

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. 1-24 on H.B. No. 1800

The purpose of this measure is to appropriate supplemental funds for the operating costs of the Executive Branch for the fiscal biennium beginning on July 1, 2023, and ending on June 30, 2025.

The biennium budget was enacted in June 2023 as Act 164, Session Laws of Hawaii 2023. A short time later and after the Legislature’s Regular Session of 2023 had adjourned, Lahaina and Upcountry Maui experienced devastating wildfires and burned.

The State’s financial commitment to wildfire recovery has been substantial in both services and supports that may be reimbursable by the Federal Emergency Management Agency. However, the constitutional responsibility and power to appropriate funds rests solely with the Legislature. As such, your Committee on Conference remains resolute in providing for wildfire survivors and maintaining core services and operations statewide in areas like public education, healthcare, and natural resource protection.

Fully determining the State’s exposure to wildfire-related expenses remains an extremely challenging task. This challenge has been compounded by the resolution of hazard pay commitments the State must provide for dedicated public employees who provided continuous critical services during the COVID-19 pandemic.

Additionally, during disasters like the Maui wildfires, the federal government often assists states in mitigating recovery costs. Reimbursements, however, are almost never immediate, and it may take several years for the State to receive these funds.

Communication, coordination, and cooperation among all branches of government will be needed in the coming days, months, and years to develop and implement solutions for survivors. Preserving, maintaining, and enhancing fundamental services are priorities of this budget.

Your Committee on Conference has approved a Conference Draft of the Executive budget that appropriates \$19,023,831,466 in all funds, inclusive of \$10,733,671,097 in general funds, for fiscal year 2023-2024 and \$19,209,528,184 in all funds, inclusive of \$10,395,945,997 in general funds, for fiscal year 2024-2025.

Operating

	Fiscal Year 2023-2024		Fiscal Year 2024-2025	
	All Funds	General Funds	All Funds	General Funds
Executive Budget, Act 164, Session Laws of Hawaii 2023	\$19,026,771,466	\$10,736,611,097	\$18,206,398,573	\$9,896,004,553
Net Change	-\$2,940,000	-\$2,940,000	\$1,003,129,611	\$499,941,444
Total Appropriation	\$19,023,831,466	\$10,733,671,097	\$19,209,528,184	\$10,395,945,997

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1800, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1800, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Dela Cruz, Moriwaki, Aquino, DeCoite, Hashimoto, Inouye, Kanuha, Kidani, Kim, Lee, Shimabukuro, Wakai, and Fevella.

Managers on the part of the Senate.

Ayes, 12. Noes, none. Excused, 1 (Shimabukuro).

Representatives Yamashita, Aiu, Chun, Cochran, Garrett, Kahaloa, Kila, Kitagawa, Kobayashi, Lamosao, Morikawa, Nishimoto, Poepoe, Takenouchi, Alcos, and Ward.

Managers on the part of the House.

Ayes, 16. Noes, none. Excused, none.

Conf. Com. Rep. 2-24 on H.B. No. 1911

The purpose of this measure is to appropriate supplemental funds for the Judiciary for the fiscal biennium beginning on July 1, 2023, and ending on June 30, 2025.

Your Committee on Conference has amended this measure by inserting appropriate operating and capital improvement amounts for fiscal biennium 2023-2025, as well as making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As amended, this budget appropriates:

	FY 2023-2024	FY 2024-2025
General Funds	\$185,148,711	\$197,840,871
All Means of Financing	\$197,865,224	\$210,686,624

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1911, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1911, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Moriwaki, Elefante, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Yamashita, Kitagawa, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Souza).

Conf. Com. Rep. 3-24 on H.B. No. 2058

The purpose of this measure is to:

- (1) Define what constitutes a dangerous dog; and
- (2) Establish requirements and penalties for owners of dangerous dogs.

Your Committee on Conference has amended this measure by:

- (1) Amending the felony offense of negligent failure to control a dangerous dog to include an attack that results in serious bodily injury to a person other than the owner;
- (2) Changing the effective date to July 1, 2024, but delaying the effective date to July 1, 2025, for various provisions related to the designation of dangerous dogs, requirements for owners of dangerous dogs, and impoundment of dangerous dogs; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2058, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2058, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Morikawa, Ilagan, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 4-24 on H.B. No. 2458

The purpose of this measure is to:

- (1) Require the Director of Law Enforcement to investigate alleged violations of the law when directed to do so by the Governor or when the Director determines that an investigation would be in the public interest; and
- (2) Authorize the Director of Law Enforcement to issue subpoenas as part of the investigative powers of the Department of Law Enforcement.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2458, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2458, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, and Elefante.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Ganaden, Miyake, Takayama, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 5-24 on H.B. No. 1916

The purpose of this measure is to prohibit, upon written request from certain public servants or their representative, any government agency, person, or organization from making certain personal information publicly available on the Internet.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the exception for the disclosure of protected personal information to allow recorded instruments affecting title to real property or property tax records to be provided to, or by, title insurers, underwritten title companies, licensed title insurance producers, or title plant companies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1916, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1916, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.

Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Nakashima, Evslin, Tam, and Pierick.
Managers on the part of the House.
Ayes, 4. Noes, 1 (Pierick). Excused, none.

Conf. Com. Rep. 6-24 on H.B. No. 1944

The purpose of this measure is to authorize certain types of radiographical coverage and specialist consultations without a treatment plan within the context of workers' compensation coverage for employees with cervical and lumbar spinal injuries, or suspected cervical and lumbar spinal injuries.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1944, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1944, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Keohokalole, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Tam, Kitagawa, Garrett, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 7-24 on H.B. No. 2070

The purpose of this measure is to require cash or protest bonds to be returned to the initiating parties, minus administrative costs as determined by the Office of Administrative Hearings of the Department of Commerce and Consumer Affairs, except in cases where the appeal was frivolous or made in bad faith.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2070, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2070, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Keohokalole, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Tarnas, Miyake, Tam, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tam).

Conf. Com. Rep. 8-24 on H.B. No. 2365

The purpose of this measure is to replace the Director of Law Enforcement with the Director of Corrections and Rehabilitation on the Hawaii Interagency Council for Transit-Oriented Development.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2365, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2365, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kanuha, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Chun, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 9-24 on H.B. No. 2315

The purpose of this measure is to amend the laws regarding condominium association voting and meetings by:

- (1) Repealing the provisions governing the use of an electronic voting device and references to machine voting at association meetings; and
- (2) Clarifying the procedures for electronic meetings, electronic voting, and mail voting.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2315, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2315, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Richards, Rhoads, Fukunaga, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Tarnas, Holt, Takayama, Tam, and Pierick.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 10-24 on S.B. No. 2693

The purpose of this measure is to:

- (1) Establish the offense of charitable fraud during a state of emergency; and
- (2) Provide that a person commits charitable fraud during a state of emergency if that person, during a state of emergency proclaimed by the Governor, performs certain deceptive acts or practices in connection with the solicitation of a contribution to assist persons affected by a disaster or emergency.

Your Committee on Conference finds that natural disasters present an opportunity for persons to fraudulently solicit contributions for disaster relief victims during a state of emergency declared by the Governor. Your Committee on Conference believes that this measure will provide the State with avenues to prosecute persons engaging in charitable fraud and theft in the aftermath of an emergency.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2693, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2693, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Holt, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 11-24 on S.B. No. 3037

The purpose of this measure is to allow the prosecution of persons who provide pornographic materials to undercover law enforcement officers who represent themselves as minors for the purposes of undercover operations.

Your Committee on Conference finds that the Hawaii Internet Crimes Against Children Task Force, run by the Department of the Attorney General, in collaboration with various federal and county law enforcement agencies, regularly conducts undercover operations where undercover law enforcement officers pose as minors on the Internet to identify, locate, arrest, and prosecute offenders who solicit minors to engage in sexual activities. However, existing law only allows for prosecution if the pornographic material is sent to an actual minor. This measure will enhance law enforcement's efforts to combat crimes against children by allowing prosecution of those who disseminate pornographic materials to undercover law enforcement officers who pose as minors.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3037, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3037, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Elefante, Gabbard, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Ganaden, Kong, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 12-24 on S.B. No. 2845

The purpose of this measure is to prohibit:

- (1) A person from selling ammunition to a person under the age of twenty-one; and
- (2) A person under the age of twenty-one from owning, possessing, or controlling ammunition, with exceptions.

Your Committee on Conference finds that setting a minimum age requirement to purchase, own, or possess ammunition that conforms to the existing minimum age requirement to purchase, own, or possess a firearm in the State will help to ensure the safety of residents and reduce incidents of gun violence in the State. Accordingly, this measure will improve public safety and conform the State's laws regulating ammunition with the State's existing firearm laws.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2845, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2845, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Holt, Takayama, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 13-24 on S.B. No. 2927

The purpose of this measure is to propose amendments to the Hawaii State Constitution to make the appointment and Senate consent procedure for District Court judges the same as those for Supreme Court justices and Intermediate Court of Appeals and Circuit Court judges.

Your Committee on Conference finds that the existing Senate confirmation process for judicial appointments differs if the appointment is made by the Governor or the Chief Justice. Additionally, due to the Legislature being a part-time legislature, the Senate must convene special sessions throughout the year for the sole purpose of consenting to District Court appointments. This measure will reduce confusion, promote government efficiency, and provide clarity for the judicial appointment process by making the Senate confirmation process for judicial appointments the same, regardless of whether the appointment is made by the Governor or the Chief Justice.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon compliance with article XVII, section 3, of the Hawaii State Constitution; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2927, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2927, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Aquino, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Nishimoto, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 14-24 on S.B. No. 3034

The purpose of this measure is to explicitly categorize defenses to penal liability based on intoxication that is not self-induced or is pathological as affirmative defenses.

Your Committee on Conference finds that existing law allows criminal defendants to raise intoxication defenses during the trial, which leaves the prosecution at severe disadvantage due to the prosecution lacking sufficient time to investigate these claims. This measure will shift the initial burden of proof regarding these defenses to the defendant, thereby allowing the prosecution to fully vet the legitimacy of the defense and possible lack of supportive evidence while still requiring a defendant be found not guilty, should the prosecution be unable to meet its burden of proof.

Your Committee on Conference has amended this measure by:

- (1) Including a sunset date of July 1, 2034;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3034, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3034, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Takayama, and Souza.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 15-24 on S.B. No. 3033

The purpose of this measure is to align the criminal offense of tampering with physical evidence with the wording of the Model Penal Code for tampering with or fabricating physical evidence.

Your Committee on Conference finds that existing law omits several phrases from the corresponding offense in the Model Penal Code that are needed to comprehensively combat physical evidence offenses. Tampering with physical evidence can take many forms beyond what is provided in existing law, and your Committee on Conference believes that the Model Penal Code wording for the corresponding offense encompasses those forms. This measure will increase the probability that evidence will be accurate and credible by increasing the scope of when tampering with physical evidence is an offense and making the fabrication of physical evidence an offense.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3033, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3033, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, San Buenaventura, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Takayama, and Souza.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 16-24 on S.B. No. 2347

The purpose of this measure is to establish the offense of habitual violent crime.

Your Committee on Conference finds that most violent crimes are committed by a small number of repeat offenders. Despite this, many repeat offenders face minimal consequences for their repeated acts of violence. This measure will deter violent crime in local communities while ensuring that repeat offenders are held accountable for their acts of violence.

Your Committee on Conference has amended this measure by:

- (1) Including a sunset date of June 30, 2027;
- (2) Making it effective upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2347, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2347, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Ilagan, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 17-24 on S.B. No. 2333

The purpose of this measure is to authorize the Chief Election Officer to use accurate copies of paper ballots, rather than the originals, when conducting a precinct audit of an electronic voting system's tally.

Your Committee on Conference finds that existing law requires the Chief Election Officer, as a condition of using an electronic tally of ballots created by an electronic voting system, to conduct a random audit of the vote counts in ten percent of the precincts where an electronic voting system was used. This measure will improve the efficiency of the required audits by clarifying and updating the conduct of the audits used with modernized voting equipment and technology for elections by mail.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2333, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2333, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Miyake, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 18-24 on S.B. No. 2217

The purpose of this measure is to increase uniformity, efficiency, and effectiveness in the administration and enforcement of the State Ethics Code and lobbyists law by:

- (1) Establishing a phased process for adjusting the reporting period for gift disclosures filed with the State Ethics Commission to conform with the state fiscal year; and
- (2) Providing for the electronic filing of statements required by the State Ethics Commission.

Your Committee on Conference finds that although the state fiscal year begins on July 1, existing law requires legislators and employees to submit a gifts disclosure statement with the State Ethics Commission no later than June 30 of each year, covering a period from June 1 of the preceding calendar year through May 31 of the year of the report. This measure will align the gift reporting requirement with the state fiscal year to promote conformity and efficiency and reduce confusion regarding the administration and enforcement of the State Ethics Code and state lobbyists law.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2217, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2217, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Morikawa, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 19-24 on S.B. No. 2197

The purpose of this measure is to amend the definition of "advance gambling activity" to repeal language that included making no effort to prevent the occurrence or continuation of gambling activity.

Your Committee on Conference finds that existing law only requires the owner of a property to make an effort to stop illegal gambling from occurring on the property, which results in many owners taking minimal effort to evict tenants who conduct illegal operations, despite the owners receiving notice from law enforcement that illegal activity is occurring on their property. This measure will improve public safety by holding property owners accountable if they allow illegal gambling establishments to continue to operate on their property.

Your Committee on Conference has amended this measure by:

- (1) Including a sunset date of July 1, 2029; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2197, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2197, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Elefante, San Buenaventura, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Ganaden, Kong, Takayama, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 20-24 on S.B. No. 2193

The purpose of this measure is to amend the offense of use of a computer in the commission of a separate crime to include violation of privacy in the first and second degrees.

Your Committee on Conference finds that including the offenses of violation of privacy in the first and second degrees under the offense of use of a computer in the commission of a separate crime will strengthen penalties against violators for conducting this type of illegal behavior. This measure will strengthen law enforcement's ability to combat these types of computer crimes, provide an additional tool for prosecutors, and serve as a deterrent to prevent these types of crimes from occurring.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2193, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2193, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Elefante, San Buenaventura, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Takayama, Kong, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 21-24 on S.B. No. 2216

The purpose of this measure is to clarify and modernize the way the State Ethics Commission provides advice and conducts investigations.

Your Committee on Conference finds that a key component of a proactive ethical framework is the ability for the State Ethics Commission to provide timely advice. Additionally, your Committee on Conference believes that modernizing the investigative process in statute will help to provide clarity and reduce the potential for misreading the process. This measure will therefore address the need for clarity in the advice-seeking process by providing public officials with a confidential and secure mechanism to request advice and make necessary house-keeping amendments to modernize the investigative process.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2216, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2216, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Elefante, Gabbard, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Morikawa, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 22-24 on S.B. No. 3123

The purpose of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to access vital records for purposes of verifying Native Hawaiian ancestry for beneficiary programs; and
- (2) Require the Department of Health and the Department of Hawaiian Home Lands to enter into a Memorandum of Agreement to assure appropriate access and handling of confidential records and sealed records that have been unsealed pursuant to court order.

Your Committee on Conference finds that Department of Hawaiian Home Lands staff currently requests genealogical research services for claimants of native Hawaiian beneficiary status on an individual basis. Your Committee on Conference further finds that authorizing the Department of Hawaiian Home Lands staff to work alongside Department of Health staff would greatly accelerate the process. This measure will therefore ease the administrative burden on Department of Hawaiian Home Lands staff conducting genealogical research to determine eligibility for certain programs, including Hawaiian Home Lands homestead leases.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3123, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3123, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, San Buenaventura, Rhoads, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Ganaden, Holt, Kong, Takayama, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Ganaden, Kong).

Conf. Com. Rep. 23-24 on H.B. No. 2478

The purpose of this measure is to authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that at least one commissioner of the Pacific States Marine Fisheries Commission representing Hawaii must be a practitioner of and expert in traditional and customary native Hawaiian cultural fishing practices and must serve as a representative of such on the Commission;
- (2) Changing the effective date to upon its approval; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2478, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2478, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Poepoe, Tarnas, Kila, Ichiyama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 24-24 on S.B. No. 3154

The purpose of this measure is to clarify that failure to comply with approved mitigation commitments, conduct an archaeological survey, or comply with other administrative requirements pertaining to archaeology approved by the Department of Land and Natural Resources shall result in civil and administrative violations.

Your Committee on Conference finds that stronger enforcement mechanisms are needed to protect cultural and historical sites from irresponsible archaeology and development practices. This measure will allow the State Historic Preservation Division to regulate archaeological activities more effectively by authorizing the State Historic Preservation Division to pursue assessments of administrative violations.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3154, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3154, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 25-24 on S.B. No. 3011

The purpose of this measure is to:

- (1) Make it unlawful for any person to operate a weed whacker in or within one hundred feet of a residential zone, subject to certain exceptions;
- (2) Extend the time for the use of leaf blowers and weed whackers within or near residential zones;
- (3) Provide exceptions for government entities and agents acting on behalf of government entities during emergencies; and

(4) Define weed whacker.

Your Committee on Conference finds that weed whackers emit an excessive amount of noise, which is not only a disturbance for residents and communities, but also a public health concern for the State, and has the potential to cause permanent hearing damage. This measure restricts the usage of weed whackers to certain times of the day to alleviate sound nuisances and safeguard public health.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3011, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3011, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads, and Keohokalole.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keohokalole).

Representatives Tarnas, Takayama, and Souza.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 26-24 on S.B. No. 3236

The purpose of this measure is to clarify that if no personal property designation appears in a recorded instrument relating to the Land Trust Act, the interests of the beneficiaries shall be real property.

Your Committee on Conference finds that to fulfil its mission to fully support self-sufficiency for native Hawaiians by providing the opportunity for homestead leases and homeownership, the Department of Hawaiian Home Lands has been creating the opportunity for lower-income native Hawaiians on the Department's waiting list to access Hawaii Housing Finance and Development Corporation funding through the Low-Income Housing Tax Credit program. However, if a "renter" accessing funding this way dies before a fifteen-year compliance period is finished and their intended successor is less than fifty percent native Hawaiian, the unit cannot be transferred to their intended successor and the intended successor receives nothing. This measure will address this problem by clarifying that the beneficiary interest under these types of land trusts are real property, rather than personal property.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3236, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3236, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Nishimoto, Holt, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 27-24 on S.B. No. 2529

The purpose of this measure is to amend the definition of "patient's provider" in State law governing Provider Orders for Life-Sustaining Treatment by removing language that requires the provider to examine the patient.

Your Committee on Conference finds that one of the most important documents for patients with a serious illness is a Provider Orders for Life-Sustaining Treatment (POLST) form, a portable medical order that documents a patient's care plan outside the hospital and specifies the patient's wishes and directions to health care providers regarding the provision of resuscitative and life-sustaining measures. Your Committee on Conference further finds that language in existing law, which can be interpreted as requiring health care providers to meet with the patient face-to-face before signing the POLST, impedes patients from obtaining POLST in a timely manner, thereby exposing the sickest and most vulnerable patients to the risk of receiving unwanted and unnecessary care. This measure will aid patients in creating or updating POLST documentation by removing lengthy and inefficient requirements.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2529, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2529, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Belatti, Sayama, Tarnas, Takenouchi, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 28-24 on S.B. No. 2960

The purpose of this measure is to:

- (1) Clarify that agricultural lots shall be used for farming by requiring that purchasers and lessees of farm lots submit proof of using the lots to produce food or conduct other agricultural activities; and
- (2) Authorize certain agricultural cooperative associations to apply for farm lots.

Your Committee on Conference finds that wealthy individuals have purchased large parcels of land on which to live and pursue farming as a hobby rather than as a livelihood. The Hawaii State Constitution obligates the State to conserve and protect agricultural lands. This measure will ensure that lessees and purchasers of farm lots and ranch lots use that land primarily for farming and producing food.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2960, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2960, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Gabbard, Rhoads, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Gates, Ichiyama, Lamosao, Kahaloa, Poepoe, and Ward.
Managers on the part of the House.

Conf. Com. Rep. 29-24 on S.B. No. 2715

The purpose of this measure is to make it unlawful for an employer to discharge, discipline, or otherwise penalize or threaten any adverse employment action against an employee because the employee declines to attend or participate in an employer-sponsored meeting that communicates the opinion of the employer about political matters, or declines to receive or listen to a communication from the employer that communicates the opinion of the employer about political matters.

Your Committee on Conference finds that some employers use “captive audience meetings”, where employee attendance is mandatory or de facto mandatory, to disseminate employer’s political views that have little or no relevance to the workplace or the employees’ work duties and penalize employees who refuse to attend. Your Committee on Conference further finds that participation in these meetings should be voluntary however, protection for employees who refuse to attend is limited under existing law. This measure establishes legal protections for employees who choose not to participate in these meetings.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2715, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2715, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Keohokalole, San Buenaventura, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Matayoshi, Tarnas, Garrett, Tam, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 30-24 on S.B. No. 2718

The purpose of this measure is to allow the Hawaii Labor Relations Board to admit and consider hearsay evidence.

Your Committee of Conference finds that existing law is contradictory with regards to whether the Hawaii Labor Relations Board, a quasi-judicial administrative agency, is permitted to admit and consider hearsay evidence in its proceedings. Specifically, despite there being a myriad of exceptions in the Hawaii Rules of Evidence that allow certain types of hearsay evidence to be admissible in any other court or administrative proceeding under a hearsay exception and the general principle that administrative proceedings are more flexible than judicial proceedings and therefore should not be bound by the Rules of Evidence, existing law explicitly prohibits the Hawaii Labor Relations Board from admitting or considering hearsay evidence in its unfair labor practices proceedings. This measure allows the Hawaii Labor Relations Board to admit and consider hearsay evidence in its unfair labor practices proceedings, placing them in line with proceedings before other administrative boards and commissions.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2024; and

- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2718, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2718, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Rhoads, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Tarnas, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 31-24 on S.B. No. 2119

The purpose of this measure is to authorize out-of-state pharmacies to transfer prescription information for the initial fill of an out-of-state prescription in the State.

Your Committee on Conference finds that it is common for an out-of-state patient to require an acute medication while visiting the State. Your Committee on Conference further finds that because state law does not explicitly permit out-of-state pharmacies to transfer prescription information to in-state pharmacies for dispensing an initial prescription fill, local pharmacists must contact out-of-state practitioners for a verbal order, resulting in workflow redundancy and treatment delays for out-of-state patients. This measure will allow out-of-state patients in the State to receive the initial filling of their prescription medication in a timely manner.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2119, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2119, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Sayama, Nakashima, Tam, and Pierick.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 32-24 on S.B. No. 2557

The purpose of this measure is to allow the court to appoint an attorney for the subject of a petition for assisted community treatment, rather than entitling an indigent subject of a petition for assisted community treatment to representation by a public defender.

Your Committee on Conference finds that guardians ad litem act in the best interests of persons who are the subject of a petition for assisted community treatment and protect them throughout the petition process. Your Committee on Conference further finds that representation by a public defender is typically not necessary in these cases due to the person not facing the risk of detention, and representation by a public defender may also result in the person's treatment being delayed. This measure will preserve government resources and ensure that the treatment of a person who requires assisted community treatment does not suffer from unnecessary delays.

Your Committee on Conference respectfully requests that the Judiciary report to the Legislature on the use of appointed counsel in assisted community treatment (ACT) cases, including how often they appoint counsel for the subject of an ACT petition, the reasons for the appointments, when in the process appointments are made, the cost per appointment, and an estimate for future funding to support appointed counsel.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2557, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2557, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Nishimoto, Holt, Ilagan, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 33-24 on S.B. No. 2476

The purpose of this measure is to authorize licensed dental hygienists to perform preventive dental sealant screenings and apply dental sealants on individuals, under certain conditions, in a school-based oral health program.

Your Committee on Conference finds that dental sealants, a protective layer coating the chewing surface of molars, play a significant role in the oral health and development of children by helping to prevent tooth decay. Providing dental sealants through school-based oral health programs will serve as a proactive approach to expand and improve access to oral health care for Hawaii's keiki.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2476, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2476, H.D. 2, C.D. 1.

Representatives Woodson, Belatti, Sayama, La Chica, M. Mizuno, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Garcia).

Conf. Com. Rep. 34-24 on S.B. No. 3365

The purpose of this measure is to:

- (1) Require the Department of Agriculture to certify treatments performed in the State on plant care components; and
- (2) Place certain restrictions on the distribution or transportation of plant care components without prior treatment certification from the Department of Agriculture.

Your Committee on Conference finds that pests and other invasive species can enter and spread throughout the State by infesting plant care components, such as wood chips and filter socks. Your Committee on Conference further finds that properly treating plant care components before they are distributed or transported within and from the State will help prevent the introduction and spread of these invasive species. This measure provides the Department of Agriculture with another method to further protect the agricultural industry and delicate ecosystems of the State from pests and other invasive species.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3365, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3365, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, DeCoite, and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Lamosao, Aiu, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 35-24 on S.B. No. 2066

The purpose of this measure is to establish another means for a housing project to seek an exemption from certain laws and rules, including those relating to planning, zoning, and construction, that are developed under the various programs of the Hawaii Housing Finance and Development Corporation.

Your Committee on Conference finds that Hawaii is facing a critical housing shortage, particularly for Hawaii residents who are seeking a permanent home for their families, rather than trying to acquire real estate for investment or speculative purposes. Existing regulatory barriers can also slow down the production of the additional housing units that are so urgently needed. Therefore, this measure will allow for an alternative pathway for housing projects to expedite the regulatory process to increase affordable housing units in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the housing projects developed under the alternative pathway shall not impose stricter income requirements than those adopted or established by the State;
- (2) Amending section 1 to reflect its amended purpose; and

- (3) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2066, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2066, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Elefante, and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 36-24 on S.B. No. 2721

The purpose of this measure is to clarify that criminal penalties are authorized for certain violations of ocean recreation laws.

Your Committee on Conference finds that stricter penalties are needed to deter illegal activity at small boat harbors and boating facilities, which are some of the most heavily trafficked facilities in the State. However, the provisions of section 200-14, Hawaii Revised Statutes, are unclear as to whether criminal penalties are authorized for violations, hindering enforcement efforts. This measure will deter illegal activity at small boat harbors by clarifying and imposing stricter penalties.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources may adopt rules relating to boating accidents;
- (2) Restoring language imposing penalties on any individual who violates any provision of chapter 200, Hawaii Revised Statutes, or any rule adopted by the Department of Land and Natural Resources;
- (3) Restoring language that authorizes the Department of Land and Natural Resources to impose administrative fines and penalties for water pollution violations;
- (4) Clarifying that administrative fines shall apply to all violations of chapter 200, chapter 200A, and chapter 200D, Hawaii Revised Statutes;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2721, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2721, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 37-24 on S.B. No. 795

The purpose of this measure is to:

- (1) Require productions to provide evidence of reasonable efforts to comply with all applicable requirements to qualify for the Motion Picture, Digital Media, and Film Production Income Tax Credit; and
- (2) Require taxpayers be given notice of and an opportunity to cure requirements for the Motion Picture, Digital Media, and Film Production Income Tax Credit within thirty days of receiving the notice.

Your Committee on Conference finds that the Motion Picture, Digital Media, and Film Production Income Tax Credit program has resulted in a thriving film and digital media industry that has broadened the State's tax base and helped to strengthen the State's economy. Recent amendments to the program, however, could have the effect of disqualifying a production from all available tax credits due to one or a few minor issues with its compliance requirements. This measure will help continue to create high-paying jobs and allow the State to remain a successful production center in the Pacific by ensuring that productions will not be at risk of being found non-compliant with the tax credit requirements over minor technical issues and provide taxpayers an opportunity to cure compliance issues, should they arise.

Your Committee on Conference has amended this measure by inserting an effective date of January 1, 2025.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 795, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 795, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Wakai, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Holt, Lamosao, Kitagawa, and Pierick.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pierick).

Conf. Com. Rep. 38-24 on H.B. No. 2435

The purpose of this measure is to authorize the Director of Health to permit synchronous online access to apply for marriage and civil union licenses in lieu of in-person applications, as specified in rules adopted by the Department of Health.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2435, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2435, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Rhoads, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Ganaden, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 39-24 on H.B. No. 2482

The purpose of this measure is to:

- (1) Require the Office of the Lieutenant Governor or the appropriate county clerk's office to ensure access to paper or electronic copies of all meeting notices and repeal the requirement to post notices in a central location in a public building; and
- (2) Repeal statutory language providing that cancellation of a meeting is not required for failure of a board to file a copy of the meeting notice with the Office of the Lieutenant Governor or the appropriate county clerk's offices and retain a copy of proof of filing the notice, or failure of the Office of the Lieutenant Governor or county clerk's offices to provide paper or electronic copies of all meeting notices.

Your Committee on Conference has amended this measure by:

- (1) Reverting to a portion of the existing statutory language to prevent the cancellation of a meeting for failure of a board to file a copy of the meeting notice with the Office of the Lieutenant Governor or the appropriate county clerk's offices and retain a copy of proof of filing the notice, or failure of the Office of the Lieutenant Governor or county clerk's offices to ensure access to paper or electronic copies of all meeting notices; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2482, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2482, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Rhoads, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Morikawa, Lamosao, and Souza.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Souza).

Conf. Com. Rep. 40-24 on H.B. No. 2457

The purpose of this measure is to:

- (1) Require the Department of Law Enforcement to pursue and obtain accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc., for all divisions and sections within the Department of Law Enforcement, not just the sheriff division; and
- (2) Establish Commission on Accreditation for Law Enforcement Agencies, Inc., coordinator positions, exempt from civil service, within the Department of Law Enforcement to ensure the Department meets and maintains the standards and accreditation of the Commission on Accreditation for Law Enforcement Agencies, Inc., and that law enforcement officers of the Department of Law Enforcement meet the standards set by the Law Enforcement Standards Board.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2457, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2457, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Lee, and Elefante.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Morikawa, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 41-24 on H.B. No. 2193

The purpose of this measure is to amend the State's Fireworks Control Law to:

- (1) Authorize officers having police powers and every county fire department officer to enter and inspect the premises of a licensee or permittee for compliance with the Fireworks Control Law, and establish penalties for hindering an officer;
- (2) Establish procedures to authorize the Department of Law Enforcement to conduct administrative inspections of controlled premises;
- (3) Require licensees and permittees who hold, store, transport, sell, possess, or otherwise dispose of fireworks or articles pyrotechnic to keep records and maintain inventories;
- (4) Require licensees and permittees to report to the Director of Law Enforcement and appropriate county fire chief if they have reason to believe that fireworks or articles pyrotechnic were stolen, embezzled, or otherwise obtained by fraud or diversion;
- (5) Authorize law enforcement agencies and county fire departments to safely dispose of confiscated fireworks and articles pyrotechnic;
- (6) Require violators to be held liable for storage and disposal costs;
- (7) Specify that each type of prohibited firework constitutes a separate violation; and
- (8) Authorize the Department of Law Enforcement, in addition to the counties, to enforce the Fireworks Control Law.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2193, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2193, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, Kim, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Chun, Ilagan, Takayama, and Souza.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 42-24 on H.B. No. 2399

The purpose of this measure is to exempt an additional administrative assistant position in the Hawaii State Public Library System from civil service.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2399, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2399, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, and Hashimoto.
Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Kitagawa, Lamosao, and Alcos.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 43-24 on H.B. No. 1633

The purpose of this measure is to repeal the leasing restriction on owner-builders who obtain an owner-builder exemption to act as their own contractor and who build or improve residential or farm buildings or structures on their own property and do not offer the buildings or structures for sale.

Your Committee on Conference has amended this measure by:

- (1) Reverting to existing statutory language that authorizes lessees to obtain an owner-builder exemption;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1633, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1633, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Keohokalole, and Aquino.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Aquino).

Representatives Evslin, Ichiyama, Tarnas, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 44-24 on H.B. No. 2090

The purpose of this measure is to:

- (1) Beginning January 1, 2025, permit residential uses in areas zoned for commercial use, under certain circumstances; and
- (2) Require, no later than January 1, 2025, each county to adopt or amend its ordinances to allow for adaptive reuse of existing commercial buildings in the county's building code.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that multifamily uses are considered residential uses for purposes of this measure;
- (2) Specifying that adaptive reuse of existing commercial buildings shall be allowed until each county adopts or amends its ordinances accordingly;
- (3) Clarifying that the application of each adaptive reuse ordinance, rather than each adaptive reuse building code ordinance, is notwithstanding any law, ordinance, or code or standard to the contrary;
- (4) Clarifying requirements for adaptive reuse ordinances, including:
 - (A) Prohibiting the counties from requiring a micro unit to be larger than minimum standards established in the International Building Code, rather than setting a minimum standard of two hundred square feet; and
 - (B) Providing for an exemption to any off-street parking requirements if the existing off-street parking satisfies at least fifty percent of a county's parking requirements, but specifying that a county is not precluded from exempting an adaptive reuse project from all off-street parking requirements;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2090, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2090, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Inouye, Rhoads, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Evslin, Ichiyama, Tarnas, Aiu, Miyake, Takayama, and Matsumoto.

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 45-24 on H.B. No. 2581

The purpose of this measure is to remove the ability of the Governor or a mayor to suspend electronic media transmission during a state of emergency or local state of emergency, respectively.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2581, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2581, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Rhoads, and Elefante.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Ganaden, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 46-24 on H.B. No. 2475

The purpose of this measure is to, for purposes of regulating commercial activity under the laws regulating ocean recreation:

- (1) Include advertisements and offers within the definition of “commercial activity”; and
- (2) Provide that advertisements and offers of unpermitted commercial ocean use activities or commercial ocean recreational equipment are prima facie evidence that:
 - (A) The owner disseminated or directed dissemination of the advertisements or offers; and
 - (B) The commercial activity is operated at the location advertised or offered.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the violations contemplated by this measure are administrative violations;
- (2) Adding a definition for “administrative violation”;
- (3) Changing its effective to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2475, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2475, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Keohokalole, Rhoads, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Ichiyama, Sayama, Poepoe, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 47-24 on H.B. No. 2481

The purpose of this measure is to repeal the Time Share Commissioners of Deeds.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2481, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2481, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Rhoads, Richards, and Awa.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Awa).

Representatives Sayama, Nakashima, and Pierick.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 48-24 on H.B. No. 2298

The purpose of this measure is to:

- (1) Make it a violation to use a Hawaii geographic origin in labeling or advertising for roasted coffee, instant coffee, or ready-to-drink coffee beverages that contain less than a certain percentage of coffee by weight from that Hawaii geographic origin, phased in to a minimum of one hundred percent by July 1, 2027; and
- (2) Exempt retailers that do not package roasted coffee, instant coffee, or ready-to-drink coffee beverages from liability for the sale of roasted coffee, instant coffee, or ready-to-drink coffee beverages that use a label or advertisement in violation of the coffee labeling law.

Your Committee on Conference has amended this measure by:

- (1) Deleting the timeline that phased in the minimum percentage of coffee by weight from a Hawaii geographic origin to a minimum of one hundred percent by July 1, 2027;
- (2) Continuing the existing statutory minimum of ten percent of coffee by weight through June 30, 2027, and, beginning July 1, 2027, increasing the minimum percentage to fifty-one percent of coffee by weight when using a Hawaii geographic origin in labeling or advertising for roasted coffee, instant coffee, or ready-to-drink coffee beverages;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2298, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2298, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Richards, Rhoads, Keohokalole, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Nakashima, Gates, Kahaloe, Sayama, and Pierick.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 49-24 on H.B. No. 2020

The purpose of this measure is to broaden the definition of “renewable energy producer” that is used to determine the Board of Land and Natural Resources’ disposition of public lands to renewable energy producers in order to allow more public lands to be leased for the generation of more types of renewable energy.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that renewable energy producers or developers sell net power produced in order to meet the definition;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2020, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2020, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Inouye, Keohokalole, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Lowen, Nakashima, Cochran, Sayama, and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 50-24 on H.B. No. 2390

The purpose of this measure is to require the Public Utilities Commission to explicitly consider the effect of the State’s reliance on fossil fuels on lifecycle greenhouse gas emissions and give the Commission discretion to waive a lifecycle greenhouse gas emissions assessment for energy projects that do not involve the combustion of fuel.

Your Committee has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2390, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2390, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole, and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Nakashima, Cochran, Sayama, and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 51-24 on H.B. No. 2354

The purpose of this measure is to clarify that the Small Business Regulatory Review Board has the authority to review legislation affecting small businesses in response to requests from small business owners.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2354, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2354, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Rhoads, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Holt, Tarnas, Lamosao, Takayama, and Pierick.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Lamosao, Pierick).

Conf. Com. Rep. 52-24 on H.B. No. 2369

The purpose of this measure is to increase the maximum interest rate on Community-Based Economic Development loans to ten percent.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2369, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2369, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Kanuha, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Holt, Lamosao, Garrett, Kong, and Pierick.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Pierick).

Conf. Com. Rep. 53-24 on H.B. No. 2278

The purpose of the measure is to:

- (1) Expand the labeling requirements for macadamia nuts to labels on a consumer package that represent the origin of the raw or processed macadamia nuts as being from any place within the State, including through the company name or the use of images of the State;
- (2) Require a listing of the countries of origin of the portion of the processed macadamia nuts not grown in Hawaii that are included in the package to also be shown on the label; and
- (3) Establish a private right of action for private persons injured by a violation of the labeling requirements for macadamia nuts.

Your Committee on Conference has amended this measure by:

- (1) Inserting a preamble;
- (2) Deleting language expanding the labeling requirements to labels on a consumer package that represent the origin of the raw or processed macadamia nuts as being from any place within the State, including through the company name or the use of images of the State;
- (3) Repealing statutory language requiring the disclosure of the percentage of macadamia nuts grown in the State if a label contains language that a portion of raw or processed macadamia nuts in the package was grown in the State;
- (4) Requiring a disclosure statement if a product contains raw or processed macadamia nuts grown outside of the State;
- (5) Deleting language establishing a private right of action;
- (6) Exempting products that contain any other ingredient, except seasonings and flavorings, in addition to macadamia nuts from the labeling requirements;

- (7) Changing the effective date to January 1, 2026; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2278, H.D. 2, S.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2278, H.D. 2, S.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Richards, Keohokalole, Rhoads, DeCoite, and Awa.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Awa).

Representatives Gates, Nakashima, Kahaloa, Miyake, Nishimoto, and Pierick.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 54-24 on H.B. No. 2144

The purpose of this measure is to require the Department of Health to amend the definition of “homemade food products” in its administrative rules and adopt certain rules regarding the sale and delivery of homemade food products.

Your Committee on Conference has amended this measure by:

- (1) Changing the maximum pH level of certain foods under the definition of “homemade food products” from 4.6 to 4.2;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2144, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2144, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Keohokalole, and Kanuha.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Nakashima, Kahaloa, and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 55-24 on H.B. No. 2553

The purpose of this measure is to:

- (1) Authorize licensed pharmacists to administer vaccines to persons three years of age or older;
- (2) Authorize pharmacy interns and pharmacy technicians under the direct supervision of a licensed pharmacist to administer vaccines to persons three years of age or older, if certain requirements are met; and
- (3) Authorize licensed pharmacists to order the administration of vaccines for persons three years of age or older.

Your Committee on Conference has amended this measure by:

- (1) Clarifying mandatory training and continuing education requirements for pharmacy technicians;
- (2) Clarifying the requirements for proof of completion of required training by pharmacy interns and pharmacy technicians;
- (3) Changing the effective date to January 1, 2025; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2553, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2553, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, San Buenaventura, Rhoads, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Takenouchi, Nakashima, Tarnas, Amato, Sayama, and Souza.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 56-24 on H.B. No. 2359

The purpose of this measure is to establish the Digital Equity Grant Program to award grants to deploy digital equity projects to covered populations in the State.

Your Committee has amended this measure by:

- (1) Expanding the types of projects that may be eligible for grants to include broadband service subscription costs, wifi routers, and access points; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2359, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2359, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Aquino, Rhoads, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Todd, Nakashima, Takenouchi, Morikawa, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 57-24 on H.B. No. 1577

The purpose of this measure is to:

- (1) Authorize tow operators to charge an additional amount for overturned vehicles; and
- (2) Prohibit tow companies from directing an individual to use an on-site automated teller machine in lieu of accepting payment by credit card and debit card.

Your Committee has amended this measure by:

- (1) Increasing the maximum amount tow operators may charge for a tow to \$75 and a tow using a dolly to \$85;
- (2) Authorizing tow operators to charge a towing surcharge of no more than \$35 if the tow involves an overturned vehicle; and
- (3) Changing the effective date to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1577, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1577, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Nakashima, Kila, Onishi, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 58-24 on S.B. No. 2687

The purpose of this measure is to:

- (1) Prohibit a person from distributing, or entering into an agreement with another person to distribute, materially deceptive media during certain months of election years, with exceptions;
- (2) Establish criminal penalties for distributing materially deceptive media; and
- (3) Establish remedies for parties injured by the distribution of materially deceptive media.

Your Committee on Conference finds that the potential for deceptive media to be used during election years to manipulate public opinion, spread misinformation, and undermine the foundation of the State's democracy is cause for grave concern. Your Committee on Conference believes that preserving the authenticity of political discourse is essential to a fair and informed electorate. This measure will ensure that the State's elections remain free from the harmful influence of deceptive media.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that, subject to certain exceptions, a person is prohibited from recklessly distributing, or entering into an agreement with another person to distribute, materially deceptive media;
- (2) Clarifying that the exceptions to the prohibition against the distribution of, or entering into an agreement with another person to distribute, materially deceptive media apply to:

- (A) A broadcaster, cable operator, or direct-to-home satellite provider unless it was involved in the creation of the materially deceptive media; or
- (B) An interactive computer service, cloud service provider, or streaming service for content provided by another person or a developer or provider of any technology used in the creation of materially deceptive media, unless the interactive computer service, cloud service provider, or streaming service has knowledge that the content is deceptive and intends to deceive a resident of the State;
- (3) Defining the terms “cloud service provider”, “direct-to-home satellite provider”, and “interactive computer service”;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2687, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2687, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Onishi, La Chica, Miyake, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 59-24 on S.B. No. 3192

The purpose of this measure is to make permanent the Innovation and Commercialization Initiative Program established within the University of Hawaii.

Your Committee on Conference finds that the commercialization of viable research activities conducted at the University of Hawaii plays a critical role in the diversification of the State’s economy. This measure continues critical support for research activities at the University of Hawaii to remain competitive as a leader in economic development and workforce innovation.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3192, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3192, S.D. 1, H.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 60-24 on S.B. No. 3191

The purpose of this measure is to permanently authorize the University of Hawaii to continue to regulate conflicts of interest and other ethical issues for technology transfer activities sponsored by the University of Hawaii.

Your Committee on Conference finds that Act 38, Session Laws of Hawaii 2017, established that technology transfer activities sponsored by the University of Hawaii shall be exempt from certain requirements of the State Ethics Code. This exemption is scheduled to repeal on June 20, 2024. The University of Hawaii has adopted policies and procedures to ensure compliance with ethical standards and to avoid conflicts of interest. Accordingly, this measure allows the University of Hawaii to continue to serve as a leader in innovation and economic development by permanently authorizing the University of Hawaii to continue to operate technology transfer activities under its existing requirements.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3191, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3191, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Rhoads, and Fevella.

Representatives Perruso, Tarnas, Morikawa, Kapela, and Garcia.

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 61-24 on S.B. No. 2182

The purpose of this measure is to:

- (1) Amend the persons required to collect the Ocean Stewardship User Fee; and
- (2) Extend the sunset date of the Ocean Stewardship Special Fund to January 1, 2031.

Your Committee on Conference finds that the Ocean Stewardship User Fund provides the Department of Land and Natural Resources with moneys to conserve, restore, enhance, and manage ocean resources for the benefit of residents, visitors, and local businesses. This measure will extend the sunset date of the Ocean Stewardship Special Fund to ensure that the Department of Land and Natural Resources continues to protect and preserve the State's nearshore environment.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2182, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2182, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Wakai, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Ichiyama, Poepoe, Aiu, Garrett, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Garrett).

Conf. Com. Rep. 62-24 on S.B. No. 2532

The purpose of this measure is to:

- (1) Clarify that the definition of "dwelling", as it relates to offenses against property rights, includes multi-unit buildings and connected parking or storage areas that are restricted to residents; and
- (2) Allow the owner of a multi-unit building, an owner of an individual unit, a property manager, or an authorized representative of the condominium association to act as a complainant for the purpose of investigating and prosecuting an offense of burglary in the first degree in a multi-unit building.

Your Committee on Conference finds that certain individuals, who are neither residents nor guests of a multi-unit dwelling, have increasingly burglarized the secured areas of multi-unit dwellings, which include secured parking and storage areas. However, the investigation and prosecution of these crimes can be complicated due to the limited definition of "dwelling" under the existing law. Therefore, this measure clarifies that the areas in multi-unit buildings that are restricted to residents, such as parking and storage areas within apartment buildings and condominiums, are part of the overall dwelling to ensure that theft in these areas are properly investigated and prosecuted as burglaries.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2532, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2532, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Rhoads, McKelvey, and Fevella.
Managers on the part of the Senate.

Representatives Tarnas, Takayama, and Souza.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 63-24 on S.B. No. 2834

The purpose of this measure is to amend the Residential Landlord-Tenant Code to provide for a process to dispose of the tenant's personal property and surrender the dwelling unit to a landlord when there is a death of a tenant.

Your Committee on Conference finds that, under existing law, there is no explicit guidance for a landlord on how to retake possession of a dwelling unit in the event of a tenant's death. Consequently, landlords have been required to navigate, using their best judgment, the delicate and complex process of reconciling any unpaid rent, handling questions concerning the status of the security deposit, and disposing of the deceased tenant's personal property and belongings from the premises. Your Committee on Conference finds that by establishing a formal statutory process for landlords to resolve matters involving a deceased tenant or tenants, this measure will provide for a more orderly transition and improve outcomes for all parties involved.

Your Committee on Conference has amended this measure by inserting an effective date of November 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2834, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2834, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, McKelvey, Hashimoto, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Nakashima, Tarnas, Aiu, Tam, and Pierick.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Tam).

Conf. Com. Rep. 64-24 on S.B. No. 2600

The purpose of this measure is to authorize the use of electronic mail to deliver certain documents when purchasing a condominium.

Your Committee on Conference finds that electronic mail is a fast, convenient, and reliable method of sending and receiving documents, including documents relating to a condominium purchase. However, under existing law, certain disclosure documents required to be provided by condominium project developers to prospective purchasers must be delivered by either personal delivery, registered or certified mail, facsimile transmission, or any other way prescribed by the Real Estate Commission. Therefore, this measure modernizes existing law and provides purchasers with an efficient digital means to receive, keep, and access their condominium documents.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2600, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2600, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Richards, Fukunaga, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Sayama, Kitagawa, Tam, and Pierick.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Tam).

Conf. Com. Rep. 65-24 on S.B. No. 2575

The purpose of this measure is to prohibit the:

- (1) Mining, extraction, and removal of minerals from the seabed in all state marine waters, with certain exemptions; and
- (2) Issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committee on Conference finds that seabed mining and related activities threaten not only the State's rich and biodiverse marine ecosystems, but also ocean-dependent industries, such as commercial and recreational fishing and tourism. Your Committee on Conference therefore finds that seabed mining is inconsistent with the State's obligation to protect its waters under the Hawaii State Constitution and the public interest. This measure ensures the protection and preservation of state marine waters by prohibiting seabed mining and the extraction and removal of minerals from the seabeds in all state marine waters.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2575, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2575, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Inouye, and Rhoads.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Inouye).

Representatives Lowen, Ichiyama, Poepoe, Cochran, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 66-24 on S.B. No. 2657

The purpose of this measure is to amend the date of Makahiki Commemoration Day.

Your Committee on Conference finds that Makahiki season is the ancient Hawaiian New Year festival that honors the god Lono. As Makahiki season spans four consecutive months, designating a specific date in the Gregorian calendar should align with one of the kapu Hua days of Mōhala, Hua, or Akua of the lunar month of 'Ikuā. Therefore, this measure aligns the commemoration of Makahiki based on the traditional Hawaiian lunar calendar.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2657, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2657, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, Kanuha, and Fevella.
Managers on the part of the Senate.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 67-24 on S.B. No. 2819

The purpose of this measure is to require vehicles traveling ten miles per hour or more below the posted speed limit on a two-lane highway, behind which five vehicles are formed in a line, to pull over where possible to let the trailing vehicles proceed when passing is safe.

Your Committee on Conference finds that traffic safety and congestion has been a key frustration for residents in the State. Your Committee on Conference believes that this measure will prevent collisions, improve operational efficiency, and minimize road rage statewide by requiring slow-moving vehicles to safely pull over to allow vehicles to pass safely.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2819, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2819, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, San Buenaventura, and Richards.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Tarnas, Kahaloa, Takayama, and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 68-24 on S.B. No. 2350

The purpose of this measure is to:

- (1) Establish a separate prohibition on driving motor vehicles with noisy mufflers on public highways in high density population areas;
- (2) Establish separate fines for violations of motor scooter and motor vehicle muffler laws; and
- (3) Define "high density population areas".

Your Committee on Conference finds that while existing law prohibits vehicle owners from installing mufflers that increase the noise of their vehicle, the penalties are too minimal to deter violations. Your Committee on Conference further finds that establishing more stringent laws regarding motor vehicle and motor scooter mufflers will reduce noise, improve public health and safety, and allow residents and visitors in the State to enjoy peace and a higher quality of life.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2350, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2350, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, and Moriwaki.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Moriwaki).

Representatives Todd, Tam, Nakashima, Onishi, and Matsumoto.

Conf. Com. Rep. 69-24 on S.B. No. 3312

The purpose of this measure is to:

- (1) Adopt, establish, and designate the shaka as the official gesture of the State; and
- (2) Authorize the State Foundation on Culture and the Arts to develop a public work of art related to the shaka and its history to be displayed in a prominent location in the State.

Your Committee on Conference finds that the shaka is a key brand symbol for the State, offering influential power to build the State's economy, global brand, and resident pride. Accordingly, this measure will recognize the shaka symbol as the official gesture of the State.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3312, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3312, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Kanuha, and Wakai.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tam, Tarnas, Martinez, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 70-24 on S.B. No. 2753

The purpose of this measure is to:

- (1) Clarify that no state or county building code shall prohibit the use of a substitute refrigerant allowed by the United States Environmental Protection Agency if the applicable equipment is listed and installed in compliance with the latest safety standards; and
- (2) Require the State Building Code Council to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law when it adopts, amends, or updates the Hawaii State Building Codes.

Your Committee on Conference finds that the American Innovation and Manufacturing Act of 2020 mandates an eighty-five percent phasedown in hydrofluorocarbon refrigerants nationwide. Your Committee on Conference further finds that updates to the State Building Code are necessary to avoid marketplace disruptions as manufacturers transition to hydrofluorocarbon substitutes. This measure ensures federal compliance under the State Building Code.

Your Committee on Conference also finds that requiring the State Building Code Council, when it adopts, amends, or updates the Hawaii State Building Codes, to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law could create problems insofar as it would require the counties to apply standards which have not yet been adopted by the International Building Code. Realizing the importance of this measure and the two thousand jobs that could be lost if this measure does not pass, your Committee on Conference has chosen to delete this language from this measure despite its noble goals. Your Committee on Conference encourages the counties, who can establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law, to pursue this at the county level.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the State Building Code Council to establish codes and standards that are consistent with the goal of reducing greenhouse gas emissions associated with hydrofluorocarbons and not in conflict with federal law when it adopts, amends, or updates the Hawaii State Building Codes;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2753, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2753, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Gabbard, Rhoads, Elefante, and Awa.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Awa).

Representatives Ichiyama, Lowen, Nakashima, M. Mizuno, and Ward.
Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Nakashima, Ward).

Conf. Com. Rep. 71-24 on S.B. No. 2512

The purpose of this measure is to establish notice and reporting requirements for the expenditure or use of public resources by the Governor, pursuant to the Governor's emergency powers.

Your Committee on Conference finds that, in the event of a declared disaster, it is necessary for the Governor to assume certain emergency powers. Your Committee on Conference believes that this measure will ensure the transparency of the Governor's actions during a declared disaster.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2512, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2512, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kanuha, Rhoads, and Elefante.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Ichiyama, Tarnas, Poepoe, Garrett, Miyake, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Miyake).

Conf. Com. Rep. 72-24 on S.B. No. 2132

The purpose of this measure is to:

- (1) Amend the deadline related to the repair of conditions that constitute health or safety violations; and
- (2) Increase the amount deducted from a tenant's rent for the tenant's actual expenditures to correct health or safety violations and defective conditions.

Your Committee on Conference finds that when a landlord fails to commence repairs after receiving notice of certain health or safety violations or defective conditions on the leased premises, existing law authorizes the tenant to deduct from their rent not more than \$500 as reimbursement for any actual expenditures made to cure the condition. However, this amount is often far below the actual costs and expenses required to cure the condition, forcing tenants, rather than landlords, to pay out of their own pockets to return the property to a habitable condition, which the landlord is required to provide. Your Committee on Conference finds that by increasing the amount that may be deducted from the tenant's rent to not more than \$1,000 or one month's rent, whichever is greater, this measure will encourage the prompt maintenance of the property by landlords and safeguard the well-being of tenants.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of November 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2132, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2132, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Richards, Hashimoto, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 73-24 on S.B. No. 2342

The purpose of this measure is to:

- (1) Amend the penalties for violations of certain traffic laws and required motor vehicle insurance minimums;
- (2) Establish primary and optional coverage requirements for U-drive motor vehicle insurance policies;
- (3) Establish disclosure requirements for U-drive motor vehicle insurance policies;
- (4) Amend the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period; and
- (5) Require the Insurance Commissioner to solicit rate filings from motor vehicle insurers.

Your Committee on Conference finds that traffic fatalities, injuries, and violations committed by repeat offenders have increased in the State. This measure amends the penalties for repeated driving without motor vehicle liability insurance to deter repeat offenders and increases required motor vehicle insurance minimums to provide greater coverage to drivers.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have amended penalties for repeated traffic violations, reckless driving violations, and excessive speeding violations;
- (2) Increasing penalties for repeatedly driving without motor vehicle liability insurance to \$2,000;
- (3) Clarifying required motor vehicle policy coverage minimums, effective January 1, 2026;
- (4) Deleting all language regarding U-drive motor vehicle insurance policies;
- (5) Deleting language that would have amended the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period;
- (6) Clarifying the required coverage for shared cars that are made available through a peer-to-peer car-sharing program during the car-sharing period;
- (7) Making conforming amendments;
- (8) Amending section 1 to reflect its amended purpose;
- (9) Inserting an effective date of July 1, 2024; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2342, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2342, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Rhoads, and Keohokalole.
Managers on the part of the Senate.

Conf. Com. Rep. 74-24 on S.B. No. 3157

The purpose of this measure is to expand the disposition of public land leases through direct negotiation to include commercial and industrial purposes.

Your Committee on Conference finds that the public auction process used for the disposition of public lands discourages potential lessees. Consequently, properties have remained vacant, generating no income and serving no public benefit, while in some cases incurring significant management costs for the Department of Land and Natural Resources. This measure will facilitate the productive use of public lands by authorizing the disposition of public land leases through direct negotiation for commercial and industrial purposes.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3157, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3157, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. 75-24 on S.B. No. 2731

The purpose of this measure is to authorize the issuance of special number plates to honor veterans of the Iraq and Afghanistan wars.

Your Committee on Conference finds that while special number plates are available for combat veterans of certain wars and conflicts, veterans of the wars in Iraq and Afghanistan are not included. Therefore, this measure will create license plates to honor the veterans of the Iraq and Afghanistan conflicts.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2731, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2731, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Lee, Shimabukuro, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Tam, Hashem, Chun, Martinez, and Alcos.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 76-24 on S.B. No. 2983

The purpose of this measure is to:

- (1) Beginning January 1, 2026, authorize the Department of the Attorney General to regulate charitable fundraising platforms and platform charities;
- (2) Include provisions relating to the misuse of funds; and
- (3) Impose vicarious liability upon a platform charity for a charitable fundraising platform's misuse of funds, and vice versa.

Your Committee on Conference finds that the State needs to improve and expand enforcement of charitable fundraising activities, including regulating charitable fundraising on internet platforms. This measure will ensure the prevention of fraudulent and predatory charitable fundraising behavior.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that requires charitable fundraising platforms and platform charities to be subject to filing an annual report and annual renewal fees;
- (2) Deleting language that would have exempted a charitable fundraising platform or platform charity from certain restrictions on distributing funds if certain agencies do not publish an electronic list of recipient charitable organizations or other charitable organizations in good standing;
- (3) Inserting an effective date of January 1, 2026; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2983, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2983, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keohokalole, Rhoads, and Elefante.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Morikawa, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 77-24 on S.B. No. 2504

The purpose of this measure is to:

- (1) Repeal part II of Act 66, Session Laws of Hawaii 2023, which requires the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and related aspects of the State's hydrogen energy industry; and
- (2) Repeal the appropriation to develop the Hawaii Pacific Hydrogen Hub.

Your Committee on Conference finds that part II of Act 66, Session Laws of Hawaii 2023, was enacted to support the State's pursuit of federal funding for the development of a Hawaii Pacific Hydrogen Hub. Your Committee on Conference further finds that although the Hawaii Pacific Hydrogen Hub proposal was not selected, the Hawaii State Energy Office has gained considerable knowledge that could accelerate the future development of green hydrogen use in the State and that two projects included in the proposal are still moving forward. As the State's proposal was not selected, this housekeeping measure repeals part II of Act 66, Session Laws of Hawaii 2023, and the appropriation to develop the Hawaii Pacific Hydrogen Hub, as they are no longer necessary.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2504, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2504, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Moriwaki, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Perruso, Yamashita, Garrett, Lamosao, and Ward.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 78-24 on S.B. No. 2289

The purpose of this measure is to require the Department of Health to include in its annual report regarding Kalaupapa Settlement:

- (1) Details and updated information, as available, regarding the permanent transfer of the powers and duties of the Department and any other state agencies over Kalaupapa Settlement to other qualified governmental or qualified nongovernmental entities; and
- (2) Details of the Department's engagement efforts with community stakeholders.

Your Committee on Conference finds that Kalaupapa, within Kalawao County on the island of Molokai, holds great significance in the State's history, and that under existing law, Kalaupapa Settlement is under the jurisdiction and control of the Department of Health. Your Committee on Conference further finds that as the number of patients residing in Kalaupapa declines and the Department of Health prepares for the eventual transfer of jurisdiction over Kalawao County to another government agency, it is imperative for the Legislature to remain informed and updated regarding plans for the future transfer. This measure will keep the Legislature informed of this important transition by including details and updated information regarding the permanent transfer of Kalaupapa Settlement in the Department of Health's annual report to the Legislature.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the immediate addition of certain community organizations to the executive transition team;
- (2) Making it effective upon its approval and inserting a sunset date of the first June 30 after the Revisor of Statutes receives a written gubernatorial proclamation that the transfer of all of the powers and duties of the Department of Health over Kalaupapa Settlement is complete; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2289, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2289, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, DeCoite, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Poepoe, Tarnas, Chun, Ichiyama, and Souza.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Tarnas, Souza).

Conf. Com. Rep. 79-24 on S.B. No. 2537

The purpose of this measure is to clarify that the Chief Energy Officer is responsible for supporting the renewable portfolio standards and reporting on certain energy matters.

Your Committee on Conference finds that the purpose of Act 122, Session Laws of Hawaii 2019 (Act 122), was to transfer the duties and responsibilities of the State Energy Resources Coordinator, the functions of the Renewable Energy Facilitator, and the then existing State Energy Office to the newly established Hawaii State Energy Office and Chief Energy Officer. Your Committee on Conference further finds that Act 122 did not make conforming amendments to certain sections of existing laws pertaining to the reporting of certain energy matters to the Legislature. Accordingly, this measure clarifies these reporting requirements.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2537, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2537, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Wakai, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Cochran, Garrett, Kila, and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 80-24 on S.B. No. 2133

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation to issue bonds for housing project infrastructure and finance the development of regional state infrastructure projects;
- (2) Exempt bonds issued by the Hawaii Housing Finance and Development Corporation for improvements by assessments, and the interest thereon, from certain taxes, with exceptions;
- (3) Include proceeds from bonds issued for regional state infrastructure projects as a source of revenue for regional state infrastructure subaccounts; and
- (4) Authorize regional state infrastructure subaccount revenues to be used to repay regional state infrastructure project bond holders.

Your Committee on Conference finds that the development of additional housing inventory often requires updates to aging infrastructure needed to accommodate the new units. The cost of updating infrastructure presents a major barrier to the development of housing projects, with the cost often falling on the shoulders of the developers, which ultimately leads to the costs being passed down to the project's residents. Therefore, this measure will facilitate the development of infrastructure required to support new housing projects urgently needed across the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to amend section 201H-191.5(d), Hawaii Revised Statutes, to specify that the cost of providing regional infrastructure improvements may be assessed against housing and mixed-use transit-oriented development projects specially benefiting from the improvements;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2133, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2133, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Hashimoto, and Kanuha.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Kanuha).

Representatives Evslin, Aiu, Kitagawa, and Matsumoto.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 81-24 on S.B. No. 1258

The purpose of this measure is to require the Department of Land and Natural Resources to develop and implement an improved management system for the Kaena Point State Park, Makua and Keawaula sections.

Your Committee on Conference finds that the Makua and Keawaula sections of the Kaena Point State Park are exceptionally valuable to the Native Hawaiian community and are of cultural and historical significance. However, due to irresponsible recreational uses and the accumulation of waste, the Makua and Keawaula sections were closed to overnight access. This measure will ensure that the Makua and Keawaula sections are reopened with an improved management system that encompasses Hawaiian management values in balancing public use with the preservation of aina, wildlife, and cultural resources.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1258, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1258, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Shimabukuro, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Ichiyama, Kila, Poepoe, and Souza.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 82-24 on S.B. No. 2974

The purpose of this measure is to:

- (1) Establish a Business Revitalization Task Force within the Department of Business, Economic Development, and Tourism to identify methods to improve Hawaii's general economic competitiveness and business climate, including the mitigation of regulatory and tax burdens; and
- (2) Require the Business Revitalization Task Force to submit a report to the Legislature.

Your Committee on Conference finds that the State ranks below other states in new business formations, early survival rates for startups, self-employment, and business climate. This measure establishes a task force to collaboratively and comprehensively collect ideas from stakeholders to promote economic growth in the State and propose solutions to improve the State's business economy.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the Chair of the House of Representatives Standing Committee with primary jurisdiction over economic development and the Chair of the Senate Standing Committee with primary jurisdiction over economic development may invite one representative from certain industries to serve as members of the task force, including one representative from the Chamber of Commerce Hawaii;
- (2) Deleting language that would have allowed certain task force members to be reimbursed for expenses, including travel expenses;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2974, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2974, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Wakai, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Holt, Lamosao, Kong, La Chica, and Pierick.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Kong).

Conf. Com. Rep. 83-24 on S.B. No. 2919

The purpose of this measure is to:

- (1) Clarify the counties' authority to regulate the time, place, manner, and duration in which uses of land and structures may take place;
- (2) Allow counties to enact zoning ordinances to amortize or phase out transient vacation rental units in an area of any zoning classification; and
- (3) Beginning January 1, 2025, expand the scope of the transient accommodations tax law to include certain shelters and vehicles with sleeping accommodations.

Your Committee on Conference finds that despite attempts made by certain counties to regulate short-term transient accommodations and enact ordinances pursuant to their home rule authority relating to zoning, transient accommodations in residential-zoned neighborhoods have been permitted to continue due to judicial opinions that have interpreted their status as a legal, nonconforming use that has been grandfathered in by statute. Therefore, this measure reinstates and supports the home rule authority that was intended for the counties relating to zoning by authorizing the counties to phase out or amortize transient accommodation uses by zoning ordinance.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have prohibited time, place, manner, or durational zoning regulations from being deemed to create different types of land uses or structures;
- (2) Deleting language that would have authorized transient vacation rental units to be amortized or phased out in an area of any zoning classification and inserting language clarifying that uses that include the furnishing or offering of transient accommodations shall not be considered residential uses or agricultural uses and may be phased out or amortized in any zoning district by county zoning regulations;
- (3) Inserting language authorizing a county zoning ordinance to provide that transient accommodations may be furnished to a transient for a period of less than one hundred eighty consecutive days;
- (4) Deleting language that would have defined the term "transient vacation rental unit" and inserting a definition of "transient accommodations" to have the same meaning as defined under section 237D-1, Hawaii Revised Statutes;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2919, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2919, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, 1 (Wakai).

Representatives Evslin, Quinlan, Aiu, Kila, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 84-24 on S.B. No. 2079

The purpose of this measure is to allow the State of Hawaii Plant and Animal Declaration Form to be distributed, completed, and transmitted electronically.

Your Committee on Conference finds that the Hawaii Plant and Animal Declaration Form (Declaration Form) helps prevent the importation of harmful pests into the State. Your Committee on Conference recognizes that allowing individuals, passengers, and crew of any flight or cruise that enters the State to submit an electronic version of the Declaration Form would increase compliance and more accurate reporting of the importation of harmful pests into the State. This measure clarifies that the Hawaii Plant and Animal Declaration Form may be distributed, completed, and transmitted electronically, thereby facilitating the protection of Hawaii's unique environment, agriculture, and communities.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2079, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2079, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, DeCoite, and Wakai.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Kahaloa, Aiu, and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 85-24 on S.B. No. 1511

The purpose of this measure is to:

- (1) Clarify the purpose of the Research Corporation of the University of Hawaii and that its undertakings shall be limited to acts that are reasonably necessary to carry out its purpose;
- (2) Repeal the requirement that the University of Hawaii contract with the Research Corporation when the University determines that other various agencies cannot more effectively or efficiently accomplish certain research and training activities;
- (3) Grandfather existing Research Corporation contracts and require new contracts be subject to new limitations;
- (4) Limit the scope of the special account the Research Corporation is authorized to establish;
- (5) Require revolving accounts to follow University of Hawaii Administrative Procedure 12.204; and
- (6) Limit internal service orders and revolving accounts of the Research Corporation that use University intramural funds to certain projects and require biannual reports to the Legislature.

Your Committee on Conference finds that the Research Corporation of the University of Hawaii (Research Corporation) was established in 1965 for the purposes of promoting, encouraging, initiating, developing, and conducting scientific research and investigation in all branches of learning, which is then disseminated to the public. To achieve its statutory mandate, the Legislature at the time provided the Research Corporation with flexibility in certain operations to promote cooperative research projects with various firms and stakeholders. However, the Research Corporation has gradually expanded its undertakings beyond its original mandate, raising concerns that the Research Corporation has entered projects and roles outside of its established purpose. Therefore, this measure ensures greater accountability and transparency of the Research Corporation of the University of Hawaii and streamlines its purpose to align with its original purpose and intent.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that funds appropriated by the Legislature may be expanded to contract with the Research Corporation to be used for promoting and developing the scientific and commercial value of inventions, discoveries, and processes;

- (2) Clarifying that the University of Hawaii shall notify the exclusive representative of the appropriate bargaining unit to review conformance of positions that are planned to be hired through the Research Corporation;
- (3) Clarifying that, for each civil service employee that will be supplanted, the Research Corporation shall provide a list of the programs affected in its next report to the Legislature;
- (4) Specifying that persons being educated or trained shall be engaged in the conduct of research pursuant to a grant, contract, or other authorized funded agreement;
- (5) Inserting language requiring the Research Corporation to promote and develop the scientific and commercial value of inventions, discoveries, and processes;
- (6) Clarifying that the Research Corporation shall assist in disseminating knowledge through the publication of research findings;
- (7) Specifying that the Research Corporation may enter into and perform contracts, leases, cooperative agreements, or other transactions when the Board of Directors determines necessity in the conduct of the Research Corporation's business pursuant to its statutory purpose;
- (8) Repealing language that authorized the Research Corporation to receive awards from any agency or instrumentality of the United States, a foreign nation, a state, a territory, or a possession, or from any political subdivision thereof;
- (9) Clarifying that no gift to the Research Corporation shall be accepted unless its Board of Directors determines that the gift is beneficial to the Research Corporation's statutory purpose;
- (10) Clarifying that the Research Corporation may also receive devises or bequests, in addition to grants or gifts, on behalf of the University of Hawaii or any other agency of the State whenever the donor or grantor determines that the University or any other state agency cannot accomplish the purpose of the gifts, grants, devises, or bequests;
- (11) Clarifying that the Research Corporation may establish a special account for purposes relating to research, training, or the promotion or development of the scientific and commercial value of inventions, discoveries, and processes;
- (12) Clarifying that the Research Corporation shall follow University of Hawaii Administrative Procedure, AP. 12.204, relating to the guidelines and procedures for revolving fund service orders from the University of Hawaii to the Research Corporation;
- (13) Inserting an effective date of July 1, 2024; and
- (14) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1511, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1511, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Kanuha, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Yamashita, Kitagawa, Nishimoto, and Garcia.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 86-24 on S.B. No. 2337

The purpose of this measure is to expand the counties' authorization to exercise the same powers as the Hawaii Housing Finance and Development Corporation for purposes of developing, constructing, financing, refinancing, or providing low- and moderate-income housing projects and mixed-use developments.

Your Committee on Conference finds that, under existing law, the Hawaii Housing Finance and Development Corporation has the authority to plan, develop, construct, and finance housing projects, including mixed-use developments. Your Committee on Conference further finds that the counties are granted the same authority and powers, except for the ability to use affordable housing bonds to develop mixed-use developments. Because the counties also share a burden in promoting transit-oriented development, urban revitalization, and the conversion of properties to residential space, this measure will enable the counties to develop and construct mixed-use developments.

Your Committee on Conference has amended this measure by:

- (1) Inserting language requiring that county projects prioritize walkability to the extent practicable;
- (2) Making it effective upon its approval;
- (3) Inserting a sunset date of June 30, 2028; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2337, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2337, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Aquino, and Hashimoto.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Evslin, Aiu, Morikawa, Onishi, and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 87-24 on S.B. No. 3364

The purpose of this measure is to:

- (1) Require the Hawaii Tourism Authority to develop destination management action plans for each county and to perform specific actions in each plan;
- (2) Expand the powers and duties of the Hawaii Tourism Authority;
- (3) Repeal the exemption of the Hawaii Tourism Authority from administrative supervision of boards and commissions;
- (4) Rename the Tourism Marketing Plan as the Strategic Tourism Management Plan; and
- (5) Require the Strategic Tourism Management Plan to include statewide destination management and regenerative tourism efforts and programs.

Your Committee on Conference finds that there is a need for improved management and coordination between the State and private and public stakeholders in the tourism industry to address the impacts of tourism. Your Committee on Conference further finds that the three-year, community-led destination management action plans have been a key initiative through which communities across the State have articulated their needs, desires, and visions for tourism in their communities, on their terms. This measure amends the powers and duties of the Hawaii Tourism Authority, statutorily establishes the destination management action plans, and aligns statutory mandates for the Hawaii Tourism Authority with the work they have already been doing to advance destination management and regenerative tourism.

Your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2024; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3364, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3364, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Wakai, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Quinlan, Tarnas, Morikawa, Lamosao, Miyake, and Pierick.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Lamosao, Tarnas).

Conf. Com. Rep. 88-24 on S.B. No. 2659

The purpose of this measure is to:

- (1) Incorporate a regenerative framework into the Hawaii State Planning Act by expanding objectives and policies for the visitor industry;
- (2) Require periodic updates to the Tourism Functional Plan;
- (3) Specify elements to be included in the Tourism Functional Plan; and
- (4) Require an update to the Tourism Functional Plan to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025.

Your Committee on Conference finds that tourism has major environmental impacts, such as increased biodiversity loss, landscape impact, and waste and water scarcity. Regenerative tourism represents a sustainable way of traveling and discovering new places that also supports residents' preferences for managing tourism development. This measure incorporates a regenerative tourism framework into state planning objectives and policies to help maintain a high-quality visitor experience while counterbalancing many of the social, economic, and environmental impacts of tourism.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2659, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2659, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Inouye, Wakai, and Fevella.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Inouye).

Representatives Quinlan, Lamosao, Holt, La Chica, and Pierick.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 89-24 on S.B. No. 572

The purpose of this measure is to:

- (1) Authorize and specify conditions under which the Department of Agriculture may declare a biosecurity emergency, during which the Department and Governor may take certain actions to prevent the establishment or spread of pests and prohibited or restricted organisms; and
- (2) Broaden the objectives and general actions of the State's Biosecurity Program.

Your Committee on Conference finds that the entry and establishment of new invasive species in the State can lead to significant economic and environmental loss. Your Committee on Conference recognizes that there is a high likelihood of a new, devastating pest or disease entering the State, given the increase and expansion of global trade and travel. Your Committee on Conference believes that authorizing the Department of Agriculture to declare a biosecurity emergency, with the Governor's approval, would help the Department acquire the necessary resources to rapidly respond to new pest introductions, thereby protecting the economy and environment of the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that exempts any vessel that has anti-fouling hull coating and does not discharge ballast water, uses freshwater for ballasting, or is equipped with ultraviolet filtration systems for ballast water, from being requisitioned or taken control of by the Governor during a declared biosecurity emergency;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 572, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 572, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, DeCoite, and Rhoads.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Tarnas, Kahaloa, Takayama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Souza).

Conf. Com. Rep. 90-24 on S.B. No. 2413

The purpose of this measure is to require the Board of Agriculture to submit a report to the Legislature before the Regular Session of 2025 on:

- (1) The percentages of agricultural lands being leased by the State that are suitable for farming and actively being used for farming purposes; and
- (2) Certain dollar amounts relating to lease transfers between lessees.

Your Committee on Conference finds that accurate data on public agricultural lands, especially those that are leased, would help optimize public and private investments in agriculture to meet the State's local food production and agricultural sustainability goals. This measure ensures that public land is used prudently for the benefit of its residents by identifying public, productive agricultural lands and protecting their use under the state and county land use regulatory systems.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2413, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2413, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, DeCoite, Rhoads, Richards, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Gates, Kahaloa, Cochran, and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 91-24 on S.B. No. 3070

The purpose of this measure is to gradually reduce the Employees' Retirement System's maximum funding period to amortize the total unfunded accrued liability from thirty years to twenty years.

Your Committee on Conference finds that due to the Employees' Retirement System's (System) long-term investment performance, the funding period in which the System is expected to be fully funded has steadily decreased from the forecasted thirty years in fiscal year 2015-2016 to twenty-four years in fiscal year 2021-2022. Therefore, this measure will reduce the maximum projected funding period to amortize the total unfunded accrued liability of the System from thirty years to twenty years, which would lower future costs, align the System with new Actuarial Standards of Practice, and allow the State to receive favorable ratings from bond rating agencies.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3070, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3070, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Moriwaki, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, Tam, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 92-24 on S.B. No. 2526

The purpose of this measure is to extend the Technology Services Consolidation Working Group's dissolution date and require the Working Group to assist the Office of Enterprise Technology Services in working with certain state agencies to inventory and categorize the business criticality of each major state information technology system or data set and determine the appropriate data center or hosting facility requirements.

Your Committee on Conference finds that government data systems provide critical government services to citizens of the State. Your Committee on conference further finds that the benefits of a resilient data center or hosting facility extend far beyond the avoidance of downtime, as it will foster greater public trust in government operations, as citizens can be confident that their data is secure and accessible even in the face of unforeseen events. Moreover, it will enhance the State's ability to respond to emergencies and natural disasters, ensuring that critical information remains available when it is needed most. Therefore, this measure will ensure that all consolidated state information technology data are housed in a facility with the resiliency to perform maintenance or upgrades without downtime and the redundancy and contingencies for power outages.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2526, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2526, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, McKelvey, Moriwaki, and Fevella.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Todd, Kitagawa, Chun, Kapela, Morikawa, and Garcia.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 93-24 on S.B. No. 2516

The purpose of this measure is to:

- (1) Clarify that centralized computer information management and processing services shall be provided through the Chief Information Officer; and
- (2) Specify that the Chief Information Officer shall be appointed by and have a salary established by the Governor and report to the Comptroller.

Your Committee on Conference finds that although the Office of Enterprise Technology Services is established within the Department of Accounting and General Services, existing law requires the Chief Information Officer who heads the Office to report to the Governor, rather than the Comptroller. Your Committee on Conference further finds that this glitch in the reporting structure was inadvertently created when the position of the Chief Information Officer was transferred from the Office of the Governor to the Department of Accounting and General Services. This measure corrects this structural deficiency.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2516, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2516, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, McKelvey, Moriwaki, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Nakashima, Kitagawa, Tam, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 94-24 on S.B. No. 2287

The purpose of this measure is to:

- (1) Require the Information Technology Steering Committee to assist the Chief Information Officer in developing a plan to enhance and increase usage of the hawaii.gov mobile application, the State's mobile internet application; and
- (2) Require the Chief Information Officer's annual report of the Office of Enterprise Technology Services to include updates on the hawaii.gov mobile application.

Your Committee on Conference finds that the coronavirus disease 2019 pandemic demonstrated the importance of ensuring that state services are accessible to individuals using mobile communication devices. This measure will facilitate increased usage of "hawaii.gov mobile", the mobile application developed by the State for the public to access its website, by residents and visitors.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2287, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2287, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Shimabukuro, and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Perruso, Kitagawa, Garrett, Kila, and Garcia.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Garrett).

Conf. Com. Rep. 95-24 on S.B. No. 2536

The purpose of this measure is to amend the Hawaii Public Procurement Code by:

- (1) Establishing a new accounting services procurement preference for certain Hawaii accounting service businesses; and
- (2) Clarifying that the existing reciprocity procurement preference includes offerors under the provisions governing competitive sealed bids and competitive sealed proposals.

Your Committee on Conference finds that the State can encourage the growth and sustainability of businesses that employ Hawaii residents by providing those businesses with a competitive edge in government service contracts through the establishment of procurement preferences. The procurement preference established by this measure incentivizes public accounting firms with offices in the State to increase career opportunities for residents to provide accounting services to the government, while the expansion of the reciprocity exemption would further support fair competition with other public accounting firms that operate out of low-cost jurisdictions and do not have offices in the State. Your Committee on Conference respectfully requests that any departments affected by this measure communicate to the Legislature on the impact of this measure on the State.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Inserting an effective date of July 1, 2024, and a repeal date of July 1, 2028; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2536, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2536, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Shimabukuro, and Fevella.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Nakashima, Garrett, Kitagawa, Lamosao, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 2 (Kitagawa, Nakashima).

Conf. Com. Rep. 96-24 on H.B. No. 1902

The purpose of this measure is to:

- (1) Clarify that the Governor's and mayors' emergency management powers must be consistent with the Hawaii State Constitution;
- (2) Clarify the scope of the comprehensive emergency management plan;
- (3) Clarify the powers of the Governor and mayors to extend or terminate a state of emergency or local state of emergency, respectively;
- (4) Shorten the duration of price control periods from ninety-six hours to seventy-two hours in a state of emergency or local state of emergency; and
- (5) Amend emergency management law regarding tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a state of emergency or local state of emergency.

Your Committee on Conference has amended this measure by:

- (1) Reverting to the H.D. 1, thereby deleting part II, pertaining to tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a state of emergency or local state of emergency;
- (2) Changing its effective date to upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1902, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1902, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Keohokalole, Rhoads, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Ichiyama, Tarnas, Poepoe, Chun, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Chun).

Conf. Com. Rep. 97-24 on H.B. No. 2453

The purpose of this measure is to authorize the Governor, or a state official with authorization from the Governor, to transfer federal capitalization grant monies between the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Health, no later than twenty days prior to the convening of each Regular Session, to submit to the Legislature a report on:
 - (A) All transfers between the Water Pollution Control Revolving Fund and Drinking Water Treatment Revolving Loan Fund; and
 - (B) Whether the transfers comply with federal law; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2453, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2453, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Lee, and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Ichiyama, Lowen, Poepoe, M. Mizuno, and Ward.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (M. Mizuno, Ward).

Conf. Com. Rep. 98-24 on H.B. No. 2467

The purpose of this measure is to repeal the sunset provision of Act 222, Session Laws of Hawaii 2021, to permanently allow the Board of Land and Natural Resources to approve rent credits in the form of rental reductions or waivers for leases that require substantial demolition costs or infrastructure improvement costs for the lessee to utilize the premises.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2467, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2467, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Aquino, Elefante, and Fevella.

Managers on the part of the Senate.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 100-24 on H.B. No. 2471

The purpose of this measure is to establish a statutory framework for inspections of public land leases or licenses by the Department of Land and Natural Resources, including by third-party inspectors contracted by the Department.

Your Committee on Conference has amended this measure by:

- (1) Narrowing the types of public land that may be inspected by the Department of Land and Natural Resources to public land subject to a lease or license under chapter 171, Hawaii Revised Statutes;
- (2) Narrowing the subject of authorized inspections by third-party inspectors to structures or buildings, rather than all public land subject to a lease or license under chapter 171, Hawaii Revised Statutes;
- (3) Narrowing the type of corrective action the Department of Land and Natural Resources may take based on the third-party inspectors' reports to corrective action regarding structures or buildings, rather than leases, licenses, or land;
- (4) Incorporating its provisions by operation of law as a provision of all leases and licenses entered into by the Board of Land and Natural Resources after, rather than as of, its effective date; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2471, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2471, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Rhoads, Aquino, Elefante, and Fevella.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Ichiyama, Tarnas, Poepoe, Takayama, and Souza.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 101-24 on H.B. No. 2499

The purpose of this measure is to:

- (1) Designate the Dean of the College of Engineering at the University of Hawaii as the Chief Procurement Officer for the University; and
- (2) Extend the sunset date for the designation of the University of Hawaii Chief Procurement Officer to June 30, 2027.

Your Committee on Conference has amended this measure by:

- (1) Designating the University of Hawaii Chief Financial Officer, rather than the Dean of the College of Engineering at the University of Hawaii, as the Chief Procurement Officer for the University;

- (2) Extending the sunset date for the designation of the Chief Financial Officer as the Chief Procurement Officer to June 30, 2028;
- (3) Requiring the University of Hawaii to:
 - (A) Provide the Chief Financial Officer a six-month transition period to hire and transfer the necessary procurement staff; and
 - (B) Complete its reorganization to place the procurement staff under the control of the Chief Financial Officer by July 1, 2025;
- (4) Changing the effective date to June 29, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2499, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2499, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, McKelvey, Moriwaki, Hashimoto, and Fevella.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Matayoshi, Nakashima, Garrett, Kitagawa, Lamosao, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Nakashima).

Conf. Com. Rep. 102-24 on H.B. No. 1832

The purpose of this measure is to:

- (1) Allow a state department, division, or agency, rather than the Department of Human Resources Development, to conduct a minimum qualification review of applicants for vacant positions within the department, division, or agency; and
- (2) Require the Department of Human Resources Development to provide state departments, divisions, and agencies the applications received for vacancies under certain circumstances.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have authorized a state department, division, or agency to consider alternative qualifications and substitutions in place of minimum qualifications; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1832, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1832, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, McKelvey, Moriwaki, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, Sayama, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 103-24 on H.B. No. 2715

The purpose of this measure is to authorize the issuance of special number plates to commemorate Malama Puuloa.

Your Committee on Conference has amended this measure by:

- (1) Changing its effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2715, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2715, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Inouye, and Kanuha.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kanuha).

Representatives Tam, Chun, Martinez, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 104-24 on H.B. No. 2484

The purpose of this measure is to conform Hawaii income and estate and generation-skipping transfer tax laws to the Internal Revenue Code as of December 31, 2023.

Your Committee on Conference has amended this measure by changing its effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2484, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2484, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanuha, Hashimoto, and Fevella.

Managers on the part of the Senate.

Representatives Kitagawa, Lamosao, Yamashita, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 105-24 on H.B. No. 1760

The purpose of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation, or a county pursuant to a cooperative agreement, to establish a bond volume cap recycling program;
- (2) Authorize the Hawaii Housing Finance and Development Corporation, subject to legislative approval, to secure a line of credit or other instrument of indebtedness to meet federal requirements for the bond volume cap recycling program;
- (3) Require a county or issuer to submit a report to the Department of Budget and Finance and Hawaii Housing Finance and Development Corporation on the status or use of its portion of the volume cap that is being recycled;
- (4) Establish a bond volume cap recycling program subaccount in the Rental Housing Revolving Fund; and
- (5) Provide legislative authorization for the Hawaii Housing Finance and Development Corporation to secure a line of credit or other instrument of indebtedness during the 2023-2025 fiscal biennium not to exceed \$150,000,000.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have codified in the Hawaii Revised Statutes a statutory cap of \$150,000,000 for the total amount of the line of credit or other indebtedness that the Hawaii Housing Finance and Development Corporation may secure;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1760, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1760, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hashimoto, Moriwaki, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Evslin, Aiu, Garrett, Miyake, Onishi, and Matsumoto.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 106-24 on H.B. No. 2563

The purpose of this measure is to:

- (1) Require the Hawaii Tourism Authority to study the feasibility of, and create a plan for, developing and publishing a mobile application that includes all online application processes and fee collections for reservations to conduct regulated recreational and commercial activities;
- (2) Exempt the Hawaii Convention Center from certain requirements regarding concessions on public property;
- (3) Authorize the Hawaii Tourism Authority to sell or lease the naming rights of the Hawaii Convention Center; and
- (4) Facilitate advertising and marketing in or on the Hawaii Convention Center.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Hawaii Tourism Authority to study the feasibility of, and create a plan for, developing and publishing the mobile application; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2563, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2563, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Wakai, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Quinlan, Kitagawa, Garrett, La Chica, and Pierick.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Garrett).

Conf. Com. Rep. 107-24 on H.B. No. 2192

The purpose of this measure is to allow the Director of Commerce and Consumer Affairs to appoint a limited owner of a cemetery for which no owner can be found and authorize the limited owner to file complaints for wrongful acts and engage in security and perpetual care activities for the cemetery.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2192, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2192, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Fukunaga, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Amato, Kitagawa, Chun, Takayama, and Pierick.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 108-24 on H.B. No. 2546

The purpose of this measure is to:

- (1) Allow for the use of fine meshed nets for the protection of plants against invasive species; and
- (2) Require the Department of Agriculture to establish a registration program for purchasers of fine meshed nets in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting a preamble related to the use of fine meshed nets for the protection of plants against invasive species, such as the coconut rhinoceros beetle;
- (2) Specifying the manner in which fine meshed nets shall be applied;
- (3) Deleting language that would have required the Department of Agriculture to establish a registration program;
- (4) Requiring the Department of Agriculture to adopt certain rules related to preventing non-targeted entanglement and other prohibited uses;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2546, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2546, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, Rhoads, and Richards.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Kahaloa, Cochran, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 109-24 on H.B. No. 2339

The purpose of this measure is to:

- (1) Delete the term "enhanced" in reference to 911 services to allow funding of all 911 technologies; and
- (2) Allow the 911 board to employ staff, in addition to the Executive Director, who are exempt from civil service and collective bargaining laws.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2339, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2339, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Moriwaki, Keohokalole, Wakai, and Awa.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

Representatives Tarnas, Kitagawa, Cochran, Morikawa, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 110-24 on H.B. No. 1836

The purpose of this measure is to allow registered pharmacists, during declared states of emergency, to refill prescriptions for persons directly affected by the declared emergency for up to a thirty-day supply without the practitioner's authorization if the practitioner is unavailable to authorize the refill and if, in the pharmacist's professional judgment, failure to refill the prescription might interrupt the patient's ongoing care and have a significant adverse effect on the patient's well-being.

Your Committee on Conference has amended this measure by changing its effective date to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1836, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1836, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Wakai, and Keohokalole.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Keohokalole).

Representatives Ichiyama, Belatti, Sayama, Poepoe, M. Mizuno, Takenouchi, and Garcia.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 3 (M. Mizuno, Takenouchi, Garcia).

Conf. Com. Rep. 111-24 on S.B. No. 2591

The purpose of this measure is to:

- (1) Impose a fine on any private landowner that fails to disclose or record with the Bureau of Conveyances, or in documents used to offer real property for sale, the existence of burial or archaeological sites on their property that the landowner knew or should have known of; and
- (2) Require fines collected to be deposited into the Hawaii Historic Preservation Special Fund.

Your Committee on Conference finds that it is important that private landowners contribute to the preservation and protection of burial sites on their lands. This measure will hold private landowners accountable by imposing fines on property owners that fail to record or disclose these sites on their land.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2591, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2591, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Inouye, Rhoads, and Richards.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Rhoads).

Representatives Tarnas, Nishimoto, Poepoe, Takayama, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 112-24 on S.B. No. 3109

The purpose of this measure is to give practical effect to the Legislature's intent for the appropriation in Act 279, Session Laws of Hawaii 2022 (Act 279), by:

- (1) Establishing the Act 279 Special Fund until June 30, 2026;
- (2) Depositing certain unexpended or unencumbered funds appropriated through Act 279 that are set to lapse on June 30, 2024, into the Act 279 Special Fund and appropriating funds out of the Act 279 Special Fund; and
- (3) Providing that unencumbered monies from the appropriation out of the Act 279 Special Fund shall lapse on June 30, 2026.

Your Committee on Conference finds that Act 279 appropriated \$600,000,000 to the Department of Hawaiian Home Lands to reduce the number of applicants on the Department's waitlist. However, the appropriation made by Act 279 does not align with the constitutional time limit on appropriations set by article VII, section 11, of the Hawaii State Constitution. This measure will correct the original general fund lapse date in Act 279 and ensure that the Department of Hawaiian Home Lands may expend the funds appropriated by Act 279 as the Legislature intended.

Your Committee on Conference has amended this measure by:

- (1) Establishing the Act 279 Special Fund in session law, rather than in the Hawaiian Homes Commission Act of 1920, as amended;
- (2) Specifying that moneys in the Act 279 Special Fund shall also be used to explore and develop opportunities to generate additional revenue from lands that the Department of Hawaiian Home Lands controls to fulfill its fiduciary duties;
- (3) Inserting an appropriation of \$129,100,000 to be expended by the Department of Hawaiian Home Lands for the purposes of Act 279;
- (4) Clarifying that the appropriation made by this Act shall not lapse at the end of the fiscal biennium for which the appropriation is made; provided that all moneys from the appropriation unexpended or unencumbered as of June 30, 2026, shall lapse as of that date; and
- (5) Inserting an effective date of June 29, 2024, and a repeal date of June 30, 2026.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3109, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3109, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Shimabukuro, Lee, and Keohokalole.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Nishimoto, Holt, Kila, and Ward.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 113-24 on S.B. No. 2601

The purpose of this measure is to:

- (1) Expand the time period by which a civil action for childhood sexual abuse committed on or after July 1, 2024, may be initiated; and
- (2) Authorize a court to require personnel of legal entities to undergo training on trauma—informed response to allegations of sexual abuse.

Your Committee on Conference finds that many childhood sexual abuse victims withhold disclosure, often due to limited access to quality psychological care and social services. This measure will provide victims of childhood sexual abuse additional time to come forward and seek justice against their abuser.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2601, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2601, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Gabbard, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Nishimoto, Holt, Ichiyama, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 114-24 on S.B. No. 3290

The purpose of this measure is to:

- (1) Require the Disability and Communication Access Board to convene a working group to study the state of American Sign Language interpretation services in Hawaii; and
- (2) Require the working group to submit a report to the Legislature with the assistance of the Department of Health.

Your Committee on Conference finds that American Sign Language (ASL) interpreters provide a critical service to deaf, hard of hearing, deaf-blind, and hearing individuals in the State that wish to effectively communicate with each other in a variety of settings and circumstances. Your Committee on Conference further finds that there remains a critical need to develop an ASL interpreter workforce and to acquire additional information on the state of ASL interpretation services in the State. This measure will provide critical data to ensure greater access for individuals to receive ASL interpretation services in the State during emergencies and daily life activities and address other current and future issues relating to this critical service.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to clarify that no member of the working group shall be made subject to chapter 84, Hawaii Revised Statutes, solely because of that member's participation as a member of the working group; and
- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3290, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3290, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Kanuha, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Belatti, Marten, Nishimoto, Amato, and Garcia.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 115-24 on S.B. No. 2725

The purpose of this measure is to reduce the pass-through entity level tax rate and allow the pass-through entity tax credit to be carried forward to subsequent years.

Your Committee on Conference finds that Act 50, Session Laws of Hawaii 2023, allowed certain pass-through entities to elect to pay Hawaii income tax at the entity level. Act 50 was enacted to assist Hawaii's small businesses by allowing taxpayers to deduct Hawaii state income taxes paid on their federal income tax returns. These deductions from federal taxable income had been eliminated by changes to the federal tax code in 2017, which deprived Hawaii taxpayers of significant federal tax benefits. Under Act 50, the entity level tax is calculated by applying the highest individual income tax rate to the taxable income to be distributed, thus entitling qualified pass-through entity members to receive a nonrefundable income tax credit that cannot be carried forward to a subsequent year if the credit exceeds the member's income tax liability. Your Committee on Conference further finds that, due to the inability to carry forward the tax credit, many members remain unable to benefit from Act 50 as intended.

Your Committee on Conference has amended this measure by:

- (1) Reverting it to the original version of the measure, which:
 - (A) Adds a definition for "qualified member" and repeals the definitions for "direct member" and "indirect member", as used in the State's pass-through entity taxation election law; and
 - (B) Allows certain qualified members who are entitled to a tax credit to use the credit against the member's net income tax liability in subsequent years until exhausted;
- (2) Amending the pass-through entity level tax rate to be the sum of all qualified member's distributive shares and guaranteed payments of Hawaii taxable income, as calculated under chapter 235, Hawaii Revised Statutes, multiplied by nine percent; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2725, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2725, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Wakai, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Kitagawa, Chun, Garrett, and Alcos.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 116-24 on S.B. No. 3083

The purpose of this measure is to amend various sections of article 11 of the Insurance Code to adopt revisions to the National Association of Insurance Commissioners (NAIC) Model No. 440, Insurance Holding Company System Regulatory Act.

Your Committee on Conference finds that the NAIC updated certain provisions of the Insurance Holding Company System Regulatory Act, relating to, among other things, the group capital assessment and calculation, which captures insurer risk at the level of the entire group, and liquidity stress test calculation. Accordingly, this measure makes various technical updates to the State's Insurance Holding Company System law to conform with the NAIC revisions.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3083, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3083, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, McKelvey, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Nakashima, Kitagawa, Amato, and Pierick.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Amato).

Conf. Com. Rep. 117-24 on S.B. No. 3094

The purpose of this measure is to:

- (1) Establish a temporary Peer Support Specialist Working Group (Working Group) within the Office of Wellness and Resilience to develop and make recommendations for a framework for peer support specialists in the State;
- (2) Require the Working Group to submit a report of its findings and recommendations to the Legislature before the Regular Session of 2025; and
- (3) Appropriate funds for the Working Group, including for the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the Working Group in carrying out its duties.

Your Committee on Conference finds that peer support is effective for improving behavioral health outcomes, including reduced hospital admission rates, longer community tenure, increased social functioning, and decreased substance abuse and depression. The recommendations from the Working Group established pursuant to this measure will allow the State to make an informed decision on establishing a framework of trauma-informed care for peer support specialists to better serve individuals in need.

Your Committee on Conference further funds that reimbursing members of the Working Group who are employed by the State and serving in their official capacity on the Working Group would be duplicating travel expenses they already receive. Furthermore, your Committee on Conference finds that compensating members of the Working Group who are not employed by the State could create a disparity with other state-mandated working groups.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Deleting language that would have:
 - (A) Reimbursed members of the Working Group who are employed by the State and serving in their official capacity on the Working Group for reasonable expenses necessary for the performance of their duties, including travel expenses;
 - (B) Required that members of the Working Group who are not employed by the State receive compensation for their time spent on Working Group meetings and related work; and
 - (C) Appropriated funds for the Working Group, including for the Office of Wellness and Resilience to contract with an administrative facilitator to provide necessary support for the Working Group in carrying out its duties;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3094, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3094, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Lee, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Marten, Chun, Ilagan, Kobayashi, and Garcia.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Ilagan, Garcia).

Conf. Com. Rep. 118-24 on S.B. No. 2943

The purpose of this measure is to:

- (1) Establish a Commercial Drivers Workforce Working Group within the Department of Transportation to address the workforce shortage of commercial drivers in the State; and
- (2) Require a report to the Legislature.

Your Committee on Conference finds that the scarcity of commercial drivers license (CDL) holders directly impacts the State's public and private sectors. Your Committee on Conference further finds that taking steps, including the establishment of a working group to develop a plan to address the shortage of commercial drivers in the State, will help to increase the efficiency and reliability of the State's public and private sectors.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2943, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2943, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Aquino, and Kanuha.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Aquino).

Representatives Todd, Kila, Miyake, and Matsumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 119-24 on S.B. No. 2439

The purpose of this measure is to extend the statute of limitations for a one—year period beginning on July 1, 2024, for civil actions brought by adult victims of acts that occurred after June 30, 2014, that constituted or would have constituted a criminal sexual offense.

Your Committee on Conference finds that victims of sexual abuse may face certain obstacles when filing a civil action against their abusers, such as requiring additional time before they are ready to file a lawsuit. This measure will allow more victims to seek justice by extending the statute of limitations for civil actions brought by persons subjected to sexual offenses as an adult against the person who committed the act.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made amendments to section 657-1.8, Hawaii Revised Statutes, that would have:
 - (A) Beginning July 1, 2024, authorized a person eighteen years of age or older who is a victim of sexual abuse that occurred after June 30, 2014, to file a claim for a period of one year if the victim was barred from filing a claim against the victim's abuser due to the expiration of the applicable civil statute of limitations in effect before July 1, 2024;
 - (B) Clarified that a civil cause of action for sexual abuse of a person more than eighteen years of age shall be based upon sexual acts that constituted or would have constituted a criminal offense under existing sexual offense provisions;
 - (C) Authorized a psychologist licensed pursuant to chapter 465, Hawaii Revised Statutes, to notarize a statement included in the certificate of merit; and
 - (D) Clarified that the notarized statement shall include the facts and opinions of acts specified in section 657-1.8(b), Hawaii Revised Statutes;
- (2) Inserting language that creates a new section in chapter 657, Hawaii Revised Statutes, that:
 - (A) Beginning July 1, 2024, revives for a two-year period certain actions for which the statute of limitations had previously lapsed if the abuse occurred after June 30, 2012, in the State when the person who is a victim of sexual abuse was eighteen years or older;
 - (B) Establishes provisions for claims against legal entities during the two-year window period if there is a finding of gross negligence;
 - (C) Clarifies that a civil cause of action for sexual abuse of a person that occurred when the person was eighteen years of age or older shall be based upon sexual acts that constituted or would have constituted a criminal offense under existing sexual offense provisions;
 - (D) Allows a victim of sexual abuse to file a civil claim against a legal entity under certain circumstances;
 - (E) Authorizes a defendant to recover attorney's fees if the court determines that a false accusation was made with no basis in fact and with malicious intent;

- (F) Requires the submission of a certificate of merit, filed by the attorney for the plaintiff, that shall be sealed and remain confidential;
- (G) Requires the certificate of merit to include a notarized statement by a marriage and family therapist licensed pursuant to chapter 451J, Hawaii Revised Statutes; mental health counselor licensed pursuant to chapter 453D, Hawaii Revised Statutes; psychologist licensed pursuant to chapter 465, Hawaii Revised Statutes; or clinical social worker licensed pursuant to chapter 467E, Hawaii Revised Statutes; and
- (H) Clarifies that the notarized statement is required to include the facts and opinions that were relied upon to form a reasonable belief that the plaintiff was subject to acts that constituted or would have constituted a criminal offense under part V of chapter 707, Hawaii Revised Statutes;
- (3) Deleting the sunset date of July 1, 2025;
- (4) Making it effective upon its approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2439, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2439, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Elefante, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Nishimoto, Holt, Ichiyama, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 120-24 on S.B. No. 2475

The purpose of this measure is to:

- (1) Establish a harm to students registry, for all early learning programs or schools and K-12 educational institutions within the State, that contains information on school employees, contractors, or volunteers for whom, as result of an investigation, a final finding has been issued that the individual has inflicted harm on a student; and
- (2) Appropriate funds.

Your Committee on Conference finds that Hawaii's prekindergarten through grade twelve students have a right to pursue their educational goals in safe, secure, and healthy learning environments statewide. However, in recent years, there has been a growing number of individuals who have perpetuated harm against children at one institution and then sought subsequent employment at another institution, creating a cycle of harm and abuse towards students. This measure establishes a Harm to Students Registry to create additional safeguards for students, maintain safe learning environments, and ensure individuals who have inflicted harm against students are held accountable.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have authorized the Department of Education to share information listed on the Harm to Students Registry with the Department of Human Services;
- (2) Deleting the appropriation;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2475, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2475, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 121-24 on S.B. No. 1099

The purpose of this measure is to clarify the authority of the counties to use county surcharge on state tax revenues for housing infrastructure costs for county-supported housing projects.

Your Committee on Conference finds that the cost of infrastructure to support housing is a major barrier to the development of affordable and workforce housing statewide. Your Committee on Conference notes that Maui County is the only county in the State that has not adopted a surcharge on state tax and that allowing surcharges on state tax to be used for housing infrastructure would provide Maui County with the revenues necessary to address its affordable housing crisis. This measure offers another source of funding for counties to offset the high costs of housing infrastructure, thereby accelerating the development of housing projects at the county level. Your Committee on Conference notes that the phrase “county-supported housing projects” could be ambiguous and, as such, believes that an amendment that clarifies the authority of the counties to use their surcharge on state tax revenues for housing infrastructure costs only for county-appropriated housing infrastructure costs is necessary to ensure that no ambiguity exists.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Clarifying that the authority of the counties to use their surcharge on state tax revenues for housing infrastructure costs are only for county-appropriated housing infrastructure costs;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1099, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1099, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. 122-24 on S.B. No. 2937

The purpose of this measure is to repeal the sunset date for the exemption of laboratory school programs of the Hawaiian language college at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee on Conference finds that existing professional standards at Hawaiian language medium education programs ensure affiliated teachers and staff complete certain assessments, are appropriately trained, and are reviewed accordingly. This measure will therefore ensure continuity of the laboratory school program to provide high quality Hawaiian language immersion educational experiences for Hawaii’s students.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2937, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2937, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Elefante, and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Tarnas).

Conf. Com. Rep. 123-24 on S.B. No. 3207

The purpose of this measure is to:

- (1) Remove the salary cap of the Superintendent of Education; and
- (2) Make permanent the annual performance evaluation requirements for the Superintendent of Education.

Your Committee on Conference finds that the Superintendent of Education plays a significant role in effectuating education policy and goals for the Department of Education. This measure repeals the salary cap for the Superintendent while ensuring high performance standards through a permanent, annual performance evaluation.

Your Committee on Conference has amended this measure by inserting an effective date of June 29, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3207, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3207, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, and Fevella.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Morikawa, La Chica, and M. Mizuno.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 124-24 on S.B. No. 2861

The purpose of this measure is to:

- (1) Make certain long-term exclusive listing agreements for the sale of residential real property void and unenforceable under the state law that governs unfair and deceptive practices;
- (2) Prohibit the recording or filing of exclusive listing agreements of any duration with the Bureau of Conveyances; and
- (3) Establish certain remedies for violations.

Your Committee on Conference finds that exclusive listing agreements are agreements that require a homeowner to grant exclusive listing rights for a property over a certain period of time, typically in exchange for a nominal upfront payment. Having been known to last up to forty years, these exclusive listing agreements--which are recorded as liens that run with the property--can impede the owner's ability to sell, refinance, or transfer the property can likewise subject future owners to the agreement without notice. Your Committee on Conference finds that many consumers are enticed into entering these complex agreements without a full understanding of the consequences because companies often deceptively advertise their terms or fail to fully disclose them. Accordingly, it is necessary to prevent unfair exclusive listing agreements from becoming prevalent in the State, and therefore this measure makes certain long-term exclusive listing agreements for the sale of residential real property void and unenforceable.

Your Committee on Conference has amended this measure by inserting an effective date of November 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2861, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2861, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, McKelvey, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Tarnas, Sayama, Nishimoto, Amato, Tam, and Pierick.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 125-24 on H.B. No. 2480

The purpose of this measure is to:

- (1) Require the Office of the Lieutenant Governor to set a fee for the issuance of an apostille or a non--apostille certification; and
- (2) Establish and appropriate funds into and out of the Apostilles and Certifications Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$12,000 into and out of the Apostilles and Certifications Special Fund for operational and administrative expenses of the apostille and certification of document services;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2480, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2480, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators McKelvey, Kanuha, Rhoads, Hashimoto, and Awa.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Representatives Matayoshi, Garrett, Lamosao, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 126-24 on H.B. No. 1827

The purpose of this measure is to appropriate funds to:

- (1) Support the Public High School Health Care Workforce Certificate Program;
- (2) Renovate and equip certain public high school classrooms to be used for health care training; and

- (3) Support the Glidepath Program for certified nurse aides.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$750,000 to the Department of Business, Economic Development, and Tourism to support the Public High School Health Care Workforce Certificate Program;
- (2) Appropriating \$1,000,000 as a grant-in-aid for Hawaii3R's to renovate and equip certain public high school classrooms to be used for health care training;
- (3) Appropriating \$700,000 to the Department of Business, Economic Development, and Tourism to support the Glidepath Program for certified nurse aides;
- (4) Changing the effective date to July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1827, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1827, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Kidani, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Matayoshi, Woodson, Garrett, La Chica, Lamosao, and Alcos.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 127-24 on H.B. No. 1686

The purpose of this measure is to require that the authorized benefits for chiropractic treatments allowed under personal injury protection benefits provided through motor vehicle insurance be tied to the charges, and any subsequent increases in charges, that are permissible under the workers' compensation supplemental medical fee schedule.

Your Committee on Conference has amended this measure by:

- (1) Inserting the contents of the H.D. 1 version, which increases the reimbursement rate for chiropractic treatments for personal injury protection benefits under motor vehicle insurance from \$75 to \$100; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1686, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1686, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Moriwaki, Aquino, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Nakashima, Nishimoto, Garrett, Tam, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 2 (Nakashima, Tam).

Conf. Com. Rep. 128-24 on H.B. No. 1640

The purpose of this measure is to:

- (1) Require that within thirty days of receipt of a written request from the exclusive representative to negotiate, and at times allowed under the collective bargaining agreement, the employer shall negotiate the repricing of classes within a bargaining unit; and
- (2) Provide that if an employer fails to timely initiate a negotiation or the parties cannot reach an agreement within ninety days after the exclusive representative's written request to negotiate or by January 31 of a year in which the agreement is due to expire, whichever is earlier, an impasse exists and certain impasse procedures shall apply.

Your Committee on Conference has amended this measure by:

- (1) Increasing the timeframe in which impasse procedures shall apply from ninety to one hundred fifty days;
- (2) Specifying that no more than fifteen repricing impasse procedures shall be active at any time, under certain conditions;
- (3) Changing the effective date to July 1, 2024;
- (4) Inserting a sunset date of June 30, 2029, and specifying that any negotiations on repricing that started prior to the sunset date may continue after the sunset date; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

Your Committee on Conference has specifically excluded collective bargaining agreement impasse procedures from the fifteen active impasse procedure maximum in this measure. Only repricing impasse procedures shall count toward the fifteen maximum amount.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1640, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1640, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Moriwaki, Rhoads, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Garrett, Martinez, Tam, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 129-24 on H.B. No. 2641

The purpose of this measure is to:

- (1) Reestablish the Appraisal Management Company Registration Program within the Department of Commerce and Consumer Affairs, to begin September 1, 2024; and
- (2) Appropriate funds from the Compliance Resolution Fund for the Program.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$23,000 out of the Compliance Resolution Fund for fiscal years 2023-2024 and 2024-2025 to the Department of Commerce and Consumer Affairs to implement the Appraisal Management Company Registration Program;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2641, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2641, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Lee, Richards, and Awa.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Awa).

Representatives Matayoshi, Nakashima, Garrett, Kitagawa, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 130-24 on H.B. No. 1925

The purpose of this measure is to establish and appropriate funds for the Hawaii State Planning Act Phase II Task Force within the Office of Planning and Sustainable Development.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$225,000 for the administration costs of the Hawaii State Planning Act Phase II Task Force;
- (2) Inserting an appropriation amount of \$75,000 for the establishment of one full-time equivalent coordinator position to support the Hawaii State Planning Act Phase II Task Force;
- (3) Changing its effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1925, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1925, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Lee, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 131-24 on H.B. No. 2107

The purpose of this measure is to appropriate funds to establish a Limited English Proficiency Language Access Coordinator within the Hawaii Emergency Management Agency.

Your Committee on Conference has amended this measure by:

- (1) Exempting the Limited English Proficiency Language Access Coordinator position from the civil service;
- (2) Inserting an appropriation amount of \$100,000 for the establishment of one full-time equivalent Limited English Proficiency Language Access Coordinator position;
- (3) Inserting an appropriation amount of \$100,000 for programming support for limited English proficiency community projects, such as public service announcements, translation services, and other program projects and support;
- (4) Changing its effective date to July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2107, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2107, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Kanuha, and Elefante.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Poepoe, Lamosao, Chun, Ichiyama, and Souza.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Souza).

Conf. Com. Rep. 132-24 on H.B. No. 2248

The purpose of this measure is to appropriate funds to the University of Hawaii Sea Grant College Program to develop a north shore beach management and climate adaptation plan for the North Shore of Oahu from Sunset Point to the Kapo'o (Sharks Cove) area.

Your Committee on Conference has amended this measure by:

- (1) Changing the north shore beach management and climate adaptation plan to a north shore beach management plan;
- (2) Modifying the scope of the north shore beach management plan;
- (3) Inserting an appropriation amount of \$1,000,000 for development of the north shore beach management plan;
- (4) Changing its effective date to July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2248, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2248, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs and Senate President on behalf of the Committee.

Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

Representatives Ichiyama, Todd, Poepoe, Ganaden, M. Mizuno, and Garcia.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Garcia).

Conf. Com. Rep. 133-24 on H.B. No. 2685

The purpose of this measure is to establish and appropriate funds for:

- (1) The Solar Hui Program to allow multi-family residential property owners to invest into a Solar Hui Investment Fund, which will provide loans to low- and moderate-income households to install solar energy systems; and
- (2) The Solar Hui Program Fund Manager to manage the Solar Hui Investment Fund, market the Solar Hui Program, and select solar contractors for energy projects.

Your Committee on Conference has amended this measure by:

- (1) Changing the means of financing from general revenues to the Hawaii Green Infrastructure Special Fund;
- (2) Inserting an appropriation amount of \$203,750 out of the Hawaii Green Infrastructure Special Fund for the implementation of the Solar Hui Program, including one full-time equivalent Solar Hui Program Fund Manager position;
- (3) Changing the effective date to July 1, 2024; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2685, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2685, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Moriwaki, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Lowen, Nakashima, Kitagawa, Tam, and Ward.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 134-24 on H.B. No. 2743

The purpose of this measure is to:

- (1) Authorize the counties to designate sewer improvement districts;
- (2) Authorize the counties to assess a cesspool pollution fee on real properties containing a cesspool, beginning July 1, 2025;
- (3) Authorize each county to establish a county cesspool closure and mitigation special fund;
- (4) Authorize the counties to use cesspool pollution fee revenues or other revenues, including real property tax revenues, for certain activities that eliminate, reduce, or mitigate the impacts of cesspools, including the expansion of county sewer systems and the issuance of grants and low-interest loans to property owners; and
- (5) Require and appropriate funds for the University of Hawaii Water Resources Research Center and the University of Hawaii Sea Grant College Program to develop an overlay with the Hawaii Cesspool Prioritization Tool to identify specific priority areas in which the county sewer system or other centralized treatment system could most feasibly be expanded or constructed to reduce or eliminate cesspools before January 1, 2050.

Your Committee on Conference has amended this measure by:

- (1) Deleting all content except for the required development of an overlay with the Hawaii Cesspool Prioritization Tool and associated appropriation;
- (2) Inserting an appropriation amount of \$350,814 for development of the overlay;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2743, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2743, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Gabbard, San Buenaventura, McKelvey, Lee, and Rhoads.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Rhoads).

Representatives Lowen, Ichiyama, Poepoe, M. Mizuno, Nakamura, and Ward.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 135-24 on H.B. No. 2224

The purpose of this measure is to establish and appropriate funds for:

- (1) A comprehensive long-term care plan that incorporates certain essential components of long-term care services; and
- (2) An unspecified number of long-term care planner positions within the Executive Office on Aging to oversee the development and implementation of the long-term care plan.

Your Committee on Conference has amended this measure by:

- (1) Removing the appropriation to establish the comprehensive long-term care plan;
- (2) Inserting an appropriation amount of \$79,872 to establish and fund one full-time equivalent long-term care planner position;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2224, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2224, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Aquino, and Awa.

Managers on the part of the Senate.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 136-24 on H.B. No. 1533

The purpose of this measure is to increase the amount of death benefits paid by the Department of Human Services to cover the cremation and disposition costs for a deceased person who was eligible for medical or financial assistance at the time of the person's death and whose body is unclaimed.

Your Committee on Conference has amended this measure by:

- (1) Changing the death benefits payment from an unspecified amount to \$1,600;
- (2) Inserting an appropriation amount of \$277,600 to cover the increased costs for the death benefits paid by the Department of Human Services;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1533, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1533, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 137-24 on H.B. No. 1148

The purpose of this measure is to appropriate funds to establish one temporary full-time equivalent mental health technician certificate competence program coordinator position.

Your Committee on Conference has amended this measure by:

- (1) Replacing the appropriation for the establishment of one temporary full-time equivalent mental health technician certificate of competence program coordinator with one temporary full-time equivalent faculty instructor position;
- (2) Adding an appropriation for the establishment of one temporary full-time equivalent faculty outreach position;
- (3) Inserting an appropriation amount of \$210,150 to support the statewide expansion of the University of Hawaii Windward Community College's mental health related programs, to be allocated as follows:
 - (A) \$75,000 for the temporary full-time equivalent faculty instructor position;
 - (B) \$75,000 for the temporary full-time equivalent faculty outreach position; and
 - (C) \$60,150 for the scholarship program, the granting of scholarships, and other necessary administrative costs;
- (4) Changing its effective date to July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1148, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1148, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. 138-24 on H.B. No. 2430

The purpose of this measure is to establish and appropriate funds for the Summer Electronic Benefits Transfer for Children Program.

Your Committee on Conference has amended this measure by:

- (1) Inserting appropriation amounts of \$53,500 for the Department of Education and \$2,050,000 for the Department of Human Services for the Summer Electronic Benefits Transfer of Children Program, including one full-time equivalent Program Specialist position for each department;
- (2) Removing language requiring the Department of Human Services to comply with the State's procurement codes when contracting with providers;
- (3) Changing the effective date to upon approval, with the appropriations to take effect on July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2430, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2430, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 139-24 on H.B. No. 2801

The purpose of this measure is to:

- (1) Repeal the authority for counties to administer commercial property assessed financing programs and delegate all existing administrative responsibilities of the counties under the commercial property assessed financing program to the Hawaii Green Infrastructure Authority; and
- (2) Allow condominiums to be eligible for commercial property assessed financing.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2024; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2801, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2801, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Keohokalole, Wakai, Richards, and Awa.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Awa).

Representatives Nakashima, Kitagawa, Nishimoto, Tam, and Pierick.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 140-24 on H.B. No. 2742

The purpose of this measure is to:

- (1) For tenancies subject to eviction moratoria under emergency proclamations issued by the Governor and relating to wildfires, when it becomes legally permissible to terminate residential tenancy for nonpayment of rent:
 - (A) Extend the notice period for summary possession proceedings from five days to fifteen days for failure to pay rent;
 - (B) Require landlords to provide the notice to mediation centers;
 - (C) Require landlords to enter into mediation if scheduled by a tenant, which will delay when a landlord may file an action for summary possession except in cases where a tenant cancels the mediation or does not appear; and
 - (D) Restrict when landlord remedies are available depending on the amount of rent due;
- (2) Reiterate that eviction moratoria under the various emergency proclamations issued by the Governor may continue until terminated by a proclamation by the Governor or expiration of the proclamation; and
- (3) Appropriate funds for the Judiciary to contract for mediation services.

The pre-litigation eviction mediation process outlined in this measure is intended for survivors of the August 8, 2023, Maui wildfires who may be struggling to make rental payments as a result of this tragedy.

Your Committee on Conference has amended this measure by:

- (1) Specifying that a mediation center must contact the landlord or landlord's agent and tenant to schedule mediation within fifteen calendar days of receipt of the landlord's notice;
- (2) Specifying that if the tenant schedules mediation, the landlord and tenant are required to participate;
- (3) Specifying that the reiteration of the eviction moratoria applies to the eviction moratoria in effect as of July 1, 2024;
- (4) Inserting an appropriation amount of \$410,000 for the Judiciary to contract for mediation services for the purposes of this measure;
- (5) Changing the effective date to July 1, 2024;
- (6) Inserting a sunset date of December 31, 2026, or upon the one-year anniversary of the expiration date of the final eviction moratorium; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2742, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2742, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Representatives Kitagawa, Nishimoto, Yamashita, and Alcos.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Nishimoto).

Conf. Com. Rep. 144-24 on H.B. No. 1801

The purpose of this measure is to authorize the issuance of general obligation bonds and to make the constitutionally-required findings that the bond issuance will not cause the state debt limit to be exceeded.

Your Committee on Conference finds that article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare that the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance. Your Committee on Conference further finds that the proceeds generated from the general obligation bonds authorized to be issued under this measure will be used to finance the fulfillment of important state objectives.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate dollar amounts throughout the measure as provided by the Department of Budget and Finance;
- (2) Updating references to applicable dates and measure numbers that are cited in the measure;
- (3) Making it effective upon approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1801, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1801, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Moriwaki, Lee, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Nishimoto, and Ward.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Ward).

Conf. Com. Rep. 145-24 on S.B. No. 3116

The purpose of this measure is to:

- (1) Specify that the priority of selection for Preschool Open Doors Program participation applies only during the priority application period between February 1 and the start of each program year; and
- (2) Specify that applications received after the priority application period shall be processed on a first-come, first-served basis.

Your Committee on Conference finds that the Preschool Open Doors Program provides key financial assistance to enable children to attend preschool and serves certain three- and four-year old children with priority extended to certain categories of children. However, existing law does not specify whether the priority of selection to participate in the Preschool Open Doors Program applies year-around or during a limited period of time. Your Committee on Conference further finds that establishment of a priority application period would ensure that the Preschool Open Doors Program maximizes the funding appropriated to the Program to serve the greatest number of three- and four-year-old children in a timely fashion. This measure preserves the prioritization process while also expediting the review and approval of applications to allow faster access to Preschool Open Doors Program subsidies and increase participation in this school readiness program.

Your Committee on Conference has amended this measure by:

- (1) Inserting language to require the Department of Human Services to adopt rules, pursuant to chapter 91, Hawaii Revised Statutes, to determine a child's underserved or at risk status, if not duplicative of the rules already adopted under chapter 17-799, Hawaii Administrative Rules;

- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3116, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3116, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Kidani, and Awa.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Marten, Morikawa, Chun, Ilagan, Kobayashi, and Garcia.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 146-24 on S.B. No. 2284

The purpose of this measure is to:

- (1) Establish a two-year program at the University of Hawaii to develop a wildfire forecast system for the State using artificial intelligence; and
- (2) Appropriate funds.

Your Committee on Conference finds that the threat of wildfires has increased in recent years, necessitating proactive evacuation planning, risk mitigation, and updated data in the event of natural disasters. By forecasting wildfires, the State can streamline rapid response and suppression efforts focused on specific community needs while ensuring first responders are adequately informed and prepared. Therefore, this measure will enhance emergency management and wildfire mitigation preparedness procedures in the State to help protect communities against future emergencies.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$1,000,000 for fiscal year 2024-2025 for the development of the wildfire forecast system;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2284, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2284, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kim, Wakai, Shimabukuro, Hashimoto, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Hashimoto, Fevella).

Representatives Ichiyama, Todd, Poepoe, La Chica, M. Mizuno, and Souza.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 147-24 on S.B. No. 3153

The purpose of this measure is to:

- (1) Establish the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to receive moneys for the Dam and Appurtenance Improvement or Removal Grant Program; and
- (2) Appropriate funds for the Dam and Appurtenance Improvement or Removal Grant Program.

Your Committee on Conference finds that many private dams across the State are in disrepair and many private dam owners do not have the resources to conduct the necessary repairs or removal of their dams. Your Committee on Conference further finds that dams provide many public benefits. Therefore, it is in the public's best interest for the Legislature to provide financial assistance to private dam owners. This measure will assist the Department of Land and Natural Resources in providing funds to qualifying dam owners.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$10,000,000 from the general fund to be deposited into the Dam and Appurtenance Improvement or Removal Grant Program Special Fund as seed funding for the purposes of the Dam and Appurtenance Improvement or Removal Grant Program;
- (2) Inserting an appropriation of \$10,000,000 from the Dam and Appurtenance Improvement or Removal Grant Program Special Fund to be expended by the Department of Land and Natural Resources for the Dam and Appurtenance Improvement or Removal Grant Program;
- (3) Inserting an effective date of July 1, 2024; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3153, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3153, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Inouye, DeCoite, Elefante, and Fevella.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 148-24 on S.B. No. 1170

The purpose of this measure is to require the counties to issue affordable housing credits for affordable housing units that are constructed under the various programs of the Hawaii Housing Finance and Development Corporation.

Your Committee on Conference finds that the current high interest rate environment is negatively impacting the Hawaii Housing Finance and Development Corporation's production of affordable housing in the State. To promote housing production at the county level, this measure will provide a pathway for housing to be built at a lower cost and provides a means for developers to fulfill their affordable housing requirements with less risk and increase the State's housing supply.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have allowed a county to impose a geographic constraint on the transfer of affordable housing credits with a minimum radius of five miles by public road;
- (2) Inserting language allowing the credits to be applied to satisfy up to fifty percent of the affordable housing obligations imposed by the county for each market-priced residential or non-residential development, unless the county allows for more than fifty percent as provided by county ordinance, rules, or any memoranda of agreement between the county and the Hawaii Housing Finance and Development Corporation;
- (3) Inserting language requiring that, prior to the issuance of an affordable housing credit, an agreement, including affordable housing-related agreements between a county or the Hawaii Housing Finance and Development Corporation and an eligible developer, shall be executed and include language requiring:
 - (A) A new and sequential identification number of at least four digits in length for each affordable housing credit to be issued within each county for tracking purposes;
 - (B) An agreement to be recorded on title of at least one parcel or tax map key of the originating housing project, as defined in section 201H-1, Hawaii Revised Statutes; and
 - (C) The prompt amendment of an agreement when an affordable housing credit originally generated by a housing project is sold, transferred, or utilized to create an easily auditable trail of ownership;
- (4) Changing the sunset date from June 30, 2031, to July 1, 2031;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1170, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1170, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chang, Kanuha, and Hashimoto.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Evslin, Aiu, Miyake, Morikawa, and Matsumoto.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 149-24 on S.B. No. 3202

The purpose of this measure is to:

- (1) Prohibit private covenants for residentially zoned lots within an urban district from including certain limitations or restrictions;
- (2) Require the director of the county agency responsible for land use to review and act on any application for subdivision, consolidation, or resubdivision of certain parcels within the state urban land use district; and
- (3) Amend the calculation of impact fees for certain developments.

Your Committee on Conference finds that the shrinking population in the State is a result of the inequitable access to housing. Promoting higher density development in urban areas can aid in addressing the State's shortfall of housing units and reduce the pressure to convert agricultural and conservation lands into urban uses. Therefore, this measure promotes higher density, compact development, and the efficient use of the State's limited lands that are suitable for residential development.

Your Committee on Conference has amended this measure by:

- (1) Inserting as a new part I language establishing a new section in chapter 46, Hawaii Revised Statutes, to require the counties, no later than December 31, 2026, to either implement a countywide ordinance allowing for two accessory dwelling units per residentially zoned lot or using their zoning maps to allow two accessory dwelling units on certain lots, subject to certain restrictions;
- (2) Clarifying that no private covenant for a residentially zoned lot within an urban district recorded after the effective date of this measure shall limit the:
 - (A) Number of accessory dwelling units on that residentially zoned lot below the amount allowed pursuant to part I of this measure; or
 - (B) Long-term rental of residential units on that residentially zoned lot;
- (3) Amending the definition of "residentially zoned lot";
- (4) Clarifying that the administrative authority to accept, reject, and approve, or deny any application for subdivision, consolidation, or resubdivision of a parcel of land that has been fully zoned for residential use within the state urban district shall be vested with the director of the county agency responsible for land use or a single county officer designated by ordinance, provided that the parcel is not on important agricultural lands, on certain wetlands, within a floodplain district, on a habitat for protected or endangered species, within a state historic district, or within a lava zone, and other certain conditions;
- (5) Making it effective upon its approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3202, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3202, S.D. 2, H.D. 1, C.D. 1.

Ayes, 6. Noes, none. Excused, 1 (Ichiyama).

Conf. Com. Rep. 150-24 on S.B. No. 1035

The purpose of this measure is to exempt from the general excise tax amounts received by a hospital, infirmary, medical clinic, health care facility, or pharmacy, or a medical or dental practitioner, for health care-related goods and services purchased under Medicaid, Medicare, or TRICARE.

Your Committee on Conference finds that, under the existing general excise tax law, there is an incongruity in the way medical service providers are treated. Your Committee on Conference also finds that medical services rendered at a nonprofit hospital, infirmary, or sanitarium are exempt from the general excise tax, whereas the same services rendered by individual or group practices or clinics are fully taxable. Your Committee on Conference further finds that government programs, such as Medicare, Medicaid, and TRICARE, do not compensate for the tax differential, leading some health care providers to bear additional economic costs.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date from June 30, 3000, to January 1, 2026; and
- (2) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1035, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1035, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. 151-24 on H.B. No. 2042

The purpose of this measure is to appropriate funds for the Department of Health to contract for the provision of youth mental health and wellness services to address the mental health and wellness needs of youth in the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$900,000;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2042, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2042, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 152-24 on H.B. No. 1830

The purpose of this measure is to:

- (1) Beginning July 1, 2026, establish provisional or associate-level licensure requirements and insurance reimbursement allowances for marriage and family therapists, mental health counselors, and psychologists;
- (2) Authorize associate psychologists who possess a provisional license to sit for the licensing examination before completing certain supervised experience requirements;
- (3) Authorize insurance reimbursements for services provided after July 1, 2026, by a supervised social work intern, in certain circumstances; and
- (4) Appropriate funds from the Compliance Resolution Fund.

Your Committee on Conference has amended this measure by:

- (1) Authorizing the Department of Commerce and Consumer Affairs to use fees collected for provisional or associate-level licenses to defray the costs incurred by the Department for the operations of the marriage and family therapists and mental health counselors licensing programs and the regulation of psychologists by the Board of Psychology;
- (2) Inserting appropriation amounts out of the Compliance Resolution Fund of \$73,406 for the establishment of one full-time equivalent Office Assistant V position and \$75,000 for updates to the Professional and Vocational Licensing Division's internal databases;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1830, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1830, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. 153-24 on H.B. No. 982

The purpose of this measure is to increase:

- (1) The amount of funds that the Tobacco Enforcement Special Fund can carry over at the end of each fiscal year;
- (2) The Cigarette Tax Stamp Fee and the percentage of that fee allotted to the Tobacco Enforcement Special Fund; and
- (3) The amount of funds from the Tobacco Master Settlement Agreement annual payment that may be deposited into the Tobacco Enforcement Special Fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting language increasing the Cigarette Tax Stamp Fee and the percentage of that fee allotted to the Tobacco Enforcement Special Fund;
- (2) Changing the effective date to July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 982, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 982, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 154-24 on H.B. No. 2619

The purpose of this measure is to appropriate funds to the Department of Agriculture for programs and positions in agricultural biosecurity.

Your Committee on Conference has amended this measure by:

- (1) Inserting a preamble related to the Department of Agriculture's role in the control and eradication of invasive species in the State;
- (2) Requiring the Department of Agriculture to:
 - (A) Lead and coordinate the State's invasive pest control and eradication biosecurity efforts, including engaging in memorandums of understanding with interagency partners and private organizations;
 - (B) In conjunction with certain agencies and entities, identify best practices for the treatment of certain pests;
 - (C) Post certain data and information on its website;
 - (D) Document certain geographic information system database information;
 - (E) Provide notice to the Department's Pesticides Branch prior to usage of pesticides in the course of controlling pests;
 - (F) Include certain information related to advancing the State's invasive pest control and eradication biosecurity efforts in its annual report to the Legislature; and
 - (G) Report on programs and positions funded by this measure; report on expenditures from and uses of the Pest Inspection, Quarantine, and Eradication Fund to facilitate the program's conversion to general funds; and document contracts for invasive species response;
- (3) Inserting an appropriation amount of \$19,780,660 to the Department of Agriculture for programs and positions in agricultural biosecurity, amending the list of programs and positions, and exempting certain positions from civil service;
- (4) Inserting language that appropriates \$200,000 to the counties as a grant-in-aid, subject to a county match, for the implementation of feral chicken control programs;
- (5) Changing the effective date to July 1, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2619, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2619, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 156-24 on H.B. No. 2074

The purpose of this measure is to appropriate funds for the establishment of three full-time equivalent Kaiapuni education curriculum specialist II positions and ten full-time equivalent Kaiapuni classroom teacher positions.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$3,544,683 for the establishment of the three full-time equivalent Kaiapuni education curriculum specialist II positions and ten full-time equivalent Kaiapuni classroom teacher positions;
- (2) Specifying that the appropriation shall also be used for Kaiapuni programs;
- (3) Changing the effective date to July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2074, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2074, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, DeCoite, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Woodson, Morikawa, Amato, Kahaloa, Kapela, and Garcia.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 157-24 on S.B. No. 2257

The purpose of this measure is to authorize the Hawaii Teacher Standards Board to consider qualified individuals with at least an associate's degree or high school diploma with comparable education and coursework, industry experience, and content expertise to teach career and technical education courses.

Your Committee on Conference finds that career and technical education offers students experiential learning opportunities to prepare them for higher education and future careers. This measure provides opportunities for experienced industry professionals to become instructors to teach career and technical education courses to help fill critical teacher vacancies while ensuring that instructors possess the same or a higher level of knowledge as currently qualified teachers.

Your Committee on Conference has amended this measure by inserting an effective of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2257, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2257, S.D. 3, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Morikawa, La Chica, M. Mizuno, and Garcia.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 158-24 on S.B. No. 2497

The purpose of this measure is to:

- (1) Repeal the provision that made references to the base amount in the Internal Revenue Code inapplicable to the Research Activities Tax Credit and allowed credits for all qualified research expenses to be taken without regard to previous years' expenses;
- (2) Narrow the qualifying criteria for research activities tax credits to applicants who are small businesses registered in the State;
- (3) Amend the maximum amount of tax credits that can be certified per year; and
- (4) Extend the sunset date of the research activities tax credit to December 31, 2029.

Your Committee on Conference finds that research activities help to stimulate the State's economy and create beneficial employment opportunities for residents. Currently, the State's Research Activity Tax Credit is scheduled to expire after this taxable year. This measure extends the tax credit through 2029 to further support distribution of tax credits to qualified companies and to stimulate the local economy and create quality jobs in the State.

Your Committee on Conference has amended this measure by:

- (1) Removing language that would have amended the maximum amount of research activities tax credits that can be certified per year;
- (2) Clarifying that "small business" means a company with no more than five hundred employees;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2497, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2497, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators DeCoite, Wakai, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Holt, Lamosao, Garrett, Kong, and Pierick.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Pierick).

Conf. Com. Rep. 159-24 on S.B. No. 2305

The purpose of this measure is to:

- (1) Establish a Silver Alert Program within the Department of Law Enforcement to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled; and
- (2) Appropriate funds.

Your Committee on Conference finds that more than half of states nationwide have established silver alert programs to help identify missing individuals with cognitive impairments, developmental disabilities, or who are the elderly. This measure will help law enforcement and provide immediate information to the public, facilitate a prompt response, and enhance the chances of locating an individual with a developmental disability, cognitive impairment, or who is sixty-five years of age or older.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for the Silver Alert Program;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2305, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2305, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Shimabukuro, Aquino, and Elefante.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Marten, Tarnas, Chun, Amato, Takayama, and Garcia.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 160-24 on S.B. No. 2070

The purpose of this measure is to, until July 1, 2027:

- (1) Exempt Department of Education purchases for career and technical education goods and services from the State Procurement Code;

- (2) Require the Department of Education to acquire three verbal or written quotes for career and technical education purchases of not more than \$100,000;
- (3) Require awards of over \$2,500 for career and technical education purchases to comply with certain statutory provisions regarding offerors; and
- (4) Require awards of over \$500,000 for career and technical education purchases to be approved by the Superintendent of Education.

Your Committee on Conference finds that career and technical education opportunities provide students with hands-on learning experiences in various emerging and in-demand industries and allow students to directly learn skills using proper industry equipment. This measure ensures timely access to critical career and technical education materials and equipment to provide students with high quality educational experiences and develop skills to support success in their future careers.

Your Committee on Conference has amended this measure by:

- (1) Requiring the Department of Education to acquire three written quotes for purchases that exceed \$100,000;
- (2) Deleting language that would have required the Department of Education to obtain three verbal quotes for purchases of no more than \$100,000;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2070, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2070, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Matayoshi, Morikawa, La Chica, and Garcia.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 161-24 on S.B. No. 3305

The purpose of this measure is to require all public charter schools that exclusively offer prekindergarten programs to adhere to the public charter school law, with certain exceptions.

Your Committee on Conference finds that prekindergarten-only public charter school programs provide the State's youngest keiki with critical educational opportunities. This measure will expand access to early learning programs while ensuring institutional adherence to applicable statutory requirements.

Your Committee on Conference has amended this measure by:

- (1) Making it effective upon its approval; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3305, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3305, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kanuha, and Hashimoto.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Tarnas, Morikawa, Martinez, M. Mizuno, Takayama, and Garcia.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 2 (Takayama, Tarnas).

Conf. Com. Rep. 162-24 on S.B. No. 3087

The purpose of this measure is to expand access to early learning programs on other state properties and public lands besides Department of Education public school campuses.

Your Committee on Conference finds that expanding access to early learning programs for Hawaii's youngest keiki is of paramount importance to the State. Therefore, this measure authorizes the expansion of early learning programs to locations besides Department of Education public school campuses to increase availability and provide all students with an opportunity to commence their educational careers.

Your Committee on Conference has amended this measure by:

- (1) Authorizing early learning programs to be established in available public buildings, rather than public properties; and

- (2) Making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3087, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3087, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kidani, Kim, and Hashimoto.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Woodson, Morikawa, La Chica, and Garcia.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 163-24 on S.B. No. 2401

The purpose of this measure is to:

- (1) Appropriate funds to each county as a grant—in—aid, subject to a county match, for the implementation of feral chicken control programs; and
- (2) Appropriate funds to the Department of Health for a feeding of feral animals education campaign.

Your Committee on Conference finds that feral chickens and roosters are a persistent nuisance, particularly in suburban and urban residential communities. Feral chickens damage gardens and food crops, harm native plants and resources, crow at all times of day and night, and leave unsanitary droppings. This measure will protect the State's ecosystem and natural resources and the health and safety of its residents by requiring the Department of Agriculture to work with each county to implement feral chicken control programs and feeding of feral animals education campaigns.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have made an unspecified appropriation as a grant-in-aid, subject to a county match, to each county for the implementation of feral chicken control programs;
- (2) Deleting language that would have made an unspecified appropriation to the Department of Health for a feeding of feral animals education campaign;
- (3) Inserting language requiring the Department of Agriculture to work with each county to implement feral chicken control programs and feeding of feral animals education campaign in each county;
- (4) Inserting language requiring each county to match the funds expended by the Department of Agriculture for the implementation of the feral chicken control program and feeding of feral animals education campaign in that county;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective on July 1, 2024; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2401, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2401, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Gabbard, and Kim.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Gates, Kahaloa, and Ward.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 164-24 on S.B. No. 3279

The purpose of this measure is to:

- (1) Establish within the Office of Wellness and Resilience the State of Well-Being Project to assess and enhance Tier 1 and Tier 2 mental health support services for all key stakeholder communities across the State; and
- (2) Appropriate funds to implement the State of Well-Being Project, including funds to establish full-time equivalent mental health specialist positions within the Office of Wellness and Resilience.

Your Committee on Conference finds that the prevalence of both acute and chronic mental illnesses has been on the rise in the State over the past two decades and that it is critically important to have a tiered approach to comprehensively address statewide mental health concerns. This measure establishes the State of Well-Being Project to enhance Tier 1 and Tier 2 mental health support services for key stakeholder communities across the State and promote a safe and healthy State for all citizens.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have provided specific examples of mental health support services in the statutory definitions of Tier 1 mental health support and Tier 2 mental health support;
- (2) Inserting an appropriation amount of \$876,000 or so much thereof as may be necessary for fiscal year 2024-2025 for the establishment and implementation of the state of well-being project, to be expended as follows:
 - (A) \$475,000 to establish six full-time equivalent (6.0 FTE) mental health specialist positions within the Office of Wellness and Resilience; and
 - (B) \$401,000 for the Office of Wellness and Resilience to implement this measure;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3279, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3279, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Moriwaki, and Awa.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Awa).

Representatives Marten, Belatti, Takenouchi, Kila, Lamosao, and Garcia.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 165-24 on S.B. No. 2837

The purpose of this measure is to:

- (1) Temporarily authorize the Oahu Regional Health Care System to oversee the operations and management of the proposed Maui State Veterans Home; and
- (2) Establish a timeline and process whereby permanent oversight of the proposed Maui State Veterans Home will be reassigned to the Maui Regional Health Care System.

Your Committee on Conference finds that although the state Department of Defense is currently planning for the construction of the Maui State Veterans Home, the management, operation, and staffing of the Maui State Veterans Home should be placed with a state agency that is able to manage a long-term care facility.

Your Committee on Conference has amended this measure by:

- (1) Deleting provisions that would have:
 - (A) Temporarily placed ownership and oversight of the Maui State Veterans Home with the Oahu Regional Health Care System;
 - (B) Required the Maui Regional Health Care System to secure ownership of the land of, and assume permanent oversight over, the Maui State Veterans Home; and
 - (C) Required reports to the Legislature;
- (2) Statutorily authorizing the Oahu Regional Health Care System to include the Maui State Veterans Home;
- (3) Requiring that no later than June 30, 2027, the Maui State Veterans Home shall be assimilated into a state agency having a Maui affiliation, in a manner and to an extent that may be negotiated between the Oahu Regional Health Care System or a state agency having a Maui affiliation and the state Department of Defense;
- (4) Clarifying that no liabilities of the Maui State Veterans Home that exist at the time the Maui State Veterans Home is assimilated shall become liabilities of the agency into which the Maui State Veterans Home is assimilated;
- (5) Clarifying that the assimilation shall not be affected by the amendments made to section 323F-2(b), Hawaii Revised Statutes, by Act 212, Session Laws of Hawaii 2021;
- (6) Changing the effective date to make the measure effective upon its approval; and
- (7) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2837, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2837, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Hashimoto, and Keohokalole.

Managers on the part of the Senate.

Ayes, 2. Noes, none. Excused, 1 (Keohokalole).

Representatives Takenouchi, Nakashima, Kitagawa, Amato, and Garcia.

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 166-24 on H.B. No. 1932

The purpose of this measure is to:

- (1) Authorize the Department of Transportation to acquire and hold title to real, personal, or mixed property for certain purposes;
- (2) Amend the definition of “public lands” to exclude lands to which the Department of Transportation holds title; and
- (3) Authorize the Department of Transportation to expend funds to directly acquire real property for projects relating to climate mitigation and adaptation and visual and noise buffer zones and barriers.

Your Committee on Conference has amended this measure by:

- (1) Removing language subjecting the disposal of lands held by the Department of Transportation to the same requirements for the disposal of submerged or reclaimed lands;
- (2) Inserting language granting the Director of Transportation the same powers as the Board of Land and Natural Resources for functions subject to Chapter 171, Hawaii Revised Statutes;
- (3) Inserting language requiring a department or agency with control of state lands to convey title or lease of those lands to the Department of Transportation upon request by the Department of Transportation and subject to approval by the Governor;
- (4) Clarifying that lands set aside by the Governor for the Department of Transportation or lands leased by the Department of Transportation are excluded from the definition of “public lands”;
- (5) Changing the effective date to July 1, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1932, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1932, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Inouye, and Kanuha.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Todd, Tarnas, Kila, Aiu, Evslin, and Matsumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 167-24 on H.B. No. 1763

The purpose of this measure is to:

- (1) Prohibit the Hawaii Housing Finance and Development Corporation from forgiving any loan made from the Rental Housing Revolving Fund unless the Corporation forecloses on the project;
- (2) Amend the permitted uses of and priority for which monies in the Rental Housing Revolving Fund are to be used;
- (3) Repeal the authorization to use the Rental Housing Revolving Fund to provide grants; and
- (4) Require the Hawaii Housing Finance and Development Corporation to submit a report to the Legislature on plans to revolve funds back into the Rental Housing Revolving Fund.

Your Committee on Conference has amended this measure by:

- (1) Defining “efficiency” and “feasibility”;
- (2) Expanding the permitted uses of the Rental Housing Revolving Fund to include credit enhancement, rather than credit enhancement for construction loans, and gap financing;
- (3) Clarifying that the rental housing projects that are eligible to receive a Rental Housing Revolving Fund loan are those that demonstrate project readiness, efficiency, and feasibility, with priority given to projects with a perpetual affordability commitment;
- (4) Changing the effective date to July 1, 2024; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1763, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1763, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. 168-24 on H.B. No. 2790

The purpose of this measure is to require the Hawaii Housing Finance and Development Corporation to submit a report analyzing the feasibility of continuing to fund the operations of the housing loan and mortgage program.

Your Committee on Conference has amended this measure by changing the effective date to July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2790, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2790, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 169-24 on H.B. No. 2404

The purpose of this measure is to:

- (1) Amend the amounts for the income tax brackets and standard deduction amounts for each filing status for taxable years beginning after December 31, 2023; and
- (2) For taxable years beginning after December 31, 2024, annually adjust the income tax brackets and standard deduction amounts by a cost-of-living adjustment factor.

Your Committee on Conference has amended this measure by:

- (1) Removing the annual adjustment for taxable years beginning after December 31, 2024, to income tax brackets and standard deduction amounts by a cost-of-living adjustment factor;
- (2) Amending the standard deduction amounts for each filing status for taxable years 2024, 2026, 2028, 2030, and 2031;
- (3) Amending the income tax brackets for each filing status for taxable years 2025, 2027, and 2029;
- (4) Making it effective upon approval; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2404, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2404, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. 170-24 on S.B. No. 116

The purpose of this measure is to authorize the issuance of special number plates to commemorate Duke Kahanamoku.

Your Committee on Conference finds that Duke Kahanamoku was one of the first internationally recognized Native Hawaiians with a multitude of achievements that have contributed greatly to Hawaii's favorable international reputation. This measure will honor Duke Kahanamoku through the issuance of a commemorative special license plate.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the special number plate design contains words, images, or both, not to exceed four and a half inches in height by four inches in width; and
- (2) Inserting an effective date of July 1, 2024.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 116, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 116, S.D. 1, H.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 171-24 on S.B. No. 3220

The purpose of this measure is to:

- (1) Transfer the enforcement of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation;
- (2) Make conforming amendments; and
- (3) Appropriate funds.

Your Committee on Conference finds that although the Public Utilities Commission is responsible for the enforcement of the Motor Carrier Law under existing law, the Department of Transportation, which has jurisdiction over the State's facilities and infrastructure in all modes of transportation (land, air, and water), would be better-suited to regulate and enforce the Motor Carrier Law, as the regulation of vehicles over the public highways would more naturally fall under its purview. Therefore, this measure transfers jurisdiction over the enforcement of the Motor Carrier Law to the Department of Transportation for the purpose of improving administrative efficiency.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have appropriated funds;
- (2) Inserting language requiring the transfer of enforcement of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation to be completed before December 31, 2024;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3220, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3220, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Keohokalole, and Kanuha.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Nakashima, Kila, Amato, and Pierick.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Pierick).

Conf. Com. Rep. 172-24 on S.B. No. 2443

The purpose of this measure is to:

- (1) Establish the Automated Speed Enforcement Systems Program, to be implemented by the State in only those locations where a photo red light imaging detector system has been implemented;
- (2) Create a new offense of noncompliance with maximum speed limit under automated speed enforcement system; and
- (3) Appropriate funds.

Your Committee on Conference finds that speed safety cameras are a proven method to deter speeding and are recommended by the National Transportation Safety Board and the Federal Highway Administration for local and state adoption. Your Committee on Conference further finds that an Automated Speed Enforcement Systems Program will reduce speed-related traffic fatalities throughout the State.

Your Committee on Conference has amended this measure by:

- (1) Inserting language that prohibits citations to be issued for vehicles driving not less than five miles per hour over the posted maximum speed limit;
- (2) Inserting language that authorizes the Department of Transportation to raise the minimum threshold for issuance of a citation pursuant to rules adopted pursuant to chapter 91, Hawaii Revised Statutes;

- (3) Clarifying that photographs, microphotographs, video, or other recorded images produced by the automated speed enforcement system shall be prima facie evidence;
- (4) Clarifying that any photographs, microphotographs, video, or other recorded images evidencing a violation be available for inspection in any proceeding to adjudicate the liability for that violation;
- (5) Deleting the full-time equivalent positions for the administration of the Automated Speed Enforcement Systems Program;
- (6) Inserting an appropriation out of the State Highway Fund for the Automated Speed Enforcement Systems Program Special Fund;
- (7) Inserting an appropriation amount of \$5,000,000 out of the Automated Speed Enforcement Systems Program Special Fund for the purpose of ten radar devices and for the operation of the Automated Speed Enforcement Systems Program;
- (8) Inserting an effective date of July 1, 2024; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2443, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2443, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Wakai, Rhoads, and Kanuha.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Wakai).

Representatives Todd, Tarnas, Kila, Miyake, and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Tarnas).

Conf. Com. Rep. 173-24 on S.B. No. 2841

The purpose of this measure is to designate May 15 of each year as Water Safety Day.

Your Committee on Conference finds that between 2018 and 2022, drowning was the leading cause of death for children one to seventeen years of age in Hawaii. Accordingly, this measure will spread awareness of drowning and educate youth in becoming safer in and around the water by designating May 15 of each year as Water Safety Day.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2841, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2841, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Lee, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Tam, Tarnas, Kitagawa, Ganaden, and Alcos.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 2 (Ganaden, Alcos).

Conf. Com. Rep. 174-24 on S.B. No. 3242

The purpose of this measure is to:

- (1) Require the Department of Transportation or county transportation agency having jurisdiction over roads, highways, or similar infrastructure to evaluate high-risk or dangerous corridors or intersections and plan strategies for mitigation; and
- (2) Provide that an engineering study is not required to be considered if the Department of Transportation or any county decreases maximum speed limits within one mile of a school.

Your Committee on Conference finds that serious motor vehicle accidents are a growing concern in the State where numerous crashes have occurred near schools, causing injuries and fatalities. This measure will help expedite safety improvements to dangerous areas to increase the safety of the State's roadways.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3242, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3242, S.D. 1, H.D. 1, C.D. 1.

Signed by the Senate President and Chairs on behalf of the Committee.

Senators Lee, Wakai, and Inouye.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Wakai).

Representatives Todd, Tarnas, Kila, Miyake, and Matsumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Matsumoto).

Conf. Com. Rep. 175-24 on S.B. No. 2240

The purpose of this measure is to:

- (1) Require and appropriate funds for the Office of Elections to file an application with the Electronic Registration Information Center, Inc., (ERIC) for the State to be admitted as a member of the organization;
- (2) Require the State and each county to use the information and services made available by ERIC to verify their voter registration rolls; and
- (3) Require the Office of Elections to request an appropriation from the Legislature, beginning fiscal year 2025—2026 and each fiscal year thereafter, for the State’s annual membership dues to ERIC.

Your Committee on Conference finds that ERIC, is a nonprofit organization that was formed to help states improve the accuracy of voter registration rolls by using secure data-matching tools. This measure will provide another tool for election officials to maintain the accuracy and integrity of the voter registration rolls by allowing election officials to compare the State’s voter registration file and driver license and identification card file with other member states.

Your Committee on Conference has amended this measure by:

- (1) Inserting legislative findings clarifying that part of the process for a state to be admitted as a member of ERIC is for that state to send mailers to its residents who have driver’s licenses but are not registered to vote, encouraging them to register to vote;
- (2) Inserting an appropriation amount of \$125,000 for the Office of Elections to prepare and file an application with ERIC, for the State to be admitted as a member of the organization, and for the Office of Elections to send mailers to all Hawaii residents who have driver’s licenses but are not registered to vote, encouraging them to register to vote;
- (3) Inserting an effective date of July 1, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2240, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2240, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Rhoads, Shimabukuro, Elefante, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Tarnas, Nishimoto, Garrett, Holt, and Souza.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 176-24 on S.B. No. 2726

The purpose of this measure is to:

- (1) Require the Legislative Reference Bureau to conduct a study on condominium property regimes and the approaches used in certain other jurisdictions with respect to ombudsman programs, licensing for management, alternative dispute resolution, governmental regulation, owner education, and owner access to condominium documents;
- (2) Extend the deadline for the final report and the cease date for the Condominium Property Regime Task Force to June 30, 2026; and
- (3) Make an appropriation for the study.

Your Committee on Conference finds that the Condominium Property Regime Task Force established by Act 189, Session Laws of Hawaii 2023, requested the Legislature to task the Legislative Reference Bureau with studying and reporting on several specific subjects relating to condominium property regimes that would enable the Task Force to thereafter recommend legislation suitable to Hawaii’s needs on an informed and objective basis. Therefore, this measure requires and appropriates funds for the Legislative Reference Bureau to complete the requested study of condominium subjects in other states and provides additional time for the Condominium Property Regime Task Force to complete its work based on the Legislative Reference Bureau’s future findings and recommendations.

Your Committee on Conference has amended this measure by:

- (1) Inserting a general fund appropriation amount of \$200,000 for the Legislative Reference Bureau to conduct the requested study;
- (2) Making an appropriation in the amount of \$150,000 from the Condominium Education Trust Fund established pursuant to section 514B-71, Hawaii Revised Statutes, for the Legislative Reference Bureau to conduct the requested study, subject to certain conditions;
- (3) Inserting an effective date of July 1, 2024; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2726, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2726, S.D. 2, H.D. 1, C.D. 1.

Signed by the Senate Majority Leader and Chairs on behalf of the Committee.

Senators Keohokalole, Fukunaga, Moriwaki, and Awa.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Awa).

Representatives Sayama, Kitagawa, Hussey-Burdick, Tam, and Pierick.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Hussey-Burdick, Pierick).

Conf. Com. Rep. 177-24 on S.B. No. 2085

The purpose of this measure is to establish and appropriate funds for the Office of the State Fire Marshal to direct statewide efforts in preventing and responding to fires throughout the State.

Your Committee on Conference finds that the State Fire Marshal position was abolished in 1979 and replaced by the State Fire Council, composed of the Fire Chiefs of the four counties, Fire Chief of the State Aircraft Rescue Firefighting Unit, and a representative of the Division of Forestry and Wildlife Division of the Department of Land and Natural Resources. Your Committee on Conference further finds that while the State Fire Council acts as the de facto State Fire Marshal's office, the members serve as non-compensated volunteers, and can only meet on a quarterly basis due to the high demand of their leadership positions within their fire respective services. Therefore, this measure establishes the Office of the State Fire Marshal to provide critical input and oversight to the State's Fire Code, coordinate with county fire departments and other agencies in promoting fire safety and the efficient deployment of fire operations in the State, and oversee the training and certification of fire inspectors and investigators in the State, among other duties.

Your Committee on Conference has amended this measure by:

- (1) Requiring the State Fire Marshal to be appointed by the State Fire Council, rather than by the Governor;
- (2) Requiring the State Fire Marshal to serve a term of five years rather than ten years;
- (3) Inserting language requiring the State Fire Council to meet expeditiously to select and appoint a new State Fire Marshal to serve the remainder of the unexpired term in the event of a vacancy;
- (4) Deleting language that would have required the State Fire Marshal to:
 - (A) Coordinate with county fire departments and other agencies in promoting fire safety and the efficient deployment of fire operations in the State; and
 - (B) Administer state-level fire protection training and aid in the establishment of training facilities and programs, including statewide standardization of certification and training levels for firefighters;
- (5) Inserting language that clarifies that the duties of the State Fire Marshal include:
 - (A) Coordinating fire protection efforts between local agencies for the State;
 - (B) Working with the State Fire Council on matters relating to fire services in the State;
 - (C) Working with state and county law enforcement agencies for enforcement of the State Fire Code;
 - (D) Reviewing and assessing the fire risk of the State;
 - (E) Reviewing and proposing amendments to the State Fire Code and submitting the proposed amendments to the State Fire Council for the Council's consideration in its adoption of or amendments to the State Fire Code;
 - (F) Reviewing the emergency resources that are available in the State to be deployed to address fires;
 - (G) Assessing whether the State would benefit from a statewide public fire safety messaging program; and
 - (H) Assisting in the disbursement of federal grants for structural fire protection purposes to the counties;
- (6) Clarifying that the State Fire Marshal may utilize the services of the State Fire Council, including its advisory committees and administrative staff, as appropriate;
- (7) Inserting language including the State Fire Marshal in the list of positions excepted from the application of chapter 76, Hawaii Revised Statutes, the State's Civil Service Law;
- (8) Inserting language requiring the State Fire Council to establish the terms of employment for the position of the State Fire Marshal and appoint the State Fire Marshal;
- (9) Inserting an appropriation amount of \$172,000 for the following:
 - (A) \$120,000 for the establishment of one full-time equivalent (1.00 FTE) permanent State Fire Marshal position;
 - (B) \$40,000 for the establishment of one full-time equivalent (1.00 FTE) permanent position to support the State Fire Marshal; and

- (C) \$12,000 for training, office supplies, rent, and other operating and administrative costs to support the State Fire Marshal;
- (10) Amending section 1 to reflect its amended purpose;
- (11) Inserting an effective date of July 1, 2024; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2085, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2085, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Wakai, Hashimoto, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Fevella).

Representatives Ichiyama, Matayoshi, Poepoe, Kila, M. Mizuno, and Souza.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. 178-24 on S.B. No. 2991

The purpose of this measure is to:

- (1) Require the Hawaii Labor Relations Board to adopt rules establishing criteria and procedures for the creation of new bargaining units;
- (2) Require the Hawaii Labor Relations Board to issue a decision and order upon making a determination of whether or not to approve the petition, and if approved, submit a report for the Legislature to consider and enact the establishment of the new bargaining unit; and
- (3) Appropriate funds for the development of the criteria and procedures for the creation of new bargaining units and to establish an unspecified number of new positions within the Hawaii Labor Relations Board to implement the criteria and procedures.

Your Committee on Conference finds that the Legislature currently holds the exclusive authority to establish a new bargaining unit through legislation. Your Committee on Conference also finds that there is no path or process for those wishing to create a new bargaining unit to follow. Therefore, this measure will establish clear criteria and procedures to create new bargaining units as well as transfer a portion of the screening authority for prospective bargaining units from the Legislature to the Hawaii Labor Relations Board.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$95,000 for the establishment of one full-time equivalent (1.0 FTE) staff attorney position (LBR 161), exempt from chapter 76, Hawaii Revised Statutes, within the Hawaii Labor Relations Board;
- (2) Inserting an effective date of July 1, 2024;
- (3) Inserting a repeal date of July 1, 2027; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2991, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2991, S.D. 2, H.D. 2, C.D. 1.

Senators Aquino, Rhoads, Moriwaki, and Fevella.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Matayoshi, Garrett, Martinez, Sayama, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 179-24 on S.B. No. 2782

The purpose of this measure is to require the Office of Enterprise Technology Services to develop multilingual accessibility standards and appropriate funds to establish an unspecified number of program manager positions within the Office of Enterprise Technology Services.

Your Committee on conference finds that electronic information technology is rapidly replacing print media, emphasizing the importance of ensuring access to technology for all residents to participate fully in state programs, services, and activities. Providing equal access to state services and information for individuals with limited English proficiency upholds fundamental fairness principles and when diverse communities can fully engage with state resources, it promotes entrepreneurship, workforce participation, and consumer spending, thereby benefiting the economy. Therefore, this measure will provide clear technical guidance related to public access to vital information and documents and standardize performance criteria and technical requirements across the State's enterprise technology systems.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$100,000 for the establishment of one full-time equivalent (1.0 FTE) permanent program manager position within the Office of Enterprise Technology Services;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2782, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2782, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators Aquino, Kanuha, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 180-24 on S.B. No. 2787

The Purpose of this measure is to establish the Immigration Services and Access Unit within the Department of Labor and Industrial Relations' Office of Community Services and appropriate funds for the unit, including funding for new positions.

Your Committee on Conference finds that Hawaii is one of the most culturally diverse states with one of the highest proportions of non-English speakers in the nation, many of them being immigrants and migrants with limited English proficiency. Your Committee on Conference further finds that English proficiency, or the lack thereof, has a great impact on people's economic and social activities, and health literacy and wellness. Therefore, this measure will allow the Office of Language Access to further improve language access within state government, provide a critical link for communication, and make State services accessible to individuals with limited English proficiency.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$450,000 to fund the Immigrant Services and Access Unit within the Office of Community Services, to be expended as follows:
 - (A) \$80,000 to establish one full-time equivalent (1.0 FTE) Unit Supervisor Position;
 - (B) \$48,000 to establish one full-time equivalent (1.0 FTE) Fiscal Clerk position;
 - (C) \$12,000 as operation funds, including funds for on-site monitoring, legal review costs, printing costs, and travel expenses to attend conference training;
 - (D) \$300,000 to expand the Immigration Resource Centers to provide more direct client assistance for naturalization fees and replacement of U.S. Customs and Border Protection Form I-94 Arrival/Departure Records, and to specifically provide further assistance to immigrants affected by the August 2023 Maui wildfires; and
 - (E) \$10,000 for furniture and equipment for the newly established positions;
- (2) Inserting an effective date of July 1, 2024; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2787, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2787, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Kanuha, and Fevella.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Fevella).

Representatives Matayoshi, Lamosao, Garrett, M. Mizuno, and Alcos.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (M. Mizuno).

Conf. Com. Rep. 181-24 on S.B. No. 2461

The purpose of this measure is to:

- (1) Authorize medical cannabis dispensaries to purchase cannabis and manufactured cannabis products from other dispensaries without any showing that the purchase is necessary for a qualifying patient's continuous access to cannabis for medical use, or the cannabis and manufactured cannabis products are for medical, scientific, or other legitimate purposes; and
- (2) Require the Department of Health to adopt rules regarding medical cannabis products within a certain timeframe.

Your Committee on Conference finds that the State's medical cannabis dispensary program is intended to ensure that qualifying patients have safe and legal access to medical cannabis, which can be enhanced through the efficiencies derived from wholesaling. Notwithstanding, under existing law, a medical cannabis dispensary can only purchase cannabis and manufactured cannabis products directly from another dispensary if they can demonstrate a specific need for the purchase and obtain prior approval from the Department of Health. Your Committee on Conference finds that by authorizing sales between dispensaries of cannabis products as a matter of course, without having to demonstrate a specific need and obtain approval, this measure will increase the availability of medical cannabis, lower costs for patients, and improve the administration of the State's medical cannabis dispensary program.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Health to adopt rules regarding medical cannabis products no later than nine months after a product is permitted to be manufactured and distributed pursuant to section 329D-10(a), Hawaii Revised Statutes, the state law governing the types of manufactured cannabis products;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Making it effective upon its approval; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 2461, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 2461, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, and Rhoads.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Tarnas, Gates, Belatti, Morikawa, Kahaloa, Takenouchi, and Souza.

Managers on the part of the House.

Ayes, 7. Noes, none. Excused, none.

Conf. Com. Rep. 182-24 on S.B. No. 63

The purpose of this measure is to:

- (1) Authorize the Board of Nursing to issue temporary permits for six-month periods to out-of-state licensed practical nurses and registered nurses or nurses who hold a multistate license issued by another state, territory, or foreign country, under certain circumstances;
- (2) Provide an exception from licensing requirements to nurses who are licensed in another state, territory, or foreign country and accompanying a patient from out-of-state for a period of less than two weeks and who are not employed or affiliated with a health care entity in the State; and
- (3) Appropriate funds to the Department of Commerce and Consumer Affairs to implement the regulation of nurses as required by this measure.

Your Committee on Conference finds that the State is experiencing a chronic shortage of medical professionals statewide. This measure establishes a streamlined procedure for certain nurses who are not licensed in the State to practice in the State under a temporary permit valid for six months, and requires the Board of Nursing to issue temporary permits within ten business days of the date the completed application is received to help alleviate the strain on the existing nursing workforce.

Your Committee on Conference has amended this measure by:

- (1) Inserting language clarifying that the Board of Nursing may issue a temporary permit to a practical nurse or registered nurse licensed in another jurisdiction who meets certain criteria;
- (2) Inserting language clarifying that the Board of Nursing may issue a temporary permit to a nurse who currently holds a multistate license issued by another state, territory, or country; provided that the individual meets certain criteria;
- (3) Deleting language that would have provided that temporary permits issued pursuant to this measure would in no case be valid for more than a period of six month from the date of issuance and that a new and separate temporary permit may be issued under certain conditions;
- (4) Inserting language that, beginning July 1, 2025:
 - (A) Allows an out-of-state registered nurse or licensed practical nurse to apply for a temporary permit simultaneously with an application for a license to practice as a registered nurse or licensed practical nurse in the State;
 - (B) Requires any out-of-state registered nurse or licensed practical nurse applying simultaneously for a temporary permit and license to practice to submit only one application with a single, non-refundable fee as prescribed by the Board of Nursing; and
 - (C) Requiring the simultaneous temporary permit to be issued within ten business days of the date the completed application is received by the Board of Nursing under certain conditions and to be valid until the time the Board of Nursing approves the individual's application for a license to practice as a registered nurse or licensed practical nurse, but no longer than one year;

- (5) Inserting language allowing the Department of Commerce and Consumer Affairs to employ necessary personnel without regard to chapter 76, Hawaii Revised Statutes, including one full-time equivalent (1.0 FTE) permanent Office Assistant, for the purposes of this measure;
- (6) Deleting language that would have made an appropriation;
- (7) Inserting an effective date of July 1, 2024; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 63, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 63, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators San Buenaventura, Keohokalole, and Shimabukuro.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Belatti, Matayoshi, Nakashima, Takenouchi, and Alcos.

Ayes, 4. Noes, none. Excused, 1 (Alcos).

Conf. Com. Rep. 183-24 on S.B. No. 3139

The purpose of this measure is to:

- (1) Establish a Crisis Intervention and Diversion Services Program within the Department of Health to expand existing services to divert those with mental health issues to appropriate health care services;
- (2) Require the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and training and certification for crisis intervention officers;
- (3) Define “mental health emergency worker” and “crisis intervention officer”; and
- (4) Appropriate funds.

Your Committee on Conference finds that thousands of people in the State are cited or arrested each year for offenses such as drinking liquor in public, loitering in public parks after hours, and camping on sidewalks, beaches, and other restricted public places. Most of these people suffer from issues relating to drugs, alcohol, or mental illness and may be better served through the health care system, rather than the criminal justice system. This measure establishes a Crisis Intervention and Diversion Services Program to ensure that persons having mental illnesses or co-occurring mental illnesses and substance use disorders receive appropriate treatment.

Your Committee on Conference has amended this measure by:

- (1) Deleting language that would have required the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and crisis intervention officers;
- (2) Deleting language that would have included in the list of positions excepted from State’s Civil Service Law, three Crisis Intervention Coordinator positions in the Department of Law Enforcement;
- (3) Amending section 334-59, Hawaii Revised Statutes, which governs emergency examination and hospitalization of persons who are deemed imminently dangerous to self or others, by inserting language that:
 - (A) Clarifies when a law enforcement officer may gain control of the person and the procedures the officer shall take to call for assistance from a mental health emergency worker;
 - (B) Requires a Crisis Intervention Officer to call a mental health emergency worker if the Officer has probable cause to believe that the person is imminently dangerous to self or others, to determine if the person should be transported by ambulance or other suitable means to a behavioral health crisis center designated by the director; and
 - (C) Defines “crisis intervention officer”;
- (4) Deleting language that would have appropriated funds;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3139, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3139, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs and Speaker of the House of Representatives on behalf of the Committee.

Senators San Buenaventura, Moriwaki, and Rhoads.
Managers on the part of the Senate.

Conf. Com. Rep. 184-24 on S.B. No. 582

The purpose of this measure is to make emergency appropriations, and reallocate certain state moneys, to fund the State's response to the August 2023 wildfires on the island of Maui.

More specifically, the measure:

- (1) Makes emergency appropriations for certain Federal Emergency Management Agency-eligible and Federal Emergency Management Agency-ineligible costs related to the August 2023 Maui wildfires;
- (2) Makes an emergency appropriation to fund the One Ohana Bank Trust Account to compensate Maui wildfire victims;
- (3) Repeals the general obligation bond appropriation for the Other Post-Employment Benefits Trust Fund and the Pension Accumulation Fund;
- (4) Temporarily lifts various restrictions on the use of the Major Disaster Fund and extends the lapse date of certain disaster relief funds to allow continued expenditures for the wildfire relief efforts; and
- (5) Requires the state Department of Defense and the Governor to submit reports on expenditures and federal reimbursements related to the August 2023 Maui wildfires.

Your Committee on Conference finds that the State's total expenses for Hawaii's response to the August 2023 Maui wildfires are expected to exceed the \$199,100,000 allocated to the Major Disaster Fund for initial wildfire response and recovery efforts. The emergency appropriations and reallocation of funds authorized by this measure are necessary so that the State may continue to aid displaced individuals and families, restore crucial infrastructure, and implement measures to prevent future wildfires.

Your Committee on Conference has amended this measure by:

- (1) Amending the appropriation to the Departmental Administration and Budget Division of the Department of Budget and Finance for noncongregate housing and other expenses related to the Maui wildfires by:
 - (A) Changing the appropriation amount from \$292,400,000 to \$297,000,000; and
 - (B) Providing that no funds shall be transferred unless matched by at least \$40,000,000 in private funds;
- (2) Deleting the appropriation to the Departmental Administration and Budget Division of the Department of Budget and Finance for services, goods, or construction that are eligible for partial federal reimbursement via certain public assistance programs;
- (3) Deleting a provision repealing the general obligation bond appropriation for the Other Post-Employment Benefits Trust Fund and the Pension Accumulation Fund;
- (4) Deleting a provision limiting the use of federal reimbursement moneys for the Maui wildfires disaster to expenditures for the State's share of services, goods, or construction that are eligible for partial federal reimbursement via certain public assistance programs, and making conforming amendments;
- (5) Deleting reporting requirements for the Governor and state Department of Defense on expenditures and federal reimbursements relating to the August 2023 Maui wildfires disaster;
- (6) Changing the effective date from July 1, 3000, to upon the measure's approval;
- (7) Changing the repeal and reenactment date of sections 37-41.5 and 127A-16, Hawaii Revised Statutes, from July 1, 2029, to July 1, 2026;
- (8) Changing the lapse date from July 1, 2029, to June 30, 2026, for any unencumbered trust account moneys retained in the account to be used for the recovery efforts from the Maui wildfires disaster that began on August 8, 2023;
- (9) Reordering certain sections of the measure for clarity; and
- (10) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 582, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 582, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hashimoto, DeCoite, and Fevella.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Kitagawa, Nishimoto, Poepoe, and Alcos.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. 185-24 on S.B. No. 3091

The purpose of this measure is to make an emergency appropriation to the Department of Education for its food service operations.

Your Committee on Conference finds that meals provided to students at Department of Education schools are critical to the development and well-being of Hawaii's students, which have become increasingly essential for thousands of students who rely on school breakfasts and lunches. This measure provides the Department of Education with critical funding to continue food service operations at public schools.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$20,000,000 for fiscal year 2023-2024 for the Department of Education to cover its food service operations;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3091, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3091, S.D. 2, H.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 186-24 on S.B. No. 3092

The purpose of this measure is to make an emergency appropriation to the Department of Education for charter school operations.

Your Committee on Conference finds that the Department of Education has a statutory mandate to provide proportional funding to charter schools commensurate with the respective school's student enrollment. This measure provides critical funding to support the operations and educational opportunities for students at Hawaii's public charter schools.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$6,600,000 for fiscal year 2023-2024 for the Department of Education to provide funding for charter schools;
- (2) Making it effective upon its approval; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3092, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3092, S.D. 2, H.D. 1, C.D. 1.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. 187-24 on H.B. No. 2340

The purpose of this measure is to satisfy several claims against the State, its officers, or its employees.

Your Committee on Conference has amended this measure by:

- (1) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (2) Deleting the appropriation of \$800,000 in general funds for a settlement in the case of Schweitzer v. State of Hawaii;
- (3) Appropriating \$35,000 in general funds for a settlement in the case of Ralph Fukumoto v. State of Hawaii, Department of Public Safety;
- (4) Authorizing the payment of \$36,536.06 in general funds appropriated to the Department of the Attorney General for a settlement in the case of State of Hawaii v. The Honorable Jeffrey P. Crabtree and the Sierra Club;
- (5) Changing the effective date to upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2340, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2340, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. 188-24 on H.B. No. 40

The purpose of this measure is to provide a tax credit to taxpayers and appropriate funds for fiscal year 2023-2024 to be deposited into the Emergency and Budget Reserve Fund and Other Post-Employment Benefits Trust Fund pursuant to Article VII, section 6, of the Hawaii State Constitution.

Your Committee on Conference has amended this measure by:

- (1) Removing the provisions that provided an income tax credit;
- (2) Inserting an appropriation amount of \$300,000,000 to be deposited into the Emergency and Budget Reserve Fund and making the appropriation for fiscal year 2024-2025;
- (3) Inserting an appropriation amount of \$135,000,000 to be deposited into the Pension Accumulation Fund and making the appropriation for fiscal year 2024-2025;
- (4) Adding the requisite information for making an appropriation in excess of the general fund expenditure ceiling pursuant to article VII, section 9, of the Hawaii State Constitution and sections 37-91 and 37-93, Hawaii Revised Statutes;
- (5) Changing the effective date to July 1, 2024; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 40, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 40, S.D. 1, C.D. 1.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. 189-24 on S.B. No. 3068

The purpose of this measure is to make various appropriations to facilitate Maui's recovery from the August 2023 wildfires, including for repairs and replacement of infrastructure that will reduce the risk of future wildfires.

Specifically, this measure:

- (1) Appropriates \$200,000,000 from the state risk management revolving fund for disbursement of wildfire insurance claim payments;
- (2) Appropriates \$186,160,000 as a set-aside for wildfire recovery costs;
- (3) Authorizes the Governor to transfer funds to other state agencies and requires the Governor and the departments receiving those funds to report those transfers to the Legislature;
- (4) Appropriates \$10,000,000 for fire and emergency response equipment; and
- (5) Authorizes the Director of Finance to issue \$63,560,000 in reimbursable general obligation bonds for various projects on Maui.

Your Committee on Conference finds that in August 2023, the island of Maui suffered devastating wildfires that resulted in one hundred one confirmed fatalities, sweeping destruction of homes and businesses, and catastrophic impacts to the Maui community. Your Committee believes that the recovery of Maui will require additional moneys and programs along with authorizations for the expenditure of various federal funds. Your Committee further finds that a prudent recovery should include infrastructure repairs and replacement that will help to prevent future wildfires.

Your Committee on Conference has amended this measure by:

- (1) Amending the purpose section to reflect current efforts to support the Maui wildfire recovery and the reduction of future wildfire risks;

- (2) Adding an appropriation of \$62,500 in general funds for a temporary library to be located in Lahaina, Maui;
- (3) Adding an appropriation of \$424,344 in general funds for six full-time equivalent temporary positions within the Department of Human Services;
- (4) Adding appropriations of \$13,370,000 in general funds and \$12,751,554 in federal funds for emergency management related to the Maui wildfires;
- (5) Adding an appropriation of \$521,473 from the conservation and resources enforcement special fund for the Department of Land and Natural Resources, Division of Conservation and Resources Enforcement, for the Maui wildfire recovery efforts;
- (6) Adding an appropriation of \$1,000,000 from the public utilities commission special fund for consultant contracts for utility dockets, to be expended by the Public Utilities Commission;
- (7) Adding an appropriation, or authorizing the expenditure of federal moneys received by the State, of up to \$20,000,000 for wildfire response, recovery, and prevention measures;
- (8) Adding an appropriation of \$7,425,000 in general funds for fire response and rehabilitation, and wildfire fuels reduction, contracts;
- (9) Adding an appropriation of \$1,412,928 in general funds for twenty-two full-time equivalent positions within the Native Resources and Fire Protection Program of the Department of Land and Natural Resources;
- (10) Deleting from the measure the authorization to issue reimbursable general obligation bonds in the amount of \$63,560,000 for various projects on Maui since the authorizations for those projects were recently included in the Supplemental Appropriations Act of 2024;
- (11) Adding an appropriation of \$10,000,000 in general funds for fire and emergency response equipment;
- (12) Adding an appropriation, or authorizing the expenditure of federal moneys received by the State, of up to \$3,549,000 for fire and emergency response equipment;
- (13) Adding an appropriation of \$900,000 from the public utilities commission special fund for consultant contracts for utility dockets, to be expended by the Division of Consumer Advocacy;
- (14) Adding amendments to the General Appropriations Act of 2023, Act 164, Session Laws of Hawaii 2023, as amended by House Bill 1800, H.D. 1, S.D. 1, C.D. 1, passed by the Legislature during the Regular Session of 2024, to:
 - (A) Require that of the general fund appropriation for the Hawaii Association of Conservation Districts, \$400,000 shall be expended in accordance with chapter 180, Hawaii Revised Statutes, and also requiring that the moneys shall be used to match extramural funding for stormwater management for drought resiliency and reducing wildfire risk, along with requiring that the Department of Land and Natural Resources submit a report to the Legislature accounting for the usage of the moneys;
 - (B) Require that of the general fund appropriation for amelioration of natural disasters, the sum of \$194,000 shall be expended for civilian auxiliary aviation services; and
 - (C) Require reimbursement to the State from the County of Maui for certain wildfire recovery projects;
- (15) Adding an appropriation of \$2,334,681 for the University of Hawaii Economic Research Organization to conduct a multiethnic cohort study on the health effects of the August 2023 Maui wildfires and to develop and maintain a registry of those affected by the wildfires to assess their long-term health and well-being and the impacts on communities;
- (16) Requiring the lapsing of appropriations in the measure that are unencumbered as of June 30, 2025;
- (17) Changing the effective date to July 1, 2024; and
- (18) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3068, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3068, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Wakai, Hashimoto, and Elefante.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Yamashita, Cochran, Kahaloa, Kila, Kitagawa, Miyake, Poepoe, and Ward.

Managers on the part of the House.

Ayes, 8. Noes, none. Excused, none.

Conf. Com. Rep. 190-24 on H.B. No. 2374

The purpose of this measure is to make emergency appropriations for:

- (1) Collective bargaining cost items for the members of Bargaining Units (2), (3), (4), (9), (13), and (14) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2023-2025; and

- (2) The public employment cost items and cost adjustments for employees of the Senate, House of Representatives, and various legislative agencies who are excluded from collective bargaining.

Your Committee on Conference has amended this measure by:

- (1) Appropriating a total of \$449,016,917 for collective bargaining cost items for the members of Bargaining Units (2), (3), (4), (8), (9), (13), and (14) and their excluded counterparts, including the cost of salary adjustments negotiated between the State and the bargaining unit representative for fiscal biennium 2023-2025;
- (2) Deleting language that would have appropriated an unspecified amount for state officers and employees who are excluded from collective bargaining and belong to the same compensation plans as those officers and employees within certain bargaining units;
- (3) Deleting language that would have appropriated an unspecified amount for salary increases and other cost adjustments by the Chief Justice for state officers and employees who are excluded from collective bargaining and belong to the same compensation plans as those officers and employees within certain bargaining units;
- (4) Deleting language that would have appropriated an unspecified amount for salary increases and other cost adjustments for state officers and employees who are excluded from collective bargaining, assigned to the Hawaii Health Systems Corporation, and belong to the same compensation plans as those officers and employees within certain bargaining units;
- (5) Appropriating a total of \$7,800,000 for fiscal biennium 2023-2025 for the public employment cost items and cost adjustments for employees of the Senate, House of Representatives, and various legislative agencies who are excluded from collective bargaining;
- (6) Inserting the amount and percentage of exceedance of the appropriation over the general fund expenditure ceiling;
- (7) Changing the effective date to upon approval; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 2374, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 2374, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Aquino, Moriwaki, and Fevella.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

STANDING COMMITTEE REPORTS

SCRep. 2101 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2228

The purpose and intent of this measure is to authorize the use of the Reduced Ignition Propensity Cigarette Program Special Fund to support the duties and responsibilities of the State Fire Council, in addition to administering and enforcing the Reduced Ignition Propensity Cigarette Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Labor and Industrial Relations, Hawaii State Fire Council, and Honolulu Fire Department.

Your Committee finds that funding statewide fire prevention programs is a necessary component to protect the State, particularly vulnerable communities such as seniors, young people, and people with disabilities. Your Committee notes that the State Fire Council's primary mission is to develop and support a comprehensive fire service emergency management network; promote the standardization of fire service reporting, training, sharing of technology; and establish best management practices. This measure will allow the State Fire Council to defray the costs of fire prevention, education, life safety, and preparedness programs.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2228 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2102 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on S.B. No. 2005

The purpose and intent of this measure is to require the Department of Corrections and Rehabilitation to construct a mental health facility for inmates and detainees in custody of the Department.

Your Committees received testimony in support of this measure from the Department of Health, Department of Corrections and Rehabilitation, Office of the Prosecuting Attorney, National Alliance on Mental Illness Hawaii, and three individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Substance Abuse Coalition; ACLU of Hawai'i; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii Health & Harm Reduction Center, and four individuals.

Your Committees received comments on this measure from the Hawaii Paroling Authority.

Your Committees find that forty percent of incarcerated people have a history of mental illness and that the Hawaii Corrections System is currently incapable of treating inmates with mental illnesses. Your Committees further note that many individuals are in need of rehabilitative care and treatment including social services, cultural education, mental health, and reintegration assistance. This measure will assist the Department of Corrections and Rehabilitation in providing mental health treatment for inmates and detainees, reducing recidivism, and promoting public safety.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2005 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety and Intergovernmental and Military Affairs: Ayes, 4; Ayes with Reservations (Elefante, Fukunaga, Rhoads). Noes, 1 (Awa). Excused, none.
Health and Human Services: Ayes, 4; Ayes with Reservations (Shimabukuro). Noes, 1 (Awa). Excused, none.

SCRep. 2103 (Majority) Judiciary on S.B. No. 2217

The purpose and intent of this measure is to provide greater uniformity, efficiency, and effectiveness in the administration and enforcement of the State Ethics Code and state lobbyists law by:

- (1) Adjusting the reporting period for gift disclosures filed with the State Ethics Commission to conform with the state fiscal year; and
- (2) Establishing a phased process for transitioning to a fiscal year-based reporting period.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that existing law requires legislators and employees to submit a gifts disclosure statement with the State Ethics Commission no later than June 30 of each year, covering a period from June 1 of the preceding calendar year through May 31 of the year of the report. However, the State fiscal year begins on July 1. This measure will promote conformity, efficiency, and effectiveness in the administration and enforcement of the State Ethics Code and state lobbyists law by aligning the gift reporting requirement with the state fiscal year.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2217 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2104 (Majority) Judiciary on S.B. No. 2213

The purpose and intent of this measure is to provide that an excess contribution of more than \$100 in cash, in the aggregate, from a single person during an election period to a candidate, candidate committee, or noncandidate committee shall escheat to the Hawaii Election Campaign Fund if not returned to the contributor within thirty days.

Your Committee received testimony in support of this measure from the Campaign Spending Commission.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 6, Session Laws of Hawaii 2023, amended section 11-351(b), Hawaii Revised statutes, to prohibit the acceptance of a cash contribution of more than \$100, in the aggregate, during an election period. This measure will conform existing law to treat an excess cash contribution consistently with other types of excess contributions by requiring the return of an excess cash contribution to the contributor within thirty days of receipt of the excess contribution.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2213 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (San Buenaventura, Awa). Excused, none.

SCRep. 2105 Judiciary on S.B. No. 2216

The purpose and intent of this measure is to clarify and modernize the way the State Ethics Commission provides advice and conducts investigations.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission and League of Women Voters of Hawaii.

Your Committee finds that the ethical landscape of public service is ever-evolving, and the State's ethics framework must adapt to those changes. Key components of a proactive ethical framework are the ability to provide timely advice and the investigative process for potential violations. This measure will address the need for clarity in the advice-seeking process by providing public officials with a secure mechanism to confidentially request advice and receive a written summary of any advice provided, while also making important housekeeping amendments to the investigative process to reduce the potential for misusing the process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2216, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2216, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2106 (Majority) Judiciary on S.B. No. 2215

The purpose and intent of this measure is to update the maximum administrative fines allowed for violations of chapters 84 and 97, Hawaii Revised Statutes, relating to standards of conduct and lobbyists, respectively.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission.

Your Committee finds that in recent years, instances of ethical violations underscore the need for a more robust deterrent to dissuade individuals from engaging in activities that compromise public trust. Most jurisdictions have a maximum fine between \$5,000 and \$10,000 for ethics violations, making the State's existing maximum fine of \$1,000 on the lower end of the scale. Your Committee believes that increasing the maximum fine would proactively discourage unethical behavior. This measure will allow the State to maintain the highest standards of ethical behavior among public officials and employees.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2215 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (San Buenaventura). Excused, none.

SCRep. 2107 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2091

The purpose and intent of this measure is to require:

- (1) All telecommunications service providers to communicate relevant information relating to the deenergization of electrical lines to public safety or emergency response offices for the affected areas;
- (2) All electric utilities to operate electrical lines and equipment in a manner that shall minimize the risk of catastrophic wildfire posed by the electrical lines and equipment; and
- (3) Each electric utility to prepare a wildfire mitigation plan and protocols for deenergizing electrical lines.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and International Brotherhood of Electrical Workers, Local Union 1260.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Hawaiian Electric.

Your Committee finds that it is imperative for telecommunication providers and electrical utilities to have clear protocols where there is a need to deenergize electrical lines in emergency situations. Your Committee believes that each telecommunication provider needs to create standards to communicate relevant information relating to deenergization situations, and that all electric utilities must implement wildfire mitigation plans. This measure will ensure a coordinated and effective response to the deenergization of electrical lines in emergency situations and hopefully reduce the risk of fires related to electrical services.

Accordingly, your Committee has amended this measure by:

- (1) Adding definitions for “electric utility”, “commission”, and “plan”;
- (2) Inserting language that outlines the Public Utilities Commission’s role in regulating, adopting, and approving electric utilities’ wildfire mitigation plans, and protocols for electric utilities to implement and submit wildfire mitigations plans to the Public Utilities Commission;
- (3) Reorganizing language that requires electric utility companies to include certain protocols and procedures in the annual wildfire mitigation plan; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2091, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2108 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2092

The purpose and intent of this measure is to require the Public Utilities Commission to direct each electric and gas utility company in the State to file proposals for programs to provide certain benefits to residential property owners in fire-prone areas to reduce or eliminate the impacts of wildfires on residential properties or to purchase emergency equipment or supplies for use in deenergization events.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaiian Electric, Hawai‘i Gas, and Life of the Land.

Your Committee finds that electric utility infrastructure is prone to impact during hazardous or severe weather related events. Your Committee believes that to address this issue, particularly in fire-related events, electric utility companies must provide robust wildfire mitigation plans. This measure will assist the Public Utilities Commission in prioritizing public safety and maintaining utility services during a high-risk hazardous event.

Your Committee has amended this measure by:

- (1) Deleting all references to gas utility companies; and
- (2) Specifying that improvements be related to electric infrastructure.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2092, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2109 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2236

The purpose and intent of this measure is to require law enforcement to post notice that a search has been conducted on a property if a resident was not present at the time of the search and secure the entrances used by officers upon completion of the search.

Your Committee received testimony in support of this measure from the Office of the Public Defender and ACLU of Hawai‘i.

Your Committee received comments on this measure from the Department of Law Enforcement.

Your Committee finds that the Hawaii State Constitution guarantees a more enhanced and robust right to privacy and right to be free from unreasonable searches and seizures than the United States Constitution. Your Committee further finds that there is a lack of safety and transparency regarding property searches, as officers are currently not required to secure entrances used or provide notice that a search has been conducted if the resident is absent during the search. In accordance with those rights provided in the Hawaii State Constitution, this measure will strengthen the right to privacy by increasing transparency and security throughout the search process.

Your Committee has amended this measure by:

- (1) Clarifying that the notice requirement applies to warranted and warrantless searches;

- (2) Requiring the notice to include the report number;
- (3) Deleting the requirement that the officers involved be named in the notice; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2236, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2110 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 2346

The purpose and intent of this measure is to require the Department of Law Enforcement to hold a voluntary firearm buyback program in each county in the State.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and one individual.

Your Committee received testimony in opposition to this measure from twenty individuals.

Your Committee received comments on this measure from the Hawaii Firearms Coalition and five individuals.

Your Committee finds that Hawaii has seen a significant increase in incidents of gun violence, a trend that until recently was primarily confined to the continental United States. Your Committee additionally finds that the overwhelming success of a recent gun buyback event on Oahu by the Department of Law Enforcement illustrated the demand of the public to get guns off of the State's streets, with a total of four hundred ninety-four firearms being turned in, including sawed-off shotguns, a MAC-10, an Uzi, pistols with silencers, and multiple assault weapons, such as AK-47 and AR-15 type rifles. This measure will expand the buyback program to remove guns from every county in the State.

Your Committee has amended this measure by:

- (1) Removing language that would have required the Department of Law Enforcement to adopt rules in accordance with chapter 91, Hawaii Revised Statutes, to implement the Firearm Buyback Program;
- (2) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee of Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$825,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2346, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2346, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

SCRep. 2111 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2444

The purpose and intent of this measure is to appropriate funds for the installation of a new outdoor emergency siren in the Pacific Palisades area of Oahu.

Your Committee received testimony in support of this measure from six individuals.

Your Committee finds that the emergency siren at Palisades Elementary School has been inoperative for several years, and that there have been complaints from the residents living in the Pacific Palisades area that they are unable to hear the emergency siren located at Pearl City High School. Your Committee further finds that a new emergency siren is needed in the area so that residents can be alerted to all civil defense emergencies in a timely manner to take any necessary safety measures. This measure will appropriate funds for the installation of a new outdoor emergency siren in the Pacific Palisades area of Oahu for the safety of residents in that community.

Your Committee has amended this measure by:

- (1) Inserting a blank appropriation amount;
- (2) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting an appropriation amount of \$200,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2444, as amended herein, and

recommends that it pass Second Reading in the form attached hereto as S.B. No. 2444, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2112 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2307

The purpose and intent of this measure is to:

- (1) Require the Department of Corrections and Rehabilitation, in collaboration with various agencies and upon request of the inmates, to assist inmates in obtaining the inmates' civil identification card, birth certificate, social security card, and other relevant identification necessary for successful reentry into society, as soon as practicable; and
- (2) Require the Department of Corrections and Rehabilitation to initiate the process of obtaining identifying documents for inmates released to work furloughs, extended furlough, or community placement programs by providing the forms necessary for the inmate to obtain civil identification cards and other identifying documents to the inmates as soon as practicable.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, Office of the Prosecuting Attorney of the County of Hawaii, and one individual.

Your Committee finds that individuals transitioning from incarceration often encounter obstacles while trying to obtain necessary identification documents, which has often been cited as a contributing factor to recidivism. Your Committee further finds that increasing collaboration between the Department of Corrections and Rehabilitation and departments that provide identification documents will aid individuals in accessing necessary resources. This measure will encourage the positive reintegration of justice-involved individuals by helping them access needed services at the most crucial time, prior to release from incarceration and reentry into the community.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2307 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2113 Housing on S.B. No. 2045

The purpose and intent of this measure is to:

- (1) Amend the priority for which moneys in the Rental Housing Revolving Fund are to be used; and
- (2) Require the Hawaii Housing Finance and Development Corporation to:
 - (A) Prioritize the allocation of Low-Income Housing Tax Credits to certain projects; and
 - (B) Adopt certain administrative rules.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, one member of the Maui county council, AARP Hawai'i, and one individual.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and one individual.

Your Committee finds that the State has a strong need for increased affordable housing supply. Your Committee further finds that the State faces an aging public housing inventory. This measure will ensure that taxpayer dollars are used for publicly owned projects and private projects that recycle taxpayer funding, rather than projects owned by private entities for their own benefit, and adjusts the priorities of the Low-Income Housing Tax Credit and the Rental Housing Revolving Fund to increase housing supply and address significant capital improvement backlog.

Your Committee notes this measure requires that priority be given to projects owned by an organization obliged to use all financial surplus generated by the project to construct, manage, and rehabilitate owner- or renter-occupied housing. According to testimony received by your Committee, this could lead to a number of different interpretations that may have unintended consequences. Your Committee acknowledges the concerns raised about potential abuse and request that subsequent committees that hear this measure through the legislative process consider ways to address those concerns, including the possibility of limiting the types of organizations that would qualify, or requiring audits or limits to the application of surplus funds.

Your Committee has amended this measure by:

- (1) Clarifying that with regard to the administration of low-income housing credits, priority be given to projects on state or county land;
- (2) Deleting language that would have given preference to projects in which the State or a county is an equity partner;
- (3) Clarifying that the list of priorities for the Rental Housing Revolving Fund not be mutually exclusive with Low-Income Housing Tax Credits;
- (4) Inserting language that requires applicants to demonstrate project readiness;
- (5) Clarifying that priority be given to projects owned by organizations obliged to use all financial surplus generated by the project to construct, manage, or rehabilitate renter-occupied housing in the State of Hawaii;

- (6) Granting the Hawaii Housing and Finance Development Corporation more flexibility with regard to the allocation of points for certain projects; and
- (7) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2045, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2045, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2114 Housing on S.B. No. 2068

The purpose and intent of this measure is to appropriate funds to the Hawaii Public Housing Authority (HPHA) to rehabilitate, remodel, renovate, and repair an unspecified number of housing units, without regard to the civil service law.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Catholic Charities Hawai'i, Partners In Care, and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association (AFSCME Local 152, AFL-CIO), and United Public Workers (AFSCME Local 646, AFL-CIO).

Your Committee finds that many public housing units in the State were constructed over fifty years ago. HPHA has a current capital improvement backlog upwards of \$800,000,000, and additional funding is needed to keep public housing units safe, decent, and sanitary for habitation. Your Committee recognizes that the amount of federal subsidies HPHA is eligible to receive depends on the occupancy of certain public housing units. This measure will therefore help prepare vacant units for immediate occupancy to further assist the State in addressing its ongoing housing crisis.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$10,500,000 for the rehabilitation, remodel, renovation, and repair of one hundred fifty-five units; and
- (2) Deleting language that would have authorized HPHA to contract out the repair and maintenance of the units without regard to chapter 76, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2068, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2068, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2115 Health and Human Services on S.B. No. 2259

The purpose and intent of this measure is to amend the law relating to health.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Require each employer group health policy, contract, plan, or agreement and each individual and group hospital or medical service plan, policy, contract, or agreement issued or renewed by health insurers in the State after December 31, 2024, that provides coverage, to provide coverage for dental and vision preventative care, diagnosis, and treatment; and
- (2) Require every insurer and mutual benefit society to provide written notice to policyholders and members no later than December 31, 2025.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2259, as amended herein, and recommends that it be recommitted to your Committee on Health and Human Services, in the form attached hereto as S.B. No. 2259, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2116 Health and Human Services on S.B. No. 462

The purpose and intent of this measure is to:

- (1) Increase the amount of interest in real property that is exempt from attachment and execution;
- (2) Amend the value of certain personal property that is exempt from attachment and execution, including increasing the exemption amount for a motor vehicle; and
- (3) Exempt from attachment and execution, a combined total of one month of child support and one month of spousal support, or \$5,000, whichever is less.

Your Committee received testimony in support of this measure from the Hawaii Appleseed Center for Law and Economic Justice and one individual.

Your Committee received testimony in opposition to this measure from the Collection Law Section of the Hawaii State Bar Association.

Your Committee received comments on this measure from the Hawaii Credit Union League, Mortgage Bankers Association of Hawaii, Hawaii Financial Services Association, and Hawaii Bankers Association.

Your Committee finds that the current statutory exemptions from attachment or execution of real and personal property are outdated, and need to be updated. This measure increases the amount of the exemption for interest in real property to \$100,000 in equity; certain personal property to its fair market value; and a motor vehicle to \$15,000. This measure also establishes exemptions for child support and spousal support. This measure will serve to keep more local families in stable housing while giving them room to regain a measure of economic security and reduce long-term poverty in the State.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 462 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2117 Health and Human Services on S.B. No. 343

The purpose and intent of this measure is to:

- (1) Establish provisional or associate-level licensure requirements for marriage and family therapists, mental health counselors, and psychologists and authorize insurance reimbursements in certain circumstances;
- (2) Allow psychologist license applicants to sit for the licensing examination before completing certain other requirements;
- (3) Allow the Board of Psychology to grant licensure waivers in certain circumstances for psychologists; and
- (4) Authorize insurance reimbursements for services provided by a supervised social work intern in certain circumstances.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation; Hawai'i Psychological Association; The Hawaiian Islands Association for Marriage and Family Therapy; National Association of Social Workers - Hawai'i; Pau Hana Counseling, LLC; Pilina Center for Wellbeing; The Catalyst Group, LLC; Samaritan Counseling Center Hawaii; Hawai'i Counselors Association; Behavior Analysis No Ka Oi, Inc; Hawai'i Health & Harm Reduction Center; Residential Youth Services & Empowerment; Collective Current; Center for Healing & Transformation; Fujimoto Counseling Services, LLC; Oahu Psychological Services; Trauma Healing Hawaii Brighter Board; and seventy-five individuals.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Health, and Board of Psychology.

Your Committee finds that there is a clear workforce shortage of mental health providers in the State. For the State to achieve behavioral health equity, more effective systems and policies are needed to address this workforce shortage to ensure proper implementation of this measure.

Your Committee notes the testimony of the Department of Commerce and Consumer Affairs requesting the following appropriations to ensure proper implementation of this measure:

- (1) \$73,406 to establish, recruit, and hire an office assistant V to process provisional license applications; and
- (2) \$75,000 to make appropriate updates to the Department's internal database for the new license types and associated requirements.

Therefore, your Committee requests that subsequent committees to which this measure is referred consider inserting an appropriation amount of \$148,406 for fiscal year 2024-2025 for proper implementation of this measure. Your Committee further notes the Department's request to delay the implementation of this measure until January 1, 2026.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language declaring that the general fund expenditure ceiling for fiscal year 2024-2025 has been exceeded;
- (2) Inserting an appropriation for an unspecified amount of general funds to be expended by the Department of Commerce and Consumer Affairs to ensure proper implementation of this measure;
- (3) Making parts II, III, IV, and V of the measure take effect on July 1, 2026; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 343, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 343, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2118 Health and Human Services on S.B. No. 1444

The purpose and intent of this measure is to:

- (1) Establish provisional or associate-level licensure requirements for marriage and family therapists, mental health counselors, and psychologists, and authorize insurance reimbursements in certain circumstances; and
- (2) Allow psychologist license applicants to take licensing examinations before completing other requirements.

Your Committee received testimony in support of this measure from the Hawai'i Psychological Association; National Association of Social Workers-Hawai'i Chapter; Hilopa'a Family to Family, Inc; Catholic Charities Hawai'i; Hawai'i Health & Harm Reduction Center; The Hawaiian Islands Association for Marriage and Family Therapy; and twenty-five individuals.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Board of Psychology.

Your committee finds that there is a critical shortage of mental health professionals in Hawaii, particularly in rural areas. It is imperative for the State to meet the burgeoning demand for quality mental health services, especially considering the increased emotional and mental toll suffered by residents who were affected by the August 2023 Maui wildfires. This measure reduces administrative obstacles for mental health professionals to obtain licenses and practice in the State to help meet these demands.

Your Committee notes the testimony of the Department of Commerce and Consumer Affairs requesting the following appropriations to ensure proper implementation of this measure:

- (1) \$73,406 to establish, recruit, and hire an office assistant V to process provisional license applications; and
- (2) \$75,000 to make appropriate updates to the Department's internal database for the new license types and associated requirements.

Therefore, your Committee requests that subsequent committees to which this measure is referred consider inserting an appropriation amount of \$148,406 for fiscal year 2024-2025 for proper implementation of this measure. Your Committee further notes the Department's request to delay the implementation of this measure until January 1, 2026.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required associate licensees in marriage and family therapy and mental health counseling to pass their licensing examination before obtaining the associate license;
- (2) Deleting language that would have allowed psychologist license applicants to take licensing examinations before completing other requirements;
- (3) Deleting language that would have authorized the Board of Psychology to grant waivers or extensions for licensees who failed to timely renew their licenses under certain conditions, at these provisions already exist in state law;
- (4) Inserting language declaring that the general fund expenditure ceiling for fiscal year 2024-2025 has been exceeded;
- (5) Inserting an appropriation for an unspecified amount of general funds to be expended by the Department of Commerce and Consumer Affairs to ensure proper implementation of this measure;
- (6) Amending section 1 to reflect its amended purpose;
- (7) Making parts II, III, IV and V of the measure take effect on July 1, 2026; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1444, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1444, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2119 (Majority) Health and Human Services on S.B. No. 471

The purpose and intent of this measure is to:

- (1) Prohibit camping in public areas that are not designated as camping locations by the State or a county;
- (2) Allow the court to order violators to participate in homeless services in lieu of prosecution or sentencing;
- (3) Require the Governor to establish safe zones for homeless persons; and
- (4) Make appropriations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Malama Makua, and fourteen individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender; Food Not Bombs Hawaii; Hawaii Guerrilla Video Hui; Neighborhood Place of Puna; Hawai'i Health & Harm Reduction Center; Hope Services Hawai'i, Inc.; ACLU of Hawai'i; and twenty individuals.

Your Committee received comments on this measure from the Statewide Office on Homelessness and Housing Solutions, Department of the Attorney General, Department of Human Services, The Judiciary, Hawai'i Youth Services Network, and three individuals.

Your Committee finds that unauthorized camping on public property has become a significant issue in the State. Specifically, homeless encampments present continuing challenges and often prevent members of the public from enjoying the State's public lands. This measure establishes that unauthorized camping on public property is a criminal offense under state law; however, provides courts with an alternative of ordering violators to participate in homeless services rather than subjecting them to fines and imprisonment. This measure also requires the Governor to establish safe zones on lands to be designated by the Governor, where homeless individuals may reside.

Your Committee notes the concerns raised in testimony over the criminalization of individuals who have no access to housing or adequate indoor shelter. Criminalization is also likely to prolong an individual's homelessness status, as a criminal record can severely affect one's opportunities to secure housing, employment, and education. Your Committee also notes concerns raised in testimony that many residents of Maui were impacted by the wildfire and have nowhere else to stay but on public property. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that any person who camps on public property that is not designated as a location for camping shall be guilty of a violation subject to a fine of not less than \$50, except that any person who commits the same violation within three months of a prior conviction shall be guilty of a petty misdemeanor;
- (2) Establishing exceptions to the prohibition against unauthorized camping on public property when:
 - (A) There are no safe zones designated by the county or the State within five miles of the area in which overnight stays from 7:00 p.m. to 7:00 a.m. by individuals are prohibited; or
 - (B) The person has no access to the person's residence or a shelter due to a declared state of emergency;
- (3) Requiring the counties or the State, rather than the Governor, to establish safe zones for homeless persons no later than December 31, 2024;
- (4) Allowing the counties and the State to collaborate with private landowners and contract with public and private organizations to operate the safe zones;
- (5) Requiring the Statewide Office on Homelessness and Housing Solutions to assess, coordinate, and refer individuals residing in a safe zone to appropriate resources;
- (6) Inserting language declaring that the general fund expenditure ceiling for fiscal year 2024-2025 has been exceeded;
- (7) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 471, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 471, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Keohokalole). Noes, 1 (Awa). Excused, none.

SCRep. 2120 Housing on S.B. No. 2063

The purpose and intent of this measure is to require any government agency that exercises its authority to develop low- or moderate-income housing projects to process any low- or moderate-income housing project that meets the development requirements of chapter 201H, Hawaii Revised Statutes, and applicable administrative rules.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Stanford Carr Development, LLC.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that Hawaii has both the highest median home prices and the highest level of regulation on housing development. This puts stress on residents and housing developers within the State. This measure will prohibit the counties from imposing stricter income requirements than what is already in statute on applicable housing developments, aiming to alleviate some of this stress for the residents of the State.

Your Committee has amended this measure by:

- (1) Inserting language prohibiting the legislative body of a county from imposing income requirements that are lower than those adopted or established by the State;
- (2) Deleting language that would have required any governmental agency that exercises its authority to develop low- or moderate-income housing projects to process any such project that meets the development requirements of chapter 201H; Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2063, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2063, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2121 Housing on S.B. No. 2469

The purpose and intent of this measure is to:

- (1) Add credit enhancement for construction loans to the list of permitted uses of moneys in the Rental Housing Revolving Fund; and
- (2) Require the Hawaii Housing Finance and Development Corporation to adopt administrative rules.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii has extremely high housing development costs, which have worsened in light of currently high interest rates. These costs put added strain on housing developers. This measure will allow the Rental Housing Revolving Fund to provide credit enhancement for construction loans, which will help alleviate related financing and development costs at very little risk to the fund.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2469 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2122 (Majority) Judiciary on S.B. No. 2319

The purpose and intent of this measure is to propose a constitutional amendment to increase the mandatory retirement age for justices and judges from seventy to seventy-five years.

Your Committee received testimony in support of this measure from Community Alliance on Prisons and five individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the institutional knowledge that justices and judges acquire throughout their tenure is invaluable to the administration of justice in the State. Your Committee believes that the existing mandatory retirement age for justices and judges of seventy years is harming the court system because it requires excellent judges to retire prematurely. This measure will allow judges to continue to benefit the State's justice system with their years of experience gained from considering legal issues during their tenure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2319 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2123 (Majority) Judiciary on S.B. No. 2107

The purpose and intent of this measure is to allow the Attorney General to appoint a special counsel to assume the Attorney General's powers and responsibilities over an investigation of a person or matter when the investigation or prosecution of, or any other legal or administrative action against the person or matter by the Department of the Attorney General, may present a conflict of interest.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee received comments on this measure from one individual.

Your Committee finds that the Attorney General has a range of options to resolve conflicts of interest that implicate the Attorney General personally or the Department of the Attorney General as a whole. For example, the Attorney General may request any of the four county prosecuting attorneys to investigate and prosecute criminal acts when the Attorney General or the Department of the Attorney General has an unresolvable conflict of interest. However, certain events may arise that may require the Attorney General to appoint a special counsel to assume the Attorney General's powers and responsibilities over an investigation if the investigation presents a conflict of interest. Your Committee believes that providing the Attorney General with additional tools to address conflicts of interest are in the public interest. This measure will provide another avenue for the Attorney General to perform his or her duties in the case of an unresolvable conflict of interest.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2107 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2124 Judiciary on S.B. No. 2332

The purpose and intent of this measure is to require the Judicial Council to conduct a comprehensive review of the Hawaii Penal Code.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation and one individual.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that the Hawaii Penal Code is the fundamental document by which the State addresses crime, and that it is imperative that such an important part of state law receive full and deliberate attention from time to time to ensure the Code's continued force and effectiveness. Since the Hawaii Penal Code was enacted in 1972, there have been four significant reviews of the code, in 1983, 1993, 2005, and 2015. Your Committee notes that it has been nine years since the last review and it will be eleven years since the last review by the time the report required by this measure is submitted to the Legislature in 2026. This measure will ensure that the Hawaii Penal Code will continue to be effective, fair, and balanced.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2332 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2125 (Majority) Judiciary on S.B. No. 2240

The purpose and intent of this measure is to require:

- (1) The Office of Elections to file an application with the Electronic Registration Information Center, Inc. (ERIC), for the State to be admitted as a member of the organization;
- (2) The Office of Elections to share with each county the information and services made available by ERIC; and
- (3) The State and each county to use the information and services made available by ERIC to verify their voter rolls.

Your Committee received testimony in support of this measure from the Office of Elections and one individual.

Your Committee received testimony in opposition to this measure from sixty-one individuals.

Your Committee finds that the participation of eligible voters in elections is vital to American democracy, and an integral part of voter participation is the maintenance of accurate and current voter registration rolls. The Electronic Registration Information Center, Inc., or ERIC, is a nonprofit organization that was formed in 2012 to help states improve the accuracy of voter registration rolls by using secure data-matching tools. Twenty-four states and the District of Columbia participate in ERIC and receive, as member states, reports that show voters who have moved within the respective states, voters who have moved out of the state, voters with duplicate registrations within the state, voters who have passed away, and individuals who are potentially eligible to vote and have not registered to vote. Your Committee believes that providing another tool for election officials to maintain the accuracy of voter registration rolls is necessary to protect democracy in the State. This measure will ensure the integrity of voter registration rolls in the State by modernizing the State's voting system of verifying voter registration data.

Your Committee has amended this measure by:

- (1) Requiring the Office of Elections to file an application with ERIC by June 30, 2025, instead of January 1, 2025; and
- (2) Increasing the appropriation amount to \$125,000.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2240, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2240, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2126 Judiciary on S.B. No. 2181

The purpose and intent of this measure is to require the Judiciary to increase the hourly fees, mileage reimbursement rate, and commuter-time compensation rate for court interpreters to reflect the significant increase in the cost of living in the State.

Your Committee received testimony in support of this measure from the Judiciary, Office of Language Access, Office of the Prosecuting Attorney of the County of Hawaii, Hawai'i Coalition for Immigrant Rights, and twenty-two individuals.

Your Committee finds that the State has one of the largest populations of non-English speakers in the nation, and court interpreters play an integral role in the administration of justice in the State. Court interpreters are critical for a defendant with limited English proficiency to exercise the defendant's constitutional and statutory right to represent themselves in court or assist counsel. However, court interpreters are often required to drive, sometimes for hours, to distant courthouses to provide these critical interpretation services. Additionally, despite the substantial increase in the cost of living in the State over the years, the compensation for court interpreters has largely remained unchanged since 2007. This measure will address the increased financial burdens many court interpreters face while helping the State to administer justice by requiring the Judiciary to increase the hourly fees, mileage reimbursement rate, and commuter-time compensation rate for court interpreters.

Your Committee notes that the Judiciary has included in its supplemental budget request for fiscal year 2024-2025 a request of \$530,000 for court interpreter services. Your Committee also notes that the hourly amounts currently paid to court interpreters have not been increased in seventeen years, despite the cost of living increasing during the same period. Your Committee believes that the requested amount is unlikely to meet that need.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2181, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2127 (Majority) Judiciary on S.B. No. 2377

The purpose and intent of this measure is to increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel in criminal proceedings.

Your Committee received testimony in support of this measure from the Judiciary, Office of the Public Defender, ACLU of Hawai'i, Hawaii State Bar Association, Hawai'i Association of Criminal Defense Lawyers, and nineteen individuals.

Your Committee finds that indigent criminal defendants have a right to representation by competent counsel appointed by the court, usually by the Office of the Public Defender. However, in cases where there is, or there arises, a conflict between the defendant and the Office of the Public Defender, the defendant has a right to the appointment of a private defense counsel. This measure will attract competent individuals to serve as appointed counsel for qualified criminal defendants by ensuring that appointed counsel are adequately compensated for their work.

Your Committee notes that over the last decade there has been a dramatic decrease in qualified applicants to the court-appointed lists of each circuit, which has in turn caused a shortage of available counsel to take indigent defendant criminal cases statewide.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2377 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2128 Hawaiian Affairs on S.B. No. 2647

The purpose and intent of this measure is to increase the allowable loan term for direct loans provided by the Department of Hawaiian Home Lands from thirty years to forty years.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho'omana Pono, LLC; and two individuals.

Your Committee finds that the United States Department of Agriculture's Section 502 Direct Loan Program provides a loan term of thirty-eight years; however, loans administered by the Department of Hawaiian Home Lands for the beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended, have maximum terms of thirty years. This measure addresses this discrepancy by amending the Hawaiian Homes Commission Act, 1920, as amended, to increase the term for direct loans provided by the Department of Hawaiian Home Lands to forty years.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2647 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2129 Hawaiian Affairs on S.B. No. 2655

The purpose and intent of this measure is to:

- (1) Allow the Hawaiian Homes Commission to retain independent legal counsel at its discretion; provided that funds owed to independent legal counsel be paid by the Hawaiian Homes Commission with general funds appropriated by the Legislature; and
- (2) Authorize the Hawaiian Homes Commission to use the services of the Attorney General as needed.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands and Ho'omana Pono, LLC.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General.

Your Committee received comments on this measure from one individual.

Your Committee finds that the Hawaiian Homes Commission is unique among state departments as it has a trust duty to its beneficiaries and in the fulfillment of this trust obligation, the Hawaiian Homes Commission may at times be at odds with the interests of the State. It is at these times that the Hawaiian Homes Commission must be assured that its counsel provides legal service strictly in the interest of its client. This measure will allow the Hawaiian Home Commission to retain independent counsel, which will eliminate any doubts of a conflict of interest that may come with representation by the Attorney General, who also represents the State of Hawaii.

Your Committee recognizes the concerns of the Department of the Attorney General regarding this measure that because of the department's breadth of experience and expertise, it is best suited to provide legal services to state agencies, including the Hawaiian Homes Commission.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2655 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2130 Hawaiian Affairs on S.B. No. 2646

The purpose and intent of this measure is to increase the loan limit for direct loans provided by the Department of Hawaiian Home Lands from fifty percent to seventy-five percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development's Federal Housing Administration, as currently outlined in Section 215 of the Hawaiian Homes Commission Act, 1920, as amended.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho'omana Pono, LLC; and two individuals.

Your Committee finds that the Department of Hawaiian Home Lands provides direct loans for the repair, maintenance, purchase, and erection of a dwelling. However, the Hawaiian Homes Commission Act, 1920, as amended, stipulates that these loans cannot exceed fifty percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development's Federal Housing Administration. This measure will enable the Department of Hawaiian Home Lands to better serve beneficiaries seeking to purchase or make improvements to their home by increasing the loan limit from fifty percent to seventy-five percent of the maximum single residence loan amount allowed in Hawaii by the Federal Housing Administration.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2646 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2131 Hawaiian Affairs on S.B. No. 2921

The purpose and intent of this measure is to:

- (1) Amend the appropriation of Act 279, Session Laws of Hawaii 2022 (Act 279), to conform with the Hawaii State Constitution; and
- (2) Appropriate monies to the Department of Hawaiian Home Lands for fiscal year 2024-2025 to give practical effect to the intent behind Act 279.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho'omana Pono, LLC; and two individuals.

Your Committee received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committee finds that Act 279 does not conform with the Hawaii State Constitution's provision that no appropriation shall be made for a period exceeding three years. To meet this requirement and to fulfill the purpose of Act 279, this measure will make a new appropriation of general funds for fiscal year 2024-2025 to the Department of Hawaiian Home Lands.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2921 and recommends that it pass Second Reading and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2132 (Majority) Hawaiian Affairs on S.B. No. 2640

The purpose and intent of this measure is to reduce the Department of Hawaiian Home Lands waitlist by authorizing the department to provide beneficiaries with a cash award to purchase a residential lot outside of the department's trust lands, or to pay the beneficiary's existing mortgage note or rent in lieu of awarding the beneficiary a lease.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Hawaiian Home Lands, and one individual.

Your committee finds that there are approximately twenty-four thousand native Hawaiian beneficiaries on the Department of Hawaiian Home Lands waitlist. However, the Department of Hawaiian Home Lands does not possess sufficient land to house everyone on the waitlist. This measure simultaneously meets the housing needs of beneficiaries and reduces the number of beneficiaries on the waitlist by amending the Hawaiian Homes Commission Act to allow the Department of Hawaiian Home Lands to provide beneficiaries with a cash award in lieu of a lease.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Hawaiian Home Lands may expend funds for this measure at the sole discretion of the Hawaiian Homes Commission;
- (2) Clarifying that any beneficiary that accepts a cash award shall relinquish only their right to reapply to the waitlist and is otherwise entitled to other rights provided by the Hawaiian Homes Commission Act, 1920, as amended;
- (3) Specifying that this measure shall not create any entitlement to a cash award;
- (4) Specifying that the failure of the Hawaiian Homes Commission to authorize cash awards shall not give rise to breach of trust or fiduciary duty claims;
- (5) Specifying that the funds available in the Hawaiian Home Loan Fund shall be expended for the purposes of this measure;
- (6) Making the effective date upon either the date congressional consent is deemed unnecessary or on the date of consent by the United States Congress; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency;

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2640, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2640, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Richards).

SCRep. 2133 Hawaiian Affairs on S.B. No. 2435

The purpose and intent of this measure is to authorize the Department of Hawaiian Home Lands to administer a Lease Award Program for beneficiaries on the homestead lease waiting list who are sixty years or older or terminally ill, under certain conditions.

Your Committee received testimony in support of this measure from Ho‘omana Pono, LLC, and three individuals.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that as recently as 2022, there were more than twenty-eight thousand native Hawaiian beneficiaries on the homestead lease waiting list. When beneficiaries on the homestead lease waiting list pass away prior to receiving a lease award, the beneficiary also loses the ability to have their heirs inherit a lease. This measure will help qualified successors gain homestead leases.

Your Committee has amended this measure by:

- (1) Specifying that the purpose of this measure is to allow the Department of Hawaiian Home Lands to administer an undivided interest lease award program;
- (2) Specifying that qualified successors shall be of at least twenty-five per cent blood quantum;
- (3) Clarifying that the Department of Hawaiian Home Lands may administer the undivided interest lease award program for certain native Hawaiians at the sole discretion of the Hawaiian Homes Commission;
- (4) Inserting a definition of “terminally ill”;
- (5) Providing the Department of Hawaiian Home lands with two years from its effective date to administer this measure;
- (6) Making the measure effective on either the date congressional consent is deemed unnecessary or on the date of consent of the United State Congress; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2435, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2435, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2134 Hawaiian Affairs on S.B. No. 2780

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to complete an assessment and report on the feasibility of digitizing its applicant, beneficiary, and lessee records and create an interactive database software program.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho‘omana Pono, LLC; and five individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that it is the obligation of the Department of Hawaiian Home Lands to develop and deliver land to native Hawaiian beneficiaries. However, it is difficult for the Department to fulfill this mission as its information systems are outdated and spread across multiple locations. Beneficiaries seeking to determine their status may spend weeks finding and gathering that information. This measure will assist the Department in implementing an interactive digital database, which would improve efficiency within the Department.

Your Committee notes that the Department of Hawaiian Home Lands is currently in the process of modernizing its system and is seeking an estimated \$6,000,000 for implementation of the interactive digital database.

Your Committee has amended this measure by:

- (1) Specifying that the Department of Hawaiian Home Lands shall complete an interactive digitized beneficiary assessment in place of assessing and reporting on the feasibility of creating an interactive digital database;
- (2) Requiring the Department of Hawaiian Home Lands to complete implementation of the interactive digitized data within two years of the effective date of this measure;
- (3) Directing the appropriation of unspecified amount of funds for the interactive beneficiary assessment and implementation of the digital database; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2780, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2780, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2135 Housing on S.B. No. 2337

The purpose and intent of this measure is to expand the counties' authority to facilitate the development, construction, financing, refinancing, or other provision of mixed-income projects and mixed-use developments, including low- and moderate-income housing projects, and issue bonds for this purpose.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Housing of the City and County of Honolulu, Pacific Resource Partnership, Hawaii Regional Council of Carpenters, and Hawai'i YIMBY.

Your Committee received comments on this measure from the Department of Land and Natural Resources and Grassroot Institute of Hawaii.

Your Committee finds that, while the Hawaii Housing Finance and Development Corporation is authorized to facilitate the development, construction, financing, and refinancing of mixed-use developments, including low- and moderate-income housing projects, under existing law, the counties are not authorized to use affordable housing bonds to develop mixed-use housing projects. The ability to plan, design, and construct mixed-use development is essential to efforts to develop affordable housing projects in transient-oriented communities, which provide residents access to commercial, retail, institutional, educational, and government services, combined with convenient access to multi-modal transportation networks. This measure remedies this inconsistency by providing the counties with the same authority as the Hawaii Housing Finance and Development Corporation with respect to mixed-use development.

Your Committee has amended this measure by:

- (1) Deleting language referencing "mixed-income projects" throughout the measure;
- (2) Deleting the definition of "mixed-income projects"; and
- (3) Deleting language that would have authorized units in low- and moderate-income housing projects to be made available to households with higher incomes if there is an insufficient number of persons or families who meet the income qualifying requirements.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2337, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2337, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Aquino, Kanuha).

SCRep. 2136 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2498

The purpose and intent of this measure is to:

- (1) Establish the Cesspool Conversion Revolving Loan Fund to provide financing to low- and moderate-income households for cesspool conversions and other authorized uses;
- (2) Require the Hawaii Green Infrastructure Authority to administer the Cesspool Conversion Revolving Loan Fund and submit annual reports to the Legislature; and
- (3) Make an appropriation for one full-time equivalent (1.0 FTE) program management and loan officer position and to provide loans or other financial assistance to eligible borrowers for cesspool conversions or other authorized uses.

Your Committees received testimony in support of this measure from the Hawaii Green Infrastructure Authority, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawai'i Association of REALTORS, Hawaii Young Republicans, Hawai'i Reef and Ocean Coalition, Wastewater Alternatives and Innovations LLC, Public Access to SunScreens Coalition, and six individuals.

Your Committees received testimony in opposition to this measure from the State Procurement Office.

Your Committees received comments on this measure from the Department of Health and Public Utilities Commission.

Your Committees find that to reduce water pollution, unless exempted by the Department of Health, all cesspools in the State are required, to be updated or converted to another method of waste disposal or connected to a sewerage system by January 1, 2050. Your Committees recognize that the high cost to upgrade, convert, or connect a cesspool prevent property owners from promptly complying with this legislative mandate. Your Committees further find that actual progress towards the upgrade, conversion, and connection of cesspools must begin soon for property owners to meet the statutory deadline of January 1, 2050, and believe that the State should make upgrading, converting, and connecting practicable for the average cesspool owner. This measure will provide much-needed financing to low- and moderate- income households for cesspool conversions.

According to testimony received by your Committees, the full-time equivalent program management and loan officer position can be funded by the earned interest income of the Authority's green energy market securitization-funded loan program instead of general funds.

Your Committees have amended this measure by:

- (1) Amending all references to "the solar photovoltaic and energy storage loan program" to refer to "any solar or energy storage program";
- (2) Requiring the Hawaii Green Infrastructure Authority to comply with the State Procurement Code when entering into contracts for the administration of the Green Infrastructure Loan Program, loan fund programs supported by the Clean Energy and Energy Efficiency Revolving Loan Fund, and Cesspool Conversion Revolving Loan Fund;
- (3) Deleting language that would have allowed the Authority to implement and administer a cesspool conversion revolving loan fund program with funds from the Water Pollution Control Revolving Fund and replacing it with language that allows the Authority to reference as an example the loan program funded under section 342D-33, provided by the Department of Health;
- (4) Deleting language that would have appropriated funds for one full-time equivalent (1.0 FTE) program management and loan officer position and to provide loans or other financial assistance to eligible borrowers for cesspool conversions or other authorized uses; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2498, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2498, S.D. 1, and be referred to your Committees on Water and Land and Health and Human Services.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Fevella).

SCRep. 2137 (Majority) Judiciary on H.B. No. 824

The purpose and intent of this measure is to establish a medical or compassionate release program for certain ill or impaired inmates who pose a low risk to public safety.

Your Committee received testimony in support of this measure from the Hawaii Paroling Authority and Women's Prison Project.

Your Committee received testimony in opposition to this measure from the American Civil Liberties Union of Hawai'i and one individual.

Your Committee received comments on this measure from the Department of Corrections and Rehabilitation.

Your Committee finds that the United States federal prison system and many states grant some kind of medical or compassionate release under certain circumstances. Compassionate release provides physicians and other medical professionals an opportunity to use their unique expertise and knowledge of prognosis, geriatrics, cognitive and functional decline, and palliative medicine to ensure that medical criteria for compassionate release are appropriately evidence-based, which in turn allows criminal justice professionals to better determine whether or not an inmate should be granted medical release. This measure will allow certain ill or impaired inmates who pose a low risk to public safety to receive appropriate levels of care and medical treatment by creating a medical or compassionate release program.

Your Committee has amended this measure by:

- (1) Deleting language that would have required that a request for medical release made by an inmate or an inmate's representative be accompanied by a recommendation for medical release by a physician who is licensed to practice medicine in the State;
- (2) Requiring the Director of Corrections and Rehabilitation to forward a report of an inmate's request for medical release to the Hawaii Paroling Authority within twenty days of receiving the request;
- (3) Requiring the Hawaii Paroling Authority to hold a hearing on a request for medical release within ten days of receiving a medical release report from the Department of Corrections and Rehabilitation;
- (4) Requiring the Hawaii Paroling Authority to grant or deny a request for medical release within two days following a hearing on a request for medical release;
- (5) Requiring the Director of Corrections and Rehabilitation to appoint an advocate for any inmate who requests medical release and is unable, due to incapacitation or debilitation, to advocate on the inmate's own behalf;

- (6) Making it effective upon its approval; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 824, H.D. 2, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 824, H.D. 2, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2138 Housing on S.B. No. 2133

The purpose and intent of this measure is to:

- (1) Authorize the Hawaii Housing Finance and Development Corporation (HHFDC) to issue bonds for housing project infrastructure and finance the development of regional state infrastructure projects;
- (2) Exempt bonds issued by HHFDC for improvements by assessments, and the interest thereon, from state, county, and municipal taxation, with certain exceptions;
- (3) Include proceeds from bonds issued for regional state infrastructure projects as a source of revenue for regional state infrastructure subaccounts; and
- (4) Authorize regional state infrastructure subaccount revenues to be used to repay regional state infrastructure project bond holders.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, and one individual.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the cost of off-site infrastructure is a major barrier to the development of housing statewide. These costs are typically paid by private housing developers who, in turn, pass them on to homebuyers or renters. This measure provides a much-needed predictable revenue source to help finance regional public infrastructure to facilitate transient-oriented development and affordable housing production in the State.

Your Committee notes the concerns raised in testimony that bonds issued by the State require a reliable source of revenue for the repayment of the bonds. According to testimony received by your Committee, the HHFDC will use the assessments to repay the bonds.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2133 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2139 Housing on S.B. No. 2027

The purpose and intent of this measure is to restrict any county from disapproving or imposing certain conditions on the development of a housing development project or emergency shelter unless the county meets certain requirements.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Grassroot Institute of Hawaii, Church of the Crossroads, Aloha United Way, Hawai'i Children's Action Network Speaks!, one member of the Maui county council, and three individuals.

Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committee received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that Hawaii is in a dire housing crisis as housing supply is at a critically low level. Many housing development projects stall at the county level due to overregulation and government backlog. When projects are not approved, clear and thorough reasons should be provided to the applicant and the public explaining the reasons for the denial. This measure holds counties accountable to ensure that each housing project and emergency shelter is well-vetted and accurately considered, while also ensuring necessary protections for public health and safety.

Your Committee has amended this measure by:

- (1) Inserting language specifying that a county shall not consider an application complete unless the county has made a reasonable and good faith determination that the proposed project does not affect historic properties, archeological resources, or burial sites or alternatively requiring developers to provide documentation showing the developer worked with the State Historic Preservation Division and completed any work needed to satisfy chapter 6E, Hawaii Revised Statutes;
- (2) Inserting language to require developers to show documentation that the proposed development does not encroach upon certain Special Flood Hazard Areas, or that the project has been reviewed for floodplain management compliance and received a permit for construction by the applicable community official; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2027, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2140 (Majority) Housing on S.B. No. 2029

The purpose and intent of this measure is to:

- (1) Prohibit any law, ordinance, or rule from imposing an inclusionary zoning requirement on housing offered exclusively for sale in perpetuity to buyers who are residents of the State, are owner-occupants or renters, and do not own any other real property; and
- (2) Require each county to submit certain reports to the Legislature.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and Church of the Crossroads.

Your Committee received testimony in opposition of this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that the counties play a major role in setting policies that impact the production of housing in the State. Your Committee recognizes that counties have used inclusionary zoning rules to encourage the creation of affordable housing in the State. According to testimony received by your Committee, well-intentioned inclusionary zoning makes housing less affordable, since developers respond to such mandates by building fewer affordable housing units. This measure will provide a strong incentive for the production of housing units at all price points, thereby allowing developers to meet the housing needs of the State.

Your Committee has amended this measure by:

- (1) Inserting legislative findings;
- (2) Deleting language that would have required counties to submit certain reports to the Legislature; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2029, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 2141 Housing on S.B. No. 2042

The purpose and intent of this measure is to establish a permit process that shifts the responsibility for code compliance from the counties to the design professional for all single-family and multi-family residential projects by requiring counties to grant building permits within sixty days if applications are stamped and certified by the design professional.

Your Committee received testimony in support of this measure from Stanford Carr Development, LLC; Hawaii Habitat for Humanity Association; Building Industry Association; Hawaii Chamber of Commerce Hawaii; and one member of the Maui County Council.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee received comments on this measure from the Department of Land and Natural Resources and Grassroot Institute of Hawaii.

Your Committee finds that Hawaii has some of the longest processing times for residential building permits. A study prepared by the University of Hawaii Economic Research Office in April 2022 found that, on average, Hawaii homebuilders wait three times longer for permits than those in other states, which drives up costs significantly and creates uncertainty, serving as a disincentive to build new projects. Your Committee also finds that in other municipalities around the country, building plans are not scrutinized to the extent that they are in Hawaii counties, which contributes to these delays. Given that similar professional self-certification programs have proven to be successful in other jurisdictions, this measure will shorten the permit review process by shifting the responsibility of meeting building codes onto the design professionals without compromising the safety and quality of construction.

Your Committee notes the concerns raised in testimony that allowing third-party reviewers to review permit applications contradicts what has customarily and historically been performed by civil service employees and that it is the county's responsibility to make sure that building plans meet applicable codes for the public's safety and welfare. Your Committee finds that these concerns merit further consideration and requests that subsequent Committees that may hear this measure further examine these issues as the measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting language specifying that if a permit is not approved by the county within sixty days of a complete application being filed, it shall be deemed approved; provided that county approval has not been delayed due to non-compliance of the permit with applicable state law or county ordinances;
- (2) Inserting language establishing that an application shall not be considered complete until:
 - (A) Either the county has made a reasonable and good faith determination that the project does not have the potential to affect historic properties, archeological resources, or burial sites; or the project has completed the process under chapter 6E, Hawaii Revised Statutes; and
 - (B) The developer submits documentation evidencing that the proposed development does not encroach in certain flood hazard areas, or has been reviewed for floodplain management compliance and has been issued a development permit for construction by the applicable community official; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2042, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2042, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2142 Housing on S.B. No. 2043

The purpose and intent of this measure is to prohibit the Hawaii Housing Finance and Development Corporation from forgiving loans made from the Rental Housing Revolving Fund.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Rental Housing Revolving Fund provides gap-financing for developers who construct or rehabilitate affordable housing under the Low-Income Housing Tax Credit program. Typically, developers who receive financing from the Rental Housing Revolving Fund own the housing projects and are entitled to earn unlimited amounts of profits from tax-payer financed buildings. Your Committee therefore finds that it is against the public interest to allow these taxpayer-financed loans to be eligible for forgiveness.

Your Committee has amended this measure by:

- (1) Making a conforming amendment to section 201H-86, Hawaii Revised Statutes, to align with the purpose of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2043, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2043, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2143 Housing on S.B. No. 2066

The purpose and intent of this measure is to require certain projects meeting the criteria of section 201H-38(a)(1), Hawaii Revised Statutes, to be exclusively for sale or rent to occupants who are Hawaii residents who own no other real property.

Your Committee received testimony in support of this measure from Church of the Crossroads.

Your Committee received comments on this measure from the Department of Land and Natural Resources and Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii currently has an affordable housing shortage. Lack of affordable housing has contributed to an increasing number of residents of the State moving to other states in search of more affordable housing options, and wealthy residents of other states pricing out local families. This measure aims to combat such issues by requiring certain housing projects be made available only to State residents who own no other real property.

Your Committee has amended this measure by requiring certain projects meeting the criteria of section 201H-38(a)(1), Hawaii Revised Statutes, to instead be made available exclusively for sale or rent to qualified residents as defined in section 201H-32, Hawaii Revised Statutes, who are deemed to be moderate income households.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2066, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2066, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2144 (Majority) Housing on S.B. No. 2833

The purpose and intent of this measure is to appropriate funds to establish a project management III position within the Hawaii Housing Finance and Development Corporation to aid in the development of affordable housing options in the State.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and the Hawaii Housing Finance and Development Corporation.

Your Committee finds that the Hawaii Housing Finance and Development Corporation is the primary agency charged with overseeing the development of affordable housing in the State. Your Committee also finds that development of temporary and permanent affordable housing on Maui, administration of infrastructure loans for Maui, development of a leasehold project at the University of Hawaii West Oahu, and infrastructure and project coordination to implement the Mahelona Transit-Oriented Development Master Plan on Kauai are projects that require additional HHFDC resources. This measure aims to resolve these issues through the establishment of a project management III position within HHFDC.

According to the testimony of HHFDC received by your Committee at the public hearing on this measure, HHFDC may require additional positions, including a financial specialist and compliance specialist. Your Committee notes HHFDC's need for further personnel planning and finds that these issues merit further consideration. Your Committee respectfully requests that these issues be examined further, should subsequent Committees choose to hear this measure as it advances through the legislative process.

Your Committee has amended this measure by:

- (1) Clarifying the position title as "project manager III"; and
- (2) Inserting an appropriation amount of \$213,785 for the establishment of one (1.0 FTE) project manager III position; provided that this amount shall represent an annual salary of \$130,000 plus fringe benefits.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2833, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2833, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Kanuha).

SCRep. 2145 Energy, Economic Development, and Tourism on S.B. No. 2122

The purpose and intent of this measure is to extend the State's energy efficiency portfolio standards from 2030 to 2045 and to further develop and clarify procedures for the energy-efficiency portfolio standards established and overseen by the Public Utilities Commission.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Division of Consumer Advocacy, Hawaii State Energy Office, Hawai'i Climate Change Mitigation and Adaptation Commission, Public Utilities Commission, Blue Planet Foundation, Hawai'i Energy, Hawaiian Electric, Democratic Party of Hawai'i, Ulupono Initiative, Climate Protectors Hawaii, Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i, 350Hawaii, Wild Kids, and eight individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that as the State progresses toward its renewable energy and decarbonization goals, improving energy efficiency remains the most cost-effective way to reduce emissions associated with electricity generation and consumption, while providing financial benefits for customers. Act 155, Session Laws of Hawaii 2009, codified energy efficiency goals through the establishment of an energy-efficiency portfolio standard. Fifteen years later, your Committee further finds that it is appropriate to extend these energy efficiency goals and ensure that the Public Utilities Commission may continue its work developing and overseeing the State's energy-efficiency portfolio standards beyond 2030.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2122, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2146 Energy, Economic Development, and Tourism on S.B. No. 2081

The purpose and intent of this measure is to establish the Aerospace and Aeronautics Development Program within the Department of Business, Economic Development, and Tourism and to appropriate funds for the establishment of the program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Technology Development Corporation; Alliance for Collaboration in the Exploration of Space; Mahina Aerospace, LLC; Maui Economic Development Board; Hawaii Island Economic Development Board; Interstel Technologies, Inc.; Hawaii Leeward Planning Conference; Hawaii Young Republicans; and six individuals.

Your Committee finds that the aeronautics and aerospace industries hold great potential to enable future development and innovation in science and technology in the State. This measure establishes the Aerospace and Aeronautics Development Program to provide a focal point within state government to facilitate dialogue and coordination among the State's public, private, and academic

sectors, and to support the State in becoming a major contributor to, and beneficiary of, global space enterprise. This measure further can help the State increase high paying jobs in local communities and diversify the State's economy.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2081, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2147 Energy, Economic Development, and Tourism on S.B. No. 2504

The purpose and intent of this measure is to repeal:

- (1) Part II of Act 66, Session Laws of Hawaii 2023, which requires the Department of Business, Economic Development, and Tourism to work with the University of Hawaii on workforce development activities that support the development of the Hawaii Pacific Hydrogen Hub and related aspects of the State's hydrogen energy industry; and
- (2) The respective appropriation to the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office, 350Hawaii, and Environmental Caucus of the Democratic Party of Hawai'i.

Your Committee finds that it is necessary to repeal Part II of Act 66, Session Laws of Hawaii 2023, as the application of the Hawaii Pacific Hydrogen Hub was not selected for funding by the United States Department of Energy. Your Committee notes that although the Hawaii Pacific Hydrogen Hub proposal was not selected, the Hawaii State Energy Office has gained considerable knowledge that could accelerate the development of green hydrogen use in the State and that two projects included in the proposal are still moving forward.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2504, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2504, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2148 Judiciary on S.B. No. 2374

The purpose and intent of this measure is to appropriate moneys for the Judiciary's supplemental budget for the 2023-2025 biennium.

Your Committee received testimony in support of this measure from the Judiciary and the Hawaii State Bar Association.

Your Committee finds that the supplemental appropriations made by this measure will help the Judiciary fulfill its mandates and address a growing demand for judicial services.

Your Committee has amended this measure by making technical, nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2374, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2374, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2149 Judiciary on S.B. No. 2385

The purpose and intent of this measure is to:

- (1) Propose an amendment to the Hawaii State Constitution to place procedural restrictions on the timing of judicial appointments and confirmations;
- (2) Establish a window between September 1 and November 30 during which the Judicial Selection Commission may not present a list of nominees to the Governor or Chief Justice; and
- (3) Provide that if multiple judicial vacancies occur between regular sessions of the Legislature, the Senate shall be called into not more than two special sessions to consent to a judicial appointment.

Your Committee received no testimony on this measure.

Your Committee finds that requiring the Senate to be called into multiple special sessions to consent to a judicial appointment requires paying for transportation and other necessary expenses for Senators who do not reside on Oahu. This measure will improve

government efficiency and save taxpayer money by placing procedural restrictions on the timing of judicial appointments and confirmations.

Your Committee notes that the cost for the Senate to conduct a two-day special session to confirm judges and justices is at least \$5,200 per session, to cover costs associated with the participation of neighbor island Senators. If additional time for the session is required, the cost will increase.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2150 Judiciary on S.B. No. 2375

The purpose and intent of this measure is to establish one additional district court judgeship in the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary and Hawaii State Bar Association.

Your Committee finds that it has been more than forty years since the last district court judge was authorized in 1982. Since then, there has been a significant increase in the population of the City and County of Honolulu. According to the Department of Business, Economic Development, and Tourism, the population of the City and County of Honolulu grew from 762,565 in 1981 to 1,000,890 in 2021. Presently, the Judiciary relies heavily on per diem judges to preside over district court calendars. However, the availability of per diem judges is often limited because most per diem judges are practicing attorneys with other professional responsibilities. This measure will enable the district court to better manage court dockets and be more responsive to the needs of the community while also increasing capacity in rural courts and developing and expanding specialized court calendars.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2375 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2151 (Majority) Judiciary on H.B. No. 129

The purpose and intent of this measure is to:

- (1) Provide that a mandatory recount shall occur when the difference in votes cast is equal to the lesser of one hundred votes or less, or one-quarter of one percent of the total votes cast for the contest; and
- (2) Establish that the filing deadline for a complaint for a contest for cause that arises from a mandatory recount shall be the same as the filing deadline for complaints for contests in which no mandatory recount was held.

Your Committee received testimony in support of this measure from the Office of Elections and League of Women Voters of Hawaii.

Your Committee received testimony in opposition to this measure from six individuals.

Your Committee finds that since the implementation of automatic recounts beginning with the 2020 elections, there have been eleven automatic recounts. The vast majority of the recounts were triggered in conjunction with a primary election, due in part to the size of some single-party primary contests being so small that the one hundred vote threshold in existing law triggered a recount even though the vote difference did not come close to meeting the alternate trigger of a vote difference of one-quarter of one percent of the total number of votes cast for the contest or less. For example, during the 2022 primary election, the recount for State Representative District 20 was due to the vote differential being eighty-seven, despite the percentage difference being 6.3 percent of votes cast. This measure will provide election staff and volunteers adequate time to recount impacted contests while also modifying the threshold for determining an automatic recount to address the margin of votes between candidates in small races.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 129, and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2152 Hawaiian Affairs on S.B. No. 3112

The purpose and intent of this measure is to increase the loan limit for direct loans provided by the Department of Hawaiian Home Lands from fifty percent to seventy-five percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and Urban Development's Federal Housing Administration, as currently outlined in Section 215 of the Hawaiian Homes Commission Act, 1920, as amended.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho'omana Pono, LLC; and four individuals.

Your Committee finds that the Department of Hawaiian Home Lands provides direct loans for the repair, maintenance, purchase, and erection of a dwelling. However, the Hawaiian Homes Commission Act, 1920, as amended, stipulates that these loans cannot exceed fifty percent of the maximum single residence loan amount allowed in Hawaii by the United States Department of Housing and

Urban Development's Federal Housing Administration. This measure will enable the Department of Hawaiian Home Lands to better serve beneficiaries seeking to purchase or make improvements to their home by increasing the loan limit from fifty percent to seventy-five percent of the maximum single residence loan amount allowed in Hawaii by the Federal Housing Administration.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3112 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2153 Hawaiian Affairs on S.B. No. 3109

The purpose and intent of this measure is to:

- (1) Amend the appropriation in section 6, of Act 279, Session Laws of Hawaii 2022 (Act 279), to conform with the Hawaii State Constitution; and
- (2) Appropriate funds to the Department of Hawaiian Home Lands for fiscal year 2024-2025 to give practical effect to the intent behind Act 279.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Budget and Finance; Ho'omana Pono, LLC; and one individual.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that Act 279 does not conform with the Hawaii State Constitution's provision that no appropriation shall be made for a period exceeding three years. To meet this requirement and to fulfill the purpose of Act 279, this measure will amend the appropriation of Act 279 and make a new appropriation of general funds for fiscal year 2024-2025 to the Department of Hawaiian Home Lands.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3109 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2154 Hawaiian Affairs on S.B. No. 3113

The purpose and intent of this measure is to increase the allowable loan term for direct loans provided by the Department of Hawaiian Home Lands from thirty years to forty years.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands; Ho'omana Pono, LLC; and five individuals.

Your Committee finds that the United States Department of Agriculture's Section 502 Direct Loan Program provides a loan term of thirty-eight years; however, loans administered by the Department of Hawaiian Home Lands for the beneficiaries of the Hawaiian Homes Commission Act, 1920, as amended, have maximum terms of thirty years. This measure addresses this discrepancy by amending the Hawaiian Homes Commission Act, 1920, as amended, to increase the term for direct loans provided by the Department of Hawaiian Home Lands to forty years.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3113 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2155 (Joint) Hawaiian Affairs and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2645

The purpose and intent of this measure is to establish a compliance and enforcement program within the Department of Hawaiian Home Lands to investigate complaints, conduct investigations, and cooperate with law enforcement authorities to ensure compliance with laws.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Wai'anae Valley Homestead Community Association; Keaukaha Community Association; Ho'omana Pono, LLC; Kapalama Neighborhood Security Watch; and eight individuals.

Your Committees received testimony in opposition to this measure from the Department of Law Enforcement and two individuals.

Your Committees find that the health and safety of homestead communities is a top priority. Illegal activity occurring on Hawaiian Home Lands threatens the health and safety of the community. This issue is exacerbated by law enforcement's inconsistent responses to illegal activity on Hawaiian Home Lands across the counties. This measure will provide for enforcement personnel dedicated to Hawaiian Home Lands.

Your Committees have amended this measure by:

- (1) Changing the appropriation amount from \$500,000 to a blank amount; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that \$2,000,000 is an approximate amount for the establishment of a compliance and enforcement program within the Department of Hawaiian Home Lands. Your Committees also note that Senate Bill No. 490, S.D. 2 (2023), a carryover measure from the Regular Session of 2023, is similar in intent and purpose to this measure, includes language recommended by the Department of Law Enforcement, and may still be considered this session.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2645, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2645, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2156 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2805

The purpose and intent of this measure is to:

- (1) Require the Agribusiness Development Corporation to develop a program to educate and assist farmers and ranchers in the process of transitioning agricultural businesses to new owners;
- (2) Require the program to connect individuals interested in entering farming or ranching, or existing farmers or ranchers interested in expanding their business, with farmers and ranchers who have not yet identified a successor owner; and
- (3) Appropriate money.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the State's total amount of agricultural land has decreased by over twenty-seven thousand acres since 2015 and that this is in part due to the aging of the agricultural workforce. Because younger generations in farming families are often reluctant to take over family farms, many farmlands in the State are at risk of falling fallow which could further compromise the State's food security. Your Committees further find that this measure effectively supports the process of transitioning agricultural businesses to the next generation through a succession planning education program developed by the Agribusiness Development Corporation.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2805, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2805, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2157 (Joint/Majority) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2801

The purpose and intent of this measure is to:

- (1) Require the Department of Business, Economic Development, and Tourism to identify sites throughout the State that are suitable for the development of slaughterhouses;
- (2) Require the Agribusiness Development Corporation to plan, design, construct, and operate certain animal slaughterhouses throughout the State; and
- (3) Appropriate moneys for the development of slaughterhouses throughout the State.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Food Industry Association; Hawaii Cattlemen's Council, Inc.; Hawaii Leeward Planning Conference; Hawaii Young Republicans; and two individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the number of animal slaughterhouses in the State, and their respective capacities, are limited. If any existing slaughterhouse were to cease operations, the effects on the State's food supply, market, businesses, and consumers could be devastating. Your Committees further find that this measure can avert this potential outcome and help to ensure a sustainable source of animal protein for the State's consumers.

Your Committees have amended this measure by:

- (1) Adding axis deer to the list of animals to be harvested and processed;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2801, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2801, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Gabbard). Noes, 1 (Rhoads). Excused, none.

SCRep. 2158 (Joint/Majority) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2768

The purpose and intent of this measure is to require the Hawaii State Energy Office to adopt rules governing a clean fuel standard for gasoline and diesel in the State.

Your Committees received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Neste, Clean Energy U.S., Biotechnology Innovation Organization, and two individuals.

Your Committees received testimony in opposition to this measure from the Environmental Caucus of the Democratic Party of Hawai'i and two individuals.

Your Committees received comments on this measure from the Hawai'i State Energy Office, Alliance for Automotive Innovation, Hawaiian Electric, Par Hawaii, and 350Hawaii.

Your Committees find that a clean fuel standard is central to reducing the State's greenhouse gas emissions. Without policy specific to the transportation sector, emissions reductions will not be achieved in a timeframe consistent with the State's goal. Your Committees further find that a clean fuel standard that is technology-neutral and market-based is an effective policy for reducing emissions in the transportation sector while also achieving other co-benefits.

Your Committees also find that the specific goals for carbon reduction and allocation amounts for clean energy programs merits further consideration and requests that subsequent Committees who choose to hear this measure as it advances through the legislative process further examine and make recommendations on the unspecified percentage levels for carbon intensity reduction and annual deficit allocation to clean energy programs.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2768, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2768, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2159 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2824

The purpose and intent of this measure is to:

- (1) Authorize the Director of Finance to issue general obligation bonds to the Agribusiness Development Corporation for the upgrade of South and West Maui's R-1 water delivery systems, and the upgrade of certain water reservoirs located in the forest watershed areas of South and West Maui;
- (2) Require the Agribusiness Development Corporation to collaborate with the Department of Land and Natural Resources, County of Maui, and private land owners, as necessary; and
- (3) Appropriate moneys.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, one member of the Maui County Council, Hawai'i Farm Bureau, Hawaii Young Republicans, and two individuals.

Your Committees received comments on this measure from the Department of Land and Natural Resources and Agribusiness Development Corporation.

Your Committees find that without increasing the use of reclaimed water in the State, residents will encounter potable drinking water shortages caused by overuse of potable drinking water for agricultural, landscaping, or firefighting purposes. Your Committees further find that this measure will utilize former plantation reservoirs to store reclaimed water, allowing for easier access for agriculture and landscaping use for West Maui and providing firefighters with efficient access to water.

Your Committees further find that the amounts for the general obligation bonds and costs of the capital improvement projects in this measure merit further consideration and request that your Committee on Ways and Means examine and make recommendations as to these amounts. In addition, your Committees respectfully request that your Committee on Ways and Means consider appropriating funds to the Agribusiness Development Corporation for the implementation of this measure.

Your Committees have amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2824, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2824, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2160 (Joint/Majority) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2451

The purpose and intent of this measure is to direct the Hawaii State Energy Office, in conjunction with the Hawaii Natural Energy Institute, to develop and submit a strategy report to the Legislature by 2026 for the construction of at least one atmospheric carbon capture plant in the State by 2029.

Your Committees received testimony in support of this measure from one individual.

Your Committees received testimony in opposition to this measure from the Energy and Climate Action Committee of the Environmental Caucus of the Democratic Party of Hawai'i and five individuals.

Your Committees received comments on this measure from the Hawaii State Energy Office, Hawai'i Natural Energy Institute of the University of Hawaii System, and Life of the Land.

Your Committees find that the threats posed by climate change are of concern to the State. Advances in technology now allow for carbon to be scrubbed from the atmosphere through the operation of carbon capture plants like those constructed in other jurisdictions that have successfully removed millions of tons of atmospheric carbon dioxide. Construction of any carbon capture plants in the State will require extensive preparation, such as a thorough environmental review and a robust lifecycle emissions analysis to determine the efficacy of the carbon capture plant due to the substantial energy requirements of atmospheric carbon capture.

Your Committees have heard the concerns raised in testimony concerning the proposed timeframe for development of a carbon removal plant for technical and cost reasons. Your Committees find that this concern merits further consideration and requests that subsequent Committees who choose to hear this measure further examine the feasibility of the proposed construction deadline, including recommendations on construction time, cost, and environmental impact.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an unspecified date for the proposed construction deadline for the development of a carbon capture plant, to encourage further discussion;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2451, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2451, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5; Ayes with Reservations (Kim, Fevella). Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4; Ayes with Reservations (Richards). Noes, 1 (Awa). Excused, none.

SCRep. 2161 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2767

The purpose and intent of this measure is to clarify that the Natural Energy Laboratory of Hawaii Authority's duties include supporting aquaculture.

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Natural Energy Laboratory of Hawaii Authority; Hawai'i Farm Bureau; Kowa Premium Foods Hawaii Corporation; EcoponicX, Inc.; and Hawaii Young Republicans.

Your Committees find that while the Natural Energy Laboratory of Hawaii Authority (NELHA) currently manages aquaculture tenants and supports aquaculture industry development, this policy could change depending on economic or political shifts. The proposed language in this measure establishes a statutory relationship with aquaculture and signals to the aquaculture industry that NELHA will continue to support aquaculture into the future.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2767, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2767, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

SCRep. 2162 (Joint) Housing and Water and Land on S.B. No. 2011

The purpose and intent of this measure is to allow the construction of multi-family dwelling units on any lot within certain designated county zoning districts, subject to reasonable standards that each county may adopt.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Building Industry Association Hawaii, Grassroot Institute of Hawaii, and one individual.

Your Committees find that Hawaii is in critical need of more housing. Developing housing on undeveloped land can be challenging, as large upfront costs are required for infrastructure, including water and electricity, which can be prohibitive and deters potential development. This measure will reduce barriers by allowing construction of residential housing within non-residential zoned areas, to lower the cost of development as these areas already have the necessary infrastructure to support residential development in most cases.

Your Committees have heard the concerns raised in testimony regarding this measure's limited applicability to any newly created zoning district classifications, which may be adopted by the counties in the future. However, your Committees note that changing the land use ordinances to create new zoning classifications is difficult and is unlikely to occur.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2011, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2011, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2163 (Joint) Housing and Water and Land on S.B. No. 2064

The purpose and intent of this measure is to:

- (1) Allow the Hawaii Housing Finance and Development Corporation the right of first refusal for the development of property on certain state lands, that are within county-designated transit-oriented development zones, or within a one-half mile radius of a proposed or existing transit station if the county has not designated transit-oriented development zones, which shall be triggered by a proposed development or proposed transfer of fee simple or leasehold property interest; and
- (2) Require state departments to provide advance written notice of any approval of a proposed development as proposed transfer of lands.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Church of the Crossroads, and two individuals.

Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committees received comments on this measure from the Department of Hawaiian Homelands and Disability and Communication Access Board.

Your Committees find that Hawaii is currently experiencing a housing crisis. In addition, Hawaii has faced several challenges in its attempts to lower the cost of housing. This measure will assist the State in its efforts to increase affordable housing supply near transit centers to save money on land costs, offer ease of access to public transit, and reduce the reliance on costly personal vehicles and garaging space.

Your Committees note that the Department of Land and Natural Resources currently has plans for four parcels near the planned rail station in East Kapolei. Rather than utilize these scarce transit-oriented development lands for construction of urgently-needed housing, the department intends to lease the parcels for income generating purposes. Your Committees further note that Kinau Hale is another site that could benefit from a larger mixed-use redevelopment project under the Hawaii Housing Finance and Development Corporation to provide workforce housing and office space, but the Department of Health instead plans to renovate the existing building purely for its own use. These are two examples of why this measure is necessary.

Your Committees also note the concerns raised in testimony regarding the minimum number of accessible housing units in public facilities. Currently only five percent of units are required to be accessible for individuals with mobility disabilities and two percent of units to be accessible for those with communication disabilities. The number of individuals in Hawaii with mobility and communication disabilities far exceed these minimums. Accordingly, your Committees note the need for additional supportive housing units in the State that are accessible for individuals with disabilities and request that these issues be taken into consideration as this measure moves through the legislative process.

Your Committees have amended this measure by:

- (1) Deleting language that would have allowed the Hawaii Housing Finance and Development Corporation to undertake any development project that does not involve a transfer of land, regardless of whether the state agency or department proposes to develop the lands;
- (2) Deleting language that would have established certain requirements for proposed transfers; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2064, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2064, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2164 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2539

The purpose and intent of this measure is to:

- (1) Require government entities in the State that issue building permits to implement SolarAPP+ or a functionally equivalent online automated permitting platform that verifies code compliance and issues permits to licensed contractors for solar distributed energy resource systems in real-time by January 1, 2025; and
- (2) Require government entities in the State that issue building permits in areas served by an investor-owned electric utility to adopt a self-certification process for solar distributed energy resource systems that are not SolarAPP+ compatible.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Hawaii Green Infrastructure Authority, Ulupono Initiative, Hawaii Solar Energy Association, Hawaii Food Industry Association, Sunnova Energy International, Greenpeace Hawaii, Tesla, 350Hawaii, Sierra Club of Hawai'i, Discover Energy Systems, Sunrun, Meyer Burgers America, SunPower Corporation, Blue Planet Foundation, Kauai Climate Action Coalition, Photonworks Engineering LLP, Sol-Ark, Inception Financial LLC, Canadian Solar, Sun King Inc., Pacific Resource Partnership, The Solaray Corporation dba Inter-Island Solar Supply, PV Tech, and twenty individuals.

Your Committees received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects; and Associated Builders and Contractors, Hawaii Chapter.

Your Committees find that to progress towards the State's goal of a one hundred percent renewable portfolio standard by 2045, and to also encourage the timely build-out of a diverse, resilient, and reliable portfolio of low-cost renewable energy generation and storage assets, the State must lower administrative barriers that constrain deployment of residential and commercial-scale distributed energy resources. This measure addresses delays in the permitting process for solar distributed energy resource systems, saving ratepayers and contractors time and money while enabling faster reduction of carbon emissions.

Your Committees have heard the concerns raised in testimony regarding this measure's provisions that allow tying the issuance of building permits to labor standards, and whether these additional burdens help the State meet its renewable energy goals. Your Committees find that this issue merits further consideration and requests that subsequent Committees to which this measure is referred further examine this issue as this measure advances through the legislative process.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2539, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2539, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2165 Energy, Economic Development, and Tourism on S.B. No. 2113

The purpose and intent of this measure is to appropriate moneys to the Hawaii Technology Development Corporation for its manufacturing assistance programs.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; University of Hawai'i System; Hawai'i Farm Bureau; Chamber of Commerce of Hawaii; Holomua Collaborative; Oceanit; Hawaii Food Industry Association; Makai Ocean Engineering, Inc.; MorphOptic, Inc.; Big Island Coffee Roasters; Ai.Fish LLC; Experiad, LLC; Blue Startups; Koloa Rum Company; Hawaii Fish Company, Inc.; Tea Hawaii & Company; ThriveHI; Ho'onui, LLC; Kō Bakery; Island Plastic Bags, Inc.; Island Grown Foods, Inc. dba Hawaii Food Products; Mana Up; Aloha Shoyu Company, Ltd.; Hawaii Venture Capital Association; Startwise, Inc.; WaiHome, LLC; Chamber of Sustainable Commerce; Work Now Hawaii; KAI Hawaii, Inc.; Hawaii Standard Time Brewing; Ten Tomorrow; Ocean Era, Inc.; Hawaii Biotech, Inc.; Oceanic Imaging Consultants, Inc.; Hub Coworking Hawai'i; Guide Star Engineering, LLC; Hidden Gears; Sultan Ventures; XLR8HI; Cloudstone Innovations, Inc.; and eight individuals.

Your Committee finds that the State's manufacturing industry is a critical part of the State's economy and ongoing diversification efforts. Continued funding for the Hawaii Technology Development Corporation's programs such as the Hawaii Small Business Innovation Research Program, Manufacturing Assistance Grant Program, and Accelerator Grant Program, are crucial to moving innovation, commercialization, and manufacturing efforts forward in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2113, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2113, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 2166 Energy, Economic Development, and Tourism on S.B. No. 2518

The purpose and intent of this measure is to:

- (1) Appropriate moneys to the Hawaii Technology Development Corporation for geothermal energy exploration; and
- (2) Require surface and subsurface exploration and community outreach.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation, Ulupono Initiative, Chamber of Commerce Hawaii, Blue Planet Foundation, Hawaiian Electric, and nine individuals.

Your Committee received testimony in opposition to this measure from Na Iwi Kupuna and four individuals.

Your Committee received comments on this measure from the Hawaii State Energy Office and one individual.

Your Committee finds that to progress towards the State's goal of a one hundred percent renewable portfolio standard by 2045, new and innovative approaches must be explored. Geothermal is clean source of energy, with emissions as low as solar, wind, and hydropower. The State also faces many competing demands for land and geothermal projects use the least amount of land per megawatt of renewable power produced. Your Committee further finds that by investing in geothermal energy and outreach, the State can reduce its carbon footprint and help create a more sustainable future.

Your Committee has amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2518, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2518, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 2167 Energy, Economic Development, and Tourism on S.B. No. 2818

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to conduct a study on the effect on businesses of increasing the minimum wage and appropriate moneys to conduct the study.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau and Retail Merchants of Hawaii.

Your Committee received testimony in opposition to this measure from the Democratic Party of Hawai'i, Imua Alliance, and Democratic Party of Hawai'i Labor Caucus.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and UNITE HERE Local 5.

Your Committee finds that the assessment of increasing the minimum wage in the State needs to be thorough and comprehensive to factor in the adjustment's larger impact on the State's economy. Small agricultural businesses are especially vulnerable to any increase in costs. This measure will help ensure any minimum wage increase considers a proper balance in light of these concerns.

Your Committee acknowledges the concerns raised by the Department of Business, Economic Development, and Tourism that they do not have the adequate resources to conduct this study. The Department estimates the cost to hire a research firm to conduct surveys and prepare a report to be approximately \$200,000. Should your Committee on Ways and Means choose to hear this measure, your Committee respectfully requests that this amount be considered.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2818, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 2818, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Kim). Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 2168 Energy, Economic Development, and Tourism on S.B. No. 2497

The purpose and intent of this measure is to amend the tax credit for research activities by:

- (1) Increasing the total amount of certified credits to \$10,000,000 through 2029;
- (2) Extending the sunset date of the credit; and
- (3) Amending the definition of qualified high technology businesses that are eligible to claim the credit.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Chamber of Commerce Hawaii; Makai Ocean Engineering, Inc.; Hawaii Fish Company, Inc.; Oceanit; Hawaii Aerospace Corporation; and PacMar Technologies.

Your Committee received comments on this measure from the Department of Taxation, Department of Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that the original \$5,000,000 annual cap for the income tax credit for research activities was reached almost as soon as online applications were opened. In 2022, out of the twenty-six companies that applied for the tax credit, only nine have received the credit due to the existing annual cap. This measure will support a wider distribution of tax credits to qualified companies for a longer period and will be effective in stimulating the local economy and creating quality jobs in the State.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified annual cap for the total amount of certified credits. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider the annual total amount of certified credits to be \$10,000,000 for the tax credit on research activities.

Your Committee has amended this measure by:

- (1) Amending the definition of “qualified high technology business” by removing the word “domiciled”;
- (2) Replacing the \$10,000,000 for the total amount of certified credits with an unspecified amount;
- (3) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2497, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2497, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 2169 Energy, Economic Development, and Tourism on S.B. No. 2291

The purpose and intent of this measure is to establish advisory boards, focused on workforce development, for the Agribusiness Development Corporation, Hawaii Technology Development Corporation, and the Natural Energy Laboratory of Hawaii Authority.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Hawaii Technology Development Corporation; Agribusiness Development Corporation; Natural Energy Laboratory of Hawaii Authority; and Hawai'i Farm Bureau.

Your Committee finds that seeking and encouraging partnerships within the agricultural, technology, and natural energy industries will support the desired increase in exports and local food production, as well as the overarching goal of creating a sustainable local economy. Your Committee further finds that the establishment of the advisory boards pursuant to this measure will support the departmental and agency initiatives by further identifying workforce needs and improving the coordination and alignment with the State's businesses, community partners, and other government agencies.

Your Committee notes this measure contains unspecified requirements as to the frequency with which the advisory boards are to meet. Your Committee respectfully requests that subsequent Committees who may choose to deliberate on this measure make recommendations as to the frequency of meetings for the advisory boards.

Your Committee has amended this measure by:

- (1) Amending the membership of the advisory boards, by adding a representative of the Hawai'i Farm Bureau, or their designee, to be invited by the Governor to participate as a member, and removing the Executive Director of the Hawaii Natural Energy Institute as a member;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2291, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 2291, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Kim). Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 2170 Health and Human Services on S.B. No. 3139

The purpose and intent of this measure is to:

- (1) Establish a Crisis Intervention and Diversion Services Program within the Department of Health to expand existing services to divert those with mental health issues to appropriate health care services;
- (2) Define “mental health emergency worker”; and
- (3) Appropriate funds for the Crisis Intervention and Diversion Services Program.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Health, The Judiciary, Disability and Communication Access Board, Hawaii Substance Abuse Coalition, United Self-Help, Community Alliance on Prisons, and two individuals.

Your Committee received comments on this measure from the Hawaii Disability Rights Center and The Queen’s Health System.

Your Committee finds that thousands of people in the State are cited or arrested each year for offenses such as drinking liquor in public, loitering in public parks after hours, and camping on sidewalks, beaches, and other restricted public places. Most of these people suffer from issues relating to drugs, alcohol, or mental illness and may be better served through the health care system, rather than the criminal justice system. This measure will support the development and implementation of a system of services that are specifically designed to address the needs of people experiencing a behavioral health crisis.

Your Committee notes the testimony of the Department of Health requesting an appropriation of \$6,700,000, rather than the \$6,000,000 proposed in the measure, to implement the program. Therefore, your Committee respectfully requests that your Committee on Ways and Means consider inserting an appropriation amount of \$6,700,000 for fiscal year 2024-2025.

Your Committee has amended this measure by:

- (1) Clarifying that the Crisis Intervention and Diversion Services program redirects persons experiencing not just mental health disorders but also, co-occurring mental health disorders and substance use disorders;
- (2) Clarifying that the Department of Health may operate a behavioral health crisis center to treat and refer individuals in behavioral health crisis;
- (3) Inserting language to expand referrals to psychiatric facilities to include other facilities designated by the Director of Health;
- (4) Inserting an unspecified appropriation amount to facilitate further discussion;
- (5) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3139, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2171 Judiciary on S.B. No. 2927

The purpose and intent of this measure is to propose an amendment to the Hawaii State Constitution to make the Senate confirmation process for judicial appointments the same, whether the appointment is made by the Governor or the Chief Justice.

Your Committee received no testimony on this measure.

Your Committee finds that the existing Senate confirmation process for judicial appointments differs if the appointment is made by the Governor or the Chief Justice. This measure will reduce confusion and provide clarity for the judicial appointment process by making the process uniform, regardless of whether the appointment is made by the Governor or the Chief Justice.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2927 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2172 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2543

The purpose and intent of this measure is to require government entities to seek reimbursement for search and rescue expenses from persons who require rescue after ignoring warning signs, leaving a hiking trail to enter a prohibited area, or hiking on a trail closed to the public.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and five individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from Pono Consulting.

Your Committee finds that the coronavirus disease 2019 pandemic fueled a sustained surge of experienced and inexperienced hikers venturing outdoors. Emergency rescue situations where hikers ignored posted warning signs, intentionally left a hiking trail, or entered property that is closed to the public required first responders to put all ongoing operations on hold, with agencies often incurring additional unbudgeted costs and expense through overtime, calling in additional responders, and costs of equipment and supplies. This measure will shift the cost to hikers who ignore posted warning signs, intentionally leave a hiking trail, or enter property that is closed to the public, which may act as a deterrent and reduce violations, improve public safety, and mitigate the need for costly and dangerous rescues.

Your Committee has amended this measure by inserting an effective date of January 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2543, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2543, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2173 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2693

The purpose and intent of this measure is to:

- (1) Establish the offense of charitable fraud during a state of emergency; and
- (2) Provide that a person commits charitable fraud during a state of emergency if that person, during a state of emergency proclaimed by the Governor, performs certain deceptive acts or practices in connection with the solicitation of a contribution to assist persons affected by a disaster or emergency.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Hawaii Young Republicans, and one individual.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that natural disasters provide a place for fraudulent activity and fake philanthropies to proliferate.

Your Committee further finds that the United States Department of Justice issued a warning of potential fraudulent activity around donations and contributions masquerading as Maui fire relief. This measure will create avenues to prosecute charitable fraud and theft in the aftermath of emergencies.

Your Committee has amended this measure by:

- (1) Adding language that specifies the state of mind for the offense as intentionally, knowingly, or recklessly;
- (2) Removing language that would have required the person who uses any deceptive act or practice, false pretense, false promise, or misrepresentation in connection with the solicitation of a contribution to have the intent that others rely on it;
- (3) Removing language that would have limited contributions solicited to those providing direct aid; and
- (4) Adding a definition for "solicit" and "solicitation".

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2693, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2693, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2174 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 2910

The purpose and intent of this measure is to appropriate funds to the Department of Law Enforcement for an additional fifteen full-time equivalent (15.0 FTE) sheriff positions for transitional law enforcement officer activities in Lahaina.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the ACLU of Hawai'i.

Your Committee finds that historically, recovery efforts following major disasters span a protracted period of time. According to testimony received by your Committee, while recovery and rebuilding efforts for Lahaina and Maui are under way, there will be a significantly increased demand for law enforcement presence in the area to provide for the safety of the public, protection of property, and the enforcement of law. This measure will provide the support needed for effective disaster recovery and community resilience.

Your Committee has amended this measure by:

- (1) Adding language that establishes eleven full-time deputy sheriff positions and four permanent supervisory deputy sheriff positions;
- (2) Adding language that broadens the scope of the positions to law enforcement officer activities in all of Maui;
- (3) Deleting language that would have defined the positions as transitional law enforcement officer activities;
- (4) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2910, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2910, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2175 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3009

The purpose and intent of this measure is to:

- (1) Specify the responsibilities of the Department of Law Enforcement's Sheriff Division regarding judicial and legislative security; and
- (2) Require the Sheriff Division to pursue, obtain, and maintain accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committee received testimony in support of this measure from the Judiciary and two individuals.

Your Committee received testimony in opposition to this measure from the Department of Law Enforcement.

Your Committee finds that public officials and employees increasingly face the risk of personal reprisal from individuals affected by decisions made in the exercise of their official duties, and that in Hawaii, threats and other inappropriate communications towards judges have increased tenfold and threats towards judiciary social workers providing probation oversight have increased ninefold over the last decade. According to testimony received by your Committee, the State Auditor has reported that the Sheriff Division has struggled to meet the needs of the State due to its lack of mission clarity. This measure will ensure adequate levels of security resources to protect legislative and judicial operations, employees, and the public.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3009, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2176 Education on S.B. No. 2635

The purpose and intent of this measure is to appropriate funds to the Department of Education for operational expenses, including the hiring of staff.

Your Committee received testimony in support of this measure from the Department of Education, Democratic Party of Hawai'i, Education Caucus of the Democratic Party of Hawai'i, and CARES.

Your Committee received comments on this measure from one individual.

Your Committee finds that the Department of Education operates two hundred forty-eight public schools statewide. As the only statewide school district in the United States, the Department of Education has an ambitious mandate that requires efficient, streamlined operations. Therefore, additional resources such as funding for adequate staffing levels is essential for operations to continue. This measure provides additional funding to the Department of Education to ensure continuity of operations and education of Hawaii's keiki.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2635 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2177 Education on S.B. No. 2071

The purpose and intent of this measure is to appropriate funds to the Department of Education to enhance the Department's mobile platforms that provide student mental health and social-emotional health support.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, Opportunity Youth Action Hawai'i, Hawaii Young Republicans, CARES, and one individual.

Your Committee finds that there is a growing need to provide mental health support to Hawaii's keiki. Presently, the Department of Education utilizes the Panorama Education platform and Trust Circle Mobile platform to gather student data around academics, attendance, behavior, mental health, and social-emotional learning needs that can provide early identification of social-emotional and academic issues. Data collected by the Department of Health also provides the Department with valuable insight into ongoing trends, allocation of existing resources, and information for strategies to better assist students in need. Accordingly, this measure will continue to minimize barriers to social-emotional, academic, and mental health services for students to ensure Hawaii's keiki can thrive in their educational careers.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2071 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Fevella).

SCRep. 2178 Education on S.B. No. 2069

The purpose and intent of this measure is to appropriate funds to the Department of Education for the establishment of three full-time equivalent (3.0 FTE) curriculum specialist II positions and ten full-time equivalent (10.0 FTE) classroom teacher positions for Ka Papahana Kaiapuni schools.

Your Committee received testimony in support of this measure from the Department of Education, Office of Hawaiian Affairs, Hawaii State Teachers Association, Malama Makua, Hui Makua O Pū'ōhala, Native Hawaiian Education Council, Nā Leo Kāko'o, a petition from Hui Mākua signed by sixty-three individuals, a petition from Hui Mākua Palapala Noi signed by nineteen individuals, a petition signed by thirty-nine individuals, and two hundred three individuals.

Your Committee finds that the demand for Hawaiian language immersion education has experienced significant growth in the last decade. Presently, twenty-two Ka Papahana Kaiapuni schools offer Hawaiian language immersion education for students in grades kindergarten through twelve. However, additional teaching and staffing resources are needed to provide high quality educational experiences for Ka Papahana Kaiapuni students, as demand for Hawaiian language immersion education has outpaced teaching and operational support. Presently, there are one hundred fifty-two teachers and four curriculum specialists who support the Hawaiian language immersion education programs across the State. Therefore, this measure increases opportunities for prospective students interested in Hawaiian language immersion education while ensuring adequate staffing for new and existing schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2069 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Fevella).

SCRep. 2179 Education on S.B. No. 2070

The purpose and intent of this measure is to temporarily exempt career and technical education goods and services purchases by the Department of Education from the State Procurement Code.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Education; and Hawaii State Energy Office.

Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that career and technical education experience provides students with immersive on-the-job exposure during their educational careers. Career and technical education provides students with the opportunity to use innovative equipment, such as flight and welding simulators for hands-on lessons. However, the procurement process to acquire equipment can deter schools from purchasing valuable classroom tools, forcing students to seek exploratory opportunities beyond high school graduation. To ensure consistency with overall state goals in education and workforce development, this measure creates greater accessibility for educational and career pathways.

Your Committee acknowledges that certain career and technical education equipment may be difficult to procure through a competitive process due to limited equipment options or a limited number of vendors who sell the product. Requiring the Department of Education to find the cheapest product could significantly delay its ability to provide valuable education experience that can only be gained through using industry standard equipment. However, your Committee notes the importance of ensuring transparency and the balance of interests when it comes to procurement. According to the Department of Education's testimony, the Department is prepared to implement policies to require that any purchase up to \$100,000 be checked by the complex area superintendent (which is not currently the existing practice, but instead the Department relies on periodic internal audits). Existing law further requires executive branch agencies to obtain three verbal or written quotes for certain small purchases, the practice of which your Committee believes would provide a tailored check and balance for the Department of Education's purchases of career and technical education equipment below the \$100,000 threshold. Therefore, amendments to this measure are necessary to reflect your Committee's discussion with the Department of Education that occurred at the public hearing on this measure.

Accordingly, your Committee has amended this measure by:

- (1) Requiring the Department of Education to obtain three written or verbal quotes for career and technical education purchases of not more than \$100,000; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2070, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Richards, Fevella).

SCRep. 2180 Education on S.B. No. 3092

The purpose and intent of this measure is to make an emergency appropriation to the Department of Education for charter schools.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii State Teachers Association, and CARES.

Your Committee finds that charter schools across the State have experienced higher enrollment rates. Presently, the Department of Education has a statutory mandate to provide proportional funding to charter schools based on the respective school's student enrollment. However, higher enrollment of students in the charter school system for the 2023-2024 school year has created an additional need for resources to ensure continuity of educational programs and operations. This measure provides additional funding for charter schools to offer high quality educational experiences for Hawaii's charter school students.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3092, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2181 Education on S.B. No. 3207

The purpose and intent of this measure is to:

- (1) Increase the cap on the Superintendent of Education's salary to not more than \$350,000; and
- (2) Make permanent the annual performance evaluation requirements for the Superintendent of Education.

Your Committee received testimony in support of this measure from the Board of Education, Buildteam 50, a letter signed by fifteen Department of Education Complex Area Superintendents, and CARES.

Your Committee received testimony in opposition to this measure from Hawai'i Parents United and one hundred seven individuals.

Your Committee finds that the Superintendent of Education plays a vital role in carrying out education policy for two hundred forty-eight public schools statewide. Serving as a key leader in the State, the Superintendent's salary should be commensurate with the level and gravity of work accomplished. Additionally, as a leader for public education in the State, performance evaluations are necessary to offer feedback, accountability, and acknowledgement of this crucial effort. Your Committee further finds that effective leadership is necessary to ensure student success, high academic achievement, and efficient departmental operations. Therefore, this measure codifies existing performance evaluation requirements while recognizing the role and responsibility of the Superintendent of Education.

Your Committee has amended this measure by decreasing the annual salary cap for the Superintendent of Education from \$350,000 to \$300,000.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3207, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3207, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Richards, Fevella). Noes, none. Excused, none.

SCRep. 2182 Education on S.B. No. 3091

The purpose and intent of this measure is to make an emergency appropriation to the Department of Education for its food service operations.

Your Committee received testimony in support of this measure from the Department of Education, Hawaii Primary Care Association, and CARES.

Your Committee received comments on this measure from Ka Ohana O Na Pua and one individual.

Your Committee finds that healthy, nutritious school meals are critical to the development of Hawaii's keiki. Presently, the Department of Education provides approximately twenty thousand school breakfasts and eighty thousand school lunches daily to students and staff at public schools. School meals have become increasingly essential for thousands of students who rely on school breakfasts and lunches as their only meals of the day. Despite this significant mandate, the Department of Education has accumulated a deficit of over \$20,000,000 for its food service operations, due to inflationary costs.

However, your Committee notes its concerns regarding the Department of Education's current data collection methods to understand school lunch trends, student preferences, and potential areas of improvement. Presently, the Department of Education utilizes software that provides menus, nutritional information, photos, translations, and a feedback section regarding the types of meals served to students. Your Committee notes that this method of data collection may not be conducive to reducing food cost or waste in public schools. Additionally, the software is a costly expense for the Department of Education. Therefore, your Committee recommends that the Department of Education consider the use of more direct surveys and assessments by the schools, rather than consultants or software with reoccurring costs, to understand the unique food preferences and needs at each public school.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3091, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2183 (Joint) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on S.B. No. 2345

The purpose and intent of this measure is to:

- (1) Require the Department of Law Enforcement to coordinate crisis intervention training for state and county law enforcement agencies and crisis intervention officers;
- (2) Require the Department of Health to certify crisis intervention officers;
- (3) Define "crisis intervention officer";
- (4) Authorize crisis intervention officers to order persons determined to be imminently dangerous to themselves or others to be transported to a designated behavioral health crisis center; and
- (5) Establish positions.

Your Committees received testimony in support of this measure from the Department of Law Enforcement; Department of Health; State of Hawaii Organization of Police Officers; Institute for Human Services, Inc.; Hawaii Disability Rights Center; Hawaii Substance Abuse Coalition; and three individuals.

Your Committees find that thousands of people in the State are cited or arrested each year for offenses such as drinking liquor in public; loitering in public parks after hours; and camping on sidewalks, beaches, and other restricted public places, many of whom are mentally ill, and subsequently do not appear in court, leading courts to issue bench warrants for their arrests. Your Committees further find that this cycle between the court system, prosecutors, and police expends unnecessary time, energy, and resources to bring violators to court. This measure will break this cycle by implementing crisis intervention measures.

Your Committees have amended this measure by:

- (1) Amending the definition of "crisis intervention officer" to mean a law enforcement officer who has been trained to recognize and communicate with a person in crisis or suffering from some form of impairment, whether from dementia, Alzheimer's disease, or any physical, developmental, cognitive, psychological, or substance disorder influencing their behavior;
- (2) Deleting language that would have allowed a crisis intervention officer to respond to a call for assistance from an officer, who has reason to believe that a person is imminently dangerous to himself or others;
- (3) Inserting unspecified appropriation amounts; and
- (4) Inserting an effective date of January 1, 2042, to encourage further discussion.

Your Committees note that the Senate Draft 1 of this measure contains unspecified appropriation amounts. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully requests that it considers inserting an appropriation amount of \$500,000 for crisis intervention officer positions and \$163,000 for training and certification for fiscal year 2024-2025.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2345, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2345, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 2184 (Majority) Health and Human Services on S.B. No. 2405

The purpose and intent of this measure is to allow an election candidate, treasurer, or candidate committee to use campaign funds for the candidate's child care and vital household dependent care costs under certain conditions.

Your Committee received testimony in support of this measure from the Women's Caucus of the Democratic Party of Hawai'i and Vote Mama Foundation.

Your Committee finds that child care obligations are one of the major factors families consider when weighing their decision to run for public office. Your Committee further finds that having young children should not deter any parent from considering running for office, and that the Federal Election Commission approves, and approximately thirty other states have enacted, legislation allowing candidates to use their campaign finances on caregiver expenses. This measure aligns the State with this national-level movement to enable a wider variety of individuals to run for public office.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2405 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2185 Health and Human Services on S.B. No. 958

The purpose and intent of this measure is to:

- (1) Establish licensure requirements for school psychologists to be administered by the Board of Psychology;
- (2) Require all school psychologists to be licensed by July 1, 2025; and
- (3) Increase the composition of the Board of Psychology to include two school psychologists.

Your Committee received testimony in support of this measure from the Hawai'i Youth Services Network; Hawai'i Association of School Psychologists; Hawai'i Children's Action Network Speaks!; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Hawaii State Teachers Association; and ten individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Education, Department of the Attorney General, Professional and Vocational Licensing Division of the Department of Commerce and Consumer Affairs, Board of Psychology, and Hawai'i Psychological Association.

Your Committee finds that school psychologists provide effective services to help children and youth with their social and emotional learning needs and can work with parents, educators, and other professionals to create supportive learning and social environments for all children. Your Committee further finds that school psychologists are not presently subject to regulation or required to undergo any formal credentialing process by the State. This measure establishes the regulatory framework and licensure requirements for school psychologists in the State.

Your Committee notes that S.C.R. No. 64, S.D. 1 (2022), requested the Auditor to conduct a sunrise analysis of the regulation and licensure of school psychologists, as proposed by S.B. No. 1274 (2021), a measure that set forth a regulatory framework and licensing requirements for school psychologists similar to those described in this measure. In November, the Office of the Auditor issued Report No. 22-13, stating that it could not conduct the sunrise analysis based on several concerns, including the insufficient definition of the practice of school psychology subject to the regulation and the work or type of work individuals will need to obtain to satisfy the licensure requirements.

Your Committee further notes the concerns raised by testimony regarding the impact of this measure, that is to be implemented on July 1, 2025, on existing school psychologists.

Accordingly, your Committee has amended this measure by deleting its contents and inserting language that:

- (1) Establishes a working group to assess and make recommendations on the most appropriate regulatory framework and licensure requirements for school psychologists in the State; and
- (2) Requires the working group to report to the Legislature before the Regular Session of 2025.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 958, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 958, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2186 Health and Human Services on S.B. No. 2285

The purpose and intent of this measure is to:

- (1) Amend the functions and duties of the State Health Planning and Development Agency; and
- (2) Appropriate moneys for administrative costs and to establish positions.

Your Committee received testimony in support of this measure from Department of Human Services, State Health Planning and Development Agency, State Council on Developmental Disabilities, Hawaii Health Information Exchange, Hawai'i Primary Care Association, Hawaii Medical Service Association, Hawaii Association of Health Plans, and four individuals.

Your Committee received comments on this measure from the Healthcare Association of Hawaii.

Your Committee finds that access to high-quality, equitable, and affordable health and long-term care services remain a challenge for many of Hawaii's residents. The State Health Planning and Development Agency was established in 1975 to produce a State

Health Services and Facilities Plan and to manage the State's Certificate of Need program. However, the State Health Planning and Development Agency has experienced severe staffing shortages and decreases in funding, inhibiting the Agency's ability to effectively accomplish its mandate. By modernizing the State Health Planning and Development Agency's functions and responsibilities, this measure will enable the State to effectively provide quality health care to residents of the State at a reasonable cost.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "health care" to include oral health, behavioral health, and long-term care;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2285, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2285, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2187 Health and Human Services on S.B. No. 2467

The purpose and intent of this measure is to appropriate funds to the Department of Health to implement quality improvement recommendations for the Hawaii State Hospital.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Disability Rights Center, and one individual.

Your Committee finds that the Hawaii State Hospital is the only publicly funded state psychiatric hospital in the State. After the Department of Health conducted a comprehensive safety review, a series of quality improvement recommendations were made to increase oversight of safety and security, enhance safety and security measures, and decrease hospital census. This measure ensures that these quality improvement recommendations are implemented.

Your Committee notes that although this measure contains an unspecified appropriation amount and number of positions to be funded, the Department of Health's testimony requests the following:

- (1) \$920,000 for the purchase of new equipment, including:
 - (A) Installation of new cameras;
 - (B) Integration and upgrade of the PA system;
 - (C) Metal detector wands; and
 - (D) Urinalysis testing and supplies;
- (2) \$700,000 to reinforce control of entry and exit points;
- (3) \$2,745,000 for fourteen new positions and pay increases for existing forensic psychologists; and
- (4) \$10,000,000 to support the mental health continuum of care, including:
 - (A) Pay adjustments for existing group homes;
 - (B) Two new twenty-four-hour group homes;
 - (C) Two new licensed crisis residential services group homes; and
 - (D) Enhanced contracted security for the Hawaii State Hospital campus.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that these amounts be further considered.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2467, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2188 (Majority) Judiciary on S.B. No. 3274

The purpose and intent of this measure is to make the State's civil asset forfeiture process more just by:

- (1) Restricting civil asset forfeiture to cases involving the commission of a felony offense where the property owner has been convicted of an underlying felony offense;
- (2) Directing any forfeiture proceeds to the general fund;
- (3) Amending the allowable expenses for moneys in the criminal forfeiture fund;

- (4) Requiring the Attorney General to adopt rules necessary to carry out the purposes of the Hawai'i Omnibus Criminal Forfeiture Act; and
- (5) Amending the deadline for the Attorney General to report to the Legislature on the use of the Hawai'i Omnibus Criminal Forfeiture Act.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Drug Policy Forum of Hawai'i, ACLU of Hawai'i, Americans for Democratic Action Hawai'i, Community Alliance on Prisons, Grassroot Institute of Hawaii, Hawai'i Association of Criminal Defense Lawyers, and one individual.

Your Committee received testimony in opposition to this measure from the Department of Law Enforcement, Department of the Prosecuting Attorney of the City and County of Honolulu, Office of the Prosecuting Attorney of the County of Hawaii, Department of the Prosecuting Attorney of the County of Maui, Office of the Prosecuting Attorney of the County of Kaua'i, Honolulu Police Department, and Hawai'i County Police Department.

Your Committee received comments on this measure from the Department of the Attorney General and one individual.

Your Committee finds that the State's civil asset forfeiture process allows law enforcement agencies to seize and keep property based on suspicion that the property is connected to criminal activity. Property, such as vehicles, houses, cash, and jewelry, can be taken without the property owner having been convicted of a crime or even being formally accused of one, and the burden of proof to recover the seized property is shifted from the State to the property owner. Additionally, there is a potential incentive to improperly seize property for forfeiture, as state and county law enforcement agencies are permitted to retain all proceeds from the sale of forfeited property. This measure will make the State's civil asset forfeiture process more just.

Your Committee has amended this measure by clarifying that, for property to be subject to forfeiture due to a conviction, the owner has to have been convicted of a covered offense by a verdict or plea, all appeals have been exhausted, and all deadlines to appeal have expired.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3274, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3274, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Awa). Excused, none.

SCRep. 2189 Judiciary on S.B. No. 3174

The purpose and intent of this measure is to:

- (1) Eliminate an obsolete fee for a certified copy of a tax clearance;
- (2) Add a penalty for failure to comply with reporting requirements under general excise tax law and transient accommodations tax law for collection of rent by a third party; and
- (3) Raise the unfair competition penalty under the general excise tax law to adjust for inflation.

Your Committee received testimony in support of this measure from the Department of Taxation.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that under existing law, every person authorized to collect rent on behalf of an owner of real property in the State is required to provide the Department of Taxation with the name, address, social security number, general excise tax license number, and transient accommodations tax registration number of the owner within thirty days after entering into an agreement, or in the alternative, must provide the Department with a copy of federal form 1099 at the same time the form must be filed with the Internal Revenue Service. However, there is no penalty for a taxpayer's failure to comply with these requirements. This measure adds an enforcement mechanism that will help the Department of Taxation promote tax compliance and uphold the State's tax laws.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3174, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3174, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2190 Judiciary on S.B. No. 2823

The purpose and intent of this measure is to establish a blue ribbon committee within the Department of the Attorney General to analyze the Hawaii Administrative Rules and identify any rules that are not supported by statutory authority.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Legislative Reference Bureau.

Your Committee finds that government agencies may have engaged in rulemaking that was supported by statutory authority at the time they were made; however, statutes may have since been amended or deleted, leaving certain rules to no longer be supported by statute. Your Committee believes that the Hawaii Administrative Rules should be examined to determine if any rules are no longer

supported by the Hawaii Revised Statutes. This measure will promote government efficiency and ensure that existing Hawaii Administrative Rules continue to have proper statutory support.

Your Committee has amended this measure by:

- (1) Adding language that requires the Department of the Attorney General to provide support and coordination as needed by the blue ribbon committee;
- (2) Adding language that requires each state agency to cooperate with the blue ribbon committee;
- (3) Requiring the blue ribbon committee to submit its report of its findings and recommendations to the Legislature no later than forty days prior to the convening of the Regular Session of 2025; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2823, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2191 Judiciary on S.B. No. 3029

The purpose and intent of this measure is to appropriate moneys to satisfy claims against the State or its officers or employees for the overpayment of taxes, or for refunds, reimbursements, payments of judgments or settlements, or other liabilities.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of Land and Natural Resources, and Department of Education.

Your Committee finds that the State has a responsibility to promptly satisfy all claims against the State upon the resolution of those claims. Your Committee further finds that the timely passage of this measure will help to minimize the State's obligation to pay interest that accrues on the claim amounts.

Your Committee has amended this measure by:

- (1) Correcting an erroneous case number;
- (2) Amending the payment requirements for the settlement in the case of Courtney Ledford v. Ethan Feguson, et al., Civil No. 17-1-0416, Third Circuit, by:
 - (A) Changing the amount appropriated to the Department of the Attorney General for the settlement of the claim from \$1,250,000 to \$750,000; and
 - (B) Requiring that the remaining \$500,000 of the claim settlement be equally apportioned and paid from the available general funds appropriated by Act 164, Session Laws of Hawaii 2023, to the Department of Human Resources Development and Department of Land and Natural Resources; and
- (3) Amending the payment requirements for the settlement in the case of Leinette Reyes, et al. v. Eric Tanaka, Civil No. 17-cv-00143 JAO-KJM, USDC, by:
 - (A) Changing the amount appropriated to the Department of the Attorney General for the settlement of the claim from \$2,000,000 to \$1,200,000; and
 - (B) Requiring that the remaining \$800,000 of the claim settlement be paid from the available general funds appropriated by Act 164, Session Laws of Hawaii 2023, to the Department of Public Safety/Corrections and Rehabilitation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3029, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3029, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2192 Judiciary on S.B. No. 2521

The purpose and intent of this measure is to fund four deputy public defender positions and require that one deputy public defender be assigned to the family court section.

Your Committee received testimony in support of this measure from the Office of the Public Defender, ACLU of Hawai'i, and nine individuals.

Your Committee finds that the Office of the Public Defender provides necessary legal representation to indigent individuals in criminal, involuntary commitment, and family law cases as required by the United States and Hawaii constitutions, state statutes, and judicial opinions. Your Committee further finds that Act 9, Session Laws of Hawaii 2020, defunded six positions in the Office of the Public Defender, and the positions were later abolished. Since then, the number of clients and prosecutions have risen to pre-pandemic numbers despite no additional attorney positions at the Office of the Public Defender to help mitigate the caseload. This measure will ensure that the Office of the Public Defender has the staff necessary to fulfil its constitutional mandate.

Your Committee has amended this measure by:

- (1) Increasing the appropriation amount to \$627,300 for four deputy public defender III positions;
- (2) Specifying that the Office of the Public Defender is required to assign one deputy public defender II to the family court section;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2521, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2521, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2193 (Majority) Judiciary on S.B. No. 2376

The purpose and intent of this measure is to increase the rate of compensation and maximum allowable amounts per case for court-appointed counsel and guardians ad litem in family court proceedings.

Your Committee received testimony in support of this measure from the Judiciary, Department of Human Services, Office of the Public Defender, Hawaii State Bar Association, and five individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that guardians ad litem perform a critical role in a wide range of family court cases, such as representing the best interest of children who have been abused or neglected in Child Protective Act cases; involuntary hospitalization proceedings; and all assisted community treatment proceedings initiated pursuant to section 334-123, Hawaii Revised Statutes. Your Committee also finds that court appointed attorneys play a similarly critical role in family court cases by providing constitutionally-mandated representation to individuals whose parental rights are at stake in Child Protective Act cases and to minors who have been charged with law violations. Your Committee believes that, due to the complexity and important nature of these cases, it is in the community's best interest to attract and retain highly competent individuals to serve as guardians ad litem and court appointed attorneys in family court cases. This measure will increase the pool of individuals willing and able to perform the critical work of guardians ad litem and court appointed attorneys in family court cases and allow the family court to hear cases without unnecessary delay by enhancing the rates at which the Judiciary can compensate guardians ad litem and court appointed attorneys.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2376 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2194 Ways and Means on S.B. No. 572

The purpose and intent of this measure is to amend the law relating to agriculture.

Prior to the hearing on this measure, your Committee made available for public review a proposed S.D. 1, which deletes the measure's contents and inserts language that:

- (1) Allows the Department of Agriculture to declare a biosecurity emergency in certain circumstances and with the approval of the Governor;
- (2) Outlines the terms of a declared biosecurity emergency;
- (3) Requires the Department to implement certain requirements for agricultural commodity importers;
- (4) Allows the Department to fine agricultural commodity importers who fail to comply with the requirements;
- (5) Allows the Department to subpoena necessary documentation from agricultural commodity importers relating to a known or suspected infestation of pests; and
- (6) Allows the Department to quarantine any farm, facility, or business that is known to be infested with pests.

Your Committee finds that the powers authorized by this measure will allow the Department of Agriculture to more effectively prevent and mitigate the infestation and spread of pests in the State.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 572, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Aquino, DeCoite, Kidani, Lee, Wakai).

SCRep. 2195 Ways and Means on S.B. No. 578

The purpose and intent of this measure is to amend the law relating to government.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amended this measure by deleting its contents and replacing it with language that allows a retirant to be employed without re-enrollment in the Employees' Retirement System and without suffering a loss or interruption of pension or health benefits provided by the Employees' Retirement System or the Employer-Union Health Benefits Trust Fund if the retirant is employed as an investigator in a position identified by the Department of the Attorney General as a labor shortage or difficult-to-fill position, subject to certain conditions.

Your Committee finds that this measure will assist the Department of the Attorney General in filling certain staffing vacancies with qualified, experienced investigators.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 578, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 578, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Aquino, DeCoite, Kidani, Lee, Wakai).

SCRep. 2196 Health and Human Services on S.B. No. 2529

The purpose and intent of this measure is to amend the definition of "patient's provider" in state law governing Provider Orders for Life-Sustaining Treatment (POLST) by removing language that requires the provider to examine the patient.

Your Committee received testimony in support of this measure from the Department of Health; Kaiser Permanente Hawai'i; Kōkua Mau; Hospice Maui; Hospice Hawaii, Inc. dba Navian Hawaii; Hawaii Association of Health Plans; Hawaii Medical Service Association; Hawai'i Care Choices; and five individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that POLST is a portable medical order that documents a patient's care plan outside the hospital that sets forth the patient's wishes and directions regarding the provision of resuscitative and life-sustaining measures. Your Committee further finds that existing law requires POLST forms to be signed by the "patient's provider", defined as a licensed physician, advanced practice registered nurse, or physician assistant "who has examined the patient." This examination requirement can cause delays for a patient when a sudden and unexpected change in their health requires urgent POLST documentation but the patient does not have a provider that they see regularly, their provider is out of the office, or if they cannot get an immediate appointment, potentially leading to patients receiving unwanted life-prolonging treatments. This measure will remove barriers for patients when creating or updating POLST documentation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2529, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2529, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2197 Health and Human Services on S.B. No. 3143

The purpose and intent of this measure is to make an emergency appropriation to the Department of Health for emergency asbestos remediation at Kinau Hale (in which the Department's main offices are located); temporary relocation of the main offices, if necessary; and preliminary planning for redevelopment of the site.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that several instances of asbestos disturbance have been reported at Kinau Hale. Although multiple ambient air testing confirms that the air in the building is currently safe, there is still a risk of future asbestos disturbances that could potentially require immediate relocation and significant remediation.

Your Committee notes the testimony of the Department of Health requesting an appropriation of \$5,000,000 for:

- (1) The relocation of staff and equipment in the event of asbestos disturbance or other catastrophic building failure requiring immediate evacuation and significant remediation;
- (2) Preliminary planning for redevelopment of the parcel; and
- (3) Temporary repairs and implementation of mitigative measures to keep Kinau Hale safe for employees during the interim period.

Therefore, your Committee respectfully requests that your Committee on Ways and Means consider inserting an appropriation amount of \$5,000,000 for fiscal year 2024-2025.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$1,500,000 to an unspecified amount to facilitate further discussion;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3143, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2198 Judiciary on S.B. No. 2381

The purpose and intent of this measure is to:

- (1) Establish a comprehensive system of public financing for all candidates seeking election to state and county public offices in the State, beginning with the 2028 general election year;
- (2) Require the Campaign Spending Commission to submit a progress and final report to the Legislature;
- (3) Appropriate funds to a designated sub-fund within the Hawai'i Election Campaign Fund to support a comprehensive system of public financing; and
- (4) Appropriate funds from the designated sub-fund within the Hawai'i Election Campaign Fund to the Campaign Spending Commission to fund planning and preparation, including two temporary staff, for operating a comprehensive public fund for candidates program in 2028.

Your Committee received testimony in support of this measure from the Campaign Spending Commission; one member of the Hawai'i County Council; ACLU of Hawai'i; Our Hawai'i; Democratic Party of Hawai'i; Public Citizen; Chamber of Sustainable Commerce; Sierra Club of Hawai'i; Hope Services Hawaii; Lāhainā Strong; Campaign Legal Center; Recycle Hawaii, Clean the Pacific; HULI PAC; Indivisible Hawaii; League of Women Voters of Hawaii; Green Party of Hawai'i; Free Access Coalition; Americans for Democratic Action Hawai'i; We Are One, Inc.; Kihei Community Association; 350 Hawaii.org; Hawaii Alliance for Progressive Action; and more than two hundred twenty individuals.

Your Committee received testimony in opposition to this measure from nine individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that providing a mechanism to fully fund the elections of candidates for state and county offices who voluntarily agree to abide by campaign fundraising and expenditure guidelines will have significant public benefit. Comprehensive publicly-funded campaign programs are intended to improve the process by allowing candidates to compete without reliance on private funds and by also allowing elected officials to make decisions without the influence, or appearance thereof, of private individuals, lobbyists, political parties, political action committees, unions, corporations, and other entities. The State became a leader in public funding programs when it added language to the Hawai'i State Constitution in 1978 that established the partial public funding program, which candidates continue to use today. Other comprehensive public financing programs, sometimes termed "clean elections", were established in 1996 in Maine, in 1998 in Arizona, and have since also been adopted in Connecticut and New Mexico. This measure will increase public confidence in the State's candidates and elected officials by establishing a comprehensive program to publicly fund candidates in the State.

Your Committee has amended this measure by:

- (1) Replacing the terms "subfund" or "sub-fund" with "subaccount" throughout the measure in reference to the separate designation of funds within the Hawaii Election Campaign Fund for the Comprehensive Public Funding Program;
- (2) Clarifying that the program's name is the Comprehensive Public Financing Program;
- (3) Clarifying that an electronic form may be used for providing a contributor's information to the Campaign Spending Commission;
- (4) Requiring candidates to return all unexpended public funds received within thirty days after the election in which the candidate was successful, similar to other provisions requiring candidates to return unexpended public funds when they prevail in the general election, are unsuccessful, or have no opponents;
- (5) Clarifying that certain moneys be deposited into the Comprehensive Public Financing Program's subaccount of the Hawaii Election Campaign Fund;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2381, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2199 Education on S.B. No. 2257

The purpose and intent of this measure is to amend the law relating to education.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to authorize the Hawaii Teacher Standards Board to consider qualified individuals with at least an associate's degree or high school diploma with comparable education and coursework, industry experience, and content expertise to teach career and technical education courses.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2257, as amended herein, and recommends that it be recommitted to your Committee on Education, in the form attached hereto as S.B. No. 2257, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hashimoto, Richards).

SCRep. 2200 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2094

The purpose and intent of this measure is to require the Department of Corrections and Rehabilitation to establish a two-year pilot program to allow inmates incarcerated at the women's community correctional center to foster pets while incarcerated.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, Hawaiian Humane Society, ACLU of Hawai'i, Women's Prison Project, Pono Advocacy, and five individuals.

Your Committee received comments on this measure from the United Public Workers Hawaii, AFSCME Local 646, AFL-CIO.

Your Committee finds that the Hawaiian Humane Society is unable to meet the needs of their animals due to the amount of animals at their shelters. Your Committee notes that there is significant data showing that the fostering of pets by incarcerated persons can have potential positive outcomes including improved personal responsibility, work ethic, and self-esteem. This measure will assist the Hawaiian Humane Society in reducing strain on their shelters and hopefully reduce recidivism rates for incarcerated women by allowing them to foster pets while incarcerated.

Your Committee has amended this measure by:

- (1) Converting the pilot program from two years to one year;
- (2) Inserting an unspecified appropriation amount;
- (3) Inserting an effective date of January 1, 2042, to encourage further discussion;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$50,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2094, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2201 Public Safety and Intergovernmental and Military Affairs on S.B. No. 1392

The purpose and intent of this measure is to repeal the requirement for the Department of Public Safety to reassess pretrial detainees on a regular basis for reconsideration of pretrial release.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation.

Your Committee received comments on this measure from the Community Alliance on Prisons.

Your Committee finds that Act 179, Session Laws of Hawaii 2019, enacted bail reform initiatives with the goal of increasing fairness to pretrial detainees by offering greater and continuing opportunities for release prior to trial. However, your Committee further finds that there is concern that this Act has detracted from the intake service centers' production of the initial bail reports that are due to the court within three days of admission, as well as other duties and responsibilities mandated by statute. This measure will ease intake service centers workload.

Your Committee has amended this measure by:

- (1) Changing all references to the "Department of Public Safety" to the "Department of Corrections and Rehabilitation";
- (2) Restoring language that requires periodic reviews of detainees in community correctional centers;
- (3) Extending the time requirement for pretrial release reassessments from three months to six months;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1392, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2202 (Joint) Public Safety and Intergovernmental and Military Affairs and Hawaiian Affairs on S.B. No. 3016

The purpose and intent of this measure is to require all United States military reservations and military training facilities in the State to display the Hawaiian flag.

Your Committees received testimony in support of this measure from Ho‘omana Pono, LLC and eleven individuals.

Your Committees received testimony in opposition to this measure from six individuals.

Your Committees received comments on this measure from the Department of the Attorney General, Hawaii Military Affairs Council, and one individual.

Your Committees find that displaying a state’s flag is a gesture of respect for that state and the current version of the Hawaiian flag, adopted in 1845, which includes symbolism representing Hawaii’s islands, ocean, culture, values, and history, must be respected. Your Committees further find that currently, the practice of displaying the Hawaiian flag at military facilities in the State is inconsistent and varies from facility to facility. This measure will create uniformity and show respect to the Hawaiian flag.

Your Committees have amended this measure by:

- (1) Allowing each United States military reservation and military training facility to display the Hawaiian flag, rather than requiring;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3016, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3016, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2203 (Joint) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on S.B. No. 2565

The purpose and intent of this measure is to:

- (1) Prohibit counties from prohibiting leashed dogs in public parks; and
- (2) Establish penalties for leaving dog excrement on public or private property.

Your Committees received testimony in support of this measure from the Hawaiian Humane Society, Animal Interfaith Alliance in Britain, one member of the Maui County Council, and eighteen individuals.

Your Committees find that fewer than half of Oahu’s county parks allow leashed dogs. According to testimony received by your Committees, there is significant confusion about leash laws and many dog owners have expressed frustration at the lack of consistency through the State. This measure will improve uniformity in leash laws and increase park access for dogs, while promoting responsible dog ownership by requiring dogs in public parks to be leashed and establishing litter fines for pet owners who do not clean up after their dogs.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2565 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 2204 (Joint) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on S.B. No. 2903

The purpose and intent of this measure is to prohibit public entry into wildfire-affected areas for the purpose of habitation until the Department of Health provides notice that the wildfire-affected area is safe to enter for this purpose.

Your Committees received testimony in support of this measure from one member of the Maui County Council.

Your Committees find that when a fire consumes a community, it can aerosolize materials such as lead, arsenic, asbestos, and other dangerous chemicals that can contaminate both air and water for months and potentially years. Your Committees further find that after the 2023 Maui wildfires, state health officials issued warnings about water contamination and have estimated that restoring clean water

to affected areas of Maui could take years. This measure will ensure the health and safety of communities by protecting them from dangerous safety hazards caused by wildfires.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2903 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 2205 Education on S.B. No. 2072

The purpose and intent of this measure is to:

- (1) Authorize the Department of Health to require the Department of Education to report coronavirus disease 2019 potential outbreaks or other public health emergencies and related information in a manner most appropriate to public health and safety, as determined by the Department of Health; and
- (2) Repeal the requirement to publish the report on the Department of Education's website.

Your Committee received testimony in support of this measure from the Department of Education, Department of Health, and CARES.

Your Committee received testimony in opposition to this measure from Hawaii Young Republicans and one individual.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that since the onset of the coronavirus disease 2019 (COVID-19) pandemic, the Department of Education has taken numerous preventative measures to ensure the health and safety of public school students and community members, including reporting on COVID-19 outbreaks and related information to inform certain communities of emerging or ongoing outbreaks. However, as the federal public health emergency for COVID-19 expired on May 11, 2023, existing reporting requirements may not reflect current public health trends. Therefore, this measure streamlines certain reporting requirements for the Department of Education while maintaining a high standard of safety for students, faculty, and staff.

Your Committee acknowledges the concerns raised by the Department of the Attorney General that personally identifiable information may be inadvertently shared in the Department of Education's reporting process, violating the federal Family Educational Rights and Privacy Act (FERPA). Amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language prohibiting the Department of Health from requiring the Department of Education to include in any report personally identifiable information or education records pursuant to FERPA; and
- (2) Authorizing the Department of Education to provide personally identifiable information only after the Department has determined that a health or safety emergency exists.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2072, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2072, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Fevella).

SCRep. 2206 Health and Human Services on S.B. No. 3137

The purpose and intent of this measure is to clarify and update the responsibilities of the Child and Adolescent Mental Health Division of the Department of Health to reflect the current mental health systems of care to address the mental health needs of children and adolescents in the State.

Your Committee did not receive any testimony on this measure.

Your Committee finds that addressing mental health needs of children and adolescents is imperative for their health and well-being in adulthood. Your Committee further finds that existing law governing the functions of the Child and Adolescent Mental Health Division of the Department of Health is over fifty years old and therefore, obsolete. This measure updates the statutory provisions to reflect the most recent practices.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3137, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3137, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2207 Higher Education on S.B. No. 2817

The purpose and intent of this measure is to appropriate funds to the University of Hawaii to establish five administrative, professional, and technical full-time equivalent (5.0 APT FTE) positions at the College of Tropical Agriculture and Human Resources.

Your Committee received testimony in support of this measure from the University of Hawai'i System, University of Hawaii Professional Assembly, and Hawai'i Farm Bureau.

Your Committee finds that extension agents within the College of Tropical Agriculture and Human Resources of the University of Hawaii at Manoa serve as a valuable bridge between their respective communities and innovative research breakthroughs in the agriculture industry. Agricultural producers work closely with extension agents, who provide agricultural technologies pertinent to the State's farmers and ranchers, including the production and development of biological and cultural methods for minimizing the use of chemicals in agriculture. However, the College of Tropical Agriculture and Human Resources has experienced a decline in available staffing resources to support its mandate. Therefore, this measure provides increased staffing resources to support the development of new and existing agricultural practices statewide.

Your Committee has amended this measure by:

- (1) Clarifying that the five full-time equivalent (5.0 FTE) positions are faculty positions rather than administrative, technical, and professional positions;
- (2) Changing the source of the appropriation from the University of Hawaii Tuition and Fees Special Fund to the general revenues of the State of Hawaii;
- (3) Inserting language specifying that this measure addresses an issue of statewide concern; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2817, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2817, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2208 Higher Education on S.B. No. 2946

The purpose and intent of this measure is to require the University of Hawaii to submit to the Legislature annual reports of all university employees who performed work from a location outside of the State during the applicable year no later than December 31 of that year.

Your Committee received comments on this measure from the University of Hawai'i System.

Your Committee finds that faculty and staff members of the University of Hawaii are vital to ensure that university operations continue. However, certain faculty and staff members have been working outside of the State for extended periods of time that have raised concerns over payroll and the payment of state taxes. Therefore, this measure ensures greater transparency and accountability of faculty and staff who fulfill responsibilities outside of the State while ensuring continuity of University operations. Your Committee acknowledges the concerns raised by the University of Hawaii regarding the specificity of reporting requirements. As certain faculty and staff members travel for academic conferences, trainings, and directed business that requires out-of-state travel, and that further clarification is needed regarding the level of detail to meet reporting requirements.

Accordingly, your Committee has amended this measure by clarifying that the reporting requirement apply only to employees who worked outside of the State for more than sixty consecutive days.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2946, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2946, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2209 Housing on S.B. No. 1170

The purpose and intent of this measure is to temporarily require the counties to issue affordable housing credits for affordable housing units that are constructed pursuant to chapter 201H, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from AARP Hawaii and NAIOP Hawaii.

Your Committee received testimony in opposition to this measure from the City and County of Honolulu Department of Planning and Permitting.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation and County of Hawai'i Office of Housing and Community Development.

Your Committee finds that a 2019 study commissioned by the Department of Business, Economic Development, and Tourism found that the State will require an additional 50,156 homes by the year 2025. Your Committee also finds that residential mortgage interest rates have increased dramatically since 2021, directly affecting residents who wish to own a home.

Your Committee further finds that real estate construction loan interest rates have also increased since 2021 which has severely impaired the ability of the Hawaii Housing Finance and Development Corporation to increase the affordable housing supply in the State. This measure will help ensure the continued production of affordable and workforce housing units.

Your Committee has amended this measure by:

- (1) Authorizing the Department of Hawaiian Home Lands to enter into memorandums of agreement with any of the counties, not just Kauai County and City and County of Honolulu;
- (2) Specifying that each county and the Hawaii Community Development Authority shall recognize housing units developed pursuant to section 201H-38, Hawaii Revised Statutes, and issue affordable housing credits to the eligible developer for residences required to be sold or rented to individuals within a specified income range, if a developer chooses to receive affordable housing credits;
- (3) Amending the definition of “affordable housing obligation” to include requirements imposed by the Hawaii Community Development Authority; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2210 Housing on S.B. No. 1208

The purpose and intent of this measure is to increase the low-income household renter’s tax credit.

Your Committee received testimony in support of this measure from Americans for Democratic Action Hawaii, Democratic Party of Hawai’i, AARP Hawai’i, and Aloha United Way.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii has the second highest housing costs in the nation and that the fair market rent in the State increased by sixty-seven percent between 2005 and 2015. This puts significant strain on the State’s residents, especially those making at or close to minimum wage. This measure aims to reduce this burden by raising the tax credit for low-income renters within the State.

Your Committee has amended this measure by:

- (1) Inserting language raising the credit value above \$100 by using tax brackets for individuals and different categories of households;
- (2) Annually adjusting the income threshold and credit amounts for inflation, based on the consumer price index;
- (3) Making the measure apply to taxable years beginning after December 31, 2023; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1208, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2211 Housing on S.B. No. 1461

The purpose and intent of this measure is to:

- (1) Amend the exemption from the requirement that plans and specifications for construction projects be prepared and construction observed by a licensed engineer, architect, or landscape architect to be determined by floor area of work, rather than estimated cost; and
- (2) Exempt one- or two-storied structures that are used primarily as a residence from these requirements.

Your Committee received testimony in opposition to this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects and one individual.

Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Your Committee finds that the State is undergoing a housing crisis. This issue is made worse by factors like inflation, which can severely increase costs to construct new housing or make repairs to existing residences. This measure establishes certain exemptions from certain requirements that can add to these costs, by shifting the qualification from cost of work to floor area of work.

Your Committee notes that this measure is a carryover measure from the Regular Session of 2023 and that amendments are necessary to incorporate statutory changes from Act 177, Session Laws of Hawaii 2023 (Act 177). Accordingly, your Committee has amended this measure by incorporating statutory amendments from Act 177.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1461, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2212 Housing on S.B. No. 2034

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds for the Hawaii Housing Finance and Development Corporation's and Hawaii Public Housing Authority's programs to develop housing exclusively for residents of the State who are owner- or renter-occupants and own no other real property; and
- (2) Make appropriations.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority, Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, Partners in Care, NAIOP Hawaii, Catholic Charities Hawai'i, AARP Hawai'i, Aloha United Way, Hawai'i Children's Action Network Speaks!, and three individuals.

Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that Hawaii has a severe shortage of housing and also experiences one of the highest costs of housing in the country. Building more affordable housing ensures a more resilient future for the State's residents. This measure will provide much needed funding for the Hawaii Housing Finance and Development Corporation and the Hawaii Public Housing Authority to increase housing stock in the State, assure affordability, deconcentrate poverty, and create vibrant mixed-income and mixed-use communities for generations to come.

Your Committee notes the concerns raised in testimony that this measure would increase annual debt service costs and double the current capital improvement program budget in the 2024-2025 fiscal year. However, the Hawaii Housing Finance and Development Corporation testified that the funds made available by this measure are used to make loans to entities that then repay the loans with interest to the State. Accordingly, the revenue returned to the State, plus interest, can be used to service the debt and associated costs.

Your Committee has amended this measure by:

- (1) Clarifying that the general obligation bonds shall be issued for the purposes of financing projects for the Hawaii Housing Finance and Development Corporation and Hawaii Public Housing Authority housing for qualified residents, as defined in section 201H-32, Hawaii Revised Statutes;
- (2) Correcting the lapse date to June 30, 2026;
- (3) Deleting the general fund expenditure ceiling declaration, as there is no general fund appropriation in this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2034, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2034, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2213 Housing on S.B. No. 2044

The purpose and intent of this measure is to:

- (1) Establish that the transfer of a controlling interest in an entity that owns real property in the State shall be subject to the conveyance tax established in chapter 247, Hawaii Revised Statutes;
- (2) Require the conveyance tax collected on the transfer of the controlling interests to be deposited into the Dwelling Unit Revolving Fund; and
- (3) Require the Department of Taxation to adopt rules.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one individual.

Your Committee received testimony in opposition to this measure from NAIOP Hawaii, Cave Conservancy of Hawai'i, and three individuals.

Your Committee received comments on this measure from the Department of Taxation, Department of Land and Natural Resources, Tax Foundation of Hawaii, and Trust for Public Land.

Your Committee finds that there is currently a loophole within the conveyance tax that allows entities to bypass this tax by transferring the controlling interest in companies that own the real property.

Your Committee further finds that this issue has caused the State to lose funds that could have been used for other purposes.

This measure will close this loophole and make the conveyance tax applicable to these entity-level transactions to fund the development of critically-needed housing in the State.

Your Committee notes the concerns raised in testimony that the Bureau of Conveyances is the agency responsible for assessing the imposition of the conveyance tax as it presently functions under existing law and that, without the proper staff or resources available to properly vet these types of entity-level transfers, the complex assessment duties will fall upon the Department of Taxation. The Department of Taxation, however, testified that this measure imposes a voluntary reporting requirement, which would be sufficient to address these concerns. Additional concerns were raised alleging that this measure would move funds from the Land Conservation Fund to the Dwelling Unit Revolving Fund. However, this measure, as amended by your Committee, clarifies that an unspecified percentage of the conveyance taxes collected be deposited into the Dwelling Unit Revolving Fund, which would otherwise be credited to the General Fund. Therefore, no amounts deposited into the Land Conservation Fund are affected by this measure. Based on the discussion held at the public hearing on this measure, it was proffered that twenty-five percent of the conveyance tax collected be deposited into the Dwelling Unit Revolving Fund, and your Committee respectfully requests that this figure be considered as this measure moves through the legislative process.

Your Committee has amended this measure by:

- (1) Clarifying that the conveyance taxes collected on the transfers or acquisitions of controlling interests in entities be deposited in accordance with section 247-7, Hawaii Revised Statutes;
- (2) Inserting language that specifies the amount of the tax shall be based on the fair market value of the real property owned by the entity at the time the controlling interest is transferred or acquired;
- (3) Inserting language requiring that an unspecified percentage, or an unspecified dollar amount, whichever is less, be paid into the Dwelling Unit Revolving Fund; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2044, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2214 Higher Education on S.B. No. 3187

The purpose and intent of this measure is to require the tuition residency rules for the University of Hawaii to grant the resident tuition fee for enrollment at any University of Hawaii campus to individuals who have graduated from a Hawaii high school and are enrolling in an undergraduate degree program, under certain conditions.

Your Committee received testimony in support of this measure from the University of Hawai'i System and Hawai'i P-20 Partnerships for Education.

Your Committee finds that post-secondary education provides students with educational opportunities to secure higher paying jobs. However, some Hawaii high school graduates may leave the State for personal reasons for a period of time that may prevent them from immediately enrolling in the University of Hawaii System. Creating additional opportunities for Hawaii high school graduates to attend a University of Hawaii campus offers students a faster transition into their current degree program, or pathways to a different career without additional delays. Your Committee further finds that graduates will also contribute to the State's economy and alleviate the loss of talented residents who do not return. Accordingly, this measure provides Hawaii high school graduates with additional opportunities to pursue higher education while also streamlining the application process for prospective resident students.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3187 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2215 (Joint/Majority) Housing and Water and Land on S.B. No. 2018

The purpose and intent of this measure is to:

- (1) Prohibit a county from changing the land use designation or zoning of a parcel or parcels of property to a less intensive use or reducing the intensity of land use within an existing zoning district below what was allowed under the general plan or specific land use designation and zoning ordinances in effect on January 1, 2024; and
- (2) Allow a county to change a land use designation or zoning ordinance to a less intensive use if the county concurrently enacts measures to ensure that there is no net loss in residential capacity.

Your Committees received testimony in support of this measure from the Grassroot Institute of Hawaii.

Your Committees received testimony in opposition to this measure from the Department of Planning of the County of Kauai and one individual.

Your Committees find that Hawaii is experiencing a housing crisis. Currently, counties have the ability to downzone lands to less intensive use, reducing their capacity to house the future population growth, without concurrent requirement or incentive to increase housing capacity on other lands. As a result, fewer and fewer units of housing can be constructed, limiting the ability of the county to increase its housing supply to meet demand. Your Committees further find that a county's ability to downzone should be balanced with

a requirement to upzone elsewhere to preserve or increase the total number of homes that can be built in the county. This measure ensures that each county's housing capacity is protected from erosion through future downzoning.

Your Committees heard the concerns raised in testimony relating to Kauai County and its use of downzoning to help combat coastal hazards and the alleged conflicts of this measure with the County's General Plan. Your Committees note, however, that this measure does not conflict with Kauai County General Plan policies, as this measure still allows for downzoning as long as new residential capacity is provided elsewhere.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2018 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Water and Land: Ayes, 3; Ayes with Reservations (Elefante). Noes, 1 (McKelvey). Excused, 1 (Fevella).

SCRep. 2216 Housing on S.B. No. 2870

The purpose and intent of this measure is to establish a working group within the Hawaii Housing Finance and Development Corporation to identify existing mixed-use developments in Maui County that could be acquired by the Hawaii Housing Finance and Development Corporation.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one member of the Maui County Council.

Your Committee received comments on this measure from the Office of Planning and Sustainable Development.

Your Committee finds that there is an urgent need to increase affordable housing supply within the State. Housing is especially needed on Maui amid the ongoing redevelopment efforts. This measure will help identify specific existing developments to increase Maui's affordable housing supply and support its redevelopment efforts.

Your Committee has heard the concerns raised in testimony that this measure, as currently written, lacks funding to allow the Hawaii Housing Finance and Development Corporation to negotiate and follow through to acquire the prospective affordable housing developments. Your Committee finds that these issues and concerns merit further consideration by future Committees who may choose to hear this measure as it advances through the legislative process.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2870 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2217 Housing on S.B. No. 2925

The purpose and intent of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation to hold at least one application period each year to receive applications from parties interested in applying for financing of projects to develop or improve infrastructure that is or will be used solely for certain housing projects;
- (2) Require the Hawaii Housing Finance and Development Corporation to adopt certain administrative rules; and
- (3) Make an appropriation into and out of the Dwelling Unit Revolving Fund.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation and one member of the Maui County Council.

Your Committee finds that infrastructure costs are one of the biggest barriers to the development of housing within the State. The cost to develop infrastructure is typically shouldered by private housing developers, who then recoup these costs when selling or renting housing units. This measure aims to increase the affordable housing in the State by providing funds to the Dwelling Unit Revolving Fund to finance projects to develop or improve certain infrastructure.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2925 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Kanuha).

SCRep. 2218 (Majority) Water and Land on S.B. No. 2297

The purpose and intent of this measure is to clarify that:

- (1) The Board of Land and Natural Resources shall retain its authority over State conservation districts located on Mauna Kea lands and that this authority shall not transfer to the Mauna Kea Stewardship and Oversight Authority with the expiration of the five-year transition period established by Act 255, Session Laws of Hawaii 2022; and

- (2) The natural resource management enforcement and emergency response of Mauna Kea lands shall remain the responsibility of the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources beyond the expiration of the five-year transition period pursuant to Act 255, Session Laws of Hawaii 2022.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and one member of the Hawai'i County Council.

Your Committee received testimony in opposition to this measure from the Mauna Kea Stewardship Oversight Authority and one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources and University of Hawaii.

Your Committee finds that Act 255, Session Laws of Hawaii 2022, established the Mauna Kea Stewardship and Oversight Authority, stipulating that after a five-year transition period, the Mauna Kea Stewardship and Oversight Authority would acquire the powers and duties previously held by the Board of Land and Natural Resources and the Land Use Commission pertaining to the Mauna Kea lands. However, it is unclear as to whether the Department of Land and Natural Resources is responsible for lands within the state conservation district, including lands identified and defined as "Mauna Kea lands". This measure clarifies the jurisdictions held by the Mauna Kea Stewardship and Oversight Authority and the Board of Land and Natural Resources.

Your Committee has amended this measure by:

- (1) Clarifying that areas under the state conservation district shall not be transferred to any other entity;
- (2) Adding new language clarifying that the Board of Land and Natural Resources has an affirmative and non-transferable duty to uphold and protect the traditional and customary rights of Native Hawaiians as provided by article 7 of the Hawaii State Constitution; and
- (3) Inserting an effective date of July 1, 2025.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2297, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2297, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Chang, McKelvey). Noes, 2 (Elefante, Fevella). Excused, none.

SCRep. 2219 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2854

The purpose and intent of this measure is to establish a Vacated Encampment Clean Up Task Force to identify potential entities to enter into intergovernmental agreements to coordinate the clean up of vacated encampments located on lands managed by United States Army Garrison Hawaii and to appropriate funds.

Your Committees received testimony in support of this measure from the Waikele Community Association and five individuals.

Your Committees received comments on this measure from the Department of the Attorney General, Department of Transportation, United States Army Garrison Hawaii, and Hawaii Military Affairs Council.

Your Committees find that there is a need to collaborate with intergovernmental departments to address the challenges of homelessness including those with encampments managed by the United States Army Garrison. Debris left behind when encampments are vacated pose environmental and public hazards, including risk of wildfires. Your Committees further find that an intergovernmental task force to identify and manage vacated encampments located on land managed by the United States Army Garrison will aid in addressing the challenges of homelessness.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2854, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2854, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2220 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3118

The purpose and intent of this measure is to appropriate funds and authorize the Department of Human Services to provide temporary emergency assistance, case management, and other recovery services following the period covered by an emergency proclamation and establish an emergency management program within the Director of Human Services' office.

Your Committees received testimony in support of this measure from the Department of Human Services and one individual.

Your Committees received comments on this measure from the State Procurement Office.

Your Committees find that the Department of Human Services currently is not authorized to provide temporary emergency public assistance and recovery services beyond the emergency or disaster declaration period to people or organizations affected by emergencies and who require additional assistance and services. This measure will allow the Department of Human Services to continue the provision of much needed recovery services beyond the declared emergency period.

Your Committees have amended this measure by:

- (1) Inserting language to limit the Department of Human Services' exemption from the procurement code to two years;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3118, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3118, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2221 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3126

The purpose and intent of this measure is to:

- (1) Establish an Emergency Aeromedical Services Partnership Program to be administered by the Department of Health in counties with a population less than 500,000;
- (2) Require cost-sharing for program operations and maintenance and revenue sharing between the State and the County of Hawaii, County of Kauai, and County of Maui;
- (3) Authorize deposits into the Emergency Medical Services Special Fund; and
- (4) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Health, one member of the Maui County Council, Hawai'i Pacific Health, Queen's Health System, Global Medical Response, and one individual.

Your Committees find that a comprehensive statewide air ambulance program will greatly improve health care for rural areas at greater risk of poor health outcomes. The existing system of interisland emergency medical transport is overburdened posing a risk to health and safety. Your Committees further find that the approximate cost for funding out of the general fund is \$18,000,000, however, more details need to be discussed, including how the program participants and stakeholders may share the cost to maintain assets.

Your Committees have amended this measure by:

- (1) Inserting an unspecified appropriation amount into and out of the Emergency Medical Services Special Fund;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it considers inserting an appropriation amount of \$18,000,000 for fiscal year 2024-25.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3126, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3126, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2222 Hawaiian Affairs on S.B. No. 3363

The purpose and intent of this measure is to provide that a living beneficiary's place on the Department of Hawaiian Home Lands' waitlist for any residential or commercial agricultural tract may be designated for transfer to a successor if the living beneficiary dies before receiving an offer for a tract; provided that the successor shall be at least 1/32 Hawaiian.

Your Committee received testimony in support of this measure from Ho'omana Pono, LLC and six individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from Department of the Attorney General and Department of Hawaiian Home Lands.

Your Committee finds that it is the mission of the Department of Hawaiian Home Lands to develop and deliver land to native Hawaiians. However, as time goes by, the number of native Hawaiians with a blood quantum of fifty percent or more continues to

diminish, while the number of native Hawaiians on the Department of Hawaiian Home Lands' waitlist continues to grow. This measure recognizes the importance of the succession rights of native Hawaiian beneficiaries and will ensure that the intent of providing lands for native Hawaiians is upheld.

Your Committee has amended this measure by:

- (1) Specifying that this measure shall be implemented by the Department of Hawaiian Home Lands at the sole discretion of the Hawaiian Homes Commission;
- (2) Specifying that a living beneficiary's place on the Department of Hawaiian Home Lands' waitlist is for residential, agricultural, or pastoral tracts;
- (3) Amending section 207 and 208, Hawaiian Homes Commission Act, 1920, as amended, to clarify that the Department of Hawaiian Home Lands' lease may be awarded to native Hawaiians or qualified application successors; and
- (4) Making it effective upon either the date that Congressional approval is deemed unnecessary, or on the date of consent by the United States Congress.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3363, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3363, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2223 Hawaiian Affairs on S.B. No. 3336

The purpose and intent of this measure is to appropriate funds to the Office of Hawaiian Affairs for the retention of third-party professionals with the necessary financial, accounting, and land inventory expertise to evaluate and address the completeness and accuracy of the public land trust information system, so that the Public Land Trust Working Group may complete its objectives pursuant to Act 226, Session Laws of Hawaii 2022.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Public Land Trust Working Group; Ho'omana Pono, LLC; and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources and State Procurement Office.

Your Committee finds that the Legislature must set right and fulfill its trust responsibilities to native Hawaiians. To this end, the Legislature passed Act 226, Session Laws of Hawaii 2022, which established the Public Land Trust Working Group to account for ceded lands in the Public Land Trust Inventory, income and proceeds derived from the trust, and transfer moneys to the Office of Hawaiian Affairs.

However, the Public Land Trust Working Group cannot complete its objectives because the public land trust information system may not be complete or accurate. This measure will appropriate funds to provide assistance in assessing the completeness and accuracy of the public land trust information system.

Your Committee has amended this measure by changing language that would have required purchases made with appropriated funds to be exempt from the State Procurement Code, to language requiring purchases made with appropriated funds to be in compliance with the State Procurement Code.

Your Committee notes the concerns raised by the Department of Land and Natural Resources that issues identified as potential errors or data gaps are not necessarily indicative of flaws in the public land trust information system and therefore if the Public Land Trust Working Group has any concerns about the accuracy or completeness of information contained in the public land trust information system, it must consult the relevant agency that has jurisdiction over the land in question, rather than the Department of Land and Natural Resources. The Department of Land and Natural Resources acknowledges the need to update and upgrade the public land trust information system, and to this end, has submitted its own appropriation request.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3336, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3336, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2224 (Majority) Hawaiian Affairs on S.B. No. 3308

The purpose and intent of this measure is to require the use of modern Hawaiian orthography, including the kahako and okina on the state seal.

Your Committee received testimony in support of this measure from six individuals.

Your Committee received comments on this measure from two individuals.

Your Committee finds that the Hawaiian language, also known as Olelo Hawaii is an official language of the State. As a symbol of the State, the state seal should reflect that. To this end, this measure requires that the state seal use modern Hawaiian orthography, provided that valid representations of the seal created before this measure shall remain valid.

Your Committee notes the concerns raised in testimony that modern Hawaiian orthography, including the kahako and okina, is a modern system imposed on the Hawaiian language to help second language learners pronounce the word when oral examples are lacking, and to determine the meaning of a word in print when the oral example is also absent and that the vast majority of residents have some familiarity with Olelo Hawaii that enable them to discern the correct meaning without the additions of okina or kahako.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3308 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 3; Ayes with Reservations (Ihara, Richards, Shimabukuro). Noes, 2 (Keohokalole, Fevella). Excused, none.

SCRep. 2225 (Joint) Hawaiian Affairs and Housing on S.B. No. 2654

The purpose and intent of this measure is to exempt any development of homestead lots or housing for the Department of Hawaiian Home Lands from general excise and use taxes.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Keaukaha Pana'ewa Farmers Association; Ho'omana Pono, LLC; Dowling Company, Inc; and nine individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Budget and Finance, Department of Taxation, and Tax Foundation of Hawaii.

Your Committees find that homestead lots or housing developed for the Department of Hawaiian Home Lands that is awarded to native Hawaiians, are offered at rates that are affordable in comparison to similar housing opportunities available in Hawaii. This measure will exempt any development of homestead lands from general excise and use taxes, which will further reduce the housing costs for Department of Hawaiian Home Lands beneficiaries.

Your Committees have amended this measure by:

- (1) Specifying that the tax exemptions proposed by this measure shall apply only to housing projects that shall be awarded to and occupied by beneficiaries of the Department of Hawaiian Home Lands; and
- (2) Inserting an effective date of July 1, 2024.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2654, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2654, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

Housing: Ayes, 5. Noes, none. Excused, none.

SCRep. 2226 (Joint/Majority) Hawaiian Affairs and Housing on S.B. No. 2779

The purpose and intent of this measure is to require the Department of Hawaiian Home Lands to build sufficient rental housing, including rental apartment units, and rent-with-option-to-buy housing units, to satisfy the housing needs of native Hawaiians on the waitlist for homestead leases.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawai'i State Youth Commission; Ho'omana Pono, LLC; and five individuals.

Your Committees received testimony in opposition to this measure from the Keaukaha Pana'ewa Farmers Association and eight individuals.

Your Committees find that the Department of Hawaiian Home Lands is obligated to develop and deliver land to its native Hawaiian beneficiaries. However, as of December 31, 2022, approximately 29,300 native Hawaiian adults were on the waitlist for homesteads. This measure will be a step toward reducing the Department of Hawaiian Home Lands' waitlist backlog, which has not significantly decrease despite plans to develop more Hawaiian home lands lots.

Your Committees have amended this measure by:

- (1) Deleting language that would have required the Department of Hawaiian Home Lands to build sufficient rental housing, including rental apartment units, and rent-with-option-to-buy housing units, to satisfy the housing needs of native Hawaiians on the waitlist for homestead leases; and
- (2) Inserting language that requires the Department of Hawaiian Home Lands to:
 - (A) Ensure compliance with the plan implemented in Act 279, Session Laws of Hawaii 2022, as approved by the Hawaiian Homes Commission in August 2022, and whose findings were approved by Governor Ige in December 2022;
 - (B) Utilize trust assets and formulate plans, proposals, and budget requests that shall cause the immediate reduction of the number of native Hawaiian beneficiaries on the Department's waitlist;
 - (C) Utilize the beneficiary survey conducted in 2020 to guide decision making and consult native Hawaiian beneficiaries as necessary to ensure that the Department of Hawaiian Home Lands serves in their best interest; and
 - (D) Consider all models of development and financial opportunities that may assist beneficiaries in acquiring lease awards.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2779, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2779, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.
 Housing: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2227 Judiciary on S.B. No. 2523

The purpose and intent of this measure is to require the Judiciary to establish a three-year pilot program to provide free child care services to minor children of parties and witnesses who are attending court hearings in the first circuit.

Your Committee received testimony in support of this measure from the Department of Human Services and one individual.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that due to the high cost of child care, many parents are unable to afford to pay for child care services while they attend court hearings. Additionally, the availability of child care in licensed and registered family child care homes and child care centers has been on the decline since before the coronavirus disease 2019 pandemic, leaving many families unable to secure child care. This measure will allow parents to attend necessary court proceedings without the burdens of finding and affording child care services.

Your Committee has amended this measure by:

- (1) Deleting language that would have required the Judiciary to establish a three-year pilot program to provide free child care services to minor children of parties and witnesses who are attending court hearings in the first circuit;
- (2) Adding language that requires the Judiciary to conduct a study to determine how to implement a program no later than July 1, 2025 that provides free child care services to minor children of parties and witnesses who are attending court hearings in the First Circuit Family Court;
- (3) Deleting language requiring the Judiciary to submit reports to the Legislature regarding the three-year pilot program;
- (4) Requiring the Judiciary to submit a report regarding the study no later than forty days prior to the convening of the Regular Session of 2025;
- (5) Decreasing the appropriation amount to \$75,000; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2523, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2523, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2228 Labor and Technology on S.B. No. 560

The purpose and intent of this measure is to amend the law relating to Labor.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to transfer the Workforce Development Division from being directly part of the Department of Labor and Industrial Relations to the Workforce Development Council, an entity that is administratively attached to the Department of Labor and Industrial Relations.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560, as amended herein, and recommends that it be recommitted to your Committee on Labor and Technology, in the form attached hereto as S.B. No. 560, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
 Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 2229 Health and Human Services on S.B. No. 3142

The purpose and intent of this measure is to authorize the Department of Health to transfer federal capitalization grant funds between the Water Pollution Control Revolving Fund and the Drinking Water Treatment Revolving Loan Fund, in accordance with title 40 Code of Federal Regulations section 35.3530(c).

Your Committee received testimony in support of this measure from the Department of Health and Ulupono Initiative.

Your Committee finds that the quality of the environment and the economy of the State are both of utmost importance to the welfare of the people of the State. Your Committee further finds that there is an increasing demand for the replacement of aging drinking water and wastewater system infrastructure in the State, the delay of which could pose short-term and long-term health hazards for consumers statewide. Your Committee additionally finds that the incorporation of capitalization grant transfer authority between the Drinking Water Treatment Revolving Loan Fund and the Water Pollution Control Revolving Fund programs, as currently allowed under title 40 Code of Federal Regulations section 35.3530(c), can greatly assist the two programs with additional planning and

priority setting; maximizing of the two infrastructure funding programs by directing federal funds where they are most needed; and ensuring that annual federal capitalization grant moneys awarded to the two programs will be disbursed as quickly as possible.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3142, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2230 Health and Human Services on S.B. No. 238

The purpose and intent of this measure is to:

- (1) Expand the time period by which a civil action for childhood sexual abuse may be initiated, including an otherwise time-barred action; and
- (2) Authorize a court to require personnel of legal entities to undergo training on trauma-informed response.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, Democratic Party of Hawai'i, American Association of University Women Hawai'i, Kapiolani Sex Abuse Treatment Center, Hawaii Association for Justice, Imua Alliance, Rainbow Family 808, Hawai'i Youth Services Network, Hawaii Young Republicans, Hawai'i State Coalition Against Domestic Violence, Aloha United Way, CARES, and twelve individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of the Attorney General and Roman Catholic Church in Hawai'i.

Your Committee finds that victims of childhood sexual abuse experience long-term damaging effects that cause significant disruptions in their lives. Your Committee also finds that survivors of childhood sexual abuse more often than not will withhold disclosure for years, if not decades, due to fear of retaliation or further harm. This measure will provide survivors of childhood sexual abuse with additional time to bring claims and seek justice against their abusers and prevent future harm by the legal entity against whom the claim was brought.

Your Committee notes the concerns raised in testimony with regard to allowing child sexual abuse victims to be monetarily compensated. Your Committee also notes concerns regarding this measure extending the statute of limitations by not just years, but decades, which would likely prejudice the parties involved in a lawsuit as the integrity of the evidence becomes strained and memories fade, witnesses relocate or pass away, and documents are lost or destroyed. Amendments to this measure are therefore necessary to address these concerns.

Your Committee has amended this measure by:

- (1) Deleting section 2 of the measure, which would have:
 - (A) Expanded the time period by which a civil action for childhood sexual abuse may be initiated; and
 - (B) Authorize a court to require personnel of legal entities to undergo training on trauma-informed response;
- (2) Inserting language to establish a working group to examine:
 - (A) Reparations for victims of child sexual abuse; and
 - (B) The fiscal impact on childcare insurance providers, including increases in insurance premiums;
- (3) Adding the following members to the working group:
 - (A) The Chairperson of the Women's Legislative Caucus;
 - (B) The Attorney General or the Attorney General's designee;
 - (C) The Insurance Commissioner or the Insurance Commissioner's designee;
 - (D) One member from the Hawaii Association for Justice to be invited by the Chairperson;
 - (E) One member from the Hawaii State Bar Association Insurance Coverage Litigation to be invited by the Chairperson; and
 - (F) Any other members selected or invited by the President of the Senate or the Speaker of the House of Representatives;
- (4) Requiring the working group to submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 238, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2231 Health and Human Services on S.B. No. 849

The purpose and intent of this measure is to:

- (1) Amend the state supplemental payment ceiling amounts for domiciliary care paid to recipients who are eligible for federal supplementary security income or public assistance, or both; and
- (2) Amend the monthly needs allowance for individuals residing in foster homes, care homes, domiciliary homes, and other long-term care facilities.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Department of Human Services, Department of Health, Work Now Hawaii, La'akea Village, Arc of Maui County, Hawaii Self-Advocacy Advisory, and sixteen individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that monthly personal needs allowance funds allow individuals living in long-term care facilities to make personal purchases of goods or services, enabling self-determination and personal choice by the individuals over their own lives. The allowance also allows individuals with developmental disabilities who reside in these home settings opportunities to participate in social events and improve their quality of life. Your Committee further finds that the current monthly personal needs allowance of \$50 has not been raised since 2007. Therefore, it is crucial that the allowance amount be raised to reflect the substantial rise in inflation rates.

Your Committee notes that although this measure contains an unspecified implementation date for the increase in the state supplemental payment ceiling amounts, the testimony of the Department of Human Services provides that it will be able to make system changes for the implementation in one hundred twenty days. Accordingly, your Committee respectfully requests that subsequent Committees to which this measure is referred consider this time frame when determining the implementation date as this measure moves through the legislative process.

Your Committee further notes that the testimony of the Department of Human Services also sets forth the specific state supplemental payment ceiling amounts needed to increase the monthly personal needs allowance to \$75 without additional appropriation.

Accordingly, your Committee has amended this measure by:

- (1) Setting the state supplemental payment ceiling for type I adult residential care homes, licensed developmental disabilities domiciliary homes, community care foster family homes, and certified adult foster homes at \$809.00;
- (2) Setting the state supplemental payment ceiling for type II adult residential care homes at \$917.00;
- (3) Clarifying that the state supplemental payment ceiling amounts above include the care rate and personal needs allowance; and
- (4) Setting the monthly needs allowance at \$75.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 849, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 849, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2232 Health and Human Services on S.B. No. 3124

The purpose and intent of this measure is to authorize the Director of Health to permit online access to apply for marriage and civil union licenses in lieu of in-person applications, as specified in rules adopted pursuant to chapter 91, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health and CARES.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that modern telecommunications technologies provide high quality image and audio resolution and fidelity, sufficient security for sharing personal and confidential information, and convenience for governmental agencies and for individuals. Your Committee further finds that permanently authorizing synchronous online access to apply for marriage and civil union licenses will increase access to government services with minimal additional burdens or risks.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3124 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2233 (Joint) Hawaiian Affairs and Housing on S.B. No. 3213

The purpose and intent of this measure is to require that one percent of the transient accommodations tax be allocated to the Department of Hawaiian Home Lands for the purposes of building affordable housing for individuals on the Department of Hawaiian Home Lands waiting list.

Your Committees received testimony in support of this measure from Ho‘omana Pono, LLC and seven individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees received comments on this measure from the Department of Budget and Finance and Tax Foundation of Hawaii.

Your Committees find that in fulfilling its obligation to native Hawaiians, the Department of Hawaiian Home Lands has largely focused on developing single-family homes. With rising housing costs and more than forty thousand applicants on a waiting list for available housing opportunities, the Department of Hawaiian Home Lands must expand its ability to develop not only single-family homes, but also multi-family homes, rental and transitional units, and other alternative housing options for individuals currently on the waiting list, to meet the needs of the State’s native Hawaiian population. This measure seeks to fund this endeavor by requiring that one percent of the transient accommodations tax be allocated to the Department of Hawaiian Home Lands for the purposes of building affordable housing for individuals on the Department of Hawaiian Home Lands waiting list.

Your Committees note the concerns raised by the Department of Budget and Finance and Tax Foundation of Hawaii, including the concerns about the earmark and concerns that the bill does not specify where the allocated funds shall be deposited, nor does it provide an appropriation to the Department of Hawaiian Home Lands to expend the funds. Your Committees respectfully request that these concerns be considered by subsequent committees as this measure progresses through the legislative process.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3213 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.
Housing: Ayes, 5. Noes, none. Excused, none.

SCRep. 2234 Hawaiian Affairs on S.B. No. 2397

The purpose and intent of this measure is to prohibit lessees who sell or transfer their interest in a Hawaiian Home Lands tract for personal gain from being placed on any subsequent waiting list maintained by the Department of Hawaiian Home Lands for an additional lease.

Your Committee received testimony in support of this measure from Ho‘omana Pono, LLC and two individuals.

Your Committee received testimony in opposition to this measure from three individuals.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that certain native Hawaiians who are eligible for a lease pursuant to the Hawaiian Homes Commission Act, 1920, as amended, have acquired a lease, sold or transferred their interest in the lease, and then placed their name on the waiting list for a second lease of Hawaiian Home Lands, which has contributed to many eligible native Hawaiians never receiving a lease offer. All Department of Hawaiian Home Lands beneficiaries should be able to enter the Hawaiian Homes Commission Act Program with a reasonable expectation of eventually receiving a lease. This measure will ensure fairness in the distribution of leases to all beneficiaries.

Your Committee has amended this measure by:

- (1) Adding a definition of “personal gain” to mean an action that is purely motivated by the desire to make a profit;
- (2) Specifying that this measure shall be implemented by the Department of Hawaiian Home Lands at the sole discretion of the Hawaiian Homes Commission; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes the concerns raised by opponents to the measure and emphasizes that this measure is aimed only at those beneficiaries who sell or transfer their leases purely for personal gain. Your Committee also notes the testimony of Ho‘omana Pono, LLC, suggesting that the Department of Hawaiian Home Lands track sales and transfers by lessees and that the Hawaiian Homes Commission should consider approving sales or transfers before they occur. Your Committee respectfully requests that these issues be considered by subsequent committees should they choose to deliberate on this measure as it progresses through the legislative process.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2397, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2397, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2235 (Joint) Housing and Water and Land on S.B. No. 1587

The purpose and intent of this measure is to:

- (1) Establish the Affordable Housing Land Inventory Task Force to update the maps, tier tables, and inventories of state lands suitable and available for affordable housing development in the Affordable Rental Housing Report and Ten-Year Plan; and
- (2) Require the Task Force to report to the Legislature.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Building Industry Association Hawaii, Hawai‘i Association of REALTORS, Hawaii Leeward Planning Conference, Hawaii Island Economic Development Board, and three individuals.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development.

Your Committees find that Hawaii is one of the most expensive states in the nation in regards to housing, with median housing costs almost three times higher than the national average. This is a result of limits on land use within the State, restrictive housing regulations, and permit delays, among other things. This measure aims to reduce this issue by identifying opportunities to efficiently and quickly develop affordable housing.

Your Committees have amended this measure by:

- (1) Placing the Task Force in the Hawaii Community Development Authority rather than the Office of Planning and Sustainable Development, for administrative purposes;
- (2) Adding the Chairperson of the Board of Land and Natural Resources as a member of the Task Force;
- (3) Clarifying that representatives from organizations with experience in development or redevelopment may be invited to serve as members of the Task Force;
- (4) Deleting the Executive Director of the Hawaii Green Infrastructure Authority, Deputy Director of the Highways Division of the Department of Transportation, and Chair of the Public Utilities Commission as members of the Task Force;
- (5) Clarifying that the Executive Director of the Land Use Commission, rather than the Chair of the Land Use Commission, shall be a member of the Task Force;
- (6) Requiring the Task Force to focus on existing urban lands to minimize the need for major regional infrastructure improvements;
- (7) Requiring the Task Force to examine mixed-use development opportunities to redevelop underutilized State-owned lands with only one government tenant or use;
- (8) Requiring the Task Force to identify lands to accommodate one hundred thousand new housing units and designating such lands as important housing lands;
- (9) Delaying the reporting and termination dates of the Task Force by one year;
- (10) Inserting language declaring that the general fund expenditure ceiling is exceeded;
- (11) Inserting an appropriation to the Hawaii Community Development Authority for a staff position and for contractual services; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1587, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1587, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2236 (Joint) Education and Labor and Technology on S.B. No. 2475

The purpose and intent of this measure is to:

- (1) Establish a Harm to Students Registry for all prekindergarten through grade twelve institutions operating in the State to be administered by the Department of Education;
- (2) Require schools to complete any investigation into employees who have pending allegations of harming students, regardless of employment status;
- (3) Require schools to consult with the Harm to Students Registry before authorizing prospective employees or volunteers to interact with students;
- (4) Require schools to share information on ongoing or concluded investigations of infliction of harm to a student when requested by another institution;
- (5) Establish an appeal process for individuals who request removal from the Harm to Students Registry;
- (6) Require the Hawaii Teacher Standards Board to revoke the licenses of certain individuals who have resigned or retired in lieu of termination; and
- (7) Establish qualified immunity for employers who provide good faith information or opinion on a current or former employee's job performance.

Your Committees received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Hawai'i Teacher Standards Board, Hawaii Association of Independent Schools, Kamehameha Schools, Punahou School, and two individuals.

Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that Hawaii's keiki deserve to learn and grow in safe and secure educational environments. However, in recent years, there has been a growing number of individuals who have perpetuated harm against children and then sought subsequent

employment at another educational institution. The ease of securing employment despite ongoing or pending investigations into allegations of harm against children raises troubling concerns for keiki and school communities statewide. Therefore, this measure establishes an additional safeguard for all schools across the State to create safer learning environments while holding individuals who have committed egregious actions accountable.

Your Committees have amended this measure by:

- (1) Deleting a reference to chapter 350, Hawaii Revised Statutes, relating to child abuse under the purview of the Department of Human Services;
- (2) Prohibiting the inclusion of personally identifiable information of a student within information shared between educational institutions regarding the Harm to Students Registry;
- (3) Exempting any information or employment documents related to the Harm to Students Registry obtained from a non-governmental educational institution from the requirements of the Uniform Information Practices Act;
- (4) Clarifying that the Department of Education is required to complete an investigation of an employee, rather than an individual;
- (5) Requiring institutions to complete an investigation upon notification of an allegation of infliction of harm to a student;
- (6) Requiring public schools to inquire with the Department of Education to confirm whether a candidate for employment or prospective volunteer at the institution is listed on the Harm to Students Registry;
- (7) Applying definitions of terms defined in section 302A-1002, Hawaii Revised Statutes, to new language establishing the Harm to Students Registry in other sections of the Hawaii Revised Statutes;
- (8) Inserting language in chapter 302L, Hawaii Revised Statutes, to extend the provisions of this measure to early learning programs;
- (9) Clarifying that inclusion on the Harm to Students Registry for certain persons paid under the salary scheduled contained in bargaining unit (5) shall occur only after an investigation conducted results in a final finding that the person engaged in acts or omissions that resulted in the infliction of harm to a student;
- (10) Requiring any individual who retires or resigns from teaching before the completion of the investigation to surrender their Hawaii teaching license;
- (11) Requiring the Hawaii Teacher Standards Board to report a surrendered license to the National Association of State Directors of Teacher Education and Certification; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2475, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2475, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Richards).

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2237 (Joint) Education and Labor and Technology on S.B. No. 3089

The purpose and intent of this measure is to require that licensed teachers have their license revoked by the Hawaii Teacher Standards Board if the teacher is resigning or retiring during the pendency of any investigation into allegations of sexual assault, sexual harassment, or other physical abuse of a student.

Your Committees received testimony in support of this measure from the Department of Education.

Your Committees received comments on this measure from the Hawai'i Teacher Standards Board.

Your Committees find that Hawaii's keiki have a right to safe and secure learning environments throughout their educational careers. However, certain individuals who perpetuate harm against children — including physical abuse, sexual assault, or sexual harassment — may still find employment in other jurisdictions despite allegations and accusations of misconduct. Additionally, certain instances of physical or sexual abuse may go undetected, as parents may be reluctant to have their children testify in public regarding a sexual or physical abuse incident, as the testimony may cause the child to relive the traumatic event. Educational institutions may also terminate the perpetrator's employment to avoid tarnishing reputations. Providing quality educational experiences to Hawaii's keiki is of paramount importance to the State. Therefore, this measure provides increased protection and healthy, safer learning environments for students.

Your Committees have amended this measure by:

- (1) Inserting language that requires an individual who retires or resigns from teaching before the completion of the investigation to surrender their Hawaii teaching license;
- (2) Inserting language that requires the Hawaii Teacher Standards Board to report a surrendered license to the National Association of State Directors of Teacher Education and Certification; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3089, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3089, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Education: Ayes, 4. Noes, none. Excused, 1 (Richards).

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2238 (Majority) Agriculture and Environment on S.B. No. 2106

The purpose and intent of this measure is to establish the Access to Local Value-Added Products Act to allow homemade food operations to sell homemade food products under certain circumstances.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Food Industry Association; Grassroot Institute of Hawaii; Institute for Justice; Hawai'i Farm Bureau; Waimea Succulents LLC; Lokoea Farms LLC; Makani Mills LLC; Hawaii Master Food Preservers, Inc.; Hawaii Tropical Fruit Growers; Chef Anon Shine Lovefuel Kitchen LLC; and eighteen individuals.

Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee finds that a cottage food or homemade food product industry in the State can increase food security and tax revenues. Your Committee recognizes that although there is great interest in small-scale value-added food production in the State, existing regulatory framework creates several challenges for entrepreneurs of certain homemade food products. According to testimony received by your Committee, this measure expands opportunities for producers and consumers of homemade food products without compromising food safety.

Your Committee acknowledges the concerns raised by the Department of Health, regarding the production of foods that require time or temperature control for safety to limit pathogenic microorganism growth or toxin formation.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that requires each homemade food operation to specify in its permit application its hours of operations and to agree to give the Department of Health the right of entry to inspect its home kitchen during the specified hours; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2106, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Richards). Noes, 1 (Rhoads). Excused, 1 (Awa).

SCRep. 2239 (Joint) Housing and Commerce and Consumer Protection on S.B. No. 2065

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Residential Developers Loan Corporation and the Hawaii Residential Developers Loan Revolving Fund for the purpose of enhancing credit and guaranteeing and insuring loans made by private financial institutions to developers of residential housing for Hawaii residents who will be owner-occupants and who own no other real property;
- (2) Authorize the Director of Finance to issue general obligation bonds to fund the Hawaii Residential Developers Loan Revolving Fund; and
- (3) Make an appropriation.

Your Committees received testimony in support of this measure from Church of the Crossroads and two individuals.

Your Committees received comments on this measure from the Department of Budget and Finance and the Hawaii Housing Finance and Development Corporation.

Your Committees find that the State is facing a housing crisis. The State's high costs and demand for housing have led many residents to leave the State in search of more affordable housing on the continent. This measure aims to combat this issue by establishing a mechanism by which loans made by private financial institutions to developers of certain housing projects are insured and guaranteed to help lower costs and expand the State's ability to create affordable housing.

Your Committees have heard the concerns raised in testimony regarding the requirement that revenue bonds demonstrate the capacity to be self-sustaining and have a designated repayment source. Additional testimony offered by the Hawaii Housing Finance and Development Corporation clarified that the corporation would be capable of administering this type of credit enhancement and loan guarantee program through general obligation bonds. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have established the Hawaii Residential Developers Loan Corporation as a separate chapter in Hawaii Revised Statutes, and instead establishing a new subpart to Part III, chapter 201H, Hawaii Revised Statutes, authorizing the Hawaii Housing Finance and Development Corporation to perform the functions established under this measure;

- (2) Clarifying that the Hawaii Housing Finance and Development Corporation shall enhance credit and guarantee and insure loans made by private financial institutions to developers of residential housing for sale or rent to qualified residents as defined in section 201H-32, Hawaii Revised Statutes;
- (3) Deleting language that would have established the framework for the issuance of revenue bonds;
- (4) Inserting language specifying that the sum appropriated by this measure shall be expended by the Hawaii Housing Finance and Development Corporation; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2065, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2065, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2240 Education on S.B. No. 3087

The purpose and intent of this measure is to expand access to early learning programs on other state properties and public lands besides Department of Education public school campuses.

Your Committee received testimony in support of this measure from the Department of Education, Executive Office on Early Learning, Office of Hawaiian Affairs, Department of Human Services, Early Learning Board, He'e Coalition, Hawai'i Children's Action Network Speaks!, Early Childhood Action Strategy, and CARES.

Your Committee finds that early childhood education is of paramount importance to provide Hawaii's youngest students with the opportunity to learn and grow. Presently, the Executive Office on Early Learning and Department of Human Services have a mandate to provide all three- and four-year-old children with accessible prekindergarten programs by 2032. While the State has made significant progress to ensure greater accessibility to prekindergarten programs, affordability remains a significant barrier for many families statewide. Therefore, this measure positions the State to pursue expansion of prekindergarten programs while providing affordable, high quality experiences to Hawaii's keiki.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3087, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Richards, Fevella).

SCRep. 2241 Education on S.B. No. 3328

The purpose and intent of this measure is to:

- (1) Clarify the Department of Education's authority to oversee public education facilities and real estate development;
- (2) Establish the Office of Facilities and Real Estate Development and the Office of School Operations and Services;
- (3) Repeal the School Facilities Authority;
- (4) Reorganize the Department of Education's organizational structure for facilities and real estate development;
- (5) Establish positions;
- (6) Make an appropriation; and
- (7) Repeal the Office of Facilities and Real Estate Development and Office of School Operations and Services on July 1, 2031.

Your Committee received testimony in support of this measure from the Board of Education and Department of Education.

Your Committee received comments on this measure from the Department of the Attorney General; Department of Budget and Finance; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the Department of Education oversees two hundred forty-eight schools statewide, including the oversight of hundreds of buildings and associated capital improvement projects, deferred and regular maintenance, and repairs. To assist the Department of Education in accomplishing this mandate, the Legislature enacted Act 72, Session Laws of Hawaii 2020, establishing the School Facilities Agency as the principal agency tasked with real estate development of public educational facilities. In 2021, the Legislature renamed the School Facilities Agency to the School Facilities Authority and clarified its powers and responsibilities through Act 217, Session Laws of Hawaii 2021, to include development, planning, and construction of public school capital improvement projects; acquisition of property; receipt of gifts and grants; and contracting or partnering with qualified parties.

Your Committee also finds that while the School Facilities Authority has only been in operation for nearly three years, the precise scope of the Authority's duties and responsibilities remains unclear. Progress by the School Facilities Authority has been notably slow, raising concerns about its effectiveness and efficiency. Additionally, there persists an ongoing issue of overlapping statutory

responsibilities between the Department of Education and the School Facilities Authority. According to the Board of Education's testimony, the Department of Education completed eleven classrooms for prekindergarten education for the first phase of the Ready Keiki Initiative, a mandate originally assigned to the School Facilities Authority. As the Department of Education has assumed many responsibilities statutorily established for the School Facilities Authority, reorganization of real estate operations at the Department is needed to provide clarity and streamline operations. Therefore, this measure is necessary to provide effective guidance and leadership in the accomplishment of the Department of Education's mandate to provide high quality public education to Hawaii's keiki.

Your Committee has amended this measure by:

- (1) Repealing members appointed by the Governor of the School Facilities Board from the list of persons required to submit financial disclosure statements to the State Ethics Commission;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3328, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2242 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 2843

The purpose and intent of this measure is to:

- (1) Clarify that the Governor's and mayors' emergency management powers shall be consistent with the Hawaii State Constitution and the scope of the comprehensive emergency management plan;
- (2) Clarify the powers of the Governor and mayors to extend or terminate a state of emergency; and
- (3) Shorten the duration of price control periods from ninety-six hours to seventy-two hours.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency; Hawai'i Association of REALTORS; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Retail Merchants of Hawaii; and two individuals.

Your Committees received comments on this measure from the Grassroot Institute of Hawaii.

Your Committees find that the August 8, 2023 Maui wildfires starkly pointed out the necessity for the State to design a comprehensive emergency plan to ensure that the State prepares for, mitigates against, responds to, and recovers from emergencies and minor, major, and catastrophic disasters. According to testimony your Committees received, there is a need for quick and decisive action by leaders in times of emergency. This measure will clarify the roles of the Governor, Legislature, and local mayors in the event of an emergency.

Your Committees have amended this measure by:

- (1) Inserting language to allow the Legislature to terminate or extend a state of emergency; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2843, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2843, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.
Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2243 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 2904

The purpose and intent of this measure is to:

- (1) Amend emergency management law to protect tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a gubernatorial or mayoral emergency proclamation; and
- (2) Classify violations as unfair methods of competition and unfair and deceptive acts or practices.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Authority, Hawaii Association for Justice, Lahaina Strong, Hawaii Financial Services, and sixty-nine individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Credit Union League and one individual.

Your Committees received comments on this measure from the Department of the Attorney General, Department of Commerce and Consumer Affairs' Office of Consumer Protection, Hawai'i Association of REALTORS, and Hawaii Bankers Association.

Your Committees find that Hawaii has the highest cost of living and the most unaffordable housing market in the United States. Your Committees further find that disasters, like the 2023 Maui wildfires, have shown the absence of legislative safety nets for renters, mortgagors, and tenants relating to housing. This measure will create protections that offer immediate relief to individuals, families, and small businesses struggling with rental payments and mortgages due to declared disasters.

Your Committees have amended this measure by:

- (1) Clarifying that the Governor and mayors may make certain declarations during an emergency;
- (2) Deleting language that would have made any violation of laws enacted to protect tenants, mortgagors, consumers, and residents for certain periods of time after the issuance of a gubernatorial or mayoral emergency proclamation; an unfair method of competition or an unfair or deceptive act or practice in trade and commerce; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2904, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2904, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2244 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 2908

The purpose and intent of this measure is to prohibit residential rent increases in affected areas for an unspecified period after a severe storm warning or issuance of an emergency proclamation.

Your Committees received testimony in support of this measure from the Hawai'i Emergency Management Agency, UNITE HERE Local 5, Lahaina Strong, Hawaii Financial Services, and sixty-six individuals.

Your Committees received comments on this measure from Hawai'i Association of REALTORS.

Your Committees find that emergencies, whether caused by severe storms or other unforeseen circumstances, can have devastating impacts on individuals and families, particularly regarding housing. Your Committees further finds that it is crucial to prioritize the welfare of Hawaii residents during severe storm warnings or emergency proclamations. This measure will provide renters and tenants with housing and rent stability during a state of emergency or local state of emergency.

Your Committees have amended this measure by inserting an effective date of January 1, 2042, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2908, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2908, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2245 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 2977

The purpose and intent of this measure is to:

- (1) Make it unlawful for an unlicensed contractor to offer or perform repairs or improvements to a residential or nonresidential structure or property, or add to or subtract from grounds in connection with the structure or property, for damage or destruction caused by a natural disaster for which a state of emergency or disaster is proclaimed by the Governor; and
- (2) Require violations to be punished by a fine of not more than \$10,000, imprisonment up to one year, or both, in addition to all other remedies or penalties.

Your Committees received testimony in support of this measure from the Office of Consumer Protection of the Department of Commerce and Consumer Affairs, Hawai'i Emergency Management Agency, Subcontractors Association of Hawaii, and one individual.

Your Committees received comments on this measure from the Contractors License Board.

Your Committees find that the August 2023 wildfires on Maui caused significant property loss, including the destruction of Lahaina town. Your Committees further find that work performed by unlicensed contractors unfairly exposes Hawaii property owners to liability for poor workmanship and jobsite injuries and increases the likelihood of unlicensed contractor fraud in which an unlicensed contractor obtains payment and provides no work or incomplete work. This measure will prevent further harms from occurring during the repairs and new construction in connection with the August 2023 Maui wildfires, or any future natural disasters.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2977 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2246 (Joint) Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection on S.B. No. 2983

The purpose and intent of this measure is to:

- (1) Regulate charitable fundraising platforms and activities of platform charities during declared federal disasters;
- (2) Include provisions relating to the misuse of funds;
- (3) Impose vicarious liability upon a platform charity for a charitable fundraising platform's misuse of funds, and vice versa; and
- (4) Exempt national disaster charitable organizations from its provisions.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Hawai'i Emergency Management Agency, and one individual.

Your Committees received comments on this measure from the Hawai'i Alliance of Nonprofit Organizations.

Your Committees find that the Maui wildfires have sparked the United States Department of Justice to issue a warning of potential fraudulent activity around donations and contributions masquerading as Maui fire relief. According to testimony received by your Committees, the State needs to improve and expand enforcement of charitable fundraising activities, including regulating charitable fundraising on internet platforms. This measure will ensure the prevention of fraudulent and predatory charitable fundraising behavior.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2983, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2983, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2247 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 2141

The purpose and intent of this measure is to:

- (1) Establish a Homeland Security and Resiliency Council to assess the resilience of the State's electric grid and other critical infrastructure to natural disasters and other emergencies and make recommendations;
- (2) Require the Council to report to the Legislature; and
- (3) Make an appropriation.

Your Committees received testimony in support of this measure from the Department of Law Enforcement and Hawai'i Gas.

Your Committees received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, and Hawaiian Electric.

Your Committees find that the August 2023 Maui wildfire was the worst natural disaster in the history of Hawaii, and the worst wildfire in the United States within the last century. Your Committees find that as the effects of climate change become more pronounced and the rate of severe fires increases, it is imperative that the State have electrical grids that can withstand these extreme events. This measure will ensure the State's critical infrastructure is prepared to withstand disasters by establishing a council to provide recommendations for electric grid and other infrastructure resiliency.

Your Committees have amended this measure by:

- (1) Replacing the Director of Homeland Security with the Director of Law Enforcement as a member of the Homeland Security and Resiliency Council;
- (2) Adding the following members to the Homeland Security and Resiliency Council:
 - (A) The Executive Director of the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs;
 - (B) A representative from the Hawaii State Energy Office; and
 - (C) Representatives from each gas utility company operating in the State;
- (3) Amending section 1 to update legislative findings;
- (4) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2141, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2141, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2248 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 2145

The purpose and intent of this measure is to require the counties to submit annual reports on fire code enforcement updates and fire mitigation planning to the Legislature.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committees received comments on this measure from the Hawaii State Fire Council and Honolulu Fire Department.

Your Committees find that the August 2023 Maui wildfires, identified as the worst natural disaster in Hawaii's history, caused significant loss of life, property damage, and environmental harm, underscoring the necessity for comprehensive and proactive measures at both the state and county level to address the threat of wildfires. Your Committees further find that it is essential to establish a framework for enhanced collaboration and accountability between the State and the counties to ensure that county zoning and development plans prioritize fire safety. This measure will foster resilient and fire-safe communities to ensure Hawaii's communities are prepared and adequately protected in future wildfire threats and events.

Your Committees have amended this measure by:

- (1) Deleting language that would have appropriated an unspecified amount for grant-in-aid to the counties for annual reports on county fire code enforcement efforts;
- (2) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2145, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2145, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2249 (Joint/Majority) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 2331

The purpose and intent of this measure is to clarify that the Governor may waive historic preservation requirements in an emergency proclamation only when there is an imminent or presently occurring emergency which threatens health and safety.

Your Committees received testimony in support of this measure from the Historic Hawai'i Foundation, Society for Hawaiian Archaeology, and four individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees received comments on this measure from the Office of the Governor, Department of Land and Natural Resources, and Office of Hawaiian Affairs.

Your Committees find that existing historic preservation requirements provide for a robust review process to ensure protection of the State's historic identity. However, certain emergency instances such as natural disasters or other urgent and acute threats may require immediate action. As historic preservation and environmental protections are important objectives of the State, this measure will waive historic preservation requirements when action is required to protect lives and property.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2331 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2250 (Joint) Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 3064

The purpose and intent of this measure is to reinstate the Governor's authority to transfer funds to cope with the effects of natural disasters, for operating purposes, or to supplement the Department of Land and Natural Resources' Firefighter's Contingency Fund.

Your Committees received testimony in support of this measure from the Department of Budget and Finance, Department of Land and Natural Resources, and Hawai'i Emergency Management Agency.

Your Committees find that Act 164, Session Laws of Hawaii 2023, did not contain provisions to provide the Governor with the authority to transfer funds for operating purposes, natural disaster, or the Firefighter's Contingency Fund. It is imperative that the Governor has the ability to respond rapidly to a natural disaster to support continued emergency operations. This measure will ensure community safety, public interest, and effective management by granting power to the Governor to transfer funds in times of emergency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3064 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2251 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2143

The purpose and intent of this measure is to make an appropriation for the Wildfire Management Branch of the Department of Land and Natural Resources Division of Forestry and Wildlife to support nonprofit organizations that specialize in wildfire preparedness and mitigation programming through grant disbursements.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Honolulu Fire Department, County of Maui Department of Fire and Public Safety, The Nature Conservancy, and one individual.

Your Committees find that although wildfires pose serious and far-reaching threats in the State, the Wildfire Management Branch of the Department of Land and Natural Resources Division of Forestry and Wildlife is severely underfunded and understaffed. Consequently, the Wildfire Management Branch funds and works with the nonprofit, Hawaii Wildfire Management Organization, to provide programming for the State's wildfire preparedness needs. However, wildfire prevention nonprofits cannot rely on funding annually from the Wildfire Management Branch or from federal grants. This measure will bolster the State's wildfire preparedness by securing funds for the Wildfire Management Branch of the Department of Land and Natural Resources Division of Forestry and Wildlife.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2143 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2252 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3327

The purpose and intent of this measure is to:

- (1) Define public trust purposes of the Commission on Water Resource Management;
- (2) Amend the scope of the Commission on Water Resource Management to include declaration of emergencies;
- (3) Repeal the position of First Deputy to the Chairperson of the Commission on Water Resource Management and establish the Executive Director of the Commission on Water Resource Management;
- (4) Amend the composition of the Commission on Water Resource Management;
- (5) Authorize entities to challenge an emergency order of the Commission on Water Resource Management under certain conditions;
- (6) Establish fines for certain water use offenses; and
- (7) Appropriate funds.

Your Committees received testimony in support of this measure from Lāhainā Strong; Sierra Club of Hawai'i; La'i Hauola; Protect Kaho'olawe 'Ohana; Operating Engineers Local Union No. 3; Native Hawaiian Legal Corporation; Hui o Kuapa; Nā Alaka'i o Ahahui o Hawai'i; Hui o Nā Wai 'Ehā; Council for Native Hawaiian Advancement; Hawai'i Alliance for Progressive Action; Nā Kia'i Kai; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Ko'olau Foundation; Kupuna for the Mo'opuna; and one hundred twenty-five individuals.

Your Committees received testimony in opposition to this measure from the Department of the Attorney General, Honolulu Board of Water Supply, and Restore the Commons.

Your Committees received comments on this measure from the Department of Land and Natural Resources, Hawai'i County Department of Water Supply, Kaua'i County Department of Water, and one individual.

Your Committees find that effective and efficient water resource management requires continuous and experienced leadership, especially given the climate crisis and urgent need to properly steward water resources to meet the affordable housing needs of local residents. On December 28, 1994, the review commission on the State Water Code submitted its final report pursuant to Act 45, Session Laws of Hawaii 1987, and determined that amendments to the State Water Code were necessary to enable the Commission on Water Resource Management to more effectively carry out its mandate pursuant to article XI, section 7, of the Hawaii State Constitution. This measure will clarify the purpose of the Commission on Water Resource Management and modify its leadership structure and composition of its board, which will provide greater accountability and protection of the State's waters.

Your Committees have amended this measure by:

- (1) Amending the definition of “public trust purpose” to reference articles XI and XII of the Hawaii State Constitution rather than the Hawaii Supreme Court;
- (2) Deleting language that would have allowed the Commission on Water Resource Management to declare an emergency and issue orders reciting the existence of an emergency;
- (3) Restoring the repeal of subsection 174C-62(g), Hawaii Revised Statutes, which allows the Commission on Water Resource Management to issue orders reciting the existence of an emergency;
- (4) Deleting language that would have appropriated funds for the Department of Land and Natural Resources to hire independent legal counsel;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3327, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3327, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2253 (Majority Water and Land on S.B. No. 3157)

The purpose and intent of this measure is to expand the disposition of public land leases through direct negotiation to include agricultural, commercial, industrial, resort, and hotel purposes.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee received testimony in opposition to this measure from the League of Women Voters of Hawaii, UNITE HERE! Local 5, and two individuals.

Your Committee received comments on this measure from one member of the Hawai‘i County Council.

Your Committee finds that the public auction process normally used to dispose of public land leases is too protracted, cumbersome, and uncertain to the extent that it has deterred participation by potential lessees. Expediting the leasing process may make properties more attractive to prospective lessees and create a long-term revenue stream. This measure will facilitate the productive use of lands for agricultural, commercial, industrial, hotel, and resort purposes to create economic development and growth, additional jobs, and increased public and private revenues.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3157, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3157, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (McKelvey). Noes, 1 (Fevella). Excused, none.

SCRep. 2254 Water and Land on S.B. No. 2151

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to obtain approval from the Board of Land and Natural Resources before taking action on a revocable permit; and
- (2) Prohibit any action that would result in tenant eviction from being taken on a renewed revocable permit before the year of renewal or during the renewed year.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources.

Your Committee finds that the Department of Land and Natural Resources’ revocable permit program grants business entities permission to occupy and utilize Department lands on a short-term basis. However, the request and renewal process is unclear to current and prospective entities as existing law lacks specific guidance, which may contribute to tenant eviction. This measure will provide a safeguard for tenants by limiting the discretion of the Department of Land and Natural Resources by placing restrictions on when and how the Department may evict a tenant.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2151, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2151, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante, McKelvey, Fevella). Noes, none. Excused, none.

SCRep. 2255 Water and Land on S.B. No. 2152

The purpose and intent of this measure is to limit the discretion of the Land Division of the Department of Land and Natural Resources by requiring the Board of Land and Natural Resources to approve all decisions to revoke, limit, condemn, remove, or modify the Department of Land and Natural Resources' leases and revocable permits.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that the Land Division of the Department of Land and Natural Resources has significant discretion in revoking, limiting, removing, or modifying leases granted by the Department of Land and Natural Resources, issuing condemnations, and rescinding revocable permits without prior approval from the Board of Land and Natural Resources. Enhanced review of public land leases and revocable permits would allow the State to ensure that the use of public lands best benefits people in the State. This measure will ensure a more thorough review of public leases and revocable permits to benefit Hawaii's residents.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2152, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2152, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante, McKelvey, Fevella). Noes, none. Excused, none.

SCRep. 2256 (Majority) Water and Land on S.B. No. 2204

The purpose and intent of this measure is to authorize a county to initiate a land use boundary amendment to implement the county's general plan.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, City and County of Honolulu Department of Planning and Permitting, Mayor of the County of Hawai'i, County of Hawai'i Planning Department, Mayor of County of Kaua'i, one member of the Hawai'i County Council, one member of the Maui County Council, Hawai'i Association of Realtors, and two individuals.

Your Committee received testimony in opposition to this measure from the Conservation Council for Hawai'i, Sierra Club of Hawai'i, Free Access Coalition, Kupuna for the Mo'opuna, Life of the Land, and thirty-eight individuals.

Your Committee received comments on this measure from the Office of Planning and Sustainable Development, Land Use Commission, and one individual.

Your Committee finds that the current state-level process for reclassifying lands according to county general plans has become time consuming and costly. This measure will allow the counties to take the lead in aligning state land use classification with their general plans, which would streamline the process and enhance government efficiency.

Your Committee has amended this measure by:

- (1) Clarifying that technical archaeological, cultural, and biological survey studies shall be required for land reclassifications from agricultural or conservation to urban;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2204, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2204, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2257 (Majority) Water and Land on S.B. No. 2129

The purpose and intent of this measure is to:

- (1) Expand the definition of "historic property" for purposes of the Historic Preservation Program; and
- (2) Exempt state projects on state-owned buildings from State Historic Preservation Division review unless the affected property is more than one hundred years old or on, or being added to, the Hawaii Register of Historic Places or the National Register of Historic Places.

Your Committee received testimony in support of this measure from the Ko'olau Foundation and Building Industry Association of Hawaii.

Your Committee received testimony in opposition to this measure from the Historic Hawai'i Foundation and Society for Hawaiian Archaeology.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that state projects on state-owned buildings require review from the State Historic Preservation Division, which often slows the project. However, your Committee also finds that exempting state projects on state-owned buildings from review will diminish the State's leadership in the field of historic preservation. This measure will ensure that the State remains a leader in the field of historic preservation by setting an example in how it manages its own historic properties.

Accordingly, your Committee has amended this measure by:

- (1) Removing language that would have exempted projects on state-owned buildings from State Historic Preservation Division review unless the affected property is more than one hundred years old or on or being added to the Hawaii register of historic places or the national register of historic places;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2129, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2258 Water and Land on S.B. No. 2300

The purpose and intent of this measure is to extend the Historic Preservation Income Tax Credit through 2030 and incrementally increase the ceiling on total credits from \$1,500,000 to \$4,000,000 during this period.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Historic Hawai'i Foundation.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the Historic Preservation Income Tax Credit sunsets in 2025, which will diminish the ability of property owners, especially those from lower income tax brackets, to rehabilitate and remain in historic single-family residences. This will come as a great economic loss for those homeowners who wish to assist with the rehabilitation and continued use of historic buildings in the State which are central to the preservation of Hawaiian history and culture. This measure will preserve historic properties and buildings in the State and provide homeowners with financial flexibility.

Your Committee has amended this measure by:

- (1) Clarifying that the present Historic Preservation Income Tax Credit is to be replaced on December 31, 2024;
- (2) Repealing language that provides that the cost upon which the Historic Preservation Income Tax Credit is computed shall be determined at the entity level and the distribution and share of the tax credit shall be determined pursuant to section 704(b) of the Internal Revenue Code;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2300, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2259 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2184

The purpose and intent of this measure is to expand the authority of the State and counties to develop adaptation pathways plans to modify and relocate infrastructure away from critically threatened areas to locations outside sea level rise and coastal flooding exposure areas.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development, Hawai'i Climate Change Mitigation Adaptation Commission, University of Hawai'i Sea Grant College Program and Climate Resilience Collaborative, Surfrider Foundation, and two individuals.

Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that rising sea level threatens built environments and numerous economic sectors across the State. It is essential to support and safeguard vulnerable communities and to protect and conserve invaluable public trust resources, including

sandy beaches and dune systems, which are valuable for their cultural importance and ecosystem role, from the impacts of sea level rise. This measure will enable and encourage state and county agencies to engage in and implement long-term adaptation pathway planning, together with affected communities, to facilitate natural-resource conservation and reduce the loss of public and private infrastructure to damage associated with sea level rise and flooding.

Your Committees have amended this measure by:

- (1) Clarifying that the definition of “adaptation pathways plan” includes areas with environmental triggers or infrastructure damage triggers;
- (2) Specifying that the adaptation pathways may include restoration or remediation of the shoreline after removal of structures and materials;
- (3) Specifying that regional scale adaptation pathway plans facilitate adaptation of vulnerable private residential, commercial, industrial, and resort development and the restoration or remediation of the shoreline where necessary;
- (4) Clarifying that the adaptation pathways plan may include modifications shown to have minimal impact on coastal and cultural resources, and include a proposed timeline and environmental triggers for the remediation or restoration of the land;
- (5) Clarifying that adaptation actions and triggers for actions that are appropriate to the individual location, include relocation of private development;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2184, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2184, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2260 (Joint) Water and Land and Agriculture and Environment on S.B. No. 2960

The purpose and intent of this measure is to:

- (1) Require lessees and purchasers of farm lots and ranch lots use that land for farming and producing food; and
- (2) Authorize agricultural cooperatives to apply for farmlands.

Your Committees received testimony in support of this measure from the Hawaii Cattlemen’s Council, Inc.; Hawai‘i Farm Bureau; and two individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Agriculture and one individual.

Your Committees find that nonfarming use of agricultural lands has sharply increased over the last few decades as wealthy individuals often purchase large parcels of land and pursue farming as a hobby, rather than as a livelihood. With land being a limited resource in Hawaii, any parcel that is suitable for agricultural activities should be utilized for that purpose. This measure will require that agricultural lots be used for agricultural activities only and allow for more opportunity for farmers to farm.

Your Committees have amended this measure by:

- (1) Clarifying that a person is a bona fide farmer if they meet certain criteria; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2960, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2960, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2261 (Joint) Water and Land and Agriculture and Environment on S.B. No. 3300

The purpose and intent of this measure is to require county planning commissions, county councils, and designated authorities on coastal zone management to seek to minimize, where reasonable, any risk to development from sea level rise and other coastal hazards.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, Hawaii Climate Change Mitigation and Adaptation Commission, University of Hawai‘i Sea Grant College Program and Climate Resilience Collaboration, Democratic Party of Hawai‘i, and three individuals.

Your Committees find that rising sea levels pose a serious and imminent threat to Hawaii’s coastal communities and residents and to the State’s natural resources; primarily, beaches and coastal systems. The State has an affirmative duty to preserve coastal resources as

a public trust resource for the people of Hawaii, as healthy coastal ecosystems and beaches are both culturally important and provide natural resilience to sea level rise and associated coastal flooding. This measure will increase the resilience of Hawaii's coastal communities to sea level rise by minimizing, where reasonable, risk to development from sea level rise and other coastal hazards.

Your Committees have amended this measure by:

- (1) Clarifying that the Authority shall seek to minimize, where reasonable, any development that would be under risk of sea level rise and other coastal hazards by locating development outside of the sea level rise exposure area or adapting development to accommodate sea level rise and other coastal hazards; provided that the sea level rise exposure area shall be as adopted by the Hawaii Climate Change Mitigation and Adaptation Commission or its successor; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion;

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3300, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3300, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2262 (Majority) Judiciary on S.B. No. 2627

The purpose and intent of this measure is to require:

- (1) That any new contract entered into by the Office of Elections for equipment or services relating to preparing ballots or counting votes include the capability to randomize the names of candidates appearing on the ballot, if technologically possible;
- (2) The names of candidates to be placed upon the ballot for their perspective offices in a randomized order, to the greatest extent possible; and
- (3) The Office of Elections to inform voters and candidates, by a method suited for the voting system, that the names of candidates may not be in alphabetical order.

Your Committee received testimony in opposition to this measure from forty-eight individuals.

Your Committee received comments on this measure from the Office of Elections.

Your Committee finds that currently, on ballots in the State, candidates for a specific office are listed in alphabetical order starting with the letter "A", and the ballots are identical across precincts for that office. However, numerous publicly available studies show that the election candidate who is listed first on a ballot has an advantage over the other candidates listed. Your Committee further finds that several states, such as California and Ohio, arrange the candidates' names randomly across ballots so that each possible permutation appears an equal number of times. This measure will allow candidates to be represented fairly and equally on ballots in the State.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2627 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Elefante, Awa). Excused, none.

SCRep. 2263 Labor and Technology on S.B. No. 3371

The purpose and intent of this measure is to:

- (1) Require the Department of Human Resources Development to:
 - (A) Submit an annual report to the Legislature on the telework policies of the Executive Branch; and
 - (B) Purchase and implement a pilot telework monitoring system to assess the productivity of telework employees and in-office employees within up to three state departments or portions of the departments; and
- (2) Appropriate funds to develop, implement, and administer the pilot telework monitoring system and to establish positions to perform various duties relating to telework, including the development and implementation of the pilot telework monitoring system, preparation of the annual report, and employee training.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that telework and alternative work schedules are innovative solutions that ensure workplace flexibility with many benefits for the employees, employers, and the public, including a better work-life balance, increased productivity, and possible cost-savings from reduced energy and office space use. Workplace flexibility can also be utilized as a tool to help employers recruit and retain the best and brightest employees. This measure will allow the Legislature to make informed decisions pertaining to the adoption and administration of telework in the public sector.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount for the development, implementation, and administration of the pilot telework monitoring system from \$3,000,000 to an unspecified amount;
- (2) Inserting an unspecified appropriation amount;
- (3) Inserting an unspecified number of positions to be established;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that although this measure, as amended, contains unspecified appropriation amounts and positions to be established, your Committee respectfully requests that your Committee on Ways and Means consider inserting the following appropriation amounts for fiscal year 2024-2025:

- (1) \$3,000,000 to develop, implement, and administer the pilot telework monitoring system; and
- (2) \$180,000 to establish two full-time equivalent (2.0 FTE) positions to perform various duties relating to telework, including the development and implementation of the pilot telework monitoring system, preparation of the annual report, and employee training.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3371, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2264 Labor and Technology on S.B. No. 2352

The purpose and intent of this measure is to repeal existing law that requires the Director of Human Resources Development to submit a report to the Legislature before reclassifying or abolishing vacant positions within state departments and agencies that are under its jurisdiction.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that there is currently a requirement within chapter 26-5, Hawaii Revised Statutes, for the Director of Human Resources Development to submit a report to the Legislature before reclassifying and abolishing vacant positions within state departments and agencies that are under the jurisdiction. Your Committee also finds that there are measures that have been introduced for legislative deliberation this regular session that require the Department of Human Resources Development or its Director to submit a more detailed report pertaining to vacancies, compared to what is required under existing law. This measure addresses the redundancy of having two annual reports covering the same issues.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2352, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2352, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2265 Labor and Technology on S.B. No. 2719

The purpose and intent of this measure is to appropriate funds to establish an unspecified number of positions within the Employee Classification and Compensation Division of the Department of Human Resources Development to perform employee classification duties.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that the Department of Human Resources Development is responsible for conducting job analyses and updating job descriptions for over one thousand four hundred existing civil service classes of work. Your Committee further finds, however, that the Department currently lacks sufficient personnel to perform these employee classification duties. This measure will enable the Department of Human Resources Development to perform these duties in a timely and efficient manner.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2719, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2719, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2266 Labor and Technology on S.B. No. 2553

The purpose and intent of this measure is to clarify the definition of “covered employer” in the Hawaii Retirement Savings Act and require covered employees to automatically enroll covered employees into the Hawaii Retirement Savings Program unless the employee chooses to opt out.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, AARP Hawai'i, Hawai'i Primary Care Association, Hawai'i Family Caregiver Coalition, and five individuals.

Your Committee received comments on this measure from the Retail Merchants of Hawaii.

Your Committee finds that there is an urgent need to provide a viable retirement savings plan to private sector employees who do not have access to employer-sponsored retirement plans. Your Committee also finds that automatic enrollment for workers into a retirement savings account; considered a “best practice” in the retirement savings industry, and all other states that have enacted a retirement savings program for private sector workers include the automatic enrollment provision where the employees can opt out. This measure will increase participation of private sector employees in retirement savings plans, while keeping enrollment voluntary through the opt-out provision, and bring retirement savings provisions in line with other states.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2553, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2553, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2267 Labor and Technology on S.B. No. 2449

The purpose and intent of this measure is to:

- (1) Require employers to initiate negotiations on repricing of classes within a bargaining unit within thirty days of its receipt of the exclusive representative's written request to negotiate; and
- (2) Establish that the employer's failure to initiate the negotiation within this time frame and the parties' failure to reach an agreement within ninety days of the exclusive representative's written request to negotiate, or by January 31 of the year in which the collective bargaining agreement is due to expire, whichever is earlier, constitute an impasse subject to the statutory impasse procedures.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO, and Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committee received testimony in opposition to this measure from the Department of Human Resources Development, Department of Corrections and Rehabilitation, and Maui County Department of Personnel Services.

Your Committee received comments on this measure from the Department of Budget and Finance, County of Kauai Department of Human Resources, and City and County of Honolulu Department of Human Resources.

Your Committee finds that public employees in the State are experiencing significant difficulties in hiring and retaining employees. Your Committee further finds that in the past twenty years since civil service reform, public employees have sought to reprice their classifications with very limited success. Employers can deny pricing requests and claim that upon their review, they have determined that all current position pricing is appropriate without providing the basis of their determination. This measure will ensure that public employees are being paid competitive and fair wages, thereby enabling the public sector to recruit and retain more employees.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2449, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2449, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Moriwaki). Noes, none. Excused, none.

SCRep. 2268 Labor and Technology on S.B. No. 2890

The purpose and intent of this measure is to:

- (1) Require the Office of Enterprise Technology Services to develop or license cloud-based software for use by each state department or agency to track the status of its capital improvement projects;
- (2) Require the Office of Enterprise Technology Services to provide training for the software; and
- (3) Require each department or agency to use the software to track the status of its capital improvement projects.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations Office of Community Services and the Office of Enterprise Technology Services.

Your Committee finds that currently there is no official statewide or standardized method for the State to track the status of its capital improvement project spending or progress. A tracking system of this nature would prove invaluable for a department or agency to track its capital improvement projects, especially if the agency has many projects ongoing simultaneously. This measure creates such a tracking system to be dispersed among State agencies and departments to ease the burden of manually tracking these expenditures.

Your Committee has amended this measure by:

- (1) Changing the administrative agency for the measure from the Office of Enterprise Technology to the Department of Accounting and General Services;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2890, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2890, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 2269 Labor and Technology on S.B. No. 2715

The purpose and intent of this measure is to make it unlawful for an employer to discharge, discipline, or otherwise penalize or threaten any adverse employment action against an employee because the employee declines to attend or participate in an employer-sponsored meeting that communicates the opinion of the employer about political matters, or declines to receive or listen to a communication from the employer that communicates the opinion of the employer about political matters.

Your Committee received testimony in support of this measure from the Hawaii State AFL-CIO, ILWU Local 142, IATSE Local 665, and seventy-two individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there is currently little to no legal protection for employees against “captive audience meetings” or meetings where employee attendance is mandatory or de facto mandatory as they may face repercussion for refusing to attend. Your Committee further finds that participation meetings to spread political views that have little to no relevance to the employee’s work duties or the workplace should be voluntary and there should be no penalty imposed should an employee decide not to attend. This measure protects workers from being penalized for refusing to attend such meetings.

Your Committee has amended this measure by:

- (1) Clarifying that the protection provided applies to all employees, including those who are not covered in the definition of “employee” under section 377-1, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2715, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2715, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 2270 Labor and Technology on S.B. No. 2673

The purpose and intent of this measure is to require that the authorized benefit for chiropractic treatments allowed under personal injury protection benefits provided through motor vehicle insurance be tied to the charges, and any subsequent increases in charges, permissible under the workers’ compensation supplemental medical fee schedule.

Your Committee received testimony in support of this measure from the Hawaii State Chiropractic Association, Turning Point Chiropractic, Chiro Management Group LLC, Tanaka and Associates Chiropractic & Massage, Aloha Family Chiropractic, Hawaii Chiropractic Clinic, Klein Natural Health and Wellness Center, and thirteen individuals.

Your Committee received testimony in opposition to this measure from American Property Casualty Insurance Association.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs’ Insurance Division, and Hawaii Insurers Council.

Your Committee finds that the existing motor vehicle insurance law limits the authorized personal injury protection benefit for chiropractic treatments to the lesser of thirty visits at no more than \$75 per visit or the treatments as defined by the Hawaii State Chiropractic Association guidelines. Your Committee further finds that the authorized benefits for acupuncture treatments were changed in 1997 to be tied to the charges, and any subsequent increases in charges, permissible under the workers’ compensation supplemental medical fee schedule. This measure aligns the authorized benefit for chiropractic care with that for acupuncture treatments and ensures equitable, fair, and accessible chiropractic care for individuals recovering from automobile accidents.

Your Committee notes the concerns raised in testimony regarding the impact of this measure may have on insurance premiums, as the existing limits on authorized benefits were enacted in 1997 to reduce insurance premiums. Removing this limit and pairing the authorized benefit with the worker's compensation supplemental medical fee schedule could cause the cost of treatments to raise dramatically, thereby increasing insurance rates. Your Committee finds that this issue merits further consideration and respectfully requests further examination by subsequent Committees as this measure progresses through the legislative process.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2075, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2673, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 2271 Labor and Technology on S.B. No. 3299

The purpose and intent of this measure is to:

- (1) Allow the public employer and exclusive representative to negotiate benefits of the Hawaii Employer-Union Health Benefits Trust Fund (EUTF); and
- (2) Allow the exclusive representative to fully utilize dispute resolution and impasse provisions under state law when negotiating the benefits and contributions to the EUTF.

Your Committee received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO; and Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committee received testimony in opposition to this measure from the Department of Budget and Finance.

Your Committee finds that the existing law does not have a dispute resolution mechanism to address the employee – employer share of monthly contributions to Medical premiums for EUTF plans. Your Committee finds that public employees who participate in EUTF plans pay on average forty percent of their total medical premiums, which can be as high as \$1,500 a month for family coverage. This can be detrimental to employees with lower salaries, who would benefit from the ability to negotiate these rates. This measure therefore allows public employees the ability to arbitrate and negotiate health care benefits with their employers, an ability not currently granted in Chapter 89, Hawaii Revised Statutes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3299, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2272 Labor and Technology on S.B. No. 2718

The purpose and intent of this measure is to allow the Hawaii Labor Relations Board to admit and consider hearsay evidence.

Your Committee received testimony in support of this measure from the Hawai'i Labor Relations Board and Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that under existing law, the Hawaii Labor Relations Board is prohibited from considering hearsay evidence. Therefore, it is precluded from considering all evidence presented in its deliberations and assigning the evidence the proper weight, which conflicts with the general principles that proceeding before administrative boards are more flexible and should not be strictly bound by the rules of evidence applicable to judicial proceedings. This measure allows the Hawaii Labor Relations Board to admit and consider hearsay evidence putting it in line with proceedings before other administrative boards and commissions.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2718, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2718, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2273 Labor and Technology on S.B. No. 2286

The purpose and intent of this measure is to:

- (1) Permit and appropriate moneys for the Department of Labor and Industrial Relations to enter into contracts with eligible employers or registered apprenticeship programs in the private sector to provide on-the-job training to eligible interns;
- (2) Require the State to be the responsible employer for purposes of workers' compensation coverage when a student or recent graduate performs paid or unpaid work for a private or public employer as part of a school-approved, work-based learning program; and
- (3) Specify that workers' compensation coverage for a recent graduate shall lapse on July 31 of the graduating year.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, Hawaii Food Industry Association, Kohala Coast Resort Association, Hawai'i Primary Care Association, HawaiiKidsCAN, Hawai'i Lodging Tourism Association, Hawai'i Farm Bureau, and Chamber of Commerce Hawaii.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that internships help students build their self confidence while acclimating to workplace culture and developing invaluable industry based skills. Your Committee further finds that the State is seeing a labor shortage in key markets including health care and the food industry, among others. This measure helps provide students and recent graduates with hands-on training making them more competitive in the workforce, growing job opportunities within the State, and by extension, growing the economy as well.

Your Committee notes the testimony of the Department of Education, requesting that public high school students who are at least sixteen years of age be allowed to participate in the on-the-job training work experience program, as internships are an integral part of the Department's educational program.

Accordingly, your Committee has amended this measure by:

- (1) Amending the eligibility criteria for the on-the-job training work experience program to include public high school students who are sixteen years of age or older;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2286, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2286, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Fevella).

SCRep. 2274 Labor and Technology on S.B. No. 2782

The purpose and intent of this measure is to address language barriers and ensure equitable access to information and assistance for all residents, especially those with limited English proficiency by requiring the Office of Enterprise Technology to develop multilingual accessibility standards in consultation with the Office of Language and Access.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services, Hawaii Friends of Civil Rights, Hawai'i Children's Action Network Speaks!, Pacific Gateway Center, Hawai'i Alliance for Progressive Action, Hawai'i Coalition for Immigrant Rights, Roots Reborn, Hawai'i Worker's Center, and five individuals.

Your Committee received comments on this measure from the Department of Human Services and Office of Language Access.

Your Committee finds that Hawaii is one of the most culturally diverse states and has one of the highest proportions of non-English speaking individuals in the nation. Your Committee further finds that according to the 2018-2022 American Community Survey, close to twenty-six percent of Hawaii's residents, (or approximately 350,000 individuals) speak a language other than English at home, of which 150,000 indicated that they speak English "less than very well". Your Committee further finds that lack of English proficiency can have a significant impact on a person's economic situation, social activities, and their access to health and wellness services. Your Committee also finds that the Lahaina community on the island of Maui, with approximately thirty-six percent of its residents five years and older speaking a language other than English at home, faced significant challenges in receiving timely and accurate information and assistance during the August 2023 wildfires due to a language barrier. This measure will allow more Hawaii residents to access education and employment opportunities, and important public assistance, benefits, programs, and services.

Your Committee notes that although this measure contains an unspecified appropriation amount and unspecified number of positions to be established, the Office of Enterprise Technology Services' testimony requests an appropriation of \$100,000 to establish one full-time equivalent (1.0 FTE) program manager position for the purposes of this measure. Therefore, your Committee respectfully requests that your Committee on Ways and Means consider inserting these numbers for fiscal year 2024-2025.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2782, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2782, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2275 Labor and Technology on S.B. No. 3152

The purpose and intent of this measure is to repeal the categorical exclusion of employees who receive guaranteed compensation totaling \$2,000 or more a month from the protections of Hawaii's Wage and Hour Law.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, Hawai'i Children's Action Network Speaks!, Democratic Party of Hawai'i Education Caucus, Hawai'i Workers Center, and one individual.

Your Committee finds that under the existing Hawaii Wage and Hour Law, the definition of "employee" excludes individuals who are employed at a guaranteed compensation totaling \$2,000 or more a month. These employees are not provided the protection of minimum or overtime wage rates, and their employers are not required to comply with the law's recordkeeping provisions, also designed to protect workers. Your Committee further finds that while minimum wage continues to be changed and adjusted, the guaranteed compensation exemption has not been correspondingly changed. The last time the guaranteed compensation level was changed was in 2002, whilst minimum wage has been adjusted nine times since, and as of today, a monthly compensation of \$2,100 is lower than the monthly wage of an employee earning the minimum wage of \$14.00 per hour. This measure will allow more employees to be eligible for minimum wage, overtime compensation, and recordkeeping requirements regardless of their guaranteed monthly compensation.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3152, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3152, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 2276 Labor and Technology on S.B. No. 2787

The purpose and intent of this measure is to establish the Immigration Services and Access Unit within the Department of Labor and Industrial Relations' Office of Community Services to support programs for Hawaii's immigrants and refugees.

Your Committee received testimony in support of this measure from the Department of Human Services, Office of Language Access, Office of Community Services, Hawai'i Children's Action Network Speaks!, Hawai'i Alliance for Progressive Action, Hawai'i Coalition for Immigrant Rights, Hawai'i Friends of Civil Rights, FilCom CARES, Hawai'i Workers Center, and three individuals.

Your Committee finds that immigrants comprise two hundred seventy thousand persons, or eighteen percent, of Hawaii's population, including 145,000 persons who are naturalized citizens. Your Committee also finds that immigrants are vital to the fabric of our communities and essential for the continued growth and success of the State's economy. Despite their contributions, immigrants often face numerous obstacles, including language barriers, legal issues related to their immigration status, and challenges with acculturation and integration. This measure will provide immigrants with the necessary comprehensive support services and resources to address these needs and promote immigrant economic self-sufficiency, community inclusion, and integration.

Your Committee notes that although this measure contains an unspecified appropriation amount and number of positions to be established, the Office of Community Services' testimony requests an appropriation of \$520,000 to establish three full-time equivalent (3.0 FTE) positions for the purposes of this measure. Therefore, your Committee respectfully requests that your Committee on Ways and Means consider inserting these numbers for fiscal year 2024-2025.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2787, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2787, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 2277 Labor and Technology on S.B. No. 3062

The purpose and intent of this measure is to make emergency appropriations for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining units (1) and (10), and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and United Public Workers AFSCME Local 646, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining units (1) and (10) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2024 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3062 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 2278 Labor and Technology on S.B. No. 3063

The purpose and intent of this measure is to make emergency appropriations for fiscal biennium 2023-2025 for collective bargaining cost items, salary increases, and other cost adjustments for public employees in collective bargaining units (2), (3), (4), (9), (13), and (14), and their excluded counterparts.

Your Committee received testimony in support of this measure from the Department of Budget and Finance; University of Hawai'i System; Hawaii Health Systems Corporation; and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the negotiations for collective bargaining agreements for bargaining units (2), (3), (4), (9), (13), and (14) are currently in progress. This measure provides a legislative vehicle that can be used if an agreement is reached or an arbitration award is issued prior to the end of the 2024 Regular Session.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3063 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

SCRep. 2279 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2880

The purpose and intent of this measure is to expand the existing state exemption for United States Department of Defense-certified providers to those operating off federal property.

Your Committees received testimony in support of this measure from the United States Department of Defense and Hawaii Military Affairs Council.

Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that military child care certification demonstrates a commitment to quality child care by the certified provider, and allows for an expedited registration process, thereby enhancing the quality of life and economic security of providers and child care-seeking families. The current exemption applies only to child care providers located on federal property. This measure will broaden the exemption beyond those providers located on federal property and will increase access to quality child care for both civilian and military families.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2880, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2880, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).
Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2280 Energy, Economic Development, and Tourism on S.B. No. 3059

The purpose and intent of this measure is to clarify the requirements to establish a quorum to do business and validate acts of the Stadium Authority.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and the Stadium Authority.

Your Committee finds that existing law relating to the Stadium Authority does not specify the requirements for establishing a quorum of the members or the number of votes necessary to adopt a measure. Your Committee further finds that the Stadium Authority has had issues in meeting the general quorum requirement set forth in section 92-15, Hawaii Revised Statutes, due to vacancies of Stadium Authority members. This measure provides the needed clarity to ensure the Stadium Authority can conduct its important business.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that voting members of the Stadium Authority shall elect the Chairperson;

- (2) Clarifying that a majority of the voting members currently serving on the Stadium Authority shall constitute a quorum and the concurrence of a majority of all voting members currently serving on the Stadium Authority shall be necessary to make any action valid; and
- (3) Inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3059, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3059, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2281 Energy, Economic Development, and Tourism on S.B. No. 3265

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Film Advisory Council;
- (2) Amend the Motion Picture, Digital Media, and Film Production Income Tax Credit to:
 - (A) Increase the annual cap to \$60,000,000;
 - (B) Extend the sunset date of the tax credit to January 1, 2039;
 - (C) Clarify the requirements for an independent third-party certification; and
 - (D) Expand the definition of “qualified production” to include streaming platforms;
- (3) Provide a tax exemption for certified development of film studio facilities; and
- (4) Make an appropriation for the establishment of one full-time equivalent (1.0 FTE) film industry development liaison within the Creative Industries Division of the Department of Business, Economic Development, and Tourism.

Your Committee received testimony in support of this measure from the University of Hawai‘i System, Honolulu Film Office, County of Hawai‘i Department of Research and Development, SAG-AFTRA Hawaii Local, IATSE Local 665, ‘Ohina NMG Network, Hawaii Media Inc., Hawaii State AFL-CIO, Hawai‘i Lodging & Tourism Association, Hawaii Teamsters Local 996, Kapolei Chamber of Commerce, and forty-three individuals.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism; Department of Taxation; Department of the Attorney General; Tax Foundation of Hawaii; and one individual.

Your Committee finds that the film industry in Hawaii is an important component of a diversified economy and that its financial impact can be strengthened significantly if existing incentives for the industry are improved. Your Committee further finds that the Motion Picture, Digital Media, and Film Production Income Tax Credit has had great success in increasing state revenues and gross domestic product since its enactment. This measure increases the total industry cap, updates antiquated language to better address the film industry’s current practices, extends the sunset date to give business certainty to project developers for long-term planning, and gives confidence to investors by addressing the critical barrier of infrastructure development.

Your Committee notes the numerous testifiers in support of the Native Hawaiian content provisions of this measure. Your Committee further notes, however, the concerns raised in the testimony from the Department of the Attorney General concerning the constitutionality of these provisions as they relate to racial classifications and potential violations of the United States Constitution’s Equal Protection Clause. Your Committee encourages testifiers in support of this measure to explore options with the Department of the Attorney General’s office in developing consensus language that would incorporate the desired Native Hawaiian content provisions within state and federal constitutional bounds that could be incorporated into future legislation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established a sub-committee of Native Hawaiian members within the Hawaii Film Advisory Council;
- (2) Deleting language that would have exempted qualified and certified productions meeting the requirements of Native Hawaiian content and staffing from the \$17,000,000 per project cap;
- (3) Deleting the definition of “Native Hawaiian content”;
- (4) Clarifying that the provisions establishing the general excise tax exemption for certified development of film studio facilities shall take effect on January 1, 2025; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3265, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3265, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2282 Energy, Economic Development, and Tourism on S.B. No. 3360

The purpose and intent of this measure is to:

- (1) Update the Renewable Fuels Production Tax Credit to incentivize locally grown, produced, generated, or collected renewable fuel;
- (2) Extend the credit period from ten to twenty consecutive years; and
- (3) Increase the total amount of tax credits allowed to \$80,000,000 in any calendar year.

Your Committee received testimony in support of this measure from Pacific Biodiesel Technologies, LLC; Par Hawaii, LLC; Pono Pacific Land Management, LLC; Hawai'i Farm Bureau; and Tigershark, LLC.

Your Committee received testimony in opposition to this measure from the Energy Justice Network and one individual.

Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, Hawaii State Energy Office, Hawaiian Airlines, Tax Foundation of Hawaii, Airlines for America, and Hawaii Bioeconomy Trade Organization.

Your Committee finds that in order for electric utility companies to meet the renewable portfolio standards by 2045 required by section 269-92(a), Hawaii Revised Statutes, an indispensable component of each electric utility company's renewable portfolio standard must include sufficient locally sourced firm, renewable energy sources to offset the intermittent nature of wind and solar-powered renewable energy. Your Committee further finds that to ensure sustainable inventories of locally sourced, firm renewable energy, long-term planning that includes incentives are essential for investment and development of locally sourced firm, renewable energy production. This measure expands the Renewable Fuels Production Tax Credit, which is a significant financial incentive for renewable fuel producers and contributes to achieving greater energy security for the State.

Your Committee has amended this measure by:

- (1) Changing the total tax credit amount of \$80,000,000 to an unspecified amount;
- (2) Changing the credit period from twenty consecutive years to an unspecified length of time;
- (3) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee respectfully requests that subsequent Committees who may choose to deliberate on this measure make recommendations as to the appropriate total amount of tax credits allowed and the time period within which the Renewable Fuels Production Tax Credit should be available.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3360, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3360, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2283 Energy, Economic Development, and Tourism on S.B. No. 3048

The purpose and intent of this measure is to establish the Digital Equity Grant Program to award grants to applicants to deploy digital equity projects to covered populations in the State.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Commerce and Consumer Affairs; State Council on Developmental Disabilities; Kapolei Chamber of Commerce; Broadband Hui; Vibrant Hawai'i; Chamber of Commerce Hawaii; IT Reuse Hawai'i; Hawaiian Telcom; and six individuals.

Your Committee finds that digital equity in every community across the State is essential to the well-being and economic realities of the State's residents. Your Committee further finds that the lack of digital equity has had a tremendously negative effect in many areas, but particularly rural and socio-economically disadvantaged communities. This measure will enable the Hawaii Broadband and Digital Equity Office to work with rural and underserved communities to identify and address barriers to digital equity and to establish a Digital Equity Grant Program so that individuals and communities in the State have the access and the ability to be full participants in the digital economy.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3048, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2284 Energy, Economic Development, and Tourism on S.B. No. 3364

The purpose and intent of this measure is to:

- (1) Amend the powers and duties of the Hawaii Tourism Authority;
- (2) Require the Hawaii Tourism Authority to develop Destination Management Action Plans for each county and to perform the actions specified in each Destination Management Action Plan;
- (3) Rename the Hawaii Tourism Authority's Tourism Marketing Plan as the Strategic Tourism Management Plan and amend the required components of the plan; and
- (4) Require the Strategic Tourism Management Plan to include statewide destination management and regenerative tourism efforts and programs.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority, Maui Hotel & Lodging Association, Kona-Kohala Chamber of Commerce, LahainaTown Action Committee, Council for Native Hawaiian Advancement, Association of Hawaiian Civic Clubs, Maui Chamber of Commerce, Hawai'i Lodging & Tourism Authority, and one individual.

Your Committee received testimony in opposition of this measure from one individual.

Your Committee finds that the State's approach to tourism needs greater management and coordination with private and public stakeholders. Your Committee further finds that the three-year, community-led Destination Management Action Plans that would be established in statute by this measure have been a key initiative through which communities across the State have articulated their needs, desires, and visions for tourism in their communities, on their terms. This measure amends the powers and duties of the Hawaii Tourism Authority, aligning statutory mandates for the Hawaii Tourism Authority with the work they have been doing to advance destination management and regenerative tourism.

Your Committee notes that the Hawaii Tourism Authority will be providing to the Committee a comparison of how much it costs to fund contractors for destination management under the Hawaii Tourism Authority's current contract with the Hawaii Visitors and Convention Bureau versus how much it will cost to fully fund these positions for destination management within the Hawaii Tourism Authority.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3364, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2285 Energy, Economic Development, and Tourism on S.B. No. 3010

The purpose and intent of this measure is to require the Department of Business, Economic Development, and Tourism to direct the Hawaii State Energy Office, and work with utility companies and other renewable energy developers, on all applicable planning, leasing, and permitting processes, to expedite the development of renewable energy resources.

Your Committee received testimony in support of this measure from Hawai'i Gas; Tigershark, LLC; and one individual.

Your Committee received comments on this measure from the Hawaii State Energy Office and Public Utilities Commission.

Your Committee finds that more streamlined processes for planning, leasing, and permitting in the renewable energy sector would promote the production of clean energy. Your Committee further finds that collaboration between the Hawaii State Energy Office; the Department of Business, Economic Development, and Tourism; utility companies; and renewable energy developers is beneficial to expediting the development of renewable energy resources and progressing towards the State's renewable energy goals.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3010, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3010, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2286 Energy, Economic Development, and Tourism on S.B. No. 3043

The purpose and intent of this measure is to clarify that the Small Business Regulatory Review Board has the authority to review legislation affecting small businesses in response to a request from small business owners.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Small Business Regulatory Review Board.

Your Committee finds that it is important that the purview of the Small Business Regulatory Review Board is clearly understood by the small business community, state and county agencies, Hawaii business chambers, and trade organizations. This measure clarifies that, in addition to reviewing any proposed new or amended rules, the Small Business Regulatory Review Board also has the authority to review legislation affecting small businesses.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3043, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3043, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2287 Energy, Economic Development, and Tourism on S.B. No. 3282

The purpose and intent of this measure is to:

- (1) Make the Hawaii State Energy Office a division of the Department of Business, Economic Development, and Tourism;
- (2) Rename the Chief Energy Officer as the Chief Energy Administrator;
- (3) Require the Hawaii State Energy Office to establish a State Energy Plan; and
- (4) Make an appropriation to the Hawaii State Energy Office.

Your Committee received testimony in support of this measure from Tigershark, LLC; and two individuals.

Your Committee received comments on this measure from the Hawaii State Energy Office.

Your Committee finds that in chapter 26, Hawaii Revised Statutes, the purview of the Department of Business, Economic Development, and Tourism (DBEDT) includes undertaking of energy development and management. Your Committee further finds that classifying the Hawaii State Energy Office as a division within DBEDT, rather than an attached agency, can promote expediency in implementation of renewable energy projects and implementation of a comprehensive State Energy Plan to progress towards the State's renewable energy goals. Further, requiring a Chief Energy Administrator to report directly to the Director of DBEDT will streamline efficiency and help centralize the State's energy policies.

Your Committee has amended this measure by:

- (1) Renaming the Hawaii State Energy Office as the Energy Division of the Department of Business, Economic Development, and Tourism; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3282, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3282, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

SCRep. 2288 Energy, Economic Development, and Tourism on S.B. No. 3194

The purpose and intent of this measure is to authorize independent generators of renewable energy to wheel the renewable electricity they produce to users of renewable energy under administrative rules established by the Public Utilities Commission.

Your Committee received testimony in support of this measure from the Blue Planet Foundation; Hawaii Solar Energy Association, Inc.; Tawhiri Power, LLC; Tigershark, LLC; and one individual.

Your Committee received testimony in opposition to this measure from Kaua'i Island Utility Cooperative.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; Ulupono Initiative, LLC; and Hawaiian Electric.

Your Committee finds that to achieve the State's renewable energy and resilience goals, the State needs a diverse portfolio of renewable energy assets from a variety of sources and at a variety of scales. Your Committee further finds that through retail wheeling, users of renewable energy, including affordable housing developments, the State, and the counties, could acquire clean electricity by purchasing and transmitting it from a clean electricity project developer. This measure authorizes retail wheeling and will support the State in adopting mechanisms to increase competition in local electricity markets, expand customer utility choice, and provide pathways for renewable energy innovation and generation.

Your Committee has amended this measure by:

- (1) Delaying the date by which the Public Utilities Commission shall have established policies and procedures to implement retail wheeling, from 2024 to 2025;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3194, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2289 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2512

The purpose and intent of this measure is to establish a reporting requirement for the transfer of public moneys by the Governor, pursuant to the Governor's emergency powers.

Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that, in the event of a declared disaster, it is necessary for the Governor to assume certain emergency powers. These powers are necessary for the State to act to address situations affecting the life, safety, and well-being of the public. However, your Committee believes that it is imperative for the Governor to act with transparency. This measure will ensure that the Governor's actions remain transparent during a declared disaster.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2512, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2290 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2781

The purpose and intent of this measure is to appropriate funds to establish the position of a Limited English Proficiency Language Coordinator within the Hawaii Emergency Management Agency.

Your Committee received testimony in support of this measure from the State Health Planning and Development Agency, Hawai'i Friends of Civil Rights, Pacific Gateway Center, Waipahu Safe Haven Immigrant/Migrant Resource Center, Hawai'i Coalition for Immigrant Rights, FilCom CARES, Kaibigan ng Lahaina, The Legal Clinic, Language Services Hawaii, Tagnawa, Hawai'i Alliance of Pacific Islanders, and six individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Emergency Management Agency.

Your Committee received comments on this measure from the Department of Human Services and Office of Language Access.

Your Committee finds that in the aftermath of a disaster, many limited English proficient persons encounter barriers to obtaining relief when applying for state or county programs, including financial, medical, housing, and food assistance programs. Your Committee further finds that in the immediate aftermath of the August 8, 2023, Maui wildfires, language interpreters and sign language interpreters were not present at the shelters, nor was any provision made to assist individuals through remote interpretation. This measure will ensure that limited English populations can access disaster relief information, aid, and relief through an established Limited English Language Access Coordinator within the Hawaii Emergency Management Agency.

Your Committee has amended this measure by inserting an effective date of January 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2781, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2781, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2291 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2924

The purpose and intent of this measure is to authorize the issuance of general obligation bonds and appropriate funds for planning, design, and construction for a warehouse to expand the Hawaii Emergency Management Agency's ability to store and deploy supplies and equipment to all counties within the State.

Your Committee received testimony in support of this measure from the Hawai'i Emergency Management Agency and Hawaii Food Industry Association.

Your Committee finds that it is vitally important for the State always to be prepared for a natural or human-caused disaster or emergency and to be able to respond in an effective, timely manner. Your Committee further finds that providing the Hawaii Emergency Management Agency with the ability to store and deploy life-saving supplies and equipment to all counties within the State in the event of a natural or human-caused disaster or emergency on one or more of the Hawaiian islands is crucial to ensure the continued safety and security of the State's residents. This measure will ensure the Hawaii Emergency Management Agency has the resources to plan, design, and construct a warehouse to store emergency supplies in each county.

Your Committee has amended this measure by inserting an effective date of January 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2924, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2924, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2292 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3072

The purpose and intent of this measure is to:

- (1) Temporarily lift various restrictions on the use of funds for Hawaii wildfire response; and
- (2) Extend the lapse date of certain funds set aside for this purpose.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Hawai'i Emergency Management Agency.

Your Committee finds that the State is in the midst of ongoing response efforts to address the heartbreaking aftermath of the August 8, 2023, wildfires in the counties of Hawaii and Maui, which caused extensive loss of life and damage. Your Committee further finds that while hundreds of millions of dollars have been appropriated in response to the fires, current law requiring lapsed funds to return to the general fund could interrupt critical recovery efforts and services due to a lack of available funds until another legislative appropriation is made. This measure will facilitate the continued uninterrupted provision of assistance to wildfire victims and ongoing wildfire recovery efforts.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3072, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3072, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2293 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3198

The purpose and intent of this measure is to appropriate funds for civilian auxiliary aviation services performed by the civil air patrol.

Your Committee received testimony in support of this measure from the Civil Air Patrol.

Your Committee finds that the civil air patrol is a nonprofit organization and an auxiliary of the United States Air Force, and its missions include emergency services, aerospace education, and cadet programs. Your Committee further finds that the civil air patrol emergency response and recovery activities have included search and rescue efforts, damage assessments, aerial photography of impacted areas, alerts and notifications, and the transportation of supplies. This measure will ensure the continuation of the Civil Air Patrol's operations during times of emergency by ensuring appropriate operation funds.

Your Committee has amended this measure by:

- (1) Adding language that provides that bylaw or policy requirements shall not apply to any incorporated agency or instrumentality of the United States wholly owned by the United States or by a corporation wholly owned by the United States;
- (2) Adding language that requires that beginning in fiscal year 2025-2026, funds required to be appropriated to carry on the operations and defray the expenses of the Hawaii Wing, Civil Air Patrol, be included in the Department of Defense's annual budget request; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3198, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3198, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2294 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3041

The purpose and intent of this measure is to clarify membership and certain powers and duties of the Law Enforcement Standards Board and establish new deadlines for the completion of Board responsibilities.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Department of Law Enforcement.

Your Committee received testimony in opposition to this measure from the State of Hawaii Organization of Police Officers; ACLU of Hawai'i; and Policing Project, New York University School of Law.

Your Committee finds that the Law Enforcement Standards Board is responsible for establishing minimum standards for employment as a law enforcement officer, certifying persons qualified as law enforcement officers, and establishing minimum criminal justice curriculum requirements for basic, specialized, and in-service courses and programs for the training of law enforcement officers. Your Committee further finds that expanding and then explicitly authorizing the Law Enforcement Standards Board to study and evaluate curriculums, collective bargaining, employment laws, rules, and agreements will allow the Board to establish standards, certifications, and training requirements in a purposeful and intentional manner. This measure will result in better standards, certifications, and training requirements for law enforcement officers and thereby increase public confidence in law enforcement and improve public safety.

Your Committee has amended this measure by:

- (1) Deleting language that would have provided an exemption to a person who entered into employment with the applicable county police department or state department before July 1, 2026, and termination of employment would violate any valid collective bargaining agreement; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3041, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3041, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2295 Judiciary on S.B. No. 2395

The purpose and intent of this measure is to:

- (1) Require the Judiciary to establish a pilot program that implements compliance credits to reduce terms of probation for probationers who meet their terms of supervision; and
- (2) Appropriate funds for the pilot program.

Your Committee received testimony in support of this measure from the Office of the Public Defender, ACLU of Hawai'i, Community Alliance on Prisons, and Opportunity Youth Action Hawai'i.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that a 2014 study by the Council on State Governments Justice Center found that in the State, ninety-five percent of felony probationers receive supervision terms of five years or more. Out of the felony probationers receiving terms of more than three years, sixty percent are identified as having a low risk of reoffending. Your Committee believes that focusing resources during the initial period of supervision, when an individual is most likely to commit new crimes or violate their conditions of supervision, is an effective practice that maximizes the likelihood of recidivism reduction. Additionally, shortening the length of time spent actively supervising low- and medium-risk probationers and parolees who have complied with their conditions of supervision will allow resources to be focused on individuals who are more likely to reoffend. This measure will preserve scarce resources by reducing unnecessary and unproductive costs associated with probation without diminishing public safety.

Your Committee has amended this measure by:

- (1) Instituting a deadline of October 1, 2024, by which the Judiciary is to establish the four-year Compliance Credits Pilot Program;
- (2) Allowing the Judiciary to start the Pilot Program in one circuit;
- (3) Requiring the Judiciary to expand the Pilot Program to all circuits by October 1, 2026;
- (4) Requiring the Judiciary to collect data on the Pilot Program participants and outcomes of the Pilot Program;
- (5) Requiring the Criminal Justice Research Institute to analyze the data and compare the Pilot Program to other avenues for probationers to seek early termination of their probation;
- (6) Requiring the Judiciary to submit an interim report to the Legislature no later than forty days prior to the convening of the Regular Session of 2027;
- (7) Requiring the Judiciary to submit its final report to the Legislature no later than forty days prior to the convening of the Regular Session of 2029;
- (8) Inserting an appropriation amount of \$300,000; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2395, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2296 (Majority) Judiciary on S.B. No. 2392

The purpose and intent of this measure is to:

- (1) Specify that election ballots issued by the Chief Election Officer or county clerk shall exclude any candidate who is disqualified by:
 - (A) Section 3 of the Fourteenth Amendment to the Constitution of the United States;
 - (B) Article XVI, section 3, of the Hawaii State Constitution; or
 - (C) Another constitutional or statutory provision;
- (2) Provide for a process for challenging a candidate's inclusion or exclusion on a ballot issued by the Chief Election Officer or a county clerk;
- (3) Include the grounds referenced in paragraph (1) as grounds for a complaint regarding an election contest;
- (4) Specify that electors of presidential and vice presidential candidates shall not be individuals who are disqualified by grounds referenced in paragraph (1), and provide for contests of nominations of individuals disqualified based upon those grounds; and
- (5) Prohibit electors of presidential and vice presidential candidates from voting for any presidential or vice presidential nominee who has been disqualified pursuant to section 3 of the Fourteenth Amendment to the Constitution of the United States, as determined by any federal court, or as determined by the Supreme Court in an election contest.

Your Committee received testimony in support of this measure from the Democratic Party of Hawai'i, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawai'i, and ten individuals.

Your Committee received testimony in opposition to this measure from the Hawaii Republican Party, Hawaii Federation of Republican Women, and more than three hundred thirty individuals.

Your Committee received comments on this measure from the Department of the Attorney General, The Judiciary, and League of Women Voters of Hawaii.

Your Committee finds that citizens of the State have the right to expect that public servants be people of integrity, and not people who have committed actions that threaten democracy or undermine the vote of the people. This measure will ensure that public servants meet the requirements of the United States Constitution, Hawaii State Constitution, and other requirements set forth in statute.

Your Committee has amended this measure by:

- (1) Clarifying that electors of presidential and vice presidential candidates are prohibited from voting for any presidential or vice presidential nominee who has been disqualified pursuant to section 3 of the Fourteenth Amendment to the Constitution of the United States; article XVI, section 3, of the Hawaii State Constitution; or another constitutional or statutory provision as determined by a federal court or the Supreme Court;
- (2) Requiring that any challenge to the inclusion or exclusion of any candidate on a ballot issued by the Chief Election Officer or clerk that is not filed pursuant to section 12-8, Hawaii Revised Statutes, be filed with the Supreme Court, rather than in district court;
- (3) Changing references to "district court" to "supreme court";
- (4) Deleting language that would have allowed any order entered by the district court to be reviewed and adjudicated by the Supreme Court under certain circumstances;
- (5) Deleting language that would have allowed the Supreme Court to decline reviewing an order;
- (6) Clarifying that a complaint filed in the Supreme Court for a contest for cause is required to set forth any cause or causes, including:
 - (A) Provable fraud, overages, or underages, that could cause a difference in election results; or
 - (B) A candidate's disqualification pursuant to section 3 of the Fourteenth Amendment to the Constitution of the United States; article XVI, section 3, of the Hawaii State Constitution; or another constitutional or statutory provision;
- (7) Clarifying that a complaint filed for a contest for cause shall be dismissed if the complaint is based on facts or substantially similar facts that could have previously been raised and the action failed;
- (8) Amending section 1 to reflect its amended purpose; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2392, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (San Buenaventura). Noes, 2 (Gabbard, Awa). Excused, none.

SCRep. 2297 Judiciary on S.B. No. 3008

The purpose and intent of this measure is to propose amendments to the Constitution of the State of Hawaii to expressly provide that the Legislature may authorize political subdivisions, such as counties, to issue tax increment bonds, and to exclude tax increment bonds in calculating the debt limit of the political subdivisions.

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development; Hawai'i Interagency Council for Transit-Oriented Development; Stadium Authority; Office of Housing of the City and County of Honolulu; one member of the Honolulu City Council; NAIOP Hawaii; Stanford Carr Development, LLC; and Move Oahu Forward.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that tax increment financing has been widely used in other states to capture the increased property values in dense, mixed-use transit-oriented development. However, while tax increment bonds are authorized under chapter 46, Hawaii Revised Statutes, counties have been reluctant to use tax increment bonds as a financing tool because of uncertainty in the allowance of its use under the Hawaii State Constitution. This measure will clarify the allowance of tax increment bonds as a financing tool by political subdivisions, such as counties.

Your Committee has amended this measure by amending the definition of the term "tax increment bonds" to clarify that the bonds are payable from and secured solely by the amount of real property taxes levied and collected by a political subdivision on the difference between the assessed value of the taxable real property located within a tax increment district in a given year and the assessed value of the taxable real property in the tax increment district during the year the tax increment district was created.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3008, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3008, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2298 Judiciary on S.B. No. 2638

The purpose and intent of this measure is to:

- (1) Require boards to make available for public inspection board packets, if created, at the time the board packet is distributed to the board members but no later than two business days before the meeting; and
- (2) Establish an exception by allowing public testimony to be distributed to board members within two business days before the meeting.

Your Committee received testimony in support of this measure from the Public First Law Center; Society of Professional Journalists, Hawaii Chapter; and one individual.

Your Committee received comments on this measure from the University of Hawai'i System and Office of Information Practices.

Your Committee finds that existing law requires a board packet, or materials compiled and distributed to board members before their use at the meeting, to be distributed at least forty-eight hours prior to the meeting and be made available to the public at that same time. However, since written public testimony is among the materials compiled and distributed to board members for their use at a meeting, which usually comes within the last day or two before a meeting, boards have been required to use work-arounds such as waiting to distribute the testimony until the meeting itself to avoid violating the forty-eight hour requirement. This measure will provide clarity and assist boards in distributing written public testimony to their members in time for those members to read it before a meeting.

Your Committee has amended this measure by:

- (1) Adding language that requires a board to include in a notification sent to a person requesting the notification of meetings a list of the documents that were compiled by the board and distributed to the board members before a meeting for use at that meeting; and
- (2) Adding language that requires a board to post the board packet on its website.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2638, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2638, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2299 Commerce and Consumer Protection on S.B. No. 2227

The purpose and intent of this measure is to authorize the Governor to suspend the mortgage foreclosure provisions of chapter 667, Hawaii Revised Statutes (HRS), for any property having substantial damage resulting from a disaster for which a state of emergency has been declared by the Governor.

Your Committee received testimony in support of this measure from Lahaina Strong; Democratic Party of Hawai'i; UNITE HERE Local 5; one member of the Honolulu City Council; two members of the Maui County Council; one member of the Kaua'i County Council; Hawaii Financial Services, LLC; and fifty-eight individuals.

Your Committee received comments on this measure from the Hawaii Bankers Association.

Your Committee finds that disasters, man-made or natural, can have devastating economic impacts on communities and financially-fragile families. Property owners are often faced with unprecedented financial challenges, such as the loss of employment or income or the need to rebuild or repair their property, while still being required to make payments on their mortgage. Your Committee finds that pursuant to chapter 127A, HRS, certain emergency powers are conferred on the Governor to provide relief for disaster damages, losses, and suffering, and to protect the health, safety, and welfare of the people of Hawaii. However, your Committee also finds that the emergency management law does not currently provide the Governor with the express authority to suspend the mortgage foreclosure provisions of chapter 667, HRS. Therefore, this measure amends the emergency management law to allow the Governor to provide much-needed foreclosure protections for a period of up to thirty-six months for property owners that are impacted by an emergency event or disaster.

Notwithstanding, your Committee notes the concerns expressed by the Hawaii Bankers Association that suspending mortgage foreclosures for up to thirty-six months could negatively impact a bank's overall stability and elevate risk, which in turn would tighten credit markets and hurt consumers who need access to capital after an emergency. Your Committee finds that this issue raises concerns that merit further discussion and respectfully requests that subsequent Committees to which this measure is referred consider this issue.

Therefore, your Committee has amended this measure by:

- (1) Changing the proposed maximum mortgage foreclosure suspension period from thirty-six months to an unspecified time period;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2227, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2300 Commerce and Consumer Protection on S.B. No. 2762

The purpose and intent of this measure is to prohibit, for any county having a population greater than 120,000 but less than 180,000, a landlord from renting or leasing, or offering to rent or lease, a dwelling unit at a rate that exceeds the rate for which that dwelling unit was rented or leased or offered for rent or lease on the measure's effective date, to be repealed on December 31, 2025.

Your Committee received testimony in support of this measure from Lahaina Strong; the Democratic Party of Hawai'i, UNITE HERE Local 5; Hawaii Financial Services, LLC; and seventy-one individuals.

Your Committee received testimony in opposition to this measure from the Hawaii Young Republicans and two individuals.

Your Committee received comments on this measure from the Department of the Attorney General, Hawai'i Association of REALTORS, and Grassroot Institute of Hawaii.

Your Committee finds that establishing rent ceilings, or the maximum amount of rent a landlord is allowed to charge a tenant, for a limited duration can help provide stability, affordability, and expedient relief for renters in crisis, such as renters that are experiencing a housing shortage as a result of a natural disaster. Therefore, this measure establishes a rent ceiling for certain counties, to be set at the rate at which that dwelling unit was rented or leased or offered for rent or lease on the measure's effective date, to be repealed on December 31, 2025.

Notwithstanding, your Committee has heard the concerns raised in the Department of the Attorney General's testimony that this measure may be susceptible to certain constitutional challenges and that the use of session law as a vehicle for the prohibition on rent increases, as opposed to incorporating the provisions in statute, may create notice issues for the measure. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting legislative findings;
- (2) Deleting language that would have set forth the prohibition on rent increases in session law and inserting language that would codify the prohibition as a new section under chapter 521, Hawaii Revised Statutes, relating to the Residential Landlord-Tenant Code;
- (3) Inserting certain conditional exceptions to the proposed prohibition on rent increases;
- (4) Requiring the rent rate ceiling to be established by appropriate county council resolution, rather than the rate for which the dwelling unit was rented or leased, or was offered for rent or lease, on the measure's effective date;
- (5) Extending the measure's proposed repeal date from December 31, 2025 to July 1, 2029;
- (6) Inserting an effective date of July 1, 2030, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2762, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2762, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2301 Water and Land on S.B. No. 3156

The purpose and intent of this measure is to repeal the sunset provision of Act 222, Session Laws of Hawaii 2021, to allow the Board of Land and Natural Resources to approve rent credits for demolition and infrastructure costs for public land leases beyond its current sunset date of June 30, 2026.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee finds that Act 222, Session Laws of Hawaii 2021 (Act 222), authorizes the Board of Land and Natural Resources to reduce or waive rent payments over a fixed period specified in the lease contract for public land in exchange for demolition of existing unusable improvements or installation of new basic infrastructure, including drainage, sewer, water, or electrical utilities by the lessee. Act 222 also provides the Department of Land and Natural Resources with flexibility in its negotiations with lessees and allows the Department to incentivize development on public lands. However, Act 222 will sunset on June 30, 2026. This measure will allow the Department of Land and Natural Resources to retain its authority to negotiate long-term leases pursuant to commercially reasonable standards, while providing rent credit incentives.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3156, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2302 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3155

The purpose and intent of this measure is to:

- (1) Abolish the Task Force on Beach and Water Safety and the Risk Assessment Working Group; and
- (2) Require the design and placement of warning signs, devices, and system to be approved by the Chairperson of the Board of Land and Natural Resources for state beach parks and the county mayors for county beach parks.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from one individual.

Your Committees find that the Task Force on Beach and Water Safety and the Risk Assessment Working Group were established in 1996 and 2003, respectively, to advise the Chairperson of the Board of Land and Natural Resources regarding the design and placement of warning signs, devices, or systems at public beach parks and improved public lands. Since their establishment, virtually all managed public beaches, parks, and trails have been examined and the requisite warning signs are in place and state and county staff are charged with ensuring the legibility and maintenance of the signage. The two groups have not assembled for more than fifteen years and are no longer necessary to effectuate proper warnings of dangers at public beach parks and improved public lands. This measure will eliminate bureaucracy and an unfunded mandate to manage and assemble groups that have not and may not need to meet for years at a time but still maintain the liability protection for the government.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3155 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 5; Ayes with Reservations (McKelvey). Noes, none. Excused, none.
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2303 (Joint) Commerce and Consumer Protection and Housing on S.B. No. 2026

The purpose and intent of this measure is to require the Director of Finance to consider, before the selection of a depository for the state treasury, the beneficial effects to the State of using depositories within the State, including but not limited to lending at favorable terms for the creation of certain affordable housing units.

Your Committees received testimony in support of this measure from two individuals.

Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Budget and Finance, and Hawaii Bankers Association.

Your Committees find that the moneys collected by the State are held in trust for the benefit of the public and thus decisions related to where and how to invest the public treasury concern matters of public policy. Your Committees further find that the Director of Finance is granted the discretion to invest the public treasury with certain depositories, subject to the approval of the Governor and certain statutory requirements. Your Committees find that because the State is experiencing a housing crisis, depositories that have issued loans with favorable terms to housing developers for the benefit of residents of Hawaii are considered to have benefitted the State. Therefore, this measure will require the Director of Finance to consider the amount of loans with favorable terms that a

depository has issued to developers of housing for Hawaii residents when evaluating the beneficial effects to the State of using that depository, in addition to the existing requirements to consider factors such as safety, liquidity, and yield offered on deposits.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2030, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2026, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2026, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

Housing: Ayes, 4. Noes, none. Excused, 1 (Aquino).

SCRep. 2304 (Joint) Public Safety and Intergovernmental and Military Affairs and Health and Human Services on S.B. No. 2305

The purpose and intent of this measure is to appropriate funds to establish a Silver Alert Program within the Department of Law Enforcement to help locate and safeguard missing persons who are sixty-five years of age or older, cognitively impaired, or developmentally disabled.

Your Committees received testimony in support of this measure from the Department of Human Services; Department of Law Enforcement; Executive Office on Aging; Hawaii State Council on Developmental Disabilities; Kokua Council; United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Public Health Institute; Hawai'i Public Health Association; Hawai'i Primary Care Association; Hawaii Disability Rights Center; Hawaii Family Caregiver Coalition; Alzheimer's Association; Hawai'i Parkinson Association; Hawaii Alliance for Retired Americans; Catholic Charities Hawai'i; UNITE HERE! Local 5; AARP Hawai'i; Hawaii Government Employees Association, AFSME Local 152, AFL-CIO; Association of Hawaiian Civic Clubs; Pono Consulting; Papa Ola Lokahi; and nineteen individuals.

Your Committees find that more than half of states nationwide have established silver alert programs that help identify missing individuals with cognitive impairments, developmental disabilities, or the elderly. Your Committees further find that the State must protect vulnerable kupuna and persons with cognitive impairments or developmental disabilities who are missing. This measure will provide immediate information to the public, facilitate a prompt response, and enhance the chances of locating an individual with a developmental disability, cognitive impairment, or who is sixty-five years of age or older.

Your Committees have amended this measure by:

- (1) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2305, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2305, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

SCRep. 2305 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2162

The purpose and intent of this measure is to require the Department of Land and Natural Resources to pursue and obtain accreditation for the Conservation and Resources Enforcement Program from the Commission on Accreditation for Law Enforcement Agencies, Inc.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Kua'āina Ulu 'Auamo, and two individuals.

Your Committees find that the Conservation and Resources Enforcement Program of the Department of Land and Natural Resources requires proper training, equipment, and organizational support to succeed in preserving the public peace and safety. To this end, the Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources established its own academy to better train law enforcement officers. Prior to 2021, the Conservation and Resources Enforcement Program was required to seek and obtain accreditation from the Commission on Accreditation for Law Enforcement Agencies, Inc., in the use of electric guns, but Act 183, Session Laws of Hawaii 2021, inadvertently repealed that requirement. This measure will enable the Conservation and Resources Enforcement Program to succeed in its mission by restoring this requirement.

Your Committees have amended this measure by:

- (1) Removing appropriation-related language as this measure does not require an appropriation;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2162, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2162, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2306 Hawaiian Affairs on S.B. No. 2594

The purpose and intent of this measure is to allow any qualified successor of a beneficiary who died before receiving a lease to file a claim for a lease award within four years of the effective date of this measure.

Your Committee received testimony in support of this measure from four individuals.

Your Committee received comments on this measure from the Department of Hawaiian Home Lands.

Your Committee finds that, as recently as 2022, there were more than twenty-eight thousand native Hawaiian beneficiaries on the homestead lease waitlist. When beneficiaries on the waitlist pass away prior to receiving a lease award, the beneficiary often loses the ability to have their heirs inherit a lease. Your Committee also finds that many successors to deceased beneficiaries are not of fifty percent Hawaiian blood quantum and therefore are not qualified for a lease award. This measure will allow successors of at least twenty-five percent blood quantum to file a claim with the Department of Hawaiian Home Lands for lease awards so that the heirs of deceased beneficiaries may succeed to a lease within four years of the effective date of this measure.

Your Committee has amended this measure by:

- (1) Specifying that this measure shall be known as the “Fred Keakaokalani Cachola Act”;
- (2) Specifying that undivided interest lease awards may be posthumously granted to qualified successors by the Department of Hawaiian Home Land at the sole discretion of the Hawaiian Homes Commission;
- (3) Specifying that qualified successors shall be of at least twenty-five percent blood quantum;
- (4) Providing the Department of Hawaiian Home Lands with two years to adopt rules to implement this measure;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making it effective upon either the date that congressional approval is deemed necessary or the date of consent by the United States Congress; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2594, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2307 (Joint) Hawaiian Affairs and Energy, Economic Development, and Tourism on S.B. No. 2650

The purpose and intent of this measure is to appropriate moneys for the continued exploration and identification of geothermal resources on Hawaiian Home Lands.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Hawaii State Energy Office; Hawaiian Electric; Sustainable Energy Hawai‘i; Ulupono Initiative; Ho‘omana Pono, LLC; Tigershark, LLC; and seven individuals.

Your Committees received testimony in opposition to this measure from four individuals.

Your Committees find that geothermal resources can provide stable power and community benefits, while also being a viable alternative to biofuels. Furthermore, there may be geothermal resources present on Hawaiian Home Lands. This measure will appropriate funds for the Department of Hawaiian Home Lands to gather more information and to investigate suspected hot spots of geothermal activity.

Your Committees have amended this measure by:

- (1) Inserting an unspecified appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that the original appropriation amount of \$6,000,000 is the approximate amount required for the Department of Hawaiian Home Lands to continue exploration and identification of geothermal resources on Hawaiian Home Lands. Your Committees also note the concerns that exploration and identification of geothermal resources will damage Native Hawaiian cultural sites and burial sites, and that the requisite infrastructure and regulatory safeguards are not yet in place to ensure the safety of affected communities. Your Committees respectfully request that these issues be considered by subsequent committees should they choose to deliberate on this measure as it progresses through the legislative process.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2650, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2650, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Richards).

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2308 (Joint/Majority) Hawaiian Affairs and Water and Land on S.B. No. 2653

The purpose and intent of this measure is to authorize the Department of Hawaiian Home Lands to assume historic preservation review of any proposed project for lands under its jurisdiction, except for projects affecting properties listed or nominated for inclusion in the Hawaii Register of Historic Places or the National Register of Historic Places.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Department of Hawaiian Home Lands; Ho'omana Pono, LLC; one member of the Maui Lanai Islands Burial Council; and three individuals.

Your Committees received testimony in opposition to this measure from the Historic Hawai'i Foundation, Society for Hawaiian Archaeology, and four individuals.

Your Committees received comments on this measure from the Office of Hawaiian Affairs and one individual.

Your Committees find that section 6E-8, Hawaii Revised Statutes, plays a critical role in the protection of management of the State's historic properties and burial sites. Section 6E-8(b), Hawaii Revised Statutes, requires the Department of Hawaiian Home Lands, prior to any proposed project relating to lands under its jurisdiction, to consult with the Department of Land and Natural Resources regarding the effect of the project upon historic property or a burial site. This measure will eliminate the need for the Department of Hawaiian Home Lands to consult with the State Historic Preservation Division regarding proposed projects on Department of Hawaiian Home Lands lands, which will expedite the work that the Department of Hawaiian Home Lands does for beneficiaries on its waitlist.

Your Committees have amended this measure by:

- (1) Adding language that requires the Department of Hawaiian Home Lands to acquire adequate resources and processes to conduct reviews pursuant to this measure;
- (2) Adding language that requires the Department of Hawaiian Home Lands to consult with the Office of Hawaiian Affairs when reviewing projects on sites that are significant under criteria "e"; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees encourage the Department of Hawaiian Home Lands to promulgate a process for historic reviews similar to that of the State Historic Preservation Division. Your Committees further note concerns that the Department of Hawaiian Home Lands does not have qualified staff, subject matter expertise, or the appropriate administrative framework to review and make final determinations regarding proposed projects on lands under its jurisdiction. Your Committees also note the concerns raised by Keomailani Hanapi Hirata, suggesting that the Department of Hawaiian Home Lands fails to properly observe Native Hawaiian culture in its efforts to fulfill its mission.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2653, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2653, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Hawaiian Affairs: Ayes, 3; Ayes with Reservations (Ihara). Noes, none. Excused, 2 (Richards, Fevella).

Water and Land: Ayes, 2. Noes, 1 (Fevella). Excused, 2 (Chang, McKelvey).

SCRep. 2309 (Joint) Housing and Government Operations on S.B. No. 2028

The purpose and intent of this measure is to consolidate the Hawaii Housing Finance and Development Corporation, Hawaii Community Development Authority, Hawaii Public Housing Authority, and Office of Planning and Sustainable Development into a new Department of Housing.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Budget and Finance, Hawaii Public Housing Authority, and the Hawai'i Community Development Authority.

Your Committees find that Hawaii is currently undergoing a housing crisis and that there are multiple state agencies responsible for housing. The existence of multiple separate agencies creates redundancies and bureaucracies that hinder the work of solving Hawaii's housing crisis. The Department of Housing established by this measure could bring several advantages, such as centralized, streamlined coordination between government agencies, prioritization of sustainable and resilient housing solutions, and the creation of comprehensive plans that are unique to Hawaii, and aligned with the State's goals.

Your Committees have heard the concerns raised in testimony that the federal government requires that the State's public housing authority's governing body be legally and financially responsible for the public housing authority's performance. Your Committees note that the agencies affected by this measure would continue to be administratively attached agencies within the newly established Department of Housing. Your Committees also note that Article V, Section 6 of the Hawaii State Constitution limits the number of

principal departments to twenty, of which there are currently nineteen. This measure would therefore create the twentieth and final department of the State.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2028, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2028, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2310 Housing on S.B. No. 2077

The purpose and intent of this measure is to establish an Interim Construction Subaccount within the Dwelling Unit Revolving Fund to be used for the interim financing of new construction projects under section 201H-43, Hawaii Revised Statutes, prioritizing projects located on state-or county-owned lands in counties with a population of less than five hundred thousand; provided that, for units in for-sale projects, the units shall be made available only to Hawaii residents who are owner-occupants and own no other real property.

Your Committee received testimony in support of this measure from one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committee finds that Hawaii is in the middle of a housing crisis. This crisis is accentuated by the State's current economic environment, high inflation, and high interest rates, making construction considerably more expensive. This measure establishes a dedicated source of funds to prioritize housing projects to benefit local residents of the State.

Your Committee has amended this measure by:

- (1) Replacing the phrase "exclusively for Hawaii residents who own no other real property" with "qualified residents" as defined in section 201H-32, Hawaii Revised Statutes;
- (2) Deleting the restriction to counties with a population of fewer than five hundred thousand;
- (3) Authorizing the Director of Finance to issue general obligation bonds in the sum of \$30,000,000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2077, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2077, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2311 (Joint) Housing and Government Operations on S.B. No. 2038

The purpose and intent of this measure is to:

- (1) Require the Hawaii Housing Finance and Development Corporation (HHFDC) to employ an Executive Director to be nominated by the Governor, subject to the advice and consent of the Senate;
- (2) Transfer the duties and powers of the Board of Directors of HHFDC to the Executive Director; and
- (3) Require the Board to advise the Executive Director.

Your Committees received testimony in opposition to this measure from two members of the Board of Directors of the Hawaii Housing Finance and Development Corporation and one individual.

Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that Hawaii is experiencing a severe housing shortage. HHFDC is the agency tasked with developing and constructing affordable housing projects across the State, but it has fallen short of meeting the State's housing needs. This measure consolidates the HHFDC's Board of Directors' combined decision-making abilities under a single Executive Director, with the Board acting in an advisory capacity, to streamline the decision-making process within HHFDC.

Your Committees note the concerns raised in testimony that this measure has the potential to weaken neighbor island representation with regard to the HHFDC Board of Directors and whether this measure limits these representatives' abilities to advocate for housing within their represented communities, given the restructuring of the Board pursuant to this measure. Your Committees believe these issues merit further consideration from future committees who may choose to deliberate on this measure as it advances through the legislative process.

Your Committees additionally note that, in contrast to testimony offered by HHFDC, HHFDC has failed to produce a plan to end Hawaii's housing shortage; has recently approved a 2023 Qualified Allocation Plan that continues to finance (with taxpayer funds) the production of temporarily affordable housing owned by private, for profit entities; has not conducted annual evaluations of its Executive Director; has not spent approximately \$40 million in taxpayer funds currently in the Dwelling Unit Revolving Fund; and has

no plan to house the approximately fifteen thousand families who live in affordable housing whose affordability restrictions are scheduled to expire between now and 2100. Your Committees note, however, that HHFDC's communication with the Legislature has improved over the past year, and your Committees hope these efforts will soon bear fruit.

Your Committees have amended this measure by:

- (1) Clarifying that, notwithstanding any law to the contrary, HHFDC shall employ an Executive Director who shall be nominated and, by and with the advice and consent of the Senate, appointed by the Governor without regard to chapter 76, Hawaii Revised Statutes, and who shall serve at the pleasure of the Governor; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Housing and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2038, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2038, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Wakai).

SCRep. 2312 Housing on S.B. No. 2344

The purpose and intent of this measure is to:

- (1) Authorize the issuance of general obligation bonds to the Hawaii Public Housing Authority for the development and construction of permanent supportive housing for certain vulnerable individuals; and
- (2) Require the Hawaii Housing Finance and Development Corporation to consider any available federal low-income housing tax credits needed for construction of permanent supportive housing units.

Your Committee received testimony in support of this measure from Hawaii Public Housing Authority, Catholic Charities Hawai'i, Hawai'i State Youth Commission, Democratic Party of Hawai'i, Partners in Care, and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Human Services, Hawaii Housing Finance and Development Corporation, and Hawaii Substance Abuse Coalition.

Your Committee finds that Hawaii currently has a large homeless population, many of whom are chronically homeless. Lack of a supportive housing system impacts the ability for these individuals to live independently, and once housed, fifty to seventy percent of chronically homeless individuals seek treatment and show a willingness to improve their quality of life. This measure establishes a supportive housing program to give these individuals a chance at recovery.

Your Committee has heard the concerns raised by the Hawaii Housing Finance and Development Corporation with regard to this measure's lack of a permanent source of funding to pay for long-term on-site supportive services and building maintenance over the life of the facility. Your Committee finds that these issues and concerns merit further consideration and requests that future Committees further examine these issues and concerns as this measure advances through the legislative process.

Your Committee has amended this measure by:

- (1) Clarifying that the purpose of this measure is to authorize the issuance of general obligation bonds and appropriate bond proceeds to the Hawaii Public Housing Authority to begin the development and construction with a qualified developer or operator of permanent supporting housing units, or both; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2344, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2344, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2313 Housing on S.B. No. 3202

The purpose and intent of this measure is to:

- (1) Allow for the development of a minimum of four homes per lot in the state urban land use district;
- (2) Allow for approval for subdivisions of parcels with a minimum lot size of one thousand two hundred square feet in the state urban land use district; and
- (3) Amend the calculation of impact fees for certain developments.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Land Use Commission, County of Hawai'i Planning Department, Housing Hawai'i's Future, Holomua Collaborative, Hawaii Appleseed Center for Law and Economic Justice, Naiop Hawaii, Hawai'i Gas, Church of the Crossroads, Grassroot Institute of Hawaii, AIO, Build Better Live Better, Title Guaranty Hawaii, Tori Richard, AARP Hawai'i, Hawai'i Zoning Atlas, Hawai'i YIMBY, Hawai'i Housing Affordability Coalition, Affordable Housing Connections LLC, Mana Up, and eight individuals.

Your Committee received testimony in opposition to this measure from Hawaii's Thousand Friends.

Your Committee received comments on this measure from the Department of the Attorney General and Hawai'i Association of REALTORS.

Your Committee finds that Hawaii is currently undergoing a housing crisis. One considerable factor for the high costs of housing in the State is the requirement that each single-family home shall have at least five thousand square feet of land. This significantly increases the cost of building a home and incentivizes the creation of much larger homes, many of which only wealthy families can afford. This measure promotes higher density, compact development, and the efficient use of the State's limited lands that are suitable for residential development to help the State address its housing shortfall and reduce the pressure to convert agricultural and conservation lands to urban uses. This measure will further bring Hawaii into conformity with zoning and planning principles of other jurisdictions throughout the country that have successfully built workforce housing.

Your Committee has amended this measure by:

- (1) Specifying that the new section in chapter 46, Hawaii Revised Statutes, be added to Part I of the chapter;
- (2) Specifying that the new section in chapter 205, Hawaii Revised Statutes, be added to Part I of the chapter;
- (3) Clarifying that, notwithstanding any other law, county ordinance, or rule to the contrary, the director of the county agency responsible for land use shall give final approval for any application for subdivision, consolidation, or resubdivision of parcels within the state urban land use district, subject to certain conditions; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3202, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2314 (Joint) Housing and Hawaiian Affairs on S.B. No. 3110

The purpose and intent of this measure is to add the Chairperson of the Hawaiian Homes Commission, or the Chairperson's designee, to the Board of Directors of the Hawaii Housing Finance and Development Corporation (HHFDC) as an ex officio nonvoting member.

Your Committees received testimony in support of this measure from the Department of Hawaiian Homelands; Ho'omana Pono, LLC; and two individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Hawaii Housing Finance and Development Corporation.

Your Committees find that Native Hawaiians suffer from longstanding socioeconomic hardships that include the lack of affordable housing. Your Committees also find that HHFDC is tasked with developing and financing low- and moderate- income housing projects and administering homeownership programs within the State. This measure will promote collaborative engagement and direct communication between HHFDC and the Hawaiian Homes Commission.

Your Committees have heard the concerns raised by the HHFDC regarding quorum and note that since the Chairperson of the Hawaiian Homes Commission is being added as an ex officio nonvoting member, quorum should remain at five voting members. Your Committees also note that the Chairperson of the Hawaiian Homes Commission has fiduciary duties to trust beneficiaries and therefore your Committees are concerned as to what responsibilities the Chairperson would have, if any, to disclose any potential conflicts of interest, should a matter concerning the Hawaiian Homes Commission Trust come before the HHFDC Board of Directors. Your Committees ask that future committees to which the measure is referred consider this concern as this measure moves forward in the legislative process.

As affirmed by the records of votes of the members of your Committees on Housing and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3110 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Housing: Ayes, 5. Noes, none. Excused, none.

Hawaiian Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2315 Water and Land on S.B. No. 2810

The purpose and intent of this measure is to appropriate funds to the Division of Forestry and Wildlife of the Department of Land and Natural Resources for the management of Pololu Valley, including various improvements necessary for conservation and protection.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawai'i Tourism Authority.

Your Committee finds that Pololu Valley, which is situated on the northern coast of the island of Hawaii, attracts numerous tourists and other visitors on account of its unparalleled natural beauty, lush landscapes, diverse flora and fauna, and cultural significance to Native Hawaiians. The area's lack of convenient restrooms and visitor education center have contributed to safety and litter issues that

harm Pololu Valley. This measure will help to safeguard and prevent the decline of Pololu Valley and ensure that future generations may enjoy it.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2810, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2810, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2316 Water and Land on S.B. No. 2978

The purpose and intent of this measure is to:

- (1) Establish an income tax credit to incentivize the voluntary relinquishment of private water systems;
- (2) Direct the Attorney General to initiate eminent domain proceedings to acquire privately-owned water systems in certain areas; and
- (3) Appropriate moneys to the Department of the Attorney General to fund eminent domain proceedings to acquire private water systems.

Your Committee received testimony in support of this measure from one individual.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, Department of Agriculture, and Hawai'i Farm Bureau.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that only twenty-five percent of water resources in the County of Maui are provided by the county, while seventy-five percent of water resources are provided by private operators. This measure will return water to the public by incentivizing the voluntary relinquishment of private water systems and by directing the Attorney General to commence eminent domain proceedings to acquire water systems in certain counties.

Your Committee has amended this measure by:

- (1) Adding language specifying that any water systems relinquished or condemned pursuant to this measure shall be owned, operated, and maintained by the respective county in which the subject system is located;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2978, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2978, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2317 Water and Land on S.B. No. 3050

The purpose and intent of this measure is to clarify that upon request, the Hawaii Community Development Authority may render services to and assist state and county agencies with projects within or outside of designated community development districts.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Department of Land and Natural Resources; Hawai'i Community Development Authority; and one individual.

Your Committee finds that the Hawaii Community Development Authority is the State's redevelopment agency that is responsible for community renewal by promoting and coordinating public and private sector development. The Hawaii Community Development Authority's expertise in master planning communities, infrastructure development and improvement, and project management would be indispensable to state and county agencies working on projects within and outside of designated community development districts. This measure will benefit the public, improve conditions for residents of Hawaii, and enhance collaborative work involving the Hawaii Community Development Authority and other state agencies.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3050, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2318 Water and Land on S.B. No. 3054

The purpose and intent of this measure is to replace the Director of Law Enforcement with the Director of Corrections and Rehabilitation as a member of the Hawaii Interagency Council for Transit-Oriented Development (Council).

Your Committee received testimony in support of this measure from the Office of Planning and Sustainable Development and the Department of Business, Economic Development, and Tourism.

Your Committee finds that when Act 278, Session Laws of Hawaii 2022, reorganized the Department of Public Safety, section 226-64(a), Hawaii Revised Statutes, was amended to replace the Director of Public Safety with the Director of Law Enforcement as a member of the Council. As the Council advises on state facilities in transit-oriented development areas, the Director of Corrections and Rehabilitation, who has administrative responsibilities for correctional and rehabilitation facilities statewide, is the more appropriate director to serve on the Council. This measure will ensure that the Department of Corrections and Rehabilitation remains involved in transit-oriented development planning and implementation statewide.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3054, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3054, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2319 Water and Land on S.B. No. 3153

The purpose and intent of this measure is to:

- (1) Establish a special fund to receive funds for the Dam and Appurtenance Improvement or Removal Grant Program; and
- (2) Appropriate funds for the Dam and Appurtenance Improvement or Removal Grant Program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Agribusiness Development Corporation, Land Use Research Foundation of Hawaii, Hawai'i Farm Bureau, and Hawaii Crop Improvement Association.

Your Committee finds that many private dam owners do not have the resources to conduct the necessary repairs or removal of their dams, resulting in dams remaining unsafe and continuing to pose a risk to the downstream public in the event of a dam failure. It is in the public's best interest for the Legislature to provide financial assistance to private dam owners because dams provide the public with numerous benefits. Act 134, Session Laws of Hawaii 2023, established and appropriated \$10,000,000 for a Dam and Appurtenance Improvement or Removal Grant Program to financially assist owners of private dams and appurtenances with maintenance. However, the Department of Land and Natural Resources anticipates that the funds will lapse before it can establish its grant application rules process, returning the funds to the general fund. This measure will resolve this issue by creating a special fund dedicated to the Dam and Appurtenance Improvement or Removal Grant Program.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the positions for the Dam and Appurtenance Improvement or Removal Program must be recurring for the Department of Land and Natural Resources to have the staffing resources necessary to administer the program.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3153, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2320 Water and Land on S.B. No. 3154

The purpose and intent of this measure is to clarify that failure to comply with approved mitigation commitments, conduct an archaeological inventory survey, or comply with other administrative requirements pertaining to archaeology approved by the Department of Land and Natural Resources shall result in civil and administrative violations.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and Historic Hawai'i Foundation.

Your Committee finds that it is difficult for the State Historic Preservation Division of the Department of Land and Natural Resources to determine if a historic property or burial site is affected, damaged, or destroyed because of a failure to comply with administrative provisions as statute does not clearly provide any penalties for noncompliance with administrative requirements. This measure will provide the State Historic Preservation Division with more flexibility in regulating archaeological activities in the State and protecting historic properties and burial sites.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3154, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3154, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2321 Water and Land on S.B. No. 3158

The purpose and intent of this measure is to require that lease extensions approved by the Board and Land and Natural Resources update the lease terms and conditions to reflect the most current standard lease form terms and conditions and ensure that in a conflict or inconsistency between an updated lease term or condition authorized under chapter 171, Hawaii Revised Statutes, and a term or condition of the lease being extended, the updated lease term or condition authorized under chapter 171, Hawaii Revised Statutes, shall control.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that the Board of Land and Natural Resource's inability to update lease terms and conditions not only deprives the public of a fair return for the use of public lands, but also could lead to additional liability against the State and significant public health and safety issues such as when structures beyond their useful life are left on public lands at the end of a lease. This measure will help to alleviate health and safety concerns, increase departmental revenue, and mitigate against future liability issues by allowing the Board of Land and Natural Resources to update lease terms and conditions upon extension of the lease.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Department of Land and Natural Resources shall not be required to impose current lease terms and conditions for lease extensions until this measure is enacted.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3158, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3158, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2322 Water and Land on S.B. No. 3160

The purpose and intent of this measure is to establish a statutory framework for inspections of public land leases, licenses, and revocable permits by the Department of Land and Natural Resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and one individual.

Your Committee finds that under chapter 171, Hawaii Revised Statutes, and the various land dispositions approved by the Board of Land and Natural Resources, the Department of Land and Natural Resources (Department) has the authority to periodically inspect the premises under lease, license, or revocable permit. However, the Department land agents are typically not architects, engineers, or licensed contractors and may not be qualified to identify components of existing structures on the premises in need of repair or replacement. The House Investigative Committee, established under House Resolution No. 164 of the 2021 Regular Session, recommended that the Department require lessees to pay for third-party inspectors selected by the Department to conduct physical inspections of the leased property every five years. If the third-party inspector finds any defaults with the lease terms, the lessee shall be required to take any corrective actions recommended by the inspector. This measure will conserve the Department's limited funds by avoiding situations where a lease, license, or revocable permit expires or is terminated with dilapidated improvements on it.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3160, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2323 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2842

The purpose and intent of this measure is to establish the Wildfire Safety Advisory Board within the Department of Land and Natural Resources to advise and make recommendations to state agencies concerning the State's wildfire safety and prevention efforts.

Your Committees received testimony in support of this measure from the Honolulu Fire Department, State Fire Council, Democratic Party of Hawai'i, and one individual.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Land and Natural Resources, Office of Planning and Sustainable Development, and Public Utilities Commission.

Your Committees find that the State recognizes the increasing threat of wildfires to its communities, natural resources, and economy and that the State is committed to proactively addressing this growing challenge through comprehensive and collaborative growth. This measure will address the State's wildfire preparedness by establishing the Wildfire Mitigation Working Group to advise and make recommendations to state agencies concerning the State's wildfire safety and prevention efforts.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting language that:
 - (A) Establishes a Wildfire Mitigation Working Group to develop a State Wildfire Mitigation Plan and to advise and make recommendations to state agencies concerning the State's wildfire safety and prevention efforts, to be dissolved on December 31, 2026; and
 - (B) Makes an appropriation; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2842, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2842, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2324 Water and Land on S.B. No. 2035

The purpose and intent of this measure is to reform the decision-making process of the Land Use Commission.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii.

Your Committee received testimony in opposition to this measure from the Land Use Commission, Office of Hawaiian Affairs, and Hawaii's Thousand Friends.

Your Committee finds that delays in permitting and approvals substantially increase the time and cost to build new housing, leading to uncertainty and expense that disincentivizes development. Your Committee further finds that the State's average delay in the permit and approval process is three times the length of the national mean. This measure will expedite the permit and approval process and help address the State's excessive permit and approval times.

Your Committee has amended this measure by:

- (1) Retaining statutory language requiring the Land Use Commission to hear a petition within one hundred eighty days of its proper filing and to render a decision on a petition within three hundred sixty-five days of its proper filing;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2035, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2035, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2325 Water and Land on S.B. No. 2153

The purpose and intent of this measure is to:

- (1) Repeal requirements for lessees to seek approval for lease extensions from the Board of Land and Natural Resources; and
- (2) Require the Department of Land and Resources to utilize the current tax assessed value for lease extensions.

Your Committee received testimony in support of this measure from one member of Hawai'i County Council, Hawaiian Electric, and McCully Works.

Your Committee received testimony in opposition to this measure from the Department of Land and Natural Resources, League of Women Voters of Hawaii, and UNITE HERE Local 5.

Your Committee finds that the State has a fiduciary duty to manage state lands in the best interests of the public by enhancing state revenues and promoting the social, environmental, and economic well-being of Hawaii's people. As the majority landowner in east Hawaii, the State has an enormous influence on the vision, economic development, and overall success of the east Hawaii community. However, under existing laws, many public land lessees are subject to the Board of Land and Natural Resources' lengthy approval processes for lease extensions and renegotiations, small maintenance projects, and major renovations. Your Committee also finds that lessees improve their lands and revitalize the areas in which their lands are located. This measure will incentivize lessees to continue doing so by streamlining the lease extension process.

Your Committee has amended this measure by:

- (1) Clarifying that the Board of Land and Natural Resources shall retain oversight over lease extension applications;
- (2) Clarifying that the Board of Land and Natural Resources may only eliminate any restrictions specified in section 171-36(a), Hawaii Revised Statutes;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2153, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Elefante, McKelvey, Fevella). Noes, none. Excused, none.

SCRep. 2326 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 2165

The purpose and intent of this measure is to appropriate funds to the State Historic Preservation Division of the Department of Land and Natural Resources to inventory historic properties and burial sites located in the State and conduct relevant archaeological surveys necessary to compile the inventory.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources; Historic Hawai'i Foundation; Ho'omana Pono, LLC; Society for Hawaiian Archaeology; and six individuals.

Your Committees received comments on this measure from one individual.

Your Committees find that comprehensive statewide inventories of historic properties and burial sites are critical to managing these properties and sites in Hawaii, but the State Historic Preservation Division of the Department of Land and Natural Resources does not receive sufficient funding to create and maintain comprehensive, accurate inventories. The absence of comprehensive statewide inventories delays project planning since developers, planners, and state and county agencies lack vital information regarding the locations of historic properties and burial sites, thereby delaying projects or impacting their planning processes. This measure will expedite development projects by appropriating funds to the Department of Land and Natural Resources to inventory historic properties and burial sites in the State, collect data on burial site locations, and conduct an archaeological surface survey.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2165, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2165, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, McKelvey).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2327 Water and Land on S.B. No. 2167

The purpose and intent of this measure is to appropriate additional operational funds to the Department of Land and Natural Resources for the protection, management, and restoration of the State's natural resources.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawaii Reef and Ocean Coalition; Climate Protectors Hawaii; Kingdom Pathways; Care for 'Aina Now Coalition; Hawai'i Forest Industry Association; Surfrider Foundation, Maui Chapter; Hyperspective Studios, Inc.; and fourteen individuals.

Your Committee finds that Hawaii's natural resources are the State's lifeblood, providing the essentials for the community to thrive and the foundation for Hawaii's economy. Investments in the protection of natural resources, including wetlands and coral reefs, can enhance the resilience of communities to natural disasters as natural buffers, saving lives and reducing the financial burden. This measure will allow the State to take a proactive approach to save lives, prevent natural disasters such as wildfires, and mitigate costs due to disaster response and recovery efforts.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2167, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2328 (Joint) Water and Land and Hawaiian Affairs on S.B. No. 2295

The purpose and intent of this measure is to establish an inter-division program within the Department of Land and Natural Resources consisting of the State Historic Preservation Division, Land Division, Office of Conservation and Preservation Division, Office of Conservation of Coastal Lands, Island Burial Councils, and Office of Hawaiian Affairs to address:

- (1) The location of Hawaiian burial sites; and
- (2) The safe movement and restoration of iwi that are exposed or likely to be exposed due to coastal erosion.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, Society for Hawaiian Archaeology, and five individuals.

Your Committees received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that climate change in the form of coastal erosion due to sea level rise poses a significant threat to Hawaiian burial sites and iwi interred therein. Action must be taken to protect iwi that are exposed or likely to be exposed to coastal erosion before they are lost to the elements. Your Committees further find that these burial sites and iwi are of vital importance to Hawaiian culture, serving as ancestral links to the past. This measure will provide the resources and coordination to effectively and proactively protect Hawaiian burial sites and iwi that are threatened by coastal erosion and climate change.

Your Committees have amended this measure by:

- (1) Changing the reference of “container” to “hana‘i” in the legislative findings;
- (2) Adding Aha Moku to the groups that shall develop the inter-division;
- (3) Inserting language clarifying that lineal or cultural descendants must approve of the relocation of iwi;
- (4) Removing language that would have required the inter-division to develop policies and procedures to protect iwi and burial sites that have not been relocated or that have been relocated;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2295, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2295, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, McKelvey).

Hawaiian Affairs: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2329 Water and Land on S.B. No. 2546

The purpose and intent of this measure is to require hunting guides to:

- (1) Obtain written permission from the owners of private lands before taking their clients to hunt on the private land; and
- (2) Submit a copy of the written permission to the Department of Land and Natural Resources as part of their annual reports.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai‘i Farm Bureau; Hawaii Cattleman’s Council, Inc.; and one individual.

Your Committee finds that some hunting guides take their clients to hunt on private lands without obtaining permission from landowners, leading concerned landowners to report sightings of unknown persons walking on their land with guns or other weapons. Existing law prohibits hunters from hunting on private lands without first obtaining permission from the owner, but some hunting guides misrepresent to their clients that they have obtained verbal permission from the landowner, leading to disagreements and allegations of trespassing, which damages the reputation of the State’s guided hunting tour industry. This measure will alleviate the concerns of landowners by holding hunting tour guides accountable.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2546, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2546, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2330 Water and Land on S.B. No. 2759

The purpose and intent of this measure is to prohibit the State from leasing any public lands, or extending the lease of any public lands, to any individual, corporation, or federal agency that is not in good standing with the State or that has not met all financial, contractual, and legal obligations.

Your Committee received testimony in support of this measure from the Native Hawaiian Legal Corporation, Sierra Club of Hawai‘i, and Hawai‘i Peace and Justice.

Your Committee received testimony in opposition to this measure from the Hawaii Military Affairs Council and Hawaii Harbors Users Group.

Your Committee received comments on this measure from the Department of Land and Natural Resources, Department of Transportation, and one individual.

Your Committee finds that most landlords require their tenants to be in good standing, especially before renewing a lease. This includes ensuring that the tenant has met all financial, contractual, and legal obligations. Your Committee also finds that, as a landlord, the State should ensure that all of its lessees meet these obligations, whether the lessees are private individuals, corporations, or the federal government. Furthermore, the State should exercise its right to terminate a lease when a lessee engages in criminal activity on the property. This measure will ensure that lands leased by the State is in good hands by prohibiting the State from leasing land to tenants that do not fulfill their legal obligations.

Your Committee has amended this measure by:

- (1) Specifying that the lease restrictions shall also encompass certain state land excepted in section 171-72, Hawaii Revised Statutes;
- (2) Deleting language that would have reimbursed money to the State for the increased cost of consumer goods in Hawaii pursuant to title 46 United States Code sections 861-889, in an amount determined by the Office of the Governor;
- (3) Exempting leases and dispositions made by the Department of Transportation from this measure;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2759, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2759, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (McKelvey). Noes, none. Excused, none.

SCRep. 2331 Water and Land on S.B. No. 2835

The purpose and intent of this measure is to amend the definition of "historic property" to include buildings and structures that are registered on the Hawaii Register of Historic places, objects, districts, areas, or sites that predate August 21, 1959.

Your Committee received testimony in support of this measure from NAIOP Hawaii, Hawai'i Association of REALTORS, and Hawai'i YIMBY.

Your Committee received testimony in opposition to this measure from the Historic Hawai'i Foundation and Society for Hawaiian Archaeology.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that currently, the backlog of historic reviews is encumbering permits throughout the State. Reviews by the State Historic Preservation Division of the Department of Land and Natural Resources are significantly slowing down the permitting process and adding costs and delays to a substantial number of projects. Consequently, much needed housing, economic development, and critical infrastructure projects often face significant delays in permit approvals and project implementation, which result in decreased economic and construction activity and the delivery of housing units. This measure will address delays in the development of affordable housing and critical infrastructure in the State due to the significant backlog of much-needed projects awaiting review by the State Historic Preservation Division.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2835, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2835, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2332 Education on S.B. No. 2937

The purpose and intent of this measure is to repeal the sunset date for the exemption of laboratory school programs of the College of Hawaiian Language at the University of Hawaii at Hilo from state English-medium standards, assessments, performance ratings, staff qualifications, and staff training requirements.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning; University of Hawai'i System; Ke Kula 'O Nāwahīokalani'ōpu'u Iki Lab Public Charter School; Hawai'i Children's Action Network Speaks!; 'Aha Pūnana Leo, Inc.; Kūpuna for the Mo'opuna; and twenty-four individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Act 315, Session Laws of Hawaii 1997, established Ka Haka 'Ula O Ke'elikōlani, the College of Hawaiian Language, at the University of Hawaii at Hilo. Since its inception, Ka Haka 'Ula O Ke'elikōlani now includes four kindergarten through grade twelve public charter schools and 'Aha Pūnana Leo's Hawaiian language medium preschools. As a leader in the establishment of professional development for Hawaiian language medium school teachers, including training in proficiency of

Hawaiian language, pedagogy, assessment, family engagement, and curriculum, Ka Haka 'Ula O Ke'elikōlani was designated as the inaugural National Native American Language Resource Center to continue its critical work, in partnership with 'Aha Pūnana Leo, of developing standards, curriculum, teacher training, and assessments for Hawaiian language medium education and Native American Language communities nationwide. This measure ensures the continuity of ongoing work by Ka Haka 'Ula O Ke'elikōlani while ensuring affiliated teachers and staff are appropriately educated, trained, assessed, and reviewed accordingly.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2937 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2333 Education on S.B. No. 3305

The purpose and intent of this measure is to require all public charter schools that offer prekindergarten programs exclusively to adhere to the provisions of chapter 302D, Hawaii Revised Statutes, with certain exceptions.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, State Public Charter School Commission, and Hawai'i Children's Action Network Speaks!.

Your Committee finds that the demand for high quality prekindergarten programs is outpacing available enrollment in existing programs. In 2023, the State established the Ready Keiki Initiative, led by the Office of the Lieutenant Governor, to prioritize the expansion and accessibility of prekindergarten programs to provide affordable programs for Hawaii's youngest keiki. This measure continues the mandate established by the Ready Keiki Initiative while ensuring effective operations at the State's public prekindergarten charter schools.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3305 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2334 Education on S.B. No. 2476

The purpose and intent of this measure is to authorize licensed dental hygienists to perform preventative dental sealant screenings and apply dental sealants on individuals, under certain conditions, in a Department of Education school-based oral health program.

Your Committee received testimony in support of this measure from the Department of Education, Board of Dentistry, University of Hawai'i System, Department of Health, Hawai'i Children's Action Network Speaks!, Hawaii Dental Hygienists' Association, Hawaii Dental Service, Hawai'i Oral Health Coalition, AlohaCare, Hawaii Dental Association, and forty-two individuals.

Your Committee finds that dental sealants applied to chewing surfaces of molars are the most effective preventative strategy for tooth decay. In the 2022-2023 school year, the Seal Away Decay program provided oral screenings to more than two thousand second grade students in sixty-eight schools on Oahu, Maui, and Kauai. Of the screened students, sixty percent received sealants and sixty-five students were referred to a dentist for urgent care. Additionally, the Hawaii Keiki: Healthy and Ready to Learn Program, a partnership between the Department of Education and the Nancy Atmospera-Walch School of Nursing at the University of Hawaii at Manoa, places school nurses and health technicians throughout public schools to coordinate dental health services, including screenings and preventative sealant clinics. Your Committee further finds that providing dental sealants through school-based oral health programs is a cost-effective strategy to reach low-income children, who are at a higher risk of developing tooth decay. Therefore, this measure takes a proactive approach to childhood tooth decay by expanding and improving access to oral health care for Hawaii's keiki.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2476 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2335 Judiciary on S.B. No. 2556

The purpose and intent of this measure is to permanently establish and appropriate moneys for the Community Outreach Court as a division of the District Court of the First Circuit.

Your Committee received testimony in support of this measure from the Judiciary, Department of Law Enforcement, Statewide Office on Homelessness and Housing Solutions, Office of the Public Defender, Hawai'i Health and Harm Reduction Center, ACLU of Hawai'i, and National Alliance on Mental Illness Hawaii.

Your Committee received comments on this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that many homeless persons who receive citations for nonviolent crimes are unable to attend court or have misplaced their paperwork due to the transient and unstable nature of homelessness, which leaves the courts no option but to issue a bench warrant. Bench warrants can be traumatic for the defendant and expends law enforcement officers' time and resources. To help address this, the Judiciary, Office of the Public Defender, and Department of the Prosecuting Attorney of the City and County of Honolulu established a Community Outreach Court project to make court appearances more accessible to homeless persons. Since its

inception, the program has addressed more than ten thousand cases, recalled more than nine hundred bench warrants, lifted more than six thousand driver license stoppers, and assisted more than six hundred participants with social services or referrals. This program removes some of the many barriers that homeless people face when trying to secure basic necessities such as employment, income assistance, and housing.

Your Committee has amended this measure by:

- (1) Clarifying that the Community Outreach Court shall foster cooperation between the prosecuting attorney and the public defender, not a defense attorney, to resolve cases;
- (2) Deleting language that would have required the Supreme Court to adopt rules regarding the administration, operation, and procedures of the Community Outreach Court; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2556, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2556, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2336 Housing on S.B. No. 2563

The purpose and intent of this measure is to:

- (1) Require the Hawaii Public Housing Authority (HPHA) to allow any resident of a public housing project or state low-income housing project to keep one or more pet animals in the resident's unit, subject to applicable state laws, county ordinances, and any reasonable conditions;
- (2) Provide that HPHA may charge a refundable deposit for each pet animal but shall not impose a monthly pet fee or pet rent; and
- (3) Allow HPHA to remove a vicious animal to protect persons or property.

Your Committee received testimony in support of this measure from Pōpoki Place O'ahu Cat Sanctuary, Hawaiian Humane Society, Human Animal Support Services, Humane Society of the United States, Animal Interfaith Alliance, Aloha Kitty TNR, and eleven individuals.

Your Committee received comments on this measure from the Hawaii Public Housing Authority.

Your Committee finds that the State currently has a large homeless population. A major reason a portion of the homeless population does not seek to utilize state public housing is the restriction regarding pets. Many of these individuals cared for their animals during trying times in their lives, and the separation from or the surrender of their pets poses too much of a challenge or mental strain, thereby discouraging the use of housing programs. This measure adjusts the current restrictions and allows pets within public housing, pursuant to certain restrictions that are less strenuous than the current requirements.

Your Committee has amended this measure by:

- (1) Inserting a general fund appropriation in an unspecified amount to establish two full-time equivalent (2.0 FTE) positions to enforce the pet policy established by this measure and to maintain state public housing statewide; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2563, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2337 (Majority) Housing on S.B. No. 3120

The purpose and intent of this measure is to:

- (1) Establish, exempt from chapter 76, Hawaii Revised Statutes, the position of a Housing Policy and Program Coordinator in the Hawaii Public Housing Authority, whose salary shall be set by the Executive Director of the Hawaii Public Housing Authority (HPHA);
- (2) Clarify that the employment of certain positions and the adjustment of salaries are authorized by the Executive Director and not the Board of Directors of the HPHA; and
- (3) Repeal the wage ceiling requirement for positions in the HPHA.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and one individual.

Your Committee finds that the State has an ambitious mandate to increase the supply of affordable housing units to address its current chronic housing shortage. The HPHA is the state agency tasked with promoting and ensuring the availability of housing, economic opportunity, and suitable living environment for low-income individuals and families. As the HPHA fulfills its ambitious

mandate, the HPHA requires additional staffing resources to research and execute program rules for various state and federal subsidized housing programs. Therefore, this measure clarifies organizational roles within the HPHA to ensure effective, streamlined operations that will support efforts to address the ongoing housing shortage.

Your Committee notes the concerns raised in testimony questioning the need to exempt this proposed position from chapter 76, Hawaii Revised Statutes, if civil service employees already provide the services of the position. According to your Committee's discussion with the HPHA during the public hearing on this measure, existing positions within the HPHA are also exempt from civil service requirements. Additionally, the requirements of the proposed Housing Policy and Program Coordinator are specialized, as the role will need a candidate with experience in the Section 8 program, the federal low-income public housing program, the Moving-to-Work Demonstration Program and other subsidized housing programs. This position, therefore, does not fit into an existing civil service class. The HPHA further noted that civil service employees do not currently perform the work of the proposed position.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3120, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3120, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2338 Transportation and Culture and the Arts on S.B. No. 2194

The purpose and intent of this measure is to establish the felony offenses of misuse of unmanned aircraft in the 1st, 2nd, and 3rd degrees.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation and Department of the Prosecuting Attorney of the City and County of Honolulu.

Your Committee finds that the proliferation of technology has innovated aspects of daily life. However, certain technology such as unmanned aircraft, colloquially known as drones, have been utilized in the transfer of contraband into correctional facilities and interference with aircraft. As operators of unmanned aircraft operate the device from a distance, finding and identifying the individual remains a challenge for the law enforcement community. Therefore, this measure will increase public safety and security while establishing greater accountability and consequences for unmanned aircraft operators.

Your Committee has amended this measure by:

- (1) Replacing the term "unmanned aircraft" with "uncrewed aircraft"; and
- (2) Clarifying that the offense of misuse of uncrewed aircraft in the first, second, and third degrees do not apply to any adult corrections officer or correctional worker acting within the course and scope of their duties.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2194, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2339 Transportation and Culture and the Arts on S.B. No. 2857

The purpose and intent of this measure is to establish a five-year income tax credit for general excises taxes paid on qualified aircraft service and maintenance expenses of the qualified taxpayer.

Your Committee received testimony in support of this measure from the Aircraft Owners and Pilots Association and Helicopter Association International.

Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and the Tax Foundation of Hawaii.

Your Committee finds that the aviation industry plays many significant roles in the State, including without limitation, the first responders flown by air to remote areas in a disaster, the effective use of air medical transports, ocean and forest search and rescue operations conducted by helicopter, helicopters used in emergency services for state or federal disaster, and electric utility operators that perform surveys and maintain powerlines. Your Committee further finds that aircraft service and maintenance was critical in the wildfire relief efforts during the August 2023 Maui wildfires. This measure will support aviation servicing and the aviation industry by establishing an income tax credit.

Your Committee has amended this measure by:

- (1) Clarifying the qualifications for the tax credit to be based on qualified gross income;
- (2) Deleting the definition for "qualified expenses";
- (3) Adding definitions for "qualified gross income", "qualified taxpayer", and "wildfire relief efforts";
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2857, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2857, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2340 Transportation and Culture and the Arts on S.B. No. 2450

The purpose and intent of this measure is to authorize the Department of Transportation to weigh any ocean transport container offloaded at any harbor in the State and fine any company that offloads an ocean transport container having an excessive gross weight.

Your Committee received comments on this measure from the Department of Transportation and Matson Navigation Company, Inc.

Your Committee finds that thousands of pounds of cargo enter the State's ports on a daily basis, providing essential goods ranging from food and supplies to commodities. As an island state, Hawaii is dependent upon commercial harbors to ensure the continued and unimpeded flow of cargo through the State. This measure establishes safeguards for offloaded cargo to continue effective, timely operations at the State's harbors.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2450, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2450, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2341 Transportation and Culture and the Arts on S.B. No. 2965

The purpose and intent of this measure is to authorize the Public Utilities Commission to establish a discounted rate by tariff for water carriers that engage in the interisland transport of hydrogen.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Division of Consumer Advocacy; Hawaii State Energy Office; Public Utilities Commission; Hawai'i Gas; and Young Brothers, LLC.

Your Committee finds that hydrogen can be produced from diverse domestic resources with the potential for near-zero greenhouse gas emissions. Your Committee further finds that when used to power highly efficient fuel cell electric vehicles, hydrogen has enormous potential for strengthening national energy security, conserving petroleum, and diversifying the State's transportation energy options for a more resilient system. This measure will further the State's climate change mitigation commitment by allowing decreased tariffs for water carriers that engage in the interisland transport of hydrogen.

Your Committee has amended this measure by:

- (1) Clarifying that only the transport of hydrogen produced from renewable sources is eligible for the discounted rate by tariff for water carriers; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2965, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2965, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2342 (Majority) Transportation and Culture and the Arts on S.B. No. 2342

The purpose and intent of this measure is to change the penalties for violations of certain traffic laws and required motor vehicle insurance minimums.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Association for Justice.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender and State Farm Mutual Automobile Insurance Company.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs; Hawaii Insurers Council; and Turo.

Your Committee finds that traffic fatalities and injuries in Hawaii have increased, with 2022 having a record high of one hundred seventeen traffic fatalities and five hundred seventy serious traffic-related injuries. Your Committee recognizes that these tragic events demonstrate the need for greater safeguards and deterrents to improve street safety and better protect Hawaii's residents. This measure will reduce traffic fatalities and injuries by increasing penalties for individuals who continue to violate traffic laws.

Your Committee has amended this measure by:

- (1) Inserting unspecified insurance and penalty amounts;

- (2) Adding language directing the Insurance Commissioner to solicit rate filings from motor vehicle insurers to reflect the amendments by this measure;
- (3) Inserting an effective date of January 1, 2025; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2342, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2342, S.D. 1, and be referred to your Committees on Judiciary and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Awa). Excused, none.

SCRep. 2343 (Majority) Transportation and Culture and the Arts on S.B. No. 2348

The purpose and intent of this measure is to:

- (1) Provide that any photo red light imaging detector system's clear and unobstructed recorded image of a motor vehicle license plate shall be prima facie evidence that the motor vehicle to which the license plate is attached is the motor vehicle for which the license plate was issued; and
- (2) Require the State, the county, or the State's or county's third party contractor to implement a process to record the date on which the summons or citation was submitted to the post office, which shall be prima facie evidence of the date the summons or citation was submitted to the post office.

Your Committee received testimony in support of this measure from the Department of Transportation and Disability and Communication Access Board.

Your Committee finds that red-light running is a significant cause of crashes, deaths, and injuries at signalized intersections, and between 2015 and 2020 there have been 1,879 crashes as a result of red-light and other traffic signal violations in the State. Your Committee further notes that federal data suggests that automated traffic enforcement can reduce costs of enforcement, lessen the danger of enforcement for officers, and increase the perception of drivers that there are consequences to violating traffic laws. This measure will decrease traffic accidents thereby creating safer streets and free law enforcement from the time consuming duties of traffic enforcement.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2348, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2344 Transportation and Culture and the Arts on S.B. No. 2445

The purpose and intent of this measure is to require the Department of Transportation to identify an emergency egress route other than Komo Mai Drive from Pacific Palisades or, if no other route can be found, determine the feasibility of constructing an alternate emergency egress route.

Your Committee received testimony in support of this measure from two members of the Pearl City Neighborhood Board and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that Pacific Palisades is vulnerable to natural disasters such as hurricane winds and flash flooding. The community is built on a plateau above the main portion of Pearl City, with the only access road to the area being Komo Mai Drive, which is a steep, winding, one-lane road with a hairpin turn at the base of Pacific Palisades. Various emergencies, including water main breaks, felled trees, hostage events, flooding, traffic accidents, and police activities have required the closure of Komo Mai Drive and left the residents of Pacific Palisades unable to return home or leave their neighborhood, forcing them to wait hours for the road to open. This measure will provide residents of Pacific Palisades with an alternate route to escape in the event of an emergency or natural disaster.

Your Committee has amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2445, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2445, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2345 Transportation and Culture and the Arts on S.B. No. 2819

The purpose and intent of this measure is to require slow-moving vehicles on a two-lane highway, behind which five vehicles are formed in a line, to pull over where possible to let the trailing vehicles proceed when passing is unsafe.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that in 2022, Hawaii was ranked in the top ten states in the country for bad driving, citing data on DUIs, accidents, citations, and speeding tickets. Your Committee further finds that traffic safety and congestion has been a key frustration for residents in the State. This measure will improve operational efficiency and minimize road rage statewide by managing traffic flow.

Your Committee has amended this measure by:

- (1) Adding language to clarify that cars are only required to move off the roadway at the nearest safe location; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2819, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2819, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2346 (Majority) Transportation and Culture and the Arts on S.B. No. 2889

The purpose and intent of this measure is to appropriate additional funds to monitor excessive traffic noise in urban areas in the State.

Your Committee received no testimony on this measure.

Your Committee finds that noise pollution, particularly excessive traffic noise, is often cited as an issue in urban areas within the State. Your Committee further finds that, while several bills have been passed, including Act 63, Session Laws of Hawaii 2023, more resources are needed to successfully address persistent noise pollution. This measure allows for the implementation of the Noise Detection Traffic Camera Program.

Your Committee has amended this measure by:

- (1) Allowing, rather than requiring, the Department of Transportation to establish a program to use noise detection traffic cameras;
- (2) Repealing the appropriation of funds out of the State Highway Fund made for the purposes of Act 63, Session Laws of Hawaii 2023;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2889, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2889, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2347 Transportation and Culture and the Arts on S.B. No. 2895

The purpose and intent of this measure is to exclude from the Motor Carrier Safety Law's definition of "motor carrier vehicle" chassis used to transport shipping containers.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii; Hawaii Harbors Users Group; Matson Navigation Company, Inc.; Retail Merchants of Hawaii; and Young Brothers, LLC.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that, as an island state, Hawaii relies significantly on cargo processed at state harbors, accounting for ninety percent of all imported goods statewide. Shipping container chassis are used to transport cargo on the State's roadways, delivering food, supplies, and other commodities to Hawaii's people. The unimpeded, reliable flow of goods at state commercial harbors ensures the timely delivery and accessibility of various goods and services statewide.

Your Committee notes the concerns raised by the Department of Transportation regarding regulatory incompatibility that may jeopardize future federal funding. Your Committee also notes that the companion to this measure, House Bill No. 1578, H.D. 1 (Regular Session of 2024) (H.B. 1578, H.D. 1), is a similar measure that permits a shipping container chassis that holds a valid out-of-state certificate of vehicle registration to obtain a certificate of safety inspection. Additionally, H.B. No. 1578, H.D. 1, also authorizes an out-of-state registration for a shipping container chassis valid in the State until its expiration in the other state or for one year after a vehicle safety inspection. Your Committee concludes that the language in H.B. No. 1578, H.D. 1, is preferable because the language remains consistent with existing regulations while ensuring the continued safety and roadworthiness of shipping container chassis utilized statewide.

Accordingly, your Committee has amended this measure by deleting its contents and inserting the contents of H.B. No. 1578, H.D. 1, a measure that:

- (1) Permits a shipping container chassis that holds a valid out-of-state certificate of vehicle registration to obtain a certificate of safety inspection; and

- (2) Makes an out-of-state registration for a shipping container chassis valid in the State until its expiration in the other state or for one year after a vehicle safety inspection.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2895, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2348 (Majority) Transportation and Culture and the Arts on S.B. No. 2630

The purpose and intent of this measure is to authorize pedestrians to act contrary to the statewide traffic code when a reasonably careful pedestrian would determine that there is no immediate danger of a collision with a moving vehicle.

Your Committee received testimony in support of this measure from one member of the Kaua'i County Council, Grassroot Institute of Hawaii, Hawai'i Appleseed Center for Law and Economic Justice, Hawai'i Bicycling League, Hawai'i Public Health Institute, Our Revolution Hawaii, and eight individuals.

Your Committee received testimony in opposition to this measure from the Department of Transportation, the Department of Law Enforcement, and Honolulu Police Department.

Your Committee received comments on this measure from the Department of Health and one individual.

Your Committee finds that current statutes in Hawaii relating to pedestrians are needlessly restrictive. Fines for pedestrians can have a disproportionate impact on people who do not drive and who primarily rely upon walking as a means of transportation. Your Committee additionally finds that the judgment of pedestrians can be more effective in mitigating injuries than traffic lights or street markings, and thus should be trusted to cross the street when the absence of oncoming traffic makes it reasonably safe to cross. This measure will provide pedestrians with greater freedom and encourage more people to walk.

Your Committee has amended this measure by:

- (1) Adding language that will limit the exemption to pedestrians who are more than two hundred feet from a marked crosswalk;
- (2) Adding language that requires that any person that drives a motor vehicle at a speed greater than the speed limit be fined not less than \$100;
- (3) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2630, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2630, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Elefante). Excused, none.

SCRep. 2349 Transportation and Culture and the Arts on S.B. No. 2945

The purpose and intent of this measure is to require the Department of Transportation to select multiple certified vendors to install ignition interlock devices.

Your Committee received testimony in support of this measure from Intoxalock.

Your Committee received testimony in opposition to this measure from the Mothers Against Drunk Driving Hawaii and Smart Start, LLC.

Your Committee received comments from the Department of Transportation.

Your Committee finds that for many years, Hawaii has been one of the worst states in the nation in terms of the percent of total fatal traffic crashes that are alcohol related and that ignition interlock devices have been a proven means to stop intoxicated persons from driving. However, as your Committee notes, current law mandates that only a single vendor be selected by the Department of Transportation to implement the Statewide Ignition Interlock Program, depriving users of selecting ignition interlock devices based on product quality, features, and maintenance. This measure therefore will promote consumer choice, competition, and geographic availability of ignition interlock devices.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that establishes a task force to conduct a statewide study on the accessibility of ignition interlock devices and any national best practices; and
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2945, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2945, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2350 Transportation and Culture and the Arts on S.B. No. 3218

The purpose and intent of this measure is to authorize the issuance of special number plates to commemorate Malama Puuloa.

Your Committee received testimony in support of this measure from Hui O Ho'ohonua.

Your Committee finds that while Keawalau o Puuloa, also known as Puuloa or Pearl Harbor, was once an abundant water resource, it has been exposed and contaminated with toxic chemicals and materials that have harmed the local ecosystems. Your Committee further finds that Malama Puuloa, a 501(c)(3) nonprofit organization established in 2015 with a mission to restore Puuloa to abundance, has shown dedication to community environmentalism through their work including education, partnerships with the community, land-based programs, and involving over ten thousand volunteers committed to their work. This measure will promote the organization's legacy of natural resource management, perpetuation of Native Hawaiian culture, and environmentalism by authorizing a special number plate to recognize the significance and impact of Malama Puuloa.

Your Committee has amended this measure by:

- (1) Adding language to limit the special number plate design to four and a half inches in height by four and a half inches in width;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3218, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3218, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2351 Transportation and Culture and the Arts on S.B. No. 2690

The purpose and intent of this measure is to prohibit any person convicted of operating a vehicle under the influence of an intoxicant or habitually operating a vehicle under the influence of an intoxicant from purchasing or publicly consuming alcohol for a certain period.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee received comments on this measure from the Department of the Attorney General and Mothers Against Drunk Driving Hawaii.

Your Committee finds that Hawaii has a significantly higher percentage of adults who report driving after drinking in the past thirty days compared to the national average. However, your Committee notes that while there are current driving-related restrictions in place, previous offenders may still purchase and drink alcohol in public spaces. This measure therefore will reduce public drinking for any person previously convicted of driving under an intoxicant and increase traffic, road, and pedestrian safety.

Your Committee has amended this measure by:

- (1) Removing language that would have provided for certain requirements and an expiration date for a license issued to a person whose license is revoked by the Administrative Driver's License Revocation Office;
- (2) Clarifying that an identification card issued to an individual who has been convicted for a violation of section 291E-61 or 291E-61.5, Hawaii Revised Statutes, and is prohibited from purchasing or publicly consuming liquor shall be valid for a restriction period commencing on the date of revocation or conviction, whichever is earlier, and ending on the end date of the revocation period;
- (3) Changing references to "probation period" to "restriction period";
- (4) Changing references to "driver's license" to "license", where appropriate;
- (5) Making conforming amendments to related statutory sections;
- (6) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2690, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2690, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2352 Transportation and Culture and the Arts on S.B. No. 3243

The purpose and intent of this measure is to:

- (1) Prohibit foreign entities and foreign-influenced business entities from making contributions, expenditures, electioneering communications, or donations for election purposes;
- (2) Require every business entity that contributes or expends funds in a state election to file a statement of certification regarding its limited foreign influence; and
- (3) Require noncandidate committees making only independent expenditures to obtain a statement of certification from each top contributor required to be listed in an advertisement.

Your Committee received testimony in support of this measure from the Campaign Spending Commission, Center for American Progress, Free Speech for People, International Longshore and Warehouse Union Local 142, League of Women Voters of Hawaii, and more than one hundred seventy individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that political spending by foreign-influenced business entities can weaken, interfere with, or disrupt Hawaii's democratic self-governance and the trust that the electorate has in its elected representatives. Your Committee further finds that corporations and similar entities have a fiduciary responsibility to their shareholders, including investors around the world, and generally prioritize the interests of shareholders, which may diverge substantially from the interests of the people of Hawaii and the United States. This measure will protect and strengthen the integrity of Hawaii's democratic self-governance by preventing foreign influence on the State's elections.

Your Committee has amended this measure by making it effective on January 1, 2026.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3243, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3243, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2353 Transportation and Culture and the Arts on S.B. No. 2680

The purpose and intent of this measure is to prohibit the charging of a fee for a motor vehicle lessee's spouse by a lessor under certain conditions.

Your Committee received comments on this measure from Avis Budget Group and Enterprise Mobility.

Your Committee finds that recently hidden fees exacted by companies on consumers has increased dramatically, with even the Federal Trade Commission proposing new restrictions on fees across all industries, from hotels to ticket sellers to car rental companies. Your Committee further finds that tourism industries are increasingly resorting to hidden fees to recoup losses accrued during the coronavirus disease 2019 pandemic. This measure will prevent additional excessive fees by car rental companies and protect consumers from overpaying on hidden fees.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2680 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2354 Transportation and Culture and the Arts on S.B. No. 2735

The purpose and intent of this measure is to require:

- (1) Driver's license examinations to test the applicant's knowledge of the dangers that larger motor vehicles present to pedestrians; and
- (2) Offenders who are found to be excessively speeding or driving while intoxicated to retake and pass their driver's license examination for each offense.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that that vehicles with a hood height greater than forty inches are forty-five percent more likely to cause dangerous accidents for pedestrians because these features are more likely to kill pedestrians. Your Committee further finds that possible penalties for excessive speeding and driving while intoxicated are fines or license suspension in a tiered-system, which may encourage drivers to be more responsible. This measure will reduce motor vehicle fatalities and injuries by deterring dangerous driving behaviors.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2735 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2355 Transportation and Culture and the Arts on S.B. No. 3065

The purpose and intent of this measure is to appropriate special funds to Department of Transportation programs to pay for anticipated operating shortfalls due to the limited ability to transfer funds between programs.

Your Committee received testimony in support of this measure from the Department of Transportation and Department of Budget and Finance.

Your Committee finds that Act 164, Session Laws of Hawaii 2023, did not contain boilerplate provisions that are generally included in the General Appropriations Act that provide the Governor with authority to transfer funds for operating purposes. Your Committee further finds that because this authority was removed, the Department of Transportation currently faces an operating budget shortfall. This measure will provide a budget-neutral way for the Department of Transportation to address its operating shortfalls and ensure continued departmental services and operations.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3065 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2356 Transportation and Culture and the Arts on S.B. No. 3069

The purpose and intent of this measure is to make an emergency appropriation to provide special funds for disbursements of moneys in the Mass Transit Special Fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Your Committee finds that the Department of Budget and Finance was unable to disburse all the available moneys for the Mass Transit Special Fund in fiscal year 2022-2023. Your Committee additionally finds that based on the estimated revenues for the Mass Transit Special Fund and carryover of the ending cash balance from fiscal year 2022-2023, it is anticipated that there will be a shortfall in special fund ceiling for the Mass Transit Special Fund. This measure will therefore dispense needed funds to benefit the City and County of Honolulu's rail mass transit project.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3069 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2357 Transportation and Culture and the Arts on S.B. No. 3179

The purpose and intent of this measure is to:

- (1) Increase the caps for the total contract value for any one capital advancement contract (CAC) and the total aggregate value of CACs in a fiscal year entered by the Department of Transportation with private parties for harbor improvements; and
- (2) Add reporting requirements for the Department of Transportation.

Your Committee received testimony in support of this measure from the Department of Transportation; Matson Navigation Company, Inc.; Hawaii Harbors Users Group; and Young Brothers, LLC.

Your Committee finds that CAC dramatically expedite certain projects at state commercial harbor facilities and increase project efficiencies when private parties lead the projects in a manner that minimizes project impacts on cargo operations. Your Committee further finds that with increased CAC, the Department of Transportation would be able to facilitate improved project delivery. This measure will fast-track desperately needed public improvements to state commercial harbor facilities by accounting for inflation and other rising costs of materials and labor for prioritized projects.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3179 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2358 Transportation and Culture and the Arts on S.B. No. 3266

The purpose and intent of this measure is to appropriate funds to the Department of Transportation for vegetation management projects to reduce the risks of wildfires across the State.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Land and Natural Resources, and two individuals.

Your Committee finds that vegetation management is a valuable method of addressing potentially hazardous conditions to improve public safety. Your Committee further finds that prioritizing vegetation management, particularly along state roadways, is crucial to devising a maintenance schedule to reduce wildland fire fuel loads. This measure will reduce the risk of wildfires throughout the State by appropriating funding for mitigation efforts.

Your Committee has amended this measure by:

- (1) Decreasing the appropriation amount to the Department of Transportation from \$10,000,000 to \$5,000,000;
- (2) Adding language to appropriate \$5,000,000 to the Department of Land and Natural Resources Division of Forestry and Wildlife for vegetation management projects to reduce the risks of wildfires across the State;

- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3266, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3266, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2359 Labor and Technology on S.B. No. 3099

The purpose and intent of this measure is to:

- (1) Reduce the minimum number of years of credited service that qualified Tier 2 Employees' Retirement System members must have to be eligible for vested benefit status for service retirement allowance purposes from ten years to five years; and
- (2) Appropriate funds for investments of the Employees' Retirement System.

Your Committee received testimony in support of this measure from the Office of the Governor; Department of Labor and Industrial Relations; Department of Budget and Finance; Employees' Retirement System Board of Trustees; City and County of Honolulu Department of Human Resources; University of Hawaii Professional Assembly; and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committee received comments on this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that state and county governments in Hawaii are experiencing the tough challenges and difficult impacts of job vacancies. Public sector vacancies impede economic growth and hamper a government's ability to serve the public. This measure will assist state and county employers in recruiting and retaining qualified employees by reducing the Employees' Retirement System vesting requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3099, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3099, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2360 Labor and Technology on S.B. No. 371

The purpose and intent of this measure is to define "incidental and supplemental work" for purposes of specialty contractors under the Contractors Law.

Your Committee received testimony in support of this measure from the Iron Workers Stabilization Fund, Hawaii Sheet Metal Worker's Local Union 293, Hawaii Teamsters 996, Democratic Party of Hawai'i, Democratic Party of Hawai'i Labor Caucus, International Association of Heat and Frost Insulators and Allied Workers Local 132, Ironworkers Local 625, IATSE Local 665, and two individuals.

Your Committee received testimony in opposition to this measure from the General Contractors Association of Hawaii and Pacific Resource Partnership.

Your Committee received comments on this measure from the Contractors License Board.

Your Committee finds that in the construction and trade labor fields, it is important to ensure that the individuals performing work are well trained and highly qualified so that the public may be confident that construction projects are completed in a safe and competent manner. This measure will ensure that unionized workers can remain in their trade, be fairly compensated, and practice their profession in a manner that guarantees their financial well-being and public safety by defining "incidental and supplemental work" in statute.

Your Committee has amended this measure by:

- (1) Changing the percentage of incidental and supplemental work that a specialty contractor licensee may perform from five percent to an unspecified percentage; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 371, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2361 (Joint) Labor and Technology and Judiciary on S.B. No. 2602

The purpose and intent of this measure is to transfer the administration of the Human Trafficking Victim Services Fund from the Department of Labor and Industrial Relations to the Department of the Attorney General.

Your Committees received testimony in support of this measure from the Department of the Attorney General, Department of Labor and Industrial Relations' Office of Community Services, Office of Hawaiian Affairs, Rainbow Family 808, and three individuals.

Your Committees find that when the Human Trafficking Victim Services Fund was created in 2014, it was placed in the Department of Labor and Industrial Relations. Your Committees also find that in 2022 and 2023, the Legislature created within the Department of the Attorney General a new Special Investigations and Prosecution Division that serves as the State's primary prosecutorial unit responsible for prosecuting human trafficking and sex trafficking, and a statewide Human Trafficking Prevention Program to provide services and assistance to victims of human trafficking and commercial sexual exploitation of children. This measure will allow the Special Investigation and Prosecution Division to use the Human Trafficking Victims Services Fund to supplement programs, grants, or purchase of service contracts that support or provide comprehensive services to these victims.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2602 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Ihara).

Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2362 (Joint) Judiciary and Labor and Technology on S.B. No. 2380

The purpose and intent of this measure is to appropriate moneys for collective bargaining cost items for Judiciary employees and their excluded counterparts.

Your Committees received testimony in support of this measure from The Judiciary and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committees find that in January 2020, the United States Secretary of Health and Human Services declared the coronavirus disease 2019 (COVID-19) pandemic a public health emergency. On March 4, 2020, Governor David Ige issued the first of several emergency proclamations pertaining to the COVID-19 pandemic for the State, with the last of those proclamations expiring on March 25, 2022. Unions representing public employees in the State have been pursuing claims for temporary hazard pay for work performed by government employees during the COVID-19 pandemic pursuant to the hazard pay provisions of the respective collective bargaining agreements. This measure will allow the Judiciary to secure the funding necessary to fulfill its obligation to union members pursuing claims for temporary hazard pay for work performed during the COVID-19 pandemic.

As affirmed by the records of votes of the members of your Committees on Judiciary and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2380 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Ihara).

SCRep. 2363 Health and Human Services on S.B. No. 3138

The purpose and intent of this measure is to clarify that the definition of "manufactured hemp products" in section 328G-1, Hawaii Revised Statutes, includes hemp products specified in rules adopted by the Department of Health pursuant to section 328G-4, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Health and Hawaiian Choice/Rare Cannabinoid Company.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the current definition of "manufactured hemp product" in section 328G-1, Hawaii Revised Statutes, inadvertently restricts the Department of Health from adopting new forms of hemp products that are not already in one of the currently allowed ingestible forms such as "tablet, capsule, powder, softgel, gelcap, or liquid". This measure will relieve the Department of Health of this unintentional restriction and will allow the Department to evaluate and consider permitting other hemp product forms.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3138, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3138, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2364 Health and Human Services on S.B. No. 3122

The purpose and intent of this measure is to authorize the Director of Health to issue public health standing orders for patients to self-refer to certain health care screening services.

Your Committee received testimony in support of this measure from the Department of Health, Hawai'i Academy of Physician Assistants, Hawai'i Public Health Association, and CARES.

Your Committee received comments on this measure from the Hawaii Medical Service Association and Hawai'i Pacific Health.

Your Committee finds that the State's well-documented physician shortage may restrict patient access to preventative care, resulting in sub-optimal outcomes, increased costs, and decreased quality of life. Your Committee further finds that public health standing orders may help reduce barriers to receiving secondary prevention services. This measure will increase receipt of preventative care, advance population health, move routine care from the examination room directly to the patient, and create more time for providers to address individualized patient care.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3122, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2365 Health and Human Services on S.B. No. 2186

The purpose and intent of this measure is to:

- (1) Establish heightened penalties for the assault and terroristic threatening of health care workers; and
- (2) Clarify the definition of "terroristic threatening" to include the methods of contact.

Your Committee received testimony in support of this measure from the Honolulu Police Department; Hawai'i State Center for Nursing; The Queen's Health System; United Public Workers, AFSCME Local 646, AFL-CIO; Healthcare Association of Hawaii; Waianae Coast Comprehensive Health Center; Hawaii Pacific Health; Big Island Foster Home Operators; Hawai'i Primary Care Association; Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; Hawaii State AFL-CIO; and six individuals.

Your Committee finds that the risk of assault and terroristic threats to health care workers is increasing statewide and nationally, jeopardizing their safety and well-being. By addressing the definition of "health care workers", clarifying the meaning of terroristic threats to include more forms of contact, and imposing greater penalties to deter assaults against health care workers, this measure fortifies protections to provide safer environments for all medical service workers.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "health care worker" to include employees or contractors of a health care facility or in the home of another, including foster care homes;
- (2) Specifying a person commits the offense of assault in the first degree if a person intentionally or knowingly causes bodily injury to a health care worker who is engaged in the performance of a duty at a health care facility or home of another, including a foster care home;
- (3) Extending the penalties for terroristic threatening to threats against health care workers who are engaged in the performance of duties at a health care facility or home of another, including a foster care home;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2186, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2186, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2366 Health and Human Services on S.B. No. 2483

The purpose and intent of this measure is to appropriate funds and require the Department of Health to administer a three-year pilot program to authorize community health workers to provide outreach, education, training, and navigation services to address the social determinants of health in Ka'u, Hawaii County.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs; Office of the Mayor of the County of Hawai'i; Office of Housing and Community Development of the County of Hawai'i; Kula no nā Po'e Hawai'i; Ka'u Rural Health Community Association, Inc.; Papa Ola Lokahi; Ka'u Hospital; and five individuals.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that community health workers play a central role in connecting rural, underserved communities with essential programs and services that target social factors of health by addressing issues such as access to health care, prevention,

outreach, and training. Your Committee further finds that community health workers are especially vital in rural areas lacking reliable access to health education, resources, or employment opportunities. This measure improves health care accessibility and promotes community well-being in the Ka'ū district.

Your Committee has amended this measure by:

- (1) Inserting language to require that contracted nonprofit organizations for the pilot program have the capacity to provide culturally competent training and services; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee urges advocates of this measure to determine an appropriate amount to be inserted into the appropriation section of this measure so that it can be effectively considered by future committees as this measure advances through the legislative process.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2483, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2483, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2367 Health and Human Services on S.B. No. 2797

The purpose and intent of this measure is to create a refundable water catchment income tax credit for a homeowner who installs, places in service, or maintains a water catchment system meeting certain requirements on residential property in the State owned by the homeowner.

Your Committee received testimony in support of this measure from six individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that some communities in Hawaii lack access to municipal water infrastructure, leaving residents to rely on water catchment systems that are filled through water subscription services to meet their basic needs. When there is insufficient rainfall, the cost of water delivery services can be significant. Providing a refundable income tax credit for homeowners who install, place into service, or maintain a water catchment system on residential properties could offset certain economic hardships and can help utilize natural resources to decrease strain on main water systems.

Your Committee has amended this measure by:

- (1) Inserting language that limits one tax credit per each water catchment system installed within a five-year period;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2797, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2368 Health and Human Services on S.B. No. 3100

The purpose and intent of this measure is to rename the Hawaii Health Corps Program to the Hawaii Rural Healthcare Provider Loan Program.

Your Committee received testimony in support of this measure from the Office of the Governor.

Your Committee received comments on this measure from the University of Hawaii John A. Burns School of Medicine.

Your Committee finds that the Hawaii Health Corps Program was established in 2012 with a focus on encouraging certain health care providers to serve in counties that are experiencing shortages of physicians, physician assistants, and nurse practitioners, with a priority given to rural counties. In 2023, the State launched the Hawaii Healthcare Education Loan Repayment Program (HELP) to provide educational loan debt repayment to qualified health care professionals in the State. Your Committee further finds that due to HELP having an expanded scope and purpose compared to the current Hawaii Health Corps Program, this measure clarifies and renames the existing Hawaii Health Corps Program to better reflect the program's current purposes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3100, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2369 Health and Human Services on S.B. No. 2460

The purpose and intent of this measure is to appropriate funds to address the mental health and wellness needs of youth in the State.

Your Committee received testimony in support of this measure from the Department of Health Office of the Public Defender, Hawai'i Youth Services Network, YMCA of Honolulu, Catholic Charities Hawai'i, Hawai'i True Cost Coalition, Hawaii Medical Association, Mental Health America of Hawai'i, Democratic Party of Hawai'i, Opportunity Youth Action Hawai'i and seven individuals.

Your Committee finds that the youth of Hawaii face mental health challenges in more significant numbers than in years past, with depression, substance abuse, and suicidal ideation being top issues. Your Committee further finds a need to address the wellness and mental health of the youth in the State by funding resources with community-based services to ensure youth can gain the necessary tools to manage emotional, behavioral, environmental, financial, intellectual, physical, social, and spiritual health to develop into healthy members of their communities. This measure will therefore help provide increased outreach and intervention to give the State's keiki the care they deserve.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2460 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2370 (Joint) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2231

The purpose and intent of this measure is to improve female firefighters' access to comprehensive medical coverage by expanding workers' compensation medical benefits for firefighters to include coverage for breast cancer and cancer of female reproductive organs.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, County of Maui Department of Fire and Public Safety, Honolulu Fire Department, Disability and Communications Access Board, Hawaii Fire Fighters Association, and eleven individuals.

Your Committees find that firefighters are commonly diagnosed with cancers of the respiratory, digestive, and urinary systems due to exposure to cancer-causing contaminants during the performance of their duties. By providing sufficient workers' compensation coverage for firefighters, states can help ensure that firefighters receive timely and appropriate medical treatment and can help ease the emotional and financial burdens for firefighters and their families if the firefighter is diagnosed with cancer. Due to anatomical differences, female firefighters may develop a wide variety of cancers, including breast, cervical, and uterine cancers, and may develop them at an earlier age than most other women. This measure will ensure that firefighters receive timely and appropriate medical treatment for breast cancer and cancer of the female reproductive organs.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2231 and recommend that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.
Labor and Technology: Ayes, 5. Noes, none. Excused, none.
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2371 Commerce and Consumer Protection on S.B. No. 2108

The purpose and intent of this measure is to:

- (1) Allow a condominium association that claims a Renewable Energy Technologies Income Tax Credit under section 235-12.5, Hawaii Revised Statutes (HRS), to transfer the credit, or a portion thereof, to another individual or corporate taxpayer that is not related to the condominium association for fair and reasonable consideration; and
- (2) Provide that condominium association unit owners shall not be entitled to any apportionment or distribution of a transferred Renewable Energy Technologies Income Tax Credit when a condominium association transfers the tax credit.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the Renewable Energy Technologies Income Tax Credit (RETITC)--the State's existing income tax credit scheme for renewable energy installations (codified under section 235-12.5, HRS)--allows condominium associations to receive an income tax credit for the installation of certain solar and wind-powered energy systems. However, your Committee finds that, for many condominium associations, the tax incentives under the RETITC are not sufficient to make the installation of renewable energy systems economically viable.

Your Committee finds that one alternative to the non-refundable and refundable tax credit schemes would be to allow condominium associations to transfer their RETITC to investors who are looking to reduce their tax liabilities, thereby generating a synergistic and mutually beneficial transaction that concurrently helps the State meet its renewable energy goals. Therefore, this measure allows a condominium association that claims a credit under the RETITC to transfer the credit, or a portion thereof, to certain taxpayers.

Notwithstanding, your Committee notes the concerns raised in testimony that amendments to this measure are necessary to improve this measure's clarity and timing.

Therefore, your Committee has amended this measure by:

- (1) Deleting the requirement that credits be transferred “for fair and reasonable consideration” and the definition of “transferee taxpayer”;
- (2) Clarifying the individuals or corporate taxpayers who shall be deemed “related” to a condominium association for the purposes of prohibiting credit transfers;
- (3) Amending the credit transfer election period to the close of the taxable year for which the eligible renewable energy technology system is installed and placed in service;
- (4) Postponing the start of the applicable taxable year period for the tax credit transfer to December 31, 2024; and
- (5) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2108, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2108, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2372 Commerce and Consumer Protection on S.B. No. 2239

The purpose and intent of this measure is to:

- (1) Prohibit any person from advertising, displaying, or offering a price for a transient accommodation or resort time share vacation interest, plan, or unit that does not include all taxes and fees imposed by a government entity at the time of purchase;
- (2) Require a person to clearly and conspicuously display in each advertisement for a transient accommodation or resort time share vacation interest, plan, or unit a rate or price that includes all taxes and fees imposed by a government entity; and
- (3) Require any taxes and fees that are displayed as a percentage of the cost on a booking transaction to also be displayed as a dollar amount at the time of purchase.

Your Committee received testimony in opposition to this measure from the Chamber of Progress.

Your Committee received comments on this measure from the Hawai‘i Tourism Authority.

Your Committee finds that booking agencies often do not include certain government-related fees and taxes in their advertised rates and prices. Further, because these fees and taxes are usually added as a surcharge after a consumer initiates a purchase, consumers are often left feeling misled after paying a higher price than they had originally anticipated. Therefore, this measure provides consumers with the ability to make better and more informed purchasing decisions before initiating a transaction, by prohibiting certain deceptive advertising practices and increasing transparency at the point of purchase.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2239, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2373 Commerce and Consumer Protection on S.B. No. 2336

The purpose and intent of this measure is to:

- (1) Require that condominium renters who prevail in a lawsuit for a violation of the Residential Landlord-Tenant Code be awarded reasonable attorneys’ fees and costs and threefold damages; and
- (2) Require the Real Estate Commission to:
 - (A) Establish a Condominium Association Board Oversight Task Force to ensure transparency and consistency in the management of condominiums;
 - (B) Report to the Legislature before the Regular Session of 2025; and
 - (C) Dissolve the Task Force on an unspecified date.

Your Committee received testimony in support of this measure from the Kokua Council, Legal Aid Society of Hawai‘i, and three individuals.

Your Committee received testimony in opposition to this measure from the Hawai‘i Real Estate Commission; Community Associations Institute; Palehua Townhouse Association; Hawaii First Realty LLC; Sky Tower Apartments; Law Offices of Mark K. McKellar, LLC; and seventeen individuals.

Your Committee finds that there is a need for greater oversight of condominium association boards and landlords. Currently, there is little, if any, accountability when condominium association boards wrongfully levy fines, initiate foreclosures, delay renovations, and take other adverse actions against unit owners. Therefore, this measure will help deter condominium association boards from

committing acts of malfeasance by awarding reasonable attorneys' fees, costs, and threefold damages to condominium renters who prevail in a lawsuit for a violation of the Residential Landlord-Tenant Code.

Notwithstanding, your Committee has heard the concerns raised by testifiers that the objectives of the proposed task force appear to be duplicative in scope to the Condominium Property Regime Task Force established by Act 189, Session Laws of Hawaii 2023. Therefore, amendments to this measure are necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have established a Condominium Association Board Oversight Task Force;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2336, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2336, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2374 Commerce and Consumer Protection on S.B. No. 2493

The purpose and intent of this measure is to:

- (1) Require that the fees for attorneys retained by a condominium association be paid from an association's funds or reserves, unless the fees incurred result from attempts to collect delinquent assessments against an individual unit owner;
- (2) Limit the total and final legal fees to twenty-five percent of the original debt amount;
- (3) Require attorneys retained by a condominium association to confine their communications to the condominium board, except when the attorneys must request and require materials and responses directly from owners for each matter; and
- (4) Prohibit attorneys retained by a condominium association from billing unit owners directly.

Your Committee received testimony in support of this measure from the Kokua Council and eleven individuals.

Your Committee received testimony in opposition to this measure from the Community Associations Institute; Honolulu Tower AOA; Sky Tower Apartments; Law Offices of Mark K. McKellar, LLC; and sixteen individuals.

Your Committee finds that when a condominium association board seeks legal assistance to protect the collective interests of their association, it is the association, not the individual unit owners, who are the clients of the attorneys. Therefore, this measure would require that fees for attorneys retained by the condominium association be paid from an association's funds or reserves and clarify other matters pertaining to association attorneys and individual owners. Separately, this measure limits condominium associations from seeking reimbursement for its total and final legal fees to twenty-five percent of the original debt amount sought.

Notwithstanding, your Committee has heard the testimony of those in opposition, raising concerns that this measure, in its current form, misunderstands condominium governance and potentially conflicts with state condominium law.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have:
 - (A) Required that the fees for attorneys retained by a condominium association be paid from an association's funds or reserves;
 - (B) Required attorneys retained by a condominium association to confine their communications to the condominium board; and
 - (C) Prohibited attorneys retained by a condominium association from billing unit owners directly;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2493, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2493, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2375 Commerce and Consumer Protection on S.B. No. 2532

The purpose and intent of this measure is to:

- (1) Clarify that the secured areas appurtenant to a multi-unit dwelling are included as dwellings for the purposes of prosecuting offenses under chapter 708, Hawaii Revised Statutes (HRS); and
- (2) Allow the owner of a multi-unit building or the condominium association to act as a complainant for the purpose of investigating and prosecuting a burglary in the first degree in a multi-unit building.

Your Committee received testimony in support of this measure from the Honolulu Police Department and five individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that there has been an increase in criminal acts within the secured areas of multi-unit dwellings, which include secured parking and storage areas, committed by individuals who are neither residents nor guests of the property. Your Committee also finds that county law enforcement officers and prosecutors have been frequently reluctant to investigate and charge burglaries that occur in these secured areas because they are not clearly “dwellings”, despite the clear danger posed to building residents. Therefore, this measure clarifies the existing ambiguity and amends the definition of “dwelling” to include the secured areas appurtenant to multi-unit buildings for the purposes of prosecuting offenses against property rights under chapter 708, HRS.

Notwithstanding, your Committee has heard the testimony of the Department of the Attorney General recommending that the definition of certain terms and procedures be further clarified to better capture the Legislature’s intent and for practicality of enforcement. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying the definition of “dwelling” to mean a building, including a multi-unit building, which is used or usually used by a person or persons for lodging, and shall include any clearly marked and secured appurtenant parking or storage area;
- (2) Clarifying that a secured appurtenant area need only be “clearly marked and secured”, instead of “clearly marked, exclusive, and secured” and providing examples of such areas;
- (3) Adding individual unit owners, property managers, and authorized representatives of condominium associations to also act as complainants for the purpose of investigating and prosecuting a burglary in the first degree of a multi-unit building;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2532, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2532, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2376 Commerce and Consumer Protection on S.B. No. 2548

The purpose and intent of this measure is to require employees, applicants, and contracted vendors of condominium associations in employment positions that grant access to security cameras and footage to undergo a background check and be licensed consistent with the requirements in chapter 463, Hawaii Revised Statutes (HRS), that governs private investigators and guards.

Your Committee received testimony in support of this measure from the Palehua Townhouse Association and six individuals.

Your Committee received testimony in opposition to this measure from the Community Associations Institute; Hawaii First Realty, LLC; and one individual.

Your Committee finds that many condominium boards use security cameras to monitor their building premises as an alternative to hiring security guards, in order to save on operating costs. However, this often requires condominium employees and other contracted vendors to be responsible for, and have access to, security cameras and any corresponding recorded footage. Your Committee finds that because these employees and vendors are, in essence, acting as “guards” under the state private investigators and guards law, they should be subject to a background check and licensing exam consistent with the requirements of chapter 463, HRS. Therefore, this measure requires certain employees, applicants, and vendors of condominium associations to have the proper credentials to protect the condominium owner they are hired to serve.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2548, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2548, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2377 Education on S.B. No. 2257

The purpose and intent of this measure is to authorize the Hawaii Teacher Standards Board to consider qualified individuals with at least an associate’s degree or high school diploma with comparable education and coursework, industry experience, and content expertise to teach career and technical education courses.

Your Committee received testimony in support of this measure from the Department of Education, Hawai'i Teacher Standards Board, Hawai'i P-20 Partnerships for Education, and one individual.

Your Committee finds that career and technical education provides students with hands-on learning experiences to prepare them for future academic and professional careers. Many career and technical education courses are taught by industry professionals who have decades of experience, providing immersive, knowledgeable training to students. While there is increasing popularity of career and technical education pathways, certain education requirements for instructors may prohibit qualified individuals from applying to become instructors. Therefore, this measure offers more pathways for experienced, highly qualified industry professionals to become instructors in support of varied, enriching opportunities for students.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2257, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2257, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2378 (Joint/Majority) Agriculture and Environment and Water and Land on S.B. No. 2053

The purpose and intent of this measure is to:

- (1) Authorize the Department of Land and Natural Resources to contract or form a partnership with private parties to assist with maintenance and management of sunscreen dispensers on all state beaches; and
- (2) Appropriate funds for the installation, maintenance, management, and operation of mineral-based sunscreen dispensers on all state beaches.

Your Committees received testimony in support of this measure from the Hawai'i Reef and Ocean Coalition, PlanIt Branding, and three individuals.

Your Committees received comments on this measure from the Department of Land and Natural Resources and Public Access to SunScreens Coalition.

Your Committees find that the reduced use of sunscreens containing certain chemicals would benefit the health and resilience of Hawaii's coral reef ecosystems. Your Committees believe that, following the relative success of installing a mineral sunscreen dispenser at the Hapuna State Recreation Area on Hawaii island, the deployment of sunscreen dispensers at all state beaches will further protect Hawaii's coral reefs as well as ease the burden of securing reef-safe sunscreens to residents and visitors. This measure will benefit the State by decreasing the amount of chemicals that adversely impact Hawaii's marine ecosystem from entering state waters while protecting beachgoers from skin cancer.

According to testimony received by your Committees, an appropriation of \$100,000 per year could fund the installation and operation of up to fifty sunscreen dispensers at beaches throughout the State. Your Committees also recognize that existing state laws do not prevent visiting beachgoers from bringing and using sunscreens that contain chemicals that contribute to the bleaching of coral.

Your Committees have amended this measure by:

- (1) Inserting language that allows the Department of Land and Natural Resources to publicize that the mineral-based sunscreen within these dispensers is more protective of the coral reefs of the State;
- (2) Inserting an appropriation amount of \$100,000;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2053, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2053, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 2. Noes, 1 (Awa). Excused, 2 (DeCoite, Richards).
Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 2379 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2495

The purpose and intent of this measure is to:

- (1) Exempt from acreage assessments land occupiers who have not applied for water service for the following year; and
- (2) Require the Board of Agriculture to amend certain administrative rules governing irrigation water service to consumers of the State by an unspecified date.

Your Committees received testimony in support of this measure from the Agricultural and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i and Hawai'i Farm Bureau.

Your Committees received testimony in opposition to this measure from the Department of Agriculture.

Your Committees find that there are serious concerns that former irrigation system users continue to be assessed water toll charges and acreage assessments when they have not used any water from an irrigation system. This measure aims to ensure that former irrigation system users, who have weir, water meter, or water flow measuring instruments that are removed by the Department of Agriculture, are not charged for the use of water, but also prevent erroneous water toll charges and acreage assessments.

According to testimony received by your Committees, the proposed new language amended in section 1 of this measure is inconsistent with the water service application process.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the proposed new language in section 1 of this measure and replacing it with language that requires the Chairperson of the Board of Agriculture or their designee to annually notify all irrigation users by mail and conduct in-person visits on procedures to remove unused irrigation system water meters and stop acreage assessments; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2495, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2495, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 2380 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2149

The purpose and intent of this measure is to:

- (1) Require the Department of Land and Natural Resources to approve or deny any license or permit application relating to aquaculture within ninety days from the date submitted; and
- (2) Appropriate an unspecified amount of funds for the establishment of two full-time equivalent positions within the Division of Aquatic Resources to support the review process of these applications.

Your Committees received testimony in support of this measure from the Department of Agriculture, Department of Land and Natural Resources, Hawaii Aquaculture and Aquaponics Association, Kowa Premium Foods Hawaii Corporation, and three individuals.

Your Committees find that aquaculture not only has the potential to reduce fishing pressure on stressed food stocks and lead to the recovery of over-exploited native fish and invertebrate species, but also can be an integral part of local food production and security in the State. However, the lengthy processing time of aquaculture-related permit and license applications, due to the complexity of certain applications and lack of dedicated full-time permanent staff, poses a hardship on applicants. This measure would facilitate the timely review of these applications and the issuance of permits and licenses necessary for aquaculture-related activities in the State.

Your Committees have amended this measure by inserting an appropriation amount of \$225,000.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2149, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2149, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2381 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2159

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture, in coordination with the Office of Planning and Sustainable Development, to prepare and periodically update the State Agricultural Functional Plan to include other agricultural updates that expand the State's priority on food by including wild seafood as a viable food source; and
- (2) Require the Governor to submit the updated plan to the Legislature prior to the Regular Session of 2026.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, Office of Planning and Sustainable Development, Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Hawai'i Farm Bureau, and three individuals.

Your Committees received comments on this measure from the Department of Agriculture, Hawaii Food Industry Association, and one individual.

Your Committees find that since the State Agriculture Functional Plan was last updated in 1991, Hawaii's agricultural industry has significantly grown and diversified to include flowers and nursery products, vegetables, fruits, forest products, cacao, coffee, and aquaculture. Your Committees further find that Hawaii's aquaculture industry continues to be one of the fastest-growing segments of Hawaii agriculture and has become an important source of food and other products for local sale and export. Your Committees also find that updating the State Agricultural Functional Plan would provide guidance on developing the aquaculture industry and support food sustainability in the State. This measure will therefore support food and nutrition security in the State.

According to testimony received by your Committees, the Department of Agriculture has no authority to set policy, establish objectives, or enforce action on seafood sustainability. In addition, the Department's expertise and regulatory authority with regards to fish and seafood is limited to net-pen aquaculture and other farm-raised seafood.

Your Committees have amended this measure by:

- (1) Replacing references to "seafood sustainability" with "aquaculture" and "wild seafood" with "freshwater and saltwater aquatic organisms";
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2159, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2159, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 2382 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2155

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to:
 - (A) Identify and evaluate each parcel of certain state-owned lands; and
 - (B) Contract a third-party entity to compile a report that evaluates the agricultural land use potential of certain parcels of state-owned lands greater than five acres; and
- (2) Appropriate funds for the report.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committees received comments on this measure from the Department of Agriculture and Department of Land and Natural Resources.

Your Committees find that although it is the goal of the State to double local food production by 2030, eighty-five to ninety percent of the food in the State is imported. Your Committees recognize that not only is forty-two percent of the agricultural land in the State currently unfarmed, but that the government is also the largest landowner in the State. Your Committees further find that to identify and effectively utilize state agricultural lands for food production, a comprehensive report on the agricultural potential of those lands is needed. This measure aims to increase the State's self-sufficiency by providing policy makers with key information regarding the agricultural potential of certain state lands for various crops and livestock production.

According to testimony received by your Committees, an appropriation of \$1,000,000 is necessary for the Department of Agriculture to carry out the duties required by this measure.

Your Committees have amended this measure by:

- (1) Deleting the requirement for the report to include the nautical direction of each parcel of certain state-owned lands greater than five acres;
- (2) Inserting an appropriation amount of \$1,000,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2155, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2155, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 2383 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2501

The purpose and intent of this measure is to require the Hawaii Invasive Species Council to prioritize the protection of exceptional trees.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau and one individual.

Your Committees received comments on this measure from the Hawaii Invasive Species Council.

Your Committees find that invasive species have become one of the most devastating problems impacting the State's environment and economy. Your Committees further find that the State has a duty to enhance, whenever and wherever possible, the natural

environment of the State. This measure will further safeguard trees and stands or groves of trees with historic or cultural value from destruction.

Your Committees have amended this measure by clarifying that the Hawaii Invasive Species Council shall prioritize the protection of exceptional trees from invasive species.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2501, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2501, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 2384 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2147

The purpose and intent of this measure is to promote the use of certain recycled wastewater throughout the State. Specifically, this measure:

- (1) Requires any nonpotable water users or developers of real property within an unspecified number of miles of a wastewater treatment plant to use R-1 water for nonpotable water usage; and
- (2) Appropriates an unspecified amount of funds to the Department of Land and Natural Resources:
 - (A) To enforce R-1 water usage requirements; and
 - (B) For the establishment of an unspecified number of full-time equivalent positions within the Commission on Water Resource Management.

Your Committees received testimony in support of this measure from the Honolulu Board of Water Supply, Ulu pono Initiative, and Agriculture and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i.

Your Committees received comments on this measure from the Department of Health and Department of Land and Natural Resources.

Your Committees find that water is a precious resource that needs to be preserved and conserved to ensure sustainability for future generations. Your Committees further find that increasing nonpotable water use is a viable solution to offset the demand on Hawai'i's vital and finite water resources. Your Committees note that R-1 recycled water is disinfected and poses no impact to public health relative to other types of nonpotable irrigation supplies.

Your Committees also find that not all wastewater treatment plants treat wastewater to R-1 water standards. Your Committees further note that the Department of Health, rather than the Commission on Water Resource Management, has the authority to enforce laws relating to water pollution. According to multiple testimonies received by your Committees, the Legislature appropriated funding for fiscal year 2024-2025 for additional planning and study to better understand the potential expansion of recycled water reuse in the State through a statewide assessment to utilize reclaimed water for uses other than drinking water and potable water needs in all state and county facilities by December 31, 2045, and to conduct a study for water security. Your Committees believe that this study should be completed before the establishment of reuse zones and find that the results of the study will be available in two years.

Your Committees have amended this measure by:

- (1) Requiring any nonpotable water users or developers of real property adjacent to or within reach of existing suitable infrastructure connected to a wastewater recycling facility that treats wastewater to R-1 water standards to use R-1 water for nonpotable water usage after January 1, 2026;
- (2) Amending the definition of R-1 water to mean "recycled water that has been oxidized, filtered, and disinfected to meet the corresponding standards set in chapter 11-62, Hawaii Administrative Rules";
- (3) Moving the positions established to be within the Department of Health rather than the Commission on Water Resource Management;
- (4) Deleting language that would have appropriated funds to the Department of Land and Natural Resources to enforce R-1 water usage requirements;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2147, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2147, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2385 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2329

The purpose and intent of this measure is to appropriate funds, including for positions, equipment, and maintenance and operating costs, to produce pua (juvenile stripe mullet) for fishponds and stock enhancement.

Your Committees received testimony in support of this measure from the Department of Agriculture, Marine Science Learning Center at Wai'anae High School, Agricultural and Food Security Committee of the Environmental Caucus of the Democratic Party of Hawai'i, Hawaii Aquaculture and Aquaponics Association, Kua'aina Ulu 'Auamo, and two individuals.

Your Committees received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that mullet production contributes to food security, cultural preservation, education, and employment opportunities in aquaculture in the State. Your Committees recognize that currently there is strong interest and community engagement, especially from youth, in loko ai (traditional Hawaiian fishponds) and fishpond culture. According to testimony received by your Committees, mullet production is an important component to restore the health of traditional Hawaiian fishponds and their surrounding ecosystem. This measure will ensure a reliable source of stocking material for fishpond restoration efforts and wild stock enhancement for the benefit of the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2329 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2386 Commerce and Consumer Protection on S.B. No. 2726

The purpose and intent of this measure is to:

- (1) Require the Legislative Reference Bureau to conduct a study on condominium property regimes and the approaches used in certain other jurisdictions with respect to ombudsman programs, licensing for management, alternative dispute resolution, governmental regulation, owner education, and owner access to condominium documents; and
- (2) Make an appropriation for the study.

Your Committee received testimony in support of this measure from the AARP Hawai'i, Hawaii First Realty LLC, Community Associations Institute, Palehua Townhouse Association, and eight individuals.

Your Committee received comments on this measure from the State Procurement Office, Legislative Reference Bureau, and two individuals.

Your Committee finds that Act 189, Session Laws of Hawaii 2023, established a Condominium Property Regime Task Force to examine and evaluate certain issues regarding condominium property regimes and to conduct an assessment of the existing alternative dispute resolution systems that were established by the Legislature. On December 15, 2023, the Condominium Property Regime Task Force submitted its interim report to the Legislature, which requested the Legislature to task the Legislative Reference Bureau with studying and reporting on several specific subjects relating to condominium property regimes that would enable the Task Force to thereafter recommend legislation suitable to Hawaii's needs on an informed and objective basis. Therefore, this measure requires and appropriates funds for the Legislative Reference Bureau to complete the requested study of condominium subjects in other states.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2726, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2726, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2387 Commerce and Consumer Protection on S.B. No. 2727

The purpose and intent of this measure is to allow high-rise residential condominium properties to be eligible for commercial property assessed financing.

Your Committee received testimony in support of this measure from the Hawai'i Green Infrastructure Authority; Hawai'i State Energy Office; Office of Planning and Sustainable Development; Petros PACE Finance, LLC; Island Insurance Company, Limited; Hawaii Insurers Council; C-PACE Alliance, Inc.; Holomua Collaborative; Palehua Townhouse Association; Parkland Gardens AOA Board of Directors; CastleGreen Finance, LLC; Nuveen Green Capital; Association of Apartment Owners at Pat's at Punalu'u; Hawaii Solar Energy Association; Contessa Condominium; Kokua Council; Hawai'i Energy; and five individuals.

Your Committee received comments on this measure from the Hawaii Bankers Association and Hawaii Credit Union League.

Your Committee finds that the commercial property assessed financing program, known as C-PACER in Hawaii, enables eligible commercial property owners to access financing for qualifying improvements on their property and repay the investment through a voluntary assessment, similar to a real property tax. Your Committee finds that allowing residential high-rise condominium properties to participate in C-PACER can help finance the installation of fire safety measures and other measures related to energy efficiency, renewable energy, water conservation, and resiliency at more attractive rates and terms than may be currently available with conventional financing. Therefore, this measure allows high-rise residential condominium properties to participate in C-PACER.

Notwithstanding, your Committee has heard the testimony of the Hawaii Bankers Association, which notes that while they appreciate the need for condominiums to access C-PACER, they are cautious regarding any intention to have this program apply to residential settings because of the potential impacts to the residential mortgage market. Your Committee has heard their concern and acknowledges that the purpose of this measure is to allow condominium property regimes of more than six units to access the existing C-PACER program and to follow the requirements under section 196-64.5, Hawaii Revised Statutes (HRS), which includes the requirement to obtain the prior written consent of each holder or loan servicer of any mortgage that encumbers or otherwise secures the property.

Your Committee has amended this measure by:

- (1) Clarifying that for high-rise residential condominium properties participating in the C-PACER program, commercial property assessed financing assessments shall be levied and collected in the manner as provided under chapter 514B, HRS, rather than the levy and collection requirements pursuant to section 196-64.5, HRS;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2727, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2727, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2388 Commerce and Consumer Protection on S.B. No. 3332

The purpose and intent of this measure is to:

- (1) Temporarily:
 - (A) Extend the period for a notice of termination of a rental agreement, beginning November 1, 2024;
 - (B) Require landlords to engage in mediation and delay filing an action for summary possession if a tenant schedules or attempts to schedule mediation; and
 - (C) Require landlords to provide specific information in the ten-calendar-day notice to tenants; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from The Judiciary; Mediation Center of the Pacific, Inc.; Catholic Charities Hawai'i; Hawai'i State Coalition Against Domestic Violence; Ku'ikahi Mediation Center; Palehua Townhouse Association; Hawai'i Housing Affordability Coalition; Hawaii Disability Rights Center; Kauai Economic Opportunity, Inc.; and nine individuals.

Your Committee received comments on this measure from the Department of Human Services, Hawaii Appleseed Center for Law and Economic Justice, and Hawai'i Association of REALTORS.

Your Committee finds that many Hawaii residents continue to face challenges paying their rent. Your Committee further finds that Act 57, Session Laws of Hawaii 2021 (Act 57), encouraged communication and facilitated mediation between landlords and tenants to help encourage collaborative solutions and reduce evictions when possible. Your Committee finds that although the provisions of Act 57 have since expired, the pre-litigation mediation program's success warrants the re-adoption of its most effective provisions. Therefore, this measure would reimplement certain provisions of Act 57 and encourage tenants and landlords to engage in early mediation.

Notwithstanding, your Committee notes that a separate measure, S.B. No. 3331 (2024), which was concurrently heard by your Committee, is a substantially similar measure that also encourages mediation between landlords and tenants. Your Committee concludes that the language in S.B. No. 3331 (2024), is preferable, as it resolves the potential subject-title concerns raised by the Department of Attorney General with respect to the provisions of this measure in its current form. Your Committee also acknowledges the separate concerns raised in testimony with respect to various provisions of S.B. No. 3331 (2024), regarding the lack of a rent relief program with respect to S.B. No. 3332. Therefore, amendments to this measure are necessary to address these various issues.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 3331 (2024), a substantially similar measure, and further amending the measure to:
 - (A) Codify the pre-litigation mediation program into chapter 521, Hawaii Revised Statutes;
 - (B) Amend the definition of "final eviction moratorium";
 - (C) Clarify that the Governor may continue the eviction moratorium until the termination or expiration of any emergency proclamation; and
 - (D) Delete language that would have allowed a landlord to request all costs incurred during the pre-litigation mediation process if a tenant defaults on a mediated agreement or fails to attend a scheduled mediation;
- (2) Inserting language to establish an emergency rent relief program available to participants in pre-litigation mediation and appropriating funds accordingly;

- (3) Inserting language to specify that this measure shall not be applied so as to impair any contract in a manner that violates either the Hawaii State Constitution or the United States Constitution;
- (4) Amending section 1 to reflect its amended purpose;
- (5) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3332, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3332, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2389 (Joint) Water and Land and Agriculture and Environment on S.B. No. 3338

The purpose and intent of this measure is to:

- (1) Establish within the Department of Land and Natural Resources a policy lead and coordinator for Red Hill Water Alliance Initiative initiatives;
- (2) Create the Red Hill Remediation Special Fund; and
- (3) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Honolulu Board of Water Supply, University of Hawai'i System, Sierra Club of Hawai'i, Democratic Party of Hawai'i, Kūpuna for the Mo'opuna, Environmental Caucus of the Democratic Party of Hawai'i, Free Access Coalition, and twenty-four individuals.

Your Committees received comments on this measure from the Department of Budget and Finance and five individuals.

Your Committees find that the United States Navy's Red Hill Bulk Fuel Storage Facility consists of twenty steel-lined underground storage tanks that were built from 1940 to 1943. On November 20, 2021, about ninety-three thousand individuals served by the Navy's potable water system for Joint Base Pearl Harbor-Hickam were directly affected when the Navy's Red Hill shaft was contaminated by the release of up to nineteen thousand gallons of fuel, including JP-5 jet fuel, stored at the Red Hill Bulk Fuel Storage Facility. Over six thousand individuals sought medical attention, and one thousand were forced to leave their homes due to the contamination. Your Committees further find that on May 9, 2023, officials from the State and City and County of Honolulu signed a unified statement on Red Hill, recognizing the stewardship responsibility to ensure that there is clean water on Oahu for future generations. The Red Hill Water Alliance Initiative (WAI), a working group, met regularly in 2023 since the signing of the unified statement. The Red Hill WAI posed questions, conducted research, listened to subject-matter experts, and formulated recommended policies. This measure will create a special fund, which will enable the WAI to fund necessary efforts to remediate the contamination resulting from the Red Hill Bulk Fuel Storage Facility.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Land and Natural Resources shall be the State's policy lead on Red Hill WAI initiatives;
- (2) Adding language that requires the cost of the remediation of the aquifer be borne by the United States Navy;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3338, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3338, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 5. Noes, none. Excused, none.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2390 (Joint) Public Safety and Intergovernmental and Military Affairs and Labor and Technology on S.B. No. 3084

The purpose and intent of this measure is to exempt Hawaii National Guard service members activated by the Governor or the Governor's designated representative to state active duty from enrollment in the Employees' Retirement System of the State of Hawaii.

Your Committees received testimony in support of this measure from the Department of Defense, Hawai'i Army National Guard, and eight individuals.

Your Committees received comments on this measure from the Employees' Retirement System.

Your Committees find that under existing law, Hawaii National Guard personnel who are ordered to active duty in the service of the State are designated as state employees and after ninety days of active-duty service are required by law to make mandatory contributions to the State's Employees' Retirement System (ERS). Your Committees further find that while they are required to pay at

least eight percent to the ERS, they are only vested for retirement if the service member is employed by the State for ten years, which has never occurred. This measure will improve the Hawaii National Guard's posture and flexibility in responding to state disasters and emergencies by exempting service members from enrollment into the ERS.

Your Committees have amended this measure by:

- (1) Clarifying that members of the Hawaii National Guard ordered into active duty to provide services to the State shall be ineligible for membership in the ERS based on the active duty;
- (2) Removing language that would have provided that any member of the ERS who takes a leave of absence to be on active duty in service to the State shall be entitled to all benefits and required to make all employee contributions under the ERS for the period during which the employee is on active duty in service to the State;
- (3) Clarifying that any member of the Hawaii National Guard who is an employee of the State or any county, in a position other than as a member of the Hawaii National Guard ordered into active duty to provide service to the State, shall not be precluded from membership in the ERS or being credited with membership service credit for active military service; and
- (4) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3084, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3084, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 2391 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3085

The purpose and intent of this measure is to authorize the payment of allowances for TRICARE Reserve Select coverages to junior officers, warrant officers, or enlisted personnel of the Hawaii National Guard ordered to active duty for more than thirty days in service to the State.

Your Committee received testimony in support of this measure from the Department of Defense; Hawaii Emergency Management Agency; Hawai'i Army National Guard; 154th Security Forces Squadron, Hawaii Air National Guard; Hawaii National Guard Association; and eight individuals.

Your Committee finds that there currently is no authority to provide health insurance for Hawaii National Guard service members who are ordered to active duty in the service of the State. Your Committee further finds that the lack of health insurance creates additional challenges for service members to volunteer for active duty in service of the State without experiencing great personal hardship. This measure will alleviate service member's concerns about health care coverage, increase the available volunteer pool, and improve the Hawaii National Guard's response to future emergencies within the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3085, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3085, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2392 (Majority) Public Safety and Intergovernmental and Military Affairs on S.B. No. 3147

The purpose and intent of this measure is to clarify that the Director of Law Enforcement has authority to issue subpoenas as part of the investigative powers of the Department.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and one individual.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender.

Your Committee finds that Act 278, Session Laws of Hawaii 2022, reorganized the Department of Public Safety into the Department of Law Enforcement and Department of Corrections and Rehabilitation. However, for the Department of Law Enforcement to fully effectuate its mandate to administer state criminal law enforcement, subpoena powers for the Director of Law Enforcement are necessary for thorough investigations. This measure promotes public safety while ensuring the Department of Law Enforcement has powers necessary to fulfill its mission.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3147, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3147, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2393 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3259

The purpose and intent of this measure is to permanently reinstate the liability protections previously afforded to county lifeguards providing services at state beach parks or in the ocean.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee received testimony in opposition to this measure from the Hawaii Association for Justice.

Your Committee finds that Act 170, Session Laws of Hawaii 2002, which established liability protection for county lifeguards providing services at state beach parks or in the ocean, except in cases of gross negligence or wanton acts or omissions, was repealed in 2017. Your Committee further finds that providing this limited liability protection is necessary as some counties do not provide lifeguard services at state beach parks resulting from the fear of potential liability. This measure will help protect the lives of the State's residents and visitors by reinstating liability protections for lifeguards.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3259, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3259, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2394 Health and Human Services on S.B. No. 2323

The purpose and intent of this measure is to:

- (1) Prohibit the assessment of any fines, fees, or court costs against a person who was adjudicated for an offense committed while the person was a minor under the age of eighteen years, or against the person's parent or guardian;
- (2) Discharge all related debt obligations assessed prior to the effective date of this measure;
- (3) Limit court ordered community service for minors to seventy-two hours; and
- (4) Repeal the statewide curfew for minors.

Your Committee received testimony in support of this measure from the Office of the Public Defender, Community Alliance on Prisons, Policy Advocacy Clinic at Berkely Law, ACLU of Hawai'i, Opportunity Youth Action Hawai'i, Hawai'i Friends of Restorative Justice, CARES, and one individual.

Your Committee received comments on this measure from the Department of the Attorney General and The Judiciary.

Your Committee finds that charging fees, fines, and court costs against youth causes undue hardship when choosing between paying court costs or meeting basic needs. Your Committee further finds that assessing fines in juvenile justice proceedings is not an evidence-based practice for rehabilitating, deterring, or even punishing delinquent youth. This measure alleviates the economic burdens placed on juveniles and their families to reduce recidivism and the resulting escalation of crime.

Your Committee notes the testimony of the Department of the Attorney General raising concerns over the measure's repeal of language in existing law allowing minors who have committed an act constituting graffiti to pay restitution to the victim rather than remove the graffiti from the affected property themselves. The Department explained that limiting the method of restitution to removal of the graffiti may require the minor to do so even in situations that may otherwise be dangerous, such as removing graffiti on an overpass sign. Furthermore, monetary restitution will not be a burden on the minor, as a minor, upon being ordered to pay restitution to a victim, will be given the option to participate in the Judiciary's Accountability Program (Papa Hoike Kuleana) that will pay applicable restitution to victims on behalf of the minor upon the minor's completion of the required community service work. Accordingly, this measure requires amendments to address this concern.

Therefore, your Committee has amended this measure by:

- (1) Restoring existing statutory language to allow a minor who has committed an act constituting graffiti or the minor's parents or legal guardians to pay for the actual cost of having the damaged property repaired or replaced rather than remove the graffiti themselves; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2323, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2323, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2395 Commerce and Consumer Protection on S.B. No. 2121

The purpose and intent of this measure is to:

- (1) Authorize consumers aggrieved by the conduct of a mortgage loan originator licensee to recover from the Mortgage Loan Recovery Fund;
- (2) Allow for excess moneys in the Mortgage Loan Recovery Fund to be used for certain training and educational purposes; and
- (3) Increase to \$150,000 the restitution available to consumers from the Mortgage Loan Recovery Fund.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that a person who holds a court order against a mortgage loan originator company licensee for fraud, deceit, or misrepresentation, is eligible to receive restitution from the Mortgage Loan Recovery Fund. However, existing law does not allow a person aggrieved in a similar manner by an individual mortgage loan originator licensee--as opposed to a mortgage loan originator company licensee--to receive restitution from the Mortgage Loan Recovery Fund. Therefore, this measure clarifies that persons aggrieved by the conduct of an individual mortgage loan originator licensee may receive restitution from the fund. Further, this measure will allow a portion of the Mortgage Loan Recovery Fund to be used for certain training and educational purposes, and will increase the amount of restitution available to consumers from the Mortgage Loan Recovery Fund.

Your Committee has amended this measure by deleting \$50,000 and inserting an unspecified amount of funds from the Mortgage Loan Recovery Fund's surplus balance that the Division of Financial Institutions of the Department of Commerce and Consumer Affairs may use for training and educational purposes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2121, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2396 Commerce and Consumer Protection on S.B. No. 2697

The purpose and intent of this measure is to authorize the Department of Commerce and Consumer Affairs to revoke the licenses of architects who have been, or caused an employee of the Department of Commerce and Consumer Affairs to be, convicted of a criminal offense involving the acceptance of a bribe.

Your Committee received comments on this measure from the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee finds that licensed architects that have admitted to and been sentenced for bribing county permitting workers can still run their businesses as usual, so long as their licenses remain in good standing pending any formal action taken to the contrary by the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects (Board). Your Committee further finds that it is in the public interest to allow the Department of Commerce and Consumer Affairs to revoke an architect's license in circumstances where the Board has delayed or failed to take necessary license revocation action. Therefore, this measure allows the Department of Commerce and Consumer Affairs to revoke the licenses of architects involved in certain acts relating to bribery.

Notwithstanding, your Committee notes the testimony of the Board, expressing their concern that the language in the measure as currently drafted that allows for the revocation of the license of any architect who causes an employee of the Department of Commerce and Consumer Affairs to be convicted of a criminal offense involving the acceptance of a bribe is limiting, and that more general language should be used if the intent is to address bribery at large. Therefore, this measure requires amendments to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the Department of Commerce and Consumer Affairs shall revoke the license of any architect who has been, or caused a government employee to be, convicted of a criminal offense involving the acceptance of a bribe; and
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2697, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2697, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2397 Commerce and Consumer Protection on S.B. No. 2728

The purpose and intent of this measure is to:

- (1) Reestablish the Appraisal Management Company Registration Program within the Department of Commerce and Consumer Affairs to conform with the minimum standards of the Appraisal Management Companies Final Rule and federal Dodd-Frank Wall Street Reform and Consumer Protection Act;
- (2) Reestablish registration requirements, standards, and penalties for violations; and
- (3) Make an appropriation from the Compliance Resolution Fund.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS, Hawaii Credit Union League, Real Estate Valuation Advocacy Association, Hawaii Financial Services Association, Hawaii Bankers Association, Mortgage Banker Association of Hawaii, Solidifi US Inc., Appraisal Institute, Rehkemper Brothers LLC, and two individuals.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs.

Your Committee finds that, in 2017, the Legislature enacted Act 118, Session Laws of Hawaii 2017 (Act 118), formerly codified as chapter 466L, Hawaii Revised Statutes (HRS), to establish a regulatory framework for appraisal management companies in Hawaii in conformance with the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (Dodd-Frank Act). However, the framework established by Act 118 was subject to a statutory sunset, and has since been repealed as of June 30, 2023.

Your Committee finds that the continuation of the Appraisal Management Company Registration Program established by Act 118 is in the public's best interest, and that the lack of a program could result in serious unintended and adverse consequences for Hawaii consumers and others involved in the residential appraisal process in the State. The Office of the Auditor likewise concluded in its sunset review of Act 118 (Report No. 23-01) that, while appraisal management companies are not a "profession" or "vocation" that would require regulation pursuant to the Hawaii Regulatory Licensing Reform Act, the public interest justifies the reenactment of the program. Therefore, this measure permanently reenacts the Appraisal Management Company Registration Program established by Act 118.

Notwithstanding, your Committee acknowledges the concerns raised by the Real Estate Valuation Advocacy Association and Hawaii Financial Services Association that time is of the essence in the reestablishment of the Appraisal Management Company Registration Program, and that reimplementation should be expedited. Accordingly, this measure requires amendments to address this issue.

Therefore, your Committee has amended this measure by:

- (1) Inserting an effective date of September 30, 2024, for the provisions of this measure reestablishing the Appraisal Management Company Registration Program;
- (2) Deleting language that would have allowed an appraisal management company to remove an independent appraiser from an appraiser panel without prior written notice, if the removal occurs within the first ninety days after the independent appraiser is added to an appraiser panel;
- (3) Making appropriations from the Compliance Resolution Fund for fiscal year 2023-2024 in addition to fiscal year 2024-2025 for the implementation of the program; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2728, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2728, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2398 Commerce and Consumer Protection on S.B. No. 2863

The purpose and intent of this measure is to require that a portion of state moneys be deposited in a state-owned bank.

Your Committee received testimony in opposition to this measure from the Hawaii Bankers Association.

Your Committee received comments on this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs and Department of Budget and Finance.

Your Committee finds that following the previous economic downturn in 2008 and during the coronavirus disease 2019 pandemic, the lack of financing available for new businesses increased discussions regarding the establishment of state banks. Your Committee finds that state banks, or financial institutions that a state has chartered primarily to provide commercial banking services, can serve an important stabilizing role in the financial markets. Therefore, this measure requires the State to deposit a certain portion of state moneys into a state-owned bank, should a state-owned bank be established in Hawaii.

Your Committee has amended this measure by:

- (1) Requiring that a portion of state moneys be deposited in a financial institution chartered or authorized to do business in the State;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2863, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2399 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2932

The purpose and intent of this measure is to:

- (1) Appropriate \$342,070,000 for capital improvement projects for the agricultural infrastructure of the State;

- (2) Appropriate \$9,500,000 for the establishment, operation, and administration of a food and product innovation network; and
- (3) Appropriate \$4,411,426 for the retirement of outstanding debt on the Waiahole Water System.

Your Committees received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Ulupono Initiative, Hawaii Food+ Policy, Hawai'i Farm Bureau, and Local Food Coalition.

Your Committees find that dedicated funding is necessary for the repair and maintenance of critical agricultural infrastructure projects statewide. Your Committees recognize that the capital improvement projects proposed in this measure will make state water systems more reliable and efficient and provide water retention areas to address fire mitigation, drought conditions, and climate change. Your Committees further recognize that the food product innovation network funded by this measure will create rural jobs, provide additional revenue streams to local farmers and producers, and foster the development of locally-made value-added products to expand the "Made in Hawaii" brand. According to testimony received by your Committees, the debt relief for the Waiahole Water System, also provided in this measure, will allow the Agribusiness Development Corporation to reinvest its revenues back into the century old irrigation system, therefore providing local farmers and ranchers with the resources necessary to support the State's local food production goals.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2932 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2400 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2575

The purpose and intent of this measure is to prohibit:

- (1) The mining, extraction, and removal of minerals from the seabed in all state marine waters, under certain conditions; and
- (2) The issuance of any permit for or in connection with the development or operation of any facility or infrastructure associated with the mining, extraction, or removal of minerals from the seabed within state marine waters.

Your Committees received testimony in support of this measure from the Department of Health, Office of Hawaiian Affairs, Hawaii Chapter of 350.org, Sierra Club of Hawai'i, Greenpeace Foundation – Hawaii, University of Santa Barbara Benioff Ocean Science Laboratory, Huli Pac, For the Fishes, Hawaii's Thousand Friends, Hawaii Wildlife Fund, Kauai Womens Caucus, Malama Pupuokea-Waimea, Hawaii Reef and Ocean Coalition, Sustainable Coastlines Hawai'i, Deep Sea Mining Campaign, National Parks Conservation Association, Oceanic Preservation Society, Environmental Caucus of the Democratic Party of Hawai'i, Surfriider Hawaii LLC, REV Ocean, Blue Climate Initiative, Tetiaroa Society, Friends of Hanauma Bay, The Conservationist Collective LLC, The Marine Mammal Center, Marine Conservation Institute, The Ocean Foundation, Greenpeace, Inc., Te Ipukarea Society, and five individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that seabed mining and related activities threaten not only the State's rich and biodiverse marine ecosystems, and but also ocean-dependent industries, such as commercial and recreational fishing and tourism. Your Committees therefore find that seabed mining is inconsistent with the public interest and the State's obligation to protect its waters under the Hawaii State Constitution. This measure ensures the protection and preservation of the State's valuable marine environment by prohibiting seabed mining in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2575 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2401 Agriculture and Environment on S.B. No. 3024

The purpose and intent of this measure is to reduce and set fixed interest rates for loans under the Agricultural Loan Program.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee finds that to reach the State's goal of doubling local food production by 2030, access to affordable credit and financing is critical to assist existing farms and ranches and to encourage new entrepreneurs to enter the agricultural industry. Your Committee notes that the drastic increase in interest rates in late 2022 caused the interest rate for loans under the Agricultural Loan Program to double from 3.25 percent in December 2022, to 6.5 percent in January 2023. According to testimony received by your Committee, the agricultural industry in the State is already struggling with high input and land costs, increasing inflation, supply chain disruptions, climate change, natural disasters, and loss of markets due to reduced tourism. Your Committee recognizes that setting a fixed interest rate for loans under the Agricultural Loan Program would eliminate confusion and inequity for borrowers based on when they received approval for their loans and increase the cash flow for capital-intensive farming and ranching operations.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3024 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2402 Agriculture and Environment on S.B. No. 2431

The purpose and intent of this measure is to:

- (1) Establish the Agricultural Emergency Loan Revolving Fund to fund Class "D" loans; and
- (2) Appropriate an unspecified amount of funds into and out of the Agricultural Emergency Loan Revolving Fund.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committee received comments on this measure from the Department of the Attorney General and Department of Budget and Finance.

Your Committee finds that the Agricultural Loan Revolving Fund funds all loans made by the Agricultural Loan Program (Program), resulting in competition for its limited funds. Your Committee recognizes that natural and economic disasters now occur with greater frequency, increasing the need for the Program to extend Class D loans or emergency loans to agricultural enterprises. However, your Committee notes that because the Program does not reserve funds for any specific purpose, the issuance of these loans has decreased the availability of funding for other agricultural uses, such as loans to encourage agricultural development and expand local food production. Your Committee believes that a dedicated source of emergency funding, as proposed by this measure, will allow the Department of Agriculture to offer financial assistance for the rapid recovery of farms and ranches from agricultural emergencies without diverting funding necessary for other statutorily mandated uses.

Your Committee recognizes the concerns raised by the Department of the Attorney General as the measure is unclear as to why Class D emergency loans cannot be issued successfully through funds obtained through the general fund appropriation process. Your Committee respectfully requests that the Department of Agriculture address this concern as this measure moves forward in the legislative process.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2431 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2403 Agriculture and Environment on S.B. No. 2419

The purpose and intent of this measure is to appropriate \$2,500,000 for the biosecurity program of the Department of Agriculture to develop and implement projects for clean plant material, agricultural treatments, diagnostics, and pest management.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Maui County Farm Bureau; Land Use Research Foundation of Hawaii; Hawaii Crop Improvement Association; Hawaii Cattlemen's Council, Inc.; Hawaii Young Republicans; Sierra Club of Hawai'i; Food + Policy; Hawai'i Farm Bureau; O'ahu Invasive Species Committee; Hawaii Floriculture and Nursery Association; Ponoholo Ranch, Limited; Larry Jefts Farms, LLC; and eleven individuals.

Your Committee received comments on this measure from Ka 'Ohana O Na Pua.

Your Committee finds that the entry and establishment of a new, devastating pest or disease is an ever-present reality, given the increase and expansion of global trade and travel. Your Committee further finds that the State's biosecurity program established by the Department of Agriculture (Department) is vital to prevent and manage invasive species from entering and spreading throughout the State. According to testimony received by your Committee, the Department has long been underfunded and understaffed to meet the growing needs and challenges of its biosecurity mission. This measure will provide necessary resources for the Department to build local capacity and execute operations to effectively protect the fragile environment of the State's island communities against invasive species on multiple fronts, while growing the local agricultural industry and increasing levels of self-sufficiency and sustainability in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2419 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2404 Agriculture and Environment on S.B. No. 2358

The purpose and intent of this measure is to appropriate \$4,250,000 for the Department of Land and Natural Resources' Native Resources and Fire Protection Program and for the Hawaii Invasive Species Council to address the invasive species crisis in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Farm Bureau, Sierra Club of Hawai'i, Coordinating Group on Alien Pest Species, Ka 'Ohana O Na Pua, and three individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that despite the growing threat of invasive species in the State, annual net funding allocation for the Hawaii Invasive Species Council (Council) has not increased in over four years. Your Committee recognizes that approximately ninety percent of the Council's funding is used as bridge funding to supplement strategic interagency projects and programs under other state agencies

and as competitive grants for innovative projects that address invasive species prevention, control, outreach, and research. This measure will provide necessary funding for the Council to ensure its viability to control and eradicate invasive species in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2358 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2405 Agriculture and Environment on S.B. No. 2359

The purpose and intent of this measure is to appropriate an unspecified amount of funds to support the Hawai'i Ant Lab in mitigating the effects of little fire ants in the State.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Pest Control Association, Sierra Club of Hawai'i, Hawai'i Farm Bureau, Coordinating Group on Alien Pest Species, O'ahu Invasive Species Committee, North Shore Neighborhood Board No. 27, Ka 'Ohana O Na Pua, and five individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that the Hawai'i Ant Lab was established in 2009 to address the overwhelming need for research and assistance to address and eradicate little fire ants and other invasive ants in the State. Your Committee recognizes that little fire ants have caused significant disruption and economic damage on Hawaii island and that little fire ant infestations on Oahu are currently on the rise. According to testimony received by your Committee, this measure will provide desperately needed funding for the Hawai'i Ant Lab to fully fund current staff and add new staff; address the short- and long-term needs to control little fire ants; develop new tools to manage more widespread infestations; and increase extension services to support severely impacted farms and industries.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2359 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2406 Agriculture and Environment on S.B. No. 2560

The purpose and intent of this measure is to require each lease that the Department of Agriculture (Department) enters into, renews, or extends after a certain date to contain provisions that allow the Department to:

- (1) Enter the premises at any time to identify, investigate, control, or eradicate invasive species; and
- (2) Terminate the lease if the lessee:
 - (A) Refuses the Department entry; or
 - (B) Is found in violation of any applicable law, rule, or order relating to the control or eradication of invasive species.

Your Committee received testimony in support of this measure from the Department of Agriculture, Sierra Club of Hawai'i, Coordinating Group on Alien Pest Species, O'ahu Invasive Species Committee, and four individuals.

Your Committee received comments on this measure from the Hawai'i Farm Bureau.

Your Committee finds that invasive species have become one of the most devastating problems impacting the State's environment and economy. Your Committee recognizes that the cost to prevent the cultivation and spread of invasive animals, insects, weeds, diseases, and other pests is substantially less than the cost to contain or eradicate them, and believes that the State should be utilizing all possible preventative measures to limit the spread of invasive pests in the State. This measure will help ensure that lessees of state agricultural lands do not spread invasive pests that are detrimental to the agricultural industry and natural resources of the State.

According to testimony received by your Committee, this measure addresses a gap in invasive pest detection and eradication. Your Committee further recognizes the existing staffing shortages at the Department of Agriculture and notes that requiring a lessee to maintain control of any invasive pests on the leased premises would mitigate the cultivation and spread of any invasive pests on state agricultural land.

Accordingly, your Committee has amended this measure by:

- (1) Replacing references to "invasive species" with "invasive pest" and inserting a definition of "invasive pest";
- (2) Inserting language that allows the Department of Agriculture to:
 - (A) Enter leased state lands to survey for invasive pests; and
 - (B) Require a lessee to maintain control of any invasive pests on the leased premises, at the lessee's expense; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2560, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2560, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2407 Agriculture and Environment on S.B. No. 2479

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Farm to Food Bank Program and the Hawaii Food Assistance Program Special Fund to alleviate food shortages in the State; and
- (2) Appropriate \$5,000,000 into and out of the Hawaii Food Assistance Program Special Fund.

Your Committee received testimony in support of this measure from the Department of Agriculture; Office of Economic Revitalization of the City and County of Honolulu; one member of the Kauai County Council; Kauai Climate Action Coalition; Hawai'i Farmers Union United; Hawaii Food Industry Association; Hawai'i Farm Bureau; Hawaii Primary Care Association; Kaiser Permanente Hawai'i; Hawaii Cattlemen's Council, Inc.; Hawai'i Public Health Institute; Young Brothers, LLC; Hawai'i Foodbank, Inc.; Hawaii Chapter of 350.org; Giving Hope Hawaii; Hawai'i Alliance for Progressive Action; Aloha Diaper Bank; 'Elepaio Social Services; Waianae Coast Comprehensive Health Center; Angel Network Charities, Inc.; Armed Services YMCA Hawaii; Hawai'i Pacific Health; Kapaa Missionary Church; and twenty-eight individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii's food banks have provided food to residents who experience food insecurity throughout the years, especially during the coronavirus disease 2019 (COVID-19) pandemic. Food banks were able to meet this increased need during the height of the COVID-19 pandemic due to a major increase in federal funds and philanthropy. However, funding from these sources has declined considerably since, and Hawaii's food banks will need additional support to continue to meet the State's food needs. According to testimony received by your Committee, farm to food bank programs are essential to create a more equitable distribution of fresh, nutritious, and locally sourced produce in the State. This measure will support the efforts of Hawaii's food banks and provide local food producers with a wider market to support their operations, while keeping moneys circulating within the State to boost the local economy.

Your Committee recognizes the concerns raised by the Department of the Attorney General as the measure is unclear as to why the Hawaii Farm to Food Bank Program established by this measure cannot be implemented successfully under the general fund appropriation process. Your Committee notes that the Governor has appropriated \$750,000 in the proposed supplemental budget for fiscal year 2024-2025 to fund a farm to food bank program, and respectfully requests that this concern be considered as this measure moves forward in the legislative process.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2479, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2479, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2408 Agriculture and Environment on S.B. No. 2083

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture's Aquaculture Development Program to conduct a feasibility study to identify potential sites in the State for restorative aquaculture activities; and
- (2) Require the Department of Agriculture to submit a report to the Legislature no later than twenty days before the Regular Session of 2025; and
- (3) Appropriate \$300,000 for the Department of Agriculture's Aquaculture Development Program to conduct a feasibility study to identify potential sites in the State for restorative aquaculture activities.

Your Committee received testimony in support of this measure from the Department of Agriculture and the Hawai'i Farm Bureau.

Your Committee finds that restorative aquaculture is a sustainable opportunity for food production that can also benefit the ocean and climate. Your Committee recognizes that the State is well-positioned and suited for restorative aquaculture activities because of its favorable climate, critical ocean biosecurity through natural isolation, and high seafood consumption. According to testimony received by your Committee, thorough planning is necessary to sustain initiatives that incorporate conservation benefits with good aquacultural practices. The identification of viable locations for restorative aquaculture activities as provided in this measure will support proper permitting, efficient resource allocation, and community support for projected activities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2083, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2083, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2409 Agriculture and Environment on S.B. No. 2412

The purpose and intent of this measure is to:

- (1) Establish the Aquaculture Advisory Committee within the Department of Agriculture; and
- (2) Appropriate an unspecified amount of funds for the establishment of the Aquaculture Advisory Committee.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau.

Your Committee received comments on this measure from Department of Agriculture and Department of the Attorney General.

Your Committee finds that the growth of the State's aquaculture industry increases the economic resilience and food sustainability of the State. According to testimony received by your Committee, the farm gate value of Hawaii's aquaculture industry is \$80,000,000, making aquaculture the second-highest contributor to the economy in diversified agriculture. Your Committee recognizes that more investment and research into the aquaculture industry is necessary to strengthen and build the capacity for this growing industry. This measure will establish an advisory committee to provide expert and credible guidance to the State's aquaculture development sector.

Your Committee has amended this measure by:

- (1) Inserting language requiring a representative of the Hawai'i Farm Bureau that is experienced in aquaculture to serve as a member of the advisory committee;
- (2) Inserting language clarifying that the members of the advisory committee shall serve without compensation, but shall be reimbursed for expenses, including travel expenses, necessary for the performance of their duties;
- (3) Inserting an appropriation amount of \$50,000; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2412, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2412, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2410 Agriculture and Environment on S.B. No. 2794

The purpose and intent of this measure is to appropriate an unspecified amount of funds to the Department of Agriculture for:

- (1) A meat inspection program; and
- (2) Costs for meat inspection services under chapter 159, Hawaii Revised Statutes, including the establishment of one full-time equivalent (1.0 FTE) meat inspection program supervisor position and three full-time equivalent (3.0 FTE) meat inspector positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; Land Use Research Foundation of Hawaii; Hawai'i Farmers Union United; Hawai'i Farm Bureau; Maui County Farm Bureau; and one individual.

Your Committee finds that the inspection of livestock prior to slaughter is a critical step to ensuring the quality and safety of the State's locally produced meat supply. Your Committee further finds that the State's meat inspection program was discontinued in the mid-1990s and since then, the State has been wholly relying on the United States Department of Agriculture Food Safety Inspection Service to perform meat inspection services statewide. Your Committee believes that the restoration of a state meat inspection program will grow local meat production while maintaining food safety standards. Your Committee notes that this measure can also address issues relating to invasive axis deer and wild boars as the expansion of the State's meat processing capacity includes increasing the local supply of wild game meat. This measure will promote the continued growth of the State's livestock industries by establishing meat inspection positions in the Department of Agriculture.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2794, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2794, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2411 Agriculture and Environment on S.B. No. 2414

The purpose and intent of this measure is to:

- (1) Establish the Sustainable Food Systems Working Group to develop an interagency food systems plan and submit a report to the Legislature before the Regular Session of 2025;
- (2) Establish an unspecified number of full-time equivalent sustainability specialist positions within the Department of Agriculture; and

- (3) Appropriate an unspecified amount of funds for these positions and for the establishment and operation of the Sustainable Food Systems Working Group.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawaii System, Kauai Climate Action Coalition, Hawaii Food Industry Association, Hawai'i Farm Bureau, Hawai'i Farmers Union United, Hawai'i Alliance for Progressive Action, Local Food Coalition, Food+ Policy, Beyond Organic Consulting Inc., and thirty-six individuals.

Your Committee finds that food security is a critical issue in the State. Your Committee notes that the State imports eight-five percent of its food, making it vulnerable to natural and human disasters. Your Committee believes that the State should be proactive in making its local food production more resilient and further finds that the development of a sustainable food system for the State would enhance the environmental, economic, and social health of all communities in the State. According to multiple testimonies received by your Committee, a coordinated food systems plan lead by key stakeholders across the State's food systems is critical to developing a sustainable and equitable food economy.

Your Committee notes that this measure contains an unspecified appropriation amount for the establishment of an unspecified number of sustainability specialist positions within the Department of Agriculture and for the establishment and operation of the Sustainable Food Systems Working Group. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$75,000.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2414, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2414, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2412 Agriculture and Environment on S.B. No. 2423

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a Healthy Soils Program (Program); and
- (2) Appropriate \$500,000 for the establishment of the Program and to issue awards and other financial incentives pursuant to the Program.

Your Committee received testimony in support of this measure from the Kauai Climate Action Coalition; Hawai'i Forest Industry Association; Hawaii Cattlemen's Council, Inc.; Hawai'i Farm Bureau, Hawai'i Farmers Union United; Democratic Party of Hawai'i; Hawai'i Alliance for Progressive Action; Hawaii Food+ Policy; Haleakala Biochar; Beyond Organic Consulting Inc.; and twenty-five individuals.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that healthy soils are critical for the State to meet its local food production and carbon sequestration goals. According to testimony received by your Committee, soils in Hawaii continue to recover from a century of sugarcane and pineapple production as high levels of commercial monocrop farming have been proven to deplete nutrients, reduce the biodiversity of insects and microbes that are beneficial to soil health, and cause soil erosion. Your Committee recognizes that soil conservation is necessary for food security and, in the face of invasive pests and increasingly extreme climate events, a healthy soils program is necessary to ensure future local food production. This measure will establish a plan and standards for healthy soil development and conservation, and provide small farmers, ranchers, and landowners with education, assistance, and incentives to improve the soil health and build soil carbon stocks in the State.

Your Committee acknowledges the concerns raised by the Department of Agriculture that it does not have the expertise to establish and operate the Healthy Soils Program proposed in this measure.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that allows the Department of Agriculture to consult with or contract a third-party for any needed expertise; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2423, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2423, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (DeCoite). Noes, none. Excused, 1 (Awa).

SCRep. 2413 Agriculture and Environment on S.B. No. 2559

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to inspect certain establishments that are at risk of spreading invasive pests;
- (2) Establish an invasive species placard program with correction and quarantine procedures; and
- (3) Appropriate an unspecified amount of funds to establish the invasive species placard program.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, Coordinating Group on Alien Pest Species, O'ahu Invasive Species Committee, and sixteen individuals.

Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee received comments on this measure from the Department of the Attorney General, Ka 'Ohana O Na Pua, and Hawai'i Farm Bureau.

Your Committee finds that horticultural trade is one of the primary pathways through which invasive pests are spread around the State. According to testimony received by your Committee, color-coded placards, similar to the Department of Health's placard program to ensure food safety and cleanliness in restaurants and other foods establishments, could be effective in restricting the movement of plants from a nursery, farm, or agriculture-related business that are infested with invasive pests within each island and across the State.

Additional testimony received by your Committee notes that because the language of this measure does not establish a warrant procedure to obtain access to an establishment, its information, or records when permission is not granted, or access is denied, by the establishment, the access requirement in this measure may be subject to challenge under the Fourth Amendment of the United States Constitution.

Accordingly, your Committee has amended this measure by:

- (1) Inserting a warrant procedure similar to the procedure that the Department of Agriculture and counties follow to enter private property to control or eradicate any pests pursuant to section 141-3.6, Hawaii Revised Statutes;
- (2) Amending language regarding administrative hearings on the quarantine and treatment of products found to be potential invasive pest hazards to align with existing rules regarding administrative hearings under the Board of Agriculture;
- (3) Deleting the definition of "invasive pest" and replacing references to "invasive pest" with "pest" pursuant to section 150A-2, Hawaii Revised Statutes;
- (4) Inserting a definition for "establishment"; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2559, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2559, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2414 Agriculture and Environment on S.B. No. 2411

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to submit a report to the Legislature no later than twenty days before the Regular Session of 2025; and
- (2) Appropriate \$800,000 for the mitigation and control of the two-lined spittlebug and the recovery of areas affected by the infestation of two-lined spittlebugs.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; University of Hawai'i System; Ka 'Ohana O Na Pua; Ulupono Initiative LLC; Hawaii Cattlemen's Council, Inc.; Ponoholo Ranch, Limited; Larry Jeffs Farms, LLC; Hawai'i Farm Bureau; Coordinating Group on Alien Pest Species; Sierra Club of Hawai'i; Hawaii Leeward Planning Conference; and seven individuals.

Your Committee finds that the invasive two-lined spittlebug not only threatens the State's pasture lands and emerging cattle industry, but also the flora in watersheds and other natural areas critical to the environment and cultural resources of the State. According to testimony received by your Committee, the two-lined spittlebug not only damages forage grasses, but also leaves pasture land vulnerable to soil loss and other invasive weeds, such as fireweed and wild blackberry. This measure will protect both the ranching industry and natural areas of the State against the effects of the two-lined spittlebug by funding the implementation of chemical and mechanical controls, biocontrol and best practices for managing pasture lands, and the reseeding of areas affected by infestation.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2411, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2415 Agriculture and Environment on S.B. No. 2361

The purpose and intent of this measure is to:

- (1) Establish two grant specialist positions within the Department of Agriculture; and

- (2) Appropriate an unspecified amount of funds for the establishment of the two grant specialist positions.

Your Committee received testimony in support of this measure from the Department of Agriculture; Maui County Farm Bureau; Land Use Research Foundation of Hawaii; Ka 'Ohana O Na Pua; Ulupono Initiative LLC; Hawaii Floriculture and Nursery Association; Hawai'i Farm Bureau; Local Food Coalition; Ponoholo Ranch, Limited; and five individuals.

Your Committee finds that there are many federal funding opportunities for agricultural purposes that remain untapped or overlooked due to the lack of adequate grant writing and expertise in the Department of Agriculture. This measure will enhance the Department's capacity to pursue and maximize the availability of federal funds to bolster the State's efforts towards food security and sustainability, while easing the burden of complex application procedures and compliance challenges to farmers, ranchers, and other agricultural operators that pursue federal and other funding.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$225,000; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2361, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2416 Health and Human Services on S.B. No. 2538

The purpose and intent of this measure is to require the Department of Health to prioritize full funding for services, programs, and staff positions under its jurisdiction on the island of Molokai.

Your Committee received testimony in support of this measure from one member of the Maui County Council and two individuals.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that, due to the insufficient number of Department of Health staffing on-island and the lack of efficient and affordable transportation to neighbor islands for care, Molokai residents are at a disproportionate risk of having their mental health conditions worsen. This measure addresses this situation by ensuring funding for Department of Health programs and staffing for the island of Molokai.

Your Committee notes testimony by the Department of Health acknowledging the insufficient number of its staffing on Molokai and requesting an appropriation for additional positions for substance abuse treatment and outreach to the community on Molokai as follows:

- (1) One Substance Abuse Specialist; and
- (2) Four social workers (HSP III), with at least one social worker trained to provide services for children and adolescents.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Health is required to fully fund services, programs, and staff positions under its jurisdiction on the island of Molokai;
- (2) Inserting language that makes an appropriation in an unspecified amount to the Department of Health for the establishment and implementation of a suicide prevention program grounded in Native Hawaiian cultural healing; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2538, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2538, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2417 Health and Human Services on S.B. No. 3129

The purpose and intent of this measure is to:

- (1) Establish the Hui Ho'omana Task Force within the State Health Planning and Development Agency to develop a comprehensive plan to provide universal access to equitable and affordable high-quality health care for state residents; and
- (2) Require the Hui Ho'omana to submit reports to the Legislature.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs; Department of Human Services, State Health Planning and Development Agency, State Council on Developmental Disabilities, Hawai'i - American Nurses Association, AARP Hawai'i, University of Hawai'i System, Hawaii Association of Health Plans, Hawai'i Primary Care Association, The Queen's Health System, Hawaii Medical Service Association, and six individuals.

Your Committee received comments on this measure from Hawai'i Pacific Health, Healthcare Association of Hawaii, and Kaiser Permanente.

Your Committee finds that Hawaii residents deserve universal access and equity to quality health care at an affordable cost. However, the State faces daunting workforce shortages in health care; unacceptable gaps in access to primary and specialty care particularly in rural areas and neighbor islands; inequities among Native Hawaiian, Pacific Islander, and low-income kupuna and keiki populations; unnecessary administrative complexity; and rapidly rising costs. This measure seeks to address these issues by establishing a task force to make recommendations to achieve universal access and equity to quality health care at an affordable cost for state residents.

Your Committee notes the testimony of Hawaii – American Nurses Association requesting that its Executive Director, rather than its president, be invited as a voting member on the task force. Your Committee also notes the testimony of AARP Hawaii, formerly known as the American Association of Retired Persons, requesting that the measure reflect its current name.

Accordingly, your Committee has amended this measure by:

- (1) Replacing the President of the Hawaii Nurses Association with the Executive Director of the Hawaii – American Nurses Association;
- (2) Changing the name of the American Association of Retired Persons to AARP Hawaii;
- (3) Requiring the task force to submit its final report to the Legislature before its dissolution date of July 1, 2025, rather than before the conclusion of the Regular Session of 2025;
- (4) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3129, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2418 Agriculture and Environment on S.B. No. 2363

The purpose and intent of this measure is to:

- (1) Establish a two-year pilot project to examine the effectiveness of prosecuting agricultural crimes in the City and County of Honolulu and County of Kauai; and
- (2) Appropriate \$200,000 for the establishment and implementation of the two-year pilot project.

Your Committee received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committee finds that the City and County of Honolulu suffered the highest rates of theft or vandalism of all farms in the State and that the County of Kauai suffered the third highest rates of theft or vandalism of all farms in the State. Your Committee notes that agricultural crimes, including agricultural theft and vandalism, increase the costs of production and decrease the chances for farming and ranching operations to succeed. Your Committee recognizes that the Legislature passed Act 217, Session Laws of Hawaii 2019, established a two-year Agricultural Theft and Vandalism Pilot Program to examine the effectiveness of prosecuting agricultural theft and vandalism cases in the counties of Hawaii and Maui, including cases of theft and vandalism that affect individuals who are not full-time farmers or ranchers. According to testimony received by your Committee, replication of this pilot program will provide resources to suppress incidences and losses to farmers, ranchers, aquaculturists, and floriculturists in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2363 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2419 Labor and Technology on S.B. No. 3370

The purpose and intent of this measure is to make appropriations to:

- (1) Establish three permanent full-time equivalent (3.0 FTE) Human Resources Specialist V positions within the Department of Human Resources Development; and
- (2) Fund operating, equipment, supplies, promotional materials, marketing, advertising, training, and travel costs for up to fifty intern positions to implement and manage the Intern Glide Path Program.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that the State is currently going through a labor shortage. Your Committee also finds that the Department of Human Resources Development is committed to filling state civil service vacancies with our local workforce, including recent graduates of Hawaii high schools, community colleges, and universities. This measure will allow the Department to establish and manage an Intern Glide Path Program that could identify and map certificate and degree requirements of state jobs to high school and community college Career and Technical Education programs, bridging the gap of high school or community college graduates, with a career path into an internship, and then into civil service positions within the State's Executive Branch.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount for the establishment of Human Resources Specialist V positions from \$213,048 to an unspecified amount;
- (2) Changing the number of Human Resources Specialist V positions to be established from three permanent full-time equivalent (3.0 FTE) positions to an unspecified number;
- (3) Changing the appropriation amount for the implementation and management of the Intern Glide Path Program from \$2,000,000 to an unspecified amount;
- (4) Changing the number of intern positions intended for the Intern Glide Path Program from fifty to an unspecified number;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3370, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3370, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2420 Labor and Technology on S.B. No. 2991

The purpose and intent of this measure is to require the Hawaii Labor Relations Board to establish criteria for the creation of new bargaining units and for the Board to apply those criteria in approving or denying any new bargaining units before submission to the Legislature.

Your Committee received testimony in support of this measure from the University of Hawaii Professional Assembly.

Your Committee received comments on this measure from the Hawai'i Labor Relations Board.

Your Committee finds that the legislature currently holds exclusive authority to determine the standards and criteria, and to statutorily designate new bargaining units through legislation. Your Committee also finds that existing law does not set forth specific, clear procedures and criteria in creating a new bargaining unit. This measure requires the Hawaii Labor Relations Board to establish criteria for creating new bargaining units, accept and review applications for the creation of new bargaining units by applying the criteria, and upon the Board's approval of an application, submit a report and proposed legislation to the Legislature for consideration and enactment.

Your Committee has amended this measure by:

- (1) Clarifying that any employee, employer, or exclusive representative may submit an application to the Hawaii Labor Relations Board proposing to establish a new bargaining unit;
- (2) Specifying the minimum criteria the Hawaii Labor Relations Board must consider in determining the appropriateness of a new bargaining unit;
- (3) Clarifying that the proposed legislation the Hawaii Labor Relations Board is required to submit to the Legislature shall be accompanied by a Decision and Order issued by the Board;
- (4) Inserting a blank appropriation amount to be expended for the purposes of this measure, including the establishment of an unspecified number of full-time equivalent staff positions; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2991, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2991, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2421 Labor and Technology on S.B. No. 2351

The purpose and intent of this measure is to:

- (1) Amend chapter 202, Hawaii Revised Statutes, which governs the Hawaii Workforce Development Council, to be consistent with the General Appropriations Act of 2021, Act 88, Session Laws of Hawaii 2021;
- (2) Rename the "Hawaii Workforce Development Council" as the "Hawaii Workforce Development Board", and the "county workforce development board" as the "local workforce development board";
- (3) Require the Hawaii Workforce Development Board (Board) and local workforce development boards to develop written conflict of interest policies consistent with federal laws and regulations;
- (4) Require the Governor to select the chairperson of the Board from among the private sector members; and
- (5) Require the Board to assist the Governor in coordinating local workforce development boards to improve the workforce development system; and

- (6) Repeal the requirement for the Department of Labor and Industrial Relations to submit an annual report to the Legislature on the activities of the K—12 Agriculture Workforce Development Pipeline Initiative.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, IATSE Local 665, and one member of the State of Hawaii Workforce Development Council.

Your Committee received comments on this measure from the Chamber of Commerce Hawaii, one member of the State of Hawaii Workforce Development Council, and one individual.

Your Committee finds that nationwide, state workforce development boards assist governors by reviewing statewide policies and programs and making recommendations to align workforce, education, training, and employment funding programs in a manner that supports a comprehensive and streamlined workforce development system in the state. As part of the statewide review function in assisting the governors, the federal Workforce Innovation and Opportunity Act and related regulations outline requirements regarding conflicts of interest for recipients and subrecipients of federal awards as well as for state and local workforce development board and standing committee members. This measure amends the Hawaii Workforce Development Council law to be consistent with the state budget as enacted in Act 88, Session Laws of Hawaii 2021, and to conform the State Workforce Development Board statute to the nomenclature and conflict of interest provisions found in the Workforce Innovation and Opportunity Act and related regulations in the Code of Federal Regulations.

Your Committee has amended this measure by:

- (1) Restoring the title of Chapter 202-201, Hawaii Revised Statutes (HRS), to “Hawaii Workforce Development Council” from “Hawaii Workforce Development Board”;
- (2) Restoring language in existing law providing that the advisory commission on employment and human resources is hereby constituted as the Workforce Development Council;
- (3) Clarifying that the Workforce Development Council is administratively attached to the Department of Labor and Industrial Relations;
- (4) Restoring language in existing law that sets forth quorum requirements for the Workforce Development Council;
- (5) Restoring language in existing law that allows the Workforce Development Council to negotiate and enter into contracts to carry out its studies;
- (6) Deleting language that would have repealed section 202-5, Hawaii Revised Statutes, which provides that the Workforce Development Council is placed within the Department of Labor and Industrial Relations for administrative purposes and shall act in an advisory capacity to the Governor;
- (7) Amending section 1 to reflect its amended purpose;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2351, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2422 Agriculture and Environment on S.B. No. 3027

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture, in cooperation with the Office of the Governor, to update and supplement the strategic plan to increase production and food security pursuant to Act 151, Session Laws of Hawaii;
- (2) Require the Department of Agriculture to submit a report to the Legislature twenty days before the Regular Session of 2025; and
- (3) Appropriate \$600,000 to update the strategic plan.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai‘i Farmers Union United; Hawaii Food Industry Association; Hawaii Cattlemen’s Council, Inc.; Hawai‘i Farm Bureau; Local Food Coalition; Kanalani Ohana Farm; and one individual.

Your Committee finds that although the Department of Agriculture’s 2020 “Report on the Strategic Plan to Double Local Food Production and Exports by 2030” provided suggestions to achieve substantial individual or cumulative increases in local food production and export, it must be updated with quantitative and qualitative goals and benchmarks for the State to achieve goals related to the doubling of local food production by 2030. The updates and supplements to the strategic plan proposed in this measure will address the changing landscape of the agricultural industry, especially considering the changes to global and local food systems resulting from the coronavirus disease 2019 pandemic.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3027, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3027, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2423 (Joint) Health and Human Services and Judiciary on S.B. No. 2465

The purpose and intent of this measure is to:

- (1) Require the Department of Health to track and publicly report certain data relating to crisis reports, emergency mental health transports, and court-ordered treatments;
- (2) Require the Department of Health to respond to reports about persons having severe mental illness who are in need of assistance, assess whether those persons fulfill criteria for assisted community treatment, and coordinate the process for an assisted community treatment order if indicated;
- (3) Establish that a court's denial of a petition for involuntary commitment shall serve as notification to the Department of Health that the person should be evaluated for assisted community treatment; and
- (4) Make appropriations.

Your Committees received testimony in support of this measure from the Department of Health; Disability and Communication Access Board; Hawaii Substance Abuse Coalition; Institute for Human Services, Inc.; and three individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that there are many treatments available for psychological disabilities and that like many conditions, the sooner treatment is provided, the more successful the outcome. Crisis intervention centers could benefit from stronger data collection processes to maximize the benefits and development of crisis intervention services. This measure will help establish baseline metrics and improve and extend treatment for individuals with mental health issues.

Your Committees note that this measure, as currently drafted, contains an appropriation for an unspecified amount for the Department of Health to develop and implement educational and training activities for certain policies and respectfully requests that if your Committee on Ways and Means chooses to deliberate on this measure that it consider the figure most appropriate to accomplish its intended purpose. Your Committees further note that this measure references sections of existing law that are scheduled to repeal and in order to preserve these provisions, amendments to this measure are necessary to address this concern.

Accordingly, your Committees have amended this measure by:

- (1) Repealing the sunset date of June 30, 2024, for sections 334-161 and 334-162, Hawaii Revised Statutes, in Act 111, Session Laws of Hawaii 2017;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2465, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2465, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).
Judiciary: Ayes, 5. Noes, none. Excused, none.

SCRep. 2424 (Joint) Labor and Technology and Education on S.B. No. 3090

The purpose and intent of this measure is to authorize newly graduated high school students to be eligible for workers' compensation coverage during the summer following their high school graduation while participating in Department of Education sponsored work-based learning programs.

Your Committees received testimony in support of this measure from the Department of Education and HawaiiKidsCAN.

Your Committees find that the Department of Education has prioritized work-based learning to promote workforce readiness among Hawaii high school students. As students transition from high school to their post-secondary plans, the Department of Education offers new graduates various supports during the summer following their graduation, including college and career advising, training, and internships. While the Department of Education has not incurred workers' compensation costs for students participating in Department-sponsored programs in the last five years, some prospective employers may be hesitant to host new high school graduates based on liability concerns. As hands-on learning in career and technical education programs provide students with a myriad of opportunities, this measure ensures the protection of students engaging in workforce readiness programs.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3090, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3090, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).
 Education: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2425 Judiciary on S.B. No. 3384

The purpose and intent of this measure is to increase the amount each juror or prospective juror is paid for each actual day of attendance at court.

Your Committee received testimony in support of this measure from Rainbow Family 808 and ten individuals.

Your Committee received comments on this measure from the Judiciary.

Your Committee finds that increasing juror pay has a sustained impact on increasing economic and racial diversity in jury pools. Additionally, many other states pay jurors more than what jurors currently receive for their service in the State, with six states paying jurors \$50 per day and four states paying \$40 per day. Furthermore, Arizona, Indiana, Nevada, and North Dakota all pay jurors \$80 or more per full day of service. This measure will allow more people in the State to engage in their civic duties without experiencing financial harm.

Your Committee notes that the Judiciary's testimony estimates that the Judiciary will require an increase in annual funding of \$1,998,570 per year to increase juror pay from \$30 to \$100 per day.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3384 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2426 Judiciary on S.B. No. 3351

The purpose and intent of this measure is to propose a constitutional amendment to prohibit discrimination against a person because of ethnicity, national origin, age, disability, or sex, including sexual orientation, gender identity, gender expression, pregnancy, and pregnancy outcomes.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Democratic Party of Hawai'i, ACLU of Hawai'i, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawai'i, Indivisible Hawaii, AAUW of Hawaii, and nine individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the Hawai'i State Constitution reflects the unique history and cultural heritage of the State, for example by establishing protections for native Hawaiians, the environment and natural resources, and public wellness. However, your Committee believes that the Hawai'i State Constitution could be strengthened by adding an equal rights amendment to prohibit discrimination against ethnicity, national origin, age, disability, or sex. This measure will reaffirm the State's commitment to equality for all people in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3351, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3351, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2427 Judiciary on S.B. No. 2514

The purpose and intent of this measure is to strengthen the State's tax laws by requiring attorneys who are applying for a pro hac vice appearance in the State's courts to provide:

- (1) Evidence of local counsel's Hawai'i business registration;
- (2) The applicant's Hawai'i general excise tax license number;
- (3) An affirmation that both the applicant and local counsel will pay all state income tax due for Hawai'i business activities; and
- (4) All other information or documentation required by the rules of the Hawai'i Supreme Court.

Your Committee received testimony in support of this measure from the Hawaii Association of Public Accountants and three individuals.

Your Committee received testimony in opposition to this measure from The Judiciary.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that out-of-state attorneys who practice in the State's courts pro hac vice may be unaware that they owe the State general excise tax. Unlike the general excise tax in most states, Hawai'i's tax applies to both gross rental income and gross service income. This measure will help inform attorneys of their state tax obligations by amending the process by which out-of-state attorneys are admitted to practice law in the State's courts.

Your Committee notes that the Hawai'i Supreme Court has begun to address the issue of informing pro hac vice attorneys of their state tax obligations by proposing rule changes.

Your Committee has amended this measure by:

- (1) Inserting an effective date of April 15, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2514, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2514, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2428 Labor and Technology on S.B. No. 2287

The purpose and intent of this measure is to clarify the duties of the Information Technology Steering Committee and the required contents of the Chief Information Officer's annual report of the Office of Enterprise Technology Services.

Your Committee received testimony in support of this measure from the Office of Enterprise Technology Services and Transform Hawai'i Government.

Your Committee finds that the coronavirus disease 2019 pandemic elucidated the fact that technology underpins virtually every government service, and therefore it is essential for the State to develop applications that allow the public to access its services with ease. This measure will allow the Chief Information Officer to receive assistance from the Information Technology Steering Committee in developing a plan to enhance "hawaii.gov mobile", the mobile application developed by the State for the public to access the State's website.

Your Committee has amended this measure by:

- (1) Restoring the existing statutory duty of the Information Technology Steering Committee to assist the Chief Information Officer in developing State information technologies standards and policies; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2287, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2429 Labor and Technology on S.B. No. 2520

The purpose and intent of this measure is to:

- (1) Require the State to defend professionally licensed or certified state employees from civil actions when the employee's actions were within the scope of employment and were not grossly negligent or wanton, as long as the employee is cooperating with the State's defense;
- (2) Clarify that professionally licensed or certified state employees may employ their own attorney at the employee's own expense; and
- (3) Require that if the State declines to defend any state employee from a civil action on certain grounds when the State would generally do so, the Attorney General shall file a motion to withdraw as counsel.

Your Committee received testimony in support of this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO and Hawaii Association for Justice.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that state employees currently must seek their own counsel should legal issues arise in the course of their assigned duties. This measure will provide legal protections for State employees when exercising their professional judgement in their capacity as a public employee in the pursuit of their assigned tasks.

Your Committee has amended this measure by:

- (1) Inserting language that requires the Attorney General to work with the employee to amicably transfer representation to the replacement counsel, and if unsuccessful, file a motion to withdraw as counsel;
- (2) Establishing a procedure that allows the Attorney General to withdraw from representing the employee without prejudicing the employee in the action or proceeding;
- (3) Amending section 1 to reflect its amended purpose; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2520, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2520, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2430 Labor and Technology on S.B. No. 3362

The purpose and intent of this measure is to:

- (1) Authorize the temporary assignment of permanent legislative staff during the interim to executive or judicial branch agencies; and
- (2) Establish that while on temporary assignment, the temporarily assigned employee is still considered an employee of the Legislature and exempt from civil service.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that the Legislature convenes on a part-time schedule, remaining in session from mid-January through early May. However, during the interim period in which the Legislature is out of session, permanent legislative employees may be utilized to assist other state departments to ensure the continuity of essential state operations. Temporarily reassigning legislative employees may alleviate the workload of some understaffed state agencies. Therefore, this measure promotes efficient utilization of state resources and employees.

Your Committee notes that there may be further questions regarding the constitutionality and associated costs with this measure. Accordingly, your Committee respectfully requests that subsequent Committees to which this measure is referred consider these issues.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3362, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3362, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 2431 Labor and Technology on S.B. No. 3070

The purpose and intent of this measure is to lower the Employees' Retirement System's funding period to amortize the System's total unfunded accrued liability.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Employees' Retirement System Board of Trustees.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the Employees' Retirement System (System) provides pensions to thousands of eligible retired state employees. Your Committee further finds that due to the System's long-term investment performance, the funding period in which the System is expected to be fully funded has steadily decreased from the forecasted thirty years in fiscal year 2015-2016 to twenty-four years in fiscal year 2021-2022. The strategy put in place by the Legislature on July 1, 2017, is accomplishing the original goals, and it is currently projected that the System's funded ratio will continue to improve, and the unfunded actuarial accrued liability is expected to decline year over year going forward. However, there have been changes in professional actuarial industry guidance on appropriate funding policies that now recommend a maximum liability funding period of twenty years or less. To enable the System to comply with this new policy, this measure amends the maximum funding period to amortize the total unfunded accrued liability of the System.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3070 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2432 Labor and Technology on S.B. No. 2599

The purpose and intent of this measure is to:

- (1) Prohibit a board or commission from authorizing a base salary for a position; and
- (2) Prohibit an employee from receiving a base salary,

in excess of the amount designated in the budget enacted by the Legislature or other legislative enactment, unless approved by the Legislature.

Your Committee received comments on this measure from the Department of Human Resources Development and the Board of Regents of the University of Hawai'i.

Your Committee finds that salaries should be commensurate with appropriate qualifications and the gravity of the position. However, for certain state positions in the Executive Branch, a board and commission may have the authority to set a base salary. This measure provides for appropriate compensation for certain Executive Branch positions to ensure the accomplishment of state goals and operations.

Your Committee notes the discussion held during the public hearing on this measure that a more direct approach of having the Legislature approve the salary increases of all board and commission staff, and appropriate funds that it deems appropriate, may be preferable rather than giving the boards and commissions authority to set the salary of their staff but imposing limitations and requiring them to obtain legislative approval. Your Committee finds that this issue raises concerns that merit further consideration and respectfully requests further examination by subsequent committees to which this measure is referred.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2599, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2599, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Ihara). Noes, none. Excused, none.

SCRep. 2433 Labor and Technology on S.B. No. 2711

The purpose and intent of this measure is to:

- (1) Require, in an event of a divestiture of a covered establishment, the successor employer to employ incumbent employees under certain circumstances; and
- (2) Establish a penalty for violations.

Your Committee received testimony in support of this measure from ILWU Local 142 and forty individuals

Your Committee received testimony in opposition to this measure from Hawai'i Restaurant Association, Society for Human Resource Management Hawaii, and Retail Merchants of Hawaii.

Your Committee received comments on this measure from the Department of Labor and Industrial Relations.

Your Committee finds that Hawai'i's workers are currently not protected from being laid off following a divestiture. In some cases hundreds of workers can be laid off at a time at the will of the new employer. This measure grants workers protections against such practices and adds stability to their employment.

Your Committee has amended this measure by:

- (1) Inserting language that defines the term "substantially dissimilar";
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2711, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2711, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2434 Ways and Means on S.B. No. 2652

The purpose and intent of this measure is to authorize the state budget and state supplemental budget to contain information regarding vacant positions that the Director of Human Resources Development intends to reclassify or abolish.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received comments on this measure from the Department of Budget and Finance.

Your Committee finds that the inclusion in the state budget and state supplemental budget of vacant positions that are expected to be reclassified or abolished will help to increase transparency and ensure those budgets more accurately reflect position counts.

Your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (2) Making a technical nonsubstantive amendment for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2652, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2652, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Aquino, Hashimoto, Shimabukuro).

SCRep. 2435 (Joint) Judiciary and Health and Human Services on S.B. No. 2752

The purpose and intent of this measure is to appropriate funds to the Office of Elections Statewide Elections Accessibility Needs Advisory Committee to provide voter education and outreach services for individuals with accessibility needs.

Your Committees received testimony in support of this measure from the Statewide Voters with Accessibility Needs Advisory Committee and four individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that removing barriers for persons with voting accessibility needs ensures that all individuals have equal access to the voting process. Existing law requires the State Office of Elections and each county election office to address accessibility and ways to remove barriers. Your Committees believe that understanding the unique needs of each community statewide can provide valuable insight on current and future accessibility issues for voters. This measure will promote greater participation in voting by individuals with access needs who may otherwise be excluded.

Your Committees note that although the appropriation amount in this measure is an unspecified amount, the Statewide Voters with Accessibility Needs Advisory Committee's testimony requests an appropriation of \$10,000 for information gathering, outreach, and voter education expenses approved by the Committee.

As affirmed by the records of votes of the members of your Committees on Judiciary and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2752 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Judiciary: Ayes, 5. Noes, none. Excused, none.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2436 Labor and Technology on S.B. No. 3217

The purpose and intent of this measure is to require the Hawaii Employer-Union Health Benefits Trust Fund base composite monthly contribution to be adjusted annually beginning January 1, 2025, by increasing the contribution in effect on January 1, 2024 by 5.2 percent, and thereafter based on the changes in Medicare Part B premiums for the previous plan year.

Your Committee received testimony in support of this measure from the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that the State's and counties' contribution to retiree health care benefits as an employer is based on a percentage of the Base Composite Monthly Contribution (BMC). The BMC changes each calendar year based on the change in Medicare Part B Premiums, which is a measure of national health care inflation. In some years, the publication of the next year's Medicare Part B premium occurs in early November, while the Hawaii Employer-Union Health Benefits Trust Fund conducts retiree open enrollment during the last two weeks of October. As a result, in some years, retirees may need to determine whether to enroll in the program without knowing the amount of their employer's contribution. This measure will benefit current and future retirees by creating a lag between the BMC changes and the open enrollment period.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3217 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2437 Labor and Technology on S.B. No. 2527

The purpose and intent of this measure is to:

- (1) Temporarily reinstate the Technology Infrastructure Renovation Tax Credit for taxable years beginning after December 31, 2023; and
- (2) Expand the definition of "technology-enabled infrastructure" to include data servers.

Your Committee received testimony in support of this measure from Servpac.

Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, Hawaiian Telcom, IP Xpert of Honolulu, Chamber of Commerce Hawaii, and Hawaiian Electric, and Charter Communications.

Your Committee finds that data centers and fiber optic networks are key contributors to the development and expansion of the State's high-tech sector. These infrastructures facilitate the creation of high paying jobs in the technology industry, thereby diversifying the State's economy. By temporarily reinstating the Technology Infrastructure Renovation Tax Credit, this measure will further promote the development of the high-tech industry in the State that will lead to economic growth and job creation.

Your Committee has amended this measure by:

- (1) Deleting language that would have limited the tax credit to renovation costs for commercial buildings;
- (2) Extending the tax credit's reinstatement year from taxable years beginning after December 31, 2023, to December 31, 2024;
- (3) Clarifying that the tax credit is available for taxable years beginning after December 31, 2024, but shall not be available for taxable years beginning after December 31, 2026;

- (4) Clarifying the definition of “data server”;
- (5) Amending the definition of “renovation costs” to include the repair, replacement, monitoring, and testing of technology-enabled infrastructure machinery;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2527, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2527, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2438 Labor and Technology on S.B. No. 578

The purpose and intent of this measure is to allow a retirant to be employed without reenrollment in the Employees’ Retirement System (ERS) and without loss or interruption of benefits provided by the ERS or under chapter 88, Hawaii Revised Statutes, if the retirant is employed as an investigator in a position identified by the Department of the Attorney General as a labor shortage or difficult-to-fill position, subject to certain conditions.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee received comments on this measure from Employees’ Retirement System.

Your Committee finds that the Department of the Attorney General has been experiencing difficulty in filling certain “investigator” positions that are critically important to the Department’s law enforcement capability and objectives. Your Committee also finds that these positions may be filled and performed by retiree’s, however doing so may have a detrimental impact on the retiree’s benefits under the ERS. This measure will help expedite the process for bringing trained, experienced investigators back to the work force.

Your Committee has amended this measure by:

- (1) Inserting language that requires the Director of Human Resources of the appropriate state jurisdiction or the human resources management chief executive of each county to include in their annual reports to the Legislature, details on the employment of retirants as investigators pursuant to this measure;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 578, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 578, S.D. 2, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Lee).

SCRep. 2439 (Majority) Labor and Technology on S.B. No. 560

The purpose and intent of this measure is to transfer the Workforce Development Division from being directly part of the Department of Labor and Industrial Relations to the Workforce Development Council, an entity that is administratively attached to the Department of Labor and Industrial Relations.

Your Committee received testimony in support of this measure from three individuals.

Your Committee received testimony in opposition to this measure from the Department of Labor and Industrial Relations; Department of Human Services; Office of Community Services; Hawai‘i Teachers Standards Board; United Public Workers, AFSCME Local 646, AFL-CIO; International Brotherhood of Electrical Workers Local Union 1260; Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; Operating Engineers Local 3; Hawaii State AFL-CIO; Pride at Work – Hawai‘i; Hawai‘i Nurses Association, OPEIU Local 50; Hawaii Regional Council of Carpenters; Hawai‘i Workers Center; Kauai Coffee Company; IATSE Local 665; Hawaii Operating Engineers Local 3JAC; and two individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the Workforce Innovation and Opportunity Act was passed by Congress to authorize state workforce development boards to drive the vision for a workforce system at the state and local levels and to lead in its implementation by engaging state and local partners, employers, and community members. Your Committee further finds that in response, the legislature created the Hawaii Workforce Development Council to carry out the vision and goals of the Workforce Innovation and Opportunity Act, by authorizing the Governor to appoint the council members and for the council and its staff to be administratively attached to the Department of Labor and Industrial Relations. Your Committee now finds that the Hawaii Workforce Development Council, rather than the Director of Labor and Industrial Relations, can better integrate and ensure the effectiveness of the various programs for workforce development and regional economic growth. Accordingly, this measure transfers the core employment and training programs currently under the Workforce Development Division of the Department of Labor and Industrial Relations to the Workforce Development Council.

Your Committee notes the various concerns raised in testimony on this measure, including that it would have civil service employees being overseen by noncivil service personnel; would take powers and responsibilities away from the Governor and place it

with a forty-one member council with little accountability powers, any insufficient experience with the complex issues and means of operation required to run the Workforce Development Division as intended. Testimony also raised that the Work Force Development Council is an advisory agency and was not meant nor is structured to be an administering agency. Your Committee finds that these issues merit further consideration and respectfully requests that subsequent committees to which this measure's referred examine the concerns.

Your Committee has amended this measure by inserting an effective date of July 1, 3000, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Labor and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 560, S.D. 2, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Lee).

SCRep. 2440 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2463

The purpose and intent of this measure is to:

- (1) Authorize examination of defendants via telehealth;
- (2) Amend conditions for a defendant's release or examination of fitness to proceed;
- (3) Authorize the Department of Health to implement behavioral health crisis centers; and
- (4) Make an appropriation.

Your Committees received testimony in support of this measure from the Department of Health, The Judiciary, and Hawaii Substance Abuse Coalition.

Your Committees received comments on this measure from the Hawaii Disability Rights Center.

Your Committees find that telehealth services, including real-time video conferencing, adds needed flexibility to maximize efficiency and minimize travel costs. This measure will greatly aid in the completion of examinations ordered by the court to improve the government response to individuals suffering from serious mental illness.

Your Committees note that the language in Part II of this measure, which authorizes the Department of Health to implement behavioral health crisis centers and appropriates funds for such purposes, is already contained in other measures currently moving through the Legislature this session. Accordingly, amendments to this measure are necessary to address these concerns and to incorporate other recommendations raised in testimony.

Your Committees have amended this measure by:

- (1) Broadening the scope of the examiners who may conduct an examination of a defendant via telehealth to all examiners appointed by the court under chapter 704, Hawaii Revised Statutes;
- (2) Including facilities under the jurisdiction of the Director of Corrections and Rehabilitation among those facilities where examination of a defendant via telehealth may be conducted;
- (3) Clarifying that, in cases where the defendant was not subject to an order of commitment to the Director of Health for the purpose of the fitness examination under section 704-404(2), Hawaii Revised Statutes, the court may order that the defendant be released on terms and conditions the court determines necessary for placement in a group home, residence, or other facility prescribed by the Director of Health for further assessment by a clinical team, subject to other certain conditions;
- (4) Restoring existing statutory language that provides a seven day time frame for the Director of Health to report on a defendant committed to the Director's custody and deleting language that would have required the Director to report within fourteen days in certain circumstances;
- (5) Expanding the required content of the Director of Health's report to the court;
- (6) Inserting language that requires certain actions take place during the defendant's commitment to the custody of the Director of Health or release on certain conditions;
- (7) Inserting language that specifies that certain provisions of the measure shall not apply to any case under the jurisdiction of the family court unless the presiding judge orders otherwise;
- (8) Deleting Part II of the measure, which would have authorized the Department of Health to implement behavioral health crisis centers and appropriated funds for such purposes; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2463, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2463, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2441 (Joint) Health and Human Services and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2246

The purpose and intent of this measure is to:

- (1) Establish an Expanded Crisis Intervention and Diversion Activities Program within the Department of Health to expand existing activities to divert those with mental health issues to appropriate health care services;
- (2) Define “crisis intervention officer”;
- (3) Authorize a person believed to be imminently dangerous to self or others by a law enforcement officer to be assisted by a crisis intervention officer and transported to a designated crisis center; and
- (4) Make appropriations for the Expanded Crisis Intervention and Diversion Activities Program and certification of law enforcement officers in mental health first aid and crisis intervention team model.

Your Committees received testimony in support of this measure from the Department of Health, The Judiciary, Hawaii Disability Rights Center, Hawaii Substance Abuse Coalition, and one individual.

Your Committees find that the people who suffer from mental illness or issues relating to drugs or alcohol are disproportionately issued citations for public intoxication and camping on sidewalks and other restricted places. Your Committees further find that many of those cited do not appear in court, which causes time and resources to be expended in the court system, with police and prosecutors caught in a revolving door situation. This measure expands existing services to better divert persons in crisis from the criminal justice system.

Your Committees note that this measure contains an appropriation for an unspecified amount and requests that the Department of Health determine the appropriate figure to be considered, should your Committee on Ways and Means choose to deliberate on this measure.

Your Committees have amended this measure by:

- (1) Amending the definition of “crisis intervention officer” to remove certification by the Department of Health;
- (2) Deleting language that would have allowed a crisis intervention officer to respond to a call for assistance from a law enforcement officer regarding a person believed to be imminently dangerous to self or others;
- (3) Designating that a person believed to be imminently dangerous to self or others by a law enforcement officer to be transported to a facility designated by the Director of Health, rather than a designated crisis center; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2246, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2246, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Shimabukuro, Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2442 Housing on S.B. No. 3121

The purpose and intent of this measure is to make housekeeping amendments to various sections of the Hawaii Revised Statutes to incorporate the definition of “housing project” to align with previous amendments.

Your Committee received testimony in support of this measure from the Hawaii Public Housing Authority.

Your Committee finds that the Hawaii Public Housing Authority (HPHA) has a mandate to provide adequate and affordable housing, economic opportunity, and suitable living environments for low-income families and individuals. Past public housing concentrated poverty in certain urban neighborhoods, resulting in a variety of negative impacts to the residents. In response, the United States Department of Housing and Urban Development (HUD) is now encouraging the construction of mixed-income housing in more diverse neighborhoods as a way to deconcentrate poverty and promote stable, healthy communities. Further, the inclusion of income blind, unsubsidized units reduces the burden on taxpayers by reducing the gap financing needed for subsidized units. This measure will therefore help to reduce concentration of poverty and contribute to the economic and social diversity and stability of the community as a whole.

Your Committee further finds that following the conversion of a federal public housing property into a mixed finance redevelopment, HPHA will be required to execute a Mixed Finance Annual Contributions Contract with HUD. Under this agreement, the HPHA would be required to ensure that sufficient reserves are maintained to support the operation and maintenance of the project units. These financial reserves ensure that the affordable housing units in the project remain affordable throughout the life of the Master Development Agreement, and not just for a limited period of time. Therefore, this measure clarifies statutory references to provide for preserving the long-term affordability of redeveloped housing units.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3121 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2443 Higher Education on S.B. No. 2187

The purpose and intent of this measure is to:

- (1) Specify that the Labor Education Advisory Council shall be advisory to the President of the University of Hawaii on all activities and programs of the Center for Labor Education and Research; and
- (2) Require written responses addressing the Council's advice and adoption of resolutions by the President and Chancellor of the University of Hawaii, West Oahu campus.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations; University of Hawai'i System; Labor Education Advisory Council; United Public Workers, AFSCME Local 646, AFL-CIO; Hawaii State Teachers Association; University of Hawaii Professional Assembly; Hawaii State AFL-CIO; Unite Here! Local 5; and two individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Act 202, Session Laws of Hawaii 1976, established the Center for Labor Education and Research ("Center") to provide labor education and support labor organizations across the State. Similarly, the Labor Education and Advisory Council ("Council") was established to represent the trade union movement statewide. As the landscape of the State's labor force and resources has changed since the Center's founding, a working group was convened pursuant to House Resolution No. 142, Regular Session of 2023, to develop a community-driven vision for the Center's programs. The working group recommended amending existing law to expand the advisory capacity of the Council. As an invaluable resource to promote the State's rich labor history, your Committee further finds that additional support for the Center is needed. This measure expands the advisory capacity of the Council to promote greater community participation in labor education, research, and organization.

Your Committee has amended this measure by inserting language specifying that this measure is a matter of statewide concern.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2187, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2187, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2444 (Joint) Higher Education and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2284

The purpose and intent of this measure is to:

- (1) Establish a two-year program at the University of Hawaii to develop a wildfire forecast system for the State using artificial intelligence; and
- (2) Appropriate funds.

Your Committees received testimony in support of this measure from the University of Hawai'i System and Democratic Party of Hawai'i.

Your Committees received comments on this measure from the Department of the Attorney General and Maui Chamber of Commerce.

Your Committees find that preparedness of first responders enables the State to take proactive measures such as evacuation planning and home risk mitigation in the event of natural disasters and other acute emergencies. The reporting of accurate data from early detection systems can help reduce the total area burned and mitigate overall impacts of wildfire through rapid response and suppression efforts. This measure will enhance emergency management and preparedness procedures to better protect the State against future emergencies.

Your Committees have amended this measure by:

- (1) Inserting language specifying that this measure is a matter of statewide concern; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2284, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2284, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2445 Higher Education on S.B. No. 2502

The purpose and intent of this measure is to:

- (1) Require the University of Hawaii to establish and implement a two-year program to develop web-GIS wildfire susceptibility and vulnerability maps for the State to determine which communities, landscapes, buildings, and infrastructure are most vulnerable to future wildfires; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Democratic Party of Hawai'i, and two individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that the State is susceptible to wildfire hazards. Following the August 2023 wildfires in Lahaina, additional resources, including maps and imaging of areas most vulnerable to wildfire risk, are needed to effectively plan, mitigate, and support communities statewide. Crucial data is needed to develop best mitigation strategies such as ecological forest management, defensible space, and development of greenbelts to reduce impacts of wildfires. This measure utilizes the research capabilities, outreach activities, and technical solutions from the University of Hawaii to provide full range data to help create informed policy decisions for areas most prone to wildfire risk.

Your Committee has amended this measure by:

- (1) Inserting language specifying that this measure addresses a matter of statewide concern; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2502, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2502, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2446 Higher Education on S.B. No. 2634

The purpose and intent of this measure is to make appropriations for the expansion of the certified nurse aide to practical nurse bridge program at the University of Hawaii Maui College, including funding for instructional costs and student aid.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations, University of Hawai'i System, University of Hawaii Professional Assembly, one member of the Maui County Council, The Queen's Health System, Healthcare Association of Hawaii, Ohana Pacific Health, and twelve individuals.

Your Committee received comments on this measure from the Hawai'i State Center for Nursing.

Your Committee finds that the State is experiencing a critical shortage of health care professionals, including nurses of all skill levels. Statewide, there is a thirty percent vacancy rate with two hundred eleven licensed practical nurse job openings. Presently, the University of Hawaii Maui College offers a certified nurse aide program to streamline entry of currently working certified nurse aides into the Licensed Practical Nurse Training Program. Additionally, support for nursing programs on the neighbor islands may motivate more prospective students to apply for nursing cohorts without prohibitive financial barriers. As nurses provide a crucial bridge between providers and patients, this measure expands educational opportunities to help alleviate the State's chronic health care shortage.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2634 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2447 (Joint) Higher Education and Public Safety and Intergovernmental and Military Affairs and Water and Land on S.B. No. 3375

The purpose and intent of this measure is to:

- (1) Appropriate funds for the University of Hawaii College of Tropical Agriculture and Human Resources to establish a Central Oahu Wildfire Protection Plan, in consultation with the Department of Land and Natural Resources, community stakeholders, and nonprofit organizations that specialize in wildfire preparedness and mitigation programming; and
- (2) Require matching funds from United States Department of Agriculture Forestry Service Wildfire Defense grants.

Your Committees received testimony in support of this measure from the University of Hawai'i System and one individual.

Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that the threat of wildfires in the State has significantly increased, posing a threat to public health, safety, and natural resources. Presently, the United States Department of Agriculture Forest Service Community Wildfire Defense grant program assists at-risk communities to prevent the risk of wildfire. The Forest Service Community Wildfire Defense grant program also assists with the development of protection plans, which may be utilized by nonprofit organizations specializing in wildfire mitigation and prevention programming. According to the testimony of the University of Hawaii, protection plans serve as information gathering opportunities to determine projects for wildfire mitigation and prevention, which may be converted into opportunities for federal funding. To protect the State from future wildfire threats, this measure takes a proactive approach to fire safety and mitigation.

Your Committees have amended this measure by inserting language specifying that this measure is a matter of statewide concern.

As affirmed by the records of votes of the members of your Committees on Higher Education, Public Safety and Intergovernmental and Military Affairs, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of

S.B. No. 3375, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3375, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2448 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 3239

The purpose and intent of this measure is to:

- (1) Require the Office of Wellness and Resilience to:
 - (A) Design and implement a three-year pilot program in collaboration with health care providers to acquire and forgive outstanding medical debt; and
 - (B) Submit a report to the Legislature; and
- (2) Make an appropriation for the establishment of the pilot program.

Your Committees received testimony in support of this measure from the Office of Wellness and Resilience; State Health Planning and Development Agency; The Queen's Health System; Holomua Collaborative; Leukemia & Lymphoma Society, Inc.; Hawai'i Children's Action Network Speaks!; American Cancer Society Cancer Action Network Inc.; Green Party of Hawai'i; Free Access Coalition; and thirty-one individuals.

Your Committees received comments on this measure from the Healthcare Association of Hawaii and RIP Medical Debt.

Your Committees find that medical debt can take a serious toll on a person's mental and physical well-being. Your Committees further find that despite the State's participation in Medicaid expansion through the Affordable Care Act, numerous households remain uninsured, incur medical debt from out of pocket costs for treatments that are not covered by insurance plans, and are financially burdened by increased cost-sharing. This measure will alleviate medical debt for residents in the State through the establishment of a pilot program to be designed and implemented by the Office of Wellness and Resilience.

Your Committees note the testimony of the Office of Wellness and Resilience requesting that the following language to be inserted into this measure:

- (1) The pilot program shall ensure that the collection of any specific personal information or health data is performed in compliance with the Health Insurance Portability and Accountability Act and is used for no purpose other than the acquisition and forgiveness of medical debt, provision of financial education, insurance, preventative measures, or similar assistance;
- (2) Program qualifiers shall include appropriate debt percentage to annual household income and poverty level percentage according to federal policy for Hawaii; and
- (3) Any prospective program structure shall include:
 - (A) Education on prevention strategies to avoid incurring future medical debt;
 - (B) Case management to connect recipients with any identified services needed; and
 - (C) Demonstration of executing formal agreements with health care entities, such as Health Insurance Portability and Accountability Act Business Associate agreements.

Your Committees find that the inclusion of this language into this measure merits further consideration and respectfully request that subsequent committees to which this measure is referred examine these issues.

Your Committees have amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3239, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3239, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2449 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on S.B. No. 2123

The purpose and intent of this measure is to repeal the Certificate of Need Program.

Your Committees received testimony in support of this measure from Grassroot Institute of Hawaii and one individual.

Your Committees received testimony in opposition to this measure from the State Health Planning and Development Agency; Hawai'i Primary Care Association; Healthcare Association of Hawaii; Kaua'i Hospice, Inc.; Hawai'i Pacific Health; Kōkua Mau, A Movement to Improve Care; Hawaii Federation of Republican Women; Hawai'i Care Choices; and four individuals.

Your Committees received comments on this measure from UNITE HERE! Local 5 and U.S. Renal Care.

Your Committees find that the Certificate of Need Program is a critical tool to lower health care costs and protect patients in the State. However, at times, the Certificate of Need Program has inhibited equitable access to health care, including in rural areas and vulnerable populations. Limited options may lower the quality and accessibility to health care for many residents, leaving certain conditions untreated or without a high level of care. This measure repeals the Certificate of Need Program to improve the quality of and access to health care in the State.

Notwithstanding, your Committees note the concerns raised by the Healthcare Association of Hawaii regarding the complete repeal of the Certificate of Need Program. Presently, the Certificate of Need Program provides greater accessibility to expensive services that cannot realistically be supported in smaller communities and prevents exploitation of vulnerable populations. Additionally, the Certificate of Need Program facilitates transparency, accountability, and the opportunity for dialogue between providers seeking to expand services in the health care marketplace through independent agency review. As the Certificate of Need Program provides valuable services across the State, including rural areas and to vulnerable populations, retaining the Certificate of Need Program while providing for certain exemptions can promote efficiency and accessibility to high quality services within the health care system.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting contents that exempt psychiatric services and chronic renal dialysis services from certificate of need requirements;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2123, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2123, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 2. Noes, 1 (Awa). Excused, 2 (McKelvey, Richards).

SCRep. 2450 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 2180

The purpose and intent of this measure is to require:

- (1) The Department of Human Services' program requirements for chore services to include an assessment of whether the applicant has a family member who is available and capable of providing necessary chore services for the applicant;
- (2) Income eligibility standards for chore services to include an assessment of whether the individual has the ability to pay a portion of the cost of the chore services they receive; and
- (3) The Department of Human Services to improve access for disabled persons seeking chore services by taking certain actions and submitting a report to the Legislature.

Your Committees received testimony in support of this measure from one individual.

Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that the current Chore Services Program has accessibility flaws, including a restrictive disability ranking system, which can delay aid due to redundant paperwork and excessive recertification, and limits the scope for eligible applicants. This measure expands the Chore Services Program to increase access and impact of the program through updating the program's eligibility standards, seeking alternative funding sources, and streamlining application processes.

Your Committees have amended this measure by:

- (1) Deleting language that would have required income eligibility standards for chore services to include an assessment of whether the individual has the ability to pay a portion of the cost of the chore services they receive; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2180, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2180, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Richards).

SCRep. 2451 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 2682

The purpose and intent of this measure is to:

- (1) Beginning January 1, 2025, require physicians to perform or order tests for lead poisoning in minor patients at certain intervals, and if the physician performs the test, require the results to be included in the minor patient's record of immunization;

- (2) Require the Department of Health to adopt rules to implement the mandated lead poisoning testing; and
- (3) Provide certain exemptions for the mandatory lead poisoning testing of minors.

Your Committees received testimony in support of this measure from the Department of Health and one individual.

Your Committees find that there is no safe level of lead. Even a small amount of lead in a child's blood can inhibit their ability to learn, pay attention, and succeed in school. Your Committees further find that the true prevalence of lead poisoning in the State is not known since less than one-third of children under the age of three were tested for lead poisoning in 2023.

Your Committees have amended this measure by:

- (1) Changing the placement of the new section on lead poisoning testing from chapter 325, Hawaii Revised Statutes, relating to infectious and communicable diseases, to chapter 321, Hawaii Revised Statutes, relating to the Department of Health;
- (2) Requiring the Department of Health to adopt recommendations rather than rules for the implementation of the mandated lead poisoning;
- (3) Removing language that would have established certain risk-based factors for the Department of Health's adopted recommendations;
- (4) Inserting language to require that the Department of Health adopt recommendations that establish that a minor residing in the State shall be considered at high risk to lead exposure and tested according to the Early and Periodic Screening, Diagnostic, and Treatment guidelines for children enrolled in Medicaid; and
- (5) Removing language that would have allowed the Department of Health to eliminate the lead poisoning testing requirements.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2682, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2682, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Richards).

SCRep. 2452 Health and Human Services on H.B. No. 70

The purpose and intent of this measure is to:

- (1) Prohibit the sale or holding, offering, and distribution of hemp products that contain cannabinoids created through isomerization;
- (2) Exempt medical cannabis dispensaries from the prohibition; and
- (3) Insert the alternative name for Delta 6 cis or trans tetrahydrocannabinol, and their optical isomers into the list of schedule I controlled substances.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and the Honolulu Police Department.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that there is currently a black market for psychoactive, hemp-derived CBD products that are not subject to regulation and oversight and are increasing in numbers. Isomerization is the process by which CBD, made from non-psychoactive hemp, is exposed to other easily obtained substances to create a different, now-psychoactive cannabinoid. Your Committee further finds that this isomerization process has introduced a newer, psychoactive CBD product currently unable to be regulated by existing statute. This measure will codify cannabinoids created through isomerization into existing regulatory statute as a schedule I controlled substance.

Your Committee notes the testimony of the Department of Health, requesting that the amendments to section 328G-3, Hawaii Revised Statutes, relating to medical cannabis dispensary licensees be deleted from this measure, as the concerns the amendments seek to resolve have been adequately addressed in statute and administrative rules adopted by the Department of Health. Amendments to this measure are therefore necessary to address this concern.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language relating to medical cannabis dispensary licensees to provide assurances that naturally occurring Delta 8 tetrahydrocannabinol can be used in medical cannabis products;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 70, H.D. 2, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 70, H.D. 2, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2453 Health and Human Services on S.B. No. 2259

The purpose and intent of this measure is to:

- (1) Require each employer group health policy, contract, plan, or agreement and each individual and group hospital or medical service plan, policy, contract, or agreement issued or renewed by health insurers in the State after December 31, 2024, that provides coverage, to provide coverage for dental and vision preventative care, diagnosis, and treatment; and
- (2) Require every insurer and mutual benefit society to provide written notice to policyholders and members no later than December 31, 2025.

Your Committee received testimony in support of this measure from the Indivisible Hawaii Healthcare Team and four individuals.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs, Department of Human Services, Hawai'i Primary Care Association, and Hawaii Medical Service Association.

Your Committee finds that dental and vision health is critical to the general health and well-being of the State's residents. Having access to adequate dental and vision health benefits enables people to see and eat better, work productively, go to school ready to focus on learning, and enjoy life.

Your Committee notes the concerns raised in testimony stating that the State's Medicaid program already provides coverage for vision and dental prevention, diagnosis, and treatment for all Medicaid beneficiaries. Your Committee also notes testimony pointing out that since the measure proposes to create a new proposed mandate of health coverage, the Auditor must be requested to prepare and submit to the Legislature a report that assesses both the social and financial effects of the proposed mandated coverage. Accordingly, amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the State's Medicaid program to provide coverage for dental and vision preventative care, diagnosis, and treatment;
- (2) Inserting language requesting the Auditor to conduct a social and financial impact assessment report of the mandatory health insurance coverage under this measure; and
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2259, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2259, S.D. 2, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2454 Health and Human Services on S.B. No. 2492

The purpose and intent of this measure is to:

- (1) Allow the Governor to enter the State into the multi-state Nurse Licensure Compact, which will allow a nurse who is licensed by a home state to practice under a multi-state licensure privilege in each party state, effective January 1, 2026; and
- (2) Beginning January 1, 2026, allows the State Board of Nursing to charge different fees for registered nurses and licensed practical nurses who hold a multi-state license issued by the State.

Your Committee received testimony in support of this measure from the United States Department of Defense, University of Hawai'i System, Hawai'i State Center for Nursing, Hawai'i Pacific Health, The Queen's Health System, Hawaii Medical Services Association, Kaiser Permanente, Hawai'i Primary Care Association, Adventist Health Castle, Hawaii Military Affairs Council, Grassroot Institute of Hawaii, Hawaii Association of Health Plans, Hawai'i Care Choices, Healthcare Association of Hawaii, and two individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of Professional Nurses and two individuals.

Your Committee received comments on this measure from the Board of Nursing, Hawaii Health Systems Corporation, and Hawaii Association for Justice.

Your Committee finds that the Nurse Licensure Compact facilitates the State's responsibilities to protect public's health and safety by ensuring and encouraging the cooperation of party states in the areas of nurse licensure and regulation. Additionally, this compact facilitates the exchange of information between party states, promotes compliance with the laws governing the practice of nursing, and holds a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through mutual recognition of party state licenses. Your Committee further finds that the Nurse Licensure Compact decreases redundancies in consideration of the issuance of nurse licenses and provides opportunities for interstate practice by nurses who meet uniform licensure requirements. Your Committee additionally finds that adopting the Nurse Licensure Compact will open job opportunities for military spouses and ease nursing shortages in the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2492, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2492, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2455 (Joint) Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts on S.B. No. 2731

The purpose and intent of this measure is to create license plates to honor veterans of the Iraq and Afghanistan conflicts.

Your Committees received testimony in support of this measure from the Veterans Caucus of the Democratic Party of Hawai'i and two individuals.

Your Committees find that veterans of the Iraq and Afghanistan conflicts sacrificed much in their lives to defend the citizens of the United States. Your Committees recognize that creating a special license plate for Iraq and Afghanistan veterans is an expression of gratitude for their service in protecting, not only our state citizens, but the citizens of our nation. Existing law does not include special license plates for Iraq and Afghanistan veterans, therefore, this measure will create license plates to honor the veterans of the Iraq and Afghanistan conflicts.

As affirmed by the records of votes of the members of your Committees on Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2731 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.
Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 2456 (Majority) Transportation and Culture and the Arts on S.B. No. 2097

The purpose and intent of this measure is to repeal the regulation of motor carriers by the Public Utilities Commission.

Your Committee received testimony in support of this measure from Pacific Transfer, LLC.

Your Committee received testimony in opposition to this measure from the Hawaii Transportation Association; Aloha Trucking, Inc; B & C Trucking Co., Ltd; EC Trucking LLC; E Noa Corporation; Guava Express Inc.; Moniz Trucking LLC; Pohaku Equipment Services LLC; and Polynesian Adventure Tours, LLC.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs; Public Utilities Commission; and Ho'omana Pono, LLC.

Your Committee finds that existing state law requires regulation of the motor carrier industry to be conducted by the Public Utilities Commission. Your Committee further finds that there may be problems with the enforcement of motor carriers. This measure will address that problem by transferring authorization to regulate motor carriers to the counties. However, your Committee finds that transfer of this regulation may be premature at this time and believe that greater insight is necessary before enacting such a measure. Therefore, your Committee finds it necessary to convene a task force to further study this issue.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that establishes a task force to study motor carrier industry regulation in the State; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2097, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2097, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Awa). Excused, none.

SCRep. 2457 (Majority) Transportation and Culture and the Arts on S.B. No. 2350

The purpose and intent of this measure is to enhance the existing noisy exhaust pipe and muffler laws.

Your Committee received testimony in support of this measure from the Department of Transportation, Mopeds Direct, and three individuals.

Your Committee received testimony in opposition to this measure from Moped Doctors Inc. and three individuals.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that that many residents throughout the State, especially those in high-density areas, have complained about growing noise pollution and disturbances from low restriction mufflers on motor vehicles, predominantly motorcycles. Your

Committee further finds that while existing law prohibits vehicle owners from installing mufflers that increase the noise of their vehicle, the penalties are minimal and do little to deter violations. This measure will create distinct regulations, fines, and penalties for violating motor vehicle muffler restrictions in high-density areas.

Your Committee has amended this measure by:

- (1) Limiting the scope of motor vehicle muffler violations to counties with a population greater than five hundred thousand;
- (2) Repealing language that would have assessed a fine of not more than \$100 for each violation of motor scooter exhaust pipe and muffler regulations and inserting a tiered fine system;
- (3) Repealing language that would have assessed a fine of not less than \$25 and not more than \$250 for each separate offense of motor vehicle muffler regulations and inserting a tiered fine system;
- (4) Amending section 1 to reflect its amended purpose; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2350, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2350, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2458 Transportation and Culture and the Arts on S.B. No. 2746

The purpose and intent of this measure is to:

- (1) Require that the securing of mooring lines from vessels requiring tug assistance to commercial docks, wharves, piers, quays, and landings be performed by a stevedoring company;
- (2) Define “stevedoring company”; and
- (3) Exempt, under certain circumstances, vessels operating on behalf of an authorized intrastate or transpacific water property carrier holding a certificate of public convenience and necessity.

Your Committee received testimony in support of this measure from the International Longshore and Warehouse Union Local 142; Operating Engineers Local Union 3; Hawaii Ports Maritime Council; International Brotherhood of Electrical Workers Local 1186, AFL-CIO; Laborers’ International Union Local 368; Hawai‘i Gas; and more than two hundred individuals.

Your Committee received testimony in opposition to this measure from Hawaiian Cement; Hawai‘i Cost of Living Coalition; Hawaii Energy Marketers Association; Island Energy Services, LLC; Island Plastic Bags; Mendocino Forest Products, LLC; Par Hawaii; Retail Merchants of Hawaii; Contractors Association of Kaua‘i; General Contractors Association of Hawaii; and Maui Chamber of Commerce.

Your Committee received comments on this measure from the Department of Transportation, Public Utilities Commission, Aloha Marine Lines, Building Industry Association Hawaii, and Sause Bros.

Your Committee finds that as an island state, Hawaii relies significantly on imported goods that are processed by the State’s harbor system. Each day, approximately four hundred shipping containers arrive at Honolulu Harbor, including approximately three thousand tons of food. Tugs are utilized to tow large shipping vessels into the harbor. However, certain companies in the State are not required to use trained local longshore linespersons, or stevedores, to secure their operational vessels to the State’s docks. Therefore, this measure ensures continuity of shipping operations at state harbors while utilizing trained, certified staff who understand the State’s safety guidelines and best practices.

Your Committee notes that stakeholders are presently negotiating the language in this measure to promote safe labor practices that meet the demands of state harbor operations.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2746, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2746, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (Inouye). Noes, none. Excused, none.

SCRep. 2459 Transportation and Culture and the Arts on S.B. No. 2747

The purpose and intent of this measure is to require the Director of Transportation to adopt rules that require tour aircraft operators to have aircraft liability insurance coverage not less than \$1,000,000 per person per incident.

Your Committee received testimony in support of this measure from Blue Hawaiian and one individual.

Your Committee received testimony in opposition to this measure from the Helicopter Association International and Aircraft Owners and Pilots Association.

Your Committee received comments on this measure from Hawaii Association for Justice.

Your Committee finds that there is currently no statute to set minimum insurance coverage for tour aircraft operations within the State. Your Committee further finds that requiring insurance coverage has become increasingly necessary given recent incidents involving helicopter crashes that resulted in catastrophic injury, loss of life, and substantial property damage. This measure will support safety and increased adoption of technology, equipment, and programs through increased insurance coverage.

Your Committee has amended this measure by:

- (1) Inserting language that will require the insurance coverage to be an unspecified percentage of the highest minimum required insurance at an international airport in the United States; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2747, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2747, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2460 Transportation and Culture and the Arts on S.B. No. 2806

The purpose and intent of this measure is to:

- (1) Authorize all-terrain vehicle to drive on streets with posted speed limits of not more than forty-five miles per hour;
- (2) Authorize all-terrain vehicles to drive in the evening and night if they are equipped with headlights and tail lights;
- (3) Authorize drivers of all-terrain vehicles to wear a safety helmet with a securely fastened chin strap; and
- (4) Include in the definition of "utility-terrain vehicle" a motor vehicle that accommodates one driver and one passenger sitting side-by-side, and up to six people in seat belts.

Your Committee received testimony in support of this measure from one individual.

Your Committee received testimony in opposition to this measure from the Department of Transportation.

Your Committee finds that all-terrain vehicles, or ATVs, are designed to navigate a variety of terrains, providing farmers with the ability to access remote or challenging areas of their properties. Your Committee further finds that while all-terrain vehicles are versatile tools for different agricultural and recreational pursuits, it is important for farmers to prioritize safety when using all-terrain vehicles and adhere to proper operating procedures to prevent accidents and injuries. As the State has a vast network of roads that include both paved and off-road terrain, this measure establishes additional requirements for all-terrain vehicles.

Your Committee notes that stakeholders are holding ongoing discussions on this measure.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2806, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2806, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2461 Transportation and Culture and the Arts on S.B. No. 3220

The purpose and intent of this measure is to:

- (1) Transfer the jurisdiction of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation;
- (2) Make conforming amendments; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Transportation; B & C Trucking Co., Ltd.; and Hawaii Transportation Association.

Your Committee received testimony in opposition to this measure from Pacific Transfer LLC.

Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that jurisdiction of the Motor Carrier Law is under the Public Utilities Commission in existing law. This measure, as introduced, would transfer jurisdiction to the Department of Transportation. While your Committee agrees that there are problems with the enforcement of the Motor Carrier Law, your Committee finds that transfer of the full jurisdiction of the Motor Carrier Law is inappropriate. Your Committee further finds that the Department of Transportation has a larger number of enforcement officers than the Public Utilities Commission and has a better presence throughout the State and therefore believe it is appropriate to transfer jurisdiction over the enforcement of the Motor Carrier Law to the Department of Transportation.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have transferred jurisdiction of the Motor Carrier Law from the Public Utilities Commission to the Department of Transportation except for the enforcement of the Motor Carrier Law;

- (2) Retaining language that keeps jurisdiction of the Motor Carrier Law's tariff oversight with the Public Utilities Commission;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3220, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3220, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2462 (Joint) Water and Land and Public Safety and Intergovernmental and Military Affairs and Transportation and Culture and the Arts on S.B. No. 2088

The purpose and intent of this measure is to appropriate funds to the Department of Land and Natural Resources and the Department of Transportation for vegetation management projects to reduce the risks of wildfires across the State.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawai'i Emergency Management Agency, Hawai'i Forest Industry Association, and Hawaiian Electric.

Your Committees find that wildfires have become a significant hazard across the State and can have devastating impacts on our communities, native ecosystems, infrastructure, natural resources, cultural resources, and economies. Vegetation management, including clearing out firebreaks and removing buildups of flammable vegetation, is essential for mitigating wildfire hazards. The Department of Land and Natural Resources and Department of Transportation play critical roles in mitigating the risks of wildfires. However, these efforts remain ineffective due to a scarcity of funds and personnel. This measure will help to reduce the risk of wildfires by promoting vegetation management across the State.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Water and Land, Public Safety and Intergovernmental and Military Affairs, and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2088, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2088, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).
Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.
Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

SCRep. 2463 Health and Human Services on S.B. No. 545

The purpose and intent of this measure is to amend the law relating to Human Services.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Amend the definition of "community care foster family home" to allow one additional Medicaid individual to be cared for in the same community care foster family home; and
- (2) Require the Department of Health to submit a report to the Legislature before the Regular Session of 2025.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 545, as amended herein, and recommends that it be recommitted to your Committee on Health and Human Services, in the form attached hereto as S.B. No. 545, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2464 Health and Human Services on S.B. No. 3115

The purpose and intent of this measure is to clarify when a relative seeking to be a resource caregiver for a child is entitled to an administrative appeal for denial of a foster home license.

Your Committee received testimony in support of this measure from the Department of Human Services and Department of the Attorney General.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that while there may be more than one suitable placement for a child when multiple relatives seek to be a resource caregiver, the Department of Human Services' administrative rules only allow for the issuance of one license to a suitable applicant. Applicants who meet the licensing standards, but are not selected for placement, often request an administrative hearing for review of the placement. Your Committee further finds that the Department of Human Services dismisses these requests for administrative review due to a lack of authority to decide on this placement issue, leading to an inefficient use of limited administrative resources and leaving applicants feeling frustrated and distrustful of the Department and court processes. This measure clarifies the

appropriate circumstances under which an administrative appeal for the denial of a foster home license may be utilized by a child's relative to prevent unnecessary frustration and use of resources for both the applicants and the Department of Human Services.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3115, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3115, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2465 Health and Human Services on S.B. No. 3141

The purpose and intent of this measure is to:

- (1) Require the Department of Health to track and publicly report certain data relating to crisis reports, emergency mental health transports, and court-ordered treatments;
- (2) Require the Department of Health to respond to reports about persons having severe mental illness who are in need of assistance, assess whether those persons may fulfill the criteria for assisted community treatment, and coordinate the process for an assisted community treatment order if indicated;
- (3) Establish that a court's denial of a petition for involuntary commitment shall serve as notification to the Department of Health that the person should be evaluated for assisted community treatment;
- (4) Make an appropriation to the Department of Health for software and data collection and publication; and
- (5) Make an appropriation to the Department of Health for statewide education and training on policies related to emergency examination and hospitalization and assisted community treatment.

Your Committee received testimony in support of this measure from the Department of Health; Hawaii Substance Abuse Coalition; and The Institute for Human Services, Inc.

Your Committee received comments on this measure from The Queen's Health System and Hawaii Disability Rights Center.

Your Committee finds that the State has several key tools and programs to assist individuals having untreated severe mental illnesses, including court-ordered plans of treatment or "assisted community treatment" orders, involuntary commitments to the Hawaii State Hospital or a similar facility, court-ordered medication, and Department of Health crises programs. Your Committee further finds that there are areas for improvement in these programs to better understand the complexity of mental health crises in the State's health system, especially as available resources and needs change over time.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3141, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2466 Health and Human Services on S.B. No. 3114

The purpose and intent of this measure is to:

- (1) Clarify that a confirmed report of harm or threatened harm, as defined in chapter 587A, Hawaii Revised Statutes, or child abuse and neglect, as defined in chapter 350, Hawaii Revised Statutes, will result in the perpetrator's name being maintained in the child abuse and neglect central registry;
- (2) Clarify when a confirmed report may be expunged from the central registry; and
- (3) Establish a process for expungement from the central registry upon request.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of the Attorney General, and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform.

Your Committee finds that the current central registry of individuals confirmed to be perpetrators of child abuse or neglect keeps individuals listed indefinitely in most cases. Being listed on the central registry can have serious consequences, including being barred from employment, volunteer opportunities, and adoption. Your Committee further finds that the current process for adding individuals to the central registry, and how that addition can be challenged, are not commonly understood. This measure clarifies the process of adding perpetrator names to the central registry; the process to challenge the results of a Department of Human Services' investigation; and the process for expungement from the central registry upon request.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3114, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3114, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2467 (Majority) Health and Human Services on S.B. No. 760

The purpose and intent of this measure is to require the Board of Psychology to establish a five-year pilot program to grant prescriptive authority to qualified psychologist applicants statewide.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, Office of the Mayor of the County of Kaua'i, Hawai'i Health & Harm Reduction Center, Hawai'i Psychological Association, American Psychiatric Association, National Association of Social Workers - Hawai'i, The Hawaiian Islands Association for Marriage and Family Therapy, iNetmed Rx2 Inc., and thirty-two individuals.

Your Committee received testimony in opposition to this measure from Hawai'i Psychiatric Medical Association, Hawaii Medical Association, Philippine Medical Association of Hawai'i, Hawai'i Association of Professional Nurses, and twenty-nine individuals.

Your Committee received comments on this measure from the Department of Health, Department of the Attorney General, Board of Psychology, and one individual.

Your Committee finds that many residents of all ages in the State are experiencing untreated mental health crises. Concurrently, the State is experiencing a chronic shortage of health care providers with prescriptive authority to treat patients with mental health needs, creating lengthy wait times for prospective patients. This measure alleviates existing constraints on providers while also ensuring adequate safeguards to expand access to life-changing medication.

Your Committee has amended this measure by:

- (1) Clarifying that the Board of Psychology shall begin accepting applications on July 1, 2026 for prescriptive authority privilege and that an applicant for prescriptive authority shall have been originally licensed in the State before January 1, 2024;
- (2) Inserting language specifying that prescribing psychologists shall be prohibited from prescribing to:
 - (A) All persons under the age of eighteen years;
 - (B) All adults with serious mental illnesses, which includes all adults not suffering from anxiety or depression; and
 - (C) All persons who do not have a primary care provider who is a physician, psychiatrist, or advanced practice registered nurse with prescriptive authority, or is a patient in a clinic with a collaborative practice setting that has a physician, psychiatrist, or advanced practice registered nurse with prescriptive authority;
- (3) Prohibiting a prescribing psychologist from administering medications to a patient for a use that is not stated on the label as a prescribed use by the manufacturer or is otherwise not approved by the United States Food and Drug Administration;
- (4) Clarifying that the exclusionary formulary for prescribing psychologists consists of drugs or categories of drugs that include but are not limited to:
 - (A) A formulary with high safety profiles that includes some serotonin reuptake inhibitors and serotonin-norepinephrine reuptake inhibitors; and
 - (B) All prescription medications with a boxed warning issued by the United States Food and Drug Administration pursuant to title 21 Code of Federal Regulations section 201.5;
- (5) Requiring the Board of Psychology to collaborate with the appropriate department of the John A. Burns School of Medicine and submit its report to the legislature no later than twenty days prior to the convening of the Regular Session of 2028;
- (6) Repealing the sunset date, thereby making the program permanent;
- (7) Amending section 1 to reflect its amended purpose;
- (8) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 760, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 760, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2468 Health and Human Services on S.B. No. 2289

The purpose and intent of this measure is to require the Department of Health to include in its annual report to the Legislature regarding Kalaupapa Settlement, details and updated information, as available, regarding the permanent transfer to other governmental entities of the powers and duties of the Department over Kalaupapa Settlement.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands.

Your Committee received comments on this measure from the Department of Health, Ka 'Ohana O Kalaupapa, and two individuals.

Your Committee finds that Kalaupapa, within Kalawao County on the island of Molokai, holds great significance in the State's history. As a settlement for patients with Hansen's Disease, many Hawaii residents were exiled to Kalaupapa to live out the rest of their lives. Under existing law, Kalaupapa Settlement is under the jurisdiction and control of the Department of Health. In recent years, the number of patients residing at Kalaupapa has declined, prompting the Department of Health and other relevant governmental agencies to prepare for the eventual transfer of jurisdiction over Kalawao County to another government agency when there are no longer patients residing in Kalaupapa, including the responsibility over infrastructure repairs and environmental remediation. This measure will keep the Legislature informed of this important transition.

Your Committee notes the testimony from various members of the Molokai community, including Ka 'Ohana O Kalaupapa. As longstanding stakeholders in the care of Kalaupapa Settlement and its patients, the community holds significant knowledge that may be critical to future plans by the Department of Health. As the Department commences plans for the transition, greater community engagement is needed to adequately plan for the future while remaining respectful of current patients. Accordingly, there is a need to amend this measure to promote greater community transparency and ensure accurate and detailed reporting of activities at Kalaupapa Settlement.

Your Committee has amended this measure by:

- (1) Requiring the Department of Health to report on its community engagement efforts, including with community groups and the Molokai community;
- (2) Clarifying that governmental agencies other than the Department of Hawaiian Home Lands or the federal government may assume transfer of Kalaupapa Settlement; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2289, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2469 Health and Human Services on S.B. No. 2603

The purpose and intent of this measure is to:

- (1) Require the Department of Human Services to establish and implement a Child Care Provider Subsidy and Bonus Program to provide subsidies to retain the existing child care workforce in licensed and registered child care; and
- (2) Appropriate funds for the Child Care Provider Subsidy and Bonus Program.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Department of Research and Development for the County of Hawai'i, Hawai'i Children's Action Network Speaks!, Early Childhood Action Strategy, Holomua Collaborative, Aloha United Way, Chamber of Commerce Hawaii, 'Ahu Pūnana Leo, Kama'āina Kids, Hawai'i Association of School Psychologists, Hawai'i State Coalition Against Domestic Violence, The Samuel N. and Mary Castle Foundation, HPM Building Supply, Mana Up, Title Guaranty of Hawai'i, HE'E Coalition, PATCH, Chamber of Sustainable Commerce, Save Medicaid Hawaii, Democratic Party of Hawai'i Women's Caucus, University of Hawai'i System College of Education, aio Family of Companies, AAUW of Hawaii, and thirty-four individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that high quality child care programs are fundamental to thriving children, flourishing families, and a robust economy. An effective and well-trained early child care workforce is the cornerstone of these programs. However, early child care workers earn chronically low wages and experience high turnover rates. This measure will enhance recruitment and retention of a qualified early learning workforce in the State.

Your Committee notes the testimony of the Department of Human Services requesting licensed group child care homes to be included in the Child Care Provider Subsidy Program since they must comply with the same child care worker qualifications as licensed group child care centers, and for the University of Hawaii to be excluded from receiving subsidies and bonuses from the program as it is a public education institution. Your Committee also acknowledges the concerns raised by the Department of Human Services over some of the documents an applicant is required to submit to participate in the program due to duplicative verifications done at the employer level, and its concerns that it will be difficult for the Department to administer and oversee the program itself. The Department also requested use of the Child Care Grant Program Special Fund for the program, and an additional \$100,000 to hire a program specialist to implement and monitor the program. Accordingly, amendments to this measure are necessary to address these requests.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that allows licensed group child care homes to apply for and receive subsidies and bonuses under the Child Care Provider Subsidy Program;
- (2) Deleting language that would have required program applicants to provide proof of certain statuses;
- (3) Inserting language that requires program applicants to provide proof that the applicant and covered child care worker will not use state funds for any uses prohibited by law or as determined by the Department of Human Services;
- (4) Inserting language that makes the University of Hawaii or any of its entities ineligible to receive a subsidy or bonus pursuant to the program;
- (5) Inserting language that allows the Department of Human Services to have its designee administer the program's application process;
- (6) Inserting language that appropriates funds into and out of the Child Care Grant Program Special Fund for the Child Care Provider Subsidy Program;
- (7) Inserting language that appropriates \$100,000 to establish one full-time equivalent (1.0 FTE) Program Specialist position to carry out the implementation and monitoring of the program;
- (8) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2603, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2603, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2470 (Majority) Health and Human Services on S.B. No. 2245

The purpose and intent of this measure is to:

- (1) Clarify certain definitions under the Child Protective Act;
- (2) Clarify the circumstances when police officers shall assume protective custody of a child and when the Department of Human Services shall assume temporary foster custody of a child; and
- (3) Authorize the Department of Human Services to file a petition and seek an order for protective custody if there is reasonable cause to believe that a child is subject to imminent harm.

Your Committee received testimony in support of this measure from the Honolulu Police Department and CARES.

Your Committee received testimony in opposition to this measure from the Hawaii Coalition for Child Protective Reform, Hawaii Family Advocacy Group, and three individuals.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Human Services, and the Judiciary.

Your Committee finds that protecting the health and safety of Hawaii's keiki is of paramount importance. Certain circumstances such as imminent danger to the child may warrant emergency action, including assumption of temporary custody of a child by a police department or temporary foster placement. This measure adequately balances the need for immediate government action to ensure safety of the child and the due process rights of the child's parents and legal guardians.

Your Committee notes the testimony of the Department of the Attorney General raising concerns that the measure does not provide for cases in which a child's family consents to protective custody and temporary foster custody of the child. Your Committee also notes the testimony of the Judiciary raising concerns regarding the Department of Human Services' ability to obtain immediate protective custody orders from the court by filing a "written application", an undefined term, rather than the normal civil law process of filing a motion. This measure, therefore requires amendments to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that addresses circumstances in which a child's family consents to a police officer assuming protective custody or the Department of Human Services assuming temporary foster custody of the child;
- (2) Allowing the Department of Human Services to obtain an immediate protective custody order by filing an ex parte motion with the court, and upon issuance of the order, allowing the case to proceed pursuant to normal civil law proceedings under section 587A-12(c), Hawaii Revised Statutes;
- (3) Clarifying that the court order required for police officers or the Department of Human Services to take immediate custody of a child shall be in writing; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2245, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2245, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2471 Health and Human Services on S.B. No. 2837

The purpose and intent of this measure is to require the transfer of the Maui State Veterans Home to the Oahu Regional Health Care System and then to the Department of Health, as part of the Oahu Regional Health Care System transfer pursuant to Act 212, Session Laws of Hawaii 2021.

Your Committee received testimony in support of this measure from the Department of Defense, Hawaii Health Systems Corporation, Oahu Region Hawaii Health Systems Corporation, and one individual.

Your Committee received testimony in opposition to this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that there is currently no state veterans home to serve the needs of the veterans community on the island of Maui. Your Committee further finds that development plans for the construction of the Maui State Veterans Home is currently being undertaken by the Department of Defense. However, management, operation, and staffing of the Maui State Veterans Home should be placed under a state agency better able to manage a long-term care facility. Therefore, this measure transfers the Maui State Veterans Home to the Oahu Regional Health Care System and then to the Department of Health to better serve the veterans community in the State.

Your Committee has amended this measure by:

- (1) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2837, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2837, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Aquino). Noes, none. Excused, 2 (Keohokalole, Awa).

SCRep. 2472 Health and Human Services on S.B. No. 3127

The purpose and intent of this measure is to clarify that the Department of Health has the legal authority and obligation to prevent nuisances that affect environmental health and public health.

Your Committee received testimony in support of this measure from the Department of Health.

Your Committee finds that there are an array of nuisances that threaten public health or environmental health. Under existing law, while the Department of Health is authorized to remove and prevent nuisances, the scope of this authorization only applies when a nuisance is injurious to "health", which leaves ambiguity as to whether "health" includes public health and environmental health. Your Committee further finds that with climate change and the increasing pressures on resources and communities, existing law needs to be clarified to specify that the Department of Health has the legal authority and obligation to act when there are nuisances that threaten public or environmental health.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3127, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2473 Health and Human Services on S.B. No. 2461

The purpose and intent of this measure is to:

- (1) Amend the circumstances under which medical cannabis may be transported by and between dispensaries; and
- (2) Require the Department of Health to adopt rules.

Your Committee received testimony in support of this measure from Cure Oahu and Hawaii Cannabis Industry Association.

Your Committee received testimony in opposition to this measure from the Department of Health.

Your Committee received comments on this measure from the Department of the Attorney General and Akamai Cannabis Consulting.

Your Committee finds that increased wholesale between cannabis dispensaries expands patients' access to a variety of formulations, products, and strains without sacrificing safety and consistency. Your Committee further finds that wholesale of cannabis products currently occurs on an emergency basis or on a proof of need basis, both of which are subject to approval by the Department of Health. This measure authorizes sales between dispensaries of cannabis products without the need to prove the sale's necessity and places a time limit on rulemaking by the Department of Health to allow distribution of products in a timely manner.

Your Committee has amended this measure by:

- (1) Deleting language that would have authorized dispensaries to distribute medical cannabis products in compliance with chapter 329D, Hawaii Revised Statutes, in the event the Department of Health does not adopt rules within this measure's specified timeframe;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2461, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2474 Health and Human Services on S.B. No. 2992

The purpose and intent of this measure is to, beginning July 1, 2025, and every ten years thereafter, require the Department of Health to convene an Advisory Committee on Mental Health Code Review.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, and three individuals.

Your Committee received comments on this measure from The Queen's Health System.

Your Committee finds that state law relating to mental health has been amended in piecemeal over several decades, leading to a lack of clarity and inconsistencies. The need for a regular and systematic review is essential to maintain the coherence and effectiveness of the state's laws relating to mental health. This measure will require comprehensive stakeholder reviews, similar to the way in which the state's penal code is reviewed every decade, to translate into actionable measures for the benefit of mental health in the state.

Your Committee has amended this measure by:

- (1) Removing the Director of Health as a member and substituting the Governor's Senior Advisor for Mental Health and the Justice System as a co-chair member;
- (2) Adding the Governor's Coordinator on Homelessness as a co-chair member; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2992, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2992, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2475 Health and Human Services on S.B. No. 2119

The purpose and intent of this measure is to authorize out-of-state pharmacists to transfer prescription information for the initial fill of a prescription.

Your Committee received testimony in support of this measure from the Department of Health, Board of Pharmacy, Kaiser Permanente Hawai'i, Walgreen Co., and two individuals.

Your Committee finds that currently, an out-of-state pharmacy may only transfer prescription information to an in-state pharmacy for refilling purposes, not for initial fills. Your Committee further finds that reducing barriers and facilitating access to prescription medications originating from out-of-state pharmacies will prevent possible delays in treatment relating to access to prescription medication. This measure will benefit a large patient population by helping to decrease wait times, improve customer service, and enhance patient care overall.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2119 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2476 Health and Human Services on S.B. No. 3116

The purpose and intent of this measure is to establish that the priority of selection for preschool open doors program participation shall be applicable through the priority application period that occurs prior to the start of each program year; provided that applications received after the start of the program year through January 31 shall be processed continuously through the program year on a first-come, first-served basis.

Your Committee received testimony in support of this measure from the Department of Human Services, Executive Office on Early Learning, Early Childhood Action Strategy, Hawai'i Children's Action Network Speaks!, and Hui for Excellence in Education.

Your Committee finds that currently, prioritizing applications for the preschool open doors program during each application period requires a start and end date for applications to be submitted, time to apply the priority selection criteria to the applicant pool, notifying of eligible families, and then initiating the process for approving and issuing child care payments, resulting in only a one to two month period after the application period ends and the next application period starts. Your Committee further finds that explicitly identifying that the priority criteria shall be applicable through the priority application period preserves the prioritization process while also expediting the review and approval of applications. This measure allows faster access to the preschool open doors program subsidies and increases participation in the school readiness program.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3116, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Keohokalole).

SCRep. 2477 (Joint) Labor and Technology and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2085

The purpose and intent of this measure is to re-establish the position of the State Fire Marshal.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Department of Law Enforcement, Department of Labor and Industrial Relations, County of Maui Department of Fire and Public Safety, City and County of Honolulu Fire Department, Democratic Party of Hawai'i, one member of the Maui County Council, and one individual.

Your Committees received comments on this measure from the Office of the Governor and Department of the Attorney General.

Your Committees find that state fire marshals serve an integral role in coordinating fire prevention between local agencies. Your Committees find, however, that Act 241, Session Laws of Hawaii 1978, abolished the Office of the State Fire Marshal, and its functions and responsibilities relating to the protection of persons and property against fire loss with the respective county governments were transferred to the counties. Your Committees further find that the State Fire Council, that is administratively attached to the Department of Labor and Industrial Relations, is limited in its scope and responsibilities, and has a relatively small budget and is staffed by a small number of part-time employees. This measure will re-establish the position of the State Fire Marshal, provide the State Fire Marshal with the same powers and authority as county fire chiefs, and establish the duties of the State Fire Marshal, including the duty to make arrests pertaining to arson.

Your Committees have amended this measure by:

- (1) Establishing the Division of the State Fire Marshal within the Department of Law Enforcement, rather than within the Department of Labor and Industrial Relations;
- (2) Inserting language that requires the Fire Marshal to be appointed by the Director of Law Enforcement after a referral and mutual agreement between the Director and the State Fire Council;
- (3) Clarifying that the appointment of the State Fire Marshal shall be made without regard to chapters 76 and 89, Hawaii Revised Statutes;
- (4) Clarifying that in the event the determination of the State Fire Marshal with respect to a certain county conflicts with that of the County Fire Chief, the latter shall prevail;
- (5) Expanding the duties of the State Fire Marshal; and
- (6) Inserting a blank appropriation to be expended by the Department of Law Enforcement for:
 - (A) The establishment of one full-time equivalent (1.0 FTE) permanent state fire marshal position;
 - (B) The establishment of one full-time equivalent (1.0 FTE) permanent position to support the State Fire Marshal; and
 - (C) Training, office supplies, rent, and other operating and administrative costs to support the State Fire Marshal.

Finally, although this measure, as amended, contains an unspecified appropriation amount, your Committees respectfully request that your Committee on Ways and Means consider inserting an appropriation amount of \$340,000 for fiscal year 2024-2025, with the breakdown of \$150,000 for the establishment of one full-time equivalent (1.0 FTE) permanent State Fire Marshal position; \$90,000 for the establishment of one full-time equivalent (1.0 FTE) permanent position to support the state fire marshal; and \$100,000 for training, office supplies, rent, and other operating and administrative costs to support the state fire marshal, in carrying out the purposes of this measure.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2085, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2085, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2478 (Joint) Labor and Technology and Government Operations on S.B. No. 3297

The purpose and intent of this measure is to require and appropriate funds for the Department of Human Resources Development to submit an annual report on vacancies, recruitment efforts, and retention policies in the State's Executive Branch.

Your Committees received testimony in support of this measure from the United Public Workers, AFSCME Local 646, AFL-CIO and Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of Human Services Development.

Your Committees find that the Department of Human Resources Development is currently required to report to the Legislature a list of all vacant positions for reclassification or abolishment, the reason for reclassification or abolishment, how long the positions have been vacant, and the agency these positions are attached to. Your Committees also find that the State is currently going through a labor shortage within its government offices and agencies. This measure requires the Department to provide more up to date data on these vacancies and recruitment efforts, to assist the Legislature in combating this issue.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3297, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3297, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2479 (Joint) Labor and Technology and Government Operations on S.B. No. 2598

The purpose and intent of this measure is to:

- (1) Require the Director of Human Resources Development to revise rules, policies, and guidelines to limit state employees' telework to a maximum of two days per week; and
- (2) Set forth supervision and accountability standards to ensure appropriate state services to the public.

Your Committees received testimony in support of this measure from two individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; Med Quest; and ten individuals.

Your Committees received comments on this measure from the Department of Human Resource Development, Department of Land and Natural Resources, and Hawaii Employer-Union Health Benefits Trust Fund.

Your Committees find that during the coronavirus disease 2019 pandemic, telework became a widespread and invaluable tool for state departments and agencies. Your Committees find that the State has implemented State of Hawaii Telework Program Guidelines, which all State telework programs utilize. This measure requires the Director of Human Resources Development to revise the telework guidelines adding certain restrictions unless a national or state emergency is declared, and ensures appropriate provision of services to the public.

Your Committees have amended this measure by:

- (1) Changing the maximum number of days state employees may telework from two days per week to an unspecified number of days per week; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2598, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2598, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Lee, Fevella).

Government Operations: Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2480 (Joint/Majority) Labor and Technology and Government Operations on S.B. No. 3296

The purpose and intent of this measure is to require the Department of Human Resources Development to:

- (1) Conduct a remote work study;
- (2) Review any recent remote work studies done by the counties;
- (3) Develop and administer a remote work program; and
- (4) Submit the study to the Legislature prior to the convening of the Regular Session of 2025.

Your Committees received testimony in support of this measure from the Department of Human Resources Development, County of Hawaii Department of Research and Development, Hawai'i Workforce Founders Collaborative, Housing Hawai'i's Future, Holomua Collaborative, Hawai'i Children's Action Network Speaks!, Kobayashi Group, Hawai'i Community Foundation, HPM Building Supply, Mana Up, Title Guaranty Hawaii, and three individuals.

Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committees find that remote work is important within modern working environments and strong remote work infrastructure allows for increased affordability and accessibility. Your Committees also find that remote work has the added benefit of allowing participating employees to work from more rural areas where housing is more affordable. This measure will help identify state jobs that are suitable for remote work and connects them to workers in areas of Hawaii where jobs are more scarce, but housing is more affordable.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3296, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3296, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Gabbard, Wakai).

SCRep. 2481 (Joint) Labor and Technology and Health and Human Services on S.B. No. 2930

The purpose and intent of this measure is to extend, under certain conditions, the family leave period that employees are entitled to under state law for up to eight additional weeks for employees who are unable to perform their employment duties due to the birth of a child who is required to stay in a neonatal intensive care unit.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, Department of Human Services, Hawai'i Civil Rights Commission, Disability and Communications Access Board, Hawai'i Children's Action Network Speaks!, Hawaii State Teachers Association, Breastfeeding Hawaii, and four individuals.

Your Committees received comments on this measure from the Society of Human Resource Management Hawaii.

Your Committees find that in 2020, ten percent of babies in Hawaii were born preterm and spent weeks or months in neonatal intensive care units (NICU). Consequently, parents also spent weeks or months at the NICU in support of their babies' care. Your Committees also find that parental skin-to-skin contact, or "kangaroo care", reduces infant mortality by thirty-six percent and the length of the baby's stay in the NICU by up to one week. Your Committees also find that Oahu is the only island with a high-risk NICU in the State, forcing parents from other islands with babies in the NICU to relocate at a significant disruption and expense for an extended period. This measure will allow additional protected time off from work for these parents to keep families together at a critical time and ensure the health of their babies.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2930, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2930, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2482 Ways and Means on S.B. No. 2094

The purpose and intent of this measure is to:

- (1) Require the Department of Corrections and Rehabilitation to establish a pilot program to allow inmates incarcerated at the Women's Community Correctional Center to foster pets while incarcerated; and
- (2) Appropriate moneys for the program.

Your Committee received written comments in support of this measure from the Department of Corrections and Rehabilitation, ACLU of Hawaii, Animal Welfare Institute, Hawaiian Humane Society, Pacific Pet Alliance, and one individual.

Your Committee received written comments on this measure from the United Public Workers.

Your Committee finds that several states have already implemented programs that allow incarcerated inmates to foster animals and that the research shows such programs help to increase the emotional intelligence, coping skills, and work ethic and employability of inmates, which improve their chances of job readiness and are critical factors in reducing recidivism. Your Committee believes that this program will not only benefit the participating inmates but will also improve outcomes for the fostered animals by preparing them for adoption.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2094, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Aquino, Hashimoto).

SCRep. 2483 Ways and Means on S.B. No. 2927

The purpose and intent of this measure is to increase clarity and uniformity in the judicial appointment process.

Specifically, this measure proposes an amendment to the Hawaii State Constitution to make the Senate confirmation process for judicial appointments made by the Governor or the Chief Justice the same.

Your Committee did not receive written comments on this measure.

Your Committee finds that Senate confirmation procedures for judicial appointments differ depending on whether an appointment is made by the Governor or the Chief Justice. Your Committee further finds that harmonizing these differing confirmation procedures will reduce confusion and increase clarity in the judicial appointment process.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2927, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2927, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2484 Ways and Means on S.B. No. 2240

The purpose and intent of this measure is to facilitate the accuracy and integrity of voter registration rolls.

Specifically, the measure:

- (1) Requires the Office of Elections to file an application with Electronic Registration Information Center, Inc. (ERIC), by June 30, 2025, for the State to be admitted as a member of the organization;
- (2) Requires the Office of Elections to share with each county the information and services made available by ERIC pursuant to the State's membership agreement with the organization;
- (3) Requires the Office of Elections and each county office that administers elections to use information and services made available by ERIC to verify their respective voter registration rolls;
- (4) Appropriates \$125,000 to the Office of Elections to prepare and file an application with ERIC for the State to be admitted as a member of the organization; and
- (5) Requires the Office of Elections, before fiscal year 2025-2026, to request as part of its annual budget an appropriation from the Legislature to pay the State's annual membership dues to ERIC.

Your Committee received written comments in support of this measure from the Office of Elections and one individual.

Your Committee received written comments in opposition to this measure from the Hawaii Federation of Republican Women, Aloha Freedom Coalition, and eighty-seven individuals.

Your Committee finds that maintaining accurate and current voter registration rolls is essential to democracy. Your Committee further finds that the State's membership with ERIC and access to ERIC's services can help modernize and ensure the integrity of Hawaii's voter registration system.

Your Committee recognizes that the Office of Elections estimates that joining ERIC would cost the State \$148,000 in fiscal year 2024-2025.

Your Committee has amended this measure by:

- (1) Codifying within the Hawaii Revised Statutes provisions relating to the State's membership in ERIC and its use by the Office of Elections and the counties;
- (2) Changing the appropriation from \$125,000 to an unspecified amount;
- (3) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2240, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2240, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Aquino, Hashimoto).

SCRep. 2485 Ways and Means on S.B. No. 582

The purpose and intent of this measure is to amend the law relating to the state budget.

Prior to the hearing on this measure, your Committee posted and made available for public viewing a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to appropriate moneys to support the State's response to the August 2023 wildfires that affected the County of Maui.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 582, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 582, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 6 (DeCoite, Hashimoto, Inouye, Shimabukuro, Wakai, Fevella).

SCRep. 2486 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 2783

The purpose and intent of this measure is to appropriate funds to the Department of Human Services for Medicaid coverage under the Children's Health Insurance Program for income-qualified pregnant persons and children, regardless of immigration status.

Your Committees received testimony in support of this measure from Hawai'i Friends of Civil Rights; AlohaCare; Hawai'i Coalition for Immigrant Rights; Hawai'i Public Health Association; Hawaii Medical Association; Mental Health America of Hawai'i; Hawai'i Children's Action Network Speaks!; Hawaii ACOG; American Cancer Action Network; The Legal Clinic; and ten individuals.

Your Committees received comments on this measure from the Department of Human Services.

Your Committees find that high-quality health care that is accessible, affordable, and equitable is essential to public health and wellness. Many residents in the State, however, are denied access to health care simply due to their immigration status, which can worsen health outcomes. This measure will increase access to health insurance coverage for certain individuals in the State to promote healthy communities.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2783 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Richards).

SCRep. 2487 (Joint) Health and Human Services and Labor and Technology on S.B. No. 2569

The purpose and intent of this measure is to allow a person who employs or contracts with a health care worker who suffers an act of violence to report the event to law enforcement and petition for a temporary restraining order and injunction under certain circumstances.

Your Committees received testimony in support of this measure from the Hawai'i State Center for Nursing, Waianae Coast Comprehensive Health Center, and two individuals.

Your Committees find that recent amendments to state law expanded protections for health care workers by increasing the penalties for assaulting a health care worker. However, some victims fear their personal information will be discoverable should the health care worker choose to personally press charges for the assault they experienced at their workplace. This measure will enable the employer to intervene to seek the proper protections and complement recent laws to positively impact the health care work environment.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2569, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2569, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2488 Energy, Economic Development, and Tourism on S.B. No. 3061

The purpose and intent of this measure is to clarify part III of Act 164, Session Laws of Hawaii 2023, as it pertains to the appropriation for the Solar Energy Storage Loan Program.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaii Green Infrastructure Authority; Climate Protectors Hawai'i; Hawaii Solar Energy Association; and four individuals.

Your Committee received comments on this measure from the Public Utilities Commission.

Your Committee finds that Act 164, Session Laws of Hawaii 2023, appropriated general funds to the Solar Energy Storage Loan Program. Directing these funds to the Clean Energy and Energy Efficiency Revolving Loan Fund ensures a continuous and sustainable source of funding to finance solar and storage installations. Your Committee further finds that this measure helps to address the immediate financial challenges faced by the State's residents due to inflation and rising energy costs and also creates a long-term solution to support underserved ratepayers.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3061, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3061, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2489 Energy, Economic Development, and Tourism on S.B. No. 3006

The purpose and intent of this measure is to:

- (1) Exempt the Convention Center from the requirements regarding concessions on public property; and
- (2) Authorize the Convention Center to sell advertising and marketing on and in the Hawaii Convention Center Facility.

Your Committee received testimony in support of this measure from the Hawai'i Tourism Authority and Hawai'i Lodging & Tourism Association.

Your Committee received testimony in opposition to this measure from UNITE HERE Local 5.

Your Committee finds that selling naming rights to the Convention Center would open multiple profit-making possibilities to fund the Convention Center's repairs and future maintenance needs. An analysis performed by ASM Global, one of the world's largest leading venue management companies, estimate that the naming rights of the Convention Center could be valued at up to \$500,000 in the first year with the possibility of escalating to a twenty-year agreement value of over \$13,000,000. Your Committee further finds that this measure will facilitate partnerships with the state's business community to foster mutually beneficial collaborations.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3006, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3006, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Fevella).

SCRep. 2490 Energy, Economic Development, and Tourism on S.B. No. 2537

The purpose and intent of this measure is to clarify the reporting requirements of the Chief Energy Officer to the Legislature.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office.

Your Committee finds that the purpose of Act 122, Session Laws of Hawaii 2019 (Act 122), was to transfer the duties and responsibilities of the State Energy Resources Coordinator, the functions of the Renewable Energy Facilitator, and the then existing State Energy Office to a newly created Hawaii State Energy Office and Chief Energy Officer. Your Committee further finds that Act 122 did not amend certain sections of the Hawaii Revised Statutes pertaining to the reporting of certain energy matters to the Legislature. Accordingly, this measure clarifies these reporting requirements.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2537, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2537, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2491 Energy, Economic Development, and Tourism on S.B. No. 2400

The purpose and intent of this measure is to:

- (1) Reduce the number of members on the Hawaii Tourism Authority Board of Directors and number of members that constitute a quorum; and
- (2) Prohibit holdover board members of the Hawai'i Tourism Authority from holding office beyond the commencement of the next legislative session following the expiration of the member's term of office.

Your Committee received comments on this measure from the Hawai'i Tourism Authority.

Your Committee finds that the Hawaii Tourism Authority is currently guided by a twelve-member, volunteer, Senate-confirmed Board of Directors. Accordingly, recruitment for volunteer service on the Hawaii Tourism Authority's board is often challenging. This measure reduces the number of board members and the number of members necessary to constitute a quorum in order to the support the Board's ability to conduct its important work. Your Committee further finds that a recent Attorney General opinion provides that existing law allows a member of the Hawaii Tourism Authority Board of Directors to continue as a holdover member after their term has expired, without limitation, until a successor is appointed by the Governor. Your Committee finds that this interpretation is contrary to legislative intent and this measure is necessary to clarify the existing law.

Your Committee has amended this measure by:

- (1) Amending the membership provisions of the Hawaii Tourism Authority Board of Directors to exclude persons who have served as members of the Board of Directors of a current contractor of the Hawaii Tourism Authority until at least two years have expired between the person's termination from service to the contractor;
- (2) Deleting language that would have excluded persons who have served as a member of the Board of Directors of the Hawaii Visitors and Convention Bureau;
- (3) Inserting language to require that no person whose business, position, or other undertakings in which the person may have a financial interest constituting a conflict of interest shall serve as a member of the Hawaii Tourism Board of Directors;
- (4) Inserting language to require that no board member shall, for a fee or other consideration, act in a representative capacity or assist a person, business, or entity that has been awarded a contract by the Hawaii Tourism Authority; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2400, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2400, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2492 (Joint/Majority) Health and Human Services and Agriculture and Environment on S.B. No. 2401

The purpose and intent of this measure is to appropriate funds to the City and County of Honolulu and the Department of Health for a feral chicken control program and a feeding of feral animals education program, respectively.

Your Committees received testimony in support of this measure from Department of Health, Department of Agriculture, City and County of Honolulu Department of Customer Services, Hawai'i Farm Bureau, and Hawai'i Food+ Policy.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that feral chickens and roosters are a persistent nuisance, particularly in suburban and urban residential communities. Feral chickens and roosters destroy gardens, dig up plants, damage food crops, and jeopardize native plants and resources. Additionally, roosters crow at all times of the day and night, leading to numerous noise complaints by residents. Unsanitary droppings from feral chickens and roosters can further create health concerns and threaten Hawaii's ecosystem, natural resources, and the health and safety of its residents. Your Committees therefore find that, to protect Hawaii's ecosystem, natural resources, and the safety and health of its residents from feral chickens and roosters, this measure is necessary to appropriate implement a control program and feeding feral animals education campaign.

Your Committees have amended this measure by:

- (1) Inserting an appropriation of \$50,000 for each county for a feral animal control program; and
- (2) Updating section 1 to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2401, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2401, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

Agriculture and Environment: Ayes, 2. Noes, 1 (Awa). Excused, 2 (DeCoite, Richards).

SCRep. 2493 (Joint) Health and Human Services and Agriculture and Environment on S.B. No. 2101

The purpose and intent of this measure is to:

- (1) Require waste combustion facility owners to implement continuous monitoring and sampling technologies for the purposes of collecting data regarding emissions;
- (2) Establish a publicly available website hosted by the Department of Health that will track and display data collected on emissions;
- (3) Require the Department of Health to adjust permit limits for air contaminants based on emissions data collected;
- (4) Require reports to the Legislature; and

(5) Make an appropriation.

Your Committees received testimony in support of this measure from Greenpeace Hawaii, Energy Justice Network, Environmental Caucus of the Democratic Party of Hawai'i, Chamber of Sustainable Commerce, and three individuals.

Your Committees received testimony in opposition to this measure from Covanta Honolulu Resource Recovery Venture, LLC.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that waste combustion facility owners implement monitoring and sampling technologies to collect data regarding emissions only once a year and only when conditions are optimal. Further, your Committees find that technological advances in methods to monitor pollutants are available, and that Hawaii's methods should be updated. Accordingly, this measure will implement continuous monitoring and sampling technologies verified by the United States Environmental Protection Agency to ensure waste combustion facility owners continuously monitor, sample, and report contaminant emissions.

Your Committees have amended this measure by:

- (1) Inserting into the appropriation to the Department of Health unspecified amounts for the purchase of continuous emissions monitoring system units, construction and maintenance of a website to disseminate reported data to the public, and the establishment of an unspecified number of full-time equivalent positions to enforce the monitoring provisions of this measure and gather data;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note the testimony offered by the Department of Health at the public hearing held on this measure that the equipment costs for the continuous emissions monitoring system units are estimated to be in excess of \$11,000,000, in addition to the costs for the website and the establishment of an unspecified number of full-time equivalent positions necessary to implement this measure. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that these issues be considered.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2101, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2101, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2494 (Joint) Health and Human Services and Agriculture and Environment on S.B. No. 2368

The purpose and intent of this measure is to:

- (1) Require the Department of Health to conduct a statewide needs assessment to inform the future establishment of an extended producer responsibility program for packaging waste; and
- (2) Make an appropriation to the Department of Health to conduct the assessment.

Your Committees received testimony in support of this measure from the County of Kaua'i Department of Public Works, Hawaii Environmental Change Agents-Solid Waste Task Force, Hawai'i Reef Ocean Coalition, Retail Merchants of Hawaii, Product Stewardship Institute, Zero Waste Kauai, Just Zero, one member of the Kauai County Council, and five individuals.

Your Committees received testimony in opposition to this measure from Recycle Hawaii, American Institute for Packaging and the Environment, Flexible Packaging Association, Huli Pac, American Beverage Association, and two individuals.

Your Committees received comments on this measure from the Department of Health, Chamber of Sustainable Commerce, Foodservice Packaging Institute, and the Consumer Technology Association.

Your Committees find that the State is committed to reducing waste and conserving resources through advancing source reduction, reuse, and recycling; however, additional resources, facilities, and services are needed to achieve resource conservation and waste reduction targets. This measure will require the Department of Health to conduct a needs assessment to complement its other efforts pursuant to its Integrated Solid Waste Management planning process and minimize any redundancies to streamline the State's waste management system.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committees note that this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider inserting an appropriation amount of \$1,000,000 for fiscal year 2024-2025, pursuant to the testimony your Committees received from the Department of Health.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your committees are in accord with the intent and purpose of S.B. No. 2368, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2368, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Health and Human Services: Ayes, 5. Noes, none. Excused, none.
 Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2495 Government Operations on S.B. No. 2827

The purpose and intent of this measure is to require cash or protest bonds paid or filed by parties initiating an administrative appeal for protests of solicitations or award of contracts under the Hawaii Public Procurement Code to be returned to the initiating parties, minus administrative costs as determined by the Office of Administrative Hearings of the Department of Commerce and Consumer Affairs, except in cases where the initiating party does not prevail in the administrating hearing or the appeal was frivolous or made in bad faith.

Your Committee received testimony in support of this measure from the Subcontractors Association of Hawaii; Ralph S. Inouye Co., Ltd.; General Contractors Association of Hawaii; King & Neel Pacific, Inc.; Jas. W. Glover, Ltd.; and Healy Tibbitts Builders, Inc.

Your Committee finds that Hawaii is the only state that does not return cash or protest bond that is required to be paid or filed by an initiating party when the party prevails on its protest. This measure ensures a deterrence of frivolous appeals without deterring legitimate appeals, and additionally addresses administrative cost recovery.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2827 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2496 Government Operations on S.B. No. 2828

The purpose and intent of this measure is to require the Department of Accounting and General Services to convert vacant Engineer (Buildings) V positions to Project Manager II positions and ensure that the salaries of the converted positions are comparable to Project Manager II class, SR-26.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that the State continues to face challenges in recruiting engineers. This measure, through position reclassification, allows the Department of Accounting and General Services to obtain the necessary personnel to support the State's vital public works projects.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2828 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2497 Government Operations on S.B. No. 2292

The purpose and intent of this measure is to repeal the exemption afforded to ex officio members of boards and commissions from statutory provisions governing the selection and terms of board and commission members.

Your Committee received comments on this measure from the Department of Budget and Finance, Department of Commerce and Consumer Affairs, and Board of Regents of the University of Hawai'i.

Your Committee finds that governmental boards and commissions provide up-to-date information, critical thinking, and analyses to the decision-makers of the government entity that they advise. Your Committee further finds that ex officio board members hold expertise in a particular area that can be helpful to boards and commissions in carrying out their duties. This measure ensures that all members of boards and commissions are selected pursuant to an equal and standardized process.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2292 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
 Ayes, 5. Noes, none. Excused, none.

SCRep. 2498 Government Operations on S.B. No. 2403

The purpose and intent of this measure is to require:

- (1) Any report of a study or audit enacted with a legislative appropriation to be submitted to the chairs of the appropriate subject matter committee of each house of the Legislature, unless the study or audit is financial or regularly occurring;
- (2) Require the chairs of the appropriate subject matter committee of each house of the Legislature to conduct a public hearing or informational briefing within one year of receipt of a report, except under certain circumstances;
- (3) Require the chairs of the appropriate subject matter committee of each house of the Legislature to conduct a public hearing or informational briefing within one year of the publication of a performance audit report issued by the Office of the Auditor except for financial audits or single audits; and

- (4) Require state departments and agencies to submit a report to the Legislature containing certain information or newly enacted, funded state programs within one year of the date on which the program's enabling Act became law.

Your Committee received testimony in support of this measure from the Office of the Auditor and two individuals.

Your Committee finds that, every year, laws are enacted that require new studies and audits of various state government departments or agencies. Conducting and completing many of these studies and audits require an appropriation and also consumes valuable time and resources of the department, agency, office, or branch of government tasked with preparing the study or audit. Your Committee also finds that the resultant report is often not widely reviewed by the Legislature or public and can sometimes go completely unnoticed despite the fact that these reports can contain valuable information. This measure will serve the public interest by mandating a public hearing or informational briefing that would facilitate discussion and analysis of the report findings and recommendations.

Your Committee notes the testimony of the Office of the Auditor that they "strongly agree that a public hearing or informational briefing is an invaluable means to inform the subject matter committees, the audited agencies, and the public about [their] performance audit findings".

Your Committee has amended this measure by inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2403, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2403, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2499 Government Operations on S.B. No. 2317

The purpose and intent of this measure is to:

- (1) Require the Governor to administer and facilitate a State Capitol Tour Program that utilizes volunteer docents to conduct walking tours of the State Capitol; and
- (2) Appropriate an unspecified amount of funds to the Office of the Governor for:
 - (A) One permanent full-time equivalent (1.0 FTE) position; and
 - (B) The administration of the State Capitol Tour Program.

Your Committee did not receive any testimony on this measure.

Your Committee finds that providing State Capitol tours is a meaningful public service that provides visitors to the State Capitol with an opportunity to appreciate the State and its democratic process. Your Committee also finds that, although visitors have the option to take virtual or self-guided tours of the State Capitol, having volunteer docents conduct walking tours would enhance the understanding of its architecture and symbolism.

Your Committee notes that S.B. No. 699, S.D. 2, H.D. 1 (2023), is a similar measure that proposed to establish a State Capitol Tours Program within the Office of the Governor. Despite discussions held with the Office of the Governor and Friends of Iolani Palace, consideration of S.B. No. 699, S.D. 2, H.D. 1 (2023) was terminated. Accordingly, your Committee encourages that the collaborative efforts and discussions among the parties continue for this measure.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2317, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2317, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2500 Government Operations on S.B. No. 2172

The purpose and intent of this measure is to:

- (1) Establish the priority of who may assume the authority and duties of a chairperson of a board or commission in the chairperson's and all co-chairperson's absence at a hearing or meeting of a board or commission; and
- (2) Prohibit staff members from assuming the authority and duties of the chairperson of a board or commission.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs and Board of Regents of the University of Hawai'i.

Your Committee finds that when a chairperson or co-chairperson is absent from a hearing or meeting of a board or commission, it is necessary to ensure that the most qualified or experienced individual assumes their authority and duties. This measure will ensure that only the most qualified individual will assume the authorities and duties of a chairperson of a board or commission in the absence of the chairperson or all co-chairpersons from the meeting or hearing by establishing the priority of succession in statute.

Your Committee notes that boards and commissions generally follow the Robert's Rules of Order, which provides for lines of succession among committee members themselves upon the absence of the presiding chairperson. Notwithstanding, your Committee finds that there are valid reasons to expressly prohibit staff members from assuming control of the meetings. Accordingly, there is a need to amend this measure to address this matter.

Your Committee has amended this measure by:

- (1) Deleting language that would have established the priority of individuals who may assume the authority of duties of a chairperson of a board or commission in the absence of the chairperson or all co-chairpersons from a hearing or meeting of the board or commission;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2172, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2172, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2501 Government Operations on S.B. No. 2536

The purpose and intent of this measure is to:

- (1) Establish a new accounting services procurement preference for certain Hawaii accounting service businesses; and
- (2) Clarify that the existing reciprocity procurement preference includes offerors under section 103D-303, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from Accuity LLP and C&Y CPAs LLC.

Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee finds that many of the State's residents who earn college degrees either leave the State or do not return due to the lack of career opportunities, thus negatively impacting the State's economic potential. Although public accounting firms with offices in the State address this need by offering professional career paths that allow residents to remain in the State, the high cost of operating a business in the State, coupled with the high cost of living, makes it difficult for these firms to compete for government service contracts against firms that do not have offices in the State that operate out of low-cost jurisdictions. This measure addresses the important issue of local resident displacement by incentivizing public accounting firms to operate in the State, while further supporting fair competition with other states and safeguarding the interests of local businesses.

Your Committee notes that the language in this measure that provides a bid preference for local accounting firms mirrors that of section 103D-1006, Hawaii Revised Statutes, which provides a bid preference for Hawaii software development businesses.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2536, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2536, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2502 Government Operations on S.B. No. 2482

The purpose and intent of this measure is to require the Comptroller to identify state office buildings that can provide equitable telecommunication access to allow certain residents, including residents with disabilities, to participate remotely in legislative hearings and to submit a report to the Legislature.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board.

Your Committee received comments on this measure from the Department of Accounting and General Services and Hawaii State Public Library System.

Your Committee finds that providing access for residents to participate in the state legislative process is a basic right of citizenship in the State and should continue to be a priority. Currently, this basic right faces challenges with the rising costs of airfare, gas, and lodging. This measure provides equitable access to the legislative process by identifying potential locations or state offices on neighbor islands and in rural Oahu where citizens, including the full spectrum of persons with disabilities, can participate in the legislative process through remote utilization, thereby reducing the financial burden of legislative participation and ensuring the crucial improvement of the functionality of and engagement in the democratic process. While libraries have the ability to perform this function, there are many places in the State where libraries are inaccessible; therefore it is important to outfit more state buildings with broadband infrastructure to expand these services and in so doing, increase broadband equity.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2482, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2482, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2503 Government Operations on S.B. No. 2202

The purpose and intent of this measure is to increase the minimum amount for purchases constituting small purchase procurements from \$25,000 to \$50,000.

Your Committee received testimony in support of this measure from the City and County of Honolulu Department of Budget and Fiscal Services and County of Hawaii Department of Finance.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the amount for small purchase procurement was last adjusted to coincide with inflation in 1997, via section 8 of Act 352, Session Laws of Hawaii 1997. The escalating costs of goods over the years, particularly during the coronavirus disease 2019 pandemic, have created numerous difficulties regarding small purchases. By increasing the threshold of small purchase procurements from \$25,000 to \$50,000, this measure greatly enhances the operational efficiency of state and county departments.

Your Committee additionally finds that greater flexibility is needed, in regards to procurement, during an emergency. Therefore, your Committee finds it necessary to further increase the small purchase threshold in areas effected by a federally declared disaster to facilitate a more immediate response and recovery efforts.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to establish a small purchase threshold of \$75,000 within the affected area of a federally declared disaster; provided that such procurements are reported to the State Procurement Office;
- (2) Requiring the State Procurement Office to report to the Legislature on the efficacy of the amendments made by this measure before the Regular Session of 2025;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of January 1, 2112, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2202, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2202, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2504 Government Operations on S.B. No. 2597

The purpose and intent of this measure is to clarify that the prohibition against board and commission holdover members from holding office beyond the end of the second regular legislative session following the expiration of the member's term of office takes precedence over any conflicting statutes.

Your Committee received testimony in support of this measure from three individuals.

Your Committee received comments on this measure from the Public Utilities Commission and Board of Regents of the University of Hawaii.

Your Committee finds that existing law allows a member of a state board or commission to continue as a holdover member until a successor is nominated and appointed. Your Committee believes that it is imperative that members of boards and commissions are appropriately and timely nominated and appointed to enable boards and commissions to meet and conduct business. However, your Committee finds that no holdover member should serve beyond the second regular legislative session following the expiration of the member's term of office without the advice and consent of the Senate. This measure will clarify that this prohibition takes precedence over any other law to the contrary.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2597 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2505 Government Operations on S.B. No. 3171

The purpose and intent of this measure is to:

- (1) Mandate the Office of the Lieutenant Governor or the appropriate county clerk's office to ensure access to paper or electronic copies of all meeting notices; and
- (2) Repeal the requirement to post notices in a central location in a public building.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor; Department of Land and Natural Resources; one member of the Maui County Council; Society of Professional Journalists, Hawaii Chapter; and one individual.

Your Committee received comments on this measure from the Office of Information Practices and Board of Regents of the University of Hawaii.

Your Committee finds that to fulfil its statutory responsibilities, the Office of the Lieutenant Governor posts physical copies of meeting notices daily in the chamber of the State Capitol for the public to view. However, it is impractical for those who live on the neighbor islands to fly to Oahu to view the notices. Additionally, due to increased security measures at the State Capitol and other government facilities, it is unreasonable for residents and interested parties to physically enter a government building to view posted notices. This measure increases efficiency, decrease paper usage, and ensure public access to notices and agendas.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3171 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2506 (Joint) Health and Human Services and Agriculture and Environment on S.B. No. 2322

The purpose and intent of this measure is to require the Department of Health to continue water testing during brown water advisories under certain circumstances.

Your Committees received testimony in support of this measure from Kingdom Pathways; Surfrider Foundation, Hawai'i Region; Surfrider Foundation, Maui Chapter; Surfrider Foundation, Kaua'i Chapter; Surfrider Foundation, O'ahu Chapter; Free Access Coalition; Friends of Kewalos; Windward Coalition; Wastewater Alternatives and Innovations, LLC; a form letter signed by twenty-two organizations; and sixty-four individuals.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that it is crucial to prioritize the health and safety of the State's residents by monitoring the quality of the State's water supply, especially during brown water advisories. Your Committees further find that currently, once a brown water advisory has been issued, the Clean Water Branch (CWB) of the Department of Health's protocol is to suspend all monitoring at the affected beaches while continuing routine sampling at regularly scheduled beaches. Your Committees additionally find that the CWB does not do additional testing of affected beaches during brown water advisories because it diverts resources away from routine sampling and increases risk of failing to meet federal grant commitments.

Your Committees acknowledge the concerns raised by the Department of Health's testimony that because the CWB does not receive state funding for beach monitoring and is financially limited to seven water sampler positions across the State, the current federal funding for daily operations of the program are insufficient to implement additional statewide monitoring and laboratory analytical testing as required by this measure.

Accordingly, your Committees have amended this measure by:

- (1) Inserting an appropriation to the Department of Health in an unspecified amount; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2322, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2322, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Health and Human Services: Ayes, 5. Noes, none. Excused, none.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2507 (Joint/Majority) Health and Human Services and Agriculture and Environment on S.B. No. 3133

The purpose and intent of this measure is to authorize the Department of Health to conduct fingerprinting and criminal history record checks on applicants who apply for a permit to operate as a hemp processor.

Your Committees received testimony in support of this measure from the Department of Health.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that Act 263, Session Laws of 2023, which extended the State's hemp processor law, also amended the minimum application requirements for hemp processor permits to require that applicants provide either a hemp producer license issued by the United States Department of Agriculture or consent to a criminal history record check pursuant to state law. This measure is necessary to authorize the Department of Health to conduct these criminal history record checks for the duration of the hemp processor program.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Health may conduct criminal history record checks on individual applicants or individuals acting on behalf of applying entities for hemp processor permits;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3133, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3133, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, 1 (Awa). Excused, none.

Agriculture and Environment: Ayes, 2. Noes, 1 (Awa). Excused, 2 (DeCoite, Richards).

SCRep. 2508 Higher Education on S.B. No. 3189

The purpose and intent of this measure is to:

- (1) Establish the University of Hawaii Conference Center Revolving Fund and accounts under the fund to facilitate the administration of the revolving fund for conference center programs among various campuses and operating units of the University of Hawaii System; and
- (2) Repeal the Conference Center Revolving Fund for conference center programs conducted at the University of Hawaii at Hilo.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the University of Hawaii hosts various events and conferences year-round at institutional facilities. Existing law establishes separate revolving funds for the community colleges and the University of Hawaii at Hilo to support conference center programs. Authorization of single revolving fund will allow all campuses to standardize fiscal management of conference center programs across all campuses and eliminate unnecessary duplication. To ensure streamlined operations that effectively utilize University of Hawaii resources, this measure centralizes fiscal processes relating to conference center programs, similar to the structure of many other University funds.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3189, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 2509 (Joint) Higher Education and Labor and Technology on S.B. No. 3190

The purpose and intent of this measure is to repeal the reporting requirement to identify the State's cost impacts of providing workers' compensation coverage for University of Hawaii students.

Your Committees received testimony in support of this measure from the University of Hawai'i System.

Your Committees find that existing law requires the University of Hawaii to report the cost impacts of workers' compensation claims made by University of Hawaii students each biennium. However, the University of Hawaii has not reported a subsequent claim for workers' compensation since the 2014-2016 fiscal biennium. As the University of Hawaii strives for good governance within its internal operations, this measure streamlines University procedures to effectively utilize its resources.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3190, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3190, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Higher Education: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2510 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on S.B. No. 3125

The purpose and intent of this measure is to:

- (1) Authorize minors who are fourteen years or older to consent to medical care for sexually transmitted infections, pregnancy, and family planning services, including the prevention of sexually transmitted infections; and
- (2) Require confidentiality policies and practices for insurers and providers.

Your Committees received testimony in support of this measure from the Department of Health, Partners in Care, Hawai'i Health and Harm Reduction Center, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, Opportunity Youth Action Hawai'i, and ten individuals.

Your Committees received testimony in opposition to this measure by three individuals.

Your Committees find that existing law permits minors to consent to medical care for treatment of human immunodeficiency virus (HIV) and other sexually-transmitted diseases, but not for the prevention of these diseases. Allowing youth who are over the age of fourteen years to consent to preventative care and other family planning services can empower them to get access to life-saving medication and is a valuable step in ending the HIV epidemic in Hawaii. This measure will therefore resolve this critical gap in a minor's access to medical care.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3125, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3125, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 2. Noes, 1 (Awa). Excused, 2 (McKelvey, Richards).

SCRep. 2511 Ways and Means on S.B. No. 3289

The purpose and intent of this measure is to amend the state estate tax law.

More specifically, the measure amends the definition of "Hawaii taxable estate" to provide that the marital deduction under section 2056 of the Internal Revenue Code shall apply to the passage of any interest in property to any immediate family member.

Your Committee received testimony in support of this measure from ABC Stores; ALTRES; Big Island Motors; Finance Enterprises, Ltd.; Island Insurance Companies; KTA Super Stores; Loyalty Enterprises, Ltd; Servco Pacific Inc.; Tori Richard, Ltd.; Y. Hata & Co., Ltd.; Zippy's Restaurants; and four individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that this measure amends the state estate tax law by making the marital deduction under section section 2056 of the Internal Revenue Code, which is currently only available to surviving spouses, applicable to a transfer to any immediate family member. Your Committee also finds that, for purposes of consistency, a corresponding amendment to the state generation-skipping transfer tax law is necessary.

Your Committee has amended this measure by:

- (1) Making a corresponding amendment to the state generation-skipping transfer tax law to provide that a transfer to any immediate family member shall not be considered a distribution to a skip person, as defined in section 2613 of the Internal Revenue Code; and
- (2) Making a technical nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3289, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3289, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2512 Higher Education on S.B. No. 2060

The purpose and intent of this measure is to:

- (1) Establish an Educational Support Associate position within the University of Hawaii College of Tropical Agriculture and Human Resources' Kona Cooperative Extension; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Hawai'i Farm Bureau, Hawai'i Food+ Policy, Synergistic Hawaii Agriculture Council, Maui Coffee Association, and seven individuals.

Your Committee finds that the College of Tropical Agriculture and Human Resources (CTAHR) of the University of Hawaii at Manoa provides valuable support to the State's agriculture industry. Through the extension program, extension agents from CTAHR provide non-formal science-based education; serve as an outreach component between the agriculture community and the University of Hawaii; and extend practical applications of science to support local food systems, healthy living, youth development, and land stewardship. Your Committee further finds that despite its critical work, the Kona Research Station's sole extension agent is currently supported by only one educational support associate position, which has historically been one hundred percent grant funded. Due to various grant provisions, the educational support associate is limited to work only within the scope of funded projects and is unable to address the needs and challenges of the other industries in the cooperative extension program. Therefore, this measure addresses

chronic staffing shortages at the Kona Research Station to ensure continuity of research and extension activities that support the various industries thriving in Hawaii County.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2060, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2060, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2513 Higher Education on S.B. No. 3191

The purpose and intent of this measure is to permanently authorize the University of Hawaii to continue to regulate conflicts of interest and other ethical issues for technology transfer activities sponsored by the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that students, faculty, and alumni of the University of Hawaii generate numerous inventions and discoveries in various fields. Act 38, Session Laws of Hawaii 2017, established an exemption for technology transfer activities sponsored by the University of Hawaii from certain requirements of the State Ethics Code, which is currently scheduled to repeal on June 30, 2024. To codify existing requirements, the University of Hawaii has adopted a regent's policy, executive policy, and administrative procedures to assure compliance. Therefore, this measure makes the technology transfer requirements permanent to ensure continuity of existing practices while establishing the University of Hawaii as a driver of economic health and workforce development in the State.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3191, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3191, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2514 Higher Education on S.B. No. 3192

The purpose and intent of this measure is to make permanent the Innovation and Commercialization Initiative Program established within the University of Hawaii.

Your Committee received testimony in support of this measure from the University of Hawai'i System.

Your Committee finds that the University of Hawaii has the statutory authority to sponsor and directly participate in the transformation of innovations created by university researchers into viable commercial enterprises. However, to remain competitive with other institutions across the United States while supporting the State's economy, the University of Hawaii requires a robust university-level research program to support commercial innovation. This measure continues critical research conducted by the University of Hawaii to support key economic drivers of the State and workforce development initiatives.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3192, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2515 Housing on S.B. No. 2836

The purpose and intent of this measure is to:

- (1) Appropriate funds and establish within the Department of Business, Economic Development, and Tourism the Interagency Council for Maui Housing Recovery to coordinate and facilitate Maui's permanent housing recovery and facilitate consultation and collaboration between state and county agencies on housing recovery initiatives for the island of Maui; and
- (2) Designate the Executive Director of the Hawaii Housing Finance and Development Corporation to serve as chair of the council.

Your Committee received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation, Office of Planning and Sustainable Development, Maui Chamber of Commerce, one member of the Maui County Council, and one individual.

Your Committee received comments on this measure from the Office of the Governor, Hawaii Public Housing Authority, and one individual.

Your Committee finds that, as one of the largest landowners on the island of Maui, the State must be proactive in coordinating planning and development efforts among public agencies to maximize the benefits derived from the development and redevelopment

of Maui's public lands following the August 2023 Maui wildfires. Your Committee also finds that effective coordination between federal, state and county government agencies, as well as the Maui community, is essential in aiding Maui's recovery. This measure creates a council that will facilitate the communication among the entities that are assisting in that effort, thereby streamlining the permanent housing recovery process.

Your Committee has amended this measure by:

- (1) Requiring the council to work with Maui-based businesses to the greatest extent possible;
- (2) Inserting the State Disaster Recovery Coordinator and the recovery support functions identified by the Governor, with their corresponding state leads, as members of the council;
- (3) Clarifying that a Hawaiian cultural advisor, rather than a cultural specialist, be included as a member of the council; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2836, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2836, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2516 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 2589

The purpose and intent of this measure is to increase the penalty for the desecration of burial sites from a misdemeanor to a felony.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Society for Hawaiian Archaeology, one member of the Maui Lanai Islands Burial Council, and nine individuals.

Your Committees received testimony in opposition to this measure from Pacific Rim Land, Inc.

Your Committees received comments on this measure from one individual.

Your Committees find that it is necessary for the law to reflect the seriousness of the act of disturbing human remains from burial sites without consent. This measure will increase the penalty for the desecration of burial sites from a misdemeanor to a felony to deter potential violators from harming burial sites.

Your Committees have amended this measure by:

- (1) Specifying that the first offense for desecrating a burial site without permission is a misdemeanor for which a fine of not more than \$10,000 shall be imposed;
- (2) Specifying that any subsequent offense for desecrating a burial without permission is a felony for which a fine not to exceed \$25,000 per offense shall be imposed;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2589, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2589, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).
Water and Land: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Fevella).

SCRep. 2517 (Joint) Hawaiian Affairs and Water and Land on S.B. No. 2591

The purpose and intent of this measure is to allow individuals and ohana members to access burial sites on privately owned lands to identify, monitor, or record burial sites, or to conduct cultural practices related to burial sites.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and nine individuals.

Your Committees received testimony in opposition to this measure from three members of the Maui Lanai Islands Burial Council; Pacific Rim Land, Inc.; and one individual.

Your Committees received comments on this measure from the Department of Land and Natural Resources and one individual.

Your Committees find that individuals and ohana possess the right to access private property to identify and record burials for inclusion in the State's inventory of burial sites, or to conduct cultural practices related to burial sites. Your Committees have heard the concerns raised in testimony, including questions regarding landowner liability and the scarcity of personnel required to enforce this measure.

Your Committees find that it is important to hold private landowners accountable for burial sites, archaeological sites, or historic property located on their land. This measure will protect and preserve culturally and historically important sites by imposing a fine on private owners that fail to disclose and record these sites.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting language that imposes a fine of \$1,000 on any private landowner who:

- (A) Fails to disclose and record with the Bureau of Conveyances burial or archaeological sites located on their property that the landowner knew of or should have known of; or
 - (B) Fails to record their property with the Hawaii Register of Historic Places prior to or concurrently with a real estate transaction when the landowner knew of or should have known that an obligation existed; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2591, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2591, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
 Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).
 Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2518 (Joint) Hawaiian Affairs and Health and Human Services on S.B. No. 3123

The purpose and intent of this measure is to:

- (1) Authorize the Department of Hawaiian Home Lands to access vital records for purposes of verifying native Hawaiian ancestry for beneficiary programs; and
- (2) Require the Department of Health and Department of Hawaiian Home Lands to enter into a Memorandum of Agreement to assure appropriate access and handling of confidential records and sealed records that have been unsealed pursuant to court order.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands; Department of Health; Department of Human Services; Free Access Coalition; Ho‘omana Pono, LLC; and two individuals.

Your Committees find that Hawaii is a “closed record” state, which means that persons or entities must demonstrate a direct and tangible interest in a vital record to have access to the record. Allowing the Department of Hawaiian Home Lands to have access to vital records for certain purposes and under certain conditions, greatly reduces the administrative barriers to vetting claims of native Hawaiian ancestry to facilitate participation in beneficiary programs while still protecting the privacy of vital records. This measure will expedite the process to determine the eligibility of native Hawaiian individuals and families and will also ease the administrative burden of the Department of Hawaiian Home Lands.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3123, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3123, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
 Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).
 Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2519 (Joint) Hawaiian Affairs and Health and Human Services on S.B. No. 263

The purpose and intent of this measure is to:

- (1) Require the State Council on Mental Health to include an unspecified number of members with demonstrated knowledge of or work experience involving Native Hawaiian health practices; and
- (2) Require council members to receive annual training on topics related to Native Hawaiian healing and health.

Your Committees received testimony in support of this measure from the State Council on Mental Health, The Queen’s Health System, and three individuals.

Your Committees find that Native Hawaiians experience distinct mental health disparities that pervade their day-to-day well-being and hinder their overall health. Native Hawaiian youth and emerging adults experience mental health crises to a greater degree than their Caucasian peers. Unsurprisingly, the mental health disparities that Native Hawaiians experience continue into old age. Your Committees also find that Native Hawaiians tend to underutilize existing mental health services and that this may be consequent to cultural incongruence with Western mental health practices. This measure prioritizes the mental health of Native Hawaiians and will provide Native Hawaiians with mental health care that is congruent to their values and beliefs.

Your Committees have amended this measure by:

- (1) Deleting language that would have required an unspecified number of members to meet certain work and experience requirements involving traditional Native Hawaiian concepts to be appointed to the State Mental Health Council;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Hawaiian Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 263, as amended herein, and

recommend that it pass Second Reading in the form attached hereto as S.B. No. 263, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
 Hawaiian Affairs: Ayes, 3. Noes, none. Excused, 2 (Ihara, Richards).
 Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2520 (Joint/Majority) Housing and Agriculture and Environment on S.B. No. 3047

The purpose and intent of this measure is to codify the exemption from environmental impact statements for affordable housing projects that meet certain criteria.

Your Committees received testimony in support of this measure from the Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; Department of Hawaiian Home Lands; Office of Planning and Sustainable Development; Affordable Housing Connections LLC; EAH Housing; NAIOP Hawaii; and Building Industry Association Hawai'i.

Your Committees received testimony in opposition to this measure from the Sierra Club of Hawai'i, Kupuna for Mo'opuna, Conservation Council for Hawai'i, The Outdoor Circle, Maui Nui Marine Resource Council, and nineteen individuals.

Your Committees find that Hawaii is currently undergoing a housing crisis. Lengthy regulatory and entitlement processes can further delay and add unnecessary costs to the development of affordable housing projects. This measure will therefore streamline the regulatory process for qualified affordable housing projects to increase feasibility.

Your Committees have amended this measure by:

- (1) Deleting the exemption for agricultural land use districts;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Housing and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3047, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3047, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Housing: Ayes, 2. Noes, 1 (Awa). Excused, 2 (Aquino, Hashimoto).
 Agriculture and Environment: Ayes, 4; Ayes with Reservations (DeCoite, Richards). Noes, 1 (Awa). Excused, none.

SCRep. 2521 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2935

The purpose and intent of this measure is to appropriate moneys to the Agribusiness Development Corporation for the creation of a composting program.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation, Hawai'i Farm Bureau, Hawai'i Food+ Policy, Climate Protectors Hawai'i, Hawai'i Reef and Ocean Coalition, and two individuals.

Your Committees find that the establishment of a composting program would provide a range of environmental benefits that include strengthening sustainable, local food production by using locally generated food waste and other organic materials to create compost, reducing trash in landfills, supporting water conservation, and promoting soil health by increasing the nutrient content and biodiversity of microbes in the soil. This measure establishes a composting program to strengthen the agricultural sector in the State and reduce the cost of production for local farmers.

Your Committees have amended this measure by inserting an effective date of January 1, 2060, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2935, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2935, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.
 Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2522 Energy, Economic Development, and Tourism on S.B. No. 2974

The purpose and intent of this measure is to:

- (1) Establish a Business Revitalization Task Force within the Department of Business, Economic Development, and Tourism to identify methods to improve Hawaii's general economic competitiveness and business climate, including by mitigating regulatory and tax burdens; and
- (2) Require a report to the Legislature.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Hawaiian Telcom; Chamber of Commerce Hawaii; Hawaii Food Industry Association; and Hawaii Credit Union League.

Your Committee received testimony in opposition to this measure from UNITE HERE Local 5 and one individual.

Your Committee finds that economic development is a complex process, requiring the balance of economic growth with environmental concerns, social equity, and government finances. Your Committee further finds that establishing a task force is an important means of collecting ideas from stakeholders and discussing solutions to the challenges that the State faces concerning the complexity of its financial system.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that the Department of Business, Economic Development, and Tourism's testimony requests an appropriation of \$200,000 for one full-time equivalent(1.0 FTE) position or the hiring of a consulting firm to implement the purposes of this measure. Therefore, your Committee respectfully requests that your Committee on Ways and Means consider inserting an appropriation amount of \$200,000 for fiscal year 2024-2025, should it choose to deliberate on this measure.

Your Committee further notes the testimony of the Chamber of Commerce Hawaii, and finds that the issued raised therein merit further discussion and consideration of the inclusion of the following language:

- (1) The business revitalization task force shall be composed of at least twenty members serving a term of at least two years, including the following members of the Hawaii business community:
 - (A) Seven representatives from any of Hawaii's regional chambers of commerce/business associations, including but not limited to Chamber of Commerce Hawaii, Maui Chamber of Commerce, Kauai Chamber of Commerce, Kona-Kohala Chamber of Commerce, Hawaii Island Chamber of Commerce, Lanai Chamber of Commerce, Molokai Chamber of Commerce, Kapolei Chamber of Commerce, North Shore Chamber of Commerce, Kailua Chamber of Commerce, and others;
 - (B) Five representatives from any of the following ethnic and diversity chambers of commerce including but not limited to the Chinese Chamber of Commerce, Japanese Chamber of Commerce, Filipino Chamber of Commerce, Hispanic Chamber of Commerce, Black Chamber of Commerce, Rainbow Chamber of Commerce, and more; and
 - (C) One member of the Small Business Regulatory Review Board;

Provided that a vacancy on the task force be filled in the same manner as the original appointment; provided further the terms of the members shall be for one year;

- (2) The task force shall elect a chair and vice chair from among its members;
- (3) The task force shall meet as necessary, but at least quarterly, at the call of the chair and at the time and place designated by the chair. The task force may conduct its meetings through teleconferences or other similar means;
- (4) The task force shall develop recommendations for improving governmental operations and reducing costs. Staff to assist the task force in performing its duties shall be assigned by the President of the Senate, the Speaker of the House of Representatives, and the Governor. The task force shall consider reports issued by the Auditor; Ethics Commission; Department of Business, Economic Development, and Tourism; the University of Hawaii Economic Research Organization; and other relevant reports; and
- (5) The task force may submit all or part of its recommendations at any time during the year, but a final report summarizing its recommendations shall be submitted at the completion of its work.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2974, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2974, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2523 Energy, Economic Development, and Tourism on S.B. No. 3235

The purpose and intent of this measure is to:

- (1) Establish the Solar Hui Program to allow multi-family residential property owners to invest into a Solar Hui Investment Fund to provide loans to low- and moderate-income households to install solar energy systems; and
- (2) Make an appropriation for the establishment of one-full time equivalent (1.0 FTE) Solar Hui Program Fund Manager position.

Your Committee received testimony in support of this measure from the Hawaii Green Infrastructure Authority, Greenpeace Hawaii, Hawaii Bankers Association, Climate Protectors Hawaii, Blue Planet Foundation, 350 Hawaii.org, Kauai Climate Action Coalition, Hawai'i Association of REALTORS, Green Party of Hawai'i, Hawaii Credit Union League, and seven individuals.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Department of Budget and Finance.

Your Committee finds that condominium units represent almost one-third of the State's housing stock. Your Committee further finds that this measure will complement the Hawaii Green Infrastructure Authority's equitable energy goals by providing a venue for multi-family residential property owners to accelerate clean energy adoption by investing in a fund to lower the energy burden for low- and moderate-income households by installing solar+ storage systems through energy services agreements.

Your Committee has amended this measure by:

- (1) Inserting a definition for “energy services agreement”;
- (2) Adding “energy project” to the definition of “solar energy system”;
- (3) Changing the financing vehicle of loans to energy services agreements;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committee notes that this measure contains an appropriation for an unspecified amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriate amount to be inserted into in this measure.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3235, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2524 Energy, Economic Development, and Tourism on S.B. No. 2406

The purpose and intent of this measure is to:

- (1) Require contracts entered into by the Hawaii Tourism Authority for management of the Hawaii Convention Center facility to include marketing for all uses of the facility; and
- (2) Require the Hawaii Tourism Authority to submit a report.

Your Committee received testimony in support of this measure from four individuals.

Your Committee received comments on this measure from the Hawai‘i Tourism Authority.

Your Committee finds that the Hawaii Convention Center is important for the State’s ability to host large meetings, conventions, and events. Your Committee further finds that large scale events require coordination and that including marketing for all uses of the convention center into contracts for management of the convention center will increase coordination by contractors.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it makes recommendations as to the appropriate time interval for the Hawaii Tourism Authority to submit its reports, as proposed by this measure.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2406, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2406, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2525 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2500

The purpose and intent of this measure is to:

- (1) Establish a food and product innovation network within the Agribusiness Development Corporation; and
- (2) Make an appropriation for food and product innovation facilities on the islands of Molokai, Oahu, and Hawaii.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; Agribusiness Development Corporation; University of Hawai‘i System; Ulupono Initiative; Hawai‘i Farm Bureau; and one individual.

Your Committees find that establishing a food and product innovation network is critical to meeting the State’s agricultural and economic diversification goals. Your Committees further find that the innovation network will allow businesses in the State to capitalize globally on the “made in Hawaii”, “produced in Hawaii”, or “processed in Hawaii” brand; create world-class products; and scale up production by providing the businesses with access to a diverse suite of manufacturing equipment and industry expertise.

Your Committees have amended this measure by:

- (1) Inserting a blank appropriation amount for the establishment of one full-time (1.0 FTE) position; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

Your Committees note this measure, as amended, contains an appropriation for an unspecified amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider an appropriate amount to be inserted.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2500, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2500, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2526 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment on S.B. No. 2675

The purpose and intent of this measure is to:

- (1) Require the Hawaii State Energy Office, in collaboration with the Department of Agriculture and Department of Land and Natural Resources, to facilitate the private sector's development of renewable energy projects that also support agricultural food production;
- (2) Establish within the Hawaii State Energy Office a three-year Phytoremediation Biofuels Pilot Program to be conducted by the Hawaii State Energy Office in collaboration with the Department of Agriculture and Department of Land and Natural Resources;
- (3) Require a report to the Governor and Legislature; and
- (4) Make appropriations, including for the establishment of an Interagency Liaison position within the Hawaii State Energy Office.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office; Pacific Biodiesel Technologies, LLC; Hawai'i Food+ Policy; and three individuals.

Your Committees received comments on this measure from the Department of Agriculture and Hawai'i Farm Bureau.

Your Committees find that the State is committed to increasing the amount of locally grown food to help improve food security and self-sufficiency. Your Committees further find that there are many acres of suitable farmland currently being used solely for renewable energy projects that could simultaneously help support both the State's renewable energy and food security goals. This measure further helps the State advance these goals.

Your Committees have amended this measure by:

- (1) Inserting language to amend the permitted uses for all lands with soil classified by the Land Study Bureau's detailed land classification as overall (master) productivity rating class A or B and for solar energy facilities, class B or C;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that this measure contains appropriations in unspecified amounts. Should your Committee on Ways and Means choose to deliberate on this measure, your Committees respectfully request that it consider appropriate amounts to be inserted into this measure.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2675, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2675, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2527 (Joint) Agriculture and Environment and Health and Human Services on S.B. No. 2426

The purpose and intent of this measure is to:

- (1) Require certain priority level 1 cesspools to be upgraded, converted, or connected before January 1, 2035;
- (2) Require priority level 2 cesspools to be upgraded, converted, or connected before January 1, 2040;
- (3) Appropriate an unspecified amount of funds to implement the Cesspool Compliance Pilot Grant Project established pursuant to Act 153, Session Laws of Hawaii 2022; and
- (4) Establish a Cesspool Upgrade, Conversion, or Connection Income Tax Credit.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Green Infrastructure Authority, Hawai'i Climate Change Mitigation and Adaptation Commission, University of Hawai'i Sea Grant College Program, UH Water Resources Research Center, one member of the Kauai County Council, Environmental Caucus of the Democratic Party of Hawai'i, Wastewater Alternatives and Innovations LLC, Friends of Hanauma Bay, Public Access to SunScreens Coalition, The Coral Reef Alliance, Kua'aina Ulu 'Auamo, Puakō for Reefs, Indivisible Hawaii, Hawai'i Reef and Ocean Coalition, Climate Protectors Hawai'i, and eight individuals.

Your Committees received testimony in opposition to this measure from Kingdom Pathways.

Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Hawai'i Association of REALTORS, and Tax Foundation of Hawaii.

Your Committees find that the Cesspool Conversion Working Group established pursuant to Act 132, Session Laws of Hawaii 2018, was convened to facilitate the upgrade or conversion of cesspools on properties within priority upgrade areas to more environmentally-responsible waste treatment systems or the connection of these cesspools to sewer systems before 2050. This measure implements various recommendations of the Cesspool Conversion Working Group.

According to testimony received by your Committees, prioritizing and accelerating conversion dates for cesspool systems with the most severe impacts will not only provide more timely protection of the State's groundwater sources, but also a sense of urgency to property owners, while allowing the industry to gear up for increased demand. Additional testimony also stated that the provision of grants to certain owners and lessees on Hawaiian home lands and tax credits on qualified cesspool upgrades, conversions, and connections will help offset the cost to comply with the 2050 deadline. Your Committees recognize the high cost of upgrading, converting, or connecting for the average owner of a cesspool in the State, and respectfully requests that the establishment of a cesspool conversion grant program for low- and moderate-income families be considered as this measure moves forward in the legislative process.

Your Committees further recognize the concerns raised by the Department of the Attorney General that section 8 of this measure, which eliminates the auditing requirement on tax credits for organically produced agricultural products, is beyond the scope of the title of this measure and therefore may violate the single subject requirement of Section 14, Article III of the Hawaii State Constitution.

Accordingly, your Committees have amended this measure by:

- (1) Deleting section 8 of this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2426, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2426, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2528 (Joint) Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2561

The purpose and intent of this measure is to:

- (1) Prohibit intentionally leaving or confining a pet animal in a vehicle under conditions that endanger the pet animal's health, safety, or well-being;
- (2) Permit law enforcement officers, animal control officers, and firefighters to enter an unattended vehicle to protect the health, safety, or well-being of a pet animal that is endangered by being left or confined in an unattended vehicle; and
- (3) Allow private citizens to rescue a pet animal that has been left in an unattended vehicle under certain circumstances.

Your Committees received testimony in support of this measure from the Animal Legal Defense Fund, Animal Rights Hawaii, and two individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that leaving a pet animal unattended in a vehicle can too often have tragic consequences. Your Committees recognize that the State experiences higher temperatures than most places year-round and that the temperature inside of a parked vehicle can rise rapidly, making it lethal for any unattended pet animals left or confined in a vehicle. This measure provides certain individuals who remove or retrieve an unattended pet animal from a vehicle immunity from civil and criminal liability, under certain circumstances. According to testimony received by your Committees, fourteen other states have passed similar measures and there has been no evidence that the passage of this measure would result in a rash of car window smashing across the State.

Your Committees recognize the concerns from the Department of the Attorney General regarding language throughout the measure.

Accordingly, your Committees have amended this measure by:

- (1) Deleting:
 - (A) Language relating to when a pet animal is accidentally left in a vehicle;
 - (B) The definitions of "person" and "unattended vehicle"; and
 - (C) The word "extreme" from the definitions of "extreme cold" and "extreme heat";
- (2) Placing language relating to affirmative defenses for criminal property damage to a vehicle as a result of the removal or retrieval of a pet animal under a new section of chapter 708, Hawaii Revised Statutes, relating to offenses against property rights;

- (3) Clarifying the type of attempts a private citizen must make to contact law enforcement before entering a vehicle to rescue an unattended pet animal;
- (4) Amending the violation for intentionally leaving or confining a pet animal in a vehicle under conditions that endanger their health, safety, or well-being from a \$500 fine to a misdemeanor under section 711-1109(1)(2), Hawaii Revised Statutes, relating to cruelty to animals in the second degree; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2561, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2561, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2529 Agriculture and Environment on S.B. No. 1590

The purpose and intent of this measure is to:

- (1) Direct the Department of Agriculture to assess steps necessary:
 - (A) For the State to supplement federal authority to perform meat inspections with state inspectors; and
 - (B) To fully transfer meat inspection authority from federal authority to the State; and
- (2) Appropriate an unspecified amount of funds for the establishment of three full-time equivalent (3.0 FTE) inspector positions within the Department of Agriculture to perform meat inspections.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee received comments on this measure from the Animal Welfare Institute.

Your Committee finds that the inspection of livestock prior to slaughter is a critical step to ensuring the quality and safety of the State's locally produced meat supply. Your Committee further finds that the State's meat inspection program was discontinued in the mid-1990s and since then, the State has been wholly relying on the United States Department of Agriculture Food Safety Inspection Service to perform meat inspection services statewide. Your Committee believes that steps must be taken to restore the State's ability to inspect local poultry and livestock. According to testimony received by your Committee, a state food safety and inspection service could help increase processing capacity, diversify processing options and reduce processing bottleneck, allow producers to process livestock in remote and rural locations, reduce transportation time and costs, and support producers' ability to donate locally produced meat to food banks and other community feeding programs. This measure promotes the continued growth of the State's poultry and livestock industries, while maintaining food safety standards.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1590, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1590, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2530 Agriculture and Environment on S.B. No. 2413

The purpose and intent of this measure is to require the Board of Agriculture to submit a report to the Legislature prior to the convening of the Regular Session of 2025 on the:

- (1) Percentage of agricultural lands that are suitable for farming and agricultural lands that are actively farmed; and
- (2) Certain dollar amounts relating to lease transfers between lessees of agricultural lands.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau, Hawaii Food+ Policy, Purple Mai'a Foundation, and one individual.

Your Committee received testimony in opposition to this measure from the Department of Agriculture.

Your Committee finds that the State is the largest landowner in Hawaii and has the responsibility for ensuring that public land is used prudently for the benefit of its residents. According to testimony received by your Committee, accurate data on public agricultural lands, especially those leased, will help optimize public and private investments in agriculture to meet the State's local food production and agricultural sustainability goals. The report required under this measure seeks to identify public, productive agricultural lands, while protecting their use under the state and county land use regulatory systems.

Your Committee has amended this measure by:

- (1) Deleting the requirement for the report to include the dollar amount of infrastructure improvements by the original lessee made on agricultural land transferred to another lessee; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2413, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2413, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2531 Agriculture and Environment on S.B. No. 572

The purpose and intent of this measure is to:

- (1) Allow the Department of Agriculture (Department) to declare a biosecurity emergency in certain circumstances and with the approval of the Governor;
- (2) Outline the terms of a declared biosecurity emergency;
- (3) Require the Department to implement certain requirements for agricultural commodity importers; and
- (4) Allow the Department to:
 - (A) Impose fines on agricultural commodity importers who fail to comply with the requirements;
 - (B) Subpoena necessary documentation from agricultural commodity importers relating to a known or suspected infestation of pests; and
 - (C) Quarantine any farm, facility, or business that is known to be infested with pests.

Your Committee received testimony in support of this measure from the Department of Agriculture; Department of Land and Natural Resources; Hawaii Cattlemen's Council, Inc.; and Ka 'Ohana O Na Pua.

Your Committee received comments on this measure from the Coordinating Group on Alien Pest Species.

Your Committee finds that the entry and establishment of a new, devastating pest or disease is an ever-present reality, given the increase and expansion of global trade and travel. Your Committee recognizes that the arrival and spread of new invasive species in the State can lead to significant economic and environmental loss. According to testimony received by your Committee, this measure is a major step in enabling the Department of Agriculture to rapidly respond to new pest introductions.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572, S.D. 1, and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Rhoads). Noes, none. Excused, none.

SCRep. 2532 Agriculture and Environment on S.B. No. 3247

The purpose and intent of this measure is to alleviate the costs of interisland shipping for farmers and ranchers in the State by establishing an interisland produce shipping tax credit for transportation costs incurred by certain taxpayers who ship produce and agricultural goods between counties.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawai'i Farm Bureau; Hawai'i Alliance for Progressive Action; Hawai'i Farmers Union United; Hawaii Food Industry Association; Malama Kauai; Women Organizing for Change in Agriculture and Natural Resource Management; Hawaii Food+ Policy; We Are One, Inc.; and fifty-nine individuals.

Your Committee received comments on this measure from the Department of Taxation, Department of the Attorney General, and Tax Foundation of Hawaii.

Your Committee finds that because Hawaii is an island state, any increase in the cost of interisland transportation creates a barrier to market for many local ranchers and farmers. Your Committee recognizes that shipping and transportation costs are a leading barrier to expansion for many local ranchers and farmers as well. Your Committee notes that the United States Department of Agriculture administers a reimbursement transportation cost payment program for geographically disadvantaged farmers and ranchers, including farmers and ranchers in Hawaii and the Pacific, for a portion of the cost to transport agricultural commodities or inputs used to produce the agricultural commodities. Your Committee believes that providing a similar state incentive will reduce farming and ranching costs and facilitate an increase in local food production, while reducing the cost for local consumers to purchase local agriculture products.

Your Committee acknowledges the concerns raised by the Department of the Attorney General that the definition of "qualified taxpayer" may trigger a challenge under the Privilege and Immunities Clause of the United States Constitution as it could be construed to impose a residency requirement to be eligible for the tax credit, thereby discriminating against residents of another state.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of "qualifying taxpayer" by deleting "is located in the State";

- (2) Inserting a definition for “broad line distributor”;
- (3) Making it applicable to taxable years beginning after December 31, 2024; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3247, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3247, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2533 Agriculture and Environment on S.B. No. 3079

The purpose and intent of this measure is to:

- (1) Clarify the requirement for the Public Utilities Commission (PUC) to consider the effect of the State’s reliance on fossil fuels on generation-based greenhouse gas emissions, rather than on greenhouse gas emissions;
- (2) Allow the PUC the discretion on whether to require an analysis for energy projects that do not result in generation-based greenhouse gas emissions;
- (3) Clarify that the PUC, to lower and stabilize the cost of electricity, consider, in part, the costs and benefits of a diverse portfolio of energy resources, rather than a diverse portfolio of fossil fuels; and
- (4) Make conforming amendments.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaiian Electric, and Hawaii Clean Power Alliance.

Your Committee received comments on this measure from the Hawai’i State Energy Office.

Your Committee finds that, when determining the reasonableness of the costs regarding energy projects of electric and gas systems, the PUC is required to conduct an analysis to consider the effect of the State’s reliance on fossil fuels on certain matters, such as greenhouse gas emissions. However, your Committee recognizes that not only are these analyses time-consuming and costly, but these costs are usually passed on to ratepayers. By giving the PUC discretion to conduct these analyses for projects with zero generation-based greenhouse gas emissions, this measure reduces costs to ratepayers while supporting more timely review of energy projects in the State.

However, your Committee recognizes concerns from the Hawaii State Energy Office regarding the inconsistency and ambiguity of this measure as it pertains to greenhouse gas emissions, and that omitting the analysis of lifecycle greenhouse gas emissions is inconsistent with the intent of this measure and the PUC’s duty to protect public interest.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that the PUC analyze the effect of the State’s reliance on fossil fuels on lifecycle greenhouse gas emissions for projects involving fuel combustion; provided that the PUC may require a lifecycle greenhouse gas emissions analysis for energy projects that do not involve the combustion of fuel;
- (2) Inserting a definition of “lifecycle greenhouse gas emissions assessment”; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3079, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2534 Agriculture and Environment on S.B. No. 3329

The purpose and intent of this measure is to require the disclosure of any little fire ant infestations as part of the sale of residential real property.

Your Committee received testimony in support of this measure from the Kalani Ohana Farm and four individuals.

Your Committee received comments on this measure from the Department of Agriculture, Hawaii Pest Control Association, and Hawai’i Association of REALTORS.

Your Committee finds that the little fire ant is an invasive pest that is difficult to manage and is spreading throughout the State. Your Committee recognizes that although certain homeowners have gone to extreme lengths to limit the spread of little fire ants, there are others who do not take reasonable measures to prevent little fire ant infestations, nor do they take reasonable measures to treat their property once it has been infested, thereby leading to the infestation of little fire ants on surrounding properties. Your Committee believes that a little ant infestation is a material fact that could measurably affect the value of residential real property being offered for sale. This measure requires the seller of a residential real property to provide whether the property has had any infestation of little fire ants in a disclosure statement to the buyer.

Your Committee has amended this measure by inserting language to require the seller of a residential property to disclose if a little fire ant infestation on the property was treated and the date and who provided the treatment.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3329, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3329, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2535 (Majority) Agriculture and Environment on S.B. No. 2545

The purpose and intent of this measure is to:

- (1) Amend electronic manufacturer recycling goals under the Electronic Device Recycling Recovery Act to be based upon the manufacturer's overall market share in the State;
- (2) Amend the per pound penalty for any shortfall in meeting the manufacturer recycling goals to be a tiered penalty based upon the amount of the shortfall;
- (3) Exclude floor-standing printers and printers with optional floor stands from the definition of a covered electronic device under the Electronic Device Recycling Recovery Act; and
- (4) Make other housekeeping amendments.

Your Committee received testimony in support of this measure from the Consumer Technology Association and Retail Merchants of Hawaii.

Your Committee received testimony in opposition to this measure from the Mr. K's Recycle and Redemption Center, Recycle Hawaii, and six individuals.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that manufacturers of electronic devices are struggling to comply with Act 151, Session Laws of Hawaii 2022, which amended provisions of the State Electronic Waste Recycling Program to assist in the overall effort of recycling electronic waste in the State. Your Committee recognizes that manufacturers especially struggle with the increased weight targets, as the weights of electronics have decreased over time. Your Committee further recognizes that the increased shortfall penalties to these manufacturers for failing to meet the updated electronic device collection requirements may lead to increased production costs that may ultimately be passed to consumers.

Although this measure aims to address the issues and complications that electronic device manufacturers face with the updated recycling goals, your Committee has heard the concerns raised and finds that the language of S.B. No. 3264, Regular Session of 2024, a substantially similar measure that increases electronic waste collection opportunities, is preferable.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting the contents of S.B. No. 3264, that allows manufacturers of electronic devices to:
 - (A) Coordinate collection activities to meet the requirements of the Electronic Device Recycling and Recovery Act; and
 - (B) Be considered to have satisfied recycling goals by providing only collection service locations for recycling at no cost to the owner in each county and zip code tabulation area with a population greater than twenty-five thousand, under certain circumstances; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2545, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2545, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Awa). Excused, 2 (DeCoite, Richards).

SCRep. 2536 Agriculture and Environment on S.B. No. 2432

The purpose and intent of this measure is to establish a tax credit for food manufacturers who produce value-added products using local crops.

Your Committee received testimony in support of this measure from the Department of Agriculture and Hawaii Food+ Policy.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the State has a goal to double local food production by 2030. One barrier to that goal is that there is little access to capital for food manufacturing and few incentives for investment in Hawaii's food manufacturing industry. Your Committee recognizes that value-added food manufacturers in the State face high production costs and narrow profit margins, which imposes financial burdens and deters the creation and distribution of food products in the State. The tax credit as provided in this measure can incentivize food manufacturers to utilize local agricultural yields to reduce food waste; develop new products; and increase revenues in the State.

Your Committee has amended this measure by:

- (1) Capping the maximum amount of the tax credit to be claimed by a qualified taxpayer in each taxable year at \$100,000; and
- (2) Capping the total amount of tax credits to be claimed in the State for each taxable year at \$10,000,000.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2432, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2432, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2537 Agriculture and Environment on S.B. No. 2399

The purpose and intent of this measure is to exempt from the general excise tax the first \$200,000 of the gross proceeds received by a farmer for the sale of produce.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs and Hawaii Food+ Policy.

Your Committee received comments on this measure from the Department of Agriculture, Department of Attorney General, Department of Taxation, and Tax Foundation of Hawaii.

Your Committee finds that the State has a local food security and self-sufficiency goal to double local food production for local consumption by 2030. Your Committee further finds that providing tax relief to those who cultivate land in the State to grow produce for human consumption will reduce the production cost of fresh fruits and vegetables, making local fruits and vegetables more competitive and increasing sales and profits to farmers and the agricultural industry in the State.

Your Committee acknowledges the concerns raised by the Department of the Attorney General that the definition of “farmer” may trigger a challenge under the Dormant Commerce Clause as it could be construed to benefit in-state economic interests by burdening out-of-state competitors.

Accordingly, your Committee has amended this measure by amending the definition of “farmer” by deleting the phrase “in the State”.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2399, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2538 (Joint) Agriculture and Environment and Health and Human Services on S.B. No. 2425

The purpose and intent of this measure is to:

- (1) Authorize and appropriate \$150,000 from the Water Pollution Control Revolving Fund to the Department of Health to retain qualified consultants as necessary to:
 - (A) Identify necessary public outreach and education resources and tools; and
 - (B) Develop a comprehensive public outreach strategy and website to serve as a statewide clearinghouse for information and resources for homeowners and wastewater industry professionals related to cesspool conversion; and
- (2) Require that mandatory seller disclosures in residential real estate transactions include certain information on any cesspool on the property.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Climate Change Mitigation and Adaptation Commission, Hawaii Green Infrastructure Authority, University of Hawai‘i Sea Grant College Program, UH Water Resources Research Center, one member of the Kauai County Council, Environmental Caucus of the Democratic Party of Hawai‘i, Indivisible Hawaii, Puakō for Reefs, Kua‘āina Ulu ‘Auamo, Wastewater Alternatives and Innovations LLC, Hawai‘i Reef and Ocean Coalition, Climate Protectors Hawai‘i, Public Access to SunScreens Coalition, and seven individuals.

Your Committees received comments on this measure from the Hawai‘i Association of REALTORS and Kingdom Pathways.

Your Committees find that to reduce water pollution, unless exempted by the Department of Health, all cesspools in the State are required to be updated or converted to another method of waste disposal or connected to a sewerage system by January 1, 2050. Your Committees recognize that the Cesspool Conversion Working Group established pursuant to Act 132, Session Laws of Hawaii 2018, was convened to address the costs, terrain, and other geologic and geographic factors that complicate the upgrading or conversion of cesspools in many areas of the State. This measure facilitates the timely upgrade, conversion, and connection of cesspools in the State by adopting various recommendations of the Cesspool Conversion Working Group.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2425 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2539 (Joint) Agriculture and Environment and Health and Human Services on S.B. No. 2421

The purpose and intent of this measure is to appropriate an unspecified amount of funds for the:

- (1) Continued administration of the Hawaii Healthy Food Incentive Program; and
- (2) Provision of matching funds to beneficiaries who participate in the Supplemental Nutrition Assistance Program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Department of Health; Department of Human Services; City and County of Honolulu's Office of Economic Revitalization, Hawaii Medical Service Association; Hawaii's Farm Bureau; Hawaii's Public Health Institute; Hawaii Food Industry Association; Hawaii's Farmers Union United; Ulupono Initiative; Hawaii Primary Care Association; AARP Hawaii; Volcano Precious Plastic LLC; Farm Link Hawaii; Hawaii Food Bank, Inc.; Hawaii's Pacific Health, Zonta Club of Hilo; Hawaii's Alliance for Progressive Action; Pacific Gateway Center; Hawaii's Good Food Alliance; Pele Lani Farm LLC; Aloha United Way, Inc.; Hawaii Food+ Policy; Kaiser Permanente Hawaii; Malama Kauai; The Food Basket Inc.; Balanced Hawaii Eats, LLC; Democratic Party of Hawaii; Hawaii's Children's Action Network Speaks!; Hawaii Chapter of 350.org; Ho'ōla Farms; Hawaii Appleseed Center for Law & Economic Justice; AlohaCare; Kōkua Kalihi Valley (Comprehensive Family Services); Hawaii Association of Health Plans; Adaptations Inc.; Chamber of Commerce Hawaii; Big Tree Farm LLC; Indivisible Hawaii; Hawaii's Hunger Action Network; Local Food Coalition; Climate Protectors Hawaii; Save Medicare Hawaii; and seventy-nine individuals.

Your Committees find that every community should have access to fresh and healthy dietary options, but the high cost of fresh produce and healthy alternatives often makes that difficult. Your Committees further find that the Hawaii Healthy Food Incentive Program, now commonly known as the DA BUX Double Up Program, provides a dollar-for-dollar match to federal Supplemental Nutrition Assistance Program beneficiaries who purchase locally grown fruits, vegetables, and proteins at participating farmers' markets, grocery stores, and community-supported agriculture projects. Your Committees note that a \$3,000,000 investment by the State in DA BUX Double Up Program would allow the statewide program coordinator, led by The Food Basket Inc., to apply for an additional \$3,000,000 in matching federal funds, totaling \$6,000,000. This measure not only supports the health of local families and farmers, but also the local economy.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2421 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2540 Agriculture and Environment on S.B. No. 2790

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to conduct a study on agricultural markets for Hawaii farmers;
- (2) Appropriate an unspecified amount of funds for the establishment of:
 - (A) One full-time equivalent (1.0 FTE) data scientist, statistician, or market analyst position to conduct data analysis; and
 - (B) One full-time equivalent (1.0 FTE) field researcher position to collect relevant agricultural data for the agricultural statistics services to build an agricultural data dashboard for public consumption; and
- (3) Appropriate \$200,000 for the one-year study on agricultural markets for Hawaii farmers.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii's Farm Bureau; Hawaii Food+ Policy; Hawaii Cattlemen's Council; and one individual.

Your Committee finds that the efficacy of decision-making, statewide planning, and sustainable growth of the agricultural industry is highly dependent on the availability of timely, specific, reliable, accurate, and useful statistics. This measure provides much needed resources to strengthen and upgrade the collection, analysis, and dissemination of critical agricultural data to help the State's farmers and ranchers survive and thrive.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2790 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2541 Agriculture and Environment on S.B. No. 3261

The purpose and intent of this measure is to:

- (1) Establish a Local Agriculture Transportation Cost Reimbursement Program to reimburse eligible ranchers and farmers a portion of their costs to transport livestock, livestock products, agricultural commodities, and certain supplies under certain circumstances; and
- (2) Appropriate an unspecified amount of funds for the Department of Agriculture to fund and administer the Local Agriculture Transportation Cost Reimbursement Program.

Your Committee received testimony in support of this measure from the Department of Agriculture; Hawaii Food Industry Association; Hawaii Cattlemen's Council, Inc.; and Hawaii Food+ Policy.

Your Committee finds that because Hawaii is an island state, any increase in the cost of interisland transportation creates a barrier to market for many local ranchers and farmers. Your Committee recognizes that shipping and transportation costs are a leading barrier to expansion for many local ranchers and farmers as well. According to testimony received by your Committee, when an interisland cargo carrier increased its shipping rate by forty-six percent in 2020, many agricultural producers, particularly those on neighbor islands, could no longer afford to ship their products to other islands, resulting in lost sales and market share. The Local Agriculture Transportation Cost Reimbursement Program proposed in this measure will offset high shipping and transportation costs for local food producers; make locally grown food more competitive with imported products and more available and accessible to consumers and manufacturers on other islands; and incentivize more agricultural production in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3261 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2542 Agriculture and Environment on S.B. No. 3025

The purpose and intent of this measure is to:

- (1) Clarify that the Department of Agriculture shall not require inspections or sampling of hemp that duplicate inspections and sampling required by the United States Department of Agriculture; and
- (2) Repeal the requirement for the Department of Agriculture to adopt rules necessary to address nuisance issues, including smell, noise, and excessive lighting, arising out of the activities of certain hemp growers.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Farmers Union United, and one individual.

Your Committee finds that under existing law, the Department of Agriculture is tasked with enforcing restrictions regarding the impact to surrounding communities from growing hemp within the State. As part of this duty, the Department of Agriculture is also tasked with adopting rules to address nuisance issues such as smell, noise, and excessive lighting arising from hemp production. However, your Committee further finds that pre-existing regulations and authority under the Department of Health and county land use ordinances address, and are the appropriate method of addressing, the areas of nuisance relating to hemp production. Your Committee recognizes that where pre-existing frameworks of regulatory oversight for nuisance and other issues are present, a deferral to and reliance on those regulatory frameworks is the proper and preferred means to avoid any ambiguities that may arise and add additional and duplicative regulations for Hawaii's hemp growers. Accordingly, this measure eliminates any redundancies and confusion arising from conflicting rules and increasing the challenge to enforce the State's laws on commercial hemp production.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3025 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

SCRep. 2543 Agriculture and Environment on S.B. No. 3315

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to use consistent units of measurement in its summary to the public on the amounts of restricted use pesticides used; and
- (2) Establish a one-half mile buffer zone for pesticides around schools and state and county public parks.

Your Committee received testimony in support of this measure from the Hawai'i Alliance for Progressive Action; Hui O Kuapa; Women Organizing for Change in Agriculture and Natural Resource Management; Green Party of Hawai'i; We Are One, Inc.; Hawaii Chapter of Americans for Democratic Action Inc; Democratic Party of Hawai'i; Education Caucus of the Democratic Party of Hawai'i; Beyond Pesticides; Hawaii Reef and Ocean Coalition; Beyond Organic Consulting Inc.; Mohala Farms; Kanalani Ohana Farm; and seventy-three individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Farm Bureau; Hawaii Crop Improvement Association; Sugarland Farms, Inc.; and one individual.

Your Committee received comments on this measure from the Department of Agriculture.

Your Committee finds that pesticide exposure can cause significant harm to public health and the environment, especially restricted use pesticides, as deemed by the State. Your Committee further finds that many residents are especially concerned regarding the long-term health effects and potential negative impacts of pesticide drift on children, particularly due to the prevailing trade winds that blow throughout the State. According to testimony received by your Committee, leading academic institutions have published peer reviewed research, some funded by the United States Environmental Protection Agency, that clearly demonstrates that a half mile buffer zone is required to provide adequate health protection for children from pesticide exposure. This measure seeks to further ensure that data is collected regarding restricted use pesticide use is standardized and that highly sensitive areas, such as schools and public parks, are protected from the potential negative effects of long-term pesticide exposure.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3315 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

SCRep. 2544 Agriculture and Environment on S.B. No. 3316

The purpose and intent of this measure is to:

- (1) Require monthly rather than annual reporting of pesticide use;
- (2) Amend the contents of the reports to include detailed geospatial information, site specific identifying information, and increased detail and uniformity in amount of product and chemical applied; and
- (3) Require the Department of Agriculture to develop an online reporting tool for restricted use pesticide reporting.

Your Committee received testimony in support of this measure from Beyond Pesticides, Hawai'i Farmers Union United, Hawaii Alliance for Progressive Action, Hawaii Reef and Ocean Coalition, Beyond Organic Consulting Inc., Kanalani Ohana Farm, and fifty-four individuals.

Your Committee received testimony in opposition to this measure from the Hawai'i Farm Bureau; Hawaii Pest Control Association; Sugarland Farms, Inc.; and one individual.

Your Committee received comments on this measure from the Department of Agriculture and Hawaii Crop Improvement Association.

Your Committee finds that pesticide exposure can cause significant harm to public health and the environment, especially restricted use pesticides, as deemed by the State. According to testimony received by your Committee, the restricted use pesticides reporting requirement established by Act 45, Session Laws of Hawaii 2018, does not serve the purpose of public education and data-based research for which it was intended. This measure protects the health of environment and people of the State and enables more informed public health decision—making by amending the frequency and quality of the restricted use pesticides reporting and requiring the development of an online restricting use pesticide reporting tool.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3316 and recommends that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5; Ayes with Reservations (DeCoite, Richards). Noes, none. Excused, none.

SCRep. 2545 Agriculture and Environment on S.B. No. 3026

The purpose and intent of this measure is to replace representatives of the sugar and pineapple industries on the Advisory Committee on Pesticides with representatives of the coffee and diversified agriculture industries.

Your Committee received testimony in support of this measure from the Department of Agriculture, University of Hawai'i System, Office of Hawaiian Affairs, and Hawaii Food+ Policy.

Your Committee finds that the Advisory Committee on Pesticides advises and assists the Department of Agriculture in developing and revising laws and rules to carry out and effectuate the Hawaii Pesticides Law. Your Committee recognizes that the existing membership of the Advisory Committee includes representatives of the sugar and pineapple industries as sugar and pineapple plantations were once the foundation of Hawaii's agricultural economy. However, since the 1970s, the number of sugar and pineapple plantations in the State has greatly decreased, giving way to producers of coffee and other diversified agriculture. This measure updates the membership of the Advisory Committee on Pesticides to better represent the existing composition of the agriculture industry in the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3026 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2546 Agriculture and Environment on S.B. No. 3361

The purpose and intent of this measure is to include oilseed cover crops into the Cover Crop Reimbursement Pilot Program established pursuant to Act 312, Session Laws of Hawaii 2022.

Your Committee received testimony in support of this measure from the Hawai'i Farm Bureau.

Your Committee finds that the Cover Crop Reimbursement Pilot Program established pursuant to Act 312, Session Laws of Hawaii 2022, was established to incentivize the use of beneficial land management practices that enhance the quality and sustainability of Hawaii's agricultural lands. This measure updates the definitions of cover crop and green manure to include oilseed cover crops, which not only increase pollinator health and biodiversity, but also can be used to produce firm renewable energy. Incentivizing the production of oilseed cover crops will not only increase agricultural productivity, but also align with the State's integrated sustainability goals.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3361 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2547 Agriculture and Environment on S.B. No. 2961

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish a two-year Agricultural Workforce Housing Working Group to address the shortage and challenges of agricultural workforce housing in the State; and
- (2) Require a report to the Legislature before the Regular Session of 2026.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Hawai'i Farm Bureau, and Kanalani Ohana Farm.

Your Committee received comments on this measure from the Department of Agriculture and Office of Planning and Sustainable Development.

Your Committee finds that the lack of agricultural workforce housing, especially in rural communities, is an overlooked and longstanding problem that inhibits the growth of Hawaii's agricultural industry. According to testimony received by your Committee, farmworkers cope with a range of problems, including high costs that typically do not fit their incomes; substandard, crowding housing conditions; and the need for short-term housing during the planting and harvest seasons.

The Agricultural Workforce Housing Working Group (Working Group) established in this measure can help identify the agricultural workforce housing needs in each county and the barriers to meeting the housing needs for farm and ranching businesses in the State. However, your Committee notes further recommendations made by the Department of Agriculture to:

- (1) Require the Working Group to gather data and information and survey farm operators to assess the real demand for farm workers;
- (2) Appropriate funds for the Department of Agriculture to undertake data and information gathering, survey farm operators, administer to the needs of the Working Group, and hire consultants with the expertise in addressing agricultural workforce housing needs; and
- (3) Appropriate funds for Royal Kunia Agricultural Park capital improvement project as it will enhance the duties of the Working Group.

Your Committee respectfully requests that these recommendations be considered as this measure moves forward in the legislative process.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2961 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2548 (Majority) Agriculture and Environment on S.B. No. 2366

The purpose and intent of this measure is to:

- (1) Classify neonicotinoid pesticides as restricted use pesticides; and
- (2) Establish a nonexhaustive list of chemicals that belong to the neonicotinoid class of chemicals.

Your Committee received testimony in support of this measure from the Hawai'i Alliance for Progressive Action, Green Party of Hawai'i, Chamber of Sustainable Commerce, Hawaii Food+ Policy, Bee Kind Apiary LLC, Hawaii Reef and Ocean Coalition, and thirty-five individuals.

Your Committee received testimony in opposition to this measure from the Hawaii Crop Improvement Association and Responsible Industry for a Sound Environment.

Your Committee received comments on this measure from the Department of Agriculture and National Pest Management Association.

Your Committee finds that neonicotinoids are the most widely used class of insecticides worldwide. Your Committee recognizes that neonicotinoid pesticides destroy pollinator populations, threatening food systems, ecosystems, and public health. According to testimony received by your Committee, there is currently no reporting of neonicotinoid pesticide use in the State because it is not classified as a restricted use pesticide under section 149A-2, Hawaii Revised Statutes. The classification of neonicotinoid pesticides as restricted use pesticides, as provided in this measure, will allow for better oversight of these neurotoxic substances to protect the people and environment of the State.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2366 and recommends that it pass Second Reading and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 2 (DeCoite, Richards). Excused, none.

SCRep. 2549 Agriculture and Environment on S.B. No. 2933

The purpose and intent of this measure is to propose a constitutional amendment to ensure that the inherent and inalienable right of the people, including future generations, to clean water and air, a healthful environment and climate, healthy native ecosystems, and beaches shall be protected and shall not be infringed.

Your Committee received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Recycle Hawaii, Greenpeace Hawaii, Hawaii Chapter of 350.org, Friends of Hanauma Bay, Women Organizing for Change in Agriculture and Natural Resource Management (WOCAN), Democratic Party of Hawai'i, Surfrider Foundation, Environmental Caucus of the Democratic Party of Hawai'i, Climate Protectors Hawai'i, Green Amendments for the Generation, Hawaii Interfaith Power and Light, Hawaii Youth Climate Coalition, Kauai Climate Action Coalition, Kauai Women's Caucus, Hawaii Chapter of Our Revolution, Kauai Chapter of Surfrider Foundation, Trinity United Methodist Church, Zero Waste Hawai'i Island, Zero Waste Kauai, Hawai'i Reef and Ocean Coalition, Kanalani Ohana Farm, and seventeen individuals.

Your Committee finds that climate change is an immediate threat that negatively affects the State, as evidenced by the climate-related drought conditions that contributed to the devastating wildfires across the State last year. Your Committee notes that the Hawaii State Constitution acknowledges the rights and duties of the State to protect natural resources but does not recognize the inalienable and self-executing right of all people to a clean and healthy environment. The constitutional amendment proposed in this measure will enhance the State's commitment to the health of its environments and the collective well-being of its people.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2933 and recommends that it pass Second Reading and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).

SCRep. 2550 (Joint) Health and Human Services and Labor and Technology on S.B. No. 1580

The purpose and intent of this measure is to:

- (1) Establish certain minimum staff-to-patient ratios for hospitals, care homes, and dialysis facilities;
- (2) Require hospitals to create hospital staffing committees and staffing plans;
- (3) Establish certain meal break, rest break, and overtime provisions applicable to health care personnel at hospitals, care homes, and dialysis facilities; and
- (4) Appropriate moneys to the Department of Labor and Industrial Relations for implementation and enforcement.

Your Committees received testimony in support of this measure from Hawai'i Workers Center; IATSE Local 665; Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO; Stonewall Caucus of the Democratic Party of Hawai'i; Pride at Work-Hawai'i; UNITE HERE Local 5; Hawaii State AFL-CIO; Healthcare School of Hawaii; United Public Workers, AFSCME Local 646, AFL-CIO; Hawai'i Nurses' Association-OPEIU Local 50; and over one hundred ninety individuals.

Your Committees received testimony in opposition to this measure from the Department of Labor and Industrial Relations, Adventist Health Castle, Hawai'i Pacific Health, Hawaii Health Systems Corporation, Healthcare Association of Hawaii, Kapi'olani Medical Center for Women and Children, Wilcox Medical Center, Straub Medical Center, The Queen's Health System, American Organization of Nurse Leaders-Hawai'i Chapter, Ohana Pacific Health, and Liberty Dialysis-Hawaii.

Your Committees received comments on this measure from the Department of the Attorney General, Hawai'i State Center for Nursing, and U.S. Renal Care.

Your Committees find that the health care industry in Hawaii is facing a persistent staffing crisis, further intensified by the challenges posed by the coronavirus disease 2019 pandemic. The patient surge in the aftermath of the pandemic has pushed health care workers to their limits, and although it is a well-known fact that improved nurse-to-patient ratios greatly enhance patient safety and outcomes, nurses, nurse aides, and other health care workers who provide direct care to patients continue to face excessive workloads, including the assignment of too many patients and mandated overtime. This measure in its current form, would establish minimum staff-to-patient ratios and mandate reasonable working hours, and require hospitals to have hospital staffing committees, to improve the delivery of safe and high-quality patient care and the creation of a sustainable health care workforce.

Notwithstanding, your Committees acknowledge that developing a balanced and effective solution to this complex and multi-faceted issue requires cooperation and coordination from both the management and employee-side, including health care facilities, health care workers, unions representing health care workers, and other individuals with expertise and knowledge on the State's health care industry.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting language that creates a Health Care Facilities Labor Standards Working Group to research, assess, and make recommendations on the best practices for labor standards that can be implemented at hospitals, care homes, and dialysis facilities in the State;
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1580, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1580, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2551 Health and Human Services on S.B. No. 2051

The purpose and intent of this measure is to:

- (1) Require the State Council on Developmental Disabilities to collect data and submit to the Legislature a report focused on the health disparities experienced by individuals with intellectual or developmental disabilities in the State before the convening of the Regular Session of 2026; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities, Alzheimer's Association – Hawaii, and three individuals.

Your Committee finds that adults with intellectual or developmental disabilities experience disproportionate health disparities compared to those without disabilities. Decades of research has established that people of minority groups living in the United States receive poor health care and have poor health outcomes, including populations with intellectual and developmental disabilities. Despite a critical need to document health disparities of people with intellectual or developmental disabilities, the State presently relies on data from 1994-1995 that does not reflect the State's population or current trends. Therefore, this measure provides critical data for the State Council on Developmental Disabilities to expand access to care and services for individuals with intellectual or developmental disabilities.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure contains an appropriation for an unspecified amount. Your Committee urges the stakeholders to determine an appropriate figure to be considered by your Committee on Ways and Means, should it choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2051, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2051, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2552 Health and Human Services on S.B. No. 3003

The purpose and intent of this measure is to:

- (1) Repeal language that gives the Director of Finance discretion to use moneys in the Hawaii ABLE Savings Program Trust Fund if the Director elects to accept deposits from contributors instead of sending deposits directly to the ABLE Program Manager;
- (2) Authorize the Director of Finance to expend moneys in the Hawaii ABLE Savings Program Trust Fund to provide incentive payments to Hawaii public school ABLE account owners;
- (3) Make an appropriation to the Department of Budget and Finance to fund the incentive payments; and
- (4) Make an appropriation to the Department of Health for one full-time equivalent (1.0 FTE) permanent position within the State Council on Developmental Disabilities to provide statewide outreach, advocacy, and relationship management for the Hawaii ABLE Savings Program.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Executive Office on Aging, State Council on Developmental Disabilities, Disability and Communication Access Board, Hawaii Disability Rights Center, and one individual.

Your Committee finds that the ABLE Savings Program authorizes eligible account holders with disabilities to establish flexible savings accounts for college, health, and individual retirement. Presently, approximately twenty-three thousand individuals with developmental disabilities in the State are eligible to open an ABLE Savings Program account, with an additional twenty thousand individuals with other disabilities eligible for the ABLE Savings Program. As ABLE provides individuals with opportunities to engage in financial planning, this measure expands accessibility to the ABLE Savings Program to ensure more eligible individuals are prepared for their futures.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure contains an appropriation for an unspecified amount. Your Committee urges the stakeholders to determine an appropriate figure to be considered by your Committee on Ways and Means, should it choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3003, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2553 Health and Human Services on S.B. No. 2471

The purpose and intent of this measure is to appropriate funds to support the Department of Health's Senior Fall Prevention Campaign.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Disability and Communication Access Board, AARP Hawai'i, Catholic Charities Hawai'i, Hawai'i Family Caregiver Coalition, and one individual.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that fall-related injuries disproportionately affect the elderly. Your Committee further finds that injuries from falling create an incalculable emotional and physical impact on seniors and their caregivers, and a significant financial toll on families and the health care system. Your Committee also finds, however, that falls are not an inevitable part of aging and are preventable. The Department of Health's Senior Fall Prevention Campaign has been successful in reducing falls and, when fully funded, has contributed to the State having the lowest fall and injury rate in the nation.

Your Committee has amended this measure by:

- (1) Inserting an unspecified appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure, as amended, contains an appropriation for an unspecified amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting an appropriation amount of \$100,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2471, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2471, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2554 (Joint/Majority) Transportation and Culture and the Arts and Energy, Economic Development, and Tourism on S.B. No. 2764

The purpose and intent of this measure is to:

- (1) Transfer the State Foundation on Culture and the Arts and the King Kamehameha Celebration Commission to the Department of Business, Economic Development, and Tourism;
- (2) Repeal the State Foundation on Culture and the Arts Commission; and
- (3) Require the Governor to select the Executive Director of the State Foundation on Culture and the Arts, with the advice and consent of the Senate.

Your Committees received testimony in support of this measure from two individuals.

Your Committees received testimony in opposition to this measure from the State Foundation on Culture and the Arts; King Kamehameha Celebration Commission; Office of Economic Development; Donkey Mill Art Center; Arts Kauai dba Kauai Songwriters; East Hawaii Cultural Center; Garden Island Arts Council; Halau o Kahiwhiwa; Hawaii Arts Alliance; Hawai'i Council for the Humanities; Hawai'i Forestry Industry Association, Hawai'i Health and Harm Reduction Center; Hawai'i Contemporary; Hula Preservation Society; HULI PAC; International Association of Art; Kahilu Theatre Foundation; Lana'i Arts and Culture Center; Maui Arts and Cultural Center; Molokai Arts Center, Inc.; SAG-AFTRA Hawaii Local; Volcano Art Center; West Hawaii Dance Theatre; Downtown Arts Center, Honolulu; Kahilu Theatre Foundation; Arabella Ark, Inc.; Collective HA LLC; Exhibition Grid; House of Bloom Artist Collective; Manini Gallery; Sounding Joy Music Therapy, Inc.; and over one hundred eighty-five individuals.

Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; Hawaii Council for the Humanities; Japanese Cultural Center of Hawai'i; and three individual.

Your Committees find that the Hawaii State Foundation on Culture and the Arts is currently housed within the Department of Accounting and General Services. Your Committees further find that the transition of the State Foundation on Culture and the Arts is intended to increase efficiencies and effectiveness for both the Department of Business, Economic Development, and Tourism; Creative Industries; and the State Foundation on Culture and the Arts. The measure will increase synergistic opportunities for collaboration, especially in the realm of increasing the positive economic impacts of growing the creative industries and the arts.

Your Committees note the concerns in numerous testimonies that repeal of the State Foundation on Culture and the Arts Commission could negatively impact funding for the Foundation and therefore finds that amendments to this measure are necessary. Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have repealed the State Foundation on Culture and the Arts Commission;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and

- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2764, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2764, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, 1 (Fevella). Excused, 1 (Kim).

SCRep. 2555 (Joint) Transportation and Culture and the Arts and Energy, Economic Development, and Tourism on S.B. No. 2777

The purpose and intent of this measure is to:

- (1) Establish the Highways Clean Energy Technology Pilot Program within the Department of Transportation;
- (2) Require a report to the Legislature; and
- (3) Make an appropriation.

Your Committees received testimony in support of this measure from the Department of Transportation and one individual.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that other jurisdictions across the country have successfully and safely deployed solar power by installing solar panels in shoulders and medians. Your Committees further find that there is an opportunity to generate renewable energy using lands in the state highways rights-of-way by replicating similar measures in the State. This measure will contribute to achieving the State's clean energy goals while achieving energy security and resilience in rural communities.

Your Committees have amended this measure by:

- (1) Inserting language to expand the purview of the Highways Clean Energy Technology Pilot Program to include all property owned by the Department of Transportation on the island of Molokai; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2777, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2777, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 3; Ayes with Reservations (Fevella). Noes, none. Excused, 2 (Fukunaga, Kim).

SCRep. 2556 (Majority) Energy, Economic Development, and Tourism on S.B. No. 3197

The purpose and intent of this measure is to exempt billboards and outdoor advertising devices displayed with authorization of the Stadium Authority within the Stadium Development District.

Your Committee received testimony in support of this measure from the Stadium Authority, Hawai'i Community Development Authority, Hawaii Masons' and Plasterers' Unions Stabilization Fund, and Chamber of Commerce Hawaii.

Your Committee received testimony in opposition to this measure from the Outdoor Circle, the North Shore Community Land Trust, Hawaii's Thousand Friends, Haleiwa Waialua Historical Society, Manoa Outdoor Circle, and eighty-four individuals.

Your Committee finds that well-designed advertising in both the Stadium and Convention Center can offer many benefits, including generating revenue to contribute to higher quality entertainment facilities; publicizing sports events, music events, and businesses to gather the community; and positively contributing to the branding, image, and overall entertainment experience in both areas.

Prior to the decision making hearing on this measure, your Committee circulated a proposed S.D.1 among the members that included consensus language from stakeholders that addresses a number of the issues raised at the public hearing held on this measure, which would add more restrictions to outdoor advertising devices at the Convention Center and stadium and also authorize the sale or lease of naming rights for the stadium. After further discussion, your Committee finds additional amendments are necessary to incorporate concerns regarding the visibility of displays within the Stadium Development District.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language to authorize the Stadium Authority to sell or lease the naming rights of the stadium facility or any portion of the stadium facility or building therein to any public or private entity;
- (2) Inserting language to authorize the Stadium Authority to sell or lease the naming rights of the convention center facility or any portion of the convention center facility to any public or private entity and requiring that any revenues derived therefrom be deposited into the Convention Center Enterprise Special Fund;
- (3) Clarifying that no person shall display any outdoor advertising device except for:

- (A) Any outdoor advertising device displayed with the authorization of the Stadium Authority, on any scoreboard of the stadium managed by the Authority;
 - (B) Any billboard or outdoor advertising device displayed with the authorization of the Stadium Authority, within the stadium facility; provided that the outdoor device displayed shall face the interior of the stadium facility, be designed for pedestrians within the stadium facility, and not be used solely for the purposes of commercial advertising;
 - (C) Any outdoor advertising device for naming the stadium facility, which may include the name and brand of a public or private entity, displayed with the authorization of the Stadium Authority, or in the stadium facility; provided that such a device shall not contain moving images;
 - (D) Any outdoor advertising device displayed with the authorization of the Hawaii Tourism Authority in or on the convention center facility; provided that, for displays that face the exterior of the convention center facility, the device shall consist only of the name of the sponsoring entity and the words "Hawaii Convention Center", "Hawai'i Convention Center", or "Convention Center", and may include a company logo, and shall be static and contain no video or moving images; and
 - (E) Any outdoor advertising device for naming the convention center facility, which may include the name and brand of a public or private entity, displayed with the authorization of the Hawaii Tourism Authority, in or on the convention center facility; provided that the any such outdoor advertising device shall not contain moving images;
- (4) Clarifying that the counties shall not be entitled to adopt ordinances restricting any of the foregoing;
 - (5) Inserting an effective date of January 1, 2060, to encourage further discussion; and
 - (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee appreciates the concerns of those who submitted testimony in opposition to this measure, wanting to ensure that the State remains beautiful and free of billboards that are prevalent on the mainland. In this instance, your Committee believes that this measure, as amended, strikes a balance to protect the State's vistas and views while also supporting economic opportunities for our state-run entertainment and convention facilities, and further ensuring the advertising is done in a respectful and tasteful way.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3197, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Fukunaga). Excused, none.

SCRep. 2557 Energy, Economic Development, and Tourism on S.B. No. 3382

The purpose and intent of this measure is to establish an income tax credit to encourage investment in businesses affected by the August 2023 Maui wildfires and redevelopment resiliency projects occurring within the Lahaina district.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that more than eight hundred businesses have been destroyed or damaged as a result of the August 2023 Maui wildfires, according to estimates from the Department of Business, Economic Development, and Tourism. Your Committee further finds that an income tax credit will encourage investments in affected businesses and redevelopment resiliency projects by reducing the economic risks associated with these investments.

Your Committee has amended this measure by:

- (1) Delaying the applicability of the income tax credit until tax years beginning after December 31, 2024;
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee has heard the testimony of the Department of Taxation expressing concerns that this measure should be amended to provide definitions and criteria to outline the eligibility requirements for the tax credit. Your Committee finds that these issues merit further consideration and respectfully requests further examination by subsequent committees who may choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3382, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3382, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2558 Commerce and Consumer Protection on S.B. No. 524

The purpose and intent of this measure is to amend the law relating to business regulation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to authorize the Insurance Commissioner to require pre-approval for certain salary increases granted to any person receiving a salary from an insurer.

Your Committee has amended this measure by adopting the proposed S.D. 1 and further amending it by inserting legislative findings.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 524, as amended herein, and recommends that it be recommitted to your Committee on Commerce and Consumer Protection, in the form attached hereto as S.B. No. 524, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2559 Commerce and Consumer Protection on S.B. No. 3170

The purpose and intent of this measure is to repeal chapter 503B, Hawaii Revised Statutes (HRS), governing Time Share Commissioners of Deeds.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor and ARDA Hawai'i.

Your Committee finds that Act 277, Session Laws of Hawaii (2013), created the Time Share Commissioners of Deeds (codified as chapter 503B, HRS), to increase efficiency and convenience for foreign buyers that purchase Hawaii time share properties and boost the State's tourism industry. The Time Share Commissioners of Deeds were to be appointed by the Lieutenant Governor to administer oaths and take acknowledgements and proofs of deeds and other instruments used in connection with the recordation of time share interests in Hawaii. However, your Committee finds that Act 54, Session Laws of Hawaii 2020, updated certain laws relating to notaries public, and added a new section for notarial acts performed for remotely located individuals, such as foreign buyers of Hawaii time share properties making Time Share Commissioners of Deeds unnecessary. Therefore, this measure repeals the state law governing Time Share Commissioners of Deeds, to eliminate the statutory redundancy.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3170, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2560 Commerce and Consumer Protection on S.B. No. 2103

The purpose and intent of this measure is to deter coffee counterfeiting by:

- (1) Expanding the application of the criminal offense of false labeling of Hawaii-grown coffee to include roasted coffee;
- (2) Enhancing the penalties for the criminal offense of false labeling of Hawaii-grown coffee through the imposition of a mandatory fine for each offense; and
- (3) Establishing and appropriating funds for an enforcement position within the Department of Agriculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawaii Coffee Association, Hawai'i Farm Bureau, and one individual.

Your Committee received comments on this measure from the Hawaii Coffee Company.

Your Committee finds that Hawaii-grown coffee, the State's second most lucrative crop, is enjoyed around the world and is recognized for its outstanding quality. However, your Committee finds that counterfeit coffee, or the practice of falsely labeling discount coffee as being Hawaii-grown, has undermined Hawaii's hardworking farmers by creating an artificial increase in supply, thereby driving down the price and value of authentic Hawaii-grown coffee. Your Committee further finds that this practice has been almost exclusively exploited by sellers of roasted coffee products. This measure will make the harmful practice of counterfeiting roasted coffee a criminal offense, thereby protecting local coffee farmers and safeguarding the integrity and reputation of the State's premium coffee.

Your Committee has amended this measure by:

- (1) Inserting an unspecified appropriation amount; and
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion.

Your Committee notes that this measure, as amended, contains an unspecified appropriation amount. Should your Committees on Judiciary and Ways and Means choose to deliberate on this measure, your Committee respectfully requests that the committees consider inserting an appropriation amount of \$88,935 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2103, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2561 Commerce and Consumer Protection on S.B. No. 3067

The purpose and intent of this measure is to move the Hurricane Reserve Trust Fund into the state treasury and make other housekeeping amendments relating to the Fund.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Department of Defense.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that the state treasury maintains an investment pool consisting of participating state accounts. Your Committee further finds that the funds within the state treasury are prudently managed to achieve the investment objectives of safety, liquidity, and yield, in priority order, and that the pooling of funds enables the achievement of economies of scale, while simultaneously enhancing the State's liquidity position. Presently, the Hurricane Reserve Trust Fund is established outside the state treasury under the direction of the Hawaii Hurricane Relief Fund Board, which has invested the fund in a bank trust division for the past several years and operation has been dormant. Therefore, this measure places the Hurricane Reserve Trust Fund within the state treasury, to best serve the interests of the State and to better align its investment objectives of safety, liquidity, and yield.

Your Committee has amended this measure by:

- (1) Restoring language in existing law that requires remittance of a certain portion of general excise tax and public employer contributions; and
- (2) Repealing language in existing law that grants certain authority and discretion to the Hawaii Hurricane Relief Fund Board over the moneys deposited in the Hurricane Reserve Trust Fund.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3067, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3067, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2562 (Joint/Majority) Health and Human Services and Commerce and Consumer Protection on S.B. No. 3132

The purpose and intent of this measure is to:

- (1) Repeal the sunset date of the authorization for primary caregivers to cultivate medical cannabis for qualifying patients; and
- (2) Clarify that primary caregivers may continue to cultivate medical cannabis for qualifying patients subject to certain restrictions.

Your Committees received testimony in support of this measure from the Department of Health and three individuals.

Your Committees received testimony in opposition to this measure from 434 Tattoo and forty-six individuals.

Your Committees received comments on this measure from Akamai Cannabis Consulting.

Your Committees find that existing state law recognizes the beneficial use of cannabis in treating certain debilitating medical conditions, their symptoms, and certain side effects of treatment of these conditions, including severe pain, nausea, muscle spasms, and seizures. Act 241, Session Laws of 2015 (Act 241), provided patient access to medical cannabis beyond the access that existed before the creation of a dispensary system authorized by Act 241. As some patients may not be able to grow their own supply of medical cannabis due to limitations such as disability or lack of space, expanding patient access to medical cannabis continues to be the Legislature's intent. Therefore, this measure will codify legislative intent while maintaining uninterrupted access to medical cannabis for qualifying patients.

Your Committees note the concerns raised in testimony regarding the cap on qualifying patients for medical cannabis cultivated on land zoned for agricultural use. As it is the Legislature's intent to expand access to medical cannabis, rather than replace existing legal access routes, further clarification is needed to provide qualifying patients with a critical treatment option.

Accordingly, your Committees have amended this measure by:

- (1) Inserting language to clarify that cannabis cultivation shall be permitted for patient grow sites with more than five patients on land zoned for agricultural use;
- (2) Requiring the Department of Health to adopt administrative rules to conduct routine voluntary grow site inspections without law enforcement; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3132, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3132, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Shimabukuro).

Commerce and Consumer Protection: Ayes, 2. Noes, 1 (Awa). Excused, 2 (McKelvey, Richards).

SCRep. 2563 Government Operations on S.B. No. 2222

The purpose and intent of this measure is to appropriate moneys as a grant-in-aid to the Emergency Services Department of the City and County of Honolulu.

Your Committee did not receive any testimony on this measure.

Your Committee finds that the Crisis Outreach Response and Engagement Program (C.O.R.E.) provides services to Oahu's unsheltered population and response to non-violent homeless-related emergency calls using refurbished city ambulances. The C.O.R.E. response team comprises emergency medical technicians and community health workers trained in relationship building, extending compassion, problem-solving, and crisis prevention intervention. As the C.O.R.E. program provides a valuable service to the State's homeless community, adequate funding is needed to continue operations. This measure provides for the continuity of services under the C.O.R.E. program to address non-violent homeless-related emergency calls.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2222 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 2564 (Joint) Government Operations and Energy, Economic Development, and Tourism on S.B. No. 2770

The purpose and intent of this measure is to authorize the counties to establish, by ordinance, an opt-in program that allows an annual payment in lieu of real property taxes on the land or improvements thereon that are actively used to produce or store renewable energy that is sold to an electric utility.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office; City and County of Honolulu's Department of Budget and Fiscal Services; Ulupono Initiative; Longroad Energy; Hawaiian Electric; Clearway Energy Group.; and Tigershark, LLC.

Your Committees find that Act 97, Session Laws of Hawaii 2015, requires electric utilities in the State to achieve a one hundred percent renewable portfolio standard by 2045. To achieve this ambitious mandate, your Committees find that authorizing the counties the flexibility to accept payments in lieu of real property tax for renewable generation improvements upon real property may incentivize more property owners to utilize clean energy resources while keeping revenue generation for counties predictable. This measure aligns with the State's long-term clean energy goals and ensures a cleaner future for Hawaii's people.

As affirmed by the records of votes of the members of your Committees on Government Operations and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2770 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Kim).

SCRep. 2565 Government Operations on S.B. No. 3184

The purpose and intent of this measure is to:

- (1) Authorize emergency procurements in situations such as equipment failure and repairs to public property that are necessary to protect against further loss or damage to public property, or to prevent or minimize serious disruptions in government services; and
- (2) Remove the need for approval of the Chief Procurement Officer for these emergency procurements, provided that the head of the purchasing agency making the procurement accounts for the money spent submits an accounting report to the Legislature within sixty days after the end of the fiscal year in which the emergency procurement was made.

Your Committee received testimony in support of this measure from the Department of Law Enforcement, Hawaii State Public Library System, and one individual.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that existing public procurement code does not include situations of an unusual or compelling urgency that, without the continued government service, would be a threat to life, public health, welfare, or safety. This measure allows emergency procurements in those circumstances thereby allowing greater flexibility and efficiency for the appropriate department or agency to directly address the need, determine and perform appropriate action, and close out financial obligations to restore the conditions of the property or operation against further loss, damage, or serious disruptions in essential government services, while retaining government accountability and transparency.

However, your Committee recognizes the concerns raised by the State Procurement Office and notes that other agencies have attempted to justify the use of after-the-fact emergency procurement for systemic and maintenance-related projects that could have been avoided with regular monitoring or prevention programs. Accordingly, there is a need to amend this measure to address this concern.

Your Committee has amended this measure by:

- (1) Narrowing the scope of this measure to a three-year pilot program that authorizes the Department of Law Enforcement to contract for goods, services, and construction through emergency procurement for the district described in section 4-1(2)(D), Hawaii Revised Statutes, under certain circumstances;
- (2) Requiring the Director of Law Enforcement to submit a report to the Legislature on the pilot project; and
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3184, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3184, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2566 Government Operations on S.B. No. 2566

The purpose and intent of this measure is to:

- (1) Extend the reporting date for the working group established pursuant to Act 200, Session Laws of Hawaii 2022, to examine and address housing subdivision infrastructure repair and maintenance for planned housing subdivisions that do not have compulsory homeowner associations in certain counties from before the Regular Session of 2024 to before the Regular Session of 2025; and
- (2) Extend the sunset date of the working group to June 30, 2025.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which inserts language to:

- (1) Require lot owners to pay for the repair and maintenance of subdivision roads where the applicable deed does not specify that requirement;
- (2) Authorize counties to assess and collect fees for repair and maintenance of subdivision roads if no court-appointed or deed-designated entity is appointed;
- (3) Require counties to provide training to associations on their responsibilities, services for certain subdivision assessments, and arbitration and mediation services to resolve disputes between a lot owner and the entity responsible for assessment; and
- (4) Restrict application of the foregoing provisions to counties with a population greater than two hundred thousand, but not more than five hundred thousand.

Your Committee received testimony in support of this measure on the proposed S.D. 1 from one member of the Maui County Council and five individuals.

Your Committee finds that the maintenance of the State's infrastructure is incredibly important. Your Committee also finds that maintenance of infrastructure in certain counties has been neglected in some areas and is currently being wholly supported by volunteer and community driven efforts. This measure will allow the working group additional time to examine this issue, while allowing for maintenance and repair of subdivision roadways that may otherwise fall into despair.

Your Committee has amended this measure by:

- (1) Adopting the proposed SD1; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2566, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 2567 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2919

The purpose and intent of this measure is to:

- (1) Establish and appropriate moneys for a regulatory scheme for short-term rentals of dwelling units under the Business Registration Division of the Department of Commerce and Consumer Affairs;
- (2) Expand the zoning powers of counties; and
- (3) Expand the scope of the transient accommodations tax law to include certain shelters and vehicles with sleeping accommodations.

Your Committees received testimony in support of this measure from the Hawai'i Hotel Alliance, The American Hotel and Lodging Association, Hawai'i State Association of Counties, Sierra Club of Hawai'i, Lahaina Strong, Housing Hawai'i's Future, UNITE HERE Local 5, International Longshore and Warehouse Union Local 142, one member of the Honolulu City Council, two members of the Maui County Council, and more than two hundred-ninety individuals.

Your Committees received testimony in opposition to this measure from the Hawai'i Association of REALTORS, Airbnb, Rental By Owner Awareness Association, Expedia Group, and more than one hundred twenty individuals.

Your Committees received comments on this measure from the Department of Taxation, Department of Commerce and Consumer Affairs, Land Use Commission, Maui Paradise Properties, and six individuals.

Your Committees find that short-term rentals can be disruptive, not only to Hawaii's traditional and economically essential lodging industries, but to the character and fabric of local residential neighborhoods. Further, while short-term rentals may not be legally inconsistent with the land uses that they are intended for, they must be regulated properly so that users of short-term rentals and communities alike can mutually benefit from these transactions. Therefore, this measure establishes a comprehensive regulatory scheme for short-term rentals of dwelling units and expands the zoning powers of counties to phase out future nonconforming uses over time, in order to promote the orderly development of each county and ensure the greatest benefit for the State as a whole.

Notwithstanding, your Committees have heard the various concerns raised in testimony, and find that delegating the authority to the counties via home rule would be more appropriate than establishing a new state regulatory scheme. Accordingly, this measure needs to be amended to address this issue.

Therefore, your Committees have amended this measure by:

- (1) Deleting sections 1, 4, and 5 of this measure, which would have established and appropriated moneys for a regulatory scheme for short-term rentals of dwelling units under the Business Registration Division of the Department of Commerce and Consumer Affairs;
- (2) Inserting legislative findings;
- (3) Deleting language that would have granted the counties authority to adopt ordinances relating to the practices of hosting platforms that provide booking services for short-term rentals;
- (4) Inserting language allowing transient accommodations uses to be amortized or phased out in residential or agricultural zoned areas and state that residential uses do not include transient accommodations uses;
- (5) Inserting a definition for "transient accommodations" under section 46-4(a), Hawaii Revised Statutes;
- (6) Deleting language that would have allowed a county to adopt zoning ordinances and regulations that provide for the amortization, or phasing out over a reasonable period of time, of land uses or structures that were established after the effective date of the first comprehensive zoning ordinance adopted by the county;
- (7) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection, Energy, Economic Development, and Tourism, and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2919, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2919, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Richards). Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Rhoads).

SCRep. 2568 Agriculture and Environment on S.B. No. 3365

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to certify treatments performed in the State on soil, dirt, wood chips, compost, and filter socks;
- (2) Allow the Department of Agriculture to certify and permit entities to treat plant care components;
- (3) Authorize the Department of Agriculture to establish fees for treating plant care components;
- (4) Prohibit the distribution of plant care components unless the components have been treated immediately after entering the State, by the State or a certified entity; and
- (5) Prohibit the transportation of plant care components without prior certification from the Department of Agriculture that the components have been treated.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds that the entry and establishment of a new, devastating pest or disease in the State is an ever-present reality, given the increase and expansion of global trade and travel. Your Committee further finds that properly treating plant care components, such as compost and wood chips, before it is distributed or transported within and from the State would help prevent invasive species from entering and spreading throughout the State. This measure will provide the Department of Agriculture with another way to further protect the fragile environment of the State's island communities against invasive species.

Your Committee has amended this measure by:

- (1) Clarifying that the Department of Agriculture may certify and permits plant care component treatments prior to shipment;

- (2) Deleting language that would have allowed the Department to establish fees for plant care component treatments;
- (3) Clarifying the authority for the Department's fee schedule for plant care component treatments;
- (4) Clarifying that no person shall distribute within the State any plant care component that originated from outside the State, unless the component has been treated prior to entry, as certified by the Department of Agriculture;
- (5) Adding language that requires any plant care component that originated from outside the State and has not been treated prior to entry be placed in quarantine until treated and released for entry into the State;
- (6) Adding language that requires a treated plant care component be stored in a manner to prohibit infestation post-treatment;
- (7) Deleting soil and dirt from the definition of "plant care component";
- (8) Adding a definition of "filter sock"; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3365, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2569 Agriculture and Environment on S.B. No. 2349

The purpose and intent of this measure is to:

- (1) Prohibit the sale, offer for sale, or operation of gasoline-powered leaf blowers;
- (2) Increase the amounts of fines for offenses against leaf blower restrictions and provide for the forfeiture of gasoline-powered leaf blowers on a third violation; and
- (3) Remove the exemption on leaf blower restrictions for government agencies.

Your Committee received testimony in support of this measure from four individuals.

Your Committee received testimony in opposition to this measure from the Retail Merchants of Hawaii and one individual.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Education, and Department of Health.

Your Committee finds that the rapid proliferation of noise pollution, especially in urban areas, can be detrimental to the overall health of Hawaii's people. Excessively loud and unabated noises can result in physiological, psychological, and economic damage. Your Committee believes that residents are entitled to a healthy and peaceful environment free from noise pollution that may be hazardous to their health or welfare. This measure addresses noise pollution in Hawaii's communities by discouraging and banning the use of gasoline-powered leaf blowers in the State.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2349, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (Richards). Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 2570 Agriculture and Environment on S.B. No. 2814

The purpose and intent of this measure is to:

- (1) Direct the Department of Agriculture, in collaboration with the Agribusiness Development Corporation and the counties, to conduct a water infrastructure study for the State; and
- (2) Appropriate \$200,000 to the Department of Agriculture for a statewide water infrastructure study.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation, Hawai'i Farm Bureau, and Local Food Coalition.

Your Committee received comments on this measure from the Department of Agriculture, Department of Land and Natural Resources, and one individual.

Your Committee finds that the regulation and monitoring of various water infrastructure in the State is overseen by several agencies with differing and complementary priorities and objectives. Your Committee recognizes that the State lacks a complete inventory and comprehensive data system to track the condition and maintenance needs of its water infrastructure. The study required by this measure includes an assessment of current condition of the State's water infrastructure, which will help the State better manage its water resources and provide water services.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2814 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

SCRep. 2571 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2803

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to:
 - (A) Be responsible for the routine maintenance and repair of the Kohala ditch;
 - (B) In collaboration with relevant agencies, develop a comprehensive plan for the refurbishment of the Kohala Ditch; and
 - (C) Submit a report to the Legislature before the convening of the Regular Session of 2025; and
- (2) Appropriate an unspecified amount of funds to inspect, repair, and maintain the Kohala ditch.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and Local Food Coalition.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that reliable irrigation systems are the lifelines of Hawaii's agricultural community. To ensure that the State's agricultural crops receive a steady and dependable supply of water, irrigation systems need to be repaired, properly maintained, and improved to meet agricultural water requirements and to address extended water droughts. However, your Committees recognize the concerns raised by the Department of Agriculture regarding the potential liabilities associated with the repair, maintenance, and refurbishment of the Kohala Ditch System.

Accordingly, your Committees have amended this measure by deleting its contents and replacing it with language that:

- (1) Requires the Department of Agriculture to:
 - (A) Conduct a feasibility study on the Kohala Ditch System that includes due diligence, costs to repair and maintain, potential use for agritourism, and costs to more effectively transfer the water to increase agriculture production; and
 - (B) Submit a report to the Legislature no later than twenty days prior to the convening of the Regular Session of 2026; and
- (2) Appropriates \$1,500,000 for the Department of Agriculture to conduct the feasibility study.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2803, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2803, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).
Water and Land: Ayes, 4. Noes, none. Excused, 1 (Chang).

SCRep. 2572 Agriculture and Environment on S.B. No. 2360

The purpose and intent of this measure is to:

- (1) Increase the maximum grant amount of the Cesspool Compliance Pilot Grant Project established pursuant to Act 153, Session Laws of Hawaii, from \$20,000 to \$30,000;
- (2) Require the Department of Health to submit a report to the Legislature on the Cesspool Compliance Pilot Grant Project before the Regular Session of 2025;
- (3) Appropriate \$151,0000 for the establishment of:
 - (A) One full-time equivalent (1.0 FTE) program specialist V position within the Cesspool Compliance Pilot Grant Project; and
 - (B) One full-time equivalent (1.0 FTE) planner IV position within the Cesspool Compliance Pilot Grant Project; and
- (4) Appropriate \$5,000,000 for the Cesspool Compliance Pilot Grant Project.

Your Committee received testimony in support of this measure from the Department of Health, University of Hawai'i Sea Grant College Program, UH Water Resources Research Center, and Hulu Mamo Hawaiian Civic Club.

Your Committee finds that to reduce water pollution, unless exempted by the Department of Health, all cesspools in the State are required to be updated or converted to another method of waste disposal or connected to a sewerage system by January 1, 2050. Your Committee recognizes that given the high cost for property owners to comply with this legislative mandate, the Cesspool Conversion Working Group was convened pursuant to Act 132, Session Laws of Hawaii 2018, to facilitate the upgrade or conversion of cesspools on properties within priority upgrade areas to more environmentally-responsible waste treatment systems or the connection of these cesspools to sewer systems before 2050.

Your Committee recognizes the concerns raised by the Department of Health that increasing the grant amount may cause complications or issues with homeowners who received or will receive \$20,000 grants. Accordingly, this measure needs to be amended to address this matter.

Your Committee has amended this measure by:

- (1) Deleting language that would have increased the maximum grant amount of the Cesspool Compliance Pilot Grant Project established pursuant to Act 153, Session Laws of Hawaii, from \$20,000 to \$30,000;
- (2) Amending reference to the “University of Hawaii’s 2022 Hawaii cesspool hazard assessment and prioritization tool” to the “University of Hawaii’s 2022 Hawaii cesspool prioritization tool”;
- (3) Amending language to appropriate \$249,0000 for the establishment of:
 - (A) One full-time equivalent (1.0 FTE) engineer V position within the Cesspool Compliance Pilot Grant Project;
 - (B) One full-time equivalent (1.0 FTE) engineer IV position within the Cesspool Compliance Pilot Grant Project; and
 - (C) One full-time equivalent (1.0 FTE) accountant IV position within the Cesspool Compliance Pilot Grant Project;
- (4) Amending language to appropriate \$5,249,000 for the Cesspool Compliance Pilot Grant Project; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2360, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2360, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2573 (Joint) Agriculture and Environment and Higher Education on S.B. No. 2362

The purpose and intent of this measure is to appropriate funds for statewide research into ornamental ginger pathogens, prevention of the spread of ornamental ginger pathogens, production and distribution of pathogen-free ornamental ginger plants, and outreach to ornamental producers.

Your Committees received testimony in support of this measure from the University of Hawai‘i System, Hawai‘i Farm Bureau, Maui County Farm Bureau, East Oahu County Farm Bureau, Land Use Research Foundation of Hawaii, Tropical Flowers Express, and five individuals.

Your Committees find that ornamental ginger is a valued plant that can be used as a shrub or cut flower. However, this plant species is susceptible to foreign pathogens that can decimate entire plants. This measure’s multi—faceted approach to addressing existing and emerging plant pathogens affecting the commercial production of ornamental ginger will help to control and prevent the spread of these pathogens and thus protect the health of ornamental ginger plants and their long—term sustainability as a floriculture product.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2362 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2574 (Joint) Agriculture and Environment and Higher Education on S.B. No. 2513

The purpose and intent of this measure is to:

- (1) Establish a three-year new waste management solution and cesspool system demonstration pilot program within the University of Hawaii Water Resources Research Center to:
 - (A) Examine and demonstrate new wastewater and cesspool technology systems;
 - (B) Implement those technologies in demonstration projects in areas across the State that are identified as priority level 1 in the 2021 Hawaii Cesspool Hazard Assessment and Prioritization Tool Report; and
 - (C) Establish a similar ranking system for prioritization levels for the islands of Molokai, Lanai, and Niihau;
- (2) Require the University of Hawaii Water Resources Research Center to submit annual reports to the Legislature;
- (3) Appropriate \$3,025,468 to the University of Hawaii Water Resources Research Center to implement the new waste management solution and cesspool system demonstration pilot program; and
- (4) Appropriate to the Department of Health out of the Water Pollution Control Revolving Fund:
 - (A) \$56,304 to fund one full-time equivalent (1.0 FTE) engineer position; and
 - (B) \$52,044 to establish one full-time equivalent (1.0 FTE) planner position, within the Department of Health’s Wastewater Branch.

Your Committees received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii Climate Change Mitigation and Adaptation Commission, University of Hawaii Water Resources Research Center, UH Sea Grant College Program, Wastewater Alternatives and Innovations LLC, Hawai'i Reef and Ocean Coalition, and one individual.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that Act 125, Session Laws of Hawaii 2017, set the goal to upgrade or convert the 83,000 cesspools in the State to a septic or aerobic treatment unit system or to connect them to a central sewerage system before 2050. Your Committees additionally find that the lack of affordable, effective technology options is a major impediment to Hawaii's water quality improvement goals, and has the potential to result in a huge investment that yields little actual benefit. This measure ensures progress with the State's goal to upgrade or convert cesspools while promoting clean environment standards.

Your Committees have amended this measure by:

- (1) Requiring the University of Hawaii Water Resources Research Center to consult with all appropriate county agencies in fulfilling its duties as part of the three-year new waste management solution and cesspool system demonstration pilot program;
- (2) Deleting language that would have appropriated funds to the Department of Health out of the Water Pollution Control Revolving Fund for one full-time equivalent (1.0 FTE) engineer position and one full-time equivalent (1.0 FTE) planner position within the Department of Health's Wastewater Branch and replacing it with language that makes a general fund appropriation to the Department of Health for:
 - (A) \$89,500 to fund one full-time equivalent (1.0 FTE) engineer V position within the Department of Health's Wastewater Branch; and
 - (B) \$82,700 to establish one full-time equivalent (1.0 FTE) engineer IV position within the Department of Health's Wastewater Branch;
- (3) Inserting language clarifying that the appropriated funds are to be expended to support the approval of individual wastewater systems applications and the new waste management solution and cesspool system demonstration pilot program established pursuant to this measure; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2513, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2513, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Higher Education: Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2575 (Joint) Agriculture and Environment and Water and Land on S.B. No. 2373

The purpose and intent of this measure is to authorize the Director of Finance to issue general obligation bonds to finance capital improvements to various irrigation systems in the State.

Your Committees received testimony in support of this measure from the Department of Agriculture; Ulupono Initiative; Land Use Research Foundation of Hawaii; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; and Local Food Coalition.

Your Committees find that reliable irrigation systems are the lifelines of Hawaii's agricultural community. To ensure that the State's agricultural crops receive a steady and dependable supply of water, irrigation systems need to be repaired, properly maintained, and improved to meet agricultural water requirements and to address extended water droughts. According to testimony received by your Committees, this measure will ensure a reliable source of water for state farmers and ranchers to grow crops and raise livestock efficiently, thereby helping the State reach its goals to increase local food production and reduce reliance on imports.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2373 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2576 Health and Human Services on S.B. No. 3290

The purpose and intent of this measure is to:

- (1) Require the Disability and Communication Access Board and Department of Human Services Division of Vocational Rehabilitation to convene a working group to study the state of American Sign Language in Hawaii; and
- (2) Require the Department of Health to assist the working group in the preparation of a report to submit to the Legislature.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, Hawaii Disability Rights Center, and three individuals.

Your Committee received comments on this measure from the Department of Human Services and Hawai'i Civil Rights Commission.

Your Committee finds that the State is experiencing a critical shortage of American Sign Language interpreters. Despite the importance of American Sign Language in everyday life and emergency situations, there are few interpreters available to support the deaf and hard-of-hearing community, some of whom have to wait three to four weeks to schedule medical procedures and other important appointments. Therefore, this measure will provide critical data to facilitate additional resources for American Sign Language interpretation services statewide.

Your Committee has amended this measure by:

- (1) Removing the Department of Human Services Division of Vocational Rehabilitation as a co-convenor of the working group;
- (2) Removing the representative from the Department of Human Services Division of Vocational Rehabilitation as a co-chairperson of the working group;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3290, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3290, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2577 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 2659

The purpose and intent of this measure is to:

- (1) Incorporate a regenerative framework into the Hawaii State Planning Act by expanding objectives and policies for the visitor industry; and
- (2) Require an update to the State Tourism Functional Plan to be submitted to the Legislature no later than twenty days prior to the convening of the Regular Session of 2025.

Your Committees received testimony in support of this measure from the Hawai'i Tourism Authority, Office of Planning and Sustainable Development, and one individual.

Your Committees find that tourism has major environmental impacts, such as biodiversity loss, landscape impact, and waste and water scarcity. Regenerative tourism represents a sustainable way of traveling and discovering new places that also supports residents' preferences for managing tourism development. Your Committees additionally find that a regenerative tourism model will provide activities for visitors that allow travel destinations to heal, while counterbalancing the social, economic, and environmental impacts of tourism.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency, including the correction to the proper name of the Office of Planning and Sustainable Development in the measure's report title.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2659, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2659, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.
Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2578 (Joint) Energy, Economic Development, and Tourism and Labor and Technology on S.B. No. 3103

The purpose and intent of this measure is to require attestation or declaration regarding project labor standards for large-scale renewable energy projects, including state-approved apprenticeship programs and prevailing wage requirements.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office; Department of Labor and Industrial Relations; Hawaii Regional Council of Carpenters; Blue Planet Foundation; Moss & Associates, LLC; Operating Engineers Local Union No. 3; and Pacific Resource Partnership.

Your Committees received testimony in opposition to this measure from Tesla.

Your Committees received comments on this measure from Hawaiian Electric.

Your Committees find that to replace the State's aging fossil fuel infrastructure and achieve the State's renewable energy mandate by 2045, a succession of large renewable energy projects will be needed over the next twenty years. This measure supports adherence to bedrock labor standards and bolsters apprenticeship, which is critical to ensuring the State's businesses and workers are equipped with the talent and skills needed to accomplish the State's visionary renewable energy mandate.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3103, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3103, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).
Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2579 Health and Human Services on S.B. No. 3383

The purpose and intent of this measure is to:

- (1) Require the Executive Office on Aging to contract for a statewide assessment of the needs of the long-term care workforce for home- and community-based service providers; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Healthcare Association of Hawaii, and one individual.

Your Committee received comments on this measure from the Department of Health.

Your Committee finds that the State has the highest average life expectancy in the United States with a record 80.7 years. The number of kupuna living into their eighties, nineties, and even hundreds continue to grow, creating a greater need for a qualified, skilled long-term care workforce. Accordingly, the development of a long-term care system that addresses the continuum of needs for kupuna and individuals with disabilities, in part, requires understanding the barriers and challenges faced by providers of services for the aging and disabled, including the ability to hire skilled and competent employees. This measure provides the resources to address the long-term care needs and overall health of the State's residents.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3383 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2580 Health and Human Services on S.B. No. 2885

The purpose and intent of this measure is to:

- (1) Establish a Homeless Triage Center Program within the Statewide Office of Homelessness and Housing Solutions in the Department of Human Services; and
- (2) Make an appropriation.

Your Committee received testimony in support of this measure from the Governor's Coordinator on Homelessness; Department of Health; Institute for Human Services, Inc.; Partners in Care; Hawaii Substance Abuse Coalition; and four individuals.

Your Committee finds that, in 2022, the State was ranked fourth in the nation for the highest rates of homelessness. Homeless individuals suffering from behavioral health conditions are often high users of hospital emergency departments, costing the State's health system millions of dollars each year for emergency ambulance transportation and emergency mental health evaluations. This measure would establish a triage center to divert homeless individuals suffering from behavioral health conditions from hospital emergency departments and the criminal justice system.

Your Committee notes, however, the multiple different systems and programs that exist concerning the State's response to homeless individuals who are suffering from behavioral health conditions. There are operations in place led by the Department of Health, Department of Human Services, and The Judiciary, respectively, that assist individuals dealing with behavioral or mental health issues to various degrees. Accordingly, your Committee finds that, rather than adding more layers that could be counterproductive and creating excessive demands on the limited funding available for multiple different systems, the State would benefit from a coordinated system to address homeless individuals experiencing behavioral health issues and the determination of a cohesive path forward in the State's efforts to assist affected individuals. Amendments to this measure are therefore necessary to address this concern.

Your Committee has amended this measure by:

- (1) Deleting its contents and inserting language to establish a working group within the Statewide Office of Homelessness and Housing Solutions in the Department of Human Services to develop a triage center program that focuses on serving homeless individuals with substance abuse issues or mental illness;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2885, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2885, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2581 (Joint) Health and Human Services and Government Operations on S.B. No. 2503

The purpose and intent of this measure is to require all places of public accommodation constructed after December 31, 2024, and state building construction completed after December 31, 2024, to provide universal changing accommodations that are equally accessible regardless of gender.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, Hawai'i Family Caregiver Coalition, Stonewall Caucus of the Democratic Party of Hawai'i, Epilepsy Foundation of Hawaii, Hawaii Disability Rights Center, IATSE 665, and four individuals.

Your Committees received comments on this measure from the Department of Accounting and General Services, the Judiciary, Hawai'i Civil Rights Commission, and the Hawai'i State Public Library System.

Your Committees find that accessible facilities are essential for ensuring the dignity and independence of individuals with disabilities. Your Committees further find that families and caregivers of individuals with disabilities often face challenges in finding accessible spaces during outings or daily activities, requiring them to meticulously plan their routes to include disability-friendly rest areas that offer safe and dignified toileting options. By requiring new public accommodations and state buildings to provide universal changing accommodations, this measure will promote the integration of individuals with disabilities into public spaces, foster a sense of inclusion and belonging, and alleviate the burden on families and caregivers, thereby enabling them to participate more fully in various social activities and outings.

Your Committees have amended this measure by:

- (1) Requiring state building construction projects that are bid after June 30, 2025, to include universal changing accommodations where feasible and cost effective, rather than requiring all state building construction constructed after December 31, 2024, to include universal changing accommodations; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2503, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2503, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2582 Health and Human Services on S.B. No. 2470

The purpose and intent of this measure is to make an appropriation to the Executive Office on Aging of the Department of Health for the Hawai'i Healthy Aging Partnership.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Policy Advisory Board for Elder Affairs, County of Hawai'i Office on Aging, YMCA of Honolulu, Hawai'i Family Caregiver Coalition, AARP Hawai'i, and over one hundred twenty individuals.

Your Committee finds that the Hawai'i Healthy Aging Partnership was established in 2003 to improve the health status of older adults by empowering residents to make healthy decisions and engage in healthier lifestyles. Your Committee further finds that the partnership has been relying on its appropriation from fiscal year 2019-2020 to maintain certain program activities. Limited funding for the partnership inhibits programs from continuing and expanding to meet the needs of kupuna across the State. This measure makes a necessary appropriation to the Hawai'i Healthy Aging Partnership to continue to improve the health and well-being of the State's kupuna.

Your Committee has amended this measure by:

- (1) Inserting an unspecified appropriation amount; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure, as amended, contains an appropriation for an unspecified amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider inserting an appropriation amount of \$600,000 for fiscal year 2024-2025.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2470, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2583 Health and Human Services on S.B. No. 2605

The purpose and intent of this measure is to:

- (1) Require health insurers, mutual benefit societies, and health maintenance organizations to provide health insurance coverage for various sexual and reproductive health care services; and
- (2) Apply this coverage to health benefits plans under the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee received testimony in support of this measure from the Stonewall Caucus of the Democratic Party of Hawai'i, American College of Obstetricians and Gynecologists, Planned Parenthood Alliance Advocates – Hawai'i, Hawaii Medical Association, Indivisible Hawaii Healthcare Team, Hawai'i Affiliate of American College of Nurse-Midwives, Save Medicaid Hawaii, Hawai'i Health and Harm Reduction Center, and twenty-one individuals.

Your Committee received testimony in opposition to this measure from surfing4truth and forty-five individuals.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Association of Health Plans, and Hawaii Medical Service Association.

Your Committee finds that the State has long been a leader in advancing reproductive rights and advocating for access to affordable and comprehensive sexual and reproductive health care without discrimination. However, gaps in coverage and care still exist, and benefits and protections in the State have been threatened for years by a hostile federal administration that has attempted to restrict and repeal the federal Patient Protection and Affordable Care Act of 2010. Additionally, access to sexual and reproductive health care is critical for the health and economic security of all people in the State. Therefore, safeguarding access to reproductive health care, limiting out-of-pocket costs, and improving overall access to care is crucial to preserve the mandates of the Affordable Care Act while protecting Hawai'i's people. Accordingly, this measure provides additional safeguards for reproductive health care coverage in the State to ensure greater accessibility for all residents.

Your Committee has amended this measure by:

- (1) Deleting language that would have required a policy to cover an alternative contraceptive supply prescribed by the health care provider if a contraceptive supply covered by the policy is deemed medically inadvisable by the insured's health care provider;
- (2) Deleting language that would have amended the definition of "contraceptive supplies" as it relates to individual or group accident and health or sickness insurance plans, to include supplies used by the insured's partner;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2605, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2605, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2584 (Joint) Government Operations and Agriculture and Environment on S.B. No. 2477

The purpose and intent of this measure is to:

- (1) Include single-ingredient products as a purchasing option for certain state departments and entities to fulfill their local food purchasing requirements; and
- (2) Define "single-ingredient product".

Your Committees received testimony in support of this measure from the Department of Agriculture; Agribusiness Development Corporation; Hawaii Cattlemen's Council, Inc.; and one individual.

Your Committees received comments on this measure from the Hawai'i Farm Bureau.

Your Committees find that the State recognizes the importance of supporting local farmers, growers, and food producers, including the myriad benefits of consuming locally-produced food such as freshness, reduced carbon footprint, and economic support to the local community. However, there is some ambiguity with existing provisions regarding the percentage of local ingredients required for a product to be deemed a "single-ingredient product". This measure defines the term "single-ingredient product" and includes single-ingredient products as a purchasing option for certain state departments and entities to fulfill their local food purchasing requirements.

Your Committees note the concerns raised in testimony of the Hawai'i Farm Bureau that the definition of "single-ingredient product" in the measure is unclear as to whether purchase of a product that is one hundred percent manufactured in Hawai'i but has no local agricultural ingredients, qualify as a local food purchase. During the public hearing on this measure, the Hawai'i Farm Bureau suggested, and the Department of Agriculture agreed, that removing the definition of "single-ingredient product" from this measure would be ideal.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the definition of "single-ingredient product"; and
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Government Operations and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2477, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2477, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2585 (Joint) Government Operations and Energy, Economic Development, and Tourism on S.B. No. 3357

The purpose and intent of this measure is to:

- (1) Require state facilities to prepare a report assessing the feasibility of installing distributed energy resource systems at each facility;
- (2) Require state facilities to implement and install the distributed energy resource systems detailed in the reports no later than five years from the issue date of the reports; and
- (3) Assign priority for the required energy efficiency measures to first responder facilities.

Your Committees received testimony in support of this measure from Greenpeace Hawaii, Hawaii Chapter of 350.org, Hawaii Solar Energy Association, Kauai Climate Action Coalition, Chamber of Sustainable Commerce, Environmental Caucus of the Democratic Party of Hawai'i, Green Party of Hawai'i, and six individuals.

Your Committees received comments on this measure from the Department of Accounting and General Services and Hawaii State Energy Office.

Your Committees find that the installation of on-site, distributed energy resources, such as rooftop solar and battery storage, is a cost-effective method to reduce greenhouse gas emissions and other pollutants associated with electricity generation. Your Committees further find that energy used to power buildings account for more than fifty percent of the electricity consumed in the State. However, the State has not undertaken efforts to maximize on-site renewable generation at many of its own facilities, forgoing millions of dollars in potential savings. This measure builds the State's resilience to the effects of global warming while taking a proactive approach to cost savings for electricity consumption in state facilities.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Accounting and General Services is the responsible agency for taking measures to assess the potential and feasibility of installing distributed energy resource systems at each state facility, and providing a report detailing the findings; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3357, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3357, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Kim).

SCRep. 2586 Government Operations on S.B. No. 2772

The purpose and intent of this measure is to:

- (1) Establish a Uniform Building Permit Working Group to study the feasibility of creating a single statewide building permit application package and a uniform review and approval process for building permits that can be used by all counties; and
- (2) Appropriate funds.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee received comments on this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO.

Your Committee finds that under existing law, applications for building permits are submitted to, and reviewed and approved by, each county, with varying requirements and processes, making it confusing for applicants to obtain one. This measure will reduce confusion, standardize paperwork, enhance efficiency, and streamline the building permit review and approval process in the State.

Your Committee has amended this measure by:

- (1) Adding the following members of their designees to the working group:
 - (A) The President of the Hawaii Chapter of the American Planning Association;
 - (B) The President of the Hawaii State Council of the American Institute of Architects;
 - (C) The Chair of the Hawaii Council of Engineering Societies;
 - (D) The Executive Director of the Hawaii Bankers Association; and
 - (E) The Executive Director of the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2772, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2772, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 2587 Government Operations on S.B. No. 3028

The purpose and intent of this measure is to allow the 911 Board to:

- (1) Fund all latest technologies in 911 services by deleting the word “enhanced” in state law governing 911 services; and
- (2) Employ, in addition to staff who are also exempt from chapters 76 and 89, Hawaii Revised Statutes, relating to civil service and collective bargaining, respectively.

Your Committee received testimony in support of this measure from the State of Hawaii Enhanced 9-1-1 Board, Public Utilities Commission, Office of Enterprise Technology Services, Honolulu Police Department, Honolulu Fire Department, Hawaii Police Department, City and County of Honolulu Department of Information Technology, Kaua’i Police Department, and three individuals.

Your Committee finds that the term “enhanced” in reference to 911 services refers to a particular technology developed more than twenty years ago that allowed the display of the caller’s telephone identification and location. Your Committee recognizes that since then, technology has evolved with improvements in services and changes in terminology, rendering the term “enhanced” outdated. However, existing statutory language identifies 911 services specifically as enhanced 911 services, thereby restricting funding solely for the outdated enhanced 911 services. According to multiple testimonies received by your Committee, the deletion of the term “enhanced” from chapter 138, Hawaii Revised Statutes, regarding enhanced 911 services, would allow the 911 Board to expend moneys to upgrade the system with the latest 911 technologies necessary for the safety and well-being of all residents and visitors of the State.

Your Committee notes that the Enhanced 911 Fund currently has about \$28,000,000 in unencumbered funds and that the Enhanced 911 Board plans to spend only \$8,000,000 on next generation 911 technologies, leaving \$20,000,000 in the Enhanced 911 Fund.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that amends the rate of the monthly enhanced 911 surcharge from 66 cents for each communications service connection to 33 cents for accounts with a single communications service connection and 66 cents for accounts with multiple communications service connections;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee further notes that the rate changes made in this measure, as amended, will bring savings to consumers by charging the monthly enhanced 911 surcharge by account as opposed to per line.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3028, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3028, S.D. 1, and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2588 (Joint) Government Operations and Agriculture and Environment on S.B. No. 2753

The purpose and intent of this measure is to clarify that no state or county building code shall prohibit the use of a substitute refrigerant allowed by the Environmental Protection Agency if the applicable equipment is listed and installed in compliance with the latest safety standards.

Your Committees received testimony in support of this measure from the Department of Health, Hawaii Chapter of 350.org, Air-Conditioning, Heating, and Refrigeration Institute, and Climate Protectors Hawai’i.

Your Committees find that certain refrigerants, including hydrofluorocarbons, are potent greenhouse gases that can have an immense impact on global warming. While the American Innovation and Manufacturing Act of 2020 mandates an eighty-five percent phasedown in hydrofluorocarbon refrigerants, updates to the State Building Code are needed to comply with this mandate. This measure ensures the safety and efficiency of alternate refrigerants while promoting environmental protection.

As affirmed by the records of votes of the members of your Committees on Government Operations and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2753 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2589 (Joint) Transportation and Culture and the Arts and Government Operations on S.B. No. 2896

The purpose and intent of this measure is to require each:

- (1) Parking lot in the State having public paid parking spaces in the State to accept payment of parking fees by credit card and debit card;

- (2) Parking meter in the State that collects parking fees for any public paid parking space to be maintained in working order to accept payment by cash, credit card, and debit card; and
- (3) County to adopt ordinances to enforce these requirements, including the establishment of penalties for failure to comply.

Your Committees received testimony in support of this measure from two individuals.

Your Committees received comments on this measure from the Department of Accounting and General Services and Department of the Attorney General.

Your Committees find that confusion surrounding credit card payments for public parking is a consistent problem for the State. Your Committees further find that parking meters cost the City and County of Honolulu \$200,000 per month in the first half of 2023 due to a lack of enforcement of card payment. This measure will ensure proper enforcement of parking meters by requiring all public paid parking spaces to accept credit or debit card.

Your Committees note that during the public hearing on this measure, discussion occurred regarding the requirement of parking meters to accept cash. Your Committees respectfully request that subsequent Committees look at whether or not there is an issue with requiring that all parking meters accept cash payment as this measure progresses in the legislative process.

Your Committees have amended this measure by:

- (1) Adding language to require the State and each county to submit annual reports to the Legislature regarding their progress implementing this measure; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2896, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2896, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

SCRep. 2590 (Joint/Majority) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 2769

The purpose and intent of this measure is to require all state, county, and private bus operators to upgrade to zero emission buses by 2045.

Your Committees received testimony in support of this measure from the Hawai'i Climate Change Mitigation and Adaptation Commission, Disability and Communication Access Board, Climate Protectors Hawaii, Democratic Party of Hawai'i, Ulupono Initiative, Hawaiian Electric, Blue Planet Foundation, and three individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees received comments on this measure from the Department of the Attorney General, State Procurement Office, Hawaii State Energy Office, and Public Utilities Commission.

Your Committees find that unabated greenhouse gas emissions, and resulting climate change and sea level rise, present an urgent and existential threat to citizens of the State. Your Committees further find that while the State and counties have pledged to reduce the State's greenhouse gas emissions, further action needs to be implemented. This measure will advance the State's climate change mitigation commitment.

Your Committees have amended this measure by:

- (1) Limiting the scope to require the State and counties to upgrade to zero emission buses by 2045;
- (2) Inserting language requiring the Public Utilities Commission to amend the Commission's administrative rules to encourage motor carriers to upgrade to zero emission buses by 2045;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2769, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2769, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Awa).

Agriculture and Environment: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2591 (Joint/Majority) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 2815

The purpose and intent of this measure is to establish a working group to conduct a comprehensive study to assess the State's port and harbor system and the potential viability of each location in that system to support current and future agricultural product transportation methods and needs.

Your Committees received testimony in support of this measure from the Department of Transportation; Department of Agriculture; Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc; and Hawaii Floriculture and Nursery Association.

Your Committees find that the Hawaii intrastate transportation system is critical to Hawaii's agriculture. Your Committees further find that an assessment of the supply chain in its entirety will help the State identify solutions and mitigate future challenges in the evolving shipping landscape. This measure will help the State improve its intrastate transportation system.

Your Committees have amended this measure by:

- (1) Clarifying that the study shall include an assessment of the maximum number of livestock that each pier in the State's port or harbor system is able to accommodate in shaded areas;
- (2) Specifying that the study shall include an assessment of areas where goods can be inspected, quarantined, and destroyed; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2815, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2815, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2592 (Joint/Majority) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 2967

The purpose and intent of this measure is to:

- (1) Mandate that fifty percent of all heavy-duty motor vehicles in the State's fleet be hydrogen vehicles by an unspecified date;
- (2) Mandate that one hundred percent of all heavy-duty motor vehicles in the State's fleet be hydrogen vehicles by December 31, 2035; and
- (3) Define heavy-duty motor vehicle and hydrogen vehicle.

Your Committees received testimony in support of this measure from Tigershark, LLC and two individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees received comments on this measure from the Hawaii State Energy Office.

Your Committees find that hydrogen can be produced from diverse domestic resources with the potential for near-zero greenhouse gas emissions. Your Committees further find that when used to power highly efficient fuel cell electric vehicles, hydrogen has enormous potential for strengthening national energy security, conserving petroleum, and diversifying the State's transportation energy options for a more resilient system. This measure will further the State's climate change mitigation commitment by transitioning all state-owned, heavy-duty motor vehicles to be hydrogen vehicles.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Transportation shall approve state fleet acquisitions; provided that heavy-duty motor vehicles purchased for the State's fleet be hydrogen or battery electric vehicles;
- (2) Specifying that "heavy-duty motor vehicle" means a truck, vehicle, or non-road vehicle or equipment having a gross weight rating of 8,581 pounds or more, before any after-market conversion to alternative fuel operation; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2967, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2967, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4; Ayes with Reservations (Elefante). Noes, 1 (Awa). Excused, none.

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (Richards).

SCRep. 2593 (Joint) Transportation and Culture and the Arts and Agriculture and Environment on S.B. No. 3013

The purpose and intent of this measure is to:

- (1) Appropriate funds to the Department of Transportation for the coordinated removal of albizia and other invasive trees; and

- (2) Require matching funds from public utilities.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawai'i Forest Industry Association, Hawaiian Electric, and one individual.

Your Committees received comments on this measure from the Hawaii Invasive Species Council and Public Utilities Commission.

Your Committees find that invasive albizia trees present a threat to Hawaii due to their fragility and tendency to fall in windy, rainy, or stormy weather conditions. Your Committees further find that albizia trees can threaten public safety by blocking evacuation routes; damaging homes; downing utility lines; or impeding access to emergency care facilities, schools, and polling places after weather events like tropical storm Iselle in 2020. This measure will increase public safety and safer roadways by requiring the removal of albizia trees near public roadways and utility infrastructure.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3013 and recommend that it pass Second Reading and be referred to your Committees on Ways and Means and Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2594 (Joint) Commerce and Consumer Protection and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3230

The purpose and intent of this measure is to:

- (1) Establish ratemaking regulations for insurers who base their rates on a policyholder or applicant's wildfire risk;
- (2) Amend the definition of "prospective loss costs" to incorporate catastrophe modeling instead of historical aggregate losses and prohibit insurers from basing certain insurance rates on past loss experience within or outside the State;
- (3) Establish new requirements for insurers relating to claims for additional living expenses under homeowners insurance policies, including situations where losses are incurred during a state of emergency; and
- (4) Require, beginning on January 1, 2025, each newly issued or renewed homeowners insurance policy that covers a property within the State to provide for the replacement cost value of the insured property.

Your Committees received testimony in support of this measure from one individual.

Your Committees received testimony in opposition to this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, State Farm Mutual Automobile Insurance Company, American Property Casualty Insurance Association, and National Association of Mutual Insurance Companies.

Your Committees received comments on this measure from the Hawaii Association for Justice.

Your Committees find that the frequency of costly wildfires has caused many insurers to reassess their market risks. However, your Committees find that if an insurer seeks to increase their rates based on an applicant's wildfire risk, that process must be transparent and reasonable, and should not incorporate catastrophe modeling based on historical losses, which would substantially disadvantage those residents on Maui who are still in the process of rebuilding their communities. Therefore, this measure, in its current form, would establish certain ratemaking regulations for insurers who base their rates on wildfire risk and prohibit the use of past loss experiences. Further, this measure would establish new requirements for insurers relating to claims for additional living expenses and require homeowners insurance policies to provide for the replacement cost value.

Notwithstanding, your Committees have heard the testimony of the Insurance Division of the Department of Commerce and Consumer Affairs that part I of this measure is already being regulated under article 14 of chapter 431, Hawaii Revised Statutes; part II would remove information critical for an accurate and adequate rate process; and part III may result in higher premiums, discouraging new insurers from entering the Hawaii market. Amendments to this measure are therefore necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting a general fund appropriation in an unspecified amount for the Insurance Division of the Department of Commerce and Consumer Affairs, in collaboration with the University of Hawaii, to procure expertise and develop a physical risk model to assess risk in the State for insurance ratemaking and regulatory purposes; and
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion.

Should your Committees on Judiciary and Ways and Means choose to deliberate on this measure, your Committees respectfully request that the committees consider inserting an appropriation amount of \$300,000 for the physical risk model.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3230, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3230, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Awa).

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2595 Commerce and Consumer Protection on S.B. No. 3015

The purpose and intent of this measure is to authorize the issuance of special purpose revenue bonds in a total amount not to exceed \$700,000,000, in one or more series, to assist Hawaiian Electric Company, Inc. (Hawaiian Electric) and its subsidiaries, Maui Electric Company, Limited and Hawaii Electric Light Company, Inc. in financing multi-project capital improvement programs, including costs to cover the acquisition of land or the construction or acquisition of facilities used or related to the production, transmission, or distribution of electricity, or any combination thereof.

Your Committee received testimony in support of this measure from Hawaiian Electric Company, Inc.

Your Committee received testimony in opposition to this measure from Ho‘omana Pono, LLC.

Your Committee received comments on this measure from the Department of Budget and Finance, Hawaii Housing Finance and Development Corporation, and Public Utilities Commission.

Your Committee finds that the Department of Budget and Finance is authorized to issue special purpose revenue bonds to finance projects for utilities serving the general public in providing electric energy, gas, or telecommunications. Your Committee further finds that Hawaiian Electric is such an entity. Your Committee also finds that Act 41, Session Laws of Hawaii 2019, authorized the Department of Budget and Finance to issue up to \$700,000,000 in special purpose revenue bonds over five years, from 2019 to 2024, allowing Hawaiian Electric the option to finance multi-project capital improvement construction programs for the local furnishing of electric energy on Oahu, Hawaii island, and across Maui county. This measure extends the expiration date of the authorization currently in place from June 2024 to June 2029.

Your Committee finds that extending the authorization for the issuance of special purpose revenue bonds to assist in the financing of Hawaiian Electric’s multi-project capital improvement programs constitutes assistance to utilities serving the general public, and that the issuance of special purpose revenue bonds to finance facilities of, or for, or to loan the proceeds of such bonds to assist project parties, is in the public interest.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

Your Committee notes that during the public hearing for this measure, your Committee requested Hawaiian Electric to provide an outline of the projects that will benefit from the issuance of special purpose revenue bonds pursuant to this measure. Your Committee notes that it received three electronic files comprising a total of thirty-five pages identifying various communication, distribution, general, production, steam, and transmission projects across the islands of Oahu and Maui.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3015, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3015, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2596 Commerce and Consumer Protection on S.B. No. 2913

The purpose and intent of this measure is to establish a framework to regulate the sale of travel insurance in the State.

Your Committee received testimony in support of this measure from Allianz Global Assistance, Hawaii Insurers Council, U.S. Travel Insurance Association, and Crum & Forster.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committee finds that a nationwide comprehensive and uniform regulatory framework for the sale of travel insurance is necessary to protect travelers across the nation. Therefore, this measure, which is based on the Travel Insurance Model Act adopted by the National Council of Insurance Legislators and National Association of Insurance Commissioners model legislation, will clarify the application of existing laws relating to travel insurance and provide uniformity among participating states.

Your Committee has amended this measure by:

- (1) Clarifying the definition of “limited lines travel insurance producer” to include licensed insurance producers and limited lines producers, licensed under section 431:9A-107.5(a)(1), Hawaii Revised Statutes;
- (2) Deleting language that would have exempted each travel administrator and its employees from the licensing requirements of section 431:9-201, Hawaii Revised Statutes, for any travel insurance administered;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2913, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2913, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2597 Commerce and Consumer Protection on S.B. No. 3229

The purpose and intent of this measure is to:

- (1) Require the Insurance Commissioner to establish a program to investigate complaints, respond to inquiries, and bring enforcement actions against insurers; and
- (2) Establish a working group to identify, assess, and recommend certain risk transfer market mechanisms.

Your Committee received testimony in opposition to this measure from the Insurance Division of the Department of Commerce and Consumer Affairs, Hawaii Insurers Council, NAIFA Hawaii, and National Association of Mutual Insurance Companies.

Your Committee finds that, in the wake of the August 2023 Maui wildfires, it is critical to ensure that the insurance industry is properly regulated to protect consumers. Further, your Committee finds that, as a result of climate change, the State should promote resilient policies to future-proof the State from other catastrophes and determine appropriate incentives to invest in natural infrastructure as part of insurance policies that mitigate elemental risk. This measure would establish certain procedures to authorize the Insurance Commissioner to respond to consumer complaints and bring enforcement actions, and establish a working group to identify, assess, and recommend certain risk transfer market mechanisms.

However, your Committee notes the concerns raised in testimony stating that the issues addressed in this measure, in its current form, relating to consumer complaints and enforcement are already provided for in the Insurance Code and could lead to confusion and interpretation issues. Further, your Committee finds that the provisions relating to additional living expenses under homeowners insurance policies as proposed in part III of S.B. No. 3230 (2024), should be added to this measure for further discussion. Therefore, amendments to this measure are necessary to address these issues.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the Insurance Commissioner to establish a program to investigate complaints, respond to inquiries, and bring enforcement actions against insurers;
- (2) Inserting language requiring that homeowners insurance policies include additional living expenses coverage for at least two weeks for certain losses incurred if a state of emergency is accompanied by an order of civil authority restricting access to the policyholder's home; and
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3229, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3229, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2598 Transportation and Culture and the Arts on S.B. No. 2111

The purpose and intent of this measure is to:

- (1) Under certain conditions, limit the payment of any delinquent tax and penalty required by the Director of Finance of a county as a condition precedent to the transfer of ownership of a vehicle to the aggregate amount of delinquent taxes and penalties accumulated by the previous registered owner over the preceding five-year period;
- (2) Establish a fine of not more than \$5,000 for a person that transfers ownership of a vehicle and thereafter reobtains ownership by subsequent transfer for the primary purpose of evading delinquent taxes and penalties; and
- (3) Require the respective counties to amend any applicable ordinances.

Your Committee received testimony in opposition to this measure from three individuals.

Your Committee finds that some car owners fail to pay delinquent taxes and penalties on vehicles that remain unused for years or even decades. Existing law requires that the person who re-registers a vehicle is required to pay the delinquent taxes and penalties, which shifts the burden to the person purchasing the used vehicle. This measure will help the purchasers of used vehicles by limiting the payment of delinquent taxes and penalties accumulated by the previous owner to the preceding five-year period.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2111, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2599 Transportation and Culture and the Arts on S.B. No. 2178

The purpose and intent of this measure is to allow for a percentage of general excise and fuel taxes generated by the counties to be used for maintenance of private roadways that are open to the public.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that there has been an increase in utilization of streets, highways, thoroughfares, and roadways, and their surrounding areas that has resulted in an influx of traffic that exceeds their original design capacity. Currently, counties are prohibited from utilizing taxes to conduct maintenance on privately-owned roads that are open to the public. This measure will authorize counties to use county taxes for the reconstruction, improvement, repair, and maintenance of privately-owned roadways that are open to the public to increase public safety and the general welfare of the State.

Your Committee has amended this measure by:

- (1) Inserting legislative findings declaring that it is in the public interest to improve and maintain private roadways that serve the public, in limited circumstances;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2178, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2600 Transportation and Culture and the Arts on S.B. No. 2308

The purpose and intent of this measure is to establish additional fines and penalties for convictions of speeding in a school zone.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee received comments on this measure from the Department of Education.

Your Committee finds that a study published in 2022 found that Hawaii ranked in the top ten nationwide for poor driving, analyzing statistics including speeding tickets, accidents, DUIs, and citations. Your Committee further finds that more is needed to create safe streets and reverse the trend of increased accidents and fatalities. Through establishing additional fines, this measure will encourage responsible driving in school zones.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2308 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2601 Transportation and Culture and the Arts on S.B. No. 2738

The purpose and intent of this measure is to:

- (1) Establish a three-year pilot program within the Department of Transportation, in collaboration with the counties, to examine signalized intersections that are programmed to all crosswalk and pedestrian movement signs to commence four seconds before the green light is given to motor vehicle traffic when the walk button has been pressed;
- (2) Require a report to the Legislature; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Transportation, one member of the Kaua'i County Council, Hawai'i Appleseed Center for Law and Economic Justice, Ulupono Initiative, and two individuals.

Your Committee finds that a study published in 2022 found that Hawaii ranked in the top ten nationwide for poor driving, analyzing statistics including speeding tickets, accidents, DUIs, and citations. According to testimony received by your Committee, leading pedestrian intervals are an underutilized proven safety countermeasure in Hawaii. Your Committee believes that it is necessary to increase pedestrian visibility, reduce conflicts between drivers and pedestrians, improve the likelihood of drivers yielding to pedestrians, and protect vulnerable roadway users by establishing a pilot program to examine signalized intersections.

Your Committee has amended this measure by:

- (1) Adding language to authorize the pilot program to examine signalized intersections that have automatic pedestrian movement signs and new technologies;
- (2) Inserting an appropriation amount of \$599,000; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2738, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2602 Transportation and Culture and the Arts on S.B. No. 3002

The purpose and intent of this measure is to make an appropriation to the Department of Transportation to implement the recommendations of the Mobility Management Task Force, established pursuant to Act 214, Session Laws of Hawaii 2013, in consultation with the Aging and Disability Resource Center of the Executive Office on Aging and other stakeholder groups.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board, AARP Hawai'i, National Federation of the Blind of Hawaii, and five individuals.

Your Committee received comments on this measure from the Department of Human Services.

Your Committee finds that Act 214, Session Laws of Hawaii 2013 (Act 214), established a task force on mobility management within the Department of Health to make recommendations on establishing a transportation framework to assist elders and individuals with disabilities with transportation needs in each county, including recommendations relating to the state budget and program development. According to the report, statewide, especially in rural communities, many elderly residents are without family members nearby to provide transportation and are too frail or disabled to access public transit. Your Committee recognizes the need to implement policies on mobility management, a concept in which a single entity in a geographical area is charged with knowing and deploying the entire array of transportation resources available. This measure provides resources to move towards these mobility management goals.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3002 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2603 Transportation and Culture and the Arts on S.B. No. 3348

The purpose and intent of this measure is to change the state registration fee and the state vehicle weight tax amounts.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Transportation, Tax Foundation of Hawaii, and Alliance for Automotive Innovation.

Your Committee finds that the State Highway Fund is currently funded from state motor vehicle registration fees, alternative fuel electric vehicle surcharges, and state motor vehicle weight taxes that pay for operations, maintenance, and improvements to land transportation facilities and serve as a state match for federal funding. According to testimony received by your Committee, these revenues perform critical construction to provide a safe, efficient, and accessible surface transportation system. This measure aims to reduce the cost of basic transportation, build safer infrastructure, and produce a more equitable method of taxation dependent upon individual usage. Your Committee finds that more data is needed to ensure thoughtful decision-making regarding the State Highway Fund.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language to provide authority to the Director of Finance to develop means to identify additional data about vehicle registration and requiring collected data to be included in the registration database; and
- (2) Amending section 1 to reflect its amended purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3348, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2604 (Joint/Majority) Agriculture and Environment and Transportation and Culture and the Arts on S.B. No. 3237

The purpose and intent of this measure is to:

- (1) Facilitate the control and eradication of invasive species and pests;
- (2) Establish a plant nursery licensing program;
- (3) Require the Department of Agriculture to designate certain species as pests for control or eradication;
- (4) Impose certain limits on imports and transportation; and
- (5) Update the method by which the Department's noxious weed list is updated.

Your Committees received testimony in support of this measure from the Coordinating Group on Alien Pest Species; Greenpeace Hawaii; Big Island Invasive Species Committee; Sierra Club of Hawai'i; Conservation Council for Hawai'i; Kua'āina Ulu 'Auamo; Council for Native Hawaiian Advancement; O'ahu Invasive Species Committee; We Are One, Inc.; The Outdoor Circle; Free Access Coalition; Hawaii Reef and Ocean Coalition; ROAR; and twenty-three individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Floriculture and Nursery Association.

Your Committees received comments on this measure from the Department of the Attorney General, Department of Agriculture, and Hawai'i Farm Bureau.

Your Committees find that invasive species pose a significant threat to the State's native ecosystems. As the State has a high concentration of endemic species, many of which are endangered, greater action is needed to protect native plant species. This measure provides for enhanced limitations on imported plant species to ensure protection of the State's natural resources.

Your Committees have amended this measure by:

- (1) Clarifying that the Department of Agriculture is required to designate other pests for control or eradication by rule, and update designated taxa no less than once every two years;
- (2) Allowing the Department of Agriculture to proceed to adopt an emergency rule for the eradication of a pest or incipient infestation that is or is likely to become injurious or deleterious to native species or the environment;
- (3) Allowing the applicable county, invasive species committee, or Hawaii Ant Lab to develop or implement a program for a pest that is, or is likely to be, a threat to public health and welfare, or private property, if the Department of Agriculture does not develop and implement a detailed control or eradication program for a taxa designated as a pest for control or eradication;
- (4) Replacing references to "state plant regulatory official" with the Chairperson of the Board of Agriculture;
- (5) Requiring the Board of Agriculture to give a prompt hearing to the Chairperson of the Board of Agriculture and the appellant of a decision of Chairperson or any inspector of the Department of Agriculture;
- (6) Inserting language to include a pest that the Department of Agriculture or other government entity, including the appropriate invasive species committee for an island, attempts to contain, suppress, or reduce within the State or an area of the State as a "high-priority pest";
- (7) Inserting language to require a temporary plant nursery licensee demonstrate to the Department of Agriculture's satisfaction that the person does not sell any plant species designated by the Department as a noxious weed or restricted plant;
- (8) Deleting language that would have required a temporary plant nursery license produce nursery stock with a person with a valid plant nursery license;
- (9) Inserting language to require a temporary plant nursery licensee to import necessary stock subject to rules;
- (10) Inserting language prohibiting a small seller plant nursery licensee from selling any plant species designated by the Department of Agriculture as a noxious weed or restricted plant;
- (11) Inserting language to require a small seller plant nursery licensee import necessary stock subject to rules;
- (12) Deleting language that would have required the Department of Agriculture to place a stop sale on an affected nursery stock or location where a high-priority pest is present, low priority pests are not under effective control, or that the holder of a full plant nursery license, temporary plant nursery license, or a small seller plant nursery license is otherwise not in compliance with certain requirements;
- (13) Inserting language requiring the Department of Agriculture to mitigate, by whatever means necessary, the potential spread of a pest in an affected nursery stock or location where a high-priority pest is present, low priority pests are not under effective control, or that the holder of a full plant nursery license, temporary plant nursery license, or a small seller plant nursery license is otherwise not in compliance with certain requirements;
- (14) Inserting language allowing an applicant or person affected by the Department of Agriculture's actions in response to an affected nursery stock or location where a high-priority pest is present, low priority pests are not under effective control, or that the holder of a full plant nursery license, temporary plant nursery license, or a small seller plant nursery license is otherwise not in compliance with certain requirements to request a contested case hearing with the Department in writing within thirty days following the date of the Department's notice;
- (15) Inserting language requiring the Department of Agriculture's suspension or revocation of or refusal to issue or renew a full plant nursery license, temporary plant nursery license, or small seller plant nursery license be subject chapter 91, Hawaii Revised Statutes, and the rules adopted by the Board of Agriculture;
- (16) Deleting language that would have required the Department of Agriculture to consider certain taxa to be pests;
- (17) Deleting language that would have allowed the Department of Agriculture to designate the infested area of a pest by rules, including interim rules;
- (18) Deleting language that would have allowed the Department of Agriculture to enter into cooperative agreements with the United States Department of Agriculture and other federal, state, or county agencies to assist in the enforcement of federal quarantines;
- (19) Deleting language that would have prohibited certain articles relating to citrus pests and diseases from entering the State;
- (20) Deleting language that would have included a written agreement that serves as a permit issued by the Department of Agriculture to a person who carries out commercial activities and includes any terms or conditions the state plant regulatory official determines will slow or prevent the spread of a pest as a "compliance agreement";
- (21) Clarifying that inspectors have the authority to administratively inspect whenever the inspector has good cause to believe that the provisions of chapter 150A, Hawaii Revised Statutes, are being violated;

- (22) Replacing the term "item or material" with "article" or "articles" when referring to certain articles subject to certain conditions for importation into the State;
- (23) Inserting language establishing penalties for a person who violates conditions of importation of certain articles;
- (24) Inserting language clarifying that the Department of Agriculture is authorized to specify the flora, fauna, pest host material, and any other article, without being subject to chapter 201M, Hawaii Revised Statutes, or rulemaking requirements under chapter 91, Hawaii Revised Statutes;
- (25) Inserting language to repeal the criminal penalty for section 150A-5, Hawaii Revised Statutes;
- (26) Inserting language allowing the Department of Agriculture to submit an application seeking a change to the list of noxious weeds;
- (27) Inserting language requiring the Department of Agriculture to adopt rules and implement the Plant Nursery Licensing Program within two years;
- (28) Inserting language allowing persons to sell nursery stock without a license issued pursuant to the Plant Nursery Licensing Program in the two years before the Department of Agriculture is required to adopt rules and implement the Plant Nursery Licensing Program; and
- (29) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3237, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3237, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 5. Noes, none. Excused, none.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Inouye). Excused, none.

SCRep. 2605 (Joint/Majority) Transportation and Culture and the Arts and Water and Land on S.B. No. 2226

The purpose and intent of this measure is to authorize each county to adopt ordinances to regulate or restrict access to certain streets, highways, thoroughfares, or roads.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, one member of the Hawai'i County Council, one member of the Maui County Council, one member of the Kaua'i County Council, and Hawaii State Association of Counties.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that the increased utilization of certain streets, highways, thoroughfares, and roadways, and their surrounding areas, has resulted in an influx of traffic that exceeds their original design capacity, thereby endangering both travelers and the culturally significant and environmentally sensitive sites that they traverse. Many of these roadways were not originally constructed to meet rigorous safety standards and therefore lack the necessary infrastructure now required for unregulated use, and due to this increased traffic, counties are unable to wholly mitigate the inherent risks posed by their non-standard designs. Recognizing this issue, your Committees believe that the counties should be empowered to establish access limits to safeguard these fragile sites.

Your Committees have amended this measure by:

- (1) Limiting the regulations or restrictions to motor vehicle access only; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2226, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2226, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

Water and Land: Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2606 (Joint) Transportation and Culture and the Arts and Commerce and Consumer Protection on S.B. No. 2641

The purpose and intent of this measure is to:

- (1) Limit moving violations arising from the operation of a motor vehicle that appear on traffic abstracts to those that resulted in convictions; and
- (2) Require the Traffic and Emergency Period Violations Bureaus to remove all alleged moving violations not resulting in a conviction from certified abstracts.

Your Committees received testimony in support of this measure from the ACLU of Hawai'i and two individuals.

Your Committees received comments on this measure from The Judiciary.

Your Committees find that moving violations that do not result in convictions currently appear on certified abstracts furnished by the Traffic and Emergency Period Violations Bureaus of the District Courts. According to testimony received by your Committees, these alleged moving violations have barred individuals from both private and military employment. Your Committees believe that reducing the collateral consequences of court records is imperative to enhancing employment opportunities.

Your Committees have amended this measure by inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2641, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2641, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Awa).

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2607 (Joint/Majority) Transportation and Culture and the Arts and Commerce and Consumer Protection on S.B. No. 3022

The purpose and intent of this measure is to:

- (1) Establish a ridesharing fee; and
- (2) Deposit fees collected into the State Highway Fund.

Your Committees received testimony in support of this measure from the Department of Transportation, Oahu Metropolitan Planning Organization, Ulupono Initiative, and one individual.

Your Committees received testimony in opposition of this measure from AllWays Charley's Taxi and one individual.

Your Committees received comments on this measure from the Department of Taxation, Tax Foundation of Hawaii, and Uber Technologies.

Your Committees find that over the past five years, the rideshare industry has experienced substantial growth nationally and in Hawaii, transforming the way people commute and navigate. Your Committees recognize that Hawaii has the potential to create a self-sustaining model where those benefiting the most from rideshare services contribute directly to the maintenance and enhancement of the transportation infrastructure they utilize. This measure outlines an effective approach to address the challenges posed by the proliferation of rideshare services by implementing a fee to be utilized for infrastructure enhancements.

Your Committees have amended this measure by:

- (1) Replacing the term "rideshare" with the term "transportation network companies";
- (2) Inserting an unspecified fee amount;
- (3) Deleting language that would have deposited collected taxes into the State Highway Fund;
- (4) Adding language to clarify that collected taxes shall be deposited into the Safe Routes to School Program Special Fund;
- (5) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3022, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3022, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3; Ayes with Reservations (Elefante). Noes, 1 (Inouye). Excused, 1 (Awa).

Commerce and Consumer Protection: Ayes, 4; Ayes with Reservations (McKelvey). Noes, none. Excused, 1 (Richards).

SCRep. 2608 (Joint) Energy, Economic Development, and Tourism and Agriculture and Environment and Water and Land on S.B. No. 2499

The purpose and intent of this measure is to:

- (1) Require the Hawaii State Energy Office (HSEO) to implement a Slim-Hole Resource Characterization Program that identifies the location and characteristics of underground water and carbon sequestration resources across the State under the direction of the Hawaii Groundwater and Geothermal Resources Center at the University of Hawaii;
- (2) Require HSEO to prepare an environmental assessment or, if required, an environmental impact statement for the program;
- (3) Require HSEO to engage with the counties and nearby communities to understand community needs, priorities, and concerns relating to the program before and during the environmental assessment and the program;
- (4) Require a progress report to the Legislature; and
- (5) Make appropriations to the HSEO for the implementation of the slim-hole resource characterization program.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office, Ulupono Initiative LLC, Sustainable Energy Hawai'i, Climate Protectors Hawaii, and four individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees find that a better understanding of underground water resources and carbon sequestration potential across the State can have multiple benefits to agriculture, clean energy, and land use. Your Committees also find that resource characterization through slim-hole bores of certain sizes and depths can identify water and carbon sequestration resources across the state. A statewide environmental assessment of a slim-hole exploration program, along with robust and continued community engagement, will help identify the most appropriate locations for this scientific activity.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism, Agriculture and Environment, and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2499, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2499, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2609 (Joint) Energy, Economic Development, and Tourism and Commerce and Consumer Protection on S.B. No. 2964

The purpose and intent of this measure is to authorize independent generators of renewable energy to wheel the renewable energy transmitted and used to produce hydrogen, subject to certain conditions determined by the Public Utilities Commission.

Your Committees received testimony in support of this measure from the Hawaii Center for Advanced Transportation Technologies; Hawaii Clean Power Alliance; and Tigershark, LLC.

Your Committees received testimony in opposition to this measure from the Kaua'i Island Utility Cooperative.

Your Committees received comments on this measure from the Hawaii State Energy Office, Department of Commerce and Consumer Affairs, Public Utilities Commission, Hawaiian Electric, and Ulupono Initiative LLC.

Your Committees find that there are many renewable energy generating facilities that are curtailed when there is an oversupply of energy generation. This excess energy is wasted and can be utilized to create hydrogen through the permitting of wheeling renewable energy. This measure aids the State in meeting its future energy needs, facilitates the development of green hydrogen and renewable energy industries, and reduces dependence on fossil fuels through authorizing the wheeling of renewable energy to produce hydrogen.

Your Committees have amended this measure by:

- (1) Changing references from "third-party electric utility" to "third-party investor-owned electric utility";
- (2) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2964, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2964, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

SCRep. 2610 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2822

The purpose and intent of this measure is to August 1, 2024, require the Public Utilities Commission to open a docket and set a procedural schedule to determine whether, and by which rules, the Department of Accounting and General Services may engage in wheeling of electricity that is produced by renewable energy sources from their own facilities over existing transmission lines, subject to certain restrictions.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Blue Planet Foundation; Hawaii Solar Energy Association, Inc.; and Hawaii Clean Power Alliance.

Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs; Hawaiian Electric; and Ulupono Initiative, LLC.

Your Committees find that the production of clean electricity may be encouraged if certain government agencies, as sellers of clean electricity, are authorized to engage in intragovernmental wheeling, or the transmittal of electric power from one power generation facility to another facility over the existing transmission lines of a third-party electric public utility. Your Committees further find that the Public Utilities Commission's failure to open and move a docket on wheeling for state facilities has hindered the State's ability to share and distribute the electricity generated amongst its facilities. This measure authorizes intragovernmental wheeling, which provides multiple benefits for the State's electrical grid, clean energy power producers, and the State's taxpayers.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2822 and recommend that it pass Second Reading and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Kim).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2611 (Joint) Labor and Technology and Health and Human Services on S.B. No. 2547

The purpose and intent of this measure is to establish income tax credits for employers who offer employer-provided or employer-sponsored child care services for their employees.

Your Committees received testimony in support of this measure from Retail Merchants of Hawaii; NFIB, Hawaii Chapter; Chamber of Commerce Hawaii, Society of Human Resource Management Hawaii, and one individual.

Your Committees received comments on this measure from Department of Taxation and Tax Foundation of Hawaii.

Your Committees find that working parents in Hawaii have a difficult time balancing their professional responsibilities with the care and nurturing of their children. Your Committees also find that lack of sufficient childcare is a major barrier for entry or reentry into the workforce. This measure will incentivize employers to provide a safe child care environment at the workplace or subsidize the cost their employees bear for child care during workhours, thereby helping employees better balance their work and family responsibilities.

Your Committees have amended this measure by:

- (1) Clarifying that the prorated tax credit for the costs of qualified child care property purchased and acquired by employers to provide child care facilities on their premises that is in excess of the employer's net income tax liability for the taxable year shall not be carried forward;
- (2) Clarifying that the information to ensure that the tax credits under this measure are granted only to eligible taxpayers, that must be included in the written sworn statement submitted by a taxpayer claiming the tax credit to the Department of Taxation, shall be set forth in rules adopted by the Department of Human Services; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2547, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2547, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2612 Water and Land on S.B. No. 2050

The purpose and intent of this measure is to require the Department of Land and Natural Resources to establish and conduct a Marine Life Conservation District Carrying Capacity Program to establish best practices for appropriate use of the State's marine life conservation districts (MLCDs).

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Office of Hawaiian Affairs, Hawaii Reef and Ocean Coalition, Fair Wind Big Island Ocean Guides, and one individual.

Your Committee finds that MLCDs are established by the Department of Land and Natural Resources to conserve and replenish the State's marine resources. Act 31, Session Laws of Hawaii 2022, was passed to require the Department of Land and Natural Resources to establish and conduct the Pupukeya MLCD Carrying Capacity Pilot Program to reduce the impact of humans on the health and abundance of marine life in the sensitive areas of the Pupukeya MLCD. This measure will address the carrying capacity limits of the State's most valuable marine resources, ensuring their protection and conservation for the future.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2050, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2613 Water and Land on S.B. No. 2057

The purpose and intent of this measure is to provide matching grant-in-aid funds to the County of Hawaii to hire an engineering firm to study, plan, assist, and conduct preliminary design and concept work for a two-phase project to restore the Kahaluu Beach Park in the County of Hawaii.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Parks and Recreation of the County of Hawai'i, Office of Hawaiian Affairs, two members of the Hawai'i County Council, The Kohala Center, Fair Wind Cruises, Dear Ocean, Hawaii Marine Education and Research Center, Friends of Hanauma Bay, Hawaii Reef and Ocean Coalition, and twenty-eight individuals.

Your Committee finds that Kahaluu Bay, which is situated in a resort area south of Kailua-Kona in the County of Hawaii, is a popular beach destination for residents and tourists alike due to its natural beauty and history as a sacred place to Native Hawaiians. The County of Hawaii uses an innovative public-private partnership with the Kohala Center's Kahaluu Bay Education Center to provide daily stewardship management that is intended to promote long-term preservation. While the Kahaluu Bay Education Center's efforts have greatly benefited Kahaluu Beach's marine and coastal ecosystem, they cannot shield the beach from the impacts of global warming. This measure will help preserve Kahaluu Beach Park for future generations by providing matching grant-in-aid funds to the County of Hawaii to hire an engineering firm that will develop a plan to restore Kahaluu Beach Park.

Your Committee has amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2057, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2057, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2614 Water and Land on S.B. No. 2296

The purpose and intent of this measure is to appropriate funds to:

- (1) Support the Department of Land and Natural Resources to restore and restock fishponds by procuring fingerlings and limu; and
- (2) Establish one full-time equivalent (1.0 FTE) Aquaculture Coordinator Biologist VI position.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Agriculture, Kua'āina Ulu 'Auamo, Hawaii Reef and Ocean Coalition, Hawaii Food+ Policy, Hulu Mamo Hawaiian Civic Club, and four individuals.

Your Committee finds that loko ia, or fishponds, play an important role in Hawaiian cultural practices, have an ecologically important role in watersheds, and could significantly contribute to the State's food security and goals. This measure will support ongoing efforts to restore the State's fishponds and make them more sustainable.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2296, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2296, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2615 (Joint) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 3060

The purpose and intent of this measure is to require the Office of Planning and Sustainable Development to develop and publish a statewide climate adaptation and resilience implementation plan.

Your Committees received testimony in support of this measure from the Office of Planning and Sustainable Development; Department of Business, Economic Development, and Tourism; Democratic Party of Hawai'i; American Flood Coalition Action; and two individuals.

Your Committees find that the State faces many challenges associated with climate change, including increased hurricane and tropical cyclone activity, rising temperatures, hazardous inland flooding and landslides, coastal erosion and sea level rise, drought, and increased wildfires in our communities. While many specific plans related to the State's climate adaptation have been published, there is no overarching statewide strategy in place to address the multiple climate hazards and land use concerns or to evaluate the State's risk and vulnerability. This measure addresses climate associated challenges the State faces by establishing a statewide climate adaptation and resilience implementation plan that aggregates and draws on the recommendations made by multiple agencies.

Your Committees have amended this measure by:

- (1) Inserting an unspecified appropriation amount;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3060, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3060, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 5. Noes, none. Excused, none.
Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

SCRep. 2616 Water and Land on S.B. No. 3168

The purpose and intent of this measure is to authorize the Department of Land and Natural Resources to approve permits for research, education, management, or propagation purposes that include the taking of sand, dead coral, coral rubble, rocks, soil, and other marine deposits seaward of the shoreline.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from two individuals.

Your Committee finds that the Department of Land and Natural Resources (Department) regularly receives requests for permits that involve taking of sand, dead coral, coral rubble, rocks, soil, or other marine deposits from state waters for research, education, management, or propagation purposes. However, the Department is not authorized to approve these permit requests as section 171-58.5, Hawaii Revised Statutes, does not currently allow for the taking of these resources for those purposes. This measure will allow the Department to approve research, education, management, or propagation activities requiring these resources and ensure these activities are appropriate and beneficial.

Your Committee has amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3168, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3168, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2617 Water and Land on S.B. No. 2182

The purpose and intent of this measure is to make the Ocean Stewardship Special Fund permanent.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Sierra Club of Hawai'i, Hawaii Reef and Ocean Coalition, Resources Legacy Fund, and one individual.

Your Committee received testimony in opposition to this measure from the Ocean Tourism Coalition and Quicksilver Charters.

Your Committee finds that the Department of Land and Natural Resources recently promulgated administrative rules to implement the Ocean Stewardship User Fee as required by section 187A-52, Hawaii Revised Statutes, which requires all commercial ocean operators that are required to have a commercial use permit from the Division of Boating and Ocean Recreation to collect a \$1 fee from each passenger or customer. All fees are deposited into the Department of Land and Natural Resources' Ocean Stewardship Special Fund to be used for the conservation, restoration, enhancement, and management of marine resources in the State. This measure will allow the Department of Land and Natural Resources to plan for longer-term ocean stewardship projects that require a greater investment of time and resources.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2182 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2618 Health and Human Services on S.B. No. 2473

The purpose and intent of this measure is to:

- (1) Establish a refundable tax credit for nonpaid family caregivers; and
- (2) Require the Department of Taxation to report to the Legislature before the convening of each Regular Session.

Your Committee received testimony in support of this measure from the County of Hawai'i Office of Aging; Alzheimer's Association-Hawaii; Hawai'i Children's Action Network Speaks!; Hawai'i Primary Care Associations; Aloha United Way, Inc.; AARP Hawai'i; The Institute for Human Services, Inc.; Hawai'i Family Caregiver Coalition; and thirteen individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that family caregivers are the backbone of the long-term care system in the State. Your Committee further finds that nonpaid family caregivers face many physical, emotional, and financial challenges and often balance caregiving with work and other personal responsibilities. Your Committee additionally finds that the demands on family caregivers are not isolated family issues and that the State should assist in the delivery of meaningful support and solutions for those that provide unpaid long-term care services in the State. This measure will therefore help ease the financial expenses incurred by unpaid caregivers.

Your Committee has amended this measure by:

- (1) Inserting language into the definition of "eligible taxpayer" to include any relative of a care recipient who has not claimed a credit under section 235-55.6, Hawaii Revised Statutes;
- (2) Clarifying in the definition of "care recipients" that impairments of individuals be certified by a primary care medical provider;

- (3) Clarifying that the Department of Taxation's report to the Legislature include the number of taxpayers claiming the tax credit;
- (4) Removing language that would have allowed the excess of credit over income tax payments due to be refunded to the taxpayer;
- (5) Correcting the legislative findings to clarify the value of the unpaid service hours for family caregivers from \$2,600,000 to \$2,600,000,000;
- (6) Delaying the applicability of the tax credit to taxable years beginning after December 31, 2024;
- (7) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2473, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2473, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2619 (Joint) Agriculture and Environment and Commerce and Consumer Protection on S.B. No. 2174

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to establish, implement, and administer a Meat and Poultry Inspection Program and annually report to the Legislature; and
- (2) Appropriate an unspecified amount of funds for the establishment, implementation, and administration of the Meat and Poultry Inspection Program.

Your Committees received testimony in support of this measure from the Department of Agriculture; Hawaii Cattlemen's Council, Inc.; and two individuals.

Your Committees received comments on this measure from the Animal Welfare Institute.

Your Committees find that the State does not have a meat and poultry inspection program. Presently, the State relies on the United States Department of Agriculture's Food and Safety and Inspection Service under a cooperative agreement to inspect the safety and labeling of meat, poultry, and egg products produced in the State. This measure ensures a high level of standards for meat and poultry to protect the public health and safety of Hawaii's people.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2174 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (DeCoite).
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

SCRep. 2620 Agriculture and Environment on S.B. No. 3302

The purpose and intent of this measure is to establish a refundable income tax credit that alleviates the high costs of production for certain farmers, ranchers, and fishers of the State.

Your Committee received testimony in support of this measure from the Department of Agriculture, Hawai'i Alliance for Progressive Action, Hawai'i Farm Bureau, Hawai'i Farmers Union United, Malama Kauai, Women Organizing for Change in Agriculture and Natural Resource Management, Beyond Organic Consulting Inc., Kanalani Ohana Farm, and forty-six individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the State has a goal to double local food production for local consumption by 2030. Your Committee recognizes that the agriculture industry is struggling with high input and land costs, increasing inflation, supply chain disruptions, climate change, natural disasters, and loss of markets due to reduced tourism. Your Committee further finds that providing tax relief to farmers, ranchers, and fishers to reduce the high production cost of local food products will help the State in achieving its food security and sustainability goals.

Your Committee has amended this measure by:

- (1) Making the income tax credit nonrefundable for all eligible farmers, ranchers, and fishers;
- (2) Inserting a definition of "qualified expenses"; and
- (3) Making the income tax credit applicable to taxable years beginning after December 31, 2024.

As affirmed by the record of votes of the members of your Committee on Agriculture and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3302, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3302, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2621 (Joint/Majority) Health and Human Services and Judiciary on S.B. No. 3335

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Cannabis Authority and Cannabis Control Board within the Department of Commerce and Consumer Affairs to regulate all aspects of the cannabis plant;
- (2) Beginning January 1, 2026, legalize the personal adult use of cannabis;
- (3) Establish taxes for adult-use cannabis sales;
- (4) Transfer the personnel and assets of the Department of Health and assets of the Department of Agriculture pertaining to cannabis to the Hawaii Cannabis Authority; and
- (5) Appropriate funds.

Prior to the hearing on this measure, your Committees posted and made available for public view a proposed S.D. 1 of this measure, which retained the contents of this measure and also:

- (1) Establishes the Cannabis Control Implementation Advisory Committee;
- (2) Modifies the various special funds into which tax revenues shall be deposited;
- (3) Increases the number of members on the Cannabis Control Board and modifies the reporting requirements of the Executive Director;
- (4) Requires records relating to the arrest, criminal charge, or conviction of a person for certain acts decriminalized by this measure, including the possession of distribution of marijuana, to be ordered expunged;
- (5) Establishes that it shall be unlawful to operate any vehicle with a THC concentration of ten or more nanograms per milliliter of blood; and
- (6) Adjusts the appropriations in the measure for the respective special funds and the establishment of certain positions within various departments and agencies.

Your Committees received testimony in support of this measure or the proposed S.D. 1 from the Department of Health Office of Medical Cannabis Control and Regulation; Office of the Public Defender; one member of the Kaua'i County Council; Hawaii Cannabis Industry Association; Green Aloha Ltd.; Chamber of Sustainable Commerce; Big Island Grown; Cultivation Sector Consulting, LLC; Noa Botanicals, LLC; Patients Without Time; Techmana LLC; Hawaiian Ethos LLC; and forty-five individuals.

Your Committees received testimony in opposition to this measure or the proposed S.D. 1 from the Hawaii Paroling Authority; Department of the Prosecuting Attorney of the City and County of Honolulu; Hawai'i Police Department; Kaua'i Police Department; Department of the Prosecuting Attorney of the County of Maui; Maui Police Department; Honolulu Police Department; one member of the Honolulu City Council; one member of the Kaua'i County Council; Doctors for Drug Policy Reform; Coalition for a Drug-Free Hawaii; Hawaii Substance Abuse Coalition; Pono Records; Hawaii High Intensity Drug Trafficking Area; Smart Approaches to Marijuana Hawaii; Weed and Seed Hawaii, Inc.; Retail Merchants of Hawaii; Hawaii Family Forum; Hawaii Farmers Union United; Agriplago; and over one hundred fifty individuals.

Your Committees received comments on this measure or the proposed S.D. 1 from the Department of the Attorney General; Department of Education; Department of Law Enforcement; Department of Taxation; Department of Budget and Finance; Department of Commerce and Consumer Affairs; Department of Health; Department of Agriculture; Hawaii Children's Action Network Speaks!; Tax Foundation of Hawaii; Akamai Cannabis Consulting; Healthcare Association of Hawaii; American Cancer Society Cancer Action Network; Law Enforcement Action Partnership; Cannabis Society of Hawai'i; ACLU of Hawai'i; Hawaii Credit Union League; Democratic Party of Hawai'i; Hawaii Applesseed Center for Law and Economic Justice; Hawai'i Public Health Institute; Last Prisoner Project; Marijuana Policy Project; Reimagining Public Safety in Hawai'i Coalition; Drug Policy Forum of Hawai'i; Council for Native Hawaiian Advancement; Oahu Cannabis Farms Alliance; Blue Skies Unlimited, LLC; and six individuals.

Your Committees find that cannabis, also known as marijuana, is a plant with psychoactive properties derived primarily from its main psychoactive component tetrahydrocannabinol (THC). In the United States, cannabis has three primary categories: cannabis for medical use; cannabis for non-medical adult use; and hemp that contains low levels of THC. Presently, non-hemp cannabis is an illegal drug and is classified by the federal government as a schedule I controlled substance under the Uniform Controlled Substances Act. Presently, the State regulates medical cannabis usage, including dispensaries authorized to operate in Hawaii. Additionally, the State has decriminalized the possession of small amounts of non-medical cannabis. However, recreational adult-use cannabis remains illegal.

Your Committees also find that twenty-four other jurisdictions across the United States have enacted laws to regulate the sale and adult use of recreational cannabis. Additionally, other jurisdictions have transitioned to utilizing one regulatory agency for both medical and recreational use, to create regulatory consistency across products; clear oversight of consumable products for both consumer safety and youth access; avoid regulatory gaps; clarify communication for stakeholders; and streamline government operations.

Your Committees further find that regulatory inaction may increase consumer confusion, which can jeopardize public health and safety incidents and blur the lines between illicit markets and approved products. To properly regulate cannabis and its derivative products, uniform regulations for the entire cannabis plant are necessary to promote public health and safety. Therefore, establishing a singular entity tasked with the regulation of cannabis in all forms and for all uses will streamline government operations and policy formulation and eliminate regulatory gaps.

Accordingly, this measure establishes a framework to centralize cannabis under a single regulatory authority while legalizing the recreational adult use of cannabis statewide, under certain conditions.

Your Committees note the extensive testimony in opposition to this measure. As the federal Food and Drug Administration is considering rescheduling cannabis to a lower classification, the Legislature is taking a proactive approach to establish a framework for policy relating to cannabis if and when federal regulations are reduced. Additionally, your Committees also note the concerns raised by hemp farmers regarding existing hemp products and its regulatory framework. This measure will retain the regulatory framework in existing law for hemp farmers, consistent with the Central Intelligence Agency. Should this measure be enacted, hemp products will continue to be taxed under the general excise tax, rather than the cannabis tax proposed in this measure.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting language that clarifies the selection process for the Chairperson and Vice-Chairperson of the Cannabis Control Board;
- (2) Clarifying that, in the event of a tie in the election of the Chairperson or Vice-Chairperson of the Cannabis Control Board, the Governor shall be the tie-breaking vote;
- (3) Deleting language that would have legally expunged the record of an individual who distributed cannabis before January 1, 2026;
- (4) Clarifying that a taxpayer, rather than a cannabis retailer, shall obtain a separate cannabis tax permit for each place of business owned, controlled, or operated by the taxpayer;
- (5) Authorizing the Director of Taxation to revoke or cancel a cannabis permit issued for cause;
- (6) Deleting certain requirements relating to cannabis tax permits for the retail sale of cannabis or sale of medical cannabis that would impede the tax collection process;
- (7) Deleting language that would have imposed a general excise tax of ten percent on the retail sale of cannabis and, beginning January 1, 2026, establishing a new cannabis tax of fourteen percent to apply in lieu of the general excise tax;
- (8) Clarifying that the new cannabis tax of four percent, rather than the standard general excise tax, shall apply to medical cannabis sales;
- (9) Deleting language that would have allowed for a refund or credit for casualty losses;
- (10) Inserting language exempting the gross income from the retail sale of cannabis or sale of medical cannabis from the general excise tax;
- (11) Inserting language to require taxpayers to file an annual cannabis tax reconciliation return;
- (12) Inserting language to require taxpayers to file cannabis tax returns electronically;
- (13) Clarifying the requirements for the submission of monthly returns for all sales of cannabis by persons subject to the cannabis tax law;
- (14) Clarifying language to delete references to income tax provisions that require taxpayers to file an annual reconciliation return;
- (15) Clarifying the allocation for the disposition of cannabis tax revenues to be:
 - (A) Fifty percent of the tax collected shall be deposited into the Cannabis Regulation, Nuisance Abatement, and Law Enforcement Special Fund; and
 - (B) Fifty percent of the tax collected shall be deposited into the Cannabis Social Equity, Public Health and Education, and Public Safety Special Fund;
- (16) Clarifying that all persons subject to the cannabis tax shall follow certain recordkeeping requirements;
- (17) Clarifying that inspection requirements shall apply to all persons subject to cannabis tax law requirements, rather than general excise tax law requirements;
- (18) Deleting language that would have authorized the Department of Taxation to suspend, revoke, and deny renewals of cannabis tax permits;
- (19) Inserting language that establishes fifteen full-time equivalent (15.0 FTE) positions within the Hawaii Cannabis Authority;
- (20) Amending the positions established for the Department of Taxation to include:
 - (A) Two full-time equivalent (2.0 FTE) auditor positions;
 - (B) One full-time equivalent (1.0 FTE) cashier position;
 - (C) Three full-time equivalent (3.0 FTE) special enforcement section investigator positions;
 - (D) Two full-time equivalent (2.0 FTE) tax information technician positions; and
 - (E) Two full-time equivalent (2.0 FTE) tax law change specialist positions;
- (21) Inserting an appropriation amount of \$1,190,000, rather than \$750,000, to the Department of Taxation for:
 - (A) The establishment of the ten full-time equivalent (10.0 FTE) positions within the Department;

- (B) Project management services; and
- (C) Costs for building and security improvements;
- (22) Making the tax provisions of this measure effective January 1, 2026;
- (23) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (24) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3335, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3335, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Health and Human Services: Ayes, 5; Ayes with Reservations (Aquino, Shimabukuro). Noes, none. Excused, none.

Judiciary: Ayes, 3. Noes, 1 (Elefante). Excused, 1 (Gabbard).

SCRep. 2622 Government Operations on S.B. No. 3094

The purpose and intent of this measure is to:

- (1) Establish a working group to create a statewide framework for peer support specialists; and
- (2) Appropriate funds for the establishment of the peer support specialist working group, including for the Office of Wellness and Resilience to contract with an administrative facilitator to provide the working group with necessary support.

Your Committee received testimony in support of this measure from the Department of Corrections and Rehabilitation, Department of Health, State Council on Developmental Disabilities, The Judiciary, Office of Wellness and Resilience, Hawai'i Children's Action Network Speaks!, Commit to Keiki, Hawaii Substance Abuse Coalition, National Alliance on Mental Illness Hawaii, and Early Childhood Action Strategy.

Your Committee finds that peer support specialists assist patients with rebuilding a sense of control and empowerment by utilizing strengths-based approaches that emphasize physical, psychological, and emotional safety. Your Committee further finds that the federal Centers for Medicare and Medicaid Services recognize that the experiences of peer support specialists, can be an important component in the delivery of effective mental and behavioral health treatment. Additionally, the federal Substance Abuse and Mental Health Services Administration identifies peer support as one of the six guiding principles of trauma-informed care. Your Committee also finds that peer support specialists provide benefits to a variety of individuals, including those who are experiencing homelessness, involved in the child welfare system, and survivors of disasters. The recommendations from the working group established pursuant to this measure will allow the State to make an informed decision on establishing a framework for peer support specialists in the State.

Your Committee has amended this measure by:

- (1) Clarifying that the chairperson may invite as members of the working group, two caregivers with lived experience as the caregiver of a child or youth in behavioral health, child welfare, or the juvenile justice systems;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that this measure, as amended, does not include in the working group, a member from the Department of Corrections and Rehabilitation. Your Committee finds that the inclusion of the Director of Corrections and Rehabilitation in the working group merits further consideration and respectfully requests further examination by subsequent committees to which this measure is referred.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3094, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3094, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 2623 (Majority) Commerce and Consumer Protection on S.B. No. 2109

The purpose and intent of this measure is to exempt from the offense of unlawful shipment of tobacco products the shipments of large cigars and pipe tobacco sold to a consumer in the State through the Internet under certain circumstances.

Your Committee received testimony in support of this measure from the Cigar Association of America, Inc.; Retail Merchants of Hawaii; and thirteen individuals.

Your Committee received testimony in opposition to this measure from the Department of Health, one member of the Hawai'i County Council, American Cancer Society Cancer Action Network, Hawai'i Public Health Institute, The Friends of Kamalani and Lydgate Park, and three individuals.

Your Committee finds that for many adults that enjoy consuming large cigars and pipe tobacco, the inability to order these products directly from online sellers is an inconvenience and costly constraint, due to the stark difference between online and retail sales prices. Your Committee further finds that the lack of an exemption for large cigars, which includes high-quality, hand-rolled premium cigars, has also led many consumers to purchase these products illegally, resulting in the establishment of a black market and a reduction in

taxes collected by the State. This measure will provide a much-needed exemption from the offense of unlawful shipment of tobacco products for certain large cigars and pipe tobacco products sold through the Internet for the benefit of consumers across the State.

Your Committee has amended this measure by:

- (1) Inserting a definition for the term “pipe tobacco”;
- (2) Limiting the exemption from the offense of unlawful shipment of tobacco products for large cigars and pipe tobacco to sales that occur on or before June 30, 2025;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2109, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Richards). Noes, 2 (Fukunaga, McKelvey). Excused, none.

SCRep. 2624 (Joint/Majority) Commerce and Consumer Protection and Agriculture and Environment on S.B. No. 2120

The purpose and intent of this measure is to, beginning January 1, 2025, to:

- (1) Establish provisions relating to retail pet sales; and
- (2) Authorize retail pet stores to showcase pet animals owned by a nonprofit animal welfare organization.

Your Committees received testimony in support of this measure from The Humane Society of the United States; Hawaiian Humane Society; Kaua‘i Humane Society; Animal Welfare Institute; Animal Interfaith Alliance; and sixteen individuals.

Your Committees received testimony in opposition to this measure from The Pet Depot LLC; Pacific Pet Alliance; Koolau Pets, Inc.; and twenty-one individuals.

Your Committees received comments on this measure from the American Kennel Club.

Your Committees find that despite the high popularity of pets in the State, there are few regulations of retail pet businesses, placing consumers at risk of purchasing sick pets, including pets that may carry diseases that are transmissible to people and other pets. Your Committees further find that the lack of regulation allows retail pet businesses to acquire animals from large-scale commercial breeders, which may not provide sanitary or humane living conditions for their animals. Therefore, this measure requires retail pet stores to maintain certain source and medical information relating to the animals that they sell, which will improve the health and safety of both pets and pet owners in the State.

Your Committees have amended this measure by:

- (1) Deleting language that would have required a retail pet store to retain physical copies of shipment records and invoices for pet animals purchased from a foreign breeder or broker, and certain licenses and photo identification cards of breeders and brokers;
- (2) Allowing, rather than requiring, retail pet stores to provide certain records pertinent to a pet animal to a prospective purchaser before any sale is finalized;
- (3) Deleting language that would have required a retail pet store to submit records annually to the county’s animal control services agency or contractor;
- (4) Deleting language that would have made each pet animal sold or offered for sale in violation of this measure a separate violation;
- (5) Deleting language that would have required all fines collected upon a violation to be paid into the treasury of the county where the violation occurred;
- (6) Deleting language that would have prohibited new retail pet stores that were not in operation before January 1, 2025, from selling or offering for sale any pet animal;
- (7) Amending section 1 to reflect its amended purpose;
- (8) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2120, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2120, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 3. Noes, 1 (Awa). Excused, 1 (McKelvey).

Agriculture and Environment: Ayes, 3. Noes, 1 (Awa). Excused, 1 (DeCoite).

SCRep. 2625 Commerce and Consumer Protection on S.B. No. 2874

The purpose and intent of this measure is to establish a non-refundable income tax credit for residential landlords who lease a unit to a tenant with a pet for at least six months.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Hawai'i State Coalition Against Domestic Violence, Kaua'i Humane Society, and eighteen individuals.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that the companionship of a pet is a joy and privilege for many residents in the State. Research has shown that human-animal companionship can lead to a reduction in stress, anxiety, depression, and loneliness for pet owners. However, your Committee finds that for many, especially low-income families and houseless persons, the lack of available pet-friendly housing has been a significant challenge. Therefore, this measure will provide an income tax credit to incentivize landlords to provide pet-friendly housing, improving the lives and futures of both pets and pet families.

Notwithstanding, your Committee notes the testimony of the Department of Taxation, and finds that amendments to this measure are necessary to address the Department's concerns.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that in the case of a partnership, S Corporation, estate, or trust, the tax credit shall be determined at the entity level;
- (2) Clarifying that only one qualified taxpayer may claim the tenant pet income tax credit per unit rented;
- (3) Changing this measure to apply to taxable years beginning after December 31, 2024;
- (4) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2874, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2874, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2626 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.B. No. 3234

The purpose and intent of this measure is to:

- (1) Amend the laws relating to the Hawaii Hurricane Relief Fund and Hawaii Property Insurance Association;
- (2) Expand the Hawaii Property Insurance Association's authority to include the issuance of property insurance other than fire insurance for certain real properties organized as a condominium;
- (3) Reinstate the special mortgage recording fee;
- (4) Explicitly authorize the Hawaii Property Insurance Association to issue property insurance policies to certain condominiums outside of areas designated for coverage by the Hawaii Property Insurance Association;
- (5) Mandate that the Hawaii Property Insurance Association member insurers recoup assessment costs; and
- (6) Amend specific coverage limits, fund capitalization amounts, and assessment percentages by deleting specified dollar amount percentages and authorize the Hawaii Hurricane Relief Fund and the Hawaii Property Insurance Association boards to recommend appropriate amounts and percentages to the Insurance Commissioner.

Your Committees received testimony in support of this measure from the Hawaii Green Infrastructure Authority, Hawaii Insurers Council, Hawaii Bankers Association, Palehua Townhouse Association, Hawaii First Realty LLC, and one individual.

Your Committees received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs.

Your Committees find that the availability of both condominium building master insurance policies and unit owner insurance policy options within the condominium insurance marketplace has been shrinking, leaving many associations faced with the difficult choice of either paying drastically higher premiums or allowing their condominium buildings to be under-insured. Your Committees further find that temporary government assistance is necessary to help stabilize the property insurance market until market conditions improve and risks become more insurable, as condominiums replace or maintain building components such as aging water pipe systems, and implement equipment and processes to mitigate against fire, wildfire, and hurricane events. Therefore, this measure enables the Hawaii Property Insurance Association and the Hawaii Hurricane Relief Fund to underwrite certain insurance risks in the State that no standard insurer is willing to underwrite.

Your Committees have amended this measure by:

- (1) Clarifying that each property and casualty insurer shall annually recoup assessments paid by the property and casualty insurer under sections 431P-5(b)(8)(A) and (B), and 431P-16(e), Hawaii Revised Statutes (HRS);
- (2) Restoring language in existing law regarding the Hawaii Hurricane Relief Fund's powers to assess insurers following a loss from a covered event known as the second assessment, including language that:

- (A) Allows the Fund to increase the rate of assessment to an amount not to exceed five per cent, and to include the insurer's gross direct written premiums for motor vehicle insurance in this State;
- (B) Requires the Fund to assess insurers that acted as servicing facilities during the twelve months ending at the start of the month preceding the month in which the covered event occurs at a rate of 1.5 percent of the total coverage provided by the Fund under its hurricane property insurance policies;
- (C) Sets forth how the second assessment is administered; and
- (D) Allows certain net accumulated moneys, commitments, and bonds to be used if losses from a covered event exceed the assessment pursuant to section 431P-5(b)(8)(B), HRS, rather than 431P-5(b)(8)(A), HRS; and
- (3) Deleting language that would have placed a cap on the surcharge levied by the Hawaii Hurricane Relief Fund at two percent, and restoring language in existing law that places a cap of seven and one-half percent a year;
- (4) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3234, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3234, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (Fukunaga). Noes, none. Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4; Ayes with Reservations (Fukunaga). Noes, none. Excused, 1 (Fevella).

SCRep. 2627 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2364

The purpose and intent of this measure is to establish a Plant-Based Building Materials Working Group to study how best to grow plants for the development of plant-based building materials in Hawaii and provide green agricultural jobs while sequestering carbon and other greenhouse gases to help achieve the State's climate target.

Your Committees received testimony in support of this measure from the Department of Agriculture, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawai'i Forest Industry Association, Hawai'i Reef and Ocean Coalition, Citizens' Climate Lobby Hawaii, Building Decarbonization Task Force of the Hawai'i Environmental Change Agents, Hawai'i Farm Bureau, and nine individuals.

Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that Hawaii's tropical climate, with a year-round growing season and ample rain in many windward areas, offers the potential for growing plant-based materials that can, in turn, be processed into and sold as structural building materials. Your Committees further find that the production of plant-based materials could increase green agricultural jobs statewide, while concurrently helping the State meet its ambitious decarbonization goals. Therefore, this measure establishes the Plant-Based Building Materials Working Group to conduct a study and report on the best practices and implementation strategies for plant-based building material production in the State.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2364 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).

SCRep. 2628 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2936

The purpose and intent of this measure is to appropriate \$5,000,000 to the Department of Agriculture for the planning and construction of a new inspection, quarantine, and incineration facility on the island of Maui.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that in the wake of the August 2023 Maui wildfires, rebuilding the community of Lahaina will require the remediation and replacement of tons of topsoil that was contaminated by toxic ash. Your Committees further find that the sheer amount of replacement plant material necessary to facilitate the community rebuild will be immense, and immediately requires additional resources and facilities to handle all the incoming materials, goods, and equipment. Therefore, this measure appropriates \$5,000,000 to the Department of Agriculture for the planning and construction of a new inspection, quarantine, and incineration facility on the island of Maui, to support and expedite the rebuilding efforts.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2936 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).

SCRep. 2629 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2079

The purpose and intent of this measure is to allow the State of Hawaii Plant and Animal Declaration Form to be distributed, completed, and transmitted electronically.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that many plants and animals from elsewhere in the world can be harmful to Hawaii's unique environment, agriculture, and communities. To help prevent harmful pests from being brought into the State, a Hawaii Plant and Animal Declaration Form is required to be distributed to and collected from individuals, passengers, and crew of any flight or cruise prior to the debarkation of passengers and baggage. Your Committees further find that the existing law, as written, is ambiguous as to whether electronic forms can be used for the purposes of transmitting the Hawaii Plant and Animal Declaration Form. Therefore, this measure amends the law to clarify that the Hawaii Plant and Animal Declaration Form may be distributed, completed, and transmitted electronically.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2079 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).

SCRep. 2630 Health and Human Services on S.B. No. 3011

The purpose and intent of this measure is to:

- (1) Make it unlawful for any non-government entity or agent thereof to operate a weed whacker in or within one hundred feet of a residential zone, except between 8:00 a.m. and 6:00 p.m. on most days; and
- (2) Define weed whacker.

Your Committee received testimony in support of this measure from five individuals.

Your Committee received comments on this measure from the Department of Health and two individuals.

Your Committee finds that the sound from weed whackers poses a public health concern for the State. As the loud noises from weed whackers may disrupt the peace in residential neighborhoods, restricting the usage of weed whackers to certain times of day may alleviate sound nuisances and the negative health consequences that can result therefrom. Therefore, this measure limits the hours of permissible weed whacker usage to address public health concerns in Hawaii's neighborhoods.

Your Committee has amended this measure by:

- (1) Extending the permissible time frame until 7:00 p.m., rather than 6:00 p.m.; and
- (2) Inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3011, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3011, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Keohokalole). Noes, none. Excused, 1 (Awa).

SCRep. 2631 Health and Human Services on S.B. No. 3001

The purpose and intent of this measure is to:

- (1) Appropriate funds to increase the funding for applied behavioral analysis services for persons with autism; and
- (2) Require the Department of Human Services to obtain maximum federal matching funds and pursue all other funding sources.

Your Committee received testimony in support of this measure from the Disability and Communication Access Board; BAYADA; Hawai'i Association for Behavior Analysis; Behavioral and Therapeutic Services of Hawaii; Behavior Analysis No Ka Oi, Inc.; Hawaii Disability Rights Center; Hawai'i Early Intervention Coordinating Council; Mau Loa Learning, LLC; Early Childhood Action Strategy; Horizons Academy of Maui; Maui Learning Academy; Autism Behavior Consulting Group Hawaii; and fifty-eight individuals.

Your Committee received comments on this measure from the Department of Human Services and one individual.

Your Committee finds the applied behavioral analysis (ABA) is a medically necessary service for young people with autism, which can decrease the cost of care for persons with autism over their lifetimes. Your Committee further finds that the Med-QUEST reimbursement rates for applied behavioral analysis have remained unchanged since 2015. Med-QUEST beneficiaries must compete for applied behavioral analysis services with the private sector and other government programs, often offering higher reimbursement

rates. This measure increases funding for the Department of Human Services' Med-QUEST Division to better serve children with autism and their families.

Your Committee notes the testimony of the Department of Human Services reflecting the results of its commissioned rate study for ABA services, which includes low, medium, and high rate scenarios for consideration. The low scenario would require \$6.5 million (\$2.69 million state funds and \$3.81 million federal), the medium scenario would require \$7.8 million (\$3.23 million state funds and \$4.57 million federal), and the high scenario would require \$9.4 million (\$3.9 million state and \$5.5 million federal). The Department of Human Services further requests that alternatively, any appropriation be included in the executive budget bill so that the appropriation can be recurring and the increase ongoing. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that these matters be considered further.

Your Committee has amended this measure by inserting an effective date of December 31, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3001, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3001, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2632 Government Operations on S.B. No. 2517

The purpose and intent of this measure is to:

- (1) Require that appointments of heads of agencies requiring board appointments be made through a publicly established process and timeline; and
- (2) Require that any vote by a public agency board to hire an officer or employee be conducted in an open meeting.

Your Committee received comments on this measure from the Office of Information Practices, Board of Regents of the University of Hawaii, and Public First Law Center.

Your Committee recognizes that applicants for employment retain certain privacy rights that justify the use of closed executive session under the Sunshine Law, as the Hawaii Supreme Court and Office of Information Practices have recognized. Your Committee further finds that both the Hawaii Supreme Court and Office of Information Practices have determined that the balancing test between the public interest and an individual's privacy interest under the Uniform Information Practices Act does not apply to the Sunshine Law's executive session provision, which authorizes a board to discuss certain personnel matters in closed session where matters affecting privacy are involved.

Your Committee finds, however, that in some instances, such as the hiring of the head of an agency or division, there is an elevated public interest that makes it appropriate for the Legislature to ensure a statutory minimum level of public accountability in the hiring process and the actual decision to hire. Your Committee believes that this measure will set a minimum level of accountability with respect to a certain class of top level state employees, and will not impact county hiring decisions or interfere with the rights of employees subject to collective bargaining agreements or the civil service system. This measure clarifies that a board that is hiring a head of a state agency or division must openly create a hiring process and follow that process, openly amend it when necessary, and require that the process, at a minimum, include holding a public vote on who to hire for the position without adversely impacting individual privacy rights or frustrating government efforts to recruit qualified candidates by identifying individuals being considered for a position who may not be ultimately hired.

Your Committee recognizes that the Legislature is exempt from the Sunshine Law under section 92-10, Hawaii Revised Statutes, and therefore, this measure will not apply to the Senate's use of advice and consent for appointments, even when those appointments are made by a board subject to the Sunshine Law rather than by the Governor as is usually the case.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that:
 - (A) A public agency board shall use open deliberation in an open meeting to establish a process and timeline for the appointment or selection of a new head of a division or agency of the State;
 - (B) Approval of the process and timeline to appoint or select a new head of a division or agency shall be determined in an open meeting;
 - (C) Any vote to appoint or select a head of a division or agency of the State shall be conducted in an open meeting; and
 - (D) Any appointment or selection of a head of any division or agency of the State made in violation of these requirements shall be invalid; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2517, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 2633 Government Operations on S.B. No. 2830

The purpose and intent of this measure is to amend the definitions of “board”, “board business”, and “meeting” within the state’s Sunshine Law to expand the scope of the law to include state and county policymaking groups, including groups created by emergency proclamations.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii; Society of Professional Journalists, Hawaii Chapter; and one individual.

Your Committee received comments on this measure from the Office of Information Practices, Board of Regents of the University of Hawaii, and Public First Law Center.

Your Committee finds that existing law does not make it clear whether groups created by emergency proclamation are subject to the Sunshine Law. This measure will increase access to government and opportunities for public participation by clarifying that the Sunshine Law’s application to boards created by executive order also includes those created by emergency proclamation.

Your Committee notes that the intent of this measure is not to target businesses. Rather, the information being exchanged and deliberated is of critical public importance, especially in times of disasters, and these groups hold incredible sway that will potentially impact county spending and policy.

Your Committee has amended this measure by inserting language clarifying that, as used in the state Sunshine Law, “board” includes state boards and policymaking groups established pursuant to any federal constitutional provision.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2830, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2830, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2634 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3068

The purpose and intent of this measure is to appropriate funds to support the State’s continued response to the August 2023 Maui wildfires that affected the counties of Hawaii and Maui.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, Department of Defense, Hawai’i State Public Library System, Hawaii Housing Finance and Development Corporation, Democratic Party of Hawai’i, and one member of the Maui County Council.

Your Committee finds that the devastating wildfires brought on by winds from Hurricane Dora on August 8, 2023, resulted in one of the worst natural disasters in the State’s history, causing loss of life and the displacement of thousands on Maui. Your Committee further finds that to support response and recovery efforts and address immediate 2023 wildfire funding needs, the Governor and other departments and agencies transferred millions of dollars to allow the State to address response and recovery expenses incurred thus far without cutting positions and departmental base budgets. This measure will continue the necessary activities of the state response to these wildfires by appropriating and reauthorizing funds relating to wildfire mitigation and response.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3068 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2635 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3040

The purpose and intent of this measure is to amend annual reporting requirement for the Department of the Attorney General concerning firearms concealed carry licenses.

Your Committee received testimony in support of this measure from the Department of the Attorney General and Honolulu Police Department.

Your Committee received testimony in opposition to this measure from the Hawaii Firearms Coalition, Red Letter Industries, and over sixty individuals.

Your Committee finds that current reporting and analysis of demographic information of conceal carry license applicants and licensees include age, gender, and race, which creates potential for unintended biases during the licensure process. Your Committee further finds that extending the date for county police departments to provide gun licensure data to the Department of the Attorney General and removing the deadline for the Department of the Attorney General to publish its annual report will allow for a comprehensive and accurate reporting. This measure will reduce potential bias while maintaining a report that can be utilized by policy makers, researchers, educators, and the public interested in laws regulating the ownership or use of firearms.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3040 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2636 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3042

The purpose and intent of this measure is to:

- (1) Amend the Criminal Justice Data Sharing Working Group to combine its members and functions with certain members and functions of the Gun Violence and Violent Crimes Commission to increase efficiency and effectiveness and eliminate redundancy; and
- (2) Repeal chapter 134C, Hawaii Revised Statutes, which established the Gun Violence and Violent Crimes Commission.

Your Committee received testimony in support of this measure from the Department of Law Enforcement and Department of the Attorney General.

Your Committee received testimony in opposition to this measure from Red Letter Industries, Hawaii Firearms Coalition, and fifty-two individuals.

Your Committee received comments on this measure from two individuals.

Your Committee finds that there are several working groups and commissions that focus on gun violence, violent crime, and criminal data sharing, including the Governor's Commission on Crime, Criminal Justice Data Sharing Working Group, and Gun Violence and Violent Crimes Commission. Your Committee notes that each of these groups' purposes have some overlap with one another, and the membership of these working groups and commissions all include the county prosecutors, county police chiefs, and the Attorney General. Particularly similar are the Gun Violence and Violent Crime Commission and Criminal Justice Data Sharing Working Group, which are duplicative in function and mission. Your Committee further finds this redundancy can be resolved by merging the Commission and Working Group to consolidate their efforts and streamline the vital research these groups conduct.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3042 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2637 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3349

The purpose and intent of this measure is to:

- (1) Establish the Office of Gun Violence Prevention within the Department of the Attorney General for administrative purposes only;
- (2) Repeal the Gun Violence and Violent Crimes Commission; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from Moms Demand Action for Gun Sense in America Hawai'i Chapter, Students Demand Action for Gun Sense in America Hawai'i Chapter, Everytown for Gun Safety, and twenty-three individuals.

Your Committee received testimony in opposition to this measure from the Department of the Attorney General; Tigershark, LLC; Red Letter Industries; National Rifle Association; and more than seventy-five individuals.

Your Committee received comments on this measure from the Honolulu Police Department and two individuals.

Your Committee finds that the State has some of the strongest gun safety laws in the nation and had the third lowest number of gun deaths per capita in the nation as of 2021. While this data is an achievement, your Committee finds that there is no office dedicated to gun violence prevention. Your Committee notes that the State is dedicated to protecting the safety and well-being of its residents, therefore, establishing an office to focus on gun violence prevention is necessary to achieve this goal.

Your Committee notes that the Senate Draft 1 of this measure contains an unspecified appropriation amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it considers inserting an appropriation amount of \$150,000 for fiscal year 2024-2025 for one full-time equivalent (1.0 FTE) director, one full-time equivalent (1.0 FTE) grant writer position, one full-time equivalent (1.0 FTE) analyst position, and operating costs and equipment, including equipment necessary for analyzing relevant data relating to gun violence.

Your Committee has amended this measure by:

- (1) Inserting an unspecified appropriation amount;
- (2) Inserting an effective date of January 1, 2042, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3349, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2638 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3196

The purpose and intent of this measure is to:

- (1) Amend the prohibition on certain assault weapons to include assault rifles, assault shotguns, .50 caliber rifles, and assault weapon attachments;
- (2) Modernize the prohibition on assault pistols to include pistols with one or more prohibited feature;
- (3) Expand the ban on pistols with a detachable magazine with over a ten round capacity to any firearm with a detachable magazine with over a ten round capacity;
- (4) Prohibit persons from bringing or causing to be brought into the State an assault rifle or assault shotgun;
- (5) Prohibit the sale or transfer of an assault rifle or assault shotgun in the State, unless the assault rifle or assault shotgun is sold or transferred to an authorized individual; and
- (6) Create exceptions for the acquisition and possession of prohibited firearms for members of law enforcement and the military.

Your Committee received testimony in support of this measure from two members of the Hawai'i County Council, GIFFORDS Law Center to Prevent Gun Violence, Everytown for Gun Safety, Hawai'i Chapters of Mom's Demand Action, Students Demand Action for Gun Sense in America, Everytown Veterans Advisory Council, Brady Campaign to Prevent Gun Violence, Hawai'i Coalition to Prevent Gun Violence, Hawai'i Friends of Civil Rights, Hawai'i State Coalition Against Domestic Violence, Indivisible Hawaii, Moms Demand Action for Gun Sense in America, Church of the Crossroads, and over one hundred individuals.

Your Committee received testimony in opposition to this measure from the National Rifle Association; Hawaii Firearms Coalition; Hawaii Rifle Association; Hawaii Federation of Republican Women; Pu'uloa Rifle and Pistol Club; Epowersports; Tigershark, LLC; Young Guns; S. Tokunaga Store Inc.; Mid-Pacific Pistol League; Security Equipment Corp.; Red Letter Industries; Koffin Wurks; Kona Guns and Ammo, LLC; and over one thousand eighty individuals.

Your Committee received comments on this measure from six individuals.

Your Committee finds that the State has some of the strongest gun safety laws in the nation, and in 2023 the State received an A-minus rating from the Giffords Law Center to Prevent Gun Violence. While the State had the third lowest number of gun deaths per capita in the nation in 2021, Hawaii is the only State with an assault weapons ban that fails to ban assault rifles and assault shotguns. Your Committee finds this fact is inconsistent with the State's commitment to protect the safety and well-being of its residents. Accordingly, this measure will modernize the State's assault weapon's ban to expand gun violence prevention policies.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3196 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2639 (Joint) Commerce and Consumer Protection and Transportation and Culture and the Arts on S.B. No. 2617

The purpose and intent of this measure is to:

- (1) Prohibit foreign principals from acquiring real property in the State or any interest in real property in the State, except a de minimus indirect interest;
- (2) Require a foreign principal that owns real property that was acquired before this measure's effective date to register the ownership with the Department of the Attorney General;
- (3) Require a buyer of real property to provide a signed affidavit attesting that the buyer is not a foreign principal;
- (4) Authorize the forfeiture of real property or an interest in real property that is owned or acquired unlawfully;
- (5) Establish criminal penalties for violations; and
- (6) Make an appropriation.

Your Committees received testimony in support of this measure from Ho'omana Pono, LLC; Ho'ākeolapono Trades Academy and Institute; Ultimate Burger; Hawaii Federation of Republican Women; Palolo Tenant Association; Hawaii Family Advocacy Group; Cannabis Society of Hawai'i; Hālau Kū Māna; Hui o Kuapa; and more than two thousand one hundred individuals.

Your Committees received testimony in opposition to this measure from the Department of the Attorney General; NAIOP Hawaii; Hawaii First Realty LLC; Hawai'i Association of REALTORS; Biotechnology Innovation Organization; Maukele Ranch LLC; and fifteen individuals.

Your Committees received comments on this measure from the Division of Financial Institutions of the Department of Commerce and Consumer Affairs, Department of Land and Natural Resources, Hawaii Credit Union League, Building Owners and Managers Association of Hawai'i, and eighteen individuals.

Your Committees find that homeownership helps build strong and stable communities, which is critical to local economies. However, due to the lack of affordable options, your Committees find that the State is in a housing crisis, and that competition from affluent foreign principals has denied many Hawaii residents from realizing the benefits of homeownership. Therefore, this measure, in its current form, would prohibit foreign principals from acquiring real property in the State or any interest in real property in the State, except a de minimus indirect interest.

Notwithstanding, your Committees acknowledge the concerns raised by testifiers that the legally and socially complicated framework proposed in this measure deserves further consideration and study. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting language to direct the Legislative Reference Bureau to conduct a study and report on the forty-one other states that have enacted laws limiting the sale of property to foreign individuals or entities, and how those laws and related constitutional precedents could inform demand-side regulations for the real estate market in Hawaii in favor of resident ownership, specifically owner-occupied resident ownership;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Transportation and Culture and the Arts that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2617, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2617, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, none. Excused, 1 (Richards).

Transportation and Culture and the Arts: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2640 (Majority) Transportation and Culture and the Arts on S.B. No. 2037

The purpose and intent of this measure is to:

- (1) Designate the day of the second new moon after the winter solstice of every year as the Lunar New Year; and
- (2) Establish the Lunar New Year as a state holiday.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO and one individual.

Your Committee received comments on this measure from the Department of Budget and Finance, Office of Collective Bargaining, and City and County of Honolulu Department of Human Resources.

Your Committee finds that the Lunar New Year provides a time to renew one's family ties; reflect upon the past year; and wish for good fortune, health, and prosperity in the year ahead. As Lunar New Year is joyously observed by numerous residents in the State, your Committee believes that the State should recognize the cultural and historical significance of this holiday. By establishing the Lunar New Year as a state holiday in Hawaii, the State can honor its rich cultural history, demonstrate its commitment to cultural diversity, and extend its best wishes for peace and prosperity to all who celebrate this important occasion.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes that there was testimony regarding collective bargaining issues that may arise from the addition of an official state holiday.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2037, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2037, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4; Ayes with Reservations (Inouye). Noes, 1 (Awa). Excused, none.

SCRep. 2641 (Joint) Transportation and Culture and the Arts and Labor and Technology on S.B. No. 2894

The purpose and intent of this measure is to require the Department of Transportation to establish a State Employee Commuter Benefits Program that provides free or subsidized public transit to state employees.

Your Committees received testimony in support of this measure from the Department of Transportation, Hawai'i Climate Change Mitigation and Adaptation Commission, Hawai'i State Energy Office, one member of the Kaua'i County Council, Oahu Metropolitan Planning Organization, Ulupono Initiative, Hawai'i Appleseed Center for Law and Economic Justice, and four individuals.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that emissions from private vehicles account for twenty-eight percent of all greenhouse gas emissions in the country. Your Committees further find that the State has a responsibility to lead in the decarbonization transition and should encourage the utilization of public transportation that encourages fuel efficiency per passenger mile and contributes to an overall decrease in the necessary amount of energy for transportation. This measure will help commuters save money on fuel, insurance, parking, and vehicle maintenance costs, while also reducing the traffic and air pollution by encouraging commuters to take public transit. However, rather than establishing a new program, your Committees note that further developing an existing employee commuter benefits program would streamline processes and make it easier for employees to apply for the benefits provided under the existing program.

Your Committees have amended this measure by:

- (1) Deleting its contents and inserting language requiring the Department of Human Resources Development to include bikeshare and other micro-mobility devices within the Pre-tax Transportation Benefit Pilot Program's commuter benefits;
- (2) Adding the definition of "micro-mobility device"; and
- (3) Amending section 1 to reflect its amended purpose.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2894, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2894, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 2642 (Joint) Transportation and Culture and the Arts and Labor and Technology on S.B. No. 2943

The purpose and intent of this measure is to:

- (1) Establish a working group within the Department of Transportation to address the workforce shortage of commercial drivers license drivers in the State; and
- (2) Require a report to the Legislature.

Your Committees received testimony in support of this measure from the Hawaii Food Industry Association and Hawaii Logistic Services.

Your Committees received comments on this measure from the Department of Education.

Your Committees find that commercial drivers license (CDL) holders play a pivotal role in moving shipments from docks and airports to shelves, as storage space is limited within the State. However, Hawaii grapples with a shortage of CDL drivers, a challenge mirrored on the continental United States. Your Committees further find that this scarcity in the number of CDL drivers directly impacts the State's education system, where over two hundred additional CDL drivers are required to fully cover school bus routes statewide, causing some students to ride public transit. Due to the critical role that CDL drivers play in the State's infrastructure, this measure will establish a working group to address the scarcity and availability of CDL drivers.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2943, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2943, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 3. Noes, none. Excused, 2 (Inouye, Awa).

Labor and Technology: Ayes, 5. Noes, none. Excused, none.

SCRep. 2643 Water and Land on S.B. No. 3167

The purpose and intent of this measure is to authorize the Governor to execute a compact on behalf of the State to cooperate in the Pacific States Marine Fisheries Commission.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources.

Your Committee received testimony in opposition to this measure from Big Island Reef Keepers Hui and three individuals.

Your Committee finds that the Pacific States Marine Fisheries Commission is an interstate compact agency that helps state resource management agencies and the fishing industry sustainably manage Pacific Ocean resources. The Pacific State Marine Fisheries Commission's mission "to promote the better utilization of fisheries—marine, shell, and anadromous, which are of mutual concern, and to develop a joint program of protection and prevention of physical waste of such fisheries in all of those areas of the Pacific Ocean over which the compacting states jointly or separately now have or may hereafter acquire jurisdiction" closely aligns with the mission of the Department of Land and Natural Resources to manage, conserve, and restore the State's unique aquatic resources and ecosystems for present and future generations. This measure will allow the State to be a valuable contributor toward the mutual goal of better managing Pacific Ocean fishery resources.

Your Committee has amended this measure by:

- (1) Requiring that at least one commissioner appointed to the Pacific State Marine Fisheries Commission have knowledge of Native Hawaiian cultural and fishing practices and shall serve as a representative of the Native Hawaiian fishing community;
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (3) Making a technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3167, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3167, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2644 (Joint) Water and Land and Commerce and Consumer Protection on S.B. No. 3258

The purpose and intent of this measure is to require the Department of Land and Natural Resources (Department) to:

- (1) Consider certain insurance coverage in conducting safety inspections relating to dam and reservoir safety;
- (2) Relax any restrictions and stringent standards on a dam or appurtenance upon verification of certain insurance coverage;
- (3) Assume that a dam, reservoir, or appurtenance is safe absent certain documents;
- (4) Place the burden of proof on the Department to find that a dam, reservoir, or appurtenance is high-risk; and
- (5) Establish additional requirements for the Department and Board of Land and Natural Resources regarding the Dam and Appurtenance Improvement or Removal Grant Program.

Your Committees received testimony in support of this measure from the Hawai'i Farm Bureau.

Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and Association of State Dam Safety Officials.

Your Committees find that while dam and reservoir safety rules represent an important public safety initiative, the rules codified in chapter 179, Hawaii Revised Statutes, are stringent and reduce water storage capacity across the State. Dams and reservoirs are critical to the State's goal of food security as they help to recharge groundwater aquifers and are foundational to sustainable agricultural systems. Stringent regulations discourage dam and reservoir owners from the construction and maintenance of this critical infrastructure, which in turn burdens farmers who rely on these dams and reservoirs. This measure helps to relieve the burden on dam and reservoir owners and farmers by relaxing current rules on dam and reservoir safety.

Your Committees acknowledge the concerns raised by the Department that the purchase of an insurance policy should not be considered in the risk assessment of a dam or reservoir, nor should it be used as a criteria to relax dam and reservoir safety requirements. Furthermore, the Department comments that this measure may encourage owners of dams and reservoirs to purchase insurance policies in lieu of complying with safety standards, potentially harming public health and safety.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have required the Department to consider certain insurance coverage in conducting safety inspections relating to dam and reservoir safety;
- (2) Deleting language that would have placed the burden of proof on the Department to establish that a dam, reservoir, or appurtenance is high-risk;
- (3) Deleting language that would have required the Department to assume that any dam, reservoir, or appurtenance is safe in the absence of certain documents;
- (4) Deleting language that would have required the Department to relax any restrictions and stringent standards on a dam, reservoir, or appurtenance; provided that the owner possessed valid insurance coverage;
- (5) Deleting language that would have required the Board of Land and Natural Resources to consider any existing insurance policy in its assessment of risks associated with a dam;
- (6) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3258, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3258, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).
Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

SCRep. 2645 (Joint/Majority) Water and Land and Commerce and Consumer Protection on S.B. No. 3326

The purpose and intent of this measure is to:

- (1) Define property owner obligations, which, in limited circumstances will authorize Hawaii's utility companies to either trim or remove hazardous vegetation away from transmission utility lines, distribution utility lines, and service drops, even if the hazardous vegetation is located outside an established easement;
- (2) Provide a recovery mechanism to recoup the additional vegetation management costs; and
- (3) Limit liability against Hawaii's utility companies who perform, or who choose not to perform, vegetation management as authorized under this measure.

Your Committees received testimony in support of this measure from Hawaiian Electric and one individual.

Your Committees received testimony in opposition to this measure from the Department of Land and Natural Resources and one individual.

Your Committees received comments on this measure from the Department of Commerce and Consumer Affairs, Public Utilities Commission, and one individual.

Your Committees find that on August 8, 2023, catastrophic wildfires swept through various communities on Maui, impacting human life, housing, education, the economy, the environment, and the health of Maui residents. Your Committees further find that a significant issue regarding fire safety is the presence of grasses, trees, and other vegetation adjacent to or under electric utility lines. Utility companies in Hawaii have miles of utility lines installed throughout the State on private lands, either within or outside established utility easements on public lands, which are often located in the public right of way and mountainous areas of the State. This measure establishes a vegetation management program for utility lines within public rights of way and on all public and private lands to mitigate risks of wildfires.

Your Committees acknowledge concerns raised by the Public Utilities Commission in their testimony that:

- (1) It may not be in the public interest to allow an electric utility company to enter public or private property to remove hazardous vegetation; and
- (2) Utility companies must be held accountable for their actions and decision-making and should not be fully shielded from liability for certain damages to other vegetation and property caused during the utility's removal of hazardous vegetation.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have allowed any utility company to enter private or public property without notice to remove hazardous vegetation;
- (2) Specifying that utility companies shall give forty-eight hours' notice to private and public landowners that hazardous vegetation must be trimmed or removed as soon as feasibly possible;
- (3) Specifying that after trimming or removing the hazardous vegetation, the utility company shall notify the private or public property owner within two days of having taken action rather than fourteen days;
- (4) Specifying that utility companies shall notify private or public property owners by phone or email or if both are unobtainable, by certified mail;
- (5) Inserting language that requires utility companies to report to the Public Utilities Commission on all notices issued to private or public property owners on a schedule determined by the Public Utilities Commission;
- (6) Deleting language that would have granted immunity from liability to any utility company that damaged other vegetation or property while trimming or removing hazardous vegetation on a private or public property owner's land;
- (7) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3326, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3326, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2646 Transportation and Culture and the Arts on S.B. No. 1119

The purpose and intent of this measure is to:

- (1) Specify that 0.5 per cent, rather than one per cent, of state fund appropriations for capital improvements shall be transferred into the Works of Art Special Fund; and
- (2) Limit the 0.5 per cent amount to appropriations designated for the construction of new state buildings, properties, or facilities.

Prior to the hearing on this measure your Committee posted and made available for public review a proposed S.D. 1, which deletes the contents of the measure and inserts language to appropriate funds for the purpose of engaging the community and developing plans for a potential future memorial, monument, or other appropriate means to properly honor and respectfully recognize the memory of those who lost their lives or were impacted by the August 2023 Maui wildfires.

Your Committee received testimony in support of the proposed S.D. 1 from the Hawai'i State Foundation on Culture and the Arts and two individuals.

Your Committee finds that an art installation is an effective method to memorialize significant moments and events in time. Monuments like the Holocaust Memorial, Tomb of the Unknown Soldier, and Vietnam Veterans Memorial all recognize and commemorate the significant losses of life in the past. Your Committee recognizes the need to properly honor and respectfully recognize the memory of those who lost their lives or were impacted by the August 2023 Maui wildfires. Accordingly, this measure will provide funds for a potential place where residents can remember and grieve as a community.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1119, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2647 Transportation and Culture and the Arts on S.B. No. 2710

The purpose and intent of this measure is to establish the Hawaii Leadership Awards Program to honor individuals who have made considerable and outstanding contributions to Hawaii and serve as inspirations to others.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; Hawai'i State Foundation on Culture and the Arts; and one individual.

Your Committee finds that the Aloha Order of Merit was established to recognize individuals who have made significant contributions and achieved national or international recognition in a field either by a single event or by the totality of work that has either been pioneering in that field or that has been outstanding in the long term. Your Committee further finds that while the Aloha Order of Merit honors individuals who have made national and international contributions and achieved recognition, there should be a similar program to honor individuals who have made their mark on Hawaii. This measure will honor exceptional and notable individuals specifically for their contributions to Hawaii.

Your Committee has amended this measure by:

- (1) Adding language authorizing designees of the selection committee to present the annual awards;
- (2) Adding language that would establish an archive to commemorate these awards to be housed within the State Archives; and
- (3) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2710, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2710, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2648 (Majority) Transportation and Culture and the Arts on S.B. No. 2742

The purpose and intent of this measure is to appropriate funds to establish the greener highway corridors pilot project to improve the H-1 freeway corridor with greenery.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawai'i Climate Change Mitigation and Adaptation Commission, Trees for Honolulu's Future, and two individuals.

Your Committee finds that urban temperatures are expected to rise significantly, particularly due to the loss of shade and increase in concrete in urban areas. Increased urban temperatures can potentially lead to heat exhaustion and death, especially among vulnerable members of the community. Your Committee further finds that the difference in temperatures on an urban street having trees and cooling strategies versus one not having trees and cooling strategies can be as much as fifteen to twenty degrees on a hot day. This measure will mitigate the effects of rising temperatures and will ultimately reduce potential future financial burden due to climate change. Your Committee recognizes that the unique challenges posed by each freeway in the State means that one pilot project is necessary.

Your Committee has amended this measure by:

- (1) Inserting language in the pilot project on Interstate H-1 to include green programming in limited spaces;
- (2) Adding language to establish a pilot project to implement reforestation programming on Interstate H-2;
- (3) Adding language to establish a pilot project to implement green programming on Interstate H-201;
- (4) Adding language to establish a working group to develop projects and define best practices to achieve temperature reduction, carbon capture, and habitat restoration; and improve mental health and beautification of commuter corridors; and minimize maintenance of those projects and practices over time;
- (5) Deleting the appropriation;
- (6) Amending section 1 to reflect its amended purpose; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2742, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2742, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2649 Transportation and Culture and the Arts on S.B. No. 3281

The purpose and intent of this measure is to:

- (1) Require that the State of Hawaii Museum of Natural and Cultural History and the State of Hawaii Museum of Monarchy History boards of directors include two ex officio, voting members, to be selected from certain state agencies;
- (2) Require the State of Hawaii Museum of Natural and Cultural History to submit an annual report to the Legislature; and
- (3) Establish standards and conditions that the State of Hawaii Museum of Natural and Cultural History must meet to receive state funds.

Your Committee received testimony in support of this measure from the Bishop Museum and Donkey Mill Art Center.

Your Committee received comments on this measure from the Friends of Iolani Palace and Kahilu Theatre Foundation.

Your Committee finds that, pursuant to Act 398, Session Laws of Hawaii 1988, the Bernice Pauahi Bishop Museum was designated as the State of Hawaii Museum of Natural and Cultural History and, pursuant to Act 291, Session Laws of Hawaii 2007, the Friends of Iolani Palace was designated as the State of Hawaii Museum of Monarchy History. Your Committee further finds that the intent of these designations was to provide the museums with a reliable funding source so that they would no longer be dependent on grants and private donations. Since both museums received millions of dollars in state funding in 2022, your Committee believes that there needs to be increased transparency and established standards within the operation of the museums to ensure that the operations of the museums are in alignment with the State's vision.

Your Committee has amended this measure by:

- (1) Adding language to include two ex officio non-voting members, that shall be selected by the board representing state agencies and departments that are in direct partnership with the museum on projects that benefit the State for both the Bishop Museum and Iolani Palace;
- (2) Deleting language that would have enumerated the individuals that the board could select as the two ex officio, voting members for both the Bishop Museum and Iolani Palace;
- (3) Amending language to designate the Bernice Pauahi Bishop Museum as the "State of Hawaii Museum of Natural and Indigenous History";
- (4) Inserting a \$5,000,000 appropriation amount for the renovation of Bishop Hall;
- (5) Amending section 1 to reflect its amended purpose;
- (6) Making conforming amendments; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3281, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2650 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3242

The purpose and intent of this measure is to:

- (1) Require departments or county agencies responsible for roads, highways, or similar infrastructure to evaluate high risk or dangerous corridors or intersections and plan strategies for mitigation; and
- (2) Provide that an engineering study is not required to be considered if the Department of Transportation decreases maximum speed limits within one mile of a school.

Your Committees received testimony in support of this measure from the Department of Transportation and one individual.

Your Committees find that the State has experienced significant fatalities and serious injuries on highways and roads. Numerous crashes have occurred near schools and in intersections where fatalities and injuries regularly occur. However, safety improvements may be delayed despite identification as a dangerous area. This measure will create safer roadways for all users while streamlining government processes to improve roadway safety.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3242 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2651 (Joint) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 3135

The purpose and intent of this measure is to:

- (1) Authorize the Examiner of Drivers to suspend the driver's license of a person using a disability parking permit issued to a deceased person who was deceased when the permit was issued to obtain parking privileges;

- (2) Provide that fifty percent of any fine imposed for violating the law relating to parking for disabled persons is remitted to the law enforcement agency that issued the citation;
- (3) Authorize each county to enact ordinances to enforce the design and construction requirements for the provision of accessible parking spaces, including the establishment of penalties for failure to comply with the ordinances; and
- (4) Authorize officials appointed by a county to enter the property of places of public accommodation to enforce violations of the county ordinances.

Your Committees received testimony in support of this measure from the State Council on Developmental Disabilities, Disability and Communication Access Board, a member of the Kaua'i County Council, Retail Merchants of Hawaii, and six individuals.

Your Committees received comments on this measure from the Honolulu Police Department.

Your Committees find that the statewide parking program for persons with disabilities provides individuals with mobility disabilities the ability to travel and park in accessible parking spaces. However, improper use and insufficient enforcement impact access for legitimate participants. This measure ensures greater accessibility to parking spaces for individuals with disabilities and their caretakers.

Your Committees have amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3135, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3135, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 5. Noes, none. Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2652 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2808

The purpose and intent of this measure is to:

- (1) Establish a Statewide Firefighting Helicopter Program, to be administered by the State Fire Marshal;
- (2) Appropriate funds to obtain helicopters, facilities equipment, and supplies; hire and train staff; and do other things necessary to ensure that the program is ready to begin providing aerial firefighting services on July 1, 2025; and
- (3) Establish that this measure only takes effect if another bill is passed that establishes a State Fire Marshal position.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, Department of Health, Maui Chamber of Commerce, Hawaiian Electric, and one individual.

Your Committee received comments on this measure from the Department of Labor and Industrial Relations and Department of the Attorney General.

Your Committee finds that Hawaii's unique status as an island state, positioned thousands of miles away from the nearest continent, makes addressing wildfires challenging. Your Committee further finds that equipped with state-of-the-art technology, helicopters can deliver targeted water drops, fire retardant, and other firefighting agents with precision, maximizing the effectiveness of suppression efforts in the event of a wildfire. This measure will fortify Hawaii's resilience against the growing threat of wildfires, enhance overall emergency response capabilities, and safeguard the well-being of residents and visitors by establishing a Statewide Firefighting Helicopter Program.

Your Committee has amended this measure by:

- (1) Replacing the terms "firefighting aircraft", "aerial firefighting assets", and "aerial firefighting aircraft" with the term "firefighting helicopter";
- (2) Replacing the term "department" with "State Fire Marshal";
- (3) Clarifying that the appropriations shall be expended to administer the Statewide Firefighting Helicopter Program; and
- (4) Inserting an effective date of January 1, 2042, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2808, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2808, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2653 Public Safety and Intergovernmental and Military Affairs on S.B. No. 2845

The purpose and intent of this measure is to:

- (1) Prohibit a person from selling ammunition to a person under the age of twenty-one; and
- (2) Prohibit a person under the age of twenty-one from owning, possessing, or controlling ammunition.

Your Committee received testimony in support of this measure from two members of the Hawai'i County Council, Hawaii State Coalition Against Domestic Violence, Indivisible Hawaii, Brady Campaign to End Gun Violence, Everytown for Gun Safety, Moms Demand Action for Gun Sense in America Hawai'i Chapter, Students Demand Action for Gun Sense Hawai'i Chapter, Indivisible Hawaii Healthcare Team, and over fifty-five individuals.

Your Committee received testimony in opposition to this measure from the National Rifle Association, Pu'uoloa Rifle and Pistol Club, Hawaii Rifle Association, Hawaii Firearms Coalition, and over two hundred individuals.

Your Committee received comments on this measure from the Honolulu Police Department and one individual.

Your Committee finds that while the State has some of the strongest gun safety laws in the nation, state laws restricting the sale, ownership, and possession of ammunition do not currently align with other gun safety measures. Additionally, numerous states, including Arizona, California, Connecticut, Delaware, Idaho, Illinois, Iowa, Maine, Maryland, Massachusetts, Minnesota, New Hampshire, New Jersey, New York, Rhode Island, and Vermont, have set a minimum age requirement for ammunition sales. Your Committee further finds that setting a minimum age requirement to purchase, own, or possess ammunition that conforms to the existing minimum age requirement to purchase, own, or possess a firearm in the State will help to ensure the safety of residents and reduce incidents of gun violence in the State.

Your Committee has amended this measure by:

- (1) Adding language to exempt individuals who are less than twenty-one years of age who are engaged in hunting or target shooting pursuant to section 134-5, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2845, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2845, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SCRep. 2654 Water and Land on S.B. No. 513

The purpose and intent of this measure is to require the Board of Land and Natural Resources to create a standard lease application and programmatic environmental impact statement to further streamline the process for leasing government-owned fishponds.

Your Committee received testimony in support of this measure from the Department of Agriculture, Kua 'Āina Ulu 'Auamo, Office of Hawaiian Affairs, Food+ Policy Internship, Hawaii Reef and Ocean Coalition, and twelve individuals.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that historically, government-owned fishponds were subjected to an extensive permitting process that required large amounts of resources and time to secure. In 2015, the Office of Conservation and Coastal Lands of the Department of Land and Natural Resources collaborated with other agencies to develop a master permit for traditional Hawaiian fishponds that helped streamline the process. However, the leasing process for fishponds remains complex, confusing, and difficult to navigate. This measure will streamline the process for leasing government-owned fishponds, promoting the repair, restoration, maintenance, and operation of traditional Hawaiian fishponds.

Your Committee has heard concerns from the Department of Land and Natural Resources that this measure conflates the separate approval and lease processes, which imposes an unsustainable burden on the Department with minimal benefit to the public. Combining the lease application process, which is managed by the Land Division, with the proposed programmatic environmental impact statement (EIS) would place the responsibility for obtaining and managing a programmatic EIS with the Land Division, which does not have the staffing capacity or expertise to do so. H.B. No. 2626 is a substantively similar bill that adopted amendments addressing the Department's concerns.

Accordingly, your Committee has amended this measure by adopting the amendments made to H.B. No. 2626, which include:

- (1) Deleting legislative findings;
- (2) Deleting language that would have required the Board of Land and Natural Resources to implement a standard lease application and programmatic environmental impact statement to streamline the leasing process for government-owned Hawaiian fishponds and all its related language;
- (3) Inserting language to specify certain findings that the Board of Land and Natural Resources is required to make for a lease of a government-owned fishpond;
- (4) Deleting the appropriation for the creation of a standard lease application and programmatic environmental impact statement;
- (5) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 513, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2655 Water and Land on S.B. No. 2156

The purpose and intent of this measure is to require the Department of Land and Natural to create a strategic plan for maintenance dredging of small boat harbors, channels, ramps, and other important infrastructure in the State.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; Ocean Tourism Coalition; Sailing Maui, Inc.; Fair Wind Cruises; Quicksilver Charters; Gemini Sailing Charters; and three individuals.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committee finds that maintenance dredging is critical to the upkeep of small boat harbors, channels, ramps, and other port infrastructure in the State. The current system is disorganized and haphazard as the necessary steps, including appropriations and the issuance of permits, are not taken until dredging is imminent. This disorganized process sometimes contributes to worsened conditions at these facilities that may cause a shutdown of the affected sites. Federal agencies have encouraged the states to adopt programmatic schedules of maintenance dredging to expedite federal review and even draw down federal dollars that are available to assist the states in these endeavors. This measure will spread resources across the State according to actual need and allow ample time for permitting and public input.

Your Committee has heard testimony from the Department of Land and Natural Resources (Department) that a strategic plan for maintenance dredging is unnecessary as the Department has already identified the facilities across the State that require maintenance dredging on a regular basis. The Department anticipates that with sufficient funding, the Department would be able to complete two or three dredging projects a year and estimates that a recurring \$3,000,000 appropriation would cover annual maintenance dredging needs.

Accordingly, your Committee has amended this measure by:

- (1) Deleting language that would have required the Department to develop a strategic plan for maintenance dredging;
- (2) Inserting language that appropriates funds to the Department to conduct maintenance dredging at small state boat harbors, boat launch ramp facilities, and other state boating facilities and waterways, including design, permitting, and dredging work, as identified by the Department;
- (3) Changing the appropriation from an unspecified amount to an amount of \$3,000,000 for the purposes of this measure;
- (4) Requiring funding for maintenance dredging of state boating facilities to be in the Departments' annual base budget request;
- (5) Amending section 1 to reflect its amended purpose; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2156, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2656 Water and Land on S.B. No. 2183

The purpose and intent of this measure is to amend the definition of "beach restoration" used in laws governing the Board of Land and Natural Resources' powers to engage in beach restoration to include activities undertaken to:

- (1) Improve eroded beaches and degraded dune systems; and
- (2) Remove abandoned and remnant manmade materials that pose a risk to the health of the public and ecosystem.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Office of Planning and Sustainable Development.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee finds that sea level rise poses a serious and imminent threat to Hawaii's coastal communities and residents and Hawaii's natural resources, primarily beaches and coastal ecosystems. The State has an affirmative duty to preserve beaches as a public trust resource for the people of Hawaii, and beaches are culturally important and provide natural resilience to sea level rise and associated coastal flooding. This measure will help to preserve Hawaii's beaches and coastal systems by expanding the types of activities the State recognizes as restorative and beneficial to beaches.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "beach restoration" to include:
 - (A) The management and restoration of sand and native dune vegetation; and
 - (B) The removal of materials abandoned on beaches and dunes that pose a risk to public health and coastal ecosystems; and
- (2) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2183, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2183, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2657 (Joint/Majority) Water and Land and Energy, Economic Development, and Tourism on S.B. No. 2203

The purpose and intent of this measure is to apply permissible uses within agricultural districts to counties having specific population levels.

Your Committees received testimony in support of this measure from the Mayor of the County of Hawai'i and County of Hawai'i Planning Department.

Your Committees received comments on this measure from the Office of Planning and Sustainable Development, Department of Agriculture, and Office of Hawaiian Affairs.

Your Committees find that agricultural tourism presents an opportunity for farmers and ranchers to diversify their income stream beyond the sale of food and non-food agricultural products. With carefully thought-out ordinances and regulations in place, agricultural operations with accessory and secondary agricultural tourism may be able to sustain their operations and contribute to local food self-sufficiency and have little, if any, adverse effect on the agricultural operations, land values, and access to agricultural resources in the surrounding area. This measure bolsters the agricultural tourism industry and provides another possible income stream to farmers.

Your Committees have amended this measure by:

- (1) Deleting language that would have limited this measure to counties with a population of 500,000 or more; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that there needs to be more enforcement taken by the counties regarding unregulated agricultural tourism activities and agricultural tourism enforcement is borne by the counties.

As affirmed by the records of votes of the members of your Committees on Water and Land and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2203, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2203, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Water and Land: Ayes, 4. Noes, 1 (Fevella). Excused, none.
Energy, Economic Development, and Tourism: Ayes, 4. Noes, 1 (Fevella). Excused, none.

SCRep. 2658 Water and Land on S.B. No. 2721

The purpose and intent of this measure is to clarify that violation of part I of chapter 200, Hawaii Revised Statutes, relating to ocean recreation and coastal areas, or any rules adopted thereunder shall be subject to criminal penalties.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Hawai'i Fishermen's Alliance for Conservation and Tradition, Inc.; and one individual.

Your Committee received testimony in opposition to this measure from Quicksilver Charters.

Your Committee finds that small boat harbors and boating facilities are some of the most heavily trafficked facilities in the State, used by residents and tourists alike. The Division of Conservation and Resources Enforcement of the Department of Land and Natural Resources is responsible for enforcing all statutes and administrative rules violations in small boat harbors and boating facilities. Much of the enforcement efforts at small boat harbors and boating facilities are necessary to ensure public health and safety, such as responding to vandalism, theft, trespassing, and squatting. This measure will deter violators and repeat offenders of boating laws by imposing stricter penalties.

Your Committee has amended this measure by:

- (1) Clarifying that penalties shall only be imposed on individuals that knowingly or intentionally violate the rules;
- (2) Clarifying that vessels shall not be subject to fines imposed by this measure, but fines shall be imposed on any agents, owner, or crew of any vessel that violates the rules;
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Water and Land that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2721, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2721, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2659 (Joint) Water and Land and Commerce and Consumer Protection on S.B. No. 2859

The purpose and intent of this measure is to simplify and streamline the operation of the Land Court by authorizing the use of a master certificate of title for common interest communities.

Your Committees received testimony in support of this measure from the Community Associations Institute and one individual.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Department of Land and Natural Resources.

Your Committees find that under the current land court system, any amendment to the documents governing a condominium or planned community must be noted on the certificate title of each unit. Authorizing the use of a master certificate of title that lists encumbrances of general application will permit certificates of title for individual units to incorporate by reference the encumbrances on the master certificate of title. This measure eliminates the need to change the certificate title for each unit to reflect any changes in the encumbrances of general application to the condominium or planned community.

Your Committees heard testimony from the Department of Land and Natural Resources that implementing this measure unamended would duplicate the effort of the Bureau of Conveyance and Land Records Management System and would require extensive staff resources that are already strained as these agencies already support a process similar to the “master certificate of title” proposed by this measure.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that the name of the owner on a master certificate of title shall be determined by the assistant registrar and will incorporate the name of the new common interest community;
- (2) Deleting language that would have authorized the assistant registrar to establish a property identification number or other alternate means of identifying identical units;
- (3) Deleting language relating to existing common interest communities, thereby limiting this measure to new common interest communities;
- (4) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Water and Land and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2859, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2859, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Water and Land: Ayes, 3. Noes, none. Excused, 2 (Chang, Fevella).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

SCRep. 2660 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2574

The purpose and intent of this measure is to:

- (1) Establish a temporary tax credit for the importation of renewable fuel and sustainable aviation fuel; and
- (2) Expand the provisions of the Renewable Fuels Production Tax Credit for taxable years beginning after December 31, 2024, by:
 - (A) Increasing the amount to be claimed from 20 cents per seventy-six thousand British thermal units of renewable fuels sold for distribution in the State to 35 cents per seventy-six thousand British thermal units of renewable fuels produced and sold for distribution in the State;
 - (B) Removing the \$3,500,000 annual aggregate cap on the credit and increasing the credit cap that each qualified taxpayer may claim each taxable year from \$20,000 to \$100,000;
 - (C) Specifying that fuels are to have lifecycle greenhouse gas emissions of at least a certain percentage below that of fossil fuels;
 - (D) Adding a \$1 per gallon tax credit for the production of:
 - (i) Renewable fuels from locally sourced renewable feedstock; and
 - (ii) Sustainable aviation fuel within the State and produced and sold for consumption by flights originating from and within the State; and
 - (E) Increasing the time within which the Hawaii State Energy Office is given to respond to a request for certification from thirty to sixty days.

Your Committees received testimony in support of this measure from the Hawai'i Renewable Fuels Coalition; Hawai'i Farm Bureau; Hawai'i BioEconomy Trade Organization; Pacific Biodiesel, Inc.; Par Hawaii Refining, LLC; Hawaiian Airlines; Maui Land & Pineapple Company, Inc.; Airlines for America; United Steelworkers; Alaska Airlines, Inc.; Twelve; Pono Pacific Land Management, LLC; and one individual.

Your Committees received comments on this measure from the Department of the Attorney General, Department of Taxation, Hawaii State Energy Office, and Tax Foundation of Hawaii.

Your Committees find that incentivizing local renewable fuel production allows investment in the local economy, supports job creation, and accelerates the State's goals to achieve net-zero or net-negative targets as quickly as practicable but no later than 2045. Your Committees recognize that, as an island state, the total jet fuel consumption between private and military industries in the State is eighteen million barrels or 767,000,000 gallons. Your Committees further recognize that the production cost of sustainable aviation fuel is several times greater than that of conventional fuels. The tax credits proposed in this measure create a pathway to support the use and production of fossil fuel alternatives in the State.

According to testimony received by your Committees, Par Pacific, and its partner, Pono Pacific, are working with several landowners in the State to develop oil-yielding crops that produce feedstock for renewable diesel and sustainable aviation fuel. Your Committees therefore request that Par Pacific provide an inventory of the land available to grow oil-yielding crops in the State, the GIS overlay of the land available that shows which areas are cultivatable, and the amount of water needed to plant these oil-yielding crops during both winter and summer months.

Your Committees recognize the concerns raised by the Department of the Attorney General that the provision in this measure that provides taxpayers who produce renewable fuels from locally sourced renewable feedstock or sustainable aviation fuel within the State with an additional \$1 per gallon tax credit under the existing Renewable Fuels Production Tax Credit and the Renewable Fuels Import Tax Credit established by this measure may be subject to a challenge under the United States Constitution's Commerce Clause, as it may be construed by a court to benefit in-state economic interests by burdening out-of-state competitors.

Accordingly, your Committees have amended this measure by:

- (1) Deleting references to "locally-sourced renewable feedstock" and language that would have provided taxpayers who produce sustainable aviation fuel within the State an additional \$1 per gallon tax credit; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2574, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2574, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).

SCRep. 2661 Commerce and Consumer Protection on S.B. No. 3345

The purpose and intent of this measure is to:

- (1) Conform Hawaii estate tax laws to the operative provisions of the Internal Revenue Code; and
- (2) Establish an estate tax deduction for the value of a closely held business.

Your Committee received testimony in support of this measure from Servco Pacific Inc.; Altres, Inc.; Island Insurance Companies; Stanford Carr Development; ABC Stores; Y.Hata & Company, Limited; Zippy's Restaurants; KTA Super Stores; Grassroot Institute of Hawaii; Tori Richard, Ltd.; HPM Building Supply; Loyalty Enterprises, Ltd.; Finance Enterprises, Ltd.; L&L Hawaiian Barbeque; Foodland Supermarket, Ltd.; Big Island Motors; and one individual.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that for many local business owners in Hawaii, the difference between the federal and state estate tax has made estate planning unduly complicated and technical. Your Committee further finds that the Hawaii estate tax exclusion amount, which is currently much lower than the federal amount, has been a burden to many local family businesses that tend to have large portions of their estate values held in non-liquid assets. Your Committee also finds that local family businesses are the bedrock of the Hawaii economy, and that the State should take measures to ensure that an untimely death of a business owner does not lead to the closing of a treasured local establishment. Therefore, this measure would align the state and federal exclusion amounts for estate taxes and establish an estate tax deduction for certain closely held family businesses.

Notwithstanding, your Committee has heard the testimony of the Department of Taxation, recommending that certain definition-related ambiguities in this measure be resolved and for the effective date to be delayed for implementation purposes. Therefore, amendments to this measure are necessary to address these issues.

Accordingly, your Committee has amended this measure by:

- (1) Clarifying that for a decedent's estate to be allowed an estate tax deduction for the value of any qualified family-owned business interest that the decedent held at the time of death, the interest in the closely held business must have been owned by the decedent, not the decedent's qualified heir, and the material participation in the operation of the trade or business to which the interest relates must have been by the decedent, not the decedent's qualified heir;
- (2) Extending the implementation of the measure by one year, from decedents dying or taxable transfers occurring after December 31, 2023, to decedents dying or taxable transfers occurring after December 31, 2024;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3345, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2662 Commerce and Consumer Protection on S.B. No. 2607

The purpose and intent of this measure is to revise the construction defect claims resolution process under the Contractor Repair Act, chapter 672E, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Pacific Resource Partnership; Case Lombardi, A Law Corporation; D.R. Horton Hawaii LLC; Holomua Collaborative; Hawaii Credit Union League; Building Industry Association of Hawaii; Ali'i Glass & Metal, Inc.; Tru-Door Hawaii; Z Contractors, Inc.; Royal Contracting Co., Ltd.; Jayar Construction, Inc.; Stanford Carr Development; Foundation Building Materials, LLC; Paradigm Construction LLC; Gray, Hong, Nojima & Associates, Inc.; Cultured Marble; Hawaiian Landscape Co., Inc.; R.M. Towill Corporation; Vinyl Tech & Masonry, Inc.; M2K Construction LLC; Hawaiian Management Company, Ltd.; REEF Development of Hawaii, Inc.; Gentry Homes, Ltd.; Jade Painting, Inc.; Ashford & Wriston A Limited Law Partnership LLP; Hawai'i Association of REALTORS; General Contractors Association of Hawaii; Fred Lau Hawaiian Landscape Co. Inc.; Foundations Hawaii, Inc.; KY International, Inc.; HPM Building Supply; Hawaii Regional Council of Carpenters; and twelve individuals.

Your Committee received testimony in opposition to this measure from Lipp Smith LLP, Kasdan Turner Thomson Booth LLLC, and twenty-three individuals.

Your Committee received comments on this measure from the Contractors License Board.

Your Committee finds that the high volume of litigation related to construction defects in the State has contributed, in part, to rising insurance rates, housing costs, and the growing number of condominiums ineligible for government-backed loans because they are currently under litigation. Your Committee further finds that, under the claims resolution process for construction defects under chapter 672E, Hawaii Revised Statutes, in many cases, after filing a notice of claim of a construction defect, some homeowners reject, without good cause, a contractor's offer of repairs or monetary payments, leading to abuse and delays in the claims resolution process. Therefore, this measure will improve the claims resolution process by limiting a claimant's recovery to the total value of the contractor's offer if the claimant rejects a proposal to inspect or a monetary offer from the contractor under certain circumstances.

Your Committee notes that under this measure, a claimant that "unreasonably" rejects a proposal to inspect the premises of the alleged construction defect, or an offer to settle from a contractor, will be limited in recovery to the total value of the contractor's offer. Your Committee is concerned that this legal term of art is ambiguous and could lead to increased litigation, a result that this measure specifically seeks to address. Your Committee finds that this issue merits further consideration and respectfully requests that subsequent committees to which this measure is referred examine this issue.

Your Committee has amended this measure by:

- (1) Deleting language that would have required a claimant to accept a contractor's proposal for inspection within fourteen days, and restoring the thirty-day period under existing law;
- (2) Inserting language that allows, rather than requires, a claimant to accept certain offers made by a contractor under section 672E-4, Hawaii Revised Statutes;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2607, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2607, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2663 Commerce and Consumer Protection on S.B. No. 2020

The purpose and intent of this measure is to make it a deceptive practice to advertise, display, or offer a price for goods or services that does not include all mandatory fees or charges, with certain exceptions.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and American Economic Liberties Project.

Your Committee received testimony in opposition to this measure from the Hawai'i Restaurant Association, Chamber of Progress, and one individual.

Your Committee received comments on this measure from Charter Communications.

Your Committee finds that in the face of challenging operating environments, some businesses have resorted to including additional hidden fees and surcharges in bills. The public has expressed confusion about these additional fees and surcharges paid at establishments for services or, because ineffective notification leaves many customers feeling misinformed. This measure will require that all mandatory fees or charges, with certain exceptions, be disclosed when a person advertises, displays, or offers a price for goods or services.

Your Committee has amended this measure by:

- (1) Inserting language exempting persons who provide broadband internet access service in compliance with certain federal rules from the requirement to include all mandatory fees or charges when advertising, displaying, or offering a price for goods or services;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2020, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2020, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2664 (Joint) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.B. No. 2505

The purpose and intent of this measure is to:

- (1) Require the Public Utilities Commission to establish reliability standards and interconnection requirements for the Hawaii Electric System;
- (2) Establish system resilience as a metric that is monitored and considered by the Commission;
- (3) Require the Commission to collect the Hawaii Electricity Reliability Surcharge and provide that the surcharge may be transferred to the Commission for the purpose of its duties; and
- (4) Require the Commission to contract for the performance of certain functions with a Hawaii Electricity Reliability Administrator.

Your Committees received testimony in support of this measure from the Public Utilities Commission and Hawaii Clean Power Alliance.

Your Committees received testimony in opposition to this measure from the Hawaiian Electric Company, Inc.

Your Committees received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs.

Your Committees find that maintaining a resilient electric system is of vital importance for the State, especially given Hawaii's geographically isolated location, miles away from the mainland United States. As such, your Committees find that electric system resilience should be a metric that is actively monitored and considered by the Public Utilities Commission.

Your Committees also recognize that although the Public Utilities Commission has created certain modified interconnection requirements and developed various reliability metrics to monitor and maintain the Hawaii Electric System, this role of the Commission is currently discretionary. Likewise, your Committees also find that the Commission has the discretion, but is not required, to charge a Hawaii Electric Reliability Surcharge and to contract with a Hawaii Electric Reliability Administrator. Your Committees find that by requiring the Public Utilities Commission to adopt a comprehensive set of interconnection and reliability standards, to charge a Hawaii Electric Reliability Surcharge, and contract with a Hawaii Electric Reliability Administrator, this measure will ensure that the State has the ability to rapidly recover from future unexpected natural and human-caused disasters.

Notwithstanding, your Committees have heard the testimony of the Department of Commerce and Consumer Affairs, stating that the Public Utilities Commission's ongoing regulatory efforts, existing reporting requirements, and existing performance incentive mechanisms are already sufficient to assess, compel, and incentivize electric utility companies to meet certain reliability targets and achieve resiliency goals without being mandatory. Your Committees therefore find that eliminating the Commission's discretionary authority is unnecessary, and that amendments to this measure are therefore necessary to address this matter.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the proposed amendments to:
 - (A) Sections 269-142(a) and (b), Hawaii Revised Statutes (HRS), thereby retaining the Commission's discretionary authority to adopt reliability standards and interconnection requirements;
 - (B) Section 269-146(a), HRS, thereby retaining the Commission's discretionary authority to charge a Hawaii Electric Reliability Surcharge; and
 - (C) Section 269-147(a), HRS, thereby retaining the Commission's discretionary authority to contract with a Hawaii Electric Reliability Administrator;
- (2) Amending section 1 to reflect its amended purpose;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of

S.B. No. 2505, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2505, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 5; Ayes with Reservations (McKelvey). Noes, none. Excused, none.
Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2665 Commerce and Consumer Protection on S.B. No. 2631

The purpose and intent of this measure is to prohibit commercial website operators from publishing mugshots.

Your Committee received testimony in support of this measure from the Office of the Public Defender and one individual.

Your Committee finds that booking or arrest photographs, also called mugshots, can be obtained from law enforcement websites and reposted on commercial websites. Arrests regularly occur without resulting in actual criminal charges, and the commercial consumption of mugshots can be harmful to one's reputation or compromise possible employment. Therefore, this measure will prohibit the publication of a person's mugshot on a commercial website for pecuniary gain, with certain exemptions for the purpose of disseminating information to the public, among others.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2631 and recommends that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2666 (Joint) Agriculture and Environment and Commerce and Consumer Protection on S.B. No. 2562

The purpose and intent of this measure is to prohibit animal owners and their employees from performing any surgical procedures on the owner's dog or dogs.

Your Committees received testimony in support of this measure from the Hawaiian Humane Society; Animal Interfaith Alliance; Animal Welfare Institute; Kaua'i Humane Society; Hawaii Veterinary Medical Association; Hawaii Cattlemen's Council, Inc.; and fourteen individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Hawaii Board of Veterinary Medicine.

Your Committees find that there is a need for more explicit laws to protect pet animals from significant harm caused by unlicensed individuals performing veterinary procedures. Your Committees also find that cropping and docking should not be performed by unlicensed individuals for compensation, monetary or otherwise, or by unlicensed individuals who perform the practice as part of the sale of a pet animal even if done gratuitously.

Your Committees have amended this measure by:

- (1) Expanding its scope to:
 - (A) Prohibit individuals without a valid unrevoked license obtained from the Hawaii Board of Veterinary Medicine from performing any surgical procedure on any animal; and
 - (B) Make performing any surgical procedure on any animal without a valid unrevoked license obtained from the Hawaii Board of Veterinary Medicine a class C felony;
- (2) Repealing language that exempted cropping or docking as customarily practiced from the offense of cruelty to animals in the first degree; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2562, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2562, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

Commerce and Consumer Protection: Ayes, 3. Noes, none. Excused, 2 (McKelvey, Awa).

SCRep. 2667 (Joint) Agriculture and Environment and Energy, Economic Development, and Tourism on S.B. No. 2428

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Agricultural Investment Program within the Agribusiness Development Corporation to support local agricultural producers; and
- (2) Appropriate funds for the Hawaii Agricultural Investment Program and establish two full-time equivalent positions for the Program.

Your Committees received testimony in support of this measure from the Department of Agriculture, Agribusiness Development Corporation, Ulupono Initiative, Hawai'i Farm Bureau, Hawaii Food Industry Association, and Hawaii Food+ Policy.

Your Committees find that although local agriculture is essential to the economy in Hawaii, approximately eighty-five percent of all food consumed in the State is imported. Your Committees find that this imbalance leaves the State vulnerable to natural disasters, supply chain disruptions, and future impacts on national and global food production related to climate change.

Your Committees further find that the State must increase its local food production to meet its ambitious food security and self-sustainability goals. Therefore, this measure establishes the Hawaii Agricultural Investment Program to provide direct assistance to local food producers and support the local agricultural sector.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2428, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2428, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).

SCRep. 2668 (Joint/Majority) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2832

The purpose and intent of this measure is to:

- (1) Specify that the counties may issue traffic infractions for violations of any law prohibiting or restricting the stopping, standing, or parking of vehicles on all highways and county property; and
- (2) Authorize stopping, standing, and parking restrictions and prohibitions on property under jurisdiction of the Director of Transportation and the counties, respectively.

Your Committees received testimony in support of this measure from the Department of Transportation, one member of the Maui County Council, Mayor of the County of Maui, and one individual.

Your Committees find that ensuring the safety of all roadway users is of paramount importance. Currently, existing law does not empower the counties to issue traffic infractions for certain violations on highways and county property. Establishing additional powers for the counties will provide avenues to address hazardous conditions on highways that may interfere with the free flow of traffic. This measure will ensure that counties are able to issue traffic infractions where vehicles are creating an unsafe environment.

Your Committees have amended this measure by:

- (1) Deleting language that would have applied authorization of prohibition of stopping, standing, or parking of vehicles on county property; and
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2832, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2832, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2669 Higher Education on S.B. No. 2722

The purpose and intent of this measure is to:

- (1) Appropriate funds to the University of Hawaii Cancer Center to conduct a multiethnic cohort study focusing on the social determinants of health, lifestyles, environmental exposures, and resilience factors of Native Hawaiians, Pacific Islanders, and Filipinos; and
- (2) Require the Cancer Center to seek federal funding to complete the study.

Your Committee received testimony in support of this measure from the University of Hawai'i System, Department of Health, Hawai'i Primary Care Association, Leukemia & Lymphoma Society, Hawai'i Public Health Association, American Cancer Society Cancer Action Network, Friends of the University of Hawaii Cancer Center, a petition signed by one hundred sixty-three individuals, and fourteen individuals.

Your Committee finds that the University of Hawaii Cancer Center ("Center") is one of seventy-one National Cancer Institute-designated cancer centers in the United States. Additionally, the Center is the only institution in the State, and the Pacific region, providing critical medical research and treatment for Native Hawaiian and Pacific Islander populations. Your Committee further finds that despite a decrease in cancer incidence and mortality rates in the State, disparities among ethnic populations continue to be of concern. Native Hawaiians continue to have the highest cancer incidence and mortality rates among men and women, including higher incidences of breast and ovarian cancer. Similarly, other ethnic groups such as Filipino women also have high rates of cancer incidences. As cancer research focusing on Native Hawaiians, Pacific Islanders, and Filipinos cannot be as easily conducted elsewhere in the world, this measure provides critical data to support the overall health of Hawaii's people.

Your Committee has concerns, however, regarding the funding appropriated to the Center through the Tobacco Tax and Cancer Research Special Fund utilized for purposes other than conducting research. According to testimony from the University of Hawaii at a public hearing on this measure, funds from the Tobacco Tax and University of Hawaii Tuition and Fees Special Fund have been utilized for daily operations rather than funding components of research studies. As a research center, the Center should prioritize research as one of its fundamental operations.

Additionally, your Committee also believes that the Center should prioritize grant funding to research demographics matching the local community. Previous and current studies have not prioritized local communities in securing grant funding and your Committee finds that there should be a greater emphasis on achieving results to assist with cancer prevention in the State's communities. According to testimony from the University of Hawaii, the original multiethnic cohort study that began in the 1990s did not include Filipinos, nor did it include social determinants of health. Additionally, previous studies of the State's local communities were smaller studies focused on preventative screening. Accordingly, your Committee believes that research conducted by the Center should reflect the local communities to provide residents with opportunities for high quality care. As the Center has secured grant funding for previous studies, your Committee believes the Center should prioritize state funds received for the continuation of critical research.

Your Committee has amended this measure by:

- (1) Inserting language to require the University of Hawaii to, at a minimum, seek matching federal funding to further the study; and
- (2) Amending section 1 to update its amended purpose.

Your Committee notes that this measure, as amended, contains an appropriation for an unspecified amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriate amount to be inserted.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2722, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2722, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2670 Higher Education on S.B. No. 3209

The purpose and intent of this measure is to fulfill the requirements of Act 141, Session Laws of Hawaii 2022, by appropriating funds to the University of Hawaii at Manoa College of Education for:

- (1) The establishment of seven full-time equivalent (7.0 FTE) positions; and
- (2) Additional program costs for the expanded teacher cohort program.

Your Committee received testimony in support of this measure from the University of Hawaii'i System, Department of Education, Hawaii'i Teacher Standards Board, University of Hawaii Professional Assembly, and the Hawaii State Teachers Association.

Your Committee finds that Hawaii has long suffered from a shortage of qualified public school teachers. To address this shortage, the Legislature enacted Act 141, Session Laws of Hawaii 2022 (Act 141), to require the University of Hawaii to establish kindergarten through grade twelve expanded teaching cohort programs in each county for students who are pursuing undergraduate degrees in education. However, no funding for this mandate was provided to ensure greater accessibility for program pathways. Additionally, Act 141 further required the University of Hawaii to submit an interim report to the Legislature regarding the number of faculty and associated costs needed to establish and administer additional programs before the convening of the Regular Session of 2024. Therefore, this measure provides resources necessary to fully implement the mandates of Act 141 to address the ongoing chronic teacher shortage.

Your Committee notes its concerns regarding the testimony provided by the University of Hawaii at a public hearing on this measure regarding personnel sweep practices. Presently, standing practice at the University of Hawaii at Manoa is to conduct an annual centralized position management sweep of faculty positions that occurs when vacant positions are not filled after a retirement, resignation, or inability to fill the position. The Manoa Budget Team reviews the requests of the various campus units and returns certain positions that are aligned with campus priorities. However, positions that are swept may not necessarily be returned to the campus unit where the sweep occurred. Additionally, in the last year, the University of Hawaii at Manoa College of Education had 16.75 funded positions swept, with just over half that were returned to the College. Funds previously allocated to the swept positions may be redistributed based on enrollment, priorities, and other program needs across the campus, which may not necessarily return to the campus unit that had funds swept. If all positions were returned to the College of Education, the College would have already possessed adequate funding for the seven new positions established in this measure, rather than requesting funding from the Legislature.

Your Committee has amended this measure by inserting an effective date of July 1, 2055, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3209, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3209, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2671 Higher Education on S.B. No. 3340

The purpose and intent of this measure is to:

- (1) Require the University of Hawaii College of Tropical Agriculture and Human Resources, in consultation with livestock industry stakeholders, to conduct a study to assess the effects of heat stress on beef cattle during interisland ocean transportation;
- (2) Require a report to the Legislature; and
- (3) Make an appropriation.

Your Committee received testimony in support of this measure from the Department of Agriculture; University of Hawai'i System; Hawai'i Farm Bureau; and Hawaii Cattlemen's Council, Inc.

Your Committee finds that investing resources into the State's agricultural industry will allow for greater diversity of economic industries and provide a stable, secure food source for Hawaii's people. Presently, there are few ranching operations that raise cattle for locally sourced beef. However, stakeholders have raised concerns that there is little existing Hawaii-based data that can be utilized by farming and ranching stakeholders to understand the feasibility of transporting beef cattle via interisland ocean transportation to support operations between the islands. This measure will help obtain data to expand cattle operations statewide while ensuring high standards of animal welfare and meat quality.

Your Committee notes its discussion with the University of Hawaii and the Department of Agriculture that occurred at the public hearing on this measure regarding the need for additional data on heat stress experienced by cattle. Presently, there are numerous studies readily available that have been conducted by various universities that examine the role of heat stress on cattle. Additionally, as information is accessible and available, your Committee notes additional concerns that an additional study on the effects of heat stress on cattle may be duplicative and does not reflect evidence of a problem. Your Committee further notes that, rather than an additional study on heat stress, funding could be utilized to address proper ventilation, care, and other needs during interisland transport.

Your Committee has amended this measure by:

- (1) Inserting an appropriation amount of \$20,000 to conduct the interisland ocean transport study on beef cattle;
- (2) Inserting an effective date of July 1, 2055, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3340, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3340, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2672 (Joint/Majority) Commerce and Consumer Protection and Energy, Economic Development, and Tourism on S.B. No. 2170

The purpose and intent of this measure is to:

- (1) Establish the Combat Sports Commission of Hawaii;
- (2) Provide for the regulation of combat sports;
- (3) Prohibit no rules combat or similar contests; and
- (4) Appropriate funds for the establishment and operation of the Combat Sports Commission of Hawaii and for an unspecified number of full-time equivalent positions within the Department of Commerce and Consumer Affairs.

Your Committees received testimony in support of this measure from the County of Hawai'i Office of the Mayor; Nokanet, LLC; and nine individuals.

Your Committees received testimony in opposition to this measure from the Professional Vocational Licensing Division of the Department of Commerce and Consumer Affairs and one individual.

Your Committees received comments on this measure from the Department of Budget and Finance.

Your Committees find that Hawaii has embraced full-contact combat sports, which incorporates techniques from boxing, wrestling, judo, jujitsu, karate, Muay Thai and others. In addition to producing multiple mixed martial arts world title fighters, both male and female, Hawaii has held major events at the Blaisdell Center Arena that have drawn capacity crowds. To continue growing the combat sports industry in the State and to attract events staged by the Ultimate Fighting Championship and other prestigious organizations, this measure, as currently drafted, would establish the Combat Sports Commission of Hawaii.

Notwithstanding, your Committees have heard the concerns raised in testimony as to the legal and administrative challenges that would accompany the implementation of the Combat Sports Commission of Hawaii, as currently proposed in this measure. As an alternative, the Department of Commerce and Consumer Affairs requested your Committees to consider combining the regulation of mixed martial arts and boxing under a single commission. Therefore, amendments to this measure are necessary to address these issues.

Accordingly, your Committees have amended this measure by:

- (1) Deleting its contents and inserting provisions that:
 - (A) Establish a new regulatory framework for combat sports contests in Hawaii by renaming the existing Boxing Commission of Hawaii as the Combat Sports Commission of Hawaii;

- (B) Expand the Commission's jurisdiction to include all combat sports; and
- (C) Repeal the existing law governing mixed martial arts contests in Hawaii;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2170, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2170, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Commerce and Consumer Protection: Ayes, 4. Noes, 1 (Awa). Excused, none.

Energy, Economic Development, and Tourism: Ayes, 4. Noes, none. Excused, 1 (Fevella).

SCRep. 2673 Commerce and Consumer Protection on S.B. No. 3081

The purpose and intent of this measure is to update and improve various provisions of title 24, Hawaii Revised Statutes relating to the State's Insurance Code. Specifically, this measure:

- (1) Defines "dormant captive insurance company" and sets out a procedure to apply for a certificate of dormancy;
- (2) Adds the term "doing business as" to "trade name" statutory references;
- (3) Clarifies continuing education provider filing requirements;
- (4) Clarifies reinsurance intermediary-manager filing requirements;
- (5) Amends the surety bond threshold requirement for third party administrators and clarifies the audited financial statements requirements;
- (6) Amends the definitions of "controlled unaffiliated business" and "participant" as applied to captive insurance companies; and
- (7) Provides an exemption from premium taxes for a captive insurer in its first year after formation.

Your Committee received testimony in support of this measure from the Insurance Division of the Department of Commerce Consumer Affairs and one individual.

Your Committee received comments on this measure from the Hawaii Captive Insurance Council, Brown & Brown, Tax Foundation of Hawaii, and two individuals.

Your Committee finds that periodically updating the State's insurance law is necessary to provide greater protections to consumers, improve the administration and enforcement of regulated entities, and address issues that arise after the implementation of adopted laws and rules. Therefore, this administration measure makes various technical corrections and improvements to the Insurance Code.

Notwithstanding, your Committee has heard the testimony of the Insurance Division of the Department of Commerce and Consumer Affairs, requesting that certain amendments concerning taxation of captive insurance companies be deleted, as they are not necessary at this time. Therefore, amendments to measure are necessary to address this issue.

Accordingly, your Committee has amended this measure by:

- (1) Deleting section 9 of this measure, that would have exempted captive insurance companies from payment of premium taxes for the first year after their formation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3081, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2674 Public Safety and Intergovernmental and Military Affairs on S.B. No. 3096

The purpose and intent of this measure is to create a process for electric utilities to develop and submit wildfire protection plans to the Public Utilities Commission for approval and allow the recovery of related costs and expenses through securitization, while avoiding a disproportionate impact on a specific ratepayer or county.

Your Committee received testimony in support of this measure from the Office of the Governor, Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, Ulupono Initiative, Hawaiian Electric, International Brotherhood of Electrical Workers Local 1260, Kaua'i Island Utility Cooperative, and Life of the Land.

Your Committee received comments on this measure from the Department of Budget and Finance and Department of the Attorney General.

Your Committee finds that the risk of catastrophic wildfires has increased, making it imperative that electric utilities develop, implement, and administer effective plans for wildfire risk mitigation. According to research conducted by a working group from 2019-2020, securitization may be the most efficient, least-cost way to finance wildfire risk mitigation costs and expenses and have an

extensive track record of success. Your Committee recognizes that the establishment of wildfire risk protection plans as provided under this measure will strengthen wildfire prevention and mitigation efforts and approaches related to the impacts of wildfires in our State.

Your Committee has amended this measure by:

- (1) Adding a definition of “catastrophic wildfire”;
- (2) Amending the definitions of “financing entity” and “wildfire protection costs”;
- (3) Specifying that the best practices discussed in the electric utility workshops, which the Public Utilities Commission may periodically convene, may be incorporated into the proposed wildfire protection plans and updates submitted to the Public Utilities Commission for approval;
- (4) Modifying various components, requirements, and procedures relating to the wildfire protection plans;
- (5) Requiring an electric utility to track and report to the Public Utilities Commission the costs that the electric utility actually incurs to develop, implement, and administer the risk-based wildfire protection plan and providing direction when those actual costs are under, equal to, or over reasonable amounts;
- (6) Expanding the scope of the Public Utilities Commission’s rules or orders pertaining to wildfire protection plans to include data governance and risk-based decision-making;
- (7) Requiring the Public Utilities Commission to determine the reasonable costs to develop, implement, and administer the plan to authorize the electric utility to recover the costs in rates;
- (8) Clarifying that no electric utility shall be civilly liable for the death of or injury to persons, or property damage, under certain conditions;
- (9) Clarifying that the Public Utilities Commission, the State, and its agents or employees shall not be liable for the death of or injury to persons, or property damage, for any actions taken by them in the performance of their powers and duties;
- (10) Clarifying that an electric utility materially failing to comply with an approved plan or part of an approved plan shall be inadmissible in any lawsuit or other action against the electric utility seeking compensation for the alleged death of or injury to persons, or property damage;
- (11) Deleting language that would have established civil penalties for non-compliance with an approved plan or part of an approved plan;
- (12) Requiring the Public Utilities Commission, in exercising its duties with respect to financing orders to issue bonds to recover any wildfire protection costs, to consider whether such costs are consistent with the public interest;
- (13) Modifying an electric utility’s role under a wildfire protection plan financing order;
- (14) Authorizing the Public Utilities Commission to create a nonbypassable surcharge referred to as a wildfire protection fee that shall be applied to recover financing costs and wildfire protection costs in the absence of a financing order;
- (15) Establishing provisions related to security interests in wildfire protection property;
- (16) Establishing provisions related to transfers of wildfire protection property;
- (17) Establishing provisions related to recovery bonds;
- (18) Establishing provisions related to security interests in recovery property and financing statements;
- (19) Establishing provisions related to transfers of recovery property; and
- (20) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Public Safety and Intergovernmental and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3096, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3096, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Awa).

SRep. 2675 (Joint) Energy, Economic Development, and Tourism and Government Operations on S.B. No. 2677

The purpose and intent of this measure is to:

- (1) Amend the entity responsible for approving a variance for the installation of solar water heater systems from the Chief Energy Officer to the appropriate county planning department; and
- (2) Require the fees collected by each county planning department to be deposited into the appropriate county planning department operating fund.

Your Committees received testimony in support of this measure from the Hawaii State Energy Office and County of Hawai‘i Planning Department.

Your Committees received testimony in opposition to this measure from the Maui County Office of the Mayor and Blue Planet Foundation.

Your Committees received comments on this measure from Hawai'i Gas.

Your Committees find that county planning departments possess an in-depth understanding of the unique environmental, economic, and infrastructural characteristics that define their respective regions. Your Committees further find that transferring solar water heater variance decision-making to the counties capitalizes on the localized expertise present in each jurisdiction. This measure enables the counties to stay at the forefront of developments and update policies to reflect the latest technological, economic, and environmental considerations.

Your Committees have amended this measure by:

- (1) Replacing references to "county planning department" with "county authority having jurisdiction over building permits";
- (2) Inserting language to authorize a homeowner, or homebuilder on behalf of a future homeowner, to attest for or submit a variance application;
- (3) Clarifying that a demand water heater device approved by a nationally recognized testing laboratory, rather than Underwriters Laboratories, Inc., is eligible for a variance;
- (4) Inserting language that expands qualified attestations for a variance application;
- (5) Inserting language to require solar water heater variance requests to be submitted concurrently with the building permit application; provided that if the building permit application indicates the installation of a solar water heater, and a different water heating technology is installed after the building permit is issued, any solar water heater variance request submitted before or after the completion of the new single-family dwelling's construction shall be automatically denied;
- (6) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (7) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note the County of Hawaii's testimony proposing additional amendments to include into this measure and request that these concerns be considered further by subsequent committees who may choose to deliberate on this measure.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2677, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2677, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2676 Energy, Economic Development, and Tourism on S.B. No. 2951

The purpose and intent of this measure is to make an appropriation to the Agribusiness Development Corporation to establish positions to maintain and improve the East Kauai irrigation system and for maintenance of and improvements to the system.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources; Department of Hawaiian Home Lands; Agribusiness Development Corporation; County of Kauai Office of the Mayor; County of Kauai Office of Economic Development; Local Food Coalition; Ulupo Initiative; Hawai'i Farm Bureau; Larry Jeffs Farms, LLC; Saiva Siddhanta Church; Lin's Farms; Kalepa Coalition; West Kauai Business and Professional Association; Kaua'i Chamber of Commerce, Inc.; East Kauai Water Users' Cooperative; and three individuals.

Your Committee finds that the East Kauai irrigation system is a critical irrigation system that supports agricultural production in the State and is relied upon by numerous farmers and ranchers. Your Committee further finds that the East Kauai irrigation system is a century-old system that requires repair, renovation, and improvements. This measure makes a necessary appropriation for maintenance and improvements to the East Kauai irrigation system to continue to provide irrigation water to farm operations in East Kauai.

Your Committee notes that this measure contains an appropriation for an unspecified amount. Should your Committee on Ways and Means choose to deliberate on this measure, your Committee respectfully requests that it consider an appropriate amount to be inserted.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2951, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2951, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2677 Energy, Economic Development, and Tourism on S.B. No. 3045

The purpose and intent of this measure is to:

- (1) Increase the cap for awards to assist businesses applying for the Small Business Innovation Research Grant Program and the Small Business Technology Transfer Grant Program of the Hawaii Technology Development Corporation;
- (2) Add the purchase of renewable energy systems as an eligible expense under the Manufacturing Development Grant Program; and
- (3) Clarify that training on both new and existing manufacturing equipment is an eligible expense for the Manufacturing Development Grant Program.

Your Committee received testimony in support of this measure from the Hawaii Technology Development Corporation; Department of Business, Economic Development, and Tourism; University of Hawai'i System; Chamber of Commerce Hawaii; and Hawaii Food Industry Association.

Your Committee received comments on this measure from Oceanit.

Your Committee finds that it is critical for the State to diversify the local economy by developing a flourishing technology industry that provides quality, high-paying jobs for Hawaii residents. Therefore, this administrative measure makes various amendments to the Hawaii Technology Development Corporation law under chapter 206M, Hawaii Revised Statutes. Specifically, this measure will encourage and assist applicants to obtain federal grants by increasing the cap for awards that may be used to contract grant writing assistance; increase workforce productivity and wages by clarifying that training on new or existing manufacturing equipment is an eligible expense under the Manufacturing Development Grant Program; and help manufacturers offset the high energy costs in Hawaii by adding the purchase of renewable energy systems as an eligible expense under the Manufacturing Development Grant Program.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3045, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3045, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2678 Energy, Economic Development, and Tourism on S.B. No. 3195

The purpose and intent of this measure is to amend the definition of "renewable energy producer" in section 171-95, Hawaii Revised Statutes, to allow renewable energy producers to sell to entities other than an electric utility company regulated under chapter 269, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Hawaii State Energy Office; Department of Land and Natural Resources; and Tigershark, LLC.

Your Committee received testimony in opposition to this measure from the International Brotherhood of Electrical Workers Local Union 1260.

Your Committee received comments on this measure from the Public Utilities Commission, Hawaiian Electric, and Ulupono Initiative.

Your Committee finds that it is the goal of the State to achieve a one hundred percent renewable energy portfolio standard by 2045, which includes reducing greenhouse gas emissions to at least fifty percent below 2005 levels. Greenhouse gas emissions are not just the result of electricity generation but are also the result of transportation and aviation sectors, which utilize fossil fuels. With the advancement of various technologies, there are now more renewable fuel options available to help facilitate the replacement of fossil fuels and mitigate carbon emissions, including those produced by transportation and aviation that can help the State reach its renewable energy goals. This measure will further the State's renewable energy goals by allowing renewable energy producers to sell to entities other than an electric utility.

Your Committee has amended this measure by:

- (1) Inserting an effective date of January 1, 2060, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee notes the Public Utility Commission's concern that, to the extent this measure enables, the Commission underscores the need to carefully identify and examine the policies and procedures required to implement retail wheeling. Your Committee requests these matters be further considered by subsequent committees who may choose to deliberate on this measure.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3195, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3195, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5; Ayes with Reservations (Fevella). Noes, none. Excused, none.

SCRep. 2679 Health and Human Services on S.B. No. 3128

The purpose and intent of this measure is to repeal the requirement to transfer the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii Health Systems Corporation, and Hawaii Health Systems Corporation Oahu Region.

Your Committee finds that Act 212, Session Laws of Hawaii 2021 (Act 212), mandated the transfer of the Oahu Regional Health Care System from the Hawaii Health Systems Corporation to the Department of Health, to assist with addressing the gap in the behavioral health care system between acute psychiatric care facilities and low acuity residential treatment. However, the planned transfer of the Oahu Regional Health Care System was estimated at \$10.3 million, with an annual post-transition cost of \$5 million, creating a high cost to complete the transition and maintain operations with no additional services. Therefore, this measure provides an alternative plan to addressing the goals of Act 212 while ensuring continuity of services for patients utilizing services at the Oahu Regional Health Care System.

Your Committee has amended this measure by:

- (1) Amending Act 212, Session Laws of Hawaii 2021, to repeal part II, which contains language that would have gone into effect on December 31, 2025, regarding the transfer of the Oahu Regional Health Care System to the Department of Health;
- (2) Inserting language to require the Oahu Regional Health Care System and the Department of Health to enter into an agreement regarding Oahu Regional Health Care System taking care of low acuity patients in the Department of Health's custody by the end of 2024;
- (3) Inserting an effective date of December 31, 2050, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3128, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2680 Transportation and Culture and the Arts on S.B. No. 3183

The purpose and intent of this measure is to:

- (1) Provide authority for a county to impose a mileage-based road usage charge;
- (2) Provide for disposition of funds of a county mileage-based road usage charge;
- (3) Clarify the disposition of funds of a state mileage-based road usage charge; and
- (4) Repeal the maximum amount a driver will pay in a mileage-based road usage charge on June 30, 2028.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii State Energy Office, Oahu Metropolitan Planning Organization, one member of the Honolulu City Council, one member of the Kaua'i County Council, and Ulupono Initiative.

Your Committee received testimony in opposition to this measure from the Hawai'i Automobile Dealers' Association and three individuals.

Your Committee received comments on this measure from the Tax Foundation of Hawaii.

Your Committee finds that as fuel tax revenues decline, the Department of Transportation supports the adoption of a per-mile road usage charge to provide fair and sustainable funding for the State's road infrastructure. Your Committee further finds that permitting counties to do this will result in lower administrative costs for the state and county agencies tasked with implementing the road usage charge and create more efficiency and simplicity for the traveling public as the State begins transitioning to a fair and sustainable source of transportation funding. This measure will promote fairness and guarantee a continual and equitable source of funding for road maintenance as the State works towards decarbonizing ground transportation.

Your Committee has amended this measure by:

- (1) Adding the definition of "motor vehicle" to the county mileage-based road usage charge;
- (2) Amending the definition of "motor vehicle" in section 431:10C-103, Hawaii Revised Statutes;
- (3) Adding language to authorize the State Highway Fund to be expended for purposes and functions connected with traffic control and preservation of safety on public highways and streets;
- (4) Deleting language that established county subaccounts within the State Highway Fund;
- (5) Adding language to authorize the State Highway Fund to be expended by the counties for the acquisition, design, construction, improvement, repair, and maintenance of pedestrian walkways; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3183, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3183, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2681 Transportation and Culture and the Arts on S.B. No. 367

The purpose and intent of this measure is to:

- (1) Cap the service charges for a primary and secondary ticket seller;
- (2) Require website operators to guarantee refunds in certain circumstances and disclose that the website is not the primary ticket seller;
- (3) Prohibit variable demand pricing, speculative tickets, and the usage of bots; and
- (4) Make conforming amendments.

Your Committee received testimony in support of this measure from Rick Bartalini Presents.

Your Committee received testimony in opposition to this measure from the Department of Commerce and Consumer Affairs Office of Consumer Protection.

Your Committee finds that customer frustration with the ticket-purchasing process for popular events is on the rise due to a lack of transparency. Your Committee further finds that technology has proliferated and enabled secondary market profiteers, commonly known as scalpers, who exacerbate the frustrations of the ticket-purchasing process to the detriment of ordinary consumers. While the issue of secondary market profiteers is multifaceted, your Committee believes that an intermediate approach is the most pragmatic at providing consumers with protection and fairness in the ticket—purchasing process.

Your Committee has amended this measure by:

- (1) Deleting the contents of the chapter except language prohibiting tickets to be sold at a higher price than the original price charged by the primary venue ticket provider;
- (2) Inserting an effective date of January 1, 2050, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 367, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2682 (Joint/Majority) Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2443

The purpose and intent of this measure is to:

- (1) Establish the Automated Speed Enforcement Systems Program;
- (2) Authorize the State or counties to administer the Automated Speed Enforcement Systems Program;
- (3) Require fines collected beginning January 1, 2025, for violations on a county highway to be expended for the operation of the Automated Speed Enforcement Systems Program;
- (4) Create a new offense of noncompliance with the posted speed limit under the Automated Speed Enforcement System; and
- (5) Appropriate funds.

Your Committees received testimony in support of this measure from the Department of Transportation, Disability and Communication Access Board, Department of Transportation Services of the City and County of Honolulu, Honolulu Police Department, and one individual.

Your Committees received testimony in opposition to this measure from the Office of the Public Defender and two individuals.

Your Committees received comments on this measure from The Judiciary and Department of Budget and Finance.

Your Committees find that the prevalence of drivers who violate state traffic laws, particularly drivers who speed, place other roadway users and pedestrians at greater risk. According to the Department of Transportation, speeding has contributed to almost fifty percent of all motor vehicle fatalities. This measure establishes an Automated Speed Enforcement Systems Program to protect Hawaii's roadways and promote public safety.

Your Committees have amended this measure by:

- (1) Clarifying this measure as an emergency appropriation;
- (2) Clarifying that the Automated Speed Enforcement Systems Program is to be implemented in not more than ten school zones throughout the State;
- (3) Clarifying that the purpose of the general fund appropriation is to appropriate funds for the establishment and implementation of the Automated Speed Enforcement Systems Program in not more than ten school zones;

- (4) Adding language to appropriate funds from the Highway Safety Fund into the Automated Speed Enforcement Systems Program Special Fund;
- (5) Adding language to appropriate funds from the Automated Speed Enforcement Systems Program Special Fund for ten radar devices and one full-time equivalent consultant position;
- (6) Specifying that the appropriations shall not lapse at the end of the fiscal biennium; provided that all moneys from the appropriations unencumbered as of June 30, 2026, shall lapse as of that date;
- (7) Making conforming amendments;
- (8) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Transportation and Culture and the Arts and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2443, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2443, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Transportation and Culture and the Arts: Ayes, 4. Noes, 1 (Awa). Excused, none.

Public Safety and Intergovernmental and Military Affairs: Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2683 Health and Human Services on S.B. No. 3279

The purpose and intent of this measure is to:

- (1) Establish within the Office of Wellness and Resilience the State of Well-Being Project to assess and enhance tier 1 and tier 2 mental health support services for all key stakeholder communities across the State; and
- (2) Make an appropriation to establish an unspecified number of full-time equivalent mental health specialist positions within the Office of Wellness and Resilience.

Your Committee received testimony in support of this measure from the Executive Office on Early Learning, Office of Wellness and Resilience, Hawai'i Health and Harm Reduction Center, Hawai'i Children's Action Network Speaks!, Filipino Mental Health Initiative – Hawaii, Maui Chamber of Commerce, and three individuals.

Your Committee finds that the State is experiencing a mental health crisis among all ages of the population. Trauma-informed care, an approach to understanding and responding to the widespread impact of trauma, provides one method to address mental health through safety, peer support, empowerment, and voice and choice. This measure provides additional support for trauma-informed care and trauma-responsive practice that will benefit both the public who interact with these systems and the State's workforce.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3279 and recommends that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2684 (Joint) Energy, Economic Development, and Tourism and Water and Land on S.B. No. 3381

The purpose and intent of this measure is to:

- (1) Establish the Lele Community District to facilitate rebuilding in Lahaina;
- (2) Establish the Lele Community Special Fund;
- (3) Amend the Hawaii Community Development Authority membership to include the members representing the new district; and
- (4) Make an appropriation into the Lele Community Special Fund for the purpose of the Lele Community District.

Prior to the hearing on this measure, your Committees posted and made available for public view a proposed S.D. 1, which amends this measure by:

- (1) Establishing state lands within the boundaries of the Lele Community District;
- (2) Establishing the Lele Community District Board, specifying its powers and the election procedures for its members;
- (3) Clarifying the relationship between the Board and the Hawaii Community Development Authority; and
- (4) Making various appropriations to effectuate the measure.

Your Committees received testimony in support of the proposed S.D. 1 from the Hawai'i Community Development Authority; Department of Business, Economic Development, and Tourism; one member of the Honolulu City Council; Ho'omana Pono, LLC; and five individuals.

Your Committees received testimony in opposition to the proposed S.D. 1 from six individuals.

Your Committees received comments on the proposed S.D. 1 from the Office of the Governor; Office of Elections; Department of Budget and Finance; Maui County Office of the Mayor; one member from the Maui County Council; Historic Hawai'i Foundation; Lahaina Strong; Maui Chamber of Commerce; and one individual.

Your Committees find that the August 2023 Maui wildfires devastated Lahaina's heritage, economy, and sense of place, and has deeply affected housing, businesses, jobs, and treasured resources. Your Committees further find that if Lahaina is not rebuilt in a deliberate, coordinated, and expeditious manner, the area may languish in the long term and affect the well-being of the land, the people, and the economy. This measure provides an opportunity to rebuild Lahaina by preserving and reintroducing its valued resources in a manner that reflects the values and priorities of its residents and businesses, and addresses future challenges, including climate change and affordable housing.

Your Committees have amended this measure by adopting the proposed S.D. 1 and further amending the measure by:

- (1) Inserting language to require that the first election of the Lele Community District Board take place on January 31, 2025;
- (2) Inserting an appropriation of \$250,000 for the Office of Elections to conduct the special Lele election in January 2025;
- (3) Inserting language clarifying that the assessment for operating costs shall not constitute a tax on real property;
- (4) Inserting language requiring that the assessments for operating costs shall be deposited into the Lele Community Special Fund;
- (5) Clarifying that the transfer of state-owned lands within the Lele Community District shall be determined by the Lele Community District Board;
- (6) Authorizing, rather than requiring, the Lele Community District Board to adopt rules;
- (7) Deleting language that would have required the initial members of the Lele Community District Board to be appointed by the Governor, subject to the advice and consent of the Senate;
- (8) Clarifying that there shall be nine members on the Lele Community District Board; and
- (9) Inserting an effective date of January 1, 2060, to encourage further discussion.

Your Committees note the Hawaii Community Development Authority's request that from the date of approval of this measure until the Lele Community District Board is elected, the Hawaii Community Development Authority should be allowed staff to carryout preliminary work, including finding office space, hiring and retention of staff, and engaging with community members. Your Committees further notes that the initial assessments of the Lele Community District by the Lele Community District Board prioritize landowners with large areas of land affected, as these residents are especially concerned about recovery of their losses. Your Committees additionally note the possible establishment of advisory groups to the Lele Community District Board that would include general cultural specialists, owners of Maui's small businesses, Maui's nonprofit organizations, and individual residents with business ties. Having this advisory group assist and guide the Lele Community District Board in their development plans may provide affected Lahaina residents with comfort in knowing that the coordinated recovery plans are being developed by those who have strong ties to the Lahaina community. Accordingly, your Committees find that these issues merit further discussion and respectfully request that subsequent committees who choose to deliberate on this measure consider these comments.

As affirmed by the records of votes of the members of your Committees on Energy, Economic Development, and Tourism and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3381, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3381, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Energy, Economic Development, and Tourism: Ayes, 5. Noes, none. Excused, none.

Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2685 Government Operations on S.B. No. 2994

The purpose and intent of this measure is to:

- (1) Require that the adoption, amendment, or update of a building code or standard by the State Building Code Council be within two years of every other official publication date of a code or standard; and
- (2) Clarify that the Hawaii State Building Code acts as the interim county building code until superseded by the county.

Your Committee received testimony in support of this measure from D.R. Horton Hawaii LLC, HPM Building Supply, Grassroot Institute of Hawaii, NAIOP Hawaii, Holomua Collaborative, and Building Industry Association of Hawaii.

Your Committee received testimony in opposition to this measure from the Subcontractors Association of Hawaii; Blue Planet Foundation; American Society of Heating, Refrigerating and Air Conditioning Engineers; and Sierra Club of Hawai'i.

Your Committee received comments on this measure from the Hawaii State Energy Office and Hawai'i Energy.

Your Committee finds that under the existing law, the Hawaii State Building Code Council (Council) must adopt, amend, or update certain widely recognized nationally published codes or standards identified under section 107-25, Hawaii Revised Statutes, within two years of any official publication date of a code or standard. Your Committee recognizes that the State continues to experience a housing shortage and that this is intended to facilitate the construction of housing in the State while providing sufficient time for the Council, along with industry stakeholders, to adequately review the new codes or standards, assess potential changes and financial impacts to homeowners and builders, and adapt certain codes or standards to Hawaii's unique island environment. However, your Committee acknowledges the concerns raised by multiple testifiers that this measure would further delay the adoption of critical building codes and standards that are not only necessary for the life, health, and safety of communities in the State, but also for the State to receive federal funding for infrastructure resiliency projects and to meet its climate change and renewable energy goals. Accordingly, this measure needs to be amended to address this issue.

Your Committee has amended this measure by:

- (1) Amending language for the requirement of the State Building Code Council to adopt, amend, or update a building code or standard within two years of every other official publication date of a code or standard to only apply to the International Building Code and the International Residential Code, as published by the International Code Council;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2994, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2994, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2686 Government Operations on S.B. No. 2579

The purpose and intent of this measure is to require that all newly constructed state buildings where a water fountain is required also have a water bottle filling station.

Your Committee received testimony in support of this measure from one member of the Honolulu City Council.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that reducing waste is necessary to protect the State's delicate island ecosystem. Your Committee also finds that having a water bottle filling station at new state buildings would not only contribute to the State's environmental protection goals, but also create greater accessibility to potable water for the public.

Your Committee further finds that the Department of Accounting and General Services can have water bottle filling stations at new state buildings without a legislative mandate, as was noted in the testimony in opposition, making this measure unnecessary. Although your Committee agrees with this observation, your Committee believes that this important policy merits further consideration.

Your Committee has amended this measure by:

- (1) Clarifying that the requirement to have a water bottle filling station applies to new state building constructions that commence on or after July 1, 2025;
- (2) Inserting language that exempts certain state buildings from having a water bottle filling station when having one presents a health, safety, or security risk to the building's users; and
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2579, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2687 Government Operations on S.B. No. 2816

The purpose and intent of this measure is to:

- (1) Add a new chapter in the Hawaii Revised Statutes that:
 - (A) Requires the Lieutenant Governor to assess a fee of \$10 for each apostille or non-apostille certification issued;
 - (B) Establishes an Apostilles and Certificate Special Fund; and
 - (C) Allows the Office of the Lieutenant Governor to expend moneys in the special fund for operational purposes;
- (2) Appropriate \$10,000 into the Apostilles and Certifications Special Fund;
- (3) Require all state agencies to:
 - (A) Before adopting, amending, or repealing an administrative rule, provide electronic notice of the proposed rulemaking to certain persons;
 - (B) When adopting, amending, or repealing an administrative rule, display changes to the rules in Ramseyer format; and
 - (C) Make the full text of their rules available on the Office of the Lieutenant Governor's internet website in a digitally accessible and searchable format; and
- (4) Make appropriations for the project for centralization of the full text of the Hawaii Administrative Rules for public access on the Lieutenant Governor's website.

Your Committee received testimony in support of this measure from the Grassroot Institute of Hawaii.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Office of the Lieutenant Governor and Department of the Attorney General.

Your Committee finds that the Lieutenant Governor's office processes nearly eleven thousand apostilles per year. As apostilles are critical documents utilized in divorce proceedings, marriage certificates, and un-probated wills, these documents serve a significant purpose in a variety of settings. This measure will promote efficiency with existing government operations to provide Hawaii's people with timely access to services.

Your Committee has amended this measure by:

- (1) Deleting part I of this measure and replacing it with the contents of S.B. No. 3169, a substantially similar measure that:
 - (A) Adds a new chapter in the Hawaii Revised Statutes that:
 - (i) Allows the Office of the Lieutenant Governor to assess a fee for each apostille or non-apostille certification issued;
 - (ii) Establishes an Apostilles and Certificate Special Fund;
 - (iii) Allows the Office of the Lieutenant Governor to expend moneys in the special fund for operational and administrative expenses of the apostille and certification of document services; and
 - (iv) Requires the Office of the Lieutenant Governor to adopt rules;
 - (B) Appropriate \$12,000 into and out of the Apostilles and Certifications Special Fund for operational and administrative expenses of the apostille and certification of document services;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2816, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2816, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2688 (Joint) Labor and Technology and Higher Education on S.B. No. 3317

The purpose and intent of this measure is to establish a collective bargaining unit for graduate assistants employed by the University of Hawaii and community college system.

Your Committees received testimony in support of this measure from the University of Hawaii Professional Assembly; National Education Association; Hawaii State Teachers Association; United Public Workers, AFSCME Local 646, AFL-CIO; Democratic Party of Hawai'i; Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; UNITE HERE Local 5; Americans for Democratic Action; ILWU Local 142; the Democratic Party of Hawai'i Labor Caucus; Academic Labor Union; Democratic Party of Hawai'i Education Caucus; Academic Labor United; Law Office of Lance D. Collins; Hawai'i Workers Center; National Education Association National Council on Higher Education; and one hundred eighty-one individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees received comments on this measure from the Hawai'i Labor Relations Board, Department of Budget and Finance, and University of Hawai'i System.

Your Committees find that the Hawai'i Labor Relations Board determined that graduate assistants at the University of Hawaii are public employees as defined under section 89-2, Hawaii Revised Statutes (HRS). Your Committees further find that the Hawaii Labor Relations Board also concluded that graduate assistants are not included in bargaining units (1), (2), (4) through (6), (9) through (12), (14), or (15) that are identified in section 89-6, HRS. Therefore, this measure establishes a collective bargaining unit for graduate assistants to allow these public employees the right and ability to collectively bargain the terms and conditions of their jobs.

Your Committees note the concerns raised during the public hearing on this measure relating to graduate assistants' benefits received as both students and workers. Testimony of the Department of Budget and Finance and University of Hawaii provided that the tuition waiver received by University of Hawaii graduate assistants is not considered taxable income. In addition to receiving a graduate level education, graduate assistants enjoy a plethora of other benefits, including counseling, mentoring, and other benefits exclusive to students at the University.

Your Committees have amended this measure by:

- (1) Inserting a definition of "graduate assistants"; and
- (2) Inserting an effective date of July 1, 2055, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3317, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3317, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.
Labor and Technology: Ayes, 3. Noes, none. Excused, 2 (Ihara, Lee).
Higher Education: Ayes, 4. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2689 (Joint) Labor and Technology and Government Operations on S.B. No. 2516

The purpose and intent of this measure is to:

- (1) Rename the position of state Chief Information Officer as the Deputy Comptroller for Information Technology; and
- (2) Specify that the Deputy Comptroller for Information Technology shall be appointed by, and shall report to, the Comptroller.

Your Committees received testimony in opposition to this measure from the Office of Enterprise Technology Services and one individual.

Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that currently the Office of Enterprise Technologies is attached to the Department of Accounting and General Services, however, it has near full autonomy as an attached agency. The Office of Enterprise Technology currently reports directly to the Governor and the Chief Information Officer who is appointed by the Governor. This leads to a unique situation where in statute, the Comptroller has managerial responsibility over the Office of Enterprise Technology, but in practice, this is not the case. This measure corrects this organizational and hierarchical glitch.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2516, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2516, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).
 Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2690 (Majority) Transportation and Culture and the Arts on S.B. No. 3021

The purpose and intent of this measure is to rename and expand the scope of the Electric Bicycle and Electric Moped Rebate Program to the Electric Mobility Rebate Program, and increase the potential rebate amount.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawai'i State Energy Office, Hawai'i Climate Change Mitigation and Adaptation Commission, Oahu Metropolitan Planning Organization, 350 Hawai'i, Blue Planet Foundation, Hawai'i Bicycling League, Ulupono Initiative, and seven individuals.

Your Committee received testimony in opposition to this measure from the Moped Doctors and one individual.

Your Committee finds that the single greatest recent factor contributing to the increasing cost of living in Hawaii is the rising cost of transportation. The legislature further finds that meeting the State's lower cost of living and clean energy goals necessitates the rapid transition to electric vehicles that utilize local, renewable energy sources. Therefore, this measure will create cheaper transit options by providing increased rebates for electric bicycles, electric mopeds, and other electric mobility devices.

Your Committee has amended this measure by:

- (1) Adding language to define adaptive electric bicycles and qualifying them for the full rebate;
- (2) Increasing the cap on total rebates the Department of Transportation may issue from \$700,000 to \$2,000,000;
- (3) Repealing language that would have required signatures at the time of sale;
- (4) Deleting language that would have required the Department of Transportation to prepare a retailer application and portal to provide rebates directly at the point of sale;
- (5) Adding language to authorize the Department of Transportation to prepare a retailer application and portal to provide rebates at the point of sale;
- (6) Clarifying that the Department of Transportation may contract with third-party administrators for the program, who are authorized to pay the rebates;
- (7) Adding language to authorize expenditure to the Department of Transportation;
- (8) Amending section 1 to reflect its amended purpose; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3021, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3021, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
 Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2691 Transportation and Culture and the Arts on S.B. No. 2201

The purpose and intent of this measure is to require license plates to include okinas and authorize the use of all uppercase letters, all lowercase letters, or initial capital letters in motor vehicle license plates.

Your Committee received testimony in support of this measure from the Office of the Mayor of the County of Hawaii, Department of Customer Services of the City and County of Honolulu, and Ulupono Initiative.

Your Committee received testimony in opposition to this measure from the Honolulu Police Department.

Your Committee finds that existing law does not permit the inclusion of the 'okina on license plates. Your Committee recognizes the importance of diacritical marks to both native and second language speakers of Hawaiian language. This measure therefore will support the broader implementation of Hawaiian diacritical marks across more aspects of the state government, including license plates.

Your Committee has amended this measure by:

- (1) Limiting special number plates for environmental conservation to electric vehicles only, with all the benefits and restrictions of electric vehicle plates; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2201, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2201, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2692 (Majority) Transportation and Culture and the Arts on S.B. No. 3287

The purpose and intent of this measure is to:

- (1) Change the fees that a towing company may charge to tow vehicles left unattended on private and public property; and
- (2) Require certain towing companies to maintain certificates of good standing issued by the Department of Commerce and Consumer Affairs.

Your Committee received testimony in support of this measure from Outwest Towing, LLC; Pinky Tows Pacific; Finest Towing; Quick Tow, LLC; and nine individuals.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and Hawaii Insurers Council.

Your Committee finds that in 2020, the Legislature strengthened the protections available to consumers under state law that was intended to provide more robust public and private enforcement tools to deter unlawful practices by towing companies. According to testimony received by your Committee, towing rates have not been raised since 2008, even though inflation has caused operating costs to increase dramatically. This measure will allow towing companies to meet current market standards and match towing rates to the current economy.

Your Committee has amended this measure by:

- (1) Amending all fees to be unspecified amounts;
- (2) Deleting language that would have required each towing company engaged in towing to achieve and maintain a certificate of good standing issued by the Department of Commerce and Consumer Affairs;
- (3) Adding language that authorizes a towing company or parking management company to charge a fee for the placement or removal of vehicle immobilization devices;
- (4) Inserting an effective date of January 1, 2050, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Culture and the Arts that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3287, S.D. 1, and be referred to your Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (Elefante). Noes, 2 (Inouye, Awa). Excused, none.

SCRep. 2693 (Majority) Housing on S.B. No. 2078

The purpose and intent of this measure is to prohibit a landowner from bringing a private cause of action against a contractor, developer, or owner of affordable housing for trespass in instances where a temporary construction crane or other construction machinery intrudes into the landowner's airspace during construction, repair, or maintenance of affordable housing; provided that the conduct does not materially interfere with the landowner's actual use of the landowner's premises.

Your Committee received testimony in support of this measure from the Building Industry Association of Hawaii.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that Hawaii is currently undergoing a housing crisis. As necessary housing is constructed and new projects are undertaken, the area in which the construction occurs can become congested, which may include the use of construction cranes in high-density areas. This measure allows developers some leeway when constructing affordable housing projects to protect against certain trespass claims.

Your Committee has amended this measure by:

- (1) Clarifying that the limits to liability granted by this measure shall apply only to conduct that occurs not less than twenty-five feet above the airspace of a neighboring landowner's premises;
- (2) Inserting a definition for "temporarily" to mean the duration of the construction; provided the project is being constructed in good faith;
- (3) Clarifying the trespass liability protections apply both when a crane is and is not in use; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2078, S.D. 1, and be referred to your Committee on Judiciary.

Signed by President on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2694 (Joint) Government Operations and Agriculture and Environment on S.B. No. 3260

The purpose and intent of this measure is to require that, by an unspecified date, one hundred percent of the food purchased by certain state departments consist of fresh local agricultural products and local value-added, processed, agricultural, or food products.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation; Hawai'i Farm Bureau; Hawaii Cattlemen's Council, Inc.; Hawai'i Food+ Policy; and three individuals.

Your Committees received testimony in opposition to this measure from the Department of Corrections and Rehabilitation.

Your Committees received comments on this measure from the Department of Agriculture and Department of Education.

Your Committees find that supporting local businesses and encouraging the production and use of local agricultural products are a matter of statewide concern. According to testimony received by your Committees, this measure focuses on creating new markets and revenue streams for local producers, which helps them maintain and create jobs and expand and invest in their agribusiness by securing large institutional contracts. However, your Committees acknowledge the concerns raised by numerous testifiers that various food products are either not available, of insufficient quantity, or are too cost-prohibitive to be procured. Accordingly, this measure needs to be amended to address this issue.

Your Committees have amended this measure by:

- (1) Requiring that, by January 1, 2112, one hundred percent of the food purchased by certain state departments consist of fresh local agricultural products and local value-added, processed, agricultural, or food products;
- (2) Inserting language that requires the Department of Agriculture to consider substitutes and new technology that would assist certain state departments to meet the benchmarks on purchasing fresh local agricultural products and local value-added, processed, agricultural, or food products; and
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Government Operations and Agriculture and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3260, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3260, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).
Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2695 (Joint) Government Operations and Labor and Technology on S.B. No. 2829

The purpose and intent of this measure is to allow the Department of Accounting and General Services to employ persons exempt from chapter 76 and 89, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services.

Your Committees received testimony in opposition to this measure from United Public Workers, AFSCME Local 646, AFL-CIO and Hawaii Government Employees Association, AFSCME Local 152, AFL-CIO.

Your Committees find that the Department of Accounting and General Services (Department) is a central support agency that provides services to agencies and departments statewide, with many programs that are essential to keeping the government functioning. The Department is often tasked with critical enterprise-level projects that necessitate the expedient hiring of uniquely-skilled and specialized staff needed to meet the required timelines, objectives, and outcomes of these projects. This measure will allow the Department to effectively respond to the new and growing needs of those it serves while also increasing the Department's long-term capabilities to effectively carry out the many critical state functions assigned to the Department.

Your Committees have amended this measure by:

- (1) Inserting language allowing the Department of Accounting and General Services to employ persons exempt from chapters 76 and 89, Hawaii Revised Statutes, within the Comptroller's office in support of communications, change management, and business process improvement programs as part of the State's information technology modernization efforts; provided that the persons are members of the State Employees' Retirement System and eligible to receive the benefits of any state employee benefit program applicable to officers and employees of the State;

- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2829, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2829, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 5. Noes, none. Excused, none.
 Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2696 (Joint) Government Operations and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2972

The purpose and intent of this measure is to require all public buildings constructed after January 1, 2025, to be designed to withstand category five hurricanes and be used as shelters in the event of an emergency.

Your Committees received testimony in support of this measure from one member of the Kailua Neighborhood Board; 2050 Hawaii, Inc.; Be Ready Manoa; Hui O Hauula; Windward Coalition; and thirteen individuals.

Your Committees received comments on this measure from the Department of Education.

Your Committees find that the State is vulnerable to catastrophic natural disasters such as earthquakes, tsunamis, floods, volcanic eruptions, and high winds that can devastate communities. Climate change is increasing the frequency of these natural disasters. For example, the spawning area for hurricanes is moving northward as a result of warming seas, causing the State to be more directly in the paths of hurricanes moving westward across the Pacific. As global warming is causing stronger hurricanes, improved emergency preparedness is of paramount importance to the State. Therefore, this measure requires stronger resiliency of public buildings to expand available shelters and increase protection for Hawaii's people.

Your Committees have amended this measure by:

- (1) Clarifying that all high-occupancy public buildings constructed after January 1, 2025, are required to be designed to withstand category five hurricanes, as determined by wind zone maps, and to be utilized as shelters in the event of an emergency;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2972, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2972, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 5; Ayes with Reservations (San Buenaventura). Noes, none. Excused, none.
 Public Safety and Intergovernmental and Military Affairs: Ayes, 5. Noes, none. Excused, none.

SCRep. 2697 (Joint) Government Operations and Water and Land on S.B. No. 2588

The purpose and intent of this measure is to appropriate funds to the Department of Accounting and General Services for:

- (1) One full-time equivalent (1.0 FTE) historic preservation specialist position; and
- (2) Four full-time equivalent (4.0 FTE) archaeologist positions.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Historic Hawai'i Foundation, and six individuals.

Your Committees received comments on this measure from the Department of Accounting and General Services.

Your Committees find that historic preservation plays a critical role in perpetuating the State's unique history and preservation of the history and cultural practices of Native Hawaiians. Presently, the Department of Accounting and General Services and the State Historic Preservation Division of the Department of Land and Natural Resources are tasked with evaluating and enforcing state and federal historic preservation law. However, the Department of Accounting and General Services does not have an internal subject matter expert, and thereby relies on contractors to complete this crucial work. This measure will improve interdepartmental communication, expedite certain historic preservation mandates, and improve project management and planning for upcoming or pending projects by increasing resources available to the Department of Accounting and General Services.

Your Committees have amended this measure by:

- (1) Appropriating funds for the establishment of four full-time equivalent (4.0 FTE) archaeologist positions and one full-time equivalent (1.0 FTE) historic preservation specialist position within the State Historic Preservation Division of the Department of Land and Natural Resources, instead of in the Department of Accounting and General Services;
- (2) Requiring the State Historic Preservation Division to collaborate with the Department of Accounting and General Services on matters relating to historic preservation;
- (3) Amending section 1 to reflect its amended purpose;

- (4) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2588, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2588, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).
 Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2698 (Joint) Government Operations and Water and Land on S.B. No. 2948

The purpose and intent of this measure is to:

- (1) Authorize residential uses in areas zoned for commercial to be considered permitted if the residential use is limited by ordinance to floors above the ground floor of a building or structure and development standards are met;
- (2) Exempt areas zoned under the Hawaii Community Development Authority; and
- (3) Require each county to adopt ordinances that authorize for adaptive reuse of existing commercial buildings in the county's building codes.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources, Hawaii Housing Finance and Development Corporation, one member of the Kaua'i County Council, one member of the Maui County Council, Oahu Metropolitan Planning Organization, Housing Hawai'i's Future, NAIOP Hawaii, Building Industry Association of Hawaii, Building Owners and Managers Association, Grassroot Institute of Hawai'i, and six individuals.

Your Committees received comments on this measure from the Disability and Communications Access Board.

Your Committees find that the State is experiencing a chronic housing shortage. One alternative, the reuse of commercial buildings for residential purposes, can make an important contribution to easing the State's housing shortage. As commercial centers of older communities had a mix of commercial and residential uses, reintroducing mixed uses increases the supply of available housing while returning to the historic character of certain communities. This measure offers new opportunities to utilize mixed-use housing while alleviating the State's chronic housing shortage.

Your Committees have amended this measure by:

- (1) Requiring the counties to facilitate compliance with the Americans with Disabilities Act of 1990 when adopting an adaptive reuse building code ordinance;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Water and Land that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2948, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2948, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
 Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).
 Water and Land: Ayes, 5. Noes, none. Excused, none.

SCRep. 2699 Government Operations on S.B. No. 3307

The purpose and intent of this measure is to:

- (1) Require the Director of the Office of Information Practices to adopt rules to establish a process for the selection and appointment of trusted public representatives;
- (2) Authorize the Director of the Office of Information Practices to assign trusted public representatives to observe board meetings closed to the public;
- (3) Require the Director of the Office of Information Practices to include in the Director's annual report the activities of trusted public representatives;
- (4) Require trusted public representatives to submit a confidential report to the Director of the Office of Information Practices that a board meeting was conducted in conformance with chapter 92, Hawaii Revised Statutes;
- (5) Define "trusted public representative"; and
- (6) Authorize boards to hold certain meetings closed to the public if a trusted public representative is assigned to the meeting by the Director of the Office of Information Practices and is present at the meeting.

Your Committee received testimony in opposition to this measure from the Public First Law Center and League of Women Voters of Hawaii.

Your Committee received comments on this measure from the Office of Information Practices.

Your Committee finds that the Sunshine Law, codified in chapter 92, Hawaii Revised Statutes, is Hawaii's open meetings law, which governs the manner in which all state and county boards must conduct their official business. The purpose of the Sunshine Law is to require that the discussions, deliberations, decisions, and actions of governmental agencies be conducted as openly as possible for the purposes of transparency and good government practice. Notwithstanding, your Committee finds that when Sunshine boards enter closed meetings, also known as executive sessions, the public is not able to observe these deliberations, which are not open to public scrutiny and participation. Therefore, this measure, as introduced, would help increase transparency and public trust by authorizing a trusted public representative to observe certain closed board meetings.

Notwithstanding, your Committee has heard the concerns raised by testifiers that the role of the trusted public representative, as currently described in this measure, would not provide the necessary safeguards to promote transparency that this measure was intended to address. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by deleting its contents and inserting an amendment to section 92-4, Hawaii Revised Statutes, to authorize representatives of the news media to be allowed to attend certain executive meetings held by a Sunshine board.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3307, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2700 Government Operations on S.B. No. 618

The purpose and intent of this measure is to:

- (1) Establish the State Permitting Office within the Department of Accounting and General Services to process building and infrastructure permits for construction of state-owned buildings, state roads and highways, and other construction on state lands; and
- (2) Make an appropriation of an unspecified amount of funds for the establishment of the State Permitting Office.

Your Committee received testimony in support of this measure from two individuals.

Your Committee received comments on this measure from the Department of Accounting and General Services and Department of Education.

Your Committee finds that existing permitting procedures are lengthy, causing delays in new construction or major renovations by several years. However, certain state facilities require immediate attention to protect the safety of public users and state employees. This measure ensures government agencies have timely access to building permits for increased efficiency in infrastructure construction and major renovations.

According to testimony received by your Committee, although the State has the ability to exempt itself from the county-driven permitting process, the Department of Accounting and General Services has used the exemption on a very limited basis, because and doing so may create more problems than benefits, such as the inability to obtain liability insurance or county services, which include emergency first response; water, wastewater, and other infrastructure connection; and trash collection.

Your Committee has amended this measure by:

- (1) Deleting section 2 of this measure, which would have established the State Permitting Office and replacing it with language that requires the Department of Accounting and General Services to establish a five-year State Permit Pilot Program to process building and infrastructure permits for the construction of state-owned buildings, state roads and highways, and other construction on state lands in the wildfire disaster declaration area;
- (2) Deleting language that would have made an appropriation of an unspecified amount of funds for the establishment of the State Permitting Office, and replacing it with language that appropriates \$1,000,000 to the Department of Accounting and General Services for the establishment and administration of the first fiscal year of the State Permit Pilot Program;
- (3) Amending section 1 to reflect its amended purpose;
- (4) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committee respectfully requests that, should your Committee on Ways and Means choose to deliberate on this measure, that it consider language that requires the pursuit of federal disaster funds in response to the destruction from the August 2023 Maui wildfires, similar to that of Kauai from Hurricane Iniki in 1992. Your Committee notes that federal disaster funding should assist the county by providing resources to lessen the permit load and allow the county to concentrate on other county projects and private permitting.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 618, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 618, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2701 (Joint) Government Operations and Labor and Technology on S.B. No. 2615

The purpose and intent of this measure is to authorize the counties to adopt labor standards that include but are not limited to standards for living wages, benefits, and requirements for participation in state-approved apprenticeship programs.

Your Committees received testimony in support of this measure from the Office of the Mayor of the City and County of Honolulu, two members of the Honolulu City Council, one member of the Kauai County Council, two members of the Maui County Council, and Pacific Resource Partnership.

Your Committees received comments on this measure from the Department of Labor and Industrial Relations, Department of the Attorney General, General Contractors Association of Hawaii, and Hawaii Harbors Users Group.

Your Committees find that labor violations have a detrimental impact on the livelihoods of the State's local workforce. Businesses that utilize "underground economy" schemes conceal or misrepresent their employee population to avoid one or more of their employer responsibilities related to wages, payroll taxes, insurance, licensing, safety, or other regulatory requirements. By granting the counties the authority to adopt labor standards, each jurisdiction has the ability to protect their workers while ensuring the well-being of individuals and their families. Therefore, this measure provides the counties with an opportunity to be leaders for change while establishing fair labor standards and practices.

Your Committees note their support for this measure, as it will provide opportunities for Hawaii's people to ensure fair pay for an honest day's work. However, your Committees find that amendments to this measure are necessary to insert a defective effective date to provide Maui County with time to weigh in on this measure.

Your Committees have amended this measure by:

- (1) Providing that the labor standards adopted by the counties shall not directly conflict with labor standards established by the State;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2615, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2615, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4; Ayes with Reservations (Fevella). Noes, none. Excused, 1 (Lee).

SCRep. 2702 Government Operations on S.B. No. 2743

The purpose and intent of this measure is to authorize certain counties to use county surcharge on state tax revenues and fuel tax revenues for the repair and maintenance of private roadways that are open to and used by the public.

Your Committee received testimony in support of this measure from one member of the Maui County Council.

Your Committee received comments on this measure from the Department of the Attorney General and Tax Foundation of Hawaii.

Your Committee finds that certain roadways utilized by the public are owned by private owners. Certain roadways fall into a state of disrepair that create safety concerns for roadway users. However, as the roadways are privately owned, county agencies may not repair a road to address safety and infrastructure concerns. The repair and maintenance of these privately owned roads would not only decrease wear and tear on the privately-owned vehicles that access these roads but would also ensure the safe and timely delivery of essential public services, such as fire and emergency response vehicles. This measure empowers the counties to utilize certain revenues for the repair and maintenance of private roadways that are open to and used by the public to ensure safety and access for all roadway users, including first responders, public transportation, and emergency services.

Your Committee has amended this measure by:

- (1) Inserting legislative findings and specifying that this measure constitutes a public purpose;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2743, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2743, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2703 Government Operations on S.B. No. 2139

The purpose and intent of this measure is to:

- (1) Impose a cap on costs charged to reproduce certain government records;
- (2) Waive reproduction costs charged for the first one hundred pages if the record's disclosure serves the public interest;

- (3) Waive costs charged to duplicate government records in an electronic format;
- (4) Impose a cap on costs charged to search for, review, and segregate records; and
- (5) Provide for a waiver of fees when a record's disclosure serves the public interest.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii, Grassroot Institute of Hawaii, Hawaii Chapter of the Society of Professional Journalists, ACLU of Hawaii, and three individuals.

Your Committee received testimony in opposition to this measure from the Department of Agriculture, Department of the Attorney General, Department of Land and Natural Resources, and thirty-one individuals.

Your Committee received comments on this measure from the Department of Accounting and General Services, Department of Budget and Finance, Department of Human Services, Department of Education, Department of Corrections and Rehabilitation, University of Hawai'i System, Office of Information Practices, Employees' Retirement System, Honolulu Police Department, Public First Law Center, and one individual.

Your Committee finds that public records laws provide a critical mechanism to maintain government accountability and transparency and support citizen involvement in government decision-making. Your Committee further finds that imposition of fees on accessing these records may serve as a restriction for certain persons, causing inequity and a less informed citizenry as a whole. This measure will reduce this restriction, thereby improving transparency and accountability in government operations.

Your Committee notes the concerns raised in various testimony regarding the adverse impacts the increase in requests for public records may have on the ability of state departments and agencies to carry out their primary functions. However, your Committee believes that it is crucial to safeguard the financial and operational integrity of resources in the Lahaina area following the August 2023 Maui wildfire. Your Committee further believes that access to government records in necessary for the media and other interested parties to ensure government funds are used appropriately and that relief and recovery programs and policies are carried out with accountability and transparency for this and other potential future disasters, given the historical issues of waste and mismanagement that have followed all disasters.

Accordingly, your Committee has amended this measure by:

- (1) Limiting its scope to apply only during nationally declared disasters;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2139, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2704 Government Operations on S.B. No. 3185

The purpose and intent of this measure is to:

- (1) Authorize an alternative procurement method when the federal government provides for or approves the alternative procurement method and the head of the purchasing agency makes a written determination that it is neither practicable nor advantageous to use the existing statutory procurement methods; and
- (2) Amend the methods of source selection under section 103D-301, Hawaii Revised Statutes (HRS), to allow for alternative procurements.

Your Committee received testimony in opposition to this measure from the State Procurement Office.

Your Committee received comments on this measure from the Department of Transportation.

Your Committee finds that the Hawaii Public Procurement Code was created to promote competition, prevent favoritism and corruption, and increase transparency in government, among other things. Under existing law, all public contracts must be awarded in accordance with certain methods of source selection established under section 103D-301, HRS. However, your Committee finds that there are situations that may arise that make it impracticable or disadvantageous to utilize any of the established methods. Therefore, this measure amends the Hawaii Public Procurement Code to allow a procuring agency to select an alternative procurement method under certain circumstances.

Your Committee has amended this measure by:

- (1) Amending sections 103D-102(b)(4) and 103D-102(b)(4)(L), HRS, to exempt certain construction procurement from the Hawaii Public Procurement Code when it is neither practicable nor advantageous to the State;
- (2) Amending section 103D-405, HRS, to allow the Chief Procurement Officer to provide a waiver for certain outside contractors that participated in the development of a solicitation package that would otherwise be precluded from bidding on or receiving a contract;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and

- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3185, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2705 Government Operations on S.B. No. 3226

The purpose and intent of this measure is to provide that a maximum time period to grant or deny a business or development-related permit, license, or approval shall only apply if a request for a contested case has not been filed.

Your Committee did not receive any testimony on this measure.

Your Committee finds that maximum review and approval time periods for business or development-related permits, licenses, and approvals serve to provide all parties with a greater level of certainty of the time required for review and final determination by the issuing agency on any application for a business or development-related permit, license, or approval. This measure brings greater clarity to the business and development-related regulatory approval process.

Your Committee has amended this measure by inserting the phrase “or is required by law” after the phrase “a contested case has not been filed”, to preserve existing statutory timeframes where contested case proceedings are required.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3226, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Wakai, Awa).

SCRep. 2706 (Joint) Labor and Technology and Government Operations on S.B. No. 3007

The purpose and intent of this measure is to:

- (1) Allow a state department, division, or agency, rather than the Department of Human Resources Development, to conduct a minimum qualification review of applicants for vacant positions within the department, division, or agency; and
- (2) Require the Department of Human Resources Development to provide state departments, divisions, and agencies the applications received for vacancies under certain circumstances.

Your Committees received testimony in support of this measure from the Department of Transportation and United Public Workers, AFSCME Local 646, AFL-CIO.

Your Committees received testimony in opposition to this measure from the Department of Human Resources Development.

Your Committees received comments on this measure from the Department of Corrections and Rehabilitation; Hawaii Housing Finance and Development Corporation; Department of Business, Economic Development, and Tourism; and Hawai'i State Public Library System.

Your Committees find that the State is facing an unprecedented number of vacancies in state positions, which exacerbates the state worker shortage, leaving fewer workers to carry the workload, leading to burnout and further worker flight. State departments cannot address this issue directly as the Department of Human Resources Development is responsible for compiling and sending a list of applicants to a department to schedule an interview, which may take up to three to six months. By this time, many qualified applicants have either found a different job or forgotten entirely about continuing the application process for a state job. Your Committees also find that a state department possesses the ability and expertise to review applications and determine whether an applicant meets minimum qualifications for a job within that department. This measure empowers state departments to address vacant positions and eases the burden on state workers and the Department of Human Resources and Development.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3007, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3007, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).
Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2707 (Joint) Labor and Technology and Energy, Economic Development, and Tourism on S.B. No. 2942

The purpose and intent of this measure is to:

- (1) Allow minors under the age of sixteen to work in theatrical employment provided that the employer procures a valid certificate of employment, and the minor is accompanied by a parent, guardian, or a certain responsible adult;

- (2) Require a nurse certified in basic life support to accompany, supervise, and advocate on behalf of an infant on set who is under the age one;
- (3) Require a studio teacher to accompany, teach, and attend to the well-being of minors who have attained the age of five years and are required to but have been excused from attending school; and
- (4) Define “nurse” and “studio teacher”.

Your Committees received testimony in support of this measure from the Department of Labor and Industrial Relations, IATSE Local 665, SAG-AFTRA, Stonewall Caucus of the Democratic Party of Hawai‘i, Motion Picture Association, Hawaii State AFL-CIO, Pride at Work-Hawai‘i, Hawai‘i Nurses’ Association OPEIU Local 50, and twenty-seven individuals.

Your Committees received testimony in opposition to this measure from one individual.

Your Committees find that there is currently no law requiring a nurse or studio teacher to be on set each day minors are employed in theatrical employment. Your Committees also find that current agreements between studios and SAG-AFTRA only require a studio teacher to be on set every three consecutive days, creating an exploitable loophole which can be scheduled around. A film set is a fast paced and dangerous place, especially for a minor and their guardians who may not have experience with such environments. This measure offers these individuals greater rights and protections within this environment.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Energy, Economic Development, and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2942, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2942, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Energy, Economic Development, and Tourism: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Wakai).

SCRep. 2708 (Joint) Labor and Technology and Government Operations on S.B. No. 2526

The purpose and intent of this measure is to:

- (1) Require the Technology Services Consolidation Working Group, established by Act 179, SLH 2022, to:
 - (a) Assist the Office of Information Technology Services in working with certain state agencies to inventory and categorize the business criticality of each major state information technology systems or data set;
 - (b) Determine the appropriate data center or hosting facility requirements; and
 - (c) Report to the Legislature; and
- (4) Extend the working group’s dissolution date to June 30, 2028.

Your Committees received testimony in support of this measure from the Office of Enterprise Technology Services and Servpac.

Your Committees find that data services are essential to running an effective government as it powers critical services, from tax collection to emergency response, and underpins the very fabric of our society. Safeguarding and ensuring the uninterrupted availability of government information technology is extremely important, and a power outage, a cooling system malfunction, or a network disruption could bring an entire system to a standstill, with negative consequences for the State’s citizens and businesses. This measure ensures that the State’s data systems and data are housed within facilities with sufficient backups and redundancies to protect this resource.

Your Committees have amended this measure by:

- (1) Inserting language requiring the working group to ensure all consolidated state data be housed in a facility with the resiliency to perform maintenance without downtime, as well as having contingencies for power outages and other emergencies;
- (2) Changing the sunset date of the working group to June 30, 2026; and
- (3) Inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2526, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2526, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Government Operations: Ayes, 5. Noes, none. Excused, none.

SCRep. 2709 Government Operations on S.B. No. 2116

The purpose and intent of this measure is to require boards to:

- (1) Use interactive conference technology to remotely conduct public meetings in conjunction with in-person meetings that allow for public participation; and
- (2) Archive minutes of meetings on their websites.

Your Committee received testimony in support of this measure from the League of Women Voters of Hawaii and Public First Law Center.

Your Committee received testimony in opposition to this measure from the Crime Victim Compensation Commission.

Your Committee received comments on this measure from the Department of Commerce and Consumer Affairs Professional and Vocational Licensing Division, Board of Regents of the University of Hawai'i, and Office of Information Practices.

Your Committee finds that Act 220, Session Laws of Hawaii 2021, allowed boards subject to the State's Sunshine Law the option of using interactive conference technology to conduct remote meetings. Your Committee further finds that remote meetings have increased transparency by allowing more public members to participate even if they live far from the physical location of the meeting. Accordingly, this measure further promotes the public interests in transparency and participation by requiring boards to conduct remote meetings by interactive conference technology and make the minutes of their meetings readily accessible to the public through their websites.

Your Committee has amended this measure by:

- (1) Requiring boards to hold hybrid meetings;
- (2) Requiring boards to also archive the recordings of its meetings on their websites; and
- (3) Inserting an effective date of January 1, 2112, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2116, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2116, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2710 Government Operations on S.B. No. 2637

The purpose and intent of this measure is to require the third meeting of a board to deliberate and act on a matter investigated by its members, as required under the Sunshine Law, to be held at least six days after the second meeting.

Your Committee received testimony in support of this measure from the Office of Information Practices, League of Women Voters of Hawaii, Public First Law Center, and one individual.

Your Committee received comments on this measure from the Board of Regents of the University of Hawai'i.

Your Committee finds that for decades, the Sunshine Law has had an exception to the open meetings requirement to permit a limited number of board members, or a permitted interaction group, to investigate an issue, without complying with the open meetings requirement of the Sunshine Law, and report back to the board before a discussion occurs. Existing law requires three different meetings -- to identify the members and scope of the investigative group, for the group to report its findings, and to discuss and act on the report. However, on multiple occasions over the years, boards have tried to circumvent the legislative intent that the public have an opportunity to digest the report before any substantive discussion, by scheduling back-to back second and third meetings. This measure promotes public access and informed decision-making, while preserving a boards' ability to conduct board business through permitted interaction groups.

During the hearing, your Committee received testimony suggesting the need to authorize specific boards to expedite their deliberations on testimony for legislative hearings. This proposal aims to enable these boards, which are directly impacted by proposed legislation, to efficiently convey their position or contribute their input on the legislation within the limited timeframe of the sixty-day session. It is important to note that this expedited process will solely pertain to the deliberations regarding testimony for legislative hearings and will not extend to other board business.

Accordingly, your Committee has amended this measure by:

- (1) Inserting language that allows boards to expedite deliberations about testimony for legislative hearings, but not other board business; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2637, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2637, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2711 Government Operations on S.B. No. 2570

The purpose and intent of this measure is to:

- (1) Require a protest based on the content of the solicitation to be submitted no later than one day before the receipt of offers, and all other protests be submitted within seven calendar days after the posting of award of the contract;

- (2) Establish that a party is not aggrieved until official action, adverse to that party, has been taken; and
- (3) Amend the minimum percent value of a contract required for parties to a protest of an award to initiate proceedings from ten percent to five percent.

Your Committee received testimony in support of this measure from the General Contractors Association of Hawaii and one individual.

Your Committee received comments on this measure from the State Procurement Office.

Your Committee finds that the process for protesting a procurement solicitation, award, or proposed award is confusing and raises questions regarding the fairness of the process. Consequently, agencies have taken inconsistent positions with respect to when a bidder is aggrieved. Your Committee further finds that reducing the percentage for the contract value required for parties to protest an award from ten percent to fifteen percent would not have a meaningful effect on the number of bid protest filed. Accordingly, such reduction is unnecessary. This measure will encourage agencies to engage with bidders throughout the entire procurement process by providing clarity regarding the filing of bid protests.

Your Committee has amended this measure by:

- (1) Codifying the definitions of “bidder”, “offeror”, and “protestor” set forth in sections 3-120-2 and 3-126-1, Hawaii Administrative Rules;
- (2) Clarifying that no protest based upon the content of a solicitation shall be considered unless it is submitted in writing a minimum of one business day before the date set for the receipt of offers;
- (3) Deleting language that would have amended the minimum percent value of a contract required for parties to a protest of an award to initiate proceedings from ten percent to five percent;
- (4) Inserting an effective date of January 1, 2112, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2570, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2570, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2712 Government Operations on S.B. No. 2873

The purpose and intent of this measure is to establish an advisory commission within the Department of Accounting and General Services to propose names or a change of names for state buildings, parks, facilities, and events.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee finds that the names of places in the State represent significant figures in the State’s history and symbolism within Native Hawaiian culture. As many significant historical events have shaped the State, names reflect the memory and identity of a specific place or geographical area. This measure establishes a process to recognize both the State’s unique history and Native Hawaiian culture in the naming of state buildings, parks, facilities, and events.

At the hearing’s conclusion, your Committee discussed the importance of Native Hawaiian involvement in the advisory commission to preserve kanaka maoli cultural heritage when naming state buildings, parks, facilities, and events. In order to achieve this without expanding the size of the commission, your Committee decided to replace the Director of the State Foundation on Culture and the Arts with a member of the Hawaiiinuiakea School of Hawaiian Knowledge to ensure that knowledgeable representation from the Hawaiian community occurs. Accordingly, this measure needs to be amended to ensure knowledgeable representation from the Hawaiian community on the advisory commission without expanding its number of members.

Your Committee has amended this measure by:

- (1) Replacing a member from the State Foundation on Culture and the Arts with a member from Hawaiiinuiakea School of Hawaiian Knowledge on the advisory commission;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2873, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2873, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2713 (Joint) Labor and Technology and Health and Human Services on S.B. No. 2474

The purpose and intent of this measure is to:

- (1) Require the Department of Labor and Industrial Relations to establish and administer a family leave insurance program;

- (2) Provide family leave insurance benefits and extend the period of family leave to sixteen weeks for employees of businesses that employ one or more employees, who meet the hourly qualifications; and
- (3) Eliminate the previous threshold of one hundred employees for employers to be subject to the State's family leave law.

Your Committees received testimony in support of this measure from one member of the Hawaii County Council; Executive Office on Early Learning; Office of Hawaiian Affairs; Disability and Communication Access Board; Department of Health; Department of Human Services; Democratic Party of Hawai'i Women's Caucus; Hawai'i Hunger Action Network; Aloha Care; Hawai'i Children's Action Network Speaks!; AARP Hawai'i; Hawai'i Public Health Institute; AAUW of Hawaii; Hawaii State Teachers Association; Stonewall Caucus of the Democratic Party of Hawai'i; Catholic Charities Hawai'i; African American Lawyers Association of Hawai'i; Pride at Work - Hawai'i; UNITE HERE Local 5; Hawai'i Public Health Association; Save Medicaid Hawaii; Indivisible Hawaii Healthcare Team; Rainbow Family 808; Aloha United Way; ACLU of Hawai'i; Leukemia & Lymphoma Society; Hawai'i Family Caregiver Coalition; Chamber of Sustainable Commerce; Democratic Party of Hawai'i; Democratic Party of Hawai'i Education Caucus; Democratic Party of Hawai'i Labor Caucus; Imua Alliance; Mental Health America of Hawai'i; Hawai'i Workers Center; Hawaii Appleseed Center for Law and Economic Justice; Parents and Children Together; The Hawaii Chapter of the American Academy for Pediatrics; Breastfeeding Hawaii; Chamber of Commerce Hawaii; and eighty-six individuals.

Your Committees received testimony in opposition to this measure from the Hawaii Government Employee Association, AFSCME Local 152, AFL-CIO; Retail Merchants of Hawaii; Hawai'i Restaurant Association; United Public Workers, AFSCME Local 646, AFL-CIO; NFIB, Hawaii Chapter; Hawaii Energy Marketers Association; Gyotaku Japanese Restaurants; and the Society of Human Resource Management Hawaii.

Your Committees received comments on this measure from the Department of Labor and Industrial Relations, Department of the Attorney General, Department of Budget and Finance, and Grassroot Institute of Hawaii.

Your Committees find that Hawaii's working families are not adequately supported during times of caregiving and illness. Your Committees also find that statistics show that only seventeen percent of workers in the United States have access to paid family leave from their employer. This can cause people to make the difficult choice to leave their jobs in order to provide care to family members. Your Committees further find that the benefits of paid leave are well established and by providing parents with paid time off to care for newborn or adopted children promotes healthy development, improves maternal health, and enhances a family's economic security. This measure provides families with these benefits by implementing a family leave insurance program, which would also boost employee satisfaction and loyalty within their respective employment.

Your Committees have amended this measure by:

- (1) Clarifying that the family leave insurance fund is a trust fund;
- (2) Inserting language that allows contributions withheld by the employers to be deposited into the family leave insurance trust fund;
- (3) Requiring the Department of Labor and Industrial Relations to collect contributions from employers and employees;
- (4) Requiring collected contributions to be shared at one-half the cost of the premiums per employee;
- (5) Deleting the definition of "designated person" and inserting the definitions of "next of kin", "qualifying service member", "reciprocal beneficiary", and "spouse";
- (6) Deleting the reference to "unpaid leave permitted" in section 398-4, Hawaii Revised Statutes, and replacing it with "paid family leave";
- (7) Inserting a blank appropriation amount and blank full-time equivalent position number necessary for the Department of Labor and Industrial Relations to establish and operate the Family Leave Insurance Program;
- (8) Inserting an effective date of July 1, 2050, to encourage further discussion; and
- (9) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

Your Committees note that although this measure, as amended, contains an unspecified appropriation amount and an unspecified full-time equivalent position number, the Department of Labor and Industrial Relations' testimony requests an appropriation of \$15,730,233 to establish one hundred twenty-two positions for the establishment and operation of the Family Leave Insurance Program. Therefore, your Committees respectfully request that your Committee on Ways and Means consider inserting an appropriation amount of \$15,730,233 for fiscal year 2024-2025.

As affirmed by the records of votes of the members of your Committees on Labor and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2474, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2474, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

Health and Human Services: Ayes, 3. Noes, none. Excused, 2 (Keohokalole, Awa).

SCRep. 2714 (Joint) Government Operations and Public Safety and Intergovernmental and Military Affairs on S.B. No. 2058

The purpose and intent of this measure is to:

- (1) Define "community outreach board" to mean a board established to serve in a community advisory capacity under a county commission or a county department;

- (2) Make community outreach boards subject to existing provisions of the Sunshine Law applicable to neighborhood boards; and
- (3) Authorize neighborhood board or community outreach board members to organize meetings or presentations related to official board business statewide.

Your Committees received testimony in support of this measure from two individuals.

Your Committees received testimony in opposition to this measure from two individuals.

Your Committees received comments on this measure from the Office of Information Practices and Public First Law Center.

Your Committees find that county neighborhood and advisory boards provide local communities with opportunities to participate in government. Likewise, community outreach boards serve as an intermediary between residents and government leaders to understand local concerns, gather and disseminate information, and create solutions in a collaborative environment. Therefore, your Committees believe that the Sunshine Law should also apply to community outreach boards. This measure will preserve open access to board activities without hindering the important function community outreach boards serve as a grassroots tool that is essential to thriving communities statewide.

Your Committees have amended this measure by:

- (1) Deleting language that would have included in the definition of a “community outreach board” boards established to serve in an advisory capacity under a county commission;
- (2) Clarifying that the notice and agenda, public input, and quorum requirements of the Sunshine Law apply to community outreach boards created in counties other than the City and County of Honolulu, and overseen by a county-based department;
- (3) Deleting language that would have allowed neighborhood board and community outreach board members to organize meetings or presentations statewide; and
- (4) Inserting an effective date of July 1, 2112, to encourage further discussion.

Your Committees have amended this measure to exclude its applicability to neighborhood boards. However, this creates a subject title problem because the contents of the measure no longer match its title. Your Committees respectfully request that, should this measure move forward in the legislative process, this issue be addressed.

As affirmed by the records of votes of the members of your Committees on Government Operations and Public Safety and Intergovernmental and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2058, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2058, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Gabbard).

Public Safety and Intergovernmental and Military Affairs: Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Rhoads).

SCRep. 2715 Government Operations on S.B. No. 2288

The purpose and intent of this measure is to require any travel report submitted by a state employee, officer, or other representative of any state department or agency, including the Judiciary and University of Hawaii, in connection with out-of-state or intra-state travel for purposes of official state business, to be made available for public review on the Comptroller’s website.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services; Department of Business, Economic Development, and Tourism; and one individual.

Your Committee received comments on this measure from the Department of Law Enforcement and Department of Education.

Your Committee finds that the State’s government should strive for transparency and accountability. This measure will affirm the State’s transparency and accountability by requiring public access to travel reports submitted by any state employees, officers, and other representatives of the State traveling on official state business.

Your Committee notes the testimony of the Department of Education requesting that the measure define the term “other representative of any state department or agency” to clarify whether students and chaperones who travel for the Department’s education and co-curricular programs would be required to submit a travel report. Your Committee also notes the concerns raised the Department of Law Enforcement regarding the lack of an exception for law enforcement operational travel, such as custody transport, fugitive details, and other travel where disclosing the details of the travel will compromise law enforcement operations, tactics, procedures, or safety. Accordingly, this measure needs to be amended to address these concerns.

Your Committee has amended this measure by:

- (1) Inserting a definition of “other representative of any state department or agency” to specify that anyone using state funds for travel must submit a travel report;
- (2) Limiting the information to be disclosed for travel reports relating to law enforcement operations;
- (3) Allowing law enforcement agencies to delay the reporting of their law enforcement operation travel reports to preserve the confidentiality of an investigation or a prosecution;
- (4) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2288, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2288, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Wakai).

SCRep. 2716 (Joint) Government Operations and Labor and Technology on S.B. No. 2866

The purpose and intent of this measure is to require the executive branch of the State to develop and maintain a publicly accessible online project management platform.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services, Department of Labor and Industrial Relations, and Office of Enterprise Technology Services.

Your Committees find that government transparency allows the public to review government decisions and provide meaningful feedback by engaging in the political process. Your Committees also find that capital improvement projects are construction projects that provide improvements or additions to state land, buildings, and infrastructure. Your Committees believe that, since these projects are typically large and expensive, the citizenry should have the ability to publicly inspect completed or pending projects and any information related to those projects. This measure will allow the electorate to reasonably express their approval or disapproval for capital improvement projects.

Your Committees have heard the testimony of the Office of Enterprise Technology Services expressing concerns that the online project management platform established by this measure should have a business executive sponsor that can identify the data needed, set rules for use, and validate compliance. Your Committees find that this issue merits further consideration and requests your Committee on Ways and Means examine the issue further should it choose to deliberate on this measure.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2866 and recommend that it pass Second Reading and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 5. Noes, none. Excused, none.
Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2717 (Joint) Government Operations and Health and Human Services on S.B. No. 3000

The purpose and intent of this measure is to require the Department of Accounting and General Services to provide menstrual products at no cost in specified restrooms in the public buildings the Department maintains.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; Hawai'i State Public Library System; Hawai'i Civil Rights Commission; State Council on Developmental Disabilities; Judiciary; one member of the Kaua'i County Council; Rainbow Family 808; Stonewall Caucus of the Democratic Party of Hawai'i; Pride at Work-Hawai'i; Breastfeeding Hawaii; Hawaii Medical Service Association; Ma'i Movement Hawai'i, Inc.; Hawai'i Women's Coalition; Save Medicaid Hawaii; ACLU of Hawai'i; IATSE 665; Healthy Mothers Healthy Babies Coalition of Hawaii; Midwives Alliance of Hawaii; and thirty-eight individuals.

Your Committees received testimony in opposition to this measure from surfing4truth and forty-seven individuals.

Your Committees find that eighty-six percent of people who menstruate have started their periods unexpectedly in public, and thirty-four percent have needed to leave what they were doing to retrieve menstrual products at home. Furthermore, your Committees find that for individuals who menstruate, accessible period supplies may be the difference between going to work or missing out on professional development opportunities. Additionally, your Committees find that menstrual products are a basic hygiene necessity for our population like toilet paper, paper towels, and hand soap, which the State already provides free of cost in all bathrooms. Moreover, your Committees find that there have been little to no instances of vandalism, product overuse, waste, or damage to bathroom facilities that currently supply menstruation products as was evidenced in school pilot programs, at the Hawaii State Capitol, and Hawaii State Judiciary. Therefore, this measure establishes wider access to free menstrual products and reduces barriers faced by residents and visitors to state buildings in meeting basic needs.

Your Committees have amended this measure by:

- (1) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3000, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3000, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).
Health and Human Services: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2718 (Joint) Government Operations and Labor and Technology on S.B. No. 2979

The purpose and intent of this measure is to:

- (1) Establish the Lahaina Recovery Oversight Commission within the Department of Accounting and General Services to oversee and guide the recovery of Lahaina from the August 2023 Maui wildfires;
- (2) Require the Office of Enterprise Technology Services to assist in establishing a website for the Commission;
- (3) Require annual reports; and
- (4) Make an appropriation.

Your Committees received comments on this measure from the Office of the Governor and Department of Accounting and General Services.

Your Committees find that the August 2023 Maui wildfires resulted in loss of life, homes, property, infrastructure, businesses, and natural and cultural resources. As the State seeks to rebuild Lahaina, input from key stakeholders is necessary to ensure Lahaina's residents and businessowners can return and thrive in their home community. Additionally, coordinated efforts between governmental agencies is imperative to ensure a timely, careful recovery of Lahaina. This measure establishes the Lahaina Recovery Oversight Commission to provide the rebuilding and revitalization of Lahaina with effective leadership and guidance.

Your Committees have amended this measure by:

- (1) Adding the following members to the Lahaina Recovery Oversight Commission:
 - (A) A Senator who represents the district that includes Lahaina;
 - (B) A Representative of the House of Representatives who represents the district that includes Lahaina; and
 - (C) The State Disaster Recovery Coordinator;
- (2) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2979, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2979, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2719 (Joint) Government Operations and Labor and Technology on S.B. No. 2636

The purpose and intent of this measure is to:

- (1) Require a board to offer remote testifiers an option to be seen and heard by the board and the public when offering remote testimony; and
- (2) Authorize a board to remove or block any person who intentionally disrupts or compromises the conduct of a meeting.

Your Committees received testimony in support of this measure from the Public First Law Center and one individual.

Your Committees received comments on this measure from the University of Hawai'i System and Office of Information Practices.

Your Committees find that some boards refuse to permit individuals to testify by videoconference without giving certain rights, such as registering in advance of a meeting. Existing law concerning remote meetings permits this behavior as long as the meeting has a telephone conference option. However, this process establishes a tiered system that denies remote testifiers the opportunity to be seen by the board while testifying. This measure will allow remote testifiers to feel confident that the board is receiving the full benefit of their testimony and they are not being ignored in favor of the in-person attendees who the board members can see.

As affirmed by the records of votes of the members of your Committees on Government Operations and Labor and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2636 and recommend that it pass Second Reading and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Government Operations: Ayes, 5. Noes, none. Excused, none.

Labor and Technology: Ayes, 4. Noes, none. Excused, 1 (Lee).

SCRep. 2720 Government Operations on S.B. No. 2306

The purpose and intent of this measure is to require the Department of Accounting and General Services to:

- (1) Install and maintain automated external defibrillators in all state buildings, no later than January 1, 2025; and
- (2) Provide trainings on the use of automated external defibrillators for certain state employees and security staff.

Your Committee received testimony in support of this measure from the Hawaii State Fire Council, Executive Office on Early Learning, Honolulu Emergency Services Department of the City and County of Honolulu, one member of the Honolulu City Council, and seven individuals.

Your Committee received testimony in opposition to this measure from one individual.

Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that the American Heart Association recommends early defibrillation as a crucial step in the chain of survival for cardiac arrest patients. According to the American Heart Association, defibrillation is most successful when administered as soon as possible after the onset of cardiac arrest. Your Committee believes that the availability of automated external defibrillators in state facilities will enable early defibrillation as the American Heart Association recommends. However, your Committee has determined that the certification program outlined in this measure is too strict and complex. There are many nationally recognized providers in this field and therefore, your Committee proposes amending the measure to allow the Department of Accounting and General Services, in collaboration with the Department of Health, to procure a vendor for this program.

Additionally, your Committee has found that the effectiveness of these devices increases when more people are trained in their usage. Therefore, your Committee suggests further discussion in having the State facilitate public awareness campaigns and training programs, especially in schools. These efforts can empower ordinary citizens to intervene and save lives using these devices and therefore warrants further discussion.

Your Committee has amended this measure by:

- (1) Requiring the Department of Accounting and General Services to collaborate with the Department of Health when contracting for or procuring as necessary the services of another public or private entity to assist with the training on the use of automated external defibrillators;
- (2) Inserting language requiring the Department of Accounting and General Services to, in collaboration with the Department of Education, University of Hawaii, and other relevant parties, administer a public education program on the use of automated external defibrillators;
- (3) Inserting an effective date of July 1, 2112, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2306, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2306, S.D. 1, and be referred to your Committees on Judiciary and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2721 (Joint) Agriculture and Environment and Government Operations on S.B. No. 2418

The purpose and intent of this measure is to:

- (1) Require state agencies that monitor environmental toxins and pollutants to establish environmental action levels to ensure the preservation of a safe environment;
- (2) Prohibit modifications to environmental action levels, unless certain procedural requirements are met; and
- (3) Allow any state resident to petition for modifications to an established environmental action level.

Your Committees received testimony in support of this measure from the Honolulu Board of Water Supply, Americans for Democratic Action Hawai'i, and three individuals.

Your Committees received testimony in opposition to this measure from the Department of Health and one individual.

Your Committees find that certain state agencies monitor the presence of environmentally toxic chemicals in the water, soil, and air, and require that remedial actions be taken if pollution levels exceed a level known as an environmental action level (EAL). Your Committees acknowledge that, while the use of EALs can be beneficial for monitoring and regulating environmental pollution, there is currently no standardized or formal process for the establishment or amendment of an EAL. As a result, some state agencies that use EALs have been known to arbitrarily raise, or in some cases lower, an EAL without sufficient public notice or scientific justification. Your Committees find that procedures must be established to provide the public with advance notice and opportunity regarding the establishment of EALs, and to require state agencies that use EALs to provide justification for their decisions. Therefore, this measure establishes procedural and substantive requirements for the establishment and revisions of EALs by state agencies.

Your Committees have amended this measure by inserting an effective date of July 1, 2050, to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2418, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2418, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3; Ayes with Reservations (Richards). Noes, none. Excused, 2 (DeCoite, Awa).

Government Operations: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2722 (Joint) Agriculture and Environment and Commerce and Consumer Protection on S.B. No. 3303

The purpose and intent of this measure is to:

- (1) Clarify labeling requirements for macadamia nuts;
- (2) Require the country of origin to be included on the label of a consumer package of raw or processed macadamia nuts; and

- (3) Authorize a private right of action for violations.

Your Committees received testimony in support of this measure from the Department of Agriculture; County of Hawai'i Department of Research and Development; Hawai'i Macadamia Nut Association; Hawaii Food+ Policy; Synergistic Hawaii Agriculture Council, Ka'u Farms Management, LLC; Hamakua Macadamia Nut Company, Incorporated; Island Harvest Inc.; OK Farms, LLC; Hawaiian Macadamia Nut Orchards, L.P.; Rancho Aloha; Greenwell Farms, Inc.; Ahualoa Family Farms, LLC; Hawaiian Macadamia Nut Services, LLC; and fifty individuals.

Your Committees received testimony in opposition to this measure from Hawaiian Host Group and one hundred fifty-eight individuals.

Your Committees received comments on this measure from the Department of the Attorney General.

Your Committees find that macadamia nuts are a popular agricultural export of the State. However, certain portions of the raw or processed macadamia nuts may have been produced in other states or countries before packaging in the State. This measure clarifies the labeling of macadamia nuts to promote a key product from the State's agricultural industry.

Your Committees recognize the concerns raised by the Department of the Attorney General that the country-of-origin labeling requirement in this measure may be subject to a challenge under the United States Constitution's Supremacy Clause, as the origin labeling of macadamia nuts offered for sale is already governed and thereby preempted by federal regulations.

Accordingly, your Committees have amended this measure by:

- (1) Deleting language that would have required the listing of the countries of origin of the portion of the raw macadamia nuts not grown in the State that is included in the package to be shown on the label; and
- (2) Making a technical, nonsubstantive amendment for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3303, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3303, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 4. Noes, none. Excused, 1 (DeCoite).

Commerce and Consumer Protection: Ayes, 5. Noes, none. Excused, none.

SCRep. 2723 Commerce and Consumer Protection on S.B. No. 3344

The purpose and intent of this measure is to:

- (1) Establish the Hawaii Wildfire Relief Fund and Corporation to provide compensation for property damage resulting from catastrophic wildfires in the State;
- (2) Require the Corporation's board to report to the Legislature; and
- (3) Appropriate funds.

Your Committee received testimony in support of this measure from the Hawaiian Electric Company, Inc.; International Brotherhood of Electrical Workers Local Union 1260; Puna Geothermal Venture-Ormat; Chamber of Commerce Hawaii; Hawaii Leeward Planning Conference; AES Hawai'i; Ulupono Initiative; Hawai'i Island Chamber of Commerce; Kalaeloa Partners L.P.; Kona-Kohala Chamber of Commerce; Mālama Learning Center; Par Hawaii; Maui Chamber of Commerce; and eighty individuals.

Your Committee received testimony in opposition to this measure from State Farm Mutual Automobile Insurance Company and two individuals.

Your Committee received comments on this measure from the Office of the Governor; Department of Commerce and Consumer Affairs; Insurance Division, Division of Consumer Advocacy, and Office of Administrative Hearings of the Department of Commerce and Consumer Affairs; Public Utilities Commission; Department of Budget and Finance; Tax Foundation of Hawaii; and Kaua'i Island Utility Cooperative.

Your Committee finds that as the risk of catastrophic wildfires in Hawaii has increased, so has the threat of property damage from wildfires. Your Committee further finds that while most property owners have insurance, some do not, and others have insurance that may not fully cover their losses. Your Committee finds that litigation related to property damages from wildfires can impose massive costs on the State, counties, utilities, landowners, and others. Therefore, this measure establishes a means to provide compensation for property damage resulting from wildfires and to mitigate losses by establishing the Hawaii Wildfire Relief Fund and Corporation.

Your Committee has amended this measure by:

- (1) Inserting language to prohibit an electric utility that is subject to liability proceedings or insolvency claims from participating in the Hawaii Wildlife Relief Fund, unless it provides a plan to resolve the claims that is approved by the Public Utilities Commission;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3344, as amended herein, and recommends that it pass

Second Reading in the form attached hereto as S.B. No. 3344, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2724 Commerce and Consumer Protection on S.B. No. 2922

The purpose and intent of this measure is to establish and implement the Catastrophic Wildfire Securitization Act, to allow public utilities to securitize rates in order to raise capital that can be used to pay for costs and expenses arising out of catastrophic wildfires.

Your Committee received testimony in support of this measure from Hawaiian Electric; International Brotherhood of Electrical Workers Local Union 1260; Kaua'i Island Utility Cooperative; Kona-Kohala Chamber of Commerce; Hawai'i Island Chamber of Commerce; Hawaii Leeward Planning Conference; Ulupono Initiative; Mālama Learning Center; AES Hawai'i; Puna Geothermal Venture-Ormat; Par Hawaii; Kalaeloa Partners, L.P.; and seventy-nine individuals.

Your Committee received comments on this measure from the Office of the Governor, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Department of the Attorney General, Public Utilities Commission, Department of Budget and Finance, and Maui Chamber of Commerce.

Your Committee finds that securitization is a form of financing that helps finance wildfire recovery and mitigation projects at a lower cost to customers than traditional utility financing. Generally, securitization proceeds can be used to reimburse a public utility for certain costs and expenses related to wildfires, using bonds collateralized by recovery property, which is the right to impose, collect, and receive from utility customers the amounts necessary to pay principal and interest on the recovery bonds, as well as other ongoing expenses. Your Committee finds that, in the wake of the August 2023 Maui wildfire, public utilities must raise the capital to fund near-term costs and expenses to develop and implement effective plans for wildfire risk mitigation, contribute to disaster relief funds, and, as necessary, fund litigation and settlements. Therefore, this measure provides a framework to allow public utilities in Hawaii to securitize rates to pay for catastrophic wildfire related expenses.

Your Committee has amended this measure by:

- (1) Inserting language to clarify that as a condition to issue a financing order, the Public Utilities Commission shall authorize the recovery of costs and expenses, which shall be limited to certain eligible categories;
- (2) Inserting language to require that as a condition to issue a financing order, when recovery bonds are issued, fixed recovery charges and associated taxes and bonds shall result in net savings to ratepayers;
- (3) Inserting language that as a condition to issue a financing order, requires public utilities to provide, and the Public Utilities Commission to approve, a reorganization plan that satisfies certain conditions;
- (4) Amending from one hundred eighty days to an unspecified number of days the time period required for the Public Utilities Commission to issue a financing order after determining that the amounts identified in an application are recovery costs;
- (5) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (6) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2922, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2922, S.D. 1, and be referred to your Committees on Ways and Means and Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2725 Commerce and Consumer Protection on S.B. No. 2997

The purpose and intent of this measure is to:

- (1) Allow the Public Utilities Commission to convene community outreach workshops to aid electric utilities in the development and implementation of best practices regarding wildfires;
- (2) Require electric utilities to design and operate in compliance with a risk-based wildfire protection plan approved by the Public Utilities Commission;
- (3) Shield electric utilities from civil liability for certain acts taken in accordance with a risk-based wildfire protection plan or for failing to act in accordance with an item in the draft plan that was removed by the Public Utilities Commission; and
- (4) Shield the State, Public Utilities Commission, and its agents from liability for actions taken in the performance of their duties with respect to risk-based wildfire protection plans.

Your Committee received testimony in support of this measure from the Hawaiian Electric Company, Inc.; International Brotherhood of Electrical Workers Local Union 1260; Hawai'i Island Chamber of Commerce; AES Hawai'i; Kona-Kohala Chamber of Commerce; Hawaii Leeward Planning Conference; Ulupono Initiative; Puna Geothermal Venture-Ormat; Kalaeloa Partners, LP; Par Hawaii; and seventy-nine individuals.

Your Committee received comments on this measure from the Office of the Governor, Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Hawaii State Energy Office, Public Utilities Commission, Hawaii Green Infrastructure Authority, Life of the Land, and Kaua'i Island Utility Cooperative.

Your Committee finds that as the risk of catastrophic wildfires in the State increases, it is imperative that electric utilities develop and implement effective plans for wildfire risk mitigation. Your Committee further finds that the wildfire mitigation plans developed by electric utilities should be reviewed and approved by the Public Utilities Commission. This measure requires electric utilities to design, and operate in compliance with, a risk-based wildfire protection plan approved by the Public Utilities Commission.

Your Committee has amended this measure by:

- (1) Deleting language that would have created a new part in chapter 269, Hawaii Revised Statutes (HRS), to:
 - (A) Allow the Public Utilities Commission to convene community outreach workshops to aid electric utilities in the development and implementation of best practices regarding wildfires;
 - (B) Require electric utilities to design, and operate in compliance with, a risk-based wildfire protection plan approved by the Public Utilities Commission;
 - (C) Shield electric utilities from civil liability for certain acts taken in accordance with a risk-based wildfire protection plan or for failing to act in accordance with an item in the draft plan that was removed by the Public Utilities Commission; and
 - (D) Shield the State, Public Utilities Commission, and its agents from liability for actions taken in the performance of their duties with respect to risk-based wildfire protection plans;
- (2) Inserting language that creates a new section in chapter 269, HRS, requiring electric utilities to design a risk-based wildfire protection plan approved by the Public Utilities Commission;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2997, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2997, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2726 Commerce and Consumer Protection on S.B. No. 2127

The purpose and intent of this measure is to:

- (1) Prohibit a landlord or the landlord's agent from charging an application fee for a criminal background check or credit report if an applicant provides a certified copy of a criminal background check or credit report; and
- (2) Require a landlord or the landlord's agent to provide, upon request, a certified copy of an applicant's criminal background check or credit report.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Office of Consumer Protection and one individual.

Your Committee received testimony in opposition to this measure from the Hawai'i Association of REALTORS.

Your Committee finds that the strong competition for rental units, caused by the limited housing supply in the State, has required many individuals and families to apply to as many available rentals as possible. This process can cost hundreds of dollars for rental unit seekers in application fees. While your Committee recognizes that landlords and their agents need to collect application fees in order to screen all applicants, the costs of multiple applications for prospective tenants can result in significant economic hardship. Therefore, this measure provides relief to prospective tenants that apply for multiple rental openings by allowing them to obtain and use a certified copy of a recent criminal background check or credit report for all applications, eliminating duplicative and unnecessary charges.

Your Committee has amended this measure by:

- (1) Inserting language that prohibits landlords and their agents from charging rental applicants an applicant's fee if the applicant makes available certain comprehensive reusable tenant screening reports;
- (2) Deleting language that would have required the Department of Commerce and Consumer Affairs to certify criminal background checks or credit reports and determine penalties for tampering with the background checks or reports and adopt administrative rules accordingly;
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2127, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2727 Commerce and Consumer Protection on S.B. No. 2606

The purpose and intent of this measure is to establish additional requirements for notices of claims of construction defects.

Your Committee received testimony in support of this measure from the Pacific Resource Partnership; Case Lombardi, A Law Corporation; D.R. Horton Hawaii LLC; Holomua Collaborative; Hawaii Credit Union League; Building Industry Association of Hawaii; Ali'i Glass & Metal, Inc.; Tru-Door Hawaii; Z Contractors, Inc.; Royal Contracting Co., Ltd.; HPM Building Supply; Jayar Construction, Inc.; Stanford Carr Development, LLC; Foundation Building Materials, LLC; Hawaii Laborers-Employers Cooperation and Education Trust; Paradigm Construction LLC; Gray, Hong, Nojima & Associates, Inc.; Cultured Marble; Hawaiian Landscape Co., Inc.; R.M. Towill Corporation; KY International, Inc.; Vinyl Tech & Masonry, Inc.; M2K Construction LLC; Hawaiiiana Management Company, Ltd.; Hawai'i Association of REALTORS; REEF Development of Hawaii, Inc.; Gentry Homes, Ltd.; Jade Painting, Inc.; General Contractors Association of Hawaii; Ashford & Wriston, A Limited Law Partnership LLP; and thirteen individuals.

Your Committee received testimony in opposition to this measure from Lipp Smith LLP, Kasdan Turner Thomson Booth LLLC, and twenty-two individuals.

Your Committee received comments on this measure from the Contractors License Board.

Your Committee finds that the high volume of litigation related to construction defects in the State has contributed, in part, to rising insurance rates, housing costs, and the growing number of condominiums ineligible for government-backed loans because they are currently under litigation. Your Committee further finds that, under the notice of claims process for construction defects under chapter 672E, Hawaii Revised Statutes, claimants, in many cases, have filed ambiguous or unsubstantiated claims against contractors that lack sufficient detail in describing alleged construction defects and damages. Without this necessary information, the claims resolution process can be abused or delayed to the detriment of both homeowners and contractors. Therefore, this measure improves the claims resolution process by requiring a notice of claim to include details with sufficient particularity and specificity and evidence depicting the nature and cause of any alleged construction defect.

Your Committee has amended this measure by:

- (1) Clarifying that a claimant shall provide the contractor with expert-generated reports, photographs, videos, and the results of any testing performed, with the notice of claim only if they are available to the claimant;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2606, S.D. 1, and be referred to your Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2728 (Joint) Agriculture and Environment and Health and Human Services on S.B. No. 2369

The purpose and intent of this measure to:

- (1) Establish a working group to plan for the remediation of per- and polyfluoroalkyl substances (PFAS) contamination throughout the State; and
- (2) Require reports to the Legislature.

Your Committees received testimony in support of this measure from the Honolulu Board of Water Supply, Democratic Party of Hawai'i, Environmental Caucus of the Democratic Party of Hawai'i, Greenpeace Hawaii, Hawaii Reef and Ocean Coalition, Climate Protectors Hawai'i, Hawaii Food+ Policy, and three individuals.

Your Committees received comments on this measure from the Department of Health.

Your Committees find that PFAS and related chemicals remain in the environment for long periods of time and that low levels of exposure to PFAS have been linked to major medical conditions including cancer, thyroid disease, kidney dysfunction, and birth defects. Your Committees note that, as of August 2023, twenty-five other states have enforced drinking water standards related to PFAS. The establishment of a long-term working group as proposed by this measure would increase publicly available information, and prepare for future regulation, regarding PFAS and other chemical substances.

Your Committees have amended this measure by:

- (1) Amending the composition of the working group by:
 - (A) Requiring the chairs of the House and Senate standing committees with subject matter jurisdiction encompassing environmental protection and restoration to serve as co-chairs of the working group; and
 - (B) Reassigning the Director of Health to serve as a member; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2369, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2369, S.D. 1, and be referred to your Committees on Commerce and Consumer Protection and Ways and Means.

Signed by the Chair and President on behalf of the Committees.
 Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Richards).
 Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2729 (Joint) Agriculture and Environment and Health and Human Services on S.B. No. 2813

The purpose and intent of this measure is to:

- (1) Require the Department of Agriculture to:
 - (A) Establish industry standards for processing meat; and
 - (B) Conduct a survey on slaughterhouse operations;
- (2) Establish a tax credit for processing meat; and
- (3) Appropriate an unspecified amount of funds for the Department of Agriculture to establish and implement meat processing industry standards and conduct a survey on slaughterhouse operations.

Your Committees received testimony in support of this measure from the Agribusiness Development Corporation and Hawai'i Farm Bureau.

Your Committees received comments on this measure from the Department of Agriculture; Department of Taxation; and Hawai'i Cattlemen's Council, Inc.

Your Committees find that the lack of comprehensive regulations regarding meat processing and data regarding slaughterhouse operations reduces the capacity of the State to process and distribute local meat, especially to local consumers. Your Committees recognize that certifying the eating quality of local meat would improve the marketability of local beef, especially those grass-fed, and help expand the industry. According to testimony received by your Committees, additional information regarding slaughterhouse operations will allow for data-driven decision making to increase capacity, improve efficiencies, evaluate best practices, and identify growth opportunities in the State's livestock industry. Your Committees further recognize the high costs to inspect meat in the State. Additional testimony states that the establishment of a meat processing tax credit to qualified producers, as proposed in this measure, will eventually help lower the cost of local livestock products for local consumers.

Your Committees have amended this measure by:

- (1) Inserting language specifying that the tax credit established in part II of the measure shall be allocated on a first-come, first-served basis in instances where the amounts claimed in the certified statements submitted to the Board of Agriculture exceed the aggregate cap;
- (2) Requiring that the tax credit established in part II of the measure apply to taxable years beginning after December 31, 2023; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2813, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 2813, S.D. 1, and be referred to your Committee on Ways and Means.

Signed by the Chair and President on behalf of the Committees.
 Agriculture and Environment: Ayes, 3; Ayes with Reservations (Rhoads). Noes, none. Excused, 2 (DeCoite, Richards).
 Health and Human Services: Ayes, 5. Noes, none. Excused, none.

SCRep. 2730 Judiciary on H.B. No. 470

The purpose and intent of this measure is to:

- (1) Require providers of no cost emergency shelter and related services to maintain separation for unrelated adults and minor children; and
- (2) Make permanent the amendments to the definition of "provider" to include organizations that are not child placing organizations or child caring institutions that meet certain criteria.

Your Committee received testimony in support of this measure from Residential Youth Services and Empowerment, Opportunity Youth Action Hawai'i, Rainbow Family 808, Stonewall Caucus of the Democratic Party of Hawai'i, O'ahu Youth Action Board, National Homelessness Law Center, and one individual.

Your Committee received comments on this measure from the Department of the Attorney General, Department of Human Services, and Hawai'i Youth Services Network.

Your Committee finds that more than half of unhoused youth who want to access shelter and services are told it is unavailable, resulting in the average unhoused young person spending nearly two years living on the street. Additionally, many unhoused youth choose not to seek assistance from the child welfare system because of narrow choices with respect to living situations in foster care, stereotypes about the foster care system, prior experience with child welfare, fear of being separated from siblings, or concern about legal repercussions for parents or guardians. To address these problems, the Legislature passed Act 23, Session Laws of Hawaii 2021, expanding the definition of a "provider" who may render no-cost emergency shelter and related services to consenting minors to include organizations that are not child placing organizations or child caring institutions. However, Act 23, Session Laws of Hawaii 2021, sunsetted on June 30, 2023. This measure will allow vulnerable, unhoused minors to once again have pathways to end their

homelessness by allowing vetted community providers to provide a safe and low-barrier alternative to licensed child-caring institutions.

Your Committee has amended this measure by:

- (1) Restoring statutory language that includes an organization that is not a child placing organization or child caring institution that meets certain criteria in the definition of "provider";
- (2) Clarifying that providers that are not child caring organizations or child caring institutions must maintain separate sleeping areas for unrelated adults and minor children;
- (3) Making it effective upon its approval with a sunset date of June 30, 2029; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 470, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as H.B. No. 470, H.D. 2, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2731 Ways and Means on S.B. No. 2385

The purpose and intent of this measure is to improve government efficiency by proposing an amendment to the Hawaii State Constitution that places procedural restrictions on the timing of judicial appointments and confirmations.

Specifically, this measure proposes to amend the State Constitution by:

- (1) Establishing a window between September 1 and November 30 during which the Judicial Selection Commission may not present a list of judicial nominees to the Governor or Chief Justice; and
- (2) Prohibiting the Senate from being called into more than two special sessions to consent to judicial appointments, and requiring that any subsequent appointments made during a legislative interim be held until the beginning of the next regular session for consideration by the Senate.

Your Committee did not receive written comments on this measure.

Your Committee finds that convening multiple special sessions of the Senate each year to confirm judicial appointments increases taxpayers' cost for the payment of transportation and other necessary expenses for Senators who do not reside on Oahu. Your Committee further finds that placing procedural restrictions on the timing of judicial appointments and confirmations to reduce the number of times the Senate must convene a special session each year will result in taxpayer savings and increase government efficiency.

Your Committee has amended this measure by:

- (1) Clarifying that, during each interim between regular sessions of the Legislature, the Senate shall be called into no more than two special sessions to consent to any judicial appointments;
- (2) Clarifying that any subsequent appointments made during that interim shall be held until the start of the next regular session, when the Senate may consent to the appointment or appointments within thirty days of the date the regular session convenes; and
- (3) Making technical nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2385, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2385, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2732 Ways and Means on S.B. No. 2381

The purpose and intent of this measure is to establish and appropriate moneys for a voluntary comprehensive public financing program for the campaigns of candidates seeking state and county elected offices, beginning with the 2028 general election.

Your Committee received written comments in support of this measure from the Campaign Spending Commission; Chamber of Sustainable Commerce; Sierra Club of Hawaii; Hope Services Hawaii; Free Access Coalition; Americans for Democratic Action Hawaii; Public Citizen; Veterans for Peace, Hawaii Chapter 113; American Civil Liberties Union of Hawaii; We Are One, Inc.; HULI PAC; Our Hawaii; Lahaina Strong; Green Party of Hawaii; Democratic Party of Hawaii; 350 Hawaii; Campaign Legal Center; Hawaii Alliance for Progressive Action; Malama Kauai; Our Revolution Hawaii; Indivisible Hawaii; Common Cause; and numerous individuals.

Your Committee received written comments in opposition to this measure from forty-six individuals.

Your Committee recognizes that, in the past, Hawaii has led efforts to facilitate the public financing of campaigns, and the State currently has a partial public funding program. Your Committee finds merit in the adoption of a comprehensive public financing program, as similar programs in other states have allowed candidates to campaign for public office without relying on private sources

of funds and have limited the undue influence of lobbyists, political parties, political action committees, businesses, unions, and other entities.

Your Committee has amended this measure by:

- (1) Referring to counties by their names instead of their populations;
- (2) Excluding the prosecuting attorney for the County of Maui from the program, as that office-holder is appointed, not elected;
- (3) Deleting certain references to the Campaign Spending Commission to make the county clerks solely responsible for verifying certain qualifying information relating to candidates;
- (4) Clarifying the purpose of the progress reports that are to be submitted to the Legislature;
- (5) Deleting appropriation-related provisions for the Campaign Spending Commission; and
- (6) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2381, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 2381, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Hashimoto).

SCRep. 2733 Ways and Means on S.B. No. 2959

The purpose and intent of this measure is to alleviate costs associated with medical care.

More specifically, this measure establishes an income tax credit for medically related travel expenses not covered by insurance.

Your Committee received testimony in support of this measure from one individual.

Your Committee received comments on this measure from the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that residents must often pay for travel expenses out of their own pocket when seeking medical services that are not readily available within the State. Your Committee also finds that traveling to obtain medical treatment can significantly add to the already high cost of medical care. Providing an income tax credit for medically related travel expenses not covered by insurance will help alleviate this burden.

Your Committee has amended this measure by:

- (1) Adding definitions for the terms “dependent” and “medical care”;
- (2) Clarifying that travel expenses may only be used to claim the tax credit if they are incurred primarily for, and essential to, medical care;
- (3) Changing the effective date to December 31, 2050, to facilitate further discussion on the measure; and
- (4) Making technical nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2959, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2959, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 6 (DeCoite, Hashimoto, Inouye, Shimabukuro, Wakai, Fevella).

SCRep. 2734 Ways and Means on S.B. No. 2279

The purpose and intent of this measure is to amend the law relating to taxation.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to:

- (1) Require that any qualified tuition reduction for graduate assistants enrolled in graduate level coursework be considered taxable income; and
- (2) Limit the qualified tuition reduction for graduate assistants enrolled in graduate level coursework to an amount that is equal to not more than a certain percentage of the resident tuition fee.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2279, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 2279, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 6 (DeCoite, Hashimoto, Inouye, Shimabukuro, Wakai, Fevella).

SCRep. 2735 Energy, Economic Development, and Tourism on Gov. Msg. No. 595

Recommending that the Senate advise and consent to the nomination of the following:

DIRECTOR, DEPARTMENT OF BUSINESS, ECONOMIC DEVELOPMENT & TOURISM

G.M. No. 595 JAMES KUNANE TOKIOKA, for a term to expire 12-31-2026

Your Committee reviewed the personal history, resume, and statement submitted by James Kunane Tokioka for service as the Director.

Your Committee received testimony in support of the nomination for the appointment of James Kunane Tokioka from Governor Josh Green, M.D.; Hawaii State Energy Office; Business Development and Support Division of the Department of Business, Economic Development, and Tourism; Department of Labor and Industrial Relations; Foreign-Trade Zone Division of the Department of Business, Economic Development, and Tourism; Research and Economic Analysis Division of the Department of Business, Economic Development, and Tourism; Department of Budget and Finance; Hawaii Broadband and Digital Equity Office; Department of Land and Natural Resources; Department of Commerce and Consumer Affairs; Hawaii Green Infrastructure Authority; Hawaii Public Housing Authority; Agribusiness Development Corporation; Hawaii Housing Finance and Development Corporation; Department of Agriculture; Creative Industries Division of the Department of Business, Economic Development, and Tourism; Department of Corrections and Rehabilitation; Hawaii Technology Development Corporation; Hawai'i Tourism Authority; Office of Hawaiian Affairs; Department of Hawaiian Home Lands; Department of Law Enforcement; Hawai'i Community Development Authority; Stadium Authority; Department of Transportation; Land Use Commission; Department of Education; Department of Defense; Department of Taxation; Hawai'i Emergency Management Agency; Department of Human Services; Department of Accounting and General Services; Natural Energy Laboratory of Hawaii Authority; Department of Human Resources Development; Department of Health; Office of the Enterprise Technology Services; County of Maui Office of Economic Development; City and County of Honolulu Office of the Mayor; County of Hawai'i Office of the Mayor; County of Kaua'i Office of the Mayor; Hawaii Council of Mayors; Chamber of Commerce Hawaii; Hawai'i Farm Bureau; UNITE HERE Local 5; SanHi Government Strategies, LLP; Iron Workers Stabilization Fund; Hawai'i Hotel Alliance; The Legislative Center, Inc.; Hawai'i Pacific Health; Maui Hotel & Lodging Association; Hawaii Building & Construction Trades Council; Hawaii Medical Service Association; Healthcare Association of Hawaii; Plumbers and Fitters United Association, Local 675; Operating Engineers Local Union No.3; Hawaii Masons' and Plasterers' Unions Hawaii Industry Stabilization Committee; International Brotherhood of Electrical Workers Local Union No. 1186; Operative Plasterers' and Cement Masons' International Association Local No. 630, AFL-CIO; Young Brothers, LLC; Council for Native Hawaiian Advancement; Kauai Chamber of Commerce; West Kauai Business & Professional Association; and thirty-nine individuals.

James Kunane Tokioka has been serving as the Interim Director of the Department of Business, Economic Development, and Tourism since May, 2023. Previously, Mr. Tokioka served as the Deputy Director for the Airports Division of the Department of Transportation and prior to that, served as a New Business Manager for Oceanic Time Warner Cable from 2011 to 2023 where he oversaw management programs and assisted with securing the largest single contract for Hawaii in the State's history. Mr. Tokioka was a Hawaii State Representative from 2006 to 2022, where he served, among other positions, as the Majority Whip, Chair of the Legislative Management and Intergovernmental Affairs Committee, and Vice Chair of Tourism. Prior to that, Mr. Tokioka was the County Council Vice Chairman for the Kaua'i County Council for ten years. Mr. Tokioka has also worked with various hotels and resorts as an entrepreneur, owner, manager, and director over the course of his extensive career.

Your Committee believes that Mr. Tokioka, with twenty-seven years of leadership experience within state and county governments, and over forty years of business management experience in the hospitality sector, possesses the qualifications to serve as the Director and lead the Department of Business, Economic Development, and Tourism. Further, through his knowledge and experience, Mr. Tokioka has exemplified his ability to foster many collaborative working relationships with policymakers, leaders in the public and private sectors, nonprofit organizations, and communities, which will aid him in coordinating amongst the many stakeholders that work with the Department. Your Committee further notes the considerable testimony in support of Mr. Tokioka's nomination and lauding him as a leader with vast knowledge of economic development, skillful management of business operations, and great vision for the future of the State.

Your Committee further notes Mr. Tokioka's personal statement explaining his vision for the Department of Business, Economic Development, and Tourism to expand the economy, reverse the "brain drain", and grow the State's tax base. To create an economically sustainable State, Mr. Tokioka is focused on diversifying the economy by continuing to work on economic cluster strategies and supporting targeted and emerging industries. Mr. Tokioka aims to accomplish this by ensuring that these industries have the necessary infrastructure in place and that the associated workforce pipelines and housing are developed. While the Department's core divisions and attached agencies each have their annual benchmarks, Mr. Tokioka plans to measure progress by ensuring each division has a strategic plan and by tracking the percentage or share of GDP by industry to measure the Department's ability to reduce reliance on tourism and diversify the State's economy into non-tourism industries. In addition, Mr. Tokioka's goal for the Department is to utilize the Genuine Progress Indicator (GPI) as a measure of not only the State's economic productivity, but it's social, environmental, and cultural impacts. Mr. Tokioka will work with the Department's applicable divisions and attached agencies to measure the State's current GPI model and ensure that it aligns with state and departmental goals. Your Committee therefore recommends that James Kunane Tokioka be appointed as Director of the Department of Business, Economic Development, and Tourism based on his extensive business knowledge, government experience, and commitment to public service.

As affirmed by the record of votes of the members of your Committee on Energy, Economic Development, and Tourism that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2736 Ways and Means on S.B. No. 3091

The purpose and intent of this measure is to make an emergency appropriation to the Department of Education for its food service operations.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii Primary Care Association, and Hawaii Food Industry Association.

Your Committee finds that the Department of Education provides approximately twenty thousand school breakfasts and eighty thousand school lunches to students and staff across the State each day. For many students, school meals are their only regular food source during the week. Your Committee further finds that the Department of Education has accumulated a deficit of more than \$20,000,000 for its food service operations, largely due to inflationary cost increases. Accordingly, your Committee finds that the emergency appropriation made by this measure will allow the Department to continue to provide meals to public school students.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3091, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3091, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Hashimoto, Lee).

SCRep. 2737 Ways and Means on S.B. No. 3092

The purpose and intent of this measure is to make an emergency appropriation to the Department of Education to cover its funding obligations for charter schools.

Your Committee received written comments in support of this measure from the Department of Education, Hawaii State Teachers Association, and one individual.

Your Committee finds that the Department of Education is required to provide proportional funding to charter schools based on their student enrollment. Your Committee notes that the growth in enrollment at public charter schools is four percent higher than originally projected, resulting in less funding for charter schools than what is required. Accordingly, your Committee finds that the emergency appropriation in this measure will allow state public charter schools to continue to meet the needs of students and account for increased enrollment.

Your Committee has amended this measure by:

- (1) Changing the appropriation to an unspecified amount;
- (2) Changing the effective date to July 1, 2050, to facilitate further discussion on the measure; and
- (3) Making technical nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3092, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 3092, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Hashimoto, Lee).

SCRep. 2738 Hawaiian Affairs on S.B. No. 541

The purpose and intent of this measure is to amend the law relating to Hawaiian Affairs.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to establish January 17 of each year as Reconciliation Day, to commemorate Queen Liliuokalani and the illegal overthrow of the Kingdom of Hawaii, provided that this day is not and shall not be construed to be a state holiday.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 541, as amended herein, and recommends that it be recommitted to your Committee on Hawaiian Affairs, in the form attached hereto as S.B. No. 541, S.D. 1, for further consideration.

Signed by the President on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2739 Judiciary on S.B. No. 2387

The purpose and intent of this measure is to correct erroneous references in chapters 520 and 520A, Hawaii Revised Statutes.

Your Committee received no testimony on this measure.

Your Committee finds that sections 520-3 and 520-4(a), Hawaii Revised Statutes (HRS), erroneously refer to section 520-6, HRS, and should instead refer to section 520-5, HRS. Your Committee also finds that sections 520A-3 and 520A-4(a), HRS, erroneously refer to section 520A-6, HRS, and should instead refer to section 520A-5, HRS. Your Committee further finds that the Legislative

Reference Bureau's revision bill is not the correct vehicle to make these changes, since there are questions of legislative intent. This measure will therefore correct erroneous references in chapters 520 and 520A, HRS.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2387 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2740 (Majority) Judiciary on S.B. No. 2333

The purpose and intent of this measure is to allow the Chief Election Officer to use accurate copies of paper ballots, rather than the originals, when conducting a precinct audit of an electronic voting system's tally.

Your Committee received testimony in support of this measure from the Office of Elections.

Your Committee received testimony in opposition to this measure from the Hawaii Young Republicans and sixty-one individuals.

Your Committee finds that existing law requires the Chief Election Officer, as a condition of using an electronic voting system to create an electronic tally of ballots, to audit the vote counts in ten percent of the precincts where an electronic voting system was used and select the precincts to audit at random. Your Committee also finds that existing law requires the Chief Election Officer to conduct the audit of the randomly selected precincts by comparing electronic tally amounts against the original paper ballots. This measure will increase the efficiency of the audits without compromising their precision by using accurate copies of paper ballots, rather than the original paper ballots, to conduct the audits.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2333 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2741 Judiciary on S.B. No. 2347

The purpose and intent of this measure is to establish the offense of habitual violent misdemeanor crime to allow the prosecution to charge a person who is convicted of three or more violent misdemeanors within five years with a class C felony.

Your Committee received testimony in support of this measure from the Department of Law Enforcement; Department of the Prosecuting Attorney of the City and County of Honolulu; Honolulu Police Department; State of Hawaii Organization of Police Officers; Institute for Human Services, Inc.; and eleven individuals.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Community Alliance on Prisons, ACLU of Hawai'i, Drug Policy Forum of Hawaii, and seven individuals.

Your Committee finds that under existing law, people who commit the offense of assault in the third degree, assault against a law enforcement officer in the second degree, and sexual assault in the fourth degree face a maximum sentence of one year in jail and a maximum fine of \$2,000. However, most people convicted of these offenses, including repeat offenders, spend very little time, if any, in jail. By facing almost no consequences, offenders convicted of these misdemeanors quickly learn that they will not be held accountable and are free to commit the same crimes repeatedly. Your Committee believes that giving prosecutors the discretion to charge a person with any combination of three or more convictions of assault in the third degree, assault against a law enforcement officer in the second degree, and sexual assault in the fourth degree within a five year period with a class C felony will address these problems. This measure will hold those who commit repeated acts of misdemeanor violence accountable and deter others from committing repeated acts of misdemeanor violence.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2347 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3; Ayes with Reservations (San Buenaventura). Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2742 Judiciary on S.B. No. 2193

The purpose and intent of this measure is to amend the offense of use of a computer in the commission of a separate crime to include violation of privacy in the first and second degree.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Department of the Prosecuting Attorney of the City and County of Honolulu, and two individuals.

Your Committee finds that the offenses of violation of privacy in the first and second degree are serious charges. However, your Committee believes that conduct that would normally fall under the offenses of violation of privacy in the first and second degree should rise to an entirely different offense if a computer is used, for example to distribute images that were taken while committing a violation of privacy offense. This measure will provide an additional tool for prosecutors to make these types of distinctions when charging future offenses.

Your Committee has amended this measure by:

- (1) Inserting a savings clause; and

- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2193, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2743 (Majority) Judiciary on S.B. No. 2334

The purpose and intent of this measure is to clarify that the Chief Election Officer must audit all elections in the randomly selected precincts as a condition of using an electronic voting system to create an electronic tally of ballots.

Your Committee received testimony in support of this measure from the Hawaii Young Republicans.

Your Committee received testimony in opposition to this measure from fifty-four individuals.

Your Committee received comments on this measure from the Office of Elections and one individual.

Your Committee finds that existing law requires the Chief Election Officer, as a condition of using an electronic voting system to create an electronic tally of ballots, to audit the vote counts in ten percent of the precincts where an electronic voting system was used and select the precincts to audit at random. However, the language of existing law is ambiguous as to whether the Chief Election Officer must audit all the elections in those precincts, or whether it is acceptable for the Chief Election Officer to audit only a single election in those precincts. This measure will remove the ambiguity to existing law and provide clarity necessary for effectively auditing elections in the State.

Your Committee has amended this measure by:

- (1) Reducing the number of randomly selected precincts employing an electronic voting system that the Chief Election Officer is required to conduct a post-election, pre-certification audit of from ten percent to five percent;
- (2) Amending section 1 to reflect its amended purpose; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2334, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2744 Judiciary on S.B. No. 2310

The purpose and intent of this measure is to prohibit a person from using a location tracker to harass, stalk, or perpetuate a crime against another person without their knowledge.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the County of Maui and four individuals.

Your Committee finds that there are existing statutes that may apply to some of the scenarios involving tracking a person by use of a location tracker. Despite this, your Committee believes that it is important to enact a statute that explicitly identifies and prohibits the behavior when done as a means to harass the person. This measure provides a clear definition of various types of tracking devices, which section 803-42(a)(8), Hawaii Revised Statutes, does not define. Additionally, this measure does not require that the behavior happen on more than one occasion, unlike harassment by stalking pursuant to section 711-1106.5, Hawaii Revised Statutes. This measure updates the penal code to address the serious matter of using a hidden location tracker to harass, stalk, or perpetuate a crime against another person.

Your Committee has amended this measure by:

- (1) Deleting language that would have included harassment by use of location tracker as a violation of privacy in the second degree; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2310, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2310, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2745 Judiciary on S.B. No. 2251

The purpose and intent of this measure is to increase the criminal penalty for the offense of indecent exposure from a petty misdemeanor to a misdemeanor if the victim is less than sixteen years of age.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Office of the Prosecuting Attorney of the County of Kaua'i, Office of the Prosecuting Attorney of the County of Hawaii, and one individual.

Your Committee received testimony in opposition to this measure from the Office of the Public Defender, Friends of Little Beach Maui, and three individuals.

Your Committee finds that, in recent years, county prosecutors have handled several investigations where adult men have exposed their genitals to children. Despite not including physical touching or contact, this type of abuse has long lasting impacts on development and is associated with long-term health costs and psychological problems, including depression, anxiety, anger, post traumatic stress disorder, suicide attempts, low self-esteem, fear, nightmares, somatic complaints, withdrawal, attention and concentration problems, and eating disorders. Your Committee believes that intentionally exposing one's genitals to a child under the age of sixteen under circumstances likely to cause affront warrants a higher penalty than doing so to those over sixteen years old because children under sixteen, who cannot consent to sexual activity, are more vulnerable and potentially subject to greater harm. This measure will provide children under sixteen with more legal protection and deter this form of abuse.

Your Committee has amended this measure by:

- (1) Replacing the term "victim" with the term "person to whom the genitals were exposed" or "person exposed"; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2251, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2251, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (San Buenaventura). Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2746 Ways and Means on S.B. No. 2280

The purpose and intent of this measure is to amend the law relating to financing.

Prior to the hearing on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by deleting its contents and replacing it with language to appropriate funds for capital improvement projects in the State; provided that they are funded through public private partnerships.

Your Committee has amended this measure by adopting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2280, as amended herein, and recommends that it be recommitted to your Committee on Ways and Means, in the form attached hereto as S.B. No. 2280, S.D. 1, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

SCRep. 2747 Commerce and Consumer Protection on S.B. No. 2112

The purpose and intent of this measure is to amend the definition of the term "installment lender" under chapter 480J, Hawaii Revised Statutes (HRS), which governs installment loans, to:

- (1) Clarify that the law is not intended to eliminate the ability of lenders to make low interest rate loans under the interest and usury law; and
- (2) Consistently use the defined term "installment loan" by deleting the term "a consumer loan" and replacing it with "installment loans".

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs' Division of Financial Institutions.

Your Committee finds that Act 56, Session Laws of Hawaii 2021 (Act 56), codified as chapter 480J, HRS, was enacted, in part, to establish a framework for providing new, viable installment loan transactions with appropriate consumer protections to ensure that future installment loans would contain reasonable terms and fees. However, your Committee finds that, under existing law, certain statutory ambiguities are present relating to whether lenders are prohibited from making low interest rate loans under chapter 478, HRS, governing interests and usury. Therefore, this measure amends the law to clarify that lenders have the ability to make low interest rate loans under the interest and usury law.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2112 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2748 Commerce and Consumer Protection on S.B. No. 2600

The purpose and intent of this measure is to authorize the use of electronic mail to deliver certain documents when purchasing a condominium.

Your Committee received testimony in support of this measure from the Hawai'i Association of REALTORS, Hawaii First Realty LLC, and four individuals.

Your Committee finds that when a person purchases a condominium unit, the associated condominium documents must be delivered to the purchaser by either personal delivery, registered or certified mail, facsimile transmission, or any other way prescribed by the

Real Estate Commission. However, your Committee finds that, for many purchasers, electronic mail is a faster, more convenient, and less costly method of obtaining these documents as compared to receiving them in paper form. Your Committee further finds that delivery by electronic mail is especially helpful for residents who may be traveling or temporarily away from their physical mailing address. Therefore, this measure provides an environmentally-friendly and convenient way for purchasers to receive, keep, and access their condominium documents.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2600 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2749 Commerce and Consumer Protection on S.B. No. 2404

The purpose and intent of this measure is to:

- (1) Prohibit the use of proxies in condominium association voting;
- (2) Require associations to allow members to vote by mail and attend and cast votes in association meetings through internet, teleconference, or other electronic transmission technology; and
- (3) Require associations to mail out paper ballots before any annual or other periodic election of board members.

Your Committee received testimony in support of this measure from the District 25 Council of the Democratic Party of Hawai'i, Ala Moana-Kaka'ako Neighborhood Board No. 11, Chamber of Sustainable Commerce, Kokua Council, and twelve individuals.

Your Committee received testimony in opposition to this measure from Hawaii First Realty LLC; Community Associations Institute; Hawai'i State Association of Parliamentarians; Palehua Townhouse Association; Honolulu Tower AOA; AOA Lakeview Sands; Law Offices of Mark K. McKellar, LLC; and sixteen individuals.

Your Committee received comments on this measure from one individual.

Your Committee finds that condominium association voting is essential to providing unit owners with a critical opportunity to hold association board members accountable and otherwise having their voices heard. Your Committee also finds that while proxy voting can be useful in allowing a unit owner who is physically unable to participate in an election to cast their vote through another person, it can also create additional challenges for the organizing of elections, which can unfortunately lead to disputes over an election's validity.

Notwithstanding, your Committee has heard the concerns raised in testimony, including the questions regarding the State's role in prohibiting condominium associations from deciding for themselves whether they should use proxies, as proposed by this measure in its current form. Therefore, amendments to this measure are necessary to address these concerns.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and inserting language that repeals section 514B-123(e)(1)(C), Hawaii Revised Statutes, which requires a standard proxy form authorized by the association to contain a box wherein an owner may indicate that the proxy is given to the board as a whole and that the vote is to be made on the basis of the preference of the majority of the directors present at the meeting;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2404, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Richards).

SCRep. 2750 (Majority) Commerce and Consumer Protection on S.B. No. 2834

The purpose and intent of this measure is to amend the Residential Landlord-Tenant Code to establish a process to dispense of a tenant's property and return the premises to a landlord when there is a death of a tenant.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that when a tenant of a residential property dies during the lease period, the lease does not terminate automatically. During this period, landlords typically desire to be compassionate, but may encounter unpaid rent and questions concerning the status of the tenant's security deposit and the tenant's belongings that need to be removed from the premises. Therefore, this measure establishes a formal statutory process to resolve matters involving a deceased tenant, to promote constructive outcomes for both the landlord who is seeking to re-rent their property and the grieving estate of the deceased.

Your Committee notes the concerns raised during public hearing for this measure as to whether the process to automatically terminate the lease, as proposed in this measure, would apply to leases with multiple tenants where one of the tenants passes away, thereby terminating the lease for the surviving tenants. Your Committee finds that this issue merits further consideration and respectfully requests that subsequent committees to which this measure is referred examine this matter.

Your Committee has amended this measure by:

- (1) Inserting language clarifying that a landlord shall have no obligation to disclose the death of a tenant or the history of deaths of tenants in a rented unit to a prospective tenant;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2834, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2751 (Majority) Commerce and Consumer Protection on S.B. No. 2126

The purpose and intent of this measure is to require a landlord to accept either rental security insurance or security deposit installment payments in lieu of a traditional security deposit, upon a tenant's request.

Your Committee received testimony in support of this measure from ten individuals.

Your Committee received testimony in opposition to this measure from two individuals.

Your Committee received comments on this measure from the Hawai'i Association of REALTORS and American Property Casualty Insurance Association.

Your Committee finds that security deposits generally are a one-time, refundable payment made by a tenant before moving into a property that acts as financial insurance against potential damages, unpaid rent, or cleaning fees upon termination of the tenancy. Despite the justifiable need for security deposits, the availability to provide additional funds up front can be a major hurdle for many low-income renters. Your Committee further finds that new alternatives to traditional security deposits can provide much needed assistance and flexibility to low-income renters, while still providing landlords with a sufficient measure of protection and financial assurance. This measure will therefore help alleviate the financial burden of security deposits to empower tenants and foster a more inclusive housing market.

Your Committee has amended this measure by:

- (1) Deleting language that would have required a landlord to accept the option of payment of a security deposit over a series of not less than six equal monthly installments upon a tenant's request;
- (2) Inserting language requiring a landlord to accept a surety bond in an amount equal to the total security deposit upon a tenant's request; and
- (3) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2126, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Fukunaga).

SCRep. 2752 Commerce and Consumer Protection on S.B. No. 2354

The purpose and intent of this measure is to, beginning January 1, 2025:

- (1) Expand the definition of "beer" under the intoxicating liquor law to mean any alcoholic beverage containing not less than 0.5 percent alcohol by volume obtained by fermentation of any infusion or decoction of malt or any substitute, including alcohol seltzer beverages, and excluding sake, cooler beverages, and other distilled products; and
- (2) Authorize brewpubs to sell beer they manufacture, or beer manufactured on their premises, subject to certain conditions.

Your Committee received testimony in support of this measure from the Lanikai Brewing Company, Mahalo Aleworks, Kauai Beer Company, Hana Koa Brewing Co., and Brewers Association.

Your Committee received comments on this measure from Anheuser-Busch.

Your Committee finds that with the growing popularity of craft beers, brewers have begun experimenting with innovative and flavor-forward beers, using fermented fruits, sugars, honey, spices and other foods to produce their beers. Your Committee finds, however, that the existing definition of "beer" recognizes only fermented barley or other grain, malt, and hops in water, and that the definition needs to be modernized to match the current beverage styles and manufacturing processes. Therefore, this measure updates the definition of "beer" to mirror federal guidelines and clarify for alcohol producers what products qualify under certain classes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2354, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2354, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2753 (Majority) Commerce and Consumer Protection on S.B. No. 2132

The purpose and intent of this measure is to:

- (1) Amend the deadlines related to the repair of conditions that constitute health or safety violations and the payment of past due rent; and
- (2) Increase the amount deducted from a tenant's rent for the tenant's actual expenditures to correct health or safety violations and defective conditions.

Your Committee received testimony in support of this measure from Waipahu Safe Haven Immigrant/Migrant Resource Center, Hawai'i Workers Center, and one individual.

Your Committee finds that under existing law, if a landlord, after receipt of notification of a condition on the leased premises that constitutes a health or safety violation, fails to commence repairs of the condition or otherwise fails to comply with the provisions of the Residential Landlord-Tenant Code, a tenant may recover not more than \$500 in reimbursement for any necessary work that was completed by the tenant to cure the condition. This limitation on the recovery amount for tenants is often far below the actual costs and expenses required to cure the condition, forcing tenants to pay out of their own pockets for the repairs to return a property to a habitable condition. Therefore, this measure increases the statutory maximum recovery amount for tenants to \$1,000 or one month's rent, whichever is greater, for the tenant's actual expenditures for work done to correct the defective condition. Further, this measure amends certain deadlines related to the repair of conditions that constitute health or safety violations, to provide more time for landlords to address the conditions.

Your Committee has amended this measure by inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2132, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Awa). Excused, none.

SCRep. 2754 Commerce and Consumer Protection on S.B. No. 2730

The purpose and intent of this measure is to:

- (1) Require not for profit mutual benefit societies to include in annual statements the compensation provided to each executive officer and board member for the preceding calendar year and a description of each position;
- (2) Require the Insurance Commissioner to prepare and maintain a compilation of the information for each not for profit mutual benefit society; and
- (3) Require the Insurance Commissioner or the Department of Commerce and Consumer Affairs to make the compilation available for public inspection and duplication.

Your Committee received comments on this measure from the Insurance Division of the Department of Commerce and Consumer Affairs and Hawaii Medical Service Association.

Your Committee finds that certain not for profit mutual benefit societies in the State, which enjoy generous tax breaks, have compensated their top executives and board members handsomely, while simultaneously cutting the jobs of many rank-and-file employees in company restructurings. This measure will therefore provide increased accountability and oversight of compensation for not for profit mutual benefit society executives.

Notwithstanding, your Committee has heard the testimony of the Insurance Division of the Department of Commerce and Consumer Affairs, noting that the information required to be disclosed under this measure, as proposed, would be duplicative of certain information already filed by mutual benefit societies. Therefore, amendments to this measure are necessary to authorize the Insurance Commissioner to disclose certain compensation records already received, which can be more readily and efficiently implemented by the Insurance Division.

Accordingly, your Committee has amended this measure by:

- (1) Deleting its contents and replacing it with language that:
 - (A) Authorizes the Insurance Commissioner to disclose certain compensation information submitted to the Insurance Commissioner by insurers, mutual benefit societies, health maintenance organizations, or dental insurers; and
 - (B) Clarifies that the disclosure of these records shall not constitute a clearly unwarranted invasion of personal privacy under section 92F-13, Hawaii Revised Statutes; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2730, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2730, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2755 Commerce and Consumer Protection on S.B. No. 2511

The purpose and intent of this measure is to require the Public Utilities Commission to consider the immediate and long-term creation of jobs in its review of electric utility performance.

Your Committee received testimony in support of this measure from the International Brotherhood of Electrical Workers Local Union 1260.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs and Public Utilities Commission.

Your Committee finds that the Public Utilities Commission is required to establish certain performance incentives and penalty mechanisms that directly tie an electric utility's revenues to that utility's achievement on certain performance metrics. In developing these performance incentives and penalty mechanisms, the Public Utilities Commission's review of an electric utility's performance must consider, among other things, the electric utility's service reliability, customer engagement and satisfaction, and the volatility and affordability of its electric rates and customer electric bills. Your Committee finds that the Public Utilities Commission should also be required to consider the creation of jobs as part of its review, as job creation is a strong indicator of a utility's operating stability and reflects the utility's long-term investment in the local community. Therefore, this measure supports the energy sector's contribution to economic growth and employment in the State.

Your Committee has amended this measure by:

- (1) Inserting language clarifying that the Public Utilities Commission shall consider the short-term and long-term retention and creation of local jobs in its review of electric utility performance; and
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2511, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (McKelvey).

SCRep. 2756 Commerce and Consumer Protection on S.B. No. 3285

The purpose and intent of this measure is to require the Public Utilities Commission to solicit competitive offers from an entity operating under a non-investor-owned utilities ownership model before approving the sale of a public utility, in whole or in part, to a private entity.

Your Committee received testimony in support of this measure from Climate Protectors Hawaii.

Your Committee received comments on this measure from the Division of Consumer Advocacy of the Department of Commerce and Consumer Affairs, Public Utilities Commission, and Hawaiian Electric.

Your Committee finds that the difference in management goals between investor- and non-investor-owned utilities can have significant effects on ratepayers and the public at large. Your Committee fully recognizes that investor-owned utilities can effectively serve Hawaii residents and this measure simply requires that, in the event of a sale of all or part of a public utility to a private entity, all possible ownership models be considered, which includes non-investor-owned utility ownership models.

Your Committee has amended this measure by:

- (1) Requiring the public utility being offered for sale, rather than the Public Utilities Commission, to demonstrate that it first solicited competitive offers from an entity operating under a non-investor-owned utilities ownership model, and note whether or not non-investor-owned entities submitted acceptable bids, in any application to the Public Utilities Commission requesting authorization of the sale of the public utility;
- (2) Inserting an effective date of July 1, 2040, to encourage further discussion; and
- (3) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3285, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3285, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2757 Judiciary on S.B. No. 2197

The purpose and intent of this measure is to amend the definition of "advance gambling activity".

Your Committee received testimony in support of this measure from the Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Honolulu Police Department, and one individual.

Your Committee finds that illegal game rooms have become such a prolific and lucrative enterprise over the years, that the Honolulu Police Department has indicated that on any given day on Oahu, there are at least one hundred game rooms active. However, under existing law, an illegal game room proprietor who makes some effort to prevent its occurrence or continuation, no matter how insignificant or ineffective, could fall outside the definition of "advance gambling activity" and possibly avoid prosecution for

promoting gambling in the first and second degree. This measure will close a loophole in the gambling laws and assist in prosecuting illegal gambling activity in the State.

Your Committee has amended this measure by clarifying that a person advances gambling activity if the person, having substantial proprietary control or other authoritative control over premises being used with the person's knowledge for purposes of gambling activity, permits that activity to occur or continue.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2197, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2758 (Majority) Judiciary on S.B. No. 2557

The purpose and intent of this measure is to repeal paragraph (3) of section 802-1(a), Hawaii Revised Statutes, which entitles the subject of a petition for assisted community treatment to legal representation by a public defender.

Your Committee received testimony in support of this measure from the Office of the Public Defender; Institute for Human Services, Inc.; and one individual.

Your Committee received testimony in opposition to this measure from the ACLU of Hawai'i, Hawaii Disability Rights Center, and one individual.

Your Committee finds that public defenders represent people accused of committing criminal offenses, thereby exposing them to losing their liberty and being put in jail. Public defenders also represent people whom the government seeks to involuntarily commit. The subject of a petition for assisted community treatment is not at risk for detention. Therefore, your Committee believes that a better approach is for community organizations or dedicated attorneys to provide representation for subjects of assisted community treatment. This measure will direct the appropriate resources to individuals requiring assisted community treatment.

Your Committee notes that, under existing law, individuals subject to a petition for assisted community treatment may request an attorney. However, these individuals rarely do so because they often suffer from severe mental illnesses and are not aware that they have the right to request legal representation.

Your Committee has amended this measure by:

- (1) Amending section 334-126, Hawaii Revised Statutes, to allow the family court to appoint an attorney for the subject of a petition for assisted community treatment if the interests of justice require one be appointed and if the subject of the petition is represented by an attorney, whether retained by the subject or appointed by the court, allow the attorney adequate time for investigation; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2557, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2557, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2759 Judiciary on S.B. No. 3033

The purpose and intent of this measure is to amend the criminal offense statute for tampering with physical evidence to adopt the wording of the Model Penal Code for the same offense.

Your Committee received testimony in support of this measure from the Department of the Attorney General.

Your Committee finds that tampering with physical evidence can take many forms beyond what is provided in existing statute. Your Committee further finds that the current statute on tampering with physical evidence omits several phrases from the corresponding offense in the Model Penal Code that are needed to comprehensively combat physical evidence offenses. This measure incorporates the corresponding offense wording of the Model Penal Code, which will increase the public's trust and confidence in the investigations conducted by the State and local law enforcement and increase the credibility of available evidence.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3033 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 2760 (Majority) Judiciary on S.B. No. 2522

The purpose and intent of this measure is to allow persons convicted of certain criminal violations to apply to the court for an expungement order under certain circumstances.

Your Committee received testimony in support of this measure from the Office of the Public Defender and Opportunity Youth Action Hawai'i.

Your Committee received testimony in opposition to this measure from the Crime Victim Compensation Commission and Mothers Against Drunk Driving Hawaii.

Your Committee received comments on this measure from the Department of the Attorney General.

Your Committee finds that a person's criminal record may affect that person long after the person has served their sentence. Persons who engaged in driving under the influence of an intoxicant while under the age of twenty-one, and persons who committed first-time property offenses, may have criminal records that make it difficult to obtain housing, a job, or an education. Your Committee believes that, in certain circumstances, convicted persons who have served their sentences and fulfilled all legal requirements should be given the opportunity to start over again. This measure will give offenders who have finished their sentences and made positive changes in their lives a second chance to start anew.

Your Committee has amended this measure by:

- (1) Deleting language that would have made Act 230, Session Laws of Hawaii 2006, retroactive to allow people who were sentenced prior to the effective date of Act 230 to expunge their convictions;
- (2) Inserting language:
 - (A) Allowing a person sentenced before June 22, 2006, for any class C felony property offense under chapter 708, Hawaii Revised Statutes, who meets certain requirements to apply to a court for expungement of the record of conviction for the property offense;
 - (B) Requiring a court, upon written application for expungement for an eligible felony property offense, to expunge the record of conviction if certain conditions are met;
 - (C) Specifying that if the court does not find that the person would have qualified for expungement of the record of conviction for the property offense, the court may order the record be expunged if the court finds that the person successfully completed a substance abuse treatment program; and
 - (D) Specifying that a person granted an expungement of the record of conviction for the property offense is not eligible for another expungement of the record of conviction for a property offense;
- (3) Amending section 1 to reflect its amended purpose; and
- (4) Making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2522, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2522, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Awa). Excused, 1 (Gabbard).

SCRep. 2761 Judiciary on S.B. No. 2439

The purpose and intent of this measure is to:

- (1) Extend the statute of limitations for civil actions brought by persons subjected to sexual offenses as an adult against the person who committed the act;
- (2) Revive for a one year period certain actions for which the statute of limitations had previously lapsed;
- (3) Allow a claim to be brought against legal entities during the one year window period if there is a finding of gross negligence; and
- (4) Authorize a court to award attorney's fees to a defendant when an accusation of sexual abuse was made with no basis in fact and with malicious intent.

Your Committee received testimony in support of this measure from the Hawaii Association for Justice, Stonewall Caucus of the Democratic Party of Hawai'i, Rainbow Family 808, and five individuals.

Your Committee received testimony in opposition to this measure from the American Tort Reform Association.

Your Committee received comments on this measure from the Department of the Attorney General, American Association of University Women, and one individual.

Your Committee finds that victims of sexual abuse may need additional time before they are ready to file a lawsuit. This measure will allow the filing of time-barred civil claims related to sexual abuse that occurred while the person was an adult and is modeled after section 657-1.8, Hawaii Revised Statutes, which concerns civil actions arising from the sexual abuse of a minor. Both the existing statute and this measure set requirements to bring claims, including a notarized statement by a licensed psychologist, marriage and family therapist, mental health counselor, or clinical social worker who is knowledgeable of the facts of the claim. Your Committee notes that the window for minors to bring claims under section 657-1.8, Hawaii Revised Statutes, was extended several times, for a total of eight years, having been enacted in 2012, extended in 2014 and 2018, and finally expiring in 2020. This measure will account for the challenges that victims of sexual abuse face when electing to pursue justice.

Your Committee has amended this measure by increasing the period allowing certain actions to be brought by persons subjected to sexual offenses as an adult for which the statute of limitations had previously lapsed from one year to four years.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 2439, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 2439, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3; Ayes with Reservations (San Buenaventura). Noes, none. Excused, 2 (Gabbard, Awa).

SCRep. 2762 (Joint) Agriculture and Environment and Judiciary on S.B. No. 2447

The purpose and intent of this measure is to add the Chairperson of the Board of Trustees of the Office of Hawaiian Affairs to the Board of Agriculture.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and two individuals.

Your Committees received comments on this measure from the Department of Agriculture.

Your Committees find that the Office of Hawaiian Affairs is the principle agency of the State responsible for the performance, development, and coordination of programs and activities for the betterment of conditions of Native Hawaiians. Your Committees recognize that the Office of Hawaiian Affairs not only manages a substantial and every-increasing portfolio of agriculturally-zoned legacy lands, but also has dedicated a significant amount of funds to support Native Hawaiian farmers over the last decade. This measure recognizes the role of Native Hawaiian farmers and the value that customary Native Hawaiian agriculture and aquaculture practice bring to the State as it works to reach its food security and sustainability goals by ensuring that Native Hawaiian interests are represented on the Board of Agriculture.

As affirmed by the records of votes of the members of your Committees on Agriculture and Environment and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 2447 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Agriculture and Environment: Ayes, 3. Noes, none. Excused, 2 (DeCoite, Awa).

Judiciary: Ayes, 4. Noes, none. Excused, 1 (Awa).

SCRep. 2763 Judiciary on S.B. No. 3037

The purpose and intent of this measure is to allow the prosecution of persons who provide pornographic materials to undercover law enforcement officers who represent themselves as minors for purposes of undercover operations.

Your Committee received testimony in support of this measure from the Department of the Attorney General, Honolulu Police Department, and Rainbow Family 808.

Your Committee finds that the Department of the Attorney General's Internet Crimes Against Children Task Force regularly conducts Operation Keiki Shield operations, where undercover law enforcement officers pose as minors on the Internet to identify, locate, arrest, and prosecute offenders who solicit minors to engage in sexual activities on the Internet. According to Operation Keiki Shield officers, offenders often send pornographic materials via the Internet to the officers who pose as minors. The current offense of promoting pornography for minors does not provide for undercover operations, so even though the undercover officers are engaging in authorized undercover activities, if they identify an offender who is promoting pornography to a minor, they are unable to charge that conduct. This measure allows for the prosecution of persons who provide pornographic materials to undercover law enforcement officers who represent themselves as minors, which will reduce the amount of pornographic materials being distributed to minors.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3037, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3037, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 2764 (Majority) Judiciary on S.B. No. 2219

The purpose and intent of this measure is to enhance government transparency by:

- (1) Establishing certain presumptions regarding testimony when given by a lobbyist;
- (2) Making certain contracts voidable when entered into in violation of state lobbying law; and
- (3) Expanding the definition of "lobbying" in section 97-1, Hawaii Revised Statutes, to include certain communications with high-level government officials regarding procurement decisions.

Your Committee received testimony in support of this measure from the Hawai'i State Ethics Commission and League of Women Voters of Hawaii.

Your Committee received testimony in opposition to this measure from the Hawai'i Alliance of Nonprofit Organizations.

Your Committee received comments on this measure from the Grassroot Institute of Hawaii.

Prior to decision making on this measure, your Committee posted and made available for public review a proposed S.D. 1, which amends this measure by:

- (1) Deleting language that would have required legislators and state employees to report to the ethics commission potential ethics violations that they know of, or reasonably should know of, including any instance of actual or attempted contact or solicitation by an unregistered lobbyist in violation of chapter 97, Hawaii Revised Statutes;
- (2) Deleting language clarifying that a communication with any official in the legislative or executive branch, for the purpose of attempting to influence rules or other actions governed by section 91-3, Hawaii Revised Statutes, is considered "lobbying";
- (3) Deleting language that would have included as "lobbying" a communication with the governor, lieutenant governor, legislators, or the director, deputy director, or member of the governing board of an administrative agency, outside any public hearing, for the purpose of attempting to influence:
 - (A) The solicitation or award of a contract or proposal before an administrative agency, if any of the communications are not authorized by chapter 103D or chapter 103F, Hawaii Revised Statutes;
 - (B) Staffing or appointment decisions regarding specific positions at an administrative agency;
 - (C) The development or modification of an administrative agency's written report or statement of policy; or
 - (D) A specific contested case hearing, rate proceeding, or other quasi-judicial proceeding before an administrative agency; provided that the communication is not governed by chapter 91 or chapter 269, Hawaii Revised Statutes;
- (4) Inserting language including communications with any person identified in section 84-17(d), Hawaii Revised Statutes, concerning the solicitation or award of a contract or proposal before an administrative agency, or a potential future vendor relationship with an administrative agency, if any of the communications are not governed by section 103D or section 103F, Hawaii Revised Statutes, as "lobbying";
