the reasonableness of costs pertaining to electric or gas utility system capital improvements and operations;
- (2) Allow the PUC the discretion to require a lifecycle greenhouse gas emissions assessment for energy projects that do not involve the combustion of fuel; and
- (3) Clarify that the PUC, to lower and stabilize the cost of electricity, consider, in part, the costs and benefits of a diverse portfolio of energy resources, rather than a diverse portfolio of fossil fuels.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, Hawai'i Climate Change Mitigation and Adaptation Commission, Life of the Land, Hawaiian Electric, Hawaii Clean Power Alliance, and one individual.

Your Committee finds that, when determining the reasonableness of the costs regarding energy projects of electric and gas systems, the PUC is required to conduct an analysis to consider the effect of the State's reliance on fossil fuels on certain matters, such as greenhouse gas emissions. Your Committee notes that requiring the PUC to consider lifecycle emissions would provide a more accurate assessment of the electric or gas utility system capital improvements and operations that involve the combustion of fuel, thus facilitating informed decision-making and protecting the public interest. Your Committee also recognizes that by giving the PUC discretion to conduct these costly and time-consuming analyses for projects with zero generation-based greenhouse gas emissions, this measure reduces costs to ratepayers while supporting more timely review of energy projects in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2390, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3071 Agriculture and Environment on H.B. No. 2644

The purpose and intent of this measure is to appropriate an unspecified amount of funds to support the Hawaii Ant Lab in mitigating the effects of little fire ants in the State, including for the hiring of an unspecified number of staff, community outreach, and operations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Farm Bureau, Coordinating Group on Alien Pest Species, Hawai'i Farmers Union United, Ka 'Ohana O Na Pua, Big Island Invasive Species Committee, Sierra Club of Hawai'i, and three individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Hawaii Ant Lab was established in 2009 to address the overwhelming need for research and assistance to address and eradicate little fire ants and other invasive ants in the State. Your Committee recognizes that little fire ants have caused significant disruption and economic damage on Hawaii Island and that little fire ant infestations on Oahu are currently on the rise. This measure supports the Hawaii Ant Lab's efforts to add new staff and address the short- and long-term needs to control little fire ants.

Your Committee notes the Department of Agriculture's position that little fire ants cause a serious enough impact to native species and the environment to warrant dedicated, sustained funding to coordinate the diverse needs required for the detection, management, research, and control of invasive ant species and the contextual basis of operational knowledge at federal, state, and local levels to advance the Department's ability to detect, protect, and respond to invasive ant species. Your Committee further notes the following funding requests from the Department of Agriculture:

- (1) \$78,000 for the creation of an exempt entomologist position (SR-26) within the Plant Pest Control Branch to serve as the State's lead on little fire ants and invasive ant issues in recognition of the specialized background and skills required to lead such an effort;
- (2) \$1,000,000 to support the development of new facilities for the Plant Pest Control Branch to allow rigorous research and development into invasive ants; and
- (3) \$500,000 to provide funding to support the Hawaii Ant Lab to work in partnership with Plant Pest Control Branch.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2644, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3072 Agriculture and Environment on H.B. No. 2337

The purpose and intent of this measure is to amend the membership of the Advisory Committee on Pesticides by replacing the statutory requirement for representatives from the pineapple and sugar industries with representatives from the coffee and diversified agriculture industries.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Office of Hawaiian Affairs, Hawai'i Farm Bureau, Hawai'i Farmers Union United, Hawai'i Alliance for Progressive Action, and one individual.

Your Committee received comments on this measure from the Department of Attorney General.

Your Committee finds that since the 1970s, the number of sugar and pineapple plantations in the State has greatly decreased, giving way to producers of coffee and other diversified agriculture. By updating the membership of the Advisory Committee on Pesticides to better reflect the existing composition of the agriculture industry in the State would allow for a broader and more accurate representation on the Advisory Committee on Pesticides, thereby contributing to the development of more effective and equitable pesticide laws and rules.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2337, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2337, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3073 Agriculture and Environment on H.B. No. 2136

The purpose and intent of this measure is to require the Department of Agriculture to establish and implement a pesticide inspection program that:

- (1) Increases compliance with proper use of restricted use pesticides by agricultural producers;
- (2) Ensures the continued prohibition on the use of chlorpyrifos; and
- (3) Informs the public of the most recent pesticide inspection results for agricultural producers.

Your Committee received testimony in support of this measure from the Hawai'i Farmers Union United, Hawai'i Alliance for Progressive Action, Democratic Party of Hawai'i, and six individuals.

Your Committee received comments on this measure from the Department of Agriculture, Hawai'i Farm Bureau, and Hawaii Crop Improvement Association.

Your Committee finds that pesticide exposure can cause significant harm to public health and the environment, especially restricted use pesticides, as deemed by the State. This measure will protect the health of the environment and people by increasing compliance with the pesticides law through inspections and promoting transparency and accountability within the agricultural sector regarding the use of restricted use pesticides in the State.

Your Committee recognizes that the Department of Agriculture currently has a fully functional pesticide inspection program that is implemented by its Pesticides Branch. Your Committee notes that the Pesticides Branch uniformly inspect and regulates the use of restricted use and general use pesticides by all users, including those of the landscaping, ornamental and nursery, and pest control industries. Your Committee further notes that the results of the Pesticides Branch's inspections are already available to the public via a records request under Hawaii's Public Records Law or the Department of Agriculture's website.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the pesticide inspection program to inform the public of the most recent pesticide inspection results for agricultural producers; and
- (2) Deleting references to agricultural producers, including the definition of an agricultural producer, to expand the scope of the pesticide inspection program to apply to all users of restricted use pesticides, including chlorpyrifos.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2136, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2136, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3074 Hawaiian Affairs on Gov. Msg. Nos. 568 and 569

Recommending that the Senate advise and consent to the nominations of the following:

ISLAND BURIAL COUNCIL - ISLAND OF HAWAI'I

G.M. No. 568 I'INIMAICALANI KAHAKALAU, for a term to expire 06-30-2027; and

G.M. No. 569 CAYLA CRIVELLO, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by I'inimaikalani Kahakalau and Cayla Crivello for service on the Island Burial Council, Island of Hawai'i.

I'INIMAIKALANI KAHAKALAU

Your Committee received testimony in support of the nomination for the appointment of I'inimaikalani Kahakalau from the Department of Land and Natural Resources and one individual.

Ms. Kahakalau is a resident of Hamakua, Hawaii. She is currently a partner at Kū-A-Kanaka, LLC and the project director for Basic Hawaiian. Her responsibilities include projects on social media, creating games, providing technical support, and overseeing the online Hawaiian language and culture program. Ms. Kahakalau is fluent in 'Ōlelo Hawai'i and a lifelong practitioner of Hawaiian cultural practices with knowledge of Hawaiian stories, chants, songs, and native science. She is an innovator that unites her cultural practices with place-based education in which she serves her community. Your Committee therefore recommends that I'inimaikalani Kahakalau be appointed to the Island Burial Council, Island of Hawai'i based on her knowledge, experience, and commitment to public service.

CAYLA CRIVELLO

Your Committee received testimony in support of the nomination for the appointment of Cayla Crivello from the Department of Land and Natural Resources.

Ms. Crivello currently lives in Kailua-Kona, Hawaii where she serves as a cultural liaison at Hokulia Park and the Cultural Sites Association. Her responsibilities include activities that use GIS modeling capabilities, train restoration, and coordinating site visits. She has experience in the process and protocols associated with the Ala Kahakai National Historic Trail and Kaupulehu Dryland Forest Reserve. Ms. Crivello also possesses expertise in GIS hardware, cultural practices, and conservation in Hawaii. Your Committee therefore recommends that Cayla Crivello be appointed to the Island Burial Council, Island of Hawai'i based on her knowledge, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Hawaiian Affairs that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3075 Hawaiian Affairs on Gov. Msg. No. 570

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL (MAUI/LANAI)

G.M. No. 570 DWIGHT BURNS, for a term to expire 06-30-2027

Your Committee reviewed the personal history, resume, and statement submitted by Dwight Burns for service on the Island Burial Council (Maui/Lanai).

s

Your Committee received testimony in support of the nomination for the appointment of Dwight Burns from the Department of Land and Natural Resources, Operating Engineers Local Union No. 3, and one individual.

Mr. Burns resides on Maui and will represent Makawao. He currently serves as the Maui island representative for the Hawaii Operating Engineers Industry Stabilization Fund where he monitors compliance of city, state, and federally funded construction contracts. Previously, he worked as an excavator operator. As an excavator operator, Mr. Burns worked on projects across the State and worked alongside archaeologists to ensure the best outcomes for iwi kupuna found on construction sites. Mr. Burns is also a member of Go Maui Inc., an organization that engages and represents local residents on key initiatives and issues that affect Maui's quality of life and champions for a cohesive community on Maui. Your Committee therefore recommends that Dwight Burns be appointed to the Island Burial Council (Maui/Lanai) based on his knowledge, background, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3076 Hawaiian Affairs on Gov. Msg. No. 571

Recommending that the Senate advise and consent to the nomination of the following:

ISLAND BURIAL COUNCIL (KAUAI/NIIHAU)

G.M. No. 571 JOHNETTE KAHALEKAI, for a term to expire 06-30-2027

Your Committee reviewed the personal history, resume, and statement submitted by Johnette Kahalekai for service on the Island Burial Council (Kauai/Niihau).

Your Committee received testimony in support of the nomination for the appointment of Johnette Kahalekai from the Department of Land and Natural Resources.

Ms. Kahalekai previously served on the Kauai Island Burial Council for eight years with a term that ended in June 2023. She is a musician and practices the Hawaiian healing arts of Ho'oponopono, La'au Lapa'au Lomilomi, and Kahuna Ha. Her experience on the Kauai Island Burial Council has deepened her understanding of Hawaiian Land Trust laws, traditional burial customs and practices,

and other state laws and policies. Your Committee therefore recommends that Johnette Kahalekai be appointed to the Island Burial Council (Kauai/Niihau) based on her knowledge, background, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3077 Public Safety and Intergovernmental and Military Affairs on Gov. Msg. No. 539

Recommending that the Senate advise and consent to the nomination of the following:

CRIME VICTIM COMPENSATION COMMISSION

G.M. No. 539 CLIFTON CHOY, for a term to expire 06-30-2027

Your Committee reviewed the personal history, resume, and statement submitted by Clifton Choy for service on the Crime Victim Compensation Commission.

Your Committee received testimony in support of the nomination for the reappointment of Clifton Choy from the Department of Corrections and Rehabilitation, Crime Victim Compensation Commission, and two individuals.

Upon review of the testimony, your Committee finds that Mr. Choy's background and extensive experience qualify him to be nominated for reappointment to the Crime Victim Compensation Commission as an at-large member. Your Committee notes that Mr. Choy currently serves as a Commissioner of the Crime Victim Compensation Commission. The Crime Victim Compensation Commission assists victims of violent crime by providing compensation for crime-related expenses. Mr. Choy spent twenty-eight years with the Department of the Prosecuting Attorney where he worked as a Victim Witness Advocate and later as Supervisor to the Misdemeanor Branch of the Victim Witness Division, acting on behalf of victims as their cases moved through the judicial system. He has worked with victims in every branch of victim witness kokua services, including misdemeanor and felony cases. Mr. Choy is very aware of the impact of violent crime on victims and will be able to ensure that victims are treated with dignity and respect as a commissioner. Your Committee therefore recommends that Clifton Choy be appointed to the Crime Victim Compensation Commission based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3078 Public Safety and Intergovernmental and Military Affairs on Gov. Msg. No. 619

Recommending that the Senate advise and consent to the nomination of the following:

ADMINISTRATOR, STATE COUNCIL FOR THE INTERSTATE COMPACT FOR JUVENILES

G.M. No. 619 KRISTIN DAVIDSON, for a term to expire 06-30-2026

Your Committee reviewed the personal history, resume, and statement submitted by Kristin Davidson for service on the State Council for the Interstate Compact for Juveniles (ICJ).

Your Committee received testimony in support of the nomination for the reappointment of Kristin Davidson from the Judiciary, Godwits Mercy Inc., Women Speaking Out, and seventeen individuals.

Upon review of the testimony, your Committee finds that Ms. Davidson's experience and knowledge qualify her for reappointment to the State Council for the Interstate Compact for Juveniles. Your Committee notes that Ms. Davidson currently works as a Social Services Manager for the Hawaii State Judiciary and serves as the Compact Administrator for the State Council for the Interstate Compact for Juveniles. Ms. Davidson has fourteen years of experience in youth social services with positions ranging from Juvenile Probation Officer to Special Advocate. She serves on multiple committees related to youth sexual exploitation, family courts, police officer training, and labor management to better educate entities and agencies about juvenile justice. Ms. Davidson is knowledgeable of local communities and regularly works with volunteers, community partners, and local resources to ensure the best interests of juveniles and juvenile special services. Your Committee therefore recommends that Kristin Davidson be appointed to the State Council for the Interstate Compact for Juveniles based on her experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3079 Agriculture and Environment on Gov. Msg. No. 593

Recommending that the Senate advise and consent to the nomination of the following:

DEPUTY TO THE CHAIRPERSON, DEPARTMENT OF AGRICULTURE

G.M. No. 593 DEXTER KISHIDA, for a term to expire 12-31-2026

Your Committee reviewed the personal history, resume, and statement submitted by Dexter Kishida for service as the Deputy to the Chairperson of the Board of Agriculture.

Your Committee received testimony in support of the nomination for the appointment of Dexter Kishida from the Governor; Department of Agriculture; Department of Accounting and General Services; Department of Budget and Finance; Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; Department of Corrections and Rehabilitation; Department of Defense; Department of Education; Department of Hawaiian Home Lands; Department of Health; Department of Labor and Industrial Relations; Department of Land and Natural Resources; Department of Law Enforcement; Department of Taxation; Department of Transportation; Agribusiness Development Corporation; County of Hawaii Department of Research and Development; County of Kauai Office of Economic Development; Hawai'i Farm Bureau; Coordinating group on Alien Pest Species; Ulupono Initiative; Kōkua Hawai'i Foundation; Malama Kauai; Hawaii Tea Society; C & C Tropicals; Maui Epicure LLC; Hawaii Tropical Fruit Growers; North Shore Economic Vitality Partnership; Kekaha Agriculture Association; Pacific American Foundation; Feed the Hunger Fund; Hawaii Food Industry Association; Larry Jeffs Farms, LLC; Hawaii Good Food Alliance; Hawaii Cattlemen's Council, Inc.; Ka 'Ohana O Na Pua; Kona Coffee Farmers Association; Kauai Chamber of Commerce; Kauai Economic Development Board, Inc.; Hawaii Ant Lab; Synergistic Hawaii Agriculture Council; Rancho Aloha; Hawai'i Farmers Union United; Hawaii Floriculture and Nursery Association; Commercial and Business Lending; Hawai'i Investment Ready; Nuestro Futuro, Inc.; Slow Money Hawai'i; and fifty-one individuals.

With nearly fifteen years' experience, Mr. Kishida's background in food security and sustainability, systematic planning and program development, and government relations has provided him with a wealth of knowledge and relationships in the local agriculture industry in the State. Mr. Kishida has been serving as the Acting Deputy to the Chairperson of the Board of Agriculture over the past seven months. Mr. Kishida initially joined the Department of Agriculture in July 2023 as the Plant Industry Administrator and was nominated to serve as the Deputy to the Chairperson of the Board of Agriculture in September 2023. Prior to that, Mr. Kishida was the inaugural Food Security and Sustainability Program Manager for the City and County of Honolulu, where he secured over \$30,000,000 in federal, state, city, and private capital in 2.5 years. Mr. Kishida has also served as a Farm to School Coordinator and School Food Services Supervisor for the Department of Education for eight years and as a School Food Coordinator of Kokua Hawaii Foundation from 2009 to 2012.

As evidenced by the unanimous supportive testimony submitted on his behalf, Mr. Kishida is well-respected and liked. Testimony in support of his nomination indicates that he has a proven track record of being a proactive collaborator and effective problem solver with multiple levels of government and across private, public, and non-profit sectors. Testifiers who have worked closely with Mr. Kishida commented on his impressive reputation, work ethic, and understanding of the various intricacies of and issues for farm and food operations in the State.

Mr. Kishida's passion for and commitment to fostering a robust agriculture industry, including developing an innovative aquaculture sector, increasing biosecurity, and reducing agricultural crimes, and to improving the quality of life for the people of Hawaii make Dexter Kishida well-suited to serve as the Deputy Chairperson of the Board of Agriculture.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3080 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 1611

The purpose and intent of this measure is to require law enforcement agencies and the Law Enforcement Standards Board to:

- (1) Consult the National Decertification Index; and
- (2) Report certain information related to a law enforcement officer's certification status to the Index.

Your Committee received testimony in support of this measure from ACLU of Hawaii.

Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers.

Your Committee received comments on this measure by the Department of Law Enforcement.

Your Committee finds that the use of force by law enforcement officers to impose laws should be held to the highest standards to ensure that this authority is not abused. Your Committee notes that current statute does not require an employing law enforcement agency to consult with the National Decertification Index when hiring a potential law enforcement officer. Additionally, law enforcement agencies are not required to report records of employed officers to the Index. This measure will help ensure that law enforcement officers serving within the State possess the highest moral standards and character by requiring the use of the National Decertification Index as part of a law enforcement agency's determination of an applicant's employment suitability.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2025; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1611, H.D. 2, as amended herein,

and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1611, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3081 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2016

The purpose and intent of this measure is to appropriate funds for the installation of a new outdoor emergency siren in the Pacific Palisades area of Oahu.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21; and three individuals.

Your Committee received comments on this measure from the Hawai'i Emergency Management Agency.

Your Committee finds that there have been complaints that the residents living in the Pacific Palisades area of Oahu are unable to hear the emergency siren located at Pearl City High School, and the emergency siren at Palisades Elementary School has been inoperative for several years. Your Committee notes that it is imperative for communities to be notified of a civil defense emergency in order to take necessary safety measures. This measure will appropriate funds for an emergency siren, which will ensure that residents in the Pacific Palisades area may hear an emergency siren in the event of an emergency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$200,000 for fiscal year 2024-2025.

Your Committee has amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2016, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2016, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3082 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2396

The purpose and intent of this measure is to authorize the payment of allowances for TRICARE Reserve Select coverages to junior officers, warrant officers, or enlisted personnel of the Hawaii National Guard ordered to active duty for more than thirty days in service to the State.

Your Committee received testimony in support of this measure from the Department of Defense and one individual.

Your Committee finds that there has been an increase in natural disasters throughout the State, which has led to numerous Hawaii National Guard service members ordered to active duty in response for extended periods, resulting in many service members losing their civilian company-provided health care coverage. Your Committee further finds that to require service members be on active duty without any health care coverage is an unfair request. This measure demonstrates the State's commitment to supporting its National Guard members and will improve retention by providing them with adequate access to health care coverage.

Your Committee has amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2396, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2396, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3083 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 2457

The purpose and intent of this measure is to:

- (1) Expand the requirement that the Department of Law Enforcement pursue and obtain accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc., to all divisions and sections within the Department; and
- (2) Establish five Commission Accreditation for Law Enforcement Agencies, Inc. coordinator positions, exempt from civil service, within the Department of Law Enforcement.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and State of Hawaii Organization of Police Officers.

Your Committee finds that Act 278, Session Laws of Hawaii 2022, established a new Department of Law Enforcement to consolidate and administer state criminal law enforcement and investigations functions for the purpose of providing the highest level of law enforcement service for the public, state employees, and state properties by centralizing state law enforcement functions. Your Committee recognizes that it is critical to increase public safety, improve decision-making, promote accountability, streamline communication, decrease costs, reduce duplication of efforts, and provide uniform training and standards within the Department of

Law Enforcement. This measure seeks to support the Department of Law Enforcement with these public safety goals by helping the Department to achieve accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2042, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2457, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2457, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3084 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2515

The purpose and intent of this measure is to clarify the types of events that constitute disasters and emergencies for the purposes of emergency management.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii.

Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency.

Your Committee finds that currently the Governor has broad powers to define what constitutes an emergency. Your Committee further finds that governing via executive order has the effect of denying the public a voice on important issues, forcing the people to rely on the courts for redress. By creating a clear definition of the events that constitute an "emergency" or "disaster" in statute, this measure will limit the potential for executive overreach via emergency orders.

Your Committee has amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2515, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2515, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3085 Public Safety and Intergovernmental and Military Affairs on H.B. No. 1842

The purpose and intent of this measure is to:

- (1) Increase the maximum fine for violations of the fire protection laws;
- (2) Specify that each day a violation exists or continues to exist shall constitute a distinct and separate offense;
- (3) Raise the criminal penalty for the offense of arson in the fourth degree to a class C felony if the offense was committed during the time and within the geographic area in which a red flag warning was in effect; and
- (4) Provide that the state of mind requirement is not applicable to the fact that the red flag warning was in effect and that the actor is strictly liable with respect to the attendant circumstance that the red flag warning was in effect.

Your Committee received testimony in support of this measure from the Department of Land Natural Resources, Honolulu Police Department, and Maui Chamber of Commerce.

Your Committee finds that following the August 2023 Maui wildfires, six working groups were established to evaluate the aftermath of the wildfires and make recommendations for appropriate legislative action in the next legislative session. Your Committee further finds that these working groups collaborated with federal, state, and county agencies, along with community stakeholders and interested parties, to identify immediate issues that require temporary or transitional relief for the people and businesses of West Maui. The joint final report, which was released in December 2023, contained recommendations including but not limited to penalties for violations of state fire protection laws and criminal penalties for arson during red flag warnings. Accordingly, this measure will deter certain actions that lead to a heightened risk of wildfires.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1842, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3086 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 2231

The purpose and intent of this measure is to:

- (1) Establish as a goal of the State the increased representation of female law enforcement officers in the State by 2030; and
- (2) Require each law enforcement agency to recruit law enforcement officers from diverse backgrounds.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, Honolulu Police Department, State of Hawaii Organization of Police Officers, Stonewall Caucus of the Democratic Party of Hawai'i, ACLU of Hawai'i, Rainbow Family 808, and one individual.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that according to the President's Task Force on Twenty—First Century Policing, increasing the diversity of law enforcement agencies throughout the nation is critical to developing trust between law enforcement agencies and the public. Your Committee further finds that nearly all modern national reports on law enforcement recommend the increased employment of women and minorities in law enforcement. This measure will promote the representation of women officers and increase diversity in law enforcement.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2231, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3087 Hawaiian Affairs on H.B. No. 2218

The purpose and intent of this measure is to amend the Hawaiian Homes Commission Act of 1920, as amended, to increase the loan limit for direct loans provided by the Department of Hawaiian Home Lands from fifty percent to seventy-five percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development's Federal Housing Administration.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and Office of Hawaiian Affairs.

Your Committee finds that under the Hawaiian Homes Commission Act of 1920, as amended, the Department of Hawaiian Home Lands is authorized to provide direct loans to beneficiaries for the repair, maintenance, purchase, and erection of a dwelling, provided that these loans do not exceed fifty percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development's Federal Housing Administration. Native Hawaiian beneficiaries are in need of more financial assistance due to rising construction and development costs. This measure raises the loan limit for a single residence loan amount to allow beneficiaries to purchase a home or make improvements to their existing home.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2218, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2218, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3088 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 2193

The purpose and intent of this measure is to:

- (1) Authorize law enforcement and fire officers to enter and inspect any licensee's or permittee's premises, under certain conditions, to verify compliance with the State's Fireworks Control Law;
- (2) Establish procedures for the Department of Law Enforcement to conduct administrative inspections of controlled premises;
- (3) Require certain licensees and permittees to keep records and maintain inventories;
- (4) Require licensees and permittees to report any stolen fireworks or articles pyrotechnic;
- (5) Authorize a law enforcement agency or county fire department to safely dispose confiscated fireworks and articles pyrotechnic;
- (6) Require violators to be held liable for storage and disposal costs;
- (7) Specify that each type of prohibited firework constitutes a separate violation;
- (8) Authorize the Department of Law Enforcement, in addition to the counties, to enforce the Fireworks Control Law; and
- (9) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, Hawaiian Humane Society, and seven individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 67, Session Laws of Hawaii 2023, created the Illegal Fireworks Task Force to, among other things, plan, coordinate, and engage in law enforcement operations to interdict illegal fireworks. Your Committee further finds that almost

two hundred thousand pounds of illegal fireworks have been taken off the streets of Hawaii since the inception of the Task Force. This measure will address some of the weaknesses identified by the Illegal Fireworks Task Force that include requirements for licensing, recording, and reporting of fireworks related commodities; inspection and disposal authorities for state and county agencies; and a mechanism to recover costs associated with the storage and disposal from those responsible for any illegal fireworks confiscated by authorities.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2042, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$1,200,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2193, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2193, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3089 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2241

The purpose and intent of this measure is to appropriate funds for civilian auxiliary aviation services performed by the Civil Air Patrol.

Your Committee received testimony in support of this measure from the Civil Air Patrol.

Your Committee finds that for more than seventy-five years, the Civil Air Patrol has assisted emergency management agencies throughout the nation with response and recovery efforts during and after a disaster. A nonprofit organization, the Civil Air Patrol recruits volunteers to fulfill its emergency, education, and cadet programs and services. Your Committee further finds that during the August 2023 Maui wildfires, the Civil Air Patrol provided essential aerial reconnaissance to help fight fires. This measure will appropriate funds to the Civil Air Patrol in order to retain these critical services in times of emergencies.

Your Committee has amended this measure by:

- (1) Adding language that provides that bylaw or policy requirements shall not apply to any incorporated agency or instrumentality of the United States wholly owned by the United States or by a corporation wholly owned by the United States;
- (2) Adding language that requires, beginning in fiscal year 2025-2026, funds required to be appropriated to carry on the operations and defray the expenses of the Civil Air Patrol be included in the Department of Defense's annual budget request;
- (3) Inserting an effective date of July 1, 2042, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2241, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2241, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3090 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 2352

The purpose and intent of this measure is to:

- (1) Exempt the Administrator of the Law Enforcement Standards Board from civil service laws;
- (2) Clarify membership and certain powers and duties of the Law Enforcement Standards Board; and
- (3) Establish new deadlines for the completion of the Law Enforcement Standards Board's responsibilities.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and Department of the Attorney General.

Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers and ACLU of Hawai'i.

Your Committee finds that section 139—2, Hawaii Revised Statutes, established a Law Enforcement Standards Board for the certification of law enforcement officers. Your Committee further finds that the Law Enforcement Standards Board has broad jurisdiction and is responsible for developing standards, establishing curriculums, and regulating certification requirements for law enforcement officers. Your Committee believes that these important and substantial duties are critical to ensuring that existing legal obligations are not compromised.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2352, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2352, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3091 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2483

The purpose and intent of this measure is to authorize the Department of Corrections and Rehabilitation to search criminal histories and fingerprint records of current and prospective volunteers and purchase of service contracted and subcontracted service providers and their employees who are directly involved in providing correctional programs, treatment, and services to persons committed to a correctional facility or places them in close proximity to persons committed when providing services on behalf of the Department or the correctional facility.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation.

Your Committee finds that the Department of Corrections and Rehabilitation requires that background checks be performed on all current and prospective volunteers and contracted and subcontracted service providers and their employees who are directly involved in providing correctional programs, treatment, and services to persons committed to a correctional facility. Your Committee further finds that the Department of Corrections and Rehabilitation currently does not have the statutory authority to conduct criminal history record checks on volunteers and contracted and subcontracted service providers. This measure will ensure that correctional programs and services are staffed with qualified individuals and volunteers.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2483, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2483, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3092 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2610

The purpose and intent of this measure is to:

- (1) Establish a Disaster Relief Match Special Fund to support the local match requirements of the FEMA Maui Wildfires Hazard Mitigation Grant Program for projects that implement mitigation measures to prevent and minimize the impacts of natural hazards affecting the State; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency, Office of the Mayor of the County of Maui, one member of the Maui County Council, Maui Chamber of Commerce, and State Hazard Mitigation Forum.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that after the August 2023 Maui wildfires, the Federal Emergency Management Agency provided response support and continues to offer recovery assistance via several programs, including the Hazard Mitigation Grant Program. Your Committee further finds that while the Hazard Mitigation Grant Program can be effective in assisting communities in recovery efforts, the Grant Program requires a match from non-federal funds. This measure will ensure the full and efficient use of the Hazard Mitigation Grant Program by establishing a special fund for local match requirements.

Your Committee has amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2610, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2610, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3093 (Majority) Housing on H.B. No. 1633

The purpose and intent of this measure is to remove the leasing restriction on owner-builders who obtain an owner-builder exemption to act as their own contractor and who build or improve residential or farm buildings or structures on their own property and do not offer the buildings or structures for sale.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS.

Your Committee received testimony in opposition to this measure from the Regulated Industries Complaints Office of the Department of Commerce and Consumer Affairs and Contractors License Board.

Your Committee finds that Hawaii is currently in the middle of a housing shortage, including affordable rental housing. The escalating demand for rental properties, coupled with limited housing supply, has led to increased housing costs and economic strain on families throughout the State. Current regulations and barriers hinder homeowners in Hawaii from efficiently converting their single-family properties into multi-family dwellings, limiting their ability to actively participate in addressing the housing shortage. Therefore, this measure aims to resolve this issue by removing a major barrier faced by homeowners attempting to utilize their own property to construct additional dwellings.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1633, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1633, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 3094 Housing on H.B. No. 1808

The purpose and intent of this measure is to:

- (1) Expand the counties' authorization to exercise the same powers as the Hawaii Housing Finance and Development Corporation for purposes of developing, constructing, financing, refinancing, or providing mixed-income projects and mixed-use developments; and
- (2) Authorize units in low- and moderate-income housing projects to be made available to households with higher incomes if there is an insufficient number of persons or families who meet income qualifying requirements.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, City and County of Honolulu Department of Planning and Permitting, City and County of Honolulu Office of Housing, Maui Chamber of Commerce, one member of the Maui County Council, and one individual.

Your Committee received comments on this measure from the Disability and Communication Access Board and Grassroot Institute of Hawaii.

Your Committee finds that while the Hawaii Housing Finance and Development Corporation may facilitate the development, construction, financing, refinancing, or other provision of mixed-income projects and mixed-use developments, including low- and moderate-income housing projects, the counties are not allowed to facilitate mixed-income projects and mixed-use developments. This is despite existing law giving the counties similar housing powers and the counties sharing a burden in promoting transit-oriented development, urban revitalization, and the conversion of office and commercial space to residential space. Therefore, this measure aims to combat the State's housing shortage by bringing certain county powers in line with the State's power to facilitate the development, construction, financing, refinancing, or other provision of mixed-income projects and mixed-use developments, including low- and moderate-income housing projects, and to issue county bonds for this purpose.

Your Committee notes that the companion to this measure, S.B. No. 2337 S.D. 2 (Regular Session of 2024), which was previously passed by the Senate, is a substantially similar measure that also expands the counties' authorization to exercise the same powers as the Hawaii Housing Finance and Development Corporation for purposes of developing, constructing, financing, refinancing, or providing mixed-use developments. Your Committee concludes that the language in S.B. No. 2337, S.D. 2, is preferable because it does not contain language that makes the measure applicable to mixed-income projects. Your Committee further finds that the language in S.B. No. 2337, S.D. 2, will be repealed when section 46-15.1, Hawaii Revised Statutes, is repealed and reenacted, in the form in which it read on the day before the approval of this measure, on June 30, 2028.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 2337, S.D. 2, a substantially similar measure, which authorizes each county to exercise the same powers as the Hawaii Housing Finance and Development Corporation for the purposes of developing, constructing, financing, refinancing, and otherwise providing mixed-use developments, including low- and moderate-income housing projects.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1808, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1808, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3095 (Majority) Housing on H.B. No. 2328

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Hawaii Public Housing Authority to acquire and renovate parcels and buildings located between Bethel Street, Pauahi Street, Fort Street, and Chaplain Lane in Honolulu, Oahu, for affordable housing purposes;
- (2) Require units to be affordable to households having an income that does not exceed a certain percentage of the Area Median Income; and

- (3) Require contracts awarded under this measure to be subject to the competitive sealed proposal method under the State's Public Procurement Code.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness, Hawaii Public Housing Authority, Diocese of Honolulu, and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from Disability and Communication Access Board and Scarlet Honolulu.

Your Committee finds that Hawaii's housing shortage continues to be one of the State's most challenging social problems with a persistently low inventory of housing stock creating a market where local residents have consistently been priced out of rentals and unable to attain homeownership. Therefore, this measure aims to combat this issue by promoting the adaptive reuse of existing, underutilized buildings for housing purposes.

Your Committee notes the concerns raised by the Office of Homelessness and Housing Solutions, Scarlet Honolulu, and individual testifiers regarding the existing businesses in these locations, as well as the issues of historic preservation. Your Committee also notes that the State does not intend to remove existing ground floor commercial tenants.

Your Committee has amended this measure by replacing the Hawaii Public Housing Authority with the Hawaii Housing Finance and Development Corporation as the agency to acquire the parcels.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2328, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2328, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 3096 Housing on H.B. No. 1833

The purpose and intent of this measure is to:

- (1) Appropriate funds into and out of the Rental Housing Revolving Fund to provide loans or grants for mixed-income rental projects or units in mixed-income rental projects for qualifying individuals and families; and
- (2) Appropriate funds for finance specialist positions.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Catholic Charities Hawai'i, Partners in Care, Hawai'i Association of REALTORS, Pacific Housing Assistance Corporation, Maui Chamber of Commerce, NAIOP Hawaii, and one individual.

Your Committee finds that historically the Hawaii Housing Finance and Development Corporation prioritized the award of Rental Housing Revolving Fund funds to projects that received federal and state Low-Income Housing Tax Credit allocations, resulting in most of the Rental Housing Revolving Fund being used for tier 1 households, which are households with incomes below sixty percent of the area median incomes. Your Committee also finds that in 2022, the Legislature broadened the scope of the Rental Housing Revolving Fund to assist tier 2 households, or households with incomes between sixty and one hundred percent of the area median income. Therefore, this measure aims to ensure the financial feasibility of tier 2 projects and to reduce the state subsidy to affordable rental units serving lower area median incomes by raising the income limit.

Your Committee has amended this measure by:

- (1) Inserting language to prioritize the award of Rental Housing Revolving Fund funds to projects on state- or county-owned lands or lands with a perpetual affordability commitment;
- (2) Clarifying the lapse date of funds as June 30, 2026; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1833, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1833, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3097 (Majority) Housing on H.B. No. 2292

The purpose and intent of this measure is to appropriate funds for the establishment and hiring of an unspecified number of project management III positions for the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Office of Planning and Sustainable Development.

Your Committee finds that the State is currently suffering from a housing shortage. Your Committee also finds that there are immediate and novel opportunities to develop affordable housing throughout the State. Therefore, the purpose of this measure is to create additional project manager positions within the Hawaii Housing Finance and Development Corporation to manage and aid in the development of these opportunities.

Your Committee has heard the concerns raised by the Hawaii Housing Finance and Development Corporation regarding the costs to administer this measure. Your Committee requests that should future committees deliberate on this measure that they consider the Hawaii Housing Finance and Development Corporation's request of an appropriation amount of \$237,992, representing an annual salary of \$145,117 plus fringe.

Your Committee has amended this measure by clarifying the position title as a "Project Manager III".

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2292, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2292, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 3098 Public Safety and Intergovernmental and Military Affairs on H.B. No. 1886

The purpose and intent of this measure is to authorize moneys in the Reduced Ignition Propensity Cigarette Program Special Fund to be used to defray the costs of statewide fire prevention, education, life safety, and preparedness programs, including the hiring of administrative personnel.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the primary mission of the State Fire Council is to develop and support a comprehensive fire service emergency management network for the protection of life, property, and the environment for the State. Your Committee notes that despite the scope of its responsibilities, the State Fire Council has been historically underfunded and until 2001, the Council had no funding for staff to fulfill its responsibilities. While the establishment of the Reduced Ignition Propensity Cigarette Program Special Fund has helped the Council defray the activities of the Reduced Ignition Propensity Cigarette Program, the State Fire Council is currently prohibited from utilizing the Special Fund for activities outside the scope of the Program. Your Committee concludes that the Reduced Ignition Propensity Cigarette Program Special Fund should be utilized by the State Fire Council to carry out other statewide fire prevention programs.

Your Committee has amended this measure by:

- (1) Amending the functions of the State Fire Council to include implementing statewide fire prevention, education, life safety, and preparedness programs;
- (2) Inserting language to clarify that the administrative personnel that may be hired using funds from the Reduced Ignition Propensity Cigarette Program Special Fund are exempt from chapter 76 and 89, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1886, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1886, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3099 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2107

The purpose and intent of this measure is to appropriate funds to establish Limited English Proficiency Language Access Coordinator positions within the Hawaii Emergency Management Agency.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency, Office of Language Access, Hawaii State Coalition Against Domestic Violence, Hawai'i Friends of Civil Rights, Pacific Gateway Center, Hawai'i Coalition for Immigrant Rights, FilCom CARES, Legal Clinic, Lāhainā Strong, Kaibigan ng Lāhaina, Hawai'i Alliance for Progressive Action, and nine individuals.

Your Committee received comments on this measure from the Department of Human Services and Disability and Communication Access Board.

Your Committee finds that one out of nine people living in Hawaii is limited English proficient. These individuals often encounter disproportionate risks before, during, and after disasters. These risks include an inability to understand evacuation orders and procedures and information from emergency relief providers. This measure will allow for Limited English Proficiency Language Access Coordinators to be deployed in communities by the Hawaii Emergency Management Agency in the event of an emergency.

Your Committee notes that the Limited English Proficiency Language Access positions should be made permanent and respectfully requests further examination by subsequent Committees to which this measure is referred.

Your Committee has amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2107, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2107, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3100 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2458

The purpose and intent of this measure is to clarify that the Director of Law Enforcement has authority to issue subpoenas as part of the investigative powers of the Department of Law Enforcement.

Your Committee received testimony in support of this measure from the Department of Law Enforcement.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that Act 278, Session Laws of Hawaii 2022, established a new Department of Law Enforcement to consolidate and administer state criminal law enforcement and investigations of various state departments. Your Committee further finds that while the Director of Law Enforcement currently has subpoena powers for purposes of investigations under the Uniform Controlled Substances Act, it is necessary to clarify that the Director's subpoena powers extend to other investigations conducted by the Department of Law Enforcement. This measure will allow the Director and the Department of Law Enforcement to competently conduct investigations.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2458, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2458, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3101 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2582

The purpose and intent of this measure is to require critical infrastructure information required by federal or state law to be collected or maintained by a county board of water supply in connection with a federal or state critical infrastructure security and resilience program to be confidential and not available to the public.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, Office of Information Practices and Board of Water Supply of the City and County of Honolulu.

Your Committee received testimony in opposition to this measure from the Public First Law Center.

Your Committee received comments on this measure from the Hawaii State Energy Office and Hawaiian Electric.

Your Committee finds that in order to succeed in the legislated responsibilities of the State and requirements of federal law regarding protection of critical infrastructure, it is necessary to protect the sixteen federally designated critical infrastructure sectors, including but not limited to energy, emergency services, water, and health care. Additionally, any threat to these sectors could have potentially debilitating consequences to national security, the economy, and public health and safety. Your Committee further finds that it is imperative to establish protections for critical infrastructure information that is created, received, or maintained by government agencies to ensure public health and safety.

Your Committee notes that the version of this measure as introduced, exempted disclosure of critical infrastructure information held by any government agency whereas the H.D. 1 version only applies to such information held by a county board of water supply. The language of H.B. No. 2582 is therefore preferable because it seeks to provide protection for each federally designated critical infrastructure sector.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of H.B. No. 2582, which excludes critical infrastructure information from disclosure requirements under the Uniform Information Practices Act.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2582, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2582, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3102 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2581

The purpose and intent of this measure is to remove the ability of the Governor or a mayor to suspend electronic media transmission during a state of emergency.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council; Public First Law Center; Hawai'i Association of Broadcasters, Inc.; Pacific Media Group; iHeartMedia Honolulu; All Hawaii News; Big Island Press Club; Grassroot Institute of Hawaii; Albatross News; Winning Edge Women's Leadership; Hawai'i Cannabis THC Ministry; and nine individuals.

Your Committee received comments on this measure from the Hawai'i Emergency Management Agency.

Your Committee finds that the power of the Governor or a mayor to suspend the transmission of electronic media during a state of emergency is overly broad and vague. Electronic media could include not only all radio and television broadcasts, but also could potentially include text messages, emails, and posts to social media platforms, which would restrain lawful free speech and publication. This measure will allow electronic media platforms to be utilized in times of emergencies in order to not restrict the utilization of these forms of media to disseminate valuable and critical information related to emergencies.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2581, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3103 Judiciary on H.B. No. 1595

The purpose and intent of this measure is to:

- (1) Create a state-initiated process to expunge records of arrests and convictions for the offense of promoting a detrimental drug in the third degree at no cost to the record holder; and
- (2) Require the Hawaii Criminal Justice Data Center to submit biannual reports to the Legislature until all eligible records are expunged.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Hawai'i Civil Rights Commission, Last Prisoner Project, Marijuana Policy Project, Community Alliance on Prisons, ACLU of Hawai'i, Chamber of Sustainable Commerce, Democratic Party of Hawai'i, National Organization for the Reform of Marijuana Laws, Japanese American Citizens League, Aloha Green Apothecary, Hawaiian Ethos, Techmana LLC, Drug Policy Forum of Hawai'i, and fifty-seven individuals.

Your Committee received testimony in opposition to this measure from the Hawaii High Intensity Drug Trafficking Area, Department of the Attorney General, Department of Corrections and Rehabilitation, Department of the Prosecuting Attorney of the County of Maui, Department of the Prosecuting Attorney of the City and County of Honolulu, and one individual.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that having an arrest record is a difficult barrier to overcome due to bias and stigma. Criminal records also block access to jobs, housing, education, public participation, insurance, or full participation in social and civil community life. Additionally, studies have shown that there is a disparate impact of the criminal justice system on minority and marginalized groups, further creating inequalities. However, your Committee finds that establishing a state-wide expungement process is premature and believes that a pilot project limited to certain offenses is a better approach at this time.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have created a statewide state-initiated process to expunge records of arrests and convictions for the offense of promoting a detrimental drug in the third degree at no cost to the record holder;
- (2) Inserting language requiring the Department of the Attorney General to establish and administer a pilot project for state-initiated expungement of certain arrest records for marijuana offenses under section 712-1249, Hawaii Revised Statutes, in a county having a population greater than two hundred thousand and less than five hundred thousand persons;
- (3) Inserting language requiring the Hawaii Criminal Justice Data Center to submit reports to the Legislature;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee requests consideration be given to expanding the pilot project to include arrests and convictions for possession and delivery of drug paraphernalia by adults, which was decriminalized by Act 72, Session Laws of Hawaii 2017.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1595, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1595, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3104 Hawaiian Affairs on H.B. No. 2772

The purpose and intent of this measure is to require the use of modern Hawaiian orthography, including the kahako and okina, on the state seal; provided that valid representations of the seal created before this Act shall remain valid.

Your Committee received testimony in opposition to this measure from Ka Leo o na Kupa, Kaunalewa, and three individuals.

Your Committee received comments on this measure from two individuals.

Your Committee finds that as a symbol of the State, the state seal should use modern Hawaiian orthography to reflect that the Hawaiian language, or Olelo Hawaii, is an official state language. In doing so, the State would contribute to the revival of the Hawaiian language and raise awareness of the proper spelling and pronunciation of Hawaiian words. However, your Committee also

finds that modern Hawaiian orthography is a relatively recent invention used to aid those learning the Hawaiian language. Furthermore, not all communities of native speakers use modern Hawaiian orthography, and the pronunciation and usage of certain Hawaiian words may vary from region to region. In recognition of this, your Committee finds that rather than changing the state seal, it is preferable for this measure to require that an explanation of how to pronounce the state motto as depicted on the state seal be provided on the official State of Hawaii website.

Therefore, your Committee has amended this measure by:

- (1) Deleting language that would have required the use of modern Hawaiian orthography, including the kahako and okina in the spelling of Hawaii and the state motto;
- (2) Inserting language requiring a translation of the state motto on the official state website;
- (3) Inserting language requiring an explanation of how to pronounce the state motto as displayed on the state seal on the official state website using modern Hawaiian orthography; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2772, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2772, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3105 Hawaiian Affairs on H.B. No. 1529

The purpose and intent of this measure is to allow an Island Burial Council member whose term has expired to continue in office as a holdover member until the member's reappointment to a second term is confirmed or a successor is nominated and appointed.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that delays in nominating and appointing, or reappointing, members to Island Burial Councils may affect the ability of councils to function effectively. If a member's term expires and the member's reappointment is delayed or a successor is not timely appointed, the Island Burial Council may lack sufficient quorum necessary to conduct business. Your Committee further finds that Island Burial Councils do not always allow council members or the public to participate in meetings virtually or by phone, further delaying meetings. Therefore, your Committee finds that this measure should ensure that Island Burial Councils will continue to run smoothly by permitting any Island Burial Council member whose term has expired to continue in office as a holdover member and additionally allowing Island Burial Council meetings be conducted pursuant to section 92-3.7, Hawaii Revised Statutes, to accommodate remote participation from council members and the public.

Your Committee notes that Island Burial Council meetings are often postponed because they lack sufficient quorum. Your Committee also notes that meetings may also be delayed by the opinion of the Chairperson of the Burial Council on remote participation in meetings or proceedings. These delays impede land development, hampering the State's ability to provide affordable housing for residents amid a housing crisis. Therefore, your Committee recommends that a Burial Council Chairperson's preferences regarding remote participation in meetings shall not be binding and only advisory.

Your Committee has amended this measure by:

- (1) Inserting language allowing Island Burial Council meetings be conducted pursuant to section 92-3.7, Hawaii Revised Statutes, to allow council members and the public to participate in meetings remotely;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1529, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1529, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 3106 Hawaiian Affairs on H.B. No. 2420

The purpose and intent of this measure is to:

- (1) Give practical effect to the Legislature's intent for the appropriation in Act 279, Session Laws of Hawaii 2022 (Act 279), by depositing certain unexpended or unencumbered funds appropriated through Act 279 that are set to lapse on June 30, 2024, into an Act 279 Special Fund and appropriating funds out of the Act 279 Special Fund; and
- (2) Provide that moneys from the appropriation out of the Act 279 Special Fund that are unencumbered as of June 30, 2026, shall lapse as of that date.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals.

Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that Act 279 appropriated \$600,000,000 to the Department of Hawaiian Home Lands to reduce the number of applicants on its waitlist. Your Committee further finds that Act 279 stipulated that any moneys not encumbered for specific purposes shall lapse to the general fund on June 30, 2025. However, article VII, section 11, of the Hawaii State Constitution provides that no general fund appropriation shall be for a period exceeding three years. This measure ensures that the Department of Hawaiian Home Lands will have another year of funds to benefit Department of Hawaii Home Lands' beneficiaries.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2420, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2420, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3107 (Majority) Judiciary on H.B. No. 1913

The purpose and intent of this measure is to increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel and guardians ad litem in family court proceedings.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Office of the Public Defender, Hawaii State Bar Association, ACLU of Hawai'i, and one individual.

Your Committee finds that guardians ad litem and court-appointed attorneys play critical roles in family court cases. However, the pool of individuals who are willing and able to serve as guardians ad litem and court-appointed attorneys is small. Your Committee further finds that although the Judiciary has taken steps to recruit more guardians ad litem and court-appointed attorneys, the need is still significant, and unless the number of individuals who are willing and able to serve as guardians ad litem and court-appointed attorneys increases, cases will be delayed. This measure will increase the pool of qualified individuals willing and able to serve as guardians ad litem and court-appointed attorneys by increasing the rates at which the Judiciary may compensate guardians ad litem and court-appointed attorneys.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$1,500,000 for the purchase of service contracts, guardian ad litem contracts, and court-appointed counsel contracts pursuant to chapter 571, Hawaii Revised Statutes; and
- (2) Making it effective on July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1913, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1913, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3108 (Majority) Judiciary on H.B. No. 1914

The purpose and intent of this measure is to increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel in criminal proceedings.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, Hawaii Paroling Authority, Hawaii State Bar Association, ACLU of Hawai'i, and three individuals.

Your Committee finds that over the last decade there has been a dramatic decrease in qualified applicants to the court-appointed lists of each circuit, which has in turn caused a shortage of available qualified and competent counsel to take indigent defendant criminal cases statewide. A major factor driving this reduction is the low hourly rate of pay offered for these cases. Your Committee believes that in order to attract skilled and experienced individuals to serve as appointed counsel for indigent defendants, the State must ensure that appointed counsel are adequately compensated for their work. This measure will aid in recruiting and retaining counsel who are qualified, experienced, and willing to be appointed in criminal proceedings.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$2,500,000 for the increased rate of compensation and maximum allowable amounts per case for court-appointed counsel in criminal proceedings; and
- (2) Making it effective on July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1914, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1914, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3109 (Majority) Judiciary on H.B. No. 2485

The purpose and intent of this measure is to:

- (1) Repeal an obsolete fee for a certified copy of a tax clearance;
- (2) Add a penalty for failure to comply with reporting requirements under general excise tax law and transient accommodations tax law for collection of rent by a third party; and
- (3) Raise the unfair competition penalty under general excise tax law to adjust for inflation.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii and Travel Technology Association.

Your Committee finds that under existing law, every person authorized to collect rent on behalf of an owner of real property in the State is required to provide the Department of Taxation with certain information. However, there is no penalty for failing to comply with this requirement. This measure will provide the Department of Taxation with an enforcement mechanism to help the Department promote tax compliance and uphold the State's tax laws.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2485, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2485, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (San Buenaventura). Noes, 1 (Awa). Excused, none.

SCRep. 3110 Judiciary on H.B. No. 1912

The purpose and intent of this measure is to establish one additional district court judgeship in the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, and Hawaii State Bar Association.

Your Committee finds that it has been more than forty years since the last district court judge was authorized in 1982. Since then, there has been a significant increase in the population of the City and County of Honolulu, with the Department of Business, Economic Development, and Tourism estimating that the population increased more than thirty-one percent in that time. Additionally, many of the cases that come before the court have become more complex, involving interdisciplinary issues such as the prevalence of those who experience mental illness or substance use disorders and individuals experiencing homelessness with long case histories of non-violent offenses. This measure will provide the district court with the ability to better manage court dockets, be more responsive to the needs of the community, increase capacity in the rural courts, and develop and expand specialized court calendars.

Your Committee has amended this measure by making it effective on July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1912, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1912, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3111 (Majority) Judiciary on H.B. No. 2509

The purpose and intent of this measure is to propose a constitutional amendment to increase the mandatory retirement age for state justices and judges from seventy years to seventy-five years.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, Hawaii Paroling Authority, Stonewall Caucus of the Democratic Party of Hawai'i, Community Alliance on Prisons, and five individuals.

Your Committee finds that in recent years a number of judges and justices have been forced to retire at age seventy, despite being competent, contributing members of the Judiciary. Additionally, many retired judges and justices continue to be active in the legal community. Your Committee believes that older judges and justices bring invaluable experience and knowledge to the bench. This measure will ensure retention of experienced and qualified judges and maintain stability within the State's courts.

Your Committee has amended this measure by making it effective upon compliance with article XVII, section 3, of the Hawaii State Constitution.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2509, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2509, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3112 Judiciary on H.B. No. 1881

The purpose and intent of this measure is to update the maximum administrative fines allowed for violations of chapters relating to standards of conduct and lobbyists.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that in recent years, instances of ethical violations underscore the need for a more robust deterrent to dissuade individuals from engaging in activities that compromise public trust. Your Committee believes that the current maximum fine of \$1,000 under existing law may not always be commensurate with the severity of some ethical violations, and a higher penalty can reflect the gravity of a particular transgression. Your Committee further finds that most other jurisdictions have a maximum fine for ethics violations between \$5,000 and \$10,000. This measure will allow the State to maintain the highest standards of ethical behavior among public officials and employees and proactively discourage unethical behavior.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1881, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1881, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3113 (Joint) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on H.B. No. 2230

The purpose and intent of this measure is to require the Law Enforcement Standards Board to develop, and each department employing law enforcement officers to implement, a structured health intervention program to support law enforcement officers' physical and mental health.

Your Committees received testimony in support of this measure from the Office of Wellness and Resilience, State of Hawaii Organization of Police Officers, and Hawai'i Psychological Association.

Your Committees received comments on this measure from the Department of Law Enforcement.

Your Committees find that law enforcement professions, including policing, may regularly expose officers to violence, suffering, death, and disturbing situations, causing high levels of job-related stress and physical and mental health problems. Your Committees further find that occupational health studies have recommended ways to mitigate job-related stress among law enforcement officers, including but not limited to the implementation of structured health intervention programs. This measure will increase public safety by supporting law enforcement officers' health.

Your Committees have amended this measure by:

- (1) Replacing the term "trauma-informed therapy" with "trauma-informed mental health support"; and
- (2) Inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2230, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2230, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 3114 Housing on H.B. No. 2787

The purpose and intent of this measure is to:

- (1) Increase the maximum amount of deductible contributions for individual housing accounts; and
- (2) Require and appropriate funds for the Department of Taxation to create and implement a public awareness campaign about individual housing accounts.

Your Committee received testimony in support of this measure from the Maui Chamber of Commerce, Grassroot Institute of Hawaii, and two individuals.

Your Committee received comments on this measure from the Department of Taxation.

Your Committee finds that the current median home value in the State is estimated to be between \$820,000 and \$977,000. The existing maximum allowed contribution under the State's Individual Housing Account Program is \$25,000 per year, which has not been increased since the program was established in 1982. At these current rates, a minimum of eight years of savings would be required just for a down payment. Your Committee further finds that saving for a down payment for the purchase of a home continues to be a barrier for many Hawaii residents, with few programs available to assist in this endeavor. Therefore, this measure will incentivize home ownership for first time buyers by increasing the maximum contributions to individual housing accounts as an allowable tax deduction to enable buyers to save for a down payment and closing costs.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2787, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2787, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3115 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on H.B. No. 2253

The purpose and intent of this measure is to:

- (1) Authorize the Department of Health to require all restaurants and hotel establishments to maintain an inventory of an opioid antagonist;
- (2) Permit law enforcement officers to carry an opioid antagonist while on-duty;
- (3) Require funds for the purchase of opioid antagonists used by law enforcement officers employed by a county to be paid for using county funds; and
- (4) Clarify that emergency personnel and first responders may administer an opioid antagonist to an individual experiencing an opioid-related drug overdose.

Your Committees received testimony in support of this measure from the Honolulu Police Department and Hawai'i Health & Harm Reduction Center.

Your Committees received comments on this measure from the Alcohol and Drug Abuse Division of the Department of Health.

Your Committees find that opioid antagonists are highly effective in countering the effects of opioids, saving the lives of many from an opioid overdose. Your Committees further find that quick administration of a opioid antagonist is imperative to preventing an opioid overdose. This measure allows the Department of Health to implement necessary precautionary measures to prevent opioid overdoses by requiring restaurants and hotel establishments to maintain an inventory of an opioid antagonist.

Your Committees note that opioid antagonists can only be purchased by law enforcement officers, yet this measure allows for restaurants and hospitals to maintain an inventory of antagonists. Your Committees find that this apparent discrepancy raises concerns that merit further consideration and respectfully request further examination by subsequent committees to which this measure is referred.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2253, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2253, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3116 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on H.B. No. 2227

The purpose and intent of this measure is to:

- (1) Expand the existing exemption from state law governing child care for the United States Department of Defense-certified child care providers on federal property to those operating off federal property; and
- (2) Require the United States Department of Defense-certified child care facilities with clients who are not children of enlisted families or who receive a child care subsidy from the Department of Human Services to have a memorandum of agreement with the Department of Human Services.

Your Committees received testimony in support of this measure from the United States Department of Defense, Hawaii Military Affairs Council, and Chamber of Commerce Hawaii.

Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that under existing Department of Human Services administrative rules, the process of issuing a registration for family child care could take up to one hundred eighty days from the date of submission of the application for registration, and that this delay occurs at a time when both civilian and military families frequently encounter waitlists and capacity issues for family child care. Your Committees further find that existing state law exempts child care providers certified by the United States Department of Defense from State law governing licensure and registration that is duplicative of the certification they receive from the military services; provided that the facility is on federal property. By expanding this exemption to United States Department of Defense certified child care providers that are operating off federal property, this measure will increase availability of qualified child care options and enhance the quality of life and economic security for both providers and the State's residents.

Your Committees have amended this measure by:

- (1) Deleting language that would have required any United States Department of Defense certified child care facility with clients who are not children of enlisted families or who receive a child care subsidy from the Department of Human Services to have a memorandum of agreement with the Department of Human Services regarding operation of the child care facility;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2227, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2227, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3117 Judiciary on H.B. No. 1953

The purpose and intent of this measure is to:

- (1) Require the Judicial Council to conduct a comprehensive review of the Hawaii Penal Code and to recommend proposed changes;
- (2) Require the Judicial Council to appoint an advisory committee to assist in the review; and
- (3) Require the advisory committee to report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, Hawaii Paroling Authority, Office of the Public Defender, Community Alliance on Prisons, ACLU of Hawai'i, and four individuals.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the Hawaii Penal Code is the fundamental document by which the State addresses crime. Your Committee believes that it is imperative that such an important part of state law receives full and deliberate attention from time to time to ensure the Hawaii Penal Code's continued force and effectiveness. Since 1972, reviews of the Hawaii Penal Code have occurred approximately every ten years, with the most recent review taking place in 2015. This measure will ensure that the Hawaii Penal Code remains current, effective, fair, and balanced.

Your Committee has amended this measure by:

- (1) Inserting language allowing the Judicial Council to add additional members to the advisory committee as the Council deems necessary;
- (2) Inserting an appropriation amount of \$25,000; and
- (3) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1953, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1953, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3118 Education on H.B. No. 2683

The purpose and intent of this measure is to repeal the sunset date for the exemption of laboratory school programs of the College of Hawaiian Language at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Executive Office on Early Learning, Office of Hawaiian Affairs, Hui for Excellence in Education, 'Aha Pūnana Leo, Ke Kula 'O Nāwahīokalani'ōpu'u, Laboratory Public Charter School, Hawai'i Children's Action Network Speaks!, Kupuna for the Mo'opuna, and forty-one individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that growing demand and support for Hawaiian language medium education has allowed for the development of pedagogical and professional development tools for educators. Presently, the College of Hawaiian Language at the University of Hawaii at Hilo works in partnership with Aha Pūnana Leo to develop performance standards and tools for both students and educators in Hawaiian language medium classrooms. However, recruitment qualifications, performance evaluations, and pedagogical methods utilized in English-medium education may not adequately support the needs of Hawaiian language medium education. Therefore, this measure retains requirements for performance standards and assessments that align with the unique pedagogical needs of Hawaiian language medium schools.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2683, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2683, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3119 Education on H.B. No. 2620

The purpose and intent of this measure is to:

- (1) Exempt Department of Education purchases of local edible produce and packaged food products less than a certain amount from the electronic procurement system requirement; and
- (2) Require at least three written quotes for Department of Education purchases of local edible produce and packaged food products between certain amounts.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Public Health Institute, Hawai'i Farm Bureau, Ulupono Initiative, Ka Ohana O Na Pua, and three individuals.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the Department of Education has a mandate to provide at least thirty percent locally sourced foods to the State's public schools by 2030. However, despite this significant mandate, the Department of Education's small purchase procurement capacity is limited to \$25,000 per twelve-month period, which may hinder the Department's ability to procure adequate amounts of locally sourced foods. Therefore, this measure adjusts the small purchase procurement capacity for local edible produce to provide Hawaii's keiki with healthy, nutritious, and locally sourced meals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2620, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2620, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3120 Education on H.B. No. 2074

The purpose and intent of this measure is to appropriate funds to the Department of Education for the establishment of Kaiapuni education curriculum specialist II positions and Kaiapuni classroom teacher positions.

Your Committee received testimony in support of this measure from the Department of Education, Office of Hawaiian Affairs, Hawai'i Teacher Standards Board, Hawaii State Teachers Association, 'Aha Kauleo, Hawai'i Alliance for Progressive Action, Nā Leo Kāko'o o O'ahu, Tahiri Association, The Spoehr Foundation, a Hui Mākua petition signed by one hundred twenty-eight individuals, a Hui Mākua Palapola Nui petition signed by eighty-seven individuals, and seventy individuals.

Your Committee finds that there has been significant growth and increased demand for Hawaiian language medium education in the State. Presently, the State operates twenty-two Kaiapuni schools, for students in grades kindergarten through twelve. However, resources dedicated to supporting Kaiapuni education programming have consistently declined since 2008, which has created staffing and pedagogical challenges. Accordingly, this measure appropriates funds for staffing needs at Kaiapuni schools to provide Hawaii's keiki with additional opportunities for Hawaiian language medium education.

Your Committee has amended this measure by:

- (1) Inserting three full-time equivalent (3.0 FTE) curriculum specialist II positions; and
- (2) Inserting ten full-time equivalent (10.0 FTE) classroom teacher positions.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2074, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2074, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3121 Education on H.B. No. 1903

The purpose and intent of this measure is to expand access of early learning programs to other state properties and public lands besides public school campuses.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, Department of Human Services, Office of Hawaiian Affairs, Executive Office on Early Learning, Early Learning Board, Special Education Advisory Council, Hui for Excellence in Education, Hawai'i Children's Action Network Speaks!, Kamehameha Schools, Early Childhood Action Strategy, and Chamber of Commerce Hawaii.

Your Committee finds that greater accessibility to early childhood education is a priority for the State. Presently, the Executive Office on Early Learning is authorized to operate early learning programs on public school campuses. However, other public properties may provide ideal spaces for early learning programs, expanding available inventory while offering more students with

opportunities to enroll. This measure enhances the availability of early learning programs to provide the State's youngest keiki with educational opportunities.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1903, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1903, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3122 Housing on H.B. No. 2790

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to reinstate the Hula Mae Single Family Loans Program through the Dwelling Unit Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Hawai'i Association of REALTORS, Aloha United Way, and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii is currently undergoing a housing shortage, with homeownership being a goal that many residents struggle with accomplishing. Your Committee also finds that high costs of living, rising interest rates, and unexpected expenses that delay savings, among other factors, make saving up for a down payment challenging. Therefore, this measure aims to alleviate this burden by re-establishing the housing loan and mortgage program to offer eligible first-time homebuyers with thirty year mortgage loans at competitive interest rates. However, your Committee finds that providing single-family mortgage loans is not an authorized use of the Dwelling Unit Revolving Fund. Therefore, amendments to this measure are necessary to address this issue.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the authorization of the issuance of general obligation bonds and the appropriation into and out of the Dwelling Unit Revolving Fund, to reinstate the Hula Mae Single Family Loans Program;
- (2) Changing the deadline for the Hawaii Housing Finance and Development Corporation from 60 days before the Regular Session of 2025 to 60 days before the Regular Session of 2026; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2790, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2790, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3123 (Majority) Public Safety and Intergovernmental and Military Affairs on H.B. No. 2523

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2027, establish licensing requirements, including minimum standards and qualifications, for licensure as a journey worker electric utility lineman and expands the Board of Electricians and Plumbers to include members engaged in electric utility work; and
- (2) Repeal an existing exception to the impending sunset of the limited exemption from electrician licensing requirements that was originally enacted by Act 65, Session Laws of Hawaii 2013, and extended pursuant to Act 60, Session Laws of Hawaii 2018, and Act 68, Session Laws of Hawaii 2022.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Hawaii State Energy Office; International Brotherhood of Electrical Workers Local Union No. 1260; Plumbers and Fitters United Association, Local 675; and Hawaiian Electric.

Your Committee received testimony in opposition to this measure from the International Brotherhood of Electrical Workers Local Union No. 1186.

Your Committee received comments on this measure from the Public Utilities Commission, Board of Electricians and Plumbers, and Kaua'i Island Utility Cooperative.

Your Committee finds that it is critical to protect the health and safety of the public and utility workers and improve and maintain Hawaii's electrical infrastructure. Your Committee further finds that these goals can be achieved through the development of a local workforce of properly qualified, trained, and licensed electric utility linemen. This measure will address the need for experienced and qualified linemen in the State who can perform certain complex maintenance and repair work affecting an electric utility.

Your Committee has amended this measure by:

- (1) Making it effective on July 1, 2027; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2523, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2523, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Rhoads). Noes, 1 (Elefante). Excused, 1 (Awa).

SCRep. 3124 (Joint) Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts on H.B. No. 2748

The purpose and intent of this measure is to establish statewide vehicular law enforcement pursuit policies.

Your Committees received testimony in support of this measure from the Policing Project, and one individual.

Your Committees received testimony in opposition to this measure from the Department of Law Enforcement, Honolulu Police Department, State of Hawaii Organization of Police Officers, and one individual.

Your Committees find that an increasing number of states are setting forth clear rules in advance for agencies and officers to ensure officers are only engaging in vehicle law enforcement pursuits when necessary and when the public safety benefits of such pursuits outweigh the risks. Your Committees believe that one of the best ways to ensure transparent, effective, and ethical policing is for the public to be democratically involved in setting expectations for police practices. This measure will advance public safety and avoid preventable fatalities and injuries by providing critical regulations for police vehicle pursuits.

Your Committees have amended this measure by:

- (1) Changing the agency responsible for data collection and policy dissemination from the Department of Law Enforcement to the Department of the Attorney General;
- (2) Removing language that would have required the Department of Law Enforcement to adopt administrative rules pursuant to chapter 91, Hawaii Revised Statutes; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2748, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2748, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Awa).

Transportation and Culture and the Arts: Ayes, 3; Ayes with Reservations (Inouye). Noes, none. Excused, 2 (Kanuha, Awa).

SCRep. 3125 (Joint) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on H.B. No. 2183

The purpose and intent of this measure is to establish safe harbor protections for survivors of sexual exploitation who seek medical or law enforcement assistance.

Your Committees received testimony in support of this measure from the Honolulu Police Department, Imua Alliance, Rainbow Family 808, and three individuals.

Your Committees received comments on this measure from the Department of the Attorney General and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committees find that sex trafficking is a profoundly prevalent crime in the State. According to testimony received by your Committees, the coronavirus disease 2019 pandemic saw demand for sex exploitation victim services skyrocket. Your Committees further find that over thirty states have existing safe harbor protections for sex trafficking victims. This measure will support survivors of sexual exploitation in finding health care by providing legal protections when obtaining health care services. Your Committees note the concerns that the H.D. 1 version of this measure may provide safe harbor to “johns”, which is contrary to the intent of this measure. Therefore, amendments are necessary to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Adding language to explicitly bar the safe harbor provisions from being utilized by individuals seeking medical care who provide, agree to provide, or offer to provide a fee or anything of value to another person to engage in sexual conduct; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2183, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2183, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 3126 Agriculture and Environment on H.B. No. 1896

The purpose and intent of this measure is to, beginning January 1, 2027, prohibit the manufacture, sale, offer for sale, distribution for sale, and distribution for use of any food packaging, food service ware, cosmetic, or personal care product that contains intentionally added perfluoroalkyl and polyfluoroalkyl substances (PFAS), with certain exceptions.

Your Committee received testimony in support of this measure from the Department of Health, Honolulu Board of Water Supply, Sierra Club of Hawai'i, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, Hawaii Environmental Change Agents Water Reduction Task Force, Hawaii Food+ Policy, Beautycounter, and six individuals.

Your Committee received testimony in opposition of this measure from the Retail Merchants of Hawaii.

Your Committee finds that PFAS remain in the environment for long periods of time and that exposure to PFAS has been linked to adverse health outcomes. Recognizing the harm in PFAS, the State prohibited, beginning December 31, 2024, the manufacture, sale, or distribution for sale or use of certain types of food packaging and fire-fighting foam that contain PFAS through Act 152, Session Laws of Hawaii 2022. This measure expands the State's ban on PFAS to protect the environment and human health from their detrimental and toxic effects.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2027; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1896, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1896, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3127 Agriculture and Environment on H.B. No. 2236

The purpose and intent of this measure is to:

- (1) Reclassify and abolish certain non-general funds of the Department of Agriculture, pursuant to the recommendations made by the Auditor in Auditor's Report No. 23-13; and
- (2) Transfer any unencumbered balance of any fund repealed or abolished by this measure to another fund.

Your Committee received comments on this measure from the Department of Agriculture and Tax Foundation of Hawaii.

Your Committee finds that the Office of the Auditor's Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Department of Agriculture, Report No. 23-13 (Dec. 2023), recommended that certain non-general funds of the Department of Agriculture be abolished or reclassified because the fund no longer serves its original purpose, does not serve a need, or does not meet the definition of a revolving fund, special fund, or trust fund. Your Committee further finds that abolishing or reclassifying these funds would achieve greater fiscal accountability in the Department of Agriculture.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2236, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2236, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3128 Agriculture and Environment on H.B. No. 2144

The purpose and intent of this measure is to establish the Access to Local Value-Added Products Act to allow homemade food operations to sell homemade food products, under certain conditions.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to require the Department of Health to:

- (1) Amend the definition of "homemade food products" in chapter 11-50, Hawaii Administrative Rules, regarding the Food Safety Code; and
- (2) Adopt certain rules regarding the sale and delivery of homemade food product.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Health; Hawai'i Farm Bureau; Hawaii Master Food Preservers, Inc.; Makani Mills LLC; Institute for Justice; Hawaiian Goodness LLC; Maui Chamber of Commerce; and eight individuals.

Your Committee received comments on the proposed S.D. 1 from the Department of Agriculture, Agribusiness Development Corporation, and Grassroot Institute of Hawaii.

Your Committee finds that expanding the definition of food products to include certain local value-added products, such as chutney, salsa, sauerkraut, barbecue sauces, catsup, relish, hot sauce, pickled mangos, kimchi, chili sauce, tomato sauce, and tomato paste, can create local employment opportunities and help support and grow small businesses by offering locally-made alternatives to imported brands. This measure not only fosters local entrepreneurship and innovation, but also increases food security in the State.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Amending the definition of “homemade food products”;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2144, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2144, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3129 Labor and Technology on H.B. No. 1784

The purpose and intent of this measure is to temporarily reinstate the Technology Infrastructure Renovation Tax Credit for taxable years beginning after December 31, 2023, and sunseting for taxable years beginning after December 31, 2026, and expand the definition of “technology-enabled infrastructure” to include data servers.

Your Committee received testimony in support of this measure from Servpac and Hawaiian Electric.

Your Committee received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, Charter Communications, Chamber of Commerce Hawaii, and Hawaiian Telcom.

Your Committee finds that upgrading and modernizing equipment necessary for data storage will improve resilience against physical damage caused by weather-related events and cybersecurity threats and ensure the continued, uninterrupted provision of services to Hawaii businesses, state government, satellite agencies, and residents. Leveraging modern and up-to-date technology to support critical operation systems is a significant benefit of data center operations, where one of the core missions is to stay at the forefront of technological advancements, enabling reliable data access. Therefore, this measure will promote modernization and increase the reliability of State technological equipment through tax incentives.

Your Committee has amended this measure by:

- (1) Repealing language that limits the application of the Technology Infrastructure Renovation Tax Credit to renovation costs incurred for commercial buildings;
- (2) Extending the reinstatement of the tax credit by one taxable year, making it applicable to taxable years beginning after December 31, 2024, and sunseting for taxable years beginning after December 31, 2027;
- (3) Amending the definition of “renovation costs” to include costs incurred to repair, replace, monitor, test, or purchase of technology enabled infrastructure machinery;
- (4) Clarifying that the definition of “technology-enabled infrastructure” includes high speed telecommunications systems that provide, in whole or in part, internet access, direct satellite communications access, and videoconferencing facilities;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1784, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1784, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3130 Labor and Technology on H.B. No. 2343

The purpose and intent of this measure is to expedite the enforcement of orders of wage payment violations by allowing the Director of Labor and Industrial Relations to file certified copies of the final orders in any court of competent jurisdiction.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of the Attorney General, and Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee.

Your Committee finds that under existing law, the Director of Labor and Industrial Relations must file final orders of wage payment exclusively in the circuit court for the order to be enforced and collected upon. This restriction causes inefficiency in the process, resulting in delayed payments to employees who are entitled to expeditious reimbursement of compensation from their employers who violated wage payment laws. Your Committee also finds that district courts with expedited processes and deadlines would be a more

efficient venue to enforce these orders. This measure will therefore improve the enforcement process for orders of wage payment violation by allowing the proceedings to be brought in district court.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2343, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2343, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3131 Labor and Technology on H.B. No. 2382

The purpose and intent of this measure is to clarify the Employees' Retirement System's eligibility requirement definitions for service-connected disability and accidental death benefits.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Employees' Retirement System.

Your Committee finds that the purpose of the Employees' Retirement System (ERS) service-connected disability benefits is to compensate members who have been permanently incapacitated for duty as the natural and proximate result of an accident occurring while in the actual performance of duty at some definite time and place, or as the cumulative result of some occupational hazard. Your Committee also finds that these purposes significantly differ from the purposes and conditions of the State's Workers' Compensation Law, that is intended to provide compensation for all work-related injuries. In several recent cases, the Hawaii Supreme Court rendered rulings awarding ERS service-connected disability retirement and accidental death benefits beyond the Legislature's original intent, resulting in an unintended increase in ERS' unfunded liability as a whole. Therefore, this measure is necessary to preserve ERS' service-connected disability and accidental death benefits as originally intended and avoid unintended increases in the ERS unfunded liability.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2382, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2382, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3132 Labor and Technology on H.B. No. 2463

The purpose and intent of this measure is to change the definition of "employee" in Hawaii's Wage and Hour Law to exclude any employee who receives guaranteed compensation totaling \$4,000 or more a month.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Democratic Party of Hawai'i Education Caucus, Hawai'i Children's Action Network Speaks!, Democratic Party of Hawai'i, and Democratic Party of Hawai'i Labor Caucus.

Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that under the existing Hawaii Wage and Hour Law, the definition of "employee" excludes individuals who are employed at a guaranteed compensation totaling \$2,000 or more a month. These employees are not provided the protection of minimum or overtime wage rates, and their employers are not required to comply with the law's recordkeeping provisions, also designed to protect workers. Your Committee further finds that while minimum wage continues to be increased, the guaranteed compensation exemption has not been adjusted correspondingly. The last time the guaranteed compensation level was changed was in 2002, while minimum wage has been adjusted nine times since, and as of today, a monthly compensation of \$2,000 is lower than the monthly wage of an employee earning the current minimum wage of \$14.00 per hour. This measure will allow more employees to be eligible for minimum wage, overtime compensation, and recordkeeping requirements under the State's Wage and Hour Law.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2463, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2463, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 3133 Labor and Technology on H.B. No. 1944

The purpose and intent of this measure is to authorize certain types of radiographical coverage and specialist consultations without a treatment plan within the context of workers' compensation coverage for employees with cervical and lumbar spinal injuries, or suspected cervical and lumbar spinal injuries.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Disability and Communication Access Board, Hawaii Insurers Council, and four individuals.

Your Committee finds that serious injuries to the cervical or lumbar spine could result in paralysis and that these injuries are often irreversible. Your Committee further finds that urgent medical attention is critical to minimize the effects of a head or neck injury. Therefore, this measure attempts to facilitate early diagnosis of and streamline medical treatment for these types of serious injuries.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1944, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1944, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3134 Labor and Technology on H.B. No. 2373

The purpose and intent of this measure is to make emergency appropriations for collective bargaining cost items for the members of Bargaining Units (1) and (10) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2023-2025.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; Judiciary; University of Hawai'i System; United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Health Systems Corporation.

Your Committee finds that unions representing public employees in Hawaii have been pursuing claims for temporary hazard pay for work performed by government employees during the coronavirus disease 2019 (COVID-19) pandemic pursuant to hazard-pay provisions of the respective collective bargaining agreements, and collective bargaining negotiations regarding the issue are currently in progress. This measure provides a legislative vehicle that can be used to make emergency appropriations if an agreement is reached or an arbitration award is issued requiring an appropriation before the end of the 2024 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2373, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2373, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3135 Labor and Technology on H.B. No. 2374

The purpose and intent of this measure is to make emergency appropriations for collective bargaining cost items for the members of Bargaining Units (2), (3), (4), (9), (13), and (14) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2023-2025.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; the Judiciary; Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; and Hawaii Health Systems Corporation.

Your Committee finds that unions representing employees in Hawaii are seeking claims for temporary hazard pay for work government employees performed during the coronavirus disease 2019 (COVID-19) pandemic pursuant to the hazard-pay provisions of the respective collective bargaining agreements, and collective bargaining negotiations regarding the issue are currently in progress. This measure serves as a legislative vehicle that may be used to make emergency appropriations if an agreement is reached or an arbitration award is issued requiring an appropriation before the end of the 2024 Regular Session.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2374, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2374, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3136 Labor and Technology on H.B. No. 2489

The purpose and intent of this measure is to exempt senior software developers in the Department of Taxation from civil service.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the Department of Taxation has found it difficult to recruit and retain experienced software developers, as the experience and skillset needed to perform this type of work and the commensurate salary exceed what is currently provided by civil service. Your Committee further finds that by creating a category of exempt senior software developers, the Department will be able to attract and retain skilled employees more easily. Therefore, this measure will create a long-term career path for software developers to remain with the State and decrease the Department's reliance on contracted services.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2489, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2489, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3137 Labor and Technology on H.B. No. 2655

The purpose and intent of this measure is to make appropriations for public employment cost items and cost adjustments for employees of the Senate, House of Representatives, State Ethics Commission, Office of the Auditor, Legislative Reference Bureau, and Office of the Ombudsman, who are excluded from collective bargaining.

Your Committee received testimony in support of this measure from the Office of the Ombudsman, Hawai'i State Ethics Commission, Legislative Reference Bureau, and Office of the Auditor.

Your Committee finds that many legislative officers and employees do not have the same benefits, including salary adjustments, as other State employees who are in collective bargaining units. This measure provides a legislative vehicle to make appropriations should the Legislature determine, prior to the end of the 2024 Regular Session, that public employment cost items and cost adjustments are warranted for legislative officers and employees to ensure that they are compensated equitably with their civil service counterparts.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2655, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2655, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3138 Labor and Technology on H.B. No. 1640

The purpose and intent of this measure is to:

- (1) Require an employer to initiate negotiations on repricing of classes within a bargaining unit within thirty days of its receipt of the exclusive representative's written request to negotiate; and
- (2) Establish that an employer's failure to initiate the negotiation within the required time frame and the parties' failure to reach an agreement within ninety days of the exclusive representative's written request to negotiate or by January 31 of a year in which the collective bargaining agreement is due to expire, whichever is earlier, constitutes an impasse to which impasse procedures under existing law shall apply, unless the impasse occurs within one hundred eighty days after a collective bargaining agreement has been reached between the employer and the exclusive representative of the bargaining unit.

Your Committee received testimony in support of this measure from United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Association of School Psychologists; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and Hawaii State AFL-CIO.

Your Committee received testimony in opposition to this measure from the Department of Human Resources Development and County of Maui Department of Personnel Services.

Your Committee received comments on this measure from the Department of Budget and Finance, City and County of Honolulu Department of Human Resources, and County of Kaua'i Department of Human Resources.

Your Committee finds that the current process for the repricing of classes within the state government is one-sided in favor of the employer, and does not include any appeal mechanism or adjudication via impartial review. This allows employers to arbitrarily deny requests to negotiate repricing of classes without providing the basis of their determination, and without recourse for the employees. Therefore, this measure serves to protect the rights and interests of public employees while fostering a more collaborative and productive bargaining process.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1640, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1640, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 3139 Labor and Technology on H.B. No. 1556

The purpose and intent of this measure is to establish and appropriate funds for permanent positions within the Employee Staffing Division of the Department of Human Resources Development for the recruitment and retention of state employees.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that recent loss of authorized staffing positions within the Employee Staffing Division of the Department of Human Resources Development has led to large delays in filling vacant State positions. The Department has also seen a significant increase in applications received for positions throughout the State. This measure will reduce the delay in filling state positions by increasing the number of staff to process applications.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1556, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1556, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3140 Energy, Economic Development, and Tourism on H.B. No. 2356

The purpose and intent of this measure is to:

- (1) Change the cap for awards to assist businesses applying for the Small Business Innovation Research Grant Program and the Small Business Technology Transfer Grant Program of the Hawaii Technology Development Corporation;
- (2) Add purchasing of renewable energy technology systems as an eligible expense for the Manufacturing Development Grant Program;
- (3) Clarify that training on new and existing manufacturing equipment is an eligible expense for the Manufacturing Development Grant Program; and
- (4) Make appropriations.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; University of Hawai'i System; Hawai'i Farm Bureau; Chamber of Commerce Hawaii; Hawaii Food Industry Association; Small Kine Farm; Hawai'i Integrated Analytics, LLC; Ai.Fish LLC; Maui Brewing Co.; Omao Labs LLC; Hawaii Fish Company Inc.; Piko Provisions; Hawaii Innovations & Technologies LLC; 3D Innovations LLC; Blue Startups, LLC; Oceanit Laboratories, Inc.; Nalu Scientific, LLC; Aloha Shoyu Company, Ltd.; Mana Up; Maui Chamber of Commerce; WaiHome LLC; Holomua Collaborative; and OceanBit Inc.

Your Committee finds that the strength of the State's economy depends upon a diversity in commerce that is resilient to economic downturns and aggressive in creating new growth opportunities. Your Committee further finds that the Hawaii Technology Development Corporation's (HTDC) core programs develop infrastructure, capital, and talent to facilitate the development of technology and manufacturing jobs and also provides technical and financial support for innovative small businesses from the startup stage through growth and export. This measure supports and expands upon HTDC's programs, which will drive technological innovation, create high-quality jobs, and stimulate economic growth in the State.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2356, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2356, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3141 Energy, Economic Development, and Tourism on H.B. No. 1959

The purpose and intent of this measure is to make an appropriation to establish a position within the Hawaii Technology Development Corporation to assist the Corporation's aerospace coordinator.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation and Chamber of Commerce Hawaii.

Your Committee finds that the aerospace field has played a pivotal role in expanding and diversifying the national economy by forging new inroads to scientific discovery, advancing national engineering and manufacturing expertise, pioneering innovations in

communications and computer technologies, enhancing surveillance, and enabling a better understanding of weather systems and climate change. Your Committee further finds that additional support of the aerospace industry in the State will enable future development and innovation in science and technology.

Your Committee has heard the concerns raised in testimony regarding the ambiguity as to the functions of the position established in this measure and how the establishment of this position will support the Hawaii Technology Development Corporation (HTDC). Your Committee notes that the companion to this measure, S.B No. 2081, S.D. 2 (Regular Session of 2024), which was previously passed by the Senate, also relates to promoting the growth and diversification of the State's aerospace and aeronautics industries through the HTDC. Your Committee finds that the language in S.B No. 2081, S.D. 2, is preferable because it comprehensively establishes the Aerospace and Aeronautics Development Program to provide a focal point within the state government to facilitate dialogue and coordination among the State's public, private, and academic sectors, and between state-based entities and public and private overseas organizations, to promote and grow Hawaii's aerospace and aeronautics industries.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of S.B No. 2081, S.D. 2, a measure that:

- (1) Establishes the Aerospace and Aeronautics Development Program within the Department of Business, Economic Development, and Tourism; and
- (2) Inserts an effective date of January 1, 2060.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1959, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1959, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3142 Energy, Economic Development, and Tourism on H.B. No. 1815

The purpose and intent of this measure is to include agritourism in the definition of "enterprise" to authorize the Agribusiness Development Corporation to financially support businesses engaged in agritourism.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Office of the Mayor of the County of Maui, Hawai'i Farm Bureau, Chamber of Commerce Hawaii, and one individual.

Your Committee received comments on this measure from the Hawai'i Farmers Union United.

Your Committee finds that agritourism comes with economic benefits for farmers and ranchers. From generating additional income and direct marketing to preserving farms, farmland, and local culture and traditions, agritourism diversifies farmers' income streams, meaning they can make money outside of their regular planting season. This measure will diversify the State's economy in a holistic way that positions the tourism industry to give back to the State's communities.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1815, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1815, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3143 Energy, Economic Development, and Tourism on H.B. No. 2685

The purpose and intent of this measure is to:

- (1) Establish the Solar Hui Program to allow multi-family residential property owners to invest into a solar hui investment fund, which will provide repayment of income derived from energy services agreements to low- and moderate-income households to install solar energy systems;
- (2) Establish the Solar Hui Program Fund Manager position; and
- (3) Appropriate funds for the implementation of the Solar Hui Program and establishment of the Fund Manager position.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Hawai'i Association of REALTORS; Hawai'i Executive Collaborative Climate Coalition; Hawaii Bankers Association; Blue Planet Foundation; 350Hawaii.org; Hawaii Solar Energy Association, Inc.; Hawaii Credit Union League; and two individuals.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Department of Budget and Finance.

Your Committee finds that additional funding for solar energy is needed to achieve the State's renewable energy and decarbonization goals. Your Committee further finds that condominium units represent nearly one-third of the State's housing stock, and that multi-family residential property owners who cannot alter their roofs for solar installation are unable to participate in clean energy adoption or access clean energy investment opportunities. This measure will expand access for residential property owners to participate in clean energy while also using investment funds to bridge financing gaps for low- and moderate-income households to install solar energy systems.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2685, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2685, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3144 Energy, Economic Development, and Tourism on H.B. No. 2359

The purpose and intent of this measure is to establish the Digital Equity Grant Program to award grants to applicants to deploy digital equity projects to covered populations in the State.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; State Council on Developmental Disabilities; Office of Hawaiian Affairs; Disability and Communication Access Board; one member of the Kaua'i County Council; Hawaiian Telcom; Chamber of Commerce Hawaii; Broadband Hui; Hawai'i Primary Care Association; Hawai'i Library Association; AARP Hawai'i; Maui Chamber of Commerce; Kapolei Chamber of Commerce; Waianae Coast Comprehensive Health Center; and one individual.

Your Committee finds that digital access and digital skills for remote work, school, and access to social services such as unemployment claims, telehealth, and other essential services within the State are critically important, particularly in rural and socio-economically disadvantaged communities. Your Committee further finds that digital equity programs in communities are essential for the social and economic well-being of the residents of the State. This measure enables the Hawaii Broadband and Digital Equity Office to work with rural and underserved communities to identify and address barriers to digital equity and to increase access and the ability to be full participants in the digital economy.

Your Committee has amended this measure by:

- (1) Removing wireless community networks from the list of eligible projects for the Digital Equity Grant Program;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2359, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2359, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Kim).

SCRep. 3145 Energy, Economic Development, and Tourism on H.B. No. 1828

The purpose and intent of this measure is to:

- (1) Extend the State's energy-efficiency portfolio standards from 2030 to 2045 and update the standards; and
- (2) Authorize the Public Utilities Commission to adjust the 2045 and interim standards.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs; Hawaii State Energy Office; Hawaii Green Infrastructure Authority; Public Utilities Commission; County of Kaua'i Office of Economic Development; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Ulupono Initiative; Blue Planet Foundation; Hawai'i Energy; JM Sales Hawaii LLC; Wild Kids Hawai'i; Hawaiian Electric; Democratic Party of Hawai'i; Building Decarbonization Task Force of the Hawai'i Environmental Change Agents; 350 Hawaii.org; Climate Protectors Hawaii; Citizens' Climate Lobby Hawai'i; Hawaii Solar Energy Association, Inc.; Democratic Party of Hawai'i Environmental Caucus; and eight individuals.

Your Committee finds that energy efficiency plays an important role in the State's efforts to transition to clean energy. Your Committee further finds that energy efficiency efforts are an important tool for cost-effectively reducing the State's need for generating resources and providing a means for individual customers to lower their energy bills. This measure supports the State's commitment to energy efficiency by realigning the energy efficiency portfolio standards with the timeline for the State's renewable portfolio standards and allows the Public Utilities Commission to set interim standards to maximize cost-effective energy efficiency programs and technologies to meet the State's clean energy goals.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1828, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1828, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 3146 Energy, Economic Development, and Tourism on H.B. No. 2372

The purpose and intent of this measure is to clarify part III of Act 164, Session Laws of Hawaii 2023, as it pertains to the appropriation for the Solar Energy Storage Loan Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Public Utilities Commission; Ulupono Initiative; Climate Protectors Hawai'i; PV Tech; Shifted Energy, Inc.; 350 Hawaii.org; Inception Financial LLC; Hawaii Solar Energy Association, Inc.; Energy and Climate Action Committee of the Democratic Party of Hawai'i Environmental Caucus; and one individual.

Your Committee finds that directing funds to the Clean Energy and Energy Efficiency Revolving Loan Fund ensures a continuous and sustainable source of funding to finance solar and storage installations. This not only addresses the immediate financial challenges faced by almost half of the State's residents, but it also creates a long-term solution to support underserved ratepayers. This measure enables the Hawaii Green Infrastructure Authority to continually leverage these funds to financially support more ALICE families by enabling loan repayments to revolve and be recycled.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2372, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2372, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 3147 Energy, Economic Development, and Tourism on H.B. No. 2354

The purpose and intent of this measure is to clarify that the Small Business Regulatory Review Board has the authority to review legislation affecting small businesses in response to requests from small business owners.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Small Business Regulatory Review Board; Grassroot Institute of Hawaii; Chamber of Commerce Hawaii; and two individuals.

Your Committee finds that the Small Business Regulatory Review Board (SBRRB) was established to represent the interests of the State's entrepreneurs in the executive branch. Your Committee further finds that it is important that the SBRRB's purview is clearly understood by the small business community and state and county agencies. This measure increases the impact and effectiveness of the SBRRB by expanding their scope of responsibilities to include legislative input.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2354, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2354, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 3148 Energy, Economic Development, and Tourism on H.B. No. 2103

The purpose and intent of this measure is to:

- (1) Amend the Hawaii Renewable Hydrogen Program and Hydrogen Investment Capital Special Fund to include a broader focus on long duration clean energy storage;
- (2) Transfer responsibility for the Hawaii Renewable Hydrogen Program to the Hawaii State Energy Office; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office and Energy and Climate Action Committee of the Democratic Party of Hawai'i Environmental Caucus.

Your Committee received comments on this measure from one individual.

Your Committee finds that extreme weather, exacerbated by climate change, can affect the supply and availability of all forms of energy, including local renewable resources and imported fuels. Your Committee further finds that the ability to store locally produced clean energy through long duration clean energy storage technologies can help mitigate the risk of supply disruptions during extreme weather or other events. This measure supports the continued development and storage of resilient, sustainable, and locally produced clean energy in the State and makes the State a competitive candidate for clean energy storage federal grants.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2103, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2103, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 3149 (Joint) Agriculture and Environment and Health and Human Services on H.B. No. 1691

The purpose and intent of this measure is to require newly installed or modified individual wastewater systems that are near the shoreline, or likely to pollute groundwater, to include denitrification capacity.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; one member of the Hawai'i County Council; one member of the Kaua'i County Council; Hawai'i State Association of Counties; Wastewater Alternatives and Innovations LLC; Surfriider Foundation, Hawaii Region; Hawai'i Reef and Ocean Coalition; and twelve individuals.

Your Committees received comments on this measure from the Department of Health, University of Hawai'i Sea Grant College Program, University of Hawai'i Water Resources Research Center, and Hawai'i Association of REALTORS.

Your Committees find that wastewater systems have the potential to pollute groundwater and nearshore waters by introducing elevated levels of contaminants, such as nitrogen, phosphorus, and pathogens. Your Committees recognize that a 2023 Hawaii-based study found that septic and cesspool pollution is a major driver of coral reef decline along the coastline of West Hawaii. According to testimony received by your Committees, the denitrification capacity in this measure requires a fifty percent reduction for total nitrogen, which is a standard that is widely used to meet the growing demand for nutrient reduction in coastal areas and sensitive environments. This measure will decrease threats from certain newly installed or modified individual wastewater systems to drinking water, human health, and significant harm to streams and coastal resources, including coral reefs.

Your Committees have amended this measure by:

- (1) Clarifying the definition of "denitrification capacity";
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1691, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1691, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3150 (Joint) Agriculture and Environment and Health and Human Services on H.B. No. 1759

The purpose and intent of this measure is to require cesspools attached to or used by housing or lodging that provides transient accommodations to be upgraded, converted, or connected before January 1, 2035, for priority level 1 cesspools and before January 1, 2040, for priority level 2 cesspools, with certain exceptions.

Your Committees received testimony in support of this measure from the Department of Health, Department of Land and Natural Resources, Hawai'i Climate Change Mitigation and Adaptation Commission, University of Hawai'i Sea Grant College Program, University of Hawai'i Water Resources Research Center, one member of the Kaua'i County Council, County of Hawai'i Department of Environmental Management, Wastewater Alternatives and Innovations LLC, Hawai'i Reef and Ocean Coalition, and eight individuals.

Your Committees received comments on this measure from the Hawai'i Association of REALTORS.

Your Committees find that prioritizing and accelerating conversion dates for cesspool systems with the most severe impacts provides more timely protection of the State's groundwater and surface water resources. This measure will reduce the amount of contaminants entering Hawaii's groundwater and nearshore waters for the benefit of current and future residents and visitors of the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1759, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1759, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3151 (Joint) Agriculture and Environment and Education on H.B. No. 2774

The purpose and intent of this measure is to modify certain benchmark goals and timelines for the Department of Education (Department) to purchase a certain amount of fresh local agricultural products and local value-added, processed, agricultural, or food products.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Education, Office of Hawaiian Affairs, Ulupono Initiative, Hawai'i Public Health Institute, and three individuals.

Your Committees find that there are discrepancies between the locally-sourced food benchmarks for the Department of Education and those of other state entities that purchase agricultural products. According to testimony received by your Committees, this measure will help the Department's School Food Services Branch streamline and standardize reporting obligations regarding the status of the Department's progress in meeting local farm-to-school meal cost goals. This measure clarifies that the Department's specific percentage target goals shall be thirty percent by year 2030, thirty-four percent by year 2040, forty-two percent by year 2045, and fifty percent by year 2050.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2774, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2774, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3152 (Joint) Agriculture and Environment and Health and Human Services on H.B. No. 1892

The purpose and intent of this measure is to:

- (1) Require certain priority level 1 cesspools to be upgraded, converted, or connected before an unspecified date;
- (2) Require priority level 2 cesspools to be upgraded, converted, or connected before an unspecified date;
- (3) Authorize and appropriate an unspecified amount of funds from the Water Pollution Control Revolving Fund to the Department of Health to retain qualified consultants as necessary to:
 - (A) Identify necessary public outreach and education resources and tools; and
 - (B) Develop a comprehensive public outreach strategy and website to serve as a statewide clearinghouse for information and resources for homeowners and wastewater industry professionals related to cesspool upgrade, conversion, and connection; and
- (4) Appropriate an unspecified amount of funds to the Department of Health to:
 - (A) Implement the Cesspool Compliance Pilot Grant Project established pursuant to Act 153, Session Laws of Hawaii 2022; and
 - (B) Establish an unspecified number of full-time equivalent positions to implement the Cesspool Compliance Pilot Grant Project and perform other cesspool conversion-related work.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Land and Natural Resources; Hawai'i Climate Change Mitigation and Adaptation Commission; Hawaii Green Infrastructure Authority; University of Hawai'i Sea Grant College Program; University of Hawai'i Water Resources Research Center; one member of the Kaua'i County Council; County of Hawai'i Department of Environmental Management; Wastewater Alternatives and Innovations LLC; Surfrider Foundation, Hawai'i Region; Puakō for Reefs; Indivisible Hawaii; Hawai'i Reef and Ocean Coalition; Fair Wind Cruises; Public Access to SunScreens Coalition; and seventeen individuals.

Your Committees received comments on this measure from the Department of Health and Hawai'i Association of REALTORS.

Your Committees find that the Cesspool Conversion Working Group established pursuant to Act 132, Session Laws of Hawaii 2018, was convened to facilitate the upgrade or conversion of cesspools on properties within priority upgrade areas to more environmentally-responsible waste treatment systems or the connection of these cesspools to sewer systems before 2050. This measure implements various recommendations of the Cesspool Conversion Working Group.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1892, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1892, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3153 (Joint) Agriculture and Environment and Health and Human Services on H.B. No. 2771

The purpose and intent of this measure is to appropriate an unspecified amount of funds to the Department of Agriculture:

- (1) For the continued administration of the Hawaii Healthy Food Incentive Program; and
- (2) To provide matching funds to beneficiaries who participate in the Supplemental Nutrition Assistance Program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Health; Department of Human Services; Office of Hawaiian Affairs; Office of the Mayor of the County of Maui; one member of the Hawai'i County Council; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; Local Food Coalition; Hawai'i Hunger Action Network; Hawai'i Good Food Alliance; Ulupono Initiative; Hawai'i Public Health Institute; The Food Basket Inc.; Hawai'i Farm Bureau; Hawaii Food Industry Association; Hawai'i Farmers Union United; Hawaii Appleseed Center for Law and Economic Justice; Democratic Party of Hawai'i; Green Party of Hawai'i; Chamber of Commerce Hawaii; Hawaii Primary Care Association; Hawaii Chapter of 350.org; Zonta Club of Hilo; Hawaii Food Bank, Inc.; Hawaii State AFL-CIO; American Heart Association; Aloha United Way; Hawai'i Alliance for Progressive Action; Pukalani Superette; Beyond Organic Consulting Inc.; Kauai Climate Action Coalition; Hawaii Cattlemen's Council, Inc.; Hawai'i Children's Action Network Speaks!; Ho'ōla Farms; KYD, Inc.; ABC Stores; Hawaii Pacific Health; Hawaii Medical Service Association; AlohaCare; Save Medicare Hawaii; Kaiser Permanente Hawai'i; and sixty-two individuals.

Your Committees find that every community should have access to fresh and healthy dietary options, but the high cost of fresh produce and healthy alternatives often makes that difficult. Your Committees further find that the Hawaii Healthy Food Incentive Program, now commonly known as the DA BUX Double Up Program, provides a dollar-for-dollar match to federal Supplemental Nutrition Assistance Program beneficiaries who purchase locally grown fruits, vegetables, and proteins at participating farmers' markets, grocery stores, and community-supported agriculture projects. Your Committees note that a \$3,000,000 investment by the State in DA BUX Double Up Program would allow the statewide program coordinator, led by The Food Basket Inc., to apply for an additional \$3,000,000 in matching federal funds, totaling \$6,000,000. This measure not only supports the health of local families and farmers, but also the local economy.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2771, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2771, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3154 (Joint) Labor and Technology and Government Operations on H.B. No. 1645

The purpose and intent of this measure is to require and appropriate funds for the Department of Human Resources Development to submit, as part of its annual report to the Legislature, information and data on vacancies in the Executive Branch.

Your Committees received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO and Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committees received comments on this measure from the Department of Human Resources Development.

Your Committees find that the State currently has a roughly thirty percent vacancy rate in its Executive Branch workforce, which has led to a severe reduction, both in quantity and quality, in government services provided to the public. Your Committees also find that information on various metrics on the overall and department vacancy rates, steps taken to fill each vacant position, which essential civil service positions that are hard to fill, and the impact on government operations and delivery of service due to a vacant position is paramount in understanding this issue. Therefore, this measure will provide the Legislature with a comprehensive set of metrics to better understand and combat the vacancies in the State's Executive Branch.

Your Committees have amended this measure by:

- (1) Clarifying that the annual reports shall include information on both civil service and exempt positions within the State;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1645, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1645, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3155 (Joint) Labor and Technology and Government Operations on H.B. No. 1832

The purpose and intent of this measure is to:

- (1) Allow a state department, division, or agency, rather than the Department of Human Resources Development, to conduct a minimum qualification review of applicants for vacant positions within the department, division, or agency and to immediately interview the applicant; and

- (2) Require the Department of Human Resources Development to provide state departments, divisions, and agencies the applications received for vacancies under certain circumstances.

Your Committees received testimony in support of this measure from the Department of Law Enforcement, and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committees received testimony in opposition to this measure from the Department of Human Resources Development.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development; Hawaii Housing Finance and Development Corporation; Department of Transportation; and Department of Business, Economic Development, and Tourism.

Your Committees find that state departments have been plagued with delays in recruitment with much of the delay associated with screening and approval of applications. Additionally, the Department of Human Resources Development has been understaffed for a prolonged period which has undoubtedly caused much of its inability to timely process applications. Therefore, this measure will expedite the application process by giving the departments the power to screen applicants and conduct qualification reviews for vacant positions.

Your Committees have amended this measure by:

- (1) Inserting language requiring the Department of Human Resources Development to correct any errors found in a minimum qualification review received from another state department, division, or agency, and notify the state department, division, or agency within five working days;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1832, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1832, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4; Ayes with Reservations (Ihara). Noes, none. Excused, 1 (Lee).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3156 (Joint/Majority) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1530

The purpose and intent of this measure is to require that an employer of firefighters maintain its fire staffing service at a level of not less than four on-duty firefighters in each company, for a collective bargaining agreement or executive policy in effect on and after July 1, 2025.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; County of Maui Department of Fire and Public Safety; Honolulu Fire Department; and Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO.

Your Committees received testimony in opposition to this measure from the Office of Collective Bargaining and City and County of Honolulu Department of Human Resources.

Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that firefighting staffing directly affects the delivery of fire protection services, with reduced staffing levels equating to reduced service levels. Your Committees further find that poorly staffed companies can result in an increased likelihood of property and life loss. Therefore, this measure will establish a minimum company staffing level for firefighters to reduce this risk.

Your Committees have amended this measure by:

- (1) Inserting a commencement date of July 1, 2028, for the minimum staffing of four on-duty firefighters within a company; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1530, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1530, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 3. Noes, 1 (Moriwaki). Excused, 1 (Fevella).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3157 (Joint) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1889

The purpose and intent of this measure is to expand workers' compensation medical benefits for firefighters to include coverage for breast cancer and cancer of the female reproductive organs.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations; Disability and Communication Access Board; County of Maui Department of Fire and Public Safety; Honolulu Fire Department; International Longshore and Warehouse Union Local 142; and Hawaii Fire Fighters Association, Local 1463, IAFF, AFL-CIO.

Your Committees find that although fire departments are expected to use the best available equipment and risk management practices to reduce a firefighter's exposure to contaminants, exposure may be unavoidable as some house fires and vehicle fires release highly concentrated toxicants from burning plastics and other synthetics. Your Committees also find that due to anatomical differences, female firefighters may develop a wide variety of cancers and develop them at an earlier age than most other women. By providing workers' compensation coverage for breast cancer and cancer of female reproductive organs for firefighters, this measure will ensure that firefighters receive timely and appropriate medical treatment, and ease the emotional and financial burdens for firefighters and their families.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1889, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1889, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3158 (Joint) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1843

The purpose and intent of this measure is to establish and appropriate funds for the Office of the State Fire Marshal within the Department of Labor and Industrial Relations to direct fire protection efforts statewide.

Your Committees received testimony in support of this measure from the Office of the Governor, Department of Labor and Industrial Relations, State Fire Council, Department of Land and Natural Resources, County of Hawai'i Fire Department, County of Maui Department of Fire and Public Safety, Honolulu Fire Department, one member of the Maui County Council, and Democratic Party of Hawai'i.

Your Committees received comments on this measure from the Department of the Attorney General and Maui Chamber of Commerce.

Your Committees find that state fire marshals serve an integral role in coordinating fire prevention among local agencies. Your Committees find, however, that Act 241, Session Laws of Hawaii 1978, abolished the Office of the State Fire Marshal and replaced it with the State Fire Council, comprising the Fire Chiefs of the counties, Fire Chief of the Hawaii State Aircraft Rescue Fire Fighting unit, and a representative of the Division of Forestry and Wildlife of the Department of Land and Natural Resources. Your Committees find, however, that the State Fire Council is limited in its scope and responsibilities, has a relatively small budget, is staffed by a small number of part-time employees, and can only meet on a quarterly basis due to the high demand of the members' leadership positions. Therefore, this measure will reestablish the position of the State Fire Marshal to provide critical input and oversight to the State's fire code, standardize training requirements for county fire departments, lead fire investigations to determine fire origin and cause, and provide and coordinate public education and awareness on fire safety.

Your Committees have amended this measure by:

- (1) Deleting language that would have:
 - (A) Established the Office of the State Fire Marshal within the Department of Labor and Industrial Relations to be headed by the State Fire Marshal;
 - (B) Required the Governor to appoint the State Fire Marshal without regard to chapters 76 and 89, Hawaii Revised Statutes, to serve for a period of ten years, from a list of three nominees submitted by the State Fire Marshal;
 - (C) Allowed the State Fire Marshal to hire staff as necessary;
 - (D) Required the State Fire Marshal to have the qualifications, experience, and expertise in fire safety, prevention, and control necessary to successfully perform the duties of the position; and
 - (E) Required the State Fire Marshal to perform certain duties;
- (2) Inserting language that:
 - (A) Establishes within the Department of Labor and Industrial Relations a State Fire Marshal, who shall be appointed by the State Fire Council without regard to chapter 76, Hawaii Revised Statutes, to serve for a period of ten years;
 - (B) Exempts the appointment of the State Fire Marshall from being subject to the advice and consent of the Senate;
 - (C) Requires the terms and conditions of the appointment of the State Fire Marshal to be established by the State Fire Council;
 - (D) Requires the State Fire Marshal to have the same powers and authority as county fire chiefs under sections 132D-4, 132D-16.6, and 132D-16.7, and chapter 132, Hawaii Revised Statutes; and
 - (E) Requires the State Fire Marshal to perform certain duties, including preparing and submitting annual reports to the Governor and the State Fire Council;

- (3) Inserting language that amends section 76-16(b), Hawaii Revised Statutes, to include the State Fire Marshal as a position exempt from chapter 76, Hawaii Revised Statutes; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1843, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1843, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3159 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2342

The purpose and intent of this measure is to:

- (1) Prohibit carrying or using a firearm in the commission of a separate misdemeanor offense; and
- (2) Clarify prohibitions regarding deadly or dangerous weapons, switchblade knives, and butterfly knives.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, and one individual.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Hawaii Firearms Coalition, and forty-nine individuals.

Your Committee finds that while the use of a firearm in the commission of a felony is already prohibited under section 134-21, Hawaii Revised Statutes, there is a need to expand the prohibition to the use of firearms in misdemeanor offenses. Your Committee further finds that a new law to specifically address the carry or use of a firearm in the commission of a separate misdemeanor is necessary to increase public safety. This measure will address hazards to the health, safety, and welfare of Hawaii residents by updating and clarifying existing statute related to firearms and weapons.

Your Committee has amended this measure by:

- (1) Inserting language specifying that the permit requirements for the acquisition of a rifle or shotgun under 134-2(g), Hawaii Revised Statutes, shall not apply to an applicant who has been issued a hunter education certificate that is valid for life or has received a written exemption; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2342, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2342, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3160 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2351

The purpose and intent of this measure is to amend the annual reporting requirement for the Department of the Attorney General concerning concealed carry licenses.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Honolulu Police Department, and one individual.

Your Committee received testimony in opposition to this measure from twenty-one individuals.

Your Committee finds that existing statute requires the Department of the Attorney General to report demographic information of conceal carry license applicants and licensees including the applicant's age, gender, and race. Your Committee further finds that these requirements may create unintended biases during the licensure process. This measure will ensure a comprehensive report but reduce potential biases by removing the demographic reporting requirements.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2351, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2351, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3161 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2353

The purpose and intent of this measure is to establish the Criminal Justice Data Sharing and Research Group to consolidate the efforts of the Criminal Justice Data Sharing Working Group and the Gun Violence and Violent Crimes Commission.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Law Enforcement.

Your Committee received testimony in opposition to this measure from the Public First Law Center and League of Women Voters of Hawaii.

Your Committee received comments on this measure from the Office of Information Practices and one individual.

Your Committee finds that there are several working groups and commissions that focus on gun violence, violent crime, and criminal data sharing, including the Governor's Commission on Crime, Criminal Justice Data Sharing Working Group, and Gun Violence and Violent Crimes Commission. Your Committee further finds that the abundance of working groups dedicated to firearms creates a burden on public servants who attend overlapping and often redundant meetings. This measure will increase efficiency and effectiveness by merging the Criminal Justice Data Sharing Working Group and the Gun Violence and Violent Crimes Commission to consolidate their efforts.

Your Committee has amended this measure by:

- (1) Deleting language that would have exempted the Criminal Justice Data Sharing and Research Group from the Sunshine Law;
- (2) Adding language to allow the Criminal Justice Data Sharing and Research Group to assemble a special closed session for the protection of individually identifiable criminal justice data;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2353, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2353, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3162 Public Safety and Intergovernmental and Military Affairs on H.B. No. 2622

The purpose and intent of this measure is to appropriate funds to the Department of Law Enforcement for the State's Gun Buyback Program.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and three individuals.

Your Committee received testimony in opposition to this measure from twenty-nine individuals.

Your Committee received comments on this measure from two individuals.

Your Committee finds that the State's Gun Buyback Program offers residents a safe way to dispose of unwanted or unlawful firearms. Your Committee further finds that the previous gun buyback event was successful and allowed law enforcement officers to properly dispose of nearly five hundred firearms on Oahu. Your Committee believes that an additional gun buyback program event will help reduce firearm-related assaults and suicides, and gun-related accidents involving children.

Your Committee has amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

Your Committee notes that the House Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$825,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2622, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2622, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3163 (Joint) Public Safety and Intergovernmental and Military Affairs and Labor and Technology on H.B. No. 2395

The purpose and intent of this measure is to make Hawaii National Guard service members activated by the Governor or the Governor's designated representative to state active duty ineligible for enrollment in the Employees' Retirement System based on the active duty.

Your Committees received testimony in support of this measure from the Department of Defense and Hawaii National Guard Enlisted Association.

Your Committees received comments on this measure from the Employees' Retirement System.

Your Committees find that during the August 2023 Maui wildfires, the Hawaii National Guard servicemembers who were called to active duty by the Governor and Adjutant General played a crucial role in ensuring the success of Lahaina's response missions. Your Committees further find that Hawaii National Guard servicemembers face financial burdens with the mandatory enrollment in the

Employees' Retirement System due to the temporary nature of their work for the State. This measure will grant financial flexibility to National Guard servicemembers by exempting them from mandatory payments into the Employees' Retirement System.

Your Committees have amended this measure by inserting an effective date of July 1, 2042, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2395, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2395, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3164 (Joint) Public Safety and Intergovernmental and Military Affairs and Labor and Technology on H.B. No. 2461

The purpose and intent of this measure is to make the Hawaii Cybersecurity, Economic, Education, and Infrastructure Security Coordinator exempt from civil service.

Your Committees received testimony in support of this measure from the Department of Law Enforcement.

Your Committees find that the Cybersecurity, Economic, Education, and Infrastructure Security Coordinator serves as a crucial nexus between various sectors such as cybersecurity, economy, education, and infrastructure thereby ensuring a comprehensive and cohesive approach to the State's security and prosperity. Your Committees further find that the position's extensive responsibilities are not just administrative but are pivotal in safeguarding the State's digital landscape. This measure recognizes that exempting this position from civil service is a necessary step to secure Hawaii's digital and physical infrastructure, enhance economic resilience, and educate the future workforce in crucial cybersecurity skills.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2042, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2461, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2461, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3165 Housing on H.B. No. 1761

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation to issue bonds for housing project infrastructure and finance the development of regional state infrastructure projects;
- (2) Exempt bonds issued by the Hawaii Housing Finance and Development Corporation for improvements by assessments, and the interest thereon, from certain taxes, with exceptions;
- (3) Include proceeds from bonds issued for regional state infrastructure projects as a source of revenue for regional state infrastructure subaccounts; and
- (4) Authorize regional state infrastructure subaccount revenues to be used to repay regional state infrastructure project bond holders.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii Housing Finance and Development Corporation, Hawai'i Community Development Authority, Office of Planning and Sustainable Development, NAIOP Hawaii, Partners in Care, and two individuals.

Your Committee finds that the State is currently in the middle of a housing shortage. The development of additional housing inventory often comes hand-in-hand with the need to update aging infrastructure to accommodate the new units. The cost of updating this infrastructure often falls on the shoulders of the developers seeking to build the housing project, which ultimately leads to the costs being passed down to the residents seeking to purchase these homes or units. Therefore, this measure offers an alternative finance option for regional infrastructure development and improvements in order to lessen this burden.

Your Committee notes that no taxpayer funds would be used in the repayment of the bonds issued by this measure.

Your Committee has amended this measure by:

- (1) Specifying that bonds may be issued in conjunction with the formation of infrastructure improvement districts; and
- (2) Clarifying that assessments from the improvement districts shall be a source of revenue to repay the bonds.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1761, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1761, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3166 Housing on H.B. No. 1763

The purpose and intent of this measure is to:

- (1) Require the allocation of Low-Income Housing Tax Credits be issued pursuant to a priority system;
- (2) Amend the priority criteria for which funds in the Rental Housing Revolving Fund are to be used; and
- (3) Require the Hawaii Housing Finance and Development Corporation to add new criteria and point allocations to the Qualified Allocation Plan.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii Public Housing Authority, Partners in Care, AARP Hawai'i, Aloha United Way, and two individuals.

Your Committee received testimony in opposition to this measure from Affordable Housing Connections LLC and Stanford Carr Development.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation, Disability and Communication Access Board, and Catholic Charities Hawai'i.

Your Committee finds that Hawaii is currently undergoing a housing shortage. Your Committee also finds that the State's current housing inventory is aging, with many of its public housing units functionally obsolete or approaching this threshold. Therefore, this measure aims to combat this issue by promoting and funding the development of affordable housing.

Your Committee has amended this measure by:

- (1) Deleting section 1 of the measure, which would have required the allocation of Low-Income Housing Tax Credits to be issued pursuant to a priority system;
- (2) Clarifying that moneys available in the Rental Housing Revolving Fund shall be used for projects demonstrating project readiness;
- (3) Deleting section 3 of the measure, which would have required the Hawaii Housing Finance and Development Corporation to adopt rules relating to the Qualified Allocation Plan and criteria point system;
- (4) Making this measure apply to Rental Housing Revolving Fund applications submitted after June 30, 2024;
- (5) Making this measure effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1763, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1763, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3167 (Majority) Housing on H.B. No. 2548

The purpose and intent of this measure is to:

- (1) Establish the Accessory Dwelling Unit Loan Program to provide loans and technical assistance grants for the development of accessory dwelling units; and
- (2) Establish the Accessory Dwelling Unit Loan Revolving Fund and appropriate funds into and out of the Revolving Fund to implement the Accessory Dwelling Unit Loan Program.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, County of Hawai'i Office of Housing and Community Development, AARP Hawai'i, Council for Native Hawaiian Advancement, Hawaii Habitat for Humanity Association, one member of the Maui County Council, and one individual.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the State is undergoing a housing shortage and constructing accessory dwelling units is a critical part of addressing the housing shortage. However, traditional financing for accessory dwelling units may be difficult for many homeowners to secure. Therefore, this measure aims to overcome this obstacle by establishing an Accessory Dwelling Unit Loan Program to address the costs associated with building accessory dwelling units.

Your Committee notes that loan programs with favorable terms but limited funding can become "lottery ticket" programs, in which a lucky few recipients receive large financial benefits, while the vast majority of eligible recipients remains in the exact same situation. To avoid such a situation, your Committee suggests a narrower targeting of the eligible beneficiary class to more thoughtfully ensure that the funds go where they are needed most. Your Committee respectfully asks that these issues be considered as this measure moves through the legislative process.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2548, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2548, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 3168 (Majority) Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 13

The purpose and intent of this measure is to:

- (1) Urge members of Hawaii's congressional delegation to support the Ceasefire Now Resolution introduced by United States Congresswoman Cori Bush; and
- (2) Urge members of Hawaii's congressional delegation to insist that the Biden Administration call for an immediate, permanent ceasefire in Gaza, to facilitate the de-escalation of hostilities to end the current violence, promptly send and facilitate the entry of humanitarian assistance into Gaza, including fuel, food, water, and medical supplies, and begin negotiations for lasting peace.

Your Committee received testimony in support of this measure from Women Organizing for Change in Agriculture and Natural Resource Management; National Alliance for Filipino Concerns; Americans for Democratic Action Hawai'i; Democratic Party of Hawai'i; Green Party of Hawai'i; Hawai'i Workers Center; Veterans for Peace, Hawaii Chapter 113; Our Revolution Hawaii; Rise for Palestine; Showing Up for Racial Justice Hawai'i; Hawai'i Alliance for Progressive Action; Maui for Palestine; Students and Faculty for Justice in Palestine; Sierra Club of Hawai'i; Roots Reborn; AF3IRM Hawai'i; Ka Lāhui Hawai'i; Muslim Association of Hawaii; Jewish Voice for Peace-Hawai'i; Faith Action Hawai'i; Calvary by the Sea Lutheran Church; Interfaith Alliance Hawai'i; Ka Lei Maile Aii; Malu 'Āina; 'Ai Pohaku, and more than five hundred individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that between October 7 and December 2, 2023, armed violence has claimed the lives of more than thirteen thousand Palestinians and some one thousand two hundred Israelis, and wounded tens of thousands more, the vast majority of which were civilians. Your Committee further finds that hundreds of thousands of lives are at imminent risk if a permanent ceasefire is not reached and humanitarian aid is not delivered without delay. Your Committee recognizes the urgent need for a ceasefire to alleviate the Israeli government's actions including targeted attacks on hospitals, schools, and places of worship; acts of violence on children and civilians; denial of food, water, fuel, medicine, and other forms of humanitarian assistance.

Your Committee has amended this measure by:

- (1) Adding that on January 26, 2024, the world's highest court, the International Court of Justice declared that Palestinians in Gaza are facing a plausible genocide;
- (2) Inserting language to emphasize the threat of famine that Palestinians face;
- (3) Clarifying that the Israeli government is also restricting Gaza's access to medicine;
- (4) Clarifying that the United States government has declared Hamas as a terrorist organization;
- (5) Adding that the United States government has economic power to halt the war and save Palestinian and Israeli lives;
- (6) Clarifying that the President of the United States, in addition to Hawaii's congressional delegation, is urged to publicly call for an immediate and permanent ceasefire in Gaza and to continue negotiations for lasting peace;
- (7) Adding that certified copies of the Senate Concurrent Resolution be sent to the Majority Leader of the United States Senate, Majority Leader of the United States House of Representatives, Minority Leader of the United States Senate, Chair of the Republican National Committee, and Governor;
- (8) Amending the title in accordance with its amended purpose;
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 13, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 13, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Rhoads). Excused, 1 (Awa).

SCRep. 3169 (Majority) Public Safety and Intergovernmental and Military Affairs on S.R. No. 6

The purpose and intent of this measure is to:

- (1) Urge members of Hawaii's congressional delegation to support the Ceasefire Now Resolution introduced by United States Congresswoman Cori Bush; and
- (2) Urge members of Hawaii's congressional delegation to insist that the Biden Administration call for an immediate, permanent ceasefire in Gaza, to facilitate the de-escalation of hostilities to end the current violence, promptly send and facilitate the entry

of humanitarian assistance into Gaza, including fuel, food, water, and medical supplies, and begin negotiations for lasting peace.

Your Committee received testimony in support of this measure from the more than ninety individuals.

Your Committee received testimony in opposition to this measure from the Hawaii Federation of Republican Women and three individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that between October 7 and December 2, 2023, armed violence has claimed the lives of more than thirteen thousand Palestinians and some one thousand two hundred Israelis, and wounded tens of thousands more, the vast majority of which were civilians. Your Committee further finds that hundreds of thousands of lives are at imminent risk if a permanent ceasefire is not reached and humanitarian aid is not delivered without delay. Your Committee recognizes the urgent need for a ceasefire to alleviate the Israeli government's actions including targeted attacks on hospitals, schools, and places of worship; acts of violence on children and civilians; denial of food, water, fuel, medicine, and other forms of humanitarian assistance.

Your Committee has amended this measure by:

- (1) Adding that on January 26, 2024, the world's highest court, the International Court of Justice declared that Palestinians in Gaza are facing a plausible genocide;
- (2) Inserting language to emphasize the threat of famine that Palestinians face;
- (3) Clarifying that the Israeli government is also restricting Gaza's access to medicine;
- (4) Clarifying that the United States government has declared Hamas as a terrorist organization;
- (5) Adding that the United States government has economic power to halt the war and save Palestinian and Israeli lives;
- (6) Clarifying that the President of the United States, in addition to Hawaii's congressional delegation, is urged to publicly call for an immediate and permanent ceasefire in Gaza and to continue negotiations for lasting peace;
- (7) Adding that certified copies of the Senate Resolution be sent to the Majority Leader of the United States Senate, Majority Leader of the United States House of Representatives, Minority Leader of the United States Senate, Chair of the Republican National Committee, and Governor;
- (8) Amending the title in accordance with its amended purpose;
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 6, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 6, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Rhoads). Excused, 1 (Awa).

SCRep. 3170 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on H.B. No. 1972

The purpose and intent of this measure is to establish a working group within the Hawaii State Energy Office to make recommendations for the reuse and recycling of electric vehicle batteries.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office; Department of Health; Hawai'i Environmental Change Agents Solid Waste Reduction Task Force; Redwood Materials Inc.; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; Hawaii Automobile Dealers Association; and Energy and Climate Action Committee of the Democratic Party of Hawai'i Environmental Caucus.

Your Committees received comments on this measure from Radius Recycling, Alliance for Automotive Innovation, and one individual.

Your Committees find that improving the management of end-of-life batteries is a part of achieving the State's resilient clean energy economy. Your Committees further find that electric vehicle (EV) batteries contain critical materials that have the realistic potential to continue serving the energy economy, assuming the EV battery waste stream is managed well in the reverse supply chain. This measure's proposed working group will help the state ensure the integration of end-of-life battery management aligns with its clean energy objectives.

Your Committees have amended this measure by:

- (1) Inserting a representative of the automotive recycling industry to be invited to serve as a member of the Electric Vehicle Battery Recycling and Reuse Working Group; and
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1972, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1972, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Kim).
 Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3171 (Joint) Energy, Economic Development, and Tourism and Government Operations on H.B. No. 2614

The purpose and intent of this measure is to:

- (1) Require government entities in the State that issue building permits to implement, by January 1, 2025, SolarAPP+ or a functionally equivalent online automated permitting platform that verifies code compliance and issues permits to licensed contractors for solar distributed energy resource systems in real time; and
- (2) Require government entities in the State that issue building permits in areas served by an investor-owned electric utility to adopt a self-certification process for solar distributed energy resource systems that are not SolarAPP+ compatible.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office; Hawaii Green Infrastructure Authority; Ulupono Initiative; Climate Protectors Hawai'i; Hawai'i Executive Collaborative Climate Coalition; Hawaii Unified Industries, LLC; Sunnova Energy International, Inc.; Greenpeace Hawaii; Hawaii Food Industry Association; 350 Hawaii.org; Sierra Club of Hawai'i; Green Party of Hawai'i; Hawaii Solar Energy Association, Inc.; Blue Planet Foundation; Citizens' Climate Lobby Hawaii; Green Power Projects, LLC; Inception Financial LLC; Chamber of Sustainable Commerce; Kauai Climate Action Coalition; Hawai'i Environmental Change Agents Building Decarbonization Task Force; Sunaru Inc. dba Solar Help Hawaii; Catholic Charities Hawai'i; Alternate Energy, Inc.; Tesla; Hawai'i Energy; and thirty-four individuals.

Your Committees received testimony in opposition to this measure from the Contractors License Board.

Your Committees received comments on this measure from the City and County of Honolulu Department of Planning and Permitting and Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committees find that the permitting processes can add substantial time and cost to the adoption of residential solar and energy storage projects. Your Committees further find that online permitting tools such as the United States Department of Energy's SolarAPP+ have been successfully implemented by hundreds of government entities that issue building permits throughout the nation, and the State's permit-issuing government entities should similarly take advantage of these tools to help meet the State's clean energy, reliability, and resilience needs. This measure will reduce administrative barriers to the deployment of energy generation and storage technology systems to more efficiently facilitate the transition toward renewable energy in the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note concerns regarding the uncertainty of security measures with the statewide implementation of SolarAPP+, or a functionally equivalent online automated permitting platform, and the possibility of cyber hackers to access private information. Your Committees further note that the counties are already capable of implementing the adoption of SolarAPP+ or a functionally equivalent online automated permitting platform. Accordingly, your Committees find that these concerns merit further consideration and respectfully request further examination by subsequent committees who may choose to deliberate on this measure as it advances through the legislative process.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2614, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2614, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).
 Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 3172 (Joint) Higher Education and Public Safety and Intergovernmental and Military Affairs on H.B. No. 2805

The purpose and intent of this measure is to appropriate funds for the University of Hawaii to conduct a multiethnic cohort study and develop and maintain a registry regarding the health effects of the August 2023 Maui wildfires.

Your Committees received testimony in support of this measure from the Department of Health, Department of Human Services, University of Hawai'i System, Hawaii Medical Service Association, Roots Reborn, American Lung Association Hawai'i, Hawai'i Psychological Association, Hawai'i Health C.A.R.E. Hui, Hawaii Medical Association, Hawai'i Public Health Association, Hawai'i Public Health Institute, American Cancer Society Cancer Action Network, 'Ahahui o nā Kauka, Healthy Mothers Healthy Babies Coalition of Hawaii, Mental Health America of Hawai'i, Hispanic Chamber of Commerce Hawaii, and twenty individuals.

Your Committees find that the effects of the August 2023 Maui wildfires created long-term health risks to the impacted communities. However, the gravity of short- and long-term health risks remain largely unknown, creating uncertainty for policy, resources, and overall needs for Maui residents. The data collected from the multiethnic cohort study proposed by this measure will provide public health workers with valuable insight to understand the unique needs of Maui residents and guide resource allocation and prevention activities.

Your Committees further find that, according to the University of Hawaii's testimony, the University of Hawaii Economic Research Organization has collaborated with the John A. Burns School of Medicine, other university units, and community agencies to commence initial stages of the Maui Wildfire Exposure Study, including recruitment of nearly seven hundred participants for the exposure study to initiate diagnostic tests. While the study has collected samples, health screening information, and social aspects of

participants, additional funding is needed to analyze the samples for toxins such as heavy metals and for additional recruitment efforts. Additionally, the creation of a registry is a one-time cost to inform participants of any intervention recommended by the Department of Health or public health advisories while analyzing potential health risks through existing medical records. Your Committees note that the Maui Wildfire Exposure Study is awaiting results from federal grants and intends to pursue additional federal and community funding. Therefore, this measure will provide additional support to resume initial data analysis while recruiting additional participants to further understand the short- and long-term impacts of the August 2023 Maui wildfires.

Your Committees have amended this measure by:

- (1) Requiring the University of Hawaii to seek matching, or more, federal and community funding, in addition to appropriations, to complete the multiethnic cohort study and registry; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2805, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2805, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Kidani).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3173 Health and Human Services on H.B. No. 2744

The purpose and intent of this measure is to:

- (1) Establish an Oral Health Task Force to review the status of oral health in the State and make recommendations to improve the State's oral health infrastructure;
- (2) Require the Oral Health Task Force to submit reports to the Legislature; and
- (3) Appropriate funds to facilitate the work of the Oral Health Task Force.

Your Committee received testimony in support of this measure from the Department of Health, State Council on Developmental Disabilities, Hawaii Association of Health Plans, University of Hawai'i System, Hawai'i Oral Health Coalition, Hawai'i Children's Action Network Speaks!, Hawaii Disability Rights Center, Hawaii Dental Service, Papa Ola Lokahi, Democratic Party of Hawai'i Kūpuna Caucus, Hawaii Island Community Health Center, AlohaCare, and five individuals.

Your Committee received comments on this measure from the Department of Human Services and Hawaii Dental Association.

Your Committee finds that oral health is a particularly critical issue in the State with many children and adults suffering from preventable dental diseases. Your Committee further finds that the Department of Health's Dental Health Division was eliminated in 2009 due to budget cuts. Accordingly, this measure's proposed Oral Health Task Force will be instrumental in identifying key elements necessary to rebuild a public health dental program in the Department of Health and improve overall oral health in the State.

Your Committee has amended this measure by:

- (1) Inserting language that permits the Oral Health Task Force members to meet and discuss task force business without having quorum pursuant to section 92-2.5, Hawaii Revised Statutes, relating to permitted interactions of members; provided that the members convening in discussion without quorum report the matters discussed at the next duly noticed meeting of the task force and that no commitment to vote is made or sought;
- (2) Making it effective upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2744, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2744, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3174 Judiciary on H.B. No. 2570

The purpose and intent of this measure is to require petitions or motions for a pro hac vice appearance for a court or arbitration proceeding to be supported by certain evidence to ensure that both the applicant and local counsel will pay all state income tax due for Hawaii business activities as well as any other information or documentation required by the Rules of the Hawaii Supreme Court.

Your Committee received testimony in support of this measure from the Hawaii Association of Public Accountants.

Your Committee received testimony in opposition to this measure from the Judiciary and one individual.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that out-of-state attorneys who practice in the State's courts pro hac vice may be unaware that they owe the State general excise taxes. Unlike the general excise tax in most states, Hawai'i's tax applies to both gross rental income and gross service income. This measure will help inform out-of-state attorneys practicing in the State pro hac vice of their state tax obligations by amending the process by which the attorneys are admitted to practice law in the State's courts.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2570, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2570, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3175 Judiciary on H.B. No. 1805

The purpose and intent of this measure is to:

- (1) Allow for the interest earned on payments under protest in the Litigated Claims Fund to be paid in nontaxation cases if the claimant prevails; and
- (2) Establish a procedure for the disposition of moneys and refiling of actions when a payment under protest suit is filed prematurely.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that if a taxpayer pays money under protest but then sues for a refund before the defendant agency has formally taken a position on whether the money is due, the appeal is to be dismissed. However, if the agency later decides that the money is indeed due, it is usually too late for the suit to be refiled, potentially allowing the agency to keep the disputed moneys as a government realization without allowing the taxpayer to obtain a judicial ruling on the merits of the exaction. This measure will prevent the possibility of injustice by adding procedural safeguards to ensure that the courts will be able to reach the merits of the dispute.

Your Committee has amended this measure by:

- (1) Requiring the refiling of a premature action to recover payment of taxes paid under protest to be brought within a thirty-day period after a final agency decision is made instead of within two years; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1805, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1805, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3176 Judiciary on H.B. No. 2486

The purpose and intent of this measure is to authorize the Department of Taxation to serve administrative subpoenas outside the State.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under existing law, the Department of Taxation is authorized to issue administrative subpoenas in a civil audit, civil investigation, civil hearing, or criminal investigation. Section 231-7, Hawaii Revised Statutes, provides that the administrative subpoena may be served at any place within the State, but is silent as to whether service of the administrative subpoena may be executed outside the State. Your Committee further finds that the number of taxpayers who engage in business in the State, and who are therefore subject to state taxes, but who do not have a physical presence in the State or do not maintain a location for service of process in the State, has increased in recent years. Your Committee believes that eliminating in-state geographic restrictions for civil and criminal subpoenas would provide a key tool to help the Department of Taxation enforce tax laws and hold out-of-state taxpayers accountable for meeting their tax obligations. This measure will improve tax compliance and promote dynamic and efficient use of Department of Taxation resources.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2486, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2486, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3177 Judiciary on H.B. No. 1608

The purpose and intent of this measure is to:

- (1) Appropriate funds for an unspecified number of deputy public defender positions within the Office of the Public Defender; and
- (2) Require that one of the positions be assigned to the family court section.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Hawaii Paroling Authority, ACLU of Hawai'i, and two individuals.

Your Committee finds that the Office of the Public Defender provides legal representation for indigent defendants charged in state court with offenses involving the possibility of incarceration. However, Act 9, Session Laws of Hawaii 2020, defunded and abolished several positions within the Office of the Public Defender. Your Committee further finds that if the Office of the Public Defender is understaffed for extended periods of time, it may result in case overloads, continuances of cases, backlogs in the courts, and other major problems in the justice system. This measure will ensure that the Office of the Public Defender meets its constitutional and statutory requirements by restoring critically important positions to the Office.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$627,300 for four deputy public defender III positions within the Office of the Public Defender;
- (2) Inserting an effective date of April 14, 2112, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1608, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1608, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3178 Judiciary on H.B. No. 1806

The purpose and intent of this measure is to:

- (1) Remove language specifying that an appeal from the Tax Appeal Court be filed with the Tax Appeal Court; and
- (2) Allow an appeal from the Tax Appeal Court to be filed within thirty days of entry of a final judgment.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that *Alford v. City and County of Honolulu*, 109 Hawai'i 14, 122 P.3d 809 (2005), created an issue regarding appellate jurisdiction over a dispositive order that is later merged into a final judgment if a notice of appeal is filed within thirty days of the judgment but not within thirty days of the earlier order. Due to this issue, your Committee believes that section 232-19, Hawaii Revised Statutes, is no longer consistent with the appeal procedures adopted by the Judiciary. This measure amends section 232-19, Hawaii Revised Statutes, to restore consistency.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1806, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1806, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3179 (Joint) Government Operations and Labor and Technology on H.B. No. 2696

The purpose and intent of this measure is to:

- (1) Establish a temporary Lahaina Recovery Oversight Commission (Commission) within the Department of Accounting and General Services to oversee and guide the recovery of Lahaina from the August 2023 Maui wildfires;
- (2) Require the commission, with the assistance of the Office of Enterprise Technology Services to establish a website to serve as a clearinghouse for information related to the Lahaina wildfire recovery and a forum for public input;
- (3) Require annual reports to the Legislature before the Regular Sessions of 2026, 2027, 2028, and 2030; and
- (4) Appropriate an unspecified amount of funds for the Commission.

Your Committees received testimony in support of this measure from one individual.

Your Committees received comments on this measure from the Office of the Governor, Department of Accounting and General Services, Lāhainā Strong, and Maui Chamber of Commerce.

Your Committees find that interagency coordination is necessary to efficiently and effectively oversee the recovery and rebuilding efforts in areas devastated by the August 2023 Maui wildfires. This measure will help decrease duplicative efforts by public agencies, while ensuring that recovery, remediation, and restoration activities consider the needs of all individuals involved.

Accordingly, your Committees have amended this measure by:

- (1) Amending the composition of the Commission by:
 - (A) Adding the following voting members:
 - (i) A member of the Senate who represents the senate district that includes Lahaina;

- (ii) A member of the House of Representatives who represents the house district that includes Lahaina; and
- (B) Requiring that one of the two members of the Maui County Council be from the West Maui district;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that an appropriation of approximately \$250,000 to \$300,000 would be necessary to implement the provisions of this measure.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2696, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2696, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

Labor and Technology: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 3180 (Joint) Government Operations and Energy, Economic Development, and Tourism on H.B. No. 2738

The purpose and intent of this measure is to:

- (1) Authorize state agencies to:
 - (A) Prepare and submit a report assessing the feasibility of installing distributed energy resource systems at each state facility;
 - (B) Implement and install the distributed energy resource systems detailed in the reports no later than five years from the issue date of the reports; and
 - (C) Assign priority for the authorized energy efficiency measures to first responder facilities; and
- (2) Authorize applicable state agencies to assess the feasibility of developing resilience hubs that can provide emergency services and be open to the general public during times of emergency.

Your Committees received testimony in support of this measure from the Green Party of Hawai'i, Kauai Climate ACTION Coalition, Chamber of Sustainable Commerce, Greenpeace Hawaii, Hawaii Chapter of 350.org, Hawaii Solar Energy Association, Climate Protectors Hawai'i, and seventeen individuals.

Your Committees received comments on this measure from the Department of Accounting and General Services and Hawaii State Energy Office.

Your Committees find that on-site, distributed energy resources not only reduce greenhouse gas emissions and other pollutants associated with electricity generation and consumption, but also provide affordable and resilient power for Hawaii's energy system users. Your Committees note that the installation of these resources, such as rooftop solar and battery storage, at state facilities would not only result in cost-savings but also help the State meet its clean energy goals. Your Committees further note that on-site, distributed energy resources at first responder facilities are integral to ensuring that essential government services can continue to be provided despite disruptions to the electric grid. This measure will build the State's resilience towards the effects of climate change and enable it to prepare for emergencies where there are disruptions to the electric grid and port activity.

Your Committees have amended this measure by:

- (1) Requiring, rather than authorizing, state agencies to:
 - (A) Prepare and submit a report assessing the feasibility of installing distributed energy resource systems at each state facility;
 - (B) Implement and install the distributed energy resource systems detailed in the reports no later than five years from the issue date of the reports; and
 - (C) Assign priority for the authorized energy efficiency measures to first responder facilities;
- (2) Clarifying that the reports prepared by state agencies shall be submitted to the Legislature;
- (3) Requiring, rather than authorizing, applicable state agencies to assess the feasibility of developing resilience hubs that can provide emergency services and be open to the general public during times of emergency;
- (4) Amending references to "energy efficient measures" to "cost-effective energy efficient measures";
- (5) Defining "cost-effective energy efficient measures" to mean any energy efficiency measure where the cost of the energy efficiency measure is equal to or less than the estimated savings over a period of twenty years or the life of the installed components, whichever is less;
- (6) Deleting language that defines "first responder facilities" and inserting language that defines "first responder";
- (7) Amending section 1 to reflect its amended purpose;
- (8) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2738, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2738, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Kim, Fevella).

SCRep. 3181 Health and Human Services on H.B. No. 2415

The purpose and intent of this measure is to:

- (1) Authorize the Governor to enter the State into the multistate Nurse Licensure Compact, which will allow a nurse who is licensed by a home state to practice under a multistate licensure privilege in each party state; and
- (2) Beginning January 1, 2026, authorize the State Board of Nursing to charge different fees customarily and historically charged for registered nurses and licensed practical nurses who hold a multistate license issued by the State.

Your Committee received testimony in support of this measure from the United States Department of Defense, Department of Labor and Industrial Relations, Department of Corrections and Rehabilitation, Disability and Communication Access Board, Hawai'i State Center for Nursing, Kaiser Permanente Hawai'i, Healthcare Association of Hawaii, Hawaii Association of Health Plans, The Queen's Health System, Hawai'i Affiliate of the American College of Nurse-Midwives, Hawai'i Primary Care Association, Hawai'i Pacific Health, Palolo Chinese Home, Liberty Dialysis-Hawaii, Hawai'i Public Health Institute, Grassroot Institute of Hawaii, Adventist Health Castle, Hawai'i Care Choices, Hawaii Medical Service Association, and five individuals.

Your Committee received testimony in opposition to this measure from Hawai'i Nurses and Health Practitioners; Stonewall Caucus of the Democratic Party of Hawai'i; Hawai'i Association of Professional Nurses; Pride at Work – Hawai'i; Hawai'i American Nurses Association; Hawaii Nurses Association, OPEIU Local 50; and one individual.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, University of Hawai'i System, Board of Nursing, and Hawaii Health Systems Corporation Corporate Board of Directors.

Your Committee finds that the State is experiencing an acute shortage of licensed medical professionals, including nurses. The multistate Nurse Licensure Compact allows nurses who are licensed by a home state to practice under a multistate licensing privilege in states that are a party to the compact. Presently, forty-one states have adopted the multistate Nurse Licensure Compact. By entering into the multistate Nurse Licensure Compact, the State can take proactive measures to increase access to the nursing workforce by allowing more nurses to practice in the State without the burden of obtaining an additional license while ensuring continuity of safe nursing care. Therefore, this measure authorizes the Governor to enter the State into the multistate Nurse Licensure Compact to provide additional support to address the State's shortage of qualified licensed nurses while protecting the health and safety of Hawai'i's people.

Your Committee notes that Senate Bill No. 2492, S.D. 1, Regular Session of 2024, is a substantially similar measure that authorizes the Governor to enter the State into the multistate Nurse Licensure Compact, allowing nurses who are licensed by a home state to practice under a multistate licensure privilege in each party state. Your Committee finds that the language in section 1 of Senate Bill No. 2492, S.D. 1 is preferable because it remains consistent with the formatting and language of the Nurse Licensure Compact approved by a special Delegate Assembly of the National Council of State Boards of Nursing and adopted by other party states.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the contents of section 1 and inserting the contents of section 1 of Senate Bill No. 2492, S.D. 1 (2024);
- (2) Requiring individuals that hold a multistate nurse license issued by a state other than Hawaii and are employed by any health care facility to complete any demographic data surveys required by the Board of Nursing as a condition of employment beginning July 1, 2026, and annually thereafter, rather than January 1, 2026, and annually thereafter;
- (3) Making section 1 take effect and become binding two years after this measure takes effect; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2415, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2415, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3182 Health and Human Services on H.B. No. 2435

The purpose and intent of this measure is to authorize the Director of Health to permit synchronous online access to apply for marriage and civil union licenses in lieu of in-person applications, as specified in rules adopted by the Department pursuant to chapter 91, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that the Department of Health issues approximately twenty thousand marriage licenses each year. Existing law requires an in-person appointment for the issuance of a license to marry; however, during the coronavirus disease 2019 pandemic, an emergency order temporarily authorized the issuance of marriage licenses online. With the rebounding economy and increased

number of weddings in the State, this measure reinstates the issuance of marriage licenses through online access to promote departmental efficiency and improve customer service.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2435, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2435, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3183 Health and Human Services on H.B. No. 2453

The purpose and intent of this measure is to authorize the Director of Health to transfer federal capitalization grant funds between the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund, in accordance with title 40 Code of Federal Regulations section 35.3530(c).

Your Committee received testimony in support of this measure from the Department of Health and Ulupono Initiative.

Your Committee finds that the Department of Health administers two low interest loan programs for the improvement of public drinking water systems and wastewater treatment and distribution systems. Both loan programs are funded principally by capitalization grants provided by the United States Environmental Protection Agency (EPA). Your Committee also finds that the EPA oversees the State's implementation of the Drinking Water Treatment Revolving Loan Fund and the Water Pollution Control Revolving Fund programs and can withhold or delay future capitalization grants whenever a program is struggling to expeditiously disburse their funds. This measure will allow the Department of Health to direct loan moneys more efficiently towards the drinking water or wastewater infrastructure needs across the State, resulting in the greatest benefit to public health or environmental protection and help ensure the continued and consistent award of these two annual capitalization grants from the EPA.

Your Committee notes the testimony of the Department of Health that, based on review and consultation with the Department of Attorney General and federal agencies, certain amendments to this measure are necessary for consistency with title 40 Code of Federal Regulations section 35.3530(c)(1).

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Governor or a state official with prior authorization from the Governor, rather than the Director of Health, may transfer an amount up to or equal to thirty-three percent, calculated on the basis of a fiscal year's Drinking Water Treatment Revolving Loan Fund capitalization grant amount from the Drinking Water Treatment Revolving Loan Fund;
- (2) Clarifying that when the State initially decides to transfer funds from the Drinking Water Treatment Revolving Loan Fund, rather than each year:
 - (A) The Attorney General, or an individual designated by the Attorney General, shall sign or concur in a certification for the Drinking Water Treatment Revolving Loan Fund and Water Pollution Control Revolving Fund that state law permits the State to transfer funds; and
 - (B) The operating agreements or other parts of the capitalization grant agreements for the Drinking Water Treatment Revolving Loan Fund and the Water Pollution Control Revolving Fund shall be amended to detail the method the State shall use to transfer funds;
- (3) Clarifying that the Governor or a state official with prior authorization from the Governor, rather than the Director of Health, may transfer an amount up to or equal to thirty-three percent, calculated on the basis of a fiscal year's Drinking Water Treatment Revolving Loan Fund capitalization grant amount from the Water Pollution Control Revolving Fund;
- (4) Clarifying that when the State initially decides to transfer funds from the Water Pollution Control Revolving Fund, rather than each year:
 - (A) The Attorney General, or an individual designated by the Attorney General, shall sign or concur in a certification for the Drinking Water Treatment Revolving Loan Fund and Water Pollution Control Revolving Fund that state law permits the State to transfer funds; and
 - (B) The operating agreements or other parts of the capitalization grant agreements for the Drinking Water Treatment Revolving Loan Fund and the Water Pollution Control Revolving Fund shall be amended to detail the method the State shall use to transfer funds;
- (5) Providing that the thirty-three percent transfer allowance is associated with the Drinking Water Treatment Revolving Loan Fund, rather than the Water Pollution Control Revolving Fund;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure contains an unspecified appropriation amount. Should your Committees on Ways and Means and Judiciary choose to deliberate on this measure, your Committee respectfully requests that they consider inserting an

appropriation amount of \$1,500,000 for fiscal year 2024-2025, pursuant to testimony your Committee received from the Department of Health.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2453, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2453, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3184 (Joint) Higher Education and Labor and Technology on H.B. No. 2501

The purpose and intent of this measure is to repeal the reporting requirement to identify the cost impacts to the State of providing workers' compensation coverage for University of Hawaii students.

Your Committees received testimony in support of this measure from the University of Hawai'i System.

Your Committees find that the University of Hawaii has a statutory mandate to report on workers' compensation claims made by student employees. However, the University of Hawaii has not had a workers' compensation claim to report since the 2014-2016 fiscal biennium, creating an administrative burden that is inefficient. Therefore, this measure promotes operational efficiency to streamline existing university resources and procedures.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2501, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2501, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).
Labor and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 3185 Health and Human Services on H.B. No. 2454

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health for emergency asbestos remediation at Kinau Hale, where the Department's main offices are located; temporary relocation of the main offices, if necessary; and preliminary planning for redevelopment of the site.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that the Department of Health's main offices at Kinau Hale is in a dilapidated condition that contributes to increasingly frequent disturbances of asbestos in the ceiling and floor in the building since November 2023. Although multiple ambient air testing results confirm that the air in the building is currently safe, any major incident, such as heavy rains, may cause massive roof leaks, significantly elevating risks of exposure to asbestos. Your Committee additionally finds that there will be a need for lease and moving expenses if the Department must relocate staff and equipment due to asbestos disturbance or other catastrophic building failure requiring immediate evacuation. Your Committee further finds that Kinau Hale is over sixty years old, and therefore, the emergency appropriation sought in this measure includes funds to begin preliminary planning for redevelopment of the parcel on which Kinau Hale is built. This measure will ensure the health and safety of employees of the Department of Health and other individuals who visit the Department's main offices.

Your Committee notes that although this measure contains an unspecified appropriation amount, the Department of Health's testimony requests an appropriation of \$1,500,000, of which \$500,000 is needed immediately to conduct necessary safety repairs identified by the Department of Accounting and General Services. The remaining \$1,000,000 is included in the Department of Health's \$5,000,000 budget request. Accordingly, if the Department of Health's budget request is accepted, the amount of emergency appropriation pursuant this measure will be \$500,000.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2454, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3186 (Joint) Agriculture and Environment and Health and Human Services on H.B. No. 1989

The purpose and intent of this measure is to:

- (1) Authorize and decriminalize the sale of raw milk, raw milk products, and raw milk dairy products directly from producers to consumers for human consumption, subject to certain restrictions; and
- (2) Authorize the direct sale of raw goat milk for pet consumption.

Your Committees received testimony in support of this measure from the Westin A. Price Foundation, Pet Stop, LLC; Coleman Scientific Consulting; and thirty-one individuals.

Your Committees received testimony in opposition to this measure from the Department of Agriculture, Department of Health, Hawai'i Farm Bureau, and one individual.

Your Committees find that raw milk is milk that has not undergone the process of pasteurization, which is the process by which milk is mildly heated to destroy pathogens. Your Committees further find that although there is a consumer demand for raw milk due to its health benefits and taste, the sale of raw milk in any form, including raw goat milk for pet consumption, is currently prohibited in the State. Your Committees recognize that raw milk can be produced safely and its sale is permitted in many other states. This measure expands opportunities for producers and consumers of fresh, unpasteurized milk in the State.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1989, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1989, H.D. 2, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Rhoads).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 3187 (Joint) Housing and Health and Human Services on H.B. No. 2662

The purpose and intent of this measure is to:

- (1) Require and appropriate funds for the Hawaii Public Housing Authority to establish a two-year Recreation and Education Upward Mobility Pilot Program for youth tenants in public housing; and
- (2) Permit the Hawaii Public Housing Authority to contract with outside parties to implement the pilot program.

Your Committees received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committees find that the State has the highest cost of living in the nation and has not provided sufficient resources to prepare students with the financial education needed to tackle the real world. Your Committees further find that twenty-five states have already passed legislation to make financial literacy courses a high school graduation requirement. Furthermore, the promotion of sports and physical activity has been shown to improve youth's social emotional, and mental health. Therefore, this measure will more adequately prepare youth tenants for the future by providing important financial education and work skills, in addition to realizing the positive benefits of sports, to help improve the state's communities as a whole.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

Your Committees note the testimony given by the Hawaii Public Housing Authority regarding an estimated cost of \$500,000 to begin the pilot program. Your Committees respectfully request future committees consider this figure as this measure moves through the legislative process.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2662, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2662, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Shimabukuro).

SCRep. 3188 Judiciary on H.B. No. 2340

The purpose and intent of this measure is to appropriate moneys and approve payments for claims against the State, its officers, and its employees.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Transportation, Department of Corrections and Rehabilitation, Department of Education, and one individual.

Your Committee finds that the State has a responsibility to promptly satisfy all claims against the State upon the resolution of those claims. Your Committee further finds that the timely passage of this measure will help to minimize the State's obligation to pay interest on the various payment amounts.

Your Committee has amended this measure by:

- (1) Appropriating \$110.00 in general funds for a miscellaneous claim by Lien T. Nguyen;
- (2) Appropriating \$1,236.00 in general funds for a miscellaneous claim by Sedring Bulda and Katherine Bulda;
- (3) Appropriating \$7,259.00 in general funds for a miscellaneous claim by Shirokiya Cosmetics, Inc.;
- (4) Appropriating \$550,000.00 in general funds for the settlement in the case of Ralphielyn L.M. Gaston-Lovell v. State of Hawaii, Department of Education;

- (5) Amending the payment requirements for the settlement in the case of Courtney Ledford v. Ethan Ferguson, et al., by:
- (A) Changing the amount appropriated to the Department of the Attorney General for the settlement of the claim from \$1,250,000.00 to \$750,000.00; and
 - (B) Requiring that the remaining \$500,000.00 of the claim settlement be equally apportioned and paid from the available general funds appropriated by Act 164, Session Laws of Hawaii 2023, to the Department of Human Resources Development and Department of Land and Natural Resources;
- (6) Appropriating \$300,000.00 in general funds for the settlement in the case of Pamela Ann Flanagan (Personal Representative) v. State of Hawaii;
- (7) Amending the payment requirements for the settlement in the case of Leinette Reyes, et al. v. Eric Tanaka, by:
- (A) Changing the amount appropriated to the Department of the Attorney General for the settlement of the claim from \$2,000,000.00 to \$1,200,000.00; and
 - (B) Requiring that the remaining \$800,000.00 of the claim settlement be paid from the available general funds appropriated by Act 164, Session Laws of Hawaii 2023, to the Department of Public Safety/Corrections and Rehabilitation;
- (8) Appropriating \$750,000.00 in general funds for the settlement in the case of Sherri-Ann Garrett v. State of Hawaii, Department of Human Services;
- (9) Appropriating \$150,000.00 out of the state highway fund for the settlement in the case of Violet Fontes-Ringor v. State of Hawaii;
- (10) Changing the effective date to July 1, 2024; and
- (11) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2340, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2340, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3189 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on H.B. No. 2451

The purpose and intent of this measure is to:

- (1) Authorize examination of defendants via telehealth;
- (2) Amend conditions for certain petty misdemeanor's release or examination of fitness to proceed;
- (3) Provide a mechanism for the automatic screening of certain nonviolent defendants for involuntary hospitalization or assisted community treatment; and
- (4) Appropriate funds.

Your Committees received testimony in support of this measure from the Office of the Public Defender, Judiciary, Disability and Communication Access Board, State Council of Mental Health, Adult Mental Health Division of the Department of Health, Hawai'i Psychological Association, and Hawaii Substance Abuse Coalition.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that timely and thorough court-ordered examinations are necessary and vital for both the individual and for cases to move forward in the criminal justice system. Additionally, your Committees find that unexpected circumstances beyond the court's, examiner's, or facility's control, may hamper the ability of the examiner to conduct the examination in person. By allowing court-ordered examinations to be conducted via telehealth, this measure will maximize time and efficiency and minimize travel costs, thereby reducing expenses for the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2451, H.D. 3, and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3190 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1831

The purpose and intent of this measure is to:

- (1) Establish the Behavioral Health Crisis Center Pilot Program;

- (2) Authorize the Department of Health to establish or contract with behavioral health crisis centers in each county;
- (3) Require the Adult Mental Health Division of the Department of Health to submit reports on the pilot program to the Legislature; and
- (4) Appropriate funds for the pilot program.

Your Committees received testimony in support of this measure from the Adult Mental Health Division of the Department of Health, Office of the Public Defender, Office of Hawaiian Affairs, the Judiciary, Disability and Communication Access Board, State Council on Mental Health, County of Hawai'i Office of Housing and Community Development, Community Alliance on Prisons, Hawaii Disability Rights Center, Hawaii Substance Abuse Coalition, The Queen's Health System, Mental Health America of Hawai'i, Hawaii Medical Association, AlohaCare, Opportunity Youth Action Hawai'i, Hawai'i Health & Harm Reduction Center, ACLU of Hawai'i, Reimagining Public Safety in Hawai'i Coalition, Hawai'i Psychological Association, and four individuals.

Your Committees find that access to, and the provision of, mental health care and services is integral to diverting those individuals who, but for their mental health crisis, would not be involved with the criminal justice system. Your Committees further find that these individuals are best served through crisis intervention and treatment rather than the judicial system or repeated hospitalization, both of which are costly and only a temporary remedy. This measure alleviates the burden on both the criminal justice system and hospitals by diverting those who suffer from substance abuse issues or mental illnesses to behavioral health crisis centers, where they can receive treatment and be redirected to appropriate health care systems and services.

Your Committees note that it is intended that this measure provide assistance to various individuals experiencing a mental health or substance use disorder crisis, and the individuals need not be suicidal to receive services offered by the Behavioral Health Crisis Center Pilot Program established by this measure.

Your Committees have amended this measure by:

- (1) Clarifying that the pilot program shall establish two behavioral health crisis centers, one to be located in Honolulu, and the other to be located on Oahu or on a neighbor island, as determined by the Department of Health;
- (2) Inserting language that amends section 334-59, Hawaii Revised Statutes, relating to emergency examination and hospitalization of individuals deemed by a law enforcement officer to be imminently dangerous to self or others, to allow for transport or release of the individual to a facility designated by the director other than a licensed psychiatric facility;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although this measure contains an unspecified appropriation amount, the Department of Health requests the following funds, which are included in House Bill No. 1800, Regular Session of 2024, relating to the State Budget:

- (1) \$6,700,000 for a Behavioral Health Crisis Center in Iwilei; and
- (2) \$3,000,000 for a Behavioral Health Crisis Center on a neighbor island.

Therefore, should your Committees on Ways and Means and Judiciary choose to deliberate on this measure, your Committees respectfully request that they consider inserting these appropriation amounts for the establishment of the Behavioral Health Crisis Centers for fiscal year 2024-2025.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1831, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1831, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3191 (Joint/Majority) Housing and Agriculture and Environment on H.B. No. 2358

The purpose and intent of this measure is to exempt certain affordable housing projects from environmental impact statement requirements.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; County of Hawai'i Office of Housing and Community Development; one member of the Maui County Council; Affordable Housing Connections LLC; Stanford Carr Development, LLC; NAIOP Hawaii; and Building Industry Association-Hawaii.

Your Committees received testimony in opposition to this measure from Livable Hawaii Kai Hui, Pele Lani Farm LLC, Sierra Club of Hawai'i, Kauai Climate Action Coalition, Hawaii's Thousand Friends, Free Access Coalition, Sierra Club, and one hundred twenty-five individuals.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development and Department of the Attorney General.

Your Committees find that the State is currently undergoing a housing shortage. Your Committees also find that significant delays in the regulatory processes of constructing urgently needed housing exasperate this issue. Therefore, this measure will bypass certain aspects of the regulatory process to speed up the production of housing within the State.

Your Committees have amended this measure by:

- (1) Deleting language that would have established the provisions of this measure “notwithstanding any provision of chapter 343, Hawaii Revised Statutes, to the contrary”;
- (2) Specifying that certain affordable housing projects shall be considered as a general type of action eligible for exemption pursuant to sections 11-200-1 through 11-200-15, Hawaii Administrative Rules;
- (3) Amending the definition of “affordable housing project”; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2358, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2358, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Rhoads). Noes, 1 (Awa). Excused, 1 (DeCoite).

SCRep. 3192 (Joint) Judiciary and Labor and Technology on H.B. No. 1917

The purpose and intent of this measure is to appropriate funds for collective bargaining cost items for Judiciary employees and their excluded counterparts.

Your Committees received testimony in support of this measure from the Judiciary and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committees find that in January 2020, the United States Secretary of Health and Human Services declared the coronavirus disease 2019 (COVID-19) pandemic a public health emergency. Following the declaration, on March 4, 2020, Governor David Ige issued the first of several emergency proclamations pertaining to the COVID-19 pandemic for the State, with the last of those proclamations expiring on March 25, 2022. Unions representing public employees in the State have been pursuing claims for temporary hazard pay for work performed by government employees during the COVID-19 pandemic pursuant to the hazard pay provisions of the respective collective bargaining agreements. This measure will allow the Judiciary to secure necessary funding to fulfill its obligation to union members pursuing claims for temporary hazard pay for work performed during the COVID-19 pandemic.

Your Committees have amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1917, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1917, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Lee).

SCRep. 3193 Health and Human Services on H.B. No. 2426

The purpose and intent of this measure is to clarify when a relative seeking to be a resource caregiver for a child is entitled to an administrative appeal for denial of a foster home license.

Your Committee received testimony in support of this measure from the Department of Human Services and Department of the Attorney General.

Your Committee received comments on this measure from the Hawaii Coalition for Child Protective Reform and one individual.

Your Committee finds that authority given to the Department of Human Services to determine whether an individual is eligible to become a resource family to provide foster placement for a child is distinct and separate from the exclusive jurisdiction given to family courts to determine where to actually place the child. Your Committee also finds that when a child’s relative applies to become the child’s resource family, if the application is denied by the Department of Human Services, the relative’s ability to contest the denial through an administrative appeals process under existing law is unclear as to when the process can be utilized. Therefore, this measure clarifies that an applicant whose application is denied may utilize the administrative appeals process to contest the decision if the denial was based on the applicant’s failure to meet standards set forth by the Department of Human Services in its rules, and if the basis of the denial is that the child was not placed with the applicant, the applicant’s recourse is to seek judicial review by the family court.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2426, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2426, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3194 Health and Human Services on H.B. No. 1941

The purpose and intent of this measure is to make an emergency appropriation from the Mental Health and Substance Abuse Special Fund to the Department of Health to implement quality improvement recommendations at the Hawaii State Hospital.

Your Committee received testimony in support of this measure from the Adult Mental Health Division of the Department of Health, State Council on Mental Health, Disability and Communication Access Board, and Hawaii Disability Rights Center.

Your Committee finds that the urgency of this measure's appropriation request stems from the potential risks to safety and security at the Hawaii State Hospital, which could adversely affect both patients and staff if not promptly addressed. Your Committee further finds that the proposed funds would be utilized to secure positions, contact services, repair and purchase safety related equipment, and relocate and repair the guard shack to enhance safety measures and maintain a secure environment on the hospital campus. This measure provides vital funding to ensure the health and safety of the employees, patients, and visitors at the Hawaii State Hospital.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that Governor's Message No. 5, which proposes changes to the Executive Supplemental Budget for fiscal year 2024-2025, includes a request for \$14,000,000 to implement the quality improvement recommendations at the Hawaii State Hospital set forth in this measure. Accordingly, if the proposed changes to the Executive Supplemental Budget in Governor's Message No. 5 is accepted, the emergency appropriation pursuant to this measure will no longer be necessary.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1941, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1941, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3195 Labor and Technology on H.B. No. 1639

The purpose and intent of this measure is to:

- (1) Effective January 1, 2025, increase the Hawaii Employer-Union Health Benefits Trust Fund employer base composite monthly contribution by 5.2 percent; and
- (2) Effective January 1, 2026, provide that the Hawaii Employer-Union Health Benefits Trust Fund employer base composite monthly contribution will be based on the change in Medicare Part B premiums from 2024 to 2025 and at a two-year lag thereafter.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the State's and counties' contribution to retiree health care benefits as an employer is based on a percentage of the Base Composite Monthly Contribution (BMC). The BMC changes each calendar year based on the change in Medicare Part B Premiums, which is a measure of national health care inflation. Your Committee further finds that in some years, the publication of the next year's Medicare Part B premium occurs in early November, while the Hawaii Employer-Union Health Benefits Trust Fund's retiree open enrollment period occurs during the last two weeks of October. As a result, in some years, retirees may need to determine whether to enroll in the program without knowing the amount of their employer's contribution. This measure will correct this problem by requiring the employer contribution amounts to be calculated based on the Medicare Part B premium publications from the previous two years and creating a lag between the BMC changes and the open enrollment period.

Your Committee has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1639, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1639, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3196 Labor and Technology on H.B. No. 1642

The purpose and intent of this measure is to allow an employee or the exclusive representative, if applicable, to file a complaint with the Hawaii Labor Relations Board if the employer fails to comply with section 78-64, Hawaii Revised Statutes, relating to general employee orientation.

Your Committee received testimony in support of this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee finds that under existing law, an employer is required to provide newly hired employees with a general orientation on their benefits and rights; however, not all employers comply with this law. Your Committee also finds that the current compliant process for an employer's violation of this requirement is unclear, making it difficult for employees to file a complaint. Therefore, this measure will ensure that any newly hired employees are not denied this important information and employers are held responsible for not complying with this statutory requirement.

Your Committee has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1642, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1642, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3197 Labor and Technology on H.B. No. 2235

The purpose and intent of this measure is to:

- (1) Reclassify or repeal certain non-general funds of the Department of Labor and Industrial Relations, pursuant to the recommendations made by the Auditor in Auditor's Report No. 23-06, and to transfer any unencumbered balance of any repealed fund to the general fund; and
- (2) Exempt the Boiler and Elevator Special Fund from central services expenses.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Section 23-12, Hawaii Revised Statutes, requires the Auditor to review all existing special, revolving, and trust funds, once every five years. Based on this review, the Auditor identified multiple non-general funds of the Department of Labor and Industrial Relations that are recommended to be repealed or reclassified. Therefore, this measure adopts the Auditor's recommendation and reclassifies or repeals those funds.

Your Committee has amended this measure by inserting an effective date of July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2235, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2235, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3198 (Joint) Labor and Technology and Health and Human Services on H.B. No. 2552

The purpose and intent of this measure is to:

- (1) Extend, under certain conditions, the family leave period under state law for up to eight additional weeks for employees who are unable to perform their employment duties due to the birth of a child who is required to stay in a neonatal intensive care unit; and
- (2) Require the Civil Rights Commission to amend its administrative rules to include neonatal care as a related medical condition wherever the phrase "pregnancy, childbirth, or related medical condition" or any similar phrase is used.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Disability and Communication Access Board, Department of Human Services, Hawaii State Teachers Association, Hawai'i Children's Action Network Speaks!, Hawai'i Civil Rights Commission, Breastfeeding Hawaii, Save Medicaid Hawaii, and four individuals.

Your Committees find that one in ten babies in Hawaii are born preterm, requiring them to spend weeks or months in neonatal intensive care units (NICU). This, in turn, requires the babies' parents to also spend weeks or months at the NICU in support of their babies' care, making it nearly impossible for many to maintain full-time employment. Added to this time, expense, and stress, parents caring for their NICU child may not necessarily qualify for financial assistance through temporary disability insurance or protection from job loss under the federal Family and Medical Leave Act. Therefore, this measure provides additional support to employees who may otherwise find themselves faced with the untenable choice between preserving their employment and supporting the health of their newborn child.

Your Committees note the concern raised in the testimony of the Hawaii Civil Rights Commission that amending its administrative rules to include neonatal care is misplaced without an amendment to chapter 378, Hawaii Revised Statutes, the Commission's enabling statute. Therefore, it is necessary to amend this measure to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language that amends the definition of "because of sex" under chapter 378-1, Hawaii Revised Statute, that governs discriminatory employment practices, to include neonatal care;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2552, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2552, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Fevella).
 Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3199 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on H.B. No. 1836

The purpose and intent of this measure is to allow registered pharmacists, during a declared state of emergency, to refill prescriptions for up to thirty-days if the practitioner is unavailable or cannot be contacted to authorize the refill and if in the pharmacist's professional judgment, failure to refill the prescription may interrupt the patients' ongoing care and have a significant adverse effect on the patient's well-being.

Your Committees received testimony in support of this measure from the Board of Pharmacy, Disability and Communication Access Board, Healthcare Association of Hawaii, Hawai'i Primary Care Association, American Cancer Society Action Network, University of Hawai'i System, Hawaii Medical Association, and Walgreen Co.

Your Committees received comments on this measure from the Hawaii Medical Service Association.

Your Committees find that during a state of emergency, patients may be unable to reach their practitioner for refills of certain medications required for continuity of care. Your Committees also find that abrupt cessation or unplanned interruption of medication may lead to undesirable outcomes, especially for patients with chronic conditions. This measure will ensure that medications for patients are dispensed in a timely manner during a state of emergency by allowing registered pharmacists to refill prescriptions under certain conditions.

Your Committees have amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1836, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1836, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.
 Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Aquino).
 Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3200 Health and Human Services on H.B. No. 1834

The purpose and intent of this measure is to appropriate funds to increase the base budget of the Department of Human Services' Homeless Programs Office.

Your Committee received testimony in support of this measure from the Department of Human Services; Governor's Coordinator on Homelessness; Department of Land and Natural Resources; Office of Hawaiian Affairs; County of Hawai'i Office of Housing and Community Development; The Institute for Human Services, Inc.; Catholic Charities Hawai'i; Hawai'i True Cost Coalition; Steadfast Housing Development Corporation; Hawai'i Appleseed Center for Law and Economic Justice; Aloha United Way, Inc.; Hawai'i Youth Services Network; Hope Services Hawaii, Inc.; Hawai'i Health & Harm Reduction Center; Partners In Care; Parents And Children Together; and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Department of Human Services' last major increase in funding for core components of its homeless services system was in 2016. Your Committee further finds that since 2016, operating costs for service providers as well as the number of people experiencing homelessness have increased dramatically. This measure provides the necessary increase in resources to the Department of Human Services to meet the increased operating costs to provide homeless services for the growing homeless population that require these services.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although this measure, as amended, contains an unspecified appropriation amount, the Department of Human Services' testimony requests an appropriation amount of \$1,320,000 to be included in the Executive Budget, which is an increase of five percent over the current state funding of \$26,425,616, for homeless services contracts. Your Committee further notes that, according to additional testimony received by your Committee, this amount is significantly lower than what would adequately reflect the increase in operating costs for providers over the past nine years, which would be \$5,285,123, a twenty percent increase. Accordingly, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriate amount to be inserted.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1834, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1834, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3201 Health and Human Services on H.B. No. 2215

The purpose and intent of this measure is to:

- (1) Appropriate funds to increase the funding of certain Medicaid home and community-based services, including adult day programs and residential services offered in community care foster family homes and expanded adult residential care homes; and
- (2) Require the Department of Human Services to obtain matching funds.

Your Committee received testimony in support of this measure from the Department of Human Services; Disability and Communication Access Board; AARP Hawai'i; International Longshore & Warehouse Union Local 1000; Home Healthcare Operators, Hawai'i; Sebastian's ARCH LLC; Adult Foster Homecare Association of Hawaii; United Community Healthcare of Hawaii; Community Homecare Association of Hawaii; Alliance of Professional Primary Care Administrators; Alliance of Residential Care Administrators; The Primary Care Providers of Hawaii, Inc.; Community Care Foster Family Home; CMC Kafamilya Adult Foster Home; Adult Foster Homecare Association of Hawaii--Big Island Chapter; and thirty-three individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that maintaining a connection with family and friends and the ability to continue to visit familiar health care providers is much easier when the State's kupuna can be cared for close to their homes, resulting in a strong demand for community-based care options for the State's kupuna. Your Committee further finds that Medicaid home and community-based service providers face significant wage pressures for registered nurses and certified nursing assistants and are competing with facilities, which are reimbursed at higher rates by Medicaid, and private pay services for the same labor force. This measure increases reimbursement rates for home and community-based services to fairly compensate, retain, and attract home and community-based service providers so they can continue to provide the high-quality care for the State's vulnerable populations that reside in home and community-based settings.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that this measure, as amended, contains an appropriation for an unspecified amount. Your Committee further notes the Department of Human Services' request in the Executive Budget for \$5,750,000 would accomplish the same goals as this measure, and that the Department would prefer that the appropriation be included in the Executive Budget measure, as opposed to this measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2215, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2215, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3202 Health and Human Services on H.B. No. 2425

The purpose and intent of this measure is to:

- (1) Clarify that a confirmed report of child abuse or neglect, harm, or threatened harm will result in the perpetrator's name being maintained in the central registry; and
- (2) Clarify when a person's name may be expunged from the central registry and establish a process for expungement upon request.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Human Services.

Your Committee received comments on this measure from the Hawaii Coalition for Child Protective Reform.

Your Committee finds that, the current central registry of individuals confirmed to be perpetrators of child abuse or neglect retains listings of individuals indefinitely in the majority of cases. Being listed on the central registry can have serious consequences, including being barred from employment, volunteer opportunities, and adoption. Presently, the Department of Human Services utilizes a written Notice of Disposition that informs the individual identified as a potential perpetrator, upon completion of assessment of allegations of child abuse or neglect, that the allegation was confirmed or unconfirmed. Additional information is included if allegations are confirmed regarding placement on the central registry and the individual's right to challenge the results. However, the process to be placed on the registry and how that addition to the registry can be challenged are not commonly understood. Therefore, this measure clarifies the process of being placed on, and having one's name expunged from, the central registry to ensure departmental efficiency while protecting Hawai'i's keiki.

Your Committee has amended this measure by:

- (1) Inserting a definition for the term "aggravated circumstances";
- (2) Inserting an effective date of July 1, 2025; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2425, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2425, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3203 Health and Human Services on H.B. No. 2712

The purpose and intent of this measure is to:

- (1) Appropriate funds to increase the funding for applied behavioral analysis services for persons with autism; and
- (2) Require the Department of Human Services to obtain maximum federal matching funds and pursue all other funding sources.

Your Committee received testimony in support of this measure from the Department of Human Services; Disability and Communication Access Board; BAYADA Behavioral Health; Mau Loa Learning; Hawaii Disability Rights Center; Behavior Analysis No Ka Oi, Inc.; Easterseals Hawaii; ABC Group Hawaii; Behavioral and Therapeutic Services of Hawaii; Council of Autism Service Providers; Special Education Advisory Council; Hawai'i Association for Behavior Analysis; Maui Learning Academy; Hawaii Early Intervention Coordinating Council; Early Learning Board; Horizons Academy of Maui; Hawai'i Psychological Association; and thirty-nine individuals.

Your Committee finds that applied behavioral analysis services are a clinically effective treatment for many children diagnosed with autism. However, rate increases for Med-QUEST have not increased since 2015 despite growing operating costs for businesses and difficulty with recruitment and retention of qualified staff. Without critical funding, certain operators maintain waitlists for patients, delaying timely access to care. Therefore, this measure will ensure the accessibility of applied behavioral analysis services to children diagnosed with autism while providing fair compensation for providers and their expertise.

Your Committee notes that although this measure contains an unspecified appropriation amount, the testimony of the Department of Human Services proposes three different scenarios as provided in a rate study commissioned by its Med-QUEST Division and submitted to the Legislature in December 2023. Based on the estimated managed care payment impacts using different wage assumptions:

- (1) The low impact scenario would require a funding of \$6,500,000, comprised of \$2,690,000 state funds and \$3,810,000 federal funds;
- (2) The medium scenario would require a funding of \$7,800,000, comprised of \$3,230,000 state funds and \$4,570,000 federal funds; and
- (3) The high scenario would require a funding of \$9,400,000, comprised of \$3,900,000 state funds and \$5,500,000 federal funds.

Accordingly, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriate amount to be inserted.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2712, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3204 Health and Human Services on H.B. No. 1533

The purpose and intent of this measure is to increase the amount of death benefits paid by the Department of Human Services to cover the cremation and disposition costs for a deceased person who was eligible for medical or financial assistance at the time of the person's death and whose body is unclaimed.

Your Committee received testimony in support of this measure from the Hawaii Funeral & Cemetery Association, Inc.; Mililani Group, Inc.; International Longshore & Warehouse Union Local 1000; Sebastian's ARCH LLC; and one individual.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the State's mortuaries and crematories handle the cremation, transportation, storage, and final disposition of unclaimed bodies on behalf of the State, but for decades have been reimbursed only \$800 to cover the cost of these services. Your Committee further finds that the costs of fuel, labor, and materials continue to increase, and that many businesses in the industry are struggling to cover costs above the State's reimbursement level and have even opted out of taking in unclaimed remains. This measure increases the amount of death benefits paid by the Department of Human Services to more sufficiently cover the cremation and disposition costs for unclaimed bodies that financially burden mortuaries and crematories in the State.

Your Committee notes the testimony of the Department of Human Services that the current allocated amount for death benefits to cover the cremation and disposition costs for unclaimed bodies is \$800, and that in fiscal year 2022-2023, the Department paid a total amount of \$277,600 for this type of death benefit. If death benefits are increased to \$1,600, the Department of Human Services will need an additional \$277,600 general fund appropriation. Your Committee further notes the Department of Human Services' request that any appropriation be included in the Executive Budget as a recurring expense, rather than a one-time appropriation through this measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1533, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3205 Health and Human Services on H.B. No. 1772

The purpose and intent of this measure is to appropriate funds to support the Department of Health's Senior Fall Prevention Campaign.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Office of Hawaiian Affairs, Disability and Communication Access Board, AARP Hawai'i, Alzheimer's Association-Aloha Chapter, Catholic Charities Hawai'i, Hawaii State Teachers Association-Retired, and three individuals.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that fall related injuries disproportionately impact the State's elderly population, often resulting in a long-term disability. Your Committee further finds that this impacts their quality of life and puts a strain on the State's medical system, rehabilitation system, and family caregivers. This measure appropriates funds to the Department of Health's successful Senior Fall Prevention Program to reduce the incidence of preventable falls and safeguard the health and safety of the State's seniors.

Your Committee notes that this measure contains an appropriation for an unspecified amount. Your Committee further notes that this measure, as introduced, contained an appropriation amount of \$100,000. Accordingly, should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting this original appropriation amount.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1772, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3206 Health and Human Services on H.B. No. 1974

The purpose and intent of this measure is to:

- (1) Increase the monthly needs allowance from \$50 to \$75 for individuals residing in adult residential care homes, domiciliary homes, adult foster homes, and other long-term care facilities;
- (2) Clarify that the needs allowance is not intended to replace or affect funds received from the federal Supplemental Security Income Program;
- (3) Require certain long-term care facility operators to pay for generic toiletries, linens, and meals and snacks;
- (4) Clarify the individuals who are eligible to receive the needs allowance; and
- (5) Require the Department of Human Services to perform an annual review of the needs allowance and report to the Legislature.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Department of Human Services, Disability and Communication Access Board, Executive Office on Aging, AARP Hawai'i, The Arc in Hawaii, Full Life, and fifteen individuals.

Your Committee finds that the State provides a personal needs allowance for individuals residing in adult residential care homes, domiciliary homes, adult foster homes, and other long-term care facilities, which allows recipients to purchase necessary items, such as clothing, toiletries, and meals, and covers other day-to-day living expenses. Your Committee further finds that despite the significant increase in the cost of living in Hawaii, allowance has not been increased since 2007, when the Legislature increased the monthly amount from \$30 to \$50. This measure increases the personal needs allowance for individuals in long-term care homes, allowing them more autonomy and dignity, and the ability to participate in their communities.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the Department of Human Services to perform an annual review of the monthly needs allowance and submit a report to the Legislature;
- (2) Inserting an effective date of October 1, 2024; and
- (3) Amending section 1 to reflect its amended purpose.

Your Committee notes the testimony of the Department of Human Services that if their program budget is not reduced in H.B. No. 1800, H.D. 1, Regular Session of 2024, the Department's current program budget appropriation will be sufficient to cover the needs allowance increase of \$25, and that the Department will not need a general fund appropriation to accommodate the needs allowance increase proposed in this measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1974, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1974, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3207 Health and Human Services on H.B. No. 1964

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish and implement a Child Care Provider Subsidy and Bonus Program to provide subsidies to retain the existing child care workforce in licensed infant and toddler child care centers, group child care centers, and group child care homes and bonuses to registered family child care homes;
- (2) Require annual reports to the Legislature; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the University of Hawai'i College of Education; Executive Office on Early Learning; Early Learning Board; Office of Hawaiian Affairs; County of Hawai'i Department of Research and Development; Hui for Excellence in Education; Hawai'i Children's Action Network Speaks!; Holomua Collaborative; HPM Building Supply; Title Guaranty of Hawai'i; Mana Up; aio; Early Childhood Action Strategy; AAUW of Hawaii; Chamber of Commerce Hawaii; Hawai'i State Coalition Against Domestic Violence; Aloha United Way; Parents And Children Together; Chamber of Sustainable Commerce; Fujiwara and Rosenbaum, LLLC; Save Medicaid Hawaii; Commit to Keiki; Hawai'i Association for the Education of Young Children; Hawai'i Women Lawyers; Women's Caucus of the Democratic Party of Hawai'i; and twenty-six individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the State is experiencing a chronic shortage of highly qualified educators, including early childhood teachers and personnel. Additionally, the State's high cost of living creates an additional financial burden on early childhood education workers. Your Committee further finds that higher compensation is an effective way to enhance recruitment and retention of a qualified early learning workforce. Accordingly, this measure alleviates a portion of the financial burden for early childhood educators to ensure retention of talented, qualified personnel.

Your Committee has amended this measure by deleting language that would have authorized a childcare provider exempt from licensing and registration approved by the Department of Human Services to qualify for the child care provider subsidy and bonus program.

Your Committee notes that this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting appropriation amounts for fiscal year 2024-2025, as follows, pursuant to testimony your Committee received from the Department of Human Services:

- (1) \$19,300,000 in general fund appropriations or non-federal funds to implement the Child Care Provider Subsidy and Bonus Program; and
- (2) \$100,000 for the establishment of one full-time equivalent (1.0 FTE) program specialist position to carry out the implementation and monitoring of the program.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1964, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1964, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3208 Health and Human Services on H.B. No. 2216

The purpose and intent of this measure is to increase the cap on state supplemental payments for type I adult residential care homes, licensed developmental disabilities domiciliary homes, community care foster family homes, certified adult foster homes, and type II adult residential care homes.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities; Department of Human Services; Disability and Communication Access Board; AARP Hawai'i; Adult Foster Homecare Association of Hawaii; United Community Healthcare of Hawaii; Community Home Care Association of Hawaii; Alliance of Professional Primary Care Administrators; Alliance of Residential Care Administrators; The Primary Care Providers of Hawaii, Inc.; International Longshore & Warehouse Union Local 1000; Community Care Foster Family Home; and thirty-seven individuals.

Your Committee finds that many residents of the State with developmental disabilities rely on care homes for essential support and services to meet their daily living needs. Your Committee further finds that the current cap on state supplemental payments often falls short of covering the actual costs incurred by care providers, leading to financial strain and potential disruptions in care delivery. This measure increases the state supplemental payment ceiling for certain long-term care facilities and enhances the quality of life and support services for individuals with developmental disabilities across the State.

Your Committee has amended this measure by:

- (1) Inserting \$784 for the state supplemental payment ceiling for type I adult residential care homes, licensed developmental disability domiciliary homes, community care foster family homes, and certified adult foster homes;
- (2) Inserting \$892 for the state supplemental payment ceiling for type II adult residential care homes; and
- (3) Inserting an effective date of October 1, 2024.

Your Committee notes the testimony of the Department of Human Services that if their program budget is not reduced in H.B. No. 1800, H.D. 1, Regular Session of Hawaii 2024, the Department's current program budget appropriation will be sufficient to cover

this measure's state supplemental payment increases, and that the Department will not need a general fund appropriation to accommodate the state supplemental payment increases proposed in this measure, as amended.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2216, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2216, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3209 Health and Human Services on H.B. No. 2224

The purpose and intent of this measure is to:

- (1) Require the Executive Office on Aging (EOA) to create a comprehensive long-term care master plan to accomplish long-term care policy goals that, when implemented, ensures the availability of a full continuum of institutional and community-based services;
- (2) Establish long-term care planner positions within the EOA to oversee the development and implementation of the long-term care master plan;
- (3) Require the EOA to submit a report on the comprehensive master plan to the Legislature; and
- (4) Appropriate funds to develop the comprehensive master plan.

Your Committee received testimony in support of this measure from the Executive Office on Aging, AARP Hawai'i, International Longshore & Warehouse Union Local 1000, Sebastian's ARCH LLC, and Healthcare Association of Hawaii.

Your Committee finds that long-term care of the State's aging population is a matter of statewide concern. Your Committee further finds that there are many different providers, stakeholders, advocates, and agencies who must coordinate their efforts to ensure an equitable, affordable, and widely available long-term care system. This measure establishes an updated and comprehensive master plan for the State's long-term care system to better facilitate this coordination amongst stakeholders and to explore additional options in long-term financing of home-and community-based services and implement additional system improvements.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2224, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3210 Health and Human Services on H.B. No. 408

The purpose and intent of this measure is to:

- (1) Authorize the Department of Health to, in its discretion, certify community care foster family homes (CCFFH) for a fourth adult who is a Medicaid recipient and has documented housing instability, if certain conditions are met; and
- (2) Require the Department of Health to submit a report to the Legislature.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness.

Your Committee received comments on this measure from the State Council on Developmental Disabilities, Department of Human Services, Department of Health, International Longshore & Warehouse Union Local 1000, and Sebastian's ARCH LLC.

Your Committee finds that CCFFH are an integral part of the continuum of long-term care and provide a less restrictive community-based home for Medicaid recipients at a nursing facility level of care, which is a more expensive level of care. Your Committee further finds that CCFFH are currently allowed to have two residents, one of whom must be a Medicaid recipient, and may request for a third resident under certain conditions. This measure allows CCFFH to accommodate a fourth individual, increasing the availability of community-based housing for vulnerable residents of the State.

Your Committee has amended this measure by:

- (1) Inserting language that requires the Department of Health's certification of a community care foster family home for a fourth adult to be conditioned upon:
 - (A) The community care foster family home having a secondary caregiver, who is a certified nurse aid, as defined in section 457A-1.5, Hawaii Revised Statutes, who has completed a state-approved training program and other training as required by the Department of Health, who is on duty from 7:00 a.m. to 7:00 p.m.; and
 - (B) Submittal of an evaluation and report from a qualified service provider and health care provider for each adult proposed to be the fourth client in the community care foster family home;
- (2) Inserting language that allows a caregiver of a community care foster family home to submit a request to the Department of Health to increase the home's bed capacity from three to four only after all vacancies in CCFFH located on the same island are filled;
- (3) Clarifying that the Department of Health and the Governor's Coordinator on Homelessness shall submit a report of their findings and recommendations on the authorization to allow one additional individual who is a Medicaid recipient to be cared

for in the same community care foster family home and the benefits and impacts to homelessness and persons experiencing housing instability;

- (4) Inserting language that requires the Department of Health and the Governor's Coordinator on Homelessness to enter into a memorandum of agreement to implement this measure before the placement of any individual recommended for placement as a fourth adult in a certified community care foster family home;
- (5) Inserting a repeal date of June 30, 2027; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 408, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 408, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Aquino). Noes, none. Excused, none.

SCRep. 3211 Education on H.B. No. 335

The purpose and intent of this measure is to:

- (1) Exempt small purchases of career and technical education equipment for the Department of Education from the electronic procurement system requirements; and
- (2) Adjust the quotation requirements for the procurement of small purchases of career and technical education equipment for the Department.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to exempt from the Hawaii Public Procurement Code educational materials and related training for direct student instruction in career and technical education programs within the Department of Education.

Your Committee received testimony in support of this measure or the proposed S.D. 1 from the Department of Education, Waipahu High School, Moanalua Middle School, and Roosevelt High School.

Your Committee received comments on this measure or the proposed S.D. 1 from the State Procurement Office.

Your Committee finds that career and technical education opportunities provide students with relevant hands-on learning experiences in various industries. However, rapid advancements in technology and industry necessitate rapid adaptation in educational settings. Therefore, this measure provides for the timely acquisition of career and technical education equipment and related training to ensure continuity of career-building opportunities for students.

Your Committee has amended this measure by adopting the proposed S.D. 1 and making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 335, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 335, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3212 Education on H.B. No. 1652

The purpose and intent of this measure is to establish a state income tax credit for qualified expenses incurred by certain individuals employed by the Department of Education, a public charter school, the Hawaii State Public Library System, or as part of a head start program in a school.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Hawaii State Teachers Association, and Education Caucus of the Democratic Party of Hawai'i.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii teachers spend an average of \$953 of their personal funds on various classroom supplies each year, including basic school supplies, snacks, meals for students who cannot afford or otherwise miss school meals, and supplemental materials for enrichment. However, as educators also experience the high cost of living in the State, additional fiscal incentives can help offset these expenditures to ensure continued recruitment and retention of quality teachers. Therefore, this measure will alleviate the financial burden of paying for essential classroom supplies that teachers and other school personnel often incur.

Your Committee notes the concerns raised in testimony that using the tax system to achieve social goals is an inefficient means of accomplishing such goals. The fact that teachers have to use their own personal funds to acquire necessary classroom materials is a concerning practice and is further complicated by underlying bureaucratic policies wherein teachers' requests for funding for certain items can take as long as six months to be approved. Despite prior Legislatures appropriating funds to address the issues of out-of-pocket expenses incurred by teachers, teachers have reported that navigating this system is still a frustrating process. Accordingly, rather than using the tax system to grant some fiscal relief to teachers, consideration should be given to fixing the underlying bureaucratic processes that limit teachers' abilities to access the funds that have been previously and directly appropriated for this very purpose.

Your Committee has amended this measure by clarifying the definition of "qualified expenses" to mean expenses paid for the eligible materials that are used by the qualified taxpayer in the classroom.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1652, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1652, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3213 Education on H.B. No. 2384

The purpose and intent of this measure is to:

- (1) Change the means of financing for a portion of funds appropriated for deposit into the School Facilities Special Fund to expand pre-kindergarten student capacity within the State from general funds to general obligation bond funds; and
- (2) Repeal the funds appropriated into and out of the School Facilities Special Fund by Act 257, Session Laws of Hawaii 2022, as amended.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee received comments on this measure from the School Facilities Authority.

Your Committee finds that Act 175, Session Laws of Hawaii 2023, amended Act 257, Session Laws of Hawaii 2022, to extend the general fund appropriation into the School Facilities Special Fund by one fiscal year. Extending the lapse date of the appropriation will provide sufficient time to encumber the amended general fund and new general obligation bond fund appropriations. Further by reducing the amount of general funds appropriated for deposit into the School Facilities Special Fund in fiscal year 2023-2024, the State can efficiently balance its budget while ensuring continued funding for projects such as pre-kindergarten facilities. Therefore, this measure ensures adequate funding needed to ensure the availability of facilities for public education across the State.

Your Committee has amended this measure by:

- (1) Replacing the School Facilities Authority with the Department of Education as the administrator of the School Facilities Special Fund;
- (2) Designating the Department of Education, rather than the School Facilities Authority, as the expending agency for the appropriation; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2384, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2384, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3214 Education on H.B. No. 2399

The purpose and intent of this measure is to exempt an additional administrative assistant position in the Hawaii State Public Library System from civil service.

Your Committee received testimony in support of this measure from the Hawaii State Public Library System.

Your Committee finds that Act 88, Session Laws of Hawaii 2021, established a new administrative assistant position within the Hawaii State Public Library System. The position was intended to be permanently exempt from civil service, but the corresponding statutory amendment was not included. As part of their duties and responsibilities, the administrative assistant position oversees and manages all public library facilities-related issues statewide, necessitating an exempt status due to certain qualifications and experience needed to effectively carry out the role statewide. While the Department of Accounting and General Services provides substantial support in repairing and maintaining library facilities due to the Department's staffing shortages, a dedicated position within the Hawaii State Public Library System, as proposed in this measure will promote efficiency within the Library System to prioritize and ensure the needs of all public library facilities.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2399, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2399, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3215 Health and Human Services on H.B. No. 1776

The purpose and intent of this measure is to amend the applicable percentage of employment-related expenses that may be claimed by a taxpayer for the Household and Dependent Care Services Tax Credit.

Your Committee received testimony in support of this measure from the Office of the Governor; Office of Hawaiian Affairs; Aloha United Way, Inc.; Hawai'i Children's Action Network Speaks!; Catholic Charities Hawai'i; AARP Hawai'i; Democratic Party of Hawai'i Women's Caucus; Chamber of Sustainable Commerce; Save Medicaid Hawaii; Hawai'i Alliance for Progressive Action; Hawaii Appleseed Center for Law and Economic Justice; 'Ohana Leadership Council; Chamber of Commerce Hawaii; Democratic Party of Hawai'i; Hawai'i State Coalition Against Domestic Violence; and twenty-eight individuals.

Your Committee received comments on this measure from the Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the State has the highest cost of living in the nation and is facing a critical worker shortage that impacts its economy and future. Your Committee further finds that child and dependent care remain one of the largest cost burdens for Hawaii families, secondary to housing, and yet without affordable childcare, parents and guardians face huge barriers to joining or re-joining the workforce. Your Committee also finds that although Act 163, Session Laws of Hawaii 2023, significantly raised the amount of employment-related expenses that taxpayers can claim under the Household and Dependent Care Services Tax Credit, it did not raise the maximum percentage of those expenses that could be claimed, thereby making it difficult for families to realize the full value of the tax credit. This measure addresses this issue by allowing more families to benefit from the Household and Dependent Care Services Tax Credit.

Your Committee notes the concerns raised in testimony that while it appears that this measure proposes tax relief to lower income taxpayers, consideration should be given to adjusting the income tax rates or the threshold amounts so the taxpayers that these credits intended to benefit will not need to claim these credits to get tax relief or potentially forfeit any tax relief if they fail to claim the credits. Your Committee further notes that tax credits may have non-duplication provisions and strict time limits on when credits may be claimed, exposing taxpayers seeking tax relief through these credits to credit disallowance, penalties, and other undesirable consequences.

Your Committee also notes that H.B. No. 2404, H.D. 1., Regular Session of 2023, which was previously passed by the House of Representatives and recently passed first reading in the Senate, also amends the percentage of employment-related expenses for which the Household and Dependent Care Services Tax Credit may be claimed. Your Committee finds that the language in H.B. No. 2404, H.D. 1, is preferable because it offers more comprehensive changes to income tax laws that result in more tax relief for lower income taxpayers, including a one-time adjustment to income tax brackets to offset inflation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of H.B. No. 2404, H.D. 1, a measure that:
 - (A) Amends income tax brackets;
 - (B) Temporarily amends the applicable percentage of the employment-related expenses for which the Child and Dependent Care Income Tax Credit may be claimed;
 - (C) Permanently provides for a disallowance period when there is a final administrative or judicial decision finding that the claim was due to fraud or disallowing the credit; and
 - (D) Amends state conformity with certain federal deductions; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1776, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1776, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3216 (Joint) Labor and Technology and Higher Education on H.B. No. 2720

The purpose and intent of this measure is to exempt graduate assistants from collective bargaining until they petition the Hawaii Labor Relations Board and the Board determines the graduate assistants are ready to be placed in a bargaining unit, at which point a collective bargaining unit for graduate assistants employed by the University of Hawaii and its community college system will be established.

Your Committees received testimony in support of this measure from University of Hawai'i at Mānoa Graduate Student Organization; University of Hawaii Professional Assembly; National Education Association; Academic Labor United; Democratic Party of Hawai'i Education Caucus; Democratic Party of Hawai'i Labor Caucus; Democratic Party of Hawai'i; Rainbow Family 808; Democratic Party of Hawai'i Stonewall Caucus; University of Hawai'i Student Caucus; United Public Workers, AFSCME Local 646, AFL-CIO; Academic Labor Union; and fifty individuals.

Your Committees received testimony in opposition to this measure from the Hawaii State Teachers Association.

Your Committees received comments on this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; and two individuals.

Your Committees find that graduate assistants play a vital role in the operation of the University of Hawaii by conducting research and teaching, and are integral to the State's innovation and intellectual capital. In January 2024, the Hawaii Labor Relations Board issued an order declaring that graduate assistants at the University of Hawaii are public employees as defined under section 89-2, Hawaii Revised Statutes (HRS), and are not included in any of the bargaining units identified in section 89-6, HRS. To allow these public employees the right to organize and collectively bargain the terms and conditions of their employment, this measure establishes a bargaining unit for graduate assistants employed by the University of Hawaii and its community college system in statute,

however, exempts them from collective bargaining until they petition the Hawaii Labor Relations Board and the Board determines that they are ready to be placed in a bargaining unit.

Your Committees note that S.B. No. 3317, S.D.1, Regular Session of 2024 (S.B. No. 3317, S.D.1), which has been previously heard by the Senate, also relates to the establishment of a collective bargaining unit for graduate assistants employed by the University of Hawaii and its community college systems. Your Committees find that the language in S.B. No. 3317, S.D. 1, is preferable because it establishes a collective bargaining unit for the graduate assistants without the condition that they petition and receive a determination from the Hawaii Labor Relations Board. The language in S.B. No. 3317, S.D. 1, is also preferable because it provides a definition of “graduate assistants” which is essential to this measure.

Accordingly, your Committees have amended this measure by deleting its contents and inserting the contents of S.B. No. 3317, S.D. 1, a measure that:

- (1) Defines “graduate assistant” as a student in a renewable, part-time academic appointment with responsibilities of teaching and research in their unit of hire, and have roles as professionals, albeit of an apprentice nature, in the university community;
- (2) Establishes Bargaining Unit (16) as a new collective bargaining unit for graduate assistants employed by the University of Hawaii and community college system;
- (3) Establishes that for the purpose of negotiating a collective bargaining agreement, the public employer of Bargaining Unit (16) means the Governor, who shall have three votes, the Board of Regents of the University of Hawaii, who shall have two votes, and the President of the University of Hawaii, who shall have one vote;
- (4) Establishes that part-time employees working less than twenty hours per week included in Bargaining Unit (16) are entitled to coverage under chapter 89, HRS;
- (5) Establishes impasse procedures for bargaining unit (16); and
- (6) Takes effect on July 1, 2055.

Your Committees note the contents and intentions of S.B. No. 2991, S.D. 2, Regular Session of 2024, that is currently moving through the legislative process, which amends criteria for the creation of new bargaining units, and its relation to this measure. Your Committees also note that the creation of a bargaining unit might not solve the ongoing issues within the University of Hawaii System, as the University of Hawaii Professional Assembly has had little success solving them. Your Committees find that these concerns merit further consideration and respectfully request that subsequent Committees that may hear this measure further examine these issues as this measure moves through the legislative process.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2720, H.D. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2720, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3217 (Majority) Commerce and Consumer Protection on H.B. No. 1686

The purpose and intent of this measure is to increase the reimbursement rate for chiropractic treatments for personal injury protection benefits under motor vehicle insurance from \$75 to \$100.

Your Committee received testimony in support of this measure from the Hawaii State Chiropractic Association; Pearl City Chiropractic, LLC; Tanaka and Associates Chiropractic & Massage, L.L.C.; Eclipse Chiropractic LLC; Turning Point Chiropractic Inc.; Dr. Jill Dawrs Family Chiropractic Clinic; Klein Natural Health and Wellness Center; and thirty individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and Hawaii Insurers Council.

Your Committee finds that in the nearly three decades since the personal injury protection benefit for chiropractic treatments under motor vehicle insurance was first established pursuant to Act 251, Session Laws of Hawaii 1997, the cost of chiropractic care has continually increased, while the statutory benefit provided has remained unchanged. Therefore, this measure ensures equitable, fair, and accessible chiropractic care for individuals recovering from automobile accidents by increasing the authorized insurance benefit (i.e., reimbursement rates) for chiropractic treatments to align with current costs.

Your Committee has amended this measure by:

- (1) Replacing language that would have increased the reimbursement rate for chiropractic treatments for personal injury protection benefits under motor vehicle insurance from \$75 to \$100 with language that instead ties the authorized insurance benefits to the charges, and any subsequent increases in charges, that are permissible under the workers’ compensation supplemental medical fee schedule;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1686, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1686, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3218 Commerce and Consumer Protection on H.B. No. 1803

The purpose and intent of this measure is to reduce the pass-through entity level tax rate and allow the pass-through entity tax credit to be carried forward to subsequent years, for taxable years beginning after December 31, 2023.

Your Committee received testimony in support of this measure from the Retail Merchants of Hawaii; Hawai'i Restaurant Association; Grassroot Institute of Hawaii; Zippy's Restaurants; Pacific Rim Land, Inc.; Accuity LLP; Chamber of Commerce Hawaii; and one individual.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Act 50, Session Laws of Hawaii 2023 (Act 50), was enacted to help Hawaii's small businesses by allowing certain pass-through entities to elect to pay Hawaii state income taxes at the entity level and deduct those state income taxes paid on their federal income tax returns. Previously, certain changes to the federal tax code in 2017 had eliminated these deductions from federal taxable income, depriving many Hawaii taxpayers of significant federal tax benefits. However, your Committee finds that despite the ambition of Act 50, the high pass-through entity level tax rate imposed on electing pass-through entities and the inability to carry forward the tax credit have made it difficult for many small business owners to truly benefit as intended. Therefore, this measure makes necessary adjustments to the Pass-through Entity Taxation Election law established by Act 50 to help reduce the tax burdens imposed on small business owners.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1803, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1803, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3219 Commerce and Consumer Protection on H.B. No. 2048

The purpose and intent of this measure is to:

- (1) Increase the number of public members on the Board of Directors of the Hawaii Property Insurance Association from three to four; and
- (2) Require the Speaker of the House of Representatives and President of the Senate, rather than the Insurance Commissioner, to appoint the public members.

Your Committee received testimony in support of this measure from Hawaii First Realty LLC and three individuals.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and Hawai'i Property Insurance Association.

Your Committee finds that the Hawaii Property Insurance Association (HPIA) is a state-run insurer of last resort that provides basic property insurance for persons unable to purchase homeowners coverage in the private market. Under existing law, the HPIA board, which has the responsibility and control over the organization, management, policies, and activities of the HPIA, consists of twelve members, three of whom are public members appointed by the Insurance Commissioner. Your Committee finds that the existing appointment process is not representative of, or responsive to the State's diverse geographic areas and communities. Therefore, this measure amends and improves the HPIA board member selection process to increase statewide representation and ensure that all communities have a seat at the table.

Your Committee has amended this measure by:

- (1) Inserting an unspecified number of public members to be appointed to the Board of Directors of the Hawaii Property Insurance Association by the Speaker of the House of Representatives and the President of the Senate, respectively, to encourage further discussion;
- (2) Making a conforming amendment by inserting an unspecified number of total members to compose the Board of Directors of the Hawaii Property Insurance Association;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2048, H.D. 1, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as H.B. No. 2048, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3220 Commerce and Consumer Protection on H.B. No. 2641

The purpose and intent of this measure is to:

- (1) Reestablish beginning September 30, 2024, the Appraisal Management Company Registration Program within the Department of Commerce and Consumer Affairs to conform with the minimum standards of the Appraisal Management Companies Final Rule and federal Dodd-Frank Wall Street Reform and Consumer Protection Act;
- (2) Reestablish registration requirements, standards, and penalties for violations; and
- (3) Make appropriations from the Compliance Resolution Fund.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS, Hawaii Financial Services Association, Real Estate Valuation Advocacy Association, Mortgage Bankers Association of Hawaii, Hawaii Bankers Association, Hawaii Credit Union League, and one individual.

Your Committee received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that in 2017, the Legislature enacted Act 118, Session Laws of Hawaii 2017 (Act 118), formerly codified as chapter 466L, Hawaii Revised Statutes, to establish a regulatory framework for appraisal management companies in Hawaii in conformance with the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. However, the framework established by Act 118 was subject to a statutory sunset, and has since been repealed as of June 30, 2023. Your Committee finds that the continuation of the Appraisal Management Company Registration Program established by Act 118 is in the public's best interest, and that the lack of regulatory framework could result in serious unintended and adverse consequences for Hawaii consumers and others involved in the residential appraisal process in the State. Therefore, this measure permanently reenacts the Appraisal Management Company Registration Program established by Act 118.

Your Committee has amended this measure by:

- (1) Changing the commencement date for the reestablishment of the Appraisal Management Company Registration Program from September 30, 2024, to September 1, 2024;
- (2) Inserting language that repeals chapter 466L, Hawaii Revised Statutes, for the purposes of clarity; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes the testimony received from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, requesting that the sums of \$23,000 each for fiscal years 2023-2024 and 2024-2025 be appropriated out of the Compliance Resolution Fund to cover the costs of reestablishing and maintaining the Program. Therefore, your Committee respectfully requests that your Committee on Ways and Means consider inserting these appropriation amounts, should it choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2641, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2641, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3221 (Joint) Judiciary and Health and Human Services on H.B. No. 1976

The purpose and intent of this measure is to:

- (1) Require the Office of Elections to annually request funding for the Statewide Elections Accessibility Needs Advisory Committee; and
- (2) Appropriate funds to the Office of Elections Statewide Elections Accessibility Needs Advisory Committee to gather information and provide outreach and voter education services for individuals with accessibility needs.

Your Committees received testimony in support of this measure from the Hawaii State Council on Developmental Disabilities, Disability and Communication Access Board, Statewide Accessibility Needs Advisory Committee, Hawaii Disability Rights Center, and six individuals.

Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that removing barriers for persons with voting accessibility needs increases accessibilities for voters with disabilities through the entire voting process, from registration through casting ballots, and ensures that all individuals have equal access to the voting process. Existing law requires the State Office of Elections and each county election office to address accessibility and ways to remove barriers. Your Committees believe that understanding the unique needs of each community statewide can provide valuable insight on current and future accessibility issues for voters. This measure will promote greater participation in voting by individuals with access needs who may otherwise be excluded.

Your Committees have amended this measure by:

- (1) Inserting an appropriation amount of \$10,000 for information gathering, outreach, and voter education expenses approved by the Statewide Elections Accessibility Needs Advisory Committee; and
- (2) Making it effective on July 1, 2024.

As affirmed by the records of votes of the members of your Committees on Judiciary and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1976, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1976, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 3. Noes, none. Excused, 2 (Elefante, Awa).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 3222 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on H.B. No. 1902

The purpose and intent of this measure is to:

- (1) Clarify that the Governor's and mayors' emergency management powers shall be consistent with the Hawaii State Constitution;
- (2) Clarify the scope of the comprehensive emergency management plan;
- (3) Clarify the powers of the Governor and mayors to extend or terminate a state of emergency; and
- (4) Shorten the duration of price control periods from ninety-six hours to seventy-two hours.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; NAIOP Hawaii; Retail Merchants of Hawaii; Hawaii Food Industry Association; Hawai'i Association of REALTORS; Land Use Research Foundation of Hawaii; Hawai'i Restaurant Association; and fifty-eight individuals.

Your Committees received testimony in opposition to this measure from ten individuals.

Your Committees received comments on this measure from the Grassroot Institute of Hawaii, Lāhainā Strong, and thirty-nine individuals.

Your Committees find that it is necessary for all parties on the federal, state, county, and non-governmental levels to develop a proper framework of duties and responsibilities to prepare, mitigate and recover from catastrophic events. Your Committees further find that Hawaii's emergency response plans need further development, particularly regarding the roles of the Governor and mayors. This measure will help integrate a matrix of responsibilities into an emergency management program.

Your Committees have amended this measure by:

- (1) Specifying that any proclamation of a state of emergency that fails to state a time at which it will take effect shall take effect at noon of the day on which it takes effect;
- (2) Adding a new part to insert the contents of section 1 of Senate Bill No. 2904, S.D. 2 (2024), which amends emergency management law to protect tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a gubernatorial or mayoral emergency proclamation; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1902, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1902, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4; Ayes with Reservations (Elefante). Noes, none. Excused, 1 (Awa).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3223 Transportation and Culture and the Arts on H.B. No. 1861

The purpose and intent of this measure is to:

- (1) Require license plates issued on or after January 1, 2025, to include 'okina in the word "Hawai'i"; and
- (2) Authorize the use of all uppercase letters, all lowercase letters, or initial capital letters for the words "Hawai'i" and "Aloha State" in motor vehicle license plates.

Your Committee received testimony in support of this measure from the Department of Customer Services of the City and County of Honolulu and ten individuals.

Your Committee finds that two years ago, the Legislature passed Act 170, Session Laws of Hawaii 2022, which requires Hawaiian diacritical markings in Hawaiian names and words in official state and county letterhead. According to testimony received by your

Committee, existing statute does not permit the inclusion of the 'okina on license plates. This measure will support broader implementation of Hawaiian diacritical marks across government, including state vehicle license plates.

Your Committee has amended this measure by:

- (1) Limiting special number plates for environmental conservation to apply to electric vehicles only, with all the benefits and restriction of electric vehicle plates;
- (2) Specifying that the design for special number plates for environmental conservation shall not require the words "Aloha State" along the lower portion of the plate;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1861, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1861, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3224 Transportation and Culture and the Arts on H.B. No. 1869

The purpose and intent of this measure is to establish the felony offenses of misuse of unmanned aircraft in the first, second, and third degrees.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee received testimony in opposition of this measure from one individual.

Your Committee comments on this measure from Hawaiian Electric.

Your Committee finds that the civilian use of drones has become increasingly popular among the general public. Your Committee further finds that this use has increased the risk of drones being utilized to harm people and property. This measure will adjust to the increasing availability and use of drones by the public, discourage the misuse of drones that is detrimental to others, and ensure that state and county prosecutors are equipped to properly charge these types of offenses.

Your Committee has amended this measure by:

- (1) Replacing the term "unmanned" with "uncrewed";
- (2) Adding language to require that uncrewed aircraft be directly operated by a human operator at all times; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that Hawaiian Electric offered comments on House Draft 1. Should subsequent Committees choose to deliberate on this measure, your Committee respectfully requests that they consider adding a public utility to individuals exempted from this measure. Additionally, your Committee respectfully requests that they consider further specifying the terms "intentionally" and "knowingly" to avoid a potential overly broad application.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1869, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1869, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3225 (Majority) Transportation and Culture and the Arts on H.B. No. 2065

The purpose and intent of this measure is to amend the appropriation for fiscal year 2024—2025 for the Noise Traffic Pilot Program of the Department of Transportation.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that Act 63, Session Laws of Hawaii 2023, established a pilot program on Oahu to utilize noise detection traffic cameras to address excessive traffic noise. Your Committee further finds that excessively loud and unabated noises can result in physiological, psychological, and economic damage to residents in high trafficked neighborhoods. Your Committee believes that residents of the State are entitled to a healthy and peaceful environment free from noise pollution that may be hazardous to their health or welfare. Therefore, this measure will ensure that the pilot program continues its work in alleviating noise pollution.

Your Committee notes that the House Draft 2 of this measure contains an unspecified appropriation amount and an effective date of July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2065, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3226 (Majority) Transportation and Culture and the Arts on H.B. No. 2071

The purpose and intent of this measure is to:

- (1) Provide that any photo red light imaging detector system's clear and unobstructed recorded image of a motor vehicle license plate shall be prima facie evidence that the motor vehicle to which the license plate is attached is the motor vehicle for which the license plate was issued; and
- (2) Require the State, the county, or the State's or county's third-party contractor to implement a process to record the date on which the summons or citation was submitted to the post office, which shall be prima facie evidence of the date the summons or citation was submitted to the post office.

Your Committee received testimony in support of this measure from the Department of Transportation and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that vehicles that fail to stop for a red light pose a danger for all pedestrians, especially pedestrians with certain disabilities. Additionally, children, who are less visible to drivers are also at risk. This measure will make the State's roadways safer for pedestrians by allowing photo red light imaging detector systems to be used as prima facie evidence.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2071, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3227 Transportation and Culture and the Arts on H.B. No. 2376

The purpose and intent of this measure is to adjust funding for Department of Transportation programs to pay for anticipated operating shortfalls due to the limited ability to transfer funds between programs.

Your Committee received testimony in support of this measure from the Department of Transportation and Department of Budget and Finance.

Your Committee finds that in prior years, the respective budget acts contained a budget proviso which permitted departments to transfer funds between their programs, provided that the Legislature was informed of the transfers. Your Committee further finds that the Supplemental Appropriations Act of 2022 and the General Appropriations Act of 2023 do not reinstate the proviso, causing a critical funding emergency by limiting the ability of departments to transfer funds between their programs to address changing conditions. This measure will address the omission of the transfer proviso by adjusting funding for various programs to be commensurate with their anticipated levels of activity, allowing the Department of Transportation to address traffic issues on Oahu.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2376, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3228 Transportation and Culture and the Arts on H.B. No. 2380

The purpose and intent of this measure is to make an emergency appropriation to provide special funds for disbursements of moneys in the Mass Transit Special Fund.

Your Committee received testimony in support of this measure from Department of Budget and Finance, Honolulu Authority for Rapid Transportation, and Oahu Metropolitan Planning Organization.

Your Committee finds that the Department of Budget and Finance anticipates there will be a shortfall in special fund ceiling for the Mass Transit Special Fund. Your Committee further finds that the Department of Budget and Finance requests that \$179,000,000 be appropriated to reflect the increases in revenue estimates for the Transient Accommodations Tax and the General Excise Tax County Surcharge. This measure will provide the necessary funds for the Mass Transit Special Fund to continue operations in fiscal year 2024.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2380, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2380, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3229 Transportation and Culture and the Arts on H.B. No. 1578

The purpose and intent of this measure is to:

- (1) Allow a shipping container chassis that holds a valid out-of-state certificate of vehicle registration to obtain a certificate of safety inspection; and
- (2) Make an out-of-state registration for a shipping container chassis valid in the State until its expiration in the other state or for one year after a vehicle safety inspection.

Your Committee received testimony in support of this measure from the Department of Transportation; General Contractors Association of Hawaii; Hawaii Harbors Users Group; Matson Navigation Company, Inc.; Retail Merchants of Hawaii; Young Brothers, LLC; and one individual.

Your Committee finds that nationwide, most states acknowledge out-of-state license plates and registrations of shipping container chassis because of the intermodal and interstate nature of the industry. Your Committee further finds that due to the isolation of Hawaii as an island state, commercial harbors and shipping container chassis are essential to the delivery of necessary goods into the State. By allowing out-of-state registered shipping container chassis to obtain a safety check in Hawaii, this measure will ensure the safety, efficiency, and flexibility of supply chain flows at commercial harbors.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1578, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1578, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kanuha, Awa).

SCRep. 3230 Transportation and Culture and the Arts on H.B. No. 2490

The purpose and intent of this measure is to increase the caps for the total contract value for any one capital advancement contract and the total aggregate value of capital advancement contracts in a fiscal year entered into by the Department of Transportation with private parties for harbor improvements and add reporting requirements for the Department.

Your Committee received testimony in support of this measure from the Department of Transportation; Hawaii Harbors Users Group; Matson Navigation Company, Inc.; and Young Brothers, LLC.

Your Committee finds that the Department of Transportation is authorized to enter into capital advancement contracts with private entities for any public improvement to or construction of a state port facility when the Director of Transportation determines that a capital advancement contract promotes the best interest of the State. Your Committee further finds that in recent years, this tool has proven effective in expediting project delivery, especially for projects that increase port resilience and operational efficiency. This measure will ensure the Department of Transportation is able to adjust to escalating project costs due to inflation and rising costs of materials and labor by increasing the existing cap for capital advancement contracts.

Your Committee has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2490, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2490, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3231 (Majority) Transportation and Culture and the Arts on H.B. No. 2491

The purpose and intent of this measure is to amend existing state law to adopt federal penalties for commercial driver's license violations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Federal Motor Carrier Safety Administration has determined that Hawaii's penalties for commercial motor vehicle employers and drivers with out-of-service violations and railroad-highway grade crossing violations do not comply with federal regulations. Your Committee further finds that existing civil penalty fines are too low when a driver is convicted of a violation. This measure will adjust state law penalties for commercial driver's license violations to align with federal regulations.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2491, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3232 (Majority) Transportation and Culture and the Arts on H.B. No. 2492

The purpose and intent of this measure is to amend existing law to meet new federal regulations for commercial driver's licenses when the Drug and Alcohol Clearinghouse prohibits a driver from operating a commercial vehicle due to drug and alcohol violations.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Hawaii's penalties for commercial motor vehicle employers and drivers with out-of-service violations and railroad-highway grade crossing violations are not in compliance with federal regulations. Your Committee further finds that according to federal regulations, if a state discovers a candidate is prohibited from operating a commercial motor vehicle, the State must not grant the commercial learner's permit or must downgrade the commercial driver's license. By revising existing statute, this measure will ensure compatibility with federal compliance by allowing the State to conform to federal regulations.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2492, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3233 Transportation and Culture and the Arts on H.B. No. 2493

The purpose and intent of this measure is to create two new commercial driver's license restrictions relating to operating a commercial motor vehicle in excess of eighteen thousand pounds gross vehicle weight rating and operating a commercial motor vehicle on Lanai and Molokai only.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that, without traveling to another island, it is currently impossible to obtain a standard commercial driver's license on Molokai or Lanai. Commercial driver license applicants on Molokai and Lanai cannot adequately demonstrate essential driving skills, including the ability to choose a safe gap for changing lanes, passing other vehicles, and crossing or entering traffic and the ability to signal appropriately when changing direction in traffic. Your Committee further finds that the Federal Motor Carrier Safety Association has determined that the restricted commercial driver's license road tests on Lanai and Molokai do not meet federal standards. This measure will create a new restricted commercial driver's license for those on Lanai and Molokai.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2493, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3234 Transportation and Culture and the Arts on H.B. No. 2526

The purpose and intent of this measure is to:

- (1) Increase the penalty for a third or subsequent offense involving the unauthorized driving or operation of motor vehicles to a class C felony; and
- (2) Authorize the court, as part of the person's sentencing for the third or subsequent offense, to order that the vehicle used by the person in the commission of the offense be subject to forfeiture.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu and three individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that overall traffic fatalities and injuries have increased in recent years throughout the State. Your Committee further finds that there has also been a dramatic increase in traffic violations committed by repeat offenders, including driving without a license and speeding. This measure will prioritize the safety of Hawaii residents by creating greater deterrents for those who engage in dangerous driving behaviors.

Your Committee has amended this measure by making it effective on July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2526, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2526, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3235 Transportation and Culture and the Arts on H.B. No. 2673

The purpose and intent of this measure is to:

- (1) Permit the counties to use county surcharge revenues for maintenance of public roadways and private roadways that are open to the public; and
- (2) Require the counties to use fuel taxes for reconstruction, improvement, repair, and maintenance of private roads that are open to the public.

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that while private roads are under the ownership of private persons, the use of the private roads are not exclusive to those private persons. For example, private roads are often heavily used by first responders to respond to emergencies and by school buses for the transportation of students to and from school. This measure will support the maintenance and upkeep of private roads that serve a public purpose by permitting the counties to use county surcharge and fuel tax revenues on these private roads.

Your Committee has amended this measure by:

- (1) Clarifying that revenues collected by a county surcharge on state tax ordinance may be used for maintenance of public roadways by counties with a population of less five hundred thousand rather than each county;
- (2) Adding language to extend the sunset date of the working group established by Act 200, Session Laws of Hawaii 2022, to June 30, 2025;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that the House Draft 2 of this measure contains an effective date of July 1, 2050 and respectfully requests that your Committee on Ways and Means verify the expenditure of funds in consideration of the amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2673, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2673, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3236 (Joint) Labor and Technology and Judiciary on H.B. No. 1643

The purpose and intent of this measure is to:

- (1) Establish the time within which a disbursing officer must notify an employee of indebtedness to the government resulting from salary or wage overpayment after making a determination of the amount of indebtedness;
- (2) Amend the criteria for an actionable cause of action; and
- (3) Amend the amount a disbursing officer must deduct to begin immediate recovery of indebtedness based on an employee's gross income.

Your Committees received testimony in support of this measure from United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; and one individual.

Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that at times, the State and counties will mistakenly overpay an employee over a period of time or in one lump sum, which forces the employee, at no fault of their own, to take on what is essentially a loan they must repay. Your Committees further find that existing law requires these employees to repay the overpayment with the minimum repayment amount being either \$100 per pay period or twenty-five percent of an employee's compensation, which can put unnecessary strain on the employees' financial situation. Therefore, this measure will provide lower income earners more time and greater flexibility to repay their debt without undue burden.

Your Committees have amended this measure by:

- (1) Restoring existing statutory language that requires the notice of indebtedness to be given to the employee within two years from the date of the salary or wage overpayment for the indebtedness to be an actionable cause of action;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1643, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1643, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Lee).
Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3237 (Joint) Labor and Technology and Judiciary on H.B. No. 1967

The purpose and intent of this measure is to change the administrating agency of the Human Trafficking Victim Services Fund from the Department of Labor and Industrial Relations to the Department of the Attorney General.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of Labor and Industrial Relations, Office of Hawaiian Affairs, Rainbow Family 808, Democratic Party of Hawai'i Women's Caucus, Imua Alliance, and five individuals.

Your Committees find that the Human Trafficking Victim Services Fund has been administratively attached to the Department of Labor and Industrial Relations since its inception in 2014. Your Committees further find that in 2022 and 2023, the Legislature established within the Department of the Attorney General, a Special Investigations and Prosecution Division that serves as the State's primary prosecutorial unit responsible for prosecuting human trafficking and sex trafficking, and a statewide Human Trafficking Prevention Program that provides services and assistance to victims of human trafficking and commercial sexual exploitation of children. This measure will allow the Department of the Attorney General to use the Human Trafficking Victims Services Fund to supplement programs, grants, or purchase of service contracts that support or provide comprehensive services to these victims.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1967, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1967, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Lee).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 3238 (Joint) Agriculture and Environment and Transportation and Culture and the Arts on H.B. No. 2758

The purpose and intent of this measure is to:

- (1) Facilitate the control and eradication of invasive species and pests;
- (2) Establish a Plant Nursery Licensing Program;
- (3) Require the Board of Agriculture to designate certain species as pests for control or eradication;
- (4) Impose certain limits on imports and transportation; and
- (5) Update the method by which the Board of Agriculture updates its noxious weed list.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, Coordinating Group on Alien Pest Species, Kaua'āina Ulu 'Auamo, Hawai'i Farmers Union United, Council for Native Hawaiian Advancement, Ka 'Ohana O Na Pua, Hui Ho'omalua I Ka 'Aina, Hawai'i Land Trust, North Shore Neighborhood Board No. 27, and twenty-nine individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and Hawaii Floriculture and Nursery Association.

Your Committees received comments on this measure from the Department of Agriculture, Department of the Attorney General, Hawai'i Farm Bureau, Hawai'i Forest Industry Association, and Maui Chamber of Commerce.

Your Committees find that the entry and establishment of a new, devastating pest or disease is an ever-present reality, given the increase and expansion of global trade and travel. Your Committees further find that that horticultural trade is one of the primary pathways through which invasive pests are spread around the State. This measure will mitigate the introduction and spread of invasive pests and noxious weeds in the State by supporting a framework of comprehensive detection, control, and eradication mechanisms, including the registration of nurseries.

Your Committees have amended this measure by:

- (1) Deleting language that would have given certain invasive species committees and the Hawaii Ant Lab certain regulatory functions relating to the control and eradication of invasive species and pests;
- (2) Deleting language that would have established a Plant Nursery Licensing Program, including a State Plant Regulatory Official;
- (3) Inserting language establishing a Plant Nursery Registration Program;
- (4) Deleting language that would have included an invasive species committee as an agent of the Department of Agriculture; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2758, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2758, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Rhoads).

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 3239 (Joint) Labor and Technology and Education on H.B. No. 2401

The purpose and intent of this measure is to allow newly graduated high school students to be eligible for workers' compensation coverage during the summer following their high school graduation while participating in Department of Education-sponsored work-based learning programs.

Your Committees received testimony in support of this measure from the Department of Education, Special Education Advisory Council, and two individuals.

Your Committees find that as students transition from high school to their post-secondary plans, the Department of Education offers the new graduates various supports during the summer following their graduation, including college and career advising, training, and internships. Your Committees also find that without workers' compensation coverage, employers may be discouraged from hosting new high school graduates as interns due to liability concerns. Therefore, this measure will promote participation of more employers in Department of Education-sponsored work-based learning programs by providing recent high school graduates with worker's compensation while participating in these programs during the summer after graduation.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2401, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2401, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3240 Higher Education on H.B. No. 1844

The purpose and intent of this measure is to appropriate funds for temporary adjunct faculty positions at the University of Hawaii Maui College.

Your Committee received testimony in support of this measure from the University of Hawai'i System and University of Hawaii Professional Assembly.

Your Committee finds that following the August 2023 Maui wildfires, there is a significant need for construction workers to rebuild Lahaina. To ensure an adequate construction workforce, additional instructors at the University of Hawaii Maui College are needed to assist in the education and training for various construction trades. Therefore, this measure provides additional support to the University of Hawaii Maui College to recruit and retain highly qualified instructors while ensuring continuity of educational opportunities for students.

Your Committee notes that while the faculty adjunct positions are temporary, the length of service for instructors appointed to the positions established in this measure is unclear. Therefore, your Committee respectfully requests that subsequent Committees that may choose to deliberate on this measure further clarify the length of service for the positions established in this measure.

Your Committee has amended this measure by:

- (1) Clarifying the unspecified number of temporary adjunct faculty positions as limited-term employment, rather than full-time employment;
- (2) Inserting language specifying that this measure is a matter of statewide concern; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1844, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1844, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3241 Higher Education on H.B. No. 1949

The purpose and intent of this measure is to:

- (1) Require the University of Hawaii to establish and implement a two-year program to develop web-GIS wildfire susceptibility and vulnerability maps for the State to determine which communities, landscapes, buildings, and infrastructure are most vulnerable to future wildfires; and
- (2) Appropriate funds for the development of the wildfire susceptibility and vulnerability maps.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee received comments on this measure from the Maui Chamber of Commerce.

Your Committee finds that following the August 2023 Maui wildfires, there is a greater need to protect the State's people and natural resources from wildfire hazards. Wildfire vulnerability maps identify potential wildfire hazards to assist in the development of adaptation policies to prevent the disastrous impacts of future wildfires. Further, data from wildfire vulnerability maps will provide emergency management officials and first responders with tools needed to develop mitigation strategies such as forest management, creation of defensible space, and development of greenbelts. Therefore, this measure will provide the State with guidance on future land use policies to reduce the impacts of wildfires statewide.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1949, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1949, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3242 (Joint) Education and Labor and Technology on H.B. No. 2400

The purpose and intent of this measure is to:

- (1) Require a teacher to surrender their teaching license if the teacher resigns or retires during the pendency of any investigation into allegations of sexual assault, sexual harassment, or other physical abuse of a student; and
- (2) Require the surrender of the teacher's license to be reported to the National Association of State Directors of Teacher Education and Certification.

Your Committees received testimony in support of this measure from the Department of Education and Hawai'i Teacher Standards Board.

Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that Hawaii's keiki have a right to learn and grow in safe, protected learning environments. However, some teachers facing serious allegations involving sexual harassment or assault, or other physical abuse of a student, may exploit existing systems and avoid termination or discipline by relocating to another educational institution for employment before completion of any investigation that may otherwise disqualify the teacher from such employment. Therefore, this measure ensures greater accountability for teachers while ensuring proper safeguards for Hawaii's keiki.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2400, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2400, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 5. Noes, none. Excused, none.
Labor and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 3243 Energy, Economic Development, and Tourism on H.B. No. 2369

The purpose and intent of this measure is to increase the maximum interest rate on Community-Based Economic Development loans to ten percent.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that under existing law the interest rate allowable on Community-Based Economic Development (CBED) business loans is between three and six percent, and that the CBED program uses federal funds to leverage or supplement these loans. Your Committee further finds that federal rules require an interest rate floor according to market conditions, which is defined by the Wall Street Journal (WSJ) prime rate minus four percent. Your Committee additionally finds that the WSJ prime rate is currently at 8.5 percent and that the federal floor may approach or overtake the CBED maximum interest rate in the future, which would make it impossible to use federal funds for these loans. This measure increases the CBED maximum rate to ten percent and ensures the CBED loan program has the flexibility to offer low interest loans to comply with federal requirements.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2369, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2369, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

SCRep. 3244 Energy, Economic Development, and Tourism on H.B. No. 2370

The purpose and intent of this measure is to clarify requirements to establish a quorum to do business and validate acts of the Stadium Authority.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Stadium Authority.

Your Committee finds that the Stadium Authority has had difficulties in establishing quorum and, consequently, has been unable to conduct business or take official action due to vacancies. Your Committee further finds that existing law lacks clarity concerning non-voting members and their status in establishing quorum. This measure clarifies quorum requirements for the Stadium Authority to allow the Authority to conduct its important business and take official action.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that a majority of voting members of the Stadium Authority shall elect the Chairperson;
- (2) Clarifying that a majority of the voting members currently serving on the Stadium Authority shall constitute a quorum and the concurrence of a majority of all voting members currently serving on the Stadium Authority shall be necessary to make any action valid;
- (3) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2370, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2370, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3245 Energy, Economic Development, and Tourism on H.B. No. 2563

The purpose and intent of this measure is to:

- (1) Require the Hawaii Tourism Authority to develop and publish, through a contract with a third party, a mobile application that includes all online application processes, including the collection of any applicable reservation fees, to acquire a reservation to conduct recreational and commercial activities in the State that are regulated by or under the jurisdiction of a state or county agency;
- (2) Require the Hawaii Tourism Authority to issue a request for proposals and contract for the development and publishing of the mobile application;
- (3) Establish the Tourism Enterprise Fund; and
- (4) Appropriate funds for the development and publication of the mobile application, including the hiring of mobile application managers.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority and two individuals.

Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Information Technology and Friends of Hanauma Bay.

Your Committee received comments on this measure from the Department of Budget and Finance and City and County of Honolulu Department of Parks and Recreation.

Your Committee finds that unifying travel-related interactions with state and local government in a cohesive digital platform for visitors and residents of the State offers many opportunities to make these interactions more seamless for the consumer, to make destination management more efficient and effective through location-aware deployment of safety and educational messages, and to encourage meaningful itineraries that drive visitors to sites and experiences with the capacity to host them appropriately. By consolidating all of the forms and application processes required to conduct recreational and commercial activities in the State, this measure will streamline the application processes and greatly benefit the State's residents, visitors, and commercial operators.

Your Committee has amended this measure by:

- (1) Clarifying that manager positions to manage the mobile application are to be hired by the Hawaii Tourism Authority and not the Authority's Board of Directors; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that the development of the Hawaii Tourism Authority's mobile application proposed by this measure should be done by local businesses. Your Committee further notes that the functionalities of this mobile application should expand beyond simply reservations for recreational and commercial activities and should serve as a much more comprehensive platform to streamline information to the State's visitors, including upgrading the Department of Agriculture's Plants and Animals Declaration Form to an

electronic format, or disseminating important health information similar to the State's Safe Travels Program during the coronavirus disease 2019 pandemic.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2563, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2563, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kim).

SCRep. 3246 Higher Education on H.B. No. 2500

The purpose and intent of this measure is to:

- (1) Establish the University of Hawaii Conference Center Revolving Fund and authorize the University of Hawaii to establish accounts under the fund to facilitate the administration of the revolving fund for conference center programs among various campuses and operating units of the University of Hawaii System;
- (2) Repeal the Conference Center Revolving Fund for the University of Hawaii at Hilo; and
- (3) Lapse funds to the University of Hawaii Conference Center Revolving Fund.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that, presently, the University of Hawaii administers for Conference Center Revolving Funds for the University of Hawaii community colleges and the University of Hawaii at Hilo. However, existing funds have substantially similar processes, creating duplicative procedures that could benefit from a centralized fiscal process. Therefore, this measure standardizes fiscal management of conference center programs while eliminating duplication of statutes.

Your Committee has amended this measure by:

- (1) Inserting language specifying that this measure is a matter of statewide concern;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2500, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2500, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3247 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs and Agriculture and Environment on H.B. No. 1839

The purpose and intent of this measure is to appropriate funds for long-term monitoring of air quality for certain communities impacted by the August 2023 Maui wildfire and support for research efforts to better understand the environmental concerns linked to urban fires.

Your Committees received testimony in support of this measure from the Department of Health, one member of the Maui County Council, Lāhainā Strong, Democratic Party of Hawai'i, Maui Chamber of Commerce, and seven individuals.

Your Committees find that the devastating impacts from the August 2023 Maui wildfire, including air quality and toxicity, remain largely unknown. Details of the long-term air monitoring for the post-cleanup and disposal stage has not been determined, creating uncertainty regarding the air quality for residents and first responders in the vicinity of Lahaina. Therefore, this measure will allow the Department of Health to expand its air sampling efforts in the communities impacted by the wildfire and better understand the environment concerns to protect the health of the affected individuals.

Your Committees have amended this measure by:

- (1) Clarifying that a portion of the appropriation shall be allocated for an unspecified number of permanent environmental health specialist IV positions, rather than environmental health specialist I positions;
- (2) Clarifying that a portion of the appropriation shall be allocated to expand Olowalu community air sampling efforts, rather than Kula; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting appropriation amounts for fiscal year 2024-2025, as follows, pursuant to testimony your Committees received from the Department of Health:

- (1) \$61,000 to \$78,000 for the establishment of one full-time equivalent (1.0 FTE) permanent environmental health specialist IV position;
- (2) \$40,000 for two sensors to be utilized for Olowalu community air sampling efforts; and
- (3) \$1,300,000 for the expansion of Lahaina community air sampling efforts.

As affirmed by the records of votes of the members of your Committees on Health and Human Services, Public Safety and Intergovernmental and Military Affairs, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1839, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1839, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 3248 (Joint) Health and Human Services and Agriculture and Environment on H.B. No. 2444

The purpose and intent of this measure is to authorize the Department of Health to conduct criminal history record checks of applicants for permits to operate as a hemp processor.

Your Committees received testimony in support of this measure from the Department of Health, Department of Agriculture, Kauai Hemp Company, and one individual.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that Act 263, Session Laws of Hawaii 2023 (Act 263), provided consenting hemp processor applicants with two methods to satisfy the criminal background check requirement: consent to and pass fingerprint and criminal background check conducted by the Department of Health; or submit to the Department a valid license to grow hemp issued by the United States Department of Agriculture (USDA). However, as the Department of Health does not have the authority to conduct criminal history checks on consenting hemp processor applicants, only applicants who have satisfactorily passed a criminal background check to obtain a USDA license to grow hemp can apply to be a permitted hemp processor in the State. Therefore, this measure will effectuate the legislative intent of Act 263, allowing the Department of Health to issue hemp processor permits to those who do not have a USDA license to grow hemp.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2444, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2444, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3249 Health and Human Services on H.B. No. 2535

The purpose and intent of this measure is to:

- (1) Establish a Child Care Classroom Contracts Pilot Program to require the Department of Human Services to contract directly with child care center providers in licensed infant and toddler child care centers and group child care centers that meet certain criteria;
- (2) Require reports to the Legislature; and
- (3) Appropriate funds for a position to support the pilot program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Office of Hawaiian Affairs, Aloha United Way, Hui for Excellence in Education, Hawai'i Children's Action Network Speaks!, Early Childhood Action Strategy, Parents And Children Together, AAUW of Hawaii, Chamber of Commerce Hawaii, Save Medicaid Hawaii, Commit to Keiki, Chamber of Sustainable Commerce, Early Learning Board, and twenty-six individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that demand for high quality early learning programs are outpacing available enrollment in existing programs. Many families face months-long of waitlists, limiting the number of alternative arrangements for families. Additionally, providers have also experienced rising costs for child care programs, creating additional difficulties to increase capacity and meet demand. Therefore, this measure will provide support to Hawaii's youngest keiki and their families in pursuit of early learning and quality child care.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2535, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3250 Health and Human Services on H.B. No. 2713

The purpose and intent of this measure is to appropriate funds to provide additional support and resources to families receiving benefits through the State's adoption assistance and permanency assistance programs.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that the Child Welfare Services Branch (CWS) of the Department of Human Services provides support for families statewide pursuing adoption or legal guardianship, and families that have attained such legal statuses through the State's child welfare system. However, certain children and families may experience trauma that can manifest at different points in life, including years after required support from CWS. Therefore, this measure provides additional support to families to strengthen parent-child relationships, enhance child development, and increase competence in parenting.

Your Committee notes that according to the Department of Human Services, approximately \$600,000, for the purposes of this measure is already included in H.B. No. 1800, Regular Session of 2024, relating to the State Budget, which was passed by the House of Representative is currently scheduled to be head by your Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2713, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3251 Labor and Technology on H.B. No. 2658

The purpose and intent of this measure is to repeal the requirement that the Director of Human Resources Development must submit a report to the Legislature before reclassifying and abolishing vacant positions within state departments and agencies that are under the jurisdiction of the Department.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that existing law requires the Director of Human Resources Development to submit a report to the Legislature before abolishing or reclassifying vacant positions within State departments and agencies that are under the Department's jurisdiction. Your Committee also finds that there are other measures currently moving through the legislative process that require more detailed reports on the same subject matter, making the original reporting requirement redundant. Therefore, this measure will remove this redundancy.

Your Committee has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2658, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2658, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3252 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on H.B. No. 2270

The purpose and intent of this measure is to establish a task force to develop and explore alternate routes into and out of the Waianae Coast, including through Kolekole Pass and opening Waianae Coast Emergency Access Road.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawaii Military Affairs Council, and one individual.

Your Committees find that the residents of the westside of Oahu face significant challenges due to limited access to roads, which is compounded by the current state of disrepair of Kolekole Pass. Your Committees find that Kolekole Pass plays a critical role as an emergency evacuation route and also has the potential to ease traffic congestion in the area. This measure will improve emergency response, enhance public safety, and alleviate traffic by establishing a task force to develop accessible roadways on the Waianae Coast.

Your Committees note that the House Draft 1 of this measure contains an effective date of July 1, 3000.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2270, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Kanuha, Awa).
Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3253 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on H.B. No. 2295

The purpose and intent of this measure is to:

- (1) Authorize stopping, standing, and parking restrictions and prohibitions on property under jurisdiction of the Director of Transportation and the counties, respectively; and
- (2) Specify that the counties may issue traffic infractions for violations of any law prohibiting or restricting the stopping, standing, or parking of vehicles on all highways and county property.

Your Committees received testimony in support of this measure from the Department of Transportation, Office of the Mayor of the County of Maui, one member of the Maui County Council, and Ulupono Initiative.

Your Committees find that the counties are unable to issue traffic infractions for certain violations on highways and county property under existing statute. Your Committees believe that creating additional powers for the counties will allow each county to alleviate dangerous roadway conditions. This measure will increase public safety by authorizing the counties to issue traffic infractions where vehicles are creating a dangerous environment.

Your Committees note that the House Draft 1 of this measure contains an effective date of July 1, 3000.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2295, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Kanuha, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3254 (Joint) Transportation and Culture and the Arts and Agriculture and Environment on H.B. No. 1899

The purpose and intent of this measure is to designate certain snail species as official state snails.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Coordinating Group on Alien Pest Species; Kua'āina Ulu 'Auamo; Natural Conservancy, Hawai'i and Palmyra; and thirty-seven individuals.

Your Committees find that many Hawaiian snail species are so unique that the genealogical family is entirely composed of species found only from Hawaii, but many have either gone extinct or are critically endangered. Your Committees further find that in 2023, the Bishop Museum organized a statewide snail voting campaign to give voice to the community in deciding which snail species to recommend to the Legislature to be designated as the official state snail for each island. Your Committees believe that designating snails as the official state snails will bring awareness to both the importance of these terrestrial snails and the urgent need to save the remaining snails.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1899, and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5; Ayes with Reservations (Inouye). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 3255 (Joint) Transportation and Culture and the Arts and Agriculture and Environment on H.B. No. 2650

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Transportation for the coordinated removal of albizia and other invasive trees; and
- (2) Require matching funds from public utilities.

Your Committees received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Big Island Invasive Species Committee, Hawaiian Electric, Hawai'i Forest Industry Association, and three individuals.

Your Committees received comments on this measure from the Public Utilities Commission.

Your Committees find that albizia and other invasive trees pose a significant threat to natural areas, neighborhoods, and infrastructure because of the large, brittle limbs that are prone to breaking and falling in windy, rainy, or stormy weather conditions. Fallen or broken albizia trees can threaten public safety by blocking evacuation routes; damaging homes; downing utility lines; or impeding access to emergency care facilities, schools, and polling places. Your Committees find it necessary to enhance public safety by supporting vegetation management to reduce threats to utility infrastructure and public roadways.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2650, H.D. 2, and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 3256 (Joint) Higher Education and Government Operations on H.B. No. 2499

The purpose and intent of this measure is to make permanent the authority of the President of the University of Hawaii to act as the University of Hawaii's chief procurement officer.

Your Committees received testimony in support of this measure from the University of Hawai'i System, State Procurement Office, and University of Hawaii Professional Assembly.

Your Committees find that Act 87, Session Laws of Hawaii 2013 (Act 87), removed the President of the University of Hawaii's full authority to act as Chief Procurement Officer for the University of Hawaii for all procurement contracts under the Hawaii Public Procurement Code. Pursuant to Act 87, the State Procurement Office reported to the Legislature regarding the extensive oversight, review, and coordination between the University of Hawaii and the State Procurement Office regarding procurements involving construction and professional services related to construction. The State Procurement Office previously initiated an exhaustive

analysis that examined both large and small procurements, including scope of work and change orders. The State Procurement Office determined that the University of Hawaii was “compliant” in its construction procurements with minimal recommendations for improvement. Your Committees further find that Act 42, Session Laws of Hawaii 2018, reinstated and restored full authority to the President of the University of Hawaii to act as Chief Procurement Officer and included a repeal and reenactment date of June 30, 2021. Act 8, Special Session Laws of Hawaii 2021, extended this provision to June 30, 2024.

Your Committees find that it is a matter of statewide concern that the President of the University of Hawaii serves simultaneously as the Chief Procurement Officer for the University of Hawaii System. According to the testimony of the University of Hawaii System, in its current organizational structure, the President serves as the Chief Procurement Officer, which aligns with other state agencies that designate the director of that agency as the Chief Procurement Officer. However, your Committees probed further into the intricacies of how procurement decisions are made at the University.

Your Committees found that since the issuance of a report by the State Procurement Office in 2016 analyzing the University of Hawaii’s procurement practices, the Office has not issued additional findings relating to the University of Hawaii’s procurement procedures. According to the testimony of the State Procurement Office at a public hearing on this measure, the Office was unaware of additional egregious procurements that the University of Hawaii initiated, with the exception of procurement for the Clarence T.C. Ching Field, of which the State Procurement Office determined that a procurement violation occurred. The University of Hawaii testified that it did not violate the Hawaii Public Procurement Code based on its interpretation of a clause inserted into contracts with contractors hired to work on various projects, including Clarence T.C. Ching Field. Your Committees expressed concerns that out of twelve change orders on the Clarence T.C. Ching Field procurement, only one change order was within the scope of the original procurement. As the Hawaii Public Procurement Code does not provide for change orders outside the scope of work that are justified for convenience or lack of time, your Committees find that the University of Hawaii should acknowledge its violations of the Hawaii Public Procurement Code to prevent additional disregard for existing provisions relating to procurement.

Your Committees also note a separate, yet similar out-of-scope procurement regarding the PBS Building, which originally sought to move equipment. However, the University of Hawaii noted the derelict condition of the building and subsequently submitted a change order to demolish the building. Despite the change order being out of scope with the original procurement intent, the University of Hawaii did not modify the order until the Legislature raised concerns. While the University of Hawaii testified that it attempts to adhere to the Hawaii Public Procurement Code for the hundreds of procurements and construction projects it undertakes each year, your Committees remain concerned that improvements are needed, rather than retaining practices that reinforce the status quo.

Your Committees also expressed concerns that, while the Hawaii Public Procurement Code establishes criminal penalties for wilful violations of the Procurement Code, there has been minimal enforcement on the University of Hawaii. The State Procurement Office is required to take violations of the Hawaii Public Procurement Code to court to determine if a criminal offence occurred. Additionally, the State Procurement Office noted in its testimony that it does receive correspondence from legal teams from a variety of agencies and jurisdictions. Presently, the University of Hawaii consults with University General Counsel to determine any foreseen issues that may arise with specific procurements. Your Committees note that, to ensure efficiency and accountability, utilization of advice from the State Procurement Office through legal counsel may provide clarity on future decisions made on construction projects or purchases that require procurement.

Your Committees further find that the University of Hawaii did not provide specific reasons to retain the President of the University of Hawaii as the Chief Procurement Officer. During its oversight under the State Procurement Office, the University of Hawaii noted that the bifurcated procurement system added an additional layer of administrative review. Further, there are many responsibilities associated with the role of Chief Procurement Officer beyond approvals for procurement. Other universities across the country do not have university presidents who concurrently serve as chief procurement officers. Additionally, as the role of Chief Procurement Officer requires significant attention to detail to ensure compliance with existing regulations, an individual who can dedicate time to understand the scope of the project while ensuring accountability over corrective actions and acknowledgement of violations is needed for effective procurement operations at the University of Hawaii. Although the University of Hawaii testified that it wishes to retain authority over its own procurement process, greater oversight into the University of Hawaii’s procedures is necessary to ensure accountability, operational efficiency, and adherence to existing procurement law.

Therefore, you Committees recommend that incorporating procurement under the Chief Financial Officer of the University of Hawaii provides a layer of accountability in the oversight of personnel involved in procurement and the ability to ensure that matters are thoroughly vetted before final approval of procurement projects. To address concerns raised over the role of the Chief Procurement Officer at the University of Hawaii, clarifying amendments are needed to this measure to designate the Chief Financial Officer of the University of Hawaii as the Chief Procurement Officer for the University.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to replace the President of the University of Hawaii with the Chief Financial Officer as the Chief Procurement Officer of the University of Hawaii to serve for the University;
- (2) Extending the sunset date for the designation of the University of Hawaii’s Chief Procurement Officer to June 30, 2027;
- (3) Inserting language specifying that this measure is a matter of statewide concern;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2499, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2499, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Higher Education: Ayes, 5. Noes, none. Excused, none.
 Government Operations: Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 3257 Transportation and Culture and the Arts on H.B. No. 1934

The purpose and intent of this measure is to require the Director of Transportation to convene an Intoxicated Driving Reduction Working Group, under leadership of Hawaii's Strategic Highway Safety Plan, to make recommendations for amendments to existing laws to reduce incidents of intoxicated driving.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Law Enforcement, Oahu Metropolitan Planning Organization, and Mothers Against Drunk Driving Hawaii.

Your Committee finds that the Department of Transportation is in the process of updating its Strategic Highway Safety Plan (SHSP), which includes an impaired driving emphasis area. Since the inception of the SHSP in 2007, Hawaii's traffic fatalities have dropped to an average of one hundred four each year and thirty-seven alcohol-related fatalities each year. This measure will lead to safer roadways by convening an Intoxicated Driving Reduction Working Group, under the leadership of SHSP.

Your Committee notes that the Department of Law Enforcement has expressed interest in participating in the Intoxicated Driving Reduction Working Group.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1934, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3258 Transportation and Culture and the Arts on H.B. No. 1940

The purpose and intent of this measure is to appropriate funds out of the Works of Art Special Fund to the State Foundation on Culture and the Arts for the integration of works of art projects into several major capital improvement projects.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that while the growing cost of state construction has resulted in increased revenue to the Works of Art Special Fund, the State Foundation on Culture and the Arts is unable to address the rising demands of contributing state departments for culture and arts programs and services because the budget ceiling remains static. This measure will allow the State Foundation on Culture and the Arts to expand its works of arts projects by increasing the appropriation ceiling of the Works of Art Special Fund.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1940, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3259 Transportation and Culture and the Arts on H.B. No. 2702

The purpose and intent of this measure is to appropriate funds for equipment and positions within the Department of Transportation to conduct improvements to Hana Highway.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that the Hana Highway serves as both the primary route for the residents of East Maui to reach essential services, employment, college, healthcare, and businesses in Central Maui, but is also a popular tourist attraction. Your Committee further finds that because maintaining this stretch of road can be challenging, the Hana Highway is in severe need of repair and maintenance. This measure will increase the safety and efficiency of the Hana Highway by appropriating funds for necessary equipment and personnel to address existing infrastructure issues.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2702, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3260 Transportation and Culture and the Arts on H.B. No. 1939

The purpose and intent of this measure is to appropriate funds to the State Foundation on Culture and the Arts to provide greater access to the arts for children and communities in need, with a focus on those affected by the August 2023 Maui wildfires.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and State Foundation on Culture and the Arts.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that according to the Federal Emergency Management Agency, the arts can be effective in disaster recovery by providing an opportunity channeling post-traumatic stress and anxiety into creative and productive community outcomes. Your Committee further finds that state arts agencies can play an important role as information providers, funding sources, and networking tools to connect communities and resources. This measure will increase access to the arts for children and communities, particularly those affected by the August 2023 Maui wildfires, by developing a Statewide Arts Program within the State Foundation on Culture and the Arts, in conjunction with other partnering organizations.

Your Committee has amended this measure by:

- (1) Adding language that authorizes the State Foundation on Culture and the Arts to accept gifted property for the purpose of providing community venues for education, economic development, revenue generation, and for other purposes supporting the Foundation's mission;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1939, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1939, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3261 Transportation and Culture and the Arts on H.B. No. 2175

The purpose and intent of this measure is to:

- (1) Appropriate funds for the development of a community-based, long-range transportation plan for the Kaaawa, Punaluu, and Hauula communities; and
- (2) Require the involvement of community members and organizations in the development plan process.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, Oahu Metropolitan Planning Organization, and four individuals.

Your Committee finds that climate change is causing coastal erosion and escalating challenges to rural communities along the State's coasts. Your Committee further finds that the specific vulnerabilities faced by the communities of Kaaawa, Punaluu, and Hauula, including the urgency of addressing coastal erosion and road conditions, require long-term plans to mitigate the effects of climate change. This measure will preserve the integrity of vital transportation infrastructure by appropriating funds to develop a Kaaawa-Hauula Community-Based, Long-Range Transportation Plan.

Your Committee has amended this measure by:

- (1) Changing the date for the Department of Transportation to submit the Kaaawa-Hauula Community-Based, Long-Range Transportation Plan to the Legislature from June 30, 2026, to December 31, 2026; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2175, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2175, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3262 Transportation and Culture and the Arts on H.B. No. 2715

The purpose and intent of this measure is to authorize the issuance of special number plates to commemorate Mālama Pu'uloa.

Your Committee received testimony in support of this measure from Hui O Ho'ohonua.

Your Committee finds that that Keawalau o Puuloa, also known as Puuloa or Pearl Harbor, is a place of cultural significance that exemplifies the power of positive, community-led change. Your Committee further finds that while Puuloa was an abundant water resource for many ecosystems, the introduction of chemicals, toxic materials, and heavy metals have led to significant contamination of the area. However, in response to the environmental neglect, the nonprofit organization Mālama Pu'uloa has mobilized and engaged an entire community in cleanup and education efforts. This measure will recognize the positive impact of Mālama Pu'uloa in the State by designating a special number plate to be issued throughout the State.

Your Committee has amended this measure by:

- (1) Adding language to limit the special number plate design to four and a half inches in height by four and a half inches in width;
- (2) Adding language to require the special number plate design to comply with all requirements regulating number plates in section 249-9(a); and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2715, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2715, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 3263 Agriculture and Environment on H.B. No. 2083

The purpose and intent of this measure is to authorize the Department of Education (Department) to establish:

- (1) A recognition program to incentivize schools to submit to the Department a plan for the school to reach the local farm to school meal goal of thirty percent of food served in the school to consist of locally sourced products by 2030; and
- (2) A plant-based meal pilot program at Mililani High School no later than the 2025-2026 school year.

Your Committee received testimony in support of this measure from the Department of Agriculture, Office of Hawaiian Affairs, County of Kaua'i Council Services Division, Hawai'i Public Health Institute, Hawai'i Farmers Union United, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, Hawaii Food+ Policy, Hawaii Chapter of 350.org, Homestead Agriculture Youth Council Molokai, Hawai'i Youth Food Council, Hawai'i Alliance for Progressive Action, Down to Earth, Center for Getting Things Started, and fifty-eight individuals.

Your Committee received comments on this measure from the Department of Education and one individual.

Your Committee finds that establishing a recognition program that incentivizes schools to plan for and meet the farm to school meals target goal as established by Act 175, Session Laws of Hawaii 2021, will ensure that the thirty percent of food served in public schools will consist of locally sourced products by 2030. Your Committee further finds that offering locally-sourced, plant-based meals in public schools not only encourages students to engage in healthy nutrition, but also cultivates a culture of environmental awareness. This measure supports an increased consumption of fresh fruits and vegetables by Hawaii's students, and therefore, the production of these fresh local agricultural products and local value-added processed, agricultural, or food products by local farmers and food businesses.

Accordingly, your Committee has amended this measure by:

- (1) Requiring, rather than authorizing, the Department of Education to establish a recognition program to incentivize schools to submit to the Department a plan for the school to reach the Local Farm to School Meal goal by 2030;
- (2) Inserting language to allow the Department to receive private funding for the recognition program;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2083, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2083, H.D. 3, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3264 (Majority) Government Operations on H.B. No. 1946

The purpose and intent of this measure is to:

- (1) Establish a three-year pilot program within the Office of the Governor for an Office of Process Improvement to conduct process and efficiency evaluations of various state offices and agencies and make recommendations for process improvement, beginning with the hiring practices of the Department of Human Services;
- (2) Require the Office of the Governor to submit a report to the Legislature no later than twenty days before the Regular Session of 2027; and
- (3) Appropriate an unspecified amount of funds to the Office of the Governor for the establishment and operation of the Office of Process Improvement Pilot Program, including the hiring of an unspecified number of full-time equivalent positions.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that there is a significant number of public positions that are vacant within the State. Your Committee believes that evaluating existing processes, including hiring practices, of state offices and agencies is the first step to improving the efficiency of these offices and agencies to better serve the public. According to testimony received by your Committee, allowing departments to pilot innovative hiring practices while adhering to merit principles can help create a learning organization culture and may augment a centralized process improvement effort. This measure will allow the Legislature to make an informed decision on implementing policies to improve the efficiency of existing processes to better serve the public.

Accordingly, your Committee has amended this measure by:

- (1) Placing the three-year pilot program within the Department of Health, instead of the Office of the Governor;

- (2) Narrowing the scope of the pilot program to focus on hiring process improvement that innovates with efficiencies intended to streamline and shorten the hiring process and to make recommendations; and
- (3) Adding provisions that require the hiring process improvement pilot program to:
 - (A) Recruit, both internally and externally, for classifications within the Department, including external recruitment postings;
 - (B) Conduct interviews and rank-order the applicants; and
 - (C) Send the selected candidates to the Department of Health's Human Resources Office for further review;
- (4) Requiring the Department of Health, rather than the Office of the Governor, to submit a report to the Legislature before the Regular Session of 2027;
- (5) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1946, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1946, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3265 Government Operations on H.B. No. 2070

The purpose and intent of this measure is to require cash or protest bonds paid or filed by parties initiating an administrative appeal for protests of solicitations or award of contracts under the Hawaii Public Procurement Code to be returned to the initiating parties, minus administrative costs as determined by the Office of Administrative Hearings of the Department of Commerce and Consumer Affairs, except in cases where the initiating party does not prevail in the administrative hearing or the appeal was frivolous or made in bad faith.

Your Committee received testimony in support of this measure from Subcontractors Association of Hawaii; Hawaii Operating Engineers Industry Stabilization Fund Political Action Committee; Jas W. Glover, Ltd.; Moss; Nordic PCL Construction, Inc.; General Contractors Association of Hawaii; King & Neel Pacific, Inc.; S & M Sakamoto, Inc.; Ralph S. Inouye Co. Ltd.; and Alan Shintani, Inc.

Your Committee finds that Hawaii is the only state that does not return a cash or protest bond that is required to be paid or filed by a party initiating an administrative appeal for procurement actions when the party prevails on its protest. This measure allows recovery of those costs by the prevailing parties while deterring frivolous and bad faith appeals and covering the administrative costs of the Office of Administrative Hearings of the Department of Commerce and Consumer Affairs.

Your Committee has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2070, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2070, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3266 Government Operations on H.B. No. 2480

The purpose and intent of this measure is to:

- (1) Require the Office of the Lieutenant Governor to set a fee for the issuance of an apostille or a non—apostille certification; and
- (2) Establish and appropriate funds into and out of the Apostilles and Certifications Special Fund.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor.

Your Committee finds that apostilles are critical to authenticate and certify documents, such as birth and marriage certificates, divorce decrees, powers of attorney, and un-probated wills, for use in foreign countries. Your Committee notes that the Office of the Lieutenant Governor processes nearly eleven thousand apostilles annually and it is currently unable to accept credit card or web-based payment to authenticate documents. The office also shoulders the cost of mailing back documents to the applicants if there are errors, or if applicants are living abroad and are unable to purchase U.S. postage for a self-addressed stamped envelope for the office to use. This measure will promote efficiency by providing a funding mechanism for the Office of the Lieutenant Governor to fund operational and administrative expenses of the apostille and certification of document services, including modernization of the process, postage, and supplies.

Your Committee has amended this measure by inserting an effective date of July 1, 2491, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2480, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2480, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3267 Government Operations on H.B. No. 2496

The purpose and intent of this measure is to:

- (1) Authorize an alternative procurement method when the federal government provides for or approves the method and the head of the purchasing agency makes a written determination that it is neither practicable nor advantageous to use the existing statutory procurement methods; and
- (2) Amend the methods of source selection under section 103D-301, Hawaii Revised Statutes (HRS), to allow for alternative procurement methods.

Your Committee received comments on this measure from the Department of Transportation and State Procurement Office.

Your Committee finds that the Hawaii Public Procurement Code was created to promote competition, prevent favoritism and corruption, and increase transparency in government, among other things. Under existing law, all public contracts must be awarded in accordance with certain methods of source selection established under section 103D-301, HRS. However, your Committee recognizes that there are situations that may arise that make it impracticable or disadvantageous for the purchasing agency to utilize any of the established methods of procurement for construction. This measure will allow the use of alternative procurement methods to eliminate or reduce added costs from change orders or limit the amount of change orders during the administration of contracts for unique, complex, or schedule-critical construction projects, resulting in substantial cost savings and other benefits to the State.

Your Committee notes the concerns raised in testimony that, although section 103D-102(b)(4), HRS, provides for situations when it is not practicable or not advantageous for purchasing agencies to utilize one of the six methods of procurement under section 103D-301, HRS, the statute only provides for the procurement of goods and services.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that exempts government contracts to procure certain construction projects from the Hawaii Public Procurement Code;
- (2) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2496, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2496, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3268 Government Operations on H.B. No. 2238

The purpose and intent of this measure is to:

- (1) Reclassify certain non-general funds of the Department of Accounting and General Services, pursuant to the recommendations made by the Auditor in Auditor's Report No. 23-17; and
- (2) Transfer to the general fund the excess balances of various non-general funds from various state departments and agencies.

Your Committee received comments on this measure from the Department of Accounting and General Services and Tax Foundation of Hawaii.

Your Committee finds that the Office of the Auditor's Review of Special Funds, Revolving Funds, Trust Funds, and Trust Accounts of the Department of Accounting and General Services, Report No. 23-17 (Dec. 2023), recommended that that certain non-general funds and accounts of the Department of Accounting and General Services be abolished or reclassified because the fund or account no longer meets the definition of a revolving fund, trust account, or trust fund. This measure will abolish or reclassify these funds to achieve greater fiscal accountability in the Department of Accounting and General Services.

Your Committee notes that the excess balances of various non-general funds from various state departments and agencies have been transferred to the general fund in another measure that has already been received by the Governor.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have transferred to the general fund the excess balances of various non-general funds from various state departments and agencies;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2238, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2238, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3269 Government Operations on H.B. No. 2482

The purpose and intent of this measure is to repeal the statutory requirement for:

- (1) Boards to file a copy of the notice of any regular, special, emergency, rescheduled meeting, or any executive meeting when anticipated in advance, with the Office of the Lieutenant Governor or appropriate county clerk's office; and
- (2) The Office of the Lieutenant Governor or appropriate county clerk's office to timely post paper or electronic copies in a central location in a public building.

Your Committee received testimony in support of this measure from one individual.

Your Committee received testimony in opposition to this measure from the Big Island Press Club, Public First Law Center, All Hawaii News, and Albatross News.

Your Committee received comments on this measure from the Office of the Lieutenant Governor and Office of Information Practices.

Your Committee finds that section 92-7, Hawaii Revised Statutes, ensures that residents and interested parties have a variety of methods to view board and commission notices and agendas. Recognizing that Hawaii is a State comprised of islands with numerous geographical barriers and the increased security measures at the State Capitol and other government facilities, this measure increases efficiency and decreases paper usage, while ensuring public access to notices and agendas.

Your Committee acknowledges the concerns raised in testimony that some of the provisions of this measure may violate the Americans with Disabilities Act. Accordingly, this measure needs to be amended to address this issue.

Your Committee has amended this measure by:

- (1) Restoring language in existing statute that:
 - (A) Requires boards to file a copy of their notice of meeting with the Office of the Lieutenant Governor or the appropriate county clerk's office and retain a copy of proof of filing the notice; and
 - (B) Allows a copy of the notice of meeting to be provided to the Office of the Lieutenant Governor or the appropriate county clerk's office via electronic mail to an electronic mail address designated by the Office of the Lieutenant Governor or the appropriate county clerk's office, as applicable;
- (2) Inserting language that requires the Office of the Lieutenant Governor or the appropriate clerk's office to ensure access to paper or electronic copies of all meeting notices; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2482, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2482, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3270 Government Operations on H.B. No. 1598

The purpose and intent of this measure is to:

- (1) Require boards to make available for public inspection board packets, if created, at the time the board packet is distributed to the board members but no later than two business days, rather than forty-eight hours, before the board meeting; and
- (2) Carve out an exception to this requirement by allowing public testimony to be distributed to board members within two business days before the meeting.

Your Committee received testimony in support of this measure from the Society of Professional Journalists Hawaii Chapter and Public First Law Center.

Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that existing law requires a board packet, or materials compiled and distributed to board members before their use at a public meeting, to be distributed at least forty-eight hours prior to the meeting and be made available to the public at that same time. However, your Committee recognizes that since written public testimony is among the materials in a board packet, boards have resorted to using work-arounds when testimony is received within forty-eight hours before the public meeting to avoid violating this requirement. The clarifications in this measure will not only allow boards to distribute to their members written public testimony received within two business days before a public meeting without violating the Sunshine Law, but also assist government agencies and the public by allowing them time to review any distributed board packets for a meeting held a day or two after a weekend or holiday.

Your Committee has amended this measure by:

- (1) Inserting language that requires boards to:

- (A) Include in the notice to persons requesting notification of meetings, a list of the documents that were compiled by the board and distributed to board members before a meeting for use at that meeting; and
- (B) Post board packets on its website;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2491, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1598, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1598, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3271 Government Operations on H.B. No. 1599

The purpose and intent of this measure is to:

- (1) Require public meeting notices to inform members of the public on how to provide remote oral testimony in a manner that allows the testifier, upon request, to be visible to board members and other meeting participants; and
- (2) Recognize a board's authority to remove or block individuals who willfully disrupt or compromise the conduct of a remote meeting.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund, ACLU of Hawai'i, and Public First Law Center.

Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that some boards refuse to allow individuals to testify by videoconference without giving up certain rights, such as disclosing their identity or registering to appear in advance. Existing law concerning remote meetings permits these practices, provided that the meeting has a telephone conference option. According to testimony received by your Committee, this process establishes a tiered system that denies remote testifiers the opportunity to be seen by the board while testifying. Your Committee additionally finds that although boards have the legal ability to remove someone who willfully disrupts a meeting by interactive conference technology, existing law does not explicitly affirm that legal authority. This measure will support the interest of boards to better control their remote meetings and promote confidence in remote testifiers that the board is receiving the full benefit of their testimony and they are not being ignored in favor of in-person testifiers.

Your Committee acknowledges the concerns raised by the Office of Information Practices that this measure may result in unintended consequences, since requiring boards to allow testifiers to be seen as well as heard upon the testifier's request decreases the ability of boards to prevent willful disruptions by interactive conference technology such as zoombombing. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests further examination of this issue by your Committee on Judiciary.

Your Committee has amended this measure by inserting an effective date of July 1, 2491, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1599, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1599, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3272 Government Operations on H.B. No. 1600

The purpose and intent of this measure is to require board meetings to deliberate and decision-make on an investigative group's report to occur at least six days after the board meeting in which the group has presented the findings and recommendations of its investigation to the board.

Your Committee received testimony in support of this measure from the Office of Information Practices, League of Women Voters, Public Law First Center, and one individual.

Your Committee finds that existing law permits a limited number of board members, or a permitted interaction group, to investigate certain issues without complying with the open meetings requirement of the Sunshine Law, and report back to the board before a public discussion occurs; provided that three separate public meetings occur: first, to identify the members of the investigatory permitted interaction group and scope of the group's authority; second, for the group to report its findings to the board; and third, for the board to discuss and act on the group's report. Your Committee further finds that on multiple occasions over the years, boards have tried to circumvent the legislative intent of this exception to the open meeting law, which is to provide the public and the board with sufficient time to digest the investigatory group's report before any substantive discussion, by scheduling the second and third meetings back-to-back. This measure promotes public access and informed decision-making, while preserving a board's ability to conduct board business through investigatory permitted interaction groups.

Your Committee notes that specifying that the third meeting must occur at least six business days rather than six calendar days after the second meeting would provide for uniformity and ensure full public disclosure before any action resulting from an investigation by a permitted interaction group can be taken.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that board meetings to deliberate and decision-make on an investigatory group's report must occur at least six business days, rather than six calendar days, after the group has presented the findings and recommendations of its investigation to the board;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2491, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1600, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1600, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3273 Government Operations on H.B. No. 2339

The purpose and intent of this measure is to:

- (1) Delete the term "enhanced" in reference to 911 services to allow funding of all 911 technologies; and
- (2) Allow the 911 Board to employ staff, in addition to the Executive Director, exempt from the civil service and collective bargaining laws.

Your Committee received testimony in support of this measure from State of Hawaii Enhanced 9-1-1 Board, Department of Accounting and General Services, Hawaii Office of Enterprise Technology Services, Public Utilities Commission, Honolulu Police Department City and County of Honolulu Department of Information and Technology, National Association of State 911 Administrators, and two individuals.

Your Committee finds that the term "enhanced" in existing law in reference to 911 services refers to a particular technology developed more than twenty years ago that allowed the display of the caller's telephone identification and location. Your Committee recognizes that since then, technology has evolved with improvements in services and changes in terminology, rendering the term "enhanced" outdated. However, existing statutory language identifies 911 services specifically as enhanced 911 services, thereby restricting funding solely for the outdated enhanced 911 services. By deleting the term "enhanced" from chapter 138, Hawaii Revised Statutes, regarding enhanced 911 services, this measure will allow the 911 Board to expend moneys to upgrade the State's system with the latest 911 technologies. This measure also allows for the conversion of existing staff positions of the 911 Board to permanent exempt positions, which is essential to ensure that long-term efforts to improve 911 services in the State are not hampered by turnover in leadership and support roles.

Your Committee notes that this measure does not include an appropriation section. However, to ensure the successful implementation of new 911 technologies for the safety and well-being of all residents and visitors of the State, your Committee respectfully requests your Committee on Ways and Means to raise the expenditure ceiling for the 911 fund to enable the 911 Board to accommodate the rising costs to sustain and maintain the State's current 911 system.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2339, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2339, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3274 Government Operations on H.B. No. 2524

The purpose and intent of this measure is to require:

- (1) The Real Estate Commission (Commission) to receive and investigate complaints by condominium unit owners against associations that are subject to condominium laws; and
- (2) The Ombudsman to issue findings within an unspecified number of days after a complaint is filed with the Ombudsman against the Commission regarding the Commission's duties.

Your Committee received testimony in support of this measure from eight individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Real Estate Commission; Honolulu Tower Association of Apartment Owners; Law Offices of Mark K. McKellar, LLLC; and fifteen individuals.

Your Committee received comments on this measure from the Office of the Ombudsman and four individuals.

Your Committee finds that there needs to be stronger oversight on homeowner associations in the State. According to testimony received by your Committee, a neutral third-party is necessary to oversee and enforce complaints by condominium unit owners against their homeowner association. This measure will ensure that the complaints by condominium unit owners against associations are properly investigated and resolved in a timely manner.

Your Committee has amended this measure by:

- (1) Attaching a condominium ombudsman to the Real Estate Commission to receive and investigate complaints by condominium unit owners against associations that are subject to condominium laws;
- (2) Specifying that findings be issued within thirty days after a complaint is filed against the Commission regarding the Commission's duties;
- (3) Inserting language that prevents a simple majority from immediately removing a director elected by cumulative voting;
- (4) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2524, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2524, H.D. 1, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.

SCRep. 3275 Government Operations on H.B. No. 1597

The purpose and intent of this measure is to better align the enforcement mechanisms for the State's open meetings law with the State's Uniform Information Practice Act specifically to:

- (1) Provide that any person may sue a board or alleged board after receiving an adverse decision by the Office of Information Practices (Office) relating to violations of the State's open meetings law, and that the decision will be reviewed de novo;
- (2) Establish a two-year statute of limitations to bring the lawsuit and reaffirm the person's right to seek review by the Office first;
- (3) Recognize that only a member of the public may recover attorney's fees and costs if that person prevails on such action, consistent with the Hawaii Supreme Court's observations in *Kahana Sunset Owners Ass'n v. Maui Cnty. Council*, 86 Hawaii 132 (1997);
- (4) Require that a person bringing the lawsuit notify the Office about the action so that it may decide whether to intervene; and
- (5) Require lawsuits that seek to void a board's final action to be prioritized by the courts.

Your Committee received testimony in support of this measure from the Office of Information Practices, Public First Law Center, Society of Professional Journalists Hawaii Chapter, and one individual.

Your Committee finds that existing law does not provide a specific right of action to challenge decisions of the Office of Information Practices relating to the State's open meetings law. This measure will not only promote compliance with the State's open meetings law, but also prevent the courts from giving deference to erroneous decisions and opinions by the Office of Information Practices.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1597, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1597, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3276 Government Operations on H.B. No. 2069

The purpose and intent of this measure is to allow the Department of Accounting and General Services to employ persons within the comptroller's office who are exempt from State laws that govern civil service and collective bargaining, that support communications, change management, and business process improvement programs as part of the State's information technology modernization efforts.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the Department of Accounting and General Services needs the capacity to expedite the hiring of highly skilled personnel for certain unique and specialized positions in order to proceed with the State's information technology modernization efforts. According to testimony received by your Committee, the types of positions required to support the execution of specialized projects to modernize the State's information technology system do not exist in the current civil service system. This measure will allow the Department to effectively respond to the new and growing needs of the agencies they support and the public it serves, while also increasing its long-term capabilities to effectively carry out its many critical state functions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2069, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2069, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3277 (Joint) Government Operations and Water and Land on H.B. No. 2090

The purpose and intent of this measure is to:

- (1) Beginning on January 1, 2026, permit residential uses in areas zoned for commercial use, with certain exceptions; and
- (2) Require, no later than January 1, 2026, each county to adopt or amend its ordinances to allow for adaptive reuse of commercial buildings for residential purposes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Housing Finance and Development Corporation, one member of the Kaua'i County Council, Hawai'i Association of REALTORS, NAIOP Hawaii, Building Industry Association of Hawaii, Housing Hawai'i's Future, Hawaii Applesed Center for Law and Economic Justice, Grassroot Institute of Hawaii, Hawai'i Island Chamber of Commerce, BOMA Hawai'i, Hawaii Zoning Atlas, and nine individuals.

Your Committees received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committees received comments on this measure from the American Institute of Architects Hawaii State Council.

Your Committees find that the State is experiencing a chronic housing shortage. Your Committees further find that the adaptive reuse of commercial buildings that are underutilized due to market conditions or functional obsolescence for residential purposes is more-cost effective than the construction of new housing on undeveloped land. This measure seeks to efficiently increase the State's housing inventory to better meet local need by requiring the counties to relax regulatory land use restrictions in areas zoned for commercial use, including allowing for the adaptive reuse of existing commercial buildings.

According to testimony received by your Committees, because the provisions of this measure do not allow for adaptive reuse until after January 1, 2026, existing projects in areas zoned for commercial use that are currently going through the permitting and development process would not be able to practice adaptive reuse to increase the State's housing inventory. Accordingly, this measure needs to be amended to address this matter.

Your Committees have amended this measure by:

- (1) Accelerating the date for the counties to permit residential uses in areas zoned for commercial use, with certain exceptions, and to allow for residential use of commercial buildings for residential purposes, from January 1, 2026, to January 1, 2025;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2491, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2090, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2090, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 5. Noes, none. Excused, none.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3278 (Joint) Energy, Economic Development, and Tourism and Water and Land on H.B. No. 2020

The purpose and intent of this measure is to expand the definition of "renewable energy producer" that is used to determine the Board of Land and Natural Resources' disposition of public lands to renewable energy producers.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Public Utilities Commission, Hawaii State Energy Office, Hawai'i Forest Industry Association, Hawai'i Gas, Kaua'i Island Utility Cooperative, and three individuals.

Your Committees received testimony in opposition to this measure from 350Hawaii.org and one individual.

Your Committees received comments on this measure from Hawaiian Electric.

Your Committees find that greenhouse gas emissions are not just the result of electricity generation. The transportation and aviation sectors, which also utilize fossil fuels, greatly contribute to greenhouse gas emissions in the State. Your Committees further find that with the advancement of various technologies, there are now more renewable fuel options available to help facilitate the replacement of fossil fuels and mitigate carbon emissions, including those produced by transportation and aviation. This measure broadens the definition of "renewable energy producer" to allow more public lands to be leased for the generation of more types of renewable energy to help the State reach its sustainability goals.

Your Committees have amended this measure by:

- (1) Clarifying that nothing in the definition of "renewable energy producer" shall be construed to allow wheeling over public utility lines or infrastructure that is not authorized by law or rule or order of the Public Utilities Commission;

- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2020, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2020, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

Water and Land: Ayes, 5; Ayes with Reservations (McKelvey). Noes, none. Excused, none.

SCRep. 3279 (Joint) Hawaiian Affairs and Water and Land on H.B. No. 2029

The purpose and intent of this measure is to allow the Department of Hawaiian Home Lands to assume review of the effect of any proposed project on historic properties or burial sites for lands under its jurisdiction.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Department of Land and Natural Resources, and one individual.

Your Committees received testimony in opposition to this measure from Historic Hawai'i Foundation.

Your Committees find that before developing any land under its jurisdiction on which historic properties or burial sites are located, the Department of Hawaiian Home Lands is required to consult with the Department of Land and Natural Resources. While the review process is an important safeguard that ensures the preservation of historic properties and cultural resources, it also delays projects that would provide housing for native Hawaiian beneficiaries of the Department of Hawaiian Home Lands. This measure allows the Department of Hawaiian Home Lands to assume the review process of proposed projects on its lands, expediting the development of these projects.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2029, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2029, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

Water and Land: Ayes, 3; Ayes with Reservations (Elefante). Noes, none. Excused, 2 (Chang, McKelvey).

SCRep. 3280 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on H.B. No. 2174

The purpose and intent of this measure is to:

- (1) Repeal the existing conditions under which government entities may seek reimbursement for search or rescue expenses and instead require a government entity of the State to impose and collect a fee for search or rescue expenses for persons who require rescue after leaving a hiking trail to enter an area closed to the public or hiking on a trail closed to the public, with a sign giving notice of the closure; and
- (2) Require a report or documentation of the search and rescue to be submitted to the Department of the Attorney General.

Your Committees received testimony in support of this measure from the Department of Law Enforcement and four individuals.

Your Committees find that search and rescue operations for hikers who go on illegal or prohibited hikes cost the State and counties thousands of dollars per incident. Your Committees further find that as more people are participating in outdoor activities in recent years, the number of emergency rescue calls has also increased. Your Committees recognize that search and rescue operations are dangerous for first responders and taxing on state resources. This measure will allow the State and counties to seek reimbursement for these rescues from hikers who knowingly proceed on illegal hikes.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2042, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2174, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2174, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 3281 Health and Human Services on H.B. No. 2042

The purpose and intent of this measure is to provide funding to the Child and Adolescent Mental Health Division of the Department of Health to contract for the provision of youth mental health and wellness services to address the mental health and wellness needs of youth in the State.

Your Committee received testimony in support of this measure from the Office of Youth Services, Office of Hawaiian Affairs, YMCA of Honolulu, Mental Health America of Hawai'i, Hawai'i Youth Services Network, Hawaii Substance Abuse Coalition, Democratic Party of Hawai'i, Opportunity Youth Action Hawai'i, and six individuals.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that in the wake of the coronavirus disease 2019 pandemic and the August 2023 Maui wildfires, the State's youth face mental health challenges in more significant numbers than in years past, with depression, substance abuse, and suicidal ideation being top issues. Your Committee additionally finds that providing community-based and culturally relevant programs that address the wellness and mental health for the State's youth, especially for ones who are high-risk, including Native Hawaiians, Pacific Islanders, LGBTQ+, and those who are houseless, can promote resilience to better withstand stresses later in life. This measure will ensure that the State's youth are provided with the necessary tools to take care of their mental health and well-being in the face of adversity and develop into healthy members of their communities.

Your Committee notes the concerns raised in the testimony of the Department of Health that the contracts for services pursuant to this measure should be awarded through a competitive process, as required by the State's procurement laws. Your Committee finds that this issue raises concerns that merit further consideration, and therefore, should your Committee on Ways and Means choose to deliberate on this measure, respectfully requests further examination on this matter.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2042, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3282 (Joint/Majority) Government Operations and Energy, Economic Development, and Tourism on H.B. No. 1829

The purpose and intent of this measure is to:

- (1) Require, beginning July 1, 2024, the design of all new state building construction where parking is included to provide that at least twenty-five percent of parking stalls be electric vehicle charger-ready;
- (2) Require the Hawaii State Energy Office, in consultation with the Department of Accounting and General Services and Department of Transportation, to survey and prioritize retrofitting certain state facilities that include parking to include electric vehicle charging infrastructure;
- (3) Establish a goal of the State to retrofit state facilities to be electric vehicle charger-ready; and
- (4) Appropriate an unspecified amount of funds to the Department of Accounting and General Services to conduct detailed cost assessments to determine the cost to install, or contract for the installation of, retrofits and electric vehicle charging systems at certain state facilities.

Your Committees received testimony in support of this measure from the Hawai'i State Energy Office, Department of Accounting and General Services, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawaiian Electric, Ulupono Initiative, Blue Planet, Alliance for Automotive Innovation, Oahu Metropolitan Planning Organization, Hawaii Chapter of 350.org, Climate Protectors Hawai'i, Hawaii Electric Vehicle Association, Kauai Climate ACTION Coalition, and ten individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that there is a continuous need for a network of charging infrastructure to support the growing number of electric vehicles in the State. Your Committees further find that the State should lead by example by expanding workplace charging availability in state facilities. This measure supports increasing electric vehicle use, which reduces carbon emissions from ground transportation and helps to achieve the State's goals of reducing carbon emissions to fifty percent by 2030 and establishing a net-negative carbon economy by 2045.

Your Committees have amended this measure by:

- (1) Removing the Department of Transportation from the list of agencies that the Hawaii State Energy Office is required to consult with to survey and prioritize retrofitting certain state facilities that include parking to include electric vehicle charging infrastructure;
- (2) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1829, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1829, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, 1 (Awa). Excused, none.
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Kim).

SCRep. 3283 Judiciary on H.B. No. 1911

The purpose and intent of this measure is to appropriate moneys for the Judiciary through the fiscal year ending June 30, 2025.

Your Committee received testimony in support of this measure from the Judiciary, Hawaii State Bar Association, and one individual.

Your Committee finds that the Court Operations Specialist position has been vacant for more than a year and few individuals have applied for the position due to its temporary nature. Your Committee believes that converting the position from temporary to permanent will assist with employee recruitment and retention.

Your Committee further finds that responses to a request for proposals to provide the Judiciary's new accounting system have included prices significantly higher than \$600,000, which was the amount originally anticipated. Accordingly, due to statewide budgetary challenges and uncertainty, your Committee feels that lapsing \$600,000, instead of the \$425,000 amount specified to be lapsed in the measure, is appropriate.

Your Committee also finds that the appropriation of \$7,000,000 of general obligation bond funds for lump sum capital improvement projects for Judiciary facilities will not adequately support the Judiciary's needs for maintenance and upkeep of its facilities. Accordingly, your Committee believes that this appropriation should be made from general funds.

Your Committee has amended this measure by:

- (1) Adding one permanent position in JUD101 - Courts of Appeal for the conversion of a temporary Court Operations Specialist to a permanent Court Operations Specialist;
- (2) Increasing by \$205,000 the general fund appropriation for JUD350 - Fifth Judicial Circuit to restore funding for a District Family Court Judge position, which is currently funded by moneys budgeted for salaries for positions that remain vacant;
- (3) Increasing by \$137,000 the general fund appropriation for JUD601 - Administration to establish reoccurring funding for the 'Ōlelo Hawai'i Program;
- (4) Deleting the forced lapse of \$425,000 in lump sum general funds for capital improvement projects and replacing that forced lapse amount with the \$600,000 presently appropriated for the projected cost of a new accounting system that the Judiciary is expected to defer;
- (5) Changing the method of financing for lump sum capital improvement projects for statewide Judiciary facilities from general obligation bond funds to general funds; and
- (6) Changing the effective date to July 1, 2024.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1911, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1911, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3284 Judiciary on H.B. No. 2802

The purpose and intent of this measure is to propose a constitutional amendment to repeal the Legislature's authority to limit marriage to opposite-sex couples.

Your Committee received testimony in support of this measure from one member of Hawai'i's congressional delegation; one member of California's congressional delegation; Office of the Governor; Hawai'i Civil Rights Commission; Office of the Mayor of the City and County of Honolulu; one member of the Honolulu City Council; Hawai'i Health and Harm Reduction Center; Stonewall Caucus of the Democratic Party of Hawai'i; Hawaii State Teachers Association; Democratic Party of Hawai'i; ACLU of Hawai'i; Papa Ola Lokahi; Change 23 Coalition; Hawai'i State Commission on Fatherhood; American Association of University Women of Hawaii; Hawaii State AFL-CIO; Chamber of Sustainable Commerce; Indivisible Hawaii; Rainbow Family 808; Episcopal Diocese of Hawai'i; Scarlet Honolulu; Spill the Tea Cafe; Hawaiian Ethos; IATSE Local 655; Kumukahi Health + Wellness; Japanese American Citizens League; Hawaii Ports Maritime Council; Aloha Green Apothecary; Interfaith Alliance Hawai'i; Love Sandwich, LLC; Qwaves; Planned Parenthood Alliance Advocates; and one hundred sixty-six individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that in 1993, the Hawaii Supreme Court ruled it was sex discrimination under the Hawaii State Constitution's bill of rights to deny same-sex couples marriage licenses unless the State could demonstrate a compelling state interest to justify its discrimination against the couples. Following a two week trial under Judge Kevin Chang with testimony from national and local experts in psychiatry, psychology, sociology, and pediatrics, the State failed to prove a compelling state interest to justify the discrimination in denying marriage licenses to same-sex couples. However, severe public backlash to the ruling led to article 1, section 23, of the Hawaii State Constitution being proposed by the Legislature in 1997, despite comprehensive findings and the overwhelming evidence at trial demonstrating that marriage would benefit the families of same-sex couples and have no adverse impact on the families of opposite-sex couples. The proposed constitutional amendment appeared on the ballot in 1998 as Constitutional Amendment 2 and was approved by the State's voters by a vote of 69.2 percent to 28.6 percent.

Since then, public opinion has changed from opposition to support of same-sex marriage, with same-sex marriage currently existing in all fifty states and over thirty countries. In 2013, the Legislature enacted a law allowing same-sex couples to marry in the State, with Hawai'i being the fifteenth state at the time to do so. At the federal level, the United States Supreme Court recognized same-sex couples' right to marry in *Obergefell v. Hodges*, 576 U.S. 644 (2015), and most recently Congress enacted the Respect for Marriage Act in 2022, requiring federal, state, and local governments to recognize and respect same-sex marriage.

Your Committee further finds that article 1, section 23, of the Hawaii State Constitution is the only provision in the Hawaii State Constitution's bill of rights designed and adopted to target and discriminate against a minority of the State's population, in this case members of the LGBTQ community. Additionally, it is directly contrary to the ruling of the United States Supreme Court in

Obergefell. Your Committee believes that it is imperative to remove a discriminatory provision from the State's bill of rights. This measure will allow the people of Hawai'i to undo a wrong done nearly thirty years ago and ensure that marriage equality is protected in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2802, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Awa).

SCRep. 3285 Higher Education on H.B. No. 1826

The purpose and intent of this measure is to appropriate funds for temporary positions to support the statewide expansion of the University of Hawaii Windward Community College's mental health-related programs.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Health, State Council on Mental Health, University of Hawaii Professional Assembly, Mental Health America of Hawai'i, Hawai'i Psychological Association, and one individual.

Your Committee finds that the State is experiencing a severe shortage of mental health service providers, which has been exacerbated by compassion fatigue, burnout, and inadequate preparation for the provision of mental health services. To address the ongoing shortage, the University of Hawaii Windward Community College, in collaboration with the Hawaii State Hospital, has developed an entry-level mental health technician certificate of competence program, where students can take additional coursework to earn a certificate of achievement that can be applied to a bachelor's degree pathway. Windward Community College is also actively planning a fall cohort for police officers in the Honolulu Police Department and has plans for an additional program for adult corrections officers focusing on trauma informed care. Accordingly, this measure seeks to address the State's shortage of mental health service providers while offering Hawai'i's people with high quality postsecondary educational opportunities.

Your Committee notes that this measure contains an unspecified appropriation amount for the establishment of a scholarship program to support the mental health technician certificate. However, no testimony explaining the details of the scholarship program was altered at the public hearing on this measure. Accordingly, your Committee was unable to determine the need and cost for the program. Therefore, further deliberation and consideration is needed regarding the fiscal implications of the program as this measure continues through the legislative process.

Further, your Committee notes the testimony of the University of Hawaii System regarding employment rates for graduates of the mental health technician certificate program. Out of forty-seven graduates, nineteen students were employed at the Hawaii State Hospital. However, the testimony provided was unclear regarding the current employment status for the other twenty-eight graduates of the program. As the employment status for these graduates is unclear, your Committee questions the current need to expand the mental health technician program at this time. Therefore, your Committee requests further information from the University of Hawaii for your subsequent committees to consider regarding the employment status of the other twenty-eight graduates should they choose to deliberate on this measure.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1826, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1826, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3286 Commerce and Consumer Protection on H.B. No. 2481

The purpose and intent of this measure is to repeal chapter 503B, Hawaii Revised Statutes, governing Time Share Commissioners of Deeds.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor.

Your Committee finds that Act 277, Session Laws of Hawaii 2013, created the Time Share Commissioners of Deeds (codified as chapter 503B, Hawaii Revised Statutes), to increase efficiency and convenience for foreign buyers that purchase Hawaii time share properties and to boost the State's tourism industry. The Time Share Commissioners of Deeds were to be appointed by the Lieutenant Governor to administer oaths and take acknowledgements and proofs of deeds and other instruments used in connection with the recordation of time share interests in Hawaii. However, your Committee finds that Act 54, Session Laws of Hawaii 2020, updated certain laws relating to notaries public and added a new section for notarial acts performed for remotely located individuals, such as foreign buyers of Hawaii time share properties, and has therefore made the Time Share Commissioners of Deeds unnecessary. Accordingly, this measure repeals the state law governing Time Share Commissioners of Deeds, to eliminate the statutory redundancy.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2481, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2481, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3287 Commerce and Consumer Protection on H.B. No. 2388

The purpose and intent of this measure is to align Hawaii with the Model Money Transmitters Modernization Act and to:

- (1) Provide clarity and consistency of the tangible net worth provision for money transmitter licensees using nationwide standards;
- (2) Assess the initial license fee of \$5,000 for money transmitter applicants upon approval of the license application; and
- (3) Add as a permissible investment the receivables due to the licensee from its payment processors for debit or credit card transactions authorized by the licensee's customers for many transmission services obtained from the licensee.

Your Committee received testimony in support of this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs.

Your Committee finds that Act 108, Session Laws of Hawaii 2021, amended Hawaii's money transmitters law (codified in chapter 489D, Hawaii Revised Statutes) to, among other things, adopt and incorporate certain definitions of key terms provided in the Conference of State Bank Supervisors' Model Money Transmitters Modernization Act (MTMA) to ensure that Hawaii can effectively license, regulate, and supervise nationally and globally operating money transmission companies without unnecessarily impacting money transmission businesses that operate regionally or in a single state. This measure makes further technical amendments to continue the alignment of Hawaii's money transmitter law with the provisions of the MTMA, thereby enabling Hawaii to more easily and efficiently work within the collaborative and uniform set of nationwide standards for money transmission supervision.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2388, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2388, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3288 Commerce and Consumer Protection on H.B. No. 2653

The purpose and intent of this measure is to:

- (1) Conform Hawaii estate tax laws to the operative provisions of the Internal Revenue Code to decrease the burden on taxpayers and increase efficiencies in the Department of Taxation's monitoring and auditing of estate tax returns; and
- (2) Establish an estate tax deduction for the value of closely held business interests that will help ensure that locally-owned family businesses can continue to contribute to the Hawaii economy and assist families to retain the ownership interest in their family businesses.

Your Committee received testimony in support of this measure from ABC Stores; Foodland Supermarket, Ltd.; Zippy's Restaurants; KTA Super Stores; Watumull Brothers, Ltd.; Servco Pacific Inc.; Business Strategies; Finance Enterprises, Ltd.; Stanford Carr Development, LLC; Grassroot Institute of Hawaii; Altres, Inc.; Island Insurance Companies; Title Guaranty of Hawai'i; L&L Hawaiian Barbeque; City Mill; Avalon Group; House of Finance; Big Island Subaru; Big Island Toyota; Tori Richard; HPM Building Supply; Business Consulting Resources; ProService; Y. Hata; Honolulu Disposal Service; Liliha Bakery; Yummy Restaurant Group; Finance Factors; Loyalty Enterprises; Hawaii National Bank; MacNaughton; Tony Group; MW Group; Hawaii Self Storage; Plaza Assisted Living; Continental Assets Management; Kualoa Ranch; JN Group; Chaney Brooks; Aloha Beer; Foodland; Watumull Properties Corp.; C.S. Wo; Homeworld; and two individuals.

Your Committee received testimony in opposition to this measure from the Democratic Party of Hawai'i, League of Women Voters of Hawaii, Hawaii Appleseed Center for Law and Economic Justice, Americans for Democratic Action, Hawai'i Alliance for Progressive Action, Hawai'i Children's Action Network Speaks!, and sixteen individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Hawaii estate tax exclusion amount, which is currently much lower than the federal amount, has been a burden to many local family businesses that tend to have large portions of their estate values held in non-liquid assets. Members of a family-owned business will often appear to have highly valuable individual estates on paper solely because of their ownership interests in the business, which, as an entity, holds assets such as goods, equipment, or commercial properties. However, these assets are often necessary for the business to operate as a going concern and cannot easily be sold without adverse consequences to the family-owned business. Your Committee finds that local small businesses are fundamental to the health of the local economy and that it is necessary for the State to take measures to ensure that an untimely death of a business owner does not lead to the closing of another treasured local establishment. Therefore, this measure aligns the state and federal exclusion amounts for estate taxes and establishes an estate tax deduction for certain closely held family businesses.

Your Committee has amended this measure by:

- (1) Clarifying that for a decedent's estate to be allowed an estate tax deduction for the value of any qualified family-owned business interest that the decedent held at the time of death, the interest in the closely held business must have been owned by the decedent, not the decedent's qualified heir;
- (2) Clarifying that if a decedent or qualified heir of the business interest, rather than just the decedent, had a material participation in the trade or business for at least five of the eight years preceding the date of death, then that interest in a closely held

business may be deemed a “qualified family-owned business interest” eligible for the estate tax deduction, subject to the remaining definitional requirements;

- (3) Inserting a definition of “qualified heir” to have the same meaning as defined in section 2032A(e)(1) of the Internal Revenue Code of 1986, as amended;
- (4) Extending the implementation of the measure by one year, from decedents dying or taxable transfers occurring after December 31, 2023, to decedents dying or taxable transfers occurring after December 31, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2653, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2653, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey). Noes, none. Excused, 1 (Awa).

SCRep. 3289 Commerce and Consumer Protection on H.B. No. 1565

The purpose and intent of this measure is to exclude a homeowner-developer from the annual requirement to file a developer’s report and pay a fee if the homeowner’s development consists of not more than two units, one in which the developer resides and one for which the initial sale of the other unit has been completed.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, Hawaii First Realty LLC, Palehua Townhouse Association, and one individual.

Your Committee finds that the existing law governing condominiums characterizes a homeowner-developer who subdivides their property into two units under a condominium property regime for the purpose of living in one unit and renting out the other, as a developer of a condominium project. Further, a homeowner-developer in this situation is required to file an annual report and pay an annual fee until all units in the two-unit development have been sold, essentially subjecting them to a fee in perpetuity, as the homeowner-developer typically does not intend to sell the unit they are living in. Your Committee finds that, in these specific situations, the existing annual filing and fee requirements unduly burden homeowner-developers, and therefore this measure provides these specific homeowner-developers with much needed relief.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1565, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1565, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3290 Commerce and Consumer Protection on H.B. No. 1814

The purpose and intent of this measure is to:

- (1) Require and appropriate funds for the Legislative Reference Bureau to conduct a study on how certain other states approach certain subjects as they relate to condominiums; and
- (2) Extend the final report deadline and dissolution date of the Condominium Property Regime Task Force established pursuant to Act 189, Session Laws of Hawaii 2023, to June 30, 2026.

Your Committee received testimony in support of this measure from the Community Associations Institute, AARP Hawai‘i, Hawaii First Realty LLC, Palehua Townhouse, Honolulu Tower AOA, and eight individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Legislative Reference Bureau, Kokua Council, and one individual.

Your Committee finds that Act 189, Session Laws of Hawaii 2023, established a Condominium Property Regime Task Force to examine and evaluate certain issues regarding condominium property regimes and to conduct an assessment of the existing alternative dispute resolution systems that were established by the Legislature. On December 15, 2023, the Condominium Property Regime Task Force submitted its interim report to the Legislature, which requested the Legislature to task the Legislative Reference Bureau with studying and reporting on several specific subjects relating to condominium property regimes that would enable the Task Force to thereafter recommend legislation suitable to Hawaii’s needs on an informed and objective basis. Therefore, this measure requires the Legislative Reference Bureau to complete the requested study and provides additional time for the Task Force to complete its work based on the Legislative Reference Bureau’s future findings and recommendations.

Your Committee has amended this measure by:

- (1) Inserting language to require the Legislative Reference Bureau to also include in its study and report an analysis of approaches employed by certain other states regarding limitations on the total and final legal fees in excess of the original debt amount sought that an association can access, demand, or seek reimbursement for from a unit owner; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1814, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1814, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3291 (Joint/Majority) Agriculture and Environment and Commerce and Consumer Protection on H.B. No. 1527

The purpose and intent of this measure is to:

- (1) Amend the exemption for the unlicensed practice of veterinary medicine by animal owners and their employees to prohibit any persons who are not licensed to practice veterinary medicine from performing any surgical procedure on pet animals; and
- (2) Increase the penalties for violations of veterinary medicine licensing requirements.

Your Committees received testimony in support of this measure from the Animal Welfare Institute, Hawaiian Humane Society, Hawaii Veterinary Medical Association, Animal Rights Hawai'i, Bird and Bee Animal Sanctuary, Animal Interfaith Alliance in Britain, and eleven individuals.

Your Committees received comments on this measure from the Department of Agriculture; Hawaii Board of Veterinary Medicine; and Hawaii Cattlemen's Council, Inc.

Your Committees find that there is a need for more explicit laws to protect pet animals from significant harm caused by veterinary procedures performed by unlicensed individuals. Your Committees recognize that existing statute contains a loophole that allows animal owners and employees of animal owners who are unlicensed to perform surgical procedures on these animals. This measure specifically protects pet animals and deters unlicensed individuals from performing veterinary procedures on animals.

Your Committees further recognize that surgical procedures require proper training, knowledge of anatomy, and the ability to prescribe proper pain management therapeutics, which the typical pet owner or their employees would have not received or been able to receive. Your Committees acknowledge the testimony from the Hawaii Veterinary Medical Association stating that this measure would not allow non-veterinarians to perform currently acceptable livestock animal husbandry practices in the State.

Your Committees have amended this measure by:

- (1) Deleting language that exempts "cropping and docking as customarily practiced" as an offense of cruelty to animals in the first degree;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1527, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1527, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3; Ayes with Reservations (DeCoite, Richards). Noes, 1 (Awa). Excused, 1 (Rhoads).
Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (McKelvey, Richards). Noes, 1 (Awa). Excused, none.

SCRep. 3292 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism and Government Operations on H.B. No. 1838

The purpose and intent of this measure is to allow counties to enact a zoning ordinance to amortize or phase out nonconforming single-family transient vacation rental units over a reasonable period of time.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Department of Planning and Permitting of the City and County of Honolulu, two members of the Kaua'i County Council, Hawai'i State Association of Counties, UNITE HERE Local 5, International Longshore and Warehouse Union Local 142, Hawai'i Hotel Alliance, Lāhainā Strong, Sierra Club of Hawai'i, Kohala Coast Resort Association, Housing Hawai'i's Future, Green Party of Hawai'i, Keep it Kailua, Mauka Makai Activities LLC, Hawaii's Thousand Friends, Save Honolua Coalition, Tagnawa for Maui, Kaibigan ng Lāhaina, AF3IRM Hawai'i, and more than six hundred forty individuals.

Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS; Kama'āina Occupied Short-Term Rentals O'ahu; Honolulu Board of REALTORS; O'ahu Short Term Rentals Alliance; Realtors Association of Maui, Inc.; Hawai'i Mid and Short-Term Rental Alliance; Maui Vacation Rental Association; Hawaii First Realty LLC; Rental by Owner Awareness Association; Hawaii Legal Short Term Rental Alliance; Maui Chamber of Commerce; and more than two hundred individuals.

Your Committees received comments on this measure from the Grassroots Institute of Hawaii, Maui Hotel and Lodging Association, Avantstay, airbnb, and three individuals.

Your Committees find that short-term transient vacation rentals located in residential neighborhoods can dramatically alter the character and fabric of the area by attracting disruptive visitors and inflating local rental prices. While certain counties have sought to address this issue by enacting ordinances pursuant to their home rule authority relating to zoning, your Committees find that short-term transient vacation rentals in residential-zoned neighborhoods have been permitted to continue operating solely by virtue of their interpreted status as a legal, nonconforming use that has been grandfathered in by statute. Your Committees find that it is necessary to

address this legal loophole by allowing the counties to amortize or phase out nonconforming single-family transient vacation rental units over a reasonable period of time, regardless of zoning classification. Therefore, this measure supports the home rule authority provided to the counties and ensures they are able to guide the overall future development of their local jurisdictions in a manner they deem fit, using the tools available to put their general plans into effect in an orderly manner.

Your Committees note that certain counties have already taken action and enacted ordinances to address transient vacation rental units in non-resort areas. Your Committees believe that the counties should continue to exercise their home rule authority to address this issue.

Notwithstanding, your Committees further note that S.B. No. 2919, S.D. 2, Regular Session of 2024 (S.B. No. 2919, S.D. 2), is a substantially similar measure that also amends the zoning authority granted to counties to allow them to regulate short-term transient vacation rentals. Your Committees find that the language in S.B. No. 2919, S.D. 2, which was previously passed by the Senate, is preferable because it provides the counties with more robust authority to regulate by zoning ordinance the time, place, manner, and duration in which uses of land and structures may take place, in addition to allowing counties to amortize or phase out transient accommodations uses in residential or agricultural zoned areas. The language in S.B. No. 2919, S.D. 2, is also preferable because it more directly addresses the prior court ruling that barred the City and County of Honolulu from prohibiting by ordinance certain short-term transient vacation rentals, and expands the scope of the transient accommodations tax law to include certain shelters and vehicles with sleeping accommodations.

Accordingly, your Committees have amended this measure by deleting its contents and inserting the contents of S.B. No. 2919, S.D. 2, and inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection, Energy, Economic Development, and Tourism, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1838, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1838, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, 1 (Wakai).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 3293 (Joint/Majority) Agriculture and Environment and Health and Human Services and Government Operations on H.B. No. 2743

The purpose and intent of this measure is to:

- (1) Require each county to develop and maintain a wastewater management plan;
- (2) Authorize the Director of Health to exempt a county from creating a wastewater management plan if the county has an existing wastewater management plan that substantially meets certain requirements;
- (3) Require the counties to:
 - (A) Identify specific priority areas in which the county sewer system or other centralized treatment system will be expanded or constructed to reduce or eliminate cesspools before January 1, 2050; and
 - (B) Provide for the designation of these areas as sewer improvement districts;
- (4) Authorize each county to:
 - (A) Assess a monthly cesspool pollution fee beginning on July 1, 2025, on real properties containing a cesspool;
 - (B) Create a county cesspool closure and mitigation special fund; and
 - (C) Use cesspool pollution fee revenues for certain activities that eliminate, reduce, or mitigate the impacts of cesspools, including the expansion of county sewer systems and the issuance of grants and low-interest loans to property owners; and
- (5) Appropriate an unspecified amount of funds:
 - (A) For the Department of Health to carry out its duties pursuant to this Act, including establishing an unspecified number of full-time equivalent permanent positions; and
 - (B) To the counties to develop and maintain a wastewater management plan.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; two members of the Hawai'i County Council; County of Hawai'i Department of Environmental Management; Hawai'i State Association of Counties; Wastewater Alternatives and Innovations LLC; Hawai'i Association of REALTORS; Indivisible Hawaii; Maui Chamber of Commerce; Surfrider Foundation, Hawaii Region; Hawai'i Reef and Ocean Coalition; Public Access to SunScreens Coalition; Fair Wind Cruises; and eighteen individuals.

Your Committees received testimony in opposition to this measure from the County of Maui Department of Environmental Management and four individuals.

Your Committees received comments on this measure from the Department of Health, Tax Foundation of Hawaii, and one individual.

Your Committees find that to reduce water pollution, unless exempted by the Department of Health, all cesspools in the State are required to be updated or converted to another method of waste disposal or connected to a sewerage system by January 1, 2050. Your Committees further find that it is difficult for property owners to comply with this legislative mandate, due to issues such as high costs and the inability to identify which priority cesspools are located in areas where wastewater facilities will be expanded. This measure would not only inform cesspool owners on whether they should invest in cesspool conversions or wait to connect with an existing or proposed county wastewater system, but also provide the counties with a new source of revenue to construct, expand, and maintain their wastewater systems, including the ability to provide financial assistance to low- and moderate-income landowners, to support the updates, conversions, and connections of cesspools in the State.

Your Committees note that the Department of the Attorney General and interested stakeholders have had an opportunity to discuss potential amendments to this measure, to address the various concerns and additional recommendations submitted through testimony. Amendments to this measure are therefore necessary to incorporate this consensus language.

Your Committees have amended this measure by:

- (1) Deleting language that would have:
 - (A) Required each county to develop and maintain a wastewater management plan;
 - (B) Authorized the Director of Health to exempt a county from creating a wastewater management plan if the county has an existing wastewater management plan that substantially meets certain requirements;
 - (C) Required the counties to identify specific priority areas in which the county sewer system or other centralized treatment system will be expanded or constructed to reduce or eliminate cesspools before January 1, 2050;
 - (D) Required each county to set an amount of the cesspool pollution fee assessed on each applicable real property parcel to be no less than fifty percent and no more than one hundred percent of the amount of the monthly sewage fee that would be applicable to the property if the property were connected to the county's sewer system;
 - (E) Appropriated an unspecified amount of funds:
 - (i) For the Department of Health to carry out its duties pursuant to this Act, including establishing an unspecified number of full-time equivalent permanent positions; and
 - (ii) To the counties to develop and maintain a wastewater management plan; and
 - (F) Defined "alternative plan", "county advisory board", and "wastewater treatment";
- (3) Authorizing, rather than requiring, the counties to designate specific priority areas as sewer improvement districts;
- (4) Amending language to authorize each county to, beginning on July 1, 2025, assess a cesspool pollution fee, monthly or otherwise, on real properties containing a cesspool;
- (5) Amending the reporting requirements for each county that assesses a cesspool pollution fee;
- (6) Adding language that:
 - (A) Requires the University of Hawaii Sea Grant College Program and the University of Hawaii Water Resources Research Center to develop an overlay with the Hawaii Cesspool Prioritization Tool to identify specific priority areas in which the county sewer system or other centralized treatment system could most feasibly be expanded or constructed to reduce or eliminate cesspools before January 1, 2050;
 - (B) Authorizes the counties to use other revenues, including real property tax revenues, for certain activities that eliminate, reduce, or mitigate the impacts of cesspools;
 - (C) Allows moneys in any county cesspool closure and mitigation special fund to be used to repay obligations incurred in receiving monies to fund the operation of the cesspool closure and mitigation special fund program;
 - (D) Appropriates an unspecified amount of funds for the University of Hawaii Sea Grant College Program and the University of Hawaii Water Resources Research Center to identify specific priority areas in which the county sewer system or other centralized treatment system could most feasibly be expanded or constructed to reduce or eliminate cesspools before January 1, 2050; and
 - (E) Defines "individual wastewater system" and "wastewater system";
- (7) Amending the definitions of "community-scale package wastewater treatment system" and "sewer system";
- (8) Codifying various definitions in the Hawaii Administrative Rules;
- (9) Amending all references to "community-scale package wastewater treatment system" to "community-scale package wastewater system";
- (10) Amending section 1 to reflect its amended purpose; and
- (11) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment, Health and Human Services, and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2743, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2743, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Rhoads).

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

Government Operations: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3294 Health and Human Services on H.B. No. 2556

The purpose and intent of this measure is to:

- (1) Clarify the sources of funding for the Hawaii ABLE Saving Program Trust Fund;
- (2) Authorize the Director of Finance to expend all moneys in the trust fund to fulfill the purposes of the Hawaii ABLE Savings Program, including providing incentive payments to Hawaii public school ABLE account owners; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Executive Office on Aging, State Council on Developmental Disabilities, Disability and Communication Access Board, Special Education Advisory Council, Hawaii Disability Rights Center, and six individuals.

Your Committee finds that Act 206, Session Laws of Hawaii 2015, established the Hawaii ABLE Savings Program, which is modeled after certain college savings plans where interest grows tax free and allows individuals with disabilities the same types of flexible savings accounts as those individuals without disabilities, such as college, health, and individual retirement accounts. Presently, there are approximately twenty-three thousand individuals with disabilities statewide who are eligible to open an ABLE Savings Program account. As savings accounts can prepare individuals and their families for future educational, professional, and life goals, ensuring dedicated resources through statewide outreach, advocacy, and relationship management are needed. Therefore, this measure increases the staffing resources to promote the ABLE Savings Program to ensure vulnerable populations can pursue all available resources to achieve a better life experience.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure contains unspecified appropriation amounts for the Hawaii ABLE Savings Program and an unspecified number of full-time equivalent positions to support this program. Your Committee respectfully requests the various departments determine appropriation amounts for subsequent committees to consider as this measure moves through the legislative process.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2556, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2556, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3295 Health and Human Services on H.B. No. 2393

The purpose and intent of this measure is to:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to cover mandated services for mammography at least as favorably as coverage for other radiological examinations; and
- (2) Provide amendments to external review procedures to improve consistency with the National Association of Insurance Commissioners Uniform Health Carrier External Review Model Act.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Disability and Communication Access Board, and one individual.

Your Committee finds that cancer is the second leading cause of death in the State, with an average of 7,393 diagnoses of invasive cancer and 2,393 deaths annually. Many cancers have a greater chance of being successfully treated if detected early and promptly treated. Presently, breast cancer remains the most frequently diagnosed cancer among women. Mammograms are a key tool for the detection of breast cancer and are critical to the health of patients. Therefore, this measure ensures coverage for mandated services for mammography to expand coverage for all eligible individuals.

Your Committee has amended this measure by making it effective on July 1, 2025.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2393, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2393, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3296 Commerce and Consumer Protection on H.B. No. 2313

The purpose and intent of this measure is to repeal the cutoff date of Act 196, Session Laws of Hawaii 2018, that allowed the Real Estate Commission to use any unexpended funds in the Condominium Education Trust Fund initially dedicated to support voluntary binding arbitration for other educational purposes.

Your Committee received testimony in support of this measure from one individual.

Your Committee received testimony in opposition to this measure from Hawaii First Realty LLC.

Your Committee finds that Act 196, Session Laws of Hawaii 2018 (Act 196), temporarily expanded the scope of the Condominium Education Trust Fund to cover voluntary binding arbitration between interested persons and amended the conditions that mandate mediation and exceptions to mandatory mediation. Separately, Act 196 also authorized any unexpended additional amounts paid into the Condominium Education Trust Fund and initially dedicated to supporting voluntary binding arbitration to be used for other educational purposes until June 30, 2023.

Your Committee further finds that while the success of the alternative dispute resolution remedies of Act 196 led the Legislature to make them permanent through the enactment of Act 57, Session Laws of Hawaii 2020, the authority granted by Act 196 to use unexpended funds initially dedicated to support voluntary binding arbitration for other educational purposes was not made permanent and sunset on June 30, 2023. Your Committee believes that the State must continue to support educational programs for the benefit of condominium associations and owners. This measure will reestablish the Condominium Education Trust Fund's ability to use excess funds initially designated for voluntary binding arbitration for certain educational purposes.

Your Committee notes that the Department of Commerce and Consumer Affairs has not submitted testimony on this measure and respectfully requests that it do so as this measure continues to move through the legislative process.

Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2313, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2313, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3297 Commerce and Consumer Protection on H.B. No. 2315

The purpose and intent of this measure is to clarify the laws regarding condominium association voting and meetings on the use of electronic voting devices; electronic meetings; and electronic, machine, or mail voting.

Your Committee received testimony in support of this measure from Hawaii First Realty LLC, Hawai'i State Association of Parliamentarians, and one individual.

Your Committee received testimony in opposition to this measure from the Honolulu Tower AOA and one individual.

Your Committee received comments on this measure from fourteen individuals.

Your Committee finds that in recent years, digital virtual meeting technology--which enables users to communicate in real time, collaborate on projects, and attend virtual meetings from anywhere worldwide--has accelerated rapidly, making them more reliable and accessible. Your Committee further finds that the use of digital technology in condominium association governance can help expand participation, streamline processes, and help condominium associations save on management costs. Therefore, this measure continues the State's efforts to help prudently expand the use of digital technology in condominium association governance by clarifying certain laws relating to electronic meetings and voting.

Your Committee notes the concerns raised by the Hawaii State Parliamentarians, testifying that while electronic voting devices were seen in 2019 as an efficient, accurate, and auditable method for counting votes at condominiums, voting technology has since evolved. The Hawaii State Parliamentarians testified that electronic voting devices have been replaced by smart phone technology, which provides a higher level of auditing, security, and control, and requested that certain technical updates be made to the existing law regarding the use of electronic voting devices. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Repealing the language governing the use of an electronic voting device at an association meeting in section 514B-121, Hawaii Revised Statutes, which has become obsolete due to evolving technology;
- (2) Deleting references to "machine" voting and inserting language clarifying that the board of the unit owners association may authorize electronic meetings, electronic voting, and mail voting subject to certain conditions;
- (3) Inserting language authorizing the board to hold electronic meetings, electronic voting, and mail voting when approved by adoption of a special meeting rule at an association meeting that permits the board to authorize such meetings;
- (4) Inserting language clarifying that all association meetings, except those where all persons attend by electronic means, shall be held at the address of the condominium or elsewhere within the State as determined by the board; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2315, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2315, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3298 Government Operations on H.B. No. 2089

The purpose and intent of this measure is to:

- (1) Require the State Building Code Council to adopt, amend, or update the International Building Code and International Residential Code within two years of every other official publication of the applicable code, rather than every publication; and
- (2) Specify that if a county does not adopt the Hawaii State Building Codes within two years, then the Hawaii State Building Codes become the applicable interim county building codes until superseded by the adoption of an amended version of the Hawaii State Building Codes.

Your Committee received testimony in support of this measure from Holomua Collaborative, NAIOP Hawaii, Grassroot Institute of Hawaii, National Association of Home Builders, aio, Hawaii Gas, Hawaiian Host Group, Hawai'i Community Foundation, Mana Up, Title Guaranty Hawaii, HPM Building Supply, and three individuals.

Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii; Sierra Club of Hawai'i; International Code Council; American Institute of Architects, Hawaii State Council; E Ola Kakou Hawai'i; Hawaii Chapter of 350.org; Sheet Metal Contractors Association Hawaii; Sheet Metal & Air Condition National Association, Hawaii Chapter; Kupuna for the Mo'opuna; and twenty individuals.

Your Committee received comments on this measure from the Hawai'i State Energy Office, Blue Planet, Building Industry Association of Hawaii, and Hawai'i Energy.

Your Committee finds that under the existing law, the Hawaii State Building Code Council (Council) must adopt, amend, or update certain widely recognized nationally published codes or standards identified under section 107-25, Hawaii Revised Statutes, within two years of any official publication date of a code or standard. Your Committee recognizes that the State continues to experience a housing shortage and that the State's strategic adoption of updated building codes and standards as provided in this measure will facilitate the construction of housing in the State while providing sufficient time for the Council, along with industry stakeholders, to adequately review the new codes or standards, assess potential changes and financial impacts to homeowners and builders, and adapt certain codes or standards to Hawaii's unique island environment.

Your Committee acknowledges the concerns raised in testimony that the Federal Emergency Management Agency uses timely code adoption as a criterion in its funding for disaster mitigation, resilience, and recovery projects and that noncompliance with national building codes could jeopardize opportunities for the State to receive federal funding. Your Committee further recognizes that the duty for the State Building Code Council to adopt building codes and standards is suspended when an emergency proclamation is in effect. Your Committee notes that a prolonged emergency proclamation may have a chilling effect on the timely adoption, amendment, and update on future State Building Codes. Your Committee further notes that a recent news report stated that the Maui County Department of Planning currently operates at a twenty-five percent vacancy rate and that there still may not be sufficient dedicated and trained staff available to adequately review, assess, and adapt building codes as provided in this measure. Your Committee respectfully requests that these concerns be considered as this measure moves forward in the legislative process.

Accordingly, your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2491, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2089, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2089, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Gabbard). Noes, none. Excused, 1 (Awa).

SCRep. 3299 (Joint) Agriculture and Environment and Water and Land on H.B. No. 2329

The purpose and intent of this measure is to appropriate an unspecified amount of funds to establish a one-year pilot program to reduce the population of rose-ringed parakeets on Kauai, using past research and on-the-ground experience to guide future strategies.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, County of Kaua'i Office of Economic Development, Hawai'i Farm Bureau, The Nature Conservancy, and four individuals.

Your Committees received testimony in opposition to this measure from Animal Rights Hawai'i.

Your Committees find that rose-ringed parakeets are invasive birds that pose a significant threat to the agriculture, native ecosystems, and public health of the State. According to testimony received by your Committees, rose-ringed parakeets are considered widely established on the islands of Oahu and Kauai, making an eradication effort almost impossible. Your Committees find that this measure will provide funding for a one-year pilot program, which solidifies best practices to manage the population of these invasive birds. However, your Committees note that the provisions of this measure do not require the one-year pilot program to submit a report

of its findings and recommendations, including any proposed legislation, to the Legislature, and your Committees respectfully request that this concern be considered as this measure moves forward in the legislative process.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2329, H.D. 1, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3300 Education on H.B. No. 500

The purpose and intent of this measure is to appropriate funds to the Department of Education to promote surfing as an interscholastic sport.

Your Committee received testimony in support of this measure from the Outrigger Duke Kahanamoku Foundation, Hoemana, and ten individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that surfing has significant cultural, social, and economic value to the people of Hawaii and the many visitors who travel to the State for surfing. While surfing has been sanctioned by the Department of Education since 2004, only one of five local athletic leagues have sponsored surfing as an interscholastic sport. Limited opportunities for students to pursue surfing may not provide student-athletes inspired by surfing with the full range of experiences to participate in competitive sports.

Additionally, your Committee further finds that for students to be competitive in the twenty-first century, a variety of academic and extracurricular experiences are needed to provide a well-rounded education. Expansion of workforce readiness programs, school athletics, and academic coursework will offer students opportunities to tailor their education to their interests while ensuring preparation for future academic and professional goals. Therefore, amendments to this measure are needed to ensure adequate funding for various Department of Education programs to support workforce readiness and extracurricular activities in Department of Education schools.

Accordingly, your Committee has amended this measure by:

- (1) Inserting additional unspecified appropriation amounts for the following programs:
 - (A) Statewide participation at student-led conferences for middle and high schools;
 - (B) Middle school athletics programs;
 - (C) Workforce readiness initiatives;
 - (D) Work-based learning opportunities for students to apply skills and knowledge in a workplace context partnering with local employers and regional economic development priorities;
 - (E) Math camps;
 - (F) Intra-state travel funds for neighbor island student participation in annual JROTC competitions;
 - (G) Foreign language programs that provide students with language skills to enter high-demand occupations in the fields of hospitality and tourism and cyber-security;
 - (H) Middle school education;
 - (I) Professional learning in classrooms to support activities such as applied mathematics, financial literacy education, and instructional resources;
 - (J) Implementation of middle school student councils, enhancement student activities programs, and the annual Middle Level Student Leadership Summit for grades six through eight; and
 - (K) Teaching and learning in secondary mathematics.
- (2) Inserting language declaring that the general fund expenditure ceiling is exceeded;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure contains an unspecified total appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting appropriation amounts for fiscal year 2024-2025, as follows:

- (1) \$42,000 for the promotion and support of surfing as an interscholastic sport;
- (2) \$150,000 for statewide participation at student-led conferences for middle and high schools;
- (3) \$5,000,000 for middle school athletics programs;
- (4) \$2,500,000 for workforce readiness initiatives;

- (5) \$1,652,040 for students to apply skills and knowledge in a workplace context partnering with local employers and regional economic development priorities;
- (6) \$56,350 for math camps;
- (7) \$45,000 for intra-state travel funds for neighbor island student participation in annual JROTC competitions;
- (8) \$275,000 for foreign language programs in preparation of high-demand occupations in hospitality and tourism and cyber-security;
- (9) \$579,450 for middle school education;
- (10) \$646,138 for professional learning in classrooms to support activities such as applied mathematics, financial literacy education, and instructional resources;
- (11) \$110,136 for implementation of middle school student councils, enhancement of student activities programs, and the annual Middle Level Student Leadership Summit for grades six through eight; and
- (12) \$500,000 for teaching and learning in secondary mathematics.

Your Committee expressed concerns regarding the current status of surfing as a club sport that is not league-sanctioned in other jurisdictions statewide. For surfing to become an interscholastic sport, fiscal support is needed to provide salaries for coaches. Additionally, your Committee expressed concerns regarding the safety of student-athletes interested in surfing, given the hazardous conditions of the surfing environment. Additional information regarding the time and location of competitions, potential judges, and safeguards for students is also unclear at this time. Further, your Committee suggests examining the Maui Interscholastic League's model for surfing as an interscholastic sport to determine how to incorporate surfing as a competitive sport within the Department of Education. Your Committee therefore requests these issues also be examined further by subsequent committees.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 500, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 500, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3301 Education on H.B. No. 1906

The purpose and intent of this measure is to appropriate funds to the Department of Education to enhance its Panorama platform and Trust Circle mobile application or create a new platform.

Your Committee received testimony in support of this measure from the Department of Education, State Council on Mental Health, Hawaii State Teachers Association, and three individuals.

Your Committee finds that ensuring adequate access to mental health support services is critical to the health, well-being, and development of Hawaii's keiki. Presently, the Department of Education utilizes the Trust Circle mobile application and Panorama Education platform to provide students with accessible well-being resources and for teachers to understand the social-emotional competencies in the areas of sense of belonging, social awareness, self-management, and emotional regulation. Both platforms offer teachers and counselors insight into the well-being of their students while identifying additional support for at-risk students. Accordingly, this measure creates greater accessibility for students to receive mental health and well-being support services.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1906, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1906, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3302 (Joint) Education and Transportation and Culture and the Arts on H.B. No. 1837

The purpose and intent of this measure is to:

- (1) Require the Department of Education to grant public access to emergency action plans that do not pose a security risk to students, staff, or guests of school campuses;
- (2) Require each Department of Education school to have a comprehensive school evacuation communication plan for use during emergencies;
- (3) Require the Department of Education to collaborate with the Department of Transportation to assess all Department school campuses to determine if there are sufficient emergency evacuation routes for each campus and report to the Legislature; and
- (4) Appropriate funds.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Special Education Advisory Council, one member of the Maui County Council, Hawaii State Teachers Association, Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, and one individual.

Your Committees received comments on this measure from the Department of Education, Department of the Attorney General, Office of Language Access, and Disability and Communication Access Board.

Your Committees find that establishing emergency preparedness plans for Hawaii's public schools will provide students, staff, and members of the community with safe and accessible evacuation routes during unforeseen emergencies or disasters. The August 2023 Maui wildfires have additionally demonstrated a need to ensure all schools have multiple safe evacuation routes that are accessible for all users. Further, appropriate communication plans to address the unique needs of each community will provide cultural awareness and responsiveness during emergency situations. Therefore, this measure ensures school safety and emergency preparedness for all members of the State's public school communities.

Your Committees have amended this measure by:

- (1) Deleting language that would have authorized public access to the emergency action plans;
- (2) Clarifying that parents and guardians shall contact and provide schools with updated contact information throughout the school year as needed; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1837, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1837, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 5. Noes, none. Excused, none.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Elefante, Awa).

SCRep. 3303 (Joint) Commerce and Consumer Protection and Transportation and Culture and the Arts on H.B. No. 1997

The purpose and intent of this measure is to authorize the Public Utilities Commission to establish a discounted rate by tariff for water carriers that engage in the interisland transport of renewable hydrogen.

Your Committees received testimony in support of this measure from Tigerhsark, LLC and one individual.

Your Committees received testimony in opposition to this measure from 350Hawaii.org.

Your Committees received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, and Hawai'i Gas.

Your Committees find that hydrogen is often promoted as a potential clean fuel of the future due to its lower impact on the environment. Hydrogen can be burned like oil or gas but releases no climate-warming carbon dioxide. Instead, when consumed in a fuel cell, hydrogen produces only water vapor and warm air. Once produced, hydrogen can be used to power vehicles and generate electricity for communities statewide, making it an important part of the State's plans to achieve its ambitious renewable energy goals. Your Committees therefore find that it is in the State's interest to encourage the production and use of hydrogen as a clean fuel source. This measure will make the cost of transporting hydrogen from island to island more affordable, thereby promoting its use in the State.

Your Committees note the concern raised during the public hearing on this measure that establishing a discounted rate by tariff for hydrogen may cause water carriers to attempt to recover their decreased revenues by raising rates for other cargo types, thus increasing prices for consumers. Your Committees further note that suggestions were made during the public hearing that preferential shipping rates should also be considered for local agricultural producers and the shipment of building materials in support of affordable housing construction. Your Committees find that these concerns merit further consideration and respectfully request that subsequent Committees that may choose to deliberate on this measure further examine these issues as the measure moves through the legislative process.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1997, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1997, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (McKelvey). Noes, none. Excused, none.

Transportation and Culture and the Arts: Ayes, 4; Ayes with Reservations (Inouye). Noes, none. Excused, 1 (Kanuha).

SCRep. 3304 (Joint) Commerce and Consumer Protection and Judiciary on H.B. No. 2742

The purpose and intent of this measure is to:

- (1) Extend the notice period for summary possession proceedings from five days to fifteen days for failure to pay rent;

- (2) Require landlords to provide the notice to mediation centers;
- (3) Require landlords to enter into mediation if scheduled by a tenant, which will delay when a landlord may file an action for summary possession except in cases where a tenant cancels the mediation or does not appear;
- (4) Restrict when landlord remedies are available depending on the amount of rent due; and
- (5) Appropriate funds for the Judiciary to contract for mediation services.

Your Committees received testimony in support of this measure from the Judiciary; Mediation Center of the Pacific, Inc.; Legal Aid Society of Hawai'i; Ku'ikahi Mediation Center; and Mediation Centers of Hawai'i.

Your Committees received comments on this measure from the Hawai'i Association of REALTORS.

Your Committees find that due to the August 2023 Maui wildfires, thousands of Maui residents have lost their jobs and have been unable to pay their rent. Your Committees further find that although the Governor has provided certain protections for these tenants who are struggling during this time, such as by issuing emergency proclamations that include an eviction moratorium that prohibits any eviction from a residential dwelling unit for failure to pay rent, eventually, these eviction moratoriums will expire, and a large number of summary possession cases are expected to follow as a result.

Your Committees also find that Act 57, Session Laws of Hawaii 2021 (Act 57), encouraged communication and facilitated mediation between landlords and tenants to help encourage collaborative solutions and reduce evictions when possible. Although the provisions of Act 57 have since expired, the pre-litigation mediation program's success warrants the re-adoption of its most effective provisions. Therefore, this measure reimplements certain provisions of Act 57 for these specific tenancies that are subject to the eviction moratorium issued under the Governor's emergency proclamations to encourage tenants and landlords to engage in early mediation.

Your Committees have amended this measure by:

- (1) Clarifying this measure's purpose;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2742, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2742, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3305 (Joint/Majority) Commerce and Consumer Protection and Health and Human Services on H.B. No. 2553

The purpose and intent of this measure is to:

- (1) Authorize pharmacists to administer vaccines to persons three years of age or older;
- (2) Authorize pharmacy interns and pharmacy technicians under the direct supervision of a pharmacist to administer vaccinations to persons between the ages of three and seventeen, if certain requirements are met; and
- (3) Authorize pharmacists to order vaccines for administration to persons between the ages of three and seventeen.

Your Committees received testimony in support of this measure from the Disability and Communication Access Board; Board of Pharmacy; University of Hawai'i at Hilo; Department of Health; Times Pharmacy; American Pharmacists Association; Retail Merchants of Hawaii; CVS Health; Walgreen Co.; Moloka'i Drugs, Inc.; Hawaii Pharmacists Association; and nine individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that during the coronavirus disease 2019 pandemic, certain temporary amendments were made to the federal Public Readiness and Emergency Preparedness Act (PREP Act) to authorize pharmacists and certain pharmacy personnel to act beyond the limited scope of existing state law and order and administer a number of vaccines to children between the ages of three to seventeen, including routinely recommended childhood vaccinations. Your Committees find that this temporary authority greatly helped minimize interruptions to patient access to necessary, routine, and recommended vaccination services. Your Committees find that as the temporary authority provided under the PREP Act is slated to end on December 31, 2024, the State should codify the temporary federal amendments in state law and permanently authorize pharmacists and certain pharmacy personnel to order and administer vaccines to children between the ages of three and seventeen. Therefore, this measure will expand the role of licensed pharmacists and certain pharmacy personnel to administer vaccines to their communities and make it easier for families to protect their children against influenza and other highly contagious diseases.

Your Committees have amended this measure by:

- (1) Inserting language that requires pharmacy interns and pharmacy technicians that administer vaccines to a person between three and seventeen years of age to have a Certified Pharmacy Technician certification from either the Pharmacy Technician Certification Board or National Healthcareer Association; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2553, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2553, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

SCRep. 3306 (Joint/Majority) Higher Education and Water and Land and Agriculture and Environment on H.B. No. 2248

The purpose and intent of this measure is to appropriate funds to the University of Hawaii Sea Grant College Program to develop a North Shore Beach Management and Climate Adaptation Plan for the North Shore of Oahu from Sunset Point to the Kapo'o (Sharks Cove) area.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; University of Hawai'i System; Shoreline Preservation Coalition; Hawai'i Reef and Ocean Coalition; Surfrider Foundation, Hawai'i Region; and four individuals.

Your Committees find that the North Shore of Oahu faces an increasing risk of erosion and deterioration from a combination of high-energy waves, winter surf, summer swells, sea-level rise from climate change, coastal erosion, shifting sand, deteriorating coral reefs, and intensive use by individuals accessing the shoreline. The infrastructure of most of the shoreline beach parks and coastal access areas along the North Shore of Oahu is inadequate to handle the high number of residents and visitors who are attracted to these beaches each year. Further, as the State's beaches and coastline constitute part of the public trust, the State has a fiduciary duty to affirmatively protect beach and coastal access. Accordingly, this measure provides the University of Hawaii Sea Grant College Program with resources necessary to address rising challenges that impact Oahu's North Shore beaches and coastlines.

Your Committees expressed concerns regarding the collaborative efforts to accomplish the North Shore Beach Management and Climate Adaptation Plan. As the solutions to address the North Shore will require significant involvement from the counties, your Committees raised concerns that the State is taking the lead on a project that requires collaboration from the counties and the impacted communities. Additionally, your Committees note concerns that there may be challenges with community unity to develop solutions for the Beach Management and Climate Adaptation Plan based on competing interests. Your Committees therefore recommend that the counties utilize the neighborhood board system to facilitate community outreach and engagement to ensure all voices are heard while reducing the fiscal impact.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting an appropriation amount of \$1,000,000, for fiscal year 2024-2025.

As affirmed by the records of votes of the members of your Committees on Higher Education, Water and Land, and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2248, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2248, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Fukunaga).

Water and Land: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 3. Noes, 2 (DeCoite, Richards). Excused, none.

SCRep. 3307 Health and Human Services on H.B. No. 2309

The purpose and intent of this measure is to appropriate funds to implement a Homeless Triage Center Program within the Alcohol and Drug Abuse Division of the Department of Health.

Your Committee received testimony in support of this measure from the Alcohol and Drug Abuse Division of the Department of Health; State Health Planning and Development Agency; Partners In Care; The Institute for Human Services, Inc.; Hawaii Substance Abuse Coalition; ACLU Hawai'i; and one individual.

Your Committee finds that the State is ranked fourth in the United States for chronic homelessness. According to the 2023 Point-in-Time count, approximately thirty percent of individuals and families experiencing homelessness, whether sheltered or not, reported a substance use problem, and forty percent have reported a mental illness. Your Committee further finds that triage is recognized as an evidence-based practice to end the cycle of homelessness and provides assessment of a person's disorders, need for medication-assisted detoxification, and timely psychiatric treatment. As triage centers are easily accessible, mobile, and judgment-free health care centers, this measure establishes a Homeless Triage Center Program to provide readily accessible, safe, and secure health care services to individuals who are homeless or at risk of homelessness.

Your Committee notes that there are a variety of providers who offer homeless triage services to communities statewide. However, the current language of this measure does not accurately reflect the broad range of services offered by providers of homeless triage and the unique needs of each community. Therefore, amendments are needed to broaden the scope of work done by various providers statewide to address health care services for individuals who are homeless.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that the purpose of this measure is to support existing crisis intervention centers;

- (2) Clarifying that the Homeless Triage Center Program shall focus on serving individuals who are at risk of homelessness, in addition to individuals who are homeless;
- (3) Deleting language that would have required the Homeless Triage Center Program to operate twenty-four hours per day, seven days per week;
- (4) Clarifying that the Homeless Triage Center Program shall provide mobile outreach in addition to case management services;
- (5) Deleting certain legislative findings that singularly summarized the Homeless Triage Center piloted by the Institute for Human Services, as your Committee recognizes many other similar resources provided by the State and its counties;
- (6) Amending Section 1 to reflect its amended purpose;
- (7) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2309, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2309, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3308 Health and Human Services on H.B. No. 2159

The purpose and intent of this measure is to:

- (1) Require the Department of the Attorney General to assist with the preparation and filing of petitions for assisted community treatment and with the presentation of the case, unless declined by the petitioner;
- (2) Repeal language entitling the subject of a petition for assisted community treatment to legal representation by a public defender;
- (3) Provide a mechanism for the automatic screening of certain nonviolent defendants for involuntary hospitalization or assisted community treatment; and
- (4) Authorize courts to require certain probation violators to undergo a mental health evaluation and treatment program as a condition of continued probation.

Your Committee received testimony in support of this measure from the Judiciary; Adult Mental Health Division of the Department of Health; Disability and Communication Access Board; State Council on Mental Health; The Institute for Human Services, Inc.; Hawaii Substance Abuse Coalition; Hawai'i Psychological Association; and three individuals.

Your Committee received testimony in opposition to this measure from ACLU Hawai'i and two individuals.

Your Committee received comments on this measure from the Department of the Attorney General and Hawaii Disability Rights Center.

Your Committee finds that criminal justice diversion programs and assisted community treatment provide certain defendants with critical mental health services and alternative forms of justice to help achieve significantly better health outcomes for individuals suffering with mental illness. As certain defendants may require mental health evaluations and assessments to determine specific services needed, improvements to existing mental health services will improve timely access to services and prevent certain individuals from repeatedly getting caught up in the criminal justice system. Therefore, this measure will improve the assisted community treatment program to help stabilize individuals with untreated mental illness.

Your Committee notes the testimony of the Department of the Attorney General expressing concerns that certain provisions of this measure could subject this measure to the requirement of additional readings in the House of Representatives. Further, your Committee notes the concerns raised in testimony concerning due process considerations. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have authorized certain examinations to be exempted from any case under the jurisdiction of the family court unless ordered otherwise by the presiding judge;
- (2) Deleting language that would have established the offense of escape in the second degree as a petty misdemeanor;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2159, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2159, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3309 Commerce and Consumer Protection on H.B. No. 2056

The purpose and intent of this measure is to:

- (1) Establish the State Reinsurance Exploratory Working Group (Working Group) to explore the feasibility of establishing a state-run reinsurance program to ensure affordable coverage for property owners against catastrophic events;
- (2) Require the Working Group to submit a report to the Legislature; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Hawai'i Association of REALTORS, Hawaii First Realty LLC, Palehua Townhouse Association, Malama O Puna, and three individuals.

Your Committee finds that the rising global temperatures associated with climate change have increased both the frequency and severity of natural disasters. This has, in turn, led to the destabilization of certain insurance and reinsurance markets as these companies, responding to the accumulation of losses incurred from these events, have significantly increased their prices, limited their coverage, or even exited out of high-risk markets entirely. Your Committee further finds that the establishment of a state-run reinsurance program to offset the liabilities of private reinsurance companies could potentially help stabilize local insurance markets and ensure that insurance coverage in Hawaii remains available and affordable for property owners. Therefore, this measure establishes the Working Group to study the feasibility of this state-run reinsurance concept.

Your Committee notes that the intent of this measure is to have the Working Group gather the necessary information to assist the Legislature in making the best decision possible as the State moves forward. This measure will address the essential aspects of the rising costs of property insurance in the State and allow the Legislature to create a potentially innovative way of handling insurance in the State. The information gathered by the Working Group pursuant to this measure will allow the Legislature to come up with some creative ideas that hopefully address this matter while taking care of the consumers in the State.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that clarifies that the purpose of the Working Group is to gather information to assist the Legislature in generating innovative solutions that address the increasing insurance costs for consumers in the State;
- (2) Inserting language that expands the duties of the Working Group to include the following:
 - (A) Evaluation of existing insurance programs, including the regulatory and legal frameworks that govern these programs;
 - (B) Assessment of any regulatory gaps and shortcomings of the current insurance system;
 - (C) Review of the State's current ability to conduct risk assessments and the development of specialized risk assessment tools for different types of risks and industry operations in the State;
 - (D) Identification of areas where stakeholder engagement and investment can promote collaboration to address industry specific issues;
 - (E) Identification of best practices and the development of comprehensive policies to produce recommendations that will promote overall market growth; and
 - (F) Establishment of mechanisms for ongoing monitoring, assessment of the financial tools necessary for data collection, and the formation of policies that remain responsive to market dynamics, functions, and evolving regulatory challenges;
- (3) Adding the following members to the Working Group:
 - (A) One member appointed by the President of the Senate; and
 - (B) One member appointed by the Speaker of the House of Representatives;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2056, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2056, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3310 Commerce and Consumer Protection on H.B. No. 2278

The purpose and intent of this measure is to:

- (1) Clarify labeling requirements for macadamia nuts; and
- (2) Require the country of origin to be included on the principal display panel of a consumer package of processed macadamia nuts.

Your Committee received testimony in support of this measure from the Department of Agriculture, O.K. Farms, Island Harvest Inc., Synergistic Hawaii Agriculture Council, Scott E. Enright Company LLC, Hawai'i Farmers Union United, Hawaii Macadamia Nut

Association, Hawai'i Farm Bureau, Hawaiian Macadamia Nut Services, Hamakua Macadamia Nut Co., Mai Mahealani Farm LLC, Ka'u Farms Management LLC, Huahua Farm LLC, Macadamia Growers of Hawai'i, and more than one hundred fifty individuals.

Your Committee received testimony in opposition to this measure from Hawaiian Host Group, Kapua Orchards Inc., Maunaloa Macadamia, and more than one hundred eighty individuals.

Your Committee finds that Hawaii's unique climate and fertile soil contribute to the exceptional flavor of Hawaii-grown macadamia nuts, making them a globally recognized food product that is enjoyed by consumers around the world. However, certain manufacturers of non-Hawaiian-grown macadamia nuts have taken advantage of this reputation by placing cheaper foreign macadamias in a Hawaii-branded package to obtain a premium price at a lower cost. Your Committee believes that this practice is not only deceitful to consumers, but causes local farmers to suffer from reduced demand and deflated prices. Therefore, this measure clarifies certain laws relating to the labeling of macadamia nuts to increase transparency and hold all companies that sell macadamia nuts to a higher standard of integrity.

Notwithstanding, your Committee notes that S.B. No. 3303, S.D. 2 (2024), is a substantially similar measure that also clarifies the labeling requirement for macadamia nuts. Your Committee finds that the language in S.B. No. 3303, S.D. 2, which was previously passed by the Senate, is preferable because it also requires the country of origin to be included on the label of a consumer package of raw or processed macadamia nuts, and additionally includes a company name or the use of images of the State as representation that a product contains a portion of macadamia nuts grown in the State and authorizes any person injured by a violation of this labeling law to bring a civil action in court for damages. The language in S.B. No. 3303, S.D. 2, is also preferable because it includes severability language should the measure be deemed to be in conflict with federal law.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 3303, S.D. 2. (2024); and
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2278, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2278, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Awa).

SCRep. 3311 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on H.B. No. 2443

The purpose and intent of this measure is to:

- (1) Repeal the sunset date of the authorization for primary caregivers to cultivate medical cannabis for qualifying patients; and
- (2) Clarify that primary caregivers may continue to cultivate medical cannabis for qualifying patients subject to certain restrictions.

Your Committees received testimony in support of this measure from the Office of Medical Cannabis Control and Regulation of the Department of Health, Cannabis Society of Hawai'i, and two individuals.

Your Committees received testimony in opposition to this measure from the Hawai'i Patients Union, Pakaloha Care LLC, Care Waialua LLC, GreenWave Advisors LLC, and fifty-four individuals.

Your Committees received comments on this measure from the Department of the Attorney General, Akamai Cannabis Consulting, Aloha Green Apothecary, and three individuals.

Your Committees find that Act 241, Session Laws of Hawaii 2015 (Act 241), relating to medical cannabis, established a statewide dispensary licensing system for medical cannabis to ensure safe and legal access to medical cannabis for qualifying patients. Your Committees further find that the intent of the Legislature as expressed in Act 241 was, and continues to be, to expand qualifying patient's access to cannabis rather than to replace existing legal access routes, recognizing that some patients may not be able to grow their own supply of medical cannabis due to limitations such as disability or lack of space. This measure ensures that qualifying patients continue to have multiple options for obtaining medical cannabis by permanently allowing their primary caregiver to grow an adequate supply of cannabis for medical use on their behalf.

Your Committees have amended this measure by:

- (1) Increasing the maximum number of qualified patients for which each location used to cultivate cannabis may cultivate cannabis, from five to ten patients;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2443, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2443, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

SCRep. 3312 (Joint) Health and Human Services and Commerce and Consumer Protection on H.B. No. 2544

The purpose and intent of this measure is to:

- (1) Establish within the Department of Health a two-year pilot project to charter flights from rural islands to an urban island to provide rural island residents with reliable transportation to medical care on urban islands; and
- (2) Appropriate funds for the pilot project.

Your Committees received testimony in support of this measure from one member of the Maui County Council; Hawaii Health Systems Corporation; Hawaii Medical Service Association; Moloka'i Drugs, Inc.; 'Ahahui o nā Kauka, Association of Native Hawaiian Physicians; Hawai'i Pacific Health; The Queen's Health System; Indivisible Hawai'i; AlohaCare; and nine individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Human Services and Department of Health.

Your Committees find that rural islands such as Molokai and Lanai must utilize a single air carrier available to the public for departures from each island. However, residents have experienced significant delays, frequent and last-minute flight changes, and cancellations. As residents rely on air travel for medical, family, and work obligations, providing consistent service between rural islands is necessary to ensure the health and safety of Hawai'i's people. Therefore, this measure expands air travel options for residents in the rural islands to provide reliable, consistent service to receive much needed medical services.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that according to the Department of Health, an appropriation amount of \$2,000,000, for the purposes of this measure, is already included in H.B. No. 1800, Regular Session of 2024, relating to the State Budget, which was passed by the House of Representatives and is currently scheduled to be heard by your Committee on Ways and Means.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2544, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2544, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3313 (Joint) Health and Human Services and Commerce and Consumer Protection on H.B. No. 1675

The purpose and intent of this measure is to, beginning January 1, 2026, exempt medical services provided by licensed physicians and advanced practice registered nurses acting in the capacity of primary care providers from the general excise tax.

Your Committees received testimony in support of this measure from the State Health Planning and Development Agency; Disability and Communication Access Board; University of Hawai'i System; Office of the Mayor of the County of Hawai'i; one member of the Maui County Council; Hawaii Association of Health Plans; Avana Health; Hawaii Provider Shortage Crisis Task Force; AlohaCare; Hawai'i Association of Professional Nurses; Hawaii Independent Physicians Association; Kohala Coast Urgent Care LLC; Moloka'i Family & Urgent Care; East Hawaii Independent Physicians Association dba Big Island Docs; American College of Obstetricians and Gynecologists; Grassroot Institute of Hawaii; Hawai'i Psychological Association; Honolulu Neuroscience Clinic; 'Ahahui o nā Kauka—Association of Native Hawaiian Physicians; Philippine Medical Association of Hawai'i; Oahu Pain Care; Wala'au Therapy LLC; One Impact Hawaii; Malama Pono Autism Center; Joyful Living, LLC; Hawaiian Rehabilitation Services, Inc.; Hawai'i Academy of Physician Assistants; Hawaii Dental Service; Hawaii Academy of Family Physicians; Restore Hawai'i Speech Therapy LLC; Maui Orthopedic Institute LLC; Hawaii Medical Association; Indivisible Hawaii Healthcare Team; Enphysio LLC; Hawaii Federation of Republican Women; Thankfully Inspired, LLC; Hawai'i Speech-Language Hearing Association; Christopher West LMHC LLC; and seventy-nine individuals.

Your Committees received testimony in opposition of this measure from one individual.

Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, CBT Gym, Hawai'i Counselors Association, and one individual.

Your Committees find that the State is facing a dire health care workforce shortage, which continues to worsen and results in lower access to care and poorer health outcomes for residents in the State. Your Committees further find that Hawaii is one of two states that apply the general excise tax to the medical practice income of physicians, advanced practice registered nurses, physician assistants, and other independent practice health care professionals, placing an undue financial burden on health care providers that results in practice closures and challenges in recruiting and retaining new or younger health care professionals. Your Committees additionally find that the general excise tax and related county surcharges are highly regressive forms of taxation that disproportionately and adversely affect low- and middle-income families struggling to cope with the State's high cost of living as physicians subject to the general excise tax may pass this cost on to patients as a way to recover the expense.

Your Committees note the concerns raised in testimony that that this measure's proposed general excise tax exemption for independent medical practices does not apply to hospitals or to physicians and other health professionals employed by hospitals. Your Committees further note that this measure's proposed general excise tax exemption should likewise apply to affected specialty

practices and should encourage recruitment and retention of both primary and specialty physicians, advanced practice registered nurses, physician assistants, and other health care professionals that are in short supply in the State.

Your Committees also note that S.B. No. 1035, S.D. 2, a measure that was introduced and adopted by the Senate in the Regular Session of 2023, also exempts medical services from the general excise tax. Your Committees find that the language in S.B. No. 1035, S.D. 2, is preferable because it expands the exemption from the general excise tax beyond medical services provided by licensed physicians and advanced practice registered nurses to include medical and dental services provided by health care providers to patients who receive Medicaid, Medicare, or TRICARE benefits.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 1035, S.D. 2, Regular Session of 2023, a measure that temporarily exempts medical and dental services provided by health care providers to patients who receive Medicaid, Medicare, or TRICARE benefits from the general excise tax;
- (2) Updating Section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1675, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1675, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3314 (Joint) Health and Human Services and Commerce and Consumer Protection on H.B. No. 1624

The purpose and intent of this measure is to require insurers, mutual benefit societies, and health maintenance organizations to provide coverage for standard fertility preservation services for persons undergoing medically necessary treatment that may cause iatrogenic infertility in policies, contracts, plans, and agreements issued or renewed after December 31, 2024.

Your Committees received testimony in support of this measure from the American Cancer Society Cancer Action Network Inc.; Hawaii Society of Clinical Oncology; Association for Clinical Oncology; The Leukemia & Lymphoma Society, Inc.; Advanced Reproductive Medicine and Gynecology of Hawaii, Inc. dba Fertility Institute of Hawaii; Alliance for Fertility Preservation; and four individuals.

Your Committees received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Association of Health Plans, Hawaii Medical Service Association, and Kaiser Permanente Hawai'i.

Your Committees find that many medical treatments, such as chemotherapy and radiation, can significantly damage reproductive tissues and affect fertility in both men and women. Your Committees further find that patients undergoing these treatments often face the heartbreaking reality that their cancer or other diagnosis treatment may cause them to become infertile, leading to significant long-term mental, emotional, and physical impacts on the patients, their partners, and their families. This measure provides medical coverage for standard fertility preservation services, thereby offering a chance for cancer patients to maintain their fertility options so they can start a family after their cancer treatment.

Your Committees have amended this measure by:

- (1) Inserting language to the definition of "standard fertility preservation services" to exclude:
 - (A) Third party assisted reproduction technology procedures, including donor egg or surrogates and gestational carriers; and
 - (B) Any services relating to cryopreservation storage; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1624, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1624, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3315 (Joint/Majority) Water and Land and Government Operations on H.B. No. 1542

The purpose and intent of this measure is to allow each of the counties a temporary opportunity to petition for the redistricting of land from the agricultural district to the rural district through the Land Use Commission's declaratory ruling process.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development.

Your Committees received testimony in opposition to this measure from three individuals.

Your Committees received comments on this measure from the Department of Agriculture and Land Use Commission.

Your Committees find that the counties currently do not have the tools to efficiently address existing non-conforming agricultural district lands, which have residential subdivisions that should be reclassified to the rural district. Reclassification that is consistent with the county general plan and community development plans is the most effective means to align state and county land use policy that seeks to separate non-farm residential uses from bona fide farming. This measure will temporarily allow the counties to petition for the redistricting of land from the agricultural district to the rural district through the Land Use Commission's declaratory orders process, rendering state and county land use policy more consistent.

Your Committees have amended this measure by:

- (1) Inserting language specifying that the applicable county planning commission must provide required due process for district boundary amendments under constitutional and statutory law; and
- (2) Inserting language requiring the Office of Planning and Sustainable Development to appear as a party to every case of redistricting at both state and county levels to make recommendations addressing state interests and public trust issues.

As affirmed by the records of votes of the members of your Committees on Water and Land and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1542, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1542, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5; Ayes with Reservations (Elefante). Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3316 (Joint) Water and Land and Agriculture and Environment on H.B. No. 1545

The purpose and intent of this measure is to enable and encourage state and county agencies to engage in and implement long-term adaptation pathways planning, together with affected communities, to facilitate natural-resource conservation and reduce the loss of public and private infrastructure to damage associated with sea level rise and flooding by:

- (1) Requiring the Department of Land and Natural Resources, in coordination with the appropriate state and county agencies, to prepare plans to facilitate implementation of adaptation measures, including modification and ultimate relocation of development and infrastructure away from certain at-risk areas; and
- (2) Appropriating funds.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Office of Planning and Sustainable Development; Hawai'i Climate Change Mitigation and Adaptation Commission; one member of the Maui County Council; University of Hawai'i Sea Grant Program; Climate Resilience Collaborative; Surfrider Foundation Hawai'i Region; and three individuals.

Your Committees received comments on this measure from Starn, O'Toole, Marcus, and Fisher and one individual.

Your Committees find that infrastructure and economic sectors across the State are threatened by rising sea levels. Your Committees further find that steps must be taken to mitigate sea level rise and its effects on vulnerable communities and crucial public trust resources, including sandy beaches and dune systems, which are valuable for their cultural importance and role in the ecosystem. This measure will encourage state and county agencies, in coordination with affected communities, to develop and implement long-term adaptation planning to conserve natural resources for future generations and curtail the losses of public and private infrastructure from damage associated with sea level rise and flooding.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1545, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1545, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Awa).

SCRep. 3317 Water and Land on H.B. No. 1546

The purpose and intent of this measure is to amend the definition of "beach restoration" used in laws governing the Board of Land and Natural Resources' powers to engage in beach restoration by expanding the types of activities the State recognizes as restorative and beneficial to beach lands in response to the increasing threat of sea level rise and beach loss.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Office of Planning and Sustainable Development; City and County of Honolulu Office of Climate Change, Sustainability and Resiliency; University of Hawai'i Sea Grant College Program; Climate Resilience Collaborative; Surfrider Foundation, Hawai'i Region; and five individuals.

Your Committee received comments on this measure from two individuals.

Your Committee finds that the current definition of "beach restoration" is limited to the placement of sand on a beach from outside sources such as streams, harbors, quarries, and offshore sand sources. In recent years, community organizations have expressed an interest in conducting related nature-based activities, including dune restoration, to promote a naturally resilient shoreline. This

measure will help protect and preserve Hawaii's coastlines by broadening the definition of "beach restoration" to include other beneficial activities.

Your Committee has amended this measure by clarifying that the definition of "beach restoration" means any activity undertaken to:

- (1) Maintain and improve beaches and dune systems through management of sand and native dune vegetation;
- (2) Remove abandoned remnant materials from beaches and dunes that pose a risk to public health and coastal ecosystems; or
- (3) Nourish eroded beaches through the placement of compatible sand from an outside or adjacent source, with or without stabilizing structures.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1546, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1546, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3318 Water and Land on H.B. No. 1923

The purpose and intent of this measure is to allow overnight camps in operation prior to January 1, 1961, to be regulated via the special permit process.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Planning and Sustainable Development; Boy Scouts of America, Aloha Council; Kimokeo Foundation; Maui Surfer Girls, Inc.; Maui Chamber of Commerce; and one individual.

Your Committee received comments on this measure from the Land Use Commission.

Your Committee finds that in March 2023, the Hawaii Supreme Court ruled that the specific exclusion of overnight camps from the list of permitted uses in agricultural districts means that special permits cannot be issued for overnight camps in agricultural districts, reversing a prior Hawaii Supreme Court opinion that allowed for uses, such as overnight camps, to be approved via special permits if they were deemed to be an "unusual and reasonable" use in the agricultural district. Affected campgrounds would need to obtain a district boundary amendment to change the land use classification from agricultural to urban, though these campgrounds are in rural settings with no urban uses in the nearby vicinity. This measure repeals the prohibition on overnight camps in agricultural districts to allow these camps to operate with a special permit.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1923, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1923, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3319 Water and Land on H.B. No. 1925

The purpose and intent of this measure is to:

- (1) Establish the Hawaii State Planning Act Phase II Task Force; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Planning and Sustainable Development; Office of Hawaiian Affairs; Holomua Collaborative; Hawai'i Farm Bureau; aio; Hawai'i Gas; Hawaiian Host Group; HPM Building Supply; Title Guaranty of Hawai'i; Tori Richard, Ltd.; Mana Up; and one individual.

Your Committee received comments on this measure from the University of Hawai'i Economic Research Organization and Hawai'i Community Foundation.

Your Committee finds that since the completion of the first comprehensive review of the Hawaii State Planning Act in 1985, the State has experienced significant economic, physical, social, and technological changes, rendering the findings and recommendations made in that review outdated. Considering these circumstances, the Office of Planning and Sustainable Development completed Phase I of a comprehensive review of the Hawaii State Planning Act in 2018, which yielded findings and recommendations that provide a foundation and scope of a recommended Phase II update, including an approach to align current and emerging conditions and issues to enhance the effectiveness of planning, the needs of Hawai'i's people, and the future of the trajectory of the State. This measure will continue to build on the work done and involve the community in updating and simplifying the Hawaii State Plan.

Your Committee has amended this measure by:

- (1) Specifying that the Hawaii State Planning Act Phase II Task Force shall include the Chairperson of the Board of Trustees of the Office of Hawaiian Affairs, or their designee; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1925, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1925, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3320 Water and Land on H.B. No. 2361

The purpose and intent of this measure is to authorize the Hawaii Community Development Authority to render services to and assist state and county agencies upon request.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Corrections and Rehabilitation; Department of Business, Economic Development, and Tourism; Hawai'i Community Development Authority; and one individual.

Your Committee finds that the Hawaii Community Development Authority (HCDA) wishes to utilize its cumulative experience and knowledge to assist other state and county agencies. Currently, section 206E-18, Hawaii Revised Statutes, allows state or county agencies to render services to the HCDA upon request, but does not authorize the HCDA to reciprocate. This measure clarifies that the HCDA may provide services to and assist state and county agencies on projects within and outside designated community development districts upon request.

Your Committee notes that other state agencies would benefit from the assistance and expertise of the HCDA. Therefore, your Committee recommends that this measure be amended to require rather than allow the HCDA to render services to a state or county agency upon request.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2361, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2361, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3321 Water and Land on H.B. No. 2365

The purpose and intent of this measure is to replace the Director of Law Enforcement with the Director of Corrections and Rehabilitation as a member of the Hawaii Interagency Council for Transit-Oriented Development.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation; Department of Business, Economic Development, and Tourism; Department of Law Enforcement; and Office of Planning and Sustainable Development.

Your Committee finds that the Hawaii Interagency Council on Transit Oriented Development (Council) advises on state facilities in transit-oriented development areas, including correctional and rehabilitation facilities over which the Director of Corrections and Rehabilitation has administrative responsibilities. Your Committee further finds that the Director of Corrections and Rehabilitation, rather than the Director of Law Enforcement, is better suited to serve on the Council. This measure ensures that the Department of Corrections and Rehabilitation continues to be involved in the planning and implementation of transit-oriented development across the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2365, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2365, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3322 Water and Land on H.B. No. 2467

The purpose and intent of this measure is to repeal the sunset provision of Act 222, Session Laws of Hawaii 2021, to permanently allow the Board of Land and Natural Resources to approve rent credits for demolition and infrastructure costs for public land leases.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that Act 222, Session Laws of Hawaii 2021 (Act 222), authorizes the Board of Land and Natural Resources to approve rent credits to encourage lessees on public lands to conduct demolition work or improve infrastructure. Act 222 provides the Board of Land and Natural Resources with flexibility in its negotiations with lessees and incentivizes the development of public lands while shifting the financial burden to lessees who benefit most directly from the development of the land. Your Committee further finds that Act 222 is scheduled to sunset on June 30, 2026. This measure repeals the sunset provision of Act 222, securing the Board of Land and Natural Resources' authority to negotiate long-term leases and provide rent credit incentives for these kinds of investments.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2467, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2467, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3323 Water and Land on H.B. No. 2579

The purpose and intent of this measure is to:

- (1) Clarify that the Board of Land and Natural Resources shall not unilaterally amend the terms and conditions of any lease of public lands being extended pursuant to Act 149, Session Laws of Hawaii 2018, except as otherwise provided therein;
- (2) Clarify that if the Board of Land and Natural Resources wishes to amend the terms of and conditions of any lease of public lands being extended to reflect the Board's most current lease form and leasing practices and policies, the lease form and leasing practices and policies must be included in the rules of the Board; and
- (3) Define "lease of public lands".

Your Committee received testimony in support of this measure from one member of the Hawai'i County Council, the Japanese Chamber of Commerce and Industry of Hawaii, Kanoelehua Industrial Area Association, and one individual.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that Act 149, Session Laws of Hawaii 2018 (Act 149), established a ten-year pilot project to authorize the Board of Land and Natural Resources (Board) to extend leases of public lands in the Hilo Community Economic District. However, language that explicitly allows the Board to unilaterally amend any terms and conditions of the extended lease to conform to the most current lease form and leasing practices and policies of the Board is missing from Act 149. Nevertheless, the Board has been approving extensions of leases pursuant to Act 149 by amending the lease terms and conditions to conform to the Board's most current lease form and leasing practices and policies. This measure will resolve any ambiguity regarding lease extensions within the Hilo community Economic District.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2579, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3324 Water and Land on H.B. No. 1554

The purpose and intent of this measure is to:

- (1) Clarify that the Department of Land and Natural Resources' rulemaking authority includes adopting, amending, or repealing any rule to impose restrictions or requirements deemed necessary to implement the purposes of section 187A-5, Hawaii Revised Statutes; and
- (2) Expand the Board of Land and Natural Resources' authority to temporarily adopt, amend, or repeal certain rules by formal action at a publicly noticed meeting if the Board of Land and Natural Resources finds that an adoption, amendment, or repeal is necessary to implement effective and adaptive management measures in light of newly available technology or in light of newly available data.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Kua'āina Ulu 'Auamo, and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Fishermen's Alliance for Conservation and Tradition and one individual.

Your Committee finds that the Department of Land and Natural Resources (Department) is responsible for ensuring healthy, well-managed fisheries in Hawaii and for protecting the State's aquatic resources from over-exploitation using management tools expressly authorized by the provisions of section 187A-5, Hawaii Revised Statutes, and other authorizing statutes. Despite the variety of management tools available, your Committee finds that broadening the suite of management tools would allow the Department to more effectively manage the State's aquatic resources. This measure expands the Board of Land and Natural Resources' adaptive management authority to encompass new information and new technology, allowing the Department to better manage the State's aquatic resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1554, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3325 Water and Land on H.B. No. 1581

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources to develop a Native Plant Nurseries and Seed Bank Initiative Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, University of Hawai'i System, Care for 'Āina Now Coalition, The Nature Conservancy, Lāhainā Strong, Hawai'i Forest Industry Association, Democratic Party of Hawai'i, and six individuals.

Your Committee finds that following the August 2023 Maui wildfires, the Speaker of the Hawaii House of Representatives established six bipartisan interim working groups tasked with evaluating specific topics in the aftermath of the wildfires and making recommendations for appropriate legislative action in the Regular Session of 2024. Your Committee further finds that the findings from the bipartisan interim working groups, specifically the Wildfire Prevention Working Group, highlight the urgent need for preventative action to mitigate the risks of wildfire across the State. This measure will adopt the recommendation of the Wildfire Prevention Working Group to increase support for native plant nurseries and seed bank initiatives, which aligns with the best practices in ecosystem restoration and wildfire risk reduction.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1581, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 3326 Water and Land on H.B. No. 1900

The purpose and intent of this measure is to appropriate funds to improve the State's understanding of the complex hydrologic systems in Hawaii and provide additional resources for the Hawaii *Mesonet*.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Department of Hawaiian Home Lands, Honolulu Board of Water Supply, County of Hawai'i Department of Water Supply, University of Hawai'i, Ulupono Initiative, Hawai'i Farm Bureau, The Nature Conservancy, North Shore Hydrological Services, and one individual.

Your Committee received comments on this measure from Restore the Commons.

Your Committee finds that hydrologic data collection is critical to understanding trends, including climate change, affecting Hawaii's water resources. Your Committee further finds that the Hawaii *Mesonet* is a statewide advanced weather and climate monitoring network that collects high quality data, including data regarding hydrological processes. This measure will appropriate funds for the maintenance of the *Mesonet* to ensure that this system continues to provide high quality data or climate change into the future.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1900, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3327 Water and Land on H.B. No. 1922

The purpose and intent of this measure is to:

- (1) Expand the Department of Land and Natural Resources' rulemaking authority to include any rule deemed necessary to protect certain wildlife; and
- (2) Expand the Board of Land and Natural Resources' authority to timely adopt, amend, or repeal certain rules if the Board finds that action is necessary to implement effective and adaptive management measures in response to impacted natural resources or in light of newly available technology or data.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that newly available technology or data, or situations affecting natural resources may necessitate changes to the Department of Land and Natural Resources' rules and restrictions. This will measure enable the Department of Land and Natural Resources to respond to new technology or data or arising situations with greater flexibility.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1922, H.D. 2, and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3328 (Joint) Water and Land and Energy, Economic Development, and Tourism on H.B. No. 2263

The purpose and intent of this measure is to continue to provide irrigation water to farm operations in East Kauai and support the water system by:

- (1) Appropriating funds to the Agribusiness Development Corporation for maintenance and improvements to the East Kauai Irrigation System; and
- (2) Creating and funding positions to maintain and improve the East Kauai Irrigation System.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Hawaiian Home Lands; Agribusiness Development Corporation; Office of the Mayor of the County of Kauai; Office of Economic Development of the County of Kauai; Kaua'i Chamber; Larry Jeffs Farms, LLC; Local Food Coalition; Ulupono Initiative; Hawaii Cattlemen's Council, Inc.; and three individuals.

Your Committees find that repairs, renovation, and improvements are needed to maintain the century-old East Kauai Irrigation System as there is no reasonable replacement system. If the reservoir is decommissioned, 5,920 acres of agricultural land will dry up. This measure appropriates funds to the Agribusiness Development Corporation to maintain and improve the East Kauai Irrigation System, supporting both farm operations and the water system.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2263, H.D. 2, and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3329 (Joint) Water and Land and Hawaiian Affairs on H.B. No. 2626

The purpose and intent of this measure is to specify certain findings the Board of Land and Natural Resources must make for a lease of a government-owned Hawaiian fishpond.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs; Office of the Mayor of the County of Maui; Kua'āina Ulu 'Auamo; Hawai'i Alliance for Progressive Action; Green Party Hawai'i; Hawai'i Food+ Policy; The Nature Conservancy; Maunaloa Fishpond Heritage Center; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Hawai'i Land Trust; and forty-five individuals.

Your Committees received comments on this measure from one individual.

Your Committees find that traditional Hawaiian fishponds, or loko i'a, are culturally important and may be a potential solution to enhancing the food security of communities in Hawaii. This measure streamlines the process for the lease of government-owned fishponds, ensuring that traditional fishponds will be restored, cared for, and productive.

Your Committees have amended this measure by making it effective upon its approval.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2626, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2626, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, McKelvey).

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 3330 (Joint) Water and Land and Agriculture and Environment on H.B. No. 2690

The purpose and intent of this measure is to:

- (1) Establish within the Office of the Chairperson of the Board of Land and Natural Resources a policy lead and coordinator for Red Hill Water Alliance Initiative (WAI) initiatives;
- (2) Create the Red Hill Remediation Special Fund; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, University of Hawai'i System, Sierra Club of Hawai'i, Democratic Party of Hawai'i, and Hawai'i Alliance for Progressive Action.

Your Committees received comments on this measure from the Department of Budget and Finance and one individual.

Prior to decision making on this measure, your Committees made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 retained the contents of this measure and also inserted provisions that:

- (1) Repeal the position of Deputy to the Chairperson of the Commission on Water Resource Management (Commission) and establish the position of Executive Director of the Commission;
- (2) Amend the composition of the Commission and administratively attach it to the Department of Land and Natural Resources; and
- (3) Establish fines for certain water use offenses.

Your Committees received testimony in support of the proposed S.D. 1 from the Office of Hawaiian Affairs; Honolulu Board of Water Supply; Veterans for Peace, Chapter 113 Hawaii; Hui o Nā Wai 'Ehā; Chamber of Sustainable Commerce; Kupuna for the Mo'opuna; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; and twenty individuals.

Your Committees received testimony in opposition to the proposed S.D.1 from the Department of the Attorney General.

Your Committees received comments on the proposed S.D. 1 from the Department of Land and Natural Resources.

Your Committees find that the protection and preservation of fresh water resources is of paramount importance. The State also has unique public trust responsibilities set forth in the Hawaii State Constitution to preserve and protect public trust resources, which includes water resources. Part I of this measure creates the Red Hill Remediation Special Fund and establishes within the Department of Land and Natural Resources a policy and lead coordinator for Red Hill WAI initiatives to ensure that there is clean water on Oahu for future generations.

Your Committees find that the proposed S.D. 1 further promotes fresh water rights and encourages the effective and efficient management of the State's water resources. Continuous and experienced leadership is needed for the Commission to administer and implement the State Water Code. Your Committees find that clarification of the Commission's purpose, reform of its leadership structure, and amendment to its composition will provide greater accountability and protection of the State's waters. To this end, the proposed S.D. 1 repeals the position of Deputy to the Chairperson of the Commission and establishes the position of Executive Director of the Commission (Executive Director), who shall be appointed by the Commission, to administer and implement, under the direction of the Commission, the State Water Code, the rules, and other directives adopted by the Commission.

Your Committees further find that the proposed S.D. 1 amends the composition of the Commission and administratively attaches it to the Department of Land and Natural Resources. According to testimony received by your Committees, there is concern that the current composition of the Commission makes it vulnerable to undue political influence that may hinder emergency action or enforcement of the State Water Code against wealthy and politically powerful interests. Your Committees further find that it is essential to ensure that the Commission is able to act independently in its administration and implementation of the State Water Code. The proposed S.D. 1 will protect the Commission from undue political influence by specifying that the Chairperson of the Commission shall be elected by a majority of members of the Commission. Your Committees note that the Chairperson of the Board of Land and Natural Resources and the Director of Health or their designee shall serve as ex officio, voting members of the Commission, but shall be ineligible to serve as Chairperson of the Commission. Your Committees also note that the Executive Director shall be evaluated according to annual goals, performance measures, and other relevant criteria to ensure that more objective standards are used to assess the performance of the Executive Director and the Commission's staff.

Your Committees also find that the proposed S.D. 1 establishes fines for certain water use offenses. Meaningful penalties are needed to deter violations of the State Water Code for the protection and preservation of the State's water resources. The proposed S.D. 1 will ensure that violators of the State Water Code are held accountable by authorizing the Commission to issue fines of up to \$25,000 on a case-by-case basis.

Finally, your Committees have heard testimony expressing concern that the Executive Director, and by extension, the Commission, be further insulated from external interests that may obstruct the Commission's administration and implementation of the State Water Code. Amendments to the proposed S.D. 1 to ensure the autonomy of the Commission are therefore needed.

Accordingly, your Committees have amended this measure by adopting the proposed S.D. 1 and by making further amendments:

- (1) Clarifying that the position of the WAI Policy Coordinator shall be placed within the Office of the Executive Director of the Commission, rather than the office of the Chairperson of the Board of Land and Natural Resources;
- (2) Inserting language that authorizes the Commission to employ outside legal counsel;
- (3) Inserting language that amends the scope of the Commission's authority to declare water emergencies;
- (4) Specifying that the nominating committee of the Commission shall include one person appointed by the Chief Executive Officer of the Office of Hawaiian Affairs;
- (5) Inserting language that authorizes entities to challenge an emergency order of the Commission under certain conditions;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion;
- (7) Amending section 1 to reflect its amended purpose;
- (8) Amending section 7 to reflect its amended purpose; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2690, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2690, H.D. 2, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 4; Ayes with Reservations (Elefante, Fevella). Noes, none. Excused, 1 (McKelvey).

Agriculture and Environment: Ayes, 3; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, 2 (Rhoads, Awa).

SCRep. 3331 Water and Land on H.B. No. 2471

The purpose and intent of this measure is to establish a statutory framework for inspections of public land leases, licenses, and revocable permits by the Department of Land and Natural Resources; provided that:

- (1) The inspections may be conducted by qualified third-party inspectors contracted by the Department of Land and Natural Resources but paid for by the lessee, licensee, or permittee, as applicable; and
- (2) If the inspection identifies items needing repair or replacement, the lessee, licensee, or permittee shall be required to make the necessary repair or replacement at their expense or risk termination of their land disposition.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the House Investigative Committee established under House Resolution No. 164 of the 2021 Regular Session recommended that the Department of Land and Natural Resources (Department) select third-party inspectors to conduct physical inspections of leased properties at the expense of the lessee. The House Investigative Committee further recommended that the lessee be required to take any corrective actions recommended by the third-party inspector. This measure will improve public safety and ensure that public lands leased by the Department are well taken care of.

Your Committee has amended this measure by:

- (1) Deleting all references to revocable permits;
- (2) Deleting language that would have specified that notice of inspections shall be given in accordance with the terms and conditions of the lease, license, or revocable permit, or in writing in the event that the applicable disposition document is silent as to the notice required;
- (3) Deleting language that would have specified that no notice shall be required for inspections conducted in response to an emergency; and
- (4) Deleting the definition of “emergency”.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2471, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2471, H.D. 2, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3332 (Joint/Majority) Water and Land and Commerce and Consumer Protection on H.B. No. 2475

The purpose and intent of this measure is to, for purposes of regulating commercial activity under the laws regulating ocean recreation:

- (1) Provide that advertisements and offers of unpermitted commercial ocean use activities or commercial ocean recreational equipment are prima facie evidence that:
 - (A) The owner disseminated or directed dissemination of the advertisements or offers; and
 - (B) The commercial activity is operated at the location advertised or offered; and
- (2) Include advertisements and offers within the definition of “commercial activity”.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Kua‘āina Ulu ‘Auamo, Maui Chamber of Commerce, and seven individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Fishing and Boating Association and one individual.

Your Committees find that the overcommercialization of state ocean waters has been unnaturally encouraged by social media and through unpermitted ocean tour operators who advertise and operate without regard for laws, rules, regulations, and cultural awareness. These unpermitted commercial operators set up advertisements and online payment schemes circumventing commercial ocean activity laws and restrictions, making it difficult for the Department of Land and Natural Resources agents to enforce laws against illegal commercial activity. This measure strengthens the Department of Land and Natural Resources’ enforcement authority by allowing it to regulate the offering and advertisement of illegal commercial activity.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2475, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2475, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).
Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 3333 Water and Land on H.B. No. 2478

The purpose and intent of this measure is to authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii Fishermen’s Alliance for Conservation and Tradition.

Your Committee finds that the Pacific States Marine Fisheries Commission (PSMFC) is an interstate compact agency that helps state resource management agencies and the fishing industry sustainably manage Pacific Ocean resources, particularly those that cross jurisdictional boundaries. While the PSMFC possesses no regulatory or management authority, it provides a number of vital functions that are relevant to the State, such as a forum for the discussion of interstate fisheries resource management, coordinating fisheries-related research and management projects, and the dispersal of federal fishery disaster funds. This measure will make the State

member of the PSMFC, which may be a valuable contributor toward the members' mutual goal of better managing pacific ocean fishery resources.

Your Committee has amended this measure by specifying that at least one commissioner appointed to the Pacific State Marine Fisheries Commission shall have knowledge of Native Hawaiian cultural fishing practices and shall serve as a representative of the Native Hawaiian fishing community.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2478, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2478, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

SCRep. 3334 Water and Land on H.B. No. 2505

The purpose and intent of this measure is to:

- (1) Increase the fines for violations of land use laws; and
- (2) Impose enhanced fines for developers and owners of Important Agricultural Lands who repeatedly use the lands for unintended purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the State is constitutionally required to conserve and protect agricultural lands, promote diversified agriculture, increase agricultural self-sufficiency, and assure the availability of agriculturally suitable lands. Your Committee further finds that there are individuals who exploit the Important Agricultural Land designation for personal or financial gain, undermining the State's efforts to support a diversity of agricultural activities and opportunities that expand agricultural income and job opportunities and increase agricultural self-sufficiency for current and future generations. This measure ensures that Important Agricultural Lands are used as intended by imposing harsher penalties on those who misuse these lands.

Your Committee has amended this measure by clarifying that developers and owners of Important Agricultural Lands who have been granted a Special Use Permit by the Land Use Commission or appropriate County Planning Commission shall not be subject to the penalties imposed by this measure.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2505, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2505, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3335 Water and Land on H.B. No. 2611

The purpose and intent of this measure is to support efficient, equitable, and reliable services for conveyance transactions and records in the State by:

- (1) Statutorily establishing a transaction fee for each recording in the Bureau of Conveyances and Land Court for certain services rendered by the Bureau of Conveyances;
- (2) Authorizing the Board of Land and Natural Resources to adopt, amend, or repeal administrative fees under chapters 501 and 502, Hawaii Revised Statutes, separate from the administrative rulemaking process;
- (3) Amending the authorized use of moneys in the Bureau of Conveyance Special Fund; and
- (4) Repealing language that required fees for the use of microfilms of documents recorded in the Bureau of Conveyances to be established by the Department of Land and Natural Resources by rules.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received comments on this measure from NAIOP Hawaii.

Your Committee finds that Act 120, Session Laws of Hawaii 2009, created a \$5 transaction fee that was applied to all regular system recordings, allowing the Bureau of Conveyances to improve the automation and integrity of its recording process. Your Committee further finds that there is a fee discrepancy between the regular system and Land Court system, although the Office of the Assistant Registrar of the Land Court provides similar recordation services to the Bureau of Conveyances. This measure statutorily establishes equitable fee assessments in both recording systems to fund further improvements to the efficiency, reliability, and automation of these systems.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized the Board of Land and Natural Resources to adopt, amend, or repeal administrative fees pursuant to chapters 501 and 502, Hawaii Revised Statutes, and established requirements for such;
- (2) Making conforming amendments;

- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2611, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2611, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 3336 Commerce and Consumer Protection on H.B. No. 2298

The purpose and intent of this measure is to:

- (1) Establish a timeline by which roasted coffee, instant coffee, and ready-to-drink coffee beverages that use a geographic origin in labeling or advertising are required to contain a certain percent coffee by weight from that geographic origin;
- (2) Require wholesalers to sell off their inventory of roasted coffee, instant coffee, or ready-to-drink coffee beverages in anticipation of the phased-in labeling requirements taking effect; and
- (3) Exempt retailers that do not package roasted coffee, instant coffee, or ready-to-drink coffee beverages from liability for the sale of roasted coffee, instant coffee, or ready-to-drink coffee beverages that use a label or advertisement in violation of the coffee labeling law.

Your Committee received testimony in support of this measure from the Department of Agriculture; one member of the Hawai'i County Council; Guard Well Farm; Kanalani Ohana Farm; Kona Coffee Farmer's Association; A Coffee Farm; Morning Glory Farms; RC Farm LLC; Bea's Knees Farm; Mo Snell's Kona Coffee Farm; Hawaii Coffee Growers Association; Island Harvest Inc.; Synergistic Hawaii Agriculture Council; Mai Mahealani Farm LLC; The Buna Coffee Company; LavaRock Farm; Hawai'i Farm Bureau; Kona Coffee Farmers Association; Ka'awaloa Trail Farm; Cyanotech Corporation; Ka'u Coffee Mill; Greenwell Farms; Hawaii Coffee Association; Hawai'i Farmers Union United; Mountain Thunder Coffee Plantation; Chamber of Sustainable Commerce; Kona Amor; Olakino Coffee Farm; Greenwell Farms, Inc.; and twenty-three individuals.

Your Committee received testimony in opposition to this measure from the Kona Coffee Council, Hawaii Coffee Company, Makapueo Farms, Menehune Coffee Company, Genesis Properties LLC, Coffea Consulting, Hawaii's Thousand Friends, and fifteen individuals.

Your Committee received comments on this measure from the Hawaii Food Industry Association, 'Apapane Coffee Farm, Kona Sunset Coffee LLC, Domain Kona, and nine individuals.

Your Committee finds that the State has not adequately protected the integrity of premium, high-value names of local coffee origin regions, such as "Kona", "Kau", or "Kauai", by continuing to allow coffee blends that contain only very small amounts of coffee beans from these distinctive regions to use the name of those regions on product packaging. Your Committee believes that this practice deceives consumers and harms the integrity and economy of local coffee growers. Accordingly, this measure amends the coffee labeling laws to increase transparency, protect consumers and local coffee producers, and preserve the high-quality reputation of Hawaii-grown coffee.

Your Committee has amended this measure by:

- (1) Restoring language from the original version of this measure that established a timeline that makes it a violation to use a geographic origin in labeling or advertising of roasted coffee, instant coffee, and ready-to-drink coffee beverages if:
 - (A) Beginning July 1, 2024, less than twenty-five percent coffee by weight is from that geographic origin;
 - (B) Beginning July 1, 2025, less than fifty percent coffee by weight is from that geographic origin;
 - (C) Beginning July 1, 2026, less than seventy-five percent coffee by weight is from that geographic origin; and
 - (D) Beginning July 1, 2027, less than one hundred percent coffee by weight is from that geographic origin;
- (2) Deleting language that would have required wholesalers to sell off their inventory of roasted coffee, instant coffee, or ready-to-drink coffee beverages in anticipation of the phased-in labeling requirements taking effect;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2298, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2298, H.D. 1, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (McKelvey, Richards). Noes, none. Excused, 1 (Awa).

SCRep. 3337 (Joint) Commerce and Consumer Protection and Health and Human Services on H.B. No. 1830

The purpose and intent of this measure is to:

- (1) Establish provisional or associate level licensure requirements for marriage and family therapists, mental health counselors, and psychologists;
- (2) Authorize insurance reimbursements for these individuals, and certain supervised social worker interns, in certain circumstances;
- (3) Require psychologist license applicants to possess a doctoral degree and complete certain supervised experience requirements before sitting for the licensing examination; and
- (4) Make an appropriation for an unspecified number of full-time equivalent (FTE) positions to process provisional license applications and for the Department of Commerce and Consumer Affairs to update their internal database for the new license types and associated requirements.

Your Committees received testimony in support of this measure from the Board of Psychology, State Council on Mental Health, Disability and Communication Access Board, Department of Health, Office of Wellness and Resilience, Hawaii Disability Rights Center, Mental Health America of Hawai'i, Present Mind Institute of Hawaii, Parents and Children Together, Hawaii Substance Abuse Coalition, Hawai'i Counselors Association, Brighter Bound, Fujimoto Counseling Services LLC, Pukalani Family Practice and Urgent Care, Hawai'i Psychological Association, National Association of Social Workers – Hawai'i Chapter, Hawaiian Islands Association for Marriage and Family Therapy, AlohaCare, and forty-eight individuals.

Your Committees received comments on this measure from the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs and Hawaii Medical Service Association.

Your Committees find that there is a critical shortage of mental health professionals in Hawaii. To help alleviate the high demand for mental health services, and for clinical training purposes, associate-level practitioners that have completed rigorous educational and professional development requirements should be authorized to render certain professional mental health treatment services, so long as they are practicing under licensed clinical supervision. Your Committees find that while these important and necessary services provided by associate-level practitioners do in fact allow them to fulfill certain post-degree, pre-license clinical hours required for full licensure status, almost all of these mental health professionals otherwise go unpaid for the valuable services that they perform. This has caused many talented professionals who would have otherwise stayed in Hawaii to permanently move to one of the many other states where insurance reimbursements are allowed for associate level professionals. Therefore, this measure provides a framework to authorize insurance reimbursements for certain mental health practitioners in training to enable and encourage these future mental health professionals to remain in the State. Further, this measure clarifies certain licensing examination requirements for psychologist license applicants.

Your Committees have amended this measure by:

- (1) Clarifying the educational requirements necessary to obtain a provisional license as an associate marriage and family therapist;
- (2) Clarifying the educational requirements necessary to obtain a provisional license as an associate mental health counselor;
- (3) Clarifying that the exemption from the state psychologists licensing law shall apply to any person who is a student of psychology or enrolled in a professional psychology training program defined under chapter 465, Hawaii Revised Statutes, to prevent students of other professions related to psychology from qualifying under the exemption;
- (4) Authorizing psychologist license applicants that possess an associate psychologist provisional license to sit for their licensing examination before, rather than after, completing certain post-doctoral license experience requirements;
- (5) Inserting language to limit the waiver period to a maximum of one year for any waiver granted by the Board of Psychology to a psychologist that is not able to obtain licensure within the statutory two-year period if the psychologist can demonstrate that the delay was caused by circumstances beyond the psychologist's control;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1830, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1830, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

SCRep. 3338 (Joint) Agriculture and Environment and Commerce and Consumer Protection on H.B. No. 1688

The purpose and intent of this measure is to:

- (1) Require the Department of Health to:
 - (A) Conduct a statewide needs assessment to determine what would be needed to transition to a more circular system with less waste generation, more reuse, and an extended producer responsibility program for packaging materials and paper products;
 - (B) Convene an advisory council to review the draft needs assessment and propose recommendations throughout the assessment process;
 - (C) Hold a public hearing to obtain comments on a draft needs assessment plan; and

- (D) Complete and submit the needs assessment, including any proposed legislation, to the Legislature by December 31, 2026; and
- (2) Appropriate an unspecified amount of funds for the Department of Health to conduct the statewide needs assessment to inform the future establishment of an extended producer responsibility program.

Your Committees received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission, Kauai Climate Action Coalition, Environmental Caucus of the Democratic Party of Hawai'i, Product Stewardship Institute, Retail Merchants of Hawaii, Just Zero, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, Citizens' Climate Lobby Hawai'i, Hawaii Environmental Change Agents Solid Waste Reduction Task Force, Zero Waste Hawai'i Island, and twelve individuals.

Your Committees received testimony in opposition to this measure from Recycle Hawaii, Clean the Pacific, and five individuals.

Your Committees received comments on this measure from the Department of Health, Chamber of Sustainable Commerce, and American Beverage Association.

Your Committees find that most packaging waste in the State is handled in a linear manner and that, under current practices, solid waste may soon exceed landfill capacity in all counties. Your Committees further find that additional resources, facilities, and services will be needed to address this issue. According to testimony received by your Committees, the needs assessment required in this measure is the first step to implementing an effective extended producer responsibility program to reuse and refill packaging materials, divert organic materials, and recycle paper waste.

Your Committees have amended this measure by:

- (1) Extending the deadline for the Department of Health to complete and submit the needs assessment to the Legislature from December 31, 2026, to December 31, 2027;
- (2) Inserting an appropriation amount of \$1,000,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 1688, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 1688, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the President and the Chair on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (McKelvey). Noes, none. Excused, none.

SCRep. 3339 Transportation and Culture and the Arts on H.B. No. 1577

The purpose and intent of this measure is to authorize tow operators to charge an additional amount for overturned vehicles.

Your Committee received testimony in support of this measure from Honolulu Towing Inc.

Your Committee received testimony in opposition to this measure from Agasiva and Sons Towing.

Your Committee received comments on this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs and SS Towing HI.

Your Committee finds that towing companies often provide emergency accident recovery services, responding to and recovering vehicles overturned in accidents. Your Committee further finds that in many cases, the costs of labor, equipment, and resources far exceed the fees that tow companies are able to charge based on existing statute. This measure will ensure that tow companies are able to adequately cover the costs of challenging vehicle recovery scenarios and continue to provide critical services throughout the State.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized a towing company to be entitled to an additional unspecified dollar amount for towing of an overturned vehicle left unattended on private and public property pursuant to section 290-11, Hawaii Revised Statutes;
- (2) Inserting language that:
 - (A) Changes the fees to an unspecified amount that a towing company may charge to tow vehicles left unattended on private and public property;
 - (B) Authorizes a towing company or parking management company to charge a maximum fee of an unspecified amount for parking control or the placement or removal of vehicle immobilization devices;
 - (C) Requires that a towing company that charges fees to tow vehicles left unattended on private and public property, or a towing company or parking management company that charges fees for the placement or removal of vehicle immobilization devices, to accept payment by the vehicle owner for charges by cash, credit card, and debit card;
 - (D) Provides that a towing company shall not direct an individual to use an on-site automated teller machine in lieu of accepting payment by credit card and debit card; and
 - (E) Requires a minimum period of twelve hours before the issuance of a ticket for a violation or commencement of a tow when parked in a legal public stall, unless otherwise directed by law enforcement in the case of an emergency; and

(3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure contains an effective date of July 1, 3000.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1577, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1577, H.D. 1, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Inouye). Noes, none. Excused, 1 (Awa).

SCRep. 3340 Transportation and Culture and the Arts on H.B. No. 1936

The purpose and intent of this measure is to require the Department of Transportation to require that the securing of mooring lines from vessels to commercial docks, wharves, piers, quays, and landings be performed by labor subject to collective bargaining.

Your Committee received testimony in support of this measure from International Longshore and Warehouse Union Local 142 and fifty-seven individuals.

Your Committee received testimony in opposition to this measure from the Hawaii Shippers' Council.

Your Committee received comments on this measure from the Department of Transportation, Department of the Attorney General, Public Utilities Commission, Hawai'i Gas, and Building Industry Association of Hawaii.

Your Committee finds that Hawaii relies on the State's harbor system for the majority of imported goods that are processed each day. Your Committee further finds that it is imperative to the State's supply chain to ensure safety when securing mooring lines from vessels requiring tug assistance within a commercial harbor. This measure will ensure skilled local workers handle harbor operations by requiring that the securing of mooring lines from vessels to commercial docks, wharves, piers, quays, and landings be performed by labor subject to collective bargaining.

Your Committee has amended this measure by adding language to the legislative findings to emphasize the necessity of experienced local longshore workers to improve harbor safety.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1936, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1936, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3341 (Majority) Transportation and Culture and the Arts on H.B. No. 2112

The purpose and intent of this measure is to require persons operating mopeds in the State to carry an insurance policy.

Your Committee received testimony in opposition to this measure from Hawaiian Style Rentals & Sales; Mopeds Direct, Inc.; Moped Doctors; Moped Garage; and thirteen individuals.

Your Committee finds that existing statute does not require moped owners to purchase and carry an insurance policy for their mopeds. Your Committee further finds that according to state data, there were four hundred seventeen crashes involving mopeds in 2023, two hundred forty-one of which involved another motor vehicle. This measure requires moped owners to purchase an insurance policy, protecting moped operators and other persons and property involved in a collision.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2112, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2112, H.D. 2, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Inouye). Excused, 1 (Awa).

SCRep. 3342 (Joint) Transportation and Culture and the Arts and Government Operations on H.B. No. 2446

The purpose and intent of this measure is to authorize:

- (1) The Examiner of Drivers to suspend the driver's license of a person who violates certain regulations relating to the use of disability parking permits;
- (2) Each county to enact ordinances to enforce the design and construction requirements for the provision of accessible parking spaces, including the establishment of penalties for failure to comply with the ordinances; and
- (3) Officials appointed by a county to enter the property of places of public accommodation to enforce violations of the county ordinances.

Your Committees received testimony in support of this measure from the Hawaii State Council on Developmental Disabilities, Disability and Communication Access Board, Retail Merchants of Hawaii, and six individuals.

Your Committees find that the Statewide Parking Program for persons with disabilities provides individuals with mobility disabilities the ability to travel and park in accessible parking spaces via the use of parking placards and is administered by the Disability and Communication Access Board. Your Committees further find that currently, improper use and insufficient enforcement impact access for legitimate program participants. This measure will assure appropriate use of placards by expanding enforcement at the municipal level.

Your Committees have amended this measure by restoring a provision from House Bill No. 2446, H.D. 1, that required the court to distribute fifty percent of the fines imposed upon a person who violates certain regulations for the use of disability parking permits to the law enforcement agency that issued the citation.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2446, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2446, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Kanuha).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Wakai).

SCRep. 3343 Transportation and Culture and the Arts on H.B. No. 2015

The purpose and intent of this measure is to require the Department of Transportation to identify an emergency egress route other than Komo Mai Drive from Pacific Palisades or, if no other route can be found, determine the feasibility of constructing an alternate emergency egress route.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board.

Your Committee finds that Pacific Palisades is extremely vulnerable to natural disasters, including but not limited to hurricanes and flash flooding. Your Committee further finds that over the past two decades, the residents of Pacific Palisades have, at times, been unable to leave or return to the community due to water main breaks, tree fallings, road flooding, traffic accidents, police investigations, and other incidents that required the closure of Komo Mai Drive. This measure will help provide residents of Pacific Palisades with an emergency egress route in the event of an emergency or natural disaster.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2015, H.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3344 Transportation and Culture and the Arts on H.B. No. 1539

The purpose and intent of this measure is to:

- (1) Increase fines for violations of certain traffic laws and required motor vehicle insurance minimums;
- (2) Establish minimum and maximum sentences for persons convicted of violations of certain traffic laws; and
- (3) Amend the minimum liability coverage thresholds to unspecified amounts.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Association for Justice, and eight individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender, American Property Casualty Insurance Association of America, Hertz Corporation, State Farm Mutual Automobile Insurance Company, and three individuals.

Your Committee received comments on this measure from the Department of the Attorney General; Department of Commerce and Consumer Affairs' Insurance Division; Hawaii Insurers Council; and Turo, Inc.

Your Committee finds that as overall traffic fatalities and injuries have increased in recent years, there has been a dramatic increase in traffic violations committed by repeat offenders, including driving without a license, speeding, and committing other traffic violations. Your Committee recognizes the need for greater safeguards and deterrents to protect the safety and welfare of the State's residents. This measure will increase fines for repeat offenders to prevent hazardous driving.

Your Committee has amended this measure by:

- (1) Establishing penalties for the placement of any device upon a vehicle designed to immobilize the vehicle without consent of the owner of the vehicle;
- (2) Inserting language that establishes a separate prohibition on driving motor vehicles having noisy mufflers on public highways in high-density areas;
- (3) Inserting language that defines "high-density areas";
- (4) Inserting unspecified penalty amounts, imprisonment sentences, community service times, and insurance amounts;
- (5) Inserting language that establishes tiered fines for violations of motor scooter muffler regulations;
- (6) Inserting language that establishes tiered fines for violations of motor vehicle muffler regulations;

- (7) Amending section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the House Draft 1 of this measure contains unspecified insurance liability coverage minimums. Should your Committees on Judiciary and Consumer Protection choose to deliberate on this measure, your Committee respectfully requests that they consider minimum bodily injury liability insurance levels of \$25,000 per person and \$50,000 per accident.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1539, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1539, H.D. 1, S.D. 1, and be referred to your Committees on Judiciary and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante, Inouye). Noes, none. Excused, 1 (Awa).

SCRep. 3345 Transportation and Culture and the Arts on H.B. No. 1932

The purpose and intent of this measure is to:

- (1) Authorize the Department of Transportation to acquire, including by condemnation, any real, personal, or mixed property for immediate or future use and own, hold, improve, rehabilitate, sell, assign, exchange, transfer, convey, lease, or dispose of the property acquired;
- (2) Amend the definition of "public lands" to exclude lands to which the Department of Transportation holds title; and
- (3) Authorize the Department of Transportation to directly acquire any real property for its purposes.

Your Committee received testimony in support of this measure from the Department of Transportation and Signature Aviation.

Your Committee finds that the acquisition of real property in the State is a responsibility of the Board of Land Natural Resources. As the title holder, the Board of Land and Natural Resources must be involved in the review and approval of leases operated solely by the Department of Transportation, leading to delays and inefficiencies in the Department's administration of the State's airports and harbors. This measure streamlines the administrative processes related to the management and improvement of transportation systems, enabling the Department of Transportation to deliver projects and provide improvements that benefit the public.

Your Committee has amended this measure by:

- (1) Authorizing the Department of Transportation to acquire, or contract to acquire, property for projects relating to climate mitigation and adaptation, noise and visual buffer zones and barriers, and ground transportation facilities pursuant to section 264-142, Hawaii Revised Statutes;
- (2) Inserting language requiring the sale or disposal of property by the Department of Transportation to be subject to the existing process in section 171-53, Hawaii Revised Statutes;
- (3) Authorizing the Director of Transportation to expend funds appropriated by the Legislature for the acquisition, management, or maintenance of property for projects relating to climate mitigation and adaptation and visual and noise buffer zones and barriers; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1932, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1932, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3346 (Joint) Health and Human Services and Higher Education on H.B. No. 2504

The purpose and intent of this measure is to:

- (1) Establish a cigarette floor inventory tax on the stock inventory of cigarettes held by licensees before any increase in cigarette and tobacco tax laws is assessed and levied; and
- (2) Amend the cigarette tax rate and specify the disposition of revenues collected at the amended rate to the Hawaii Cancer Research Special Fund, Trauma System Special Fund, Community Health Centers Special Fund, and Emergency Medical Services Special Fund.

Your Committees received testimony in support of this measure from the Department of Health; American Lung Association in Hawaii; University of Hawai'i Cancer Center; Hawaii Substance Abuse Coalition; Hawai'i Pacific Health; American Cancer Society Cancer Action Network Inc.; Hawai'i Public Health Institute; Hawai'i Primary Care Association; American Heart Association, Inc.; University of Hawaii Professional Assembly; and two individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Smokers Alliance; Cigar Association of America, Inc.; and three individuals.

Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Tax Foundation.

Your Committees find that tobacco use is the leading cause of preventable cancer and other health problems, and that raising taxes on tobacco products has been proven to decrease tobacco consumption. Your Committees further find that funding for the University of Hawaii Cancer Center and their research, treatment, and educational initiatives are critical in addressing the pressing health needs of our community in combating cancer. This measure increases the tax on tobacco products and allocates the revenue to various special funds, including the Hawaii Cancer Research Special Fund, to be used for cancer research to reduce the prevalence of smoking and smoking-related illnesses. Moneys in the fund will also be used to support the work of the University of Hawaii Cancer Center to conduct groundbreaking research, expand access to life-saving treatments, and bolster community outreach and education efforts.

Your Committees have amended this measure by:

- (1) Deleting language that would have established a cigarette floor inventory tax to on the stock inventory of cigarettes held by licensees;
- (2) Inserting language that expands the cigarette tax levied upon a wholesaler or dealer under section 245-3, Hawaii Revised Statutes, to include electronic smoking devices and e-liquids sold, used, or possessed on and after July 1, 2024;
- (3) Inserting language that disposes 1.0 cents of the moneys collected under the tax imposed on cigarettes, electronic smoking devices, and e-liquid sold, used, or possessed by a wholesaler or dealer after June 30, 2024, to the credit of the Tobacco Enforcement Special Fund established pursuant to section 28-15, Hawaii Revised Statutes; provided that the disposition shall not exceed \$500,00 in a fiscal year;
- (4) Inserting language that amends section 304A-2168, Hawaii Revised Statutes, that governs the Hawaii Cancer Research Special Fund to:
 - (A) Repeal the provision that allows moneys in the special fund to be used for the Cancer Research Center of Hawaii's research expenses;
 - (B) Allow philanthropic donations received in conjunction with programs of the Cancer Research Center of Hawaii to be deposited into the special fund;
 - (C) Require the University of Hawaii's semi-annual report to the Legislature on the moneys in the special fund to explain in detail, all income, in addition to all expenditures, from the special fund;
 - (D) Prohibit the Cancer Research Center of Hawaii's Early Clinical Trial Program from receiving any moneys from the special fund; and
 - (E) Require annual reporting of the financial status of the Early Clinical Trial Program to the Legislature beginning January 1, 2025; and
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2504, H.D. 2, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2504, H.D. 2, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3347 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on H.B. No. 2686

The purpose and intent of this measure is to:

- (1) Amend the laws relating to the Hawaii Hurricane Relief Fund and Hawaii Property Insurance Association;
- (2) Expand the Hawaii Property Insurance Association's authority to include the issuance of property insurance other than fire insurance for certain real properties organized as a condominium;
- (3) Reinstate the special mortgage recording fee;
- (4) Explicitly authorize the Hawaii Property Insurance Association to issue property insurance policies to certain condominiums outside of areas designated for coverage by the Hawaii Property Insurance Association;
- (5) Mandate that the Hawaii Property Insurance Association member insurers recoup assessment costs; and
- (6) Amend specific coverage limits, fund capitalization amounts, and assessment percentages by deleting specified dollar amount percentages and authorize the Hawaii Hurricane Relief Fund and the Hawaii Property Insurance Association boards to recommend appropriate amounts and percentages to the Insurance Commissioner.

Your Committees received testimony in support of this measure from the Hawaii Green Infrastructure Authority; Hawaii Insurers Council; Hawai'i Association of REALTORS; Hawaii Credit Union League; Hawaii Bankers Association; First Insurance Company of Hawaii; Mortgage Bankers Association of Hawaii; Honolulu Tower AOA; Community Associations Institute; Hawaii First Realty LLC, Hawaii Financial Services Association; Zephyr Insurance Company, Inc.; and seventeen individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Department of Taxation, State Farm Mutual Automobile Insurance Company, Tax Foundation of Hawaii, Land Use Research Foundation of Hawaii, and Maui Chamber of Commerce.

Your Committees find that the increasing risk of hurricanes due to climate change coupled with prior high-cost accumulated losses associated with failing water pipe systems, have caused many insurers that offer condominium building master insurance policies in Hawaii to significantly increase their premium rates or exit the local market entirely. This has left many associations faced with the difficult choice of either paying drastically higher premiums or allowing their condominium buildings to be under-insured. Your Committees find that temporary assistance is necessary to help stabilize the condominium property insurance market until market conditions improve and risks become more insurable, and therefore this measure expands the markets of last resort in the State by enabling the Hawaii Property Insurance Association and the Hawaii Hurricane Relief Fund to underwrite certain insurance risks that no standard insurer is willing to underwrite.

Your Committees note that the new definition of “condominium”, as proposed in this measure, imposes new requirements of “insurability”, “remediation plans”, and “timetables” on all condominium properties without defining the insurance benefits such properties would gain through the review process. Your Committees also note the concerns raised in testimony concerning the transient accommodations tax structure, the ability to ensure adequate liquidity of the Hawaii Hurricane Relief Fund, and the recoupment of assessment language for the Hawaii Property Insurance Association, proposed in this measure in its current form, and find that amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have deposited certain percentages of the taxes levied, assessed, and collected with regard to the transient vacation rentals to various trust accounts and inserting language that, beginning January 1, 2026:
 - (A) Requires an unspecified percentage of tax revenues to be deposited quarterly into the Mass Transit Special Fund; and
 - (B) Requires unspecified dollar amounts to be allocated to trust accounts pursuant to sections 431:21-105 and 431P-16, Hawaii Revised Statutes, from the transient accommodations tax;
- (2) Inserting language to increase from 4.265 percent to 4.275 percent the tax on gross premiums charged against each authorized insurer pursuant to section 431:7-202(a), Hawaii Revised Statutes;
- (3) Amending certain reporting requirements to require the Hawaii Property Insurance Association and the Hawaii Hurricane Relief Fund to submit reports to the Insurance Commissioner and Legislature, rather than just the Insurance Commissioner, for transparency, and clarifying the financial information that shall be included in the annual report;
- (4) Amending the recoupment of assessments language concerning the Hawaii Property Insurance Association and Hawaii Hurricane Relief Fund to clarify that member insurers and property and casualty insurers are authorized to use any excess recovery assessments as an offset to subsequent assessments, rather than require insurers to provide pro rata credits to policyholders’ premiums;
- (5) Restoring language in existing law regarding the Hawaii Hurricane Relief Fund’s powers to assess insurers following a loss from a covered event known as the second assessment, including language that:
 - (A) Allows the Fund to increase the rate of assessment to an amount not to exceed five percent, and to include the insurer’s gross direct written premiums for motor vehicle insurance in this State;
 - (B) Requires the Fund to assess insurers that acted as servicing facilities during the twelve months ending at the start of the month preceding the month in which the covered event occurs at a rate of 1.5 percent of the total coverage provided by the Fund under its hurricane property insurance policies;
 - (C) Sets forth how the second assessment is administered; and
 - (D) Allows certain net accumulated moneys, commitments, and bonds to be used if losses from a covered event exceed the assessment pursuant to section 431P-5(b)(8)(B), Hawaii Revised Statutes, rather than section 431P-5(b)(8)(A), Hawaii Revised Statutes;
- (6) Deleting language that would have placed a cap on the surcharge levied by the Hawaii Hurricane Relief Fund at two percent, and restoring language in existing law that places a cap of seven and one-half percent a year;
- (7) Inserting legislative findings and updating section 1 to reflect its amended purpose; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of H.B. No. 2686, H.D. 1, as amended herein, and recommend that it pass Second Reading in the form attached hereto as H.B. No. 2686, H.D. 1, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Kim, Wakai, Fevella). Noes, none. Excused, none.

SCRep. 3348 Commerce and Consumer Protection on H.B. No. 2801

The purpose and intent of this measure is to allow condominiums to be eligible for commercial property assessed financing, also known as commercial property assessed clean energy and resiliency, or C-PACER financing.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Office of Planning and Sustainable Development; Hawaii Green Infrastructure Authority; Hawaii State Energy Office; City and County of Honolulu Department of Budget and Fiscal Services; City and County of Honolulu Board of Water Supply; City and County of Honolulu Office of Climate Change; Sustainability and Resiliency; one member of the Honolulu City Council; Hawai'i Association of REALTORS; Holomua Collaborative; C-Pace Alliance, Inc.; Petros PACE Finance, LLC; Hawaii Insurers Council; Hawaii Laborers-Employers Cooperation and Education Trust; United Association of Plumbers and Fitters of Hawaii, Local 675; Laborer's International Union of North America--Local 368; Hawaii Solar Energy Association; AARP Hawai'i; Hawaii First Realty LLC; Palehua Townhouse Association; Ulupono Initiative; CastleGreen Finance, LLC; Hawai'i Energy; aio; Hawai'i Gas; Hawai'i Community Foundation; HPM Building Supply; Hawaii Venture Capital Association; Mana Up; Tori Richard, Ltd.; The Association of Apartment Owners of Pat's at Punalu'u, Inc.; and five individuals.

Your Committee received testimony in opposition of this measure from two individuals.

Your Committee received comments on this measure from the Hawaii Credit Union League, Hawaii Bankers Association, and Mortgage Bankers Association of Hawaii.

Your Committee finds that the tragic fire that occurred in 2017, at the Marco Polo high-rise condominium in Honolulu, resulting in four deaths and the damage or destruction of approximately two hundred units in the building, brought to light the consequences that can occur when a residential high-rise building lacks an automatic fire sprinkler system. While county ordinances have been enacted to require older high-rise buildings to either install fire sprinkler systems or pass a safety evaluation, many high-rise buildings have been slow to comply due to the high cost of installation. Your Committee finds that allowing residential high-rise condominium properties to participate in commercial property assessed financing (C-PACER), which generally provides financing at more attractive rates and terms than are available with conventional financing, can help high-rise buildings install these necessary and lifesaving fire safety systems, as well as incentivize other high-rise buildings already in compliance with county fire safety requirements to install other high-cost but valuable improvements, such as renewable energy systems. Therefore, this measure allows high-rise residential condominium properties to participate in C-PACER financing.

Notwithstanding, your Committee has heard the testimony of the Hawaii Green Infrastructure Authority, noting that the counties have indicated their preference to outsource all aspects of the C-PACER program to the Hawaii Green Infrastructure Authority and requesting that certain amendments be made to the measure in its current form to address this issue.

Subsequent to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language that allows high-rise residential condominium properties to be eligible for C-PACER financing and delegates all existing administrative responsibilities of the counties under C-PACER to the Hawaii Green Infrastructure Authority.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending it by:

- (1) Amending its legislative findings to delete inaccurate statements pertaining to high-rise condominium properties;
- (2) Replacing references to condominiums with condominium associations to maintain consistency with chapter 514B, Hawaii Revised Statutes, relating to condominiums;
- (3) Inserting language that defines "property owner" in section 196-61, Hawaii Revised Statutes;
- (4) Deleting language that would have amended the definition of "commercial property" to include "any long-term care or assisted living facility", which is independently eligible for C-PACER financing;
- (5) Clarifying that the definition of "commercial property" includes any condominium organized under chapter 514B, Hawaii Revised Statutes, consisting of six or more units; provided that individual residential condominium units shall not be considered commercial property and shall be ineligible to apply for C-PACER financing under part IV of chapter 196, Hawaii Revised Statutes;
- (6) Clarifying that the principal amount of financing made pursuant to section 196-64.5, Hawaii Revised Statutes, in the case of a condominium, shall be a governmental lien against the condominium association;
- (7) Inserting language that a condominium organized under chapter 514B, Hawaii Revised Statutes, entering into a C-PACER financing assessment contract shall provide evidence of the written consent of each creditor with a valid Uniform Commercial Code financing statement or mortgage recorded with the bureau of conveyances that encumbers or otherwise secures the condominium;
- (8) Reinstating language in section 196-64.5, Hawaii Revised Statutes, that the lien of general real property taxes or any other assessments levied under section 46-80, Hawaii Revised Statutes, or any other lien foreclosed shall not accelerate or extinguish the remaining term of the commercial property assessed financing assessment;
- (9) Inserting language that before commercial property assessed financing program assessments are imposed upon a project, a commercial property assessed financing contract must be entered into by a condominium association with an approved commercial property assessed financing lender and the Hawaii Green Infrastructure Authority; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2801, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2801, H.D. 1, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3349 Commerce and Consumer Protection on H.B. No. 2700

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Wildfire Relief Fund and Hawaii Wildfire Relief Fund Corporation to provide compensation for property damage resulting from catastrophic wildfires in the State;
- (2) Require the Corporation's board to report to the Legislature; and
- (3) Appropriates funds.

Your Committee received testimony in support of this measure from Hawaiian Electric, Hawaiian Telcom, International Brotherhood of Electrical Workers Local 1260, Hawai'i Farm Bureau, Clearway Energy Group, Ulupono Initiative, Kona-Kohala Chamber of Commerce, AES Hawai'i, Par Hawaii, Kapolei Chamber of Commerce, Chamber of Commerce Hawaii, Maui Chamber of Commerce, Retail Merchants of Hawaii, and forty-six individuals.

Your Committee received testimony in opposition to this measure from the State Farm Mutual Automobile Insurance Company and Hawaii Association for Justice.

Your Committee received comments on this measure from the Office of the Governor, Department of Commerce and Consumer Affairs, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Office of the Auditor, Public Utilities Commission, Tax Foundation of Hawaii, and Kaua'i Island Utility Cooperative.

Your Committee finds that the rise of global temperatures associated with climate change have increased the risk of catastrophic wildfires around the globe, costing approximately \$50 billion in annual average costs, according to the World Economic Forum. As insurance markets have been roiled by the rising frequency of catastrophic wildfires and floods, new and innovative strategies for loss mitigation and cost recovery are necessary to supplement traditional insurance risk management approaches. Your Committee finds that collectively, the State, counties, utilities, private companies, and large property owners can share their capacities and resources to capitalize, as a supplemental form of self-insurance, a relief fund that can help address the risk of future catastrophic wildfires in Hawaii, and therefore this measure establishes the Hawaii Wildfire Relief Fund and Hawaii Wildfire Relief Fund Corporation to provide community-contributed compensation for property damage resulting from wildfires.

Your Committee notes the concerns raised by testifiers that the measure as written includes certain limitations on claims against contributors or their affiliates, employees, agents, or insurers, which could preclude all property damage claims against fund contributors for any disaster in the future caused by the contributors. Your Committee finds that this issue merits further consideration and respectfully requests that subsequent Committees to which this measure is referred consider this issue should they choose to deliberate on this measure.

Your Committee further finds that it is imperative that electric utilities develop, implement, and administer effective plans for wildfire risk mitigation. During 2019 and 2020, a resilience working group, convened to identify resilience threat scenarios and potential grid impacts, key customer and infrastructure sector capabilities and needs following a severe event and loss of power, and gaps and priorities in grid and customer capabilities following a severe event and loss of power. The resilience working group identified wildfires as one of five types of severe events of utmost importance to consider for achieving a resilient grid and provided resilience options for utilities to consider.

Your Committee finds that securitization may be the most efficient, least-cost way to finance wildfire risk mitigation costs and expenses because utility rate securitization transactions have an extensive track record of success. Bonds securitized by the right to recover rates receive investment grade credit ratings from credit rating agencies and thus provide a means of securing capital at a lower interest rate than those currently available to utilities, in particular utilities without an investment grade credit rating. Therefore, your Committee finds it necessary to create a process whereby electric utilities develop and submit effective risk-based wildfire risk protection plans that are approved, and if necessary modified by, the Public Utilities Commission, which enable electric utilities to timely recover the prudently incurred costs and expenses of developing, implementing, and administering those plans and the costs and expenses are not borne disproportionately by any particular ratepayer or county.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Auditor shall conduct an annual "financial" audit of the Hawaii Wildfire Relief Fund Corporation and Wildfire Relief Fund, and further clarifying that the audit required shall be conducted using both generally accepted accounting principles and the generally accepted government auditing standards, rather than using both generally accepted accounting principles and the statutory accounting principles published by the National Association of Insurance Commissioners;
- (2) Removing telecommunications service providers from the list of entities identified as being able to participate in the Wildfire Relief Fund as contributors;
- (3) Authorizing the Public Utilities Commission to determine a cap on the percentage of a public utility's contributions to the Wildfire Relief Fund, including initial and supplemental contributions, that may be recovered from its customers in rates, unless the Commission directs otherwise;
- (4) Inserting as a new Part II of this measure, language recently developed by the Department of the Attorney General in consultation with the State Bond Counsel to develop a potential alternative financing mechanism to securitization that could potentially be used to fund the Hawaii Wildfire Relief Fund Corporation and Wildfire Relief Fund;
- (5) Amending section 1 to further clarify its intended purpose; and

(6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2700, H.D. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2700, H.D. 3, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3350 (Joint) Housing and Health and Human Services on S.C.R. No. 17

The purpose and intent of this measure is to request the Hawaii Public Housing Authority to utilize the State's Rental Supplement Program to provide homeowners insurance premium assistance to housing owners who rent or lease to qualified kupuna a mortgaged property within designated lava zones.

Your Committees received testimony in support of this measure from three individuals.

Your Committees received comments on this measure from the Hawaii Public Housing Authority.

Your Committees find that housing in the lava zones was once an affordable option for many residents, but the growing insurance expenses have resulted in higher rents being charged in the area to offset the insurance increases. Your Committees also find that the high cost of living in the State, fixed income and complex health needs of older adults, rapidly increasing rents, and the declining availability of affordable housing make rental assistance for qualifying older adults a necessity. Therefore, this measure requests help to provide homeowners insurance premium assistance to housing owners who rent or lease to qualified kupuna to reduce their rent costs.

Your Committees note the Hawaii Public Housing Authority's request for an appropriation should this program be implemented.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 17 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 5. Noes, none. Excused, none.
Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Shimabukuro).

SCRep. 3351 (Joint) Housing and Health and Human Services on S.R. No. 9

The purpose and intent of this measure is to request the Hawaii Public Housing Authority to utilize the State's Rental Supplement Program to provide homeowners insurance premium assistance to housing owners who rent or lease to qualified kupuna a mortgaged property within designated lava zones.

Your Committees received comments on this measure from the Hawaii Public Housing Authority.

Your Committees find that housing in the lava zones was once an affordable option for many residents, but the growing insurance expenses have resulted in higher rents being charged in the area to offset the insurance increases. Your Committees also find that the high cost of living in the State, fixed income and complex health needs of older adults, rapidly increasing rents, and the declining availability of affordable housing make rental assistance for qualifying older adults a necessity. Therefore, this measure requests help to provide homeowners insurance premium assistance to housing owners who rent or lease to qualified kupuna to reduce their rent costs.

Your Committees note the Hawaii Public Housing Authority's request for an appropriation should this program be implemented.

As affirmed by the records of votes of the members of your Committees on Housing and Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 9 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Housing: Ayes, 5. Noes, none. Excused, none.
Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Shimabukuro).

SCRep. 3352 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 48

The purpose and intent of this measure is to urge the Department of Law Enforcement, fire departments and police departments of each county, humane societies in each county, and media organizations throughout the State to collaborate to create and disseminate public service announcements to highlight the dangers of, and advocate against the use of, illegal fireworks to protect the health and safety of the community, pets, and wildlife.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that illegal fireworks in Hawaii pose a significant safety, environmental, and health issue. Your Committee further finds that the effects of illegal fireworks are significant and wide-ranging, including the physical injuries to and psychological effects on individuals, to the displacement of pets, and the negative impact on wildlife. Your Committee concludes that a public service announcement regarding the dangers of fireworks is necessary to protect communities, pets, and wildlife.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 48 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3353 Public Safety and Intergovernmental and Military Affairs on S.R. No. 36

The purpose and intent of this measure is to urge the Department of Law Enforcement, fire departments and police departments of each county, humane societies in each county, and media organizations throughout the State to collaborate to create and disseminate public service announcements to highlight the dangers of, and advocate against the use of, illegal fireworks to protect the health and safety of the community, pets, and wildlife.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that illegal fireworks in Hawaii pose a significant safety, environmental, and health issue. Your Committee further finds that the effects of illegal fireworks are significant and wide-ranging, including the physical injuries to and psychological effects on individuals, to the displacement of pets, and the negative impact on wildlife. Your Committee concludes that a public service announcement regarding the dangers of fireworks is necessary to protect communities, pets, and wildlife.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 36 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3354 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 95

The purpose and intent of this measure is to encourage the United States Congress to pass the Nurture Originals, Foster Art, and Keep Entertainment Safe Act of 2023 (NO FAKES Act) and the No Artificial Intelligence Fake Replicas And Unauthorized Duplications Act of 2024 (No AI FRAUD Act).

Your Committee received testimony in support of this measure from SAG-AFTRA; Hawaii Ports Maritime Council, AFL-CIO; Hawaii State AFL-CIO; IATSE Local 665; and five individuals.

Your Committee finds that the technology to produce, disseminate, and exploit media content utilizing generative and traditional artificial intelligence has exploded and evolved significantly in recent years. Your Committee further finds that there are currently two bipartisan efforts to protect individuals against artificial intelligence abuse and establish a framework to assert that every individual has a property right to their own likeness and voices. Your Committee concludes that it is imperative for the United States Congress to pass these bipartisan bills, the Nurture Originals, Foster Art, and Keep Entertainment Safe Act of 2023 (NO FAKES Act) and the No Artificial Intelligence Fake Replicas And Unauthorized Duplications Act of 2024 (No AI FRAUD Act) or similar legislation as a safeguard against the exploitation of artists, creative professionals, and individuals by unfettered artificial intelligence technology.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 95 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3355 Public Safety and Intergovernmental and Military Affairs on S.R. No. 81

The purpose and intent of this measure is to encourage the United States Congress to pass the Nurture Originals, Foster Art, and Keep Entertainment Safe Act of 2023 (NO FAKES Act) and the No Artificial Intelligence Fake Replicas And Unauthorized Duplications Act of 2024 (No AI FRAUD Act).

Your Committee received testimony in support of this measure from SAG-AFTRA; Hawaii Ports Maritime Council, AFL-CIO; Hawaii State AFL-CIO; IATSE Local 665; and five individuals.

Your Committee finds that the technology to produce, disseminate, and exploit media content utilizing generative and traditional artificial intelligence has exploded and evolved significantly in recent years. As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 81 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3356 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 109

The purpose and intent of this measure is to urge the United States Congress to adopt the Social Security 2100 Act.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i.

Your Committee finds that the Social Security Act was originally passed in 1935 to provide essential benefits and financial security to retired individuals, senior citizens, and persons with disabilities. Your Committee further finds that as a result of the retirement of the large baby boomer generation, it is projected that under existing law, the trust fund reserves for the Old-Age and Survivors Insurance Trust Fund and Disability Insurance Trust Fund will be depleted by 2034. Your Committee concludes that it is imperative that Social Security remains a well-funded public entitlement without being privatized through self-directed retirement accounts that would subject beneficiaries, and particularly retiree savings accounts, to considerable risk and redirect Social Security assets into the coffers of Wall Street brokerages and investment banks.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 109 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3357 Public Safety and Intergovernmental and Military Affairs on S.R. No. 91

The purpose and intent of this measure is to urge the United States Congress to adopt the Social Security 2100 Act.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i.

Your Committee finds that the Social Security Act was originally passed in 1935 to provide essential benefits and financial security to retired individuals, senior citizens, and persons with disabilities. Your Committee further finds that as a result of the retirement of the large baby boomer generation, it is projected that under existing law, the trust fund reserves for the Old-Age and Survivors Insurance Trust Fund and Disability Insurance Trust Fund will be depleted by 2034. As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 91 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3358 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 196

The purpose and intent of this measure is to apply to the United States Congress to call an Article V Convention to propose certain limited amendments to the United States Constitution.

Your Committee received testimony in support of this measure from Convention of States Action, Convention of States Action Hawaii, and seventeen individuals.

Your Committee finds that the concentration of power at the federal level has made federal officials less responsive to the will of the people and more readily influenced by lobbyists, wealthy corporations, and special interest groups. Your Committee further finds that policy decisions made at the state level may be more responsive to the people's needs. This measure will restore the responsiveness of the federal government to the people and restrain federal abuses of power by applying for a convention in accordance with Article V of the United States Constitution to propose amendments to the Constitution.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 196 and recommends that it be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Elefante, Rhoads). Noes, none. Excused, 1 (Awa).

SCRep. 3359 (Majority) Public Safety and Intergovernmental and Military Affairs on S.R. No. 168

The purpose and intent of this measure is to apply to the United States Congress to call an Article V Convention to propose certain limited amendments to the United States Constitution.

Your Committee received testimony in support of this measure from Convention of States Action, Convention of States Action Hawaii, and two individuals.

Your Committee finds that the concentration of power at the federal level has made federal officials less responsive to the will of the people and more readily influenced by lobbyists, wealthy corporations, and special interest groups. Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Elefante). Noes, 1 (Rhoads). Excused, 1 (Awa).

SCRep. 3360 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 197

The purpose and intent of this measure is to urge state departments to require households impacted by the Lahaina fires to exhaust their insurance policies before requesting financial support from the State.

Your Committee received no testimony on this measure.

Your Committee finds that the recent August 2023 Maui wildfires have caused significant devastation to Lahaina and communities in Hawaii, leaving many individuals and families in need of assistance. Your Committee further finds that many households impacted by the wildfires may have insurance policies that could provide financial assistance to cover damages and losses incurred during the wildfires, including temporary housing assistance. Your Committee concludes that it is necessary to allow the State to prioritize its limited resources to those most in need by urging state departments to require households impacted by the August 2023 Maui wildfires to exhaust their insurance policies before requesting financial support from the State.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 197 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3361 Public Safety and Intergovernmental and Military Affairs on S.R. No. 169

The purpose and intent of this measure is to urge state departments to require households impacted by the Lahaina fires to exhaust their insurance policies before requesting financial support from the State.

Your Committee received no testimony on this measure.

Your Committee finds that the recent August 2023 Maui wildfires have caused significant devastation to Lahaina and communities in Hawaii, leaving many individuals and families in need of assistance. Your Committee further finds that many households impacted by the wildfires may have insurance policies that could provide financial assistance to cover damages and losses incurred during the wildfires, including temporary housing assistance. No. 169 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3362 Education on S.C.R. No. 142

The purpose and intent of this measure is to urge the Department of Education to study the impact of teacher salary step movements on salary schedule compression.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, and two individuals.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the salary schedule for Hawaii public school teachers includes steps, or annual increments, that are commensurate with years of service. Teacher salary step movements determine the career progression of educators and their compensation within the Hawaii public school system. However, teachers have not received regular step movements, resulting in some highly experienced teachers with decades of experience earning no more than a teacher with significantly fewer years of experience. Additionally, salary schedule compression has been identified as one factor affecting recruitment, retention, and morale of highly qualified educators in the State. Accordingly, this measure urges the Department of Education to study the impact of teacher salary step movements to ensure informed policy decisions and fair, competitive compensation for teachers.

Your Committee has amended this measure by:

- (1) Adding the Director of Human Resources Development to the list of recipients of certified copies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 142, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 142, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3363 Education on S.R. No. 171

The purpose and intent of this measure is to urge the Department of Education to study the impact of teacher salary step movements on salary schedule compression.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, Democratic Party of Hawai'i, and Education Caucus of the Democratic Party of Hawai'i.

Your Committee finds that the salary schedule for Hawaii public school teachers includes steps, or annual increments, that are commensurate with years of service. Teacher salary step movements determine the career progression of educators and their compensation within the Hawaii public school system. As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 171, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.R. No. 171, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3364 Housing on S.C.R. No. 6

The purpose and intent of this measure is to approve the dedication of Kukuia Street, Lahaina, Hawaii, to the County of Maui.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and one member of the Maui County Council.

Your Committee finds that the Hawaii Housing Finance and Development Corporation acquired over five hundred acres of land in 1994 from the Department of Land and Natural Resources for the development of the Villages at Leiali'i housing project in Lahaina. At the time of the transfer, the land was undeveloped and the construction of streets and infrastructure was required to support the housing project. As the Hawaii Housing Finance and Development Corporation is not in the business of maintaining streets and roadways, the Corporation generally dedicates those that it develops to the respective county upon completion of the construction. County oversight for Kukuia Street will allow greater flexibility for development plans in the surrounding area and support public safety. The dedication of roads to a county represents a conveyance of lands and is subject to the requirements of section 171-64.7, Hawaii Revised Statutes, which requires the approval of the Legislature by concurrent resolution to be adopted by at least a two-third majority vote. This measure is therefore necessary to approve the dedication of Kukuia Street to the County of Maui.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 6, as amended herein, and recommends that it be referred to your Committee on Ways and Means, in the form attached hereto as S.C.R. No. 6, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Kanuha, Awa).

SCRep. 3365 Housing on S.C.R. No. 56

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to adopt administrative rules to prohibit Rental Housing Revolving Fund loan forgiveness.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State's Rental Housing Revolving Fund (RHRF) provides equity gap low-interest loans to qualified developers constructing affordable housing units, which is funded by state taxpayers, namely revenues from the conveyance tax and from general appropriations made by the Legislature. Your Committee also finds that repayment does not begin until after senior debt has been fully repaid, often in year thirty-one, with developers able to refinance RHRF debt from private sector banks to repay the RHRF early, but developers rarely do so because they have no incentive to do so. Your Committee also finds that forgiving RHRF loans to private developers amounts to a free gift of taxpayer funds to private entities. Further, developers continue to own the property and realize all future equity. Therefore, this measure requests the Hawaii Housing Finance and Development Corporation to prohibit the forgiveness of Rental Housing Revolving Fund loans to ensure the availability of future funds to create more housing.

Your Committee has amended this measure by:

- (1) Clarifying the Hawaii Housing Finance and Development Corporation is urged to adopt administrative rules that prohibit Rental Housing Revolving Fund loan forgiveness unless the Corporation repossesses the project;
- (2) Inserting language urging the Hawaii Housing Finance and Development Corporation to prohibit the issuance of grants from the Rental Housing Revolving Fund;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 56, as amended herein, and recommends that it be referred to your Committee on Judiciary, in the form attached hereto as S.C.R. No. 56, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3366 Housing on S.R. No. 45

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to adopt administrative rules to prohibit Rental Housing Revolving Fund loan forgiveness.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State's Rental Housing Revolving Fund (RHRF) provides equity gap low-interest loans to qualified developers constructing affordable housing units, which is funded by state taxpayers, namely revenues from the conveyance tax and from general appropriations made by the Legislature. Your Committee also finds that repayment does not begin until after senior debt has been fully repaid, often in year thirty-one, with developers able to refinance RHRF debt from private sector banks to repay the RHRF early, but developers rarely do so because they have no incentive to do so. Your Committee also finds that forgiving RHRF loans to private developers amounts to a free gift of taxpayer funds to private entities. Further, developers continue to own the property and realize all future equity. Therefore, this measure requests the Hawaii Housing Finance and Development Corporation to prohibit the forgiveness of Rental Housing Revolving Fund loans to ensure the availability of future funds to create more housing.

Your Committee has amended this measure by:

- (1) Clarifying the Hawaii Housing Finance and Development Corporation is urged to adopt administrative rules that prohibit Rental Housing Revolving Fund loan forgiveness unless the Corporation repossesses the project;
- (2) Inserting language urging the Hawaii Housing Finance and Development Corporation to prohibit the issuance of grants from the Rental Housing Revolving Fund;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 45, as amended herein, and recommends that it be referred to your Committee on Judiciary, in the form attached hereto as S.R. No. 45, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3367 Health and Human Services on S.C.R. No. 177

The purpose and intent of this measure is to request the Department of Budget and Finance to work with the State Council on Developmental Disabilities to enhance the Hawaii Achieving a Better Life Experience (ABLE) Savings Program by promoting it to all individuals who may qualify.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Executive Office on Aging, Hawaii Disability Rights Center, and one individual.

Your Committee finds that the Hawaii Achieving a Better Life Experience (ABLE) Savings Program provides individuals with disabilities access to the same types of flexible savings accounts that are available to individuals without disabilities, such as college savings accounts, for which interest earned on savings is tax-exempt. Furthermore, an ABLE account allows individuals with a disability to accrue funds to pay for a variety of expenses, such as medical and dental care, education, community-based supports, employment training, assistive technology, housing, and transportation. Your Committee also finds that there are approximately forty-three thousand individuals who are eligible for the Hawaii ABLE Savings Program; however, many of them are either unaware of the program or are reluctant to enroll due to lack of information about the program. This measure will enable the Hawaii ABLE Savings Program to engage in necessary outreach to educate these individuals and create incentives for them to enroll in the program, allowing them to engage in financial planning and save money for their futures.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 177 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3368 Health and Human Services on S.R. No. 153

The purpose and intent of this measure is to request the Department of Budget and Finance to work with the State Council on Developmental Disabilities to enhance the Hawaii Achieving a Better Life Experience (ABLE) Savings Program by promoting it to all individuals who may qualify.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Executive Office on Aging, and Hawaii Disability Rights Center.

Your Committee finds that the Hawaii Achieving a Better Life Experience (ABLE) Savings Program provides individuals with disabilities access to the same types of flexible savings accounts that are available to individuals without disabilities, such as college

savings accounts, for which interest earned on savings is tax-exempt. Furthermore, an ABLE account allows individuals with a disability to accrue funds to pay for a variety of expenses, such as medical and dental care, education, community-based supports, employment training, assistive technology, housing, and transportation. Your Committee also finds that there are approximately forty-three thousand individuals who are eligible for the Hawaii ABLE Savings Program; however, many of them are either unaware of the program or are reluctant to enroll due to lack of information about the program. This measure will enable the Hawaii ABLE Savings Program to engage in necessary outreach to educate these individuals and create incentives for them to enroll in the program, allowing them to engage in financial planning and save money for their futures.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 153 and recommends that it be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3369 Transportation and Culture and the Arts on S.C.R. No. 180

The purpose and intent of this measure is to urge Turo, Inc., to immediately cease and desist listing any state airport parking lot as a vehicle pick-up site on Turo's digital platform.

Your Committee received testimony in support of this measure from the Airlines Committee of Hawaii.

Your Committee received comments on this measure from Turo, Inc.

Your Committee finds that the proliferation of online car-sharing platforms, including Turo, Inc., has exacerbated the scarcity of available parking spaces at State airports. Your Committee further finds that there are existing statutes and administrative rules aimed at regulating commercial activities at airports, including peer-to-peer car sharing. Your Committee concludes that it is imperative to regulate platforms like Turo, Inc., in order to address the challenges posed by the insufficient number of parking stalls at airports in the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 180 and recommends that it be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3370 Transportation and Culture and the Arts on S.R. No. 155

The purpose and intent of this measure is to urge Turo, Inc., to immediately cease and desist listing any state airport parking lot as a vehicle pick-up site on Turo's digital platform.

Your Committee received testimony in support of this measure from Airlines Committee of Hawaii, Fair Wind Cruises, and one individual.

Your Committee received comments on this measure from Turo, Inc.

SCRep. 3371 Health and Human Services on Gov. Msg. No. 555

Recommending that the Senate advise and consent to the nomination of the following:

STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

G.M. No. 555 ANNE CHIPCHASE, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Anne Chipchase for service on the State Council on Developmental Disabilities.

Your Committee received testimony in support of the nomination for the appointment of Anne Chipchase from the State Council on Developmental Disabilities and Hawaii Disability Rights Center.

Upon review of the testimony, your Committee finds that Ms. Chipchase's background and dedication to providing health care to her community qualify her to be nominated for appointment to the State Council on Developmental Disabilities as a member representing the state protection and advocacy system. Your Committee notes that Ms. Chipchase is currently serving as an advocate for the Hawaii Disability Rights Center. Ms. Chipchase has an extensive history contributing to her community's health needs, serving as a Licensed Certified Medicare Agent for Pacific Benefit Options since 2021, Senior Engagement Partner for Ohana Health Plan, Inc.

from 2008 to 2019, and Director of Development for National Kidney Foundation of Hawaii from 2006 to 2007. Your Committee also finds that Ms. Chipchase is a respected member of several advocacy groups and charitable organizations including the Honolulu Community Action Program and Palolo Lions Club. Your Committee further finds that Ms. Chipchase has a thorough understanding of the role and responsibilities of council members and her experience in advertising, marketing, and community relations will enhance the effectiveness of the State Council on Developmental Disabilities. Your Committee therefore recommends that Anne Chipchase be appointed to the State Council on Developmental Disabilities based on her knowledge, background, and dedication to public service.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3372 Health and Human Services on Gov. Msg. No. 566

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAI'I HEALTH SYSTEMS CORPORATION

G.M. No. 566 LISA RANTZ, for a term to expire 06-30-2025

Your Committee reviewed the personal history, resume, and statement submitted by Lisa Rantz for service on the Board of Directors of the Hawai'i Health Systems Corporation.

Your Committee received testimony in support of the nomination for the appointment of Lisa Rantz from the Hawai'i Health Systems Corporation and one individual.

Upon review of the testimony, your Committee finds that Ms. Rantz's background and dedication to serving the public qualify her to be nominated for appointment to the Board of Directors of the Hawai'i Health Systems Corporation as an at-large voting member. Your Committee notes that Ms. Rantz has been serving as the Executive Director for the Hilo Medical Center Foundation since 2014. In her role as Executive Director, Ms. Rantz has helped grow the Foundation's outreach and program efforts, including developing programs to assist researchers, educators, policymakers, and rural residents to address changing rural environments by identifying and advocating for rural health issues and policy changes. Previously, Ms. Rantz obtained leadership experience as Director of Achievement for Catapult Learning from August 2013 to November 2014, and Executive Director for Friendly Community Outreach Center from June 2010 to August 2013. Your Committee notes Ms. Rantz's extensive history of community service, including serving as the President of the Hawaii State Rural Health Association since 2019, and member of the Hawaii Medical Education Council since 2018. Your Committee also finds that Ms. Rantz received her Bachelor of Arts in Social Science, Magna Cum Laude from Chapman University. Your Committee further finds that Ms. Rantz has a thorough understanding of the role and responsibilities of board members and her extensive experience in management, non-profit organizations, and community outreach will enhance the effectiveness of the Board. Your Committee therefore recommends that Lisa Rantz be appointed to the Board of Directors of the Hawai'i Health Systems Corporation based on her knowledge, background, and commitment to rural health in Hawaii.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3373 Health and Human Services on Gov. Msg. No. 607

Recommending that the Senate advise and consent to the nomination of the following:

ADMINISTRATOR, STATE HEALTH PLANNING & DEVELOPMENT AGENCY

G.M. No. 607 JOHN (JACK) LEWIN, for a term to expire 12-07-2026

Your Committee reviewed the personal history, resume, and statement submitted by John (Jack) Lewin for service as the Administrator of the State Health Planning and Development Agency administratively attached to the Department of Health.

Your Committee received testimony in support of the nomination for the appointment of John (Jack) Lewin from the Department of Health; Department of Human Services; Executive Office on Aging; Hawaii Medical Service Association; Ohana Health Plan, Inc.; AlohaCare; Hawaii Disability Rights Center; Hawai'i Primary Care Association; Hawai'i Health Information Exchange; Healthcare Association of Hawaii; Hawaii Association of Health Plans; Hawaii Medical Association; Liberty Dialysis-Hawaii; and seventeen individuals.

Upon review of the testimony, your Committee finds that Dr. Lewin's medical training, extensive and diverse knowledge in health care management through his over thirty years of experience in the health care sector in various capacities, and commitment to universal access to quality health care qualify him to be nominated for appointment as the Administrator of the State Health Planning and Development Agency (SHPDA).

Dr. Lewin has been serving as the Interim Administrator of SHPDA since April 2023, charged with the development of a state health system reform plan and implementation strategy to achieve universal access, improved quality of care, patient and population outcomes, equity, and sustainable and affordable health care costs. Dr. Lewin earned his bachelor's degree in biological science from the University of California, Irvine, and his medical degree from the University of Southern California. Thereafter, he joined the United States Public Health Service and spent seven years serving as the Commissioned Officer and Director of the Navajo Area Indian Health Service in Window Rock, Arizona. From there, Dr. Lewin entered private practice, providing care to the rural

communities of Maui, where he eventually became the Chief Physician at Kula Hospital and Director of Kula Clinic for the Hawaii Health Systems Corporation.

From 1987 to 1994, Dr. Lewin served as the Director of Health, during which he served as the State's Chief Physician, Chief Public Health Officer, and Chief Environmental Officer. As head of the Department of Health, Dr. Lewin managed approximately six thousand five hundred employees, a budget of over \$1,000,000,000, and approximately eighty statewide public health, primary care, mental health, substance abuse and environmental health programs, and served as the Chief Executive Officer of the State's largest hospital system with thirteen facilities and two thousand inpatient acute and long-term beds. Dr. Lewin also spearheaded many innovative public health programs, making great strides in providing greater access to health care for the residents of Hawaii. Dr. Lewin's professional experience also includes serving as the President and Chief Executive Officer of the Cardiovascular Research Foundation from 2013 to 2017, a non-profit foundation that is highly respected as the most prominent global leader in clinical trials and preclinical research, and a combined sixteen years of experience as the Chief Executive Officer of two of the nation's most prestigious medical societies - the American College of Cardiology from 2006 to 2012, and the California Medical Association from 1995 to 2006. Dr. Lewin also founded and served as the Principal for Lewin and Associates LLC, a health innovation and health management consulting firm focused on value-based care, population health, and health access until April 2023.

Testimony submitted in support of Dr. Lewin's appointment speak to his expertise in medicine, ability to bring stakeholders together, experience in health innovations, knowledge of health policy at the state and federal levels, and experience as an administrator and leader. Testimony submitted by the Department of Health attest that during his tenure as its Director, the State was recognized as the "Health State" for the high quality of healthcare, access to insurance, and some of the longest life spans and quality of life years in the country, and also praise his professional experience after leaving the State, including his contributions to federal health policy leadership, professional advocacy, medical research and quality improvement, health information technology, and market-based innovation.

Your Committee further finds that Dr. Lewin's knowledge of Hawaii's culture and experience in the local health care sector at various levels, including physician, clinic, hospital, government, and public health, will invigorate SHPDA's leadership to assure an affordable, accessible, and high quality public health and health care system for future generations. Your Committee therefore recommends that John (Jack) Lewin be appointed as Administrator of the State Health Planning and Development Agency based on his knowledge, experience, and commitment to universal access to high-quality, equitable, and affordable health care for all residents of the State.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3374 Health and Human Services on Gov. Msg. Nos. 541 and 542

Recommending that the Senate advise and consent to the nominations of the following:

COMMISSION ON FATHERHOOD

G.M. No. 541 MARTY OLIPHANT, for a term to expire 06-30-2027; and

G.M. No. 542 BRIAN ALSTON, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by Marty Oliphant and Brian Alston for service on the Commission on Fatherhood.

MARTY OLIPHANT

Your Committee received testimony in support of the nomination for the appointment of Marty Oliphant from one individual.

Upon review of the testimony, your Committee finds that Mr. Oliphant's professional experience and dedication to serving the public qualify him for appointment to the Commission on Fatherhood. Mr. Oliphant holds a master's degree and bachelor's degree in Social Work from the University of Hawaii at Manoa and has over thirty years of experience working in social services organizations with children and their families. Your Committee notes that Mr. Oliphant is currently the Director of Social Services and Director of Program Integration for Lili'uokalani Trust. Previously, Mr. Oliphant has held multiple leadership roles in the field of social work, including Director of Programs for HUGS (Help, Understanding & Group Support) from June 2014 to November 2016; Executive Director for National Association of Social Workers, Hawaii Chapter from April 2011 to June 2014; and Director of the Oahu Children's Justice Center of the Judiciary from June 2008 to February 2011. Your Committee further notes that Mr. Oliphant served on the Board of Psychology as a lay member from the community at large from July 2013 to June 2021, and has a thorough understanding of the role and responsibilities of board and commission members. Your Committee finds that Mr. Oliphant's extensive experience in social work, program development, and management will enhance the effectiveness of the Commission on Fatherhood. Your Committee therefore recommends that Marty Oliphant be appointed to the Commission on Fatherhood based on his knowledge, background, and dedication to public service.

BRIAN ALSTON

Your Committee received no testimony for the nomination for the appointment of Brian Alston.

Your Committee finds that Mr. Alston's background and desire to promote healthy family relationships in the State qualify him to be appointed to the Commission on Fatherhood. Mr. Alston holds a master's degree in Cognitive Science and Religion from Boston University and a master's degree in Theology and Ethics from Hartford Seminary. Your Committee notes that Mr. Alston is currently serving as a Resident Assistant at Mental Health Kokua. Previously, Mr. Alston has exemplified his experience in conflict resolution

and leadership development as Resident Services Manager for Lihue Court Townhomes from January 2012 to December 2016, Recovery Coach for Paradise Recovery, LLC from September 2007 to April 2009, and Staff Therapist for Addiction Treatment Center in Brighton, Massachusetts from June 2003 to July 2007. Your Committee further finds that Mr. Alston's extensive experience serving community members will enhance the effectiveness of the Commission on Fatherhood. Your Committee therefore recommends that Brian Alston be appointed to the Commission on Fatherhood based on his knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Health and Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3375 Health and Human Services on Gov. Msg. Nos. 543, 544, and 545

Recommending that the Senate advise and consent to the nominations of the following:

DISABILITY & COMMUNICATION ACCESS BOARD

G.M. No. 543 SCOTT FLEMING, for a term to expire 06-30-2027;

G.M. No. 544 LISAANN TOM, for a term to expire 06-30-2027; and

G.M. No. 545 MICHAEL NOJIMA, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by Scott Fleming, LisaAnn Tom, and Michael Nojima for service on the Disability and Communication Access Board.

SCOTT FLEMING

Your Committee received testimony in support of the nomination for the appointment of Scott Fleming from the Disability and Communication Access Board.

Upon review of the testimony, your Committee finds that Mr. Fleming's experience, background, and commitment to public service qualify him for appointment to the Disability and Communication Access Board as a member with individual knowledge in areas for which the Board has rulemaking authority. Your Committee notes that Mr. Fleming has been an architect for nearly thirty years. During the course of Mr. Fleming's career, he has gained extensive experience with and knowledge of the Americans with Disabilities Act (ADA) and has spent most of his career designing public facilities to comply with ADA accommodations and requirements. Your Committee further notes that Mr. Fleming is the owner and principal of Fleming & Associates, LLC, an architectural and planning firm on Hawaii Island. Your Committee notes that Mr. Fleming has served previous terms as a member of the Disability and Communication Access Board, including as a member of the Board's Standing Committee on Facility Access, and has a thorough understanding of the roles and responsibilities of Board members. Your Committee therefore recommends that Scott Fleming be appointed to the Disability and Communication Access Board based on his knowledge, experience, and commitment to public service.

LISAANN TOM

Your Committee received testimony in support of the nomination for the appointment of LisaAnn Tom from the Disability and Communication Access Board and two individuals.

Upon review of the testimony, your Committee finds that Ms. Tom's knowledge, background, and desire to serve her community qualify her for appointment to the Disability and Communication Access Board in the capacity of a consumer/person with a disability. Your Committee notes that Ms. Tom is a deaf advocate who actively promotes awareness for relay services to empower the deaf, deafblind, hard-of-hearing, and those with speech disabilities. During the course of Ms. Tom's career, and as a deaf person herself, she has gained broad experience and knowledge about the needs of those with hearing disabilities and has diligently worked to ensure they are able to lead improved lives while promoting awareness for those with disabilities in her community. Your Committee therefore recommends that LisaAnn Tom be appointed to the Disability and Communication Access Board based on her background, experience, and dedication to public service.

MICHAEL NOJIMA

Your Committee received testimony in support of the nomination for the appointment of Michael Nojima from the Disability and Communication Access Board

Upon review of the testimony, your Committee finds that Mr. Nojima's background, experience, and commitment to public service qualify him for appointment to the Disability and Communication Access Board as a member with knowledge in areas for which the Board has rulemaking authority. Your Committee notes that Mr. Nojima has been a registered licensed civil engineer in Hawaii for over forty three years. Mr. Nojima is the Principal in charge of Gray, Hong, Nojima & Associates, Inc. and has extensive experience as a civil engineer and project manager in all phases of development. During the course of Mr. Nojima's career, he has gained broad experience and knowledge about public and private sector infrastructure, design, and construction, specifically for persons with disabilities. Your Committee notes Mr. Nojima has previously served as a member of the Disability and Communication Access Board and wishes to again serve as an advocate for persons with disabilities, specifically in the area of facility access. Your Committee therefore recommends that Michael Nojima be appointed to the Disability and Communication Access Board based on his knowledge, experience, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Health and Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3376 Health and Human Services on Gov. Msg. Nos. 556, 557, 558, and 638

Recommending that the Senate advise and consent to the nominations of the following:

STATE COUNCIL ON MENTAL HEALTH

- G.M. No. 556 SAMUEL "RAY" RICE, for a term to expire 06-30-2027;
G.M. No. 557 LEA DIAS, for a term to expire 06-30-2027;
G.M. No. 558 JON FUJII, for a term to expire 06-30-2027; and
G.M. No. 638 LILLIE CHRISTINE MONTAGUE-HICKS, for a term to expire 06-30-2028

Your Committee reviewed the personal histories, resumes, and statements submitted by Samuel "Ray" Rice, Lea Dias, Jon Fujii, and Lillie Christine Montague-Hicks for service on the State Council on Mental Health.

SAMUEL "RAY" RICE

Your Committee received testimony in support of the nomination for the reappointment of Samuel "Ray" Rice from the Department of Health and the Department of Human Services.

Upon review of the testimony, your Committee finds that Mr. Rice's over twenty years of experience in the field of social work, commitment to public service, and passion for advocating for children and families, disabled and elderly, and those with mental illness, qualify him for reappointment to the State Council on Mental Health. Your Committee notes that Mr. Rice has been serving on the State Council on Mental Health since July 2022, as a member representing a principal state agency with respect to social services, and if reappointed, will continue to serve in the same capacity. Mr. Rice earned a Bachelor's degree in Social Sciences from Hawaii Pacific University and a Master's degree in Education, Administration, and Supervision from the Tennessee Technological University. Mr. Rice is currently the Assistant Program Development Administrator for the Department of Human Services' Adult Protective and Community Services, Social Services Division, a position he has held since December 2015. Mr. Rice's professional experience also includes serving as a Supervisor for the Adult/Juvenile Community Service and Restitution Unit for the Court of the First Circuit of the Judiciary, Command Coordinator for the Marine Corps Community Services Hawaii's Sexual Assault Prevention and Response Unit, and Supervisor of the Department of Social and Health Services' Behavioral Support Section. Your Committee finds that Mr. Rice has a thorough understanding of the role and responsibilities of board members and his extensive experience in mental health awareness and training and will continue to enhance the effectiveness of the State Council on Mental Health. Your Committee therefore recommends that Samuel "Ray" Rice be reappointed to the State Council on Mental Health based on his knowledge, background, and dedication to public service.

LEA DIAS

Your Committee received testimony in support of the nomination for the reappointment of Lea Dias from the Department of Health, Department of Human Services, and one individual.

Upon review of the testimony, your Committee finds that Ms. Dias's over thirty years of experience in the field of vocational rehabilitation, commitment to public service, and passion for assisting individuals with disabilities, including those with significant mental health challenges, to overcome obstacles, recognize their strengths, and attain their career and life goals qualify her for reappointment to the State Council on Mental Health. Your Committee further notes that Ms. Dias has been serving on the State Council on Mental Health since July 2022, as a member representing a principal state agency with respect to vocational rehabilitation, and if reappointed, will continue to serve in the same capacity. Ms. Dias holds a Master's degree in Education with a specialization in rehabilitation counseling from the University of Hawaii at Manoa, and has spent her entire professional career working in the Division of Vocational Rehabilitation of the Department of Human Services, starting as a Vocational Rehabilitation Specialist and moving up through positions such as Counseling Section Supervisor, Adjustment Section Supervisor, and Branch Administrator, to her current position as Vocational Rehabilitation Administrator. Your Committee notes that Ms. Dias has also served as the President for the National Council of State Agencies for the Blind and is a National Board Member for the National Blindness Professional Certification Board. Your Committee finds that Ms. Dias has a thorough understanding of the role and responsibilities of board members and her extensive experience in vocational rehabilitation and her strong desire to find and retain competitive employment for the people of Hawaii with mental health issues will continue to be great assets to the State Council on Mental Health. Your Committee therefore recommends that Lea Dias be reappointed to the State Council on Mental Health based on her knowledge, background, and dedication to public service.

JON FUJII

Your Committee received testimony in support of the nomination for the reappointment of Jon Fujii from the Department of Health, Department of Human Services, 'Ohana Health Plan, Kaiser Permanente Hawaii, Aloha Care, and Hawaii Association of Health Plans.

Upon review of the testimony, your Committee finds that Mr. Fujii's over thirty years of experience in the State's health care industry, commitment to public service, and strong desire to improve the lives of individuals experiencing mental health challenges and their families through the fortification and strengthening of the continuum of care qualify him for reappointment to the State Council on Mental Health. Your Committee notes that Mr. Fujii has been serving on the State Council on Mental Health since July 2020, as a member representing a principal state agency with respect to Medicaid and the Hawaii Advisory Commission on Drug Abuse and Controlled Substances, and if reappointed, will continue to serve in the same capacity. Mr. Fujii earned a Bachelor of Business Administration degree in Finance and Master in Business Association degree in Finance and Real Estate from the University of Hawaii at Manoa. Your Committee further notes that Mr. Fujii has been working in the Med-QUEST Division of the Department of Human Services for eighteen years, as an Administrator of the Research Officer/Data Analysis and Provider Network Section from 2006 to

2015 and as the Health Care Services Branch Administrator since 2015, and therefore, has extensive knowledge of the various challenges faced by individuals suffering from mental illnesses in the State's Medicaid population. Your Committee also notes that Mr. Fujii's previous professional experience includes serving as a Senior Contract Reimbursement Manager at Hawaii Pacific Health and Medical Economics Manager at Kapiolani Health Hawaii. Your Committee finds that Mr. Fujii has a thorough understanding of the role and responsibilities of board members and his extensive experience and knowledge in health care administration, Med-QUEST, and finance, will continue to enhance the effectiveness of the State Council on Mental Health. Your Committee therefore recommends that Jon Fujii be reappointed to the State Council on Mental Health based on his knowledge, background, and dedication to public service.

LILLIE CHRISTINE MONTAGUE-HICKS

Your Committee received testimony in support of the nomination for the appointment of Lillie Christine Montague-Hicks from the Department of Health.

Upon review of the testimony, your Committee finds that Ms. Montague-Hicks' over ten years of senior leadership and management experience with nonprofit organizations focusing on homelessness, mental health, and substance abuse prevention, and dedication to serving the public qualify her to be appointed to the State Council on Mental Health as a member representing a principal state agency with respect to education. Ms. Montague-Hicks earned a Master of Education in Counseling Psychology from Howard University and Bachelor of Arts in Psychology from Indiana University, and began her professional career as a licensed professional counselor providing individual, group, and family counseling to youth and their families, working in various settings, including residential, outpatient, school, and community. Your Committee notes that Ms. Montague-Hicks' experience in mental health and substance use prevention, including serving as a Program Director for behavioral health treatment programs and school and community-based prevention programs at the Southwest Behavioral Health Services, Inc. in Arizona, Director of Strategic Initiatives at Raleigh Rescue Mission, Inc. in North Carolina, and Executive Director at Berean Community Center, Inc. in Georgia, has equipped her with a solid foundation pertaining to the issues and concerns of individuals affected by mental illness. Since December 2023, Ms. Montague-Hicks has been serving as the State Mental Health Coordinator for the Department of Education, covering Project HI AWARE2 funded by the United States Health and Human Services – Substance Abuse and Mental Health Services Administration, which support the Department's multi-tiered system of support to implement mental health-related awareness, prevention, intervention, and resilience activities with the goal of ensuring that students have access and are connected to appropriate and effective behavioral health supports. Your Committee therefore recommends that Lillie Christine Montague-Hicks be appointed to the State Council on Mental Health based on her knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Health and Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Awa).

SCRep. 3377 Health and Human Services on Gov. Msg. Nos. 560, 561, 562, and 563

Recommending that the Senate advise and consent to the nominations of the following:

STATE REHABILITATION COUNCIL

- G.M. No. 560 SANDRA JAKOB, for a term to expire 06-30-2026;
- G.M. No. 561 SEAN KNOX, for a term to expire 06-30-2025;
- G.M. No. 562 RAMON RUIZ, for a term to expire 06-30-2026; and
- G.M. No. 563 VICTORIA KENNEDY, for a term to expire 06-30-2026

Your Committee reviewed the personal histories, resumes, and statements submitted by Sandra Jakob, Sean Knox, Ramon Ruiz, and Victoria Kennedy for service on the State Rehabilitation Council.

SANDRA JAKOB

Your Committee received testimony in support of the nomination for the appointment of Sandra Jakob from the Department of Human Services.

Upon review of the testimony, your Committee finds that Ms. Jakob's over twenty years of experience working with persons with disabilities as a vocational rehabilitation specialist in the private sector and desire to serve her community qualify her for consideration for appointment to the State Rehabilitation Council as a member who is a qualified vocational rehabilitation counselor with knowledge of and experience with vocational rehabilitation programs. Your Committee notes that Ms. Jakob earned her Bachelor of Arts degree in Psychology and Master of Education degree in Counseling and Guidance with a specialization in Rehabilitation from the University of Hawaii at Manoa, and has been a certified rehabilitation counselor and licensed mental health counselor for over twenty years. Your Committee further notes that Ms. Jakob is a resident of the County of Hawaii and has been serving as a Vocational Rehabilitation Specialist at PACBLU since 2003, assisting injured individuals in the State's workers' compensation system to adjust to their disability and return to work. Your Committee finds that Ms. Jakob's expertise in providing assistance to individuals with disabilities in identifying feasible vocational alternatives reflecting the change in their capabilities and achieving their goals will be a great asset to the State Rehabilitation Council. Your Committee therefore recommends that Sandra Jakob be appointed to the State Rehabilitation Council based on her background, knowledge, and desire to contribute to the community.

SEAN KNOX

Your Committee received testimony in support of the nomination for the appointment of Sean Knox from the Department of Human Services and one individual.

Upon review of the testimony, your Committee finds that Mr. Knox's twenty-five years of experience in providing job placement and employment services in the State and desire to serve his community qualify him for consideration for appointment to the State Rehabilitation Council as a member representing the State Workforce Development Council. Mr. Knox is currently the President, Chief Executive Officer, and Partner of Hawaii Employment Services Inc., doing business as HiEmployment, a position he has held since 2010. With offices located throughout the State, Mr. Knox oversees the recruitment, hiring, and placement of thousands of individuals every year, in various sectors across the State. Prior to his current position, Mr. Knox served as the President and owner of POI Employment LLC, a professional employer organization that he established in 2005 to assist employers in Hawaii to secure temporary administrative and accounting professionals. Your Committee notes that Mr. Knox is an active member in community organizations, including serving as a member of the Kapiolani Community College Accounting Program Advisory Committee since 2003, and Hawaii Literacy, Inc.'s Board of Directors since 2007. Mr. Knox has also served on the State Workforce Development Council since 2016, in various positions including the Chair of its Performance Measurement Committee and Vice Chair of its Sector Strategies and Career Pathways Committee. Your Committee finds that Mr. Knox's experience in serving clients on both sides of employment - employers who seek temporary and permanent employees and individuals who seek employment - throughout the State in various industries will bring a unique and valuable perspective to the State Rehabilitation Council. Your Committee therefore recommends that Sean Knox be appointed to the State Rehabilitation Council based on his experience, knowledge, and desire to contribute to the community.

RAMON RUIZ

Your Committee received testimony in support of the nomination for the appointment of Ramon Ruiz from the Department of Human Services.

Upon review of the testimony, your Committee finds that Mr. Ruiz's professional experience, background, and commitment to public service qualify him for consideration for appointment to the State Rehabilitation Council as a representative of business, industry, and labor. Mr. Ruiz is a disabled combat veteran who retired from the United States Air Force after twenty-four years of service. Since 2014, Mr. Ruiz has been serving as an Employment Service Specialist for the Workforce Development Division of the Department of Labor and Industrial Relations. In this position, Mr. Ruiz provides services in coordination with the U.S. Department of Labor's Employment and Training Administration and Veterans Employment Services at the American Job Center Hawaii on Oahu, including developing business relationships with various employers and recruiters with focus on the employment of disabled and other eligible veterans with a high emphasis on those who have significant barriers to employment, including those who are economically or educationally disadvantaged, homeless, or previously incarcerated. Mr. Ruiz is also the owner of 808-Celular, LLC, a wireless plan wholesale and retail company he founded in 2014. Your Committee finds that Mr. Ruiz's expertise and personal dedication to assisting veterans with disabilities will be great assets for the State Rehabilitation Council. Your Committee therefore recommends that Ramon Ruiz be appointed to the State Rehabilitation Council based on his experience, knowledge, and desire to contribute to the community.

VICTORIA KENNEDY

Your Committee received testimony in support of the nomination for the reappointment of Victoria Kennedy from the Department of Human Services.

Upon review of the testimony, your Committee finds that Ms. Kennedy's over thirty years of advocating for individuals who are blind and visually impaired, desire to contribute to the community, and interest in serving the public qualify her for reappointment to the State Rehabilitation Council. Ms. Kennedy, having been legally blind since 1978, and totally blind since 2000, has been a strong advocate for those with disabilities with particular focus on blindness. Ms. Kennedy currently provides her services to the Guide Dogs of Hawaii, a nonprofit corporation founded in 1955, for the purpose of improving the quality of life for Hawaii's legally blind residents through the utilization of guide dogs, adaptive aids, and advocacy. Ms. Kennedy's responsibilities include giving presentations relating to guide dogs to service organizations and schools, and providing training to blind individuals on the use of assistive technologies such as iPhones and the Victor Reader Stream, a handheld digital media player that provides an opportunity for blind and visually impaired persons to listen to books, newspapers, music, and internet radio stations. Your Committee finds that Ms. Kennedy's first-hand experiences with blindness, educating and advocating for individuals who are blind, and her work for the legitimacy of service animals equip her with the knowledge that will continue to be great assets to the State Rehabilitation Council. Your Committee notes that Ms. Kennedy has been serving on the State Rehabilitation Council since 2021. Your Committee therefore recommends that Victoria Kennedy be reappointed to the State Rehabilitation Council based on her experience, knowledge, and desire to contribute to the community.

As affirmed by the records of votes of the members of your Committee on Health and Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3378 Health and Human Services on Gov. Msg. Nos. 564 and 565

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF CERTIFICATION OF OPERATING PERSONNEL IN WASTEWATER TREATMENT PLANTS

G.M. No. 564 MARIA YAMASHITA, for a term to expire 06-30-2027; and

G.M. No. 565 JON NAKASHIMA, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by Maria Yamashita and Jon Nakashima for service on the Board of Certification of Operating Personnel in Wastewater Treatment Plants.

MARIA YAMASHITA

Your Committee received no testimony on the nomination for the reappointment of Maria Yamashita.

Upon review of the testimony, your Committee finds that Ms. Yamashita's background and experience qualify her for reappointment to the Board of Certification of Operating Personnel in Wastewater Treatment Plants as a member from the State agency responsible for the State's water quality program. Your Committee notes that Ms. Yamashita currently serves as Administrator of the Board of Certification of Operating Personnel in Wastewater Treatment Plants for the Wastewater Branch of the Department of Health, since 2018. Previously, Ms. Yamashita worked for over a decade in the customer service industry, obtaining valuable communication, time management, and interpersonal skills. Your Committee finds that Ms. Yamashita has a thorough understanding of the role and responsibilities of board members and her experience will continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Maria Yamashita be reappointed to the Board of Certification of Operating Personnel in Wastewater Treatment Plants based on her knowledge, background, and dedication to public service.

JON NAKASHIMA

Your Committee received no testimony on the nomination for the reappointment of Jon Nakashima.

Upon review of the testimony, your Committee finds that Mr. Nakashima's background and experience qualify him for reappointment to the Board of Certification of Operating Personnel in Wastewater Treatment Plants as a member who is an operator or certified supervisor of a wastewater treatment plant employed by the county of Kauai. Your Committee notes that Mr. Nakashima currently serves as the Superintendent of Operations for the County of Kauai Public Works Department's Wastewater Division, since 2014. Previously, Mr. Nakashima worked sixteen years as a wastewater treatment plant operator for the Elelee and Wailua wastewater treatment plants. Your Committee finds that Mr. Nakashima has a thorough understanding of the role and responsibilities of board members and his extensive experience as a wastewater treatment plant operator will continue to enhance the effectiveness of the Board. Your Committee therefore recommends that Jon Nakashima be reappointed to the Board of Certification of Operating Personnel in Wastewater Treatment Plants based on his knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Health and Human Services that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3379 Water and Land on Gov. Msg. Nos. 582 and 583

Recommending that the Senate advise and consent to the nominations of the following:

GAME MANAGEMENT ADVISORY COMMITTEE

G.M. No. 582 GONZALO GARCIA, for a term to expire 06-30-2027; and

G.M. No. 583 MICHAEL JOHNSON, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by Gonzalo Garcia and Michael Johnson for service on the Game Management Advisory Committee.

GONZALO GARCIA

Your Committee received testimony in opposition to the nomination for the appointment of Gonzalo Garcia from one individual.

Upon review of the testimony, your Committee finds that Mr. Garcia's experience, background, and commitment to public service qualify him for appointment to the Game Management Advisory Committee. Your Committee notes that Mr. Garcia has thirty-seven years of experience as a Risk Management and Environmental Management Specialist in the petroleum industry and possesses extensive knowledge and experience in ecological restoration and stakeholder engagement. Your Committee further finds that Mr. Garcia thoroughly understands the role and responsibilities of committee members and his extensive experience in the fields of risk management and environmental management will enhance the effectiveness of the Game Management Advisory Committee. Your Committee therefore recommends that Gonzalo Garcia be appointed to the Game Management Advisory Committee based on his knowledge, background, and dedication to public service.

MICHAEL JOHNSON

Your Committee received testimony in support of the nomination for the appointment of Michael Johnson from the Worthy Garden Club and four individuals.

Your Committee received testimony in opposition to the nomination for the appointment of Michael Johnson from one individual.

Upon review of the testimony, your Committee finds that Mr. Johnson's experience, background, and commitment to public service qualify him for appointment to the Game Management Advisory Committee. Your Committee notes that Mr. Johnson operates and owns a small consulting business and is also an avid outdoor enthusiast and hunter who volunteers to help control axis deer and feral goat populations. Your Committee further finds that Mr. Johnson thoroughly understands the role and responsibilities of committee members and his extensive experience as a hunter will benefit the Game Management Advisory Committee. Your Committee therefore recommends that Michael Johnson be appointed to the Game Management Advisory Committee based on his knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Water and Land that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3380 Water and Land on Gov. Msg. Nos. 586 and 610

Recommending that the Senate advise and consent to the nominations of the following:

LAND USE COMMISSION

- G.M. No. 586 NANCY CARR SMITH, for a term to expire 06-30-2025; and
G.M. No. 610 BRUCE U`U, for a term to expire 06-30-2028

Your Committee reviewed the personal histories, resumes, and statements submitted by Nancy Carr Smith and Bruce U`u for service on the Land Use Commission.

NANCY CARR SMITH

Your Committee received testimony in support of the nomination for the appointment of Nancy Carr Smith from the Land Use Commission, Office of the Mayor of the County of Hawai`i, County of Hawai`i Planning Department, two members of the Hawai`i County Council, Hawaii Island Community Development Corporation, Mauna Kea Resort, and twenty-two individuals.

Upon review of the testimony, your Committee finds that Ms. Carr Smith's experience, background, and knowledge qualify her for appointment to the Land Use Commission. Your Committee notes that Ms. Carr Smith has more than thirty years of experience as a licensed real estate agent and broker and has operated her own real estate brokerage since 2011. Ms. Carr Smith has also served on various County of Hawaii volunteer boards and commissions, including the South Kohala Community Development Plan Board and Leeward Planning Commission. Over the years, Ms. Carr Smith actively engaged in the Hawaii community, currently serving as Secretary of the Waimea Community Association. Your Committee finds that Ms. Carr Smith thoroughly understands the role and responsibilities of commission members and her extensive experience as a licensed real estate agent and broker will be of tremendous service to the Land Use Commission. Your Committee therefore recommends that Nancy Carr Smith be appointed to the Land Use Commission based on her knowledge, background, and dedication to public service.

BRUCE U`U

Your Committee received testimony in support of the nomination for the appointment of Bruce U`u from the Land Use Commission and three individuals.

Your Committee received testimony in opposition to the nomination for the appointment of Bruce U`u from one individual.

Upon your review of the testimony, your Committee finds that Mr. U`u's experience, background, and commitment to public service qualify him for appointment to the Land Use Commission. Your Committee notes that Mr. U`u graduated from the Hawaii Carpenters Apprenticeship Program in 1994 and served as an Apprentice Instructor at the University of Hawaii Maui College, fostering the next generation of skilled carpenters in the State. Mr. U`u has also served as a Field Representative for the Hawaii Regional Council of Carpenters, representing the interests of carpenters at a regional level. Your Committee finds that Mr. U`u thoroughly understands the responsibilities of commission members and his extensive experience as a carpenter and history of working toward the development of housing and its component infrastructure will enhance the effectiveness of the Land Use Commission. Your Committee therefore recommends that Bruce U`u be appointed to the Land Use Commission based on his knowledge, background, and dedication to public service.

As affirmed by the records of votes of the members of your Committee on Water and Land that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3381 Water and Land on Gov. Msg. No. 627

Recommending that the Senate advise and consent to the nomination of the following:

MAUNA KEA STEWARDSHIP AND OVERSIGHT AUTHORITY

- G.M. No. 627 BENJAMIN KUDO, for a term to expire 06-30-2027

Your Committee reviewed the personal history, resume, and statement submitted by Benjamin Kudo for service on the Mauna Kea Stewardship and Oversight Authority.

Your Committee received testimony in support of the nomination for the appointment of Benjamin Kudo from one member of the Hawai`i County Council, SanHi Government Strategies, and three individuals.

Upon review of the testimony, your Committee finds that Mr. Kudo's background and dedication to serving the public qualify him for appointment to the Mauna Kea Stewardship and Oversight Authority. Mr. Kudo presently serves as counsel to the law firm of Ashford & Wriston, which handles major real estate transactions, commercial litigation, and tax law throughout the State. Your Committee notes that prior to his legal career, Mr. Kudo held positions within Castle & Cooke, Inc. and Amfac, Inc., two of Hawaii's major agriculture and land development corporations. Mr. Kudo has also been an invited speaker and seminar lecturer to various

professional organizations on real property law, land use law, Native Hawaiian rights, and water rights. Your Committee additionally notes that Mr. Kudo has also advised state and county legislative and administrative bodies on various land use projects, including the drafting of state and county land use and administrative laws and regulations. Your Committee further finds that Mr. Kudo's knowledge and experience will be assets to the Mauna Kea Stewardship and Oversight Authority. Your Committee therefore recommends that Benjamin Kudo be appointed to the Mauna Kea Stewardship and Oversight Authority based on his experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3382 Water and Land on Gov. Msg. Nos. 584, 585, and 600

Recommending that the Senate advise and consent to the nominations of the following:

KAHO'OLAWE ISLAND RESERVE COMMISSION

G.M. No. 584 SAUMALU MATAAFA, for a term to expire 06-30-2027;

G.M. No. 585 FAITH KAHELE SAITO, for a term to expire 06-30-2027. (Nominee's name amended to FAITH KAHALE SAITO by GM688); and

G.M. No. 600 JUSTIN KEONI SOUZA, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by Saumalu Mataafa, Faith Kahale Saito, and Justin Keoni Souza for service on the Kaho'olawe Island Reserve Commission.

SAUMALU MATAAFA

Your Committee received testimony in support of the nomination for the reappointment of Saumalu Mataafa from the Department of Land and Natural Resources, Kaho'olawe Island Reserve Commission, and five individuals.

Upon review of the testimony, your Committee finds that Mr. Mataafa's experience, background, and dedication to serving the public qualifies him for reappointment to the Kaho'olawe Island Reserve Commission. Currently, Mr. Mataafa serves on the Kaho'olawe Island Reserve Commission managing the restorative operation for Kaho'olawe's island reserve. In addition to his four years of service on the Kaho'olawe Island Reserve Commission, Mr. Mataafa possesses extensive experience as a legislative researcher and analyst for the county of Maui, addressing the affordable housing shortage on Maui, the decriminalization of drug use, and Maui transportation policies. Mr. Mataafa's commitment to the community will continue to be an asset to the Kaho'olawe Island Reserve Commission. Your Committee therefore recommends that Saumalu Mataafa be reappointed to the Kaho'olawe Island Reserve Commission based on his experience, knowledge, and dedication to public service.

FAITH KAHALE SAITO

Your Committee received testimony in support of the nomination for the appointment of Faith Kahale Saito from the Department of Land and Natural Resources, Kaho'olawe Island Reserve Commission, Protect Kaho'olawe 'Ohana, and ten individuals.

Upon review of the testimony, your Committee finds that Ms. Saito's background and dedication to serving the public qualifies her for appointment to the Kaho'olawe Island Reserve Commission. Currently, Ms. Saito is a Native Hawaiian counselor at the Honolulu Community College. Your Committee notes that Ms. Saito previously served on the Kaho'olawe Island Reserve Commission as a Cultural Resources Project Coordinator from 2009 to 2012, managing the cultural resources on the island. Your Committee further finds that Ms. Saito has been with the Protect Kaho'olawe 'Ohana since her first trip to the island in 2002. Your Committee finds that Ms. Saito thoroughly understands the role and responsibilities of commissioners and her experience with Protect Kaho'olawe Ohana will enhance the effectiveness of the Kaho'olawe Island Reserve Commission. Your Committee therefore recommends that Faith Kahale Saito be appointed to the Kaho'olawe Island Reserve Commission based on her experience, knowledge, and commitment to public service.

JUSTIN KEONI SOUZA

Your Committee received testimony in support of the nomination for the appointment of Justin Keoni Souza from the Department of Land and Natural Resources; Kaho'olawe Island Reserve Commission; Ho'omana Pono, LLC; and three individuals.

Upon review of the testimony, your Committee finds that Mr. Souza's background and dedication to serving the public qualifies him for appointment to the Kaho'olawe Island Reserve Commission. Mr. Souza has served as a Trustee-At-Large on the Board of Trustees of the Office of Hawaiian Affairs since 2022. Mr. Souza is dedicated to advancing Native Hawaiian rights and possesses a multi-faceted background in music, real estate, and community service and has contributed significantly to the preservation of Hawaiian music and culture. Your Committee finds that Mr. Souza thoroughly understands the role and responsibilities of commissioners and his extensive and diverse experiences will enhance the effectiveness of the Kaho'olawe Island Reserve Commission. Your Committee therefore recommends that Justin Keoni Souza be appointed to the Kaho'olawe Island Reserve Commission based on his experience, knowledge, and commitment to public service.

As affirmed by the records of votes of the members of your Committee on Water and Land that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3383 Water and Land on Gov. Msg. No. 603

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR, OFFICE OF PLANNING AND SUSTAINABLE DEVELOPMENT

G.M. No. 603 MARY ALICE EVANS, for a term to expire 12-31-2026

Your Committee reviewed the personal history, resume, and statement submitted by Mary Alice Evans for service as the Director of the Office of Planning and Sustainable Development.

Your Committee received testimony in support of the nomination for the appointment of Mary Alice Evans from the Office of the Governor; Business Development and Support Division of the Department of Businesses, Economic Development, and Tourism; Department of Health; Department of Budget and Finance; Department of Labor and Industrial Relations; Department of Corrections and Rehabilitation; Department of Agriculture; Department of Transportation; Department of Accounting and General Services; Hawaii State Energy Office; Hawaii Green Infrastructure Authority; Hawaii Broadband and Digital Equity Office; Hawai'i Climate Change Mitigation and Adaptation Commission; Agribusiness Development Corporation; Hawaii Housing Finance and Development Corporation; Land Use Commission; Natural Energy Laboratory of Hawaii Authority; Hawaii Technology Development Corporation; County of Hawaii Department of Research and Development; Hawai'i Farm Bureau; and fifteen individuals.

Your Committee received testimony in opposition to the nomination for the appointment of Mary Alice Evans from one individual.

Upon review of the testimony and the nominee's personal statement, your Committee finds that Ms. Evans' background, experience, and commitment to public service qualify her for appointment as Director of the Office of Planning and Sustainable Development.

Your Committee finds that Ms. Evans has extensive experience in various state leadership positions throughout her longstanding public service career. Your Committee notes that Ms. Evans has been serving as the interim Director of the Office of Planning and Sustainable Development since May 2023 and has previously served as its Director from May 2019 to December 2022. In addition to her service in the Office of Planning and Sustainable Development, Ms. Evans has also served as the Interim Director and Deputy Director of Business, Economic Development, and Tourism; Interim Comptroller and Deputy Comptroller; and Special Assistant for Research in the Office of the Governor.

Ms. Evans is active in her community and is affiliated with various professional organizations throughout the State. In addition to other positions, she has served as the President of the Hawaii Chapter of the American Planning Association. She is also a member of the Hawaii Economic Association, Hawaii's Thousand Friends, and the Urban Land Institute. Ms. Evans holds a Bachelor of Arts in Sociology from the University of California Santa Barbara and a Master of Urban and Regional Planning from the University of Hawaii at Manoa.

Testifiers frequently highlight Ms. Evans' institutional knowledge which gives her a solid understanding of the issues before the Office of Planning and Sustainable Development and contributes to her ability to navigate through the complexities of the public policy process and formulate public policy. Ms. Evans' experience, effective leadership, and utmost dedication to the job and the community will continue to be assets to the Office of Planning and Sustainable Development. Your Committee therefore recommends that Mary Alice Evans be appointed as Director of the Office of Planning and Sustainable Development based on her experience, knowledge, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3384 Housing on S.C.R. No. 43

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to amend the priority for which low-income housing tax credits are allocated and moneys in the Rental Housing Revolving Fund are used and to adopt certain administrative rules that incentivize the development of affordable housing in the state.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the federal Low-Income Housing Tax Credit (LIHTC) Program is intended to encourage the construction or rehabilitation of low-income rental units. The State also created its own LIHTC, which is equal to fifty percent of the federal LIHTC allocated to a project, and the Hawaii Housing Finance and Development Corporation (HHFDC) is the designated agency responsible for the administration of both the federal and state LIHTC programs. Your Committee also finds that HHFDC's Qualified Allocation Plan (QAP) sets forth the criteria to evaluate and allocate LIHTC to projects and the procedures to monitor compliance with the provisions of the LIHTC Program. Your Committee finds, however, that existing LIHTC incentives do not reflect policies that will ensure the State can successfully address its ongoing housing shortage or best utilize tax payer funds. Therefore, this measure urges HHFDC to incentivize and prioritize certain projects to maximize benefits of the LIHTC program.

Your Committee has amended this measure by:

- (1) Deleting duplicative language that would have urged HHFDC to prioritize providing loans or grants for rental housing projects that have been awarded LIHTC and that meet certain criteria;

- (2) Clarifying references to HHFDC's Qualified Allocation Plan for consistency; and
- (3) Requesting that certified copies of this measure be sent to all members of the Board of Directors of HHFDC rather than just its Chairperson.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 43, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 43, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 3385 Housing on S.R. No. 31

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to amend the priority for which low-income housing tax credits are allocated and moneys in the Rental Housing Revolving Fund are used and to adopt certain administrative rules that incentivize the development of affordable housing in the state.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the federal Low-Income Housing Tax Credit (LIHTC) Program is intended to encourage the construction or rehabilitation of low-income rental units. The State also created its own LIHTC, which is equal to fifty percent of the federal LIHTC allocated to a project, and the Hawaii Housing Finance and Development Corporation (HHFDC) is the designated agency responsible for the administration of both the federal and state LIHTC programs. Your Committee also finds that HHFDC's Qualified Allocation Plan (QAP) sets forth the criteria to evaluate and allocate LIHTC to projects and the procedures to monitor compliance with the provisions of the LIHTC Program. Your Committee finds, however, that existing LIHTC incentives do not reflect policies that will ensure the State can successfully address its ongoing housing shortage or best utilize tax payer funds. Therefore, this measure urges HHFDC to incentivize and prioritize certain projects to maximize benefits of the LIHTC program.

Your Committee has amended this measure by:

- (1) Deleting duplicative language that would have urged HHFDC to prioritize providing loans or grants for rental housing projects that have been awarded LIHTC and that meet certain criteria;
- (2) Clarifying references to HHFDC's Qualified Allocation Plan for consistency; and
- (3) Requesting that certified copies of this measure be sent to all members of the Board of Directors of HHFDC rather than just its Chairperson.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 31, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 3386 Housing on S.C.R. No. 45

The purpose and intent of this measure is to urge the Director of Finance to adopt administrative rules to define "beneficial effects to the State" in section 38-2, Hawaii Revised Statutes, to include the financing of housing.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State must expand financing options to increase housing in Hawaii. Your Committee also finds that the Director of Finance is granted the discretion to invest the public treasury with certain depositories, subject to the approval of the Governor and certain statutory requirements found in section 38-2, Hawaii Revised Statutes, including the requirement to "consider the beneficial effects to the State of using depositories within the State". Therefore, this measure supports incentivizing state treasury depositories that have issued loans with favorable terms to housing developers to help expand the State's housing supply.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 45, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 45, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3387 Housing on S.R. No. 33

The purpose and intent of this measure is to urge the Director of Finance to adopt administrative rules to define "beneficial effects to the State" in section 38-2, Hawaii Revised Statutes, to include the financing of housing.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State must expand financing options to increase housing in Hawaii. Your Committee also finds that the Director of Finance is granted the discretion to invest the public treasury with certain depositories, subject to the approval of the

Governor and certain statutory requirements found in section 38-2, Hawaii Revised Statutes, including the requirement to “consider the beneficial effects to the State of using depositories within the State”. Therefore, this measure supports incentivizing state treasury depositories that have issued loans with favorable terms to housing developers to help expand the State’s housing supply.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 33, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 33, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3388 Housing on S.C.R. No. 58

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to adopt administrative rules to create a process under section 201H-38, Hawaii Revised Statutes, for housing projects exclusively for sale or rent to qualified residents as defined in section 201H-32, Hawaii Revised Statutes, who are deemed to be moderate-income households.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation is tasked with overseeing affordable housing projects in the State through the development and financing of low- and moderate-income housing projects and homeownership programs. Your Committee further finds that pursuant to existing administrative rules, the Hawaii Housing Finance and Development Corporation requires certain housing projects to offer half of the available units to buyers whose income is at or below one hundred forty percent of the area median income. Your Committee also finds that residential units at all price points are needed to solve Hawaii’s chronic housing shortage. Therefore, this measure seeks to create an additional pathway for a project to qualify for expedited review to help quickly increase Hawaii’s housing supply.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 58, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 58, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3389 Housing on S.R. No. 47

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to adopt administrative rules to create a process under section 201H-38, Hawaii Revised Statutes, for housing projects exclusively for sale or rent to qualified residents as defined in section 201H-32, Hawaii Revised Statutes, who are deemed to be moderate-income households.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation is tasked with overseeing affordable housing projects in the State through the development and financing of low- and moderate-income housing projects and homeownership programs. Your Committee further finds that pursuant to existing administrative rules, the Hawaii Housing Finance and Development Corporation requires certain housing projects to offer half of the available units to buyers whose income is at or below one hundred forty percent of the area median income. Your Committee also finds that residential units at all price points are needed to solve Hawaii’s chronic housing shortage. Therefore, this measure seeks to create an additional pathway for a project to qualify for expedited review to help quickly increase Hawaii’s housing supply.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 47, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 47, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3390 Housing on S.C.R. No. 60

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to develop a plan to build one hundred thousand homes over the next ten years.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that included within the Hawaii Housing Finance and Development Corporation’s mission is not only the provision of financing for housing, but also the development of housing. Your Committee further finds that the Hawaii Housing

Finance and Development Corporation should be at the forefront of proactively working to alleviate the State's housing shortage. Therefore, this measure urges the Hawaii Housing Finance and Development Corporation to develop a plan to increase the State's housing supply over the next ten years.

Your Committee notes the concerns raised in testimony that certain systemic barriers, including but not limited to insufficient infrastructure, restrictive land use and zoning policies, lengthy and complex regulatory processes, community opposition, and high construction and financing costs, can considerably impede the development of housing in Hawaii and should be addressed in advance of the preparation of any reasonably implementable plan to accelerate housing production in the State. Your Committee further notes that the Governor recently applied for \$9,900,000 in Pathways to Removing Obstacles to Housing (PRO Housing) grant funds from the United States Department of Housing and Urban Development to address several of these factors. Accordingly, your Committee believes that the PRO Housing grant application can assist in funding the plan proposed by this measure.

Your Committee has amended this measure by inserting language that requests the Hawaii Housing Finance and Development Corporation's plan to include methods to address certain factors that can impede the development of housing.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 60, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 60, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3391 Housing on S.R. No. 49

The purpose and intent of this measure is to urge the Hawaii Housing Finance and Development Corporation to develop a plan to build one hundred thousand homes over the next ten years.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that included within the Hawaii Housing Finance and Development Corporation's mission is not only the provision of financing for housing, but also the development of housing. Your Committee further finds that the Hawaii Housing Finance and Development Corporation should be at the forefront of proactively working to alleviate the State's housing shortage. Therefore, this measure urges the Hawaii Housing Finance and Development Corporation to develop a plan to increase the State's housing supply over the next ten years.

Your Committee notes the concerns raised in testimony that certain systemic barriers, including but not limited to insufficient infrastructure, restrictive land use and zoning policies, lengthy and complex regulatory processes, community opposition, and high construction and financing costs, can considerably impede the development of housing in Hawaii and should be addressed in advance of the preparation of any reasonably implementable plan to accelerate housing production in the State. Your Committee further notes that the Governor recently applied for \$9,900,000 in Pathways to Removing Obstacles to Housing (PRO Housing) grant funds from the United States Department of Housing and Urban Development to address several of these factors. Accordingly, your Committee believes that the PRO Housing grant application can assist in funding the plan proposed by this measure.

Your Committee has amended this measure by inserting language that requests the Hawaii Housing Finance and Development Corporation's plan to include methods to address certain factors that can impede the development of housing.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 49, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 49, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3392 Housing on S.C.R. No. 61

The purpose and intent of this measure is to request the Hawaii Housing Finance and Development Corporation to adopt administrative rules to enable credit enhancement for construction loans under the Rental Housing Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State has extremely high housing development costs, which have worsened in light of currently high interest rates. These costs are ultimately passed on to housing residents. Your Committee also finds that allowing the Rental Housing Revolving Fund to provide credit enhancement for construction loans will reduce the related financing costs and therefore development costs with very little risk to the fund.

Your Committee notes that S.B. No. 2469, introduced in the Regular Session of 2024, was previously passed by your Committee and would have statutorily authorized the Hawaii Housing Finance and Development Corporation to use Rental Housing Revolving Fund monies for credit enhancement and required the Corporation to adopt administrative rules accordingly. Your Committee is hopeful that future legislatures will pass a measure that provides this statutory authorization to support the reduction of housing costs for Hawaii residents.

Your Committee has amended this measure by:

- (1) Requesting that any funds administered by the Hawaii Housing Finance and Development Corporation be used for credit enhancement, rather than just funds under the Rental Housing Revolving Fund;
- (2) Requiring that certified copies of this measure be sent to all members of the Board of Directors of the Hawaii Housing Finance and Development Corporation;

- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 61, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 61, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3393 Housing on S.R. No. 50

The purpose and intent of this measure is to request the Hawaii Housing Finance and Development Corporation to adopt administrative rules to enable credit enhancement for construction loans under the Rental Housing Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the State has extremely high housing development costs, which have worsened in light of currently high interest rates. These costs are ultimately passed on to housing residents. Your Committee also finds that allowing the Rental Housing Revolving Fund to provide credit enhancement for construction loans will reduce the related financing costs and therefore development costs with very little risk to the fund.

Your Committee notes that S.B. No. 2469, introduced in the Regular Session of 2024, was previously passed by your Committee and would have statutorily authorized the Hawaii Housing Finance and Development Corporation to use Rental Housing Revolving Fund monies for credit enhancement and required the Corporation to adopt administrative rules accordingly. Your Committee is hopeful that future legislatures will pass a measure that provides this statutory authorization to support the reduction of housing costs for Hawaii residents.

Your Committee has amended this measure by:

- (1) Requesting that any funds administered by the Hawaii Housing Finance and Development Corporation be used for credit enhancement, rather than just funds under the Rental Housing Revolving Fund;
- (2) Requiring that certified copies of this measure be sent to all members of the Board of Directors of the Hawaii Housing Finance and Development Corporation;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 50, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 50, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3394 Health and Human Services on S.C.R. No. 23

The purpose and intent of this measure is to urge the Department of Health to amend the Hawaii Administrative Rules to authorize licensed dietitians to prescribe modified diets and plan therapeutic diets.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received comments on this measure from the Office of Health Care Assurance of the Department of Health.

Your Committee finds that the State has repeatedly and consistently been recognized by the federal government as a health professional shortage area. Your Committee also finds that registered dietitian nutritionists are recognized widely by physicians as the most qualified health care professionals to help patients with diet-related conditions; however, existing state regulations do not allow them to independently prescribe or plan diets for patients. Your Committee further finds that, while the federal Centers for Medicare and Medicaid Services announced a final rule authorizing each individual hospital system to grant registered dietitian nutritionists with privileges to independently write diet orders without the supervision or approval of the physician, this authorization must be in conformance with state regulations. Accordingly, this measure urges critical amendments to the Hawaii Administrative Rules to allow hospitals to authorize dietitians to independently prescribe modified diets and plan therapeutic diets, thereby eliminating the need for physicians to do so, so that the physicians may focus on their respective areas of expertise.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 23, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 23, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3395 Health and Human Services on S.R. No. 15

The purpose and intent of this measure is to urge the Department of Health to amend the Hawaii Administrative Rules to authorize licensed dietitians to prescribe modified diets and plan therapeutic diets.

Your Committee received no testimony on this measure.

Your Committee finds that the State has repeatedly and consistently been recognized by the federal government as a health professional shortage area. Your Committee also finds that registered dietitian nutritionists are recognized widely by physicians as the most qualified health care professionals to help patients with diet-related conditions; however, existing state regulations do not allow them to independently prescribe or plan diets for patients. Your Committee further finds that, while the federal Centers for Medicare and Medicaid Services announced a final rule authorizing each individual hospital system to grant registered dietitian nutritionists with privileges to independently write diet orders without the supervision or approval of the physician, this authorization must be in conformance with state regulations. Accordingly, this measure urges critical amendments to the Hawaii Administrative Rules to allow hospitals to authorize dietitians to independently prescribe modified diets and plan therapeutic diets, thereby eliminating the need for physicians to do so, so that the physicians may focus on their respective areas of expertise.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3396 Ways and Means on H.B. No. 1801

The purpose and intent of this measure is to authorize the issuance of general obligation bonds to finance project appropriations contained in Acts of the Legislature for which the means of funding is designated as general obligation bond funds or reimbursable general obligation bonds funds.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the proceeds from general obligation bonds authorized by this measure will be used to finance projects that will benefit the State.

Your Committee has amended this measure by:

- (1) Clarifying that the Judiciary Appropriations Act of 2023 should be adjusted to reflect additional appropriations provided in the Judiciary Supplemental Appropriations Act of 2024;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1801, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1801, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Wakai).

SCRep. 3397 Health and Human Services on S.C.R. No. 81

The purpose and intent of this measure is to:

- (1) Urge the Department of Health to explore avenues to ensure continued access to affordable medications for the State's underserved populations under the 340B Drug Pricing Program; and
- (2) Urge Hawaii's congressional delegation and relevant federal agencies to monitor pharmaceutical companies and take appropriate actions to protect the integrity of the 340B Drug Pricing Program.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, Hawai'i Primary Care Association, The Queen's Health System, Wahiawā Center for Community Health, and Waianae Coast Comprehensive Health Center.

Your Committee received testimony in opposition to this measure from the Pharmaceutical Research and Manufacturers of America.

Your Committee finds that the federal 340B Drug Pricing Program (340B Program) was established in 1992 to help shield health care facilities serving low-income and vulnerable populations from high and ever-rising drug costs, and to ensure that they can continue to provide expanded services to those under-served populations. Specifically, the 340B Program requires pharmaceutical manufacturers to provide a discount on outpatient drugs to eligible facilities (340B hospitals) for the manufacturers' medications to be covered by Medicaid. However, in recent years, pharmaceutical companies have been intentionally undermining the purpose of the 340B Program by imposing restrictions on the contracted pharmacies that 340B hospitals may utilize for their patients to access their prescription medications.

Your Committee notes concerns raised in testimony that not only the Department of Health but also the Department of Human Services administers the 340B Program, and therefore, this measure should be directed to the Governor, rather than just the Department of Health, to ensure that both state agencies work together to safeguard the integrity of the 340B Program. Your Committee further

notes testimony noting the importance of this measure including references to federally qualified health centers (FQHCs), since FQHCs are essential partners to the 340B Program through which a large number of residents receive program discounts. Therefore, there is a need to amend this measure to reflect these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Urging the Governor, rather than the Department of Health, to ensure that relevant state agencies, including the Department of Health and Department of Human Services, collaborate to:
 - (A) Explore avenues to collaborate with 340B hospitals and FQHCs, community pharmacies, and other stakeholders to ensure the continued accessibility to affordable medications for underserved populations in Hawaii; and
 - (B) Work with pharmaceutical companies to ensure that the companies uphold their commitment to patient access to affordable pharmaceuticals by refraining from implementing restrictions that undermine the ability of 340B hospitals and FQHCs to serve their patients and communities;
- (2) Inserting language to include federally qualified health centers (FQHCs) as part of the covered entities participating in the 340B Drug Pricing Program;
- (3) Amending its title to reflect its amended purpose; and
- (4) Inserting as additional recipients of its certified copies, the Governor, Director of Human Services, and Administrator of the Centers for Medicare and Medicaid Services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 81, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 81, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3398 Health and Human Services on S.R. No. 67

The purpose and intent of this measure is to:

- (1) Urge the Department of Health to explore avenues to ensure continued access to affordable medications for the State's underserved populations under the 340B Drug Pricing Program; and
- (2) Urge Hawaii's congressional delegation and relevant federal agencies to monitor pharmaceutical companies and take appropriate actions to protect the integrity of the 340B Drug Pricing Program.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, Hawai'i Primary Care Association, Wahiawā Center for Community Health, and Waianae Coast Comprehensive Health Center.

Your Committee received testimony in opposition to this measure from the Pharmaceutical Research and Manufacturers of America.

Your Committee finds that the federal 340B Drug Pricing Program (340B Program) was established in 1992 to help shield health care facilities serving low-income and vulnerable populations from high and ever-rising drug costs, and to ensure that they can continue to provide expanded services to those under-served populations. Specifically, the 340B Program requires pharmaceutical manufacturers to provide a discount on outpatient drugs to eligible facilities (340B hospitals) for the manufacturers' medications to be covered by Medicaid. However, in recent years, pharmaceutical companies have been intentionally undermining the purpose of the 340B Program by imposing restrictions on the contracted pharmacies that 340B hospitals may utilize for their patients to access their prescription medications.

Your Committee notes concerns raised in testimony that not only the Department of Health but also the Department of Human Services administers the 340B Program, and therefore, this measure should be directed to the Governor, rather than just the Department of Health, to ensure that both state agencies work together to safeguard the integrity of the 340B Program. Your Committee further notes testimony noting the importance of this measure including references to federally qualified health centers (FQHCs), since FQHCs are essential partners to the 340B Program through which a large number of residents receive program discounts. Therefore, there is a need to amend this measure to reflect these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Urging the Governor, rather than the Department of Health, to ensure that relevant state agencies, including the Department of Health and Department of Human Services, collaborate to:
 - (A) Explore avenues to collaborate with 340B hospitals and FQHCs, community pharmacies, and other stakeholders to ensure the continued accessibility to affordable medications for underserved populations in Hawaii; and

- (3) Amending its title to reflect its amended purpose; and
- (4) Inserting as additional recipients of its certified copies, the Governor, Director of Human Services, and Administrator of the Centers for Medicare and Medicaid Services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 67, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 67, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3399 Health and Human Services on S.C.R. No. 175

The purpose and intent of this measure is to request the Department of Human Services to report on the cultural and therapeutic services provided by community-based organizations at the Kawaioloa Youth and Family Wellness Center.

Your Committee received testimony in support of this measure from the Opportunity Youth Action Hawai'i.

Your Committee finds that ten percent of the State's homeless population is comprised of individuals under the age of eighteen years, and that forty-four percent of homeless youth report having spent time in jail or a juvenile detention center. Your Committee further finds that state-sponsored working groups and recent reports have show that community-based support centers substantially reduce the likelihood that youth are incarcerated or experience homelessness. This measure requests informative reports on the positive effects of services provided by Kawaioloa Youth and Family Wellness Center, where members of the Opportunity Youth Action Hawai'i partner with state and nonprofit agencies to transform punitive modalities of treatment and incarceration with effective therapeutic community-based programs. These reports will assist the state in expanding state and private sector collaboration to implement effective therapeutic and cultural methods that will promote youth wellness and reduce youth homelessness and the negative effects of incarceration.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 175 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3400 Health and Human Services on S.R. No. 151

The purpose and intent of this measure is to request the Department of Human Services to report on the cultural and therapeutic services provided by community-based organizations at the Kawaioloa Youth and Family Wellness Center.

Your Committee received testimony in support of this measure from the Opportunity Youth Action Hawai'i.

Your Committee finds that ten percent of the State's homeless population is comprised of individuals under the age of eighteen years, and that forty-four percent of homeless youth report having spent time in jail or a juvenile detention center. Your Committee further finds that state-sponsored working groups and recent reports have show that community-based support centers substantially reduce the likelihood that youth are incarcerated or experience homelessness. This measure requests informative reports on the positive effects of services provided by Kawaioloa Youth and Family Wellness Center, where members of the Opportunity Youth Action Hawai'i partner with state and nonprofit agencies to transform punitive modalities of treatment and incarceration with effective therapeutic community-based programs. These reports will assist the state in expanding state and private sector collaboration to implement effective therapeutic and cultural methods that will promote youth wellness and reduce youth homelessness and the negative effects of incarceration.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 151 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3401 Health and Human Services on S.C.R. No. 188

The purpose and intent of this measure is to request the Department of Human Services to immediately cease intercepting Social Security payments for children in foster care and deposit the payments into savings accounts that may be accessed by foster children when they return to their families, and adoption age out of foster care.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i Stonewall Caucus and two individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that roughly ten percent of foster children in the United States are entitled to social security benefit payments either because their parents have died or because they have a physical or mental disability that would leave them in poverty without financial assistance. Under federal law, these social security payments are considered the property of the child beneficiary, and for child beneficiaries who are minors, the United States Social Security Administration (SSA) generally appoints representative payees to receive and manage the payments on behalf of the child. Although child welfare service agencies are least preferred as representative payees, many state child welfare agencies, including the Hawaii Department of Human Services, apply to become the representative payee of child beneficiaries in foster care and seize their social security payments purportedly to cover the costs of their care, often without notifying the child or other persons who are more preferred as the child's representative payee. This practice is detrimental to foster children who are social security beneficiaries, as it denies them money that belongs to them and deprives them of the opportunity to accumulate savings that may aid in their transition out of foster care. Accordingly, this measure requests the Department of Human Services to immediately cease this practice and instead set aside the social security payments into saving accounts for the foster children to access upon their exit from the foster system.

Your Committee notes the testimony of the Department of Human Services stating that the social security payments it receives is used for the child's current maintenance needs, such as food, clothing, shelter, medical care, and personal comfort items, as their education-related needs; that the Department has stopped using all forms of social security payments (supplemental security income and retirement, survivors, and disability insurance benefits) it receives, for foster board reimbursement to the State since July 1, 2023, as the Legislature provided funding during the Regular Session of 2023; and that all moneys it receives on behalf of a child is kept in a child specific trust account until the child exits foster care, at which time the moneys are returned to the SSA who will distribute the conserved funds to the individual or to the next representative payee, if required.

Your Committee has amended this measure by:

- (1) Replacing the phrase "immediately cease" with "continue to cease" to note that the Department of Human Services is not intercepting social security payments at this time; and
- (2) Amending its title to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 188, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 188, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3402 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 3

The purpose and intent of this measure is to urge the United States Geological Survey to conduct topographical surveys, particularly within lava-flow hazard zones 1 and 2, to update USGS Miscellaneous Field Studies Map 2193.

Your Committee received testimony in support of this measure from nine individuals.

Your Committee finds that there are six volcanoes that are classified as active in the State: Kilauea, Mauna Loa, Hualalai, and Mauna Kea on Hawaii Island; Haleakala on the east side of Maui; and Kamaehuakanaloa, an underwater volcano within state waters southeast of Hawaii Island. Your Committee further finds that in 1974, the United States Geological Survey (USGS) prepared a map of Hawaii island, titled "USGS Miscellaneous Field Studies Map 2193", that showed long-term lava-flow hazards based on existing geologic data that is still used today. Your Committee notes that the map is outdated and updating it will allow state and county emergency management agencies, and affected residents and businesses to better understand risks from volcanic hazards on Hawaii island.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 3, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3403 Public Safety and Intergovernmental and Military Affairs on S.R. No. 3

The purpose and intent of this measure is to urge the United States Geological Survey to conduct topographical surveys, particularly within lava-flow hazard zones 1 and 2, to update USGS Miscellaneous Field Studies Map 2193.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that there are six volcanoes that are classified as active in the State: Kilauea, Mauna Loa, Hualalai, and Mauna Kea on Hawaii Island; Haleakala on the east side of Maui; and Kamaehuakanaloa, an underwater volcano within state waters southeast of Hawaii Island. Your Committee further finds that in 1974, the United States Geological Survey (USGS) prepared a map of Hawaii island, titled "USGS Miscellaneous Field Studies Map 2193", that showed long-term lava-flow hazards based on existing geologic data that is still used today. Your Committee notes that the map is outdated and updating it will allow state and county emergency management agencies, and affected residents and businesses to better understand risks from volcanic hazards on Hawaii island.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 3, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 3, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3404 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.C.R. No. 80

The purpose and intent of this measure is to urge the members of Hawaii's congressional delegation to introduce legislation to expand the National Flood Insurance Program to include lava insurance.

Your Committees received testimony in support of this measure from four individuals.

Your Committees find that as a public insurance program, the goals of the National Flood Insurance Program encompass social goals, which differ from private sector insurance companies, including providing flood insurance in flood-prone areas to property owners who otherwise would not be able to obtain it and reducing the amount of federal expenditures for disaster assistance after floods. Your Committees further find that the residents of Hawaii face insurance coverage challenges from both earthquakes and lava flows similar to challenges faced by people who have property in flood-prone areas. Your Committees conclude that expanding the National Flood Insurance Program to include coverage for lava and earthquake insurance could help address the current property insurance crisis in certain areas in the State and help minimize the economic and social hardships faced by many residents affected by damage caused by earthquakes and lava flows.

Your Committees have amended this measure by:

- (1) Inserting language to urge Hawaii's congressional delegation to expand the National Flood Insurance Program to include earthquake insurance;
- (2) Updating legislative findings; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 80, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 80, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3405 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.R. No. 27

The purpose and intent of this measure is to urge the members of Hawaii's congressional delegation to introduce legislation to expand the National Flood Insurance Program to include lava insurance.

Your Committees received testimony in support of this measure from four individuals.

Your Committees find that as a public insurance program, the goals of the National Flood Insurance Program encompass social goals, which differ from private sector insurance companies, including providing flood insurance in flood-prone areas to property owners who otherwise would not be able to obtain it and reducing the amount of federal expenditures for disaster assistance after floods. Your Committees further find that the residents of Hawaii face insurance coverage challenges from both earthquakes and lava flows similar to challenges faced by people who have property in flood-prone areas. Your Committees conclude that expanding the National Flood Insurance Program to include coverage for lava and earthquake insurance could help address the current property insurance crisis in certain areas in the State and help minimize the economic and social hardships faced by many residents affected by damage caused by earthquakes and lava flows.

Your Committees have amended this measure by:

- (1) Inserting language to urge Hawaii's congressional delegation to expand the National Flood Insurance Program to include earthquake insurance;
- (2) Updating legislative findings; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 27, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 27, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3406 (Joint) Public Safety and Intergovernmental and Military Affairs and Agriculture and Environment on S.C.R. No. 27

The purpose and intent of this measure is to encourage the United States Navy to take responsibility for the eradication of octocoral and other invasive species from the waters of Pearl Harbor.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, one member of the Honolulu City Council, Pearl City Neighborhood Board No. 21, and two individuals.

Your Committees received comments on this measure from the Hawaii Military Affairs Council and Ali'i Pauahi Hawaiian Civic Club.

Your Committees find that octocoral takes over marine habitats extremely quickly because it is a "soft coral" that does not form a calcium exoskeleton like reef-building corals, allowing it to rapidly grow and spread colonies, smothering Hawaiian coral reef ecosystems. Your Committees further find that United States Navy reported the presence of octocoral near Pearl Harbor in late 2020 during surveys that were not focused on these octocorals and recent surveys have documented these species in a much larger area and indicate that they were most likely present before 2019. Your Committees conclude that due to the United States Navy's jurisdiction over Pearl Harbor, the Navy must take action to eradicate octocoral and other invasive species in the waters of Pearl Harbor.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 27, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 27, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3407 (Joint) Public Safety and Intergovernmental and Military Affairs and Agriculture and Environment on S.R. No. 17

The purpose and intent of this measure is to encourage the United States Navy to take responsibility for the eradication of octocoral and other invasive species from the waters of Pearl Harbor.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, one member of the Honolulu City Council, Pearl City Neighborhood Board No. 21, and one individual.

Your Committees received comments on this measure from the Hawaii Military Affairs Council and Ali'i Pauahi Hawaiian Civic Club.

Your Committees find that octocoral takes over marine habitats extremely quickly because it is a "soft coral" that does not form a calcium exoskeleton like reef-building corals, allowing it to rapidly grow and spread colonies, smothering Hawaiian coral reef ecosystems. Your Committees further find that United States Navy reported the presence of octocoral near Pearl Harbor in late 2020 during surveys that were not focused on these octocorals and recent surveys have documented these species in a much larger area and indicate that they were most likely present before 2019. Your Committees conclude that due to the United States Navy's jurisdiction over Pearl Harbor, the Navy must take action to eradicate octocoral and other invasive species in the waters of Pearl Harbor.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 17, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 17, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3408 Hawaiian Affairs on S.C.R. No. 114

The purpose and intent of this measure is to urge the Department of Hawaiian Home Lands (Department) to display a portrait of Prince Jonah Kuhio Kalaniana'ole in each state building, office, meeting room, and waiting area under the Department's jurisdiction.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and two individuals.

Your Committee received testimony in opposition to this measure from the John Frederick Heideman Trust and one individual.

Your Committee finds that Prince Kuhio served as a non-voting delegate from Hawaii to the House of Representatives in the United States Congress for twenty years, beginning in 1902. Of Prince Kuhio's many accomplishments as a delegate, most notably is the passage of the Hawaii Homes Commission Act of 1920, which established the Department of Hawaiian Home Lands. This measure will encourage the Department of Hawaiian Home Lands to display a portrait of Prince Kuhio in each state building, office, meeting room, and waiting area under the Department's jurisdiction to honor his legacy.

Your Committee notes that Senate Bill No. 278 (2023) is a similar measure that aims to honor the legacy of Prince Jonah Kuhio Kalaniana'ole by requiring certain public buildings near mass transit projects and on Hawaiian Home Lands to display a portrait of Prince Jonah Kuhio Kalaniana'ole.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 114 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Keohokalole).

SCRep. 3409 Hawaiian Affairs on S.R. No. 96

The purpose and intent of this measure is to urge the Department of Hawaiian Home Lands (Department) to display a portrait of Prince Jonah Kuhio Kalaniana'ole in each state building, office, meeting room, and waiting area under the Department's jurisdiction.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Prince Kuhio served as a non-voting delegate from Hawaii to the House of Representatives in the United States Congress for twenty years, beginning in 1902. Of Prince Kuhio's many accomplishments as a delegate, most notably is the passage of the Hawaii Homes Commission Act of 1920, which established the Department of Hawaiian Home Lands. This measure

will encourage the Department of Hawaiian Home Lands to display a portrait of Prince Kuhio in each state building, office, meeting room, and waiting area under the Department's jurisdiction to honor his legacy.

Your Committee notes that Senate Bill No. 278 (2023) is a similar measure that aims to honor the legacy of Prince Jonah Kuhio Kalaniana'ole by requiring certain public buildings near mass transit projects and on Hawaiian Home Lands to display a portrait of Prince Jonah Kuhio Kalaniana'ole.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 96 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Richards). Noes, none. Excused, 1 (Keohokalole).

SCRep. 3410 Hawaiian Affairs on S.C.R. No. 87

The purpose and intent of this measure is to urge the Department of Hawaiian Home Lands to adopt and implement a neighborhood security watch in each homestead area.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and one individual.

Your Committee finds that state law enforcement officers and county police officers are inconsistent in their response to requests for law enforcement service on lands under the jurisdiction of the Department of Hawaiian Home Lands (Department) as they often seek permission from the Department before entering homestead lands to investigate illegal activity. Consequently, illegal activities on homestead lands have festered and worsened, causing homesteaders to organize themselves to protect their communities by becoming homestead Neighborhood Security Watch (NSW) volunteers. NSW volunteers are well-trained and work closely with law enforcement officers to ensure safety in their communities. This measure will promote the safety and security of homestead lands by urging the Department to adopt and implement a Neighborhood Security Watch in each homestead area.

Your Committee notes that the Department of Hawaiian Home Lands is currently utilizing a multi-pronged approach, including the establishment of a Permitted Interaction Group (P.I.G.) to study and recommend strategies related to safety and the enforcement of lease terms and conditions on Hawaiian Home Lands. Your Committee also notes that the Department of Hawaiian Home Lands has been working to fill vacant positions for the Compliance and Enforcement Team at the Department and the Department is aware of the current collaborative efforts between neighborhood security watch groups, law enforcement, and the Department.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 87 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3411 Hawaiian Affairs on S.R. No. 73

The purpose and intent of this measure is to urge the Department of Hawaiian Home Lands to adopt and implement a neighborhood security watch in each homestead area.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee finds that state law enforcement officers and county police officers are inconsistent in their response to requests for law enforcement service on lands under the jurisdiction of the Department of Hawaiian Home Lands (Department) as they often seek permission from the Department before entering homestead lands to investigate illegal activity. Consequently, illegal activities on homestead lands have festered and worsened, causing homesteaders to organize themselves to protect their communities by becoming homestead Neighborhood Security Watch (NSW) volunteers. Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 3412 Commerce and Consumer Protection on Gov. Msg. Nos. 506 and 507

Recommending that the Senate advise and consent to the nominations of the following:

BOARD OF MASSAGE THERAPY

G.M. No. 506 SEAN ST. LOUIS, for a term to expire 06-30-2027; and

G.M. No. 507 SHANON SKOOG, for a term to expire 06-30-2027

Your Committee reviewed the personal histories, resumes, and statements submitted by Sean St. Louis and Shanon Skoog for service on the Board of Massage Therapy.

SEAN ST. LOUIS

Your Committee received testimony in support of the nomination for the appointment of Sean St. Louis from the Board of Massage Therapy and two individuals.

Upon review of the testimony, your Committee finds that Mr. St. Louis' background, experience, and dedication to community service qualify him to be appointed to the Board of Massage Therapy as a licensed massage therapist member. Mr. St. Louis is recognized by his peers as a highly skilled massage therapist, and he has worked with many celebrities, athletes, and other high-profile clientele over the course of his career. Mr. St. Louis has been a licensed massage therapist in Hawaii for over twenty years and has been employed at the Halekulani Hotel in Waikiki since 2017, where he practices a broad range of various massage modalities. Previously, Mr. St. Louis gained considerable massage therapy experience through his work on Hawaii island at the Fairmont Orchid in Kamuela, Hilton Waikoloa Village, Kona Village Resort, and Kohala Coast Hotel. Mr. St. Louis graduated from the Hawaiian Islands School of Massage in 2003. Mr. St. Louis has also completed 1,250 hours in education and training in medical massage. Your Committee notes that Mr. St. Louis has been serving as an interim member of the Board of Massage Therapy since January 2024 and has a thorough understanding of the role and responsibilities of board members. Your Committee therefore recommends that Sean St. Louis be appointed to the Board of Massage Therapy based on his knowledge, experience, and commitment to public service.

SHANON SKOOG

Your Committee received testimony in support of the nomination for the appointment of Shanon Skoog from the Board of Massage Therapy, Massage Envy Hawaii, and four individuals.

Upon review of the testimony, your Committee finds that Ms. Skoog's background, management experience, and interest in serving her community qualify her to be appointed to the Board of Massage Therapy as a public member. Ms. Skoog is currently the Director of Development at Massage Envy Hawaii, where she has dedicated herself to supporting the professional growth of the company's therapist students and future students who are pursuing careers as licensed massage therapists. Previously, she developed her management and organizational skills as a Clinic Manager and Assistant Manager and Trainer at various Massage Envy regional locations, where she helped lead a team of sixty members to achieve various Massage Envy national awards. Ms. Skoog is recognized by her peers and employees as a positive, empathetic, and compassionate team leader, whose mentorship and support has positively impacted many personally and professionally. Further, Ms. Skoog has established and cultivated collaborative partnerships with local massage schools and has been a guest speaker at various events, where she has shared her insight on ethics in the profession, treatment room management, and resume development. Your Committee notes that Ms. Skoog has served as an interim member of the Board of Massage Therapy and her extensive leadership and career development and business management experience will provide a thoughtful and considerate perspective that will enhance the effectiveness of the Board. Your Committee therefore recommends that Shanon Skoog be appointed to the Board of Massage Therapy based on her experience, background, and dedication to her community.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3413 Commerce and Consumer Protection on H.B. No. 1836

The purpose and intent of this measure is to allow registered pharmacists, during declared states of emergency, to refill prescriptions for up to a thirty-day supply if the practitioner is unavailable or cannot be contacted to authorize the refill and if, in the pharmacist's professional judgment, failure to refill the prescription might interrupt the patient's ongoing care and have a significant adverse effect on the patient's well-being.

Your Committee received testimony in support of this measure from the Board of Pharmacy, Hawai'i State Council on Developmental Disabilities, Hawai'i Primary Care Association, Healthcare Association of Hawaii, American Cancer Society Cancer Action Network, Hawaii Medical Service Association, Walgreen Co., and two individuals.

Your Committee finds that even slight delays in prescription refills can have negative impacts on patient health and can be especially harmful for those with chronic health conditions, such as high blood pressure, heart disease, and diabetes, that require medication to be taken every day. Your Committee further finds that during a state of emergency, patients who are unable to reach their practitioner to obtain a prescription refill authorization can go days or weeks without the medications they require, placing them at risk of worsening disease, hospitalization, or death. Therefore, this measure allows registered pharmacists to refill prescriptions during a state of emergency under certain conditions to ensure that patients can obtain their necessary medications in a timely manner.

Your Committee has amended this measure by:

- (1) Inserting language clarifying that refills of prescriptions without the practitioner's authorization pursuant to this measure is limited for persons directly impacted by the declared emergency;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1836, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1836, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (McKelvey). Noes, none. Excused, 1 (Richards).

SCRep. 3414 (Majority) Commerce and Consumer Protection on H.B. No. 2390

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission (PUC) to explicitly consider the effect of the State's reliance on fossil fuels on lifecycle greenhouse gas emissions when making determinations of the reasonableness of costs pertaining to electric or gas utility system capital improvements and operations;
- (2) Allow the PUC to require a lifecycle greenhouse gas emissions assessment for energy projects that do not involve the combustion of fuel; and
- (3) Clarify that the PUC shall consider, in part, the costs and benefits of a diverse portfolio of energy resources, rather than a diverse portfolio of fossil fuels to lower and stabilize the cost of electricity.

Your Committee received testimony in support of this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawaiian Electric, and one individual.

Your Committee finds that existing law requires the PUC to explicitly consider the effect of the State's reliance on fossil fuels on, among other things, greenhouse gas emissions, in determining the reasonableness of the costs pertaining to electric or gas utility system capital improvements and operations seeking PUC approval. By requiring the PUC to consider the greenhouse gas emissions over the course of a project's lifecycle, this measure will provide a more accurate representation of the project's costs and environmental impacts, thus facilitating a more informed decision-making by the PUC and protection of the public interest.

Your Committee notes concerns raised in testimony that although this measure is intended to enable the PUC to exercise discretion on whether to require a lifecycle greenhouse gas emissions assessment for non-combusting electrical energy generation projects, such as wind and solar projects that often have minimal net lifecycle greenhouse gas emissions, the measure, in its current form, may have an unintended consequence of creating a potential loophole for gas utility projects to argue that a greenhouse gas emissions assessment should be discretionary for them because the project will not involve combustion on its side of the meter, and therefore, the customers would be the entities combusting the fuel. Therefore, there is a need to amend this measure to clarify that gas utility projects will continue to be subject to the mandatory greenhouse gas emission assessment requirement.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language expanding the definition of "lifecycle greenhouse gas emissions assessment" to mean the evaluation of potential greenhouse gas emissions over the course of a product, program, or project's lifetime or stages of production, construction, operations, and decommissioning, including operation stages such as the use of any fuels or feedstocks and the production of any materials;
- (2) Clarifying that the PUC may waive the requirement for a lifecycle greenhouse gas emissions assessment for energy projects that do not involve combustion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2390, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2390, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

SCRep. 3415 Judiciary on H.B. No. 1880

The purpose and intent of this measure is to reschedule the post-election assembly of presidential electors to the first Tuesday after the second Wednesday in December next following their election.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee finds that Congress passed the Electoral Count Reform and Presidential Transition Improvement Act of 2022, which changed the date of the Electoral College by one day from the first Monday after the second Wednesday in December to the first Tuesday. This measure will conform existing state law to the Electoral Count Reform and Presidential Transition Improvement Act of 2022 regarding the date of the convening of the Electoral College.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1880, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3416 Judiciary on H.B. No. 2072

The purpose and intent of this measure is to:

- (1) Require certain solicitations that reference disasters to include a disclosure; and

(2) Deem violators guilty of a class C felony.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that natural disasters present an opportunity for persons to fraudulently solicit contributions for disaster relief victims during a state of emergency declared by the Governor. Your Committee believes that deceptive solicitations of contributions connected to disasters should be discouraged. This measure provides the State with a means to prosecute persons, including candidate committees, engaging in charitable fraud and theft in the wake of an emergency.

Your Committee has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2072, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2072, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3417 Judiciary on H.B. No. 1879

The purpose and intent of this measure is to provide that certain information to be included in any digital voter information guide shall not be released to any requestor in whole or in part before the public release of the entire guide.

Your Committee received testimony in support of this measure from the Office of Elections and one individual.

Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that existing law is unclear as to whether an open records request can be made for a candidate's statement before the actual guide is released or if it should be rejected on the grounds that if granted it would frustrate a legitimate government function by undermining one of the purposes of the voter information guide. Your Committee believes that the law should be changed to clarify that a candidate's statement should not be available ahead of the release of the digital voter information guide, as it may provide an unfair advantage to the requestor which could impact the election. This measure will ensure the uniform, equitable, and coordinated release of information of the contents of the voter information guide.

Your Committee has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1879, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1879, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 3418 Judiciary on H.B. No. 2513

The purpose and intent of this measure is to expand expungement eligibility to persons whose convictions for consuming a measurable amount of alcohol while underage or first-time property offenses predated current expungement provisions.

Your Committee received testimony in support of this measure from the Office of the Public Defender and Opportunity Youth Action Hawai'i.

Your Committee received testimony in opposition to this measure from the Crime Victim Compensation Commission, Department of the Prosecuting Attorney of the City and County of Honolulu, Mothers Against Drunk Driving Hawaii, and Retail Merchants of Hawaii.

Your Committee finds that currently, persons convicted under section 291E-64, Hawaii Revised Statutes, for driving under the influence of an intoxicant while under the age of twenty-one or who qualify for sentencing under section 706-622.9, Hawaii Revised Statutes, for a first-time property offense are able to expunge their conviction and arrest record. However, persons who were convicted before the laws explicitly permitting expungement for these offenses were enacted are unable to receive the same benefits of expunging their conviction and arrest record afforded by existing law. This measure will allow persons convicted under prior statutes to receive eligibility for expungement by applying existing expungement opportunities retroactively to persons previously convicted.

Your Committee has amended this measure by:

- (1) Inserting legislative findings clarifying that persons under the age of twenty-one who engaged in driving under the influence of an intoxicant lack access to expungement eligibility if their offense predated current expungement provisions; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2513, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2513, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3419 Ways and Means on H.B. No. 1800

The purpose and intent of this measure is to appropriate funds for the operating and capital improvement program costs of the executive branch for the fiscal biennium beginning July 1, 2023, and ending June 30, 2025 (FB25).

Your Committee received testimony in support of this measure from Hawai'i Early Intervention Coordinating Council; State Council on Developmental Disabilities; Executive Office on Aging; Executive Office on Early Learning; Hawaii Green Infrastructure Authority; Department of Commerce & Consumer Affairs; Mililani Mauka Elementary School; Paauilo Elementary and Intermediate; Na'alehu Elementary School; Hana High and Elementary School; Department of Budget and Finance; Department of the Attorney General; Office of the Governor; Department of Land and Natural Resources; Department of Health; Kohala Elementary School; Kohala High School; Kaumana Elementary; Office of Planning and Sustainable Development; University of Hawaii; Department of Education Central Oahu District Office; Department of Human Resources Development; Department of Hawaiian Home Lands; Kaneohe Elementary School; Department of Law Enforcement; Hawaii State Department of Education; Office of Hawaiian Affairs; Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Department of Taxation; Hawaii Community Development Authority; Department of Accounting and General Services; Hawaii Housing Finance & Development Corporation; Hawaii Department of Agriculture; Waiahole Elementary School; Public Utilities Commission; Hawaii State Public Library System; Pomaikai Elementary; Hawaii Technology Development Corporation; Agribusiness Development Corporation; Hawaii Public Housing Authority; Criminal Justice Research Institute; Early Learning Board; Judiciary, State of Hawaii; State Public Charter School Commission; Board of Education; Department of Corrections and Rehabilitation; Department of Human Services; Hawaii Correctional System Oversight Commission; Hawaii Tourism Authority; Hawaii State Energy Office; Waianae High School; Department of Transportation; State of Hawaii Climate Change Mitigation and Adaptation Commission; Department of Defense; County of Kauai Office of the Prosecuting Attorney; Maui County Department of the Prosecuting Attorney; Hawai'i County Office of the Prosecuting Attorney; Board of Water Supply; HE'E Coalition; Malama Makua; Ohana Hoopakele; FAMM; Community Alliance on Prisons; Hawaii True Cost Coalition; National Association for Civilian Oversight of Law Enforcement; Prison and Jail Innovation Lab, LBJ School of Public Affairs, University of Texas; Hawaii Food Industry Association; 3D Innovations; Hawaii Hui LLC; MorphOptic, Inc.; Min Plastics & Supply, Inc.; Going Home Hawai'i; Aloha Edibles; Hawaiian Chip Company, LLC; Malie, Inc.; Hawaii Afterschool Alliance; Mana Up; Hawaii Venture Capital Association; 'Imi Ola Support Services; Hawaii Health Systems Corporation; Parents And Children Together; Guide Star Engineering LLC; Hawai'i Friends of Restorative Justice; Ai.Fish LLC; Care for Aina Now Coalition; Small Kine Farm; Ma'i Movement Hawai'i; PERIOD.; Local Food Coalition; Hawaii Fish Company Inc.; Hawaii Association for Behavior Analysis; Hawai'i Women's Coalition; Jun Innovations Inc; Healthcare Association of Hawaii; Aloha Shoyu Company, Ltd.; HNU Photonics; YWCA Oahu; Referentia Systems; North Shore Hydrological Services; Blue Startups, LLC; Hawaii Alliance for Progressive Action; Indivisible Hawaii; Indivisible Hawaii; Hawai'i Public Health Institute; Ten Tomorrow; AF3IRM Hawaii; and sixty-five individuals.

Your Committee received testimony in opposition to this measure from Reimagining Public Safety in Hawai'i Coalition; American Civil Liberties Union of Hawaii; Reimagining Public Safety; and eighteen individuals

Your Committee received comments on this measure from The Stadium Authority; Honolulu Department of the Prosecuting Attorney; Andria Tupola, Honolulu City Councilmember, District 1; Hawaii Harbors Users Group; Microsoft Corporation; Natural Energy Laboratory of Hawaii Authority; Maui Health Systems; Hawai'i Children's Action Network Speaks!; and two individuals.

PART I. HOUSE BILL NO. 1800, HOUSE DRAFT 1

This measure, as received, includes:

- (1) The base budget from Act 164, Session Laws of Hawaii (SLH) 2023;
- (2) The reduction of line-item vetoes from the base budget from Act 164, SLH 2023, pursuant to Governor's Message No. 1233;
- (3) Program appropriation provisions that lapse previously appropriated general funds from Act 164, SLH 2023, and other bills with appropriations; and
- (4) The changes incorporated in House Bill No. 1800, House Draft 1 (H.B. No. 1800, H.D. 1), including salary adjustments to appropriate full-year funding for new and vacant positions.

Your Committee finds that, according to Department of Human Resources Development (DHRD), the overall timeline of the recruitment process takes an average of about seven months to one year. According to the Report to the 2024 Legislature as required by Act 57, SLH 2019, DHRD averages about five hundred open recruitments on any given day. Recognizing the challenges to establish and fill positions expeditiously, Finance Memorandum No. 22-11, dated September 23, 2022, stated that "new positions shall be funded for a maximum of six months for the first year then for the full year thereafter". As such, Finance Memorandum No. 23-12, dated September 5, 2023, includes a request category for full-year funding. This means a request to provide full-year funding for half-year funded positions. While filling vacancies to deliver core services and programs is important for the people of the Hawaii, your Committee disagrees with H.B. No. 1800, H.D. 1 to appropriate full-year funding for all new positions. There are more pressing and immediate needs such as Maui recovery efforts and continuation and restoration of safety net programs across the State.

Your Committee finds that section 5 of H.B. No. 1800, H.D. 1 details program appropriation provisions that lapse previously appropriated general funds from Act 164, SLH 2023, and other general fund appropriations in other Acts from 2022 and 2023. In total, section 5 of H.B. No. 1800, H.D. 1 proposes to lapse a total of \$153,091,433 in general funds, which includes:

- (1) An aggregate total of \$51,567,433 in fiscal year beginning July 1, 2023, and ending June 30, 2024 (FY24) from Act 154, SLH 2023, for various programs and services, including:
 - (A) \$500,000 for the Festival of Pacific Arts and Culture;

- (B) \$5,250,000 for the Small Business Credit Initiative;
 - (C) \$5,000,000 for an affordable rental housing construction incentive program;
 - (D) \$3,600,000 for a shoreline project along Kamehameha Highway in the vicinity of Kaaawa Elementary school;
 - (E) \$9,000,000 for the Mauna Kea Stewardship Oversight Authority;
 - (F) \$2,940,000 for King Kalakaua Building roofing project; and
 - (G) \$25,277,433 for the Department of Budget and Finance;
- (2) \$60,000,000 in fiscal year beginning on July 1, 2022, and ending on June 30, 2023 (FY23) from Act 248, SLH 2022, for repairs and maintenance projects in the Department of Education;
 - (3) \$4,524,000 in FY24 from Act 95, SLH 2023, for a supportive housing pilot program in the Statewide Office on Homelessness and Housing Solutions;
 - (4) \$1,500,000 in FY24 from Act 97, SLH 2023, for affordable housing under the Hawaii Community Development Authority; and
 - (5) \$5,000,000 in FY24 from Act 218, SLH 2023, for irrigation infrastructure to support farmers by the Department of Agriculture.

Your Committee finds that, in consultation with each of the impacted departments, there are plans to encumber and/or spend \$112,351,754 out of the proposed \$153,091,433 general fund lapses, leaving \$40,739,679 of funds that can realistically be lapsed. The proposed lapses for these funds that have been committed, at best, would be rendered ineffective and the funds would not lapse, but, at worst, would force the departments to suspend activities, terminate the impacted projects, and forfeit extramural matching funds up to \$42,000,000. As such, the subject forced lapses are a disservice to the planning and commitments behind each affected project, program, and the people who supported them.

Your Committee has identified the following changes that were incorporated in the House Draft that negatively impact the safety, financial sustainability, and prosperity of the State:

- (1) A general fund appropriation of \$1,051,100,000 for wildfire response and recovery efforts to the Department of Budget and Finance;
- (2) A special fund ceiling reduction of \$49,500,000 from \$49,500,000 to \$0 for operations and development of the Aloha Stadium;
- (3) A series of adjustments to provide guard services for the Capitol District, including:
 - (A) A general fund appropriation of \$5,481,362 to the Department of Accounting and General Services;
 - (B) A general fund reduction of \$1,129,242 from state retirement benefits; and
 - (C) A general fund reduction of \$1,752,120 from General Administration from the Department of Law Enforcement;
- (4) A general fund reduction of \$1,484,052 from \$2,456,750 to \$972,698 for the Victim Witness Protection and Career Criminal Prosecution Programs;
- (5) A general fund reduction of \$1,319,999 from \$1,320,000 to \$1 for Homeless Programs Office contract increases;
- (6) A general fund reduction of \$13,199,999 from \$20,000,000 to \$6,800,001 for psychiatric in-patient services;
- (7) A special fund ceiling reduction of \$800,000 from \$800,000 to \$0 for sport fishing;
- (8) A special fund ceiling reduction of \$900,000 from \$900,000 to \$0 for roadside safety maintenance; and
- (9) A special fund ceiling reduction of \$300,000 from \$300,000 to \$0 for County of Hawaii Highway police services.
- (10) A general fund reduction from \$5,000,000 to \$0 for debris removal services for State highways;

Your Committee received testimony from the impacted departments that details some of the negative impacts of each of the aforementioned adjustments incorporated into H.B. No. 1800, H.D. 1.

Your Committee finds that the \$1,051,100,000 general fund appropriation does not provide resources that address the needs of Maui survivors in timely matter, according to funding requests from the Administration through Governor's Messages and bills. For example, GM4 requested \$297,000,000 in FY24. Moreover, the \$1,051,100,000 general fund appropriation reflects a lack of transparency on how the funds align with state and county housing and recovery plans for Maui survivors. Therefore, your Committee has appropriated the funds for Maui wildfire recovery efforts requested by the Administration in House Bill No. 679, House Bill No. 2610, Senate Bill No. 582, and Senate Bill No. 3068 to increase public transparency. These stand-alone bills provide clear legislative direction, while allowing public participation, on the budget preparation and execution process.

Your Committee received testimony from the Department of Business, Economic Development, and Tourism, as well as the Stadium Authority, stating that without the special fund ceiling increase of \$49,500,000, the long-term sustainability of the New Aloha Stadium Entertainment District (NASED) could be compromised. Your Committee notes that the subject appropriation would have no negative financial impact on the general fund or Stadium Development Special Fund. The subject appropriation would allow the Stadium Authority to expend funds appropriated and deposited into the special fund pursuant to Act 248, SLH 2022. The NASED aligns with the Halawa Area Transit-Oriented Development Plan. The plan envisions the stadium site to develop a mix of affordable housing, commercial, office, entertainment, and cultural uses. On December 14, 2023, the Request for Proposals for the NASED was published to select a master developer to master plan and deliver NASED as an integrated public-private partnership. On March 28,

2024, the State announced that two priority-listed offerors were selected to proceed to the Proposals Phase. Therefore, your Committee recommends supporting the current procurement process by adding the requested \$49,500,000 special fund ceiling increase for NASED.

Your Committee received testimony from the Department of Law Enforcement (DLE) requesting a direct appropriation to DLE for security and monitoring contracts for the Capitol District, which would remove the unnecessary transfer of funds between DLE and the Department of Accounting and General Services (DAGS). According to the DLE, DAGS requested DLE to assume responsibility of security and monitoring contracts for the Capitol District. As such, your Committee finds that appropriating the funding for these services to DAGS instead of DLE, as in the House Draft, does not align with this DAGS-DLE agreement. Furthermore, the House Draft reduces funds from the base of the Retirement Benefits – State (BUF741) within the Department of Budget and Finance and General Administration from DLE (LAW900). Your Committee finds that both reductions would have detrimental and significant negative effects to the departments. Therefore, your Committee recommends supporting the DLE, DAGS, and the Department of Budget and Finance by adding the requested \$2,600,000 general funds to DLE for the continuation of security services.

Your Committee received testimony to restore the proposed reduction of \$736,785 for the Victim Witness Program and \$747,267 for the Career Criminal Prosecution Program, including from the Department of the Prosecuting Attorney of the City and County of Honolulu, a Honolulu City Council Member, and Mothers Against Drunk Driving Hawaii. Your Committee notes that the subject reduction totaling \$1,484,052 specifically targets the Prosecuting Attorney of the City and County of Honolulu. Your Committee recognizes the importance of these programs in promoting safer communities. The Career Criminal Prosecution Program, pursuant to Chapter 845, Hawaii Revised Statutes (HRS), focuses on the prosecution of repeat and violent offenders, and the Victim Witness Program, pursuant to section 28-111, HRS, supports the provision of direct services to victims of crime. Therefore, your Committee recommends supporting the Department of the Attorney General and survivors of crime by adding the requested \$2,456,750 in general funds for the Career Criminal Prosecution Program and the Victim Witness Program.

Your Committee received testimony from the Department of Human Services (DHS) stating that without the \$1,320,000 general fund appropriation for homeless programs, budgeted amounts for contracted services would not keep pace with the cost of living adjustments. According to DHS, despite the increasing cost of living, funds for purchase of service contracts have not been increased in over a decade. Your Committee finds that these funds are essential to avoid a reduction in these critical services, which would exacerbate the homelessness crisis across Hawaii. Caring for individuals experiencing homelessness also becomes more complex and difficult to serve the longer they spend unsheltered or in encampments. Therefore, your Committee recommends supporting efforts to combat houselessness by adding the requested \$1,320,000 general funds to increase funding for Homeless Program Office contracts.

Your Committee received testimony from the Department of Health (DOH) stating that with the \$1 general fund appropriation for psychiatric in-patient services, the bed lease contract with Kahi Mohala would terminate. Legally required to continue care for the patients housed at Kahi Mohala, these patients would be returned to the Hawaii State Hospital (HSH) where current census numbers have already exceeded the hospital's maximum capacity limit. The subject testimony notes that this would not only severely impact the HSH's ability to provide quality in-patient psychiatric care, but could cost the State an additional \$20,000,000 annually. In light of the recent fatal stabbing of a HSH staff member, your Committee recognizes the importance of providing adequate resources to HSH to ensure the safety of the general public and our healthcare workers. Therefore, your Committee recommends supporting health, safety, and wellness initiatives by adding \$14,800,000 for psychiatric in-patient services, including \$8,000,000 for contracted Services at Kahi Mohala.

Your Committee received testimony from the Department of Land and Natural Resources (DLNR) stating that the \$800,000 special fund ceiling increase for sport fishing would have no negative financial impact to the general fund or Sport Fish Special Fund. However, DLNR would not be able to execute projects that were previously committed through the newly established non-resident marine recreational sport fish license, in accordance with Act 48, SLH 2021. Your Committee recognizes that without the subject ceiling appropriation, the State jeopardizes up to \$1,000,000 in revenue generated from this new fee, which could provide stable funding for local marine fishery resources, and up to \$3,000,000 of federal grants per year, pursuant to section 187A-9, HRS. Therefore, your Committee recommends supporting the protection of natural resources by adding the requested \$800,000 special fund ceiling increase for sport fishing.

Your Committee received testimony from the Department of Transportation (DOT) stating that the \$900,000 special fund ceiling increase for roadside safety maintenance would have no negative financial impact to the general fund or State Highway Special Fund. The subject testimony notes that Hawaii Correctional Industries (HCI) performs grass cutting and litter pickup that are vital to keeping State highways safe and clean. Without the subject increase ceiling appropriation, more unsafe conditions will be created for the public and motorists, and the backlog of work will be exacerbated. Furthermore, your Committee finds that the contract with DOT is HCI's largest contract and provides inmates with the opportunity to have real-life job experience and earn income in preparation for re-integration back into the community. Without the requested funding to DOT, the Department of Corrections and Rehabilitation would begin to lay off employees. Therefore, your Committee recommends increasing road safety by adding the requested \$900,000 special fund ceiling increase.

Your Committee received testimony from DOT stating that the \$300,000 special fund ceiling increase for County of Hawaii police services would have no negative financial impact to the general fund or State Highway Special Fund. The subject testimony notes that only County of Hawaii Police Officers can direct traffic for emergency highway repairs and that without these services, an unsafe condition will be created for the public and motorists. Therefore, your Committee recommends supporting road safety by adding the requested \$300,000 special fund ceiling increase.

Having received testimony on the impacts of some of these proposed changes included in H.B. No. 1800, H.D. 1, your Committee has worked in collaboration with each impacted department to identify the resources needed to deliver these critical programs and services.

PART II. OVERVIEW

Your Committee developed a state budget that is balanced, maintains core statewide services, and leaves the State with adequate levels of fiscal reserves by amending this measure to include:

- (1) Certain appropriations for trade-offs, transfers, change in means of financing, conversions of positions from temporary to permanent, reductions, and additions from Governor’s Message No. 2 (GM2), dated December 18, 2023, and Finance Memorandum No. 23-19, pursuant to Article VII, section 9, of the Hawaii State Constitution;
- (2) Certain appropriations for change in means and financing, conversions of positions from temporary to permanent, reductions, and additions from Governor’s Message No. 5, dated March 5, 2024;
- (3) The addition of funding for priority budget requests as discussed below;
- (4) The reduction of vacant positions in accordance with the 2023 State of Hawaii Act 57, Session Laws of Hawaii (SLH) 2019 Vacancy Report provided by the Department of Human Resources Development (DHRD), pursuant to section 26-5(a)(2), Hawaii Revised Statutes (HRS); and
- (5) The funding for rental of buildings and land to be non-recurring, pursuant to section 40-14, HRS, which requires the Comptroller to reduce the total square footage of leased space by ten percent by 2026.

Your Committee has amended this measure and proposes an operating budget with the following totals for the fiscal year beginning July 1, 2024, and ending June 30, 2025 (FY25):

Means of Financing	Governor’s Request (GM2)	Governor’s Adjusted Request (GM5)	Senate Draft
General Funds	\$10,222,773,724	\$10,284,122,664	\$10,321,347,535
All Means of Financing	\$19,242,796,966	\$19,343,740,936	\$19,098,388,299

PART III. BUDGETING FOR WILDFIRE RECOVERY

Your Committee acknowledges that on August 8, 2023, heavy winds from Hurricane Dora transformed brush fires on the islands of Maui and Hawai’i into the worst natural disaster in the State’s history. Disaster proclamations by the County of Maui and by the Governor were soon followed by a federal declaration by President Biden. On October 30, 2023, Executive Memorandum No. 23-08 was issued, which re-directed \$164,097,551, after adjustments, from selected general fund operating appropriations from Act 164, SLH 2023, to address immediate 2023 wildfires funding needs.

Your Committee finds that the state financial plan, as proposed by the Governor, pursuant to Article VII, section 9, of the Hawaii State Constitution, allocated \$600,000,000 across the next four fiscal years for Maui wildfires recovery and response efforts. However, your Committee finds that, in collaboration with the Hawaii Emergency Management Agency, Department of Defense, and the Department of Budget and Finance, the State faces expenditures and unfunded liabilities of over \$600,000,000 in the fiscal year beginning July 1, 2023, and ending June 30, 2024 (FY24). To formalize spending guardrails and to help ensure the financial security of the State, Executive Memorandum No. 24-01 was issued, which requires approval from the Governor and the Department of Budget and Finance for expenditures deemed likely to be ineligible for reimbursement from the Federal Emergency Management Agency (FEMA). Your Committee passed a short form bill in an amended form, Senate Bill No. 582, S.D. 1 – Relating to State Budget (S.B. No. 582), recognizing the immediate and imminent financial needs for wildfire recovery efforts. Your Committee also held an informational briefing on February 20, 2024, to illuminate these fiscal challenges for the public.

Thereafter, your Committee received Governor’s Message No. 3 (GM3), dated February 26, 2024, which requested expeditious consideration, in accordance with Article VII, section 9, of the Constitution of the State of Hawaii, of S.B. No. 582. Your Committee acknowledges the necessity of GM3 because the Administration’s legislative package did not include an emergency appropriation bill for wildfire recovery. However, while GM3 stated that expenditures were expected to exceed the entire \$199,097,551 appropriation deposited into the Major Disaster Fund, it did not specify the financial resources needed for wildfire recovery efforts. Your Committee notes that in an informational briefing on February 29, 2024, the Department of Budget and Finance informed your Committee that funds resulting from the five percent hard restrictions from each Executive Branch department would be transferred to the Major Disaster Fund to cover the shortfall of funds that the Administration initially projected for Maui wildfire recovery efforts.

Subsequently, your Committee received Governor’s Message No. 4 (GM4), dated March 1, 2024, which recommended the proposed provisions for S.B. No. 582:

- (1) A general fund appropriation of \$297,000,000 to cover immediate expenses in FY24 for non-congregate sheltering and expenses for individuals impacted by the wildfires who have been classified as not eligible for Federal Emergency Management Agency assistance;
- (2) A general fund appropriation of \$65,000,000 to cover the State’s contribution to the One Ohana bank trust account to compensate victims of the Maui wildfires; and
- (3) Repeal of the \$350,000,000 general obligation bond appropriation for the Other Post-Employment Benefits Trust Fund originally made in Act 247, Session Laws of Hawaii 2022.

In addition to the expenses in the amount of \$362,000,000 that was identified in GM4, your Committee finds that there may be additional expenses that the State must pay upfront that are still being calculated. Based on information provided and requests made from the Administration, your Committee estimates that general fund obligations in FY24 for Maui wildfire recovery efforts total

\$754,216,070. This total does not include any cost overruns due to the need to house displaced households in non-congregate sheltering beyond June 2024.

Despite exhausting the entire \$199,097,551 appropriation deposited into the Major Disaster Fund and identifying unfunded liabilities in the amount of \$297,065,000 for Maui recovery efforts, your Committee received GM5, which proposed an additional \$61,248,940 in general funds to the Executive Supplemental Budget for the Departments of Agriculture; Accounting and General Services; Business, Economic Development, and Tourism; Defense; Education; Human Services; Human Resources Development; Health; Law Enforcement; Land and Natural Resources; and Transportation; and the Hawaii Health Systems Corporation and the University of Hawaii.

Lastly, your Committee received Governor’s Message No. 6 (GM6), dated March 7, 2024, to correct the amount of the general obligation bond appropriation that was proposed to be repealed in GM4 for the Other Post-Employment Benefits Trust Fund originally made in Act 247, SLH 2022 from \$350,000,000 to \$300,000,000. Altogether, your Committee finds that neither the Administration nor County of Maui have articulated a temporary or permanent housing plan to address the impending cliff for non-congregate sheltering on June 30, 2024.

The State’s financial commitment to wildfire recovery has been substantial in both services and supports that may be reimbursable by FEMA. However, your Committee finds that the constitutional responsibility and power to appropriate funds and adopt a balanced budget rests solely with the Legislature. As such, your Committee remains resolute in providing for wildfire survivors and maintaining core services and operations statewide in areas like public education, healthcare, and protecting our natural resources.

PART IV. COUNCIL ON REVENUES

Your Committee acknowledges that the Council on Revenues increased the general fund forecast for FY24 and FY25 in the January and March meetings, respectively.

The Council on Revenues increased the estimated growth in revenues for FY24 from 1.30 percent in the September 11, 2024, meeting to four percent in the January 10, 2024, meeting. The revised forecast means an increase in revenues by \$248,405,000 from \$9,319,912,000 to \$9,568,317,000. The Council on Revenues’ forecast revision was attributed to robust general fund collections in the first half of FY24 and a faster-than expected recovery in tourism and the labor market from the Maui wildfires.

The Council on Revenues increased the estimated growth in revenues for FY25 from 4.75 percent in the January 11, 2024, meeting to 4.80 percent in the March 12, 2024, meeting. The revised forecast means an increase in general fund revenues by \$4,784,000 from \$10,022,812,000 to \$10,027,596,000.

The forecasts for the state general fund tax revenues for FY24 through FY30 are shown in the table below:

General Fund Tax Revenues

Fiscal Year	September 11, 2023		January 10, 2024		March 12, 2024	
	Amount (in Thousands of Dollars)	Growth From Previous Year	Amount (in Thousands of Dollars)	Growth From Previous Year	Amount (in Thousands of Dollars)	Growth From Previous Year
2024	\$9,319,912	1.30%	\$9,568,317	4.00%	\$9,568,317	4.00%
2025	\$9,804,547	5.20%	\$10,022,812	4.75%	\$10,027,596	4.80%
2026	\$10,147,706	3.50%	\$10,473,839	4.50%	\$10,478,838	4.50%
2027	\$10,502,876	3.50%	\$10,892,793	4.00%	\$10,897,992	4.00%
2028	\$10,870,477	3.50%	\$11,274,041	3.50%	\$11,279,422	3.50%
2029	\$11,250,944	3.50%	\$11,668,632	3.50%	\$11,674,202	3.50%
2030	\$11,644,727	3.50%	\$12,077,034	3.50%	\$12,082,799	3.50%

Your Committee finds that despite the increased general fund forecast by the Council on Revenues for FB25, fiscal restraint is imperative to ensure budget reserves that preserve the State’s bond rating and address the federal fund “cliffs” once the FEMA mission ends. Your Committee has identified the following unfunded liabilities that must be considered when exercising our constitutional mandate to adopt a balanced budget:

- (1) Funds for the continued Maui recovery and response efforts, totaling an estimated \$362,000,000 in FY24; and
- (2) Funds for the Temporary Hazard Pay (THP) settlement with the Hawaii Government Employees Association (HGEA), totaling an estimated \$299,700,000 in FY25.

PART V. PRIORITIES OF THE SENATE

The Senate’s approach to balancing the budget entails considering the Council on Revenues’ general fund forecast and the unfunded liabilities associated with the Maui wildfire recovery and response efforts and Temporary Hazard Pay settlements. Your Committee has worked diligently to create a responsible financial plan and budget that continues to fund critical services and programs, including the following areas identified by the Senate Majority prior to the start of the 2024 Regular Session:

- (1) Emergency Preparedness, Recovery and Resilience;
- (2) Workforce Development and Education;
- (3) Economic Development and Infrastructure;
- (4) Agriculture, Environment, and Natural Resource Management; and
- (5) Housing and Homelessness.

Your Committee has deployed a number of strategies that will not only provide immediate cost savings but help effectuate legislative policies and increase long-term efficiencies. These strategies include:

- (1) Reducing positions that have been vacant for more than four years and positions that have been recommended to be abolished by the Department of Human Resources Development (DHRD), pursuant to Act 57, SLH 2019;
- (2) Trading-off funds to appropriate funds for building and land lease rent on a non-recurring basis to help minimize leased office spaces pursuant to section 40-14, HRS, and to better align with telework policies;
- (3) Adding salaries for vacant and new positions with a six-month delay in hiring; and
- (4) Adding funds for utilities, including for electricity, on a non-recurring basis to facilitate progress toward our energy goals pursuant to section 269-92, HRS.

Your Committee appreciates DHRD's work in recommending vacant positions to abolish, pursuant to Act 57, SLH 2019. In recommending vacant positions to abolish, each Executive Branch department provided a list of their vacant civil service positions that have remained vacant for more than four years to DHRD. As of November 1, 2023, DHRD's report stated that four hundred twenty civil service positions have been vacant for four years or more. After viewing the justifications from each department as to the reason for these prolonged vacancies, as well as the current recruitment status, DHRD recommended one hundred fifteen vacant civil service positions for abolishment. Altogether, your Committee recommends reducing over five hundred full-time equivalent positions and over \$30,000,000 for all means of financing, including a reduction of over two hundred full-time equivalent positions and \$15,000,000 for general funds. To ensure that DHRD has proper time to recruit and vet candidates, your Committee also recommends appropriating salaries for new and vacant positions with a six-month delay in hiring.

Your Committee finds that the COVID-19 pandemic has expedited transitions to teleworking. According to DHRD's telework policy guidelines, one of the objectives of the telework program is to reduce office space requirements. This policy aligns with section 40-14, HRS, which requires the State as of July 1, 2021, to reduce the total square footage of space leased by the State by ten percent no later than July 1, 2026. Your Committee has identified over three-thousand full-time equivalent positions in Table 22 of the Budget Informational Briefing documents collected from each department prior to the legislative session that have been authorized to work remotely outside of the dedicated central work site. Pursuant to DHRD's statewide telework policy and section 40-14, HRS, the Senate Draft trades-off funds to appropriate funds for building and land lease rent on a non-recurring basis. In total, your Committee has identified a total of over \$25,000,000 budgeted for rental of buildings and/or land for all means of financing, including \$10,000,000 in general funds.

PART VI. OPERATING BUDGET HIGHLIGHTS FROM HOUSE BILL NO. 1800, SENATE DRAFT 1

Department of Agriculture (AGR)

The Senate Draft of the executive budget for the Department of Agriculture makes general funds appropriations of \$21,606,726 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$31,624,054 in fiscal year 2025. Highlights for the Department of Agriculture include:

1. Increase the Animal Quarantine Special Fund ceiling by \$733,076 for IT improvements to the Animal Integration System;
2. Add \$1,000,000 for the Farm to Food Bank Program;
3. Add \$1,000,000 for the DaBux Program;
4. Increase the trust fund ceiling by \$93,434 for a Grant Writer position salary; and
5. Add \$52,500 as non-recurring for critical software upgrades.

Department of Accounting and General Services (AGS)

The Senate Draft of the executive budget for the Department of Accounting and General Services makes general funds appropriations of \$156,188,882 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$77,488,955 in fiscal year 2025. Highlights for the Department of Accounting and General Services include:

1. Add \$2,500,000 for Microsoft G5 licenses;
2. Add \$1,650,000 to replace the State's Financial System;
3. Add \$400,000 for menstrual products and dispensers for restrooms in public State buildings;
4. Add \$1,000,000 as non-recurring for increase in electricity cost;
5. Add \$470,000 for telecommunications radio site leases, maintenance, and operations; and
6. Add \$17,000,000 for State Risk Management Revolving Fund to address insurance claims.

Department of the Attorney General (ATG)

The Senate Draft of the executive budget for the Department of Attorney General makes general funds appropriations of \$48,657,648 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$72,611,613 in fiscal year 2025. Highlights for the Department of the Attorney General include:

1. Add \$2,456,750 for Career Criminal and Victim Witness Assistance Programs;
2. Add 4.0 positions and \$462,134 for the Hawai'i Correctional System Oversight Commission;
3. Add 4.0 positions and \$169,105 for the Civil Recoveries Division; and
4. Add \$266,648 for the Criminal Justice Division.

Department of Business, Economic Development, and Tourism (BED)

The Senate Draft of the executive budget for the Department of Business, Economic Development, and Tourism makes general funds appropriations of \$314,924,788 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$250,990,367 in fiscal year 2025. Highlights for the Department of Business, Economic Development, and Tourism include:

1. Add 30.0 positions and \$63,000,000 for the Hawai'i Tourism Authority;
2. Increase Convention Center Special Fund ceiling by \$45,000,000 as non-recurring for deferred maintenance;
3. Increase Aloha Stadium Special Fund ceiling by \$49,500,000 as non-recurring for operations and development;
4. Add 2.0 positions and \$230,230 for property and water system management on Kaua'i; and
5. Increase Creative Industries Special Fund ceiling by \$475,000 for State-County Memorandum of Agreements.

Department of Budget and Finance (BUF)

The Senate Draft of the executive budget for the Department of Budget and Finance makes general funds appropriations of \$3,746,882,057 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$521,710,124 in fiscal year 2025. Highlights for the Department of Budget and Finance include:

1. Increase the Unclaimed Property Trust Fund ceiling by \$4,000,000 for disbursement of payments;
2. Add \$13,356,628 for broadband to match federal funds; and
3. Add \$126,000 as non-recurring for the procurement of a case management software for the office of the public defender.

Department of Commerce and Consumer Affairs (CCA)

The Senate Draft of the executive budget for the Department of Commerce and Consumer Affairs makes non-general fund appropriations of \$116,482,369 in fiscal year 2025. Highlights for the Department of Commerce and Consumer Affairs include:

1. Increase special fund ceiling by \$1,175,000 for increase in operating costs;
2. Increase special fund ceiling by \$2,500,000 as non-recurring for website redesign and call center; and
3. Increase special fund ceiling by \$550,000 as non-recurring for cloud migration and data center closure.

Department of Defense (DEF)

The Senate Draft of the executive budget for the Department of Defense makes general funds appropriations of \$40,218,126 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$98,206,207 in fiscal year 2025. Highlights for the Department of Defense include:

1. Add \$6,919,624 for Hazard Mitigation and \$24,700,000 in to match federal funds;
2. Add \$1,430,900 as non-recurring for utilities cost at Joint Base Pearl Harbor-Hickam, Kaua'i, and Kalaeloa;
3. Add \$497,000 as non-recurring for utilities at Hawai'i Army National Guard facilities statewide;
4. Add \$139,909 for State Warning Point and sirens; and
5. Add \$7,000 as non-recurring for utilities at Starbase.

Department of Education (EDN)

The Senate Draft of the executive budget for the Department of Education makes general funds appropriations of \$2,395,785,069 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$407,776,641 in fiscal year 2025. Highlights for the Department of Education include:

1. Add \$12,931,380 as non-recurring for the Weighted Student Formula to support English learners;
2. Add \$413,915 as non-recurring for AP exam and course subsidies;
3. Add \$3,600,000 to provide work-based learning for students with severe disabilities;
4. Add \$20,990,000 as non-recurring for summer learning hubs;
5. Add \$18,266,346 for bus contracts;

6. Add \$10,000,000 for workers' compensation;
7. Add \$14,925,959 for collective bargaining for vice principals and educational assistants;
8. Add \$2,500,000 for career and technical education teacher differentials; and
9. Add \$1,700,000 to enhance the Department's mobile platforms that provide student mental health support.

Office of the Governor (GOV)

The Senate Draft of the executive budget for the Office of the Governor makes general funds appropriations of \$5,249,958 in fiscal year 2025. The Senate Draft reduces 2.0 vacant positions and \$176,816.

Department of Hawaiian Home Lands (HHL)

The Senate Draft of the executive budget for the Department of Hawaiian Home Lands makes general funds appropriations of \$26,350,840 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$39,691,974 in fiscal year 2025. Lastly, the Senate Draft increases the federal fund ceiling by \$808,204 for 6.0 Temporary Native American Housing Assistance and Self-Determination Act (NAHASDA) positions.

Department of Human Services (HMS)

The Senate Draft of the executive budget for the Department of Human Services makes general funds appropriations of \$1,494,419,926 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$2,947,365,361 in fiscal year 2025. Highlights for the Department of Human Services include:

1. Add a total of \$213,979,324 in non-general funded ceiling increases for federally mandated services;
2. Add \$15,525,000 for Home and Community Based Service contract increases;
3. Add \$1,320,000 for a five percent increase to Homeless Programs Office contracts;
4. Add \$1,000,000 for youth mental health services;
5. Add \$543,677 for maintenance and operation of the Benefits Eligibility Solution System;
6. Add \$1,500,000 as non-recurring for the State Rent Supplement Program; and
7. Add 2.0 positions and \$252,360 to put the Deputy Director and Private Secretary into base budget.

Department of Human Resources Development (HRD)

The Senate Draft of the executive budget for the Department of Human Resources Development makes general funds appropriations of \$27,432,039 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$5,877,980 in fiscal year 2025. Highlights for the Department of Human Resources Development include:

1. Add 7.0 positions and \$872,112 to expedite the hiring process and increase recruitment efforts;
2. Add 1.0 position and \$35,508 for the employee benefits and telework programs;
3. Add \$20,000 for employee training; and
4. Transfer 1.0 position and \$260,352 in FY24; and 1.0 position and \$262,116 in FY25 for workers' compensation services for the Hawai'i State Public Library System.

Department of Health (HTH)

The Senate Draft of the executive budget for the Department of Health makes general funds appropriations of \$847,844,203 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$1,331,222,577 in fiscal year 2025. Highlights for the Department of Health include:

1. Add \$29,000,000 for emergency aeromedical services;
2. Add \$14,800,000 as non-recurring for bed contracts for the Hawai'i State Hospital;
3. Add \$13,000,000 as non-recurring for Locum Tenens contracts at the Hawai'i State Hospital;
4. Add \$10,800,000 for Child and Adolescent Mental Health contracts;
5. Add \$8,880,000 for new and existing Group Home contracts;
6. Add \$6,657,400 for the 'Iwilei Behavioral Health Crisis Center and supportive housing services;
7. Add \$4,962,487 for early intervention services;
8. Add 10.0 Forensic Psychologists and \$971,119 for court evaluations for Hawai'i State Hospital admissions and referrals; and
9. Add 1.0 Plumber position, 1.0 General Laborer position, and \$61,278 for Kalaupapa Settlement.

Department of Law Enforcement (LAW)

The Senate Draft of the executive budget for the Department of Law Enforcement makes general funds appropriations of \$47,789,505 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$43,542,923 in fiscal year 2025. Highlights for the Department of Law Enforcement include:

1. Add 50.0 positions and \$6,567,591 to increase law enforcement at airports and harbors;
2. Add \$2,600,000 to continue security guard services and security camera monitoring within the State Capitol District;
3. Add \$1,500,000 for the Law Enforcement Training Center;
4. Add \$1,265,600 to continue the Illegal Firework Task Force; and
5. Add \$825,000 as non-recurring for the Gun Buyback Program.

Department of Labor and Industrial Relations (LBR)

The Senate Draft of the executive budget for the Department of Land and Natural Resources makes general funds appropriations of \$37,182,823 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$426,067,923 in fiscal year 2025. Highlights for the Department of Labor and Industrial Relations include:

1. Add \$10,000,000 for Grants-in-Aid pursuant to Chapter 42F, HRS;
2. Increase revolving fund ceiling by \$51,914 to provide pay equity for 3.0 Boiler Inspectors;
3. Increase federal fund ceiling by \$2,200,000 for Unemployment Insurance;
4. Increase special fund ceiling by \$300,000 for Labor Law Enforcement Special Fund; and
5. Increase federal fund ceiling by \$200,000 for veteran career counseling.

Department of Land and Natural Resources (LNR)

The Senate Draft of the executive budget for the Department of Land and Natural Resources makes general funds appropriations of \$115,653,464 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$222,245,131 in fiscal year 2025. Highlights for the Department of Land and Natural Resources include:

1. Add \$5,500,000 as non-recurring to improve forest and resource management for wildlife and invasive species;
2. Increase State Parks Special Fund ceiling by \$2,000,000 as non-recurring for equipment and motor vehicles;
3. Increase State Parks Special Fund ceiling by \$10,000,000 for repair and maintenance activities at state parks statewide;
4. Add 7.0 positions and \$484,448 for DLNR HR recruitment and retention; and
5. Increase Sport Fish Special Fund ceiling by \$800,000 for administrative costs.

Office of the Lieutenant Governor (LTG)

The Senate Draft of the executive budget for the Office of the Lieutenant Governor makes general funds appropriations of \$2,365,231 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$300,000 in fiscal year 2025. Your Committee proposes no changes to the budget for the Office of the Lieutenant Governor.

Department of Corrections and Rehabilitation (PSD)

The Senate Draft of the executive budget for the Department of Corrections and Rehabilitation makes general funds appropriations of \$303,095,682 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$15,334,137 in fiscal year 2025. Highlights for the Department of Corrections and Rehabilitation include:

1. Add \$50,000 to establish a Foster Pet Program; and
2. Add \$434,864 as non-recurring for utilities across various facilities.

Department of Taxation (TAX)

The Senate Draft of the executive budget for the Department of Taxation makes general funds appropriations of \$38,881,763 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$3,627,620 in fiscal year 2025. Highlights for the Department of Taxation include:

1. Add 1.0 Senior Software Developer position and \$63,096;
2. Add \$98,000 for security equipment and vehicle contracts; and
3. Add \$11,800 for the Multi-Factor Authentication System.

Department of Transportation (TRN)

The Senate Draft of the executive budget for the Department of Transportation makes general funds appropriations of \$5,000,000 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$1,457,256,517 in fiscal year 2025. Highlights for the Department of Transportation include:

1. Add \$5,000,000 as non-recurring for the Stored Property and Debris Removal Program;
2. Increase the DOT Airports Division's special fund ceiling by \$10,000,000 as non-recurring to renovate airport terminals;
3. Increase the DOT Highways Division's special fund ceiling by \$3,000,000 for roadside safety maintenance; and
4. Increase the DOT Highways Division's special fund ceiling by \$1,250,000 as non-recurring for Google safety analytics.

University of Hawaii (UOH)

The Senate Draft of the executive budget for the University of Hawaii makes general funds appropriations of \$645,818,805 in fiscal year 2025. The Senate Draft also makes non-general fund appropriations of \$707,618,291 in fiscal year 2025. Highlights for the University of Hawaii include:

1. Add \$17,526,848 as non-recurring to restore funds to pre-pandemic levels;
2. Add 5.0 positions and \$506,555 for CTAHR Extension Agents;
3. Add 6.5 positions and \$1,068,821 for a nursing collaboration between UH Mānoa and UH West O‘ahu;
4. Add 4.0 positions and \$925,000 for enhancement of the neighbor island health access and pathway program;
5. Add 4.0 positions and \$1,208,020 for increased campus safety; and
6. Add \$3,700,000 as non-recurring for the Promise Program at UH Community Colleges.

PART VII. CAPITAL IMPROVEMENTS PROGRAM BUDGET

The Governor proposed a state capital improvement budget to the Legislature with the following totals:

Governor	FY24	FY25
General Funds	\$384,265,000	\$148,677,000
General Obligation Bond Funds	\$887,237,000	\$1,229,093,000
All Means of Financing	\$2,933,046,000	\$4,196,220,000

Your Committee has further amended this measure and proposes a capital improvement budget with the following totals:

Senate Draft	FY24	FY25
General Funds	\$374,265,000	\$443,248,000
General Obligation Bond Funds	\$879,737,000	\$1,032,960,000
All Means of Financing	\$2,905,646,000	\$4,285,608,000

PART VIII. RECOMMENDATION

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1800, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1800, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
 Ayes, 13. Noes, none. Excused, none.

SCRep. 3420 Ways and Means on H.B. No. 1911

The purpose and intent of this measure is to appropriate funds for the operating and capital improvement program costs of the Judiciary for the fiscal biennium beginning July 1, 2023, and ending June 30, 2025.

Your Committee received written comments in support of this measure from the Judiciary, Hawaii State Bar Association, and one individual.

Your Committee finds that the appropriations made by this measure will assist the Judiciary in its efforts to fulfill its constitutional, statutory, and public service duties for the remainder of the 2023-2025 fiscal biennium.

OPERATING BUDGET

The Judiciary requested the following funds for fiscal biennium 2023-2025 operating expenses:

Judiciary	FY 2024	FY 2025
General Funds	\$185,148,711	\$192,254,156
All Means of Financing	\$197,865,224	\$205,099,909

Your Committee has amended this budget to appropriate the following funds for operating expenses:

Senate	FY 2024	FY 2025
General Funds	\$185,148,711	\$192,140,976
All Means of Financing	\$197,865,224	\$204,918,173

CAPITAL IMPROVEMENT PROJECT BUDGET

The Judiciary requested the following funds for fiscal biennium 2023-2025 capital improvement project expenses:

Judiciary	FY 2024	FY 2025
General Funds	\$3,000,000	\$3,000,000
General Obligation Bond Funds	\$17,995,000	\$14,000,000
All Means of Financing	\$20,995,000	\$17,000,000

Your Committee has amended this budget to appropriate the following funds for capital improvement project expenses:

Senate	FY 2024	FY 2025
General Funds	\$3,000,000	\$3,000,000
General Obligation Bond Funds	\$17,995,000	\$14,000,000
All Means of Financing	\$20,995,000	\$17,000,000

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1911, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 1911, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 3421 Ways and Means on H.B. No. 2610

The purpose and intent of this measure is to provide disaster relief in the aftermath of the August 2023 Maui wildfires.

Specifically, this measure:

- (1) Establishes a disaster relief match special fund to support the local match requirements of the Federal Emergency Management Agency Maui wildfires hazard mitigation grant program; and
- (2) Appropriates moneys into the disaster relief match special fund.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed Senate Draft 2, which amends this measure by inserting as a new part II certain provisions from Senate Bill No. 3068, Senate Draft 1, which is another measure that provides relief from the devastating impacts of the August 2023 Maui wildfires. Specifically, the provisions added to the proposed Senate Draft 2:

- (1) Make appropriations relating to the State's response to the Maui wildfires and statewide wildfire mitigation and response;
- (2) Reauthorize certain general funded capital improvement project operating appropriations as general obligation bond funded appropriations; and
- (3) Authorize the issuance of reimbursable general obligation bonds and appropriation of the bond proceeds for certain capital improvement projects in the county of Maui.

The proposed Senate Draft 2 also amended the provisions inserted from Senate Bill No. 3068, Senate Draft 1, by amending certain means of financing to provide for the appropriation of certain federal funds rather than state general funds.

Your Committee received testimony in support of the proposed Senate Draft 2 from the Department of Budget and Finance, Hawaii Housing Finance and Development Corporation, Hawaii Emergency Management Agency, and the chairperson of the Maui County Council.

Your Committee also received testimony in support of the Senate Draft 1 from the Hawaii State Hazard Mitigation Forum; Office of Climate Change, Sustainability and Resiliency of the City and County of Honolulu; Maui Chamber of Commerce; and one individual.

Your Committee finds that the disaster relief match special fund will help to ensure that local matching moneys are available to draw down federal moneys offered to the State by the Federal Emergency Management Agency's Maui wildfire hazard mitigation grant program. Your Committee further finds that this funding will help to rebuild the areas affected by the 2023 Maui wildfires in a resilient manner.

Your Committee has amended this measure by adopting the proposed Senate Draft 2 and further amending the measure by:

- (1) Amending the appropriation of general funds for recovery costs for the Maui wildfires disaster by:
 - (A) Requiring the Governor to provide notice to the Legislature no less than fourteen days prior to the date of any transfer of moneys to other state agencies; and
 - (B) Requiring the Auditor to conduct annual audits of contracts procured under the appropriation and submit reports of its findings and recommendations to the Legislature prior to the convening of the Regular Sessions of 2026 and 2027;
- (2) Amending the appropriation of revolving funds to the Hawaii Housing Finance and Development Corporation for fiscal year 2024-2025 from \$14,046,265 to \$16,022,225;

- (3) Clarifying that certain new capital improvement projects authorized by the measure are under the jurisdiction of the Hawaii Housing Finance and Development Corporation; and
- (4) Correcting the amount of reimbursable general obligation bond funds authorized for capital improvement projects for temporary housing, Maui; and modular housing for temporary units, Maui.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2610, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 2610, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Lee, Wakai).

SCRep. 3422 Ways and Means on H.B. No. 679

The purpose and intent of this measure is to amend, from \$300,000,000 to an unspecified amount, the appropriation of general funds to the rental housing revolving fund made by Act 236, Session Laws of Hawaii 2022.

Prior to the hearing on this measure, your Committee made available for public review a proposed S.D. 2 of this measure. The proposed S.D. 2:

- (1) Removes language amending Act 236, Session Laws of Hawaii 2022;
- (2) Appropriates \$297,000,000 for noncongregate housing and other costs for individuals affected by the August 8, 2023 wildfires;
- (3) Appropriates \$65,000,000 to the One Ohana Bank Trust Account for the State's contribution of the compromise and settlement of claims relating to the 2023 Maui wildfires;
- (4) Amends Act 164, Session Laws of Hawaii 2023, by changing the appropriation of \$230,000,000 in general funds to the Hawaii Housing Finance and Development Corporation to \$230,000,000 in general obligation bond funds;
- (5) Authorizes the Director of Finance to transfer the excess balance of various non-general funds to the general fund; and
- (6) Repeals language in Act 247, Session Laws of Hawaii 2022, that authorizes the Director of Finance to issue \$300,000,000 in general obligation bonds for the Other Post-Employment Benefits Trust Fund.

Your Committee received written comments in support of this measure from the Office of the Governor and the Hawaii Housing Finance and Development Corporation.

Your Committee received written comments in opposition to this measure from the Hawaii Technology Development Corporation.

Your Committee received written comments on this measure from the Department of Budget and Finance, Department of the Attorney General, Hawaii Department of Agriculture, Department of Land and Natural Resources, Department of Human Services, and Hawaii Tourism Authority.

Your Committee finds that due to the size and scope of the Maui wildfires disaster, recovery efforts are expected to exceed the limit on the amount that may be expended from the Major Disaster Fund, which is \$10,000,000 per emergency or disaster. Accordingly, your Committee believes that allowing all federal reimbursements to the fund to be expended will help to ensure that those moneys may be expended as necessary for disaster relief.

Your Committee has amended this measure by adopting the proposed S.D. 2 and further amending it by:

- (1) Amending the requirements related to the appropriation for noncongregate housing and other costs for individuals affected by the August 8, 2023 Maui wildfires, as follows:
 - (A) Advancing the lapse date of the appropriation from June 30, 2026, to June 30, 2024;
 - (B) Adding a requirement for the Auditor to conduct an audit on each contract funded by the appropriation; and
 - (C) Requiring that the Governor provide notice and a report to the Legislature regarding any transfer of the appropriated funds to the Major Disaster Fund;
- (2) Requiring that upon closure of the One Ohana Bank Trust Account, the remaining balance after the settlement of all administrative costs shall be returned to the contributors in proportion to their contributions;
- (3) Inserting, as a new part, temporary amendments to statutory provisions relating to the Major Disaster Fund to allow federal reimbursements to be deposited into the Major Disaster Fund and later expended without regard to the expenditure cap of the Fund;
- (4) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 679, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 679, H.D. 1, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Lee, Wakai).

SCRep. 3423 Health and Human Services on S.C.R. No. 65

The purpose and intent of this measure is to urge the Department of Health to convene and lead an informal working group to discuss:

- (1) The management of clean and sober homes; and
- (2) Possible collaboration with the counties and other affected regulators to ensure that clean and sober homes comply with county regulations, and encourage registration without using restrictions that are discriminatory.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Substance Abuse Coalition, and two individuals.

Your Committee finds that Act 193, Session Laws of Hawaii 2014, required the Department of Health to establish a Clean and Sober Homes Registry to assist persons recovering from substance abuse to have a safe, clean, and sober environment that supports their recovery. Your Committee further finds that a report submitted by a Clean and Sober Homes and Halfway Houses Workgroup that had been formed in 2012, comprising representatives from various state and county agencies and stakeholders, was instrumental in the adoption of the current voluntary clean and sober homes registry. Over ten years later, your Committee finds that while most clean and sober homes on the voluntary registry are well-run, some homes that are not on the registry violate their county land use laws by overcrowding, resulting in noise and parking complaints from their neighbors. This measure will allow the State and counties to collaborate once again to improve the current registry and support systems to ensure that all homes are in compliance with applicable laws and regulations, while balancing the needs of those requiring the support of these homes and the concerns of the community.

Your Committee notes the request in testimony that the informal working group discuss not only matters pertaining to clean and sober homes, but all types of group living facilities.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that urges the Department of Health to convene and lead an informal working group to discuss:
 - (A) The management of all group living facilities as described in section 46-4(d), Hawaii Revised Statutes, including clean and sober homes, rather than just clean and sober homes; and
 - (B) Possible collaboration with the counties and other affected regulators to ensure that all group living facilities as described in section 46-4(d), Hawaii Revised Statutes, rather than just clean and sober homes, comply with county regulations, and encourage registration without using restrictions that are discriminatory;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 65, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 65, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3424 Health and Human Services on S.R. No. 53

The purpose and intent of this measure is to urge the Department of Health to convene and lead an informal working group to discuss:

- (1) The management of clean and sober homes; and
- (2) Possible collaboration with the counties and other affected regulators to ensure that clean and sober homes comply with county regulations, and encourage registration without using restrictions that are discriminatory.

Your Committee received testimony in support of this measure from the Hawaii Substance Abuse Coalition.

Your Committee finds that Act 193, Session Laws of Hawaii 2014, required the Department of Health to establish a Clean and Sober Homes Registry to assist persons recovering from substance abuse to have a safe, clean, and sober environment that supports their recovery. Your Committee further finds that a report submitted by a Clean and Sober Homes and Halfway Houses Workgroup that had been formed in 2012, comprising representatives from various state and county agencies and stakeholders, was instrumental in the adoption of the current voluntary clean and sober homes registry. Over ten years later, your Committee finds that while most clean and sober homes on the voluntary registry are well-run, some homes that are not on the registry violate their county land use laws by overcrowding, resulting in noise and parking complaints from their neighbors. This measure will allow the State and counties to collaborate once again to improve the current registry and support systems to ensure that all homes are in compliance with applicable laws and regulations, while balancing the needs of those requiring the support of these homes and the concerns of the community.

Your Committee notes the request in testimony that the informal working group discuss not only matters pertaining to clean and sober homes, but all types of group living facilities.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that urges the Department of Health to convene and lead an informal working group to discuss:
 - (A) The management of all group living facilities as described in section 46-4(d), Hawaii Revised Statutes, including clean and sober homes, rather than just clean and sober homes; and

- (B) Possible collaboration with the counties and other affected regulators to ensure that all group living facilities as described in section 46-4(d), Hawaii Revised Statutes, rather than just clean and sober homes, comply with county regulations, and encourage registration without using restrictions that are discriminatory;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 53, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 53, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3425 Health and Human Services on S.C.R. No. 64

The purpose and intent of this measure is to urge the State and counties to prioritize and direct all available resources to support a coordinated interagency collaboration and public-private partnerships aimed at addressing the ongoing fentanyl epidemic.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, Department of Health, County of Kaua'i Housing Agency, Mayor of the County of Hawai'i, Kumukahi Health + Wellness, Hawai'i Island Fentanyl Task Force, Hawaii Health & Harm Reduction Center, North Hawaii Community Action Network, and twenty-one individuals.

Your Committee finds that the State is experiencing an increased number of drug overdose deaths and the majority of those overdose deaths are from opioid prescription pain medications, heroin, and illicitly manufactured non-medical fentanyl. Illicitly manufactured non-medical fentanyl is commonly mixed into known street drugs, including cannabis, and pressed into fake look-alike pills, including fake oxytocin, Adderall, Xanax, and others. Your Committee recognizes that fentanyl is up to fifty percent stronger than heroin and one hundred times stronger than morphine, and according to the United States Drug Enforcement Administration, a single two milligram dose can be lethal. Combating the use of illicit drugs requires a multifactorial, coordinated interagency collaboration and public-private partnerships are also necessary to address the epidemic through various approaches, including education and prevention, screening and intervention, drug treatment and recovery services, and increased drug interdiction and law enforcement efforts. Your Committee notes the success of the Hawai'i Island Fentanyl Task Force, which was formed with the mission to reduce the demand and supply of illicit drugs in all age groups through a coordinated interagency approach. Accordingly, in recognition of the accomplishments of the Hawai'i Island Fentanyl Task Force, this measure urges interagency collaboration and public-private partnerships between the State, counties, and other stakeholders to effectively address the fentanyl crisis statewide.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 64 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3426 Health and Human Services on S.R. No. 52

The purpose and intent of this measure is to urge the State and counties to prioritize and direct all available resources to support a coordinated interagency collaboration and public-private partnerships aimed at addressing the ongoing fentanyl epidemic.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, County of Kaua'i Housing Agency, Mayor of the County of Hawai'i, Kumukahi Health + Wellness, Hawai'i Island Fentanyl Task Force, Hawai'i Health & Harm Reduction Center, North Hawaii Community Action Network, and twenty-one individuals.

Your Committee finds that the State is experiencing an increased number of drug overdose deaths and the majority of those overdose deaths are from opioid prescription pain medications, heroin, and illicitly manufactured non-medical fentanyl. Illicitly manufactured non-medical fentanyl is commonly mixed into known street drugs, including cannabis, and pressed into fake look-alike pills, including fake oxytocin, Adderall, Xanax, and others. Your Committee recognizes that fentanyl is up to fifty percent stronger than heroin and one hundred times stronger than morphine, and according to the United States Drug Enforcement Administration, a single two milligram dose can be lethal. Combating the use of illicit drugs requires a multifactorial, coordinated interagency collaboration and public-private partnerships are also necessary to address the epidemic through various approaches, including education and prevention, screening and intervention, drug treatment and recovery services, and increased drug interdiction and law enforcement efforts. Your Committee notes the success of the Hawai'i Island Fentanyl Task Force, which was formed with the mission to reduce the demand and supply of illicit drugs in all age groups through a coordinated interagency approach. Accordingly, in recognition of the accomplishments of the Hawai'i Island Fentanyl Task Force, this measure urges interagency collaboration and public-private partnerships between the State, counties, and other stakeholders to effectively address the fentanyl crisis statewide.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 52 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3427 Health and Human Services on S.C.R. No. 34

The purpose and intent of this measure is to request the Hawaii Medical Association and Hawaii Psychiatric Medical Association to convene a roundtable to establish medical protocols to ensure that an individual's thyroid function is tested before any psychotropic medications for mental health illness are prescribed.

Your Committee received testimony in support of this measure from the Hawaii Disability Rights Center and three individuals.

Your Committee finds that doctors and others who have prescriptive authority often appropriately prescribe psychotropic medications to treat mental illness. However, sometimes untreated thyroid conditions can also result in exhibiting symptoms similar to mental illness. Some individuals have been prescribed psychotropic medications without first testing for the presence of a thyroid condition, and for those individuals who did have a thyroid condition, the psychotropic medications the individuals received were either ineffective or potentially harmful. Your Committee additionally finds that testing for abnormal thyroid levels is a simple process that can be done through a blood test. Accordingly, this measure promotes best practices to ensure root causes are addressed through proper testing and to educate providers to improve access to care.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 34 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3428 Agriculture and Environment on S.C.R. No. 29

The purpose and intent of this measure is to urge the Department of Agriculture to:

- (1) Support efforts to improve the Aquaculture Development Program Strategic Plan (Strategic Plan); and
- (2) Adopt the recommendations made by Hatch Innovation Services in its February 2024 report regarding the Strategic Plan.

Your Committee received testimony in support of this measure from the Department of Agriculture, Malama Makua, and five individuals.

Your Committee finds that although the State's aquaculture sector is already well-established, more investment and resources are necessary to strengthen and build the capacity for this growing industry. This measure supports efforts to achieve the dual goals of increasing aquaculture food production and supporting initiatives for restorative aquaculture, thereby increasing the economic resilience and food sustainability of the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 29 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3429 Agriculture and Environment on S.R. No. 19

The purpose and intent of this measure is to urge the Department of Agriculture to:

- (1) Support efforts to improve the Aquaculture Development Program Strategic Plan (Strategic Plan); and
- (2) Adopt the recommendations made by Hatch Innovation Services in its February 2024 report regarding the Strategic Plan.

Your Committee received testimony in support of this measure from the Department of Agriculture and four individuals.

Your Committee finds that although the State's aquaculture sector is already well-established, more investment and resources are necessary to strengthen and build the capacity for this growing industry. This measure supports efforts to achieve the dual goals of increasing aquaculture food production and supporting initiatives for restorative aquaculture, thereby increasing the economic resilience and food sustainability of the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 19 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3430 (Majority) Agriculture and Environment on S.C.R. No. 101

The purpose and intent of this measure is to urge a transition to a plant-based lifestyle.

Your Committee received testimony in support of this measure from the Vegan Society of Hawaii, Inc.; Hawai'i Reef and Ocean Coalition; Climate Protectors Hawai'i; Citizens' Climate Lobby Hawaii; Building Decarbonization Task Force of the Hawai'i Environmental Change Agents; Kauai Climate Action Coalition; Green Party of Hawai'i, Down to Earth; Hawaii Food & Policy and eleven individuals.

Your Committee received comments on this measure from the Department of Agriculture and Hawaii Cattlemen's Council, Inc.

Your Committee finds that a plant-based lifestyle fosters a holistic approach to environmental stewardship, cultural preservation, and community well-being. Your Committee recognizes that Hawaii's tropical climate, with a year-round growing season, is well-suited to support plant-based lifestyles. This measure urges the transition to a plant-based lifestyle as it can have an enormous positive impact on reducing the effects of climate change.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 101 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (DeCoite). Excused, 2 (Richards, Awa).

SCRep. 3431 (Majority) Agriculture and Environment on S.R. No. 83

The purpose and intent of this measure is to urge a transition to a plant-based lifestyle.

Your Committee received testimony in support of this measure from the Building Decarbonization Task Force of the Hawai'i Environmental Change Agents, Kauai Climate Action Committee, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, Citizens' Climate Lobby Hawaii, Down to Earth, and seven individuals.

Your Committee received comments on this measure from the Department of Health and Hawaii Cattlemen's Council, Inc.

Your Committee finds that a plant-based lifestyle fosters a holistic approach to environmental stewardship, cultural preservation, and community well-being. Your Committee recognizes that Hawaii's tropical climate, with a year-round growing season, is well-suited to support plant-based lifestyles. This measure urges the transition to a plant-based lifestyle as it can have an enormous positive impact on reducing the effects of climate change.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 83 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (DeCoite). Excused, 2 (Richards, Awa).

SCRep. 3432 Agriculture and Environment on S.C.R. No. 67

The purpose and intent of this measure is to urge the Legislature to preserve, protect, and restore limu kala to the full extent of its capability.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and two individuals.

Your Committee finds that the Legislature recognized the critical role of limu kala in Hawaii's nearshore ecosystems and Native Hawaiian history and culture through the passage of Act 230, Session Laws of Hawaii 2023, which designated limu kala as the state limu of Hawaii. However, populations of this endemic species of limu have been severely damaged by the ongoing effects of climate change, development, and runoff. This measure seeks to further support healthy reefs and nearshore ecosystems in the State by urging the protection and restoration of limu kala populations.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 67 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3433 Agriculture and Environment on S.R. No. 55

The purpose and intent of this measure is to urge the Legislature to preserve, protect, and restore limu kala to the full extent of its capability.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the Legislature recognized the critical role of limu kala in Hawaii's nearshore ecosystems and Native Hawaiian history and culture through the passage of Act 230, Session Laws of Hawaii 2023, which designated limu kala as the state limu of Hawaii. However, populations of this endemic species of limu have been severely damaged by the ongoing effects of climate change, development, and runoff. This measure seeks to further support healthy reefs and nearshore ecosystems in the State by urging the protection and restoration of limu kala populations.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 55 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3434 Higher Education on S.C.R. No. 202

The purpose and intent of this measure is to urge the development of a baccalaureate degree program in education with an online option at Leeward Community College to address the educational needs of working adults in all counties.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that there is a growing demand for online educational programs to accommodate working adults who aspire to become teachers. While all counties face unique challenges in recruiting and retaining qualified educators, there is a need for more baccalaureate degree programs at the University of Hawaii Community Colleges to expand access to educational opportunities statewide and address the ongoing chronic teacher shortage. Presently, the University of Hawaii Leeward Community College's accreditation allows the college to offer up to two applied baccalaureate degree programs. As teacher education programs at Leeward Community College are already offered statewide through the Internet and include upper division curriculum, expanding access to teacher pathways through new programs can incentivize interested students to enroll. Accordingly, this measure expands access to higher education for prospective teachers while addressing the State's chronic teacher shortage.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 202, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 202, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3435 Higher Education on S.R. No. 178

The purpose and intent of this measure is to urge the development of a baccalaureate degree program in education with an online option at Leeward Community College to address the educational needs of working adults in all counties.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committee finds that there is a growing demand for online educational programs to accommodate working adults who aspire to become teachers. While all counties face unique challenges in recruiting and retaining qualified educators, there is a need for more baccalaureate degree programs at the University of Hawaii Community Colleges to expand access to educational opportunities statewide and address the ongoing chronic teacher shortage. Presently, the University of Hawaii Leeward Community College's accreditation allows the college to offer up to two applied baccalaureate degree programs. As teacher education programs at Leeward Community College are already offered statewide through the Internet and include upper division curriculum, expanding access to teacher pathways through new programs can incentivize interested students to enroll. Accordingly, this measure expands access to higher education for prospective teachers while addressing the State's chronic teacher shortage.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 178, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 178, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3436 Higher Education on S.C.R. No. 143

The purpose and intent of this measure is to urge the Federal Emergency Management Agency to consider utilizing funds for non-congregate housing for infrastructure and development needs for affordable rental housing.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 requests the University of Hawaii to develop a comprehensive plan to address student housing facility needs at the Manoa campus.

Your Committee received testimony in support of the proposed S.D. 1 from the University of Hawai'i System.

Your Committee finds that there is a shortage of available and affordable housing statewide. Additionally, there is a limited supply of on-campus student housing available for students attending the University of Hawaii, which has placed students into the general rental market, further increasing demand for rental housing. While the University of Hawaii Student Housing Services comprise of twenty-one residential buildings, a majority of the Student Housing Services residences have not undergone any major renovation or improvement since constructed in the 1970s, with the exception for renovations and construction of the Hale Aloha Towers and Frear Hall in 2008-2009. The Student Housing Services business model has historically prioritized affordability, which has now compromised the future financial and economic sustainability of needed major repairs and renovations of the aging facilities. Moreover, the physical condition of certain on-campus facilities have compromised their ability to remain in service.

Your Committee further finds that the Hale Noelani facility is an on-campus Student Housing Services facility comprised of five buildings, originally constructed in 1978 and included over five hundred beds. However, the Hale Noelani buildings were closed and taken out of service in 2018 due to significant deficiencies in the building conditions. Furthermore, the University of Hawaii also operates faculty housing and offers below-market rates to new faculty members, but does not generate sufficient revenue to help offset the construction of additional faculty housing units. Your Committee also finds that the University of Hawaii must seek new repair, maintenance, and development models, to include novel approaches to financing the renovation, improvements, and expansions of its existing on-campus housing inventory for students and faculty members, both through public financing or public-private partnership options. As the Student Housing Services business model does not provide for long-term financial stability, diverse sources of funds should be utilized for student housing facilities as evidenced by the Residences for Innovation and Student Entrepreneurs and residences for graduate students at the former National Marine Fisheries site, which would provide funding necessary to operate and maintain housing programs on campus. Therefore, this measure requests the University of Hawaii to establish a business model that provides a reliable stream of revenue to sustain long-term viability of buildings utilized for student housing operations at the Manoa campus.

Your Committee has amended this measure by:

- (1) Adopting the proposed S.D. 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 143, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 143, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3437 Higher Education on S.R. No. 172

The purpose and intent of this measure is to urge the Federal Emergency Management Agency to consider utilizing funds for non-congregate housing for infrastructure and development needs for affordable rental housing.

Prior to decision making on this measure, your Committee made available for public review a proposed S.D. 1 of this measure. The proposed S.D. 1 requests the University of Hawaii to develop a comprehensive plan to address student housing facility needs at the Manoa campus.

Your Committee received testimony in support of the proposed S.D. 1 from the University of Hawai'i System.

Your Committee finds that there is a shortage of available and affordable housing statewide. Additionally, there is a limited supply of on-campus student housing available for students attending the University of Hawaii, which has placed students into the general rental market, further increasing demand for rental housing. While the University of Hawaii Student Housing Services comprise of twenty-one residential buildings, a majority of the Student Housing Services residences have not undergone any major renovation or improvement since constructed in the 1970s, with the exception for renovations and construction of the Hale Aloha Towers and Frear Hall in 2008-2009. The Student Housing Services business model has historically prioritized affordability, which has now compromised the future financial and economic sustainability of needed major repairs and renovations of the aging facilities. Moreover, the physical condition of certain on-campus facilities have compromised their ability to remain in service.

Your Committee further finds that the Hale Noelani facility is an on-campus Student Housing Services facility comprised of five buildings, originally constructed in 1978 and included over five hundred beds. However, the Hale Noelani buildings were closed and taken out of service in 2018 due to significant deficiencies in the building conditions. Furthermore, the University of Hawaii also operates faculty housing and offers below-market rates to new faculty members, but does not generate sufficient revenue to help offset the construction of additional faculty housing units. Your Committee also finds that the University of Hawaii must seek new repair, maintenance, and development models, to include novel approaches to financing the renovation, improvements, and expansions of its existing on-campus housing inventory for students and faculty members, both through public financing or public-private partnership options. As the Student Housing Services business model does not provide for long-term financial stability, diverse sources of funds should be utilized for student housing facilities as evidenced by the Residences for Innovation and Student Entrepreneurs and residences for graduate students at the former National Marine Fisheries site, which would provide funding necessary to operate and maintain housing programs on campus. Therefore, this measure requests the University of Hawaii to establish a business model that provides a reliable stream of revenue to sustain long-term viability of buildings utilized for student housing operations at the Manoa campus.

Your Committee has amended this measure by:

- (1) Adopting the proposed S.D. 1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 172, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 172, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3438 Agriculture and Environment on S.C.R. No. 132

The purpose and intent of this measure is to request that:

- (1) The Office of the Governor convene a Working Group (Working Group) to proactively plan for the remediation of perfluoroalkyl and polyfluoroalkyl substances (PFAS) contamination throughout the State;
- (2) The Working Group submit a preliminary report of its findings and recommendations to the Legislature before the Regular Session of 2025; and
- (3) The Working Group submit annual reports of its findings and recommendations to the Legislature before each Regular Session thereafter.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply, Environmental Caucus of the Democratic Party of Hawai'i, Americans for Democratic Action, Democratic Party of Hawai'i, and two individuals.

Your Committee finds that PFAS and related chemicals remain in the environment for long periods of time and that low levels of exposure to PFAS have been linked to major medical conditions. Your Committee notes that, as of August 2023, twenty-five other states have enforced drinking water standards related to PFAS. The establishment of a long-term working group as proposed by this measure would increase publicly available information, and prepare for future regulation, regarding PFAS and other chemical substances.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 132 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3439 Agriculture and Environment on S.R. No. 114

The purpose and intent of this measure is to request that:

- (1) The Office of the Governor convene a Working Group (Working Group) to proactively plan for the remediation of perfluoroalkyl and polyfluoroalkyl substances (PFAS) contamination throughout the State;
- (2) The Working Group submit a preliminary report of its findings and recommendations to the Legislature before the Regular Session of 2025; and
- (3) The Working Group submit annual reports of its findings and recommendations to the Legislature before each Regular Session thereafter.

Your Committee received testimony in support of this measure from the Honolulu Board of Water Supply, Environmental Caucus of the Democratic Party of Hawai'i, Americans for Democratic Action, Democratic Party of Hawai'i, and two individuals.

Your Committee finds that PFAS and related chemicals remain in the environment for long periods of time and that low levels of exposure to PFAS have been linked to major medical conditions. Your Committee notes that, as of August 2023, twenty-five other states have enforced drinking water standards related to PFAS. The establishment of a long-term working group as proposed by this measure would increase publicly available information, and prepare for future regulation, regarding PFAS and other chemical substances.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 114 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3440 Agriculture and Environment on S.C.R. No. 220

The purpose and intent of this measure is to urge Hawaii's construction industry to:

- (1) Increase the recycling of construction and demolition debris to the greatest extent possible; and
- (2) Expand the usage of recycled construction materials to the greatest extent possible.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and one individual.

Your Committee finds that many landfills in the State that accept construction and demolition debris are expected to reach maximum capacity within the next decade. Your Committee further finds that the recycling of construction waste and the reuse of recycled construction material diverts and reduces tons of waste to local landfills. The practices urged in this measure are a good first step to help improve solid waste management in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 220 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3441 Agriculture and Environment on S.R. No. 196

The purpose and intent of this measure is to urge Hawaii's construction industry to:

- (1) Increase the recycling of construction and demolition debris to the greatest extent possible; and
- (2) Expand the usage of recycled construction materials to the greatest extent possible.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i.

Your Committee finds that many landfills in the State that accept construction and demolition debris are expected to reach maximum capacity within the next decade. Your Committee further finds that the recycling of construction waste and the reuse of recycled construction material diverts and reduces tons of waste to local landfills. The practices urged in this measure are a good first step to help improve solid waste management in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 196 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3442 Agriculture and Environment on S.C.R. No. 105

The purpose and intent of this measure is to request the Hawaii Climate Change Mitigation and Adaptation Commission to:

- (1) Conduct an educational program regarding the activities of individuals that contribute to climate change; and
- (2) Coordinate with the Department of Health in the implementation of the educational program.

Your Committee received testimony in support of this measure from Citizens' Climate Lobby Hawaii and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that there is misleading information regarding how effective certain actions are at mitigating climate change. Your Committee further finds that this may deceive consumers into believing that they are reducing their carbon footprint more than they actually are. This measure will accurately inform the public on the personal activities, habits, and lifestyle choices that they can make to effectively decrease the rate of global warming.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 105 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3443 Agriculture and Environment on S.R. No. 87

The purpose and intent of this measure is to request the Hawaii Climate Change Mitigation and Adaptation Commission to:

- (1) Conduct an educational program regarding the activities of individuals that contribute to climate change; and
- (2) Coordinate with the Department of Health in the implementation of the educational program.

Your Committee received testimony in support of this measure from Citizens' Climate Lobby Hawaii and one individual.

Your Committee finds that there is misleading information regarding how effective certain actions are at mitigating climate change. Your Committee further finds that this may deceive consumers into believing that they are reducing their carbon footprint more than they actually are. This measure will accurately inform the public on the personal activities, habits, and lifestyle choices that they can make to effectively decrease the rate of global warming.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 87 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3444 Agriculture and Environment on S.C.R. No. 133

The purpose and intent of this measure is to urge every state agency that monitors environmental toxins and pollutants to:

- (1) Follow certain procedural and substantive requirements for the establishment and modification of environmental action levels (EALs);
- (2) Allow any resident of the State to petition for modifications of one or more EALs or similar triggering mechanisms for environmental toxins and pollutants monitored by the state agency; and
- (3) Promptly respond to a petition to modify an EAL in the manner provided by chapter 91, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and two individuals.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the use of environmental action levels (EALs) can be beneficial for monitoring and regulating environmental pollution. However, because there is currently no standardized or formal process for the establishment or amendment for EALs in the State, some state agencies that use EALs have been known to arbitrarily raise, or in some cases lower, an EAL without sufficient public notice or scientific justification. This measure supports the health of the public and the environment by urging the adoption of certain procedural and substantive requirements to provide transparency and accountability for any establishment and revision of EALs in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 133 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3445 Agriculture and Environment on S.R. No. 115

The purpose and intent of this measure is to urge every state agency that monitors environmental toxins and pollutants to:

- (1) Follow certain procedural and substantive requirements for the establishment and modification of environmental action levels (EALs);
- (2) Allow any resident of the State to petition for modifications of one or more EALs or similar triggering mechanisms for environmental toxins and pollutants monitored by the state agency; and
- (3) Promptly respond to a petition to modify an EAL in the manner provided by chapter 91, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and one individual.

Your Committee finds that the use of environmental action levels (EALs) can be beneficial for monitoring and regulating environmental pollution. However, because there is currently no standardized or formal process for the establishment or amendment for EALs in the State, some state agencies that use EALs have been known to arbitrarily raise, or in some cases lower, an EAL without sufficient public notice or scientific justification. This measure supports the health of the public and the environment by urging the

adoption of certain procedural and substantive requirements to provide transparency and accountability for any establishment and revision of EALs in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 115 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3446 (Joint) Agriculture and Environment and Government Operations on S.C.R. No. 152

The purpose and intent of this measure is to request the City and County of Honolulu to collaborate with the State to expand community gardening opportunities for residents.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Farm Bureau, and three individuals.

Your Committees find that, in addition to other health and social benefits, community gardens can produce organic, healthy, and affordable food options, thereby contributing to the State's local food production goals. Your Committees note that there is high demand for community garden spaces among residents of the State. This measure therefore aims to provide solutions to the lack of available supply of community garden spaces on the island of Oahu.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 152 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 3447 (Joint) Agriculture and Environment and Government Operations on S.R. No. 130

The purpose and intent of this measure is to request the City and County of Honolulu to collaborate with the State to expand community gardening opportunities for residents.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Farm Bureau.

Your Committees find that, in addition to other health and social benefits, community gardens can produce organic, healthy, and affordable food options, thereby contributing to the State's local food production goals. Your Committees note that there is high demand for community garden spaces among residents of the State. This measure therefore aims to provide solutions to the lack of available supply of community garden spaces on the island of Oahu.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Government Operations that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 130 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).
Government Operations: Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 3448 (Joint) Education and Higher Education on S.C.R. No. 98

The purpose and intent of this measure is to request the Department of Education to partner with the Hawaii State Teachers Association and teacher education programs at local universities and colleges to provide pathways for school support personnel to become full-time teachers.

Your Committees received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and one individual.

Your Committees find that the State is experiencing a chronic shortage of highly qualified, licensed teachers. In the 2021-2022 school year, the Department of Education experienced a 12.3 percent increase in public school teacher turnover, with nine hundred twenty teachers who resigned and three hundred ten teachers who retired. Additionally, the Department of Education is also experiencing a high rate of turnover of school support staff. While many school support personnel have extensive experience with classroom operations, pedagogy, and instructional delivery, many personnel who enroll in teacher certification programs do not receive course credit for their classroom work and experience. Therefore, this measure supports developing pathways to enable school support personnel to achieve their academic and professional goals while ensuring adequate staffing in Hawaii's public schools.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 98, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 98, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 1 (Richards).
Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3449 (Joint) Education and Higher Education on S.C.R. No. 144

The purpose and intent of this measure is to urge the Department of Education, University of Hawaii Community Colleges, and Hawaii P-20 Partnerships for Education to develop clear pathways for students in Department of Education career and technical education academies to seamlessly continue their education in career and technical education programs at University of Hawaii Community Colleges.

Your Committees received testimony in support of this measure from the Department of Education, University of Hawai'i System, State Rehabilitation Council, and Hawai'i P-20 Partnerships for Education.

Your Committees find that career and technical education programs play an important role in the State's economy by providing critical training to the State's labor force. Presently, the Department of Education offers students up to thirteen broad continuing and technical education pathways that provide students with vital skills needed to attain skilled, high-wage careers in high-demand occupational fields. The University of Hawaii also offers a wide array of continuing and technical education pathways for community college students. However, despite their mandates to provide career and technical education, the University of Hawaii and Department of Education do not provide a seamless transition for students to continue their education after high school graduation. Therefore, this measure urges the development of matriculation pathways to ensure continuity of academic opportunities for all career and technical education students.

As affirmed by the records of votes of the members of your Committees on Education and Higher Education that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 144 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Education: Ayes, 4. Noes, none. Excused, 1 (Richards).
Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3450 (Joint) Education and Higher Education on S.R. No. 173

The purpose and intent of this measure is to urge the Department of Education, University of Hawaii Community Colleges, and Hawaii P-20 Partnerships for Education to develop clear pathways for students in Department of Education career and technical education academies to seamlessly continue their education in career and technical education programs at University of Hawaii Community Colleges.

Your Committee received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committees find that career and technical education programs play an important role in the State's economy by providing critical training to the State's labor force. Presently, the Department of Education offers students up to thirteen broad continuing and technical education pathways that provide students with vital skills needed to attain skilled, high-wage careers in high-demand occupational fields. Higher Education: Ayes, 5. Noes, none. Excused, none.

SCRep. 3451 Labor and Technology on S.C.R. No. 5

The purpose and intent of this measure is to:

- (1) Urge the Chief Information Officer to ensure prompt implementation of Act 172, Session Laws of Hawaii 2022, (Act 172) on or before December 31, 2024; and
- (2) Request and advise the Chief Information Officer to submit a report to the Legislature no later than thirty days before the Regular Session of 2025, that:
 - (A) Describes the status of implementation of Act 172; and
 - (B) Makes any recommendations for future legislation needed to ensure that the State's electronic information technology meets or exceeds federal accessibility standards.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, Disability and Communication Access Board, National Federation of the Blind of Hawaii, and six individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that electronic information technology accessibility standards are necessary to ensure disability access to electronic information technology, which is key for independence and equality to people with disabilities in the State. Accordingly, the Legislature enacted Act 172, known as the Hawaii Electronic Information Technology Accessibility Act, which requires the Office of Enterprise Technology Services, in consultation with the Disability and Communication Access Board and a working group composed of stakeholders, to develop, publish, and periodically review and update electronic information technology accessibility standards required to be implemented by all state entities within six months of the publication or amendment of these standards. However, no standards have been issued since the enactment of Act 172 on June 27, 2022. This measure provides a timeline that will help the State

meet its digital equity goals and ensure that all electronic information, programs, and services offered by the State are accessible to individuals with a disability.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 5 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3452 Labor and Technology on S.R. No. 5

The purpose and intent of this measure is to:

- (1) Urge the Chief Information Officer to ensure prompt implementation of Act 172, Session Laws of Hawaii 2022, (Act 172) on or before December 31, 2024; and
- (2) Request and advise the Chief Information Officer to submit a report to the Legislature no later than thirty days before the Regular Session of 2025, that:
 - (A) Describes the status of implementation of Act 172; and
 - (B) Makes any recommendations for future legislation needed to ensure that the State's electronic information technology meets or exceeds federal accessibility standards.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, Disability and Communication Access Board, National Federation of the Blind of Hawaii, and three individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that electronic information technology accessibility standards are necessary to ensure disability access to electronic information technology, which is key for independence and equality to people with disabilities in the State. Accordingly, the Legislature enacted Act 172, known as the Hawaii Electronic Information Technology Accessibility Act, which requires the Office of Enterprise Technology Services, in consultation with the Disability and Communication Access Board and a working group composed of stakeholders, to develop, publish, and periodically review and update electronic information technology accessibility standards required to be implemented by all state entities within six months of the publication or amendment of these standards. However, no standards have been issued since the enactment of Act 172 on June 27, 2022. This measure provides a timeline that will help the State meet its digital equity goals and ensure that all electronic information, programs, and services offered by the State are accessible to individuals with a disability.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 5 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3453 Labor and Technology on S.C.R. No. 83

The purpose and intent of this measure is to urge:

- (1) The Office of Enterprise Technology Services (OETS) to improve the State's Open Data Portal by:
 - (A) Increasing and expanding the data sets available on the Open Data Portal;
 - (B) Centralizing all open data sets of all state departments onto the Open Data Portal;
 - (C) Continually updating the data sets for accuracy and recency of publicly accessible data; and
 - (D) Studying and assessing the successful open data portals of other states and major municipalities; and
- (2) The heads of all state departments to work with OETS to centralize their open data sets to the State's Open Data Portal.

Your Committee received testimony in support of this measure from the Office of Technology Services, Transform Hawai'i Government, and one individual.

Your Committee finds that access to empirical data is critical for decision-makers to make informed decisions. Accordingly, existing law requires each executive department to use reasonable efforts to make appropriate and existing data sets maintained by the department electronically available to the public through the State's Open Data Portal. Your Committee finds, however, that there are certain issues with the State's existing Open Data Portal that prevent access to uniform, accurate, and current empirical data of the State. By ensuring access to this critical data, this measure promotes transparency and supports the ability of decision-makers to make informed, evidence-based decisions that efficiently provide targeted and tailored solutions to suit the needs of the State's residents.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 83 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3454 Labor and Technology on S.R. No. 69

The purpose and intent of this measure is to urge:

- (1) The Office of Enterprise Technology Services (OETS) to improve the State's Open Data Portal by:
 - (A) Increasing and expanding the data sets available on the Open Data Portal;
 - (B) Centralizing all open data sets of all state departments onto the Open Data Portal;
 - (C) Continually updating the data sets for accuracy and recency of publicly accessible data; and
 - (D) Studying and assessing the successful open data portals of other states and major municipalities; and
- (2) The heads of all state departments to work with OETS to centralize their open data sets to the State's Open Data Portal.

Your Committee received testimony in support of this measure from the Office of Technology Services, Transform Hawai'i Government, and one individual.

Your Committee finds that access to empirical data is critical for decision-makers to make informed decisions. Accordingly, existing law requires each executive department to use reasonable efforts to make appropriate and existing data sets maintained by the department electronically available to the public through the State's Open Data Portal. Your Committee finds, however, that there are certain issues with the State's existing Open Data Portal that prevent access to uniform, accurate, and current empirical data of the State. By ensuring access to this critical data, this measure promotes transparency and supports the ability of decision-makers to make informed, evidence-based decisions that efficiently provide targeted and tailored solutions to suit the needs of the State's residents.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 69 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3455 Ways and Means on Gov. Msg. No. 536

Recommending that the Senate advise and consent to the nomination of the following:

COUNCIL ON REVENUES

G.M. No. 536 MIKE HAMASU, for a term to expire 06-30-2027

Your Committee reviewed the professional history submitted by Mike Hamasu for service on the Council on Revenues.

Your Committee received testimony in support of the nomination for the appointment of Mike Hamasu from the Department of Budget and Finance.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that Mike Hamasu earned a Bachelor's degree in Business Administration from the University of Hawaii and a Master's degree in Business Administration from San Francisco State University. He has more than thirty years of experience in marketing and marketing research and has advised clients including the Department of Hawaiian Home Lands, Department of Land and Natural Resources, Hawaii Community Development Authority, and Kamehameha Schools. He also established the real estate consulting division for Colliers Hawaii and has helped oversee more than two billion dollars in commercial development and investment activity in the State. Your Committee believes that Mike Hamasu's expertise and experience make him highly qualified to serve the State on the Council on Revenues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Kanuha).

SCRep. 3456 Ways and Means on Gov. Msg. No. 537

Recommending that the Senate advise and consent to the nomination of the following:

COUNCIL ON REVENUES

G.M. No. 537 REGINA OSTERGAARD-KLEM, for a term to expire 06-30-2027

Your Committee reviewed the resume submitted by Regina Ostergaard-Klem for service on the Council on Revenues.

Your Committee received testimony in support of the nomination of Regina Ostergaard-Klem from the Department of Budget and Finance, Hawaii Green Growth, and one individual.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that Regina Ostergaard-Klem earned a Bachelor's degree in Industrial Engineering from Lehigh University, and a Master's degree and Doctoral degree in Systems Analysis and Economics for Public Decision Making from Johns Hopkins University. From 1994 to 1995, she was a Fulbright Fellow at the University of Lodz Department of Urban Economics. From 1997 to 2003, she served as an Environmental Policy Advisor for the United States Agency for International Development, and from 2017 to 2021, she served on the Board of Directors for the United States Society for Ecological Economics. Since 2008, Regina Ostergaard-Klem has taught, published, and spoken on topics including environmental economics, statistics, and ecological economics and sustainable development. Your Committee believes that Regina Ostergaard-Klem's experience and expertise make her highly qualified to serve the State on the Council on Revenues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Kanuha).

SCRep. 3457 Ways and Means on Gov. Msg. No. 538

Recommending that the Senate advise and consent to the nomination of the following:

COUNCIL ON REVENUES

G.M. No. 538 CARL BONHAM, for a term to expire 06-30-2027

Your Committee reviewed the resume of Carl Bonham for service on the Council on Revenues.

Your Committee received testimony in support of the nomination for the appointment of Carl Bonham from the University of Hawaii Professional Assembly.

Upon review of the testimony and the nominee's qualifications, your Committee recognizes that Carl Bonham earned a Bachelor's degree in Economics, *magna cum laude*, from Tulane University and a Doctoral degree in Economics from the University of Texas. Since 2001, he has served as the Executive Director of the University of Hawaii Economic Research Organization and a Professor of Economics at the University of Hawaii at Manoa. He has participated as an economic expert in numerous briefings held jointly by the House Finance Committee and Senate Committee on Ways and Means and at meetings of the Honolulu City Council Committee on Business, Economic Development, and Tourism. He served on the Council on Revenues from 1996 to 2001 and has presently served on the Council since 2003. Your Committee believes that Carl Bonham's expertise, experience, and commitment to public service make him highly qualified to continue to serve the State on the Council on Revenues.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Kanuha).

SCRep. 3458 Water and Land on S.C.R. No. 203

The purpose and intent of this measure is to request the Office of Planning and Sustainable Development to inventory and map existing R-1 water delivery systems and reservoirs in Maui County.

Your Committee received testimony in support of this measure from one member of the Maui County Council and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that without increasing the use of reclaimed water in the State, residents will encounter potable drinking water shortages caused by the overuse of potable drinking water for agricultural, landscaping, or firefighting purposes. Your Committee further finds that an important first step in increasing the use of reclaimed water is to create accurate inventories and maps of existing R-1 water delivery systems and reservoirs that may be used for reclaimed water storage. Your Committee believes that requesting the Office of Planning and Sustainable Development to create an inventory and maps of existing R-1 water delivery systems and reservoirs on the island of Maui could result in more efficient access to, and use of, fresh water.

Your Committee has amended this measure by:

- (1) Inserting language requesting that, in addition to the Office of Planning and Sustainable Development, the County of Maui:
 - (A) Inventory and map existing R-1 water delivery systems and reservoirs in Maui County; and
 - (B) Submit the inventory and maps to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Including the Mayor of the County of Maui as a recipient of certified copies of this measure.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 203, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 203, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3459 Water and Land on S.R. No. 179

The purpose and intent of this measure is to request the Office of Planning and Sustainable Development to inventory and map existing R-1 water delivery systems and reservoirs in Maui County.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that without increasing the use of reclaimed water in the State, residents will encounter potable drinking water shortages caused by the overuse of potable drinking water for agricultural, landscaping, or firefighting purposes. Your Committee further finds that an important first step in increasing the use of reclaimed water is to create accurate inventories and maps of existing R-1 water delivery systems and reservoirs that may be used for reclaimed water storage. Your Committee believes that requesting the Office of Planning and Sustainable Development to create an inventory and maps of existing R-1 water delivery systems and reservoirs on the island of Maui could result in more efficient access to, and use of, fresh water.

Your Committee has amended this measure by:

- (1) Inserting language requesting that, in addition to the Office of Planning and Sustainable Development, the County of Maui:
 - (A) Inventory and map existing R-1 water delivery systems and reservoirs in Maui County; and
 - (B) Submit the inventory and maps to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (2) Amending its title in accordance with its amended purpose; and
- (3) Including the Mayor of the County of Maui as a recipient of certified copies of this measure.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 179, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 179, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3460 Water and Land on S.C.R. No. 216

The purpose and intent of this measure is to urge the Department of Land and Natural Resources to require all certified arborists in its employ to adhere to industry best practices.

Your Committee received testimony in support of this measure from The Outdoor Circle and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that trees are essential for improving soil health and building climate resiliency in addition to a myriad of other benefits. Your Committee further finds that certified arborists are obligated to perform tree care and maintenance that meets industry standards and best practices. Your Committee concludes that requiring all certified arborists to adhere to industry best practices will ensure that tree care is properly performed in the State.

Your Committee has amended this measure by:

- (1) Inserting findings to define “best practices” to mean adherence to the American National Standards A300 Tree Care standards;
- (2) Clarifying that certified arborists employed by the Department of Land and Natural Resources includes contractors; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 216, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 216, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3461 Water and Land on S.R. No. 191

The purpose and intent of this measure is to urge the Department of Land and Natural Resources to require all certified arborists in its employ to adhere to industry best practices.

Your Committee received testimony in support of this measure from The Outdoor Circle and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that trees are essential for improving soil health and building climate resiliency in addition to a myriad of other benefits. Your Committee further finds that certified arborists are obligated to perform tree care and maintenance that meets industry standards and best practices. Your Committee concludes that requiring all certified arborists to adhere to industry best practices will ensure that tree care is properly performed in the State.

Your Committee has amended this measure by:

- (1) Inserting findings to define “best practices” to mean adherence to the American National Standards A300 Tree Care standards;
- (2) Clarifying that certified arborists employed by the Department of Land and Natural Resources includes contractors; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 191, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 191, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3462 Water and Land on S.C.R. No. 225

The purpose and intent of this measure is to urge the Division of Boating and Ocean Recreation of the Department of Land and Natural Resources to use job order contracting for boating and ocean recreation facility maintenance and repair.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that improperly maintained boating and ocean recreation facilities injure persons and property and may also damage Hawaii's marine ecosystems and coral reefs. Your Committee further finds that job order contracting would be an appropriate, efficient, and effective contracting method to ensure the proper maintenance and repair of the State's boating and ocean recreation facilities. Your Committee therefore recommends that the Division of Boating and Ocean Recreation (DOBOR) of the Department of Land and Natural Resources use job order contracting to streamline maintenance and repair of all DOBOR facilities, including dredging, bathroom, and pier repairs.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 225 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3463 Water and Land on S.R. No. 201

The purpose and intent of this measure is to urge the Division of Boating and Ocean Recreation of the Department of Land and Natural Resources to use job order contracting for boating and ocean recreation facility maintenance and repair.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that improperly maintained boating and ocean recreation facilities injure persons and property and may also damage Hawaii's marine ecosystems and coral reefs. Your Committee further finds that job order contracting would be an appropriate, efficient, and effective contracting method to ensure the proper maintenance and repair of the State's boating and ocean recreation facilities. Your Committee therefore recommends that the Division of Boating and Ocean Recreation (DOBOR) of the Department of Land and Natural Resources use job order contracting to streamline maintenance and repair of all DOBOR facilities, including dredging, bathroom, and pier repairs.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 201 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3464 Water and Land on S.C.R. No. 117

The purpose and intent of this measure is to request the Department of Land and Natural Resources to identify all appropriate sites at state parks at which a water-bottle filling station could be installed.

Your Committee received testimony in support of this measure from Friends of Hanauma Bay and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that drinking water is a vital necessity for individuals and should be readily accessible for those enjoying Hawaii's state parks, where parkgoers are active and subject to sun exposure. Refillable water bottles help protect the environment and are more cost-efficient than single-use plastic beverage containers, which contribute to environmental degradation and pollute state parks and adjacent marine environments. Your Committee believes that the installation of water-bottle filling stations at state parks will benefit parkgoers and the environment.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 117 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3465 Water and Land on S.R. No. 100

The purpose and intent of this measure is to request the Department of Land and Natural Resources to identify all appropriate sites at state parks at which a water-bottle filling station could be installed.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that drinking water is a vital necessity for individuals and should be readily accessible for those enjoying Hawaii's state parks, where parkgoers are active and subject to sun exposure. Refillable water bottles help protect the environment and are more cost-efficient than single-use plastic beverage containers, which contribute to environmental degradation and pollute state parks and adjacent marine environments. Your Committee believes that the installation of water-bottle filling stations at state parks will benefit parkgoers and the environment.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 100 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 3466 Water and Land on S.C.R. No. 119

The purpose and intent of this measure is to request the Office of Planning and Sustainable Development and Land Use Commission to develop an integrated land use plan.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development, Hawai'i Farm Bureau, and one individual.

Your Committee received comments on this measure from the Department of Agriculture and Land Use Commission.

Your Committee finds that there are various, sometimes-competing state plans, goals, and objectives regarding land use in the State, including the need for land to increase food sustainability, promote renewable energy resources, address the shortage of affordable housing, and adapt to and mitigate sea level rise and climate change. Your Committee further finds that an integrated land use plan would help to address these sometimes conflicting plans, particularly with respect to agriculture, energy, and housing. Your Committee believes that the creation of an integrated land use plan to guide the State's planning and decision-making on agriculture, energy, and housing will benefit the State.

Your Committee has amended this measure by:

- (1) Inserting language requesting the State Sustainability Coordinator to lead the development of the integrated land use plan;
- (2) Amending the deadline by which the Office of Planning and Sustainable Development and Land Use Commission are requested to submit the integrated land use plan from December 1, 2024, to December 1, 2026;
- (3) Inserting language requesting the Office of Planning and Sustainable Development to report on the progress of the integrated land use plan and the progress of data-based estimates to achieve this measure's objectives to the Legislature and Land Use Commission by December 1, 2025;
- (4) Inserting language requesting the Office of Planning and Sustainable Development to update and report on the integrated land use study to the Legislature and Land Use Commission every five years;
- (5) Inserting language requesting an amendment to the state budget to appropriate \$500,000 to the Office of Planning and Sustainable Development for the necessary resources to conduct the integrated land use study; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 119, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 119, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3467 Water and Land on S.R. No. 102

The purpose and intent of this measure is to request the Office of Planning and Sustainable Development and Land Use Commission to develop an integrated land use plan.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and Hawai'i Farm Bureau.

Your Committee received comments on this measure from the Department of Agriculture and Land Use Commission.

Your Committee finds that there are various, sometimes-competing state plans, goals, and objectives regarding land use in the State, including the need for land to increase food sustainability, promote renewable energy resources, address the shortage of affordable housing, and adapt to and mitigate sea level rise and climate change. Your Committee further finds that an integrated land use plan would help to address these sometimes conflicting plans, particularly with respect to agriculture, energy, and housing. Your Committee believes that the creation of an integrated land use plan to guide the State's planning and decision-making on agriculture, energy, and housing will benefit the State.

Your Committee has amended this measure by:

- (1) Inserting language requesting the State Sustainability Coordinator to lead the development of the integrated land use plan;
- (2) Amending the deadline by which the Office of Planning and Sustainable Development and Land Use Commission are requested to submit the integrated land use plan from December 1, 2024, to December 1, 2026;
- (3) Inserting language requesting the Office of Planning and Sustainable Development to report on the progress of the integrated land use plan and the progress of data-based estimates to achieve this measure's objectives to the Legislature and Land Use Commission by December 1, 2025;
- (4) Inserting language requesting the Office of Planning and Sustainable Development to update and report on the integrated land use study to the Legislature and Land Use Commission every five years;

- (5) Inserting language requesting an amendment to the state budget to appropriate \$500,000 to the Office of Planning and Sustainable Development for the necessary resources to conduct the integrated land use study; and
- (6) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 102, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 102, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3468 Water and Land on S.C.R. No. 122

The purpose and intent of this measure is to request the Department of Land and Natural Resources to work with the National Oceanic and Atmospheric Administration and other experts to conduct a study on the population status of depleted coral reef herbivores around the island of Oahu and develop effective alternative policies for substantially replenishing those populations within a decade.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Reef and Ocean Coalition, Friends of Hanauma Bay, The Nature Conservancy, Restore the Commons, Global March for Elephants and Rhinos, Oceanic Preservation Society, and twenty-two individuals.

Your Committee received comments on this measure from For the Fishes.

Your Committee finds that coral reefs are fundamental to the fabric of local communities, providing a source of food, materials, and traditional activities, in addition to ecological and economic benefits. The maintenance and recovery of coral reefs requires an abundant and diverse population of coral reef herbivores. The population of these fish around the island of Oahu is five percent below its potential. Your Committee recognizes the importance of herbivorous reef fish to the health of coral reef ecosystems and finds that a study on the population status of various herbivore fish species will help increase the population of these species around the island of Oahu.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 122, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 122, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3469 Water and Land on S.C.R. No. 176

The purpose and intent of this measure is to urge the Department of Land and Natural Resources and Board of Land and Natural Resources to adopt certain procedures relating to the Dam and Appurtenance Improvement or Removal Grant Program to assist applicants in obtaining grants.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Dam and Appurtenance Improvement or Removal Grant Program provides funding to owners of private dams for plans, design, construction, and equipment to improve or remove deficient dams and appurtenances, as determined by the Department of Land and Natural Resources (Department). However, grant applicants are subject to the discretion and uneven application of criteria by the Department and Board of Land and Natural Resources (Board), which discourages applicants from improving these structures. Your Committee maintains that the Board and Department should clarify and communicate to the public the criteria it develops for the award of grants from the Dam and Appurtenance Improvement or Removal Grant Program to assist applicants in their efforts to maintain or improve existing dam infrastructure.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 176, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 176, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 3470 Water and Land on S.C.R. No. 215

The purpose and intent of this measure is to request the Department of Land and Natural Resources to collaborate with federal, state, and county governments; landowners; and stakeholders to protect, restore, and manage the West Maui wetlands and wetlands statewide.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that wetlands help improve water quality, increase groundwater flows, provide habitats for native species, act as natural firebreaks, and greatly benefit coastal water quality. The ongoing recovery efforts in Lahaina and West Maui after the devastating August 2023 wildfires provide an opportunity to rebuild and restore historic wetlands that had been covered with commercial or residential developments. Your Committee concludes that a collaborative effort between federal, state, and county governments; landowners; and stakeholders to protect, restore, and manage West Maui wetlands and wetlands statewide would be beneficial to the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 215, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 215, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3471 Water and Land on S.R. No. 192

The purpose and intent of this measure is to request the Department of Land and Natural Resources to collaborate with federal, state, and county governments; landowners; and stakeholders to protect, restore, and manage the West Maui wetlands and wetlands statewide.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that wetlands help improve water quality, increase groundwater flows, provide habitats for native species, act as natural firebreaks, and greatly benefit coastal water quality. The ongoing recovery efforts in Lahaina and West Maui after the devastating August 2023 wildfires provide an opportunity to rebuild and restore historic wetlands that had been covered with commercial or residential developments. Your Committee concludes that a collaborative effort between federal, state, and county governments; landowners; and stakeholders to protect, restore, and manage West Maui wetlands and wetlands statewide would be beneficial to the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 192, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 192, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3472 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 123

The purpose and intent of this measure is to request the Department of Land and Natural Resources to convene a working group to make recommendations on solutions to reduce wildfire risk and the feasibility of establishing a vegetation management program as it relates to landowners and public utilities.

Your Committees received testimony in support of this measure from Hawaiian Electric, International Brotherhood of Electrical Workers Local Union 1260, and one individual.

Your Committees received comments on this measure from the Department of Land and Natural Resources, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Public Utilities Commission.

Your Committees find that the Wildfire Prevention Working Group found that guinea grass, fountain grass, molasses grass, and buffelgrass can form continuous fuel beds, ignite easily, attain extremely high fine fuel loads, and are capable of growing back more vigorously in the post-fire environment than the majority of native vegetation. Your Committees further find that a significant portion of public and private lands are covered in unmanaged grasses, trees, and other vegetation that may pose a wildfire risk. Your Committees believe that vegetation management is essential for the mitigation of wildfire risks and the promotion of safer conditions for the State's communities and environment.

Your Committees have amended this measure by:

- (1) Requesting that the working group include:
 - (A) A representative of the University of Hawaii College of Tropical Agriculture and Human Resources;
 - (B) A representative of the International Brotherhood of Electrical Workers Local Union 1260; and
 - (C) One member representing the telecommunications industry, to be invited by the chairperson of the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 123, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 123, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Awa).

SCRep. 3473 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.R. No. 105

The purpose and intent of this measure is to request the Department of Land and Natural Resources to convene a working group to make recommendations on solutions to reduce wildfire risk and the feasibility of establishing a vegetation management program as it relates to landowners and public utilities.

Your Committees received testimony in support of this measure from Hawaiian Electric, International Brotherhood of Electrical Workers Local Union 1260, and one individual.

Your Committees received comments on this measure from the Department of Land and Natural Resources, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, and Public Utilities Commission.

Your Committees find that the Wildfire Prevention Working Group found that guinea grass, fountain grass, molasses grass, and buffelgrass can form continuous fuel beds, ignite easily, attain extremely high fine fuel loads, and are capable of growing back more vigorously in the post-fire environment than the majority of native vegetation. Your Committees further find that a significant portion of public and private lands are covered in unmanaged grasses, trees, and other vegetation that may pose a wildfire risk. Your Committees believe that vegetation management is essential for the mitigation of wildfire risks and the promotion of safer conditions for the State's communities and environment.

Your Committees have amended this measure by:

- (1) Requesting that the working group include:
 - (A) A representative of the University of Hawaii College of Tropical Agriculture and Human Resources;
 - (B) A representative of the International Brotherhood of Electrical Workers Local Union 1260; and
 - (C) One member representing the telecommunications industry, to be invited by the chairperson of the working group; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 105, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 105, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Rhoads, Awa).

SCRep. 3474 Judiciary on H.B. No. 2184

The purpose and intent of this measure is to:

- (1) Prohibit contributions from persons convicted or found in violation of various campaign finance, ethical, or lobbying offenses;
- (2) Require unlawful contributions to escheat to the Hawaii Election Campaign Fund; and
- (3) Require contributions held by persons who were convicted or found in violation of any of the various campaign finance, ethical, or lobbying offenses to be returned to their respective contributors and, if not returned, to escheat to the Hawaii Election Campaign Fund.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Democratic Party of Hawai'i, and four individuals.

Your Committee received comments on this measure from the Department of the Attorney General and Hawai'i State Ethics Commission.

Your Committee finds that the integrity of public officials is paramount to government accountability. However, a loophole in the State's existing campaign finance laws allows candidates, lobbyists, and other individuals who are convicted of campaign spending, ethics, or lobbying offenses to keep control of the money they raised for their campaign accounts. This measure will promote public trust by closing this loophole and bolstering campaign finance integrity in the State.

Your Committee has amended this measure by:

- (1) Clarifying that the prohibition against contributions applies only to a person convicted of various campaign finance, ethical, or lobbying offenses, and not to a person only found in violation of those offenses;
- (2) Clarifying that funds that were received by a candidate, candidate committee, or noncandidate committee from a person found in violation or convicted of violating the prohibition against contributions from persons convicted of various campaign finance, ethical, or lobbying offenses are required to escheat to the Hawaii Election Campaign Fund;
- (3) Deleting language that would have required contributions held by persons who were convicted or found in violation of any of the various campaign finance, ethical, or lobbying offenses to be returned to their respective contributors and, if not returned, to escheat to the Hawaii Election Campaign Fund;

- (4) Inserting language allowing the Campaign Spending Commission and State Ethics Commission to notify a candidate, candidate committee, or noncandidate committee that a person who contributed funds to the candidate, candidate committee, or noncandidate committee did so in violation of the prohibition against contributions from persons convicted of various campaign finance, ethical, or lobbying offenses;
- (5) Inserting an effective date of April 14, 2112, to encourage further discussion;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2184, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2184, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3475 Judiciary on H.B. No. 2657

The purpose and intent of this measure is to establish judicial procedures to prevent and remedy abusive litigation.

Your Committee received testimony in support of this measure from Parents and Children Together, YWCA Kaua'i, Hawai'i Children's Action Network Speaks!, Women's Caucus of the Democratic Party of Hawai'i, Hawai'i Women Lawyers, Hawai'i State Coalition Against Domestic Violence, Hawai'i Women's Coalition, and two individuals.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that abusive litigation in the intimate partner violence context is a unique issue that needs to be addressed. Individuals who abuse their intimate partners may also take advantage of court proceedings to control, harass, intimidate, coerce, and impoverish the abused partner, even after a relationship has ended. Your Committee further finds that abusive litigation arises in a variety of contexts, often in family law cases, and it is not uncommon for abusers to file civil lawsuits against survivors. This measure will provide a critical new protective tool for survivor safety, empowerment, financial independence, economic justice, and peace after surviving domestic or sexual violence.

Your Committee has amended this measure by:

- (1) Amending the definition of "abusive litigation" to require the factual basis of a past temporary restraining order or order for protection in a case of domestic violence be included when determining whether litigation is abusive;
- (2) Deleting language that would have included a pending criminal charge of domestic violence as a basis for determining whether litigation is abusive;
- (3) Deleting language that would have included a signed affidavit from a domestic violence or sexual assault agency that assists victims of domestic violence and sexual assault as a basis for determining whether litigation is abusive;
- (4) Making it effective on January 1, 2025; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2657, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2657, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 3476 (Majority) Ways and Means on H.B. No. 1919

The purpose and intent of this measure is to establish the state boating facility lease pilot program.

More specifically, this measure:

- (1) Authorizes the Board of Land and Natural Resources to lease certain fast lands and submerged lands for, among other things, maintenance by a private entity;
- (2) Repeals certain statutory provisions relating to the leasing of fast lands and submerged lands of the Ala Wai Boat Harbor; and
- (3) Establishes a state boating facility lease pilot program to lease one state small boat harbor in its entirety for private development, management, maintenance, and operation, subject to certain conditions,

until June 30, 2044.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received testimony in opposition to this measure from Albatross News; Explore Kauai Scuba, LLC; Free Access Coalition; Hawaii Government Employees Association; Kamaaina Boaters; Malama Moana; Surfriider Oahu; UNITE HERE Local 5; United Public Workers; and numerous individuals.

Your Committee received comments on this measure from the Department of Budget and Finance and one individual.

Your Committee finds that allowing the Board of Land and Natural Resources to lease one small boat harbor and associated submerged lands in the State will help to enable private entities to make much-needed improvements to the State's small boat harbor facilities.

Your Committee has amended this measure by:

- (1) Codifying in statute, rather than session law, certain provisions of this measure establishing the state boating facility lease pilot program;
- (2) Renaming the state boating facility lease pilot program as the state boating facility lease program;
- (3) Clarifying that no lease entered into under the state boating facility lease program shall be for a period ending after June 30, 2044;
- (4) Clarifying the selection procedure for the small boat harbor to be leased under the state boating facility lease program;
- (5) Inserting an appropriation of \$440,000 out of the boating special fund for the establishment of four full-time equivalent (4.0 FTE) boating and ocean recreation harbor agent VI positions; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1919, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1919, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10; Ayes with Reservations (Shimabukuro). Noes, 2 (Inouye, Fevella). Excused, 1 (Kanuha).

SCRep. 3477 Judiciary on H.B. No. 1884

The purpose and intent of this measure is to clarify disclosure requirements for members of the Legislature related to clients of the member, member's partner, or member's employer.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that the public has a right to know who is in a position to influence legislator's decisions. Your Committee believes that requiring legislators to make certain disclosures about contributions from lobbying organizations, in addition to lobbyists, is important for identifying potential conflicts of interest, fostering transparency, and bolstering public confidence in the integrity of legislators. This measure will enhance transparency regarding potential conflicts of interest.

Your Committee has amended this measure by inserting an effective date of April 14, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1884, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1884, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Elefante, Awa).

SCRep. 3478 Judiciary on H.B. No. 1580

The purpose and intent of this measure is to amend the criminal penalties for various animal cruelty offenses by increasing the category of offense.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, Disability and Communication Access Board, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaiian Humane Society, Animal Interfaith Alliance in Britain, Hina's Legacy Rescue Foundation, Fur-Angel Foundation, Animal Welfare Institute, Hui Pono Holoholona, and twenty-four individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender and ten individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there has been a significant increase in animal cruelty cases in the State over the past five years. According to the Honolulu Police Department, there were seventy-three animal cruelty crimes in 2023 compared to fifty-eight in 2018. Additionally, recent research has shown that animal cruelty is a predictive and co-occurring crime with violence against humans, including children, intimate partners, and the elderly. Your Committee believes that the prevalence of animal cruelty crimes in the State and its correlation with other serious violent crimes warrants increased penalties for offenders. This measure will deter individuals from participating in animal abuse by increasing the criminal penalties for various animal cruelty offenses.

Your Committee has amended this measure by:

- (1) Clarifying that cruelty to animals in the second degree is a misdemeanor, except if the offense involves the death of an animal or if it involves ten or more pet animals in any one instance, it is a class B felony and in addition to any other penalties imposed, the person is prohibited from possessing or owning any animal for a minimum of five years from the date of conviction;
- (2) Deleting language that would have made a first offense of:
 - (A) Cruelty to animals by fighting dogs in the first degree a class A felony;

- (B) Cruelty to animals by fighting dogs in the second degree a class B felony;
 - (C) Cruelty to animals by trapping a class C felony;
 - (D) Causing injury or death to a service animal or law enforcement animal a class B felony;
 - (E) Pet animal or equine animal desertion a misdemeanor with an additional \$2,000 fine;
 - (F) Pet animal or equine animal desertion and recklessly causing the death of or substantial bodily injury to the pet animal or equine animal a class C felony with an additional \$10,000 fine; and
 - (G) Sexual assault of an animal a class C or class A felony, depending on the presence of a minor;
- (3) Increasing the criminal penalties for the second or subsequent offense for:
- (A) Cruelty to animals by fighting dogs in the first degree;
 - (B) Cruelty to animals by fighting dogs in the second degree;
 - (C) Cruelty to animals by trapping;
 - (D) Causing injury or death to a service animal or law enforcement animal;
 - (E) Pet animal or equine animal desertion;
 - (F) Pet animal or equine animal desertion and recklessly causing the death of or substantial bodily injury to the pet animal or equine animal; and
 - (G) Sexual assault of an animal;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1580, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1580, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3479 (Majority) Transportation and Culture and the Arts on H.B. No. 1950

The purpose and intent of this measure is to designate November 22 of each year as “Kimchi Day” in the State.

Your Committee received testimony in support of this measure from the Maui Korean Community Association, United Korean Association of Hawaii, Korean American Foundation Hawaii, Maui Dance Klub at the University of Hawaii Maui College, Maui Full Gospel Church, and three individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that kimchi is a traditional Korean dish with a long, rich history spanning over two millennia. Your Committee further finds that Hawaii is the birthplace of the first commercialized bottled kimchi in the country. This measure recognizes the contributions of Korean culture and food in Hawaii by designating November 22 as “Kimchi Day”.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1950, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 3480 Judiciary on H.B. No. 1541

The purpose and intent of this measure is to amend Act 36, Session Laws of Hawaii 2019, to change the effective date from July 1, 2050, to July 1, 2024.

Your Committee received testimony in support of this measure from the Department of Health and one individual.

Your Committee finds that suicide remains an issue for the State, with the State experiencing more than two hundred suicides per year. To raise awareness of this issue, the Legislature passed Act 36, Session Laws of Hawaii 2019, which designated the month of September as Hawaii Suicide Prevention Month. However, the effective date of Act 36, Session Laws of Hawaii 2019, was July 1, 2050. This measure will correct the error and increase public awareness of suicide prevention.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1541, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 3481 (Majority) Commerce and Consumer Protection on H.B. No. 2318

The purpose and intent of this measure is to exempt planned community associations and condominium associations from the quorum and voting requirements established under the Hawaii Nonprofit Corporations Act.

Your Committee received testimony in support of this measure from the Hawai'i State Association of Parliamentarians, Palehua Townhouse Association, and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the quorum and voting provisions of the Hawaii Nonprofit Corporations Act, which apply to all planned community associations and condominium associations that have incorporated as nonprofit corporations, essentially consider the abstention from a vote to be the mathematical equivalent of a "no" vote. As a result, many smaller or limited-size planned community association and condominium association boards have been hampered in their ability to carry out actions on behalf of the unit owners that they represent, especially in situations where multiple directors must abstain from a vote based on actual or perceived conflicts of interest. Therefore, this measure would separate the voting requirements for planned community association and condominium association boards from the voting requirements for boards under the Hawaii Nonprofit Corporations Act, to improve these boards' self-governance and provide them greater flexibility in their decision-making processes.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2318, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2318, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

SCRep. 3482 Commerce and Consumer Protection on H.B. No. 2192

The purpose and intent of this measure is to authorize the Director of Commerce and Consumer Affairs to appoint an organization as the limited owner of a cemetery, under certain circumstances, for the purpose of providing perpetual care and security measures for the cemetery.

Your Committee received testimony in support of this measure from the Cemetery and Funeral Trusts Program of the Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, one member of the Honolulu City Council, Pearl City Neighborhood Board No. 21, and three individuals.

Your Committee finds that Sunset Memorial Park in Pearl City, Oahu, has been neglected for years and has been the subject of numerous complaints by individuals who have family members buried there. The cemetery has been described as having a damaged mausoleum, sinking graves, and markers that are hidden under overgrown grass and bushes. Your Committee also finds that with no owner to take responsibility, Sunset Memorial Park currently relies on volunteers to maintain the cemetery.

Your Committee further finds that although the Department of Commerce and Consumer Affairs has taken certain positive steps to remediate the condition of Sunset Memorial Park, the lack of an owner for the cemetery, who could provide ongoing maintenance and security measures, has left the property in a state of disrepair, and subject to vandalism and desecration. Therefore, this measure will help restore the sanctity of Sunset Memorial Park--along with other cemeteries that are currently without an owner--and deliver peace to the relatives and friends of the deceased buried there.

Your Committee has amended this measure by:

- (1) Inserting language authorizing an appointed limited owner of a cemetery to contract for certain major repair work and to generate and raise long-term funding in support of the cemetery;
- (2) Inserting language requiring an appointed limited owner of a cemetery to submit annual reports to the Department of Commerce and Consumer Affairs regarding the status and progress of any new and existing initiatives undertaken to improve the cemetery;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 2192, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 2192, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3483 Commerce and Consumer Protection on H.B. No. 1758

The purpose and intent of this measure is to clarify, for purposes of determining a person's eligibility for licensure as a professional engineer, that "lawful experience in engineering work" includes code compliance review of plans for construction applicable to the specific engineering field.

Your Committee received testimony in support of this measure from the Department of Human Resources of the City and County of Honolulu; Pacific Resource Partnership; EAH Housing; and Stanford Carr Development, LLC.

Your Committee received testimony in opposition to this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee finds that local government agencies such as counties are having a difficult time recruiting and retaining engineers, as these agencies are unable to compete with the more competitive salaries offered by the private sector and federal government. Your Committee finds that it is in the public interest to provide prospective county engineers with a clear career path that will allow them to receive their professional licensure and help encourage them to remain in government service. Separately, increasing the number of county engineers will help alleviate the current back log in permitting and construction, which will indirectly support the construction of housing throughout the State. This measure will enable current plans examining engineers in local permitting agencies, who gain experience from reviewing electrical, plumbing, and building plans, to count their work hours towards the prerequisites to sit for the professional engineer license written examination. As a result, this measure will provide a clear path to promotion through licensure for these engineers, address the shortage of licensed plans examining engineers in the local government, and facilitate the timely issuance of permits to the benefit of the community.

Your Committee notes the concerns raised in testimony that a person who reviews plans and calculations may be aware of building codes, but the person is not performing integrated design or other standard engineering practices, and therefore, only accepting one hundred percent plan review as qualifying experience to take the professional engineer license written examination may jeopardize the health, safety, and welfare of consumers. Accordingly, there is a need to amend this measure to address this concern.

Accordingly, your Committee has amended this measure by clarifying that only employees of a municipality may apply their experience in code compliance review of construction plans towards the required "lawful experience in engineering work" necessary to qualify for professional engineer licensure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 1758, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 1758, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 3484 (Joint) Commerce and Consumer Protection and Judiciary on S.C.R. No. 163

The purpose and intent of this measure is to request the Department of the Attorney General to conduct a study to determine the effectiveness of existing state laws in addressing the false labeling of Hawaii-made food products.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and one individual.

Your Committees received testimony in opposition to this measure from the Department of the Attorney General.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that certain individuals and entities have falsely labeled their food products in a manner that can mislead consumers into believing that they were produced or manufactured in Hawaii, when they were in actuality produced or manufactured elsewhere. Presently, existing state laws may not provide adequate protection, relief, or recourse for local producers and consumers who seek to stop manufacturers from falsely labeling their food products as being Hawaii-made when they are not. Therefore, this measure will assist local producers and consumers by requesting that a study be conducted to address the false labeling of Hawaii-made food products.

Your Committees note the concern raised in the testimony of the Department of Attorney General that the data gathering, surveys, research, and analysis of economic and statistical data that would be necessary for the study proposed in this measure goes beyond the purview of the Department. Therefore, it is necessary to amend this measure to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have requested the Department of the Attorney General to independently conduct a study and inserting language requesting the Department of the Attorney General to convene a working group to study the effectiveness of existing state laws in addressing the false labeling of Hawaii-made food products, with a specific emphasis on the legal mechanisms and costs associated with protecting the brands of Hawaii-made food products;
- (2) Inserting language requesting the working group to comprise the following members:
 - (A) The Attorney General, or the Attorney General's designee, to serve as the Chairperson of the working group;
 - (B) One member from the University of Hawai'i at Manoa William S. Richardson School of Law with academic or professional expertise in intellectual property law, to be selected by the Dean of the William S. Richardson School of Law;
 - (C) The Chairperson of the Board of Agriculture, or the Chairperson's designee;
 - (D) The Director of Business, Economic Development, and Tourism, or the Director's designee;
 - (E) The Executive Director of the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, or the Executive Director's designee;
 - (F) One member from the Intellectual Property and Technology section of the Hawaii State Bar Association, to be selected by the President of the Hawaii State Bar Association who is requested to be invited by the Chairperson; and

- (G) Any other member deemed necessary by the working group;
- (3) Inserting language that requests the working group, with the assistance of the Department of the Attorney General, to submit a report of the working group's findings and recommendations, including any proposed legislation, to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (4) Updating the list of recipients to whom the certified copies are to be transmitted;
- (5) Amending its title to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 163, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 163, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3485 (Joint) Commerce and Consumer Protection and Judiciary on S.R. No. 137

The purpose and intent of this measure is to request the Department of the Attorney General to conduct a study to determine the effectiveness of existing state laws in addressing the false labeling of Hawaii-made food products.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen's Council, Inc. and Hawai'i Farm Bureau.

Your Committees received testimony in opposition to this measure from the Department of the Attorney General.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that certain individuals and entities have falsely labeled their food products in a manner that can mislead consumers into believing that they were produced or manufactured in Hawaii, when they were in actuality produced or manufactured elsewhere. Presently, existing state laws may not provide adequate protection, relief, or recourse for local producers and consumers who seek to stop manufacturers from falsely labeling their food products as being Hawaii-made when they are not. Therefore, this measure will assist local producers and consumers by requesting that a study be conducted to address the false labeling of Hawaii-made food products.

Your Committees note the concern raised in the testimony of the Department of Attorney General that the data gathering, surveys, research, and analysis of economic and statistical data that would be necessary for the study proposed in this measure goes beyond the purview of the Department. Therefore, it is necessary to amend this measure to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have requested the Department of the Attorney General to independently conduct a study and inserting language requesting the Department of the Attorney General to convene a working group to study the effectiveness of existing state laws in addressing the false labeling of Hawaii-made food products, with a specific emphasis on the legal mechanisms and costs associated with protecting the brands of Hawaii-made food products;

- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 137, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 137, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3486 Labor and Technology on S.C.R. No. 184

The purpose and intent of this measure is to request:

- (1) The Department of Human Resources Development to conduct a sample survey of organizations in the State within the for-profit, nonprofit, and government sectors that have successfully implemented remote work, hybrid work, or telework arrangements;
- (2) The University of Hawaii Economic Research Organization (UHERO) to identify areas of the State that have a combination of lower housing costs and decreased access to high-paying jobs;
- (3) The Hawaii Broadband and Digital Equity Office to analyze the condition of the existing broadband infrastructure in areas of the State that have a combination of lower housing costs and decreased access to high paying jobs; and
- (4) The Department of Human Resources Development to report to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Holomua Collaborative; HPM Building Supply; Hawaiian Host Group; Hawai'i Community Foundation; Title Guaranty of Hawaii, LLC; Mana Up; and one individual.

Your Committee received comments on this measure from the Department of Human Resources Development and University of Hawai'i System.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic led to much of the State working remotely full-time, and that even after the COVID-19 pandemic, telecommuting and remote services have remained popular, which has led to renewed interest in strategies to create more sustainable communities through remote work, hybrid work, or telework arrangements. Your Committee further finds that identifying state jobs that are viable prospects for remote work and areas of the State where housing is affordable but high-paying jobs are not readily available, and pairing the identified remote job prospects with the State's local workforce would meaningfully address the State's lack of affordable housing in certain areas, help keep local families in the State, and strengthen community ties. This measure's sample survey will provide valuable insights and best practices towards implementing remote work, hybrid work, or telework arrangements throughout the State.

Your Committee notes the concerns raised in the testimony of the University of Hawaii System that due to UHERO's reliance on donations and contracts for roughly one-half of its budget, taking on new unfunded projects would place UHERO's existing research and projects at risk. The University of Hawaii System further stated that notwithstanding, UHERO is willing to conduct the research requested in this measure and could be most helpful by serving in a consultative role to the Department of Human Resources Development. Therefore, there is a need to amend this measure to address this matter.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to clarify that the Department of Human Resources Development is requested to collaborate with UHERO to identify areas of the State that have a combination of lower housing costs and decreased access to high-paying jobs, rather than requesting UHERO to perform the task itself; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 184, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 184, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3487 Labor and Technology on S.R. No. 158

The purpose and intent of this measure is to request:

- (1) The Department of Human Resources Development to conduct a sample survey of organizations in the State within the for-profit, nonprofit, and government sectors that have successfully implemented remote work, hybrid work, or telework arrangements;
- (2) The University of Hawaii Economic Research Organization (UHERO) to identify areas of the State that have a combination of lower housing costs and decreased access to high-paying jobs;
- (3) The Hawaii Broadband and Digital Equity Office to analyze the condition of the existing broadband infrastructure in areas of the State that have a combination of lower housing costs and decreased access to high paying jobs; and
- (4) The Department of Human Resources Development to report to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Holomua Collaborative; HPM Building Supply; Hawaiian Host Group; Hawai'i Community Foundation; Title Guaranty of Hawaii, LLC; Mana Up; and one individual.

Your Committee received comments on this measure from the Department of Human Resources Development and University of Hawai'i System.

Your Committee finds that the coronavirus disease 2019 (COVID-19) pandemic led to much of the State working remotely full-time, and that even after the COVID-19 pandemic, telecommuting and remote services have remained popular, which has led to renewed interest in strategies to create more sustainable communities through remote work, hybrid work, or telework arrangements. Your Committee further finds that identifying state jobs that are viable prospects for remote work and areas of the State where housing is affordable but high-paying jobs are not readily available, and pairing the identified remote job prospects with the State's local workforce would meaningfully address the State's lack of affordable housing in certain areas, help keep local families in the State, and strengthen community ties. This measure's sample survey will provide valuable insights and best practices towards implementing remote work, hybrid work, or telework arrangements throughout the State.

Your Committee notes the concerns raised in the testimony of the University of Hawaii System that due to UHERO's reliance on donations and contracts for roughly one-half of its budget, taking on new unfunded projects would place UHERO's existing research and projects at risk. The University of Hawaii System further stated that notwithstanding, UHERO is willing to conduct the research requested in this measure and could be most helpful by serving in a consultative role to the Department of Human Resources Development. As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 158, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 158, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3488 Labor and Technology on S.C.R. No. 33

The purpose and intent of this measure is to request the Department of Labor and Industrial Relations to convene an Interagency Enforcement Task Force to combat the underground economy and employee misclassification in the State.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Pacific Resource Partnership, Hawaii Regional Council of Carpenters, and Hawai'i State AFL-CIO.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the "underground economy" refers to those individuals and businesses that utilize schemes to conceal or misrepresent their employee population to avoid one or more of their employer responsibilities related to wages, payroll taxes, insurance, licensing, safety, or other regulatory requirements, including other activities such as tax evasion, payroll fraud, under-the-table work, and wage theft. Your Committee further finds that it is critical to ensure that the State has a unified strategy and approach toward protecting the State's economy, its workers, and its businesses from an illegal underground economy. This measure's Interagency Task Force will assist in ensuring safe working conditions and proper payment of wages for workers, creating an environment where legitimate businesses can thrive, and supporting the collection of all taxes, fees, and penalties due from employers.

Your Committee acknowledges that the task force requested to be convened by this measure will not have enforcement authority, and therefore, the term "Interagency Enforcement Task Force" may be misleading. Your Committee also notes testimony requesting that the scope of the task force be narrowed to the construction industry, where most of the employee misclassification is occurring. Your Committee further notes requests made during the public hearing for this measure to include the Insurance Commissioner or the Commissioner's designee as a member of the task force, to enable the task force to recommend solutions to prevent workers' compensation premium fraud from being committed by employers who misclassify their employees as independent contractors, thereby avoiding payment of workers' compensation premiums and resulting in increased premiums for other employers who lawfully pay the premiums. Your Committee also notes the request from the Department of the Attorney General that the Attorney General be allowed to have a designee participate in the task force on behalf of the Attorney General, in line with other agency heads listed as members to be invited to serve on the task force. Therefore, there is a need to amend this measure to address these matters.

Accordingly, your Committee has amended this measure by:

- (1) Deleting certain references to the term "enforcement" to clarify that the Interagency Task Force will not be engaging in any enforcement activities;
- (2) Inserting language to narrow the scope of the Interagency Task Force to the State's construction industry;
- (3) Deleting language that would have requested the Interagency Task Force to:
 - (A) Encourage businesses and individuals to identify violators by soliciting information from the public, facilitating the filing of complaints, and enhancing the available mechanisms by which workers can report suspected violations;
 - (B) Work collaboratively with employers, labor, and community groups to diminish the size of the underground economy and reduce the number of employee misclassifications by, among other means, disseminating educational materials regarding the applicable laws, including the legal distinctions between independent contractors and employees, and increasing public awareness of the harm caused by the underground economy and employee misclassification; and

- (C) Work collaboratively with federal, state, and local social services agencies to provide assistance to vulnerable populations that have been exploited by the underground economy and employee misclassification, including but not limited to immigrant workers;
- (4) Inserting language to request the Interagency Task Force to identify the number and types of positions required to restore the capacity of the Department of Labor and Industrial Relations to meaningfully administer applicable existing laws;
- (5) Clarifying that the Director of Labor and Industrial Relations is requested to serve as the chairperson of the Interagency Task Force;
- (6) Inserting language that allows the Attorney General's designee to be invited to serve as a member of the Interagency Task Force on behalf of the Attorney General;
- (7) Inserting language to add the Insurance Commissioner or the Commissioner's designee to be invited to serve as a member of the Interagency Task Force;
- (8) Amending its title to reflect its amended purpose;
- (9) Amending the list of recipients of certified copies to include the Insurance Commissioner; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 33, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 33, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3489 Labor and Technology on S.R. No. 22

The purpose and intent of this measure is to request the Department of Labor and Industrial Relations to convene an Interagency Enforcement Task Force to combat the underground economy and employee misclassification in the State.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and Pacific Resource Partnership.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the "underground economy" refers to those individuals and businesses that utilize schemes to conceal or misrepresent their employee population to avoid one or more of their employer responsibilities related to wages, payroll taxes, insurance, licensing, safety, or other regulatory requirements, including other activities such as tax evasion, payroll fraud, under-the-table work, and wage theft. Your Committee further finds that it is critical to ensure that the State has a unified strategy and approach toward protecting the State's economy, its workers, and its businesses from an illegal underground economy. This measure's Interagency Task Force will assist in ensuring safe working conditions and proper payment of wages for workers, creating an environment where legitimate businesses can thrive, and supporting the collection of all taxes, fees, and penalties due from employers.

Your Committee acknowledges that the task force requested to be convened by this measure will not have enforcement authority, and therefore, the term "Interagency Enforcement Task Force" may be misleading. Your Committee also notes testimony requesting that the scope of the task force be narrowed to the construction industry, where most of the employee misclassification is occurring. Your Committee further notes requests made during the public hearing for this measure to include the Insurance Commissioner or the Commissioner's designee as a member of the task force, to enable the task force to recommend solutions to prevent workers' compensation premium fraud from being committed by employers who misclassify their employees as independent contractors, thereby avoiding payment of workers' compensation premiums and resulting in increased premiums for other employers who lawfully pay the premiums. Your Committee also notes the request from the Department of the Attorney General that the Attorney General be allowed to have a designee participate in the task force on behalf of the Attorney General, in line with other agency heads listed as members to be invited to serve on the task force. Therefore, there is a need to amend this measure to address these matters.

Accordingly, your Committee has amended this measure by:

- (1) Deleting certain references to the term "enforcement" to clarify that the Interagency Task Force will not be engaging in any enforcement activities;
- (2) Inserting language to narrow the scope of the Interagency Task Force to the State's construction industry;
- (3) Deleting language that would have requested the Interagency Task Force to:
 - (A) Encourage businesses and individuals to identify violators by soliciting information from the public, facilitating the filing of complaints, and enhancing the available mechanisms by which workers can report suspected violations;
 - (B) Work collaboratively with employers, labor, and community groups to diminish the size of the underground economy and reduce the number of employee misclassifications by, among other means, disseminating educational materials regarding the applicable laws, including the legal distinctions between independent contractors and employees, and increasing public awareness of the harm caused by the underground economy and employee misclassification; and
 - (C) Work collaboratively with federal, state, and local social services agencies to provide assistance to vulnerable populations that have been exploited by the underground economy and employee misclassification, including but not limited to immigrant workers;

- (4) Inserting language to request the Interagency Task Force to identify the number and types of positions required to restore the capacity of the Department of Labor and Industrial Relations to meaningfully administer applicable existing laws;
- (5) Clarifying that the Director of Labor and Industrial Relations is requested to serve as the chairperson of the Interagency Task Force;
- (6) Inserting language that allows the Attorney General's designee to be invited to serve as a member of the Interagency Task Force on behalf of the Attorney General;
- (7) Inserting language to add the Insurance Commissioner or the Commissioner's designee to be invited to serve as a member of the Interagency Task Force;
- (8) Amending its title to reflect its amended purpose;
- (9) Amending the list of recipients of certified copies to include the Insurance Commissioner; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 22, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 22, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 3490 (Joint) Agriculture and Environment and Transportation and Culture and the Arts on S.C.R. No. 138

The purpose and intent of this measure is to request the Hawaii Climate Change Mitigation and Adaption Commission to:

- (1) Develop vehicle miles traveled reduction strategies;
- (2) Recommend a statewide vehicle miles traveled reduction target;
- (3) Recommend benchmarks for, and evaluate progress toward, the vehicle miles traveled reduction target;
- (4) Identify state and county agencies to collaborate and coordinate on the implementation of vehicle miles traveled reduction policies, strategies, and programs; and
- (5) Submit a report of its findings and recommendations to the Legislature before the Regular Session of 2025.

Your Committees received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission, Citizens' Climate Lobby Hawaii, Ulupono Initiative, and one individual.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that although decarbonizing ground transportation is essential for the State to meet its ambitious greenhouse gas reduction goals, current strategies to mitigate vehicle miles traveled in the State are ineffective. The report requested in this measure would provide decision-makers with the information necessary to support and implement practical and efficient solutions that will help the State achieve carbon neutrality by 2045.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Culture and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 138, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 138, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).
Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3491 (Joint) Agriculture and Environment and Transportation and Culture and the Arts on S.R. No. 119

The purpose and intent of this measure is to request the Hawaii Climate Change Mitigation and Adaption Commission to:

- (1) Develop vehicle miles traveled reduction strategies;
- (2) Recommend a statewide vehicle miles traveled reduction target;
- (3) Recommend benchmarks for, and evaluate progress toward, the vehicle miles traveled reduction target;
- (4) Identify state and county agencies to collaborate and coordinate on the implementation of vehicle miles traveled reduction policies, strategies, and programs; and
- (5) Submit a report of its findings and recommendations to the Legislature before the Regular Session of 2025.

Your Committees received testimony in support of this measure from the Hawaii Climate Change Mitigation and Adaptation Commission and Citizens' Climate Lobby Hawaii.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that although decarbonizing ground transportation is essential for the State to meet its ambitious greenhouse gas reduction goals, current strategies to mitigate vehicle miles traveled in the State are ineffective. The report requested in this measure would provide decision-makers with the information necessary to support and implement practical and efficient solutions that will help the State achieve carbon neutrality by 2045.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Culture and the Arts that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 119, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 119, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3492 Transportation and Culture and the Arts on S.C.R. No. 1

The purpose and intent of this measure is to recognize the day of the second new moon after the winter solstice of every year as the Lunar New Year in the State.

Your Committee received no testimony on this measure.

Your Committee finds that the Lunar New Year is joyously observed by numerous residents in the State and is celebrated by more than two-thirds of Chinese, Korean, Japanese, and Vietnamese Americans in general. Your Committee further finds that the United States House of Representatives introduced resolutions recognizing the cultural and historical significance of the Lunar New Year in 2021 and 2023; California recognized the Lunar New Year as a state holiday in 2022; and New York recognized the Lunar New Year as a public school holiday in 2023. Your Committee concludes that recognizing the Lunar New Year in Hawaii honors the State's rich cultural history, demonstrates its commitment to cultural diversity, and extends best wishes for peace and prosperity to all who celebrate this important occasion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 1 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3493 Transportation and Culture and the Arts on S.R. No. 1

The purpose and intent of this measure is to recognize the day of the second new moon after the winter solstice of every year as the Lunar New Year in the State.

Your Committee received no testimony on this measure.

Your Committee finds that the Lunar New Year is joyously observed by numerous residents in the State and is celebrated by more than two-thirds of Chinese, Korean, Japanese, and Vietnamese Americans in general. Your Committee further finds that the United States House of Representatives introduced resolutions recognizing the cultural and historical significance of the Lunar New Year in 2021 and 2023; California recognized the Lunar New Year as a state holiday in 2022; and New York recognized the Lunar New Year as a public school holiday in 2023. Your Committee concludes that recognizing the Lunar New Year in Hawaii honors the State's rich cultural history, demonstrates its commitment to cultural diversity, and extends best wishes for peace and prosperity to all who celebrate this important occasion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 1 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3494 Transportation and Culture and the Arts on S.C.R. No. 2

The purpose and intent of this measure is to urge the Legislature to endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization; support the further progress on the US-Taiwan Initiative on 21st-Century Trade, a speedy conclusion to this negotiation, and encourage the United States Trade Representative to commence negotiations to enter into a bilateral trade agreement with Taiwan; and support the State of Hawaii's thirty-first anniversary of sister-state relations with Taiwan and commemorate the forty-fifth anniversary of the Taiwan Relations Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Taipei Economic and Cultural Office.

Your Committee finds that the United States and the Republic of China, known commonly in the United States as Taiwan, are bonded by a shared commitment to democracy, human rights, the rule of law, and a free market economy. Your Committee further finds that for years, Taiwan supported United States-led efforts to bolster the economic potential of the Indo-Pacific region by defining shared trade objectives among partners and by addressing standards for technology, supply chains, the digital economy, and clean energy. Your Committee concludes that it is critical to strengthen the ties between Taiwan and the United States, by assisting Taiwan on a global stage, developing stronger US-Taiwan trade initiatives, and supporting Hawaii's sister-state relationship with Taiwan.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 2, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3495 Transportation and Culture and the Arts on S.R. No. 2

The purpose and intent of this measure is to urge the Legislature to endorse the participation of Taiwan as an observer in the United Nations Framework Convention on Climate Change, International Civil Aviation Organization, World Health Organization, and International Criminal Police Organization; support the further progress on the US-Taiwan Initiative on 21st-Century Trade, a speedy conclusion to this negotiation, and encourage the United States Trade Representative to commence negotiations to enter into a bilateral trade agreement with Taiwan; and support the State of Hawaii's thirty-first anniversary of sister-state relations with Taiwan and commemorate the forty-fifth anniversary of the Taiwan Relations Act.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the United States and the Republic of China, known commonly in the United States as Taiwan, are bonded by a shared commitment to democracy, human rights, the rule of law, and a free market economy. Your Committee further finds that for years, Taiwan supported United States-led efforts to bolster the economic potential of the Indo-Pacific region by defining shared trade objectives among partners and by addressing standards for technology, supply chains, the digital economy, and clean energy. Your Committee concludes that it is critical to strengthen the ties between Taiwan and the United States, by assisting Taiwan on a global stage, developing stronger US-Taiwan trade initiatives, and supporting Hawaii's sister-state relationship with Taiwan.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 2, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3496 Transportation and Culture and the Arts on S.C.R. No. 63

The purpose and intent of this measure is to request the Department of Transportation to prioritize remediation of the flooding issues present on Route 11 around Mile Post 60 on Hawaii Island as a safety project.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that Route 11 is a portion of Mamalahoa Highway that acts as the main artery into the southern tip of Hawaii Island, and is also the only route that connects the two main towns of the Kau district. Your Committee further finds that the closure of this highway due to flooding poses a major safety issue for the surrounding residents, being their lifeline to medical services and an emergency evacuation route. Your Committee concludes that it is critical for the Department of Transportation to study flood mitigation methods, including but not limited to flood monitoring systems, raising the highway, and installing culverts to prioritize the flooding issues present on Route 11.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 63, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 63, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3497 Transportation and Culture and the Arts on S.R. No. 51

The purpose and intent of this measure is to request the Department of Transportation to prioritize remediation of the flooding issues present on Route 11 around Mile Post 60 on Hawaii Island as a safety project.

Your Committee received no testimony on this measure.

Your Committee finds that Route 11 is a portion of Mamalahoa Highway that acts as the main artery into the southern tip of Hawaii Island, and is also the only route that connects the two main towns of the Kau district. Your Committee further finds that the closure of this highway due to flooding poses a major safety issue for the surrounding residents, being their lifeline to medical services and an emergency evacuation route. Your Committee concludes that it is critical for the Department of Transportation to study flood mitigation methods, including but not limited to flood monitoring systems, raising the highway, and installing culverts to prioritize the flooding issues present on Route 11.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 51, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 51, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3498 Transportation and Culture and the Arts on S.C.R. No. 85

The purpose and intent of this measure is to urge the Department of Transportation to install speed bumps and speed limit signage along the portion of Kapolei Parkway between Kapolei High School and Kapolei Middle School.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that according to the National Highway Traffic Safety Administration, speeding is involved in nearly one-third of all motor vehicle fatalities in the United States. Your Committee further finds that in Kapolei, speeding is a constant contributing factor in motor vehicle accidents and traffic fatalities. Your Committee concludes that installing speed bumps and speed limit signage along Kapolei Parkway will reduce the number of speeding vehicles on the roadway and protect the residents of Kapolei.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 85 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3499 Transportation and Culture and the Arts on S.R. No. 71

The purpose and intent of this measure is to urge the Department of Transportation to install speed bumps and speed limit signage along the portion of Kapolei Parkway between Kapolei High School and Kapolei Middle School.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that according to the National Highway Traffic Safety Administration, speeding is involved in nearly one-third of all motor vehicle fatalities in the United States. Your Committee further finds that in Kapolei, speeding is a constant contributing factor in motor vehicle accidents and traffic fatalities. Your Committee concludes that installing speed bumps and speed limit signage along Kapolei Parkway will reduce the number of speeding vehicles on the roadway and protect the residents of Kapolei.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 71 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3500 Agriculture and Environment on S.C.R. No. 151

The purpose and intent of this measure is to request:

- (1) The Office of Planning and Sustainable Development convene a working group to develop recommendations to expand blue carbon initiatives in the State;
- (2) The working group consider certain issues relevant for evaluating the potential of blue carbon projects to enhance the State's climate change mitigation and clean economy goals; and
- (3) The working group submit a report of its findings and recommendations on blue carbon initiatives to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i and two individuals.

Your Committee received comments on this measure from the Office of Planning and Sustainable Development, Hawaii State Energy Office, CARES, and one individual.

Your Committee finds that certain marine and coastal ecosystems sequester carbon dioxide and that the conservation and restoration of these blue carbon ecosystems have been recognized as effective nature-based solutions for mitigating greenhouse gas emissions. This measure seeks to maximize the benefits of local blue carbon initiatives to help the State meet its climate change mitigation and clean energy economy goals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 151 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3501 Agriculture and Environment on S.R. No. 129

The purpose and intent of this measure is to request:

- (1) The Office of Planning and Sustainable Development convene a working group to develop recommendations to expand blue carbon initiatives in the State;
- (2) The working group consider certain issues relevant for evaluating the potential of blue carbon projects to enhance the State's climate change mitigation and clean economy goals; and

- (3) The working group submit a report of its findings and recommendations on blue carbon initiatives to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i and one individual.

Your Committee received comments on this measure from the Office of Planning and Sustainable Development, Hawaii State Energy Office, and one individual.

Your Committee finds that certain marine and coastal ecosystems sequester carbon dioxide and that the conservation and restoration of these blue carbon ecosystems have been recognized as effective nature-based solutions for mitigating greenhouse gas emissions. This measure seeks to maximize the benefits of local blue carbon initiatives to help the State meet its climate change mitigation and clean energy economy goals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 129 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3502 Agriculture and Environment on S.C.R. No. 191

The purpose and intent of this measure is to urge the Department of Agriculture (Department) to adopt proposed amendments to chapter 4-72, Hawaii Administrative Rules, that provide important authorities for the Department to prevent the spread of insects, diseases, and other invasive pests within the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, and two individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Department has proposed amendments to its administrative rules to prevent the sale of pest-infested merchandise. Your Committee recognizes that horticultural trade is one of the primary pathways through which invasive pests are spread around the State. This measure prevents and slows the spread of invasive pests within the State, thereby protecting the State's agricultural industries, natural resources, consumers, and the public.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 191 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3503 Agriculture and Environment on S.R. No. 163

The purpose and intent of this measure is to urge the Department of Agriculture (Department) to adopt proposed amendments to chapter 4-72, Hawaii Administrative Rules, that provide important authorities for the Department to prevent the spread of insects, diseases, and other invasive pests within the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Coordinating Group on Alien Pest Species, and one individual.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Department has proposed amendments to its administrative rules to prevent the sale of pest-infested merchandise. Your Committee recognizes that horticultural trade is one of the primary pathways through which invasive pests are spread around the State. This measure prevents and slows the spread of invasive pests within the State, thereby protecting the State's agricultural industries, natural resources, consumers, and the public.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 163 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3504 Agriculture and Environment on S.C.R. No. 178

The purpose and intent of this measure is to urge the State to:

- (1) Prohibit the introduction of biocontrol agents that might threaten economically important forage grass species; and
- (2) Provide for the protection of Hawaii's rangelands and important forage grass species that sustain beef cattle production through funding policies, initiatives, and directives to state agencies to incentivize livestock grazing for the management of forage grasses and other vegetation on lands managed by the State and private sector that are currently undermanaged.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Larry Jeffs Farms, LLC; PonoHolo Ranch; Hawai'i Farm Bureau, and five individuals.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that many forage grasses were intentionally introduced into the State to support the beef cattle industry. Your Committee further finds that these forage grasses also provide important ground cover for the ecology of the State's rangelands. This measure aims to protect local livestock production and the environment of the State by preventing the eradication of these important forage grasses species.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 178 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3505 Agriculture and Environment on S.R. No. 154

The purpose and intent of this measure is to urge the State to:

- (1) Prohibit the introduction of biocontrol agents that might threaten economically important forage grass species; and
- (2) Provide for the protection of Hawaii's rangelands and important forage grass species that sustain beef cattle production through funding policies, initiatives, and directives to state agencies to incentivize livestock grazing for the management of forage grasses and other vegetation on lands managed by the State and private sector that are currently undermanaged.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Larry Jeffs Farms, LLC; PonoHolo Ranch; Hawai'i Farm Bureau, and three individuals.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that many forage grasses were intentionally introduced into the State to support the beef cattle industry. Your Committee further finds that these forage grasses also provide important ground cover for the ecology of the State's rangelands. This measure aims to protect local livestock production and the environment of the State by preventing the eradication of these important forage grasses species.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 154 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3506 Transportation and Culture and the Arts on S.C.R. No. 139

The purpose and intent of this measure is to request a task force be convened to examine successful public mass transit projects in appropriate cities and countries and develop options to reduce costs and return increased value to Hawaii residents from funds made available by the State for public mass transit.

Your Committee received testimony in support of this measure from the Hawai'i Appleseed Center for Law and Economic Justice, Hawai'i Bicycling League, Ulupono Initiative, and one individual.

Your Committee finds that public transit is important because it has been proven to reduce the cost of transit for taxpayers, reduce the cost of transit for commuters, reduce traffic, reduce greenhouse gas emissions, increase efficiency, increase access to new areas in the urban core for housing and mixed use communities, and increase jobs. Your Committee further finds that Hawaii has appropriated funds for public mass transit projects such as the City and County of Honolulu's Skyline project through the general excise tax, approximately two-thirds of which is paid for by the general public, and approximately one-third of which is paid for by visitors to Hawaii. Your Committee concludes that a task force to study cost reduction is vital for future public transit projects to help reduce costs and increase the value to residents from funds made available by the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 139 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3507 Transportation and Culture and the Arts on S.R. No. 120

The purpose and intent of this measure is to request a task force be convened to examine successful public mass transit projects in appropriate cities and countries and develop options to reduce costs and return increased value to Hawaii residents from funds made available by the State for public mass transit.

Your Committee received no testimony on this measure.

Your Committee finds that public transit is important because it has been proven to reduce the cost of transit for taxpayers, reduce the cost of transit for commuters, reduce traffic, reduce greenhouse gas emissions, increase efficiency, increase access to new areas in the urban core for housing and mixed use communities, and increase jobs. Your Committee further finds that Hawaii has appropriated funds for public mass transit projects such as the City and County of Honolulu's Skyline project through the general excise tax, approximately two-thirds of which is paid for by the general public, and approximately one-third of which is paid for by visitors to Hawaii. Your Committee concludes that a task force to study cost reduction is vital for future public transit projects to help reduce costs and increase the value to residents from funds made available by the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 120 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3508 Transportation and Culture and the Arts on S.C.R. No. 147

The purpose and intent of this measure is to request the State to begin planning to collaborate with partners in Japan to appropriately recognize the eightieth anniversary of the end of World War II, including the atomic bombings and lives lost in Japan and Hawaii throughout the war, and reaffirm a commitment to ensuring these tragedies are never repeated.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and Japanese Cultural Center.

Your Committee finds that August 2025 will mark the eightieth anniversary of the atomic bombings in Hiroshima and Nagasaki as well as the conclusion of World War II in the Pacific. Your Committee further finds that during World War II, Hawaii and Japan lost countless lives in the attacks on Pearl Harbor, the atomic bombings, and in battles throughout the Pacific theater and around the world. Your Committee concludes that properly recognizing and honoring the lives lost in World War II, particularly at the anniversary of the bombings of Hiroshima and Nagasaki, will reaffirm the lessons learned from these tragedies, strengthen mutual respect and understanding between our people, and reaffirm the deep friendship between Japan and Hawaii for new and future generations.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 147 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3509 Transportation and Culture and the Arts on S.R. No. 125

The purpose and intent of this measure is to request the State to begin planning to collaborate with partners in Japan to appropriately recognize the eightieth anniversary of the end of World War II, including the atomic bombings and lives lost in Japan and Hawaii throughout the war, and reaffirm a commitment to ensuring these tragedies are never repeated.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts and Japanese Cultural Center.

Your Committee finds that August 2025 will mark the eightieth anniversary of the atomic bombings in Hiroshima and Nagasaki as well as the conclusion of World War II in the Pacific. Your Committee further finds that during World War II, Hawaii and Japan lost countless lives in the attacks on Pearl Harbor, the atomic bombings, and in battles throughout the Pacific theater and around the world. Your Committee concludes that properly recognizing and honoring the lives lost in World War II, particularly at the anniversary of the bombings of Hiroshima and Nagasaki, will reaffirm the lessons learned from these tragedies, strengthen mutual respect and understanding between our people, and reaffirm the deep friendship between Japan and Hawaii for new and future generations.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 125 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3510 Transportation and Culture and the Arts on S.C.R. No. 148

The purpose and intent of this measure is to urge the State Foundation on Culture and the Arts to convene a task force to develop art, branding, and narratives for an appropriate selection of Hawaii's unique communities, landmarks, parks, and other similar areas.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and University of Hawai'i System.

Your Committee finds that the National Park Service has branded national parks with consistent theming and unique art that reflects each community and location, enabling them to establish a narrative, empower local artists, and sell merchandise to raise revenue for each location. Your Committee further finds that private companies are taking advantage of Hawaii and selling merchandise for profit, which does not always reflect the places, people, and culture that they are branding and merchandising. Your Committee concludes that the State should develop its own branding for key parks and areas throughout the State to preserve the character, values, perception, and culture that best reflects these places.

Your Committee has amended this measure by:

- (1) Adding a member to the task force with specialized expertise to act in a cultural advisory capacity; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 148, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 148, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3511 Transportation and Culture and the Arts on S.R. No. 126

The purpose and intent of this measure is to urge the State Foundation on Culture and the Arts to convene a task force to develop art, branding, and narratives for an appropriate selection of Hawaii's unique communities, landmarks, parks, and other similar areas.

Your Committee received testimony in support of this measure from the State Foundation on Culture and the Arts.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and University of Hawai'i System.

Your Committee finds that the National Park Service has branded national parks with consistent theming and unique art that reflects each community and location, enabling them to establish a narrative, empower local artists, and sell merchandise to raise revenue for each location. Your Committee further finds that private companies are taking advantage of Hawaii and selling merchandise for profit, which does not always reflect the places, people, and culture that they are branding and merchandising. Your Committee concludes that the State should develop its own branding for key parks and areas throughout the State to preserve the character, values, perception, and culture that best reflects these places.

Your Committee has amended this measure by:

- (1) Adding a member to the task force with specialized expertise to act in a cultural advisory capacity; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 126, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 126, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3512 Transportation and Culture and the Arts on S.C.R. No. 165

The purpose and intent of this measure is to request the Department of Transportation to study the feasibility of bringing additional airlines to the island of Molokai.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, one member of the Maui County Council, and one individual.

Your Committee finds that since January 2021, only one passenger airline has provided service to the general public out of Molokai Airport. Your Committee further finds that while the airline has done its best to accommodate the needs of passengers, including additional routes, flight times, and ordering larger planes, the cost of plane tickets remains prohibitive to many Molokai residents who need to travel for essential reasons, including work, medical appointments, and family. This lack of dependable, accessible flights to major hubs such as Honolulu can potentially lead to health and safety issues for residents of rural communities. Your Committee concludes that by conducting a study, the State can gain valuable insights into the potential benefits and challenges of introducing additional airlines to Molokai.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 165 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3513 Transportation and Culture and the Arts on S.R. No. 139

The purpose and intent of this measure is to request the Department of Transportation to study the feasibility of bringing additional airlines to the island of Molokai.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, one member of the Maui County Council, and Arc of Maui County.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that since January 2021, only one passenger airline has provided service to the general public out of Molokai Airport. Your Committee further finds that while the airline has done its best to accommodate the needs of passengers, including additional routes, flight times, and ordering larger planes, the cost of plane tickets remains prohibitive to many Molokai residents who need to travel for essential reasons, including work, medical appointments, and family. This lack of dependable, accessible flights to major hubs such as Honolulu can potentially lead to health and safety issues for residents of rural communities. Your Committee concludes that by conducting a study, the State can gain valuable insights into the potential benefits and challenges of introducing additional airlines to Molokai.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 139 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3514 Transportation and Culture and the Arts on S.C.R. No. 99

The purpose and intent of this measure is to request the United States Department of Transportation to conduct an investigation into the safety of the bridges along the Hana Highway.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee finds that Hana Highway is one of the most congested routes in the State, with recent estimates between one thousand five hundred and two thousand rental cars and up to one hundred multi-passenger tour vehicles on the route every day. Your Committee further finds that the popularity among tourists brings problems such as interfering with resident's ingress and egress, harmful interactions with marine life, trespassing on off-limits locations, and illegal parking in an unsafe manner. Your Committee concludes that it is therefore critical to investigate the safety of the bridges along Hana Highway.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 99 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

SCRep. 3515 Commerce and Consumer Protection on S.C.R. No. 158

The purpose and intent of this measure is to request the Department of Taxation to conduct a study on disallowing the dividends paid deduction for real estate investment trusts (REITs).

Your Committee received comments on this measure from the Department of Taxation, Land Use Research Foundation of Hawaii, Hawai'i Association of REALTORS, and Nareit Hawaii.

Your Committee finds that REITs own more real estate in Hawaii per capita than in any other state. Your Committee also finds that existing state law conforms to the provisions of the Internal Revenue Code that allow dividends paid deductions for REITs. Accordingly, when REITs conduct business in Hawaii and pay dividends to shareholders who live outside the State, no Hawaii income tax is collected, because shareholders pay tax on dividends to the state in which they reside and not where the income was generated. Your Committee believes that the dividends paid deductions for REITs may be negatively affecting the State's income tax collections, since a substantial majority of shareholders of Hawaii REITs reside outside of the State and pay tax on the dividends to their home states. Your Committee finds however, that while the State may lose out on certain income taxes because of the tax code, the capital expenditures, jobs, and other investments made by REITs to develop properties in the State likely result in many other tangible benefits for Hawaii residents. Your Committee finds that regulating and taxing REITs requires a careful and objective approach, and therefore, this measure requests that a study be conducted to determine the impacts of disallowing dividends paid deductions for REITs.

Your Committee has amended this measure by:

- (1) Inserting language that requests the requested study to:
 - (A) Be conducted by tax revenue experts and economists;
 - (B) Analyze REIT investments in Hawaii across ten asset classes (tower, industrial, retail, self-storage, lodging and resort, office, health care, specialty, residential, and mixed-use sectors), including affordable residential, student housing, telecommunications infrastructure, and health care facilities;
 - (C) Compare the loss of general excise taxes collected from hotels owned by REITs to any potential increase in corporate income tax revenues collected by the State;
 - (D) Show any potential tax revenue gains of REIT owners netted against the losses they incurred during the coronavirus disease 2019 (COVID-19) pandemic;
 - (E) Examine overall capital expenditures made in Hawaii by REITs during the COVID-19 pandemic as compared to the capital expenditures made by non-REIT owners, and any impact on the general excise taxes collected and construction jobs generated for the State;
 - (F) Identify expected REIT projects and their potential impact on general excise taxes and corporate income taxes to be collected by the State, as well as any loss of revenues, construction, and other jobs, if REITs withdraw from those projects; and
 - (G) Include a comparison of the investments made in Hawaii of long-term REIT owners versus non-REIT owners that acquire and sell properties as a business model; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 158, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 158, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3516 Agriculture and Environment on S.C.R. No. 192

The purpose and intent of this measure is to request the Office of the Auditor to:

- (1) Conduct a performance audit of the Department of Agriculture's Plant Industry Division; and
- (2) Submit a report of their findings and recommendations to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received comments on this measure from the Department of Agriculture and Office of the Auditor.

Your Committee finds that the State's mandated biosecurity program is delivered by the Plant Quarantine Branch within the Department of Agriculture's Plant Industry Division. Your Committee further finds that the Plant Pest Control Branch, also within the Department of Agriculture's Plant Industry Division, has been utilizing staff and operational capacity from the Plant Quarantine Branch to carry out its duties. Your Committee recognizes that additional resources are essential for the Department of Agriculture to fully meet its obligations to protect the State from invasive species. The performance audit requested in this measure will provide the information necessary for decision-makers to allocate the resources necessary to strengthen the State's biosecurity system and mitigate risks associated with invasive species.

Your Committee further recognizes that the Auditor has the duty to conduct postaudits of agency transactions, accounts, programs, and performance pursuant to section 23-4, Hawaii Revised Statutes. Your Committee acknowledges the concerns raised by the Auditor that the scope of the audit requested by this measure is not only broad and undefined, but also includes the evaluation of operational capacity, which is beyond the Auditor's purview. Therefore, this measure needs to be amended to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Narrowing the scope of the performance audit requested to apply to the Plant Pest Control Branch and Plant Quarantine Branch, rather than the entire Plant Industry Division;
- (2) Deleting language that requested the performance audit to include:
 - (A) Follow-ups to:
 - (i) Report No. 17-05, entitled "Audit of Hawai'i Department of Agriculture's Plant Quarantine Branch"; and
 - (ii) Report No. 20-21, entitled "Follow Up on Recommendations from Report No. 17-05, Audit of Hawai'i Department of Agriculture's Plant Quarantine Branch";
 - (B) Reports on the implementation status of the action items of the Hawaii Interagency Biosecurity Plan; and
 - (C) An evaluation of the true operational capacity of the Department of Agriculture to achieve its assigned action items established in the Hawaii Interagency Biosecurity Plan,

and replacing it with language that identifies specific programs and activities within the Plant Pest Control Branch and Plant Quarantine Branch to be audited by the Office of the Auditor;
- (3) Deleting references to the Hawaii Interagency Biosecurity Plan;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 192, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 192, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3517 Agriculture and Environment on S.R. No. 164

The purpose and intent of this measure is to request the Office of the Auditor to:

- (1) Conduct a performance audit of the Department of Agriculture's Plant Industry Division; and
- (2) Submit a report of their findings and recommendations to the Legislature before the Regular Session of 2025.

Your Committee received comments on this measure from the Department of Agriculture and Office of the Auditor.

Your Committee finds that the State's mandated biosecurity program is delivered by the Plant Quarantine Branch within the Department of Agriculture's Plant Industry Division. Your Committee further finds that the Plant Pest Control Branch, also within the Department of Agriculture's Plant Industry Division, has been utilizing staff and operational capacity from the Plant Quarantine Branch to carry out its duties. Your Committee recognizes that additional resources are essential for the Department of Agriculture to fully meet its obligations to protect the State from invasive species. The performance audit requested in this measure will provide the information necessary for decision-makers to allocate the resources necessary to strengthen the State's biosecurity system and mitigate risks associated with invasive species.

Your Committee further recognizes that the Auditor has the duty to conduct postaudits of agency transactions, accounts, programs, and performance pursuant to section 23-4, Hawaii Revised Statutes. Your Committee acknowledges the concerns raised by the Auditor that the scope of the audit requested by this measure is not only broad and undefined, but also includes the evaluation of operational capacity, which is beyond the Auditor's purview. Therefore, this measure needs to be amended to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Narrowing the scope of the performance audit requested to apply to the Plant Pest Control Branch and Plant Quarantine Branch, rather than the entire Plant Industry Division;
- (2) Deleting language that requested the performance audit to include:
 - (A) Follow-ups to:
 - (i) Report No. 17-05, entitled "Audit of Hawai'i Department of Agriculture's Plant Quarantine Branch"; and

- (ii) Report No. 20-21, entitled "Follow Up on Recommendations from Report No. 17-05, Audit of Hawai'i Department of Agriculture's Plant Quarantine Branch";

(B) Reports on the implementation status of the action items of the Hawaii Interagency Biosecurity Plan; and

- (C) An evaluation of the true operational capacity of the Department of Agriculture to achieve its assigned action items established in the Hawaii Interagency Biosecurity Plan,

and replacing it with language that identifies specific programs and activities within the Plant Pest Control Branch and Plant Quarantine Branch to be audited by the Office of the Auditor;

- (3) Deleting references to the Hawaii Interagency Biosecurity Plan;
- (4) Amending its title to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 164, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 164, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3518 Agriculture and Environment on S.C.R. No. 52

The purpose and intent of this measure is to request the Board of Agriculture to:

- (1) Conduct a study of the percentages of agricultural lands being leased by the State that are suitable for farming and actively being used for farming purposes;
- (2) Determine certain dollar amounts for each agricultural lease transferred from one lessee to another lessee; and
- (3) Submit a report to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and two individuals.

Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that accurate data on public agricultural lands, especially those that are leased, is vital to optimize public and private investments in agriculture to meet the State's local food production and agricultural sustainability goals. This measure will ensure that public, productive agricultural lands remain in agricultural use.

Your Committee has amended this measure by amending the date for the Board of Agriculture to submit a report to the Legislature from before the Regular Session of 2025 to before the Regular Session of 2027.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 52, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 52, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3519 Agriculture and Environment on S.R. No. 40

The purpose and intent of this measure is to request the Board of Agriculture to:

- (1) Conduct a study of the percentages of agricultural lands being leased by the State that are suitable for farming and actively being used for farming purposes;
- (2) Determine certain dollar amounts for each agricultural lease transferred from one lessee to another lessee; and
- (3) Submit a report to the Legislature before the Regular Session of 2025.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual.

Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that accurate data on public agricultural lands, especially those that are leased, is vital to optimize public and private investments in agriculture to meet the State's local food production and agricultural sustainability goals. This measure will ensure that public, productive agricultural lands remain in agricultural use.

Your Committee has amended this measure by amending the date for the Board of Agriculture to submit a report to the Legislature from before the Regular Session of 2025 to before the Regular Session of 2027.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 40, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 40, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3520 Agriculture and Environment on S.C.R. No. 53

The purpose and intent of this measure is to request that the Department of Agriculture establish an advisory commission to address certain issues to guide action and progress in the agriculture, aquaculture, and food systems industries of the State.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and two individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that it is the policy of the State to establish a clear direction for Hawaii's economy with regard to agriculture through stakeholder commitment and advocacy to achieve the State's agricultural objectives pursuant to section 226-7, Hawaii Revised Statutes. Your Committee recognizes that an advisory commission can increase communication; provide expert and credible guidance; and engage strategic partnerships between the State's private sectors, community leaders, and relevant stakeholders. The advisory commission requested in this measure will support the State's desired increase in exports and local food production, as well as its overarching goal of creating a sustainable local economy.

According to testimony received by your Committee, not only should the composition of the advisory commission adequately represent the diversity of the State's agricultural industry, but the advisory commission should also meet more frequently to ensure that the myriad of issues that the industry faces are adequately addressed. Your Committee further finds that this measure does not specify the entity to which the advisory commission should submit its recommendations. Accordingly, this measure needs to be amended to address these concerns.

Your Committee has amended this measure by:

- (1) Amending the number of times that the advisory commission is requested to meet from twice a year to quarterly;
- (2) Adding representatives from the following segments of agriculture to be invited to serve on the advisory commission:
 - (A) Livestock;
 - (B) Nursery and floriculture;
 - (C) Herbs, such as basil, cilantro, lavender, and turmeric;
 - (D) Eggs;
 - (E) Coffee; and
 - (F) Seed corn;
- (3) Requesting that the advisory commission submit its findings and recommendations to the Board of Agriculture; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 53, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 53, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3521 Agriculture and Environment on S.R. No. 41

The purpose and intent of this measure is to request that the Department of Agriculture establish an advisory commission to address certain issues to guide action and progress in the agriculture, aquaculture, and food systems industries of the State.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and one individual.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that it is the policy of the State to establish a clear direction for Hawaii's economy with regard to agriculture through stakeholder commitment and advocacy to achieve the State's agricultural objectives pursuant to section 226-7, Hawaii Revised Statutes. Your Committee recognizes that an advisory commission can increase communication; provide expert and credible guidance; and engage strategic partnerships between the State's private sectors, community leaders, and relevant stakeholders. The advisory commission requested in this measure will support the State's desired increase in exports and local food production, as well as its overarching goal of creating a sustainable local economy.

According to testimony received by your Committee, not only should the composition of the advisory commission adequately represent the diversity of the State's agricultural industry, but the advisory commission should also meet more frequently to ensure that the myriad of issues that the industry faces are adequately addressed. Your Committee further finds that this measure does not specify the entity to which the advisory commission should submit its recommendations. Accordingly, this measure needs to be amended to address these concerns.

Your Committee has amended this measure by:

- (1) Amending the number of times that the advisory commission is requested to meet from twice a year to quarterly;

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 41, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 41, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3522 Housing on S.C.R. No. 217

The purpose and intent of this measure is to urge the Federal Emergency Management Agency to utilize funds for non-congregate housing for infrastructure and development needs for affordable rental housing.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the repopulation of the areas affected by the August 2023 Maui wildfires and the redevelopment of permanent affordable housing is estimated to take many years. Your Committee further finds that meeting the needs for additional interim housing solutions is critical to ensure flexibility in keeping communities together when the Federal Emergency Management Agency's rental assistance expires in 2025. Therefore, this measure requests the Federal Emergency Management Agency to use funds to develop infrastructure to meet the long-term housing needs of residents displaced by the August 2023 Maui wildfires.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 217 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Aquino, Awa).

SCRep. 3523 Housing on S.R. No. 193

The purpose and intent of this measure is to urge the Federal Emergency Management Agency to utilize funds for non-congregate housing for infrastructure and development needs for affordable rental housing.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee finds that the repopulation of the areas affected by the August 2023 Maui wildfires and the redevelopment of permanent affordable housing is estimated to take many years. Your Committee further finds that meeting the needs for additional interim housing solutions is critical to ensure flexibility in keeping communities together when the Federal Emergency Management Agency's rental assistance expires in 2025. Therefore, this measure requests the Federal Emergency Management Agency to use funds to develop infrastructure to meet the long-term housing needs of residents displaced by the August 2023 Maui wildfires.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 193 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Aquino, Awa).

SCRep. 3524 Housing on S.C.R. No. 226

The purpose and intent of this measure is to request the Governor, in collaboration with the County of Maui, to provide a clear strategy for addressing the short- and long-term housing needs for residents displaced by the August 2023 Maui wildfires.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Office of the Governor and Hawaii Public Housing Authority.

Your Committee finds that the August 2023 Maui wildfires displaced an estimated one thousand six hundred renters from their homes. Your Committee further finds that there are significant differing housing needs for displaced residents and meeting the need for additional affordable rental housing is critical to ensure that residents have access to housing when federal aid subsides. Therefore, this measure requests a clear strategy to be provided, detailing how the Governor and the County of Maui plan to meet the housing needs of the residents of Maui.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 226 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Aquino, Awa).

SCRep. 3525 Housing on S.R. No. 202

The purpose and intent of this measure is to request the Governor, in collaboration with the County of Maui, to provide a clear strategy for addressing the short- and long-term housing needs for residents displaced by the August 2023 Maui wildfires.

Your Committee received comments on this measure from the Office of the Governor and Hawaii Public Housing Authority.

Your Committee finds that the August 2023 Maui wildfires displaced an estimated one thousand six hundred renters from their homes. Your Committee further finds that there are significant differing housing needs for displaced residents and meeting the need for additional affordable rental housing is critical to ensure that residents have access to housing when federal aid subsides. Therefore, this measure requests a clear strategy to be provided, detailing how the Governor and the County of Maui plan to meet the housing needs of the residents of Maui.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 202 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Aquino, Awa).

SCRep. 3526 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 54

The purpose and intent of this measure is to direct the Hawaii Emergency Management Agency to submit a hazard mitigation assistance grant request or pre-disaster mitigation program grant request to the Federal Emergency Management Agency for rockfall mitigation in Moanalua Gardens and Moanalua Valley, Oahu, under the Tripler Army Medical Center hillside.

Your Committee received testimony in support of this measure from two individuals.

Your Committee finds that on Oahu, the Moanalua Gardens and Moanalua Valley communities are considered a high-risk zone for landslides and rockfalls. Your Committee further finds that the United States Army Corps of Engineers has previously conducted rockfall mitigation projects on surrounding hillsides in Moanalua Gardens and Moanalua Valley since certain hillsides in the region are owned by the federal government. Your Committee concludes that while the Hawaii Emergency Management Agency is responsible for planning for and responding to natural and human-caused emergencies in the State, a partnership with the Federal Emergency Management Agency is necessary to protect the Moanalua Gardens and Moanalua Valley communities from landslides and rock falls.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 54, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 54, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3527 Public Safety and Intergovernmental and Military Affairs on S.R. No. 43

The purpose and intent of this measure is to direct the Hawaii Emergency Management Agency to submit a hazard mitigation assistance grant request or pre-disaster mitigation program grant request to the Federal Emergency Management Agency for rockfall mitigation in Moanalua Gardens and Moanalua Valley, Oahu, under the Tripler Army Medical Center hillside.

Your Committee received no testimony on this measure.

Your Committee finds that on Oahu, the Moanalua Gardens and Moanalua Valley communities are considered a high-risk zone for landslides and rockfalls. Your Committee further finds that the United States Army Corps of Engineers has previously conducted rockfall mitigation projects on surrounding hillsides in Moanalua Gardens and Moanalua Valley since certain hillsides in the region are owned by the federal government. Your Committee concludes that while the Hawaii Emergency Management Agency is responsible for planning for and responding to natural and human-caused emergencies in the State, a partnership with the Federal Emergency Management Agency is necessary to protect the Moanalua Gardens and Moanalua Valley communities from landslides and rock falls.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 43, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 43, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3528 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 104

The purpose and intent of this measure is to urge the State, City and County of Honolulu, and United States military to coordinate and address the issue of illegal dumping within Waipahu and the surrounding communities of Ewa, Pearl City, and Aiea on Oahu.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that illegal dumping has long plagued Waipahu, Oahu, particularly the area along the West Loch bike path from Waipahu to Aiea, where shopping carts clutter drainage ditches. Your Committee further finds that illegal dumping has created a hazardous environment impacting Waipahu's and surrounding communities' natural habitats and residents, and immediate interventions

are essential to mitigate harm, restore ecosystems, and safeguard the health and well-being of the community. Your Committee concludes that urgent action is necessary to mitigate risks, protect the environment, and ensure the well-being of communities through education, enforcement, and community involvement.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 104, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 104, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3529 Public Safety and Intergovernmental and Military Affairs on S.R. No. 86

The purpose and intent of this measure is to urge the State, City and County of Honolulu, and United States military to coordinate and address the issue of illegal dumping within Waipahu and the surrounding communities of Ewa, Pearl City, and Aiea on Oahu.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that illegal dumping has long plagued Waipahu, Oahu, particularly the area along the West Loch bike path from Waipahu to Aiea, where shopping carts clutter drainage ditches. Your Committee further finds that illegal dumping has created a hazardous environment impacting Waipahu's and surrounding communities' natural habitats and residents, and immediate interventions are essential to mitigate harm, restore ecosystems, and safeguard the health and well-being of the community. Your Committee concludes that urgent action is necessary to mitigate risks, protect the environment, and ensure the well-being of communities through education, enforcement, and community involvement.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 86, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 86, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3530 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 70

The purpose and intent of this measure is to request the Hawaii Emergency Management Agency to install a new emergency siren near the intersection of Aumakua Street and Auuhuhu Street in upper Pacific Palisades.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and one individual.

Your Committee finds that the lack of audible, functioning sirens in the Pacific Palisades may create a public safety concern in the event of a critical public emergency. Your Committee further finds that residents living in the Pacific Palisades area assert that they are unable to hear the emergency siren located at Pearl City High School. Additionally, the emergency siren at Palisades Elementary School has been inoperable for several years. Your Committee concludes that a new emergency siren is needed in the upper Pacific Palisades area to keep residents alerted to all civil defense emergencies in a timely manner to take any necessary safety measures.

Your Committee has amended this measure by:

- (1) Adding language to urge the Hawaii Emergency Management Agency make the installation of an emergency siren in Pacific Palisades a top priority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 70, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 70, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3531 Public Safety and Intergovernmental and Military Affairs on S.R. No. 58

The purpose and intent of this measure is to request the Hawaii Emergency Management Agency to install a new emergency siren near the intersection of Aumakua Street and Auuhuhu Street in upper Pacific Palisades.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21.

Your Committee finds that the lack of audible, functioning sirens in the Pacific Palisades may create a public safety concern in the event of a critical public emergency. Your Committee further finds that residents living in the Pacific Palisades area assert that they are unable to hear the emergency siren located at Pearl City High School. Additionally, the emergency siren at Palisades Elementary School has been inoperable for several years. Your Committee concludes that a new emergency siren is needed in the upper Pacific Palisades area to keep residents alerted to all civil defense emergencies in a timely manner to take any necessary safety measures.

Your Committee has amended this measure by:

- (1) Adding language to urge the Hawaii Emergency Management Agency make the installation of an emergency siren in Pacific Palisades a top priority; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 58, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 58, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3532 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 84

The purpose and intent of this measure is to request the Department of Law Enforcement to convene a Search and Rescue Working Group to develop and make recommendations to deter hikers from entering illegal hiking trails and to address rising search and rescue costs facing the State and counties due to increased illegal hiking traffic.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and three individuals.

Your Committee finds that the coronavirus disease 2019 pandemic has increased outdoor activity around the world, specifically hiking in Hawaii. Your Committee further finds that some individuals and groups unlawfully enter trails that have been closed to the public due to safety concerns, ultimately putting themselves at risk of significant injury and risking damage to native habitats and other natural resources that may be in those closed areas for preservation purposes. Your Committee concludes that because of the considerable costs associated with the search and rescue of individuals who wilfully disregard their and others' safety by ignoring warning signs, it is critical to develop policies that encourage public safety and accountability.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 84, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 84, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3533 Public Safety and Intergovernmental and Military Affairs on S.R. No. 70

The purpose and intent of this measure is to request the Department of Law Enforcement to convene a Search and Rescue Working Group to develop and make recommendations to deter hikers from entering illegal hiking trails and to address rising search and rescue costs facing the State and counties due to increased illegal hiking traffic.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and two individuals.

Your Committee finds that the coronavirus disease 2019 pandemic has increased outdoor activity around the world, specifically hiking in Hawaii. Your Committee further finds that some individuals and groups unlawfully enter trails that have been closed to the public due to safety concerns, ultimately putting themselves at risk of significant injury and risking damage to native habitats and other natural resources that may be in those closed areas for preservation purposes. Your Committee concludes that because of the considerable costs associated with the search and rescue of individuals who wilfully disregard their and others' safety by ignoring warning signs, it is critical to develop policies that encourage public safety and accountability.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 70, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 70, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3534 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 25

The purpose and intent of this measure is to encourage the Department of Transportation and the Department of Transportation Services of the City and County of Honolulu to expand the Red-Light Safety Program to Windward, Leeward, and Central Oahu.

Your Committees received testimony in support of this measure from the Department of Transportation, Pearl City Neighborhood Board No. 21, and one individual.

Your Committees find that federal data suggests that automated traffic enforcement can reduce the costs of enforcement, lessen the danger of enforcement for police officers, and increase the awareness of drivers that there are consequences for violating traffic laws. Your Committees further find that as of February 2023, the current iteration of the Red-Light Safety Program has issued nine hundred forty-six citations at the five intersections at which it currently operates in urban Honolulu. Your Committees conclude that expansion of the Red-Light Safety Program to Windward, Leeward, and Central Oahu may also reduce crashes and injuries outside of Honolulu's urban core.

Your Committees have amended this measure by:

- (1) Requesting the Department of Transportation and the Department of Transportation Services of the City and County of Honolulu to expand the Red-Light Safety Program generally, rather than specifically, to Windward, Leeward, and Central Oahu;
- (2) Amending the title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 25, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 25, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 3535 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 116

The purpose and intent of this measure is to urge the Department of Transportation to work with the City and County of Honolulu to plan and implement options for alternative ingress and egress routes in Pacific Palisades.

Your Committees received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and two individuals.

Your Committees find that Pacific Palisades is extremely vulnerable to natural disasters such as hurricane high winds and flash flooding. Your Committees further find that Pacific Palisades is built on a plateau above the main portion of Pearl City and the only access road to the area is Komo Mai Drive, a one lane, winding, steep road with a hairpin turn at the base of the Palisades. Your Committees conclude that because Pacific Palisades only has one route for ingress and egress, additional options for alternative access routes are needed so the community is prepared in case of emergency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 116 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 3536 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.R. No. 99

The purpose and intent of this measure is to urge the Department of Transportation to work with the City and County of Honolulu to plan and implement options for alternative ingress and egress routes in Pacific Palisades.

Your Committee received testimony in support of this measure from the Pearl City Neighborhood Board No. 21 and one individual.

Your Committees find that Pacific Palisades is extremely vulnerable to natural disasters such as hurricane high winds and flash flooding. Your Committees further find that Pacific Palisades is built on a plateau above the main portion of Pearl City and the only access road to the area is Komo Mai Drive, a one lane, winding, steep road with a hairpin turn at the base of the Palisades. Your Committees conclude that because Pacific Palisades only has one route for ingress and egress, additional options for alternative access routes are needed so the community is prepared in case of emergency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 99 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 3537 (Joint) Health and Human Services and Agriculture and Environment on S.C.R. No. 74

The purpose and intent of this measure is to request the Department of Health to conduct a study of the methods used in other states to monitor air pollutants emitted by waste incineration facilities.

Your Committees received testimony in support of this measure from the Department of Health, Environmental Caucus of the Democratic Party of Hawai'i, Energy Justice Network, CARES, and four individuals.

Your Committees received comments on this measure from the Covanta Honolulu Resource Recovery Venture, LLC.

Your Committees find that municipal waste combustion facilities emit tons of pollutants into the air and current technology used to monitor waste incineration facilities for pollutants is out dated. Your Committees further find that different states employ different methods to monitor pollutants emitted by municipal waste combustion facilities, and the experiences of other states may prove helpful in determining the optimal methods to be utilized by the State. This measure supports the evaluation of other states' methods and practices for air pollutant monitoring to improve the State's research methodology and strategy in monitoring and reducing the emission of air pollutants.

Your Committees note concerns raised in testimony that the term “waste incineration facilities” should be more narrowly defined as “municipal waste combustion facilities”, as the broader term of “waste incineration facilities” could include pathological waste incinerators, which include crematories and air curtain incinerators, which burn vegetative and silvicultural waste. Your Committees further note that these operations do not burn large quantities or have varied waste streams, and thus generate more consistent and significantly lower amounts of emissions than a municipal waste combustion facility. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Replacing the term “waste incineration” with “municipal waste combustion” to specify the facilities to be studied;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 74, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 74, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3538 (Joint) Health and Human Services and Agriculture and Environment on S.C.R. No. 76

The purpose and intent of this measure is to request the Director of Health and the Chief Energy Officer to continuously monitor air pollutants emitted by waste incineration facilities.

Your Committees received testimony in support of this measure from the Energy Justice Network, Environment Caucus of the Democratic Party of Hawai‘i, CARES, and two individuals.

Your Committees received testimony in opposition to this measure from the Covanta Honolulu Resource Recovery Venture, LLC.

Your Committees received comments on this measure from the Department of Health and Hawaii State Energy Office.

Your Committees find that of the twenty-two known pollutants that waste incineration facilities emit, only four are monitored continuously. Further, as emissions may vary based on what materials are being incinerated, the measurements of certain emissions that are taken only once per year may not accurately reflect the pollutants being emitted at other times of the year, which is critical with respect to certain dioxin emissions that are restricted by the Environmental Protection Agency due to their toxicity. This measure would request the Department of Health, in collaboration with the Hawaii State Energy Office, to conduct monitoring of air pollutants emitted by waste incineration facilities. Your Committees further find that this measure’s proposed request would require additional staff, time, and effort, and that no funds are being allocated to the Department of Health or Hawaii State Energy Office to fulfill these requests.

Your Committees note that H.C.R. No. 153 (2024) was recently passed out of the House of Representatives Standing Committee on Energy and Environmental Protection and requests the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills. Your Committees find that the language in H.C.R. No. 153 is preferable because it does not request the Department of Health or the Hawaii State Energy Office to actually conduct continuous monitoring of air pollutants, but rather to conduct a feasibility study on the implementation of continuous monitoring of air pollutants.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of H.C.R. No. 153, which requests the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills;
- (2) Inserting language to request the Department of Health to seek fees from users of waste facilities to fund the requested development of the emissions data disclosure website;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 76, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 76, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3539 (Joint) Health and Human Services and Agriculture and Environment on S.R. No. 63

The purpose and intent of this measure is to request the Director of Health and the Chief Energy Officer to continuously monitor air pollutants emitted by waste incineration facilities.

Your Committees received testimony in support of this measure from the Energy Justice Network, Environment Caucus of the Democratic Party of Hawai‘i, and two individuals.

Your Committees received testimony in opposition to this measure from the Covanta Honolulu Resource Recovery Venture, LLC.

Your Committees received comments on this measure from the Department of Health and Hawaii State Energy Office.

Your Committees find that of the twenty-two known pollutants that waste incineration facilities emit, only four are monitored continuously. Further, as emissions may vary based on what materials are being incinerated, the measurements of certain emissions that are taken only once per year may not accurately reflect the pollutants being emitted at other times of the year, which is critical with respect to certain dioxin emissions that are restricted by the Environmental Protection Agency due to their toxicity. This measure would request the Department of Health, in collaboration with the Hawaii State Energy Office, to conduct monitoring of air pollutants emitted by waste incineration facilities. Your Committees further find that this measure's proposed request would require additional staff, time, and effort, and that no funds are being allocated to the Department of Health or Hawaii State Energy Office to fulfill these requests.

Your Committees note that H.C.R. No. 153 (2024) was recently passed out of the House of Representatives Standing Committee on Energy and Environmental Protection and requests the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills. Your Committees find that the language in H.C.R. No. 153 is preferable because it does not request the Department of Health or the Hawaii State Energy Office to actually conduct continuous monitoring of air pollutants, but rather to conduct a feasibility study on the implementation of continuous monitoring of air pollutants.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting the contents of H.C.R. No. 153, which requests the Department of Health to conduct a feasibility study on the implementation of continuous monitoring and sampling technologies in waste combustion facilities and municipal solid waste landfills;
- (2) Inserting language to request the Department of Health to seek fees from users of waste facilities to fund the requested development of the emissions data disclosure website;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 63, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 63, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3540 (Joint) Health and Human Services and Agriculture and Environment on S.C.R. No. 170

The purpose and intent of this measure is to urge the Department of Health to investigate and implement policies to reduce the importation of products, packaging, or materials containing perfluoroalkyl and polyfluoroalkyl substances into the State.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and two individuals.

Your Committees received comments on this measure from the Department of Health and American Chemistry Council, Inc.

Your Committees find that perfluoroalkyl and polyfluoroalkyl substances, commonly known as PFAS, or forever chemicals, are persistent toxic substances that can contaminate drinking water, bioaccumulate in fish and wildlife, have adverse health effects on humans, and do not break down in the environment. Your Committees further find that any PFAS imported into the State pose a risk to human health and will eventually enter the food chain and contaminate already scarce drinking water aquifers. This measure supports the Department of Health's mission to protect the health and safety of residents of the State by requesting the investigation and implementation of proactive measures to reduce the importation of PFAS into the State.

Your Committees note concerns raised in the Department of Health's testimony that this measure's requested investigation will be difficult to fulfill considering the significant number of products containing PFAS and a lack of resources allocated to the Department of Health to conduct this investigation.

Accordingly, your Committees have amended this measure by inserting language to request the Department of Health to pursue funding for the implementation of the investigation to reduce the importation of products, packaging, or materials containing PFAS into the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 170, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 170, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3541 (Joint) Health and Human Services and Agriculture and Environment on S.R. No. 146

The purpose and intent of this measure is to urge the Department of Health to investigate and implement policies to reduce the importation of products, packaging, or materials containing perfluoroalkyl and polyfluoroalkyl substances into the State.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and one individual.

Your Committees received comments on this measure from the American Chemistry Council, Inc.

Your Committees find that perfluoroalkyl and polyfluoroalkyl substances, commonly known as PFAS, or forever chemicals, are persistent toxic substances that can contaminate drinking water, bioaccumulate in fish and wildlife, have adverse health effects on humans, and do not break down in the environment. Your Committees further find that any PFAS imported into the State pose a risk to human health and will eventually enter the food chain and contaminate already scarce drinking water aquifers. This measure supports the Department of Health's mission to protect the health and safety of residents of the State by requesting the investigation and implementation of proactive measures to reduce the importation of PFAS into the State.

Your Committees note concerns raised in the Department of Health's testimony that this measure's requested investigation will be difficult to fulfill considering the significant number of products containing PFAS and a lack of resources allocated to the Department of Health to conduct this investigation.

Accordingly, your Committees have amended this measure by inserting language to request the Department of Health to pursue funding for the implementation of the investigation to reduce the importation of products, packaging, or materials containing PFAS into the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 146, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 146, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3542 (Joint) Health and Human Services and Agriculture and Environment on S.C.R. No. 130

The purpose and intent of this measure is to urge the Department of Health to take all action necessary to require a wastewater treatment plant to test sewage sludge and any other residual material for the presence of perfluoroalkyl and polyfluoroalkyl substances.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i and one individual.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that perfluoroalkyl and polyfluoroalkyl (PFAS) substances found in reclaimed water and sewage sludge can pose a range of health and environmental risks. Because reclaimed water can be used for agricultural practices, requiring regular testing will help identify potential PFAS contamination and allow for appropriate management and mitigation measures for the safety of consumers, farmers, and the environment. Additionally, your Committees find that despite the Department of Health and the Honolulu Board of Water Supply actively testing the State's drinking water wells for PFAS, "forever chemicals" have been detected in the soil, groundwater, and drinking water, demonstrating the need for wastewater purveyors, the military, and other government agencies to test for PFAS. Your Committees further find that regular testing and monitoring of reclaimed water at wastewater treatment plants through environmental regulations and public health guidelines demonstrates responsible management of wastewater facilities by the Department of Health.

Your Committees have amended this measure by:

- (1) Amending its title accordingly; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 130, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 130, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3543 (Joint) Health and Human Services and Agriculture and Environment on S.R. No. 112

The purpose and intent of this measure is to urge the Department of Health to take all action necessary to require a wastewater treatment plant to test sewage sludge and any other residual material for the presence of perfluoroalkyl and polyfluoroalkyl substances.

Your Committees received testimony in support of this measure from the Environmental Caucus and the Democratic Party of Hawai'i and one individual.

Your Committees find that perfluoroalkyl and polyfluoroalkyl (PFAS) substances found in reclaimed water and sewage sludge can pose a range of health and environmental risks. Because reclaimed water can be used for agricultural practices, requiring regular testing will help identify potential PFAS contamination and allow for appropriate management and mitigation measures for the safety of consumers, farmers, and the environment. Additionally, your Committees find that despite the Department of Health and the Honolulu Board of Water Supply actively testing the State's drinking water wells for PFAS, "forever chemicals" have been detected in the soil, groundwater, and drinking water, demonstrating the need for wastewater purveyors, the military, and other government agencies to test for PFAS. Your Committees further find that regular testing and monitoring of reclaimed water at wastewater

treatment plants through environmental regulations and public health guidelines demonstrates responsible management of wastewater facilities by the Department of Health.

Your Committees have amended this measure by:

- (1) Amending its title accordingly; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 112, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 112, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3544 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 47

The purpose and intent of this measure is to urge the Department of Law Enforcement to develop and implement a U visa certification policy.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, The Legal Clinic, Hawai'i Friends of Civil Rights, Valar Law LLC, Hawai'i Coalition for Immigrant Rights, Hawai'i Workers Center, and five individuals.

Your Committee finds that the U visa is an immigration benefit for immigrant victims of certain crimes who will assist, are currently assisting, or have previously assisted law enforcement in the investigation or prosecution of a crime. Your Committee further finds that the U visa provides eligible immigrant victims with nonimmigrant status to temporarily remain in the United States while assisting law enforcement, allowing these individuals to legally remain and work in the United States. Your Committee concludes that the State would benefit from having a U visa certification policy to ensure that victims of certain crimes have a safe opportunity to report these crimes without fear of deportation.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 47 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3545 Public Safety and Intergovernmental and Military Affairs on S.R. No. 35

The purpose and intent of this measure is to urge the Department of Law Enforcement to develop and implement a U visa certification policy.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, The Legal Clinic, Hawai'i Friends of Civil Rights, Valar Law LLC, Hawai'i Coalition for Immigrant Rights, and three individuals.

Your Committee finds that the U visa is an immigration benefit for immigrant victims of certain crimes who will assist, are currently assisting, or have previously assisted law enforcement in the investigation or prosecution of a crime. Your Committee further finds that the U visa provides eligible immigrant victims with nonimmigrant status to temporarily remain in the United States while assisting law enforcement, allowing these individuals to legally remain and work in the United States. Your Committee concludes that the State would benefit from having a U visa certification policy to ensure that victims of certain crimes have a safe opportunity to report these crimes without fear of deportation.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 35 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3546 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 32

The purpose and intent of this measure is to recognize the issue of illegal dumping within the Waipahu community and urge the State, City and County of Honolulu, and military to work together to address this concern.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that illegal dumping has long plagued Waipahu, particularly the West Loch bike path from Waipahu to Aiea, where shopping carts clutter drainage ditches. Your Committee further finds that this illegal dumping in Waipahu and surrounding communities threatens public health and the environment, contaminating soil, water sources, and roads. Your Committee concludes that urgent action is necessary to mitigate health risks, protect the environment, and ensure the well-being of Waipahu residents and visitors.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 32 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3547 Public Safety and Intergovernmental and Military Affairs on S.R. No. 21

The purpose and intent of this measure is to recognize the issue of illegal dumping within the Waipahu community and urge the State, City and County of Honolulu, and military to work together to address this concern.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that illegal dumping has long plagued Waipahu, particularly the West Loch bike path from Waipahu to Aiea, where shopping carts clutter drainage ditches. Your Committee further finds that this illegal dumping in Waipahu and surrounding communities threatens public health and the environment, contaminating soil, water sources, and roads. Your Committee concludes that urgent action is necessary to mitigate health risks, protect the environment, and ensure the well-being of Waipahu residents and visitors.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 21 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3548 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 181

The purpose and intent of this measure is to request the establishment of a statewide firefighting helicopter program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaiian Electric, and one individual.

Your Committee finds that due to its geographical isolation, Hawaii faces major barriers to effective wildfire response. Your Committee further finds that while other states may request out-of-state firefighting agencies under mutual aid agreements to assist in coordinated firefighting efforts due to closer proximity and connected land mass, Hawaii's geographical isolation and unique topography make it increasingly difficult to request similar assistance, only compounding the challenges that local firefighters face in response to a wildfire. Your Committee concludes that a statewide firefighting aircraft program is imperative for the State to fortify resilience against wildfires and enhance emergency management and response capabilities.

Your Committee has amended this measure by:

- (1) Adding language to expand the program to be a statewide firefighter aircraft program to include fixed wing aircraft and drones;
- (2) Amending the title in accordance with its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 181, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 181, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3549 Commerce and Consumer Protection on S.C.R. No. 93

The purpose and intent of this measure is to request the Insurance Commissioner to coordinate and develop a Wildfire Insurance Compact.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the State is facing the growing challenge of managing and preventing dangerous wildfires, which has only been exacerbated by the rising temperatures associated with climate change. As property insurance markets continue to adjust to the uncertainty of and increased risks posed by wildfires, your Committee finds that the State should also consider exploring new, coordinated approaches that could help manage costs, expedite recovery, and ensure that insurance coverage remains available and affordable for Hawaii residents. Therefore, this measure requests the Insurance Commissioner to coordinate and develop new risk sharing approaches to wildfires, specifically, a compact that focuses primarily on risk pooling, with strategic partner states to provide mutual aid among members.

Your Committee notes the concerns raised by the testimony of the Insurance Division of the Department of Commerce and Consumer Affairs that this measure is unclear as to how a compact would provide a mechanism for risk pooling or the specifications for risk pooling, including the focus points, definitions, and parameters to consider in an assessment for risk pooling. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the Insurance Commissioner to research and convene stakeholder discussions to consider the concept of a Wildfire Insurance Compact with strategic partner states that have similar wildfire risks or robust disaster management systems, rather than coordinate and develop a Wildfire Insurance Compact;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 93, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 93, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3550 Commerce and Consumer Protection on S.R. No. 79

The purpose and intent of this measure is to request the Insurance Commissioner to coordinate and develop a Wildfire Insurance Compact.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that the State is facing the growing challenge of managing and preventing dangerous wildfires, which has only been exacerbated by the rising temperatures associated with climate change. As property insurance markets continue to adjust to the uncertainty of and increased risks posed by wildfires, your Committee finds that the State should also consider exploring new, coordinated approaches that could help manage costs, expedite recovery, and ensure that insurance coverage remains available and affordable for Hawaii residents. Therefore, this measure requests the Insurance Commissioner to coordinate and develop new risk sharing approaches to wildfires, specifically, a compact that focuses primarily on risk pooling, with strategic partner states to provide mutual aid among members.

Your Committee notes the concerns raised by the testimony of the Insurance Division of the Department of Commerce and Consumer Affairs that this measure is unclear as to how a compact would provide a mechanism for risk pooling or the specifications for risk pooling, including the focus points, definitions, and parameters to consider in an assessment for risk pooling. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Requesting the Insurance Commissioner to research and convene stakeholder discussions to consider the concept of a Wildfire Insurance Compact with strategic partner states that have similar wildfire risks or robust disaster management systems, rather than coordinate and develop a Wildfire Insurance Compact;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 79, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 79, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 3551 Health and Human Services on S.C.R. No. 49

The purpose and intent of this measure is to request the Department of Health to convene a stakeholder working group to make recommendations to enhance meaningful access to health care in the State through the provision of language assistance services.

Your Committee received testimony in support of this measure from the Department of Health, Office of Language Access, AlohaCare, Hawai'i Coalition for Immigrant Rights, Hawai'i Appleseed Center for Law and Economic Justice, Pacific Gateway Center, Hawai'i Children's Action Network Speaks!, Language Services Hawaii, Hawai'i Medical Service Association, and three individuals.

Your Committee received comments on this measure from the Healthcare Association of Hawaii.

Your Committee finds that effective communication is crucial in health care and human services to prevent misdiagnosis, delayed medical treatment, and barriers to necessary services and programs. Your Committee finds however, that limited English proficient (LEP) individuals and individuals living with physical disabilities face barriers in equitably accessing health care when language assistance and translation services are not provided, as evidenced during the coronavirus disease 2019 pandemic when communities having high numbers of LEP residents experienced higher rates of incidence and mortality. This measure will facilitate a discussion among stakeholders, including health care providers, insurers, representatives of community-based organizations, and language service providers, to make recommendations to the Legislature to ensure that all individuals in the State requiring language assistance services have meaningful access to health care.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 49 and recommends its adoption.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3552 Health and Human Services on S.R. No. 37

The purpose and intent of this measure is to request the Department of Health to convene a stakeholder working group to make recommendations to enhance meaningful access to health care in the State through the provision of language assistance services.

Your Committee received testimony in support of this measure from the Office of Language Access, AlohaCare, Hawai'i Coalition for Immigrant Rights, Hawai'i Appleseed Center for Law and Economic Justice, Pacific Gateway Center, Hawai'i Children's Action Network Speaks!, Language Services Hawaii, Hawai'i Medical Service Association, and three individuals.

Your Committee received comments on this measure from the Healthcare Association of Hawaii.

Your Committee finds that effective communication is crucial in health care and human services to prevent misdiagnosis, delayed medical treatment, and barriers to necessary services and programs. Your Committee finds however, that limited English proficient (LEP) individuals and individuals living with physical disabilities face barriers in equitably accessing health care when language assistance and translation services are not provided, as evidenced during the coronavirus disease 2019 pandemic when communities having high numbers of LEP residents experienced higher rates of incidence and mortality. This measure will facilitate a discussion among stakeholders, including health care providers, insurers, representatives of community-based organizations, and language service providers, to make recommendations to the Legislature to ensure that all individuals in the State requiring language assistance services have meaningful access to health care.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 37 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 3553 (Joint/Majority) Health and Human Services and Judiciary on S.C.R. No. 14

The purpose and intent of this measure is to urge the members of Hawaii's congressional delegation to monitor the *Alliance for Hippocratic Medicine v. U.S. Food and Drug Administration* supreme court case and take action to limit the case from further restricting access to safe abortion options.

Your Committees received testimony in support of this measure from AlohaCare, Democratic Party of Hawai'i, Democratic Party of Hawai'i Women's Caucus, and two individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that preserving access to safe and legal reproductive care is a vital public health objective for the State. Access to abortion medication like mifepristone gives health care providers an additional method of providing a safe and effective abortion treatment to their patients. Your Committees further find that the *Alliance for Hippocratic Medicine et al v. U.S. Food and Drug Administration, et al*, is a case moving through the federal court system that involves plaintiffs seeking to overturn the Food and Drug Administration's approval of mifepristone, which could effectively ban the drug nationwide even in states where abortion is legal. This measure urges the State's congressional delegation to implement proactive measures to counteract the effect of any further restrictions on abortion medication, which will protect personal autonomy and access to reproductive care for residents of the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 14 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Judiciary: Ayes, 3. Noes, 1 (Gabbard). Excused, 1 (Awa).

SCRep. 3554 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 219

The purpose and intent of this measure is to urge the Federal Emergency Management Agency to expedite the placement of Maui wildfire survivors into the Direct Lease Program.

Your Committee received no testimony on this measure.

Your Committee finds that as of March 2024, hundreds of survivors and families of the August 2023 Maui wildfires are still without long-term housing. Your Committee further finds that one option for long-term housing is the Federal Emergency Management Agency's Direct Lease Program, wherein the agency leases existing, ready-to-occupy residential properties for use as temporary housing for families displaced by wildfires. Your Committee concludes that it is a moral and financial priority for the State to move as many survivors as possible into long-term housing programs by expediting the Direct Lease Program process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 219, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 219, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3555 Public Safety and Intergovernmental and Military Affairs on S.R. No. 195

The purpose and intent of this measure is to urge the Federal Emergency Management Agency to expedite the placement of Maui wildfire survivors into the Direct Lease Program.

Your Committee received no testimony on this measure.

Your Committee finds that as of March 2024, hundreds of survivors and families of the August 2023 Maui wildfires are still without long-term housing. Your Committee further finds that one option for long-term housing is the Federal Emergency Management

Agency's Direct Lease Program, wherein the agency leases existing, ready-to-occupy residential properties for use as temporary housing for families displaced by wildfires. Your Committee concludes that it is a moral and financial priority for the State to move as many survivors as possible into long-term housing programs by expediting the Direct Lease Program process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 195, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 195, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3556 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 156

The purpose and intent of this measure is to urge the United States Congress to take immediate and decisive action to support middle- and lower-income households in America.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i.

Your Committee finds that the United States faces an ongoing crisis of inequality with middle- and lower-income households bearing the brunt of economic hardship. Your Committee further finds that despite being one of the wealthiest nations in the world, the United States ranks poorly in numerous health and social indicators, reflecting systemic failures in addressing the needs of its most vulnerable members of society. Your Committee concludes that it imperative for Congress to prioritize the wellbeing of all citizens and enact legislation that promotes fairness, justice, and opportunity for every individual.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 156, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 156, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3557 Public Safety and Intergovernmental and Military Affairs on S.R. No. 133

The purpose and intent of this measure is to urge the United States Congress to take immediate and decisive action to support middle- and lower-income households in America.

Your Committee received no testimony on this measure.

Your Committee finds that the United States faces an ongoing crisis of inequality with middle- and lower-income households bearing the brunt of economic hardship. Your Committee further finds that despite being one of the wealthiest nations in the world, the United States ranks poorly in numerous health and social indicators, reflecting systemic failures in addressing the needs of its most vulnerable members of society. Your Committee concludes that it imperative for Congress to prioritize the wellbeing of all citizens and enact legislation that promotes fairness, justice, and opportunity for every individual.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 133, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 133, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3558 Public Safety and Intergovernmental and Military Affairs on S.C.R. No. 31

The purpose and intent of this measure is to request the Women's Corrections Implementation Commission to develop a strategy and make recommendations to reduce the number of women incarcerated at the Women's Community Center by twenty-five percent over the next five years.

Your Committee received testimony in support of this measure from the Judiciary, Department of Corrections and Rehabilitation, Criminal Justice Research Institute, Women's Prison Project, Hawai'i Friends of Restorative Justice, and three individuals.

Your Committee finds that there has been little progress diverting nonviolent women offenders from prison as the recidivism rate remains at fifty percent and the population at the Women's Community Correctional Center remains at approximately two hundred, a nine hundred fifty percent increase since 1978. Your Committee further finds that the lack of progress diverting women from the criminal justice system can be traced to two failings: the lack of a definite, measurable goal by which to reduce the number of incarcerated women and a lack of resources allocated to proven community-based rehabilitative programs. Your Committee concludes that in order to reduce the recidivism rate for women, a comprehensive strategy needs to be developed by the Women's Corrections Implementation Commission.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 31, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3559 Public Safety and Intergovernmental and Military Affairs on S.R. No. 20

The purpose and intent of this measure is to request the Women's Corrections Implementation Commission to develop a strategy and make recommendations to reduce the number of women incarcerated at the Women's Community Center by twenty-five percent over the next five years.

Your Committee received testimony in support of this measure from the Judiciary, Department of Corrections and Rehabilitation, Criminal Justice Research Institute, Women's Prison Project, Hawai'i Friends of Restorative Justice, and two individuals.

Your Committee finds that there has been little progress diverting nonviolent women offenders from prison as the recidivism rate remains at fifty percent and the population at the Women's Community Correctional Center remains at approximately two hundred, a nine hundred fifty percent increase since 1978. Your Committee further finds that the lack of progress diverting women from the criminal justice system can be traced to two failings: the lack of a definite, measurable goal by which to reduce the number of incarcerated women and a lack of resources allocated to proven community-based rehabilitative programs. Your Committee concludes that in order to reduce the recidivism rate for women, a comprehensive strategy needs to be developed by the Women's Corrections Implementation Commission.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 20, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 20, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3560 (Joint) Public Safety and Intergovernmental and Military Affairs and Hawaiian Affairs on S.C.R. No. 209

The purpose and intent of this measure is to request all branches of the United States military to display the Hawaiian flag on all United States military reservations and military training facilities in the State.

Your Committees received testimony in support of this measure from the Hawaii Military Affairs Council and two individuals.

Your Committees find that the current version of the Hawaiian flag was adopted in 1845 and has been used by the Kingdom, Protectorate, Republic, Territory, and State of Hawaii. Your Committees further find that the State hosts more than three hundred thousand United States military personnel, along with more than eleven military reservations and military training facilities. Your Committees conclude that all military reservations and training facilities should display the Hawaiian flag as a gesture of respect and recognition to the State and its communities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 209, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 209, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).
Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3561 (Joint) Public Safety and Intergovernmental and Military Affairs and Hawaiian Affairs on S.R. No. 185

The purpose and intent of this measure is to request all branches of the United States military to display the Hawaiian flag on all United States military reservations and military training facilities in the State.

Your Committees received testimony in support of this measure from the Hawaii Military Affairs Council.

Your Committees find that the current version of the Hawaiian flag was adopted in 1845 and has been used by the Kingdom, Protectorate, Republic, Territory, and State of Hawaii. Your Committees further find that the State hosts more than three hundred thousand United States military personnel, along with more than eleven military reservations and military training facilities. Your Committees conclude that all military reservations and training facilities should display the Hawaiian flag as a gesture of respect and recognition to the State and its communities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Hawaiian Affairs that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 185, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 185, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 3562 Energy, Economic Development, and Tourism on S.C.R. No. 97

The purpose and intent of this measure is to request the Hawaii State Energy Office to convene a Renewable Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Par Hawaii; Hawaiian Airlines; Airlines Committee of Hawaii, Inc.; Hawai'i Gas; Hawai'i Farm Bureau; Island Energy Services, Inc.; Pacific Biodiesel Technologies, LLC; and one individual.

Your Committee finds that the State is heavily dependent on various modes of transportation for tourism, commerce, and inter-island travel, which significantly contributes to greenhouse gas emissions. Your Committee further finds that renewable liquid fuels offer a viable solution to mitigate greenhouse gas emissions across various modes of transportation, including aviation, and the State has a vested interest in fostering a comprehensive, diverse portfolio of renewable liquid fuels. This measure establishes a working group to explore how to best incentivize the production of renewable liquid fuels in the State to provide valuable insights and recommendations for promoting the adoption and development of a diverse portfolio of renewable liquid fuels.

Your Committee has amended this measure by:

- (1) Inserting language requesting that the Renewable Fuels Working Group membership include:
 - (A) A representative from a local fuel importer with statewide logistical supply and distribution capability; and
 - (B) Any others, as invited by the Chairperson;
- (2) Deleting language that would have requested the Renewable Fuels Working Group to submit to the Governor and Legislature an interim report providing an update of its work and progress no later than December 1, 2025;
- (3) Inserting language requesting that the Renewable Fuels Working Group submit to the Governor and Legislature a final report of its findings and recommendations, including any proposed legislation, no later than January 1, 2025; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 97, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 97, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3563 Energy, Economic Development, and Tourism on S.R. No. 82

The purpose and intent of this measure is to request the Hawaii State Energy Office to convene a Renewable Fuels Working Group to study local production, development, and incentives for renewable liquid fuels.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Par Hawaii; Hawaiian Airlines; Airlines Committee of Hawaii, Inc.; Hawai'i Gas; Hawai'i Farm Bureau; and Island Energy Services, Inc.

Your Committee finds that the State is heavily dependent on various modes of transportation for tourism, commerce, and inter-island travel, which significantly contributes to greenhouse gas emissions. Your Committee further finds that renewable liquid fuels offer a viable solution to mitigate greenhouse gas emissions across various modes of transportation, including aviation, and the State has a vested interest in fostering a comprehensive, diverse portfolio of renewable liquid fuels. This measure establishes a working group to explore how to best incentivize the production of renewable liquid fuels in the State to provide valuable insights and recommendations for promoting the adoption and development of a diverse portfolio of renewable liquid fuels.

Your Committee has amended this measure by:

- (1) Inserting language requesting that the Renewable Fuels Working Group membership include:

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 82, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 82, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3564 Energy, Economic Development, and Tourism on S.C.R. No. 171

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to propose legislation that establishes tax credits for firm renewable electricity generation.

Your Committee received testimony in support of this measure from Hawaiian Electric; International Brotherhood of Electrical Workers Local Union 1260; Pacific Biodiesel Technologies, LLC; and one individual.

Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that the achievement of the State's one hundred percent Renewable Portfolio Standard by 2045 is highly reliant on firm renewable energy generation and the State must continue to support utility-scale renewable energy projects that benefit residents and ratepayers. Your Committee further finds that the State must provide certainty and clarity for firm renewable generation projects to ensure their stability and long-term financial viability. This measure, through proposed legislation from the Department of Business, Economic Development, and Tourism, will provide firm renewable energy technologies the same opportunities, in the form of incentives, that are available for other renewable energy technologies to successfully progress the State towards a one hundred percent Renewable Portfolio Standard.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Business, Economic Development, and Tourism is requested to propose legislation that establishes incentives, rather than tax credits, for firm renewable electricity generation;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 171, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 171, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3565 Energy, Economic Development, and Tourism on S.R. No. 147

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to propose legislation that establishes tax credits for firm renewable electricity generation.

Your Committee received testimony in support of this measure from Hawaiian Electric and International Brotherhood of Electrical Workers Local Union 1260.

Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that the achievement of the State's one hundred percent Renewable Portfolio Standard by 2045 is highly reliant on firm renewable energy generation and the State must continue to support utility-scale renewable energy projects that benefit residents and ratepayers. Your Committee further finds that the State must provide certainty and clarity for firm renewable generation projects to ensure their stability and long-term financial viability. This measure, through proposed legislation from the Department of Business, Economic Development, and Tourism, will provide firm renewable energy technologies the same opportunities, in the form of incentives, that are available for other renewable energy technologies to successfully progress the State towards a one hundred percent Renewable Portfolio Standard.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Business, Economic Development, and Tourism is requested to propose legislation that establishes incentives, rather than tax credits, for firm renewable electricity generation;
- (2) Amending its title to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 147, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 147, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3566 Energy, Economic Development, and Tourism on S.C.R. No. 172

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to collaborate with universities in the State to convene the Hawaii Creative Innovation Group.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; University of Hawai'i System; and one individual.

Your Committee finds that the State's cultural creatives, fabric and fashion designers, graphic artists, musicians, songwriters, and performing artists are intrinsic to the identity of the State. Your Committee further finds that the State intends to provide new product development support from early-stage trials to commercialization by establishing the infrastructure, network of programs providing expert advice, and facilities that have equipment of various scales specifically tailored to the fashion and music industry sectors of the

creative economy. This measure requests the convening of the Hawaii Creative Innovation Group to scale-up and expand the fashion, design, and music industries and develop a strategy by which the State can grow emerging creative sectors into new brands, music placement, music sectors, companies, and value-added businesses in design, fashion, and technology.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that members from the private sector are requested to be invited by the Director of Business, Economic Development, and Tourism; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 172, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 172, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3567 Energy, Economic Development, and Tourism on S.R. No. 148

The purpose and intent of this measure is to request the Department of Business, Economic Development, and Tourism to collaborate with universities in the State to convene the Hawaii Creative Innovation Group.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and University of Hawai'i System.

Your Committee finds that the State's cultural creatives, fabric and fashion designers, graphic artists, musicians, songwriters, and performing artists are intrinsic to the identity of the State. Your Committee further finds that the State intends to provide new product development support from early-stage trials to commercialization by establishing the infrastructure, network of programs providing expert advice, and facilities that have equipment of various scales specifically tailored to the fashion and music industry sectors of the creative economy. This measure requests the convening of the Hawaii Creative Innovation Group to scale-up and expand the fashion, design, and music industries and develop a strategy by which the State can grow emerging creative sectors into new brands, music placement, music sectors, companies, and value-added businesses in design, fashion, and technology.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that members from the private sector are requested to be invited by the Director of Business, Economic Development, and Tourism; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 148, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 148, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 3568 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.C.R. No. 126

The purpose and intent of this measure is to encourage the Department of Agriculture and Hawaii State Energy Office to increase the State's usage of biodiesel and to fund programs that support the development of the biodiesel industry.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau; Pacific Biodiesel Technologies, LLC; and three individuals.

Your Committees received testimony in opposition of this measure from Life of the Land.

Your Committees received comments on this measure from the Department of Agriculture, Hawaii State Energy Office, and one individual.

Your Committees find that biodiesel is a safe and sustainable alternative to petroleum-based fuels and that byproducts of its production can be used as livestock feed and in food, pharmaceutical, and cosmetic industries. Your Committees further find that the establishment of a single biodiesel refinery in the State would generate millions in revenue, hundreds of jobs, and additional opportunities for agricultural research. This measure supports the growth of local agriculture and energy sectors and thereby the economic diversity and resiliency of the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 126 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).
Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 3569 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.R. No. 108

The purpose and intent of this measure is to encourage the Department of Agriculture and Hawaii State Energy Office to increase the State's usage of biodiesel and to fund programs that support the development of the biodiesel industry.

Your Committees received testimony in support of this measure from Pacific Biodiesel Technologies, LLC and Hawai'i Farm Bureau.

Your Committees received comments on this measure from the Department of Agriculture and Hawaii State Energy Office.

Your Committees received comments on this measure from the Department of Agriculture, Hawaii State Energy Office, and one individual.

Your Committees find that biodiesel is a safe and sustainable alternative to petroleum-based fuels and that byproducts of its production can be used as livestock feed and in food, pharmaceutical, and cosmetic industries. Your Committees further find that the establishment of a single biodiesel refinery in the State would generate millions in revenue, hundreds of jobs, and additional opportunities for agricultural research. This measure supports the growth of local agriculture and energy sectors and thereby the economic diversity and resiliency of the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 108 and recommend its adoption.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 3570 (Joint) Health and Human Services and Agriculture and Environment on S.C.R. No. 128

The purpose and intent of this measure is to request the Department of Health to establish a Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) Testing Grant Program in collaboration with the University of Hawaii.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i, and two individuals.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that PFAS are a group of synthetic organofluorine chemical compounds that pose a range of health and environmental risks, including risks to the State's aquatic ecosystems. Your Committees further find that due to their resistance to heat, water, and oil, PFAS have been used in a wide range of products, including non-stick cookware, water repellent clothing, stain-resistant fabrics and carpets, cosmetics, and other products that resist grease, water, and oil. Most of the hundreds of PFAS currently in use have limited or no toxicity data, making it challenging for agencies like the United States Environmental Protection Agency to understand and address the risks these substances may pose to human health and the environment. This measure will assist local communities, businesses, and residents throughout the State to obtain testing services and biological sampling for PFAS detection to safeguard the State's residents from the potential health risks of PFAS.

Your Committees have amended this measure by:

- (1) Inserting language to request the Department of Health to seek federal or grant funding for the establishment of the PFAS Testing Grant Program, in addition to funding from the United States Congress; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 128, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 128, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3571 (Joint) Health and Human Services and Agriculture and Environment on S.R. No. 110

The purpose and intent of this measure is to request the Department of Health to establish a Perfluoroalkyl and Polyfluoroalkyl Substances (PFAS) Testing Grant Program in collaboration with the University of Hawaii.

Your Committees received testimony in support of this measure from the Environmental Caucus of the Democratic Party of Hawai'i.

Your Committees find that PFAS are a group of synthetic organofluorine chemical compounds that pose a range of health and environmental risks, including risks to the State's aquatic ecosystems. Your Committees further find that due to their resistance to heat, water, and oil, PFAS have been used in a wide range of products, including non-stick cookware, water repellent clothing, stain-resistant fabrics and carpets, cosmetics, and other products that resist grease, water, and oil. Most of the hundreds of PFAS currently in use have limited or no toxicity data, making it challenging for agencies like the United States Environmental Protection Agency to understand and address the risks these substances may pose to human health and the environment. This measure will assist local communities, businesses, and residents throughout the State to obtain testing services and biological sampling for PFAS detection to safeguard the State's residents from the potential health risks of PFAS.

Your Committees have amended this measure by:

- (1) Inserting language to request the Department of Health to seek federal or grant funding for the establishment of the PFAS Testing Grant Program, in addition to funding from the United States Congress; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 110, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 110, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (Richards, Awa).

SCRep. 3572 Agriculture and Environment on S.C.R. No. 129

The purpose and intent of this measure is to request:

- (1) The Department of Agriculture (Department) establish a Sustainable Food Systems Working Group (Working Group) to develop an Interagency Food Systems Plan (Plan);
- (2) The Working Group submit the Plan and its recommendations for the implementation of the Plan to the Legislature before the Regular Session of 2025;
- (3) The Department provide any necessary administrative and staff support to the Working Group; and
- (4) The Working Group be dissolved on June 30, 2025.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association, Local Food Coalition, Ulupono Initiative, Hawai'i Farm Bureau, and two individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the State imports eight-five percent of its food, making it vulnerable to natural and man-made disasters. Your Committee further finds that the development of a sustainable food system for the State would not only make its local food production more resilient, but also support "green" job creation, sustainable economic development, land stewardship, and climate change resiliency. This measure establishes a temporary Sustainable Food Systems Working Group to guide the establishment of an efficient and effective sustainable food system for the State.

Your Committee has amended this measure by:

- (1) Amending the composition of the Working Group to include members from the:
 - (A) Department of Health;
 - (B) Office of Hawaiian Affairs; and
 - (C) Office of Planning and Sustainable Development;
- (2) Requesting that the Working Group also address the following:
 - (A) Food waste;
 - (B) Sustainable fisheries;
 - (C) Food systems resilience; and
 - (D) Disaster preparation and response;
- (3) Amending the list of recipients of certified copies to include the Director of Health, Chief Executive Officer of the Office of Hawaiian Affairs, and Director of the Office of Planning and Sustainable Development; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 129, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 129, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3573 Agriculture and Environment on S.R. No. 111

The purpose and intent of this measure is to request:

- (1) The Department of Agriculture (Department) establish a Sustainable Food Systems Working Group (Working Group) to develop an Interagency Food Systems Plan (Plan);
- (2) The Working Group submit the Plan and its recommendations for the implementation of the Plan to the Legislature before the Regular Session of 2025;
- (3) The Department provide any necessary administrative and staff support to the Working Group; and
- (4) The Working Group be dissolved on June 30, 2025.

Your Committee received testimony in support of this measure from the Local Food Coalition, Hawaii Food Industry Association, Hawai'i Farm Bureau, and one individual.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the State imports eight-five percent of its food, making it vulnerable to natural and man-made disasters. Your Committee further finds that the development of a sustainable food system for the State would not only make its local food production more resilient, but also support “green” job creation, sustainable economic development, land stewardship, and climate change resiliency. This measure establishes a temporary Sustainable Food Systems Working Group to guide the establishment of an efficient and effective sustainable food system for the State.

Your Committee has amended this measure by:

- (1) Amending the composition of the Working Group to include members from the:
 - (A) Department of Health;
 - (B) Office of Hawaiian Affairs; and
 - (C) Office of Planning and Sustainable Development;
- (2) Requesting that the Working Group also address the following:
 - (A) Food waste;
 - (B) Sustainable fisheries;
 - (C) Food systems resilience; and

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 111, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 111, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 3574 Hawaiian Affairs on S.C.R. No. 68

The purpose and intent of this measure is to request:

- (1) Businesses in Hawaii to incorporate Hawaiian language in their daily operations;
- (2) The Department of Education to develop and implement programs to teach employees Hawaiian; and
- (3) The Department of Education to hire permanent Hawaiian language teachers.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and twenty-five individuals.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that the Hawaiian language, also known as ‘Ōlelo Hawai‘i, holds cultural significance and is an integral part of the State’s rich heritage. Your Committee further finds that encouraging the use of Hawaiian language in business operations is a positive step toward cultural enrichment and linguistic diversity that will create opportunities for the permanent employment of Hawaiian language teachers. Your Committee believes that businesses in the State, with the assistance of the Department of Education (Department), Hawaiian cultural organizations, and Hawaiian language experts, should incorporate Hawaiian language in their daily operations to ensure that the Hawaiian language will continue to flourish.

Your Committee notes the concern raised in the testimony from the Department that this measure would request the Department to provide educational support and resources for people who are not students, which does not align with the Department’s vision and mission. Your Committee also notes that the Department provides Hawaiian language courses through the Community School for Adults at multiple locations, online and in-person.

Your Committee has amended this measure by:

- (1) Inserting language requesting the Department to make Hawaiian language courses available at all forty-three public high schools; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 68, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 68, S.D. 1.

Signed by the President on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).

SCRep. 3575 Hawaiian Affairs on S.R. No. 56

The purpose and intent of this measure is to request:

- (1) Businesses in Hawaii to incorporate Hawaiian language in their daily operations;
- (2) The Department of Education to develop and implement programs to teach employees Hawaiian; and
- (3) The Department of Education to hire permanent Hawaiian language teachers.

Your Committee received testimony in support of this measure from the Association of Hawaiian Civic Clubs and three individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawaiian language, also known as ‘Ōlelo Hawai‘i, holds cultural significance and is an integral part of the State’s rich heritage. Your Committee further finds that encouraging the use of Hawaiian language in business operations is a positive step toward cultural enrichment and linguistic diversity that will create opportunities for the permanent employment of Hawaiian language teachers. Your Committee believes that businesses in the State, with the assistance of the Department of Education (Department), Hawaiian cultural organizations, and Hawaiian language experts, should incorporate Hawaiian language in their daily operations to ensure that the Hawaiian language will continue to flourish.

Your Committee notes the concern raised in the testimony from the Department that this measure would request the Department to provide educational support and resources for people who are not students, which does not align with the Department’s vision and mission. Your Committee also notes that the Department provides Hawaiian language courses through the Community School for Adults at multiple locations, online and in-person.

Your Committee has amended this measure by:

- (1) Inserting language requesting the Department to make Hawaiian language courses available at all forty-three public high schools; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 56, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 56, S.D. 1.

Signed by the President on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).

SCRep. 3576 (Joint) Hawaiian Affairs and Health and Human Services on S.C.R. No. 166

The purpose and intent of this measure is to reaffirm the State’s commitment to providing culturally appropriate resources, services, and programs for Native Hawaiian individuals and families experiencing intellectual development disabilities.

Your Committees received testimony in support of this measure from the Department of Health; Department of Education; Department of Human Services; State Council on Developmental Disabilities; Office of Hawaiian Affairs; Autism Support and Disabilities Center, Inc.; AlohaCare; ‘Apoākea Native Hawaiian Innovation Institute; Full Life Hawaii; and four individuals.

Your Committees find that the State has committed to improving the quality of life of individuals experiencing intellectual and developmental disabilities, many of whom are Native Hawaiian. Your Committees further find that Native Hawaiians also disproportionately face underdiagnosis, which is indicative of systemic disparities and increased vulnerabilities. Traditional Native Hawaiian family-based communal structures established systems of effective care for individuals of all ages, including the most vulnerable members of society. Your Committees believe that providing culturally appropriate resources, services, and programs for Native Hawaiian individuals and families experiencing intellectual and developmental disabilities would ensure that services reflect their needs and cultural realities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 166, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 166, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Richards).
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3577 (Joint) Hawaiian Affairs and Health and Human Services on S.R. No. 140

The purpose and intent of this measure is to reaffirm the State’s commitment to providing culturally appropriate resources, services, and programs for Native Hawaiian individuals and families experiencing intellectual development disabilities.

Your Committees received testimony in support of this measure from the Department of Health; Department of Education; Department of Human Services; State Council on Developmental Disabilities; Office of Hawaiian Affairs; Autism Support and Disabilities Center, Inc.; AlohaCare; ‘Apoākea Native Hawaiian Innovation Institute; and three individuals.

Your Committees find that the State has committed to improving the quality of life of individuals experiencing intellectual and developmental disabilities, many of whom are Native Hawaiian. Your Committees further find that Native Hawaiians also disproportionately face underdiagnosis, which is indicative of systemic disparities and increased vulnerabilities. Traditional Native Hawaiian family-based communal structures established systems of effective care for individuals of all ages, including the most vulnerable members of society. Your Committees believe that providing culturally appropriate resources, services, and programs for

Native Hawaiian individuals and families experiencing intellectual and developmental disabilities would ensure that services reflect their needs and cultural realities.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 140, as amended herein, and recommend its adoption in the form attached hereto as S.R. No. 140, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Richards).

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 3578 Judiciary on S.C.R. No. 155

The purpose and intent of this measure is to request the Hawaii Professional Chapter of the Society of Professional Journalists to establish a process to evaluate and identify sources of news that adhere to ethical and objective journalistic standards to help the public distinguish those that may proliferate misinformation.

Your Committee received testimony in support of this measure from CARES.

Your Committee received testimony in opposition to this measure from eight individuals.

Your Committee received comments on this measure from All Hawaii News and two individuals.

Your Committee finds that the Society of Professional Journalists and objective news adhere to a code of ethics and journalistic standards that can ensure objective reporting, truth, and prevent the spread of misinformation. Your Committee further finds that the proliferation of social media has enabled some organizations and individuals with broad reach presenting themselves as news sources to intentionally or inadvertently spread misinformation, making it difficult for the average person to distinguish truth from fiction. Your Committee believes that the Hawaii Professional Chapter of the Society of Professional Journalists has a responsibility to ensure that information is reported with accuracy and objectivity in accordance with ethical standards. This measure will help arm the public with a means to distinguish between truth and misinformation.

Your Committee notes that the intent of this measure is to request the Hawaii Professional Chapter of the Society of Professional Journalists to develop a process an individual can use to separate fact from fiction, not a list of approved and disapproved news sources.

Your Committee has amended this measure by:

- (1) Replacing language that would have requested the Hawaii Professional Chapter of the Society of Professional Journalists to establish a process to evaluate and identify sources of news that adhere to ethical and objective journalistic standards to help the public distinguish those that may proliferate misinformation with language requesting the Chapter to recommend a process that individuals can utilize to evaluate and identify whether or not news sources adhere to ethical and objective standards;
- (2) Inserting language requesting the Hawaii Professional Chapter of the Society of Professional Journalists to submit a report of its findings and recommendations to the Legislature no later than forty days prior to the convening of the Regular Session of 2025; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 155, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 155, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 3579 Judiciary on S.R. No. 132

The purpose and intent of this measure is to request the Hawaii Professional Chapter of the Society of Professional Journalists to establish a process to evaluate and identify sources of news that adhere to ethical and objective journalistic standards to help the public distinguish those that may proliferate misinformation.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received testimony in opposition to this measure from thirty-seven individuals.

Your Committee finds that the Society of Professional Journalists and objective news adhere to a code of ethics and journalistic standards that can ensure objective reporting, truth, and prevent the spread of misinformation. Your Committee further finds that the proliferation of social media has enabled some organizations and individuals with broad reach presenting themselves as news sources to intentionally or inadvertently spread misinformation, making it difficult for the average person to distinguish truth from fiction. Your Committee believes that the Hawaii Professional Chapter of the Society of Professional Journalists has a responsibility to ensure that information is reported with accuracy and objectivity in accordance with ethical standards. This measure will help arm the public with a means to distinguish between truth and misinformation.

Your Committee notes that the intent of this measure is to request the Hawaii Professional Chapter of the Society of Professional Journalists to develop a process an individual can use to separate fact from fiction, not a list of approved and disapproved news sources.

Your Committee has amended this measure by:

- (1) Replacing language that would have requested the Hawaii Professional Chapter of the Society of Professional Journalists to establish a process to evaluate and identify sources of news that adhere to ethical and objective journalistic standards to help the public distinguish those that may proliferate misinformation with language requesting the Chapter to recommend a process that individuals can utilize to evaluate and identify whether or not news sources adhere to ethical and objective standards;
- (2) Inserting language requesting the Hawaii Professional Chapter of the Society of Professional Journalists to submit a report of its findings and recommendations to the Legislature no later than forty days prior to the convening of the Regular Session of 2025; and
- (3) Amending its title in accordance with its amended purpose.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 132, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 132, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (San Buenaventura, Awa).

SCRep. 3580 (Joint) Agriculture and Environment and Judiciary on S.C.R. No. 164

The purpose and intent of this measure is to:

- (1) Urge the Department of Agriculture to establish a two-year Agricultural Crime Pilot Project to examine and assess the effectiveness of prosecuting agricultural crime cases, including those of agricultural theft and agricultural vandalism, in the State; and
- (2) Request the Department of Agriculture to:
 - (A) Examine and assess the effectiveness of prosecuting agricultural crimes;
 - (B) Coordinate with the Department of Law Enforcement and each of the four counties to hire enforcement officers for each county;
 - (C) Assess the implementation of the pilot project, including the pilot project's effectiveness, to determine whether to continue, make permanent, or end the pilot project;
 - (D) Submit an interim report to the Legislature before the Regular Session of 2025; and
 - (E) Submit a final report to the Legislature before the Regular Session of 2026.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Law Enforcement; County of Hawaii Office of the Prosecuting Attorney; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; and sixteen individuals.

Your Committees received comments on this measure from the Kapalama Neighborhood Security Watch.

Your Committees find that greater protections are needed for farmers and ranchers in the State. Your Committees recognize that agricultural crimes, including agricultural theft, vandalism, and trespass, increase the costs of production and decrease the chances for local farming and ranching operations to succeed. Your Committees note that the Legislature passed Act 217, Session Laws of Hawaii 2019, which established a two-year Agricultural Theft and Vandalism Pilot Program to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the counties of Hawaii and Maui, including cases of theft and vandalism that affect individuals who are not full-time farmers or ranchers. The requested actions in this measure seek to decrease agricultural crimes and provide resources to suppress incidences and losses to farmers, ranchers, aquaculturists, and floriculturists in the State.

Your Committees further note that a joint informational briefing was held earlier this legislative session to address the safety issues faced by farmers and ranchers in relation to agriculture-related crimes by identifying the root of these issues, addressing previous roadblocks, and identifying potential solutions. Amendments to this measure are therefore necessary to incorporate proposed solutions from this informational briefing.

Accordingly, your Committees have amended this measure by:

- (1) Specifying that trespass is a category of agricultural crime;
- (2) Inserting language that requests the Department of Agriculture to:
 - (A) Create a Crimestoppers Anonymous phone line specifically for individuals who wish to report an agricultural crime but do not wish to be named;
 - (B) Create a more comprehensive, accessible online form that makes it easier for farmers and ranchers to report agricultural crimes; and
 - (C) Coordinate with the Department of Law Enforcement to form an Agricultural Crime Task Force; provided that an interpreter be a part of the Task Force through the Department of Agriculture that can represent farmers who may speak languages other than English;
- (3) Amending its title to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees also note that other states, including Montana and Texas, have established Agricultural and Livestock Commissions and further find that the establishment of an Agricultural and Livestock Commission in the State would augment and enhance current law enforcement efforts on agricultural crimes. Your Committees additionally find that the establishment of an Agricultural and Livestock Commission modeled after those in other states will allow for coordination and sharing of information between state and federal agencies, ensure that policy initiatives pertaining to the livestock and agricultural sectors are adequately represented and enforced, and allow for a separate, dedicated branch of the Department of Law Enforcement to conduct professional law enforcement investigations to solve and prevent livestock and agriculture-related criminal activities in the State. As such, your Committees respectfully request that the Department of Agriculture or other appropriate agency establish an Agricultural and Livestock Commission to be part of the conversation in regards to agricultural crimes.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Judiciary that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 164, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 164, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Judiciary: Ayes, 4. Noes, none. Excused, 1 (San Buenaventura).

SCRep. 3581 (Joint) Agriculture and Environment and Judiciary on S.R. No. 138

The purpose and intent of this measure is to:

- (1) Urge the Department of Agriculture to establish a two-year Agricultural Crime Pilot Project to examine and assess the effectiveness of prosecuting agricultural crime cases, including those of agricultural theft and agricultural vandalism, in the State; and
- (2) Request the Department of Agriculture to:
 - (A) Examine and assess the effectiveness of prosecuting agricultural crimes;
 - (B) Coordinate with the Department of Law Enforcement and each of the four counties to hire enforcement officers for each county;
 - (C) Assess the implementation of the pilot project, including the pilot project's effectiveness, to determine whether to continue, make permanent, or end the pilot project;
 - (D) Submit an interim report to the Legislature before the Regular Session of 2025; and
 - (E) Submit a final report to the Legislature before the Regular Session of 2026.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Law Enforcement; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau; Kapapala Ranch; and two individuals.

Your Committees find that greater protections are needed for farmers and ranchers in the State. Your Committees recognize that agricultural crimes, including agricultural theft, vandalism, and trespass, increase the costs of production and decrease the chances for local farming and ranching operations to succeed. Your Committees note that the Legislature passed Act 217, Session Laws of Hawaii 2019, which established a two-year Agricultural Theft and Vandalism Pilot Program to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the counties of Hawaii and Maui, including cases of theft and vandalism that affect individuals who are not full-time farmers or ranchers. The requested actions in this measure seek to decrease agricultural crimes and provide resources to suppress incidences and losses to farmers, ranchers, aquaculturists, and floriculturists in the State.

Your Committees further note that a joint informational briefing was held earlier this legislative session to address the safety issues faced by farmers and ranchers in relation to agriculture-related crimes by identifying the root of these issues, addressing previous roadblocks, and identifying potential solutions. Amendments to this measure are therefore necessary to incorporate proposed solutions from this informational briefing.
