

SPECIAL COMMITTEE REPORT

Spec. Com. Rep. No. 1

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Twentieth Legislature of the State of Hawaii, Regular Session of 1999, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The terms of the newly elected Senators listed below will expire on November 5, 2002, except that the term of Senator David Matsuura will expire on November 7, 2000.

First Senatorial District

Lorraine R. Inouye

Second Senatorial District

David M. Matsuura

Fourth Senatorial District

Jan Yagi Buen

Sixth Senatorial District

Avery B. Chumbley

Seventh Senatorial District

Jonathan Chun

Tenth Senatorial District

Les Ihara, Jr.

Thirteenth Senatorial District

Rod Tam

Seventeenth Senatorial District

David Y. Ige

Eighteenth Senatorial District

Randy Y. Iwase

Nineteenth Senatorial District

Calvin Kawamoto

Twenty-first Senatorial District

Colleen Hanabusa

Twenty-second Senatorial District

Robert Bunda

Twenty-third Senatorial District

Bob Nakata

Signed by Senators Matsunaga, Levin and Anderson.

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. No. 1 on S.B. No. 560

The purpose of this measure is to define the term "substantial adverse environmental or ecological effect" in order to ensure that the long-term incremental degradation of natural resources is halted.

The measure also establishes definitions of "baseline", "resource", and "scenic resource" to further clarify the intent of Chapter 205A, Hawaii Revised Statutes, relating to coastal zone management.

Your Committee finds that the measure defines "substantial adverse environmental or ecological effect" as:

- (1) Irrevocable damage, degradation to, or loss of a resource found in an ahupua'a; or
- (2) A statistically significant persistent increase to the baseline in levels of any of the water pollutants, water quality parameters, air pollutants, or noise decibel levels as identified in administrative rules.

Upon further consideration, your Committee has amended the measure by making technical, nonsubstantive amendments for the purpose of style.

Your Committee believes that the amended measure will provide more guidance in interpreting and enforcing the state laws and policies on coastal zone management.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 560, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 560, S.D. 1, H.D. 1, C.D. 1.

Senators Hanabusa, Matsuura, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Takumi, Garcia, Morita, Schatz, Meyer.
Managers on the part of the House.

Conf. Com. Rep. No. 2 on S.B. No. 1321

The purpose of this measure is to facilitate and support research and development of open ocean mariculture by clarifying the law dealing with the leasing of state marine waters for aquaculture and mariculture purposes.

Upon further consideration, your Committee has amended the measure by:

- (1) Changing the repeal date from June 30, 2001, to five years after the effective date of the measure for the amendments made in the measure to the Ocean and Submerged Lands Leasing Law (Law), which remove certain limitations to allow commercial mariculture as a permitted use under the law, clarify the process for obtaining a mariculture lease, and provide potential mariculture projects with the flexibility to adapt technology and designs to a site; and
- (2) Removing the ten lease limit on the amount of leases that may be executed pursuant to the measure.

Your Committee finds that this measure would remove key limitations and allow mariculture leases, streamline and clarify the process for a mariculture lease, and provide potential mariculture projects with the flexibility to adapt technology and designs to a site.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1321, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1321, S.D. 2, H.D. 2, C.D. 1.

Senators Inouye, Hanabusa, Buen, Tanaka, Slom.
Managers on the part of the Senate.

Representatives Takumi, Suzuki, Garcia, Schatz, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 3 on S.B. No. 809

The purpose of this bill is to allow a sole proprietor of a catamaran operating with a valid commercial registration certificate in Waikiki to transfer the ownership of the vessel to corporate or other business ownership without terminating the right to operate, with the existing commercial registration to be reissued in a timely manner in the name of the new owner, and to ensure that the registration shall not be denied or revoked without a hearing held in accordance with Chapter 91, Hawaii Revised Statutes (HRS).

Your Committee on Conference has amended this measure to add the word "prior" in reference to the hearing held under Chapter 91, HRS.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 809, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 809, S.D. 2, H.D. 1, C.D. 1.

Senators Inouye, Fukunaga, Kawamoto, Slom.
Managers on the part of the Senate.

Representatives Takumi, Kanoho, Schatz, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 4 on S.B. No. 942

The purposes of this measure are to:

- (1) Require the Department of Land and Natural Resources (DLNR) to establish, maintain, manage, and operate game management areas, wildlife sanctuaries, and public hunting areas on land under its control;
- (2) Add a definition of "game management area"; and
- (3) Require DLNR to preserve, protect and promote public hunting, as part of its powers and duties.

Your Committee on Conference has amended this measure to add a definition of "public hunting area" in Section 183D-4, Hawaii Revised Statutes.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 942, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 942, S.D. 1, H.D. 1, C.D. 1.

Senators Inouye, Levin, Buen, Slom.
Managers on the part of the Senate.

Representatives Cachola, Kanoho, Goodenow, Schatz, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 5 on S.B. No. 1270

The purpose of this measure is to allow private schools to develop procedures for obtaining verifiable information regarding the criminal history of persons who are employed or are seeking employment in positions which place them in close proximity to children. In addition, this measure includes teacher trainees in public schools as subject to criminal history record checks.

Your Committee has amended this measure by making a technical, nonsubstantive change for the purpose of clarity.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1270, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1270, S.D. 1, H.D. 2, C.D. 1.

Senators Ige, D., Bunda, Chumbley, Slom.
Managers on the part of the Senate.

Representatives Ito, Oshiro, P., Arakaki, Morihara, Stegmaier, McDermott.
Managers on the part of the House.

Conf. Com. Rep. No. 6 on S.B. No. 1307

The purpose of this measure is to promote accountability in the public school system by requiring the Department of Education to establish a comprehensive system of educational accountability to motivate and support the improved performance of students and the education system.

Your Committee has amended this measure by amending the Senate version to add language from the House version which:

- (1) Includes the specifics of the design of the accountability system, fiscal requirements, and legislative actions needed in the required report; and
- (2) Directs the report to be submitted to the Board of Education, in addition to the Legislature and the Governor.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1307, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1307, S.D. 1, H.D. 1, C.D. 1.

Senators Ige, D., Sakamoto, Slom.
Managers on the part of the Senate.

Representatives Ito, Ahu Isa, Morihara, Stegmaier, Takai, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 7 on S.B. No. 1091

The purpose of this measure is to authorize the Department of Land and Natural Resources to adopt administrative rules relating to aquatic resource regulations that specify bag limits, sales restrictions, seasons, and regulation on fishing gear.

Your Committee on Conference has amended this measure to repeal the Act as of June 30, 2002.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1091, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1091, S.D. 1, H.D. 2, C.D. 1.

Senators Inouye, Chumbley, Buen, Ihara, Slom.
Managers on the part of the Senate.

Representatives Takumi, Hamakawa, Schatz, Garcia, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 8 on S.B. No. 528

The purpose of this measure is to exempt health insurers, mutual benefit societies, and health maintenance organizations that offer health insurance under federally-funded programs pursuant to the Social Security Act from mandated health coverage requirements.

Your Committee on Conference has amended this measure by inserting an effective date of July 1, 1999.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 528, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 528, S.D. 2, H.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Slom.
Managers on the part of the Senate.

Representatives Menor, Nakasone, Lee, Suzuki, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 9 on S.B. No. 1125

The purpose of this measure is to make conforming amendments to the Code of Financial Institutions consistent with amendments to the interstate banking and branching laws enacted in 1996, and to conform certain procedures applicable to foreign banks and credit unions to the procedures established for other financial institutions. Additionally, the measure establishes separate filing deadlines for unaudited statements of nondepository financial services loan companies.

Your Committee on Conference has amended this measure by deleting the reference to "qualifying state" in section 412:2-503(a)(2), Hawaii Revised Statutes, consistent with the repeal of the definition of "qualifying state" in section 7 of the measure.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1125, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1125, H.D. 1, C.D. 1.

Senators Kanno, Taniguchi, Bunda, Slom.
Managers on the part of the Senate.

Representatives Menor, Hiraki, Kaho'ohalahala, Lee, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 10 on S.B. No. 957

The purpose of this measure is to extend the deadline for the Motor Vehicle Insurance Benefits Task Force's (Task Force) final report to the legislative and executive branches regarding motor vehicle insurance costs and benefits and the uninsured motorists problem. Additionally, the measure extends no-cost motor vehicle insurance coverage under the joint underwriting plan to persons who received public assistance medical benefits prior to July 1, 1994, and who are still receiving these benefits.

Upon careful consideration, your Committee on Conference has amended this measure to:

- (1) Delete from the purpose section the discussion of developing a plan that balances maximum coverage and benefits for motor vehicle accident victims with the lowest possible cost for motor vehicle insurance purchasers;
- (2) Provide that the measure shall be effective upon its approval, rather than on July 1, 2010; and

- (3) Make technical, nonsubstantive changes.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 957, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 957, S.D. 2, H.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Bunda, Slom.
Managers on the part of the Senate.

Representatives Menor, Arakaki, Yamane, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 11 on S.B. No. 1262

The purpose of this measure is to expand the definition of "captive insurance company"(CIC) to:

- (1) Establish four classes of CICs, subject to specified minimum capital or surplus requirements that may be increased by the Insurance Commissioner as necessary to preserve solvency;
- (2) Limit the first two classes to pure CICs and the third class to companies formed as association and risk retention CICs;
- (3) Designate class 4 CICs as leased capital facilities that, as newly authorized under this measure, are allowed to be owned by persons or entities that are not members of the CIC;
- (4) Exempt class 3 and 4 CICs from any National Association of Insurance Commissioners (NAIC) risk-based capital reports filing requirements; and
- (5) Subject class 4 CICs to the same one percent tax imposed on the gross premiums of association CICs and risk retention CICs, where no premium tax is otherwise paid to this State on those amounts.

Your Committee on Conference, upon further consideration, has amended this measure to:

- (1) Establish different minimum capital surplus requirements for Class 3 risk retention CICs (\$500,000), and Class 3 association CICs (\$750,000); and
- (2) Make technical, non-substantive amendments.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1262, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1262, H.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Slom.
Managers on the part of the Senate.

Representatives Menor, Cachola, Herkes, Lee, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 12 on S.B. No. 5

The purpose of this measure is to:

- (1) Provide loans to qualified farmers to export crops and livestock and to farmers who are the subject of state eradication programs; and
- (2) Appropriate funds from the agricultural loan revolving fund to farmers in economically depressed areas.

Your Committee on Conference has amended this measure to delete all references to the state eradication programs, as this issue is being resolved through other means, and to make technical amendments.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 5, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 5, S.D. 2, H.D. 2, C.D. 1.

Senators Inouye, Levin, Buen, Slom.
Managers on the part of the Senate.

Representatives Abinsay, Saiki, Ahu Isa, Ito, Morihara, Halford.
Managers on the part of the House.

Conf. Com. Rep. No. 13 on S.B. No. 1036

The purpose of this measure is to create a disability and communication access board to provide more efficient coordination of state efforts to comply with disability access laws and to provide services to the disabled, deaf, hard-of-hearing, and deaf-blind.

Upon further consideration, your Committee on Conference has amended this measure by providing that the Act take effect on January 1, 2000, but sections 6 and 7 take effect on July 1, 2000.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1036, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1036, S.D. 3, H.D. 1, C.D. 1.

Senators Chun Oakland, Fukunaga, Chun, Anderson.
Managers on the part of the Senate.

Representatives Santiago, Arakaki, Kawakami, Saiki, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 14 on S.B. No. 1024

The purpose of this measure is to clarify the factors to consider when determining civil and administrative penalties regarding the state water pollution law.

The measure also allows the department of health to establish a permanent exempt position for an ecological risk assessor and adds a new license category for environmental health services professionals.

This measure also makes general housekeeping amendments to the statutes governing the duties of the department of health.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provisions clarifying the factors to consider when determining civil and administrative penalties regarding the state water pollution law, which have been incorporated into another measure; and
- (2) Deleting sections 5, 6, 8, and 9 of the measure, which make general housekeeping amendments to the statutes governing the department of health, and which do not directly relate to the title of this measure.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1024, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1024, S.D. 3, H.D. 1, C.D. 1.

Senators Nakata, Matsunaga, Ihara, Kanno, Slom.
Managers on the part of the Senate.

Representatives Morita, Oshiro. P., Schatz, Takumi, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 15 on S.B. No. 1079

The purpose of this measure is to:

- (1) Change the name of the consolidated application process to the facilitated application process;
- (2) Expand the membership of the permit process task force;
- (3) Limit the permit process task force's focus to county building permit applications requiring state approval; and
- (4) Establish a sunset date for the task force of June 30, 2002.

Your Committee on Conference has amended this measure to return to the language of the Senate Draft, added language from the House Draft to clarify that the permits include county permits, and has made technical amendments.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1079, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1079, S.D. 1, H.D. 3, C.D. 1.

Senators Inouye, Buen, Slom.
Managers on the part of the Senate.

Representatives Herkes, Menor, Luke, Chang, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 16 on S.B. No. 1638

The purpose of this measure is to require the Department of Education and the exclusive representative for bargaining unit 6 to conduct a study on the issue of compensational parity for educational officers within the department.

Upon further consideration, your Committee on Conference has amended this measure by changing the effective date from March 1, 2001 to "upon its approval".

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1638, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1638, S.D. 2, H.D. 1, C.D. 1.

Senators Nakata, Levin, Ige, D., Ige, M., Slom.
Managers on the part of the Senate.

Representatives Ito, Yoshinaga, Catalani, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 17 on S.B. No. 1519

The purpose of this measure is to:

- (1) Require assisted housing development owners to give a one-year notice to tenants if the owner is going to terminate a subsidy contract; and
- (2) Give tenants or nonprofit organizations the opportunity to purchase the development if the owner of the development has not given notice to sell prior to July 1, 1999.

Your Committee on Conference has amended this measure by deleting the provision that authorized the issuance of general obligation bonds for the Rental Housing Trust Fund.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1519, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1519, S.D. 3, H.D. 2, C.D. 1.

Senators Tam, Levin, Buen, Anderson.
Managers on the part of the Senate.

Representatives Arakaki, Kahikina, Stegmaier, Yamane, McDermott.
Managers on the part of the House.

Conf. Com. Rep. No. 18 on S.B. No. 1149

The purpose of this measure is to clarify that attorney's fees and other costs of the opposing party shall not be assessed against the Director of Labor and Industrial Relations in cases involving the collection of unpaid wages.

This measure also clarifies penalties and suspension provisions with regards to violations of the laws relating to wages and hours on public works projects.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Clarifying the provisions relating to suspension from work on public contracts for a third violation;
- (2) Clarifying that each violation refers to each investigation involving one or more projects;
- (3) Clarifying that offense means each section of the wage and hour laws under which the contractor is cited;
- (4) Deleting the proviso that suspensions for a first or second violation shall not exceed three years; and
- (5) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1149, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1149, S.D. 1, H.D. 2, C.D. 1.

Senators Nakata, Ihara, Kanno, Slom.
Managers on the part of the Senate.

Senator Ige, M. did not sign the report.

Representatives Yoshinaga, Hamakawa, Goodenow, Pendleton.
Managers on the part of the House.

Representative Okamura did not sign the report.

Conf. Com. Rep. No. 19 on S.B. No. 40

The purpose of this measure is to replace certification of physician assistants with licensure of physician assistants.

Upon careful consideration, your Committee on Conference has amended this measure to:

- (1) Add definitions for "physician assistant" and "supervising physician" to the State Uniform Controlled Substances Act;
- (2) Authorize a physician assistant registered with the Department of Public Safety (DPS) to administer, prescribe, and dispense a controlled substance under the supervision of a physician licensed to practice medicine in the State and registered with DPS; and
- (3) Establish requirements for prescriptions issued by a physician assistant.

Your Committee on Conference has also provided that this measure shall take effect upon its approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 40, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 40, H.D. 2, C.D. 1.

Senators Kanno, Taniguchi, Inouye, Slom.
Managers on the part of the Senate.

Representatives Santiago, Menor, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 20 on S.B. No. 236

The purpose of this measure is to make it an unfair and deceptive practice to promote a contest of chance where some or all of the prizes may not be awarded, or to fail to award all prizes offered, without providing a potential contestant with specific and conspicuous written disclosure. This measure also makes it unlawful to offer a prize of real property in a contest of chance.

Upon careful consideration, your Committee on Conference has amended this measure to allow the offering of a prize of real property in a contest of chance provided that the offeror files a minimum \$10,000 bond with the Director of Commerce and Consumer Affairs, that:

- (1) Names the director as obligee and a surety company authorized in the State to do business as surety;
- (2) Is continuous in form and conditioned upon an award of the real property to an eligible participant; and
- (3) Runs to the State for the benefit of any person who failed to receive the real property due to the failure of the offeror to award the real property.

The measure also establishes requirements and conditions for the cancellation of a bond by a surety. Additionally, your Committee on Conference has made technical, stylistic changes to the measure.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 236, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 236, S.D. 1, H.D. 1, C.D. 1.

Senators Kanno, Taniguchi, Chumbley, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Menor, Hamakawa, Lee, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 21 on S.B. No. 664

The purpose of this measure is to allow the director of finance to discard and allow for new applications of inactive special number plates that have not been assigned or registered during the preceding three years.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Making conforming amendments to section 249-9, Hawaii Revised Statutes;

- (2) Authorizing the county directors of finance to issue special number plates to organizations, establish application procedures, and allow the organizations to retain the fees collected, less expenses, for the special number plates. The organization's decal shall be affixed to the special number plates;
- (3) Allowing persons who served the United States in the military or as a civilian during the Pearl Harbor attack during World War II to obtain a special number plate;
- (4) Clarifying that the provisions in section 249-9.3, Hawaii Revised Statutes, relating to the issuance of special number plates to organizations shall not be construed to apply to special number plates issued to military veterans pursuant to section 249-9.2, Hawaii Revised Statutes; and
- (5) Making technical, nonsubstantive amendments for purposes of preferred drafting style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 664, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 664, S.D. 1, H.D. 1, C.D. 1.

Senators Kawamoto, Bunda, Iwase, Slom.
Managers on the part of the Senate.

Representatives Hiraki, Goodenow, Catalani, Nakasone, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 22 on S.B. No. 709

The purpose of this measure is to allow use of a photo technology system to enforce the violation of unlawful crossing of longitudinal lane markings in conjunction with the photo red light and speed imaging detector demonstration project.

Upon further consideration, your Committee on Conference has amended this measure by using the Senate Draft of the bill. This draft was further amended by:

- (1) Changing the procedures relating to rebutting prima facie evidence of a traffic violation obtained pursuant to the photo technology system establishing that the registered owner was the operator of the vehicle during a violation of the applicable traffic laws. As amended, the prima facie evidence may be rebutted by submission of a declaration under penalty of perjury signed by both the registered owner and the vehicle operator. The declaration shall state the name, current address, and driver's license number of the vehicle operator and a description of the violation. Within forty-eight hours of receiving this information, the contractor or appropriate county police department shall cause a summons or citation to be mailed to the operator of the vehicle;
- (2) Deleting language that limited use of a photo technology system in any one location from thirty minutes after sunrise to thirty minutes before sunrise; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and consistency.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 709, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 709, S.D. 1, H.D. 2, C.D. 1.

Senators Kawamoto, Matsunaga, Bunda, Ihara, Iwase, Slom.
Managers on the part of the Senate.

Representatives Hiraki, Goodenow, Nakasone, Takai, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 23 on S.B. No. 27

The purpose of this bill is to require an owner of a vehicle in storage to present a certificate of inspection issued after the recording of storage, only if the certificate of inspection expired during the storage period and the vehicle is to be removed.

Your Committee on Conference amended this bill by making the bill effective upon its approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 27, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 27, H.D. 1, C.D. 1.

Senators Kawamoto, Bunda, Iwase, Slom.
Managers on the part of the Senate.

Representatives Hiraki, Menor, Goodenow, Lee, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 24 on S.B. No. 676

The purpose of this bill is to permit the holder of a Type 3 driver's license to drive a motor vehicle with a gross vehicle weight rating of up to 12,000 pounds.

Your Committee on Conference has amended this bill by returning to the language of the Senate Draft which contains a purpose section and increases the gross vehicle weight rating limit for Type 3 driver's licenses to 15,000 instead of 12,000 pounds.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 676, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 676, S.D. 1, H.D. 2, C.D. 1.

Senators Kawamoto, Bunda, Iwase, Slom.
Managers on the part of the Senate.

Representatives Hiraki, Menor, Morita, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 25 on S.B. No. 700

The purpose of this bill is to enact provisions regulating neighborhood electric vehicles.

Your Committee on Conference has amended this bill by returning to the language of the last Senate Draft.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 700, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 700, S.D. 2, H.D. 1, C.D. 1.

Senators Kawamoto, Taniguchi, Bunda, Slom.
Managers on the part of the Senate.

Senator Iwase did not sign the report.

Representatives Hiraki, Oshiro, P., Morita, Fox.
Managers on the part of the House.

Representative Okamura did not sign the report.

Conf. Com. Rep. No. 26 on S.B. No. 823

The purpose of this bill is to require judges, when imposing a sentence, to consider the fact that the crime was committed in the presence of a minor as an aggravating factor of the crime.

Your Committee on Conference finds that children who witness domestic violence are harmed in many ways, and acknowledges that domestic violence is a perpetuation of a violent cycle, as children of abuse grow up to be abusers themselves. Various studies indicate that in homes where there is domestic violence, approximately 87 percent include children who witness these violent acts. Studies have also documented multiple problems among children that have witnessed continual assaults by one parent on another in the home. These problems include: psychological and emotional distress such as aggression, hostility, anxiety, social withdrawal, and depression; cognitive functioning problems such as lower verbal and quantitative skills and the development of attitudes supporting the use of violence; and physical problems such as delayed motor skills, speech difficulties, and multiple health problems. Therefore, because of the high social and financial costs resulting from domestic violence, your Committee agrees that more serious penalties should be imposed for both their deterrent and punitive effects.

Your Committee has amended this measure by clarifying that the court shall consider these aggravating factors in addition to the factors to be considered under section 706-606, Hawaii Revised Statutes.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 823, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 823, S.D. 1, H.D. 2, C.D. 1.

Senators Chumbley, Matsunaga, Chun Oakland, Anderson.
Managers on the part of the Senate.

Representatives Arakaki, Hamakawa, Lee, Thielen.
Managers on the part of the House.

Representative Stegmaier did not sign the report.

Conf. Com. Rep. No. 27 on S.B. No. 1502

The purpose of this bill is to require a candidate or a committee to file a report with the Campaign Spending Commission disclosing disbursements of over \$1,000 per year which are made for electioneering communications.

Your Committee notes that informational and educational advertising has become an unregulated and virtually unlimited aspect of political campaigns, which may be used to target not only individual candidates but also ballot issues. Your Committee agrees that allowing these types of communications to go unregulated, while requiring registered candidates and committees to submit reports is a loophole in the current law that provides an unfair advantage to those who are unregistered yet expending funds to affect a particular election. However, your Committee also agrees that the threshold of \$1,000 may be unduly restrictive upon certain types of electioneering communications.

Upon further consideration, your Committee has amended this measure by increasing the threshold for reporting from \$1,000 to \$2,000.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1502, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1502, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Hamakawa, Cachola, Kaho'ohalahala, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 28 on S.B. No. 777

The purpose of this measure is amend the alternate power of sale foreclosure procedures and requirements by:

- (1) Deleting references to "guarantor" in part II, chapter 667, Hawaii Revised Statutes;
- (2) Requiring a mortgagee foreclosing under the alternate power of sale process to provide the defaulting mortgagor with specific information summarizing the foreclosure process along with the first notice of default;
- (3) Providing that the foreclosing mortgagee is authorized to sign the conveyance document as the mortgagor's attorney-in-fact;
- (4) Clarifying that the public notice of public sale be mailed or delivered to the required parties; and
- (5) Removing the limitation on the applicability of the alternate power of sale foreclosure process to mortgages executed after July 1, 1999.

Upon careful consideration, your Committee on Conference has amended this measure to:

- (1) Reduce the minimum period of time allowed for curing a default from sixty days after the default notice date to forty-five days after the default notice date;
- (2) For the period prior to January 1, 2000, allow a mortgagee to provide to the defaulting mortgagor with the first notice of default a copy of the alternate power of sale foreclosure law, in lieu of the public information materials;
- (3) Allow a public sale of the mortgaged property thirty days, rather than sixty days, after the distribution of the public notice of public sale;
- (4) Repeal the foreclosure under power of sale law and its related provisions effective January 1, 2002; and
- (5) Provide that the measure shall be effective upon its approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 777, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 777, S.D. 2, H.D. 1, C.D. 1.

Senators Kanno, Taniguchi, Chumbley, Matsunaga, Hanabusa, Anderson.
Managers on the part of the Senate.

Representatives Menor, Hamakawa, Chang, Pendleton.

Conf. Com. Rep. No. 29 on S.B. No. 365

The purpose of this measure is to clarify that:

- (1) Individuals and the State (as parens patriae in class actions) as indirect purchasers injured by an illegal overcharge, shall be allowed to recover threefold compensatory damages for injuries sustained; and

- (2) Consent decrees resulting from antitrust actions become effective upon filing.

Your Committee on Conference, upon further consideration has amended this measure by deleting its contents and creating a new chapter in Hawaii Revised Statutes that:

- (1) Prohibits the sale of laser pointing devices (LPDs) to minors;
- (2) Prohibits the use of LPDs by persons over 18 years-old to harass another person or an animal;
- (3) Prohibits the possession of LPDs by minors;
- (4) Establishes an exception for the use of LPDs by minors in commercial laser tag activities; and
- (5) Establishes penalties for violations of the law.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 365, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 365, S.D. 1, H.D. 1, C.D. 1.

Managers on the part of the Senate.

Representatives Oshiro, P., Menor, Garcia, Lee, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 30 on S.B. No. 947

The purpose of this measure is to prevent telemarketing fraud in this State by adding a new chapter to the Hawaii Revised Statutes entitled the "Telemarketing Fraud Prevention Act", that:

- (1) Specifies the acts which constitute unfair or deceptive practices;
- (2) Specifies the acts which constitute abusive telemarketing practices;
- (3) Requires telephone solicitors to maintain records of telemarketing activities for a period of two years from the date of the telephone call and to make these records available to governmental agencies for law enforcement purposes;
- (4) Provides exemptions from the recordkeeping requirements of the chapter; and
- (5) Provides that violations of this chapter constitute unfair methods of competition or unfair and deceptive acts or practices within the meaning of section 480-2, Hawaii Revised Statutes (HRS).

After full and careful consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the definition of "premium";
- (2) Amending the definition of "seller" to include persons who arrange for a telephone solicitor to solicit funds or contributions;
- (3) Amending the definition of "telemarketing" to include prize promotions and investment opportunities;
- (4) Clarifying the acts which constitute:
 - (a) Unfair or deceptive practices; and
 - (b) Abusive telemarketing practices;
- (5) Clarifying the recordkeeping requirements for all telemarketing activities initiated in this State;
- (6) Providing exemptions for:
 - (a) Nondepository financial services loan companies licensed or authorized to conduct business in the State by the commissioner of financial institutions or an affiliate of a financial institution as defined in chapter 412, HRS; and
 - (b) The sale of goods or services by land line or wireless video service providers; and
- (7) Making technical, nonsubstantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 947, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 947, S.D. 2, H.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Matsunaga, Ihara, Matsuura, Anderson.
Managers on the part of the Senate.

Representatives Menor, Hamakawa, Lee, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 31 on S.B. No. 630

The purpose of this measure is to modify the campaign spending laws by inserting provisions requiring reporting of late contributions to candidates, candidate's committees, and other registered committees.

Your Committee finds that under current law, "last-minute" or late contributions made to committees are not reported until after the election. Your Committee acknowledges that these types of late contributions are often used to make major donations with the intent of affecting the outcome of the election. Your Committee believes that these donations should be open to public scrutiny prior to the election to promote fairness and to close this loophole in our public disclosure laws.

Upon further deliberation, your Committee has amended this measure by:

- (1) Changing the period of time during which late contributions that are received must be reported prior to the election, from fifteen through three days before the election to fifteen through four days before the election; and
- (2) Changing the date by which late contributions must be reported from two days to three days before the election.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 630, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 630, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Sakamoto, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Hamakawa, Kaho'ohalahala, Lee, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 32 on S.B. No. 1119

The purpose of this bill is to create an affirmative defense to murder in the first and second degrees that the defendant was, at the time the defendant caused the death of another person, under the influence of extreme mental or emotional disturbance for which there is a reasonable explanation.

Your Committee finds that under current law, in a trial for murder, there is a burden placed upon the prosecution to disprove the existence of an extreme mental or emotional disturbance, beyond a reasonable doubt, or see the charge reduced to that of manslaughter. Your Committee believes it proper that the defendant, upon raising this issue, should have the burden to prove that the defendant was under the influence of extreme mental or emotional disturbance. Placing this burden upon the defendant, rather than upon the prosecution to prove a negative, will assist prosecutors in cases similar to the recent Pada case, in which the issue of extreme mental or emotional disturbance was raised.

Upon further consideration, your Committee has amended this measure by adding an effective date.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1119, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1119, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Chang, Hamakawa, Lee, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 33 on S.B. No. 1485

The purpose of this bill is to:

- (1) Permit the court to waive jurisdiction on other felony charges arising from the same episode in which the minor was waived; and
- (2) Authorize the court to provide public inspection of a minor's legal records, if the proceeding or case involves an act resulting in the death of a victim.

Your Committee on Conference finds that when a court exercises its jurisdiction to waive a juvenile pursuant to subsections (b) or (d) of section 571-22, Hawaii Revised Statutes, the family court should be permitted to waive, in its discretion, any other related felony charges so that a related case may be brought and tried together for the sake of judicial economy and efficiency. Your Committee further finds that the right of the public to access important information on serious matters will be served by allowing the court to provide for the public inspection of a minor's legal records if the proceeding or case involves an act resulting in the death of a victim.

Your Committee has amended this measure by changing the effective date so that the Act will take effect upon its approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1485, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1485, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Sakamoto, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Garcia, Hamakawa, Lee, Whalen.

Conf. Com. Rep. No. 34 on S.B. No. 285

The purpose of this measure is to amend Chapter 514C, Hawaii Revised Statutes (HRS), to facilitate voluntary, bulk, lease-to-fee conversions of condominiums by condominium associations on behalf of their members.

Your Committee on Conference has amended this measure by:

- (1) Changing the title of Part I of Chapter 514C, HRS, to Right of First Refusal;
- (2) Deleting the language designating sections 514C-2 through 514C-8, HRS, as, "Part II. Right of First Refusal" and redesignating bill sections accordingly;
- (3) Deleting the amendments to the definition of "condominium" in section 514C-1, HRS;
- (4) Making the bill effective upon its approval; and
- (5) Making technical, nonsubstantive changes for purposes of clarity and proper drafting style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 285, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 285, S.D. 1, H.D. 1, C.D. 1.

Senator Hanabusa did not sign the report.

Representatives Menor, Suzuki, Cachola, Yamane, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 35 on S.B. No. 594

The purpose of this bill is to define the term "good cause" as used in section 134-7, Hawaii Revised Statutes. In cases involving restraining orders where good cause exemption becomes an issue, judges generally take into consideration whether the person subject to the restraining order is required to possess or carry a firearm during the course of the person's employment. If the case involves a police officer, the courts defer the granting of exemptions to the police chief with the rationale that the police chief would be best able to determine whether the officer would qualify for a good cause exemption. Within the past two years, the courts handled thirty-one cases involving the granting of good cause exemptions, and twenty-one of those cases involved police officers.

Your Committee on Conference acknowledges the seriousness of domestic violence and believes that the current law needs to be applied consistently in all cases, regardless of whether the person subject to a restraining order is a police officer. Judges should not be deferring the granting of an exemption to a police chief.

Therefore, your Committee has amended this bill by:

- (1) Providing that "good cause" consideration should also include the protection and safety of the person to whom a restraining order is granted;
- (2) Making a conforming amendment by deleting the reference to section 134-7(f) within section 134-11(b); and

- (3) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 594, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 594, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Hamakawa, Kaho'ohalahala, Lee, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 36 on S.B. No. 628

The purpose of this measure is to strengthen our campaign spending laws by: clarifying the types of campaign-related activities to which the laws apply; establishing clear parameters for when a candidate must register with the Campaign Spending Commission; and clarifying the requirements regarding the reporting and return of excess campaign contributions.

Your Committee finds that constitutional constraints raise questions regarding the degree to which the State can exercise regulatory authority over informational or educational advertising. Similarly, the Attorney General has opined that committees that receive and expend funds only to impact ballot issues cannot be subject to contribution limits. Your Committee further finds that amending the candidate registration threshold will improve the Campaign Spending Commission's awareness and monitoring of candidates in smaller races, who under present law are not required to register until late in a campaign.

Upon further consideration, your Committee has amended this measure by:

- (1) Inserting language in the definition of "committee" to exclude organizations which raise and expend funds for the sole purpose of production and dissemination of informational or educational advertising;
- (2) Requiring that the Commission publish the names of those failing to file a report in both the newspaper and on its website;
- (3) Retaining existing law with regard to registration of candidates for expenditures in an aggregate of amount of \$100;
- (4) Clarifying that limits on contributions shall not apply to contributions by a candidate to the candidate's own campaign; and
- (5) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 628, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 628, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Hamakawa, Kaho'ohalahala, Lee, Auwae.

Conf. Com. Rep. No. 37 on S.B. No. 616

Your Committee finds that those who promote prostitution often leave their victims with life-long physical, emotional, and financial scars. These may take the form of personal injury, disease, or even death; mental or emotional harm; medical and rehabilitation expenses; and the loss of past or future income and earning capacity. Your Committee further finds that the potential financial gains for those who coerce others into prostitution are so large that many persons evidently consider such coercion more than worth the risk of criminal prosecution. The added threat of civil liability, including payment of actual and exemplary damages, will serve as an additional deterrent to the promotion of prostitution.

Upon further consideration, your Committee has amended this measure by:

- (1) Reinserting a findings and purpose section from the S.B. No. 616, S.D. 1;
- (2) Reinserting language from the S.D. 1 that included coercion of an individual to remain in prostitution or to relinquish earnings from prostitution as a basis for liability;
- (3) Reinserting a provision from the S.D. 1 that excepted minor children dependent on an individual for support from potential liability for coercing that individual to collect or receive earnings from prostitution;
- (4) Reinserting a provision from the S.D. 1 that included restriction of movement as evidence supporting a claim of coercion; and

- (5) Reinserting a provision from the S.D. 1 that included defining the terms of an individual's employment in a way that could lead to the individual's prostitution, as evidence supporting a claim of coercion of a minor.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 616, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 616, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara.
Managers on the part of the Senate.

Senator Anderson did not sign the report.

Representatives Oshiro, P., Garcia, Hamakawa, Auwae.
Managers on the part of the House.

Representative Takumi did not sign the report.

Conf. Com. Rep. No. 38 on S.B. No. 1003

The purpose of this measure, as received by your Committee, is to impose penalties upon employers who fail to provide timely payments to employees obligated to pay child support, and to impose penalties upon the Child Support Enforcement Agency (CSEA) for failure to disburse payments within five working days after collection.

Your Committee acknowledges the continuing frustration of many custodial parents who are dependent upon the timely receipt of child support payments to meet their basic living expenses. Unfortunately, the disbursement system for child support payments continues to be plagued with problems, which further delays payments to custodial parents. While your Committee agrees that imposing penalties for late payments may be an incentive to ensure timeliness, a more proactive approach to addressing timely payments would be to provide additional opportunity for the obligor party to opt out of the system upon petition to the court.

Therefore, upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provisions imposing penalties upon employers and the CSEA;
- (2) Establishing a notice provision to be provided to parties of divorce informing them of the opportunity to enter into alternative arrangements for direct payment of child support;
- (3) Allowing parties to petition the court to opt out of the child support enforcement agency system at any time upon petition to the court;
- (4) Requiring the court to assign such petitions priority on the dockets for expeditious processing;
- (5) Allowing the CSEA to issue orders permitting alternative arrangements; and
- (6) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1003, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1003, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Chun Oakland, Sakamoto, Anderson.
Managers on the part of the Senate.

Representatives Arakaki, Oshiro, P., Saiki, Whalen.

Conf. Com. Rep. No. 39 on S.B. No. 186

The purpose of this bill is to make changes to certain aspects of Hawaii's tort law system, and to implement in part ideas raised in a report presented to the Legislature by the Tort Law Study Group, pursuant to S.C.R. 256, H.D. 1 (1997).

Your Committee finds that there is an interest, particularly in the business and professional community, in modifications to Hawaii's tort law system that would serve to bring down the costs of litigation and discourage the filing of meritless claims. However, your Committee further finds that proposals of sweeping changes to the present theories of liability and recovery were not recommended by the Study Group, and are not the subject of any consensus within the community at this time. Therefore, your Committee has combined elements of the House and Senate drafts of this measure, in seeking to make changes to Hawaii's tort law system that will implement some of the ideas raised by the Study Group and improve the present system without drastically altering it.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the purpose clause;

- (2) Deleting the provision placing a limitation on the recovery of noneconomic damages;
- (3) Deleting the provision regarding offers of judgment in civil actions;
- (4) Deleting the provision limiting punitive damages awards and giving discretion as to the award amount to the court;
- (5) Deleting a severability clause;
- (6) Reinserting a provision from S.B. 186, S.D. 1, codifying the Hawaii Supreme Court's decision as to tortious breach of contract in Francis v. Lee Enterprises, Inc., No. 21631 (Haw. 1999);
- (7) Reinserting a provision from the S.D. permitting pleaders to name, under fictitious names, defendants whose responsibility for the wrongful acts alleged is unknown, in addition to defendants whose identity is unknown;
- (8) Reinserting the effective date from the S.D.;
- (9) Adding to the provision as to attorneys' fees in civil actions, further language permitting a party to request that another party drop frivolous claims or defenses, and providing that the court may consider such a request in determining whether claims or defenses were frivolous;
- (10) Deleting language that would have altered the percentage of negligence subjecting a tortfeasor to joint and several liability for noneconomic damages in certain cases;
- (11) Inserting language stating that joint and several liability does not apply to design professionals and accountants for non-physical injury cases; and
- (12) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 186, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 186, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Kanno, Taniguchi, Chun Oakland, Anderson.

Conf. Com. Rep. No. 40 on S.B. No. 919

The purpose of this bill is to clarify that for the offense of robbery, it shall not be a defense that any person other than the defendant is aware of the theft or attempted theft.

A recent Hawaii Supreme Court decision, State v. Mitsuda, 86 Haw. 37 (1997), held that where a defendant threatens the imminent use of force against any person present with the intent to compel acquiescence to the taking of or escaping with property, the victim's awareness that a theft occurred is an element which the prosecution must prove for the offense of robbery in the first degree. Therefore, your Committee on Conference believes that it is necessary to clarify that the offense of robbery does not require the victim or any other person present to be aware of the theft or the attempted theft of the property.

Your Committee has amended this measure by adding a clarifying amendment that explicitly states that a person does not need to be aware of the taking of property where another person threatens the imminent use of force to take or escape with the property.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 919, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 919, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Sakamoto.

Representative Takumi did not sign the report.

Conf. Com. Rep. No. 41 on S.B. No. 590

The purpose of this bill is to provide uniformity among and consistency between the penalty provisions for violations of domestic abuse protective orders.

Your Committee on Conference finds that the penalties for violating temporary restraining orders and protective orders must be standardized to assure adequate and appropriate consequences for those who choose to ignore a court order designed to prevent further harassment, threats, and violence.

Therefore, your Committee has amended this measure by:

- (1) Adding that a violation of a temporary restraining order must be a knowing or intentional violation within section 586-4, Hawaii Revised Statutes (HRS), in order to be consistent with all other orders granted pursuant to chapter 586, HRS;
- (2) Conforming sections 586-11 and 580-10, HRS, by including similar language presently contained in section 586-4, HRS, relating to mandatory fines and sentencing;
- (3) Making a conforming amendment to section 601-3.6, HRS, relating to the spouse and child abuse special account by including reference to sections 586-11 and 580-10, HRS; and
- (4) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 590, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 590, S.D. 1, H.D. 1, C.D. 1.

Representatives Oshiro, P., Luke, Hamakawa, Kaho'ohalahala, Lee, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 42 on S.B. No. 1118

The purpose of this bill is to create a new offense of habitual criminal behavior against persons and property and to impose a mandatory minimum sentence upon repeat offenders.

Your Committee on Conference finds that there are many criminals who repeatedly commit misdemeanor offenses. These persons know that under current law, if caught, the consequences of their conduct will be relatively minor. As such, there is currently no serious deterrent to their repeated criminal behavior. A mandatory sentence will send a strong message that repeated criminal behavior will not be tolerated.

Therefore, your Committee has amended this measure by:

- (1) Providing that a repeat offender shall be sentenced to no less than nine months of imprisonment;
- (2) Providing that the court shall order a defendant sentenced under section 707-733, Hawaii Revised Statutes, relating to sexual assault in the fourth degree, to participate in a sex offender assessment and participate in the sex offender treatment program, if necessary and appropriate; and
- (3) Adding a saving provision.

Conf. Com. Rep. No. 43 on S.B. No. 36

The purpose of this measure is to increase the clarity, fairness, and economic efficiency of laws governing condominium associations by:

- (1) Permitting associations to collect delinquent common assessments directly from the tenant upon notice to the apartment owner;

- (2) Allowing the association to cease providing services and privileges to an apartment that is delinquent in payment of common assessments; and
- (3) Specifying where and in what type of institutions and investments an association may place its funds.

Your Committee on Conference has amended this measure by:

- (1) Allowing associations to enforce liens created for delinquent maintenance fees, including non-judicial or power of sale foreclosure procedures;
- (2) Allowing associations to invest in obligations and mutual funds comprised solely of investments in the obligations of the United States Government, the State of Hawaii, or their respective agencies with maturity dates over ten years after the purchase date if a majority vote of the apartment owners at an annual or special meeting of the association or written consent of a majority of the apartment owners approves such investment;
- (3) Requiring an association board to approve investments longer than one year and clearly disclose to owners all investments longer than one year at each year's association annual meeting; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 36, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 36, S.D. 2, H.D. 1, C.D. 1.

Senators Tam, Matsunaga, Chumbley, Ihara.
Managers on the part of the Senate.

Senators Hanabusa and Anderson did not sign the report.

Representatives Menor, Lee, Whalen.
Managers on the part of the House.

Representative Cachola did not sign the report.

Conf. Com. Rep. No. 44 on S.B. No. 1160

The purpose of this measure is to update and strengthen Hawaii's drug laws by conforming the State Uniform Controlled Substances Act to reflect changes in federal and State law. Key changes to the law effected by this measure include increasing and broadening recordkeeping and reporting requirements, standardizing the paper size requirements for prescriptions, establishing that communications made to a physician for the purpose of unlawfully procuring controlled substances are not privileged physician-patient communications, and expanding the penalty provisions.

Upon careful consideration, your Committee on Conference has amended this measure to:

- (1) Make the theft, loss, and discrepancy reporting requirement of section 329-66, Hawaii Revised Statutes (HRS), applicable to all controlled substance transactions regulated under chapter 329, HRS;
- (2) Establish as one of the criteria for dietary supplements exempt from certain requirements of chapter 329, HRS, the requirement that the supplement's labeling not recommend a daily intake of more than one hundred milligrams of ephedrine alkaloids; and
- (3) Exclude from the penalty provision transactions involving claims that the consumption of ephedrine products will result in heightened awareness and increased energy.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1160, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1160, S.D. 2, H.D. 2, C.D. 1.

Senators Taniguchi, Kanno, Chun Oakland, Chumbley, Slom.
Managers on the part of the Senate.

Representatives Hamakawa, Saiki, Luke, Oshiro, P., Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 45 on S.B. No. 822

The purpose of this measure is to require all health insurers, mutual benefit societies, and health maintenance organizations to provide coverage for contraceptive services and supplies.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Clarifying the definition of "religious employer" to add that the entity is not staffed by public employees;
- (2) Adding that any educational, health care, or other non-profit institution or organization owned or controlled by the religious employer is included in the religious employers exemption;
- (3) Requiring the insurance commissioner to report to the legislature prior to the convening of the 2001 session; and
- (4) Changing the effective date to upon its approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 822, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 822, S.D. 2, H.D. 2, C.D. 1.

Senators Chun Oakland, Kanno, Taniguchi, Bunda, Hanabusa, Anderson.
Managers on the part of the Senate.

Representatives Menor, Yamane, Garcia, Lee, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 46 on S.B. No. 1018

The purpose of this measure is to allow the Drug Product Selection Board (Board) to adopt as rules the "Approved Drug Products with Therapeutic Equivalence Evaluations", known as the Orange Book, as a state drug formulary, including a Hawaii additions and deletions list.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Providing that the Board may adopt administrative rules to establish a Hawaii additions and deletions list;
- (2) Deleting reference to the Board meeting no less than every six months;
- (3) Clarifying that an anti-epileptic drug for the treatment of epilepsy shall not be substituted; and
- (4) Making a nonsubstantive amendment for proper drafting style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1018, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1018, S.D. 1, H.D. 2, C.D. 1.

Senators Chun Oakland, Iwase, Anderson.
Managers on the part of the Senate.

Representatives Lee, Yamane, Ahu Isa, Garcia, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 47 on S.B. No. 1128

The purpose of this measure is to increase fines for the violations of the insurance code, and conform disclosure requirements for health insurance policies issued by mutual benefit societies and health maintenance organizations with the disclosure requirements for policies issued under chapter 431:10A, Hawaii Revised Statutes (HRS). The measure also requires that fraternal benefit societies be licensed in accordance with provisions governing solicitors in chapter 431, article 9, HRS.

Your Committee on Conference, upon further consideration, has amended S.B. No. 1128, S.D. 2, H.D. 1 to:

- (1) Clarify the scope of authority of the chief deputy insurance commissioner; and
- (2) Make non-substantive, technical amendments.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1128, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1128, S.D. 2, H.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Anderson.
Managers on the part of the Senate.

Representatives Santiago, Menor, Yamane, Ahu Isa, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 48 on S.B. No. 1145

The purpose of this measure is to support the Department of Commerce and Consumer Affairs' (DCCA) move toward self-sufficiency by combining most of DCCA's special and revolving funds into the DCCA's Compliance Resolution Fund, which would be used to fund DCCA operations, but would not be subject to central service and departmental administration expense reimbursement deductions or other reversions to the general fund.

Upon further consideration, your Committee on Conference has amended this measure to:

- (1) Clarify that all fees and expenses charged for the examination of financial institutions shall be deposited to the Compliance Resolution Fund, rather than the Financial Institution Examiners' Revolving Fund; and
- (2) Make technical and nonsubstantive amendments for the purpose of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1145, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1145, S.D. 2, H.D. 2, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Anderson.
Managers on the part of the Senate.

Representatives Menor, Kawakami, Chang, Yamane, Auwae.
Managers on the part of the House.

Representative Takumi did not sign the report.

Conf. Com. Rep. No. 49 on S.B. No. 788

The purpose of this measure is to establish a system of mandatory cigarette stamps as a means to assess, collect, and enforce cigarette taxes.

Your Committee on Conference is in accord that this measure is necessitated by the terms of the federal court-approved settlement of the recent tobacco litigation case. States are required to establish a cigarette stamp system to collect cigarette taxes, in order to share in the settlement proceeds.

Your Committee on Conference finds that Act 10, Session Laws of Hawaii 1999, relating to exempting United States government agencies and instrumentalities, is not in conflict with this measure. This measure is not intended to impose a cigarette stamp requirement on cigarettes sold to the United States.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Changing references to dates, as follows:
 - (A) From April 15, 2000, to December 15, 1999, for the licensee to apply for stamps;
 - (B) From May 1, 2000, to January 1, 2000, for the licensee to affix a stamp to each package of cigarettes;
 - (C) From September 1, 2000, to April 1, 2000, for prohibiting cigarettes to be sold or to be placed or stored in vending machines without a stamp;
 - (D) From September 1, 2000, to April 1, 2000, for penalties to begin; and
 - (E) From September 1, 2000, to April 1, 2000, to require the destruction of unstamped cigarettes;
- (2) Imposing the obligation to pay the tax upon the wholesaler or dealer and the licensee;
- (3) Deleting reference in current law to applying the tax against the latest of the activities of selling, using, or possessing;
- (4) Deleting references to percentages of the taxes collected to be allocated to county liquor commissions;
- (5) Deleting reference to the Auditor making a study and inserting reference to the Director of Taxation to study the effectiveness of the Act;
- (6) Making appropriations for each county liquor commission to enforce the cigarette stamp tax requirements; and
- (7) Requiring each county liquor commission to report to the legislature before the 2001 and 2002 Sessions on their respective activities relating to this measure, including expenses, fines and penalties collected, and forfeitures.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 788, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 788, S.D. 2, H.D. 2, C.D. 1.

Senators Chun Oakland, Fukunaga, Levin, Chun, Kawamoto, Anderson.
Managers on the part of the Senate.

Representatives Santiago, Suzuki, Goodenow, Kahikina, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 50 on S.B. No. 392

The purpose of this bill is to:

- (1) Require the election of the chairperson of the Metropolitan Planning Organization (MPO) every two years, rather than annually and to update the functions of the MPO;
- (2) Appropriate funds to be expended by the Department of Transportation for the planning, design, and construction of a cruise ship passenger terminal at Pier 2, Honolulu Harbor; and
- (3) Authorize the department of transportation to make improvements to airports without county approval.

Your Committee on Conference has amended this bill by:

- (1) Deleting the provisions relating to the Metropolitan Planning Organization;
- (2) Appropriating \$2,000,000 to be expended by the Department of Transportation for the planning and design of a cruise ship passenger terminal at Pier 2, Honolulu Harbor; and
- (3) Deleting the provisions that allow the Department of Transportation to construct structures and improvements for airport purposes without county approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 392, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 392, S.D. 2, H.D. 2, C.D. 1.

Senators Kawamoto, Levin, Bunda, Slom.
Managers on the part of the Senate.

Senator Iwase did not sign the report.

Representatives Hiraki, Kanoho, Goodenow, Nakasone, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 51 on H.B. No. 1178

The purpose of this bill is to allow the Department of Land and Natural Resources (DLNR) to sell or take action to cause the sale of perishable natural resources that are seized.

After careful consideration, your Committee on Conference has amended the bill by:

- (1) Providing that, unless directed by the courts, any non-natural resources that are seized shall be forfeited to the State for disposition as determined by DLNR or may be destroyed, kept, retained or utilized by the department or any other state agency;
- (2) Providing that if a non-natural forfeited item is not needed or required by DLNR or any other state agency, it shall be disposed of as provided by chapter 712A, Hawaii Revised Statutes;
- (3) Specifying that only "live" natural resources that are seized may be immediately returned to their natural environment or suitable habitat;
- (4) Providing that the department may not sell or cause the sale of any threatened or endangered species or any other species whose sale is prohibited by law; and
- (5) Making technical, nonsubstantive amendments for the purposes of style and clarity.

Your Committee finds that this bill will define procedures in managing perishable natural resources. Selling seized catches in a timely manner at fair market value would reduce storage costs to the State and prevent the waste of valuable consumable resources.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1178, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1178, H.D. 1, S.D. 1, C.D. 1.

Senators Inouye, Chumbley, Matsunaga, Buen, Kawamoto, Slom.

Managers on the part of the Senate.

Representatives Takumi, Oshiro, P., Morita, Schatz, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 52 on H.B. No. 1296

The purpose of this bill is to clarify certain aspects of the management of Kaneohe Bay by:

- (1) Limiting the number of permits the Department of Land and Natural Resources (DLNR) may issue for commercial operation of ocean use activities to the amount specified in the Kaneohe Bay Master Plan as it existed on June 21, 1993;
- (2) Requiring that all rules relating to the Kaneohe Bay Master Plan shall be done in accordance with sections 4.9 and 4.10 of the Kaneohe Bay Master Plan as adopted by the Office of State Planning on March 19, 1992, and with Chapter 91, Hawaii Revised Statutes;
- (3) Stating that any rule adopted by the DLNR that is in conflict with the Kaneohe Bay Master Plan must be for reasons of public health or safety, or resource protection or preservation;
- (4) Stating that if any provision of section 200-39, Hawaii Revised Statutes, affecting Kaneohe Bay is in conflict with Chapter 91, Hawaii Revised Statutes, relating to administrative procedure, Chapter 91 shall prevail; and
- (5) Requiring the Kaneohe Bay Regional Council to review the master plan and submit any amendments to DLNR by December, 1999.

After careful consideration, your Committee on Conference has amended this bill by deleting references to "section 200D-3" from Section 1 of this measure.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1296, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1296, H.D. 1, S.D. 1, C.D. 1.

Senators Hanabusa, Inouye, Fukunaga, Levin, Chun, Ige, M., Nakata, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Takumi, Garcia, Morita, Schatz, Meyer.
Managers on the part of the House.

Conf. Com. Rep. No. 53 on H.B. No. 1020

The purpose of this bill is to provide a continued source of financing to businesses under the Hawaii Capital Loan Program.

After careful consideration, your Committee on Conference has amended this bill by amending the effective date to June 29, 1999.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1020, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1020, H.D. 2, S.D. 2, C.D. 1.

Senators Inouye, Levin, Taniguchi, Slom.
Managers on the part of the Senate.

Representatives Herkes, Luke, Suzuki, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 54 on H.B. No. 1142

The purpose of this bill is to modify the wastewater treatment law by:

- (1) Transferring the certification of cesspool pumping operations from the State Board of Certification to the Department of Health;
- (2) Expanding the Department of Health's authority to regulate domestic sewage and recycled water;
- (3) Providing for consistent wastewater penalties; and
- (4) Allowing for search warrants to investigate wastewater spills.

Your Committee has amended the measure by:

- (1) Deleting the definitions of "recycled water" and "reclaimed water"; and

- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1142, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1142, H.D. 3, S.D. 2, C.D. 1.

Senators Nakata, Matsunaga, Ihara, Kanno, Slom.
Managers on the part of the Senate.

Representatives Morita, Oshiro, P., Schatz, Takumi, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 55 on H.B. No. 1548

The purpose of this bill is to:

- (1) Define "recycled water" and "reclaimed water" in chapter 342D, Hawaii Revised Statutes, relating to water pollution; and
- (2) Direct the Director of Health to give priority to adopting rules that will encourage the voluntary reuse of water where economically feasible.

Because this bill sets forth policy on the reuse of water, your Committee on Conference agrees that it would be inappropriate to make it voluntary. Accordingly, your Committee has deleted the phrase "...that will encourage the voluntary reuse of water where economically feasible."

This bill has been further amended by:

- (1) Stating that state laws and rules must ensure that the cost of recycled water is reasonable, fair, and economically feasible for both the processor and water consumer; and
- (2) Making technical, nonsubstantive amendments for the purposes of clarity and to conform to correct drafting conventions.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1548, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1548, H.D. 1, S.D. 1, C.D. 1.

Senators Nakata, Ige, M., Ihara, Slom.
Managers on the part of the Senate.

Representatives Morita, Schatz, Takumi, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 56 on H.B. No. 1177

The purpose of this bill is to allow private marinas and yacht clubs to take custody and dispose of vessels abandoned on their premises.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Amending the calculation of days before a vessel is considered abandoned to be 30 days after a notice is "mailed" instead of "received"; and
- (2) Specifying the number of days a notice will be deemed received after mailing as five "calendar" days instead of "business" days.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1177, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1177, H.D. 2, S.D. 1, C.D. 1.

Senators Inouye, Fukunaga, Buen, Ige, M., Slom.
Managers on the part of the Senate.

Representatives Takumi, Oshiro, P., Takamine, Morita, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 57 on H.B. No. 1181

The purpose of this bill is to:

- (1) Consolidate and standardize various penalty provisions;

- (2) Establish minimum fines; and
- (3) Establish graduated penalties within chapters 187A, 188, 189, and 190, Hawaii Revised Statutes (HRS).

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Deleting the reference to imprisonment for an officer of a corporation;
- (2) Correcting the description of section 188-23, HRS to accurately reflect the section heading; and
- (3) Making nonsubstantive, technical changes to conform to drafting style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1181, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1181, H.D. 1, S.D. 2, C.D. 1.

Senators Inouye, Chumbley, Matsunaga, Buen, Slom.
Managers on the part of the Senate.

Representatives Takumi, Hamakawa, Schatz, Garcia, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 58 on H.B. No. 1086

The purpose of this bill is to delete the time provision which mandates that no less than fifty percent of each school day be devoted to oral expression, written composition, and the spelling of the English language.

Your Committee on Conference finds that there are times when meeting the fifty percent requirement of each instructional day is not feasible or practical. This rigid standard hampers the Department of Education's ability to provide a varied instructional program which allows students to maximize their learning potential. Specific curriculum decisions are properly within the purview of the Board of Education.

This measure will not delete the requirement that schools teach English altogether. Rather, this amendment allows the Board of Education and the Department of Education the freedom and flexibility to establish a strong learning environment and implement the Hawaii Content and Performance Standards, as provided in Section 302A-201, Hawaii Revised Statutes. This ensures that the basics will continue to be taught. This measure simply deletes the mandate that fifty percent of each day be devoted to specific aspects of the curriculum.

Your Committee on Conference has amended this bill by making a technical, nonsubstantive change for the purpose of conformity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1086, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1086, S.D. 1, C.D. 1.

Senators Ige, D., Bunda, Slom.
Managers on the part of the Senate.

Representatives Ito, Arakaki, Morihara, Stegmaier, McDermott.
Managers on the part of the House.

Conf. Com. Rep. No. 59 on H.B. No. 1028

The purpose of this bill is to:

- (1) Authorize the Aloha Tower Development Corporation (ATDC) to:

- (A) Appoint exempt officers, agents, and employees;
- (B) Prescribe their duties and qualifications; and
- (C) Fix their salaries;

without regard to chapters 76 and 77, Hawaii Revised Statutes;

and

- (2) Direct ATDC and the Department of Transportation (DOT) to:

- (A) Work together to resolve immediately the parking shortage for the Aloha Tower Marketplace (Marketplace); and

(B) Develop plans to expedite the construction of additional parking for the Marketplace.

Your Committee on Conference has amended this bill by:

- (1) Deleting provisions that direct ATDC and DOT to:
 - (A) Work together to resolve the parking shortage and develop plans for additional parking for the Marketplace; and
 - (B) Submit a report to the Legislature prior to the 2000 Regular Session on the status of resolving the shortage of parking for the Marketplace;

and
- (2) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1028, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1028, H.D. 1, S.D. 1, C.D. 1.

Senators Inouye, Fukunaga, Levin, Kawamoto, Tam, Taniguchi, Slom.
Managers on the part of the Senate.

Representatives Herkes, Hiraki, Luke, Goodenow, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 60 on H.B. No. 1711

The purpose of this bill is to resolve the regulation of piers in Kaneohe Bay by:

- (1) Designating any unpermitted pier in Kaneohe Bay existing in whatever form on the effective date of this Act as a nonconforming use;
- (2) Eliminating the requirement that all sunbathing and swimming piers built on submerged lands be open to the public and have signs placed on them indicating the public's right to use the pier;
- (3) Including private residential noncommercial piers as items not requiring prior legislative and gubernatorial approval of lease and easement dispositions;
- (4) Expunging any related penalties assessed prior to enactment of the measure;
- (5) Establishing a lease rent moratorium on the submerged lands and the private residential noncommercial piers thereon in Kaneohe Bay, located offshore of property between Kealohi Point and Nuupia Pond, until the Department of Land and Natural Resources adopts a residential pier lease rent formula; and
- (6) Requiring the Department of Land and Natural Resources to establish an equitable solution for lessees who have been paying lease rent on submerged lands and the private residential noncommercial piers thereon in Kaneohe Bay, located offshore of property between Kealohi Point and Nuupia Pond, which may include the issuance of a lease rent credit.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Deleting the reference to Chapter 91, Hawaii Revised Statutes, in Section 5(a);
- (2) Clarifying the nonconforming use provision to expunge penalties only for pier-related violations; and
- (3) Making technical, nonsubstantive changes for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1711, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1711, H.D. 2, S.D. 1, C.D. 1.

Senators Hanabusa, Inouye, Levin, Buen, Chun, Ige, M., Nakata, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Takumi, Schatz, Goodenow, Kanoho, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 61 on H.B. No. 4

The purpose of this bill is to clarify that, in the case of internal police procedures that are not subject to the Hawaii Administrative Procedure Act, chapter 91, Hawaii Revised Statutes, failure of the police to comply scrupulously with such internal police procedures shall not invalidate a roadblock that otherwise meets the minimum statutory criteria provided in section 286-162.6, Hawaii Revised Statutes.

The Hawaii intermediate court of appeals, in State v. Fedak, 9 Haw. App. 98 (1992), ruled that internal police roadblock procedures exceeding the minimum statutory roadblock requirements, as set out in section 286-162.6, Hawaii Revised Statutes, must be "scrupulously" followed and that failure to do so will result in a determination that motor vehicles stopped at such a roadblock have been improperly seized. Your Committee on Conference finds that the Legislature did not intend that properly constituted roadblocks, meeting the minimum statutory criteria under section 286-162.6, be invalidated merely because of the failure of the police to comply scrupulously with internal police procedures that are not subject to chapter 91.

Your Committee on Conference has amended the bill by clarifying that the exempt internal police procedures being referred to are those that are not "rules" as defined under section 91-1(4), Hawaii Revised Statutes.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 4, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 4, H.D. 1, S.D. 1, C.D. 1.

Senators Kawamoto, Chumbley, Bunda, Iwase, Slom.
Managers on the part of the Senate.

Representatives Hiraki, Oshiro, P., Goodenow, Moses.
Managers on the part of the House.

Conf. Com. Rep. No. 62 on H.B. No. 500

The purpose of this bill is to allow nonresident aliens to bring firearms into the State under certain conditions.

Your Committee finds that all of Hawaii's game mammals are non-native and, if left unchecked, pose a considerable threat to Hawaii's native plants and wildlife. In Hawaii, as in most other locations, wildlife officials have found that hunting has provided an excellent, cost-effective means of controlling wildlife populations, as well as providing recreation and subsistence for a large number of residents. In addition, hunting and target shooting have become popular visitor activities and have demonstrated the potential for development as tourism niche markets.

Your Committee revised the bill by:

1. Requiring registration within three days; and
2. Making technical, non-substantive changes for the purposes of style and clarity.

The three day registration requirement addresses the public safety concerns of the Honolulu Police Department.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 500, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 500, H.D. 3, S.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Fukunaga, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Cachola, Hamakawa, Kanoho, Schatz, Meyer.
Managers on the part of the House.

Conf. Com. Rep. No. 63 on H.B. No. 806

The purpose of this measure is to approve the exchange of public lands in North Kona for private lands along the Kona Coast to develop a new motor speedway industry.

Your Committee on Conference finds that Hawaii International Motor Speedway is prepared to acquire land in South Kohala and is willing to exchange the title to these lands for public lands in North Kona.

The measure would expedite the process by pre-authorizing the Department of Land and Natural Resources to enter into a land exchange with the Hawaii International Motor Speedway.

Upon further consideration, your Committee on Conference has amended the measure by:

- (1) Changing the effective date of the measure from July 1, 2020, to July 1, 1999;
- (2) Adding provisions that:

- (A) Require the Department of Land and Natural Resources to comply with the requirements of Chapters 6E, 205, 205A, and 343, Hawaii Revised Statutes, as applicable;
- (B) Require the Hawaii International Motor Speedway to comply with all applicable state laws and county ordinances including but not limited to historic preservation, land use, coastal zone management, planning, zoning, environmental health, including Chapter 128D and Chapters 342B to 342P, Hawaii Revised Statutes, and environmental impact statements; and
- (C) State that the requirements stated in subparagraphs (A) and (B) shall supersede any other law to the contrary unless the conflicting law specifically provided otherwise;

and

- (3) Making technical, nonsubstantive amendments for the purpose of style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 806, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 806, H.D. 2, S.D. 2, C.D. 1.

Senators Hanabusa, Levin, Chun, Nakata, Tanaka.
Managers on the part of the Senate.

Representatives Cachola, Kanoho, Garcia, Takumi, Meyer.

Representatives Menor, Nakasone, Goodenow, Takumi, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 65 on H.B. No. 602

The purpose of this bill is to extend the time period in which to record the transfer of ownership of trailers, and to increase the penalties for delinquencies in recording transfers.

Your Committee on Conference finds owners are required to record the transfers of trailers within twenty days, and that delinquent transferees are subject to nominal fees of five dollars. Your Committee further finds that delinquency rates for recording transfers of trailers are high, and would be reduced if penalties were increased.

This bill proposes that owners be required to record the transfer of trailers within thirty days, and that delinquent transferees be subject to assessments of fees of fifty dollars.

Your Conferees deliberated on the amounts of the assessments for delinquencies, and agreed that an increase to fifty dollars would be a suitable deterrent to such occurrences.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 602, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 602, S.D. 1, C.D. 1.

Senators Kawamoto, Bunda, Taniguchi, Slom.
Managers on the part of the Senate.

Senator Iwase did not sign the report.

Representatives Hiraki, Goodenow, Nakasone, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 66 on H.B. No. 719 (Majority)

The purpose of this bill is to increase from \$1 to \$3 the highway beautification fee, which is collected from each motor vehicle registration. The measure exempts U-drive motor vehicles from the fee increase.

Your Committee on Conference finds that the fee increase will be a burden to the rental car industry, and further finds that although a fee increase is necessary in order to maintain the highway beautification program, a \$1 increase will be sufficient.

Your Committee has amended this bill by changing the fee increase from \$3 to \$2, and the effective date to January 1, 2000.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 719, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 719, H.D. 2, S.D. 1, C.D. 1.

Senators Kawamoto, Fukunaga, Levin, Bunda, Taniguchi.
Managers on the part of the Senate.

Senator Iwase did not sign the report.

Senator Slom did not concur.

Representatives Hiraki, Goodenow, Nakasone, Moses.
Managers on the part of the House.

Conf. Com. Rep. No. 67 on H.B. No. 221

The purpose of this bill is to:

- (1) Require the Hawaii Tourism Authority (HTA) to develop and complete a long-range policy plan and to submit the plan to the Legislature by January 1, 2000;
- (2) Specify that the long-range policy plan identify other departments and agencies involved and specify a program of action for those departments and agencies; and
- (3) Specify that the strategic tourism marketing plan be updated every two years and implement the recommendations of the long-range policy plan.

Your Committee on Conference has amended this bill by:

- (1) Authorizing the HTA Board to:
 - (a) Withhold from public inspection and copying, any consultant's report and internal analysis related to the formulation of the strategic tourism marketing plan if, in the opinion of at least two-thirds of the HTA Board members, public disclosure of the documents would frustrate the ability of HTA to implement its strategic tourism marketing plan and maximize the economic benefit of its expenditures, contracts, and agreements; and
 - (b) Discuss such documents in executive session, provided that nothing is to allow the HTA Board to withhold any documents from public inspection for more than eighteen months unless two-thirds of the HTA Board determines otherwise;
- and
- (2) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 221, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 221, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 68 on H.B. No. 827

The purpose of this bill is to stimulate tourism in east Hawaii by creating incentives for reinvestment in the resort infrastructure of the Banyan Drive resort area of Hilo, Hawaii, by authorizing the Department of Land and Natural Resources (DLNR) to issue new, up-to-fifty-year leases to existing lessees in the Banyan Drive resort area.

It is the intent of your Committee on Conference that DLNR consider "substantial improvements" in the issuance of any new leases to existing lessees of the Banyan Drive resort area.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that any requirements for property improvements in new leases be for substantial improvements; and
- (2) Making technical, nonsubstantive amendments for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 827, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 827, H.D. 3, S.D. 1, C.D. 1.

Senators Hanabusa, Inouye, Levin, Buen, Chun, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Chang, Cachola, Saiki, Herkes, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 69 on H.B. No. 1277

The purpose of this bill is to exclude from the definition of "public utility" any facility that reclaims wastewater, provided that:

- (1) At least ten percent of the wastewater processed is used by the State or county under a service contract;
- (2) The sole function of the facility is the processing, distribution, and sale of secondary treated wastewater produced by a municipal wastewater treatment facility;
- (3) The facility is not selling water to residential customers;
- (4) The facility is not processing food wastes; and
- (5) The purchase of reclaimed and recycled water by commercial entities is voluntary and available at market prices.

Your Committee on Conference finds that the public interest will be best served by exempting certain wastewater processing facilities from Public Utilities Commission (PUC) regulation. This bill, in particular, will address the City and County of Honolulu's (City) contract with U.S. Filter Operating Services, Inc. for a water reclamation facility on Oahu. The genesis of this project is a federal consent decree pursuant to a lawsuit brought against the City by the U.S. Environmental Protection Agency. Should the City fail to meet the conditions and schedule of the consent decree, fines of up to \$18,000 per day may be imposed on the City.

U.S. Filter's water reclamation facility will prevent approximately 12 million gallons per day of secondary sewage from being discharged into ocean waters through an outfall. Instead, the recycled or reclaimed water can be used for beneficial purposes such as agricultural and irrigation uses. This, in turn, will also reduce the need to draw from other fresh and brackish water resources.

Your Committee on Conference recognizes the need to establish a policy and regulatory framework that supports the advantages of wastewater reuse. However, it cannot allow a project which is clearly beneficial to the public interest and the environment to be "placed on the back burner" while the Legislature sorts through an interagency, bureaucratic maze to address every detail.

The Consumer Advocate's concerns warrant some attention. At the same time, however, it would not serve the best interest of the public and the environment to delay implementing a recycled water policy due to pricing issues that involve less than thirty percent of the total volume of wastewater processed at the facility.

Accordingly, your Committee on Conference has amended this bill by:

- (1) Allowing the facility to distribute and sell recycled or reclaimed water to entities not covered by a state or county service contract; provided that, in the absence of regulatory oversight and direct competition, the distribution and sale of recycled or reclaimed water shall be voluntary and its pricing fair and reasonable; and
- (2) Requiring the City Department of Environmental Services to submit a report to the Legislature in 2004 on:
 - (A) The volume of recycled or reclaimed water distributed; and
 - (B) The sale prices of recycled or reclaimed water charged;

by U.S. Filter at its Ewa wastewater reclamation facility to entities not covered by a state or county service contract.

Should the distribution and sale of recycled or reclaimed water not be fair and reasonable, the Legislature may seek remedy of the situation through revocation of the exemption and by requiring PUC regulation.

This bill has been further amended by:

- (1) Clarifying that the primary function of the facility, rather than its sole function, is the processing of secondary treated wastewater;

and

- (2) Making technical, nonsubstantive amendments for the purpose of consistency.

Finally, the ramifications of wastewater reuse require a continued review of such a policy. Your Committee on Conference has taken the first step by stating a water reuse policy and defining recycled and reclaimed water in H.B. No. 1548, HD1, SD1, CD1. However, the importance of interagency cooperation to resolve jurisdictional issues and conflicting policies needs to be considered, and rule and legislative changes need to be addressed to further facilitate a wastewater reuse policy.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1277, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1277, H.D. 1, S.D. 1, C.D. 1.

The purpose of this bill is to prevent theft of agricultural goods and commodities by providing ownership and certification requirements for agricultural goods and commodities.

Your Committee on Conference has amended this bill by:

- (1) Including horticultural and floricultural products under the ownership and certification requirements;
- (2) Making the lack of proof of ownership of agricultural commodities in lots of over two hundred pounds or with a value of at least \$100, a violation;
- (3) Authorizing law enforcement officers to:
 - (a) Detain persons having possession, selling, or transporting agricultural commodities and request proof of ownership of the commodities based on probable cause; and
 - (b) Hold agricultural commodities upon reasonable belief that the person is in unlawful possession of the agricultural commodity;
- (4) Allowing commodities to be sold at fair market value to the retailer, wholesaler, or packer of the commodity if the agricultural commodity is not released to the lawful owner after being in the custody of law enforcement for forty-eight hours; and
- (5) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 138, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 138, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 72 on H.B. No. 945

The purpose of this bill is to allow agriculture-related commercial operations to be conducted by lessees in agricultural park complexes.

This bill allows agricultural park lessees to process, market, and display agricultural crops or commodities, including products created through value added processes, in agricultural parks. Lessees may sell their products to the general public, provided that the commercial venture operation is owned by a lessee in good standing with the Department of Agriculture (DOA).

It is the intent of this bill that lessees who lease and operate commercial ventures in agricultural parks should be lessees who lease and operate farm ventures in their particular agricultural parks.

Your Committee on Conference has amended this bill by:

- (1) Authorizing the DOA to dispose of not more than two lots within an agricultural park for processing, marketing, and displaying agricultural crops or commodities;
- (2) Requiring that these lots be leased and operated by an agricultural park lessee in good standing;
- (3) Directing the Board of Agriculture (BOA) to define "value added process" through rules, and deleting the same definition from the bill;
- (4) Deleting the authorization for the BOA to perform any and all acts and adopt rules necessary to carry out the provisions;
- (5) Deleting the requirement in section 166-6, Hawaii Revised Statutes, that allows agricultural park lands to be disposed of for commercial purposes; and
- (6) Making technical, nonsubstantive amendments for the purpose of consistency.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 945, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 945, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 74 on H.B. No. 1637

The purpose of this bill is to expedite the granting of permission to use tour buses for the transportation of student groups to and from school-related events or activities.

Your Committee on Conference finds that there are occasions when school buses are not available for transporting students to and from school-related events or activities, but that tour buses may be available as an alternate means of transportation. Your Committee further finds that school officials may have to make several calls to verify the nonavailability of school buses.

It is the intent of your Committee that this measure will facilitate the use of vehicles other than school vehicles for school-related events and activities. Under the current system, the Department of Transportation has made an exemption to use vehicles other than school buses nearly impossible to obtain. As a result, the teachers and school administrators must use the school vehicles and adjust their plans and budgets according to the school vehicles' restricted schedules and set rates. In easing the requirements to obtain an exemption to use a non-school vehicle, your Committee believes that the teachers and school administrators will have increased freedom in the planning of school events and activities which require transportation services.

Your Committee has amended this measure by:

- (1) Requiring the Department of Transportation to grant exemptions for the use of vehicles other than school vehicles when the Department of Transportation finds that compliance is impractical due to the unavailability of school vehicles;
- (2) Clarifying that a school vehicle is unavailable when it does not meet the requests of a school for a motorcoach with undercarriage storage compartments and public address system;
- (3) Clarifying that the use of the motorcoach be used solely for the transportation of middle, intermediate, or high school students to and from school-related events or activities;
- (4) Defining motorcoach as a vehicle that carries more than 25 passengers, has a gross vehicle weight rating of at least 26,000 pounds, and is no more than 15 years old; and
- (5) Amending the effective date to take effect upon approval.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1637, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1637, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 75 on H.B. No. 167

The purpose of this bill is to:

- (1) Establish a driving curfew for minors;
- (2) Raise to 15 years and 6 months the age at which a minor may apply for a permit;
- (3) Raise to 16 years the minimum age of licensing;
- (4) Require a behind-the-wheel driver training course for all drivers under the age of eighteen;
- (5) Clarify that a person must have a permit to operate a motor vehicle in connection with behind-the-wheel training; and
- (6) Require the Director of Transportation to establish and certify a statewide driver education program and behind-the-wheel driver training program.

Your Committee on Conference has amended this measure by:

- (1) Deleting the driving curfew for minors;
- (2) Requiring a driver education program, along with a behind-the-wheel driver training course for all drivers under the age of eighteen;
- (3) Deleting the requirement that all drivers under the age of eighteen complete a minimum of 10 hours of behind-the-wheel training and a minimum of 30 hours of classroom training; and
- (4) Making technical, nonsubstantive changes for clarity, consistency, and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 167, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 167, H.D. 3, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 76 on H.B. No. 32

The purpose of this bill is to allow privately-funded industrial hemp research to be conducted in Hawaii only when the Department of Public Safety (DPS), Narcotics Enforcement Division, issues a controlled substance registration, and the United States (U.S.) Department of Justice, Drug Enforcement Administration (DEA), issues a federally-controlled substance registration for research on the agronomic potential of industrial hemp.

Your Committee on Conference finds that representatives of the law enforcement community assert that under existing law, persons may legally possess and cultivate hemp with the permits required under this measure. Your Committee on Conference, therefore, believes that this measure is necessary to codify this interpretation of the law and give further assurances to legitimate investors in hemp research that they will not be prosecuted. Your Committee on Conference further believes that the establishment of an affirmative defense, which requires defendants to prove that they are not engaged in criminal activity, shifts the burden of proof to the defendant to show that they have the required permits to engage in hemp research.

Your Committee on Conference has amended this bill by:

- (1) Changing the definition of "industrial hemp" and "cannabis" to mean the schedule I substance marijuana as defined in section 329-1, Hawaii Revised Statutes;
- (2) Authorizing, rather than requiring, DPS, in cooperation with the DEA to monitor all phases of the industrial hemp research;
- (3) Providing an affirmative defense for the possession or cultivation of marijuana under section 712-1247, 712-1248, 712-1249, 712-1249.4, or 712-1249.5 that the defendant was conducting industrial hemp research, had valid controlled substance registrations from DPS and the DEA to conduct the research, and has fully complied with all the conditions of the controlled substance registrations;
- (4) Providing that the affirmative defense provision in the bill shall not be an affirmative defense to a charge of distribution of marijuana;
- (5) Deleting the provision that all agronomic data derived from hemp research and maintained by a government agency be exempt from disclosure pursuant to the Uniform Information Practices Act, when the data is proprietary in nature and disclosure of it would frustrate a legitimate government or law enforcement function;
- (6) Changing the effective date of the bill to take effect upon its approval and to be repealed on June 30, 2002; and
- (7) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 32, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 32, H.D. 2, S.D. 2, C.D. 1.

Senators Inouye, Matsunaga, Chumbley, Slom.

Conf. Com. Rep. No. 77 on H.B. No. 212

The purpose of this bill is to impose a mandatory fine of \$500, in addition to existing penalties, on any person age eighteen or older who is convicted of driving under the influence of intoxicating liquor while having in the vehicle a passenger age twelve or under. The bill also clarifies that convictions under section 291-4.4, Hawaii Revised Statutes (habitually driving under influence), count as prior driving under the influence offenses for sentencing purposes under section 291-4, Hawaii Revised Statutes.

Your Committee finds that increasing the penalty for driving under the influence with a minor passenger is necessary to deter such reckless conduct and to increase highway safety for children. Your Committee also believes that the bill will close a present loophole in the law whereby, depending upon the time interval, convictions under section 291-4.4 are not being counted as prior driving under the influence offenses in the sentencing under section 291-4.

Upon further consideration, your Committee has amended this bill by:

- (1) Increasing the applicable age of the minor passenger from age twelve or younger to "younger than fifteen years of age";
- (2) Including, as an additional penalty, a mandatory term of imprisonment of forty-eight hours;
- (3) Providing that the total term of imprisonment shall not exceed thirty days, to avoid potentially triggering the right to a jury trial;
- (4) Adding a new section to the bill amending section 291-4.4, Hawaii Revised Statutes, to clarify that convictions under section 291-4.4 count as prior driving under the influence offenses for sentencing purposes under section 291-4.4;
- (5) Replacing the savings clause in section 3 with language that specifies that:
 - (a) The new, additional penalties for driving under the influence of intoxicating liquor with a minor passenger do not apply to persons arrested for a violation of section 291-4 prior to the bill's effective date; and
 - (b) The bill applies, for purposes of determining prior convictions under sections 291-4 and 291-4.4, to any person convicted under these sections prior to its effective date;
- (6) Renumbering the sections of the bill consecutively; and
- (7) Making technical nonsubstantive changes for purposes of style, clarity, and consistency.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 212, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 212, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 78 on H.B. No. 1401

The purpose of this bill is to establish insurance and identification requirements for towing businesses. It includes a provision for cases in which tow operators fail to comply with the stated insurance requirements and allows for tow operators to be sued for damages as a result of their failure to comply with the requirements. Furthermore, the bill repeals the drop-dead provision of Act 138, Session Laws of Hawaii 1998.

Your Committee on Conference finds that tow operators should identify their trucks by the name and telephone number of their towing business, as well as obtain insurance that covers all damages that may occur to the towed vehicle while being towed by the towing business. Both of these measures are necessary as a means to give added protection to consumers against auto theft and faulty towing operations.

Your Committee has amended this bill by:

- (1) Instead of creating a new statutory section to effectuate its purpose, amending existing statutory provisions in sections 290-11 and 291C-165.5, Hawaii Revised Statutes;
- (2) Establishing penalties for individuals violating the insurance requirements; and
- (3) Making other technical, nonsubstantive amendments for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1401, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1401, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 79 on H.B. No. 273

The purpose of this bill is to create new penalties for child abuse. Specifically, this bill:

- (1) Makes it a class A felony to intentionally, knowingly, or recklessly cause serious bodily injury to a minor twelve years of age or younger;
- (2) Makes it a class B felony to intentionally, knowingly, or recklessly cause substantial bodily injury to a minor twelve years of age or younger;
- (3) Requires that, in determining whether the use of force is justifiable under section 703-309, Hawaii Revised Statutes (HRS), consideration must be given to the condition of the minor;
- (4) For purposes of determining whether to impose an extended term of imprisonment under section 706-662, HRS, raises the age of a minor victim from eight years of age or younger to twelve years of age or younger;
- (5) For purposes of determining whether to impose a mandatory term of imprisonment for offenses against children, elder persons, or handicapped persons resulting in the victim's death or serious bodily injury under section 706-660.2, HRS, raises the age of a child victim from eight years of age or younger to twelve years of age or younger; and
- (6) Makes it a misdemeanor offense under section 709-904, HRS, to knowingly endanger the welfare of a minor in the second degree.

After much discussion, your Committee on Conference has amended the bill by:

- (1) Deleting language that makes it a class A felony to "recklessly" cause serious bodily injury to a minor twelve years of age or younger;
- (2) Making it a class C felony to recklessly cause substantial bodily injury to a minor twelve years of age or younger;
- (3) Deleting amendments to section 706-660.2, HRS, that would have, for purposes of determining whether to impose a mandatory term of imprisonment for offenses against children, elder persons, or handicapped persons, raised the age of a child victim from eight to twelve years of age or younger;
- (4) Deleting amendments to section 709-904, HRS, that would have made it a misdemeanor offense to knowingly endanger the welfare of a minor in the second degree;
- (5) Making it assault in the first degree under section 707-710, HRS, to intentionally or knowingly cause serious bodily injury to "a person thirteen years of age or older," rather than "another person";
- (6) Making it assault in the second degree under section 707-711, HRS to:
 - (a) Intentionally or knowingly cause substantial bodily injury to "a person thirteen years of age or older," rather than "another person"; or
 - (b) Recklessly cause serious bodily injury to "a person thirteen years of age or older," rather than "another person"; and
- (7) Making technical, nonsubstantive revisions for purposes of consistency and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 273, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 273, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 80 on H.B. No. 171

The purpose of this bill is to replace chapter 327D, Hawaii Revised Statutes, by enacting the Uniform Health Care Decisions Act.

Your Committee on Conference has amended the bill by:

- (1) Providing definitions for "best interest" and "interested person" for the purposes of this Act;
- (2) Modifying the powers and responsibilities of surrogates by:

- (A) Requiring efforts to locate interested persons and inform them of the need for a surrogate health care decision-maker;
 - (B) Requiring an effort to reach consensus among interested persons as to appointment of a surrogate; and
 - (C) Providing for physician review of the decisional capacity of a patient upon request by an interested person;
- and
- (3) Making technical, nonsubstantive revisions for the purpose of style.

Your Committee on Conference believes that when a surrogate who has not been designated by the patient to make health care decisions must make decisions based on the wishes of the patient, the non-designated surrogate should determine the patient's wishes by considering the patient's:

- (1) Current diagnosis and prognosis with and without the treatment at issue;
- (2) Preference regarding the provision of, or the withholding or withdrawal of, the specific treatment at issue or of similar treatments;
- (3) Relevant religious and moral beliefs and personal values;
- (4) Behavior, attitude, and past conduct with respect to the treatment at issue and medical treatment generally;
- (5) Reaction to the provision of, or the withholding or withdrawal of, a similar treatment for another individual; and
- (6) Concern about the effect on the patient's family or intimate friends if a treatment were provided, withheld, or withdrawn.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 171, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 171, H.D. 2, S.D. 2, C.D. 1.

Senators Chun Oakland, Chumbley, Matsunaga, Sakamoto, Anderson.
Managers on the part of the Senate.

Representatives Santiago, Oshiro, P., Lee, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 81 on H.B. No. 325

The purpose of this bill is to:

- (1) Require that the directors of managed care plans hold an unlimited license to practice medicine in the State;
- (2) Define "medical director" as the person who makes the final decision of medical necessity or appropriateness; and
- (3) Ban the sale of, possession, and use of laser pointing devices by certain classes of persons.

Your Committee on Conference has amended this measure by:

- (1) Removing the provisions dealing with laser pointing devices, including the effective date; and
- (2) Amending section 321-15, Hawaii Revised Statutes (HRS), concerning registration requirements for a license to practice an occupation specified in section 321-13(a)(1), HRS, to require a biennial registration, rather than an annual registration.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 325, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 325, H.D. 2, S.D. 1, C.D. 1.

Senators Taniguchi, Kanno.

Senator Slom did not sign the report.

Representatives Santiago, Menor, Oshiro, P., Garcia, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 82 on H.B. No. 72

The purpose of this bill is to amend the campaign spending law with respect to the voluntary expenditure limit and public matching fund provisions. Specifically the bill:

- (1) Amends the definition of "qualifying contribution" to clarify that makers of such contributions cannot have contributed more than \$100 during any matching payment period;
- (2) Moves the deadline for filing affidavits of compliance to the date of filing nomination papers;
- (3) Clarifies that expenditure limits apply to each election;
- (4) Changes the time period within which candidates who exceed spending limits must notify all contributors from the same day to thirty days;
- (5) Amends the distribution procedure for the Hawaii Election Campaign Fund, if near depletion, to distribution by order in which the application was filed;
- (6) Repeals a provision permitting a candidate to withdraw an affidavit of compliance with voluntary spending limits;
- (7) Clarifies that the maximum amount of public matching funds available to any candidate is based on the maximum expenditure limit per election;
- (8) Allows the minimum qualifying contributions for each election to be based on the total qualifying contributions to date instead of just those relating to the particular election (primary, general, or special) for which matching funds are sought;
- (9) Changes the deadline for application for matching funds from sixty to thirty days after the general election;
- (10) Changes the time by which initial public fund checks must be issued from ten to twenty days after application;
- (11) Deletes a provision that a candidate who exceeds the expenditure limits by less than one percent need only return twenty-five percent of public funds;
- (12) Clarifies that all unspent public funds must be returned; and
- (13) Provides a provision that preserves the amendments made by this bill when the amendments made to Chapter 11, Hawaii Revised Statutes, are repealed and reenacted.

Your Committee finds that the changes made to the elections law by this bill will promote fairness in the campaign process, more effective use of public matching funds for their intended purpose, and encourage compliance with voluntary spending limits.

This bill has been amended by deleting the exemption for certain fundraising costs from the voluntary campaign expenditure limit. In addition, language has been provided to clarify that a candidate must qualify at each election for monies from the public matching fund.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 72, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 72, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the Senate.

Representatives Oshiro, P., Saiki, Hamakawa, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 83 on H.B. No. 160

The purpose of this bill, as received by your Committee, is to amend the sunset date of Act 190, Session Laws of Hawaii 1996, to June 30, 2001, and to provide that the Task Force on Beach and Water Safety report its findings to the Legislature each Regular Session.

Your Committee finds that the Task Force on Beach and Water Safety should be afforded additional time to complete its work on the development of a comprehensive plan for warning of dangerous natural conditions in the ocean adjacent to public beach parks.

Your Committee has amended this bill by changing the sunset date of Act 190, Session Laws of Hawaii 1996, to June 30, 2003.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 160, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 160, S.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Hamakawa, Lee, Auwae.

Managers on the part of the House.

Representative Takumi did not sign the report.

Conf. Com. Rep. No. 84 on H.B. No. 161

The purpose of this bill is to allow a government entity to recover costs of a search or rescue operation.

Your Committee finds that government entities should seek reimbursement from persons whose intentional acts or omissions cause the need for a search or rescue operation.

Your Committee has amended this bill by:

- (1) Changing the defined terms as follows:
 - (A) From "governmental entity" to "government entity"; and
 - (B) From "official warnings or notices" to "warning or notice";
- (2) Amending the definitions of "government entity", "warning or notice", and "search and rescue expenses";
- (3) Changing the titles of sections -2 and -3 from "search and rescue costs" to "reimbursement", and from "reimbursement" to "action", respectively;
- (4) Adding persons from whom a government entity may seek reimbursement;
- (5) Specifying that reimbursement shall be allowed only if the need for search or rescue was caused by any act or omission by the person searched for or rescued, constituting intentional disregard for the person's safety;
- (6) Deleting the provision allowing reimbursement for violations of law; and
- (7) Making technical, nonsubstantive amendments for purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 161, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 161, H.D. 1, S.D. 2, C.D. 1.

Representatives Oshiro, P., Saiki, Lee, Luke, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 85 on H.B. No. 165

The purpose of this bill is to subject political parties to the same contribution limits applicable to other persons and entities. In addition, the bill reduces the maximum allowable contribution to a political party to \$25,000.

Your Committee finds that thoughtful campaign spending laws are vital to reduce abuses and preserve the integrity of public elections. This bill will prevent the use of any local political party to circumvent contribution limits by individuals or other entities to candidates for elective office.

Your Committee further finds that political parties serve a vital role in the elections process. The importance of party building, voter registration and educational and organizational activities are necessary ingredients to ensure the health of the electoral process.

Your Committee has amended this bill by:

- (1) Including within the definition of "contribution" for election campaign purposes:
 - (A) Gifts to committees for political purposes; and
 - (B) The payment by a political party or other entity of compensation for services rendered at no charge or at an unreasonably low charge for political purposes;
- (2) Inserting a definition of "political committees established and maintained by a national political party"; and

- (3) Allowing the above mentioned entities to contribute an aggregate contribution amount up to \$50,000 to a political party in any two year election period.

This bill modifies the existing law in ways that will help to curb abuses in the area of contributions. Under the current law an individual can contribute up to \$50,000 to the state party per election cycle. The provisions of this bill lower that amount to \$25,000. To further ensure that a state party is not utilized as a conduit for transferring funds that circumvent the spirit of contribution limits, this bill substantially reduces the amount the state party can contribute to a candidate.

These changes allow the national party to provide vital financial support to local parties. With new restrictions in place regarding the expenditure of such funds by the local party, the use of a political party to circumvent the campaign spending contribution limits to individual candidates is effectively removed.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 165, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 165, H.D. 1, S.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Sakamoto.
Managers on the part of the Senate.

Representatives Oshiro, P., Chang, Hamakawa.
Managers on the part of the House.

Representative Takumi did not sign the report.

Conf. Com. Rep. No. 86 on H.B. No. 177

The purpose of this bill is to clarify the basis for granting temporary restraining orders in District Court harassment cases, and to make it an offense if a person, with the intent to harass, annoy, or alarm any other person, repeatedly makes "electronic transmissions" without purpose of legitimate communication.

Your Committee finds that harassment is a serious issue of growing concern in the community. The provisions of this bill will streamline and clarify the procedures in the issuance of temporary restraining orders in cases involving harassment.

Your Committee has amended this bill by:

- (1) Specifying that temporary restraining orders granted under Section 604-10.5, Hawaii Revised Statutes, shall remain in effect for a period not to exceed 90 days from the date the order is granted; and
- (2) Deleting Part II, Section 2 of the bill, which proposed to revise Section 711-1106, Hawaii Revised Statutes, by making it an offense to repeatedly make "electronic transmissions" without purpose of legitimate communication, but with an intent to harass, annoy, or alarm any other person.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 177, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 177, H.D. 1, S.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Hamakawa, Kaho'ohalahala, Lee, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 87 on H.B. No. 955

The purpose of this bill is to make it a felony to take sexual photographs or videotapes of a person without that person's consent and when the person expects privacy. This bill also makes it a misdemeanor to knowingly possess such materials. This bill also removes the administrative cap placed on the crime victim compensation commission and creates an offense for concealing runaway minors.

Your Committee on Conference amended this bill by:

1. Requiring the knowing state of mind for the offense of Violation of Privacy in the First Degree;
2. Requiring that the prosecution for Violation of Privacy in the Second Degree be for instances other than those involving another person in a stage of undress or sexual activity; and
3. Deleting the provisions that penalize persons who conceal runaway minors.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 955, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 955, H.D. 1, S.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Suzuki, Kaho'ohalahala, Nakasone, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 88 on H.B. No. 1496

Your Committee on Conference finds that particular attention needs to be given to butterfly knives by setting them apart from other deadly or dangerous weapons. In particular, the prohibitions against butterfly knives should be similar to that of switchblade knives.

A review of the case In re: John Doe, born August 3, 1977, 73 Haw. 89 (1992), indicates that the Hawaii Supreme Court has held that a butterfly knife does not have a blade that opens automatically by operation of inertia, gravity, or both; therefore, it is not a switchblade knife under Section 134-52, Hawaii Revised Statutes (HRS).

Upon close inspection of the switchblade prohibitions of section 134-52, HRS, your Committee on Conference finds that inclusion of butterfly knives into section 134-52, HRS, is hampered by the definition of switchblade knives contained within section 134-52, HRS, which inadequately describes butterfly knives. The prohibitions against butterfly knives contained within section 134-51, HRS, do not define butterfly knives.

Your Committee on Conference has amended this bill by:

1. Creating prohibitions against butterfly knives that are similar to those against switchblade knives, including:
 - a. Making it a misdemeanor offense for the knowing manufacture, sale, transfer, possession, or transport of a butterfly knife; and
 - b. Making it a class C felony for the knowing or intentional use or threatened use of a butterfly knife while engaged in the commission of a crime;
2. Defining butterfly knife as a knife having a blade encased in a split handle that manually unfolds with hand or wrist action with the assistance of inertia, gravity or both; and
3. Making a technical nonsubstantive revision to conform to drafting style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1496, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1496, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 89 on H.B. No. 1497

The purpose of this bill is to heighten penalties for habitual violent and sexual offenders.

Your Committee on Conference finds that repeat violent and sexual offenders deserve some degree of enhanced sentencing.

Your Committee on Conference has amended this bill by:

1. Deleting the purpose section;
2. Combining the provisions relating to habitual violent offenders and repeat sexual offenders into a single section which mandates an extended term of imprisonment for multiple offenses; and
3. Inserting amendments to section 706-661, Hawaii Revised Statutes, which make the extended term of imprisonment for murder in the second degree an indeterminate life imprisonment without the possibility of parole.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1497, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1497, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 90 on H.B. No. 266

The purpose of this bill is to promote breastfeeding by:

- (1) Disallowing an employer to prohibit an employee from breastfeeding or expressing milk during any meal period or other break period to which the employee is entitled; and
- (2) Amending the definition of "because of sex" to include "breastfeeding or expressing breastmilk";
- (3) Making it a discriminatory practice to restrict or limit the right of a woman to breastfeed a child in a place of public accommodation; and
- (4) Requiring the Hawaii Civil Rights Commission to:
 - (A) Accumulate, compile, and publish data concerning incidences of discrimination involving breastfeeding or expressing breastmilk in the workplace; and
 - (B) Submit a report to the Legislature on its findings no later than twenty days prior to the convening of the 2000 Legislature.

Your Committee on Conference has amended this bill by:

- (1) Deleting reference to "breastfeeding" in the workplace during meal periods or other break periods required by law to be provided by the employer;
- (2) Adding reference to collective bargaining agreements when allowing employees to express breastmilk during meal periods or other break periods;
- (3) Deleting "breastfeeding or expressing breastmilk" from the definition of "because of sex";
- (4) Prohibiting employers or labor organizations from refusing to hire, or from discharging, withholding pay, demoting, or penalizing a lactating woman who breastfeeds or expresses breastmilk in the workplace;
- (5) Deleting the provision making it a discriminatory practice to restrict or limit the right of a woman to breastfeed in a place of public accommodation; and
- (6) Adding a provision which clarifies that nothing in this bill prohibits employers from establishing internal rules and guidelines for employees who may wish to breastfeed or express breastmilk in the workplace.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 266, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 266, H.D. 2, S.D. 2, C.D. 1.

Senators Nakata, Matsunaga, Chun Oakland, Anderson.

Conf. Com. Rep. No. 91 on H.B. No. 1622

The purpose of this bill is to permit a liquor manufacturer that holds a manufacturer's license not issued by this State to hold an interest in a wholesale liquor license.

Your Committee on Conference has amended this bill by:

- (1) Deleting its substance and instead allowing a brewer of beer to hold an indirect interest in a beer and wine wholesale dealer's license if the wholesaling is limited to beer; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

The amended bill allows a beer manufacturer to have an indirect corporate relationship with a beer wholesaler. It is not your Conference Committee's intent to preclude the holder of a non-beer class manufacturer's license from maintaining a similar

relationship with a wholesale dealer simply because the relationship is not explicitly permitted by statute as it is for a the holder of a beer-class manufacturer's license.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1622, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1622, H.D. 1, S.D. 1, C.D. 1.

Senators Kawamoto, Chumbley, Matsunaga, Bunda, Ihara.

Senators Iwase and Slom did not sign the report.

Representatives Menor, Hamakawa, Lee, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 92 on H.B. No. 351

The purpose of this bill is to provide for the comprehensive regulation of the handling and disclosure of medical records that:

- (1) Encompasses the multiple parties that are included in the contemporary relationship between patient and health care provider;
- (2) Protects an individual's constitutional right to privacy of their medical information;
- (3) Accommodates the legitimate interests and needs of health care providers, hospitals, insurers, and other entities other than the patient, and serves to improve the provision of quality health care; and
- (4) Furthers the interest of society in medical research resulting in new treatments that relieve suffering and save lives.

Your Committee on Conference has made amendments to this measure that include, among other things:

- (1) Amending the definition of "insurer" to include health maintenance organizations, mutual benefit societies, group insurance policies issued by these organizations, and individual health policies;
- (2) Adding definitions of "educational institution" and "entity" for purposes of clarity and brevity;
- (3) Providing individuals who are refused access to their health information for safety and other reasons, an alternative procedure for further review of their requests;
- (4) Strengthening the notice provisions; and
- (5) Specifying that any civil penalties collected for violation of the law shall be deposited into the general fund.

Your Committee on Conference has further amended this bill by removing language in the bill providing immunity from liability under the common law, for entities making disclosures permitted under the measure. However it is your Committee on Conference's intent that the new chapter established by this bill provide guidance to courts dealing with lawsuits concerning the disclosure of medical information brought under common law tort theories, such as invasion of privacy. Additionally, compliance with this new law is intended to provide strong evidence that medical information was properly handled and disclosed. Thus, your Committee on Conference believes that this measure will encourage proper confidentiality practices with regards to medical information, and discourage litigation.

Finally, your Committee on Conference has removed language providing that the Office of Information Practices shall be responsible for the enforcement of the new chapter, and retaining language providing for rule adoption by the Office of Information Practices to implement the new law. Instead, your Committee on Conference believes that further discussion regarding the most appropriate agency to enforce this law is necessary, and has added a provision requesting that the Legislative Reference Bureau to examine the question and report its recommendations to the 2000 Legislature.

Your Committee on Conference finds that this bill is in large part the product of the dedicated and collaborative efforts of an informal task force representing the range of parties included in the contemporary health care relationship. Your Committee on Conference further finds that this bill represents a workable balance between the interests of those parties that will provide protections where needed, and benefit society by establishing clearcut guidelines facilitating the appropriate transmission and beneficial use of medical information.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 351, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 351, H.D. 2, S.D. 1, C.D. 1.

Senators Chun Oakland, Chumbley, Matsunaga, Kanno.

The purpose of this bill is to improve the quality of foster care homes by:

- (1) Allowing foster boarding homes to care for six or more children to accommodate sibling groups; and
- (2) Requiring criminal history checks of foster boarding homes for the first two years of certification and annually or biennially thereafter depending on the certification status of the home.

Your Committee on Conference has amended this bill by making:

- (1) A technical amendment to broaden the definition of "criminal history record check" with regard to name inquiries into the State Criminal History Record Files; and
- (2) Technical, nonsubstantive amendments to the definition of "foster boarding home" for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1115, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1115, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 94 on H.B. No. 1117

The purpose of this bill is to conform Hawaii law with the federal Adoption and Safe Families Act of 1997, which seeks to expedite permanency for children in foster care.

Among other things, this bill:

- (1) Provides a definition for "abandoned infant";
- (2) Clarifies the definition of "aggravated circumstances" to include torture or abandonment of the child;
- (3) Clarifies service of summons on an out-of-state party;
- (4) Reduces the time period that triggers a show cause hearing, when the child's family home has been determined to be unsafe, from eighteen months to twelve consecutive months in which the child has been residing outside the family home;
- (5) Requires the court to set the case for a show cause hearing within thirty days if the court determines that aggravated circumstances are present;
- (6) Requires the court, at a review hearing, to set the case for a show cause hearing: within thirty days if the court determines that aggravated circumstances are present; or if the child has been residing outside the family home for twelve consecutive months;
- (7) Requires the Department of Human Services to file a motion to set the matter for a permanent plan hearing if the child has been residing outside of the family home for an aggregate of fifteen out of the most recent twenty-two months; and
- (8) Reduces from three years to two the time in which it is presumed reasonably foreseeable that a safe family home can be provided to the child by the legal mother or father, or natural father for purposes of a permanent plan hearing.

Your Committee on Conference has amended this bill by:

- (1) Including language in the definition of "abandoned infant" to include not only the presumed or alleged non-adjudicated father but the mother as well; and
- (2) Making technical, nonsubstantive revisions for the purpose of style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1117, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1117, H.D. 3, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 96 on H.B. No. 1183

The purpose of this bill is to:

- (1) Authorize beach restoration;
- (2) Create a Beach Restoration Special Fund and appropriate funds for beach restoration; and
- (3) Appropriate funds to conduct an engineering design and analysis of beach restoration at the designated shorelines of Honokowai, Kaaawa, and Sacred Falls.

Your Committee finds that loss of sandy beaches is a major environmental, social, and economic problem. Nearly 25 percent or 17 miles of sandy beaches on Oahu have been lost or severely narrowed over the past 70 years. Similar losses have occurred on Maui, and to a lesser extent, Kauai and Hawaii. To reverse this loss, the Department of Land and Natural Resources and the University of Hawaii Department of Geology and Geophysics developed the Coastal Erosion Master Plan (COEMAP) in 1997, which made technical and policy recommendations for shore and beach management and protection.

Subsequently, the Department of Land and Natural Resources established the Coastal Lands Program to implement the COEMAP recommendations. The Coastal Lands Program, in order to fully carry out its mission, requires statutory authorization and funding.

Your Committee on Conference revised the bill by:

- (1) Amending the definition of coastal lands to include all lands within the the State Coastal Zone Management Area; provided that any leasing or development of public lands shall be limited to all fast lands up to one mile mauka of the shoreline and all submerged lands;
- (2) Changing "public lands within the state coastal zone management area" to "public coastal lands" in the provisions relating to authority to lease lands, development of lands, and the sources of moneys for the Beach Restoration Special Fund;
- (3) Limiting lease income for the Beach Restoration Special Fund to income from the lease of existing seawalls or revetments;
- (4) Designating the amount of \$250,000 for both appropriations from the Special Land and Development Fund and the Beach Restoration Special Fund;
- (5) Removing appropriations for beach restoration at Honokowai Beach Park, Kaaawa Beach Park, and the Sacred Falls shoreline;
- (6) Changing the effective date to July 1, 1999; and
- (7) Making technical, nonsubstantive changes for the purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1183, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1183, H.D. 2, S.D. 2, C.D. 1.

Senators Hanabusa, Inouye, Levin, Buen, Nakata, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Cachola, Takumi, Schatz, Kanoho, Thielen.
Managers on the part of the House.

Conf. Com. Rep. No. 97 on H.B. No. 1119

The purpose of this bill is to improve child welfare services by:

- (1) Adding two Child Protective Services (CPS), line staffers to the CPS Reform Coordinating Committee and providing that the committee members be appointed by the Director of Human Services; and
- (2) Allowing the Department of Human Services to share information with the "neighborhood places" established by the Child Protective and Diversion Services Pilot Project; and
- (3) Extending the Committee for three years.

Your Committee on Conference has amended the bill by:

- (1) Creating a two-year demonstration project to assist and support social workers to improve the delivery of child welfare services; and
- (2) Making technical, nonsubstantive amendments for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1119, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1119, H.D. 1, S.D. 1, C.D. 1.

Senators Chun Oakland, Chumbley, Anderson.
Managers on the part of the Senate.

Representatives Arakaki, Kawakami, Kahikina, Stegmaier, Pendleton.
Managers on the part of the House.

Conf. Com. Rep. No. 98 on H.B. No. 377

The purpose of this bill is to encourage the growth of Hawaii's high technology industry to stimulate economic development.

In particular, this bill:

- (1) Consolidates the State's high technology agencies, divisions, and offices, under the coordination of a special advisor for technology development, and creates a Governor's special advisory council for technology development to assist the advisor;
- (2) Offers tax incentives for technology training or job creation, investments in qualified high technology businesses, and investments in high technology research;
- (3) Exempts from the general excise tax and income tax amounts received as royalty income from the sale or licensing of intellectual property developed for use in a qualified high technology business;
- (4) Authorizes the issuance of special purpose revenue bonds to the Ohana Foundation for the construction of facilities for research, development, technology development, and technology support;
- (5) Integrates high technology with Hawaii's tourism and marketing industries;
- (6) Prohibits the imposition of taxes on internet access and commerce;
- (7) Establishes the Hawaii internet exchange to serve as a catalyst for the development of internet-focused businesses;
- (8) Focuses work force development programs to ensure a pool of technology professionals; and
- (9) Accelerates high speed access to the internet for the University of Hawaii and the public schools, and establishes educational technology programs within public schools.

Your Committee finds that there is a need to support the growth and development of high technology industries in Hawaii. Recent advances in information technology and telecommunications, combined with the explosive growth of the internet, have opened

significant new opportunities for the diversification of the State's economy. Your Committee believes that the State must take advantage of its unique geographic location and encourage the development of Hawaii's high technology industry to help to rebuild Hawaii's economy for the twenty-first century.

Your Committee has amended this bill by deleting its contents except for part IV of the bill, which authorizes the issuance of special purpose revenue bonds in an amount not exceeding \$100,000,000, to the Ohana Foundation, a Hawaii not-for-profit corporation, for the construction of facilities to assist the high technology industry including facilities for research, development, technology development, and technology support.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 377, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 377, H.D. 2, S.D. 2, C.D. 1.

Managers on the part of the Senate.

Representatives Morihara, Takamine, Chang, Luke, Ito, Nakasone, Suzuki, Halford, Meyer.
Managers on the part of the House.

Conf. Com. Rep. No. 99 on H.B. No. 154

The purpose of this bill is to transfer the assets of the Hawaii Public Broadcasting Authority (HPBA) to the Hawaii Public Television Foundation (HPTF), a private nonprofit agency.

Your Committee has amended the bill by:

- (1) Clarifying that the transfer of assets from HPBA to HPTF is contingent upon the transfer of the broadcast license;
- (2) Clarifying that HPBA shall transfer the assets to HPTF;
- (3) Adding other items to be transferred;
- (4) Specifically excluding employment contracts and collective bargaining contracts from the items to be transferred;
- (5) Not making the requirement for HPBA to continue to function until July 1, 2000, contingent upon the transfer of the broadcast license; and
- (6) Making technical, nonsubstantive revisions for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 154, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 154, H.D. 1, S.D. 1, C.D. 1.

Senators Ige, D., Fukunaga, Chumbley, Sakamoto, Slom.
Managers on the part of the Senate.

Representatives Takai, Kawakami, Ahu Isa, Stegmaier, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 100 on H.B. No. 307

The purpose of this bill is to establish a college savings program within the Department of Budget and Finance to enable families to save for college tuition and other expenses.

A qualified state tuition program in accordance with section 529 of the Internal Revenue Code will enable participants of the program to obtain federal tax benefits.

Your Committee on Conference has amended the bill by:

- (1) Authorizing the Director of Finance to enter into a contract of up to ten years with a financial organization;
- (2) Specifying the percentages and the amount that are exempt from application to the satisfaction of a money judgment as follows:
 - (A) 100 percent of moneys in an account established in connection with a scholarship program;
 - (B) 100 percent of moneys in an account where the judgment debtor is the account owner and the designated beneficiary of the account is a minor; and

- (C) An amount not exceeding \$10,000 in an account, or in the aggregate for more than one account, where the judgment debtor is the account owner of the account or accounts;

and

- (3) Making technical, nonsubstantive revisions for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 307, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 307, H.D. 2, S.D. 1, C.D. 1.

Managers on the part of the Senate.

Representatives Takai, Kanoho, Schatz, Suzuki, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 101 on S.B. No. 798

The purpose of this measure is to clarify state and county jurisdiction over noise control.

Your Committee on Conference finds that the Department of Health (DOH) regulates noise primarily in the areas of construction, stationary noise source, agricultural, or industrial activities. At this time, DOH does not have the resources to address other noise issues that may be generally classified as a public nuisance.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Amending the section regarding regulation of certain public nuisances to clearly exempt noise rules adopted by DOH from the proviso governing conflicts between a statute, rule, or ordinance; and
- (2) Deleting the amendment to the section regarding convention center district rules.

This measure, as amended, establishes and clarifies a standard for noise control in section 46-17, Hawaii Revised Statutes, in which a county ordinance would yield jurisdiction to a noise rule promulgated by the DOH under the authority of chapter 342F, Hawaii Revised Statutes. This clarification provides clear guidance that the counties can regulate noise when not addressed by a DOH rule.

With these amendments, chapters 46 and 342F, Hawaii Revised Statutes, work in conjunction rather than in conflict, thereby, giving clear guidance with regard to jurisdiction over noise issues.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 798, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 798, S.D. 2, H.D. 2, C.D. 1.

Senators Nakata, Chun Oakland, Fukunaga, Ige, M., Ihara, Anderson.
Managers on the part of the Senate.

Senator Iwase did not sign the report.

Representatives Hiraki, Goodenow, Fox.
Managers on the part of the House.

Representative Okamura did not sign the report.

Conf. Com. Rep. No. 103 on S.B. No. 223

The purpose of this bill is to establish a canine corps within the Department of Public Safety to be used for correctional and other authorized purposes.

Your Committee finds that the Department of Public Safety is responsible for the operation of five community correctional centers and three correctional facilities, many of which have been plagued with insufficient staffing ratios due to overcrowding and lack of qualified personnel. Your Committee agrees that establishing a canine corps is a cost-effective method for enhancing security and safety within our correctional centers and facilities. Your Committee further notes that the canine corps may also serve as a valuable tool to assist the department in other law enforcement efforts.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the appropriation section; and
- (2) Changing the effective date to upon approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 223, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 223, S.D. 2, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Levin, Sakamoto, Anderson.
Managers on the part of the Senate.

Representatives Garcia, Kanoho, Catalani, Kaho'ohalahala.
Managers on the part of the House.

Representative Pendleton did not sign the report.

Conf. Com. Rep. No. 104 on S.B. No. 889

The purpose of this measure, as received by your Committee, is to increase fees and mileage paid to persons serving as jurors.

Your Committee is aware that most citizens agree to serve as jurors out of their sense of civic duty, despite the disruption it may have on their daily work and family responsibilities. Thus, your Committee agrees that enhanced juror remuneration would support and encourage citizen participation. Due to the State's serious fiscal constraints, in order to support enhanced juror remuneration, additional sources of revenue must be identified. Your Committee believes that increasing the fee from \$25 to \$50 for the issuance of penal summons upon persons who fail to appear on traffic citations will generate additional revenues to assist in supporting enhanced juror fees. Despite this additional revenue source, your Committee does not anticipate that sufficient funds will be generated to support increased juror fees, which has an estimated fiscal impact of \$500,000, nor an increase in mileage fees, which has an estimated fiscal impact of \$70,000.

Therefore, upon further deliberation, your Committee has amended this measure by:

- (1) Deleting the increases in juror fees and mileage fees paid to jurors;
- (2) Inserting a provision to define good cause consideration by the court in making a determination on whether a person under a temporary restraining order should be permitted to possess firearms or ammunition;
- (3) Inserting a provision to increase the assessment for issuance of penal summons from \$25 to \$50; and
- (4) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 889, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 889, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Levin, Fukunaga, Anderson.
Managers on the part of the Senate.

Senator Tanaka did not sign the report.

Representatives Oshiro, P., Saiki, Hamakawa, Luke, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 105 on S.B. No. 921

The purpose of this bill is to provide another avenue for the courts to regulate their own proceedings in an expeditious and appropriate manner by creating a procedure for the issuance of summons and bench warrants where any person fails to pay a monetary assessment for a traffic violation.

Your Committee on Conference finds a compelling need to assure that violators of decriminalized traffic offenses will comply with district court orders of default judgment for payment of fines.

Your Committee has amended this measure by:

- (1) Providing that when a person fails to pay a monetary assessment for any traffic infraction, the court shall issue a penal summons;
- (2) Providing that when a person fails to pay the assessments and fails to appear before the court at the specified time and place, then the court shall issue a bench warrant; and
- (3) Providing that if a person refuses to pay the assessments or fails to pay within a specified period of time, the monetary assessments shall be considered delinquent and subject to collection by the Department of the Attorney General.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 921, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 921, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Ihara, Sakamoto, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Goodenow, Hamakawa, Saiki, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 106 on S.B. No. 1158

The purpose of this bill is to provide funds for the Crime Victim Compensation Commission which helps to compensate victims of crimes.

Your Committee on Conference finds that the Crime Victim Compensation Commission (CVCC) is the only state agency that provides compensation to victims of violent crimes in Hawaii. Last year, the CVCC provided compensation to over 1,000 crime victims and their families. The CVCC is a payer of last resort that provides compensation for medical treatment and therapy costs, lost wages, funeral and burial expenses, and pain and suffering. Your Committee further finds that if the CVCC does not have sufficient funding to pay crime victim compensation claims, forty percent of federal matching funds will be lost for every dollar that the CVCC is unable to pay in compensation.

Therefore, your Committee has amended this measure by appropriating \$1,127,025 for fiscal year 1999-2000, and \$1,127,025 for fiscal year 2000-2001, for the crime victim compensation special fund.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1158, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1158, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Fukunaga, Chun Oakland, Anderson.

Conf. Com. Rep. No. 107 on S.B. No. 1274

The purpose of this measure is to address a variety of public safety issues by:

- (1) Transferring the responsibility of the administration of the night security programs for selected public schools from the Department of Public Safety to the Department of Education; and
- (2) Providing that the community partnering process shall include a community hearing for the purpose of soliciting community input when discussing all aspects of building a correctional facility.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting sections 7 through 23 which provided for the continuation of a comprehensive schedule of intermediate alternatives to incarceration;
- (2) Deleting section 4 which authorized the governor to use public or private funds, including certificates of participation, for the development of a private in-state correctional facility;

- (3) Deleting the provision that allowed a private developer to include schematic plans and a fixed dollar amount dedicated to improvements in the total development package;
- (4) Adding a severability clause;
- (5) Specifying that the bill take effect upon approval; and
- (6) Making technical, nonsubstantive amendments for the purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1274, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1274, H.D. 1, C.D. 1.

Senators Ige, D., Chumbley, Fukunaga, Levin, Bunda, Slom.
Managers on the part of the Senate.

Representatives Garcia, Hamakawa, Ito, Saiki, Suzuki.
Managers on the part of the House.

Representative Pendleton did not sign the report.

Conf. Com. Rep. No. 108 on S.B. No. 238

The purpose of this measure is to simplify, streamline, and clarify the State's real estate licensing laws. Under this measure:

- (1) A limited liability company registered with the State may hold a real estate license;
- (2) The Real Estate Commission is authorized to issue a preliminary advisory decision on a license application;
- (3) The requirements for a real estate broker's license are clarified;
- (4) The license examination requirement may be waived under certain circumstances; and
- (5) The registration requirement for a real estate broker's site office is repealed.

Additionally, the measure makes other changes to chapter 467, Hawaii Revised Statutes (HRS), intended to provide for a more efficient administration of the real estate licensing laws.

Upon careful consideration, your Committee on Conference has amended this measure to:

- (1) Provide in section 1 that the purpose of the measure, among other things, is to:
 - (A) Facilitate the review and understanding of the continuing education laws, rather than to simplify and deregulate the certification of real estate continuing education instructors;
 - (B) Require the registration of real estate branch offices, rather than to deregulate the branch offices; and
 - (C) Repeal the requirement that real estate site offices be registered, rather than the registration of real estate site offices;
- (2) Add a new section to chapter 467, HRS, that consolidates the laws relating to the Real Estate Commission's authority regarding continuing education for real estate salespersons and brokers, and the requirements relating to continuing education providers, instructors, and courses;
- (3) Repeal, rather than amend the definition of "continuing education"; and
- (4) Make technical, stylistic, and formatting changes.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 238, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 238, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 109 on S.B. No. 1124

The purpose of this measure is to facilitate interstate branching in Hawaii by removing restrictions on and establishing requirements for the establishment or acquisition of interstate branches in the State by out-of-state banks.

Upon careful consideration, your Committee on Conference has amended this measure by changing its effective date from June 1, 2010, to January 1, 2001.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1124, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1124, S.D. 2, H.D. 1, C.D. 1.

Senators Kanno, Taniguchi, Fukunaga, Levin, Ihara, Inouye, Slom.
Managers on the part of the Senate.

Representatives Menor, Suzuki, Garcia, Yamane, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 110 on S.B. No. 1294

The purpose of this measure is to improve the cost-effectiveness of the Hawaii Public Employees Health Fund (Health Fund) by:

- (1) Requiring the State and the several counties to pay the Health Fund a monthly contribution of \$43.80 for voluntary medical insurance coverage for each employee-beneficiary; and
- (2) Requiring that eligible employee-beneficiaries of the Health Fund and their spouses enroll in the federal Medicare Part B medical insurance plan, with exceptions to be determined by the Health Fund Board of Trustees.

Upon further consideration, your Committee has amended this bill by:

- (1) Deleting the \$43.80 cap on the Medicare Part B reimbursement for voluntary medical insurance coverage for each employee-beneficiary; and
- (2) Making technical, nonsubstantive amendments for the purposes of style and clarity.

Your Committee finds that requiring eligible employee-beneficiaries of the Public Employees' Health Fund and their spouses to enroll in the Federal Medicare Part B insurance program will result in reduced costs to the Health Fund as well as to public employers.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1294, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1294, S.D. 1, H.D. 2, C.D. 1.

Senators Kanno, Taniguchi, Fukunaga, Levin, Slom.

Representatives Yoshinaga, Takamine, Goodenow, Nakasone, Suzuki, Moses.
Managers on the part of the House.

Conf. Com. Rep. No. 111 on S.B. No. 450

The purpose of this bill is to continue the on-going work to privatize government services by:

- (1) Specifying the tasks that the committee charged with developing a managed process for public-private competition must complete; and
- (2) Specifying deadlines by which the committee must complete a draft and a final draft of the managed process, and a report of its findings, plans, implementations, and recommendations for statutory changes to civil service laws to the legislature.

Your Committee on Conference finds that article 16, section 1, Hawaii State Constitution, requires the employment of civil servants to be governed by the merit principle. While recognizing that civil service laws and certain merit principles must be upheld, your Committee on Conference does not intend that the merit principle as interpreted under Konno v. County of Hawaii, 85 Haw. 61, 937 P.2d 397 (1997), be an impediment to contracting out under a managed process system under this Act.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that the committee monitor and review the managed process;
- (2) Deleting the repeal of merit principles as a factor the committee should consider when developing a managed process that ensures civil service laws are not violated;
- (3) Repealing the June 30, 2001, sunset date for those provisions related to the managed process, including the committee created to develop, monitor, and review the managed process, and public-private competition for government services; and

- (4) Amending the effective date of this measure to take effect upon approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 450, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 450, S.D. 1, H.D. 2, C.D. 1.

Senators Tam, Fukunaga, Levin, Chun, Anderson.
Managers on the part of the Senate.

Representatives Yoshinaga, Takamine, Kanohe, Nakasone, Marumoto.

Conf. Com. Rep. No. 112 on S.B. No. 1518

The purpose of this measure is to:

- (1) Close the Hawaii State Hospital;
- (2) Authorize the Director of Health to privatize the Hawaii State Hospital's current functions; and
- (3) Create a joint legislative committee to oversee the efforts to address Hawaii State Hospital, Hawaii Revised Statutes.

Upon further consideration, your Committee on Conference has amended the measure by deleting its substance and inserting therefor, provisions that:

- (1) Allow for the use of excess investment earnings of the Employees' Retirement System by state and county employers to provide funding for retroactive pay raises and other necessary items;
- (2) Provide that this use of excess investment earnings of the Employees' Retirement System shall be a one-time only provision and shall be effective only until July 1, 2001;
- (3) Specify that the savings realized by the State and counties shall be used for funding retroactive cost items for contracts expiring on June 30, 1999;
- (4) Prohibit enactment of any future law that applies excess actuarial investment earnings of the Employees' Retirement System against the amounts contributed by employers under section 88-123, Hawaii Revised Statutes; and
- (5) Appropriate funds to the counties for the retroactive cost items; and
- (6) Require all departments and agencies to identify their goals, objectives, and policies to provide a basis for determining priorities and allocating limited public funds and human resources.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1518, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1518, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 113 on S.B. No. 816

The purpose of this measure is to:

- (1) Combine the convention center capital special fund with the convention center operations special fund;
- (2) Extend the sunset date of the convention center authority from June 30, 1999, to June 30, 2001; and
- (3) Appropriate funds from the consolidated special fund to the convention center authority.

Your Committee on Conference has amended this measure to:

- (1) Add a purpose section;

- (2) Amend four additional sections in the Hawaii Revised Statutes to combine the two special funds;
- (3) Authorize the authority to waive or substantially discount any payment of the convention center for a specific event whenever the authority determines that the waiver or discount is in the best interest of the convention center facility or the State by attracting new tourist markets or conventioners;
- (4) Specify that reimbursement of the general fund for debt service on general obligation bonds or reimbursable general obligation bonds for the Hawaii convention center be in accordance with a schedule determined by the director of finance, with the approval of the governor, in the best interest of the State;
- (5) Extend the sunset date of the convention center authority from June 30, 1999, to June 30, 2000;
- (6) Require the Auditor to continue to audit and monitor the progress of the convention center authority in resolving various outstanding issues, with a report to the legislature by February 28, 2000;
- (7) Clarify the effective dates of the respective sections of the Act; and
- (8) Make a technical, nonsubstantive amendment to conform to preferred drafting style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 816, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 816, S.D. 1, H.D. 2, C.D. 1.

Senators Inouye, Fukunaga, Ige, D., Taniguchi, Slom.
Managers on the part of the Senate.

Representatives Chang, Takamine, Ahu Isa, Suzuki, Meyer.

Conf. Com. Rep. No. 114 on S.B. No. 1129

The purpose of this measure is to:

- (1) Establish continuing education requirements for insurance licensees;
- (2) Establish a single fund for the operations of the insurance division; and
- (3) Provide the Hawaii Employers' Mutual Insurance Company, Inc., with a partial exemption from the levy imposed on insurers who insure employers.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the provision granting exemptions to agents licensed as of July 1, 1999;
- (2) Deleting the provisions relating to the insurance licensing administration special fund, as licensing fees and penalties will be placed into the insurance regulation fund;
- (3) Clarifying that a licensee whose license was inactivated must show proof of continuing education credit hours completed and pay any required fees and penalties;
- (4) Amending sections 36-27 and 36-30, Hawaii Revised Statutes, to exempt the insurance regulation fund from the requirements contained in those sections;
- (5) Adding the patients' compensation fund to the list of funds exempted from inclusion into the insurance regulation fund since this fund is technically still in existence;
- (6) Clarifying the assessment authority of the insurance commissioner;
- (7) Providing that the provisions relating to license renewal prerequisites and continuing education recordkeeping shall become effective on January 1, 2000, rather than July 1, 1999;
- (8) Clarifying the effective date of the continuing education program and the abolishment of the motor vehicle insurance administration revolving fund and the insurance examiners revolving fund;
- (9) Clarifying that the sums transferred to the insurance regulated fund may be expended by the commissioner to carry out the purposes of Title 24, Hawaii Revised Statutes; and
- (10) Making technical, nonsubstantive amendments for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1129, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1129, S.D. 2, H.D. 2, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Hanabusa, Ihara, Anderson.

Representative Takamine did not sign the report.

Conf. Com. Rep. No. 115 on S.B. No. 1235

The purpose of this measure is to require the adjutant general to adopt hurricane resistant shelter criteria.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Deleting references to hurricane shelter; and
- (2) Inserting language relating to the creation of a temporary two-year governor's task force on alternative medicine.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1235, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1235, S.D. 1, H.D. 1, C.D. 1.

Senators Chun Oakland, Kanno, Taniguchi, Fukunaga, Levin, Chun, Slom.
Managers on the part of the Senate.

Senator Bunda did not sign the report.

Representatives Menor, Yamane, Chang, Goodenow, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 116 on S.B. No. 1238

The purpose of this measure is to:

- (1) Repeal the regulation of real estate collection servicing agents;
- (2) Require the Auditor to conduct a sunset review of the regulatory programs for barbering, beauty culture, and speech pathology and audiology; and
- (3) Require the Legislative Reference Bureau to conduct a study of the state-constructed dental licensing examination used by the Board of Dental Examiners.

Your Committee on Conference has amended this measure by correcting its title.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1238, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1238, S.D. 2, H.D. 2, C.D. 1.

Senators Kanno, Taniguchi, Ige, D., Fukunaga, Slom.
Managers on the part of the Senate.

Representatives Menor, Ahu Isa, Herkes, Yamane, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 117 on S.B. No. 1157

The purpose of this measure is to allow the Board of Education to appoint the State Librarian without regard to state residency provisions and for a term of up to four years. In addition, this measure allows the State Librarian to receive additional compensation from private sources.

Your Committee has amended this measure by deleting the provision which allows the State Librarian to receive additional compensation from private sources. In so doing, this measure sets the salary of the State Librarian at \$85,302. Additionally, the effective date was changed to July 1, 1999.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1157, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1157, S.D. 1, H.D. 1, C.D. 1.

Senators Ige, D., Fukunaga, Levin, Sakamoto, Slom.
Managers on the part of the Senate.

Representatives Ito, Saiki, Morihara, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 118 on S.B. No. 1499

The purpose of this measure is to allow the State Committee of Blind Vendors (Vendors) to hire outside counsel and to establish financial procedures to increase the flexibility of Vendors to expend moneys in the Randolph-Sheppard revolving account (Account).

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Adding a purpose section;
- (2) Clarifying the provision allowing the Vendors to hire outside attorneys by:
 - (A) Inserting "Notwithstanding section 28-8.3"; and
 - (B) Adding that in some instances a court must first determine that representation by the attorney general is directly adverse to another client or to the attorney general;
- (3) Adding a conforming amendment to section 28-8.3, Hawaii Revised Statutes, relating to specifying state agencies that can hire outside counsel;
- (4) Clarifying that income from vending operations, such as operations at an airport, shall be deposited into the Account;
- (5) Inserting an amount of \$30,000 that the Vendors can spend each year from the Account;
- (6) Deleting the proviso prohibiting the use of the \$30,000 to hire private attorneys;
- (7) Clarifying that the transfer of the \$30,000 shall not affect the expenditure of funds from the Account by the Department of Human Services; and
- (8) Making an appropriation of \$30,000 from the Account to the subaccount, to be expended for purposes of the Account.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1499, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1499, S.D. 1, H.D. 2, C.D. 1.

Senators Chun Oakland, Fukunaga, Levin, Anderson.
Managers on the part of the Senate.

Representatives Arakaki, Kahikina, Goodenow, Stegmaier.
Managers on the part of the House.

Representative Pendleton did not sign the report.

Conf. Com. Rep. No. 119 on S.B. No. 1501

The purpose of this measure is to define "New Century Charter Schools" as schools that utilize an alternate educational framework and are governed by an independent governing board. In addition, this measure creates a process whereby New Century Charter Schools may be established.

Your Committee acknowledges the growing national and state interest in charter schools because they provide a truly flexible, self-defining alternative for public school reform, and allow students, teachers, and administrators the opportunity for innovation and increased autonomy to achieve their academic goals. Hawaii currently has a process whereby existing schools may become student-centered schools (sections 302A-1123, 302A-1123.5, and 302A-1123.6, Hawaii Revised Statutes), but this process is difficult to follow and the provisions of the school are not adequately identified. Hawaii is in need of a comprehensive charter school measure which will explicitly detail a process that will enable and allow both existing schools and new schools to meet the educational demands of the twenty-first century -- to become New Century Charter Schools.

This measure is intended to be comprehensive charter school legislation that establishes the process for the creation of a charter school, either from a new school, an existing school, a school-within-a-school, or a new school comprised of parts and programs of existing schools. Your Committee has diligently worked to formulate a measure which not only facilitates the process to create New Century Charter Schools, but also ensures that the New Century Charter Schools will be held accountable for the academic performance of their students. By working with current charter school officials, the Department of Education, the Office of the

Governor, and employee representatives, your Committee has created a measure that it strongly believes is groundbreaking in its definitive step towards complete educational reform in this State.

Your Committee has amended this measure by:

- (1) Clarifying the process for the Board of Education to designate a school as a New Century Charter School (sections 302A-B and 302A-C);
- (2) Charging the Auditor with the responsibility to determine the appropriate Department of Education funding allocation to the New Century Charter Schools, taking into consideration the advice of the Superintendent of Education, and including, if necessary, an appropriate small school allotment;
- (3) Clarifying the entire funding section (section 302A-E) to distinguish the supplemental funds which can be spent at the discretion of the local school board of the New Century Charter School;
- (4) Making fiscal accountability a factor in the evaluation of New Century Charter Schools (section 302A-F); and
- (5) Making technical nonsubstantive amendments for the purposes of style and clarity.

Your Committee expressly notes that anyone in the community can initiate a request to establish a New Century Charter School, including the University of Hawaii, the counties, or the Chamber of Commerce. New Century Charter Schools will also have the flexibility to negotiate entirely new contracts, establish new procedures for selection of personnel, and the authority to define and establish new positions. In addition, this measure includes a mandate for the Board of Education and the Department of Education to support the formation of New Century Charter Schools.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1501, S.D. 3, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1501, S.D. 3, H.D. 3, C.D. 1.

Senators Ige, D., Fukunaga, Levin, Chumbley, Chun Oakland, Sakamoto, Slom.
Managers on the part of the Senate.

Representatives Ito, Arakaki, Santiago, Yoshinaga, Takamine, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 120 on S.B. No. 131

The purpose of this measure is to require a study by the Joint Legislative Committee on Long-Term Care (JLC) to conduct a study on whether to adopt the July 1998 Model Long-Term Care Insurance Model Act and Model Regulations, and to make an appropriation for a universal long-term care study.

Upon further consideration, and with the input and concurrence of stakeholders, your Committee on Conference has amended this measure by:

- (1) Clarifying the purpose section to more accurately reflect the provisions of the conference draft;
- (2) Deleting the study by the JLC on the adoption of the model act and model regulation;
- (3) Enacting provisions of the July 1998 Long-Term Care Insurance Model Act and Model Regulation;
- (4) Revising Act 339, Session Laws of Hawaii 1997, to provide that the JLC shall cease to exist upon introduction of legislation, if any, for the Regular Session of 2000;
- (5) Adding provisions relating to universal availability of long-term care insurance, including employer-related guidelines;
- (6) Clarifying the obligations of mutual benefits societies that offer long-term care insurance;
- (7) Clarifying the actuarial study provision to enumerate specific models and making an appropriation for expenses for the study;
- (8) Deleting the regulatory funding for the Insurance Division;
- (9) Deleting the managed long-term care demonstration project, as this is included in H.B. No. 100, relating to the state budget; and
- (10) Adding an appropriation for the JLC for expenses to conduct public briefings on the findings and recommendations of the actuarial study.

This measure, as amended, is an outgrowth of the work of the JLC, established by Act 339, Session Laws of Hawaii 1997. The JLC undertook an eighteen month study to develop a sound financial plan to address a problem of compelling state interest, the current

and future long-term care needs of the people of Hawaii. This measure represents a major component of a financial plan. An actuarial study is included in this measure to study the feasibility and advisability of establishing a state-sponsored universal program of long-term care that offers comprehensive, protective coverage to the largest numbers of people. A universal program would complement an insurance-based long-term care program that is established in this measure.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 131, S.D. 3, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 131, S.D. 3, H.D. 3, C.D. 1.

Senators Chun Oakland, Kanno, Taniguchi, Fukunaga, Levin, Kawamoto.
Managers on the part of the Senate.

Senators Bunda, Chun and Slom did not sign the report.

Representatives Arakaki, Santiago, Menor, Yoshinaga, Kawakami.
Managers on the part of the House.

Representative Fox did not sign the report.

Conf. Com. Rep. No. 121 on S.B. No. 1452

The purpose of this measure is to strengthen the provisions of the Hawaii Patient Bill of Rights by adopting the recommendations of the Patient Rights and Responsibilities Task Force ("Task Force").

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Adopting the federal "prudent layperson" standard with respect to "emergency services" in section 431:10C-103, Hawaii Revised Statutes ("HRS"), rather than in section 432E-1, HRS;
- (2) Deleting the definition of "mutual benefit society" as it does not apply to motor vehicle accidents;
- (3) Amending section 432E-6, HRS, by clarifying that:
 - (A) The independent medical evidence is exempt from the requirements of section 91-9(g), HRS, rather than chapter 91, HRS; and
 - (B) At the commissioner's discretion, the enrollee may recover reasonable attorney's fees and costs;
- (4) Deleting the provisions relating to a health insurance revolving fund and appropriating the moneys therefrom, as an insurance regulation fund is being established in other related legislation;
- (5) Referencing the insurance regulation fund, rather than the health insurance revolving fund, to reflect the above; and
- (6) Making technical, nonsubstantive changes for the purposes of clarity and style.

Your Committee on Conference believes that this measure will strengthen the protection of consumer rights of patients receiving health care in this State.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1452, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1452, H.D. 3, C.D. 1.

Senators Taniguchi, Kanno, Chun Oakland, Levin, Anderson.
Managers on the part of the Senate.

Representatives Santiago, Menor, Takamine, Chang, Halford.
Managers on the part of the House.

Conf. Com. Rep. No. 122 on S.B. No. 1583

The purpose of this measure is to spur economic development and foster the growth of knowledge-based industries in Hawaii via tax incentives, special purpose revenue bonds, and other incentives. More specifically, this measure:

- (1) Consolidates the State's high technology agencies, divisions, and offices under the coordination and direction of a special advisor for technology development and creates a governor's special advisory council for technology development to assist the advisor;
- (2) Offering a tax incentive for investment in new high technology businesses;
- (3) Integrating technology with Hawaii's tourism and marketing industries;

- (4) Prohibiting the imposition of taxes on Internet commerce;
- (5) Focusing work force development programs to ensure a pool of technology professionals;
- (6) Accelerating high speed access to the Internet for the University of Hawaii and the public schools, and establishing educational technology programs within public schools;
- (7) Exempting stock options from qualified high technology businesses from income taxation;
- (8) Assisting Ohana Foundation and its not-for-profit affiliates in financing or refinancing costs related to the development of a high technology park in Kakaako;
- (9) Exempting royalties from qualified high technology businesses and other sources from gross income for tax purposes; and
- (10) Creating tax credits for high technology companies that invest in high technology businesses and increase research activities.

Due to the State's current economic condition, your Committee recognizes the necessity of fostering the development of the high technology industry in Hawaii. High technology spans a variety of fields--from cutting edge bioengineering research, to the explosive growth of Internet commerce, to the development of advanced computer software. Because of this, high technology promises to be the major industry of the future, fast growing and enhancing our everyday lives in more ways than can be imagined. Your Committee's commitment to fostering high technology growth and development in this State will ensure Hawaii's prominent role as a mecca for high technology companies and a world-renowned center for innovation and invention.

Your Committee has amended this measure to:

- (1) Specify that the Governor's Special Advisor for Technology Development, the Governor's Special Advisory Council for Technology Development, the Millennium Work Force Development Training Program, and the Department of Education's E Academy programs shall seek and utilize any available funding sources, including grant moneys, in carrying out their duties;
- (2) Delete the specific tax credit for financial institutions to invest in high technology businesses;
- (3) Clarify the provisions of the Hawaii Internet Tax Freedom Act (section 9);
- (4) Acknowledge the University of Hawaii's role in the development of a high technology workforce by appropriating funds to the University of Hawaii to implement programs pursuant to the workforce development training program;
- (5) Delete the appropriation for the establishment of a University of Hawaii teleconferencing center in California's Silicon Valley;
- (6) Delete the authorization for the issuance of special purpose revenue bonds for Ohana Foundation, as this provision is addressed in H.B. No. 377, H.D. 2, S.D. 2, C.D. 1;
- (7) Clarify the provisions for tax exemptions for stock options from high technology businesses, and royalties from high technology businesses, including the deletion of the requirement that these business must operate solely in Hawaii, and the addition of computer software development companies to the definition of "qualified high technology businesses" (sections 20 and 22);
- (8) Clarify the provisions for tax credits for investment in high technology businesses and increasing research activities, including the addition of computer software development companies to the definition of "qualified high technology businesses", and the allowance of financial institutions and insurance companies to utilize the tax credits for high technology investment (sections 24, 25, 26, and 27); and
- (9) Make technical nonsubstantive changes for the purposes of clarity and style.

It is the intent of you Committee that the tax credits and exemptions provided for in this measure be applied to a broad range of high technology businesses, including Internet based businesses. Your Committee urges the Department of Taxation to consider this intention in the authorization of these tax incentives.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1583, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1583, S.D. 2, H.D. 2, C.D. 1.

Senators Ige, D., Inouye, Nakata, Fukunaga, Levin, Slom.
Managers on the part of the Senate.

Representatives Takamine, Luke, Morihara, Ito, Nakasone, Suzuki, Halford, Meyer.
Managers on the part of the House.

Conf. Com. Rep. No. 123 on S.B. No. 646 (Majority)

The purpose of this measure is to improve various aspects of the functioning of State government including:

- (1) Authorizing the Attorney General to charge state agencies for the collection of delinquent accounts;
- (2) Changing the fee for copying government records that is charged to the public;
- (3) Authorizing the Barbers Point Naval Air Station Redevelopment Commission to arrange for or provide interim infrastructure services to the owners of properties being conveyed by the Navy;
- (4) Creating a structure for managing the Kapolei Recreational Sports Complex and makes the Stadium Authority responsible for managing it;
- (5) Exempting sales to foreign diplomats from the general excise tax and accommodations furnished to foreign diplomats from the transient accommodations tax;
- (6) Establishing the Hawaii Performance Partnerships Board to develop community outcomes of well-being and to increase the use of performance measurement;
- (7) Authorizing fees, fines, and other administrative charges collected in the management of public lands to be deposited in the Special Land and Development Fund;
- (8) Providing additional security to lenders on land or interest covered by a lease, patent, license, agreement, or other instruments, and provides flexibility to the Department of Land and Natural Resources to assign or transfer leases based on current industry standards;
- (9) Exempting the counties from the public notice requirements of Chapters 103D and 103F, Hawaii Revised Statutes, until December 31, 2000;
- (10) Authorizing the Director of Finance to invest state funds in federal Agricultural Mortgage Corporation notes and bonds rather than joint stock farm loan bonds;
- (11) Exempting the construction of air cargo operations facilities from the general excise tax and use tax; and
- (12) Establishing a structure for a special savings account program known as the Individual Development Account Program.

Your Committee on Conference finds that currently the county charters require public notices to be published daily. In 1998, the expectation of the counties prior to the procurement for the publishing of public notices was that the contract would be awarded to a daily publication. Due to the fact that the procurement of public notices for the State and counties was based on total circulation rather than how often the periodical was published, the contract was awarded to a weekly publication. Your Committee on Conference finds that this measure is needed in order to give the counties time to change their county charters to weekly publication.

Your Committee on Conference has amended this measure by:

- (1) Deleting the section authorizing the Attorney General to charge state agencies for the collection of delinquent accounts;
- (2) Amending the section on costs of copying government records as follows:
 - (A) Designating the minimum cost of copying government records and other data to five cents per page; and
 - (B) Deleting amendments to the section on the cost of copies of any tax return filed with the State;
- (3) Deleting specific county positions from the Barbers Point Naval Air Station redevelopment commission and replacing them with four county department directors appointed by the mayor;
- (4) Deleting the section on the lost and found money or property at the Kapolei recreational sports complex;
- (5) Deleting the section exempting sales to foreign diplomats from the general excise tax and accommodations furnished to foreign diplomats from the transient accommodations tax;
- (6) Amending the section on the special land and development fund as follows:
 - (A) Adding language on designated uses of the special land and development fund that allows moneys from the fund to be used for permanent or temporary staff positions for the planning and management of all lands under the Board of Land and Natural Resources; and

- (B) Adding language that requires the director of finance to transfer the unexpended balance of the industrial park special fund as of the close of business on June 30, 1999 to the credit of the special land and development fund;
- (7) Amending the publication of notice section by:
- (A) Adding the language, "Notwithstanding any other statute, law, charter provision, ordinance, or rule to the contrary";
- (B) Adding language that requires the Comptroller to follow chapter 103D, Hawaii Revised Statutes, when determining publication of notices for all government agencies; and
- (C) Deleting the language that exempts counties from the provisions of section 1-28.5, HRS, until December 31, 2000;
- (8) Deleting the section exempting the construction of air cargo operations facilities from the general excise tax and use tax;
- (9) Amending the section on Individual Development Accounts by:
- (A) Designating five project years as the time an applicant may apply for funding if the State lacks the resources to fund an individual development account project;
- (B) Limiting grant money to each individual development account program to five years; and
- (C) Adding language that requires the Department of Taxation to submit proposed legislation establishing a tax credit for individual development accounts to the legislature no later than the convening of the regular session of 2000;
- (10) Amending current law regarding the interagency federal revenue maximization revolving fund by:
- (A) Deleting the June 30, 1999, sunset date in section 15 of Act 11, Special Session Laws of Hawaii 1995; and
- (B) Appropriating funds out of revenues of the interagency federal revenue maximization revolving fund for expenses, including the creation and hiring of temporary staff, related to the recovery of federal fund reimbursements under section 29-24, HRS; and
- (11) Making technical, nonsubstantive changes for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 646, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 646, S.D. 2, H.D. 3, C.D. 1.

Senators Tam, Fukunaga, Levin, Hanabusa, Ige, D., Kawamoto, Matsunaga.
Managers on the part of the Senate.

Senator Anderson did not concur.

Representatives Cachola, Yoshinaga, Oshiro, P., Kanoho, Saiki, Meyer.
Managers on the part of the House.

Conf. Com. Rep. No. 124 on S.B. No. 951

The purpose of this measure is to authorize the University of Hawaii and the Department of Education to establish custodial accounts for their employees and to make periodic salary withholdings for deposit into those accounts. In addition, this measure shields the University of Hawaii, the Department of Education, and the State of Hawaii from liability for the results of any investment.

Your Committee intends for this measure to be implemented at no cost to the State.

Your Committee has amended this measure by:

- (1) Deleting the Department of Education from the provisions regarding the establishment of custodial accounts;
- (2) Changing its effective date from January 1, 2001, to January 1, 2000; and
- (3) Making technical nonsubstantive changes for the purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 951, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 951, S.D. 1, H.D. 1, C.D. 1.

Senators Ige, D., Fukunaga, Levin, Sakamoto, Slom.

Conf. Com. Rep. No. 125 on S.B. No. 1635

The purpose of this measure is to facilitate the resolution of public land trust issues by:

- (1) Establishing a joint committee to study and make recommendations on all outstanding anticipated public land trust issues;
- (2) Requiring the Auditor to coordinate the resolution of public land trust issues;
- (3) Requiring the joint committee and the Legislative Auditor to submit progress reports to the Legislature prior to the 2000 Regular Session and final reports to the Legislature prior to the 2001 Regular Session; and
- (4) Appropriating funds for activities relating to the resolution of the public land trust issues.

Upon further consideration, your Committee has amended the measure by:

- (1) Deleting the provisions that establish the joint committee to oversee the resolution of the public land trust;
- (2) Requiring that the inventory be completed in one year;
- (3) Amending section 10-13.3, Hawaii Revised Statutes, to provide interim revenue to the Office of Hawaiian Affairs in the amount of \$16,060,000;
- (4) Stating that the revenues paid under section 10-13.3, Hawaii Revised Statutes, shall be credited against any amount settled upon between the State and the Office of Hawaiian Affairs to resolve public land trust controversies; and
- (5) Appropriating \$16,060,000 for fiscal year 1999-2000 to be transferred to the Office of Hawaiian Affairs.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1635, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1635, S.D. 2, H.D. 2, C.D. 1.

Senators Hanabusa, Fukunaga, Levin, Chun, Ige, D., Kanno, Kawamoto, Tanaka, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Suzuki, Kaho'ohalahala, Kanoho, Saiki, Fox.

Conf. Com. Rep. No. 126 on H.B. No. 294

The purpose of this bill is to prohibit the distribution of:

- (1) Sample tobacco products in or on any public street, sidewalk, or park, or within 1,000 feet of any school attended by minors; and
- (2) Tobacco promotional materials within 1,000 feet of any school attended by minor.

After much discussion, your Committee on Conference has amended this bill by:

- (1) Prohibiting the distribution of coupons redeemable for cigarette or tobacco products in or on any public street, sidewalk, or park, or within 1,000 feet of any elementary, middle or intermediate, or high school;
- (2) Prohibiting the distribution of coupons redeemable for cigarette or tobacco promotional materials within 1,000 feet of any elementary, middle or intermediate, or high school; and
- (3) Making technical nonsubstantive revisions for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 294, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 294, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.

Conf. Com. Rep. No. 127 on H.B. No. 635

The purpose of this bill is to:

- (1) Authorize the issuance of \$15,000,000 in special purpose revenue bonds to assist the Hilo Residency Training Program, Inc., a not-for-profit Hawaii corporation, that provides health care facilities; and
- (2) Establish a Hospital and Medical Facilities (HMF) Special Fund in the Department of Health;
- (3) Establish a State Health Planning and Development (SHPD) Special Fund in the State Treasury to be administered by the State Health Planning and Development Agency;
- (4) Amend section 321-11.5, Hawaii Revised Statutes (HRS), to require the Director of Health to adopt rules to set fees for licensure or certification for certain facilities, and to require those fees to be deposited into the HMF Special Fund; and
- (5) Amend section 321-27(a), HRS, to allow certain fees to be deposited into the HMF Special Fund.

After careful consideration, your Committee on Conference has amended this bill by deleting all provisions relating to the HMF and SHPD Special Funds.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 635, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 635, H.D. 2, S.D. 1, C.D. 1.

Senators Chun Oakland, Levin, Anderson.

Conf. Com. Rep. No. 128 on H.B. No. 661

The purpose of this bill is to provide a mechanism for regulating and funding phase I and phase II wireless enhanced 911 service. Specifically, this bill:

- (1) Establishes a twelve-member Wireless Enhanced 911 Board (Board) within the Department of Health;
- (2) Establishes outside the state treasury the Wireless Enhanced 911 Fund (Fund) for the purpose of ensuring adequate cost recovery for the deployment of wireless enhanced 911 service in Hawaii;
- (3) Requires the Board to establish a monthly wireless enhanced 911 surcharge on each commercial mobile radio service connection if a public safety answering point requests wireless enhanced 911 service from a provider of commercial mobile radio service;
- (4) Allows providers of commercial mobile radio service to request reimbursement from the Fund for incurred wireless enhanced 911 commercial mobile radio service costs;
- (5) Requires providers of facilities-based commercial mobile radio service and resellers of commercial mobile radio service to be audited to ensure that the wireless enhanced 911 surcharge recovers only legitimate costs and expenses directly related to the provision of phase I and phase II wireless enhanced 911 service;
- (6) Prohibits the disclosure of proprietary information submitted to the Board, a third party employed by the board, or a public safety answering point;
- (7) Imposes an unspecified civil penalty, in an amount of which has yet to be determined, if proprietary information identified by statute or rule is disclosed to an unauthorized person;
- (8) Limits the liability of providers of facilities-based commercial mobile radio service and public safety answering points to damages caused by gross negligence, wanton and wilful misconduct, or bad faith;
- (9) Deems commercial mobile radio service location information obtained by a public safety answering point or public safety agency for public safety purposes not to be a government record open to disclosure;
- (10) Allows providers of facilities-based commercial mobile radio service, resellers of commercial mobile radio service, and public safety answering points to resolve disputes with the Board through final and binding arbitration; and
- (11) Exempts the Fund from assessments for central service expenses and departmental administrative expenses.

After much discussion, your Committee on Conference has amended this bill by:

- (1) Specifying that the "Federal Communications Commission Order" means not only the original order issued in the Federal Communications Commission Docket No. 94-102 (governing wireless enhanced 911 service), but also any other Federal Communication Commission orders related to the provision of wireless enhanced 911 services;
- (2) Specifying that the chair of the Board may retain outside counsel only with the approval of the Board;
- (3) Specifying that the Board shall select an independent third party to conduct audits;
- (4) Deleting penalties and fines for violations of board rules;
- (5) Deleting liability for actions conducted "in bad faith" by providers of facilities-based commercial mobile radio service and public safety answering points;
- (6) Amending section 37-51, Hawaii Revised Statutes (HRS), to exempt the Fund from legislative and executive budgetary control in the same manner as the general fund;
- (7) Amending section 37-53, HRS, to exempt from transfer to the general revenues of the State all or any portion of moneys in the Fund determined to be in excess of fiscal year requirements; and
- (8) Making technical nonsubstantive changes for purposes of clarity, consistency, and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 661, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 661, H.D. 3, S.D. 2, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Slom.
Managers on the part of the Senate.

Representatives Santiago, Menor, Kawakami, Souki, Halford.

Conf. Com. Rep. No. 129 on H.B. No. 743

The purpose of this bill is to require coverage and equitable reimbursement for services provided by advanced practice registered nurses (APRNs) in all health insurance policies, contracts, plans, and agreements, including workers' compensation coverage.

Your Committee on Conference has amended this bill by:

- (1) Requiring reimbursement by mutual benefit societies for health plan-covered services, rather than requiring coverage and reimbursement;
- (2) Including the services provided by APRNs among the required coverages and reimbursements under accident and sickness insurance policies, rather than creating a new section in that chapter;
- (3) Including the services provided by APRNs in the definition of "medical care," "medical services," or "medical supplies" for purposes of the Workers' Compensation chapter, rather than including APRNs in the definition of "health care provider"; and
- (4) Making technical, nonsubstantive revisions for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 743, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 743, H.D. 3, S.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Chun Oakland, Slom.
Managers on the part of the Senate.

Representatives Santiago, Menor, Yamane, Kawakami, Lee, Moses.

Conf. Com. Rep. No. 130 on H.B. No. 895

The purpose of this bill is to allow the Department of Health (DOH) to provide emergency aeromedical services as part of its required emergency medical services by:

- (1) Defining "emergency aeromedical services";
- (2) Requiring DOH to support interagency dispatch policies and procedures for aeromedical transports;
- (3) Requiring DOH to establish and maintain an emergency aeromedical medical services information system with specified elements; and

- (4) Requiring DOH to establish an emergency aeromedical services quality improvement advisory committee with specific membership requirements.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Adding a tenth member to the emergency aeromedical services quality improvement advisory committee;
- (2) Ensuring representation on the committee from fixed-wing and rotor-wing aeromedical services; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 895, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 895, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 131 on H.B. No. 122

The purpose of this measure is to establish penalties for failure of a contractor to pay a subcontractor promptly for a public contract and prohibit the State from procuring with unlicensed privately-operated group living facilities.

Your Committee on Conference has amended this measure by:

- (1) Deleting the graduated penalties section for failure to pay subcontractor promptly and inserting language that requires the Comptroller to adopt rules necessary to implement this measure, including establishing a system of graduated penalties with monetary fines, payment of interest, and debarment for noncomplying contractors, by the convening of the 2000 regular session;
- (2) Deleting the language on licensed group living facilities and replacing it with language that:
 - (A) Allows for a public informational hearing, pursuant to chapter 91, Hawaii Revised Statutes, prior to the procurement for services for group living facilities in communities where group living facilities are located;
 - (B) Requires State contracts for the procurement of group living facilities to contain operational standards to be monitored by the contracting agency; and
 - (C) Changes the effective date of the group living facilities section to January 1, 2000; and
- (3) Making technical, nonsubstantive changes for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 122, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 122, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 132 on H.B. No. 850

The purpose of this bill is to:

- (1) Delete the conviction for driving without a valid motor vehicle insurance policy as a basis for automatic license suspension; and
- (1) Extend the amnesty period for uninsured motorists to June 30, 2000.

Your Committee on Conference has amended this bill by amending the amnesty period from June 30, 2000, to December 31, 1999.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 850, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 850, H.D. 1, S.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Inouye.
Managers on the part of the Senate.

Representatives Menor, Hamakawa, Saiki, Lee, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 133 on H.B. No. 460

The purpose of this bill is to establish stronger consumer protections regulations on the check cashing industry by:

- (1) Establishing fee caps for check cashing;
- (2) Requiring posted and written notices of fees to consumers;
- (3) Specifying other prohibited acts with regard to check cashing; and
- (4) Making violations of the check cashing law an unfair or deceptive act or practice and wilful violations punishable by a fine of up to \$500 and 30 days imprisonment.

Your Committee on Conference has amended this bill by:

- (1) Limiting the face amount of deferred deposit checks to \$300;
- (2) Exempting fees for deferred deposit of personal checks from chapter 478, Hawaii Revised Statutes, which regulates usury;
- (3) Repealing the bill on July 1, 2001; and
- (4) Making technical, nonsubstantive amendments for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 460, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 460, H.D. 2, S.D. 1, C.D. 1.

Senators Taniguchi, Kanno, Slom.
Managers on the part of the Senate.

Representatives Menor, Nakasone, Ahu Isa, Lee, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 134 on H.B. No. 1361

The purpose of this bill is to protect consumers who make advance purchases from charter tour operators against the risk of loss resulting from the failure of these businesses.

Specifically, this bill imposes statutory regulations on travel agencies operating charter tours by requiring:

- (1) Licensure;
- (2) Evidence of financial ability to perform contractual obligations; and
- (3) Periodic financial reporting.

After much discussion, your Committee on Conference has amended this bill by:

- (1) Requiring a charter tour operator applicant to state whether the applicant intends to operate 16 or more charter tours during any 12 months or shorter period of the registration period;
- (2) Amending the required bond coverage or irrevocable letter of credit a travel agency wishing to engage in the business of a charter tour operator is required to carry;
- (3) Deleting the requirement that a charter tour operator's required quarterly report must be prepared by an independent certified public accountant; and
- (4) Making technical, nonsubstantive revisions for purposes of consistency and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1361, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1361, H.D. 2, S.D. 2, C.D. 1.

Senators Inouye, Kanno, Taniguchi, Buen, Ige, M., Slom.
Managers on the part of the Senate.

Representatives Herkes, Hiraki, Menor, Yamane, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 135 on H.B. No. 252

The purpose of this bill is to prohibit unaccredited institutions from issuing degrees and conducting business in Hawaii unless they comply with certain standards.

Your Committee on Conference finds that there has been a significant increase in the number of unaccredited institutions conducting business in Hawaii, who are merely "diploma mills" or "mail drops", as other States have clamped down on these non-legitimate, unaccredited institutions. This legislation will prevent "diploma mills" or "mail drops" from continuing their activities in Hawaii by:

- (1) Enacting more comprehensive disclosures;
- (2) Prohibiting the issuance of certain types of degrees;
- (3) Creating a mechanism for service of process; and
- (4) Requiring an operational level of physical presence.

Your Committee on Conference has amended this bill by:

- (1) Requiring the office to be located in Hawaii;
- (2) Requiring the employee to reside in Hawaii;
- (3) Deleting the residency requirement for the student and, instead, requiring them to enroll in Hawaii;
- (4) Deleting the requirement that the students and employee be full-time;
- (5) Providing an exemption for a limited period under specific conditions stated in the law;
- (6) Making this measure effective upon approval; and
- (7) Making technical, nonsubstantive changes for purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 252, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 252, H.D. 3, S.D. 2, C.D. 1.

Senators Ige, D., Kanno, Taniguchi, Sakamoto, Slom.
Managers on the part of the Senate.

Representatives Morihara, Menor, Ahu Isa, Kawakami, Leong.
Managers on the part of the House.

Conf. Com. Rep. No. 136 on H.B. No. 1660

The purpose of this bill is to appropriate an unspecified amount for utilities of the University of Hawaii (University) system.

Your Committee on Conference has amended the bill by:

- (1) Deleting the appropriation;
- (2) Authorizing the University carry over unexpended funds from one fiscal period to the next; and
- (3) Making technical, nonsubstantive revisions for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1660, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1660, H.D. 2, S.D. 1, C.D. 1.

Senators Ige, D., Fukunaga, Levin, Bunda, Slom.
Managers on the part of the Senate.

Representatives Morihara, Schatz, Ito, Yamane, Marumoto.

Managers on the part of the House.

Conf. Com. Rep. No. 137 on H.B. No. 1085

The purpose of this bill is to make an emergency appropriation of an unspecified amount for operating expenses required to fulfill the conditions of the Felix v. Cayetano consent decree.

Your Committee on Conference has amended the bill by:

- (1) Inserting the amount appropriated to fulfill the Felix consent decree;
- (2) Adding emergency appropriations for books and equipment for Kapolei Middle School and Keaau High School; and
- (3) Making technical, nonsubstantive revisions for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1085, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1085, H.D. 1, S.D. 1, C.D. 1.

Senators Ige, D., Fukunaga, Levin, Sakamoto, Slom.
Managers on the part of the Senate.

Representatives Ito, Santiago, Kawakami, Saiki, Leong.

Managers on the part of the House.

Conf. Com. Rep. No. 139 on H.B. No. 1471

The purpose of this bill is to:

- (1) Establish an elections review program and require assessment of the performance of the Chief Election Officer;
- (2) Change the name of the Elections Appointment Panel to the Elections Appointment and Review Panel;
- (3) Allow appointment of four members of the Elections Appointment and Review Panel by the leadership of the majority and minority parties of each house of the legislature;
- (4) Assign the Office of Elections and the Elections Appointment and Review Panel to the Department of Accounting and General Services for administrative purposes; and
- (5) Make an appropriation of \$5,000 to support the purposes of this bill.

Your Committee on Conference has amended this bill by:

- (1) Deleting the provision which would require the Elections Appointment and Review Panel to review complaints filed against the operation of any election or the performance of the Chief Election Officer;
- (2) Deleting the establishment of advisory subcommittees to assist the panel;
- (3) Keeping the Office of Elections attached to the Office of the Lieutenant Governor instead of the Department of Accounting and General Services;;

- (4) Clarifying that the terms for all members of the Elections Appointment and Review Panel expire six years and four years respectfully, from the date the first member is appointed;
- (5) Requiring that any holdover member not remain in office longer than six months after the member's term has expired;
- (6) Requiring that the findings and recommendation for the biennial performance evaluation to the legislature be submitted not less than twenty days prior to the convening of each regular session held in odd-numbered years;
- (7) Deleting the \$5,000 appropriation; and
- (8) Making technical, nonsubstantive amendments for the purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1471, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1471, H.D. 1, S.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Fukunaga, Ihara, Anderson.

Representatives Oshiro, P., Kanoho, Ahu Isa, Hamakawa, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 140 on H.B. No. 100

The purpose of this bill is to appropriate operating and capital improvements program funds to the executive branch for the 1999-2001 biennium.

OVERVIEW

Over the past few years, your Committee sought ways in which to help stabilize and energize the State's fragile economy with the understanding that this could not be accomplished overnight. Two years ago, your Committee took the first steps towards economic recovery and committed State resources to tax incentives intended to foster new business opportunities and revitalize existing businesses. Last year, the focus was income tax relief for Hawaii residents through the development of a progressive tax structure that was fair and equitable. This year, your Committee is focused on assisting small businesses and stabilizing the economy.

Your Committee believes that small business is the backbone of our economic base and must be supported and nurtured in order for it to thrive. As such, your Committee reviewed and prioritized numerous tax incentive measures and determined that the depyramiding of the general excise tax would yield the greatest positive impact on the business community, both large and small---crossing all industries. As such, your Committee strongly supports the depyramiding of the general excise tax on services and the exemption of exported services and the taxation imported services, thus levelling the playing field for Hawaii service providers. These measures are intended to encourage economic recovery by reducing the level of taxation and freeing dollars for reinvestment in Hawaii.

Your Committee has also provided for tax incentives for investment capital, call centers, the health industry, technology, and other businesses. In addition, your Committee has provided incentives for hotel construction and remodeling in order to inject vitality into a maturing industry.

Your Committee believes that this tax relief package, in conjunction with the budget proposed by your Committee will be the necessary catalyst towards economic viability.

CURRENT FISCAL BACKDROP

As required by the State Constitution, the Council on Revenues (Council) estimates economic growth based on various factors such as tourism statistics, construction growth, and inflation. These projections are the guidelines by which the biennium budget is crafted. The Council notes that Hawaii has been in the midst of a deflationary period in the past year and while financial recovery has not reached the anticipated levels in Asia, the United States economy remains strong. As a result, the Council on Revenues moderately reduced it's growth rate of general fund tax revenues for fiscal year 1999 by 0.5%, but retains its optimistic growth rates in the remaining forecast horizon.

The general fund appropriation authorized in the operating budget consists of \$3.10 billion for FY 1999-2000 and \$3.12 billion for FY 2000-2001. The general fund appropriation for FY 1999-2000 represents a -2.69 per cent decrease over the executive request. Including other means of financing, the total operating budget consists of \$5.95 billion for FY 1999-2000 and \$6.01 billion for FY 2000-2001.

Capital improvement funds authorized in this bill consist of \$723,000,000 for FY 1999-2000 and \$466,000,000 for FY 2000-2001. Of these sums, \$262,000,000 in FY 1999-2000 and \$139,000,000 for FY 2000-2001 would be financed through the issuance of general obligation bonds.

ECONOMIC DEVELOPMENT

Your Committee recognizes the continued importance of the tourism industry and provided for the expenditure of up to \$60 million in each fiscal year for the Hawaii Tourism Authority to strategically plan, coordinate and develop the tourism marketing initiatives.

In support of the business community, your Committee provided funds to continue the deregulation initiatives of the small business task force on regulatory relief. Furthermore, your Committee is committed to enhanced outreach to the small business community and further simplification and automation of all aspects of business registry.

Your Committee recognizes the development of new research and commercial development in energy, aquaculture, and marine biotechnology at the Natural Energy Laboratory of Hawaii (NELHA) by providing additional resources to expand its operational capacity. Your Committee is encouraged that the activities of the tenants at NELHA resulted in an economic benefit of \$29 million in 1998.

To support further economic diversification, funds have also been provided for research in aquaculture disease management, Forest Stewardship projects that protect endangered species and diversify the economy, tropical flower research, Hawaii Agriculture Research Center and the Agribusiness Development Corporation.

Finally, efforts are being made to broaden the State's economic base by enhancing forest watersheds and producing, improving, and assisting in the production of high quality, high yield forest production that will create job opportunities in rural areas.

EDUCATION

Lower Education

Your Committee finds that providing all children with the services required to prosper as students is of utmost importance. In this regard, achieving compliance with the Felix consent decree has become a focal point within the department and requires greater resources during this fiscal biennium. Your Committee has provided funds to meet this task by upgrading departmental personnel and implementing the comprehensive student support system (CSSS).

Your Committee finds that the financial resources necessary to comply with the requirements of the Felix consent decree are growing at a seemingly exponential pace. Your Committee is alarmed that the Department of Education (DOE) is unable to provide an accurate accounting of the funds currently provided for Felix cases. Consequently, to ensure efficient utilization of resources and greater accountability, your Committee created a new program, Comprehensive School Support Services, EDN 150, that is intended to consolidate and identify all resources dedicated to resolving the Felix consent decree.

Reduction in class size continues to be a priority of the DOE. The opening of new facilities, including Konawaena Elementary School, Kauai Middle School, and Kapolei High School will help to alleviate the problem. Funds have also been provided to fulfill the basic requirements of textbooks and equipment for the new schools.

Your Committee continues to be concerned with the lack of accountability in the DOE and has thus provided funds to revise and implement the Hawaii Content and Performance Standards as a systemic means of measuring performance.

In addition, your Committee understands that teachers are overburdened by large class sizes due to the current policy of the Department of Education to not include special education students in the class ratio formula. Your Committee feels that this is an unfair burden for educators and has therefore provided funds to support the inclusion of special education students in the class ratio as a means of effectuating relief for teachers.

Your Committee continues to support the educational system with the full understanding that Hawaii's future rests in the hands of our children. Therefore, the DOE was spared from much of the reductions that were required to balance the State budget. During such lean times, education continues to be a top priority, however, your Committee has taken appropriate action to ensure greater accountability and fiscal responsibility within the DOE.

Felix Consent Decree

Your Committee agrees that the individualized education plan (IEP) process should be reviewed with regard to the composition of the IEP team and the process by which services are authorized. Private service providers are now a major part of the team that develops the IEP for Felix youths. Your Committee is concerned that some of these same providers are also involved in determining the level of mental health services in the IEP process. Your Committee believes that an inherent conflict of interest exists and there is an immediate need to eliminate this conflict. Furthermore, appropriate changes to the IEP process are needed to ensure that necessary services are identified and provided for in the most efficient and effective manner possible. Given the importance and urgency of the decree, these issues must be resolved swiftly by the Department of Education in collaboration with the Department of Health to meet its responsibilities in complying with the Felix Consent Decree.

Higher Education

Your Committee continues to support the University of Hawaii as it begins its first full year of autonomy. Your Committee fully understands that difficult decisions must be made by the Board of Regents in order to achieve self-sufficiency. However, your

Committee believes that the University has the potential to be an economic force in the State. Furthermore, the University must be responsible for the development of a qualified workforce to meet the changing needs of a global society and technological advances.

HEALTH

Your Committee has made every effort towards full compliance with the law with respect to children with special needs, especially those in the Felix class. As such, quality health and educational services to aid in the educational development for these individuals remain a priority of your Committee.

Your Committee understands the necessity of the safety net provided by rural health care services and has provided funds to such programs as Molokai General Hospital, Kahuku Hospital, Hana Medical Center, Waianae Coast Comprehensive Health Clinic and 24-hour aeromedical services on Hawaii and emergency medical services statewide.

HUMAN SERVICES

Despite limited resources, your Committee is fully committed to providing assistance to those that lack sufficient resources or simply cannot take care of themselves. Of particular concern are the children of Hawaii. As such, your Committee has provided funds for the following:

1. Children's Health Insurance Program - provides access to health care for uninsured children.
2. Child Placement Board and Related Client Payments - helps children in danger of abuse and neglect find placement in foster care homes or other types of placements.
3. Child Care Payments Program - consolidates all payments for child day care into one program; allows low-income families remain self-sufficient by allowing both parents to retain employment.
4. Child Care Payment Processing Contract - allows overburdened child care administrators and social workers address pressing areas of concern such as licensing and renewal of licensing for child care facilities.

Your Committee also continues to provide support for the aged, blind and disabled; uninsured and underinsured populations in rural areas; and First-To-Work contracts which serve welfare clients who must meet work requirements in order to retain assistance.

WORKFORCE DEVELOPMENT

Labor and Industrial Relations

In an effort to become more proactive in the employment field, the Department of Labor and Industrial Relations (DLIR) developed a new Workforce Investment Act (WIA) system that will allow the State to receive improved employment opportunities and training for customers by July 1, 2000. Your Committee supports DLIR's efforts with regard to the workforce development program as it continues to promote apprenticeship opportunities for women, veterans, disabled, disadvantaged, offenders and immigrants.

TRANSPORTATION

Your Committee understands that a safe, reliable, and efficient transportation infrastructure plays a crucial role in the State economy as well as the overall well being of the population. Presently, the Department of Transportation (DOT) is the only entirely self-sufficient department and in the current fiscal climate, your Committee appreciates the department's independence from the state general fund.

Your Committee is aware that repair and maintenance is a necessity for public infrastructure and has provided special funds in the amounts of \$61.6 million in FY 2000 and \$59.8 million in FY 2001 exclusively for the purposes of special repair and maintenance projects.

Your Committee is cognizant of the traffic problems occurring during peak hours on State highways and has provided funds to continue the vanpool pilot project. Your Committee supports the DOT's efforts in promoting ridesharing as a way to reduce the use of fuel, save wear and tear on the highways, reduce air pollution and the need for parking facilities.

Special funds are also provided to market an innovative initiative, the "Aloha Spirit" program at the five major airports. As part of the Airports cultural master plan, the program offers visitors the opportunity to experience a multi-faceted Hawaii through exposure to exhibits and live performances focusing on the Hawaiian culture. Your Committee is aware that it is critical to create a positive first and last impression of Hawaii and is captivated by the potential of this volunteer program.

GOVERNMENT-WIDE SUPPORT

Accounting and General Services

With the turn of the century approaching, the Department of Accounting and General Services (DAGS) is preparing the State to be Y2K compliant. Your Committee has provided funds to support resolution of this issue. With eight months remaining in the year, the Information Processing Service Program continues to upgrade computer systems, as well as assisting other agencies in achieving compliance.

Budget and Finance

In recognition of the spiralling cost of debt service to the State, your Committee has maintained a responsible schedule of capital improvement projects for the upcoming fiscal biennium.

Commerce and Consumer Affairs

During this biennium, the Department of Commerce and Consumer Affairs (DCCA) continues its movement toward fiscal self-sufficiency and insurance regulation reform. To support these efforts, your Committee has provided funds for the following initiatives:

1. Consolidation of special funds to allow the department greater flexibility in the management of its funds.
2. Realignment of positions within the various operating programs to facilitate better fiscal management and oversight; and
3. Development of new sources of revenue to enable regulatory programs to be self-supporting. Of particular note is the Insurance Division's effort to strengthen insurance regulation with the implementation of the continuing education for insurance agents program, the health insurance revolving fund and the long term care revolving fund.

Taxation

In FY1999-2001, the priority of the Department of Taxation (TAX) is the implementation of the Integrated Tax Information Management System (ITIMS). With this complete overhaul of the department's computer system, the Department of Taxation expects that when fully implemented, the project will facilitate a more timely collection of taxes due the state; reduce the amount of "leakage" from the tax base of revenue that is due the state but not collected; provide more flexibility in accommodating tax law changes and initiatives to improve tax administration; and an overall improvement in services provided to the public.

CAPITAL IMPROVEMENT

Your Committee remains cautious about managing the state's debt limit in future fiscal years and has proposed lower expenditures for Capital Improvement Projects in the amount of \$200 million in each year of the biennium. Your Committee believes that this a prudent approach while still providing for various projects, including DOE projects totalling over \$161 million.

CONCLUSION

After much deliberation, your Committee has developed a budget that preserves current services while providing for the basic requirements of health, safety and education. In particular, your Committee has fully funded the mental health services mandated by the Felix vs. Cayetano consent decree.

While crafting H.B. 100, H.D.1, S.D.1, C.D. 1, your Committee was mindful of the need to balance the services provided by government through the executive budget with the equally critical need to stimulate the economy. In doing so your Committee presents you with a budget that is affordable and a tax package intending to improve the business climate, stimulate the development of new industries, encourage investment in Hawaii and provide relief for existing businesses.

Your Committee realizes that its work is not over and that there is much left to be done. However, your Committee is committed to the direction set forth in this document and the accompanying bills.

Your Committee on Conference is in accord with the intent and purpose of H.B. 100, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. 100, H.D. 1, S.D. 1, C.D. 1.

Managers on the part of the House.

Representatives Goodenow, Kahikina, Kanoho did not sign the report.

The purpose of this bill is to provide the necessary appropriations and authorizations for the operation of and capital improvements for the Judiciary Branch for the fiscal biennium 1999-2001.

In light of the current fiscal situation, your Committee was unable to provide all funding requested by the Judiciary. However, your Committee was able to fund the Judiciary's most critical needs to ensure the timely and efficient administration of justice and protection of our community's most vulnerable citizens. Funding for many of these crucial programs was made possible by revenue enhancement measures identified by the Judiciary that are implemented in other measures. As such, your Committee appreciates the Judiciary's positive efforts to identify new general fund revenues to support critical governmental services.

Your Committee would like to highlight three areas within the scope of funding for the Judiciary:

HAWAII DRUG COURT PROGRAM

In 1995, the Hawaii Drug Court Program was established on a temporary basis to address the growing drug offender problem. The program has proved to be a cost-effective alternative for diverting drug offenders by saving between \$678,000 and \$854,000 a year while attaining a client recidivism rate of six per cent as compared to other criminal justice programs where recidivism ranges between forty and sixty per cent. This measure solidifies your Committee's support for the Hawaii Drug Court Program by converting 14 temporary positions to permanent status.

FAMILY COURTS

Our community's concerns about addressing child abuse, neglect and domestic violence in a timely manner have prompted your Committee to support the establishment of two new judgeships in the Family Courts.

In the First Circuit, an additional circuit-level judge and support staff is provided in the second year of the biennium to intensify Family Court case resolution, to ensure the safety and welfare of family members victimized by family violence, and to allow greater emphasis on preventing instances of family violence.

An additional District Family Court judge and support staff for the Third Circuit in Hilo is also provided. The backlog of domestic violence cases in the Third Circuit Family Court is near crisis levels with a 1,800 case backlog or four months of cases waiting to be heard. This additional judgeship will help ensure timely resolution of these cases and enable the court to implement a one-judge, one-family approach for child abuse and neglect cases as recommended by the Department of Human Services, Department of the Attorney General and the National Center for State Courts.

ATTORNEY AND GUARDIAN AD LITEM FEES FOR FAMILY COURT IN THE SECOND AND THIRD CIRCUITS

State law mandates that the Courts appoint a Guardian Ad Litem for children and legal counsel for parents involved in child protection cases. Due to an increase in caseload, additional services are required for both the Second and Third Circuits. Accordingly, your Committee provides \$161,000 in both years of the biennium for the Third Circuit.

CAPITAL IMPROVEMENT PROJECTS

Your Committee provides \$33,870,000 for capital improvement projects to the Judiciary which includes the sum of \$30,795,000 for the development of the new Kauai judiciary complex. Other projects include the following:

- (1) \$225,000 for Ho'okele Court Navigation Project, statewide;
- (2) \$500,000 for remodeling and upgrading Judiciary buildings, statewide; and
- (3) \$1,350,000 for Architectural barrier removal for Judiciary buildings, statewide.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1450, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1450, H.D. 1, S.D. 2, C.D. 1.

Senators Levin, Fukunaga, Chumbley, Buen, Chun Oakland, Ige, D., Ige, M., Kawamoto, Anderson.
Managers on the part of the Senate.

Senators Matsunaga, Chun, Iwase, Nakata, Tam and Taniguchi did not sign the report.

Representatives Takamine, Ahu Isa, Goodenow, Kahikina, Kawakami, Luke, Nakasone, Saiki, Schatz, Suzuki, Yamane, Fox, Marumoto, Meyer, Moses.
Managers on the part of the House.

Representatives Catalani and Kanoho did not sign the report.

The purpose of this bill is to provide the necessary appropriations and authorizations for the operation of Office of Hawaiian Affairs (OHA), for the fiscal biennium 1999-2001.

In view of the fiscal constraints facing the State, your Committee found it necessary to reduce the request submitted by the Office of Hawaiian Affairs. Accordingly, your Committee has amended this bill by providing \$6,599,046 in fiscal year 1999-2000 and \$6,536,529 in fiscal year 2000-2001 for OHA to operate in each fiscal year of the biennium. Your Committee highlights \$62,517 in fiscal year 1999-2000 to fund the Comprehensive Hawaiian Master Plan. The plan is intended to incorporate the ideas and goals of Hawaiian organizations, identify service areas in the community, reduce duplicated services and implement accountability measures for short and long term goals.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 700, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 700, H.D. 1, S.D. 2, C.D. 1.

Senators Levin, Fukunaga, Hanabusa, Buen, Chun, Chun Oakland, Ige, D., Ige, M., Kawamoto, Tam, Anderson.
Managers on the part of the Senate.

Senators Iwase, Nakata and Taniguchi did not sign the report.

Representatives Takamine, Ahu Isa, Goodenow, Kahikina, Luke, Nakasone, Saiki, Schatz, Suzuki, Yamane, Marumoto.
Managers on the part of the House.

Representatives Catalani, Kanoho, Kawakami, Fox, Meyer and Moses did not sign the report.

Conf. Com. Rep. No. 143 on H.B. No. 86

The purpose of this bill is to authorize the issuance of general obligation bonds and to declare findings that the total amount of principal and interest, estimated for such bonds authorized but unissued and calculated for all bonds issued and outstanding, will not cause the debt limit to be exceeded at the time of issuance.

Article VII, section 13, of the Constitution of the State of Hawaii, requires the legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee has amended this bill by:

- (1) Inserting the appropriate amounts provided by the Department of Budget and Finance; and
- (2) Making technical, nonsubstantive revisions for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 86, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 86, S.D. 1, C.D. 1.

Senators Fukunaga, Levin, Buen, Chun, Chun Oakland, Ige, D., Ige, M., Anderson.
Managers on the part of the Senate.

Senators Iwase, Kawamoto, Nakata, Tam and Taniguchi did not sign the report.

Representatives Takamine, Kawakami, Nakasone.
Managers on the part of the House.

Representative Marumoto did not sign the report.

Conf. Com. Rep. No. 144 on H.B. No. 333

The purpose of this bill is to appropriate funds for research and development of various agricultural commodities.

Your Committee has amended this bill by:

- (1) Making the appropriation apply only to agricultural research and development to be performed by the Hawaii Agriculture Research Center (HARC) and to only the 1999-2000 fiscal year;
- (2) Inserting the appropriation sum of \$700,000 for fiscal year 1999-2000 for HARC; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 333, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 333, H.D. 2, S.D. 1, C.D. 1.

Senators Inouye, Levin, Ige, M., Slom.
Managers on the part of the Senate.

Representatives Abinsay, Takamine, Saiki, Suzuki, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 145 on H.B. No. 336

The purpose of this bill is to protect the State from the importation of microorganisms, which could pose a threat to agriculture, horticulture, animals or the public by establishing a list of:

- (1) Microorganisms approved for importation;
- (2) Restricted microorganisms that may be imported only by permit; and
- (3) Microorganisms prohibited entry that can only be imported for medical or scientific research and under strict conditions.

After careful consideration, your Committee on Conference has amended the measure by:

- (1) Adding a new part in place of the new section delineating the requirements for listing and permitting importation of prohibited microorganisms under specific and limited circumstances. The new part also establishes the Microorganism Import Certification Revolving Fund and limits its maximum balance, uses, and funding sources;
- (2) Appropriating \$0 from the general revenues for each year of the fiscal biennium 1999-2001 for the development, administration, and operation of the microorganism Import Certification Program;
- (3) Appropriating \$100,000 from the Microorganism Import Certification Revolving Fund for each year of the fiscal biennium 1999-2001 for the development, administration, and operation of the Microorganism Import Certification Program; and
- (4) Changing the effective date to July 1, 1999.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 336, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 336, H.D. 1, S.D. 1, C.D. 1.

Senators Inouye, Levin, Buen, Ige, D., Slom.
Managers on the part of the Senate.

Representatives Abinsay, Saiki, Morihara, Suzuki, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 146 on H.B. No. 978

The purpose of this bill is to encourage private lenders to provide financing for diversified agriculture by authorizing the Department of Agriculture to guarantee loans made to qualified farmers and cooperatives.

Your Committee on Conference has amended this bill to include the requirements of Section 155-13, Hawaii Revised Statutes, among the limitations on the guaranteed loans.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 978, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 978, S.D. 1, C.D. 1.

Senators Inouye, Fukunaga, Buen, Slom.
Managers on the part of the Senate.

Representatives Abinsay, Takamine, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 147 on H.B. No. 1280

The purpose of this bill is to support the continued redevelopment of the State's agricultural industry by:

- (1) Changing the composition of the Board of the Agribusiness Development Corporation (ADC Board) to include persons with expertise in banking, real estate, and promotion, and provide more flexibility with regard to county representation on the ADC Board;
- (2) Appropriating funds for:
 - (a) Four positions and other operating expenses relating to the ADC; and

- (b) The planning, design, and construction of an agricultural subdivision in the Hamakua district of the island of Hawaii;
- (3) Requiring ADC to allot financial and human resources to plan, design, and construct an agricultural subdivision in the Hamakua district; and
- (4) Requiring the ADC Board to submit annual reports to the Legislature with regard to:
 - (a) Development of the Hamakua agricultural subdivision;
 - (b) Technical support to small, start-up farming operations;
 - (c) Farm credit from public and private sources;
 - (d) New, start-up farming operations;
 - (e) Tax incentives and their effects on diversified agricultural operations; and
 - (f) Transport and distribution programs.

Your Committee on Conference has amended this bill by deleting all provisions in the bill except for:

- (1) Retaining the provision that changes the composition of the ADC Board to include persons with expertise in banking, real estate, and promotion, and provide more flexibility with regard to county representation on the ADC Board; and
- (2) Adding provisions that:
 - (a) Enable ADC to develop, promote, assist, and market export crops and other crops for local markets without the approval of the Board of Agriculture (BOA);
 - (b) Specify that members of the ADC Board consist of the members of the BOA, effective July 1, 2001; and
 - (c) Appropriate the sum of \$400,000 for fiscal year 1999-2000 for the expenses incurred in the performance of the duties of the ADC Board.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1280, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1280, H.D. 2, S.D. 2, C.D. 1.

Senators Inouye, Levin, Buen, Taniguchi, Slom.
Managers on the part of the Senate.

Representatives Abinsay, Takamine, Chang, Saiki, Halford.
Managers on the part of the House.

Conf. Com. Rep. No. 148 on H.B. No. 20

The purpose of this bill is to:

- (1) Amend the service retirement laws to correlate years on the bench with retirement benefits; and
- (2) Increase judicial salaries over a two-year period.

Your Committee on Conference has amended this bill by:

- (1) Deleting language in the purpose clause of the measure that compares judges compensation with private sector attorneys;
- (2) Increasing judicial salaries by 13 per cent over a two-year period;
- (3) Appropriating \$4,121,073 to fund the salary increases for fiscal year 1999-2000 and \$2,121,413 for fiscal year 2000-2001; and
- (4) Making technical, nonsubstantive amendments for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 20, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 20, H.D. 2, S.D. 2, C.D. 1.

Senators Chumbley, Matsunaga, Taniguchi, Fukunaga, Levin, Ihara, Anderson.
Managers on the part of the Senate.

Representatives Oshiro, P., Takamine, Lee, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 149 on H.B. No. 1095

The purpose of this bill is to restart the four-year cycle for the process to review the salaries for the trustees of the Office of Hawaiian Affairs.

Your Committee finds that Act 358, Session Laws of Hawaii 1993, originally set forth a scheme in which a salary commission for the trustees would be appointed by the Governor by November 30, 1996, and every four years thereafter. The commission would then submit recommendations regarding salary increases during the next regular session of the Legislature. Unfortunately, the salary commission was never appointed.

Your Committee has amended this bill by:

- (1) Inserting a new date for the deadline to appoint the salary commission; and
- (2) Requiring a report to be made to the Legislature by the twentieth day of the regular session of 2000 and every four years thereafter.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1095, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1095, H.D. 1, S.D. 2, C.D. 1.

Senators Hanabusa, Levin, Chun, Kanno, Anderson.
Managers on the part of the Senate.

Senators Nakata and Tanaka did not sign the report.

Representatives Oshiro, P., Kanohe, Hamakawa, Kahikina, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 150 on H.B. No. 1111

The purpose of this bill is to provide protection for persons who make commercially reasonable efforts to find solutions for potential year 2000 errors in computer systems and to set standards and provide guidance as to what steps must be undertaken as part of commercially reasonable efforts.

Your Committee on Conference has amended this bill by:

- (1) Adding non-economic damages under the blanket protections;
- (2) Deleted the two year limitations on actions;
- (3) Clarifying that upon a finding that the respondent failed to engage in commercially reasonable efforts, the respondent is liable for all economic damages directly caused by the year 2000 error;
- (4) Adding the requirement that a credit reporting agency or a creditor not report negative credit information about a consumer if the credit reporting agency or creditor knew or should have known that the consumer was unable to meet financial obligations due to a year 2000 error;
- (5) Clarifying that the manufacturer or contractor who provided or serviced a government computer system or the computer software used by the system is liable to persons harmed by year 2000 errors to the same extent the person would be liable had this measure not existed;
- (6) Adds definitions for the terms "contractor" and "manufacturer of a government computer system or the computer software";
- (7) Clarifies that the chapter does not apply to any claim for physical injury or death;
- (8) Changing the effective date to be effective upon approval; and
- (9) Making technical, nonsubstantive amendments for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1111, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1111, H.D. 2, S.D. 2, C.D. 1.

Senators Ige, D., Taniguchi, Chumbley, Matsunaga.
Managers on the part of the Senate.

Senator Kanno and Sakamoto did not sign the report.

Representatives Hamakawa, Nakasone, Catalani, Marumoto.
Managers on the part of the House.

Conf. Com. Rep. No. 151 on S.B. No. 953

The purpose of this measure is to establish a stewardship and partnering program within the office of environmental quality in order to improve the protection of natural and cultural resources.

Your Committee on Conference believes that this landmark measure creates the mechanism within state government for a creative and innovative program. The Stewardship and Partnering Program addresses the need to downsize government by encouraging the development of public and private partnerships to preserve Hawaii's natural and cultural resources.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that any hiring by the administrator be approved by the council;
- (2) Changing the reference from "state resources" to "public resources";
- (3) Adding a definition of "natural and cultural resources";
- (4) Deleting the protocol fund provisions within the environmental special fund;
- (5) Adding a section to the new chapter to set out the conditions for acquisition of real property;
- (6) Exempting the program from grants and subsidies law;
- (7) Deleting the provision directing the council to adopt rules regarding the projects, operations, properties, and facilities of the program;
- (8) Amending Session Laws 1997 and 1998 to retain amendments to certain fund exemptions when those funds are reenacted;
- (9) Removing the appropriation section; and
- (10) Making technical amendments to conform to preferred drafting style.

Recognizing that current economic conditions preclude the immediate ability of the State to directly fund this program, your Committee on Conference has deleted the provisions that appropriate funds from the general revenues of the State to the Environmental Special Fund. However, it is the intent of your Committee on Conference that this shall not in any way adversely impact the program's implementation with contributions to the Environmental Special Fund from private sources.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 953, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 953, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 153 on S.B. No. 102

The purpose of this measure is to require the Department of Health to develop a statewide rural health plan and to establish a wireless enhanced 911 advisory board and fund.

Your Committee on Conference has amended this measure by:

- (1) Deleting references to an enhanced 911 system; and
- (2) Adding a provision relating to payment methodology for QUEST.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 102, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 102, S.D. 3, H.D. 2, C.D. 1.

Senators Chun Oakland, Fukunaga, Levin, Chun, Ige, D., Kawamoto, Anderson.
Managers on the part of the Senate.

Representatives Santiago, Menor, Kawakami, Souki, Halford.
Managers on the part of the House.

Conf. Com. Rep. No. 154 on S.B. No. 513

The purpose of this measure is to establish guidelines for the establishment of family childcare homes in apartments, condominiums, and townhouses, to provide immunity from liability for townhouse associations that have properly established family child care homes, and to clarify zoning, land court registration, and real property covenant laws to allow for properly established family childcare homes.

Your Committee on Conference has amended this measure by:

- (1) Revising the definitions, as follows:
 - (A) Adding a definition of "Apartment";
 - (B) Clarifying the definition of "Association";
 - (C) Clarifying the definition of "Common elements";
 - (D) Clarifying the definition of "Family child care home" as a private residence, including an apartment, unit, or townhouse, where care may be provided for three to no more than six children, who are unrelated to the caregiver by blood, marriage, or adoption at any given time;
 - (E) Adding a definition of "Planned community"; and
 - (F) Clarifying the definition of "Townhouse";
- (2) Requiring that the family child care home operate on the ground floor unit with a ground floor entry;
- (3) Clarifying the requirements for giving notice;
- (4) Allowing an association to authorize a family child care home in an apartment;
- (5) Clarifying the conditions that an association may impose;
- (6) Clarifying the provisions relating to immunity from liability for the association; and
- (7) Making conforming amendments to provisions relating to zoning, land court registration, real property covenant laws, and licensing of family child care homes.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 513, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 513, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 156 on S.B. No. 1034

The purpose of this measure is to establish a Hawaii tobacco settlement special fund.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the definition of "Fund";
- (2) Adding a definition of "Tobacco settlement moneys";
- (3) Specifying percentage allocations of tobacco settlement moneys, as follows:
 - (A) Forty per cent to the emergency and budget reserve fund;
 - (B) Thirty-five per cent to the department of health for health related programs, including the children's health insurance program; and
 - (C) Twenty-five per cent to the Hawaii tobacco prevention and control trust fund;
- (4) Deleting references to a report by the Director of Finance on the condition of the emergency and budget reserve fund;
- (5) Creating a tobacco prevention and control advisory board;
- (6) Requiring the Director of Health to convene an advisory body for strategic planning and development of health related programs;
- (7) Exempting the Hawaii tobacco settlement special trust fund and emergency budget reserve fund from assessments for central services and administrative expenses; and
- (8) Making appropriation for dollar amounts to effectuate the allocation and transfer of moneys.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1034, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1034, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 158 on S.B. No. 844

The purpose of this measure is to establish the Hawaii equal insurance task force to study the financial and social implications of mandated equal mental health and substance abuse insurance coverage in Hawaii.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Adding a definition of "Serious mental illness";
- (2) Clarifying that the provision relating to covered benefits shall not be construed to limit serious mental illness benefits;
- (3) Prohibiting a health insurance plan from imposing rates, terms, and conditions if measures are not applied for other medical or surgical conditions, and providing for exemptions
- (4) Revising the membership of the task force;
- (5) Clarifying the duties of the task force; and
- (6) Changing the time the task force is to report from the 2000 Session to the 2001 Session.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 844, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 844, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 159 on S.B. No. 830

The purpose of this measure is to require health insurers, mutual benefit societies, and health maintenance organizations to reimburse providers and patients within a specified time period.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the findings paragraph in section 1;
- (2) Adding dental service corporations under chapter 423, Hawaii Revised Statutes, to the providers covered by this measure;
- (3) Specifying that unless shorter payment timeframes are otherwise specified in a contract the entity must reimburse an uncontested claim within thirty calendar days of receiving the claim;
- (4) Specifying that the entity notifies the healthcare provider in writing or electronically if a claim is contested or denied;
- (5) Adding the provision that any interest accrued on delayed claims is added to the amount of the unpaid claim;
- (6) Deleting language that authorizes the Insurance Commissioner to suspend the accrual of interest on untimely claims payments if the failure to pay a claim was necessary to protect the solvency of the insurer;
- (7) Making the effective date July 1, 2000, and repealing the measure on July 1, 2002; and
- (8) Making technical, nonsubstantive changes for the purpose of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 830, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 830, S.D. 1, H.D. 2, C.D. 1.

Senators Taniguchi, Kanno, Bunda, Ihara.

Managers on the part of the Senate.

Representatives Lee, Nakasone, Garcia, Suzuki, Whalen.
Managers on the part of the House.

Conf. Com. Rep. No. 160 on S.B. No. 1082

The purpose of this measure is to provide for more efficient operations by the Bureau of Conveyances (Bureau) by:

- (1) Replacing the Bureau of Conveyances Equipment Modernization Special Fund with the Bureau of Conveyances Special Fund (Bureau Special Fund);
- (2) Authorizing the Bureau to change the fees charged for microfilm duplication;
- (3) Providing for the deposit of a portion of recordation fees received at the Bureau into the general fund;
- (4) Providing for the deposit of the remainder of recordation fees and other fees received at the Bureau into the Bureau Special Fund;
- (5) Directing the Bureau to pay for equipment, software, administrative costs, personnel, and improvements necessary for modernization of the recording system out of the Bureau Special Fund; and
- (6) Making an appropriation out of the Bureau Special Fund to be expended by the Department of Land and Natural Resources for the purposes of the Bureau Special Fund.

Upon further consideration, your Committee on Conference has amended the measure by requiring that the Bureau expend the funds in the newly created Bureau Special Fund for the purposes as specified in this measure.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1082, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1082, S.D. 2, H.D. 2, C.D. 1.

Senators Hanabusa, Fukunaga, Levin, Kanno, Kawamoto, Taniguchi, Anderson.
Managers on the part of the Senate.

Representatives Cachola, Takamine, Garcia, Kanoho, Kawakami, Moses.
Managers on the part of the House.

Conf. Com. Rep. No. 161 on S.B. No. 1127

The purpose of this measure is to assess the health insurance industry for the costs incurred by the State in regulation of the industry by establishing a health insurance revolving fund.

Your Committee on Conference recognizes that an insurance regulation fund consolidating most of the Insurance Division's ("Division") special and revolving funds is being established in S.B. No. 1129, S.D. 1, H.D. 3, which will allow the Division to attain self-sufficiency, primarily through assessments and collection of fees.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Deleting the provisions relating to the health insurance revolving fund, since the insurance regulation fund is being established as stated above;
- (2) Providing a means of assessing most of the health care industry for the costs of regulating the industry, whereby the plans are assessed on a pro rata basis;
- (3) Establishing an assessment schedule where:
 - (A) For the fiscal biennium 2000-2002, a flat rate of \$10,000 for the first 70,000 private, nongovernment members and an additional assessment on a pro rata basis for any membership over 70,000; and
 - (B) For each year thereafter, on a pro rata basis;
- (4) Establishing a ceiling of \$1 million on the annual assessment;
- (5) Allowing the insurance commissioner ("commissioner") to suspend any assessment if the commissioner determines that the assessment may cause an entity to reach insolvency or other financial difficulty; and
- (6) Referencing the insurance regulation fund, rather than the health insurance revolving fund, to reflect the above.

Your Committee on Conference has provided the Insurance Division with a \$1 million ceiling to cover the actual costs of regulation and other general administrative duties. It is your Committee's intent that if the Insurance Division does not use the entire amount in any given year, the remainder shall be used to reduce the following year's assessment to reach the \$1 million ceiling.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1127, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1127, S.D. 1, H.D. 3, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Levin, Anderson.
Managers on the part of the Senate.

Senator Matsuura did not sign the report.

Representatives Santiago, Menor, Takamine, Chang, Moses.
Managers on the part of the House.

Conf. Com. Rep. No. 162 on S.B. No. 1144

The purpose of this measure is to provide that an unspecified portion of the franchise tax revenues shall be dedicated to the Financial Institution Examiners' Revolving Fund.

Upon careful consideration, your Committee on Conference has amended this measure to provide that:

- (1) The sum of \$2,500,000 shall be dedicated from the franchise tax revenues by June 30 of each fiscal year to the credit of the Compliance Resolution Fund; and
- (2) This measure shall become effective upon its approval.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1144, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1144, S.D. 1, H.D. 2, C.D. 1.

Senators Kanno, Taniguchi, Levin, Bunda, Nakata.
Managers on the part of the Senate.

Representatives Menor, Takamine, Herkes, Kawakami, Thielen.

Conf. Com. Rep. No. 163 on S.B. No. 1279

The purpose of this measure is to ensure the viability of universal telecommunications service in the State by precluding the use of moneys in the Universal Service Fund for purposes other than those related to the provision of universal telecommunications service. Specifically, the measure:

- (1) Establishes the Universal Service Fund as a special fund outside of the State treasury;
- (2) Exempts the Universal Service Fund from general fund assessments and administrative surcharges;
- (3) Authorizes a temporary loan from the Public Utilities Commission Special Fund to the Universal Service Fund; and
- (4) Appropriates \$800,000 out of the Universal Service Fund to fund the Universal Service Program.

Upon careful consideration, your Committee on Conference has amended this measure by:

- (1) Clarifying that the \$800,000 appropriation is for the Public Utilities Commission to carry out the purposes of the universal service program; and
- (2) Providing that the Universal Service Fund shall repay moneys borrowed from the Public Utilities Commission Special Fund when sufficient funds have been collected in the Universal Service Fund.

Your Committee on Conference is in accord with the intent and purpose of S.B. No. 1279, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1279, S.D. 2, H.D. 2, C.D. 1.

Senators Taniguchi, Kanno, Fukunaga, Anderson.
Managers on the part of the Senate.

Representatives Herkes, Menor, Luke, Chang, Rath.
Managers on the part of the House.

Conf. Com. Rep. No. 164 on H.B. No. 162

The purpose of this measure is to enhance public service by agencies of the legislative branch by clarifying the scope of legislative powers and improving the functioning of legislative agencies.

Specifically, the measure:

- (1) Clarifies subpoena powers of state and county legislative bodies by removing obsolete references to the loyalty oath that was a part of the repealed Chapter 85, Hawaii Revised Statutes;
- (2) Provides funds to the public access room to increase its capability to provide public access, education, and support to citizens;
- (3) Funds a legislative media streaming pilot project to allow public access to legislative hearings on the Internet;
- (4) Transfers responsibility for statutory publications from the Lieutenant Governor to the Legislature to increase public access to these publications;
- (5) Funds replacement of the antiquated computer system of the Office of the Ombudsman to better service citizen complaints;
- (6) Provides initial funding for the Office of the Legislative Analyst to begin conducting a review and analysis of state economic conditions and fiscal matters; and
- (7) Providing funds to the Legislative Reference Bureau to study the feasibility of establishing and fostering a biotechnology and high technology industry in Hawaii.

Upon further consideration, your Committee on Conference has amended the measure by:

- (1) Deleting the section that appropriates funds to move the Public Access Room;
- (2) Deleting the section that appropriates funds for the Legislative Reference Bureau to conduct a biotechnology feasibility study;
- (3) Clarifying that the Legislature has sole jurisdiction over all publications of the Hawaii Revised Statutes;
- (4) Adding provisions to ensure the smooth and efficient transition of control of legislative publications from the Office of the Lieutenant Governor to the Legislature; and
- (5) Appropriating specific amounts to fund the projects contained in the measure.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 162, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 162, H.D. 1, S.D. 2, C.D. 1.

Senators Chumbley, Fukunaga, Ige, D., Ihara, Anderson.
Managers on the part of the Senate.

Representatives Kanoho, Hamakawa, Ahu Isa, Halford.
Managers on the part of the House.

Representative Takamine did not sign the report.

Conf. Com. Rep. No. 165 on H.B. No. 1454

The purpose of this bill, as received by your Committee, is to clarify that a single, uniform fee of \$100 is to be applied to all probate actions involving a decedent's estate. Additionally, this bill increases the fee for civil district court filings from \$75 to \$100, and adds new fees to be assessed for administrative costs associated with processing of traffic offense citations.

Your Committee finds that the provisions of this bill will provide for the just administration of decedent's estates.

Your Committee further finds that the provisions of this bill will ensure that the costs of certain government operations will be borne by the users of services arising out of those operations. Your Committee finds that the provisions of this bill will generate additional revenue to fund needed judiciary services. Your Committee finds that it is not the intent of the legislature to have persons pay processing fees for traffic offense citations, when they are determined "not guilty" of those offenses.

Your Committee has amended this bill by:

- (1) Deleting the purpose section;

- (2) Adding language allowing an exception to the increased District Court civil filing fee, for temporary restraining order petitions filed under Section 604-10.5, Hawaii Revised Statutes;
- (3) Amending the proposed language regarding processing fees for traffic citations to clarify that those fees will not be assessed where an individual is determined "not guilty" of an offense for which they were cited, and to clarify that even traffic citations which do not require or result in arrest, are included in the types of citations for which processing fees will be assessed;
- (4) Adding a provision giving judges discretion to recover the actual cost of issuing a bench warrant by assessing a \$50 fine upon the person for whom the warrant is issued; and
- (5) Making technical, nonsubstantive amendments for the purpose of clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1454, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1454, H.D. 2, S.D. 2, C.D. 1.

Senators Chumbley, Matsunaga, Fukunaga, Levin, Anderson.
Managers on the part of the Senate.

Senator Ihara did not sign the report.

Representatives Hamakawa, Yamane, Hiraki, Auwae.
Managers on the part of the House.

Conf. Com. Rep. No. 166 on H.B. No. 1138

The purpose of this bill is to:

- (1) Allow the Department of Health (DOH) to update its ability to investigate significant causes of illness which threaten the public health and safety; and
- (2) Appropriate funds to DOH to conduct soil testing for Village Park and West Loch Fairways as a part of an epidemiologic investigation to determine if physical and learning disabilities of children are caused by the soil.

Your Committee on Conference has amended this measure by:

- (1) Appropriating \$220,000 for DOH to conduct a response action, which shall include soil testing at Village Park and West Loch Fairways; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1138, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1138, H.D. 1, S.D. 2, C.D. 1.

Senators Chun Oakland, Chumbley, Matsunaga, Levin, Kanno.

Conf. Com. Rep. No. 167 on H.B. No. 1146

The purpose of this bill is to:

- (1) Repeal the sunset date of Act 216, Session Laws of Hawaii 1997;
- (2) Increase from \$1 to \$3 the fee amount to be deposited into the Vital Statistics Improvement Special Fund (Special Fund);
- (3) Increase from \$4 to \$6 additional copies of certified birth, marriage, divorce, or death certificates; and
- (4) Require that copies of certificates be provided by the Department of Health free of charge to native Hawaiians, if provided directly to the Department of Hawaiian Home Lands or the Office of Hawaiian Affairs in connection with a claim or an entitlement.

Your Committee on Conference has amended this measure by:

- (1) Deleting fee increases into the Special Fund and for additional copies of certificates; and

- (2) Deleting the requirement that copies of certificates be provided free of charge to native Hawaiians if the certificates are to be used in connection with a claim or an entitlement.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1146, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1146, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 168 on H.B. No. 170

The purpose of this bill is to create a state income tax credit for long-term care insurance premiums.

Your Committee on Conference has agreed to the language in the H.D. 2 version of this bill and has amended this bill accordingly by:

- (1) Including a legislative findings and purpose section;
- (2) Including a provision to further conform the Hawaii income tax law to the federal income tax law which will allow taxpayers to deduct the cost of unreimbursed long-term care services and long-term care insurance premiums subject to the current floor of 7.5% of adjusted gross income; and
- (3) Deleting the tax credit for long-term care insurance premiums.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 170, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 170, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 169 on H.B. No. 172

The purpose of this bill is to increase the availability of quality hospice care services by:

- (1) Requiring health insurers to cover hospice care services;
- (2) Allowing hospice homes in areas zoned for residential use; and
- (3) Authorizing the Department of Health to license and regulate hospice service agencies.

Your Committee on Conference has amended this bill by:

- (1) Requiring health insurers to reimburse costs of hospice room and board, as well as referral visits, rather than establishing a certain amount for reimbursement of room and board expenses;
- (2) Changing the content requirements and timing of the notice of hospice care coverage required to be sent by health insurers to their members and policyholders;
- (3) Moving the new definition of "hospice home" to section 321-15.1, Hawaii Revised Statutes; and
- (4) Making nonsubstantive, technical revisions for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 172, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 172, H.D. 1, S.D. 2, C.D. 1.

Senators Chun Oakland, Fukunaga, Anderson.
Managers on the part of the Senate.

Conf. Com. Rep. No. 170 on H.B. No. 260

The purpose of this bill is to ensure that all of Hawaii's children will be safe, healthy, and ready to succeed in school by improving the affordability, accessibility, quality, and coordination of early childhood services.

With the passage of time, issues evolve, approaches to addressing issues are revised, and terminology changes. As education for young children has become more important, what was once known as "child care" is now commonly known as "early childhood education and care." However, state statutes and departmental rules may continue to use the obsolete term.

Your Committee on Conference urges the Department of Human Services (DHS) to review the Hawaii Revised Statutes (HRS) and its administrative rules during the legislative interim to identify inappropriate references to "child care." DHS is subsequently urged to change these references in its administrative rules to "early childhood education and care"; provided the changes do not jeopardize federal funding. In addition, DHS is requested to recommend prior to the 2000 Regular Session the necessary amendments to HRS in bill form to update the terminology.

Your Committee on Conference has amended this measure by deleting all appropriations provisions and inserting a means for early childhood screening when a child reaches the age of three.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 260, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 260, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 171 on H.B. No. 274

The purpose of this bill is to improve Hawaii's child protective system by:

- (1) Mandating training for foster parents of licensed foster homes and guardians ad litem;
- (2) Providing for protective custody of a child without a court order;
- (3) Requiring reporting of child abuse and neglect to police and the prosecuting attorney;
- (4) Establishing new provisions for permanent place hearings for children residing outside the family home for extended periods of time;
- (5) Establishing a medical case management procedure for medical oversight of children in the child protective services system; and
- (6) Appropriating funds for fiscal year 1999-2000 and fiscal year 2000-2001 for foster parent training.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that the Department of Human Services (DHS) develop a medical and health case management procedure of managing medical and health needs of children in the foster care system;
- (2) Requiring DHS to establish a procedure governing the timely enrollment of foster children into an appropriate health insurance program;
- (3) Requiring that new special licensed or relative foster home care providers complete foster parent training within the first year following placement of the first child into the new special licensed or relative foster home;
- (4) Removing the requirement that DHS inform the Office of the Prosecuting Attorney of all child abuse and neglect reports received by DHS;
- (5) Providing that the name of the person who reports a case of child abuse may be released to the police department or the Office of the Prosecuting Attorney with the person's consent;
- (6) Deleting the requirement that all guardians ad litem successfully complete training;

- (7) Deleting additional provisions relating to proceedings for permanent plan hearings for children residing outside the family home for extended periods of time;
- (8) Deleting appropriations for fiscal year 1999-2000 and fiscal year 2000-2001 for foster parent training; and
- (9) Making technical, nonsubstantive revisions for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 274, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 274, H.D. 3, S.D. 2, C.D. 1.

The purpose of this bill is to increase the supply of organs for transplant recipients by expanding educational efforts on organ donation and improving organ referrals between hospitals and the local organ procurement organization.

Your Committee on Conference has amended this bill by:

- (1) Setting out a legislative finding that a grant to the Organ Donor Center of Hawaii is for a public purpose;
- (2) Authorizing counties to retain up to \$0.20 of each donated \$1 to pay for administrative costs related to collecting the fee;
- (3) Postponing the effective date of the sections relating to voluntary donations collected by the county departments of motor vehicle licensing and deposited in the Hawaii Organ and Tissue Education Fund to allow the counties sufficient time to prepare new forms and processes to administer the program; and
- (4) Inserting an appropriation in the amount of \$250,000 for fiscal year 2000-2001 as a grant to the Organ Donor Center of Hawaii for the purposes set forth in the bill.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 547, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 547, H.D. 3, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 175 on H.B. No. 1663

The purpose of this bill, as received, is to:

- (1) Conduct soil testing for Village Park and West Loch Fairways to determine whether the soil is a cause of illnesses and the physical and learning disabilities of children and families living in these areas;
- (2) Require the Director of Health to adopt rules to establish an administrative process allowing the involuntary medication of psychiatric patients institutionalized at in-patient psychiatric facilities or the Hawaii State Hospital (HSH) to alleviate mental illness and restore competency while protecting the rights of patients; and
- (3) Require insurers, mutual benefit societies, and health maintenance organizations to pay an indemnity or reimbursement directly to the rural health care facility that provided services, regardless of the facility's participatory status with the insurer's, mutual benefit society's, or health maintenance organization's plan.

Since 1991, the State has been under the jurisdiction of the U.S. District Court to address a number of complex problems with HSH. These problems include clinical, operational, and managerial functions that involve both the hospital staff and administration. More recently, in January of 1999, the State was given a final deadline to improve problem areas at HSH.

By December 20, 1999, the State must show full compliance with a federal court order to comply with federal law relating to people with serious mental illnesses. Your Committee on Conference finds that if this deadline is not met, severe sanctions will be imposed by the federal court, which may include the potential appointment of a special federal master to administer HSH and the State's entire mental health system or fines of up to \$50,000 per day.

The appointment of a federal master will result in the State relinquishing all authority over HSH and the community mental health system. As such, the federal master would have unrestrained authority to require expenditure of State moneys without State input or control.

Your Committee on Conference finds that these recent developments at HSH have forced the Legislature to adopt a completely different approach to the treatment of the seriously mentally ill in Hawaii. Based on the foregoing, your Committee on Conference has amended this bill by deleting its substance and inserting provisions providing for the transition of HSH to a secure psychiatric rehabilitation facility. As amended, the purpose of this bill is to:

- (1) Transition HSH to a secure psychiatric rehabilitation facility for individuals who require intensive therapeutic treatment and rehabilitation, including appropriate acute care services;
- (2) Authorize the Director of Health to privatize functions currently performed at HSH as appropriate to the clinical needs of the population served in the least restrictive setting; and
- (3) Authorize the Department of Health to provide for comprehensive community-based programs and services for individuals discharged from HSH in accordance with this measure or individuals who might otherwise have been admitted to HSH. These programs, services, and individuals shall be reviewed and monitored by the Department of Health.

If the Director of Health decides to privatize the functions currently performed at HSH as authorized by this measure, it is the intent of your Committee that the Director of Health shall comply with the provisions of Act 230, Session Laws of Hawaii 1998.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1663, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1663, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 176 on H.B. No. 1664

The purpose of this bill, as received by your Committee on Conference, is to strengthen the Hawaii Patient Bill of Rights and Responsibilities Act by implementing the recommendations of the patient rights and responsibilities task force.

After much discussion, your Committee on Conference has deleted the substance of H.B. No. 1664, H.D. 3, S.D. 1, and replaced it with provisions that establish two new special funds.

As amended, this bill:

- (1) Establishes within the Department of Health (DOH) a Hospital and Medical Facilities Special Fund (HMFS Fund) to offset program expenses of DOH's hospital and medical facilities branch;
- (2) Establishes within the State Treasury a State Health Planning and Development Special Fund to offset program expenses of the State Health Planning and Development Agency (SHPDA);
- (3) Amends section 321-11.5, Hawaii Revised Statutes, to require fees paid and collected from facilities seeking licensure or certification by the DOH to be deposited into the HMFS Fund.

Upon further discussion with SHPDA, the State Health Planning and Development Special Fund is expected to receive approximately \$30,000 annually.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1664, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1664, H.D. 3, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 177 on H.B. No. 1675

The purpose of this measure is to extend the time to process individual Hawaiian home lands trust claims and provide funding to compensate claimants who received favorable judgments from the Hawaiian Home Lands Trust Individual Claims Review Panel.

Specifically, the measure:

- (1) Extends the Hawaiian Home Lands Trust Individual Claims Review Panel and the process to resolve individual claims of breaches of the Hawaiian Home Lands Trust for two more years to the year 2001;
- (2) Adds language that establishes a special account in the Hawaiian Home Lands Trust Fund for the purpose of compensating successful claimants who were awarded a monetary judgment by the Hawaiian Home Lands Trust Individual Claims Review Panel under Chapter 674, Hawaii Revised Statutes;
- (3) Transfers the cash value credit (\$14,498,565) the State sought to obtain from the Department of Hawaiian Home Lands for lands conveyed by Act 95, Session Laws of Hawaii 1996, for settlement payments owed under Chapter 673, Hawaii Revised Statutes, to the special account in the Hawaiian Home Lands Trust Fund;

- (4) Authorizes the issuance of general obligation bonds in the amount of \$1,936,111, to cover the additional amount necessary to compensate successful claimants who were awarded a monetary judgment by the Hawaiian Home Lands Trust Individual Claims Review Panel under Chapter 674, Hawaii Revised Statutes;
- (5) Sunsets the special account on June 30, 2004; and
- (6) States that the awards authorized by the Hawaiian Home Lands Trust Individual Claims Review Panel in either their 1997 or 1999 report and settled under this measure shall not serve as a precedent for any other unresolved claims brought under Chapter 674, Hawaii Revised Statutes.

Your Committee on Conference finds that Chapter 674, Hawaii Revised Statutes, established a process to resolve individual claims of breaches of the Hawaiian Home Lands Trust. The process, as originally conceived, was supposed to be concluded by 1997. Due to complications and the sheer volume of claims to be filed, not all claims could be filed by the original closing date. To remedy these problems the Legislature enacted Act 382, Session Laws of Hawaii 1997, which in part, extended the claims resolution process until December 31, 1999, and required the Attorney General, the Director of Finance, the Chairperson of the Hawaiian Homes Commission, and the Chairperson of the Hawaiian Home Lands Trust Individual Claims Review Panel to convene and establish a revised formula by which to compensate claimants. In 1998, Circuit Court Judge Marie Milks opined that the composition of the group to determine a revised formula had the appearance of bias and, therefore, ruled that the group was unconstitutional, thereby further slowing down the claims resolution process.

Your Committee on Conference believes that justice must prevail for those beneficiaries who have faithfully and patiently waded through the complex claims resolution process only to be put off year after year. Unfortunately, with the recent Circuit Court ruling which has clouded the issue of the amount of compensation owed to claimants, your Committee on Conference believes that a further extension is necessary.

Your Committee on Conference additionally finds that since the enactment of Chapter 674, Hawaii Revised Statutes, the State has fallen on hard financial times. Although your Committee on Conference believes that the Legislature remains committed to resolving past breaches of trust with individual claimants, general revenues to fund such a compensation package are virtually nonexistent.

In order to find innovative alternatives to compensate successful claimants who have been awarded monetary judgments by the Hawaiian Home Lands Trust Individual Claims Review Panel established pursuant to section 674-3, Hawaii Revised Statutes, without adversely impacting on the State's general fund, your Committee has amended the measure by:

- (1) Extending the life of the Hawaiian Home Lands Trust Individual Claims Review Panel for one more year instead of two years;
- (2) Deleting sections 6 through 11 of the measure which provide specific methods of financing to provide compensation to claimants who received favorable judgments from the Hawaiian Home Lands Trust Individual Claims Review Panel;
- (3) Inserting provisions which establish a Hawaiian Home Lands Trust Individual Claims Compensation Commission to develop alternative solutions for compensating claimants; and
- (4) Requiring the Hawaiian Home Lands Trust Individual Claims Compensation Commission to report its recommendations to the Legislature prior to the regular session of 2000.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1675, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1675, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 180 on H.B. No. 1017

The purpose of this bill is to improve the quality and the availability of housing by:

- (1) Authorizing the issuance of short-term bonds for the repair and maintenance of State-owned public housing;
- (2) Increasing the ceiling of the total amount of bonds that may be issued for the Hula Mae single family mortgage purchase program from \$1,775,000,000 to an unspecified amount; and
- (3) Authorizing the issuance of general obligation bonds of an unspecified sum and appropriating that sum to the Rental Housing Trust Fund (RHTF).

Your Committee on Conference has amended the bill by:

- (1) Specifying the amount of \$2,275,000,000 as the new ceiling for the Hula Mae single family mortgage purchase program;
- (2) Removing the provision authorizing the issuance of short-term bonds for the repair and maintenance of State-owned housing;
- (3) Removing the provision authorizing the issuance of general obligation bonds of an unspecified sum and appropriating that sum to the Rental Housing Trust Fund; and
- (4) Making technical, nonsubstantive revisions for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1017, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1017, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 182 on H.B. No. 522

The purpose of this bill is to improve the school-to-work opportunities pilot project (Project) by:

- (1) Making the school-to-work opportunities executive council (Council) advisory in nature; and
- (2) Transferring management of the school-to-work opportunities staff to the Department of Education (DOE).

Your Committee on Conference has amended the bill by:

- (1) Retaining the governance authority of the Council;
- (2) Changing the process of selecting the executive director from an appointment by the Superintendent to a process by which the Superintendent nominates a candidate and the Council approves or disapproves;
- (3) Deleting the requirement for the DOE to provide staff services for the Council;
- (4) Deleting the requirement for Project staff to provide intermediary services for employers and educational institutions;
- (5) Requiring the Council and the Superintendent to develop a transition plan and to agree upon it by July 1, 1999;
- (6) Deleting the appropriation for the operations of the Project; and
- (7) Making technical, nonsubstantive revisions for style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 522, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 522, H.D. 3, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 184 on H.B. No. 765 (Majority)

The purpose of this bill is to:

- (1) Increase the rental motor vehicle surcharge tax from \$2 a day to an unspecified amount for the period of January 1, 2000, to December 31, 2001;

- (2) Exempt individuals renting a vehicle to replace a vehicle of the lessee that is being repaired from the rental motor vehicle surcharge tax for the period of January 1, 2000, to December 31, 2001;
- (3) Increase the tour vehicle surcharge tax to unspecified amounts;
- (4) Direct the Department of Taxation to deposit rental motor vehicle surcharge and tourist vehicle surcharge taxes to the credit of the state general fund in July 1, 1999;
- (5) Promote understandable and nondeceptive disclosure of airport concession rents and service permit fees paid to the Department of Transportation for access to public airports, while requiring U-drive lessors to provide annual reports showing how such expenses were computed and stating their total amounts; and
- (6) Allow the motor vehicle rental industry to receive commissions calculated in part from the sale of collision damage waivers.

Your Committee on Conference has amended this bill by:

- (1) Increasing the rental motor vehicle surcharge tax from \$2 to \$3 for a eight-year period;
- (2) Exempting persons renting a vehicle to replace a vehicle being repaired, provided that the repair order for the vehicle is retained by the lessor for four years for verification purposes;
- (3) Deleting the tour vehicle surcharge tax increase;
- (4) Deleting the provision depositing rental motor vehicle surcharge and tourist vehicle surcharge taxes to the credit of the state general fund;
- (5) Deleting the collision waiver provisions;
- (6) Designating state highway fund moneys to be deposited into the state general fund for fiscal biennium 1999-2001;
- (7) Making the effective date take effect upon approval; and
- (8) Making technical, nonsubstantive amendments for purposes of style and clarity.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 765, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 765, H.D. 1, S.D. 2, C.D. 1.

Representatives Takamine, Kawakami, Nakasone.
Managers on the part of the House.

Representative Moses did not sign the report.

Conf. Com. Rep. No. 186 on H.B. No. 989

The purpose of this bill is to appropriate funds to:

- (1) Pay claims for judgments, settlements, legislative claims for relief, and other miscellaneous claims against the State;
- (2) Require that claims for legislative relief be made within six years from the date on which the claim for payment matured;
- (3) Require the Attorney General to consult with the Governor before entering into any settlement agreements for awards exceeding \$15,000 that are subject to legislative approval;
- (4) Require the Attorney General to develop and implement a procedure for advising its client agencies on how to avoid future claims; and
- (5) Require future claims for which money is required to satisfy a judgment or settlement agreement to be funded through the agency's departmental allocation and not by general fund appropriations when the agency fails to modify existing practices and procedures.

Your Committee on Conference has amended this bill by:

- (1) Removing the provision requiring certain claims to be paid out of the State Highway Fund and providing for payment of those claims out of the general fund;
- (2) Deleting the provision requiring future claims to be paid from the agency's departmental allocation instead of general funds when the agency fails to modify existing practices and procedures;
- (3) Requiring the Attorney General to consult with the Governor prior to entering into any settlement agreements for amounts exceeding \$75,000;
- (4) Requiring the Attorney General to report to the Speaker of the House of Representatives, the President of the Senate, and the chairs of the House and Senate Judiciary Committees no later than twenty days prior to the convening of each regular legislative session describing the claims and their attendant circumstances and containing the advice for corrective action rendered to the agency;
- (5) Requiring the Attorney General's report to reflect the remedial actions taken by the Attorney General or recommendations for remedial actions that should be taken by the Legislature if an agency fails to take corrective actions as recommended;
- (6) Deeming the Attorney General report confidential to prevent disclosure of confidential or privileged material pursuant to chapter 92F, Hawaii Revised Statutes;
- (7) Correcting a drafting error with respect to the Matsushima v. State settlement to reflect the correct civil case number;
- (8) Adding four additional claims as recommended by the Attorney General; and
- (9) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

Your Committee on Conference believes that requiring the Attorney General to consult with the Governor on claims exceeding \$75,000 will result in greater accountability with respect to the settlement of claims against the State. Your Committee on Conference does not intend for this provision to require the Governor to sit on actual negotiations or settlement conferences but, instead, to merely review and approve those claims prior to the Attorney General's entering into any settlement agreement.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 989, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 989, H.D. 1, S.D. 2, C.D. 1.

Senators Chumbley, Matsunaga, Fukunaga, Sakamoto.
Managers on the part of the Senate.

Conf. Com. Rep. No. 188 on H.B. No. 157 (Majority)

The purpose of this bill is to reduce prison overcrowding by establishing and funding an integrated community sanctions program consisting of:

- (1) Drug treatment programs including making permanent the drug court program within the circuit court of the first circuit;
- (2) Community reintegration programs;
- (3) Residential work-furlough programs;
- (4) The "Halfway In, Halfway Back" program for nonviolent inmates who are within the last six months of their incarceration;
- (5) Early parole programs; and
- (6) Post-release sex offender and substance abuse treatment services.

Your Committee on Conference has amended this bill by deleting all provisions except for the drug court and the "Halfway In, Halfway back" program.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 157, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 157, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 189 on H.B. No. 1649

The purpose of this bill is to exempt from conveyance tax transfers of real property in connection with:

- (1) A merger or consolidation of entities; or
- (2) The dissolution of a limited partnership to a corporate general partner.

Your Committee on Conference has amended this bill by:

- (1) Limiting the chapters of the Hawaii Revised Statutes referenced in connection with a merger or consolidation to those chapters that specifically authorize mergers and consolidations;
- (2) Changing the effective date of the bill from July 1, 2010, to upon approval; and
- (3) Making technical, nonsubstantive changes to correct typographical errors.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1649, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1649, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 190 on H.B. No. 104

The purpose of this bill is to change the composition of the Employer-Union Trust Concept Committee and to extend the scope of its mandated purpose by:

- (1) Providing that the Governor shall select the retiree member from a list of nominees submitted by the Public Employees Health Fund;
- (2) Clarifying that equal numbers of representatives from public employers and public employee organizations sit on the Committee and that a retired beneficiary of the Public Employees Health Fund be included among the employee members;
- (3) Extends the Committee's term until June 30, 2001; and
- (4) Requires the Committee to submit to the Legislature:
 - (A) Annual progress reports on November 21, 1999, May 15, 2000, and November 21, 2000;
 - (B) Annual action plans on November 1, 1999, and November 1, 2000; and
 - (C) A finalized proposal and implementing legislation no later than 20 days prior to the convening of the 2001 regular session.

Your Committee on Conference has amended this bill by:

- (1) Deleting reference to "employer-union trust concept" and replacing with "alternative concepts";
- (2) Deleting reference to "a suggested trust structure" and replacing with "suggested alternative structures";
- (3) Deleting reference to "trust structure" with "new structure"; and
- (4) Allowing any committee member or group of members to finalize a proposal to replace the existing public employees health fund with a system based on alternative concepts.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 104, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 104, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 191 on H.B. No. 499

The purpose of this bill is to amend provisions of the Employees' Retirement System (ERS) law by:

- (1) Allowing a conservation and resources law enforcement (DOCARE) officer to retire without penalty after twenty-five years of service;
- (2) Allowing the trustees of the Office of Hawaiian Affairs (OHA) to become class A contributory members of ERS, including certain qualified former trustees; and
- (3) Conditioning the provision of health fund benefits to the retired former trustees of OHA on OHA's reimbursement to the State for the employer's health fund contributions for such trustees.

Your Committee on Conference has amended this bill by:

- (1) Deleting the provisions regarding OHA and the OHA trustees;
- (2) Authorizing DOCARE officers to convert to class A membership in ERS upon filing an election form with the ERS Board of Trustees;
- (3) Designating as class C members, DOCARE officers who do not elect to become class A members;
- (4) Allowing DOCARE officers to receive reduced retirement benefits after ten years of credited service; and
- (5) Designating all DOCARE officers hired after June 30, 1999, as class A members of ERS.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 499, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 499, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 192 on H.B. No. 1416

The purpose of this bill is to amend the Employees' Retirement System (ERS) law to:

- (1) Allow deputy sheriffs to retire without penalty after twenty-five years of service;
- (2) Allow qualified contributory class members to convert their membership status to noncontributory and obtain a refund of their contributions in cases of financial hardship; and
- (3) Allow the chairpersons and members of the Public Utilities Commission, the Labor and Industrial Relations Appeals Board, and the Hawaii Labor Relations Board to become class A contributory members of ERS.

Your Committee on Conference has amended this bill by:

- (1) Deleting the provision allowing qualified contributory class members to convert their membership in cases of financial hardship;
- (2) Deleting the provision allowing the chairpersons and members of the Public Utilities Commission, the Labor and Industrial Relations Appeals Board, and the Hawaii Labor Relations Board to become class A contributory members of ERS;
- (3) Authorizing deputy sheriffs to convert to class A membership in ERS upon filing an election form with the ERS Board of Trustees;
- (4) Designating as class C members deputy sheriffs who do not elect to become class A members;
- (5) Allowing a deputy sheriff to receive reduced retirement benefits after ten years of credited service; and
- (6) Designating all deputy sheriffs hired after June 30, 1999 as class A members.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 1416, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1416, H.D. 2, S.D. 2, C.D. 1.

Representatives Yoshinaga, Takamine, Kanoho, Kawakami.
Managers on the part of the House.

Representative Moses did not sign the report.

Conf. Com. Rep. No. 194 on H.B. No. 142

The purpose of this bill is to repeal existing public employment laws, specifically those laws relating to civil service, compensation, public service, leaves of absence, hours of work, in-service training programs, and incentive and service awards, upon the adoption of replacement legislation by the Legislature redesigning the civil service system.

Specifically, this bill requires the Director of Human Resources Development to design and effectuate a process for modernizing the civil service system in collaboration with all stakeholders, labor and management included; and to submit draft and recommended model civil service legislation for the modernization of the civil service system to the Legislature.

In addition, as received by your Committee on Conference, this bill:

- (1) Provides a lump sum voluntary severance benefit or a one-time special retirement incentive benefit to a dislocated employee in exchange for the employee's right to exercise any reduction-in-force policy, collective bargaining agreement, rule, and placement and bumping procedure under collective bargaining;
- (2) Abolishes the position held by an employee who is provided a voluntary severance benefit or special retirement incentive benefit upon the termination or retirement of the employee, and reduces the affected agency's personnel count by one full-time equivalent (1.00 FTE) position for each full-time benefit conferred;
- (3) Requires the Legislature to establish the number of positions to be eliminated each fiscal year, requires the Department of Human Resources Development to brief employees on any workforce reduction plan, and requires the State to liquidate the additional actuarial present value of special retirement incentive benefits over a period of five years;
- (4) Allows employees of the Hawaii Public Broadcasting Authority to remain state employees without the loss of employment benefits and privileges upon the transfer of the Authority's licenses, assets, responsibilities, and functions to the Hawaii Public Television Foundation; or to be offered retraining for another position;
- (5) Allows agencies to establish flexible spending accounts in order to operate wage and salary reduction benefit programs that allow employees to reduce their pretax compensation in return for the payment of eligible benefits--or "cafeteria plans", and to hold contributions, earned interest, and forfeited balances in these accounts in trust outside the state treasury; and
- (6) Allows the Department of Human Resources Development, with the consent of the appropriate public employees unions, to conduct demonstration projects to determine whether a specific change in human resource management procedures, methods, policies, or statutes would result in improved human resource management within the State.

Your Committee on Conference has amended this bill to incorporate the many changes agreed to by representatives of labor and management, and by managers on the part of the House and Senate. Most notably, your Committee on Conference:

- (1) Established an advisory panel within the Department of Human Resources Development and assigned to the panel the task of modernizing the civil service system; limited the membership of the advisory panel; and expanded the scope of the panel's discussions;
- (2) Added a provision to allow the recruitment of personnel above the first step of the pay range;
- (3) Added a provision to make salary and wage overpayments the subject of collective bargaining;
- (4) Deleted the provisions relating to voluntary severance benefits and special retirement incentive benefits;
- (5) Deleted the provision relating to employees of the Hawaii Public Broadcasting Authority; and
- (6) Deleted the provision requiring the Legislature to establish the number of positions to be eliminated each fiscal year.

More specifically, your Committee on Conference limited the applicability of the provision relating to flexible spending accounts only to state employees.

Your Committee on Conference wishes to thank the parties involved in crafting this bill for their civility and diplomacy--including their ability to disagree without becoming disagreeable, and for their willingness to compromise on contentious issues for the good of the State.

Your Committee on Conference is in accord with the intent and purpose of H.B. No. 142, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 142, H.D. 1, S.D. 2, C.D. 1.

Senators Nakata, Fukunaga, Chun Oakland, Ihara, Taniguchi, Anderson.
Managers on the part of the Senate.

Senator Ige, D. did not sign the report.

Managers on the part of the House.

Conf. Com. Rep. No. 195 on S.C.R. No. 184

The purpose of this concurrent resolution is to request a study of Hawaii's laws relating to domestic violence.

Your Committee finds that over the past decade, the Legislature has made great progress in its efforts to recognize and prevent domestic abuse. These efforts have included the adoption of mandatory periods of separation between family and household members, mandatory sentencing and fines for domestic abuse convictions, and mandatory offender treatment and intervention. However, in attempting to address the myriad aspects of domestic violence, piecemeal changes have been made to the law resulting in ambiguous interpretations or contradictory application of the law. Therefore, your Committee agrees that a thorough review of Hawaii's laws related to domestic violence is necessary to identify loopholes and inconsistencies in the laws. Your Committee acknowledges that in order to fully comprehend the legal and practical application of these laws, various constituencies should be consulted in conducting the study.

Upon further consideration, your Committee has amended this concurrent resolution by:

- (1) Assigning the responsibility for conducting the study to the Legislative Reference Bureau (Bureau) rather than a task force;
- (2) Requesting that the Bureau consult with the constituencies formerly named as the task force; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

Your Committee on Conference is in accord with the intent and purpose of S.C.R. No. 184, S.D. 1, H.D. 1, as amended herein, and recommends that it be adopted in the form attached hereto as S.C.R. No. 184, S.D. 1, H.D. 1, C.D. 1.

Senators Chumbley, Matsunaga, Chun Oakland.
Managers on the part of the Senate.

Representatives Arakaki, Hamakawa, Kahikina, Pendleton.
Managers on the part of the House.

STANDING COMMITTEE REPORTS

SCRep. 1 Transportation and Intergovernmental Affairs on S.B. No. 65

The purpose of this bill is to deem ineligible for employment with any state or county agency persons who failed to register with the Selective Service System or otherwise comply with the Military Selective Service Act.

Testimony in support of the bill was submitted by the Selective Services System's Local Board No. 5 and the Hawaii State Director of the Selective Service System.

The testimony received by your Committee indicated that several other states and the federal government have passed similar legislation making compliance with the Military Selective Service Act a pre-condition for state employment, federal appointments, and receiving student financial aid.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this bill will increase public awareness of the registration requirements of the Military Selective Service Act and encourage voluntary compliance.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 65 and recommends that it pass Second Reading and be referred to the Committee on Labor and Environment.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 2 Ways and Means on H.B. No. 85

The purpose of this bill is to appropriate funds to provide for the expenses of the legislature, the auditor, the legislative reference bureau, the ombudsman, and the state ethics commission during the 1999 regular session and through the remainder of the 1999-2000 fiscal year.

Your Committee finds that the legislative budget proposed by this bill is the same budget proposed last year. Considering the austere and tentative nature of economic and revenue projections currently forecast for the State, it is incumbent upon the legislature to proceed cautiously with all budget proposals, including its own. Therefore, this bill reflects your Committee's philosophy of cautious optimism with respect to constructing a budgetary plan for the State in the next two years.

Testimony was submitted in favor of this bill by the Hawaii State Ethics Commission, the Office of the Ombudsman, and Common Cause Hawaii.

Your Committee has amended the bill by clarifying the appropriation made in section 10 for the legislative broadcast program with respect to the effective date, expending agency and lapsing date.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of H.B. No. 85, H.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as H.B. No. 85, H.D. 1, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Iwase).

SCRep. 3 (Majority) Economic Development on S.B. No. 23

The purpose of this measure is to convert the two non-voting members of the Hawaii Tourism Authority (HTA) to voting members.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority. The Hawaii Hotel Association and the Maui Hotel Association submitted testimony in opposition.

Your Committee finds the HTA was established by the 1998 Legislature, and the transient accommodations tax was raised by one and one-quarter percent to fund this organization. Tourism accounts for nearly twenty-five percent of the gross state product, with nearly 7,000,000 visitors every year, and provides thirty percent of the civilian jobs in the State.

Your Committee further finds that tourism's enormous impact on the State's economy, as well as government support of the industry, requires adequate voting representation by all members of the HTA board. Current representation from the non-voting members has proven significant in helping to guide the direction of the board, but without voting powers these two members are limited in their participation and decision making. This measure will ensure that the contributions of all members of the board are weighed and considered in guiding the HTA in its efforts to promote Hawaii's tourism industry.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 23 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 4 (Majority) Economic Development on S.B. No. 459

The purpose of this measure is to require that one of the at-large public voting members of the Hawaii Tourism Authority (HTA) be a representative of the Office of Hawaiian Affairs.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs. The Hawaii Tourism Authority, the Hawaii Hotel Association, and the Maui Hotel Association submitted testimony in opposition.

Your Committee finds the HTA was established by the 1998 Legislature, and the transient accommodations tax was raised by one and one-quarter percent to fund this organization. Currently, four of the ten public voting members represent the counties and the remaining public members are appointed at-large, with two from a list of three names nominated by the President of the Senate, and two from a list of three names nominated by the Speaker of the House of Representatives.

Your Committee also finds that a significant number of tourism activities and programs are based on Hawaii's indigenous culture, that of the Hawaiian people. Despite the importance of Hawaiian cultural history and traditions in attracting visitors to the State, currently there is no requirement to provide for representation from the Hawaiian community to the HTA board.

Your Committee believes this measure addresses the importance of including the Hawaiian community as an active participant in planning and promoting Hawaii's tourism industry.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 459 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Kawamoto, Taniguchi).

SCRep. 5 (Majority) Economic Development on S.B. No. 716

The purpose of this measure is to authorize the Natural Energy Laboratory of Hawaii Authority (NELHA) to include retail or commercial enterprises, and retail, commercial, and tourism activities within its research and technology park.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and the Natural Energy Laboratory of Hawaii Authority.

Your Committee finds that NELHA is one of premier facilities in the world for research, development, and commercialization of aquaculture and natural energy resources. While much of the funding for this work has previously come from the State and federal government, these funds have been greatly reduced and other sources of income must be developed.

Your Committee further finds that NELHA has explored a variety of options to increase private investment in the facility, and that retail concession activities have the potential to generate significant additional revenues and to reduce dependency on public funding.

In addition, your Committee understands that it is the intent of the NELHA to locate these new income producing activities away from the site of the current research facilities. Locating the retail and commercial enterprises on NELHA property near the highway will attract a larger clientele, both residents and tourists, and ensure that these activities do not unduly impact the ongoing research of NELHA.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 716 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Ige, M.). Excused, none.

SCRep. 6 (Majority) Economic Development on S.B. No. 816

The purpose of this measure is to extend the sunset date of the Convention Center Authority (CCA) from June 30, 1999, to June 30, 2000.

Your Committee received testimony in support of this measure from the Hawaii Hotel Association. The Department of Business, Economic Development, and Tourism testified in opposition.

Your Committee finds that this measure would provide a transition period needed to assure a smooth transfer of the CCA to the Hawaii Tourism Authority (HTA), which was established by the 1998 Legislature. Extending the CCA for an additional year, will allow the HTA to concentrate on its organization and mandate for marketing Hawaii tourism as a whole.

Your Committee also finds that there remain a number of site specific issues regarding the Convention Center, which the authority is in the process of resolving. Allowing the authority an additional twelve months to complete its monitoring role will ensure that Hawaii continues to have a world class Convention Center.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 816 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Ige, M.). Excused, 1 (Taniguchi).

SCRep. 7 Economic Development on S.B. No. 1071

The purpose of this measure is to authorize the use of Form U-7, a uniform question and answer document developed by the North American Securities Administrators Association, for the prospectus currently required under section 485-10(b)(3), Hawaii Revised Statutes, which will enable small companies to raise up to \$1,000,000 in start-up capital by selling stock directly to the public after registering the shares under a Small Corporate Offerings Registration (SCOR).

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, the Department of Commerce and Consumer Affairs, and The Hawaii Congress of Small Business.

Your Committee finds that lack of available capital is one of the most frequent reasons for small business failures in Hawaii. Small businesses need infusions of capital at various stages of their development, and the current process of applying for conventional loans or venture capital is both difficult and time consuming.

Your Committee further finds that forty-eight states have successfully adopted the SCOR procedure to make it possible for small businesses to obtain capital in a more efficient and less costly manner. Additionally, with the approval of SCOR the Small Business Administration will allow use of SCOR documents to establish the Angel Capital Electronic Network (ACE-Net) in Hawaii, a nationwide directory of high net worth individuals who are seeking investments in high growth companies.

Your Committee understands that establishment of a SCOR program is one of the ten top priorities of Hawaii's small business owners and operators, and believes this program will attract vital investment opportunities that will benefit both these businesses and the economy as a whole.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1071 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 8 (Majority) Economic Development on S.B. No. 976

The purpose of this measure is to create a construction industry branch within the Department of Business, Economic Development, and Tourism (DBEDT).

Your Committee received testimony in support of the concept of this measure from DBEDT.

Your Committee finds that the construction industry is a vital industry that has been most affected by Hawaii's current economic problems. Because it is closely tied to investment, the industry is extremely important, affecting not only our present economic wellbeing, but our capacity for future growth as well.

Your Committee also finds that the size of the construction industry fluctuates widely, and that data regarding the state of the industry is becoming increasingly difficult to determine on a timely basis.

Your Committee believes this measure will provide DBEDT with the authority to enhance their research, promotion, marketing, and support of this vital industry.

Your Committee has amended this measure to address the concern of DBEDT that the monitoring, investigation of complaints, and enforcement is beyond the scope of the department, by deleting references to those activities. Your Committee has also made a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 976, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 976, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, none.

SCRep. 9 Transportation and Intergovernmental Affairs on S.C.R. No. 3

The purpose of this measure is to request approval of the Ford Island Redevelopment Project package by the United States Congress.

Testimony in support of this measure, was received from the Chamber of Commerce of Hawaii, Hawaii Business Roundtable, Associated Builders and Contractors, Inc., Hawaii Operating Engineers Industry Stabilization Fund, Oahu Economic Development Board, Pacific Resource Partnership, and Plumbers and Fitters Local 675, United Association. Oral testimony in support was presented by the Iron Workers Union.

The testimony received by your Committee indicated that the Ford Island Redevelopment Project will provide desperately needed infrastructure improvements to the Ford Island area by, among other things, building military family and other housing, replacement administrative and operational buildings, a conference center, and an historical and cultural center for the United States Navy in the Pacific. The development will bring over \$600 million to the State of Hawaii and will provide needed jobs for the State's construction industry.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this measure will encourage the United States Congress to approve the Ford Island Redevelopment Project and express the State's total support of the project.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 10 Transportation and Intergovernmental Affairs on S.R. No. 3

The purpose of this measure is to request approval of the Ford Island Redevelopment Project package by the United States Congress.

Testimony in support of this measure was received from the Chamber of Commerce of Hawaii, Hawaii Business Roundtable, Associated Builders and Contractors, Inc., Hawaii Operating Engineers Industry Stabilization Fund, Oahu Economic Development Board, Pacific Resource Partnership, and Plumbers and Fitters Local 675, United Association. Oral testimony in support was presented at the hearing by the Iron Workers Union.

The testimony received by your Committee indicated that the Ford Island Redevelopment Project will provide desperately needed infrastructure improvements to the Ford Island area by, among other things, building military family and other housing, replacement administrative and operational buildings, a conference center, and an historical and cultural center for the United States Navy in the Pacific. The development will bring over \$600 million to the State of Hawaii and will provide needed jobs for the State's construction industry.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this measure will encourage the United States Congress to approve the Ford Island Redevelopment Project and express the State's total support of the project.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 3, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 11 Transportation and Intergovernmental Affairs on S.B. No. 58

The purpose of this bill is to require the forfeiture of the motor vehicle being driven at the time the driver commits a third offense of driving under the influence of an intoxicating liquor within five years of two prior convictions or an offense of habitually driving under the influence of an intoxicating liquor or drugs.

Testimony in support of this bill was received from the Governor's Highway Safety Council Impaired Driving Task Force, Department of Transportation, and Mothers Against Drunk Driving.

Testimony in support of the intent of this bill with recommendations was received from the Department of the Prosecuting Attorney of the City and County of Honolulu (Prosecuting Attorney) and the Traffic Division of the Honolulu Police Department, City and County of Honolulu (HPD).

Testimony in opposition to this bill was received from the Office of the Public Defender, State of Hawaii, and the Libertarian Party of Hawaii.

The testimony received by your Committee indicated that in Oregon and California where similar legislation was enacted the alcohol-related motor vehicle accidents, injuries, and fatalities decreased substantially. The Prosecuting Attorney and the HPD recommended that the forfeiture of a motor vehicle be a civil forfeiture only, rather than also a criminal penalty as indicated in the bill.

Opponents expressed concern that the forfeiture of a motor vehicle may be excessive and particularly burdensome on indigents.

Upon consideration of all pertinent issues and testimony presented, your Committee believes that this bill will have a positive affect in reducing the number of alcohol-related accidents, injuries, and deaths in this State. Your Committee amended this bill by making the forfeiture a civil forfeiture subject to chapter 712A, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 58, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 58, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 12 Transportation and Intergovernmental Affairs on S.B. No. 155

The purpose of this measure is to disallow the use of a driver's social security number on a driver's license issued or renewed after December 31, 1999, and require use of a new identification numbering system for driver's licenses.

Testimony in support of this measure was received from the Department of Transportation and the Office of Information Practices. Comments were received from the Judiciary.

Testimony received by your Committee indicated that because social security numbers have been used in the private sector to identify an individual's interest with financial, educational, credit and medical institutions, as well as marketing, retail, and other consumer-oriented institutions, an unscrupulous person may easily use a social security number to steal a person's identity and use it for illegal purposes. Currently, a person's social security number may be obtained from a Hawaii driver's license.

Further testimony indicated that implementation by the Judiciary and the Department of Transportation of the necessary changes to the affected computer systems by December 31, 1999, may not be possible and that more time would be needed.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that removing the social security numbers from driver's licenses and implementing a new identification numbering system will further secure the privacy of personal information.

Your Committee has amended this measure by changing the date after which driver's licenses shall no longer include a driver's social security number and when the new numbering system is to be implemented from December 31, 1999, to July 31, 2000, in order to provide state agencies more time to modify the affected computer systems.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 155, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 155, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 13 Transportation and Intergovernmental Affairs on S.B. No. 162

The purpose of this measure is to increase the age of a child from age three to age four required to be properly restrained in a child passenger seat when being transported by motor vehicle.

Testimony in support of this measure was received from the Department of Transportation, Department of Health, Police Department of the City and County of Honolulu, Keiki Injury Prevention Coalition, and Mothers Against Drunk Driving.

The testimony received by your Committee indicated that this measure reflects the National Highway Traffic Safety Administration's standards and recommendations and should improve highway safety for children. Under current law, children between the ages of three and four are not required to be restrained in a child passenger seat. Therefore, the children are then restrained by standard motor vehicle seat belts that are generally designed to protect adults.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this measure will provide children under the age of four improved highway safety and protection.

Your Committee has amended this measure by making a technical, nonsubstantive change.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 162, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Buen, Ige, D., Taniguchi).

SCRep. 14 Transportation and Intergovernmental Affairs on S.B. No. 660

The purpose of this bill is to impose a mandatory minimum consecutive jail sentence and \$500 fine in addition to penalties already provided by law for persons who commit the offense of driving under the influence of intoxicating liquor while having a passenger less than eighteen years of age in the motor vehicle.

Testimony in support of this bill was received from the Department of Transportation, Police Department of the City and County of Honolulu, Keiki Injury Prevention Coalition, Mothers Against Drunk Driving (MADD), and for members of MADD's Hawaii Youth In Action.

The testimony received by your Committee indicated that people who drive under the influence of alcohol put themselves and any passengers, especially minors, riding in the same motor vehicle at risk of injury and even death. Minors are in particular risk due to the fact that minors are subject to the authority of their parents, guardians, or older friends and trust them with their safety and well-being.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this bill will reduce the risk of injury and death to minors by deterring persons from driving while under the influence of an intoxicating liquor with a minor passenger and penalizing that behavior.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 660 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 15 Transportation and Intergovernmental Affairs on S.B. No. 672

The purpose of this measure is to require all children under the age of four to be restrained in a car seat, and all front and back seat passengers under the age of eighteen years to be restrained by a seat belt assembly.

Testimony in favor of this bill was given by the Department of Transportation, Department of Health, Hawaii Insurers Council, Keiki Injury Prevention Coalition, and Mothers Against Drunk Driving.

Your Committee finds that from 1986 through 1996 the average number of rear seat fatalities was 9.1 fatalities per year. There was an average of 28 incapacitating rear seat injuries per year and 232 rear seat nonincapacitating injuries per year for this same period.

Current law requires children under the age of three to be in a car seat, and passengers under age fifteen to use rear seat belts. Your Committee believes that requiring children under age four in rear seats to be restrained by an approved child passenger restraint system and a mandatory front and rear seat belt law for children under the age of eighteen will save lives and reduce injuries.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 672 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 16 Transportation and Intergovernmental Affairs on S.B. No. 685

The purpose of this measure is to repeal the requirement that a specific form be provided by the Director of Finance when registering a vehicle under two names that is not held in joint tenancy.

Testimony in support of this measure was submitted by the City and County of Honolulu.

Your Committee finds that this measure eliminates the requirement that the counties provide a specific form for alternate types of joint ownership, thus clarifying the issue of whether or not the forms currently provided by the counties are legally sufficient. This measure would require proper legal documents to be provided if a vehicle is to be registered in the names of two or more persons that is not owned in joint tenancy.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 685 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 17 Transportation and Intergovernmental Affairs on S.B. No. 687

The purpose of this measure is to establish a graduated licensing procedure for persons under the age of seventeen.

Testimony in support of this bill was received from the Department of Commerce and Consumer Affairs, Police Department for the City and County of Honolulu, State Farm Insurance Company, Keiki Injury Prevention Coalition, and one individual.

Testimony in support of the intent of the bill was received from the Department of Transportation, Department of Customer Services for the City and County of Honolulu, and Mothers Against Drunk Driving.

Your Committee finds that young people between the ages of 15 and 20 are statistically overrepresented in motor vehicle fatalities nationwide. In Hawaii, from 1993 through 1997, young people between the ages of 15 through 17 years represented over 8 percent of the traffic deaths.

Your Committee further finds that a graduated driver licensing system is designed to teach young drivers how to drive by controlling their progression towards a full licensing privilege. It does this through education, both on and off the roadway; by always having a supervising adult present; and by restricting the time of the day they may drive and who can be in the vehicle with them. This will teach young drivers good judgment and help them to develop experience, adequate driving skills, and responsibility on the roadway.

Your Committee has made technical, nonsubstantive amendments to the bill, and updated one provision to reflect 1998 amendments, to the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 687, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 687, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 18 Transportation and Intergovernmental Affairs on S.B. No. 913

The purpose of this measure is to establish a provision for elections by mail in the State. Specifically, this measure provides that any federal, state, or county election held other than on the date of a regularly scheduled primary and general election, may be conducted by mail.

Testimony in support of this measure was received from the Office of Elections, the Coordinating Council on Deafness, the Maui County Council, and Common Cause Hawaii.

Your Committee finds that this measure would allow the State to conduct a special election as an election by mail instead of a polling place election. Because section 11-174.5, Hawaii Revised Statutes, has been amended to provide one hundred-twenty days for a special election, this measure reduces the personnel and logistical problems associated with establishing such an election, thus making it easier to conduct an election within that time frame. Additionally, conducting an election by mail significantly reduces the cost of hiring election day officials and paying polling place fees.

Your Committee further finds that this measure would likely increase voter participation, as voters would be able to make their choices on their own time and at their own leisure. Also, voters with special needs, such as those who are deaf or hard of hearing, will have equal access to the election system, and will not have to deal with the hardship of communicating effectively with the workers at the polling places.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 913 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 19 Transportation and Intergovernmental Affairs on S.B. No. 922

The purpose of this measure is to include the knowing or reckless state of mind to the offense of unauthorized control of a propelled vehicle.

Testimony in support of this measure was submitted by the Honolulu Police Department and the Department of the Prosecuting Attorney. Testimony in support of the intent of this measure with reservations was submitted by the Office of the Public Defender.

Your Committee finds that by adding a knowing or reckless state of mind to this statute, it will greatly enhance the State's ability to effectively prosecute both auto thefts and chop shop operations. This would help to close the loophole many defense attorneys use by simply stating that they did not know the vehicle was stolen. This measure will contribute to the public safety of this State, and provide added protection for all motor vehicle owners.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 922 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Iwase, Taniguchi, Slom).

SCRep. 20 Transportation and Intergovernmental Affairs on S.B. No. 1164

The purpose of this measure is to authorize the director to enter into a driver's license reciprocity agreement with a foreign jurisdiction, to exempt drivers over age eighteen licensed under that jurisdiction to operate class one, two, or three, or a combination of these categories, from the Hawaii road test requirement.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT).

Your Committee finds that this measure will expedite the procedures for drivers from a foreign jurisdiction, while providing the same expedited service to Hawaii drivers in that jurisdiction, through the use of reciprocal agreements.

Your Committee further finds that any reciprocal agreement will be subject to a review involving the DOT, the counties, and the American Association of Motor Vehicle Administrators, which is forming a work group to study the issue of foreign reciprocal agreements to ensure these agreements do not result in reducing any driver licensing standard.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1164 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 21 Transportation and Intergovernmental Affairs on S.B. No. 392

The purpose of this measure is to authorize the issuance of general obligation bonds for the repair, upgrading, and reconstruction of Saddle Road, Hawaii.

Testimony in support of this bill was submitted by the Department of Transportation.

Your Committee finds that the Saddle Road is the most direct route connecting Hilo and Kona, the two urban centers on the island of Hawaii. However, because it was built in the 1940's there are sections of the road that have inadequate sight distances, substandard horizontal and vertical alignment, substandard pavement and shoulder widths, and narrow lateral clearances.

The Federal Highway Administration has assisted the State by conducting studies on improving Saddle Road. These studies respond to many issues including socio-cultural, native Hawaiian, environmental, and technical concerns which have been raised. Because these issues have been addressed, your Committee finds the bill necessary in easing the commuting difficulties on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 22 Transportation and Intergovernmental Affairs on S.B. No. 494

The purpose of this measure is to appropriate \$7,500 to the Department of Defense for fiscal year 1999-2000 as Hawaii's donation to the Women in Military Service for America Memorial at Arlington National Cemetery.

Testimony in support of this measure was submitted by the Advisory Board on Veterans Services, the Office of Veterans Services, the Kauai Veteran's Council, and a concerned citizen.

Your Committee finds that this memorial, which recognizes women who served so honorably and unselfishly during each and every conflict in which our nation has been involved, was long overdue. While women from all fifty states have been honored in this memorial, Hawaii is one of only six states which has not made a donation in support of this effort. This measure demonstrates the State's pride and gratitude for all that the 7,500 servicewomen of this State, and all the servicewomen around the country, have contributed to the protection and promotion of American values and ideals.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 494 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 23 Transportation and Intergovernmental Affairs on S.B. No. 662

The purpose of this measure is to extend the time period in which to record the transfer of ownership of a trailer from twenty to thirty days and increase the fee for failure to comply with the recording of a transfer of ownership from \$5 to \$50.

Testimony in support of this measure was received from the Department of Customer Services, City and County of Honolulu.

The testimony received by your Committee indicated that this measure would conform the transfer of trailer ownership recordation provisions with those relating to motor vehicles.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this measure will encourage timely recordation of the transfer of ownership of a trailer. Your Committee has amended the measure to increase the fee for untimely recordation to \$10 rather than \$50.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 662, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 662, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 24 (Majority) Transportation and Intergovernmental Affairs on S.B. No. 686

The purpose of this measure is to increase the allowable motor vehicle certificate of registration fee that is imposed and used by the counties for highway beautification and abandoned vehicle disposal from \$1 to \$2.

Testimony in support of this measure was received from the Department of Parks and Recreation of the City and County of Honolulu, Kauai County Council, and Na Leo Pahi. The Office of the Mayor for Kauai County and a Kauai County Council member submitted testimony in support of the intent of this measure with suggested amendments. Oral testimony in support of this measure was received from the Department of Customer Services of the City and County of Honolulu.

Testimony in opposition to this measure was received from Catrala-Hawaii.

Your Committee finds that by increasing the motor vehicle certificate of registration fee, the respective county agencies responsible for highway beautification and abandoned vehicle disposal will be provided with the necessary resources to maintain highway beautification efforts and defray the increasing costs associated with abandoned vehicle disposal. However, testimony received from Catrala-Hawaii indicated that motor vehicle rental and leasing businesses would be adversely affected by this measure because it would increase their costs to do business.

Your Committee has amended this measure by increasing the amended fee increase from \$2 to \$3 and exempting U-drive motor vehicles from the fee increase provided in this measure.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 686, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 686, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 25 Transportation and Intergovernmental Affairs on S.B. No. 1166

The purpose of this measure is to build additional ship berths in Honolulu Harbor.

Written testimony in support of this measure was submitted by the Department of Transportation and American Hawaii Cruises. Oral testimony was submitted by Boats/Hawaii Inc.

Your Committee finds that cruise ship services to the Hawaiian Islands are undergoing rapid expansion and the capacity of the newly constructed ships is continuing to grow. It should be anticipated that within the next five years, Honolulu Harbor will regularly see three or more passenger vessels per day as many as thirty-five to forty times.

Additionally, foreign flag operators are continuing to increase their port calls in the Hawaiian Islands, and Honolulu in particular, over the next three to four years. Presently, their total contribution to the states economy is in excess of \$50,000,000 per year, and by the year 2004, this number could double or triple.

Your Committee further finds that dedicated passenger terminal facilities are available only at the Aloha Tower in Honolulu Harbor where two cruise ships can berth.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1166 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Iwase, Taniguchi, Slom).

SCRep. 26 Transportation and Intergovernmental Affairs on S.B. No. 1214

The purpose of this measure is to extend the life of the temporary Hawaii Maritime Authority Commission and change the deadline for submittal of its report to the legislature from December 20, 1998, to December 20, 1999.

Written testimony in favor of this measure was submitted by the Department of Transportation, Department of Business, Economic Development, and Tourism, Hawaii Community Development Authority, Matson Navigation Company, Chamber of Commerce of Hawaii, and Boats/Hawaii Inc. Written testimony opposed to this measure was submitted by EnviroWatch, Inc. Oral testimony opposed to this measure was given by one individual. Informational testimony was submitted by Hawaii's Thousand Friends.

Your Committee finds that the Temporary Maritime Authority Commission was created by Act 183, Session Laws 1998, to create a temporary port authority to make recommendations to the Legislature as to the needs of the Authority, the role to be played by the Authority, and the functions thereof.

Your Committee further finds that numerous complex issues still need to be addressed by the temporary Commission, including, the type of governance structure that would best suit Hawaii, the amount of autonomy this agency would have, its relationship with the administration including the Governor and state departments, the civil service status of its employees and the financial impact of a port authority. Therefore, an extension of time is needed to extend the life of the temporary Hawaii Maritime Authority Commission.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1214 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Iwase, Taniguchi, Slom).

SCRep. 27 Transportation and Intergovernmental Affairs on S.B. No. 665

The purpose of this measure is to allow riders with a valid learner's permit who enroll in a motorcycle education course that has been approved by the Department of Transportation or the commander of any branch of the armed services to qualify for insurance coverage.

Testimony in support of this measure was received from the Department of Transportation, Street Bikers United, Harley Owners Group, Carr's Insurance Agency, and an individual. Testimony in opposition to the measure was received from the Department of Commerce and Consumer Affairs, the University of Hawaii, the Motorcycle Safety Education Program, and two individuals.

Your Committee finds that current law forces those motorcycle or motor scooter riders who are unable to meet the educational requirement to operate their vehicles without liability coverage while learning how to ride. Your Committee has amended this bill by making a technical nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 665, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 28 Transportation and Intergovernmental Affairs on S.B. No. 666

The purpose of this measure is to mandate those required to register with the Selective Service system to do so in order to be eligible for admission into any public institution of higher education.

Testimony in support of the intent of this bill was received from the University of Hawaii. Testimony in opposition to this bill was received by the Libertarian Party of Hawaii.

Your Committee understands the importance of complying with registration obligations for the Military Selective Service Act. Those required to register with the Selective Service system play a valuable role in serving our country. Your Committee finds that by making eligibility for admission into any public institution of higher education contingent upon registration with the Selective Service, the service that our young people can provide is ensured.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 666 and recommends that it pass Second Reading and be referred to the Committee on Education and Technology.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 29 Transportation and Intergovernmental Affairs on S.B. No. 663

The purpose of this measure is to extend the time period in which a new motor vehicle with a temporary number plate must be registered from 20 days to 30 days.

Testimony in support of this measure was received from the Department of Customer Services of the City and County of Honolulu.

Your Committee finds that the registration time period under section 286-54, Hawaii Revised Statutes, for an out-of-state motor vehicle is 30 days. This measure provides for consistency with respect to the time periods allotted for registering new and out-of-state motor vehicles.

Your Committee has amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 663, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 663, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 30 Transportation and Intergovernmental Affairs on S.B. No. 664

The purpose of this measure is to allow the Director of Finance to discard and permit new applications for inactive special number plates that have not been assigned or registered during the preceding three years.

Testimony in support of this measure was received from the Department of Customer Services, City and County of Honolulu.

The testimony received by your Committee indicated that there are numerous special number plates held in inventory awaiting initial issuance or reissuance. Many motor vehicle records with special number plates have been inactive for a number of years mainly due to the vehicles leaving the State of Hawaii. Under current law, applicants for the same letter-numeral combination of inactive special number plates are unable to obtain the special number plate until the next plate change year.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this measure will facilitate the issuance of special number plates and reduce the inventory of inactive special number plates. Your Committee has amended this bill to include reuse of inactive license plates for antique motor vehicles that have not been assigned or registered during the preceding three years.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 664, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 31 Transportation and Intergovernmental Affairs on S.B. No. 667

The purpose of this bill is to permit the use of high occupancy vehicle lanes by all vehicles between the hours of 7:00 a.m. and 8:00 a.m. on Interstate Route H-1 and permit use of the zipper lanes by vehicles carrying three and fewer passengers during specific hours.

Testimony in opposition to this bill was received from the Department of Transportation and one concerned citizen.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this bill allows for full utilization of the high occupancy vehicle and zipper lanes and will facilitate overall traffic flow especially during "rush hour". While your Committee realizes there may be some reduction in the Director of Transportation's discretion, your Committee finds that the amendments proposed in this bill will improve highway operations and traffic.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 32 Transportation and Intergovernmental Affairs on S.B. No. 676

The purpose of this measure is to permit the holder of a Type 3 driver's license to drive a motor vehicle with a gross vehicle weight rating of up to 12,000 pounds.

Testimony in support of this bill was received from the Hawaii Transportation Association, Legislative Information Services of Hawaii, and Ryder Transportation Services.

The testimony received by your Committee indicated that the gross vehicle weight rating increases in this bill are not a serious concern because the weight carrying capacities of currently manufactured vehicles can safely carry heavier loads. Ryder Transportation Services suggested that increasing the gross vehicle weight rating limitation for Type 3 licenses to 15,000 pounds would not compromise safety. The Hawaii Transportation Association concurred.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this bill will help local companies to transport their products efficiently and safely. Your Committee has amended this bill by increasing the gross vehicle weight rating limit for Type 3 driver's licenses to 15,000 instead of 12,000 pounds.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 676, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 676, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 33 Transportation and Intergovernmental Affairs on S.B. No. 1216

The purpose of this measure is to provide bicyclists with the option to ride on the edge of roadways, instead of merely requiring bicyclists to ride near to the right hand curb, or on the shoulder off of the roadway.

Testimony in support of this measure was received from the Department of Transportation and the Hawaii Bicycling League. Both supported this measure because it clarifies the areas of the roadway on which bicycles should be operated, and will reduce the hazards for bicycle riders.

Your Committee agrees with the testimony submitted and finds that this measure will be beneficial to both the State and to our bicyclists. Because many of the road shoulders of the State are unsafe and hazardous to bicyclists, this measure provides an alternative riding area. In so doing, the State reduces its liability for injured bicyclists.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1216 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 34 Economic Development on S.B. No. 480

The purpose of this measure is to add three new terms that may be used on the label of raw or processed macadamia nuts grown in Hawaii.

Your Committee received testimony in support of this measure from the Hawaii Food Industry Association and Mauna Loa Macadamia Nut Corporation. The Department of Agriculture submitted testimony in opposition.

Your Committee finds that while the successful macadamia nut industry started in Hawaii, foreign competition is growing. Australia recently surpassed Hawaii as the world's largest producing region, and growers in Central and South America and Africa are expanding as well.

Your Committee further finds that creating a stronger image for Hawaii's macadamia nuts is critical to maintaining market share, and that this measure will provide the industry with additional flexibility in labeling and marketing Hawaii grown products worldwide.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 480 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Kawamoto, Taniguchi).

SCRep. 35 Economic Development on S.B. No. 1060

The purposes of this measure are to:

- (1) Include credit unions in the definition of a "private lender";
- (2) Reduce the number of credit denials required for the Department of Agriculture's loan program; and
- (3) Allow the department to jointly service and collect on its portion of participation loans.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds this measure will streamline the loan process, clarify applicable agricultural loan statutes, and increase the program's flexibility. These amendments will provide better and faster loan services to farmers, as well as increase efficiency and cost savings to the State.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1060 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 36 Economic Development on S.B. No. 1061

The purpose of this measure is to assess only cultivatable lands within the irrigation district boundaries.

Your Committee received testimony in support of this measure from the Department of Agriculture.

Your Committee finds that current assessments are based on total acreage, and do not take into account restrictions on the use of the acreage. More recent environmental laws and resource management regulations, such as Special Management Areas, the Coastal Zone Management Act, conservation district uses, and underground injection line regulations, restrict or prevent cultivation of stream beds, dry gulches, and others.

Your Committee agrees that if the water user cannot derive income from the acreage, the restricted portions should not be included in the assessed revenue base.

Your Committee has amended this measure to make a technical, nonsubstantive amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1061, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1061, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 37 (Majority) Economic Development on S.B. No. 1064

The purpose of this measure is to appropriate funds out of the agriculture development revolving fund to allow the Agribusiness Development Corporation (ADC) to reimburse the papaya industry for securing patent licenses needed to commercialize the transgenic papaya, and to allow the ADC to carry out its ongoing projects.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation.

Your Committee finds that as a result of devastation to the papaya industry caused by the ringspot virus disease, the ADC authorized a project to assist the industry in securing the patent licenses for a disease-resistant papaya. Reimbursement to the industry for the patent licenses will exceed the sums currently appropriated from the revolving fund to the ADC.

Your Committee further finds that this is a request to increase the spending ceiling of the revolving fund for fiscal year 1998-1999, not a request for additional general funds. Your Committee is in support of this measure to provide critical assistance to the State's papaya industry.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Ige, M.). Excused, 2 (Kawamoto, Taniguchi).

SCRep. 38 Labor and Environment on S.B. No. 1284

The purpose of this measure is to appropriate funds for cost items in collective bargaining agreements for bargaining units 1 through 11 and 13 for fiscal years 1995 to 1998.

Testimony in support of this measure was received from the Office of Collective Bargaining, the Hawaii State AFL-CIO, the Hawaii Government Employees Association, the Hawaii State Teachers Association, United Public Workers, and an individual. Testimony in support of this measure with amendments was received from the Hawaii Health Systems Corporation.

Your Committee finds that the 1998 Legislature did not make appropriations to fund retroactive and continuing cost items in collective bargaining agreements for bargaining units 1 through 11 and 13 for fiscal years 1995 to 1998. This measure takes effect upon approval, similar to an emergency appropriation, making the funds available for the cost items in fiscal year 1999.

Your Committee has amended this bill to include appropriations for the employees of the Hawaii Health Systems Corporation which were not included in the general fund request. Technical, nonsubstantive amendments were also made.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1284, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1284, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 39 Labor and Environment on S.B. No. 1408

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 1.

Testimony in support of this measure was received from the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1408 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 40 Labor and Environment on S.B. No. 1409

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 2.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1409 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 41 Labor and Environment on S.B. No. 1410

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 3.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1410 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 42 Labor and Environment on S.B. No. 1411

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 4.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1411 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 43 Labor and Environment on S.B. No. 1412

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 5.

Testimony in support of this measure was received from the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1412 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 44 Labor and Environment on S.B. No. 1413

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 6.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1413 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 45 Labor and Environment on S.B. No. 1414

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 7.

Testimony in support of this measure was received from the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1414 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 46 Labor and Environment on S.B. No. 1415

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 8.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1415 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 47 Labor and Environment on S.B. No. 1416

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 9.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1416 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 48 Labor and Environment on S.B. No. 1417

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 10.

Testimony in support of this measure was received from the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1417 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 49 Labor and Environment on S.B. No. 1418

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 11.

Testimony in support of this measure was received from the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1418 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 50 Labor and Environment on S.B. No. 1419

The purpose of this measure is to appropriate funds for the 1999-2001 fiscal biennium to cover cost items contained in the negotiated agreement for bargaining unit 13.

Testimony in support of this measure was received from the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that negotiations are currently in progress for this bargaining unit. This measure is being reported out of committee in anticipation of the need for a mechanism to fund the cost items in the resulting agreement.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1419 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 51 Transportation and Intergovernmental Affairs on S.B. No. 161

The purpose of this measure is to gradually increase the age of minors not allowed to be carried in the bed or load-carrying area of a pickup truck so that by January 1, 2004, all minors under the age of eighteen are prohibited.

Testimony in support of this measure was received from the Department of Transportation, Police Department of the City and County of Honolulu, Hawaii Insurers Council, and Mothers Against Drunk Driving. The Hawaii State Department of Health and the Keiki Injury Prevention Coalition submitted testimony in support of the intention of this measure with recommendations that the ban should also extend to adults.

Currently, minors under the age of thirteen may not be carried in the bed or load-carrying area of a pickup truck. The testimony received by your Committee indicated that passengers, especially minors, are at increased risk of serious injury and death when riding in the bed or load-carrying area of trucks. This measure will help in reducing that risk by applying the ban to older minors.

Upon consideration of all pertinent issues and testimony presented, your Committee finds that this measure will improve highway safety for minors and the public in general.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 161 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Buen, Ige, D., Taniguchi).

SCRep. 52 Transportation and Intergovernmental Affairs on S.B. No. 1169

The purpose of this measure is to strengthen the driver's licensing law with respect to minors to promote safety and responsibility.

Specifically, this measure will:

- (1) Establish a driving curfew between the hours of 11 p.m. and 4 a.m. for all minors under the age of eighteen, unless accompanied by a licensed driver over age twenty-one, or when driving is necessary for school or work activities, or the minor is an emancipated minor;
- (2) Require the Director of Transportation to establish and certify a behind-the-wheel driver training program and to require applicants for a driver's license to complete such training;
- (3) Require applicants for a driver's permit to complete a driver education course; and
- (4) Require the courts to revoke the license of any driver under age eighteen, who is convicted of, or found to have committed a traffic infraction, other than parking, standing and equipment offenses, and offenses by pedestrians.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT), the Department of Commerce and Consumer Affairs, the Department of Health, the Police Department of the City and County of Honolulu, the Governor's Highway Safety Council, the Keiki Injury Prevention Coalition, Mothers Against Drunk Driving, and Hawaii Youth in Action. The Office of the Public Defender submitted testimony in opposition.

Your Committee finds that in Hawaii, teenage drivers are more than twice as likely to be in a fatal crash as adult drivers. While teenage drivers account for only five percent of all licensed drivers, they account for eleven percent of all drivers involved in fatal crashes, according to a 1997 report by the National Association of Independent Insurers.

Your Committee further finds that the DOT has received extensive community input on traffic safety issues during the Oahu Trans 2K public hearing process and through a community attitude survey conducted in November 1998. In the Oahu Trans 2K hearings, the overwhelming majority of public requests regarding traffic safety were for greater education for new drivers in traffic laws and driving skills. The survey found that seventy-seven percent of statewide respondents supported a mandatory driver education course in order to obtain a learners permit, and seventy percent supported nighttime restrictions on driving.

Your Committee believes that this measure is an effective response to driver safety concerns, ensuring that new drivers have adequate training and making Hawaii's streets safer for both teenage drivers and the public in general.

Your Committee has amended this measure to make technical amendments to conform to standard drafting procedures.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1169, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1169, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 53 Transportation and Intergovernmental Affairs on S.B. No. 1186

The purpose of this measure is to suspend the driving privileges of persons, especially minors and persons under the age of twenty-one, who commit an act constituting graffiti and to clarify the definition of graffiti.

Testimony in support of this measure was received from one individual. Testimony in opposition to this measure was received from the Office of the Public Defender.

Testimony indicated that graffiti is a major problem in this State. However, the Office of the Public Defender testified that this measure inequitably punishes minors and persons under the age of twenty-one who highly value driving privileges. This measure would suspend the driving privileges of a sixteen year old minor who committed an act constituting graffiti for five years until the minor reached the age of twenty-one. Persons over the age of seventeen would have their driving privileges suspended for one year.

Your Committee finds that although this measure provides for substantial penalties for persons, especially minors and persons under the age of 21, who commit an act constituting graffiti, these penalties will serve as an effective deterrent against graffiti in this State.

Your Committee has amended this measure by clarifying that these penalties apply to persons and minors who commit acts constituting graffiti.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1186, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1186, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Iwase, Taniguchi, Slom).

SCRep. 54 Transportation and Intergovernmental Affairs on S.B. No. 76

The purpose of this measure is to authorize the issuance of general obligation bonds and make an appropriation for capital improvement projects for the county of Kauai.

Testimony in support of this measure was received from the Kauai County Council, Transportation Agency of the County of Kauai, Police Department of the County of Kauai (KPD), Kauai Chapter of the State of Hawaii Organization of Police Officers, Contractors Association of Kauai, Textron Systems Kauai, and Poipu Beach Resort Association.

Testimony indicated support for the appropriations in this measure with particular support for a new headquarters for the KPD and civil defense operating center. The current building that serves as headquarters for the KPD is a substandard structure that has leaking roofs, experiences regular flooding, lacks locker facilities for female police officers, and provides inadequate office space and detention facilities. Testimony also indicated that the civil defense operating center was inadequate to handle current operations.

Your Committee finds that the KPD is in need of a new headquarters and the other projects proposed in this measure will improve the safety, security, welfare, and overall quality of life for residents of Kauai County.

Your Committee has amended this measure by deleting the amounts appropriated and deferring this determination to the Committee on Ways and Means. Your Committee also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 76, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 55 Transportation and Intergovernmental Affairs on S.B. No. 959

The purpose of this measure is to redefine "special facility" to include air cargo operations for purposes of issuing special facility revenue bonds and leases for airports.

Testimony in support of this measure was received from Hawaiian Airlines, Inc. and testimony commenting on the measure with suggested amendments was received from the Department of Budget and Finance, and the Airlines Committee of Hawaii.

Testimony in opposition to this measure was received from the Department of Transportation.

Your Committee believes that permitting the issuance of special facility revenue bonds and leases for air cargo facilities and operations will foster economic growth in the State.

Your Committee has amended this measure to further clarify that the term "special facility" includes air cargo facilities and operations, and to make technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 959, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 959, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Iwase, Taniguchi, Slom).

SCRep. 56 Transportation and Intergovernmental Affairs on S.B. No. 1255

The purpose of this measure is to authorize the issuance of general obligation bonds to build a Hawaii Island veterans memorial center.

Your Committee received testimony in support of this measure from the Office of Veterans Services, the Advisory Board of Veterans Services, the Big Island Veterans Association, the Hawaii Island Veterans Memorial, Inc., the Hawaii Island Veterans Memorial Organization, the Oahu Veterans Council, and two individuals.

Your Committee finds that there are over 14,000 veterans in Hawaii County. After many, many years of planning and working to develop a sound, comprehensive program of services, a suitable site had been identified and is available. When completed, the center will be a one-stop facility, providing counseling, financial assistance, and medical care, as well as a variety of other support services, and space for other veterans organizations.

Your Committee is in full support of this facility and the services it will provide to veterans on the Island of Hawaii. Your Committee has amended this measure to delete specific dollar amounts, and defers to the Committee on Ways and Means for final determination.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1255, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 57 Transportation and Intergovernmental Affairs on S.B. No. 1256

The purpose of this measure is to appropriate funds for the establishment of an interisland ferry system between the islands of Maui and Molokai.

Testimony in support of this measure was received from the Department of Transportation (DOT), County Council for the County of Maui, and Chamber of Commerce of Hawaii.

Testimony indicated that the DOT needs \$3.75 million for the acquisition of a ferry vessel to establish an interisland ferry system between the islands of Maui and Molokai. The DOT is currently pursuing Federal Transit Administration funding for federal fiscal year 2000 in the amount of \$3 million with a local match of \$750,000. The proposed interisland ferry system would provide a vital employment link between the islands of Maui and Molokai by creating a low-cost alternative to travelling by plane between the islands. As a result, an interisland ferry system would have a positive economic impact on both the islands of Maui and Molokai.

Your Committee has amended this measure by inserting \$750,000 as the amount being appropriated and clarifying that the amount appropriated is matching funds for the \$3 million in funds being pursued by the DOT from the Federal Transit Administration.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1256, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1256, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 58 Transportation and Intergovernmental Affairs on S.B. No. 808

The purpose of this measure is to add assault to the list of criminal activities that the liquor commission may consider in revocation or suspension of renewal of an existing liquor license.

Your Committee received testimony in support of this measure from the Ala Moana/Kakaako Neighborhood Board No. 11 and two individuals.

Your Committee finds expanding the factors that the liquor commission may consider during license renewals will help to further alleviate problems for residents in neighborhoods where these establishments are located. The measure will give the commission additional controls, and result in a better quality of life for nearby residents.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 59 Transportation and Intergovernmental Affairs on S.B. No. 1168

The purpose of this measure is to authorize the State to license a driver with a valid and qualified commercial driver's license issued by another state or a Canadian province, without requiring the driver to pass a knowledge or skills test, unless a hazardous materials endorsement is required.

Your Committee received testimony in support of this measure from the Department of Transportation.

Your Committee finds that this amendment will promote consistency within the State in the administration of the commercial driver's license program, while adhering to compliance with the minimum federal standards for commercial driver's licensing.

Your Committee is in support of this measure, and has made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1168, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1168, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 60 Transportation and Intergovernmental Affairs on S.B. No. 1194

The purpose of this measure is to permit school buses to utilize high occupancy vehicle and zipper lanes.

Testimony in opposition to this measure was received from the Department of Transportation, Chamber of Commerce of Hawaii, and Leeward Oahu Transportation Management Association.

Testimony in opposition to this measure pointed out that school buses are already permitted in the high occupancy vehicle and zipper lanes provided that those vehicles meet the minimum occupancy requirements.

Your Committee believes that permitting school buses to utilize high occupancy vehicle and zipper lanes, regardless of the number of occupants, will reduce traffic congestion and improve overall traffic flow on the State's highways.

Your Committee has amended this measure to clarify that the inclusion for school buses is a statutory requirement not subject to change by rule or county ordinance. Your Committee also amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1194, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 61 Government Operations and Housing on S.B. No. 290

The purpose of this short form bill is to effectuate the purpose of this Act.

The purpose of this measure, as amended, is to require fifty percent of the expenditures from the Homes Revolving Fund and the Dwelling Unit Revolving Fund to be used for units which are affordable to persons and families with incomes at or below thirty percent of the median income level.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the action to report out S.B. No. 290, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 290, S.D. 1, and be recommitted to the Committee on Government Operations and Housing for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Levin, Matsunaga, Sakamoto, Anderson).

SCRep. 62 Judiciary on Gov. Msg. No. 131

Recommending that the Senate advise and consent to the nomination of the following:

CIRCUIT COURT OF THE FIRST CIRCUIT

REYNALDO D. GRAULTY, gubernatorial nominee to the Circuit Court of the First Circuit, for a term of Ten Years,

Upon review of the background information submitted by the nominee, your Committee finds that Reynaldo D. Graulty holds a Bachelor's degree from the State University of New York at Albany and a J.D. degree from the University of Hawaii Richardson School of Law. Mr. Graulty has seventeen years of legal experience in private practice and served eight years in the Hawaii State

Legislature, first as a State Representative and subsequently as a State Senator. In addition, Mr. Grauly was appointed to serve as the State Insurance Commissioner in 1997. Mr. Grauly has been honored with several awards and recognition, including being named as one of the Five Outstanding Freshmen Legislators from the Twelfth State Legislature by the Honolulu Star Bulletin and awarded "Senator of the Year" for exemplary public service in 1995 by Common Cause Hawaii. Mr. Grauly also serves on the Board of Directors for the Legal Aid Society of Hawaii and is a member of the Juvenile Justice State Advisory Council.

Testimony in support of the nominee was submitted to your Committee by: the Department of Commerce and Consumer Affairs; the Office of the Public Defender; the Chief Deputy Public Defender; Hawaii State Bar Association; twenty-five business and community organizations; sixteen members of the legal community; and eleven private citizens. All testimony unanimously supported the nomination of Mr. Grauly by indicating that he is fair, impartial, compassionate, intelligent, hard working, and possess the highest level of integrity. Further, testifiers acknowledged that Mr. Grauly possesses the legal knowledge and ability, professional experience, judicial temperament, and diligence needed to be qualified as a judge in the First Circuit Court. Testimony was submitted by the Prosecuting Attorney for the City and County of Honolulu, commending the personal attributes of Mr. Grauly but raising concerns regarding the selection of Mr. Grauly over more experienced District Court Judges.

Your Committee members diligently questioned the nominee regarding his legal experience and the concerns expressed by the Prosecuting Attorney. In addition, your Committee questioned Mr. Grauly regarding his views on tort reform and whether he would face potential conflicts as a circuit court judge based upon his years as a legislator crafting these same laws. Your Committee believes that the nominee adequately responded to the Committee's inquiries.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee, after full consideration of the background, character, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate consent to the nomination.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Ihara, Sakamoto, Anderson).

SCRep. 63 Judiciary on S.B. No. 1017

The purpose of this bill is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii pursuant to chapter 23G, Hawaii Revised Statutes, to correct errors, update references, clarify language, and delete obsolete or unnecessary provisions.

Your Committee finds that all of the statutory amendments proposed by the measure are of a purely technical nature and either contain no substantive changes to the law, or, if they have any substantive effect, are done simply to correct the types of errors noted in this report.

Your Committee finds the reasons for the respective technical amendments made in the bill are as follows:

Section 1. Section 53-7(1), HRS, makes reference to "paragraphs (10) and (16) of section 53-1". L 1998, c 2, §19, amended §53-1, HRS, by, inter alia, deleting the paragraph designations. Section 53-7(1), HRS, should be amended by deleting "paragraphs (10) and (16) of" to conform to the amendment made to §53-1, HRS, by L 1998, c 2, §19.

Section 2. Section 53-53(1) and (2), HRS, makes reference to "[paragraph] (13) of section 53-1" and "[paragraph] (3) of section 53-1", respectively. L 1998, c 2, §19, amended §53-1, HRS, by, inter alia, deleting the paragraph designations. Section 53-53(1) and (2), HRS, should be amended by deleting "[paragraph] (13) of" and "[paragraph] (3) of", respectively, to conform to the amendment made to §53-1, HRS, by L 1998, c 2, §19.

Section 3. L 1998, c 51, §1, amended §76-28, HRS, by, inter alia, deleting the requirement that appointing authorities file notices of personnel actions, and to require instead that appointing authorities file "necessary forms" of personnel actions. Section 76-28, as amended, does not refer to "notices". The title to §76-28, however, still reads "Notices required of appointing authorities". Section 76-28, HRS, should be amended by amending its title to "Forms required of appointing authorities" to conform to the amendments made to §76-28 by L 1998, c 51, §1.

Section 4. L 1998, c 81, §3, amended §291-11.5(e), HRS, by, inter alia, requiring persons convicted of violating §291-11.5, HRS, for the first time to attend a child passenger restraint system safety class. Paragraphs (2)(C) and (3)(C) of subsection (e), as amended, however, refer to "child passenger system safety class". The omission of the word "restraint" in the reference to the safety class appears to have occurred as a result of a simple oversight. Section 291-11.5(e)(2)(C) and (e)(3)(C), HRS, should be amended by deleting the brackets around the word "restraint" in "child passenger restraint system safety class" to ratify the revisor's addition of "restraint".

Section 5. L 1998, c 145, §1, enacted §291C-133, HRS, regarding a motor vehicle driver's responsibility for removing waste material that falls from the motor vehicle onto a highway or roadway. Section 291C-133's title, as enacted, read "Waste material from motor vehicles". The revisor added the word "falling" after "Waste material" to make the title more clearly reflect the contents of the section. Section 291C-133, HRS, should be amended by deleting the brackets around the section title and the section number to ratify both the revisor's addition of the word "falling" in the title and the revisor's numbering of the section.

Section 6. L 1998, c 257, §1, added a new part to chapter 323D, HRS, which included §323D-82, HRS. As enacted, §323D-82 stated that "A person who has acquired or is engaged in the acquisition of a hospital shall not substantially reduce or eliminate direct patient care services at the hospital...." The remainder of the sentence refers to "reduction or elimination". The word "of" in "substantially reduce or eliminate" is apparently the result of a typographical error. Section 323D-82, HRS, should be amended by deleting the brackets around the word "or" in "substantially reduce or eliminate" to ratify the revisor's replacement of the word "of" with "or". Section 323D-82, HRS, should also be amended by deleting the brackets around the section number to ratify the revisor's numbering of the section.

Section 7. L 1998, c 242, §13, amended §342P-28, HRS, by, inter alia, amending the last sentence of the section to require that fees be deposited to the credit of the asbestos and lead abatement special fund. L 1998, c 311, §20, also amended §342P-28, HRS, by, inter alia, amending the last sentence to require that fees be deposited to the credit of the noise, radiation, and indoor air quality special fund. The revisor added the word "or" in the last sentence of §342P-28 to require that fees be deposited to the credit of the "asbestos and lead abatement special fund or noise, radiation, and indoor air quality special fund", to conform to the amendments made by L 1998, c 242, §13 and c 311, §20. Section 342P-28, HRS, should be amended by deleting the brackets around the word "or" to ratify the revisor's addition of "or".

Section 8. L 1998, c 206, §2, enacted §351-62.6, HRS. Section 351-62.6(a), as enacted, makes reference to the "criminal injuries compensation fund under section 351-62.5". L 1998, c 206, §3, amended §351-62.5, HRS, by, inter alia, renaming the "criminal injuries compensation fund" the "criminal injuries compensation special fund". L 1998, c 240, §7, also amended §351-62.5 by substituting "crime victim compensation fund" for "criminal injuries compensation fund". Thus, as a result of the amendments made to §351-62.5, HRS, by L 1998, c 206, §3 and c 240, §7, the criminal injuries compensation fund was renamed the "crime victim compensation special fund". The revisor replaced the reference to "criminal injuries compensation fund" in §351-62.6(a), HRS, with "crime victim compensation special fund", to conform to the amendments made by L 1998, c 206, §3 and c 240, §7. Section 351-62.6(a), HRS, should be amended by deleting the brackets around "crime victim compensation special fund" to ratify the revisor's replacement of "criminal injuries compensation fund" with "crime victim compensation special fund".

Section 9. L 1998, c 240, §7, amended §351-64.5, HRS, by substituting "crime victim compensation fund" for "criminal injuries compensation fund". The criminal injuries compensation fund is established in §351-62.5, HRS. L 1998, c 206, §3, amended §351-62.5 by, inter alia, renaming the "criminal injuries compensation fund" the "criminal injuries compensation special fund". L 1998, c 240, §7, also amended §351-62.5 by substituting "crime victim compensation fund" for "criminal injuries compensation fund". Thus, as a result of the amendments made to §351-62.5, HRS, by L 1998, c 206, §3 and c 240, §7, the criminal injuries compensation fund was renamed the "crime victim compensation special fund". The revisor replaced the word "fund" in "crime victim compensation fund" in §351-64.5(b), HRS, with "special fund" to conform to the amendments made by L 1998, c 206, §3 and c 240, §7. Section 351-64.5(b), HRS, should be amended by deleting the brackets around "special fund" in "crime victim compensation special fund" to ratify the revisor's replacement of "fund" with "special fund".

Section 10. L 1998, c 240, §7, amended §351-70, HRS, by substituting "crime victim compensation fund" for "criminal injuries compensation fund". The criminal injuries compensation fund is established in §351-62.5, HRS. L 1998, c 206, §3, amended §351-62.5 by, inter alia, renaming the "criminal injuries compensation fund" the "criminal injuries compensation special fund". L 1998, c 240, §7, also amended §351-62.5 by substituting "crime victim compensation fund" for "criminal injuries compensation fund". Thus, as a result of the amendments made to §351-62.5, HRS, by L 1998, c 206, §3 and c 240, §7, the criminal injuries compensation fund was renamed the "crime victim compensation special fund". The revisor replaced the word "fund" in "crime victim compensation fund" in §351-70, HRS, with "special fund" to conform to the amendments made by L 1998, c 206, §3 and c 240, §7. Section 351-70, HRS, should be amended by deleting the brackets around "special fund" in "crime victim compensation special fund" to ratify the revisor's replacement of "fund" with "special fund".

Section 11. L 1998, c 240, §7, amended §351-84, HRS, by substituting "crime victim compensation fund" for "criminal injuries compensation fund". The criminal injuries compensation fund is established in §351-62.5, HRS. L 1998, c 206, §3, amended §351-62.5 by, inter alia, renaming the "criminal injuries compensation fund" the "criminal injuries compensation special fund". L 1998, c 240, §7, also amended §351-62.5 by substituting "crime victim compensation fund" for "criminal injuries compensation fund". Thus, as a result of the amendments made to §351-62.5, HRS, by L 1998, c 206, §3 and c 240, §7, the criminal injuries compensation fund was renamed the "crime victim compensation special fund". The revisor replaced the word "fund" in "crime victim compensation fund" in §351-84(b), HRS, with "special fund" to conform to the amendments made by L 1998, c 206, §3 and c 240, §7. Section 351-84(b), HRS, should be amended by deleting the brackets around "special fund" in "crime victim compensation special fund" to ratify the revisor's replacement of "fund" with "special fund".

Section 12. L 1998, c 240, §7, amended §354D-12, HRS, by substituting "crime victim compensation fund" for "criminal injuries compensation fund". The criminal injuries compensation fund is established in §351-62.5, HRS. L 1998, c 206, §3, amended §351-62.5 by, inter alia, renaming the "criminal injuries compensation fund" the "criminal injuries compensation special fund". L 1998, c 240, §7, also amended §351-62.5 by substituting "crime victim compensation fund" for "criminal injuries compensation fund". Thus, as a result of the amendments made to §351-62.5, HRS, by L 1998, c 206, §3 and c 240, §7, the criminal injuries compensation fund was renamed the "crime victim compensation special fund". The revisor replaced the word "fund" in "crime victim compensation fund" in §354D-12(b)(1), HRS, with "special fund" to conform to the amendments made by L 1998, c 206, §3 and c 240, §7. Section 354D-12(b)(1), HRS, should be amended by deleting the brackets around "special fund" in "crime victim compensation special fund" to ratify the revisor's replacement of "fund" with "special fund".

Section 13. L 1998, c 252, §4, amended §431:14A-103(e) and (f), HRS. Prior to amendment, subsection (f) referred to "insolvency fund, or education and training fund". L 1998, c 252, §4, amended subsection (f), by, inter alia, omitting the words "or

education" before "and training fund" without bracketing or underscoring. The omission of "or education" appears to have occurred as a result of a simple oversight. Section 431:14A-103(f), HRS, should be amended by deleting the brackets around "or education" to ratify the revisor's replacement of "or education" before "and training fund".

Section 14. Section 468M-17, HRS, pertains to the adoption of rules. Section 468M-17, HRS, does not refer to regulations. However, the title of §468M-17 reads "Rules and regulations". Section 468M-17, HRS, should be amended by amending its title to delete "and regulations" to make the title consistent with the contents of the section. Section 468M-17, HRS, should also be amended by deleting the brackets around the section number to ratify the revisor's numbering of the section.

Section 15. L 1998, c 258, §11, amended §485-16, HRS, by, inter alia, adding subsection (b). Section 485-16(b), HRS, makes several references to "principal place of business". However, the beginning of the first sentence of subsection (b) refers to "an investment adviser that maintains its principal place in a state...." The omission of the words "of business" after "principal place" appears to have occurred as a result of a simple oversight. Section 485-16(b), HRS, should be amended by deleting the brackets around the words "of business" to ratify the revisor's addition of the words "of business".

Section 16. Section 571-84, HRS, was amended by L 1997, c 317, §4 and c 318, §3. L 1997, c 317, §4, amended §571-84(a). L 1997, c 318, §3, made several amendments to §571-84. Subsection (e) was amended, inter alia, to include a reference to subsection (j). However, subsection (j) does not exist.

An earlier draft of H.B. No. 106, which later became Act 318, had amended §571-84 to include a new subsection (j) (H.B. No. 106, H.D.1, S.D.1). The final draft of H.B. No. 106 (H.D.1, S.D.1, C.D.1) deleted subsection (j), but did not delete the reference to subsection (j) found in subsection (e). Therefore, §571-84(e), HRS, should be amended to delete the reference to subsection (j).

Section 17. L 1998, c 269, §1, enacted two new sections, one of them §706-646, HRS. Section 706-646(2) makes reference to the "criminal injuries compensation commission". Section 351-11, HRS, establishes the criminal injuries compensation commission. L 1998, c 240, §4 amended §351-11 by renaming the "criminal injuries compensation commission" the "crime victim compensation commission". The revisor replaced "criminal injuries compensation commission" with "crime victim compensation commission" in §706-646(2), to conform to the amendment made by L 1998, c 240, §4. Section 706-646(2), HRS, should be amended by deleting the brackets around "crime victim compensation commission" to ratify the revisor's replacement of "criminal injuries compensation commission" with "crime victim compensation commission".

Section 18. Section 709-906, HRS, is entitled "Abuse of family and household members; penalty". However, the section itself refers to and defines "family or household member". Section 709-906, HRS, should be amended by amending its title to "Abuse of family or household members; penalty" to make the title consistent with the contents of the section. Support for this amendment is also found in the fact that L 1998, c 172, §1, amended §586-1, HRS, by, inter alia, amending the defined term of "Family and household members" to "Family or household member".

Section 19. Section 712A-4, HRS, enumerates the offenses for which property is subject to forfeiture under chapter 712A. L 1998, cc 155 and 307 amended §712A-4. Both acts added new offenses for which property is subject to forfeiture; c 155, insurance fraud and c 307, unauthorized entry into motor vehicle. The amendments were harmonized so that effect was given to each.

L 1997, c 277, §3, amended §712A-4, by adding trademark counterfeiting as an offense for which property is subject to forfeiture.

L 1998, c 155, §4, amended the 1997 version of §712A-4. However, L 1998, c 307, §1, used the pre-1997 version of §712A-4 for amendment, omitting the reference to trademark counterfeiting.

Section 712A-4, HRS, should be amended to delete the brackets around "trademark counterfeiting," to ratify the revisor's replacement of "trademark counterfeiting".

Section 20. The regulation of activity providers was first enacted in 1990 by Act 214 and was scheduled for repeal on June 30, 1991.

In 1991, Act 240 amended L 1990, c 214, to, inter alia, extend the repeal date to June 30, 1993. Act 240 was also conditioned with a repeal date of June 30, 1993 (L 1991, c 240, §4).

The legislature extended and, ultimately, deleted L 1990, c 214's repeal date. (See L 1992, c 231, L 1995, c 174, and L 1998, c 248.) However, L 1991, c 240, §4 was never amended to extend or delete c 240's June 30, 1993 repeal date. Although the lack of amendment to L 1991, c 240, §4, was apparently due to a simple oversight, the fact that the June 30, 1993 repeal date was never extended or deleted may raise ambiguity regarding the validity of the amendments that L 1991, c 240 made to L 1990, c 214.

The legislature's subsequent actions in amending L 1991, c 240, however, clearly indicate that the legislature intended the amendments made by L 1991, c 240 to continue beyond c 240's June 30, 1993 repeal date. L 1991, c 240, §4, should be amended by deleting the June 30, 1993 repeal date.

Section 21. L 1998, c 53, §1, amended §76-56, HRS. The prefatory language in §1 stated that "Section 76-28" was amended. However, §1 set forth and amended §76-56, HRS. The prefatory language in L 1998, c 53, §1, should be amended to state that it is "Section 76-56" that is amended.

Section 22. L 1998, c 78, §3, amended L 1988, c 202, §3. The prefatory language in L 1998, c 78, §3 stated that "Act 202, Session Laws of Hawaii 1998" was amended. However, the text of L 1988, c 202, §3 (as amended by L 1994, c 111, §4), is set forth in c 78, §3. Moreover, Conference Committee Report No. 41, dated May 1, 1998, regarding S.B. No. 2346 (Act 78) stated that "The purpose of this bill is to extend the sunset date of Act 202, Session Laws of Hawaii 1988, as amended by Act 111, Session Laws of Hawaii 1994,...." L 1998, c 78, §3, should be amended by amending the prefatory language to state that it is "Act 202, Session Laws of Hawaii 1988" that is amended.

Section 23. L 1998, c 176, §6, amended §171-2, HRS. The prefatory language in §6 stated that "Chapter 171-2" was amended. Chapter 171-2, HRS, does not exist. L 1998, c 176, §6, should be amended by amending the prefatory language to state that it is "Section 171-2" that is amended.

Section 24. L 1998, c 219, §6, amended §501-20, HRS, by adding five new definitions but set forth the five definitions with the section title.

The use of "definition" rather than "definitions" in the prefatory language in §6 appears to be the result of a typographical error. Thus, the prefatory language in §6 should be amended to replace "definition" with "definitions". Section 6 should also be amended by deleting the following:

"§501-20 Definitions. As used in this chapter, unless the context otherwise requires:"

to clarify that the five new definitions are to be added to, and are not to replace, the existing definitions in §501-20, HRS.

Section 25. L 1998, c 229, §1, amended chapter 323F, HRS, by adding two new sections; however, the prefatory language in §1 stated that "three new sections" were being added. L 1998, c 229, §1, should be amended by amending the prefatory language to state that chapter 323F, HRS, is amended by adding "two new sections".

Section 26. L 1998, c 242, §7, amended §342P-5, HRS. The prefatory language in §7 stated that "Section 342P-5, Hawaii Revised Statutes, is amended by amending subsections (a) and (b) to read as follows:". However, §7 amended §342P-5, HRS, by amending the section title as well as subsections (a) and (b). L 1998, c 242, §7, should be amended by amending the prefatory language to include "the title and" before "subsections (a) and (b)" to clarify that §342P-5, HRS, is amended by amending the section title and subsections (a) and (b).

Section 27. L 1998, c 311, §15, amended §321-27, HRS. The prefatory language in §15 stated that §321-27, HRS, was amended "by amending its title and subsections (a) and (b) to read as follows:" However, §15 set forth §321-27, HRS, in its entirety, and also amended subsection (d). The prefatory language in L 1998, c 311, §15, should be amended by deleting "by amending its title and subsections (a) and (b)" to make the prefatory language consistent with the amendments set forth in §15.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1017 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 64 Transportation and Intergovernmental Affairs on S.B. No. 75

The purpose of this measure is to authorize the issuance of general obligation bonds for Kauai County capital improvement projects.

Testimony in support of this measure was received from the Kauai County Council, Contractors Association of Kauai, Textron Systems Kauai, and Poipu Beach Resort Association. Oral testimony in support of this measure was received from a member of the Kauai County Council and the Kauai County Police Department.

Testimony indicated that some of the projects proposed in this measure are necessary infrastructure improvements for Kauai County, and, due to Kauai's weak economy, Kauai needs financial assistance from the State to fund these improvements. The appropriations for the civic center, Kapaa Ballpark lighting, and Hanapepe stadium sports complex are also important to Kauai's economic growth.

Your Committee has amended this measure by deleting all specified dollar amounts and defers this determination to the Committee on Ways and Means. Your Committee also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 75, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 75, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 65 Transportation and Intergovernmental Affairs on S.B. No. 1354

The purpose of this measure is to authorize the issuance of general obligation bonds for capital improvement projects for the county of Hawaii.

Testimony in support of this measure was received from the mayor of the county of Hawaii.

Your Committee finds that the capital improvement projects contained in this measure will improve the health and safety of the residents of the county of Hawaii. Several of the projects are tied to State programs and facilities such as those for the Department of Education. In addition, this measure includes department of water supply projects for the county of Hawaii which are aimed at developing domestic water sources and systems for the growing population.

Your Committee has amended this measure by deleting all specified dollar amounts and defers this determination to the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1354, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1354, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 66 Transportation and Intergovernmental Affairs on S.B. No. 1367

The purpose of this measure is to appropriate funds for the design and construction of improvements to Salt Lake Boulevard, Oahu.

Testimony in support of this measure was received from the Department of Design and Construction for the City and County of Honolulu, Aliamanu/Salt Lake/Foster Village No. 18 Neighborhood Board, and the Hawaii Operating Engineers Industry Stabilization Fund.

Testimony indicated that, due to its current financial situation, the City and County of Honolulu may not be able to fund the widening of the last unimproved section of Salt Lake Boulevard. Currently, Salt Lake Boulevard's existing two-lane configuration is not suited for the heavy traffic demand. Salt Lake Boulevard is not only used by residents within the area, but also by patrons of Stadium Mall, Costco, K-Mart, Salt Lake Shopping Center, other businesses in the Bougainville Industrial Park, and Aloha Stadium. In addition, Salt Lake Boulevard provides access to several public schools in the area and serves as an alternative to H-1 and the Moanalua Freeway.

Your Committee finds that improvements to Salt Lake Boulevard are needed in order to meet current and future traffic demands. In addition, these improvements will also create new construction opportunities for the State's construction industry.

Your Committee has amended this bill by deleting the amounts appropriated in this measure and deferring this determination to the Committee on Ways and Means. Your Committee also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1367, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1367, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 67 Transportation and Intergovernmental Affairs on S.B. No. 1379

The purpose of this measure is to classify assault against a law enforcement officer as a class C felony. This measure also classifies terroristic threatening against a law enforcement officer as terroristic threatening in the first degree.

Testimony in support of this measure was received from the Attorney General, Department of Land and Natural Resources, Police Department of the City and County of Honolulu, Department of the Prosecuting Attorney of the City and County of Honolulu, Police Department of the County of Maui, State of Hawaii Organization of Police Officers, and Community Coalition for Neighborhood Safety.

Testimony in opposition to this measure was received from the Office of the Public Defender.

Your Committee finds that police officers and other law enforcement officers are placed in difficult or potentially dangerous situations while performing their duties as they have the responsibility of protecting the community from crime. Under current law, it is a class C felony to assault correctional workers or educational workers who are engaged in the performance of their duties but a

misdeemeanor to assault a police officer. This measure amends the current law by broadening the scope to include assaults against any law enforcement officer, not only a police officer, and classifying such assaults as a class C felony.

Your Committee has amended this measure by making technical conforming amendments to reflect its intent.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1379, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1379, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 68 Economic Development on S.B. No. 454

The purpose of this measure is to require accurate labeling of aquatic food grown, manufactured, significantly processed, or landed in Hawaii.

Your Committee received testimony in support of this measure from the Office of Hawaiian Affairs, the Big Island Fishermen's Association, the Hawaii Fishermen's Foundation, and three individual fishermen. The Boat Owners Association of The State of Hawaii submitted testimony in favor of the concept. The Department of Agriculture, the Hawaii Food Industry Association, and the Hawai'i Restaurant Association submitted testimony in opposition. The Department of Business, Economic Development, and Tourism submitted comments.

Your Committee finds that mislabeling or deceptive labeling of aquatic products is a problem for both the local fishing industry and the consumer. Hawaii fishery operations must compete with cheaper, imported products often labeled with Hawaiian names and sold as local seafood. Many consumers, particularly visitors, are not aware of this and have no way of judging whether the "local catch" they purchase is truly from Hawaii.

Your Committee also finds, however, that referring to a fish type by its Hawaiian name is a strong marketing tool, especially for Hawaii's fledgling value-added seafood product manufacturers.

Your Committee understands that many of the parties concerned with this problem, state agencies charged with enforcement, local fishermen, Hawaii restaurants, and others have been meeting to resolve the issues of false or misleading labeling of aquatic products. While no unanimous recommendations have resulted, your Committee believes this measure will begin to address the problem.

Your Committee has amended this measure by amending subsections (c) and (d) of the measure, which relate to unlawful sales, to provide an exception:

- (1) For products that qualify as Hawaii-made under section 486-119, Hawaii Revised Statutes; or
- (2) Unless the term "imported" or the region of origin precedes the Hawaiian name.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 454, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 454, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kawamoto, Taniguchi).

SCRep. 69 Economic Development on S.B. No. 655

The purpose of this measure is to make an appropriation for the Visitor Aloha Society of Hawaii (VASH).

Your Committee received testimony in support of this measure from the Prosecuting Attorney of the City and County of Honolulu, the Visitor Aloha Society of Hawaii, the Visitor Aloha Society of Kauai, Inc., the Hawaii Tours and Activities Association, the Retail Merchants of Hawai'i, Outrigger Hotels & Resorts, Trade West, Inc., and one individual. The Hawaii Tourism Authority submitted comments.

Your Committee finds that VASH plays an important role in Hawaii's tourism industry, by assisting and providing "aloha service" to visitors who are victims of crime and other adversities during their stay in the islands. In the past year, VASH helped more than six hundred traumatized visitors on Oahu, and more than three hundred on Kauai, through a network of committed volunteers.

Your Committee believes that without the aloha of this nonprofit organization, these visitors would have gone home angry and disappointed and shared this disappointment to the detriment of Hawaii and its people. Your Committee is in strong support of the work of VASH and its value to our tourism industry. Your Committee has amended this measure to delete the specific dollar amount requested, and to make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 655, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 655, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 70 (Majority) Economic Development on S.B. No. 678

The purpose of this measure is to provide an appropriation for the development, promotion, and marketing of numerous sports related events.

Your Committee received comments on this measure from the Hawaii Tourism Authority.

Your Committee finds that Hawaii benefits from a strong calendar of sports events, which promote Hawaii as a desirable visitor destination through television and other media exposure. Your Committee further finds that sporting events also encourage the expansion and attraction of businesses by enhancing Hawaii's image as a center for health and fitness.

Your Committee believes that the participants and spectators who come to Hawaii for these events provide welcome support to the State's visitor industry in an increasingly competitive global market, and should be encouraged.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 678 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 2 (Ige, M., Slom). Excused, 1 (Taniguchi).

SCRep. 71 Economic Development on S.B. No. 809

The purpose of this measure is to allow a sole proprietor of a catamaran operating with a valid commercial registration certificate at Waikiki Beach to transfer the ownership and the commercial registration to a corporate entity.

Your Committee received testimony in support of this measure from the Boats Owners Association of The State of Hawaii and one individual. The Department of Land and Natural Resources submitted testimony in opposition. One individual submitted comments.

Your Committee finds that in 1984, the Legislature approved a measure to allow owners of commercial vessels with commercial permits, and moored in small boat harbors, to transfer both ownership of the vessel and the authority for the permit to a new corporate entity. However, Act 187, Session Laws of Hawaii 1984, did not extend to commercial catamaran owners operating at Waikiki Beach.

Your Committee further understands that only two of the seven catamaran operations currently at Waikiki Beach are sole proprietorship, and that the measure would not affect the total number of commercial catamaran operations.

Your Committee believes this measure will provide these two remaining sole proprietors with the option to make a one-time change to corporate ownership. Your Committee has amended this measure to make a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 72 Economic Development on S.B. No. 1222

The purpose of this measure is to provide a general excise tax exemption for motion picture producers and contractors who build a motion picture facility in Hawaii, and a corresponding use tax exemption for the motion picture producers and contractors who import materials, parts, tools, or equipment.

Your Committee received testimony in support of this measure from Bridge Capital, LLC. The Department of Taxation testified in opposition. The Department of Business, Economic Development, and Tourism and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that currently there is a shortage of quality movie sound stages, recording studios, and other facilities in Hawaii. If available, these facilities could support the rapid growth in the entertainment industry, particularly in the Pacific Rim.

Your Committee believes Hawaii has an opportunity to develop an expanded role in the production side of the entertainment industry and is in support of this measure. Your Committee has amended this measure by deleting reference to the production of

motion pictures as redundant to the current income tax credit for that activity under section 235-17, Hawaii Revised Statutes. Your Committee has further clarified the measure to apply to the construction of entertainment industry production facilities as reflected in the title of the new section, and corrected the effective date.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1222, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1222, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 73 Economic Development on S.B. No. 1427

The purpose of this measure is to expand the definition of "wholesaler" in the general excise tax law to include transactions carried on in the business of aquaculture production.

Your Committee received testimony in support of this measure from the Department of Agriculture, Boat Owners Association of The State of Hawaii, and the Hawaii Aquaculture Association. The Department of Taxation submitted testimony in opposition. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that under current law, many of the items aquaculture farmers purchase to use in aquaculture production, including equipment, feed, and materials are subject to the retail general excise tax rate.

Your Committee is in support of this measure and believes it will provide the aquaculture industry with the same tax benefits provided to other wholesalers and individuals in agriculture.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1427 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 74 Economic Development on S.B. No. 1443

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for the purpose of assisting the marketing of the hotel industry in Hawaii for incentives, special events, small conventions, and constructing a facility in Waikoloa, Hawaii.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism and the Department of Budget and Finance.

Your Committee finds that improving the visitor industry on the Island of Hawaii will help the economy of the Big Island, as well as the State as a whole. A facility serving the business and small convention traveler will provide both short term construction jobs and long term new visitor industry employment, as well as statewide alternatives to attract this growing market segment.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1443 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 75 Economic Development on S.B. No. 1454

The purpose of this measure is to implement the recommendations of the Thrill Craft Advisory Committee (Advisory Committee).

Specifically, this measure:

- (1) Imposes mandatory education and certification requirements for owners of personal watercraft;
- (2) Requires use of personal flotation devices by occupants or person's towed by personal watercraft; and
- (3) Redefines "thrill craft" as "personal watercraft".

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources (DLNR), the Boat Owners Association of The State of Hawaii, Mid-Pacific of Hawaii, Inc., Morning Star Cruises, Inc., and five individuals.

Your Committee finds that Senate Concurrent Resolution No. 128, Session Laws of Hawaii 1998, established a Thrill Craft Advisory Committee to consider a wide range of issues relating to personal watercraft operations. This measure will implement a number of recommendations from the Advisory Committee, and will increase the overall responsibilities of owners of personal watercraft for the actions of any user.

Your Committee supports the work of the Advisory Committee and believes the recommendations incorporated in this measure will help to achieve the desired level of safe, responsible operation of personal watercraft within State waters. Your Committee has amended this measure as suggested by the DLNR to clarify that the mandatory education and certification requirements apply to owners, not users, of watercraft. A technical, nonsubstantive amendment was also made for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1454, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1454, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 76 Economic Development on S.B. No. 1503

The purpose of this measure is to establish a mechanism to provide microenterprise technical assistance grants and loans to individuals and small businesses.

Your Committee received comments on this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that small, entrepreneurial businesses face many obstacles in both start-up operations and further development. Providing additional options for financing and technical assistance is critical to the success of these small companies, and a key component in Hawaii's economic recovery.

Your Committee is in support of the services provided by this measure. Your Committee has amended this measure, by adding definitions of Department and Director of Business, Economic Development, and Tourism and by making technical amendments.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1503, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1503, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 77 Government Operations and Housing on S.B. No. 285

The purpose of this short form bill is to effectuate the purpose of this Act.

The purpose of this measure, as amended, is to clarify the powers of the boards of directors of associations of apartment owners to enter into purchases agreements with lessors in order to facilitate and encourage voluntary lease-to-fee conversions of condominium projects.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the action to report out S.B. No. 285, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 285, S.D. 1, and be recommitted to the Committee on Government Operations and Housing for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 78 Education and Technology on S.B. No. 1154

The purpose of this measure is to continue the Library Enhanced Services program through July 1, 2002, past its original sunset date of July 1, 1999.

Testimony in support of this measure was submitted by the Hawaii State Public Library System, Makawao Library, the Friends of Pearl City Library, Kailua Public Library, Mountainview Library, Pahoa Public and School Library, and over 100 Hawaii State Public Library System employees and private patrons of the libraries. Testimony in support of the intent of this measure was submitted by Information Services.

In 1993, the Hawaii State Public Library System began an experiment under Act 327, Session Laws of Hawaii 1993, which designated and charged enhanced service fees for the rental of videocassettes, a fee schedule for meeting room use, and custom library services. Since that time, this revenue has been deposited into a special fund for the Hawaii State Public Library System.

Your Committee finds that the revenue garnered from the Enhanced Services program has helped supplement the funding needs for new and replacement materials systemwide. Furthermore, because of the State's continued financial hardships and inability to provide increased support to the libraries, your Committee believes that the Library's Enhanced Services program is an innovative and necessary initiative. The people of this State have accepted the practice that users of certain services pay for these services, and indeed prefer this program to the raising of taxes.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1154 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 79 Education and Technology on S.B. No. 1155

The purpose of this measure is to extend the already existing authority of the State Librarian to administratively reallocate vacant positions and to establish temporary positions for three years, until 2002.

Testimony in support of this measure was submitted by the Hawaii State Public Library System, Makawao Library, the Friends of Pearl City Library, Kailua Public Library, Mountainview Library, Paho Public and School Library, Information Services, and over 100 Hawaii State Public Library System employees and private patrons of the libraries. Testimony in opposition was submitted by the Hawaii Government Employees Association.

Your Committee finds that as the State's economy struggles with less money, the state library system needs to be able to utilize any and all existing and vacant library positions to serve the public efficiently and effectively. This measure will provide the libraries with the authority to reallocate vacant positions and/or establish temporary positions to support libraries when changes in demographics and needs have created staffing shortages. Your Committee further finds that the ability to reallocate staff to the reestablished central services units will provide cost-effective and timely acquisitions, cataloging, and automated system support services to the libraries.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1155 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 80 Education and Technology on S.B. No. 1181

The purpose of this measure is to allow the Department of the Attorney General to provide legal representation to the University of Hawaii, upon the request of the Board of Regents, in the same manner and extent as other state agencies.

Act 115, Session Laws of Hawaii 1998, granted the University of Hawaii greater management autonomy, including the authority to procure legal services independent from the Department of the Attorney General and the Governor in order to manage and resolve legal claims against itself. This measure will clarify the issue of whether or not the University continues to have the option of utilizing services from the Department of the Attorney General.

The conference committee report on H.B. 2560, Regular Session 1998 (Act 115), stated that the University of Hawaii's autonomy exempts the University from the requirement that the Attorney General represent all state departments, and allows the University Board of regents to appoint or retain attorneys. The intent of the Legislature was to allow the University to retain attorneys as necessary, and to continue to utilize the legal services of the Department of the Attorney General like other state agencies.

The Department of the Attorney General submitted testimony in support of this measure and proposed an amendment to hold the University fiscally responsible for any services they seek from the Department of the Attorney General.

Your Committee adopted the joint recommendation of the Department of the Attorney General and the University by amending section 1 of the measure to clarify that the Board of Regents may request and secure legal services from the Department of the Attorney General, upon mutual agreement. Your Committee also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1181, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1181, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 81 Education and Technology on S.B. No. 1183

The purpose of this measure is to make an emergency appropriation to allow the University of Hawaii to meet its general fund fiscal obligations under Hawaii Revised Statutes Chapter 304. This measure addresses the budgetary shortfall resulting from the transfer of fiscal year 1997-1998 encumbrances to fiscal year 1998-1999 which was necessitated by the University having to pay its faculty members on June 30, 1998, instead of on July 1, 1998.

Testimony in support of this measure was received from the University of Hawaii and the University of Hawaii Professional Assembly.

Although University funds were restricted in anticipation of the payroll lag authorized in Act 355, Session Laws of Hawaii 1997, the University of Hawaii Professional Assembly was granted a motion by the United States District Court for a preliminary injunction enjoining the governor and the comptroller of the State from lagging the payroll of the University faculty members. Unfortunately, this occurred after the completion of the University's purchasing activities which encumbered fiscal year 1997-1998 funds. In order to pay the faculty salaries, these purchasing encumbrances had to be transferred to fiscal year 1998-1999.

Your Committee finds that this measure addresses the budgetary shortfall for fiscal year 1998-1999. Past budgetary reductions have led to declines in the quality of University programs and in access to these programs. Your Committee believes that this emergency appropriation will allow the University to meet its fiscal obligations and carry out its educational mission of high quality teaching, research, and public service.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 82 Education and Technology on S.B. No. 1184

The purpose of this measure is to allow the University of Hawaii Board of Regents to approve its own financing agreements as defined in Chapter 37D, Hawaii Revised Statutes (HRS), when the principal amount does not exceed \$3,000,000.

Testimony in support of this measure was submitted by the University of Hawaii. Testimony in support of the intent of this measure was submitted by the University of Hawaii Professional Assembly.

Your Committee finds that while section 37D-2, HRS, currently requires all State agencies to obtain approvals when entering into financing agreements, the University had utilized financing agreements for the purchase of equipment for many years prior to the enactment of section 31D-2, HRS, without incident. Thus, your Committee further finds that the University is sympathetic to the intent of Chapter 37D, HRS, and will not abuse the fast-track authority provided in this measure. In addition, the cap of \$3,000,000 on the principal amount will provide a further safeguard. This measure will allow the University to secure equipment, goods, and services in a timely manner, with little risk or impact to the State's budgetary constraints.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1184 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 83 Education and Technology on S.B. No. 1299

The purpose of this measure is to streamline the University of Hawaii operations by removing a requirement to report each position and fund transfer in quarterly reports to the Governor and annual reports to the Legislature.

Testimony in support of this measure was submitted by the Department of Budget and Finance, and the University of Hawaii.

Your Committee agrees with the testimony given and finds that these transfer reports are not necessary as none of the other Executive departments have such a requirement. In addition, deleting this requirement is consistent with the spirit of autonomy and flexibility offered the University by Act 115, Session Laws of Hawaii 1998.

Your Committee has amended this measure to make technical, nonsubstantive changes to section 1 to properly reflect the statutory language and preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1299, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1299, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 84 Transportation and Intergovernmental Affairs on S.B. No. 1371

The purpose of this measure is to subject motor vehicle repair dealers who are required to register under chapter 437B, Hawaii Revised Statutes, to inspection by police officers for stolen vehicles.

Testimony in support of this measure was received from the Police Department of the City and County of Honolulu. Testimony in opposition to this measure was received from the Hawaii Automotive Repair and Gasoline Dealers Association.

Your Committee finds that many stolen vehicles are taken to "chop shops" where they are dismantled, altered, or defaced, and then resold or used for parts. Current law only permits the police to inspect registered motor vehicle repair dealers. This measure provides the police with an additional investigative tool to locate and recover stolen vehicles by authorizing the police to inspect any motor vehicle repair dealer required to be registered, whether the dealer is registered or not, for stolen vehicles.

Your Committee finds that this measure will deter motor vehicle theft and will aid in the recovery of stolen motor vehicles.

Your Committee has amended this measure by making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1371, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1371, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 85 Transportation and Intergovernmental Affairs on S.B. No. 348

The purpose of this measure is to effectuate the title of the measure.

Your Committee has amended this short form bill by inserting the contents of a proposed draft which permits the counties to establish towing company fees within their respective jurisdictions.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the action to report out S.B. No. 348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 348, S.D. 1, and be recommitted to the Committee on Transportation and Intergovernmental Affairs for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 86 Judiciary on S.C.R. No. 31

The purpose of this resolution, as received by your Committee, is to request a thorough manual recount of the 1998 general elections.

Your Committee finds that the Chief Election Officer, in consultation with the county clerks, determined that the methodology for conducting state elections needed to be changed for the 1998 elections due to both fiscal constraints and the lack of available technology and staff to support the existing punch-card voting method. Your Committee further finds that the Chief Election Officer entered into a sole source contract with Election Systems and Software (ES&S) to provide an electronic voting methodology and process, including all equipment and supplies necessary to conduct the primary and general elections. Unfortunately, both voter confusion due to the new voting method and machine malfunctions have been alleged to have caused discrepancies in the general election results. These discrepancies resulted in one court challenge and, more importantly, lack of voter confidence in our electoral process.

Your Committee notes that the Attorney General has opined that existing law only allows the Supreme Court to order recounts based upon a legal challenge filed by a candidate after an election and within the statutory deadlines. The Attorney General has further opined that the Chief Election Officer, under constitutional and statutory authority, may proceed with an unofficial recount of the elections results, but there exists no remedy in Hawaii law in the event that the results of an unofficial recount differ from the certified results.

Your Committee strongly believes that in order to restore voter confidence in our electoral process, and to further investigate the continued use of an electronic voting method, a full, complete, and duly supervised audit of the 1998 general election results should be conducted. Your Committee further believes that if the audit, which shall begin with an electronic recount of all ballots cast, reveals discrepancies between the 1998 general election results and the electronic recount, further manual recounts, to be determined by independent official observers, shall also be conducted. Additionally, when the Legislature receives the audit report, if there are indications of significant anomalies, then the Chief Election Officer should consider conducting a further inquiry into the primary election results.

Your Committee has amended this resolution by:

- (1) Changing its title to urge a "full, complete, and duly supervised audit of the 1998 general election results";
- (2) Clarifying that discrepancies resulting from a change in the voting methodology were not readily explained by the contractor, ES&S, nor the Chief Election Officer;
- (3) Clarifying that the discrepancies could have resulted from machine error, malfunction, or both;
- (4) Inserting a clause indicating that the contractor, ES&S, has agreed to pay all expenses for a complete audit of the 1998 general election, including an electronic recount of all votes and any manual recounts;
- (5) Providing that the Chief Election Officer, with the assistance of ES&S and in the presence of independent official observers, conduct an audit of the 1998 general election results;
- (6) Providing that the audit begin with the use of an infrared vote-counting machine to recount all ballots, including absentee ballots, and that the audit continue with manual recounts as determined by the Chief Election officer in consultation with the independent election observers;
- (7) Providing that an independent oversight committee comprised of the State Auditor, a representative of the Federal Elections Commission, and a representative of the Elections Center be appointed to observe, review, assess, and report on the objectivity and accuracy of the audit process;
- (8) Requiring that the Chief Election Officer submit to the legislature a report of the results of the audit no later than March 31, 1999;
- (9) Requiring that the independent oversight committee submit to the legislature a report of its findings regarding the objectivity and accuracy of the audit no later than March 31, 1999; and
- (10) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 31, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 31, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 87

Judiciary on S.R. No. 11

The purpose of this resolution, as received by your Committee, is to request a thorough manual recount of the 1998 general elections.

Your Committee finds that the Chief Election Officer, in consultation with the county clerks, determined that the methodology for conducting state elections needed to be changed for the 1998 elections due to both fiscal constraints and the lack of available technology and staff to support the existing punch-card voting method. Your Committee further finds that the Chief Election Officer entered into a sole source contract with Election Systems and Software (ES&S) to provide an electronic voting methodology and process, including all equipment and supplies necessary to conduct the primary and general elections. Unfortunately, both voter confusion due to the new voting method and machine malfunctions have been alleged to have caused discrepancies in the general election results. These discrepancies resulted in one court challenge and, more importantly, lack of voter confidence in our electoral process.

Your Committee notes that the Attorney General has opined that existing law only allows the Supreme Court to order recounts based upon a legal challenge filed by a candidate after an election and within the statutory deadlines. The Attorney General has further opined that the Chief Election Officer, under constitutional and statutory authority, may proceed with an unofficial recount of the elections results, but there exists no remedy in Hawaii law in the event that the results of an unofficial recount differ from the certified results.

Your Committee strongly believes that in order to restore voter confidence in our electoral process, and to further investigate the continued use of an electronic voting method, a full, complete, and duly supervised audit of the 1998 general election results should be conducted. Your Committee further believes that if the audit, which shall begin with an electronic recount of all ballots cast, reveals discrepancies between the 1998 general election results and the electronic recount, further manual recounts, to be determined by independent official observers, shall also be conducted. Additionally, when the Legislature receives the audit report, if there are indications of significant anomalies, then the Chief Election Officer should consider conducting a further inquiry into the primary election results.

Your Committee has amended this resolution by:

- (1) Changing its title to urge a "full, complete, and duly supervised audit of the 1998 general election results";
- (2) Clarifying that discrepancies resulting from a change in the voting methodology were not readily explained by the contractor, ES&S, nor the Chief Election Officer;
- (3) Clarifying that the discrepancies could have resulted from machine error, malfunction, or both;
- (4) Inserting a clause indicating that the contractor, ES&S, has agreed to pay all expenses for a complete audit of the 1998 general election, including an electronic recount of all votes and any manual recounts;
- (5) Providing that the Chief Election Officer, with the assistance of ES&S and in the presence of independent official observers, conduct an audit of the 1998 general election results;
- (6) Providing that the audit begin with the use of an infrared vote-counting machine to recount all ballots, including absentee ballots, and that the audit continue with manual recounts as determined by the Chief Election officer in consultation with the independent election observers;
- (7) Providing that an independent oversight committee comprised of the State Auditor, a representative of the Federal Elections Commission, and a representative of the Elections Center be appointed to observe, review, assess, and report on the objectivity and accuracy of the audit process;

- (9) Requiring that the independent oversight committee submit to the legislature a report of its findings regarding the objectivity and accuracy of the audit no later than March 31, 1999; and
- (10) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 11, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 11, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 88 Commerce and Consumer Protection on S.B. No. 484

The purpose of this measure is to increase the maximum limit for the value of a motor vehicle exempt from attachment and execution.

The Hawaii Financial Services Association, which was not present at the hearing, submitted written testimony in support of the measure. Verbal testimony was also presented by an individual at the hearing.

The current law, section 651-121(2), Hawaii Revised Statutes, established in 1976, allows a \$1,000 attachment and execution exemption for a motor vehicle. Your Committee finds that this is insufficient and would deprive most debtors of a reliable mode of transportation. Your Committee also finds that a motor vehicle is a basic necessity for many Hawai'i residents, especially those living in rural areas. Without a motor vehicle, many residents would be unable to travel to and from work, the store, and medical services.

This measure proposes a \$2,575 motor vehicle exemption that would ensure debtors facing bankruptcy can meet their basic transportation needs. The proposed exemption would also make State law consistent with the federal bankruptcy code, which currently allows a maximum \$2,575 motor vehicle exemption.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 484 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 89 Commerce and Consumer Protection on S.B. No. 860

The purpose of this measure is to include marriage and family therapists as mental health and substance abuse treatment providers under health insurance plans.

The Hawaii Association for Marriage and Family Therapy presented testimony in support of the measure. The Department of Health, the Libertarian Party, Benefit Capital Financial Services, Inc., the Hawaii Counseling and Education Center, Inc., and

numerous individuals submitted written supportive testimony, but were not present at the hearing. The Hawaii Psychological Association, which was not present at the hearing, submitted written testimony in opposition to the measure.

Currently, State law does not recognize marriage and family therapists as mental health and substance abuse treatment providers for insurance benefits coverage purposes. Therefore, those with health insurance who need the services of a marriage and family therapist must pay in full or go without.

This measure would rectify that situation, offer consumers more treatment options, and help develop private sector mental health and substance abuse treatment opportunities in underserved areas of the State. It would also allow the Department of Education to seek third party reimbursement for services provided to special needs students by licensed marriage and family therapists pursuant to the Felix-Waihee consent decree. Finally, this measure would create parity among the core mental health professions since physicians, psychologists, clinical social workers, and advanced practice registered nurses are presently authorized to provide mental health and substance abuse treatment services under health insurance plans and contracts.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 860 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 90 Commerce and Consumer Protection on S.B. No. 949

The purpose of this measure is to enact the Uniform Unincorporated Nonprofit Association Act (UUNAA).

The State Commission to Promote Uniform Legislation presented testimony in support of the measure. The Department of Commerce and Consumer Affairs presented comments on the measure. The Business Law Section of the Hawaii State Bar Association and two individuals, though not present at the hearing, submitted written testimony in support of the measure.

The UUNAA provides that when two or more members meet for nonprofit purposes, they will be treated as a legal entity with:

- (1) The authority to acquire, hold, and transfer personal and real property;
- (2) The authority to sue and be sued as a separate legal entity; and
- (3) Contract and tort liability separate from its officers and members.

Your Committee finds that enactment of the UUNAA will clarify the status of, and encourage citizen participation in, nonprofit associations such as homeowners' associations, parent-teacher associations, athletic clubs, civic associations, and neighborhood community associations.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 949 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 91 Commerce and Consumer Protection on S.B. No. 1139

The purpose of this measure is to conform the State's Uniform Limited Liability Company Act to amendments made to the Uniform Limited Liability Company Act (ULLCA).

The Department of Commerce and Consumer Affairs and a Hawaii commissioner to the National Conference on Uniform State Laws presented testimony in support of the measure. The Business Law Section of the Hawaii State Bar Association and two individuals, though not present at the hearing, submitted written supportive testimony.

Since Hawaii became the first state to adopt the ULLCA, the National Conference of Commissioners on Uniform State Laws has adopted several amendments to the Act. This measure incorporates those amendments and updates Hawaii's ULLCA. Additionally, this measure:

- (1) Repeals the prohibition against a limited liability company (LLC) engaging in the activities of financial institutions, insurance companies, and other professions;
- (2) Extends the period for reinstatement of a terminated LLC from ninety days to two years;
- (3) Allows an LLC to amend and restate its articles of organization in one procedure; and

- (4) Repeals the requirement that a court adjudicating the personal liability of LLC members apply case law relative to "piercing the corporate veil".

Your Committee has conformed the measure to preferred drafting style and made technical, nonsubstantive amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1139, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1139, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 92 Commerce and Consumer Protection on S.B. No. 1140

The purpose of this measure is to clarify and update the State's business registration laws.

The Department of Commerce and Consumer Affairs presented testimony in support of the measure. The Business Law Section of the Hawaii State Bar Association and two individuals, though not present, submitted written testimony in support of the measure.

The changes to the State's business registration laws effected by this measure will simplify the business registration process in the State and promote Hawaii as a favorable place to form and register businesses. Specifically, the measure would:

- (1) Eliminate the requirement that at least one member of the board of directors for a corporation be a resident of the State;
- (2) Require that corporations without a Hawaii resident director have a registered office and agent in the State;
- (3) Require that a corporation include in its articles of incorporation and annual reports the address of its registered office and the name of its registered agent;
- (4) Extend the time for corporations and partnerships to become reinstated from 90 days to 2 years from the date the corporation was involuntarily dissolved or the partnership's registration statement or certificate was cancelled; and
- (5) Ease certain requirements for amending articles of incorporation that will expedite the process of such filings.

Additionally, changes were made to the filing requirements for mergers and consolidations.

This measure also makes similar changes to chapter 415B, Hawaii Revised Statutes, which governs nonprofit corporations. A new section has also been added affirming that a nonprofit corporation can amend and restate its articles of incorporation at any time and specifies the procedure to do so.

Your Committee has made technical, nonsubstantive amendments to this measure for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1140, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 93 Commerce and Consumer Protection on S.B. No. 1141

The purpose of this measure is to establish a standard conversion procedure under which corporations, partnerships, limited liability partnerships, and limited liability companies may convert to any other form of business entity authorized under State law.

The Department of Commerce and Consumer Affairs presented testimony in support of this measure. The Business Law Section of the Hawaii State Bar Association and two individuals, though not present, submitted written testimony in support of this measure.

Your Committee finds that currently, a business entity wishing to convert into another form of a business entity is required to dissolve the business and form a new entity. This is often a time consuming and costly process.

This measure simplifies and expedites the conversion process by establishing a standard procedure common to all forms of business entities. By simplifying the conversion process, the State will provide greater flexibility for growing businesses operating in Hawaii and encourage new business development in the State.

Your Committee has made technical, nonsubstantive amendments to reflect preferred drafting style and add missing statutory language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 94 Commerce and Consumer Protection on S.B. No. 1142

The purpose of this measure is to establish procedures under which a corporation, partnership, limited liability partnership, or limited liability company may obtain administrative relief against an entity that has registered or is using a name that is substantially identical or confusingly similar to the name of the corporation, partnership, limited liability partnership, or limited liability company.

The Department of Commerce and Consumer Affairs (DCCA) presented testimony in support of the measure. The Business Law Section of the Hawaii State Bar Association and two individuals, though not present, submitted written testimony in support of the measure.

This measure provides businesses the opportunity to resolve business name disputes through the DCCA's administrative hearing process. Specifically, the bill allows a business to file a petition with the Director of DCCA for an order of abatement for infringement of the business' name and allows an appeal from the Director's order to Circuit Court. Your Committee finds that this process would be expeditious and less costly to businesses.

Your Committee has made technical, nonsubstantive amendments to this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1142, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1142, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 95 Commerce and Consumer Protection on S.B. No. 1143

The purpose of this measure is to allow the shareholder of a corporation to designate a proxy through the execution of a written document, including a written document containing a facsimile of the shareholder's signature, or by electronically transmitting an authorization to the proxy holder.

The Department of Commerce and Consumer Affairs presented testimony in support of this measure. The Business Law Section of the Hawaii State Bar Association and two individuals, though not present, submitted supportive testimony.

This measure provides an alternative, flexible, and more convenient means of designating a proxy and, thereby, facilitates and promotes shareholder participation in corporate decisionmaking.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1143 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 96 Commerce and Consumer Protection on S.B. No. 1178

The purpose of this measure is to clarify the term "related entities" for the purpose of identifying transactions exempt from the general excise tax.

The Department of Taxation presented testimony in support of the measure. The Tax Foundation of Hawaii submitted comments on the measure, but was not present at the hearing.

Current tax law allows for an exemption from the general excise tax for transactions between related entities, and defines "related entities" as an affiliated group of corporations, a controlled group of corporations, and entities connected through ownership of at least eighty per cent of the total value of each entity.

Your Committee finds that there is a loophole in the law as some taxpayers have been claiming a tax exemption despite the absence of a common ownership between the affiliated entities based upon eighty per cent of the entities' total voting power. This measure clarifies and tightens up the law by adopting the federal tax code standard for consolidated returns that requires commonality in ownership based upon eighty per cent value and eighty per cent voting power. The measure also provides that a group or combination of entities that constitute a "unitary business" for income tax purposes comes within the meaning of "related entities".

Your Committee has made technical, nonsubstantive amendments to this measure, and added missing statutory language.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1178, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 97 Commerce and Consumer Protection on S.B. No. 1512

The purpose of this measure is to replace the current Uniform Partnership Act with a law that conforms to the Revised Uniform Partnership Act.

The Department of Commerce and Consumer Affairs presented testimony in support of the measure. The Business Law Section of the Hawaii State Bar Association, one of the Hawaii commissioners to the National Conference of Commissioners on Uniform State Laws, and two individuals submitted written testimony in support of the measure, but were not present at the hearing.

The Revised Uniform Partnership Act restructures the fundamentals of partnership law to reflect modern business practices. Conforming Hawaii law to the revised Act will bring the State into line with current business practice and the revised partnership laws of other states, and thereby enhance the State's business climate.

Your Committee has made technical, nonsubstantive amendments to this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1512, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1512, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 98 Government Operations and Housing on S.B. No. 883

The purpose of this measure is to authorize the state finance director to issue short-term floating rate interest general obligation bonds for the repair and maintenance of state owned public housing.

Testimony in support of this measure was received from Legal Aid Society of Hawaii. Testimony in opposition to this measure was received from the Department of Budget and Finance and the Housing and Community Development Corporation of Hawaii.

Your Committee finds that this measure provides a mechanism to prevent small repairs from developing into serious repairs later. Providing for adequate maintenance and repairs on a regular basis will not only save money in the long run, but will also raise the living standards and self-esteem of the residents.

Your Committee has amended this measure by making a technical nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 883, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 883, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 99 Government Operations and Housing on S.B. No. 884

The purpose of this measure is to require financial institutions to provide refinancing of a mortgage loan if the current market interest rate is at least one and one half per cent lower than the existing mortgage rate.

Testimony in favor was received from the Hawaii Association of Realtors. Testimony in favor of the intent of this measure was received from the Department of Commerce and Consumer Affairs. Testimony opposed to this measure was received from the Hawaii Bankers Association, Hawaii Credit Union League, Hawaii League of Savings Institutions, and Mortgage Bankers Association of Hawaii.

Your Committee finds that in these hard economic times, foreclosures and short sales have increased because of the inability of borrowers to afford their monthly mortgage payments. Additionally, your Committee finds that currently, financial institutions are refusing to allow mortgagees to refinance their mortgage if their income is too low, whereby, monthly payments remain high, and disposable income is lowered even further.

Your Committee finds that refinancing a mortgage loan will provide for a decrease in monthly mortgage payments, which in return will increase the borrowers' ability to pay monthly mortgage payments and increase monthly disposable income. Consequently, the State's economic recovery will increase as well.

Your Committee recognizes the concerns the banking industry has with this measure, therefore, your Committee is passing this measure to the next committee for further discussion and dialogue.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 884 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 100 Economic Development on S.B. No. 488

The purpose of this measure is to appropriate \$200,000 to the Department of Agriculture to enable the Hawaii Organic Farmers Association to develop local and overseas markets for Hawaii grown organic produce.

Your Committee received testimony in support of this measure from the County of Maui, the Hawaii Organic Farmers Association, Papalele Farm, and two individuals. The Department of Agriculture submitted testimony in support of the intent of the measure, with comments.

Your Committee finds that the estimated value in gross sales of the State's organic farming industry in 1996 was \$7,000,000, and at the national level, organic farming has grown by more than twenty percent a year since 1990.

Your Committee further finds that organic farming represents an opportunity to expand the growing mix of diversified agricultural products, both for local use and for export. Your Committee is in support of the efforts of Hawaii's organic farmers and believes this measure will assist the growers in finding new markets for their products.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 488 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 101 Economic Development on S.B. No. 719

The purpose of this measure is to appropriate funds to the Department of Agriculture for pineapple research.

Testimony in support of this measure was received from the Department of Agriculture, the College of Tropical Agriculture and Human Resources of the the University of Hawaii, the Hawaii Agriculture Research Center, the Pineapple Growers Association of Hawaii, and the Hawaii Farm Bureau Federation.

Your Committee finds that this measure appropriates funds for pineapple research projects that focus on pest management, environmental research, and fruit quality at the University of Hawaii and the Hawaii Agriculture Research Center. This measure supports the ongoing research which has enabled our pineapple industry to remain competitive on the world market.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 719 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 102 Economic Development on S.B. No. 944

The purpose of this measure is to provide an income tax credit for the amount of the general excise tax on commercial construction costs for a period of seven years.

Your Committee received testimony in support of this measure from the Land Use Research Foundation of Hawaii, the General Contractors Association of Hawaii, the Pacific Resource Partnership, Hawaiian Dredging Construction Company, Hawai'i Hotel Association, Waikiki Improvement Association, Queen Emma Foundation, Hilton Hawaiian Village, and Outrigger Hotels & Resorts. The Department of Taxation testified in opposition. The Department of Business, Economic Development, and Tourism, the Tax Foundation of Hawaii, and one individual submitted comments.

Your Committee finds that in today's increasingly competitive tourism market, upgrades and renovations to Hawaii's visitor destination areas are critical. However, high construction costs, particularly at a time when many resorts and hotels are suffering from lower occupancy, are an impediment to revitalizing these areas.

Your Committee further finds that the construction industry as a whole is recovering very slowly from the declines of the 1990s. And for the first time this decade, public sector construction spending exceeded the private sector in 1998.

Your Committee is concerned that without incentives, the lack of investment in Hawaii will continue to have a negative impact on private sector funding, placing a heavy reliance on government funds for new construction projects. Your Committee believes this measure is an important component in attracting new capital and additional economic development to the State.

Your Committee finds the intent of this measure is to allow the tax credit to all commercial construction, not just hotel construction. The reference to chapter 237D appears to narrow the intent of the measure. Therefore, your Committee has amended this measure by deleting the reference to chapter 237D.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 944, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 944, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 103 Economic Development on S.B. No. 1431

The purpose of this measure is to establish a separate agricultural water supply and delivery system for the farms in the upcountry region on Maui.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Maui County Office of the Mayor and Department of Water Supply, the Central Maui Soil and Water Conservation District, and one individual.

Your Committee finds that the upcountry agricultural area is primarily dependent on surface water from the lower Kula system. The opening of 6,000 acres of Hawaiian homelands in Waiohuli and Keokea will further decrease the available supply of agricultural water to the existing farms. Your Committee further finds that in addition to the insufficient amount of water available, the agricultural industry is faced with escalating water rates.

Your Committee believes an adequate and inexpensive supply of water is critical to farming operations in upcountry Maui and is in support of this measure.

Your Committee has heard a concern regarding the establishment of a special account in the irrigation revolving fund. Separating one system under a special account would mean all costs for operating that system would be borne entirely by the users, who may have to pay different rates as a result. Your Committee has amended the measure accordingly to delete establishment of a separate special account in the irrigation revolving fund.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1431, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1431, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 104 (Majority) Economic Development on S.B. No. 1614

The purpose of this measure is to allow the importation into the State of approved microorganisms without a permit, and of restricted microorganisms with a permit, and to change the requirements for the publication of interim rules to publication in a newspaper of general circulation within seven days of issuance.

Your Committee received testimony in support of this measure from the Department of Agriculture, the University of Hawai'i, the University's College of Tropical Agriculture and Human Resources, and the Hawaii Agriculture Research Center. One individual submitted testimony in opposition.

Your Committee finds that current laws governing the importation of animals, plants, and microorganisms are no longer adequate for support of Hawaii's research, education, and business interests. The highly competitive and rapidly evolving scientific and commercial fields require more effective procedures for expediting the importation of organisms necessary to remain competitive with the U.S. mainland and foreign countries.

Your Committee further finds that biotechnology and related industries represent significant economic opportunities for Hawaii, and new developments in these areas are critical to the success of the State's efforts in supporting diversified agriculture.

Your Committee believes this measure strikes a balance between the research needs of the academic and business communities, while continuing to provide adequate protection of Hawaii's environment and the health and safety of its citizens.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1614 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Ige, M.). Excused, 2 (Taniguchi, Slom).

SCRep. 105 (Majority) Economic Development on S.B. No. 1629

The purpose of this measure is to provide interim financing to the irrigation revolving fund to allow the irrigation systems to meet operating costs.

Your Committee received testimony in support of this measure from the Department of Agriculture and the Hawaii Farm Bureau.

Your Committee finds that in recent public hearings, the department met with considerable opposition to proposed rate increases in water tolls. While the proposed increases would move the fund toward a self sustaining operation, current economic conditions would make higher water costs a hardship for most farming operations.

Your Committee believes this measure will continue operations of the existing water system until an agreement can be reached with farming communities and the agricultural industry for increases in water tolls.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1629 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Ige, M.). Excused, 2 (Taniguchi, Slom).

SCRep. 106 Labor and Environment on S.B. No. 821

The purpose of this measure is to prohibit employers from interfering with protected rights of employees or prospective employees to file charges of civil rights violations or discriminatory employment practice violations.

Your Committee received testimony in support of this measure from the Hawaii Civil Rights Commission, Hawaii State Commission on the Status of Women, ILWU Local 142, National Employment Lawyers Association, Hawaii Women's Legislative Coalition, Sex Abuse Treatment Center, and Hawaii Women Lawyers. Testimony in opposition was received from the Chamber of Commerce of Hawaii.

This measure is intended to prohibit employers from requiring employees and prospective employees to relinquish their rights under Hawaii's civil rights and discriminatory employment practices laws, by including any provision to this effect in an employment document or agreement which the employees must sign as a condition of employment. These rights pertain to filing charges and participating in an investigation, hearing, trial, or other proceeding.

Your Committee agrees that employment rights and civil rights of employees should be further protected by ensuring that they are not forced to sign away these rights to be hired or to continue employment.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 821 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Chumbley, Ihara, Slom).

SCRep. 107 Labor and Environment on S.B. No. 1147

The purpose of this measure is to expand the duties and responsibilities of the Workforce Development Council (Council) in order to conform to federal legislation.

The measure permits the Council to function as the State Workforce Investment Board for purposes of the Federal Workforce Investment Act of 1998. The measure also expands the Council from seventeen members to as many as twenty-nine; adding to the Council two mayors, four legislators, and additional members of the business community.

Testimony in support of this measure was received from the Department of Labor and Industrial Relations (DLIR), the Department of Business, Economic Development, and Tourism, and the Department of Human Services. Testimony in support of this measure

with amendments was received from the Workforce Development Council, and the Office of the State Director for Vocational Education. Testimony in opposition to this measure was received by an individual.

Your Committee finds that if Hawaii hopes to attract high technology businesses or to sustain and grow the ones already in the State, it is important to develop the State's workforce potential. Upon the passage of this measure, the State will conform to federal mandates and qualify for approximately \$17,000,000 authorized by Federal legislation. These funds will be available to DLIR to develop workforce policies, conduct planning and evaluation, offer a variety of services, and conduct a research and statistics program.

The Council and the Office of the State Director for Vocational Education requested amendments to the measure as follows:

- (1) Changing references to the federal law to the Carl D. Perkins Vocational and Technical Education Act (Public Law No. 105-332); and
- (2) Adding paragraph (13) to section 202-2 to designate the Council as the entity to conduct activities to be in compliance with Public Law No. 105-332.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1147, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1147, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chumbley, Ihara).

SCRep. 108 Labor and Environment on S.B. No. 1148

The purpose of this measure is to allow the Department of Labor and Industrial Relations (DLIR) to provide in its rules for the taking of depositions in unemployment compensation appeals procedures.

Your Committee received testimony in support of this measure from the DLIR.

This is an administration measure intended in practical application to enable the Employment Security Appeals Referee Office (ESARO) to hold a single hearing by phone, or other suitable method, with all parties present. Under current law, the ESARO must conduct a split hearing if one of the parties is at a different location from the other party. This has been held by a California Court of Appeals case to be insufficient to afford an adequate adversarial hearing. This measure would allow depositions that afford an adversarial procedure in lieu of simultaneous presence of the parties at the same hearing if that is not possible.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1148 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Chumbley, Ihara, Slom).

SCRep. 109 Labor and Environment on S.B. No. 1308

The purpose of this measure is to appropriate funds for the establishment of an incumbent worker training program for growth industries.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations and the Department of Human Services.

Your Committee finds that industries such as biotechnology, healthcare, information technology, and telecommunications must often import workers because the State's existing workforce lacks necessary skills. For many of these new and emerging industries, having to bring in workers is also an added expense that they cannot afford.

Your Committee believes this measure will provide opportunities for many of Hawaii's workers in new, growth industries such as call centers, telemedicine, and diversified agriculture.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1308 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chumbley, Ihara).

SCRep. 110 Labor and Environment on S.B. No. 1470

The purpose of this measure is to make an appropriation to fund salary increases and other cost adjustments for certain excluded legislative officers and employees.

Your Committee received testimony in support of this measure from the Acting Director of the Legislative Reference Bureau, State Auditor, Ombudsman for the State of Hawaii, and Executive Director of the Hawaii State Ethics Commission.

This measure is intended to treat excluded legislative employees in the legislative service agencies with equality and parity to other state employees who are in collective bargaining units 3, 4, and 13.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1470 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Chumbley, Ihara, Slom).

SCRep. 111 Education and Technology on S.B. No. 538

The purpose of this measure is to provide complete autonomy to the University of Hawaii, by making its status comparable to that of the judiciary. This measure subjects all university employees to the university's personnel system, and eliminates the director of finance and governor from the university budgetary process.

Testimony in support of this measure was submitted by the University of Hawaii Professional Assembly. Testimony in support of this measure was submitted by the University of Hawaii with proposed amendments. Opposing testimony was submitted by the Department of Budget and Finance, and the Hawaii Government Employees Association.

Your Committee finds that this measure would grant the University of Hawaii complete autonomy from the executive branch. This would provide the university with opportunities and incentives for developing an entrepreneurial, competitive role and contributing to Hawaii's economic growth. This measure advances the purposes of Act 320, Session Laws 1986, Act 321, Session Laws 1986, Act 161, Session Laws 1995, as amended, and Act 115, Session Laws 1998. Your Committee views this measure as the next step in complete university autonomy, by permitting a more flexible and responsive approach to the management of university resources.

Your Committee has adopted the recommendations of the University of Hawaii to amend the measure by removing university employees from the civil service completely. University employees are currently comprised of executive/managerial, faculty, administrative, professional, technical (APT), and civil service categories. Except for civil service employees, all other employees fall under the jurisdiction of the university. The flexibility afforded to the Board of Regents to administer their personnel system has served them well. The transfer of current civil service employees to the exclusive jurisdiction of the Board of Regents would complete the delegation of personnel administration to the university. Your Committee notes that current civil service employees at the university would remain in their current bargaining units as there are no amendments to Chapter 89, Hawaii Revised Statutes.

Accordingly, your Committee has deleted sections 2, 23, and 29 from this measure which would have established a civil service system for the University of Hawaii under the umbrella of the state civil service law. In its place, a new section has been added that amends section 76-16 (11), Hawaii Revised Statutes (HRS), to exempt all university employees from the civil service. Your Committee also amended section 304-4, HRS, to add a new subsection which recommends that the Board of Regents follow as closely as possible the provisions of chapters 76 and 77, HRS, but does not make it mandatory. Your Committee also has made technical, nonsubstantive amendments for the purposes of clarity.

Although this measure makes the necessary changes to the Hawaii Revised Statutes to allow the University of Hawaii greater autonomy and status comparable to the judiciary, your Committee is aware that additionally, a Constitutional amendment would be needed to remove references to the university from sections which apply to the executive branch. Your Committee will be hearing S.B. No. 539 this session, which proposes this Constitutional amendment.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 538, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 112 Education and Technology on S.B. No. 550

The purpose of this measure is to return the responsibility of expenditure reporting for the Department of Education (DOE) from the Auditor to the DOE, and to require reports containing specific major functions and sub-functions, which are at least equal to, if not better than, those provided through InSite software.

Your Committee received comments on this measure from the DOE. Verbal comments were submitted by the Auditor.

Your Committee finds that this measure will provide for timely and accurate reporting by the DOE. Your Committee has amended this measure to reinstate the requirement that the DOE provide electronic access to computer-based information to the Legislature and the Auditor.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 550, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 550, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 113 Education and Technology on S.B. No. 1011

The purpose of this measure is to clarify the roles of the State Foundation on Culture and the Arts commission, executive director, and foundation staff. This measure also specifies that agencies receiving capital improvement appropriations are responsible for calculating the one percent due to the works of art special fund.

Testimony in support of this measure was submitted by the State Auditor and the State Foundation on Culture and the Arts.

Your Committee finds that defining the role of the commission as a policy-making body and distinguishing the work of the commission from that of the executive director and other foundation staff will assist the commission in directing the work of the foundation.

Your Committee further finds that specifying agency responsibility for calculating the one percent due to the Works of Art Special Fund, for initiating transfers to the fund, and for monitoring compliance with the law will lessen the confusion in the interactions between the agencies receiving the appropriations, the state comptroller, and the foundation.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1011 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 114 Education and Technology on S.B. No. 1103

The purpose of this measure is to appropriate funds for additional unanticipated costs incurred by state departments in implementing Year 2000 (Y2K) compliance requirements.

Testimony in favor of this measure was received from the Department of Accounting and General Services.

Your Committee finds that currently, all departments have resources to complete the State's Y2K testing and remediation process. However, if unexpected resources become necessary in the next few months, this measure will provide the vehicle for legislative appropriation.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 115 Education and Technology on S.B. No. 1185

The purpose of this measure is to change the deadline for the transition of the State Aquarium to nonprofit management from June 30, 1999, to an indefinite date.

Testimony in support of this measure was received from the Waikiki State Aquarium.

Act 187, Session Laws of Hawaii 1997, mandated a date of June 30, 1999, as when the aquarium should transfer its management from The Research Corporation of the University of Hawaii and the University of Hawaii Foundation to a nonprofit corporation. However, while the University of Hawaii and the Friends of the Waikiki Aquarium still believe that such a transfer will provide the best option for the long-term management of the aquarium, negotiations have been stalled due to the University's consideration of proposals to relocate the State Aquarium to Kakaako.

Your Committee finds that because it is unlikely that the Kakaako negotiations will be resolved by June 30, 1999, the sunset date for the transfer of management must be changed. However, your Committee believes that it is unnecessary to delete a recommended date of transfer altogether, and thus amends this measure to extend the recommended date of management transfer to June 30, 2004.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1185, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Sakamoto).

SCRep. 116 Education and Technology on S.B. No. 1270

The purpose of this measure is to give the Department of Education more flexibility in regulating courses of study by eliminating the requirement that fifty percent of each school day be devoted to oral expression, written composition, and spelling.

Testimony in support of this measure was submitted by the Department of Education, and the Hawaii State Parent, Teacher, and Student Association.

Your Committee finds that while oral expression, written composition, and spelling are important aspects in the educational curriculum, there are times when meeting the letter of the law, i.e., the fifty percent requirement of each instructional day, is not feasible or practical. There are many student learning experiences which can be enhanced by field trips within the community, opportunities to work alongside visiting artists, writers, and musicians, and exciting classroom lessons which can take more than fifty percent of one day. These enhanced learning situations provide students with a range and depth of experience and knowledge which will enable them to learn, grow, and achieve. The rigid time requirements mandated in the current statute technically prevents such beneficial encounters from taking place.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1270 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 117 Education and Technology on S.B. No. 1271

The purpose of this measure is to enable the Department of Education to collect fees for all supplementary, discretionary instructional services to students during times when school is not in session.

Testimony in support of this measure was submitted by the Department of Education.

Your Committee finds that this measure will extend the authorization for tuition collections and exemptions from central service and administrative costs to all other discretionary, supplemental instructional programs which operate during "out-of-school" time, and which need to be financially self-supporting. For many years, the Department of Education has been offering supplemental instructional services to students in grades K-12 during "out-of-school" time. Passage of this bill would provide greater flexibility for individual schools to design and offer a variety of programs responsive to their students' needs, and to ensure the adequacy of resources for doing so.

Your Committee amended this measure by adding two new sections which amend sections 36-27 and 36-30, Hawaii Revised Statutes, to exempt the actions taken in this measure from being repealed under Act 216, Session Laws of Hawaii 1997, and Act 142, Session Laws of Hawaii 1998. The measure as introduced did not appropriately amend the effective dates of these Acts. By failing to make the proper amendments as provided by your Committee, no one would have been able to determine the changes to those Acts at a later date. Thus, these amendments were made by your Committee to properly set forth the amendments to these Acts. Your Committee deleted all the improper language relating to this problem after the effective date of this bill.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1271, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 118 Education and Technology on S.B. No. 1273

The purpose of this measure is to mandate the conduct of both national and state criminal history checks for teacher trainees employed by, or seeking employment with, the Department of Education. This measure also deletes reference to criminal history checks for persons employed by, or seeking employment with, private schools.

Testimony in support of this measure was submitted by the Honolulu Police Department, the Hawaii State Teachers Association, and the Hawaii State Parents, Teachers, and Students Association. Testimony in support of this measure with technical amendments

was submitted by the Department of Education. The Department of the Attorney General submitted testimony in support of this measure with additional proposed amendments.

In addition to including teacher trainees as subject to criminal history record checks, this measure also makes such checks mandatory, not discretionary, for all employees of the Department of Education, and employees of the counties working in close proximity to children as well. This is due to the recent institution of stricter language guidelines required by the Federal Bureau of Investigation (FBI), which no longer allows permissive language in state statutes that require both state and national criminal history record checks.

Because of these FBI guidelines, this measure deletes private schools from section 846-43, Hawaii Revised Statutes (HRS), as the FBI will not release criminal history record information to any non-governmental agency. However, the Department of the Attorney General has testified that private schools should still be allowed to obtain state criminal history record information. As proposed by the Department of the Attorney General, your Committee has added a new section to Chapter 846, HRS, which will allow private schools to obtain state criminal history record information.

Your Committee also amended this measure to eliminate superfluous language at the request of the Department of Education. Your Committee also made other technical, nonsubstantive amendments to reflect preferred drafting style.

Your Committee is aware that by adding the Department of the Attorney General's proposed amendments, the title of this measure is no longer appropriate. However, your Committee believes that this measure is important, and requests the Committee on Judiciary to attach the contents of this measure to a more appropriately titled vehicle, if possible.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1273, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1273, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 119 Education and Technology on S.B. No. 1276

The purpose of this measure is to allow the Board of Education to set the salary of the Superintendent of Education.

Testimony in support of this measure was submitted by the Board of Education, the Hawaii State Teachers Association, the Hawaii State Parents, Teachers, and Students Association, and the Hawaii Business Roundtable.

Your Committee finds that providing the Board of Education with the authority to set the Superintendent's salary will increase the likelihood that the Board will be able to competitively recruit and retain highly qualified individuals for the position. In addition, this measure would promote greater accountability from the Superintendent by directly linking the Superintendent's salary to job performance.

Your Committee has amended the measure to grant the Board of Education the ability to set the salary of the Superintendent until July 1, 2004. At that time, it is the intent of your Committee that the legislature review the effectiveness of this measure and make any appropriate adjustments, if necessary. To give the Board of Education time to implement this measure, your Committee has further amended the measure to take effect on August 1, 1999.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1276, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1276, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 120 Education and Technology on S.B. No. 1278

The purpose of this measure is to establish alternative education options for students who are expelled, suspended, or cause chronic disruption to the educational process. This measure also appropriates \$90,000 to fund initial private provider contracts to establish alternative education options on nine sites across the State.

Testimony in support of this measure was submitted by the Office of Youth Services. Testimony in support of the intent of this measure was submitted by the Department of Education, the Hawaii State Teachers Association, and the Hawaii State Parents, Teachers, and Students Association.

The main concern of the testifiers was that this measure makes no requirements for the provision of sound instruction in the alternative education options. The Department of Education recommended an amendment to mandate that the private contracted providers provide sound instruction aligned with the Hawaii Content and Performance Standards. In addition, the Department recommended an amendment to make contracting with a private provider an option, but not an exclusive requirement, as there are already alternatives within the public school system that can also provide these services.

Your Committee agrees with the amendments proposed by the Department of Education, and finds that the revised version of this measure will provide schools with an option of substitute educational opportunities for expelled students or for students who are on long-term suspension, thereby making school campuses safer for other students and staff. Furthermore, this measure with these proposed amendments will guarantee that students who partake of these substitute educational options will be provided sound instructional support.

Your Committee has amended this measure to reflect the recommended changes from the Department of Education. Your Committee has also made technical, nonsubstantive changes to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1278, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 121 Economic Development on S.B. No. 5

The purpose of this measure is to provide agricultural loans to qualified farmers to export crops and livestock.

Your Committee received testimony in support of this measure from one individual. The Department of Agriculture submitted comments.

Your Committee finds that certain crops and livestock have great value in the international market and their export could contribute greatly to the survival of local farming operations.

Your Committee has amended this measure to add provisions to allow working capital loans for farmers affected by State eradication programs. As amended, your Committee believes this measure provides additional opportunities and assistance to qualified farmers.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 5, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 5, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 122 Economic Development on S.B. No. 99

The purpose of this measure is to add specific language in the powers and duties of the Department of Land and Natural Resources to preserve, protect, and promote public hunting.

Testimony in support of this measure was received from the Board of Land and Natural Resources, Hawaii Hunting Advisory Council, Hawaii Hunting Association, Hawaii Citizens' Rights PAC, Wildlife Conservation Association of Hawaii, Hawaii Rifle Association, and three individuals.

The Department of Land and Natural Resources currently has the powers and duties to manage and administer the wildlife and wildlife resources of the State, which include the wildlife resources that are hunted.

Your Committee finds that Hawaii is one of the few states in the nation where all the game birds and mammals that the public hunts are non-native. There has been a long history of the need to control these game mammals to protect forested watersheds and native ecosystems. Aspects of game bird management is compatible with native species management.

Your Committee finds that this measure will codify the importance and necessity of public hunting as a wildlife management technique and source of recreation for the public.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 99 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 123 Economic Development on S.B. No. 219

The purpose of this measure is to appropriate an unspecified sum to the coffee inspection revolving fund to provide additional inspectors.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Hawaii Coffee Association, the Hawaii Farm Bureau, and the Kona County Farm Bureau.

Your Committee finds that Hawaii's rapidly expanding coffee industry has grown to a \$75,000,000 crop, and there are currently not enough trained inspectors to meet the demand for inspections on a timely basis.

Your Committee further finds that the department now has three permanent full time, and two part time trained coffee inspectors statewide. In the past year, two part time staff left and new inspectors must be trained. While part time inspectors are paid from inspection fees once their training is complete, the cost of training must be met by the department from other sources.

Your Committee is in support of this measure and has made a technical amendment to clarify that certification of coffee is "as to grade".

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 219, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 219, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 124 Economic Development on S.B. No. 222

The purpose of this measure is to appropriate funds for the biennium for agricultural research and development by the Hawaii Agriculture Research Center (HARC).

Your Committee received testimony in support of this measure from the Department of Agriculture, the University's College of Tropical Agriculture and Human Resources, the Hawaii Agriculture Research Center, the Hawaii Farm Bureau, Gay & Robinson, Inc., Hawaiian Commercial & Sugar Company, Oils of Aloha, and the Pineapple Growers Association of Hawaii.

Your Committee finds that with the current availability of agricultural lands, the need for research on agriculture commodities that can replace sugar and pineapple is critical. HARC has been in the forefront on applied agricultural research, helping to provide new opportunities for agribusiness.

Your Committee further finds that the rapid growth of the diversified agriculture industry presents additional problems and opportunities. At present, cooperative research projects between HARC and the University are under way in coffee, taro, onion, pineapple, papaya, and sugarcane.

Your Committee notes that this measure also requires matching funds, based on the dollar value of the industry conducting the research. Your Committee is in support of the work done by HARC, in concert with other public and private sector research agencies, in these important agricultural commodities.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 222 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 125 (Majority) Economic Development on S.B. No. 804

The purpose of this measure is to appropriate an unspecified sum for costs related to the preparation and sailing of the Aloha Racing Yacht entry in America's Cup 2000.

Your Committee received testimony in support of this measure from the Aloha Racing Foundation, the Boat Owners Association of The State of Hawaii, the Waikiki Yacht Club, Tradewinds U-Drive, Inc., and twelve individuals. The Department of Business, Economic Development, and Tourism submitted testimony in opposition.

Your Committee finds that this measure will provide support for Hawaii's team in America's Cup 2000, to be held in New Zealand next year. Held every three years, the America's Cup Yacht Race will receive over two hundred hours of international television coverage over a five-month period, as well as extensive national and international print media coverage. Hawaii's two entries will carry a design by the artist Wyland, and will be easily recognizable.

Your Committee further finds that if a Hawaii boat wins the final race in New Zealand, the next America's Cup could be held in Hawaii waters. Your Committee is supportive of this effort and believes participation in America's Cup 2000 will be highly beneficial to Hawaii's current and future tourism efforts.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 804 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Ige, M.). Excused, 2 (Taniguchi, Slom).

SCRep. 126 Economic Development on S.B. No. 942

The purpose of this measure is to make it mandatory that the Department of Land and Natural Resources establish, maintain, manage, and operate game management areas, wildlife sanctuaries, and public hunting areas.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, the Hawaii Hunting Advisory Council, the Hawaii Hunting Association, Hawaii Citizens' Rights PAC, Pig Hunters of Hawaii, the Hawaii Rifle Association, and one individual. Animal Rights Hawaii submitted testimony in opposition.

Your Committee finds that Hawaii is one of the few states where all the game birds and mammals that the public hunts are non-native. There has been a long history of the need to control these game mammals to protect forested watersheds and native ecosystems. The maintenance of a viable game mammal hunting program is essential to avoid costly government intervention. In addition, alien predator control is compatible with native species management.

Your Committee is in support of this measure, and amended the measure to add definitions for "game management area" and "public hunting area" to clarify how these different areas will be managed.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 942, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 942, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 127 Economic Development on S.B. No. 1066

The purpose of this emergency measure is to appropriate \$31,000,000 out of the tourism special fund to be expended by the Hawaii tourism authority for fiscal year 1998-1999.

Your Committee received testimony in support of this measure from the Hawaii Tourism Authority (HTA) and the Hawaii Hotel Association.

Your Committee finds that the HTA was to be funded through its special fund, effective January 1, 1999. However, the appropriation was inadvertently omitted from the 1998 legislation, and the HTA is unable to encumber or expend any funds for the second half of the present fiscal year until an appropriation is authorized.

Your Committee is in support of this appropriation measure, but members have raised a concern about the amount. In its recommendations last year, the Hawaii Economic Revitalization Task force suggested "increased funding for tourism promotion at the \$60,000,000 level." This measure, had it been for a full year, would have put that funding level at \$62,000,000.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1066 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 128 (Majority) Economic Development on S.B. No. 1083

The purpose of this administration measure is to authorize the Board of Land and Natural Resources to delegate enforcement authority to other designated employees, in addition to conservation and resources enforcement officers, for the purpose of enforcement of boating and ocean recreation programs.

Testimony received in support of this measure was received from the Board of Land and Natural Resources. Testimony opposed to this measure was received from the Boat Owners Association of Hawaii, Inc.

Your Committee finds that the present staffing level of the Department's Division of Conservation and Resources Enforcement (DOCARE) is not sufficient to provide the level of security and enforcement within boating facilities that is desired by the boating public.

Your Committee finds that DOCARE officers are unable to respond to minor infractions in a timely manner due to higher priority enforcement assignments.

Your Committee finds that delegation of limited enforcement authority to harbor agents and other selected employees of the Department's Division of Boating and Ocean Recreation (DOBOR) will permit immediate enforcement of minor infractions at the time they occur, without the necessity of waiting for DOCARE officers to respond to enforcement requests.

Your Committee finds that the enforcement of minor infractions by DOBOR personnel will supplement DOCARE efforts and free DOCARE officers to concentrate on boating safety enforcement efforts on the water.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1083 and recommends that it pass Second Reading and be referred to the Committee on Water, Land, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 129 Economic Development on S.B. No. 1086

The purpose of this measure is to establish administrative fines for violations of chapter 200, Hawaii Revised Statutes (HRS). In addition, this measure gives the authority of the Board of Land and Natural Resources to collect and take legal action to collect fines, damages, and fees and costs for such violations. The moneys collected will be placed in the boating special fund.

Testimony in support of this administrative measure was received from the Board of Land and Natural Resources. Testimony opposed to this measure was received from Boats/Hawaii Inc.

Currently, violations of boating laws and rules are primarily addressed through court proceedings, including criminal procedures. Your Committee finds that many types of violations, however, could be addressed more effectively and expeditiously through fines imposed administratively, and thus relieve the courts of the burden of processing these violations.

Your Committee finds that fines assessed for the violation of boating laws and rules are deposited in the general fund of the State. Little opportunity exists for the recovery of damages or other direct costs to the Boating Special Fund arising from such violations, other than recovery of administrative costs associated with the disposition of abandoned vessels which can be deducted from the proceeds of the sale of the vessel. Unfortunately, the proceeds of such sales seldom cover even the cost of the required public notice of sale. The remaining costs must be borne by the Boating Special Fund.

Your Committee finds that the ability to assess administrative penalties and recover other administrative fees and costs, including the costs of damages and attorney fees, could reduce the magnitude of this non-productive overhead cost.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1086 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 130 Economic Development on S.B. No. 1087

The purpose of this measure is to allow private marinas and yacht clubs to take into custody and dispose of vessels abandoned on their premises.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and Boat Owners Association of The State of Hawaii.

Your Committee finds that present law allows a yacht club or private marina to file liens in the amount of storage charges for vessels abandoned on the premises, and seek restitution through small claims court. However, except for vessels abandoned at a vessel repair business, only the State may take into custody and dispose of a vessel abandoned on private property.

Your Committee is in support of this measure and believes it will enable yacht clubs and private marinas to recover costs from abandoned vessels in the same manner as vessel repair facilities. Your Committee has amended this measure to clarify that the five day mailing and publication period refers to five calendar days, and to make technical amendments.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1087, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1087, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 131 Economic Development on S.B. No. 1091

The purpose of this measure is to consolidate various penalty sections in Hawaii Revised Statutes (HRS), to establish minimum fines, and to establish separate and graduated penalties for chapter 187A, 188, 189, and 190, HRS.

Testimony in favor of this measure was received from the Board of Land and Natural Resources. Testimony in opposition to this measure was received from Boats/Hawaii Inc.

Your Committee finds that generally, the same graduated penalties apply to violations of sections of Chapter 187A, 188, 189, and 190, HRS. Currently, these violations are punishable as a petty misdemeanor, except for the use of explosives, electrocution, or poisons in fishing, which is punishable as a felony.

Your Committee finds that currently, the courts in Hawaii have imposed minimum fines for violation of the natural resource laws, which has done little to deter violations.

Your Committee finds that this measure would establish effective minimum fines and graduated fines for repeat violators which will deter violation of the natural resource laws.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1091 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 132 Economic Development on S.B. No. 1095

The purpose of this measure is to delay for two years the sunset date for allowing licensed hunters to hunt game mammals with handguns.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, the Hawaii Hunting Advisory Council, the Hawaii Hunting Association, Pig Hunters of Hawaii, the Hawaii Rifle Association, Hawaii Citizens' Rights PAC, and one individual.

Your Committee finds that this measure will give the department additional time to complete the rule making process and implement a trial period of handgun hunting before the sunset date. Your Committee understands that rule making has taken longer than originally anticipated due to legal concerns, and that statewide public hearings on the proposed rules are now scheduled for March of this year.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1095 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 133 Economic Development on S.B. No. 1321

The purpose of this measure is to encourage public and private interests to invest in research and development of open ocean aquaculture or mariculture.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Department of Business, Economic Development, and Tourism, the Department of Land and Natural Resources, the Hawaii Aquaculture Association, Black Pearls, Inc., Makai Ocean Engineering, and the Oceanic Institute. The Office of Hawaiian Affairs and one individual testified in opposition to the measure. The University's Environmental Center, Hawaii Natural Energy Institute, and Sea Grant College Program submitted comments.

Your Committee finds that in 1986, the Legislature passed the Ocean and Submerged Lands Leasing Act, Chapter 190D, Hawaii Revised Statutes (HRS), which established procedures for the leasing of State marine waters and submerged lands for mariculture. However, no lease has ever been granted under Chapter 190D, HRS, because of limitations in the law.

Your Committee finds that this measure would remove key limitations and allow mariculture leases, streamline and clarify the process for a mariculture lease, and provide potential mariculture projects with the flexibility to adapt technology and designs to a site.

Your Committee has amended this measure to:

- (1) Delete section 1 which would have amended section 171-2, HRS, relating to the definition of public lands, as unnecessary;

- (2) Delete section 2 which would have amended section 171-53, HRS, to exempt leases issued under chapter 190D, HRS, from legislative authorization;
- (3) Reinstate the material deleted from section 190D-33, HRS, requiring the portion of revenues subject to chapter 10, HRS, be deposited into the public land trust fund; and
- (4) Make technical amendments to conform to standard drafting style.

Your Committee is in support of this measure, as amended, and believes it will foster further economic development of the mariculture industry, while promoting environmental sustainability.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1321, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1321, S.D. 1, and be referred to the Committee on Water, Land, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 134 Economic Development on S.B. No. 1420

The purpose of this measure is to expand the responsibilities of the Stadium Authority to include the Kapolei recreational sports complex and to create a Kapolei recreational sports complex special fund.

Your Committee received comments on this measure from the Stadium Authority.

Your Committee finds that this measure will extend the same operation and management provisions to the Kapolei recreational sports complex as currently under the stadium authority. Your Committee is in support of this measure and has amended the measure to make it clear that all funds received by the Kapolei recreational sports complex special fund and the stadium special fund shall be kept completely separate.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1420, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1420, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 135 Economic Development on S.B. No. 1489

The purpose of this measure is to appropriate funds for PACON International, the Pacific Mapping Program at the University of Hawaii, and for an eighteen month feasibility study of a Waianae ocean park.

Testimony in favor of this measure was received from McCorriston Miho Miller Mukai, Attorneys at Law, PACON International, and two individuals. Testimony opposed to this measure was received from the University of Hawaii at Manoa.

Your Committee finds that PACON International's goal is to disseminate the latest information in marine science and technology among marine educators, scientists, technologists, and policy decision makers in the Pacific Basin. In order to achieve this goal, PACON International holds major conferences and smaller symposia each year. Funding is currently needed for these conferences and symposia.

Your Committee finds that over the last few years, PACON International has been designing an underwater park for shallow coastal waters that will allow visitors from land to walk, via an underwater tunnel to an underwater structure designed for educational and research activities. Currently, a Waianae Ocean park feasibility study is needed.

Your Committee finds that the Pacific Mapping Program (PMP) was established by the U.S. Geological Survey (USGS) and the National Oceanic and Atmospheric Administration (NOAA) to focus on collecting, analyzing, processing, and providing ocean mapping data to the public. In order to meet the goals of the Pacific Mapping Program, funding for one research position, a Director position, and operating expenses is needed at this time.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1489 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 136 Labor and Environment on S.B. No. 749

The purpose of this measure is to make salary adjustments for the legislative agencies' directors and their assistants and certain executive agencies and boards.

Your Committee received testimony in support of this measure from the Director of the Legislative Reference Bureau, State Auditor, Ombudsman, and Hawaii Government Employees Association. The Hawaii State Ethics Commission submitted testimony in support of this measure with amendments.

This measure covers the Office of the Auditor, Legislative Reference Bureau, Hawaii Labor Relations Board, Office of Collective Bargaining, Ombudsman, Stadium Authority, Public Utilities Commission, and Labor and Industrial Relations Appeals Board.

Your Committee notes that this measure does not include the State Ethics Commission, which your Committee believes should be included but defers this decision to the discretion of the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 749 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Chumbley, Ihara, Slom).

SCRep. 137 Government Operations and Housing on S.B. No. 1519

The purpose of this measure is to require assisted housing development owners who are terminating a contract or prepaying a mortgage to provide one year's notice to tenants and to give the tenant's or a nonprofit organization the first opportunity to purchase the development.

Testimony in favor of this measure was received from American Association of Retired Persons, Affordable Housing and Homeless Alliance, Legal Aid Society of Hawaii, a petition signed by McCully Circle tenants, and four individuals. Testimony in favor of the intent of this measure was received from the Department of Commerce and Consumer Affairs. Testimony opposed to this measure was received from the Housing and Community Development Corporation of Hawaii.

Your Committee finds that Hawaii's 3,000 units of Section 8, subsidized housing are at risk of being sold due to non-renewal of the Section 8 contract or pre-payment of the Federal mortgage. Your Committee recognizes that owners of subsidized housing may wish to pay off their mortgages and increase rents, sell the buildings, or convert them to condominiums. However, low income residents who may lose their homes should be given time to plan for this change.

Your Committee finds that during the year after the notice is given, residents of low income housing could form a non-profit organization or work with an existing non-profit organization to purchase the building. Giving first right of refusal to a non-profit entity is a sensible way to continue offering affordable housing and avoid low income residents having to find alternative housing accommodations.

Your Committee made technical, nonsubstantive amendments, added a definition for "economically feasible" in the section dealing with right to purchase, and deleted an inappropriate reference to California law.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1519, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 138 Government Operations and Housing on S.B. No. 202

The purpose of this measure is to issue \$20,000,000 in general obligation bonds and appropriate the funds to the rental housing trust fund.

Testimony in support of this measure was received from the Office of the Governor, the Housing and Community Development Corporation of Hawaii, Affordable Housing Alliance, American Association of Retired Persons, Catholic Charities, the Institute for Human Services, Legal Aid Society of Hawaii, thirty tenants of McCully Circle, and seven individuals.

Your Committee finds that additional funding for the Rental Housing Trust Fund will provide loans or grants for the development, pre-development, construction, acquisition, preservation, and substantial rehabilitation of rental housing units. Given the scarcity of funds available for affordable housing and the high cost of construction in the State, this program leverages funds to the greatest possible extent.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 202 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 139 Labor and Environment on S.B. No. 30

The purpose of this measure is to require the Department of Land and Natural Resources to conduct an endangered species art contest for the production of an annual state endangered species stamp. Proceeds from the sale of articles derived from such contests are to be deposited into the wildlife revolving fund.

Testimony in support of the intent of this measure with amendments was received from the Board of Land and Natural Resources. Testimony supporting this measure was received from Hawaii's Thousands Friends and the Sierra Club.

Your Committee finds that an endangered species art contest will educate our Keiki in the awareness and preservation of Hawaii's endangered species. In addition, the contest may raise needed revenue for the department.

Your Committee is in accord with the suggested amendments from the Board of Land and Natural Resources to give the Board discretionary authority in how endangered species stamps are selected and produced. Additional discretion would allow the Board to use a variety of methods to select the art, such as a donated piece of art work from an established artist, direct commission, or art contest. This flexibility will allow selection and production of the best product. At the suggestion of the Board, the measure also was amended to require that the proceeds be deposited into the endangered species trust fund instead of the wildlife revolving fund.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 30, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 30, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 140 Labor and Environment on S.B. No. 207

The purpose of this measure is to establish a special fund into which various fees collected pursuant to the activities of the Board of Certification of Operating Personnel in Wastewater Treatment Facilities (Board) will be deposited.

Testimony in support of this measure was received from the Department of Health.

Your Committee finds that, since fiscal year 1996, the Board's annual budget has been \$5,198, which is insufficient to implement the mandatory certification program for wastewater treatment plant operators. Your Committee also finds that the Board can operate effectively on a budget of \$10,000 and the Board generates approximately \$11,000 annually from registration and certification fees. Thus the entire operational costs of the Board could be financed by the revenues generated by the operator certification program.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 207 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 141 Labor and Environment on S.B. No. 563

The purpose of this measure is to require various agencies to notify the Office of Environmental Quality Control (OEQC) of any permit application, or other action or information that affects or pertains to the environment for publication in the Officer's Bulletin.

Testimony in support of this measure was received from the Office of Environmental Control, Common Cause Hawaii, Hawaii's Thousand Friends, Life of the Land, Na Leo Pohai, and the Sierra Club. Testimony in support of the intent of this measure was received from the Land Use Commission, Hawaiian Electric Company, and the Environmental Center. Testimony in opposition to this measure was received from the Department of Business, Economic Development, and Tourism, and the County of Hawaii Planning Department.

Your Committee finds that this measure will codify an existing practice of the OEQC. It is the intent of the OEQC to continue providing a "one-stop shop" for environmental notices to the greatest extent possible. Your Committee made technical, nonsubstantive changes to this measure for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 563, S.D. 1, and be referred to the Committee on Water, Land, and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 142 Labor and Environment on S.B. No. 738

The purpose of this measure is to require the Department of Health to grant or reject noise control permits within thirty days instead of one-hundred-eighty days.

The measure further requires the director to act on an application within ninety days if the director deems a public informational meeting, hearing, or notice is appropriate, and to extend the ninety-day period an additional ninety days if extraordinary circumstances exist. If the director does not act on this application within one-hundred-eighty days of the receipt of the application then the application is deemed granted.

Testimony in support of this measure was received from the Department of Health, the Department of Transportation, Hawaiian Electric Company, the Building Industry Association of Hawaii, and Hidano Construction, Inc.

Your Committee finds that shortening the time allowed for the Department of Health to issue noise control permits, as called for in this measure, is a fair compromise between the needs of the Department to examine an application thoroughly and the needs of the construction industry for an expedient permitting process.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 738 and recommends that it pass Second Reading and be referred to the Committee on Health and Human Services.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 143 Labor and Environment on S.B. No. 1023

The purpose of this measure is to authorize the Department of Health to hire a full-time exempt employee to serve as an ecological risk assessor.

Testimony in support of this measure was received from the Department of Health and the Sierra Club. The Environmental Center commented on the measure.

Your Committee finds that there is a growing need for an ecological risk assessor within the Environmental Health Administration of the Department of Health. The expertise afforded by an ecological risk assessor would allow the Environmental Health Administration to respond more efficiently and effectively to environmental hazards.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1023 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 144 Labor and Environment on S.B. No. 1152

The purpose of this measure is to add certification programs to enhance safety and health as a permissible expenditure for the occupational safety and health training and assistance fund (fund).

Your Committee received testimony in support of this measure from the DLIR and the Hawaii Island Contractors Association.

This measure also extends the sunset date for the fund from July 1, 1999, to July 1, 2003.

Your Committee finds that since 1995, the fund has been enormously successful in reducing the frequency of workplace accidents and reducing the cost to businesses from those accidents. According to the DLIR, there are two certification programs required by law that would be funded from the fund, the Certified Safety and Health Professional (Act 234, Session Laws of Hawaii 1995) and Certificate of Fitness for Blasters and Pyrotechnics Specialists (Section 396-9, Hawaii Revised Statutes).

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1152 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chumbley, Ihara).

SCRep. 145 Education and Technology on S.B. No. 1251

The purpose of this measure is to set aside interest earned by the educational facilities improvement special fund to be used solely for education technology and to give the legislature sole authority to authorize projects.

Your Committee received testimony in support of the intent of this measure from the Department of Education (DOE). The Department of Budget and Finance testified in opposition.

Your Committee finds that the DOE has expressed concerns that restricting the interest for educational technology could result in a reduction of lump sum funding for telecommunications infrastructure improvements. Your Committee believes these concerns to be unfounded. Currently, interest earnings of the educational facilities improvement special fund are returned to the general fund. This measure would instead give the DOE additional funds for use in needed improvements to the public schools telecommunications infrastructure.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1251 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Matsunaga).

SCRep. 146 (Majority) Education and Technology on S.B. No. 536

The purpose of this measure is to allow state agency heads to purchase computer and communication systems with proceeds from the sale of general obligation bonds.

Your Committee received testimony in support of this measure from the Department of Education. The Department of Budget and Finance (DB&F) testified in opposition.

Your Committee finds that while public schools statewide have enjoyed recent support from E-rate and federal technology funding, the student computer ratio is still at ten to one. It is critical that the hardware in schools be kept current and powerful enough to engage students in projects that encourage skill development well beyond word processing, spreadsheets, and data bases.

Your Committee has heard the concerns of the DB&F that general obligation bonds are long-term debt used to finance capital improvements that have a life at least equal to the term of the debt incurred. In response, your Committee would note that article VII, section 13, of the Hawaii State Constitution, states:

"All general obligation bonds for a term exceeding two years shall be in serial form maturing in substantially equal installments of principal, or maturing in substantially equal installments of both principal and interest."

Your Committee understands this to mean that general obligation bonds need not be for long-term debt, and it is the intent of the Legislature that for the purposes of this measure, those general obligation bonds issued for the purchase of computer and communications systems be for shorter terms of three to ten years.

Your Committee has amended this measure to require that the director of finance consider shorter term general obligation bonds for the purposes of this measure.

Your Committee is gravely concerned that Hawaii continues to rank as one of the lowest states in the deployment and use of information technology. If the State is serious about addressing Hawaii's stagnant economy, then it must explore all options for upgrading and expanding a woefully inadequate telecommunications infrastructure. Other states have found general obligation bonds for information technology a worthwhile investment in both current operations and future endeavors.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 536, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 2 (Bunda, Matsunaga).

SCRep. 147 Education and Technology on S.B. No. 869

The purpose of this measure is to require the Department of Education to set appropriate teacher to student ratios and counselor to student ratios to promote effective learning and development of students. This measure also requires the Department of Education to adjust staffing at schools with a disproportionate percentage of at-risk students.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association, and many school counselor organizations including Your Family First, the Institute for Native Pacific Education and Culture, and Ho'omaka Hou. The Department of Education submitted testimony in support of the intent of this measure.

Many of the testifiers pointed out that teacher to student ratios are already determined by state law and collective bargaining contract, and currently stands at a ratio of 26.5 students per teacher. Thus, your Committee finds that it is unnecessary to include teachers in this measure.

However, your Committee finds that the issue of counselor to student ratios must be addressed. The situation brought upon the Department of Education because of the 1993 *Felix v. Waihee* decision necessitated that counselors provide effective service to all students. However, the current counselor to student ratios are not standard and some counselors must serve up to 800 students. In addition, schools with a higher percentage of at-risk students are not allotted more counselors. Counselors provide greater services to at-risk students, and deal with all the referrals and meetings held to deal with these students. Those counselors at schools with a higher percentage of at-risk students are overburdened, and thus unable to devote the proper attention to the needs of all students, including at-risk and *Felix* children. This measure will standardize counselor to student ratios, and ensure that those schools with special needs will be allocated more counselors.

Accordingly, your Committee has amended this measure to delete the references to teacher to student ratios, thereby allowing this measure to focus solely on setting standard counselor to student ratios.

Your Committee urges the Department of Education to work closely with current school counselors in determining counselor to student standards. Because these counselors work and observe these problems on a daily basis, they are able to provide insight into the varying needs of regular students, *Felix* students, and at-risk students, and thus how counselors should be allocated to provide the best possible services to all of Hawaii's students. For example, one counselor proposed to your Committee the allocation of one counselor per 350 regular students, one *Felix* counselor per 100 *Felix* students, and one counselor per 200 at-risk students.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 869, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 869, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Matsunaga).

SCRep. 148 Education and Technology on S.B. No. 1250

The purpose of this measure is to permit the use of tour buses solely for the transportation of student groups, other than school athletes, to and from school related events or activities.

Your Committee received testimony in support of this measure from the Hawaii State Teachers Association, the Hawaii Congress of Parents, Teachers and Students, the Public Schools of Hawaii Foundation, Trans Hawaiian Services, Leeward Oahu Transportation Management Association, Polynesian Hospitality, and twenty-seven individuals, including twenty students. The Department of Education and Gomes School Bus Service, Ltd., submitted testimony in opposition.

Your Committee finds that with multiple sources of transportation, students will not be prevented from attending school functions because buses are not available. Your Committee supports this measure and believes that it will provide schools with an additional option in transporting students to and from school related events, in a safe and timely manner.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1250 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 149 Education and Technology on S.B. No. 1586

The purpose of this measure is to set coaches' salaries and require budgeting for athletics when budgeting for new schools.

Testimony in support of this measure was submitted by the Athletic Directors and Coaches Association, and the Hawaii State Teachers Association. The Department of Education submitted testimony in support of budgeting for athletics in new schools, but with reservations about setting coaches salaries.

Your Committee finds that athletic programs are an integral aspect of school curriculums, and should be properly funded as part of the basic criteria for the funding of new schools so that students entering a new high school can have the same opportunities as students in other high schools.

It is certain that many coaches have great positive impacts on students and give them positive alternatives to drugs and delinquency. However, the Department of Education had reservations regarding setting coaches' salaries. Your Committee believes

that the issue of how to properly compensate coaches for their work must be studied in depth, and all the implications must be determined before legislating set salaries.

Accordingly, your Committee has amended this measure to delete section one, which mandates setting coaches' salaries, and instead has added a new section requiring the Department of Education to study the implications of the issue and report its findings back to the legislature before the next regular session. Your Committee also made technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1586, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1586, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Matsunaga).

SCRep. 150 Education and Technology on S.B. No. 41

The purpose of this measure is to repeal the sunset date for the Hawaii Teacher Standards Board, thereby making the Board permanent like other licensing agencies. This measure also provides for staggered terms for new members.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii Teacher Standards Board, the Hawaii State Teachers Association, the Hawaii Congress of Parents, Teachers, and Students, and the Hawaii Business Roundtable.

Your Committee agrees with the testifiers that the Hawaii Teacher Standards Board, in ensuring that qualified teachers are employed to educate Hawaii's students, is essential to the improvement of our public school system. In addition, your Committee further believes that staggered terms for the members are critical to ensure continuity and stability. Furthermore, new members will gain invaluable knowledge regarding licensure by tapping into the expertise of the veteran members.

While your Committee finds the Hawaii Teacher Standards Board to be a valuable aspect of our educational system, your Committee has amended this measure to extend the sunset date for ten years, until June 30, 2010, instead of repealing the sunset date altogether. Your Committee makes this amendment solely for the purpose of requiring a review of the Hawaii Teacher Standards Board. Your Committee believes that this amendment will ensure accountability of the Hawaii Teacher Standards Board and allow the Legislature to continue to track closely the positive effects quality teachers have on improving Hawaii's educational system.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 41, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 41, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 151 Education and Technology on S.B. No. 185

The purpose of this measure is to establish in statute the Hawaii State Student Council with student representatives from each departmental school district.

This measure also requires the council to conduct an annual conference of secondary schools, and requires the council to determine whether to select the student member of the Board of Education or to run an election to select the individual.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association and the Hawaii Congress of Parents, Teachers, and Students. Testimony in support of the intent of this measure was submitted by the Department of Education.

Your Committee believes that not only are students the beneficiaries of our public education system, but they should also be central in helping to form the policies and procedures for improving our schools. The inclusion of the Hawaii State Student Council in statute will ensure its longevity and equitable student participation in school based decision making.

The Department of Education has expressed concern regarding the implications of statutorily requiring that the Department assign staff to act as advisors to both the Hawaii State Student Council and the Hawaii State Student Council Conference Committee. Because a Department of Education staff member currently assists the Hawaii State Student Council, your Committee agrees with the Department's testimony that it is not necessary to legislate staffing requirements. Furthermore, this will allow the Department some flexibility in resource management in the case of funding cuts or a change in budget priorities.

Accordingly, your Committee has amended this measure to delete the staffing provisions, and made technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 185, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 185, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 152 Education and Technology on S.B. No. 964

The purpose of this measure is to lower the compulsory school attendance age from eighteen years to sixteen years, by making attendance at a public high school after sixteen years of age a privilege rather than a right. This measure also repeals the requirement that a child have an alternative education plan before being excluded from school for disruptive behavior or chronic truancy.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association and Moanalua High School. The Department of Education submitted testimony in opposition to this measure.

The impetus for this measure was the complaints of many teachers and principals having problems dealing with chronically disruptive students. Many of the older students know their rights and know that the principal has little leverage in preventing any disruption in educational activities, as the principal cannot exclude them from attending school. This measure will provide teachers and principals with needed leverage.

The Department of Education testified that it believes that it is charged with the responsibility to educate all minors, and disruptive students should not be released without program direction into the community-at-large. However, the problem of disruptive students, for many years, has been a perennial issue brought to the Legislature. While the Department of Education has consistently opposed lowering the compulsory school age, your Committee finds that the Department of Education has done little to alleviate the problem of disruptive students in Hawaii's schools.

Your Committee further finds that disruptive students hinder the learning of other students who take their education seriously. By not having the means to control disruptive students, your Committee finds that the educational growth of all students are adversely affected.

Your Committee believes there is a need for change. Disruptive students should not burden and monopolize the efforts of teachers and principals, to the detriment of the other students. However, your Committee is aware of the concerns raised by the Department of Education and has thus amended this measure to be repealed on July 1, 2004, in the event that this measure does not prove effective.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 964, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 964, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Matsunaga).

SCRep. 153 Education and Technology on S.B. No. 669

The purpose of this measure is to allow the Board of Education to appoint, or retain by contract, attorneys to provide legal services to the Department of Education for issues involving developmentally disabled children.

Testimony in support of this measure was submitted by Kalihi-Uka School, Nanakuli High and Intermediate School, and education specialists in the Department of Education's Leeward district, Hawaii district, and Honolulu district. The Board of Education submitted testimony in support of the intent of this measure. Testimony in opposition was submitted by the Department of the Attorney General.

Your Committee finds that special education and the compliance mandated by the 1993 Felix v. Waihee decision have surfaced at the school level as one of the most sensitive and legally complex areas within the roles and responsibilities of school administrators, diagnostic team members, special education teachers, regular education teachers, and school counselors. The burden of legal compliance is a very heavy and complicated one.

Because of this, your Committee finds that the three attorneys currently provided by the Department of the Attorney General are unable to handle all of the legal issues surrounding the Felix decision. As more and more parents win judgments against the State, precedence is being set, and the State loses money in litigation. This money could be better spent on implementing complete Felix compliance procedures. The Department of Education needs attorneys who specialize in special education issues, and monitor actions taking place across the country. These attorneys would be able to work with schools before they go to court, thus saving the State litigation fees.

It is only through dedicated attorneys who work solely for the Board of Education that the rights of both developmentally disabled children, and the State of Hawaii are protected. Your Committee agrees with the need for the Department of Education to retain its own attorneys for issues involving developmentally disabled children.

Your Committee has amended this measure to:

- (1) Delete the references to the special education division of the Department of Education because Felix compliance issues span many divisions within the Department of Education and limiting the attorneys to this one division would be counterproductive to the implementation of this measure; and
- (2) Add clarifying language and delete the provision for "other legal services" to make clear the use of these contract attorneys is only for issues regarding developmentally disabled children.

However, your Committee stresses that this measure is not a statement against the Department of the Attorney General, and it is the intent of your Committee that attorneys hired by the Board of Education concentrate only on Felix-related issues. The Department of Education must rely on the Department of the Attorney General to provide legal assistance in all other areas.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 669, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 669, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 154 Judiciary on S.B. No. 223

The purpose of this bill is to require, and appropriate funds for, the establishment of a canine corps in the Department of Public Safety.

Your Committee finds that the availability of illegal drugs in state correctional facilities is a major problem for prison staff and administrators. Your Committee further finds that the canine corps established under this measure will help control the distribution of and hopefully eliminate illegal drugs within correctional facilities.

Testimony in support of this measure was received from the Department of Public Safety and an individual corrections officer.

Upon further consideration, your Committee has amended this measure by adding language stating that the canine corps would be most appropriately placed in the Law Enforcement Division of the Department.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 223, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 155 Judiciary on S.B. No. 1163

The purpose of this bill is to extend the authority to grant emergency release of pre-trial inmates until June 30, 2000.

Your Committee finds that because of overcrowding in correctional facilities, the Department of Public Safety needs a release mechanism by which it can relieve overcrowding in the pretrial population while considering public safety. Your Committee further finds that in 1998 the Legislature established strict controls over which defendants qualify for emergency pretrial release.

Testimony in support of this measure was received from the Department of Public Safety. Testimony in opposition to this measure was received from the Department of the Prosecuting Attorney for the City and County of Honolulu.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 156 Judiciary on S.B. No. 600

The purpose of this bill, as received by your Committee, is to mandate substance abuse assessment and treatment programs for all inmates in correctional centers and facilities, who are alcohol or drug dependent, or who are otherwise in need of substance abuse treatment and monitoring.

Your Committee finds that alcohol and other substance abuse has a destructive impact in many important areas, which adds to crime in obvious but hard to measure ways. Your Committee further finds that adequate treatment of substance abuse and addiction within the criminal offender population is important in reducing the recidivism rate and protecting the public upon inmates' release back into the community.

Testimony in support of this measure was submitted by the Department of Health, the Department of Public Safety, the Hawaii Paroling Authority, Mothers Against Drunk Driving, the Community Alliance on Prisons, and a case manager for TJ Mahoney & Associates. Testimony opposed to a specific provision of this measure was submitted by the Office of the Public Defender.

Upon further consideration, your Committee has amended this measure by:

- (1) Limiting the requirement of mandatory drug testing and mandatory assessment to inmates who have been convicted of felonies;
- (2) Inserting an appropriation for substance abuse treatment at the Women's Community Correctional Center; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 600, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 157 Judiciary on S.B. No. 602

The purpose of this bill is to transfer the rights, powers, functions, and duties of personnel assigned to the parole administration division of the Hawaii Paroling Authority to the Department of Public Safety.

Your Committee finds that transferring adult parole supervision and counseling from the Hawaii Paroling Authority to the Department of Public Safety will smooth the transition of criminal offenders from the prison system back into society. Your Committee further finds that thirty-nine other states already place adult parole supervision within their respective public safety departments instead of within a separate paroling authority.

Testimony in support of this measure was submitted by the Department of Public Safety. Testimony in opposition to this measure was submitted by the Hawaii Paroling Authority.

Upon further consideration, your Committee has amended this measure by making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 602, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 158 Judiciary on S.B. No. 603

The purpose of this bill is to appropriate funds to continue the KASHBOX substance abuse treatment program.

Your Committee finds that there is a high correlation between substance abuse and crime in Hawaii. Your Committee further finds that the Waiawa Correctional Facility's KASHBOX substance abuse treatment program has been highly successful since its opening in March 1990, but faces a budget shortfall in the next biennium.

Testimony in support of this measure was submitted by the Department of Public Safety, the Honolulu Prosecuting Attorney, Mothers Against Drunk Driving, and the Community Alliance on Prisons.

Upon further consideration, your Committee has amended this measure by:

- (1) Decreasing the appropriation amount to more accurately reflect the shortfall between the administration's budget request and the supplemental amount being requested by the program; and
- (2) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 603, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 603, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 159**Judiciary on S.B. No. 604**

The purpose of this bill is to allow the administrator of the Narcotics Enforcement Division of the Department of Public Safety to share information from the electronic prescription accountability system with practitioners who dispense controlled substances.

Your Committee finds that abuse of prescription medications containing controlled substances is an increasing problem in Hawaii. Your Committee further finds that allowing the Narcotics Enforcement Division to share prescription information with practitioners, while providing adequate safeguards for patient privacy, will assist in better evaluation and assessment of patients who are visiting multiple practitioners to obtain controlled substances.

Testimony in support of this measure was submitted by the Department of Public Safety and the Hawaii Medical Association.

Upon further consideration, your Committee has amended this measure by:

- (2) Limiting the disclosure to information that is about the dispenser's own patient; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 604, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 604, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 160**Judiciary on S.B. No. 926**

The purpose of this bill is to add additional substance abuse offenses upon which drug demand reduction assessments may be imposed.

Your Committee finds that the purpose of the Drug Demand Reduction Assessment Special Fund is to provide additional monies for drug treatment and other drug demand reduction programs. Your Committee further finds that the administration of the Drug Demand Reduction Assessment Special Fund and the burden of paying for such programs should be borne by those who are convicted of substance abuse offenses and not on our taxpayers. Therefore, convicted drug offenders should be required to contribute to programs that treat drug users and programs that will help prevent the use of drugs in our communities.

Testimony in support of this measure was submitted by the Department of Health, the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Hawaii Substance Abuse Coalition. Testimony in opposition to this measure was submitted by the Judiciary and the Office of the Public Defender.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting all references to section 291-4.5, Hawaii Revised Statutes;
- (2) Deleting all references to part XIV of Chapter 286, Hawaii Revised Statutes;
- (3) Adding a provision requiring the Department of Health to expend \$33,000 for mandatory substance abuse treatment programs for incarcerated inmates;
- (4) Deleting the provision that repeals the sunset date; and
- (5) Changing the effective date to July 1, 1999.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 926, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 926, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 161**Judiciary on S.B. No. 612**

The purpose of this bill is to require tobacco manufacturers that do not participate in the master settlement agreement with the State to deposit funds into an escrow fund to pay judgments or settlements on future claims brought against those manufacturers.

Your Committee finds that cigarette smoking presents serious financial burdens to the State, which may have an obligation to provide medical assistance to citizens with smoking-related diseases. Your Committee further finds that such burdens should be borne by the tobacco product manufacturers rather than by the State. Requiring tobacco product manufacturers to either participate in the

settlement with the State or ensure that they have sufficient funds available to pay future claims by Hawaii smokers will help to place the financial burden of cigarette smoking on tobacco product manufacturers instead of the State.

Testimony in support of this measure was submitted by the Attorney General and one private individual.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 162 Judiciary on S.B. No. 605

The purpose of this bill, as received by your Committee, is to establish a civil cause of action and enhanced criminal penalties for hate crimes against persons because of race, color, religion, ancestry, national origin, gender, transgender, sexual orientation, age, or disability; and to provide for a reporting mechanism to compile, track, and analyze hate crimes data.

Your Committee finds that crimes and threats against persons because of their race, color, religion, ancestry, national origin, gender, transgender, sexual orientation, age, or disability is a growing problem in Hawaii. Your Committee further finds that Hawaii is one of twelve states that do not have laws addressing hate-motivated crimes, and one of two states that do not comply with the federal Hate Crimes Statistics Act. Although other civil laws would apply to some hate or bias motivated acts, there is presently no civil remedy specifically for violence or threatened violence that is motivated by the fact that the victim falls within a protected class.

Your Committee is concerned, however, that a civil remedy for hate or bias motivated acts not go so far as to infringe on the right of free speech or any other constitutionally protected right. Your Committee is further concerned that a civil remedy not be so broadly applicable as to substantially overlap with current laws prohibiting discrimination in areas such as employment. Likewise, your Committee believes that enhanced criminal penalties for hate crimes should not create impracticable requirements for courts sentencing the perpetrators of hate crimes.

Testimony in support of this measure was submitted by the Attorney General, the Office of the Public Defender, the Hawaii State Commission on the Status of Women, the Hawaii Civil Rights Commission, seven organizations and seven private individuals advocating adoption of hates crimes legislation. Testimony in opposition to this measure was submitted by six organizations and five private individuals opposing hate crimes legislation based upon constitutional concerns or religious objections.

Upon further consideration, your Committee has amended this measure by:

- (1) Defining the acts providing a basis for the civil cause of action as hate or bias motivated acts, rather than hate crimes;
- (2) Removing the \$25,000 civil penalty as being both redundant and an inappropriate form of remedy for civil actions by private individuals;
- (3) Adding injunctive relief as a civil remedy;
- (4) Clarifying that a civil action cannot be brought based on speech alone;
- (5) Removing the second section creating a civil cause of action as being duplicative of the first cause of action and duplicative of other civil rights statutes;
- (6) Removing the mandatory requirements for probation sentencing, as a court already has the discretion to order conditions for probation and such requirements would have been impracticable in many instances;
- (7) Placing responsibility for collection of hate crime data entirely within the Office of the Attorney General; and
- (8) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 605, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 605, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 163 Judiciary on S.B. No. 617

The purpose of this bill is to appropriate funds to support prostitution intervention services.

Your Committee finds that prostitution is a multi-faceted problem with a long history. Your Committee further finds that solutions posed solely through the criminal justice system have not been effective in mitigating the problem. A public and private partnership between the State and private nonprofit organizations has proven to be more successful in assisting adults and juveniles to escape prostitution.

Testimony in support of this bill was submitted by the Judiciary, the Hawaii State Commission on the Status of Women, five organizations, and six private individuals. No testimony was submitted in opposition to this bill.

Upon further consideration, your Committee has amended this measure by making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 617, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 617, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 164 Judiciary on S.B. No. 1121

The purpose of this bill is to create a centralized criminal defendant database and develop a sentencing simulation model.

Your Committee finds that criminal justice data is currently maintained separately by various agencies, including the Department of the Attorney General, the Department of Public Safety, and the Judiciary. Each agency maintains data from different components of the criminal justice system. Your Committee further finds that the integration of the data from these agencies will permit a more accurate and detailed picture of the dynamics of the criminal justice system. In addition, your Committee recognizes that there is a strong need to develop a computer modeling technique in order to project future prison populations and predict the impact of different sentencing policies and proposals in order to address problems that currently plague our criminal justice system.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Department of Public Safety, the Department of the Prosecuting Attorney of the City and County of Honolulu, the Department of the Prosecuting Attorney of the County of Maui, the Honolulu Police Department, and the County of Hawaii Police Department.

Upon further consideration, your Committee has amended this measure by:

- (1) Decreasing the appropriation amount from \$250,000 to \$122,000 for fiscal year 1999-2000;
- (2) Decreasing the appropriation amount from \$150,000 to \$85,000 for fiscal year 2000-2001; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1121, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1121, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 165 Judiciary on S.B. No. 931

The purpose of this bill is to repeal the current version of Hawaii's electronic surveillance law and replace it with a more comprehensive model patterned after the federal wiretap and electronic surveillance law.

Your Committee finds that the use of wiretaps and electronic surveillance are effective tools to assist law enforcement efforts to curtail violent crimes, organized crimes, drug dealing, and illegal gambling. Your Committee further finds that there is no substitute for the quality and quantity of material information and evidence that can be obtained through a wiretap or other electronic surveillance. Your Committee notes that there is much concern over an individual's right to privacy, however, your Committee believes that law enforcement agencies will be judicious in choosing this investigative tool and abiding by the many requirements imposed under this new statute.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Honolulu Police Department. Testimony in opposition to this measure was submitted by the Office of the Public Defender. The Office of the U.S. Attorney and the Office of Information Practices submitted comments on this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 931 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 166 Judiciary on S.B. No. 1158

The purpose of this bill is to appropriate funds to compensate crime victims awarded compensation during the period from July 1, 1999, to June 30, 2000.

Your Committee finds that the Crime Victim Compensation Commission compensates certain victims of violent crimes for their damages incurred, including compensation for cleaning of the crime scene, clothing taken as evidence, loss of dependency, lost earnings due to crime-related injuries, funeral and burial expenses, moving expenses, counseling, medical care, and pain and suffering. Your Committee further finds that this appropriation request is based on the compensation awards paid during the last fiscal year.

Testimony in support of this measure was received from the Crime Victim Compensation Commission, the Department of the Prosecuting Attorney for the City and County of Honolulu, and the Sex Abuse Treatment Center.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 167 Judiciary on S.B. No. 1159

The purpose of this bill is to provide and maintain support for the Crime Victim Compensation Commission.

Your Committee finds that the Crime Victim Compensation Commission is working toward self-sufficiency based upon compensation fees collected from offenders. Your Committee further finds that the Commission needs additional time to build its revenues before it will be operationally self-sufficient.

Testimony in support of this measure was submitted by the Crime Victim Compensation Commission, the Department of the Prosecuting Attorney for the City and County of Honolulu, and the Sex Abuse Treatment Center.

Upon further consideration, your committee has amended this measure by adding a sunset date of July 1, 2001.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1159, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 168 Judiciary on S.B. No. 794

The purpose of this bill is to make an appropriation to support the operations of the Office of Information Practices.

Your Committee finds that budget cuts during the last two fiscal bienniums have left the Office of Information Practices with insufficient funds to carry out its responsibilities under the Uniform Information Practices Act and the new administrative rules that are coming into effect. Your Committee further finds that providing additional funds to the Office of Information Practices is vital to ensuring public access to government. However, your Committee defers to the Committee on Ways and Means to determine the amount of funds to provide.

Testimony in support of this measure was received from the Office of Information Practices, the Honolulu Community Media Council, Common Cause Hawaii, the Hawaii Medical Service Association, the Hawaii Coalition for Health, the League of Women Voters, the Hawaii Health Information Corporation, the Hawaii Medical Association, and a private individual.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 794 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 169 Judiciary on S.B. No. 887

The purpose of this bill is to provide for an additional circuit court judge in the Fifth Circuit.

Your Committee finds that the Fifth Circuit, which serves the islands of Kauai and Niihau, is assigned only one circuit court judge who also serves as the Circuit Court Administrative Judge for Civil and Criminal, the Arbitration Judge, and the Senior Family Court Judge. Your Committee further finds that it is increasingly difficult for this one circuit court judge to manage the increased number of case filings with more complex issues, the expansion of the rights of criminal defendants, and the public's growing awareness and understanding of the judicial system. Your Committee agrees that an additional circuit court judge is needed to better balance the workload of and provide necessary services to court users in the Fifth Circuit.

Testimony in support of this measure was submitted by the Judiciary and the Hawaii State Bar Association.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 170 Judiciary on S.B. No. 888

The purpose of this bill is to increase the court assessment from \$25 to \$50 for the issuance of a penal summons for failure to appear for a traffic violation.

Your Committee finds that the original \$25 fee was set in 1976 and has not been increased in the last twenty-three years. Your Committee further finds that this increased amount is a more realistic assessment of the current costs that the court incurs for the issuance of a penal summons. Your Committee acknowledges the Judiciary's efforts to develop additional revenue sources to support court operating costs.

Testimony in support of this measure was submitted by the Judiciary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 888 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. excused, 2 (Tanaka, Anderson).

SCRep. 171 Judiciary on S.B. No. 889

The purpose of this bill is to allow the courts to assess a fee, not to exceed \$50, for the issuance of a bench warrant.

Your Committee finds that current law does not provide for the recapture of costs when bench warrants are issued. Your Committee further finds that the courts incur the administrative costs in these situations, unlike the costs of issuing a penal summons. Your Committee acknowledges the Judiciary's efforts to develop additional revenue sources to support court operating costs.

Testimony in support of this measure was submitted by the Judiciary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 889 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 172 Judiciary on S.B. No. 894

The purpose of this bill is to provide operating and capital improvement appropriations for fiscal biennium 1999-2001.

Your Committee finds that the Judiciary has made valiant efforts to maintain the level of services that Hawaii's citizens deserve through the identification of innovative methods and cost-cutting strategies even though financial resources have been severely limited. However, your Committee further finds the current level of Judiciary resources places unacceptable limitations on the services which can be provided to those seeking the assistance of the courts. Additional resources, such as new judgeships, additional staff support, and improvements in the security of the courts, are needed to ensure that the provision of these services are continued.

Testimony in support of this measure was submitted by the Judiciary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 894 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 173 Judiciary on S.B. No. 897

The purpose of this bill is to provide the Judiciary with the resources to implement the Ho'okele Court Navigation Project, a program to guide court users through the court system -- both physically and procedurally.

Your Committee finds that there is a strong need for a court navigation program for the thousands of people who enter Hawaii's courthouses each day. Many court users are unable to clearly articulate their need for services with regard to the court system. In addition, your Committee further finds that there is a growing number of pro se litigants who are bewildered by legal terminology, the dozens of court forms, and the maze of procedures. Your Committee believes that a Court Concierge Desk at the entrance of the courthouse will provide necessary information and assistance to make the court system a more user-friendly place.

Testimony in support of this measure was submitted by The Judiciary, Legal Aid Society of Hawaii, Hawaii Lawyers Care, Na Loio Immigrant Rights and Public Interest Legal Center, Kapiolani Community College Legal Education Department, and the Hawaii Justice Foundation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 897 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 174 Judiciary on S.B. No. 900

The purpose of this bill is to clarify that a single, uniform fee of \$100 is to be applied to all probate actions involving a decedent's estate.

Your Committee finds that this measure will establish a uniform fee to be collected only once upon filing for any proceedings involving a decedent's estate. Your Committee further finds that the intent of this effort is to clarify that this one fee applies to all probate cases, whether commenced through formal and informal proceedings by either an appointed representative or personal representative, and including foreign representatives with authority to act in Hawaii.

Testimony in support of this measure was submitted by the Judiciary.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 175 Judiciary on S.B. No. 901

The purpose of this bill is to repeal the June 30, 2000 sunset date for the Judiciary Computer System Special Fund into which \$2 of each \$7 traffic abstract fee is deposited.

Your Committee finds that the Judiciary Computer System Special Fund was established in 1996 to enable the Judiciary to upgrade its computer system and thereby increase its efficiency and productivity. Your Committee further finds that statewide court automation is a long-term endeavor requiring a dedicated source of funding. Your Committee recognizes that court processes are difficult to automate because the nature of the litigation process requires keeping track of thousands of documents and hundreds of individuals. Therefore, your Committee supports the implementation of a case management system to assist in resource management and improve accessibility to court processes and documents.

Testimony in support of this measure was submitted by the Judiciary.

Upon further consideration, your Committee has amended this measure by:

- (1) Repealing the provision that the Judiciary adopt temporary rules and requiring the Judiciary to adopt permanent rules subject to Chapter 91, Hawaii Revised Statutes; and
- (2) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 901, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 901, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 176 Judiciary on S.B. No. 902

The purpose of this bill is to allow the courts to assess a \$5 records management fee on all civil cases.

Your Committee finds that newly filed legal documents create 2,000 cubic feet of additional court records each year, and the Judiciary is required to store these documents, oftentimes until perpetuity. Your Committee further finds that the Judiciary annually incurs approximately \$84,000 in storage costs to rent private storage facilities for these records. Your Committee believes that a \$5 surcharge on the initial court filing will provide much needed revenue to help defray the costs of maintaining and storing these court documents. Your Committee acknowledges the Judiciary's efforts to identify additional revenue sources to support court operating costs.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 177 Judiciary on S.B. No. 1016

The purpose of this bill is to set a maximum of ten cents per page for the amount each state agency, other than the Lieutenant Governor's office for rules in its general collection, may charge for copies of rules or proposed rules. The bill allows separate charges for searching, identifying, and segregating rules to be copied. In addition, this bill requires that the full text of proposed rules be prepared by the proposing agency and posted on the Lieutenant Governor's website.

Your Committee finds that there has been confusion among state agencies as to whether existing law requires them to charge for copies of rules and proposed rules, and whether they may set their own fees. Your Committee further finds that based upon an opinion issued by the Attorney General, agencies have been charging for copies of rules and proposed rules at the rate of fifty cents per page. Your Committee believes that this is an inordinately high rate which presents a significant and unnecessary barrier to public access to rules and the rulemaking process.

In addition, your Committee finds that the provisions of the proposed bill requiring agencies to make available internet versions of their proposed rules through the Lieutenant Governor's website will greatly improve access to the agency rulemaking process by allowing members of the public to download the full text of proposed rules directly from their homes or businesses.

Testimony in support of this measure was submitted by the Department of Accounting and General Services, the Legislative Reference Bureau, the Office of Information Practices, and Hawaii's Thousand Friends.

Upon further consideration, your Committee has amended this measure by making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1016, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 178 Judiciary on S.B. No. 1511

The purpose of this bill is to appropriate funds for Hawaii's contribution to the costs of the National Conference of Commissioners on Uniform State Laws, and for related registration and travel expenses.

Your Committee finds that Hawaii's participation in the National Conference of Commissioners on Uniform State Laws has benefited Hawaii by providing carefully considered uniform laws for many areas of the law in which uniformity among the states is appropriate and useful. Your Committee further finds that the National Conference of Commissioners on Uniform State Laws depends upon state appropriations, both for dues and for the travel expenses of each state's commissioners, for its continued operation.

Testimony in support of this measure was submitted by the Hawaii Commission to Promote Uniform Legislation.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1511 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 179 Water, Land, and Hawaiian Affairs on S.B. No. 461

The purpose of this measure is to amend the laws relating to the management and leasing of government-owned fishponds.

Specifically, the measure:

- (1) Requires that prior to any leasing of a government-owned Hawaiian fishpond, the Board of Land and Natural Resources must first obtain the concurrence of either the chairperson of the Office of Hawaiian Affairs' Board of Trustees or the chairperson's designee; and
- (2) Expands the scope of the Board of Land and Natural Resources' power to manage and restore Hawaiian fishponds to include traditional and subsistence forms of fishpond management.

Testimony in support of the measure was received from the Office of Hawaiian Affairs.

The Department of Land and Natural Resources opposed the measure.

Your Committee finds that Hawaiian fishponds are a valuable cultural asset. As such, the Office of Hawaiian Affairs, as the state-designated entity to safeguard cultural assets, should be a signatory to matters concerning the use, management, and restoration of government-owned fishponds.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 461 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Matsuura).

SCRep. 180 Water, Land, and Hawaiian Affairs on S.B. No. 568

The purpose of this measure is to clarify and strengthen the State's historic preservation laws.

Specifically, the measure amends Chapter 6E, Hawaii Revised Statutes (HRS), relating to historic preservation, by:

- (1) Establishing a burial site program within the Department of Land and Natural Resources to assist island burial councils in their mandated responsibilities;
- (2) Strengthening the chapter's penalty section to include forfeiture of property for violation of Chapter 6E, HRS;
- (3) Establishing qualifications for burial specialists and allowing them to inspect inadvertent discoveries of burial sites; and
- (4) Removing the medical examiner from the inadvertent discovery of burial sites process.

Testimony in support of the measure was received from the Kawaihae Hawaiian Homes Community Association and two concerned citizens. Testimony that supported the passage of the measure with amendments was received from the Chairperson of the Board of Land and Natural Resources and a concerned citizen.

Your Committee has amended the measure by:

- (1) Reducing the experience requirement to become a burial specialist from five to three years experience with human skeletal remains;
- (2) Adding heiau to the list of sites protected under Section 6E-11, Hawaii Revised Statutes; and
- (3) Adding a new subsection to Section 6E-11, Hawaii Revised Statutes, that makes it unlawful to knowingly take, appropriate, excavate, injure, destroy, or alter, any heiau or its contents, unless permitted by the Department of Land and Natural Resources.

Your Committee believes that the measure, as amended, will provide the necessary staffing, procedural clarification, and penalties to ensure that historic Hawaiian burial and religious sites are protected.

As affirmed by the record of votes of the members of your Committee on Water, Land and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 568, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 568, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Matsuura).

SCRep. 181 Water, Land, and Hawaiian Affairs on S.B. No. 571

The purpose of this measure is to extend the Hawaiian Home Lands Trust Individual Claims Review Panel and the process to resolve individual claims of breaches of the Hawaiian Home Lands Trust for two more years.

Testimony in support of the measure was received from the Hawaiian Home Lands Trust Individual Claims Review Panel, the Native Hawaiian Legal Corporation, the State Council of Hawaiian Homestead Associations, the director of the Waimea Hawaiian Homesteaders' Association, Inc., a representative of the Aged Hawaiians, the Kukahi Coalition, and two concerned citizens.

The Department of Hawaiian Home Lands and the Attorney General asked that decision making on the measure be deferred until after a public hearing on S.B. No. 1316, a bill that provides an alternative formula for resolving individual claims of breach of the Hawaiian Home Lands Trust, could be conducted.

Your Committee finds that Chapter 674, Hawaii Revised Statutes, established a process by which to resolve individual claims of breaches of the Hawaiian Home Lands Trust. The process, as originally conceived, was supposed to be concluded by 1997. Due to complications and the sheer volume of claims filed, not all claims could have been filed by the original closing date. To remedy these problems the Legislature enacted Act 382, Session Laws of Hawaii 1997, which in part, extended the claims resolution process until December 31, 1999, and required the Attorney General, the Director of Finance, the Chairperson of the Hawaiian Homes Commission, and the Chairperson of the Hawaiian Home Lands Trust Individual Claims Review Panel to convene and establish a revised formula by which to compensate claimants. In 1998, Circuit Court Judge Marie Milks opined that the composition of the group to determine a revised formula had the appearance of bias and, therefore, ruled that the group was unconstitutional, thereby further slowing down the claims resolution process.

Your Committee believes that justice must prevail for those beneficiaries who have faithfully and patiently waded through the complex claims resolution process only to be put off year after year. Unfortunately, with the recent Circuit Court ruling which has clouded the issue of the amount of compensation owed to claimants, your Committee believes that a further extension is necessary.

Your Committee has amended the measure by making technical amendments to ensure that adequate time exists for claimants to file an action in Circuit Court if compensation is disputed.

As affirmed by the record of votes of the members of your Committee on Water, Land and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 571, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 571, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kanno, Matsuura, Nakata).

SCRep. 182 Water, Land, and Hawaiian Affairs on S.B. No. 1105

The purpose of this measure is to make an emergency appropriation to fund the legal services provided to the Department of Hawaiian Home Lands for individual claims review.

Testimony in support of the measure was received from the Department of Hawaiian Home Lands, the Attorney General, and the State Council of Hawaiian Homestead Associations.

Testimony in opposition to the measure was received from the Waimea Hawaiian Homesteaders' Association, Inc. and a spokesperson for the Aged Hawaiians.

Your Committee finds that funds budgeted for legal services provided to the Department of Hawaiian Home Lands for legal representation before the Hawaiian Home Lands Individual Claims Review Panel will be depleted by the end of February 1999. In order to complete the resolution process mandated under Chapter 674, Hawaii Revised Statutes, funding for the Department of Hawaiian Home Lands' legal representation must continue.

As affirmed by the record of votes of the members of your Committee on Water, Land and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1105 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Matsuura).

SCRep. 183 Water, Land, and Hawaiian Affairs on S.B. No. 1146

The purpose of this measure is to allow a Hawaiian homestead lessee to transfer the lessee's leasehold interest to a spouse, child, or grandchild who is at least one-quarter Hawaiian.

Testimony in support of the measure was received from the Department of Hawaiian Home Lands, the State Council of Hawaiian Homestead Associations, the Waimea Hawaiian Homesteaders' Association, Inc., a spokesperson for the Aged Hawaiians, the Ahupua'a 'O Moloka'i members of the State Council of Hawaiian Homestead Associations, and the Kawaihae Hawaiian Homes Community Association.

Your Committee finds that under existing law, a lessee of Hawaiian home lands may designate a qualified relative to succeed in the leasehold interest upon the death of the lessee. The measure would allow a lessee of Hawaiian home lands to transfer homestead rights to a qualified relative while the lessee is still living.

As affirmed by the record of votes of the members of your Committee on Water, Land and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1146 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Matsuura).

SCRep. 184 Water, Land, and Hawaiian Affairs on S.B. No. 42

The purpose of this measure is to make the Task Force on Beach and Water Safety (Task Force) a permanent entity.

Testimony in support of the measure was received from the Department of Land and Natural Resources, the Mayor of Maui, a member of the Maui County Council, the Department of Corporation Counsel of the City and County of Honolulu, the Emergency Services Department of the City and County of Honolulu, and the Office of the Kauai County Attorney.

A representative of the Consumer Lawyers of Hawaii testified that rather than making the Task Force permanent, the Legislature should extend the repeal date for two more years.

Your Committee finds that the Task Force on Beach and Water Safety is an entity that is administratively attached to the Department of Land and Natural Resources and is charged with the responsibility of advising the Chairperson of Land and Natural Resources on the design and placement of signs that warn people of dangerous natural conditions at state and county beach and coastal areas.

Your Committee has amended the measure by reinstating the sunset provision and extending the date to June 30, 2001.

Your Committee believes that extending the life of the Task Force for another two years is a more prudent approach to assessing the need for a Task Force on Beach and Water Safety.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 42, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 42, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 185 Water, Land, and Hawaiian Affairs on S.B. No. 453

The purpose of this measure is to change homestead lease amounts to \$1 and eliminate cash freehold agreements with respect to homestead leases.

Testimony in support of this measure was received from the Office of Hawaiian Affairs. Testimony in opposition to the measure was received from the Department of Land and Natural Resources.

Your Committee finds that lessees are required to reside on the land, pay taxes as if the land was held in fee simple, and meet the lease conditions regarding clearing and cultivation. Because the leasehold cannot be used as collateral, lessees have had difficulty financing home construction and repairs. This measure enables the lessees to purchase their lease, thus removing a barrier to improving their property and lifestyle.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 453 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chun, Anderson).

SCRep. 186**Water, Land, and Hawaiian Affairs on S.B. No. 457**

The purpose of this measure is to exempt native Hawaiians from fees for vital statistics certificates if the certificates are required by law to verify a person's eligibility for certain services or benefits as a person of Hawaiian ancestry.

Testimony in support of this measure was received from the Department of Hawaiian Home Lands, the Office of Hawaiian Affairs, and the Waianae Valley Hawaiian Homestead Association.

Your Committee finds that the increased fees for vital records authorized by Act 216, Session Laws of Hawaii 1997, have placed an economic hardship on persons seeking to verify their native Hawaiian qualifications for the Hawaiian home lands and other claims and entitlement programs. Documentation of ancestry most often includes vital records from the Department of Health, State Archives, Bureau of Conveyances, State courts, and other ancillary documents. This measure provides relief from this burden on native Hawaiians.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 457 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chun, Anderson).

SCRep. 187**Water, Land, and Hawaiian Affairs on S.B. No. 466**

The purpose of this measure is to appropriate funds for the biennial budget of the Office of Hawaiian Affairs.

Testimony in support of this measure was received from one individual.

Your Committee finds that the funds appropriated by this measure will provide the Office of Hawaiian Affairs with the necessary funding to maintain program operations.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 188**Water, Land, and Hawaiian Affairs on S.B. No. 557**

The purpose of this measure is to allow a simple majority of Board of Land and Natural Resources (Board) members present at a board meeting to take action on Conservation District Use Applications (CDUA).

Testimony in support of the measure was received from the Department of Land and Natural Resources. Testimony in opposition to the measure was received from Hawaiian Electric Company, Inc., the Land Use Research Foundation, and Hawaii's Thousand Friends.

Your Committee finds that under existing law, if no decision is made by the Board on a CDUA within the specified one hundred eighty day processing period, the CDUA would be automatically approved, causing ambiguity as to whether the Board actually approves of the CDUA. Additionally, under existing law, a valid action of the Board requires a four member majority vote. In some cases, a majority of Board members have actually voted to deny a CDUA but have fallen short of a four member majority (e.g. 3-2, or 3-1), thereby allowing an applicant to proceed with their project without obtaining the approval of a majority of the Board.

Your Committee believes that the measure will provide the Board of Land and Natural Resources with more flexibility in deciding CDUAs by allowing actions to be taken by a simple majority of board members present. Your Committee also believes that the measure will ensure that CDUAs will not be decided by default, thus resulting in clearer land use decisionmaking policy.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 557 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 189**Water, Land, and Hawaiian Affairs on S.B. No. 558**

The purpose of this measure is to strengthen the State's land use law.

Specifically, the measure:

- (1) Allows citizens to file suit for violations of the State land use law;
- (2) Enables the Land Use Commission to impose conditions on reclassified lands that run with the land; and
- (3) Strengthens the penalties for breaching the State land use law.

Testimony in support of the measure was received from the Sierra Club, Hawaii Chapter and Hawaii's Thousand Friends. The Department of Business, Economic Development, and Tourism's Office of Planning, the Land Use Commission, the County of Hawaii's Planning Department, and Hawaiian Electric Company, Inc., provided qualified support for the measure, stating that the section on citizen enforcement should be deleted.

Testimony in opposition to the measure was received from the Estate of James Campbell and the Land Use Research Foundation. The University of Hawaii's Environmental Center provided comments on the measure.

Based on the testimony provided by the Department of Business, Economic Development, and Tourism's Office of Planning, the Land Use Commission, the County of Hawaii's Planning Department, and Hawaiian Electric Company, Inc., your Committee has amended the measure by deleting the citizen enforcement provisions and removing the requirement that the county be bound by conditions imposed on lands reclassified by the Land Use Commission.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 558, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 558, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 190 Water, Land, and Hawaiian Affairs on S.B. No. 566

The purpose of this measure is to appropriate funds for the maintenance and upkeep of the Nanakuli Homestead Cemetery.

Your Committee received no testimony on this measure. Your Committee finds that the Nanakuli Hawaiian Homestead has a cemetery within its boundaries that is badly in need of restorative work. The deterioration of the cemetery has been a major sore point with the residents of the community. The Nanakuli community has taken it upon itself to maintain the site. Unfortunately, unlike commercial cemeteries which have built in funding sources for maintenance and preservation of the grounds, the Nanakuli Hawaiian Homestead Cemetery does not. With only limited financial support from the Department of Hawaiian Home Lands over the years, the Nanakuli community has done its best to stop the degradation, to give the kupuna a proper resting place.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 566 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 191 Water, Land, and Hawaiian Affairs on S.B. No. 569

The purpose of this measure is to enable the Department of Hawaiian Home Lands to hire private legal counsel.

Testimony in support of the measure was received from the Native Hawaiian Legal Corporation, the State Council of Hawaiian Homestead Associations, the Waimea Hawaiian Homesteaders' Association, Inc., and a spokesperson for the Aged Hawaiians.

Testimony in opposition to the measure was received from the Department of Hawaiian Home Lands, the Attorney General, and the Kawaihae Hawaiian Homes Community Association.

Your Committee finds that enabling the Department of Hawaiian Home Lands to retain its own private legal counsel would help resolve conflict of interest issues when the Department's interests differ from that of the Administration.

As affirmed by the record of votes of the members of your Committee on Water, Land and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 569 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kanno, Matsuura).

SCRep. 192 Water, Land, and Hawaiian Affairs on S.B. No. 693

The purpose of this measure is to appropriate funds to aid in the efficient management of Lake Wilson.

Specifically, the measure appropriates \$262,000 for the Department of Land and Natural Resources to:

- (1) Establish a permanent lake keeper position;
- (2) Construct a small office and laboratory; and
- (3) Purchase a sixteen foot boat.

No testimony was submitted on the measure.

Your Committee finds that the efficient management and protection of Lake Wilson would benefit not only area residents, but all citizens of the State who utilize and enjoy the resources Lake Wilson provides.

Your Committee has amended the measure by deleting the specified amount.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 693, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 693, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 193 Water, Land, and Hawaiian Affairs on S.B. No. 694

The purpose of this measure is to appropriate \$1,659,414, for the Department of Land and Natural Resources to expand its preservation activities in the Kaena Point Coastal Reserve.

Testimony in support of the measure was received from a private citizen.

Your Committee finds that the coastal area of Kaena Point, a natural reserve area, is unique in offering a wilderness experience to residents of Oahu within a short drive. The Kaena Point Coastal Reserve offers tide pools, coastal sand dunes, habitat for rare plant species and associated insects, wildlife habitat for native animals including the endangered pueo, or Hawaiian short-eared owl, and monk seal, nesting sites for seabirds such as the Laysan albatross and wedgetail shearwater, an abundance of historic and cultural sites, and an offshore habitat for reef fish and other marine animals that is a magnet for fishermen, marine predators like spinner dolphins, and migrating humpback whales.

After seven years of improved resource management and a ban on motorized vehicles, the natural area reserve portion at Kaena Point is in good condition. The ground cover is quickly returning. Monk seals are regularly seen on the beaches. Rare plants indigenous to the area are showing signs of recovery. The leeward side is recovering at a slower pace due to the dryer climate and established alien grasses.

Your Committee believes that more needs to be done to restore coastal ecosystems and protect threatened and endangered species, protect historic and cultural sites, and maintain access to the wilderness area for compatible activities.

Your Committee has amended the measure by deleting the specified dollar amount.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 694, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 694, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 194 Water, Land, and Hawaiian Affairs on S.B. No. 698

The purpose of this measure is to appropriate \$500,000 to develop a Waialua-Haleiwa stormwater drainage master plan.

No testimony was received on the measure.

Your Committee finds that the Waialua-Haleiwa flood plain is located on the northwestern coast of Oahu and has an approximate area of two square miles. The watershed above the Waialua-Haleiwa flood plain is the largest on Oahu, containing an area of 96.5 square miles. The primary purpose of the Waialua-Haleiwa stormwater drainage master plan is to provide the City and County of Honolulu with specific engineering recommendations for the control of storm drainage throughout the study area, to reduce repetitive flooding to residents and businesses in the area and to reduce the constant drain on city, state, and federal resources whenever a flood occurs.

Your Committee has amended the measure by deleting the specified dollar amount.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 698, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 195 Water, Land, and Hawaiian Affairs on S.B. No. 978

The purpose of this measure is to improve the effectiveness of the Department of Land and Natural Resources' Forest Stewardship Program.

Specifically, the measure enables the Forest Stewardship Program to assist private landowners who own forest lands and who wish to participate in forest management without a commitment in perpetuity to the strict non-intervention policies of the Natural Area Reserve System.

Testimony in support of the measure was received from the Department of Land and Natural Resources, the State Forest Stewardship Advisory Committee, the Hawaii Society of American Foresters, and C.A.M. Resource Management.

Your Committee believes that passage of the measure will result in the proliferation of healthier forested areas in the State.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 978 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 196 Water, Land, and Hawaiian Affairs on S.B. No. 1068

The purpose of this measure is to expand the powers of the Barbers Point Naval Air Station Redevelopment Commission (Commission).

Specifically, the measure:

- (1) Empowers the Commission to provide interim utility service to recipients of lands conveyed by the U.S. Navy after the naval station is closed;
- (2) Authorizes the Commission to establish committees and officers of the Commission as it deems necessary; and
- (3) Makes housekeeping amendments to reflect the City and County of Honolulu's recent administrative reorganization.

Testimony in support of the measure was received from the Department of Business, Economic Development, and Tourism's Office of Planning and the Department of Hawaiian Home Lands.

Your Committee believes that the measure will provide the Commission with the necessary powers to effectively carry out its mandated purpose.

Your Committee has amended the measure by making technical, nonsubstantive amendments for the purposes of conforming the measure to recommended drafting style and to reflect existing statutory language.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1068, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1068, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 197 Water, Land, and Hawaiian Affairs on S.B. No. 1074

The purpose of this measure is to repeal the Hamakua Community Development District.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism (DBEDT), Hawaii Community Development Authority (HCDA), and Planning Department of the County of Hawaii.

In lieu of development of the Hamakua District Plan, DBEDT, HCDA, and the Hilo-Hamakua Coordinating Committee have agreed to implement an alternative approach to identifying projects which would benefit the Hamakua area.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1074 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 198 Water, Land, and Hawaiian Affairs on S.B. No. 1080

The purpose of this measure is repeal the sunset date for section 206E-8.5, Hawaii Revised Statutes (HRS), relating to developments within special management areas and shoreline setback.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism and Hawaii Community Development Authority.

Section 206E-8.5, HRS, requires that all requests for developments within a special management area and shoreline setback variances for development on any lands within a community development district be submitted and reviewed by the Office of Planning. Your Committee believes that this provision is necessary and effective to preserve and enhance Hawaii's shorelines, particularly the Kakaako Waterfront.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1080 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 199 Water, Land, and Hawaiian Affairs on S.B. No. 1082

The purpose of this measure is to provide a permanent source of funding for the Bureau of Conveyances.

The measure accomplishes this by dedicating all moneys collected in excess of \$15 for each document recorded at the Bureau of Conveyances, except for the moneys collected for the special mortgage recording fee and the conveyance tax, to the Bureau of Conveyance Special Fund established under the measure.

Testimony in support of the measure was received from the Chairperson of the Board of Land and Natural Resources.

Your Committee has amended the measure by making technical amendments which include amending section 247-7, Hawaii Revised Statutes, to resolve conflicts caused by the proposed dedication of funding by deleting the apportionment of conveyance tax revenues to other funds and directing all revenues only to the Bureau of Conveyance Special Fund.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1082, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 200 (Joint) Water, Land, and Hawaiian Affairs and Economic Development on S.B. No. 1093

The purpose of this measure is to establish a process to restore public beach lands.

Specifically, the measure provides the Department of Land and Natural Resources with the necessary legislative and monetary support to implement elements of its Coastal Lands Program.

Your Committees received testimony in support of the measure from the Department of Land and Natural Resources, Department of Business, Economic Development, and Tourism, the Office of Planning, the City and County of Honolulu's Department of Planning and Permitting, and a private citizen.

Kamehameha Schools Bernice Pauahi Bishop Estate, the Sierra Club, Hawaii Chapter, and the Lanikai Association supported the passage of the measure if amendments were made to address their concerns. Testimony in opposition to the measure was submitted by the Office of Hawaiian Affairs and two private citizens.

Your Committees have amended the measure by deleting its substance and inserting therefor, provisions that appropriate funds to:

- (1) Conduct an engineering design and analysis of beach restoration at Honokowai Beach Park, Kaaawa Beach Park, and the Sacred Falls shoreline area; and

- (2) Conduct a demonstration scale engineering investigation for an offshore sand source to be used in beach restoration.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Hawaiian Affairs and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1093, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1093, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 3 (Nakata, Anderson, Slom).

SCRep. 201 Water, Land, and Hawaiian Affairs on S.B. No. 1098

The purpose of this measure is to amend the state water code, chapter 174C, Hawaii Revised Statutes (HRS), to correct unintentional reference errors, to provide consistency in referencing governmental agencies, and to clarify language throughout.

Testimony in support of this measure was received from the Department of Land and Natural Resources and Land Use Research Foundation of Hawaii. The Department of Water Supply of the County of Maui submitted suggested amendments to this measure.

Your Committee finds that the state water code references the Board of Land and Natural Resources as an authority regarding a matter when the Commission on Water Resource Management is the intended and actual authority. This measure corrects this error as well as other errors of terminology and consistency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1098 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 202 Water, Land, and Hawaiian Affairs on S.B. No. 1109

The purpose of this measure is to provide lease management flexibility to the Board of Land and Natural Resources.

Specifically, the measure amends the notice of breach or default requirements on public land leases time periods by reducing the curing period to thirty days for non-rent breaches and five business days for rent defaults.

The measure also clarifies that the Board of Land and Natural Resources may provide public land lessees with more time to cure public land lease breaches if they are making a good faith effort to remedy the breach.

Testimony in support of the measure was received from the Attorney General. The Chairperson of the Board of Land and Natural Resources and the Department of Hawaiian Home Lands testified in support of an amended form of the measure.

Your Committee finds that under existing law, the Department of Land and Natural Resources is required to provide lessees of public lands with at least sixty days to cure lease breaches. The Department of Land and Natural Resources testified that in managing general land leases, current industry standards indicate that sixty days is far too long a period.

Your Committee has amended the measure by providing the Board of Land and Natural Resources with the flexibility to determine the minimum amount of time it would permit for a response to a rental default.

Your Committee believes that the amended measure will provide the Board of Land and Natural Resources with the flexibility necessary to more efficiently execute its land lease management responsibilities.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1109, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1109, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 203 Water, Land, and Hawaiian Affairs on S.B. No. 1198

The purpose of this measure is to appropriate general revenues to grant Ho'oumau Ke Ola moneys to purchase property to be used to establish a community center that will provide training, employment, and other services to residents of the Wai'anae coast.

No testimony was received for this measure.

Your Committee finds that the residents of the Wai'anae coast are in need of a community center to assist the residents by providing training, employment, and other services and this community center will provide those benefits.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1198 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 204 (Joint) Water, Land, and Hawaiian Affairs and Transportation and Intergovernmental Affairs on S.B. No. 1215

The purpose of this measure is to change the boundaries of the Kakaako community development district to exclude Pier 1 and Pier 2 at Fort Armstrong.

Your Committees received testimony in support of this measure from the Chamber of Commerce of Hawaii. Testimony in opposition was received from the Hawaii Community Development Authority and Hawaii Boaters Political Action Committee.

Your Committees find that Piers 1 and 2 at Fort Armstrong include vital and unique cargo facilities that cannot be relocated and would be prohibitively expensive to duplicate. Piers 1 and 2 must be protected and preserved as a maritime facility. By excluding Piers 1 and 2, this measure relegates them to the jurisdiction of the Department of Transportation which would be more effective for protection and preservation of the maritime function of Piers 1 and 2.

As affirmed by the record of votes of the members of your Committees on Water, Land, and Hawaiian Affairs and Transportation and Intergovernmental Affairs that is attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1215 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 5 (Ige, D., Iwase, Nakata, Taniguchi, Anderson).

SCRep. 205 (Joint) Water, Land, and Hawaiian Affairs and Transportation and Intergovernmental Affairs on S.B. No. 1356

The purpose of this measure is to appropriate \$2,000,000 to improve the Kula water system's water storage capacity.

Testimony in support of the measure was submitted by a member of the Maui County Council.

Your Committees find that the upcountry area of Maui periodically suffers from serious drought conditions. These droughts have had a significant impact on the residents and businesses in the area. By providing increased water storage capacity, the Kula water system will be better able to weather periods of low water replenishment.

Your Committees have amended the measure by deleting the specified dollar amount.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Hawaiian Affairs and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1356, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1356, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 5 (Ige, D., Iwase, Nakata, Taniguchi, Anderson).

SCRep. 206 Water, Land, and Hawaiian Affairs on S.B. No. 1428

The purpose of this measure is to appropriate funds to implement capital improvement projects in the Ala Wai Canal watershed.

Testimony in support of this measure was received from three participants in the Ala Wai Canal Watershed Improvement Project.

Your Committee finds that the Ala Wai Canal contains many contaminants caused from heavy metals from automobiles, sediments from unstable soils, and biological contaminants from warm, fresh, and stagnant water.

Your Committee finds that the State has made considerable investment in the maintenance and improvement of the water quality of the Ala Wai Canal. Dredging will soon commence and be completed. Once the dredging is complete, the goal of the State will be to ensure that the low water quality will not continue. The Ala Wai Canal Water Quality Improvement Project was adopted by the Legislature during the Nineteenth Legislative Session. This project proposed various solutions to the water quality problem.

Your Committee has amended this measure to delete the total dollar amounts appropriated because further discussion is needed in order to quantify the amount necessary to properly implement the the Ala Wai Canal Watershed Improvement Project.

Your Committee finds that this measure will take steps toward improving water quality in the watershed to ensure the health and safety of the people of Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1428, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 207 Water, Land, and Hawaiian Affairs on S.B. No. 1500

The purpose of this measure is appropriate \$85,000 to model the future of Waialua on the island of Oahu.

Testimony in support of the measure was received from a private citizen.

Your Committee finds that the State is struggling to free itself from an economic doldrum, and its rural areas are among the hardest hit. Waialua is one such rural area experiencing a loss of the past and an uncertain future. The closing of Waialua Sugar Company in late 1996 brought concerned individuals from Waialua together to devise a master plan for the town, assess Waialua's needs, state its goals, and consider strategies for future change. These organizations include Friends for Waialua Town, Friends of Waialua Library, Connecting School-to-Work at Waialua High School, Waialua Technology Ho'olako Ana at Waialua Elementary School, Hui Kalo 'O Waialua, and the Hawaiian Alliance for Innovative Excellence.

Your Committee believes that the community is ready to come together as a whole to plan out its future. One tool to assist it toward that goal is a community mapping project, whereby residents, students, businesses, and service providers make a scale model of the Waialua area and literally map out its future. This will produce an in-depth understanding of economic and resource relationships and focus the community's direction for the future.

Your Committee has amended the measure by deleting the specific dollar amount and making technical, nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1500, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1500, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 208 (Joint) Labor and Environment and Transportation and Intergovernmental Affairs on S.B. No. 33

The purpose of this measure is to create a long-term supplemental funding source for endangered species recovery and youth conservation programs through the voluntary sale of conservation license plates.

Testimony in support of this measure was received from the Department of Land and Natural Resources and the Sierra Club.

Your Committees find that, in order to ensure the long-term survival of Hawaii's rare plants and animals, the State must not only increase its recovery efforts, it must also educate and involve a new generation of resource managers, Hawaii's youth, to become aware and participate in natural resource management efforts. During the current downturn in Hawaii's economy, government must find ways to fund programs such as endangered species recovery and youth conservation programs that do not impact the general funds of the State. Your Committees support this measure which provides an alternative funding source for these programs through the voluntary sale of conservation license plates.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 33 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 11. Noes, none. Excused, 4 (Ige, M., Iwase, Kanno, Taniguchi).

SCRep. 209 Labor and Environment on S.B. No. 737

The purpose of this measure is to exempt small construction projects from the permit requirements of the noise pollution law.

Testimony in support of this measure was received from the Department of Transportation, the Building Industry Association of Hawaii, the Contractors Association of Kauai, the Pacific Resource Partnership, Armstrong Builders, Ltd., Hidano Construction, Inc., Jas. W. Glover, Ltd., Paul Louie & Associates, S & M Sakamoto, Inc., SC Pacific Corp., and Willcocks Construction Corporation represented by thirteen individuals.

The Department of Health (DOH) testified in support of the measure with amendments. DOH notes that noise generated by smaller construction projects may be equally disturbing and result in adverse impacts on residential communities. As such, regulatory mechanisms are required in order that public complaints and concerns may receive appropriate response and attention.

Your Committee finds that this measure provides regulatory relief to companies building smaller construction projects. Your Committee also recognizes that there needs to be a mechanism in place to provide notification to DOH of these projects so that DOH can expeditiously deal with complaints and concerns of the public.

Your Committee has amended this measure to provide for a notification process that must be followed by any business that qualifies for the exemption from noise permits. The person responsible for the construction project is required to notify DOH in writing of the project. The notice shall include information concerning the person giving notice, type of construction, location, duration of project, and acknowledgement that the construction project is subject to applicable permissible noise levels and operational times.

Upon the suggestion of DOH, your Committee also amended this measure by removing Sundays and holidays from the list of times when this exemption does not apply.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 737, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 737, S.D. 1, and be referred to the Committee on Health and Human Services.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Chumbley, Chun Oakland, Slom).

SCRep. 210 Labor and Environment on S.B. No. 803

The purpose of this measure is to reduce the size of Hawaii's government by initiating a phased strategic workforce reduction plan, developing voluntary separation incentive programs, and providing for the authority and flexibility to restructure and streamline government programs.

Your Committee received testimony in support of this measure from the Department of Human Resources Development. The Hawaii State Teachers Association, HGEA-AFSCME Local 152, AFL-CIO, the Public Employees Management Association of Hawaii, and the United Public Workers testified in opposition.

Your Committee finds that the experience of the federal government in workforce reduction has demonstrated the value of voluntary incentive separation programs. Modeled after the successful federal program, this measure would establish a similar program and framework for the State.

Your Committee believes it is in the best interest of the State to undertake a thorough review of its programs, while providing options for employees whose services might no longer be required under a restructuring of services.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 803 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Chumbley).

SCRep. 211 Labor and Environment on S.B. No. 1024

The purpose of this measure is to regulate private cesspool, wastewater, and sludge pumping and hauling operations under the water pollution control statute rather than the statute relating to the certification of wastewater treatment personnel. The measure also includes the management of domestic sewage and animal wastewater under the purview of the water pollution control statute.

Testimony in support of this measure with amendments was received by the Department of Health.

Your Committee finds that this measure gives the Department of Health the ability to more effectively control illegal dumping by private pumpers of wastewater. Your Committee is in agreement with the amendments proposed by the Department of Health and has amended the measure by:

- (1) Adding a definition of "recycled water" to the water pollution control statute; and
- (2) Including recycled water in the management practices that are under the purview of the water pollution control statute.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1024, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1024, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Chumbley, Chun Oakland, Slom).

SCRep. 212 Labor and Environment on S.B. No. 1039

The purpose of this measure is to authorize flexible spending accounts for public employees.

Your Committee received testimony in support of this measure from the Department of Human Resources Development.

Your Committee finds that flexible savings accounts are a benefit that allows employees to deduct moneys from their paycheck on a pre-tax basis to pay for unreimbursed medical and dependent care expenses. In addition, the measure authorizes the use of any interest earned on the plan contributions and any unused and forfeited participant balances to defray administrative costs.

Your Committee is in support of this measure and believes it will provide an additional benefit to participants, without undue administrative costs to the State.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1039 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chumbley).

SCRep. 213 Labor and Environment on S.B. No. 1042

The purpose of this measure is to provide for additional flexibility in hiring new government employees by allowing vacancies to be announced at a range of salary rates, rather than the first step only, for professional and scientific positions and positions in the excluded managerial compensation plan.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, the County of Hawaii, and the Public Employees Management Association of Hawaii.

Your Committee finds that under current law all new hires must be appointed at the minimum step of the salary range, regardless of the quality and quantity of experience. As a result, it is difficult to recruit and hire experienced professionals and both State and county governments find themselves at a competitive disadvantage.

Your Committee believes the flexibility provided by this measure will result in more experienced personnel and a more efficient government operation.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chumbley).

SCRep. 214 (Joint) Labor and Environment and Transportation and Intergovernmental Affairs on S.B. No. 1494

The purpose of this measure is to appropriate funds to support Miconia eradication efforts on the island of Hawaii. Specifically, this measure will assist the County of Hawaii by providing matching funds for federal grants that are available for Miconia eradication efforts.

Testimony in support of this measure was received from the Department of Land and Natural Resources, the Department of Agriculture, the Nature Conservancy of Hawaii, Sierra Club, Hawaii Chapter, Big Island Melastome Action Committee, and two individuals.

Your Committees find that the U.S. Forest Service considers Miconia (*Miconia calvescens*) a major threat to forest health and the Department of Agriculture characterizes Miconia as a serious, invasive, noxious weed in Hawaii. In order to prevent Miconia from spreading to other islands, it is prudent that the State invest resources in the multi-agency eradication program on the island of Hawaii.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1494 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 11. Noes, none. Excused, 4 (Ige, M., Iwase, Kanno, Taniguchi).

SCRep. 215 Labor and Environment on S.B. No. 1563

The purpose of this measure is to appropriate general fund moneys for full-time vocational rehabilitation specialist positions within the Department of Labor and Industrial Relations (DLIR) for fiscal year 1999-2000.

Testimony in favor of this measure was received from DLIR, Hawaii Rehabilitation Counseling Association, ILWU Local 142, National Association of Rehabilitation Professionals in the Private Sector, Rehabilitation Association of Hawaii, and three individuals.

Your Committee finds that vocational rehabilitation is a critical component of our workers' compensation system that assists in returning injured workers to productive employment as quickly as possible, in a cost effective manner, while striving to ensure that the pre-injury earning capacity of the employee is maximized.

Your Committee further finds that due to budget cutbacks, the Rehabilitation Unit of the Disability Compensation Division (DCD) currently has one employee to monitor the vocational rehabilitation aspects of DCD. As a result, the mediation of conflicts, oversight of existing vocational rehabilitation plans, and holding of hearings on the approval or modification of vocational rehabilitation has been severely compromised. Both employers and employees have been frustrated by the delays in returning injured employees to employment.

Your Committee has amended this measure to specify that the appropriation is for \$65,000 for one vocational rehabilitation position and one full-time vocational rehabilitation specialist clerical position, as provided in the DLIR testimony.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1563, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1563, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chumbley, Ihara).

SCRep. 216 Government Operations and Housing on S.B. No. 4

The purpose of this measure is to prohibit state agencies from charging other state agencies for services or goods provided to other state agencies, that are funded by general funds.

Testimony in opposition to this measure was received from the Department of Budget and Finance and the Department of Transportation. Testimony in support of the intent of this measure was received from the Department of Accounting and General Services.

Your Committee finds that in order to improve government efficiency and productivity, agencies should not charge each other for goods and services.

Your Committee adopted the recommendation of the Department of Accounting and General Services and has amended this measure to limit its applicability only to goods and services funded by general funds.

Your Committee also has amended this measure to change the designated chapter number for this new statutory material from chapter 26, Hawaii Revised Statutes, to chapter 37, Hawaii Revised Statutes, in order to place this measure in a more appropriate statutory chapter.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 4, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 217 Government Operations and Housing on S.B. No. 646

The purpose of this measure is to reduce the cost of copying government records from fifty cents to twenty-five cents.

Testimony in favor of this measure was received from the Department of Accounting and General Services. Testimony opposed to this measure was received from United Public Workers AFSCME Local 646 AFL-CIO.

Your Committee finds that government records must be accessible and affordable to the public. Currently, the price for copying government records is fifty cents. Your Committee further finds that lowering the copying price to six cents will allow government records to be more accessible to the public, yet still cover the cost to copy.

Your Committee adopted the recommendation of the Legislative Reference Bureau contained in their 1998 report entitled, "The Price of Access Fees for Copies of State Administrative Agency Rules," and amended the measure to reduce the cost of copying government records to six cents per copy.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 646, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 218 Government Operations and Housing on S.B. No. 876

The purpose of this measure is to set forth an appraisal method standard for determining the value of condominiums and cooperative housing corporations in which a fee simple owner offers a leased fee interest to be purchased by a lessee.

Testimony in favor of this measure was received from the Hawaii Association of Realtors and one individual. Testimony opposed to this measure was received from the Housing and Community Development Corporation of Hawaii, Small Landowners Association and Small Landowners of Oahu, and three individuals.

Your Committee finds that appraisal of real property should be based on its fair market value to ensure equity and fairness in the process.

Additionally, your Committee finds that a uniform appraisal standard for condominiums and cooperative housing corporations will avoid bias or impropriety by appraisers, reduce lengthy litigation to determine land values, and expedite the transfer of lease-to-fee conversions.

In order to address the constitutional concerns expressed in the testimony, your Committee amended this measure to apply only to condominiums and cooperative housing corporations. More specifically, this measure was amended to apply only to condominiums and cooperative housing corporations leases executed on or after the effective date of this measure, and current leases that do not have an appraisal method specified in the lease.

Additionally, your Committee amended this measure to allow the fair market value conversion appraisal method to be used for leases executed prior to this measure which provide for a conversion appraisal method, if both the lessor and lessee are in agreement that the appraisal method in this measure should be used. The amendment also exempts conversion through condemnation proceedings from this measure.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 876, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 219 Government Operations and Housing on S.B. No. 1069

The purpose of this measure is to authorize the Housing and Community Development Corporation of Hawaii (HCDCH) to issue an additional \$500,000,000 in tax exempt revenue bonds for the Hula Mae Single Family Mortgage Purchase Program.

Testimony in favor of this measure was received from the Housing and Community Development Corporation of Hawaii.

Your Committee finds that under the Hula Mae Single Family Mortgage Purchase Program, the HCDCH is authorized to issue tax exempt mortgage revenue bonds, and to make funds available through mortgage lenders at affordable interest rates to households with low to moderate incomes. As of June 30, 1998, over 8,000 first time home buyers have been provided mortgages through the Hula Mae program.

In 1997 and 1998, lenders and private developers requested over \$1 billion of Hula Mae funds, yet only approximately \$283 million was actually available for lending.

Currently, the HCDCH is authorized to issue revenue bonds in the principal amount of \$1,775,000,000. To date, HCDCH has issued \$1,551,045,000, leaving only \$223,955,000 of bond authority available to HCDCH.

Your Committee finds that in order to meet the demand for affordable interest rate mortgage loans, additional funds are needed for the Hula Mae Program.

Your Committee amended this measure by making technical, nonsubstantive changes to accurately reflect the Session Law being amended.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1069, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1069, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 220 Government Operations and Housing on S.B. No. 1070

The purpose of this administration measure is to make affordable housing available to more low-income residents of Hawaii by:

- (1) Conforming the definition of "qualified resident" in section 201G-128, Hawaii Revised Statutes (HRS) with the existing definition in section 201G-112, HRS;
- (2) Amending the definition of "housing owner" by including "very low" income households as a group of persons to be served;
- (3) Amending the existing definition of "qualified tenant" under the State Rent Supplement Program in section 201G-233, HRS, to enable eligible single persons to participate in the program to conform to fair housing;
- (4) Lowering the income limits for participation in the State Rent Supplement Program, from moderate income to very low income;
- (5) Phasing in an increase of the tenant's annual payment from one-fifth to thirty per cent of the tenant's annual income; and
- (6) Correcting a reference error in section 201G-235, HRS.

Testimony in favor of this measure was received from the Office of the Governor, Housing and Community Development Corporation of Hawaii, and Legal Aid Society.

Your Committee finds that the greatest group of housing need is among those below 30% of median income, where nearly two thirds of households cannot afford their housing payments every month.

Your Committee finds that by reducing the targeted income population to 50% and below of the median income, persons who are most in need of housing assistance will be served by the Rent Supplement Program and will be more consistent with Housing and Urban Development's Section 8 Rent Subsidy program.

Your Committee amended this measure by making technical, nonsubstantive amendments and ensuring that the appropriate sections take effect on the appropriate date.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1070, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1070, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 221 Government Operations and Housing on S.B. No. 1076

The purpose of this measure is to permit insurers to take a low-income housing credit.

Your Committee received testimony in support of this measure from the Department of Taxation, and Housing and Community Development Corporation of Hawaii. The Insurance Commissioner provided informational testimony and took no position on this measure.

This measure is intended to extend to insurers the same tax deduction allowed to banks and financial institutions in Hawaii that the Internal Revenue Code. Insurance companies have no similar statutory tax credit.

Your Committee believes that this measure will encourage the flow of capital into Hawaii by providing insurance companies the same incentives enjoyed by individuals and financial institutions to invest in low-income housing projects.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 222 Government Operations and Housing on S.B. No. 1518

The purpose of this measure is to require all State departments and agencies to identify their goals, objectives, and policies to be submitted to the Legislature twenty days before the 2000 Regular Session, and annually thereafter.

Testimony in favor of the intent of this measure was received from the Department of Health and Government Efficiency Teams, Inc. Testimony opposed to this measure was received from the Department of Budget and Finance.

Your Committee finds that State departments and agencies should constantly work towards improving the effectiveness and efficiency of our government. Strategic planning and development of goals and objectives are essential for more efficient and productive operations for government agencies.

Your Committee finds that the development of goals and objectives is essential for State departments and agencies to determine priorities, guide their decisions, and measure the effectiveness of their programs and services.

Your Committee finds that goals and objectives assist the legislature in evaluating the budgetary needs of departments and agencies, and therefore every State agency and departments should submit their goals and objectives to the legislature every year.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1518 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 223 Government Operations and Housing on S.B. No. 1101

The purpose of this measure is to clarify the provisions for protests and the related available remedies under Chapter 103D, Hawaii Revised Statutes.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services.

Your Committee finds that this measure will clarify the language regarding protests, the responsibilities of the chief procurement officer and hearings officers, and expand the scope of remedies. Your Committee is in support of this measure as a means of promoting greater efficiency in procurement procedures.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 224 Government Operations and Housing on S.B. No. 1391

The purpose of this measure is to establish a law against contract and procurement fraud and impose penalties.

Your Committee received testimony in support of this measure from the City and County of Honolulu and the Hawaii Operating Engineers Industry Stabilization Fund.

Your Committee finds that government employees with responsibilities for procurement and contracting of services are in positions of immense authority in a highly complex area. With this expertise in the bid system, a few of these employees have been able to funnel millions of dollars in public funds to enrich themselves and others.

Your Committee supports this measure and believes it is critical to maintain the integrity of the bidding process and protect the State and the public in general from fraud and deception.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1391 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 225 Government Operations and Housing on S.B. No. 1466

The purpose of this measure is to require the Comptroller to collect from state agencies their portion of benefits received under the State Risk Management Revolving Fund. It additionally requires the Comptroller to prepare a report each fiscal year to agencies and the Legislature about the amount appropriated to and collected from the agencies.

Testimony in support of the intent of this measure was received from the Department of Accounting and General Services (DAGS).

Your Committee finds that collecting from agencies for benefits received can be an effective tool to hold agencies responsible for their losses and provide them with an incentive to control their risks and losses.

Your Committee has amended the measure to change the effective date of the measure to July 1, 2000, and to change the requirement of the DAGS report to the Legislature from twenty days to one hundred forty-five days before each legislative session. Your Committee also deleted subsections (a), and (d) to (g) of section 41D-4, Hawaii Revised Statutes, as unnecessary to the measure, since those subsections are not being amended.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1466, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 226 Government Operations and Housing on S.B. No. 1626

The purpose of this measure is to place restrictions on the award of public contracts to persons who made political campaign contributions to anyone involved in the contract selection process.

Testimony in support of the intent of this measure was received from the Department of Accounting and General Services, the State Procurement Office, and the Campaign Spending Commission.

Your Committee finds that courts have determined that campaign contributions are considered free speech.

Your Committee finds that in Hawaii, there has been a longstanding practice of candidates sending books of fundraiser tickets to government nonbid contractors which pressures individuals or firms to make unwilling contributions and creates the appearance of impropriety.

Your Committee finds that a balance must be made between free speech and ensuring a fair procurement process.

Currently, section 11-205.5, Hawaii Revised Statutes, requires persons receiving government contracts of more than \$50,000 to file disclosure forms identifying all contributions made within twelve months of the contract. However, your Committee finds that enforcement of this statute has been difficult and the disclosures are necessarily incomplete.

Therefore, your Committee is in favor of a more direct and forceful approach to prevent the appearance of or actual impropriety that can occur when campaign contributions are received from anyone involved in the contract selection process.

The amendment to this measure changes the time period during which a person may receive campaign contributions by prohibiting contributions between contract negotiations and contract performance or termination of contract negotiations, whichever occurs last.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1626, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1626, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 227 (Majority) Commerce and Consumer Protection on S.B. No. 211

The purpose of this measure is to extend the pensioners' bonus originally extended to retirants of the Employees' Retirement System (ERS) under Act 339, Session Laws of Hawaii 1990, for another two years.

Testimony in support of the measure was submitted by the Retirees' Unit of the Hawaii Government Employees Association, the Hawaii State Teachers Association - Retired, the Hawaii State Teachers Association, and the Oahu Retired Teachers Association. The ERS submitted comments on the measure.

Your Committee finds that pensions provided by the ERS to its retired members have cost of living increases computed on simple interest and are not compounded. In other words, interest on any subsequent cost of living increases are computed on the original amount of the pension. This formula has caused the pensions of many long-retired members to fall behind inflation.

In an effort to offset this problem, the 1990 Legislature enacted Act 339, Session Laws of Hawaii 1990, which provided an annual bonus in addition to the annual cost of living increases already provided to retirants under section 88-90, Hawaii Revised Statutes. Since then, subsequent Legislatures have extended the bonus to ensure that pensions of long-retired members of the ERS do not fall too far behind the cost of living.

Your Committee has amended the measure by changing the effective date to June 29, 1999, rather than upon approval, in order to prevent the sunset provision from taking place.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 211, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 211, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 3 (Hanabusa, Ihara, Matsuura).

SCRep. 228 Commerce and Consumer Protection on S.B. No. 1281

The purpose of this measure is to amend the Employees' Retirement System's (ERS) ability to hire personnel.

Specifically, the measure enables the ERS to hire an assistant administrator and a chief investment officer. The measure also deletes the ERS's ability to hire its own legal counsel.

Your Committee received testimony in support of the measure from the Hawaii State Teachers Association. The ERS submitted comments on the measure.

Your Committee finds that enabling the ERS's Board of Trustees to hire its own assistant administrator and chief investment officer would provide the ERS with more flexibility in managing its personnel and investments. With regard to the deletion of the ERS's authority to hire its own legal counsel, your Committee finds that since the repeal of that authority in Chapter 103, Hawaii Revised Statutes, relating to procurement practices, and the subsequent enactment of the State's Uniform Procurement Code in 1995, which disallowed the hiring of outside counsel, the ERS has not been able to hire its own attorney. Therefore, the deletion is housekeeping in nature and was included to conform Section 88-29, Hawaii Revised Statutes, with the intent of Chapter 103D, Hawaii Revised Statutes.

Your Committee has amended the measure by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1281, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1281, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Hanabusa, Ihara, Matsuura).

SCRep. 229 Commerce and Consumer Protection on S.B. No. 1282

The purpose of this measure is to provide the Employees' Retirement System (ERS) with greater investment flexibility.

Specifically, the measure enables the ERS to invest in real estate via Limited Liability Companies (LLCs) and similar entities to help limit the ERS's liability from personal injury or property damage lawsuits. The measure also amends a section reference to the Internal Revenue Code to more accurately reflect the types of real property investments the ERS is authorized to invest in.

Your Committee received comments from the ERS on the measure.

Your Committee finds that LLCs are a relatively new form of legal entity that have the advantage of being a pass-through entity for income tax purposes by eliminating taxation at the federal and state levels. LLCs also benefit from the corporate-type advantages of centralized management and limited liability for the owners.

Your Committee has amended the measure by making technical, nonsubstantive amendments for the purposes of clarity, format, and style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1282, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1282, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Hanabusa, Ihara, Matsuura).

SCRep. 230 Economic Development on S.B. No. 521

The purpose of this measure is to create a task force within the Department of Agriculture to investigate the problem of the brown tree snake in Hawaii.

Your Committee received testimony from the Department of Agriculture (DOA), the Department of Land and Natural Resources (DLNR), and the Environmental Center at the University of Hawai'i, in support of the concerns expressed in the measure.

Your Committee finds that the agencies most concerned with stopping the importation of the brown tree snake to Hawaii, consider this snake a serious threat to Hawaii's environment. To this end, the DOA currently chairs a Brown Tree Snake Technical Committee under the auspices of the Coordinating Group on Alien Pest Species (CGAPS). Members of CGAPS include representatives from various State, federal, military, and private organizations.

Your Committee further finds that resources to implement increased inspections in both Hawaii and Guam, eradication, and public education, remain a critical need at this time.

Your Committee is in support of all efforts to rid the islands of the brown tree snake, as well as other alien species, and has amended this measure to replace the contents with authorization to establish one full-time permanent alien species coordinator position in DLNR, and to make an unspecified appropriation for the position.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 521, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 521, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Slom).

SCRep. 231 (Majority) Economic Development on S.B. No. 576

The purpose of this measure is to extend the current board members of the Agribusiness Development Corporation (ADC) an additional five years and to appropriate an unspecified amount for the performance of their duties.

Your Committee received testimony in support of this measure from the Big Island Farm Bureau and one individual. The Department of Agriculture submitted testimony in opposition.

Your Committee finds that the ADC was established in 1994 to administer an aggressive and dynamic agribusiness development program to support the transition of Hawaii's agricultural industry from large-scale, single crop plantations to more diversified farming operations.

Your Committee further finds that supporting this transition remains critical to a continually evolving industry. If agriculture is to progress, expand, and flourish, it will need creative and innovative leadership. Your Committee believes this can best be provided by extending the ADC board in its present form and by expanding the work of the ADC.

Your Committee has amended this measure accordingly to:

- (1) Provide an unspecified appropriation for four positions and general operating expenses of the ADC;
- (2) Direct the ADC to allot the necessary financial and human resources necessary to plan, design, and construct an agricultural subdivision in the Hamakua district of the Island of Hawaii, with an unspecified appropriation for this purpose; and
- (3) Require the ADC to report annually to the Legislature.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 576, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 576, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Ige, M., Slom). Excused, 1 (Taniguchi).

SCRep. 232 Economic Development on S.B. No. 784

The purpose of this measure is to appropriate \$150,000 for the papaya industry on the island of Hawaii to develop new markets and expand existing markets in foreign countries.

Your Committee received testimony in support of this measure from the Department of Agriculture, the University's College of Tropical Agriculture and Human Resources, the Big Island Papaya Growers Association, and the Hawaii Papaya Industry Association.

Your Committee finds that in 1993, the State's papaya production was sixty-four million pounds. As a result of the ring spot virus, production has dropped to thirty-five million pounds and foreign suppliers have taken over many of Hawaii's former markets.

Your Committee further finds that the industry is recovering with the transgenic papaya, new acreage has been planted, and production levels are expected to reach sixty-three million pounds between 2001 and 2002. Your Committee is in support of this measure and believes it will help develop markets for Hawaii papaya and reestablish the State's dominance in Canadian, Japanese, and U.S. mainland markets.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 233 Economic Development on S.B. No. 1062

The purpose of this measure is to allow trusts and limited liability companies as applicants for agricultural park leases.

Your Committee received testimony in support of this measure from the Department of Agriculture, the Hawaii Farm Bureau, the Big Island Farm Bureau, Hawaii Island Landscape Association, and Keohole Ag Park Association.

Your Committee finds that when the agricultural park program was established, new entities such as revocable living trusts and limited liability companies had not been established or widely utilized. This measure will allow lessees to transfer or continue the leases to both surviving family members or successor business entities.

Your Committee believes this measure is in the public interest and will provide additional protection to farmers and their families with agricultural park leases.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1062 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 234 Economic Development on S.B. No. 1220

The purpose of this measure is to direct the Agribusiness Development Corporation to allot the financial and human resources necessary to plan, design, and construct an agricultural subdivision in the Hamakua district on the Island of Hawaii, and to appropriate \$1 for the purposes of this Act.

Your Committee received testimony in support of this measure from the Agribusiness Development Corporation (ADC) and the Hawaii Farm Bureau.

Your Committee finds that at its regular January meeting, the ADC board of directors approved a motion to support legislative measures providing an agricultural subdivision in Hamakua, Hawaii. Your Committee is in support of this measure as a means of further developing both diversified agriculture and the economy of the State as a whole.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1220 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 235 (Majority) Economic Development on S.B. No. 1613

The purpose of this measure is to authorize limited use hunting permits for foreign hunters who do not meet the criteria for a regular hunting license, to hunt on private land with a Hawaii-licensed guide.

Your Committee received testimony in support of this measure from Hawaii Hunting Tours, Pig Hunters of Hawaii, and four individuals. The Department of Land and Natural Resources testified in opposition. The Hawaii Hunting Advisory Council, the Hawaii Hunting Association, and the Hawaii Rifle Association submitted comments.

Your Committee finds that Hawaii has an economic opportunity in allowing controlled hunting on private lands by foreign nationals. There is considerable interest by both Asians and Europeans who would like to hunt in Hawaii, as well as by private landowners.

Your Committee has heard discussions regarding safety issues that may arise as a result of this measure, and acknowledges those concerns. However, your Committee notes that the measure would allow hunting only with guides who have successfully completed a course or program in hunter education and safety and possess a valid Hawaii hunting license.

Your Committee believes this measure is worthy of further discussion by both the Legislature, the hunting community, and the public in general.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1613 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 2 (Buen, Kawamoto). Excused, 1 (Taniguchi).

SCRep. 236 Transportation and Intergovernmental Affairs on S.B. No. 18

The purpose of this measure is to prohibit the use of a person's social security number as a person's driver's license or instruction permit identification number or on a State certificate of identification (State ID).

Testimony in support of this measure was received from the Office of Information Practices, Libertarian Party of Hawaii, Common Cause Hawaii, and four individuals. The State Attorney General submitted testimony in support of this measure as it relates to State ID's. The Department of Transportation submitted testimony in support of this measure with suggested amendments. One individual submitted testimony in support of this measure with suggested amendments.

Your Committee finds that because social security numbers have been used in the private sector to identify an individual's interest with financial, educational, credit and medical institutions, utilities, and marketing, retail, and other consumer-oriented institutions, an unscrupulous person may easily use a social security number to steal a person's identity or for other illegal purposes. Currently, a person's social security number may be obtained from a Hawaii driver's license, instruction permit, or State ID.

Your Committee believes that prohibiting the use of social security numbers on driver's licenses, instruction permits, and State ID's will further secure the privacy of personal information. However, the Department of Transportation indicated that implementation of the necessary changes to the affected computer systems by December 31, 1999, may not be possible and that more time would be needed. Accordingly, your Committee has amended this measure by changing the effective date of this Act to July 31, 2000. Your Committee also has made technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 18, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 18, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 237 Transportation and Intergovernmental Affairs on S.B. No. 27

The purpose of this measure is to require an owner of a vehicle in storage to present a certificate of inspection issued after the recording of storage, only if the certificate of inspection expired during the storage period and the vehicle is to be removed.

Your Committee received testimony in support of this measure from one individual.

Your Committee finds that the law now requires a new inspection certificate, even if the current one is still valid. Your Committee believes this creates an undue burden on the owner and is in support of this measure.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 27 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 238 Transportation and Intergovernmental Affairs on S.B. No. 627

The purpose of this measure is to eliminate the state residency requirement for employment in positions involved in the performance of services in planning and executing measures for the security of Hawaii and the United States, such as those in the police departments.

Testimony in support of this measure was received from the City and County of Honolulu Police Department.

Currently, in order to be a law enforcement officer in Hawaii, one must be a Hawaii resident. Your Committee finds that there are currently 234 vacancies in the City and County of Honolulu Police Department. Your committee further finds that recently, out of 930 applicants, only 39 applicants were selected to enter recruit school.

Your Committee finds that an average of thirty applicants per exam for employment with the City and County of Honolulu are considered ineligible because they are nonresidents. By eliminating the residency requirement, the Police Department will have a larger pool of applicants to select from, whereby job vacancies could be filled by qualified individuals.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 627 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 239 Transportation and Intergovernmental Affairs on S.B. No. 661

The purpose of this measure is to provide stricter penalties for minors (persons under the age of twenty-one) who purchase or possess liquor and adults who purchase liquor for consumption by minors. The penalties for minors and adults provided in this measure include suspending their driver's license, requiring that they attend an alcohol and drug education program, and perform community service.

Testimony commenting on this measure was received from the Judiciary.

The Judiciary testified that since this measure requires the courts to provide alcohol and drug education programs to be attended by persons violating section 281-101.5, Hawaii Revised Statutes, funds need to be appropriated to pay for the education programs.

Your Committee finds that the sanctions imposed by this measure provide meaningful deterrents against underage drinking.

Your Committee has amended this measure by appropriating \$50,000 to the Judiciary to fund the alcohol and drug education programs. A technical, nonsubstantive amendment also was made.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 661, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 240 Transportation and Intergovernmental Affairs on S.B. No. 674

The purpose of this measure is to clarify that a police roadblock is not invalidated by a failure to comply with police procedures that exceed the minimum statutory roadblock requirements.

Testimony in support of this measure was received from the Department of Transportation, Governor's Highway Safety Council, Department of the Prosecuting Attorney for the City and County of Honolulu, City and County of Honolulu Police Department (HPD), County of Maui Police Department, and Mothers Against Drunk Driving.

Testimony indicated that a number of court cases involving roadblocks have been dismissed in both criminal and administrative driver's license revocation cases due to "technical" violations of police procedures. Under section 286-162.6, Hawaii Revised Statutes (HRS), roadblocks must meet certain minimum requirements. In some instances, however, police procedures exceed the minimum requirements set forth in section 286-162.6, HRS.

In State v. Fedak, 9 Haw. 98 (1992), the Hawaii Intermediate Court of Appeals found that a roadblock conducted by HPD was invalid because the officer in charge of the roadblock had changed its location to avoid traffic congestion. Although the roadblock in question complied with section 286-162.6, HRS, the court found that it did not comply with HPD's internal regulations because the regulations did not provide any authority for changing the location of the roadblock. Thus, even though all statutory requirements for the roadblock were met and the roadblock was changed for a legitimate safety concern, the roadblock was invalid.

Your Committee finds that the ruling in State v. Fedak was not the intended application of section 286-162.6, HRS. Your Committee further finds that this measure clarifies that failure to comply with roadblock police procedures that exceed the minimum statutory requirements of section 286-162.6, HRS, does not invalidate the roadblock.

Your Committee has amended this bill by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 674, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 674, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 241 Transportation and Intergovernmental Affairs on S.B. No. 675

The purpose of this measure is to require persons working in the contracting business on federal projects in the State to have a Hawaii contractor license pursuant to chapter 444, Hawaii Revised Statutes.

Testimony in support of this measure was received from Hawaii Building and Construction Trades Council, AFL-CIO, Subcontractors Association of Hawaii, Hawaii Operating Engineers Industry Stabilization Fund, Plumbers and Fitters Local 675, United Association, and Industry Management Consultants, Incorporated.

Testimony in support of the intent of this measure was received from the Department of Transportation, Department of Commerce and Consumer Affairs (DCCA), and the Contractors License Board of the DCCA. These testifiers raised concerns regarding enforcement of this measure citing possible federal constitutional issues.

Testimony indicated that Hawaii's construction industry is experiencing a high rate of unemployment. Due to the requirements and taxes imposed on Hawaii licensed contractors, in many cases, out-of-state contractors are able to submit bids on federal projects in Hawaii that are lower than those submitted by Hawaii licensed contractors. This measure would require out-of-state contractors desiring to work on federal projects to meet the same requirements of Hawaii contractors--licensing pursuant to chapter 444, Hawaii Revised Statutes.

Your Committee has resolved the federal constitutional concerns by deleting the amendment to section 444-9, Hawaii Revised Statutes, and including contractors and subcontractors working on federal projects in the definition of "contractor" and subjecting them to the licensing requirements of chapter 444, Hawaii Revised Statutes, only to the extent allowed under federal law.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 675, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 242 Transportation and Intergovernmental Affairs on S.B. No. 700

The purpose of this measure is to enact provisions regulating neighborhood electric vehicles.

Testimony in support of this measure was received from the Department of Customer Services of the City and County of Honolulu, MMS, Inc., and the Electric Vehicle Association of Hawaii. The State Insurance Commissioner of the Department of Commerce and Consumer Affairs submitted testimony commenting on this measure.

Your Committee finds that neighborhood electric vehicles (NEV) may be a viable alternative to the use of cars within neighborhoods. The NEV has a maximum speed of twenty-five miles per hour with minimum noise and pollutant emissions and high energy efficiency. Your Committee also finds that establishment of a NEV and electric vehicle industry in the State would create high technology employment and business opportunities.

Your Committee has amended this measure by making technical, nonsubstantive changes for purposes of style.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 700, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 243 Transportation and Intergovernmental Affairs on S.B. No. 703

The purpose of this measure is to exempt standard bars and bars with dancing from the notice provisions of section 281-57, Hawaii Revised Statutes, upon the transfer of a dispenser liquor license.

Testimony in support of this measure was received from the Hawaii Restaurant Association.

Your Committee finds that under current law, when standard bars and bars with dancing facilities that are liquor dispenser licensees transfer their license to a transferee, the transferee is required to send out public notice of a hearing on the transfer. Pursuant to section 281-57, Hawaii Revised Statutes, public notice must be sent by mail to owners and lessees of real property within five hundred feet of the premises, the registered voters and small businesses residing within one hundred feet of the premises, and each condominium project and cooperative apartment within five hundred feet of the premises. The transferee, therefore, incurs substantial costs in providing the required public notices.

Your Committee further finds that since these license transfers are usually generally accepted by the communities, exempting them from the notice provisions seems reasonable. However, this measure would still require hostess bars, bars with persons that entertain unclothed, and class 11 cabarets to provide the required public notice of hearings.

Your Committee has amended this measure by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 703, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 703, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 244 Transportation and Intergovernmental Affairs on S.B. No. 709

The purpose of this measure is to allow use of a photo technology system to enforce the violation of crossing of longitudinal traffic lane markings in conjunction with the photo red light and speed imaging detector demonstration project.

Testimony in support of this measure was received from the Department of Transportation, City and County of Honolulu Police Department, State Farm Insurance Companies, and two individuals. The Judiciary submitted comments on this measure.

Testimony indicated that use of photo technologies (video, digital, or conventional cameras) is a safer and more efficient method for enforcing the violation of unlawfully crossing longitudinal traffic lane markings. A photo technology system would produce a photo identifying a violator and the citations and summons would be mailed to that violator.

Current law requires that police officers physically pull-over violators and hand traffic citations to them. In many instances, police officers cannot enforce the violation because the roadway configuration prohibits a safe stop for both the motorist and the officers. In addition, stopping a motorist on the freeway is dangerous and causes traffic slow-downs.

Your Committee finds that permitting the use of photo technologies in enforcing the violation of unlawfully crossing longitudinal traffic lane markings allows for effective, efficient, and safe enforcement of the law.

Your Committee has amended this measure by:

- (1) Inserting procedures to allow for the citation or summons to be issued to a person who unlawfully crossed longitudinal traffic lane markings but is not the registered owner of the vehicle;
- (2) Replacing references throughout the measure to "access control road" with "controlled access facility" or like terms since it is defined in section 264-61, Hawaii Revised Statutes; and
- (3) Making technical, nonsubstantive amendments for purposes of conformity, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 709, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 709, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 245 Transportation and Intergovernmental Affairs on S.B. No. 751

The purpose of this measure is to make an appropriation to upgrade the telecommunications system of the Police Department of the County of Hawaii.

Testimony in support of this measure was received from the Mayor of the County of Hawaii and the Police Department of the County of Hawaii.

Testimony indicated that converting the existing VHF system of the police department to an 800 MHz trunked radio system is a major undertaking which is beyond the financial resources of the County of Hawaii. However, conversion is necessary because the current communications system is antiquated, unreliable, and provides inadequate radio coverage for the County of Hawaii. The most viable solution is conversion to an 800 MHz trunked radio system. After conversion, the County of Hawaii (the only county not migrated to the 800 MHz system) would be able to establish communications links with other police departments along with State and County Civil Defense agencies.

Your Committee finds that the telecommunications upgrade provided in this measure will improve the efficiency and effectiveness of the Police Department of the County of Hawaii and further secure the safety of the police officers and the residents of the County of Hawaii.

Your Committee has amended this measure by deleting the amount appropriated and deferring this determination to the Committee on Ways and Means. Your Committee has also amended this measure by changing the year of appropriation from "fiscal biennium 1999-2001" to "fiscal year 1999-2000".

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 751, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 751, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 246 Transportation and Intergovernmental Affairs on S.B. No. 946

The purpose of this measure is to repeal the requirement that counties provide residential detention for prearrestment detainees.

Testimony in support of the measure was received from the Hawaii County Council and the Office of the Corporation Counsel, Hawaii County.

Testimony in opposition to the measure was received from the Attorney General and the Department of Public Safety.

Your Committee finds that requiring the counties to provide residential detention for prearrestment detainees is a financial burden upon the counties, particularly when county finances are inadequate to support public services and to build or renovate needed county facilities. Your Committee believes that detaining persons charged with crimes should be a responsibility of the Department of Public Safety.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 946 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 247 Transportation and Intergovernmental Affairs on S.B. No. 1002

The purpose of this measure is to permit wholesale dealer liquor licensees to simultaneously have an interest in manufacturer liquor licenses, and vice-versa, but to prohibit them from having any interest in a retail liquor license.

Testimony in support of this measure was received from Anheuser Busch Companies, Anheuser Busch Sales of Hawaii, Inc., Hawaii Restaurant Association, and one individual.

Testimony in opposition to this measure was received from the Hawaii Teamsters and Allied Workers, Local 996.

Testimony indicated that current law prohibits a manufacturer liquor licensee to hold any interest in any other liquor licensee. The intent of this law, which is consistent with federal law, is to prohibit trade practices which tend to produce monopolistic control of retail liquor outlets, such as arrangements for exclusive outlets, creation of tied houses, commercial bribery, and sales on consignment or with privilege of return.

Anheuser-Busch, Inc., obtained wholesale liquor licenses from the counties of Honolulu, Maui, Kauai, and Hawaii after purchasing a Hawaii liquor distributorship, Eagle Distributors. Anheuser-Busch, Inc., also has interests in manufacturer liquor licenses in other states. However, the Maui Liquor Commission, under its interpretation of current law adopted regulations prohibiting a manufacturer liquor licensee from holding any interest in any other liquor licensee whether located within or outside the County of Maui. Thus, the Maui Liquor Commission imposed a sunset date on the liquor license issued to Anheuser-Busch, Inc., which will prohibit it from doing business as a wholesale dealer in the county of Maui in the year 2002.

Your Committee believes that a liquor manufacturer should not be prohibited from doing business as a wholesale dealer in the State of Hawaii, or vice-versa, as these interests do not create the same potential for monopolistic practices when those licensees have interests in retail licenses.

Your Committee has amended this measure by making a technical, nonsubstantive amendments for purposes of style.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1002, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1002, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 248 Transportation and Intergovernmental Affairs on S.B. No. 1397

The purpose of this measure is to strengthen the penalties imposed upon persons operating a moped without a driver's license.

Testimony in support of the measure was received from the Honolulu Police Department. Testimony in opposition of the measure was received from a private citizen.

Your Committee finds that under existing law, a person convicted of operating a moped without a valid driver's license is fined:

- (1) Not more than \$200 for a first conviction thereof;
- (2) Not more than \$300 for conviction of a second offense committed within one year after the date of the first offense; and
- (3) Not more than \$500 for conviction of a third or subsequent offense committed within one year after the date of the first offense.

In addition to the fine, the court may require a person convicted of operating a moped without a valid driver's license to attend a course of instruction in driver retraining as deemed appropriate by the court.

This measure raises the fine ceiling from \$500 to \$1,000 and providing the courts with the alternative to sentence a person convicted of operating a moped without a valid driver's license to a maximum of thirty days in prison. Your Committee believes this will act as a further deterrent against such unlawful activity while concomitantly resulting in safer streets and highways for the general public.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1397 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 249 Transportation and Intergovernmental Affairs on S.B. No. 1403

The purpose of this measure is to allow the use of curb markings in addition to signs to prohibit or restrict stopping, standing, or parking of vehicles on highways.

Your Committee received testimony in support of the intent of this measure from the Department of Transportation.

Your Committee finds that current law authorizes the use of highway signs, and the addition of curb markings will provide another option for marking these restrictions.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1403 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 250 Transportation and Intergovernmental Affairs on S.B. No. 1430

The purpose of this measure is to require minors under the age of twelve to wear a helmet while operating a wheeled apparatus on public property.

Testimony in support of the measure was received from the Peoples Advocacy for Trails Hawaii (PATH) and the Hawaii Bicycling League. The Department of Health and the Keiki Injury Prevention Coalition supported the intent of the measure, but asked that the scope of the measure be expanded to include operators of all ages.

Your Committee finds that many head injuries to children could be avoided by simply having children wear helmets when playing with wheeled apparatuses. Your Committee understands the desire to move the age higher, but believes that twelve years of age and below is an appropriate age at this time.

Your Committee has amended the measure by including mini-bikes in the definition of "wheeled apparatus".

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1430, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1430, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 251 Transportation and Intergovernmental Affairs on S.B. No. 1441

The purpose of this measure is provide grant funds for funeral and burial expenses and transportation of the remains to the Philippines for deceased World War II Filipino veterans.

Your Committee received testimony in support of this measure from the Office of Veterans Services.

Your Committee finds that this measure will right an injustice to World War II Filipino veterans and their families who may not be able to qualify for other forms of burial grants because they are too "poor".

Your Committee is in support of this measure and has amended it to add an appropriation of \$50,000 per year for the next three years, to fund this burial grant program.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1441, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1441, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 252 Transportation and Intergovernmental Affairs on S.B. No. 1481

The purpose of this measure is to appropriate an unspecified sum as a grant-in-aid to Hawaii Island Veterans Memorial Inc., to build a veterans center in Hawaii county.

Your Committee received testimony in support of this measure from the County of Maui, the Office of Veterans Services, the Oahu Veterans Council, the Disabled American Veterans Department of Hawaii, the Veterans of Foreign Wars, the Big Island Veterans Association, the Big Island Retired Military Association, the Hawaii Island Veterans Memorial Combined Veterans Center, the Hawaii Island Veterans Memorial Inc., The Hawaii County Veterans Advisory Committee, and three individuals.

Your Committee finds that there are over 14,000 veterans on the Island of Hawaii who will benefit from this one-stop center. After many years of effort by dedicated veterans, the land has been secured and plans completed for a comprehensive center that will serve as a gathering point for Big Island veterans.

Your Committee strongly supports this measure and the services it will provide to those who have proudly served their country. Your Committee has amended this measure to delete the specific sums appropriated with the intent to defer this determination to the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1481, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1481, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 253 (Majority) Transportation and Intergovernmental Affairs on S.B. No. 1556

The purpose of this measure is to exempt and exclude from imposition of the general excise tax the income received by resident licensed contractors and subcontractors from federal construction contracts.

Testimony in support of this measure was received from Hawaii Masons Union. The Construction Industry Legislative Organization, Inc., and Contractors Association of Kauai submitted testimony in support of the intent of this measure but did not support the definition of resident contractor or subcontractor in the measure.

The Department of Taxation submitted testimony commenting on this measure and indicated that this measure raises certain constitutional concerns.

Testimony indicated that some out-of-state contractors had a bidding advantage over Hawaii contractors because they did not factor in the state 4% general excise tax into their bids for federal contracts. This measure would help Hawaii contractors submit more competitive bids on federal contracts.

Although the Department of Taxation raised possible constitutional concerns regarding this measure, your Committee finds that this measure will help Hawaii contractors and create more opportunities for Hawaii's construction industry. Therefore, your Committee has passed this measure for purposes of further discussion.

Your Committee has amended this bill by inserting a purpose clause stating that the intent of this measure is to create more business and employment opportunities for Hawaii's construction industry. Your Committee has also amended this measure by clarifying that contractors and subcontractors working on federal projects in Hawaii are included in the definition of "contractor" for

the purposes of and subject to the licensing requirements of chapter 444, Hawaii Revised Statutes, only to the extent allowed under federal law.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1556, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1556, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 2 (Iwase, Taniguchi).

SCRep. 254 Transportation and Intergovernmental Affairs on S.B. No. 1557

The purpose of this measure is to permit the visual monitoring and analysis of storm water runoff by motor carriers.

The Hawaii Transportation Association and the American Trucking Associations submitted testimony in support of this measure.

Your Committee finds that motor carriers are currently required to perform laboratory analysis on storm water runoff to observe pollution discharge. Laboratory analysis is excessively burdensome on motor carriers because it is expensive and time-consuming. In addition, the Environmental Protection Agency has determined that motor carrier operations do not pollute storm water runoff to the extent warranting laboratory analysis. Therefore, your Committee finds that visual monitoring and analysis by motor carriers of storm water runoff which observes color, odor, turbidity, floating solids, foam, oil, and other obvious indicators of pollution is sufficient.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1557 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Iwase, Taniguchi).

SCRep. 255 Transportation and Intergovernmental Affairs on S.B. No. 1568

The purpose of this measure is to expand the prohibition of street solicitation of prostitution in Waikiki to other areas designated by the council of the appropriate county.

Testimony in support of this measure was received from the Honolulu City Council, Department of the Prosecuting Attorney of the City and County of Honolulu (HPA), and Police Department of the City and County of Honolulu (HPD).

Your Committee finds that street solicitation of prostitution is not confined to Waikiki, but also plagues other areas as well. This measure in allowing a county council to designate additional areas where street solicitation of prostitution is prohibited, will provide counties with the flexibility required to effectively reduce, deter, and eliminate prostitution.

The HPD and HPA collaborated on various amendments to this measure which, upon consideration, your Committee has adopted. Your Committee, accordingly, has amended this measure by:

- (1) Requiring a mandatory term of thirty days of imprisonment and no longer for the violation of street solicitation of prostitution (current law requires a mandatory minimum of thirty days) to ensure the violation is not subject to a jury trial;
- (2) Reducing the maximum period that a court may place a defendant on probation from one year to six months;
- (3) Further clarifying the geographic restrictions imposed for street solicitation of prostitution to include remaining on public property, including walking, driving, or otherwise being transported on or through such public property, in Waikiki, and other areas in the State designated by county ordinance;
- (4) Allowing the police to arrest when there is probable cause to believe that a person has violated the geographic restrictions rather than requiring the police to obtain a warrant prior to arrest and execute other cumbersome procedures;
- (5) Clarifying that once a person is arrested for violating the geographical restrictions, the person is to be held without bail;
- (6) Defining "areas" and "public property"; and
- (7) Clarifying that the geographic restrictions imposed by section 712-1207, Hawaii Revised Statutes (HRS), shall not prohibit the imposition of stricter geographic restrictions pursuant to section 804-7.1, HRS, or section 706-624(2)(h), HRS.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1568, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1568, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 256 Transportation and Intergovernmental Affairs on S.B. No. 1642

The purpose of this measure is to establish a licensing board to license gamebird testing facilities.

Testimony in support of this measure was received from six individuals and petitions with three hundred thirty-five signatures.

Testimony described the economic benefits of establishing gamebird testing facilities in the State of Hawaii. There currently exists a worldwide market for quality gamebirds which is a potentially lucrative export market for Hawaii. This measure will permit the establishment of gamebird testing facilities to test gamebirds for their skill and ability. As a result, breeders will be able to assess the quality of their gamebirds. In addition, the gamebird testing facilities themselves may also generate revenue and create business opportunities for the State.

Your Committee finds that the gamebird industry may provide viable economic benefits to the State.

Your Committee has amended this measure by inserting a definition of "gamebird." As used in this measure, "gamebird" means chickens referred to as Old English Game fowl raised for various purposes including poultry shows, pets, egg production, consumption, and cockfighting.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1642, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1642, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Iwase, Taniguchi).

SCRep. 257 Education and Technology on S.B. No. 119

The purpose of this measure is to allow the Department of Education (DOE) more flexibility in the effective use of school-level minor repairs and maintenance accounts.

Your Committee received testimony in support of this measure from the DOE and Department of Accounting and General Services (DAGS).

Specifically, this measure:

- (1) Changes the name of the minor repairs and maintenance accounts to the minor repairs, maintenance, and improvements accounts (accounts);
- (2) Raises the amount allowed to each school for the school-level minor repairs and maintenance accounts to \$20,000;
- (3) Allows a principal to request DAGS to perform repair and maintenance services rather than contracting out for them, with a transfer of funds from the accounts to DAGS; and
- (4) Requires DAGS to report to the legislature before each regular session on the activities of the accounts.

Your Committee believes that allowing school principals more flexibility in spending moneys in the accounts would enable them to timely undertake minor repairs and improvements.

Your Committee wishes to clarify that the \$20,000 limit is a maximum amount which need not be spent in its entirety. Any savings should inure to the benefit of the particular school for other uses.

Your Committee has amended this measure by:

- (1) Providing that unencumbered funds in the accounts do not lapse into the general fund, to allow the accumulation of funds in the accounts;
- (2) Deleting the appropriation section; and
- (3) Changing the effective date to upon approval.

Your Committee also has made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 119, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 258 Education and Technology on S.B. No. 553

The purpose of this measure is to appropriate \$200,000 to the Okinawan Centennial Celebration Commission.

Your Committee received testimony in support of this measure from the Hawaii United Okinawa Association.

Your Committee finds that January 8, 2000, will mark the one hundredth anniversary of the arrival of the first Okinawan to Hawaii, and establishment of the oldest community of Okinawan descent outside of Okinawa.

Your Committee further finds that S.C.R. No. 159, H.D. 1, 1998, established the Okinawan Centennial Celebration Commission and charged the Commission with planning for the celebration's statewide events. Your Committee is in support of the work of the Commission and its impressive list of events planned in honor of the Okinawan people in Hawaii.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 553 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 259 Education and Technology on S.B. No. 577

The purpose of this measure is to establish a Puerto Rican Centennial Celebration Commission and appropriate an unspecified sum to fund the work of the Commission.

Your Committee received testimony in support of this measure from the Puerto Rican Heritage Society of Hawaii.

Your Committee finds that the first Puerto Ricans arrived in Hawaii on December 23, 1900. In celebration of this event, the Puerto Rican community in Hawaii will hold a series of statewide events in the year 2000.

Your Committee believes it is important to acknowledge and support the many cultures that make up Hawaii, and to educate all Hawaii's citizens in the contributions these varied cultures have made in the islands. Your Committee is in support of this measure to acknowledge the history of the Puerto Rican people in Hawaii. Your Committee has amended this measure to delete the section entitled "cooperation" as this language is included under "powers and duties" of the commission.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 577, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 577, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 260 Education and Technology on S.B. No. 945

The purpose of this measure is to create a separate line item in the budget for the Small Business Development Center at the University of Hawaii at Hilo. This measure also appropriates funds to the Center.

Testimony in support of this measure was submitted by the Hawaii Small Business Development Center Network, the Business Research Library of the Hawaii Small Business Development Center Network, and the Rural Economic Transition Assistance-Hawaii Program. The Department of Budget and Finance submitted testimony in opposition of this measure.

Your Committee finds that the Hawaii Small Business Development Center assists small businesses and potential small businesses throughout the State. The Center promotes economic development through each of its four centers on Hawaii, Kauai, Maui, and Oahu. This Center is a partnership program between the University of Hawaii at Hilo and the U.S. Small Business Administration in which both federal and state dollars are appropriated.

Your Committee further finds that the Business Research Library of the Center is critical to Hawaii's economic development. The resources the library provides fulfill the needs of small business owners and those who are interested in starting new ventures.

While your Committee commends the Hawaii Small Business Development Center for all it has done, and continues to do, to improve the economic development of this State, your Committee finds that it is not necessary to designate a separate line item in the budget for its funding. Accordingly, your Committee has amended this measure to delete this provision.

Your Committee has also deleted the specified dollar amounts to be appropriated. Because of the State's weak economic condition, your Committee believes that there must be further discussion on the amount to be funded. The Committee on Ways and Means, with its knowledge of available funds, is best able to determine the specific appropriation.

Technical, nonsubstantive amendments were also made to reflect the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 945, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 261 Education and Technology on S.B. No. 1009

The purpose of this measure is to appropriate \$34,500 for a pilot streaming media project to allow legislative sessions to be broadcast in streaming media format via the internet.

Your Committee received testimony in support of this measure from the University of Hawai'i, the Office of Economic Development of the County of Maui, and Akaku: Maui Community Television.

Your Committee finds that the University of Hawai'i is already working with streaming media to upgrade distance learning activities, and that the technology has great potential statewide.

Your Committee further finds that this technology is particularly important for neighbor island and rural areas that may not have access to cable television or other methods of transmittal. Your Committee is in support of this measure and the new opportunities in citizen participation it will bring to communities throughout Hawaii.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1009 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 262 Education and Technology on S.B. No. 1138

The purpose of this measure is to transfer all licenses, assets, responsibilities, and functions of the Hawaii Public Broadcasting Authority to the Hawaii Public Television Foundation.

Testimony in support of this measure was submitted by the Hawaii Public Broadcasting Authority. Testimony in opposition was submitted by the Hawaii Government Employees Association. Verbal testimony in opposition was given by a concerned individual.

Your Committee finds that continuing and significant reductions in public funding of public television in this decade have resulted in major downsizing of the system, cancellation of long-running programs, reduction of broadcast hours, and a gradual deterioration of the physical plant. Because of the ongoing inability for the State to provide adequate support to public television, a strategic plan to take the system from a state agency to a non-profit community foundation was developed by the Hawaii Public Broadcasting Authority three years ago. Budget cuts from the State reduced support by 76 percent in six years, thus making an expedient transfer necessary to ensure a continued existence for public television. The Hawaii Public Television Foundation has the resources necessary to garner more funding and improve the quality of programming for public television.

Your Committee has amended this measure as follows:

- (1) By adding a provision giving the State of Hawaii first right, at no cost, to the equipment if the Hawaii Public Television Foundation should determine that any of the equipment listed on the inventory of the Hawaii Public Broadcasting Authority as of June 30, 2000, is no longer useful; and
- (2) By changing the provision regarding transfer of assets if the Hawaii Public Television Foundation should dissolve or discontinue public broadcasting in Hawaii, to give the State first right, at no cost, to the assets instead of requiring the transfer to another public or private entity authorized to conduct public broadcasting. This amendment also provides that all assets not claimed by the State will be transferred, along with licenses and rights, to a public or private entity qualified contractually to succeed the foundation as the public broadcasting affiliate in Hawaii.

These amendments ensure that the State will be able to recoup any loss incurred in this transfer if the foundation decides to discard any equipment, or if the foundation is unsuccessful and dissolves.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1138, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1138, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 263 Education and Technology on S.B. No. 1156

The purpose of this measure is to grant the Board of Education the authority to establish a fee to be added to delinquent patron accounts at the time they are referred to a collection agency.

Testimony in support of this measure was submitted by the Hawaii State Public Library System. Testimony in opposition to this measure was submitted by Information Services.

Your Committee finds that in these hard economic times, it is important that all State agencies be especially mindful of their expenditures. While the Hawaii State Library System has implemented a system to recover fees and materials from delinquent patrons, the time and effort the system devotes in attempting to recover these fees and materials have not been recognized. This measure provides for an additional administrative fee to be charged to delinquent patrons, which will help restore the loss of moneys owed to the libraries from administrative expenses.

Your Committee has amended this measure to require the Board of Education to prescribe procedures for the notification of persons with delinquent accounts of these additional fees which are not to exceed \$10. Technical, nonsubstantive amendments were also made to change the formatting of this measure to the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1156, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 264 Education and Technology on S.B. No. 1157

The purpose of this measure is to authorize the Board of Education to appoint the State Librarian and to set terms and conditions of employment and salary.

Testimony in support of this measure was submitted by the Board of Education and Information Services.

Your Committee finds that permitting the Board to appoint the State Librarian without regard to the state residency requirements and for a term of up to four years will provide equity in treatment between the Superintendent of Education and the State Librarian, and assure the continuity of management of the Library system. Your Committee further finds that providing the Board with the authority to set the State Librarian's salary will increase the likelihood that the Board will be able to competitively recruit and retain highly qualified individuals for the position. This would promote greater accountability from the State Librarian by directly linking the State Librarian's salary to job performance.

Your Committee has amended this measure to allow the Board of Education to set the salary of the State Librarian without a cap until July 1, 2004. At that time, it is the intent of your Committee that the legislature review the effectiveness of allowing the Board of Education to set the salary of the State Librarian, and make any appropriate adjustments, if necessary. To give the Board of Education time to implement this measure, your Committee has further amended the measure to take effect on August 1, 1999.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1157, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1157, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 265 Education and Technology on S.B. No. 1171

The purpose of this measure is to create a special fund to pay for the integrated tax information management systems, and for the operation, maintenance, monitoring, and improvements to the automated tax system.

Testimony in support of this measure was submitted by the Department of Taxation. Information regarding this measure was submitted by the Tax Foundation of Hawaii.

Your Committee finds that Act 273, Session Laws of Hawaii 1996, allowed the Department of Taxation to enter into performance-based contracts to acquire an integrated tax information management system, including computer hardware and software, for the

administration of taxes. The contract, which has been negotiated by the Department of Taxation, specifies that the vendor will not get paid unless there is an increase in revenues collections and/or cost savings realized from and attributable to the implementation of the automated tax system.

This measure would establish a special fund which would be used solely as a means of paying the vendor. The special fund is needed to facilitate timely payments to the vendor, thereby minimizing interest costs to the State.

Your Committee has amended this measure by:

- (1) Clarifying the statutory language to reflect the overall spending limit of the integrated tax information management systems special fund for each fiscal year;
- (2) Amending section 237-31, Hawaii Revised Statutes, to include the tax information management systems special fund as a deduction from general excise tax revenues. This avoids the conflict established by creating a special fund without amending that section;
- (3) Deleting the amendments to sections 36-27 and 36-30, as unnecessary since the Director of Taxation may request moneys up to the limits established for the special fund to reimburse any administrative or other expenses; and
- (4) Setting a sunset date of July 1, 2004, for this special fund to be repealed to ensure the timely implementation of the integrated tax information management system.

Testimony from the Tax Foundation noted that in general, moneys from special funds are not subject to the general fund expenditure limitation. Furthermore, special fund appropriations do not receive the same degree of review as appropriations from the general fund. Because of this, your Committee encourages further discussion on the necessity of creating this special fund, and the possibility of funding the integrated tax information management system with an appropriation from the general fund in the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1171, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 266 (Joint) Education and Technology and Water, Land, and Hawaiian Affairs on S.B. No. 1233

The purpose of this measure is to allow for a student-centered school to be established by either creating a new school, or to be comprised of programs or sections of existing public schools for the purpose of native Hawaiian education.

Testimony in favor of this measure was received from the American Friends Service Committee, Native Hawaiian Education Council, Punana Leo O Waimea, Wildlife Conservation Association of Hawaii, and over fifty concerned individuals, including students and parents of students currently attending the Kanu o ka Aina Hawaiian Academy. The Department of Education and the Office of Hawaiian Affairs submitted testimony in support of the intent of the measure.

Your Committees find that it is our State's responsibility to serve those children and their families who wish to preserve their Hawaiian culture, history, and traditions. Further, your Committee finds that the lower educational achievement of some Native Hawaiians from kindergarten to the university level is a reflection of their cultural and educational incompatibility with the current education system. Many students have testified that when Hawaiian language, culture, and values are incorporated into the pedagogical process at all levels, their education has more relevance and is more effective.

Your Committees further find that this measure will combine the strengths of Hawaiian culture and the best modern academic principles to form an alternate education process that will be more effective for students who decide not to participate in the traditional educational programs. By allowing Kanu o ka Aina Hawaiian Academy the freedom to combine with the K-5 Native Hawaiian Immersion program at Waimea School to form a student-centered school, an educational paradigm tailored specifically to focus on Native Hawaiian culture can be implemented. This will no doubt be beneficial to many students of this State.

Your Committees recognize the need for alternative educational options such as the one proposed in this measure. Additionally, your Committees also note that S.B. No. 1501 S.D. 1, includes amendments to Hawaii Revised Statutes that will facilitate the implementation of student-centered schools.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1233 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 11. Noes, none. Excused, 3 (Bunda, Anderson, Slom).

SCRep. 267 Education and Technology on S.B. No. 1465

The purpose of this measure is establish a college tuition savings program to be administered by the State Post-Secondary Education Commission for resident and nonresident students at any accredited post-secondary educational institution.

Testimony in support of the intent of this measure was submitted by the University of Hawaii. Testimony in opposition to this measure was submitted by the Department of Taxation.

Tuition savings plans involve the payment of money to an entity that invests the money and achieves a rate of return that outperforms tuition increases and covers costs associated with investment management. These plans do not place limits or restrictions on the amount of tuition and required fees charged by higher education institutions.

Your Committee finds that the State should indeed establish mechanisms that help all Hawaii's families provide for the cost of their children's education. This measure provides one such mechanism.

Your Committee has made technical, nonsubstantive amendments to this measure to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1465, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1465, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 268 Education and Technology on S.B. No. 1641

The purpose of this measure is to require the State Librarian to include a more detailed description of the status of the Libraries Special Fund and the Library Fee for Enhanced Services Special Fund in the annual report to the legislature.

Testimony in support of this measure was submitted by the State Auditor.

More specifically, this measure requires the State Librarian to include financial information on these special funds, actual expenditure of receipts by individual libraries from these special funds, and expenditure allotment by individual libraries.

Your Committee finds that in previous years, the former State Librarian's annual reports misrepresented special fund allocations to the libraries from the Libraries Special Fund and the Library Fee for Enhanced Services Special Fund. Current statutes only require that the Librarian indicate the amount allocated to individual libraries together with revenue source and expenditure information, and not revenues deposited from and expended by each library.

This measure will hold the library system accountable for ensuring that the Libraries Special Fund and Library Fee for Enhanced Services Special Fund revenues are used as intended.

Your Committee amended this measure by deleting the provision that any balance remaining in the Library Fee for Enhanced Services Special Fund be deposited into the general fund. This will allow any surplus moneys to remain in the fund for use in the next year.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1641, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1641, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 269 Government Operations and Housing on S.B. No. 3

The purpose of this measure is to provide three additional seats on the Real Estate Commission for representatives of condominium associations.

Testimony in favor of this measure was received from Hawaii Council of Associations of Apartment Owners, Hawaii Independent Condominium and Cooperative Owners, Hawaiiana Management Company, Ltd., and one individual. Testimony in favor of the intent of this measure was received from the Community Associations Institute. Testimony opposed to this measure was received from the Real Estate Commission and the Hawaii Association of Realtors.

Your Committee finds that the Real Estate Commission has oversight over the implementation and enforcement of the Condominium Property Regimes under chapter 514A, Hawaii Revised Statutes (HRS), including the Condominium Education Fund.

Your Committee finds that currently there are no condominium owners or board members on the Real Estate Commission.

Your Committee finds that it would be prudent and helpful to have representatives of condominium associations and their board members to discuss and participate in decision making under the regulatory authority of the Real Estate Commission regarding condominium issues.

Additionally, your Committee finds that the Condominium Management Education Fund is currently being used for personnel that are not allocating all of their time to carrying out the responsibilities of the Condominium Management Education Fund.

Your Committee has amended the measure to require the Real Estate Commission and the Department of Commerce and Consumer Affairs to only use the Condominium Management Education Fund for personnel that exclusively carry out the responsibilities of the Condominium Management Education Fund.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 3, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 270 Economic Development on S.B. No. 34

The purpose of this measure is to make an appropriation to match federal funds for establishment of Manufacturing Extension Programs (MEP) in Hawaii.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, Maui Economic Development Board, Inc., the Hawaii Agriculture Research Center, the Hawaii Food Manufacturers Association, Hawaii Candy Inc., Extraordinary Experiences, Industry Network Corporation (INC), and two individuals.

Your Committee finds that while many people think Hawaii has little or no manufacturing, in fact there are many small and medium size businesses that are eligible for MEP funds.

Your Committee has been informed that the Maui Economic Development Board, Inc., has been working with INC, the federal designee for the Hawaii MEP since 1998. In less than a year, the Maui MEP has achieved significant results with direct technical assistance to over ninety companies, management of four projects for manufacturing customers, made numerous community presentations, participated in local events and trade shows, and created a homepage for the Maui county MEP.

Your Committee is supportive of these efforts and believes manufacturing extension partnerships should be encouraged and expanded.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 34 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 271 Economic Development on S.B. No. 491

The purpose of this measure is to appropriate funds for tropical flower research.

Your Committee received testimony in support of this measure from the University's College of Tropical Agriculture and Human Resources, the Hawaii Agriculture Research Center, the Hawaii Farm Bureau, the Big Island Farm Bureau, the Big Island Dendrobium Grower's Association, Green Point Nurseries, and the Hawaii Tropical Flower Council. The Department of Agriculture submitted comments on the measure.

Your Committee finds that the floriculture and nursery products industry ranks as the number one diversified agricultural industry, with a farm gate value in excess of \$68,000,000 during the past three years. However, the industry faces strong foreign competition from third world countries and their less costly nursery products.

Your Committee is in support of this measure and believes it will help stimulate increased production and sales for Hawaii growers.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 491 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 272 Economic Development on S.B. No. 1072

The purpose of this measure is to amend Act 311, Session Laws of Hawaii (SLH) 1996, and Act 104, SLH 1998, to delete the repeal dates for the Department of Business, Economic Development, and Tourism's loan guarantee capability and the neighbor island business loan interest rate.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism.

Your Committee finds that this measure will eliminate the sunset of both these programs, which are valuable to people of this State.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1072 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 273 Economic Development on S.B. No. 1099

The purpose of this measure is to clarify which of the coastal areas program functions shall be administered under the provisions of Chapter 200, Hawaii Revised Statutes (HRS).

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources (DLNR). Hawaii's Thousand Friends testified in opposition.

Your Committee finds that the coastal areas program was transferred from the Department of Transportation by Act 272, Session Laws of Hawaii 1991. Capital improvement projects typically funded under this program have included repair and restoration of the Ala Wai Canal walls, Kuhio Beach structural improvements, and sand replenishment.

Your Committee further finds that in 1995, DLNR began to incorporate this program's functions into other existing department programs, in the interests of cost savings, and that deleting these particular capital improvement functions from section 200-3, HRS, is a housekeeping measure.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1099 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 274 Economic Development on S.B. No. 1607

The purpose of this measure is to appropriate \$10,000,000 to the Hawaii Strategic Development Corporation Revolving Fund for investments primarily in high technology companies.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, the High Technology Development Corporation, Hawaii Venture Capital Association, and PremierCapital Advisors, LLC. The Hawaii Strategic Development Corporation submitted comments.

Your Committee finds that the need for venture capital in Hawaii is well demonstrated by successful local companies, such as Verifone, Aloha Networks, and Digital Island, which were all financed primarily with mainland capital. In the short term, the shortage of venture capital in Hawaii makes it substantially more difficult, if not impossible, for local companies to begin operations. Over the long term, if these companies are successful, local investors have lost an opportunity and Hawaii's economy loses the potential for long term capital accumulation and reinvestment.

Your Committee is in support of these efforts to build a stronger Hawaii venture capital market, and notes that this measure will require a dollar-for-dollar match by private sector investment. However, your Committee believes that given pending budget restrictions, the appropriation amount should be further discussed in the Committee on Ways and Means. Your Committee has amended this measure accordingly to replace the dollar amounts with unspecified sums.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1607, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1607, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 275 (Joint) Water, Land, and Hawaiian Affairs and Education and Technology on S.B. No. 37

The purpose of this measure is to appropriate funds for the Hawaiian language immersion program, Ka Papahana Kaiapuni Hawaii.

Testimony in support of the measure was received from the Board of Education, the University of Hawaii's Department of Hawaiian and Indo-Pacific Languages and Literatures, Na Leo Kako'o O Maui, Inc., and Na Leo Pulama O Maui Inc..

Your Committees find as one of the two official languages of the State of Hawaii, the full use of the Hawaiian language in all facets of daily and civic life, including education, is a customary and traditional right that must be preserved and strengthened if the Hawaiian people are to remain a distinct and thriving culture. This right is, in part, recognized through Ka Papahana Kaiapuni Hawaii, the Hawaiian language immersion program within the Department of Education, which began in 1987 as a pilot program with only two sites and approximately forty students. After ten years of success, instruction in the Hawaiian language is currently offered at fourteen sites encompassing grades kindergarten through eleven and enrolling 1,350 students throughout the State. Further, this year marks the very first graduating class of students educated in the immersion program.

However, maintaining such a growing program and ensuring that the curriculum and faculty skills meet both the physical and educational needs of the students and their families has proven to be a task bigger than anyone anticipated. Your Committees believe that in order for the program to succeed on a larger scale, adequate funding must be provided to sustain the program's momentum.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Hawaiian Affairs and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 37 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 3 (Bunda, Anderson, Slom).

SCRep. 276 (Joint) Water, Land, and Hawaiian Affairs and Government Operations and Housing on S.B. No. 98

The purpose of this measure is to appropriate funds for a self-help housing project in Kikala-Keokea.

Testimony in support of this measure was received from the Office of Hawaiian Affairs, the Hawaii County Economic Opportunity Council, the Kikala Keokea Tenant Association, and four individuals. The Housing and Community Development Corporation of Hawaii testified in support of the intent of the measure.

Your Committees find that self-help housing is a proven method of providing safe and decent affordable housing to residents of the State and, therefore, feels that this measure merits further discussion. Your Committees have amended the measure by deleting the specified dollar amount.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Hawaiian Affairs and Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 98, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 98, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Matsunaga, Sakamoto, Anderson).

SCRep. 277 Water, Land, and Hawaiian Affairs on S.B. No. 567

The purpose of this measure is to appropriate funds for payment of monetary damages to claimants whose claims have been adjudicated by the Hawaiian Home Lands Trust Individual Claims Review Panel.

Your Committee received testimony in support of this measure from the Hawaiian Home Lands Trust Individual Claims Review Panel, Kawaihae Hawaiian Homes Community Association, Native Hawaiian Legal Corporation, State Council of Hawaiian Homestead Associations, Waimea Hawaiian Homesteaders' Association, Inc., Waimea Hawaiian Civic Club, Aged Hawaiians, Ahupua'a O Moloka'i, and two individuals.

The State Attorney General and Department of Hawaiian Home Lands submitted testimony requesting deferral of this measure.

Your Committee finds that the Hawaiian Home Lands Trust Individual Claims Review Panel ("Review Panel") adjudicates individual claims by native Hawaiian beneficiaries for breaches of the Hawaiian Home Lands trust. The Review Panel has reviewed and adjudicated 509 cases brought by 387 claimants in 1997 and 1998 and, pursuant to the recommendations of the Review Panel, your Committee finds that \$16,434,675.75 in damages should be paid to the claimants.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 567 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 278 Water, Land, and Hawaiian Affairs on S.B. No. 580

The purpose of this measure is to appropriate funds for Project Faith, a project that will develop an economic development and infrastructure master plan to form a community based commercial-cultural center to benefit native Hawaiians who reside on homestead lands in Anahola, Kauai.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, a Kauai County Councilmember, a Hawaiian Homes Commissioner from Kauai, Kauai Community College Small Business Development Center Network, West Kauai Community Development Corporation, Hale Omao Care, and two individuals.

Your Committee finds that the native Hawaiian community of Anahola, Kauai, must be encouraged to explore and develop creative and innovative ways to revitalize itself. Project Faith's Master Plan includes a 100-bed elderly nursing care facility, a 20-unit studio apartment for independent living for the elderly, an early education and child care facility, a fire station, commercial office space, a cultural pavilion, a post office, and convenience store.

Your Committee finds that Project Faith will revitalize the native Hawaiian community of Anahola, Kauai, by providing business opportunities for native Hawaiians, job training for youths, preservation of the Hawaiian culture, and the resources needed to address the future needs of the growing elderly population within the community.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 580 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 279 (Joint) Water, Land, and Hawaiian Affairs and Education and Technology on S.B. No. 1495

The purpose of this measure is to appropriate funds for the establishment of a Hawaiian cultural entrepreneurial school.

Specifically, the measure appropriates \$1,500,000 as a grant-in-aid under Chapter 42F, Hawaii Revised Statutes, to the Hui Ho'omau O Keakaha Panaewa for the construction and operation of a Hawaiian cultural entrepreneurial school.

Testimony in support of the measure was received from the Department of Hawaiian Home Lands and two concerned citizens. The Office of Hawaiian Affairs supported the measure with reservations.

Your Committees find that the establishment of such a Hawaiian cultural entrepreneurial school would teach Hawaiian youth their cultural heritage and legacy, thereby inspiring and motivating them to become productive members of their community.

Your Committees have amended the measure by deleting the specific dollar amount appropriated for the project.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Hawaiian Affairs and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1495, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1495, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 11. Noes, none. Excused, 3 (Bunda, Anderson, Slom).

SCRep. 280 Economic Development on S.B. No. 570

The purpose of this measure is to extend the Waianae coast community benchmarking project through June 30, 2003, and to appropriate \$400,000 to support the work of the project.

Your Committee received testimony in support of this measure from Aloha United Way, Alternative Structures International, Hawai'i Community Services Council, Nanakuli Neighborhood Housing Services, Inc., Wai'anae Business Center, Waianae Coast Culture and Art Project, Waianae Coast Early Childhood Services, Inc., and three individuals. The Department of Business, Economic Development, and Tourism opposed the measure.

Your Committee finds that this project offers both tangible and intangible benefits to the people of Wai'anae and the wider Hawaii community. Tangible benefits include a management tool for reallocation resources, accountability for block grants, and collaboration between public and private sector funding and services sources. On the intangible side, community consensus building, increased public trust, and stronger community action benefit all those involved.

Your Committee is supportive of the goals and activities of the benchmarking project and believes it provides an alternative means of improving the economy of the Wai'anae community and the lives of its members.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 570 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 281 Economic Development on S.B. No. 1059

The purpose of this measure is to provide the Department of Agriculture with a streamlined program to issue loan guarantees to private lenders.

Your Committee received testimony in support of this measure from the Department of Agriculture and the Hawaii Farm Bureau.

Your Committee finds that as Hawaii's diversified agriculture industry expands, financing is a crucial element in fostering further growth. However, agricultural lending poses more risks than conventional commercial lending, and under current economic conditions, the State's funding is limited.

Your Committee also finds that this measure would encourage more lending from the private sector by authorizing the department to guarantee up to ninety percent of the principal balance of a loan, plus interest, not to exceed a total limit of \$10,000,000.

Your Committee has expressed concerns regarding possible costs to the State should the default rate increase. However, your Committee is supportive of any efforts to assist Hawaii's farming industry and believes this measure is worthy of further discussion.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1059 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 282 Economic Development on S.B. No. 1078

The purpose of this measure is to authorize the Aloha Tower Development Corporation to acquire the reversionary interest held by the heirs of Helene Irwin Fagan by way of purchase, negotiated settlement, or eminent domain for the public purpose of providing a park, parking facilities, and related traffic improvements.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, the Aloha Tower Development Corporation, and the Department of Transportation. Scenic Hawaii, Inc., Na Leo Pohai of The Outdoor Circle, and one individual testified in opposition. Life of the Land made oral comments.

Your Committee finds that since the Aloha Tower Marketplace was completed in 1994, the waterfront area has experienced tremendous growth. The marketplace provides a venue for over eighty retail shops and restaurants, serving close to 2,000,000 patrons a year. In addition, the expansion of the cruise ship industry has put a further strain on parking in the surrounding area.

Your Committee is well aware of the problems caused by both current and anticipated parking shortages, particularly on the economic well-being of the businesses in the marketplace and surrounding area. However, your Committee has also heard the strong reservations of the Irwin family to conversion of Irwin Memorial Park to a parking facility. Your Committee agrees that the park, with its mature trees, is an attractive green oasis in downtown Honolulu, and contributes esthetically to the waterfront area.

Your Committee, in discussing the merits of the intent of this measure, is firmly opposed to the ATDC acquiring Irwin Memorial Park through eminent domain. Your Committee understands that negotiations are continuing between the ATDC and the family, and a meeting is scheduled subsequent to the hearing on this measure.

Your Committee has amended this measure to delete the reference to acquisition through eminent domain in the purpose section of the measure, to make technical amendments to conform to standard drafting style, and to add missing statutory language.

Your Committee believes this measure requires further substantive discussion, and urges the Committee on Ways and Means to hold a public hearing on the measure.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1078, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1078, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 283 Transportation and Intergovernmental Affairs on S.B. No. 31

The purpose of this measure is to lower the legal concentration level for driving under the influence of intoxicating liquor from 0.08% to 0.04%.

Testimony in favor of this measure was received from the Police Department for the City and County of Honolulu, Hawaii Medical Association, and two individuals. Testimony in opposition of this measure was received from the Hawaii Restaurant Association, Legislative Information Services of Hawaii, The Libertarian Party of Hawaii, and The Old Spaghetti Factory.

Your Committee finds that nationally nearly 17,000 people die each year in alcohol related crashes, while 300,000 are injured. The American Medical Association released a study in 1997 which found that there is evidence that "substantial and consistent impairment" begins at 0.04% to 0.05% blood alcohol content. As the blood alcohol content increases, so too does the number of tasks and functions that are impaired and the risk of fatal car crashes.

While your Committee believes that a comprehensive study may be needed to conclusively determine the appropriate alcohol level, your Committee, in passing this measure, aims to send a strong message to potential offenders not to drink and drive.

Your Committee amended this measure by making technical, nonsubstantive changes for clarity and to reflect current statutory language.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 31, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 31, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ige, D., Taniguchi).

SCRep. 284 (Joint) Transportation and Intergovernmental Affairs and Labor and Environment on S.B. No. 531

The purpose of this measure is to require state and county agencies to develop and implement an integrated vegetation management strategy to minimize the use of herbicides.

Testimony in support of this measure was received from the Advocate Offices of David L. Bourgoin and one individual. The Department of Transportation, Rescue Hawaii, and Sierra Club, Hawaii Chapter, submitted testimony in support of the intent of this measure with amendments. The University of Hawaii at Manoa submitted comments on this measure.

Your Committees find that the Department of Transportation is currently implementing strategies to reduce herbicide use. Your Committees believe that all state and county governmental agencies responsible for roadside maintenance should be required to adopt an integrated vegetation management program that includes the use of nonchemical, nonmechanical, and nonmanual methods of roadside vegetation management. However, your Committees also believe that further study is needed to ensure roadside vegetation management programs are developed with the overall goal of implementing strategies to reduce herbicide use while minimizing costs.

Your Committees have amended this measure by:

- (1) Replacing the provisions requiring a twenty-five percent reduction of herbicide use by January 1, 2000, and fifty percent by January 1, 2002, with language stating the broader goal of reducing herbicide use;
- (2) Replacing the definition of "nonchemical methods" with the definition of the term in S.B. No. 379 which is clearer and broader in scope;
- (3) Establishing a Roadside Vegetation Committee that will, among other things, develop, initiate demonstration programs of, and make advisory opinions on, roadside vegetation management strategies;
- (4) Authorizing the Director of Transportation to appoint members to the Roadside Vegetation Committee that will include representatives from the Department of Transportation, the respective counties, the field of biodiversity, the landscape architect profession, and the environmental community;
- (5) Requiring the Roadside Vegetation Committee to meet at least twice a year and requiring the committee to report on the progress of herbicide use reduction to the legislature prior to each regular session;
- (6) Requiring the Department of Transportation to report its progress and plans on implementing an integrated vegetation management program; and
- (7) Making technical, nonsubstantive amendments for purposes of clarity and drafting style.

As affirmed by the records of votes of the members of your Committees on Transportation and Intergovernmental Affairs and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 531, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 531, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 4 (Ige, M., Iwase, Kanno, Taniguchi).

SCRep. 285 (Majority) Transportation and Intergovernmental Affairs on S.B. No. 973

The purpose of this measure is to require tow truck operators to comply with no-fault insurance requirements, maintain insurance to cover all damage to a towed motor vehicle, maintain a \$15,000 bond, and affix the name of the tow operator to the doors of all tow trucks.

Testimony in favor of this measure was received from the Hawaii State Towing Association. Testimony in favor of the intent of this measure was received from the Department of Commerce and Consumer Affairs and Off Peak Towing. Testimony opposed to this measure was received from K&Y Chevron, and two individuals.

Your Committee finds that greater protection is needed for consumers when towing companies cause damage to vehicles in their possession. Towing firms need to be accountable for property in their care, custody, and control, as well as properly identifying their vehicles.

Your Committee adopted the recommendation of the Department of Commerce and Consumer Affairs by deleting the requirement that tow operators post a \$15,000 bond and adding a new provision to prohibit uninsured tow operators from collecting charges and to allow injured persons to sue such tow operators.

The new provision allows consumers to file a private cause of action if damage occurs to a towed motor vehicle while being towed and stored by the towing business. Additionally, the court is allowed to award the plaintiff a sum of not less than \$1,000 or threefold damages sustained by the plaintiff, whichever is greater, and reasonable attorneys fees together with the costs of suit.

The bond requirement is being deleted from this measure because the cost of administering such a bonding requirement would likely outweigh the benefit to a particular consumer. A bond requirement would be particularly problematic for the department of commerce and consumer affairs, since the bond would be unrelated to any regulated profession. Your Committee also finds that a bond would be of negligible benefit to consumers, since an action on the bond would still be required to obtain payment, and claims would be limited to those consumers whose personal possessions were lost or stolen from the towed vehicle.

In addition, your Committee finds that requiring towing companies to display their address on the towing vehicle raises privacy and safety concerns because many tow companies are home-based businesses. Therefore, your Committee has deleted that requirement.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 973, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Slom). Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 286 Education and Technology on S.B. No. 43

The purpose of this measure is to increase the membership of the University of Hawaii Board of Regents to fifteen members and to require diversity in the background of its members. Additionally, this measure provides for three Board members to be nonresidents who are nationally or internationally prominent.

Testimony in support of this measure was submitted by the University of Hawaii Professional Assembly. Informational testimony was submitted by the University of Hawaii Board of Regents.

Your Committee finds that the University of Hawaii Board of Regents would benefit from the national and international perspective that three nonresident members would bring to meetings. This global perspective will allow the University of Hawaii to grow as a world class university and focal point of the Pacific Rim.

However, your Committee acknowledges a possible constitutional question regarding the U.S. citizenship requirement for serving in public office, as well as the practical difficulties in the coordination of attendance of the nonresident members, and thus, has amended this measure to give the nonresident members ex-officio, non-voting status. Your Committee has further amended this measure to require the Board of Regents to meet with the nonresident members at least semi-annually. Your Committee notes the controversial nature of this measure and encourages continued discussion on the benefits and ramifications of its implementation.

Technical, nonsubstantive amendments were also made to format this measure to reflect the preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 43, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 43, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 287 (Joint) Education and Technology and Ways and Means on S.B. No. 539

The purpose of this measure is to propose a Constitutional amendment to provide the University of Hawaii with autonomy in all matters related to the University.

Testimony in support of this measure was submitted by the University of Hawaii and the University of Hawaii Professional Assembly. Testimony in opposition of this measure was submitted by the Department of Budget and Finance, the Hawaii Government Employees Association, and the Hawaii State Ethics Commission.

Last session, the Legislature gave the University of Hawaii increased authority to manage its assets, personnel, and programs. Most notably, the University was given the authority to hire and retain its own attorneys, independent of the Department of the Attorney General. In this session, your Committee on Education and Technology has heard and passed S.B. No. 538, which amends Hawaii Revised Statutes to give the University of Hawaii complete autonomy, and status comparable to the Judiciary. This measure, S.B. No. 539, is its companion, as only by a Constitutional amendment can the University be completely separated from the Executive Branch.

Your Committees find that by granting the University of Hawaii complete autonomy from the Executive Branch, the University will be provided with the opportunities and incentives for developing an entrepreneurial, competitive role in contributing to Hawaii's economic growth. However, your Committees also find that it is difficult to anticipate all the possible repercussions of such a broad-based measure. For example, in last session's broad-based measure relating to the University's increased authority, the University of Hawaii was granted the power to hire and retain its own attorneys, and the Legislature did not anticipate that the Department of the Attorney General would understand this to mean that the University would not receive any legal services from the Department. Thus, additional efforts were spent determining and clarifying the legal services which the University will provide for itself, and those which the Department of the Attorney General will provide, and the costs involved for these services.

Because your Committees believe that further discussion is needed on this issue, this measure has been amended to take effect upon approval. Your Committees are aware that this amendment makes the measure defective, and by doing so, your Committees hope to foster further discussion on this measure. Your Committees encourage future testimony on this measure to address these concerns:

- (1) If the University is completely autonomous, and is charged for services provided by the Executive Branch, does the University intend to charge for services it provides to other state agencies;
- (2) While S.B. No. 538 mandates that the University's budget shall be restricted in the same percentage as other state agencies, how will the percentage be determined, and how will the funding to the other departments be affected; and
- (3) Because currently there are over 300 laws governing the University, what would the consequences be of enacting this Constitutional amendment, in terms of affecting the validity of these laws? What other possible problems could arise as a result of this measure?

Your Committees believe that this discussion is necessary in addressing and possibly averting any misunderstandings or repercussions that may stem from this measure, and its companion, S.B. No. 538.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 539, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 539, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 7 (Buen, Bunda, Ige, M., Iwase, Nakata, Taniguchi, Slom).

SCRep. 288 (Joint) Education and Technology and Water, Land, and Hawaiian Affairs on S.B. No. 1232

The purpose of this measure is to appropriate funds for 38 SR14 classified personnel positions to be Hawaiian studies program assistants.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the Native Hawaiian Education Council, the Center for Hawaiian Studies at the University of Hawaii at Manoa, the Association of Hawaiian Civic Clubs--Oahu Council, the Advocates of Hawaiian Studies and Bilingual Association, the Waimea Hawaiian Homesteaders' Association, Incorporated, the Aged

Hawaiians, the Honolulu Alliance of and for Lavender Youth, and over twenty-five concerned parents, makua, and kupuna. The Department of Education and Ka Piko O Ka Ua Kanilehua submitted testimony in support of the intent of this measure.

Your Committees find that the Hawaiian studies program in the state public school system is a valuable and essential component of the state public school system. The 1978 Constitutional mandate that the State promote the study of the Hawaiian culture, history, and language by providing a Hawaiian education program ensures the preservation of the State's unique and special native heritage for years to come.

Your Committees have amended this measure to delete the specific dollar amounts appropriated and to include funding for other expenses incurred by the kupuna and makua of the program. Your Committee finds that funding for travel expenses, the preparation and gathering of materials, and medical and dental benefits for the kupuna and makua may also be necessary.

Your Committees believe that flexibility in regard to funding for this program is necessary in these hard economic times. Your Committees also believe that the Committee on Ways and Means is best able to determine the precise amounts available to fund these aspects of the Hawaiian studies program as specified in the measure.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1232, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1232, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 3 (Bunda, Anderson, Slom).

SCRep. 289 Education and Technology on S.B. No. 1269

The purpose of this measure is to provide \$11,100,000 for an additional 283 permanent positions and operating funds to the Department of Education for fiscal year 1998-1999.

Testimony in support of this measure was submitted by the Department of Education and the Hawaii State Teachers Association.

Your Committee agrees with the Department of Education's testimony that the requirements of the Felix Consent Decree must be fulfilled without the reduction or discontinuation of other essential services to students. However, in this measure for additional moneys, your Committee believes that the Department of Education has allocated funds to operating and equipment costs that could be better spent on direct services to students.

Accordingly, your Committee has amended this measure to remove the funds allocated to EDN 200, 300, 400, and 500 for the purposes of operating costs and equipment expenses, and have added this difference to EDN 100. Your Committee believes that this will not only allow the Department of Education to fund the requested additional positions required by the Felix Consent Decree, but will also reroute funds intended for administrative and equipment costs to direct services to students via the increased funding of EDN 100.

It has long been the intent of the Legislature to support EDN 100 programs and direct services to students, while reducing any unnecessary administrative expenses. Because the education of Hawaii's youth is a high priority to the State, your Committee notes that the total amount of funding has not been changed, as your Committee has only amended the distribution of the allocated moneys.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1269, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1269, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 290 (Joint) Education and Technology and Commerce and Consumer Protection on S.B. No. 1320

The purpose of this measure is to provide protection for persons who exercise commercially reasonable efforts to identify and find solutions for computer-based systems that may be affected by Year 2000 errors.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Department of Accounting and General Services, the Judiciary, Bank of Hawaii, Hawaiian Electric Company, Hawaii Medical Service Association, Hawaii Long Term Care Association, Hawaii Bankers Association, the Queen's Health Systems, Healthcare Association of Hawaii, Hawaii Credit Union League, and Kaiser Permanente.

Your Committees find that the cost of litigating claims instigated by Year 2000 problems goes far beyond the dollars paid out to injured persons and to lawyers handling the claims. There are extra costs in finding and fixing potential problems, as the process becomes guided by lawyers wanting to assure that nothing is said and nothing happens which can be used by a claimant in a lawsuit. Resources are taken away from the task of finding and fixing problems to do documentation and compile evidence of what went on

which can be used in defending against claims. Once claims are asserted, there will be a burden on the judicial system to process and resolve them, and additional time and resources will be squandered on the preparation and presentation of the claims and defenses.

This measure attempts to rein in these effects by:

- (1) Providing incentives for people to seriously work at finding and fixing their potential Year 2000 problems;
- (2) Limiting the types of damages which are difficult to prove and therefore difficult to promptly resolve; and
- (3) Encouraging the use of non-binding arbitration which is designed to result in claims being resolved faster than through the courts.

In addition, this measure recognizes that in finding and fixing potential Year 2000 problems, what is reasonable for a large financial services company is not the same as what is reasonable for a small business. This measure gives the arbitrator or court the discretion to consider a company's Year 2000 efforts as a whole, taking into account the sophistication of the person and the resources available.

Lastly, this measure exempts consumer claims filed in small claims court from many of its provisions. This allows for the prompt, informal determination of those claims without the need for consumers to go through the error dispute resolution process. Physical injury claims are also exempted from the resolution process, and most will be referred by existing law to the current Court Annexed Arbitration Program, which has experience in handling and settling physical injury claims.

Technical, nonsubstantive amendments were made by your Committees to change the formatting of this measure to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1320, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1320, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 5 (Bunda, Chumbley, Hanabusa, Matsunaga, Matsuura).

SCRep. 291 (Majority) Education and Technology on S.B. No. 1639

The purpose of this measure is to make an emergency appropriation for the construction of the first increment of the new Kapolei High School.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii State Teachers Association, the Hawaii State Parent, Teacher, and Student Association, the Villages of Kapolei Homeowners Association, the Estate of James Campbell, Information Services, Senator Brian Kanno, and two concerned individuals.

High school students living in Kapolei must currently commute ten miles to Campbell High School. Your Committee finds that Campbell High School is currently facing multiple problems due to overcrowding from the influx of Kapolei students.

Although it is apparent that a high school in Kapolei must be constructed, the Department of Education testified that groundbreaking for this construction should begin in March, 1999. This would allow the school to open to its first ninth grade class in July, 2000. With Kapolei Middle School opening on July, 1999, to grades six, seven, and eight, students from Kapolei Middle School will be able to attend Kapolei High School in July, 2000. Both the high school and middle school in Kapolei are designed as "schools of the future", with an aligned curriculum and programs. By making Kapolei High School available to students in July, 2000, students at Kapolei Middle School will have an uninterrupted educational process.

Your Committee is aware of the current financial situation of the State and realizes the impact this emergency appropriation will have on the budget. Because of this, your Committee finds further discussion on this measure is warranted. The Committee believes additional information from the Department of Education regarding any problems caused by a delay in construction of Kapolei High School would be an important consideration in discussions with the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1639 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Chumbley). Excused, 3 (Bunda, Matsunaga, Tam).

SCRep. 292 Labor and Environment on S.B. No. 45

The purpose of this measure is to create a pool of vacant positions; abolish one-half of the vacant positions; and grant the authority to reallocate the remaining positions to the Governor or Chief Justice, as appropriate. The measure also prohibits the creation of new positions.

Testimony supporting the intent of this measure was received from the Department of Budget and Finance. Testimony opposing this measure was received from the Judiciary, the Department of Land and Natural Resources, and the Department of Education.

Your Committee finds that one means of addressing the State's fiscal crisis is to reduce the size of state government. This measure merits further discussion as a potential tool to effectuate this desired goal.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 45 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 293 Labor and Environment on S.B. No. 153

The purpose of this measure is to change the medical fee schedule for workers' compensation reimbursements to providers from 110% of Medicare to the annually adjusted federal workers' compensation medical fee schedule for use in Hawaii.

Testimony in support of this measure was received from ILWU Local 142, the Hawaii Federation of Physicians and Dentists, the Hawaii Medical Association, the Hawaii Orthopaedic Association, the Hawaii Society of Physical Medicine, the Hawaii State Chiropractic Association, Castle Medical Center, Comprehensive Health and Active Rehabilitation Training, HealthSouth Rehabilitation Center of Hawaii, Kaiser Foundation Health Plan, and forty-one individuals. The Hawaii Nurses Association testified in support of the measure with amendments.

Testimony in opposition to this measure was received from the Department of Labor and Industrial Relations, the Insurance Commissioner, and GEICO Direct.

Your Committee finds that changes made to the workers' compensation medical fee schedule will affect both the workers' compensation premium rates and the motor vehicle insurance rates. Section 431:10C-308.5, Hawaii Revised Statutes, which delineates limitations on charges for motor vehicle insurance, prohibits charges permissible in the motor vehicle insurance statutes from exceeding the charges permissible under workers' compensation schedules.

Since the enactment of Act 234, Session Laws of Hawaii 1995, the Insurance Division of the Department of Commerce and Consumer Affairs has approved an average reduction in workers' compensation insurance premiums of 37.5%. Similarly, motor vehicle insurance premiums have decreased more than the minimum 20% as required by Act 251, Session Laws of Hawaii 1997. These savings can in part be attributed to the reimbursement schedule based on 110% of Medicare.

Your Committee also finds that physicians and other healthcare providers are reluctant to treat workers' compensation injuries because the reimbursement, in many cases, does not cover the cost to treat the patient. According to an analysis by the National Council on Compensation Insurance, Inc., the estimated impact on medical costs of raising the fee schedule to 120% of Medicare is 8.39%. This would result in an estimated impact on overall costs of 2.06%.

The federal workers' compensation reimbursement schedule for Hawaii is reported to be as high as 145% of Medicare. According to the NCCI analysis, an increase of reimbursement to 145% of Medicare could impact medical costs by 28.3%. This would result in an estimated impact on overall costs of 6.95%. Your Committee feels that, without more concrete information regarding the federal workers' compensation reimbursement schedule for Hawaii, it is premature to make such a drastic change to current practice regarding medical reimbursement.

However, your Committee feels that medical service providers may be justified in raising specified fees in the schedule for workers' compensation and motor vehicle insurance. Your Committee has amended the measure to add a mechanism by which medical service providers may request changes in specified fees provided that evidence substantiating the need for the change in fees is provided.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 153, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 153, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 294 Labor and Environment on S.B. No. 189

The purpose of this measure is to prohibit discriminatory employment practices against women who breastfeed or express milk.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, Kokua Kalihi Valley, Healthy Mothers, Healthy Babies, MothersCare for Tomorrow's Children, Kapi'olani Medical Center, and five individuals.

Your Committee finds that numerous studies over the years have shown that breastfeeding is beneficial to both the mother and the infant. For mothers who work outside the home, however, the ability to continue breastfeeding or expressing breast milk is often dependent on the woman's employer.

Your Committee has heard that rather than make it unlawful to refuse to hire, discharge, or otherwise discriminate against a woman who breastfeeds her child or expresses breastmilk at work, as the measure was introduced, it would be preferable to have a clear statement in the law that women may breastfeed or extract milk at work.

Your Committee has amended this measure to delete the amendments to section 378-2, Hawaii Revised Statutes (HRS), relating to unlawful discriminatory practices, and, instead, has expanded the definition of "because of sex" in section 378-1, HRS, to include breastfeeding or extracting expressed milk.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 189, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 189, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 295 Labor and Environment on S.B. No. 820

The purpose of this measure is to prohibit discriminatory pay differences for equivalent jobs.

The measure establishes a statutory framework for determination of "equivalent jobs" or "comparable worth", record keeping and reporting requirements for employers, and enforcement for violations of the newly established unlawful discriminatory practice.

Testimony in support of this measure was received from the Hawaii State Commission on the Status of Women, ILWU Local 142, Hawaii Lawyers Care, Women's Financial resource Center, Hawaii Women Lawyers, Maui Business and Professional Women's Club, Honolulu Business and Professional Women's Club, and an individual. The Hawaii Civil Rights Commission (HCRC) testified in support of the measure with amendments.

Your Committee finds that occupations which are historically filled by women or racial minorities have lower average wages than comparable or equivalent occupations in which men or non-minorities are over-represented, or in which women and minorities have been excluded. This measure addresses these inequities.

Your Committee also finds that pay equity and comparable worth analyses, as required by this measure, best address pay differences between classes of occupations rather than between individual employees.

Your Committee has amended this measure by:

- (1) Limiting the requirements of the measure to companies with 25 or more employees;
- (2) Clarifying the definition of "equivalent jobs" by replacing the reference to the federal Equal Pay Act with "the same or similar in skill, effort, or responsibility";
- (3) Replacing all references to "national origin" with the broader term "ancestry";
- (4) Clarifying that the Department of Labor and Industrial Relations (DLIR) has rulemaking authority over the new statutory sections of the measure and not section 378-2(7), as that authority rests with the HCRC;
- (5) Clarifying that DLIR has the authority to use the information gathered for enforcement; and
- (6) Removing the definition of "market rates" because there is no reference to the term in the measure.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 820, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 820, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 296 Labor and Environment on S.B. No. 1046

The purpose of this measure is to repeal Chapters 76, 77, 78, 79, 80, 81, and 82, Hawaii Revised Statutes, in order to create a new statutory framework for a new civil service system.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, the Department of Defense, the Department of Land and Natural Resources, the Judiciary, and the County of Maui Department of Civil Service. The HGEA-AFSCME Local 152, AFL-CIO, the State of Hawaii Organization of Police Officers, and the United Public Workers testified in opposition. One individual submitted comments on this measure.

Your Committee finds that if government is to transform the outdated civil service system in order to meet the needs of a modern, flexible economy, the current system must be replaced with new laws. This measure would "clear the deck" and create an opportunity to encourage all stakeholders to work together on a collaborative and timely basis to develop a replacement law.

Your Committee is cognizant of both the opportunities and the perils inherent in the proposed legislation. But if meaningful change is to occur, the process, however controversial, must begin.

Your Committee has amended this measure to:

- (1) Delete the majority of the findings and purpose section and revise this section to focus on the need for a more flexible and responsive civil service system, the creation of a "fresh-start" concept, and to emphasize the partnership aspect of designing a new system;
- (2) Require the Director of Human Resources Development, with all stakeholders agreeing, to engage a team of mediators/facilitators to submit monthly progress reports to the Legislature;
- (3) Require the director and the stakeholders to submit model legislation to a joint House of Representatives and Senate Labor Committee meeting on November 15, 1999, with meetings for possible revisions to continue after this joint committee meeting;
- (4) Require the director to present a revised and final civil service bill for consideration by the Legislature by January 15, 2000;
- (5) Require the Legislature to adopt legislation to be effective June 30, 2000, to define the employment of persons in the civil service system governed by the merit principle;
- (6) Make the Act effective upon approval; and
- (7) Renumber the sections to conform to standard drafting style.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1046, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 297 Labor and Environment on S.B. No. 1150

The purpose of this measure is to ensure the safe operation of boilers, elevators, and amusement rides. The measure also increases the maximum penalty from \$1,000 to \$10,000 for operating, knowingly or with indifference, regulated equipment in an unsafe manner.

Testimony in support of this measure was received from the Department of Labor and Industrial Relations and the International Union of Elevator Constructors.

Your Committee finds that raising the maximum penalty to \$10,000 will provide a stronger deterrent to those who choose to violate safety laws and endanger public safety.

Your Committee has amended this measure by making technical, nonsubstantive changes to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1150, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 298 Labor and Environment on S.B. No. 1429

The purpose of this measure is to exclude from the definition of public utility any facility that reclaims wastewater if at least ten per cent of the wastewater processed is used by a state or county agency under a service agreement.

Testimony in support of this measure was received from the Department of Health and U.S. Filter Operating Services, Inc. Testimony in opposition to this measure was received from the Consumer Advocate of the Department of Commerce and Consumer Affairs.

Your Committee finds that this measure will help the Department of Health achieve its goal of increasing the safe use of recycled water throughout the State and believes that the measure has merit. Your Committee is referring the measure to your Committee on Commerce and Consumer Protection for further discussion.

Your Committee has amended this measure to add provisos clarifying that the exemption applies to a facility that:

- (1) Only processes and distributes secondary treated wastewater that has been produced by a municipal wastewater treatment facility;
- (2) Does not sell water to residential customers; and
- (3) Is not engaged in the processing of food wastes.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1429, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1429, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Chun Oakland, Ige, M., Slom).

SCRep. 299 (Majority) Labor and Environment on S.B. No. 1574

The purpose of this measure is to require successor employers to retain incumbent employees upon the divestiture, sale, or acquisition of a business.

Testimony in support of this measure was received from the Hawaii State AFL-CIO, the ILWU Local 142, Unity House, Inc., and seven individuals. Testimony in opposition to the measure was received from the Department of Labor and Industrial Relations, the Chamber of Commerce of Hawaii, the Legislative Information Services of Hawaii, and Jas. W. Glover, Ltd.

Your Committee finds that it is in the State's interest to provide a stable employment environment for its residents and maintain a smooth continuity in the delivery of services when an establishment is sold or transferred. Your Committee believes that this measure merits further discussion and refinement by parties affected by the measure.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1574 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, 1 (Slom). Excused, 1 (Chun Oakland).

SCRep. 300 (Joint/Majority) Economic Development and Education and Technology on S.B. No. 1468

The purpose of this measure is to appropriate \$100,000 to the University of Hawaii to study the feasibility of constructing and operating an ocean floating, all-natural clean energy power station in Hawaii.

Your Committees received testimony in support of this measure from Makai Ocean Engineering, Inc. The Department of Business, Economic Development, and Tourism testified in support of the intent of the measure. The University of Hawai'i and the University's Environmental Center provided comments.

Your Committees find that in 1997 the Legislature provided \$50,000 to the Hawaii Natural Energy Institute to work with the local community to develop a strategic plan to design and build a sustainable resource floating platform. In December 1998, the International Offshore Alliance convened a conference in Honolulu to discuss this concept. Approximately one hundred conferees from industry, government, and academia adopted a recommendation that Hawaii should take the next step in developing such a platform.

Your Committees are supportive of the concept and believe it is worthy of further development. Your Committees have amended this measure to designate the Department of Business, Economic Development, and Tourism as the expending and reporting agency.

As affirmed by the records of votes of the members of your Committees on Economic Development and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1468, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1468, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, 2 (Kawamoto, Slom). Excused, 2 (Bunda, Taniguchi).

SCRep. 301 Transportation and Intergovernmental Affairs on S.B. No. 800

The purpose of this measure is to exempt from general excise tax the amounts received by a wastewater reclamation facility from a county for processing and cleaning wastewater, and returning the water to the county.

Testimony in support of this measure was received from the Department of Environmental Services of the City and County of Honolulu and U.S. Filter Operating Services, Inc. The Tax Foundation of Hawaii submitted comments on this measure.

Testimony in opposition to this measure was received from the Department of Taxation.

Your Committee finds that it is in the best interest of the State to encourage the development of wastewater reuse projects in the State. The general excise tax exemption provided in this measure will encourage further development by making the wastewater reuse projects more cost-effective for both the respective counties and the private entities contracted to develop the projects.

Your Committee has amended this measure by making technical, nonsubstantive clarifying changes.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 800, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 800, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 302 Transportation and Intergovernmental Affairs on S.B. No. 1298

The purpose of this measure is to transfer fifty percent of all fines and forfeitures collected for uncontested traffic infractions committed in that county.

Testimony in support of this measure was received from the Department of Budget and Finance, Department of Finance of the County of Hawaii, Department of Budget of the City and County of Honolulu, and the Police Department of the City and County of Honolulu (oral testimony). The Judiciary submitted testimony commenting on this measure.

Your Committee finds that all fines and forfeitures collected for uncontested traffic infractions are currently deposited into the general fund. The Department of Budget and Finance calculated that total collections from uncontested traffic violations is projected to be \$10.9 million in fiscal year 2000. Your Committee finds that the counties expend considerable resources on traffic enforcement and should be reimbursed to offset its costs with the amounts collected for uncontested traffic infractions.

Your Committee has amended this measure by changing the amount due the counties from fifty percent to all of the fines and forfeitures collected for uncontested traffic infractions and requiring that amount be expended for public safety purposes. Your Committee also made technical, nonsubstantive changes for purposes of clarity, preferred drafting style, and consistency and to accurately reflect current statutory language.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1298, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 303 Commerce and Consumer Protection on S.B. No. 1125

The purpose of this measure is to make conforming amendments to the Code of Financial Institutions (Code).

The Commissioner of Financial Institutions presented testimony in support of this measure.

In 1996, the Legislature amended the interstate banking and branching laws. This measure conforms the definition of "Hawaii financial institution" and provisions relating to the purchase of failing institutions to these amendments. Additionally, under this measure, procedures for the relocation of an agency, branch, or representative office of a foreign bank, and for the voluntary liquidation and dissolution of credit unions are conformed to be consistent with the procedures required for other financial institutions.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1125 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ihara, Inouye, Matsuura).

SCRep. 304 Commerce and Consumer Protection on S.B. No. 1144

The purpose of this measure is to dedicate a portion of the franchise tax revenues to the financial institution examiners' revolving fund.

Testimony in support of this measure was presented at the hearing by a representative of the Department of Commerce and Consumer Affairs, the Hawaii Financial Services Association, and the Hawaii Bankers Association. Though not present at the hearing, written testimony in support of this measure was received from the Hawaii Credit Union League. The Tax Foundation submitted written comments on the measure.

Your Committee finds that this measure moves the Division of Financial Institutions to self-sufficiency and provides the flexibility to effectively regulate the constantly changing and complex financial institution industry. This measure provides for that flexibility by providing a dedicated source of funding for the division.

Your Committee also finds that it is more judicious for the measure's effective date to correspond with the beginning of the fiscal year, July 1, 1999.

Your Committee has amended this measure by:

- (1) Deleting the specified percentage to be deposited into the special fund;
- (2) Changing the effective date to July 1, 1999; and
- (3) Making technical, nonsubstantive changes to conform to preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1144, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 305 Transportation and Intergovernmental Affairs on S.B. No. 1212

The purpose of this bill is to consolidate and make uniform, where appropriate, the statutory provisions relating to operating a vehicle while using an intoxicant.

More specifically, the bill creates a new chapter within the Hawaii Revised Statutes that:

- (1) In effect, reenacts many existing provisions in part VII and XIV of chapter 286 and in chapter 291;
- (2) Consolidates the implied consent provisions for driving with a measurable amount of alcohol (zero tolerance), driving under the influence of intoxicating liquor, driving under the influence of drugs, and impaired boating offenses;
- (3) Makes driving with a measurable amount of alcohol (zero tolerance), driving under the influence of drugs, and impaired boating offenses subject to the administrative revocation of driver's license provisions, instead of providing for suspension of license or privilege to operate a vehicle pursuant to a district court hearing; and
- (4) Makes the penalties for driving under the influence of drugs and impaired boating offenses consistent with those for driving under the influence of intoxicating liquor by consolidating these provisions into the offense of operating a vehicle while under the influence of an intoxicant.

Your Committee finds that this bill is the result of efforts by the Governor's Highway Safety Council Impaired Driving Task Force and the Department of Transportation, in response to House Concurrent Resolution No. 26, S.D. 1, entitled "Requesting the Department of Transportation to Review Hawaii's Impaired Driving Statutes and to Make Recommendations for Uniform Statutory Construction". The Legislature passed the Resolution during the Regular Session of 1998 out of concern over inconsistent statutory provisions and disparate penalties for similar offenses.

Your Committee firmly believes that it is entirely appropriate to provide for uniform and consistent statutory provisions with respect to operating a vehicle while using intoxicants. Your Committee further finds that the present inconsistent provisions relating to zero tolerance, impaired driving, and impaired boating have occurred largely as a result of patchwork legislation over time that amended some statutory provisions relating to impaired driving, but failed to make mirror amendments to other, similar offenses. Accordingly, your Committee believes that consolidating similar provisions and creating a separate chapter within the Hawaii Revised Statutes to deal solely with these issues will help to ensure that future legislative actions will maintain the consistency and uniformity established within this bill.

Your Committee has amended the bill by:

- (1) Adding a new section -2 to part I that reenacts the language presently in section 291-6, Hawaii Revised Statutes, relating to medical services by government physicians;
- (2) Redesignating section -83, relating to evidence of intoxication (on pages 61-63), as section -3 and adding it to part I (general provisions), because it relates to both part III and part IV;
- (3) Adding a new section -4 to part I that clarifies that:
 - (A) Any offense under sections 200-81, 291-4, or 291-7, Hawaii Revised Statutes, as these sections were in effect prior to the bill's effective date, or any conviction in any other state or federal jurisdiction for any offense similar to these offenses or to operating a vehicle while under the influence of an intoxicant shall count as a prior offense; and
 - (B) Any violation of section 291-4.5, as that section was in effect prior to the bill's effective date, shall be counted as a prior violation;
- (4) Making similar amendments, with respect to convictions in any other state or federal jurisdiction for any similar offense, to the definitions of "alcohol enforcement contact" and "drug enforcement contact" in section -1 and to section -81(c) relating to prior offenses;
- (5) Renumbering section -80 as section -83, as it was numbered incorrectly according to Hawaii Revised Statutes numbering conventions;
- (6) Amending section -82(a), at page 60, line 4, to add a reference to revocations or suspensions under part VII of chapter 286 and to indicate that reference to all provisions listed on lines 4-5 are to these sections as they were in effect prior to the bill's effective date;
- (7) Adding corresponding amendments to sections 287-20(b) and 663-1.9(c), Hawaii Revised Statutes;
- (8) Adding three new sections repealing sections 291-4.5, 291-5, and 291-6, Hawaii Revised Statutes, respectively, as these sections are being reenacted in the new chapter being created in the bill;
- (9) Adding a new section to the bill requiring the Revisor of Statutes to prepare proposed conforming legislation to make necessary amendments to statutes that will be affected by the repeal of present statutory provisions, as provided in the bill;
- (10) Deleting the provision applying the bill retroactively and, instead, making the bill applicable to any act occurring after the bill's effective date and making conforming changes to the purpose section;
- (11) Changing the effective date to July 1, 2000, to provide additional time for the Judiciary and law enforcement agencies to develop new procedures and forms to ensure compliance with the bill;
- (12) Renumbering all sections consecutively; and
- (13) Making a number of technical, nonsubstantive changes for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1212, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Iwase, Taniguchi).

SCRep. 306 (Joint/Majority) Economic Development and Education and Technology on S.B. No. 744

The purpose of this measure is to exempt certain activities of call centers from taxation.

Your Committees received testimony in support of this measure from the High Technology Development Corporation, Hawaiian Electric Company, and The Estate of James Campbell. The Department of Business, Economic Development, and Tourism and the Department of Taxation testified in support of the intent of the measure.

Your Committees find that call centers offer Hawaii an opportunity to develop in the rapidly expanding area of technical support and customer service. Currently, Hawaii's fledgling call center industry is composed of a small number of companies employing primarily engineers, programmers, and computer support positions. Future opportunities may include centers with medical personnel to support medical equipment in other countries and disaster relief personnel to assist in disaster recovery efforts.

Your Committees have heard that in this highly competitive field, Hawaii's location is a distinct advantage, but that Australia is already developing a strong Asia-Pacific market. Your Committees are supportive of efforts to attract new and diversified businesses to Hawaii, and believe this measure will aid in the State's marketing and expansion of a call center industry.

As affirmed by the records of votes of the members of your Committees on Economic Development and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 744 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, 1 (Slom). Excused, 2 (Bunda, Taniguchi).

SCRep. 307 (Joint/Majority) Economic Development and Education and Technology on S.B. No. 759

The purpose of this measure is to appropriate \$200,000 for the development of an ornamental fish, plants, and other products industry in Hawaii.

Your Committees received testimony in support of this measure from the Department of Agriculture, the University of Hawai'i, the University's Sea Grant College Program, the Hawaii Aquaculture Association, Anuenue Fisheries Research Center, Cynotech Corporation, Discus of Hawaii, Hawaiian Marine Enterprises, the Honolulu Aquarium Society, the Oceanic Institute, and six individuals.

Your Committees find that development of ornamental aquatic animals and plants for the aquarium industry in an important export opportunity for Hawaii aquaculturists, particularly the culture of marine or saltwater livestock and plants.

Your Committees are in support of this industry and concur that an important aspect of developing its potential will be technical support services to the mostly small farming operations now raising ornamental aquatic animals and plants.

Your Committees have amended this measure to change the expending agency from the College of Tropical Agriculture and Human Resources of the University of Hawai'i to the Aquaculture Development Program of the Department of Agriculture for expenditure through the University of Hawai'i Sea Grant College Program.

As affirmed by the records of votes of the members of your Committees on Economic Development and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 759, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 759, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, 2 (Kawamoto, Slom). Excused, 2 (Bunda, Taniguchi).

SCRep. 308 (Joint) Economic Development and Water, Land, and Hawaiian Affairs on S.B. No. 1097

The purpose of this measure is to authorize the use of revenues accrued from harvesting forest products on State lands and sales of tree seedlings from State nurseries for the reforestation and management of harvested areas, enhanced management of forest reserves, and environmental education and training programs.

Your Committees received testimony in support of this measure from the Department of Agriculture, the Department of Hawaiian Home Lands, the Department of Land and Natural Resources, the Department of Labor and Industrial Relations, the University of Hawai'i Environmental Center, the Big Island Farm Bureau, the Hawai'i Forestry Industry Association, the Hawaii Society of American Foresters, The Nature Conservancy of Hawai'i, and C.A.M. Resource Management.

Your Committees find that as the forest industry expands with the establishment of tree plantations on former sugar cane lands, the State must take a leadership role in making forest resources available, in reforesting and managing plantation forests in a responsible manner, and in working with the communities impacted by forest activities.

Your Committees further find that although the sale of forest products could generate a substantial amount of revenue for the State, current budgets allow for only sixty acres to be reforested annually. Your Committees believe this measure will direct this expanding source of revenue from the sale of forest products to critical reforestation, improved resource management, and enhanced public education efforts.

Your Committees have amended this measure to make technical amendments to conform to standard drafting style and conformed statutory material to current law.

As affirmed by the records of votes of the members of your Committees on Economic Development and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1097, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1097, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 2 (Anderson, Slom).

SCRep. 309 (Joint/Majority) Economic Development and Education and Technology on S.B. No. 1323

The purpose of this measure is to provide an investment tax credit for high technology business ventures.

Testimony in support of this measure was received from the Department of Business, Economic Development, and Tourism, the Department of Taxation, the University of Hawaii, the High Technology Development Corporation, the Kauai Economic Development Board, and the Estate of James Campbell. The Tax Foundation of Hawaii commented on the measure.

Your Committees find that an especially critical problem for high technology industries is access to capital. These technology intensive companies have unique requirements for research and development expenditures though there may be little or no revenue for years. This measure encourages a wide range of taxpayers, including individuals and venture capital firms, to invest in companies which have economic activity in Hawaii. Thus contributing to the diversification of Hawaii's economy through the development of emerging industries.

Your Committees have made technical, nonsubstantive amendments to clarify Internal Revenue Code references and to change formatting to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Economic Development and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1323, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1323, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, 1 (Slom). Excused, 2 (Bunda, Taniguchi).

SCRep. 310 Commerce and Consumer Protection on S.B. No. 780

The purpose of this measure is to require health insurance coverage for medical foods and low-protein modified food products for the treatment of inherited metabolic diseases.

The Department of Commerce and Consumer Affairs, the Department of Health, and ten individuals presented testimony in support of this measure. The Hawaii Chapter of the American Academy of Pediatrics, the Hawaii Dietetic Association, and eight individuals, though not present, submitted written testimony in support of this measure. The Hawaii Medical Service Association and Kaiser Permanente presented testimony in opposition.

Your Committee believes that mandating health insurance benefits generally impacts costs to the health insurer and ultimately to consumers. However, in this case, your Committee finds that the number of individuals affected is less than twenty-five and this cost increase is minimal when compared to the overall costs of health care. Therefore, your Committee believes that the costs related to this measure can be absorbed by the risk pool and all affected individuals can be provided with some degree of relief. A 1998 study conducted by the Auditor also reflects this.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 780 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 311 Commerce and Consumer Protection on S.B. No. 791

The purpose of this measure is to establish a Public Utilities Commission Intervenors Fund to assist qualified persons who wish to intervene in a proceeding before the Public Utilities Commission.

The Public Utilities Commission, the Department of Commerce and Consumer Affairs, Division of Consumer Advocacy, Na Leo Pohai, and Life of the Land presented testimony in support of the measure. Ho'olaulima O Palolo and two private citizens, though not present, submitted written testimony in support of the measure.

Hawaiian Electric Company, Inc., Kauai Electric, GTE Hawaiian Tel, and AT&T presented testimony in opposition to the measure.

Your Committee finds that individuals and entities who are granted intervenor status in cases before the Public Utilities Commission often lack the resources necessary to present expert testimony and other evidence. Establishing an intervenor fund to assist intervenors in proceedings before the Public Utilities Commission would provide these intervenors with the necessary resources to make a meaningful contribution to decisions made by the Commission.

Your Committee has amended the measure by:

- (1) Deleting the requirement that fees collected on behalf of the Public Utilities Commission be paid into the intervenor fund up to a maximum of \$500,000, after which the remaining amount shall be deposited in the Public Utilities Commission Special Fund;
- (2) Adding a provision that requires the Attorney General to appoint the counsel for an intervenor who is eligible to receive the resources provided by the newly established fund; and
- (3) Amending the appropriation section to specify that \$500,000 in fiscal years 1999-2000 and 2000-2001 be appropriated from the Public Utilities Commission Special Fund, rather than an unspecified amount to be appropriated from the General Fund, to be used by the Public Utilities Commission for the purposes of assisting intervenors. After June 30, 2001, any unexpended balance of the original appropriations remaining shall lapse into the Public Utilities Commission Special Fund.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 791, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Sлом).

SCRep. 312 Commerce and Consumer Protection on S.B. No. 1126

The purpose of this measure is to extend authorization for the issuance of general obligation bonds for the Hawaii Hurricane Relief Fund (HHRF) to fiscal years 1999-2000 and 2000-2001.

The executive director of the HHRF presented testimony in support of this measure.

The current authorization for general obligation bonds for HHRF expires on June 30, 1999. This measure ensures that the HHRF has a funding source available and retains its tax exempt status under the Internal Revenue Code.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1126 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara)

SCRep. 313 Commerce and Consumer Protection on S.B. No. 1130

The purpose of this measure is to require health maintenance organizations (HMOs) to file quarterly reports with the Insurance Commissioner.

The Insurance Commissioner presented testimony in support of this measure.

The Insurance Division requires HMOs to file quarterly reports under article 3 of chapter 431, Hawaii Revised Statutes. This measure will codify under chapter 432D, Hawaii Revised Statutes, this requirement. Your Committee believes that quarterly reports provide timely information to the Insurance Division so that it can monitor fiscal solvency of the HMOs.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 314 Commerce and Consumer Protection on S.B. No. 1261

The purpose of this measure is to allow the Insurance Commissioner to assess through administrative rules an application license fee and an annual renewal fee upon captive insurance companies.

The Insurance Commissioner, Fiftieth State Risk Management Services, Inc., J&H Marsh & McLennan, and Hawaii Captive Insurance Council presented testimony in support of this measure.

Your Committee finds that the Insurance Division utilizes more resources when regulating captive insurance companies as compared to traditional insurance companies, due to their nature as self-insurance companies. This measure will offset some additional expenses.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1261 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 315 Commerce and Consumer Protection on S.B. No. 650

The purpose of this measure is to deter and penalize the use of electronic media to harass others.

Testimony in support of this measure was presented by an individual. Another individual, though not present at the hearing, submitted written testimony in support of the measure.

Your Committee finds that the growth of the Internet and online services has led to an increase in electronic communication. Consumers use electronic mail as a primary form of communication and as an alternative to telephonic or written communication. People also meet and conference through online chat rooms.

Your Committee further finds, however, that some individuals are abusing electronic communication by using it to commit threatening and harassing acts against others, including the sending of harassing e-mail and the posting of derogatory messages. Current laws relating to non-legitimate communication by electronic mail are inadequate to address this problem. This measure would strengthen the law by making the use of computerized communication systems to frighten, intimidate, threaten, abuse, or harass another person a misdemeanor and authorizing the forfeiture of property belonging to the offending party.

Technical, nonsubstantive amendments were made to this measure for purposes of style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 650, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Matsuura).

SCRep. 316 Commerce and Consumer Protection on S.B. No. 834

The purpose of this measure is to amend the manner in which post retirement allowances paid by the Employees Retirement System are calculated.

Specifically, the measure amends the post retirement allowance formula by compounding the cost of living increase provided to retirees.

Testimony in support of this measure was submitted by the Coalition of State/County Retirees, Inc., the Hawaii State Teachers Association, and the Public Employees Management Association of Hawaii. The Employees Retirement System submitted comments on the measure.

Your Committee finds that the Employees Retirement System currently employs a simple interest formula to calculate existing post retirement benefits. This means that any post retirement benefit owing to a member is calculated using the member's original pension amount, then adding the product of that amount multiplied by 2.5%. For long time retirees, this simple interest formula has left their pensions far behind "real world" cost of living increases.

Although your Committee understands the fiscal problems currently facing the State, it believes that this measure, in addition to other related measures, should be passed on to the Committee on Ways and Means to provide that committee with options to remedy inequities in the State's retirement system.

Your Committee has amended the measure by making technical amendments to clarify its intent.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 834, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 317 Commerce and Consumer Protection on S.B. No. 1124

The purpose of this measure is to eliminate the prohibition on the establishment of a de novo interstate branch or the acquisition of an interstate branch by an out-of-state bank, and remove the five-year age requirement for the acquisition of a whole bank by an out-of-state bank.

The Commissioner of Financial Institutions and the Bank of Hawaii presented testimony in support of the measure. The Hawaii National Bank presented comments on and proposed an amendment to the measure. The Bank of Tokyo-Mitsubishi, Ltd., submitted written testimony in support of the measure.

This measure allows an out-of-state bank to establish a de novo interstate branch or acquire an existing interstate branch subject to filing and fee requirements. Additionally, it allows an out-of-state bank to acquire a Hawaii bank through an interstate merger transaction without the condition that the Hawaii bank have been in continuous operation for a minimum of five years.

Your Committee finds that out-of-state banks operating through the Internet, direct mail, and the telephone, already have access to Hawaii consumers, but are not subject to the regulatory measures that govern financial institutions physically domiciled in the State. Permitting out-of-state banks to establish or acquire interstate branches in Hawaii subject to their compliance with the requirements and laws of the State allows out-of-state banks to compete on a direct level with local institutions while under the regulatory scrutiny of the Division of Financial Institutions.

Your Committee finds that adopting an open approach to interstate branching should benefit the State and its residents and make Hawaii a more attractive destination for visitors. The entry of additional financial services providers into the market should create competition in the industry, resulting in improved customer service and greater choices for consumers in financial products and services. Tourists would find Hawaii a convenient place to visit because of the ease of conducting financial transactions through interstate branches of their hometown banks.

Your Committee has amended this measure by making technical, nonsubstantive amendments and by deleting language to reflect current statute.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1124, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1124, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ihara, Inouye, Matsuura).

SCRep. 318 (Joint) Commerce and Consumer Protection and Water, Land, and Hawaiian Affairs on S.B. No. 1314

The purpose of this measure is to provide retirement benefits to the Trustees of the Office of Hawaiian Affairs.

Testimony in support of the measure was received from the Office of Hawaiian Affairs. A representative of the Hawaiian Political Action Council of Hawaii (HPACH) testified in opposition to the measure. The Employees Retirement System provided comments on the measure.

Your Committees find that prior to July 1, 1982, the Employees Retirement System provided Trustees of the Office of Hawaiian Affairs, delegates to a constitutional convention, and members of the Board of Education with the same retirement benefits as elected officials. On July 1, 1982, Act 165, Session Laws of Hawaii 1982 (Act 165), was enacted. Act 165 clarified the definition of "elected official" within Chapter 88, Hawaii Revised Statutes, and effectively excluded Trustees of the Office of Hawaiian Affairs, delegates to a constitutional convention, and members of the Board of Education from the definition of "elected official" on the basis that these persons received no compensation for the performance of their duties. The Employees Retirement System was required to refund all contributions made on behalf of these persons and all prospective holders of such offices were not allowed to become members of the Employees Retirement System.

Act 358, Session Laws of Hawaii 1993, provided salaries for the Trustees of the Office of Hawaiian Affairs and included the Trustees in all benefit plans provided to other public employees except for retirement benefits.

Your Committees also find that the measure allows any current or former Trustee of the Office of Hawaiian Affairs in service on July 1, 1999, and all Trustees thereafter, to become a member of the Employees Retirement System. The measure also allows former and current Trustees to claim any previous service as a Trustee retroactive to July 1, 1993.

Your Committees have amended the measure by:

- (1) Clarifying the retirement benefit class to which the Trustees of the Office of Hawaiian Affairs would be assigned;
- (2) Removing provisions that the Employees Retirement System deemed as extraneous; and
- (3) Making numerous technical, nonsubstantive amendments for the purposes of conforming the measure to preferred drafting style and correcting quoted statutory language.

Your Committees believe that the amended measure provides employee benefit parity to the Trustees of the Office of Hawaiian Affairs.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1314, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1314, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Chun, Ihara, Inouye, Anderson, Slom).

SCRep. 319 Commerce and Consumer Protection on S.B. No. 1622

The purpose of this measure is to allow a contributory member of the Employees Retirement System to make a one-time withdrawal of contributions in case of financial hardship.

Testimony in support of the measure was received from a private citizen. The Employees Retirement System submitted comments on the measure.

Your Committee finds that no other public pension fund in the nation provides for the withdrawal of employee contributions while the employee is still in active service. However, your Committee is also keenly aware of the tough economic times facing many families across the State. To this end, providing public employees who are contributory members of the Employees Retirement System with a means by which to leverage their pension contributions in the near term is a compassionate and prudent concept.

Understanding the concerns of the Employees Retirement System and in order to avoid setting a precedent for future attempts to remove employee contributions from the Employees Retirement System, your Committee has amended the measure by deleting its substance and inserting therefor, provisions that enable the Employees Retirement System's Board of Trustees to establish a loan program for members facing financial hardship.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1622, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1622, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 320 Commerce and Consumer Protection on S.B. No. 39

The purpose of this measure is to allow qualified contributory members of the Employees Retirement System to obtain military service credit at the noncontributory pension accrual rate.

Specifically, the measure provides contributory members of the Employees Retirement System who served in a qualifying military service capacity, and who as of January 1, 1999, have not purchased the military service credit provided in section 88-132.5, Hawaii Revised Statutes, with the option of either:

- (1) Purchasing the military service credit at either the 7.8% or 12.2% of current salary rate specified in section 88-45, Hawaii Revised Statutes, and thus obtaining the credit at the pension accrual rate of 2%, 2.5%, or 3.5%, as applicable to the member's contributory class status; or
- (2) Obtaining the military service credit free of charge at the noncontributory pension accrual rate of 1 and 1/4% per year.

The measure also allows the member to split the military service credit between purchasing some contributory service credit and obtaining some at the noncontributory rate; provided that the splitting is done in not less than one year increments.

Testimony in support of the measure was received from the United Public Workers Union and two private citizens. The Office of Veterans Services supported the intent of the measure. The Employees Retirement System provided comments on the measure.

Your Committee finds that providing contributory members with the option to obtain military service credit at the noncontributory rate is a fair premise in that noncontributory members receive the military service credit at no cost.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 39 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 321 Commerce and Consumer Protection on S.B. No. 366

The purpose of this measure is to amend the composition of the Employer-Union Trust Concept Committee (Committee) and to extend the scope of its mandated purpose.

Specifically, the measure clarifies that equal numbers of representatives from public employers and public employee organizations sit on the Committee and that a retired beneficiary of the Public Employees' Health Fund also be a member. The measure also:

- (1) Extends the Committee's term until June 30, 2001;
- (2) Requires the Committee to submit annual progress reports on November 21, 1999, May 15, 2000, and November 21, 2000, to the Legislature;
- (3) Requires the Committee to submit annual action plans to the Legislature on November 1, 1999, and November 1, 2000; and
- (4) Requires the Committee to submit a finalized proposal and implementing legislation no later than twenty days prior to the convening of the 2001 regular session.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and the Hawaii State Teachers Association. The Department of Budget and Finance supported the intent of the measure with reservations. The Public Employees' Health Fund submitted comments on the measure.

Your Committee finds that more time is needed in order to formulate a comprehensive plan to reform the public sector health benefits program paradigm as we know it. However, your Committee is committed to ensuring that such a reform occurs in a reasonable amount of time so as to benefit current public sector employees.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 366 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 322 Commerce and Consumer Protection on S.B. No. 1102

The purpose of this measure is to transfer the financial responsibility of annually auditing the Public Employees' Health Fund from the State Comptroller to the Public Employees' Health Fund.

Testimony in support of this measure was submitted by the Department of Accounting and General Services. The Public Employees' Health Fund supported the measure; provided the State appropriate \$100,000 annually for the Public Employees' Health Fund to conduct the audit.

Your Committee believes that it is the responsibility of the Public Employees' Health Fund to maintain accurate records of its accounts. Your Committee also believes that since the Public Employees' Health Fund is the beneficiary of audit information, it should pay for the cost of any auditing expenses,

Your Committee has amended the measure by clarifying that the costs of the audit shall be paid out of the Public Employees' Health Fund's reserves.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1102, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1102, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 323 Commerce and Consumer Protection on S.B. No. 1288

The purpose of this measure is to permit the board of trustees of the public employees health fund ("Board") to contract for more than one type of benefit plan for medical, drug, vision, and dental benefits.

Testimony in support of this measure was received from the Department of Budget and Finance and Hawaii Health Systems Corporation.

Your Committee finds that current law authorizes the Board to contract for only one statewide plan for each of its medical, drug, dental, and vision benefit plans. This measure will provide the Board the flexibility to contract for more than one benefit plan per benefit category thereby fostering more competition to provide the state quality benefit plans with the best value.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1288 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 324 Commerce and Consumer Protection on S.B. No. 1290

The purpose of this measure is to offer medical benefits to part-time, temporary, and seasonal or casual public employees at no cost to the employer.

Under the measure, the cost of the medical benefits provided would be borne by the employee.

Testimony in support of the measure was received from the Departments of Budget and Finance and Education. The Public Employees' Health Fund provided comments on the measure.

Your Committee finds that providing such benefits to part-time employees would increase medical coverage for citizens of the State at no cost to the public employer and concurrently provide these employees with the opportunity to obtain coverage at a lower premium rate.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1290 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 325 Economic Development on S.B. No. 227

The purpose of this measure is to require the Department of Land and Natural Resources to designate a moorage of up to ninety feet for the sole use of commercial fishing vessels in each small boat harbor.

The Committee received testimony in support of this measure from Boat Owners Association of The State of Hawaii and Fresh Island Fish Company. The Department of Land and Natural Resources (DLNR) and one individual submitted testimony in opposition.

Your Committee finds that under current law, DLNR may set aside moorage space for commercial fishing vessels in small boat harbors, but is not required to do so. As passenger vessel activity increases at these harbors, local fishery operations are finding it difficult to access dock space for loading, unloading, and provisioning their boats.

Your Committee believes support of the local fishing industry, many of which are small, family-owned operations, should be encouraged by providing access to necessary support services. Your Committee has amended this measure to:

- (1) Make the moorage temporary;
- (2) Delete the word "solely" in regards to use by commercial fishing vessels;
- (3) Authorize the moorage for loading and unloading for periods of up to three hours; and
- (4) Delete the requirement for a valid use permit and payment of fees.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 227, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 326 Economic Development on S.B. No. 1088

The purpose of this measure is to establish procedures for the seizure, forfeiture, and disposal of natural resources involved in fishing violations.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and the Environmental Center of the University of Hawaii. Boat Owners Association of The State of Hawaii testified in support of the concept.

Your Committee finds that this measure authorizes the department to sell perishable natural resources that are seized in order to prevent waste and to ensure the economic value of the natural resource. This would relieve the State of the time and expense of storing a commodity that declines rapidly in value with storage, and limit the State's liability for loss of value if it is later determined that the seizure was unlawful.

Your Committee is in support of this measure and has amended it to delete the first two sentences of the proposed new language in Section 199-7, Hawaii Revised Statutes, regarding forfeiture of any seized item, other than a natural resource. Technical, nonsubstantive amendments were also made.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1088, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1088, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 327 (Joint/Majority) Economic Development and Health and Human Services on S.B. No. 1564

The purpose of this measure is to appropriate \$250,000 for the Millennium Young People's Congress.

Your Committees received testimony in support of this measure from the Millennium Host Committee, the Hawai'i Community Services Council, The League of Women Voters, Youth for Environmental Service, the Department of Business, Economic Development, and Tourism, Office of Youth Services, and twenty-two individuals.

Your Committees find that from October 21 to 29, 1999, seven hundred-fifty young people from nearly every country in the world will gather in Honolulu as delegates to the Millennium Young People's Congress. In addition to Hawaii's two delegates to the Congress, approximately two hundred-fifty other Hawaii young people will assist as millennium youth stewards, providing many opportunities for civic minded youth to meet and work together on environmental issues.

Your Committees further find that the delegates will participate in five days of plenary sessions at the Hawaii Convention Center, live with host families throughout Oahu, attend a play, dedicate a peace garden, work in service projects, and perform in a cultural pageant. In addition, many of these events will be open to the public.

Your Committees have heard that this Congress is endorsed by a number of committees of the United Nations and is sponsored in part by Peace Child International, a United Kingdom nonprofit organization, and by the World Travel and Tourism Council.

Your Committees believe this to be a worthwhile endeavor and support the concepts of the Youth Congress. However, your Committees have raised a number of concerns for further discussion by the Committee on Ways and Means. Specifically, your Committees have requested further information on:

- (1) The overall project budget, including personnel costs, and how the \$250,000 request would be applied to this budget;
- (2) The role of the professional fundraiser, which the Millennium Host Committee intends to employ on a contingency basis to raise funds on the U.S. mainland; and
- (3) Samples of previous resolutions or other policy statements developed in advance of this Congress.

Your Committees would like to emphasize that any State appropriation should be for direct services to the youth attending the Congress, including stipends for host families, and other related expenses intended to provide for the safety and comfort of the Congress participants. In particular, your Committees do not intend any State appropriation to be spent on the expenses of the fundraising professional.

As affirmed by the records of votes of the members of your Committees on Economic Development and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1564 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, 1 (Slom). Excused, 3 (Kawamoto, Tanaka, Anderson).

SCRep. 328 (Joint/Majority) Economic Development and Transportation and Intergovernmental Affairs on S.B. No. 1612

The purpose of this measure is to appropriate funds to study the feasibility of creating a Waimea Bay lookout and rest area.

Your Committees received testimony in support of the intent of this measure from the Department of Transportation.

Your Committees find that Waimea Bay is a popular area for visitors and local residents, particularly during the winter months of high surf. The resulting traffic creates a hazard because of the narrow shoulders along the highway.

Your Committees are in support of the intent of this measure and has amended it to delete the specific dollar amount, for the purposes of further discussion by the Committee on Ways and Means.

As affirmed by the records of votes of the members of your Committees on Economic Development and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1612, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1612, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, 1 (Slom). Excused, 4 (Bunda, Ige, M., Iwase, Taniguchi).

SCRep. 329 Government Operations and Housing on S.B. No. 285

The purpose of this measure is to expressly permit condominium associations to purchase from the lessor one hundred percent of the leased-fee interest in condominiums.

Testimony in favor of this measure was received from the Hawaii Council of Associations of Apartment Owners and Neeley & Anderson, Attorneys at Law.

Under current law, Chapter 514C, Hawaii Revised Statutes (HRS), empowers lessors to offer their leased fee interest to a third-party investor or condominium association member. However, Chapter 514C, HRS, does not apply to direct negotiations between associations and lessors.

Your Committee finds that condominium association members have purchased their leased fees interests in bulk purchase transactions negotiated by the boards of directors of their associations even though the Condominium Property Act does not contain express authorization for condominium associations to engage in such transactions.

Your Committee finds that lack of authorization to engage in this type of transaction creates an undesirable uncertainty as to the nature and extent of the authority of the boards of directors of condominium associations to negotiate with lessors for the bulk purchases of their leased fee interests.

Your Committee finds that an amendment to the Condominium Property Act is needed to expressly empower condominium associations to negotiate with lessors for the purchase of one hundred percent of the lessor's interest by the association and its members.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 285, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 330 Government Operations and Housing on S.B. No. 290

The purpose of this measure is to require fifty percent of expenditures from the Homes Revolving Fund (HRF) and the Dwelling Unit Revolving Fund (DURF), to be used for units which are affordable to persons and families with incomes at or below thirty percent of the median income level.

Testimony in support of this measure was received from the Legal Aid Society of Hawaii. Testimony opposed to this measure was received from the Housing and Community Development Corporation of Hawaii.

Your Committee finds that there are more than 100,000 people who are homeless on our streets or part of the hidden homeless who rely on relatives or friends for housing. Statistics from the Hawaii Housing Authority show that more than 12,000 homeless people are served by state programs every year, and the number continues to increase.

Your Committee finds that the crisis in affordable housing is greatest among extremely low income households, with incomes less than thirty percent of the median income level. Nearly two-thirds of these households cannot afford their housing payments.

Currently, the State's reserve housing funds are not targeted for the use by any particular income bracket. Your Committee finds that in order to make affordable housing more readily available to the extremely low income residents in this state, a certain percentage of the HRF and the DURF should be expended for units that are affordable to persons with incomes at or below thirty percent of the median income level.

Your Committee has amended this measure by deleting the fifty percent allocation of the funds and leaving this percentage blank for determination in future decisionmaking. Additionally, your Committee made technical, nonsubstantive changes to this measure.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means in the form attached hereto as S.B. No. 290, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 331 Government Operations and Housing on S.B. No. 38

The purpose of this measure is to require the Auditor to contract with independent auditors to conduct comprehensive annual financial audits of state and county governments.

Testimony in opposition was received from the State Auditor, County Council for the County of Hawaii, and the Department of Finance for the County of Hawaii.

Your Committee finds that there is an immediate need for independent comprehensive annual financial audits of Hawaii state and county governments. Annual audits provide management information which enable the state and county governments to examine their organization, management, operations, and programs, and identify opportunities for reorganization, consolidation, and elimination of duplicated functions.

Your Committee finds that audits enable both state and county governments to develop more effective and efficient budgets.

Testimony in opposition of this measure stated that requiring annual audits of all state and county governments duplicates the state and county government audits which occur every year and is too costly. However, your Committee finds that in order to ensure an objective and effective audit, each audit should be conducted by one or more independent auditors. Additionally, the money saved by identifying inefficient and wasteful government operations through the audit process justifies the expense of conducting annual audits of Hawaii state and county governments.

Your Committee adopted the recommendation of the State Auditor and amended this measure to eliminate the provisions that would require the financial audit to determine where cutbacks should take place and to make recommendations for reorganization or consolidation of state and county agencies.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 38, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 38, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 332 Government Operations and Housing on S.B. No. 1005

The purpose of this measure is to require contractors on a public contract to pay a contractor within three working days of receiving payment and provides a penalty for violation of this statute.

Testimony in favor was received from Action Fire Sprinkler Corp., Certified SheetMetal, Inc., Commercial Electric, Inc., Continental Mechanical of the Pacific, Dorvin D. Leis Co., Inc., HSI Mechanical, Pacific Fire Protection, Inc., Painting and Decorating Contractors Association of Hawaii, Plumbing & Mechanical Contractors Association of Hawaii. Testimony in favor of the intent was received from the Department of Accounting and General Services and Jas. W. Glover, Ltd. Testimony in support with amendments was received from the Subcontractors Association of Hawaii and Associated Builders and Contractors, Inc. Testimony opposed to this measure was received from Contractors Association of Kaua'i and General Contractors Association of Hawaii. Oral testimony was presented by the Ironworkers Stabilization Fund and the Building Association of Hawaii.

Your Committee finds that currently, section 103-10.5, Hawaii Revised Statutes (HRS), requires contractors working on a public contract to pay their subcontractors within ten days after receipt of any moneys for the contract. However, section 103-10.5, HRS does not have any penalty provisions for violating this section.

Your Committee finds that prompt payment to contractors and subcontractors performing on a government contract stimulates economic growth and provides economic stability for subcontractors.

Your Committee has amended this measure to provide for a graduated penalty scale for violations under this measure, including: \$5,000 fine for the first offense, \$10,000 fine for the second offense, and \$25,000 fine and three year prohibition on bidding for public contracts. Additionally, your Committee deleted the three-day time frame for contractors to pay subcontractors once payment is received by the contractor and retained the current ten-day time frame.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1005, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1005, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 333 Labor and Environment on S.B. No. 63

The purpose of this measure is to provide a tax credit for employers hiring recently released persons who have been incarcerated for conviction of felonies.

Testimony supporting the measure with amendments was received from the Department of Public Safety. Testimony in opposition to this measure was received from the Department of Taxation. The Tax Foundation offered comments on the measure.

Your Committee finds that meaningful employment is critical in reducing recidivism not only for persons participating in parole programs, but, also, to inmates who have been granted furloughs for employment. Employment and education are critical factors for the offender's re-integration into the community.

Your Committee has amended this measure to include a tax incentive to employers for hiring inmates who have been granted a furlough for employment.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 63, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 63, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Chun Oakland, Slom).

SCRep. 334 Labor and Environment on S.B. No. 235

The purpose of this measure is to amend the Whistleblowers' Protection Act by expanding the areas of protected conduct and the types of reportable violations.

Testimony in support of this measure was received from the Hawaii State Teachers Association, Common Cause Hawaii, and twenty-three individuals. The Hawaii Nurses Association testified in support of the measure with amendments. The Chamber of Commerce of Hawaii and the Society for Human Resource Management testified in opposition to the measure.

Your Committee finds that it is the intent of this measure to protect persons from being penalized by an employer for reporting violations of the law or a code of ethics designed to protect the public. Your Committee heard testimony from many healthcare professionals supporting this measure which provides protection from retaliatory acts by employers when they report situations that jeopardize the health and well-being of their patients.

Your Committee has amended this measure by:

- (1) Deleting the provision that allows as an affirmative defense that the employer did not force others to act unethically or illegally; and
- (2) Deleting the provision that defines "reasonable cause to believe" as this term is well understood and the definition is unnecessary.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 235, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 235, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ige, M.).

SCRep. 335 (Joint) Labor and Environment and Commerce and Consumer Protection on S.B. No. 1336

The purpose of this measure is to allow employers to deduct from gross income for state income tax purposes premiums paid or incurred by an employer toward a prepaid health care plan.

Testimony in support of this measure was received from the Department of Taxation, Department of Human Services, and one individual. The Tax Foundation of Hawaii submitted comments.

Your Committees find that the state income tax deduction provided in this measure will allow employers to deduct from gross income 200% of the premiums paid or incurred in providing prepaid health care coverage to their employees. This is in lieu of the 100% currently allowed by the Internal Revenue Code. Thus, this measure will encourage employers to hire full-time employees and to voluntarily provide health insurance for part-time or seasonal employees.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1336 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 6 (Bunda, Chumbley, Chun Oakland, Hanabusa, Ige, M., Matsuura).

SCRep. 336 Education and Technology on S.B. No. 46

The purpose of this measure is to move the Department of Education further towards the goal of school-based budgeting.

Specifically, the measure:

- (1) Requires the Governor to submit the Department of Education's budget to the Legislature on a school-by-school basis, except for the portions of the budget that include district and state office programs;
- (2) Establishes an Education Contingent Fund to cover unexpected changes in school budgets that occur as a result of personnel movements between schools; and
- (3) Establishes specific budgetary criteria for the Department of Education when submitting school-by-school budget requests.

Your Committee received testimony that supported the intent of the measure from the Departments of Budget and Finance and Education and the Hawaii State Teachers Association.

Your Committee finds that a similar bill passed by the Legislature in 1998 but was vetoed by the Governor due to concerns over the July 1, 1998, implementation date. In order to allay concerns over providing principals with sufficient time to learn how to craft and submit individual school budget requests, this measure proposes a 2001 starting date.

Your Committee has amended the measure by deleting provisions that:

- (1) Require the Governor to submit the Department of Education's budget to the Legislature on a school-by-school basis;
- (2) Establish the Education Contingent Fund;
- (3) Provide the Department of Education with the flexibility to move funds between schools; and
- (4) Allow schools to minimally report on actual and estimated program costs and effectiveness measures in fiscal years 2001-2002 and 2002-2003.

Your Committee believes that the amended measure provides sufficient time and guidance to the Department of Education to successfully implement school-based budgeting.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 46, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 46, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 337 Education and Technology on S.B. No. 533

The purpose of this measure is to assure that all children are safe, healthy, and ready to succeed in school by requiring parents and guardians to take their three-year-old children to the nearest public elementary school to assess whether their psychological and physiological development to date has been satisfactory.

Testimony in support of the intent of this measure was submitted by the Department of Education, the Department of Health, the Hawaii State Teachers Association, the Good Beginnings Alliance, the Christian Science Committee on Publication in Hawaii, the Hawaii Chapter of the American Physical Therapy Association, the Hawaii Early Intervention Coordinating Council, the Hawaii Association for the Education of Young Children, and a concerned citizen. The Hawaii Congress of Parents, Teachers, and Students and the American Academy of Pediatrics submitted testimony in opposition to this measure.

Your Committee finds that similar to social policy mandating car seats for children under four or requiring immunizations as a prerequisite for entry to school, this measure protects the welfare of children by ensuring the early detection of mental and physical health problems and improving child outcomes.

Your Committee believes that the responsibility for screening and assessment should be placed on parents, and not on executive agencies. Therefore, your Committee has amended this measure by deleting its substance and replacing its contents with a measure that would:

- (1) Require parents or guardians of a child to have their child screened for psychological or physiological development ninety days prior to or following the child's third birthday;
- (2) Require certification screening by the Departments of Health, Education, and Human Services; the child's pediatrician; or primary health care provider;

- (3) Require the departments, physicians, or providers conducting the screening to adhere to certain requirements to be developed before July 1, 2000;
- (4) Charge the Departments of Health, Education, and Human Services, in conjunction with the American Academy of Pediatrics, to plan and develop standardized screening and a referral protocol; and
- (5) Appropriate a blank amount for the Department of Health to develop the standardized screening and referral protocol, effective July 1, 1999.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 533, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 338 Education and Technology on S.B. No. 951

The purpose of this measure is to enable the University of Hawaii and the Department of Education to establish custodial accounts for the deposit of employee annuity payments.

Testimony in support of the measure was received from the Department of Education, the University of Hawaii Professional Assembly, the Hawaii State Teachers Association, and the Hawaii State Association of Life Underwriters. The University of Hawaii supported the intent of the measure but had concerns with the measure's lack of protection for the State and the University from financial liability.

Your Committee finds that providing such annuity contracts and custodial accounts would enhance the benefits of University of Hawaii and Department of Education employees. These enhanced benefits could possibly result in attracting more qualified people to work for these agencies.

Your Committee has amended the measure to address the concerns of the University of Hawaii by inserting language that protects the University of Hawaii, the Department of Education, and the State from any costs or financial liability that may be incurred through the establishment, management, or disposition of annuity contracts or custodial accounts that University or Department of Education employees utilize.

Your Committee believes that the amended measure strikes a balance between providing enhanced employee benefits while concurrently protecting the University of Hawaii, the Department of Education, and the State from potential financial liability.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 951, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Bunda).

SCRep. 339 Education and Technology on S.B. No. 1272

The purpose of this measure is to authorize the Board of Education to determine the starting age of attendance for kindergarten and first grade.

Your Committee received testimony in support of this measure from the Department of Education.

Your Committee finds that educational research has shown that children who start school at an earlier age than their peers may be at a significant disadvantage, depending on their school entry date. In addition, a 1998 survey conducted by the department revealed that a large majority of kindergarten teachers and their principals support a change in the cutoff date for kindergarten entry, citing a lack of readiness or maturity for late-born children.

Your Committee understands that any change to the school attendance age will be controversial, and may pose an economic hardship for some parents who would be required to wait an additional year before a child could attend public school. However, your Committee is concerned that children who begin school before they are ready, may fall behind in school work or fail to develop to their full potential.

Your Committee has amended this measure to:

- (1) Require the Board of Education (BOE) to determine readiness standards for entry to both kindergarten and regular school;

- (2) Require the BOE to submit a proposed implementation plan twenty days prior to the convening of the regular session of 2000, including procedures and criteria for screening each child entering a public school; provided that once the board establishes readiness standards, a parent shall have the option of requesting a screening to determine if the child shall be admitted; and
- (3) Change the effective date of this Act to July 1, 2001.

Your Committee believes this delay in implementation will give the BOE time to develop meaningful readiness standards to meet the concerns of parents and teachers alike regarding a child's entry to public school.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1272, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Bunda, Tam, Slom).

SCRep. 340 Education and Technology on S.B. No. 1501

The purpose of this measure is to require that the Department of Education enter into agreements with qualified, private, nonprofit corporations to construct, manage, and operate a pilot charter school.

This measure further requires the planning, design, construction, and equipping of, and the acquisition of lands for, the charter school to be done at no cost to the State.

Testimony in support of this measure was submitted by the South Maui Learning Ohana, and two concerned individuals. The Department of Education and the Hawaii State Teachers Association submitted testimony in support of the intent of this measure. Testimony in opposition to the measure was submitted by the Hawaii Government Employees Association and the United Public Workers.

Your Committee finds that the idea of allowing schools greater autonomy and flexibility is reflected in many measures introduced this session. This measure, along with S.B. No. 1277, S.B. No. 1318, and S.B. No. 1233, all relate to the formation of alternate educational programs and schools independent from the governance of the board of education. Although these measures all reflect the same idea, they have many different and confusing names: student-centered schools, charter schools, and new century schools. Your Committee believes combining the main issues of these four measures together will increase the effectiveness of and prevent confusion on this important concept.

Your Committee has amended this measure by replacing its contents with provisions:

- (1) Designating student-centered schools henceforth as "new century schools", and defining new century schools as those school implementing alternative frameworks with regard to curriculum; facilities management; instructional approach; length of school day, week, or year; and personnel management;
- (2) Adding a new part to chapter 302A, Hawaii Revised Statutes, that will dictate a process by which an existing public school, or a new school may become a new century school, including petitioning to the Governor as an alternative to the current formation of student-centered schools. The program requirements and exemptions of these new century schools are also established; and
- (3) Repealing the sections in chapter 302A, Hawaii Revised Statutes, which deal with student-centered schools.

Although the overarching theme of autonomy at the school level is consistent with all the measures incorporated, the coordination of the provisions of these measures is complicated and not straightforward. Thus, to prevent any possible misunderstandings or repercussions, your Committee encourages further discussion when this measure is heard in the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1501, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1501, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 341 Judiciary on S.B. No. 193

The purpose of this bill is to transfer the Crime Victim Compensation Commission from within the Department of Public Safety to the Department of the Attorney General.

Your Committee finds that the Department of the Attorney General is a more appropriate placement for a victim services agency than the Department of Public Safety, which necessarily focuses on offenders. The Department of the Attorney General is the State of

Hawaii's central agency for federal funds intended for crime victims. It has the responsibility to administer the Federal Victims of Crime Act and the Violence Against Women Act as well as the state Victim Witness Assistance programs. Your Committee further finds that given additional time to anticipate and deal with the organizational concerns inherent in a transition, the Department of the Attorney General will be able to effectively place the Crime Victim Compensation program within its existing operations.

Testimony in support of this measure was submitted by the Department of the Prosecuting Attorney for the City and County of Honolulu, and testimony in support of this measure with reservations was submitted by the Attorney General. Testimony in opposition to this measure was submitted by the Crime Victim Compensation Commission.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing the effective date to July 1, 2000; and
- (2) Making technical, non-substantive amendments to conform other sections of existing law that would be affected by this transfer.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 193, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 193, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 342 Judiciary on S.B. No. 598

The purpose of this bill is to appropriate funds to the Judiciary to establish a dedicated domestic violence court and to provide related domestic violence services.

Your Committee finds that the establishment of a specialized domestic violence court will provide dedicated resources with which to address the complex issues involved in domestic violence cases. Specifically, a dedicated domestic violence court will offer encouragement to victims by improving consistency in the issuance and enforcement of protective orders. As a result, advocates assisting victims of domestic violence will be better able to educate and prepare victims regarding how the judge may rule on various issues. Your Committee further finds that services offered through the court to offenders will provide an additional avenue for rehabilitation and, thereby, reduce recidivism.

Testimony in support of this measure was submitted by the Judiciary, the Domestic Violence Clearinghouse and Legal Hotline, the Hawaii State Coalition Against Domestic Violence, Child and Family Service, Hawaii Lawyers Care, and Hawaii Women Lawyers. The Department of Health also submitted testimony in support of the intent of this measure indicating concerns about the cost implications of this proposal.

Upon further consideration, your Committee has amended this measure by:

- (1) Establishing a two-year pilot dedicated domestic violence court and requiring a report to the legislature prior to the 2001 regular session;
- (2) Including a position count for one circuit court judge and support staff and an appropriation for operating expenses;
- (3) Changing the effective date to include repealing the pilot on June 30, 2001; and
- (4) Making technical, non-substantive changes for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 598, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 598, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 343 Judiciary on S.B. No. 634

The purpose of this bill is to permit the establishment of a spendthrift trust with the settlor as a beneficiary, to clarify the circumstances in which spendthrift and other trusts may be challenged, and to require local trustees and local administration of Hawaii trusts.

Your Committee finds that several other states, most notably Alaska and Delaware, have recently passed laws allowing greater flexibility in trust formation as an effort to make themselves attractive locations for trust business. Your Committee further finds that many trust settlors form off-shore trusts to take advantage of estate planning tools that have been traditionally unavailable in their own jurisdictions. While no state can offer all the attractions of off-shore jurisdictions, such as no taxation and absolute protection from

creditors, states do have the advantage of stable, secure governments. Your Committee believes that this measure will provide increased flexibility in Hawaii's trust laws, making Hawaii more attractive as an estate planning jurisdiction, while retaining the safeguards against fraudulent transfer that are an important part of Hawaii law.

No testimony was received on this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 634 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 344 Judiciary on S.B. No. 899

The purpose of this bill, as received by your Committee, is to remove all exemptions from jury service except previous service within the preceding year, to increase the juror mileage compensation from 33 to 37 cents, and to appropriate money for increased juror compensation.

Your Committee finds that the existing law providing exemptions from jury service for doctors, lawyers, and others is optional, not automatic, and these exemptions must be either specifically claimed or waived by those within these exempt categories. Thus, those individuals within the exempt categories now have the option to participate as jurors when called for jury service. Your Committee believes that greater participation by members of the currently exempt groups should be encouraged rather than altering the current system of exemptions. Your Committee further finds that an increase in the mileage compensation for jurors will fairly reflect increases in the cost of transportation since the law was last amended.

Testimony in support of this measure was submitted by the Judiciary and Common Cause Hawaii. Testimony in opposition to the repeal of the current juror exemptions was submitted by the Hawaii Medical Association.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the proposed repeal of all exemptions; and
- (2) Changing the effective date to July 1, 1999.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 899, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 899, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 345 Judiciary on S.B. No. 904

The purpose of this bill is to appropriate funds to expand the video arraignment and conferencing system between correctional facilities and the court system.

Your Committee finds that since 1993, video conferencing technology has allowed defendants housed at the Oahu Community Correctional Center to participate in video arraignments. This program has been expanded in subsequent years to include motion hearings and pre-sentence public defender/client interviews. Your Committee further finds that in 1997, the First Circuit Court arraigned 1,907 or approximately 96 percent of its custody defendants by video conferencing technology. This translates into at least a \$45,000 per year savings for the Department of Public Safety as a result of reduced transportation and overtime costs. Your Committee believes that expanding this program to include Halawa Correctional Facilities and Hawaii Community Correctional Facilities would produce similar savings and benefits.

Testimony in support of this measure was submitted by the Judiciary, the Department of Public Safety, the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Office of the Public Defender.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 904 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 346 Judiciary on S.B. No. 1104

The purpose of this bill is to appropriate funds from the general revenues of the State of Hawaii to satisfy claims for legislative relief, judgments against the State, settlements, and miscellaneous claims.

Your Committee finds that this bill in its present form contains forty-four claims totalling \$4,086,253.97. The Department of the Attorney General informed this Committee that there are an additional five claims, totalling \$119,121.80, that have been settled since the introduction of this measure. Your Committee further finds that these claims should be paid in order to compensate the injured.

The Department of the Attorney General assures your Committee that it diligently advises its client agencies on how to mitigate actions which could result in future claims of the same type contained in this bill. However, your Committee is not convinced that the Department of the Attorney General nor its client agencies have succeeded in modifying policies and procedures to avoid repetition of similar claims. Your Committee firmly believes that mechanisms need to be developed and implemented to decrease the State's exposure to liability for future claims.

Testimony in support of this measure was submitted by the Department of the Attorney General.

Upon further consideration, your Committee has amended this measure by:

- (1) Including five additional claims that have been resolved since the introduction of this measure;
- (2) Amending section 37-77, Hawaii Revised Statutes, (claims for legislative relief) by providing that any claim submitted for consideration by the legislature shall be filed within five years from the date on which a claim for payment matured;
- (3) Requiring the Attorney General to consult with the Governor prior to any settlement that is subject to legislative approval;
- (4) Requiring the Attorney General to develop a policy of advising its client agencies as to how to prevent future claims based upon factors which contributed to the State's negligence;
- (5) Requiring all client agencies to develop new policies or modify existing practices to ensure prevention of similar acts that gave rise to the settlement;
- (6) Providing that any client agency who fails to implement such policies or procedures shall use its departmental allocation to fund the settlement;
- (7) Changing the effective date to July 1, 1999; and
- (8) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1104, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1104, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 347

Judiciary on S.B. No. 1106

The purpose of this bill, as received by your Committee, is to allow the Attorney General to act as a collection agency on behalf of state agencies for collection of delinquent accounts, and to establish a civil recoveries special fund for deposit of monies collected by the Attorney General.

Your Committee finds that collections operations are presently being funded by the agencies, which restricts the use of staff within the Attorney General's Collections Unit to collections on behalf of the funding agency. Funding collections operations on a state-wide basis will allow more efficient use of staff in pursuing collection of monies due to all State agencies. Your Committee further finds that this measure will give the Attorney General greater flexibility in fee arrangements with its client agencies for collections, because it will be possible for the Attorney General to pursue collections on a contingency basis.

Testimony in support of this measure was submitted by the Attorney General, the Department of Commerce and Consumer Affairs, the Board of Agriculture, and the Hawaii Health Systems Corporation.

Upon further consideration, your Committee has amended this measure by:

- (1) Adding a provision to specify that the Attorney General shall be responsible for collection of unpaid traffic fines, and allowing the department to retain a percent of the revenues collected; and
- (2) Making technical, non-substantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1106, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1106, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 348 Judiciary on S.B. No. 1108

The purpose of this bill is to allow a recordation in the Bureau of Conveyances of a judgement lien in favor of the State, to serve as notice of a lien on land which is owned by the debtor and registered in the Land Court.

Your Committee finds that existing law, with the exception of tax and child support liens, requires that a lien affecting real estate registered with the Land Court must be filed with the Office of Assistant Registrar to serve as notice to all affected persons. This bill would broaden the exception to allow a state judgment lien filed in the Bureau of Conveyances to concurrently attach to real estate registered in the Land Court. Your Committee further finds that allowing the State to file a judgment lien in only one place in order to attach to all real estate owned by a debtor, will provide for more effective recovery of moneys owed to the State by debtors who own Land Court registered property.

Testimony in support of this measure was submitted by the Attorney General.

Upon further consideration, your Committee has amended this measure by making technical, non-substantive changes.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1108, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1108, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 349 Judiciary on S.B. No. 1267

The purpose of this bill is to clarify that the Attorney General can recover treble damages in parens patriae actions on behalf of consumers who are indirect purchasers injured by illegal overcharges. In addition, this bill clarifies that the requirement of sixty days' delay between the entry of a consent decree in an antitrust case and its effective date, applies only to consent decrees entered into before any complaint has been filed.

Your Committee finds that treble damages are designed as an incentive for individuals to ferret out deception and bring legal action, to provide a remedy for those injured, to deter future seller misconduct, and to compensate consumers for injuries that the law of damages does not recognize or that the consumer, with only limited resources, is unable to prove at trial.

Your Committee further finds that despite the provisions of sections 480-13 and 480-14, Hawaii Revised Statutes, which clearly contemplate that the Attorney General may recover treble damages in parens patriae actions, several recent amendments to the antitrust statutes could be interpreted as ambiguous and thus prevent the attorney general from recovering such damages. After reviewing the legislative histories of sections 480-13 and 480-14, Hawaii Revised Statutes, your Committee agrees that it has always been the legislature's intent that the Attorney General be able to recover treble damages against sellers who overcharge in violation of the antitrust laws, when those overcharges are paid by consumers who are indirect purchasers.

Testimony in support of this measure was submitted by the Department of the Attorney General. The Department of Commerce and Consumer Affairs submitted comments on this measure.

Upon further consideration, your Committee has amended this measure by making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1267, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1267, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 350 (Joint/Majority) Judiciary and Commerce and Consumer Protection on S.B. No. 1345

The purpose of this bill, as received by your Committees, is to:

- (1) Amend the service retirement laws to correlate years on the bench with retirement benefits;
- (2) Increase judicial salaries as proposed by the 1998 report of the judicial salary commission;

- (3) Provide salary increases for the administrative director of the courts and the deputy administrative director of the courts as proposed in the commission's 1998 report; and
- (4) Link future judicial salary annual increases to the Honolulu Consumer Price Index.

Your Committees find that Hawaii's judges are significantly undercompensated. Hawaii is the only state in the nation that has not increased the salary of its judges during the last nine years. Your Committees note that since 1990, forty-four of the remaining forty-nine states have granted their judges three or more raises. In 1997 alone, twenty-nine states raised the salaries of their general trial court justices.

Your Committees further find that Hawaii's failure to adequately compensate its judges is adversely affecting the quality of justice. Insufficient compensation creates the risk that judges will leave the bench, thus depriving the public of the significant value of experienced jurists. Since 1992, ten seasoned and experienced judges have left Hawaii's bench due, in part, to the lack of adequate compensation. Your Committees note that in recent months, another two seasoned justices have announced their intention to leave the bench. Your Committees believe that these departures will continue until compensation is adjusted. Therefore, your Committees agree that an increase in judicial salaries is required in order to ensure that the most highly qualified individuals will be attracted to the state judiciary and will be able to serve and continue to serve without unreasonable economic hardship.

Testimony in support of this measure was submitted by: the Judiciary; the Hawaii Government Employees Association; the Hawaii Bar Association; the United Public Workers Union AFSCME, Local 646; Hawaii Women Lawyers; the American Judicature Society; the Consumer Lawyers of Hawaii; Common Cause; and 3 private attorneys. The Department of the Attorney General and the Employees' Retirement System also submitted comments on this measure.

Upon further consideration, your Committees have amended this measure by:

- (1) Changing the purpose section of the bill to reflect the amendments made to this measure;
- (2) Providing that any member who first earns creditable service as a judge after June 30, 1999, or who reenters service as a judge after June 30, 1999, without vested benefits, may retire after ten years of credited service and having attained age fifty-five;
- (3) Increasing judicial salaries by eighteen percent over two years;
- (4) Deleting salary increases for the administrative director of the courts and the deputy administrative director;
- (5) Deleting all provisions that link future judicial salary annual increases to the Honolulu Consumer Price Index;
- (6) Deleting reference to section 608-1.5, Hawaii Revised Statutes, that provides the Judicial Salary Commission shall determine the annual and periodic adjustments to judicial salaries;
- (7) Changing the effective date to July 1, 1999, and providing that the effective date will not affect the retirement of those judges who are current members or who are confirmed prior to the effective date; and
- (8) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Judiciary and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1345, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1345, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, 1 (Kanno). Excused, 5 (Bunda, Hanabusa, Sakamoto, Tanaka, Anderson).

SCRep. 351 Transportation and Intergovernmental Affairs on S.B. No. 348

The purpose of this measure is to permit counties to establish towing company fees within its jurisdiction.

This measure also repeals the drop-dead date of Act 138, Session Laws of Hawaii 1998, which would have repealed the current maximum allowable towing company fees and the credit card and automatic teller machine payment accommodations.

No testimony was received on this measure.

Your Committee finds that towing companies of the respective counties may be subject to different requirements and costs which are not allowed to be charged under current law. In particular, the county of Maui requires towing companies that are contracted to provide towing services to the county police to clean and clear the roadway of any debris, spills, or leaks. However, current law does not permit the towing companies to charge for this service. Your Committee finds that towing companies should be allowed to charge for this service when required pursuant to an agreement with the county.

Your Committee has amended this measure by deleting the provisions that allow counties to establish towing company fees and by allowing towing companies to charge up to \$25 for road clean-up when that service is a part of a towing services agreement with the county.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 348, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.B. No. 348, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Iwase, Taniguchi).

SCRep. 352 (Joint) Labor and Environment and Education and Technology on S.B. No. 173

The purpose of this measure is to provide a tax credit to employers participating in a School-to-Work (STW) program.

This measure also appropriates funds to the Department of Education (DOE) for the STW opportunities pilot project, including funds to extend the contracts for regional STW coordinators from ten months to twelve months.

Testimony in support of this measure was received from the DOE, the Department of Labor and Industrial Relations, the School-to-Work Executive Council, the Hawaii State Teachers Association, the Chamber of Commerce of Hawaii, Hawaiian Electric Company, and the Estate of James Campbell. The Department of Taxation testified in opposition to the measure and the Tax Foundation of Hawaii made comments on the measure.

Your Committees find that increasing the eight regional coordinator positions to twelve-month contracts will lead to better coordination of STW across the State. Working year-round also allows the coordinators to plan and implement summer projects with teachers and students, as well as plan for the following year.

However, your Committees find that it is imprudent to adversely impact the tax system with another tax credit, particularly since it is unclear that this credit will aid the STW program. Accordingly, your Committees have amended this measure to remove section 1 which provides for the tax credit for businesses.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 173, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 173, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Bunda, Chun Oakland, Matsunaga, Tam).

SCRep. 353 (Joint) Labor and Environment and Water, Land, and Hawaiian Affairs on S.B. No. 516

The purpose of this measure is to require the preparation of an environmental assessment for any land use actions that are subject to state or county permits.

Testimony in support of this measure was received from the Office of Environmental Quality Control, the Office of Hawaiian Affairs, the Environmental Center, Common Cause Hawaii, Hawaii's Thousand Friends, and the Sierra Club, Hawaii Chapter. Testimony in opposition to the measure was received from the Department of Water of the County of Kauai, the Department of Planning and Permitting, City and County of Honolulu, the Hawaii Agriculture Research Center, Land Use Research Foundation of Hawaii, Hawaiian Electric Company, Sprint PCS, and the Kamehameha Schools Bishop Estate.

Your Committees find that this measure attempts to close a loophole in the environmental review laws that allow land use actions which may have significant adverse environmental effects to escape the environmental review process under chapter 343, Hawaii Revised Statutes. Members of your Committees expressed concern that this measure places a burden on citizens and businesses that apply for a permit for a land use action that has minimal or no effect on the environment.

Your Committees have amended this measure by clarifying that land uses that have minimal or no significant effect are exempted from the requirements of this measure as provided for by rules of the Environmental Council under section 343-6(a)(7), Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 516, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 516, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Chumbley, Chun Oakland, Anderson, Slom).

SCRep. 354 (Joint) Labor and Environment and Health and Human Services on S.B. No. 798

The purpose of this measure is to clarify the jurisdiction of noise control between the Department of Health, the Convention Center Authority, and the counties.

Testimony in support of this measure was received from the Convention Center Authority, the Yacht Harbor Towers Board of Directors, and an individual.

Your Committees find that under this measure a permit issued by the Department of Health regarding noise shall prevail over any ordinance passed by a county. In particular, this measure clarifies the relationship between noise control permits issued by the Department of Health and county ordinances.

Your Committees have amended this measure to:

- (1) Include in the list of ordinances subject to preemption by DOH noise permits, those ordinances relating to entertainment or public events which may conflict with DOH noise permits; and
- (2) Clearly state that noise control for the convention center district shall be regulated only by the Department of Health.

Your Committees also made technical, nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 798, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 2 (Chumbley, Anderson).

SCRep. 355 (Joint) Labor and Environment, Economic Development, and Water, Land, and Hawaiian Affairs on S.B. No. 953

The purpose of this measure is to create the Hawaii Environmental Authority to develop and oversee the State's environmental protection policies.

This measure also distributes a portion of the transient accommodations tax (TAT) to the Environmental Special Fund.

Testimony in support of this measure with amendments was received from the Department of Land and Natural Resources, the Office of Hawaiian Affairs, the Hawaii Audubon Society, the Hawaii Green Party, the Sierra Club, Hawaii Chapter, the People's Water Conference, the Vegetarian Society, and two individuals. Testimony in support of the measure was also received from the Environmental Center, Na Leo Pohai, the Community Revitalization Coalition, Hawaii's Thousand Friends, Hawaii Fishermen's Foundation, and an individual.

Testimony in opposition to this measure was received from the Hawaii Tourism Authority and the Office of Information Practices.

Your Committees find that there is a clear and vital connection between the health of Hawaii's environment and the vitality of its economy. This is particularly true with respect to the economy's tourism sector. However, your Committees find that it is unwise at this point to redirect funds from the TAT that have been earmarked for the Hawaii Tourism Authority to the Hawaii Environmental Authority. Accordingly, your Committees have amended this measure to remove references to the TAT from the measure.

Your Committees also have amended this measure by:

- (1) Adding two new sections to prevent the amendments made to sections 36-27 and 36-30, Hawaii Revised Statutes, relating to special funds, from being repealed under Act 216, Session Laws of Hawaii 1997, and Act 142, Session Laws of Hawaii 1998; and
- (2) Making technical, nonsubstantive amendments to conform to statutory language.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Economic Development and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 953, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 953, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 13. Noes, none. Excused, 4 (Chumbley, Chun Oakland, Taniguchi, Anderson).

SCRep. 356 (Joint) Labor and Environment and Government Operations and Housing on S.B. No. 1153

The purpose of this measure is to exempt grants and subsidies from the employment and training fund (ETF) for employment, education, and training services from the requirements of chapter 103F, Hawaii Revised Statutes (HRS).

Your Committees received testimony in support of this measure from the DLIR and the State Procurement Office (SPO).

Current law exempts the employment and training fund from chapter 42F, HRS, relating to grants and subsidies. The exemption from chapter 103F, HRS, is needed because of DLIR's need to solicit proposals on a continuous basis without the potential delays associated with the procurement process. Moreover, chapter 103F, HRS, deals with the purchase of health and human services and the ETF projects extend beyond those areas.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1153 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 6 (Chun Oakland, Levin, Matsunaga, Tanaka, Anderson, Slom).

SCRep. 357 (Joint) Labor and Environment and Education and Technology on S.B. No. 1275

The purpose of this measure is to extend the civil service exemption to less than half-time Department of Education employees who supervise students during meal times, and distribute, collect, and count meal tickets, and to change "lunch" to "meal" to reflect that meal periods include breakfast.

Your Committees received testimony in support of this measure from the Department of Education.

Your Committees find that schools need a number of part-time personnel to assist the school at different times during the day. Given the varied meal schedules of public schools, it may not be feasible to have a full-time person. In addition, your Committees find that turnover in these positions is very high and flexibility in hiring is essential to make sure the positions are filled on a timely basis.

Your Committees are in support of this measure and have made technical amendments to reflect current statutory language.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1275, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1275, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Bunda, Chun Oakland, Matsunaga, Tam).

SCRep. 358 (Joint) Labor and Environment and Education and Technology on S.B. No. 1475

The purpose of this measure is to transfer the administration and supervision of the School-to-Work Opportunities Pilot Project (STW) from the Hawaii STW Executive Council (Council) to the Department of Education (DOE).

This measure also transfers the Council to an advisory council within the DOE.

Testimony supporting the intent of this measure was received from the DOE, the Department of Labor and Industrial Relations, the University of Hawaii, the Council, the Hawaii State Teachers Association, and an individual. The Chamber of Commerce of Hawaii commented on the measure.

Your Committees find that there is a need to ensure the successful continuation of STW beyond the life of the federal act which created the project. This measure provides an opportunity to assess the scope of STW and the roles and responsibilities of the Council. Since the STW concept relates education reform to economic and workforce development, this assessment must take place in this larger context. This measure provides a vehicle to facilitate this discussion.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1475 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Bunda, Chun Oakland, Matsunaga, Tam).

SCRep. 359 (Joint) Labor and Environment and Education and Technology on S.B. No. 1638

The purpose of this measure is to address inequity of pay for educational officers. The measure also establishes a classification system for educational officers.

Testimony supporting the intent of the measure with reservations was received from the Department of Education (DOE), the Hawaii Government Employees Association (HGEA), and the Principal of Solomon Elementary School.

Your Committees find that, as the testifiers on this measure pointed out, this measure does not resolve the pay inequity issues for educational officers. Your Committees are in agreement with the testifiers that the DOE and the exclusive representative for educational officers should review, study, and make recommendations to the Legislature regarding the educational officers concerns.

Your Committees have amended this measure by replacing the contents of the measure with language requiring the DOE and the exclusive representative for bargaining unit 6 to study the inequity of pay for educational officers. The DOE and exclusive representative shall also submit a report, including findings, recommendations, and any draft legislation to the legislature prior to the 2000 regular session.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1638, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1638, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Bunda, Chun Oakland, Matsunaga, Tam).

SCRep. 360 (Joint) Education and Technology and Labor and Environment on S.B. No. 106

The purpose of this measure is provide the School-to-Work (STW) Executive Council with the necessary guidance, direction, and operational framework to implement the School-to-Work Opportunities system.

This measure requires the STW Executive Council to establish, among other things, a clear mission statement, controls over expenditures, and methods of appraising outcomes, and to implement current laws relating to school-to-work work-based learning, workers' compensation coverage for children and students, and student safety at the premises of an employer.

Testimony supporting the intent of this measure was received from the STW Executive Council and the Department of Education. However, these testifiers determined that the central issue is the need to clarify the roles of the STW Executive Council and the Department of Education within the School-to-Work Opportunities system.

Your Committees find that the School-to-Work Opportunities system is an effective tool to provide Hawaii's students the opportunities needed to acquire real life work experience. However, the system has not been fully utilized and implemented because it lacks a clear mission, goals, assessment measures, and a general operational framework for implementation. Your Committees find that this measure will provide the STW Executive Council with the guidance, direction, and focus needed for full implementation and utilization of the School-to-Work Opportunities system.

Your Committees have amended this measure by making technical, nonsubstantive amendments to reflect current statutory language and to correct statutory references.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 106, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 106, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 2 (Bunda, Ige, M.).

SCRep. 361 (Joint) Education and Technology and Transportation and Intergovernmental Affairs on S.B. No. 673

The purpose of this measure is to ensure funding for the Hawaii National Guard Youth Challenge Program by requiring that the Department of Education transfer moneys to the Department of Defense to match additional federal funds and finance the operations of the Hawaii National Guard Youth Challenge Program.

Attending the hearing were all of the participants of the current class of the Hawaii National Guard Youth Challenge Program. Testimony in support of this measure was submitted by the Department of Defense, the Office of Youth Services, and the Parent Support Advisory Group of the Youth Challenge Program. Verbal testimony in support of this measure was given by a concerned individual. The Department of Education submitted testimony in support of the intent of this measure, but cited its problematic financial impact on other educational programs.

Your Committees find that the Hawaii National Guard Youth Challenge Program is an excellent program for helping "at risk" children learn the skills to create better lives for themselves. It is necessary that State funding continue for this valuable program.

Your Committees also find that the Department of Education would not be able to transfer the sums directed by this measure without causing a debilitating effect on other critically important programs that were included in the budget. Your Committees further find that a direct appropriation to the Department of Defense to finance the program for the 1999-2001 fiscal biennium will centralize

the program's budget and audit management within the Department of Defense and eliminate the Department of Education from the budgetary process. The Department of Defense is the lead agency in administering the Youth Challenge Program, and the Department of Education concurs with this proposal.

Accordingly, this measure was amended to delete the transfer of funds from the Department of Education to the Department of Defense, and to appropriate matching State funds directly to the Department of Defense to finance the operations of the Hawaii National Guard Youth Challenge Program. This measure was also amended to clarify the calculation of the amount the State must appropriate to match the federal funds.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 673, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 673, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Chumbley, Iwase, Matsunaga, Tam, Taniguchi).

SCRep. 362 Education and Technology on S.B. No. 826

The purpose of this measure is to prohibit persons, on the basis of their sex, from being discriminated against in any interscholastic, club, or intramural athletics offered by a public school.

Your Committee received testimony in support of this measure from the Hawai'i Civil Rights Commission, the Hawaii State Commission on the Status of Women, Gender Equity Sports Club, the Hawaii Congress of Parents, Teachers and Students, the Hawaii State Teachers Association, Hawaii Women Lawyers, and eight individuals. The Department of Education (DOE) submitted comments.

Your Committee finds that the DOE has been working on gender equity in sports, making a special effort to encourage female participation. For example, girls teams have been formed this school year for wrestling and golf, and the public school athletic leagues chose to form junior varsity girls' volleyball teams while the formation of boys' teams have been delayed due to funding limits. In addition, coaches' salaries and allocations for transportation, equipment, and supplies are evenly divided between boys' and girls' teams.

Your Committee further finds that as a result of these efforts, girls' participation in public high school sports has more than doubled in the last twenty years, while the number of boys participating has grown twenty percent. Your Committee believes, however, that there is still much to be done.

Your Committee has amended this bill to:

- (1) Delete the references to "bodily contact sport";
- (2) Authorize the Superintendent of Education and the Advisory Commission on Gender Equity in Sports, not the Civil Rights Commission, to determine the equal opportunities available;
- (3) Establish the Advisory Commission within the Department of Education, rather than the Department of Labor and Industrial Relations;
- (4) Clarify that consideration by the Civil Rights Commission of the failure to provide necessary funding for teams for one sex is for determination of violations under this Act;
- (5) Change the composition of the Advisory Commission from eleven to seven members, all to be appointed by the Superintendent;
- (6) Delete the July 1, 2000, completion date, and require the Superintendent rather than the Advisory Commission define equity in athletics for public schools;
- (7) Delete the subsection that would require the Board of Education to implement enforcement mechanisms;
- (8) Delete the penalties section; and
- (9) Change "public school" to "public high school" throughout this measure.

Your Committee believes that this measure, as amended, will provide a firm basis for achieving gender equity in public high school sports.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 826, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Bunda).

SCRep. 363 (Joint) Education and Technology and Judiciary on S.B. No. 1274

The purpose of this measure is to transfer the functions and authority relating to after hours security contracts at Department of Education facilities from the Department of Public Safety to the Department of Education.

Testimony in support of this measure was received from the Department of Public Safety and the Department of Education.

Your Committees find that the Department of Education is in a better position to manage and control the security contracts for their own facilities. By eliminating the necessity to involve the Department of Public Safety, the Department of Education will have improved accountability and management of their security services and be able to efficiently respond to their security needs.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1274 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 4 (Bunda, Ihara, Tanaka, Anderson).

SCRep. 364 (Joint/Majority) Education and Technology and Judiciary on S.B. No. 1313

The purpose of this bill, as received by your Committees, is to clarify provisions within existing law that provide immunity to government entities for claims arising out of, or relating to, year 2000 errors generated by a government computer system.

Your Committees find that year 2000 errors occur when a computer-based system inaccurately processes or stores data into, or between, the years 1999 and 2000 and beyond. Hawaii law presently limits the State's immunity from tort liability for year 2000 errors to errors that occurred prior to June 30, 1999. However, due to the interdependence of most government services upon computer-based technology, your Committees agree that the State's immunity for claims resulting from year 2000 errors should be extended for a limited period to allow the State and other government entities sufficient time to correct the problems. Your Committees further believe that this immunity should not be extended for errors resulting from gross negligence on the part of the defendant government entity, provided that a good faith effort was made by the government entity to correct the problem which caused the year 2000 error.

Testimony in support of this measure was submitted by the Attorney General, the Department of Accounting and General Services, the Department of Transportation, the University of Hawaii, Hawaii Health Systems Corporation, Hawaii Credit Union League, Hawaii Medical Service Association, and the Queen's Health Systems. Testimony in opposition to the measure was submitted by Small Business Hawaii.

Upon further consideration, your Committees have amended this measure by:

- (1) Inserting a provision that immunity shall be extended unless the error results from gross negligence on the part of the defendant government entity;
- (2) Inserting a provision that failure to fix an error after a good faith effort shall not constitute gross negligence;
- (3) Clarifying that an individual's immunity shall be based solely upon government errors;
- (4) Changing the repeal date of this Act to January 1, 2003; and
- (5) Making technical, nonsubstantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1313, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1313, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Slom). Excused, 4 (Bunda, Ihara, Tanaka, Anderson).

SCRep. 365 (Joint) Education and Technology, Economic Development, and Labor and Environment on S.B. No. 1583

The purpose of this measure is to foster and support the growth and development of high technology industries in Hawaii.

Specifically, this measure:

- (1) Consolidates the State's high technology agencies, divisions, and offices, under the coordination of a special advisor for technology development, and creates a governor's special advisory council for technology development to assist the advisor;
- (2) Offers tax incentives through technology training or job creation tax credits;
- (3) Offers a tax incentive for investments in qualified high technology businesses;
- (4) Establishes the Hawaii Internet Exchange to serve as a catalyst for the development of Internet focused businesses;
- (5) Focuses on work force development programs to ensure a pool of technology professionals; and
- (6) Accelerates high speed access to the internet for the University of Hawaii and the public schools.

Testimony in support of the intent of this measure was submitted by the University of Hawaii, the Department of Business, Economic Development, and Tourism, the Department of Taxation, the High Technology Development Corporation, and Transoceanic Navigation Company.

Your Committees strongly believe in the necessity of this measure. If Hawaii is truly going to overcome its economic hardships, and develop and diversify its economy, then the State must take full advantage of the advances of telecommunications, information technology, and the explosive growth of the Internet. This measure attempts to facilitate Hawaii's growth in high technology industries, and this progress will lead the State effectively into the twenty-first century.

Your Committees appreciate the testimony submitted and have amended this measure to conform with some suggestions from the University of Hawaii and the Department of Taxation by:

- (1) Deleting the references to "resident" in section six of this measure to better allow for interstate commerce;
- (2) Replacing, in sections 6 and 7 of this measure, the term "technology" with "qualified high technology business", and providing a more specific definition of this new term to prevent any possible compliance problems for taxpayers and administrative difficulties for the Department of Taxation; and
- (3) Establishing the Hawaii Internet Exchange within the University of Hawaii Information Technology Services as opposed to the Office of Technology Transfer and Economic Development.

Your Committees have further amended this measure to incorporate additional ideas which are essential to this measure's effectiveness. Your Committees have added new sections which:

- (1) Foster the development of information based industries to enhance Hawaii's tourism industry;
- (2) Establish a Hawaii Internet Tax Freedom Act, thereby prohibiting the imposition of income tax, general excise tax, or use tax on Internet electronic commerce for five years; and
- (3) Establish and provide funding for E Academy programs statewide, which are devoted to providing students with industry and academic standards-based instruction in technology, science, math, and engineering.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Economic Development and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1583, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1583, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 13. Noes, none. Excused, 4 (Bunda, Chun Oakland, Matsunaga, Tam).

SCRep. 366

(Joint) Labor and Environment and Judiciary on S.B. No. 895

The purpose of this measure is to appropriate money to the Judiciary to increase wage classifications of qualified technical personnel in declared shortage categories.

Your Committees received testimony in support of this measure from the Judiciary.

Your Committees find that in the past eighteen months the Judiciary has been actively recruiting to fill vacancies in the information technology support area, but five positions remain unfilled. In competing with other government entities, as well as the private sector, the Judiciary is currently the lowest paying government employer which places the Judiciary at a recruiting disadvantage.

Your Committees are supportive of the intent of this measure and believe it will bring the Judiciary in line with other agencies for salaries of information technology personnel. However, your Committees defer to the Committee on Ways and Means in setting the amount of the appropriation and have amended this measure by changing the dollar amount to zero.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 895, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 895, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Chun Oakland, Fukunaga, Ige, M., Sakamoto, Anderson).

SCRep. 367 Transportation and Intergovernmental Affairs on S.B. No. 17

The purpose of this measure is to reimburse the counties for amounts of general excise tax passed on to them by businesses.

Testimony in support of this measure was received from the Department of Budget of the City and County of Honolulu, Office of the Mayor, Maui County, County Council of Maui County, County Council of Hawaii County, and the Department of Finance of Hawaii County. The Department of Budget and Finance and the Tax Foundation of Hawaii submitted comments on this measure.

The Department of Taxation submitted testimony opposing this measure.

Your Committee finds that it is currently estimated that the counties pay approximately \$30 million a year in general excise taxes passed on to them by businesses. Your Committee recognizes the present fiscal situation in the counties, and believes that the legislature should assist the counties by alleviating the burden of the general excise tax.

Your Committee has amended this measure by deleting its contents and substituting more specific and substantial provisions that will allow each county to apply to the director of finance for a reimbursement of the general excise taxes passed on to the county by a business.

The amendments made by your Committee will allow the counties to apply on a semi-annual basis for a reimbursement of the general excise taxes paid. The counties are required to submit an itemized claim for the reimbursement that the director of finance may accept or may request proof to justify the claim. Section 237-31, Hawaii Revised Statutes, is amended to allow the director of finance to keep sufficient moneys collected under the general excise tax in special accounts to pay to the counties. This will work in the same manner as transient accommodations tax transfers to the county.

While your Committee realizes that the current fiscal situation in the counties requires state assistance, the State's fiscal situation does not allow the immediate full reimbursement of general excise taxes to the counties. Your Committee, therefore, has provided for a four-year phase-in of the reimbursements.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 17, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 368 Transportation and Intergovernmental Affairs on S.B. No. 658

The purpose of this measure is to redefine "drug" for purposes of the offense of driving under the influence of drugs to mean any chemical substance, natural or synthetic, that, when taken into the human body, can impair the ability of the person's normal mental faculties or ability to care for the person and guard against casualty.

This measure also provides that legal entitlement to use alcohol or any drug is not a defense to the offense of driving under the influence of drugs.

Testimony in support of this measure was received from the Department of Transportation, Governor's Highway Safety Council, Department of the Prosecuting Attorney of the City and County of Honolulu, Police Department of the City and County of Honolulu, Police Department of the County of Maui, and Mothers Against Drunk Driving.

Your Committee finds that persons may consume substances, other than the controlled substances listed on schedules I through IV of 329, Hawaii Revised Statutes, that impair their driving ability. A person under the influence of these other substances or drugs while driving a motor vehicle are at greater risk of becoming involved in a serious motor collision. The broader definition of "drug" provided in this measure will ensure that persons are penalized for using any chemical substance that impairs their ability to carefully and prudently operate a motor vehicle.

Your Committee further finds that persons may inadvertently mismanage their prescription drugs under the direction of their physicians. Persons, especially the elderly, who take prescription drugs as directed and proceed to drive may unknowingly commit the offense of driving under the influence of drugs.

Therefore, your Committee has amended this measure by:

- (1) Deleting the language in this measure providing that legal entitlement to use alcohol or any drug is not a defense; and
- (2) Making it an affirmative defense to the offense of driving under the influence of drugs if the person took the drug as directed and the person informed the prescribing authority of any other drugs being taken at the time the prescription was issued.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 658, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 658, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Iwase, Taniguchi).

SCRep. 369 (Joint) Transportation and Intergovernmental Affairs and Health and Human Services on S.B. No. 1385

The purpose of this measure is to require health care providers to notify the county police of a person involved in motor vehicle accident who is found to have a drug in his or her blood during the normal course of medical evaluation and treatment.

In order to make the notification, the health care provider must have a reasonable belief that the person was the driver of the motor vehicle involved in the collision.

Testimony in support of this measure was received from the Department of Transportation. Mothers Against Drunk Driving submitted testimony in support of the intent of this measure but indicated that this measure may be premature.

Your Committees find that although the law requiring health care providers to report alcohol impaired drivers to county police has only been in effect for two years, the law is effective and should be expanded to include drug impaired drivers. Your Committees find that this measure aligns the law relating to drug impaired drivers in parity with that of alcohol impaired drivers and will help in reducing the number of motor vehicle accidents caused by drug impaired drivers.

Your Committees have amended this measure by redefining "drug" in section 291-7, Hawaii Revised Statutes, to mean any chemical substance, natural or synthetic, that, when taken into the human body, can impair the ability of the person's normal mental faculties or ability to care for the person and guard against casualty. Your Committees have made technical, nonsubstantive changes to this measure.

As affirmed by the records of votes of the members of your Committees on Transportation and Intergovernmental Affairs and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1385, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1385, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 3 (Bunda, Taniguchi, Anderson).

SCRep. 370 Commerce and Consumer Protection on S.B. No. 215

The purpose of this measure is to require health insurance policies and workers' compensation insurance policies to reimburse for services of advanced practice registered nurses.

Testimony in support of this measure was presented by the Department of Health, Hawaii Medical Service Association, and Hawaii Nurses Association. Hawaii Nurse-Midwives and seven private citizens, though not present, submitted written testimony in support of the measure. The Hawaii Medical Association, though not present, submitted written testimony in opposition. Kaiser Permanente, though not present, submitted written informational testimony.

Your Committee finds that advanced practice registered nurses are required to be certified and must meet high professional standards for that purpose. They are trained and competent health care professionals who render a much needed medical service. As such, your Committee believes that their services, like any other health care provider's services, should be reimbursed by insurance.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 215 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 371 Commerce and Consumer Protection on S.B. No. 1136

The purpose of this measure is to abolish the Board of Osteopathic Examiners and transfer its functions to the Board of Medical Examiners.

The measure also adds an osteopath to the Board of Medical Examiners to ensure osteopathic representation is provided.

Testimony in support of the measure was received from the Director of Commerce and Consumer Affairs and the Auditor.

The Board of Osteopathic Examiners testified in opposition to the measure.

Your Committee finds that a sunset review of the Board of Osteopathic Examiners was conducted by the Auditor in 1992. As a result of that review, the Auditor essentially recommended what is contained in the measure, citing:

- (1) Minimal activity of the Board of Osteopathic Examiners;
- (2) The growing similarity between professions; and
- (3) That twenty-one other states (at the time of the sunset review in 1992) had a single medical board that regulated both professions.

Your Committee believes that the measure is consistent with the Legislature's recent efforts to streamline government and will not adversely affect the welfare of the general public.

Your Committee has amended the measure by increasing the proposed number of osteopaths to be appointed to the Board of Medical Examiners from one to two and by making a technical, nonsubstantive amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1136, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 372 Commerce and Consumer Protection on S.B. No. 1137

The purpose of this measure is to extend medical insurance benefit coverage to unmarried children of employee-beneficiaries of the Public Employees' Health Fund who are less than twenty-four years of age and who are full-time students.

Testimony in qualified support of the measure was received from the Department of Budget and Finance. The Public Employees' Health Fund submitted comments on the measure.

Your Committee finds that the medical insurance plan currently offered by the Public Employees' Health Fund is not competitive with similar plans offered by other employee organizations. Consequently, public employees who have the opportunity to subscribe to better valued medical insurance plans for themselves and their children often do so. This exodus from the Public Employees' Health Fund has left its demographic membership with an inordinately high percentage of older participants who, by nature, require more costly medical care. This higher cost for medical care translates to higher costs for the Health Fund and derivatively to participating members and public employers. Your Committee believes that by providing a competitive medical insurance plan to members, the Health fund will be able to attract younger participants, thereby reducing demographic inequity and lowering costs.

Your Committee also finds that providing health insurance to unmarried children of employee-beneficiaries of the Public Employees' Health Fund who are less than twenty-four years of age and who are full-time students will assist many families by ensuring that reasonably priced medical insurance coverage is available for their children who are attending college.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1137 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 373 Commerce and Consumer Protection on S.B. No. 1326

The purpose of this measure is to facilitate lending from sources outside of the State by eliminating certain registration and licensing requirements for foreign lenders.

The Commissioner of Financial Institutions (Commissioner) presented testimony in favor of the measure.

Currently, foreign lenders operating in this State who seek an exemption from the requirements of the Code of Financial Institutions, the Insurance Code, the Hawaii Business Corporation Act, and the laws relating to income tax, general excise tax, and the

tax on banks and financial corporations, are required to file a statement with the Commissioner and pay an annual registration fee. These lenders are also subject to licensing and registration requirements for mortgage brokers and solicitors and real estate collection servicing agents.

This measure repeals the filing and fee requirements and exempts qualified foreign lenders from the professional and vocational licensing and registration requirements. Your Committee finds that this measure will encourage and promote lending from sources outside the State by reducing the time, expense, and administrative work foreign lenders must undertake in order to operate in this State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1326 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ihara, Inouye, Matsuura).

SCRep. 374 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 1544

The purpose of this measure is to provide deputy sheriffs of the Department of Public Safety with the same retirement benefits as firefighters and police officers.

Specifically, the measure places deputy sheriffs of the Department of Public Safety in the special contributory class of the Employees Retirement System which requires the member to pay twelve and two-tenths percent of their earnings to the System, in addition to the Social Security and Medicare deductions, for the following enhanced benefits:

- (1) A two and one-half percent per year pension accrual rate;
- (2) The ability to retire prior to age fifty-five without having their pensions actuarially reduced; provided that they have at least twenty-five years of service in that capacity;

This benefit option would only be provided to existing qualified deputy sheriffs. Any deputy sheriff hired after the effective date of the Act would be a Class C noncontributory member.

Testimony in support of the measure was received from the Department of Public Safety, the Hawaii Government Employees Association, and a deputy sheriff. The Employees Retirement System submitted comments on the measure.

During its deliberations, your Committees found that conflicting views were presented as to whether Class C noncontributory deputy sheriffs actually wanted to convert their Employees Retirement System membership over to Class A contributory membership.

To alleviate any dispute over this issue, your Committees have decided to amend the measure by deleting the majority of the proposed amendments and retaining only the amendment that allows deputy sheriffs to retire without penalty after twenty-five years of service in that capacity.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1544, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1544, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 5 (Bunda, Hanabusa, Sakamoto, Tanaka, Anderson).

SCRep. 375 Commerce and Consumer Protection on S.B. No. 364

The purpose of this measure is to include within the general excise tax exemption for insurance companies' gross proceeds those proceeds received by a corporate attorney-in-fact in connection with administrative functions performed on behalf of a reciprocal insurer.

Testimony was presented at the hearing in support of this measure by a representative of the Hawaii Captive Insurance Council and the Medical Insurance Exchange of California. Though not present at the hearing, the Hawaii Medical Association submitted written testimony in support of this measure.

At the hearing, a representative of the Department of Taxation testified in opposition to the measure, and the Insurance Commissioner presented comments on the measure.

Your Committee finds that, by their nature, reciprocal insurers must utilize an attorney-in-fact to provide for administrative functions for its insured subscribers. The imposition of an excise tax on the business which a reciprocal insurer's attorney-in-fact must perform has the potential to discourage captive insurance companies formed as reciprocal insurers from organizing and operating their attorney-in-fact in Hawaii.

Your Committee finds, however, that it is imprudent to provide a retroactive effective date in this measure. Your Committee has amended this measure by changing the effective date to any taxable year ending after July 1, 1999 and making other conforming amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 364, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 364, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 376 Commerce and Consumer Protection on S.B. No. 485

The purpose of this measure is to entitle certain recipients of public assistance medical services benefits and recipients of Social Security Disability Insurance benefits to free motor vehicle insurance coverage under the joint underwriting plan.

The Department of Human Services presented testimony in support of this measure and proposed amendments to the measure. An individual presented testimony in support of the measure. Two individuals, though not present, submitted written testimony in support of the measure. The Insurance Commissioner presented comments on the measure. State Farm Insurance presented testimony in opposition to the measure.

Your Committee finds that, in 1994, recipients of public assistance in the form of medical services were disqualified from receiving free motor vehicle insurance coverage pursuant to Act 225, Session Laws of Hawaii (SLH), 1994. This measure would re-establish coverage to those individuals affected by Act 225, SLH, 1994, and who also currently receive public assistance medical services.

Your Committee has amended this measure by describing the class of drivers entitled to receive no-cost motor vehicle insurance coverage on the basis of the receipt of public assistance in the form of medical services as those drivers who are currently receiving the benefits and who received the benefits prior to July 1, 1994. Your Committee has also removed a reference to recipients of Social Security Disability Insurance benefits.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 485, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 485, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 377 Commerce and Consumer Protection on S.B. No. 613

The purpose of this measure is to create a statewide licensure mechanism for retail tobacco sales that provides for licensing retail tobacco vendors, inspections and enforcement, adjudication of fines and penalties, training and education for retail merchants, and public awareness of the State's law governing the sale of tobacco to minors.

The Coalition for a Tobacco Free Hawaii and Legislative Information Services of Hawaii, while not present, submitted written testimony in support of the intent of the measure, with recommendations for amendments.

One of the Healthy Hawai'i Year 2000 objectives is to reduce tobacco use among youth so that no more than fifteen percent are smoking by age eighteen. This is a tremendous challenge, since the 1997 Hawai'i Youth Risk Behavior Survey conducted by the Department of Education found that thirty-four percent of twelfth graders and nearly twenty-seven percent of ninth graders are regular smokers.

Reducing youth access to tobacco products is an instrumental component in reducing youth tobacco use, and compliance by merchants is of utmost importance. This measure addresses a critical health issue for Hawaii's young people, their families, and the public in general.

Your Committee has amended this measure to delete the appropriations sections, and to make technical amendments to conform to the language of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 613, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 378 Commerce and Consumer Protection on S.B. No. 778

The purpose of this measure is to establish enhanced 911 service for mobile phones.

The Police Department of the City and County of Honolulu and Honolulu Cellular Telephone Company presented testimony in support of this measure. The Department of Health and GTE presented supportive testimony and recommended amendments. The Police Department of the County of Kauai and VoiceStream Wireless, while not present, submitted testimony in support of the measure. The Consumer Advocate presented testimony in opposition. The Office of Information Practices submitted written comments.

Your Committee finds that wireless telephone service and its usage have become fairly common in Hawaii. In recognition of the public service and safety benefits, wireless carriers allow their customers to make 911 calls without any airtime charges and many wireless users take advantage of this service.

However, unlike landline telephone networks with enhanced 911 systems that provide the location and telephone number of the caller, wireless calls to 911 currently do not have that capability. For these calls, the emergency dispatchers must rely solely on the information provided by the caller in order to respond to and treat life-threatening situations.

Passage of this measure will provide significant benefits to both the wireless phone user and to emergency police, fire, and ambulance service personnel who must respond in the timeliest manner possible.

Your Committee has amended this measure to make technical, nonsubstantive amendments to reflect the preferred style of drafting.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 778, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 778, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 379 Commerce and Consumer Protection on S.B. No. 947

The purpose of this measure is to create a new chapter in the Hawaii Revised Statutes to regulate telemarketing activity in the State.

This measure creates the Telemarketing Fraud Prevention Act (TFPA) which:

- (1) Provides that a seller or telephone solicitor that makes false representations or is abusive commits an unfair deceptive act or practice;
- (2) Requires licensing and registration of persons who engage in telemarketing in this State;
- (3) Exempts certain persons, entities, and activities from being subject to the TFPA;
- (4) Deems voidable contracts or agreements made as a result of telemarketing activity that violates the TFPA.

Testimony in support of the intent of this measure was presented by the Department of the Prosecuting Attorney of the City and County of Honolulu. Testimony supporting this measure with suggested amendments was received from the Office of Consumer Protection, the Police Department of the City and County of Honolulu, AT&T, AARP, GTE, and Hawaii Financial Services Association.

The Legislative Information Services of Hawaii presented testimony in opposition.

Your Committee finds that telemarketing fraud is an insidious crime that often aggressively preys on the elderly. Telemarketers commonly employ abusive, misleading, and/or high pressure tactics in order to manipulate victims into giving the telemarketers money in exchange for worthless or non-existent goods or services. This measure, in conjunction with federal law, will aid in deterring further acts of telemarketing abuse and fraud.

Your Committee has amended this measure by:

- (1) Deleting the definition of "communication" as it is not referenced in the measure;
- (2) Defining "payment" to mean anything of value, including any interest, benefit, privilege, claim or right with respect to anything of value, whether real or personal, tangible or intangible;
- (3) Clarifying that material information must be disclosed by the seller or telephone solicitor prior to receiving payment from the consumer;

- (4) Allowing sellers and telephone solicitors to request or accept payment without first receiving the consumer's express verifiable authorization if they adopt the following policies: (A) a seven-day consumer inspection period; (B) processing of full refund within thirty days; and (C) disclosure of refund policies orally and in writing;
- (5) Prohibiting credit repair businesses from requesting fees until the time frame in which the business promised results has expired and the consumer is provided with documentation that the credit was repaired as promised;
- (6) Increasing the number of telephone rings that constitute abusive conduct from five to ten rings;
- (7) Deleting the broad language describing abusive conduct as any other conduct that would be considered abusive to any reasonable consumer;
- (8) Deleting the provisions requiring licensing and registration of persons engaged in telemarketing activity because the Office of Consumer Protection lacks the resources to process and maintain the licenses and registrations;
- (9) Requiring telephone solicitors to keep true and accurate records of all telemarketing activities in this State or directed to consumers located in this State;
- (10) Requiring that the records be made available to the authorized government agencies for inspection, be retained for a period of two years after the date of any telephone call, and include certain information on the telephone solicitor and its employees, including any fictitious names used, sales and marketing materials, product information on health, nutritional, or diet related goods, procedures, and certain consumer records;
- (11) Exempting from the recordkeeping requirements of this measure, those telemarketing activities that are regulated by the public utilities commission or the federal communications commission;
- (12) Making the commission of an unfair deceptive or abusive telemarketing act or practice and noncompliance with the recordkeeping requirements a class B felony in order to provide for further deterrents against and penalties for such acts; and
- (13) Making technical, nonsubstantive amendments for purposes of clarity and preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 947, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 947, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 380 Commerce and Consumer Protection on S.B. No. 1128

The purpose of this measure is to strengthen the enforcement of the insurance laws, facilitate the ability of mutual benefit society members and health maintenance organization (HMO) enrollees to understand their health insurance policies and contracts, and clarify the law applicable to the licensing of fraternal benefit society agents.

The Insurance Commissioner presented testimony in support of this measure. The Hawaii Medical Services Association presented testimony in support of the measure and proposed an amendment to its effective date.

Your Committee finds that the current range of fines for violations of the insurance laws are too low to be an effective deterrent against unlicensed activity and other illegal acts. Increasing the fines from a range of \$10 to \$1,000 per violation to a range of \$100 to \$10,000 per violation will enable the Insurance Division to impose a fine appropriate to the seriousness of the violation that will hopefully deter against future violations.

Your Committee further finds that there is no justification for holding mutual benefit societies and HMOs to standards different than those applicable to insurers under chapter 431, Hawaii Revised Statutes (HRS), with respect to the readability of insurance contracts. For instance, section 431:10-105(a), HRS, requires every insurer to utilize the Flesch reading ease test to determine the readability of any contract. Imposing this and other contract readability requirements established under the Insurance Code on mutual benefit societies and HMOs will assist their members and enrollees in better understanding the extent and specifics of their health insurance coverage and benefits.

Your Committee also finds that fraternal benefit society agents who are currently licensed as solicitors have been confused as to whether the current insurance laws permit them to obtain other types of insurance licenses. Your Committee believes that the recodification of Hawaii's insurance laws may have contributed to the confusion and further believes that this measure will clarify that fraternal benefit society agents licensed as solicitors may obtain other types of insurance licenses.

Your Committee is mindful that if the proposed amendments to the health care coverage disclosure provisions are enacted, mutual benefit societies and HMOs will require additional time to come into compliance with the law. Accordingly, your Committee has amended this measure by changing the effective dates for sections 2 and 4 to January 1, 2000. Your Committee has also made technical, nonsubstantive amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1128, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 381 Commerce and Consumer Protection on S.B. No. 1131

The purpose of this measure is to increase mandatory insurer contributions to the Insurance Examiners Revolving Fund (IERF) and to remove the sunset date of the fund.

The Insurance Commissioner presented testimony in support of this measure.

Your Committee finds that pursuant to Act 116, Session Laws of Hawaii 1998, four general fund positions were transferred to the IERF. This measure would allow the Insurance Division to collect fees to meet the added expenses of these four positions.

Your Committee further finds that it is necessary to remove the sunset date of the IERF in order to assist the Division's effort in becoming independent of general funding.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 382 Commerce and Consumer Protection on S.B. No. 1133

The purpose of this measure is to allow the Insurance Commissioner to hire staff attorneys who are exempt from civil service.

The Insurance Commissioner presented testimony in support of this measure.

The Insurance Division is in the process of establishing a legal section. Without this measure, those attorneys would become civil service employees, according to state personnel policy. The measure would give the Insurance Commissioner flexibility to hire attorneys with insurance expertise. Moreover, there are no other civil service attorneys in the Executive Branch.

This measure would give the Insurance Commissioner flexibility to hire and retain attorneys with insurance expertise conforming these positions with state government policy.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1133 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 383 Commerce and Consumer Protection on S.B. No. 1279

The purpose of this measure is to ensure the viability of universal telecommunications service in the State by precluding the use of moneys in the Universal Service Fund (Fund) for purposes other than those related to the provision of universal telecommunications service.

The Public Utilities Commission (PUC) presented testimony in support of the measure. The Consumer Advocate, Oceanic Communications, AT&T, GTE, TelHawaii, Inc., GST Telecom Hawaii, and the AARP State Legislative Committee, though not present at the hearing, submitted written testimony in support of the measure.

Your Committee finds that the principles of the Universal Service Program are:

- (1) To maintain affordable, just, and reasonable rates for basic residential telecommunications service; and
- (2) To assist individuals or entities who cannot afford to or who need assistance in obtaining or maintaining basic services or equipment.

The Universal Service Fund was created to cover the costs of the program's activities. This measure ensures that the moneys in the Fund will be available to meet the goals of universal service and will not be diverted for other purposes or applied towards administrative expenses.

Your Committee has amended this measure by:

- (1) Authorizing the PUC to temporarily borrow funds from the Public Utilities Special Fund to start the Fund and to repay the amounts borrowed when sufficient moneys are collected in the Fund;
- (2) Appropriating \$300,000, from the Public Utilities Special Fund for fiscal year 1999-2000, to carry out the purposes of the Universal Service Program; and
- (3) Adding two new sections to prevent the actions taken in this measure that amend sections 36-27 and 36-39, Hawaii Revised Statutes, from being repealed under Act 216, Session Laws of Hawaii 1997 and Act 142, Session Laws of Hawaii 1998.

Your Committee intends that the dollar amount inserted into the appropriation provision is an approximation only and that this amount should be further reviewed by the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1279, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1279, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Matsuura).

SCRep. 384 Commerce and Consumer Protection on S.B. No. 1472

The purpose of this measure is to require the forfeiture of certain trade property belonging to unlicensed contractors.

Testimony in support of this measure was presented by the Department of Commerce and Consumer Affairs (DCCA), Subcontractors Association of Hawaii and Hidano Construction, Inc. Hawaii Woodcrafts, Inc., Maui Construction Association, Jas. W. Glover, Ltd., Building Industry Association of Hawaii, Contractors Association of Kauai, S & M Sakamoto Inc., CC Engineering & Construction, Inc., G.S. Onaga General Contractor, Inc., and Armstrong Builders, Ltd., though not present, submitted written testimony in support of the measure. Oral testimony in opposition was presented by the Attorney General.

Your Committee finds that unlicensed contracting continues to be a problem in Hawaii for consumers, and believes that this measure provides an effective enforcement tool against unlicensed contractors. Seizure and subsequent forfeiture of tools would render the unlicensed contractor incapable of continuing to operate to the detriment of the public.

Your Committee has amended this measure on the recommendation of the DCCA to delete references to the Attorney General and to require that forfeiture proceeds be deposited into the compliance resolution special fund under the DCCA. Your Committee has also made a technical, nonsubstantive amendment to insert a missing word.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1472, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Hanabusa).

SCRep. 385 (Joint) Education and Technology and Health and Human Services on S.B. No. 191

The purpose of this measure is to require the University of Hawaii to develop standards to measure child development outcomes and to make an appropriation to the University for purchase of health and human services contracts.

Your Committees received testimony in support of this measure from the Department of Education, the Department of Health, the University of Hawaii, the Office of the Governor, and Hawaii Kids Count.

Your Committees find that the most efficient way to achieve desired outcomes is through timely and appropriate feedback on the progress being made toward the goals. This measure would provide a common framework and data collection and reporting mechanisms that currently are not available.

Your Committees believe the information generated as a result of this measure will provide a valuable resource for the individuals and agencies working to improve the lives of Hawaii's children and youth.

Your Committees have amended this measure to include the Department of Human Services in section one of this measure, at the request of the Department of Health. Your Committees have further amended this measure allow greater flexibility to the University of Hawaii in regard to the implementation of the appropriation section.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 191, as amended

herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 191, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Matsunaga, Tam, Anderson).

SCRep. 386 (Joint) Education and Technology and Water, Land, and Hawaiian Affairs on S.B. No. 456

The purpose of this measure is to provide tuition waivers to students of Hawaiian ancestry to attend the University of Hawaii.

Specifically, the measure requires the University of Hawaii to provide tuition waivers, which are in addition to any tuition waivers already granted, to students of Hawaiian ancestry who are:

- (1) Financially needy; and
- (2) Enrolled in graduate or undergraduate courses within the university system for the purpose of obtaining a degree; or
- (3) Participating in student recruitment programs within the university system.

Testimony in support of the measure was received from the Office of Hawaiian Affairs, the University of Hawaii's Center for Hawaiian Studies, the Oahu Council of the Association of Hawaiian Civic Clubs, the Ilio'ulaokalani Coalition, Kuikalahiki Hawaiian Student Organization, Kalai Po Native Hawaiian Student Organization, the Associated Students of the University of Hawaii, and a number of concerned citizens and college students.

The University of Hawaii's Vice President for Student Affairs testified that the University supported the intent of the measure but felt that its purpose conflicted with that of Act 161, Session Laws of Hawaii 1995, which granted autonomy to the University of Hawaii in these matters. The Vice President for Student Affairs also testified that currently, approximately nine hundred students of Hawaiian ancestry are granted full or partial tuition waivers based on their ancestry and financial need.

Your Committees find that under section 5(f) of the Admission Act, the public land trust and the revenues derived therefrom may be used for the support of public schools and other public educational institutions. Because the University of Hawaii is indeed a public educational institution, it is compliant with the purpose of section 5(f) of the Admission Act. While much of the supporting testimony indicated that these tuition waivers should be considered as an entitlement since the University of Hawaii at Manoa is situated on ceded lands, it is the contention of your Committees that the University is not obligated to grant tuition waivers to Native Hawaiians because of its fulfillment of the educational purpose of section 5(f) of the Admission Act.

However, your Committees recognize the duty of the State to provide increased opportunities and access to higher education for native Hawaiians. Your Committees find that increased educational opportunities would create positive role models for young Hawaiians, and allow for greater advancement for native Hawaiians as a whole.

Your Committees further find that another purpose of section 5(f) of the Admission Act is to provide for the betterment of the conditions of native Hawaiians. Thus, your Committees believe that while the University is not obligated to provide tuition waivers solely because it is located on ceded lands, the provision of these waivers would fall under another purpose of section 5(f) of the Admission Act. As such, your Committees believe that any money appropriated or allocated for the purposes of providing tuition waivers for native Hawaiian students should be credited against the State's pro rata share of ceded land revenue obligations.

Your Committees are also aware of the provisions of Article XII, section 6, of the Constitution of the State of Hawaii which requires the State to "...manage and administer the proceeds from the sale or disposition of the lands, natural resources, minerals and income derived from whatever sources for native Hawaiians and Hawaiians, including all income and proceeds from that pro rata portion of the trust referred to in section 4 of this article for native Hawaiians;..." (emphasis added). Your Committees interpret this provision to mean that any ceded land revenues for which the State seeks to claim credit in satisfaction of the pro rata share of revenue obligation first would have to either be allocated to the Office of Hawaiian Affairs prior to disbursement for the qualifying purpose, or be mutually agreed upon by the State and the Office of Hawaiian Affairs as a creditable expenditure of a pro rata share of ceded land revenues by the State.

In light of these concerns, your Committees have amended the measure by deleting its substance and inserting provisions that:

- (1) Appropriate funds to the Office of Hawaiian Affairs for the specific purpose of offsetting the costs incurred by the University of Hawaii in providing tuition waivers to students of Hawaiian ancestry;
- (2) Declare that any moneys expended for the purpose of providing tuition waivers to students of Hawaiian ancestry shall be credited against the State's pro rata share of ceded land revenue obligation to the Office of Hawaiian Affairs; and
- (3) Establish an accounting process to effectuate the intent of the measure.

Your Committees further amended this measure to delete the "financially needy" provision as a requirement for tuition waivers. Your Committees believe that all native Hawaiian students should be eligible for tuition waivers regardless of their financial status.

Your Committees believe that the funding mechanism provided in the measure should:

- (1) Provide students of Hawaiian ancestry with the resources to obtain a post secondary education;
- (2) Fulfill at least in part, the State's obligation to use a portion of ceded land revenues for the purposes stated under the Admission Act, Article XII, Section 6, of the State Constitution, and Chapter 10, Hawaii Revised Statutes; and
- (3) Ensure that the University of Hawaii possesses the necessary financial resources to educate students of Hawaiian ancestry who receive tuition waivers.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Water, Land, and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 456, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 456, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 4 (Chumbley, Matsunaga, Tam, Anderson).

SCRep. 387 (Joint) Education and Technology and Health and Human Services on S.B. No. 743

The purpose of this measure is to appropriate funds to convert Linapuni school to an early childhood development and education center for infants and children up to four years of age.

Your Committees received testimony in opposition to this measure from the Department of Education, Linapuni School, Good Beginnings Alliance, the Hawaii Association for the Education of Young Children, KCAA Pre-Schools of Hawaii, Hawaii State Teachers Association, Information Services, and four individuals.

Your Committees find that all those who testified strongly supported more facilities for early childhood education, but felt that Linapuni School was an exemplary model of an elementary school for kindergarten through grade two. Your Committees further find that the intent of this measure could be accomplished by developing a new early childhood education center, with the support of the many partnerships already formed at Linapuni School.

Your Committees have amended this measure accordingly to delete all references to Linapuni School, and instead authorize development of an early childhood development and education center for infants and children up to four years of age in the Kalihi area of Honolulu. In developing this center, the department of education shall draw on the partnerships already developed between Farrington high school, the University of Hawai'i college of education, VISTA tutors, partners from the community, private businesses, organizations, foundations, and parents.

As affirmed by the records of votes of the members of your Committees on Education and Technology and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 743, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 743, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Matsunaga, Tam, Anderson).

SCRep. 388 Government Operations and Housing on S.B. No. 36

The purpose of this measure is to enable condominium associations to recover delinquent maintenance fees.

More specifically, this measure allows condominium associations to collect up to six months of delinquent maintenance fees, terminate common privileges, including utilities, and collect rent from a tenant up to the amount of delinquency. In the case of utilities a vote of a majority of those attending an annual or special meeting of the association, in person or by proxy is required. This measure also provides for timely transfer of title from a foreclosure in order to prevent a condominium owner from receiving common privileges, yet avoiding having to pay maintenance fees.

Testimony in support of this measure was received from the Real Estate Commission, Hawaii Association of Realtors, Hawaii Council of Associations of Apartment Owners, Hawaii Independent Condominium and Cooperative Owners, Hawaiiana Management Company, Ltd., Community Associations Institute, Association of Apartment Owners for Makakilo Hale 1, five residents of The Mauna Luan, and fourteen individuals. Testimony in favor only of the section of the measure that would enable associations to obtain timely payment of fees from the mortgagee-owners was received from the Department of Commerce and Consumer Affairs. Testimony in favor of this measure with amendments was received from two individuals. Testimony opposed to this measure was received from the Mortgage Bankers Association. Oral testimony was received from the Association of Apartment Owners for Marco Polo.

I. Collecting Unpaid Maintenance Fees

Your Committee finds that currently, condominium owners have no means of collecting delinquent maintenance fees, particularly once an apartment is sold in foreclosure. As a result, delinquent owners are receiving benefits, such as common utilities, security, building maintenance, and recreational facilities without paying for them. Non-delinquent owners in the association carry the burden of maintaining the condominium association's budget. Your Committee, therefore, finds that the condominium association should be entitled to terminate common benefits for nonpayment.

Your Committee finds that once a condominium goes into foreclosure, condominium associations have difficulty collecting delinquent maintenance fees which increase due to the fact lenders purposely delay recording the deed until a sale is confirmed. This measure proposes a reasonable time limit for transferring the condominium to the purchaser in foreclosure in which liability for common expenses will begin to accrue to the new owner.

The measure requires the purchaser or mortgagee of record to begin paying maintenance fees when the sale is confirmed. Your Committee finds that occasionally, a delinquent owner is not paying maintenance fees to the association but the owner is still collecting rent from a tenant. This measure will allow the association to demand the rent from the tenant to pay the maintenance fees.

Your Committee recognizes the concerns of some of the Committee members that this measure appears to interfere with the contract between an owner and tenant. However, your Committee finds that when the owner took title to the condominium, the owner simultaneously agreed to abide by and be governed by the condominium board's rules and regulations, including the payment of maintenance fees.

II. Six Month Priority Lien

Your Committee has amended this measure by incorporating the provision from S.B. No. 641 and S.B. No. 701 allowing a six month priority lien on a foreclosed condominium, which results in the condominium association collecting six months of maintenance fees.

Your Committee finds that currently, state law allows condominium associations a lien for unpaid maintenance fees. However, since many condominiums are valued at less than their mortgages, and since mortgages have priority over the associations' claim, associations usually receive no money from the proceeds of the sale of foreclosed unit. This amendment will allow for a six month priority lien that will allow condominium associations to collect delinquent maintenance fees.

Your Committee finds that the banking industry is under the impression that a six month priority lien will chill the secondary mortgage market. However, your Committee finds that 15 jurisdictions that contain a priority lien in their statutes have not had a negative impact on the secondary mortgage markets.

In order to give the Housing and Community Development Corporation of Hawaii time to negotiate with the bond buyers of the Hula Mae bond program, the six month priority lien provision will not take effect until July 1, 2000.

III. Condominium Reserves

Your Committee also has amended this measure to incorporate provisions from S.B. No. 372 and S.B. No. 642 to allow the deposit of condominium reserves in out-of-state financial institutions and credit unions.

Your Committee finds that currently, condominium associations are required to deposit their funds in a financial institution in the State. However, there is an inadequate number of financial institutions in the State in which condominium associations may legally deposit their funds. Due to the \$100,000 federal insurance limit on accounts, many associations have uninsured moneys deposited in financial institutions in Hawaii, which may cause a breach of their fiduciary duty to the condominium owners.

Your Committee finds that allowing condominium associations to deposit funds in out-of-state financial institutions and credit unions will expand investment opportunities as well as provide protection to the condominium associations' reserve funds.

Your Committee encourages both the banking industry and condominium associations to continue the dialogue regarding the issues in this measure and to make recommendations to the Legislature.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 36, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 389

Government Operations and Housing on S.B. No. 105

The purpose of this measure is to streamline and improve the delivery of government services by restructuring state government.

More specifically, this measure will create an advisory commission on government restructuring to develop appropriate policies for restructuring and provide for a comprehensive implementation strategy to be utilized in the review of the departments and offices of the executive branch of state government.

Testimony in support of this measure was received from the Boat Owners Association of the State of Hawaii. Testimony opposed to this measure was received from United Public Workers AFSCME Local 646 AFL-CIO.

Your Committee finds that there continues to be a need to eliminate the duplication of government services and also a need for government agencies to adapt to the ever-changing needs and demands of the public they serve. Your Committee finds that in order to achieve improved government efficiency and productivity, restructuring of the government must take place.

Your Committee finds that studies to improve the responsiveness and efficiency of state government have been conducted, including the 1996 study conducted by the governor, entitled, "Restructuring State Government Services," and reports ranging from 1974 and 1977 from the commission on organization of government ("CORE"), to the 1993 report of the interim commission on government redesign, all of which supported the need to redesign the delivery of state government services. Your Committee finds that these studies need to be re-visited in order to determine the best means to increase government productivity and realize savings.

Your Committee finds that this measure will enable the structure of our State government to be researched and analyzed thoroughly. This will enable the public to actively contribute to the reorganization and evaluation of our government's organization. Consequently, the public will have an improved understanding of the organization and employees that compile the State agencies and departments. Government employees will benefit from this measure through improved efficiency which in return will lower their anxiety and increase productivity.

Your Committee finds that this measure addresses the State's economic stagnation by enabling state government to enhance its productivity and to fill the budget gap with the resultant savings. This measure encourages re-direction of government first to a commitment to education of our children and more efficient delivery of services to stimulate economic growth of small businesses and re-shape economic development programs.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Hanabusa, Matsunaga, Sakamoto, Anderson).

SCRep. 390 Government Operations and Housing on S.B. No. 450

The purpose of this measure is to expand the duties of the managed process committee and eliminate the sunset provision created in Act 230, Session Laws of Hawaii, 1998.

Testimony in favor of this measure was received from Pacific Geotechnical Engineers, Inc. Testimony opposed to this measure was received from Hawaii Government Employees Association.

Your Committee finds that the state government's budgeting, accounting, and procurement systems should serve as effective tools for the efficient use of scarce resources in pursuing the goals and objectives of the people of Hawaii.

Your Committee finds that in Act 230, Session Laws of Hawaii, 1998, a special committee was established to begin the task of transforming the State's accounting, procurement, and budgeting systems. This committee was established to develop prototype models for transforming the budgeting and accounting systems of three departments.

Your Committee finds that currently there is a need to expand the duties and roles of the managed process committee by allowing the committee to monitor and review the management process and develop costing models and costs of conversion to the private sector.

Your Committee amended the measure to:

- (1) Establish specific criteria that the managed process committee shall use when executing its duties, including costing models and ensuring correct allocations of overhead costs;
- (2) Add specific dates by when the managed process should be completed; and
- (3) Eliminate the managed process committee's duty to ensure merit principles are not violated.

Your Committee also made technical, nonsubstantive changes to the measure.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 450, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 450, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 391 Government Operations and Housing on S.B. No. 797

The purpose of this measure is to impose a dollar limit on nonbid contract awards to the same entity within a five year period and require the chief procurement officer to maintain records of competitive sealed proposals and small purchase procurements.

Testimony in opposition to this measure was received from the State Procurement Office, the Department of Transportation, ADI Design Group Inc., American Institute of Architects Hawaii State Council, Pacific Geotechnical Engineers, Inc., PBR Hawaii, R.M. Towill Corporation, SSFM Engineers, Inc., and five individuals.

Your Committee finds that currently, nonbid contract awards are being awarded to a limited number of contractors. Your Committee finds that this measure is an attempt to lessen the politics and favoritism that may occur in the nonbid contract procurement process.

Your Committee finds that in order to stimulate business and expand employment opportunities, more public contracts should be awarded to a variety of contractors.

Your Committee amended this measure to impose a numerical limit only to competitive sealed proposals and professional services contracts that can be awarded to a contractor within a five year period. Your Committee also amended this measure to allow for an exception to the numerical limit if all eligible contractors have received at least one contract award within the five year period.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 797, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 392 (Joint) Government Operations and Housing and Transportation and Intergovernmental Affairs on S.B. No. 1073

The purpose of this measure is to clarify that projects created and established as condominium property regimes are subject to county land use ordinances, rules, and regulations.

More specifically, this measure ensures that projects established as condominium property regimes conform to the provisions of underlying county zoning ordinances and development requirements and are consistent with the intent of county land use policies and state land use laws.

Testimony in support of this measure was received from the Department of Business, Economic Development and Tourism, the Department of Planning and Permitting for the City and County of Honolulu, the County Council for the County of Hawaii, Hawaii's Thousand Friends, and one individual. Testimony in opposition to this measure was received from the Land Use Research Foundation of Hawaii.

Your Committees find that county land use ordinances and regulations ensure that a site is suitable for a proposed project, in terms of its impact on traffic, drainage, and other important services, and that cumulative project impacts on the physical environment and the surrounding community are adequately addressed.

Your Committees find that currently there exists a lack of clarity in the counties' authority over the uses and development proposed by condominium property regimes.

Your Committees find that the lack of clarity in the condominium property regimes statute has been a barrier to county efforts to effectively manage the land use impacts of certain types of condominium property regime projects.

Your Committees are particularly concerned with the problems associated when condominium property regimes are developed in areas zoned for agricultural use, resulting in the bypass of underlying state and county land use laws and regulations.

Your Committees amended this measure by excluding condominium property regimes from agricultural zoned land.

As affirmed by the records of votes of the members of your Committees on Government Operations and Housing and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1073, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1073, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 6 (Ige, D., Iwase, Levin, Matsunaga, Tanaka, Anderson).

SCRep. 393 Government Operations and Housing on S.B. No. 1100

The purpose of this measure is to clarify and streamline the Hawaii public procurement laws and process, consolidate procurement legislation in chapter 103, Hawaii Revised Statutes (HRS), into chapter 103D, HRS.

In addition, the measure deletes unnecessary or incorrect provisions and makes other housekeeping amendments to improve the efficiency of the procurement process. This measure also provides that pursuant to county charter, the managers or chief engineers of the respective county water supply authorities are the designated chief procurement officers.

Testimony in support of this measure was received from the the State Procurement Office (SPO) and the Department of Water for the County of Kauai. The SPO also submitted suggested amendments.

Your Committee finds that the Hawaii procurement code needs improvement and refining and that this measure will make the State procurement process more efficient and cost-effective.

Your Committee further finds that nonprofit rehabilitation facilities tend to receive less than fair market value because competitive bidding is not implemented when a public agency procures from these facilities. That procurement process needs to be changed.

Your Committee has amended this measure by deleting the provisions that transfer the sections relating to purchases from qualified community rehabilitation programs into chapter 103D, HRS. As a result, this measure, which repeals part V of chapter 103, HRS, repeals the provisions relating to procurements from qualified community rehabilitation programs. Your Committee believes this issue is more appropriately addressed in S.B. No. 129.

Your Committee further amended this measure by making technical, nonsubstantive changes for purposes of clarity and preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1100, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 394

(Joint/Majority) Government Operations and Housing, Labor and Environment, and Transportation and Intergovernmental Affairs on S.B. No. 1438

The purpose of this measure is to establish a definition of "state resident" within the preference provision of the state procurement code and to raise the percentage preference to bidders on state agency contracts to fifteen percent.

Testimony in favor of this measure was received from the Hawaii Electricians Market Enhancement Program Fund, Hawaii Operating Engineers Industry Stabilization Fund, Industry Management Consultants, Incorporated, and Maui Construction Association. Testimony in favor of the intent of this measure was received from the Department of Transportation, the General Contractors Association of Hawaii, and the Hawaii Government Employees Association. Testimony opposed to this measure was received from the State Procurement Office, Associated Builders and Contractors, Inc., and Construction Industry Legislative Organization, Inc.

Your Committees find that all too often, out-of-state construction contractors employ out-of-state workers to work on federal projects in Hawaii. This leads to profits and tax revenues not being re-circulated in Hawaii's economy, and hinders employment opportunities for Hawaii residents, particularly in this time of economic doldrums.

Your Committees find that a definition of "state resident" is needed in the state procurement code that will provide a clear, objective, measurable standard that can be easily enforced by federal contracting officers in determining eligibility for preferences under the Federal Acquisition Regulations.

Your Committees find that raising the bid preference percentage will create more business and employment opportunities for Hawaii's struggling construction industry.

Your Committees amended the measure by:

- (1) Clarifying the application of the definition of "state contractor" or "state subcontractor" to various business entities and moving the definition to section 2 of the measure which amends the definitions section in the procurement code (HRS 103D-1001);
- (2) Exempting from the two hundred day residency requirement in the definition of "state resident", those residents who leave the State to attend school or serve in the armed forces of the United States; and
- (3) Making technical, nonsubstantive changes for clarity purposes to the section that sets forth a state contractor's eligibility for a full or portioned preference.

Your Committees note this measure is being passed based primarily on its concept, rather than the specifics of the measure, as the fifteen percent preference is still open for discussion and review. Your Committees encourage all parties involved with this measure to continue to participate in the legislative process as this measure moves to the next Committee.

As affirmed by the records of votes of the members of your Committees on Government Operations and Housing and Labor and Environment and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1438, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1438, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 16. Noes, 2 (Chumbley, Slom). Excused, 6 (Ige, D., Ige, M., Iwase, Matsunaga, Tanaka, Anderson).

SCRep. 395 Water, Land, and Hawaiian Affairs on S.B. No. 35

The purpose of this measure is to appropriate funds to match federal funds for the Hawaii Forestry and Communities Initiative.

Testimony in support of the measure was received from the Departments of Land and Natural Resources, Agriculture, Hawaiian Home Lands, and Labor and Industrial Relations, the University of Hawaii's College of Tropical Agriculture and Human Resources, the Hawaii Agriculture Research Center, the Nature Conservancy of Hawaii, the Hawaii Farm Bureau, the Big Island Farm Bureau, the Hawaii Society of American Foresters, the Hawaii Forest Industry Association, and two concerned private citizens.

Your Committee finds that according to the Department of Land and Natural Resources, Hawaii's forest industry is a productive, value adding industry that generates net revenues of \$29,000,000, and employs over eight hundred people. Through the Hawaii Forestry and Communities Initiative program, the State has the opportunity to assist the private sector in expanding the forest industry, not only by leasing state land for such activities, but also with job training and helping with inventory, marketing, and research.

Your Committee believes that supporting the Hawaii Forestry and Communities Initiative will play an important role in bringing focus and direction to the State's forest industry.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 35 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 396 Water, Land, and Hawaiian Affairs on S.B. No. 952

The purpose of this measure is to provide for an elected Hawaiian Homes Commission to oversee the Department of Hawaiian Home Lands.

The measure provides that commissioners would be elected in a special election held in conjunction with the general election for four year terms. To ensure that there is continuity on the elected commission, the measure requires that in the inaugural special election, the four commissioners with the highest vote totals will serve for four year terms. The other two commissioners will serve for two years.

The measure also empowers the elected commission to elect its chairperson and to appoint the director of the department.

Testimony in support of the measure was received from the Office of Hawaiian Affairs, the Association of Hawaiian Civic Clubs, the Nanakuli Hawaiian Homestead Community Association, the Ahupua'a O Moloka'i, and a private citizen. The Department of Hawaiian Home Lands, the Native Hawaiian Legal Corporation, the State Council of Hawaiian Homestead Associations, the Waimanalo Hawaiian Homes Association, the Waimea Hawaiian Homesteaders' Association, and two concerned private citizens supported the measure with reservations.

The Kawaihae Hawaiian Homes Community Association opposed the measure's passage. The Office of Elections submitted comments on the measure.

Your Committee has amended the measure by;

- (1) Adding a provision that enables successors of lessees to be Hawaiian Homes Commission candidates and to vote in the election of commissioners; and
- (2) Making technical amendments for the purpose of clarity

Your Committee believes that an elected Hawaiian Homes Commission would be more truly representative of the beneficiaries of the Hawaiian Home Lands Trust, thereby making the Commission more responsive to the needs of its constituency.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 952, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 952, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 397 Water, Land, and Hawaiian Affairs on S.B. No. 1303

The purpose of this measure is to re-start the four-year cycle to review the salaries of the Trustees of the Office of Hawaiian Affairs.

Testimony in support of the measure was received from the Office of Hawaiian Affairs. The Attorney General testified in support of the measure with amendments.

Testimony in opposition to the measure was received from the Hawaiian Political Action Council of Hawaii and the Spiritual Nation of Ku.

Your Committee finds that the process originally envisioned under Act 358, Session Laws of Hawaii 1993, was to initially have a salary commission appointed by the Governor prior to November 30, 1996, and in four-year increments thereafter. By the fortieth legislative day of the next regular legislative session, the salary commission would submit its recommendations for any trustee salary adjustments to the Legislature. Unfortunately, through inadvertence, the initial salary commission was not appointed and the four-year review cycle was never initiated. This measure attempts to remedy the problem by changing the appointment date of the initial salary commission from November 30, 1996, to November 30, 1998.

Testimony from the Attorney General noted, however, that the measure should have included a provision authorizing the Governor to appoint commissioners upon enactment to enable the commission to report to the Legislature by March 30, 1999.

Accordingly, your Committee has amended the measure by:

- (1) Adding a provision that authorizes the Governor to appoint salary commission members immediately so that the process of reviewing trustee salaries may begin this year;
- (2) Changing the dates to accommodate the immediate appointment of salary commissioners; and
- (3) Making technical, nonsubstantive amendments for the purpose of style and clarity.

Your Committee believes that the amended measure will provide for establishment of the salary review process originally envisioned under Act 358, Session Laws of Hawaii 1993.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1303, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1303, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chun, Anderson).

SCRep. 398 Water, Land, and Hawaiian Affairs on S.B. No. 1635

The purpose of this measure is to sunset section 10-13.3, Hawaii Revised Statutes, relating to paying the Office of Hawaiian Affairs (OHA) a set interim revenue amount while the dispute over ceded land revenues between the State and OHA is being resolved.

Testimony in support of the measure was received from the Office of Hawaiian Affairs, the Association of Hawaiian Civic Clubs, the Native Hawaiian Chamber of Commerce, the Hawaiian Political Action Council of Hawaii, and the Kukahi Coalition. A private citizen testified in support of the intent of the measure.

The Attorney General and a private citizen testified in opposition to the measure.

Your Committee finds that Act 329, Session Laws of Hawaii 1997 (Act 329), established a process to finally resolve the dispute over the pro rata share of ceded land revenues to which OHA is entitled. While the dispute was to be resolved, Act 329 provided for an interim revenue amount to be paid to OHA which was fixed at \$15,100,000 in each year of Fiscal Biennium 1997-1999. The interim revenue authorization, codified as section 10-13.3, Hawaii Revised Statutes, and Act 329, only provided specified amounts, and appropriated funds for that fiscal biennium.

Your Committee believes that a resolution to this longstanding dispute must be forged in the very near future in order for the State to be able to effectively plan for its financial future. Unfortunately, your Committee finds that the two parties are no closer to resolving this dispute than they were two years ago. To this end, your Committee believes that in order for any resolution to occur, a "safe" negotiating environment must be maintained.

In light of this belief, your Committee has amended the measure by deleting the proposed sunset of the interim revenue provision and inserted in its stead, provisions that;

- (1) Reconvene the Joint Committee established under Act 329 to resolve the ceded land revenue dispute between OHA and the State;
- (2) Require the Auditor to recommend the scope of the settlement negotiations, and then to coordinate the comprehensive inventory of ceded lands;
- (3) Extend the interim revenue paid to OHA and increase the amount to \$16,060,000 annually for the next two fiscal years; and
- (4) Appropriate moneys to fund the provision of interim revenue to OHA.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1635, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 399 Commerce and Consumer Protection on S.B. No. 194

The purpose of this measure is to establish a State income tax credit equal to fifty per cent of a taxpayer's long-term care insurance costs.

The Insurance Commissioner, the Hawaii State Commission on the Status of Women, the Hawaii State Association of Life Underwriters, and State Farm Insurance Companies presented testimony in support of the measure. The Hawaii Medical Services Association, the Hawaii Long Term Care Association, AssistGuide, Inc., and an individual, though not present at the hearing, submitted written testimony in support of the measure. The American Council of Life Insurance presented testimony in support of the measure with proposed amendments. The Department of Taxation presented comments on the measure.

Your Committee finds that Hawaii residents age seventy and older comprise the fastest growing segment of the State's population. As Hawaii's population ages and more residents require long-term care, the problem of how to finance such care becomes more urgent.

Long-term care services can cost an average of \$65,000 to \$75,000 for skilled nursing or intermediate care facilities, and nursing home costs often exceed a family's ability to pay. Additionally, seventy per cent of Medicaid payments in the State go towards nursing home care and the cost of paying for long-term care for indigent individuals creates a drain on the State's resources.

By providing taxpayers with a fifty per cent State income tax credit for long-term care insurance costs, this measure provides an incentive for individuals to purchase long-term care insurance during their younger years when premiums are more affordable.

Your Committee further finds that in order for premium payments to qualify for a federal income tax deduction under section 213 of the Internal Revenue Code, payments must be made for a "qualified long-term care insurance contract" as defined in section 7702B of the Internal Revenue Code. In order to ensure that premium payments also qualify for a federal tax deduction, your Committee has amended this measure by:

- (1) Providing that the tax credit shall be in an amount equal to fifty per cent of the premium costs paid during the taxable year for a qualified long-term care insurance contract as defined in section 7702B of the Internal Revenue Code that covers either the taxpayer, the taxpayer's spouse, the taxpayer's parent, or a dependent as defined in section 152 of the Internal Revenue Code; and
- (2) Deleting definitions from section 2 of this measure.

Your Committee has also made a technical, nonsubstantive amendment to the measure to conform it to preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 194, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 400 Commerce and Consumer Protection on S.B. No. 528

The purpose of this measure is to exempt health insurance offered under federally funded programs by insurers, mutual benefit societies, health maintenance organizations, and managed care plans from mandated coverage requirements.

The Department of Human Services, and The Insurance Commissioner presented testimony in support for this measure. The Hawai'i Early Intervention Coordinating Council presented testimony in opposition.

Your Committee feels that there is some uncertainty about whether federal program requirements prevail over mandated benefits within state insurance laws. This measure would clarify that certain federally funded programs, are exempt from these mandated benefits requirements.

It is not your Committee's intent to interfere with the benefits received by federal employees. Therefore, Your Committee has amended this measure to clarify that only those programs under the Social Security Act should be exempted.

Your Committee is concerned that certain benefits and rights may be compromised, but would like to pass the measure along for the purpose of continuing discussion.

Furthermore your Committee notes that the Insurance Division's regulatory role over fiscal solvency should not be affected by this measure and that a health insurer contracting with a federally funded program must still meet other requirements of the State's Insurance Laws.

As affirmed by the record of vote of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 528, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 401 Commerce and Consumer Protection on S.B. No. 651

The purpose of this measure is to make unsolicited or misleading transmission of electronic mail messages or the unsolicited transmission of facsimile messages an unfair or deceptive trade practice.

The Office of Consumer Protection of the Department of Commerce and Consumer Affairs presented testimony in support of the measure with proposed amendments. The Direct Marketing Association, Soc.Culture.Hawaii, and an individual presented testimony in support of the measure. Although not present, the Pacific Information Exchange, Inc., and an individual, submitted written testimony in support of the measure.

Your Committee finds that the number of unsolicited electronic advertisements, including unsolicited bulk e-mail (UBE) and unsolicited facsimile transmissions, have dramatically increased in recent years. Unlike traditional bulk postal mailings, these advertisements shift the cost of the advertising away from the advertiser, and onto the consumer, who indirectly pays for the advertising through loss of time due to overloaded, malfunctioning computer servers, or deteriorating and broken facsimile machines.

Unsolicited electronic advertising costs consumers in the United States between one hundred million and one billion dollars a year. Even so, few states have taken action against such advertising. Your Committee finds that it is in the public's interest to take action against unsolicited electronic advertisement.

Your Committee has amended this measure by deleting its contents and adding language which:

- (1) Establishes violations for misrepresenting information regarding point of origin or subject matter of an electronic message, or for using a third party's e-mail address (domain name) without authorization;
- (2) Provides immunity to interactive computer services from liability for blocking transmissions which they reasonably believe violate this measure;
- (3) Establishes violations for unsolicited facsimile machine transmissions;
- (4) Provides that violations of this measure constitute an unfair or deceptive act or practice actionable under Section 480-2, Hawaii Revised Statutes; and
- (5) Provides for treble damages to any person suffering harm due to a violation of this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 651, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 651, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 402 Commerce and Consumer Protection on S.B. No. 656

The purpose of this measure is to establish a citizen review committee within the Department of Commerce and Consumer Affairs to review annually the activities of the Public Utilities Commission and advise the consumer advocate to ensure public participation in decisions.

The Hawai'i Green Party, Ho'olaulima O Palolo, Life of the Land, and Na Leo Pohai of The Outdoor Circle presented testimony in support of this measure. Three individuals, though not present, submitted written testimony in support of the measure. The Public Utilities Commission, the Consumer Advocate, GTE, Hawaiian Electric Company, Inc., The Gas Company, and Kauai Electric presented testimony in opposition.

Your Committee finds that there is strong public interest in utility projects that affect the health and wellbeing of their communities and families. Your Committee further finds that while there are means available to allow for public participation and input into the decisions made by the Public Utilities Commission, the process is burdensome, complicated, and difficult to follow.

Your Committee further finds that while the consumer advocate's role is to represent the people of this State, additional public participation is essential, especially in instances when the consumer advocate's position is not the same as the affected community. Your Committee would also provide the consumer advocate with a broader public perspective in the development of policy.

Your Committee has amended the measure to rename the citizen review committee the citizen advisory committee, and to make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 656, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 656, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 403 (Joint/Majority) Commerce and Consumer Protection and Labor and Environment on S.B. No. 792

The purpose of this measure is to clarify the automatic permit approval process established by Act 164, Session Laws of Hawaii 1998.

The Attorney General, the Environmental Center, and the Sierra Club, Hawaii Chapter presented testimony in support of this measure with amendments. The League of Women Voters presented testimony in support of the intent of this measure. Hawaii's Thousand Friends, although not present at the hearing, submitted testimony in support, and the Department of Planning and Permitting of the City and County of Honolulu, although not present at the hearing, submitted testimony supporting the intent of the measure with reservations.

The Department of Business, Economic Development, and Tourism, the Land Use Research Foundation of Hawaii, the Hawaii Business Roundtable, the Chamber of Commerce of Hawaii, Hawaiian Electric Company, and the Estate of James Campbell presented testimony in opposition. Although not present, the Hawaii Association of Realtors, the Hawaii Leeward Planning Conference, the AIA Hawaii State Council, the Building Industry Association of Hawaii, Hawaii Resort Developers Conference, the Pacific Resource Partnership, the Gentry Companies, and Grove Farm Company Incorporated submitted written testimony in opposition.

Your Committees find that there has not been sufficient time for departments affected by Act 164, Session Laws of Hawaii 1998, to implement the new permit processes. Thus, it is premature at this time to amend the automatic permit process established by this Act.

However, in order to facilitate further discussion, your Committees have amended this measure by replacing the contents of the measure with an amendment which clarifies that automatic permits will not be granted by a county or state agency relating to health or safety.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 792, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 792, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Slom). Excused, 6 (Bunda, Chumbley, Chun Oakland, Hanabusa, Ige, M., Matsuura).

SCRep. 404 Commerce and Consumer Protection on S.B. No. 813

The purpose of this measure is to authorize the issuance of special purpose revenue bonds and refunding special purpose revenue bonds to assist the gas utility in providing gas service to the general public.

Your Committee received testimony in support of this measure from the Department of Budget and Finance, the Consumer Advocate, and The Gas Company.

Your Committee finds that the bonds authorized by this legislation, in the amount of \$19,600,000, will be used by The Gas Company to finance capital improvements to the underground transmission and distribution pipeline system. Your Committee also finds that the capital improvements proposed serve a public interest that is related to the general public health, safety, and general welfare of the citizens of this State.

Your Committee has amended this measure by changing the language for the refunding special purpose revenue bonds from "times subsequent to December 31, 1999", to "times subsequent to December 31, 2002", to clarify that refunding bonds may be issued after the lapse date of the measure for the issuance of bonds.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 813, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Slom).

SCRep. 405 Commerce and Consumer Protection on S.B. No. 957

The purpose of this measure is to extend the deadline for submission of the Motor Vehicle Insurance Benefits Task Force's (Task Force) final recommendations for a comprehensive motor vehicle insurance plan.

The State Insurance Commissioner and the Consumer Lawyers of Hawaii presented testimony in support of the measure. State Farm Insurance Companies presented testimony reserving comment on the proposed extension and suggesting an amendment to the measure.

Act 251, Session Laws of Hawaii 1997, required that the Task Force review the State's motor vehicle insurance system and develop a comprehensive plan to reduce costs, pay for the cost of motor vehicle insurance or benefits, maximize coverage and benefits, and alleviate the uninsured motorists problem. The Act further required the Task Force to submit its final recommendations to the Legislature and the Governor no later than twenty days before the convening of the 1999 Legislature.

Your Committee finds that several motor vehicle insurance issues remain, which preclude the Task Force from developing and issuing its final recommendations. The following reasons justify an extension of the deadline to June 30, 2000:

- (1) The State Actuary's analysis indicates that motor vehicle insurance premium rates are decreasing as a result of reform measures effected by Act 251. However, due to an eighteen month lag in the availability of earned premium data, the information necessary to accurately assess the impacts of the Act on premium rates will not be available until mid-1999;
- (2) The implementation of the Honolulu Police Department's mobile data terminal system, scheduled for the fall of 1999, may render a comprehensive data base system unnecessary;
- (3) The impact of prepaid health care insurers offering optional personal injury protection coverage requires further study before allowing health insurers to compete with auto insurers in this market; and
- (4) An expert report on a per gallon fuel surcharges, which is necessary to consider a statewide pay-at-the-pump model of insurance, remains forthcoming.

Upon careful consideration, your Committee has amended section 2 of this measure, adding a requirement that the Task Force's comprehensive plan balance the maximum coverage and benefits for victims of motor vehicle accidents with the lowest possible cost for purchasers of motor vehicle insurance.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 957, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 957, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 406 Commerce and Consumer Protection on S.B. No. 970

The purpose of this measure is to clarify that bail bond rates are not subject to insurance rate filing requirements.

The Professional Bail Agents Association presented testimony in support of the measure. The Insurance Commissioner (Commissioner), though not present at the hearing, submitted written testimony expressing no opposition to the measure provided that the premium rate allowed under the bail law does not exceed fifteen per cent.

Your Committee finds that presently, premium rates for bail bonds are established and regulated in two different sections of the law. Chapter 431, Hawaii Revised Statutes (HRS), governs the rates for a surety insurance bond, while chapter 804, HRS, governs the rates for all other types of bail bonds. These differing rate requirements have created confusion among bail bondspersons, attorneys,

and the public. This measure provides that bail bonds issued pursuant to section 804-62, HRS, are not subject to the rate filing requirements of section 431:14-104, HRS.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 970 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 407 Commerce and Consumer Protection on S.B. No. 1127

The purpose of this measure is to establish a health insurance revolving fund to be administered by the Insurance Commissioner.

The Insurance Commissioner and the American Association of Retired Persons presented testimony in support of this measure. State Farm Insurance and the Hawaii Medical Services Association presented testimony in support of the measure with proposed amendments.

Your Committee finds that the Insurance Division needs specialized staff to monitor and regulate the health care industry. Your Committee further finds that, like the motor vehicle industry, the health care industry should pay to cover the costs associated with the work performed on their behalf by the Insurance Division. This measure would establish a special fund for this purpose.

Your Committee heard several measures which propose to assess certain health insurers for staff and other costs of regulating health insurance. Your Committee is concerned that total funding for health insurance regulation may become confusing if various amounts are proposed through different measures. Accordingly, your Committee has amended this measure to indicate a sum which reflects the total cost to regulate health insurance and fund various programs related to health insurance.

Specifically, your Committee has included funding from S.B. No. 1452 and S.B. No. 131 so that your Committee on Ways and Means understands the total cost for health insurance regulation. Although this amount seems high, the assessment is necessary in order to directly help the health insurance industry deal with unscrupulous competitors and provide the consumer with a higher degree of protection.

Finally, your Committee finds that the motor vehicle insurance revolving fund should be reimbursed by the health insurers for costs used from the fund to date to pay for the regulation and monitoring of the health insurance industry. Therefore, your Committee has also amended this measure by adding a new section that would authorize the Insurance Commissioner to assess health insurers to reimburse the motor vehicle insurance revolving fund.

As affirmed by the records of votes of the members of your Committee on Commerce and Consumer Protection that are attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1127, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 408 Commerce and Consumer Protection on S.B. No. 1145

The purpose of this measure is to allow the Department of Commerce and Consumer Affairs (DCCA) greater flexibility in the management of its funds in order to support its goal of fiscal self-sufficiency.

DCCA presented testimony in support of this measure.

Over the last four years, general fund support for DCCA's programs has declined significantly and the department has moved steadily towards fiscal self-sufficiency. This measure continues that trend by combining moneys from the Cable Television Fund, Division of Consumer Advocacy Fund, Financial Institution Examiners' Revolving Fund, Special Handling Fund Special Fund, and revenues, fees, and fines collected by the business registration and professional and vocational licensing divisions into the Compliance Resolution Fund (CRF).

The consolidation of the abovementioned funds will provide DCCA with the flexibility it requires to be self-supporting. The department will continue to account for all sources of funding separately in order to track each division's revenues against its expenses.

Additionally, this measure:

- (1) Removes a reference to the Director of DCCA as the Commissioner of Securities since the law authorizes the Director to appoint the Commissioner;

- (2) Eliminates the requirement that the fees for the CRF bear a reasonable relationship between the fee revenues and the cost or value of services rendered since limitations on fees will be maintained in the statutory provisions authorizing the various revenues being combined into the CRF;
- (3) Amends the definition of "compliance resolution" to clarify the CRF's purpose as a department-wide funding source and to allow for greater flexibility in the use of CRF funds;
- (4) Exempts the department's special funds from administrative assessments; and
- (5) Clarifies that any special or revolving fund established by any Act of the 1999 Regular Session should not be included in the CRF.

Your Committee has made technical, nonsubstantive amendments to this measure and conformed it to preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1145, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 409 (Joint) Commerce and Consumer Protection and Health and Human Services on S.B. No. 1160

The purpose of this measure is to amend Hawaii's Uniform Controlled Substance Act to conform to changes in federal and State law.

The Department of Public Safety presented testimony in support of and proposed amendments to the measure. The Honolulu Police Department, the Dietary Supplement Safety and Science Coalition, and Longs Drug Stores presented testimony in support of the measure's intent. The Office of the Public Defender presented comments on the measure.

The Hawaii Medical Association, though not present at the hearing, submitted written testimony proposing an amendment to the measure. The Hawaii Academy of Physician Assistants, the Nonprescription Drug Manufacturers Association, and the Hawaii Nurses' Association presented testimony in opposition to certain provisions in the measure and proposed amendments to the measure.

Some of the amendments to the State's Uniform Controlled Substance Act proposed by this measure include:

- (1) Extending the requirements relating to prescriptions to mid-level practitioners;
- (2) Increasing record retention periods;
- (3) Standardizing the paper size requirements for prescriptions;
- (4) Expanding the list of chemicals subject to mandatory reporting requirements;
- (5) Establishing reporting requirements for suspicious purchases of exempt items and tableting or encapsulating machines;
- (6) Removing the exemption for ephedrine products, but creating an exception for dietary supplements containing ephedrine alkaloids extracted from the plant Ephedra;
- (7) Establishing penalties for sellers of ephedrine products who make certain claims about the product's effects; and
- (8) Increasing the penalties for the sale or distribution of a regulated chemical without a permit or by a person convicted for the second time of a violation of section 329-67, Hawaii Revised Statutes, and increasing the level of offense for other illegal acts.

Your Committees find that the amendments to the State's Uniform Controlled Substance Act proposed by this measure will create consistency between federal and State requirements, assist law enforcement in the investigation of drug-related offenses, and strengthen the enforcement of the drug laws.

Upon careful consideration, your Committees have amended this measure by:

- (1) Deleting the provisions in section 4 of this measure establishing prescription requirements for mid-level practitioners registered to prescribe controlled substances under the authorization of a supervising physician and making corresponding deletions of the definitions for "mid-level practitioners" and "supervising physician";
- (2) Deleting sections 5 and 6 of this measure;

- (3) Requiring that a record of transactions involving the sale, transfer, or furnishing of an encapsulating or tableting machine be kept for two years;
- (4) Clarifying that regulated transactions required to be reported to the administrator of the Narcotics Enforcement Division of the Department of Public Safety (administrator) are those involving chemicals of an above threshold, suspicious, or out of the ordinary quantity;
- (5) Requiring all single entity ephedrine transactions to be reported to the administrator to coincide with the removal of ephedrine products from the exemption provision;
- (6) Establishing an exception to the reporting requirement for certain transactions involving any over-the-counter drug product containing pseudoephedrine or norpseudoephedrine of a certain quantity;
- (7) Increasing the retention period for filled prescription records from two years to five years; and
- (8) Making technical, nonsubstantive amendments, and amendments to conform this measure to preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1160, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1160, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 3 (Levin, Matsuura, Anderson).

SCRep. 410 Commerce and Consumer Protection on S.B. No. 1176

The purpose of this measure is to eliminate the duplicate taxation of single-member limited liability companies.

Specifically, the measure exempts single-member limited liability companies recognized under Chapter 428, Hawaii Revised Statutes, that, for state and federal income tax reporting purposes:

- (1) Has no registration or filing requirements separate and apart from the member;
- (2) Is subject to the requirement that all items of income, deduction, and credit are to be reported by the member; and
- (3) Is an entity that is disregarded as an entity separate from the member;

from the licensing, registration, or filing requirements; provided that the member is licensed and pays the appropriate general excise tax on the gross income derived by the limited liability company.

The Departments of Taxation and Commerce and Consumer Affairs presented testimony in favor of the measure. A Hawaii attorney, although not present, submitted written testimony in favor of the measure. The Tax Foundation submitted comments on the measure.

Your Committee finds that the measure will make the general excise tax treatment of single-member limited liability companies consistent with tax treatment under state and federal income taxes. Your Committee further finds that the measure would reduce the general excise tax licensing burden on single-member limited liability companies, thereby making it a more attractive means of organizing a business.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1176 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Bunda, Hanabusa).

SCRep. 411 (Joint) Commerce and Consumer Protection and Health and Human Services on S.B. No. 1452

The purpose of this measure is to amend the Hawaii Patient Bill of Rights and Responsibilities Act as recommended by the Patient Rights and Responsibilities Task Force (Task Force).

The Hawaii Health Information Corporation and the AARP presented testimony in support of the measure. The Hawaii Nurses' Association and the Task Force's Access to Services Subcommittee, though not present at the hearing, submitted written testimony in support of the measure.

Testimony in support of the measure, but requesting amendments thereto was presented by the following: the Insurance Commissioner (Commissioner), the Legal Aid Society of Hawaii, Kaiser Permanente, the Hawaii Medical Association, the Hawaii

Medical Services Association, the University Health Alliance, and the Hawaii Insurers Council. The Hawaii Coalition for Health, though not present at the hearing, submitted written testimony in support of the measure with proposed amendments. State Farm Insurance Companies presented testimony in support of certain provisions and in opposition to other provisions of the measure.

Act 178, Session Laws of Hawaii 1998, established the Hawaii Patient Bill of Rights and Responsibilities Act (Act) that established certain rights and protections for enrollees in managed care plans. Additionally, Act 178 required the Commissioner to convene a task force comprised of members from the public and private sectors to review laws relating to patient rights and responsibilities, determine whether further action was required to protect patients under the Act, and report its findings and recommendations to the 1999 Legislature.

This measure implements the Task Force's recommendations. Some of the key recommendations included in this measure:

- (1) Establish a health insurance revolving fund and authorize appropriations out of the fund to pay for medical experts and to fund educational activities;
- (2) Require the accreditation of managed care plans;
- (3) Clarify review hearing rights, procedures, and standards in the case of an appeal to the Commissioner from a managed care plan's adverse decision;
- (4) Strengthen the enrollee information requirements for managed care plans; and
- (5) Establish detailed requirements for a health plan's provision of emergency services.

Your Committees find that the recommendations proposed by the Task Force will further strengthen patients' rights in the area of health care.

Your Committees are aware that various amendments have been proposed to this measure by several of the groups that presented testimony. Although your Committees are passing this measure out in its original form, it is your Committees' intent that there be further consideration of these proposed amendments as the measure moves through the legislative process.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1452 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 3 (Levin, Matsuura, Anderson).

SCRep. 412 (Joint/Majority) Commerce and Consumer Protection and Economic Development on S.B. No. 1513

The purpose of this measure is to protect consumers from risk of financial loss caused by making advance purchases for charter tours.

The Department of Commerce and Consumer Affairs (DCCA) presented testimony supporting the measure's intent, but expressed concerns about the burdensome nature of the application and monitoring requirements and the disparate treatment accorded existing charter tour operators and new applicants. Boyd Gaming presented testimony in support of the measure.

Your Committees find that although current law requires travel agents to maintain a client trust account, there is no mechanism for detecting non-compliance with this requirement. Moreover, public concern was raised when one tour operator left hundreds of consumers, who paid in advance for tours, with little or no recourse after the tour operator filed bankruptcy. This measure offers a solution by providing greater regulatory oversight of certain charter tour operators.

This measure proposes to regulate any person who offers or sells travel tours by requiring: licensing; scheduled financial performance audits; maintenance of accounting books; minimum asset reserves; the reporting and filing of certain information; and, penalties for violations of the law.

After careful consideration of the testimony presented, your Committees have amended this measure by requiring:

- (1) Travel tour operators to register as a travel agency in lieu of establishing a separate licensing program;
- (2) Travel tour operators to maintain a separate client trust account;
- (3) A bond or irrevocable letter of credit if the travel tour operator sells more than six tours a year;
- (4) The filing of quarterly reports prepared by an independent CPA to show compliance; and
- (5) The travel tour operator to bear the costs for any necessary audits.

Your Committees have also amended this measure by permitting the DCCA to issue citations, impose fines, and issue cease and desist orders for noncompliance with laws proposed by this measure, as amended.

Your Committees believe that these amendments provide sufficient regulatory oversight without imposing any unnecessary or burdensome regulations on charter tour operators.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1513, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1513, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, 1 (Slom). Excused, 3 (Bunda, Ige, M., Matsuura).

SCRep. 413 Commerce and Consumer Protection on S.B. No. 1580

The purpose of this measure is to require health care providers to be licensed if providing benefits under the motor vehicle insurance law.

The measure also provides for investigative and containment policies for the overutilization of treatments by these health care providers.

Testimony in support of this measure was presented by the Department of Commerce and Consumer Affairs. The Hawaii Insurers Council and State Farm Insurance Companies presented testimony in support of the intent of this measure. Opposing testimony was presented by the Consumer Lawyers of Hawaii. The Hawaii Medical Association and Dwyer, Imanaka, Schraff, Kudo, Meyer, and Fujimoto, Attorneys at Law, although not present, submitted written testimony in opposition.

Your Committee finds that while it is evident that there is a need to make more effective the process of dealing with providers who continually overutilize and overprescribe treatments and procedures, your Committee believes that the process for the resolution of this issue needs to be improved.

There is a growing use of independent bill reviewers administrators (IBRs) by insurers for the evaluation of providers' billing submissions. IBRs, in general, are independent contractors hired by insurers to review providers' submissions of codings and bills. They review and recommend to insurers whether the submissions should be accepted or rejected.

Your Committee further finds that the Department of Commerce and Consumer Affairs has been receiving complaints from providers that the IBRs, because of their discretionary power, have been exercising harsh and unreasonable tactics, thereby causing the providers to withdraw from the workers' compensation and motor vehicle insurance markets.

While not all IBRs perform their work in this alleged fashion, your Committee believes that their work must be regulated, as the use of IBRs are becoming standard industry practice.

Accordingly, your Committee has deleted section one and amended this measure to ensure that:

- (1) IBRs are licensed by the Department of Commerce and Consumer Affairs Insurance Division; and
- (2) IBRs are not allowed to be paid on a contingency fee basis.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1580, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1580, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 414 Commerce and Consumer Protection on S.B. No. 236

The purpose of this measure is to prevent consumers who participate in prize drawings from being misled or deceived regarding their prospects of winning a prize.

Specifically, this measure prohibits the offering of a prize in a drawing or other contest of chance unless the offeror has provided written representation to the offeree that the prize may not be awarded. The measure also provides that a consumer injured by a violation of the written representation requirement may sue for treble damages and attorneys' fees and costs.

The Department of Commerce and Consumer Affairs testified in support of the measure and proposed amendments to clarify its scope. The Legislative Information Services of Hawaii, though not present at the hearing, submitted written comments, including proposed revisions.

Your Committee finds that a recent event in the State in which contest organizers failed to award a prize of real property to any of the individual contestants has brought to your Committee's attention the potential for future consumer deception in drawings or other contests of this nature.

Your Committee received testimony that it would be inappropriate to create a blanket notice requirement for all contests since many retailers, restaurants, hotels, and charitable organizations use contests as a promotional tool and prizes are awarded in a majority of these contests. Testimony also noted that the language establishing a consumer's right to sue for damages and attorneys' fees and costs is unnecessary since victims of these violations, deemed unfair or deceptive acts or practices, may already sue for treble damages and attorneys' fees and costs under section 480-13, HRS. Your Committee was also advised that other states have banned the offering of real property as prizes.

Upon careful consideration of all the testimony, your Committee has amended this measure by:

- (1) Requiring that the written disclosure provided to offerees in a contest or sweepstakes be made in a conspicuous manner prior to the acceptance of the offeree's entry and disclose:
 - (A) That some or all of the prizes may not be awarded; and
 - (B) The date or dates on which a determination of winners will be made; and
- (2) Removing language allowing a consumer injured by a violation of the disclosure requirement to sue for damages and attorneys' fees and costs; and
- (3) Prohibiting the offering of real property as a prize.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 236, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 236, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ihara, Inouye, Matsuura).

SCRep. 415 Commerce and Consumer Protection on S.B. No. 509

The purpose of this measure is to establish a dietitian licensing program within the Department of Commerce and Consumer Affairs (DCCA).

Testimony supporting the measure was presented at the hearing by representatives of the Hawaii Dietetic Association, the Queen's Medical Center, and four individuals.

Written testimony in support of the measure was submitted by the National Kidney Foundation of Hawaii, the American Dietetic Association, the Kauai Rural Health Association, the Pacific Health Research Institute, the Hawaii Society for Parenteral and Enteral Nutrition, St. Francis Healthcare System of Hawaii, St. Francis Medical Center, Samuel Mahelona Memorial Hospital, Island Nursing Home, Molokai General Hospital, Kaiser Permanente Hawaii Region, Koloa Chiropractic Clinic, Leeward Radiation Oncology, Nutrition Entrepreneurs, Wilcox Health System, and fifty-nine individuals.

The DCCA Professional and Vocational Licensing Division, and one individual testified at the hearing in support of the measure with amendments.

Testimony in opposition to the measure was presented at the hearing by two individuals. Written testimony in opposition to the measure was received from seventy-two individuals.

Your Committee finds that the Auditor's 1995 Sunrise Review of Nutritionists/Dieticians recommended against licensure for this group because the lack of regulation does not pose a threat to public health or safety. Regulation, to become a viable element of consumer protection, must demonstrate that it unequivocally meets a public need and will serve the interests of the public over those of the profession.

Your Committee also finds that the practice of dietetics is a subset of the practice of nutrition. Many allied health and fitness professionals include nutrition practices as a component of their services. Limiting the practice of nutrition to dieticians would adversely impact many businesses in Hawaii.

However, your Committee believes that there is justification for some form of certification of dieticians which identifies the education and qualifications of the dietician.

Your Committee has amended this measure by:

- (1) Changing "licensing" to "certification" and "licensed" to "certified" throughout;

- (2) Changing the licensing requirements to a certification process;
- (3) Replacing the purpose section with language that focuses on the regulation, public health and safety, protection, and professional conduct with regard to dietetic services;
- (4) Adding a definition of "dietetic practice";
- (5) Changing the definition of "dietician" to "certified dietician";
- (6) Deleting the definition of "medical nutrition therapy";
- (7) Deleting the exemption from the licensing requirements for the initial members of the advisory committee within the "powers and duties of the director" section;
- (8) Reordering sections; and
- (9) Making technical, nonsubstantive amendments to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 509, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 509, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 416 Commerce and Consumer Protection on S.B. No. 746

The purpose of this measure is to allow the chairpersons and members of the Labor and Industrial Relations Appeals Board, the Hawaii Labor Relations Board, and the Public Utilities Commission to become Class A contributory members of the Employees Retirement System.

Your Committee received general comments on the measure from the Employees Retirement System.

Your Committee finds that the measure excludes the executive directors of the Labor and Industrial Relations Appeals Board and the Hawaii Labor Relations Board from Class A contributory membership and replaces in their stead the chairpersons and members of the respective boards. Additionally, the measure provides the chairperson and members of the Public Utilities Commission with Class A contributory membership.

Your Committee believes that the provision of these retirement benefits is consistent with those of other public sector employees in similar appointed capacities.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 746 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 417 Commerce and Consumer Protection on S.B. No. 777

The purpose of this measure is to clarify certain provisions of the alternate power of sale foreclosure law and to effect substantive changes to other provisions of the law by removing certain requirements.

The Department of Commerce and Consumer Affairs presented testimony in support of certain provisions of the measure and in opposition to other provisions. The AARP Hawaii State Legislative Committee presented testimony in opposition to the deletion of the public information requirement. The Legal Aid Society of Hawaii, though not present at the hearing, submitted written testimony in opposition to the measure.

The Hawaii Financial Services Association and the Community Associations Institute presented testimony in support of the measure. The Hawaii Association of Realtors presented testimony in support of the measure's intent. The Hawaii Credit Union League, Security Title Corporation, First American Long and Melone Title Company, Ltd., the Hawaii Council of Associations of Apartment Owners, and three law firms, though not present at the hearing, submitted written testimony in support of the measure. An individual, though not present at the hearing, submitted written comments on the measure.

This measure makes certain clarifying amendments to the alternate power of sale foreclosure law by omitting the term "guarantor" which is a redundancy because the term "borrower" includes a guarantor, and by requiring that a public notice of a public sale be mailed or delivered, rather than "sent". Your Committee finds, however, that other provisions in this measure effect material changes to the law that remove certain consumer protection features from the foreclosure process.

This measure removes the requirements that a foreclosing mortgagee conduct two open houses of the mortgaged property before the public sale, that the mortgagor sign the document conveying title to the purchaser at a foreclosure auction, and that the foreclosing mortgagee develop public information materials about the alternate power of sale foreclosure process. The latter requirement is replaced by a requirement that the mortgagee place a warning in the mortgage agreement regarding the risk of foreclosure upon default.

Your Committee finds that an open house requirement ensures that mortgagors with equity in their property have an opportunity to show the property and maximize its sale potential. Your Committee further finds that the language proposed in lieu of the public information requirement is inadequate to protect consumers. The language provides no specifics about the alternate power of sale foreclosure process, and is not required to be conspicuously placed or acknowledged. Your Committee further finds that the substantive changes to the foreclosure law effected by this measure would create an imbalance in the foreclosure process that favors the lender.

Therefore, upon careful consideration of the testimony presented, your Committee has amended this measure by:

- (1) Deleting sections 3 and 4 which would have deleted the requirement of two open houses, and making conforming amendments to sections 2 and 6 in order to retain the open house requirement;
- (2) Deleting section 5 in order to retain the requirement that the mortgagor or borrower sign the conveyance document;
- (3) Deleting section 7 relating to power of sale, and retaining the public information requirement;
- (4) Amending section 667-41, Hawaii Revised Statutes (HRS), to require that the Office of Consumer Protection (OCP) approve any informational materials developed by a foreclosing mortgagee;
- (5) Amending section 667-22, HRS, to require that the foreclosing mortgagee provide informational materials with the first notice of default; provided that if the mortgagee has not yet developed informational materials that have been approved by the OCP, the mortgagee shall provide a copy of the alternate sale of foreclosure law with the notice of default;
- (6) Amending the purpose section of this measure to conform to the above amendments; and
- (7) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 777, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 418 Commerce and Consumer Protection on S.B. No. 828

The purpose of this measure is to prohibit businesses from charging women differently from men for similar services.

The Commission on the Status of Women and the Hawaii Civil Rights Commission presented testimony in support of the measure.

Your Committee finds that existing law already prohibits any business from discriminating against any person based on gender. This measure specifically prohibits businesses from discriminating, with respect to the price charged for services of the same or similar nature, against a person based on gender.

Your Committee believes that although existing law already prohibits such practices, further clarification is needed to ensure that the practice of inequitable pricing based solely on gender is not perpetuated.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 828 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Hanabusa).

SCRep. 419 Commerce and Consumer Protection on S.B. No. 948

The purpose of this measure is to allow eligible retired beneficiaries of the Public Employees' Health Fund (Health Fund) to participate in a supplemental plan to Medicare Part B offered by an employee organization.

The measure accomplishes this by authorizing the Health Fund to pay Medicare Part B reimbursements to retired employee-beneficiaries and their spouses who are enrolled in a supplemental plan managed by a separate employee organization.

Testimony in support of the measure was received from the Hawaii State Teachers Association. The Department of Budget and Finance testified in opposition to the measure. The Public Employees' Health Fund provided comments on the measure.

Your Committee finds under existing law, retirant-beneficiaries of the Public Employees' Health Fund who choose to subscribe to another organization's supplemental plan to Medicare Part B are not eligible to receive the same supplemental moneys provided to retirant-beneficiaries who contract their supplemental plan to Medicare Part B from the Health Fund.

Your Committee believes that the measure will help in addressing the anti-competitive nature of the Health Fund in that it will encourage retired employee-beneficiaries to enroll in employee organization health plans. The resultant effect will be an exodus of older members of the Health Fund who, because of their age, cost the Health Fund more to insure. Consequently, the loss of older members will lower health plan costs for the younger members who remain.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 948 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 420 Commerce and Consumer Protection on S.B. No. 1129

The purpose of this measure is to require insurance agents to complete an approved continuing education course in order to renew a license.

This measure also:

- (1) Creates an insurance licensing administration special fund to pay for expenses of the Insurance Commissioner relating to licensing and continuing education of insurance agents; and
- (2) Increases the licensing fees for insurance agents and insurance companies.

Testimony in support of this measure was presented by the Insurance Commissioner, State Farm Insurance Companies, Hawaii State Association of Life Underwriters, and Hawaii Independent Insurance Agents Association.

Your Committee finds that the lack of a continuing education program has put local agents and solicitors at a disadvantage because their licenses are not entitled to reciprocity in other states, and they cannot sell insurance products in other states.

This measure would establish new licensing guidelines for all insurance agents that include continuing education credit requirements. However, your Committee notes a concern regarding the provision requiring an automatic appropriation of a portion of the moneys credited to the fund each year for continuing education expenses of the Insurance Commissioner. No other state fund is allowed such automatic appropriation, as the appropriation process is the legislature's power of oversight.

Accordingly, your Committee has amended this measure by deleting the automatic appropriation provision and by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 421 (Joint) Commerce and Consumer Protection and Education and Technology on S.B. No. 1238

The purpose of this measure is to transfer to the Department of Commerce and Consumer Affairs the responsibility for the licensing and regulation of schools for acupuncture, barbering, cosmetology, massage, and real estate.

The Department of Education (DOE) presented testimony in support of the measure's intent. The Department of Commerce and Consumer Affairs (DCCA) presented testimony in opposition to the measure and proposed amendments. An individual not present at the hearing submitted written testimony on the measure.

Currently, the DOE has jurisdiction over the licensing and regulation of private trade, vocational, or technical schools, subject to certain exceptions. This measure proposes to establish responsibility for the licensing and regulation of acupuncture, barbering, cosmetology, massage, and real estate with the respective profession's licensing body within the DCCA.

Your Committees find that certain provisions in this measure are flawed or redundant for the following reasons:

- (1) Effective September 1, 2000, only acupuncture schools accredited by the Accreditation Commission for Acupuncture and Oriental Medicine will be recognized by the Board of Acupuncture and the Board's recognition of DOE-licensed trade schools will become obsolete. Since DOE licensure will no longer be necessary, a transfer of the oversight for licensing acupuncture schools to the Board of Acupuncture is similarly unnecessary;
- (2) The DCCA, through the Real Estate Commission, already licenses and regulates real estate schools; and
- (3) The DCCA, through the Board of Barbering and Cosmetology, already licenses and regulates cosmetology schools.

Upon careful consideration of all the testimony presented, your Committees have amended this measure by:

- (1) Deleting from the purpose section (section 1) and section 12 of this measure relating to the licensing of private trade schools, references to acupuncture, cosmetology, and real estate;
- (2) Deleting sections 2 and 3 of this measure relating to the licensing and regulation of acupuncture practitioner schools;
- (3) Deleting sections 6 and 7 of this measure relating to the licensing and regulation of beauty operator schools;
- (4) Deleting sections 10 and 11 of this measure relating to the licensing and regulation of real estate schools;
- (5) Deleting section 13 of this measure which makes the unlicensed operation of an acupuncture practitioner school a misdemeanor;
- (6) Deleting section 15 of this measure which establishes penalties for the unlicensed operation of a beauty operator school;
- (7) Deleting section 17 of this measure which establishes a penalty for a violation of chapter 467, Hawaii Revised Statutes, by a real estate school;
- (8) Requiring the DCCA to conduct an assessment on the need for the regulation of barbering and massage therapy schools, and the resources and legislation required to implement regulation, and to report its findings to the 2000 Legislature;
- (9) Extending the effective date for licensing and regulating massage and barbering schools to January 1, 2001, with the rest of the bill effective upon approval; and
- (10) Making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1238, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1238, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 5 (Bunda, Chumbley, Hanabusa, Matsunaga, Matsuura).

SCRep. 422 Commerce and Consumer Protection on S.B. No. 1287

The purpose of this measure is to provide identifiable employee-beneficiaries of the Public Employees' Health Fund (Health Fund) who contributed moneys to the Health Fund in years where an excess was collected with a rate credit.

The measure also enables the Health Fund to utilize the excess available funds to subsidize health plan costs.

Testimony in support of the measure was received from the Public Employees' Health Fund.

Your Committee finds that the Health Fund currently has an available balance of \$17,723,841 in employee contributions that are in excess of the needs of the Health Fund. Under existing law, the Health Fund does not have the authority to rebate this money back to the employee-beneficiaries who contributed to the fund. Additionally, the Health Fund is holding \$1,459,996 in employer contributions that could be refunded to the public employers if this measure was enacted.

Your Committee has amended the measure by making technical, nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1287, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1287, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Hanabusa, Ihara).

SCRep. 423 Commerce and Consumer Protection on S.B. No. 1294

The purpose of this measure is to require eligible employee-beneficiaries of the Public Employees' Health Fund and their spouses to enroll in the Federal Medicare Part B insurance program.

The measure accomplishes this by mandating enrollment upon penalty of an employee-beneficiary being excluded from receiving contributions for a supplemental insurance plan and from participating in Public Employees' Health Fund benefit plans. The measure also enables the Public Employees' Health Fund to grant exceptions on a case-by-case basis for those employee-beneficiaries who are either ineligible or otherwise not able to enroll in Medicare Part B coverage.

Testimony in support of this measure was submitted by the Public Employees' Health Fund.

Your Committee finds that requiring eligible employee-beneficiaries of the Public Employees' Health Fund and their spouses to enroll in the Federal Medicare Part B insurance program will result in reduced costs to the Health Fund as well as to public employers.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1294 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 424 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 1235

The purpose of this measure is to establish a temporary Governor's Task Force on Alternative Medicine.

The Department of Health presented testimony in support of the measure's intent, but recommended that in lieu of establishing a Task Force, the State continue to seek information about alternative medicine through national and local organizations. The Insurance Commissioner, though not present at the hearing, submitted written testimony supporting the measure's intent and proposing that the alternative medicine issue be reviewed by the Patient Rights and Responsibilities Task Force.

The Hawaii Nurses' Association presented testimony in support of the measure and proposed an amendment to add a professional nursing representative to the Task Force. Two individuals presented testimony in support of the measure and proposed an amendment to include naturopathic physicians on the Task Force. The Hawaii Medical Services Association, although not present at the hearing, submitted written testimony supporting the measure and proposing that a health plan representative be added to the Task Force.

Your Committees find that a growing number of individuals seeking treatment for a variety of medical conditions, including HIV, cancer, arthritis, and back pain often turn to alternative forms of treatment such as folk medicine, herbal medicine, diet fads, homeopathy, faith healing, new age healing, chiropractic, acupuncture, naturopathy, massage, aroma therapy, and music therapy. Your Committees further find that certain alternative medical treatments, such as acupuncture, have achieved greater medical acceptance than other types of treatment, and that the record of treatment effectiveness in the field of alternative medicine is uneven.

This growth in the use of alternative forms of medical treatment affects consumers, providers, and insurers, alike. Your Committees believe that there is extensive research on the efficacy of alternative medicine available to the Task Force. The primary focus of the Task Force, then, should be to examine the various forms of alternative medicine and make recommendations to the Governor and the Legislature regarding the ways to stimulate growth of alternative medicine.

Your Committees have amended this measure by:

- (1) Revising the make-up of the membership of the Task Force to add two members representing health insurers, and representatives of nurses and naturopaths;
- (2) Deleting the requirement that the Task Force examine the efficacy or ineffectiveness of alternative medicine; and
- (3) Making technical, nonsubstantive amendments for clarity and to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1235, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1235, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 5 (Bunda, Fukunaga, Ihara, Levin, Matsuura).

SCRep. 425 Health and Human Services on S.B. No. 843

The purpose of this measure is to make an appropriation for the rehabilitation of members of youth gangs.

Your Committee received testimony in support of this measure from the Department of Human Services, the Adult Friends for Youth representatives from five high schools on Oahu, and three individuals associated with it.

The prevailing view of youth gangs is that they are a menace to society, whether they are making graffiti, committing thefts, using and selling drugs, possessing weapons, or engaging in violent conduct. Most of these acts are criminal and the juveniles are considered to be law violators by the family courts. Gang members appear to be aware that their lives are precarious, while they hope for something better they are still uncertain about what to do to improve their lives. The legislature finds that there are private programs that can help gang members to turn their lives around for the better.

Your Committee has amended this measure by:

- (1) Deleting a reference to the Adult Friends for Youth;
- (2) Deleting a paragraph relating to the National Resource Center for Youth Services;
- (3) Deleting a paragraph stating that the State has no rehabilitation plan or program;
- (4) Clarifying that the funds are to be used by the Office of Youth Services to partner with nonprofit, youth service organizations; and
- (5) Changing the appropriation to be allocated over the next two fiscal years at \$500,000 a year.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 843, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 843, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 426 Health and Human Services on S.B. No. 47

The purpose of this measure is to eliminate, reduce, or alleviate the general excise tax on certain health care services.

Your Committee received testimony in support of this measure from the Healthcare Association of Hawaii, Central Oahu Physician Hospital Organization, and Wahiawa Hospital Association which presented a petition with numerous signatures. Informational testimony was presented by the Tax Foundation of Hawaii. The Department of Taxation submitted testimony that commented on the measure.

Your Committee finds that this measure is intended to alleviate the imposition of the general excise tax on health care services in recognition of the reshaping of the health care delivery system through a system of managed care and medical consultation through telecommunications. By reducing or eliminating the general excise tax when the services are sold to a foreign patient or provided in a site out of the State, this measure enables Hawaii to become a center for health care in the Pacific Rim. It also clarifies the taxation of the various formations and relationships in the health field.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 47 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 427 (Joint) Health and Human Services and Education and Technology on S.B. No. 1196

The purpose of this measure is to make an appropriation for drug treatment, counseling, and intervention services at King Intermediate School.

Your Committees received testimony in support of this measure from the Department of Education (DOE), Department of Health (DOH), Governor Samuel Wilder King Intermediate School (King Intermediate), Alcoholic Rehabilitation Services of Hawaii, Inc., seventeen teachers and staff at King Intermediate, and a private citizen.

Your Committees find that there is a critical need for drug treatment, counseling, and intervention services at the intermediate school level in schools such as King Intermediate. The program at King Intermediate is operated by Teen Care, which has many substance abuse treatment, counseling, and intervention programs in the high schools.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1196 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 3 (Matsunaga, Tam, Anderson).

SCRep. 428 (Joint) Health and Human Services and Judiciary on S.B. No. 601

The purpose of this bill, as received by your Committees, is to establish a substance abuse policy council within the Office of the Governor to develop statewide policy regarding education, prevention, and treatment programs.

Your Committees find that substance abuse and its attendant problems has risen to a level of epidemic proportion that needs to be addressed in a comprehensive manner within our State. However, your Committees note that statewide policy and interagency collaboration is non-existent, and the efforts of the several state agencies to address substance abuse have been fragmented. In order to effectively address this growing problem and eliminate fragmentation of the State's efforts, your Committees believe that there is an urgent need to establish a state-level integrated policy council to develop statewide policy and identify funding sources for substance abuse education, intervention and treatment programs and services.

Testimony in support of this measure was submitted by the Office of Youth Services, the Community Alliance on Prisons and one private citizen. Testimony in opposition to this measure was submitted by the Department of Health and the Hawaii Substance Abuse Coalition. Testimony with comments was submitted by the Libertarian Party of Hawaii.

Upon further consideration, your Committees have amended this measure by:

- (1) Changing the membership of the substance abuse policy council to add the mayors from each county, add the chair of a community alliance advisory committee, and delete all other community members;
- (2) Designating the Governor as the chair of the policy council and requiring the council to meet not less than once per month;
- (3) Requiring the policy council to establish and appoint members of the community to serve in an advisory capacity to assist the council in the development of the statewide integrated substance abuse policy;
- (4) Repealing the duties of the Department of Health with regard to the development of a state substance abuse plan;
- (5) Requiring the Department of Health to submit an annual report to the policy council detailing its progress in the implementation of the statewide master plan adopted by the policy council;
- (6) Repealing the duties of the Department of Public Safety and other agencies to establish an advisory board to implement the provisions of the Criminal Offender Treatment Act; and
- (7) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 601, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 601, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Sakamoto, Tanaka, Anderson).

SCRep. 429 Health and Human Services on S.B. No. 1052

The purposes of this administration measure is to make clarifying amendments to Act 302, Session Laws of Hawaii (SLH) 1996, relating to a child protective services reform coordinating committee and to extend the sunset date for Act 302 from June 30, 1999, to June 30, 2002.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Office of Youth Services, Neighborhood Place of Kona, and Blueprint for Change. Testimony in opposition was received from the Hawaii Government Employees Association.

This measure permits the Director of Human Services rather than the Governor to appoint members of the child protective services reform coordinating committee. It allows the DHS to share information with the neighborhood places, with applicable confidentiality. Finally, this measure extends the sunset date of Act 302, SLH 1996. Your Committee believes that this measure will allow the coordinating committee to be more effective and efficient in performing its required functions.

The Hawaii Government Employees Association (HGEA) expressed concerns that the Child Protective Services Coordinating Committee should have more representatives from the line staff, such as employees from assessment, case management, and foster home licensing, on the committee. Your Committee concurs with the HGEA suggestion and recommends strongly that the DHS ask representatives from these groups of line staff to become members of the committee. The Director of the Department of Human Services expressed enthusiasm and willingness to invite representatives from these groups of line staff to be on the committee.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1052, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1052, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 430 Health and Human Services on S.B. No. 159

The purpose of this measure is to make an appropriation for vocational rehabilitation and services for the blind.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Hawaii State Coordinating Council on Deafness, Aloha State Association of the Deaf, and Hawaii Association of the Blind.

This measure would enable the DHS to increase its resources to provide vocational rehabilitation services to the blind to enable them to return to work.

Your Committee has amended this measure on the recommendation of the DHS to include an amount for an American sign language/English interpreter.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 159, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 431 Health and Human Services on S.B. No. 217

The purpose of this measure is to appropriate funds to assist the Hana Community Health Center in the development of a wellness center. In particular, this measure will provide the funding to develop and assess the feasibility of the wellness center, including a business plan.

Testimony in favor of this measure was received from members of the Maui County Council and Hana Community Health Center. Testimony in favor of the intent of this measure was received from the Hawaii State Department of Health and one member of the Maui County Council.

Your Committee finds that residents of East Maui have produced some of the lowest health and socio-economic indicators in the State. It has been the goal of the Hana Community Health Center to develop a wellness center as a part of a three year strategic plan to address the future needs of the rural community. The wellness center should empower the people of Hana to become actively involved in their own wellness through the provision of culturally appropriate programs that modify behavior and lead to long term healthy lifestyles.

The wellness center supported by this measure will assist residents to integrate healthful patterns, such as good nutrition and exercise, into their current lifestyles. The project includes the following programs: nutrition and healthy cooking, fitness training, relaxation and alternative healing remedies, and behavior modification classes.

It is your Committee's intent that funding provided in this measure should not displace the annual base subsidy requested by Hana Community Health Center of \$1 million for each year of the Biennium in order to assure a successful transition from State to non-profit ownership.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 217 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 432 Health and Human Services on S.B. No. 175

The purpose of this measure is to make appropriations for the protection of children and families.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Department of Health (DOH), University of Hawaii School of Nursing, PACT, Hawaii Community Foundation, Catholic Charities, Waipahu Neighborhood Place, YMCA, Neighborhood Place of Kona, Hawaii Children's Trust Fund, The Salvation Army Family Treatment Services, Blueprint for Change Task Force, Hawaii Family Support Center, The Junior League of Honolulu, Inc., Hawaii Chapter of American Physical Therapy Association, and two private citizens.

Specifically, this measure makes appropriations for:

- (1) DOH child death review teams to hire personnel;
- (2) Attorney General's family law division to hire personnel;
- (3) DHS to prevent child abuse and neglect;
- (4) Hawaii Children's Trust Fund;
- (5) Healthy Start program for services for families "at risk";
- (6) Substance abuse and treatment services of the DHS for pregnant and parenting women and their families;
- (7) Blueprint for Change program ("Neighborhood Place") of the DHS;
- (8) Foster parent training; and
- (9) Psychosocial support services programs ("The Parent Line" and "Home Reach") of the DOH.

Your Committee finds that the appropriations contained in this measure are necessary to prevent child abuse. The various programs focus on different aspects of a total matrix of effective prevention with proven success. Each program fits into continuum of enforcement and prevention services that are necessary to effectively address child abuse and neglect in Hawaii.

Your Committee has made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 175, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 175, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 433 Health and Human Services on S.B. No. 178

The purpose of this measure is to make an appropriation for the Healthy Start program.

Your Committee received testimony in support of this measure from the Department of Health (DOH), PACT, American Academy of Pediatrics, Hawaii Family Support Center (Healthy Start), The Salvation Army Family Treatment Services, American Physical Therapy Association, and a private citizen.

Your Committee finds that child abuse and neglect causes mental health problems in children, which is one of the most critical issues for the State to address. Cases of child abuse have escalated in numbers and severity. Your Committee believes that Healthy Start has demonstrated its success in preventing child abuse and neglect through early intervention and family support such as education and counselling.

This measure provides funds for current services and to expand services of the Healthy Start program, a purchase of service by the DOH. The Felix Consent Decree requires that Healthy Start programs have the capacity to conduct universal screening of all children by the end of the year 2000, but does not require the provision of services to families determined to be at risk. This requires that Healthy Start programs are adequately funded for this purpose.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 178 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 434 Health and Human Services on S.B. No. 103

The purpose of this measure is to appropriate funds to implement the Ka'u Rural Health Plan.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hawaii State Primary Care Association, Office of Hawaiian Affairs, ILWU Local 142, Bay Clinic, and two private citizens.

The DOH, in its 1996 study "Primary Care Needs Assessment", found that the Kula area ranked second as the highest risk area in terms of health and socio-economic risk, and has the highest risk in maternal and child health risk indicators, such as infant mortality,

inadequate prenatal care, low birth weight, medically risky births, and teen births. This measure implements the DOH's rural health plan for the Island of Hawaii, including the districts of Puna and Ka'u, to ensure the improvement of health facilities and to make available sufficient medical services to all area residents.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 103 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 435 Health and Human Services on S.B. No. 579

The purpose of this measure is to appropriate funds for a dialysis machine for Molokai patients.

Your Committee received testimony in support of this measure from Molokai General Hospital (MGH), Council Chair Patrick S. Kawano and Council Members J. Kalani English and Mike Davis of the County Council of the County of Maui, and Office of Hawaiian Affairs. The Hawaii Health Systems Corporation (HHSC) provided comment.

According to MGH, this measure is not for the purchase of a dialysis machine, but to continue existing home hemodialysis services to patients on Molokai. Molokai does not currently have a dialysis facility, but St. Francis Medical Center has committed to establishing a facility this year. In the meantime, patients remain at home to receive their life-sustaining treatments. MGH administers a program for home hemodialysis services to those patients who can medically remain at home with home dialysis machines rather than travelling off-island for treatment.

Your Committee has amended this measure by:

- (1) Changing the purpose of the appropriation to funding for home hemodialysis services;
- (2) Adding a purpose section; and
- (3) Changing the expending agency to the Department of Health, because the HHSC is not involved with these services.

Your Committee notes that the amended measure may not be covered by its title and requests the Committee on Ways and Means find an appropriate measure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 579, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 436 Health and Human Services on S.B. No. 1197

The purpose of this measure is to make an appropriation for the Waianae Coast Comprehensive Health Center (WCCHC).

Your Committee received testimony in support of this measure from the Department of Health, WCCHC, Office of Hawaiian Affairs, Aloha Care, and two private citizens.

Your Committee finds that the WCCHC may close its emergency room unless it receives funds appropriated by this measure.

Your Committee has amended this measure on the request of the WCCHC to change the amount appropriated from \$266,446, to \$855,433, for each of the next two fiscal years.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1197, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1197, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 437 Health and Human Services on S.B. No. 1231

The purpose of this measure is to require employers to adopt written smoking policies with specified minimum standards.

Your Committee received testimony in support of this measure from the Department of Health (DOH), American Lung Association, Hawaii Nurses' Association, and Coalition for a Tobacco Free Hawaii. Informational testimony was provided by the

Department of Education and American Heart Association. Testimony in opposition was received from the United Public Workers and Legislative Information Services of Hawaii.

According to the DOH, environmental tobacco smoke (ETS), commonly known as secondary smoke, is the third leading preventable cause of death in the United States today, behind active smoking and alcohol. The Environmental Protection Agency classifies ETS as a "Class A" carcinogen. This category is reserved for the most serious cancer causing substances, such as radon, asbestos, and benzene. Nationally, 53,000 deaths annually are attributable to ETS exposure.

According to the DOH, existing laws are obsolete. However, your Committee believes that the problem is one of enforcement rather than obsolescence. This measure is intended to clarify and strengthen the law while equitably balancing the competing concerns of business and public health.

Your Committee has amended this measure on the recommendation of the DOH by:

- (1) Deleting the requirement that employers adopt a written smoking policy with specified standards;
- (2) Changing from five to two the number of persons employed by a private entity for purposes of defining "employer"; and
- (3) Clarifying the definition of "office workplace" to exclude partially enclosed structures.

Your Committee also has made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1231, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1231, S.D. 1, and be referred to the Committee on Labor and Environment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 438 Health and Human Services on S.B. No. 104

The purpose of this measure is to require licensure of physician assistants.

Your Committee received testimony in support of this measure from the Board of Medical Examiners, State Auditor, Hawaii Academy of Physician Assistants, and a private citizen. Comments were provided by the Hawaii Nurses' Association.

This measure is a recommendation of the Auditor, as contained in "Analysis of a Proposal to Modify the Regulation of Physician Assistants", Report No. 98-19, November 1998. The current statutory terminology is "certification". The change to "licensure" means that physician assistants would be able to prescribe controlled substances under chapter 329, Hawaii Revised Statutes, which restricts the writing of prescriptions to "licensed" practitioners who are also registered with the Department of Public Safety's Narcotics Enforcement Division. However, the division does not interpret "certification" to mean "licensure", and will not register physician assistants even though the Board of Medical Examiners administrative rules allow supervising physicians to allow physician assistants to prescribe medications, including controlled substances.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 104 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 439 Health and Human Services on S.B. No. 513

The purpose of this measure is to allow family child care homes to operate in condominiums, townhouses, and apartments.

Testimony in support of this measure was received from the Children with Special Needs Branch of the Family Health Services Division of the Department of Health, Good Beginnings Alliance, Parents and Children Together, People Attentive to Children, five child care providers, twelve private citizens, and numerous private citizens who signed petitions submitted to your Committee. Testimony in opposition was received from the Department of Human Services (DHS), Hawaii Association of Realtors, Management Specialists Company, Association of Apartment Owners of Makakilo Hale 1, and a private citizen. Informational testimony was provided by the Real Estate Commission, Adults and Childrens Alliance, State Farm Insurance Company, and Redleaf National Institute.

Your Committee finds that current laws do not permit family child care homes to operate in condominiums, townhouses, and apartments. Yet, your Committee feels that the need for child care is undisputed and that more child care homes should be allowed in these buildings. However, apartment owner associations typically disallow child care homes for fear of liability. This measure is intended to assuage the concerns over liability by requiring the family child care home to obtain liability insurance to cover the child care home.

Your Committee has considered the comments of the Real Estate Commission and its reference to the Attorney General's Report pursuant to Act 303, Session Laws of Hawaii 1996. Your Committee responds to the concerns raised as follows:

- (1) The "unintentional conflict" between subsections (a) and (b) in section 1 is resolved in the measure, as amended;
- (2) Additional costs are a factor, but your Committee believes that the competition among insurers and the relatively safe track record of child care homes will mitigate against high insurance premiums;
- (3) The measure, as amended, applies to existing and future family child care homes, and since there are no large numbers of family child care homes, the imposition upon the common interest communities should be minimal and outweighed by a legitimate state interest in the matter; and
- (4) Potential unlimited liability to the association is resolved in the measure, as amended, by providing that the association's liability is limited to the amount of indemnification from the family child care home.

Your Committee has amended this measure by:

- (1) Providing that family child care homes shall not be prohibited in a condominium, apartment, or townhouse;
- (2) Requiring that any improvements to the family child care home or to the common elements to comply with the Americans With Disabilities Act (ADA) shall be done and paid for by the family child care home;
- (3) Allowing the family child care home and the association of apartment owners (APO) to consult with the Commission on Persons with Disabilities for advice on ADA compliance;
- (4) Requiring the operator of the family child care home to obtain approval of the APO before doing any construction to the home or to the common areas for APO compliance purposes;
- (5) Providing immunity from liability for the APO for injuries to a child being cared for, or to the child's relatives, guardians, and caretakers that occur in the family child care home or on the common elements;
- (6) Allowing the APO to require a family child care home, as a condition precedent to operating a child care home, to:
 - (A) Indemnify the APO for damages;
 - (B) Reimburse the APO for increases in insurance premiums;
 - (C) Require the child's parent, guardian, or caretaker to sign a waiver of liability against the APO; and
 - (D) Obtain liability insurance covering the family child care home and the common elements, and naming the APO as an additional insured;
- (7) Providing definitions for terms used;
- (8) Deleting the:
 - (A) Limitation on indemnification of the APO as to excluding the common elements and as to policy limits of the liability policy of the family child care home;
 - (B) Prohibition on the child care home from settling any claims without prior approval of the APO;
 - (C) Liability of the APO for injury or death to the amount of indemnification from the family child care home;
 - (D) References to "homeowners association" and including this term in the new definition of "association of apartment owners"; and
 - (E) Section 2 of the measure, relating to property insurance.

Your Committee has also made technical, nonsubstantive amendments for clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 513, S.D. 1, and be referred to the Committee on Government Operations and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 440 Health and Human Services on S.B. No. 856

The purpose of this measure is to reorganize and streamline adult residential care facilities.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Department of Health (DOH), Executive Office on Aging, State Planning Council on Developmental Disabilities, Healthcare Association of Hawaii, Policy Advisory Board for Elder Affairs, American Association of Retired Persons, Hawaii Long Term Care Association, Alliance for Residential Care Administrators, Hawaii Women Lawyers, and Big Island ARCH Association.

This measure is a recommendation of the Joint Legislative Committee on Long-Term Care Financing (JLC), created pursuant to Act 339, Session Laws of Hawaii (SLH) 1997. House Concurrent Resolution No. 225, SLH 1998, directed the JLC to create a Subcommittee to study long-term care (LTC) residential facilities in Hawaii.

Your Committee finds that the need for adequate and decent long-term residential care for Hawaii's elders is growing immensely with the demand outstripping the supply. Unfortunately, the organization and regulation of residential care facilities in Hawaii are fragmented. This tends to reduce cost-effectiveness and hampers operational effectiveness in the delivery of residential care services.

Your Committee further finds that there is a lack of overall direction and guidance at the state level regarding the delivery of LTC to Hawaii's residents. Specifically, there is no vision of how residential care facilities and services may be used to alleviate the burden of LTC in Hawaii. This is reflected in the fragmented structure of regulation for a plethora of residential care category types in the Hawaii Revised Statutes (HRS) and the Hawaii Administrative Rules.

This measure is intended to respond to a compelling need to clearly define how residential care facilities and their services can be utilized effectively and efficiently. Your Committee desires to improve the organizational structure and regulatory processes based on a more rational, consolidated, and equitable reorganization of the LTC residential care system, in order to benefit consumers of the system.

Your Committee has amended this measure by:

- (1) Clarifying the definition of "adult foster home for persons with developmental disabilities" by adding assistance to residents to increase or maintain self-help and decision-making skills and promoting inclusion and self-determination;
- (2) Deleting a reference to "handicapped" under the definition of "adult residential care home" and inserting "persons with a disability";
- (3) Clarifying the definition of "developmental disabilities domiciliary home" by adding that residents not be related to the home operator or facility staff;
- (4) Clarifying the definitions of "expanded adult foster home for persons with developmental disabilities" and "expanded developmental disabilities domiciliary home" by adding that residents not be related to the family living in the home and that the primary caregiver be qualified to care for more than two residents who may require intermediate care facility for the mentally retarded level of care;
- (5) Changing a reference from "three" to "two" facility categories under section 321-E, in section 1 of the measure;
- (6) Clarifying in section 321-H that the DOH shall maintain a current inventory of vacancies in all of the adult residential care facility categories, rather than only adult residential care homes and expanded adult residential care homes;
- (7) Deleting the entire section 321-L relating to authority for licensure, and inserting provisions to require the DOH to adopt rules to license each of the entities defined in section 321-B with specific requirements for developmental disabilities domiciliary homes and adult foster homes for persons with developmental disabilities;
- (8) Clarifying the definition of "adult residential care facility" in section 46-15.3, HRS, to mean any of the entities defined under section 321-B of this measure;
- (9) Deleting sections 16, 17, and 24 of the measure which repeal two statutory provisions and inserting a repeal of section 1 of Act 132, SLH 1998, which is the equivalent effect and is a more appropriate manner of repeal;
- (10) Adding an appropriation of \$1,000,000, for fiscal year 2000-2001, for the DOH to implement the Act;
- (11) Providing that existing administrative rules continue in effect until new rules are adopted; and
- (12) Making technical, nonsubstantive amendments.

Your Committee intends that residents of LTC facilities not have their lives disrupted when the new administrative rules take effect if a home operator is found to be noncompliant with the new rules.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 856, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 441 Health and Human Services on S.B. No. 1609

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to fund the establishment of health care facilities in the State by not-for-profit corporations.

Specifically, the measure authorizes the issuance of \$13,100,000 in special purpose revenue bonds and appropriates the same sum for the Wahiawa Central-Oahu Health Center, Inc., a not-for-profit Hawaii corporation, to establish and operate a health care facility in Central Oahu.

Testimony in support of the measure was received from the Wahiawa Hospital Association, Wahiawa General Hospital, Central Oahu Physician Hospital Organization, and a petition containing numerous supporters of the measure.

Your Committee finds that there is a pressing need to provide affordable, quality health care facilities for Hawaii's citizens. By authorizing the issuance of special purpose revenue bonds for this purpose, the State will be assisting in the provision of low cost financing for projects that meet this pressing need.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1609 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 442 Health and Human Services on S.B. No. 824

The purpose of this measure is to enact statutory provisions for osteoporosis prevention and treatment education.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hawaii State Commission on the Status of Women, and League of Women Voters of Hawaii.

This measure requires the DOH, in cooperation with the Department of Education and the Executive Office on Aging, to establish, promote, and maintain an osteoporosis prevention and education program in order to raise public awareness, educate consumers, and educate and train health professionals, teachers, and humans services providers.

According to the DOH, osteoporosis is a serious chronic condition, especially for women, because of its silent progression over many years and its lack of a cure. A large percentage of the aging population are women and osteoporosis decreases their quality of life and increases health care costs. Since there is no cure for osteoporosis, the key is prevention, early detection, and treatment.

Your Committee finds that the creation of a statewide osteoporosis prevention and treatment program, which includes all ages of the population is a very worthwhile endeavor for the State.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 824 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 443 Health and Human Services on S.B. No. 1049

The purpose of this administration measure is to allow foster boarding payment if the eligible foster child is attending an accredited institution of higher learning on a part-time basis for the first academic year.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS).

Your Committee believes that foster boarding children should be given the opportunity to better themselves by attending an institution of higher learning on a part-time basis for the first year. Many foster children must attend school part-time in order to work to support themselves while attending school. This measure allows them to do that without losing their foster boarding support.

Your Committee has amended this measure to make technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1049, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1049, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 444 Health and Human Services on S.B. No. 395

The purpose of this measure is to appropriate funds for the medically underserved populations.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Health, Hawaii State Primary Care Association, Aloha Care, Kalihi-Palama Health Center, Waianae Coast Comprehensive Health Center, Kokua Kalihi Valley, Hawaii Nurses' Association, and a private citizen.

Your Committee finds that the need to support health care for medically underserved populations is critical. It is well known that these patients have disproportionately more serious and chronic diseases than the general population. Their only source of medical care is community health centers which are considered primary health care providers. The situation is especially critical for children who need adequate medical care and attention in order to grow and develop properly and to reach their full learning potential.

Your Committee has amended this bill by:

- (1) Clarifying the last finding paragraph to include nonprofit organizations and the uninsured population; and
- (2) Deleting the appropriation for medically underserved populations and inserting an appropriation of \$5,854,062 for eight community health centers on three islands.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 395, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 395, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Levin).

SCRep. 445 Health and Human Services on S.B. No. 853

The purpose of this measure is to establish a safety net health plan program for the distribution of QUEST funds.

Your Committee received testimony in support of this measure from the Hawaii State Primary Care Association, Waikiki Health Center, Aloha Care, Bay Clinic Hilo, Hana Community Health Center, Kalihi-Palama Health Center, Waianae Coast Comprehensive Health Center, Hawaii Nurses' Association, and Kokua Kalihi Valley. Testimony in partial support was received from the Hawaii Medical Association. Testimony in opposition was received from the Department of Human Services (DHS).

This measure facilitates the transformation of the QUEST payment system of compensating providers from fee-for-service to managed care. QUEST providers are primarily community health centers, which bid annually for QUEST contracts with the DHS. Because of the capitated reimbursement structure of managed care, and particularly bid contracts, community health centers have become financially at-risk of closing or severely curtailing services. This measure is an attempt to equitably compensate QUEST managed care providers while assuring they do not profit unreasonably from QUEST.

Your Committee acknowledges that the DHS is in the process of procuring services for their QUEST program and that this process will not be completed until the end of February, 1999; however, your Committee also recognizes that the issue of safety net provider plans should be discussed further. Your Committee would like to pass this measure in an unamended form to provide the opportunity for the DHS and interested parties to discuss this issue further after the DHS's procurement process is completed.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 853 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 446 Health and Human Services on S.B. No. 398

The purpose of this measure is to make an appropriation to implement cost-effective programs for youths that teach character, responsibility, positive social values, and non-violence, in partnership with private sector and nonprofit organizations.

Your Committee received testimony in support of this measure from the Young Men's Christian Association of Honolulu.

Your Committee finds that there is a need for increased involvement by the State in the prevention and intervention of delinquent behaviors among the State's youth. There are programs to teach character, responsibility, positive social values, and non-violence. This measure provides valuable funding for these programs.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 398, and recommends that it pass Second Reading in and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 447 Health and Human Services on S.B. No. 120

The purpose of this measure is to make an appropriation for the Kauai Food Bank, Inc.

Your Committee received testimony in support of this measure from the Kauai Food Bank, Inc.

Your Committee finds that the Kauai Food Bank, Inc., an independent agency, serves the largest percentage of any county population in the State. It is the only food bank in the State to operate a fresh produce farm to feed the needy.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 120 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 448 Health and Human Services on S.B. No. 994

The purpose of this measure is to establish a temporary elder abuse review commission.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Department of Commerce and Consumer Affairs (DCCA), Executive Office on Aging, Department of the Prosecuting Attorney of the City and County of Honolulu, American Association of Retired Persons, ILWU, Policy Advisory Board on Elder Affairs, and a private citizen.

Your Committee finds that the frail and elderly dependent adult segment of Hawaii's elderly population is particularly vulnerable to abuse, neglect, and exploitation. Abuse crimes such as physical abuse, sexual abuse, emotional abuse, financial exploitation, neglect, abandonment, and self-neglect are all too common but not often reported to authorities. This measure is intended to study and analyze the issues and resources relating to elder and dependent adult abuse. Your Committee hopes that the findings and recommendations of the elder and dependent adult abuse review commission can provide remedies to the problem.

Your Committee has amended this bill on recommendation of the DHS and DCCA, as follows:

- (1) Changing all references to "elder abuse" to "elder and dependent adult abuse";
- (2) Substituting the DCCA for the office of consumer protection for representation on the commission;
- (3) Combining the legal services representation into one organization providing legal services to elders; and
- (4) Requiring representation on the commission from the Protection and Advocacy Agency of Hawaii and the Commission on Persons with Disabilities.

Your Committee has also made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 994, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 994, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 449 Health and Human Services on S.B. No. 1257

The purpose of this measure is to make appropriations for the development of a traumatic brain injury statewide strategic plan and the office of the project coordinator for that plan.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Department of Education (DOE), Traumatic Brain Injury Advisory Board, Hawaii Medical Service Association (HMSA), Hawaii Neuropsychology Community Research Bureau (Bureau), Brain Injury Association of Hawaii, and three private citizens.

This measure is intended to facilitate the work of the traumatic brain injury advisory board, created by Act 333, Session Laws of Hawaii 1997 (section 321-28, Hawaii Revised Statutes), to advise the DOH in the development and implementation of a comprehensive plan to address the needs of persons affected by disorders and disabilities involving the brain and developing services for persons with traumatic brain injury (TBI).

Your Committee finds that TBIs are unlike other illness or injury. There is very little known about recovery, and there are very few treatment programs. Those programs that do exist are incredibly expensive and located thousands of miles away on the mainland.

According to HMSA, over seven million TBIs occur annually in the United States, with 500,000 of them admitted to hospitals. In 1997, HMSA had 3,799 members diagnosed with TBI.

According to the Bureau, the Hawaii Health Information Corporation recorded an average of approximately 1,200 TBI hospital discharges annually, of which approximately fifty-six are children age 0-14. These figures do not include the mild and moderate TBI infants who do not receive immediately appropriate medical care and are therefore not included in these figures and are not treated appropriately. These figures do not reflect the secondary disabilities and impairments due to TBI. Although the prevalence of TBI is high, fewer than five per cent of TBI patients are hospitalized. The median age of TBI survivors is 18 years old, and approximately 29 per cent of them have a brain injury impairment by age 18. TBI survivors increase the risk for a second injury by three times, and for a third injury by eight times.

Further, according to the Bureau, the DOE's 1997 statistics for special education students identified and served 58 TBI disabled students, plus 2 Felix class TBI students. This number is probably a gross underestimation and reflects a lack of understanding about TBI impairments. Mild head injuries are often mistakenly attributed to other causes, resulting in treating the symptoms and not documenting a TBI.

Your Committee further finds that the costs of TBI are enormous and encompass every area of life. TBI significantly diminishes the quality of life for the survivor, family members, caregivers, and other community support persons. According to the Childrens' Safety Network, an average of two per cent of TBI children are discharged annually from hospitals, with functional limitations that were expected to last at least two years. The documented costs of TBI to children do not include costs related to lost time from work, court expenses, rehabilitation, and the like. The National Brain Injury Association reports that the lifetime costs of a severe TBI can exceed \$7 million. The cost of TBI is estimated at more than \$25 billion annually in the United States.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1257 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 450 Health and Human Services on S.B. No. 228

The purpose of this measure is to make an appropriation to establish a Maui Food Bank, Inc.

Your Committee received testimony in support of this measure from the Chair and Vice-Chair of the Maui County Council. Maui Foodbank, Inc., gave oral testimony in support of this measure.

Your Committee finds that the Maui Food Bank, Inc., presently serves approximately 9,000 clients per month, although assessing figures for rural areas is inherently difficult. There is still a great unmet need. The Maui branch of the Hawaii Foodbank, Inc., based on Oahu, closed abruptly in September, 1994, because of a lack of funds. Maui Food Bank, Inc., is presently trying to re-establish the Maui food bank operations as an independent entity. This measure is to assist in that regard.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 228 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 451 Health and Human Services on S.B. No. 865

The purpose of this measure is to establish a blue ribbon panel to improve services to the deaf, hard of hearing, and deaf-blind.

Your Committee received testimony in support of this measure from the Department of Human Service (DHS), Department of Health (DOH), American Sign Language/Interpreter Education Program at Kapiolani Community College, Aloha State Association of

the Deaf, Hawaii Services on Deafness, and a private citizen. Informational testimony was provided by the Commission on Persons with Disabilities.

Your Committee finds that there are an estimated 72,000 persons in Hawaii who are deaf, hard of hearing, or deaf-blind, who are receiving inadequate or unacceptable levels of public services. This measure convenes a blue ribbon panel to review existing services and to make recommendations accordingly to the legislature and the Governor.

Your Committee has amended this measure on the recommendations of the Commission on Persons with Disabilities, as follows:

- (1) Changing "deaf and blind" to "deaf-blind";
- (2) Making the "blue ribbon panel" the "governor's blue ribbon panel" and requiring the governor to make the appointments;
- (3) Changing the organizations to be represented on the panel;
- (4) Modifying the objectives of the panel's study;
- (5) Changing the programs and services to be reviewed by the panel;
- (6) Providing for a progress report before the 2000 session and a final report before the 2001 session; and
- (7) Changing the appropriation amount from \$5,000, to \$75,000, to include specified services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 865, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 865, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 452 Health and Human Services on S.B. No. 1057

The purpose of this administration measure is to conform existing state law to the federal Rehabilitation Act Amendments of 1998.

Testimony in support of this measure was received from the Department of Human Services, Commission on Persons with Disabilities, and Workforce Development Council.

This measure will change the name of the State Advisory Council on Rehabilitation to State Rehabilitation Council; increase the number of members on the council from nineteen to twenty-one; and require one representative of the state educational agency responsible for the public education of students with disabilities, one representative of the state workforce development council, and the administrator of the vocational rehabilitation division of the department of human services to the State Rehabilitation Council.

This measure will additionally require the council to advise the vocational rehabilitation division of the department on the extent, scope, and effectiveness of services provided, and performance of state agencies that affect or potentially affect the ability of individuals with disabilities in achieving employment outcomes; require the council to develop state goals and priorities, advise the vocational rehabilitation division of the department of human services regarding authorized activities, and assist in the preparation of the state plan and amendments to the plan, applications, reports, and evaluations.

The council will additionally have to conduct a review and analysis of the performance of the vocational rehabilitation division of the department, vocational rehabilitation services provided by state agencies, and employment outcomes achieved by eligible individuals receiving services.

Your Committee finds that this measure will conform state law with the federal Rehabilitation Act Amendments of 1998, which reflects the intent to increase the involvement of the State Advisory Council on Rehabilitation in improving services and to assure closer relationships with other government programs that are required to provide services to persons with disabilities.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057 and recommends that it pass Second Reading and be referred to the Committee on Labor and Environment.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 453 Health and Human Services on S.B. No. 838

The purpose of this measure is to provide funding for the operation of the Hana Community Health Center.

Testimony in favor of this measure was received from the Office of Hawaiian Affairs, members of the Maui County Council, Hana Community Health Center, and Papa Ola Lokahi. Testimony in favor of the intent of this measure was received from the Hawaii State Department of Health and one member of the Maui County Council. Testimony opposed to this measure was received from UPS AFSCME Local 646, AFL-CIO.

Your Committee finds that the State transferred the Hana Medical Center to the Hana Community Health Center in July 1997, with a commitment to continue providing needed financial support for the center's medical programs. This transfer is costing the State \$500,000 less than it was costing to run the facility prior to the privatization in July, 1997.

The Hana Community Health Center is the only health provider for the Hana district. Your Committee finds that native Hawaiians account for 65% of the patients served by the Hana Community Health Center and that the majority of Hana residents fall within the poverty rates.

Consequently, the Hana Community Health Center provides prevention oriented health care, acute and chronic care, urgent care, limited laboratory testing, limited x-ray services, and prepacked medications in lieu of a full pharmacy. Home health care is also provided for patients who are unable to come to the health center.

Your Committee finds that in fiscal year 1997-1998, the Hana Community Health Center provided services to 2,300 patients, which resulted in 6,214 patient visits. This was an increase of 14% over the previous year. The Hana Community Health Center requires \$1 million in fiscal year 1999-2000 and \$1 million in fiscal year 2000-2001 to maintain the current level of operation.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 838 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 454 Health and Human Services on S.B. No. 1504

The purpose of this measure is to make appropriations for emergency medical services for the City and County of Honolulu.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Emergency Services Department of the City and County of Honolulu (EMS), three members of the City Council of the City and County of Honolulu and one private citizen.

The City and County of Honolulu operates an emergency services system under contract with the DOH. According to EMS, the areas identified in this measure need additional emergency medical resources to take care of high rates of motor vehicle crashes, medical emergencies, and other trauma. Your Committee finds that rapid development and increased population in the Makakilo-Kapolei and Kahaluu-Kaaawa areas of the City and County of Honolulu, coupled with the limited existing ambulance services to these areas, necessitate that the State provide funds to increase emergency medical services for these areas.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1504 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 455 Health and Human Services on S.B. No. 1030

The purpose of this measure is to authorize the Hawaii Health systems Corporation to issue revenue bonds.

Your Committee received testimony in support of this measure from the Hawaii Health Systems Corporation.

This administration measure is intended for Hilo Medical Center for \$25,000,000, and for Kona Community Hospital for \$5,000,000, for plans, design, construction, equipment, and furnishings relating to these facilities.

Your Committee has amended this measure to make a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1030, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1030, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 456 Health and Human Services on S.B. No. 102

The purpose of this measure is to improve the provision of adequate health care services and related public transportation services for rural communities.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Department of Transportation (DOT), Hawaii State Primary Care Association, Bay Clinic, Ka'u Rural Health Task Force which submitted a petition with numerous signatures, the Office of Hawaiian Affairs, ILWU Local 142, and two private citizens. Informational testimony was received from Hawaii Health Systems Corporation.

The intent of this measure is to qualify Hawaii for federal Medicare rural hospital flexibility grants through the development of a statewide rural health plan, a new certification category for small rural hospitals, and to create a rural health fund. Your Committee finds that adequate health care for rural districts, particularly the Big Island, are sorely lacking. This measure is an outgrowth of the DOH's rural health plan for the island of Hawaii, particularly Puna and Ka'u, to ensure the improvement of health facilities and to make available sufficient medical services.

Your Committee has amended this measure on the recommendations of the DOH and the DOT, by:

- (1) Deleting language requiring the DOH to have a new certification category for rural critical access hospitals, since current licensing and certification arrangements are sufficient;
- (2) Requesting each county to create a position for rural transportation coordinator, rather than requiring the DOH to create one since it is not a DOH or DOT function to provide county rural transportation services;
- (3) Clarifying that the coordinator should develop the plan with the assistance of the DOH, county public transportation agencies, and private nonprofit agencies that provide transportation services to the elderly and disabled to enable affordable and convenient access to health care services; and
- (4) Deleting the requirement that the DOH incorporate the plan into its rules, since a plan would now be developed by each county.

Your Committee has also made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 102, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 102, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 457 Health and Human Services on S.B. No. 1547

The purpose of this measure is to increase the taxes on liquor and tobacco, and to require the amount of increases to be apportioned between the Hawaii Health Systems Corporation (HHSC) and early childhood development programs.

Your Committee received testimony in support of this measure from the HHSC. Testimony in opposition was received from the Brown & Williamson Tobacco Corporation, Lorillard Tobacco Company, Legislative Center (representing Anheuser Busch Companies), Legislative Information Services of Hawaii (representing Hawaii Food Industry Association, Retail Liquor Dealers Association, and Retail Gasoline Dealers Association), and two private citizens. Informational testimony was submitted by the Tax Foundation of Hawaii.

The intent of this measure is to generate more revenues for the State to assist the HHSC in financing the purchase of medical equipment for its health care facilities and to help fund early childhood education and care programs. Your Committee believes that the use of funds for those purposes are necessary and laudable, without reducing budget allocations. In essence, this measure creates a dedicated source of funding for programs that would otherwise be wholly funded from general funds.

Your Committee has amended this measure to correct a Ramseyer error.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1547, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1547, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 458 Health and Human Services on S.B. No. 1033

The purpose of this administration measure is to make an emergency appropriation for the Child and Adolescent Mental Health Division of the Department of Health (DOH).

Your Committee received testimony in support of this measure from the DOH.

This measure is recommended by the Governor for immediate passage to make up for a critical funding emergency. This appropriation will serve to prevent the reduction or discontinuance of services to certain emotionally disturbed children and adolescents. Your Committee wishes to make clear that the appropriated sum of \$31,928,758, is not reflective of the actual shortfall of \$44 million.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 459 Health and Human Services on S.B. No. 1051

The purpose of this measure is to allow the Department of Human Services (DHS) to make disclosure of its records in accordance with its rules, as required by federal law or regulation.

Your Committee received testimony in support of this measure from the DHS.

This is an administration measure to conform the DHS procedures for disclosing information on child abuse or neglect with federal law and regulations.

Your Committee has made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1051, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1051, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 460 Health and Human Services on S.B. No. 1050

The purpose of this administration measure is to strengthen and to clarify the Child Protective Act (Act).

Your Committee received testimony in support of this measure from the Department of Human Services (DHS).

Specifically, this bill:

- (1) Adds a definition of "abandoned infant";
- (2) Adds "abandoned infant" to the definition of "aggravated circumstances" in the Act;
- (3) Allows for service of summons to be made by registered or certified mail if the party resides out of state;
- (4) Reduces from eighteen to twelve months the time in which the family court may set the case for a show cause hearing if the child's family home is determined not to be safe;
- (5) Requires the family court to set the case for a show cause hearing if the court determines that aggravated circumstances are present;
- (6) Places the burden of presenting evidence upon the child's family in a show cause hearing as to why the case should not be set for a permanent plan hearing;
- (7) Requires the family court to set the case for a show cause hearing within thirty days if the court determines that aggravated circumstances are present, or if the child has been residing outside the family home for twelve consecutive months;
- (8) Requires the DHS to file a motion to set the matter for a permanent plan hearing if the child has been residing outside the family home for an aggregate of fifteen out of the most recent twenty-two months; and
- (9) Reducing from three years to two years from the date on which the child was first placed in foster custody for the court to proceed with a permanent plan hearing if it is not reasonably foreseeable that the child's parents or guardians are able to provide a safe family home.

Your Committee believes that this measure will enable the family court to deal more effectively with child abuse. Your Committee finds that the Child Protective Act needs to be periodically updated to deal with new situations and to tighten up the statutory standards.

Your Committee has amended this measure on recommendation of the DHS to add clarifying language to the provision requiring the DHS to file a motion to set the matter for a permanent plan hearing. Your Committee also has made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1050, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1050, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 461 Health and Human Services on S.B. No. 170

The purpose of this measure is to make an appropriation for the Na Keiki Law Center.

Your Committee received testimony in support of this measure from the Office of Community Services, Child and Family Service, Keiki Injury Prevention Coalition, Hawaii Lawyers Care, Hawaii Women Lawyers, Catholic Charities, Na Loio, and a private citizen.

Your Committee finds that the economic and social well-being of a society is directly reflected by the state of its children, and by all indicators, Hawaii's children are not doing well in terms of child abuse and neglect and not having health insurance. The legal needs of our children need to be addressed to help them receive the services and care to which they are entitled and for which they need to become contributing and healthy adult members of our community.

The Na Keiki Law Center is a project of a non-profit entity and plans to form a private-public partnership of legal representation and advocacy for children. Private foundation moneys and public funds will be combined in a joint effort to sponsor a new initiative for increased recognition of the rights of children.

Your Committee has amended this measure by deleting a reference to Hawaii Lawyers Care and by changing "grant-in-aid" to "fund" in reference to the funds received by the Na Keiki Law Center.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 170, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 170, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 462 (Joint) Health and Human Services and Judiciary on S.B. No. 1020

The purpose of this administration measure is to allow the Department of Health (DOH) to conduct epidemiological investigations.

Your Committees received testimony in support of this measure from the DOH, Hawaii Medical Association (HMA), and Office of Informational Practices.

According to the DOH, this measure would update its ability to investigate significant causes of illness which threaten the public health, while protecting the confidentiality of information and shielding the providers of information from liability.

Your Committees have amended this measure on the recommendation of the HMA to limit the view of the authorized representative of the Director of Health to only that material which is relevant to the scope of the investigation. Your Committees have also made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1020, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1020, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 1 (Anderson).

SCRep. 463 Health and Human Services on S.B. No. 1499

The purpose of this measure is to authorize the Department of Human Services (DHS) to expend moneys from the Randolph-Sheppard Revolving Account (Account) to hire attorneys and to allow \$30,000 to be expended by the State Committee of Blind Vendors.

Your Committee received testimony in support of this measure from the State Committee of Blind Vendors. Testimony in opposition was provided by the DHS.

The intent of this measure is to empower the State's blind vendors to assert and protect their rights under chapter 347, Hawaii Revised Statutes, relating to blind and visually handicapped persons, especially as it relates to retaining their newsstand concessions at the Honolulu International Airport.

Your Committee has amended this measure to:

- (1) Require the establishment of a subaccount in the Account to hold federal moneys;
- (2) Impose a limit of \$30,000 on expenditures from the Account for the purposes of the Account;
- (3) Require the Director of Human Services to transfer \$30,000 yearly from the Account to an interest bearing account in a federally-insured financial institution; and
- (4) Require the DHS to report on the financial activities of the Account to the legislature each year.

Your Committee has also made technical, nonsubstantive amendments for clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1499, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1499, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 464 Health and Human Services on S.B. No. 128

The purpose of this measure is to make an appropriation to establish a long term care volunteer ombudsman program.

Your Committee received testimony in support of this measure from the Executive Office on Aging (EOA), Policy Advisory Board for Elder Affairs, American Association of Retired Persons, Hawaii Long Term Care Association, and Hawaii Women Lawyers. The Healthcare Association of Hawaii submitted testimony with comments.

The long term care ombudsman program is a federally mandated program which is funded through the Older Americans Act of 1965. The program serves as an advocate for residents in licensed nursing facilities and adult care homes, especially those unable or afraid to speak for themselves. The program currently has two full-time positions covering 46 nursing homes and 542 adult care homes on six islands. This measure appropriates funds to pay travel and miscellaneous expenses for volunteer staff.

Your Committee has amended this measure on the recommendation of the EOA by inserting statistics regarding affected populations.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 128, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 128, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 465 (Joint) Health and Human Services and Government Operations and Housing on S.B. No. 394

The purpose of this measure is to make an appropriation for the establishment of a range of supportive housing options for persons with serious and persistent mental illness (SPMI).

Your Committees received testimony in support of this measure from the Housing and Community Development Corporation of Hawaii (with budgetary reservations), Department of Human Services, Department of Health, Democratic Party of Hawaii, Health Care for the Homeless Project, and Network Enterprises.

Your Committees find that there is currently an urgent social problem in the care of persons with SPMI, who have multiple needs and lifestyles, with no single model of treatment appropriate for all of them. Your Committees further find that one of the most immediate pressing needs of the SPMI population is adequate and appropriate housing, since they tend to be homeless and to have social and criminal histories. They can be described as being the homeless mentally ill. This measure is intended to initiate discussion on providing housing for the SPMI population.

Your Committees have amended this measure to insert one dollar for the appropriation. Further, your Committees have amended this measure to require the Department of Human Services to develop and implement an action plan for the establishment of

supportive housing options for persons with SPMI. Your Committees believe that these supportive housing options cannot be established if an action plan has not been developed.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 394, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 394, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 466 Health and Human Services on S.B. No. 393

The purpose of this measure is to appropriate funds for homeless shelters and homeless services.

Your Committee received testimony in support of this measure from the Housing and Community Development Corporation of Hawaii, NAMI Oahu, Homeless Solutions Inc., Hawaii Lawyers Care, Gregory House Programs, Institute for Human Services, Inc., Affordable Housing and Homeless Alliance, United Self-Help, State Council on Mental Health, Kalihi-Palama Health Center, Ho'omau Ke Ola, and a private citizen.

Your Committee finds that the number of homeless persons in Hawaii has risen dramatically over the past five years. According to the Housing and Community Development Corporation of Hawaii, the number of homeless persons living in the State has increased from 5,532 individuals in 1992 to 12,887 individuals in 1998. Your Committee further finds that homeless shelters are on the brink of closing important programs due to lack of funds. This measure brings much needed financial relief to homeless shelters so that they can continue their invaluable work.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 393 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Levin).

SCRep. 467 Health and Human Services on S.B. No. 1053

The purpose of this administration measure is to eliminate Medicaid reimbursement for the provision of personal care services under Section 346-64, Hawaii Revised Statutes.

Testimony in support of this measure was received from the Department of Human Services.

Your Committee finds that Section 346D, Hawaii Revised Statutes, entitled "Long Term Care," authorizes the Department of Human Services to administer the Medicaid home and community-based waiver programs. Your Committee further finds that Section 346-64, Hawaii Revised Statutes is a duplicative authorizing statute, and therefore is unnecessary.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 468 Health and Human Services on S.B. No. 855

The purpose of this measure is to establish an office of grant writing within the Office of Community Services (OCS).

Your Committee received testimony in support of this measure from the OCS and Na Loio.

Your Committee believes that OCS would greatly benefit from a grant writing office to assist it in performing one of its main functions, that of securing federal grants. Your Committee intends that the grant writing office shall service all State agencies if its help is requested. OCS states that its mission does allow for this activity. Currently, the OCS spends much of its time applying for grants rather than administering the funds to fulfill its mission of facilitating and enhancing the delivery and coordination of effective programs to assist economically disadvantaged persons, immigrants, and refugees.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 855 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 469 Health and Human Services on S.B. No. 861

The purpose of this measure is to require the Department of Budget and Finance to set aside funds each fiscal year for deposit into the healthy start special fund.

Your Committee received testimony in support of this measure from Healthy Mothers Healthy Babies and from a private citizen.

Your Committee finds that creating a healthy start special fund with a dedicated source of ongoing funding each year from the general fund is needed to ensure that there is adequate funding for valuable and indispensable programs meeting the needs of at-risk pregnant women and families with very young children. Dedicated funding of the healthy start program will avert social costs resulting from abuse, neglect, and poor family situations in the long run.

Your Committee has amended this measure by adding early childhood development as a supported program and changing the June 30, 2010, termination date to a June 30, 2006, termination date for the funding of the healthy start special fund.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 861, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 861, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 470 Health and Human Services on S.B. No. 836

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Kuakini Medical Center.

Your Committee received testimony in support of this measure from the Department of Budget and Finance and Kuakini Medical Center.

Your Committee believes that the Kuakini Medical Center is deserving of financial assistance for the construction of improvements and acquisition of equipment for its health care facilities.

Your Committee has amended this bill to delete a reference to section 3 in section 4 of the measure as being unnecessary.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 836, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 836, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 471 Health and Human Services on S.B. No. 1022

The purpose of this measure is to enact a Uniform Health Care Decisions Act.

Your Committee received testimony in support of this measure from the Executive Office on Aging (EOA), Governor's Surrogate Decision Making Committee, Commission on Persons with Disabilities, and Hawaii Medical Association. The American Association of Retired Persons presented oral testimony in support of this measure.

This is an administration measure. According to the EOA, this measure provides a single comprehensive chapter to replace statutory provisions for medical treatment decisions and durable power of attorney for health care decisions. This measure is intended to provide a blueprint on procedures for making critical end-of-life decisions in advance.

Your Committee has amended this measure by:

- (1) Deleting section 5 regarding standard form language and inserting authority for the DOH to develop a standard form in order to allow flexibility to adapt to changing demands over time, with the intent that the EOA advise the DOH on developing the form; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1022, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 472 Health and Human Services on S.B. No. 233

The purpose of this measure is to require the Department of Health (DOH) to conduct a study of the health consequences of the use of latex products in the provision of health care.

Your Committee received testimony in support of this measure from the Hawaii Nurses' Association (HNA). The DOH provided informational testimony.

Your Committee finds that about one to six per cent of the general population and about eight to 12 per cent of regularly exposed health workers have an allergy to latex products, especially latex gloves as used by health care workers.

One study of exposed hospital workers found 54 per cent of sensitized workers had latex asthma, with an overall prevalence of latex asthma found to be 2.5 per cent. If national statistics are applied to Hawaii's health care workers, 600 or 10 per cent of the approximately 6,000 registered and licensed practical nurses are sensitized to latex.

According to the HNA, glove powder is a strategic factor in allergen exposure. Cornstarch donning powder actively extracts and binds protein from latex, which accumulates on the glove wearer's hands, transfers onto objects, and aerosolizes. Airborne particles of powder and protein may remain suspended for up to five hours, contaminating the air, ventilation system, skin, hair, clothing, wounds, and objects which can result in occupational asthma. Low allergen, powder-free gloves decrease allergen exposure to patients and health care workers, and reduce the incidence of allergic reactions and occupational asthma among sensitized workers.

Your Committee believes that a comprehensive study is warranted to ascertain the nature and extent of the problem in order to determine solutions and alternatives. However, your Committee has amended this measure on the recommendation of the HNA to specify items that the DOH study should include.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 233, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 233, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 473 Health and Human Services on S.B. No. 818

The purpose of this measure is to require mammogram screening coverage by health maintenance organizations, and to require annual mammogram screening for women age forty and over.

Your Committee received testimony in support of this measure from the Department of Health, Insurance Commissioner, Hawaii State Commission on the Status of Women, American Cancer Society, and Hawaii Catholic Conference. Kaiser Permanente offered comments.

Under current law, mammogram screening coverage is required of health insurance companies and mutual benefit societies and coverage for annual screenings are required for women age fifty and over.

This measure is intended to broaden access to breast cancer screening for women in Hawaii. Your Committee believes that one of the barriers to preventive care is the prohibitive cost of screening if it is not covered by health insurance. This measure provides for timely screening.

Your Committee has amended this measure by:

- (1) Deleting section 2, requiring health maintenance organizations to cover mammogram screening, because the same coverage is required in section 432D-23, Hawaii Revised Statutes (HRS), which cross-references section 431:10A-116, HRS, which provides the same coverage; and
- (2) Deleting the second paragraph of section 1 and adding a purpose paragraph to state the purpose of the measure is to revise the frequency of mammogram screening.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, as amended herein, and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 474 Health and Human Services on S.B. No. 837

The purpose of this bill is to require mutual benefit societies, fraternal benefit societies, and health insurance companies to cover dermatological services with or without a referral.

Your Committee received testimony in support of this measure from the Hawaii Dermatological Society and the Hawaii Federation of Physicians and Dentists. Your Committee received informational testimony from the Insurance Commissioner who stated that he could support the bill if it can be demonstrated that direct access to dermatologists will result in lower health care costs. Testimony in opposition was received from Kaiser Permanente.

Your Committee believes that skin diseases are common in the general population and should be treated like other ordinary diseases for health insurance coverage purposes, without requiring a referral from a primary care physician to a dermatologist in order to be reimbursed. In other words, dermatologists should be considered as primary care physicians for health insurance purposes.

Your Committee defers to the Committee on Commerce and Consumer Protection on whether to amend this measure to include the correct insurance entities for coverage purposes.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837 and recommends that it pass Second Reading and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 475 Health and Human Services on S.B. No. 822

The purpose of this measure is to prohibit exclusion from health insurance coverage for contraceptive devices.

Your Committee received testimony in support of this measure from the Department of Health, Hawaii State Commission on the Status of Women, Student Health Services of the University of Hawaii, Bay Clinic, Inc., Hamakua Health Center, Kalihi-Palama Health Center, Kokua Kalihi Valley, Healthy Mothers Healthy Babies, Hawaii Women Lawyers, Hawaii Medical Service Association, Alston, Hunt, Floyd, and Ing, Women's Coalition, one nurse practitioner, one community health nurse, one health educator, and a private citizen. Testimony in opposition was received from Brigham Young University-Hawaii, Hawaii Catholic Conference, and Kaiser Permanente which opposed being required to provide the coverage. Informational testimony was received from the Department of Commerce and Consumer Affairs (DCCA).

Your Committee believes that contraceptive coverage should become a fundamental part of basic health insurance, allowing families to delay or adequately space pregnancies. Maternal and child health would be improved by decreasing the incidences of abortion, infant mortality, poor child health and development, and avoiding the birth of an unwanted child who could be doomed to a life of child abuse and neglect.

Your Committee has amended this bill on the recommendation of the DCCA by deleting section 1 as being unnecessary, because the same coverage is included by statutory reference in section 432D-23, Hawaii Revised Statutes (HRS), which cross-references section 431:10A-116.6, HRS, already being amended in section 2. Your Committee also has made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 822, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 822, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 476 Health and Human Services on S.B. No. 1028

The purpose of this measure is to make permanent the statutory enactments of Act 216, Session Laws of Hawaii 1997.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hawaii State Commission on the Status of Women, Violence Prevention Consortium, Sex Abuse Treatment Center, Women's Legislative Coalition, and a private citizen.

This is an administration measure that provides continued funding for the improvement of the vital statistics system and prevention of domestic violence and sexual assault.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1028, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1028, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 477 Health and Human Services on S.B. No. 1035

The purpose of this administration measure is to allow persons under twenty-one years of age to participate in authorized studies or enforcement of statutory provisions relating to the sale of liquor to minors.

Testimony in support of this measure was received from the Department of Health.

Your Committee finds that alcohol is the most socially accepted substance in our society and also one of the most abused. Your Committee further finds that education and enforcement are essential to preventing our youth from using liquor. Using underage individuals to participate in controlled purchases of liquor will enable the department to improve education and enforcement relating to the use of liquor by minors.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1035, and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 478 Health and Human Services on S.B. No. 1616

The purpose of this measure is to make an appropriation for operating costs for Molokai General Hospital.

Testimony in support of the measure was received from the Office of Hawaiian Affairs, and three members of the Maui County Council.

Your Committee finds that Molokai General Hospital fills a public need by providing the people of Molokai and visitors with primary medical care. It is the only hospital providing basic medical diagnostic and treatment services for a population base of 7,000 persons (including visitors). Of Molokai's resident population, over 50% are native Hawaiian. Visitors to the island average 70,000 per year.

Molokai, the fifth largest island in the State, is a rural community, with 38% of the families subsisting off the land. Molokai's economy has been depressed since pineapple plantations were phased out and unemployment rates average 17%.

Molokai General Hospital is requesting financial support from the State to meet operational expenses in order to provide quality healthcare to the community of Molokai. Seventy-five per cent of the hospital's patients are Medicare, Medicaid, and MedQuest patients. Reimbursements from these sources continue to diminish. Molokai General Hospital continues to explore and employ every alternative to contain costs but as reimbursements continue to decline, the survival of the hospital is in jeopardy.

Your Committee finds that without funding assistance from the State, Molokai General Hospital could not continue to provide the level of patient care and services currently being provided.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1616 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 479 Health and Human Services on S.B. No. 844

The purpose of this measure is to require parity in health insurance coverage for alcohol and drug dependence benefits and mental illness benefits.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Equal Insurance Coalition, National Association of Social Workers, Hawaii State Alliance for the Mentally Ill, Hawaii Medical Association, HGEA, Hawaii Psychiatric Medical Association, Hawaii Psychological Association, Mental Health Association of Hawaii, Koku Council for Senior Citizens, and five private citizens. Testimony in opposition was received from Kaiser Permanente and Hawaii Medical Services Association. The Insurance Commissioner submitted informational testimony.

According to the DOH, the national trend in mental health and substance abuse treatment is to expand health insurance coverage to provide parity with other physical illnesses. Your Committee finds that sixteen other states have enacted parity laws to prohibit discrimination in insurance and managed care coverage for mental illness. Your Committee is cognizant of the recommendations of the Auditor's Report No. 97-19, but believes that mental health and alcohol and drug abuse treatment coverages are necessary in view

of the prevalence of these conditions in society today. Your Committee respectfully requests the Auditor to update its findings and recommendations.

Your Committee has amended this bill on recommendation of the Hawaii Psychiatric Medical Association by deleting reference to "psychologist" in section 2 of the measure, because the provision requires a medical necessity for coverage. A technical, nonsubstantive amendment also was made.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 844, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 480 Health and Human Services on S.B. No. 489

The purpose of this measure is to make an appropriation for the Big Island aeromedical unit.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hawaii County Fire Department Aeromedical Program, and Hawaii Health Systems Corporation.

The DOH's "Strategic Plan and Progress Report on the Development of a Statewide Emergency Aeromedical System", dated November, 1998, recommended that the Hawaii County helicopter aeromedical unit be maintained and its hours of operation be expanded to twenty-four hours per day, from the current twelve hours. Your Committee finds that twelve hours per day is grossly inadequate to provide the necessary emergency medical services to rural areas of the Big Island. This measure would allow the unit to operate around the clock.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 489 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 481 Health and Human Services on S.B. No. 493

The purpose of this measure is to appropriate funds to reimburse the Hawaii County Fire Department (HCFD) for provision of emergency medical services.

Your Committee received testimony in support of this measure from the HCFD. The Department of Health (DOH) submitted testimony in opposition.

This measure is intended to reimburse the HCFD for the balance of sums due for providing emergency medical services under contract with the DOH for fiscal years 1995-1996 and 1996-1997. The DOH has already paid a portion of those moneys but has not yet paid the balance and is continuing discussions with the HCFD.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 493 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 482 Health and Human Services on S.B. No. 992

The purpose of this measure is to make appropriations for the Hana Community Health Center for fiscal years 1998-1999 and 1999-2000.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hana Community Health Center, Office of Hawaiian Affairs, Aloha Care, and Hawaii Health Systems Corporation. Testimony in opposition was received from the United Public Workers.

Your Committee finds that the Hana Community Health Center is in desperate need of immediate legislative appropriations to continue its operations.

Your Committee has amended this measure by inserting \$200,000, in place of \$995,720, for the appropriation for 1998-1999.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 992, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 483 Health and Human Services on S.B. No. 1036

The purpose of this measure is to establish a Disability and Communication Access Board (Board).

Your Committee received testimony in support of this measure from the Department of Health, Commission on Persons with Disabilities, Hawaii State Coordinating Council on Deafness, Architectural Access Committee, Aloha State Association of the Deaf, and a private citizen.

This is an administration measure which assigns the Board several existing statutory duties relating to persons with disabilities, including replacing the:

- (1) Architectural Access Committee, the Commission on Persons with Disabilities regarding consultation with the Housing and Community Development Corporation of Hawaii for purposes of the housing alteration revolving loan fund; and
- (2) Department of Transportation for purposes of selling removable windshield placards for disabled persons.

This measure repeals the Architectural Access Committee, Hawaii State Coordinating Council on Deafness, and Commission on Persons with Disabilities.

According to the Commission on Persons with Disabilities, this measure provides for a more efficient coordination of State efforts to comply with disability access and civil rights laws.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1036, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 484 Health and Human Services on S.B. No. 802

The purpose of this measure is to create a compliance review special fund for the Commission on Persons with Disabilities (Commission) to be used for the review of private sector building plans compliance to requirements of the American with Disabilities Act (ADA).

Your Committee received testimony in support of this measure from the Commission.

This measure facilitates the accumulation of funds from fees charged by the Commission in its work of advising architects, contractors, and developers of private buildings on whether the building is ADA compliant. It is not the intent of your Committee to displace private sector services in this regard.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 802 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 485 Health and Human Services on S.B. No. 1031

The purpose of this administration measure is to make an emergency appropriation for the Hawaii Health Systems Corporation (HHSC).

Your Committee received testimony in support of this measure from the HHSC.

This measure is recommended by the Governor for immediate passage to provide emergency funding for HHSC for Year 2000 compliance for computer equipment, settlement of workers' compensation cases inherited by HHSC, and to cover collective bargaining increases.

Your Committee has made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1031, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1031, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 486 Health and Human Services on S.B. No. 154

The purpose of this measure is to create a developmental disabilities special fund, require the Department of Health (DOH) to administer supported living stipends for persons with developmental disabilities or mental retardation (DD/MR) and make an appropriation for increased home and community based services for persons with DD/MR.

Your Committee received testimony in support of this measure from DOH, State Planning Council on Developmental Disabilities, The Arc of Hawaii, The Arc of Hilo, Arc of Kauai, Kona Krafts, and fifteen private citizens. The Department of Human Services (DHS) submitted comments and deferred to DOH. Testimony in opposition to this measure was received from the Opportunities for the Retarded, Inc.

Your Committee believes that creation of a special fund will maximize funds for DOH for community services using matching federal funds, as required by section 333F-2(e), Hawaii Revised Statutes. Federal reimbursements would be directly deposited into the special fund rather than deposited into the general fund.

Your Committee intends that the supported living stipend operate in a manner similar to DHS' supplemental security income for the aged, blind, and disabled under Social Security. This would provide a modicum of financial relief to DD/MR persons who are trying to make it on their own.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 154 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 487 Health and Human Services on S.B. No. 842

The purpose of this measure is to make an appropriation to provide additional statewide community-based gatekeeper training for teen suicide prevention and intervention.

Your Committee received testimony in support of this measure from the Keiki Injury Prevention Coalition.

Your Committee finds that suicide in Hawaii is the second leading cause of death in the fifteen to twenty-four year old age group. According to a 1997 survey of ninth to twelfth graders, approximately twenty-seven per cent have seriously considered suicide, twenty-one per cent have made suicide plans, and eleven and one-half per cent made a suicide attempt in the preceding twelve month period. This measure provides funding for additional statewide community-based gatekeeper training for teen suicide and prevention and intervention.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 842 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 488 Health and Human Services on S.B. No. 157

The purpose of this measure is to appropriate funds to provide preventive dental services to adults on a fee for service or capitated basis through the MedQuest program.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Department of Health (DOH), State Planning Council on Developmental Disabilities, The Arc in Hawaii, Arc of Kauai, Hawaii State Primary Care Association, Kona Krafts, Kalihi-Palama Health Center, Kokua Kalihi Valley, Waianae Coast Comprehensive Health Center, The Arc of Hilo, AlohaCare, Hawaii Island MobileCare, and thirteen individuals.

Preventive dentistry services for adults covered by Medicaid and QUEST were discontinued on February 1, 1996, as a result of cutbacks in the state budget. At the present time, these clients can only receive emergency dental services. This measure provides matching funds for federal grants under the Medicaid and QUEST programs to restore preventive dental services.

As a society, we still fail to recognize dental care as an essential medical service. No one in public health today disputes the need for regular attention to the diseases of the mouth. New studies are now verifying the impact of dental plaque on the heart, lungs, and other internal organs. Diseases of the gums and tooth decay have a direct relationship to general health and morbidity. At a time when the United States Public Health Service is increasing its efforts to deal with dental diseases nationally, Hawaii has placed nearly ninety thousand residents at health risk by only addressing emergency dental interventions for adults in QUEST and Medicaid.

Your Committee has amended this measure by:

- (1) Deleting the option of providing preventive dental services on a capitated basis, thereby requiring services be provided on a fee for service basis;
- (2) Clarifying that only preventive dentistry is covered;
- (3) Requiring the DHS to consult with the DOH on what services constitute preventive dentistry; and
- (4) Adding an unspecified appropriation amount for fiscal year 2000-2001.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 157, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 157, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 489 Health and Human Services on S.B. No. 171

The purpose of this measure is to allow the Department of Human Services (DHS) to retain any appropriation for general assistance to households without minor dependents at the close of each fiscal year, to delete the 1993 federal income poverty level, and to require the Legislative Reference Bureau (LRB) to conduct a study of general assistance.

Your Committee received testimony in support of this measure from DHS, Hawaii State Commission on the Status of Women, Legal Aid Society of Hawaii, American Friends Service Committee, Na Loio, National Association of Social Workers, Affordable Housing and Homeless Alliance, and six private citizens. The Department of Budget and Finance submitted testimony in opposition.

Your Committee believes that allowing the DHS to retain unexpended general assistance funds at the close of each fiscal year is necessary to facilitate adequate funding of general assistance from year to year. Provisions are included in the measure that the retained funds shall not be used for any other purpose and shall not diminish future appropriations.

Your Committee further finds that the appropriations contained in the measure are for bona fide and meritorious programs that can bring relief to welfare recipients. Projections based on existing data suggest that investments in programs such as a Medicare advocacy project, a Supplemental Security Income advocacy project, a legal services for adoptive families advocacy project, and an earned income tax credit advocacy project can result in substantial financial gains for the State by increasing the use of federal funds that are available, but have not been accessed. For example, estimates suggest raising awareness about the federal earned income tax credit program can result in \$12 million of supplemental income for working poor in the State of Hawaii. Identifying individuals who are eligible for federal Supplemental Security Income can save the State approximately \$2.4 million in general assistance payments per year.

Your Committee intends the Legislative Reference Bureau study to provide guidance to the legislature to shed light on the the volatile issue of general assistance.

Your Committee has amended this measure by:

- (1) Requiring that the retained funds be used exclusively for case management;
- (2) Requiring the standard of need to be based on the 1993 rather than the "current" federal poverty level;
- (3) Substituting the Department of Taxation for the DHS as the expending agency for the earned income tax credit programs appropriation;
- (4) Requiring that the Senate Committee on Health and Human Services conduct the study with the assistance of the LRB, of general assistance, with input from government agencies and community representatives; and
- (5) Deleting references to the DHS collaborating and cooperating with the LRB and the LRB seeking input from the Legal Aid Society.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 171, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Levin).

SCRep. 490 Health and Human Services on S.B. No. 1048

The purpose of this measure is to allow foster boarding homes to take in six or more minor siblings and to require a criminal history records name inquiry for the first two years of certification and biennially thereafter.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS).

This is an administration measure to avoid separating large families with six or more siblings. This measure also allows the DHS to make a name inquiry into the criminal history records for the first two years of certification of a foster boarding home and biennially thereafter. Current law does not provide for follow-up criminal history checks after certification.

Your Committee has amended this measure by:

- (1) Clarifying the times of the criminal history records checks on the recommendation of the DHS;
- (2) Deleting the amendment to the definition of criminal history record check and inserting the same amendment into the criminal history record check statute, section 346-19.6, Hawaii Revised Statutes. This amendment was made to move substantive language from the definitions section; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1048, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 491 Health and Human Services on S.B. No. 1054

The purpose of this administration measure is to remove the sunset provision in Act 128, Session Laws of Hawaii 1997.

This measure will continue Hawaii's "opt out" of the Personal Responsibility and Work Opportunity Reconciliation Act, which terminates the eligibility for federal financial assistance and food stamps for any individual convicted of a drug related felony after August 22, 1996.

Testimony in favor of this measure was received from the Department of Human Services, the Hawaii State Department of Health, and Hawaii Substance Abuse Coalition (HSAC).

Your Committee finds that welfare payments and food stamps are a principal source of funding for substance abuse treatment programs. Your Committee further finds that this measure will help to ensure the continued availability of treatment, especially for women, increasing their likelihood of successfully moving from welfare to work and properly caring for their children. This measure will also help prevent an increase in crime that would result from the loss of support and access to drug treatment and other essential social services.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 492 Health and Human Services on S.B. No. 64

The purpose of this measure is to require the parent or legal guardian of a minor to be financially responsible for the support and maintenance of the minor until the minor attains age eighteen.

Your Committee received testimony in support of this measure from Iron Workers Stabilization Fund.

This measure is primarily intended for teen pregnancy situations when the parents of the newborn do not marry at all. The problem arises when the parents are unable to support the child, necessitating the grandparents to do so. If the grandparents offer no

financial support, the vicious cycle of poverty begins with its attendant socio-economic consequences. Eventually, the State provides the financial support with taxpayer moneys.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 64 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 493 (Joint) Health and Human Services and Government Operations and Housing on S.B. No. 1006

The purpose of this measure is to allow the Department of Health (DOH) to adopt rules for group living facilities.

Your Committees received testimony in support of this measure from the DOH, Health Care for the Homeless Project, residents of Niniko Place, and a private citizen. Testimony in opposition was received from the Church of the Crossroads.

This measure is intended to cover shelters for domestic abuse, alcohol abuse, halfway houses, and the like. Your Committees find that neighborhood acceptance of these facilities is low because of the increased activity at these shelters, with people coming and going all day. The community is also concerned about neighborhood safety and the potential for increased substance abuse in the neighborhood. Your Committees believe that the State has a responsibility to adopt appropriate administrative rules to govern the operation of group living facilities in order to alleviate community concerns.

Your Committees recognize that group living facilities may provide services that may be within the respective jurisdictions of the Department of Health or the Department of Human Resources. Therefore, your Committees have amended this measure by authorizing both the Department of Health and the Department of Human Services to adopt rules regulating group living facilities. This measure further requires the directors of those departments to meet and determine which type of group living facilities will be regulated by the respective departments.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Government Operations and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1006, as amended herein, and recommends that it pass second reading in the form attached hereto as S.B. 1006, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Matsunaga, Sakamoto, Tanaka, Anderson).

SCRep. 494 Health and Human Services on S.B. No. 788

The purpose of this measure is to require a cigarette stamp tax on packs of cigarettes sold in this State.

Your Committee received testimony in support of this measure from the Department of Taxation, Department of Health (DOH), and American Lung Association. The Hawaii Food Industry Association testified orally in support. The Tax Foundation of Hawaii submitted informational testimony.

Your Committee finds that this measure has two benefits in that it will provide a means of enforcing the payment of cigarette taxes to the State, and deter smoking, especially among youth.

On recommendation of the Department of Taxation, your Committee has amended this measure by deleting its contents and inserting the contents of S.B. No. 168, with technical, nonsubstantive changes. This amendment provides the necessary enforcement of the new stamping of cigarette packs requirements by involving the liquor commission, the attorney general, and the prosecuting attorney.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 788, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 788, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 495 (Joint) Health and Human Services and Labor and Environment on S.B. No. 995

The purpose of this measure is to allow a dependent adult or representative of a dependent adult to obtain verifiable information on criminal history or history of dependent adult abuse of a person or entity who is caring for the dependent adult.

Your Committees received testimony in support of this measure from the Department of Human Services (DHS), State Attorney General, Department of Commerce and Consumer Affairs, and Executive Office on Aging. The Department of Health submitted testimony deferring to the DHS.

Your Committees are aware of and are concerned with the growing number of incidences of abuse, neglect, and fraud of dependent adults. One avenue of prevention is to be assured of the reputable character of the person who cares for a dependent adult. This measure allows a dependent adult or a dependent adult's representative to access the criminal history, if any, of the person who cares for or who is applying for a job to care for a dependent adult.

Your Committees have amended this measure on the recommendation of the DHS to delete all the provisions and to insert provisions to allow the DHS to conduct criminal history records checks as part of its licensing process for day care centers for elder disabled and aged persons.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 995, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 995, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Ige, M., Anderson).

SCRep. 496 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 817

The purpose of this measure is to establish individual development accounts (IDAs).

Your Committees received testimony in support of this measure from the Department of Community Services of the City and County of Honolulu, Hawaii State Commission on the Status of Women, Parents and Children Together, Legal Aid Society of Hawaii, Maui Economic Opportunity, Bank of Hawaii, Consuelo Zobel Alger Foundation, American Friends Service Committee, Waimanalo Community Development Corporation, Work Hawaii, three private citizens, and numerous persons who signed petitions and testimonials. The Department of Human Services (DHS) stated it was not able to support the bill because the Department lacks the staff resources to administer the program.

This measure is intended to promote savings, investment, and accumulation of assets for welfare recipients and other low income persons not on public assistance. Funds may be used by an account holder for post-secondary education and training, purchase of a first home, or business capitalization expense. Your Committees find that this measure has tremendous potential to lift welfare recipients and others out of poverty and to place them into the mainstream of society.

According to the Bank of Hawaii, this measure is an outgrowth of the federal Assets for Independence Act, recently signed into law by President Clinton. The Act establishes a five-year demonstration program to help low-income individuals and families save part of their income for future use toward specified activities. To date, IDAs have been primarily utilized by local government.

According to the DHS, it has the authority to establish IDAs as part of the Temporary Assistance to Needy Families Program. However, it has not done so because the administrative costs would be excessive.

Your Committees have amended this measure on the recommendation of the Hawaii Independent Development Account Collaborative by:

- (1) Adding language to the purpose section to explain IDAs;
- (2) Providing that IDAs be administered by fiduciary organizations which would bid for a contract with DHS; and
- (3) Providing income tax credits for contributing matching funds to IDAs.

Your Committees also have made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 817, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 817, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 3 (Levin, Matsuura, Anderson).

SCRep. 497 Health and Human Services on S.B. No. 200

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for the Ewa Villages Community Development Corporation.

Your Committee received testimony in support of this measure from the Ewa Villages Community Development Corporation.

This measure is intended to provide financing for community-based care for the frail elderly as well as infants and children who are medically fragile. They need a warm and secure setting that provides them with clinical and emotional care which is so critical. This type of care is now missing in the continuum of care for the medically fragile child.

Your Committee finds that the community-based care center to be developed by the Ewa Villages Community Development Corporation will provide:

- (1) Pediatric skilled nursing care;
- (2) Day health care for the medically fragile child;
- (3) Intergenerational day care;
- (4) A dementia unit;
- (5) Adult residential care;
- (6) Respite care for caregivers of both the fragile elderly as well as the medically fragile child;
- (7) Care giver training;
- (8) Community provider training; and
- (9) Community-based services such as meals, chore services, personal care services, and care management.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 200 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 498 Health and Human Services on S.B. No. 825

The purpose of this measure is to provide an income tax credit for employers who provide a portion of the workplace for breastfeeding or expressing milk, and to promote breastfeeding or expressing milk in the workplace.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Kapiolani Medical Center, American Academy of Pediatrics, Healthy Mothers Healthy Babies, Hawaii Civil Rights Commission, Hawaii State Commission on the Status of Women, Women's Coalition, Mothers Care for Tomorrow's Children, and two private citizens. Testimony in opposition was received from the Department of Taxation. The Department of Labor and Industrial Relations provided comments.

Your Committee firmly believes in the proven value of breastfeeding for infants and toddlers. Medical research has documented proof of the health benefits to breastfed children and breastfeeding mothers. These health benefits are in reduction or protection against many chronic diseases in adulthood. Health benefits translate directly into reduced expenses for medical care and medical insurance costs.

Your Committee further finds that the majority of households in Hawaii have mothers who work. Mothers typically return to work as soon as their maternity leave expires. For mothers who choose to breastfeed, returning to work could be a problem if the employer has no arrangements to allow those mothers to breastfeed or to express breastmilk at work. Your Committee believes that employment practices should not be allowed to stand in the way of a natural and beneficial function of motherhood. Your Committee also believes that employers should have an income tax incentive to allow breastfeeding or expressing breastmilk at work.

Your Committee has amended this measure by:

- (1) Adding a purpose section;
- (2) Clarifying that the corporate net income tax applies to the imputed or actual rental value of any portion of property used for breastfeeding or expressing milk;
- (3) Changing the new section in chapter 387, Hawaii Revised Statutes (HRS), relating to wage and hour law, to chapter 378, HRS, relating to employment practices, as being more appropriate;
- (4) Deleting the provision excepting breastfeeding from the criminal offense of indecent exposure (section 707-734, HRS) since that section deals with exposure of the genitals. Section 712-1217, HRS, dealing with open lewdness, would be a more appropriate section to amend, however, the Supreme Court has already held in State v. Crenshaw, 61 Haw. 68 (1979), that female breasts are not private parts or genitalia, and exposure under certain circumstances (the case involved sunbathing

without a top) is not a lewd act under the statute. Additionally, there was no testimony on this provision to indicate that women have been charged with any kind of criminal offense for breastfeeding in public; and

- (5) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 825, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 825, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 499 (Joint) Health and Human Services and Judiciary on S.B. No. 145

The purpose of this measure is to increase the number of organ donations.

Your Committees received testimony in support of this measure from the Office of Lieutenant Governor, Organ Donor Center of Hawaii, Hawaii Nurses Association, Healthcare Association of Hawaii, National Kidney Foundation of Hawaii, Kaiser Permanente, St. Francis Medical Center, and seven private citizens. The Department of Health (DOH) submitted testimony in opposition for lack of resources to conduct annual death record reviews. The Legislative Reference Bureau (LRB) provided informational testimony.

This measure enacts the recommendations of the LRB's report, "Heart and Soul: Anatomical Gifts for Hawaii's Transplant Community", Report No. 3, 1998. The LRB conducted the study pursuant to House Resolution No. 16, 1998, and made the following recommendations:

- (1) Adoption of a required referral system involving all acute care hospitals;
- (2) As part of the required referral system, have a trained, designated requester;
- (3) Conduct an annual death review of death records;
- (4) Give the Lieutenant Governor the responsibility for increasing the visibility of organ donations through education and public awareness projects;
- (5) Creation of an advisory committee on organ donation; and
- (6) Establishment of a dedicated source of funding to help pay for educational programs.

Your Committees have amended this measure on the recommendations of the Organ Donor Center, by:

- (1) Deleting section 327-A(b), Hawaii Revised Statutes (HRS), relating to actual notice of opposition;
- (2) Deleting the requirement that the DOH conduct the annual death record review and requiring the organ procurement organization to conduct the reviews;
- (3) Deleting the imposition of fines by the DOH;
- (4) Deleting the list of specified duties of the advisory committee and substituting general language requiring that the advisory committee promote educational programs;
- (5) Adding a revision to section 286-109.5, HRS, to require the examiner of licenses to adopt rules to allow an organ procurement organization to have twenty-four hour access to the drivers' licensing database;
- (6) Deleting the repeal of section 327-2(h), HRS, relating to prohibiting the revocation of the intent of the decedent under specified circumstances;
- (7) Increasing the membership of the advisory committee on anatomical gifts to at least twenty but not more than twenty-five members;
- (8) Enumerating specific organizations or representative groups from which to choose members of the advisory committee; and
- (9) Making technical, nonsubstantive amendments, such as renumbering sections and reformatting, to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 145, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 145, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Anderson).

SCRep. 500 Health and Human Services on S.B. No. 1562

The purpose of this measure is to require the Department of Human Services (DHS) to compensate community health centers providing services to QUEST patients based on a risk adjustment for serious medical conditions.

Your Committee received testimony in support of this measure from Aloha Care, Hawaii State Primary Care Association, Healthy Mothers Healthy Babies, Waianae Coast Comprehensive Health Center, Waikiki Health Center, Bay Clinic, and Waimanalo Health Center. Testimony in opposition was received from the DHS and Hawaii Medical Services Association.

This measure is intended to adequately compensate community health centers for treating the sickest and poorest of Hawaii's population. Your Committee believes that the State has an obligation to community health centers to keep them financially viable in order that they can continue to render necessary medical services. Without community health centers, this population would go without medical care.

Your Committee has amended this measure by inserting explanatory language into section 1.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1562, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1562, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 501 (Joint) Health and Human Services and Judiciary on S.B. No. 177

The purpose of this measure is to strengthen the child protection system.

Your Committees received testimony in support of this measure from the Department of Human Services (DHS), Department of Health, Police Department of the City and County of Honolulu (HPD), American Academy of Pediatrics, and Hawaii Catholic Conference. Testimony in opposition was received from two private citizens. The Judiciary provided informational testimony.

In a related bill, S.B. No. 151, your Committees received testimony in support from the DHS and informational testimony from the Salvation Army Family Treatment Services.

In another related bill, S.B. No. 1015, your Committees received testimony in support from the Department of the Prosecuting Attorney of the City and County of Honolulu, Salvation Army Family Treatment Services, and State Auditor. Informational testimony was provided by the DHS and the Office of Information Practices.

Your Committees inserted the provisions of S.B. No. 151, relating to the Child Protective Act, and S.B. No. 1051, relating to child protection, into this measure.

Your Committees find that child abuse and neglect continue to worsen in Hawaii and cause serious social problems, such as emotional and mental health problems, alcohol and drug abuse and addiction, juvenile delinquency, and crime. The most severe cases involve the youngest, most vulnerable children.

This measure is a product of the child protective services (CPS) legislative roundtable discussions held during the interim of the Regular Session of 1998. The CPS roundtable was convened to suggest statutory, guideline, rule, regulation, and other changes to improve Hawaii's CPS system. Legislators, the Departments of Human Services, Health, and the Attorney General, the Judiciary, private nonprofit child and family service agencies, and concerned individuals communicated and collaborated with one another, on behalf of abused and neglected children and their families, to develop formal and informal mechanisms for working together.

Your Committees continued the effort, which began with Act 134, Session Laws of Hawaii 1998, the Omnibus Child Protection Act, to control, contain, and reduce child abuse and neglect. This measure is a product of further legislative review of the CPS system. Your Committees have found that the CPS system of DHS cannot do it alone. A concerted and coordinated effort must involve the judiciary, police, and the attorney general, with all parties working together and communicating with one another on each single case of child abuse or neglect. Only in this manner can so-called "isolated cases" avoid "slipping through the cracks" of the CPS system.

Your Committees have amended this measure by:

- (1) Adding the requirement from S.B. No. 1015, that the DHS inform the police or prosecutor of reports of child abuse or neglect it receives;
- (2) Changing "Maintain a medical home" in the new section 587- , Hawaii Revised Statutes (HRS), to "Maintain a system of continuity of care for the medical and health needs of children in the foster care system", because there is no definition for "medical home";

- (3) Deleting the authority of the police to remove a child from the home where the child has no legal custodian who is willing and able to provide a safe family home, on recommendation of the HPD because of the potential for people to call the police when they feel they cannot control their children;
- (4) Deleting the requirement that priests or members of the clergy report suspected child abuse or neglect to the police;
- (5) Deleting the requirement for licensing of guardian ad litem by the Judiciary, on recommendation of the Judiciary;
- (6) Deleting the requirement that the Auditor analyze and assess proposed special and revolving funds, on recommendation of the Auditor as a drafting error; and
- (7) Making technical, nonsubstantive amendments, including renumbering of sections and reformatting.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 177, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 177, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Anderson).

SCRep. 502 (Joint) Health and Human Services and Commerce and Consumer Protection on S.B. No. 131

The purpose of this measure is to establish minimum standards for long-term care (LTC) insurance. Specifically, this measure:

- (1) Requires employers to offer LTC insurance policies to their employees;
- (2) Appropriates funds for an actuarial study; and
- (3) Appropriates funds for the insurance division to hire a LTC actuary.

Your Committees received testimony in support of this measure from the Department of Human Services, Executive Office on Aging, Hawaii State Commission on the Status of Women, Department of Community Services of the City and County of Honolulu, Office of Aging of the County of Hawaii, American Association of Retired Persons, Hawaii State Retired Teachers Association, Hawaii Coalition for Affordable Long Term Care, Maui Economic Opportunity, National Association of Retired Federal Employees, Policy Advisory Board for Elder Affairs, the Joint Advocacy Committee on Senior Affairs, ILWU Retirees, the consultant to the Joint Legislative Committee on Long-Term Care, and five private citizens. Informational testimony was submitted by the Insurance Commissioner, Hawaii State Association of Life Underwriters, Hawaiian Electric Company, and Faith Action for Community Equity. Testimony in opposition was received from the American Council of Life Insurance, ILWU Local 142, and a private citizen.

This measure is based on the recommendations of the Joint Legislative Committee on Long-Term Care (JLC), established by Act 339, Session Laws of Hawaii 1997. The JLC undertook an eighteen month study to develop a sound financial plan to address a problem of compelling state interest, the current and future LTC needs of the people of Hawaii. The JLC members are Senator Suzanne Chun Oakland and Representative Dennis Arakaki, co-chairs, and members Senators Les Ihara, Jr., (replacing Senator Rosalyn Baker), Andrew Levin, and Sam Slom, and Representatives Marcus Oshiro, Paul Whalen, and Nobu Yonamine.

Your Committees find that Hawaii's population of age seventy and over is the fastest growing segment of the overall population. The population of disabled residents is also increasing gradually. As people age or become disabled, they need help in daily living, which can be little or nonexistent except for care from family members. Caring for a family member can be physically, financially, and emotionally draining for the average two-spouse working family or single working parent, particularly with Hawaii's high cost of living.

Current methods of financing LTC involve predominantly Medicaid, private insurance, and personal assets. Medicaid is limited to financially qualified persons of low income, however Medicaid matching funding from the federal government cannot be relied upon in the future, due to the recent cutbacks in federal funding for Medicaid. Medicaid funding from the State is a drain upon the general fund, due largely to the increase in the target population and the escalating costs of providing LTC. Because of high premiums, private insurance is not widespread. Most people do not have sufficient personal assets to afford to pay for LTC.

Your Committees are convinced that the State needs a method of financing LTC that is affordable and suitable for the majority of residents who do not qualify for Medicaid, do not currently have private LTC insurance, and do not have sufficient personal assets. Encouraging the purchase of LTC insurance is a feasible and reasonable method that can be immediately implemented, without risk to the State as in setting up a trust fund and without the burden of a mandatory tax. Your Committees believe that LTC insurance can become universal and affordable, while providing quality benefits at the time of payout and protecting the policyholder throughout the life of the policy.

Hawaii's LTC insurance statutes were first enacted in 1989 and have not undergone any revision since 1991. During this time, LTC insurance policies have developed and proliferated to the point today of becoming a matured insurance product that can be actuarially evaluated. However, Hawaii's LTC insurance statutes have not kept pace with the product or with the development of LTC

insurance law in other states. Current LTC insurance statutes in Hawaii are basically enabling legislation that need to be updated in order to upgrade the quality of the LTC insurance product to provide the kind and quality of benefits and protections which your Committees desire.

The insurance provisions of this measure are recommended by Dr. Larry Nitz, consultant to the JLC. He contracted for comment and analysis with a certified mainland actuarial, John C. Wilkin of Actuarial Research Corporation. Wilkin is a consultant for the LTC plan of the California Public Employees Retirement System and a consultant to the federal government on LTC insurance.

To increase the number of people covered by an LTC insurance policy, this measure requires that employers and other groups offer to their employees or members an LTC insurance policy for optional purchase, without requiring the employer to pay any premiums unless the employer agrees to it as an employee benefit. To encourage the purchase of LTC insurance policies, premiums are made more affordable in separate measures that provide for an income tax deduction or an income tax credit for premiums paid.

Your Committees emphasize that any tax benefit should be linked to this measure in order to assure that the tax benefits go to paying for a high quality product. Your Committees are concerned that there are many LTC policies on the market that were sold under current law and may not afford as much protection or benefits as they could.

Your Committees have amended this measure by:

- (1) Deleting the requirement that the measure apply to policies issued after October 14, 1998, to avoid possible challenges based on retroactive impairment of contracts;
- (2) Adding "retiree organization" to the employer entity references;
- (3) Setting out as a separate statutory section the provision requiring all insurers to make available group long-term care insurance policies;
- (4) Clarifying the portability requirements by deleting references to conversion or to continuing coverages with another employer, since most policies are presently portable and since "conversion" is a term of art in the insurance business that allows for a new policy to be issued with higher premiums;
- (5) Requiring lapse to occur after one hundred fifty days instead of sixty days to conform with current policies;
- (6) Deleting the provision for reinstatement by payment of premium within sixty days from a lapse, and inserting language to allow the policy provisions to control reinstatement;
- (7) Changing "brain diseases" to "brain disorders";
- (8) Clarifying the provision for age-graded premiums to allow further rate adjustment after the age of sixty-five, on the recommendation of the Insurance Commissioner who can regulate the rates anyway;
- (9) Providing for Internal Revenue Code conformity for policies for federal tax benefit purposes;
- (10) Inserting language from the Insurance Commissioner to subject health maintenance organizations offering long-term care policies to the Life and Disability Guaranty Association;
- (11) Providing that a group long-term care insurance policy may be substituted with an individual long-term care insurance policy if a group policy is not made available to the employer;
- (12) Providing that the terms "group long-term care insurance policy" and "individual long-term care insurance policy" are interchangeable;
- (13) Adding a severability clause; and
- (14) Making technical, nonsubstantive amendments for purposes of clarity and style.

As amended, this measure provides the following:

- (1) Minimum required coverages in group LTC insurance polices for home- and community-based care, adult residential homes, and respite care, and optional coverage for nursing home care, hospice care, and assisted living facilities; minimum coverages for individual LTC insurance policies for one or more of home- and community-based care, adult residential homes, nursing home care, respite care, or assisted living facilities;
- (2) Requiring employers, labor organizations, retiree organizations and other entities to offer LTC insurance policies to their employees or members, without requiring them to purchase and without requiring the employer, labor organization, retiree organization, or other entity to pay for premiums, unless they so choose;

- (3) Requiring all LTC insurers to make available an LTC policy to employers, labor organizations, retiree organizations, and other entities;
- (4) Allowing a person to purchase an LTC insurance policy that covers the person, the person's spouse or reciprocal beneficiary, as well as their parents and grandparents, including in-laws;
- (5) Prohibiting policy lapses for nonpayment of premium for a minimum period of 150 days;
- (6) Coverage for LTC resulting from Alzheimer's and brain disorders;
- (7) Requiring an LTC policy option for inflation protection;
- (8) Age-graded premiums to be fixed over the life of the policy unless changes are allowed by the Insurance Commissioner;
- (9) Conflict with the Health Insurance Portability and Accountability Act (HIPA), so that HIPA controls;
- (10) Conformance with federal tax law for qualifying LTC policies for tax benefits purposes;
- (11) Interchangeability of terminology between "group long-term care insurance" and "individual long-term care insurance";
- (12) Allowing a member of the Public Health Fund to purchase an LTC insurance policy that covers the person, the person's spouse or reciprocal beneficiary, as well as their parents and grandparents, including in-laws;
- (13) Requiring the Insurance Commissioner to adopt LTC insurance rules by September 1, 1999;
- (14) Requiring specified loss ratio standards for evaluating LTC policies;
- (15) Requiring mutual benefit societies to belong to the Life and Disability Guaranty Association for that part of their business in selling LTC insurance;
- (16) Extending the sunset date for the JLC to June 30, 2000, with an interim report by December 1, 1999, and a final report by December 30, 1999;
- (17) Making an appropriation for the Insurance Commissioner to hire a qualified LTC actuary to provide services to the Insurance Division, as distinguished from making an appropriation for an LTC actuarial study which requires an actuary firm rather than an individual actuary;
- (18) Making an appropriation for the JLC to conduct a comprehensive LTC actuarial study to provide an analysis and report on a universal LTC plan, as distinguished from making an appropriation to the Insurance Commissioner to hire an LTC actuary;
- (19) Making an appropriation for JLC expenses to conducting statewide public briefings of the result of its actuarial study; and
- (20) A severability clause.

The Insurance Commissioner has proposed that this measure be amended to incorporate selected provisions from the Model Long-Term Care Act, as revised in 1998. However, your Committees have been informed that those amendments are not ready for this draft but should be ready later during this session as this measure progresses through the legislature. The Insurance Commissioner is in the process of examining recent federal tax legislation for its effect on the model act, so the Commissioner has advised your Committees to proceed with this draft in the meantime.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce and Consumer Protection that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 131, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 131, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 3 (Levin, Matsuura, Anderson).

SCRep. 503 Health and Human Services on S.B. No. 1542

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to fund the establishment of senior citizen lifecare retirement communities in the State.

Testimony in support of the measure was received from the Honolulu Neighborhood Housing Services and the development firm of Graham, Murata, Russell. The Department of Budget and Finance submitted comments on the measure.

Your Committee finds that there is a pressing need to provide affordable, quality lifecare domiciles and services for Hawaii's aging population. By authorizing the issuance of special purpose revenue bonds for this purpose, the State will be assisting in the provision of low cost financing for projects that meet this pressing need.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1542 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 504 Health and Human Services on S.B. No. 717

The purpose of this measure is to authorize special purpose revenue bonds for the North Hawaii Community Hospital.

Testimony in support of this measure was received from the North Hawaii Community Hospital.

Your Committee finds that this measure will facilitate refinancing North Hawaii Community Hospital's long term debt at substantially lower interest rates. This refinancing shifts cash from bank payments back to expenditures in the community by as much as \$500,000 per year.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 505 Health and Human Services on S.B. No. 166

The purpose of this measure is to prohibit the distribution of samples of or coupons for cigarettes or tobacco products on any public street, sidewalk, park, or within one thousand feet from any elementary, intermediate, or high school.

Your Committee received testimony in support of this measure from the Department of Health, Department of Education, Police Department of the City and County of Honolulu, Hawaii Nurses Association, American Lung Association, American Academy of Pediatrics, and Coalition for a Tobacco Free Hawaii. Testimony in support of the intent of the measure was submitted by the Legislative Information Services of Hawaii.

Your Committee believes that this measure will be an effective mechanism to reduce tobacco use by youth. Cigarette smoking is Hawaii's and the nation's number one preventable cause of morbidity and mortality. In Hawaii, those casualties represent sixteen per cent or over 1,200 lives lost each year and \$238 million in economic losses every year. Over ninety per cent of smokers begin smoking during childhood and adolescence. More aggressive measures are needed to counteract the social forces that continue to induce Hawaii's young people to use tobacco products.

Your Committee has amended this measure by clarifying the definition of "to distribute" to mean the "exclusive" purpose of promoting a product, to avoid possible first amendment problems with advertising.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 166, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 166, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 506 Health and Human Services on S.B. No. 225

The purpose of this measure is to appropriate funds to provide twenty-four hour advanced life support ambulance service.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Council Chair and two members of the County Council of Maui, American Medical Response, numerous private citizens of the Kula Community Association who signed a petition, and one other private citizen.

Your Committee finds that this measure will provide parity in emergency health care for residents and visitors of Kula, Makawao, and Pukalani, known as the upcountry region of Maui. According to the DOH, there is currently only one life support ambulance unit providing twenty-four hour per day service to this region and one unit providing ten-hour service. Your Committee finds that the ambulance service should be expanded in the interests of the health and welfare of upcountry residents. The DOH estimates the cost of increasing the one ambulance service from ten to twenty-four hour service would be approximately \$492,000 per year.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 225 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 507 Health and Human Services on S.B. No. 779

The purpose of this measure is establish a certification process of dental hygienists to administer intra-oral infiltration local anesthesia and intra-oral block anesthesia.

Your Committee received testimony in support of this measure from the Department of Commerce and Consumer Affairs, Hawaii Dental Hygienists Association, Hawaii Institute for Wellness in Dentistry, and two private citizens. Testimony in opposition was received from two dentists. Testimony expressing reservations or concerns was received from three dentists. The Board of Dental Examiners provided informational testimony.

Your Committee finds that with proper training, licensing, and oversight, as provided by this measure, dental hygienists may administer local anesthesia.

Your Committee has amended this measure by:

- (1) Deleting section 447- (a)(11),(12), and (13), Hawaii Revised Statutes (HRS) in section 1, relating to three types of nerve blocks;
- (2) Deleting section 447- (b)(2), HRS, in section 1, relating to the course of study; and
- (3) Inserting section 447- (d), HRS, in section 1, relating to allowing the Board of Dental Examiners to adopt rules for the new section.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 779, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 779, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 508 Health and Human Services on S.B. No. 180

The purpose of this measure is to make appropriations for substance abuse prevention and treatment service.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Education, Hawaii Substance Abuse Coalition, Coalition for a Drug Free Hawaii, and Ho'omau Ke Ola. The Department of Health (DOH) submitted suggested amendments after the hearing.

This measure makes appropriations for prevention programs, adolescent treatment services, adult treatment services, and the Substance Abuse Free Environment (S.A.F.E. or Baby Safe program of the DOH).

Your Committee finds that a comprehensive approach is necessary to adequately address the effects of alcohol and drug abuse on society. A comprehensive approach involves the host (abuser), the agent (alcohol or drugs), and the environment (society). This measure provides funding for treating the abuser, preventing the agent, and improving society through reducing infant mortality and morbidity among high risk substance abusing women who are pregnant.

Your Committee has amended this measure on recommendation of the DOH, as follows:

- (1) Adding explanatory language to section 1;
- (2) Inserting \$600,000 for funding for adolescent school-based substance abuse treatment services in public high schools statewide;
- (3) Inserting amounts for funding under section 6 and deleting day treatment services;
- (3) Deleting part V pertaining to the baby safe program;
- (4) Inserting \$2,418,550 for funding for substance abuse prevention and treatment; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 180, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 180, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 509 (Joint) Health and Human Services and Judiciary on S.B. No. 1058

The purpose of this administration measure is to allow the Department of Human Services (DHS) to subrogate against a third party recovery on any claim brought by an injured person who receives medical assistance.

Your Committees received testimony in support of this administration measure from the DHS. Testimony in opposition was submitted by the Consumer Lawyers of Hawaii.

Your Committees find that medical assistance recipients who receive a third party recovery should repay the State the amount of the costs of their medical treatment resulting from an accident. This measure creates a right of subrogation for the DHS for that purpose.

Your Committees have amended this measure on the recommendation of the Consumer Lawyers of Hawaii to clarify the rights and liabilities of the State and the recipient regarding payment of attorneys fees in any subrogation action. Your Committees also have made technical, nonsubstantive amendments for clarity and to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1058, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1058, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Anderson).

SCRep. 510 (Joint) Health and Human Services and Labor and Environment on S.B. No. 1496

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for a plasma waste conversion facility.

Your Committees received testimony in support of this measure from the Department of Health (DOH).

Your Committees find that hospitals and medical facilities are having difficulty disposing of medical waste. HEED, Inc., a Hawaii corporation, plans to develop a plasma waste conversion facility on Oahu and Molokai for the safe and proper disposal of medical waste. According to the DOH, this is a long-term solution for the proper disposal of Hawaii's medical waste.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1496, and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 3 (Iwase, Anderson, Slom).

SCRep. 511 Health and Human Services on S.B. No. 866

The purpose of this measure is to make an appropriation for a demonstration project for long-term care.

Your Committee received testimony in support of this measure from the Department of Human Services (DHS), Hawaii Long Term Care Association, and Aloha Care.

Your Committee believes that long-term care for Hawaii's residents is a critical issue due to the increase in the aging population, shortage of nursing home beds, and fragmentation or nonexistence of home- and community-based care. This measure is a means for the State to examine alternatives to administer long-term care to provide an effective and affordable system. This measure introduces the managed care concept into long-term care, starting with the Medicaid population.

Your Committee has amended this measure on the recommendation of Aloha Care by:

- (1) Correcting the reference to federal matching funds in the purpose section to \$40,000 instead of \$80,000; and
- (2) Clarifying that the use of the funds is for a Medicaid managed long-term care demonstration project.

Your Committee has also made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 866, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 512 Health and Human Services on S.B. No. 192

The purpose of this measure is to create a child care facilities revolving fund and to make appropriations for various child care programs.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Education, Department of Health, Department of Community Services of the City and County of Honolulu, Head Start Association of Hawaii, KCCA Pre-Schools of Hawaii, Hawaii Association for the Education of Young Children, Good Beginnings Alliance, American Academy of Pediatrics, Kauai Good Beginnings Community Council, Childcare Business Coalition, PATCH, Information Services, and two private individuals.

Your Committee finds that the first years of life are critical to child development. Early childhood education and care programs promote cognitive, emotional, social, and physical development of the child. There are tremendous opportunities for preventive work with children and families in early childhood that are critical to prevent the costly consequences of neglecting children and families. Your Committee believes that every child should have a good beginning and should not lose the potential with which the child was born.

Your Committee has amended this measure on the recommendation of the Department of Human Services to change the revolving loan fund to a grant fund and to make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 192, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 513 Health and Human Services on S.B. No. 149

The purpose of this measure is to make an appropriation for respite care services for families of individuals with special needs.

Your Committee received testimony in support of this measure from the Department of Health (DOH), State Planning Council on Developmental Disabilities, Commission on Persons with Disabilities, The Arc of Hawaii, NAMI Oahu, American Academy of Pediatrics, and fifteen private citizens.

Your Committee believes that families are the greatest resource for children and are the major providers of care and support for them, particularly if those children have special needs requiring daily care in their own home. These families must endure higher financial sacrifices, physical and emotional stress, and isolation from being constantly tied to the home. The last major appropriation for respite care for families who provide home care was in 1990 for support services and training. Your Committee finds that the respite care budget of the DOH has been substantially reduced since then. This measure represents much needed and long overdue assistance to those families.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 149, and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 514 Health and Human Services on S.B. No. 190

The purpose of this measure is to create a perinatal care and support services special fund and to require that an unspecified amount of fees collected by the Department of Health from the issuance of special commemorative birth certificates be deposited into the fund with the remainder going to the general fund.

Your Committee received testimony in support of this measure from the Department of Health, Mothers Care, and Healthy Mothers Healthy Babies.

Your Committee finds that this measure will assure permanent and ongoing state funding to support perinatal services, which are a core public health function. Budget restrictions over the last few years have necessitated the reduction of perinatal services. This measure is an innovative funding solution that has been successful in other states, according to the Department of Health.

Your Committee notes, however, that the moneys generated from the purchase of the commemorative birth certificates should not supplant existing general fund resources presently allocated for perinatal services.

Your Committee has amended this measure by:

- (1) Conforming two statutory provisions to current law;
- (2) Deleting two duplicative statutory amendment provisions;
- (3) Deleting the perinatal care and support special fund and substituting appropriate amendments to the Hawaii children's trust fund;
- (4) Amending Act 216, Session Laws of Hawaii 1997, to preserve the amendments proposed in this measure; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 190, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 190, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 515 Health and Human Services on S.B. No. 172

The purpose of this measure is to make an appropriation for the children's health insurance program (CHIP), to be matched by federal funds.

Your Committee received testimony in support of this measure from the Department of Human Services, Department of Health, Hawaii State Primary Care Association, American Academy of Pediatrics, and Na Loio.

CHIP is a federal program under the Social Security Act that provides matching federal assistance to states to expand Medicaid coverage for uninsured children and low-income families.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 172 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Levin).

SCRep. 516 Health and Human Services on S.B. No. 176

The purpose of this measure is to create criminal offenses for child abuse in the first and second degrees and to make other revisions to the penal code pertaining to child abuse.

Your Committee received testimony in support of this measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, Police Department of the City and County of Honolulu, and American Academy of Pediatrics. Informational testimony was submitted by the Public Defender.

Specifically, this measure:

- (1) Requires that when determining if force is justifiable, consideration must be given to the condition of the minor;
- (2) Raises the age of a child victim from under eight to under twelve years old which subjects a convicted defendant to consideration for an extended term of imprisonment;
- (3) Raises the age of a child victim from under eight to under twelve years old which subjects a convicted defendant to a mandatory term of imprisonment without the possibility of parole for cases of death or serious bodily injury; and
- (4) Reclassifies the offense of recklessly allowing another person to inflict serious or substantial bodily injury on the minor from a second degree to first degree offense.

Your Committee finds that the penal code is lacking in offenses specific to child abuse and in punishment for those offenses. This measure closes those loopholes, serves as a deterrent to child abuse, and punishes those who commit the most serious abuses.

Your Committee defers to the Committee on the Judiciary for appropriate amendments, if any, to this measure. However, your Committee notes that the Public Defender raised a concern that this measure makes no distinction between very dissimilar conduct and yet punishes both offenses equally. According to the Public Defender, no other felony-assault type offense does this. It is contrary not only to our penal law but to the notion that conduct is punished in accordance with the level of culpability of the state of mind with which the act has been committed. The same consideration applies to elevating recklessly endangering the welfare of a minor in the second degree to a first degree felony.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 176 and recommends that it pass Second Reading and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 517 (Joint) Health and Human Services and Labor and Environment on S.B. No. 993

The purpose of this measure is to exempt owners of guide dogs, signal dogs, or service animals from all licensing fees or charges by the counties, and to clarify discrimination laws against the blind.

Your Committees received testimony in support of this measure from the Hawaii Civil Rights Commission (HCRC), Commission on Persons with Disabilities, Hawaii State Coordinating Council on Deafness, and four private citizens.

This measure strengthens the policy of the State to encourage and enable the blind to participate fully in the social and economic life of Hawaii and to obtain gainful employment. Your Committees believe that the blind are entitled to equality of opportunity, full participation, independent living, and economic-self sufficiency.

Your Committees have amended this bill on the recommendation of the HCRC, as follows:

- (1) Deleting the exemption from county dog licensing requirements in chapter 46, Hawaii Revised Statutes (HRS);
- (2) Adding a new definition for "because of a disability" in section 378-1, Hawaii Revised Statutes, and a new definition for "on the basis of disability" in section 489-2, Hawaii Revised Statutes;
- (3) Deleting provisions relating to prohibiting discrimination against using guidedogs and requiring payment of extra charges or fees by employers for use of guidedogs, as being unnecessary with the new definitions; and
- (4) Clarifying that guide dogs, service animals, and signal dogs are exempt from county regulation and licensure in chapter 143, HRS.

Your Committees have also made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Labor and Environment that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 993, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 993, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 518 Health and Human Services on S.B. No. 835

The purpose of this measure is to require the Department of Health (DOH) to establish and administer an aeromedical emergency medical services information system and to contract for emergency aeromedical services.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hawaii County Fire Department, Hawaii Air Ambulance, Healthcare Association of Hawaii, and the American Heart Association which submitted a letter of support from a physician and a petition with numerous signatures.

Your Committee finds that a quality aeromedical services system is critical to the health and welfare of all people, particularly those in the rural areas of the Big Island. Although this measure provides statutory recognition of aeromedical services, the DOH currently provides aeromedical services. This measure is an outgrowth of an aeromedical task force that assisted the DOH by making recommendations to improve current aeromedical services.

Your Committee has amended this measure on the recommendation of the Department of Health and Hawaii Air Ambulance by:

- (1) Adding the time for notification to aeromedical dispatch to the aeromedical emergency medical services information system's communication and dispatch responsibilities;
- (2) Deleting medical oversight by physicians;
- (3) Changing the name of the emergency aeromedical services quality improvement committee to the emergency aeromedical services quality improvement advisory committee; and
- (4) Deleting reference to the American College of Surgeons performance measures.

Your Committee has clarified that the DOH may require licensing and establish standards for emergency aeromedical services, and has made technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 835, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 519 Health and Human Services on S.B. No. 1610

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to fund the renovation of existing health care facilities and the establishment of a new health care facility by Wahiawa General Hospital, Inc.

Specifically, the measure authorizes the issuance of \$37,000,000 in special purpose revenue bonds and appropriates the same sum for the Wahiawa General Hospital, Inc., a not-for-profit Hawaii corporation, to:

- (1) Retire outstanding debt on existing health care facilities;
- (2) Retire outstanding debt on existing capital equipment used in connection with the existing facilities;
- (3) Plan, design, construct, and operate a new health care facility in central Oahu;
- (4) Acquire and install additional capital equipment for use in connection with Wahiawa General Hospital, Inc., facilities; or
- (5) Renovate or repair existing health care facilities.

Testimony in support of the measure was received from the Wahiawa Hospital Association, Wahiawa General Hospital, Central Oahu Physician Hospital Organization, representatives of the Physician Center of Mililani, a physician, and a petition containing numerous supporters of the measure.

Your Committee finds that there is a pressing need to provide affordable, quality health care facilities for Hawaii's citizens. By authorizing the issuance of special purpose revenue bonds for this purpose, the State will be assisting in the provision of low cost financing for Wahiawa General Hospital, Inc., to help meet this pressing need.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1610 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 520 Health and Human Services on S.B. No. 1608

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to fund the establishment of health care facilities in the State by not-for-profit corporations.

Specifically, the measure authorizes the issuance of special purpose revenue bonds and appropriates the same sums for the following purposes:

- (1) \$5 million for the Pacific Women's Center, Inc., a not-for-profit Hawaii corporation, to establish a health care facility in Central Oahu;
- (2) \$500,000 for the Pacific Saging, Inc., a not-for-profit Hawaii corporation, to establish a new health care facility;
- (3) \$20 million for the Pacific Sports Medicine & Research, Inc., a not-for-profit Hawaii corporation, to establish a health care facility in Central Oahu;

- (4) \$15 million for the Pacific Cardiac Institute, Inc., a not-for-profit Hawaii corporation, to establish a health care facility in Central Oahu; and
- (5) \$5 million for the Pacific Wellness Center, Inc., a not-for-profit Hawaii corporation, to establish a health care facility in Central Oahu.

Testimony in support of the measure was received from the Wahiawa Hospital Association, Wahiawa General Hospital, Central Oahu Physician Hospital Organization, representatives of the Physician Center of Mililani, the President of the American Heart Association of Hawaii, a number of physicians, a certified athletic trainer, and a petition containing numerous supporters of the measure.

Your Committee finds that there is a pressing need to provide affordable, quality health care facilities for Hawaii's citizens. By authorizing the issuance of special purpose revenue bonds for this purpose, the State will be assisting in the provision of low cost financing for projects that meet this pressing need.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1608 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 521 Health and Human Services on S.B. No. 368

The purpose of this measure is to prohibit the Director of Health from issuing a permit for a medical waste incinerator that is located within one mile of any residential dwelling.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Stonecraft, Akamai Builders, Inc., and six private citizens.

Your Committee believes that medical waste incinerators pollute the air in the surrounding area. For example, residents of Kalihi report that a recent medical waste incinerator emits a noxious odor that causes physical discomfort. This measure is intended to prevent those occurrences.

Your Committee notes the comments of the DOH that a one-mile buffer zone for residents from any medical waste incinerator or medical waste sterilizer will severely restrict or eliminate viable locations for these facilities. The only areas left are probably remote areas on neighbor islands. However, your Committee believes that it is incumbent upon the State to protect the health and safety of the public, even if it means locating these facilities in remote areas which your Committee feels is more appropriate anyway.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 368 and recommends that it pass Second Reading and be referred to the Committee on Labor and Environment.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 522 Health and Human Services on S.B. No. 136

The purpose of this measure is to prohibit long-term care (LTC) insurers from requesting or requiring an individual or a family member to undergo genetic testing to obtain an LTC insurance policy or certificate.

Your Committee received testimony in support of this measure from the Department of Health, Executive Office on Aging, Commission on Persons with Disabilities, Hawaii Medical Association, Policy Advisory Board for Elder Affairs, Healthcare Association of Hawaii, and a private citizen. Testimony in opposition was received from the Insurance Commissioner and American Council of Life Insurance. Informational testimony was provided by State Farm Insurance Companies and a private citizen. Your Committee notes that the Insurance Commissioner's testimony was in opposition to authorizing insurers to request or require genetic testing, when in fact the measure prohibits the practice.

This measure also clarifies the use of genetic test results for underwriting LTC insurance.

Your Committee is very concerned about the impact of genetic testing and test results upon the ability of a person to obtain LTC insurance. Genetic science and genetic testing are evolving to the point where they have practical application to predict chronic diseases and to even treat those diseases through gene therapy. However, your Committee feels that genetic test results have no place in qualifying a person to purchase LTC insurance. Hawaii is currently in the process of making LTC insurance universal. To allow genetic test results to be factored into underwriting could result in disproportionately higher premiums and discourage the applicant from purchasing LTC insurance.

Your Committee has amended this measure to:

- (1) Clarify that an LTC insurer may not underwrite an LTC insurance policy or certificate based on genetic test results unless based on actuarially sound principles or actual or reasonably anticipated experience;
- (2) Delete the definition of "board certified genetics professional" because it is not used in the amended language; and
- (3) Make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 136, S.D. 1, and be referred to the Committee on Commerce and Consumer Protection.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 523 Health and Human Services on S.B. No. 851

The purpose of this measure is to require the Department of Health (DOH) to adopt rules relating to patient self-determination for medical care and pain management during end of life care.

Your Committee received testimony in support of this measure from the DOH, Executive Office on Aging, Hawaii Catholic Conference, and American Association of Retired Persons. Testimony in opposition was received from the Hawaii Nurses Association.

This measure is intended to facilitate a patient's wishes for pain treatment at end of life care. Your Committee recognizes that this is a very personal and sensitive subject and believes that dying patients should have a certain amount of freedom to choose a course of pain management. This measure requires the DOH to adopt rules for industry standards for the treatment of pain based on the guidelines issued by the Agency for Healthcare Policy and Research of the United States Department of Health.

Your Committee also received testimony in support of a related measure, S.B. No. 847, relating to hospice care reimbursement, from the Insurance Commissioner, Executive Office on Aging, Hawaii Catholic Conference, Commission on Persons with Disabilities, American Association of Retired Persons, and Hawaii Nurses Association.

Your Committee finds that hospice care can be a very appropriate method of end of life care and that Hawaii needs more hospice homes. S.B. No. 847 requires health insurers to cover expenses for hospice care and removes county zoning barriers to the location of hospice homes in residentially designated zones.

Your Committee has amended this measure by:

- (1) Inserting the provisions of S.B. No. 847 into this measure;
- (2) Adding a new section to chapter 46, Hawaii Revised Statutes (HRS), relating to counties, permitting a hospice home in a residential area;
- (3) Deleting the new section to chapter 432D, HRS, and inserting an amendment to section 432D-23, HRS, as the appropriate revision;
- (4) Deleting the amendment to section 321-13, HRS, relating to insertion of the word "services" into the permissible subjects of occupation regulation of DOH;
- (5) Making changes to language that reflect proper statutory language for revising insurance statutes;
- (6) Making other changes to language for purposes of clarity and style; and
- (7) Reformatting and renumbering sections.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 851, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Anderson).

SCRep. 524 Health and Human Services on S.B. No. 1055

The purpose of this measure is to include future categories of unclaimed cash assistance benefits, to be expunged through the electronic benefit transfer (EBT) system.

Testimony in favor of this measure was received from the Department of Human Services.

This administration measure provides the Department of Human Services with the flexibility to allow other cash benefits to be disbursed through the existing Electronic Benefit Transfer (EBT) system. Currently, the various types of cash assistance benefits that the Department issues via the EBT system include Temporary Assistance to Needy Families (TANF), Temporary Assistance to Other Needy Families (TAONF), General Assistance (GA), and Aid to the Aged, Blind, and Disabled (AABD). As technology improves and modifications to the EBT system are made, the Department plans to add other cash benefits onto its system. Future programs to be added include child care and foster care payments.

Your Committee finds that the Department of Human Service's implementation of the EBT system has been successful. Your Committee further finds that this measure will allow the Department to proceed to disperse the benefits of future assistance programs without having to constantly revise this Hawaii Revised Statutes section.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1055 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 525 (Joint) Health and Human Services and Education and Technology on S.B. No. 174

The purpose of this measure is to make an appropriation for the peer education program to expand the program to five new schools in each of the next two years.

Your Committees received testimony in support of this measure from the Department of Education, Department of Health, Hawaii State Teachers Association, Keiki Injury Prevention Coalition, several staff members of the peer education program from various high schools, and numerous students from various high schools who are associated with the peer education program as peer educators or as members of the program.

The peer education program in Hawaii public schools was established in 1988 to address such serious teen health issues as pregnancy, sexually transmitted diseases, substance abuse, violence, and suicide. The peer education program has been implemented in twenty-six schools throughout the State.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 174 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Bunda, Anderson, Slom).

SCRep. 526 (Joint) Health and Human Services and Education and Technology on S.B. No. 1577

The purpose of this measure is to require the Department of Health (DOH) to identify, investigate, and report to the public on environmental health hazards, in cooperation with the Department of Education (DOE).

This measure also requires the DOE to evaluate, identify, and report to the DOH any suspicious increase or significant clusters of disease or illness suspected to be related to environmental contamination.

Your Committees received testimony in support of this measure from DOH, DOE, Life of the Land, and eight private citizens.

Your Committees find that there is cogent and persuasive evidence that is more than coincidental to indicate the presence of an environmental hazard at Village Park in Kunia on Oahu. The soil and water at Kunia could be contaminated with toxins that are having a profound effect on Kunia's children, who exhibit grossly disproportionate incidences of physical and learning disabilities. Adults have also experienced unusual health problems including excessive hair loss, development of tumors, and face and body rashes. Residents have also observed blue water stains in their bath tubs and sink basins, accelerated corrosion of plumbing fixtures, bathtub porcelain, water heaters and water pressure regulators. Your Committees believe that testing should be immediately conducted to determine if the soil and water at Kunia are the cause of these disabilities. Because Kunia was once prime agricultural land, your Committees feel that the soil and water may be contaminated with pesticide residues that have accumulated over decades.

Your Committees request the DOH to plan and conduct the soil and water testing after consultation with the DOH and appropriate community organizations and representatives of Village Park. Your Committees further request the DOH to continue to work with Village Park residents after the testing for any follow-up plans.

Your Committees have amended this measure by:

- (1) Deleting the statutory amendments;
- (2) Clarifying the language in the purpose section to emphasize the problems at Kunia;
- (3) Inserting an unspecified appropriation to the DOH to conduct soil and water testing at Kunia; and
- (4) Requiring that the DOH complete its testing by December 15, 1999, and report to the legislature for the 2000 session.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Education and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1577, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1577, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 3 (Matsunaga, Tam, Anderson).

SCRep. 527 (Majority) Health and Human Services on S.B. No. 862

The purpose of this measure is to legalize marijuana for medical use.

Testimony in support of this measure was received from the Life Foundation, American Civil Liberties Union, Cannabis Consulting Company, Libertarian Party of Hawaii, Big Island AIDS Project, Malama Pono, Religion of Jesus Church, Upjohn Company, Industrial Research Laboratories, Citizens Advocating Responsible Education, and twenty private citizens. Testimony in opposition was presented by the Police Department of the City and County of Honolulu, Department of the Prosecuting Attorney of the County of Maui, County of Hawaii Police Department, American Cancer Society, Hawaii Medical Association, Hawaii Catholic Conference, Drug-Free Hawaii, Wm. S. Merrell Company, American Drug Manufacturers Association, Reformed Church in America, and three private physicians. The Department of Health submitted informational testimony that more discussion is needed.

Your Committee finds that medical scientific evidence on the medicinal benefits of marijuana should be recognized, though this subject is controversial. Your Committee is aware of the problems of law enforcement and legal acquisition relating to legalizing marijuana for medical use. It is your Committee's intent to move toward a policy of allowing the medical use of marijuana. By passing this measure, your Committee is keeping the issue alive and generating discussion on a topic of utmost importance. Your Committee defers to the Committee on the Judiciary as to the legal aspects of this measure. Your Committee is concerned with the health aspects and finds that there is sufficient anecdotal evidence that certain diseases and conditions may respond favorably to a medically controlled use of marijuana.

Your Committee, however, wishes to note that the passage of this measure onto the Committee on the Judiciary in no way signals that the legislature intends to legalize marijuana for other than medicinal purposes. Your Committee strongly suggests that, should marijuana be legalized for medicinal purposes, every effort should be made to partner with existing national research efforts studying the efficacy of using marijuana for treating the terminally ill and those with debilitating medical conditions. In addition, your Committee also suggests that the Committee on Judiciary examine the positive and negative aspects of replacing the current definition of marijuana with that of "cannabis".

Your Committee further wishes to note the scholarly dissertation submitted as testimony in favor of this measure from Professor Richard S. Miller, Emeritus Professor of Law, William S. Richardson School of Law, University of Hawaii. He makes a cogent legal argument that "medical use of cannabis is evidently permitted under Hawaii law under certain circumstances. S.B. No. 862 will not establish any new legal rights, but will make existing Hawaii law and legal rights effective!" Professor Miller bases his argument on the "choice of evils" defense to justify an act that would otherwise be a crime in order to avoid a consequence that would be more harmful than the crime itself. Your Committee wishes to thank Professor Miller for his insightful legal perspective.

Your Committee has amended this measure on the recommendation of Professor Miller to add a provision to clarify that a failure of a physician to provide written documentation does not subject the physician to a civil, criminal, or licensure action. Technical, nonsubstantive amendments also were made.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 862, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 862, S.D. 1, and be referred to the Committee on Judiciary.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Iwase). Excused, 1 (Anderson).

SCRep. 528 (Joint) Transportation and Intergovernmental Affairs and Judiciary on S.B. No. 680

The purpose of this measure is to prohibit the use of fireworks at any time by any person unless the person has a permit to use fireworks for compelling religious and cultural purposes.

Your Committees held a hearing on this measure and the following measures relating to the regulation of fireworks: S.B. Nos. 50, 141, 213, 214, 608, 679, 681, 796, 963, 1331, or 1630. To expedite the hearing, testifiers were asked to explain their position on fireworks regulation rather than comment on the provisions of each bill.

Your Committees received testimony from the Office of the Governor, Hawaii State Department of Health, Department of Taxation, Police Department of the City and County of Honolulu, Fire Department of the City and County of Honolulu, James Campbell High School, American Lung Association, Legislative Information Services of Hawaii, Inc., Chinese Chamber of Commerce, Hawaii Medical Association, Hawaii Explosives & Pyrotechnics, Inc., Pacific Realty Consultants, Tax Foundation of Hawaii, and over 100 individuals.

In general, testimony called for further regulation of fireworks and described the excessive, dangerous, and illegal use of fireworks prior to, during, and after January 1, 1999, the effect of which caused health problems, created safety hazards, and caused many citizens to fear for their well-being. Further testimony expressed that current fireworks control laws are unenforceable.

With respect to fireworks regulation, the positions advocated by testifiers included an absolute prohibition of fireworks, prohibiting the individual use of fireworks, delegating the regulation of fireworks to the counties, increasing the tax on the sale of fireworks, and further prohibiting the use of fireworks but permitting the use of fireworks for professional public displays and/or religious cultural purposes. Numerous testifiers also submitted testimony in opposition to the various positions advocated and suggested alternative forms of fireworks regulation.

Upon consideration of the testimony presented, your Committees find that current fireworks control laws are not effective and are difficult and even impossible to enforce. As the use of fireworks has reached a point where the health, safety, and general welfare of the public is in jeopardy, your Committees find that the use of fireworks must be strictly regulated in this State. However, your Committees acknowledge the social value of fireworks when used for religious and cultural purposes and in professional public displays. Your Committees note the use of fireworks in religious events may be protected by the Constitution.

Therefore, your Committees believe that the use of fireworks for religious and cultural purposes and for professional public displays should be permitted in this State. Your Committees further believe that if counties determine that the use of fireworks within their respective jurisdictions should be permitted, then those counties must affirmatively enact ordinances permitting and regulating the use of fireworks. Thus, in the absence of county ordinances stating otherwise, the use of fireworks will be prohibited in all counties except for religious and cultural purposes and professional public displays.

Your Committees have amended this measure by replacing it with provisions that repeal chapter 132D, Hawaii Revised Statutes, and establishing a new chapter on fireworks which:

- (1) Prohibits the sale, possession, and use of fireworks statewide except for bona fide religious or cultural purposes and public displays;
- (2) Permits individual counties, by adopting ordinances, to authorize and regulate the sale and use of fireworks within their respective jurisdictions;
- (3) Deems it a class C felony to import or sell aerial common fireworks or special fireworks, a misdemeanor to sell fireworks if not authorized by county ordinance, and a petty misdemeanor to purchase, possess or use fireworks if not authorized by county ordinance;
- (4) Restricts the permitted use of fireworks only to the hours between 9:00 a.m. and 9:00 p.m.;
- (5) Prohibits the sale of fireworks to minors, holds parents or guardians of a minor possessing or using fireworks liable for possession or use of fireworks except when the minor is using the fireworks for religious or cultural purposes and the parents or guardians have a permit for that activity;
- (6) Requires the counties to enforce and administer the fireworks control laws;
- (7) Deems void all county ordinances and rules regulating fireworks effective prior to January 2, 2000; and
- (8) Takes effect January 2, 2000.

As affirmed by the records of votes of the members of your Committees on Transportation and Intergovernmental Affairs and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 680, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 680, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 6 (Ige, D., Iwase, Sakamoto, Tanaka, Taniguchi, Anderson).

The purpose of this administration measure is to allow the Drug Product Selection Board (Board) to adopt as rules the "Approved Drug Products with Therapeutic Equivalence Evaluations", known as the Orange Book, as a state drug formulary, including a Hawaii additions and deletions list.

Your Committee received testimony in support of this measure from the Department of Health (DOH), Hawaii Medical Services Association, Pharmacy Association of Hawaii, Longs Drugs, and Times Supermarkets.

Under existing law, the Board is required to publish and distribute a state generic drug formulary. Only drugs listed in the formulary may be used as substitutes for the prescription drug. The formulary is virtually a reprint of the U.S. Food and Drug Administration's Orange Book which is revised every month to add new generic drugs and to delete unsafe or ineffective drugs. This measure would relieve the administrative burden on the Board of revising, publishing, and distributing the formulary on a timely basis.

Your Committee has amended this measure to make technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1018, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1018, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 530 Health and Human Services on S.B. No. 1021

The purpose of this administration measure is to clarify the scope of authority of the Department of Health (DOH) to adopt rules relating to clinical laboratory personnel.

Your Committee received testimony in support of this measure from the DOH.

According to the DOH, this measure facilitates the administration of the clinical laboratory licensing program and provides clarity on the categories of licensure.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1021 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 531 Health and Human Services on S.B. No. 1026

The purpose of this administration measure is to authorize the Department of Health to approve curricula and syllabi used in the training of emergency medical services personnel.

Testimony in favor of this measure was received from the Hawaii State Department of Health and the University of Hawaii. Testimony making comments was received from the Board of Medical Examiners.

Your Committee finds that the establishment of curricula and syllabi will allow for better integration of emergency medical services for all levels and types of medical care provided by all emergency response agencies in the State of Hawaii.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. 1026 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Anderson).

SCRep. 532 Ways and Means on S.B. No. 425

The purpose of this short form bill is to amend the laws relating to fees.

Your Committee has amended the measure by deleting its substance and inserting therefor, provisions that raise various fees charged by state government agencies. These potential fee increases were identified as possible revenue sources during the 1998 legislative session.

Specifically, the measure:

- (1) Establishes a fee for parking and camping at state parks;

- (2) Authorizes the Department of Taxation to impose fees on delinquent tax accounts;
- (3) Establishes a Delinquent Returns Special Fund to be administered by the Department of Taxation;
- (4) Establishes fees for daily school bus transportation;
- (5) Establishes fees for students participating in school athletic activities;
- (6) Raises the cost of a fishing license to \$5;
- (7) Raises moorage fees;
- (8) Establishes fees for students participating in after school and weekend activities; and
- (9) Makes adult education programs self-sufficient.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the action to report out S.B. No. 425, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 425, S.D. 1, and be recommitted to the Committee on Ways and Means for further consideration.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 6 (Buen, Ige, D., Ige, M., Iwase, Nakata, Anderson).

SCRep. 533 Ways and Means on S.C.R. No. 3

The purpose of this concurrent resolution is to express support for the approval of the Ford Island Development Project by the United States Congress.

Your Committee received testimony in favor of this measure from the Chamber of Commerce of Hawaii and the Hawaii Business Roundtable.

Your Committee finds that the Ford Island Development Project involves a \$600,000,000 construction plan to completely renovate facilities on Ford Island to include family housing units, operational facilities, bachelor quarters, a conference center, and a Navy Square complex. Your Committee finds that this joint private-public funding venture, which will cover a construction period of approximately twelve years, will provide a significant boost to Hawaii's construction industry and overall state economy.

Your Committee supports the intent of this concurrent resolution and finds that approval for the project should be obtained from the United States Congress with all possible speed, in order to allow the Navy to begin work on the project in the year 2000. Upon further consideration, your Committee has amended this concurrent resolution to make technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 3, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 3, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Iwase, Nakata, Taniguchi).

SCRep. 534 Ways and Means on S.R. No. 3

The purpose of this resolution is to express support for the approval of the Ford Island Development Project by the United States Congress.

Your Committee received testimony in favor of this measure from the Chamber of Commerce of Hawaii and the Hawaii Business Roundtable.

Your Committee finds that the Ford Island Development Project involves a \$600,000,000 construction plan to completely renovate facilities on Ford Island to include family housing units, operational facilities, bachelor quarters, a conference center, and a Navy Square complex. Your Committee finds that this joint private-public funding venture, which will cover a construction period of approximately twelve years, will provide a significant boost to Hawaii's construction industry and overall state economy.

Your Committee supports the intent of this resolution and finds that approval for the project should be obtained from the United States Congress with all possible speed, in order to allow the Navy to begin work on the project in the year 2000. Upon further consideration, your Committee has amended this resolution to make technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 3, as amended herein, and recommends its adoption in the form attached hereto as S.R. No. 3, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Iwase, Nakata, Taniguchi).

SCRep. 535 **Ways and Means on S.R. No. 10**

The purpose of this resolution is to establish policies for the legislative broadcast program's cablecasts of Senate proceedings.

The resolution sets forth standards on project responsibility, distribution, programming content, editing, ownership, and use of programming. Your Committee finds that the broadcast project has been ongoing since 1994, and that public response to it has been favorable. The Legislature has an affirmative duty to increase public access to, and participation in, the legislative process. The standards set forth in the resolution will enable public access to this process in a responsible context. Testimony was received in favor of the resolution from Common Cause Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 10 and recommends its adoption.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Iwase, Nakata, Taniguchi).

SCRep. 536 **(Majority) Transportation and Intergovernmental Affairs on S.C.R. No. 27**

The purpose of this measure is to convene a task force to review the fiscal needs of the state highway fund relative to its ability to meet planned operating and capital improvement expenditure requirements and to develop a revenue plan that will maintain the solvency of the fund.

Testimony in support of this measure was received from the Department of Transportation and the Chamber of Commerce of Hawaii.

Your Committee finds that this measure will aid in assessing and planning by identifying necessary improvements relating to the fiscal needs for highway maintenance, operation, and capital improvement projects.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 27, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 27, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 537 **(Joint) Transportation and Intergovernmental Affairs and Economic Development on S.C.R. No. 13**

The purpose of this measure is to urge the Department of Land and Natural Resources to initiate a collaborative effort with Hawaii County and private landowners to create a bayfront beach park and cultural center.

No testimony was received on this measure.

Your Committees find that a bayfront beach park and cultural center in Hilo, Hawaii, would accommodate additional recreational activities, provide for meaningful cultural development and exploration, and create new and revitalizing economic development opportunities for the area.

Your Committees have amended this measure by designating the Chairperson of the Hawaii County Council as a recipient of a certified copy of this measure.

As affirmed by the records of votes of the members of your Committees on Transportation and Intergovernmental Affairs and Economic Development that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 13, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 13, S.D. 1.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 4 (Bunda, Ige, M., Iwase, Taniguchi).

SCRep. 538 **(Joint) Transportation and Intergovernmental Affairs and Economic Development on S.R. No. 4**

The purpose of this measure is to urge the Department of Land and Natural Resources to initiate a collaborative effort with Hawaii County and private landowners to create a bayfront beach park and cultural center.

No testimony was received on this measure.

Your Committees find that a bayfront beach park and cultural center in Hilo, Hawaii, would accommodate additional recreational activities, provide for meaningful cultural development and exploration, and create new and revitalizing economic development opportunities for the area.

Your Committees have amended this measure by designating the Chairperson of the Hawaii County Council as a recipient of a certified copy of this measure.

As affirmed by the records of votes of the members of your Committees on Transportation and Intergovernmental Affairs and Economic Development that are attached to this report, your Committees concur with the intent and purpose of S.R. No. 4, as amended herein, and recommend that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 4, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 4 (Bunda, Ige, M., Iwase, Taniguchi).

SCRep. 539 Transportation and Intergovernmental Affairs on S.C.R. No. 25

The purpose of this measure is to request the Director of Transportation to conduct a study on maximizing utilization of the zipper and high occupancy vehicle lanes.

Testimony in support of this measure was received from the Department of Transportation and the Chamber of Commerce of Hawaii.

Your Committee finds that the zipper and high occupancy vehicle lanes are intended to maximize the number of people transported during rush hour. A study to determine how to fully utilize these lanes will provide useful information to improve the efficiency of the highway transportation system.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.C.R. No. 25, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 540 Transportation and Intergovernmental Affairs on S.R. No. 8

The purpose of this measure is to request the Director of Transportation to conduct a study on maximizing utilization of the zipper and high occupancy vehicle lanes.

Testimony in support of this measure was received from the Department of Transportation and the Chamber of Commerce of Hawaii.

Your Committee finds that zipper and high occupancy vehicle lanes are intended to maximize the number of people transported during rush hour. A study to determine how to fully utilize these lanes will provide useful information to improve the efficiency of the highway transportation system.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.R. No. 8, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 541 Transportation and Intergovernmental Affairs on S.C.R. No. 37

The purpose of this measure is to request the Department of Transportation to study the feasibility of noise mitigation at Hilo Airport.

Your Committee received testimony in support of this measure from the Department of Transportation, with comments.

Your Committee finds that the Department of Transportation is currently working on a master plan update and noise compatibility update for the Hilo Airport.

Your Committee believes that the study requested by this Concurrent Resolution will complement the work underway by the Department. Your Committee has amended this measure to delete relocation of the airport from the study, to change the due date of the findings and recommendations to prior to the 2000 Legislature, and to make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 37, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 37, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 542 Transportation and Intergovernmental Affairs on S.R. No. 15

The purpose of this measure is to request the Department of Transportation to study the feasibility of noise mitigation at Hilo Airport.

Your Committee received testimony in support of this measure from the Department of Transportation, with comments.

Your Committee finds that the Department of Transportation is currently working on a master plan update and noise compatibility update for the Hilo Airport.

Your Committee believes that the study requested by this Resolution will complement the work underway by the Department. Your Committee has amended this measure to delete relocation of the airport from the study, to change the due date of the findings and recommendations to prior to the 2000 Legislature, and to make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 15, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 15, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 543 (Joint) Transportation and Intergovernmental Affairs and Economic Development on S.C.R. No. 20

The purpose of this measure is to urge the United States Congress to exert efforts to make the visa waiver program permanent and to add Taiwan and South Korea to the program.

No testimony was submitted on this measure.

Your Committees find that the temporary visa waiver program expired in September 1996, and has been extended on a year-to-year basis, with the present extension to expire in September 1999.

Your Committees believe a permanent visa waiver program is vital to Hawaii's tourism industry and the addition of Taiwan and South Korea would further boost Asian tourism. Your Committees have amended this measure to make a technical, nonsubstantive amendment.

As affirmed by the records of votes of the members of your Committees on Transportation and Intergovernmental Affairs and Economic Development that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 20, as amended herein, and recommend its adoption in the form attached hereto as S.C.R. No. 20, S.D. 1.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 4 (Bunda, Ige, M., Iwase, Taniguchi).

SCRep. 544 Transportation and Intergovernmental Affairs on S.C.R. No. 33

The purpose of this measure is to request that the Governor, the Department of Transportation, and the Lanai Company design and implement an expedited plan to restore Kaunalapau Harbor.

Testimony in support of this measure was submitted by the Department of Transportation, the Maui Electric Company, and Young Brothers, Limited.

Your Committee finds that Kaunalapau Harbor is the only commercial harbor providing service on the island of Lanai. The people of Lanai depend on the harbor for the import of agriculture, fuel, and other necessities.

Your Committee further finds that the existing breakwater, which protects the harbor, was partially destroyed by Hurricane Iniki, and subsequent storms have added to its further deterioration. As a result of the deteriorating breakwater, the Kaunalapau Harbor faces many hazards and dangers in its exposure to surge conditions. Harbor workers utilize dangling weights, cranes, and high tensioned cables in their attempts to secure the barges for docking. These operating conditions endanger not only the equipment and supplies, but also the lives of all people working in the harbor. This measure provides for an action plan for the repair of this harbor.

Your Committee made technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 33, as amended herein, and recommends its adoption in the form attached hereto as S.C.R. No. 33, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 545 Transportation and Intergovernmental Affairs on S.B. No. 1534

The purpose of this measure is to allow the issuance of special number license plates for civilians who provided military service to the United States at the time of the December 7, 1941, attack on Pearl Harbor.

The Department of Customer Services of the City and County of Honolulu submitted testimony expressing no objection to this measure.

Your Committee finds that civilians who provided service to the United States on Oahu at the time of the December 7, 1941, attack on Pearl Harbor should be recognized and distinguished for their honorable service.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1534, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1534, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ige, D., Iwase).

SCRep. 546 Commerce and Consumer Protection on S.B. No. 1132

The purpose of this measure is to amend section 431:19-108(a), Hawaii Revised Statutes (HRS), to change the time period captive insurance companies are required to be examined by the insurance commissioner from one to three years.

The Department of Commerce and Consumer Affairs and Hawaii Captive Insurance Council presented testimony in support of the measure.

Your Committee finds that an annual examination of captives is not necessary due to the financial strength of the captives admitted in the State. This measure would make the examination requirements of captive insurers consistent with that of other insurers in the State.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1132 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 547 Commerce and Consumer Protection on S.B. No. 1262

The purpose of this measure is to establish five classes of captive insurance companies, with specific requirements for each class.

The Hawaii Captive Insurance Council, J&H Marsh & McLennan Management, Inc., and the 50th State Risk Management Services, Inc. presented testimony in favor of this measure. The Department of Commerce and Consumer Affairs presented testimony in favor of this measure with proposed amendments. The Reinsurance Association of America presented testimony in opposition to this measure.

Your Committee finds that the captive insurance industry has grown in the past five years. Hawaii has become the second largest home for captive insurance companies in the United States, and is the premier domicile in the Pacific Basin. Currently, sixty-five captive insurance companies are licensed in Hawaii, contributing to the economic diversification of our State.

Your Committee believes that establishing classes of captive insurance companies and licensing criteria, will give Hawaii a competitive edge over other leading captive insurance domiciles in the United States. This would create a basis for further development of the captive insurance industry by allowing for captive organizers to include reinsurers and other sponsors of captive programs via Class 4 and Class 5 licenses. Furthermore, this measure will provide Hawaii with additional insurance vehicles attractive to the international business community.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Hanabusa, Ihara).

SCRep. 548 Commerce and Consumer Protection on S.B. No. 1280

The purpose of this measure is to enable the Public Utilities Commission, in its discretion, to grant temporary authority to a common or contract motor carrier to provide transportation services when an urgent need arises.

The Public Utilities Commission presented testimony in favor of the measure. The Consumer Advocate of the Department of Commerce and Consumer Affairs, though not present, submitted written testimony in favor of the measure.

Your Committee finds that under existing law, prior to the granting of a temporary authority to provide transportation services by the Public Utilities Commission, an applicant must first provide proof that the application was first served upon every current holder of a certificate of public convenience and necessity within the classification for which the temporary authority is being applied.

Your Committee believes that this measure will enable the Public Utilities Commission to respond more quickly to the transportation needs of areas affected by natural disasters or when other emergency transportation needs exist.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1280 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 549 Commerce and Consumer Protection on S.B. No. 40

The purpose of this measure is to establish licensure of physician assistants in place of certification.

The Board of Medical Examiners and the State Auditor presented testimony in support of this measure. The Hawaii Academy of Physician Assistants and four individuals, while not present, submitted testimony in support of the measure. HGEA-AFSCME, Local 152, AFL-CIO submitted written testimony in opposition. The Hawaii Nurses Association submitted written comments, but did not take a position regarding the licensing of physician assistants.

Your Committee finds that House Concurrent Resolution No. 14, H.D. 1, S.D. 1, of the 1998 Regular Session, requested the State Auditor to conduct an analysis of the probable effects of the proposed regulatory changes for physician assistants contained in S.B. No. 3234, introduced during the 1998 legislative session.

In the Auditor's analysis, the Auditor found that physician assistants are in effect already licensed by the State, and as a result, a change in statutory terminology will have minimal fiscal and operational impact. In addition, the use of the term licensure is consistent with national trends, with thirty-four states using this form of regulation.

The Auditor also found that changing the regulatory nomenclature for physician assistants from certified to licensed will have little to no effect on the public's health, safety, or welfare, and that safeguards currently in effect are sufficient to assure continued consumer safety. Neither will a change in nomenclature affect insurance coverage, an important consideration of providers and patients alike.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 550 Water, Land, and Hawaiian Affairs on S.B. No. 560

The purpose of this measure is to define the term "substantial adverse environmental or ecological effect" in order to ensure that the long-term incremental degradation of natural resources is halted.

The measure also establishes definitions of "baseline", "resource", and "scenic resource" to further clarify the intent of Chapter 205A, Hawaii Revised Statutes, relating to coastal zone management.

Your Committee received testimony in support of the measure from Hawaii's Thousand Friends. The Department of Business, Economic Development, and Tourism's Office of Planning and the Department of Health supported the intent of the measure with reservations.

Testimony in opposition to the measure was received from the City and County of Honolulu's Department of Planning and Permitting, the County of Hawaii's Planning Department, and the Land Use Research Foundation. The University of Hawaii's Environmental Center submitted comments.

Your Committee finds that the measure proposes to define "substantial adverse environmental or ecological effect" to include:

- (1) Damage or degradation of a unique resource;
- (2) Damage, degradation to, or loss of, five percent or more of a specific resource found in an ahupua'a;
- (3) Damage, degradation to, or loss of, five percent or more of a specific marine resource found within an area with a one hundred meter radius; or
- (4) A five percent increase to the baseline in levels of any of the water pollutants, water quality parameters, air pollutants, or noise decibel levels as identified in administrative rules.

Based on the testimony from the Department of Health, your Committee finds that although the concept of clarifying the State's Coastal Zone Management law is laudable, unilaterally imposing such specific degradation and percentage classification standards are unrealistic from an enforcement standpoint.

Based on this concern, your Committee has amended the measure by amending the definition of "substantial adverse environmental or ecological effect" from the specific degradation and percentage classifications to a determination that public health or ecological risk assessment methodologies resulted in actual or predicted findings of significant risk to public health or ecological resources in specified cases.

Your Committee believes that the amended measure will provide more guidance in interpreting and enforcing the state laws and policies on coastal zone management.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 560, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Kanno, Nakata, Anderson).

SCRep. 551

Water, Land, and Hawaiian Affairs on S.B. No. 1321

The purpose of this measure is to encourage public and private interests to invest in research and development of open ocean aquaculture or mariculture.

Your Committee received testimony in support of the measure from the Hawaii Aquaculture Association, Black Pearls, Inc., Pacific Pearl Appraisal Service, and a concerned individual. The Department of Agriculture, the Department of Business, Economic Development, and Tourism, and the Department of Land and Natural Resources testified in support of the measure with amendments.

Your Committee finds that in 1986, the Legislature passed the Ocean and Submerged Lands Leasing Act, Chapter 190D, Hawaii Revised Statutes (HRS), which established procedures for the leasing of State marine waters and submerged lands for mariculture. However, no lease has ever been granted under Chapter 190D, HRS, because of limitations in the law.

Your Committee finds that this measure would remove key limitations and allow mariculture leases, streamline and clarify the process for a mariculture lease, and provide potential mariculture projects with the flexibility to adapt technology and designs to a site.

Your Committee has amended this measure by:

- (1) Adding a section that amends Section 171-53, HRS to allow the Department of Land and Natural Resources to lease state marine waters under Chapter 190D, HRS, without the prior approval of the Legislature;
- (2) Requiring that an application for the leasing of state marine waters include an initial description of current users of the waters to be leased;
- (3) Adding a statement to the lease agreement that describes the degree to which the leased site shall be exclusively used by the lessee and the reasons therefor;
- (4) Adding a five-year drop dead provision from the effective date of the measure; and

- (5) Making technical amendments for the purposes of clarity and style.

Your Committee is in support of this measure, as amended, and believes it will foster further economic development of the mariculture industry, while promoting environmental sustainability.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1321, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1321, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Chun, Kanno, Nakata).

SCRep. 552 Labor and Environment on S.B. No. 206

The purpose of this measure is to require that the civil penalty for not paying wages in a timely manner be equal to the total amount of unpaid wages plus interest.

Testimony in support of this measure was received from the National Employment Lawyers Association and Consumer Lawyers of Hawaii. Testimony in support of the measure to apply only to new cases was received from the Department of Labor and Industrial Relations.

Your Committee finds that under the current law an employer who fails to pay an employee's wages is liable to the employee for a penalty of up to the amount of back wages, plus interest at six per cent. This measure requires that the penalty be equal to the back wages plus interest.

Your Committee believes that this proposal strengthens the law by eliminating discretion in the amount of the penalty to be assessed against an employer who fails to pay timely wages.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 206 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chumbley).

SCRep. 553 Labor and Environment on S.B. No. 1149

The purpose of this measure is to clarify that the Director of Labor and Industrial Relations (the Director) is not liable for attorney's fees and other costs of the defendant in cases involving the collection of unpaid wages.

Testimony in support of the measure with technical, nonsubstantive amendments was received from the Department of Labor and Industrial Relations.

Your Committee finds that this measure ensures that the courts will not assess attorney's fees and costs against the Director when the Director fails to prevail in a judicial attempt on behalf of the employee to collect unpaid wages. Clarification will allow the Director to assist employees to pursue the collection of unpaid wages knowing that the State will not be assessed unanticipated costs and attorney's fees.

Your Committee has made technical, nonsubstantive amendments for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1149, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1149, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Chumbley).

SCRep. 554 Economic Development on S.B. No. 96

The purpose of this measure is to allow solar devices to be sited for optimal efficiency.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, Inter-Island Solar Supply, and the Sierra Club, Hawai'i Chapter. Life of the Land testified in opposition.

Your Committee finds that many homeowners are not able to take advantage of Hawaiian Electric Company's (HECO) popular residential program for purchase and installation of solar water heaters, because their homeowners association restricts the placement of these energy saving devices for aesthetic reasons. The HECO program requires that each system be sited and oriented within very specific limits in order to optimize system performance.

Your Committee is supportive of both the increased energy efficiency and the cost savings of solar heating devices, and believes homeowners should be allowed to take advantage of these benefits if they so choose. Your Committee has amended this measure to clarify that the owner of a townhouse may not be prohibited from siting a solar energy device on a common area townhouse roof for optimal efficiency.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 96, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 96, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 555 Economic Development on S.B. No. 810

The purpose of this measure is to designate fiddlewood, khakiweed, and common sandbur as noxious weeds.

Your Committee received testimony in support of this measure from one individual. The Department of Agriculture testified in opposition.

Your Committee finds that noxious weeds are currently designated by rule, rather than by statute, and must meet five criteria relating to plant reproduction, growth characteristics, detrimental effects, control, and distribution and spread. Under these criteria, khakiweed and common sandbur do not meet the noxious weed designation because they are common and well established, and fiddlewood has not been so designated due to insufficient information.

Your Committee understands the current procedures for designation of a noxious weed, but does not believe that simply because a weed is "common and well established" or has not been exhaustively studied, it should escape this designation and the increased mitigation efforts associated with noxious weeds. Alien species continue to spread throughout Hawaii, and broad-based efforts must be made to control this threat to the environment.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 810 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 556 Economic Development on S.B. No. 1063

The purpose of this measure is to remove references to management of aquaculture programs from the statutory purview of the Department of Land and Natural Resources (DLNR).

Your Committee received testimony in support of this measure from the Department of Agriculture (DOA) and the Sierra Club, Hawai'i Chapter.

Your Committee finds that Act 176, Session Laws of Hawaii 1998, transferred aquaculture programs from DLNR to DOA, but that sections 26-15 and 171-3, Hawaii Revised Statutes, retained references to DLNR managing aquaculture programs. This measure deletes those references.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1063 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 557 Economic Development on S.B. No. 1478

The purpose of this measure is to authorize the Department of Agriculture to designate by rule those restricted plants that may spread an infestation of an insect, pest, or disease that is detrimental or potentially harmful, and to include noxious weeds as restricted plants.

Your Committee received testimony in support of this measure from the Department of Agriculture and Life of the Land.

Your Committee finds that under current law, importation of restricted plants is limited by permit and under specific conditions of entry. This measure would strengthen the plant inspection program by making it easier to enforce and assess penalties on importers who import restricted plants without a permit or in violation of permit conditions.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1478 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 558 Commerce and Consumer Protection on S.B. No. 143

The purpose of this measure is to require that new forty-six kilovolt or greater high voltage electric transmission systems in residential areas, or near schools or licensed child care facilities, be placed underground and insulated against electro-magnetic field emissions.

The Life of the Land, Na Leo Pohai, Ho'olaulima O Palolo, and an individual presented testimony in support of the measure. Two individuals, not present at the hearing, submitted written testimony in support of the measure. The Department of Health and the Department of Education presented testimony in support of the measure's intent.

The Environmental Center of the University of Hawaii presented comments and proposed an amendment to the measure. The Public Utilities Commission (PUC), the Consumer Advocate, the Hawaiian Electric Company, the Hawaii Electric Light Company, Maui Electric Company, and Kauai Electric presented testimony in opposition to the measure.

Your Committee finds that there is growing public concern about the potential adverse health effects of exposure to electro-magnetic fields (EMF). Last summer, a majority of the members of an international committee convened by the National Institute of Environmental Health Sciences concluded that power line frequency EMF are possibly carcinogenic to humans. Various studies of EMF effects have found that EMF exposure can alter heart rhythms and may lead to elevated cardiac risks, may increase the risk of immunological and hematological disorders, and can block the protective action of melatonin against the growth of cancer cells. Your Committee finds that this measure is necessary to reduce the exposure of Hawaii's children to EMF.

Your Committee has amended this measure by providing that the requirements implemented by the measure shall apply to all applications for construction of a forty-six kilovolt or greater high-voltage electric transmission system, including those approved by the PUC prior to the measure's effective date, unless construction of the system has been completed. Your Committee also made technical, nonsubstantive amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 143, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 143, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 559 Commerce and Consumer Protection on S.B. No. 384

The purpose of this measure is to require that new forty-six kilovolt or greater high voltage electric transmission systems in residential areas, areas viewed by visitors, or areas important to the film industry be buried underground.

The Life of the Land, Ho'olaulima O Palolo, and two individuals presented testimony in support of the measure. Na Leo Pohai and an individual, though not present at the hearing, submitted written testimony in support of the measure. The Environmental Center of the University of Hawaii presented testimony in support of the measure's intent and proposed an amendment. The Democratic Party, though not present at the hearing, submitted written testimony in support of the measure's intent and proposed an amendment.

The Public Utilities Commission (PUC), the Consumer Advocate, the Hawaiian Electric Company, the Hawaii Electric Light Company, Maui Electric Company, and Kauai Electric presented testimony in opposition to the measure.

Your Committee finds that the preservation and protection of Hawaii's mountains, valleys, coasts, and other scenic areas are critical to the health and vitality of the State's tourism industry. Preservation of these resources is also important to Hawaii's film industry since the State's unique and natural beauty is what also draws production companies to film their movies and television shows in the State.

Your Committee further finds that high-voltage overhead transmission lines create a visual blight and detract from the islands' natural beauty. Requiring underground placement and insulation of high-voltage transmission lines in scenic areas and areas important to the film industry will help to preserve the State's tourism and film industries.

Your Committee has amended this measure by:

- (1) Replacing the word "visitors" with the word "tourists";

- (2) Providing that the requirements implemented by the measure shall apply to all applications for construction of a forty-six kilovolt or greater high-voltage electric transmission system, including those approved by the PUC prior to the measure's effective date, unless construction of the system has been completed; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 384, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 384, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 560 Commerce and Consumer Protection on S.B. No. 480

The purpose of this measure is to provide additional labeling requirements for macadamia nuts.

The Department of Agriculture and the Mauna Loa Macadamia Nut Corporation presented testimony in support of the measure. The Hawaii Food Industry Association, though not present at the hearing, submitted written testimony in support of the measure.

Your Committee finds that the State has an interest in distinguishing its locally-grown, high quality macadamia nuts from macadamia nuts grown in other parts of the world. This measure provides the local macadamia nut industry with greater flexibility in identifying its nuts as a product of Hawaii while ensuring that only packages containing one hundred percent locally-grown macadamia nuts may bear the descriptions "Hawaii-Grown" or "Hawaiian".

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 480 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 561 Ways and Means on S.B. No. 426

This bill was introduced as a short-form bill, which is sometimes referred to as a "vehicle" bill primarily used to introduce a bill containing only a general idea as to the purpose of the bill without specific details in long form.

Your Committee has amended the bill to provide the substantive contents in long form so that a public hearing may be properly held.

As amended, the purpose of this bill is to establish a program for the specific purpose of maximizing the receipt of federal revenues for state agencies and programs.

The program, which would be placed within the Research Corporation of the University of Hawaii, is intended to secure eligible federal funds and grants for various state programs. In particular, the bill provides for this program to serve as a facilitator in state government responsible for applying for and maximizing federal funds and as the State's clearinghouse for information on federal funds; serve as an "early alert" on opportunities for obtaining federal funds to appropriate state agencies; coordinate all state efforts in applying for federal funds; and monitor federal compliance, including following-up with applicable federal agencies on behalf of state departments.

The bill further provides that the program will help pool applicable agency applications for federal funds into one or more multi-agency applications to maximize the target populations that are served by those agencies in applying for federal funds. The bill also offers incentives to state agencies to work with the program in aggressively pursuing federal funds; provides for the temporary transfer of personnel from other state agencies into this program; requires it to prepare comprehensive annual reports to the legislature; requires each state agency to designate employees as federal funds coordinators; and creates a grant writing team in the program. Finally, this bill makes permanent the interagency federal revenue maximization revolving fund by repealing the June 30, 1999, sunset date for that fund.

Your Committee agrees with the intent of this bill to create a permanent agency in state government to aggressively seek federal dollars on behalf of state programs. Your Committee finds that there is often a very limited time period in which to secure federal assistance for many state programs, much of which is available on a matching basis with state funds, and that the existing piecemeal approach to seeking new federal funds and grants is often counterproductive. The creation of a coordinating program within the Research Corporation of the University of Hawaii would allow state agencies to pool their applications as appropriate into a consortium of agencies to become more competitive with state agencies on the Mainland representing larger populations. Finally, the creation of a professional grant writing team would help to consolidate these important functions in one office that has established an expertise in seeking grant funding.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the action to report out S.B. No. 426, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 426, S.D. 1, and be recommitted to the Committee on Ways and Means for further consideration.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Chun Oakland, Ige, D., Nakata, Taniguchi).

SCRep. 562 Transportation and Intergovernmental Affairs on S.C.R. No. 24

The purpose of this measure is to request the Department of Transportation to conduct a study and make recommendations on improving transportation and the traffic flow from the Fort Shafter and airport areas to downtown.

Testimony in support of this measure was received from the Department of Transportation.

Testimony in opposition to this measure was received from the Chamber of Commerce of Hawaii, Tamashiro Market, Inc., Kalihi-Palama Community Council, Loomis Fargo & Co., and four individuals. One individual submitted comments on this measure.

Your Committee finds that traffic congestion during the rush hour has reached a point where new solutions and alternative traffic routes must be studied seriously. One possible solution that must be explored is the use of one-way streets, contra-flow lanes, and other lane configurations to facilitate traffic flow. As this measure requests a study of the problem, no specific solution is currently favored or disfavored. However, in exploring solutions, the study must be conducted with the participation of the residents and businesses within the communities that would be affected by any change in traffic flow patterns.

Your Committee has amended this measure by clarifying that the intent of this measure is to respond to the concerns expressed by the communities, no particular solution is favored at this time, and although the counties usually conduct traffic studies on county streets and roads, the Department of Transportation should conduct the study because rush hour traffic involves through traffic that must be properly coordinated with adjacent state highways. In addition, all ideas and potential solutions will be reviewed by the Department of Transportation with input from the communities and counties affected.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 24, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.C.R. No. 24, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 563 Transportation and Intergovernmental Affairs on S.R. No. 7

The purpose of this measure is to request the Department of Transportation to conduct a study and make recommendations on improving transportation and the traffic flow from the Fort Shafter and airport areas to downtown.

Testimony in support of this measure was received from the Department of Transportation.

Testimony in opposition to this measure was received from the Chamber of Commerce of Hawaii, Tamashiro Market, Inc., Kalihi-Palama Community Council, Loomis Fargo & Co., and four individuals. One individual submitted comments on this measure.

Your Committee finds that traffic congestion during the rush hour has reached a point where new solutions and alternative traffic routes must be studied seriously. One possible solution that must be explored is the use of one-way streets, contra-flow lanes, and other lane configurations to facilitate traffic flow. As this measure requests a study of the problem, no specific solution is currently favored or disfavored. However, in exploring solutions, the study must be conducted with the participation of the residents and businesses within the communities that would be affected by any change in traffic flow patterns.

Your Committee has amended this measure by clarifying that the intent of this measure is to respond to the concerns expressed by the communities, no particular solution is favored at this time, and although the counties usually conduct traffic studies on county streets and roads, the Department of Transportation should conduct the study because rush hour traffic involves through traffic that must be properly coordinated with adjacent state highways. In addition, all ideas and potential solutions will be reviewed by the Department of Transportation with input from the communities and counties affected.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee concurs with the intent and purpose of S.R. No. 7, as amended herein, and recommends that it be referred to the Committee on Ways and Means, in the form attached hereto as S.R. No. 7, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ige, D., Iwase, Taniguchi).

SCRep. 564 Economic Development on S.B. No. 1079

The purpose of this measure is to change the name of the consolidated application process to the facilitated application process, expand the membership of the permit process task force to add county representation, and repeal the task force on June 30, 2002.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism. The Sierra Club, Hawai'i Chapter submitted testimony in opposition.

Your Committee finds that Act 127, Session Laws of Hawaii 1997, established both the task force and procedures to expedite and facilitate the approval process within each state agency for county building permit applications requiring state agency approval. While the concept has proven successful, the term "consolidated application process" is often mistaken for a single permit application for all required state permits. Changing the name more accurately describes the intent of the original Act.

Your Committee further finds that adding county representation to the task force will enable the task force to define problems, issues, and opportunities associated with the county portion of these joint permit interactions.

Your Committee is supportive of the purpose of this measure, particularly the addition of county representatives to the task force. Your Committee has amended this measure to clarify the appointment process for the task force, to clarify that the intent is to repeal the task force in its entirety on June 30, 2002, and to conform the bill to the language of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1079, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1079, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

SCRep. 565 Commerce and Consumer Protection on S.B. No. 498

The purpose of this measure is to delete restrictions on granting advanced practice registered nurses (APRNs) prescriptive authority and to add controlled substances in schedules II to V to their prescriptive authority.

The Hawaii Nurses' Association, the Hawai'i State Primary Care Association, the National Association of Social Workers Hawai'i Chapter, and an individual presented testimony in support of the measure. The Hawai'i Chapter of the American Psychiatric Nurses Association, the Hawaii Long Term Care Association, the Hawaii Government Employees Association, and eight individuals, though not present at the hearing, submitted written testimony in support of the measure. The Board of Nursing presented testimony in support of the measure with a proposed amendment.

The Department of Health, though not present at the hearing, submitted written testimony expressing deference on the measure to the Department of Commerce and Consumer Affairs (DCCA). The Board of Medical Examiners presented comments on the measure. The DCCA presented testimony in opposition to a provision in the measure and proposed an amendment.

The Hawaii Medical Association presented testimony in opposition to the measure. The Hawaii Federation of Physicians and Dentists, though not present at the hearing, submitted written testimony in opposition to the measure.

Your Committee finds that currently thirty-three states grant APRNs the authority to prescribe Schedules II to V controlled substances and no state has reversed its decision to grant APRNs prescriptive authority. Your Committee further finds that a 1993 Meta-Analysis of Studies on Nurses in Primary Care Roles that included a review of nine hundred documents concluded that nurses practicing in advanced practice roles are cost-effective providers of primary care services.

Your Committee recognizes that the administrative rules implementing the current law that grants restricted prescriptive authority to APRNs were approved a few months ago, and that some may argue that it is premature to revise the law. However, it has been more than four years since the current law was enacted and your Committee believes that the decision to grant APRNs the authority to prescribe controlled substances should be guided foremost by considerations of consumer safety, professional competency, and the efficient, cost-effective, and timely delivery of medical care.

Your Committee has amended this measure by:

- (1) Replacing the Department of Commerce and Consumer Affairs with the Board of Nursing as the entity granting prescriptive authority;
- (2) Providing that an advisory committee be established by the Director of Commerce and Consumer Affairs, to make recommendations to the Board of Nursing regarding prescriptive authority-related issues, including the prescribing of controlled substances in schedules II to V by recognized advanced practice registered nurses; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 498, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 498, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 566 Commerce and Consumer Protection on S.B. No. 675

The purpose of this measure is to require a state contracting license for federal construction projects in Hawaii, to the extent allowed under federal law.

The Department of Commerce and Consumer Affairs (DCCA), the State Contractors License Board, and the Iron Workers Stabilization Fund presented testimony in support of this measure. The Building Industry Association of Hawaii, the Construction Industry Legislative Organization, the Hawaii Electricians Market Enhancement Program Fund, the Pacific Resource Partnership, the General Contractors Association of Hawaii, and the Subcontractors Association of Hawaii, while not present, submitted testimony in support of this measure.

Your Committee finds that the Regulated Industries Complaints Office of DCCA has received a number of requests to enforce state contractors licensing laws on federal projects, but was hampered in its response by the supremacy clause of the United States Constitution and case law that held in favor of the federal government. This measure, however, will allow the State to require licensure on federal projects should federal laws, case law, or particular circumstances change.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 567 Commerce and Consumer Protection on S.B. No. 775

The purpose of this measure is to prohibit activity desks from receiving under-the-table compensation for selling a specific activity provider and to require activity desks to have both a trust account and a bond.

The Regulated Industries Complaints Office (RICO) presented testimony in support of the measure with proposed amendments, The Activity Owners Association of Hawaii presented testimony in support of the measure, and the Boat Owners Association of the State of Hawaii, although not present at the hearing, submitted written testimony in support of the measure.

Your Committee finds that activity desks exist to serve the visitor and provide them with a wide selection of recreational activities and reputable providers. Under-the-table payments and incentives by activity providers to activity desks undermine competition and threaten the quality of recreational services within the tourist industry. Therefore, such payments and incentives threaten the State's reputation as a world-class tourist destination, and should be prohibited.

Your Committee has amended this measure by:

- (1) Deleting sections 2, 3 and 4 of the measure as received, which related to the requirement of a trust account and bond;
- (2) Creating a private cause of action, so that an activity provider may bring a suit against either an activity desk or activity provider to enjoin them from making or receiving under-the-table payments, allowances, rebates, refunds, commissions or unearned discounts which are not available to other activity desks upon like terms or conditions;
- (3) Inserting an amendment that would allow RICO to take action if an activity desk violates an injunction granted pursuant to Section 468M-6, Hawaii Revised Statutes; and
- (4) Making technical and nonsubstantive amendments for style and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 775, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 775, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 568 Commerce and Consumer Protection on S.B. No. 776

The purpose of this measure is to allow depository financial services loan companies to hold up to a quarter of their total reserves in securities listed on the National Market system of the National Association of Securities Dealers Automated Quotation (NASDAQ) System stock market.

The Commissioner of Financial Institutions presented testimony expressing no opposition to the bill. The National Association of Securities Dealers presented testimony in support of the measure. The Hawaii Financial Services Association, though not present at the hearing, submitted written testimony in support of the measure's intent.

Your Committee finds that NASDAQ is the fastest growing stock market in the United States, ranks second among the world's securities markets in dollar volume, and has a total market value exceeding \$2.1 trillion. The NASDAQ stock market lists nearly 5,400 companies and trades more shares per day than any other major American market. The listing requirements for the NASDAQ National Market exceed those of the American Stock Exchange and are similar to the New York Stock Exchange.

This measure allows depository financial services loan companies (FLSCs) to hold up to twenty-five per cent of their total reserves in securities listed on the NASDAQ National Market, the New York or the American stock exchanges. Your Committee finds that this measure gives FSLCs greater flexibility in managing their reserves without compromising consumer protection.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 776 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 569 Commerce and Consumer Protection on S.B. No. 1429

The purpose of this measure is to exclude from the definition of "public utility" any facility that reclaims wastewater, provided that:

- (1) At least ten per cent of the wastewater processed is used by the State or county under a service contract;
- (2) The sole function of the facility is the processing and distribution of secondary treated wastewater;
- (3) The facility is not processing food wastes; and
- (4) The facility is not selling water to the residential customers.

The Department of Health, the City and County of Honolulu Department of Environmental Services, and U.S. Filter Operating Services, Inc., presented testimony in support of this measure. The Consumer Advocate testified in opposition.

Your Committee finds that the City and County of Honolulu has recently entered into a contract with U.S. Filter Operating Services, Inc., to process the secondarily treated wastewater at Honouliuli for distribution and use by both the city and county and large commercial users in the Ewa plain. This project, which was the result of a Consent Degree entered into by the U.S. District Court in response to a suit filed by the U.S. Environmental Protection Agency, will not provide reclaimed water to residential users.

Your Committee further finds that the purposes of this project are to help meet the city and county's obligations to find beneficial uses for wastewater that is currently discharged in the ocean after treatment, and to return treated water to the city and county for use at Honouliuli and for city and county irrigation purposes. As such, the project serves no broad public purpose and should not be regulated as a public utility.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1429, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 570 Labor and Environment on S.B. No. 1057

The purpose of this measure is to conform existing state law to the federal Rehabilitation Act Amendments of 1998.

Testimony in support of this measure was received from the Department of Human Services (Department), Commission on Persons with Disabilities, and Workforce Development Council.

This measure will change the name of the State Advisory Council on Rehabilitation to State Rehabilitation Council; increase the number of members on the council from nineteen to twenty-one; and require one representative of the state educational agency responsible for the public education of students with disabilities, one representative of the State Workforce Development Council, and the administrator of the Vocational Rehabilitation Division of the Department to the State Rehabilitation Council.

This measure additionally will require the council to:

- (1) Advise the Vocational Rehabilitation Division of the Department on the extent, scope, and effectiveness of services provided, and performance of state agencies that affect or potentially affect the ability of individuals with disabilities in achieving employment outcomes;
- (2) Develop state goals and priorities;
- (3) Advise the Vocational Rehabilitation Division of the Department regarding authorized activities;
- (4) Assist in the preparation of the state plan and amendments to the plan, applications, reports, and evaluations; and
- (5) Conduct a review and analysis of the performance of the Vocational Rehabilitation Division of the Department, vocational rehabilitation services provided by state agencies, and employment outcomes achieved by eligible individuals receiving services.

Your Committee is in agreement with the findings of your Committee on Health and Human Services that this measure reflects the intent to increase the involvement of the State Advisory Council on Rehabilitation in improving services and to assure closer relationships with other government programs that are required to provide services to persons with disabilities.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1057 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Chumbley, Fukunaga, Ihara).

SCRep. 571 Labor and Environment on S.B. No. 1404

The purpose of this measure is to define "recycled water" and "reclaimed water" as wastewater that is suitable for a direct beneficial use or a controlled use.

Testimony in support of this measure with amendments was received from the Department of Health, the Department of Environmental Services and the Board of Water Supply of the City and County of Honolulu. Testimony in opposition to the measure was received from Waimanalo Citizens for a Healthy Future.

Your Committee finds that the promotion of recycled and reclaimed wastewater assists the State in conserving its limited water resources and enhancing the quality of Hawaii's waters. Adding a definition of recycled and reclaimed water clarifies the beneficial uses of this type of water.

Your Committee finds, however, that a definition of reclaimed and recycled water must recognize that there are several categories, or levels of treatment, of recycled water. The Department of Health needs to establish rules which recognize these different categories, in order to protect public health, the environment, while at the same time, encourage the use of recycled water.

Your Committee has amended the measure by revising the definition contained in this measure per the Department of Health and the City Department of Environmental Services to read:

"Recycled water" and "reclaimed water" means wastewater that by design has been treated at a treatment works and is intended or used for a beneficial purpose. The definition and requirements of different categories of recycled water and reclaimed water, which recognize different levels of treatment and purposes, shall be established by rules by the director."

Members of your Committee asked for clarification of the phrase "treatment works" as used in the amended definition. Upon further investigation, your Committee finds that "treatment works" is defined in section 11-62-03, Hawaii Administrative Rules, as any treatment unit and its associated collection system and disposal system, excluding individual wastewater systems. "Treatment unit", as defined in section 11-62-03, Hawaii Administrative Rules, means any plant, facility, or equipment used in the treatment of wastewater including the necessary pumps, power equipment, blowers, motors, holding tanks, flow splitter, and other process equipment.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1404, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1404, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 2 (Chumbley, Fukunaga).

SCRep. 572 Commerce and Consumer Protection on S.B. No. 973

The purpose of this measure is to require towing businesses to have insurance coverage for motor vehicles during towing and storage, to properly identify their towing vehicles, and to allow suit against a towing company in the event of violations. The measure also repeals the drop-dead provision of Act 138, Session Laws of Hawaii 1998 (Act 138), which allows for credit card payment of towing charges.

The Department of Commerce and Consumer Protection and the Hawaii State Towing Association presented testimony in support of the measure.

Your Committee finds that this measure protects owners of towed vehicles by requiring tow operators to maintain insurance to cover damages to vehicles during towing and storage. Tow operators who fail to comply with the insurance requirement may not collect tow charges from the vehicle's owner and may incur liability for damages sustained to the towed vehicle.

This measure will also aid law enforcement in the investigation of vehicles stolen by tow operators by requiring that the name and phone number of the tow operator be permanently affixed to the door of the tow vehicle.

Your Committee further finds that the administrative problems that were anticipated as the result of allowing credit card payment of towing charges have not occurred. Therefore, your Committee believes it appropriate to repeal the drop dead provision of Act 138.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 973, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 573 Education and Technology on S.B. No. 666

The purpose of this measure is to mandate those required to register with the Selective Service System to do so in order to be eligible for admission into any public institution of higher education.

Testimony in opposition to this measure was submitted by the University of Hawaii.

Your Committee finds that those required to register with the Selective Service System play a valuable role in serving our country. However, while your Committee understands the importance of complying with registration obligations for the Military Selective Service Act, your Committee notes the objections raised by the University of Hawaii system that this measure, if enacted, would adversely affect the admissions process of all the University of Hawaii campuses. The University of Hawaii testified that this measure would severely slow down admissions decisions and may cause enrollment reductions. In addition, the University stated that this measure may also delay access to public education for students who are unable to provide the written documentation as required.

In light of this testimony, your Committee has amended this measure to delete the mandate that those required to register with the Selective Service System do so in order to be eligible for admission. Instead, your Committee has inserted language which will require the University of Hawaii to inform those who must register for the Selective Service of their requirement to do so.

Your Committee believes that this amendment will effectively promote the necessary awareness of compliance with the Military Selective Service Act. At the same time, this amendment will allow the University of Hawaii the freedom to determine the most appropriate method to inform students on their required compliance, without severely affecting the admissions process.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 666, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 666, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Tam).

SCRep. 574 Education and Technology on S.B. No. 1270

The purpose of this measure is to give the Department of Education more flexibility in regulating courses of study by eliminating the requirement that fifty percent of each school day be devoted to oral expression, written composition, and spelling.

This measure was recommitted to your Committee due to some question as to whether this measure would completely delete the requirement that schools teach any form of English. Your Committee notes that this measure simply deleted the mandate that fifty percent of each school day be devoted to oral expression, written composition, and spelling, and it is not the intent of your Committee to delete the provision for the instruction of English altogether. Your Committee notes that Section 302A-201 establishes statewide performance standards, of which the study of English is an integral aspect.

Your Committee further finds that there are times when meeting the fifty percent requirement of each instructional day is not feasible or practical. There are many student learning experiences which can be enhanced by field trips within the community, opportunities to work alongside visiting artists, writers, and musicians, and exciting classroom lessons which can take more than fifty percent of one day. These enhanced learning situations provide students with a range and depth of experience and knowledge which will enable them to learn, grow, and achieve. The rigid time requirements mandated in the current statute technically prevent such beneficial encounters from taking place.

Your Committee has amended this measure by deleting the fifty percent time requirement and the reference to the first eight grades, and by adding that the course of study and instruction shall be regulated in accordance with the statewide performance standards established under Section 302A-201, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1270, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1270, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Chumbley, Matsunaga).

SCRep. 575 Education and Technology on S.B. No. 1307

The purpose of this measure is to require each school to set its own performance indicators and submit an annual self-evaluation progress report to the superintendent. This measure also requires the superintendent to evaluate any school not meeting its goals, making changes in resources and personnel as appropriate.

Testimony in support of this measure was submitted by the Hawaii Congress of Parents, Teachers, and Students, and a concerned parent. Testimony in support of the intent of this measure was submitted by the Department of Education, and Common Cause Hawaii. The Hawaii State Teachers Association submitted testimony in opposition to this measure.

Your Committee believes that an educational accountability system will lead to the improvement in the quality of Hawaii's schools. However, your Committee agrees with the Department of Education's concerns about the logistical feasibility of this measure and its piecemeal approach in mandating each school's self-evaluation. The Department of Education asserts that only a comprehensive accountability system will truly stimulate and support improved performance.

In light of these concerns, your Committee has amended this measure to delete the original requirements of self-evaluation for each school and, instead, inserted language in Section 302A-1004, Hawaii Revised Statutes (HRS), to require the Department of Education to establish a comprehensive accountability system, which will include a student assessment program and school profiles that report on student performance measures, school attendance, drop-out rates, and parental involvement in each school. This amendment requires the Department of Education to report to the legislature and the governor on the status of the design and implementation of this comprehensive accountability system prior to the convening of the regular legislative sessions of 2000 and 2001. Beginning in school year 2001-2002, the Department of Education must submit annual reports to the legislature on the findings and actions of the comprehensive accountability system. Section 302A-1004, HRS, has also been amended to provide for the repeal of reporting school-by-school assessments on June 30, 2001, as it will no longer be necessary.

Your Committee has also made technical, nonsubstantive amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Education and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1307, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1307, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Bunda, Chumbley, Matsunaga).

SCRep. 576 Economic Development on S.B. No. 1089

The purpose of this measure is to delete obsolete or unnecessary language and to clarify and simplify the reporting requirements for holders of a commercial marine license.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources (DLNR). Boat Owners Association of The State of Hawaii testified in support of the intent to clarify current law, with comments.

Your Committee finds that this year DLNR will begin the process of amending the administrative rules for commercial marine licenses, and the intent of this measure is to give DLNR additional flexibility in the process. While your Committee is supportive of the intent to simplify the reporting requirements, in particular, members share the concerns expressed in the hearing regarding the deletion of a contested case hearing under Chapter 91, Hawaii Revised Statutes (HRS), before revocation of a commercial marine license, and that the proposed reporting amendments were overly broad.

Your Committee notes that in a subsequent letter dated February 26, 1999, the Chairperson of the Board of Land and Natural Resources stated that the removal of language from Section 189-3(a), HRS, will not remove a person's due process under Chapter 91, HRS, and that Section 13-74-3(3), Hawaii Administrative Rules, also covers this concern.

Your Committee therefore has amended this measure to clarify that the reporting information required in section 189-3(a), HRS, is for monitoring of catches by commercial marine licensees.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1089, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1089, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Kawamoto, Taniguchi).

SCRep. 577 Economic Development on S.B. No. 1090

The purpose of this measure is to authorize the Department of Land and Natural Resources to specify that marine life taken from the Northwestern Hawaiian Islands (NWHI) may not be regarded as "imported" and may be subject to the same state regulations that apply in the Main Hawaiian Islands (MHI).

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources. The Western Pacific Regional Fishery Management Council testified in opposition. The Boat Owners Association of The State of Hawaii submitted comments.

Your Committee finds that recent changes in the federal management plan for lobsters in the Northwestern Hawaiian Islands have impacted local markets as well as the lobster stock shared by the NWHI and the MHI. While your Committee is supportive of the intent of this measure to protect both Hawaii's marine resources and its consumers, the members were encouraged that DLNR requested an opportunity to work with the Western Pacific Regional Fishery Management Council to discuss the Council's objections to the measure.

Your Committee notes that subsequent to the hearing, the parties did meet, and as a result of these discussions, the Council has withdrawn its objections to the measure.

As affirmed by the record of votes of the members of your Committee on Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1090 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Kawamoto, Taniguchi).

SCRep. 578 (Joint) Labor and Environment and Transportation and Intergovernmental Affairs on S.B. No. 677

The purpose of this measure is to require employers of commercial motor vehicle drivers to provide a driver improvement program only for drivers who operate a motor vehicle gross vehicle weight rating (GVWR) of more than 10,000 pounds.

This measure also eliminates the requirement that employers provide a driver improvement program for commercial drivers operating vehicles with a GVWR of less than 10,000 pounds.

Testimony in support of this measure was received from the Department of Transportation and the Hawaii Transportation Association.

Your Committees find that Hawaii's driver improvement program is imperative for all commercial drivers who operate a commercial vehicle over 10,000 pounds GVWR, to maintain their driving skills and proficiency. Your Committees also find that this measure makes Hawaii's driver improvement program consistent with federal motor carrier safety regulations.

Your Committees have amended this bill by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Transportation and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 677, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 677, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 6 (Buen, Bunda, Chumbley, Fukunaga, Ige, D., Ihara).

SCRep. 579 Commerce and Consumer Protection on S.B. No. 808

The purpose of this measure is to add to the factors that the liquor commission may consider in its revocation or suspension of an existing liquor license, the prevention of assault.

The Ala Moana/Kakaako Neighborhood Board, Urban Crime Fax Network, and one individual presented testimony in support of this measure.

Your Committee finds that allowing the liquor commission to revoke, suspend, or place restrictions on liquor licenses to prevent criminal activity, specifically assaults, will improve the safety of Hawaii residents and visitors.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 808, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 580 Commerce and Consumer Protection on S.B. No. 1134

The purpose of this measure is to ensure that elderly homeowners seeking funds through a reverse mortgage loan receive the counseling necessary to make an informed and reasoned decision about reverse mortgage financing.

The Department of Commerce and Consumer Affairs, the Executive Office on Aging, the American Association of Retired Persons Hawaii State Legislative Committee, and the Hawaii Association of Realtors presented testimony in support of the measure. The Hawaii Bankers Association presented testimony in opposition to the measure. American Savings Bank, though not present at the hearing, submitted written testimony in opposition to the measure.

Your Committee finds that reverse mortgage financing is becoming an increasingly popular form of financing for seniors on a fixed income with equity in their homes. A reverse mortgage is a loan against home equity that provides a cash advance to homeowners and requires no payment until a future time, usually when the borrower dies or sells the home.

Your Committee further finds that reverse mortgage financing is not appropriate for everyone, and consumers considering this form of financing should be fully informed about the lending process and the advantages and disadvantages of reverse mortgage financing given factors such as the borrower's age and current and future needs.

Your Committee received testimony that some unscrupulous lenders charge the elderly thousands of dollars for information about reverse mortgage financing that is available at no cost from the Department of Housing and Urban Development (HUD). This measure would require that lenders refer applicants for reverse mortgage financing to counseling from a housing counseling agency approved by HUD and obtain certification that counseling has been provided prior to accepting the application.

The level of counseling required by this measure is consistent with that required for a federally-insured reverse mortgage. Since most financial institutions are already familiar with the counseling requirements for federally-insured loans, your Committee finds that the requirements imposed by this measure should not create undue administrative hardships.

Your Committee has amended this measure by:

- (1) Replacing the existing penalty language with language providing that a lender who fails to comply with the counseling requirement engages in an unfair method of competition or unfair or deceptive act or practice in the conduct of trade or commerce within the meaning of section 480-2, Hawaii Revised Statutes;
- (2) Providing that a "reverse mortgage loan" does not include a loan insured by HUD or loans subject to other state or federal laws requiring mortgage counseling; and
- (3) Making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1134, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 581 Commerce and Consumer Protection on S.B. No. 1460

The purpose of this measure is to add to the definition of "certified substance abuse staff" psychologists who hold a current certification from the American Psychological Association College of Professional Psychology in the treatment of alcohol and other psychoactive substance use disorders.

The Department of Health, Hawaii Psychological Association, and one individual, while not present, submitted written testimony in support of this measure.

Your Committee finds that under current law, a state licensed psychologist must be certified as a substance abuse counselor by the Department of Health to qualify for payments under medical or health insurance.

As amended, a psychologist who holds a current specialty certificate in substance abuse treatment from the American Psychological Association College of Professional Psychology would also qualify for insurance payments for substance abuse treatments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1460 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 582 Commerce and Consumer Protection on S.B. No. 1557

The purpose of this measure is to permit the visual monitoring of storm water runoff by motor carriers required to monitor by law.

Your Committee finds that this measure which allows a motor carrier to visually monitor storm water runoff, rather than monitor through laboratory testing of water samples, imposes a less burdensome requirement on motor carriers, and conforms the State's monitoring practice to that of the majority of the other states.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1557 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 583 (Majority) Labor and Environment on S.B. No. 368

The purpose of this measure is to prohibit the Director of Health from issuing a permit for a medical waste incinerator that is located within one mile of any residential dwelling.

Testimony in support of this measure was received from Hawaii's Thousand Friends, Waimanalo Citizens for a Healthy Future, Kawakami Delicatessen, Stonecraft, Akamai Builders, Boat City, and six individuals. Oral testimony in support of the measure was also presented by a member of the Kailua Neighborhood Board.

The Department of Health (DOH) testified in support of the intent of this measure with reservations.

Your Committee finds that a one-mile buffer zone for residents from any medical waste incinerator or medical waste sterilizer will severely restrict or eliminate viable locations for these facilities. The only areas left are probably remote areas on neighbor islands.

Your Committee also finds that the U.S. Environmental Protection Agency (EPA) has stringent emission requirements for new medical waste incinerators but exempts incinerators that burn only pathological and chemotherapy waste. To the best knowledge of your Committee, the EPA requirements have no stipulations on the siting of medical waste incinerators and its proximity to residents or communities.

Your Committee has amended this measure by changing the requirement from one mile to five hundred feet as recommended by DOH.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 368, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 368, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Slom). Excused, 2 (Chumbley, Fukunaga).

SCRep. 584 (Majority) Labor and Environment on S.B. No. 1231

The purpose of this measure is to prohibit smoking in workplaces employing two or more employees. This prohibition does not apply to the dining areas of restaurants, bars, and hotel guest rooms.

Testimony in support of this measure was received from the Department of Health, the American Heart Association, the American Lung Association, the Hawaii Nurses Association, the Coalition for a Tobacco Free Hawaii, and the Hawaii Medical Services Association. The United Public Workers testified in opposition to the measure.

Your Committee finds that the intent of this measure is to increase protections for employees against exposure to environmental tobacco smoke (ETS) at the workplace. Your Committee finds, however, that this measure may interfere with employee rights that have been negotiated as a part of a collective bargaining or employee agreement.

Your Committee has amended this measure by:

- (1) Clarifying that smoking is prohibited in enclosed areas of private workplaces as well as state-owned or state-controlled workplaces;

- (2) Deleting section 328K-13(b), Hawaii Revised Statutes, concerning a vote of preference by employees;
- (3) Providing that this measure shall not be effective for employees who are covered by an existing collective bargaining or employee agreement until the completion of that agreement; and
- (4) Making technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Labor and Environment that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1231, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1231, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 2 (Ige, M., Slom). Excused, 2 (Chumbley, Fukunaga).

SCRep. 585 Ways and Means on S.B. No. 211

The purpose of this bill is to extend from June 30, 1999 to June 30, 2001, the pensioners' bonus originally extended to retirants of the Employees' Retirement System under Act 339, Session Laws of Hawaii 1990.

Your Committee finds that retirants' cost of living increases are computed on simple interest on the original amount of the retirants' pension. Therefore, members who retired years ago could be receiving a pension that has not kept up with inflation. By extending the sunset provision to 2001, this bill reaffirms past legislative policy to help older retirants cope with the higher cost of living.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 211, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 586 Ways and Means on S.B. No. 813

The purpose of this bill is to authorize the issuance of special purpose revenue bonds and refunding special purpose revenue bonds to assist the gas utility in providing gas service to the general public.

Your Committee finds the authorization of special purpose revenue bonds to assist The Gas Company, a division of Citizens Utility Company, with necessary capital improvements will provide a direct savings to consumers through lower interest costs to The Gas Company. Your Committee finds that authorizing not more than \$19,600,000 in special purpose revenue bonds will benefit the State by providing financing for a qualified "energy project" within the bounds of part VI, chapter 39A, Hawaii Revised Statutes, that benefits the public interest.

Your Committee has amended this bill by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 813, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 587 Ways and Means on S.B. No. 957

The purpose of this bill is to extend the Motor Vehicle Insurance Benefits Task Force until June 30, 2000.

The bill also requires the Task Force to develop a plan for balancing the maximum coverage and benefits for victims of motor vehicle accidents with the lowest possible cost for purchasers of motor vehicle insurance.

Your Committee finds that the Task Force was formed pursuant to Act 251, Session Laws of Hawaii 1997. The Task Force was charged with developing a comprehensive plan with respect to a multi-faceted overview of motor vehicle insurance in Hawaii.

The Task Force, through no fault of its own, was unable to present its plan as scheduled this past January because of delays in gathering information that was essential to the Task Force's Plan.

This bill would provide the Task Force with the time it needs to complete its Plan by June 30, 2000.

Your Committee has amended the bill by incorporating the contents of S.B. No. 485, S.D. 1, into the bill. Senate Bill No. 485, S.D. 1, provides public assistance recipients who received medical services prior to July 1, 1994, and who continue to receive such

benefits with free no-fault insurance benefits. This amendment reinstates public assistance recipients who were removed from free no-fault insurance eligibility under Act 225, Session Laws of Hawaii 1994.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 957, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 957, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 588 Ways and Means on S.B. No. 1102

The purpose of this bill is to transfer the financial responsibility of annually auditing the Public Employees' Health Fund from the State Comptroller to the Public Employees' Health Fund.

Your Committee believes that it is the responsibility of the Public Employees' Health Fund to maintain accurate records of its accounts. Your Committee also believes that since the Public Employees' Health Fund is the beneficiary of audit information, it should pay for the cost of any auditing expenses from its reserves.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1102, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 589 Ways and Means on S.B. No. 1124

The purpose of this bill is to allow an out-of-state bank to establish a de novo interstate branch or acquire an interstate branch in Hawaii if certain conditions are met.

In addition, this bill deletes the requirement that prohibits an interstate merger transaction resulting in the acquisition by an out-of-state bank of a Hawaii state bank, or of all or substantially all of the branches of a Hawaii state bank, unless the Hawaii state bank has been in continuous operation, on the date of the acquisition, for a period of at least five years.

Your Committee agrees with the intent of this bill, and finds that banks operating through the internet, direct mail, and the telephone, already have access to Hawaii consumers, but are not subject to the regulatory measures governing financial institutions domiciled in Hawaii. Your Committee finds that permitting out-of-state banks to establish or acquire interstate branches in this State subject to their compliance with the requirements of the laws of this State will allow out-of-state banks to compete on a direct level with local financial institutions while under the regulatory scrutiny of the State.

Your Committee has further amended the bill to make technical nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1124, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1124, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 590 Ways and Means on S.B. No. 1130

The purpose of this bill is to require health maintenance organizations to file quarterly reports with the Insurance Commissioner; and to impose penalties and other administrative sanctions on health maintenance organizations that fail to renew their certificates of authority in a timely manner.

Your Committee finds that quarterly reporting and the timely renewal of certificates of authority can help the Insurance Commissioner to more effectively monitor the financial solvency of health maintenance organizations. With more and more employers turning to health maintenance organizations as a means of controlling or reducing health care costs, everything possible must be done to ensure the continued solvency of health maintenance organizations.

Your Committee has amended this bill by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1130, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1130, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 591 Ways and Means on S.B. No. 1144

The purpose of this bill is to dedicate a certain percentage of the taxes imposed on banks and financial institutions under chapter 241, Hawaii Revised Statutes, to the Financial Institutions Examiners' Revolving Fund.

Presently, all taxes collected under chapter 241, Hawaii Revised Statutes, are deposited into the general fund.

This bill will provide a dedicated source of funding to the Division of Financial Institutions and allow the Division to become more self-sufficient and independent in carrying out its duties and responsibilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1144, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 592 Ways and Means on S.B. No. 1145

The purpose of this bill is to consolidate certain special and revolving funds of the Department of Commerce and Consumer Affairs into the department's compliance resolution fund, to be managed at a department-wide level to fund department operations.

In particular, this bill provides that revenues, fees, and fines collected by the Department's Business Registration and Professional and Vocational Licensing Divisions are to be deposited into the compliance resolution fund, and that unencumbered balances existing on June 30, 1999, in the cable television fund, the Division of Consumer Advocacy fund, the financial institution examiners' revolving fund, and the special handling fund, are to be deposited into the compliance resolution fund.

Your Committee agrees with the intent of this bill, and finds that the bill will provide the Department of Commerce and Consumer Affairs with greater flexibility in managing its funds to support its goal of fiscal self-sufficiency. Your Committee further finds that the Department will account for all sources of funding separately in order to track each division's revenues against its expenses.

Upon further consideration, your Committee has amended the bill to make technical, nonsubstantive changes for the purposes of clarity and consistency, including:

- (1) Making conforming amendments to sections 36-27, 92-24, 207-14, 412:2-105, and 482-2, Hawaii Revised Statutes;
- (2) Amending Act 216, Session Laws of Hawaii 1997, and Act 142, Session Laws of Hawaii 1998, to address the potential problems created by the repeal and reenactment of sections 36-27 and 36-30, Hawaii Revised Statutes; and
- (3) Renumbering the sections.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1145, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1145, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 593 Ways and Means on S.B. No. 1261

The purpose of this bill is to allow the Insurance Commissioner to adopt rules to establish application and annual license fees on captive insurance companies instead of setting the fees by statute.

Your Committee agrees with the intent of this bill, and finds that prudent regulation of captive insurance companies is an integral part of a reputable and attractive captive domicile. To provide for proper regulation of captives, certain fees and costs are warranted to compensate the regulators for their work. Your Committee finds that this bill will assist in offsetting some of the additional expenses associated with the regulation of captive insurance companies.

The bill also requires the initial set of rules to be adopted by January 1, 2000.

Your Committee has amended the bill to make technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1261, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1261, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 594 **Ways and Means on S.B. No. 1282**

The purpose of this bill is to authorize the Employees' Retirement System to invest in real estate through limited liability companies.

Your Committee finds that limited liability companies provide advantages to an investor because of their elimination of federal and state tax, centralized management, and limited liability for its owners. Allowing the Employees' Retirement System to invest in this type of entity can provide it with different avenues for investment while also limiting the Employees' Retirement System's liability from personal injury and property damage lawsuits.

Your Committee has amended this bill by deleting the phrase on page 8: "similar entities that would protect the system's interests,". Other amendments are of a technical, nonsubstantive nature.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1282, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1282, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 595 **Ways and Means on S.B. No. 1288**

The purpose of this bill is to permit the Board of Trustees of the Public Employees Health Fund to contract for more than one type of benefit plan for medical, drug, vision, and dental benefits.

Your Committee finds that current law authorizes the Board of the Public Employees Health Fund to contract for only one statewide plan for each of its medical, drug, dental, and vision benefit plans. This bill will provide flexibility to contract for more than one benefit plan per benefit category, thereby fostering more competition to provide the State quality benefit plans with the best value.

Your Committee has made technical, nonsubstantive amendments for the purposes of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1288, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1288, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 596 **Ways and Means on S.B. No. 1290**

The purpose of this bill is to offer medical benefits to part-time, temporary, and seasonal or casual public employees at no cost to the employer.

Under this bill, the cost of the medical benefits provided would be borne by the employee.

Your Committee finds that this bill would provide medical benefits to part-time, temporary, and seasonal or casual public employees at no cost to the public employer and would enable such employees to obtain coverage at a lower premium rate.

Your Committee has made only minor technical, nonsubstantive amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1290, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1290, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 597 **Ways and Means on S.B. No. 1326**

The purpose of this bill is to repeal certain filing and fee requirements for foreign lenders.

This measure simplifies the process that foreign lenders may take to operate in the State by repealing the requirement that they file and annually renew a statement with the Commissioner of Financial Institutions along with repealing related fees. This measure also exempts foreign lenders from the requirements of the mortgage brokers and solicitors law and the real estate collection servicing agents law.

Your Committee finds that providing these specific exemptions to foreign lenders will encourage and facilitate the lending of money from sources outside the State, thereby helping to increase the supply of available capital in this State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1326 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 598 Ways and Means on S.B. No. 1544

The purpose of this bill is to allow deputy sheriffs of the Department of Public Safety to retire without penalty after twenty-five years of service if the last five or more years prior to retirement is credited service in that capacity.

Your Committee finds that this bill would entitle deputy sheriffs to retire and receive benefits unreduced for age in the same manner as firefighters and police officers if the last five or more years prior to retirement are credited service in that capacity.

For purposes of consistency, your Committee has amended this measure by making a technical nonsubstantive conforming amendment to section 2.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1544, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1544, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Ige, M., Kawamoto, Nakata).

SCRep. 599 Ways and Means on S.B. No. 5

The purpose of this bill is to provide agricultural loans to farmers for export purposes and to recover from state eradication programs.

Your Committee finds that the State has not encouraged the export potential of local industries as much as it can or should. The agriculture industry is an example of an industry with export potential that is relatively untested and undefined. This bill provides state support through agricultural loans to encourage farmers to exploit the export potential of their goods and produce.

Your Committee also finds that local farmers need state assistance if they are the subject of state eradication programs. This bill also provides loan assistance to such farmers to enable them to recuperate from losses suffered as a result of state eradication programs.

Your Committee has amended the bill by:

1. Clarifying that the eradication programs refer to farmers who have been subject to any state eradication program;
2. Redrafting the proposed language relating to eradication programs in section 2 of the bill; and
3. Making other technical changes that have no substantive effect.

Finally, your Committee is aware of a possible conflict between the proposed provision regarding farm loans for export purposes and the functions of the Agribusiness Development Corporation. It is the intent of your Committee that this bill not establish duplicative state functions and that the Department of Agriculture and the Agribusiness Development Corporation develop rules or guidelines, at their discretion, to qualify and distinguish the assistance provided by their respective agencies to prevent such duplication.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 5, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 5, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Chun, Ige, M., Kawamoto, Nakata, Taniguchi).

SCRep. 600 Ways and Means on S.B. No. 570

The purpose of this measure is to extend the Waianae coast community benchmarking project through June 30, 2003, and to appropriate \$400,000 to support the work of the project.

Your Committee finds that the Waianae Coast Community Benchmarking Pilot Project to develop the economy and improve the quality of life on the Waianae coast is effective and should be continued.

Upon further consideration, your Committee has amended this bill by deleting sections 3 and 4 of the bill making appropriations to fund various subprojects of the benchmarking project and to subsidize the Hawaii Community Services Council for work on the project.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 570, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 570, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Kawamoto, Nakata, Taniguchi).

SCRep. 601 Ways and Means on S.B. No. 809

The purpose of this measure is to allow a sole proprietor of a catamaran operating with a valid commercial registration certificate at Waikiki Beach to transfer the ownership and the commercial registration to a corporate entity.

Your Committee finds that in 1984, the Legislature approved a measure to allow owners of commercial vessels with commercial permits, and moored in small boat harbors, to transfer both ownership of the vessel and the authority for the permit to a new corporate entity. However, Act 187, Session Laws of Hawaii 1984, did not extend to commercial catamaran owners operating at Waikiki Beach.

Your Committee further understands that only two of the seven catamaran operations currently at Waikiki Beach are sole proprietorships, and that the measure would not affect the total number of commercial catamaran operations.

Your Committee has amended the measure by adding a section that "grandfathers in" a catamaran business that was formerly a sole proprietorship that subsequently became a corporation and was mistakenly allowed by the Department of Land and Natural Resources to transfer its commercial registration certificate to the corporation.

Your Committee believes this measure will provide these two remaining sole proprietors with the option to make a one-time change to corporate ownership, without adversely affecting nearshore marine traffic or the area's ecosystem.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 809, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 602 Ways and Means on S.B. No. 976

The purpose of this bill is to create a construction industry branch within the Department of Business, Economic Development and Tourism.

This measure establishes a branch of the Research and Economic Analysis Division of the Department that has specific responsibilities to promote, market, develop, and coordinate the different aspects of the construction industry in the State.

Your Committee finds that a portion of the State's economic prosperity is connected to the prosperity of the construction industry. Your Committee acknowledges the importance of the construction industry to the economy. Supporting the promotion and development of such a vital industry to the State will benefit the entire State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 976, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Taniguchi).

SCRep. 603 Ways and Means on S.B. No. 1062

The purpose of this bill is to expand the eligibility for agricultural park leases to include revocable living trusts and limited liability companies.

Your Committee finds that when the agricultural park program was first established, new legal entities such as revocable living trusts and limited liability companies had not been established or widely used. This bill would allow lessees holding a lease under a revocable living trust or limited liability company to transfer their interests in the lease to surviving family members or successor business entities. Your Committee also finds that this bill will provide security and peace of mind to agricultural park lessees and conform the law with modern business applications.

Your Committee has amended the bill by making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1062, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1062, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Taniguchi).

SCRep. 604 Ways and Means on S.B. No. 1071

The purpose of this bill is to authorize the Commissioner of Securities to allow a prospectus for a small corporate offering to meet the disclosure requirements under state law, if the prospectus meets all qualifications in the Small Corporate Offerings Registration Form adopted by the North American Securities Administrators Association.

Your Committee finds that this measure will enable small businesses to raise up to \$1,000,000 in start-up capital by selling stock directly to the public after registering the shares under a Small Corporate Offerings Registration. Ready access to available capital is a frequent cause of small business failures in Hawaii. Applying for conventional loans or venture capital is time-consuming and counterproductive.

Your Committee has amended this measure by recasting the new language on the prospectus for small corporate offerings as a new paragraph in existing subsection 485-10(b), Hawaii Revised Statutes, rather than as an entirely new section to chapter 485. This purely structural change eliminates the need to amend other statutory provisions to cross reference the new law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1071, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1071, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Taniguchi).

SCRep. 605 Ways and Means on S.B. No. 1072

The purpose of this bill is to repeal the "drop-dead" provisions for the Department of Business, Economic Development and Tourism's business loan guarantee program and neighbor island preferential business loan interest rate, thereby making both permanent.

This measure allows the Department to continue to offer the business guarantee loan program and preferential business loan interest rate to counties with populations of less than one hundred fifty thousand.

Economic conditions on the neighbor islands continue to be strained. Your Committee finds that allowing the Department of Business, Economic Development, and Tourism to continue these programs increases the likelihood that business on the neighbor island will return and prosper sooner.

Your Committee has amended this bill by clarifying that only the Section 4 of Act 311, Session Laws 1996, and Section 6, Act 104, Session Laws of 1998 are being amended, and that the remaining provisions of those acts are not being repealed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1072, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1072, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Taniguchi).

SCRep. 606 Ways and Means on S.B. No. 1097

The purpose of this bill is to provide additional sources of revenue for the forest stewardship program.

Specifically, this bill requires that all revenues from the:

- (1) Harvest of non-native forest products; or
- (2) Sale of tree seedlings from state nurseries;

be deposited into the forest stewardship fund to provide for the replanting, managing, and maintaining of timber management areas.

This bill also requires the Board of Land and Natural Resources to identify reforestation and related management issues along with annual reporting of the financial condition of the forest stewardship fund.

Your Committee finds that if the forest industry is to be viable and help to replace lost revenues from sugar, it must be carefully financed and managed. Allowing the revenues from the sale of forest products to be deposited into the forest stewardship fund is an important step to provide a self-sustaining industry.

Your Committee has amended this measure by deleting the appropriation and making other technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1097, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1097, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Nakata, Taniguchi, Anderson).

SCRep. 607 Ways and Means on S.B. No. 41

The purpose of this bill is to extend the sunset date of the Hawaii Teacher Standards Board to June 30, 2010; and to stagger the initial terms of the seven members to be appointed to the Hawaii Teacher Standards Board after June 30, 2000, but excluding the two members who serve in an ex officio capacity.

Your Committee finds that the continued existence of the Hawaii Teacher Standards Board is essential to ensuring that our public school students are taught by qualified teaching professionals. Your Committee also finds that the Hawaii Teacher Standards Board has done outstanding work in the past and should be permitted to continue its work into the future, subject to satisfactory evaluations.

Your Committee also finds that the terms of present members of the Hawaii Teacher Standards Board, excluding the ex officio members, will all expire in 2001. Although this current period of stability (in terms of membership) has allowed the Hawaii Teacher Standards Board to make remarkable progress in the short time that it has been in existence, your Committee recognizes the importance of tempering the desire for short-term gains and results against the need for long-term stability and consistency. In the long-term, staggering the terms of board and commission members can result in more stable and consistent decision making as it permits new members to draw on the institutional knowledge and experience of veteran members.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 41, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Nakata, Taniguchi, Anderson).

SCRep. 608 Ways and Means on S.B. No. 185

The purpose of this bill is to statutorily establish a Hawaii State Student Council and to require the council to assume the statutory duty presently held by the Student Conference Committee to hold the annual conference of secondary school students.

Your Committee finds that the Hawaii State Student Council exists but has never been formally established under statute. Your Committee finds that statutory establishment of the council will give the council permanency and stability in allowing student participation in school-based decision making.

Your Committee has made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 185, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 185, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Nakata, Taniguchi, Anderson).

SCRep. 609 Ways and Means on S.B. No. 1155

The purpose of this bill is to extend the already existing authority of the State Librarian to administratively reallocate vacant positions and to establish temporary positions for three years, until 2002.

Your Committee finds that in order to use the State's limited resources in the most efficient manner, the State Librarian must have the flexibility to reallocate vacant positions, establish temporary positions, or both, as needs change in the library system due to demographics or other circumstances.

Your Committee has amended this bill by making technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1155, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1155, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 610 Ways and Means on S.B. No. 1157

The purpose of this bill is to waive the residency requirement for the State Librarian.

The bill also sets the Librarian's term at four years and authorizes the Board of Education to set the Librarian's salary until July 1, 2004.

Your Committee finds that the bill provides the Board of Education with more flexibility in recruiting a Librarian for the State Library System. This flexibility is necessary if the Board is expected to recruit candidates of a higher professional quality capable of performing the duties and responsibilities required of an upper level management position. This flexibility, however, is tempered with a five-year drop-dead clause to provide the Legislature with the opportunity to review and assess the salary setting authority given to the Board.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1157, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 611 Ways and Means on S.B. No. 1185

The purpose of this bill is to postpone from June 30, 1999, to June 30, 2004, the changeover in management over the State Aquarium.

Specifically, this bill gives the Board of Regents of the University of Hawaii more time to transfer management from both the Research Corporation of the University of Hawaii and the University of Hawaii Foundation to an as yet undetermined new management arrangement.

Your Committee finds that the University of Hawaii's plans to relocate the State Aquarium to Kakaako will necessitate a delay in the scheduled transfer of management. Your Committee believes that the relocation of the aquarium will play an important role in the overall economic revitalization of Kakaako. Your Committee accordingly is willing to allow the university to subordinate its transfer of management to the relocation of the aquarium.

Your Committee has made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1185, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1185, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 612 Ways and Means on S.B. No. 1274

The purpose of this bill is to transfer the functions and authority relating to after hours security contracts at Department of Education facilities from the Department of Public Safety to the Department of Education.

Your Committee finds that the Department of Education is in a better position to manage and control the security contracts for their own facilities. By eliminating the necessity of involving the Department of Public Safety, the Department of Education will have improved accountability and management of their security services and be able to efficiently respond to their security needs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1274 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 613 Ways and Means on S.B. No. 1586

The purpose of this bill is to require budgeting for athletics when budgeting for new schools, require the Department of Education to study the implications of setting coaches' salaries and report its findings to the Legislature before the 2000 regular session.

Your Committee finds that athletic programs are necessary to a well-rounded school curriculum, requiring proper funding as part of the funding for new schools in order that students entering a new school can have the same opportunities as students in other high schools.

Undeniably, coaches have a positive impact upon students, giving them motivation, inspiration, direction, and positive alternatives to delinquency and drugs. However, your Committee is aware that the Department of Education has reservations regarding the setting of coaches' salaries. Your Committee believes that the issue of coaches' salaries require in-depth study, with all implications being determined before salaries can be set.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1586, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 614 Ways and Means on S.B. No. 876

The purpose of this bill is to establish a standard to be used in appraising the leased-fee interest for condominiums and cooperative housing corporations.

The bill permits leases and subleases entered into before the effective date of the Act to use this standard, and requires it to be used in leases and subleases entered into on and after the effective date of the Act. Your Committee finds that the standard is based on the fair market value of the property and will ensure fairness in the valuation process.

Your Committee has amended the bill by making technical, nonsubstantive changes for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 876, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 876, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Nakata, Taniguchi, Anderson).

SCRep. 615 Ways and Means on S.B. No. 1005

The purpose of this bill is to impose penalties upon public works contractors who do not make prompt payments to subcontractors.

This measure imposes graduated fines of \$5,000, \$10,000, and \$25,000, for the first, second, and third offenses respectively on contractors who fail to disperse funds to subcontractors within ten days of receiving payments on state contracts.

Your Committee finds that imposing these penalties will provide an incentive for prompt payments to subcontractors. Encouraging a system of prompt payments on government construction contracts will provide economic stability for those subcontractors.

Your Committee has amended this measure by making technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1005, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1005, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Nakata, Taniguchi, Anderson).

SCRep. 616 Ways and Means on S.B. No. 1519

The purpose of this bill is to authorize the Housing and Community Development Corporation of Hawaii to act as a clearinghouse of information in order to ensure a supply of federally assisted rental housing projects for low-income renters.

Specifically, this measure requires owners of federally assisted rental housing projects to provide a one-year notice to both tenants and the corporation of any intent to terminate a subsidy contract on an assisted housing development or prepay its mortgage. Furthermore, if the owner intends to sell the project, the owner must first provide a right of first refusal to the tenant association of the development and certain nonprofit organizations for a one hundred eighty-day period following the notice to sell the project. The corporation shall maintain and disseminate lists of potential buyers of low-income rental housing projects being terminated and offered for sale.

Your Committee finds that the supply of the Section 8 low-income rental housing projects subsidized by the United States Department of Housing and Urban Development may decrease in the future due to anticipated reductions in the subsidies offered by

the federal government to the housing project owners. Decreased subsidies increase the risks that owners will terminate the federal subsidy contracts and sell off the housing projects, forcing their renters out of their subsidized housing units.

Your Committee believes that this measure is necessary to protect low-income renters from the financial devastation that will befall them in trying to secure market rate rental units.

Your Committee has amended this measure by requiring appraisers under the new law to be certified real estate appraisers. Furthermore, your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1519, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1519, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 617 Ways and Means on S.B. No. 102

The purpose of this bill is to improve the provision of adequate health care services and related public transportation services for rural communities.

The intent of this bill is to qualify Hawaii for federal Medicare rural hospital flexibility grants through the development of a statewide rural health plan and to create a rural health special fund. Your Committee finds that adequate health care for rural districts throughout the State is sorely lacking. This bill is an outgrowth of the Department of Health's rural health plan for the island of Hawaii, particularly Puna and Ka'u, to ensure the improvement of health facilities and to make available sufficient medical services. Although examples on the Big Island are cited in the bill, your Committee emphasizes that this measure applies to all counties where there is a rural health problem.

Your Committee has amended this bill by adding language to clarify that the rural health special fund is created in the state treasury to be administered and expended by the Department of Health. Your Committee has also added a new section 4 to the bill to add boilerplate language to ensure that federal funds are not jeopardized. In addition to renumbering the remaining sections of the bill, your Committee has also made technical, nonsubstantive amendments to the bill for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 102, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 102, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Ige, M., Iwase, Nakata, Tam, Anderson).

SCRep. 618 Ways and Means on S.B. No. 145

The purpose of this bill is to encourage more organ donations.

The number of organs donated for transplant in Hawaii is inadequate and must be increased in order to save lives. This bill promotes organ donation through education and asking dying patients and their families to consider the option of donation. A voluntary \$1 fee asked of all drivers at the time of driver license application or car registration will fund a special fund to finance the educational efforts.

Your Committee finds that organ and tissue transplantation, which is no longer a medical experiment, can save lives and improve the quality of life for many ill patients. However, the demand is much higher than the supply and many more donors are needed annually. In Hawaii, which has a high number of minority groups, appreciation of organ donation is important because a more successful organ match is possible when the donor and the recipient are from the same ethnic group. Yet, many individuals do not feel comfortable making an organ donation for a variety of reasons ranging from religious to simply being uninformed about their dying family member's preferences regarding organ and tissue donation. Therefore, every effort must be made to educate the public about the option to donate and the family or public discussion that is needed in this area of medicine in order for this process to work.

Public awareness can be raised through more public education at ethnic, health, and community fairs, schools, and churches. In hospitals, a trained requester can ask every dying person and their family members to consider organ and tissue donation. Only by increasing the number of persons asked to donate can Hawaii hope to increase the number of donors each year.

Your Committee has amended this bill by:

- (1) Using the phrase "procurement organization" instead of "organ procurement organization" to use a term consistent with the definitions in section 327-1, Hawaii Revised Statutes;

- (2) Eliminating the advisory committee, because a voluntary coalition of organ donation individuals and groups has been formed to address public education concerns;
- (3) Changing the administration of the organ and tissue education special fund from the Office of the Lieutenant Governor to the Department of Health;
- (4) Requiring the assignment of funds from the special fund to the Organ Donor Center of Hawaii for apportionment to the three major functions (minority organ tissue and transplant education program, Hawaii's federally designated organ procurement organization, and Hawaii's coalition of organ donation related agencies); and
- (5) Establishing the special fund effective July 1, 1999, but having actual collection of the voluntary \$1 fee begin from July 1, 2000 in order to allow the city and county of Honolulu's motor vehicle computer software program to be online.

These amendments are in accord with testimony and language suggested by the Organ Donor Center of Hawaii and the National Kidney Foundation of Hawaii.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 145, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 619 Ways and Means on S.B. No. 180

The purpose of this measure is to make appropriations for substance abuse prevention and treatment services.

Specifically, this bill appropriates, in each of fiscal years 1999-2000 and 2000-2001, the following amounts:

- (1) \$480,000 for substance abuse prevention services statewide;
- (2) \$600,000 for adolescent school-based substance abuse treatment services in public high schools statewide;
- (3) (A) \$98,000 for crisis intervention/detoxification residential beds statewide;
(B) \$688,000 for residential (non-hospital) treatment services statewide;
(C) \$120,000 for intensive outpatient services statewide; and
(D) \$432,000 for therapeutic living homes/programs at two sites statewide.

Your Committee finds that a comprehensive approach is necessary to adequately address the effects of alcohol and drug abuse on society.

Upon further consideration, your Committee has amended this bill by deleting all appropriated dollar amounts and replacing them with blank amounts for the purpose of promoting further discussion. Your Committee has also made numerous technical, nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 180, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 180, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 620 Ways and Means on S.B. No. 200

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for the Ewa Villages Community Development Corporation.

Your Committee believes that the Ewa Villages Community Development Corporation is deserving of financial assistance to provide a continuum of health care services to the frail elderly and medically fragile infants and children.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 200 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 621 Ways and Means on S.B. No. 802

The purpose of this bill is to create the compliance review special fund for the Commission on Persons with Disabilities.

This measure establishes the compliance review special fund and authorizes the commission to charge reasonable fees to review private sector building plans to determine compliance with the Americans with Disabilities Act. All fees received by the Commission on Persons with Disabilities for reviewing private sector building plans shall be deposited into the fund.

Your Committee finds that establishing this fund will contribute to the Commission on Persons with Disabilities becoming a self-supporting agency of government. Your Committee finds that allowing the commission to charge reasonable fees for their services will not displace private sector services in this area.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 802 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 622 Ways and Means on S.B. No. 835

The purpose of this bill is to require the Department of Health to establish and administer an aeromedical emergency medical services information system and to contract for emergency aeromedical services.

The bill also establishes an emergency aeromedical services quality improvement advisory committee to analyze information collected and requires the Director of Health to appoint specific members.

Your Committee finds that a quality aeromedical services system is critical to the health and welfare of all people, particularly those in the rural areas of the Big Island. Although this bill provides statutory recognition of aeromedical services, the Department of Health currently provides aeromedical services. This bill is an outgrowth of an aeromedical task force that assisted the Department of Health by making recommendations to improve current aeromedical services.

Upon further consideration, your Committee has made the following amendments:

- (1) Substituted the contents of the bill with the original draft of S.B. No. 835;
- (2) Added a new section 5 to amend section 321-232, Hawaii Revised Statutes, to create an emergency medical services special fund; and
- (3) Added a new section 6 to create the emergency medical services special fund.

The amendments to create the emergency medical services special fund were made at the recommendation of the Department of Health.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 835, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 835, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 623 Ways and Means on S.B. No. 992

The purpose of this bill is to appropriate funds for the Hana Community Health Center.

Your Committee finds that the Hana Community Health Center cannot operate effectively without additional legislative appropriations. This health center serves a rural population that is isolated from the population center of Maui and the sick or injured would be forced to drive for more than two hours to Wailuku for medical attention if the health center is closed. The health of Hana residents as well as the many tourists who visit this section of Maui would be similarly hampered and perhaps endangered by the lack of medical services.

Your Committee has amended this bill by deleting the specific amounts of the appropriations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 992, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 992, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 624 Ways and Means on S.B. No. 1028

The purpose of this bill is to make permanent the statutory enactments of Act 216, Session Laws of Hawaii 1997 which created a domestic violence prevention special fund and a vital statistics improvement special fund, among other things.

Your Committee finds that vital statistics data are the most important data collected by any state and every effort should be made to maintain these records accurately and preserve them for posterity. Your Committee also finds that one of the more critical areas of societal concern today is the increasing incidence of domestic and family violence. Intervention and prevention efforts are essential services that can offset these damaging confrontations. Continued support of these two major areas covered by Act 216 can best be made by amending the sunset provisions in Act 216 and making the changes permanent.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1028, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 625 Ways and Means on S.B. No. 1049

The purpose of this administration bill is to allow foster boarding payment if the eligible foster child is attending an accredited institution of higher learning on a part-time basis for the first academic year.

Your Committee believes that foster boarding children should be given the opportunity to better themselves by attending an institution of higher learning on a part-time basis for the first year. Many foster children must attend school part-time in order to work to support themselves while attending school. This bill will allow them to do that without losing their foster boarding support.

Your Committee has made two technical, nonsubstantive amendments for the purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1049, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1049, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 626 Ways and Means on S.B. No. 1053

The purpose of this bill is to repeal a redundant section of the law relating to Medicaid reimbursement for personal care services.

Your Committee finds that section 346-64, Hawaii Revised Statutes, relates to Medicaid reimbursement for personal care services which is already provided for in chapter 346D, Hawaii Revised Statutes, relating to long-term care services. Since both provisions are identical in nature, the elimination of section 346-64, Hawaii Revised Statutes, will serve to clarify the law and eliminate any confusion with respect to reimbursement for personal care services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 627 Ways and Means on S.B. No. 1054

The purpose of this administration bill is to make permanent Hawaii's opting out of a certain portion of the Personal Responsibility and Work Opportunity Reconciliation Act (section 115(a) of Public Law 104-193), that terminates the eligibility of an individual convicted of a drug related felony after August 22, 1996, for federal financial assistance and food stamps.

This bill accomplishes this by removing the sunset provision of Act 128, Session Laws of Hawaii 1997, which would have repealed this Hawaii opt out on June 15, 1999.

Your Committee finds that welfare payments and food stamps are a principal source of funding for substance abuse treatment programs. Your Committee further finds that this measure will help to ensure the continued availability of treatment, especially for women, increasing their likelihood of successfully moving from welfare to work and properly caring for their children. This measure will also help prevent an increase in crime that would result from the loss of support and access to drug treatment and other essential social services.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1054 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 628 Ways and Means on S.B. No. 1235

The purpose of this measure is to establish a temporary Governor's Task Force on Alternative Medicine to examine various forms of alternative medicine, such as chiropractic, acupuncture, homeopathy, naturopathy, aroma and music therapies, herbal remedies, and native Hawaiian medicines.

The Task Force shall further examine ways to stimulate the growth of alternative medicine, and determine whether any forms of alternative medicine should be given formal recognition as a form of medicine.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1235, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 629 Ways and Means on S.B. No. 1609

The purpose of this bill is to authorize the issuance of special purpose revenue bonds for Wahiawa Central-Oahu Health Center, Inc., or its affiliate.

Wahiawa Central-Oahu Health Center, Inc., is a not-for-profit Hawaii corporation that plans to utilize the bonds to establish and operate a health care facility in Central Oahu or acquire and install additional capital equipment for use in a Wahiawa central-Oahu center facility.

Your Committee concurs with the testimony presented at the hearing conducted by the Health and Human Services Committee that there is a need for quality affordable health care in central Oahu and that it would be in the public's interest to support the objectives of Wahiawa Central-Oahu Health Center, Inc.

Your Committee has amended the bill by making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1609, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1609, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 630 Ways and Means on S.B. No. 1610

The purpose of this bill is to authorize the issuance of special purpose revenue bonds to fund the renovation of existing health care facilities and the establishment of a new health care facility by Wahiawa General Hospital, Inc.

Specifically, this measure authorizes the issuance of \$37,000,000 in special purpose revenue bonds to Wahiawa General Hospital to:

- (1) Retire the outstanding debt on existing health care facilities and capital equipment used in connection with those facilities;
- (2) Plan, design, construct, and operate a new health care facility in central Oahu;
- (3) Acquire and install additional capital equipment for use in connection with Wahiawa General Hospital facilities and to renovate or repair existing health care facilities.

Your Committee finds that there is a pressing need to provide affordable, quality health care facilities for Hawaii's citizens. This is even more the case in the ever-growing areas of central Oahu. By authorizing the issuance of special purpose revenue bonds for this purpose, the State will be assisting in providing low cost financing for Wahiawa General Hospital to help meet this pressing need.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1610 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 631 Ways and Means on S.B. No. 605

The purpose of this bill is to establish a civil cause of action and enhanced criminal penalties for hate or bias motivated acts against persons because of race, color, religion, ancestry, national origin, gender, transgender, sexual orientation, age, or disability; and to provide for a reporting mechanism to compile, track, and analyze hate crimes data.

Your Committee finds that this bill is necessary as hate or bias motivated acts, including crimes and threats, against persons because of their race, color, religion, ancestry, national origin, gender, transgender, sexual orientation, age, or disability are a growing problem in Hawaii. Your Committee notes that Hawaii is one of twelve states that do not have laws addressing hate-motivated crimes, and one of only two states that do not comply with the federal Hate Crimes Statistics Act. Although other civil laws would apply to some hate or bias motivated acts, there presently is no civil remedy specifically for violence or threatened violence that is motivated by the fact that the victim falls within a protected class.

Your Committee further notes the concern expressed by the Attorney General that the Criminal Justice Data Center would not be able to handle the hate crime reporting responsibilities proposed in the bill, absent additional funding. While your Committee sympathizes with this position, your Committee nevertheless is unable to commit funds at the present time, but feels strongly that this bill should move forward.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 605, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 632 Ways and Means on S.B. No. 888

The purpose of this bill is to increase the amount that the court may assess, from \$25 to \$50, for the issuance of a penal summons for failure to appear for a traffic violation.

Your Committee notes that the original \$25 fee, set in 1976, has not been increased in the last twenty-three years. Your Committee finds that a \$50 assessment is a more realistic reflection of the current costs that the court incurs for the issuance of a penal summons. Your Committee acknowledges the Judiciary's efforts to develop additional revenue sources to support court operating costs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 888 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 633 Ways and Means on S.B. No. 889

The purpose of this bill is to authorize the courts to assess a fee, not to exceed \$50, for the cost of issuance of a bench warrant.

Your Committee finds that current law does not provide for the recapture of costs when bench warrants are issued. Your Committee further finds that the courts incur the administrative costs in these situations, unlike the costs of issuing a penal summons. Your Committee believes it is appropriate to develop additional revenue sources to defray court operating costs.

Your Committee has amended the bill by:

- (1) Moving the new section created from chapter 710, Hawaii Revised Statutes, to chapter 607 to reflect a more appropriate placement of the section. Your Committee notes that this placement falls within the scope of the bill's title, and
- (2) Deleting the conforming amendments to section 710-1000, Hawaii Revised Statutes, as they are no longer necessary, and renumbering the remaining sections consecutively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 889, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 889, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 634 Ways and Means on S.B. No. 901

The purpose of this bill is to remove the repeal date for the judiciary computer system special fund, and to require the Judiciary to adopt rules pursuant to chapter 91 relating to the fund.

Your Committee finds that this special fund was established in 1996 to enable the Judiciary to upgrade its computer system. Your Committee further finds that such a task is ongoing and that a stable source of funding will allow the Judiciary to both plan and implement updates to the system, which will benefit the public by providing a more efficient and productive system.

Your Committee has amended this bill by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 901, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 901, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 635 Ways and Means on S.B. No. 902

The purpose of this bill is to authorize the Judiciary to collect a fee of \$5 at the time of an initial filing of a civil action in the circuit courts for the costs involved in records storage and associated services.

Your Committee finds that court records, like many other government records are required to be retained anywhere from two years to an indefinite period. These records take up space, must be microfilmed in some cases, and occasionally must be retrieved from their storage locations. These efforts take up time and money, which can be offset by the addition of a surcharge on all initial civil case filings.

Your Committee has amended this bill by correctly identifying the fund as the records management revolving fund on pages 2 and 3, and made a technical, nonsubstantive change on page 2, line 16.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 902, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 902, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 636 Ways and Means on S.B. No. 926

The purpose of this bill is to add additional substance abuse offenses upon which drug demand reduction assessments may be imposed.

The bill also authorizes the expenditure of \$33,000 from the drug demand reduction assessment special fund for fiscal year 1999-2000 for mandatory substance abuse treatment for incarcerated inmates.

Your Committee finds that the purpose of the drug demand reduction assessment special fund is to provide additional moneys for drug treatment and other drug demand reduction programs. Your Committee believes that it is appropriate that the cost of administrating the drug demand reduction assessment special fund and the burden of paying for drug demand reduction programs be borne by those who are convicted of substance abuse offenses instead of by law abiding taxpayers. Therefore, convicted drug offenders should be required to contribute to programs that treat drug users and programs that will help prevent the use of drugs in our communities.

Your Committee has amended this measure by:

- (1) Deleting the underscored material relating to expenditures by the Department of Health from the special fund at page 2, lines 20 through page 3, line 1;
- (2) Inserting an appropriation section, as section 2 of the bill, to appropriate an unspecified amount from the drug demand reduction assessments special fund for fiscal years 1999-2000 and 2000-2001 to supplement drug treatment and other drug demand reduction programs; and
- (3) Renumbering the remaining sections consecutively.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 926, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 926, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 637 Ways and Means on S.B. No. 1016

The purpose of this bill is to improve public access to state administrative agency rules.

The bill accomplishes this by: (1) prohibiting state agencies from charging more than ten cents per page for copies of state rules; and (2) requiring each state agency to post its proposed rules on the website established by the Lieutenant Governor beginning January 1, 2000.

Until early 1998, state agencies were required to give free copies of their proposed rules to interested persons. The law was amended during the 1998 session to raise the fee for reproducing government records from twenty-five cents a page to fifty cents a page, and to require a person requesting rules through the mail to pay for the cost of the copy and postage.

State agencies found the new laws confusing and cumbersome, and the majority expressed a preference for continuing to distribute the rules free of charge. The Attorney General, by letter opinion in September 1998, ruled that agencies were required to charge a fee of fifty cents per page. A Legislative Reference Bureau study conducted during this period found, among other things, that agencies could produce copies of rules for well under ten cents per page.

Your Committee finds that the Legislature did not intend to require state agencies to charge fifty cents per page for copying costs, and your Committee agrees with the findings of the Legislative Reference Bureau that such high mandatory fees are an unreasonable barrier to public access. Authorizing, rather than requiring, the implementation of fees not to exceed ten cents per page will afford state agencies the flexibility they require to best serve the public. The charge does not affect the Office of the Lieutenant Governor's main collection of rules, and permits agencies to charge fees for searching, identifying, and segregating rules in preparation for copying according to a schedule adopted by the Office of Information Practices.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1016, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 638 Ways and Means on S.B. No. 30

The purpose of this bill is to authorize the Department of Land and Natural Resources to issue an endangered species ornamental stamp.

Your Committee finds that issuing an endangered species ornamental stamp holds much educational value for the community, which may otherwise remain uninformed on matters pertaining to endangered wildlife in the State.

To avoid any potential confusion, your Committee finds that this bill is not intended to require development of postage stamps that would require the approval of the United States Postal Service. Rather, this bill is intended to provide for the development of decorative and educational items. Your Committee has therefore amended this measure by clarifying that the stamp is purely ornamental and will not serve as a postage stamp. Your Committee has also made technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 30, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 30, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 639 Ways and Means on S.B. No. 1042

The purpose of this bill is to provide for additional flexibility in hiring new government employees by allowing vacancies to be announced at a range of salary rates, rather than the first step only, for professional and scientific positions and positions in the excluded managerial compensation plan.

Your Committee finds that under current law all new hires must be appointed at the minimum step of the salary range, regardless of the quality and quantity of experience of candidates for government positions. As a result, it is difficult to recruit and hire experienced professionals and both state and county governments find themselves at a competitive disadvantage.

Your Committee believes the flexibility provided by this bill will result in the hiring of more experienced and higher qualified personnel, which should improve the efficiency of government operations.

Your Committee has made a technical, nonsubstantive amendment for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1042, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1042, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 640 Ways and Means on S.B. No. 1275

The purpose of this bill is to extend the civil service exemption to less than half-time employees of the Department of Education who supervise students during not only lunch, but any meal period and distribute, collect, and count meal tickets.

Your Committee finds that allowing for the exemption of these positions from the civil service law will give the Department greater flexibility in hiring and quickly filling these positions. These employees help school personnel only during limited times of the day and yet provide necessary assistance to the regular school staff.

Current law only allows an exemption for persons conducting these functions during lunch periods. Your Committee finds that there is no logical reason to limit the exemption to this single meal period.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1275, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 641 Ways and Means on S.B. No. 1638

The purpose of this bill is to require the Department of Education and the Hawaii Government Employees Association, the exclusive representative for bargaining unit 6, to conduct a study on the issue of compensational parity for educational officers of the Department of Education.

Specifically, this bill requires:

- (1) A review of the educational officer classification/compensation plan and position descriptions;
- (2) An examination of the compensational parity implications of the movement of a teacher from the teacher salary schedule to the educational officer's salary schedule;
- (3) An assessment of whether implementing a salary classification system for educational officers similar to the teacher salary classification system is appropriate;
- (4) An assessment of whether educational officers should be similarly compensated for continuing educational achievement in the same manner that teachers who earn additional educational credits are compensated;
- (5) Recommendations for addressing the issue of providing compensational parity between long-time educational officers and newly-hired educational officers who have transferred over from high-level teaching positions;
- (6) A review and evaluation of the classification and compensation schedules of adult education educational officers as to whether they are appropriately compensated when compared to K-12 educational officers; and
- (7) The Department of Education and the exclusive representative for bargaining unit 6 to submit their report, findings, and recommendations, and any necessary draft legislation to the Legislature before the Regular Session of 2000.

Your Committee finds that the issue of compensational parity for educational officers should be addressed through the collective bargaining process to the maximum extent allowed by law. Those matters that cannot be resolved to the mutual satisfaction of the Department of Education and the Hawaii Government Employees Association, the exclusive representative for bargaining unit 6, can then be presented to the Legislature and the Governor for final resolution outside the scope of the collective bargaining law.

Your Committee has amended this bill by making technical nonsubstantive changes for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1638, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1638, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 642 Ways and Means on S.B. No. 531

The purpose of this measure is to require state and county agencies to develop and implement an integrated vegetation management strategy to minimize the use of herbicides in public roadside maintenance.

The purpose of this bill is to promote the preservation of Hawaii's shorelines.

Specifically, this bill makes permanent the requirement that all:

- (1) Requests for developments within a special management area; and
- (2) Shoreline setback variances for developments on any lands within a community development district;

be submitted to and reviewed by the Office of Planning.

Your Committee believes that the requirement is necessary to preserve and enhance Hawaii's shorelines, and will promote consistent application of the law by having all reviews conducted by the same agency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1080 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 646 Commerce and Consumer Protection on S.B. No. 20

The purpose of this measure is to amend the continuing education requirement for real estate brokers and salespersons from ten hours every two years to five hours each year, and to authorize the Real Estate Commission to develop its own courses.

The Real Estate Commission (REC) and the Hawaii Association of Realtors presented testimony supporting the intent of the measure.

Your Committee finds that continuing education for real estate licensees is necessary to ensure that real estate salespersons and brokers are apprised of the most recent changes and developments in the law and the industry. Currently, the real estate licensing law requires that a licensee seeking to renew a current active license complete ten hours of continuing education at any time during the two year period prior to renewal.

This measure proposes to change the law by requiring that a licensee complete five hours of continuing education in each year of the two-year period prior to license renewal. The measure also expressly authorizes the REC to set requirements for continuing education courses, determine whether courses meet the requirements, assign continuing education credits to courses, and develop its own continuing education courses.

Your Committee has amended this measure by:

- (1) Codifying the laws relating to principal brokers and continuing education providers, instructors, and courses;
- (2) Removing the bifurcation of the ten-hour continuing education requirement;
- (3) Directing the Hawaii Association of Realtors to convene a work study group to discuss continuing education and administration issues with the REC, the Department of Commerce and Consumer Affairs, and other interested parties, and to submit its recommendations for legislation to the 2000 Regular Session; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 20, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 20, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Bunda, Matsuura).

SCRep. 647 Commerce and Consumer Protection on S.B. No. 238

The purpose of this measure is to simplify the certification of real estate continuing education instructors, provide options for licensure of candidates with a questionable background, simplify prelicensing broker requirements, provide for an option to the prelicensing examination, and make changes to the real estate recovery fund.

The Real Estate Commission (REC) and the Hawaii Association of Realtors presented testimony in support of the measure.

Your Committee finds that this measure simplifies, streamlines, clarifies, updates, and deregulates the real estate licensing law by:

- (1) Allowing a continuing education provider to certify that its instructors meet credentialing standards;

- (2) Authorizing the licensure of a limited liability company as a real estate brokerage;
- (3) Authorizing the REC to issue a preliminary decision on an individual's license application;
- (4) Providing alternative ways for an applicant to satisfy the experiential requirements for a real estate broker's license;
- (5) Authorizing the REC to prescribe the passage of different parts of the licensing examination for different purposes;
- (6) Extending the period for the restoration of a forfeited license;
- (7) Eliminating the requirements to display a salesperson's license and to register a site office;
- (8) Requiring the registration rather than the licensing of a real estate branch office;
- (9) Requiring that a person seeking payment from the real estate recovery fund based upon a judgment obtained against a real estate broker or salesperson who is a debtor in a bankruptcy proceeding, obtain an order from the bankruptcy court declaring the judgment against the broker or salesperson to be nondischargeable;
- (10) Providing that condominium hotel operators may register with the REC as a limited liability company; and
- (11) Authorizing the REC to accept as proof of fidelity bond coverage a statement from a condominium hotel operator's insurer that the bond is in effect.

Your Committee has made technical, non-substantive amendments to this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 238, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 238, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Ihara, Inouye, Matsuura).

SCRep. 648 Commerce and Consumer Protection on S.B. No. 134

The purpose of this measure is to repeal the requirement that physicians be certified to treat alcohol and drug abuse for purposes of mental health insurance benefits for treatment of drug and alcohol abuse.

The Department of Health and the Hawaii Psychiatric Medical Association presented testimony in support of the measure. Although not present at the hearing, Hawaii Biodyne, Inc. submitted testimony in support of the measure. The Insurance Commissioner presented comments on the measure.

Your Committee finds that the current law regarding alcohol and drug abuse treatment insurance benefits unnecessarily restricts coverage to those physicians with certification by the American Society of Addiction Medicine. Services by physicians who hold an equivalent certification, such as the American Board of Psychiatry and Neurology, are not covered. As a result, it is more difficult for persons in need of treatment to find services that are covered by their health insurance.

Your Committee is also aware of the need to maintain high quality medical services, and has amended this measure to:

- (1) Retain the requirement that physicians hold an American Society of Addiction Medicine certificate; and
- (2) Include physicians who are "board certified in psychiatry with added qualifications in addiction psychiatry conferred by the American Board of Psychiatry and Neurology" within the definition of "certified substance abuse staff".

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 134, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 134, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 649 Commerce and Consumer Protection on S.B. No. 830

The purpose of this measure is to require health insurers, mutual benefit societies, and health maintenance organizations to reimburse providers and patients within a specified time period.

The Department of Commerce and Consumer Affairs, the American Massage Therapy Association, the Hawaii Psychiatric Medical Association, the Hawaii Chapter of the American Physical Therapy Association, and the Hawaii Medical Association

presented testimony in support of the measure. Pacific Radiation Oncology, Inc., and three individuals, though not present at the hearing, submitted written testimony in support of the measure. The Hawaii Medical Services Association presented testimony in opposition to the measure.

Your Committee finds that this measure will allow the Insurance Commissioner to investigate a health insurer if complaints are received from providers due to delays in claims reimbursement. These complaints may indicate that an insurer may be having financial problems.

Your Committee has amended this measure by postponing the effective date of the Act to January 1, 2001, so that health plan tracking systems currently being retooled for Y2K compliance would not be overtaxed.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 830, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 830, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, none.

SCRep. 650 Commerce and Consumer Protection on S.B. No. 844

The purpose of this measure is to require parity in health insurance coverage for mental illness and substance abuse treatment.

The Hawaii Psychiatric Medical Association, The Hawaii State Alliance for the Mentally Ill, The National Association of Social Workers, United Self-Help, The Equal Insurance Coalition, the Very Big Mental Health Consumer Sandwich Group, the Hawaii Nurses Association, the Mental Health Association in Hawaii, and several individuals presented testimony in support of the measure.

Although not present at the hearing, the Department of Health, the Commission on Persons with Disabilities, the Hawaii Government Employees Association, the Hawaii Medical Association and several individuals submitted testimony in support of the measure.

The Insurance Commissioner, also not present, submitted written comments on the measure.

Hawaii Medical Services Association, Kaiser Permanente, and Kapi'olani Medical Specialists presented testimony in opposition to the measure.

Although not present at the hearing, the Queen's Health Management submitted testimony in opposition to the measure.

Your Committee finds that treatment for mental illness and substance abuse reduces secondary conditions, including many physical illnesses such as HIV, fetal alcohol syndrome and cirrhosis. Requiring parity in coverage for mental illness and substance abuse will provide access to needed medical services, while not increasing insurance rates.

Your Committee has amended the measure by:

- (1) Deleting the "gatekeeper provision" (431M-4(d)) in section 2 of the measure; and
- (2) Making a technical, nonsubstantive amendment to conform to the deletion above.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 844, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 651 Commerce and Consumer Protection on S.B. No. 1101

The purpose of this measure is to provide changes to part VII of the Hawaii Public Procurement Code, chapter 103D, Hawaii Revised Statutes, and to clarify the provisions for protests and the related available remedies.

The Department of Accounting and General Services presented testimony in support of this measure.

Your Committee finds that this measure facilitates the administration of the State procurement code by clarifying the provisions relating to:

- (1) The protesting of an award of a public contract;
- (2) The authority to debar or suspend a person from consideration for public contracts;

- (3) The authority to resolve contract and breach of contract controversies;
- (4) A determination that a solicitation or award is in violation of the procurement code; and
- (5) Requests for administrative review.

The measure also expands the scope of post-award remedies, establishes limits on the calculation of interest on amounts due to a contractor, and limits standing to seek administrative and judicial relief.

Your Committee has made technical, nonsubstantive amendments to this measure.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1101, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1101, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 652 Ways and Means on S.B. No. 528

The purpose of this bill is to exempt health insurers, mutual benefit societies, health maintenance organizations, and managed care plans that offer health insurance under federally-funded programs pursuant to the Social Security Act, from mandated health coverage requirements.

Your Committee feels that there is some uncertainty about whether federal program requirements prevail over mandated benefits within state insurance laws. This measure would clarify that certain federally funded programs are exempt from these state-mandated benefits requirements.

Your Committee wishes to note that the Insurance Division's regulatory role over fiscal solvency is not affected by this bill and that a health insurer contracting with a federally-funded program must still meet other requirements of the State's insurance laws. Your Committee further wishes to note that it is concerned that certain benefits and rights may be compromised, but would like to pass the measure along for the purpose of continuing discussion. Your Committee and the Committee on Commerce and Consumer Protection will continue to work on this bill.

Upon further consideration, your Committee has amended this bill to clarify that only federally funded programs under the Social Security Act are affected by:

- (1) Removing the term "entitlement" wherever it appears in the bill; and
- (2) Adding the phrase "under the Social Security Act" in sections 1, 2, 3, and 4 of the bill.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 528, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 653 Ways and Means on S.B. No. 780

The purpose of this bill is to mandate health insurance coverage for medical foods and low-protein modified food products needed for the treatment of inherited metabolic diseases.

In addition, this bill:

- (1) Requires a medical food or low-protein modified food product to be prescribed as medically necessary for the therapeutic treatment of an inherited metabolic disease; and to be consumed or administered enterally under the supervision of a licensed physician;
- (2) Mandates coverage for at least eighty per cent of the cost of the prescribed medical food or low-protein modified food product; and
- (3) Requires every insurer to provide notice to its policyholders regarding the coverage mandated by this bill by December 31, 2000, or within calendar year 2000 when annual information is made available to members, whichever comes sooner.

Your Committee finds it unthinkable that providers of health insurance could possibly deny a person coverage for medical foods and low-protein modified food products needed for the treatment of inherited metabolic diseases. If a person were allergic to a specific antibiotic or infected by a strain of bacteria already known to be resistant to a specific antibiotic, it would be irresponsible for

providers of health insurance to even think of denying the person coverage for a type of antibiotic that did not cause an allergic reaction in the person or that was known to be still effective against the strain of bacteria. And yet, your Committee finds that it is necessary to require providers of health insurance to cover these medical foods and low-protein modified food products.

Your Committee has amended this bill by replacing the term "inherited metabolic diseases" with "inborn errors of metabolism" to reflect the possibility that some metabolic diseases may be caused by other factors--such as mutagenesis, and may not be inherited by a person in the same manner that eye color or hair color are inherited.

Your Committee believes that this bill should not be used by unethical persons as justification to make unsubstantiated medical claims about a medical food or low-protein modified food product, or to undertake unproven treatment protocols for inborn errors of metabolism. It is your Committee's expectation that manufacturers of these foods and food products will abide by all applicable state and federal food and drug laws, and that physicians will prescribe these foods and food products within the ethical bounds of their professions.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 780, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 780, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 654 Ways and Means on S.B. No. 1128

The purpose of this bill is to increase fines for insurance law violations, and conform disclosure requirements for mutual benefit societies and health maintenance organizations.

In addition, the bill requires fraternal benefit societies to be licensed in accordance with the provisions governing solicitors in chapter 431, article 9.

Your Committee finds that the current range of fines for insurance law violations are too low and fail to be an effective deterrent, ranging from \$10 to \$1,000 per violation. The proposed scheme, of \$100 to \$10,000, should be more effective in assuring compliance with the law. Your Committee also finds that mutual benefit societies and health maintenance organizations should be held to the same standard as insurers in respect to the readability of insurance contracts. This will assist Hawaii consumers in obtaining the health care they need.

In addition, your Committee finds that clarifying the law relating to fraternal benefit societies will reassure them that they are able to obtain additional licenses under chapter 431, article 9.

Your Committee has amended the bill by providing a limited savings clause for violations of the insurance law that occur before the effective date of the Act so that the new schedule of fines will only apply to acts occurring after the effective date of the Act.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1128, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1128, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 655 (Majority) Ways and Means on S.B. No. 716

The purpose of this bill is to allow the Natural Energy Laboratory of Hawaii Authority to include retail and commercial enterprises utilizing or supporting the utilization of natural resources or geothermal energy within the Authority's research and technology park.

In addition, this bill:

- (1) Removes the limit on the number and kinds of concession and tour-related activities that can be conducted by the Authority to financially support the research, development, and commercialization of natural energy resources at the research and technology park;
- (2) Requires the Authority to establish, manage, and operate facilities that provide sites for compatible businesses engaged in retail, commercial, or tourism activities;
- (3) Removes the limit on the number and kinds of concession and tour-related activities that can be conducted by the Authority to financially support other than the research, development, and commercialization of natural energy resources at the research and technology park;
- (4) Allows the Authority to support the commercialization of natural resources available at the research and technology park if their commercialization is compatible with the retail, commercial, and tourism activities of the park; and

- (5) Allows the Authority to attract new, appropriate retail, commercial, and tourism uses of natural resources in Hawaii.

Your Committee finds that the Authority operates one of the premier facilities in the world for the research, development, and commercialization of aquaculture and natural energy resources. While much of the funding for this work has previously come from the state and federal governments, these funds have been greatly reduced and other sources of income must be developed. Your Committee also finds that the Authority has explored a variety of options to increase private investment in its facility, and that retail concession activities have the potential to generate significant additional revenues and to reduce the Authority's dependency on public funding.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 716 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, 1 (Ige, M.). Excused, 2 (Nakata, Taniguchi).

SCRep. 656 Ways and Means on S.B. No. 942

The purpose of this bill is to make mandatory the currently discretionary authority of the Department of Land and Natural Resources to establish and operate game management, wildlife sanctuaries, and public hunting areas.

Your Committee finds that all game birds and mammals in the State are non-native and pose an alien threat to the delicate native ecosystems and forested watersheds. Your Committee further finds that mandating public hunting in these areas will promote public and private cooperative efforts at protecting native birds and mammals from predatory alien species.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 942, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Taniguchi).

SCRep. 657 Ways and Means on S.B. No. 869

The purpose of this bill is to require the Department of Education to set appropriate counselor to student ratios to promote effective learning and development of students.

Specifically, this bill:

- (1) Requires the Department of Education to adjust the staffing of counselors at schools with a disproportionate number of at-risk students, so that schools with a higher than average percentage of at-risk students have an adequate number of counselors to counsel at-risk students; and
- (2) Defines the term "at-risk students" to mean students with a Family Court record or failing grades, or both, or who need special motivation with particular attention paid to them.

Although your Committee fully supports the intent of this bill, it also realizes that this measure may force the unintended redistribution of existing counselor positions between schools and departmental school districts unless funds are appropriated to create more counselor positions. An unintended consequence of this bill might be to cause more students to be designated as "at-risk" simply to retain existing counselor positions at a school or within a departmental school district.

Consequently, your Committee has amended this bill by:

- (1) Requiring all schools to utilize the criteria, screening processes, and documentation requirements for the comprehensive school alienation program as the basis for designating "at-risk students"; and
- (2) Making a technical nonsubstantive change for purposes of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 869, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 869, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Tam, Anderson).

SCRep. 658 Ways and Means on S.B. No. 951

The purpose of this bill is to authorize the University of Hawaii and the Department of Education to establish custodial accounts for their employees.

Furthermore, this measure authorizes the University of Hawaii and the Department of Education to make periodic salary withholdings for deposit into those accounts. This measure also immunizes the university, the department, and the State from investment liability.

Your Committee finds that this bill strikes a proper balance between protecting the integrity of state financial resources and creating financially attractive employment packages for employees of the University of Hawaii and the Department of Education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 659 Ways and Means on S.B. No. 1011

The purpose of this bill is to clarify the operation and funding of the State Foundation on Culture and the Arts.

Specifically, this measure defines the State Foundation on Culture and the Arts Commission as the policy-making body as distinguished from the executive director of the State Foundation on Culture and the Arts.

Additionally, this bill requires each agency receiving capital improvement appropriations to calculate and transfer one per cent of those funds into the works of art special fund. The Comptroller is required to provide each agency with the information needed for the calculations and to ensure that the transfers are made correctly and in a timely manner.

Your Committee finds that these clarifications within the State Foundation on Culture and the Arts law will provide for more effective administration of funds allocated for the needs and purposes of their programs.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1011 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 660 Ways and Means on S.B. No. 1154

In 1993, the Hawaii State Public Library System began an experimental program of designating and charging certain user fees for enhanced services offered by public libraries. Revenues from these user fees are then deposited into the Library Fee for Enhanced Services Special Fund, allocated among public libraries, and used to support the enhanced services offered.

The revenues garnered from the Library Enhanced Services Program have helped to supplement the funding needs of the library system, and, given the continued financial hardships faced by the State, are an innovative and necessary initiative.

The purpose of this measure is to continue the Library Enhanced Services Program by extending it from July 1, 1999, to July 1, 2002.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1154 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 661 Ways and Means on S.B. No. 1181

The purpose of this bill is to clarify that the University of Hawaii may seek legal counsel from the Attorney General.

Your Committee finds that part of the increased fiscal and managerial autonomy granted to the University of Hawaii under Act 115, Session Laws of Hawaii 1998, included the authority of the university to retain its own independent attorneys. Your Committee finds that it had never been the intent of the Legislature to accordingly preclude the university from receiving legal services from the Department of the Attorney General.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1181, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1181, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 662 Ways and Means on S.B. No. 1156

The purpose of this bill is to allow the Board of Education to impose a cost-recovery fee of not more than \$10 as a result of any action taken to enforce the collection of costs of lost books and any overdue fines and fees charged to a library patron.

Specifically, this bill:

- (1) Requires a library patron to be mailed written notice demanding payment and advising that continued failure to pay the amount due may result in collection action being taken;
- (2) Allows cost-recovery fees to include collection agency fees, attorneys' fees, court filing fees, and similar fees incurred by the Hawaii state public library system in connection with a collection action;
- (3) Allows the Board to impose cost-recovery fees on amounts due for:
 - (A) Library-sponsored seminars or workshops, including educational materials in various media format; and
 - (B) Research and reference materials published on magnetic media, CD-ROM, or other machine-readable form;
- (3) Requires the Board to prescribe procedures relating to the charging and waiving of fees; the designation of things for which fees may be charged; the amount of fees that may be assessed and charged; the accumulated amount of lost library material costs, fines, or fees; the period of time that lost library materials costs, fines, or fees must remain unpaid before they are referred to a collection agency; and the notification of persons with delinquent accounts of the additional fees to be charged by a collection agency;
- (4) Allows the State Librarian to waive any fee, including a cost-recovery fee, imposed by the Hawaii state public library system in cases of hardship; and
- (5) Requires a cost-recovery fee, upon its collection, to be deposited into the libraries special fund and to be expended as prescribed by law.

Your Committee has amended this bill by making a technical nonsubstantive change for purposes of style.

Your Committee urges the Board of Education to clarify in future testimony whether the cost-recovery fees authorized by this bill will be imposed in relation to the accessing of magnetic media, CD-ROM, and other machine-readable research and reference materials or in relation to the sale of these materials, or both.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1156, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1156, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 663 Ways and Means on S.B. No. 1184

The purpose of this bill is to authorize the University of Hawaii to transact financing agreements for principal amounts not exceeding \$3,000,000 without approvals by the Director of Finance and the Attorney General.

Your Committee finds that this measure supplements other recent reforms that increased the fiscal and managerial autonomy of the university. Furthermore, your Committee finds that the ceiling amount placed on the agreements will allow the university to secure equipment, goods, and services in a timely manner, with little risk of negative impact to the State's financial reserves.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1184, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1184, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 664 Ways and Means on S.B. No. 1238

The purpose of this measure is to transfer to the Department of Commerce and Consumer Affairs the responsibility for the licensing and regulation of trade schools for barbering and massage.

Currently, the Department of Education has jurisdiction over the licensing and regulation of private trade, vocational, or technical schools, subject to certain exceptions. This measure proposes to establish responsibility for the licensing and regulation of schools for barbering and massage with the respective profession's licensing body within the Department of Commerce and Consumer Affairs.

Your Committee has amended this measure by:

- (1) Amending the definition of "student" in section 438-1 and sections 438-2(c) and 438-7(b), to conform to the definition of "barbering school" added by section 4 of this measure;
- (2) Amending the definition of "massage therapist student" in section 452-1 and sections 452-2(b), 452-4(c), and 452-13(a), to conform to the definition of "massage therapy school" added by section 5 of this measure; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1238, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1238, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 665 Ways and Means on S.B. No. 1251

The purpose of this measure is to set aside interest earned on funds in the Educational Facilities Improvement Special Fund to be used solely for education technology and to give the Legislature sole authority to authorize projects.

Currently, interest earnings of the Educational Facilities Improvement Special Fund are returned to the general fund. This measure would instead give the Department of Education additional funds for use in needed improvements to the public schools telecommunications infrastructure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1251 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 666 Ways and Means on S.B. No. 1276

The purpose of this bill is to allow the Board of Education to set the salary of the Superintendent of Education for five years; effective July 1, 2004, the superintendent's salary shall be set by the Legislature.

Your Committee finds that allowing the Board of Education to set the Superintendent of Education's salary will increase the likelihood that the Board will be able to competitively recruit and retain highly qualified individuals for the Superintendent position.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1276, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 667 Ways and Means on S.B. No. 1299

The purpose of this bill is to repeal the requirement that the University of Hawaii issue quarterly and annual reports to the Legislature and Governor concerning transfers of positions and appropriated funds.

Your Committee finds that the requirement is inconsistent with recent legislative policy to grant the university increased fiscal and managerial autonomy and flexibility. Your Committee further finds that this reporting requirement is especially onerous because no other executive department is held to such a requirement.

Your Committee has amended this measure to make the underlying text of the underlying statutes consistent with the printed version of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1299, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1299, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 668 **Ways and Means on S.B. No. 1641**

The purpose of this bill is to require the State Librarian to include more detailed information of the status of the libraries special fund and the library fee for enhanced services special fund in the State Librarian's annual report to the Legislature.

Your Committee finds that requiring greater detail from the State Librarian about these funds and how moneys are allocated and spent will give the Legislature closer oversight over these special funds. This function is important as the State continues to make every penny count in the current tight economy.

Your Committee amended this bill by deleting the paragraph (7) being added to the reporting requirements for each fund, which asked for information about the expenditure allotment by individual libraries. Your Committee finds that this information is already required by paragraphs (2) and (6) of each of the respective sections.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1641, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1641, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 669 **Ways and Means on S.B. No. 119**

The purpose of this bill is to allow school-level minor repairs and maintenance accounts to be used for minor improvements, to increase the amount of these accounts to \$20,000 per school, and to allow principals to hire the Department of Accounting and General Services to perform these minor repairs, maintenance, and improvements.

In addition, this bill:

- (1) Changes the name of school-level minor repairs and maintenance accounts to "school-level minor repairs, maintenance, and improvements accounts";
- (2) Prevents unencumbered funds in these accounts from lapsing into the general fund at the close of each fiscal year;
- (3) Exempts expenditures from these accounts from the Hawaii Public Procurement Code (chapter 103D, Hawaii Revised Statutes); and
- (4) Requires the Department of Accounting and General Services to submit a report of expenditures made by the schools and the Department of Accounting and General Services to the Legislature, by departmental school district.

Your Committee has amended this bill by:

- (1) Exempting the funds in school-level minor repairs, maintenance, and improvement accounts from the law relating to the lapsing of unexpended appropriations (section 40-66, Hawaii Revised Statutes);
- (2) Preventing encumbered but unexpended funds in these accounts from lapsing into the general fund at the close of each fiscal year;
- (3) Exempting transfers from these accounts to the Department of Accounting and General Services from the Hawaii Public Procurement Code;
- (4) Requiring transfers from these accounts to the Department of Accounting and General Services to be reported to the Legislature; and
- (5) Making a technical nonsubstantive change for purposes of consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 119, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 119, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Nakata, Taniguchi, Anderson).

SCRep. 670 **Ways and Means on S.B. No. 717**

The purpose of this bill is to authorize special purpose revenue bonds for the North Hawaii Community Hospital.

Your Committee finds that this bill will facilitate refinancing North Hawaii Community Hospital's long-term debt at substantially lower interest rates. This refinancing shifts cash from bank payments back to expenditures in the community by as much as \$500,000 per year.

Your Committee, however, wishes to note that the use of bond funds for equipment purchases is questionable (page 1, line 15 and page 2, lines 2-3). The Department of Budget and Finance should be consulted to verify the appropriateness of such use of bond funds. Your Committee wishes to pass along this measure for the purpose of promoting further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 717 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 671 Ways and Means on S.B. No. 836

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Kuakini Medical Center.

Your Committee believes that the Kuakini Medical Center is deserving of assistance in financing or refinancing the costs of construction of, improvements to, and equipment for its health care facilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 836, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 672 Ways and Means on S.B. No. 1006

The purpose of this bill is to provide for the regulation of "privately-operated group living facilities", or private residences used for the purpose of providing health services or human services, by the Departments of Health and Human Services.

In addition, this bill:

- (1) Requires the Director of Health and the Director of Human Services to determine which types of privately-operated group living facilities are to be within their respective jurisdictions; and
- (2) Requires the Directors of Health and Human Services to submit a report to the Legislature on their determinations as to the types of privately-operated group living facilities to be within their respective jurisdictions prior to the Regular Session of 2000.

Your Committee finds that this measure will provide for the regulation of domestic abuse shelters, halfway houses, and other private residences used for the purpose of providing health services or human services. Your Committee finds that community acceptance of privately-operated group living facilities is low because of the increased human activity at these facilities, with people coming and going all day. Communities are also concerned about neighborhood safety and the potential for increased substance abuse and violence in the vicinity of these group living facilities. Your Committee believes that the State has a responsibility to adopt appropriate administrative rules to govern the operation of privately-operated group living facilities in order to alleviate community concerns about, and increase community acceptance of, these facilities.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1006, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 673 Ways and Means on S.B. No. 1036

The purpose of this bill is to create a Disability and Communication Access Board.

Your Committee finds that statutory provisions regarding persons with disabilities including provisions on architectural access, windshield placards for disabled drivers, communication with the hearing impaired, deaf, or blind and their corresponding civil rights, are scattered in various parts of the law, and administered by different agencies. This bill consolidates several agencies previously working separately on services for the disabled and streamlines the coordination of all compliance efforts by bringing these considerations under the purview of a single Disability and Communication Access Board. Your Committee finds that this is a more efficient method of dealing with the issues affecting the disabled.

Your Committee has amended this bill by making technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1036, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1036, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 674 Ways and Means on S.B. No. 1058

The purpose of this administration bill is to allow the Department of Human Services to subrogate against a third-party recovery on any claim brought by an injured person who receives medical assistance.

Your Committee finds that medical assistance recipients who receive a third-party recovery should repay the State the amount of the costs of their medical treatment resulting from an accident. This measure creates a right of subrogation for the Department of Human Services for that purpose.

Upon further consideration, your Committee has made technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1058, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 675 Ways and Means on S.B. No. 1608

The purpose of this bill is to authorize the issuance of special purpose revenue bonds to fund the establishment of health care facilities in the State by not-for-profit corporations.

This measure specifically authorizes the issuance of special purpose revenue bonds to five different entities to establish various health care facilities as follows:

- Part I \$5,000,000 for the Pacific Women's Center, Inc.;
- Part II \$500,000 for the Pacific Saging Center, Inc.;
- Part III \$20,000,000 for the Pacific Sports Medicine & Research Inc.;
- Part IV \$15,000,000 for the Pacific Cardiac Institute, Inc.; and
- Part V \$5,000,000 for the Pacific Wellness Center;

The authorization for these special purpose revenue bonds lapses on June 30, 2001.

Your Committee finds that it is essential to the health and well being of the State to have quality and affordable health care. These special purpose revenue bonds will assist in the financing of projects towards that purpose.

Your Committee has made technical nonsubstantive amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1608, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1608, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, M., Nakata, Anderson).

SCRep. 676 Ways and Means on S.B. No. 223

The purpose of this bill is to require the Director of Public Safety to establish a canine corps in the Department of Public Safety.

In addition, the bill appropriates funds for establishing and maintaining the canine corps.

The use of canine units by corrections authorities presents a possible solution to the problem of the availability of illegal drugs in state correctional facilities. For example, dogs can be used to screen supplies, vehicles, prisoners, and prison personnel entering or exiting a prison. Dogs can also be used to locate trespassers on prison property. Although canine units are to be assigned to correctional facilities and duties as determined by the Director of Public Safety, the animals in the corps need not be used solely for corrections-related purposes.

Your Committee has amended this bill by making technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 223, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 223, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 677 Ways and Means on S.B. No. 900

The purpose of this bill is to establish a uniform fee of \$100 for all probate actions involving a decedent's estate.

Specifically, this measure eliminates all fees except the one-time only fee for probate, administration, or ancillary administration. Furthermore, this bill adds domiciliary foreign personal representative to the items covered under the one-time only fee.

Your Committee finds that simplification of the fee structure for probate actions involving a decedent's estate will promote efficiency within the Judiciary.

Your Committee has amended this measure by making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 900, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 900, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 678 Ways and Means on S.B. No. 1159

The purpose of this bill is to maintain support for the crime victim compensation commission until July 1, 2001.

The bill also repeals the thirty per cent limit on the amount of moneys received that may be used for operating expenses and to fund positions.

Your Committee finds that although the crime victim compensation commission is working toward self-sufficiency based upon compensation fees collected from offenders, the commission requires additional time to build its revenues before it will become operationally self-sufficient.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1159, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 679 Ways and Means on S.B. No. 207

The purpose of this measure is to establish a board of certification special fund into which various fees collected pursuant to the activities of the Board of Certification of Operating Personnel in Wastewater Treatment Facilities (Board) will be deposited.

Your Committee finds that, since fiscal year 1996, the Board's budget has been \$5,198, which is insufficient to implement the mandatory certification program for wastewater treatment operators. Your Committee also finds that the Board can adequately operate on a budget of \$10,000 and currently, the Board generates approximately \$11,000 annually from registration and certification fees. Thus, the entire operational costs of the Board could be financed by the revenues generated within the program.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 207 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 6 (Ige, D., Ige, M., Iwase, Kawamoto, Nakata, Anderson).

SCRep. 680 Ways and Means on S.B. No. 1150

The purpose of this bill is to raise the civil penalties for boiler and elevator safety law violations from \$1,000 to \$10,000.

Furthermore, this bill clarifies that amusement rides are subject to the boiler and elevator safety law, and that the boiler and elevator safety revolving fund must still share in central services expenses after June 30, 2000.

Your Committee finds that a higher penalty is necessary to deter safety violations concerning boilers, elevators, and kindred equipment such as amusement rides.

Your Committee has amended this measure by making further technical, nonsubstantive, and clarifying amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1150, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 681 Ways and Means on S.B. No. 1152

The purpose of this bill is to authorize the Director of Labor and Industrial Relations to expend funds from the occupational safety and health training and assistance fund for safety and health certification programs.

This measure also extends the life of the special fund for four years to July 1, 2003.

Your Committee finds that the success of the fund in reducing the frequency of workplace injuries merits a continuation of the fund in order to maintain and encourage workplace safety. Furthermore, your Committee finds that departmental certification programs related to workplace safety training may be appropriately funded by the special fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1152 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 682 Ways and Means on S.B. No. 1153

The purpose of this bill is to exempt grants and subsidies given through the employment and training fund from chapter 103F, as well as chapter 42F, Hawaii Revised Statutes.

Your Committee finds that this measure is necessary to enable the Department of Labor and Industrial Relations to solicit proposals in a timely and continuous manner without impediment from the procurement process requirements.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1153 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 683 Ways and Means on S.B. No. 1131

The purpose of this bill is increase mandatory insurer contributions to the Insurance Examiners Revolving Fund and to remove the sunset date applicable to the fund, thereby making it permanent.

This measure increases from \$550 to \$800 the amount each authorized insurer must contribute to the Insurance Examiner's Revolving Fund. These funds allow the Insurance Division of the Department of Commerce and Consumer Affairs to conduct examinations within the industry. The increase in contributions will allow the Insurance Division to meet added expenses and become more self-supporting and less dependent on general funds.

This bill also repeals the sunset date for the fund and certain accreditation requirements by the National Association of Insurance Commissioners.

Your Committee has amended the effective date to June 29, 1999, to deactivate the transfer of funds from the Insurance Examiners Revolving Fund to the general fund and made other technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1131, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1131, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, M., Kawamoto, Nakata, Anderson).

SCRep. 684 Ways and Means on S.B. No. 1140

The purpose of this bill is to clarify and update the business registration laws and simplify the business registration process.

Specifically, this measure amends registration laws relating to for-profit corporations, non-profit corporations, professional corporations, partnerships, limited partnerships, and limited liability companies.

Furthermore, this bill amends requirements relating to the residency of a corporate director, the time period for reinstating a dissolved corporation or a canceled partnership, and filings of the articles of incorporation.

Your Committee agrees that this measure will promote Hawaii as a favorable place to form businesses, and has made some technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1140, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 685 Ways and Means on S.B. No. 1279

The purpose of this measure is to ensure the viability of universal telecommunications service in the State by precluding the use of moneys in the Universal Service Fund for purposes other than those related to the provision of universal telecommunications service.

This measure establishes the fund as a special fund outside the state treasury, and exempts the fund from administrative surcharges.

In addition, this measure authorizes the Public Utilities Commission to temporarily borrow funds from the Public Utilities Commission Special Fund to start the Universal Service Fund and to repay the amounts borrowed when sufficient moneys are collected in the fund.

Finally, this measure appropriates \$300,000, from the Public Utilities Commission Special Fund for fiscal year 1999-2000, to carry out the purposes of the Universal Service Program.

Your Committee has amended this measure by:

- (1) Deleting the provision setting the fund outside the state treasury;
- (2) Changing the sources of contributions to the fund to provide greater flexibility for funding; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1279, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1279, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 686 Ways and Means on S.B. No. 1294

The purpose of this bill is to require that eligible employee-beneficiaries of the Public Employees' Health Fund and their spouses enroll in the federal Medicare Part B medical insurance plan, with exceptions to the requirement to be determined by the Board of Trustees.

Your Committee finds that mandating enrollment by eligible employee-beneficiaries of the Public Employees' Health Fund and their spouses in the federal Medicare Part B medical insurance plan will result in reduced costs to the Public Employees' Health Fund as well as to public employers.

The Committee has amended this bill by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1294, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1294, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 687 Ways and Means on S.B. No. 32

The purpose of this measure is to conform the state income tax statutes to the federal Internal Revenue Code exclusions for foreign earned income.

This measure limits the exclusion to \$72,000 in 1998, with an additional \$2,000 exclusion annually until 2002 as provided in section 911 of the Internal Revenue Code. In 2002 and thereafter the exclusion is \$80,000. The measure also authorizes the same exclusion for income earned out-of-state on the mainland as well as elsewhere in the world.

Testimony in support of this measure was received from an individual and the Tax Foundation offered comments on the measure.

The Director of Taxation does not oppose the enactment of this measure. In consideration of this measure, the Director offered the following comments:

- (1) The foreign earned income exclusion reduces the cost of sending employees abroad, which may improve Hawaii's attractiveness to U.S. businesses choosing to relocate to Hawaii; and
- (2) The foreign earned income exclusion may encourage Hawaii residents to expand their business abroad.

Upon careful consideration of the issue, your Committee finds that providing for a foreign earned income exclusion provides relief to Hawaii residents who wish to maintain Hawaii as their domicile while living outside the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

SCRep. 688 Ways and Means on S.B. No. 44

The purpose of this measure is to exempt exported services from the general excise tax and to subject imported services to the use tax.

Testimony in support of the intent of this measure was submitted by the Department of Business, Economic Development, and Tourism, Department of Taxation, American Institute of Architects-Hawaii State Council, and Hawaii Association of Realtors. The Tax Foundation of Hawaii submitted comments on the measure.

Your Committee finds that Hawaii's economy needs assistance from its tax system. Currently, unlike other states with a sales tax, Hawaii taxes the exportation of services but does not tax the importation of services. In addition, Hawaii's tax system does not treat goods and services in this area the same. In 1987, Hawaii exempted exported goods from the general excise tax in order to level the playing field between Hawaii and other states. This is the year to level the playing field for services.

Hawaii already taxes imported goods and your Committee believes that imported services should be treated in the same manner. By making this change in taxation, Hawaii will encourage the exportation of services and these services will be given the same treatment that other states give to their exported services.

In 1989, Professor William F. Fox prepared a report entitled "Defining the General Excise Tax Base: Exemptions and Pyramiding" for the 1989 Tax Review Commission. In that report, he noted that Hawaii was a net importer of services. Although there are no more recent estimates, based on 1985 data, he estimated that Hawaii imported \$920.2 million in services and exported \$760.7 million. This leads your Committee to believe that the current projections of no revenue loss as a result of this measure are probably accurate.

Your Committee believes that this change in Hawaii's tax system will benefit the economy and remove a disincentive for many who may wish to locate in Hawaii.

Your Committee has amended the measure by deleting the purpose section and using some of the language concerning imports from Senate Bill No. 1172, the administration measure on this subject. The language from Senate Bill No. 1172 has been reviewed and updated by the Department of Taxation and practitioners in the field of taxation to produce what your Committee feels is a viable measure. In addition, your Committee has added a new subsection to the new section added to chapter 237, Hawaii Revised Statutes, to provide that services and contracting sold to a purchaser for resale, consumption, or use outside the State are exempt. This provision is necessary to prevent the pyramiding of the general excise tax on sales finally made outside the State.

This measure retains the exemption from taxation for services imported into Hawaii for the purpose of bundling and re-export. This exemption will allow Hawaii to be a staging area in which to gather together a number of services to be exported to Asia and elsewhere without being taxed. Thus, services will be treated in the same manner as goods that are only in Hawaii for a limited period of time until they are re-exported. If we do not provide for this important function, other states will act as staging areas and Hawaii will be bypassed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 44, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 44, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Ige, M., Taniguchi).

SCRep. 689 Ways and Means on S.B. No. 1245

The purpose of this measure to allow a state income tax deduction for one-hundred percent of business meals and entertainment expenses and club dues.

Testimony in support of this measure was received from Outrigger Hotels and Resorts, Legislative Information Services of Hawaii, Bernard's New York Deli, Inc., and the National Federation of Independent Business. The Tax Foundation of Hawaii submitted testimony commenting on the measure. The Director of Taxation submitted testimony in opposition to this measure.

Your Committee finds that this measure will provide an incentive for businesses to expend more money entertaining their clients thereby increasing economic activity and creating more business and employment opportunities. The Hawaii businesses in the restaurant and food service industries will especially benefit from this measure because additional revenues generated by increased entertainment and dining spending will be available for employee and improvement expenditures.

Your Committee has amended this measure by making technical, nonsubstantive measures for purposes of clarity and preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1245, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1245, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

SCRep. 690 Transportation and Intergovernmental Affairs on S.B. No. 1430

The purpose of this measure is to require children under the age of twelve to wear a helmet while operating a motor scooter, moped, mini-bike, all terrain vehicle, skateboard, inline skates, roller skates, toy bicycle, tricycle, bicycle, unicycle, or other wheeled apparatus on a public street or other public property.

Testimony in support of this measure was received from the Department of Transportation, Hawaii State Department of Health, Hawaii Bicycling League, Keiki Injury Prevention Coalition, and one individual.

Your Committee finds that wearing a safety helmet is the single most effective method of preventing death and reducing the severity of non-fatal head injuries in bicycle collisions. Requiring minors under the age of twelve to use a helmet during other recreational activities that involve wheeled apparatuses will reduce the severity and likelihood of head injuries during a collision.

Your Committee has amended this measure by:

- (1) Replacing the reference to the highway safety coordinator with the correct reference to the director of transportation;
- (2) Deleting motor scooters, mopeds, tricycles, and toy bicycles from the definition of "wheeled apparatus";
- (3) Replacing the current penalty provisions that fine parents or guardians of a child who violate the helmet requirement \$200 for the first violation, \$300 for the second violation, and \$500 for subsequent violations with provisions that serve the parents with written warnings for the first and second violations and imposes a \$50 fine per violation thereafter; and
- (4) Making technical, nonsubstantive changes for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Transportation and Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1430, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1430, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Iwase, Taniguchi).

SCRep. 691 (Joint) Labor and Environment and Judiciary on S.B. No. 635

The purpose of this measure is to provide for the use of substance abuse on-site screening tests (i.e., portable substance abuse tests) that meet the United States Food and Drug Administration requirements for distribution.

Oral testimony supporting this measure was presented by a representative of Hoffman LaRoche Pharmaceuticals. The Department of Health (DOH) testified in support of the intent of this measure. Testimony in opposition to this measure was received from the ILWU Local 142.

Your Committees find that substance abuse on-site testing provide the same protection of individual rights as those afforded where the substance abuse testing occurs at a state-licensed laboratory. In particular, the following must be clearly articulated:

- (1) Assurances of confidentiality;
- (2) Chain of custody procedures; and
- (3) Protocols to insure proper administering of the test.

In addition, your Committees find that these tests should be used for pre-employment purposes only which would decrease the cost to an employer who screens an individual after a job offer has been made and prior to start of employment.

Your Committees have amended this measure by deleting section 3 of the bill and rewriting section 1 of the measure in its entirety as follows:

- (1) Use of substance abuse on-site testing is allowed for pre-employment purposes only and must adhere to guidelines adopted by the U.S. Food and Drug Administration and approved by the Director of Health;
- (2) Tests shall be conducted under sanitary conditions that respect the privacy and dignity of the individual being tested and that use procedures that preclude misidentification of samples;
- (3) Chain of custody procedures as defined by DOH shall be followed and if the test result is positive a chain of custody form, developed by the operator pursuant to DOH rules, shall be used;
- (4) Test results are confidential and shall not be released without prior written consent of the individual being tested; and
- (5) If a test result is positive then the sample must be submitted to a licensed laboratory for a confirmatory test.

Your Committees also amended the definition of substance abuse on-site testing to clarify that the portable test meets the requirements of the U.S. Food and Drug Administration and is approved by the Director of Health.

As affirmed by the records of votes of the members of your Committees on Labor and Environment and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 635, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 635, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Ige, M., Kanno, Sakamoto, Tanaka, Anderson).

SCRep. 692**Commerce and Consumer Protection on S.B. No. 779**

The purpose of this measure is to establish educational requirements for the administration of local anesthesia by dental hygienists, establish documentation required for dental board certification of a hygienist to administer anesthesia, and to allow the Board of Dental Examiners to adopt rules for educational requirements for anesthesia.

The Department of Commerce and Consumer Affairs, the Board of Dental Examiners, and the Hawaii Dental Hygienists' Association presented testimony in support of the measure. The Dental Association and eight individuals, though not present at the hearing, submitted written testimony in support of the measure.

Two individuals presented testimony in opposition to the measure. Sixty-seven individuals, though not present at the hearing, submitted written testimony in opposition to the measure. An individual not present at the hearing submitted comments on the measure.

Your Committee finds that this measure establishes strict educational requirements for dental hygienists seeking certification to administer intra-oral block anesthesia. In addition to specific courses of instruction, the educational requirements include successful passage of an examination, a minimum of thirty-nine hours of clinical experience, and a minimum of fifty successful injections.

The anesthesia educational requirements are over and above the educational requirements that must be met by an applicant seeking registration as a dental hygienist in this State. A prerequisite to registration is proof of graduation from an accredited two-year dental hygiene program. An accredited program includes over two thousand hours of college-level classroom study, six hundred of which are dedicated to supervised clinical dental hygiene instruction, and four hundred of which are classroom study hours in the basic sciences, including microbiology, chemistry, pathology, anatomy, physiology, pharmacology, and nutrition.

Your Committee finds that the additional education and certification requirements established in this measure will help to ensure that the administration of anesthesia is undertaken only by licensed dental hygienists who are properly trained and who have demonstrated their competence.

Your Committee has amended this measure by:

- (1) Clarifying that the educational requirements established in the measure pertain to an applicant seeking certification to administer intra-oral block anesthesia;
- (3) Making the categories of study required of an applicant seeking certification to administer intra-oral block anesthesia mandatory;
- (4) Allowing the Board of Dental Examiners to adopt administrative rules relating to the education and certification of licensed dental hygienists to administer intra-oral block anesthesia that, upon their adoption, will supersede the pertinent statutory provisions;
- (5) Deleting new language relating to proof of an applicant's certification in the administration of intra-oral infiltration local anesthesia and intra-oral block anesthesia that would have affected the present practice of the Board of Dental Examiners to approve applicants for the licensure examination; and
- (6) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 779, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 779, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 693 Commerce and Consumer Protection on S.B. No. 1517

The purpose of this measure is to allow acupuncture practitioners to sit for the licensing examination if they have graduated from a school that is in the process of applying for candidacy for accreditation.

The Board of Acupuncture, the Institute of Clinical Acupuncture and Oriental Medicine, and three individuals presented testimony in support of this measure. Hawaii College of Health Sciences, Inc., and the Oriental Medical Institute of Hawaii, while not present, submitted written testimony in support. Tai Hsuan Foundation and one individual testified in opposition. Three individuals, while not present, submitted written testimony in opposition.

Your Committee finds that three acupuncture schools in the State are having difficulty meeting the deadline to achieve candidacy status by September 1, 2000. This is due in part to the fact that the National Accreditation Commission for Schools and Colleges of Acupuncture and Oriental Medicine meets only twice a year to review applications, as well as to lengthy deadlines set by the Commission for the initial review.

Your Committee has amended this measure to extend to July 1, 2001, the date acupuncture schools have to achieve accreditation or candidacy for accreditation, and to delete the new language that would have included an acupuncture school in the process of applying for candidacy for accreditation.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1517, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1517, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 694 Ways and Means on S.B. No. 33

The purpose of this bill is to create a long-term supplemental funding source for endangered species recovery and management and for youth conservation programs through the voluntary sale of conservation license plates and grants and private contributions.

Your Committee finds that, in order to ensure the long-term survival of Hawaii's rare plants and animals, the State must not only increase its current recovery and management efforts, it must also educate and involve a new generation of natural resource managers, Hawaii's youth, to become aware and participate in these efforts.

During Hawaii's current economic downturn, government must find ways to fund programs such as endangered species recovery and management, and youth conservation programs, in ways that do not impact the general funds of the State. Your Committee supports this measure which provides and sets aside an alternative funding source for these programs through the voluntary sale of conservation license plates and grants and private contributions which may be designated for that purpose.

You Committee has amended this bill by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 33, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 33, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 695 Ways and Means on S.B. No. 43

The purpose of this bill is to increase the membership of the Board of Regents of the University of Hawaii from twelve to fifteen members in order to include at least three nationally or internationally prominent nonresidents.

Furthermore, this measure specifies that the nonresident members will be ex-officio nonvoting members.

Your Committee finds that nonresident board members will be instrumental to the university's efforts to someday becoming a respectable world class university and a focal point of the Pacific Rim. Your Committee believes that the nonresident board members will bring innovative perspectives on fundraising and economic development techniques to expand the current capabilities of the university, and that these benefits will more than offset any additional transportation and other expenses entailed by having nonresident members serving on the Board.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 43, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 696 Ways and Means on S.B. No. 285

The purpose of this bill is to clarify the powers of the boards of directors of associations of apartment owners to enter into purchase agreements with lessors in order to facilitate and encourage voluntary lease-to-fee conversions of condominium projects.

This bill requires that bylaws provide that an association of apartment owners may purchase the lessor's interest in the condominium project, provided that the declaration of condominium property regime either contain or be amended to include a provision authorizing the board of directors to effectuate such a purchase; and that if the association of apartment owners purchases the lessor's interest, certain specified powers shall be conferred upon the association of apartment owners, including the power to purchase or otherwise acquire, own, improve, use, and otherwise deal in and with the leased fee interest to the land or any or all undivided interests therein.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 285, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 697 Ways and Means on S.B. No. 604

The purpose of this bill is to allow the Administrator of the Narcotics Enforcement Division of the Department of Public Safety to share information from the electronic prescription accountability system with "dispensers", or practitioners who dispense controlled substances, when the information relates to the dispenser's own patients.

In addition, this bill:

- (1) Appears to allow the disclosure of investigative information from the electronic prescription accountability system for criminal investigations and prosecutions outside the respective jurisdictions of law enforcement officers and law enforcement agencies; and
- (2) Appropriates funds to the Department of Public Safety for a data processing systems analyst IV position and other current expenses in relation to the sharing of information from the electronic prescription accountability system with dispensers.

Your Committee finds that "dispensers", or practitioners who dispense controlled substances, are the State's first and most effective line of defense in the ongoing battle against prescription drug abuse and the illegal dispensing of controlled substances.

Your Committee has amended this bill by:

- (1) Limiting the disclosure of investigative information from the electronic prescription accountability system to criminal investigations and prosecutions within the respective jurisdictions of law enforcement officers and law enforcement agencies;
- (2) Deleting the appropriation to the Department of Public Safety for the data processing systems analyst IV position and other current expenses; and
- (3) Making technical nonsubstantive changes for purposes of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 604, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 604, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 698 Ways and Means on S.B. No. 931

The purpose of this bill is to repeal the present version of Hawaii's electronic surveillance law in favor of a more comprehensive model patterned after the federal wiretap and electronic surveillance law.

Your Committee finds that wiretaps and electronic surveillance provide effective tools in law enforcement efforts to curtail violent crimes, organized crime, drug dealing, and illegal gambling. Your Committee further finds that there is no substitute for the quality and quantity of information and evidence that can be obtained through a wiretap or other electronic surveillance. Moreover, your Committee notes that the new statute proposed in this bill imposes many strenuous requirements and safeguards to ensure proper use by law enforcement agencies of this investigative tool.

Your Committee has amended this bill to correct an internal cross reference by changing the reference on page 56, line 21, from "subsection (1)(a)" to "subsection (1)".

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 931, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 931, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 699 Ways and Means on S.B. No. 1070

The purpose of this bill is to expand the availability of housing to low-income families and individuals in the State.

This bill clarifies the definition of "qualified resident" to ensure that housing assistance reaches its intended beneficiaries, amends and expands the definition of "housing owner" to include "very low" income applicants, and amends the definition of "qualified tenant" to conform to fair housing requirements. The bill also lowers the income limits and expands the first priority eligibility for participation in the state rent supplement program.

Your Committee has amended the bill by conforming its statutory provisions to the printed version of the Hawaii Revised Statutes, and by making other technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1070, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1070, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Nakata, Taniguchi, Anderson).

SCRep. 700 Ways and Means on S.B. No. 1250

The purpose of this bill is to allow the use of tour buses solely for the transportation of student groups, other than school athletes, to and from school related events or activities.

Your Committee finds that schools should be allowed to use tour buses to transport students to attend school events as a group, and in a safe manner.

Your Committee intends that the Department of Education have broad discretion to use a wide variety of tour bus vehicles, including vans.

Your Committee amended this bill by making technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1250, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1250, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 701 Ways and Means on S.B. No. 1256

The purpose of this bill is to provide an appropriation to match federal funds for an interisland ferry system between Maui and Molokai.

Your Committee finds that inasmuch as a ferry system would add greatly to the transportation services of the Maui and Molokai communities, a prudent appropriation of funds can only be made after a thorough assessment of the State's finances is conducted. Therefore, your Committee has deleted the appropriation amount to allow for such assessment and to provide for further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1256, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1256, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 702 Ways and Means on S.B. No. 1431

The purpose of this bill is to establish a separate agricultural water supply and delivery system for the Upcountry region on Maui.

Your Committee finds that the Upcountry region on Maui is famous for its unique agricultural products such as the sweet and distinctive Maui onion, the colorfully beautiful protea, and the delicately sweet persimmon. The commercial success of these products, however, is dependent on the ability of Upcountry farmers to withstand long and severe droughts.

This bill addresses this problem by providing a separate agricultural water supply and delivery system to ensure the economic viability of the region's agricultural products.

Your Committee has amended the bill by deleting the appropriation amount in section 5 of the bill pending a thorough assessment of the state budget and to provide for further discussion on the bill.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1431, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1431, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 703 Ways and Means on S.B. No. 1465

The purpose of this bill is to authorize the State Post-Secondary Education Commission to establish a college tuition savings program for resident and non-resident students at any post-secondary educational institution accredited by an accrediting association recognized by the United States Secretary of Education.

This measure also exempts from state taxation the interests and dividends on the funds in the savings program and clarifies that the State and educational institutions are exempt from responsibility to cover any gaps between funds accumulated and the actual costs of future tuition.

Your Committee finds that investing in a college tuition savings program will assist persons in meeting the spiraling costs of a college education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1465, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 704 Ways and Means on S.B. No. 1481

The purpose of this bill is to appropriate funds for a grant-in-aid to Hawaii Island Veterans Memorial, Inc., for the acquisition of land for, and the planning, design, engineering, construction, and equipping of, phase I and phase II of the combined veterans center project on the island of Hawaii.

Your Committee finds that the combined veterans center project will provide counseling, readjustment, medical treatment through a community-based outpatient clinic, laboratory assistance, post-traumatic stress disorder consultation, recreational activities, and housing for homeless veterans. The goal of the project is to provide a permanent, safe, and centralized location for all of these activities.

The combined veterans center project will be built in three phases. Phase I will consist of a fourteen thousand four hundred square-foot combined veterans center that includes a seven thousand square-foot counseling, readjustment, and community-based outpatient clinic; a meeting hall; offices for the Hawaii county Office of Veterans Services; and a manager's office. Phase II will consist of an eight hundred sixty-four square-foot maintenance building/garage with additional parking and a recreational area, gateball courts, volleyball courts, tennis and basketball courts, and a picnic area. Phase III will consist of a fifty-unit veterans home.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1481, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 705 Ways and Means on S.B. No. 1496

The purpose of this bill is to authorize the issuance of special purpose revenue bonds for HEED, Inc., for the construction of a plasma waste conversion facility for the safe and proper disposal of medical waste.

Your Committee finds that the issue of appropriate disposal of medical waste is a serious one, and that the need for local facilities to perform this task is pressing. The facility will service hospitals, clinics, laboratories, and other health care providers throughout the State. Development of a local facility is appropriate and necessary.

Your Committee has amended the bill by specifying Molokai as the site of the proposed facility, and by making technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1496, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1496, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 706 Ways and Means on S.B. No. 1499

The purpose of this bill is to allow the State Committee of Blind Vendors to use moneys from the Randolph-Sheppard revolving account to hire private attorneys.

Specifically, beginning on July 1, 1999, the Department must identify the source of all moneys deposited in the revolving account that are derived from vending machine income on federal, state, and county properties. The State Committee of Blind Vendors may expend up to \$30,000 annually from the revolving account, as long as no federally-generated income is used for the purpose of hiring private attorneys. This bill requires the Director of Human Services to transfer, at the beginning of each fiscal year, \$30,000 from the Randolph-Sheppard revolving account to an interest-bearing account in the name of the State Committee of Blind Vendors, as long as no moneys are from federal sources. Finally, this bill requires the Department of Human Services to report annually to the Legislature on the activities and balance of the revolving fund.

This bill is intended to empower the State's blind vendors to assert and protect their rights under chapter 347, Hawaii Revised Statutes, relating to blind and visually handicapped persons, especially as it relates to retaining their newsstand concessions at the Honolulu International Airport.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1499, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, M., Nakata, Anderson).

SCRep. 707 Ways and Means on S.B. No. 1512

The purpose of this bill is to update the Uniform Partnership Act.

Your Committee finds that the State adopted the Uniform Partnership Act in 1972. In the twenty-seven years since its adoption, many changes have occurred in partnership law.

This bill replaces the current Uniform Partnership Act with an updated version that reflects modern business practices. The change will generally conform the State's partnership laws with other states and enhance the State's business climate.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1512, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Kawamoto, Nakata).

SCRep. 708 Commerce and Consumer Protection on S.B. No. 365

The purpose of this measure is to prohibit: (1) the sale of laser pointing devices (LPD) to minors, (2) the possession of LPD by minors, and (3) the sale of LPD without providing the buyer a printed warning regarding the improper usage of such devices.

The Department of the Prosecuting Attorney of the City and County of Honolulu and City and County of Honolulu Police Department presented testimony in support of this measure with proposed amendments. Although not present at the hearing, The Hawaii Ophthalmological Society submitted written testimony in support of the measure.

Your Committee finds that LPDs, which were designed to be used in commercial presentations, emit a laser beam which can cause temporary or even permanent vision impairment. LPDs also are similar to the laser sighting devices used with some firearms. LPDs have recently become more common and have been used to target persons and police officers. This use harasses the police, causes alarm, and creates the danger of lethal response.

Given the health and safety risks, your Committee finds that it is reasonable to place restrictions against the sale of LPDs and their possession by minors. It is also reasonable to require sellers to provide buyers of LPDs with a written warning explaining the dangers of their improper use.

Your Committee has amended this measure to:

- (1) Prohibit adults from using LPDs to harass or alarm other persons or animals;
- (2) Specify that the penalty for an adult found guilty of harassing a person or animal with an LPD is a fine of not more than \$1,000 and up to thirty days imprisonment; and
- (3) Specify that the penalty for:
 - (A) Selling LPDs to minors;
 - (B) Failing to disclose the dangers involved with the improper operation of an LPD; and
 - (C) Possession of an LPD by a minor;
 is a fine of not more than \$1,000.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 365, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 365, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 709 Commerce and Consumer Protection on S.B. No. 511

The purpose of this measure is to require insurers, mutual benefit societies, and health maintenance organizations to pay health care facilities directly regardless of their participatory status.

The Insurance Commissioner and the Hawaii Health Systems Corporation presented testimony in support of the measure. Two individuals, though not present at the hearing, submitted written testimony in support of the measure.

Kaiser Permanente, State Farm Insurance Companies, Queen's Health Management, Hawaii Medical Service Association, University Health Alliance, Physicians HealthHawaii, Inc., Kapi'olani HealthHawaii, and Legislative Information Service of Hawaii presented testimony in opposition to the measure. Hawaii Medical Group Management Association and the Chamber of Commerce of Hawaii, though not present at the hearing, submitted written testimony in opposition to the measure.

Your Committee finds that often when a health care facility and a health insurer cannot agree on a reimbursement amount, the insurer will send the reimbursement directly to the patient and leave it for the facility to recover the sum from the patient. When a patient is experiencing financial hardship, this practice typically results in a loss to the health care facility.

Although it is a burden on all health care facilities, this practice is even more burdensome on rural health care facilities which do not have the ability to shift losses like their larger urban counterparts. Additionally, because of their small size, rural health care facilities are disadvantaged in negotiating with health care insurers.

This measure would facilitate recovery of insured amounts by health care facilities. It does not require a health insurer to reimburse a nonparticipating facility at the same rate as a participating facility.

Your Committee has amended this measure by limiting its application to rural health care facilities.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 511, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 511, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 710 Commerce and Consumer Protection on S.B. No. 700

The purpose of this measure is to enact provisions regulating neighborhood electric vehicles.

The City and County of Honolulu's Department of Customer Services presented testimony in favor of the measure. The Electric Vehicle Association of Hawaii and three concerned citizens, although not present submitted written testimony in support of the measure. The Insurance Commissioner, although not present, submitted written comments on the measure.

Your Committee finds that neighborhood electric vehicles (NEV) may be a viable alternative to the use of cars within neighborhoods. The NEV has a maximum speed of twenty-five miles per hour with minimum noise and pollutant emissions and high energy efficiency. Your Committee also finds that establishment of a NEV and electric vehicle industry in the State would create high technology employment and business opportunities.

Your Committee has amended the measure by:

- (1) Adding language that requires these vehicles to conform with the minimum safety equipment requirements as adopted in the Federal Motor Vehicle Safety Standard No. 500, Low Speed Vehicles (49 C.F.R. 571.500); and
- (2) Making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 700, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 711 Commerce and Consumer Protection on S.B. No. 818

The purpose of this measure is to require health insurance coverage for annual mammogram screenings for women age forty and over.

The State Insurance Commissioner, the Department of Health, and the Hawaii State Commission on the Status of Women presented testimony in support of this measure. The American Cancer Society, while not present, submitted testimony in support. Kaiser Permanente presented testimony that did not oppose the measure.

Your Committee finds that currently state law requires health insurers to provide coverage for biennial screenings for women between the ages of forty and forty-nine. In contrast, the American Cancer Society (ACS) recommends that all women over forty receive annual screenings. Your Committee believes that, in accordance with ACS recommendations, women over the age of forty should have access to annual mammogram screenings to reduce the risk of cancer.

Your Committee has amended this measure to:

- (1) Delete baseline coverage for women thirty-five to thirty-nine; and
- (2) Delete the mandate that the commissioner review and make adjustments to age and frequency requirements; and
- (3) Make technical amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 818, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 818, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 712 Commerce and Consumer Protection on S.B. No. 822

The purpose of this measure is to require all health insurers, mutual benefit societies and health maintenance organizations to provide coverage for contraceptive services and supplies.

The Insurance Commissioner, the Department of Health, Hawaii State Commission on the Status of Women, Family Planning Centers of Hawaii, and several individuals presented testimony in support of this measure. Kaiser Permanente, Hawaii Family Forum, the Hawaii Catholic Conference and Brigham Young University-Hawaii presented testimony in opposition to the measure. Hawaii Medical Services Association presented comments and amendments to the measure.

Although not present at the hearing, Hawaii Women Lawyers, Healthy Mothers Healthy Babies Coalition of Hawaii, and the American Civil Liberties Union of Hawai'i submitted written testimony in support of the measure.

Your Committee finds that women of reproductive age spend 68% more than men in out-of-pocket health care costs, with contraceptive and reproductive services accounting for much of the difference. At the same time, women bear virtually all the physical risks and burdens associated with obtaining and using contraceptives as well as those associated with unplanned pregnancies.

Your Committee further finds that this measure would:

- (1) Reduce inequality between men and women in the provision of health insurance coverage and distribution of costs;
- (2) Remove burdens on the right to privacy by eliminating some of the undue barriers to reasonably priced contraceptives and services; and
- (3) Reduce the number of unplanned pregnancies, along with their attendant health risks and health care costs.

As a neutral, generally applicable law, aimed at achieving gender parity in health care coverage while protecting the private and personal decision to use contraceptives, your Committee finds that this measure does not infringe on an individual's religious freedom.

Your Committee has amended this measure by adding a new section that would exempt certain employers due to their religious values. Under this new section, an employer may request a health insurance plan which excludes coverage for contraceptive health care services that are contrary to the employer's religious tenets.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 822, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 822, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, none.

SCRep. 713 Commerce and Consumer Protection on S.B. No. 1234

The purpose of this measure is to require an insurer to provide an insured with independent counsel when a conflict of interest arises on a claim under an insurance policy.

The Consumer Lawyers of Hawaii presented testimony in support of this measure. One individual, while not present, submitted testimony in support. The Hawaii Insurers Council and State Farm Insurance companies testified in opposition. The State Insurance Commissioner presented comments on the measure.

Your Committee finds that this measure addresses the conflict of interest between an insurance company and its insured when the insurer contests coverage, yet provides a defense for the insured. A conflict of interest for the attorney may arise due to several factors, including the potential of the insurer to steer the underlying claim in a manner that will hurt the insured and benefit the insurer, or by providing an inadequate defense in order to save on expenses where the insurer believes that it will ultimately prevail.

Your Committee is concerned that while the law provides that the attorney hired and paid by the insurer would owe a duty of loyalty to the insured and not the insurer, that may be unrealistic, especially when the attorney receives a substantial portion of his or her work from insurance companies.

Your Committee has amended this measure to:

- (1) Include after "duty to defend" the phrase "and/or indemnify" in subsection (a) to reflect that most policies also include the duty to indemnify;
- (2) Delete the language in subsection (a) regarding the insurer's legal counsel determination of right to coverage, as it is the court that makes the coverage determination;
- (3) Add language in subsection (b) to clarify that independent legal counsel is selected by the insured;
- (4) Add language to the waiver statement in subsection (b) to clarify that independent counsel is paid by the insurer;
- (5) Replace the binding arbitration language in subsection (c) with language to require any disputes regarding fees to be submitted to the court in which the action was filed, or a court of competent jurisdiction if no action was filed;
- (6) Clarify in subsection (d)(1) that attorneys selected as independent counsel must have substantial experience in handling similar claims or cases;
- (7) Delete the language regarding privilege in subsection (e) to reflect that disclosure issues between independent counsel and the insurer are normally not over privileged material; and
- (8) Make technical, nonsubstantive amendments for clarity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1234, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1234, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 714 Commerce and Consumer Protection on S.B. No. 1371

The purpose of this measure is to subject motor vehicle repair dealers who are required to be registered to inspection for theft investigations.

Testimony in support of this measure was received from the Police Department of the City and County of Honolulu and one individual. Testimony in opposition to this measure was received from two individuals.

Your Committee finds that motor vehicle theft is a serious problem in Hawaii. This measure provides the police with an additional investigative tool to locate and recover stolen vehicles by authorizing the police to inspect any motor vehicle repair dealer required to be registered, whether the dealer is registered or not, for stolen vehicles. This measure will aid in the recovery of more stolen vehicles as well as deter motor vehicle theft and illegal "chop shop" activity by motor vehicle repair dealers.

Your Committee has amended this measure by changing the effective date of this measure from the date of approval to July 1, 2001.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1371, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1371, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Ihara).

SCRep. 715 Ways and Means on S.B. No. 47

The purpose of this measure is to reduce the taxation of activities in the health care industry.

The Healthcare Association of Hawaii submitted testimony in support of the measure. The Department of Taxation submitted testimony supporting efforts to ease the tax burden on the health care industry. The Tax Foundation of Hawaii submitted comments.

The health care industry is considered by some to be the third largest industry in Hawaii. Unlike other businesses, however, it is undergoing structural changes that expose it to the general excise tax where the tax was not previously paid. The old structure of a nonprofit hospital performing all health care and nonhealth care but related functions is no longer viable. Hospitals are spinning off nonhealth care functions such as bill collection. They are entering into partnerships and joint ventures with health plans and doctors. Health care plans are entering into agreements with health care providers.

Many of these changes in structure or reformations result in the imposition of the general excise tax on what may have been tax exempt income to a nonprofit operation. The imposition of the general excise tax on these reformations may have several results, none of them beneficial to the public. First, the reformation may go ahead resulting in the imposition of the general excise tax and increased health care costs to the public. Second, much time and research may be put in to avoid the general excise tax. This may result in a

less efficient formation and the higher costs of forming it. The public then pays the higher cost of avoiding the general excise tax and the inefficient formation which results.

Your Committee believes that it is time to address the problems caused by the general excise tax in the health care industry. Your Committee notes that Senate Bill No. 638 addresses many of the provisions of this measure that deal with reducing the pyramiding of the general excise tax. Thus, those provisions, sections 237-B to 237-E and 237-G have been deleted from the measure. Definitions that relate only to those provisions are also deleted. Amendments to sections 237-24.3 and 238-1, Hawaii Revised Statutes, dealing with tangible personal property also have been deleted.

Your Committee believes that the amended measure dealing with the formation of health plan providers receiving income from a health care plan and income received by health plan joint ventures and their exemption from the general excise tax will greatly assist the health care industry to compete on a level playing field with its mainland counterparts. In addition, the exemption from the general excise or use tax for health care facilities for the purchase of prescription drugs and prosthetic devices continues the legislature's attempts to reduce the cost of health care to our residents.

Your Committee notes that the revenues lost from this amended measure are very little. The joint ventures addressed by this amended measure are not in existence due to the tax, thus there is no revenue loss. The revenue loss from the exemption of prescription drugs and prosthetic devices is very little.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 47, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 47, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Ige, M., Anderson).

SCRep. 716 Ways and Means on S.B. No. 178

The purpose of this bill is to appropriate funds to the Healthy Start program.

This measure appropriates an unspecified amount to provide operating expenses for the Healthy Start program. Healthy Start is a successful program that has been in operation since 1985 and administered through the Department of Health. Through early intervention with family support, parenting education, and informal counseling services, Healthy Start prevents child abuse and neglect.

Your Committee finds that the Healthy Start program has been a success in helping high-risk families develop healthy and appropriate family relationships. Your Committee also recognizes that the number of families with multiple serious risk factors is increasing. Your Committee finds that there is a critical and continuing need for the services of Healthy Start.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 178 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, D., Iwase, Anderson).

SCRep. 717 Ways and Means on S.B. No. 194

The purpose of this measure is to establish a State income tax credit equal to fifty per cent of a taxpayer's long-term care insurance costs.

The Department of Commerce and Consumer Affairs, the Hawaii State Association of Life Underwriters, the American Council of Life Insurance, the Hawaii Medical Services Association, the Hawaii Long Term Care Association, the National Association of Retired Federal Employees Hawaii State Federation of Chapters, and an individual submitted testimony in support of the measure. The Department of Taxation and the Tax Foundation submitted comments on the measure.

Your Committee finds that Hawaii residents age seventy and older comprise the fastest growing segment of the State's population. As Hawaii's population ages and more residents require long-term care, the problem of how to finance such care becomes more urgent.

Long-term care services can cost an average of \$65,000 to \$75,000 for skilled nursing or intermediate care facilities, and nursing home costs often exceed a family's ability to pay. Additionally, seventy per cent of Medicaid payments in the State go towards nursing home care and the cost of paying for long-term care for indigent individuals creates a drain on the State's resources. Those individuals buying long-term insurance will not require Medicaid, thus saving the State much more than this credit will cost.

Your Committee has amended this measure by:

- (1) Inserting a \$1,000 per taxable year maximum credit allowable; and

(2) Making technical, nonsubstantive amendments to the measure for the purpose of clarity.

Your Committee believes that by providing taxpayers with a State income tax credit for long-term care insurance costs, the measure provides an incentive for individuals to purchase long-term care insurance during their younger years when premiums are more affordable.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 194, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 194, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Ige, M., Taniguchi).

SCRep. 718 Ways and Means on S.B. No. 638

The purpose of this measure is address the pyramiding of the general excise tax on services.

The Chamber of Commerce of Hawaii, Tax Committee of the Hawaii Society of Certified Public Accountants, Tax Section of the Hawaii State Bar Association, Textron Systems Kauai, Native Hawaiian Chamber of Commerce, Hawaii Farm Bureau, Hawaii Business Roundtable, and Pacific Resource Partnership submitted testimony in favor of the measure. The Department of Taxation submitted testimony in favor of the intent of the measure. The Tax Foundation of Hawaii submitted comments on the measure.

Your Committee finds that when goods are sold at wholesale to a retailer, the income from the sale is taxed under the general excise tax at one-half of one per cent. When services are sold, no matter to whom sold, the income from the sale of services is taxed under the general excise tax at four per cent. An exception does exist for intermediary service transactions, but that exception is so narrow that few service transactions can fit. In many instances services are sold in the same manner as goods are wholesaled, but no one-half per cent tax rate can be obtained.

Your Committee finds that the discussion of how to treat services that are sold in a manner that would result as a wholesale sale if they were goods has been on going for the last thirty years. Study after study, Tax Review Commission after Tax Review Commission have discussed the problem. Addressing this problem will stimulate the economy, create employment opportunities, and attract investment. This measure will address the pyramiding problem of the general excise tax by addressing the sale of services to businesses in the context of a service to service transaction or in the context of a service to goods transaction. In appropriate instances such transactions will result in the imposition of the one-half per cent general excise tax rate.

Your Committee has amended this measure to provide for a phase in of the reduction of the general excise tax on certain service transactions. This will reduce the revenue loss in one year of some \$133 million to a reduction that government can take steps to meet. In addition, it will allow both the Department of Taxation and the private sector time to get used to the new provisions and to work out any unforeseen problems. Since implementation will not be effective immediately, the intermediary transaction tax rate of one-half per cent has been kept in the law until the change in the treatment of wholesale services is fully phased in.

The measure also has been amended to add services-to-contracting transactions to the amendments to the wholesale provisions of the bill. Contracting is defined in section 237-6, Hawaii Revised Statutes (HRS), and is not considered either a service or a sale of goods by chapter 237, HRS. Section 237-13(6)(B)(i), HRS, has been amended by adding missing words regarding the requirement that the additional tax be paid when the sale is not at wholesale. Technical, nonsubstantive amendments also were made for style and clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 638, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 638, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Buen, Ige, M., Taniguchi).

SCRep. 719 Ways and Means on S.B. No. 744

The purpose of this measure is to exempt certain activities of call centers from taxation

The Department of Taxation and Department of Business, Economic Development, and Tourism supported the intent of this measure. The Hawaii High Technology Development Corporation and the Estate of James Campbell supported the measure while Hawaiian Electric Company supported the measure with amendments. The Tax Foundation of Hawaii submitted comments on the measure.

Hawaii has a number of distinct advantages for the development of a call center industry. It has a highly developed telecommunication industry with optic fiber capacity and regional satellite technology, both of which are necessary for call centers. It also has a population that speaks a number of Asian languages as well as English. Finally, Hawaii is in a time zone which allows us to do business with both Asia and the mainland while one or both are doing business during the same business day.

Your Committee finds that a number of companies have indicated an interest in establishing call centers in Hawaii, but Australia is already developing a strong Asia-Pacific market. Once again, Hawaii has a small window of opportunity in which to make a positive statement to interested parties or to miss an opportunity for failure to act.

Your Committee notes a statement by Governor Benjamin J. Cayetano in a two page advertisement on "The Next Four Years, Completing the Vision." In that advertisement the Governor stated "We will propose tax and other incentives to establish Hawaii as a call center for high tech companies. Call centers can provide hundreds of good paying high tech jobs for our high school graduates who choose to pursue vocational careers instead of college." Your Committee is in full agreement with the statement of the Governor.

Your Committee has amended this measure to tighten the tax exemption provided a call center regarding using the center as a nexus for the State to find that the other businesses of the company running the call center are taxable. On the one hand, establishment of a call center by itself should not establish taxing nexus or many companies may not choose to come to Hawaii. On the other hand, this exemption should only apply to the call center and the income from the direct customer service and support given by the call center. In addition, the phrase "and the like" has been deleted from the definition of call center to provide specificity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 744, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 744, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Ige, M., Anderson).

SCRep. 720 Government Operations and Housing on S.B. No. 59

The purpose of this measure is to require the Comptroller to adopt rules to implement the law requiring contractors performing on a public contract to disperse funds to subcontractors in accordance with the terms of the subcontract, within ten days of receiving payment.

Prior to this hearing, your Committee circulated a proposed S.B. No. 59, S.D. 1, which included the adoption of rules provision similar to S.B. No. 59, as well as a provision that penalizes contractors or subcontractors on public contracts who withhold retention amounts over five percent of a subcontractor's contract price. Your Committee received testimony on this proposed S.B. No. 59, S.D. 1.

Your Committee received testimony in support of the proposed S.D. 1 from the Department of Accounting and General Services, Plumbing and Mechanical Contractors Association of Hawaii, Sheet Metal Contractors Association, Subcontractors Association of Hawaii, and Painting and Decorating Contractors Association of Hawaii. Testimony opposed to the proposed S.D. 1 was received from Nordic Construction, Ltd., Albert C. Kobayashi, Inc., Royal Contracting Company, Hawaiian Dredging Construction Company, General Contractors Association of Hawaii, S&M Sakamoto Inc., Contractors Association of Kauai, and Jas. W. Glover, Ltd. Oral testimony opposed to the proposed S.D. 1 was received from the Hawaii Surety Association.

Your Committee finds that currently, general contractors require subcontractors to sign contracts with a 10%-15% retention clause. Yet, the state and county agencies by statute are allowed to withhold only two and one-half percent retainage from the general contractor.

Your Committee finds that this disparity in retainage between the agencies, the general contractors, and the subcontractors has created a great financial burden on the subcontractors. The proposed S.D. 1 will provide for a uniform retainage procedure for all parties, from the agencies to the general contractors.

Your Committee has amended the proposed S.D. 1 with the following changes:

- (1) Deleted the prompt payment section because S.B. No. 1005 has a similar prompt payment section and was previously passed by this Committee;
- (2) Increased the penalties section to include higher fines and debarment from bidding on future contracts;
- (3) Added the provision, "provided there are no bona fide disputes over the subcontractor's performance under the subcontract," to the retainage section; and
- (4) Added the provision that this Act will apply to contracts effective on or after July 1, 1999.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 59, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 59, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 4 (Levin, Sakamoto, Tanaka, Anderson).

SCRep. 721 Government Operations and Housing on S.B. No. 112

The purpose of this measure is to require a mortgage holder or court appointed receiver or commissioner of a property during foreclosure proceedings to pay the association of apartment owners the current common expenses chargeable to the apartment, if rent is being collected.

Testimony in support of this measure was received from the Hawaii Association of Realtors, Hawaii Council of Associations of Apartment Owners, Community Associations Institute, a member of the Association of Apartment Owners of the Villa on Eaton Square, and sixteen individuals. Oral testimony in favor of this measure was received from a member of the Marco Polo Condominium Association. Testimony opposed to this measure was received from American Savings Bank and the Hawaii Bankers Association.

Your Committee finds that maintenance fees are the primary source of income for condominium associations. These fees are needed to maintain, repair, and operate a condominium.

Your Committee finds that oftentimes a tenant is utilizing services the association provides, such as electric, water, and recreational amenities, yet the mortgage holder or foreclosure receiver or commissioner does not pay the maintenance fees for the unit.

Your Committee finds that association losses can run from \$3,500 to \$7,000 or more per foreclosure. In a long foreclosure, a receiver or commissioner may collect \$5,000 or more from a tenant and none of the money goes to the association.

Your Committee finds that this measure will provide some financial relief to condominium owners who are currently subsidizing the common expenses of units in foreclosure when a court-appointed receiver or commissioner is collecting the rent but not paying the current common expenses to the association of apartment owners.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 4 (Levin, Sakamoto, Tanaka, Anderson).

SCRep. 722 Government Operations and Housing on S.B. No. 1117

The purpose of S.B. No. 1117 is to exempt contracts for legal service performed for the State, a state agency, or a state official, outside the State, from the requirements of the State Procurement Code.

Prior to the hearing on this measure, your Committee circulated a proposed S.B. No. 1117, S.D. 1, with entirely new contents. Testimony was received on the proposed S.D. 1.

The purpose of the proposed S.B. No. 1117, S.D. 1, is to require the procurement policy office to adopt rules for a managed procurement process that evaluates the efficiency, effectiveness, and economy of the purchase using uniform accounting standards.

Testimony in support of the proposed S.D. 1 was received from Consulting Engineers Council of Hawaii, Consulting Structural Hawaii, Inc., Fewell Geotechnical Engineering, Ltd., Jas W. Glover, Ltd., Pacific Geotechnical Engineers, Inc., and Paul Louie, and Associates. Testimony opposed to the proposed S.D. 1 was received from the State Procurement Office, the Office of the State Attorney General, and the Kauai County Department of Water.

Your Committee finds that the State uses the procurement code to ensure that state purchases meet certain standards, but it has thus far not required any type of determination that the procurement of certain services or goods is the most effective, efficient, and economical path to take.

Your Committee finds that the current economic situation requires the State to have a managed process for procurement and to adopt standard methods for evaluation to ensure the effective, efficient, and economical procurement of services.

Your Committee finds that the proposed S.D. 1 will help empower state government in the delivery of competitive and cost efficient services. In turn, this will help to assure that Hawaii's citizens receive the highest quality of government provided goods, services, and construction at the lowest costs.

Your Committee finds that using uniform accounting standards will be the most equitable method of determining whether a service or function can be provided more efficiently, effectively, and economically by the government or private sector.

Your Committee has amended this measure by deleting its contents and inserting the proposed S.D. 1.

As affirmed by the record of votes of the members of your Committee on Government Operations and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1117, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 2 (Levin, Sakamoto).

SCRep. 723 Ways and Means on S.B. No. 788

The purpose of this measure is to require cigarette or tobacco licensees to affix a stamp certifying payment of applicable excise taxes on packages of cigarettes prior to being sold to the general public.

Testimony in support of this measure was received from the Hawaii State Department of Health, American Lung Association, and American Heart Association. Testimony in support of this measure with reservations was received from the Department of Taxation. Testimony commenting on this measure was received from the Tax Foundation of Hawaii. One individual submitted testimony in opposition to this measure.

Your Committee finds that this measure will provide for greater assurance that state cigarette taxes are paid thereby reducing the sales of untaxed cigarettes and keeping the price of the product at market levels. As a result, there will be greater assurance that untaxed cigarettes, which are less expensive, will not find their way into the hands of minors. Therefore, minors will be discouraged from experimenting with smoking cigarettes and the likelihood of them becoming adult smokers will be reduced.

Your Committee has amended this measure by:

- (1) Deleting as unnecessary, the provision that permits cigarette or tobacco licensees to include in the price of taxed cigarettes a percentage of the value of the stamp;
- (2) Replacing the Legislative Auditor with the Director of Taxation as the designee with the responsibility of determining whether this measure has the effect of reducing the loss of cigarette tax revenue to the State from the illegal sale of untaxed cigarettes;
- (3) Requiring the Director of Taxation to submit a report to the Legislature twenty days prior to the beginning of the Regular Session of 2005 and allowing the Director to submit an interim report of any findings regarding the effectiveness of this measure; and
- (4) Making technical, nonsubstantive changes for purposes of clarity and preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 788, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 788, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Ige, M., Anderson).

SCRep. 724 Ways and Means on S.B. No. 106

The purpose of this bill is to provide the School-to-Work Executive Council with the necessary guidance, direction, and operational framework to implement the school-to-work opportunities system.

Specifically, this measure requires the executive council to establish, among other things, a clear mission statement, controls over expenditures and methods of appraising outcomes; and to implement current laws relating to school-to-work work-based learning, workers' compensation coverage for students, and student safety on the premises of an employer.

This measure also requires the executive council to submit a comprehensive report to the Legislature by the end of the fiscal year on its progress in implementing the provisions of this measure.

Your Committee has amended this measure by making technical nonsubstantive amendments for purposes of clarity and drafting style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 106, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 106, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Nakata, Taniguchi, Anderson).

SCRep. 725 Ways and Means on S.B. No. 172

The purpose of this bill is to make an appropriation for the children's health insurance program (CHIP), to be matched by federal funds.

Your Committee finds that CHIP is a federal program that was established under the Social Security Act to provide matching federal assistance to states to expand Medicaid coverage for uninsured children and low-income families. Your Committee further finds that this bill is necessary to provide health insurance coverage for many of Hawaii's children.

Your Committee has amended the bill by changing the amount appropriated to an unspecified amount to facilitate continuing discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 172, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 172, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, D., Iwase, Anderson).

SCRep. 726 Ways and Means on S.B. No. 550

The purpose of this bill is to require expenditure reports of the Department of Education to be made by the Department itself rather than by the Auditor.

Furthermore, this measure reconceptualizes the reporting items along the standards used in the InSite computer software.

Your Committee adopts the sensible and thoughtful recommendations of the Auditor in a recent audit of the Department of Education that the department itself, not the Auditor, should be the entity responsible for reporting the Department's expenditures and that computer software such as InSite can provide extensive information about a school system without great costs.

Your Committee likewise admonishes the Department of Education for refusing to report its own school-by-school expenditures on the grounds that it is actually the Auditor's responsibility, and insisting without grounds that better expense reporting is beyond the Department's meager budget.

Your Committee has amended this measure by making minor clarifying amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 550, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 550, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Nakata, Anderson).

SCRep. 727 Ways and Means on S.B. No. 612

The purpose of this bill is to require tobacco manufacturers that do not participate in the tobacco litigation master settlement agreement with the State to deposit funds into an escrow fund to pay judgments or settlements on claims brought against the manufacturer.

Your Committee finds that many serious diseases such as lung cancer, emphysema, and heart disease, result from smoking. Medical costs to treat these illnesses are often borne by the State under medical assistance programs. This is a huge financial burden that can extend well into the next century because of the delayed effects of tobacco related illnesses. In November 1998, when several tobacco product manufacturers entered into a master settlement agreement with the State, some manufacturers did not enter into that settlement. This bill is designed to require those non-settling manufacturers to establish a reserve fund to guarantee a source of compensation and to prevent those manufacturers from deriving short-term profits and becoming judgment proof. Your Committee finds that this is the responsible thing for the State to do to protect the finances of the State and the taxpaying public.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 728 Ways and Means on S.B. No. 798

The purpose of this bill is to clarify jurisdiction over noise control, particularly as it relates to the convention center.

Your Committee finds that current law poses conflicts in jurisdiction over noise control. Section 206X-6 gives jurisdiction over noise control as it relates to the convention center to the Convention Center Authority. Section 342F-20 gives jurisdiction to the state Department of Health if the department has adopted a rule concerning it. Section 46-17 gives jurisdiction over noise to whichever entity has the strongest public protection.

The bill would establish a new standard for noise control in section 46-17 in which a county ordinance would have to yield jurisdiction to a noise permit issued by the Department of Health, unless the ordinance provides greater protection for the public. Sections 206X-6 and 342F-20 are amended to refer to the same standard, so all entities will be operating under a common and consistent standard.

Your Committee has amended the bill by:

- (1) Specifying that the references are to section 46-17(3); and
- (2) Providing that the ordinance shall supersede the permit if it provides greater protection to the public.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 798, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 729 Ways and Means on S.B. No. 816

The purpose of this bill is to extend the sunset date of the Convention Center Authority one year to June 30, 2000.

Your Committee finds that this bill would provide a transition period needed to assure a smooth transfer from the Convention Center Authority to the Hawaii Tourism Authority, which was established by the Legislature in 1998. Extending the Convention Center Authority for an additional year will allow the Hawaii Tourism Authority to concentrate on its organization and mandate for marketing Hawaii tourism as a whole.

Your Committee also finds that there are still a number of site-specific issues regarding the convention center, which the Convention Center Authority is in the process of resolving. Allowing the Convention Center Authority an additional year will ensure that Hawaii continues to have a world class convention center. Act 156, Session Laws of Hawaii 1998, which extended the sunset date of the Convention Center Authority until June 30, 1999, required the Auditor to audit and monitor these issues.

Upon further consideration, your Committee has amended this bill to add language to require the continued oversight of the Auditor through the extension period as follows:

"The auditor shall continue to audit and monitor the progress made by the convention center authority in resolving various outstanding issues and problems so as to assure the legislature that these issues have been addressed on or before June 30, 2000. By February 28, 2000, the auditor shall submit a management audit report to the legislature on the effectiveness of the steps taken by the convention center authority to resolve traffic, noise, and other outstanding claims against the authority. The management audit may include financial audit issues that the auditor deems appropriate."

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 816, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 816, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 730 Ways and Means on S.B. No. 856

The purpose of this measure is to reorganize and streamline adult residential care facilities.

This measure is a recommendation of the Joint Legislative Committee on Long-Term Care Financing, created pursuant to Act 339, Session Laws of Hawaii 1997. House Concurrent Resolution No. 225, 1998, directed the Joint Legislative Committee to create a subcommittee to study adult long-term care residential facilities in Hawaii.

Your Committee finds that the need for adequate and decent adult long-term residential care for Hawaii's residents who require long-term care is growing immensely with the demand outstripping supply. Unfortunately, the organization and regulation of residential care facilities in Hawaii are fragmented. This tends to reduce cost-effectiveness and hampers operational effectiveness in the delivery of residential care services.

Your Committee further finds that there is a lack of overall direction and guidance at the state level regarding the delivery of residential long-term care services to Hawaii's residents. Specifically, there is no vision of how residential care facilities and services may be used to alleviate the burden of long-term care in Hawaii. This is reflected in the fragmented structure of regulation for a plethora of residential care category types in the Hawaii Revised Statutes and the Hawaii Administrative Rules.

This measure is intended to respond to a compelling need to clearly define how residential care facilities and their services can be utilized effectively and efficiently. Your Committee desires to improve the organizational structure and regulatory processes based on

a more rational, consolidated, and equitable reorganization of the long-term residential care system in order to benefit consumers of the system.

Upon further consideration, your Committee has amended this bill by deleting the appropriation to the Department of Health in sections 19 and 20, and by renumbering the remaining sections.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 856, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 856, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 731 (Majority) Ways and Means on S.B. No. 1061

The purpose of this bill is to remove uncultivable and unuseable lands in determining irrigation project acreage assessments.

Currently, acreage assessments of irrigation projects are based on total acreage regardless of regulatory restrictions on the land.

This bill requires an assessment of only cultivatable land which does not include streams, dry gulches, and uncultivable or unuseable lands that may be restricted by government regulation. The bill also allows the Board of Agriculture to establish, by rule, a minimum acreage assessment on uncultivable or unuseable lands.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1061, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, 1 (Ige, M.). Excused, 2 (Nakata, Taniguchi).

SCRep. 732 Ways and Means on S.B. No. 1076

The purpose of this measure is to allow insurance companies to offset their insurance premium taxes with the low-income housing tax credit provided by Section 235-110.8, Hawaii Revised Statutes.

Testimony in support of this measure was received from the Department of Taxation, the Housing and Community Development Corporation of Hawaii, and the Department of Commerce and Consumer Affairs. The Tax Foundation of Hawaii provided comments.

Currently, resident taxpayers, banks, and financial institutions may take the low-income housing tax credit by deducting from their net income tax liability, a credit equal to thirty percent of the applicable percentage of the qualified basis of each low-income building located in Hawaii.

Your Committee finds that this measure would encourage the inflow of capital into Hawaii by providing insurance companies the same incentives enjoyed by individuals and financial institutions to invest in low-income housing projects.

Your Committee finds that allowing insurance companies to utilize the tax credit will increase demand for such credits, which will result in investors paying a higher price for the credits. The higher price paid for the credits would result in the Housing and Community Development Corporation of Hawaii having to award less tax credits to low-income rental projects and would therefore "stretch" the credits further and provide an increased amount of low-income rental units. In addition, the total amount of the credit claim will not increase since it is fixed by federal law.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1076 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Ige, M., Anderson).

SCRep. 733 Ways and Means on S.B. No. 1127

The purpose of this bill is to establish a health insurance revolving fund to assess and pay for the regulation of the health insurance industry.

Your Committee finds that this bill will shift the cost of regulating the health insurance industry from the State to the industry itself. It will also allow the Insurance Division, as the regulator, to become self-sufficient and not dependent on budget appropriations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 734 Ways and Means on S.B. No. 1177

The purpose of this measure is to clarify general excise tax rates for sales of bulk condiments or single-serving packets, for sales of disposable nonrefundable containers, and the treatment of professional services.

Your Committee received testimony in support of this measure from the Department of Taxation, Legislative Information Services of Hawaii and Hawaii Food Industry, and one individual. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that under Hawaii Administrative Rules, Section 18-237-4-01.01, sales to an eating or drinking retailer of any tangible personal property that is used to contain food or beverages sold at retail, and of bulk condiments are subject to the general excise tax at the wholesale rate of one-half percent. However, the rules do not allow the wholesale rate for prepackaged, single-serving packets of condiments, unless the packets are resold for a separate charge.

Your Committee further finds that since customers in eating establishments usually prefer to add their own selection and quantity of condiments, the retailer supplies it separately for the customer's convenience. Whether the retailer supplies these condiments in bulk containers or in separate packages, should be irrelevant for tax purposes. The Department of Taxation, however, may not amend the rules to address this concern of Hawaii's food industry without the amendment to Section 237-4, Hawaii Revised Statutes, as proposed in this measure.

Your Committee has amended this measure to delete Section 2, which would have clarified the intermediary services rate for professionals, as this issue has been addressed in S.B. No. 638, S.D. 1, as reported out by your Committee.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1177, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1177, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Buen, Taniguchi).

SCRep. 735 Ways and Means on S.B. No. 1178

The purpose of this measure is to clarify the term "related entities" for the purpose of identifying transactions exempt from the general excise tax.

Testimony in support of the measure was received from the Department of Taxation and the Tax Foundation of Hawaii submitted comments on the measure.

Current tax law allows for an exemption from the general excise tax for transactions between related entities, and defines "related entities" as an affiliated group of corporations, a controlled group of corporations, and entities connected through ownership of at least eighty per cent of the total value of each entity.

Your Committee is in accord with the findings of your Committee on Commerce and Consumer Protection. There is a loophole in the law which has allowed some taxpayers to claim a tax exemption despite the absence of a common ownership between the affiliated entities based upon eighty per cent of the entities' total voting power. This measure clarifies the law by adopting the federal tax code standard for consolidated returns. This standard requires commonality in ownership based upon eighty per cent value and eighty per cent voting power. The measure also provides that a group or combination of entities that constitute a "unitary business" for income tax purposes comes within the meaning of "related entities".

Your Committee has made a technical, nonsubstantive amendment to this measure to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1178, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1178, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Ige, M., Anderson).

SCRep. 736 Ways and Means on S.B. No. 1180

The purpose of this measure is to remedy the unanticipated problems resultant from Act 281, Session Laws of Hawaii 1997, which intended to cure the disparity in tax treatment between residents and nonresidents.

Testimony in support of this measure was received the Department of Taxation. Testimony was received from the Tax Foundation of Hawaii.

Your Committee finds that under current law, Act 281, Session Laws of Hawaii 1997, nonresident taxpayers with income from Hawaii sources are required to calculate their Hawaii income tax liability by determining tax liability as if they were Hawaii residents.

Your Committee finds that Act 281, Session Laws of Hawaii 1997, discourages economic activity by substantially raising the tax liabilities of nonresident investors and requiring all nonresidents earning income in Hawaii to file tax returns no matter how small the amount of income.

Your Committee finds that Act 281, Session Laws of Hawaii 1997, significantly increases the tax liabilities of our military personnel. In many instances, nonresident Hawaii tax liabilities were 1000% more than the liabilities calculated under the prior law.

Your Committee finds that the impact of this measure will be a revenue loss of \$2.7 million. However, this measure will allow more revenue than under the law prior to Act 281, Session Laws of Hawaii 1997, yet at the same time, the inequities between the tax treatment of nonresidents and residents will be addressed.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1180 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

SCRep. 737 Ways and Means on S.B. No. 1214

The purpose of this bill is to extend the life of the temporary Maritime Authority Commission, created by Act 183, Session Laws of Hawaii 1998, to allow it sufficient time to complete its work.

Specifically, this bill extends the life of the temporary Maritime Authority Commission for one year until the adjournment of the Regular Session of 2000, and delays for one year the deadline for submittal of its report to the Legislature to December 20, 1999.

Your Committee finds that the mission of the temporary Maritime Authority Commission is to examine the complexities involved, plan the details of the creation of the Hawaii Maritime Authority, and make recommendations to the Legislature regarding its findings, including proposed legislation.

Your Committee further finds that numerous complex issues still need to be addressed by the temporary Commission, including the type of governance structure that would best suit Hawaii, the amount of autonomy this Authority would have, its relationship with the administration including the Governor and state departments, the civil service status of its employees, and the financial impact of a port authority. Therefore, an extension of time is needed to extend the life of the temporary Hawaii Maritime Authority Commission.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1214 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Iwase, Nakata).

SCRep. 738 Ways and Means on S.B. No. 1281

The purpose of this bill is to make certain changes to the administration of the Employees' Retirement System.

Specifically, this bill:

- (1) Allows the Board of Trustees of the Employees' Retirement System to appoint an assistant administrator and a chief investment officer; and
- (2) Requires the Attorney General to personally serve as legal adviser to the Board and removes the Board's authority to hire outside counsel.

Your Committee finds that the responsibilities of the Employees' Retirement System, which provides for retirement benefits of all public employees of the four counties and the State, continue to expand as financial investments become more complex. Further, as retirants live longer, healthier lives, they remain part of the retirement system for a longer period.

Your Committee has amended this bill by allowing the Board of Trustees of the Employees' Retirement System to continue to retain outside counsel if necessary. Your Committee would like to see administrative flexibility continue if the Board requires legal advice or services that the Department of the Attorney General might be unable to provide due to time or budget constraints.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1281, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1281, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 739 **Ways and Means on S.B. No. 1466**

The purpose of this bill is to make mandatory the Comptroller's present discretionary authority to collect assessments from state agencies for the risk management revolving fund.

Furthermore, this bill requires annual reporting of the assessments, and repeals the Comptroller's authority to establish deductibles for certain losses and perils covered under the fund.

Your Committee finds that this measure will make agencies more accountable for losses and risks sustained by them.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1466, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 740 **Ways and Means on S.B. No. 1518**

The purpose of this bill is to improve the effectiveness and efficiency of state government.

Specifically, this bill requires all state departments and agencies to submit the following annually to the Legislature twenty days before the convening of each regular session:

- (1) Identification of their short- and long-term goals;
- (2) Objectives and policies specifically setting forth how each goal can and will be accomplished;
- (3) Action plans with a time-table for implementing objectives and policies in one, two, and five years; and
- (4) Performance measurements.

Your Committee finds that government departments should constantly work toward improving the effectiveness and efficiency of our government. Strategic planning and development of goals and objectives are essential for more efficient and productive operations for government agencies.

Your Committee further finds that the development of goals and objectives is essential for departments and agencies to determine priorities, guide their decisions, and measure the effectiveness of their programs and services.

Your Committee also finds that goals and objectives assist the Legislature in evaluating the budgetary needs of departments and agencies, and therefore every state agency and department should submit their goals and objectives to the Legislature every year.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1518 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 741 **Ways and Means on S.B. No. 1556**

The purpose of this measure is to exempt and exclude from imposition of the general excise tax the income received by resident licensed contractors and subcontractors from federal construction contracts.

The measure also clarifies that contractors and subcontractors working on federal projects in Hawaii are included in the definition of "contractor" for the purposes of and subject to the licensing requirements of chapter 444, Hawaii Revised Statutes, only to the extent allowed under federal law.

Testimony in support of this measure was received from the Plumbing and Mechanical Contractors of Hawaii and the Hawaii Electricians Market Enhancement Program Fund.

The Department of Taxation and the Tax Foundation of Hawaii submitted comments on the measure.

Testimony indicated that some out-of-state contractors had a bidding advantage over Hawaii contractors because they did not factor the state four percent general excise tax into their bids for federal contracts. The measure would help Hawaii contractors submit more competitive bids on federal contracts, thereby creating more business and employment opportunities for Hawaii's construction industry.

Your Committee has amended this measure by:

- (1) Replacing the term "resident" contractor and subcontractor with "state" contractor and subcontractor; and
- (2) Defining "state contractor" and "state subcontractor" as a licensed contractor doing business in the State with its owners, principals, officers, and employees meeting specific residency requirements.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1556, S.D. 1, as amended, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1556, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Taniguchi).

SCRep. 742 Ways and Means on S.B. No. 1607

The purpose of this bill is to appropriate an unspecified amount to the Hawaii Strategic Development Corporation revolving fund for investments primarily in high technology companies.

The Hawaii Strategic Development Corporation was established to develop a sustainable venture capital industry in the State. The Corporation has leveraged its initial appropriation of \$5,250,000 over ten times with private investment generating \$58,000,000 of venture capital for Hawaii companies. These twenty-one companies have created five hundred jobs.

The Hawaii Strategic Development Corporation has depleted its initial investment resources as the seed funding for these start-up companies has not yet generated financial returns. Additional appropriations are needed if the Corporation is to maintain its momentum.

Your Committee finds that appropriating funds to the Hawaii Strategic Development Corporation revolving fund has been an effective way to generate venture capital. Your Committee also finds that an additional appropriation will allow the Corporation to continue to be a resource for new viable businesses in the State.

Your Committee has amended this bill by prohibiting the Department of Business, Economic Development, and Tourism from restricting funds in the Hawaii Strategic Development Corporation revolving fund.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1607, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1607, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Nakata, Taniguchi, Anderson).

SCRep. 743 Ways and Means on S.B. No. 17

The purpose of this measure is to reimburse the counties for amounts of general excise tax passed on to them by businesses.

Testimony in support of this measure was received from the City Council of the City and County of Honolulu, Department of Budget of the City and County of Honolulu, Mayor of the County of Maui, Hawaii Hotel Association, Maui Hotel Association, and a member of Maui County Council. Comments were received from the Tax Foundation of Hawaii. Testimony opposed to this measure was received from the Department of Taxation.

Your Committee finds that all the counties in Hawaii are facing budget deficits this coming fiscal year and next. As a result, the counties are embarking on a thorough examination of their operations in an effort to decrease spending, while maintaining essential services. Concurrently, the counties are seeking ways to increase their revenues.

Your Committee finds that the general excise tax raises the cost of operating the county governments. Moneys paid for the tax could otherwise be used to balance the counties' budget and to provide for additional services, programs, and benefits to the public.

Your Committee finds that the general excise tax is imposed on businesses selling to the counties, however, the tax, in reality, is passed on to the counties on their purchases of goods and services. The end result is that the State is deriving tax revenues from the counties.

Your Committee finds that this measure will allow the money saved by the counties to be expended for public programs and projects and will reduce the counties reliance on the real property tax at a time when this revenue source is declining.

Your Committee has amended this measure by providing that the first two years of reimbursement shall equal fifty per cent of the general excise tax paid, and from fiscal 2001-2002 to 2004-2005 shall equal one hundred per cent. Reimbursements will continue through fiscal year 2004-2005, at which time the Legislature can review the results of this measure.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 17, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 17, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Taniguchi).

SCRep. 744 Ways and Means on S.B. No. 131

The purpose of this measure is to establish minimum standards for long-term care (LTC) insurance. Specifically, this measure:

- (1) Requires employers to offer LTC insurance policies to their employees;
- (2) Appropriates funds for an actuarial study; and
- (3) Appropriates funds for the insurance division to hire an LTC actuary.

Your Committee received testimony in support of this measure from the Executive Office on Aging, Hawaii State Commission on the Status of Women, Hawaii State Association of Life Underwriters, Faith Action for Community Equity, Healthcare Association of Hawaii, American Family Life Assurance Company of Columbus, Hawaii Coalition for Affordable Long Term Care, and American Council of Life Insurance. Informational testimony was provided by the Hawaiian Electric Company.

This measure is based on the recommendations of the Joint Legislative Committee on Long-Term Care (JLC), established by Act 339, Session Laws of Hawaii 1997. The JLC undertook an eighteen month study to develop a sound financial plan to address a problem of compelling state interest, the current and future LTC needs of the people of Hawaii. The JLC members are Senator Suzanne Chun Oakland and Representative Dennis Arakaki, co-chairs, and members Senators Les Ihara, Jr., (replacing Senator Rosalyn Baker), Andrew Levin, and Sam Slom, and Representatives Marcus Oshiro, Paul Whalen, and Nobu Yonamine.

Your Committee finds that Hawaii's population of age seventy and over is the fastest growing segment of the overall population. The population of disabled residents is also increasing gradually. As people age or become disabled, they need help in daily living, which can be little or nonexistent except for care from family members. Caring for a family member can be physically, financially, and emotionally draining for the average two-spouse working family or single working parent, particularly with Hawaii's high cost of living.

Current methods of financing LTC involve predominantly Medicaid, private insurance, and personal assets. Medicaid is limited to financially qualified persons of low income, however Medicaid matching funds from the federal government cannot be relied upon in the future, due to the recent cutbacks in federal funding for Medicaid. Medicaid funding from the State is a drain upon the general fund, due largely to the increase in the target population and the escalating costs of providing LTC. Because of high premiums, private insurance is not widespread. Most people do not have sufficient personal assets to afford to pay for LTC.

Your Committee is convinced that the State needs a method of financing LTC that is affordable and suitable for the majority of residents who do not qualify for Medicaid, do not currently have private LTC insurance, and do not have sufficient personal assets. Encouraging the purchase of LTC insurance is a feasible and reasonable method that can be immediately implemented, without risk to the State as in setting up a trust fund and without the burden of a mandatory tax. Your Committee believes that LTC insurance can become universal and affordable, while providing quality benefits at the time of payout and protecting the policyholder throughout the life of the policy.

Hawaii's LTC insurance statutes were first enacted in 1989 and have not undergone any revision since 1991. During this time, LTC insurance policies have developed and proliferated to the point today of becoming a matured insurance product that can be actuarially evaluated. However, Hawaii's LTC insurance statutes have not kept pace with the product or with the development of LTC insurance law in other states. Current LTC insurance statutes in Hawaii are basically enabling legislation that need to be updated in order to upgrade the quality of the LTC insurance product to provide the kind and quality of benefits and protections which your Committee desires.

The insurance provisions of this measure are recommended by Dr. Larry Nitz, consultant to the JLC. He contracted for comment and analysis with a certified mainland actuary, John C. Wilkin of Actuarial Research Corporation. Wilkin is a consultant to the Assistant Secretary for Policy and Planning, United States Department of Health and Human Services, and for the LTC plan of the Federal Office of Personnel Management for LTC insurance policies for federal employees. He has also been instrumental in setting national LTC actuarial standards for the Society of Actuaries.

To increase the number of people covered by an LTC insurance policy, this measure requires that employers and other groups offer to their employees or members an LTC insurance policy for optional purchase, without requiring the employer to pay any premiums unless the employer agrees to it as an employee benefit. To encourage the purchase of LTC insurance policies, premiums are made more affordable in separate measures that provide for an income tax deduction or an income tax credit for premiums paid.

Your Committee is concerned that there are many LTC policies on the market that were sold under current law and may not afford as much protection or benefits as they could.

Your Committee has amended this measure on the recommendation of the Insurance Commissioner by:

- (1) Inserting the Long-Term Care Insurance Model Act of 1998 and related regulations; and
- (2) Repealing part V of article 10A of chapter 431, Hawaii Revised Statutes, relating to long-term care insurance, and enacting a new chapter for long-term care insurance.

Your Committee has also:

- (1) Clarified the provision for minimum coverages to conform to the federal Health Insurance Portability and Accountability Act (HIPAA), and deleted the related provision that provides for conformity to federal tax laws;
- (2) Deleted the provisions and inserted corresponding provisions in the Model Act relating to portability, lapse, Alzheimer's and brain disorders, and inflation protection;
- (3) Deleted the appropriations for an actuarial study and for expenses of the JLC;
- (4) Deleted the provision that extended the sunset date of the JLC; and
- (5) Made technical, nonsubstantive amendments for purposes of clarity and to reflect preferred drafting style.

As amended, this measure:

- (1) Establishes minimum required coverages in group and individual LTC insurance policies in conformity to HIPAA, for home- and community-based care, adult residential homes, respite care, nursing home care, hospice care, and assisted living facilities;
- (2) Requires employers, labor organizations, retiree organizations and other entities to offer LTC insurance policies to their employees or members, without requiring them to purchase and without requiring the employer, labor organization, retiree organization, or other entity to pay for premiums, unless they so choose;
- (3) Requires all LTC insurers to make available an LTC policy to employers, labor organizations, retiree organizations, and other entities;
- (4) Allows a person to purchase an LTC insurance policy that covers the person, the person's spouse or reciprocal beneficiary, as well as their parents and grandparents, including in-laws;
- (5) Requires age-graded premiums to be fixed over the life of the policy unless changes are allowed by the Insurance Commissioner;
- (6) Provides that the HIPAA controls in cases of conflict between subpart B and HIPAA;
- (7) Uses interchangeably the terms "group long-term care insurance" and "individual long-term care insurance";
- (8) Allows a member of the Public Health Fund to purchase an LTC insurance policy that covers the person, the person's spouse or reciprocal beneficiary, as well as their parents and grandparents, including in-laws;
- (9) Requires specified loss ratio standards for evaluating LTC policies;
- (10) Requires mutual benefit societies to belong to the Life and Disability Guaranty Association for that part of their business in selling LTC insurance;
- (11) Requires HIPAA consumer protection provisions relating to renewability, portability, permissible exclusions, unintentional lapse and reinstatement, disclosure standards, inflation protection;
- (12) Requires non-HIPAA consumer protection provisions relating to disclosure of tax consequences, benefit triggers, prohibiting preexisting condition requirements in replacement policies, nonforfeiture (paid-up) benefit option;
- (13) Establishes HIPAA LTC insurer performance standards relating to application for LTC insurance, replacement LTC policies, reporting to the Insurance Commissioner, standards for marketing procedures, providing outline of coverages to the insured;
- (14) Appropriates funds for the Insurance Commissioner to hire a qualified LTC actuary to provide services to the Insurance Division; and
- (15) Adds a severability clause.

Your Committee requests that the Department of Commerce and Consumer Affairs collaborate with specialty insurance stakeholders to further the discussion on the issue of providing universal access to long-term care insurance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 131, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 131, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 745 Ways and Means on S.B. No. 157

The purpose of this bill is to make an appropriation for preventive dental services for adults covered by Medicaid and MedQUEST.

Until February 1996, preventive dental services for adults under Medicaid and MedQUEST were covered by the State. Due to budget cutbacks, those services were dropped, and only emergency dental care was provided under these programs. Your Committee finds that the federal government will pay half the cost of providing preventive dental services for adults under Medicaid if the State pays the remainder. This is a win-win solution for the State.

Your Committee finds that preventive dental care will assist in the long-term dental health of residents in the Medicaid and MedQUEST programs, and that it is an appropriate use of state funds to pay the State's share as provided in this bill.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 157, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, D., Iwase, Tam, Anderson).

SCRep. 746 Ways and Means on S.B. No. 538

The purpose of this bill is to make the statutory changes necessary for granting the University of Hawaii total independence from the executive branch and establishing it as a separate branch of state government.

Most notably, this bill:

- (1) Gives the University of Hawaii control over the expenditure and accounting of its moneys;
- (2) Requires the University to prepare and submit to the Legislature a unified budget, six-year program and financial plan, and variance report;
- (3) Exempts the University from the civil service law and gives it control over personnel matters;
- (4) Prohibits more than six members of the Board of Regents from being members of the same political party;
- (5) Requires the Board of Regents to set the salary of the President of the University; and
- (6) Exempts the University from having to pay awards of attorney's fees to small businesses.

Your Committee finds that the University of Hawaii has wisely exercised the partial independence granted to it over the years, starting with Act 320, Session Laws of Hawaii 1986, and advancing steadily through Act 115, Session Laws of Hawaii 1998, with satisfactory results. In order for the University of Hawaii to realize its full potential, however, it needs to break away from the institutional restraints of the executive branch. These restraints often stifle imaginative thinking and risk taking for no better reason than the inability to overcome bureaucratic inertia. The students, faculty, and administrators of the University of Hawaii need the freedom and encouragement to dream of the things that can be and will be for their institution, not the things that could have been but never were.

Your Committee notes that the Department of Budget and Finance has expressed some concerns about this bill, which may indicate the need for further discussion at a future date. The Department of Budget and Finance has been invited to share its suggestions with the Committee in the spirit of developing a mutually acceptable bill that will grant the University of Hawaii independence from the executive branch and establish it as an independent branch of state government. Your Committee fully supports the concepts embodied in this bill and looks forward to working with the House of Representatives, the University of Hawaii, and the Governor's cabinet to make this dream come true.

Your Committee has amended this bill by:

- (1) Correcting variances in underlying statutory material between this bill and the printed versions of the Session Laws and the Hawaii Revised Statutes; and

- (2) Making technical nonsubstantive changes for purposes, clarity, and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 538, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 538, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 747 Ways and Means on S.B. No. 580

The purpose of this bill is to appropriate funds to assist in the implementation of Project Faith.

Project Faith is a project proposed by the Anahola Homesteaders Council which will provide long-term jobs, native business entrepreneurial opportunities, job training for youth, and establish much needed facilities in the Anahola district, including an elderly nursing care facility, an early education and child care facility, a fire station, commercial office space, and a cultural pavilion.

Your Committee finds that there is significant community support for Project Faith and that it will help to revitalize the area, which has been beset by high unemployment and social depression.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 580 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Iwase, Tam, Anderson).

SCRep. 748 Ways and Means on S.B. No. 797

The purpose of this bill is to limit the total amount of nonbid contracts awarded to any one individual, sole proprietorship, corporation, limited liability company, firm, partnership, business, joint venture, joint stock company, group, hui, society, association, or similar entity within a five-year period.

In addition, this bill:

- (1) Allows the Governor to grant special approval to award more than the limit of nonbid contracts permitted by law, based upon a recommendation from the administrator of the state procurement office after a public hearing;
- (2) Allows the awarding of more than the limit of nonbid contracts permitted by law if all contractors the chief procurement officer has determined to be eligible to bid on nonbid contracts have received at least one contract award within the five-year period;
- (3) Requires the chief procurement officer to maintain a record of all procurements for goods, services, or construction of \$25,000 or more made by competitive sealed proposals and by small purchases of less than \$25,000; and
- (4) Repeals the requirement that the chief procurement officer maintain a record of all procurements for goods or services that are available from multiple sources, but for which procurement by competitive means is either not practicable or not advantageous to the State.

Your Committee has amended this bill by requiring the chief procurement officer to electronically post the name of each contractor awarded a contract for goods, services, or construction under the procurement code; the amount and type of the contract; and the goods, services, or construction procured under the contract.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 797, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 749 Ways and Means on S.B. No. 994

The purpose of this bill is to establish an elder and dependent adult abuse review commission to review Hawaii's elderly and dependent adult abuse protective services laws.

Your Committee finds a disturbing trend locally of increasing abuse of elderly and dependent adults. Abuse crimes pose significant threats to the safety and well-being of the elderly. Your Committee also finds that part X of chapter 346, Hawaii Revised Statutes, relating to dependent adult protective services, has not been reviewed since its enactment in 1989. Therefore, your Committee concurs with the host of testifiers at the hearing conducted by the Health and Human Services Committee who supported

the establishment of a review commission to review Hawaii's elderly and dependent adult abuse protective services laws. The establishment of the Commission is the first step towards crafting legislative policy to recognize, assist, and protect the elderly in Hawaii.

Your Committee has amended the bill by:

1. Deleting the appropriation sections;
2. Adding the long-term care ombudsman of the executive office on aging to the commission; and
3. Making technical amendments that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 994, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 994, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, D., Iwase, Anderson).

SCRep. 750 Ways and Means on S.B. No. 1137

The purpose of this bill is to broaden the eligibility for dependent-beneficiaries of participants enrolled in the State's health insurance plan.

Your Committee finds that recently, there has been an exodus from the state health insurance plan by participants who have left for more affordable competing programs. This has resulted in an inordinately high percentage of older participants who have increased costs because of the nature of the medical care they require. To remedy this situation, changes must be made to the health insurance plan law to attract participants back to the program.

This bill does just that by broadening the eligibility for dependent-beneficiaries to effectively increase the number of possible dependent-beneficiaries that may be claimed by a participant. More significantly, the bill removes the requirement that beneficiaries must live at home and allows a student beneficiary to qualify for benefits until the age of twenty-four. The bill also provides for certain beneficiaries who are mentally or physically incapacitated and broadens the eligibility of employee-beneficiaries.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1137 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 751 Ways and Means on S.B. No. 1163

The purpose of this bill is to extend the authority of the Director of Public Safety to grant emergency release of pretrial inmates until June 30, 2000.

Your Committee finds that, because of overcrowding in correctional facilities, the Department of Public Safety needs a release mechanism by which it can relieve overcrowding in the pretrial population while considering public safety. Your Committee further finds that the Legislature, through Act 227, Session Laws of Hawaii 1998, established strict controls over which defendants qualify for emergency pretrial release.

Your Committee has amended the bill by changing its effective date from on approval to June 29, 1999.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1163, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1163, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Buen, Iwase, Tam).

SCRep. 752 Ways and Means on S.B. No. 1271

The purpose of this bill is to enable the Department of Education to collect fees for all supplementary, discretionary instructional services to students during times when school is not in session.

Currently, the Department is authorized to assess and collect fees only for summer school and intersession programs.

This measure expands the Department's authority to assess fees for all non-school time programs by changing references to the summer schools and intersession programs to out-of-school time instructional programs, and changing the summer schools and intersession special fund to the out-of-school time instructional program special fund.

While your Committee accepts the need to assess additional user fees in these times of economic hardships for the State, we are deeply concerned over the impact this measure will have on the availability and affordability of programs for those most in need who may not have the financial resources to assume a higher burden of a program's costs.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and drafting style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1271, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1271, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, M., Nakata, Anderson).

SCRep. 753 Ways and Means on S.B. No. 1284

The purpose of this bill is to appropriate and authorize funds to the Department of Budget and Finance, the Judiciary, and the Hawaii Health Systems Corporation to pay the cost of items negotiated in collective bargaining agreements with the representatives of units 1, 2, 3, 4, 6, 8, 9, 10, and 13, and for state officers and employees who are excluded from these units.

Specifically, this bill appropriates and authorizes general funds, special funds, federal funds, and other funds to pay the retroactive (i.e., past) and continuing (i.e., present and future) cost of these collective bargaining agreement items.

Your Committee finds that funds were not appropriated or authorized during past legislative sessions to pay the full cost of some collective bargaining agreements (e.g., unit 6 - educational officers) because of the severity of the budget deficit. Despite some signs of slight improvement in the State's economy, your Committee is uncertain whether or not there are sufficient funds to pay for all of these items at the same time.

Consequently, your Committee has amended this bill by replacing all the sums appropriated or authorized with a figure of "\$2" to provide for ongoing discussion of this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1284, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1284, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Buen, Iwase, Tam).

SCRep. 754 Ways and Means on S.B. No. 1314

The purpose of this administration bill is to provide retirement benefits for trustees and former trustees of the Office of Hawaiian Affairs.

Your Committee finds that prior to July 1, 1982, the Employees' Retirement System provided Office of Hawaiian Affairs' trustees with the same retirement benefits as other elective officials. However, Act 165, Session Laws of Hawaii 1982, changed the definition of "elective official" in the Employees' Retirement System law, thereby effectively excluding Office of Hawaiian Affairs' trustees from this definition. In 1993, Act 358, Session Laws of Hawaii 1993, provided Office of Hawaiian Affairs' trustees with a salary and included them in all benefit plans available to other public employees except for retirement benefits.

Your Committee has amended this bill by making the benefits prospective, applicable to trustees who are in service on or after July 1, 1999.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1314, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1314, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 755 Ways and Means on S.B. No. 1470

The purpose of this bill is to appropriate funds to the Office of the Auditor, the Ethics Commission, the Legislative Reference Bureau, and the Ombudsman to pay for salary increases and other cost adjustments for officers and employees of the Legislature who are excluded from collective bargaining.

Your Committee finds that this bill will allow the Office of the Auditor, the Ethics Commission, the Legislative Reference Bureau, and the Ombudsman to compensate their officers and employees on par with persons in similar positions who are covered under the collective bargaining agreements for units 3 (white-collar, nonsupervisory), 4 (white-collar, supervisory), and 13 (professional and scientific, other than registered professional nurses).

Your Committee also finds that Act 115, Session Laws of Hawaii 1997, appropriated and authorized funds to pay for fiscal biennium 1997-1999, all collective bargaining cost items in the agreements negotiated in fiscal biennium 1995-1997 with the representatives of bargaining units 3, 4, and 13.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1470 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Buen, Iwase, Tam).

SCRep. 756 Ways and Means on S.B. No. 1475

The purpose of this bill is to transfer administrative control of the school-to-work opportunities pilot project from the Hawaii school-to-work opportunities executive council to the Department of Education, and to make the executive council an advisory body to the Board of Education and the Department.

In addition, this bill:

- (1) Repeals the law requiring the members of the Hawaii school-to-work opportunities advisory council to be nominated and, by and with the advice and consent of the Senate, appointed by the Governor;
- (2) Repeals the law giving the Hawaii school-to-work opportunities advisory council the power to appoint the executive director and staff of the school-to-work opportunities pilot project, and to adopt rules; and
- (3) Allows the Superintendent of Education to appoint the executive director of the school-to-work opportunities pilot project, and allows the Department of Education to employ the other staff of the pilot project.

Your Committee finds that transferring administrative control of the school-to-work opportunities pilot project to the Department of Education will:

- (1) Allow the Hawaii school-to-work opportunities advisory council to concentrate its efforts on reforming education, developing the State's workforce, and stimulating economic development; and
- (2) Make the Board of Education and Superintendent of Education totally and completely accountable for both the successes and failures of the school-to-work opportunities pilot project.

Your Committee has amended this bill by changing its effective date from July 1, 1999, to January 1, 2001.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1475, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1475, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 757 Ways and Means on S.B. No. 1504

The purpose of this bill is to make appropriations for emergency medical services.

Specifically, the bill appropriates funds for the Makakilo-Kapolei area, the Kahalu'u-Kaaawa area, and Nanakuli. Your Committee finds that these rural areas are underserved in regard to emergency medical care. It is critical to the health and safety of the residents of these areas that emergency medical services be made available.

Your Committee has amended the bill by deleting the specific amounts of the appropriations to promote future discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1504, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1504, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 6 (Buen, Chun Oakland, Ige, D., Iwase, Tam, Anderson).

SCRep. 758

Health and Human Services on S.B. No. 737

The purpose of this measure is to exempt small construction projects from the permit requirements of the noise pollution law.

Testimony in support of this measure was received from the Department of Health (DOH), Hidano Construction, Inc., Jas. W. Glover, Ltd., Building Industry Association of Hawaii, Master Sheet Metal, Inc., and General Contractors Association of Hawaii. Testimony in opposition was received from Hawaii's Thousand Friends.

Your Committee notes that noise generated by smaller construction projects may be equally disturbing and result in adverse impacts on residential communities. As such, regulatory mechanisms are required in order that public complaints and concerns may receive appropriate response and attention. This measure requires the person responsible for a noise permit exempted construction project to notify the DOH in writing of the project. The notice must include specified information that would allow the DOH to monitor the construction to assure that surrounding neighbors will not be unduly bothered by the noise.

Your Committee finds that this measure provides regulatory relief to companies building smaller construction projects. Your Committee also recognizes that there needs to be a mechanism in place to provide notification to DOH of these projects so that DOH can expeditiously deal with complaints and concerns of the public.

Your Committee has amended this measure by:

- (1) Including Sundays and holidays to the time periods in which the exemption does not apply;
- (2) Prohibiting exemptions for construction projects exceeding seventy-eight decibels, regardless of the time;
- (3) Adding a penalty provision; and
- (4) Redesignating subsections to accommodate the penalty provision.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 737, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 737, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Iwase, Anderson).

SCRep. 759

Health and Human Services on S.B. No. 738

The purpose of this measure is to require the Department of Health (DOH) to grant or reject noise control permits within thirty days instead of one-hundred-eighty days.

The measure further requires the director to act on an application within ninety days if the director deems a public informational meeting, hearing, or notice is appropriate, and to extend the ninety-day period an additional ninety days if extraordinary circumstances exist. If the director does not act on this application within one-hundred-eighty days of the receipt of the application then the application is deemed granted.

Testimony in support of this measure was received from the DOH, Hawaiian Electric Company and its subsidiary Maui Electric Company, the Building Industry Association of Hawaii, Hidano Construction, Inc., and Jas. W. Glover, Ltd. Testimony in opposition was received from Hawaii's Thousand Friends.

Your Committee finds that shortening the time allowed for the Department of Health to issue noise control permits, as called for in this measure, is a fair compromise between the needs of the Department to examine an application thoroughly and the needs of the construction industry for an expedient permitting process.

Your Committee has amended this measure by deleting language which would have deemed an application granted upon the failure of the director to act on an application within 180 days.

As affirmed by the record of votes of the members of your Committee on Health and Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 738, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 738, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Iwase).

SCRep. 760

(Joint) Health and Human Services and Ways and Means on S.B. No. 1032

The purpose of this administration measure is to require the Director of Health to adopt rules to enable interdisciplinary clinical review panels to authorize the involuntary administration of psychotropic medication for appropriate patients at the state hospital at Kaneohe.

Your Committees received testimony in support of this measure from the Department of Health (DOH), Hawaii Psychological Association, Hawaii Psychiatric Medical Association, Mental Health Association in Hawaii, Hawaii Medical Association, Nami Oahu, and three private citizens. Testimony in opposition was received from the Office of the Public Defender, United Self-Help, and two private citizens.

This measure is intended to alleviate mental illness and restore competency while protecting the rights of patients. Your Committees desire that the administrative rules contain adequate safeguards to ensure that medications are administered in accordance with proper medical standards.

Your Committees wish to recommend the following to the DOH:

- (1) That in the process of adopting administrative rules, the DOH collaborate and consult with the Mental Health Association of Hawaii, Nami Oahu, United Self-Help, Office of the Public Defender, Hawaii Psychiatric Medical Association, Mental Health Consumer Sandwich Group, Hawaii Psychological Association, Hawaii Medical Association, Healthcare Association of Hawaii, and individual mental health consumers and advocates; and
- (2) That the DOH include as members of the interdisciplinary clinical review panels the clinical director of the facility in which the patient is committed, a psychiatrist, an allied mental health professional other than a physician, a mental health consumer, and a mental health advocate.

Though not required by this measure, the DOH is strongly urged to adopt rules for the Hawaii State Hospital and for other in-patient psychiatric facilities regarding informing patients of their rights about psychiatric medication and its effects, including means of handling patients who refuse medication.

Your Committees note the testimony of the Office of the Public Defender and wishes to emphasize the comments about the adverse side effects of prescription medication administered to psychiatric patients, including the new anti-psychosis drugs. Your Committee is concerned about the comment, "Thus, these patients who are committed to the state hospital are faced with a choice of receiving such medication and endure the side effects for the benefit of controlling their mental illness." Your Committees believe that the right of patients to refuse medication must be protected as a right to privacy under Hawaii's Constitution.

Your Committees have amended this measure by:

- (1) Clarifying in section 2 of the measure that the new section is to be added to part III of chapter 334, Hawaii Revised Statutes (HRS), relating to the state hospital;
- (2) Adding "in-patient psychiatric facilities", examination for physical or mental disease, disorder, or defect, and criminal commitments to the new section 334- (a), HRS, relating to authorization of involuntary administration of medication, in section 2 of the measure;
- (3) Clarifying that the appeals process is to a "separate panel" instead of a "second body";
- (4) Combining the new section 334- (b) and (c), HRS, relating to final order and appeals, into one new subsection;
- (5) Clarifying that the administrative process established by the rules is not to be construed as a contested case under chapter 91;
- (6) Requiring counsel paid by the State to be provided to patients who are subject to involuntary hospitalization;
- (7) Requiring the DOH to report to the Legislature each year before the convening of the legislative sessions of 2000, 2001, and 2002;
- (8) Repealing the Act on June 30, 2002 and reenacting current statutory provisions; and
- (9) Making technical, nonsubstantive amendments for clarity and to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1032, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1032, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 13. Noes, none. Excused, none.

SCRep. 761 (Joint/Majority) Health and Human Services and Ways and Means on S.B. No. 1034

The purpose of this administration measure is to create a Hawaii tobacco settlement special fund.

Your Committees received testimony in support of this measure from the Department of Health (DOH), Department of Human Services, American Lung Association, American Academy of Pediatrics, Coalition for a Tobacco Free Hawaii, American Cancer Society, Good Beginnings Alliance, Hawaii State Primary Care Association, Childcare Business Coalition, Healthy Start, Hawaii Early Intervention Coordinating Council, Hawaii Association for the Education of Young Children, and one private citizen.

The State of Hawaii is in the process of receiving an estimated \$1.13 billion from a class action lawsuit against several giant tobacco companies. This measure provides for the allocation and use of those moneys upon receipt. Your Committees believe that it is prudent to plan ahead for the use of those funds.

The Legislature has been beset with many requests from public and private agencies to receive a portion of the tobacco settlement moneys. Your Committees wish they could satisfy all of those requests, but find that the most critical areas that need funding are in areas of health, childhood education, nutrition, early intervention, and tobacco prevention.

Your Committees have amended this measure by:

- (1) Adding language in section 1 about the importance of early childhood education programs and early childhood intervention services, and about the dangers of maternal smoking;
- (2) Changing the title of the new chapter from "Hawaii Tobacco Settlement Special Fund" to "Hawaii Tobacco Settlement Moneys" to accommodate the broadened scope of the amendments;
- (3) Deleting the definition of "children's health program" as being unnecessary;
- (4) Inserting a new definition for "tobacco settlement";
- (5) Creating a Hawaii tobacco prevention and control endowment fund, a board of trustees for the endowment fund, and a rainy day fund;
- (6) Requiring that the endowment fund be under the Hawaii Community Foundation;
- (7) Clarifying that all tobacco settlement moneys are to be initially deposited into the Hawaii tobacco settlement special fund before transferring moneys to other specified funds and purposes for fiscal years 1999-2000 and 2000-2001;
- (8) Changing the administrative responsibilities for the Hawaii tobacco settlement fund from the Department of Budget and Finance to the DOH;
- (9) Providing for the appointment of members of the advisory board by the Director of Health, to include specified persons and other representatives of particular groups;
- (10) Clarifying that the advisory board shall exist for so long as tobacco settlement moneys are received by the State;
- (11) Requiring the Auditor to report to the Legislature and the governor on a financial audit before the 2002 regular session and an evaluation audit before the 2004 regular session, of the Hawaii tobacco prevention and control endowment fund; and
- (12) Deleting the appropriation section.

Your Committees desire that the Legislature evaluate this measure, perhaps prior to the 2001 or 2002 regular session, to determine the appropriate statutory amendments for the allocation of tobacco settlement moneys after July 1, 2001. Under this measure, as amended, the special fund will hold and distribute all moneys until July 1, 2001, or until the Legislature determines further statutory allocations. Your Committees believe that this flexibility is important for now in light of changing circumstances and needs in the future.

Your Committees have also renumbered sections and reformatted the measure to reflect preferred drafting style, and made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1034, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1034, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, 2 (Iwase, Kawamoto). Excused, 4 (Buen, Nakata, Taniguchi, Anderson).

SCRep. 762

(Joint) Health and Human Services and Ways and Means on S.B. No. 1229

The purpose of this measure is to provide assistance to the homeless. Specifically, this measure:

- (1) Requires that twelve and a half per cent of conveyance taxes collected each fiscal year be deposited into the rental housing trust fund;
- (2) Requires that twelve and a half per cent of conveyance taxes collected each fiscal year be deposited into the special fund for homeless assistance;
- (3) Appropriates \$70,000 in general funds for capital improvements for homeless shelter facilities; and
- (4) Appropriates \$600,000 out of the special fund for homeless assistance for homeless assistance.

Your Committees received testimony in support of this measure from the Housing and Community Development Corporation of Hawaii, United Public Workers, Institute for Human Services, Hawaii Catholic Conference, Catholic Charities, American Friends Service Committee, Nature Conservancy of Hawaii, Projects Pacific, Affordable Housing and Homeless Alliance, Gregory House Programs, Hawaii Lawyers Care, and a private individual. Testimony in opposition was received from the Legal Aid Society of Hawaii. Informational testimony was provided by the Tax Foundation of Hawaii.

The intent of this measure is to provide a continuous source of funding for homeless assistance. Your Committees find that a special fund for homeless assistance would help to effectively address a major problem which has grown over the past decade in the increasing number of homeless persons. However, financial resources to fund homeless programs have been scarce.

Your Committees have amended this measure to reflect a more equitable distribution of conveyance tax moneys by changing the deposit amounts from twelve and a half per cent to twenty-five per cent each into the rental housing trust fund and the special fund for homeless assistance, respectively.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1229, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1229, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Buen, Nakata, Taniguchi, Anderson).

SCRep. 763 Ways and Means on S.B. No. 105

The purpose of this bill is to establish a six-member advisory commission on government restructuring to assist in streamlining the size of government.

Your Committee finds that the Legislature has a history of concern with the size of state government, studying the issue in the 1970s and 1990s, and passing legislation in 1996 acknowledging that this was a joint concern of the Legislature and the Governor. In response to that Act, the Governor released a report, "Restructuring Government Services" in December 1996. Your Committee finds that was an important effort but did not fully accomplish its goals, and that more work needs to be done in this area.

To effectuate the goals of the bill, your Committee has amended it by:

- (1) Changing the advisory committee to a joint legislative task force;
- (2) Requiring the task force to solicit input on the roles of the departments and making recommendations to the Governor, rather than the Legislature, to implement ideas on streamlining; and
- (3) By making the amount of the appropriation blank, and creating two separate appropriation provisions, each subject to the control of one of the presiding officers of each house.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 105, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 105, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 764 Ways and Means on S.B. No. 450

The purpose of this bill is to continue the ongoing work to transform the State's accounting system and budgeting system to a performance-based budgeting system, and to develop a managed process that enables state and county governments to implement public-private competition for government services.

Specifically, this bill:

- (1) Requires the committee created to transform the State's accounting system and budgeting system to a performance-based budgeting system, to continually submit annual reports of the committee's plans, recommendations, and implementing actions to the Legislature until further notice;
- (2) Requires the committee created to develop a managed process that enables state and county governments to implement public-private competition for government services, to:
 - (A) Monitor and review the managed process until further notice;
 - (B) Complete a draft of the managed process by December 31, 2000, and complete the managed process by December 31, 2001; and
 - (C) Continually submit annual reports of the committee's findings, plans, implementations, and recommendations for changes to such laws as may be necessary to implement the managed process, to the Legislature until further notice;
- (3) Requires the managed process to:
 - (A) Develop a costing model that accurately estimates and accounts for the total cost of providing a government function and develop methods by which government in-house costs can be compared to private sector costs;
 - (B) Consider the costs of conversion to the private sector, including transaction costs, disruption costs, contract monitoring costs, and revenue increases or decreases;
 - (C) Ensure that all costs, including the costs of liability insurance; product and performance liability; fringe, employee retirement, and disability benefits; and other allocated direct and indirect overhead costs are realistic and fair; and
 - (D) Develop a handbook and training program that educates government agencies in the competitive government process;
- (4) Repeals the law exempting new contracts for goods, services, or construction, which are entered into by the State or a county after the July 1, 2001, from having to include a provision stating that the contract, during its term, is subject to a single review by the State or the county pursuant to the managed process; and
- (5) Repeals the June 30, 2001, sunset date for those provisions related to the managed process, including the committee created to develop, monitor, and review the managed process, and public-private competition for government services in the aftermath of the Konno decision.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 450, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, D., Iwase, Tam).

SCRep. 765 Ways and Means on S.B. No. 536

The purpose of this bill is to allow state agency heads to purchase computer and communication systems with proceeds from the sale of general obligation bonds.

Your Committee finds that the cost of computers and communication systems can be an expensive undertaking for a state agency. At the same time, these systems are vital to the State if Hawaii is to keep up with technological advances in managing public safety database systems, networking with other agencies as well as other states in the United States, and education technology. Your Committee further finds that the life of these computers and communication systems plus their high initial cost lend themselves to purchase via general obligation bonds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Iwase, Tam).

SCRep. 766 Ways and Means on S.B. No. 600

The purpose of this bill is to establish a state interagency coordinating body headed by the Department of Public Safety to oversee the development and implementation of offender substance abuse treatment programs in the State.

Furthermore, this measure requires confidential interagency sharing of the medical, psychological, or mental health records of inmates in treatment programs. Other state agencies required to participate in the coordinating body include the Hawaii Paroling Authority, the Judiciary, the Department of Health, the Department of Human Services, and any other agency assigned oversight responsibilities for offender substance abuse treatment.

Your Committee finds that effective substance abuse treatment requires inmate trust and interagency coordination. First, offenders must be assured that medical and related information provided and shared among participating agencies during the course of substance abuse treatment will be kept confidential in accordance with federal law. Otherwise, inmates with substance abuse problems will be hesitant to actively participate in the treatment process. Second, effective substance abuse treatment of the individual requires an integrated agency-wide effort because many agencies have jurisdiction over some facet of substance abuse treatment and an individual receiving public assistance with substance abuse is likely to encounter more than one of those agencies during the treatment process.

Your Committee has amended this measure by replacing the Department of Public Safety with the Department of Health as the lead agency of the state interagency coordinating body. Your Committee has also deleted reference to a master plan, clarified the specific program subject to interagency coordination, tightened language regarding the confidentiality of inmate medical and related records, and specified that it is additional available funding that the agencies are required to pursue.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 600, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Chun, Ige, D., Iwase, Anderson).

SCRep. 767 Ways and Means on S.B. No. 646

The purpose of this bill is to reduce the cost of copying government records from 50 cents to not less than 6 cents per page.

Your Committee finds that public agencies collect and maintain a variety of records about taxpayers, public and private real property, agency decisionmaking, and rules. An informed public requires access to and occasionally, copies of these records. Your Committee supports the doctrine that citizen access to government records should be facilitated rather than curtailed. This bill, by reducing the cost of copying public records, will accomplish this policy.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 646, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Iwase, Tam).

SCRep. 768 Ways and Means on S.B. No. 654

The purpose of this bill is to require the appointment of first deputies or first assistants of legislative service agencies to be subject to the advice and consent of the Joint Legislative Management Committee.

Specifically, this measure requires the Ombudsman and the Director of the Legislative Reference Bureau to subject the appointments of their first assistants to the advice and consent of the Joint Legislative Management Committee. This measure also authorizes the Legislative Analyst and the Auditor to appoint first deputies subject to the advice and consent of the joint management committee.

Your Committee finds that the complexity and volume of operations within all the legislative service agencies necessitates the appointment of either a first deputy or first assistant to assist the directors or chief officers of those agencies. Furthermore, subjecting those appointments to the advice and consent of the Joint Legislative Management Committee ensures the impartiality of the persons appointed to those posts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 654 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Chun Oakland, Nakata, Taniguchi).

SCRep. 769 Ways and Means on S.B. No. 1031

The purpose of this bill is to appropriate \$8,000,000 in emergency general funds for fiscal year 1998-1999 to the Hawaii Health Systems Corporation.

Specifically, these funds are to be used by the Hawaii Health Systems Corporation to meet year 2000 compliance for systems and equipment, and to reduce the workers' compensation costs which resulted from the years before the transfer of community hospitals from the State to the health systems corporation.

Your Committee finds that compliance with year 2000 requirements is critical in every area of government service from public safety, health systems, transportation, and the like. Without year 2000 compliance, many parts of these systems that rely on computers

could degenerate and adversely affect peoples' lives. Any type of health care that is affected by computers could have detrimental effects on patients' lives if the computer being used is not year 2000 compliant. The Hawaii Health Systems Corporation needs the State's financial help in order to become year 2000 compliant and to pay for workers' compensation costs. This is an emergency appropriation because the Hawaii Health Systems Corporation would not otherwise be able to continue to provide services in the current fiscal year.

Your Committee has amended this bill by deleting the specific dollar amount appropriated.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1031, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1031, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

SCRep. 770 Ways and Means on S.B. No. 1033

The purpose of this administration bill is to make an emergency appropriation for the Child and Adolescent Mental Health Division of the Department of Health.

This measure is recommended by the Governor for immediate passage to make up for a critical funding emergency. Although funds were appropriated to the Department of Health for the Child and Adolescent Mental Health Division for the fiscal period beginning July 1, 1998, and ending June 30, 1999, the program will expend all appropriated funds before the end of the current fiscal year, and the Department will be unable to meet its fiscal obligation to provide services to certain emotionally disturbed children and adolescents. The increases in case referrals and court-directed placements are the primary contributing factors to this financial situation. The amount of \$31,928,758 is appropriated.

Upon further consideration, your Committee has amended this bill to delete the specific dollar amount of the appropriation for the purpose of promoting further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1033, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Taniguchi).

SCRep. 771 Ways and Means on S.B. No. 1055

The purpose of this bill is to expand the types of benefit payments that may be claimed by the State when abandoned in the Department of Human Services' Electronic Benefit Transfer System (system).

The bill also clarifies that an account serviced by the system is considered abandoned after an inactive period of ninety days instead of after the case related to the account is closed.

Presently, claims made by the State to abandoned payments in the system are statutorily restricted to benefits paid to families with minor dependents, general assistance to households without minor dependents, and aid to the aged, blind, and disabled.

This bill would repeal the statutory restriction and allow the Department to claim abandoned payments for other kinds of benefit payments in the transfer accounts.

Your Committee has amended the bill by making a technical change that has no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1055, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1055, S.D.1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, D., Ige, M., Nakata, Anderson).

SCRep. 772 Ways and Means on S.B. No. 1136

The purpose of the bill is to abolish the Board of Osteopathic Examiners and transfer its regulatory functions to the Board of Medical Examiners.

Your Committee finds that the abolition of the Board is consistent with past sunset reports from the Auditor. In 1985 and again in 1992, the Auditor recommended that the Board of Osteopathic Examiners be abolished and its duties folded into the Board of Medical Examiners, as regulatory activity by the board has historically been low and the two fields of medicine are becoming closer. The

Auditor pointed out in its 1992 study that twenty-one states used medical boards that combined medical doctors and osteopaths to regulate the professions.

Your Committee has amended the bill by increasing the number of osteopaths on the board from two to four, reinstating the number of physicians at seven, and by increasing total board size from eleven to thirteen.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1136, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Iwase, Nakata).

SCRep. 773 Ways and Means on S.B. No. 1176

The purpose of this measure is to exempt single-member limited liability companies (LLCs) from the general excise tax licensing, reporting, and tax liability when the member is licensed and pays the general excise tax on the business income of the LLC.

Your Committee received comments on this measure from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that this measure would ease the regulatory burden on sole proprietors who convert to LLC status, and ensure that the single-member LLC is taxed only once under the general excise tax law, if specific conditions are met.

Your Committee has amended this measure to clarify that only when the single member LLC has a member that is an individual may the exemption be claimed. Technical, nonsubstantive amendments were also made.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1176, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1176, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Ige, D., Ige, M., Anderson).

SCRep. 774 (Majority) Ways and Means on S.B. No. 1272

The purpose of this bill is to authorize the Board of Education to determine readiness standards for attendance at kindergarten and grade school.

In addition, this bill raises the minimum age for attendance at kindergartens and grade schools on the traditional calendar by approximately four months by requiring a child to meet the minimum age requirement established by law at the time of enrollment.

Your Committee finds that attendance at kindergarten and grade school should be based solely on the readiness of the child for school. Kindergarten and grade school are not intended to be taxpayer-supported baby sitting services, and a great deal of harm can be caused to the self-esteem of a child by basing early education decisions on any considerations other than the readiness of the child for school. Your Committee also finds that many private schools in Hawaii already retain a child for one school year if the child is born late in the calendar year in order to allow the child to mature more naturally. Some private schools even go so far as to prescribe different cut-off dates for boys and girls.

Your Committee has amended this bill by specifying that the minimum ages required for attending kindergarten and grade school are to be based on the age of the child on the first day of the school year as determined by the Board of Education.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1272, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, 1 (Chun Oakland). Excused, 2 (Ige, D., Iwase).

SCRep. 775 Ways and Means on S.B. No. 366

The purpose of this bill is to amend the composition of the Employer-Union Trust Concept Committee and to extend the scope of its mandated purpose.

Specifically, the measure clarifies that equal numbers of representatives from public employers and public employee organizations sit on the Committee and that a retired beneficiary of the Public Employees' Health Fund also be a member. The measure also:

- (1) Extends the Committee's term until June 30, 2001;

- (2) Requires the Committee to submit annual progress reports on November 21, 1999, May 15, 2000, and November 21, 2000, to the Legislature;
- (3) Requires the Committee to submit annual action plans to the Legislature on November 1, 1999, and November 1, 2000; and
- (4) Requires the Committee to submit a finalized proposal and implementing legislation no later than twenty days prior to the convening of the 2001 regular session.

Your Committee finds that more time is needed in order to formulate a comprehensive plan to reform the public sector health benefits program paradigm as we know it. However, your Committee is committed to ensuring that such a reform occurs in a reasonable amount of time so as to benefit current public sector employees.

Upon further consideration, your Committee has amended this bill to specify that the equal membership representing public employers and employee organizations be set at five each, that is, one representing the state government and four representing the four county governments, and five members representing employee organizations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 366, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 366, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 776

Ways and Means on S.B. No. 456

The purpose of this measure is to provide tuition waivers to students of Hawaiian ancestry to attend the University of Hawaii.

Specifically, the measure:

- (1) Appropriates funds to the Office of Hawaiian Affairs for the specific purpose of offsetting the costs incurred by the University of Hawaii in providing tuition waivers to students of Hawaiian ancestry;
- (2) Declares that any moneys expended for the purpose of providing tuition waivers to students of Hawaiian ancestry shall be credited against the State's pro rata share of ceded land revenue obligation to the Office of Hawaiian Affairs; and
- (3) Establishes an accounting process to effectuate the intent of the measure.

Your Committee finds that under section 5(f) of the Admission Act, the public land trust and the revenues derived therefrom may be used for the support of public schools and other public educational institutions. Because the University of Hawaii is indeed a public educational institution, it is compliant with the purpose of section 5(f) of the Admission Act. While much of the supporting testimony received by the Committees on Education and Technology and Water, Land, and Hawaiian Affairs indicated that these tuition waivers should be considered as an entitlement since the University of Hawaii at Manoa is situated on ceded lands, your Committee does not believe that the University is obligated to grant tuition waivers to Native Hawaiians to fulfill the educational purpose of section 5(f) of the Admission Act.

However, your Committee recognizes the duty of the State to provide increased opportunities and access to higher education for native Hawaiians. Your Committee finds that increased educational opportunities would create positive role models for young Hawaiians, and allow for greater advancement for native Hawaiians as a whole.

Your Committee further finds that another purpose of section 5(f) of the Admission Act is to provide for the betterment of the conditions of native Hawaiians. Thus, your Committee believes that while the University is not obligated to provide tuition waivers solely because it is located on ceded lands, the provision of these waivers would fall under another purpose of section 5(f) of the Admission Act. As such, your Committee believes that any money appropriated or allocated for the purposes of providing tuition waivers for native Hawaiian students should be credited against the State's pro rata share of ceded land revenue obligations.

Your Committee is also aware of the provisions of Article XII, section 6, of the Constitution of the State of Hawaii which requires the State to "...manage and administer the proceeds from the sale or disposition of the lands, natural resources, minerals and income derived from whatever sources for native Hawaiians and Hawaiians, including all income and proceeds from that pro rata portion of the trust referred to in section 4 of this article for native Hawaiians;..." (emphasis added). Your Committee interprets this provision to mean that any ceded land revenues for which the State seeks to claim credit in satisfaction of the pro rata share of revenue obligation first would have to either be allocated to the Office of Hawaiian Affairs prior to disbursement for the qualifying purpose, or be mutually agreed upon by the State and the Office of Hawaiian Affairs as a creditable expenditure of a pro rata share of ceded land revenues by the State.

Your Committee believes that the funding mechanism provided in the measure should:

- (1) Provide students of Hawaiian ancestry with the resources to obtain a post secondary education;

- (2) Fulfill at least in part, the State's obligation to use a portion of ceded land revenues for the purposes stated under the Admission Act, Article XII, Section 6, of the State Constitution, and Chapter 10, Hawaii Revised Statutes; and
- (3) Ensure that the University of Hawaii possesses the necessary financial resources to educate students of Hawaiian ancestry who receive tuition waivers.

Your Committee has amended the measure by replacing the blank amount appropriated with a zero dollar amount.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 456, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 456, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Tam, Taniguchi).

SCRep. 777 Ways and Means on S.B. No. 571

The purpose of this measure is to extend the Hawaiian Home Lands Trust Individual Claims Review Panel and the process to resolve individual claims of breaches of the Hawaiian Home Lands Trust for two more years.

Your Committee finds that Chapter 674, Hawaii Revised Statutes, established a process by which to resolve individual claims of breaches of the Hawaiian Home Lands Trust. The process, as originally conceived, was supposed to be concluded by 1997. Due to complications and the sheer volume of claims filed, not all claims could have been filed by the original closing date. To remedy these problems the Legislature enacted Act 382, Session Laws of Hawaii 1997, which in part, extended the claims resolution process until December 31, 1999, and required the Attorney General, the Director of Finance, the Chairperson of the Hawaiian Homes Commission, and the Chairperson of the Hawaiian Home Lands Trust Individual Claims Review Panel to convene and establish a revised formula by which to compensate claimants. In 1998, Circuit Court Judge Marie Milks opined that the composition of the group to determine a revised formula had the appearance of bias and, therefore, ruled that the group was unconstitutional, thereby further slowing down the claims resolution process.

Your Committee believes that justice must prevail for those beneficiaries who have faithfully and patiently waded through the complex claims resolution process only to be put off year after year. Unfortunately, with the recent Circuit Court ruling which has clouded the issue of the amount of compensation owed to claimants, your Committee believes that a further extension is necessary.

Your Committee has amended the measure by:

- (1) Adding language that establishes a special account in the Hawaiian Home Lands Trust Fund for the purpose of compensating successful claimants who were awarded a monetary judgment by the Hawaiian Home Lands Trust Individual Claims Review Panel under Chapter 674, Hawaii Revised Statutes;
- (2) Transferring the cash value credit (\$14,498,565) the State sought to obtain from the Department of Hawaiian Home Lands for lands conveyed by Act 95, Session Laws of Hawaii 1996, for settlement payments owed under Chapter 673, Hawaii Revised Statutes, to the special account in the Hawaiian Home Lands Trust Fund;
- (3) Authorizing the issuance of general obligation bonds in the amount of \$1,936,111, to cover the additional amount necessary to compensate successful claimants who were awarded a monetary judgment by the Hawaiian Home Lands Trust Individual Claims Review Panel under Chapter 674, Hawaii Revised Statutes;
- (4) Sunsetting the special account on June 30, 2004; and
- (5) Stating that the awards authorized by the Hawaiian Home Lands Trust Individual Claims Review Panel in either their 1997 or 1998 report and settled under this measure shall not serve as a precedent for any other unresolved claims brought under Chapter 674, Hawaii Revised Statutes.

Your Committee finds that since the enactment of Chapter 674, Hawaii Revised Statutes, the State has fallen on hard financial times. Although your Committee believes that the Legislature remains committed to resolving past breaches of trust with individual claimants, general revenues to fund such a compensation package are virtually nonexistent.

In order to compensate successful claimants who have been awarded monetary judgments by the Hawaiian Home Lands Trust Individual Claims Review Panel established pursuant to section 674-3, Hawaii Revised Statutes, without adversely impacting on the State's general fund, your Committee has established an innovative funding mechanism that involves leveraging of the cash value of lands transferred to the Department of Hawaiian Home Lands.

Your Committee also finds that Act 95, Session Laws of Hawaii 1996, authorized the transfer of certain real property developments contained in the Villages at Kapolei on Oahu and the Villages at Laiopua on Hawaii to the Department of Hawaiian Home Lands so that the State would obtain credit for its settlement with the Department of Hawaiian Home Lands authorized under Act 14, Special Session Laws of Hawaii 1995. As background, a part of the settlement agreed to under Act 14, Special Session Laws of Hawaii 1995, required the State to pay the Department of Hawaiian Home Lands \$30 million annually for twenty years. This cash

payment could be offset by the prepayment of excess amounts over the annual \$30 million payment, or by the transfer of real property from the State to the Department of Hawaiian Home Lands. Act 95, Session Laws of Hawaii 1996, specifically transferred the real property to gain credit under section 6(1) of Act 14, Special Session Laws of Hawaii 1995.

Your Committee has learned however, that the cash value of the lands conveyed to the Department of Hawaiian Home Lands, which are estimated at \$14,498,565, have not yet been credited to the State's benefit by the Department of Hawaiian Home Lands. In essence, the lands conveyed have not served any purpose towards resolving claims under Chapter 673 or 674, Hawaii Revised Statutes.

Based on these findings, your Committee believes that the lands conveyed by the State to the Department of Hawaiian Home Lands pursuant to Act 95, Session Laws of Hawaii 1996, should not "lie fallow" with regard to the credit the State may be able to receive for the settlement of past claims against it and that the cash value of the lands should be immediately credited for the benefit of native Hawaiian beneficiaries.

To this end, your Committee further finds that there exists a class of native Hawaiian beneficiaries that have successfully engaged the process established under Chapter 674, Hawaii Revised Statutes, to resolve their individual claims of breach of the Hawaiian Home Lands Trust. These beneficiaries' awards have been documented in the Hawaiian Home Lands Trust Individual Claims Review Panel's 1997 annual report. The approximate cost of compensating these beneficiaries is estimated at \$16.4 million.

Your Committee believes that rather than let the cash value of the lands conveyed pursuant to Act 95, Session Laws of Hawaii 1996, go uncredited under the State's settlement agreement for breaches of the Hawaiian home lands trust brought under chapter 673, Hawaii Revised Statutes, the cash value should be credited in the State's favor toward compensating native Hawaiian beneficiaries that have successfully asserted claims against the State under Chapter 674, Hawaii Revised Statutes. This would be accomplished by requiring the Department of Hawaiian Home Lands to expend funds from the Hawaiian Home Lands Trust Fund, the fund in which the \$30 million dollar annual settlement payments are deposited, to compensate successful claimants.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 571, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 571, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 778 (Majority) Ways and Means on S.B. No. 656

The purpose of this bill is to establish a citizen's advisory committee to review the activities of the Public Utilities Commission and the public utilities, advise the consumer advocate, and ensure public participation in the process.

This measure provides a structured opportunity for the public to participate in the process that governs the public utilities. Establishing a citizen's advisory committee to ensure public participation in public utilities activities is important because it is the consumers of the public utilities that are affected by the decisions made.

Your Committee finds that establishing a citizen's advisory committee is an effective way to promote public participation in the regulation of public utilities.

Your Committee has amended this bill to require that the citizen's advisory committee have representation from each county in the State, and by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 656, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 656, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, 1 (Buen). Excused, 3 (Ige, D., Iwase, Tam).

SCRep. 779 (Majority) Ways and Means on S.B. No. 953

The purpose of this bill is to create the Hawaii Environmental Authority, within the Department of Land and Natural Resources for administrative purposes, to develop and oversee the State's environmental protection policies.

The bill requires the Authority to develop a strategic long-range environmental protection plan, to be updated every three years, to preserve and enhance the State's natural and cultural resources and protect and market the State as a desirable visitor destination, taking into account the economic, social, and physical impacts of tourism on the State. The bill also creates an environmental special fund the moneys in which are to be used to carry out the functions and duties of the Authority including funding the salaries and expenses of the Office of Environmental Quality Control established in section 341-3, Hawaii Revised Statutes. The bill also requires the Office of Environmental Quality Control to provide assistance to the Authority beginning on January 1, 2000.

Your Committee has amended this bill by making technical, nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 953, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 953, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, 1 (Buen). Excused, 3 (Ige, D., Iwase, Tam).

SCRep. 780 Ways and Means on S.B. No. 1082

The purpose of this bill is to provide a permanent source of funding for the Bureau of Conveyances.

This measure establishes the Bureau of Conveyances special fund and deposits all revenues from the conveyance tax into the fund along with a portion of other fees received by the Bureau of Conveyances. This measure also repeals the distribution of revenues to the rental housing trust fund and the natural area reserve fund.

Your Committee finds that returning the conveyance tax revenues to the Bureau of Conveyance special fund to plan, implement, and operate a recording system is an effective and efficient way to finance the needs of the Bureau. Your Committee, however, finds it unnecessary to repeal the distribution of revenues to the rental housing trust fund and the natural area reserve fund. Accordingly, your Committee has amended this measure to have twenty-five per cent of the revenues of the Bureau of Conveyances special fund distributed to the rental housing trust fund and twenty-five per cent distributed to the natural area reserve fund.

Your Committee has also amended this measure by correcting the references to the imposition of the conveyance tax and making other technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1082, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1082, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 781 Ways and Means on S.B. No. 1146

The purpose of this bill is to allow a Hawaiian homestead lessee to transfer the lessee's interest to a spouse, child, or grandchild who is at least one-quarter Hawaiian.

Your Committee finds that the Hawaiian Home Lands Act has been amended to allow a lessee to pass on the lessee's interest to a relative who is one-quarter Hawaiian upon the lessee's death. The proposed change would allow this to be done while the lessee is still alive. The amendments made by this bill will not take effect until consent is obtained from the United States government.

Your Committee has amended the bill to make technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1146, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1146, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 782 Ways and Means on S.B. No. 1147

The purpose of this bill is to require the Workforce Development Council to fulfill the functions of the State Workforce Investment Board for the purposes of the federal Workforce Investment Act of 1998, and to expand the size, composition, and duties of the Council.

Specifically, this bill:

- (1) Increases the membership of the Workforce Development Council to twenty-nine members;
- (2) Increases the number of private-sector, business representatives on the Council to fifteen, including at least one member from each of the four county workforce development boards;
- (3) Abolishes the seat on the Council currently filled by a representative from a community-based organization that is not a native Hawaiian organization that operates workforce development programs;
- (4) Adds two representatives of labor, two mayors or their designated representatives, and four members of the Legislature to the membership of the Council;

- (5) Requires the Council to assist the Governor in, among other things:
- (A) Developing the State's plan for the use of federal workforce investment funds;
 - (B) Developing and continuously improving the statewide and local workforce investment systems and the one-stop delivery systems;
 - (C) Developing allocation formulas for the distribution of funds for adult employment and training activities and youth activities;
 - (D) Developing and continuously improving comprehensive state performance measures, including state-adjusted levels of performance, to assess the effectiveness of workforce investment activities in the State;
 - (E) Preparing the annual report to the United States Secretary of Labor; and
 - (F) Developing the statewide employment statistics system; and
- (6) Requires the Council to act as the designated state entity to conduct activities relating to occupational and employment information for vocational and technical education programs.

Your Committee has amended this bill by:

- (1) Specifying that the four council members from the Legislature are to be appointed by the Governor from lists of nominees submitted by the President of the Senate and the Speaker of the House of Representatives;
- (2) Requiring the Governor to submit the annual report prepared for the United States Secretary of Labor to the Legislature as soon as available; and
- (3) Making technical nonsubstantive changes for purposes of consistency and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1147, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1147, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Ige, M., Iwase, Nakata, Anderson).

SCRep. 783 Ways and Means on S.B. No. 1158

The purpose of this bill is to appropriate funds to compensate those crime victims who are awarded compensation during the period from July 1, 1999, to June 30, 2000.

Your Committee finds that the Crime Victim Compensation Commission compensates certain victims of violent crimes for their damages incurred, including compensation for cleaning of the crime scene, clothing taken as evidence, lost earnings due to crime-related injuries, funeral and burial expenses, moving expenses, counseling, medical care, and pain and suffering. Your Committee further finds that this appropriation request is based on the compensation awards paid during the last fiscal year.

Your Committee has amended this bill to change the amount appropriated to an unspecified amount to facilitate continuing discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1158, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1158, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Chun, Taniguchi).

SCRep. 784 Ways and Means on S.B. No. 1269

The purpose of this measure is to provide \$11,100,000 for an additional 283 permanent positions and operating funds to the Department of Education for fiscal year 1998-1999.

Your Committee finds that this bill will enable the Department of Education to fulfill the requirements of the Felix consent decree without the reduction or discontinuation of other essential services for students in regular and special education programs.

Your Committee has amended the bill by:

- (1) Changing the amount appropriated to an unspecified amount to facilitate continuing discussion on this matter; and
- (2) Making technical nonsubstantive changes for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1269, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1269, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Chun, Taniguchi).

SCRep. 785 Ways and Means on S.B. No. 1300

The purpose of this bill is to make an emergency appropriation for \$2,132,595 for fiscal year 1998-1999 to return to the federal government its share of health insurance rate credits and rebates received by the State.

This bill is recommended by the Governor for immediate passage. Act 141, Session Laws of Hawaii 1998, required the Public Employees Health Fund to return to the state general fund the amount of \$31,315,640, representing the State's share of health insurance carrier refunds, rate credits, and accrued interest. The federal government provides the State with funding for fringe benefit costs which include health insurance premium costs. As a result, the federal government is entitled to a portion of that refund and the United States Department of Health and Human Services is requesting that the State make immediate payment of that portion.

Upon further consideration, your Committee has amended this bill by deleting the appropriated dollar amount for the purpose of promoting further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1300, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1300, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Chun, Taniguchi, Anderson).

SCRep. 786 Ways and Means on S.B. No. 1438

The purpose of this bill is to define "state contractor" for the purposes of providing a preference to state contracts and increase the allowable margin for preferred contractors.

The Defense Appropriations Act has, for many years, required defense contracts in the State to employ Hawaii residents. The Federal Acquisition Regulations generally require the contracting officers to follow local laws and practices whenever possible within the contracting provisions. Many of the federal contracts in Hawaii have been awarded to out-of-state contractors who bring in temporary workers residing in Hawaii for the duration of the contract. By defining "state contractor" and "state resident" in the state procurement code the federal contractors will have clear guidelines to evaluate the compliance of their contractors under the Defense Appropriations Act.

This measure also increases the allowable margin of difference from seven per cent to fifteen per cent for preferred state contractors. The preference is provided to level the playing field for local contractors who may have a higher overhead than some out-of-state contractors. The increase from seven to fifteen per cent for the allowable margin of difference is more likely to provide a real preference to state contractors.

Your Committee finds that taking these steps will strengthen the construction industry in Hawaii and provide access to additional opportunities for local contractors.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1438, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 787 Ways and Means on S.B. No. 1542

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist the Honolulu Neighborhood Housing Services, a Hawaii not-for-profit corporation, in planning, designing, and constructing a senior citizen lifecare retirement community in the State.

Your Committee finds that there is an urgent need to provide affordable, quality lifecare residences and services for Hawaii's aging population. Accordingly, your Committee finds that it is in the public interest to encourage the development of senior citizen lifecare retirement communities in the State through the issuance of special purpose revenue bonds. Furthermore, your Committee notes that

the Honolulu Neighborhood Housing Services may be assisted through the issuance of special purpose revenue bonds, because this project is a health care project as defined in part II, chapter 39A, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1542 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Chun, Ige, D., Iwase, Anderson).

SCRep. 788 Commerce and Consumer Protection on S.B. No. 513

The purpose of this measure is to allow family child care homes to operate in condominiums, townhouses, and apartments.

Testimony in support of this measure was presented by the Department of Human Services, People Attentive to Children, and five individuals. The Department of Health, Good Beginnings Alliance, and numerous individuals, including many who signed a petition, though not present, submitted written testimony in support. Testimony in opposition to this measure was presented by the Management Specialists Company, Hawaiiana Management Company, Ltd., Hawaii Independent Condominium & Cooperative Owners, Hawaii Council of Associations of Apartment Owners, and three individuals. The Hawaii Fire Chiefs Association, Fire Department of the City and County of Honolulu, and numerous individuals, though not present, submitted written testimony in opposition. Informational testimony was presented by State Farm Insurance and the Commission on Persons with Disabilities.

Your Committee finds that current restrictions for a number of condominium associations do not permit family child care homes to operate in condominiums, townhouses, and apartments. Yet, your Committee feels that the need for child care is undisputed and that more child care homes should be allowed in these buildings. However, apartment owner associations typically disallow child care homes for fear of liability. This measure is intended to assuage the concerns over liability by requiring the family child care home to obtain liability insurance to cover the child care home.

Your Committee has amended this measure by:

- (1) Restricting the protections in this measure to owner occupants who are child care providers;
- (2) Limiting the number of family child care homes in a complex to at least one unit but not more than three per cent of the total number of units;
- (3) Restricting the protections in this measure to family child care homes located on the first four floors of a building;
- (4) Clarifying that the new section does not apply to associations that allow family child care homes to operate under conditions less restrictive than provided in this measure;
- (5) Deleting statutory amendments to section 346E-3, Hawaii Revised Statutes, relating to the Commission on Persons with Disabilities; and
- (6) Making technical, nonsubstantive amendments for clarity and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection, that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 513, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 513, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, none.

SCRep. 789 Commerce and Consumer Protection on S.B. No. 845

The purpose of this measure is to change the scope of social worker licensing to include "bachelor's social worker".

The Board of Psychology, the National Association of Social Workers, the Hawai'i Nurses' Association, and nine individuals presented testimony in support of the measure. The Hawaii Government Employees Association, the Brigham Young University Hawaii Social Work Department and forty-six individuals, though not present at the hearing, submitted written testimony in support of the measure.

The Hawaii Psychological Association and eight individuals presented testimony in opposition to the measure. Forty-two individuals, though not present at the hearing, submitted written testimony in opposition to the measure.

The Department of Commerce and Consumer Affairs presented comments on the measure. The Clinical Social Work Federation, though not present at the hearing, submitted written comments on the measure.

Your Committee finds that a single level licensing program for social work professionals is inadequate to protect the health, safety, and welfare of the public. Social workers' skills and competency levels vary depending upon their level of education and degree of

clinical experience. In order for consumers to make informed choices when selecting a social worker, clear distinctions need to be established in the law between the different categories of social workers, and the permissible scope of practice for each category needs to be clearly defined.

Your Committee further finds that the American Association of State Social Work Boards encourages states to adopt its model social work licensing scheme that establishes three levels of licensing: a bachelor's in social work (BSW) license, a master's in social work (MSW) license, and a clinical social worker license.

Your Committee has amended this measure by:

- (1) Retaining a licensing category for individuals with a bachelor's degree in social work, but providing that these individuals shall be known as "social work associates" (SWA);
- (2) Creating a new licensing category of "licensed clinical social worker" (LCSW) for individuals with clinical social work experience beyond that of a "licensed social worker", who have met certain certification and examination requirements;
- (3) Deleting the definition of "social worker";
- (4) Making the licensure of SWAs effective upon the measure's approval, but delaying the licensure of LCSWs until December 31, 2001; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 845, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 845, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 790 Commerce and Consumer Protection on S.B. No. 837

The purpose of this measure is to allow patients direct access to dermatologists without referral from a primary care physician (PCP). This measure would also require health care plans that include dermatological coverage to reimburse the plan participant or pay the provider for dermatological services rendered regardless of whether a referral or authorization was obtained prior to delivery of services.

The Hawaii Federation of Physicians and Dentists, Hawaii Dermatological Society, and two individuals presented testimony in support of the measure. The Hawaii Medical Services Association and Kaiser Permanente presented testimony in opposition to the measure. The Insurance Commissioner presented testimony in support of the measure with proposed amendments.

Your Committee finds that using PCP's as gatekeepers, generally lowers the cost of health insurance and results in more comprehensive care being provided in the most cost-effective manner. However, if the use of PCP's as gatekeepers, endangers the quality of health care services offered, then direct access to a medical specialist should be available for consumers.

Your Committee further finds that a recently published study at one of the leading medical centers revealed that the working diagnosis of skin disease by non-dermatologists was incorrect in 68% of the patients. In the case of skin cancer, error or even delay in detection and proper treatment could be fatal.

Your Committee further finds that direct access to dermatologists will not increase the overall costs of medical care. Because dermatologists offer faster, more accurate diagnosis and superior knowledge of the best available treatments, the consumers will need to make fewer visits, resulting in less lost time from work, in addition to a generally higher quality of service.

Your Committee has amended this bill by deleting the section that addresses fraternal benefit societies, because fraternal benefit societies in Hawaii do not offer health insurance to their members.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 837, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 837, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 3 (Bunda, Ihara, Inouye).

SCRep. 791 Commerce and Consumer Protection on S.B. No. 1073

The purpose of this measure is to subject condominium property regimes to county zoning and development ordinances and rules and provide for county review of such projects prior to recordation or the issuance of a final public report. Additionally this measure prohibits condominium property regimes on agricultural designated land.

The Department of Business, Economic Development and Tourism, Real Estate Commission, Department of Planning and Permitting for the City and County of Honolulu, the Land Use Research Foundation of Hawaii, the Kona Action Group to Address Flooding, Van Pernis, Smith, and Vancil, Attorneys at Law, and one individual, presented testimony in support of this measure. The Hawaii Association of Realtors and the Hawaii State Bar Association presented testimony opposed to this measure.

Your Committee finds that county land use ordinances and regulations ensure that a site is suitable for a proposed project, in terms of its impact on traffic, drainage and other important services, as well as the cumulative impacts on the physical environment and the surrounding community.

Your Committee further finds that the extent of the counties' authority over the uses proposed by condominium property regimes is often ambiguous. This measure would clarify the counties' authority over those uses.

Your Committee has amended this measure to:

- (1) Enable the counties to adopt supplemental rules and regulations to ensure CPR conformance with county ordinances;
- (2) Delete the ban of CPRs on agricultural designated land;
- (3) Delete the requirement for projects to be reviewed by the counties prior to recordation; and
- (4) Delete sections 5 and 6 of the measure, which would have required a developer to file a site plan with the counties prior to recordation.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1073, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1073, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 792 (Joint) Commerce and Consumer Protection and Judiciary on S.B. No. 1510

The purpose of this bill, as received by your Committees, is to require professionals and businesses to maintain liability insurance and to exclude professionals and businesses that maintain the required liability insurance from the definition of "joint tortfeasors."

Testimony in support of this measure was submitted by the Building Industry Association of Hawaii, the Hawaii Association of Realtors, and Pacific Geotechnical Engineers, Inc. Testimony commenting on this measure was submitted by the Department of Commerce and Consumer Affairs, State Farm Insurance Companies, the Hawaii Insurers Council, and Consumer Lawyers of Hawaii. Testimony in opposition to this measure was submitted by Consulting Structural Hawaii, Inc.

Your Committees further find that Hawaii's liability insurers are in a unique position to provide important empirical data illuminating the effectiveness of Hawaii's tort system generally. A Tort Law Study Group was convened in 1997 pursuant to S.C.R. 256, H.D. 1, to undertake a comprehensive study of the tort law system and to submit recommendations to the legislature for possible reforms. The Study Group found that there was a paucity of empirical data available regarding tort claims in Hawaii, and recommended that the Insurance Commissioner establish a procedure for the systematic collection of tort claims data. The vast majority of tort claims involve liability insurance claims of some sort. Your Committees believe that insurers have the capability to track empirical data of the sort requested by the Study Group, but that insurers may have concerns that disclosure of such information would give an advantage to competitors or to plaintiffs' attorneys, or would reveal confidential information about specific claims. Explicitly permitting and requiring that such information be collected and provided to the Insurance Commissioner will allow the Insurance Commissioner to compile an accurate picture of the operation and effectiveness of Hawaii's tort law system.

Your Committees are concerned that property and casualty insurance lines generally, including the insurance coverages affecting most businesses, have been reaping profits from Hawaii business that are well above the national average and, for some lines, are the highest in the nation. The Insurance Commissioner has broad powers to regulate insurance premiums for worker's compensation and automobile insurance, including the power to reduce rates when appropriate. Your Committees believe this power should be extended to allow the Insurance Commissioner to roll back rates on all lines as appropriate to prevent excessive insurance profits at the expense of Hawaii's businesses and homeowners.

Your Committees find that there is interest in the business and professional communities in the abrogation of joint and several liability, perhaps in exchange for carrying a mandatory minimum level of liability insurance. However, it is not clear who would be best suited to set minimum liability insurance levels for a broad range of businesses and professions. Further, the potential costs and economic effects of this measure are unsusceptible to any accurate estimation at this time. For these reasons, your Committees believe it will be best to first examine the feasibility of this approach for a limited segment of the professional and business communities. Because the real estate community, in particular, has indicated interest in this measure, and because the real estate community is subject to state regulation, your Committees believe that real estate professionals will be an appropriate group to study and eventually test a system in which mandatory minimum insurance levels are combined with exemption from joint and several liability.

Upon further consideration, your Committees have amended this measure by:

- (1) Deleting the proposed new article relating to mandatory liability insurance;
- (2) Deleting the proposed amendment to the definition of joint tortfeasors;
- (3) Inserting a section requiring the Insurance Commissioner to study the feasibility of setting mandatory minimum insurance levels for real estate agents and brokers, in exchange for an exemption from joint and several liability for complying agents and brokers;
- (4) Adding a new section to the Hawaii Revised Statutes requiring the Insurance Commissioner to track tort claims data and permitting insurers to collect tort claims data as requested by the Insurance Commissioner; and
- (5) Allowing the Insurance Commissioner to adjust rates for all types of insurance.

As affirmed by the records of votes of the members of your Committees on Commerce and Consumer Protection and Judiciary that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1510, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1510, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 4 (Hanabusa, Ihara, Matsuura, Anderson).

SCRep. 793 Commerce and Consumer Protection on S.B. No. 665

The purpose of this measure is to consider motorcycle education courses approved by an armed services branch installation commander that meets the Motorcycle Safety Foundation requirements as a qualifying motorcycle education course for the purpose of obtaining motorcycle liability insurance coverage.

The Department of Transportation, the State Director of Street Bikers United, Carr's Insurance Agency, the Hawaii Motorcycle Dealers Association, and a concerned citizen presented testimony in support of the measure. The Treasurer of Street Bikers United and the Secretary of the Honolulu Chapter of Harley Owners Group, although not present, submitted written testimony in support of the measure.

The Insurance Commissioner presented testimony in opposition to the measure. The Chancellor of Community Colleges of the University of Hawaii and a concerned citizen, although not present, submitted written testimony in opposition to the measure.

Your Committee finds that motorcycle safety courses save lives and reduce insurance costs. Every opportunity should be taken to encourage and facilitate motorcycle driver enrollment in these courses.

Your Committee further finds that under the current law, only those motorcycle drivers who have enrolled in a motorcycle safety course through the University of Hawaii are allowed to obtain required liability insurance. At the same time, those enrolled in courses offered through the United States Armed Forces are not allowed to obtain temporary insurance, even though both courses have identical curriculum. This measure would allow greater opportunity for motorcycle drivers to enroll in courses in compliance with state law and obtain the necessary insurance.

Your Committee has amended the measure to:

- (1) Delete the amendment, which would allow persons to obtain liability coverage by enrolling in a motorcycle education course;
- (2) Allow persons to obtain a temporary insurance binder, if they have enrolled in a motorcycle education course which is approved by the installation commander of any branch of the armed services, and meets the Motorcycle Safety Foundation standards; and
- (3) Make technical and nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 665, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 794 Commerce and Consumer Protection on S.B. No. 783

The purpose of this measure is to permit a patient to direct an insurer to directly reimburse a nonparticipating dental provider.

The Insurance Commissioner and three individuals presented testimony in support of the measure. The Hawaii Dental Association and twenty-nine individuals, though not present at the hearing, submitted written testimony in support of the measure.

Queen's Health Management, the Chamber of Commerce of Hawaii, Legislative Information Systems of Hawaii, the Hawaii Building and Construction Trades Council, AFL-CIO, and the Hawaii Medical Services Association presented testimony in opposition to the measure. The Hawaii Medical Group Management Association, the Hawaii State AFL-CIO, and the Hawaii Government Employees Association, though not present at the hearing, submitted written testimony in opposition to the measure.

This measure gives the patient the option to allow the dental plans to directly reimburse the provider. Your Committee notes that this measure does not require a plan to reimburse a nonparticipating provider at the same or equal rate of reimbursement as a participating provider.

Your Committee has amended this measure by:

- (1) Changing the effective date of the bill to July 1, 2001, to provide dental plans sufficient time to implement the direct reimbursement option;
- (2) Adding similar language to other chapters in Hawaii's insurance laws so that all plans are covered; and
- (3) Making technical amendments for style and conformity.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 783, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 783, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Bunda).

SCRep. 795 Commerce and Consumer Protection on S.B. No. 785

The purpose of this measure is to require the Public Utilities Commission (PUC) to replace an existing telecommunications provider with an alternative provider when the PUC determines that an area of the State has less than adequate service and the existing provider fails to satisfy its burden in response to an order to show cause why the PUC should not authorize an alternative provider for that area. The measure also allows the alternative provider to acquire the former provider's property by eminent domain as may be necessary for the provision of basic legal exchange service in the area.

The Department of Commerce and Consumer Affairs, the Department of Business, Economic Development, and Tourism, Oceanic Communications, AT&T, TelHawaii, Inc., and GST Telecom Hawaii presented testimony in support of the measure. Four individuals not present at the hearing submitted written testimony in support of the measure. GTE Hawaiian Tel and the International Brotherhood of Electrical Workers Local Union 1357 presented testimony in opposition to the measure.

Your Committee finds that under current law the PUC is mandated, upon finding that any area of the State has less than adequate telecommunications service, to require the existing telecommunications provider to show cause why the PUC should not authorize an alternative telecommunications provider for the area.

Implicit in the law's mandate is the PUC's authority, upon the failure of the existing provider to justify its continued operation in an inadequately served area, to decertify the existing provider and to select an alternative provider to serve the area. Your Committee finds that this measure is necessary to clarify and make explicit the law's intent to empower the PUC to replace an existing carrier with an alternative carrier. It is not your Committee's intent in passing this measure to interfere with the PUC's existing powers and authority.

Your Committee has amended the measure by:

- (1) Deleting the purpose section of the measure;
- (2) Deleting the amendment to the eminent domain law that establishes a public utility's right to exercise the power of eminent domain upon written notification of a proposed condemnation to the PUC, and after the PUC has determined that the proposed condemnation is necessary and in the public interest, and that the public utility will use the property for its utility operations;
- (3) Making optional the PUC's decertification of a telecommunications provider and the selection of an alternative telecommunications provider upon the existing provider's failure to show cause to the PUC why it should not be decertified for providing less than adequate service in a particular area;
- (4) Deleting the provision establishing a replacement telecommunications provider's right to acquire under power of eminent domain the existing telecommunications provider's property and requiring the payment of just compensation for property taken by eminent domain;

- (5) Deleting the provision repealing section 101-43, Hawaii Revised Statutes, relating to requirements prior to the exercise of the power of eminent domain;
- (6) Deleting the measure's retroactivity provision; and
- (7) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 785, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 785, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, 1 (Matsuura).

SCRep. 796 Commerce and Consumer Protection on S.B. No. 873

The purpose of this measure is to require the use of the Uniform Standards of Professional Appraisal Practice (USPAP) to determine real property fair market value for condemnation and lease renegotiation purposes. This measure also allows for the reopening of lease renegotiations that were concluded within the last five years for reconsideration under USPAP standards.

Seventeen individuals, though not present at the hearing, submitted written testimony in support of the measure. The Housing and Community Development Corporation of Hawaii and the Hawaii Chapter of the Appraisal Institute presented testimony in opposition to the measure. The Land Use Research Foundation of Hawaii and Kamehameha Schools Bishop Estate, though not present at the hearing, presented testimony in opposition to the measure.

Your Committee finds that all real estate transactions performed by real estate appraisers licensed or certified to practice in this State must comply with USPAP. This measure would provide for consistency in the appraisal of a property's fair market value by requiring the use of USPAP in condemnation proceedings and lease renegotiations.

Your Committee has amended this measure by:

- (1) Deleting the requirement that USPAP be used in fixing the compensation or damages to be paid for property condemned under the power of eminent domain;
- (2) Making optional the use of USPAP to determine the fair market value of real property for lease renegotiation purposes;
- (3) Deleting the option of reopening lease negotiations concluded within the last five years for reconsideration under USPAP;
- (4) Deleting the requirement that all lessees have equally available to them remedies relating to the lease of real property;
- (5) Postponing the measure's effective date to January 1, 2004; and
- (6) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 873, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 873, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 2 (Ihara, Matsuura).

SCRep. 797 Commerce and Consumer Protection on S.B. No. 984

The purpose of this measure is to permit certain contracts of warranty or guaranty to include coverage for towing and substitute transportation.

The Hawaii Automobile Dealers' Association presented testimony in support of this measure. One individual, while not present, submitted testimony in support. The State Insurance Commissioner testified in opposition to the measure.

Your Committee finds that all other states allow the extended service contracts sold by car dealers to provide towing, rental car, and other types of services. In Hawaii, the Insurance Division of the Department of Commerce and Consumer Affairs has maintained that by statute, additional services such as towing and car rental make the service contract an insurance product. For an insurance product, the dealer would have to be licensed as an insurer and only licensed agents may sell the product.

Your Committee finds that under current law, the Insurance Division does not have the power to exempt motor vehicle service contracts that include other services, and also finds that the Insurance Division is willing to implement the National Association of Insurance Commissioner's (NAIC) Service Contract Model Act if it becomes law.

The NAIC goes through a lengthy process involving numerous meetings and extensive discussion with all parties that may be affected by a law before a model act is adopted. Your Committee feels confident that the NAIC Service Contract Model Act contains provisions to adequately protect consumers.

Your Committee has amended this measure by repealing paragraph (14) of section 431:1-209, Hawaii Revised Statutes, and including the NAIC Service Contract Model Act. The Model Act was changed so that only motor vehicle service contracts or extended warranties would fall under this measure.

As amended, this measure sets forth requirements that must be met before motor vehicle service or extended warranty contracts can be sold, including other services such as towing and car rental. In order to assure performance on these contracts, the measure requires that each provider of service must either insure all service contracts under a reimbursement insurance policy, set up a reserve fund, or meet minimum net worth requirements.

As affirmed by the record of votes of the members of your Committee on Commerce and Consumer Protection that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 984, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 984, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, none.

SCRep. 798 Ways and Means on S.B. No. 4

The purpose of this bill is to prohibit state agencies from charging other state agencies for goods or services procured with general funds.

Your Committee has gutted the bill and in its place has inserted the contents of S.B. No. 38, S.D.1 without reference to the counties and an annual audit. The resulting bill authorizes the auditor to hire independent auditors to conduct audits of state government to ultimately reduce government waste and enhance government spending. The auditor is to report to the 2000 legislative session with its findings and recommendations.

Your Committee further finds that this bill is necessary to address the public demand for more accountability from state government and to eliminate government waste, fraud or the excesses that have plagued the administration for many years.

Additionally, your Committee has included provision to create a joint legislative task force to conduct interim hearings related to state government efficiency. The task force is to receive public input and may submit suggestions to the auditor on possible subjects for audits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 4, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 4, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 799 Ways and Means on S.B. No. 46

The purpose of this measure is to amend chapters 37 and 302A, Hawaii Revised Statutes, to facilitate the implementation of school-based budgeting.

Specifically, this measure:

- (1) Requires the Department of Education to provide each school with the skills and information necessary for each school to prepare its own budget, and for each school to do so; and
- (2) Requires that prior to the beginning of each school year, schools prepare reports on their expenditures in the previous fiscal year.

Your Committee concurs with the concept that individual schools should be given increased involvement in the preparation and execution of each school's budget. This measure would make schools responsible for the preparation of their budgets, and give them maximum flexibility in the expenditure of their moneys.

However, your Committee has received information from the individual schools that they do not have the resources or the expertise to prepare their own budgets. Additionally, with the current economic hardship of the State, the Department of Education is not able to provide funds for each school to hire fiscal officers.

Nevertheless, your Committee believes that schools must assume more responsibility for their budgets. Your Committee finds that while the Department of Education currently allocates funds on a school-by-school basis, and gives schools flexibility to expend funds, these allocations are not made known to the individual schools until August, well after the Department of Education's budget is finalized by the Legislature, and only weeks before the school year commences. This does not give the individual schools adequate time to determine the most effective expenditure options.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the requirement that each individual school prepare its own budget;
- (2) Requiring the Department of Education to submit a report on its proposed school-by-school budget to the Legislature and the individual schools by the opening day of each regular session;
- (3) Deleting the amendment to section 37-34.5, Hawaii Revised Statutes, as it is no longer necessary; and
- (4) Making technical amendments for the purposes of clarity.

Your Committee notes that this measure focuses on school-based budgeting, and the issue of educational accountability is dealt with in another measure. The Committee on Education and Technology has passed S.B. No. 1307, S.D. 1, which also mandates increased accountability by the Department of Education and the schools. S.B. No. 1307, S.D. 1, establishes a comprehensive accountability system for school performance.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 46, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 46, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Ige, M.).

SCRep. 800 Ways and Means on S.B. No. 175

The purpose of this bill is to make appropriations for the protection of children and families.

Specifically, this measure makes appropriations for:

- (1) Department of Health child death review teams to hire personnel;
- (2) Attorney General's family law division to hire personnel;
- (3) Department of Human Services to prevent child abuse and neglect;
- (4) Hawaii Children's Trust Fund;
- (5) Healthy Start program for services for families "at risk";
- (6) Substance abuse and treatment services of the Department of Human Services for pregnant and parenting women and their families;
- (7) Blueprint for Change program ("Neighborhood Place") of the Department of Human Services;
- (8) Foster parent training; and
- (9) Psychosocial support services programs ("The Parent Line" and "Home Reach") of the Department of Health.

Your Committee finds that the appropriations contained in this measure are necessary to prevent child abuse. The various programs focus on different aspects of a total matrix of effective prevention with proven success. Each program fits into continuum of enforcement and prevention services that are necessary to effectively address child abuse and neglect in Hawaii.

Upon further consideration, your Committee has amended this bill to delete all appropriation amounts for the purpose of promoting further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 175, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 175, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, D., Iwase, Anderson).

SCRep. 801 Ways and Means on S.B. No. 392

The purpose of this bill is to authorize the issuance of general obligation bonds for the repair, upgrading, and reconstruction of Saddle Road, Hawaii.

Your Committee finds that the Saddle Road is the most direct route connecting Hilo and Kona but it was built more than fifty years ago with sections that are substandard and needs to be improved to current highway standards.

Your Committee has amended this bill by requiring the county of Hawaii to reimburse the State for the cost of issuing the general obligation bonds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 392, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 392, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 802 (Majority) Ways and Means on S.B. No. 425

The purpose of this bill is to increase fees charged by state agencies to more accurately reflect the cost of providing governmental services.

Your Committee finds that the State must find ways to generate income and collection of fees for different services can help to ease the current financial burden due to the weak economy.

Your Committee has amended this bill by deleting section 2 regarding fees for parking at state parks. Furthermore, it is not the intent in section 3 of fee charges to focus on alternative education students. Your Committee has also amended this bill by deleting the overbroad delegation of authority to the revisor of statutes in section 9 and made technical nonsubstantive changes, including renumbering sections to follow standard drafting practices.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 425, S.D. 1, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 425, S.D. 2, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, 3 (Buen, Iwase, Kawamoto). Excused, 4 (Ige, D., Ige, M., Nakata, Taniguchi).

SCRep. 803 Ways and Means on S.B. No. 426

The purpose of this bill is to establish a program for the specific purpose of maximizing the receipt of federal revenues for state agencies and programs.

The program is intended to secure eligible federal funds and grants for various state programs. In particular, the bill provides for this program to serve as a facilitator in state government responsible for applying for and maximizing federal funds and as the State's clearinghouse for information on federal funds; serve as an "early alert" on opportunities for obtaining federal funds to appropriate state agencies; coordinate all state efforts in applying for federal funds; and monitor federal compliance, including following-up with applicable federal agencies on behalf of state departments.

The bill further provides that the program will help pool applicable agency applications for federal funds into one or more multi-agency applications to maximize the target populations that are served by those agencies in applying for federal funds. The bill also offers incentives to state agencies to work with the program in aggressively pursuing federal funds; provides for the temporary transfer of personnel from other state agencies into this program; requires it to prepare comprehensive annual reports to the legislature; requires each state agency to designate employees as federal funds coordinators; and creates a grant writing team in the program. Finally, this bill makes permanent the interagency federal revenue maximization revolving fund by repealing the June 30, 1999, sunset date for that fund.

Your Committee is supportive of the creation of a permanent agency in state government to aggressively seek federal dollars on behalf of state programs. Your Committee finds that there is often a very limited time period in which to secure federal assistance for many state programs, much of which is available on a matching basis with state funds, and that the existing piecemeal approach to seeking new federal funds and grants is often counterproductive. The creation of a program for federal revenue maximization would allow state agencies to pool their applications as appropriate into a consortium of agencies to become more competitive with state agencies on the Mainland representing larger populations. Finally, the creation of a professional grant writing team would help to consolidate these important functions in one office with expertise in seeking grant funding.

Your Committee, upon further consideration, has amended the bill by:

- (1) Clarifying that federal funds refer to "new" federal assistance provided or potentially made available to state agencies after the effective date of the bill;
- (2) Providing for the establishment of the program for federal revenue maximization within the Department of Business, Economic Development, and Tourism or such other comparable agency as determined by the Governor, instead of within the Research Corporation of the University of Hawaii;
- (3) Providing that federal funds obtain by the program, with or without the assistance of the departments, shall be deposited in the interagency federal revenue maximization revolving fund for expenditure by the subject agency for programs it administers, rather than providing incentives for agencies that aggressively pursue grants;
- (4) Clarifying that the program for federal revenue maximization may receive, as processing fees, up to five per cent of the new federal funds obtain as a result of the program's efforts;
- (5) Deleting subsection (d) in section 307-E, providing that unexpended and unencumbered funds lapse to the credit of the general fund, and designating subsection (e) and (d);
- (6) Deleting the provision in section 29-14, Hawaii Revised Statutes, that authorizes the Governor to transfer funds between specified departments to obtain additional federal funds for medical assistance and the work incentive program; and
- (7) Making a number of technical nonsubstantive changes for purposes of style, clarity, and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426, S.D. 1, as amended herein, and recommends that it pass Third Reading in the the form attached hereto as S.B. No. 426, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 12. Noes, none. Excused, 1 (Nakata).

SCRep. 804 (Majority) Ways and Means on S.B. No. 686

The purpose of this bill is to increase the allowable motor vehicle certificate of registration fee that is imposed and used by the counties for highway beautification and abandoned vehicle disposal from \$1 to \$3 and exempting U-drive motor vehicles from the fee increase.

Your Committee finds that Hawaii needs to maintain its image as a beautiful state and this is possible by keeping its roadways and highways clean and free of abandoned cars. By making car owners pay a small fee at the time of registration, the counties have been able to clear many roadways. A further increase of \$2 is still a small price to pay for the overall benefit to the environment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 686, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, 1 (Anderson). Excused, 2 (Ige, M., Taniguchi).

SCRep. 805 (Majority) Ways and Means on S.B. No. 792

The purpose of this bill is to clarify that the automatic permit approval process does not apply to county or state permits relating to health and safety.

Your Committee finds that health permits are directly subject to the maximum time period elsewhere in chapter 91. Accordingly, your Committee has amended this measure by deleting the exemption for health permits.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 792, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, 5 (Buen, Chun Oakland, Iwase, Kawamoto, Anderson). Excused, none.

SCRep. 806 Ways and Means on S.B. No. 803

The purpose of this bill is to provide for a planned reduction in the size of state government and a framework for the orderly restructuring of government programs.

Specifically, this measure requires the State administration to draft a strategic workforce reduction and reorganization plan for legislative approval prior to restructuring programs, redeploying employees, and offering voluntary separation incentives. Furthermore, this measure gives permanent full-time employees whose positions are to be eliminated the right to receive transitional

severance benefits in lieu of other rights to which the employee may be entitled. If the employee is a vested member of the Employees' Retirement System, this measure also gives the employee special retirement benefits in lieu of other entitlements.

Your Committee finds that this bill is inspired by the successful Federal Workforce Restructuring Act of 1994, and reflects community concerns that the state government in the twenty-first century must be responsive, efficient, and flexible to address the ever-changing societal needs. State government must accordingly reinvent itself and the way that it operates in order to be cost-efficient and capable of attaining measurable result.

Your Committee has amended this measure making some stylistic changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 803, as amended herein, and recommends that it pass Third Reading, in the form attached hereto as S.B. No. 803, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 13. Noes, none. Excused, none.

SCRep. 807 Ways and Means on S.B. No. 825

The purpose of this measure is to provide a positive environment at the workplace for breastfeeding mothers.

Specifically, this measure establishes an income tax credit for employers who provide a specific place for the sole purpose of breastfeeding or expressing milk. Additionally, this measure requires employers to provide up to at least one hour of unpaid leave per working day for the sole purpose of breastfeeding or expressing milk. This measure also protects breastfeeding by defining employment-based restrictions as a discriminatory employment practice.

Your Committee recognizes that breastmilk is an important part of a child's early life. Breastmilk provides all the nutrients and helpful antibodies needed to protect a child from a number of chronic diseases.

Your Committee has amended this measure by allowing rather than requiring the employer to provide up to an hour off to an employee for breastfeeding or expressing milk and making other technical nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 825, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 825, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 5 (Buen, Iwase, Tam, Taniguchi, Anderson).

SCRep. 808 (Majority) Ways and Means on S.B. No. 860

The purpose of this bill is to include marriage and family therapists as mental health and substance abuse treatment providers under health insurance plans.

Currently, state law does not recognize marriage and family therapists as mental health and substance abuse treatment providers for insurance benefits coverage purposes. Therefore, those with health insurance who need the services of a marriage and family therapist must pay in full or go without.

This bill would rectify that situation, offer consumers more treatment options, and help develop private sector mental health and substance abuse treatment opportunities in underserved areas of the State. It would also allow the Department of Education to seek third party reimbursement for services provided to special needs students by licensed marriage and family therapists pursuant to the Felix-Waihee consent decree. Finally, this bill would create parity among the core mental health professions since physicians, psychologists, clinical social workers, and advanced practice registered nurses are presently authorized to provide mental health and substance abuse treatment services under health insurance plans and contracts.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 860 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 8. Noes, 3 (Ige, M., Iwase, Kawamoto). Excused, 2 (Buen, Taniguchi).

SCRep. 809 Ways and Means on S.B. No. 866

The purpose of this bill is to make an appropriation for a Medicaid managed care long-term care demonstration project.

Your Committee believes that long-term care for Hawaii's residents is a critical issue due to the increase in the aging population, shortage of nursing home beds, and fragmentation or nonexistence of home- and community-based care. This bill is a means for the

State to examine alternatives to administer long-term care to provide an effective and affordable system. This bill introduces the managed care concept into long-term care, starting with the Medicaid population.

Upon further consideration, your Committee has amended this bill by deleting the appropriation amount in section 2 of the bill for the purpose of promoting further discussion.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 866, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 866, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Taniguchi, Anderson).

SCRep. 810 Ways and Means on S.B. No. 887

The purpose of this bill is to increase the number of Circuit Court judges in the Fifth Circuit from one to two.

Your Committee finds that the Fifth Circuit, which serves the islands of Kauai and Niihau, is overwhelmed with a much greater case load than one judge can efficiently manage. Your Committee agrees that an additional circuit court judge is needed to better balance the workload of and provide necessary services to court users in the Fifth Circuit.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 887 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Buen, Ige, M., Tam).

SCRep. 811 Ways and Means on S.B. No. 959

The purpose of this bill is to allow special facility revenue bonds for airports to be used for the construction, acquisition, remodeling, furnishing, and equipping of cargo facilities and operations, including site acquisition.

Your Committee has amended this bill by clarifying that special facility revenue bonds for airports may be used for the construction, acquisition, remodeling, furnishing, and equipping of air cargo facilities and operations.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 959, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 959, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Tam, Anderson).

SCRep. 812 Ways and Means on S.B. No. 1138

The purpose of this bill is to provide for the orderly transfer of the licenses, assets, responsibilities, and function of the Hawaii Public Broadcasting Authority to the Hawaii Public Television Foundation.

The Hawaii Public Broadcasting Authority, a state created entity is no longer a feasible way to provide public television. This bill continues to implement a strategic plan presented during the 1997 regular session to transfer the licenses, assets, responsibilities, and functions to the private not-for-profit 501(c)(3) organization, Hawaii Public Television Foundation. The bill also gives the State of Hawaii the first right, at no cost, to any equipment or asset that is discarded or nonusable by Hawaii Public Television Foundation or the successor to public broadcasting.

Your Committee finds that this transfer is essential to maintain quality public broadcasting in the State.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1138, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Buen, Taniguchi).

SCRep. 813 Ways and Means on S.B. No. 1129

The purpose of this bill is to require continuing education for insurance agents as a condition of license renewal.

The bill also creates an insurance licensing administration special fund to pay for expenses relating to licensing and the continuing education program. Lastly, the bill increases insurance licensing fees.

Your Committee finds that a continuing education program for the insurance industry will serve the public's interest by requiring standards of competence to ensure a knowledgeable and qualified insurance workforce. A continuing education program will also benefit local insurance agents by entitling them to licensure reciprocity with other states.

Your Committee has adopted the suggestions proposed by the Insurance Commissioner and has therefore amended the bill by:

- (1) Replacing the proposed subsection (f) on page 7 of the bill with a provision to prevent the funds in the insurance licensing administration special fund from reverting to the general fund;
- (2) Decreasing the proposed increases in fees in section 4 of the bill by fifty per cent;
- (3) Increasing the amount appropriated from the insurance licensing administration special fund by \$500,000; and
- (4) Adding a new section 7 of the bill on page 13 requiring a two year assessment of insurers, general agents, subagents, nonresident agents and brokers, solicitors, adjusters, limited licensees under section 431:9-214(c), Hawaii Revised Statutes, managing general agents, reinsurance intermediaries, surplus lines brokers and designated representatives.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1129, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 8. Noes, none. Excused, 5 (Buen, Ige, D., Iwase, Tam, Anderson).

SCRep. 814 Ways and Means on S.B. No. 1183

The purpose of this bill is to make emergency appropriations of approximately \$6,000,000 to the University of Hawaii system for fiscal year 1998-1999 in order for the University to fulfill its present fiscal year obligations.

Your Committee finds that the university transferred about \$6,000,000 of its fiscal year 1997-1998 general fund encumbrances to fiscal year 1998-1999 in order to avoid a budgetary deficit of the same amount in the former fiscal year. Consequently, the transfer increased the university's obligations for the latter fiscal year.

Your Committee further finds that despite the fiscal and managerial autonomy granted to it, the university has not been able to cover the deficit on its own in the present fiscal year. Unless legislative assistance is received, the university will again have to replay its previous cost-shifting strategy, transferring \$6,000,000 of its fiscal year 1998-1999 obligations to fiscal year 1999-2000 in order to avoid a second budgetary shortfall of the same amount in the present fiscal year. Your Committee finds that funds are available in the state treasury, as these funds were appropriated but subsequently restricted.

Your Committee has amended this measure by changing the specific appropriation amounts to the campuses to blank amounts for the purpose of continued discussion on the matter. Your Committee has also amended this measure by making technical nonsubstantive amendments for the purpose of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1183, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1183, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Chun, Taniguchi).

SCRep. 815 Ways and Means on S.B. No. 1303

The purpose of this bill is to re-start the time for the salary review commission for the Office of Hawaiian Affairs.

Your Committee finds that section 10-9.5, Hawaii Revised Statutes, established a salary commission review process for periodic review of the salaries of the Office of Hawaiian Affairs board of trustees. However, the commission was never appointed and the review cycle not initiated. Your Committee finds that it is appropriate to start the review process at this time.

Your Committee has amended the bill by clarifying that the Governor shall appoint the review commission upon the passage of the bill.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1303, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1303, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 9. Noes, none. Excused, 4 (Buen, Ige, M., Iwase, Tam).

SCRep. 816**Ways and Means on S.B. No. 1325**

The purpose of this measure is to establish a new tax credit for hotel construction and remodeling for tax years 1999 to 2001.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, the Department of Taxation, the Maui Hotel Association, the Waikiki Improvement Association, and Outrigger Enterprises. The Tax Foundation of Hawaii submitted comments.

Your Committee finds that Act 108, Session Laws of Hawaii 1997, established a hotel remodeling tax credit for tax years 1997 and 1998, to encourage owners to refurbish, repair, and renovate their facilities. This measure provides a similar tax credit to replace the expiring credit.

Your Committee further finds that this measure has expanded the original tax credit to allow an association of apartment owners of a hotel-condo as defined in section 486K-1, Hawaii Revised Statutes, to claim the credit, and to allow persons who take the credit, the option of treating the credit as taxable income or reducing the basis of the property by the amount of the credit. In addition, there is no cap on the tax credit in this measure, thus, increasing its value.

Your Committee believes this measure will help to revitalize Hawaii's tourism industry as well as the overall economy. Your Committee has amended this measure to change the end date for the tax credit from before December 31, 2001, to before January 1, 2002, correcting the one day loss and to make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1325, S.D. 1, and be placed on the calendar to Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 12. Noes, none. Excused, 1 (Buen).

SCRep. 817**Ways and Means on S.B. No. 1345**

The purpose of this bill is to provide for an increase in judicial salaries by eighteen percent over two years.

The bill also amends judicial retirement provisions to provide that judges entering or reentering service after June 30, 1999, without vested benefits, may retire after ten years of credited service and having attained age fifty-five or after twenty-five years of credited service. The bill does not affect the retirement of those judges who are current members of the employees' retirement system or who are confirmed prior to the bill's effective date.

Your Committee finds that Hawaii's judges are significantly undercompensated. Hawaii is the only state in the nation that has not increased the salary of its judges during the last nine years. Your Committee notes that since 1990, forty-four of the remaining forty-nine states have granted their judges three or more raises. In 1997 alone, twenty-nine states raised the salaries of their general trial court justices.

Your Committee further finds that insufficient compensation creates the risk that quality judges will leave the bench, thus depriving the public of the significant value of experienced jurists. Since 1992, ten seasoned and experienced judges have left Hawaii's bench due, in part, to the lack of adequate compensation and, in recent months, another two seasoned judges have announced their intention to leave the bench. Your Committee believes that an increase in judicial salaries is necessary to ensure that the most highly qualified individuals will be attracted to the state judiciary and will be able to serve and continue to serve without unreasonable economic hardship.

Your Committee has amended the bill by changing the amounts specified for judicial salaries in part II of the bill to unspecified amounts and the amounts appropriated in section 8 of the bill to unspecified amounts to facilitate continuing discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1345, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1345, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 10. Noes, none. Excused, 3 (Buen, Ige, M., Tam).

SCRep. 818**Ways and Means on S.B. No. 1452**

The purpose of this bill is to strengthen the protection of consumer rights for patients in managed care plans and health maintenance organizations.

Your Committee finds that Act 178, Session Laws of Hawaii 1998, is the Hawaii Patient Bill of Rights and Responsibilities Act. Besides regulating managed care, the Act also required the Insurance Commissioner to convene a task force to recommend suggested legislation to protect patients in health and managed care situations.

This bill is the product of the task force's efforts and generally includes issues such as:

1. A health insurance revolving fund;
2. Accreditation of managed care plans;
3. Standing referrals to specialists;
4. Notice for managed care complaints;
5. Appeals procedures;
6. Information to managed care plan enrollees;
7. Reimbursements; and
8. Alternate plans.

Your Committee supports and concurs with the testifiers on this bill before the Committees on Commerce and Consumer Protection and Health and Human Services and finds that this bill will ensure quality health care that is responsive and accountable to patient consumers.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1452 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 10. Noes, none. Excused, 3 (Chun, Ige, D., Iwase).

SCRep. 819 (Majority) Ways and Means on S.B. No. 1501

The purpose of this measure is to incorporate into one comprehensive measure the contents of S.B. No. 1277, S.B. No. 1318, and S.B. No. 1233, in order to provide for the creation of new century schools as alternate educational programs, and a process whereby existing public schools and new schools may be established as new century schools.

Specifically, this measure:

- (1) Designates student-centered schools henceforth as "new century schools", and defines new century schools as those schools implementing alternative frameworks with regard to curriculum; facilities management; instructional approach; length of school day, week, or year; and personnel management;
- (2) Adds a new part to chapter 302A, Hawaii Revised Statutes, that will dictate a process by which an existing public school, or a new school may become a new century school, including petitioning to the Governor as an alternative to the current formation of student-centered schools. The program requirements and exemptions of these new century schools are also established; and
- (3) Repeals the sections in chapter 302A, Hawaii Revised Statutes, which deal with student-centered schools.

Testimony in support of this measure was submitted by the Department of Human Resources Development and the Estate of James Campbell. Testimony in support of the intent of this measure but with certain concerns was submitted by the Department of Education, the Hawaii State Teachers Association, the Lanikai School, and the South Maui Learning Ohana. The Hawaii Government Employees Association and League of Women Voters of Hawaii submitted testimony in opposition to this measure.

Your Committee believes that this measure will allow schools greater autonomy and flexibility in the formation of alternate educational programs independent from the governance of the board of education.

Pursuant to concerns raised by the testimony, your Committee has amended this measure to:

- (1) Replace the petition process to establish a new century school with a process whereby the community submits a letter of intent to establish a new century school to the Superintendent of Education. The community will then formulate an implementation plan for the establishment of a new century school;
- (2) Ensure that the implementation plan of a new century school includes the basic protection of employees and their reasonable academic freedoms, a plan for recruiting students that is nondiscriminatory, a plan for assessing student performance and accountability consistent with established State standards, and that the facilities management of the new century school is consistent with the state facilities plan;
- (3) Exempt new century schools from chapter 103D, Hawaii Revised Statutes, provided that the new century schools are subject to accepted guidelines of ethical practice and maintain an accounting system open to public scrutiny;

- (4) Add an additional funding allotment for new century schools which are small schools; and
- (5) Mandate that the Department of Education, in collaboration with the unions and representative of new century schools, formulate a system of technical assistance that will provide a baseline for the success of a new century school.

Your Committee believes in the importance of this measure and the integral role it plays in education reform as a whole. The State must do all it can to afford students with educational programs that are effective and responsive to all needs. Your Committee encourages further discussion on this measure and the amendments made to prevent any future problems or misunderstandings.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1501, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1501, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, 1 (Anderson). Excused, 1 (Taniguchi).

SCRep. 820 Ways and Means on S.B. No. 1583

The purpose of this measure is to foster and support the growth and development of high technology industries in Hawaii.

Specifically, this measure:

- (1) Consolidates the State's high technology agencies, divisions, and offices, under the coordination of a special advisor for technology development, and creates a governor's special advisory council for technology development to assist the advisor;
- (2) Offers a tax incentive for technology training or job creation;
- (3) Offers a tax incentive for investments in qualified high technology businesses;
- (4) Integrates high technology with Hawaii's tourism and marketing industries;
- (5) Prohibits the imposition of taxes on Internet commerce;
- (6) Establishes the Hawaii Internet Exchange to serve as a catalyst for the development of Internet focused businesses;
- (7) Focuses work force development programs to ensure a pool of technology professionals; and
- (8) Accelerates high speed access to the Internet for the University of Hawaii and the public schools, and establishes educational technology programs within public schools.

Testimony in support of this measure was submitted by the Department of Education, the University of Hawaii, and the High Technology Development Corporation. The Department of Business, Economic Development, and Tourism and the Ohana Foundation submitted testimony in support of the intent of this measure. Testimony in opposition to this measure was submitted by the Department of Taxation. In addition, the Tax Foundation of Hawaii submitted informational testimony regarding this measure.

Your Committee strongly believes in the necessity of this measure. In the past, Hawaii's economy was at a disadvantage because of its isolation from mainland businesses and other international ventures. Currently, with the advances of telecommunications, information technology, and the explosive growth of the Internet, geographic isolation is no longer a factor, as commerce and businesses are becoming increasingly global. Hawaii must foster the growth of high technology industries in the State in order to take full advantage of the global economy. It is only through the development of a strong high technology sector that Hawaii can diversify its tourism-dependent economy and grow and prosper in the twenty-first century.

Your Committee has amended this measure by:

- (1) Changing the sunset date of the Internet Tax Freedom Act from January 1, 2005, to January 1, 2002. This makes the sunset of Hawaii's Internet Tax Freedom Act more consistent with the sunset of the Federal Internet Tax Freedom Act, and minimizes any confusion caused by conflicting state/federal regulations; and
- (2) Making technical, nonsubstantive amendments for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1583, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1583, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 821 Ways and Means on S.B. No. 1635

The purpose of this bill is to reconvene the joint legislative committee to study and make recommendations on resolving issues related to the public lands trust, and to increase the ceded land payments to the Office of Hawaiian Affairs to \$16,060,000.

The bill also extends the progress report date and reporting date for the joint committee from twenty days prior to the 1998 session to the 2000 session, and twenty days prior to the 1999 session to the 2001 session, respectively. The bill further transfers the duties of performing the ceded lands inventory from the Department of Land and Natural Resources to the Auditor, and requests a progress report for the 2000 session and a final report for the 2001 session.

Your Committee has amended the bill by changing the amounts appropriated to a unspecified amount to facilitate continuing discussion on this matter.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1635, S.D. 1, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1635, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 822 Ways and Means on S.B. No. 1639

The purpose of this bill is to make an emergency appropriation for Kapolei high school.

Campbell high school presently handles the students who live in the Kapolei area. Campbell is over-enrolled and has an inadequate capacity for all its students. The Department of Education seeks to construct and open a new high school in Kapolei for September 2000 for students in grade 9, adding grade 10 the following year. Your Committee finds that overcrowding is a serious problem at Campbell, and to alleviate it an emergency appropriation is necessary to enable construction to start as soon as possible this year. The bill will not require additional funding but will borrow funds already appropriated for Iao intermediate school that are not going to be used in this fiscal year.

Your Committee has amended the bill by making a technical nonsubstantive change.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1639 and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1639, S.D. 1.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 11. Noes, none. Excused, 2 (Ige, M., Anderson).

SCRep. 823 Ways and Means on S.B. No. 1046

The purpose of this bill is to authorize the Director of Human Resources Development to draft replacement civil service legislation.

Your Committee finds that the director is faced with an enormous challenge in overhauling the present civil service system. Accordingly, your Committee has amended this measure by postponing the replacement of the present civil service system by one year from 2000 to 2001.

Your Committee intends that with the extended time period prior to the replacement of the present civil service system, the director should continue maintain and renew collective bargaining agreements.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1046, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 13. Noes, none. Excused, none.

SCRep. 824 Judiciary on S.B. No. 590

The purpose of this bill, as received by your Committee, is to consolidate the laws covering domestic violence temporary restraining and protective orders into one new chapter.

Your Committee finds that there are several important objectives that would be accomplished by consolidating the provisions of three existing statutes covering restraining orders and protective orders into a single comprehensive statute. These objectives are consistency, uniformity, and effectiveness. However, your Committee recognizes the possibility that this bill, as drafted, may create

more confusion rather than providing clarity. Your Committee is also concerned that the scope of the bill is unclear, and rather than providing consistency, this measure could cause jurisdictional controversies.

Nevertheless, your Committee is committed to the idea of consolidating temporary restraining and protective orders into a single chapter and recommends that the Judiciary, the domestic violence advocates, the prosecuting attorneys, the public defender, and the legislative drafting agencies work together during the interim to develop a comprehensive recodification of all state laws addressing domestic violence.

Your Committee further finds that the penalties for violating temporary restraining and protective orders must be standardized to assure adequate and appropriate consequences for those who choose to ignore a court order designed to prevent further harassment, threats, and violence from occurring.

Testimony in support of this measure was submitted by the Honolulu County Committee on the Status of Women, the Honolulu Police Department, the Domestic Violence Clearinghouse and Legal Hotline, Hawaii State Coalition Against Domestic Violence, Child and Family Service, Hawaii Lawyers Care, Hawaii Women Lawyers, Hawaii Rifle Association, Hawaii Family Forum, Hawaii Citizens' Rights Political Action Committee, and Parents and Children Together. The Department of the Prosecuting Attorney of the City and County of Honolulu supported the intent of the bill with recommendations. Testimony in opposition to this measure was submitted by the Office of the Public Defender. The Judiciary took no position on this measure but provided comments.

Upon further consideration, your Committee has amended this measure by deleting its contents and substituting therefor the following provisions:

- (1) Adding that a violation of a temporary restraining order must be a knowing or intentional violation within section 586-4, Hawaii Revised Statutes (HRS), in order to be consistent with all other orders granted pursuant to chapter 586; and
- (2) Conforming sections 586-5.5 and 586-10, HRS, by including similar language presently contained in section 586-4, HRS, relating to mandatory fines and sentencing.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 590, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 590, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, Anderson).

SCRep. 825

Judiciary on S.B. No. 591

The purpose of this bill, as received by your Committee, is to prohibit the courts from granting orders permitting custody and visitation rights for a parent who has murdered the other parent of the child.

Your Committee finds that evidence of domestic violence is a relevant factor that courts need to consider when making a determination as to child custody or visitation awards. It is estimated that more than three million children in the United States annually witness domestic violence. Your Committee further finds that it may not be in the best interest of the child to be required to visit a parent who has been convicted of murdering the child's other parent. Children are harmed -- cognitively, psychologically, and socially -- merely by observing or hearing the domestic brutality against a parent at home. Your Committee notes that these children are already traumatized by the domestic abuse and resulting homicide. For most children the physical act of going to a prison to visit their parent can also be intimidating and traumatic.

Although your Committee firmly believes in and supports the intent of this bill, your Committee recognizes that the bill leaves many questions unanswered. For example,

- (1) Should a parent who is convicted of the lesser offense of manslaughter be prevented from seeing the parent's child?
- (2) Should a parent who kills the other parent in self-defense be prevented from seeing the parent's child?
- (3) How should a "child of suitable age" be defined?

Your Committee realizes that the best interests of the child may be more appropriately determined by the seasoned and experienced judges of our family courts.

Testimony in support of this measure was submitted by the Domestic Violence Clearinghouse and Legal Hotline, Hawaii State Coalition Against Domestic Violence, and Child and Family Service.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provision that prohibits a court from granting visitation rights for a child to a parent who has been convicted of murder of the other parent of the child;

- (2) Providing that before an order for visitation can be granted, the court must find that the child's physical safety and psychological well-being will be protected; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 591, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 591, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 826 Judiciary on S.B. No. 592

The purpose of this bill is to modify the exemptions to the firearms laws given to law enforcement officers, by excluding those officers who have been convicted of an offense involving abuse of a family or household member.

Your Committee finds that existing law allows law enforcement officers to carry firearms while on duty, even though an order of protection has been filed against them. Your Committee further finds that due to the repetitive and often escalating nature of domestic violence, victims are exposed to potentially lethal harm when the abuser has access to a firearm. Therefore, your Committee believes that any person who has been convicted of an offense involving domestic abuse should lose the right to carry a firearm, without regard to the person's occupation.

Testimony in support of this measure was submitted by the Honolulu Police Department, the Domestic Violence Clearinghouse and Legal Hotline, the Child and Family Service, the Hawaii State Coalition Against Domestic Violence, the Hawaii Rifle Association, and the Hawaii Citizens' Right Political Action Committee.

Upon further consideration, your Committee has amended this measure by making a technical, non-substantive change for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 592, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 592, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 827 Judiciary on S.B. No. 594

The purpose of this bill, as received by your Committee, is to remove the good cause exemption that allows persons who are the subject of a restraining order to possess a firearm.

Your Committee finds in cases involving restraining orders where good cause exemption becomes an issue, judges generally take into consideration whether the person subject to the restraining order is required to be armed at work. If the case involves a police officer, the courts defer the granting of exemptions to the police chief with the rationale that the police chief would best be able to determine whether the officer would qualify for a good cause exemption. Your Committee further finds that within the past two years, the courts handled thirty-one cases involving the granting of good cause exemptions, and twenty-one of those cases involved police officers.

Your Committee believes that the current law needs to be applied consistently in all cases, regardless of whether the person subject to a restraining order is a police officer. Judges should not be deferring the granting of an exemption to a police chief.

Testimony in support of this measure was submitted by the Domestic Violence Clearinghouse and Legal Hotline and the Hawaii State Coalition Against Domestic Violence. Testimony in opposition to the measure was submitted by the Honolulu Police Department, the Office of the Public Defender, Hawaii Citizens' Rights Political Action Committee, and the Hawaii Rifle Association.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provisions of sections 1 and 2 as they are unnecessary since Act 189, Session Laws of Hawaii 1995, which effective date was extended by Act 133, Session Laws of Hawaii 1998, only affects section 134-7(c), Hawaii Revised Statutes;
- (2) Deleting the repeal of the good cause exemption; and
- (3) Providing that "good cause" shall not be based solely upon the consideration that a person subject to a restraining order is required to be armed at work, but should also consider the protection and safety of the person to whom a restraining order is granted.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 594, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 594, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 828 Judiciary on S.B. No. 599

The purpose of this bill is to amend the definition of "family or household member" to include persons who have or have had a dating relationship.

Your Committee finds that domestic violence against teenagers is one of the fastest growing types of domestic abuse in the nation. It is estimated that as many as one-third of all high school and college age individuals may now experience some form of violence in an intimate or dating relationship. Even when they understand what is happening, teenagers are reluctant to come forward to ask for the necessary help and support from trained professionals. Your Committee further finds that abusers who clearly have a relationship with their victims, but have not lived with them, escape the penalties of section 709-906, Hawaii Revised Statutes, which includes mandatory jail sentence. Your Committee recognizes that it is the dynamics of the relationship, and not the physical living situation, that is the controlling factor in responding to domestic violence disputes.

Testimony in support of this measure was submitted by the Department of Health, the Department of the Prosecuting Attorney of the City and County of Honolulu, the Domestic Violence Clearinghouse and Legal Hotline, Child and Family Service, Hawaii State Coalition Against Domestic Violence, Hawaii Lawyers Care, Hawaii Women Lawyers, Parents and Children Together, and Hawaii Family Forum. Testimony in opposition to this measure was submitted by the Office of the Public Defender and the Honolulu Police Department.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying the definition of "dating relationship" to include such factors as the length of time of the relationship, the nature of the relationship, and the frequency of interaction between the parties;
- (2) Deleting the provision that makes a similar amendment in section 709-906, Hawaii Revised Statutes; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 599, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 599, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Sakamoto, Anderson).

SCRep. 829 Judiciary on S.B. No. 176

The purpose of this measure is to create criminal offenses for child abuse in the first and second degrees and to make other revisions to the penal code pertaining to child abuse.

Specifically, this measure:

- (1) Makes it a class A felony to intentionally, knowingly, or recklessly cause serious bodily injury to a minor twelve years of age or younger;
- (2) Makes it a class B felony to intentionally, knowingly, or recklessly cause substantial bodily injury to a minor twelve years of age or younger;
- (3) Requires that, in determining whether the use of force is justifiable under section 703-309, Hawaii Revised Statutes, consideration must be given to the condition of the minor;
- (4) Raises the age of a child victim from eight to twelve years old for purposes of determining whether to impose an extended term of imprisonment, under section 706-662, Hawaii Revised Statutes;
- (5) Raises the age of a child victim from eight to twelve years old for purposes of determining whether to impose a mandatory term of imprisonment for offenses against children, elder persons, or handicapped persons, resulting in the victim's death or serious bodily injury, under section 706-660.2, Hawaii Revised Statutes; and
- (6) Changes recklessly allowing another person to inflict serious or substantial bodily injury on a minor from a misdemeanor offense (endangering the welfare of a minor in the second degree) to a class C felony offense (endangering the welfare of a minor in the first degree).

Your Committee received testimony in support of the measure from the Department of the Prosecuting Attorney of the City and County of Honolulu, the Department of the Prosecuting Attorney of the County of Maui, and the Police Department of the City and County of Honolulu. The Public Defender testified as to a number of reasons why the bill is unnecessary.

Your Committee is gravely concerned about the high incidence of child abuse in our society and finds that present provisions in the penal code are woefully insufficient to provide appropriate punishment for or deterrence to child abuse. Accordingly, your Committee believes that stronger measures are needed to adequately safeguard children in our society who are most at risk of being harmed.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 176 and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 830 Judiciary on S.B. No. 606

The purpose of this bill, as received by your Committee, is to make it a class C felony to knowingly or intentionally sell or transfer any deadly weapon or switchblade knife to a minor.

Your Committee finds that certain types of knives, particularly switchblade and butterfly knives, are associated with gang activity. Your Committee further finds that although switchblade knives are presently illegal, and although butterfly knives (also known as balisongs or gravity knives) appear to be covered within the definition of switchblade knives, stores openly sell and minors can readily purchase butterfly knives.

Testimony in support of this measure was submitted by the Department of the Prosecuting Attorney for the City and County of Honolulu and the Honolulu Police Department. Testimony in opposition to this measure was submitted by the Office of the Public Defender and the Libertarian Party of Hawaii.

Upon further consideration, your Committee has amended this measure by:

- (1) Removing the proposed criminal penalties for sale to minors of deadly weapons, which under current law may legally be owned or transferred by minors and adults but may not be carried concealed;
- (2) Clarifying that butterfly knives fall within the definition of switchblade knives;
- (3) Creating a class C felony offense for sales of such knives to minors; and
- (3) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 606, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 606, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 831 Judiciary on S.B. No. 607

The purpose of this bill is to repeal, under certain conditions, the prohibition for non-resident aliens on bringing firearms into the State.

Your Committee finds that Hawaii has a relatively low rate of violence involving firearms due to its strict controls on the possession and use of firearms within the State. However, your Committee also finds that allowing non-resident aliens to bring firearms into the State would have the desirable effect of expanding the State's visitor industry by developing niche markets such as recreational hunting.

Testimony in support of this measure, with certain amendments, was submitted by the Department of Land and Natural Resources, the Honolulu Police Department, and three organizations supporting shooting sports. No testimony was received in opposition to this measure.

Upon further consideration, your Committee has amended this measure to reflect the changes proposed by the Department of Land and Natural Resources and the Honolulu Police Department, by:

- (1) Removing the requirement of proof of ownership;
- (2) Accommodating visitors invited to shoot on private land; and

- (3) Limiting the length of time and number of weapons allowed to be registered by non-resident aliens.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 607, as amended herein, and recommends that it pass second reading in the form attached hereto as S.B. No. 607, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Ihara, Sakamoto).

SCRep. 832 Judiciary on S.B. No. 823

The purpose of this bill is to require judges, when imposing a sentence for certain domestic violence offenses, to consider as an aggravating factor the fact that a minor witnessed the crime.

Your Committee finds that children who witness domestic violence are harmed in many ways, and acknowledges that domestic violence is a perpetuation of a violent cycle, as children of abuse grow up to be abusers themselves. Your Committee further finds that 3.3 million children annually witness domestic violence. Various studies indicate that in homes where there is domestic violence, approximately 87 percent include children who witness these violent acts. Over eighty studies have documented multiple problems among children that have witnessed continual assaults by one parent on another in the home. These problems include: psychological and emotional distress such as aggression, hostility, anxiety, social withdrawal, and depression; cognitive functioning problems such as lower verbal and quantitative skills and the development of attitudes supporting the use of violence; and physical problems such as delayed motor skills, speech difficulties, and multiple health problems. Therefore, because of the high social and financial costs resulting from domestic violence, your Committee agrees that more serious penalties should be imposed for both their deterrent and punitive effects.

Testimony in support of this measure was submitted by the Hawaii State Commission on the Status of Women, the Department of the Prosecuting Attorney of the City and County of Honolulu, the Honolulu Police Department, the Domestic Violence Clearinghouse and Legal Hotline, and the Child and Family Service.

Upon further consideration, your Committee has amended this measure by:

- (1) Defining "in the presence of the minor" to mean in the actual physical presence of a child, or knowing that a child is present and may hear or see the offense;
- (2) Deleting the provision that requires the family court to amend the sentencing guidelines; and
- (2) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 823, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 823, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Chun Oakland, Anderson).

SCRep. 833 Judiciary on S.B. No. 851

The purpose of this bill, as received by your Committee, is to require the Department of Health to adopt rules relating to patient self-determination for medical care and pain management during end of life care. In addition, the bill requires health insurers to cover expenses for hospice care and removes county zoning barriers to the location of hospice homes in residentially designated areas.

Your Committee finds that as the aged population continues to increase in Hawaii, so does the terminally ill population. This particular population may not be able to rely on their families for care and support in their time of need. Especially during these tough economic times, families need to be engaged full time in the work force, oftentimes leaving no one at home to tend to the terminally ill.

Your Committee further finds that hospice care may be a possible solution for the terminally ill in these situations. Hospice care is not a place, but it is a service that can be delivered at home, in nursing or care homes, or even in beds set aside in acute care hospitals. Hospice care is a philosophy which accepts that an illness has progressed to a terminal stage, and death cannot be avoided even with aggressive medical treatment. Your Committee agrees that the goal of hospice care is not to prolong life, but to make dying as comfortable as possible for the person dying, and for family and friends. Therefore, your Committee believes that to help more terminally ill patients take advantage of this service, the health insurers and HMOs should reimburse hospice care providers.

While your Committee agrees with the intent of this measure and supports the concept of hospice care, your Committee still has concerns that should be addressed as this measure proceeds through the legislative process. First, S.B. No. 851, S.D. 1, defines a "hospice home" as any facility operated by a "licensed hospice service agency" but the bill does not define "licensed service agency."

Second, your Committee notes that the bill mandates that HMOs are to provide the required benefits upon the approval of the Act, but, insurers and mutual benefit societies have until January 1, 2000. Thus, clarification is needed to resolve this discrepancy.

Testimony in support of this measure was submitted by Hospice Hawaii, Hawaii Catholic Conference, and St. Francis Health Services Network. The Executive Office on Aging, the Department of Health, Hawaii Medical Association, and Hawaii Nurses Association also submitted testimony in support of this measure but with the recommendation that section 3 (providing that the Department of Health adopt rules with regards to patient self-determination) be deleted.

Upon further consideration, your Committee has amended this measure by deleting section 3 and making technical, non-substantive corrected changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 851, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 834 Judiciary on S.B. No. 896

The purpose of this bill is to allow waiver of notice in guardianship proceedings where the person cannot be found.

The provisions governing protection of persons under disability provide for notice to specified parties, including grandparents. This bill allows the court to waive notice, for good cause, upon a showing that all reasonable efforts have been made to find the person or give notice to the person, and that the efforts were unsuccessful and further effort should not be required.

Your Committee finds that while all reasonable efforts should be made in this situation, once those efforts have been exhausted, it is appropriate to allow the court to waive notice and proceed.

Your Committee has amended the bill by correcting a reference and by adding the phrase "because that person has not demonstrated a reasonable degree of interest or concern in the subject" from subsection (c) to subsection (b) for the purposes of conformity and clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 896, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 896, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 835 Judiciary on S.B. No. 919

The purpose of this bill, as received by your Committee, is to:

- (1) Clarify that for the offense of robbery, it shall not be a defense that any person other than the defendant is aware of the theft or attempted theft;
- (2) Clarify that if a person indicates by either assertion or conduct that the person is armed with a dangerous instrument, then the person has committed robbery in the first degree; and
- (3) Clarify that the definition of "dangerous instrument" includes articles simulating items currently defined as dangerous instruments.

Your Committee finds that S.B. No. 919 is intended to overrule two recent Hawaii appellate decisions that have raised issues regarding what is sufficient to constitute the offense of robbery. In State v. Mitsuda, 86 Haw. 37 (1997), the state Supreme Court found that the offense of robbery required that the victim or someone present be aware of the defendant's theft. As to the second case, State v. Ugalde, No. 21002 (Haw. App. Nov. 9, 1998), which was subsequently reversed by memorandum opinion and unpublished, the state Intermediate Court of Appeals found that, although the robber stated to the victim that he had a gun and the victim saw an object covered by a sock-like cloth in the robber's hand, this was not sufficient to prove that the robber possessed a dangerous instrument.

Your Committee believes that robbery requires awareness of the theft because it is in essence a "forcible theft from the person." This differentiates robbery from a theft by stealth or deception, such as shoplifting, pickpocketing, or embezzling. If the victim is aware of the theft and the theft is from his or her person, he or she has a heightened sense of danger.

Your Committee agrees that it is a rare case where a defendant is charged with a robbery offense when the victim of the robbery is unaware of the theft. Your Committee hesitates to legislatively overrule a Supreme Court decision as to one specific case with an unusual fact pattern. Similarly, your Committee is wary of treading into an issue as to which the Supreme Court has already corrected

a lower court holding and reaffirmed well-settled doctrine. The Supreme Court rejected the Intermediate Court of Appeals decision in the Ugalde case and decided that the existence of a dangerous instrument could be circumstantially proven, as with any other material fact at issue in a trial. Your Committee believes that the definition of "dangerous instrument" may be interpreted to include those situations where a defendant says he has a gun, holds an object which resembles a gun, and brandishes it as if it were a gun.

Testimony in support of this measure was submitted by the Department of the Prosecuting Attorney of the City and County of Honolulu and the Honolulu Police Department. Testimony in opposition to this measure was submitted by the Office of the Public Defender.

Upon further consideration, your Committee has amended this bill by deleting its substance and substituting therefor a provision that includes within the definition of "dangerous instrument" an animal. Your Committee believes that a dangerous animal, when used in furtherance of a theft, may be capable of producing death or serious bodily injury.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 919, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 919, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 836 Judiciary on S.B. No. 924

The purpose of this bill is to clarify the definition of "contraband" by excluding dangerous instruments and drugs from the definition, for purposes of the offense of promoting prison contraband in the second degree.

Testimony in support of the bill was received by your Committee from the Department of Public Safety, the Department of the Prosecuting Attorney of the City and County of Honolulu, and the Honolulu Police Department.

Your Committee finds that section 710-1022, Hawaii Revised Statutes (relating to the offense of promoting prison contraband in the first degree), deals exclusively with dangerous instruments and drugs. However, section 710-1023 (relating to the offense of promoting prison contraband in the second degree) also includes dangerous instruments and drugs within the definition of "contraband", thus causing overlapping of the two offenses.

Your Committee notes that this overlapping between the offenses of promoting prison contraband in the first and in the second degree have restricted the State to charging only in the lesser offense when dangerous instruments and drugs are involved. Accordingly, your Committee finds that this bill is necessary to clarify the distinctions between the two offenses and to permit the State to charge the higher offense when dangerous instruments and drugs are involved in promoting prison contraband cases.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 924 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 837 Judiciary on S.B. No. 1003

The purpose of this bill is to allow parents who do not contest their support obligations and who are not in arrearage with their payments to opt out of the child support enforcement agency payment system.

Your Committee finds that many custodial parents have not been able to obtain effective assistance from the Child Support Enforcement Agency (CSEA). The CSEA's overwhelming caseload greatly contributes to the difficulty custodial parents have in obtaining assistance from CSEA. Your Committee further finds that a decrease in the number of cases handled by CSEA would allow the agency to address the many other computer, staffing, and system maintenance problems that have plagued it. Therefore, your Committee intends for this bill to provide more parents the opportunity to make alternative payment arrangements, thereby decreasing the caseload of CSEA and increasing agency efficiency and service.

However, your Committee is concerned that this bill, as drafted, may make it easier for obligor parents to request direct payment and then not pay. Your Committee finds that at least seventy percent of obligor parents do not pay all or part of their child support obligations. In addition, your Committee is concerned that situations may occur whereby an obligor parent may unduly influence the custodial parent into agreeing to the direct payment option.

Your Committee is aware that section 576D-10, Hawaii Revised Statutes, already provides for alternative or "opt-out" arrangements allowing for direct payment of child support between an obligor parent and the custodial parent upon a finding by the court that it is in the "best interest of the child." Your Committee strongly believes that this standard should still be applied as the primary standard when allowing parents to "opt-out" of the system.

Testimony in support of the measure was submitted by two private citizens. The Department of the Attorney General, the Department of Human Services, Hawaii State Commission on the Status of Women, Hawaii Women Lawyers, and a private citizen submitted testimony in support of the intent of the bill but had several concerns about the ramifications of allowing the parents to agree to "opt-out" of the CSEA system.

Upon further consideration, your Committee has amended this bill by authorizing the court to permit opt-out agreements, provided that such agreements are in the best interests of the child and comply with all federal regulations.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1003, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 838 Judiciary on S.B. No. 1022

The purpose of this measure is to enact a Uniform Health Care Decisions Act.

Your Committee finds that since the Supreme Court's decision in Cruzan v. Commissioner, Missouri Department of Health, 497 U.S. 261 (1990), significant changes have occurred in state legislation on health care decision making. Nearly all states have statutes authorizing the use of powers of attorney for health care. In addition, a majority of states have statutes allowing family members, and in some cases close friends, to make health-care decisions for adult individuals who lack capacity. However, your Committee recognizes that there is a greater need for uniformity among advance directives for health care and believes that this Uniform Health Care Decisions Act will simplify and facilitate the making of advance health-care directives.

Testimony in support of this measure was submitted by the Executive Office on Aging, the Governor's Surrogate Decision Making Committee, the Policy Advisory Board for Elder Affairs, Hawaii Medical Association, Healthcare Association of Hawaii, Hospice Hawaii, Hawaii Right to Life, Hawaii Nurses Association, an attorney specializing in elder law, and a law school professor who teaches elder law and health-related law. The Judiciary submitted comments on this measure.

Upon further consideration, your Committee has amended this measure by:

- (1) Changing all references of "individual" to "patient";
- (2) Changing all references of "individual instruction" to "instruction" and amending the definition to mean any type of written or oral direction concerning health-care treatment;
- (3) Adding the definition of "patient" to mean an adult or emancipated minor;
- (4) Changing all references of "principal" to "patient";
- (5) Deleting the provisions setting forth the instructions for witness declarations;
- (6) Deleting the provisions setting forth the instructions for a notary public;
- (7) Adding reciprocal beneficiaries to the class of persons that may serve as an alternate designee to a surrogate;
- (8) Changing the reference of "residential long-term health care institution" to "health care institution";
- (9) Changing all references of "ward" to "patient";
- (10) Changing the majority of references of "person" to "agent, guardian, or surrogate" where applicable;
- (11) Adding the word "guardian" to section 10 of the bill;
- (12) Deleting the repeal of Act 332, Session Laws of Hawaii 1997 since it automatically will repeal on June 30, 1999 and the effective date of this Act is July 1, 1999; and
- (13) Making technical, non-substantive changes for the purposes of clarity and style.

Although your Committee supports the intent of the measure, your Committee still has many concerns that need to be addressed as this bill winds its way through the legislative process. The following is not meant to be an exhaustive list of issues and should be considered as a starting point for further discussions.

- (1) In section 3 (a) and (b), clarification is needed to address the question of whether an "instruction", "power of attorney" and "patient instruction" has the same meaning;

- (2) In section 3 (e), clarification is needed to address the question of whether the effectiveness of a power of attorney permanently ceases upon the patient's recovery;
- (3) In section 4 and 6, clarification is needed to address the question of whether "personally informing" actually means an oral communication;
- (4) In section 6, clarification is needed to address the issue of whether there is a compelling need for a surrogate decision maker and a scheme for multiple alternates;
- (5) In section 6, clarification is needed to address the issue of whether the approach in subsection (e) is the best way to handle a disagreement among the surrogate alternates;
- (6) In section 6, clarification is needed to address the question of how is a surrogate required to communicate the surrogate's assumption of authority -- in writing, orally, by telephone, by fax, etc.;
- (7) In section 7(a), clarification is needed to address the question of when would a legal guardian be appointed by the court. It appears that the courts will not appoint a guardian unless the patient (ward) was previously determined to be incapacitated. Consideration should be given to the Judiciary's comments with regards to this provision;
- (8) In section 8, clarification is needed to address the issue of how to define "reasons of conscience";
- (9) In sections 9 and 10, a closer examination of the immunity and liability provisions is required; and
- (10) In section 11, clarification is needed to address the question of who is an "aggrieved individual", who is the "person", and who is the "individual".

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1022, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 839 Judiciary on S.B. No. 1048

The purpose of this bill is to allow foster boarding homes to accommodate six or more minor siblings.

The bill also requires inquiries into the criminal history records of a foster boarding home operator for the first two years after a boarding home certification and biennially thereafter in conjunction with the certification schedule.

Presently, foster boarding homes may be certified for up to five children. Large sibling groups, however, have had to be separated in foster placement as a result of this restriction. The separation of siblings in a stressful situation can be traumatic, especially for younger children.

This bill provides for large families by allowing siblings to be placed in the same home.

Your Committee has amended the bill by requiring the annual (in addition to the biennial) inquiry of criminal history records after the first two years, if the certification status of the foster boarding home operator warrants such action. Your Committee has also amended the bill by making technical changes that have no substantive effect.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1048, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 840 Judiciary on S.B. No. 1050

The purpose of this administration bill is to strengthen and clarify the Child Protective Act, and to bring it into compliance with the federal Adoption and Safe Families Act of 1997.

Specifically, this bill:

- (1) Adds a definition of "abandoned infant";
- (2) Adds "abandoned infant" to the definition of "aggravated circumstances";

- (3) Allows for service of summons to be made by registered or certified mail if the party resides out of State;
- (4) Reduces from eighteen months to twelve the time in which the Family Court may set the case for a show cause hearing if the child's family home is determined not to be safe;
- (5) Requires the Family Court to set the case for a show cause hearing if the court determines that aggravated circumstances are present;
- (6) Places the burden of presenting evidence upon the child's family in a show cause hearing as to why the case should not be set for a permanent plan hearing;
- (7) Requires the Family Court to set the case for a show cause hearing within thirty days if the court determines that aggravated circumstances are present, or if the child has been residing outside the family home for twelve consecutive months;
- (8) Requires the Department of Human Services to file a motion to set the matter for a permanent plan hearing if the child has been residing outside the family home for an aggregate of fifteen out of the most recent twenty-two months; and
- (9) Reduces from three to two years from the date on which the child was first placed in foster custody for the court to proceed with a permanent plan hearing if it is not reasonably foreseeable that the child's parents or guardians are able to provide a safe family home.

Your Committee received testimony in support of this bill from the Department of Human Services and the Judiciary.

Your Committee believes that this measure will enable the Family Court to deal more effectively with child abuse. Your Committee finds that the Child Protective Act needs to be periodically updated to deal with new situations and to tighten up the statutory standards.

Accordingly, your Committee has amended this bill on the recommendation of the Judiciary, and with the support of the Department of Human Services, to:

- (1) Elaborate and expand the definition of "abandoned infant" to make it more consistent with Hawaii's existing adoption law;
- (2) Amend the definition of "aggravated circumstances" by:
 - (A) Amending paragraph (3) of the definition to clarify that aggravated circumstances exist if parental rights were terminated by a court inside or outside of Hawaii;
 - (B) Amending paragraph (5) of the definition by replacing the provision "The parent has abandoned the infant" with "The child is an abandoned infant"; and
 - (C) Amending paragraph (6) of the definition to require the elements under both paragraphs 587-73(a)(1) and (2) to be present, rather than either one or the other;
- (3) Amend section 587-71, Hawaii Revised Statutes, to add a new subsection (o) to the effect that nothing shall prevent the court from setting a show cause hearing or a permanent plan hearing at any time the court determines it appropriate, that is, even without a finding of aggravated circumstances if it is in the best interests of the child.

Your Committee also has made technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1050, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1050, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 841 Judiciary on S.B. No. 1051

The purpose of this measure is to allow the Department of Human Services to disclose records relating to child abuse or neglect in accordance with its rules, as required by federal law or regulation.

This is an administration measure to conform the Department of Human Services' procedures regarding disclosing information relating to child abuse or neglect cases with federal law and regulations.

Your Committee has made a technical, nonsubstantive amendment for the purposes of clarification on page 4, line 21 by adding the phrase "of reports and records relating to child abuse or neglect" to clarify the subject of the disclosures.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1051, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1051, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 842 Judiciary on S.B. No. 1052

The purpose of this bill is to extend the sunset date for the child protective services reform coordinating committee from June 30, 1999 to June 30, 2002. The bill also exempts the committee's operations from chapter 91, Hawaii Revised Statutes, and permits the committee to share data with the neighborhood places, subject to confidentiality requirements.

Your Committee finds that the coordinating committee needs more time to fulfill its function and that extending its sunset date for three years will enable it to accomplish its tasks. Your Committee also finds that the coordinating committee is already exempt from the public notice and public hearing requirements of chapter 91, and that extending its exemption to the entire law is appropriate at this time, given the relatively short duration of its intended existence.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1052, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 843 Judiciary on S.B. No. 1122

The purpose of this bill is to clarify that any conviction or sentence for carrying or use of a firearm in the commission of a separate felony shall be in addition to and not in lieu of any conviction and sentence for the separate felony. In addition, this bill clarifies that the sentence imposed may run concurrently or consecutively with the sentence for the separate felony.

Your Committee believes that stronger and more certain penalties should be instituted to discourage the use of firearms in the commission of a felony and to provide a deterrent effect against such use.

Your Committee finds that clarification in the law is necessary due to a recent Hawaii Supreme Court case, State v. Jumila, 87 Haw. 1 (1998), in which the Court held that the offense of carrying or using a firearm in the commission of a felony was not punishable as a separate offense from the underlying felony. In Jumila, the majority and the dissent agreed that the legislature could, if desired, permit the conviction and sentencing for both offenses. However, the majority and dissent disagreed as to whether the legislature had done so. The majority found that there was insufficient legislative history to conclude that the legislature had intended separate convictions and sentencing. The dissent disagreed, citing prior case law and language in committee reports indicating that carrying or using a firearm in the commission of a felony could be charged in addition to the underlying offense.

Your Committee agrees with the dissent. Senate Standing Committee Report No. 1217 (1993 Senate Journal at 1210) clearly states "[A]n offender who uses a firearm in the commission of a felony can be charged with, in addition to the underlying offense, a class A felony under section 134-6(a) and therefore be subject to enhanced penalty." (Emphasis added.)

At the same time, your Committee recognizes and seeks to address another shortcoming in the law, as pointed out by the Jumila dissent. The dissent noted that there was insufficient legislative intent to permit cumulative sentencing under section 134-6(a) and section 706-660.1 (sentence of imprisonment for use of a firearm in a felony). Your Committee believes that when the application of both statutes is based upon the same underlying felony, cumulative punishment is permissible.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Department of the Prosecuting Attorney of the City and County of Honolulu, the Department of the Prosecuting Attorney of the County of Maui, and the Honolulu Police Department. Testimony in opposition to this bill was submitted by the Office of the Public Defender and the Hawaii Rifle Association.

Upon further consideration, your Committee has amended this bill by adding a saving provision and making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1122, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 7. Noes, none. Excused, none.

SCRep. 844 Judiciary on S.B. No. 21

The purpose of this bill, as received by your Committee, is to add injuring athletic contest officials to the offense of assault in the second degree, and to provide a civil liability exemption for athletic contest officials.

Your Committee finds that violence against referees, umpires, and other athletic contest officials is a perpetual problem in the sports world, and that violent confrontations may be on the rise. Your Committee finds that organized leagues or other sporting associations do have the power to sanction athletes, coaches, fans, or teams that cause or participate in such confrontations within the structure of the league, ultimately to the extent of banning troublemakers from all further participation. However, your Committee finds that sporting officials hired by the Department of Education should be treated as educational officials for the purpose of the current law.

Testimony in support of this measure was submitted by the National Federation Interscholastic Officials Association and the Hawaii Football Officials Association. Testimony in opposition to this measure was submitted by the Office of the Public Defender and Consumer Lawyers of Hawaii.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provision giving a civil liability exemption to athletic contest officials;
- (2) Deleting the provision adding injury to an athletic contest official as a basis for assault in the second degree;
- (3) Deleting portions of the purpose section to conform with the amendments made to this measure; and
- (4) In the definition of an "educational worker," changing the requirement that the person be carrying out an educational function to a requirement that the person be carrying out an education-related function.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 21, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 21, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Tanaka, Anderson).

SCRep. 845 Judiciary on S.B. No. 36

The purpose of this bill, as received by your Committee, is to authorize condominium associations to: collect through liens delinquent maintenance fees; assess arrearages upon tenants and terminate utilities provided to occupants; and allow associations to invest funds in out-of-state financial institutions.

Your Committee finds that delinquent maintenance fees are a continuing problem for the condominium associations and their respective governing boards are responsible for ensuring the financial solvency of the associations and the provision of services guaranteed to the owners and occupants. Your Committee further finds that existing law requires associations to maintain a certain level of revenue in a reserve fund in anticipation of large expenditures for common-area maintenance and improvements, which expenses should be borne by all owners. Your Committee is concerned that the provisions which would allow associations to assess tenants for unpaid maintenance fees inappropriately reaches beyond the scope of the contractual agreement between the owner and the tenant. Thus, your Committee believes that a process needs to be established through the landlord tenant code if associations seek remedy from the tenant for arrearages.

Upon further consideration, your Committee has amended this measure by:

- (1) Allowing a written notice to be sent to the owner, tenant, and mortgagee regarding termination of utilities for non-payment of maintenance fees;
- (2) Changing the provision allowing association liens to be prior to any mortgages, to allowing association liens in an unspecified chronology to mortgages;
- (3) Changing the period of recovery of unpaid assessments from six months preceding any legal collection action to an unspecified period preceding such action;
- (4) Giving judicial foreclosure actions priority over actions by the association to make collections;
- (5) Requiring the mortgagee of record or other purchaser upon transfer of title to pay the apartment's share of assessments within an unspecified time after the hearing at which the sale is confirmed;
- (6) Deleting the provisions which allow the association to collect arrearages from tenants; and
- (7) Making technical, non-substantive changes for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 36, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 36, S.D. 2.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 846 Judiciary on S.B. No. 42

The purpose of this measure is to extend the sunset date of Act 190, Session Laws of Hawaii 1996, which created the Task Force on Beach and Water Safety, and to require the task force to report to the legislature before every regular session.

Your Committee finds that the Task Force on Beach and Water Safety has been effective in advising the Chairperson of the Board of Land and Natural Resources on the design and placement of signs warning of extremely dangerous natural conditions in the ocean off State or County beach parks. Your Committee further finds that the Task Force should be afforded additional time to complete its work on the development of signs and a comprehensive plan for warning of dangerous natural conditions in the ocean off public beach parks.

Testimony in support of this measure was submitted by the Chairperson of the Board of Land and Natural Resources, the Office of the Mayor for the County of Maui, the Department of the Corporation Counsel for the City and County of Honolulu, the County Council for the County of Maui, the Office of the County Attorney for the County of Kaua'i, and the Consumer Lawyers of Hawaii.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 42, S.D. 1, and recommends that it pass Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 847 Judiciary on S.B. No. 186

The purpose of this bill, as received by your Committee, is to limit county liability for personal injury from hazardous recreational activities occurring at a county-owned or controlled facility, and to repeal the invitee or licensee exception to assumption of the risk for injuries on school property.

Your Committee finds that the limitation on county liability proposed by this measure would provide counties with greater protection from liability than is enjoyed by the State or by any private landowner. Your Committee further finds that the proposed expansion of the assumption of the risk defense for injuries occurring on school property would not sufficiently protect persons who were injured after being invited onto school grounds for fairs, plays, or other events.

However, your Committee finds that this measure, relating to tort liability, is an appropriate vehicle for changes to Hawaii's tort laws recommended by the Tort Law Study Group. The Study Group, which was convened in 1997 as requested by the Legislature examined the issue of punitive damages. Your Committee notes that a recent Hawaii Supreme Court case has addressed this issue in the context of tort claims arising out of breaches of contract. Codification of the holding in that case will give greater certainty in the area of punitive damages.

Your Committee notes that businesses and individuals have also objected to the practice by plaintiffs filing a lawsuit of naming all possible defendants before determining which defendants were most involved in the alleged wrongful conduct. This is sometimes done as a protective measure, to avoid a situation in which a known potential defendant is later discovered to have been substantially responsible, but cannot be named because the statute of limitation has already run. If plaintiffs could name additional defendants without regard to statutes of limitation, though, defendants would be prejudiced by being brought into lawsuits late and without a fair opportunity to prepare for trial. Your Committee believes this issue can be addressed by allowing plaintiffs to name as Doe defendants known potential defendants whose responsibility for the alleged wrongful acts could not be ascertained through reasonable efforts before filing of a complaint, but requiring plaintiffs to act with diligence in determining the responsibility of potential defendants and, if appropriate, identifying them to the court.

Testimony in support of this measure was submitted by the Department of Education, the Office of the Mayor for the County of Maui, the Department of the Corporation Counsel for the City and County of Honolulu, a member of the Maui County Council, and the Hawaii County Council. Testimony in opposition to this measure was submitted by the Consumer Lawyers of Hawaii.

Upon further consideration, your Committee has amended this measure by:

- (1) Deleting the provision limiting county liability for hazardous recreational activities;
- (2) Deleting the provision changing the circumstances in which a person on school grounds is deemed to have assumed the risk of injury;
- (3) Adding a provision codifying the Hawaii Supreme Court's decision as to tortious breach of contract in Francis v. Lee Enterprises, Inc., No. 21631 (Haw. 1999); and

- (4) Adding a provision permitting pleaders to name under fictitious names defendants whose responsibility for the wrongful acts alleged is unknown, in addition to defendants whose identity is unknown.

As affirmed by the record of votes of the members of your Committee on Judiciary that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 186, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 186, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Co-Chairs on behalf of the Committee.
Ayes, 6. Noes, none. Excused, 1 (Anderson).

SCRep. 848 Judiciary on S.B. No. 235

The purpose of this bill, as received by your Committee, is to amend the Whistleblower Protection Act by expanding the areas of protected conduct and the types of reportable violations.
