Ayes, 25. Noes, none.

S.B. No. 96, S.D. 1:

On motion by Senator Inouye, seconded by Senator Buen and carried, S.B. No. 96, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO ENERGY RESOURCES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 25. Noes, none.

S.B. No. 143, S.D. 1:

Senator Kanno moved that S.B. No. 143, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Taniguchi.

Senator Iwase requested a ruling from the Chair as follows:

"Mr. President, ruling on a conflict -- an attorney in the law firm of which I'm of counsel is representing Hawaiian Electric on a case."

The Chair ruled that Senator Iwase was not in conflict.

Senator Iwase then said:

"Thank you, Mr. President. Then may I speak on this bill?"

The Chair responded: "Please proceed."

Senator Iwase continued:

"Mr. President, I'll be voting for this bill with reservations and I would like to state the reason for that reservation. It is on page 3 of the bill which would allow the Public Utilities Commission . . . what this would do is, the act would overrule applications before the Public Utilities Commission which have been acted upon prior to the effective date of this act. I have concerns about whether or not the Legislature can intrude into what's basically a quasi-judicial process and overrule the actions of a commission where there has been and there is an appeal process that is set out. So I have some concerns about that.

"But I will be voting for the bill with reservations. I do support the other portions of the bill.

"Thank you."

Senator Buen also rose on a conflict ruling as follows:

"Mr. President, I would like to know if I have a potential conflict to vote on S.B. No. 143 and S.B. No. 384."

The Chair responded:

"What is your potential conflict?"

Senator Buen replied:

"I'm an employee of Maui Electric Company."

The Chair responded:

"No conflict. You may vote on those two bills."

Senator Buen then rose in opposition to the measure and said:

"Mr. President, at this time I would like to explain why I am opposed to these two measures. In fact, the mandatory undergrounding without consideration of cost and other factors is not a good public policy approach to the issue of overhead versus underground electric lines. And these bills will result in higher electric rates and therefore will have a significant negative effect on customers, many of whom may be unable to afford the increase. The impact would be even greater for customers on the neighbor islands where costs are spread among fewer customers.

"The State Department of Health's policy on EMF states that the existing research data on possible adverse health effects, including cancer, are inconclusive and not adequate to establish or quantify a health risk.

"Over the past few years the Legislature has taken steps to provide a balanced approach to considering the underground issue. It's noted that in recognition of the high cost of undergrounding, the Legislature exempted the Hawaii Housing Authority from subdivision requirements regarding mandatory undergrounding.

"I will be voting 'no' on these two measures. Thank you."

Senator Slom rose in opposition and said:

"Mr. President, I rise to speak against the bill.

"I have a number of concerns and problems with the bill like my colleague, our last speaker. The fact that we take away the decision-making from the PUC in this matter, if we're going to do that, then we might as well abolish the PUC because we don't need any decision-making.

"We are at a risk here in terms of additional cost in eliminating any cost-benefit analysis which should be done prudently for any measure of this kind. As has been testified, there is a great deal of debate still remaining on the impact, if any, of electro-magnetic fields. And more importantly to me, is that this bill has a retroactive feature that applies to any applications prior to the effective date unless the system has been completed.

"So for these and other reasons, I'll be voting 'no.'

"Thank you, Mr. President."

Senator Chun then rose to speak against the measure and said:

"Mr. President, I rise to speak against the bill.

"Mr. President, this bill proposes to require the placement of underground lines of 46 kilovolts or greater if they are to be placed in residential zoned areas or areas near private schools, public schools or licensed child care centers.

"Mr. President, looking through the record, this bill was opposed by the Public Utilities Commission and the Consumer Advocate. In addition, Mr. President, looking at it from Kauai's point of view, currently we do have lines which would be subject to this law. Based upon future projections on the power needs of the Island of Kauai, we are looking at putting at least two lines that would be affected by this law, which could be going down through residential areas or school zones. The potential cost of this to the island is somewhere in the area of \$20 million. Twenty million dollars, Mr. President and my fellow colleagues, spread over 29,000 rate payers for the Island of Kauai will have a huge impact for our island. We cannot afford that.

"While I appreciate the intent of this bill and the hard work by the co-chairs of CPN in trying to work out a good, solid solution to meet the needs of the population of Oahu, I do note that Oahu has more than triple or even quadruple the number of rate payers of the Island of Kauai. And that's why they can afford this and that's why I will support the intent as far as the needs of the Island of Oahu and also the protection of its citizens. But when we come down to the nuts and bolts of it, when the Island of Kauai is struggling to make ends meet, struggling to have employment, struggling to make sure that our businesses remain in place to spur our economy, to put this extra burden is something that we cannot bear for this island.

"I regretfully, very regretfully, will have to vote against this bill, especially in light of the hard work that was done by the co-chairs.

"Thank you, Mr. President."

Senator Chumbley rose in support of the measure with reservations and stated:

"Mr. President, I rise in support of the measure with reservations and ask that my written comments be ordered into the Journal."

The Chair having so ordered, Senator Chumbley's remarks read as follows:

"I rise in support of S.B. No. 143, S.D. 1, with reservations, as proposed in this measure.

"The Public Utilities Commission shall mandate the undergrounding of 46 KV electric transmission lines in residentially-zoned areas, or within 300 feet of a school or licensed child care facility.

"Mr. President, I can agree with a policy that states the public's health and safety is best served by placing these electric transmission lines underground. However, due to the high costs that this would impose on the electricity users in my Maui and Kauai districts, and the vagueness in the writing of the restrictions imposed in the measure, I continue to have reservations and ask that the co-chairs of the Consumer Protection Committee address these concerns as the bill moves forward for discussion.

"Thank you, Mr. President."

Senator Hanabusa rose in support of the measure and said:

"Mr. President, I rise to speak in favor of this measure.

"Mr. President, I hear very loud and clear the concerns of my colleagues here this evening. However, one of the things that we must remember is that this bill does not mandate the undergrounding of lines. It simply gives the Public Utilities Commission, as well as the public utilities, an option. It says that if you are going to construct not all lines, but lines that we would term to be sub-transmission or transmission lines of 46 kilovolts or more, then these lines cannot be constructed within 300 feet of a residential area, a school or a child-care facility. Its application is limited.

"I have heard the concerns raised about rates and what that would affect. What we must all understand is how the public utilities derive their rates. First of all, the cost of these lines are not something that's immediately passed on to the ratepayers. It is over the duration of the bond. For example, those who are familiar with the Waiuu CIP 138 KV lines, the construction cost of undergrounding versus overhead lines was a differential of between 70 to 80 million dollars.

"What actually results in terms of the potential rate effect on the normal household is that it would be \$1.47 differential in the beginning, down to zero at the end of the 30-year period.

The average rate would be 74 cents per month. That is the effect of undergrounding the huge 138 KV lines.

"While I empathize with my fellow colleagues from the neighbor islands, I ask that you not make the same mistakes that we have made on Oahu. As you want to move forward and you want tourism, believe me, what they do not want to see is the mass of lines that we have in Pearl City and Aiea. What you do not want to hear is for the Public Utilities Commission to make statements such as 'What's another line for Pearl City and Aiea? They've got them all already.' Or to have them say that there's no vistas in the Ewa plains.

"My colleagues, I ask that you consider this bill. It is about time that we really start to put the money where our mouths are. In other words, we want tourism; we want to sell the islands; we want to sell its beauty; then don't mar it with lines.

"Thank you."

Senator D. Ige then said:

"Mr. President, I just would like to note my support with reservations."

The Chair so ordered.

Senator Bunda added:

"With reservations also, Mr. President."

The Chair so ordered.

Senator Sakamoto then said:

"Reservations as well."

The Chair so ordered.

Senator Anderson rose in opposition to the measure as follows:

"Mr. President, I'll be voting 'no' on this particular measure and I'd like to speak against it only because in the past, when we bought our home in Kailua, we paid for all of the assessments that the developer had.

"What this bill says, more or less if I read it right, is if you have a group that decides that in a particular school zone they're going to do something, all of the underground they're going to spread it across all of the taxpayers or consumers in that area. I don't think that, that's fair that I should pay for underground wiring or anything that's going to affect another part of the state, or another part of the city. I think that the people should be made aware that we could be paying for something because a group decides that it's best.

"And as far as tourism, probably the most used tourist industry area is down by the Arizona. There's all kinds of wiring. They've been using it for years. I've never heard of any tourist that said, 'This is ugly. It's deplorable. We shouldn't have it.' As a young person growing up in Waikiki, we've always had overhead wiring. I don't remember any tourist saying that they objected to that.

"So for those reasons, I don't want to pay for somebody else that decides that they're good environmentalists or that they would like to have something done and it may not even be in their district. They just think that this is what they want to see. So I will be voting 'no.'

"Thank you."

The motion was then put by the Chair and carried, S.B. No. 143, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO UTILITY TRANSMISSION LINES," having been read

throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 20. Noes, 5 (Anderson, Buen, Chun, Slom, Tanaka).

S.B. No. 384, S.D. 1:

Senator Kanno moved that S.B. No. 384, S.D. 1, having been read throughout, pass Third Reading, seconded by Senator Taniguchi.

Senator Iwase rose on a conflict ruling as follows:

"Mr. President, the same request for a ruling of conflict on this bill."

The Chair responded: "No conflict. You may vote."

Senator Iwase then said:

"Thank you, Mr. President. May I speak on this bill?"

The Chair replied: "Please proceed."

Senator Iwase continued:

"Mr. President, I'm rising to speak in opposition to this bill.

"Mr. President, unlike the previous bill which arguably has public merit because we're talking about residentially zoned areas and areas near schools, my great concern is that this bill says that the public utilities shall not authorize the placement of these 46 KV lines in an area 'viewed by tourists.' The term is undefined. I assume that anytime a tourist gets on any roadway or walks along any walkway in the State of Hawaii, that is an area viewed by tourists. In short, this bill would prohibit the KV lines -- in its broadest interpretation, of course -- prohibits construction or installation of overhead KV lines anywhere in the State of Hawaii which may be walked upon or viewed by any tourist in the State of Hawaii.

"And mind you, the cost of these KV lines will not be borne by these tourists who are viewing the KV lines from any place in the State of Hawaii, but by the local residents who live in these areas and who need the electricity. And so for those reasons, Mr. President, I think at some point we have to balance the interest. The need to underground, and the arguments about EMF, and health, and the environment, and the view plains on the one hand, and the cost to the consumer on the other, I believe that in this case the balance tips against this proposal, and I'll be voting 'no.'

"Thank you."

Senator Chun also rose in opposition to the measure and stated:

"Mr. President, I'll be rising to speak against this measure also.

"Similarly to the other bill we just voted on, and fortunately Kauai has been held to have many vistas like the ewa plains, this bill would have a severe impact, much greater than the bill that we had, because of Kauai's many, many vistas throughout the island, and of course, because we have the visitors going there and looking at these vistas.

"I struggle with this bill, personally, because I really support the intent of preserving the vistas, preserving the view plains for not only our visitors but also for our residents because that's what is so important. That's what makes Hawaii, Hawaii. And I've has always been, in everything I've been doing, wanting to work to preserve those. However, there are better ways to preserve vistas. I agree with the Honorable Senators, my colleagues over here who stood in support of the previous bill that we need to preserve vistas and that we need to really look

at and learn from the lessons of Oahu and don't repeat them. I agree totally with those, but there are better ways to do that, rather than with the stick to force people to go ahead and do something at the end of a gun. There are better ways.

"In fact, we are having discussions. I personally had discussions with the utility companies from my island about working in cooperation that whenever the county or the state decides to have roadway projects in which we will always be digging and trenching for sewers for water to work in concert in cooperation with them to underground the lines at that time. That would be of very little cost and impact to rate payers and very little or no cost, again, to the taxpayers because that work will be done.

"The problems of the past were that they lacked that kind of cooperation. I agree that we need to learn from the mistakes of the past, but there are other ways to learn other than be at the point of a gun. You can learn from experience. You can learn from cooperation. And that's why I feel that this bill does not really foster those kinds of attitudes and that kind of spirit.

"Finally, I vote on this bill very regretfully again because recognizing the hard work of the co-chairmen of CPN. I think the bottom line, as I asked them in discussing this bill, is if they can look out for the interest of the islands. I know I'm just one vote over here. I know I just look at one perspective, the perspective of my island which I love dearly and I care about. And I know that if I vote 'no' on this bill, I lose all kinds of chances later on to participate on this bill if a conference is called. And I very seriously consider that in making my decision. But I make my decision to vote 'no' because I will trust my colleagues. I will trust my colleagues that they will be concerned just as much as I am concerned about the people of my island. I trust their judgment and I will put my hand along with the hands of the other voters in this honorable body that their concerns will be met and that we will do the right thing.

"Thank you, Mr. President."

Senator Buen rose on a conflict ruling and said:

"Mr. President, like the previous bill, do I have a potential conflict?"

The Chair replied: "No, you may vote."

Senator Buen continued:

"Thank you. I will be opposing this measure also for the same reasons that I have stated. Thank you."

Senators D. Ige and Bunda then requested their votes be cast "aye, with reservations," and the Chair so ordered.

Senator Sakamoto rose in opposition to the measure and said:

"Mr. President, I rise to speak in opposition.

"I think if all of us look a hundred years into the future, there will not be these lines that we don't like. And I agree these lines don't look good. There may be a potential health hazard. The cards are dealt on both sides on that issue. But today we passed the other bill. There is no need for this bill today. Today, the people out there are suffering. Seventy-four cents, \$1.19, \$2.19, a loaf of bread -- for some people they do not have that loaf of bread a week, let alone a month. We cannot pass this type of bill that is so wide open that we don't know the rate impact, even.

"There are projects that were mentioned -- \$40 million, a dollar and so many cents a month, but that's one project. This is potential disaster. All of the highway projects that your districts are looking at, Mr. Transportation Chair, all of these projects will be shelved. Why? Because they all have to be redesigned.

"This is a ridiculous bill. W/R is not good enough. Please cast my vote as 'no.'"

The motion was then put by the Chair and carried, S.B. No. 384, S.D. 1, entitled: "A BILL FOR AN ACT RELATING TO PUBLIC UTILITIES," having been read throughout, passed Third Reading on the following showing of Ayes and Noes:

Ayes, 16. Noes, 9 (Anderson, Buen, Chumbley, Chun, Iwase, Matsuura, Sakamoto, Slom, Tanaka).

Senator Fukunaga, for the Committee on Ways and Means, requested a waiver pursuant to Senate Rule 20 for S.B. Nos. 153, 456, 860, 1126, 1138, 1462 and 1496, and the Chair granted the waiver.

At 6:48 o'clock p.m., the Senate stood in recess subject to the call of the Chair.

The Senate reconvened at 6:51 o'clock p.m.

Senator Slom rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"In the last 48 hours two of our colleagues were criticized and chastised for their personal religious beliefs. I'm very concerned about this, Mr. President. There is hypocrisy here. We start off every session, every session, by praying to a deity. We tell people that we want to be guided by a power greater than ourselves. We ask for divine guidance and we ask for people to stand up, to be committed, to be passionate about something. And then some group comes along and criticizes two of my colleagues -- one for having a symbol of personal faith and belief on his door, the other for simply inviting individuals to pray.

"Who is this group? What is this group -- this group called the Hawaii Citizens for the Separation of State and Church? They started sending all of us daily faxes back in January and they said they're to be informative and enlightening. One of them says, 'Warning to Hawaii Government. Beware of the Catholic Church.' One of them says, 'The Bible says "Jesus will torture and kill every non-Christian on earth."' One of them says, 'Satan is among you,' and on and on and on.

"Who are these people? And why are they complaining? And who are we, not to stand with our colleagues who have a stated belief in something other than big government and bureaucracy, when we ask the Attorney General of this State to utilize that office's resources and the taxpayers' money to investigate whether two of our colleagues can express their own personal religious and First Amendment Constitutional beliefs? What message are we sending to the children? What message are we sending to the public? We've got to stand for something.

"I think that this organization stands for the separation of commitment, the separation of those who stand for something, the separation of a mind and heart and spirit from body. And Mr. President, if I'm forced to make a decision and to stand, I will stand and err on the side of my colleagues and those that have a belief in someone greater than ourselves.

"Thank you, Mr. President."

Senator Chun rose on a point of personal privilege as follows:

"I stand on a point of personal privilege.

"Mr. President, I agree with the statements made today regarding the criticism of my two colleagues on their religious beliefs. I grew up here in Hawaii and chose to stay here in

Hawaii because of what Hawaii is. And Hawaii is aloha. It's reflected not only in our statutes but reflected in our way of life. Aloha means that we care about each other, that we're concerned about each other, and that we respect each other's viewpoints whether we agree with them or not. That's what aloha really is about. That's what we try to live. That's what we try to be. That's the way in our laws we hope to reflect that spirit of aloha.

"What I saw over the past couple of days, and in the letters referenced just recently, doesn't show that. It shows an attitude of intolerance, an attitude that there is no way but their way. It does not adequately reflect aloha as we know it. And that's what saddens me. But I also respect their right, their right, Mr. President, to disagree with my two colleagues in terms of their expression of their own personal beliefs. I respect that.

"I want to end with this quote from the Supreme Court Justice in the case of Allegheny County vs Greater Pittsburgh, 'Rather than requiring government to avoid any action that acknowledges or aids religion, the establishment clause permits government some latitude in recognizing and accommodating the central role religion plays in our society. Any approach less sensitive to our heritage would border on latent hostility toward religion, as it would require government, in all its multi-faceted roles, to acknowledge only the secular, to the exclusion and so to the detriment of religion.' Those are adequate words that zealously but accurately reflect the dynamics of the Constitution. We should make no laws to respect any religion, but we should make laws so no laws would hinder the expression of that religion.

"Thank you very much, Mr. President."

Senator Anderson rose on a point of personal privilege and stated:

"Mr. President, I rise on a point of personal privilege.

"I agree with my two colleagues, but I'm standing up for another reason. I think every one of my colleagues here have a right to believe in what they want to. But personally, Mr. President, when we first started this year, I heard all the rhetoric about what we've heard from the community about the economy being down and they needed help. Well, I had asked if we were going to move any of the other bills, other than the tax reform bills that we did today. I asked if we were going to do anything with shipboard gambling or any other type or form of gambling, and if we could get a 72-hour waiver. We could have done that just as easily as we've done other waivers. And I thought maybe we would have some kind of movement because everybody gave everybody a little bit of 'BS' about what we were going to do with this economy.

"We had a referendum that was last used, I keep telling everybody, in 1939. We're not here for your individual cares. We're here because the community was going to have input, and that's what the referendum did. And it was only an advisory. You don't want to listen to what the referendum did after it was on the ballot, that's your business. But it would let you know what your constituents thought.

"I don't mind if you don't believe in what everybody else believes in, that the community has a right and a voice and they should be heard. And we could have had a waiver. We could have had the bills heard earlier. We promised people. We haven't done a damn thing, really, to move this economy. I've never been so sick about all the bills that we do. Amend this and pass that, and the departments care. But we haven't done anything for the economy, and people are suffering.

"When we were trying to do a tax credit today . . . you know, have priorities. The most regressive tax was on food and drug. We had Senator Matsuura's bill today and we held it. And I have reservations about holding it. We had other bills. But that is the most regressive tax. I don't care if you're very rich or

very poor. You buy food; you buy pills for your headaches and you buy rheumatism pills and whatever. And you deserve to pass that for the people. And after one year, if in fact we feel that we're losing too much money, we know how much money we're going to have to put back. One year they said, 'Well, you know, we just passed the credit for personal income. The highest we've ever done.' Three years, that's going to take. Three years! Tax credits, end of the year -- who cares about what you're going to get at the end of the year? -- \$100, \$200 on a tax credit. You need money everyday when you're spending it.

"Every one of us have children, grandchildren, cousins, nieces, nephews, whatever. It's very hard for the young people to live. There's another life away from this building. You owe your constituents. You didn't come here for your personal ideas and cares. You came here to reflect what your community wanted.

"I have a lot of concerns of my own. But when it comes down to the public and what we owe them, believe me, my colleagues, we're not doing our job. I'm embarrassed of what we're doing. And if you're not, then I don't think you belong. It's a very sickening deal to see us sit here and we smile and we say we're going to do this and we're going to do that, year after year.

"I made a speech the other night to the Republicans, Mr. President, and I said that the problem with most of the people that get elected, we sit out there and we tread water and we wait for somebody to throw us a life-preserver or pick us up by a boat. There's some of us who are willing to swim ashore. And I used that as Republicans. But there's a whole bunch of us and we better damn well learn to swim ashore because all we've been doing for 20 years, that I know of, is treading water. We haven't done our jobs.

"Thank you very much, Mr. President."
