

SPECIAL COMMITTEE REPORTS

Spec. Com. Rep. No. 1

Your Committee on Credentials begs leave to report that it has examined the Certificates of Election of the Senate of the Twenty-third Legislature of the State of Hawaii, Regular Session of 2005, and finds that the following persons have been legally elected and are fully qualified to sit as members of the Senate.

The newly elected Senators whose respective terms of office will expire on November 4, 2008 are:

First Senatorial District

Lorraine R. Inouye

Third Senatorial District

Paul Whalen

Fifth Senatorial District

Rosalyn H. Baker

Sixth Senatorial District

J. Kalani English

Seventh Senatorial District

Gary L. Hooser

Twelfth Senatorial District

Gordon Trimble

Sixteenth Senatorial District

David Y. Ige

Seventeenth Senatorial District

Ron Menor

Eighteenth Senatorial District

Clarence K. Nishihara

Twenty-first Senatorial District

Colleen Hanabusa

Twenty-second Senatorial District

Robert Bunda

Twenty-third Senatorial District

Clayton Hee

Signed by Senators Kim, Tsutsui and Hemmings.

Spec. Com. Rep. No. 2

Your Committee on Human Services, acting as a Special Interim Committee, to which was referred S.R. No. 40, S.D. 2, entitled:

REQUESTING THE SENATE COMMITTEE ON HUMAN SERVICES TO CONVENE INTERIM HEARINGS ON THE MISUSE OF LEGAL INTERVENTIONS AVAILABLE TO THE FAMILY COURT,

begs leave to report as follows:

I. INTRODUCTION

The Senate of the Twenty-Second Legislature, Regular Session of 2004, adopted S.R. No. 40, S.D. 2, in order to address ongoing concerns regarding the misuse of legal interventions available to the Family Court. The measure requested the Committee on Human Services to convene interim hearings to review and address these concerns.

II. SCOPE OF REVIEW

Pursuant to S.R. No. 40, S.D. 2, the Committee's responsibilities were twofold:

- (1) To convene interim task force meetings on the misuse of legal interventions available to the Family Court, including the long-term use of interventions such as temporary restraining orders; the selection, use, and accountability of custody guardians ad litem and other personnel; the use of acceptable national standard of care for the best interests of the children and families in Family Court; and other issues that impact the timely and fair resolution of cases; and
- (2) To submit a report of its findings and recommendations for legislative action to resolve the identified issues no later than twenty days prior to the Regular Session of 2005.

III. APPROACH

The Committee held a public task force meeting on August 19, 2004. At that hearing, testimony was presented and received from the Children's Rights Council of Hawaii and ten individuals. Based on the scope of the Committee's responsibilities and the testimony received at the hearing, your Committee identified four main areas of concern for review:

- (1) Standards relating to "joint custody" and "best interests of the child";
- (2) Accountability of Family Courts in using interventions such as temporary restraining orders (TROs) and protective orders (POs);
- (3) Cost-effectiveness and increased accountability of guardians ad litem (GALs) and other providers (e.g. custody evaluators); and
- (4) Mandatory mediations (alternative dispute resolution) for all Family Court proceedings.

A follow-up task force meeting was held on September 23, 2004. Prior to this hearing, invitations were sent to various state departments, public interest groups, family law attorneys, retired judges, and private individuals. The task force approach was designed to be open and inclusive. Task force meetings and briefings were open to the public and televised over Capitol Television. Anyone with an interest or concern was allowed to participate, and if they chose, were included. Additionally, members were added to the task force as meetings took place. A listing of task force attendees, resource people, and other participants is attached as Appendix A.

At this hearing, attendees were asked to participate in one or more of the four task force groups (joint custody, temporary restraining and protective orders, standards for guardians ad litem, and alternative dispute resolution). Each group was instructed to meet, confer, and present findings and recommendations for its topic at a follow-up task force meeting on October 28, 2004.

At the September 23, 2004 meeting, numerous questions were raised regarding the Family Court's procedures and policies. However, there was no representative from the Judiciary present at the hearing. In an earlier conversation with your Committee Chair, Supreme Court Chief Justice Ronald Moon indicated that no representative from the Judiciary would be present at the September 23, 2004 hearing because any discussion between the Legislature and the Judiciary regarding policy decisions enforced by the Judiciary could create a potential separation of powers problem.

Thus your Committee suggested having a follow-up briefing with a representative from the Judiciary to address some of the procedural questions to aid each of the four task force groups with their work. Written questions were submitted to the Judiciary prior to the briefing. An informational briefing was held on October 11, 2004. At that briefing, Senior Family Court Judge Frances Wong presented a PowerPoint presentation entitled "Private Custody Disputes -- Making a Good Family Court System Better" and answered questions from representatives from each of the four task-force groups. Judge Wong's PowerPoint presentation and a summary of her presentation are included as Appendix B.

On October 28, 2004, a final task force meeting was held. At that hearing, each of the four task force groups presented their findings and recommendations for legislative action to resolve their identified issues.

IV. REVIEW AND ASSESSMENT OF CURRENT STATUTES

There are four main topics covered by your Committee. The main topics are as follows:

- (1) Standards relating to "joint custody" and "best interests of the child";
- (2) Accountability of Family Courts in using interventions such as temporary restraining orders (TROs) and protective orders (POs);
- (3) Cost-effectiveness and accountability of guardians ad litem (GALs) and other providers (e.g. custody evaluators); and

- (4) Mandatory mediations (alternative dispute resolution) for all Family Court proceedings.

There are specific Hawaii statutes that address each area. Each of the following sections describes the current statutory background for each topic and contains a general discussion of issues that were raised during the August 19, 2004 hearing.

Joint Custody

Review of Statutes

Joint custody is a legal concept that not only allows each parent to have an equal voice in making decisions relating to their children's well being, but also recognizes the advantages of shared responsibility in raising children. *See* 24A Am.Jur.2d *Divorce and Separation* §940 (1998). Typically, an award of joint custody is proper where the arrangement is in the best interest of the child and both parents are fit and proper persons to be awarded custody. *Id.*

States have statutorily defined the term "joint custody." Under Hawaii law, "joint custody" refers to "an order awarding legal custody of the minor child or children to both parents and providing that physical custody shall be shared by the parents in such a way as to assure the child or children of continuing contact with both parents. . . ." Hawaii Revised Statutes (HRS) §571-46.1.

Hawaii has enacted a child custody statute that recognizes joint custody as one of many viable custodial arrangements. Joint custody is statutorily established in HRS §571-46.1. This section establishes the standards, considerations, and procedures that the Hawaii Family Court must apply in determining an award of joint custody.

HRS §571-46.1 permits the awarding of joint custody based upon the motion of a parent. This section reads in relevant part:

- (a) Upon the application of either parent, joint custody may be awarded in the discretion of the court. For the purpose of assisting the court in making a determination whether an award of joint custody is appropriate, the court shall, upon the request of either party, direct that an investigation be conducted pursuant to the provisions of section 571-46(4).

Accordingly, under Hawaii law, joint custody is recognized as a viable custodial arrangement if requested by one of the parties. However, there is no statutory language creating an express presumption in favor of this custodial arrangement.

In divorce proceedings, the "best interests of a child" analysis is the proper and feasible criterion for determining which of the two parents will be accorded custody of the child. *See* 24A Am. Jur.2d. *Divorce and Separation* §931 (1998).

In Hawaii, the best interests of a child analysis is utilized in awarding custody in actions for divorce, separation, annulment, separate maintenance, or any other proceeding where there is a dispute as to the custody of a minor child. *See* HRS §571-46.

Under Hawaii law, in determining a custody arrangement that is in the best interests of the child, the court is required to take into consideration various statutorily enumerated factors. Some of these factors include: (1) the child's preference; (2) the moral, physical, mental, spiritual well being of the child; (3) evidence of family violence; and (4) the wishes of the child's parents. *See* HRS §571-46.

Nationally, states have implemented different approaches in determining whether joint custody is the appropriate custodial arrangement for both the child and his or her parents. Some states, such as Connecticut have enacted statutory language that expressly creates a presumption in favor of joint custody. Other state statutes, such as Michigan and Hawaii, recognize joint custody as an option for consideration that may be brought to the court's attention by the parties involved in the divorce action. Summary tables of state joint custody laws are included in Appendix C.

Discussion

At the hearing on August 19, 2004, strong endorsements were made to amend current Hawaii statutes to provide a presumption of joint custody. This view is premised upon the philosophy that the best parent for a child is both parents. According to testimony provided, thirty states and the District of Columbia have enacted a presumption or preference in statute for joint custody. Testimony received by your Committee also highlighted specific state laws deserving of consideration.

Temporary Restraining Orders and Protective Orders

Background Information

Under current Hawaii laws, the process and procedure for obtaining a temporary restraining order (TRO) and protective order (PO) are referenced under Chapter 586, HRS. In 1982, a TRO was effective for 30 days and a PO could be issued for a period as "the court deems appropriate, not to exceed ninety days from the date of its initial order." Subsequent amendments expanded both the type of conduct that may form the basis for granting a TRO or PO as well as the groups of individuals that may not only submit a petition for a TRO or PO, but also avail themselves of the protections of a TRO or PO.

In 1985, a "family or household member" was permitted to apply for an order for protection on behalf of a minor or an incapacitated person. Additionally, the protections of a TRO were expanded to include the applicant's family or household members.

In 1987, two important amendments with respect to POs were enacted. First, a state agency was authorized to file a petition for a PO on behalf of a minor or incapacitated individual when there is no household or family member who can initiate the petition. Second, allegations concerning "extreme psychological abuse" and "malicious property damage" were recognized as grounds upon which a petition for a PO may be granted. A PO was now effective for a period of time "the court deems appropriate, not to exceed one

hundred eighty days from the date of the protective order is granted.” A TRO was now effective thirty days from the date the order is granted.

The 1992 amendments identified certain acts which a court may enjoin a respondent from committing against a petitioner for the purposes of issuing a TRO, including contacting, threatening, or physically abusing the petitioner as well as any other person residing at the petitioner’s residence. Accordingly, a TRO could prohibit telephone calls to the petitioner; entering or visiting the petitioner’s residence; and contacting, threatening, or physically abusing the petitioner at work. The 1992 amendments also increased criminal penalties for violations of a TRO as well as extended the TRO period to ninety days from the date the TRO is granted. The 1992 amendments also modified the effective date of the TRO where a TRO, orally granted by the court, may be deemed in effect at that time when the court determines that each party understands the order and its conditions.

In 1997, the PO provisions were amended to remove the requirement that judges consider “recent” acts of domestic violence in determining whether to issue a PO for victims of domestic abuse. This was done to ensure greater uniformity in application of the PO statute among judges as well as provide judges with greater discretion in determining whether there is sufficient evidence to support the need for a PO.

Review of Statutes

Pursuant to statute, to obtain a PO in Hawaii:

(c) A petition for relief shall be in writing upon forms provided by the court and shall allege, under penalty of perjury, that: a past act or acts of abuse may have occurred; threats of abuse make it probable that acts of abuse may be imminent; or extreme psychological abuse or malicious property damage is imminent; and be accompanied by an affidavit made under oath or a statement made under penalty of perjury stating the specific facts and circumstances from which relief is sought.

HRS §586-3(c).

To obtain a TRO, the respondent does not have to be present at the hearing and the petition must show probable cause that one or more acts of abuse have occurred or a threat of abuse make it probable that an act of abuse is imminent. The HRS provisions state that:

[u]pon petition to a family court judge, an ex parte temporary restraining order may be granted without notice to restrain either or both parties from contacting, threatening, or physically abusing each other, notwithstanding that a complaint for annulment, divorce, or separation has not been filed.

HRS §586-4(a).

The order shall state that there is probable cause to believe that a past act or acts of abuse have occurred, or that threats of abuse make it probable that acts of abuse may be imminent. The order further shall state that the temporary restraining order is necessary for the purposes of: preventing acts of abuse or preventing a recurrence of actual domestic abuse; and ensuring a period of separation of the parties involved.

HRS §586-4(c) (emphasis added).

Time limits for TROs are statutorily limited to 90 days. However, POs have no statutory limits and may be extended indefinitely.

(a) A temporary restraining order granted pursuant to this chapter shall remain in effect at the discretion of the court, for a period not to exceed ninety days from the date the order is granted.

HRS §586-5(a).

[T]he court may order that a protective order be issued for a further fixed reasonable period as the court deems appropriate.

...

(b) A protective order may be extended for such further fixed reasonable period as the court deems appropriate.

HRS §586-5.5.

Additionally, when a TRO is issued, the respondent is restrained from contacting the petitioner, as well as any person residing at the petitioner’s residence. Specifically, the petitioner is restrained from:

- (1) Contacting, threatening, or physically abusing the protected party;
- (2) Contacting, threatening, or physically abusing any person residing at the protected party’s residence; or
- (3) Entering or visiting the protected party’s residence.

HRS §586-4(a).

Nationally, most states have codified similar standards as those present in Hawaii’s TRO and PO laws. A summary of a national statutory review is included as Appendix D.

Discussion

At the task force meeting on August 19, 2004, a number of testifiers voiced concerns regarding the prevalence of TROs and POs in their own cases or in those of close friends or family. These oft-repeated complaints focused upon the use of ex parte motions to obtain TROs where one party was not present to contest the allegations as well as allowing these orders to extend indefinitely, often beyond the expiration date. In regard to POs, testifiers echoed similar concerns with respect to the potentially open-ended nature of these orders which could be extended indefinitely at the discretion of a Family Court judge.

At the October 11, 2004 information briefing, Judge Frances Wong did not address many of the written questions submitted to the Judiciary regarding misuse of TROs and false allegations of abuse, saying that these represented 'red herrings.'

Guardians ad Litem and Custody Evaluators

Review of Statutes

Under current Hawaii statutes, there are two programs that are used as tools in resolving child custody issues. These two distinct programs involve different functions under separate provisions of the HRS: the custody evaluator program and the guardian ad litem program.

In 1995, the Family Law Section of the Hawaii State Bar Association in cooperation with the Family Court of the First Circuit developed the Special Guardian Ad Litem project designed to help resolve difficult or complex custody cases in a fair and expeditious manner. After one year, the Special Guardian Ad Litem program was replaced with custody evaluators and custody guardians ad litem by then Senior Family Court Judge Michael Town. Subsequent memorandums in the Family Court of the First Circuit established the duties and responsibilities of these two positions, including qualifications, a fee schedule, and process for filing reports with the Family Court. Presently, only custody evaluators remain in use as the Family Court of the First Circuit abolished the Custody Guardian Ad Litem Program in 2002.

Custody evaluators are private experts designed to assist Family Court judges in determining appropriate custodial arrangements as well as visitation schedules. Subsequent court memorandums clarified the specific duties and responsibilities of custody evaluators as well as the qualifications and experience necessary to serve as a custody evaluator.

A custody evaluator is appointed by the Family Court and authorized, pursuant to HRS §571-46(4), to investigate, evaluate, and make recommendations relating to child custody determinations. The respective duties of a custody evaluator are defined statutorily as follows:

- (4) Whenever good cause appears therefor, the court may require an investigation and report concerning the care, welfare, and custody of any minor child of the parties. When so directed by the court, investigators or professional personnel attached to or assisting the court shall make investigations and reports which shall be made available to all interested parties and counsel before hearing, and the reports may be received in evidence if no objection is made and, if objection is made, may be received in evidence; provided the person or persons responsible for the report are available for cross-examination as to any matter that has been investigated.

HRS §571-46(4).

Payment for custody evaluators is not specifically provided for by statute. However, in the Family Court of the First Judicial Circuit, Judge Frances Wong issued a memorandum, dated December 5, 2001, specifying the fee schedule for custody evaluators. Specifically, the memorandum provides that:

The court will state a "cap" on fees in all orders appointing custody evaluators The "caps" for custody evaluators will normally range from \$1500 to \$3000, will be subject to further order of the court, and will not include costs. "Caps" may be exceeded depending on the resources of the parties, the complexity of the case and the experience of the professional and must be approved by the court. For . . . custody evaluators . . . , no extraordinary costs can be incurred without prior order of the court or a filed stipulation of the parties. In the event that the court orders parties into counseling or guided co-parenting planning, the court shall set "caps" for said services which can be exceeded only by further order or by agreement of the parties. The court, based on the totality of the circumstances, shall apportion fees and costs.

Memorandum, "'Custody Guardian Ad Litem and Custody Evaluation Program' in First Circuit," December 5, 2001.

In contrast, a GAL is appointed by the court to act as an advocate for a child. Section §571-46(8), HRS, governs the appointment of a GAL in a child custody determination and provides as follows:

- (8) The court may appoint a guardian ad litem to represent the interests of the child and may assess the reasonable fees and expenses of the guardian ad litem as costs of the action, payable in whole or in part by either or both parties as the circumstances may justify.

HRS §571-46(8).

GALs, once appointed by the courts, are reimbursed in two ways for their services: the court either pays for the GAL services or orders one or both parties to pay the GAL for costs and fees. HRS §§571-46(e) and 587-34(e). Under HRS §571-87(b), the courts determine a reasonable compensation amount based on a rate of \$40 an hour for out-of-court services and \$60 an hour for in-court services with a statutorily capped fee of:

- (1) Cases arising under chapters 587 and 346, part X:
 - (A) Predisposition \$1,500;
 - (B) Postdisposition review hearing \$500;
- (2) Cases arising under chapters 560, 571, 580, and 584 \$1,500.

Payments in excess of any maximum provided for under paragraphs (1) and (2) may be made whenever the court in which the representation was rendered certifies that the amount of the excess payment is necessary to provide fair compensation and the payment is approved by the administrative judge of such court.

HRS §571-87(b).

Discussion

At the August 19, 2004 task force meeting, some testifiers were confused over which program was the target of their complaints, the custody evaluator program or the guardian ad litem program. Most of the complaints were directed toward the guardian ad litem program; but it was not clear which program was in effect at the time of individual claimants' complaints. Thus, for this discussion section, the term "guardians ad litem" will be used generally to refer to both guardians ad litem and custody evaluators.

Testimony and recommendations with respect to the use and role of "guardians ad litem" in Family Court focused on two areas: (1) excessive fees, and (2) lack of standards and accountability. One concern voiced by the testifiers focused on the amount of fees charged by "guardians ad litem" during the course of family court litigation. A number of testifiers discussed their own cases in which "guardian ad litem" fees were in excess of thousands of dollars with little tangible results to justify the expense or believed that the fees charged violated statutorily-set caps.

A second concern voiced by testifiers centered upon the need for publicly-documented, reviewable standards to insure oversight and accountability by the Family Court regarding the appointment and performance of "guardians ad litem." Testifiers said they believed that court-appointed "guardians ad litem" in their cases often conducted themselves in an unprofessional manner and with little oversight by the Family Court, which relied upon the findings and recommendations contained in their reports.

At the October 11, 2004 informational hearing, Judge Frances Wong responded to questions regarding guardians ad litem and custody evaluators, stating that in 2002, the custody guardian ad litem program was abolished in response to numerous complaints that she investigated and determined to have merit.

Judge Wong also stated that she is presently working to establish a new custody investigation unit in place of the former custody guardian ad litem program. When finalized, the custody investigation unit will establish standards and a certification process for future guardians ad litem and custody evaluators, provide various social service for clients, and implement mediation and other forms of alternative dispute resolution throughout the Hawaii Family Court system. Attached as Appendix B is the Family Court's written summary of the proposed custody investigation process, based upon a model currently used in Maricopa County, Arizona.

Alternative Dispute Resolution

Review of Statutes

Currently in Hawaii, there are family court rules that provide:

The court, in its discretion or upon motion by a party, may order the parties to participate in an alternative dispute resolution process subject to conditions imposed by the court.

Hawaii Family Court Rules, Rule 53.1.

Hawaii also has a domestic violence exception for the mediation requirement in divorce and child custody and visitation proceedings when there are allegations of abuse. This statutory requirement in HRS §580-41.5, reads as follows:

(a) In contested divorce proceedings where there are allegations of spousal abuse, the court shall not require a party alleging the spousal abuse to participate in any component of any mediation program against the wishes of that party.

(b) A mediator who receives a referral or order from a court to conduct mediation shall screen for the occurrence of family violence between the parties. A mediator shall not engage in mediation when it appears to the mediator or when either party asserts that family violence has occurred unless:

- (1) Mediation is authorized by the victim of the alleged family violence;
- (2) Mediation is provided in a specialized manner that protects the safety of the victim by a mediator who is trained in family violence; and
- (3) The victim is permitted to have in attendance at mediation, a supporting person of the victim's choice including but not limited to an attorney or advocate. If the victim chooses to exercise such option, any other party to the mediation will be permitted to have in attendance at mediation, a supporting person of the party's choice including but not limited to an attorney or advocate.

(c) In a proceeding concerning the custody or visitation of a child, if a protective order is in effect, the court shall not require a party alleging family violence to participate in any component of any mediation program against the wishes of that party.

(d) In a proceeding concerning the custody or visitation of a child, if there is an allegation of family violence and a protective order is not in effect, the court may order mediation or refer either party to mediation only if:

- (1) Mediation is authorized by the victim of the alleged family violence;
- (2) Mediation is provided in a specialized manner that protects the safety of the victim by a mediator who is trained in family violence; and
- (3) The victim is permitted to have in attendance at mediation, a supporting person of the victim's choice including but not limited to an attorney or advocate. If the victim chooses to exercise such option, any other party to the mediation will be permitted to have in attendance at mediation, a supporting person of the party's choice including but not limited to an attorney or advocate.

HRS §580-41.5 (emphasis added).

Nationally, states have implemented different approaches in requiring mediation for family court proceedings. Approximately eight states have a statute requiring mandatory mediation. Of the eight states, only one has a requirement applying to family court proceedings other than child custody and visitation. Approximately thirty-three states have discretionary languages that allow the courts to decide if mediation is appropriate. In all of the states where mandatory mediation is codified, the provisions have an exception for cases with histories of domestic violence. A summary table of mediation requirements for Family Court cases in each state is included in Appendix E.

Discussion

The testimony and recommendations on this issue centered upon increasing the use of alternative dispute resolution techniques at the outset of the litigation as well as expanding and increasing the use of alternative dispute resolution to other Family Court proceedings beyond property division and those involving financial considerations.

V. FINDINGS

Upon the conclusion of its hearings, briefings, and group discussions, each task force group made the following findings:

Joint Custody

For many Family Court participants, the experience is litigious and adversarial. Unfortunately, the Family Court system presents a fear for parents that they are losing the ability to have a major role in the lives of their children. This fear polarizes parents emotionally, and in the end it is the children that ultimately are traumatized by the adversarial process.

Based on this understanding of the adversarial process, the joint custody task-force group made the following findings:

- (1) Children recover faster from a parent's divorce or separation when less emotional trauma is associated with the process;
- (2) Active participation from parents and extended family help children feel secure and included in a relationship with their parents when a divorce or separation occurs;
- (3) Co-parenting arrangements reduce children's post separation distress and minimize feelings of alienation and anger;
- (4) Children usually maintain better academic performance and relationships with peers and experience less incidents of substance abuse if they are in joint custody; and
- (5) Parents who do not experience prolonged litigation (which may include the use of mediation) in their divorce and separation are usually able to regain financial and emotional stability for their family faster.

Temporary Restraining Orders and Protective Orders

Based upon their respective experiences with the TRO and PO process in the Hawaii Family Court, the TRO task force group made the following findings. These findings focused primarily on the TRO and PO statutes and the subsequent impact once a TRO or PO is issued:

- (1) When the general provisions for domestic abuse protection orders were enacted in 1982, there were no provisions for protective orders for "extreme psychological abuse" and "malicious property damage." Both of these terms were added in subsequent amendments to the protective order provisions;
- (2) Many TROs and POs are obtained by one party to a dispute to try to gain the advantage over another party in future or ongoing divorce proceedings or a custody disputes;

- (3) The respondent in a TRO or PO proceeding often loses visitation rights as well as the ability to spend time with his or her children not because he or she is a threat to the children, but because the children are members of a household where the petitioner resides;
- (4) For many TRO or PO cases where the petitioner and the respondent have children, the respondent's continued access to the children is usually cut off, even though the children are not named as a party to the TRO or PO. The respondent is usually cut off from visitation with the children because the children live with the petitioner, and Hawaii laws prevent the respondent from having any contact with the petitioner, as well as anyone who resides in the petitioner's household;
- (5) Parties in a divorce proceeding or any other type of Family Court proceeding may file an independent action for a TRO or PO rather than a motion for TRO or PO as a part of the ongoing divorce or other Family Court proceeding. When this happens, a TRO or PO judge hears the case and the Family Court judge, who is handling the divorce or other Family Court case and may be more familiar with the parties, does not take part in granting or denying the independent action for the TRO or PO. Instead, there is usually a short and expedited hearing held by a TRO or PO judge without any background of the family's situation; and
- (6) A finding or determination of family violence raises a rebuttable presumption that it is detrimental to the child and not in the child's best interest to be placed with the perpetrator of family violence. Thus, once an ex parte TRO is granted, there is significant pressure to stipulate to a PO without going to trial, in order to avoid potential findings of abuse which could affect later custody decisions because a finding or determination of family violence raises a rebuttable presumption that it is detrimental to the child and not in the child's best interests to be placed with the perpetrator of family violence.

The TRO/PO process errs on the side of caution, and the court has erred on the side of caution in issuing POs based only on allegations of spousal abuse. In some situations, a stipulation is a common result even though it is not based on factual evidence whose veracity has been tested by the court. Consequently, the ex parte TRO/PO process is biased against a respondent who must prove that allegations of spousal abuse are false. In that instance, misuse of the TRO process results in reward to the petitioner and harm to the respondent and children involved.

In addition to the findings made by task force members, the Committee also received input on these complex issues from representatives from the Domestic Violence Clearinghouse and family law practitioners. These discussions provided the Committee with a practitioner's view of the current TRO and PO process utilized in the Hawaii Family Court. The findings suggested by these individuals are as follows:

- (1) There are insufficient financial and educational resources and personnel assigned to the TRO and PO calendar in the Hawaii Family Court of the First Judicial Circuit. Presently, there are only two judges assigned to the TRO calendar where daily caseload is extremely heavy. As a result, the written allegations contained in the petition are the only source of information available to a judge in regards to evaluating the credibility as well as the veracity of the petitioner's allegations. A verification or screening process does not exist presently which would not only aid judges in this determination, but also assist prospective petitioners unfamiliar with the legal process;
- (2) It is crucial that Family Court judges, including per diem judges, assigned to the TRO calendar have both the experience and familiarity with the complex issues implicit in domestic abuse cases. However, no requirement exists either statutorily or in court rules that requires Family Court judges attend continuing judicial education and training programs prior to being assigned to the TRO calendar;
- (3) When a TRO or PO is granted, often times there is a lack of clarity or specificity for both the petitioner and respondent in regards to the basis or grounds upon which the petition was granted. Presently, the judge marks the appropriate box on the court form without being required to identify the specific basis or grounds upon which the TRO or PO issued. This, in turn, raises due process concerns for both the petitioner and respondent; and
- (4) Several task force participants raised concerns that TROs and POs are obtained by one party to a dispute to try to gain an advantage over the other parent in future or ongoing divorce proceedings or a custody disputes. For example, once an ex parte TRO is granted, there is significant pressure to stipulate to a PO without going to trial in order to avoid potential findings of abuse which could affect later custody decisions. This is because any finding or determination of family violence raises a rebuttable presumption that it is detrimental to the child and not in the child's best interests to be placed with the perpetrator of family violence.

Guardians ad Litem and Custody Evaluators

- (1) Custody evaluators investigate facts and make recommendations to the courts for determining appropriate custodial arrangements and visitation schedules. The court relies heavily on the custody evaluator's recommendations and often makes its decision based solely on these recommendations. In these instances, the concern is that judicial decision making is transferred to the custody evaluators;
- (2) Many custody evaluators and guardians ad litem are contracted by one party in the case. This financial arrangement could bias results or, in any event, creates the perception of bias in favor of the party who is paying the fees of the custody evaluator or the guardian ad litem;
- (3) There is a lack of statutorily-established standards of conduct, oversight, accountability and rules of ethics for custody evaluators and guardians ad litem;

- (4) There is no formal grievance system for the submission and resolution of complaints concerning custody evaluators and guardians ad litem; and
- (5) The Family Courts does not receive feedback to hold the guardians ad litem accountable for their performance.

Alternative Dispute Resolution

- (1) There is a general problem accessing the court system. Many parties are unable to afford legal representation and often represent themselves in legal proceedings, without proper knowledge of the law or legal process;
- (2) There is a lack of resources available to educate the public on court proceedings or the benefits of alternative dispute resolution processes;
- (3) Currently, there is only one type or level of mediation offered during Family Court proceedings. However, there are situations where early intervention or a higher level of mediation or alternative dispute resolution may be useful to both parties in resolving their disputes;
- (4) Many states use parenting plans and parent coordinators as a part of the mediation process to resolve issues (e.g. visitation, exchanges, health and safety, communications) privately rather than through litigation; and
- (5) There is a lack of regularly collected data available to properly evaluate and track the progress of all mediation programs.

VI. RECOMMENDATIONS

Task Force Groups' Recommendations

Upon conclusion of its meetings, briefings, and group discussions, each task force group recommended that these issues continue to be examined and evaluated annually to effectively address problems within the Family Court system. Each task force group also made specific recommendations which are outlined below:

Joint Custody

A majority of the task force group agreed with the following recommendations; however, an attorney from the Legal Aid Society of Hawaii objected to the recommendation that the standard for child custody should start with a presumption of "equal parenting." The recommendations of this task force group are as follows:

- (1) "Joint custody" should be redefined in the current statutes as "shared parenting" and its definition should create a rebuttable presumption that it is in the child's best interest to have equal parenting continue after divorce or separation;
- (2) "Shared parenting" should be defined as equal parenting time, and both parents should be given the opportunity to transition to co-parenting roles in the post-separation or divorced family structure; and
- (3) When one parent is unable to care for the child or children for more than 24 hours, the other parent should have the first opportunity to care for the child or children as an alternative.

Temporary Restraining Orders and Protective Orders

The recommendations proposed by members of this task force group are not intended to restrict or diminish the right of abused individuals from applying for a TRO or PO against their abuser or on behalf of their minor child or household members. The majority of task force members agreed with the recommendations; however, an attorney with the Legal Aid Society objected to the recommendation that would delete from the "extreme psychological trauma" and "malicious property damage" from the domestic abuse statutes. The recommendations of this task force group are as follows:

- (1) Requirements for obtaining ex parte TROs should be amended to require:
 - (a) Evidence of a past act or acts of physical harm, bodily harm, bodily injury, or assault;
 - (b) A reasonable likelihood of threat of imminent physical harm, bodily injury, or assault; or
 - (c) For minor family or household members, a TRO shall be issued for any act which would constitute an offense of abuse of family and household members under HRS §709-906, sexual offenses under part V of chapter 707, HRS, or child abuse under part VI of chapter 707;

The distinction from the present statutory language, and intent of this recommendation, is to limit ex parte TROs to situations where "physical harm, bodily harm, bodily injury, or assault" has occurred in the past or is imminent.

For situations involving "extreme psychological abuse" or "malicious property damage," a normal hearing process (consolidated with other existing or pending cases) should be utilized. Only imminent threat of physical harm or injury justifies an ex parte process which has inherently less protection for the respondent; yet, has significant adverse impact on constitutionally protected rights (access to a family home and contact with one's children);

- (2) Require that family, children, household, property and other matters remain intact when ex parte TROs are granted;
- (3) Require that if the petitioner and respondent have one or more children together, and the children are not named in the petition for an order of protection, reasonable supervised visitation should be arranged for the respondent, unless a finding is made that any visitation is not in the children's best interest;
- (4) Require that any findings of fact related to the granting or denying of TROs or POs should not bind any subsequent Family Court cases filed within six months of the TRO or PO case; and
- (5) Require that any TRO or PO filed between two or more persons who have a Family Court case pending between the same parties should have the two cases consolidated. In the alternative, require that the petitioner for the TRO or PO file a motion in the pending Family Court case. If however, there is no pending Family Court case, the petition for the TRO or PO should be filed as an independent action.

In addition to these proposed recommendations, the Committee also received suggested recommendations proposed by the Domestic Violence Clearinghouse as well as family law practitioners. These proposed recommendations are designed to address concerns raised by the dissenting task force group participants and are made with the recognition that the current TRO and PO process encompasses and touches upon a myriad of complex issues. These include: potential impact on future or ongoing child custody determinations, the adequacy and availability of financial and educational resources for judges responsible for issuing a TRO or PO, and the conduct of attorneys as well as individuals that utilize the TRO or PO process. In recognition of the foregoing concerns, the following recommendations are made to improve and strengthen the TRO and PO process:

- (1) The Judiciary should contract with a non-profit service agency to conduct a pre-TRO screening process to properly evaluate and determine if the allegations made by the petitioner fall within the ambit of the TRO statute;
- (2) Requirements for obtaining an ex parte TROs should be amended to require:
 - (a) The Family Court judge, assigned to the TRO calendar, should meet with a prospective petitioner on a one-on-one basis prior to issuing a TRO as opposed to relying solely upon the written allegations contained in the petition. This face-to-face meeting should, at a minimum, be required when the petitioner and respondent have or share children together. This will enable a judge to personally evaluate the credibility of the petitioner as well as the veracity of the petitioner's allegations; and
 - (b) When a TRO is issued, the judge should be required to make specific findings or at a minimum specifically identify which allegations alleged by the petitioner form the basis for issuing the TRO or PO, as opposed to checking off the appropriate box on the court approved forms;
- (3) Additional Family Court judges should be assigned to the TRO calendar in order to provide better accountability and consistency in the way TRO and PO cases are handled and adjudicated;
- (4) Family Court judges, including per diem judges, assigned to the TRO as well as the domestic violence calendars should attend annual legal education or training seminars in the area of domestic violence prevention in order to gain the necessary expertise and familiarity with the complex issues involved in these cases;
- (5) There should be a requirement that any findings of fact related to the granting or denying of TROs or POs should not bind any subsequent Family Court case filed within six months of the TRO or PO case; and
- (6) The Judiciary should create a pilot program to establish a combined domestic violence and divorce calendar with experienced and knowledgeable judges and a dedicated staff. This specialized calendar would handle divorce cases involving custody determinations where a TRO or PO based upon allegations of "family violence" has been issued. The same judge would adjudicate both proceedings to ensure familiarity and consistency in rulings.

Guardians ad Litem and Custody Evaluators

- (1) Too much weight is given to the conclusions and recommendations of the court-appointed custody evaluators; thus, the custody evaluator should be replaced with court-appointed fact finders who only report the facts and who do not make recommendations to the court;
- (2) In Family Court cases requiring custody evaluation, the Judiciary rather than private parties should contract with the court-appointed fact finders to avoid the perception of bias; rather than having the fact finders contract directly with the private parties in a Family Court case;
- (3) An impartial, unbiased, and expeditious complaint and resolution system for oversight and accountability for court-appointed fact finders and guardians ad litem should be established;
- (4) An impartial, unbiased, resolution process for Family Court cases should be established; and
- (5) A commission should be established to conduct an impartial and unbiased external audit to:
 - (a) Evaluate Hawaii's custody evaluation programs' (e.g., guardians ad litem, custody evaluators, volunteer guardians ad litem, and other similar programs) policies, procedures, and authorizing laws;

- (b) Research and compare the custody evaluation programs implemented in other states;
- (c) Request that the Judiciary provide necessary and appropriate information for the audit and study; and
- (d) Hold public hearings to obtain information from the public concerning specific problem areas that the audit identifies.

Alternative Dispute Resolution

- (1) The Judiciary should enhance its website to better address children's needs during a divorce, explain the entire divorce litigation process, explain mediation options, and provide links and directory information for support programs such as parenting plans (examples of parenting plans provided by other states are attached as Appendix F);
- (2) Parenting skills and communication skills should be considered as part of the high school education curriculum;
- (3) The Department of Health should distribute brochures about parenting and divorce to marriage license applicants;
- (4) The Judiciary should expand the Kids First program to include co-parenting classes for litigants engaged in high-conflict divorces;
- (5) Family Court should expand the spectrum of alternative dispute resolution processes to include different levels of intervention for different levels of conflict. Specifically:
 - (a) Early access to mediation should be available to divorce litigants since the majority of litigants do not present themselves for motions or contested hearings;
 - (b) When a matter is set for a motion or hearing, the courts should provide a consistent message that resolution through mediation or other means is preferable and that all matters be directed through mediation;
 - (c) Matters set for pre-hearing mediation should be sent to a facilitative mediator that does not evaluate or present a report to the judge if an agreement is not reached;
 - (d) A neutral party who uses an evaluative process with a mediation process should be used for litigants who are more entrenched in litigation. For these types of litigants, reports should be provided to the judge when no agreement is reached; and
 - (e) Compensation for professionals who perform evaluation and mediation processes should be provided to assure the quality of the services;
- (6) The Judiciary should explore establishing:
 - (a) An arbitration program for high conflict divorce cases;
 - (b) Parenting plans to help resolve issues earlier and avoid litigation; and
 - (c) A program that utilizes parent coordinators to work out issues, such as visitation, exchanges, health and safety issues, communication, etc. An example of a parent coordinator program from Vermont is attached as Appendix F; and
- (7) The Judiciary should provide more thorough and accurate information about divorce processes, its litigants, and the final outcomes. Data should be collected more regularly, all programs should be evaluated, and program evaluation results should be measured against goals that are measurable and able to be tracked.

Special Interim Committee's Recommendations

Based on the task force meetings, briefings, group discussions, and each task force group's recommendations, your Committee has chosen to adopt the recommendations made by the task force groups. These recommendations will form the basis for further discussion regarding the Hawaii Family Court as well as proposed legislation with respect to improving the process and procedures utilized in Hawaii Family Court.

Signed by Senator Suzanne Chun Oakland, Chair, on behalf of the Committee.

Senators Les Ihara, Jr., Fukunaga, Hooser, Kokubun, Trimble.
Committee members.

CONFERENCE COMMITTEE REPORTS

Conf. Com. Rep. No. 1 on S.B. No. 1483

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Waimea Country School.

Your Committee on Conference finds that this method of funding provides worthy schools with necessary resources to fund a variety of school projects. This measure will provide the reputable institution of Waimea Country School with the resources it needs to improve its educational facilities. Thus, your Committee on Conference has amended the measure by amending its effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1483, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1483, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Taniguchi, Inouye, Kokubun, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Kokubun).

Representatives Takumi, Evans, Ching.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 2 on S.B. No. 77

The purpose of this measure is to require:

- (1) Motor vehicle carriers to obtain vehicle identification cards by filing a description of the vehicle with the Director of Transportation; and
- (2) Commercial motor vehicles to be equipped with fenders, covers, or other devices to minimize the spray or splash of water or mud to the rear of the vehicle, and providing a \$50 fine for noncompliance.

Existing administrative rules provide for the requirements of vehicle identification cards and mudguards for motor carriers. Currently, however, no similar provisions exist under the current statutory law. Therefore, codification of these requirements will better enable the Department of Transportation to enforce safety regulations imposed by the Federal Motor Carrier Safety Administration.

Your Committee on Conference has amended this measure by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 77, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 77, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Espero, Menor, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Menor).

Representatives Souki, Hiraki, Luke, Moses.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 3 on S.B. No. 459

The purpose of this measure is to authorize the issuance of \$30,000,000 in special purpose revenue bonds to assist Hawaii Pacific Health in financing, refinancing, and reimbursing costs related to the acquisition or construction of health care facilities, development of information technology and software, and other related projects.

The bill also amends the definition of "project agreement" under the special purpose revenue bond law relating to health care facilities to include lease financing.

Your Committee on Conference amended this measure by:

- (1) Amending the definition of "health care facility", "facility", or "project" under the special purpose revenue bond law so that special purpose revenue bonds may be used for the purchase of computer software and technology; and

- (2) Amending the effective date of the measure to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 459, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 459, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tsutsui, Taniguchi, Whalen.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Arakaki, Nishimoto, Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 4 on S.B. No. 1843

The purpose of this bill is to promote fairness in the long-term relationships between the government and contractors that provide construction design professional services (contractor) by:

- (1) Prohibiting the State from requiring the contractor to indemnify the State for the State's negligence; and
- (2) Allowing the State to require the contractor to indemnify the State for the contractor's negligence.

Your Committee on Conference finds that the prevailing practice in state and county contracts is to require the contractor to indemnify, defend, and hold harmless the government in the event of negligence of the employees and agents of the government. Your Committee further finds that this contracting practice is against public policy on the basis that every party to a contract should be liable for that party's own conduct.

Your Committee on Conference further finds that indemnity clauses are the subject of frequent litigation involving their interpretation and the true intent of the parties. Your Committee learned that "duty to defend agreements" are insurable only when the policyholder is determined to be negligent. The insurance policy does not cover a public agency for the public agency's wrongdoing.

This measure is intended to resolve these difficulties and thereby to facilitate bidding on government contracts. In doing so, it will encourage economic growth and discourage costly and time-consuming litigation.

Your Committee on Conference has amended this measure by reverting to the S.D. 1 draft.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1843, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1843, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Espero, Sakamoto, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Sakamoto).

Representatives Herkes, Luke, Magaoay, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Luke).

Conf. Com. Rep. No. 5 on S.B. No. 761

The purpose of this measure is to better enable individuals with serious mental illness to access necessary treatment by including four additional disorders within the definition of "serious mental illness" in section 431M-1, Hawaii Revised Statutes, which are obsessive compulsive disorder, dissociative disorder, delusional disorder, and major depression.

Your Committee on Conference amended this measure by amending the effective date section to provide that the measure will take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 761, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 761, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Menor, Chun Oakland, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Whalen).

Representatives Arakaki, Hiraki, Green, Schatz, Finnegan.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 6 on S.B. No. 122

The purpose of this measure is support systematic improvements to the health care system that increase patient safety by including “case review forum” in the list of proceedings protected from discovery.

Your Committee on Conference amended this measure by amending the effective date section to provide that the measure will take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 122, S.D. 1, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 122, S.D. 1, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Hanabusa, Chun Oakland, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Whalen).

Representatives Arakaki, Hiraki, Luke, Finnegan.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 7 on S.B. No. 1003

The purpose of this bill is to:

- (1) Allow eligible customer-generators of not more than 300 kilowatts to participate in the net energy metering program;
- (2) Allow the Public Utilities Commission (PUC) to set and increase the maximum percentage of the electric utility’s peak system demand that may be produced by eligible customer-generators, provided that the maximum percentage shall not be less than .5 per cent of the utility’s peak system demand;
- (3) Authorize the PUC to amend the applicable rate structure and standard contract or tariff;
- (4) Require an electric utility to provide eligible customer-generators with a twelve-month reconciliation of their consumption and production of energy; and
- (5) Clarify the policy for actions taken on credits for excess electricity generated by an eligible customer-generator that remain unused after the twelve-month reconciliation.

Your Committee finds that this measure will encourage the expansion of net energy metering as more customers will seek to take advantage of being an eligible customer-generator due to month to month carryover of unused credits for excess customer-generated electricity within a twelve-month period. Further, your Committee finds that the measure provides regulatory flexibility to the PUC in the areas of percentage of peak system demand generated by eligible customer-generators, rate structure, standard contracts, and tariffs.

Your Committee also finds that customer generating systems as large as 300 kilowatts may pose safety and reliability issues. In order to foster the growth of this program, your Committee believes that more reliable, smaller generating systems provide the best opportunity to demonstrate the viability of customer-side electrical generation.

Your Committee has amended this measure by:

- (1) Changing the capacity limit of an eligible customer-generator to fifty kilowatts; and
- (2) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1003, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1003, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Menor, Ige, Kokubun, Hemmings.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Morita, Hiraki, Herkes, Kanoho, Marumoto.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Kanohe).

Conf. Com. Rep. No. 8 on S.B. No. 1903

The purpose of this measure is to exempt seawater air conditioning district cooling projects that use renewable energy resources to generate at least fifty percent of the energy needed for cooling system from regulation by the Public Utilities Commission.

Your Committee on Conference has amended this measure by changing its effective date to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1903, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1903, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, English, Menor, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Menor).

Representatives Herkes, Morita, Hiraki, Stonebraker.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 9 on S.B. No. 76

The purpose of this measure is to clarify the penalties for motor vehicle size and weight violations.

The law currently provides that fines for violating vehicle size requirements; vehicle gross weight, axle, and wheel load requirements; or any exceptions to the vehicle requirements, shall be no more than \$600 and no less than the amounts set forth in section 291-37, Hawaii Revised Statutes. This measure removes the \$600 "maximum fine" requirement for first violations.

Your Committee on Conference has amended this measure by:

- (1) Making a conforming amendment in terminology relating to the fine; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 76, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 76, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Espero, Menor, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Menor).

Representatives Souki, Luke, Lee, Moses.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 10 on S.B. No. 1378

The purpose of this measure is to statutorily designate the path that runs from Halawa Landing to Waipahu as the Pearl Harbor Historic Trail, in order to meet the necessary requirements for federal funding opportunities to support the planning, construction, and completion of the trail.

Your Committee has amended this measure by changing its effective date to "upon its approval."

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1378, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1378, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Fukunaga, Taniguchi, Trimble.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Representatives Kanohe, Ito, Yamane, Karamatsu, Stonebraker.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 11 on S.B. No. 700

The purpose of this measure is to clarify and strengthen Hawaii's nuisance abatement law.

Specifically, this measure:

- (1) Establishes that a preponderance of the evidence is the standard of proof applicable to nuisance abatement actions;
- (2) Authorizes a court to issue a protective order to prevent the disclosure of the identity of a witness when presented with evidence of acts or prior threats of violence by any defendant or any other person in a nuisance abatement action;
- (3) Subjects an individual who knowingly violates a protective order to civil as well as criminal contempt of court; and
- (4) Enables a court to enter an order suspending or revoking any business, professional, or operational license of an entity involved in maintaining, aiding, abetting, or permitting the nuisance.

Your Committee on Conference has amended this measure by:

- (1) Limiting the scope of the protective order to defendants, and not any other person, involved in a nuisance abatement action and who have engaged in acts of violence or made prior threats of violence against a witness;
- (2) Including liquor licenses within the categories of professional and operational licenses that may be suspended or revoked by a court if the holder of the license is involved in maintaining, aiding, abetting, or permitting the nuisance; and
- (3) Making technical, non-substantive changes.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 700, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 700, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Chun Oakland, Hee, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Whalen).

Representatives B. Oshiro, Luke, Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 12 on S.B. No. 673

The purpose of this measure is to provide for the authorization and payment of claims against the State for judgments, settlements, and other miscellaneous payments.

Your Committee on Conference has amended this measure at the request of the Department of the Attorney General to include the following three claims:

- | | |
|---|-----------------------------|
| (1) Colleton v. State of Hawaii
Civil No. 03-1-1657-08, First Circuit | \$37,595.44
Settlement; |
| (2) Sakaguchi v. State of Hawaii, et al.
Civil 98-1640, First Circuit
and | \$350,000.00
Settlement; |
| (3) Bacani v. Uchida, et al.
Civil No. 02-1-2099-09, First Circuit | \$500,000.00
Settlement. |

Your Committee on Conference has also amended this measure by providing the correct case number for Brub v. State of Hawaii, et al., Civil No. 03-1-0500-03.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 673, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 673, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Slom).

Representatives Luke, Takamine, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 13 on S.B. No. 1253

The purpose of this measure is to clarify the responsibilities of school community councils.

Your Committee on Conference finds that there exists some confusion as to how school community councils are to align their plans with the complex statutory requirements of the educational accountability system. This measure clarifies the councils' duties by requiring them to ensure that the school's academic and financial plans are consistent with the educational accountability system.

Upon further consideration, your Committee on Conference has amended this measure by deleting the amendments made regarding a council's approval of a school's academic and financial plan.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1253, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1253, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Hooser, Nishihara, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Takumi, Berg, Ching.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 14 on S.B. No. 1685

The purpose of this measure is to allow state taxpayer information to be shared with the counties.

Presently, the counties are not allowed access to state tax information. By allowing access to such information, this bill will strengthen county collection efforts with respect to the real property tax. With the ability to access state tax information, such as whether taxpayers are residents in a particular county, the counties would be able to investigate discrepancies related to real property tax exemptions and credits. The counties would also benefit from transient accommodations tax information by being able to investigate discrepancies related to the status of real property (i.e. condominium or hotel), since the type of property determines the tax rate for that property.

Your Committee on Conference has amended this measure on the recommendation of the Department of Taxation by:

- (1) Enacting a new statutory section to allow the reciprocal supplying of real property tax information;
- (2) Clarifying the purpose section for accuracy;
- (3) Deleting references to the Multistate Tax Commission sharing information with the counties; and
- (4) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1685, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1685, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Taniguchi, Fukunaga, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

Representatives Takamine, Tanaka, Fox.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 15 on S.B. No. 121

The purpose of this measure is to allow brewpubs to sell malt beverages in recyclable containers.

Specifically, this measure would allow the sale of malt beverages manufactured on the licensee's premises to consumers in recyclable containers, rather than limiting such sales to glass containers only.

Your Committee on Conference has amended this measure by:

- (1) Authorizing brewpub licensees to sell malt beverages manufactured on the licensee's premises in brewery-sealed containers to Class 2 restaurant licensees; and
- (2) Making the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 121, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 121, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, English, Hanabusa, Baker, Slom.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Herkes, Hiraki, Luke, Schatz, Ching.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Schatz, Ching).

Conf. Com. Rep. No. 16 on S.B. No. 639

The purpose of the measure is to remove the Housing and Community Development Corporation of Hawaii (HCDCH) from managing Department of Education teacher housing and authorize the department to manage the housing.

Your Committee on Conference finds that Act 51, Session Laws of Hawaii 2004, encouraged the transfer of educational functions in other departments to the Department of Education. Under the HCDCH, the teacher housing program has been an effective tool for retention and recruitment for isolated communities that have limited affordable housing for educational personnel. With concurrence from both the HCDCH and Department of Education, your Committee on Conference finds that the department is better suited to administer the program.

Upon further consideration, your Committee on Conference has amended the effective dates and required the department to submit its report to the 2007 Legislature.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 639, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 639, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Menor, Taniguchi, Hooser, Hogue.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Menor).

Representatives Takumi, Kahikina, Nishimoto, Ching.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ching).

Conf. Com. Rep. No. 17 on S.B. No. 693

The purpose of this measure is to facilitate fundraising through the use of charitable gift annuities by clarifying and streamlining the requirements governing nonprofit organizations.

This measure:

- (1) Requires a nonprofit educational foundation or nonprofit organization that issues charitable gift annuities:
 - (a) To calculate its reserves in accordance with mortality tables and discount rates to be determined by the Insurance Commissioner, rather than in accordance with accepted actuarial standards; and
 - (b) To file its annual compliance statement with the Attorney General by March 15th of each year; and
- (2) Provides that, in determining the appropriate reserve level, no surplus shall be required for any portion of a gift annuity that is reinsured by an authorized insurer.

Your Committee on Conference has amended this measure by retaining language in section 431:1-204(c)(1), Hawaii Revised Statutes, that requires a qualifying charity to have conducted business in the State continuously for at least ten years, and by adding language therein to clarify that the business conducted shall have been in the form of program services or fundraising activities.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 693, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 693, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Hogue).

Representatives Hiraki, Luke, Stonebraker.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 18 on S.B. No. 754

The purpose of this measure is to conform certain insurance laws to federal law and national standards.

This measure incorporates federal and national standards into insurance code provisions relating to, among other things, the examination of domestic insurers, suspension of an insurer's certificate of authority, electronic filing of insurance policy revisions, the liquidation of an insolvent insurer, and the Interstate Insurance Product Regulation Compact.

Your Committee on Conference has amended this measure:

- (1) By deleting from proposed section 431:3-219(b), Hawaii Revised Statutes (HRS), the phrase "one-year" as it refers to original and extended suspensions of an insurer's certificate of authority, in order to be consistent with current statutory language in section 431:3-219(a), HRS, that implies that a suspension may be imposed for a period of less than one year;
- (2) By making technical, nonsubstantive amendments; and
- (3) To take effect upon its approval, rather than on July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 754, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 754, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Hogue).

Representatives Hiraki, Luke, Herkes, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Herkes).

Conf. Com. Rep. No. 19 on S.B. No. 1117

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Hawaiian Electric Company, Inc., Maui Electric Company, Ltd., and Hawaii Electric Light Company, Inc. with multi-project capital improvement construction programs for the furnishing of electric energy in this State.

Your Committee on Conference has amended this measure to take effect on July 1, 2005, rather than on July 1, 2010.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1117, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1117, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Taniguchi, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Morita, Evans, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 20 on S.B. No. 1349

The purpose of this measure is to allow condominium owners to review business and financial records maintained by a condominium association that pertain to time periods other than the current and prior years.

Currently, the law requires condominium associations to make available for review by condominium owners certain financial and business records that pertain to the current and prior years only. This measure repeals this limitation and requires condominium associations to make available for review all such records for as long as those records are maintained by the association.

Your Committee on Conference has amended this measure to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1349, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1349, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Hogue).

Representatives Hiraki, Schatz, Stonebraker.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 21 on S.B. No. 1453

The purpose of this measure is to authorize the imposition of the public service company tax on a private sewer company or facility.

This measure amends the definition of "gross income" in the public service company tax law to include gross income from the operation of a private sewer company or facility. Your Committee on Conference finds that this measure supports a more equitable system of taxation by requiring private sewer companies to pay the same tax that is assessed against other sewage and wastewater treatment companies.

Your Committee on Conference as amended this measure to take effect on July 1, 2005, rather than on July 1, 2010.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1453, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1453, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Taniguchi, Baker, Nishihara.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Morita, Hiraki, Takamine, Stonebraker.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 22 on S.B. No. 1018

The purpose of this measure is to improve the efficiency of the administration of private preschools by exempting private preschools and their programs that are part of a licensed elementary school from the licensing requirements imposed by the Department of Human Services (DHS).

Many independent and private preschools are either accredited or licensed by the Hawaii Association for Independent Schools, the Hawaii Council of Private Schools, or other accrediting or licensing bodies, and are also licensed by the DHS. A single licensing or accreditation program would be appealing, more efficient, and less bureaucratic when a private preschool and its programs are part of a licensed elementary school.

Your Committee on Conference has amended this measure on the recommendation of the Attorney General by:

- (1) Deleting the statutory exemption from the child care facilities law;
- (2) Deleting references to a memorandum of understanding;
- (3) Clarifying that the duty of the task force is to develop recommendations;
- (4) Requiring the task force to report its findings and recommendations to the DHS; and

- (5) Specifying that the task force report serve as a basis for legislation or administrative rule amendments by the DHS.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1018, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1018, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Sakamoto, Fukunaga, Trimble.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Trimble).

Representatives Takumi, Sonson, Berg, Cabanilla, Finnegan.
Managers on the part of the House.

Conf. Com. Rep. No. 23 on S.B. No. 1772

The purpose of this measure to require each applicant for medical assistance to identify the employer of the proposed beneficiary of medical assistance. This measure also requires the Department of Human Services to submit an annual report to the Legislature that identifies all employers who employ twenty-five or more beneficiaries of medical assistance programs administered by the Department of Human Services.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the applicability of confidentiality requirements established under Medicaid regulations as well as the administrative simplification provisions of the Health Insurance Portability and Accountability Act of 1996 with respect to the nondisclosure of certain identifying information of beneficiaries in the annual report to the Legislature; and
- (2) Changing the effective date to make the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1772, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1772, S.D. 1, H.D. 2, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Takamine).

Conf. Com. Rep. No. 24 on S.B. No. 1872

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Palolo Chinese Home, a Hawaii not-for-profit corporation, and its not-for-profit subsidiaries, in financing the expansion, construction, and rebuilding of its health care facilities.

In operation since 1917, Palolo Chinese Home is Hawaii's largest and second oldest adult care home facility. Its mission is to assist and care for the aged and indigent, maintain homes for them, and alleviate their suffering and distress through works of charity, mercy, and benevolence. To fulfill this mission, Palolo Chinese Home provides the elderly with extended care and intermediate and skilled nursing care, as well as community services for those who wish to remain in their own homes, including good neighbor referral service, adult daycare, meal delivery, overnight respite services, and access to its community-based, integrated information network to services for the elderly.

Your Committee on Conference has amended this measure by authorizing the issuance of special purpose revenue bonds in the amount of \$40,000,000, and changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1872, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1872, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 25 on S.B. No. 1427

The purpose of this measure is to encourage the use of energy-efficient vehicles and save state funds by requiring state agencies to procure increasing percentages of alternative fuel vehicles. This measure also allows agencies to offset the purchase percentage requirements for alternative fuel vehicles by successfully demonstrating percentage improvements in overall light duty vehicle fleet mileage economy.

Your Committee has taken into consideration concerns raised by the Comptroller that this measure will result in increased procurement costs for state agency vehicles. Your Committee finds that implementation of this program will result in a net savings to the State in the long run through reduced gas consumption, while demonstrating the State's commitment to reducing greenhouse gas emissions. Your Committee encourages the Department of Accounting and General Services to anticipate the procurement of highly energy-efficient vehicles pursuant to this measure in preparing its biennium budget.

Your Committee has amended this bill by changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1427, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1427, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Inouye, Taniguchi, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Representatives Morita, Evans, Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 26 on S.B. No. 1877

The purpose of this measure is to clarify that the Office of Planning shall report exclusively to the Department of Business, Economic Development, and Tourism (Department) and that the Department shall have sole jurisdiction over land and state planning functions.

The measure also prohibits the transfer of any of these offices or functions to any other department by executive order and establishes that the position of Director of the Office of Planning is to be filled by appointment by the Governor with the advice and consent of the Senate.

Your Committee on Conference has amended this measure by:

- (1) Making this measure effective upon its approval; and
- (2) Making technical, nonsubstantive changes for style and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1877, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1877, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 27 on S.B. No. 956

The purpose of this measure is to prevent the importation of agricultural pests into Hawaii by allowing the Department of Agriculture to require the identification of specific articles on bills of lading, negotiable and non-negotiable warehouse receipts, or other documents of title for inspection of pests.

Your Committee on Conference has amended this measure by making technical, nonsubstantive changes for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 956, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 956, S.D. 1, H.D. 1, C.D. 1.

Ayes, 2. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 28 on S.B. No. 1798

The purpose of this measure is to exempt associations of apartment owners (AOAOs) from the nonprofit corporation laws governing cumulative voting to elect board directors and voting to remove a director.

This measure clarifies the scope of the Hawaii Nonprofit Corporations Act (Act), codified in chapter 414D, Hawaii Revised Statutes (HRS), by providing that the Act's provisions relating to cumulative voting to elect board directors and voting to remove a director do not apply to AOAOs organized under the laws governing condominium property regimes.

Your Committee on Conference has amended this measure by replacing its contents with language that amends chapter 514A, HRS, and corresponding provisions in Act 164, Session Laws of Hawaii 2004. As amended, this measure:

- (1) Clarifies that the removal and replacement of a member of an AOAO's board of directors require a vote of a majority of apartment or unit owners;
- (2) Authorizes cumulative voting if permitted under the bylaws and if an owner gives notice of the owner's intent to so vote before voting commences; and
- (3) Takes effect upon its approval and upon the effective date of section 2 of Act 164, Session Laws of Hawaii 2004, rather than on July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1798, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1798, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Hiraki, Schatz, Stonebraker.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 29 on S.B. No. 1778

The purpose of this measure is to impose deadlines upon the Regulated Industries Complaints Office (RICO) for the commencement and completion of an investigation of a complaint of unlicensed contracting, and to appropriate funds for these investigations.

Your Committee on Conference has amended this measure by replacing its contents with language that:

- (1) Requires a citation issued by RICO for unlicensed contracting to include an order for the violator to cease and desist the unlicensed activity; presently, the law authorizes, but does not mandate, that a citation include an order of abatement; and
- (2) Authorizes a court to impose a fine of not less than \$10,000 for each day of violation of a cease and desist order.

Additionally, this measure has been amended to take effect upon its approval, rather than on July 1, 2009.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1778, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1778, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Taniguchi, Baker, Espero, Ige, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 2 (Baker, Ige).

Representatives Hiraki, Takamine, Chong, Schatz, Marumoto.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 30 on S.B. No. 1348

The purpose of this measure is to require an association of apartment owners (AOAO) to make AOAO board meeting minutes available for review by owners on the premises of the condominium property if the AOAO maintains an office or resident manager apartment thereon.

Your Committee on Conference has amended this measure:

- (1) To establish as an alternative to the above, an owner's right to request, and receive within fifteen days of receipt of the request, copies of meeting minutes by mail, electronic mail, or facsimile, subject to the owner's payment of a reasonable administrative fee;
- (2) To reflect the appropriate effective dates, rather than an effective date of July 1, 2009; and
- (3) By making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1348, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1348, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Hiraki, Schatz, Stonebraker.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 31 on S.B. No. 117

The purpose of this measure is to authorize the establishment of affordable housing requirements for certain undeveloped parcels in Puukolii Village by agreement between the project's developer, the Housing and Community Development Corporation of Hawaii (HCDCH), and the appropriate Maui County housing agency. Under the measure, the affordable housing requirements established by the parties must include a requirement for housing affordable to households earning up to one hundred per cent of the county median income.

Your Committee on Conference has amended this measure:

- (1) By inserting language contained in the measure, as introduced, which grants HCDCH the power to amend, delete, restate, and otherwise modify the terms, conditions, plans, and specifications relating to housing projects approved by HCDCH's predecessor agency, the Housing Finance and Development Corporation;
- (2) To require that the affordable housing requirements for Puukolii Village include a requirement for housing affordable to households earning up to one hundred twenty per cent, rather than one hundred per cent, of the county median income;
- (3) By replacing its effective date of July 1, 2020 with an effective date of July 1, 2005; and
- (4) By making technical, nonsubstantive amendments for the purposes of style and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 117, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 117, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Baker, Tsutsui, Hogue.
Managers on the part of the Senate.

Conf. Com. Rep. No. 32 on S.B. No. 1883

The purpose of this measure is to ensure sustainable stocks of near-shore fish for the Miloli'i community in South Kona. Specifically, this measure designates the Miloli'i fisheries management area in South Kona as a community based subsistence fishing area to preserve and maintain the area's legacy as a traditional Hawaiian fishing village.

Your Committee on Conference has amended this measure by making it effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1883, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1883, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Taniguchi, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Kanoho, Carroll, Thielen.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. No. 33 on S.B. No. 1891

The purpose of this measure is to amend the fee requirements for commercial use vessels that are moored in the State's small boat harbors and clarify which fees and penalties are to be deposited to the boating special fund.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the formula for calculating the commercial use vessel fee to be three per cent of gross revenues derived from the use of the vessel or two times the moorage fee assessed for a recreational vessel of the same size, whichever is greater;
- (2) Making the measure effective as of July 1, 2005; and
- (3) Making a technical, nonsubstantive change for clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1891, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1891, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 34 on S.B. No. 797

The purpose of this measure is to make "housekeeping" amendments to the laws governing the Housing and Community Development Corporation of Hawaii.

This measure clarifies chapter 201G, Hawaii Revised Statutes, by redefining the term "housing project" as "public housing project" to distinguish between low-income housing projects and affordable housing developments, and by making conforming amendments throughout the chapter.

Your Committee on Conference has amended this measure to take effect upon its approval and by making a technical amendment for the purpose of consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 797, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 797, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Representatives Kahikina, Nishimoto, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 35 on S.B. No. 1473

The purpose of this measure is to ensure the health, safety, and well being of communities surrounding the Waimano Ridge area on Oahu by:

- (1) Prohibiting any state or county agency, commission, or department from granting, approving, or issuing any lease or permit that authorizes new or expanded use, or further development, of existing leased lands or facilities on state-owned land in the Waimano Ridge area until a master plan is developed, communicated to area residents, and the public health, well-being, and safety is assured;
- (2) Establishing a process, and requiring public input, for the Department of Health (DOH) to draft the master plan; and
- (3) Requiring DOH to prepare and disseminate an annual report describing the activities on Waimano Ridge, including certain details on the tests and programs being conducted there as well as details on the public informational meetings conducted.

Your Committee on Conference has amended this measure by:

- (1) Deleting the provision, and any references thereto, that prohibits any state or county agency, commission, or department from granting, approving, or issuing any lease or permit that authorizes new or expanded use, or further development, of existing leased lands or facilities on state-owned land in the Waimano Ridge area until a master plan is developed, communicated to area residents, and the public health, well-being, and safety is assured;
- (2) Deleting the provision regarding a specific process by which DOH shall gather public input on the draft of the master plan;
- (3) Deleting the annual report of activities on Waimano Ridge by the DOH;
- (4) Requiring DOH to give ninety days prior notice to the local neighborhood board and the members of the Legislature from the affected districts and obtain approval of the Governor for any use of state-owned land under its jurisdiction in the Waimano Ridge area prior to use of the land as a sex offender treatment facility, drug treatment facility, state laboratory, or any other uses;
- (5) Requiring DOH to submit an updated master plan to the Legislature; and
- (6) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1473, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1473, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Kokubun, Chun Oakland, Fukunaga, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Whalen).

Representatives Kanoho, Karamatsu, Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 36 on S.B. No. 702

The purpose of this measure is to update the State's antitrust laws relating to mergers and acquisitions so as to be consistent with federal law. This measure:

- (1) Expands the scope of antitrust laws governing mergers and acquisitions to include all business entities;
- (2) Establishes a private party's right of action for injunctive relief if the party will or may be injured by a proposed merger or acquisition; and
- (3) Authorizes an award of reasonable costs and attorney's fees to the prevailing party in an injunctive action.

Your Committee on Conference has amended this measure:

- (1) To prohibit anti-competitive or monopolistic acquisitions and holdings of a person's "stock, interest, or membership", rather than a person's "stock or other share capital";
- (2) To define "subsidiary" and "control" in section 480-7, Hawaii Revised Statutes (HRS);
- (3) To authorize, rather than to require, a court to order a divestiture when the court finds that a holding substantially lessens competition or tends to create a monopoly;
- (4) To repeal the prerequisites for divestiture that the assets be reasonably identifiable and separable, and that divestiture not result in undue hardship on the economic entity;
- (5) By deleting and inserting language to reflect that the measure shall take effect upon its approval, rather than on July 1, 2009; and
- (6) By making technical, nonsubstantive amendments to repeal obsolete or redundant language, and for purposes of clarity, consistency, and style.

Finally, your Committee on Conference finds that the intent of section 480-7(b), HRS, in the measure, as amended, is to provide the opportunity to a person who is threatened with loss or damage in the person's business or property by reason of anything forbidden or declared unlawful in section 480-7(a), HRS, to seek injunctive relief against the threatened loss or damage without having to allege or prove actual loss or damage.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 702, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 702, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Hanabusa, Baker, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Baker, Espero).

Representatives Hiraki, Luke, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 37 on S.B. No. 1721

The purpose of this measure is to establish a permanent cultural public market within the City and County of Honolulu on State-owned land within the Kakaako Makai area. Specifically, the public market would provide a venue for the:

- (1) Exposure, education, and awareness of the diverse ethnic groups in Hawaii and spotlight the host Hawaiian culture;
- (2) Sale of ethnic foods, produce, and products;
- (3) Exhibition and showcasing of cultural artwork and crafts;
- (4) Showcasing of entertainers and artists; and
- (5) Presentation of information on the culture and history of the various ethnic groups in Hawaii.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to October 1, 2005;
- (2) Deleting references to "permanent" with respect to the state cultural public market;
- (3) Eliminating its appropriation provisions; and
- (4) Making nonsubstantive technical amendments for clarity, consistency, and style.

Your Committee on Conference notes that the change made to the name of the marketplace is not meant to suggest that the cultural marketplace be established temporarily. Your Committee on Conference continues to support the establishment of a permanent venue for the state cultural marketplace. Your Committee on Conference further notes that this measure is not intended to effect the Hawaii Community Development Authority's Request for Proposals (RFP) process currently in effect. Accordingly, the effective date of this measure has been changed to October 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1721, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1721, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Fukunaga, Taniguchi, Kim, and Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Taniguchi, Hogue).

Representatives Herkes, Nakasone, Abinsay, and Meyer.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Meyer).

Conf. Com. Rep. No. 38 on S.B. No. 556

The purpose of this measure is to enact a statute on parenting plans for contested custody of children.

Your Committee on Conference has amended this measure by:

- (1) Adding criteria for the court to consider in awarding custody in the best interests of the child;
- (2) Defining “meaningful contact”; and
- (3) Making a statutory conforming amendment.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 556, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 556, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Hanabusa, Fukunaga, Trimble.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Sonson, Luke, Cabanilla, B. Oshiro, Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Cabanilla).

Conf. Com. Rep. No. 39 on S.B. No. 1796

The purpose of this measure is to allow a person sentenced for a first-time drug offense prior to July 1, 2004 and who meets the requirements of Act 161, Session Laws of Hawaii 2002, to apply to a court for the expungement of the related arrest and conviction records.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a person sentenced for a first-time drug offense prior to July 1, 2002 is eligible to apply for re-sentencing provided that the person is able to demonstrate to the court a satisfactory record of drug treatment and abstinence and no intervening criminal convictions between the date of the person’s sentencing for a first-time drug offense and the application for re-sentencing; and
- (2) Changing the effective date of this measure to take effect upon its approval, provided that the resentencing provision shall apply retroactively to July 1, 2002 and shall be repealed on December 31, 2006.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1796, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1796, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Hee, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Luke, B. Oshiro, Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 40 on S.B. No. 1100

The purpose of this measure is to reduce the illegal manufacturing of crystal methamphetamine by:

- (1) Limiting the dispensing, sale, or distribution of pseudoephedrine products without a prescription to no more than three packages per transaction;
- (2) Exempting products in liquid, liquid capsule, or gel capsule form containing other active ingredients in addition to pseudoephedrine from the sales restriction;
- (3) Requiring any wholesaler to report all sales of pseudoephedrine products made to any retailer; and
- (4) Specifying the minimum information wholesalers must provide for all sales of pseudoephedrine products to any retailer.

Your Committee on Conference has amended this measure by:

- (1) Adding a new section that requires any person transporting by any means more than three packages of any restricted pseudoephedrine product to obtain a permit;
- (2) Making the unlawful transport of pseudoephedrine a misdemeanor;
- (3) Prohibiting a pharmacy or retailer from dispensing, selling, or distributing without a prescription more than three packages or not more than nine grams per transaction of pseudoephedrine products; provided that:
 - (A) The pseudoephedrine products are dispensed, sold, or distributed from an area that is in the direct line of sight of an employee at the check-out station or counter;
 - (B) The pseudoephedrine products are dispensed, sold, or distributed from an area that is under constant video monitoring with signage placed near the drug that warns that the area is under constant video monitoring; or
 - (C) The pseudoephedrine products are dispensed, sold, or distributed from an area not accessible by customers or the general public, such as behind the counter or in a locked display case;
- (4) Adding extended-release pseudoephedrine combination products to those that the Department of Public Safety may exempt if the administrator finds the products are not used in the illegal manufacture of methamphetamine or other controlled substances; and
- (5) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1100, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1100, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Menor, Chun Oakland, Hanabusa, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

Representatives Luke, Ito, B. Oshiro, Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. No. 41 on S.B. No. 118

The purpose of this bill is to exempt the Board of Dental Examiners from chapter 91, Hawaii Revised Statutes, until December 31, 2005, to develop a state examination for the licensure of dental hygienists and to specify that if two state examinations are not given within a calendar year, that applicants that pass one of four regional examinations after February 1, 2004, or a national examination approved by the Board, shall be eligible for licensure as dental hygienists.

Your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that the application be filed with the Board at least sixty days prior to the date selected by the Board for examination;
- (2) Deleting subsection 447-1(b), Hawaii Revised Statutes, regarding the requirement that two examinations shall be held in each year and any references thereto;
- (3) Adding a provision that the Board shall require an applicant to take and pass the State's examination or one of four regional examinations until a national examination is available;
- (4) Adding a provision that an applicant who has taken and passed the state or regional examination after February 1, 2005, but prior to the availability of a national examination, shall be deemed to have met the Board's examination requirement; and
- (5) Making the measure effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 118, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 118, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Menor, Chun Oakland, Ige, Whalen.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Ige).

Representatives Arakaki, Hiraki, Green, Herkes, Schatz, Finnegan.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Herkes).

Conf. Com. Rep. No. 42 on S.B. No. 568

The purpose of this measure is to give Hawaii's citizens greater access to appropriate dental care and to assure that applicants for licensure as dentist are not deprived of the opportunity to take an examination for an indefinite or extended period of time.

Your Committee on Conference amended this measure by:

- (1) Changing all references to a national examination to the American Board of Dental Examiners (ADEX) examination;
- (2) Allowing an applicant who takes and passes one of four regional examinations given between February 1, 2004, and the date of availability of the ADEX examination to be eligible for licensure if the Board of Dental Examiners determines that two state written and practical examinations on dentistry will not be or have not been administered;
- (3) Adding a new section to the Hawaii Revised Statutes regarding once the ADEX examination is available and approved by the Board, an applicant shall take and pass the ADEX examination, and neither the state examination nor any regional examination shall be accepted;
- (4) Providing that an applicant who has taken and passed a regional examination after February 1, 2004, but prior to the availability of the ADEX examination shall be deemed to have met the Board's examination requirement;
- (5) Requiring the Board to make a determination and post notification on its webpage by July 15, 2005, regarding whether the two state written and practical examinations on dentistry will be administered pursuant to Subsection 448-10(a), Hawaii Revised Statutes (HRS);
- (5) Amending the measure to take effect upon its approval; provided that on the date that the Board approves the ADEX examination, Section 448-10, HRS, shall be repealed.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 568, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 568, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Menor, Chun Oakland, Ige, Whalen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Ige, Whalen).

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. No. 43 on S.B. No. 1285

The purpose of this measure is to replace references to a panel or panel members to the kupuna council or kupuna council members, with regard to the regulation of traditional Hawaiian healing practices. This measure also:

- (1) Prohibits the kupuna council members from being sued in relation to their selection, convening, or certification process;
- (2) Expands the practice to include all traditional Hawaiian healers, rather than only traditional native Hawaiian healers; and
- (3) Requires the kupuna councils to be separate and independent from the State.

Your Committee on Conference amended this measure by:

- (1) Deleting the word "native" from the term "traditional native Hawaiian healers" as it pertains to those who may engage in traditional Native Hawaiian healing practices or methods;

- (2) Deleting the definition of “traditional Native Hawaiian healer” from section 2 of Act 162, Session Laws of Hawaii 1998; and
- (3) Amending the effective date of the measure to take effect upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1285, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1285, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland, Menor, Hanabusa, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Menor, Whalen).

Representatives Luke, B. Oshiro, Thielen.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. No. 44 on S.B. No. 1660

The purpose of this measure is to create the education design and construction project assessment fund within the Department of Education and broaden the department’s authority over capital improvement projects.

Your Committee on Conference finds that management over the Department of Education’s facilities repair, maintenance, and construction projects has been generally divided between the Department of Accounting and General Services and the Department of Education. Consequently, Act 51, Session Laws of Hawaii 2004, required the transfer of functions regarding the maintenance of school facilities from the Department of Accounting and General Services to the Department of Education. In transferring management to the Department of Education, your Committee on Conference believes that the improved coordination will reduce the backlog of public school facilities projects. Furthermore, the establishment of the fund will allow the superintendent to make assessments on construction projects.

Accordingly, the following amendments were made:

- (1) Correcting the effective dates to coincide with Act 164, Session Laws of Hawaii 2004;
- (2) Specifying appropriation amounts of \$4,000,000 for fiscal years 2005-2006 and 2006-2007; and
- (3) Making nonsubstantive, technical amendments for the purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1660, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1660, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Inouye, Taniguchi, Menor, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Menor).

Representatives Takumi, Takamine, Ching.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 45 on S.B. No. 1699

The purpose of this measure is to demonstrate strong legislative acknowledgement of the importance of culture and arts in Hawaii’s communities and of the enrichment of the quality of life of Hawaii’s people through an appropriation to the Hawaii State Foundation on Culture and the Arts.

Your Committee on Conference has amended this measure by specifying the appropriation amount, changing the effective date to July 1, 2005, and making technical nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1699, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1699, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Taniguchi, English, Tsutsui, Hogue.
Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (English).

Representatives Chang, Karamatsu, Pine.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. No. 46 on S.B. No. 1702

Your Committee on Conference understands the purpose of this measure is to give the High Technology Development Corporation (HTDC) greater flexibility in responding to growth and development potential in Hawaii's rapidly expanding technology sector through the establishment of the not-for-profit High Technology Innovation Corporation (HTIC). HTIC will provide a number of benefits, including additional sources of much-needed revenue and the ability to respond quickly and efficiently to opportunities and changes in the State's increasingly diversified technology industries.

Your Committee on Conference has amended this measure by:

- (1) Referencing the manner in which the initial term for board members appointed from the general public shall be decided;
- (2) Clarifying that new employees of HTIC shall not be entitled to any benefits conferred under chapter 76, 77, 88, or 89, Hawaii Revised Statutes, and that any existing officer or employee of the State whose functions are transferred to HTIC shall not suffer any loss of benefits as a result of the transfer; and
- (3) Removing the exemption from Chapter 103D, relating to public procurement.

Your Committee on Conference supports the commitment of the HTDC - and its Board of Directors - to become more self-sufficient through establishment of this 501(c)(3) corporation. However, your Committee on Conference also must balance this additional flexibility with the State's policies on the expenditure of any public monies. Your Committee on Conference has responded to this concern by deleting the proposed HTIC exemption from the procurement code, Chapter 103D, Hawaii Revised Statutes.

Although your Committee on Conference recognizes that this will affect the flexibility of HTIC, exemptions from the code are allowed under section 103D-102(b)(4)(L), Hawaii Revised Statutes. Your Committee on Conference understands that HTDC has pursued specific exemptions in the past, and that it is a lengthier process than a blanket exemption would provide. However, your Committee on Conference urges HTIC to pursue this option. If this proves to be a serious barrier to HTIC in meeting its duties, your Committee on Conference expects that HTIC would inform the Legislature prior to the convening of the 2006 session, so that additional options might be considered at that time.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1702, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1702, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Espero, Taniguchi, English, Ige, Hogue.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Hogue).

Representatives Herkes, Caldwell, B. Oshiro, Nakasone, Fox.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 2 (Caldwell, Fox).

Conf. Com. Rep. No. 47 on S.B. No. 1362

Your Committee on Conference finds that, although the problem with abandoned vehicles in public highways, streets, and rights of way, and on private lands contiguous to public highways, streets, and rights of way is growing, there appears to be some confusion as to the jurisdiction of the counties to take custody and dispose of these abandoned vehicles. This measure would enhance the ability of government to remove abandoned vehicles.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that, at the request of the landowner, a county may cause a vehicle to be taken into custody and disposed of on roads for which dedication to the State or county is pending; and
- (2) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1362, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1362, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Espero, Baker, Whalen.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Whalen).

Representatives Morita, Souki, Lee, Evans, Meyer.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 48 on S.B. No. 1876

The purpose of flexible design in highway construction is to meet the community's desire to protect and preserve natural, cultural, historic, and scenic values and resources. Community organizations, including the Alliance for the Heritage of East Maui, the Hanalei Road Committee on Kauai, and the Hamakua-Honokaa Heritage Corridor on the Big Island have been working on and support scenic byway or heritage corridor programs. The upper Kona road on the Big Island and Ka Iwi coastal highway on Oahu are also under review as important scenic and historic corridors.

Congress expressly acknowledged the importance of flexible highway design sensitive to the surrounding environment, especially in historic and scenic areas. Section 1016(a) of the Intermodal Surface Transportation Efficiency Act of 1991 allows approval of projects designed to allow for historic and scenic value preservation, while ensuring safe use. Highway design under the National Highway System Act (other than interstates) may consider the constructed and natural environment of the area, and the environmental, scenic, aesthetic, historic, community, and preservation impacts of the project. The Act gives states the flexibility to develop and apply criteria they deem appropriate for federal-aid projects not on the National Highway System.

This measure also provides for a limitation of liability for government entities by providing immunity for the decision whether to utilize flexible alternatives when a flexible alternative design guideline is selected in accordance with the provisions of this measure. Public utilities are protected against liability for the decision to use a flexible design guideline as well. For example, if the decision to utilize a specific alternative standard requires the use of a particular type of utility pole and precludes the use of another type, the utility would not be liable for use of the required pole. This immunity similarly applies only to the use of flexible alternative and does not relieve the utility from its subsequent responsibility of safe design, construction and maintenance.

Your Committee on Conference has amended this measure by:

- (1) Rewording several provisions to make it clear that immunity applies only to the decision to utilize a flexible design standard and does not extend to subsequent design, construction, maintenance, or improvements;
- (2) Adding language to specify that for county roads, the counties, not the State, make the decision whether to select or apply flexible highway design guidelines;
- (3) Allowing the Director of Transportation additional time to establish new flexible highway design guidelines from November 1, 2005 to June 30, 2006;
- (4) Changing the effective date of this measure from July 1, 2010 to July 1, 2005; and
- (5) Making technical, nonsubstantive revisions for purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1876, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1876, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Espero, Kokubun, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Kokubun).

Representatives Souki, B. Oshiro, Lee, Fox.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 49 on S.B. No. 1267

The purpose of this measure is to take steps to counter the growing incidents of shark attacks in Hawaii by providing funding to tag and monitor sharks along the leeward coast of Oahu.

Your Committee on Conference has amended this measure by:

- (1) Making the measure effective on July 1, 2005; and
- (2) Making technical, nonsubstantive changes for style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1267, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1267, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Taniguchi, Hanabusa, Hemmings.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Kanoho, Abinsay, Magaoay, Halford.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 50 on S.B. No. 116

The purpose of this measure is to establish a nursing scholars program administered by the University of Hawaii to train nurses for teaching careers in nursing.

Specifically, this measure would:

- (1) Establish a scholarship program to support nurses pursuing graduate degrees and careers in nursing instruction; and
- (2) Re-establish the Operation Nightingale Program to help nurses pass the State Board of Nursing examination.

One of the reasons for the nursing shortage in the State is the lack of a sufficient number of qualified faculty. In turn, one of the reasons for the faculty shortage is the diminishing rate of financial returns in pursuing a graduate level nursing education when a baccalaureate level education will more than ensure a steady career.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the purpose section to state the necessity of increasing the qualified nursing faculty;
- (2) Deleting the Operation Nightingale program;
- (3) Appropriating \$20,000 for fiscal year 2005-2006, and deleting the appropriation for fiscal year 2006-2007;
- (4) Changing the effective date to July 1, 2005; and
- (5) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 116, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 116, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Baker, Taniguchi, Trimble.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Representatives Waters, Arakaki, Lee, Finnegan.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Lee).

Conf. Com. Rep. No. 51 on H.B. No. 295

The purpose of this bill is to assist citizen-soldiers by facilitating the process for restoring the professional or vocational license of a member of the Hawaii National Guard, regular military, or military reserves whose license has expired, been forfeited, or deemed delinquent while the member is on active duty and deployed during a state or national crisis.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Removing the provision that extends the time for attorneys to renew their licenses; and
- (2) Changing the effective date to July 1, 2005.

The Judiciary informed your Committee on Conference that the provision relating to attorneys was unnecessary, because a law license does not have an expiration date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 295, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 295, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Menor, Tsutsui, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Hogue).

Representatives Ito, Hiraki, Luke, Chong, Marumoto.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Hiraki).

Conf. Com. Rep. No. 52 on H.B. No. 1320

The purpose of this bill is to enhance public safety by requiring county public safety answering points to retain recordings of all emergency 911 telephone calls and radio dispatches for at least one year.

Your Committee on Conference has amended this bill by changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1320, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1320, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Hanabusa, Taniguchi, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Tsutsui).

Representatives Ito, Luke, Chong, Yamane, Stonebraker.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 53 on H.B. No. 606

The purpose of this bill is to lessen Hawaii's future dependence on imported oil and encourage greater use of renewable energy by requiring the Public Utilities Commission to adopt interconnection standards and regulations removing impediments to the installation of customer-sited renewable energy systems with a capacity greater than ten kilowatts.

Your Committee on Conference has amended this bill by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 606, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 606, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Kokubun, Menor, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Menor).

Representatives Morita, Hiraki, Schatz, Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. No. 54 on H.B. No. 712

The purpose of this bill is to protect historical and cultural sites by:

- (1) Establishing criminal offenses for knowingly taking, appropriating, excavating, injuring, destroying, or altering historic property, aviation artifacts, and burial sites without permission or without obtaining required approval;
- (2) Making it a criminal offense to knowingly fail to stop work in the immediate area and report the discovery of a burial site; and
- (3) Establishing that it is a civil and administrative violation to knowingly fail to re-inter human remains discovered on private lands or lands owned by the State or counties or to knowingly glue together, label, or conduct any tests that destroy skeletal remains.

Your Committee on Conference has amended this bill by making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 712, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 712, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Kokubun, Hanabusa, English, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Kokubun, English).

Representatives Kanoho, Carroll, B. Oshiro, Halford.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 55 on H.B. No. 864

The purpose of this bill is to affirm the State's commitment to protecting and preserving its outstanding scenic vistas and natural beauty by permitting the counties to adopt ordinances prohibiting billboards or outdoor advertising devices located in the airspace or waters beyond the land boundaries of the county if those devices are visible from any public location within the county.

Your Committee on Conference finds that this bill will eliminate any ambiguity in current law as to the county's jurisdiction over outdoor advertising devices located in airspace or waters beyond the land boundaries of the county, and allow the counties to keep Hawaii's pristine, natural beauty from being overwhelmed by intrusive, unsightly advertising.

To realize this goal, your Committee on Conference has amended this bill by using the contents of the original House version. As amended, this bill clarifies that county ordinances regulating billboards and outdoor advertising also apply to any advertising devices that are physically situated in the airspace or waters beyond the borders of the county if those devices are visible from any public place located within the county.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 864, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 864, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Hanabusa, Chun Oakland, Kim, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Kim).

Representatives Kanoho, Luke, Karamatsu, Morita, Thielen.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 56 on H.B. No. 1555

The purpose of this bill is to authorize the issuance of up to \$30,000,000 in special purpose revenue bonds to assist Hualalai Academy to finance the planning, acquisition, construction, and improvement of its educational facilities.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to July 1, 2005; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1555, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1555, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Taniguchi, Kokubun, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Kokubun).

Representatives Takumi, Walters, Evans, Berg, Ching.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 57 on H.B. No. 843

The purpose of this bill is to provide the Department of Education (DOE) with greater flexibility in setting the price of school lunches by authorizing DOE to:

- (1) Set the price of a school lunch with the concurrence of the Board of Education; and
- (2) Adjust the price of lunches based on the average cost of preparing the lunches over the three years preceding any price increase.

Your Committee on Conference has amended this bill by:

- (1) Authorizing the DOE to set the price of a school lunch to ensure that moneys received from the sale of the lunches may be up to one-half of the cost of their preparation;
- (2) Changing the effective date to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 843, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 843, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Taniguchi, Nishihara, Hogue.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Nishihara).

Representatives Takumi, Evans, Berg, Ching.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ching).

Conf. Com. Rep. No. 58 on H.B. No. 1550

The purpose of this bill is to protect the health and safety of diabetic students by allowing Department of Education (DOE) personnel to administer glucagon to these students in emergency situations.

Your Committee on Conference has amended this bill by clarifying that any employee or agent who volunteers to administer glucagon in an emergency situation to a student with diabetes shall receive instruction in the proper administration of glucagon by a qualified health care professional, rather than a qualified health professional.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1550, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1550, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Baker, Hanabusa, Nishihara, Hogue.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, none.

Representatives Takumi, Luke, Berg, Green, Finnegan.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Green).

Conf. Com. Rep. No. 59 on H.B. No. 150

The purpose of this bill is to improve traffic safety by establishing a provisional driver licensing program consisting of graduated driver licensing in three stages for persons under the age of 18. Among other things, this bill:

- (1) Establishes that a person at least sixteen years of age but under the age of 18 may be granted a provisional license subject to certain requirements;
- (2) Limits the number of passengers as well as the hours of operation for drivers with a provisional license;
- (3) Requires a provisional licensee or holder of an instruction permit to be accompanied by a licensed parent or guardian when driving between the hours of 11:00 p.m. and 5:00 a.m., subject to certain exceptions for provisional licensees travelling to and from employment or school-related functions;

- (4) Creates penalties, including suspension and revocation of the provisional license, for violating passenger limits and operating a motor vehicle between 11:00 p.m. and 5:00 a.m. without appropriate verification from a parent or employer or if the provisional licensee is not accompanied by a licensed parent or guardian;
- (5) Gives the District Court and Family Court concurrent jurisdiction over suspensions or revocations of provisional licenses;
- (6) Provides that provisional licenses expire on the licensee's nineteenth birthday to allow licensees more time to apply for a full driver's license;
- (7) Requires instruction permit holders, when driving, to be accompanied by an individual who is at least 21 years of age and licensed;
- (8) Requires the Department of Transportation and Department of Health to compile and analyze all traffic and accident data to determine the effectiveness of this graduated licensing program in reducing traffic fatalities and accidents in the State; and
- (9) Repeals the graduated licensing program in three years.

Your Committee has amended this bill by:

- (1) Clarifying that a provisional licensee may transport more than one person under the age of 18 if the individuals are members of the provisional licensee's household, including hanai or foster children;
- (2) Changing the date of the repeal of this measure to January 9, 2011; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 150, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 150, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Chun Oakland, Hanabusa, Trimble.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Trimble).

Representatives Souki, Luke, Lee, Fox.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 60 on H.B. No. 1238

The purpose of this bill is to lessen Hawaii's future dependence on imported oil and encourage greater use of renewable energy by authorizing the issuance of special purpose revenue bonds (SPRBs) to Honolulu Seawater Air Conditioning LLC to plan, design, and construct a chilled water distribution system and balance of system components and structures for a district cooling system in downtown Honolulu.

Your Committee on Conference has amended this bill by:

- (1) Authorizing \$48,000,000 as the amount of SPRBs to be issued; and
- (2) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1238, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1238, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, English, Taniguchi, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Hemmings).

Representatives Morita, Hiraki, Kawakami, Moses.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 61 on H.B. No. 769

The purpose of this bill is to exempt electric utility cooperative associations from the unclaimed property law, subject to certain requirements.

Your Committee on Conference has amended this bill by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 769, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 769, H.D. 3, S.D. 2, C.D. 1.

Representatives Morita, Hiraki, Kawakami, Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. No. 62 on H.B. No. 162

The purpose of this bill is to assist small business by requiring the Procurement Policy Board to adopt rules to promote the growth and development of small businesses, including:

- (1) Set asides for small businesses in appropriate classifications of requirements suitable to performance by small businesses; and
- (2) Criteria designed to encourage the use of small businesses as subcontractors on large contracts.

Your Committee finds that this measure will support small business growth and development by directing the State Procurement Policy Board to establish administrative rules that help small businesses obtain state and county contracts. By creating small business set-asides, this measure will encourage larger contractors to use small businesses as subcontractors by making it one of the factors considered in the bid evaluation process.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to July 1, 2005; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 162, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 162, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Espero, Inouye, Taniguchi, Trimble.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Representatives Herkes, Nakasone, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 63 on H.B. No. 1657

The purpose of this bill is to support energy research and technology by authorizing the issuance of an unspecified amount of special purpose revenue bonds to assist Hoku Scientific in planning, designing, constructing, and equipping facilities for the production of the company's core products.

Your Committee on Conference has amended this bill by:

- (1) Inserting the sum of \$10,000,000 as the total amount of special purpose revenue bonds to be issued; and
- (2) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1657, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1657, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Taniguchi, Ige, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Herkes, Karamatsu, Wakai, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Moses).

Conf. Com. Rep. No. 64 on H.B. No. 502

The purpose of this bill is to amend the penalties for repeat offenders of traffic violations that involve child passenger restraint systems, motor vehicle alarm systems, and motor vehicle lights equipment to make them easier to apply and fairer to the violators who would potentially face much stiffer fines for a relatively minor second offense.

Your Committee on Conference has agreed to use the language of House Draft 1 as the Conference Draft 1. As amended, this bill adds provisions that limit the time period during which a prior conviction may be considered to:

- (1) Three years for offenses involving child passenger restraints under section 291-11.5, Hawaii Revised Statutes (HRS); and
- (2) One year for offenses under sections 291-25 to 291-31, HRS, involving violations relating to motor vehicle lights.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 502, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 502, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Hanabusa, Chun Oakland, Whalen.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives B. Oshiro, Luke, Thielen.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. No. 65 on H.B. No. 551

The purpose of this bill is to clarify the law on public agency meetings by:

- (1) Allowing two board members to discuss matters relating to official board business if they do not constitute a quorum of their board;
- (2) Enabling multiple board members constituting less than a quorum of their board to testify or make presentations on official board business at a meeting of another board or at a legislative public hearing provided that certain notice and reporting requirements are met; and
- (3) Providing that final actions taken in violation of open meeting and public notice requirements may be voidable upon mere proof of the violation.

Your Committee on Conference has amended this measure by deleting the provisions allowing board members to testify or make presentations on official board business at a meeting of another board or at a legislative public hearing.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 551, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 551, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Ige, Hanabusa, Chun Oakland, Nishihara, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Chun Oakland, Nishihara).

Representatives Luke, B. Oshiro, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 66 on H.B. No. 553

The purpose of this bill is to protect personal identifying information by:

- (1) Allowing government agencies to withhold identifying information from government records, which if disclosed, would constitute a clearly unwarranted invasion of privacy; and
- (2) Excluding from disclosure the social security numbers of individuals under contract with the government.

Your Committee on Conference has amended this bill to correct a typographical error in citing section 92F-13(1), Hawaii Revised Statutes.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 553, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 553, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, English, Hee, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (English).

Representatives Luke, B. Oshiro, Thielen.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 67 on H.B. No. 1709

The purpose of this bill is to reduce property crime by establishing a new misdemeanor offense of aggravated criminal property damage for persons who:

- (1) Intentionally damage the property of another without the other's consent; and
- (2) Have two or more convictions for criminal property damage in the third or fourth degree in the preceding five years.

Your Committee on Conference finds that this measure is aimed at addressing the costly and recurring problem of vandalism.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the new offense of aggravated criminal property damage should be placed in chapter 708, Hawaii Revised Statutes (HRS), relating to offenses against property rights;
- (2) Removing a superfluous reference to the maximum fine of \$2,000 for misdemeanors, which is already provided in section 706-640, HRS; and
- (3) Changing its effective date from July 1, 2050, to upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1709, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1709, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Hee, Whalen.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Whalen).

Representatives B. Oshiro, Luke, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 68 on H.B. No. 125

The purpose of this bill is to recognize the historical and cultural importance of the sport of Hawaiian outrigger canoe paddling by authorizing certain Hawaiian outrigger canoe clubs (clubs) to keep their canoes on state shoreline areas.

Your Committee on Conference has amended this bill by:

- (1) Clarifying that the canoes may be kept on state shoreline areas at no charge; and
- (2) Clarifying that a club shall secure an annual revocable permit from the applicable state or county agency where required.

Your Committee on Conference intends that although clubs shall be exempt from canoe storage charges, they must still pay any applicable permit fees.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 125, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 125, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Hooser, Fukunaga, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Fukunaga).

Representatives Kanoho, Schatz, Meyer.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 69 on H.B. No. 1295

The purpose of this bill is to safeguard the health of students, faculty, and visitors at all Department of Education (DOE) schools by minimizing the risk of asbestos exposure by appropriating funds and requiring DOE to:

- (1) Ensure that all asbestos testing is conducted prior to any exterior or interior renovations or painting of school facilities, except charter schools; and
- (2) Maintain records of all students who may have been exposed to dust containing asbestos during an exterior renovation project that was conducted at King Intermediate School in December 2004.

Your Committee on Conference has amended this bill by:

- (1) Removing the requirement that DOE maintain records of all students who may have been exposed to dust containing asbestos during the exterior renovation project conducted at King Intermediate School in December 2004;
- (2) Deleting the appropriation to conduct the asbestos testing and records maintenance;
- (3) Changing the effective date to July 1, 2005; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1295, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1295, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Taniguchi, Hooser, Tsutsui, Hogue.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Hooser).

Representatives Takumi, Chong, Berg, Evans, Ching.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Evans).

Conf. Com. Rep. No. 70 on H.B. No. 332

The purpose of this bill is to protect consumers by informing them about bakery products that have been previously frozen and sold as thawed food that resembles fresh food.

Your Committee on Conference finds that the process of flash freezing to ensure product freshness is a standard practice but that nondisclosure to consumers at the point of purchase of bakery goods that have been frozen and offered for sale in a thawed state could be misleading and does not allow consumers to make an informed decision. However, it is the intent of your Committee on Conference to allow retailers some flexibility in the manner in which consumers are informed, and your Committee believes that signage “within close proximity of the point of display” provides sufficient notification.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the sign or notice shall be entitled “Baked Goods Previously Frozen”;
- (2) Specifying that the sign or notice include the words “Previously Frozen and Thawed”;
- (3) Changing the effective date to January 1, 2006; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 332, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 332, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Menor, Chun Oakland, Espero.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Arakaki, Hiraki, Green, Finnegan.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 71 on H.B. No. 164

The purpose of this measure is to prohibit movie piracy by creating a new misdemeanor offense of unauthorized operation of a recording device in a motion picture theater.

Your Committee on Conference finds that movie piracy through unauthorized audiovisual recordings made in movie theaters has resulted in losses to the motion picture industry, including actors, producers, and distributors of motion pictures. The illicitly copied movies are illegally duplicated, packaged, and distributed across the country and abroad, further aggravating industry losses.

Your Committee on Conference notes that retail merchants are afforded protection from civil liability for detaining suspected shoplifters while awaiting the arrival of law enforcement officers. It is your Committee's intent to extend the same protections to movie theater operators and their agents.

However, concerns were raised that the immunity language in the Senate draft was too broad. Accordingly, your Committee on Conference has amended this measure by providing movie theater operators the same immunity afforded to retail merchants when detaining a person suspected of stealing from the establishment.

Technical, nonsubstantive amendments were also made for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 164, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 164, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Hanabusa, Menor, English, Hogue.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, English).

Representatives Hiraki, Luke, Marumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 72 on H.B. No. 477

The purpose of this bill is to provide greater protection to an individual's retirement moneys by granting Roth individual retirement or 408A accounts (Roth IRAs) the same protection from creditor claims afforded to regular individual retirement of 408 accounts (regular IRAs).

Your Committee on Conference finds that both regular IRAs and Roth IRAs are sound financial vehicles for retirement planning, and allow individuals to enjoy the benefit of tax-deferred growth on their retirement savings year after year.

Your Committee on Conference further finds, however, that while both regular IRAs and Roth IRAs are retirement instruments, only the former is protected from the claims of creditors under current law. This measure corrects this oversight by specifically including retirement funds in a Roth IRA as benefits exempt from creditors' claims.

Upon consideration of the Senate draft, your Committee on Conference has amended this bill by removing its July 1, 2099, effective date, and providing that the bill becomes effective upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 477, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 477, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Hanabusa, Ige, Hogue.

Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Hiraki, Luke, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 73 on H.B. No. 785

The purpose of this bill is to expressly provide for non-judicial foreclosure of time share interests under the power of sale. The provisions of this bill are based on the existing power of sale law, and as such they:

- (1) Allow a mortgagee to foreclose under the power of sale by giving notice of the intention to foreclose the mortgage;
- (2) Require that copies of the notice be filed with the state Director of Taxation and posted on the time share interest premises not less than 21 days before the day of sale;
- (3) Provide that the day of sale may be any time after four weeks from the date of publication of the first notice;
- (4) Require the mortgagee to file a copy of the notice of sale and the mortgagee's affidavit in the Bureau of Conveyances within 30 days after selling the time share interest; and
- (5) Allow a mortgage creditor having a lien on a time share interest to request and receive written notice of foreclosure from another mortgage creditor with a lien on the same interest, at least seven days before the mortgage creditor forecloses on the mortgage by power of sale.

The bill also improves the notice given to time share mortgage debtors. In addition to publication of the notice of foreclosure in a newspaper in the county where the time share interest is located, the mortgage creditor must also provide the mortgagor with notice of foreclosure by:

- (1) Certified mail, return receipt requested, when the mortgagor's last known address is within the United States; or
- (2) Mail, when the mortgagor's last known address is outside the United States.

Your Committee on Conference finds that foreclosure under the power of sale provides time share associations and time share lenders a practical alternative to pursuing judicial foreclosure of a time share interest, the cost of which frequently exceeds the amount recovered. Further, the additional notice that this bill requires will protect the many time share mortgage debtors who do not live in the county where the time share interest is located.

Your Committee on Conference has amended this bill by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 785, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 785, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Hiraki, Herkes, Schatz, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Herkes).

Conf. Com. Rep. No. 74 on H.B. No. 1659

The purpose of this bill is to extend the Department of Land and Natural Resources' (DLNR) authority to enter into lease agreements with noncommercial pier owners, and allow noncommercial pier owners more time to negotiate leases of state submerged lands or lands beneath tidal waters (submerged land lease). Specifically, this bill extends Act 261, Session Laws of Hawaii (SLH) 2000, by two years to June 30, 2007.

Your Committee on Conference notes, that for purposes of determining the lease rent for the submerged land leases, DLNR is using 50 percent of the 2001 real property tax assessment of the fast land as the value of the submerged land to be leased. Procrastinating landowners desiring to enter into a submerged land lease with the State for noncommercial piers must be urged to act in a timely manner. Accordingly, your Committee on Conference has amended this bill by:

- (1) Urging DLNR to commence using the prevailing real property tax assessment value of the fast land in determining lease rents for leases entered into after July 1, 2006; and
- (2) Making technical, nonsubstantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1659, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1659, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Hooser, Hemmings.

Managers on the part of the Senate.

Conf. Com. Rep. No. 75 on H.B. No. 1430

The purpose of this bill is to discourage illegal dumping of solid waste by creating the offense of petty misdemeanor disposal of solid waste for the illegal disposal of volumes equal to or greater than one cubic yard and less than ten cubic yards.

Your Committee on Conference has amended this measure by:

- (1) Making an exemption to the petty misdemeanor offense for solid waste consisting solely of green waste, and providing a definition for such exempted green waste; and
- (2) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1430, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1430, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 76 on H.B. No. 895

The purpose of this bill is to protect the aquatic habitat surrounding the islands from the harmful effects of light pollution by prohibiting artificial light that directly illuminates the shoreline and ocean waters, and direct or indirect glare when light is displaced across property boundaries toward the shoreline and ocean waters. The bill also directs special management area authorities to minimize light displacement.

Your Committee on Conference, upon further consideration, has made the following amendments to this bill:

- (1) Deleting all references to the phrases “direct and indirect glare” and “light displacement”;
- (2) Splitting the two requirements necessary to meet the hotel exception from the prohibition into two separate exceptions;
- (3) Narrowing one of the hotel exceptions by limiting excepted outdoor lighting fixtures to those that illuminate an area of no more than 30 feet into the shoreline and ocean waters;
- (4) Expanding the hotel exception by adding “employees” to the list of persons to be protected by the excepted outdoor lighting fixture;
- (5) Changing the method by which the special management area authorities would minimize light pollution, from adopting guidelines for a review process, to prohibiting the issuance of special management area use permits and special management area minor permits subject to certain exceptions; and
- (6) Making technical, nonsubstantive changes for clarity, style, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 895, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 895, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 77 on H.B. No. 1201

The purpose of this bill is to strengthen the agricultural theft law by:

- (1) Clarifying that a person commits theft in the second degree if the person commits theft of agricultural equipment, supplies, commodities, or products, valued from over \$100 and up to and including \$20,000, or of agricultural commodities or products that exceed 25 pounds, from cultivated or uncultivated agricultural lands that are fenced or posted with warning signs;
- (2) Establishing that possession of agricultural commodities or products without ownership and movement certificates is prima facie evidence that the commodities or products are or have been stolen; and
- (3) Establishing that possession of livestock without a livestock ownership and movement certificate is prima facie evidence that the livestock is or has been stolen.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Removing references to agricultural commodities and, instead, inserting agricultural commodities in the definition of “agricultural equipment, supplies, or products”;
- (2) Clarifying that a person commits theft in the second degree if the person commits theft of agricultural equipment, supplies, or products, valued from over \$100 and up to and including \$20,000, or of agricultural products that exceed 25 pounds, from premises that are fenced, enclosed, or secured in a manner designed to exclude intruders, or there is prominently displayed on the premises a sign that provides sufficient notice and reading “Private Property”; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1201, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1201, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Hanabusa, Hemmings.
Managers on the part of the Senate.

Conf. Com. Rep. No. 78 on H.B. No. 1202

The purpose of this bill is to deter trespassing on agricultural land by establishing that a person commits the offense of criminal trespass in the second degree if the person enters or remains on agricultural lands that:

- (1) Are fenced, enclosed, or secured in a manner designed to exclude intruders;
- (2) Have a sign or signs prominently displayed on unenclosed cultivated or uncultivated agricultural land providing sufficient notice and reading as follows: “Private Property”; or
- (3) Have a visible presence of a crop either under cultivation, in the process of being harvested, or that has been harvested and marketable at the time of entry.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Specifying that a person commits criminal trespass in the second degree if the person enters or remains on agricultural lands without the permission of the owner of the land, the owner’s agent, or the person in lawful possession of the land;
- (2) Removing the requirement that any crop that has been harvested also be marketable; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1202, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1202, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 79 on H.B. No. 320

The purpose of this bill is to amend the financial interest disclosure law to:

- (1) Require the filing of a financial disclosure statement within 30 days of separation from state government if a prior financial disclosure statement was not filed within the 180 days preceding the date of separation;
- (2) Specify that the requirements of the financial interest disclosure law apply to:
 - (A) The directors, executive directors, and executive secretaries of state agencies or departments;
 - (B) The directors of the Legislature's service agencies; and
 - (C) Members of a state board or commission that has the authority to render declaratory rulings or hold contested case hearings;
- (3) Exempt from disclosure the street address and tax map key number of the filer's residence;
- (4) Make all financial disclosure statements filed with the Ethics Commission (Commission) public records available for inspection and duplication; and
- (5) Require disclosures of business and real property interests held outside of the state.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that a financial disclosure statement is required to be filed within 30 days of separation from a state position, rather than separation from state government, if a prior statement for the position was not filed within 180 days preceding the date of separation;
- (2) Deleting the provisions described in paragraphs (2) and (4) above; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 320, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 320, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 80 on H.B. No. 384

The purpose of this bill is to help ensure that indigent criminal defendants are represented by competent counsel by increasing the hourly rates and maximum fees for court-appointed attorneys. Specifically, this bill:

- (1) Raises the hourly rate of compensation for appointed counsel, from \$40 to \$60 for out-of-court services, and from \$60 to \$90 for in-court services;
- (2) Increases the maximum allowable fee schedule for appointed counsel; and

- (3) Clarifies the types of family court cases that are included in the maximum fee schedule.

Your Committee on Conference finds that the current statutory rates of compensation for court-appointed counsel were last amended in 1987, and that fee increases will assist the courts in attracting competent counsel to represent indigent defendants.

Your Committee on Conference has amended this measure by:

- (1) Amending the hourly rate for appointed counsel to \$90 for all services;
- (2) Doubling the maximum allowable amounts in the current fee schedule for appointed counsel; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 384, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 384, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Taniguchi, Hee, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 81 on H.B. No. 438

The purpose of this bill is to clarify various traffic laws by:

- (1) Repealing the penalties in sections 291C-13 and 291C-18, Hawaii Revised Statutes (HRS), because penalties for those statutes are provided under section 291C-161, HRS; and
- (2) Requiring the driver of a vehicle approaching within 20 feet of a marked crosswalk to stop and remain stopped at the stop line while pedestrians or bicyclists are within a marked crosswalk.

Upon further consideration, your Committee on Conference has amended this bill by replacing the new language relating to crosswalks, with amendments requiring the driver of a vehicle to stop and yield the right of way to a pedestrian crossing the roadway within a crosswalk, regardless of whether traffic-control signals are in place or in operation in that location.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 438, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 438, H.D. 1, S.D. 2, C.D. 1.

Representatives Luke, B. Oshiro, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 82 on H.B. No. 806

The purpose of this bill is to repeal the amendments made to the offense of criminal trespass in the second degree by Act 50, Session Laws of Hawaii 2004. Although Act 50 was intended to address the problem of squatters in public parks or campgrounds, this law was being broadly used in circumstances not related to squatting.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Establishing a new petty misdemeanor offense of criminal trespass onto public parks and recreational grounds;
- (2) Inserting a purpose and findings section; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 806, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 806, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. No. 83 on H.B. No. 422

The purpose of this bill is to protect Hawaii's marine environment from pollution associated with discharge from cruise ships by regulating the discharge of air and liquid pollutants by large commercial passenger vessels into the marine waters of the state.

Your Committee on Conference has amended this bill by reverting to the language contained in H.B. No. 422, H.D. 2, which is substantially similar to H.B. No. 422, S.D. 1, and, among other things:

- (1) Regulates discharges from commercial passenger vessels, specifically discharges of untreated sewage, sewage, other wastewater, and air emissions;
- (2) Requires owners or operators of commercial passenger vessels to:
 - (A) Maintain records of:
 - (i) Discharges of sewage and other wastewater into the marine waters of the state; and
 - (ii) The opacity of air emissions;
 - (B) Provide reports detailing discharges and air emissions to the Department of Health (DOH) upon request; and
 - (C) Submit to DOH copies of any reports of hazardous waste or hazardous substances, sewage, or opacity of air emissions required by the federal government;
- (3) Allows the State to:
 - (A) Enter into voluntary agreements with any owners or operators of commercial passenger vessels to control pollution outside the state's marine waters; and
 - (B) Adopt pollution controls more stringent than those provided by this bill;
- (4) Permits DOH to engage in efforts to encourage and recognize superior environmental protection efforts made by owners or operators of commercial passenger vessels;
- (5) Provides exemptions that include discharges to secure safety or save a life, and for commercial passenger vessels that operate in the marine waters of the state solely in innocent passage;
- (6) Permits DOH to engage in:
 - (A) Direct in-water monitoring of discharges or releases of sewage and direct monitoring of the opacity of air emissions;
 - (B) Monitoring and studying the direct or indirect effects of commercial passenger vessels operating in the marine waters of the state; and
 - (C) Researching ways to reduce the effects of commercial passenger vessels operating in the marine waters of the state and other coastal resources of the state;
- (7) Subjects violations of the requirements in this bill to fines established by DOH; and
- (8) Provides DOH flexibility in establishing alternative terms and conditions for vessel discharges applicable to an owner or operator of a vessel who cannot practicably comply with established regulations.

Additionally, your Committee on Conference has further amended this measure to address concerns regarding the federal Clean Water Act preemption raised by the Attorney General by clarifying that:

- (1) New effluent standards regarding discharges from a commercial passenger vessel into the marine waters of the state do not apply to discharges of sewage; and

- (2) Prohibitions against discharges from large commercial passenger vessels into the marine waters of the state do not apply to treated sewage.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 422, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 422, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 84 on H.B. No. 1235

The purpose of this bill is to enable legislators to carry out their constitutional mandate and statutory duties, providing a key linkage between their diverse constituencies and state policy, representing both their own constituents and all the people of the state. It is the legislators who develop state policies and strategies, oversee state agencies, provide services to the citizens of the state, and establish a forum for representation. To support legislators in accomplishing their duties, this bill provides travel allowances that reflect the increased cost of living by increasing the allowances of:

- (1) Neighbor island legislators during the legislative session;
- (2) Oahu legislators traveling to a neighbor island for legislative business during the legislative session;
- (3) All legislators on their respective island of legal residence for legislative business, when a session of the Legislature is recessed for more than three days or during the interim; and
- (4) All legislators traveling out-of-state on official legislative business.

Your Committee on Conference has amended this bill by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1235, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1235, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Tsutsui, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takamine, Kawakami, Meyer.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 85 on H.B. No. 1236

The purpose of this bill is to improve communication between legislators and their constituents by:

- (1) Increasing the legislative allowance for incidental expenses from \$5,000 to \$7,500; and
- (2) Specifying that when the legislative salary is increased, the legislative allowance shall be increased by the same percentage.

After careful consideration, your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1236, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1236, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Tsutsui, Hemmings.
Managers on the part of the Senate.

Ayes, 2. Noes, 1 (Hemmings). Excused, none.

Representatives Takamine, Kawakami, Meyer.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 86 on H.B. No. 408

The purpose of this bill is to clarify the environmental impact statement (EIS) law by adding definitions for “collection system”, “disposal system”, “individual wastewater system”, “treatment unit”, “treatment works”, and “wastewater facility” to the law.

Your Committee on Conference has amended this bill by:

- (1) Inserting a legislative findings and purpose section;
- (2) Deleting the definitions previously added by the bill, which do not serve to clarify the EIS law;
- (3) Defining “wastewater treatment unit” in the EIS law to make it clear that proposed changes to a portion of an existing wastewater treatment facility do not trigger the environmental review process;
- (4) Clarifying that when the proposing agency and the determining agency are the same, the Office of Environmental Quality Control is authorized to review an agency’s determination, consult the agency, and advise of non-compliance with the EIS law; and
- (5) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 408, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 408, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Taniguchi, Hooser, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 1 (Hooser).

Representatives Morita, Evans, Fox.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 87 on H.B. No. 283

The purpose of this bill is to recognize and honor Senator Hiram L. Fong by establishing the temporary Senator Hiram L. Fong Commission (Commission) and appropriating \$2,000 for the Commission.

Upon careful consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the provision that exempts any grants or subsidies made by the Legislature to the Commission from the requirements of the Grants and Subsidies Law, chapter 42F, Hawaii Revised Statutes;
- (2) Clarifying that the appropriation is to be used in accordance with the Grants and Subsidies Law;
- (3) Changing the effective date of this measure to July 1, 2005; and
- (4) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 283, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 283, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Taniguchi, Hogue.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Chang, Kawakami, Karamatsu, Ching.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 88 on H.B. No. 1476

The purpose of this bill is to provide public access to, and a protective buffer for, the Kohala Historical Sites State Monument (Monument) by requiring the Department of Land and Natural Resources (DLNR) to renew its efforts to acquire the lands adjacent to the Monument through land exchange.

Upon careful consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the provision requiring DLNR to renew its efforts to acquire the lands adjacent to the Monument through land exchange;
- (2) Clarifying that the lands adjacent to the Monument amount to 250 acres;
- (3) Requiring DLNR to:
 - (A) Determine, after consultation with Mo'okini Luakini, Inc., and Kamehameha Schools, whether the 162 acres that may be acquired by Kamehameha Schools are adequate to provide an adequate buffer and public access to the Monument; and
 - (B) If the 162 acres is found insufficient, renew its efforts to acquire the remaining 88 acres through land exchange;

and
- (4) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1476, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1476, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Fukunaga, Kokubun, Taniguchi, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Kanoho, Evans, Carroll, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Carroll).

Conf. Com. Rep. No. 89 on H.B. No. 931

The purpose of this bill is to encourage the development of workforce housing and affordable housing on leased residential lots by exempting such developments from the provisions of chapter 516, Hawaii Revised Statutes, which allows for mandatory lease-to-fee conversion of single-family residential properties.

Your Committee on Conference has amended this bill by:

- (1) Adding a provision which excludes the University of Hawaii at Manoa from the applications being introduced by this Act while still providing for other University of Hawaii properties outside of the Manoa vicinity;
- (2) Changing the effective date to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 931, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 931, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Taniguchi, Espero, Hooser, Hogue.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, none.

Representatives Kanoho, Kahikina, Magaoay, Meyer.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 90 on H.B. No. 1750

The purpose of this bill is to support community-based reintegration programs for female offenders in their transition from prison back into a healthy, productive role within the community.

Your Committee on Conference has amended this bill by:

- (1) Inserting an appropriation of \$100,000 for fiscal year 2005-2006;
- (2) Deleting the provision for a matching appropriation for fiscal year 2006-2007; and
- (3) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1750, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1750, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Taniguchi, Chun Oakland, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Whalen).

Representatives Ito, Chong, Yamane, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Moses).

Conf. Com. Rep. No. 91 on H.B. No. 852

The purpose of this bill is to:

- (1) Exempt proceedings of the Public Utilities Commission from automatic permit approval provisions; and
- (2) Specify that a delay caused by a lack of quorum by an issuing agency shall not initially result in an automatic permit approval, but a subsequent lack of quorum shall not provide cause for further extension unless agreed upon by all parties.

Your Committee on Conference has amended this bill by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 852, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 852, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Espero, Hanabusa, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Espero).

Representatives Kanoho, Herkes, Wakai, Meyer.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Meyer).

Conf. Com. Rep. No. 92 on H.B. No. 1276

The purpose of this bill is to expand public recreational opportunities by allowing the Department of Land and Natural Resources (DLNR) to enter into indemnity and defense agreements to protect parties associated with landowners from potential claims and property loss associated with public use of private lands.

Upon further consideration, your Committee on Conference has amended this bill by:

- (1) Clarifying the manner in which DLNR would indemnify a landowner for property losses by:
 - (a) Providing a process for reimbursement of property losses due to public use; and
 - (b) Allowing DLNR to settle small claims for losses up to \$10,000 per year to be paid from the trail and access program special funds;
- (2) Changing the effective date to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1276, H.D. 3, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1276, H.D. 3, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Hanabusa, Taniguchi, Hemmings.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Hanabusa).

Representatives Kanohe, Luke, Magaoay, Carroll, Schatz, Meyer.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Carroll).

Conf. Com. Rep. No. 93 on H.B. No. 1301

The purpose of this bill is to appropriate funds, in addition to the amounts requested by the Hawaii Invasive Species Council for the biennial period, to the counties specifically to accelerate the response, control, and eradication efforts for programs and initiatives that are found to be most effective in the control or eradication of priority invasive species, including the coqui frog.

Your Committee on Conference, upon careful consideration, has amended this bill by:

- (1) Specifying that the additional funds are to be used toward the control and eradication of only the coqui frog, and not all priority invasive species;
- (2) Clarifying the proviso that each county work in collaboration with its own invasive species committee or other invasive species working group;
- (3) Deleting an appropriation for fiscal year 2006-2007;
- (4) Changing the total appropriation amount to \$300,000, with the City and County of Honolulu and the County of Kauai to receive \$50,000 each, and the County of Maui and the County of Hawaii to receive \$100,000 each; and
- (5) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1301, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1301, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators English, Taniguchi, Kokubun, Hemmings.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Morita, Tsuji, Yamane, Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. No. 94 on H.B. No. 1758

The purpose of this bill is to prohibit the reduction of weekly unemployment benefit payments to individuals who receive pension payments including those under the Social Security Act or the Railroad Retirement Act of 1974.

Your Committee on Conference has amended this measure by:

- (1) Inserting provisions for the reduction in benefits under specific circumstances for claims filed with an effective date prior to July 1, 2005, and those filed with an effective date beginning on or after July 1, 2005;
- (2) Changing the effective date to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1758, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1758, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Hogue.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Hogue).

Representatives Caldwell, Nakasone, Fox.
Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Fox).

Conf. Com. Rep. No. 95 on H.B. No. 325

The purpose of this bill is to:

- (1) Authorize employees to use temporary disability insurance sick leave benefits in excess of the minimum statutory temporary disability insurance benefits requirement for family leave purposes; and
- (2) Amend the definition of “sick leave” under the state family leave law.

Your Committee on Conference has amended this measure by:

- (1) Changing the effective date to upon its approval; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 325, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 325, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Tsutsui.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Tsutsui).

Representatives Caldwell, Takamine, Nakasone, Pine.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. No. 96 on H.B. No. 140

The purpose of this bill is to authorize the Senate Ways and Means, Health, and Human Services Committees and the House Finance, Health, and Human Services Committees to serve as a joint legislative oversight committee to oversee and evaluate:

- (1) The implementation of the Temporary Assistance for Needy Families (TANF) program; and
- (2) TANF fund expenditures.

Your Committee on Conference has amended this bill by:

- (1) Removing reference to legislative oversight and instead requiring public input regarding TANF funding and programs;
- (2) Deleting references to the specific House and Senate committees and instead referring to committees having primary jurisdiction over fiscal, health, and human services issues;
- (3) Clarifying that the hearings are at the discretion of the Legislature and that no fewer than one hearing be held on each island annually only if the Legislature decides to hold hearings; and
- (4) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 140, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 140, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Taniguchi, Hooser, Kokubun, Tsutsui.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Hooser, Kokubun).

Representatives Sonson, Takamine, Kawakami.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Kawakami).

Conf. Com. Rep. No. 97 on H.B. No. 1317

The purpose of this bill is to ensure that Medicaid beneficiaries continue to receive a broad range of medical coverage by prohibiting the Department of Human Services (DHS) from taking any action or expending state resources to remove prescription drug benefits from managed care plans that provide health care coverage for Hawaii Medicaid beneficiaries.

Your Committee on Conference has amended this bill by:

- (1) Requiring DHS to submit a report to the Legislature no later than 20 days prior to the convening of the Regular Session of 2006 on the impact of carving out pharmaceutical benefits management from managed care plans;
- (2) Clarifying that DHS shall not take any action to remove pharmaceutical benefits management from managed care plans that provide health care coverage for Hawaii Medicaid beneficiaries and placing the provision in the Session Laws of Hawaii rather than the Hawaii Revised Statutes;
- (3) Changing the effective date to effective upon approval; and
- (4) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1317, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1317, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Baker, Taniguchi, Tsutsui, Whalen.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Taniguchi).

Representatives Sonson, Arakaki, Hiraki, Kawakami.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 98 on H.B. No. 1668

The purpose of this bill is to authorize the issuance of general obligation bonds to finance projects for the executive branch and the judiciary.

Your Committee on Conference finds that the total amount of principal and interest estimated for the general obligation bonds authorized under this measure, and for all bonds authorized and unissued and calculated for all bonds issued and outstanding, will not cause the debt limit of the State to be exceeded at the time of issuance.

Article VII, section 13, of the Constitution of the State of Hawaii requires the Legislature to include a declaration of findings in every general law authorizing the issuance of general obligation bonds, which shall declare the issuance of state bonds authorized will not cause the debt limit to be exceeded at the time of issuance.

Your Committee on Conference has amended this measure by:

- (1) Inserting the appropriate amounts provided by the Department of Budget and Finance; and
- (2) Making technical, nonsubstantive amendments for style and clarity.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1668, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1668, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Takamine, Kawakami, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 99 on H.B. No. 500

The purpose of this measure is to provide the necessary appropriations and authorizations for the operation of the Judiciary for fiscal biennium 2005-2007.

Your Committee on Conference has increased the Judiciary's budget in general funds by \$9,644,308 and \$9,394,425 for fiscal year 2005-2006 and 2006-2007, respectively. Collective bargaining accounts for a little over thirty per cent of these general fund increases, with judges and director pay raises, pursuant to authorization by Act 123, Session Laws of Hawaii 2003, accounting for fourteen per cent (\$1,341,102) and eighteen per cent (\$1,723,456), in each respective year.

The remainder of the funding provided by your Committee on Conference is mainly focused upon the continued funding of the Drug Court program. Your Committee on Conference recognizes the importance of the Drug Courts and the significant strides they have made. As such, your Committee on Conference remains dedicated to substance abuse prevention in the State. To this end, in addition to funds from Act 40, Session Laws of Hawaii 2004, your Committee on Conference has provided an additional \$751,998 in general funds for fiscal year 2005-2006 and \$623,161 in general funds for fiscal year 2006-2007 in keeping with its commitment to continue funding the Drug Court program.

Your Committee on Conference has also carefully considered the Judiciary's budget requests and sought to provide general funds for the following items:

- (1) \$297,388 for fiscal year 2005-2006 and \$470,162 for fiscal year 2006-2007 for operating expenses for the new Kauai court complex in the fifth circuit;
- (2) \$359,491 for fiscal year 2005-2006 and \$322,691 for fiscal year 2006-2007 to replace federal funding ending April, 2005, for the juvenile sex offender program to enable the program to continue operating;
- (3) \$170,000 for each year of the fiscal biennium for the Hawaii State Law Library for the most current books and subscriptions;
- (4) \$86,524 for each year of the fiscal biennium to permanently establish the parent education "Kids First" program;
- (5) \$40,000 and \$50,000 for each respective fiscal year for the biennium for the children's justice center program; and
- (6) \$27,000 for each year of the fiscal biennium to provide security guard services for juvenile detention in the third circuit.

Your Committee on Conference has also increased the computer system special fund ceiling in order to accommodate the projected expenditures due to the implementation of the Judiciary integrated case management system computer system.

Your Committee on Conference also provided \$95,000,000 in capital improvement funding for the Kapolei judiciary complex. Your Committee on Conference finds that an immediate appropriation for the complex is necessary to secure 13.6 acres of land from the Estate of James Campbell at no cost to the State.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 500, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 500, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Taniguchi, English, Espero, Fukunaga, Hooser, Inouye, Kanno, Kim, Kokubun, Nishihara, Sakamoto, Tsutsui, Hemmings, Slom, Trimble.

Managers on the part of the Senate.

Ayes, 14. Noes, none. Excused, 2 (Fukunaga, Trimble).

Representatives Luke, Takamine, Thielen.

Managers on the part of the House.

Ayes, 2. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. No. 100 on H.B. No. 100

Overview

Your Committee on Conference has labored to craft a balanced budget that is responsive to the needs and demands of our communities, focusing primarily on improving the quality of life for the people of Hawaii. Inherent in this approach is the need to be mindful of the interrelationships at play between the State and the federal government and how what happens at the federal level impacts the State's role in providing services. This approach also recognizes the pressing needs of our communities, particularly in the areas of education, controlling the crystal methamphetamine or ice epidemic, supporting the most vulnerable people in our communities, and ensuring a sustainable future for our children. The budget crafted by your Committee on Conference:

- Continues to support education system reform efforts initiated by Act 51, Session Laws of Hawaii 2004;
- Continues efforts to stem the ice epidemic by providing the resources needed to meet the objectives established by Act 40, Session Laws of Hawaii 2004;
- Provides additional funding for homeless programs and the general assistance population;
- Ensures that valuable green space will be preserved and protected for future generations;
- Supports the needs of the University of Hawaii system;
- Assists the counties by providing money to maintain their roads; and

- Honors the sacrifices being made by the men and women of the Hawaii National Guard.

Despite strong economic indicators for Hawaii, and the strong revenue projections made by the Council on Revenues, your Committee, as in previous years, continues to take a prudent and fiscally responsible approach to balancing competing demands for resources in the development of the Executive Biennium Budget.

National Economy

The United States economy is growing at a steady pace with low unemployment, inflation, and interest rates, with many forecasters expecting non-inflationary real growth to continue. At the same time, the strain associated with the increasing demand on resources created by the solid performance of the economy is cause for concern. Rising oil prices and growing inflationary pressures are just a couple consequences of an economy that has seen sustained growth. In general, the adverse effects from these factors do not appear to threaten the overall outlook for continued expansion. However, how those adverse effects are resolved could substantially impact on United States national economic performance.

Council on Revenues

At its March 8, 2005 meeting, the Council on Revenues updated its forecast of the general fund tax revenues for fiscal year 2004-2005 and beyond. The growth rate for the current fiscal year is forecast at ten per cent, up from 8.8 per cent from its January 6, 2005 prediction. However, the Director of Taxation cautioned the Council that the bulk of the increase in revenues over the last fiscal year is attributable to one-time events that are unlikely to be repeated. The Council also revisited their visitor arrival assumptions and deemed them too high. Applying that rate to our current visitor levels would mean that total visitor arrivals would exceed 8,000,000 a year in the very near future. This was deemed to be an unrealistic forecast given our current capacity and lack of plans to increase it. The growth forecast was therefore lowered for fiscal year 2005-2006 from 5.3 per cent to five per cent and for the following year from 5.7 per cent to 4.9 per cent.

Although the outlook based upon the Council's projections is promising, your Committee on Conference proceeded with caution in anticipation of the reduction in state tax revenue. Additionally, a reduction in federal funding to Hawaii is looming on the horizon as Congress debates the President's plan to shift more of its current services and obligations onto the states.

Budget Situations in Other States

According to the *State Budget Update, April 2005*, published by the National Conference of State Legislatures, state revenues are improving, but not enough to ameliorate continued budget gaps in a number of states.

Budget shortfalls continue, even though state revenues outpace estimates. Only a few states are reporting that collections from major tax sources are below previous estimates.

The problems are not with revenues but with expenditures. In recent years, states were forced to make drastic reductions to spending. These prior year reductions have placed extreme pressure on lawmakers to restore appropriations to previous levels. In addition, lawmakers have had to contend with increases in Medicaid and other health care costs. According to the National Conference on State Legislatures, this collision between current increases to revenues and prior year reductions is responsible for maintaining budget gaps in at least half the states:

- Thirty-one states report fiscal year 2005 spending overruns for some portion of the budget, compared with twenty-three states in November 2004.
- Rising health care costs and utilization are driving Medicaid and other health care programs over budget, a trend that began several years ago. Through the first eight months of the fiscal year, Medicaid and other health care spending exceed appropriations in twenty-three states (compared with sixteen in November).
- Corrections expenses are over budget in thirteen states, up from seven in November. In some of these states, pharmaceutical costs and other medical services explain the overruns.
- Property tax relief programs are over budget in Ohio and Maine.
- Other programs above budgeted levels include temporary assistance to needy families, mental health services, district courts, state parks, employee health insurance, and K-12 education.

Hawaii in Relation to Other States

According to National Conference of State Legislatures, Hawaii joins the overwhelming majority of states with no budget gaps for fiscal year 2004-2005. Hawaii also falls in line with half of the states entering fiscal year 2005-2006 without any spending overruns. Performance of major tax categories has exceeded expectations from last year, with the outlook for fiscal year 2005-2006 being positive but not likely to match or exceed the current fiscal year's rate of growth.

Collective Bargaining

Your Committee on Conference finds that, in any organization, the quality of services delivered is determined by the quality of its employees. By addressing the salary and other conditions of work issues of teachers, firefighters, engineers, nurses, and other public workers, it should be easier to select and retain the best public servants who can provide the best services to the people of Hawaii. In today's economy, the public sector must remain competitive with the private sector in terms of wages and benefits.

Your Committee on Conference adjusted expenditures to account for the collective bargaining agreements for the Hawaii Government Employees Association, United Public Workers, and the Hawaii State Teachers Association.

These agreements will cost the State the following amounts:

	<u>Fiscal Year 2005-2006</u>	<u>Fiscal Year 2006-2007</u>
Hawaii Government Employees Association	\$31,200,000	\$81,000,000
Hawaii State Teachers Association	\$20,500,000	\$77,100,000
United Public Workers	\$9,100,000	\$20,500,000

Budget HighlightsLower Education

On October 2004, the Board of Education approved a biennial operating budget request of an additional \$102,700,000 to address essential public school programs. The biennial budget was later revised upward an additional \$3,000,000.

However, after reviewing and revising the Board of Education's biennial budget request, the executive branch submitted a biennial budget on behalf of the Department of Education totaling only \$23,500,000, creating underfunded and unfunded public education needs that totaled approximately \$79,200,000 to \$82,100,000.

One of your Committee on Conference's top priorities was to address the shortfalls in public education. Your Committee on Conference exceeds the Governor's proposal by almost twice the amount requested for the Department of Education. Still, the almost \$40,000,000 appropriated by your Committee on Conference does not fully provide for budgetary shortfalls in the Department of Education. However, in light of lower revenue projections from the Council on Revenues in its March 2005 forecast, your Committee on Conference feels it did its best in crafting a balanced budget that not only addressed educational priorities but other top priorities as well.

Nationwide, the number of students diagnosed with autism spectrum disorder increases by approximately ten to seventeen per cent annually. In Hawaii, the increase in the number of students diagnosed with autism spectrum disorder is estimated at sixteen per cent annually. Based upon its initial analysis, the Department of Education requested an additional \$6,000,000 for the fiscal biennium 2005-2007 to address the needs of students diagnosed with autism spectrum disorder. Although the Governor approved the amount, further analysis indicated that, for the fiscal biennium 2005-2007, the additional amount needed to address the needs of students diagnosed with autism spectrum disorder was over \$10,000,000. Your Committee on Conference agreed with this later analysis and provided \$10,000,000 in additional general funds for the treatment of students diagnosed with autism spectrum disorder.

Another priority that the Department of Education identified was the conversion of school principals from a ten-month to a twelve-month salary schedule. With Act 51, Session Laws of Hawaii 2004, also known as the "Reinventing Education Act of 2004," greater responsibilities and expectations are placed upon school principals. As part of the school principal's expanded role, the Department of Education requested that school principals be converted from a ten-month salary schedule to a twelve-month salary schedule. Your Committee on Conference agreed with the Department of Education and appropriated \$5,286,750 in each year of fiscal biennium 2005-2007 to convert the salary schedules of school principals to a twelve-month salary schedule.

In fiscal biennium 2003-2005, the Legislature noted that there were accumulated balances in federal and special funds for school food services. As a result, general fund appropriations were reduced in fiscal biennium 2003-2005 in order for the Department of Education to expend the excess federal and special funds. The Department of Education has informed the Legislature that, by the end of the current fiscal year, those federal and special fund balances will be depleted. Initially, the Department of Education requested over \$10,000,000 in each year of the fiscal biennium. The executive branch submitted its request to the Legislature to restore general funds at less than half of the dollar level needed by school food service.

Subsequent analysis indicated that the shortfall for school food service would be even higher than originally estimated. Increases in food shipping costs resulted in revised increases in shortfall projections of forty to eighty per cent over original estimates. Your Committee on Conference recognizes the support and cooperation that the Department of Education demonstrated in assisting the State in balancing its budget during fiscal biennium 2003-2005. Due to fiscal constraints and your Committee on Conference's philosophy of providing resources to a broad range of basic priorities, your Committee on Conference provided a total of \$20,000,000 in general funds toward school food services. This amount approximates over ninety per cent of the accumulated balances that remained in the school food services' special and federal funds accounts at the beginning of the fiscal biennium 2003-2005.

Finally, the executive branch sought only \$200,000,000 in capital improvement program funds over the fiscal biennium for all of the Department of Education's capital requirements. Your Committee on Conference finds that this offering is embarrassingly short of the \$500,000,000 needed to satisfy the enormous need in repair and maintenance projects, as well as other necessary improvements. As a result, your Committee on Conference increased the Governor's request and provided a total of \$280,000,000 in capital improvement program funds, including \$100,000,000 for school repairs and maintenance.

Higher Education

On September 10, 2004, the University of Hawaii Board of Regents approved a detailed biennial operating budget request of \$70,000,000 (\$31,000,000 in fiscal year 2005-2006 and \$39,000,000 in fiscal year 2006-2007) and forwarded that plan to the Governor. The Board's budget plan included the creation of many positions vital to the expansion of programs, such as workforce development and economic diversification initiatives, to meet the needs of the State in areas of occupational growth as well as personnel shortages (e.g. teaching, nursing, and construction), and leveraging the resources of the University of Hawaii for economic expansion and job creation.

In the 2005 State of the State address, the Governor acknowledged that investment in the University of Hawaii is our best hope for meeting the higher education needs of our residents and that it is imperative that adequate resources be provided to the University.

However, the executive branch later revised the University of Hawaii Board of Regents' budget request down to \$25,000,000 lump-sum amounts of \$10,000,000 in fiscal year 2005-2006 and \$15,000,000 in fiscal year 2006-2007.

Using the lump-sum budget method inherently removes the ties between the specific and detailed goals and objectives of an organization and the resources used to achieve those goals and objectives. As the lump-sum budget request did not originate from the University of Hawaii Board of Regents, the University of Hawaii administration could not adequately provide detailed information as to the allocation of the lump sum amounts. As a result, your Committee on Conference was prevented from performing its responsibility of analyzing the budget request of the University of Hawaii with the due diligence required in budget matters. Your Committee on Conference did not approve of the lump-sum budget requests as presented by the Governor's office. Your Committee on Conference spent countless hours crafting a detailed budget for the University of Hawaii. Your Committee on Conference feels that, although the result is a fair budget for the University of Hawaii, the Committee on Conference's limited resources could have been better spent in reviewing budget request priorities.

While your Committee on Conference recognizes the semi-autonomous status of the University of Hawaii, your Committee on Conference feels that it has a fiduciary duty to review monetary matters, especially matters regarding general funds, paid for by all taxpayers. Your Committee on Conference feels that the transparency and accountability that are paramount concerns in today's government are hindered by lump-sum budgeting. Furthermore, the flexibility and efficiency enjoyed by semi-autonomous governmental units should be balanced with the dissemination of accurate and meaningful information to stakeholders, the public, and other interested parties and individuals.

On March 25, 2004, the Governor, jointly with the President of the University of Hawaii, members of the University of Hawaii Board of Regents, and the University of Hawaii Professional Assembly announced that an unprecedented six-year collective bargaining contract between the State and University of Hawaii professors had been reached, which may exceed all prior year contract lengths. Among other things, the contract provided for pay increases equating to raises of over thirty-four per cent over the six-year contract, with the cost borne entirely by the State for the first three years and then split between the State and University of Hawaii over the last three. Total obligations are estimated to be \$124,000,000 to the State and \$39,000,000 to the University. State law requires that this contract only becomes valid when the Legislature appropriates the necessary funds to pay for the new cost items.

During the 2004 legislative session, members of the Legislature expressed concerns that, in order for the University of Hawaii to pay for its portion of the contract, tuition for students may have to be raised. While your Committee on Conference cannot draw a direct correlation between the pay raises and the actions of the University of Hawaii, your Committee on Conference notes that, in March of this year, the University of Hawaii proposed to increase tuition to more than double its current rate within the next five years. Among its top priorities, the University of Hawaii cited the need to hire and retain faculty and fix classrooms and buildings. While your Committee on Conference recognizes that the needs expressed by the University of Hawaii are legitimate and valid, we note that, in its current biennial budget, the University of Hawaii identified \$20,000,000 (\$4,500,000 in fiscal year 2005-2006 and \$15,500,000 in fiscal year 2006-2007) in additional collective bargaining costs over and above the \$8,600,000 in collective bargaining costs expended in prior years. Despite its concerns, your Committee on Conference recommends to fully provide for the University of Hawaii Professional Assembly's collective bargaining costs of \$37,200,000 (\$13,100,000 in fiscal year 2005-2006 and \$24,100,000 in fiscal year 2006-2007).

Your Committee on Conference remains committed to the vision of creating a world-class institution of higher learning. In spite of substantial collective bargaining costs and lower overall revenue expectations from the Council of Revenues, your Committee on Conference provided nearly \$16,000,000 in general funds for fiscal biennium 2005-2007 in increased support for various University of Hawaii programs, such as nursing, improvements to campus security, workforce development, financial aid and student services to the community colleges, a "B" Plus Scholarship Program, and several Hawaiian studies programs.

Your Committee on Conference also provided \$13,000,000 in general fund appropriations and revolving fund ceiling increases to address projected shortfalls in operating, faculty, and support functions at the new facilities for the John A. Burns School of Medicine. Your Committee on Conference believes that prior University of Hawaii administrations may have been overly optimistic as to the short-term potential of the new John A. Burns School of Medicine facilities at Kakaako to generate external grant and other non-general funds. However, your Committee on Conference continues to believe in the medium and long-range potential of the John A.

Burns School of Medicine facilities at Kakaako in becoming a world-class health, biomedical, and biotech research and teaching facility.

In this regard, your Committee on Conference provided for budget shortfalls of the John A. Burns School of Medicine with a combination of general funds and revolving funds. Although the University of Hawaii administration did not adequately budget for "start-up" or operating costs, your Committee on Conference acknowledges that millions of dollars have already been committed to the construction of the John A. Burns School of Medicine. It would not be fiscally prudent to have the facilities sit dormant or underutilized because funds were not provided for the start-up costs or day-to-day operations. Your Committee on Conference also recognizes the fact that, while research has the potential of becoming "self-supporting," this does not apply to the educational portion of the Kakaako facility. The intent of your Committee on Conference is to provide general funds to support costs associated with the educational functions of the facility, while authorizing expenditure ceiling increases from the research and training revolving fund to temporarily support the research component of the John A. Burns School of Medicine, Kakaako facility. This action will give the research component of the facility time to become fully operational to fulfill the expectations of the Legislature, the University community, and the general public in becoming a world-class medical, biomedical, and biotech center. It is hoped that, as more external funding is obtained for research by the School of Medicine, the initial "investment" from the research and training revolving fund will be returned several fold.

The research and training revolving fund is the depository for overhead reimbursements that the State or the University of Hawaii expended in support of administering federal grants. Historically, the University of Hawaii has allowed the research unit that obtained federal grants to retain approximately fifty per cent of the reimbursement, with the vice-president for research and various chancellors receiving the remaining fifty per cent. There are no federal guidelines as to the disposition of federal overhead reimbursements. In the distant past, all federal overhead reimbursements were deposited into the state treasury as general funds.

Finally, your Committee on Conference eliminated approximately two hundred positions from the University of Hawaii system. These positions have been vacant and unfunded for at least one year. Vacant and unfunded positions occur when the University of Hawaii chooses to reallocate funding to other areas of importance. Your Committee on Conference noted that, in the past several years, while other executive branch departments have experienced the reduction of vacant and unfunded positions, very few, if any, vacant and unfunded positions have been reduced from the University of Hawaii inventory. It is estimated that, at the beginning of the 2005 regular legislative session, over five hundred positions were classified as vacant and unfunded in the University of Hawaii system.

While your Committee on Conference, in part, understands the rationale behind the University of Hawaii's desire to retain all of its vacant and unfunded positions, your Committee on Conference also realizes that the University of Hawaii may have exceeded what would be considered acceptable in retaining these vacant and unfunded positions. By reducing a portion of the vacant and unfunded positions from the University of Hawaii, it is hoped that the University will become more efficient and prudent in the management of its position counts.

Substance Abuse Treatment

Your Committee on Conference firmly recognizes the need to continue the work of the Joint House-Senate Task Force on Ice and Drug Abatement, which provided a comprehensive plan last legislative session established under Act 40, Session Laws of Hawaii 2004, to address the ice epidemic. Accordingly, your Committee on Conference provided an additional \$13,100,000 in general funds to the Department of Health for substance abuse treatment services and prevention programs over the biennium for both adolescents and adults. In addition, your Committee on Conference provided \$1,200,000 in each year of the biennium for the counties to continue support for anti-drug campaigns and community substance abuse prevention, as was provided for in Act 40.

Your Committee on Conference also notes that the level of funding provided for substance abuse prevention exceeds the executive branch's biennial request, which only provided marginal support to stem the ice epidemic.

Public Safety

The paramount concerns of the Department of Public Safety continue to be the overcrowded conditions of our correctional facilities, the deteriorating physical condition of these facilities, and the increased demand for correctional services. For example, on March 7, 2005, there were 3,943 inmates in facilities in Hawaii, although the design capacity is only 3,487. Additionally, 1,617 Hawaii inmates were held in facilities on the mainland and ninety-nine were held at the Federal Detention Center on Oahu.

With the unlikelihood of any new facilities being built in Hawaii in the near future, transferring inmates to the mainland or to the Federal Detention Center is the current solution to reducing the overcrowding at our correctional facilities. This budget approves the transfer of an additional two hundred fifty inmates to out-of-state facilities, which would bring the total Hawaii inmate population housed on the mainland to 1,867. Your Committee on Conference provided \$6,055,128 for fiscal year 2005-2006 and \$7,203,436 for fiscal year 2006-2007 for this purpose. Those amounts include \$1,500,000 per year to cover a 2.50 per cent annual increase in the basic daily fee for the one thousand six hundred inmates currently held in mainland facilities. Furthermore, your Committee on Conference provided \$8,200,000 over the fiscal biennium 2005-2007 for one hundred forty more contract beds at the Federal Detention Center.

With the recent construction of new court buildings and the increased responsibility over state buildings and their interests, your Committee on Conference has provided for eighteen new deputy sheriff positions for Hawaii, Maui, and Oahu courts at a cost of \$566,230 in fiscal year 2005-2006 and \$851,624 in fiscal year 2006-2007.

Health

Your Committee on Conference is committed to strengthening Hawaii's system of care and affirms its support for our most vulnerable populations, including those suffering from mental illness and substance abuse. Your Committee on Conference further reaffirms its commitment to ensuring that the health and safety needs of all of Hawaii's people are met despite the State's limited resources. As such, the appropriations authorized by your Committee on Conference ensure sufficient funds for the Department of Health's high priority areas, specifically, developmental disabilities, adult mental health, and substance abuse.

To provide for the increase in the number of individuals with developmental disabilities admitted to the Home and Community Based Waiver Services, your Committee on Conference provided \$15,710,000 in general funds over the fiscal biennium 2005-2007 to be matched by Title XIX federal funds.

Your Committee on Conference also provided \$1,000,000 in general funds for each year of the biennium to fund emergency medical services for the county of Maui's aeromedical services.

Your Committee on Conference commends the Adult Mental Health Division in complying with its court-ordered mandate in meeting the requirements of the omnibus plan for community mental health services. More importantly, your Committee on Conference acknowledges and appreciates the significant advancements made by the Division in the treatment and care of its patients.

When reviewing the biennial requests of the Adult Mental Health Division, your Committee on Conference was made aware that funding levels for outpatient services were predicated on its earlier emergency appropriation request for this current fiscal year. Based upon updated information provided by the Division, it was determined that the Adult Mental Health Division's original fifteen per cent increase in clients did not materialize as projected. Accordingly, your Committee on Conference was informed that no additional general funds were necessary for the upcoming biennium.

Further, your Committee on Conference acknowledges the recent implementation in December 2004, of the Adult Mental Health Division's new medicaid rehabilitation option to allow for federal reimbursements for eligible state-funded behavioral health services. Given this recent implementation and the lack of historical data to determine how effective its collection rates are, your Committee on Conference did not believe it would be prudent to reduce or make any adjustments to the current base funding levels of the Adult Mental Health Division pending the outcome of the medicaid rehabilitation option program.

Your Committee on Conference also provided \$996,960 in general funds to the Hawaii State Hospital. These funds provide for the increasing costs of pharmaceutical drugs, the implementation of an automated medication dispensing system, as well as the acquisition of medication carts over the biennium. In addition, \$27,500 in general funds was also provided to the Hawaii State Hospital to purchase a truck to meet the growing demands of the facility. Your Committee on Conference further provided \$2,820,000 in general funds for staffing support for the various statewide Community Mental Health Centers.

With regard to the Hawaii Health Systems Corporation, your Committee on Conference is cognizant of the continual and on-going negotiations between the Department of Human Services and the Centers for Medicare and Medicaid Services to amend its current medicaid QUEST demonstration project waiver program. When implemented, the waiver will permit the Corporation's acute care hospitals to recover a portion of their unreimbursed costs for providing health care to those in our population that are either indigent or uninsured. These payments, aptly named "DSH-Like" payments, simulate for Hawaii the "Disproportionate Share Hospital" reimbursements that other states receive by federal allotment provided under federal law.

Your Committee on Conference is mindful that, when implemented, these reimbursements will provide some fiscal relief to the Hawaii Health Systems Corporation. Concurrently, upon receipt of the federal reimbursements, your Committee on Conference expects the Hawaii Health Systems Corporation to cooperate and to reimburse the state treasury with the appropriate amount of general funds that the Corporation will receive in federal funds.

Your Committee on Conference readily acknowledges the need to support the safety net hospitals and provides a continued recurring source of general funds amounting to \$32,300,000 for fiscal year 2005-2006 and \$34,100,000 for fiscal year 2006-2007 to the Hawaii Health Systems Corporation.

In concluding this section, your Committee on Conference believes that the Healthy Start program warrants attention by the Department of Health's administration. Established in 1985 to prevent child abuse and neglect by providing support for families of newborns, the Healthy Start program appears to be in need of restructuring. Although the department readily acknowledges and has raised concerns about the Healthy Start program, little has been done to address these concerns. Further, concerns raised by service agencies and providers with regard to the program also need to be addressed by the department.

Your Committee on Conference also believes that there is a need for the department to conduct a thorough program review of the Healthy Start program as soon as possible, to develop its findings, and to make appropriate recommendations. To this end, your Committee on Conference has included a proviso for the Healthy Start program to address some of these concerns. Meanwhile, your Committee on Conference has also included a proviso earmarking up to \$2,000,000 from the early intervention special fund in fiscal year 2005-2006 to support the Healthy Start program while the department works to resolve the problems the Healthy Start program faces.

Human Services

Your Committee on Conference reviewed the budget requests of the Department of Human Services and approved the vast majority of them. That approval, however, came with reservations due, in large part, to the absence of timely communication from the department. The lack of information left your Committee on Conference with questions regarding the departments fiscal discipline, accountability for taxpayers' moneys, and the department's responsibility to the Legislature to provide the information necessary to make appropriate decisions. Despite the department's failure to respond to your Committee on Conference's requests for information, your Committee on Conference provided the majority of the department's budget requests.

In program areas where decreases in program population or costs are anticipated because individuals are being encouraged towards self-sufficiency, your Committee on Conference has transferred over \$11,800,000 in general funds from the Temporary Assistance to Needy Families and General Assistance Payments in an attempt to mimic expected reductions in expenditures. These funds will be used to assist Hawaii's rapidly growing aged, blind, and disabled population as well as the non-citizen households under the temporary assistance to other needy families program.

Your Committee on Conference understood that one of the most basic needs for any human being is a decent, safe, and affordable place to live. However, the shortage of affordable rental housing is a serious problem in Hawaii for the many low- and moderate-income-working families. Thus, your Committee on Conference appropriated an additional \$5,000,000 annually for development, construction, and management of affordable housing. In addition, your Committee on Conference realized that the homeless problem facing our State has grown too large. Your Committee on Conference therefore appropriated an additional \$1,600,000 to provide homeless individuals and families with a safer and better living standard.

Your Committee on Conference acknowledges that the soaring costs of medical care and the increased number of uninsured adults and children prompted the need for large spending to assist the people of Hawaii. To offset this cost increase, your Committee on Conference found it necessary to appropriate an additional \$7,500,000 in fiscal year 2005-2006 and \$15,400,000 in fiscal year 2006-2007 to assist the needy adults and children eligible under the Hawaii QUEST program. In addition, your Committee on Conference found that the population of the aged, blind, and disabled has reached over 37,000 recipients and is expected to increase further by approximately sixteen per cent per year. Your Committee on Conference found it crucial to provide payments for medical care to the State's low-income population through the Medicaid program by appropriating additional general funds of \$29,700,000 in fiscal year 2005-2006 and \$41,700,000 in fiscal year 2006-2007 to improve the health care in Hawaii.

Your Committee on Conference remains committed to the home- and community-based services program that provides medicaid waiver services to low-income persons with disabilities and chronic illnesses to live in community settings as an alternative to more costly institutional placement. In caring for the needs of the developmentally disabled and mentally retarded, your Committee on Conference appropriated an additional \$16,100,000 in fiscal year 2005-2006 and \$19,200,000 in fiscal year 2006-2007 for qualified children and adults in the program to improve the much needed health care of our needy population in Hawaii.

Counties

Your Committee on Conference recognized that the counties required assistance in the repair and maintenance of public roads. To this end, your Committee on Conference provided an additional \$10,000,000 to assist each of the counties in their efforts to improve those thoroughfares that suffer from disrepair.

Business, Economic Development, and Tourism

Your Committee on Conference has added \$8,200,000 in fiscal year 2005-2006 and \$9,700,000 in fiscal year 2006-2007 in tourism special funds for the continued expansion of its promotional programs. However, the Committee has also reduced or eliminated funding for marketing in several other areas where the return on investment could not be quantified to justify additional funds.

Your Committee on Conference has also provided \$1,500,000 in each year of the fiscal biennium for the Hawaii Experimental Program To Stimulate Competitive Research that has proven to be successful over the last three years and \$551,769 in fiscal year 2005-2006 and \$251,769 in special funds for fiscal year 2006-2007 for the implementation of the petroleum industry data and information functions as mandated by chapter 486J, Hawaii Revised Statutes.

Taxation

Since 1999, when the Department of Taxation initiated the first phase of the Integrated Tax Management System, the State began to locate and generate additional revenues through improved tax collection efficiencies. Now, with its final phase of implementation completed, your Committee on Conference continues to support the Integrated Tax Management System and is appropriating \$2,500,000 over the next fiscal biennium for production support to ensure that the system continues to operate at its fullest potential.

Your Committee on Conference also provided thirty-one new auditor and collector positions in fiscal year 2005-2006 and six new positions in fiscal year 2006-2007 to facilitate the eventual collection of approximately \$38,700,000 in additional annual tax revenues annually.

Land and Natural Resources

Your Committee on Conference supports continued and expanded efforts to combat invasive species in the State. In response to various threats such as the Coqui frog and Salvinia Molesta, the 2003 Legislature established the Hawaii Invasive Species Council.

The Hawaii Invasive Species Council is charged with protecting the State against invasive species threats to the natural environment, and the health and lifestyle of Hawaii's people. To show its full support in combating invasive species, your Committee on Conference provided \$4,000,000 for fiscal year 2005-2006 and fiscal year 2006-2007.

Recognizing the projected growth of the cruise ship industry in Hawaii and its possible effects on homeland security, your Committee on Conference has provided an additional ten Conservation and Resources Enforcement Officer positions throughout the State, as well as an additional \$287,000 in general funds and \$450,000 in special funds annually. These positions are essential for providing a safe outdoor environment to the 1,200,000 residents and 6,000,000 visitors who utilize the State's natural resources on a regular basis. With the fourth largest coastline in the nation and eleventh largest state forest, the Conservation and Resources Enforcement Division would be hard pressed to continue operating in an effective manner with their current staffing levels. The addition of five positions and the restoration of five previously abolished positions will help increase coverage around the State.

The increasing state population and tourism have placed greater demands on state parks, their recreational facilities, and resources. Facilities in the state parks system were constructed over thirty years ago and have deteriorated to the extent that they pose safety risks to the public and necessitate substantially increased maintenance and repair costs. To this end, your Committee on Conference has provided eleven temporary positions, an additional \$402,000 in general funds over the fiscal biennium, and a special fund ceiling increase of \$1,560,000 over the biennium for the maintenance of state parks. These additional funds will assist in contracting much needed staffing to address continuous, ongoing repairs and maintenance for all parks statewide.

Agriculture

Hawaii's endemic natural resources are its most important economic asset. It spurs a tourist industry that has dominated Hawaii's economy for decades. Your Committee on Conference finds that there is a need to prevent the incursion of invasive species that pose a threat to Hawaii's unique flora and fauna. To address this, your Committee on Conference approved the addition of ten plant quarantine inspector positions to perform detector dog handler duties. Your Committee on Conference also supports the Legislature's commitment to agricultural research by providing \$494,721 in general funds in both fiscal years for agriculture development, research, and marketing.

Your Committee on Conference also values the economic contribution of Hawaii's farmers. On March 23, 2005, the Governor requested the addition of more than \$184,000 in both fiscal years. This was to assist farmers in covering the increasing costs of water use and irrigation maintenance. Your Committee on Conference concurs with the administration to address the farmers' plight and has appropriated the necessary funds to address the situation.

Defense

Your Committee on Conference appreciates the sacrifices made by veterans who defended our freedom and liberties. While the executive branch's request for the rehabilitation of the Hawaii State Veteran's Cemetery was not provided for in this measure, an amount exceeding the requested amount was provided for in H.B. No. 115, H.D. 1, S.D. 2, C.D. 1. In total, \$208,450 was provided for in that measure.

In addition, your Committee on Conference appropriated \$250,000 in general funds for fiscal year 2005-2006 for an event to thank our troops for their service. On behalf of the Legislature, your Committee on Conference expresses its heartfelt gratitude for the courage and hardships that the men and women of the Hawaii National Guard have endured in the name of freedom.

Your Committee on Conference understands the geographic vulnerability of Hawaii. In light of recent events in South Asia, your Committee on Conference funded the conversion of various temporary civil defense positions to permanent status. This will enable the State to be more informed on, and prepared for, natural and man-made disasters. Your Committee on Conference also authorized more than \$10,000,000 in federal funds to reflect homeland security grant funds to assist counties and state agencies in combating terrorist threats.

Conclusion

Despite the strong economic indicators for Hawaii and the Council on Revenues' positive revenue projections, your Committee on Conference has taken an extremely prudent and thoughtful approach to allocating our financial resources in a responsible manner. This balanced budget provides for the needs of our public schools and communities. While public expectations are high, your Committee on Conference has remained vigilant and has carefully scrutinized how taxpayer dollars are spent.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 100, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 100, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, English, Espero, Fukunaga, Hooser, Inouye, Kanno, Kim, Kokubun, Nishihara, Sakamoto, Tsutsui, Hemmings, Slom, Trimble.

Managers on the part of the Senate.

Ayes, 12. Noes, none. Excused, 3 (Fukunaga, Kim, Trimble).

Representatives Takamine, Carroll, Chong, Evans, Karamatsu, Kawakami, Lee, Magaoay, Nakasone, Nishimoto, Tanaka, Tsuji, Wakai, Yamane, Yamashita, Fox, Meyer, Moses, Pine.
Managers on the part of the House.
Ayes, 17. Noes, none. Excused, 2 (Fox and Meyer).

Conf. Com. Rep. No. 101 on S.B. No. 1038

The purpose of this measure is to encourage the continued promotion and development of a professional procurement workforce, improvement of contract opportunities for private sector contractors, and promotion of excellence in procurement accountability and administration for the public sector by:

- (1) Removing the Hawaii Procurement Institute (HPI) from the State Procurement Office's oversight by placing HPI within the University of Hawaii as an independent program within the William S. Richardson School of Law (UH);
- (2) Establishing and appropriating funds for HPI at UH.

Government procurement is becoming a distinct field of procedures, laws, regulations, and processes. Government procurement in Hawaii is a powerful economic force in view of the relatively small scale of Hawaii business. The William S. Richardson School of Law at the University of Hawaii is particularly well-equipped to furnish the expertise needed in procurement to ensure that government procurement functions are fair, just, equitable, and efficient. In this manner, businesses of all sizes in this State can benefit from procuring government contracts.

Your Committee on Conference has amended this measure by:

- (1) Adding a purpose section to make a finding that this measure is of statewide concern; and
- (2) Deleting the appropriation; and
- (3) Changing the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1038, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1038, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Hee, Taniguchi, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

Representatives Herkes, Waters, Magaoay, Shimabukuro, Ching.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 102 on S.B. No. 1592

The purpose of this measure is to:

- (1) Establish a 2050 task force to review the Hawaii state plan and other fundamental components of community planning and to develop recommendations on creating the Hawaii 2050 sustainability plan; and
- (2) Request the Auditor to prepare the Hawaii 2050 sustainability plan, which will define and implement state goals, objectives, policies, and priority guidelines by incorporating some or all of the recommendations of the Hawaii 2050 task force.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$25,000 for the review and recommendations of the Hawaii state plan and other fundamental components of community planning to be performed by the 2050 task force;
- (2) Inserting an appropriation amount of \$75,000 for creating the Hawaii 2050 sustainability plan; and
- (3) Making technical, nonsubstantive changes for style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1592, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1592, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Taniguchi, English, Hemmings.
Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, none.

Representatives Herkes, Kanoho, Nakasone, Berg, Meyer.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 103 on S.B. No. 1732

The United States Geological Survey will install a flood warning system at Lake Wilson to provide advance information on an impending flood. The United States Geological Survey will work with the National Weather Service to issue flood warnings and, with the Oahu civil defense agency and Honolulu police department, will help ensure the timely evacuation of residents living downstream from Lake Wilson. However, the State must appropriate matching funds for the purchase of stream gauges and the operation and maintenance of the flood warning system.

Your Committee on Conference has amended this measure by:

- (1) Inserting appropriation amounts of \$19,000 for fiscal year 2005-2006 and \$20,000 for fiscal year 2006-2007;
- (2) Changing the effective date to July 1, 2005;
- (3) Changing the expending agency to the Department of Defense; and
- (4) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1732, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1732, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Taniguchi, Espero, Kanno, Whalen.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, 2 (Kanno, Whalen).

Representatives Kanoho, Ito, Magaoay, Stonebraker.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 104 on S.B. No. 3

The purpose of this measure is to ensure that developmental disabilities residential service providers are adequately reimbursed for services by:

- (1) Expanding the scope of residential services available to individuals with developmental disabilities or mental retardation;
- (2) Establishing new categories of residences for individuals with developmental disabilities or mental retardation;
- (3) Allowing the Department of Health to provide level of care and other additional payments to certain residential service providers; and
- (4) Appropriating monies for payment of residential services provided by developmental disabilities domiciliary homes and developmental disabilities apartment complexes.

Your Committee on Conference amended this measure by:

- (1) Amending subsection 321-15.9(a), Hawaii Revised Statutes (HRS), to authorize the Department of Health to license developmental disabilities domiciliary homes for individuals with developmental disabilities or mental retardation;
- (2) Deleting any reference to the Department of Health licensing, certifying, or regulating a developmental disabilities apartment complex;
- (3) Clarifying that the Director shall establish criteria for contracts for developmental disabilities apartment complexes and where necessary to provide for additional funding for developmental disabilities domiciliary homes;
- (4) Clarifying that the Department of Health may enter into contracts for additional payments for residential services to the providers of developmental disabilities domiciliary homes and payments to operators of developmental disabilities apartment complexes for residential services on terms determined by the Department of Health;
- (5) Deleting the appropriation for payment of residential services provided by developmental disabilities domiciliary homes and developmental disabilities apartment complexes;

- (6) Substituting the term "contracts" for "purchase of service agreements" to conform to chapter 103F, HRS;
- (7) Deleting subsection 321-15.9(f), HRS, which required the rate of payment for residents in the developmental disabilities domiciliary homes to be determined on the same basis as domiciliary care homes as provided under section 436-53, HRS;
- (8) Amending the effective date to take effect on July 1, 2005; and
- (9) Making technical, non-substantive changes for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 3, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 3, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland, Tsutsui, Fukunaga, Taniguchi, Whalen.
Managers on the part of the Senate.
Ayes, 5. Noes, none. Excused, 1 (Whalen).

Representatives Arakaki, Sonson, Kawakami, Finnegan.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 105 on S.B. No. 1420

The purpose of this measure is to ensure that mental health patients receive appropriate medication by:

- (1) Prohibiting the Department of Human Services (DHS) from restricting payment for access to psychotropic medication prescribed to the recipient by a licensed medical care provider;
- (2) Providing that an individual determined by a licensed medical care provider to be in need of emergency psychiatric or psychological service is presumed eligible for psychotropic medication prescribed by a licensed medical care provider until an eligibility decision is made by DHS, and that DHS must reimburse any costs for the medication and related physician services incurred during the presumptive eligibility period;
- (3) Removing the preauthorization restrictions for licensed medical care providers prescribing psychotropic medication to medicaid-eligible or presumed medicaid-eligible patients in need of emergency psychiatric or psychological service;
- (4) Establishing a task force to examine issues relating to psychotropic medication restrictions, and appropriating an unspecified sum for the task force's expenses; and
- (5) Appropriating unspecified sums for fiscal years 2005-2006 and 2006-2007 for DHS to provide unrestricted payment for and access to psychotropic medication.

Your Committee on Conference has amended this measure by:

- (1) Adding a findings and purpose section;
- (2) Providing that DHS shall not restrict psychotropic medication if it is prescribed by a licensed psychiatrist or by a licensed physician in consultation with a psychiatrist duly licensed in the State;
- (3) Requiring that the definition of psychotropic medication means only those agents approved by the U.S. Food and Drug Administration;
- (4) Specifying that these provisions do not apply to QUEST medical plans;
- (5) Deleting the section regarding presumptive eligibility for medical assistance for individuals in need of emergency psychiatric or psychological service;
- (6) Making the program a pilot project to be repealed on June 30, 2007;
- (7) Requiring DHS to submit a report to the Legislature including the number of prescriptions written pursuant to the measure, the cost and impact of psychiatrists or physicians prescribing medications that are not part of the existing formulary, and the overall utilization under chapter 356, Hawaii Revised Statutes; and
- (8) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1420, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1420, S.D. 2, H.D. 3, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Chun Oakland, Tsutsui, Taniguchi, Whalen.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

Representatives Arakaki, Sonson, B. Oshiro, Takamine, Green, Pine.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. No. 106 on S.B. No. 791

The purpose of this measure is to provide therapeutic and rehabilitative services in a residential setting and ensure that housing is available for individuals recovering from substance abuse by allowing the Department of Health to license special treatment facilities and therapeutic living programs.

Your Committee on Conference amended this measure by:

- (1) Providing that the amendments in this measure, including the repeal of section 46-15.39, Hawaii Revised Statutes (HRS), shall not apply to any halfway house, clean and sober home, or any other setting that assists individuals in transition to live independently that is in existence prior to the effective date of the measure;
- (2) Specifying that, notwithstanding the repeal of section 46-15.39, HRS, any drug rehabilitation home established pursuant to, or in compliance with, that section, shall continue to be a permitted use in residentially designated zones, including zones for single family dwellings; and
- (3) Amending the effective date of the measure to take effect upon its approval.

Your Committee on Conference finds that clean and sober homes provide a much-needed residential setting for people recovering from substance abuse. Although this measure repeals section 46-15.39, HRS, your Committee on Conference understands that the land use ordinance of the City and County of Honolulu currently exempts clean and sober homes with eight or fewer residents from obtaining a conditional use permit. While clean and sober homes with more than eight residents require a conditional use permit, your Committee urges the City and County of Honolulu to work cooperatively with such homes. Your Committee also requests the 2006 Legislature to revisit this issue next year.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 791, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 791, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Baker, Tsutsui, Chun Oakland, Hanabusa, Taniguchi, Trimble.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 2 (Taniguchi, Trimble).

Representatives Arakaki, Sonson, B. Oshiro, Kawakami, Stonebraker.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 107 on S.B. No. 807

The purpose of this measure is to adjust certain statutorily established salaries of various department heads, deputy department heads, and certain other administrative positions, including the:

- (1) Chief Election Officer;
- (2) Auditor and the Deputy Auditor;
- (3) Legislative Reference Bureau Director and the Director's First Assistant;
- (4) Chairperson of the Hawaii Labor Relations Board;
- (5) Ombudsman and the Ombudsman's First Assistant Ombudsman;
- (6) Administrator of the State Procurement Office;
- (7) Stadium Authority Manager and Deputy Manager;
- (8) Vice-Director of Civil Defense;
- (9) Deputy for Water Resource Management;

- (10) Executive Director and the Executive Director's Executive Assistant of the Housing and Community Development Corporation of Hawaii;
- (11) Public Utilities Commission Chairperson;
- (12) Recycling Coordinator;
- (13) Director of the Executive Office on Aging;
- (14) Chairperson of the Hawaii Paroling Authority;
- (15) Director of the Office of Veterans' Services;
- (16) Labor and Industrial Relations Appeals Board Chairperson;
- (17) Executive Director of the Office of Community Services;
- (18) Commissioner of Financial Institutions; and
- (19) State Public Defender.

Upon further consideration, your Committee on Conference has amended the measure by:

- (1) Deleting all sections relating to providing salary increases to the heads and their deputies or first assistants of the legislative service agencies;
- (2) Deleting the sections providing salary increases to the Deputy for Water Resource Management, the Executive Director and the Executive Director's Executive Assistant of the Housing and Community Development Corporation of Hawaii, and the Executive Director of the Office of Community Services;
- (3) Inserting appropriation sections that appropriate funds to pay for the salary increases;
- (4) Changing the effective date to July 1, 2005; and
- (5) Making technical nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 807, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 807, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Inouye, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Slom).

Representatives Caldwell, Shimabukuro, Takamine, Moses.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 108 on S.B. No. 960

The purpose of this measure is to appropriate funds for various tsunami preparedness efforts.

Specifically, the bill provides funds for:

- (1) Installing and maintaining new siren systems;
- (2) Updating evacuation maps in telephone books;
- (3) Constructing additional shelter space and retrofitting existing public buildings that could serve as emergency shelters;
- (4) Providing around-the-clock alert staff for the Civil Defense Division of the Department of Defense; and
- (5) Expanding the public education campaign to emphasize the need for tsunami preparedness.

Your Committee has amended the measure by expanding the scope of the bill to include any emergency related to a natural disaster. Specifically, the amendments:

- (1) Require the Department of Defense to develop Hawaii public shelter and residential safe room design criteria by January 1, 2006; provided that safe room prototype models are developed with public or private sector grants or investments;
- (2) Require the Department of Defense to coordinate the work involving retrofitting public buildings with appropriate government agencies;
- (3) Appropriate \$2,000,000 from the Hurricane Reserve Trust Fund for the 2005-2007 biennium to finance tsunami preparedness efforts and allowing the use of the funds to acquire federal matching funds;
- (4) Expand the definition of the term "wind resistive devices" to include safe rooms built pursuant to Department of Defense specifications;
- (5) Decrease the reimbursement rate for the installation of wind resistive devices from fifty to thirty-five per cent under the Loss Mitigation Grant Program and delete the reference to "inspection";
- (6) Allow the awarding of grants for residential safe rooms under the Loss Mitigation Grant Program;
- (7) Authorize the transfer of \$2,000,000 to the Loss Mitigation Grant Program through the Hurricane Reserve Trust Fund and the Loss Mitigation Grant Fund; and
- (8) Change the effective date of this measure to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 960, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 960, H.D. 1, C.D. 1.

Senators Inouye, Taniguchi, Espero, Tsutsui, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Whalen).

Representatives Ito, Tanaka, Chong, Stonebraker.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 109 on S.B. No. 669

The purpose of this measure is to authorize the Board of Agriculture to rent the animal quarantine property and facilities to third parties.

This measure also requires all revenues generated by the use or rental of the property or facilities to be deposited into the Animal Quarantine Special Fund and to be used to defray operational costs of the animal quarantine program, as well as minimize the animal quarantine fees.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that the property or facility will be leased or rented at fair market value;
- (2) Making technical, nonsubstantive changes for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 669, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 669, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 110 on S.B. No. 1451

The purpose of this measure is to appropriate funds to develop comprehensive strategies that establish broad water quality management goals for the entire Lake Wilson catchment consistent with comprehensive watershed management and to secure funding and coordinate the implementation of those comprehensive strategies.

Your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$250,000 for fiscal year 2005-2006 to develop the best strategies consistent with comprehensive watershed management to improve the water quality of Lake Wilson;
- (2) Deleting the 2006-2007 fiscal year appropriation for the coordination and implementation of the comprehensive watershed management pilot demonstration project; and
- (3) Making technical, nonsubstantive changes for consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1451, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1451, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Taniguchi, Hemmings.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Kanoho, Waters, Magaoay, Ching.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Ching).

Conf. Com. Rep. No. 111 on S.B. No. 1250

The purpose of this measure is to require the Board of Education to develop a classification and compensation plan for substitute teachers' pay commensurate with their educational training and academic qualifications.

Your Committee on Conference finds that the Legislature, in 1996, adopted Act 89, Session Laws of Hawaii 1996, and intended that substitute teachers be paid a specific per diem rate based on the annual entry salary step rate established for Class II teachers, with increases based on the most current teachers' salary schedule. In so doing, the Legislature intended that this single rate for substitute teachers would increase as licensed teachers' raises were negotiated, ensuring that the pay for substitute teachers would increase fairly over time.

Substitute teacher salaries has been an on-going sensitive issue, and this measure attempts to assist in its resolution. If this issue remains unresolved, it can negatively impact substitute teachers, the community-at-large, and most importantly, the students who depend on the substitute teachers. Thus, the following amendments were made:

- (1) Establishing that the minimum hourly or per diem rate shall be determined by the Legislature;
- (2) Requiring the Department of Education to develop a classification and compensation schedule;
- (3) Setting pro-rated rates for individuals in classes I, II, and III;
- (4) Appropriating \$500,000 for fiscal years 2006 and 2007;
- (5) Requiring the Department of Education to submit a report to the 2006 Legislature; and
- (6) Changing the effective date to July 1, 2005.

It is the intent of your Committee on Conference to strongly encourage the Department of Education to include no less than two representatives of substitute teachers in its development of the classification and compensation schedule for substitute teachers. As your Committee on Conference is concerned that all issues are properly addressed, the department is requested to ensure that their views are taken into consideration in the development of the schedule.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1250, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1250, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Sakamoto, Taniguchi, Hanabusa, Hogue.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Hogue).

Representatives Caldwell, Takumi, Takamine, Berg, Shimabukuro, Meyer.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. No. 112 on S.B. No. 682

The purpose of this bill is to improve tobacco regulation by:

- (1) Requiring businesses engaged in the retail sale of cigarettes and other tobacco products to obtain a retail tobacco permit from the Department of Taxation;
- (2) Requiring the payment of a fee for each retail tobacco permit;
- (3) Establishing criminal offenses for the retail sale of cigarettes and other tobacco products without a valid retail tobacco permit;
- (4) Providing that any cigarette or tobacco product unlawfully sold, possessed, kept, stored, acquired, distributed, or transported may be seized and ordered forfeited; and
- (5) Specifying that of the moneys collected from the issuance of retail tobacco permits that exceed the costs of administering the permit requirements:
 - (A) Fifty percent shall be appropriated to the John A. Burns School of Medicine; and
 - (B) Fifty percent shall be appropriated to the Department of Human Services for the Children's Health Insurance Program.

Your Committee on Conference has amended this measure by:

- (1) Changing the date that the tobacco retail permit is required from July 1, 2006 to December 1, 2006, and providing that the permit shall be valid from December 1 to November 30, renewable thereafter for the same period;
- (2) Establishing the permit fee amount to be \$20;
- (3) Changing the documentation that a permittee shall be required to keep to verify the accuracy of the payment of taxes imposed by the chapter;
- (4) Expanding the Department's authority to include the authority to renew the retail tobacco permit or license, or rescind an order of revocation after a hearing;
- (5) Including lesser penalties for the criminal offenses for the retail sale of cigarettes and other tobacco products without a valid retail tobacco permit;
- (6) Designating what determinations the Department shall make after a hearing;
- (7) Deleting the disposition of revenues amendment and including an appropriation from the tobacco enforcement special fund for the Department up to \$130,953 for fiscal year 2006-2007 to establish and administer the licensing and permitting of tobacco and cigarette sales, including the establishment of three additional permanent full-time positions; and
- (8) Making the effective date of the measure effective upon its approval and repealed on July 1, 2009, with appropriate reenactment language; provided that the appropriation sections shall take effect on July 1, 2006.

Your Committee on Conference requests that the 2006 Legislature consider adjusting the wholesale license fees in accordance with the amount being charged for the retail permits.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 682, S.D. 2, H.D. 3, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 682, S.D. 2, H.D. 3, C.D. 1.

Conf. Com. Rep. No. 113 on S.B. No. 802

The purpose of this measure is to establish a state pharmacy assistance program to provide continuing or new prescription drug benefits to eligible elderly and disabled residents, and to facilitate the enrollment and coordination of benefits between the state pharmacy assistance program and the new Medicare Part D drug benefit program provided by the federal Medicare Modernization Act.

This measure will assist Medicare and Medicaid eligible individuals to retain some of their current drug benefits and will also assist a number of Medicare eligible individuals in receiving new drug benefits that they would otherwise no longer receive when dual eligible individuals are required to participate in the federal Medicare Part D drug benefit program on January 1, 2006.

Your Committee on Conference amended this measure by:

- (1) Changing the eligibility requirement from a household income at or below one hundred fifty per cent of the federal poverty level to one hundred per cent of the federal poverty level;
- (2) Appropriating \$2,750,000 out of the state pharmacy assistance program special fund; and
- (3) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 802, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 802, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 114 on S.B. No. 27

The purpose of this measure is to appropriate funds for nonschool-hour programs for children and youth.

The Kapiolani Health System reports that over two thousand five hundred children are abused and neglected each year in Hawaii. The Kapiolani Child At-Risk Evaluation Program is dedicated to helping those children. Its mission is to provide comprehensive, coordinated, and compassionate forensic health services to children who are victims or suspected victims of abuse and neglect. The Kapiolani Child At-Risk Evaluation Program offers pre-placement medical evaluations and comprehensive health evaluations for children entering foster care, and forensic medical evaluations for children who are being investigated for allegations of abuse and neglect.

Your Committee on Conference has amended this measure by:

- (1) Clarifying the correct name of the recipient of the funds as the Kapiolani Medical Center for Women and Children;
- (2) Changing the chapter reference with regard to the authority for the funding; and
- (3) Inserting the appropriation amount of \$200,000 for fiscal year 2005-2006.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 27, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 27, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Chun Oakland, Tsutsui, Fukunaga, Ihara, Taniguchi, Trimble.

Managers on the part of the Senate.

Ayes, 5. Noes, none. Excused, 1 (Taniguchi).

Representatives Arakaki, Sonson, Kawakami, Pine.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 115 on S.B. No. 1816

The purpose of this measure is to reduce substance abuse among students by:

- (1) Clarifying student drug abuse assessment referrals;
- (2) Specifying that follow-up counseling and other student services must be provided to a child who has been assessed for a school substance abuse violation as not needing treatment for substance abuse or dependency;
- (3) Establishing a task force to study the process by which students are referred for substance abuse assessment and treatment; and
- (4) Appropriating funds for referrals for student substance abuse or dependency assessments.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation of funds for referrals for student substance abuse or dependency assessments;
- (2) Replacing subsection 302A-1134.6(f), Hawaii Revised Statutes (HRS), in its entirety with language that:
 - (A) Permits a child who is subject to the Department of Education's (DOE) disciplinary rules to be allowed to return to school earlier upon evidence that the child has completed a substance abuse assessment and is progressing toward clinical discharge from any substance abuse treatment or substance abuse counseling recommended by the assessment; and
 - (B) Permits a child who, according to the substance abuse assessment, does not need substance abuse treatment or counseling to return to school earlier if the child provides a certified copy of the assessment and the child's parent or legal guardian consents to the child receiving follow-up counseling or other student support services; and
- (3) Making the measure effective upon its approval; provided that the measure will sunset on June 30, 2006, and subsection 302A-1134.6(f), HRS, shall be reenacted in the form in which it read on the day before the approval of the measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1816, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1816, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Thielen).

Conf. Com. Rep. No. 116 on S.B. No. 1661

The purpose of this measure is to:

- (1) Require the conversion of principal positions to twelve-month status;
- (2) Appropriate funds for the continued implementation of the Department of Education's information systems and infrastructure; and
- (3) Establish time periods where a hearing must be requested by a parent or guardian or the department regarding the identification, evaluation, program, or placement of a child with a disability.

Your Committee on Conference finds that it is important to address the public education of children with disabilities. Issues surrounding these special needs students must be properly handled and every possible path to ensure their needs are provided should be developed. This measure addresses the administrative hearing process that determines a student's identification, evaluation, program, or placement due to their disability.

Upon further consideration, your Committee on Conference has made the following amendments:

- (1) Deleted the language referring to principals and the department's information systems and infrastructure;
- (2) Replaced references to handicapped children with children with a disability to reflect the federal language; and
- (3) Changed the effective date to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1661, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1661, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Representatives Takumi, Caldwell, Takamine, Yamashita, Finnegan.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 117 on S.B. No. 1394

The purpose of this measure is to implement a federal revenue maximization program for all medicaid-eligible claims for school health services with the assistance of the Department of Human Services and Department of Health.

Your Committee on Conference finds that the Department of Education provides important health services to school-aged children such as counseling, speech/language therapy, and mental health and other behavioral services. This measure would assist in ensuring that additional qualified federal funds are being utilized to provide these important services for the students.

Upon further consideration, your Committee on Conference has amended this measure to change the effective date to upon approval of the measure.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1394, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1394, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Hee, Taniguchi, Tsutsui, Hogue.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Hee).

Representatives Takumi, Waters, Takamine, Ching.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 118 on S.B. No. 1814

The purpose of this measure is to authorize the Department of Education to assess and collect impact fees as fair share contributions of developers for state public school facilities construction.

Your Committee on Conference finds that the Department of Education has been struggling with funding its various construction projects. Although there have been some advances in alleviating the number of the department's growing projects, other methods of funding are needed. An alternative approach to a funding mechanism would be authorizing the department to assess and collect impact fees by intergovernmental agreement with a county, as fair share contributions of developers for public school facilities construction.

Upon further consideration, your Committee on Conference replaced the measure's contents from authorizing the department to collect impact fees to creating a school impact fee working group to perform an overview of alternative financing methods for school construction. Further amendments include appropriating \$150,000 for the working group and correcting the effective date.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1814, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1814, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Kokubun, Taniguchi.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Kokubun).

Representatives Takumi, Herkes, Kanoho, Kahikina, Takamine, Evans, Halford.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Halford).

Conf. Com. Rep. No. 119 on S.B. No. 1643

The purpose of this measure is to make various clarifying amendments to the charter school statutes including the following:

- (1) Creating a Task Force on Charter School Governance;
- (2) Ensuring more equitable and stable funding for the basic operations of new century charter schools, including:
 - (a) Establishing and providing funding for a per pupil allocation funding mechanism;
 - (b) Requiring that funds be requested for fringe benefit costs and collective bargaining increases for charter school employee members of collective bargaining units;
 - (c) Allowing additional appropriations for workers' compensation benefits; and
 - (d) Providing charter schools with access to federal education funds;
- (3) Allowing charter school employees to participate in the State's workers' compensation system;

- (4) Ensuring compliance with federal regulations under the Individuals with Disabilities Education Act;
- (5) Clarifying administrative hearing procedures relating to the education of handicapped children; and
- (6) Appropriating funds for these various purposes.

Your Committee on Conference finds ambiguities and discrepancies in the current charter school statutes. This measure assists in resolving many of the problematic issues by clarifying statutory language. Some of these issues were brought to light in the Auditor's report regarding the Na Wai Ola Waters of Life Charter School audit, while other issues have become apparent when employees requested transfers between the Department of Education schools and new century charter schools.

It is the intention of your Committee on Conference to assist new century charter schools to achieve a more equitable and fair administrative structure to encourage their growth and assistance to the State in education.

Upon further consideration, your Committee on Conference has made the following amendments:

- (1) Clarifying the definitions for public schools and new century charter schools;
- (2) Replacing the authority over appointing a business community member to the new century charter school review panel from the executive director to the chairperson of the board of education;
- (3) Clarifying that new century charter schools are exempt from chapter 92;
- (4) Changing the authority and establishing the process of the Board of Education to conduct necessary evaluations and a probationary system;
- (5) Amending the definition of "organizational viability";
- (6) Requiring approval from the charter school administrative office for deductions to per-pupil allocations;
- (7) Clarifying the funding and appropriation process for new century charter schools;
- (8) Appropriating \$50,000 for the task force;
- (9) Appropriating \$1.2 million for fiscal year 2005-2006 and \$1.5 million for fiscal year 2006-2007;
- (10) Deleting language relating to the Individuals with Disabilities Act;
- (11) Changing the effective date; and
- (12) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1643, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1643, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 120 on S.B. No. 1780

The purpose of this measure is to continue to support the role of fathers in raising children by:

- (1) Extending the sunset date for the State Commission on Fatherhood (Commission) to June 30, 2007;
- (2) Transferring the Commission from the Office of the Lieutenant Governor to the Department of Human Services (DHS); and
- (3) Appropriating funds to carry out the purposes of the Commission.

This measure will provide the Commission with the support, funding, and additional time needed to fulfill its duties. This includes selecting a strategic plan; coordinating public award recognition of exemplary businesses with parent-friendly policies; raising public awareness on the impact of fatherhood on children; serving as a central clearinghouse and coordinating body for fatherhood activities

and services; identifying obstacles impeding the involvement of fathers with their children; and recommending policies and practices that promote and re-engage fathers in the lives of their children.

Your Committee on Conference has amended this measure by:

- (1) Deleting the appropriation;
- (2) Changing the effective date to upon approval and the effective date of the sunset to June 29, 2005; and
- (3) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1780, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1780, S.D. 2, H.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, 1 (Stonebraker).

Conf. Com. Rep. No. 121 on S.B. No. 1262

The purpose of this bill is to:

- (1) Place a moratorium on the issuance of state small boat harbor permits for ocean use activities until the boundaries of an ocean recreational management area from Kalaeloa Point to Kaena Point are determined and rules are adopted; and
- (2) Require the Department of Land and Natural Resources to prepare a baseline environmental study to assist in the drafting of ocean recreational management area rules for the aforementioned area.

The proliferation of commercial ocean recreation activities between Kalaeloa and Kaena Point has impacted longtime commercial and subsistence fishing activities and other traditional public uses of the area. Because the area may soon be unable to reasonably accommodate the number of activities and users, your Committee believes that a baseline environmental study leading to a plan and rules to govern ocean activities along the Waianae Coast is needed. Your Committee also finds that a moratorium on state small boat harbor or boating facility commercial permits for vessels engaged in ocean use activities in the area, pending adoption of boundaries and rules, is a reasonable response to the current situation. Permits issued prior to the moratorium will remain valid.

Your Committee on Conference has amended this measure by:

- (1) Placing the provisions in section 2, regarding the baseline environmental study and management plan and rules, in the session laws instead of codifying them in the Hawaii Revised Statutes;
- (2) Removing an appropriation clause;
- (3) Extending the date upon which the baseline environmental study shall be submitted to the Legislature to not later than twenty days prior to the convening of the Regular Session of 2007;
- (4) Changing the effective date to upon approval; and
- (5) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1262, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1262, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 122 on S.B. No. 1554

The purpose of this measure is to support the counties in addressing the problem of invasive species by permanently establishing the Environmental Workforce Program.

The environmental workforce program was established on an emergency basis to provide meaningful employment to residents of Hawaii who were negatively impacted by reduced work schedules or layoffs as a result of the September 11, 2001 national tragedy. The workforce's effectiveness in the control of invasive species and containment of dengue fever demonstrates why continuance of the program can assist the State in its ongoing fight against invasive species. The program will help attain both environmental and economic sustainability.

Your Committee has taken into account concerns raised by the Governor during the previous session regarding whether the environmental workforce program supports the Research Corporation of the University of Hawaii's (RCUH) goals of research and training programs, or whether the program would enhance research, development, and training for the public. Your Committee has added language to allow the RCUH to provide training and research opportunities in the biological or social sciences relevant to the problem of invasive species, thus providing a more explicit linkage between the environmental workforce program and the goals of the RCUH.

Your Committee on Conference has amended this measure by:

- (1) Providing that the State is responsible for funding unemployment claims for those hired under this program, and that the RCUH shall contribute the fringe cost charged to the appropriation for unemployment insurance;
- (2) Allowing the RCUH to provide training and research opportunities in the biological and social sciences related to the eradication of invasive species to the environmental workforce, and giving examples of appropriate training and research subject areas;
- (3) Clarifying that the Hawaii Invasive Species Council shall work with the RCUH to use the workforce effectively;
- (4) Deleting the appropriations section; and
- (5) Changing the effective date of the measure to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1554, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1554, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 123 on S.B. No. 1620

The purpose of this measure is to appropriate unspecified amounts of funds to assist various health and human services programs.

This measure makes various appropriations for health and humans services from the emergency budget and reserve fund:

- (1) As a temporary supplemental source of funding for the State during times of emergency, economic downturn, or unforeseen reduction in revenues, in accordance with section 328L-3, Hawaii Revised Statutes; and
- (2) Maintain levels of programs determined to be essential to public health, safety, welfare, and education;

Your Committee on Conference has amended this measure by deleting certain programs and services, adding certain essential services and programs, and extending the lapse date for all appropriations made pursuant to Act 45, Session Laws of Hawaii 2004 to June 30, 2007.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1620, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1620, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 124 on S.B. No. 212

The purpose of this bill is to provide a Deposit Beverage Container Redemption Center (Redemption Center) tax credit of up to \$50,000 per year for qualifying costs incurred and paid by an eligible taxpayer during the taxable year to purchase, lease, or operate a redemption center, to direct the Department of Health (DOH) to establish a grant program to provide a maximum grant of \$125,000 per organization to assist in developing redemption centers, and to appropriate funds out of the Deposit Beverage Container Deposit Special Fund (Special Fund) to support the tax credit and grant program.

Your Committee on Conference, upon careful consideration, has amended this bill by:

- (1) Replacing data in the legislative findings section with updated data;
- (2) Acknowledging in the findings section that another factor contributing to the low public participation rate in the redemption program is the lack of infrastructure supporting the overburdened certified redemption centers and recyclers;
- (3) Changing the purpose of the bill to provide a rebate for the cost of a reverse vending machine purchased by the dealer, and to authorize DOH to solicit requests for proposals to increase opportunities for redemption and improve the recycling infrastructure to handle the growth of the deposit beverage container program;
- (4) Replacing the tax credit and grant programs with a Reverse Vending Machine Rebate Program (Rebate Program) and Redemption Center and Recycling Infrastructure Improvement Program (Infrastructure Improvement Program) to be administered by DOH, and appropriating funds from the Special Fund to support these programs;
- (5) Requiring DOH to annually report to the Legislature on the Rebate Program and the Infrastructure Improvement Program;
- (6) Changing the effective date to upon its approval, subject to a repeal date of June 30, 2006, with certain exceptions; and
- (7) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 212, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 212, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 125 on S.B. No. 617

The purpose of this measure is to establish the Court Interpreting Services Revolving Fund to support court interpreting services program's educational services and program activities relating to the training, screening, testing, and certification of court interpreters.

Your Committee on Conference has amended this measure by:

- (1) Exempting the Court Interpreting Services Revolving Fund from the central service assessment as well as its pro rata share of administrative expenses for special funds; and
- (2) Appropriating \$100,000 from the Court Interpreting Services Revolving Fund for each year of the fiscal biennium.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 617, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 617, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 126 on S.B. No. 708

The purpose of this measure is to amend and clarify laws governing the registration of sex offenders and offenders against children and allowing the public to access information relating to those offenders.

Specifically, this measure:

- (1) Establishes separate registries for sex offenders and offenders against children;
- (2) Allows certain categories of offenders to petition the court in the civil proceeding for termination of registration requirements;
- (3) Establishes legal presumptions, based on the offense, that are to be applied in these civil proceedings;
- (4) Provides that a covered offender who is a sexually violent predator, aggravated sex offender, or repeat covered offender may petition a court in a civil proceeding to terminate registration requirements if the offender has substantially complied with registration requirements for a period of forty years;
- (5) Clarifies that the standard of proof applicable to a covered offender petitioning the court for termination of public access to registration information is a preponderance of the evidence;
- (6) Provides that a denial by a court of a petition to terminate public access to registration information precludes the filing of another petition for five years from the date of the last denial;
- (7) Clarifies the scope and type of offender registration information and permitted disclosures of this information; and
- (8) Appropriates \$1 for fiscal year 2005-2006, for state and county agencies to hire necessary staff to implement these provisions.

Your Committee on Conference has amended this measure by:

- (1) Requiring sexually violent predators, repeat covered offenders, and aggravated sex offenders to comply with registration requirements for life;
- (2) Clarifying that the time periods provided for registration and public access are tolled during any period of time that the covered offender is committed or recommitted to prison or confined to a halfway house or an equivalent facility pursuant to a parole or probation violation;
- (3) Requiring a court to make a determination as to whether a covered offender is a sexually violent predator if a petition requesting termination of registration requirements is filed;
- (4) Deleting the appropriation for state and county agencies; and
- (5) Making technical, non-substantive amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 708, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 708, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 127 on S.B. No. 813

The purpose of this measure is to amend the law relating to the use of unemployment trust fund moneys to conform to P.L. 107-147, the Temporary Extended Unemployment Compensation Act of 2002, because the requirements for Reed Act funds distributed in 2002 differ from those of prior special Reed Act distributions.

Additionally, this measure appropriates \$10,000,000 from the unemployment insurance trust fund in each fiscal year of the 2005-2007 biennium to improve the services of the unemployment insurance and workforce development divisions of the Department of Labor and Industrial Relations; provided that:

- (1) \$6,000,000 be allocated to the four county workforce investment boards for, among other things, employer outreach services, labor force pool expansion, and capacity building; and

- (2) \$1,000,000 be allocated to Leeward Community College for education and job training for immigrants from the Freely Associated States pursuant to the workforce development program established under Act 225, Session Laws of Hawaii 2004.

In 2002, the Department of Labor and Industrial Relations received approximately \$31,000,000 in federal Reed Act funds. These funds have been placed within the unemployment trust fund, which can be utilized for the payment of benefits and expenses incurred for the administration of the unemployment compensation laws, as well as for public employment offices. Your Committee further finds that Reed Act distributions made prior to P.L. 107-147 were restricted to unemployment insurance administration purposes only. Additionally, under section 303(a)(8) of the Social Security Act, state laws must include provisions for the expenditure of all moneys. Therefore, the current law must be amended to allow for the utilization of the 2002 Reed Act funds.

Furthermore, the utilization of these funds is necessary not only to improve the State's automated unemployment insurance and workforce development division services, but also to address the specific needs of the local workforce investment boards of the four counties. Moreover, immigrants from the Freely Associated States and residents of Hamakua, Waimea, Kohala, and Waikoloa should also benefit from these funds through the provision of services under the Wagner-Peyser Act.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that the Reed Act funds are appropriated to provide seed money to the Department of Labor and Industrial Relations to be used in consultation with the local workforce investment boards to plan, develop, and implement a computer system to benefit workforce development activities and programs operated by the counties;
- (2) Clarifying that the Oahu workforce investment board shall partner with Leeward Community College to provide federal Wagner-Peyser services for immigrants from the Freely Associated States, pursuant to the workforce development program established under Act 225, Session Laws of Hawaii 2004;
- (3) Providing that of the \$10,000,000 appropriation in each fiscal year of the 2005-2007 biennium, the sum of:
 - (A) \$4,795,000 shall be allocated to the Honolulu workforce investment board; provided that it will partner with Leeward Community College to provide federal Wagner-Peyser services to immigrants from the Freely Associated States;
 - (B) \$1,252,775 shall be allocated to the Maui workforce investment board;
 - (C) \$1,000,000 shall be allocated to the Kauai workforce investment board;
 - (D) \$1,650,000 shall be allocated to the Hawaii workforce investment board; provided that it shall partner with the Department of Labor and Industrial Relations to provide Wagner-Peyser services for the eradication of coqui frogs and other invasive species and to serve the residents of Hamakua, Waimea, Kohala, and Waikoloa; and
 - (E) \$1,302,225 shall be allocated to the Department of Labor and Industrial Relations to be used in consultation with the local workforce investment boards to plan, develop, and implement a computer system to benefit workforce development activities and programs operated by the counties;
- (4) Clarifying that the funds appropriated to the county workforce investment boards are to be used to improve employer outreach and services, labor force pool expansion, capacity building, and to fund some shared costs for the operations of the one-stop career centers within each county;
- (5) Requiring that no funds appropriated under the Act shall be released by the Governor to the Department of Labor and Industrial Relations until all funds appropriated for the counties have been so released;
- (6) Providing that the appropriation of funds are not subject to the allotment system powers under part II of chapter 37, Hawaii Revised Statutes;
- (7) Requiring the Department of Labor and Industrial Relations to report to the Legislature on the status of the timely release of funds appropriated under the Act to the counties; and
- (8) Changing the effective date of the act from July 1, 2010 to be effective upon its approval; provided that the appropriation in section 3 shall take effect on July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 813, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 813, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Caldwell, Takamine, Shimabukuro, Meyer.
Managers on the part of the House.

Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 128 on S.B. No. 935

As received, this measure redefined the definition of “public works” to also include projects funded through the issuance of special purpose revenue bonds.

Accordingly, the effect of the measure as received was to have the wages and hours laws governing public works apply as well to projects funded through special purpose revenue bonds.

Your Committee has amended the measure to clarify its intent by further specifying that the projects that are subject to the wage and hours law are those projects whose special purpose bonds are legislatively authorized after January 1, 2006 and whose contract amounts exceeds \$2,000. Furthermore, your Committee has amended this measure by specifying that the wage and hours law is not applicable to home improvements.

Your Committee has also clarified the intent of the measure by adding language: that expressly requires parties to the public works project to pay prevailing wages to the laborers and mechanics working on the project; and requires the Department of Accounting and General Services to collect and maintain certified copies of all payrolls for a special purpose revenue bonds funded project.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 935, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 935, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Inouye, Taniguchi.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Inouye).

Representatives Herkes, Caldwell, Takamine, Shimabukuro, Halford.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, none.

Conf. Com. Rep. No. 129 on S.B. No. 962

The purpose of this measure is to provide for the manner in which the prevailing wages for laborers and mechanics on public works and indirect public works projects is to be established.

Currently, the determination of prevailing wages is the responsibility of the Director of Labor and Industrial Relations with a formula and guidelines for such determination established in the administrative rules. In order to provide clear guidance on the determination of prevailing wages, your Committee on Conference determines that codification of these rules is necessary and appropriate.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the section that establishes a category of construction contracts for “indirect public works projects”, provides for a system for prevailing wages certification, and establishes monitoring and compliance procedures;
- (2) Restoring subsection 104-2(a), Hawaii Revised Statutes, to continue to require application of chapter 104, Hawaii Revised Statutes, to public work projects in excess of \$2,000, to which a governmental contracting agency is a party;
- (3) Restoring within subsection 104-2(a), Hawaii Revised Statutes, the deleted definitions for the terms “contract”; “governmental contracting agency”; “party”; and “public work”;
- (4) Deleting language from section 104-2, Hawaii Revised Statutes, that refers to the application of the section to every “public works or indirect public works project”;
- (5) Clarifying within subsection 104-2(b), Hawaii Revised Statutes, that within the determination of prevailing wages, the director shall regard as prevailing the rate of wages paid to the greatest number of those employed in the State in corresponding classes of laborers and mechanics, or what is commonly referred to as the “modal rate”;
- (6) Deleting the newly created subsection 104-2(g), Hawaii Revised Statutes, which defined the terms “contract”; “governmental contracting agency”; “indirect public works project”; “party”; and “public works project”; and
- (7) Deleting the savings clause provisions.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 962, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 962, S.D. 2, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Hanabusa, Inouye, Taniguchi.
Managers on the part of the Senate.

Conf. Com. Rep. No. 130 on S.B. No. 1808

The purpose of this measure is to protect the balance created by legislation between the interests of injured workers and their employers and carriers, and to protect the integrity of the separation of powers between the Legislature and the Executive Branch. The measure also amends certain provisions for further refinement of the law and the system.

Your Committee on Conference determines that, to achieve a balance of interests, the law, under the current administrative rules regarding the disability compensation division, embodies the balance intended by the Legislature and should be maintained through codification.

Our State Constitution mandates that the Legislature drafts the laws to establish policies governing the people of Hawaii. Any delegation of our legislative powers to the Executive Branch for rulemaking is administrative in nature and does not give the Executive Branch the power to make or change the laws through rulemaking. (*See 1 Am. Jur. 2d, Administrative Laws, §132 (1962)*). In the area of workers' compensation, the Legislature has balanced the interest of society to return injured workers to gainful employment in the workplace and the interest of the injured worker and the employer.

Last year, the Administration proposed an omnibus bill to reform the State's workers' compensation system, purporting to reduce the average cost of workers' compensation premiums. By seeking the enactment of the Workers' Compensation Omnibus Bill during the Regular Session of 2004, the Administration implicitly recognized that without changes in chapter 386, Hawaii Revised Statutes (HRS), the Executive Branch lacked sufficient authority to implement policy changes in the foregoing areas. Lawmakers found that the omnibus bill would disrupt the balance achieved in the existing statutes and rules and rejected the omnibus bill resoundingly. Despite the Legislature having made clear the balance achieved by the existing law and rules, the Director of Labor and Industrial Relations sent to the Governor for approval amendments to the administrative rules that, through rulemaking in 2005, would achieve what it could not achieve during the 2004 and 2005 legislative session.

The proposed changes to the Hawaii Administrative Rules (HAR) on workers' compensation, if adopted by the Governor, would represent substantial changes in the law regarding compensability, medical care and treatment, and other benefits, and create formalized contested-case procedures for initiating and handling claims that shifts and increases costs to the claimant and the employer. The proposed rule changes would constitute a substantial departure from the legislative purpose and intent as is now found in chapter 386, HRS, and the existing administrative rules. Furthermore, the Administration has given every indication that it intends to cut workers' rights and benefits retroactively by applying the proposed rules to all claims regardless of when the claims were filed.

Your Committee on Conference believes this action by the Administration, seeking to significantly change HAR §§12-10-1 et seq. and 12-15-1 et seq., represents a usurpation of legislative authority. In a democratic system, the role of formulating policy is reserved exclusively for those in the Legislative Branch. (*See Sherman v. Sawyer*, 63 Haw. 55, 621 P.2d 349 (1980) ("Legislative power" is defined as power to enact laws and to declare what law shall be.)). Under the separation of powers doctrine, the authority of the executive branch is restricted to executing and applying the laws enacted by the Legislature.

The Administration's proposed changes to the administrative rules as sent to the Governor April 25, 2005, usurps legislative authority and are proposed at a time of conflicting economic indicators that contradict the need for promulgating procedures in violation of existing law. In October 2004, the Insurance Commissioner approved a proposed change in workers' compensation loss costs that realized a three percent decrease in loss costs, associated with medical costs, disability benefit payments, vocational and other rehabilitation costs, and survivor benefits.

Specifically, the amendments to the administrative rules relating to workers' compensation, as submitted to the Governor on April 25, 2005, are in direct conflict with existing statutory law, rules, policies, and case law on workers' compensation as shown by the following examples:

- (1) The Legislature specifically rejected a broad exclusion of stress claims under workers' compensation in 1998 when it limited the exclusion to mental stress claims arising solely from disciplinary action. (Section 386-3(c), HRS. *See* Act 224, SLH 1998). The legislative intent was recognized by the Intermediate Court of Appeals in *Davenport v. City and County of Honolulu*, 100 Haw. 297 (2002), and by the Hawaii Supreme Court in affirming the appellate court at 100 Haw. 481. The Administration now seeks to define "disciplinary action" to include what are essentially non-disciplinary, personnel matters. *See* proposed change to section 12-10-1, HAR (definition of "disciplinary action" includes action where "no sanction or punishment is ultimately imposed.")). The proposed change would result in stress injury claims intended by the law to be compensable to be improperly excluded from workers' compensation coverage;
- (2) An injured worker is entitled to temporary disability benefits (TTD) so long as the worker is unable to resume work. (Section 386-31(b), HRS). The commercial guidelines on medical treatment adopted in the amended rules sent by the Director to the Governor establish "presumptive" effect under the amendments (*see* proposed change to sections 12-15-30(d) and 12-15-32, HAR) and those guidelines address not just medical care but the number of lost work days an injured worker would be limited to because of the injury. The current law provides no presumption for how long an employee can remain out on TTD before

being “able to resume work” and properly leaves that determination to the attending physician, with the right of the Employer to object (*See* section 386-85, HRS);

- (3) The Legislature provided authority to the Director to issue guidelines on health care and services. (Section 386-26, HRS). That authority was not without restrictions. The Director was limited to guidelines related to the frequency of treatment and for reasonable use of medical care and services that are considered necessary and appropriate under the statute. (Section 386-26, HRS). As defined by the Merriam-Webster dictionary, a guideline is an indication or outline of policy or conduct. It is something that serves as a guide or an example. (*American Heritage Dictionary of the English Language*). The amendments to the rules as submitted to the Governor propose to turn the guidelines from suggestive and informative to a “presumptive” guide in determining reasonableness of care. (*See* proposed change to section 12-15-32, HAR). The scope of treatment would be prescribed by an out-of-state, commercial organization’s publication and the medical provider would have to rebut the presumption by obtaining another national guidelines standard that supported his or her recommended regime of reasonable medical treatment. (*See* proposed changes to sections 12-15-30(d) and 12-15-32, HAR). The legislature has not allowed for such a presumption under section 386-85, HRS, and intended that medical treatment be assessed as whether it is reasonably related to the nature of the injury under section 386-21, HRS. Medical practitioners are already overworked and struggling to meet the paperwork requirements for handling workers’ compensation cases. The rules as submitted to the governor requiring additional justification of any treatment that deviates from a national standard will only reduce the pool of medical providers willing to accept workers’ compensation cases. In 1996, the Legislature deleted the requirement that the Director approve treatments (up to ten additional treatments) after the initial five treatments. (Act 260, section 3, Session Laws of Hawaii 1996). The effect of the 1996 legislative change was to provide more flexibility in treating the claimant. The Administration’s proposal to impose mandatory, presumptively valid commercial guidelines is contrary to the legislative intent on medical treatment guidelines and the general intent to require the employer to provide all medical care, service, and supplies “as the nature of the injury requires.” (Section 386-21, HRS);
- (4) The Legislature intended that all processing of claims at the Disability Compensation Division (DCD) level and proceedings before the Director be informal, not contested case hearings under chapter 91, HRS. To the degree possible, this allows claimants and adjusters to represent themselves at the DCD level. For that reason, the Labor and Industrial Relations Appeals Board was given de novo review on any appeal. (Section 386-87, HRS). The administrative rules until now have been consistent with this intent by barring discovery procedures typically associated at the appeals board level and civil litigation and only allowing the discovery with approval by the Director upon showing of good cause. (Sections 12-10-65 to 12-10-67, HAR). The Administration seeks formal discovery and hearing procedures that impose waivers of statutory rights if the claimant fails to comply with the procedures. (*See* proposed changes to sections 12-10-65 and 12-10-72.1, HAR). Such procedural requirements necessitate that the claimant seek legal representation in any dispute with the employer that requires a hearing. These proposed changes which seek to establish contested hearing type cases at the DCD level are in conflict with the legislative intent of an informal process at the DCD level;
- (5) The Legislature requires the Director to conduct a hearing on any dispute between the claimant and the employer. (Section 386-86, HRS, decisions to be rendered after a hearing). The Administration proposes the use of summary judgment which would deny the parties a right to a hearing. (*See* proposed changes to section 12-10-72.1, HAR). The proposed use of alternative dispute resolution (ADR) or mediation could also preclude a hearing, and would impose waivers of statutory rights if the claimant enters into some form of ADR or mediation. (*See* proposed changes to section 12-10-66, HAR). The proposed rule also increases the cost to the claimant and employer who must share the cost of the arbitrator or mediator in conflict with the intent of the statute;
- (6) The Legislature provided presumptions in the law to minimize challenges to benefits while providing provisions elsewhere in the statute to minimize the employer’s exposure to liability. (Compare section 386-85 with sections 386-5 and 386-8, HRS). The Legislature did not intend to create any other presumptions through arbitrarily shifting the burden of proof to one party or the other. The party or parties who must bear the burden of proof are to be determined by law consistent with the purpose of the statute. The amendments to the administrative rules as sent to the Governor propose to arbitrarily assign the burden to the party requesting the hearing. (*See* proposed change to section 12-10-72.1, HAR). Because the employer can withhold or deny benefits, the claimant will always be the party requesting a hearing and, therefore, will always be required to carry the burden of proof at a hearing. This improperly shifts the balance created by the Legislature between the interests of the different parties to a workers’ compensation claim; and
- (7) The Legislature provided for employers to become self-insured if they satisfied certain safeguards under the law. (*See* section 386-121, HRS). The Legislature finds the changes proposed by the Director (*see* proposed changes to section 12-10-94, HAR), are overly restrictive and will deter otherwise solvent, adequately financed employers from qualifying for self-insurance. It is the intent of the Legislature to give employers options in how they secure compensation to their employees for workers’ compensation injuries. The proposed changes restrictively limit those options.

Initially the Administration also proposed changes to the HAR on vocational rehabilitation services. Those changes would have dramatically changed the services provided to injured workers seeking return to work or new employment depending on the extent of the disability from the injury. While the Department of Labor and Industrial Relations has withdrawn the proposed amendments to the vocational rehabilitation rules in the amended rules sent to the Governor, it intends to hold hearings later in 2005 on proposed amendments to the HAR on vocational rehabilitation. The Legislature remains concerned that the existing procedures that balance the interest of all parties could still be dramatically changed before the next session.

Where the Administration exceeds the boundaries of executive powers and encroaches upon legislative prerogatives, the Legislature must protect its constitutional charge to create the laws, pursuant to the “separation of powers” doctrine and its assignment of this function by the Constitution of the State of Hawaii. This measure guards the Legislature’s authority in making the law and setting the policies by:

- (1) Codifying the existing administrative rules that reflect the purpose and intent of the Legislature in enacting chapter 386, HRS; and
- (2) Assuring that the Administration does not usurp the authority of the Legislature to create laws, by limiting the Director's rulemaking authority.

Your Committee on Conference finds that this bill, by incorporating into chapter 386, HRS, the substantive definitions, standards, criteria, and policies in effect on January 1, 2005, under currently existing rules, policies, and case law in the relevant substantive areas, will preserve and protect the prerogative of the Legislative Branch of government and prevent the abuse of power.

However, your Committee on Conference further finds that flexibility is required to allow the Director to adjust the amount medical providers can charge for their treatment. Therefore, your Committee on Conference has amended this measure to allow the Director limited power to annually update in the medical fee schedules the amount paid to medical providers as provided in section 386-21(c), HRS.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1808, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1808, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 132 on H.B. No. 168

The purpose of this bill is to promote Hawaii's agricultural industry by appropriating an unspecified amount of funds for the Hawaii Farm Bureau Federation to conduct agricultural research and market development.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation of \$500,000 for fiscal year 2005-2006;
- (2) Deleting the appropriation for fiscal year 2006-2007;
- (3) Changing the effective date of this measure to July 1, 2005; and
- (4) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 168, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 168, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 134 on H.B. No. 1614

The purpose of this bill is to protect the employment rights of public employees by ensuring that civil service employees of the newly established Department of Education Civil Service Personnel System shall have the same benefits and rights of civil service employees employed by other executive agencies.

Your Committee on Conference has amended this measure by:

- (1) Clarifying that transfer of benefits and rights:
 - (a) Does not apply to exempt civil service employees; and
 - (b) Include benefits and rights relating to promotions.
- (2) Inserting language that clarifies that if a collective bargaining agreement does not cover pay adjustments and other adjustments necessary to effectuate the movement of personnel between the two jurisdictions, then these adjustments shall be subject to rules, policies, and procedures established by each respective director.
- (3) Changing the effective date to upon its approval;
- (4) Adding a sunset date of June 30, 2009; and
- (5) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1614, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1614, H.D. 1, S.D. 2, C.D. 1.

Ayes, 3. Noes, none. Excused, 2 (Tsutsui, Whalen).

Representatives Caldwell, Takumi, Nakasone, Berg, Pine.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Pine).

Conf. Com. Rep. No. 135 on H.B. No. 109

The purpose of this bill is to support efforts to create more rural districts by:

- (1) Allowing the counties to work with the Land Use Commission to develop policy and recommend boundary amendments to expand and enhance the use of rural districts;
- (2) Authorizing the convening of an advisory group to redefine rural districts; and
- (3) Appropriating an unspecified sum to accomplish these purposes.

Upon further consideration, your Committee on Conference has amended this bill by creating a new Part that clarifies the permitted uses in the agricultural and rural land use districts. Specifically, this Part amends the land use law by:

- (1) Including golf courses, golf driving ranges, and golf-related facilities as allowable activities within the rural district; and
- (2) Prohibiting golf courses and golf driving ranges within the agricultural district; provided that golf courses and golf driving ranges approved by a county before July 1, 2005, for development within the agricultural district shall be permitted uses within the agricultural district.

Your Committee on Conference has further amended this bill by:

- (1) Inserting the sum of \$50,000 for fiscal year 2005-2006 for a study relating to enhancing the use of rural districts; and
- (2) Making technical, nonsubstantive amendments for clarity and style.

Finally, it is the intent of your Committee on Conference that section 205-4.5(d), Hawaii Revised Statutes, also applies to golf-related facilities as a permitted use within the agricultural district if approved by a county before July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 109, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 109, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Hanabusa, Taniguchi, Hemmings.

Managers on the part of the House.
Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. No. 136 on H.B. No. 841

The purpose of this bill is to make various amendments and appropriations to improve public education in the State. Among other things, this bill:

- (1) Assists the continued implementation of Act 51, Session Laws of Hawaii 2004, the Reinventing Education Act of 2004, by:
 - (a) Requiring the Department of Education (DOE) to take immediate steps to convert principal positions to 12-month status; and
 - (b) Appropriating funds, including funds to support information systems, additional personnel;
- (2) Establishes and appropriates funds for a grant program to encourage civic responsibility education in public schools;
- (3) Appropriates funds to purchase social studies and science textbooks;
- (4) Appropriates funds for a new research-based curriculum throughout the public school system to develop the critical and creative thinking skills of students;
- (5) Improves the composition of the Workforce Development Council;
- (6) Appropriates funds for job training and education programs at DOE;
- (7) Allows DOE volunteers to participate in the Employer-Union Health Benefits Trust Fund; and

- (8) Appropriates funds for a volunteer coordinator position in DOE.

Your Committee on Conference has amended this bill by:

- (1) Removing the requirement that DOE take immediate steps to convert principal positions to 12-month status;
- (2) Appropriating \$1,000,000 for fiscal years 2005-2006 and 2006-2007, to:
 - (a) Subsidize information systems projects;
 - (b) Provide for additional support personnel and training and additional data processing systems analysts; and
 - (c) Continue the implementation of Act 51;
- (3) Deleting the provisions relating to the establishment of a grant program to encourage civic responsibility education in public schools;
- (4) Deleting the appropriation of funds for the purchase of social studies and science textbooks;
- (5) Deleting the provisions relating to the establishment of a new research-based curriculum throughout the public school system;
- (6) Deleting the appropriation of funds for job training and education programs at DOE;
- (7) Deleting the provisions allowing DOE volunteers to participate in the Employer-Union Health Benefits Trust Fund;
- (8) Deleting the appropriation of funds for a volunteer coordinator position in DOE; and
- (9) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 841, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 841, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Kanno, Taniguchi, Tsutsui, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 2 (Kanno, Tsutsui).

Representatives Takumi, Caldwell, Chong, Karamatsu, Ching.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, 1 (Karamatsu).

Conf. Com. Rep. No. 137 on H.B. No. 1556

The purpose of this bill is to support business in the state by authorizing the issuance of special purpose revenue bonds (SPRB) to assist PLK Air Services Group LLC, in planning, designing, constructing, equipping, and furnishing a Kona coffee and macadamia manufacturing facility and air cargo logistics and fulfillment center at Kona International Airport.

Your Committee on Conference has amended this measure by:

- (1) Specifying that the Department of Budget and Finance is authorized to issue, in one or more series, SPRBs in a total amount not to exceed \$25,000,000; and
- (2) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1556, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1556, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Inouye, Kokubun, Taniguchi, Espero, Whalen.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

Representatives Souki, Abinsay, Evans, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Moses).

Conf. Com. Rep. No. 138 on H.B. No. 631

The purpose of this bill is to clarify and correct the language of various Employees' Retirement System (ERS) statutes and conform ERS statutes to current practices. Among other things, this bill:

- (1) Requires the ERS to comply with federal income tax limits on compensation in determining ordinary death benefits;
- (2) Specifies which appointed county positions qualify for contributory plan membership;
- (3) Allows death benefits to be paid consistent with the employee's actual eligibility for those benefits;
- (4) Allows the ERS to calculate a retiree's pension based on the benefit formula at the time of retirement rather than at the time of separation from service;
- (5) Prohibits investigators of the prosecuting attorney and corrections officers not making an election to become a class C member from electing to become a class H member;
- (6) Requires the counties to remit employer contributions to the ERS on a monthly basis rather than semiannually;
- (7) Specifies that the cost to convert noncontributory plan service to hybrid plan service will be based on the member's age in full years and the member's basic rate of pay as of June 30, 2006; and
- (8) Eliminates the deadline for claiming and purchasing hybrid plan membership service credit and allows the acquisition of qualifying service credit at any time prior to retirement to be consistent with current contributory plan procedures.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 631, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 631, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Caldwell, Nakasone, Meyer.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 139 on H.B. No. 1528

The purpose of this bill is to adjust the salaries of the following positions:

- (1) Chief Election Officer;
- (2) Auditor;
- (3) First Assistant or First Deputy of the Auditor;
- (4) Director of the Legislative Reference Bureau (LRB);
- (5) First Assistant to the Director of LRB;
- (6) Executive Director of the State Ethics Commission;
- (7) Chairperson of the Hawaii Labor Relations Board;
- (8) Ombudsman;
- (9) First Assistant to the Ombudsman;
- (10) Administrator of the State Procurement Office;
- (11) Manager and Deputy Manager of the Stadium Authority;
- (12) Vice-Director of Civil Defense;
- (13) First Deputy to the Chairperson of the Commission on Water Resource Management;

- (14) Executive Director and Executive Assistant of the Housing and Community Development Corporation of Hawaii;
- (15) Chairperson of the Public Utilities Commission;
- (16) Recycling Coordinator of the Office of Solid Waste Management;
- (17) Director of the Executive Office on Aging;
- (18) Chairperson of the Hawaii Paroling Authority;
- (19) Director of the Office of Veterans' Services;
- (20) Chairperson of the Labor and Industrial Relations Appeal Board;
- (21) Executive Director of the Office of Community Services;
- (22) Commissioner of Financial Institutions; and
- (23) The State Public Defender.

Upon careful consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the salary adjustments for all positions except for the following:
 - (A) Auditor;
 - (B) First Assistant or First Deputy of the Auditor;
 - (C) Director of the LRB;
 - (D) First Assistant to the Director of LRB;
 - (E) Executive Director of the State Ethics Commission;
 - (F) Ombudsman; and
 - (G) The First Assistant to the Ombudsman;
- (2) Changing the salary adjustment for the:
 - (A) Auditor by making the Auditor's salary the same as the salary of the Director of Health;
 - (B) First Assistant or First Deputy to the Auditor by limiting the salary of the First Assistant or First Deputy to 87 percent of the Auditor's salary;
 - (C) Director of LRB by making the Director's salary the same as the salary of the Director of Health;
 - (D) First Assistant to the Director of LRB by limiting the salary of the First Assistant to 87 percent of the salary of the Director of LRB;
 - (E) Executive Director of the State Ethics Commission by making the Executive Director's salary the same as the salary of the Director of Health;
 - (F) Ombudsman by making the Ombudsman's salary the same as the salary of the Director of Health; and
 - (G) First Assistant to the Ombudsman by limiting the salary of the First Assistant to 87 percent of the salary of the Ombudsman;
- (3) Deleting the severability clause;
- (4) Appropriating funds for salary increases and other cost adjustments attributable to collective bargaining for officers and employees of legislative agencies excluded from collective bargaining for fiscal year 2005-2006, as follows:
 - (A) State Ethics Commission, \$25,087;
 - (B) Office of the Auditor, \$61,035;
 - (C) Office of the LRB, \$74,749; and
 - (D) Office of the Ombudsman, \$25,802;

and

- (5) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1528, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1528, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Inouye, Slom.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Slom).

Representatives Caldwell, Nakasone, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 140 on H.B. No. 1608

The purpose of this bill is to authorize teachers and other Department of Education personnel belonging to collective bargaining unit (5) to provide health benefits to its members through a three-year pilot program allowing for the establishment of Voluntary Employees Beneficiary Association (VEBA) Trust instead of through the Employer-Union Health Benefits Trust Fund (EUTF).

Your Committee on Conference has amended this measure by:

- (1) Allowing any collective bargaining unit to establish its own VEBA Trust by deleting the provisions limiting the establishment of VEBA Trusts to collective bargaining unit (5);
- (2) Inserting language clarifying fiduciary and various other responsibilities of VEBA Trusts created by this Act, specifically to address concerns raised with regards to requirements of the Employee Retirement Income Security Act of 1974;
- (3) Changing the effective date to upon its approval; and
- (4) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1608, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1608, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Fukunaga, Hemmings.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Takumi, Caldwell, Takamine, Ching.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 141 on H.B. No. 260

The purpose of this bill is to fund all collective bargaining cost items negotiated for state employees in collective bargaining unit (11), and salary increases and other cost adjustments for their excluded counterparts.

On March 24, 2005, pursuant to section 89-11(g), Hawaii Revised Statutes, the Governor transmitted proposed legislation to the Legislature containing all items requiring moneys for implementation, which are subject to appropriation.

Your Committee on Conference has amended this measure by making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 260, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 260, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Caldwell, Takamine, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 142 on H.B. No. 263

The purpose of this bill is to fund collective bargaining cost items in the agreements negotiated with collective bargaining units (2), (3), (4), (6), (8), (9), and (13) and salary increases and other cost adjustments for their excluded counterparts.

On April 21, 2005, pursuant to section 89-11(g), Hawaii Revised Statutes, the Governor transmitted proposed legislation to the Legislature containing all items requiring moneys for implementation, which are subject to appropriation.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Removing references to collective bargaining unit (9);
- (2) Inserting specific appropriation amounts to fund cost items negotiated with collective bargaining units (2), (3), (4), (6), (8), and (13) of the Executive Branch, Judicial Branch, and Hawaii Health Systems Corporation and their excluded counterparts for fiscal biennium 2005-2007; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 263, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 263, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Caldwell, Takamine, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 143 on H.B. No. 1597

The purpose of this bill is to fund collective bargaining cost items relating to contributions to the Employer-Union Health Benefits Trust Fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (9) and their excluded counterparts.

On March 24, 2005, pursuant to section 89-11(g), Hawaii Revised Statutes, the Governor transmitted proposed legislation to the Legislature containing all items requiring moneys for implementation, which are subject to appropriation.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Including all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (9), including salary increases and other cost adjustments;
- (2) Adding cost items for officers and employees assigned to the Hawaii Health Systems Corporation who are excluded from collective bargaining; and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1597, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1597, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, none.

Representatives Caldwell, Takamine, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 144 on H.B. No. 1599

The purpose of this bill is to fund collective bargaining cost items relating to contributions to the Employer-Union Health Benefits Trust Fund (EUTF) in the agreement negotiated with the exclusive bargaining representative of collective bargaining units (2), (3), (4), (6), (8), and (13) and salary increases and other cost adjustments for their excluded counterparts.

On April 21, 2005, pursuant to section 89-11(g), HRS, the Governor transmitted proposed legislation to the Legislature containing all items requiring moneys for implementation that are subject to appropriation.

Along with this proposed legislation, the Governor transmitted a memorandum stating that the parties have not yet reached an agreement with respect to the amounts of contributions to the EUTF and that it appeared unlikely that the parties would reach an agreement in accordance with the timetable established pursuant to section 89-11(g), HRS. In accordance with section 89-11(g), HRS, the Governor submitted recommendations for action to fund the costs of the EUTF based on providing the same matching provisions to Hawaii Government Employees Association as provided in tentative agreements with the Hawaii State Teachers Association and the United Public Workers.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Inserting a reference to collective bargaining unit (9);
- (2) Inserting specific appropriation amounts to fund cost items relating to contributions to the EUTF for collective bargaining units (2), (3), (4), (6), (8), (9), and (13) and their excluded counterparts; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1599, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1599, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Tsutsui, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

Representatives Caldwell, Takamine, Moses.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 145 on H.B. No. 19

The purpose of this bill is to enhance the University of Hawaii's (UH) ability to address students' critical housing needs in a tight rental market by:

- (1) Allowing UH to use sources other than revenues generated through the bond system; and
- (2) Authorizing the UH Board of Regents to issue \$25,000,000 in revenue bonds to finance the maintenance of any university project or the cost of construction of new housing units at the University of Hawaii at Manoa campus on sites currently used for student housing,

to finance the construction and repair of student housing units.

Your Committee has amended this bill by:

- (1) Increasing the authorization of the issuance of revenue bonds to \$100,000,000 from \$25,000,000;
- (2) Removing the section referencing H.B. No. 1, since H.B. No. 1 did not pass the Legislature this session; and
- (3) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 19, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 19, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hee, Taniguchi, Tsutsui, Trimble.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

Representatives Waters, Chong, Finnegan.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 146 on H.B. No. 1308

The purpose of this bill is to protect and conserve Hawaii's natural beauty and resources for current and future generations by establishing permanent adequate funding for land conservation by increasing the conveyance tax on a sliding scale and dedicating ten percent of the annual proceeds from the conveyance tax for land conservation.

Among other things, this measure:

- (1) Establishes the Land Conservation Fund (Conservation Fund), section 173A-5, Hawaii Revised Statutes (HRS);
- (2) Requires that ten percent of all conveyance taxes be deposited in or credited to the Conservation Fund annually;
- (3) Exempts the Conservation Fund from the central service expenses assessment for special funds;
- (4) Places the Conservation Fund under the administration and management of the Department of Land and Natural Resources (DLNR);
- (5) Amends the definition of "land having value as a resource to the State" to include land with cultural value;
- (6) Specifies that the acquisition of interests or rights in land having value as a resource to the State for the preservation of:
 - (A) Watershed protection;
 - (B) Coastal areas, beaches, and ocean access;
 - (C) Habitat protection;
 - (D) Cultural and historical sites;
 - (E) Recreational and public hunting areas;
 - (F) Parks;
 - (G) Natural areas;
 - (H) Agricultural production; or
 - (I) Open spaces and scenic resources,constitutes a public purpose for which public funds may be expended or advanced;
- (7) Directs that the Conservation Fund be used for:
 - (A) The acquisition of interests or rights in land having value as a resource to the State, whether in fee title or through the establishment of permanent conservation easements under chapter 198, HRS; and
 - (B) Annual administration costs for Conservation Fund, which must not exceed five percent of annual fund revenues of the previous year;
- (8) Creating an application process whereby DLNR, with the approval of the Board of Land and Natural Resources (BLNR), grants moneys from the Conservation Fund to state or county agencies and nonprofit land conservation organizations;
- (9) Provides for the manner in which lands acquired by grant moneys from the Conservation Fund may be sold, leased, or otherwise disposed of;
- (10) Modifies the amount of the conveyance tax; and
- (11) Specifies that with respect to the conveyance tax, ten percent must be allocated to the Conservation Fund;

Your Committee on Conference finds that a clear nexus exists between the source of the conveyance tax and providing funding for the preservation and conservation of valuable natural resources. A nexus also exists between the conveyance tax and the growing need for affordable housing. The conveyance tax is currently at the rate of 10 cents per \$100 of the price of the property. Statistics indicate that 92% of the properties sold in 2004 would not have been affected by the new tax rate structure in this bill.

Upon careful consideration, your Committee on Conference has amended this bill by, among other things:

- (1) Requiring BLNR to track amounts disbursed from the Conservation Fund, rather than to the Conservation Fund;

- (2) Clarifying that state agencies, counties, and nonprofit land conservation organizations may acquire interests or rights in land having value as a resource to the State, whether in fee title or through the purchase of permanent conservation easements under Chapter 198, HRS;
- (3) Specifying that any permanent conservation easement established through grants from the Conservation Fund that includes partnership with a federal land conservation program may be transferred only as provided by rules of the federal program;
- (4) Adjusts the conveyance tax in the following manner:
 - (A) Except as provided in paragraph (B):
 - (i) Ten cents per \$100 for properties with a value of less than \$600,000;
 - (ii) Twenty cents per \$100 for properties with a value of at least \$600,000, but less than \$1,000,000; and
 - (iii) Thirty cents per \$100 for properties with a value of \$1,000,000 or greater;

and
 - (B) For the sale of a single-family residence or an individual unit in a multifamily dwelling for which the purchaser is ineligible for a county homeowner's exemption on property tax:
 - (i) Fifteen cents per \$100 for properties with a value of less than \$600,000;
 - (ii) Twenty-five cents per \$100 for properties with a value of at least \$600,000, but less than \$1,000,000; and
 - (iii) Thirty-five cents per \$100 for properties with a value of \$1,000,000 or greater;
- (5) Increases the allocation of the conveyance tax to the Rental Housing Trust Fund from 25 percent to 30 percent;
- (6) Appropriating \$1,100,000 from the Conservation Fund for fiscal year 2005-2006 for the purchase of agriculture easements to protect farm and ranch lands throughout the state;
- (7) Requiring the Director of Finance to transfer to the credit of the Conservation Fund on July 1, 2005, all unexpended or unencumbered balances remaining in the Fund for the Environment, which will be repealed on the same date; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1308, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1308, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Taniguchi, English, Tsutsui.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

Representatives Kanoho, Karamatsu, Carroll, Magaoay, Schatz, Wakai, Thielen.
Managers on the part of the House.
Ayes, 6. Noes, none. Excused, 1 (Schatz).

Conf. Com. Rep. No. 147 on H.B. No. 1554

The purpose of this measure is to provide fee owners of single family and multi-family residential leasehold property with an exclusion from their taxable income of fifty per cent of any proceeds from the sale of the leased fee interest to the lessee.

Your Committee on Conference finds that mandatory leasehold reform for single family residences has successfully reduced the number of single family leasehold residences, allowing homeowners to own the fee interest in their residential lots. Your Committee on Conference further notes that similar efforts to allow the mandatory leasehold conversion of multi-family residences has met with much resistance from the fee owners who were not inclined to part with their fee interest. This resistance has led to the acrimonious repeal of a mandatory leasehold conversion law for multi-family residences in the City and County of Honolulu.

Your Committee on Conference believes that, rather than perpetuating a process that polarizes members of the community, an incentive-based approach to the issue should be pursued. Accordingly, this measure would provide that incentive by allowing a fee owner of residential leasehold properties to exclude, from the fee owner's taxable income, up to fifty per cent of the proceeds the fee owner receives from the sale of the leased fee interest to the lessee.

Your Committee on Conference has amended this measure by:

- (1) Limiting the total amount of income excluded by this measure to a maximum of \$75,000 in the aggregate for all taxpayers in the State in any tax year; and
- (2) Allowing this exclusion to be taken in the tax year beginning after December 31, 2005 and ending prior to January 1, 2007.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1554, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1554, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Taniguchi, Espero, Tsutsui, Hogue.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

Representatives Kanoho, Kahikina, Hiraki, Nishimoto, Fox.

Managers on the part of the House.

Ayes, 4. Noes, none. Excused, 1 (Hiraki).

Conf. Com. Rep. No. 148 on H.B. No. 1462

The purpose of this measure is to allow the Attorney General to administer programs for the prevention of sexual violence and clarifies and strengthens the Voluntary Response Program.

Your Committee has amended the measure by substituting the amendments to the Voluntary Response Program with S.B. No. 788, S.D.1, H.D.1., relating to the Voluntary Response Program.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1462, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1462, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Baker, English, Hanabusa, Trimble.

Managers on the part of the Senate.

Ayes, 4. Noes, none. Excused, 1 (Trimble).

Representatives Kawakami, B. Oshiro, Moses.

Managers on the part of the House.

Conf. Com. Rep. No. 149 on H.B. No. 1224

The purpose of this bill is to improve the administration of the general excise and use taxes by:

- (1) Requiring the Department of Taxation (DOTAX), no later than November 1, 2005, and with unspecified designees selected by the President of the Senate and the Speaker of the House of Representatives (Speaker), to:
 - (A) Identify issues that need to be resolved to effectuate the orderly enactment and operation of a streamlined sales and use tax that is based on the Streamlined Sales Tax Project's Model Agreement and Act (Model Agreement and Act);
 - (B) Draft policy recommendations to resolve these issues for the Legislature; and
 - (C) Conduct for the Legislature, informational briefings on its policy recommendations and its efforts to comply with this bill;
- (2) Requiring DOTAX to submit proposed legislation to the Legislature prior to the Regular Session of 2006 that provides for the implementation of a streamlined sales and use tax in accordance with the Model Agreement and Act;
- (3) Appropriating an unspecified amount of funds, to be expended by DOTAX, to carry out the provisions established in this bill; and
- (4) Repealing the statutory requirement that requires DOTAX to consult with an advisory council with respect to multistate discussions relating to the Streamlined Sales and Use Tax Agreement.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Establishing requirements, procedures, standards, and guidelines for compliance with the Streamlined Sales and Use Tax Agreement;

- (2) Specifying that DOTAX may enter into the Streamlined Sales and Use Tax Agreement with one or more states with the concurrence of the Legislature;
- (3) Deleting the requirement that DOTAX draft policy recommendations to resolve the issues involved in the enactment and operation of a streamlined sales and use tax that is based on the Model Agreement and Act;
- (4) Establishing that DOTAX execute its duties to identify issues that need to be resolved for the enactment and operation of a streamlined sales and use tax that is based on the Model Agreement and Act no later than August 1, 2005, instead of November 1, 2005;
- (5) Specifying that DOTAX work with three designees selected by the President of the Senate and three designees selected by the Speaker;
- (6) Revising the requirement for DOTAX to submit proposed legislation to the Legislature by:
 - (A) Specifying that the proposed legislation is to be submitted to the Legislature prior to January 1, 2007; and
 - (B) Changing the contents of the proposed legislation by:
 - (i) Deleting the requirement for implementation of a streamlined sales and use tax in accordance with the Model Agreement and Act; and
 - (ii) Specifying that the proposed legislation provide any further amendments requested by the Streamlined Sales Tax Project to address issues such as sourcing and rounding and to enhance the operation of a streamlined sales and use tax;
- (7) Declaring that the general excise and use tax law under chapters 237 and 238, Hawaii Revised Statutes, substantially comply with the requirements set forth under the Streamlined Sales and Use Tax Agreement;
- (8) Inserting an appropriation amount of \$50,000, and specifying that the funds are to be used for technical assistance and briefings to enable the Legislature to carry out its responsibilities;
- (9) Establishing certain specific authorized uses of the appropriation;
- (10) Changing the expending agency from DOTAX to the Auditor and establishing that the Auditor shall secure the necessary services to support the project without regard to the Public Procurement Code;
- (11) Allowing contractors contracted by the Auditor to support the project to inspect tax returns and receive abstracts of tax returns and other information contained in the tax returns only for the purpose of conforming the State's general excise and use taxes to the Model Agreement and Act; and
- (12) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1224, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1224, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Fukunaga, Ige, Tsutsui, Trimble.
Managers on the part of the Senate.

Conf. Com. Rep. No. 150 on H.B. No. 1672

The purpose of this bill is to enhance accountability in government by requiring:

- (1) The Director of Finance to conduct a public hearing pursuant to chapter 92, Hawaii Revised Statutes (HRS), prior to restricting or withholding any funds lawfully budgeted and appropriated by the Legislature;
- (2) The Governor to notify recipients of grants under chapter 42F, HRS, on the status of unreleased grants; and
- (3) Budget allotment estimates to include all funds lawfully budgeted and appropriated by the Legislature.

Your Committee on Conference, upon careful consideration, has amended the bill by:

- (1) Deleting the requirement that the Director of Finance conduct a public hearing pursuant to chapter 92, HRS, prior to implementing a restriction or withholding any funds appropriated by the Legislature;
- (2) Deleting the requirement that budget allotment estimates include all funds lawfully budgeted and appropriated by the Legislature; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1672, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1672, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Kokubun, Tsutsui.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Takamine, Kawakami, Marumoto.

Managers on the part of the House.

Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 151 on S.B. No. 55

The purpose of this bill is to ensure that employees who work for five or more continuous hours are provided a rest or meal break, except in certain cases.

Pursuant to Act 172, Session Laws of Hawaii (SLH) 1999, the Legislature provided for the right of employees to express breastmilk during a meal period or other break. Specifically, Act 172, SLH 1999, provided that an employee could not be prohibited from expressing breastmilk during any meal or other break required by law. However, neither federal nor state wage and hour laws currently require an employer to provide employees over the age of sixteen a meal period, irrespective of the number of consecutive hours employees may work. Therefore, although it is common business practice for employers to provide their employees with meal breaks, employees in Hawaii have no statutory right to meal breaks.

Therefore, employees who work more than five consecutive hours should be provided at least a thirty-minute meal break, which will safeguard the health and safety of employees, promote work efficiency and productivity, and permit employees to express breastmilk during any meal break. Furthermore, employers should retain control over the utilization of meal breaks in order to provide for continued service and operations throughout the work day and to ensure the welfare of their businesses.

Upon further consideration, your Committee has amended this measure by:

- (1) Clarifying that an employer may choose the time for the rest or meal break during the employee's work day;
- (2) Clarifying that if an employee waives a rest or meal break, the employee's work day may only be shortened upon the employer's consent;
- (3) Changing the effective date of the Act from July 1, 2010 to effective upon its approval; and
- (4) Making a technical, nonsubstantive amendment for purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 55, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 55, S.D. 1, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Tsutsui, Taniguchi.

Managers on the part of the Senate.

Ayes, 3. Noes, none. Excused, none.

Representatives Caldwell, Takamine, Karamatsu, Nakasone, Yamashita, Pine.

Managers on the part of the House.

Ayes, 5. Noes, none. Excused, 1 (Nakasone).

Conf. Com. Rep. No. 152 on S.B. No. 294

The purpose of this bill is to assist low-income workers in Hawaii by raising the minimum wage to \$6.75 per hour beginning January 1, 2006, and \$7.25 per hour beginning January 1, 2007.

Although the minimum wage amount was recently increased, effective in 2003, the increase has failed to keep pace with the rate of inflation. As a result, a worker's purchasing power has continued to diminish over time. Prior to the most recent increase, no previous

adjustment had been made to the minimum wage amount since 1993. In Hawaii, the cost of living is higher than that of much of the rest of the nation, which compels many individuals to work two jobs just to make ends meet. As it appears that we have now turned the corner, heading towards improved economic times, your Committee on Conference believes that it is necessary to assist entry-level workers to allow them to share in this period of economic growth and prosperity.

Upon further consideration, your Committee on Conference has amended the measure by making a technical, nonsubstantive amendment for purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 294, S.D. 3, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 294, S.D. 3, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Inouye.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Representatives Caldwell, Takamine, Karamatsu, Shimabukuro, Fox.
Managers on the part of the House.

Conf. Com. Rep. No. 153 on S.B. No. 738

The purpose of this measure is to allow the Employees' Retirement System (ERS) to compromise or settle claims for benefits, including those claims arising out of detrimental reliance by ERS members on erroneous information provided by the ERS, as approved by the Attorney General.

Specifically, the ERS Board, under this measure, may compromise or settle claims for benefits to which a member or former member of the ERS would not otherwise be entitled if:

- (1) The claim resulted from an erroneous written representation made by an authorized employee of the ERS;
- (2) The member, in good faith reliance on the representation, decided to retire or terminate the member's employment or membership in the ERS; and
- (3) Settlement is approved by the Attorney General.

The Attorney General has opined that, under the current law, the ERS is not authorized to compromise or settle claims in which an ERS member has detrimentally relied on erroneous information provided by the ERS if the settlement or compromise would result in the member receiving benefits that the member is not entitled to receive by statute. This inability to compromise or settle claims may result in severely adverse consequences to the member. Additionally, compromise or settlement is, therefore, also not authorized in other situations that have potentially adverse consequences to a member, such as a case where a member is mistakenly or incorrectly credited with service to which the member is not entitled as a matter of law.

Because a court may determine that manifest injustice has or will result from a member's detrimental reliance on information obtained from the ERS, and in order to promote the fair and efficient disposition of cases, the ERS should be authorized to compromise or settle cases instead of having to participate in full-blown litigation to achieve the same result.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Changing the effective date of the Act from July 1, 2010, to be effective upon its approval; and
- (2) Requiring the Act to apply to claims existing on and arising on or after the effective date of the Act.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 738, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 738, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Slom.
Managers on the part of the Senate.

Representatives Caldwell, Luke, Nakasone, Meyer.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, 1 (Meyer).

Conf. Com. Rep. No. 154 on S.B. No. 817

The purpose of this bill is to establish standards and procedures regarding the assignment of unemployment insurance contribution rates and the transfer of unemployment insurance experience when a change in employing unit occurs.

Pursuant to the State Unemployment Taxes Act (SUTA) Dumping Prevention Act of 2004, P.L. 108-295, the Social Security Act was amended with respect to the administration of unemployment taxes and benefits. The Act requires, as a condition of state eligibility for grants for unemployment compensation administration, changes to state unemployment compensation laws to prevent SUTA dumping. SUTA dumping involves employers and financial advisors using acquisitions or restructuring schemes, including shifting of workforce and payroll, in order to pay lower state unemployment taxes than their unemployment experience would normally allow. Therefore, in order to maintain federal certification and to continue to enjoy the benefits of the Federal Unemployment Tax Act tax offset credit and federal administrative grants for the state unemployment insurance program, changes in the current law must be made.

Upon further consideration, your Committee on Conference has amended this measure by changing the effective date of the Act from July 1, 2010 to be effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 817, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 817, S.D. 2, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kanno, Taniguchi, Slom.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 155 on S.B. No. 944

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (1), nonsupervisory employees in blue collar positions, and collective bargaining unit (10), institutional, health, and correctional workers.

This measure also funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for nonsupervisory employees in blue collar positions and institutional, health, and correctional workers who are excluded from collective bargaining.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts to be appropriated to cover the costs of the salary increases and collective bargaining cost items negotiated for collective bargaining units (1) and (10) and excluded counterparts;
- (2) Changing the effective date from July 1, 2006, to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 944, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 944, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 156 on S.B. No. 945

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (5), teachers and other personnel of the department of education under the same pay schedule, including part-time employees working less than twenty hours a week who are equal to one-half of a full-time equivalent.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for teachers and other personnel of the department of education under the same pay schedule, including part-time employees working less than twenty hours a week who are equal to one-half of a full-time equivalent, who are excluded from collective bargaining.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Inserting specific amounts to be appropriated to cover the costs of the salary increases and collective bargaining cost items negotiated for collective bargaining unit (5) and excluded counterparts from general funds;
- (2) Changing the effective date from July 1, 2006, to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 945, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 945, S.D. 1, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 157 on S.B. No. 1194

The purpose of this measure is to provide for the election of the public employee members of the Board of Trustees (Board) of the Deferred Compensation Plan by the members.

Under the current law, the Board is comprised of seven members. Aside from the two ex officio members of the Board, the remaining five members are appointed by the Governor, with confirmation by the Senate. However, to better represent the interests of the members of the Deferred Compensation Plan, the remaining Board members should instead be elected by the plan members themselves. This method of election provides a more democratic process which will allow the decision making of the Board to be brought closer to its own constituency.

Additionally, in order to preserve institutional knowledge, promote continuity, and ensure smooth transition between membership terms within the Board, staggered terms should be utilized.

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Requiring all elected members of the Board to serve staggered terms of four years each;
- (2) Providing that the initial and subsequent elections of replacements to fill each elected board position will be conducted prior to the expiration of the staggered terms of each position; and
- (3) Changing the effective date of the Act from July 1, 2010 to be effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1194, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1194, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 160 on S.B. No. 1889

The purpose of this bill is to ensure that all future apprenticeship agreements approved by the State will safeguard the welfare of apprentices. This bill amends the existing statute to reflect federal and state rules and the practices and procedures already in place within the Department of Labor and Industrial Relations (DLIR). Furthermore, this measure shifts final decision-making on apprenticeship matters to the body with expertise.

Section 1 of this bill adds to the standards that a program applicant must satisfy to submit a valid apprenticeship program to include standards reflected in the federal law. (See 29 C.F.R. §29.5(b)(1), (7), and (14)).

Section 1 of this bill also requires that where an application is received in a trade where an apprenticeship agreement already exists, the new applicant must show that a continuing need exists in the trade or group of trades and must show a compliance with the "equal to or better than" requirement that is already recognized by the department. Requiring a parallel program to be equal to or better than the existing program is designed to provide meaningful employment for the apprentices who must achieve competitive standards in their trade.

Section 2 of this bill expands the existing role of the apprenticeship council from a purely advisory body under section 372-4, Hawaii Revised Statutes (HRS), to one that is responsible for promoting and approving apprenticeship programs consistent with the standards for agreements. Under existing law, the Director of DLIR already relies on the views and opinions of the apprenticeship council, which has the requisite expertise and experience in the field and represents a cross-section of the community that is most

directly involved in apprenticeship and education. We believe the apprenticeship council is better qualified to uphold the standards established by chapter 372, HRS. Empowering the apprenticeship council will not alter the standards each apprenticeship program must satisfy to gain approval. The federal law already recognizes that the apprenticeship council can have the authority to register and/or approve the local apprenticeship programs and agreements. (See 29 C.F.R. §29.2(o)).

Upon further consideration, your Committee on Conference has amended this measure by:

- (1) Including a new section within chapter 372, HRS, as a savings clause in the event any provision of the chapter jeopardizes the receipt by the State of any federal grant-in-aid or other federal allotment under chapter 372, HRS; and
- (2) Deleting language that provided for assurances in the requirements for standards for apprenticeship agreements that a continuing need exists in the trade or group of trades when there are parallel programs.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1889, S.D. 1, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1889, S.D. 1, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 162 on H.B. No. 460

The purpose of this bill is to clarify that the Chief Election Officer and Campaign Spending Commission may hire employees who are exempt from civil service and excluded from collective bargaining, at their discretion.

Your Committee on Conference, upon careful consideration, has amended this bill by:

- (1) Removing the provision allowing the Campaign Spending Commission to hire employees who are exempt from civil service and excluded from collective bargaining;
- (2) Changing the effective date to upon approval; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 460, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 460, H.D. 2, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 164 on H.B. No. 1763

The purpose of this bill is to ensure the continued effectiveness of the Hawaii Penal Code (Code) by:

- (1) Requiring the Judicial Council (Council), with assistance from an advisory committee appointed by the Council, to conduct a comprehensive review of the Code; and
- (2) Appropriating an unspecified amount of funds for the review.

Upon careful consideration, your Committee on Conference has amended this measure by:

- (1) Inserting an appropriation amount of \$75,000;
- (2) Changing the effective date of the appropriation to July 1, 2005; and
- (3) Making technical, nonsubstantive amendments for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1763, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1763, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 165 on H.B. No. 1745

The purpose of this bill is to improve the Judiciary's efficiency by eliminating reporting requirements that are outdated or perfunctory. This measure also repeals the reporting requirement regarding the activities and expenses of the State Council for Interstate Adult Offender Supervision.

Your Committee on Conference finds that many of the reporting requirements addressed by this bill should be eliminated because they frequently offer minimal or no new information. However, your Committee on Conference also finds that several of these reporting requirements relating to family court matters serve an important purpose and should be continued.

Accordingly, your Committee on Conference has amended this measure by:

- (1) Restoring the Judiciary's mandatory reports relating to:
 - (A) Parental preferences in government contracts, programs, and services that affect parental roles in children's health, welfare, and education;
 - (B) Receipts of and expenditures from the Spouse and Child Abuse Special Account; and
 - (C) All deposits and expenditures from the Parent Education Special Fund;

and
- (2) Changing the effective date to July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1745, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1745, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Taniguchi, Hee, Whalen.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Whalen).

Conf. Com. Rep. No. 166 on H.B. No. 844

The purpose of this bill is to implement various strategies to promote teacher retention and recruitment. Specifically, this bill:

- (1) Establishes and appropriates funds for the Hawaii Teacher Cadet Program Fund as a separate fund of the Hawaii Alliance for Future Teachers;
- (2) Appropriates funds to Leeward Community College for additional teacher education faculty positions to establish the associate of arts in teaching program;
- (3) Requires the University of Hawaii (UH) to review its admission policies for the College of Education;
- (4) Appropriates funds to UH for additional teacher education faculty positions;
- (5) Appropriates funds to the University of Hawaii College of Education for additional teacher education faculty positions;
- (6) Establishes and appropriates funds for the Hawaii Educator Loan Forgiveness Program to reduce the financial hardships faced by potential student teachers;
- (7) Sets procedures for new hires with respect to job offers, pay, and orientation;
- (8) Appropriates funds for equipment, supplies, and transportation for DOE;
- (9) Establishes and appropriates funds for a Statewide Teacher Induction Program to ensure that a certain new teacher-to-mentor ratio and that all mentors are qualified to work with newly hired teachers;
- (10) Facilitates the licensing of teachers entering DOE by:
 - (A) Expanding the means by which a license may be obtained;
 - (B) Requiring the Hawaii Teacher Standards Board (HTSB) to clearly state requirements needed for Hawaii certification of out-of-state licensed teachers; and
 - (C) Requiring and appropriating funds for HTSB to conduct a study of its various licensing policies;
- (11) Supports the continuing professional development of in-service teachers by appropriating funds for various initiatives;

- (12) Establishes various tax and other financial incentives to improve teacher recruitment and retention, including the preparation of an action plan that seeks to improve teacher compensation over the next 10 years; and
- (13) Establishes and appropriates funds for the Master Teachers Training Program to assist teachers to increase the quality of their teaching skills and to serve as a resource to other teachers.

Your Committee on Conference finds that the State is experiencing a teacher shortage. While effective teaching is of high importance in a successful education system, it is crucial that consideration is given to implementing programs that improve the teacher licensing procedures and the hiring process to encourage teacher retention and recruitment. Additionally, new federal mandates require states to achieve certain educational goals and without proper staffing of instructors, the State will certainly fall behind in meeting the national standards. Your Committee on Conference found that many of the proposed initiatives were received with supportive comments.

Your Committee on Conference has amended this bill by:

- (1) Removing the requirement that UH include in its budget requests the amount of \$250,000 per fiscal year for the Hawaii Educator Loan Forgiveness Program;
- (2) Remove the requirement that principals finalize teacher hiring before the end of the preceding fiscal year;
- (3) Clarifying HTSB's licensing standards and policies;
- (4) Deleting the requirement that HTSB conduct a comparability study of teacher tests used in other states;
- (5) Deleting all provisions that establish various tax and other financial incentives to improve teacher recruitment and retention, including the preparation of an action plan that seeks to improve teacher compensation over the next ten years;
- (6) Deleting all provisions relating to the Master Teachers Training Program;
- (7) Deleting all appropriations for funds except for an appropriation of \$50,000 for the operation of HTSB;
- (8) Changing the effective date to upon approval; provided that section 16 shall take effect on July 1, 2005; and
- (9) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 844, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 844, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 167 on H.B. No. 1300

The purpose of this bill is to improve early childhood education in the state by:

- (1) Establishing incentives for a quality investment system;
- (2) Establishing and appropriating funds for a temporary Early Childhood Education Task Force (Task Force) to oversee the operational planning to increase access to early learning opportunities, enhance infrastructure, and improve school readiness; and
- (3) Establishing and appropriating funds for a two-year pilot program to provide universal access to early childhood education for families in critical need, as determined by the Department of Human Services (DHS).

Your Committee on Conference has amended this bill by:

- (1) Removing the provisions that require DHS to establish incentives for a quality investment system;
- (2) Removing all the provisions relating to the Task Force and inserting new language for the Task Force as follows:
 - (a) Administratively attaching it to the University of Hawaii (UH);

- (b) Making the Hawaii Educational Policy Center responsible for administering the work of and providing a facilitator for the Task Force and submitting a report to the Legislature of the Task Force's findings and recommendations;
- (c) Specifying that the goals of the Task Force are to:
 - (i) Propose an overall plan to increase access to early childhood education opportunities for families;
 - (ii) Develop plans and identify resources needed to improve the quality and services of early childhood learning programs;
 - (iii) Design proposals to support the professional development of early childhood education staff;
 - (iv) Create an implementation plan to motivate and promote the value of and participation in early childhood learning opportunities;
 - (v) Recommend to the Legislature a conceptual framework to be implemented; and
 - (vi) Provide a plan for assessment and exclusion of the plan once implemented;
- (d) Requiring the Task Force to establish a timeline by which it is to accomplish its goals and tasks;
- (e) Specifying the 20 members of the Task Force;
- (f) Authorizing the Task Force to form workgroups and subcommittees as needed;
- (g) Specifying that its members are to serve without compensation but shall be reimbursed for expenses necessary for the performance of their duties;
- (h) Exempting the Task Force from chapter 92, Hawaii Revised Statutes (HRS); provided that it make a good faith effort to operate in a manner consistent with the intent of the chapter;
- (i) Exempting expenditures for the purpose of the Task Force from the Hawaii Public Procurement Code, chapter 103D, HRS; and
- (j) Repealing the Task Force on June 30, 2006;
- (3) Appropriating \$50,000 to UH to support the operations of the Task Force;
- (4) Removing the provisions that establish and appropriate funds for the early childhood education pilot program;
- (5) Requiring the Department of Education to:
 - (a) Inventory suitable empty public school classrooms for use by early childhood education programs; and
 - (b) Assist in the identification of possible construction sites for private providers to build early childhood education facilities;
- (6) Changing the exceptions to the effective date to reflect the changes made to the bill; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1300, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1300, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 168 on H.B. No. 1304

The purpose Part I of this bill is to establish a temporary health care task force to develop a plan to implement health care for all Hawaii residents.

The purpose of part II is to authorize non-civil service marriage license agents to collect and retain a \$5 surcharge to correct the insufficient compensation currently collected to meet the operating costs of an agent.

Your Committee on Conference has amended Part I of this bill by:

- (1) Placing the task force in the insurance division of the Department of Commerce and Consumer Affairs (DCCA) for administrative purposes;
- (2) Deleting the Director of Health and the Hawaii Uninsured Project as sources of recommendations of prospective appointees for the task force;
- (3) Adding the Insurance Commissioner as a source of prospective appointees for the task force;
- (4) Requiring that a minimum of seven of the members of the task force be selected by the Governor from a list submitted by the Senate President and the Speaker of the House of Representatives;
- (5) Mandating that the Hawaii Uninsured Project facilitate contracting of expert testimony for the task force;
- (6) Appropriating \$200,000 to fund the task force in carrying out its duties, including contracting for services and studies as necessary;
- (7) Designating DCCA as the expending agency for the funds appropriated; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1304, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1304, H.D. 1, S.D. 2, C.D. 1.

Managers on the part of the House.

Ayes, 6. Noes, none. Excused, none.

Conf. Com. Rep. No. 169 on H.B. No. 1051

The purpose of this bill is to facilitate access for Medicaid patients to receive prescribed psychotropic medication, as well as medication for human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), hepatitis C, and transplant immunosuppressives by:

- (1) Prohibiting the Department of Human Services (DHS) from restricting or limiting payment for psychotropic medication that has been prescribed by a medical professional licensed in Hawaii;
- (2) Directing DHS to presume eligibility for Medicaid assistance for individuals in need of emergency psychiatric or psychological services, and to reimburse costs during the period of presumptive eligibility;
- (3) Providing a pre-authorization exemption for psychotropic medication prescribed to an individual who is Medicaid eligible, or presumed to be so;
- (4) Providing an appropriation to facilitate the fulfillment of the intent of this bill; and
- (5) Providing preauthorization exemption for medication prescribed to an individual who is Medicaid eligible, and diagnosed as suffering from HIV, AIDS, hepatitis C, or who is a patient in need of transplant immunosuppressives.

Your Committee on Conference has amended this measure by:

- (1) Removing all reference to psychotropic medication and presumptive eligibility;
- (2) Limiting its scope to Medicaid recipient patients suffering from HIV, AIDS, hepatitis C, or who patients in need of transplant immunosuppressives;
- (3) Specifying that medication prescribed under the preauthorization exemption must be eligible for the Omnibus Budget Reconciliation Rebates Act in addition to being approved by the United States Food and Drug Administration;
- (4) Excluding the application of the preauthorization exemption QUEST medical plans;

- (5) Removing the appropriation;
- (6) Changing the effective date to upon its approval; and
- (7) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1051, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1051, H.D. 2, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 170 on H.B. No. 115

The purpose of this bill is to recognize and honor the members of the armed forces and their families. Thousands of military service members and their families have been faced with the unexpected news of deployment overseas to protect the freedom and liberty of our state and nation. Not only have active military members stationed in Hawaii been deployed but over 80 percent of Hawaii's own National Guard and reserve components have been sent to Iraq or Afghanistan. These brave men and women of the National Guard and reserve units are citizen-soldiers and have left families, small businesses, jobs, and their homes to protect our freedom.

This bill expresses the appreciation that our state has for our military members by assisting them as follows:

- (1) Providing an appropriation for casket liners and to address the soil problems at the Hawaii State Veterans Cemetery in Kaneohe;
- (2) Authorizing the right of returning members of the military to retain admission to programs of the University of Hawaii system; and
- (3) Allowing enlisted personnel of the army or air national guard who receive a uniform maintenance allowance from the state Department of Defense to designate a financial institution account into which to deposit the member's uniform maintenance allowance.

The purpose of Part II is to appropriate moneys to provide for casket liners to avoid sinking graves and rehabilitate the Hawaii State Veterans' Cemetery. Your Committee on Conference finds that the high moisture content and composition of the soil at the cemetery has caused graves and headstones to sink into unsightly holes that desecrate the sanctity of the cemetery. Accordingly, this bill allows the state Office of Veterans' Services to repair the cemetery and maintain the caskets, urns, and headstones that have sunk into the soil.

The State has a solemn obligation to preserve the final resting place of our departed veterans in a manner befitting the supreme sacrifices that they made for this country. This bill is necessary to preserve the peace and tranquility of the final resting place where family and friends may visit departed veterans.

The purpose of Part III is to require the University of Hawaii to establish a program to allow for the readmission of returning military personnel into programs to which they have been previously admitted.

Part III of this bill is intended to facilitate the return of military personnel and their families to their former lives prior to the disruptions caused by an overseas deployment. Your Committee on Conference understands that some University of Hawaii campuses have already established such programs and are currently studying the feasibility of implementing the process at all campuses.

This measure is important to demonstrate our support and respect for our service members and their families.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Removing the provision related to the military dependent tax credit;
- (2) Removing the provision quantifying the amount of income tax exemption and the provision regarding tax exemption for active military members stationed out-of-state;
- (3) Removing the appropriation for a temporary position to coordinate Joint Venture in Education Forum activities;
- (4) Inserting an appropriation to the section regarding the Hawaii State Veterans' Cemetery;
- (5) Requiring the University of Hawaii to establish a readmission policy for military students;

- (6) Allowing members of the enlisted personnel of the army or air national guard the option to elect direct deposit for their uniform maintenance allowance; and
- (7) Amending the effective date as applicable.

Due to the lack of available funding, provisions related to income tax credits and tax exemptions were unable to be included. Nonetheless, the sections that remain illustrate the appreciation that the people of our state have for our uniformed men and women who have dedicated their lives to defending the freedom and liberty of our nation.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 115, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 115, H.D. 1, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Sakamoto, Taniguchi, Tsutsui, Hogue.

Ayes, 3. Noes, none. Excused, 1 (Tsutsui).

Representatives Ito, Chong, Moses.
Managers on the part of the House.
Ayes, 2. Noes, none. Excused, 1 (Moses).

Conf. Com. Rep. No. 171 on H.B. No. 160

The purpose of this bill is to increase transparency, accountability, and fairness in state assessments of insurers and in the use of those funds by:

- (1) Establishing a formula for establishing the amount of assessments due from all lines of insurance;
- (2) Providing that total assessments are to be calculated based on the Insurance Commissioner's proposed fiscal year budget, less Insurance Division funds left over in the Compliance Resolution Fund (CRF) from the preceding fiscal year, and anticipated revenues;
- (3) Specifying that insurers must be provided with at least 60 days notice of when their assessments are due;
- (4) Setting a ceiling of \$4,000,000 on total assessments of all lines of insurance;
- (5) Requiring the Auditor to conduct an annual financial and management audit of the insurance regulation sub-account of the CRF, to be submitted to the Legislature prior to each regular session;
- (6) Eliminating the Captive Insurance Administrative Fund (Captive Fund) as a source of transfer funds for the CRF; and
- (7) Requiring moneys in the Captive Fund to be used to defray Captive Insurance Branch administrative costs, and specifying the kinds of personnel costs that may be funded.

Your Committee on Conference has amended this bill by:

- (1) Increasing the cap on insurer assessments to \$5,000,000;
- (2) Instead of annual audits, providing for a single financial and management audit of the insurance regulation sub-account of the CRF, to be submitted to the Legislature in 2008;
- (3) Appropriating \$1,500,000 for each of fiscal years 2005-2006 and 2006-2007 for the operating expenses of the Captive Insurance Branch and for development of the captive insurance industry in Hawaii;
- (4) Changing the effective date of the bill from July 1, 2010, to July 1, 2005; and
- (5) Making a technical, nonsubstantive amendment for clarity and consistency.

Your Committee on Conference finds that implementation of the insurer assessment formula, in combination with the financial and management audit of the insurance regulation sub-account, will provide information allowing insurer assessments to be evaluated and set at fair and justifiable levels. Your Committee on Conference believes that a similar increase in transparency and accountability will result from making the Captive Fund and the Captive Insurance Branch independent of the CRF.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 160, H.D. 2, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 160, H.D. 2, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Taniguchi, Espero, Tsutsui, Hogue.
Managers on the part of the Senate.
Ayes, 3. Noes, 1 (Hogue). Excused, 1 (Tsutsui).

Representatives Hiraki, Takamine, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 172 on H.B. No. 393

The purpose of this bill is to preserve the counties' ability to collect unpaid fines while protecting commercial lenders' security interests in mortgaged property by providing, among other things, that:

- (1) Unpaid civil fines, if added by the county by ordinance to taxes, fees, or charges:
 - (A) Shall not become a part of those taxes, fees, or charges; and
 - (B) Shall become a lien on the debtor's real property and against land registered in Land Court only upon recordation of the notice of the unpaid fines in the Bureau of Conveyances;
- (2) The lien in favor of the county shall be subordinate to previously recorded or registered liens but senior to those recorded or registered thereafter;
- (3) The recorded notice of unpaid civil fines must state the amount of the fine as of the date of the notice and the maximum permissible daily increase in the fine;
- (4) The lien continues until the unpaid civil fines are paid in full or until a certificate of release or partial release, prepared by the county at the owner's expense, is recorded; and
- (5) The counties may also recover unpaid civil fines by requiring payment of the fines before issuing or renewing a license, approval, or permit for which a fee is assessed, except for water for residential use, and sewer charges.

Your Committee on Conference finds that this bill is an outgrowth of concerns raised by commercial lending institutions that a county can attach unpaid fines, plus interest, to real property taxes. A lender would have no notice of these unrecorded fines, which, as attached to the real property taxes, would have a lien priority over mortgage liens. The bill reflects a compromise between lending institutions and the City and County of Honolulu Department of Planning and Permitting, that allows both the lending institutions and the counties to protect their interests in this matter.

Your Committee on Conference has amended this bill by changing the effective date from July 1, 2010, to upon approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 393, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 393, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 173 on H.B. No. 1017

The purpose of this bill is to encourage the wide-spread use of renewable energy resources by requiring homeowner associations to adopt rules by December 31, 2006, to provide for the placement of registered solar energy devices and to establish requirements for the installation of solar energy devices in single-family homes and townhouses.

Your Committee on Conference has amended this bill by:

- (1) Requiring a homeowner installing a solar energy device on a roof that is a common element or limited common element and subject to a labor or material roof warranty to obtain confirmation from the company that issued the warranty, that installation of the solar energy device will not void the warranty;
- (2) Making the owner and any successive owner responsible for removing any solar energy devices installed on a common element or limited common element, if removal is reasonably necessary or convenient for the repair, maintenance, or replacement of the common elements or limited common elements;
- (3) Changing the effective date to September 1, 2005; and

- (4) Making technical, nonsubstantive amendments for style, clarity and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1017, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1017, H.D. 3, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 174 on H.B. No. 1548

The purpose of this bill is to amend the composition, selection, and term of the Board of Trustees of the Employer-Union Health Benefits Trust Fund (Board), as well as the quorum and voting requirements of the Board.

Among other things, this bill:

- (1) Increases the number of trustees from 10 to 14, with seven trustees each representing public employers and employee-beneficiaries, respectively;
- (2) Changes the entity appointing the employee-beneficiary trustees from the Governor to the six exclusive bargaining unit representatives, each of whom will select one trustee, and all of whom will select the retiree employee-beneficiary trustee by two-thirds majority vote;
- (3) Changes the trustee term from four years to serving at the pleasure of the appointing entity; and
- (4) Changes the quorum, vote, and dispute resolution requirements of the Board to account for the increase in the number of trustees.

After careful consideration, your Committee on Conference has amended this bill by:

- (1) Reducing the number of trustees from 14 to ten, with five trustees each representing public employee-beneficiaries and employers, respectively;
- (2) Reinstating the Governor's appointment authority for members of the Board;
- (3) Changing the appointment process by creating a selection procedure for Board members as follows:
 - (A) Each of the three exclusive employee representative organizations with the largest number of employee-beneficiaries shall be entitled to submit a list of two nominees, from which the Governor shall appoint a trustee
 - (B) The remaining exclusive employee representative organizations shall be entitled to submit a mutually agreed-upon list of two nominees, from which one trustee shall be appointed; and
 - (C) A trustee representing retirees shall be appointed from a list of two nominees submitted by mutual agreement of all of the eligible exclusive representatives;
- (4) Inserting a provision to address the issue of the ability for employee-representative organizations to establish voluntary employees' beneficiary association and the impact this may have on Board membership by prohibiting an exclusive employee representative organization from submitting nominees to be appointed to or from being represented on the Board;
- (5) Creating a method for replacing employee-beneficiary representatives and retiree representatives on the Board;
- (6) Eliminating the provisions changing the trustee term from four years to serving at the pleasure of the appointing entity;
- (7) Deleting language changing the quorum, vote, and dispute resolution requirements of the Board to account for the increase in the number of trustees; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1548, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1548, H.D. 1, S.D. 1, C.D. 1.

Conf. Com. Rep. No. 175 on H.B. No. 1640

The purpose of this measure is to establish policies and procedures for identifying important agricultural lands (IALs) and for developing state and county incentives to promote IAL viability.

Specifically, this measure establishes:

- (1) A new part in chapter 205, Hawaii Revised Statutes (HRS), that sets forth policies and procedures for the identification of IALs, including:
 - (a) Policies and objectives to assure the conservation and availability of IALs for long-term agricultural use;
 - (b) Standards and criteria for the identification of IALs;
 - (c) Procedures for the identification, designation, and retention of IALs;
 - (d) Standards and criteria for reclassification and rezoning of lands identified as IALs; and
 - (e) Policies for incentives for the long-term retention of IALs to be used for agriculture; and
- (2) A process to develop proposals for state and county incentives to promote agricultural viability, sustained growth of the agriculture industry, and the long-term use and protection of IALs for agricultural use.

Your Committee on Conference notes that incompatible uses neighboring each other cause conflicts that impair agricultural activities. Often agricultural, rural, and conservation lands serve as buffers between lands that may be deemed IALs and urban or other incompatible uses. However, your Committee on Conference believes that buffer requirements should be examined further for future legislation and should be included as standards for districting and classifying agriculture lands under section 205-2, HRS. Thus, your Committee on Conference has amended this measure by deleting the provision that requires agricultural lands not designated as IALs or any appropriate rural or conservation district lands to be used as buffers.

Your Committee on Conference has further amended this measure by:

- (1) Clarifying the farmer or landowner petition process for designating land as IALs;
- (2) Requiring that petitions for designating land as IALs include verification and authorization from the applicable landowners;
- (3) Clarifying what the Land Use Commission will consider when it is identifying and designating IALs;
- (4) Clarifying when the Land Use Commission may designate lands as IALs and adopt maps for IAL designations;
- (5) Providing that the counties will adopt ordinances for IAL standards rather than for IAL leasehold or fee simple subdivisions requirements;
- (6) Clarifying that the subdivided lots should not be used solely for residential occupancy in counties without ordinances;
- (7) Changing the expending agency from the Department of Agriculture to the Department of Business, Economic Development, and Tourism to be disbursed by the Land Use Commission;
- (8) Clarifying that the Land Use Commission rather than the Department of Agriculture will submit their annual reports to the Legislature;
- (9) Inserting an amount of \$75,000 into the appropriation for grants-in-aid to the counties for the identification and mapping of IALs;
- (10) Inserting an amount of \$75,000 into the appropriation for the development of proposals for incentives and other programs for agricultural development and agricultural land protection; and
- (11) Making technical, nonsubstantive changes for style, clarity, and consistency.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1640, H.D. 3, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1640, H.D. 3, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Kokubun, Taniguchi, English, Tsutsui, Hemmings.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

Conf. Com. Rep. No. 176 on S.B. No. 1352

The purpose of this measure is permit a state or county employee to take seven days of paid leave per year to serve as a bone marrow donor and thirty days of paid leave per year to serve as an organ donor.

This measure also clarifies the rights of public employees to engage in collective bargaining under chapter 89, Hawaii Revised Statutes, in light of recent court decisions, Hoopai v. Civil Service Comm'n, 106 Hawai'i 205 (2004) and United Public Workers, AFSCME, Local 646, AFL-CIO v. Hanneman, 106 Hawai'i 359 (2005), and to avoid the invalidation of provisions of collective bargaining agreements in effect on and after July 1, 2005.

Your Committee on Conference finds that the negotiations over procedures and criteria of promotions, transfers, assignments, demotions, layoffs, suspension, terminations, discharges, or other disciplinary actions, and negotiations over the impact of transfers, assignments, and layoffs, are consistent with the underlying purpose of chapter 89, Hawaii Revised Statutes. Exclusive representatives and public employees have negotiated over these subject matters since 1970. Provisions in collective bargaining agreements in effect on and after July 1, 2005 should not be subject to invalidation by reason of section 89-9(d), Hawaii Revised Statutes.

Therefore, upon further consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the provision regarding leaves of absences for serving as a bone marrow or organ donor for state and county employees;
- (2) Restoring the enumerated provisions (1)–(8) within section 89-9(d), Hawaii Revised Statutes;
- (3) Clarifying that no provision contained in a collective bargaining agreement in effect on July 1, 2005 is invalidated;
- (4) Providing that negotiations over the procedures and criteria on promotions, transfers, assignments, demotions, layoffs, suspensions, terminations, discharges, or other disciplinary actions of public employees shall not be precluded;
- (5) Mandating negotiations over the impact of transfers, assignments, and layoffs of public employees;
- (6) Clarifying that violations of procedures and criteria negotiated may be subject to the grievance procedure in the collective bargaining agreement; and
- (7) Changing the effective date of the Act from July 1, 2010 to effective upon its approval.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1352, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1352, S.D. 1, H.D. 1, C.D. 1.

Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 177 on S.B. No. 1729

The purpose of this measure is to redistribute the transient accommodations tax (TAT) to facilitate the Hawaii Tourism Authority (HTA) with existing and expanded programs, repeal the TAT trust fund, place the convention center enterprise special fund and the tourism special fund outside the state treasury and allow them to be placed in interest-bearing accounts and invested, and clarify the administrative authority of the HTA.

Your Committee on Conference finds that the State's investment in tourism is critical to ensure that Hawaii maintains a successful and sustainable tourism industry. It is imperative that the HTA be given additional resources to effectively and efficiently implement its programs, which will contribute to an increased focus in areas such as safety and security, workforce development, communications, and state parks and trails.

Your Committee on Conference has amended this measure by:

- (1) Deleting the limitations on the Governor's and executive agencies' oversight authority over the HTA's hiring of personnel, and deleting reference to general fund limitations, but allowing the HTA to appoint officers, agents, and employees subject to the approval of the HTA board if there is no anticipated revenue shortfall in the tourism special fund and funds have been appropriated by the Legislature and allotted as provided by law;
- (2) Requiring excess revenues from the TAT, after distribution, be deposited into the general fund;
- (3) Deleting changes to the 17.3 per cent distribution of revenues into the convention center enterprise special fund;
- (4) Effective July 1, 2007, changing the 32.6 per cent to 34.2 per cent to be deposited into the tourism special fund; repealing the \$62,292,000 cap; restoring the deposits into the state parks special fund and special land and development fund, but taking those deposits from the first \$1,000,000 in TAT revenues deposited into the tourism special fund; requiring that of the 34.2 per cent, 0.5 per cent be transferred to a sub-account to fund safety and security programs; and deleting reference to deposits into the state parks special fund and special land and development fund taken from TAT;
- (5) Deleting reference to an aloha aina patrol;
- (6) Making the repeal of the TAT trust fund effective July 1, 2007;
- (7) Changing the effective date to July 1, 2005;
- (8) Making all ex officio members of the HTA board nonvoting; and
- (9) Making technical, nonsubstantive amendments.

The H.D. 2 of this measure would have limited the power of the Governor and the executive agencies to interfere with the personnel appointment authority of the HTA Board. This measure deletes that provision and clarifies that the HTA has independent appointment authority subject to the availability of state funds. For example, if the Legislature creates a new administrative position in statute and provides an appropriation thereto, the Administration is prohibited from interfering with the filling of that position.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1729, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1729, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 178 on S.B. No. 1137

The purpose of this measure is to enable a condominium association to invest association funds in certificates of deposit (CDs) through a Hawaii-based securities broker and to purchase investment products from outside of the State.

Act 164, Session Laws of Hawaii 2004 (Act 164), recodified certain sections of the condominium property regimes law, including section 514A-97, Hawaii Revised Statutes, relating to the handling and disbursement of condominium association funds. However, in recodifying the law, Act 164 prohibited condominium associations from purchasing certificates of deposit through a securities broker and authorized the purchase only of investment products offered by in-state institutions, restrictions not present in the current law.

This measure allows condominium associations greater options in investing owners' funds by repealing the prohibition against the purchase of CDs through a securities broker and the requirement that investments be made only in financial products from institutions located in the State. It is the intent of your Committee on Conference that condominium associations not be limited in the investment of owners funds to the purchase of products offered only in the State or by in-state institutions.

Your Committee on Conference has amended this measure by inserting the contents of the Senate Draft 1, which substantially reflects the existing statutory language contained in section 514A-97, Hawaii Revised Statutes, and which contains an effective date of July 1, 2005.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1137, S.D. 1, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1137, S.D. 1, H.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Menor, Espero, Hogue.
Managers on the part of the Senate.
Ayes, 2. Noes, none. Excused, 1 (Espero).

Conf. Com. Rep. No. 179 on S.B. No. 1132

The purpose of this measure is to complete the recodification of the condominium property regimes law begun under Act 164, Session Laws of Hawaii 2004 (Act 164), by establishing provisions relating to:

- (1) The creation, alteration, and termination of condominiums;
- (2) The registration and administration of condominiums; and
- (3) The protection of condominium purchasers.

Additionally, this measure:

- (1) Amends section -149 of the new chapter established in the Hawaii Revised Statutes (HRS) by Act 164 to allow condominium associations to purchase investment products from out-of-state financial institutions and to purchase certificates of deposit through a securities broker; and
- (2) Does not repeal the current condominium property regimes law, chapter 514A, (HRS).

Your Committee on Conference has amended this measure:

- (1) To clarify that the requirement to file an annual update of a developer's public report extends to a developer's successor or assign;
- (2) To clarify that a developer and real estate broker shall keep records of all sales transactions and proceeds in accordance with the requirements of the real estate brokers and salespersons law, chapter 467, Hawaii Revised Statutes, HRS, and the related administrative rules;
- (3) By amending section -149(c) and (d), HRS, in Act 164 to reflect the language of section 514A-97(c), HRS;
- (4) By repealing chapter 514A, HRS;
- (5) By adding a standard savings clause provision;
- (6) To clarify the parameters of the savings clause provision relating to condominium developers and purchasers by providing that this measure shall not affect the parties' rights and obligations under a sales contract for a condominium unit in a project registered under chapter 514A, HRS, prior to the effective date of the new condominium law;
- (7) By deleting the appropriation from the condominium education trust fund;
- (8) By establishing an effective date of July 1, 2005, except for:
 - (a) The provision that amends the effective dates of Act 164, Session Laws of Hawaii 2004, which shall take effect on June 30, 2005; and
 - (b) The savings and elections provisions, the provision repealing chapter 514A, HRS, and the provision that mandates the application of the existing administrative fees rule, pending the adoption of rules under the new condominium law, all of which shall take effect on July 1, 2006; and
- (9) By making technical amendments to correct statutory and other internal references and for the purposes of clarity, consistency, and style.

Finally, with respect to the amendment to section -149, HRS, as set forth in Act 164, it is the intent of this measure to allow condominium associations greater options and flexibility in investing their members' funds, and to not limit these investments to the purchase of products offered only in the State or only by in-state institutions.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1132, S.D. 2, H.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1132, S.D. 2, H.D. 1, C.D. 1.

Conf. Com. Rep. No. 180 on S.B. No. 1257

The purpose of this bill is to improve the governance of the University of Hawaii (UH) by, among other things:

- (1) Modifying the process of appointing the members of the UH Board of Regents (BOR) by establishing a Candidate Advisory Council (Council) to determine the criteria for, screen, and propose qualified candidates from which the Governor can choose;
- (2) Changing the number of BOR members from 12 to 11;
- (3) Removing the prohibition that no more than six members of the BOR may be members of the same political party;
- (4) Specifying the geographic areas that must be represented by a certain number of BOR members;
- (5) Modifying the length of service of each BOR member from four-year terms to no more than two consecutive five-year terms;
- (6) Establishing that at least three months prior to the conclusion of the member's first five-year term, the Senate must consider the question of whether to reconfirm the member's position on the BOR; and
- (7) Clarifying that every BOR member may serve beyond the expiration date of the member's term until the member's successor has been appointed, has qualified, and has been confirmed by the Senate.

Your Committee on Conference has amended this bill by changing the Council as follows:

- (1) Requiring the Council to recommend candidates for each seat on the BOR within 120 days prior to the expiration of a term;
- (2) Requiring the Council, in recommending candidates for the BOR, to require a candidate to disclose any existing or anticipated contracts with UH or any existing or anticipated financial transactions with UH;
- (3) Changing the membership of the Council to seven members, who will be appointed without regard to section 26-34, Hawaii Revised Statutes (HRS), as follows:
 - (a) Removing the members appointed by UH's Native Hawaiian Council, Pu Ko'a; the UH Professional Assembly; Hawaii Government Employees Association; Hawaii State Bar Association; and UH Foundation; and
 - (b) Adding a member to be appointed by the Association of Emeritus Regents;
- (4) Requiring the Council to be selected and to operate in a wholly nonpartisan manner;
- (5) Requiring appointees to the Council to be individuals who are widely viewed as having placed the broad public interest ahead of special interests and have achieved a high level of prominence in their profession and are respected by the community;
- (6) Providing for staggered terms on the Council by requiring that the three members initially appointed to the Council by the Governor, President of the Senate, and Speaker of the House of Representatives, serve for terms of two years;
- (7) In the case of a vacancy on the Council:
 - (a) Requiring a successor to be appointed in the same manner and subject to the same qualifications as the person's predecessor; and
 - (b) Requiring the successor to serve for the remainder of the term of the person's predecessor;
- (8) Prohibiting individuals from running for or holding any other elected office under the United States, the State, or its political subdivisions, while a member of the Council;
- (9) Specifying that a majority of the Council constitutes a quorum to do business, and the concurrence of a majority of all the members to which the Council is entitled is necessary to make any action of the Council valid;

- (10) Requiring the Council to meet annually and at other times as necessary and exempting its meetings from the Sunshine Law, chapter 92, HRS; and
- (11) Specifying that Council members are to serve without compensation but will be reimbursed for expenses necessary for the performance of their duties.

Your Committee on Conference has also amended this bill by changing the BOR as follows:

- (1) Increasing its membership from 12 to 15 members;
- (2) Providing for staggered terms on the BOR by requiring the Governor to reduce the terms of those initially appointed to each seat on the BOR so as to provide, as far as practicable, for the expiration of three terms each year, excluding the student member;
- (3) Providing that at least ten members, except for the student member, shall represent specific geographic areas;
- (4) Clarifying that the term of each BOR member shall be for five years except as provided for the initial appointment in section 26-11, HRS;
- (5) Allowing a BOR member to serve beyond the expiration date of the member's term until the member's successor has been appointed and confirmed by the Senate, rather than until the successor has been appointed, has qualified, and has been confirmed by the Senate; and
- (6) Clarifying that BOR members shall serve no more than two consecutive five-year terms, and if a member is to be appointed to a second term, the Senate must consider the question of whether or not to reconfirm the member at least 120 days prior to the conclusion of the member's first term.

Finally, your Committee on Conference has amended this bill by:

- (1) Changing the effective date to July 1, 2007; provided that section 1 shall take effect upon the ratification of the constitutional amendment providing for the creation of the Council; and
- (2) Making technical, nonsubstantive amendments for clarity, consistency, and style.

The intent of your Committee on Conference is to improve the BOR member selection process by ensuring, as much as practicable, that the candidates for the BOR are well-qualified individuals who will place the health and vitality of UH and its students, faculty, and administration above personal gain and to remove as much political influence or pressure as possible from the process.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 1257, S.D. 2, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 1257, S.D. 2, H.D. 2, C.D. 1.

Conf. Com. Rep. No. 181 on S.B. No. 179

The purpose of this measure is to address Hawaii's critical affordable housing and homelessness problem by, among other things:

- (1) Providing flexibility to the counties in their land use density restrictions to allow for the development of low-income housing rentals;
- (2) Establishing a general excise tax exemption for developers of certified housing projects when:
 - (a) At least fifty per cent of the available units are for households with incomes at or below eighty per cent of the median family income; and
 - (b) At least twenty per cent are for households with incomes at or below sixty per cent of the median family income;
- (3) Providing that through June 29, 2010, the Rental Housing Trust Fund (Trust Fund) loans and grants to developers may be provided when fifty per cent or more of the available units are for persons with incomes at or below eighty per cent, instead of sixty per cent, of the median family income and establishing an order of priority in which the loans and grants may be provided;

- (4) Authorizing mixed finance development of public housing units;
- (5) Requiring that the Housing and Community Development Corporation of Hawaii's (Corporation) yearly report describe its efforts to develop rental housing projects for families with incomes less than thirty per cent of the median income, describe the proposals submitted and action taken on them, and the barriers to the development of units for this target group;
- (6) Establishing a sliding scale for the payment of conveyance taxes;
- (7) Exempting, from the conveyance tax, conveyances by nonprofit and for profit organizations certified for low-income housing development;
- (8) Increasing the amount of conveyance taxes transferred into the Trust Fund from twenty-five to fifty per cent;
- (9) Making it a priority for the Corporation to fund rental housing projects that provide:
 - (a) At least five per cent of the total number of units for persons and families with incomes at or below thirty per cent of the median family income; and
 - (b) A maximum number of units for persons or families with incomes at or below eighty per cent of the median family income;
- (10) Increasing the low-income housing tax credit to fifty per cent of the applicable percentage of the qualified basis of each building located in Hawaii;
- (11) Appropriating general revenue funds into the Trust Fund;
- (12) Declaring a moratorium on demolition of decommissioned public housing until it can be determined whether or not to rehabilitate them;
- (13) Offering decommissioned public housing that will not be rehabilitated by the Corporation to nonprofit and for profit entities or government agencies for rehabilitation into emergency transitional shelter facilities or rental units;
- (14) Requiring the organizations and agencies that rehabilitate decommissioned units to set aside at least fifty per cent of the units to persons or families with incomes at or below fifty per cent of the area median family income;
- (15) Appropriating general revenue funds for the expansion of emergency and transitional shelter facilities serving the homeless upon meeting certain conditions;
- (16) Refocusing the Corporation's housing developments on lower cost housing projects serving only persons with incomes one hundred forty per cent or less of the area median income;
- (17) Authorizing funds in the Dwelling Unit Revolving Fund to be used for expenses related to permanent primary or secondary financing and low-income housing tax credits;
- (18) Splitting the Corporation into two entities:
 - (a) The Hawaii Public Housing Administration (Housing Administration) to perform the function of developing and maintaining public housing; and
 - (b) The Hawaii Housing Finance and Development Administration (Development Administration) to perform the function of housing financing and development;
- (19) Repealing the Trust Fund Advisory Commission;
- (20) Establishing a Legislative Affordable Rental Housing and Homeless Task Force; and
- (21) Establishing procedures that allow Corporation funds to be expended by the Department of Budget and Finance in the event of federal action prior to the effective date of the separation of the Corporation;

Understanding the importance this measure has on facilitating the proliferation of much-needed affordable housing in the State, your Committee on Conference diligently deliberated on crafting a workable solution to ameliorate the State's affordable housing crisis. Basing its solutions on the recommendations made by the Affordable Housing Task Force established pursuant to S.C.R. No. 135, S.D. 1, of the 2004 Regular Session, your Committee on Conference also endeavored to find additional solutions to the affordable housing problem.

Your Committee on Conference expressed its support for military personnel, National Guard members, and reservists in their need for affordable housing by considering the establishment of an exemption for military housing allowances in determining eligibility for affordable rental housing. However, because the Corporation already excludes military housing allowances, it was not necessary to include the provision in this measure.

While this measure takes extraordinary steps to ease the burden of Hawaii's affordable housing and homeless crisis, your Committee on Conference recognizes that other measures passed by this Legislature will significantly contribute to helping people face Hawaii's housing shortage:

- H.B. No. 1308 reallocates the distribution of the collected conveyance taxes by increasing the percentage allotted to the Rental Housing Trust Fund from twenty-five to thirty per cent; and
- H.B. No. 100, the General Appropriations Act of 2005-2007, appropriates \$1,650,000 in each year of the 2005-2007 fiscal biennium for the expansion and operation of emergency and transition shelter facilities serving the homeless.

Upon further consideration, your Committee on Conference has amended the measure by:

- (1) Deleting provisions relating to amending the conveyance tax rates and allocations;
- (2) Expediting the splitting of the Corporation into two entities by moving the effective date of the metamorphosis from July 1, 2007, to July 1, 2006;
- (3) Requiring the Corporation to establish an implementation plan, report, and proposed legislation on the reorganization;
- (4) Deleting the requirement that at least three members of the Corporation's board of directors be community advocates for low-income housing and that no more than four members on the board be from the same political party;
- (5) Adding a provision that requires that a representative from the counties' continuum of care systems sit on the Corporation's board of directors until July 1, 2006;
- (6) Reducing the membership of the Joint Legislative Housing and Homeless Task Force from eighteen to eight and expanding its scope;
- (7) Clarifying the procedures that allow Corporation funds to be expended by the Department of Budget and Finance in the event of federal action prior to the effective date of the separation of the Corporation;
- (8) Making numerous clarifying amendments; and
- (9) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of S.B. No. 179, S.D. 3, H.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as S.B. No. 179, S.D. 3, H.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. No. 182 on H.B. No. 384

The purpose of this bill is to help ensure that indigent criminal defendants are represented by competent counsel by increasing the hourly rates and maximum fees for court-appointed attorneys. Specifically, this bill:

- (1) Raises the hourly rate of compensation for appointed counsel to \$90 for all services;
- (2) Doubles the maximum allowable amounts in the current fee schedule for appointed counsel; and
- (3) Clarifies the types of family court cases that are included in the maximum fee schedule.

Your Committee on Conference finds that the current statutory rates of compensation for court-appointed counsel were last amended in 1987, and that fee increases will assist the courts in attracting competent counsel to represent indigent defendants.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 384, H.D. 2, S.D. 2, C.D. 1, and recommends that it pass Final Reading.

Signed by the Chairs on behalf of the Committee.

Conf. Com. Rep. No. 183 on H.B. No. 1378

The purpose of this bill is to improve the laws governing the issuance of temporary restraining orders (TROs) and protective orders in family court proceedings.

Among other things, this measure:

- (1) Mandates the disclosure of a pending divorce, separation, annulment, maintenance, or any other family court proceeding on a petition for a TRO or protective order;
- (2) Provides that prior to granting a TRO, if the family court judge deems it appropriate, the judge may meet in camera with the petitioner to determine the merit of the petitioner's allegations;
- (3) Permits a court to allow supervised visitation of children shared by the petitioner and respondent even after a TRO petition has been granted, provided that the children are not named in the TRO petition and visitation is in the children's best interests; and
- (4) Mandates that the rendering court forward all subsequent decrees relating to the divorce or child custody proceeding to the court having jurisdiction over the petition for a protective order.

Your Committee on Conference has amended this bill by:

- (1) Deleting the terms "domestic" and "physical" that limit the types of abuse that could justify the issuance of a TRO;
- (2) Deleting the provision that stipulated that prior to granting a TRO, if the family court judge deems it appropriate, the judge may meet in camera with the petitioner to determine the merit of the petitioner's allegations;
- (3) Eliminating the requirement to disclose any impending divorce, separation, annulment, separate maintenance, or any other proceeding involving the custody of a minor child pending between the parties, as well as any prior restraining order issued;
- (4) Removing the provision that allowed supervised visits between a petitioner and respondent who have a child or children who are not named in a TRO;
- (5) Removing the provision that mandated that the rendering court forward all subsequent decrees relating to the divorce or child custody proceeding to the court having jurisdiction over the petition for a TRO;
- (6) Inserting permissive language to allow courts discretion in applying TROs to other proceedings;
- (7) Changing the effective date to upon approval; and
- (8) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1378, H.D. 1, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1378, H.D. 1, S.D. 2, C.D. 1.

Conf. Com. Rep. No. 184 on H.B. No. 1733

The purpose of this bill is to enhance law enforcement tools by establishing a statewide deoxyribonucleic acid (DNA) database and data bank identification program for all convicted felons. Among other things, this bill:

- (1) Delineates procedures and duties for the collection, analysis, and storage of DNA samples;
- (2) Specifies the types of offenders subject to the collection of DNA samples;

- (3) Provides for the destruction of DNA samples and expungement of the searchable database profile of a person whose underlying conviction has been reversed;
- (4) Provides confidentiality for DNA information and penalties for violations thereof;
- (5) Authorizes post-conviction DNA testing and provides court procedures in accordance with test results;
- (6) Extends the statute of limitations for felony cases in which DNA evidence from an unknown offender is recovered and tested prior to expiration of the usual limitation period for the felony;
- (7) Establishes an additional penalty of \$1 for every \$10 of any fine or penalty collected by the courts for all criminal and traffic offenses, excluding parking offenses, to help fund the DNA program; and
- (8) Appropriates unspecified funds for fiscal year 2005-2006 to carry out the new DNA testing provisions, including reimbursements to the county police departments and the Department of Public Safety (DPS) for costs incurred in implementing the new provisions.

Your Committee on Conference has amended this measure by reverting to the H.D. 2 draft of this bill, which, among other things:

- (1) Requires DNA testing of all felons;
- (2) Provides procedures and duties for the collection and testing of DNA samples;
- (3) Establishes a procedure for deletion of DNA profiles for a person whose underlying conviction has been reversed;
- (4) Extends the statute of limitations for felony cases where DNA evidence has been recovered;
- (5) Requires retention of evidence that can be used for DNA analysis;
- (6) Establishes procedures for post-conviction requests for analysis of DNA evidence;
- (7) Requires notice to victims of proceedings and outcomes for post-conviction DNA testing;
- (8) Requires notice to probation and parole authorities of outcomes adverse to the defendant after post-conviction DNA testing; and
- (9) Appropriates funds for fiscal year 2005-2006 to implement the new DNA program.

Upon further consideration, your Committee on Conference has also amended this bill by:

- (1) Adding definitions for the terms “autoradiograph,” “buccal swab,” “DNA or forensic identification markers,” and “profile”;
- (2) Deleting the provisions:
 - (A) Governing the requirements for implementation of the new DNA program, including provisions requiring the county police departments and DPS to adopt rules in accordance with chapter 91, Hawaii Revised Statutes;
 - (B) Requiring the DNA program’s methodology and procedures to be made public;
 - (C) Imposing an additional penalty of \$1 for every \$10 of every fine or penalty collected by the courts for all criminal and traffic offenses, excluding parking offenses, to help fund the DNA program; and
 - (D) Appropriating funds to implement the new DNA program; and

and
- (3) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1733, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1733, H.D. 2, S.D. 2, C.D. 1.

Representatives Luke, Lee, Marumoto.
Managers on the part of the House.
Ayes, 3. Noes, none. Excused, none.

Conf. Com. Rep. No. 185 on H.B. No. 1747

The purpose of this bill is to amend the campaign spending laws by, among other things:

- (1) Limiting campaign contributions from banks, corporations, and nonresident individuals and persons;
- (2) Establishing a public funding program for the Office of the Prosecuting Attorney;
- (3) Clarifying the disposition of campaign contributions; and
- (4) Applying electronic filing requirements to the State Senate, State House of Representatives, and the Office of Hawaiian Affairs.

Your Committee on Conference notes in particular the provisions of this measure establishing new limits on out-of-state contributions. Over the years, Hawaii has been influenced by out-of-state interests. Residents and outside interests have long fought over the development of our land, expansion of our economy, and other social policies. Unrestrained out-of-state contributions to candidates for elective office could continue to influence decisions that adversely affect the people of Hawaii. Restrictions on nonresident contributions will ensure that elected officials are not disproportionately influenced by outside interests.

Your Committee on Conference has amended this measure by, among other things:

- (1) Prohibiting campaign fundraising on certain state or county property;
- (2) Amending the new provision limiting contributions from nonresidents as follows:
 - (A) Clarifying that the contribution limit applies to persons who are nonresidents when contributions are made;
 - (B) Applying the contribution limit to noncandidate committees organized under the laws of another state and whose participants are nonresidents; and
 - (C) Amending the contribution limit, from 30 percent of the total contributions received by a candidate or candidate's committee in an election period, to 20 percent of the total contributions for each reporting period;
- (3) Removing the new limitation on contributions or expenditures by banks or corporations;
- (4) Deleting the provisions and accompanying amendments relating to public funding for elections to the Office of the Prosecuting Attorney;
- (5) Amending the new definitions of "clearly identified", "residual funds", and "separate segregated fund", and restoring the definition of "advertisement", in the campaign spending law;
- (6) Amending the requirements for filing organizational reports;
- (7) Removing the provision that a noncandidate committee's contribution limits to a candidate or candidate's committee shall be the same as for any other person or entity;
- (8) Clarifying that the prohibition on contributions by state and county contractors applies to the specific contracting entity and not to individuals associated with the contractor, such as the individual owners of a contracting entity;
- (9) Including labor organizations among the entities that may establish, administer, or solicit contributions to a separate segregated fund;
- (10) Deleting the provision that any loan, other than a loan from the candidate or immediate family members, that is not repaid within a calendar year must be deemed a contribution;
- (11) Providing that surplus funds may be used after a general or special election for contributions to any community service, educational, youth, recreational, charitable, scientific, or literary organization; provided that no contributions from campaign funds shall be made from the date the candidate files nomination papers to the date of the general election;
- (12) Amending the matching funds paid to publicly funded candidates, to \$1 for each \$1 of qualifying contributions in excess of the minimum amount of qualifying contributions; and
- (13) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1747, H.D. 1, S.D. 1, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1747, H.D. 1, S.D. 1, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Hanabusa, Taniguchi, English, Hee, Trimble.
Managers on the part of the Senate.
Ayes, 4. Noes, none. Excused, 1 (Trimble).

Representatives B. Oshiro, Kawakami, Karamatsu, Thielen.
Managers on the part of the House.
Ayes, 4. Noes, none. Excused, none.

Conf. Com. Rep. No. 186 on H.B. No. 1309

The purpose of this bill is to improve public transportation by allowing the counties to, temporarily, levy a limited county surcharge on state general excise and use taxes to fund operating or capital costs for public transportation systems. Among other things, this measure:

- (1) Requires counties that choose to establish a county surcharge to do so by ordinance adopted after a duly noticed public hearing;
- (2) Requires that, to initiate the surcharge, a county must adopt an enabling ordinance by December 31, 2005;
- (3) Requires that, prior to the state Director of Taxation assessing, levying, and collecting any surcharge adopted by a county, the authorizing county must first notify the Governor, who in turn must direct the state Director of Taxation to begin assessing, levying, and collecting the surcharge;
- (4) Establishes that, in addition to the ordinance adoption and other requirements, no surcharge adopted by a county with a population of greater than five hundred thousand shall become effective unless federal moneys have been committed to the mass transit project to be funded by the surcharge;
- (5) Restricts the use of surcharge proceeds in counties with a population greater than five hundred thousand to only fixed rail rapid transit system projects and expenses associated with Americans with Disabilities Act of 1990 compliance;
- (6) Establishes a county surcharge on state tax credit to offset the tax burden incurred by taxpayers who reside in a county that adopts a surcharge;
- (7) Requires that the county surcharge on state tax credits be paid with a portion of the revenues generated by the surcharge;
- (8) Prohibits the counties from setting the county surcharge at a rate greater than one-half per cent of:
 - (A) The value of property taxable under the use tax;
 - (B) All gross proceeds and gross income taxable under the general excise tax;
- (9) Establishes that no surcharge shall take effect prior to January 1, 2007;
- (10) Requires the proceeds of the surcharge to be paid over to the counties on an annual basis; and
- (11) Allows rental car dealers to pass on the surcharge to lessees.

Your Committee on Conference finds that population growth and increased development have resulted in a substantial increase in the number of vehicles using our roadways which will result in greater traffic congestion over the next decade. With increased traffic congestion comes an expected increase in lost revenues, lost productivity, and lost time spent with families which is currently being experienced.

Although Oahu currently experiences the greatest traffic problems, traffic congestion is no longer a single county issue and is quickly becoming an issue of statewide concern. Hawaii County, Maui County, and Kauai County are all experiencing traffic congestion, the likes of which have never before been seen on these islands. These counties also need to have the ability to address their traffic needs and concerns, which this measure seeks to address.

However, your Committee on Conference is also cognizant of the financial impact the imposition of a county surcharge will have on resident taxpayers. Nevertheless, your Committee on Conference feels that providing the counties with necessary authority to finance their mass transit needs while respecting each county's diverse transportation requirements is a prudent approach to resolving Hawaii's traffic problems.

Your Committee on Conference also notes that the most visited and practical approach to resolving Oahu's current traffic problems is to establish a fixed rail line. It is the intent of your Committee on Conference that the funds realized by a county surcharge on state tax initiated by the City and County of Honolulu be used first for the establishment of a fixed rail mass transit system.

After careful consideration, your Committee on Conference has amended this measure by:

- (1) Deleting the requirement that, prior to the state Director of Taxation assessing, levying, and collecting any surcharge adopted by a county, the authorizing county must first notify the Governor, who in turn must direct the state Director of Taxation to begin assessing, levying, and collecting the surcharge;

- (2) Requiring that the authorizing county notify the state Director of Taxation within ten days after adopting a surcharge on state tax ordinance;
- (3) Deleting the provision establishing a county surcharge on state tax credit to offset the tax burden incurred by taxpayers who reside in a county that adopts a surcharge;
- (4) Deleting requirements that the county surcharge on state tax credits be paid with a portion of the revenues generated by the surcharge;
- (5) Clarifying that the use of surcharge proceeds in counties with a population greater than 500,000 shall be restricted to a locally preferred alternative for a mass transit project and expenses associated with Americans with Disabilities Act of 1990 compliance;
- (6) Clarifying that the surcharge on state use tax is applicable to property and services to conform language to the current use tax law;
- (7) Inserting a provision allowing for the deduction of ten percent of the gross proceeds of a respective county's surcharge on state tax to reimburse the State for costs of assessment, collection, and disposition of the county surcharge on state tax incurred by the State;
- (8) Requiring that the proceeds of the surcharge be paid over to the counties on a quarterly rather than an annual basis;
- (9) Changing the effective date to upon its approval;
- (10) Inserting language stipulating that:
 - (A) If none of the counties of the State adopt an ordinance to levy a county surcharge on state tax by December 31, 2005, this Act shall be repealed;
 - (B) If any county does not adopt an ordinance to levy a county surcharge on state tax by December 31, 2005, it shall be prohibited from adopting such an ordinance pursuant to this Act, unless otherwise authorized by the Legislature through a separate legislative act;
 - (C) If an ordinance to levy a county surcharge on state tax is adopted by December 31, 2005:
 - (i) The ordinance shall be repealed on December 31, 2022;
 - (ii) This Act shall be repealed on December 31, 2022; and
 - (iii) Section 437D-8.4, Hawaii Revised Statutes, shall be reenacted in the form in which it read on the day prior to the effective date of this Act.

and

- (11) Making technical, nonsubstantive amendments for clarity, consistency, and style.

As affirmed by the record of votes of the managers of your Committee on Conference that is attached to this report, your Committee on Conference is in accord with the intent and purpose of H.B. No. 1309, H.D. 2, S.D. 2, as amended herein, and recommends that it pass Final Reading in the form attached hereto as H.B. No. 1309, H.D. 2, S.D. 2, C.D. 1.

Signed by the Chairs on behalf of the Committee.

Senators Taniguchi, Ige, Inouye, Espero.
Managers on the part of the Senate.
Ayes, 3. Noes, none. Excused, 1 (Ige).

Representatives Souki, Takamine, Karamatsu, Lee, Yamane, Fox.
Managers on the part of the House.
Ayes, 5. Noes, none. Excused, 1 (Fox).

STANDING COMMITTEE REPORTS

SCRep. 1 Ways and Means on S.B. No. 543

The purpose of this measure is to authorize funds for the current session and nonsession expenses of the Legislature through June 30, 2006. The measure also authorizes funds for the expenses of the:

- (1) Office of the Auditor;
- (2) Legislative Reference Bureau;
- (3) Office of the Ombudsman;
- (4) Legislative information system; and
- (3) Legislative broadcast program.

Your Committee finds that this measure is necessary for the work of the Legislature and its service agencies in the legislative branch of government.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 543 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 8. Noes, none. Excused, 7 (Inouye, Kanno, Kim, Nishihara, Sakamoto, Hemmings, Trimble).

SCRep. 2 (Majority) Human Services on S.B. No. 244

The purpose of this short form measure is to amend the law relating to long-term care.

Your Committee has amended this measure by replacing its contents with language that establishes a long-term care resource program initiative at Kapiolani community college to develop an adaptable model for expanding the State's workforce capacity for home- and community-based care to effectively care for Hawaii's aging population.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 244, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 244, S.D. 1, and be recommitted to the Committee on Human Services, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 3 Business and Economic Development on S.B. No. 162

The purpose of this short form measure is to amend the law related to sports.

Your committee has amended this measure by replacing its contents with language that establishes the Hawaii Office of Sports Promotion for marketing, promoting, developing, and coordinating sports-related activities and events.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 162, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 162, S.D. 1, and be recommitted to the Committee on Business and Economic Development, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 4 Health on S.B. No. 123

The purpose of this measure is to provide greater flexibility to the Hawaii Health Systems Corporation to purchase and contract for services.

Hawaii Health Systems Corporation, Healthcare Association of Hawaii, the Chamber of Commerce of Hawaii, Hawaii Government Employees Association, and four individuals submitted testimony in support of this measure. Diagnostic Laboratory Services, Inc., submitted testimony in opposition. The State Procurement Office submitted comments.

Your Committee finds that increased flexibility, autonomy, and streamlined procurement processes are fundamental to the effective delivery of quality health care by the Hawaii Health Systems Corporation. The procurement code is not set up to accommodate the rapid, time-sensitive competitive needs of a modern health care system.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 123 and recommends that it pass Second Reading and be referred to the Committee on Transportation and Government Operations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 5 Media, Arts, Science and Technology on S.B. No. 332

The purpose of this short form measure is to amend the law relating to technology.

Your Committee has amended this measure by replacing its contents with language that exempts the High Technology Development Corporation and the Natural Energy Laboratory of Hawaii from the procurement requirements of chapter 103D, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 332, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 332, S.D. 1, and be recommitted to the Committee on Media, Arts, Science, and Technology, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Ihara, Hogue).

SCRep. 6 (Joint) Health and Judiciary and Hawaiian Affairs on S.B. No. 128

The purpose of this measure is to transfer the administration of the State's program for the medicinal use of marijuana from the Department of Public Safety to the Department of Health, and to change certain procedures and definitions to make the program more efficient and more user-friendly to the seriously ill patients who register with the program.

The Drug Policy Action Group, Drug Policy Forum of Hawaii, Life Foundation, Harm Reduction Hawai'i, the League of Women Voters of Hawaii, and four individuals submitted testimony in support of this measure. The Department of Health, the Department of Public Safety, the Kauai Office of the Prosecuting Attorney, the Honolulu Department of the Prosecuting Attorney, and the Honolulu Police Department submitted testimony in opposition.

Your Committees find that the mission of the Department of Health is to provide leadership to monitor, promote, and enhance the health and environmental well-being of all of Hawaii's people. The use of medical marijuana is properly regarded as a health issue, not simply as an exception to the State's laws on controlled substances, so the medical marijuana program would more properly be housed in the Department of Health rather than the Department of Public Safety.

Your Committees note that no other state places its medical marijuana program in its public safety department, and that most are placed in the health department, with a few in the human services and agriculture departments.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 128 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 3 (Hee, Ihara, Tsutsui).

SCRep. 7 Judiciary and Hawaiian Affairs on Gov. Msg. No. 78

Recommending that the Senate consent to the nomination of the following:

CIRCUIT COURT OF THE THIRD CIRCUIT, STATE OF HAWAII

ELIZABETH ANN STRANCE, for a term of ten years

Testimony in support of the nominee was submitted by the Hawaii State Bar Association, West Hawaii Bar Association, the Hawaii County Committee on the Status of Women, fifteen attorneys, and twenty-one individuals.

The Board of Directors of the HSBA has found the nominee to be highly qualified to serve as a judge in the Circuit Court in the Third Circuit. As part of the HSBA Board's procedures for taking a position on judicial appointments, the candidate is asked to submit a resume, respond to a questionnaire, and appear before the Board to answer questions. The HSBA Board utilizes a modified version of the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. These Guidelines include the following criteria for judicial positions: integrity, legal knowledge and ability, professional experience, judicial temperament, diligence, financial responsibility, public service, collegiality, and writing ability.

Similarly, the West Hawaii Bar Association also found her highly qualified.

Your Committee finds that the nominee received a B.S. degree from Willamette University and earned a J.D. degree from Northwestern School of Law of Lewis & Clark College. The nominee has been licensed to practice law in Hawaii since 1988 and served as an associate attorney and partner in a number of local law firms. Presently, the nominee serves as a Per Diem Judge in the District and Family Courts in the Third Circuit and maintains a private law practice.

Your Committee has reviewed the personal history, resume, and statements submitted by the nominee and find the nominee to have the necessary qualifications and legal experience to be appointed to the position of nomination.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 8 Water, Land, and Agriculture on S.B. No. 50

The purpose of this measure is to appropriate funds to provide Waianae Organic Agriculture Center with half of its operational expenses.

Testimony in support of this measure was submitted by the Department of Agriculture, the Leeward Community College, the University of Hawaii's Office of Sustainability Hawaii Energy House, a Maui County Council member, Hawaiian Alliance for Responsible Technology & Science, Hawaii Farm Bureau, Respiratory & Environmental Disabilities Association of Hawaii, and seventeen individuals.

Your Committee finds that the Waianae region of Oahu suffers from poor food security in Hawaii, making the availability of nutritionally adequate and safe foods limited or uncertain. Thus, this measure will promote and support the improvement of the Waianae community's food security by linking higher education, applied research, and organic food production together for a more secure future.

Your Committee has amended this measure to:

- (1) Require matching federal or private funds to be obtained in order to receive state appropriated money; and
- (2) Make technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 50, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 50, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 9 (Majority) Human Services on S.B. No. 14

The purpose of this measure is to expand the coverage of QUEST-Net to include non-QUEST eligible persons who are employed but do not qualify for employer-based private health insurance.

Testimony in support of this measure was submitted by the Healthcare Association of Hawaii and the Hawaii Disability Rights Center. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that a significant amount of the one hundred twenty thousand people in Hawaii who lack health insurance work part-time and do not qualify for the statutorily required employer-sponsored prepaid health insurance coverage. The expansion of the program would cover an eligible enrollee and his or her children.

Your Committee has amended this measure by adding an appropriation for the 2006-2007 fiscal year and making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 14, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 14, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 10 (Majority) Human Services on S.B. No. 24

The purpose of this measure is to ensure that Hawaii's medicaid program fairly reimburses providers for providing medical care services to eligible medicaid recipients, both through fee for service and the QUEST program.

Testimony in support of this measure was submitted by the Healthcare Association of Hawaii. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that Hawaii's medicaid and QUEST reimbursement rates for medical care are inadequate to cover the cost of providing medical care services. These reimbursement rates have only marginally increased in the past several years. If the State does not contribute its fair share to cover these costs, providers of medical care will inevitably turn to private payers to make up the difference. In turn, this cost shifting will invariably increase the cost of health care for Hawaii's employers. Thus, your Committee believes that Hawaii's medicaid program fairly reimburses providers for providing medical care services to eligible medicaid recipients.

Your Committee adopted an amendment to appropriate \$34.8 million to pay providers of medical care the current medicaid fee schedule.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 24, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 24, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 11 (Majority) Human Services on S.B. No. 112

The purpose of this measure is to appropriate funds to provide basic dental services for covered adults enrolled in MedQUEST programs.

Testimony in support of this measure was received from Hawaii Disability Rights Center, Hawaii Primary Care Association, Kalihi-Palama Health Center, Mental Health Association in Hawaii, National Alliance for the Mentally Ill, Papa Ola Lokahi and two individuals. Testimony in opposition was received from the Department of Human Services.

Your Committee finds that oral health and other health conditions often go hand in hand, including associations between chronic oral infections and diabetes, heart and lung disease, stroke and low-birth-weight births. These conditions are more costly to treat than effective oral health care. In addition, poor oral health and its affect on a person's appearance are linked to reduced school attendance and poorer prospects for getting and maintaining employment. Thus, your Committee believes basic dental services should be provided to adults enrolled in MedQUEST programs.

Your Committee amended the bill by appropriating \$20,272,662 from the state general funds after it was determined that the need for the program was \$48,814,500. The remainder of the funding, \$28,541,838, will be provided by the federal government.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 112, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 112, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 12 Human Services on S.B. No. 27

The purpose of this measure is to appropriate funds for the Kapiolani C.A.R.E. program to continue offering forensic health care services to children who are victims or suspected victims of abuse and neglect.

Your Committee received testimony in support of the measure from the Good Beginnings Alliance, Hawaii Family Support Institute, Hawaii Foster Parent Association, Kapiolani Child At-Risk Evaluation (C.A.R.E.) Program and two individuals. Your Committee received testimony in opposition to the measure from the Department of Human Services.

Your Committee finds that over two thousand five hundred children are abused and neglected each year in Hawaii. The Kapiolani C.A.R.E. program provides the sole source of medical expertise in the field of physical abuse on Oahu, and it is the only medical program available to assist child-abuse related health problems. C.A.R.E. offers pre-placement medical evaluations for children entering foster care, and forensic medical evaluations for children who are being investigated for allegations of abuse and neglect. The program also provides information to Child Welfare Services for the purposes of providing evidence in cases of abuse and neglect and lessening the risk of erroneous accusations. In the interests of keiki care, this program provides comprehensive, coordinated, and compassionate forensic care to children who are suspected victims of abuse and neglect.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 27 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 13 Commerce, Consumer Protection and Housing on S.B. No. 742

The purpose of this measure is to extend the Department of Commerce and Consumer Affairs' authority to adjust fees and other nontax revenues to all fees and nontax revenues within its jurisdiction.

The Department of Commerce and Consumer Affairs (DCCA), The Chamber of Commerce of Hawaii, Hawaii Association of Realtors, Retail Merchants of Hawaii, and Building Industry Association of Hawaii testified in support of this measure.

Currently, DCCA has statutory authority to adjust some of its fees and other nontax revenues to maintain a reasonable relationship between the cost of providing services and revenues collected. Pursuant to this authority, the Department implemented savings of between twenty-five and fifty per cent in fees this year for initial business filings and on-line renewals.

This measure proposes to extend that authority to all fees and nontax revenues collected by the Department. Your Committee finds that this measure establishes a more equitable system of regulation, and will enable DCCA to expeditiously adjust fees to respond to changing economic conditions and to better align revenue collections with expenditures.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 742 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 14 Commerce, Consumer Protection and Housing on S.B. No. 1135

The purpose of this measure is to exempt credit card fees from the credit card usury cap and to clarify the definition of "interest" under the usury law.

The Hawaii Financial Services Association, Hawaii Bankers Association, and Hawaii Credit Card League testified in support of this measure.

Ninety per cent of Hawaii's credit card market is controlled by non-state-chartered financial institutions that are not subject to Hawaii's usury laws and which, therefore, operate at an advantage over Hawaii-chartered financial institutions. The latter are subject to state usury laws that limit the annual interest rate on credit cards to eighteen per cent. This limit applies to both the numeric periodic rate, which is the advertised rate, and any fee that is considered a finance charge under the federal Truth in Lending Act, such as a cash advance fee imposed for withdrawing funds on a credit card from an automated teller machine.

Your Committee finds that this measure helps to level the playing field by providing that the eighteen per cent annual interest rate limit on credit cards applies only to the numeric periodic rate and not to finance charges. Presently, most credit card fees are not considered to be finance charges and are already excluded from the usury limit; therefore, this proposed change does not represent a broad departure from current law. However, this measure will allow state-chartered financial institutions to compete more effectively against out-of-state banks that may assess cash advance and other fees against their customers to recoup their costs and cover their risks.

Additionally, this measure clarifies the types of fees that constitute "interest" under Hawaii usury law to facilitate out-of-state credit card lending by state-chartered financial institutions.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 15 Health on S.B. No. 792

The purpose of this measure is to appropriate moneys to prevent the reduction or discontinuance of services to patients at Hawaii State Hospital and services for the target population as defined and required by the federal court-ordered community plan for mental health services.

The State Department of Health submitted testimony in support of this measure.

Your Committee finds that although funds were appropriated to the Department of Health for adult mental health services for the fiscal period beginning July 1, 2004 and ending June 30, 2005, a critical funding emergency now exists. The program will expend all appropriated funds before the end of the current fiscal year, and the Department will be unable to meet its fiscal obligation to provide services to certain adults with severe mental illness. An emergency appropriation is needed to fund continued services and activities to patients at Hawaii State Hospital, to continue and implement additional services in the community to comply with the HSH Settlement Agreement and to meet the service needs of an increasing number of persons served by the Adult Mental Health Division. This request is based on projections of actual expenditures rather than a hypothetical model.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 792 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 16 Water, Land, and Agriculture on S.B. No. 999

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the repair and modification of the Hana Wharf and Small Boat Harbor in Hana, Maui.

Testimony in support of this measure was submitted by Hotel Hana-Maui and one individual. Testimony in opposition of this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the wharf and small boat harbor are important to the Hana community because they provide an alternate means of access to the remote area. However, your Committee further finds that the Hana Wharf and Small Boat Harbor are both in serious need of repairs and modifications due to damage incurred during recent storms and high surf. This measure will authorize the funds to make the necessary repairs and modifications.

Your Committee has deleted the dollar amount of the bond authorization and left it blank for determination by the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 999, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 999, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 17 Water, Land, and Agriculture on S.B. No. 1680

The purpose of this measure is to require that at least one member of the Board of Agriculture and the Board of Land and Natural Resources have a background, knowledge, and demonstrated experience in the board's subject area.

The Department of Agriculture and Department of Land and Natural Resources submitted comments on the measure.

Your Committee finds that both the Board of Agriculture and the Board of Land and Natural Resources work with specialized subject areas. However, the member requirements for both boards do not specifically provide that any members have a background in the boards' subject areas.

The Department of Agriculture submitted testimony suggesting that a change of the Board of Agriculture's requirements is unnecessary because the Hawaii Revised Statutes already provide that the "majority of the members of the board shall be from the agricultural community or the agricultural support sector." Your Committee further finds that there is no similar provision for the Board of Land and Natural Resources. Thus, this measure will provide requirements for at least one member of the Board of Land and Natural Resources to have a background in the board's subject area.

Your Committee has amended this measure by adopting the comments of the Department of Agriculture. Specifically, your Committee deleted the new provisions that require at least one of Board of Agriculture members to have a background in agriculture.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1680, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1680, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 18 Water, Land, and Agriculture on S.B. No. 895

The purpose of this measure is to preserve and sustain the limu supply by establishing a limu management area for the shoreline in Ewa Beach, Oahu.

Testimony in support of this measure was submitted by the Coordinating Group on Alien Pest Species, the Nature Conservancy, and four individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources and one individual.

Your Committee finds that limu grown in its natural habitat serves as the foundation for healthy Hawaiian reef systems, and in recent years, the Ewa Beach community has seen its natural supply of limu rapidly diminishing. Thus, this measure will allow a portion of the Ewa Beach coastline to preserve and sustain its limu supply.

Your Committee has amended this measure by:

- (1) Including persons with commercial fishing licenses in the restriction from picking limu within the established limu management area;

- (2) Creating an advisory group to assist the department of land and natural resources in establishing best management practices for conservation and restoration of the limu management area; and
- (3) Providing that the Act shall be repealed on June 30, 2010.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 895, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 895, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 19 Health on S.B. No. 952

The purpose of this measure is to appropriate funds for a full-time dentist for the mobile care vans of the Office of Social Ministry's Mobile Care Health Project.

The East and West Hawaii Developmental Disabilities Committees of the State Council on Developmental Disabilities, the Office for Social Ministry, and two individuals submitted testimony in support of this measure. The Department of Health submitted testimony in opposition.

Your Committee finds that the mobile care dental clinics are a vital component in serving the dental needs of people in Hawaii County. There are no state dental clinics located in that county, and fifty-five percent of the people in the county are underinsured. Moreover, there are very few dentists willing to accept Medicaid patients and those that do change monthly. According to the 2004 Hawaii Oral Health Profile, four hundred and twenty-eight children had to travel inter-island to receive necessary dental services. The mobility of Mobile Care's dental clinic provides people who are otherwise unable to travel with access to dental services and brings needed dental services to communities that have minimal or no dental care services available.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 952 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 20 Commerce, Consumer Protection and Housing on S.B. No. 179

The purpose of this measure is to amend the law relating to housing.

Your Committee has amended this measure by inserting language that:

- (1) Requires the Housing and Community Development Corporation of Hawaii (HCDCH) to hold a public hearing on a proposed housing project in the community plan area in which the project is to be located;
- (2) Extends the time period for county approval of the proposed project from forty-five days to seventy-five days from submission of the plan by HCDCH; and
- (3) Exempts county decisions on proposed amendments to an approved project from the above seventy-five day deadline.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 179, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 179, S.D. 1, and be recommitted to the Committee on Commerce, Consumer Protection, and Housing, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 21 Commerce, Consumer Protection and Housing on S.B. No. 746

The purpose of this measure is to make the annual fee charged against financial institutions discretionary, rather than mandatory, to permit financial services loan companies to charge borrowers a returned check fee, and to repeal an obsolete filing requirement.

The Department of Commerce and Consumer Affairs and Hawaii Financial Services Association testified in support of this measure.

Currently, the Commissioner of Financial Institutions (Commissioner) is required to collect an annual fee from state-chartered financial institutions, notwithstanding the Commissioner's ability to waive other fees and assessments. This measure grants the Commissioner the authority to also waive the annual fee, if warranted, thereby providing the Commissioner with greater flexibility to administer the fee requirement and to align revenues with expenses from year to year.

Additionally, by allowing a financial services loan company to charge a borrower a returned check fee, this measure recognizes that the lender should not be obligated to absorb the costs it incurs when the borrower tenders a check in payment on the borrower's loan that is returned for nonpayment.

Finally, this measure repeals the requirement that a financial institution file an annual statement of assets and liabilities with the Commissioner. With access to this information readily available directly from the institutions and on federal regulatory web sites, the requirement is no longer necessary to provide information to the public and creates an unwarranted regulatory burden on financial institutions.

Your Committee has amended this measure by making technical changes to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 746, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 746, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 22 Commerce, Consumer Protection and Housing on S.B. No. 764

The purpose of this measure is to authorize and establish procedures for the placement of a security freeze on credit reports by consumers who have been the victims of identity theft.

The Department of Commerce and Consumer Affairs, Department of the Prosecuting Attorney for the City and County of Honolulu, and Honolulu Police Department testified in support of this measure. The Consumer Data Industry Association opposed the measure and the Hawaii Bankers Association provided comments.

This measure establishes the Identity Theft Protection Act of 2005, which is intended to address the problem that occurs when a person's identity is stolen and new lines of credit are subsequently established in that person's name by the identity "thief". Your Committee finds that, in the last year, as many as seven million Americans have been the victims of fraudulently established credit accounts, and businesses have been burdened with up to \$119,000,000,000 in related costs.

This measure enables victims of identity theft to place a "freeze" on the release of their credit history by credit reporting agencies to prevent the unauthorized use of this information to establish new lines of credit.

The security freeze prohibits a credit reporting agency from releasing any information without the consumer's express authorization, and until such time as the consumer has lifted the freeze. The consumer may lift the freeze as to specific third parties or for specific time periods to permit the authorized release of information, and the freeze does not apply in certain situations, such as when government agencies are seeking information pursuant to investigations related to child support, Medicaid fraud, or delinquent taxes. Violators are subject to the sanctions for unfair or deceptive trade acts or practices established in section 480-2, Hawaii Revised Statutes.

Your Committee has amended this measure by making technical changes for the purposes of clarity, consistency, and style, and to correct a statutory reference.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 764, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 764, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 23 Commerce, Consumer Protection and Housing on S.B. No. 744

The purpose of this measure is to clarify ambiguities and correct errors in the State's business registration laws.

The Department of Commerce and Consumer Affairs testified in support of this measure.

This bill is a general housekeeping measure that is necessary to clarify ambiguities and correct errors that have occurred as a result of changes in the Business Registration Division's policies and procedures, and drafting errors. Among other things, this measure:

- (1) Adds a provision on personal liability and penalty that was inadvertently omitted from the limited partnership law;
- (2) Repeals potentially conflicting provisions relating to the effect of a merger and articles of merger;
- (3) Clarifies that service of process may be effected by certified or registered mail if a named agent for service of process is not found within the State;
- (4) Clarifies that the requirement of an entity designation in a registered name does not apply to foreign entities;

- (5) Conforms requirements for administrative dissolution and reinstatement; and
- (6) Corrects the definition of "individual".

Your Committee finds that by updating, clarifying, and establishing greater consistency and uniformity in Hawaii's business registration laws, this measure will facilitate the operation of business entities in this State.

Your Committee has amended this measure by making technical amendments for the purposes of clarity, consistency, and style, and to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 744, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 744, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 24 Health on S.B. No. 568

The purpose of this measure is to authorize the licensure of dental specialists who are already licensed in another state that has licensing standards at least equivalent to Hawaii's standards.

The Board of Dental Examiners and thirty-nine individuals submitted testimony in support of this measure. Eight individuals submitted testimony in opposition.

Your Committee finds that a national dental licensure examination is expected to be implemented in the next year or so. Such an examination will enable dental school graduates to practice in participating states without taking additional state or regional examinations. However, currently licensed out-of-state dental specialists would be required to retake an examination for licensure in Hawaii. This is time-consuming, costly, and prevents experienced, qualified dental specialists from moving their practices to Hawaii.

Your Committee notes that approximately forty-five states have some form of licensing by credential, and that it is appropriate for Hawaii to join their ranks.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 568 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 25 Health on S.B. No. 1229

The purpose of this measure is to authorize the Board of Dental Examiners to grant licenses without examination to dental hygienists who are already licensed in other states with at least equivalent licensing requirements as Hawaii.

The Board of Dental Examiners and twenty-eight individuals submitted testimony in support of this measure.

Your Committee finds that there is a shortage of dental hygienists in Hawaii, with the shortage being critical on neighbor islands. Only twenty or so hygienists graduate from the University of Hawaii, Manoa each year and the majority of the graduates stay on Oahu. Most dental offices are presently in need of a hygienist. This shortage will adversely affect the public because it will take longer for patients to receive routine dental care. In some areas of Hawaii, patients wait up to six months for a regular dental cleaning. The time and cost of the state board examination deter qualified, experienced, out-of-state dental hygienists from moving to Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1229 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 26 Health on S.B. No. 118

The purpose of this measure is to allow the Board of Dental Examiners to accept a national uniform dental and dental hygiene examination for licensure when implemented, and in the interim accept the results of a regional examination for dentists and a regional or state examination for dental hygienists.

The Board of Dental Examiners, Hawaii Dental Hygienists' Association, Hawaii Dental Association, Hawaii Medical Service Association, and four individuals submitted testimony in support of this measure. One individual submitted comments.

Your Committee finds that the future of the dental profession lies in the adoption of more widely accepted regional examinations and ultimately a national examination. This will assure the people of Hawaii that their dentists and dental hygienists are of equal or greater qualification to their counterparts on the mainland and provides portability of this qualification. Hawaii dentists would be able to move their practices to the mainland with less administrative difficulty and expense. It would also be easier for dentists and hygienists to move to Hawaii from other states. This measure assists the Board of Dental Examiners to make a smooth transition from the state examination to the national uniform examination.

Upon further consideration, your Committee has amended this measure by providing a retroactive effective date of February 1, 2004.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 118, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 118, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 27 Health on S.B. No. 1263

The purpose of this measure is to make an appropriation to the Waianae Coast Comprehensive Health Center for emergency medical services.

The Department of Health, Hawaii Primary Care Association, and the Waianae Coast Comprehensive Health Center submitted testimony in support of this measure.

Your Committee finds that the need for twenty-four hour emergency room service for the increasing Waianae population of forty-two thousand continues to accelerate. The Waianae Coast Comprehensive Health Center is the only medical facility in the area that is available and equipped to handle emergencies and stabilization of victims of serious trauma. Its emergency room is one of the most heavily utilized on Oahu. Without funding, the Center will be forced to consider options such as eliminating overnight emergency services or laboratory and radiology services for Waianae Coast.

Upon further consideration, your Committee has amended this measure to appropriate different sums for each fiscal year given the Waianae Coast Comprehensive Health Center's specific appropriation request.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1263, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1263, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 28 Health on S.B. No. 459

The purpose of this measure is to amend the definition of project agreement to include leases, subleases, conditional sale agreements or other financing agreements and to issue special purpose revenue bonds in a total amount not to exceed \$30,000,000 to assist Hawaii Pacific Health.

The Department of Budget and Finance and Hawaii Pacific Health submitted testimony in support of this measure. The Hawaii Coalition for Health and one individual submitted testimony in opposition.

Your Committee finds that Hawaii Pacific Health is a nonprofit corporation seeking assistance with costs related to the acquisition, or the acquisition and installment, of information technology, equipment, software, and other related projects. The issuance of special purpose revenue bonds for this reason is in the public interest and for the public health, safety, and general welfare, as the measure will provide health care facilities with the additional flexibility of financing medical equipment purchases.

Your Committee has amended the bill by changing the lapsing date to April 30, 2010.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 459, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 459, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 29 Energy, Environment, and International Affairs on S.B. No. 212

The purpose of this measure is to amend the law relating to the environment.

Your Committee has amended this measure by replacing its contents with language that appropriates moneys for a hydrologist IV position to assist the instream use protection section of the Commission on Water Resource Management, and appropriates moneys for a geologist I position in the survey branch of the Commission on Water Resource Management.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 212, S.D. 1, and be recommitted to the Committee on Energy, Environment, and International Affairs, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Hanabusa).

SCRep. 30 Commerce, Consumer Protection and Housing on S.B. No. 758

The purpose of this measure is to expand the scope of the repeat offenders sentencing guidelines to include its application to persons who commit felony insurance fraud.

The Attorney General testified in support of this measure. The Office of the Public Defender submitted comments on the measure.

According to the National Insurance Crime Bureau, insurance fraud is generally perceived by white-collar criminals as a victimless, low-risk, and high-reward crime, making it attractive to organized crime as a means of raising money to fund other criminal activities.

This measure proposes to strengthen the penalties for felony insurance fraud by including the offense among the types of felony offenses subject to the repeat offender sentencing guidelines. Your Committee finds that this measure will help the State to combat the problem of insurance fraud, which results in higher costs for insurers and higher premiums for consumers.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 758 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 31 Commerce, Consumer Protection and Housing on S.B. No. 751

The purpose of this measure is to update and streamline the State's insurance laws.

The Department of Commerce and Consumer Affairs and Hawaii Independent Insurance Agents Association testified in support of this measure. The American Council of Life Insurers presented comments on the measure.

This measure makes numerous housekeeping amendments to the insurance code to effect greater consistency within the insurance code, bring state law into compliance with federal laws and national standards, and, generally, to improve the efficiency of the Insurance Division's operations. Among other things, this measure:

- (1) Conforms provisions relating to personnel that may be employed by the Insurance Commissioner (Commissioner);
- (2) Defines "gross premiums" within the context of the laws relating to unauthorized insurers;
- (3) Makes discretionary, rather than mandatory, the penalty for failure of a surplus lines broker to file an annual statement or remit premium taxes;
- (4) Organizes into one section the definitions relevant to the laws regulating adjusters and bill reviewers;
- (5) Establishes additional reporting requirements for adjusters and independent bill reviewers;
- (6) Repeals the requirement that a limited lines credit insurer provide a program of instruction to persons selling, soliciting, or negotiating this type of insurance;
- (7) Authorizes reciprocal licensure for nonresident surplus lines brokers;
- (8) Reduces the time period for the electronic submission of certificates of completion to the Division by continuing education course providers;
- (9) Clarifies that for license renewal purposes, no credit shall be accepted for a continuing education course that was conducted by a course provider who did not hold a valid provider certificate at the time of the course offering; and
- (10) Clarifies that surplus lines brokers are subject to Hawaii law, rather than the law of the broker's state of domicile.

Your Committee finds that this measure will facilitate the administration of the insurance code by the Division and compliance with the laws by licensees.

Your Committee has amended this measure by making technical changes for purposes of clarity and consistency, to reflect preferred drafting style, and to correctly reflect the language of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 751, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 751, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 32 Water, Land, and Agriculture on S.B. No. 386

The purpose of this measure is to amend the law relating to water.

Your Committee has amended this measure by replacing its contents with language that authorizes the issuance of general obligation bonds for the exploration of potential water sources and to establish an exploratory and production well in the Ocean View area on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 386, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 386, S.D. 1, and be recommitted to the Committee on Water, Land, and Agriculture, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 33 Water, Land, and Agriculture on S.B. No. 361

The purpose of this measure is to amend the law relating to agriculture.

Your Committee has amended this measure by replacing its contents with language that appropriates funds for three positions, two irrigation service worker II positions and one supervisor position, and the necessary equipment to service the lower Hamakua ditch project.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 361, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 361, S.D. 1, and be recommitted to the Committee on Water, Land, and Agriculture, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 34 Energy, Environment, and International Affairs on S.B. No. 1428

The purpose of this measure is to require state departments and agencies to switch to the use of at least sixty per cent post-consumer waste content paper that is also processed without the use of chlorine.

Testimony in support of the measure was received from the Life of the Land and the Rocky Mountain Institute. The State Procurement Office provided written comments on the measure.

Your Committee finds that it is important for state government to lead its citizens in practicing environmentally sustainable actions through responsible procurement policies. Your Committee further finds that this measure will assist in the creation of a market for recycled goods, which is essential in decreasing the State's waste stream and slowing the rate of growth of landfills in the State.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1428 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 35 Energy, Environment, and International Affairs on S.B. No. 1298

The purpose of this measure is to include in an environmental impact statement a determination of whether any racial, ethnic, socioeconomic, or other group will bear a disproportionate burden of any negative environmental impacts of a proposed action.

Testimony in support of the bill was provided by the Office of Hawaiian Affairs, Life of the Land, and one individual. A representative of the Office of Environmental Quality Control provided comments. An associate specialist from the University of Hawaii Environmental Center, speaking in an individual capacity, testified in opposition to the measure.

Your Committee finds that information on whether development activities negatively and disproportionately impact any racial, ethnic, or socioeconomic group is necessary to guide policymakers and the executive branch in providing environmental equality to all citizens.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 36 Labor on S.B. No. 290

The purpose of this measure is to amend the law relating to collective bargaining.

Your Committee finds that certain issues should be available for negotiations between an employer and the exclusive representative for a collective bargaining unit. Accordingly, your Committee has amended this measure by deleting its contents and replacing it with the following amendments:

- (1) An amendment to section 89-9, Hawaii Revised Statutes, that:
 - (A) Deletes language regarding those issues over which an employer and exclusive representative may not negotiate;
 - (B) Includes a new subsection that provides for the ability to negotiate over discretionary issues of collective bargaining; and
 - (C) Includes a new subsection which provides that nothing in the section shall be construed as inconsistent with the right of public employees to engage in collective bargaining; and
- (2) An amendment to section 89-19, Hawaii Revised Statutes, that clarifies that chapter 89 shall supercede all other laws to the contrary.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 290, S.D. 1, and be recommitted to the Committee on Labor, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 37 Water, Land, and Agriculture on S.B. No. 1150

The purpose of this measure is to permit the sale of raw milk, raw colostrum, and raw-milk and raw-colostrum products.

Testimony in support of this measure was submitted by Burford Civil Engineering Company, Koa'e Community Association, and one hundred individuals. Testimony in opposition of this measure was submitted by the Department of Agriculture.

Your Committee finds that currently, unpasteurized raw milk, raw colostrum, raw-milk and raw-colostrum products cannot be purchased by consumers in Hawaii. These products are available to consumers through sales or cow-share programs in over half the fifty states, including California, Connecticut, Illinois, Kansas, Maine, New Hampshire, and New York. For a variety of reasons ranging from taste to health, many people in Hawaii wish to consume unpasteurized milk and colostrum products. Thus, this measure will allow the sales of these raw-milk and raw-colostrum products in Hawaii to individual consumers and businesses.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1150 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 38 Water, Land, and Agriculture on S.B. No. 1878

The purpose of this measure is to appropriate moneys for the purchase of critical lands in the south Kona-Ka'u area.

Testimony in support of this measure was submitted by a Hawaii County Council member, the Nature Conservancy, Pahala Plantation Cottages, the Sierra Club, Trust for Public Land, and forty-two individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the south Kona-Ka'u area on the island of Hawaii is a well-preserved cultural and recreational resource. However, the break-up and sale of large landholdings along the south Kona-Ka'u coastline provides the State a unique opportunity to protect important environmental, agricultural, and cultural resources in this area. Thus, this measure will appropriate the necessary funds to purchase vital lands in the Kona-Ka'u area.

Your Committee has amended this measure to include private contributions as a source of funding that may be used to match the State's appropriation.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1878, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1878, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 39 Judiciary and Hawaiian Affairs on S.B. No. 1796

The purpose of this measure is to allow a person sentenced for a first-time drug offense prior to July 1, 2002 and who has a satisfactory record of drug treatment and drug abstinence to apply for resentencing under Act 161, Session Laws of Hawaii 2002, as well as apply for expungement of related arrest and conviction records.

Testimony in support of the measure as submitted by the Office of the Public Defender, the Community Alliance on Prisons, and one individual. The Office of the Prosecuting Attorney for the County of Kauai, the Department of the Prosecuting Attorney for the City and County of Honolulu, and the Honolulu Police Department testified in opposition to the measure.

Your Committee finds that this measure is designed to afford offenders who were not eligible for sentencing under Act 161, Session Laws of Hawaii 2002, an opportunity for resentencing under that Act, provided that the offender is able to demonstrate a satisfactory record of drug treatment and drug abstinence. It is your Committee's hope that these provisions will provide incentives for first-time offenders to comply with treatment and remain drug free.

Your Committee has amended this measure by requiring that an individual applying for resentencing under Act 161, in addition to demonstrating a satisfactory record of drug treatment and drug abstinence, also have no criminal convictions between the date of the person's sentencing for the first-time drug offense and the date of the application for resentencing.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1796, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1796, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 40 (Joint) Water, Land, and Agriculture and Intergovernmental Affairs on S.B. No. 522

The purpose of this measure is to repeal the law on permitted uses in residential areas of drug rehabilitation homes, and to require that a public informational meeting be held in the affected community before a county permit is issued.

Your Committees received testimony in support of this measure from the Department of Health, Honolulu Department of Planning and Permitting, the Hawaii Association of Realtors, and the Kailua Neighborhood Board. Testimony in support of repeal of the law and opposition to the remainder of the measure was submitted by the Honolulu Police Department and the State Drug Control Liaison. Testimony in opposition was received from the Hawaii Disability Rights Center and Oxford House, Inc.

Your Committees recognize the service provided by drug rehabilitation homes such as Oxford House, Inc. Drug rehabilitation homes facilitate the development of community-based residential supportive living options for persons in recovery from substance abuse. According to testimony of Oxford House, Inc., the demand for these homes and beds far exceed the available supply, particularly in view of the current ice epidemic.

Although Oxford House, Inc. testified that it has received very few complaints from neighbors of drug rehabilitation homes, the testimony was also that neighborhood boards routinely object to plans to situate a drug rehabilitation home in their neighborhood. The testimony of the Kailua Neighborhood Board aptly stated, "The neighbors were not opposed to the use of the home for drug rehabilitation, but were very concerned about the impacts associated with 10 adults living together. The impacts identified by the various neighbors included the large numbers of vehicles, noise, multiple work schedules, crowded lots, additions to homes, additional rubbish, etc. In each case the neighbors said the home was trying to be a good neighbor but the large number of residents made it nearly impossible."

Your Committees believe that drug rehabilitation homes should be given more time to expand their numbers and establish themselves, given the need for and shortage of their services.

Your Committees have amended this measure by:

- (1) Changing the effective date from upon approval to December 31, 2007; and
- (2) Deleting references to drug rehabilitation homes and informational meetings.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 522, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 522, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 10. Noes, none. Excused, 1 (Inouye).

SCRep. 41 Judiciary and Hawaiian Affairs on Gov. Msg. No. 77

Recommending that the Senate consent to the nomination of the following:

CIRCUIT COURT OF THE SECOND CIRCUIT, STATE OF HAWAII

RICHARD THOMAS BISSEN, JR., for a term of ten years

Upon review of the resume, application for judicial office, and testimony, your Committee finds that the nominee received a B.S. from the University of Santa Clara and a J.D. from the William S. Richardson School of Law. The nominee has been licensed to practice law in Hawaii since 1986. The nominee worked both as a Deputy Prosecuting Attorney and the Prosecuting Attorney for the County of Maui for fifteen years and was also briefly engaged in private practice. The nominee has also served as the First Deputy Attorney General for the Department of the Attorney General for the State of Hawaii for two years and currently serves as the interim Director of the Department of Public Safety for the State of Hawaii.

Testimony in support of the nominee was submitted by the Attorney General, the Department of Commerce and Consumer Affairs, the Hawaii Paroling Authority, the Office of Youth Services for the State of Hawaii, the Department of the Prosecuting Attorney for the City and County of Honolulu, the Office of the Prosecuting Attorney for the County of Kauai, the Maui County Bar Association, Mililani Neighborhood Board No. 25, the Chief of Police of the Maui County Police Department, the Vice-Chair of the Maui County Council, the Prosecuting Attorney for the County of Hawaii, the former Mayor of Maui County, the Royal Order of Kamehameha I for East Hawaii, the Hawaii Building and Construction Trades Council, Na'a'ahuhiwa, Hale Lokomaika'i, the Office of Hawaiian Affairs, the United Public Workers, and the Maui Economic Opportunity Inc., thirty five attorneys, and sixty five individuals. Your Committee received testimony in opposition to the nominee from two attorneys. Your Committee received comments on the nominee from one attorney.

The Board of Directors of the Hawaii State Bar Association (HSBA) found the nominee to be qualified to serve as a judge for the Circuit Court in the Second Circuit. As part of the HSBA Board's procedures for taking a position on judicial appointments, the candidate is asked to submit a resume, respond to a questionnaire, and appear before the Board to answer questions. The HSBA Board utilizes a modified version of the American Bar Association Guidelines for Reviewing Qualifications of Candidates for State Judicial Office. These Guidelines include the following criteria for judicial positions: integrity, legal knowledge and ability, professional experience, judicial temperament, diligence, financial responsibility, public service, collegiality, and writing ability.

Your Committee notes that during the course of the confirmation hearings, issues arose regarding the thoroughness and accuracy of the judicial candidate evaluation process performed by the HSBA on the nominee as the HSBA, by its own admission, was unaware of the case State v. Sanchez, 82 Hawai'i 517 (1996). In Sanchez, the nominee, acting as the Deputy Prosecuting Attorney for the County of Maui, prosecuted the defendant for commission of various criminal offenses. On appeal, the defendant claimed, among other things, that the comments of the nominee deprived him of a fair trial. The Intermediate Court of Appeals reversed the defendant's conviction, citing, as one of the grounds for the reversal, what it viewed as various instances of prosecutorial misconduct committed by the nominee. The Intermediate Court of Appeals concluded that, "the cumulative effect of the prosecutor's misconduct was to deny Defendant a fair trial." 82 Hawai'i at 534.

The Sanchez case was also the subject of an investigation by the Office of Disciplinary Counsel (ODC). In a letter dated April 21, 1997, the ODC concluded that there was insufficient evidence to clearly support a finding of a disciplinary violation by the nominee. However the ODC cautioned the nominee to conform his conduct in accordance with the ethical requirements embodied in the rules of professional responsibility.

When informed about the Sanchez case, the President of the HSBA informed your Committee that at the time the Board of Directors interviewed the nominee and voted to find the nominee qualified to serve as a circuit court judge for the Second Judicial Circuit, the Board of Directors of the HSBA was not aware of the Sanchez case. As a practice, your Committee postpones confirmation hearings as much as possible to accommodate the HSBA's judicial evaluation process. In keeping with this practice, your Committee postponed the confirmation hearing to allow the HSBA to conduct further investigation and, at the HSBA's discretion, to reevaluate the nominee. Upon further evaluation of the nominee, the HSBA reaffirmed its original finding that the nominee is qualified to serve as a circuit court judge. The HSBA also found that the nominee provided the HSBA Board of Governors with sufficient disclosure of all relevant issues.

The lack of information or knowledge on the part of the HSBA regarding the Sanchez case appears to be based upon answers contained in the nominee's 2004 Judicial Selection Commission application form which was forwarded to the HSBA as part of its review process. On this form, the nominee answered in the negative in response to two questions.

Question one, on page sixteen, asked if the nominee had been admonished or disciplined for a breach of the code of professional responsibility, professional misconduct, or professional negligence. The nominee answered in the negative based upon an ODC ruling dated July 30, 1998 that did not find a disciplinary violation against the nominee. The ODC investigation stemmed from the case of State v. Abraham Aki where the Hawaii Supreme Court issued an "Order to Show Cause" against the nominee, then the Acting Prosecuting Attorney for the County of Maui. The Order was based upon a failure of the Office of the Prosecuting Attorney for the County of Maui to file an Answering Brief with the Hawaii Supreme Court in the Aki case. The ODC investigation ultimately led the ODC to dismiss the matter "albeit with caution" and further "cautioned" the nominee, as Prosecuting Attorney, to act in conformity with the Hawaii Rules of Professional Conduct. The nominee's Judicial Selection Commission application, however, did not mention the Sanchez case or the ODC opinion issued in reference to the Sanchez case.

The second question asked the nominee if the nominee's behavior or conduct had been criticized or admonished in a written decision by any court. The nominee answered, "I do not recall."

The nominee submitted his application to the Judicial Selection Commission on October 15, 2004 without disclosing the Sanchez case to the Commission. When the nominee was interviewed by the Judicial Selection Commission on December 6, 2004 the nominee disclosed and discussed the Sanchez case with the Judicial Selection Commission, as evidenced by a letter dated February 10, 2005 from the Commission.

The issue confronting your Committee with respect to this nominee centers upon the lack of disclosure by the nominee with regard to the Sanchez case. The nominee's belief that disclosure was not required is premised upon the nominee's belief that the decision of the ODC dated April 21, 1997 not to discipline the nominee effectively ended the matter and did not require future disclosure. However, the ODC opinion in the Sanchez case "cautioned" the nominee to act in conformance with the rules of professional conduct.

The nominee agreed that the term "admonish" as used in question one on page sixteen of the Judicial Selection Commission application refers to a warning or caution issued to an individual. At the confirmation hearings, your Committee discussed the facts and ruling of Sanchez with the nominee to address concerns raised by your Committee. Nonetheless, your Committee remains concerned regarding the reasons the nominee failed to disclose the Sanchez case when the ODC appeared to "admonish" the nominee in its April 21, 1997 letter.

Your Committee is also troubled by the lack of disclosure by the nominee with respect to question five on page 16 of the Judicial Selection Commission on whether the nominee's behavior has been criticized in a written decision by any court. The Intermediate Court of Appeals reversed the conviction of the defendant in Sanchez based, in part, upon the prosecutorial misconduct committed by the nominee acting as the Deputy Prosecuting Attorney in the case. This reversal and the appellate court's accompanying comments regarding the nominee's "improper" conduct would appear to be criticisms by the court regarding the nominee's behavior.

Your Committee considered the number of Maui and outer island testifiers that were present in support of the nominee from attorneys, community leaders, community organizations, and individual residents who expressed strong sentiments in favor of the nominee. These testifiers spoke highly of the nominee's integrity and fairness and expressed confidence in the nominee's ability to transition from advocate to judge. Your Committee also received anonymous testimony about the nominee that was negative.

From all the testimony, questions and answers, and a review of the personal history, resume, and statements submitted by the nominee, your Committee finds the nominee to have the necessary qualifications to be appointed to the position of nomination.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 42 Education and Military Affairs on S.B. No. 1249

The purpose of this measure is to repeal the Hawaii school-to-work executive council.

Testimony in support of the measure was submitted by the Department of Education.

Your Committee finds that all remaining funds allocated to the Hawaii school-to-work program had been expended as of September 30, 2003 as federal funding had ended in the year 2000. Therefore, the need for the statute no longer exists. Due to its valuable initiatives, the program's components are established with other public and private entities including the Department of Education, the Workforce Development Council, and the Hawaii P-20 Initiative.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1249 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

SCRep. 43 Education and Military Affairs on S.B. No. 1661

The purpose of this measure is to appropriate funds to assist in the further implementation of Act 51, Session Laws of Hawaii 2004 and allow the Department of Education to carry over unencumbered appropriations.

Testimony in support of the measure was submitted by the Department of Education, Department of Human Resources Development, Hawaii Government Employees Association, and Hawaii Business Roundtable.

Your Committee finds that to continue to successfully implement Act 51, Session Laws of Hawaii 2004, appropriations are needed to subsidize the Department of Education information systems projects and provide additional support personnel and training. In comparing other public school districts spending on information technology infrastructure, your Committee found Seattle spending \$304 per student and Wisconsin \$309 per student, while Hawaii's projected technology budget is merely \$157 per student. The

additional funding along with the added personnel is sorely needed to implement and operationally support the new applications of Act 51.

Upon further consideration, your Committee has amended this measure to specify the additional personnel needed.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1661, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1661, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

SCRep. 44 Education and Military Affairs on S.B. No. 451

The purpose of this measure is to establish a content oriented language arts program in the Department of Education.

Testimony in support of the measure was submitted by the Hawaii Automobile Dealers Association. The Department of Education and Hawaii State Teachers Association submitted comments.

Your Committee finds that new and innovative avenues for educational instruction are being developed daily. In order to progress with current educational innovations and keep our students competitive among their international peers, the Department of Education must be flexible in providing relevant curriculum that reflects changes in the increasingly globalized society.

Upon further consideration, your Committee has amended this measure by deleting the language enacting the content oriented language arts program to allow the department more freedom to develop its own types of research based curriculum.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 451, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hogue).

SCRep. 45 Education and Military Affairs on S.B. No. 778

The purpose of this measure is to make an emergency appropriation for services to children with autism spectrum disorder and school-based behavioral health services.

Testimony in support of the measure was submitted by the Department of Education, Special Education Advisory Council, Hawaii Families as Allies, the Community Children's Council, and five individuals.

Your Committee finds that the costs and number of students requiring services for autism spectrum disorder has increased since the program responsibility and funding was transferred to the Department of Education from the Department of Health. The number of students identified with the disorder has risen sixty-three per cent in four years. Unfortunately, the funding amount has remained unchanged. Similarly, the number of students requiring school-based behavioral health services has also increased without additional funding. The emergency appropriation in this measure will ensure that these much needed services will continue.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 778 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hogue).

SCRep. 46 Education and Military Affairs on S.B. No. 874

The purpose of this measure is to appropriate funds to hire fifteen permanent athletic health care trainer positions in the Department of Education.

Testimony in support of the measure was submitted by the Department of Education (DOE), Hawaii State Teachers Association, Hawaii Government Employees Association, the Athletic Directors and Coaches Association, the DOE Athletic Health Care Trainers, and five individuals.

Your Committee finds that additional athletic health care trainer positions will assist the DOE in meeting the National Athletic Trainers Association's recommended ratios for trainers to student-athletes. Currently, the department does not meet the standard, but the additional funds appropriated by this measure would assist in meeting the standard and ensure the safety and well being of student-athletes in our public schools.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 874 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hogue).

SCRep. 47 Education and Military Affairs on S.B. No. 1253

The purpose of this measure is to clarify a school community council's authorities and responsibilities.

Testimony in support of the measure was submitted by the Department of Education and the Hawaii Government Employees Association. Opposition testimony was submitted by the Hawaii Laborers-Employers Cooperation Educational Trust.

Your Committee finds establishing that school community councils shall ensure a school's academic and financial plans are consistent, rather than aligned, with the educational accountability system would eliminate confusion as how the schools are to align their plans with the complex statutory requirements of the educational accountability system.

One intent of Act 51, Session Laws of Hawaii 2004, was to place more decision-making capabilities with the individual schools and its leaders rather than at the department level. However, by restricting a school community council's authority to approve a principal's academic and financial plans to merely allowing the council to make recommendations would conflict with the intent of Act 51.

Upon further consideration, your Committee has amended this measure to continue to allow the school community council's approval of a principal's academic and financial plans by deleting the proposed amendments made to section 302A-1103, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1253, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1253, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

SCRep. 48 Education and Military Affairs on S.B. No. 1637

The purpose of this measure is to appropriate funds to hire additional secondary teacher positions necessary to implement the Comprehensive School Alienation Program (CSAP).

Testimony in support of the measure was submitted by the Department of Education, Hawaii State Teachers Association, Honolulu District Ko Apopo Ohana Academy, and the High Core Program.

Your Committee finds that CSAP is a valuable program that provides a statewide secondary education prevention and early intervention program for students identified as at-risk of becoming alienated from school or completely dropping out before meeting the high school graduation requirements. CSAP provides appropriate instructional and counseling support services to assist students to overcome academic, social, emotional, and related difficulties. The additional positions that this measure will provide will assist CSAP in effectively delivering services to all students in need of assistance.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1637 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hogue).

SCRep. 49 (Majority) Intergovernmental Affairs on S.B. No. 584

The purpose of this measure is to make an appropriation to the City and County of Honolulu for expenses of the 2005 National Association of Counties Annual Conference and Exposition in Honolulu.

Your Committee received testimony in support of this measure from two Honolulu City Council members, one Kauai County Council member, five Maui County Council members, and the Hawaii Association of Counties.

Your Committee is concerned with the apparent lack of a detailed budget and description of expenses by the City and County of Honolulu. Your Committee questions the enormous expense of about \$1 million for bus transportation and dinner for the participants. Your Committee notes that the waiving of event fees would still diminish revenue. This is taxpayer money and spending that money should be done wisely and prudently. Your Committee passes this measure to the Committee on Ways and Means to decide on the amount of the appropriation and the appropriateness of the proposed expenditures. Your Committee urges the City and County of Honolulu to submit a detailed budget expenditure report to the Committee on Ways and Means.

Your Committee has amended this measure by deleting the appropriation amount.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 584, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 584, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Slom). Excused, 2 (Inouye, Nishihara).

SCRep. 50 Intergovernmental Affairs on S.B. No. 637

The purpose of this measure is to make an appropriation as a grant-in-aid to the Honolulu Police Department (HPD) for the development of a non-emergency reporting system, known as 3-1-1.

Your Committee received testimony in support of this measure from the Honolulu Police Department, Verizon Hawaii, and American Heart Association. Verizon Wireless, Cingular Wireless, and T-Mobile USA submitted testimony in opposition to the surcharge.

The HPD operates the 9-1-1 emergency phone system for Oahu, which handles over 1,000,000 calls annually, including calls for police, ambulance, and fire. The 9-1-1 system handles all calls for emergency services, as well as non-emergency calls (estimated at sixty-five to seventy-five per cent of all 9-1-1 calls). Examples of non-emergency calls received by the 9-1-1 system include abandoned vehicles, noise, and animal complaints.

Non-emergency calls frequently overwhelm available 9-1-1 operators, resulting in a backlog of emergency 9-1-1 calls awaiting dispatch to the appropriate emergency personnel.

The HPD is currently developing a non-emergency report system, known as 3-1-1, to relieve the 9-1-1 system of non-emergency phone calls.

This measure is intended to assist the HPD to develop the 3-1-1 system. According to testimony of the HPD, it will use existing personnel to staff the 3-1-1 call center, so no additional personnel costs will be incurred. HPD expects to save up to seventy percent of the cost of sending a patrol officer to the scene of a non-emergency request with each 3-1-1 non-emergency report that can be fully processed over the phone.

Your Committee has amended this measure by deleting the surcharge on the telephone companies, as being unnecessary.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 637, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 637, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 51 Intergovernmental Affairs on S.B. No. 1060

The purpose of this measure is to extend the counties' authority to regulate billboards and other outdoor advertising devices to include the airspace or waters beyond the boundaries of a county if the advertising is visible from any public place within the county.

Your Committee received testimony in support of this measure from the Honolulu Corporation Counsel, Na Leo Pohai, Life of the Land, one Maui County Council member, and one individual.

This measure arises from the case of Center for Bio-Ethical Reform, Inc. v. City and County of Honolulu, which is now on appeal before the U.S. Court of Appeals for the Ninth Circuit. This case challenged Honolulu's ordinances prohibiting aerial advertising. The case involved the use of airspace advertising in the form of a plane towing a large sign over near shore waters so as to be visible from the shore, to promote an agenda relating to bio-ethics.

The specific issue addressed by this measure is not on appeal, because the plaintiffs raised the issue after filing the appeal. Therefore, this measure is intended to head off more litigation and thereby avoid costly attorney's fees and further litigation costs. The plaintiff's new argument is that if a plane takes off from Honolulu International Airport or from Molokai Airport and then flies over coastal waters, but not over land, while displaying their banner to beachgoers in Waikiki and other beaches, then the plane would be outside of the jurisdiction of the City and County of Honolulu and Honolulu's ordinances would not be applicable.

Your Committee agrees with the Special Deputy Corporation Counsel who represented the city in the litigation that this measure has been introduced "out of an excess of caution to leave no remaining ambiguity regarding the ability of the counties to regulate aerial (and ship-based) advertising aimed at beachgoers and other individuals in the public places on the island."

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1060 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (English, Inouye).

SCRep. 52 Intergovernmental Affairs on S.B. No. 1548

The purpose of this measure is to enact an ethics law to govern the process of selecting county ethics commissioners.

Your Committee received testimony in support of this measure from the Hawaii State Ethics Commission (Commission) and the League of Women Voters.

Under this measure, the process of selecting members of county ethics commissions must be in a manner that assures impartiality and independence, including ensuring minimum involvement in the process by persons over which the commission has oversight. A county ethics commissioner must be selected on the basis of integrity, impartiality, and independence.

Your Committee notes that Article XIV of the State Constitution provides that "Ethics commissioners shall be selected in a manner which assures their independence and impartiality." This measure carries out this constitutional mandate.

According to testimony of the Commission, the current process in the four counties of the mayor selecting a board member and confirmation by the county council does not comport with the constitution. In contrast, the selection process for board members of the Commission is independent and impartial. Applicants for a vacancy on the Commission must apply to a state board known as the Judicial Council, which is attached to the Hawaii Supreme Court. After reviewing the applications, the Judicial Council selects two individuals whose names are forwarded to the Governor. The Governor then selects one of the two names to fill the vacancy. There is no Senate confirmation. Your Committee finds that the state process assures independence and impartiality. Your Committee urges the counties to adopt a similar process, perhaps with the advice of the Executive Director and General Counsel of the Commission.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1548 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 53 (Majority) Transportation and Government Operations on S.B. No. 20

The purpose of this measure is to create a new traffic offense to prohibit the use of a mobile telephone while operating a moving vehicle unless the phone can be operated hands-free.

Your Committee received testimony in support of this measure from one individual. Testimony in opposition was received from Cingular Wireless and Sprint. Comments were received from the Honolulu Prosecuting Attorney, T-Mobile USA, Hawaii Transportation Association, and one individual.

Your Committee finds that there is ample and mounting evidence that the use of cellular phones while driving creates a distraction that contributes to an increasing number of traffic accidents. Although "multi-tasking" may be useful in office work, it definitely has no place while driving and using a cellular phone. When using a cellular phone, only one hand is on the steering wheel and the driver's mind is usually elsewhere than on driving. The situation is worse if the driver dials the number while driving, in which case the driver's eyes are on the phone.

Your Committee has amended this measure on the recommendation of the Honolulu Prosecuting Attorney by providing an affirmative defense for making an emergency call on the cellular phone while driving.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 20, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 20, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Whalen). Excused, 3 (Baker, Hee, Kanno).

SCRep. 54 Transportation and Government Operations on S.B. No. 73

The purpose of this measure is to require inspection and certification of motor carrier vehicles during the month in which the vehicle's certificate of motor vehicle registration is issued.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT) and Hawaii Transportation Association.

Currently, all commercial vehicles have their annual safety inspection expire in the month of June. This necessitates about 100,000 vehicles to be inspected in the same month, resulting in backlogs at inspection stations.

This measure would spread out the inspection deadlines. According to testimony of the DOT, this measure would reduce the current workload of the DOT inspection stations and motor carrier companies.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 73 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 55 Transportation and Government Operations on S.B. No. 74

The purpose of this measure is to allow persons who are at least eighteen years of age to be licensed as commercial drivers to drive within the State.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Hawaii Transportation Association (HTA), and SuperStar. Testimony in opposition was received from the Department of Transportation.

The intent of this measure is to address the shortage of commercial drivers in Hawaii. This comes at a time when economic activity is increasing, much of which requires the movement of goods by trucks. However, there are not enough commercial drivers.

The current age required to receive a commercial driver's license is twenty-one. Your Committee finds that this measure would increase the pool of qualified commercial drivers by lowering the age to eighteen. Your Committee is keenly aware that lowering the age may not solve the problem of the shortage of drivers. However, this measure is a step in the right direction. Your Committee notes that federal law permits commercial drivers to be licensed at age eighteen to drive intrastate. According to testimony of the HTA, most states permit eighteen year olds to be licensed as commercial drivers to drive intrastate.

Your Committee believes that increasing the eligible pool of commercial drivers will increase demand for commercial driving schools and other instructional programs to enable the licensing of more commercial drivers. High school seniors would be more inclined to consider commercial driving as a career if the license eligibility age were eighteen.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 74 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 56 Transportation and Government Operations on S.B. No. 76

The purpose of this measure is to clarify the penalties for motor vehicle size and weight violations.

Your Committee received testimony in support of this measure from the Department of Transportation and Hawaii Transportation Association.

This measure distinguishes the penalties for traffic violations from the penalties for exceeding the required size and weight limits. This measure also has the effect of reducing the penalties for size and weight violations so as to be more equitable to truckers who do not have control over the load weight of their freight which is often in a cargo container loaded on the docks, and so out of the trucker's control.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 57 Transportation and Government Operations on S.B. No. 77

The purpose of this measure is to:

- (1) Require motor carriers to obtain a vehicle identification card from the Department of Transportation (DOT);
- (2) Require motor carrier vehicles to operate with mudguards; and
- (3) Repeal some authority of the Director of Transportation.

Your Committee received testimony in support of this measure from the Hawaii Transportation Association. The DOT supported the provisions relating to the vehicle identification card and mudguards. The DOT submitted testimony in opposition to repealing some of the authority of the Director of Transportation.

According to testimony of the DOT, the vehicle identification card and mudguards are presently required by administrative rules. Therefore, this measure is a codification of that provision.

Your Committee agrees with the DOT that reducing the powers of the Director of Transportation is unnecessary and unwarranted. This is particularly the case with regard to homeland security measures which the Director needs to be able to implement administratively.

Your Committee has amended this measure by deleting the reduction of the powers of the Director of Transportation.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 77, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 77, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 58 Transportation and Government Operations on S.B. No. 80

The purpose of this measure is to require the markings of motor carrier vehicles to be readily legible during daylight hours from a distance of fifty feet while the motor carrier is stationary.

Testimony in support of this measure was received from the Department of Transportation (DOT) and Hawaii Transportation Association.

According to testimony of the DOT, this measure would more closely conform Hawaii law to the Federal Motor Carrier Safety Regulations, which is more widely considered to be the uniform standard throughout the United States.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 59 Transportation and Government Operations on S.B. No. 664

The purpose of this measure is to make an emergency appropriation of \$3,000,000 for electricity payments statewide.

Testimony in support of this measure was received from the Department of Accounting and General Services (DAGS). Testimony in opposition was received from Life of the Land and one individual.

This measure is prompted by the steady rise in world oil prices, resulting directly in a budgetary shortfall. Without this measure, the State could not make timely payments to utility companies which would result in late payment fees.

Your Committee finds that all of the DAGS facilities have been retrofitted with energy-efficient lighting and DAGS has shortened air-conditioning hours, thus helping to minimize the shortfall.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 664 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 60 Transportation and Government Operations on S.B. No. 694

The purpose of this measure is to provide an owner, lien holder, or other person with an interest in a derelict or abandoned vehicle, vessel, or aircraft with notice and the opportunity to request a post-custodial administrative hearing before the final disposition is made of the vehicle, vessel, or aircraft.

Your Committee received testimony in support of this measure from the Department of Transportation, Attorney General, and Board of Land and Natural Resources. Testimony in opposition was received from the Honolulu Department of Customer Services and Windward Ahupua'a Alliance.

In August 2004, the U.S. District Court, District of Hawaii, held that the Hawaii statute governing the disposition of derelict vehicles is unconstitutional on its face. The court found that the statute does not provide adequate procedural due process to owners of derelict vehicles that are ten model years old or older. The court ruled that an identifiable owner of a derelict vehicle is entitled to notice prior to disposition of the vehicle.

Your Committee finds that this measure satisfies procedural due process by requiring the State and county to provide notice and the opportunity for a hearing to known owners, lien holders, and other interested persons. This measure lessens the risk of the State and counties to liability for monetary damages and attorney's fees stemming from a violation of due process rights.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 694, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 694, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 61 Transportation and Government Operations on S.B. No. 843

The purpose of this measure is to create two new traffic offenses of promoting interference with official traffic-control signals in the first and second degrees.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and Honolulu Prosecuting Attorney. Testimony in opposition was received from the Public Defender.

The intent of this measure is to protect the functioning of official traffic control devices, such as traffic control signal systems. Emergency vehicles are equipped with traffic signal preemption systems ("mobile infrared transmitters") to override the traffic control signal to let the vehicle proceed through the intersection on a green light while signaling red for the cross street.

Your Committee finds that private individuals have gained access to mobile infrared transmitters and are using them for their own purposes.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style, and by adding language inadvertently omitted in the printing of the measure.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 843, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 843, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 62 Transportation and Government Operations on S.B. No. 845

The purpose of this measure is to conform Hawaii traffic violations law to the requirements of the federal commercial driver licensing laws.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Human Resources Development, and Hawaii Transportation Association. Comments were received from the Judiciary.

The intent of this measure is to make revisions to certain sections of Act 103, Session Laws of Hawaii 2004, which takes effect September 30, 2005, to correct substantive deficiencies identified subsequent to the enactment of Act 103. This measure also makes additional amendments to conform with the federal law, Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act, better known as the USA Patriot Act (Public Law 107-56, 2001). The Federal Motor Carrier Safety Administration has reviewed Hawaii law to ensure consistency with federal law. This measure includes the recommended changes by the federal government.

Your Committee finds that failure to enact this measure may result in the loss of approximately \$4.9 million or five percent of federal-aid highway funds, based upon fiscal year 2004, for the first year of non-compliance, and \$9.8 million or ten percent per year thereafter. Motor Carrier Safety Assistance Program grants may also be at risk as a result of noncompliance.

Your Committee has amended this measure by:

- (1) Changing the effective date to October 1, 2005, to follow the effective date of Act 103 on September 30, 2005; and
- (2) Making technical, nonsubstantive amendments for clarity, style, and consistency.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 845, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 845, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 63 Transportation and Government Operations on S.B. No. 846

The purpose of this measure is to require the driver of a vehicle to yield the right of way to a pedestrian by stopping for the pedestrian crossing the roadway within a crosswalk when the pedestrian:

- (1) Is on a non-divided highway; or

- (2) Is on a divided highway if the pedestrian is on either half of the roadway upon which the driver is traversing.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT) and Honolulu Police Department.

Your Committee finds that pedestrian fatalities and injuries continue to be a problem in Hawaii. The DOT commissioned a study to conduct market research on senior pedestrian habits, and found that:

- (1) Forty-eight percent of the people in Hawaii do not feel that our roads are pedestrian friendly;
- (2) Seniors age sixty-five and older constitute a significant percent of pedestrian fatalities and make up a large segment of the population; and
- (3) Ninety percent of the population believes that pedestrians should use crosswalks and ninety-three percent believes that drivers should not proceed when pedestrians are in crosswalks.

Your Committee finds that the law on pedestrians' rights in crosswalks needs clarification to prevent confusion over when a driver must stop for a pedestrian. This measure requires a driver to stop when a pedestrian is in a crosswalk. Current law provides for "slowing down" as well as stopping. This measure deletes the slowing down and requires a complete stop.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 846, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 846, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 64 (Majority) Transportation and Government Operations on S.B. No. 850

The purpose of this measure is to create a traffic offense with mandatory sentences for a person driving a vehicle at a speed exceeding the posted speed limit by 25 miles per hour or more, or by traveling at 80 miles per hour or more regardless of the speed limit.

Your Committee received testimony in support of this measure from the Department of Transportation, Honolulu Police Department, and Honolulu Prosecuting Attorney. Testimony in opposition was received from the Public Defender.

This measure protects the motoring public from persons who drive at excessive speeds. Current speeding laws and court-imposed fines do not adequately address the severity of the infraction and therefore are not deterrents to driving at high speeds.

Your Committee finds that speeding in excess of the posted speed limit has been identified as a major contributor to severe traffic crashes and fatalities. This measure is intended to enhance the human factors in traffic safety by controlling errant driving behavior.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 850, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 850, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Whalen). Excused, 3 (Baker, Hee, Kanno).

SCRep. 65 Transportation and Government Operations on S.B. No. 851

The purpose of this measure is to clarify that no moneys deposited into the highway development special fund will lapse or be transferred into the general fund.

Your Committee received testimony in support of this measure from the Department of Transportation, Hawaii Transportation Association, and Kona Traffic Safety Committee.

The intent of this measure is to safeguard the highway development special fund to ensure that it is used for its intended purpose by preventing moneys from lapsing or transferring into the general fund.

Your Committee finds that moneys in the highway development special fund need to be maintained in the fund to provide expenditures from the fund for its dedicated purposes, among which are paying for capital costs of qualifying proposed state highway improvements.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 851, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 66 (Joint) Transportation and Government Operations and Higher Education on S.B. No. 1038

The purpose of this measure is to establish the Hawaii procurement institute at the William S. Richardson School, University of Hawaii, and to make an appropriation for its operating expenses.

Your Committees received testimony in support of this measure from the Department of Accounting and General Services; William S. Richardson School of Law, University of Hawaii (UH); The Chamber of Commerce of Hawaii; and two individuals. Comments were submitted by the State Procurement Office.

Act 52, Session Laws of Hawaii 2003, established a Hawaii procurement institute (institute) under the administrator of the procurement office, to work cooperatively with the UH and private entities to promote and develop a professional acquisition workforce to improve and enhance the State's contractor industrial base through education and training. This measure would transfer the institute in its entirety to the William S. Richardson School of Law.

Your Committees find that the William S. Richardson School of Law is the most appropriate entity to house the institute, as modern day procurement practices and procedures of state, local, and federal governments are fraught with complexities of laws, rules, and forms. As aptly stated in testimony of The Chamber of Commerce of Hawaii, a procurement technical assistance center would be of enormous help to small businesses in securing bid contracts. Testimony of the William S. Richardson School of Law indicates that the institute "is a think tank for the development and analysis of Federal, State, and local procurement policies, laws, and regulations."

Your Committees intend that the institute become as independent as possible, and that the involvement of the Board of Regents be limited to approving the selection of the director of the institute.

Your Committees request the institute to gradually become financially self-supporting. The testimony provided by the William S. Richardson School of Law indicates that it anticipates having to receive state appropriations for two fiscal years beyond the next fiscal biennium, in an amount of \$150,000 for fiscal year 2007 and \$100,000 for fiscal year 2008. However, the William S. Richardson School of Law indicated it needed an appropriation of \$200,000 in each year of the next fiscal biennium.

Your Committees have amended this measure by:

- (1) Clarifying that the director is to be appointed by the dean of the William S. Richardson School of Law;
- (2) Adding an appropriation to the UH of \$200,000 for each year of the fiscal biennium for operating expenses of the institute; and
- (3) Making a technical, nonsubstantive amendment for clarity and style.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1038, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1038, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Kanno, Menor).

SCRep. 67 Transportation and Government Operations on S.B. No. 1876

The purpose of this measure is to require the Department of Transportation to use alternative federal guidelines in the repair and reconstruction of scenic highways, provide for the designation of those highways deemed to be scenic, and limit the State's liability in cases involving those highways.

Your Committee received testimony in support of this measure from the Department of Transportation, Verizon Hawaii, and six individuals. Testimony in opposition was received from Hawaiian Electric Company, Inc.

Your Committee finds that repair and reconstruction of state highways should take into account, in addition to safety, durability, and economy of maintenance, factors such as the constructed and natural environment of the area; scenic, aesthetic, historic, cultural, and other impacts of the activity; and access for other modes of transportation. The Governor vetoed a measure passed in 2000 (S.B. No. 3201, H.D. 2) that would have required the Director of Transportation to establish new design guidelines by June 30, 2003, to govern new construction, reconstruction, resurfacing, restoration, or rehabilitation of bridges, principal and minor arterial roads, collector and local roads, and streets, taking into account environmental, scenic, aesthetic, historic, community, and other impacts of the activity.

It is the intent of your Committee to encourage the highest quality design to ensure that road and bridge projects adequately meet the State's transportation needs, exist in harmony with their surroundings, and add value to the communities they serve. However, your Committee finds that the Department of Transportation may be reluctant to use alternative standards in the repair or reconstruction of

scenic highways because of the potential risk of liability, in accordance with a Hawaii Supreme Court holding. This measure provides a limitation on that liability.

Your Committee has amended this measure by providing limited liability to public utilities regulated under chapter 269, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1876, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 68 (Joint) Intergovernmental Affairs and Transportation and Government Operations on S.B. No. 449

The purpose of this measure is to allow the State to enter into an indemnification agreement with a county.

Your Committees received testimony in support of this measure from the Honolulu Corporation Counsel, Hawaii Corporation Counsel, Kauai County Attorney, and the Council Chair of the Kauai County Council.

The intent of this measure is to limit the liability of the counties for liability exposure arising from acts or omissions performed by the State. The situation arises when the State uses a county facility.

Your Committees have amended this measure on the recommendation of the county corporation counsels as follows:

- (1) Clarifying the substance of a discretionary indemnity agreement to defend and indemnify;
- (2) Providing for a mandatory indemnity agreement to defend and indemnify in situations wherein the State receives county assistance, services, or the like;
- (3) Deleting the three conditions for an indemnity; and
- (4) Adding a savings clause to session law material and deleting the savings clause in the statute, as the preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Intergovernmental Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 449, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 449, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Hee, Kanno, Nishihara, Whalen).

SCRep. 69 (Joint) Intergovernmental Affairs and Transportation and Government Operations on S.B. No. 1478

The purpose of this measure is to require the State Fire Council to administer any federal grants upon receipt of those moneys.

Your Committees received testimony in support of this measure from the State Fire Council (SFO) and Hawaii Fire Fighters Association.

This measure clarifies that the SFO, which is the entity responsible for processing all applications to the federal government for federal grant assistance, should also be the proper entity to administer any of those federal grant monies. This measure would result in allowing the SFO to expend federal grant money for fire fighter training, which is an essential component to prepare fire fighters perform their duties.

Your Committees have amended this measure by changing the effective date to upon its approval.

As affirmed by the records of votes of the members of your Committees on Intergovernmental Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1478, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1478, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Hee, Kanno, Nishihara, Whalen).

SCRep. 70 (Joint) Intergovernmental Affairs and Judiciary and Hawaiian Affairs on S.B. No. 604

The purpose of this measure is to require police officers who testify pursuant to subpoena to be compensated for overtime if the officer is off-duty at that time.

Your Committees received testimony in support of this measure from the Honolulu Police Department. Comments were received from the Department of Budget and Finance.

The intent of this measure is to compensate the police officer for undue hardship and disruption in personal life in the officer's off-duty hours. The State would be required to reimburse the county for half of the overtime compensation.

Your Committees find that testimony at trial is an integral part of the judicial system. County police officers conduct much of the criminal investigations and are therefore critical witnesses at trial. The overtime compensation is a drain on county budgets. This measure would alleviate some of that burden on the counties.

As affirmed by the records of votes of the members of your Committees on Intergovernmental Affairs and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 604 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 2 (Inouye, Nishihara).

SCRep. 71 Transportation and Government Operations on S.B. No. 426

The purpose of this measure is to make an appropriation for plans, design, and construction of a second access road to Leeward Community College.

Your Committee received testimony in support of this measure from the University of Hawaii, Leeward Community College. Testimony in opposition was received from the Department of Transportation.

This measure would provide a much needed secondary access road to the College. Currently there is only one road that leads to the College via Waiawa Road that passes over the H-1, H-2 merge. A second access road is required to reduce the backlog of cars coming into and going off campus. During peak hours, the cars line up so as to create a hazardous traffic situation on Kamehameha Highway.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 426 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 72 Transportation and Government Operations on S.B. No. 903

The purpose of this measure is to make an appropriation to the Department of Transportation (DOT) for each year of the next fiscal biennium for the operating costs of a permanent contraflow lane on Kahekili Highway during peak traffic hours.

Testimony in opposition to this measure was received from the DOT.

Your Committee finds that this measure will provide residents of the Windward side needed traffic congestion relief. The contraflow lane has proven effective in improving traffic congestion. Your Committee finds that the implementation of a permanent contraflow lane traffic scheme on the Kahelili Highway during peak traffic hours will help to ensure that traffic flows safely, quickly, and efficiently.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 903 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 73 Transportation and Government Operations on S.B. No. 988

The purpose of this measure is to allow an audible reverse warning system (system) on vehicles to be manually disengaged when reversing the vehicle under certain hours and conditions.

Your Committee received testimony in support of this measure from the Honolulu Police Department and one individual.

This measure would allow the system to be turned off between 10 p.m. and 6 a.m., and within 200 feet of a hospital or hotel or within a residential neighborhood, if certain precautions are taken to avoid accidents in the reversal. The system would turn itself off automatically after not more than three minutes.

The intent of this measure is to offer relief from the noise of a motor vehicle backup warning system while still providing the needed protection for pedestrians walking to the rear of the reversing vehicle.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 988 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 74 (Joint/Majority) Transportation and Government Operations and Intergovernmental Affairs on S.B. No. 1366

The purpose of this measure is to allow each county to levy a county general excise and use tax surcharge to fund rail transit or other transportation improvements.

Your Committees received testimony in support of this measure from United States Congressman Neil Abercrombie, the Leeward Oahu Transportation Management Association, and one family of testifiers. Testimony in favor of granting the counties taxing authority and opposed to mandating how the counties utilize the funds was received from the Department of Transportation. Testimony in opposition was received from the Department of Taxation, Retail Merchants of Hawaii, National Federation of Independent Business-Hawaii, and Hawaii Association of Realtors. Comments were submitted by the Tax Foundation of Hawaii.

The Honorable Neil Abercrombie, United States Representative for urban Honolulu, urged your Committees to pass a "local funding initiative" to have a "funding mechanism in place" to demonstrate to the Federal Transit Administration that Hawaii is serious about constructing a rail mass transit system. Hawaii is competing with the other states to secure federal monies to subsidize the costs of construction of a mass transit system. There are currently 226 projects nationwide seeking to have their projects accepted for funding. Hawaii may be able to obtain half of the cost of the system paid with federal monies. However, there is a deadline of March 3, 2005, in the U.S. House of Representatives to pass out of the House Transportation and Infrastructure Committee a federal mass transit appropriations bill covering a six-year period, and a deadline of June 1, 2005 for a conference committee to act on the measure. Mr. Abercrombie is confident the Federal Transit Authority stands ready to include Hawaii in its list of favored mass transit projects if this measure is passed. The Honorable Congressman told your Committees, "You're doing something that will shape the future of urban Honolulu for the next 100 years."

The capital costs for a fixed rail system with an initial trunk line extending from Kapolei in West Oahu to Iwilei in the central business district was estimated in 2004 to be in excess of \$2 billion by the Department of Transportation. A portion of the costs is anticipated to be paid with federal funds. Your Committees find that a fixed rail mass transit system is not possible without additional dedicated funding from a county mass transit surcharge.

Your Committees further find that the apparent haphazard development of mass transit development and financing plans over the years is due to the fact that a solution to transportation problems on all islands has eluded the State for many years. Every attempt has fallen short, despite the best efforts of many informed and knowledgeable people, including a multitude of experts. Bigger highways, more buses, and ferries are inadequate over the long term to serve transportation needs, and are unsuitable for many areas of the largest county. In contrast, a fixed light rail system has possibilities but the costs are prohibitive without a heavy investment of revenues. Nevertheless, light rail is not suitable for every county.

Your Committees are reluctant to, in effect, provide for a raise in taxes. However, your Committees believe that there is no alternative if mass transit is to become a reality. The costs are simply prohibitive. The time is now, following fifteen years in the making, to decide to implement light rail or not. Your Committees find that the past unsuccessful attempts by the counties to levy an excise tax surcharge were due not to the lack of adequate planning, but rather to ambivalent attitudes of policymakers at that time. Testimony by the Mayor of the City and County of Honolulu and two Honolulu City Council members indicates that the time is now ripe for the city to pass such a measure.

Your Committees urge the counties to contemplate carefully if an excise tax ordinance is justified for their respective county. This entails adequate planning of a mass transit system suitable for the particular county. Your Committees urge the Department of Transportation to provide advice, insight, and expertise to assist the counties in making the right decisions in planning for mass transit. For example, Hawaii county could probably best be served by an efficient, timely, and integrated bus system within and between towns.

The intent of your Committees is to provide the counties with assistance in mass transit design and planning, and with construction financing ability. The Department of Transportation as well as the Honolulu Department of Transportation Services have assured you Committees that in fact they are working collaboratively to that end.

Your Committees have amended this measure by:

- (1) Adding a purpose section to provide a historic record of the legislative efforts in enacting a county mass transit tax, so that future generations will have information and a perspective of what has transpired in passing this landmark legislation; and
- (2) On the recommendation of the Department of Taxation, adding language that the use tax also applies to imported services and contracting.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1366, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1366, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Slom). Excused, 5 (English, Hee, Kanno, Kim, Menor).

SCRep. 75 Transportation and Government Operations on S.B. No. 1400

The purpose of this measure is to require the Director of Transportation to undertake a traffic capacity study of Castle Junction, on the Windward side of Honolulu, and to make an appropriation.

Testimony in opposition to this measure was received from the Department of Transportation.

This measure arises from the recent landslides along Pali Highway at the Castle Junction. The slopes were recently repaired, but the potential dangers still remain. This measure is intended to inform the public about issues concerning the usage of the Castle Junction.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1400 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 76 (Joint/Majority) Transportation and Government Operations and Intergovernmental Affairs on S.B. No. 1731

The purpose of this measure is to allow the counties to establish a county surcharge on the state excise and use taxes to fund public transportation in the counties.

Your Committees received testimony in support of this measure from United States Congressman Neil Abercrombie, Honolulu Mayor, two Honolulu City Council members, Leeward Oahu Transportation Management Association, Committee for Balanced Transportation, WESLIN Consulting Services, and four individuals. The Department of Transportation submitted testimony in favor of granting counties taxing authority and against mandating counties to spend those funds on public transit improvements. Testimony in opposition was received from the Department of Taxation, Hawaii Association of Realtors, National Federation of Independent Business-Hawaii, and Retail Merchants of Hawaii. Comments were submitted by the Tax Foundation of Hawaii.

The Honorable Neil Abercrombie, United States Representative for urban Honolulu, urged your Committees to pass a "local funding initiative" to have a "funding mechanism in place" to demonstrate to the Federal Transit Administration that Hawaii is serious about constructing a rail mass transit system. Hawaii is competing with the other states to secure federal monies to subsidize the costs of construction of a mass transit system. There are currently 226 projects nationwide seeking to have their projects accepted for funding. Hawaii may be able to obtain half of the cost of the system paid with federal monies. However, there is a deadline of March 3, 2005, in the U.S. House of Representatives to pass out of the House Transportation and Infrastructure Committee a federal mass transit appropriations bill covering a six-year period, and a deadline of June 1, 2005 for a conference committee to act on the measure. Mr. Abercrombie is confident the Federal Transit Authority stands ready to include Hawaii in its list of favored mass transit projects if this measure is passed. The Honorable Congressman told your Committees, "You're doing something that will shape the future of urban Honolulu for the next 100 years."

The capital costs for a fixed rail system with an initial trunk line extending from Kapolei in West Oahu to Iwilei in the central business district was estimated in 2004 to be in excess of \$2 billion by the Department of Transportation. A portion of the costs is anticipated to be paid with federal funds. Your Committees find that a fixed rail mass transit system is not possible without additional dedicated funding from a county mass transit surcharge.

Your Committees further find that the apparent haphazard development of mass transit development and financing plans over the years is due to the fact that a solution to transportation problems on all islands has eluded the State for many years. Every attempt has fallen short, despite the best efforts of many informed and knowledgeable people, including a multitude of experts. Bigger highways, more buses, and ferries are inadequate over the long term to serve transportation needs, and are unsuitable for many areas of the largest county. In contrast, a fixed light rail system has possibilities but the costs are prohibitive without a heavy investment of revenues. Nevertheless, light rail is not suitable for every county.

Your Committees are reluctant to, in effect, provide for a raise in taxes. However, your Committees believe that there is no alternative if mass transit is to become a reality. The costs are simply prohibitive. The time is now, following fifteen years in the making, to decide to implement light rail or not. Your Committees find that the past unsuccessful attempts by the counties to levy an excise tax surcharge were due not to the lack of adequate planning, but rather to ambivalent attitudes of policymakers at that time. Testimony by the Mayor of the City and County of Honolulu and two Honolulu City Council members indicates that the time is now ripe for the city to pass such a measure.

Your Committees urge the counties to contemplate carefully if an excise tax ordinance is justified for their respective county. This entails adequate planning of a mass transit system suitable for the particular county. Your Committees urge the Department of Transportation to provide advice, insight, and expertise to assist the counties in making the right decisions in planning for mass transit. For example, Hawaii County could probably best be served by an efficient, timely, and integrated bus system within and between towns.

The intent of your Committees is to provide the counties with assistance in mass transit design and planning, and with construction financing ability. The Department of Transportation as well as the Honolulu Department of Transportation Services have assured you Committees that in fact they are working collaboratively to that end.

Your Committees have amended this measure by:

- (1) Adding a purpose section to provide a historic record of the legislative efforts in enacting a county mass transit tax, so that future generations will have information and a perspective of what has transpired in passing this landmark legislation; and
- (2) On the recommendation of the Department of Taxation, adding language that the use tax also applies to imported services and contracting.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1731, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1731, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Slom). Excused, 5 (Baker, English, Hee, Kanno, Kim).

SCRep. 77 Transportation and Government Operations on S.B. No. 1732

The purpose of this measure is to make an appropriation for a local flood warning system for Lake Wilson.

Testimony in opposition to this measure was received from the Department of Land and Natural Resources (DLNR).

The purpose of a flood warning system is to provide officials with advance information that can be translated into response actions to save lives. An adequate local flood warning system is comprised of community volunteers; rainfall, river, and other hydrologic gauges; a communications network; and a local flood coordinator responsible for issuing flood warnings. An adequate flood warning system would also increase public awareness of the threat of floods and improve public response to flood warnings.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1732 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 78 Transportation and Government Operations on S.B. No. 1887

The purpose of this measure is to make an appropriation for highway access improvement in Puna.

Your Committee received testimony in support of this measure from the Department of Hawaiian Home Lands, Hawaii County Public Works Department, State Council of Hawaiian Homestead Associations, a House of Representative member, and two individuals.

This measure would make improvements to the access road from Keaau-Pahoa Road (Highway 130) to the Maku'u Farmers Market. The farmers market is an excellent grass roots effort that is contributing to the economic sustainability of the Maku'u community and the larger Hilo/Puna area. This appropriation would ensure the safety and well being of vendors and consumers of the Market.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1887 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, Hee, Kanno).

SCRep. 79 (Joint/Majority) Media, Arts, Science and Technology and Tourism on S.B. No. 575

The purpose of this measure is to create a trust fund to be administered by the Hawaii Community Foundation and the King Kamehameha commissioners to fund the King Kamehameha parade and festivities.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and Kamehameha Schools. Your Committees also received comments from the Department of Accounting and General Services.

Your Committees recognize the importance of preserving and commemorating the memory of King Kamehameha I and the Hawaiian culture. The King Kamehameha parade and festivities are long-standing traditions that are regular reminders of Hawaii's history, culture, and customs. Your Committees find that the King Kamehameha celebration is an important community event that honors the memory of King Kamehameha, and further find that the parade and festivities are revenue-generating events that contribute

significantly to Hawaii's economy. Your Committees believe that this measure will assure the perpetuation of the King Kamehameha celebrations.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 575 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Slom). Excused, 4 (English, Espero, Hee, Ige).

SCRep. 80 (Joint) Media, Arts, Science and Technology and Tourism on S.B. No. 967

The purpose of this measure is to establish a Museum of Hawaiian Music and Dance Committee to determine the scope and role of such a museum in the community, the appropriate type of institution that should be established, the location, possible financing mechanisms, and an initial business plan.

Your Committees received testimony in support of this measure from the Hawaii Tourism Authority, the Hawaii State Foundation on Culture and the Arts, and the Waikiki Improvement Association. Your Committees also received comments from the Department of Business, Economic Development, and Tourism, and the Office of Hawaiian Affairs.

Your Committees find that Hawaiian music and dance are unique cultural assets, and that a museum dedicated to their history and memorabilia will preserve, celebrate, and perpetuate the Hawaiian culture. Your Committees further find that the Hawaiian culture and spirit of aloha are vital in distinguishing Hawaii from all other visitor destinations. Your Committees find that this measure will cultivate the information necessary to establish a Museum of Hawaiian Music and Dance.

Your Committees have amended this measure to designate the Executive Director of the Hawaii State Foundation on Culture and the Arts, or the Executive Director's designated representative, as chair of the Museum of Hawaiian Music and Dance Committee, and to include a provision that the Hawaii Tourism Authority shall provide administrative support to the committee.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Tourism that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 967, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 967, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Espero, Hee, Ige).

SCRep. 81 Commerce, Consumer Protection and Housing on S.B. No. 1132

The purpose of this measure is to recodify the condominium laws governing the creation, alteration, and termination of condominium property regimes, the registration and administration of condominium projects, and protections for the purchasers of condominiums.

Testimony in support of this measure was received from the Real Estate Commission, Hawaii Association of Realtors, Community Associations Institute-Hawaii Chapter, and an individual. The Hawaii Bankers Association opposed the measure. The Hawaii Credit Union League submitted comments on the measure.

This measure represents a completion of the process of recodifying the State's condominium law, as authorized by Act 213, Session Laws of Hawaii 2003, that commenced with the enactment of Act 164, Session Laws of Hawaii 2004 (Act 164). Act 164 recodified the laws pertaining to condominium management and governance, and reserved for future enactment the provisions relating to the creation, alteration, and termination of condominium property regimes, the registration and administration of condominium projects, and protections for purchasers of condominiums. This measure proposes provisions relating to the latter, and among other things:

- (1) Establishes different disclosure requirements for different types of condominium projects, including converted projects and projects built on agricultural lands;
- (2) Simplifies the requirements and procedures relating to the developer's public report;
- (3) Enhances consumer protection for purchasers of condominiums by requiring developers to meet certain requirements before using purchasers' funds, requiring the developer's public report to inform purchasers that their funds may be used to pay for project costs prior to project completion, and by permitting purchasers to cancel a contract if the developer fails to complete construction by the specified completion date;
- (4) Clarifies a purchaser's rights with respect to cancellation and rescission of the sales contract; and
- (5) Clarifies the duties and jurisdiction of the Real Estate Commission.

Additionally, this measure repeals the July 1, 2005 effective date for the provisions relating to condominium management and governance enacted in Act 164, and provides for the new condominium laws, in their entirety, to take effect on July 1, 2006. In order to support informational and educational activities related to the new laws, this measure appropriates moneys from the Condominium Education Trust Fund.

Your Committee has amended this measure:

- (1) By deleting the amendments to section -149, Hawaii Revised Statutes, that would have:
 - (a) Authorized condominium associations to deposit funds into financial institutions that lack a presence in this State; and
 - (b) Required financial institutions holding association funds to maintain certain ratings under the Community Investment Act and Moody's Investors Service; and
- (2) To provide that existing administrative rules establishing fees continue to remain in effect after the repeal of chapter 514A, Hawaii Revised Statutes, pending the adoption of new rules under the new statutory chapter governing condominiums.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1132, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hogue).

SCRep. 82 Commerce, Consumer Protection and Housing on S.B. No. 1117

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist electric utilities with the financing of capital improvement projects.

The Department of Commerce and Consumer Affairs, Hawaiian Electric Company, Inc., Maui Electric Company, Ltd., and Hawaii Electric Light Company, Inc., testified in support of this measure.

This measure authorizes the issuance of special purpose revenue bonds (SPRBs) to assist Hawaiian Electric Company, Inc., Maui Electric Company, Ltd., and Hawaii Electric Light Company, Inc. with multi-project capital improvement construction programs for the furnishing of electric energy in this State.

Your Committee finds that the use of proceeds from the sale of tax-exempt SPRBs will enable the electric utilities to lower their financing costs, resulting in a savings of approximately \$250,000 for every \$1,000,000 of bonds sold, over the thirty-year life of the bond, or an overall savings of \$40,000,000 for \$160,000,000 of bonds over the thirty-year period. These savings will allow the electric utilities to make necessary upgrades and improvements to facilities and infrastructure while mitigating the financial impact on ratepayers.

Additionally, because the proposed projects cost at least \$2,500,000, the utilities will be required to obtain the approval of the Public Utilities Commission (PUC) to commit funding. This review process, which also involves the Consumer Advocate, will help to ensure that the proceeds from the state-issued bonds are utilized in a manner that furthers the public interest.

Your Committee has amended this measure to:

- (1) Specify the amount of the bond authorization for each electric utility;
- (2) Clarify that PUC approval is required for the projects financed by this bond issuance;
- (3) Reflect the correct lapsing date of the authorization in section 4 relating to refunding SPRBs; and
- (4) Reflect an effective date of July 1, 2005.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1117, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1117, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hogue).

SCRep. 83 Commerce, Consumer Protection and Housing on S.B. No. 1345

The purpose of this measure is to remove limitations on the types of issues that may be adjudicated in an administrative hearing involving condominium disputes.

The Department of Commerce and Consumer Affairs (DCCA), Hawaii Independent Condominium and Cooperative Owners, and Community Associations Institute-Hawaii Chapter testified in support of this measure.

Act 164, Session Laws of Hawaii 2004 (Act 164), established the Condominium Dispute Resolution Pilot Program, a two-year program that allows certain condominium governance disputes unresolved by mediation to be heard by DCCA's Office of

Administrative Hearings. Based on concerns that the number of requests for an administrative hearing on condominium disputes would tax the resources of DCCA, Act 164 established a thirty hearing-per-fiscal year limit on hearing requests, and restricted the types of governance issues that could be adjudicated at hearing.

Your Committee finds that, to date, there have been no requests for hearings filed with the pilot program; therefore, limits imposed on the types of disputes that may be administratively adjudicated should be removed so as to afford condominium owners and associations greater access to the hearings process. Accordingly, this measure repeals the issue-related limitations and allows an administrative hearings officer in the pilot program to consider any matter that was in dispute in the mediation that preceded the hearing. Your Committee notes that the thirty hearings-per-fiscal year limit continues to be in effect and will preclude the program from becoming overwhelmed with hearing requests.

Your Committee has amended this measure by deleting unnecessary amendments to Act 164 that duplicate the provisions of section 514A-121.5, Hawaii Revised Statutes, and by deleting the conditional effective date provisions.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1345, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1345, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hogue).

SCRep. 84 Commerce, Consumer Protection and Housing on S.B. No. 1347

The purpose of this measure is to authorize a foreclosure sale by the tax collector on real property for which a lien has existed for eighteen months or on which fines exceeding \$25,000 are owed due to egregious zoning or building code violations involving the real property.

The Department of Planning and Permitting of the City and County of Honolulu testified in support of this measure.

Presently, the law authorizes the tax collector to foreclose upon and sell at public auction to the highest bidder real property upon which any lien has existed for three years. This measure shortens that time period to eighteen months and additionally authorizes a foreclosure sale for real property on which is owed more than \$25,000 in fines for egregious zoning or building code violations. Your Committee finds that this measure further clarifies the counties' authority to foreclose upon real properties encumbered by liens.

Your Committee has amended this measure for the purpose of clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1347, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1347, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hogue).

SCRep. 85 Commerce, Consumer Protection and Housing on S.B. No. 1778

The purpose of this measure is to require the expeditious investigation of complaints of unlicensed contracting and the issuance of a citation for unlicensed contracting that includes an order of abatement.

The Hawaii Building and Construction Trades Council and Ironworkers Stabilization Fund testified in support of this measure. The Department of Commerce and Consumer Affairs opposed the measure.

Your Committee finds that the expeditious investigation by RICO of unlicensed contracting is necessary to abate the unlicensed activity and to protect consumers and the public. Your Committee received testimony regarding one case in which RICO issued its formal determination in favor of the complainant one year after the filing of the complaint, by which time the work performed by the unlicensed individual had been completed. This measure proposes to address this issue by requiring RICO to conduct an investigation of a complaint of unlicensed contracting within five working days of the complaint's receipt.

Additionally, this measure requires an investigator who determines that a person has engaged in unlicensed contracting to issue that person a citation that includes an order of abatement; currently, the law permits, but does not require these actions. Your Committee further finds that in some instances of unlicensed activity, extenuating circumstances mitigate against the issuance of a citation, as in the case of a formerly licensed contractor who has inadvertently fallen out of compliance with the licensing requirements, and therefore, that RICO should continue to retain discretion in these matters.

Accordingly, your Committee has amended this measure by deleting language that would have required RICO investigators to issue citations in all cases in which there was a finding of unlicensed contracting activity and to issue an order of abatement with each citation.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1778, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 1778, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 86 Commerce, Consumer Protection and Housing on S.B. No. 1412

The purpose of this measure is to exempt unclaimed property held by an electric utility cooperative association from the laws governing the disposition of unclaimed property.

The Department of Budget and Finance and Kauai Island Utility Cooperative testified in support of this measure.

Electric utility cooperative associations are nonprofit entities formed to provide essential electric services to their members. Without the need to generate profits and pay shareholder dividends, these cooperatives are able to reinvest "margins" (akin to profits realized by for-profit entities) by allocating them to their members as capital credit contributions, and may also return moneys to its members as patronage capital refunds.

Under current law, unclaimed patronage capital refunds and other unclaimed property held by an electric utility cooperative association are required to be relinquished to the State under the unclaimed property laws, making these moneys unavailable for use by the cooperative for the general welfare of its members.

This measure would enable electric cooperatives to retain and utilize unclaimed funds to further the interests of their members and the larger community by exempting unclaimed property held by the cooperatives from the unclaimed property laws. The cooperative would be required to file an annual report with the Director of Finance listing all unclaimed property in its possession, establish a nonprofit corporation to receive non-escheat patronage refunds (patronage capital refunds unclaimed for five years), and use the moneys held by the nonprofit corporation for charitable and educational purposes.

Your Committee finds that twenty-five states have enacted similar laws and that this measure would enable an electric utility cooperative association to retain the use of its members' moneys for the benefit of the cooperative and the community it serves.

Your Committee has amended this measure:

- (1) To clarify that an electric utility cooperative association shall remain responsible for the payment of all claims for unclaimed property reported to the Director of Finance; and
- (2) By making technical, nonsubstantive amendments for the purposes of clarity and consistency, and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1412, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1412, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hogue).

SCRep. 87 Energy, Environment, and International Affairs on S.B. No. 1262

The purpose of this measure is to require that an environmental impact statement be performed for ocean resources and state parks in the area between Kalaeloa and Kaena point on the island of Oahu, and to appropriate funds for that purpose.

Testimony in support of the measure was received from the Waianae Coast Neighborhood Board, the Wild Dolphin Foundation, the Life of the Land, and four individuals. Testimony in opposition to the measure was submitted by the Board of Land and Natural Resources.

Your Committee finds that a comprehensive study and inventory of nearshore and shoreline resources along the Waianae coast is necessary to help determine present and future actions to preserve the environmental and natural integrity of the area while accommodating those who use and enjoy these resources. While your Committee acknowledges current efforts to resolve nearshore user conflicts along the Waianae Coast, it believes a more comprehensive planning tool is needed to address the long-term future of the area.

Your Committee has amended this measure by designating the document to be produced as a baseline study that shall include information that is found in an environmental impact statement (EIS). Thus, the document will not be subject to the steps in an EIS review process under chapter 343, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1262, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1262, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 88 Energy, Environment, and International Affairs on S.B. No. 1003

The purpose of this measure is to remove the limit on allowable customer-generator generating capacity under the net energy metering law, and to incrementally increase the percentage of the total energy generating capacity of an electric utility produced by eligible customer-generators.

Testimony supporting the measure was received from the Hawaii Renewable Energy Alliance and PowerLight Corporation. The Department of Commerce and Consumer Affairs and Hawaiian Electric Company submitted testimony in support of the measure but believed that it would be premature to amend the current net energy metering law at this time. The Public Utilities Commission and the Department of Business, Economic Development, and Tourism submitted comments.

Your Committee finds that the net energy metering program, which provides incentives to those who produce renewable energy fed into the power grid, needs to be further encouraged by making it easier for a customer-generator to participate in the program. In addition, your Committee believes that incremental increases in the percentage of an electric utility's generating capacity produced by customer-generators will provide a fair standard to follow while providing predictability to electric utilities for planning and implementation purposes.

Your Committee has amended this measure by amending the definition of "net energy metering" to change the billing period from a monthly to an annual basis.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1003, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1003, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 89 Energy, Environment, and International Affairs on S.B. No. 1556

The purpose of this measure is to enable the formation of cooperatives for the purpose of generating electricity from renewable energy resources to be sold to its membership, and to authorize the issuance of revenue bonds to finance the costs associated with electrical generation for cooperatives.

Testimony in support of the measure was received from the Public Utilities Commission, Life of the Land, and PowerLight Corporation. Testimony supporting the intent of the measure and providing comments was received from the Department of Commerce and Consumer Affairs and the Hawaii Renewable Energy Alliance.

Your Committee finds that laws enabling renewable energy cooperatives will provide a vehicle for citizens to help reduce energy dependency and contribute to a cleaner environment while enjoying the economic efficiency that a cooperative would bring.

Your Committee has amended this measure by substituting language to make the nonprofit corporation laws of the State apply to a renewable energy cooperative unless otherwise addressed in the measure. Your Committee believes this will clear up what type of corporation law applies, as the measure classifies the cooperative as a nonprofit corporation. Your Committee has also made a technical, nonsubstantive amendment to provide clarity.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1556, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1556, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 90 (Majority) Labor on S.B. No. 294

The purpose of this measure is to amend the law relating to employment.

Your Committee finds that although the minimum wage amount recently increased effective 2003, this increase has failed to keep pace with the escalating rate of inflation. A further increase is necessary in order to provide entry-level workers with adequate wages and increase their purchasing power. Furthermore, automatic annual adjustments are necessary to ensure that the amount remains in line with the current economic situation.

Additionally, your Committee finds that although Hawaii is fortunate to enjoy one of the lowest unemployment rates in the country, unemployment insurance tax relief is long overdue for employers within the State as well. Therefore, your Committee determines that at least temporary tax relief for calendar years 2005, 2006, and 2007 should be provided in order to promote business growth and economic prosperity through the creation of new jobs, the expansion of benefits, and the provision of pay increases to employees.

Accordingly, your Committee has amended this measure by replacing its contents with language that increases the minimum wage amount to \$7 beginning July 1, 2005, providing for an annual automatic increase thereafter, and providing temporary tax relief to employers by lowering the maximum taxable wage base for calendar years 2005 through 2007.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 294, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 294, S.D. 1, and be recommitted to the Committee on Labor, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 91 Transportation and Government Operations on S.B. No. 48

The purpose of this measure is to require persons under the age of eighteen years to wear a safety helmet while operating a moped and wear a bicycle helmet while operating a bicycle.

Your Committee received testimony in support of this measure from the Department of Health, Department of Transportation, Honolulu Police Department, Brain Injury Association of Hawaii, Keiki Injury Prevention Coalition, one State Representative, and one individual. Testimony in opposition was received from one individual.

Current law does not require a safety helmet to be worn by persons under age sixteen while operating a moped, or a bicycle helmet while operating a bicycle. This measure raises the age to eighteen.

Your Committee finds that unhelmeted bicycle and moped riders are at risk for head injury, the most common cause of death and serious disability in bicycle and moped crashes. Head injuries can produce effects which are profound, disabling, long-lasting, and extremely costly.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 48 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 92 Transportation and Government Operations on S.B. No. 427

The purpose of this measure is to require the use of child safety seats or booster seats for children over four years old but less than eight years old, and under certain weight and height minimums.

Your Committee received testimony in support of this measure from the Department of Transportation, Department of Health, Honolulu Police Department (HPD), Maui Police Department, Mothers Against Drunk Driving, Waianae Coast Comprehensive Health Center, Keiki Injury Prevention Center, State Farm Mutual Automobile Insurance Company, and two individuals.

Current law does not require a child under four years of age to be restrained in a child passenger restraint system. This measure raises the age to under eight years of age and adds a booster seat as an alternative. This measure also provides an exemption for children over four feet and nine inches in height, or traveling in a motor vehicle equipped only with lap belts in the rear seat and without shoulder straps, in which case a child over forty pounds is exempt from the booster seat requirement.

The proper use of child passenger restraints is the most important factor in preventing death and disability in a car crash. Although it is currently legal for children over the age of four to be restrained only with seat belts, this practice exposes children to an increased risk of serious or even fatal injury. Seat belts were designed for older children and adults, not for children under eight years old whose size and physical development make seat belts less effective, and in some cases, unsafe.

Your Committee has amended this measure on the recommendation of the HPD by deleting the weight exemption of over eighty pounds.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 427, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 93 Transportation and Government Operations on S.B. No. 428

The purpose of this measure is to establish a three-stage driver's licensing program for persons under the age of eighteen.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT), Department of Health, Honolulu Police Department, Honolulu Prosecuting Attorney, State Farm Mutual Automobile Insurance Company, Mothers

Against Drunk Driving-Hawaii, Keiki Injury Prevention Coalition, Hawaii Insurers Council, Motor Vehicle Crash Reduction Group, and two individuals. Testimony in opposition was received from the Public Defender.

Your Committee finds that teenage drivers are disproportionately involved in crashes, including fatal crashes. There are several reasons for this. They are inexperienced new drivers, and are more likely to engage in risky behaviors such as speeding and racing, particularly in the company of their peers. They are also more likely to become distracted and inattentive while driving.

Your Committee believes that provisional licenses will help to reduce crashes and the resulting injuries and deaths. Teen drivers will be given more driving supervision and driving practice before becoming fully licensed. According to testimony of the Keiki Injury Prevention Coalition, states with a graduated licensing system have reported a significant reduction in fatalities and driving convictions. States that have night time driving restrictions as part of graduated licensing have had reductions in fatalities of up to fifty-three percent (Wisconsin) and in all crashes of up to twenty-five percent (North Carolina) involving teen drivers.

The National Highway Traffic Safety Administration encourages states to implement a graduated driver licensing system. Easing young drivers onto the roadways by controlling their exposure to progressively more difficult driving experiences can reduce the incidence of traffic crashes involving young drivers.

Your Committee has amended this measure by replacing it with S.B. No. 849, a similar measure, on the recommendation of the DOT.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 428, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 94 Transportation and Government Operations on S.B. No. 453

The purpose of this measure is to authorize the Ombudsman or an authorized representative to obtain state tax returns and return information in connection with the official duties of the Ombudsman.

Your Committee received testimony in support of this measure from the Office of the Ombudsman. Comments were received from the Department of Taxation.

The legislature created the Office of the Ombudsman to provide citizens a readily accessible, effective, and knowledgeable “watchdog” of government. In order for the Ombudsman to perform its duties, the law provides that the Ombudsman may make inquiries and obtain relevant information as the Ombudsman deems fit. This measure is in furtherance of those powers.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 453, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 453, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 95 Transportation and Government Operations on S.B. No. 614

The purpose of this measure is to limit the period of time for which a prior traffic conviction may be considered for enhancing the penalties for subsequent convictions.

Your Committee received testimony in support of this measure from the Department of Transportation and the Judiciary.

Your Committee finds that the three statutory provisions amended by this measure do not specify a timeline of prior convictions for imposition of increased penalties for later convictions. This is problematic for sentencing purposes. This measure would clear up that uncertainty.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 614 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 96 Transportation and Government Operations on S.B. No. 844

The purpose of this measure is to require new vehicles to be safety inspected on or before their initial retail sale or lease from dealer to consumer, and inspected annually two years thereafter.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT), Honolulu Department of Customer Services, and Hawaii Automobile Dealers Association.

According to the DOT, this measure would conform the law to the current practices that were implemented after 2002 when the two-year period for the initial safety inspection was enacted. DOT has worked with county motor vehicle departments and automobile dealers to clarify and simplify the system. This measure is the outgrowth of that administrative effort.

Your Committee has amended this measure by making technical, nonsubstantive amendments for the purpose of style and clarity.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 844, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 844, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 97 Transportation and Government Operations on S.B. No. 1040

The purpose of this measure is to allow a lessor of rental vehicles the option of registering a new motor vehicle for two years instead of one, and if the vehicle is transferred by the lessor within two years, to take a credit on the registration against future registrations.

Your Committee received testimony in support of this measure from Catrala. Testimony in opposition was received from the Honolulu Department of Customer Services.

Your Committee recognizes that this measure would ease the burden on the motor vehicle rental industry to re-register a new vehicle at the end of the first year of registration when those vehicles remain in service for about two years. However, testimony of the City and County of Honolulu indicates that this measure would require a major rewrite of their current computer system for motor vehicles. The additional costs of equipment would be about \$105,000 and of hiring a consultant would be about \$250,000. Therefore, your Committee is not satisfied at this time that this measure is feasible from a practical and financial standpoint.

Your Committee has amended this measure to insert an effective date of July 1, 2050, to continue discussions and consideration on a feasible plan of implementation.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1040, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1040, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 98 Transportation and Government Operations on S.B. No. 1224

The purpose of this measure is to provide immunity from civil liability for trained installers and inspectors of automobile child restraint devices.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT), Department of Health, Maui Police Department, Keiki Injury Prevention Coalition, and State Farm Mutual Automobile Association. Testimony in opposition was received from the Consumer Lawyers of Hawaii.

According to testimony of the DOT, an estimated ninety-five percent of all child safety seats in use today are installed incorrectly. In most cases, parents are not aware that they are installing the seats improperly. Parents and caregivers can benefit from education and direct assistance from trained individuals to install the seats properly. Providing immunity from liability for certified car seat technicians will encourage more individuals to become trained technicians and volunteer at free car seat checkups in the community which is increasingly in demand. This in turn will help a number of parents and caregivers properly meet the requirements of Hawaii's child passenger restraint law.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1224 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 99 Transportation and Government Operations on S.B. No. 1240

The purpose of this measure is to prohibit persons eighteen years of age or younger from riding in the bed or load carrying area of a pickup truck.

Your Committee received testimony in support of this measure from the Department of Health, Honolulu Police Department, Maui Police Department, Keiki Injury Prevention Coalition, and State Farm Mutual Automobile Insurance Company. Testimony in opposition was received from the Public Defender.

Current law prohibits persons age twelve and under from riding in pickup beds. This measure raises that age to eighteen.

Your Committee believes that all passengers riding in the bed of a pickup truck are at increased risk of death and serious injury. In Hawaii, statistics indicate that in the five year period of 1999 through 2003, minors represented a significant proportion of injuries and fatalities resulting from riding in the bed of a pickup.

Truck beds were designed to carry cargo, not passengers, and there is no safety standard for securing passengers in the bed of pickups. Therefore, the most effective means of preventing injury and death is to prohibit riding in the bed altogether.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1240 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 100 Transportation and Government Operations on S.B. No. 591

The purpose of this measure is to repeal the penalties provided in section 291C-13, Hawaii Revised Statutes (HRS), relating to accidents involving damage to vehicle or property, because penalties for that chapter are already provided under section 291C-161, HRS.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney (prosecutor) and Honolulu Police Department.

According to testimony of the prosecutor, two different penalties are provided for violation of section 291C-13, HRS. One penalty is within that section and a different penalty is contained in section 291C-161, HRS. Since the latter section was enacted later it should be controlling, and the former section should have had the penalty provision repealed at that time. This measure corrects that oversight.

Your Committee has amended this measure upon recommendation by the prosecutor, by adding a similar amendment for the same reasons to section 291C-18, HRS, relating to false reporting.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 591, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 591, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Whalen).

SCRep. 101 (Joint) Water, Land, and Agriculture and Intergovernmental Affairs on S.B. No. 1587

The purpose of this measure is to make appropriations to the Department of Agriculture as follows:

- (1) \$200,000 for planning and construction of the Honomalino irrigation system in Kona; and
- (2) \$500,000 to the Department of Agriculture to prepare an agricultural water use and development plan (AWUDP).

Your Committees received testimony in support of this measure from the Department of Agriculture, Commission on Water Resource Management, Hawaii Farm Bureau, and Honomalino Irrigation Cooperative.

The funding for the Honomalino irrigation system is intended to complete the development of the system, and the funding for the AWUDP is to complete the AWUDP in order to protect future agricultural water requirements.

The AWUDP is in its third edition, which is valuable, but still does not address the future needs of the growing diversified agricultural community. The AWUDP is intended to be a living document with regulated updates. When completed, the AWUDP will be submitted to the Board of Agriculture for approval by the Commission on Water Resource Management for inclusion in the state water plan.

The Honomalino irrigation system is a federally sponsored project, currently in the planning stage. When combined with federal funds, this appropriation would allow the completion of the watershed plan and environmental impact statement. A completed preliminary study has shown a positive cost-benefit ratio.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1587 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 3 (Fukunaga, Inouye, Nishihara).

SCRep. 102 Health on S.B. No. 469

The purpose of this measure is to establish an income tax credit to be applied to the repayment of loans to attend medical school granted to a physician who practices after training in medically underserved areas of the State.

The University of Hawai'i System, Hawaii Medical Association, Healthcare Association of Hawaii, American College of Obstetricians and Gynecologists, and Hawai'i Psychological Association submitted testimony in support of this measure. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that there is a serious crisis in the provision of medical services in the medically underserved areas of the State, particularly in the rural areas. Incentives need to be extended to medical students to practice after graduation in those areas. Some medical students finance their education with substantial student loans, often amounting to \$90,000. An ideal incentive for these students to practice in the medically underserved areas is for student loans to be repaid from income tax credits allowed to the loan recipient, on the condition that the doctor practices in those areas and serve patients that are Medicaid, QUEST, or SCHIP recipients.

Upon further consideration, your Committee has amended this measure by adding an income tax credit to the repayment of loans to attend dental school granted to a dentist who practices after training in dentally underserved areas of the State, and by increasing the percentage of total income the taxpayer must derive from Medicaid, QUEST, or SCHIP reimbursement.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 469, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 469, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 103 Health on S.B. No. 1230

The purpose of this measure is to extend the sunset date to enable the Insurance Commissioner to continue to monitor the solvency of dental service organizations and dental service corporations.

The Insurance Commissioner submitted testimony in support of this measure.

Your Committee finds that this measure will enable the Insurance Commissioner to continue to protect the interests of consumers by shutting down insolvent dental insurance plans that failed to pay claims, and by pursuing claims against the principal agents of these plans to recover assets on behalf of the policyholders and providers.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 104 Health on S.B. No. 861

The purpose of this measure is to make an appropriation for sexual assault services.

The Honolulu Department of the Prosecuting Attorney, Child & Family Services, The Sex Abuse Treatment Center, the YWCA of Hawaii Island, the YWCA of Kauai, and one individual submitted testimony in support of this measure. The Department of Health submitted testimony in opposition.

Your Committee finds that the state general funds appropriation level for the delivery of sexual assault services has not changed since 1996. Repeated requests have been made to increase the base general fund level in the Department of Health operating budget for sexual assault services. Since 1998, no increase has come through. Therefore, the sexual assault providers have had to seek and receive additional funds to deliver 24/7 crisis, counseling, and prevention/education services. While this funding strategy helped to maintain some services, it has taken its toll on the infrastructure of the sexual assault programs, and a toll on the overall scope of services delivered.

Your Committee notes that support, including counseling and advocacy, not only benefits individual victims, but also their families. Victims receiving appropriate and timely services are more likely to report their assault to the police, thus improving the chances that perpetrators are identified and successfully prosecuted. This in turn provides greater safety for all by increasing the chances that dangerous and repeat sex offenders are adequately controlled through incarceration or intensive probation.

Your Committee finds that it is difficult for agencies such as The Sex Abuse Treatment Center to conduct planning based on year to year funding and that the Department of Health should determine a way to contract for and fund these services on a multi-year basis.

Your Committee requests that the Committee on Ways and Means consider including an annual increase of \$300,000 into the base general fund level for sex assault services.

Your Committee has amended this measure by including language to reflect that the appropriation should be used for sexual assault direct services throughout Hawaii.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 861, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 861, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 105 Health on S.B. No. 1227

The purpose of this measure is to appropriate funds to the Department of Health for food, housing, and transportation assistance for HIV/AIDS patients.

Save the FoodBasket, Inc., Life Foundation; Hepatitis Prevention, Education, Treatment, and Support Network of Hawaii; and twelve individuals submitted testimony in support of this measure. The Department of Health submitted testimony in opposition.

Your Committee finds that federal funding through the Ryan White Comprehensive AIDS Resources Emergency (CARE) Act reaches over five hundred thousand individuals each year, making it the federal government's largest program for people living with HIV disease. However, the federal CARE priorities have changed in recent years, leaving many HIV/AIDS patients in Hawaii without adequate food, housing, and transportation services. Programs such as FoodBasket that provide quality, essential nutrition (fresh fruits, produce, dairy, and protein) for people living with HIV, and Gregory House, which provides rent subsidies, are in jeopardy. While people with HIV/AIDS are living longer, many are unable to return to work due to their health and the debilitating side effects of treatment. People living with HIV/AIDS need up to two times the amount of protein and calories in order for them to prevent malnutrition, wasting syndrome, and opportunistic infections. Families and individuals that lose their existing rental subsidies face the risk of homelessness. If homeless, HIV/AIDS patients face additional challenges because many of the related medications need to be refrigerated and taken with food as much as three times a day. An appropriation is needed to ensure that eligible HIV/AIDS patients obtain critical food, housing, and transportation assistance, and that related programs such as FoodBasket and Gregory House will continue.

Upon further consideration, your Committee has amended this measure by changing the findings and purpose section to more accurately reflect a change in the federal CARE priorities and not a decrease in the funding; and by changing the appropriation section to reflect that the funding is for critical food, housing, and transportation assistance to eligible HIV/AIDS patients that is no longer provided for by the CARE Act, and to ensure that related programs such as FoodBasket and Gregory House continue.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1227, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1227, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 106 (Majority) Human Services on S.B. No. 560

The purpose of this measure is to appropriate funds to the Executive Office on Aging to expand kupuna care, sageplus, project reach, and caregiver support services.

Your Committee received testimony in support of the measure from the ILWU Local 142, Kokua Council, Lanakila Rehabilitation Center, Policy Advisory Board for Elder Affairs and two individuals.

Your Committee finds that the rapidly growing elderly population urgently needs more programs and services which requires additional personnel and fiscal resources. Your Committee believes that this measure will provide needed funding for services to and programs for the elderly, particularly home and community-based care for frail, vulnerable older adults.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 560 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 107 Human Services on S.B. No. 561

The purpose of this measure is to coordinate and develop family caregiver support services statewide by authorizing the executive office on aging to establish a family caregiver services coordinator.

Your Committee received testimony in support of the measure from the American Association of Retired People Hawaii, ILWU Local 142, Kokua Council, Policy Advisory Board for Elder Affairs, and one individual.

Your Committee finds that families, not institutions, are the primary providers of long-term care for older adults in Hawaii. The Executive Office on Aging is responsible for Hawaii's long-term care strategy, and needs to establish a family caregiver services coordinator to coordinate a comprehensive, statewide system of caregiver support services. Your Committee believes that this measure will help ensure that older adults remain at home with their families, both as a matter of values and as a matter of economics to control long-term care costs, particularly for institutional care.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 561 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5 Noes, none. Excused, 1 (Kokubun).

SCRep. 108 Human Services on S.B. No. 826

The purpose of this measure is to clarify that the Department of Public Safety deputy sheriffs and narcotics enforcement officers and Department of the Attorney General investigators, in addition to police officers, shall report child abuse cases and be conferred with the authority to take the child victim into protective custody.

Your Committee received testimony in support of the measure from the Department of Human Services and the Department of Public Safety.

Your Committee finds that the Department of Public Safety deputy sheriffs and narcotics enforcement officers and Department of the Attorney General investigators have occasion to witness child abuse in the course of their work. Under current law, these law enforcement officers are not specifically named as mandated reporters, and lack authority to assume protective custody of the child. Thus, your Committee finds that the safety and welfare of the child would be protected if these enforcement officers and investigators were conferred with the same statutory authority as exists for county police officers in child abuse cases.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 109 Human Services on S.B. No. 1021

The purpose of this measure is to establish a three-year service credit exchange pilot project within the Executive Office on Aging, and appropriate funds for training programs and operations.

Testimony in support of this measure was submitted by the Policy Advisory Board for Elder Affairs, Project Dana, the Waikiki Community Center, and one individual.

Your Committee finds that with limited funds, government alone cannot meet all the needs of Hawaii's communities and its citizens, especially in a state that faces an increasingly aging population. The State is in need of alternative measures to balance costly social service programs. Under a system of service credit exchange, exchange members provide needed services to other members while earning service credit exchanges at the rate of one credit per hour spent in service, to be used for future purchases of services from fellow exchange members for themselves or donated to others. Thus, your Committee believes that the use of service credit exchanges in Hawaii can facilitate the provision of social services to those in need while minimizing the use of tax dollars, promoting volunteerism, and strengthening and empowering our communities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1021 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 110 (Majority) Human Services on S.B. No. 1022

The purpose of this measure is to require medical assistance programs, including Medicaid and QUEST, to provide chiropractic services.

Testimony in support of this measure was submitted by the American Chiropractic Association, the Hawaii State Chiropractic Association, and six individuals. Comments were also received by the Department of Human Services.

Your Committee finds that chiropractic is the largest non-allopathic healthcare provider in the United States, and is part of most other state and federal health plans that serve the medical assistance population group. If chiropractic services are provided to treat patients, the patients must pay for them out-of-pocket. However, patients whose medical coverage is provided through Medicaid or QUEST are often the least able to afford out-of-pocket expenses for their health care. Your Committee believes that reimbursement for chiropractic services will provide an alternative treatment option for patients covered under medical assistance programs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1022 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 111 Human Services on S.B. No. 1103

The purpose of this measure is to appropriate funds for the personal care program at Hale Mahaolu.

Testimony in support of this measure was submitted by Hale Mahaolu and two Maui County Council members. Comments were submitted by the Department of the Attorney General and the Department of Human Services.

Your Committee finds that providing personal care services to Maui County's disabled and/or chronically ill adults enables them to maintain an independent lifestyle in their own homes, and prevents premature or unnecessary institutionalization. While the need for personal care services has increased, program funds have been reduced. Thus, your Committee believes that providing services to these clients to allow them to maintain an independent lifestyle in their own homes reduces costs of long term care for families, communities and government.

Your Committee adopted the amendment suggested by the Department of the Attorney General to refer to the appropriation as a grant rather than a grant-in-aid, consistent with the terminology used in chapter 42F, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1103, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1103, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hooser, Kokubun).

SCRep. 112 Human Services on S.B. No. 1202

The purpose of this measure is to make appropriations from emergency budget and reserve fund for senior centers of the Lanakila Multi-Purpose Senior Center, Moiliili Community Center, and Waikiki Community Center.

Testimony in support of this measure was submitted by the Executive Office on Aging, Catholic Charities Hawaii, Hawaii Catholic Conference, Moiliili Community Center, Policy Advisory Board for Elder Affairs, the Waikiki Community Center, and thirty-nine individuals.

Your Committee finds that senior centers are community based focal points where older adults receive recreation, education, and social services that promote wellness and help prevent premature institutionalization. These centers provide activities such as exercise, meals, health promotion, counseling, and clubs, to name a few. Thus, your Committee believes that because many elderly Hawaii residents find these facilities crucial to their overall health and well-being, funding will enable the centers to continue operating and providing a wide range of services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1202 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hooser, Kokubun).

SCRep. 113 (Majority) Human Services on S.B. No. 1213

The purpose of this measure is to appropriate funds to increase the level of care payments for types I and II adult residential care homes.

Testimony in support of this measure was submitted by the Department of Human Services and the Hawaii Coalition of Care Home Administrators.

Your Committee finds that the current level of payments by the State to types I and II adult residential care homes has not kept pace with the increase in the cost of living. Your Committee finds that these homes provide an important service, both to individuals served and the community at large, by offering a less expensive long-term care alternative that delays institutional placement for seniors and the disabled. However, relevant federal and state rules and regulations call for strict requirements, which are costly, as well as an

increase in costs related to insurance and personnel without a corresponding increase in payments. Thus, your Committee believes that an increase in the payments to adult residential care homes is essential so that operators can continue to afford to care for the elderly and disabled.

Your Committee recommends that the Department of Human Services continues exploring ways to finance this measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1213 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 114 (Majority) Human Services on S.B. No. 1208

The purpose of this measure is to establish the At-Home Infant Child Care Program.

Testimony in support of this measure was submitted by the Good Beginnings Alliance, Hawaii Association for the Education of Young Children, and PATCH. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that numerous studies document a shortage of infant child care nationwide and in Hawaii. It is increasingly more difficult for low-income parents to attain affordable child care that meets basic needs and safety standards. Furthermore, the cost of quality child care is steadily increasing, making it more difficult for low-income families to afford infant care. Early childhood is a critical time for parent and child to develop bonds and establish learning patterns. Thus, your Committee believes that the At-Home Infant Child Care Program is an investment in the well-being of Hawaii's keiki.

Your Committee amended this measure by eliminating language that would limit a family's access to this program because of caring for any other children in the family, time in the program, or maximum assistance received.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1208, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1208, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Trimble). Excused, 2 (Hooser, Kokubun).

SCRep. 115 (Majority) Human Services on S.B. No. 1519

The purpose of this measure is to increase the rate of payment to foster care home providers.

Testimony in support of this measure was submitted by the Adult Foster Home Association of Hawaii and one individual. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that the cost of operating foster care homes has increased. In addition to the doubling of malpractice and liability insurance costs and escalating rental costs, foster care home providers have been required by new case management policies, instituted by the Department of Human Services, to perform their own billing and accreditation operations. These requirements add to the time and costs already incurred by providers. Thus, your Committee believes that the amount of funding currently allocated to foster care home providers should be increased.

Your Committee notes that additional financing resource options should be investigated in order to increase the rate of payment to foster care providers.

Your Committee has amended this measure by adding language to clarify that the seven percent increase in payments to foster care home providers shall be over its current rate.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1519, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1519, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 116 (Majority) Human Services on S.B. No. 1750

The purpose of this measure is to authorize the standing committees having jurisdiction over fiscal matters in both the Senate and the House of Representatives as joint legislative oversight committees to oversee and evaluate Temporary Assistance for Needy Families (TANF) fund program implementation and expenditures.

Testimony in support of this measure was submitted by the HGEA/AFSCME Local 152 and two individuals. Comments in regard to this measure were submitted by the Department of Human Services.

Your Committee finds that the issue of unspent or misspent TANF funds has become increasingly important as more families find themselves in need of supportive programs and services. Examining the use of unspent and misspent state TANF funds now is critical. Therefore, your Committee believes that legislative oversight is necessary to evaluate TANF program implementation and fund expenditures.

Your Committee has amended this measure by adding the legislative committees having jurisdiction over human services to assist with legislative oversight of the TANF program implementation and fund expenditures, and by requiring one round of oversight hearings on all islands of the State.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1750, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1750, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Trimble). Excused, 2 (Hooser, Kokubun).

SCRep. 117 (Joint) Judiciary and Hawaiian Affairs and Energy, Environment, and International Affairs on S.B. No. 1288

The purpose of this measure is to appropriate funds for the implementation of an energy strategy for the island of Kahoolawe that utilizes alternative or sustainable energy resources to provide for the current and future energy needs of Kahoolawe.

Testimony in support of the measure was submitted by the Executive Director of the Kahoolawe Island Reserve Commission.

Your Committees find that the process of restoring and revitalizing the island of Kahoolawe requires the implementation and utilization of innovative alternative energy technologies that do not harm the fragile environment and ecosystems of Kahoolawe. Preliminary studies have concluded that the use of alternative and renewable energy sources to provide for the present and future energy needs of Kahoolawe is not only feasible, but also cost effective and will help promote a sustainable future on Kahoolawe.

As affirmed by the records of votes of the members of your Committees on Judiciary and Hawaiian Affairs and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1288 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (Hee, Ihara).

SCRep. 118 Health on S.B. No. 1334

The purpose of this measure is to limit the liability for community health centers that operate a helicopter landing pad for use by Military Assistance to Safety and Traffic helicopters.

The Department of Health, Waianae Coast Comprehensive Health Center, and Consumer Lawyers of Hawaii submitted testimony in support of this measure.

Your Committee finds that the Military Assistance to Safety and Traffic (MAST) helicopter program has been a major life-saving program for medical emergencies on the Waianae Coast as well as other rural areas on Oahu. The potential benefit of limited liability could be expanded to all medical facilities that receive and transfer patients by MAST and other helicopter aeromedical services. However, your Committee recommends moving forward with this measure first and observing its effects before considering whether to include other sites in the future.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1334, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1334, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 119 Health on S.B. No. 761

The purpose of this measure is to expand the definition of "serious mental illness" to include delusional disorder, major depression, obsessive compulsive disorder, and dissociative disorder.

The Department of Health, Department of Commerce and Consumer Affairs, the Hawaii Medical Association, The Queen's Medical Center, the Hawaii Psychological Association, the Hawaii Disability Rights Center, Kaiser Permanente, the Mental Health Association in Hawaii, the National Alliance for the Mentally Ill, and two individuals submitted testimony in support of this measure. The Chamber of Commerce of Hawaii submitted testimony in opposition. Hawaii Medical Service Association submitted comments.

Your Committee finds that national trends in mental health care are towards expansion of mandated mental health treatment benefits through parity with other physical illnesses. As the Department of Health noted in its testimony, this trend is based on the assumption

that it is discriminatory to restrict or offer less access to health care in the area of mental health relative to other areas of health care. This measure will better enable individuals afflicted with serious mental illness to access necessary treatment by including four additional disorders within the definition of "serious mental illness."

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 761, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 761, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 120 Health on S.B. No. 781

The purpose of this measure is to clarify that police officers and sheriffs have the authority and duty to enforce quarantine when required by the Department of Health.

The Department of Health and the Department of Public Safety submitted testimony in support of this measure.

Your Committee finds that the current language specifies a duty to remove other persons in the neighborhood of an infected or possibly infected person when removal of that person would endanger that person's life, but it is not specific enough regarding authority and duty to keep that person quarantined. Adding language specifying the authority to keep an infected person quarantined is appropriate under the State's duty to protect the health and welfare of its citizens.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 781 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 121 Health on S.B. No. 782

The purpose of this measure is to make an emergency appropriation for additional funds from the Early Intervention Special Fund for the Family Health Services Division for early intervention services for infants and children from birth to three years of age.

The Department of Health, the State Council on Developmental Disabilities, the Hawaii Early Intervention Coordinating Council, Good Beginnings Alliance, and the American Academy of Pediatrics submitted testimony in support of this measure.

Your Committee finds that the Department of Health has the responsibility to ensure that all children age 0 to 3 years with a developmental delay or biological/environmental risk and their families receive early intervention services as mandated under the federal Individuals with Disabilities Education Act, state laws, Hawaii Early Intervention State Plan, and the Stipulation for Step-Down and Termination of the Revised Consent Decree between the State and the plaintiff class. The current fiscal year 2005 appropriation for early intervention services is not sufficient to meet the existing need.

Your Committee has amended this measure by making technical nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 782, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 782, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 122 Commerce, Consumer Protection and Housing on S.B. No. 745

The purpose of this measure is to authorize the use of moneys in the Compliance Resolution Fund to support the provision of public, educational, and governmental (PEG) access programming in underserved areas of the State.

The Department of Commerce and Consumer Affairs (DCCA), Akaku: Maui Community Television, and Olelo Community Television testified in support of this measure.

In public meetings held on Oahu, Maui, Kauai, and the island of Hawaii in 2003, DCCA received comments indicating that there are areas throughout the State that are underserved by the current PEG access system. These areas are usually separated by distance or geography from the PEG access centers located in each county.

To address the above problem, this measure:

- (1) Expressly authorizes use of moneys in the Department's Compliance Resolution Fund to support PEG access facilities, equipment, and operations in the State's underserved areas;

- (2) Requires the Director of DCCA to issue a decision and order establishing standards and conditions for use of the funds; and
- (3) Provides that the expenditure of funds shall not be subject to chapter 42F, Hawaii Revised Statutes, relating to state grants and subsidies.

Your Committee finds that the plan to expand PEG access services to underserved areas appears to contemplate the distribution of additional funding only to the PEG access organizations, and not to other entities that provide access programming. In approving this measure, it is your Committee's intent that DCCA, when determining how funds are to be distributed or expended, consider all appropriate entities that provide access programming, including entities that provide educational access programming.

Additionally, your Committee has concerns regarding the exemption of the expenditure of funds under this measure from the requirements of chapter 42F, Hawaii Revised Statutes, and the legislative oversight provided thereunder. Accordingly, your Committee requests the Committee on Ways and Means to further consider this issue in its deliberations on this measure.

Your Committee has amended this measure:

- (1) To appropriate \$500,000 from the Compliance Resolution Fund to support the provision of expanded PEG access programming in underserved areas; and
- (2) By making technical amendments to correct spelling and reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 745, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hogue).

SCRep. 123 Commerce, Consumer Protection and Housing on S.B. No. 1129

The purpose of this measure is to modify the benefits available to homeowners under the Loss Mitigation Grant Program and to appropriate moneys for the program.

The Department of Defense and an individual testified in support of this measure. The Department of Commerce and Consumer Affairs (DCCA) opposed the measure.

The State's Loss Mitigation Grant Program authorizes the provision of grants of up to \$2,100 per dwelling, to reimburse homeowners who install wind resistive devices in their single or multi-family residential dwellings to mitigate against potential hurricane damage. Currently, the reimbursement amount is equal to fifty per cent of the costs incurred in purchasing and installing a device and for a required inspection of the installation.

This measure reduces the reimbursable portion of the costs from fifty per cent to thirty-five per cent and repeals the authorization for reimbursement of inspection costs. Additionally, this measure appropriates \$1,000,000 in general funds for the program.

Your Committee finds that modification of the parameters of the grant program will allow for the maximization of program funds and enable more homeowners to participate in the program. Your Committee further finds that by assisting homeowners to retrofit their homes to withstand the effects of a hurricane, this measure may help to reduce the number of persons potentially seeking refuge from a hurricane in public shelters, of which there is currently a shortage.

Your Committee has amended this measure to identify DCCA as the expending agency for the moneys appropriated, rather than the Insurance Commissioner, and by making a technical amendment for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1129, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1129, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 124 Judiciary and Hawaiian Affairs on S.B. No. 458

The purpose of this measure is to appropriate funds for Hawaii's contribution to the National Conference of Commissioners on Uniform State Laws as well as defray the registration costs and travel expenses of members of the Commission to Promote Uniform Legislation attending the National Conference of Commissioners on Uniform State Laws annual meeting.

Testimony in support of the measure was submitted by the Commission to Promote Uniform Legislation.

Your Committee finds that members of the Commission to Promote Uniform Legislation must be afforded the opportunity to attend the annual national meeting of the National Conference of Commissioners on Uniform State Laws. The attendance of a delegation

from Hawaii will ensure that individuals from Hawaii are actively involved in the drafting and adoption of uniform acts that may be introduced and enacted by the Legislature at a later date.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 458 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SRep. 125 Judiciary and Hawaiian Affairs on S.B. No. 592

The purpose of this measure is to appropriate funds to enable the Office of Elections to meet the five per cent matching fund requirement of the Help America Vote Act of 2002.

Testimony in support of this measure was submitted by the Office of Elections, the Office of the County Clerk for the County of Maui, the Office of the County Clerk for the County of Hawaii, the League of Women Voters of Hawaii, Safe Vote Hawaii, and one individual.

Your Committee finds that under the Help America Vote Act of 2002, the State is eligible to receive federal funding if the State appropriates a certain percentage of matching funds. By providing the matching amount, the State may be eligible to receive more than \$7,000,000, the maximum amount allowable under the Act, to improve the administration of elections, replace punch cards and lever machines, conduct voter education, and comply with the requirements of the Help America Vote Act.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 592 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hee, Ihara).

SRep. 126 Judiciary and Hawaiian Affairs on S.B. No. 612

The purpose of this measure is to establish the petty misdemeanor offense of bail jumping in the third degree if an individual knowingly fails to appear for a court proceeding in connection with a petty misdemeanor after being directed by a law enforcement official. This measure also clarifies that the offense of bail jumping in the second degree can be treated as a petty misdemeanor at the court's discretion.

Testimony in support of the measure was submitted by the Judiciary and the Office of the Prosecuting Attorney for Maui. The Honolulu Police Department and the Office of the Public Defender testified in opposition to the measure.

Your Committee finds that under current Hawaii law, the offense of bail jumping only applies when an individual is released pursuant to a court order and fails to appear at a subsequent court hearing. This measure creates the new offense of bail jumping in the third degree which applies to an individual released and directed by a law enforcement official to appear at a subsequent court proceeding in connection with a petty misdemeanor, but the individual fails to do so. This measure also clarifies that the offense of bail jumping in the second degree includes a failure on the part of an individual to appear in court when directed by a designated law enforcement officer, instead of only by a judge.

Your Committee has amended this measure by clarifying that information relating to the time, date, and location of an individual's court appearance shall be provided to an individual by written notice. This written notice shall either be signed by the individual or noted on the same form by the law enforcement official if the individual refuses to sign. This signed or noted written notice form demonstrates that the individual was informed of the relevant details of his or her court appearance. Your Committee has also amended this measure by classifying bail jumping in the second degree as a petty misdemeanor.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 612, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 612, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SRep. 127 Judiciary and Hawaiian Affairs on S.B. No. 613

The purpose of this measure is to appropriate funds for the Interagency Council on Intermediate Sanctions to carry out its five-year strategic plan designed to reduce adult offender recidivism and institutionalize enhancements to the Hawaii criminal justice system.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Department of Health, the Department of Public Safety, the Hawaii Paroling Authority, the Judiciary, the Office of the Public Defender, the Community Alliance on Prisons, and one individual.

Your Committee finds that the requested appropriation is necessary to implement the five-year strategic plan of the Interagency Council on Intermediate Sanctions. This strategic plan is part of a collaborative effort among various State agencies with the goal of reducing Hawaii's adult offender recidivism rates by utilizing an "evidence-based practice" approach to achieve a significant recidivism rate reduction in a cost-effective manner.

Your Committee has amended this measure by:

- (1) Authorizing the establishment of an additional research analyst position for the Department of the Attorney General to assist the Department of the Attorney General with its duties and responsibilities as a member of the Interagency Council on Intermediate Sanctions; and
- (2) Making technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 613, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 613, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 128 Judiciary and Hawaiian Affairs on S.B. No. 615

The purpose of this measure is to amend the exclusive jurisdiction of the small claims division of the district court over security deposit disputes between a landlord and tenant to give concurrent jurisdiction to the regular claims division adjudicating a summary possession action involving the same parties.

Testimony in support of this measure was submitted by the Judiciary and one individual.

Your Committee finds that the claims to resolve security deposit disputes in residential landlord-tenant cases must presently be determined in the small claims division of the district court, while summary possession cases, involving the same parties, must be handled by the regular claims division. This measure would make it clear that the regular claims division of the district court will also be able to resolve security deposit disputes without first referring the matter to the small claims division.

Your Committee has amended this measure by making technical, non-substantive changes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 615, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 615, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 129 Judiciary and Hawaiian Affairs on S.B. No. 618

The purpose of this measure is to broaden the type of delinquent receivables that the Judiciary is able to write off as uncollectible, including fines, restitution, monetary assessments, fees, surcharges, penalties, sanctions, and court costs.

Testimony in support of this measure was submitted by the Judiciary.

Your Committee finds that the current statute enables the Judiciary to write off uncollectible fines and restitution that have been delinquent for two years. This measure broadens the scope of the type of delinquent receivables that the Judiciary determines to be uncollectible and allows the Judiciary, without seeking prior authorization from the Department of the Attorney General, to write off these moneys as uncollectible.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 618 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 130 Judiciary and Hawaiian Affairs on S.B. No. 620

The purpose of this measure is to establish the duties and responsibilities of the State Compact Administrator of the State Council for Interstate Adult Offender Supervision, mandate four-year terms for all Council members, with the exception of the Department of Public Safety member, and require the appointment of certain members to the Council.

Testimony in support of the measure was submitted by the Judiciary and the Hawaii Paroling Authority.

Your Committee finds that this measure is designed to improve the efficiency and facilitate the operations of the State Council for Interstate Adult Offender Supervision. This measure enacts express statutory duties and responsibilities for the State Compact

Administrator, including the appointment of two deputy compact administrators from the Judiciary and Hawaii Paroling Authority. Further, this measure clarifies that certain members are appointed to the Council and that all members are subject to a four-year term limit, with the exception of the Department of Public Safety member.

Your Committee has amended this measure by:

- (1) Authorizing the State Compact Administrator of the State Council for Interstate Adult Offender Supervision to appoint two deputy compact administrators from the Hawaii Paroling Authority and the Judiciary; and
- (2) Making technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 620, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 620, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 131 Judiciary and Hawaiian Affairs on S.B. No. 621

The purpose of this measure is to make clarifying amendments to statutes governing the adjudication of traffic offenses, including extending the time for answering a notice of a traffic infraction.

Testimony in support of the measure was submitted by the Judiciary.

Your Committee finds that this measure is designed to eliminate inconsistencies in the manner by which traffic infraction cases arising under chapter 291D, Hawaii Revised Statutes, are adjudicated. Your Committee further finds that extending the time period by which an answer to a notice of a traffic infraction must be filed from fifteen days to twenty days will provide additional time for the Honolulu Police Department to file notices of traffic infractions with the Traffic Violations Bureau or the District Court.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 621 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 132 Judiciary and Hawaiian Affairs on S.B. No. 673

The purpose of this measure is to appropriate funds for the payment of monetary claims against the State, its officers, and employees, including claims for tax refunds, judgments and settlements against the State, and claims for legislative relief.

Testimony in support of the measure was submitted by the Department of the Attorney General.

Your Committee finds that this measure will enable the State to pay its outstanding liabilities in a timely manner.

Your Committee has amended this measure by deleting one of the two identical sums requested for the Harnik case which is listed twice in Part I of this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 673, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 133 Judiciary and Hawaiian Affairs on S.B. No. 696

The purpose of this measure is to increase the amount of the fee charged for a criminal history record name inquiry and a criminal history record check, as well as expand the fee exemption for criminal history record checks to include volunteers with non-profit charitable organizations who work with the elderly or disabled.

Testimony in support of the measure was submitted by the Department of the Attorney General and the Hawaii Youth Services Network.

Your Committee finds that since 1998, the fees charged for criminal history record checks have remained static. Your Committee finds that a five-dollar increase in that fee is warranted and will equalize the cost of a fingerprint-based criminal record check with a name-based criminal record check. Your Committee has also expanded the criminal history record check fee exemption to include volunteers from non-profit organizations that send volunteers to work with the elderly and disabled. This fee exemption will enable these organizations to perform these checks at no cost, and thereby ensure that only qualified and trained volunteers will be serving Hawaii's elderly and disabled populations.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 696 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 134 Judiciary and Hawaiian Affairs on S.B. No. 929

The purpose of this measure is to authorize the Executive Director of the Hawaii Civil Rights Commission to petition the Commission for a declaratory ruling on legal issues that may arise during an investigation of a discrimination complaint.

Testimony in support of the measure was submitted by the Hawaii Civil Rights Commission.

Your Committee finds that the Hawaii Supreme Court held in the case of RGIS Inventory Specialist v. Hawaii Civil Rights Commission, 104 Hawai'i 158, 86 P.3d 449 (2004), that the Executive Director of the Hawaii Civil Rights Commission lacked standing both in statute and administrative rules to petition the Commission for a declaratory ruling and that the Commission did not have any authority to issue such ruling. This measure is designed to provide the statutory authority for the Executive Director of the Hawaii Civil Rights Commission to petition for declaratory relief with the Commission, and for the Commission to issue such rulings.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 929 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 135 Judiciary and Hawaiian Affairs on S.B. No. 979

The purpose of this measure is to require the Judiciary to enact a court interpreter certification program as well as require the use of certified court interpreters in all state legal proceedings when requested or required by a non-English speaking person.

Testimony in support of this measure was submitted by the Hawaii Interpreter Action Network, the Hawaii Newspaper Guild, and four individuals. The Judiciary testified in opposition to the measure. The Office of the Public Defender offered comments on the measure.

Your Committee finds that there are no formal or established standards relating to certification or performance of court interpreters in legal proceedings in this State. This situation must be addressed to ensure the accuracy and reliability of interpretive services used by a non-English speaking person in all formal legal proceedings. Your Committee further finds that this measure is designed to address concerns regarding oversight and accountability of court interpreters by establishing a Supreme Court Committee on Certification of Court Interpreters to enact standards for the certification, discipline, and evaluation of court interpreters.

Your Committee has amended this measure by:

- (1) Changing the effective date of the measure to July 1, 2006 to afford the Judiciary the necessary time to establish and implement this certification program; and
- (2) Making technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 979, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 979, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 136 Judiciary and Hawaiian Affairs on S.B. No. 1317

The purpose of this measure is to increase the amount of the compensation payable to an attorney who is appointed by a court to represent an indigent criminal or juvenile defendant in any judicial or administrative proceeding in the courts.

Testimony in support of this measure was received from the State Attorney General, Public Defender, County of Kauai Prosecuting Attorney, City and County of Honolulu Prosecuting Attorney, the Hawaii State Bar Association, the Hawaii Association of Criminal Defense Lawyers, and three concerned individuals. The Department of Budget and Finance submitted concerns.

Under current law, court-appointed attorneys for indigent criminal and juvenile defendants are paid \$40 per hour for out-of-court services and \$60 per hour for services performed in court. Current law also sets a maximum amount that can be paid to the attorney based on a schedule of cases. For example, the maximum amount for a felony case is currently \$3,000, while the maximum amount for a petty misdemeanor case is \$450.

Your Committee finds that the current rates, which were last increased in 1987, are too low, far below prevailing rates. The courts have found it difficult to find competent attorneys to accept complex cases, and cases on appeal. The difficulty has created serious concerns among those who prosecute and those who defend the indigent defendants citing increased cases on appeal and cases of ineffective assistance of counsel.

Justices of the Hawaii Supreme Court have commented on the inadequacy of the current fee schedule for court appointed attorneys. In In re Attorney's Fees of Reinhardt Mohr, 97 Haw. 1, 32 P.3d 647 (2001), Justice Ramil wrote:

In my view, the patently inadequate hourly rate paid to state court-appointed private counsel is endangering the right of indigent criminal defendants to adequate representation. The current rate does little to encourage private counsel to participate enthusiastically in the defense of indigent criminal defendants.

Justice Acoba wrote:

The hourly rate under HRS Section 802-5 is no longer reasonable. . . . Insofar as compensation is inadequate, those attorneys who represent indigent clients, . . . personally subsidize the financial obligation imposed upon the State by the United States and Hawai'i constitutions' mandate that such defendants be represented by counsel.

Your Committee concurs with the comments of the Justices of the Hawaii Supreme Court and believes that the rates should be increased as provided in the bill.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1317 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 137 Health on S.B. No. 1537

The purpose of this measure is to support the continuing operation of the State's only Level II Trauma Center located at The Queen's Medical Center on Oahu.

Specifically, this bill makes a one-time appropriation of \$6,900,000 in fiscal year 2005-2006 and the same amount in fiscal 2006-2007, to The Queen's Medical Center to pay for the costs it incurs to compensate physicians to be on-call to provide trauma and emergency medical services for the people of Hawaii, including neighbor island patients. The appropriation is contingent upon the immediate and continuing acceptance by The Queen's Medical Center of patients from the neighbor islands needing trauma care, whether or not those patients are transferred from another medical facility on another island and whether or not they are insured.

This bill also requires the Legislative Reference Bureau, in cooperation with The Queen's Medical Center, to complete a study of the on-call crisis and its impact on the Level II Trauma Center's ability to continue delivering emergency medical services to our community.

Your Committee received testimony in support of this bill from the Queens' Medical Center, the Queens' Health Systems, the Healthcare Association of Hawaii, the Vice President of Medical Affairs of The Queen's Medical Center, the Program Director of the University of Hawaii Surgical Residency Program, the Associate Medical Director of Trauma Services of The Queen's Medical Center, the Medical Director of the Neuroscience Institute of the Queens' Medical Center, Molokai General Hospital, the Hawaii Health Systems Corporation, and two individuals. The Department of Health submitted testimony in support of the intent of the bill, provided that it does not adversely impact or replace priorities in the Department's executive 2006-2007 biennium budget. The Legislative Reference Bureau submitted comments.

Your Committee finds that the Queen's Medical Center provides the community with a substantial amount of charitable care, education and training programs for the University of Hawaii's School of Medicine and the School of Nursing, cutting edge technology, mental and behavioral health programs, dental services, and other specialized medical services. Your Committee recognizes that the Center faces many competing priorities and the health services it provides to the community are being challenged by rising operating expenses and significant capital needs. Your Committee further realizes that the high cost of securing a large pool of trauma physician specialists on an on-call basis at the Center has created a financial crisis.

Upon further consideration, your Committee has amended this bill by:

- (1) Replacing the \$6,900,000 appropriation amount with a blank amount for purposes of stimulating further discussion;
- (2) To emphasize the significance of the trauma services provided, by:
 - (A) Adding the words "trauma and" in front of the phrase "emergency care services" on page 1, line 9, page 4, line 4, and page 4, line 7; and
 - (B) Replacing the phrase "emergency medical services or acute" with the word "trauma" on page 3, line 11; and

- (3) Replacing the Legislative Reference Bureau with the Department of Health as the entity to conduct the study, in cooperation with The Queen's Medical Center, because your Committee finds that the Department has the requisite knowledge, experience, and expertise in the matter and can act with impartiality since it does not operate any competing hospital facilities.

Your Committee also deleted the extraneous word "of" on page 5, line 10, and made technical nonsubstantive changes on page 4, lines 5-19 for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1537, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1537, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 138 Health on S.B. No. 1232

The purpose of this measure is to appropriate funds as a grant-in-aid to the Maui AIDS Foundation to improve the quality of life for those affected by HIV and AIDS through comprehensive, integrative client and case management services.

The Maui AIDS Foundation, one member of the Maui County Council, and eight individuals submitted testimony in support of this measure. The Department of Health submitted testimony in opposition.

Your Committee finds that federal Ryan White CARE Act funds have historically been used for direct emergency financial assistance for individuals and families living with HIV or AIDS for the provision of health care needs. Due to a change in federal funding priorities, the Department of Health has reduced available CARE Act funds to the Hawaii community-based AIDS organizations. Food and housing rental assistance are no longer categories eligible for funding support. This measure is necessary so that programs such as the Maui AIDS Foundation Food Pantry Program will not be eliminated and so that families and individuals that may need emergency financial assistance for rent in order to keep their housing can receive support.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1232 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 139 Health on S.B. No. 1446

The purpose of this measure is to appropriate funds to the Hawaii Health Systems Corporation for an air ambulance helipad at Maui Memorial Medical Center.

Healthcare Association of Hawaii, Maui Memorial Medical Center, two members of the Maui County Council, and five individuals submitted testimony in support of this measure.

Your Committee finds that the County of Maui encompasses a vast area with remote areas where access to emergency medical care is problematic. The Legislature established a helicopter critical care emergency aeromedical service for Maui in 2003 to improve access. The funds appropriated by this measure will be used to construct a helipad. As proponents noted, this will help Maui Memorial Medical Center expedite the transfer of patients from the helicopter to its emergency department, and fully and efficiently utilize Maui County's helicopter critical care emergency aeromedical service.

Your Committee has amended this measure by designating an appropriation of \$750,000.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1446, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1446, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 140 Health on S.B. No. 1094

The purpose of this measure is to appropriate funds for the Hana Community Health Center.

Hawaii Primary Care Association, Hana Youth Center, Hana Community Health Center, two members of the Maui County Council, the Maui Governor's Advisory Committee, and forty individuals submitted testimony in support of this measure. Two individuals submitted testimony in opposition. The Department of Health submitted comments.

Your Committee finds that the transfer of the Hana Medical Center from the State to the Hana Community Health Center was done with a guarantee to continue to provide needed financial support for the center's essential medical programs. The Hana Community Health Center provides a hybrid of services. Unlike most clinics, it must also coordinate activities with the ambulance services and

provide assistance in stabilizing patients with life-threatening illnesses or traumatic injuries. These services are required twenty-four hours a day because the center is the only health care provider in the district.

The center is located in one of the most geographically isolated areas in the State and is the healthcare lifeline for several thousand residents and the thousands of people who visit every day. As Hawaii Primary Care Association noted in its testimony, because of its size, the Hana Community Health Center will likely never grow to be more cost-effective. However, its unique status in such an isolated community requires the continued subsidy provided by this measure.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1094 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 141 Health on S.B. No. 30

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds as grant-in-aid to Hale Makua to make renovations and improvements to the Wailuku facility.

Two members of the Maui County Council, Healthcare Association of Hawaii, two members of the Hale Makua board, and nine individuals submitted testimony in support of this measure.

Your Committee finds that Hale Makua, which means home of respected elders, is a nonprofit corporation that was formed in 1946 to provide a nursing home for elders in need. The unique, pleasant, intermediate care Wailuku facility was constructed in 1966 and now requires substantial renovation to comply with standards established by the Americans with Disabilities Act.

Your Committee notes that the project is to renovate patient bathrooms to comply with state and federal laws, retille the bathrooms, replace the curtains that presently exist over bathroom doorways with sliding doors, repaint the rooms, replace the original furniture pieces that are over thirty-five years old, retille the patient room floors, and renovate the Lanai Unit Nurses station to allow for more charting space and an air-conditioned room to keep medication at the required temperature.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 30 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 142 Health on S.B. No. 1097

The purpose of this measure is to appropriate funds to Molokai General Hospital for operating costs.

Two Maui County Council members, the Healthcare Association of Hawaii, Molokai Community Health Center, Molokai General Hospital, and one individual submitted testimony in support of this measure. The Department of Health submitted comments.

Your Committee finds that Molokai General Hospital generally receives most of its financial and management support as a subsidiary of Queen's Health Systems. However, as the Maui County Council members noted, the Queen's Health System's recent decrease in revenues has severely affected Molokai General Hospital's financial support and it must now rely on increased financial support from the State, the County of Maui, and federal grants. Maintaining services at Molokai General Hospital is critical to the health and safety of residents and visitors because it is the sole hospital serving the island community of Molokai.

Upon further consideration, your Committee has amended this measure by appropriating \$1,000,000 for fiscal year 2005-2006, and the same sum, or so much thereof as may be necessary, for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1097, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1097, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 143 Health on S.B. No. 1708

The purpose of this measure is to appropriate funds for capital improvements of the Molokai General Hospital provided that the funds shall be released as the Office of Hawaiian Affairs provides funding at \$1 for every \$2 of the appropriation.

The Office of Hawaiian Affairs, a Maui County Council member, Molokai General Hospital, Molokai Community Health Center, Healthcare Association of Hawaii, and two individuals submitted testimony in support of this measure. The Department of Health submitted comments.

Your Committee finds that the Molokai General Hospital of the Queen's Health Systems faces a continuing challenge of generating revenue sufficient to support its capital improvements and to meet the health care needs of the population it serves, a large percentage of whom are Native Hawaiians. It remains very difficult to provide for community-focused quality health care in a rural, economically challenged setting. Therefore, support from the State is important to maintain health care services for the island community. Molokai General Hospital is the only hospital on Molokai, providing emergency care, urgent acute, and long-term inpatient care services.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1708 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 144 (Joint) Energy, Environment, and International Affairs and Water, Land, and Agriculture on S.B. No. 1087

The purpose of this measure is to authorize the Department of Agriculture to charge user fees for inspection and other services it provides pursuant to chapter 150A, Hawaii Revised Statutes, in addition to fees already authorized for services related to the importation of animals and seeds, and to establish an invasive species special fund into which these fees will be deposited and which will be used to fund services that prevent the importation of invasive alien species.

Testimony in favor of the measure was received from The Nature Conservancy and the Hawaii Agriculture Research Center. The Department of Agriculture and Matson Navigation Company provided testimony supporting the intent of the measure and offered comments. Comments were received from the Land Use Research Foundation.

Your Committees find that the invasion of various plant and animal alien species threatens to upset the ecosystem, native forests, agricultural production, and the health and lifestyle of Hawaii's people, among other things. Effective programs to protect against introduction of invasive species at ports of entry are needed. Additional sources of funding would help in this mission.

Your Committees have amended this measure by clarifying that the moneys to be collected from user fees under this measure do not include moneys from fines assessed for violations of Chapter 150A.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1087, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1087, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 145 (Joint) Energy, Environment, and International Affairs and Water, Land, and Agriculture on S.B. No. 1430

The purpose of this measure is to increase state funding to eradicate the *Miconia Calvescens* plant.

Testimony in support of this measure was received from a representative of the Mayor of Maui County, the Coordinating Group on Alien Pest Species and the Invasive Species Committees, and the Nature Conservancy. The Department of Agriculture supported the intent of the measure and provided comments.

Your Committees find that the *Miconia Calvescens* plant is a rapidly spreading, noxious weed that, upon introduction into an ecosystem, rapidly spreads and leads to the indiscriminate destruction of native forests and agricultural lands. If aggressive attempts to control the spread of this weed are not continued, much of Hawaii's forests and wetlands will be destroyed. Therefore, your Committees believe that additional funding for *Miconia* eradication is warranted.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1430 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 146 Human Services on S.B. No. 21

The purpose of this measure is to require legislative approval before the Department of Human Services can apply for a medicaid waiver from the federal government.

Testimony in support of this measure was submitted by Aloha Care. The State Council on Developmental Disabilities supported the intent of this measure and provided comments. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that medicaid waiver commitments have a serious financial impact on the State as well as the quality of care received by medicaid beneficiaries. Changes to the medicaid program could take place without legislative knowledge or opportunity to comment. Your Committee believes that there are vast implications for future costs to the State, public health policy, and impact on medicaid recipients so that legislative review is required.

Your Committee has adopted the amendment suggested by the Department of Human Services to allow the legislature to review and submit comments thirty to sixty days prior to the submission of the medicaid waiver.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 21, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 21, S.D. 1, and be referred to the Committees on Judiciary and Hawaiian Affairs and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 147 (Majority) Human Services on S.B. No. 472

The purpose of this measure is to require the Department of Human Services to recognize individuals who have not received a decision on their application for public assistance within the time specified in the administrative rules to be presumptively eligible until an eligibility decision is made.

Testimony in support of this measure was submitted by the Legal Aid Society and two individuals. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that the Department of Human Services is required to meet the deadlines that it sets for itself for making a decision on eligibility for public assistance. Thus, your Committee believes that if the department has not rendered a decision on the application for public assistance, the applicant shall be presumptively eligible until a decision is made.

Your Committee has adopted the amendment suggested by the Legal Aid Society to provide exceptions to the presumptively eligible standard when the applicant causes a delay in the process. Your Committee has also made technical amendments to this measure.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 472, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 472, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 148 (Majority) Human Services on S.B. No. 475

The purpose of this measure is to increase the standard of need to an annually updated federal poverty level; include the general assistance as well as the aged, blind, and disabled programs for the calculation; and remove the limitation on making general assistance payments only from total appropriations made for general assistance.

Testimony in support of this measure was submitted by Blueprint for Change, Hawaii State Coalition Against Domestic Violence, Legal Aid Society of Hawaii, National Association of Social Workers – Hawaii Chapter, Parents and Children Together, Welfare Employment Rights Commission, and six individuals. Testimony in opposition to this measure was received from the Department of Human Services.

Your Committee finds that as the cost of living increases each year, the standard of need in Hawaii is still based on the federal poverty level in 1993. It is imperative that the State keep up with the cost of living and adopt a standard of need that allows individuals to maintain a household. Thus, your Committee believes that the State's standard of need should be annually updated to reflect the federal poverty level.

Your Committee has amended this measure by making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 475, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 475, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 149 Human Services on S.B. No. 556

The purpose of this measure is to create a rebuttable presumption in favor of shared parenting in all custody determinations, and to require a parenting plan to be developed and filed with the court when joint custody is awarded.

Testimony in support of this measure was received from the Children's Rights Council and five individuals. Testimony in opposition to this measure was submitted by the Domestic Violence Clearinghouse, Hawaii State Coalition against Domestic Violence and the Legal Aid Society. Comments on this measure were received from the Judiciary.

This measure creates a rebuttable presumption, affecting the burden of proof, that joint custody is in the best interests of the minor child. A rebuttable presumption is an assumption that is made in the law that will stand as a fact unless someone comes forward to contest it and prove otherwise. Three organizations expressed concern over the rebuttable presumption of joint custody in cases of domestic violence and other forms of abuse; however, your Committee believes that the rebuttable presumption would address this concern in that as soon as allegations are substantiated, the presumption would be triggered.

Your Committee finds that children recover faster from a parent's divorce or separation when there is less emotional trauma associated with the process, and that co-parenting arrangements reduce a child's post-separation distress as well as minimize feelings of alienation and anger. Moreover, parents who do not experience prolonged litigation in their divorce and separation are able to regain financial and emotional security for their families. Thus, your Committee believes that a rebuttable presumption of joint parenting is in the best interests of a child.

Your Committee adopted the amendments suggested by the Children's Rights Coalition to recognize a parenting plan that shall conform to national standards and require a judge to issue a written opinion in cases when joint custody is not awarded.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 556, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 556, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Kokubun).

SCRep. 150 (Majority) Human Services on S.B. No. 559

The purpose of this measure is to create a senior services trust fund into which is deposited a \$5 income tax check-off from refunds, to be used to fund programs and services of the Executive Office on Aging.

Testimony in support of this measure was received from the Lanakila Rehabilitation Center and the Policy Advisory Board for Elder Affairs. Comments were also submitted by the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that there is an urgent need to provide appropriate services to Hawaii's increasing aging population. The Executive Office on Aging develops, coordinates, and delivers services to adults sixty years and older, providing supportive, nutrition, and other related services to Hawaii's elderly population. This measure offers a source of non-government funding for use by the Executive Office on Aging to assist with their services and programs from those who voluntarily identify the elderly as a priority population.

Your Committee notes that in the future, the Auditor and the Committee should consider reviewing and reprioritizing the current income tax check-off options.

Your Committee has amended this measure by clarifying that the moneys to be provided to the Executive Office on Aging are used for expenses limited to programs and services, and not for the administrative operating expenses of that office.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 559, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 559, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 151 Human Services on S.B. No. 1033

The purpose of this measure is to appropriate funds for QUEST and medicaid coverage for aged, blind, and disabled aliens residing in Hawaii pursuant to the Compact of Free Association.

Testimony in support of the measure was submitted by Hawaii Pacific Health, Hawaii Primary Care Association, Na Loio – Immigrant Rights and Public Interest Legal Center, Healthcare Association of Hawaii, Kokua Kalihi Valley, Micronesians United (Big Island), Pacific Islands Primary Care Association, and four individuals. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that Hawaii is home to more than eight thousand people from the Pacific Island nations covered under the Compact of Free Association, double the number since 2000. Many of these people have serious health problems such as tuberculosis, hepatitis, diabetes, and Hansen's disease. Without medicaid coverage for this population, community health centers would find serving this population a tremendous financial burden. Thus, your Committee finds that this measure will assist not only the direct beneficiaries, but the State by reducing exposure to communicable diseases and supporting the challenged health care system.

Your Committee notes, notwithstanding that the Department of Human Services has allocated the funding in their proposed budget to the Legislature, that passage of this measure shows strong support for keeping funding intact in the department's budget for QUEST and Medicaid coverage for the aged, blind, and disabled aliens residing in Hawaii under the Compact of Free Association.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1033 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Hooser, Kokubun).

SCRep. 152 Human Services on S.B. No. 1210

The purpose of this measure is to repeal the June 30, 2005, sunset date of the family child care home law.

Testimony in support of this measure was submitted by the Good Beginnings Alliance, Hawaii Council of Associations of Apartment Owners, PATCH, and thirteen individuals.

Your Committee finds that parents of young children are increasingly reliant on child care to enable them to go to work in order to support their families. Parents often use family child care because they can often find these services close to home, and they can be less expensive and more flexible. Thus, your Committee believes that the family child care home law should not be repealed.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Hooser, Kokubun).

SCRep. 153 (Joint) Health and Labor on S.B. No. 793

The purpose of this measure is to make an emergency appropriation for the Department of Health emergency ambulance service contracts collective bargaining costs.

The Department of Health, the Hawaii County Fire Department, the Hawaii Fire Fighters Association, and three individuals submitted testimony in support of this measure.

Your Committees find that this emergency appropriation is necessary for the Department of Health to comply with collective bargaining increases negotiated by ambulance service providers statewide. The State provides emergency ambulance services through contractual arrangements with the City and County of Honolulu, Hawaii County, and a private provider, American Medical Response, for the Counties of Maui and Kauai. A detailed analysis was done to determine each ambulance contract's additional collective bargaining cost. This measure assures that continued emergency ambulance services are available at the current level of service throughout communities statewide.

As affirmed by the records of votes of the members of your Committees on Health and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 793 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 154 (Joint) Commerce, Consumer Protection and Housing and Intergovernmental Affairs on S.B. No. 959

The purpose of this measure is to equalize the distribution of financial resources for the provision of public, educational, and governmental (PEG) access programming in the County of Maui.

The University of Hawaii, Department of Education-Maui District (DOE-Maui), and numerous individuals testified in support of this measure. The Department of Commerce and Consumer Affairs, Akaku: Maui Community Television (Akaku), Olalo Community Television, Molokai Properties Limited, and ten individuals testified in opposition to the measure.

Your Committees find that over the years, funding received by public and higher education institutions in the County of Maui to provide educational access programming on cable television has declined to the point of being eliminated. While funding for educational access programming averaged twenty-nine per cent of franchise fees during the period 1993 to 1999, allowing Maui Community College (MCC) and DOE-Maui to provide distance education and outreach services, after the establishment of the County's PEG access organization, funding dropped to fifteen per cent and was discontinued by 2000. In 2003, the access organization's board of directors voted to cease providing operating funds for any state agency, including MCC and DOE-Maui.

The cessation of funding for educational access programming has led to a reduction in staff and operations, and in the quality of services and instruction provided to residents throughout the County. MCC has been unable to meet the increasing demand for distance learning services and to upgrade physical plant operations, and plans for studio facilities on Maui's West Side have come to a standstill.

This measure proposes to restore distribution of PEG financial resources for the educational component of PEG programming by providing that the fees collected by the cable provider in Maui County be allocated equally among public, educational, and governmental access programming.

Your Committees note that the measure, as received, purports to allocate the annual administrative fee paid by the cable operator to DCCA, rather than the access operating fee collected by the operator from its subscribers for the support of PEG access programming. Accordingly, your Committees have amended this measure to provide that the moneys distributed by the cable operator for the provision of PEG programming are the access operating fees paid by the operator's subscribers, and not the annual fee paid to DCCA for administration of the cable regulation program. Your Committees have further amended this measure by:

- (1) Deleting language that provides for equal allocation of the fees to the educational, governmental, and access organization entities, and leaving unspecified the percentages of the fees to be received by each entity; and
- (2) Making technical, nonsubstantive amendments for consistency and style.

Finally, your Committees have serious concerns about the continuing unresolved differences between the various entities involved in the provision of PEG programming in Maui County that have necessitated the introduction of this measure. Your Committees strongly encourage DCCA to take an active role in bringing the parties together and to facilitate discussions for the resolution of these differences. Your Committees also encourage the parties involved to continue their dialogue on these unresolved issues as this measure proceeds through the legislative process.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 959, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 959, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Inouye, Sakamoto, Hogue).

SCRep. 155 (Joint/Majority) Commerce, Consumer Protection and Housing and Judiciary and Hawaiian Affairs on S.B. No. 913

The purpose of this measure is to prohibit lands comprising the Public Land Trust from being sold, exchanged, or otherwise alienated therefrom by the Board of Land and Natural Resources, without the consent of the Office of Hawaiian Affairs.

The Office of Hawaiian Affairs (OHA) and Association of Hawaiian Civic Clubs testified in support of this measure. The Department of Land and Natural Resources and an individual opposed the measure. The Department of the Attorney General presented comments on the measure.

Current law requires that the State hold and manage in public trust lands given, or ceded, to the United States after the overthrow of the Hawaiian Kingdom, and returned to the State under the Admission Act of 1959. Additionally, proceeds from the disposition of public trust lands may only be used to further specific stated purposes, including the support of public education, the betterment of native Hawaiians, the development of farm and homeownership, the making of public improvements, and the provision of lands for public use.

Your Committees find that since accepting stewardship of the Public Land Trust, the State has allowed the trust corpus to be diminished through the sale or exchange of lands, without accounting for or replacing the value of the demised property, thereby jeopardizing the State's continuing ability to fulfill its responsibilities to the trust's beneficiaries.

This measure proposes to require the Board of Land and Natural Resources to obtain the consent of the OHA Board of Trustees before selling, exchanging, or otherwise alienating public trust lands. Your Committees further find that this requirement will help the State to better manage the public trust lands in a manner that enables it to continue to meet its obligations to its beneficiaries.

Your Committees have amended this measure by making technical amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 913, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 913, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, 1 (Whalen). Excused, 3 (Hee, Ige, Sakamoto).

SCRep. 156 Intergovernmental Affairs on S.B. No. 411

The purpose of this measure is to limit the eminent domain powers of the counties to specific public purposes.

Your Committee received testimony in opposition to this measure from the Kamehameha Schools and Small Landowners of Oahu and Small Landowners Association of Hawaii.

Your Committee finds that this measure is intended to address the public outrage on a proposal by the Honolulu City Council to condemn certain parcels of privately-owned prime location land in Waikiki, and then selling or leasing the condemned land to a certain hotel for private commercial development. Your Committee believes that any such condemnation is patently unjustified, and would be blatantly illegal as being inconsistent with the exercise of eminent domain for a public purpose.

Your Committee has amended this measure by prohibiting a county from condemning private property and subsequently selling or leasing that same property to a private entity who expressed an interest in purchasing that same property for development purpose or private use before the condemnation, and by deleting the other statutory sections.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 411, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 411, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 157 Intergovernmental Affairs on S.B. No. 602

The purpose of this measure is to require pawnshops and second hand dealers to electronically file daily reports via the Internet or computer disc with the county police department, in a manner as directed by the police using software designated by the police.

Your Committee received testimony in support of this measure from the Honolulu Police Department (HPD), Hawaii Tourism Authority, State Farm Mutual Automobile Insurance Company, Hawaii Pawnbrokers Association, and one individual. Comments were received from an individual.

Your Committee views this measure as being necessary to investigate the growing market of "fencing" stolen goods. A popular avenue for turning the goods into cash is pawnshops and second hand dealers. Electronic filing of pawn shop transactions daily would go a long way to informing police immediately of the transaction, so that police can immediately investigate the merchandise by matching it up with recent burglary reports. This would increase the rate of stolen property recovery and identify the possible culprits.

However, your Committee is concerned that dictating the software to be used could pose unnecessary difficulties to pawnshops and second hand dealers. For example, testimony indicated that some shop owners are elderly and do not have a computer. Your Committee requests the HPD to work collaboratively with interested parties such as the Hawaii Pawnbrokers Association to select the most appropriate computer system and software to carry out the purposes of this Act.

Your Committee has amended this measure by allowing the police to require the electronic transmission of a photo of the property and requiring the police to make that photo available to the public as appropriate.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 602, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 602, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 158 Intergovernmental Affairs on S.B. No. 1272

The purpose of this measure is to prohibit the Governor and Director of Finance from restricting any state agency's ability to expend federal grant moneys if the moneys have been approved by the granting federal agency.

Your Committee received testimony in opposition to this measure from the Department of Budget and Finance.

Notwithstanding the testimony of the Director of Finance that flexibility in determining whether and which federal funds should be expended on state programs, your Committee believes that federal funds should be expended by the State for its intended purpose. If the State does not desire to implement a program with federal funding, then the State should not apply for the federal grant in the first place.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1272 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 159 Intergovernmental Affairs on S.B. No. 1476

The purpose of this measure is to clarify fireworks terminology to be consistent with federal law.

In particular, this measure employs common terminology that is consistent with the Bureau of Alcohol, Tobacco, Firearms, and Explosives; deletes all references to the defunct "United States Bureau of Explosives"; includes and defines articles pyrotechnic so as to regulate the importation, storage, transferring, sale, or use of those devices; and includes articles pyrotechnic in the term "display".

Your Committee received testimony in support of this measure from the State Fire Council and Legislative Information Services of Hawaii.

Your Committee finds that this measure is necessary to conform current law with federal laws and regulations regulating fireworks as a matter of safety.

Your Committee has made technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1476, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1476, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 160 Intergovernmental Affairs on S.B. No. 1542

The purpose of this measure is to reduce the incidents of certain types of crimes generally associated with establishments that dispense liquor.

In particular, this measure requires that:

- (1) Managers and employees who are required to register with the county liquor commission prior to employment in an establishment where liquor is served, sold, or consumed be subject to a state criminal conviction record check prior to employment; and
- (2) Liquor license applicants be subject to criminal history record checks conducted in accordance with section 846-2.7, Hawaii Revised Statutes, as a condition of licensing.

Your Committee received testimony in support of this measure from two individuals.

This measure would automatically disqualify an applicant for a manager or employee position if the person has any conviction that (1) would tend to indicate the applicant may be unsuitable for obtaining a license; or (2) involves the use or distribution of any drug, prostitution, or gambling offense.

Your Committee has amended this measure to add that a trustee, officer, or executive of a nonprofit entity may not be required to submit to fingerprinting for purposes of the new law. Your Committee has also made technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1542, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1542, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 161 Intergovernmental Affairs on S.B. No. 1546

The purpose of this measure is to allow the counties to adopt ordinances to manage and regulate the liquor commissions in their jurisdictions and to implement liquor control statutes.

Your Committee received testimony in support of this measure from four individuals. Testimony in opposition was received from the Hawaii Food Industry Association and Anheuser Busch Companies.

Current law regulates liquor sales and consumption through county liquor commissions (commissions) under chapter 281, Hawaii Revised Statutes (HRS). The commissions have the exclusive jurisdiction, power, authority, and discretion in the regulation.

According to testimony, this measure was prompted by the adverse publicity stemming from investigations by law enforcement authorities of employees of a liquor commission. The elected authorities in the county and the State are powerless to effect any remedial action or changes to liquor commission operations because of the current law of practical autonomy granted to liquor commissions. Your Committee finds that there is a need to allow some county council authority over liquor commissions.

Your Committee has accordingly amended this measure to empower county councils to have and exercise oversight authority as appropriate. Your Committee has deliberately drafted the amendment to be somewhat broad, intending that the county council exercise its oversight discretion appropriately. The intent of your Committee is that the liquor commission maintain its autonomy in operations and regulatory activities but have the statutory authority to step in as needed when appropriate, particularly in instances involving possible criminal wrongdoing. This measure does not empower the county council to enact ordinances to supercede the

provisions of chapter 281, HRS. The county council may launch its own investigation, conduct public hearings, and take action on personnel change consistent with law, as examples of the contemplated county council exercise of authority under this measure.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1546, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1546, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 162 Intergovernmental Affairs on S.B. No. 1685

The purpose of this measure is to allow the counties to obtain from the Department of Taxation income tax and transient accommodation tax information on taxpayers.

Your Committee received testimony in support of this measure from the Department of Taxation, Honolulu Department of Budget and Fiscal Services, Maui Department of Finance, and Hawaii County Finance Department.

Your Committee finds that allowing the counties to obtain information about taxpayers within their jurisdiction is an important resource to strengthen county tax collection efforts. The counties are unable to audit their own tax exemptions and credits for residents filing within their own county. With access to state tax information, such as taxpayers filing as residents in a particular county, they would be able to follow up on discrepancies with their property tax exemptions and credits.

Your Committee has amended this measure on the recommendation of the Department of Taxation by:

- (1) Deleting sections 2 and 3, which allow a county access to income tax information and transient accommodation tax information, as unnecessarily removing the authority of the Director of Taxation to determine when, how, and under what circumstances to disclose tax return information; and
- (2) Clarifying the discretionary authority of the Department of Taxation under the income tax law to allow counties to inspect income tax returns for tax purposes only.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1685, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1685, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 163 (Joint) Commerce, Consumer Protection and Housing and Energy, Environment, and International Affairs on S.B. No. 747

The purpose of this measure is to establish a system for the registration of money transmitters.

Testimony in support of this measure was received from the Office of the Lieutenant Governor, Department of Commerce and Consumer Affairs, Department of the Attorney General, Department of the Prosecuting Attorney of the City and County of Honolulu, Hawaii Credit Union League, and Hawaii Bankers Association.

Under this measure, a money transmitter is a non-bank entity that provides services relating to the transfer of funds from one party to another, domestically or internationally, and using a variety of methods, including wire and electronic transfers and facsimile.

Your Committees find that money transmitters have been used to further unlawful purposes, such as “laundering” the proceeds of drug distribution, gambling, and prostitution, and funding terrorist operations. While potentially illegal activities involving money transmitters are subject to federal investigation, your Committees further find that supervision and regulation of the money transmitter industry is uneven, and that federal laws are not being enforced as aggressively as state laws; currently, thirty-nine states, in addition to the District of Columbia and Puerto Rico, require the registration of money transmitters.

This measure proposes to require the annual registration of money transmitters with the Commissioner of Financial Institutions (Commissioner) and establishes civil penalties for a failure to register. Your Committees further find that requiring money transmitters to register with the State will discourage and deter money transmitting for unlawful purposes, provide valuable information to financial institutions that provide banking services to money transmitters, and facilitate enforcement of the money laundering laws.

Your Committees have amended this measure:

- (1) By amending the definition of “money transmission”, consistent with the federal Bank Secrecy Act, to clarify that a money transmission includes the receipt of payment instruments and transmission by courier;
- (2) To clarify that the requirement for a business entity to provide information to the Commissioner regarding the entity’s legal formation, standing with the Business Registration Division, and business structure, is in addition to the entity’s obligation to report other information on its registration statement; and

- (3) By making technical, nonsubstantive amendments for the purposes of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 747, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 747, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Hanabusa, Hemmings, Hogue).

SCRep. 164 (Joint) Media, Arts, Science and Technology and Business and Economic Development on S.B. No. 713

The purpose of this measure is to establish a Hawaii business-research institute tax credit to promote the formation and funding of research partnerships between business entities and eligible research institutions.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; the Department of Taxation; University of Hawaii; Kamehameha Schools; and Hawaii Agriculture Research Center. In addition, your Committees received comments from the Tax Foundation of Hawaii.

Your Committees find that the State's economic future increasingly depends on investment in emerging technology-based sectors. Offering tax credits provides incentives for private-sector investments to support research or development conducted by an eligible institution, and is an investment in Hawaii's economic future. Your Committees believe that this measure will result in increased scientific research at Hawaii's universities and post-secondary educational and research institutions, and the growth of new technology-based enterprises.

In response to concerns raised by members, your Committees have amended this measure to clarify procedures for distributing the credits before and after the cap of \$2,000,000 for any one calendar year is reached. Your Committees also have amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 713, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 713, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 4 (English, Ihara, Menor, Trimble).

SCRep. 165 (Joint) Media, Arts, Science and Technology and Business and Economic Development on S.B. No. 1701

The purpose of this measure is to appropriate matching state funds as a grant-in-aid to Enterprise Honolulu to conduct its targeted business development project.

Testimony in support of this measure was submitted by Enterprise Honolulu.

Your Committees find a significant need for new career opportunities, more living wage jobs, and globally competitive industries in the State. The most successful proven models have been public-private partnerships in which direct business-to-business contacts are cultivated and recruitment is targeted toward those industries, such as defense dual use technologies, ocean sciences, film and digital media, information and communications technology, and life sciences, that are most conducive to economic development appropriate to our island culture. Creating an effective public-private partnership will make a substantial difference in closing the current wage gap. For example, life sciences is a multibillion dollar industry that involves research, development, and commercialization of drugs and medical devices. The University of Hawaii medical school is a tangible symbol of the movement to diversify Hawaii's economy through newly-emerging science industries. Your Committees believe that this measure will enable Enterprise Honolulu to achieve its goals of increasing the number of high paying jobs, diversifying Hawaii's economy, creating new investments and new wealth, increasing tax revenues, and benefiting all communities through its targeted business development project.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1701 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 3 (English, Ihara, Trimble).

SCRep. 166 (Joint) Media, Arts, Science and Technology and Business and Economic Development on S.B. No. 1702

The purpose of this measure is to establish the High Technology Innovation Corporation, an attached nonprofit subsidiary of the High Technology Development Corporation.

Testimony in support of this measure was submitted by the High Technology Development Corporation, and eight individuals, including six members of the High Technology Development Corporation's board of directors. Your Committees received testimony in opposition to the measure from the Department of Business, Economic Development, and Tourism.

Your Committees understand that the board of directors of the High Technology Development Corporation supports this measure and, after months of discussion and investigation, has formally adopted a policy to organize such a nonprofit subsidiary, which the board considers its top priority. Your Committees find that establishing the High Technology Innovation Corporation will:

- (1) Enable the High Technology Development Corporation to seek and receive grants from foundations, endowments, corporations, and governments, both foreign and domestic, that are presently unavailable; and
- (2) Provide a more nimble, efficient, and responsive platform to provide services to and assist in the development of the State's technology sector.

Your Committees believe this measure will further the State's goal of nurturing and supporting its technology sector while reducing the State's cost for doing so.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1702 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (English, Trimble).

SCRep. 167 Energy, Environment, and International Affairs on S.B. No. 1709

The purpose of this measure is to establish an Office of International Affairs within the Department of Business, Economic Development, and Tourism to coordinate and promote economic, social, cultural, and scientific relations with other countries.

Your Committee received testimony from the Department of Business, Economic Development, and Tourism that, while supporting the overall concept, was in opposition to the measure.

Your Committee finds that there is a need for an Office of International Affairs. Hawaii is uniquely positioned, both geographically and culturally, to provide mutual opportunities and benefits to other countries. Hawaii can also serve as a place where the international community can develop peace initiatives and modes of international conflict resolution.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1709 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 168 Energy, Environment, and International Affairs on S.B. No. 788

The purpose of this measure is to provide incentive to owners and prospective purchasers of contaminated property to work voluntarily and cooperatively with the State to clean up these properties.

Testimony in support of this measure was received from the Department of Health and Hawaiian Electric Company, Inc. Testimony in opposition to this measure was received from the Sierra Club. Comments were received from the Estate of James Campbell.

Your Committee finds that the measure attempts to address the concerns of prospective owners of contaminated property by clarifying that by participation in the Voluntary Response Program they may be eligible for future exemptions from liability, and that future liability exemptions will be based on risk-based response actions. Your Committee notes that the Voluntary Response Program must remain a vital program in protecting the public from environmental hazards. Thus, your Committee encourages the Department of Health and the Sierra Club to maintain a dialogue to address concerns regarding the effectiveness of environmental protection through the Voluntary Response Program.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 788 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 169 Energy, Environment, and International Affairs on S.B. No. 998

The purpose of this measure is to require the use of the Leadership in Energy and Environmental Design (LEED) gold standard for buildings constructed or substantially renovated with at least fifty percent of the funding coming from state funds.

Testimony in favor of the measure was received from the Rocky Mountain Institute, the Sierra Club-Hawaii Chapter, PowerLight Corporation, Hawaii Renewable Energy Alliance, and Honolulu Seawater Air Conditioning, Inc. The Department of Business, Economic Development, and Tourism and Hawaiian Electric Company supported the intent of the measure and provided comments. Testimony in opposition to the measure and comments were received from the Pacific Housing Assistance Corporation.

Your Committee finds that the use of LEED building and design standards, formulated by the United States Green Building Council, provide for reduced impact on the environment, a healthier workplace, and, in the case of government buildings, savings to taxpayers due to more efficient energy management.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 998 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 170 Judiciary and Hawaiian Affairs on S.B. No. 617

The purpose of this measure is to establish the Court Interpreting Services Revolving Fund in the Judiciary to provide financial support for the development of a comprehensive education, screening, testing, and certification program for court interpreters.

Testimony in support of this measure was submitted by the Judiciary. Testimony in opposition to the measure was submitted by the Department of Budget and Finance.

Your Committee finds that the establishment of the Court Interpreting Services Revolving Fund will enable the Judiciary to provide high quality interpreting services for non-English speakers who utilize the services of the Judiciary. This fund is also the repository of other moneys, including user fees collected from court interpreters, which will not only defray the cost of important court interpreter education and certification programs, but also ensure the accuracy and reliability of court interpreters utilized in all legal proceedings in State courts.

Your Committee has amended this measure by making technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 617, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 617, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 171 (Joint) Health and Human Services on S.B. No. 1285

The purpose of this measure is to make the kupuna council independent from the State and authorizes any individual regardless of race or ethnic origin to be certified by the kupuna council as a traditional Hawaiian healer.

The Office of Hawaiian Affairs, Waianae Coast Comprehensive Health Center, and Traditional Native Hawaiian Healing Center submitted testimony in support of this measure. Papa Ola Lokahi submitted comments.

Your Committees find that the State should remain removed from any regulation of traditional healing practices so that healers may practice the appropriate traditional Hawaiian protocol for their activities. Traditional Hawaiian healing is a dying art and is important to the health of the Hawaiian people. It is also crucial that the traditional native Hawaiian healing arts be preserved before the Kupuna passes on. This measure strengthens the language of the statute and protects those who participate in the traditional healing practices.

Upon further consideration, your Committees have amended this measure by deleting the word "native" instead of "Hawaiian" as suggested by the proponents to avoid a definition that could require a blood quantum.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1285, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1285, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 172 (Joint) Health and Human Services on S.B. No. 682

The purpose of this measure is to require businesses engaged in the retail sale of cigarettes and other tobacco products to acquire a retail tobacco permit from the Department of Taxation.

The Department of Health, the Department of Taxation, the State Attorney General, a Hawaii County Council member, American Lung Association, American Heart Association, American Cancer Society, Coalition for a Tobacco Free Hawaii, Tobacco Prevention and Control Advisory Board, Hawaii Medical Service Association, and three individuals submitted testimony in support of this measure. The Tax Foundation of Hawaii and Hawaii Food Industry Association submitted comments.

Your Committees find that youth access to tobacco products is a significant factor in determining whether a minor will ever smoke, experiment with tobacco, or become occasional or regular tobacco users. A retail business is the most common way a minor acquires tobacco products.

At present, it is not possible to know who or how many retail vendors are currently selling tobacco products. The retail tobacco permit will facilitate enforcement of the requirements of current law by providing a known and measurable list of entities engaged in the retail sale of cigarettes and other tobacco products. The ability to know with a greater degree of certainty who is licensed to sell tobacco products will greatly enhance and support efforts to reduce youth access to tobacco and keep the rates of illegal sale of tobacco to minors at one of the lowest in the nation. Also, the record-keeping requirement of this measure provides a tool to deal with the issue of counterfeit stamped products and counterfeit cigarettes, and facilitates diligent enforcement of the Master Settlement Agreement and Cigarette Tax Law.

Upon further consideration, your Committees have amended this measure by making technical non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 682, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 682, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 173 (Joint) Health and Human Services on S.B. No. 1512

The purpose of this measure is to authorize the Director of Health to establish domestic violence fatality review teams to review domestic violence fatalities.

The Department of Health, the Attorney General, the Judiciary, the Maui Prosecuting Attorney, the Hawaii Prosecuting Attorney, the Domestic Violence Clearinghouse and Legal Hotline, Hawaii State Coalition Against Domestic Violence, and one individual submitted written testimony in support of this measure.

Your Committees find that a domestic violence fatality review process will bring stakeholders together in an organized manner to address the circumstances and issues surrounding a domestic violence death in a confidential manner. As the Department of Health noted, information gained will ultimately assist in reducing those deaths that are preventable as well as build the capacity of the State to more effectively address the issues of domestic violence.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1512 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 174 Energy, Environment, and International Affairs on S.B. No. 1557

The purpose of this measure is to require the Public Utilities Commission to provide that the rate for purchase of electricity by a public utility shall not be less than 100 percent of the cost avoided by the utility when the utility purchases electrical energy. The measure also increases future percentages for renewable portfolio standards for electric utilities.

Testimony in support of the measure was received from the Rocky Mountain Institute, the Sierra Club, Hawaii PV Coalition, Honolulu Seawater Air Conditioning, LLC, and PowerLight Corporation. Hawaiian Electric Company testified in opposition. The Public Utilities Commission provided comments.

Your Committee finds that this measure refines the provisions of Act 95, Session Laws of Hawaii 2004, by strengthening provisions for the fostering of renewable energy. Specifically, it specifies that the rate for the purchase of electricity shall not be less than one hundred per cent of the cost avoided by the utility, and it increases the renewable energy portfolio standards to twenty per cent by December 31, 2015 and thirty per cent by December 31, 2020.

Your Committee has amended this measure by making technical, nonsubstantive changes for clarity and style.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1557, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1557, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 175 (Joint) Water, Land, and Agriculture and Energy, Environment, and International Affairs on S.B. No. 1893

The purpose of this measure is to address the removal process of noxious trees identified by the Department of Land and Natural Resources.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, County of Maui Department of Water Supply, Aloha Green, Continental Pacific, Land Use Research Foundation of Hawaii, the Nature Conservancy, and four individuals.

Your Committees find that beyond the devastating environmental impacts associated with the introduction and spread of alien plant species to Hawaii's environment, alien species also represent a drain on Hawaii's economy. Costs associated with mitigating or removing alien plant species and reintegrating native plant and animal species is a strain on limited government resources on the federal, state, and county levels. Thus, this measure provides a streamlined process for removing trees identified by the Department of Land and Natural Resources as noxious.

While this measure will provide a tool for removing these invasive trees, your Committees also noted concerns regarding the expedited process. Thus, it is your Committees' intent that the permit applications to remove noxious trees go through an extensive review process performed by the Department of Land and Natural Resources.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1893 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 176 (Joint) Water, Land, and Agriculture and Energy, Environment, and International Affairs on S.B. No. 1006

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to Honolulu Seawater Air Conditioning for the design and construction of a chilled water distribution system.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs and Honolulu Seawater Air Conditioning. Comments were also submitted by the Department of Budget and Finance and City and County of Honolulu Board of Water Supply.

Seawater air conditioning district cooling systems are a renewable energy technology that has the potential to provide a contribution to Hawaii's renewable portfolio standard requirements. Your Committees find that support for the development of renewable and efficient energy systems in the State is in the public's interest. Thus, this measure will authorize the issuance and refunding of special purpose revenue bonds to assist the seawater air conditioning projects in constructing more economically feasible systems.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1006 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 177 Water, Land, and Agriculture on S.B. No. 1896

The purpose of this measure is to create a volunteer coordinator position within the Department of Land and Natural Resources to organize the volunteer program for the department.

Testimony in support of this measure was submitted by the Island of Hawaii YMCA and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that many programs within the Department of Land and Natural Resources could benefit from volunteer assistance. However, because of a limited number of personnel who are already tasked with numerous duties and responsibilities, the job of coordinating the efforts of volunteers have become a low priority. Thus, this measure provides funds for a full-time volunteer coordinator within the department.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1896 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 178 Water, Land, and Agriculture on S.B. No. 954

The purpose of this measure is to appropriate funds for the operation and maintenance of the East Kauai irrigation system.

Testimony in support of this measure was submitted by the Agribusiness Development Corporation, East Kauai Water Users' Cooperative, Hawaii Agriculture Research Center, Hawaii Farm Bureau, Kauai Cattlemen's Association, and Kauai County Farm Bureau. Testimony in opposition to this measure was submitted by the Office of Hawaiian Affairs.

Your Committee finds that in 2002, the East Kauai Water Users' Cooperative took over operations of the East Kauai irrigation system. However, income from users is insufficient to pay for the day-to-day operation and maintenance expenses of the system. This measure appropriates funds to supplement the Cooperative's income for the operation and maintenance of the East Kauai irrigation system and help facilitate the development of diversified agriculture in Kapaa, Kauai.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 954 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 179 Water, Land, and Agriculture on S.B. No. 953

The purpose of this measure is to require sellers of residential property to disclose the close proximity of agricultural lands to buyers.

Testimony in support of this measure was submitted by the City and County of Honolulu Department of Planning and Permitting, Big Island Farm Bureau, and Hawaii Farm Bureau. Testimony in opposition to this measure was submitted by the Hawaii Association of Realtors.

Your Committee finds that as agricultural-zoned lands are being re-zoned for non-agricultural residential uses, the agricultural operations that remain on the former sugar and pineapple lands cause mud, dust, spray drift, noise, and odor problems for the new residents. This measure requires sellers of residential property to disclose the proximity of agricultural lands within one thousand lineal feet by including this geographic information in the disclosure statement provided to buyers.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 953 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 180 Water, Land, and Agriculture on S.B. No. 671

The purpose of this measure is to make housekeeping amendments to temporary employee, coffee weighing, and agriculture advertising provisions.

Testimony in support of this measure was submitted by the Department of Agriculture.

Your Committee finds that several provisions in the Hawaii Revised Statutes relating to agriculture need to be amended for clarity and efficiency. This measure specifically:

- (1) Allows temporary employees to be hired under the certification revolving fund to assist in chicken egg and meat certifications. This assistance will help to free the professional employees to conduct more complex certification activities;
- (2) Moves the coffee weighing provisions in section 141-4, Hawaii Revised Statutes (HRS), to chapter 147, HRS, a more appropriate chapter which deals with agricultural grades and standards certification activities; and
- (3) Moves the authority of the Department of Agriculture to regulate the advertising of size, grade, origin, or quality in conjunction with price under chapter 148 to chapter 147, HRS, a more appropriate chapter, which deals with agricultural grades and standards certification activities.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 671 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 181 Water, Land, and Agriculture on S.B. No. 1898

The purpose of this measure is to exempt qualified farmers from liability when a person is injured while trespassing, committing, or attempting to commit theft on the farmer's agricultural land.

Testimony in support of this measure was submitted by the Department of Agriculture, County of Maui Office of Economic Development, Growing Creations, Hawaii Agriculture Research Center, Hawaii Cattlemen's Council, Hawaii Crop Improvement Association, Hawaii Farm Bureau, and Hawaii Marine Enterprises.

Your Committee finds that millions of dollars worth of goods and equipment have been stolen from agricultural lands over the years. In addition to the cost of replacing the stolen items, farmers also face the additional burden of liability for trespassers who are injured on their land. This measure exempts qualified farmers from civil liability when trespassers are injured on agricultural lands.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1898 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 182 Water, Land, and Agriculture on S.B. No. 1899

The purpose of this measure is to appropriate funds to develop guidelines and a marketing plan to obtain export clearances for Japan and other countries.

Testimony in support of this measure was submitted by the Department of Agriculture, Department of Business, Economic Development, and Tourism, University of Hawaii College of Tropical Agriculture and Human Resources, University of Hawaii Center for Genomics, Proteomics, and Bioinformatics Research Initiative, Hawaii Agriculture Research Center, Hawaii Crop Improvement Association, Hawaii Farm Bureau, Hawaii Papaya Industry Association, High Technology Development Corporation, and one individual. Testimony in opposition to this measure was submitted by two individuals.

Your Committee finds that Japan accounts for approximately forty percent of Hawaii's papaya export; however, the genetically engineered papaya has not received the proper clearances from Japan to be exported. Thus, this measure provides the necessary funds to gather information, develop guidelines, and develop a marketing plan to obtain export clearances for Japan and other countries.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1899 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 183 (Majority) Water, Land, and Agriculture on S.B. No. 1877

The purpose of this measure is to clarify the Department of Business, Economic Development, and Tourism (DBEDT) has sole jurisdiction over the Office of Planning and require the Office of Planning's director be nominated by the Governor with the advice and consent of the Senate.

Testimony in support of this measure was submitted by Hawaii's Thousand Friends, Native Hawaiian Legal Corporation, Sierra Club, and two individuals. Testimony in opposition was submitted by DBEDT, the Department of Land and Natural Resources, and the Office of Planning. Comments were also submitted by the University of Hawaii Environmental Center and one individual.

Your Committee finds that the power to direct the Office of Planning to report to a principal department other than DBEDT rests solely with the Legislature. Thus, this measure:

- (1) Clarifies that DBEDT maintains sole jurisdiction over land and state planning functions;
- (2) Provides that the Office of Planning shall not report to any other principal executive department other than DBEDT; and
- (3) Requires the Office of Planning's director be nominated by the Governor with the advice and consent of the Senate.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1877 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Hemmings). Excused, 1 (Fukunaga).

SCRep. 184 Water, Land, and Agriculture on S.B. No. 1592

The purpose of this measure is to review the fundamental components of community planning and create a sustainability plan.

Testimony in support of this measure was submitted by one individual. Comments were also submitted by the Department of Business, Economic Development, and Tourism, Department of Land and Natural Resources, and Office of Planning.

Hawaii is a unique and beautiful State. For many it is the ideal place to live and is second to none for providing a preferred quality of life. However, in order to improve or even maintain the quality of life in this State, your Committee finds that planning the overall theme and goals of the State is important to our future success. Thus, this measure requires:

- (1) A task force to review the Hawaii State Plan and other fundamental components of community planning and make recommendations for a sustainability plan to the year 2050; and
- (2) The Auditor to create a sustainability plan with the assistance of the Office of Planning.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1592 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 185 Judiciary and Hawaiian Affairs on S.B. No. 616

The purpose of this measure is to exempt court interpreters whose presence is requested by a state court from prosecution for expired parking meter violations.

Testimony in support of the measure was submitted by the Judiciary.

Your Committee finds that presently witnesses summoned or subpoenaed by a state court are exempt from prosecution for expired parking meter violations. However, court interpreters requested by a court are not deemed to be "summoned" or "subpoenaed" under the current statute exempting witnesses from prosecution for expired parking meter violations. This measure is designed to afford court interpreters the same exemption from prosecution, provided that the court interpreter is requested by the court.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 616 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 186 Judiciary and Hawaiian Affairs on S.B. No. 619

The purpose of this measure is to eliminate statutory inconsistencies in the Hawaii Penal Code relating to the maximum term of imprisonment for the conviction of a petty misdemeanor offense.

Testimony in support of the measure was submitted by the Judiciary.

Your Committee finds that there is an inconsistency in the Hawaii Penal Code in regards to the statutory definition of a petty misdemeanor and the maximum prison term that may be imposed for the conviction of a petty misdemeanor offense. This measure is designed to address that inconsistency by clearly defining a petty misdemeanor as a criminal offense for which the maximum prison term is not to exceed thirty days.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 619 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 187 Judiciary and Hawaiian Affairs on S.B. No. 628

The purpose of this measure is to authorize the State Ethics Commission to determine the salary of its employees, including the Executive Director of the Commission, within its budget.

Testimony in support of the measure was submitted by the State Ethics Commission and the League of Women Voters of Hawaii.

Your Committee finds that this measure would allow the State Ethics Commission to set the salaries of all of its employees, including the Executive Director. This measure allows the State Ethics Commission to set the salary of the Executive Director independently of the salaries of executive department deputies and the recommendations of the Executive Salary Commission.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 628 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 188 Judiciary and Hawaiian Affairs on S.B. No. 698

The purpose of this measure is to clarify that the State Identification Office of the Hawaii Criminal Justice Data Center is required to take a full frontal photograph of an applicant's face for purposes of issuing a Hawaii State Identification Card.

Testimony in support of the measure was submitted by the Department of the Attorney General.

Your Committee finds that this measure is designed to clarify that the State Identification Office is required to take a full frontal photograph of an applicant's face for a State Identification Card. This will ensure that any person examining a State Identification Card is able to accurately identify and match the photograph on the State Identification Card to the person presenting the State Identification Card.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 698 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 189 Judiciary and Hawaiian Affairs on S.B. No. 920

The purpose of this measure is to authorize the issuance of general obligation bonds and make an appropriation for the Office of Hawaiian Affairs for the construction of a facility that would not only house the administrative offices and support staff of the Office of Hawaiian Affairs, but also a Hawaiian Community Center.

Testimony in support of the measure was submitted by the Office of Hawaiian Affairs.

Your Committee finds that the construction of a centralized facility for the Office of Hawaiian Affairs, including a Hawaiian Community Center, is vital to the ongoing mission of the Office of Hawaiian Affairs in improving the social and economic conditions of Native Hawaiians. This multipurpose building would function as a community resource that members of the Native Hawaiian community and the community at large could utilize both as a meeting place as well as a showcase and repository for Native Hawaiian history and culture. Further, your Committee finds that the construction of this building would relieve the Office of Hawaiian Affairs of its current rent obligations, thereby freeing up additional financial resources that could be directed towards fulfilling its mission.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 920 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 190 Judiciary and Hawaiian Affairs on S.B. No. 975

The purpose of this measure is to enact same-day voter registration and reduce the closing date for voter registration from thirty days to fifteen days before the date of a primary, general, special primary, special general, or special election.

Testimony in support of the measure was submitted by the Office of Elections and the League of Women Voters for Hawaii. The Office of the City Clerk for the City and County of Honolulu testified in opposition to the measure.

Your Committee finds that Hawaii has one of the lowest voter turnout rates in the nation. To increase participation among eligible Hawaii voters, your Committee finds that voter friendly initiatives such as same-day voter registration and reducing the voter registration closing date to fifteen days before the date of an election will remove barriers to voter registration and voting. Same-day voter registration has been successfully enacted in six other states and these states consistently lead the nation in voter turnout.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 975 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 191 Judiciary and Hawaiian Affairs on S.B. No. 1324

The purpose of this measure is to provide for the automatic recount of votes in an election where the difference between the number of votes cast for the winning candidate and the candidate with the second highest number of votes is less than one per cent of the total number of votes cast for that office.

Testimony in support of the measure was submitted by the Office of the Governor, the League of Women Voters of Hawaii, and one individual. The Office of Elections submitted comments.

Your Committee finds that in close elections there is no immediate and adequate remedy available for a candidate with the second most votes in an election and loses by the narrowest of margins. Often, this candidate is unable to demonstrate, much less allege, fraud or illegal activity upon which to mount an election contest challenge in court and request a recount of the votes. This measure would authorize an automatic recount of votes when the difference in the number of votes cast between the winning candidate and the

candidate with the second highest number of votes meets a certain threshold percentage based upon the total number of votes cast for that office.

Your Committee has amended this measure by changing the threshold requirement required for an automatic recount from one per cent to one-eighth of one per cent.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1324, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1324, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 192 Judiciary and Hawaiian Affairs on S.B. No. 1630

The purpose of this measure is to appropriate funds for a grant-in-aid to the Honolulu YMCA to hire site coordinators in order to implement the central facilitation component of the Weed and Seed initiative for the Honolulu area.

Testimony in support of the measure was submitted by the Honolulu Police Department and the Executive Director of the Weed and Seed Hawaii Strategy.

Your Committee finds that the Weed and Seed initiative in Hawaii has been hugely successful in reducing drug use and crime rates in communities where it has been implemented. The Weed and Seed Strategy is a comprehensive community-based initiative that utilizes a combination of law enforcement, community policing, treatment and prevention services, and neighborhood restoration as part of its strategy. The appropriation to the Honolulu YMCA is designed to implement the community empowerment aspect of the Weed and Seed program by hiring site coordinators. Your Committee finds that these coordinators are integral to the success of the Weed and Seed program as these coordinators work directly with the residents, organizations, and businesses in the community to implement site specific strategies that will improve the quality of life for these residents.

Your Committee has amended the bill by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1630, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1630, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 193 (Majority) Labor on S.B. No. 943

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (2), supervisory employees in blue collar positions.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for supervisory employees in blue collar positions who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, and salary increases and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (2) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 943 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 194 (Majority) Labor on S.B. No. 1045

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (3), nonsupervisory employees in white collar positions.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for nonsupervisory employees in white collar positions who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, and salary increases and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (3) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1045 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 195 (Majority) Labor on S.B. No. 1046

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (6), educational officers and other personnel of the department of education under the same pay scale.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for educational officers and other personnel of the department of education under the same pay scale who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, and salary increases and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (6) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1046 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 196 (Majority) Labor on S.B. No. 1047

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (4), supervisory employees in white collar positions.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for supervisory employees in white collar positions who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, salary increases, and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (4) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1047 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 197 (Majority) Labor on S.B. No. 1048

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (8), personnel of the University of Hawaii and the community college system, other than faculty.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for personnel of the University of Hawaii and the community college system, other than faculty, who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, salary increases, and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (8) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1048 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 198 (Majority) Labor on S.B. No. 1049

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (9), registered professional nurses.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for registered professional nurses who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, salary increases, and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (9) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1049 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 199 (Majority) Labor on S.B. No. 1050

The purpose of this measure is to fund all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (13), professional and scientific employees, who cannot be included in any of the other bargaining units.

In addition, this measure funds the salary increases and other cost adjustments authorized by chapter 89C, Hawaii Revised Statutes, for professional and scientific employees, who cannot be included in any of the other bargaining units, who are excluded from collective bargaining.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the sources of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items, salary increases, and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (13) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1050 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 200 (Majority) Labor on S.B. No. 1579

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (1), nonsupervisory employees in blue collar positions and their excluded counterparts.

Testimony in support of this measure was submitted by the United Public Workers.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (1) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1579 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 201 (Majority) Labor on S.B. No. 1580

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (5), teachers and other personnel of the department of education under the same pay schedule, including part-time employees working less than twenty hours a week who are equal to one-half of a full-time equivalent, and their excluded counterparts.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (5) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1580 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 202 (Majority) Labor on S.B. No. 1581

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (7), faculty of the University of Hawaii and the community college system and their excluded counterparts.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (7) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1581 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 203 (Majority) Labor on S.B. No. 1582

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (9), registered professional nurses and their excluded counterparts.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (9) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1582 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 204 (Majority) Labor on S.B. No. 1583

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (10), institutional, health, and correctional workers and their excluded counterparts.

Testimony in support of this measure was submitted by the United Public Workers.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (10) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1583 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 205 Labor on S.B. No. 1584

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (11), firefighters and their excluded counterparts.

Testimony in support of this measure was submitted by the Hawaii Fire Fighters Association.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (11) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1584 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 206 (Majority) Labor on S.B. No. 1585

The purpose of this measure is to fund collective bargaining cost items relating to contributions to the employer-union health benefits trust fund in the agreement negotiated with the exclusive bargaining representative of collective bargaining units (2), (3), (4), (6), (8), and (13) and their excluded counterparts.

Although no sums have been appropriated or authorized from the source of funding indicated in this measure, your Committee believes that a vehicle for funding these collective bargaining cost items should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for units (2), (3), (4), (6), (8), and (13) will eventually produce a settlement.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1585 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 207 (Joint) Commerce, Consumer Protection and Housing and Judiciary and Hawaiian Affairs on S.B. No. 452

The purpose of this measure is to enact the Uniform Athlete Agents Act.

The University of Hawaii, Department of Education, and Hawaii Commission to Promote Uniform Legislation testified in support of this measure. The Department of Commerce and Consumer Affairs presented comments on the measure.

The proliferation of professional sports franchises in the nation and the large sums paid to athletes under commercial endorsement contracts have rendered the commercial marketplace in which athletes operate highly competitive. The competition to represent student-athletes and to earn the substantial fees that accompany this representation has resulted in the use of unscrupulous practices by some agents, placing student-athletes at risk of losing collegiate eligibility and the educational institutions they attend at risk of being sanctioned.

This measure proposes to establish protections for student-athletes and educational institutions by adopting the Uniform Athlete Agents Act (UAAA). Among other things, this measure mandates athlete agents to register with the Department of Commerce and Consumer Affairs before being permitted to act as an athlete agent, establishes requirements for an agency contract that includes mandatory disclosures, prohibits certain conduct by athlete agents, and requires notice to an student-athlete's educational institution upon the execution of an agency contract.

Additionally, this measure permits cancellation of the agency contract by the student-athlete, establishes recordkeeping requirements, and authorizes criminal and administrative penalties, and civil remedies. Presently, more than thirty states have adopted the UAAA, and six other states have similar laws regulating athlete agents.

Your Committees find that with the prominence of many of the State's intercollegiate sports programs and the growing number of talented student-athletes in our educational institutions, more and more opportunities will arise for athlete agents to seek agency contracts in this State. The adoption of the UAAA will help to protect Hawaii's student-athletes and educational institutions and provide a consistent set of standards for athlete agent conduct that facilitates the regulatory process.

Your Committees have amended this measure:

- (1) To establish a maximum \$25,000 administrative penalty for each violation of the UAAA, rather than a maximum \$25,000 civil penalty;
- (2) To establish the Director of Commerce and Consumer Affairs' rulemaking authority under the UAAA; and
- (3) By making technical, nonsubstantive changes to reflect preferred drafting style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 452, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 452, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Hee, Ige, Sakamoto).

SCRep. 208 Commerce, Consumer Protection and Housing on S.B. No. 1453

The purpose of this measure is to authorize the imposition of the public service company tax on a private sewer company or facility.

The Department of Taxation, County of Kauai, and Hawaii State Association of Counties testified in support of this measure.

Currently, all public utilities, except private sewer companies, are subject to a public service company (PSC) tax on their gross income, in lieu of payment of the state general excise tax and county real property taxes. Pursuant to Act 64, Session Laws of Hawaii 2001, the counties share in a portion of the PSC taxes in exchange for giving up their rights to impose a real property tax on public service companies.

A recent decision by the state tax appeals court held that revenues earned by private sewer companies are not subject to the PSC tax because this income is not specifically included under the definition of "gross income" under the PSC tax law. Under this interpretation, the counties stand to sustain an aggregate annual loss of approximately \$300,000 in PSC tax revenues.

This measure corrects the omission in the PSC tax law by amending the definition of "gross income" to include gross income from the operation of a private sewer company or facility. Your Committee finds that this measure supports a more equitable system of taxation by requiring private sewer companies to pay the same tax that is assessed against other sewage and wastewater treatment companies.

Your Committee has amended this measure by making technical amendments to insert missing statutory language and to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1453, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1453, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 209 Commerce, Consumer Protection and Housing on S.B. No. 1851

The purpose of this measure is to appropriate funds to assist homeless and transitional housing projects statewide.

Testimony in support of this measure was submitted by a member of the Hawaii County Council, five members from the Maui County Council, and the East Hawaii Coalition for the Homeless. Testimony in opposition to this measure was submitted by the Housing and Community Development Corporation of Hawaii.

Your Committee finds that homelessness is a problem in our State, and programs for the homeless and transitional housing are crucial to getting individuals and families off the streets and homeless shelters and into homes. This measure specifically appropriates funds for:

- (1) Homeless and transitional housing projects on the islands of Kauai, Hawaii, and Maui;
- (2) Self-help projects in all counties; and
- (3) The state homeless shelter program.

Your Committee has amended this measure by:

- (1) Appropriating \$650,000 for homeless and transitional housing projects on Kauai;
- (2) Appropriating \$500,000 for homeless and transitional housing projects on Hawaii; and
- (2) Naming the Department of Human Services as the expending agency for the appropriations.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1851, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1851, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 210 Commerce, Consumer Protection and Housing on S.B. No. 1904

The purpose of this measure is to aid the Hana Ranch Affordable Housing Project for the construction of affordable housing in Hana, Maui.

Testimony in support of this measure was submitted by one Maui County Council member. The American Forest and Paper Association submitted testimony in opposition to the measure.

Your Committee finds that Hana, Maui currently has a housing crisis due to a lack of affordable housing options. For many, the living conditions are seriously overcrowded. However, families have very few housing options because median prices for homes on Maui are the highest in the State, making purchasing a home extremely difficult for the average family.

In an effort to resolve the housing problems in Hana, the Hana Ranch dedicated one hundred acres to the community to build affordable housing. Of the one hundred acres, approximately fifteen acres will be used for fifty-three to fifty-five single family lots in the first phase. This measure authorizes the issuance of general obligation bonds for a grant-in-aid to Hana Ranch Affordable Housing Project to assist the planning and construction of affordable housing units in Hana, Maui.

Your Committee has amended this measure by making technical, nonsubstantive changes for clarification purposes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1904, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1904, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 211 Intergovernmental Affairs on S.B. No. 1479

The purpose of this measure is to exempt county fire fighters from liability for the rendering of rescue, resuscitative, or other fire fighting services in the scope of employment as a county fire fighter.

Your Committee received testimony in support of this measure from the State Fire Council. Testimony in opposition was received from the Consumer Lawyers of Hawaii.

Current law provides an exemption from civil liability to county lifeguards providing rescue and resuscitative services. This measure would extend that exemption to county fire fighters.

Your Committee recognizes that fire fighting is a dangerous occupation which involves response to fire, rescue, medical, and hazardous materials incidents. Your Committee also recognizes fire fighters to be highly trained and skilled in their responsibilities and duties.

However, your Committee is concerned about disrupting the American legal system's principles of tort law. One of those is to compensate another person for injuries as a result of the other's negligence, including that of government entities and employees. The objective is to deter harm to others and to encourage acting with reasonable care and diligence.

Your Committee has not been presented with sufficient information to justify implementing this measure immediately. Therefore, your Committee has amended this measure by changing the effective date to July 1, 2020, in the interests of allowing time for the proponents of this measure to present more information.

As affirmed by the record of votes of the members of your Committee on Intergovernmental Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1479, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1479, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 3 (Baker, English, Inouye).

SCRep. 212 Tourism on S.B. No. 971

The purpose of this measure is to narrow gift and prize disclosure requirements for time shares.

In addition, this measure would allow time share booth signage to contain art and design elements; exclude booths in the time share project, or in a hotel owned or operated by the time share developer or affiliate from signage requirements; remove signs and banners from certain disclosure requirements; and exclude money paid for an activity, product, or service from prohibition on developer receipt of sums from prospective buyers.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, Marriott International, Inc., Paho Resorts, American Resort Development Association-Hawaii, and Starwood Vacation Ownership. Testimony in opposition to this measure was submitted by Cendant Timeshare Resort Group.

Your Committee finds that hotel guests need to receive adequate disclosures regarding time share solicitations. Your Committee believes this measure will alert hotel guests of time share options when they are not owned or operated by the hotel owner or the hotel's affiliate contractor, yet allow those marketing time shares more freedom in their promotions.

Your Committee has adopted the amendment suggested by the Department of Commerce and Consumer Affairs to clarify language and provide for the types of signs or banners that are prohibited.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 971, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 971, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Hee).

SCRep. 213 Tourism on S.B. No. 1727

The purpose of this measure is to require state agencies that use state funds to market products made in Hawaii to report all expenditures and allocations to the Hawaii Tourism Authority (HTA), and to require the HTA to coordinate and oversee all marketing efforts of products made in Hawaii.

Testimony in support of this measure was submitted by the Hawaii Marketing Alliance. Testimony in opposition to this measure was submitted by the Department of Agriculture and the Hawaii Tourism Authority. Comments were provided by the Department of Business, Economic Development, and Tourism.

Your Committee finds that various state agencies are using state funding independently to market products made in Hawaii. By centralizing and coordinating the marketing of made in Hawaii products, state funds can be better utilized and conserved to avoid duplication of efforts. Your Committee believes that this measure will ensure that state funds are used in a conservative and creative manner without being wasteful or redundant.

Your Committee amended this measure by transferring the duties of coordination and oversight of made in Hawaii products from the Hawaii Tourism Authority to the Department of Business, Economic Development, and Tourism, with the cooperation and participation of the Authority.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1727, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1727, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Hee).

SCRep. 214 Tourism on S.B. No. 1728

The purpose of this measure is to clarify that the perpetuation, protection, and enhancement of the Hawaiian culture is among the responsibilities of the Office of Hawaiian Affairs.

Your Committee received testimony in support of the measure from the Hawaii Tourism Authority, the Office of Hawaiian Affairs, and a member of the Maui County Council.

Your Committee finds that this measure reaffirms the Office of Hawaiian Affairs' obligation to preserve and protect the culture and history of Native Hawaiians. In connection with its goals and strategies, the Office of Hawaiian Affairs should be identifying and providing solutions to safeguard endangered traditions, practices, and rights, and subsequently put into practice steps that will protect, re-establish, and enhance Hawaiian cultural assets. Thus, your Committee believes that this measure will reinforce the duty of the Office of Hawaiian Affairs to make available technical and financial assistance and advisory services to any agency or private organization for programs to perpetuate, protect, or enhance Hawaiian culture.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1728 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Hee).

SCRep. 215 (Majority) Tourism on S.B. No. 1730

The purpose of this measure is to impose the transient accommodations tax on hotels converting to time shares for one year following the conversion.

Testimony in opposition to this measure was submitted by the Department of Taxation, Cendant Timeshare Resort Group Inc., Fairfield Resorts, Inc., Marriott International, Inc., and the American Resort Development Association – Hawaii Chapter. Comments were submitted by Hawaii Hotel and Lodging Association and the Tax Foundation of Hawaii.

Your Committee finds that the tourism industry will suffer if the trend continues in regard to the growing number of hotels converting to timeshare units or condominiums. This trend is negatively affecting transient accommodations tax (TAT) revenues that are vital to the counties and the State for infrastructure, repair, and maintenance funds.

Your Committee believes that in addition to the loss of TAT revenues, the loss of hotel room inventory could negatively effect the tourism industry as a whole, resulting in a chain of negative economic consequences. Requiring any hotel that converts into timeshare or condominium use to pay a TAT surcharge will help to ensure a stable TAT revenue base and increase economic stability.

Your Committee has amended this measure to include a TAT surcharge in an amount equal to the average of fifty per cent of the previous two years of TAT revenues collected by the hotel, and to specify that the surcharge be levied against the entity owning the hotel prior to the conversion.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1730, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1730, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Espero, Hee).

SCRep. 216 (Majority) Tourism on S.B. No. 1863

The purpose of this measure is to require the Department of Taxation to review the forms and process relating to the collection of the transient accommodations tax from vacation rentals and bed and breakfast establishments and require the department to report the transient accommodations tax revenues received from these types of establishments.

Your Committee received testimony in support of the measure from a member of the Maui County Council. Testimony in opposition to the measure was received from the Department of Taxation. Comments on this measure were submitted by the Department of Business, Economic Development, and Tourism and the Tax Foundation of Hawaii.

Your Committee finds that the State needs a reporting system with respect to transient accommodations tax revenues collected from residential properties owners who operate vacation rentals and bed and breakfast establishments. Thus, your Committee believes that better reporting will enable the State to provide a more comprehensive tax system that is more equitable and cost effective.

Your Committee has amended the bill by making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1863, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1863, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, 2 (Espero, Hee).

SCRep. 217 Education and Military Affairs on S.B. No. 1838

The purpose of this measure is to authorize the State to deposit the uniform maintenance allowance into a financial institution account designated by a National Guard member and increases the allowance.

Testimony in support of the measure was submitted by the Department of Defense, Hawaii National Guard Enlisted Association, The Chamber of Commerce of Hawaii, and an individual.

Your Committee finds that the current uniform maintenance allowance of \$1.50 has been in place for over twenty years. Unfortunately, the utilization of the National Guard and Reserve in the last two years has increased significantly. This measure is needed to relieve the burden of increased costs currently being absorbed by guard members.

Upon further consideration, your Committee has amended the measure by:

- (1) Authorizing the Department of Accounting and General Services to deposit the allowance in the designated financial institution;
- (2) Deleting the inconsistent reference to officers and warrant officers;
- (3) Changing the increased allowance amount to three dollars; and
- (4) Adding an appropriation section.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1838, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1838, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 218 Education and Military Affairs on S.B. No. 1834

The purpose of this measure is to restrict the Department of Education from using the minimum annual contribution by a nonprofit organization to reduce, suspend, or offset its normal budgetary allocation to a new century charter school.

Testimony in support of the measure was submitted by Kualapuu Elementary School, Waimea Middle School, Kamehameha Schools, and Hookakoo Corporation. The Department of Education submitted comments.

Your Committee finds that new century conversion charter schools operated and managed by nonprofit organizations receive a \$1 match from the nonprofit for every \$4 allocated by the charter school administrative office. This measure would clarify that this annual contribution by the nonprofit will not be used to offset the department's normal budgetary allocation. The amendment in this measure is in line with the intent of Act 2, Session Laws of Hawaii 2002, which required the matching funds to be used to enhance the normal state budgetary allocation to the school.

Although the department testified that the amendment is unnecessary, your Committee has amended this measure by changing the effective date to July 1, 2010 to continue the discussion on this issue.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1834, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 219 Education and Military Affairs on S.B. No. 1827

The purpose of this measure is to provide economic relief to families of Hawaii National Guard and reserve members by establishing an income tax check off system to fund the Hawaii military family relief special fund.

Testimony in support of the measure was submitted by the Department of Defense, The Chamber of Commerce of Hawaii, and an individual. The Department of Taxation submitted comments.

Your Committee finds that state guardsmen and reservists are being called to active duty for extended periods up to and exceeding twelve months. Many are forced to face serious financial consequences, while others suffer from loss of employment. This measure will support the State's military families who suffer economic hardship due to deployment of a family member. The fund created in this measure will provide eligible families with access to economic assistance commonly available to families of members of the active force.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1827 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 220 (Joint) Education and Military Affairs and Labor on S.B. No. 1664

The purpose of this measure is to allow new century charter school employees to participate in the State's workers' compensation system.

Testimony in support of the measure was submitted by the Charter School Administrative Office, Department of Human Resources Development, Hawaii State Teachers Association, Kualapuu Elementary School, Kamehameha Schools, and Hookakoo Corporation.

Your Committees find that although charter school employees are state employees, they are not covered under the State's workers' compensation system as are other state employees. This measure would alleviate this oversight, ensuring that charter school employees are allowed to participate in the state system provided that the charter schools are responsible for compiling the preliminary claim.

Your Committees have amended this measure by:

- (1) Establishing that the Department of Human Resources Development will administer the claims for charter school employees;
- (2) Providing funding to the Department of Human Resources Development for the increased workload; and
- (3) Changing the effective date to July 1, 2010 to ensure further discussion on this topic.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1664, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1664, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 221 Education and Military Affairs on S.B. No. 1823

The purpose of this measure is to appropriate funds for phase II of the Oahu Veteran's Center at Foster Village.

Testimony in support of this measure was submitted by the Department of Defense, Disabled American Veterans, Oahu Veterans Council, the Hawaii Chapter of the Military Officers Association of America, the Hawaiian Chapter of the National Association for Uniformed Services, and an individual.

Your Committee finds that the State appropriated \$2.8 million as a grant-in-aid to construct the Oahu Veterans Center in 1995. Unfortunately, two failed attempts to exchange federal lands for state lands caused a delay in the project and a severe reduction in the appropriation amount. However, with the signing of a lease with the Foster Village Community Association, phase I construction is underway. The funding assistance in this measure will ensure the completion of the center, which has been an important long-standing community project.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1823 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 222 Education and Military Affairs on S.B. No. 1812

The purpose of this measure is to appropriate funds to track, coordinate, and facilitate volunteer efforts in public schools through the establishment of a volunteer coordinator position and volunteer pilot project.

The Department of Education submitted comments on this measure.

Your Committee finds that there are various and diverse types of activities throughout the department that utilize volunteers. Establishing a coordinator position and implementing a pilot program to, among other duties, track volunteer efforts would assist the department in improving its volunteer efforts. Furthermore, extending benefits to volunteers would encourage more participation as a volunteer.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1812 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

SCRep. 223 Education and Military Affairs on S.B. No. 1650

The purpose of this measure is to provide reimbursement for travel expenses to National Guard members reporting for drill or exercises and makes an appropriation for the reimbursements.

Testimony in support of the measure was submitted by the Department of Defense and The Chamber of Commerce of Hawaii.

Your Committee finds that members of the National Guard are sometimes required to incur air travel expenses in order to report for official duties. It would be appropriate for the State to assume costs of necessary air travel in order to maintain a force that is prepared to meet its commitments.

Upon further consideration, your Committee has amended this measure by:

- (1) Establishing that the State will reimburse travel expenses if the member was not offered military travel benefits;
- (2) Increasing the amount appropriated from \$60,000 to \$228,000; and
- (3) Making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1650, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1650, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 224 (Joint) Education and Military Affairs and Higher Education on S.B. No. 1790

The purpose of this measure is to appropriate funds to establish Families for R.E.A.L. programs at various sites throughout the State.

Testimony in support of the measure was submitted by the Department of Education, Good Beginnings Alliance, and 232 individuals.

Your Committees find that Families for R.E.A.L. programs allow both young children and parents to receive the attention and education they require. The program includes the opportunity of young children to receive quality early education while parents receive valuable information on child development. Within the program there are opportunities for parents to ask questions regarding their child and to be referred to new resources that can benefit their growth as parents. Expanding the program would allow more families to participate in this quality service.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1790 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Baker, Hogue).

SCRep. 225 Education and Military Affairs on S.B. No. 1649

The purpose of this measure is to authorize the issuance of general obligation bonds to contribute to the funding of a new Pearl Harbor memorial museum and visitor center.

Testimony in support of the measure was submitted by the Department of Defense, Oahu Veterans Council, and Disabled American Veterans.

Your Committee finds that the Pearl Harbor memorial museum and visitor center are visited by hundreds of thousands of individuals annually and have consistently been one of the major destinations for Hawaii tourists. The existing structures have been in place since 1980 but are in need of maintenance for structural problems. There has also been a long-standing need to increase the museum size and the Arizona Memorial Museum Association has made plans to raise funds for the building of a new center. The general obligation bonds authorized by this measure will ensure the success of this project.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1649 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 226 Education and Military Affairs on S.B. No. 1645

The purpose of this measure is to appropriate funds for a temporary civil service position to coordinate state support of military personnel.

Testimony in support of the measure was submitted by the Hawaii National Guard Enlisted Association, The Chamber of Commerce of Hawaii, and an individual. The Department of Defense submitted comments.

Your Committee finds that the National Guard and Reserve deployments have increased and taken many members away from their family and civilian employment. Many of these members experience a decrease in pay and incentives from their civilian employment which puts hardships on their family households. The temporary position in this measure would provide the National Guard and Reserve members with a person to assist their families during this difficult period.

Upon further consideration, your Committee finds that the Department of Defense currently employs a family support coordinator funded through the federal government. Therefore, your Committee has amended this measure to specify that the temporary position would only assist in the coordination of the joint venture education forum activities, including participation in the Hawaii 3Rs program.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1645, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1645, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 227 (Joint) Education and Military Affairs and Labor on S.B. No. 1497

The purpose of this measure is to establish an alternative vocational education program that allows students enrolled in eleventh and twelfth grades to opt into full time vocational programs as an alternative to regular educational programming, and to place those students within state workers' compensation coverage.

Testimony in opposition to the measure was submitted by the Department of Education.

Your Committees find that not all students intend to pursue post-secondary higher education. Yet these students are required to comply with all requirements necessary to achieve their high school diploma as if they were to continue on with their education. Many of these students who do not choose to continue enter the workforce without the necessary skills. An alternative vocational program in high school would prepare these students with the skills and training to become active and competitive employees immediately after graduation.

Upon further consideration, your Committees have amended the measure by making technical, nonsubstantive amendments and changing the effective date to July 1, 2010.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1497, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1497, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 228 Education and Military Affairs on S.B. No. 1393

The purpose of this measure is to establish an after-school activities program coordinator position and a task force to review and recommend improvements to the after-school activities programs.

Testimony in support of the measure was submitted by the Office of Youth Services, Hawaii State Teachers Association, and Hawaii Youth Services Network. The Department of Education and Department of Human Services submitted comments.

Your Committee finds that structured programs and activities for children and youth provide safe and nurturing environments for many students on their own after school. The Honolulu Police Department reports that juvenile crime peaks between 2:00 p.m. and 6:00 p.m. Providing interesting, challenging, and educational programs for youth during non-school hours is a strong protective factor against substance abuse and crime.

However, the State lacks a sufficient amount of programs to encourage the interests of the youth. This measure would establish a position to coordinate the State's efforts in providing quality after-school programs.

Upon further consideration your Committee has amended the measure by:

- (1) Deleting the requirement that school administrators participate in the after-school activities program;
- (2) Including an appropriation for after-school and weekend programs; and
- (3) Making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1393, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1393, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 229 Education and Military Affairs on S.B. No. 1258

The purpose of this measure is to establish a grant program in the Department of Education to develop K-12 lesson plans, curriculum, and other educational materials for civic responsibility, and appropriate funds for social studies textbooks, science textbooks, and to the grant program.

Testimony in support of the measure was submitted by the Department of Education. The Hawaii State Teachers Association submitted comments.

Your Committee finds that Act 21, Session Laws of Hawaii, 2004, the Hawaii Content and Performance Standards II, and the General Learner Outcomes all support civic responsibility programs in schools. This measure will provide much needed funds to support civic programs to ensure that students are knowledgeable in the fundamental processes of American democracy.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1258 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 230 Education and Military Affairs on S.B. No. 1866

The purpose of this measure is to require the Department of Education to review its budget regarding the position of student services coordinators.

Testimony in support of the measure was submitted by the Department of Education.

Your Committee finds that the department currently employs a student services coordinator at every public school regardless of the population of the school. Although the coordinators serve a valuable purpose in schools, placing one in each school may not be fiscally prudent. Therefore, this measure will require the department to review its policies to make recommendations for what the optimum number of coordinators is needed in consideration of a school's population.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1866 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

SCRep. 231 (Majority) Education and Military Affairs on S.B. No. 1255

The purpose of this measure is to establish the price of school lunch in proportion to the total cost of operating the school food services program and to allow the Department of Education to adjust the price to maintain this proportion.

Testimony in support of the measure was submitted by the Department of Education.

Your Committee finds it necessary to adjust the student's share of the cost to prepare school lunches due to the rising cost of food, payroll and fringe benefit costs, and supplies and services. However, your Committee finds the current language to be confusing and inappropriately placed in the statutes. Therefore, upon further consideration, your Committee has amended this measure to clearly allow the department to set the price of school lunches with the Board of Education's concurrence.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1255, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Hogue). Excused, none.

SCRep. 232 Education and Military Affairs on S.B. No. 1248

The purpose of this measure is to allow the Department of Education to use the Working Families Tax Relief Act to allow for the issuance of qualified zone academy bonds to subsidize school repair, renovation and restoration projects, equipment and technology acquisition, curriculum development, and teacher training.

Testimony in support of the measure was submitted by the Department of Education (DOE). The Department of Taxation submitted comments.

Your Committee finds that measures to subsidize school projects are a much needed additional source of funding. Under Internal Revenue Code section 1397E, banks, insurers, and corporations actively engaged in the business of lending money and holding qualified zone academy bonds may claim a federal income tax credit. The tax credit will then be used for payment in lieu of the bond interest. Authorizing the DOE to qualify schools as qualified zone academies and the Director of Finance to issue bonds for the fiscal biennium 2005-2007 will assist the DOE with another funding source for its projects.

Upon further consideration, your Committee has amended this bill to include further descriptions of the requirements of this federal program and nonsubstantive technical amendments for clarification purposes.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1248, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1248, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

SCRep. 233 Education and Military Affairs on S.B. No. 528

The purpose of this measure is to appropriate funds to hire additional career counselors for each public high school based on school enrollment.

Testimony in support of the measure was submitted by the Department of Education and the Hawaii State Teachers Association.

Your Committee finds that additional counselors are needed to address the transition of students in high schools to post-secondary institutions. The additional staffing in this measure will be beneficial to students who currently are unable to see a counselor due to the counselor's heavy workload. Furthermore, although student enrollment at a school may be small, the demands on the counselors are just as great as in the larger schools.

Upon further consideration, your Committee has amended this measure by removing the enrollment standard and replacing it with language to assist the department in meeting the American School Counselor Association standards.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 528, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 528, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Hogue).

SCRep. 234 Education and Military Affairs on S.B. No. 1643

The purpose of this measure is to clarify and strengthen the laws governing new century charter schools.

Specifically, this measure:

- (1) Changes the funding mechanisms for calculating charter school appropriations;
- (2) Enables employees to move between public schools and charter schools;
- (3) Authorizes the executive director to adopt administrative policies and procedures; and
- (4) Allows new century charter schools to propose their own weighted student formula.

Testimony in support of the measure was submitted by the Charter School Administrative Office, Kualapuu Elementary School, Waimea Middle School, Kamehameha Schools, Hookakoo Corporation, and Hawaii League of Women Voters. The Hawaii State Teachers Association submitted testimony in opposition. Comments on the measure were submitted by the Department of Education, Department of Human Resources Development, Hawaii Government Employees Association, Office of Information Practices, the Governor, and Halau Ku Mana.

Your Committee finds that there are ambiguities and discrepancies in the current charter school statutes. This measure attempts to resolve many of the problematic issues by clarifying statutory language. Some of these issues were brought to light in the Auditor's report regarding the Na Wai Ola Waters of Life Charter School audit, while other issues have become apparent when employees requested transfers between the Department of Education schools and new century charter schools.

It is the intention of this Committee to assist new century charter schools to achieve a more equitable and fair administrative structure to encourage their growth and assistance to the State in education.

Upon much discussion and collaboration among the affected parties, your Committee has amended this measure by:

- (1) Specifying that only the Board of Education can charter a new century charter school;
- (2) Deleting the provision that the implementation plan shall include provisions for special education services;
- (3) Requiring the Board of Education to clearly state its reasons for not issuing a charter;
- (4) Clarifying that the local school board may resubmit the implementation plan addressing the Board of Education's concerns;

- (5) Establishing appropriate policies regarding the movement of personnel between the department and new century charter schools;
- (6) Clarifying accountability and probationary issues regarding the revocation of a charter;
- (7) Requiring the board to initiate independent evaluations of the schools in a specific time frame;
- (8) Specifying that no designated head of school shall serve as an officer on the local school board;
- (9) Establishing a working group to determine the appropriate laws from which a new century charter school shall be exempt; and
- (10) Making technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1643, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1643, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 235 (Joint) Media, Arts, Science and Technology and Business and Economic Development on S.B. No. 1698

The purpose of this measure is to assist the Economic Development Alliance of Hawaii, Inc., and the four county economic development boards in their support of Hawaii's growing technology sector.

Specifically, the measure provides an incentive for taxpayers to invest in creating and maintaining school technology laboratories by establishing a tax credit for moneys, goods, or services donated to public schools in the furtherance of such programs. The tax credit would be equal to ten per cent of the donated amount, up to a yet to be determined maximum.

The measure also appropriates \$250,000 in matching funds as a grant-in-aid to the Economic Development Alliance of Hawaii, Inc., so that it may expand its Project EAST program to four additional schools on two, yet to be determined, islands.

Testimony in support of the measure was received from the Department of Education; the Department of Business, Economic Development, and Tourism's Office of Planning; the Economic Development Alliance of Hawaii, Inc.; the Hawaii Island Economic Development Board; the Kauai Economic Development Board; and the Maui Economic Development Board.

The Department of Business, Economic Development, and Tourism and the Tax Foundation of Hawaii submitted comments on the measure. The Department of Taxation submitted testimony in opposition to the measure.

Your Committees find that training a technology savvy workforce is the State's key to ensuring a future that embraces a robust technology-based economy. To help meet this need, Act 218, Session Laws of Hawaii 2004, established the Hawaii 3Ts School Technology Laboratories Fund. Modeled after the highly successful Hawaii 3Rs School Repair and Maintenance Fund, the 3Ts Fund encourages public-private partnerships for the establishment and maintenance of technology laboratories in Hawaii's public schools.

The 3Ts concept is an expansion of the Project EAST (environmental and spatial technology) initiative started as a pilot program in the Maui district high schools during the summer of 2000, that later moved to Hawaii county, and then a middle school on Kauai. Project EAST holds great potential for assisting Hawaii's public schools in developing important critical thinking, problem solving, and analytical skills in Hawaii's young people that are necessary for these individuals to succeed in high technology based jobs. Project EAST integrates cutting edge technology, such as computer assisted drafting, geographic information systems, global positioning systems, as well as computer graphic applications, such as soft image, into the educational curriculum. The goal of this initiative is to prepare students for the information technology age by providing a comprehensive project-based and student-centered learning program where the students are responsible for their own learning.

Seven Project EAST labs have already been established in Hawaii – Chiefess Kamakahalei Middle School on Kauai; Maui High School, Baldwin High School, King Kekaulike High School, Lahainaluna High School, and Kihei Charter School on Maui; and Kea'au High School on Hawaii. Since 2001, Hawaii students have won a number of awards at the National EAST Conference, competing successfully against approximately two hundred schools in six other states.

Your Committees also find that the Economic Development Alliance of Hawaii, Inc., is responsible for administering the 3Ts Fund, and every dollar of state funds must be matched on a fifty cents basis in the form of in-kind services or monetary donations by nonstate sources.

Your Committees further find that the Economic Development Alliance of Hawaii, Inc., a nonprofit umbrella organization for the four county economic development boards, estimates that the economic development boards miss as many as one hundred United States mainland exhibitions and conferences in which the Hawaii technology story could be presented. Currently, presentations are limited by budget constraints and simply do not match the market emphasis or level of other technology sites such as the Raleigh Durham triangle, San Antonio, or San Diego, much less Silicon Valley.

Your Committees also heard concerns raised during the public hearing on this measure over the uncertainty of how the value of goods and in-kind services will be determined, as well as how much tax revenue will be lost to the establishment of the tax credit.

In response to these concerns, your Committees have received assurances that:

- (1) The Department of Business, Economic Development, and Tourism will work with the Economic Development Alliance of Hawaii, Inc., and the county economic development boards to resolve concerns on contributions of goods and in-kind services from the private sector for school technology laboratories;
- (2) The Department of Business, Economic Development, and Tourism will work with the Economic Development Alliance of Hawaii, Inc., and the county economic development boards to establish a formula based on federal certified wage/hour rates, materials, and supplies; and
- (3) According to the Department of Business, Economic Development, and Tourism, the Economic Development Alliance of Hawaii, Inc., and the county economic development boards, the anticipated value of moneys, goods, and in-kind services donated under the tax credit would be between a minimum of \$2,000,000 and a maximum of \$5,000,000, which equates to an estimated cap on the annual tax revenue lost attributable to the tax credit at between \$200,000 and \$500,000.

Your Committees have amended the measure by:

- (1) Adding sections to the measure that clarify that moneys or the value of goods or services donated to technology-based educational programs in public schools shall not be claimed under both the new tax credit established under this measure and the tax credit provided under section 235-110.2, Hawaii Revised Statutes (the School Repair and Maintenance Tax Credit); and
- (2) Adding a section that appropriates \$250,000 in matching funds to the Economic Development Alliance of Hawaii, Inc., to coordinate marketing, with emphasis on representing Hawaii's technology companies and opportunities on the United States mainland.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1698, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1698, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (English, Sakamoto).

SCRep. 236 Transportation and Government Operations on S.B. No. 144

The purpose of this measure is to adjust the salaries of certain positions in the executive branch for managers and office directors to be set at the maximum salary payable to deputies or assistants to department heads as established by section 26-53, Hawaii Revised Statutes (HRS), which specifies a range of salaries for deputies or assistants to department heads.

Your Committee received testimony in support of this measure from the Department of Human Resources Development, Department of Defense, Department of Budget and Finance, Department of Health, Labor and Industrial Relations Appeals Board, and Hawaii Paroling Authority.

The intent of this measure is to provide for the salaries of certain administrators whose specific monetary salaries are currently specified in statute. Your Committee finds that tying these salaries into the amount set by section 26-53, HRS, is a neutral and equitable manner to provide compensation to these various positions. Your Committee notes that section 26-53, HRS, sets the salaries within a range as last recommended by the executive salary commission.

Your Committee has amended this measure by changing the salaries of the following positions to be set at the maximum salary payable to deputies or assistants to department heads as established by section 26-53, HRS: Vice Director of Civil Defense, Recycling Coordinator, Director of the Executive Office on Aging, Chairperson of the Hawaii Paroling Authority, Director of the Office of Veterans' Services, and Executive Director of the Office of Community Services. As amended, this measure provides the same salary provisions for all specified offices.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 144, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 144, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 237 Transportation and Government Operations on S.B. No. 599

The purpose of this measure is to transfer the administrative placement of the boards of registration from the Office of the Lieutenant Governor to the Department of Accounting and General Services (DAGS).

Your Committee received testimony in support of this measure from the Office of Elections.

There is a three member Board of Registration in each county for the purpose of hearing voter registration appeals. Act 117, Session Laws of Hawaii 2003, transferred the Office of Elections from the Office of the Lieutenant Governor to DAGS but inadvertently left attached the boards of registration to the Office of the Lieutenant Governor. This measure rectifies that oversight.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 599 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 238 Transportation and Government Operations on S.B. No. 735

The purpose of this measure is to repeal the law on permanent escheat of unclaimed property to the State.

Your Committee received testimony in support of this measure from the Department of Budget and Finance.

Section 523A-3.5, Hawaii Revised Statutes (HRS), provides that unclaimed property held by the State for periods ranging from two to six years, depending on the value of the property being held, be permanently escheated to the State. This provision is in conflict with the intent of the State's unclaimed property program in which the State serves as the custodian of the unclaimed property and reunites the property with the rightful owner. Section 523A-3.5, HRS, was enacted in 1996, but has never been implemented.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 735 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 239 Transportation and Government Operations on S.B. No. 848

The purpose of this measure is to allow the use of legal tender or financial instruments other than bonds to secure performance under concession contracts with the State.

Your Committee received testimony in support of this measure from the Department of Transportation.

Presently, concessionaires are required by statute to provide a bond to ensure performance under the terms of the concession agreement. In the wake of the events of September 11, 2001, bonds have become increasingly expensive and difficult to obtain for airport concessionaires. This measure would provide concessionaires with flexibility, and reduce their costs associated with financial security requirements.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 848 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 240 Transportation and Government Operations on S.B. No. 1490

The purpose of this measure is to exempt small purchases from the verification requirements relating to tax clearance, Department of Commerce and Consumer Affairs (DCCA) certificates, and Department of Labor and Industrial Relations (DLIR) certificates.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services (DAGS), Department of Budget and Finance, Department of Education, State Procurement Office, Hawaii County Finance Department, Kauai County Finance Department, and Legislative Information Services of Hawaii.

This measure is intended to reduce the burden on state and county agencies by eliminating the need to verify vendor and contractor compliance with all applicable Hawaii laws for purchases of less than \$25,000. This process also causes undue delay. For example, the County of Kauai currently processes approximately 700 purchase orders per month, with an estimated turn around time of two to three working days. The process is typically extended to as much as 10 to 15 working days if the contractor needs to gather the clearances and certifications.

Your Committee finds that there is a significant burden on small businesses that must gather the necessary paper work when submitting the bid. Your Committee views this measure as an encouraging development of small businesses by making it easier for them to be awarded government contracts. Many small businesses rely heavily upon government contracts. This measure will facilitate achieving that end.

Your Committee has amended this measure upon the recommendation of DAGS and the State Procurement Office by repealing statutory material relating to requirements of incorporation or organization under the laws of Hawaii, being registered to do business in Hawaii, and being capable of fully performing the contract; and deleting the cross-reference to small purchases as being unnecessary.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1490, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1490, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 241 Transportation and Government Operations on S.B. No. 1752

The purpose of this measure is to provide for the joint management of the entire state capitol building and grounds, including parking facilities, by the Department of Accounting and General Services (DAGS) in conjunction with the joint legislative management committee of the legislature.

Your Committee received testimony in opposition to this measure from DAGS.

Your Committee notes that this measure does not strip DAGS of the responsibility to manage the capitol grounds, but requires DAGS to do so in conjunction with the joint legislative management committee. Your Committee believes that because most of the capitol is occupied by the Legislature, the Legislature should rightfully have input into how the building and grounds are managed.

Your Committee has amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1752, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1752, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 242 Transportation and Government Operations on S.B. No. 1843

The purpose of this measure is to amend the public procurement code to prohibit a governmental body from requiring a contractor for construction design services to indemnify the government for the government's negligence, but allows the governmental body to require the contractor to indemnify the State for the contractor's negligence.

Your Committee received testimony in support of this measure from the American Society of Civil Engineers, Finance Insurance, Ltd., Clayton J. Wong & Associates, Inc., Coalition of Hawaii Engineering and Architectural Professionals, American Council of Engineering Companies of Hawaii, The Limtiaco Consulting Group, Masa Fujioka & Associates, and Fukunaga & Associates. Comments were submitted by the State Procurement Office.

Your Committee finds that the prevailing practice in state and county contracts is to require the contractor to indemnify, defend, and hold harmless the government in the event of negligence of the employees and agents of the government. Your Committee further finds that this contracting practice is against public policy on the basis that every party to a contract should be liable for that party's own conduct.

The Hawaii Intermediate Appellate Court recognized this principle of law in Straub Clinic and Hospital, Inc. v. Chicago Insurance Co., 4 Haw.App. 268, holding that contracts of indemnity are to be strictly construed, particularly when the indemnitee claims that it should be indemnified for its own negligence. Also, the United States District Court for the District of Hawaii found that Hawaii state law requires that indemnity clauses, particularly those which purport to indemnify a party against its own negligence, be strictly construed and have a clear and unequivocal statement of intent (City and County of Honolulu v. Churchill, 167 F.Supp.2d 1143).

Your Committee further finds that indemnity clauses are fraught with litigation in the interests of interpreting a strict construction and intent of the parties.

Your Committee learned from testimony that duty to defend agreements are insurable only when the policyholder is determined to be negligent. The insurance policy does not cover the State for the State's wrongdoing.

This measure is intended to resolve the difficulties of governmental contract provisions regarding indemnification, duty to defend, and hold harmless agreements. The effect is to facilitate the bidding by contractors on government contracts and thus encourage economic growth, and to discourage costly and time consuming litigation.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1843 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 243 (Joint) Business and Economic Development and Energy, Environment, and International Affairs on S.B. No. 121

The purpose of this measure is to allow sales by brewpubs of malt beverages in recyclable containers, instead of limiting sales to malt beverages in glass containers.

Your Committees received testimony in support of this measure from the Ball Corporation and six individuals.

Your Committees believe that this measure will support the local economy by allowing local brewpubs to sell malt beverages in aluminum cans, which are manufactured in Hawaii, rather than restricting sales to glass containers, which must be imported from the mainland. The measure will also include sales to Class 2 restaurant licensees on the list of licensees to which brewpubs may distribute their malt beverages, pursuant to section 281-31, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 121 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Hanabusa, Menor, Sakamoto, Hemmings).

SCRep. 244 Business and Economic Development on S.B. No. 668

The purpose of this measure is to require the Procurement Policy Board to adopt rules effectuating set-asides to small businesses and imposing mandatory evaluation criteria designed to encourage the use of small businesses as subcontractors on large contracts.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; the Department of Accounting and General Services; Chamber of Commerce Hawaii; Hawaii Technology Trade Association; and National Federation of Independent Business – Hawaii. Comments were also submitted by the State Procurement Office.

Your Committee acknowledges the importance of small businesses to the state economy. Encouraging the use of small businesses as subcontractors for large contracts and establishing set-asides for small business support the continued growth of Hawaii's small business community. Your Committee believes that this measure will sustain the development and growth of small businesses in the State.

Technical, non-substantive amendments were made for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 668, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 668, S.D. 1, and be referred to the Committees on Transportation and Government Operations and Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 245 Business and Economic Development on S.B. No. 711

The purpose of this measure is to require the preparation and submission of small business impact statements to the small business regulatory review board as early as practicable in the rule drafting process, and to require that rules affecting small business be reviewed within five years of adoption.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; the National Federation of Independent Business – Hawaii; and the Hawaii Agriculture Research Center.

Your Committee finds that upon the adoption of chapter 201M, Hawaii Revised Statutes (the Small Business Regulatory Flexibility Act), it was necessary to review administrative rules already in place before reviewing new or modified rules. Accordingly, each rulemaking agency has submitted a list of rules adopted before July 1, 1998 affecting small business and describing the public purpose for the rule and any other reasons to justify its continued implementation. The need to periodically review rules with a potential impact on small business remains valid. Your Committee believes that this measure will ensure the review of proposed new or amended rules.

Your Committee further finds that the timing of preparing and submitting a small business impact statement as required by chapter 201M should be earlier in the rulemaking process to ensure adequate time for review and comment on proposed new and amended rules. This measure specifies when an agency shall prepare and submit a small business impact statement.

Your Committee has amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 711, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 246 Business and Economic Development on S.B. No. 719

The purpose of this measure is to improve government efficiency by merging the State's business financing programs, the Hawaii Capital Loan Program and the Hawaii Strategic Development Corporation, into a single financial assistance entity to be administered by the Department of Business, Economic Development, and Tourism.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism.

Your Committee finds that creating a single financing program from existing programs will facilitate issuing and administering loans to businesses that do not meet the criteria for conventional lending services. The Hawaii Capital Loan Program offers capital to young businesses that have contracts but do not qualify for bank loans and the Hawaii Strategic Development Corporation provides equity growth financing through venture capital funds to new technology firms. Your Committee believes that this measure ensures that the State will continue to offer a range of financing options to new and developing businesses and that the program will be strengthened by coordinating the two entities' resources under a single program.

Your Committee has amended this measure by inserting a definition of "corporation" and by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 719, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 719, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 247 Business and Economic Development on S.B. No. 987

The purpose of this measure is to appropriate moneys to the Hawaii Small Business Development Center Network to advance its work of helping small businesses grow through management-force training.

Testimony in support of this measure was submitted by the Hawaii Small Business Development Center Network. Comments were also submitted by the Department of Business, Economic Development, and Tourism.

Your Committee finds that the Hawaii Small Business Development Center Network provides consulting services and training to more than two thousand businesses annually, and has been serving Hawaii's small businesses since 1990. Your Committee further finds that the Hawaii Small Business Development Center Network receives moneys through federal matching funds and partnership programs, the University of Hawaii at Hilo, and other federal, state, and private sector sponsors and partners as well as through state appropriations. Your Committee believes that this measure will generate significant economic impact and will continue to promote and support small businesses in the State.

Your Committee has amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 987, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 987, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 248 Business and Economic Development on S.B. No. 1301

The purpose of this measure is to clarify the Department of Land and Natural Resources' authority over commercial dolphin-watching tours in state waters and protect dolphins and other offshore marine wildlife in the Waianae coast area by imposing a moratorium on the issuance of additional dolphin-tour operations permits.

Your Committee received testimony in support of this measure from two individuals. Testimony in opposition was received from the Department of Land and Natural Resources, the Office of Hawaiian Affairs, and the Ocean Tourism Coalition.

Your Committee finds that restricting the number of permits issued by the Department of Land and Natural Resources on the Waianae coast of Oahu issued to commercial activities operations is necessary to protect the environment and other ocean users' rights. Your Committees recognize the inherent difficulties in establishing an appropriate and effective response to the impact on marine resources.

In response to concerns raised regarding the potential conflict with federal law, and with the objective of effectuating a workable solution for all user groups along the Waianae coast, your Committee has amended this measure by:

- (1) Deleting references to dolphin tours and replacing them with commercial activities;

- (2) Clarifying that permits for commercial ocean activities issued by the Department of Land and Natural Resources shall be limited to avoid user conflicts, address environmental concerns, and balance the level of commercial activities originating from the harbors, marinas, and beaches along the Waianae coastline;
- (3) Requiring the department to establish an ocean recreation management area; and directing the department to commence its establishment no later than June 30, 2005;
- (4) Authorizing the Department of Land and Natural Resources to adopt necessary rules pursuant to chapter 91, Hawaii Revised Statutes;
- (5) Implementing a sunset provision to repeal the department's issuance of commercial activities permits upon the effective date of rules adopted by the department in conjunction with the ocean recreation management area; and
- (6) Incorporating technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1301, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1301, S.D. 1, and be referred to the Committee on Water, Land, and Agriculture.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 249 (Joint/Majority) Business and Economic Development and Energy, Environment, and International Affairs on S.B. No. 1503

The purpose of this measure is to require the Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority to convene a work group to examine the feasibility of hosting an international Pacific Asian Little League baseball championship tournament in Hawaii.

Your Committees received comments from the Department of Business, Economic Development, and Tourism and the Hawaii Tourism Authority.

Your Committees find that youth baseball encourages healthy competition, teaches youth the advantages of teamwork, and promotes exercise, physical well-being, and a healthy, drug-free lifestyle. Your Committees believe that hosting an international youth baseball league tournament in Hawaii will promote tourism and bring national and international media attention throughout the State.

Your Committees have amended this measure by replacing references to "Little League baseball" with "youth baseball league."

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1503, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1503, S.D. 1, and be referred to the Committee on Tourism.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Trimble). Excused, 4 (Hanabusa, Menor, Sakamoto, Hemmings).

SCRep. 250 Commerce, Consumer Protection and Housing on S.B. No. 1844

The purpose of this measure is to increase the income for the rental housing trust fund.

Testimony in support of this measure was submitted by the City and County of Honolulu Department of Community Services, the Affordable Housing and Homeless Alliance, Hawaii Association of Realtors, the Nature Conservancy, and Pacific Housing Assistance Corporation. The Housing and Community Development Corporation of Hawaii and Land Use Research Foundation of Hawaii submitted testimony in opposition to this measure. The Department of Taxation and Tax Foundation of Hawaii also submitted comments.

Measures promoting the increase of rental housing projects are seriously needed in Hawaii's tight rental market because as the number of available units decrease, rental prices increase. Your Committee finds that the rental housing trust fund was created to provide loans or grants for the development of rental housing units. However, in order for this fund to be successful, money must be available for projects.

This measure provides an increase in revenue to better equip the rental housing trust fund. Specifically, this measure:

- (1) Requires twenty-five per cent of all general excise taxes collected for the rental of residential dwellings to be deposited into the rental housing trust fund; and
- (2) Raises the percentage of the conveyance tax to be deposited into the rental housing trust fund from twenty-five per cent to fifty per cent.

Your Committee has amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1844, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1844, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 251 Commerce, Consumer Protection and Housing on S.B. No. 1793

The purpose of this measure is to encourage the sale of leased fee interests in multi-family residential leasehold properties or units by exempting fifty per cent of the sale proceeds from income taxes.

The Hawaii Council of Associations of Apartment Owners, Hawaii Independent Condominium and Cooperative Owners, and Monarch Properties, Inc. testified in support of this measure. The Department of Taxation opposed the measure. The Hawaii Association of Realtors and Tax Foundation of Hawaii presented comments on the measure.

With the recent repeal of the City and County of Honolulu's mandatory condominium leasehold conversion law, condominium owners who wish to purchase the properties under their units will no longer be able to compel the sale of the leased fee interest, and instead will have to rely upon the voluntary offering of the fee interest by owners who lack significant incentives to sell. This measure would establish an incentive for lessors to sell their interest by providing, for a limited period, an exemption from income taxes on fifty per cent of the income received on the sale of the leased fee interest to the lessee.

Your Committee finds that this measure will provide lessors who wish to minimize the tax consequences of selling their real property with an alternative to executing a Section 1031 property exchange. Additionally, the real estate activity encouraged by this measure will generate revenues for the State through conveyance tax fees and taxes on broker commissions. Finally, this measure will facilitate fee simple ownership for condominium owners who have invested substantial sums in their homes through the payment of mortgages, property taxes, and maintenance fees, and who seek the security of owning the fee interest in their homes.

Your Committee has amended this measure:

- (1) To increase the income tax exemption from fifty per cent to one hundred per cent;
- (2) To apply the exemption to income received from the sale of leased fee interests in multi-family residential properties located in planned unit developments, and from the sale of leased fee interests in residential leasehold house lots; and
- (3) By making technical amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1793, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1793, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 252 Transportation and Government Operations on S.B. No. 689

The purpose of this measure is to shield highway hazard evaluation data from discovery or admission into evidence.

Your Committee received testimony in support of this measure from the Department of Transportation (DOT), Attorney General, and Honolulu Police Department. Testimony in opposition was received from the Honolulu Advertiser and Consumer Lawyers of Hawaii. Comments were submitted by the Judiciary.

The DOT is responsible for the collection, evaluation, and use of traffic accident data under the federally-mandated Highway Safety Improvement Program. The DOT has been reluctant to enhance the collection and evaluation of traffic accident data because of potential exposure to liability. This measure affords a degree of protection to the DOT from lawsuits.

Federal law under 23 United States Code section 409 prohibits the discovery and admission of such analyses and data. However, this has precipitated much litigation as to the scope of the law. In Hawaii, plaintiffs have been successful in persuading the trial courts to circumvent the federal law based upon specious arguments. This measure is intended to close loopholes in the federal legislation which has been commonly based on the fact that Hawaii has no state highway patrol and that traffic data is collected by the DOT instead.

Your Committee has amended this measure to clarify that the release of information and data collected are not prevented by the public records law.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 689, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 689, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 253 (Joint) Human Services and Health on S.B. No. 40

The purpose of this measure is to authorize a minor's caregiver to be able to provide consent for health care services for the minor, and to establish requirements for a caregiver consent affidavit.

Testimony in support of this measure was submitted by the Department of Human Services, Kokua Council, Na Tutu – Grandparents Raising Grandchildren, Policy Advisory Board for Elderly Affairs, The Queen's Medical Center, and four individuals.

Your Committees find that difficulties can arise when grandparents or other caregivers try to obtain non-emergency medical care, absent documentation of legal guardianship. Research shows that early preventative medical services and follow-up is best for the health of children, and also eliminates or reduces the use of emergency medical services. Your Committees believe that if a minor's caregiver is able to provide written consent to health care services for a minor, it will result in better health of the minor and prevent later emergency, and possibly more costly, medical care.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 40 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 254 (Joint/Majority) Human Services and Health on S.B. No. 477

The purpose of this measure is to appropriate funds to the Department of Human Services to expand their QUEST/medicaid programs to provide periodontal care to pregnant women.

Testimony in support of this measure was submitted by the Hawaii Primary Care Association, Healthy Mothers, Healthy Babies Coalition of Hawaii, and six individuals. Comments were submitted by the Department of Health.

Your Committees find that basic dental care is an essential health service. Inadequate oral health may result in heart problems, systemic infections, low birth weight, and poor outcomes for pregnant women. Specifically, periodontitis is a cause for concern among pregnant women because such infections produce byproducts and chemicals that reach the uterus and may cause premature births at a rate seven times greater than in women who do not have periodontitis. Your Committees note that premature birth can lead to serious consequences, is the leading cause of neonatal death, and can cause lifelong health problems such as mental retardation, blindness, chronic lung disease, and cerebral palsy. Your Committees believe that this measure will protect the health of the fetus and minimize other health consequences that can result from periodontitis.

Your Committees have amended this measure to limit the QUEST and medicaid benefits received under this measure to pregnant women enrolled in those programs to a maximum of \$500 per year per person.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 477, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 477, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 255 (Joint) Human Services and Intergovernmental Affairs on S.B. No. 486

The purpose of this measure is to appropriate funds for nonschool-hour programs for children and youth.

Testimony in support of this measure was received from the Department of Education, Office of Youth Services, Coalition for a Drug Free Hawaii, Community Alliance on Prisons, and Hawaii Youth Services Network.

Your Committees find that the importance of establishing safe, structured learning environments for children and youth during the out-of-school hours is crucial to increase supervision in the morning, afternoon, evening, weekend, and holiday hours. Such programs during nonschool hours prevent or reduce risk factors and establish and strengthen positive factors for youth. Thus, your Committees believe that appropriating funds for nonschool hours will help provide supervision and a constructive environment for Hawaii's children and youth.

Your Committees note that this bill appropriates funds for fiscal year 2005-2006; however, your Committees request that a two-year funding cycle be considered.

Your Committees have amended the bill by adding appropriation amounts and sources of funding for the Department of Education, Office of Youth Services, and the counties.

As affirmed by the records of votes of the members of your Committees on Human Services and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 486, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 486, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Hooser, Inouye, Kokubun, Nishihara).

SCRep. 256 (Joint/Majority) Human Services and Health on S.B. No. 865

The purpose of this measure is to provide a \$500 income tax credit for caregivers of “eligible care recipients”, require an annual report to the Legislature, and impose criminal sanctions for falsifying tax status. This measure also sunsets the tax credit after five years.

Testimony in support of this measure was submitted by an individual. The Healthcare Association of Hawaii and the Policy Advisory Board for Elder Affairs supported the intent of this measure with reservations. Comments were submitted by the Tax Foundation of Hawaii.

Your Committees find that, with Hawaii’s growing elderly population, the care of our seniors has become a serious problem. Unless families can afford expensive private care services for their elderly relatives, they are forced to care for them in their own homes. Further, families that provide long-term care for their loved ones within their homes, instead of placing them in costly institutional care, takes an emotional as well as a financial toll on the caregivers. Your Committees believe that incentives need to be provided for these caregivers to be able to continue providing long-term care for their loved ones.

Your Committees have amended this measure by making technical changes for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 865, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 865, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 257 (Joint/Majority) Human Services and Health on S.B. No. 1422

The purpose of this measure is to establish a 2.13% insurance premium tax on all health care plan premiums, remove the income cap on QUEST to cover 24,458 uninsured adults, add dental benefits for children and adults, raise SCHIP eligibility to 300% of the poverty level to add 2,874 uninsured children, and use the premium tax to fund QUEST/SCHIP costs.

Testimony in support of this measure was submitted by the Legal Aid Society and Hawaii Primary Care. Testimony in opposition to this measure was submitted by the Department of Human Services, the Department of Taxation, The Chamber of Commerce of Hawaii, The Employer’s Chamber of Commerce, Hawaii Medical Service Association, Kaiser Permanente, and Summerlin Life and Health Insurance Company unless amendments were made. Comments were received by the Hawaii Uninsured Project.

Your Committees find that Hawaii’s QUEST program goes a long way toward providing universal health coverage; however, the program cannot handle all eligible uninsured adults. A cap has been placed on participation in the QUEST program, thus leaving out an estimated 24,458 eligible uninsured adults. Your Committees believe that by raising the family income eligibility threshold from two hundred to three hundred per cent of the federal poverty level for Hawaii, an estimated 2,874 additional uninsured children can be covered. Your Committees further find that it is appropriate to establish and use the health insurance premium tax to assist the QUEST program and state children’s health insurance program to address the additional costs of covering uninsured adults and children.

Your Committees have amended this measure by adopting the amendment suggested by Summerlin Life and Health Insurance Company to expand the definition of managed care plan and exempt care plans from section 431:7-202, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1422, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1422, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 258 Human Services on S.B. No. 1513

The purpose of this measure is to appropriate funds for the Nursing Home Without Walls and Chore Services programs within the Department of Human Services in order to support and expand the level of elderly and disabled care services in Hawaii.

Testimony in support of the measure was submitted by the Department of Human Services, the Hawaii Disability Rights Center, and one individual.

Your Committee finds that the Nursing Home Without Walls and Chore Services programs are vital community-based programs which enable elderly individuals to be cared for in their home by highly skilled health care professionals. This innovative and unique

method of delivering important health care and support services is not only more cost-effective when compared to placement in a nursing home or other care facility, but also enables these individuals to remain integrated within their communities.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1513 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 259 Human Services on S.B. No. 1614

The purpose of this measure is to require the Department of Human Services to develop and implement a discount taxi program to provide transportation services for Hawaii residents who are elderly or disabled.

Testimony in support of this measure was submitted by the State Council on Developmental Disabilities, the Disability and Communication Access Board, and the National Multiple Sclerosis Society-Hawaii Division. Offering comments on the measure was the Department of Transportation Services for the City and County of Honolulu.

Your Committee finds that access to an affordable and reliable method of transportation is an important issue that confronts Hawaii's elderly and disabled populations on a daily basis. These individuals require a dependable mode of transportation that will not unduly drain their limited and fixed incomes. This pilot program will meet this critical need in the form of a public-private partnership between the Department of Human Services, the City and County of Honolulu, and private vendors in providing taxi services for elderly and disabled individuals throughout Honolulu, thereby allowing these individuals to continue with their daily life activities. The project requires an annual report to the legislature by the Department of Human Services and is repealed on June 30, 2010.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1614 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 260 Human Services on S.B. No. 1712

The purpose of this measure is to appropriate \$100,000 to the Hana Youth Center for general operations.

Testimony in support of the measure was submitted by the Vice-Chair of the Maui County Council, Alu Like, Hale Hulu Mamo, Hana Community Health Center, Kipahulu Ohana, and an individual. The Hana Youth Center submitted comments.

Your Committee finds that the Hana Youth Center provides a healthy environment where positive interactions and activities are promoted. The center particularly reinforces positive Hawaiian values and provides services to improve health, moral, and social habits. The funding in the measure would assist the center in much needed increases to their staffing and enhancement of their services.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1712 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 261 Human Services on S.B. No. 1772

The purpose of this measure is to require the Department of Human Services to annually identify employers of applicants for medical assistance programs and report them to the Legislature, which shall include costs of medical assistance to those applicants. The measure further requires the department to make these employers public without identifying individual applicants.

Testimony in support of the measure was submitted by the Department of Human Services, Hawaii State AFL-CIO, United Public Workers, ILWU Local 142, and an individual.

Your Committee finds that many employees at large companies are paid such low wages that they qualify for government subsidy programs. In many instances, the low wage earner is provided health care coverage through subsidy programs rather than their employer. Increasingly, some private employers have been passing along these business expenses to the public. This measure is intended to allow Hawaii to determine which employers are shifting their responsibilities to the taxpayers.

As a point of clarification, it is not the intent of this measure to require the department to implement new programs but rather to gather and process the information it currently collects.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1772 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 262 (Joint) Human Services and Health on S.B. No. 1872

The purpose of this measure is to authorize the issuance of special purpose revenue bonds to assist Palolo Chinese Home in financing the capital costs related to the expansion, construction, and rebuilding of its facilities.

Testimony in support of this measure was submitted by Palolo Chinese Home. Comments were provided by the Department of Budget and Finance.

Your Committees find that Palolo Chinese Home serves as a not-for-profit long-term care and residence for frail elders. The home also reaches out to the elderly in their own homes by providing adult day care, meal home delivery, and overnight respite services which allows many to remain in their own home while receiving support services. Palolo Chinese Home has raised seventy per cent of its capital campaign goal. Your Committees believe that Palolo Chinese Home will be able to complete needed construction of its campus as well as its Skilled Nursing and Assisted Living Units with the issuance special purpose revenue bonds.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1872 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 263 Education and Military Affairs on S.B. No. 1013

The purpose of this measure is to appropriate funds to the Department of Defense for veterans' newsletters.

The Department of Defense and two individuals submitted testimony in support of the measure.

Your Committee finds that thousands of veterans are unaware of what their full benefits are. At one time, a newsletter was being produced to inform them of these services. Currently, the Department of Defense lacks the funds and manpower to maintain either a website or newsletter. Your Committee acknowledges that it is imperative to inform veterans of their benefits, and providing a newsletter would accomplish this important function.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1013 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 264 (Joint) Education and Military Affairs and Higher Education on S.B. No. 1648

The purpose of this measure is to provide a \$1,000,000 appropriation for tuition assistance to National Guard and military reservists enrolled in degree programs at the University of Hawaii.

Testimony in support of the measure was submitted by the University of Hawaii and The Chamber of Commerce of Hawaii.

Your Committees find that previously approved funding levels for the tuition assistance program have been inadequate and adversely affect this service. The increased reliance on reservists has placed heavy demands on the Hawaii National Guard and local reserve units. This measure will assist in the recruitment and retention efforts to enable the National Guard to retain a force capable of meeting the needs of the State and nation.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1648 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Baker).

SCRep. 265 Education and Military Affairs on S.B. No. 1392

The purpose of this measure is to require the Department of Education to establish a Hawaii administrator standards task force to identify qualification standards for principals and vice-principals.

Testimony in support of the measure was submitted by the Department of Education, University of Hawaii, Hawaii Teacher Standards Board, and Hawaii Government Employees Association.

Your Committee finds that there is a growing need to review, reflect, and refocus efforts in recruiting and retaining the brightest and best administrators for the Department of Education. Employing quality administrators benefits students in many ways and enhances educational systems. This measure provides the assistance needed to review the standards for administrators.

Your Committee has amended this measure to clarify the composition of the task force by:

- (1) Adding a licensed educational administrator;
- (2) Requiring the administrators to be from the Department of Education; and
- (3) Changing the appointments of the administrators to also be appointed by the Speaker of the House of Representatives and President of the Senate.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1392, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1392, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

SCRep. 266 Education and Military Affairs on S.B. No. 766

The purpose of this measure is to grant any member of the armed forces while on active duty or deployed during a state or national crisis, a ninety-day period to file any required license renewal application.

Testimony in support of the measure was submitted by the Department of Defense, Department of Commerce and Consumer Affairs, The Chamber of Commerce of Hawaii, and two individuals.

Your Committee finds that approximately 2,100 soldiers from the Hawaii Army National Guard and 1,100 from the Army Reserve have been ordered to active duty. Efforts to support these brave men and women who serve our country away from their profession and regular employment should be considered. This measure provides a fair solution to those who hold professional or vocational licenses.

Upon further consideration, your Committee has amended this measure to extend the grace period to one hundred and twenty days and clarify that the extension is applicable to licenses that are also current but may expire before the grace period lapses.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 766, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 766, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 267 Education and Military Affairs on S.B. No. 1837

The purpose of this measure is to establish an income tax credit for employers that hire National Guard members.

Testimony in favor of the measure was submitted by the Department of Defense, Hawaii National Guard Enlisted Association, The Chamber of Commerce of Hawaii, and an individual. The Department of Taxation submitted comments.

Your Committee finds that many Hawaii residents who are National Guard members are continually being called to active military duty. These tours of duty may last up to eighteen months. The incentive in this measure will not only encourage employers to hire but continue the employment of their employees who are members of the Hawaii National Guard.

Upon further consideration, your Committee has amended this measure to:

- (1) Clarify that the tax credit specifically applies to employers who provide differential pay;
- (2) Exclude city, state, and federal employees; and
- (3) Make technical, nonsubstantive amendments.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1837, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1837, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 268 (Joint) Education and Military Affairs and Higher Education on S.B. No. 1394

The purpose of this measure is to appropriate additional funds for schools that serve larger populations of military dependent students, and require the University of Hawaii to establish a program for readmission to military members returning from a deployment.

Testimony in support of the measure was submitted by Department of Education, University of Hawaii, and an individual.

Your Committees find that military families have unique needs inherent with military vocations and circumstances of increasing deployments. This measure will provide the necessary additional services for military dependent students during this sensitive time.

Another educational issue that arises out of the increased deployment is the enrollment of military personnel in the University of Hawaii system. It would only seem appropriate that returning military personnel be granted readmission into the program to which they had been previously accepted. Your Committees understand that some University of Hawaii campuses have already established such programs and are currently studying the feasibility of implementing the process at all the campuses. However, there may be concerns in identifying such individuals. Thus, your Committees have amended this measure to include the following provisions:

- (1) To direct the returning military member to identify their situation to the respective registrar; and
- (2) To allow for readmission of returning military personnel who were accepted into a degree program but did not enroll due to the timing of their deployment.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1394, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1394, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 1 (Baker).

SCRep. 269 (Joint) Education and Military Affairs and Water, Land, and Agriculture on S.B. No. 972

The purpose of this measure is to authorize the Board and Department of Education to acquire all lands and facilities being utilized for public schools.

Testimony in support of the measure was submitted by the Department of Education and Land Use Research Foundation of Hawaii. The Department of Budget and Finance and three individuals submitted testimony in opposition.

Your Committees find merit in transferring the authority over public lands used for public school facilities to the Department of Education. As the State struggles with its financial budget, so does each of its agencies including the Department of Education. Granting authority to the department to determine the most productive use of public lands and facilities for public schools may be a viable option.

Upon further consideration, your Committees have amended this measure by replacing its provisions with language directing the Legislative Reference Bureau to conduct a study on the transfer of all lands and facilities used for public school purposes to the Department of Education.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 972, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 972, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 4 (Chun Oakland, English, Tsutsui, Hemmings).

SCRep. 270 Judiciary and Hawaiian Affairs on S.B. No. 911

The purpose of this measure is to clarify and define the public land trust and classify the various categories of revenue derived from this land trust that are to be used by the Office of Hawaiian Affairs for improving the conditions of Native Hawaiians.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs.

Your Committee finds that the State's obligation to native Hawaiians is firmly established in the Hawaii Constitution. This measure clarifies the State's constitutional obligation to native Hawaiians to effectuate the right of native Hawaiians to benefit directly from the revenue derived from the public land trust.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 911 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 271 Judiciary and Hawaiian Affairs on S.B. No. 923

The purpose of this measure is to give the Office of Hawaiian Affairs the authority to make all necessary and appropriate disbursements of its moneys.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs.

Your Committee finds that this measure is designed to give the Office of Hawaiian Affairs greater control in managing its financial resources. This measure enables the Office of Hawaiian Affairs to make disbursements of its moneys by issuing checks in its own name as well as depositing any of its moneys in any in-state or out-of-state banking institution.

Your Committee has amended this measure by making technical, non-substantive amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 923, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 923, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 272 Judiciary and Hawaiian Affairs on S.B. No. 1327

The purpose of this measure is to streamline and improve the administration and operation of the Crime Victim Compensation Commission, which administers the Crime Victim Compensation Special Fund.

Specifically, this measure:

- (1) Exempts the Crime Victim Compensation Commission special fund from assessments for central services expenses and departmental administrative expenses;
- (2) Allows the Crime Victim Compensation Fund to cover the costs of mental health care counseling and other related services to surviving family members when a family member is the victim of a crime that results in death; and
- (3) Authorizes the Department of Public Safety to garnish the wages of inmates to satisfy court-ordered crime victim compensation fees.

Testimony in support of the measure was submitted by the Crime Victim Compensation Commission, the Department of the Prosecuting Attorney for the County of Maui-Victim and Witness Assistance Division, and the Hawaii Chapter of Mothers Against Drunk Driving. Testimony in opposition to the measure was submitted by the Department of Budget and Finance.

This measure is designed to exempt the Commission's special fund from administrative expenses and assessments. The exemption enables the Commission to devote additional financial resources to victim compensation awards and helps the Commission achieve fiscal self-sufficiency.

This measure also enables the Crime Victim Compensation Commission to defray the expenses associated with providing mental health care services for surviving family members of the deceased victim and to garnish moneys received by an inmate to satisfy the victim compensation fee imposed by a court at sentencing.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1327 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 273 Judiciary and Hawaiian Affairs on S.B. No. 1328

The purpose of this measure is to make the crime victim compensation fee mandatory regardless of the defendant's ability to pay and to prioritize the order in which a defendant's court-ordered payments shall be made.

Testimony in support of the measure was submitted by the Crime Victim Compensation Commission, the Department of the Prosecuting Attorney for the City and County of Honolulu, and the Hawaii Chapter of Mothers Against Drunk Driving. Testimony in opposition to the measure was submitted by the Judiciary and the Office of the Public Defender.

Your Committee finds that the crime victim compensation fee is not being assessed on a regular basis against criminal defendants based solely upon a defendant's inability to pay the fee. This measure makes the crime victim compensation fee mandatory regardless of the defendant's financial resources or ability to pay. The measure also requires payment of fees in the following order of priority:

restitution, crime victim compensation fee, probation services fee, other fees, and fines. Your Committee further finds that the establishment of a priority system regarding the court-ordered fees that a defendant is responsible for paying ensures that the victim of the defendant's crime receives the first amount of compensation paid by the defendant.

Your Committee has amended this measure by:

- (1) Removing the requirement that makes the crime victim compensation fee mandatory for all criminal defendants regardless of the defendant's ability to pay; and
- (2) Imposing a \$10 increase in the compensation fees that a criminal defendant may be ordered to pay based on the type of criminal offense.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1328, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1328, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 274 (Joint) Education and Military Affairs and Water, Land, and Agriculture on S.B. No. 1814

The purpose of this measure is to authorize the Department of Education to assess and collect impact fees for school facilities.

Testimony in support of the measure was submitted by the Department of Education. The Governor and Honolulu Department of Planning and Permitting submitted comments.

Your Committees find that the Department of Education has been struggling with funding its various construction projects. Although there have been some advances in alleviating the number of the department's growing projects, other methods of funding are needed. This measure offers an alternative funding mechanism by authorizing the Department of Education to assess and collect impact fees by intergovernmental agreement with a county, as fair share contributions of developers for public school facilities construction.

In consideration of the Department of Education's testimony, your Committees have amended this measure by:

- (1) Deleting references to county approval of a needs assessment study;
- (2) Eliminating the establishment of the state educational impact fee trust fund;
- (3) Removing provisions allowing the department to negotiate with developers without an agreement;
- (4) Correcting references to multi-year agreements; and
- (5) Adding an appropriation section for the needs assessment studies.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1814, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1814, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 4 (Chun Oakland, English, Tsutsui, Hemmings).

SCRep. 275 (Joint) Health and Judiciary and Hawaiian Affairs on S.B. No. 1331

The purpose of this measure is to authorize the issuance of general obligation bonds for a capital improvement project for a substance abuse facility.

The Department of Public Safety submitted testimony in support of this measure.

Your Committees find that crystal methamphetamine (ice) is a dangerous drug that can cause increased heart rate and blood pressure, psychotic behavior, aggression, and paranoia. Long term ice use reportedly can lead to heart attack, stroke, and irreversible brain damage causing permanent mental disabilities. Ice use has increased to epidemic numbers in Hawaii, and the number of inmates with additions has increased proportionately. As of 2003, approximately two thousand six hundred and ninety male inmates (fifty-four percent) and three hundred forty-seven female inmates (fifty-two percent) were identified as being in need of substance abuse treatment.

Your Committees further find that the correctional system's total treatment capacity at any time is four hundred twenty-four inmates, which is only about fourteen percent of the three thousand thirty-seven inmates identified as needing substance abuse treatment. This measure authorizes general obligation bonds for designing, constructing, and equipping a new substance abuse treatment facility.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1331 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 1 (Tsutsui).

SCRep. 276 (Joint) Health and Judiciary and Hawaiian Affairs on S.B. No. 827

The purpose of this measure is to transfer the functions, authority, and employee positions of the Department of Public Safety relating to uniformed security employees and security contracts for the health facilities of the Hawaii Health Systems Corporation to the Hawaii Health Systems Corporation.

The Department of Public Safety and Hawaii Health Systems Corporation submitted testimony in support of this measure.

Your Committees find that currently the Department of Public Safety is contracted to provide the security for Maui Memorial Medical Center. All other Hawaii Health Systems Corporation facilities utilize private vendor-operated, contract security officers. This measure will transfer the functions, authority, and nine employee positions to Hawaii Health Systems Corporation. The transfer of this security force will facilitate more efficient supervision, management, and control of these security personnel for the center's administrative and operational requirements.

Your Committees note that Hawaii Health Systems Corporation is not contemplating replacing the civil service employees with contract employees upon their transfer.

Your Committees have amended this measure by making technical, non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 827, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 827, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 1 (Tsutsui).

SCRep. 277 Health on S.B. No. 1737

The purpose of this measure is to appropriate funds for Na Lei Wili Area Health Education Center's Grow Our Own Healers' Youth Program and Health Corps Hawaii.

The President and the Executive Director of Na Lei Wili Area Health Education Center (AHEC) submitted testimony in support of this measure. The Department of Health submitted comments.

Your Committee finds that Na Lei Wili AHEC has developed an excellent program for health careers recruitment on Kauai. The program is called Grow Our Own Healers and involves students from middle school through graduate school in the learning process. The year long program for high school students encourages the students to perform community service and hospital volunteer work while learning about the health professions. In the summer, a three week program is offered in which middle school students work alongside high school students, nursing students, and visiting medical, medical technology, nursing and social work students to learn about native healing methods, modern health techniques and healthy lifestyles. Na Lei Wili AHEC testified that at the end of the program more than ninety percent of the students surveyed reported that they want to pursue health careers.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1737 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 278 Health on S.B. No. 1687

The purpose of this measure is to create an exemption from the general excise tax for a management company that contracts to provide managerial and operational services to related companies that engage in the provision of medical services in order to facilitate the creation of an employee stock ownership plan.

The Legislative Information Services of Hawaii submitted testimony in support of this measure. The Tax Foundation of Hawaii and the Department of Taxation submitted comments.

Your Committee finds that taxation of reimbursements for salaries, wages, and benefits between related entities when they must reorganize their business structure to establish an employee stock ownership plan for the benefit of their employees often blocks the creation of employee stock ownership plans in Hawaii. As the Legislative Information Services of Hawaii testified, this measure removes an obstacle that otherwise makes it financially impossible to allow employees to take ownership of a company. Employee stock ownership plans benefit the overall economy by increasing employee morale and strengthening the companies that establish such plans.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1687 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 279 Health on S.B. No. 1228

The purpose of this measure is to include marriage and family therapy among the mental illness and alcohol and drug dependence benefits required for hospital and medical coverage offered under accident and sickness insurance policies and similar insurance products.

The YWCA of Kauai, Children's Justice Center of Maui, Ka Lima O Maui, Hale Ipu Kukui Alaka'i, Advocacy & Referral Ministry, the Bobby Benson Center, Catholic Charities Hawaii, Aloha House Maui, Ka Hale A Ke Ola Homeless Resource Center, the faculty of the Masters in Counseling Psychology program at Chaminade University, Church of the Crossroads, three members from Samaritan Counseling Center of Hawaii, and twenty-six individuals submitted testimony in support of this measure. Hawaii Medical Service Association submitted comments.

Your Committee finds that marriage and family therapists are licensed mental health professionals trained to diagnose and treat mental and emotional disorders within the context of an individual's relationships. Marriage and family therapists treat a wide range of serious clinical problems, including various forms of mental illness, alcohol dependence, and substance abuse issues. As some proponents noted, there are simply not enough professional mental health clinicians to meet the needs of Hawaii residents, and to exclude an entire category of highly trained mental health professional from billing for insurance reimbursement places a greater strain on an already burdened system. Inclusion of marriage and family therapy among the mental illness and alcohol and drug dependence benefits will provide greater access to mental health services to the presently under-served families of Hawaii.

Your Committee has amended this measure by making technical, non-substantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1228, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1228, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 280 (Joint) Transportation and Government Operations and Intergovernmental Affairs on S.B. No. 1484

The purpose of this measure is to enact a new law for maintenance of private roads.

Testimony in support of this measure was received from one individual.

This measure would require owners of private roads to maintain the road in good repair. These roads are most common in residential areas and are often very small, resembling driveways. The road is typically owned in common by the adjoining property owners. The problem of maintenance is assessing the costs to the owners who may disagree on their respective contributions. An additional problem is also in obtaining a mortgage on such properties. Your Committee has learned that mortgage lenders typically disqualify a mortgage applicant whose property fronts a private road if there is no written agreement on the responsibilities to maintain the road. Apparently disputes about the responsibility for maintenance could affect the value of the property and put the ownership of the property at risk.

Your Committees find that these provisions will provide a legal mechanism by which these issues can be resolved if the parties cannot come to an agreement.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1484 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 4 (English, Kanno, Nishihara, Whalen).

SCRep. 281 Judiciary and Hawaiian Affairs on S.B. No. 1058

The purpose of this measure is to establish a voter education program to promote participation in elections by encouraging voter registration, voter education, and voter turnout. This measure also appropriates funds to implement this program.

Testimony in support of the measure was submitted by the Office of Elections, the Office of the City Clerk for the City and County of Honolulu, and the League of Women Voters of Hawaii.

Your Committee finds that to increase voter participation in all elections, voters must not only be properly educated in regard to voter registration, but also encouraged to turn out and vote as part of a voter education program.

Your Committee has amended this measure in response to concerns voiced by the Office of Elections. The Office of Elections was concerned about being actively involved in encouraging eligible voters to turn out and vote as part of this voter education program. The Office of Elections believes that a voter education program should be focused on providing relevant information related to the “mechanics” of voting, such as how to vote, when to vote, and where to vote. The measure has been amended to remove language requiring the Office of Elections to “encourage” voter to turn out and register to vote as part of a voter education program. Instead the measure now requires the Office of Elections to enact a more general voter education program designed to promote voter participation in elections.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1058, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1058, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 282 Judiciary and Hawaiian Affairs on S.B. No. 1203

The purpose of this measure is to appropriate funds for the development and maintenance of former inmate reintegration programs by non-profit organizations in the community.

Testimony in support of the measure was submitted by the ACLU of Hawaii, the Community Alliance on Prisons, and five individuals. Offering comments on the measure was the Department of Public Safety and the Hawaii Paroling Authority.

Your Committee finds that there is a lack of adequate inmate reintegration programs in place when former inmates are released into the community. These community-based programs form a critical support network that provides access to an array of vital social services to former inmates, including job training, life development, and communication skills. Attaining and utilizing these skills are extremely important for these former inmates in not only avoiding the danger of recidivism, but in also providing them with the necessary “tools” to make a seamless transition in becoming contributing members of society.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1203 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 283 Judiciary and Hawaiian Affairs on S.B. No. 1325

The purpose of this measure is to enhance the security of electronic voting:

Specifically, this measure will:

- (1) Require that any electronic voting system used in any election in Hawaii generate a paper ballot that may be inspected and corrected by the voter before that voter’s vote is cast; and
- (2) Expand the scope of conduct actionable as election fraud to include individuals who knowingly design, alter, access, or program any electronic voting system that causes the system to record or tally votes inaccurately.

Testimony in support of the measure was submitted by the Office of the Governor, the Hawaii Democratic Party, the League of Women Voters of Hawaii, the Hawaii State Teachers Association, Safe Vote Hawaii, the Hawaii Disability Rights Center and eighteen individuals. The Office of Elections submitted comments on the measure.

Your Committee finds that as electronic voting systems increase in both use and popularity, adequate safeguards must be implemented to ensure that the votes of all eligible voters are not only counted, but also subject to verification by the voter. Unlike the current paper ballot system, most electronic voting systems do not generate or leave a verifiable paper trail that may be audited in cases of recounts or election challenges. By requiring electronic voting systems used in elections in Hawaii to generate paper ballots, your Committee finds that the convenient and cost effective method of electronic voting will also have the safety and security of the current paper ballot system.

Your Committee has amended this measure by making technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1325, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1325, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hee, Ihara).

SCRep. 284 Judiciary and Hawaiian Affairs on S.B. No. 1570

The purpose of this measure is to appropriate funds for community-based reintegration programs for female offenders transitioning from prison to the community.

Testimony in support of the measure was submitted by the Department of Public Safety, the ACLU of Hawaii, Hawaii Women Lawyers, the Community Alliance on Prisons, Ka Hale Ho`ala Hou No Na Wahine, and forty-seven individuals. Submitting comments on the measure was the Hawaii Paroling Authority.

Your Committee finds that there is a lack of adequate community-based programs for female offenders making the transition back into the community at the end of their prison terms. Community-based programs that are responsive to the emotional, psychological, educational, and employment needs of female offenders are critical to breaking the cycle of recidivism and ensuring the long-term success of these women in becoming productive and contributing members of society.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1570 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 285 Judiciary and Hawaiian Affairs on S.B. No. 1864

The purpose of this measure is to make an emergency appropriation out of the Judiciary's Computer System Special Fund for the Judiciary to defray unanticipated costs associated with the implementation of the Judiciary Information Management System (JIMS).

Testimony in support of the measure was submitted by the Judiciary. One individual offered comments on the measure.

Your Committee finds that the implementation of JIMS is a critical component of the Judiciary's ongoing effort to modernize its case tracking system which, in turn, will streamline court operations, allow the Judiciary to interface and share information with other state agencies, and increase accessibility to the courts in Hawaii. This emergency appropriation will allow the Judiciary to defray unexpected costs relating to purchase and installation of computer hardware and meet its targeted start up date for JIMS, thereby avoiding prolonged delays and additional costs.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1864 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 286 (Joint/Majority) Education and Military Affairs, Water, Land, and Agriculture and Intergovernmental Affairs on S.B. No. 950

The purpose of this measure is to require new century charter schools to comply with state land use laws and county zoning laws and be subject to audit and inspection by the Charter School Administrative Office.

The Charter School Administrative Office and Kamehameha Schools submitted comments on this measure.

Your Committees find that the current statute provides an exemption to new century charter schools from applicable state laws. Though the original intent of the exemption was to free these schools from statutory and regulatory requirements that tend to inhibit a school's ability to make appropriate decisions for its students, there have been complications resulting from conflicting interpretations of this exemption. As all other state agencies, including the Department of Education, are subject to state land use laws and county zoning ordinances, this measure clarifies that new century charter schools shall not be exempt from these requirements.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Water, Land, and Agriculture and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 950 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, 2 (Hogue, Slom). Excused, 6 (Baker, Chun Oakland, English, Kim, Tsutsui, Hemmings).

SCRep. 287 Education and Military Affairs on S.B. No. 1635

The purpose of this measure is to increase the amount of money deposited into the state educational facilities improvement special fund.

Testimony in support of the measure was submitted by the Department of Education. The Department of Taxation and Department of Budget and Finance submitted testimony in opposition to the measure.

Your Committee finds that the Department of Education's capital improvements backlog totals approximately \$3,000,000,000 while the repair and maintenance backlog is estimated at \$500,000,000. The state educational facilities improvement special fund is used to plan, design, acquire lands, construct, and maintain public school facilities and provide equipment and technology infrastructure.

Unfortunately, the current funding level of the special fund is not sufficient to reduce the backlog of projects. Increasing the amount deposited into the special fund will assist the department in providing safe and healthy educational environments.

A technical, nonsubstantive amendment was made to conform to legislative drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1635, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1635, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 288 Education and Military Affairs on S.B. No. 1389

The purpose of this measure is to appropriate funds to the Hawaii 3R's school repair and maintenance fund and to the Department of Education for funding the Hawaii 3R's coordinator position.

Testimony in support of this measure was submitted by the Department of Education, the Department of Accounting and General Services, Makakilo Elementary School, the Hawaii Government Employees Association, Hawaii 3R's, the American Society of Civil Engineers, the General Contractors Association of Hawaii, Durus International Corporation, America's Promise Hawaii: The Alliance for Youth, and seven individuals.

Your Committee finds that the backlog of repair and maintenance projects in public schools continues to be of concern and that all means of addressing the problem should be explored and supported. The Hawaii 3R's program is comprised of volunteer workers from the military, public schools, community organizations, and trade unions who have united under one common cause - to tackle the backlog of repair and maintenance projects in Hawaii's public schools. Since 2001, Hawaii 3R's has saved the State money by completing repair and maintenance projects at our schools that ordinarily would be done exclusively with state funds and resources. It is an extremely cost-effective program. This measure appropriates funds to support Hawaii 3R's efforts of expediting the repair and maintenance of Hawaii's public schools, including the appropriation of funds to provide for a coordinator position.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1389 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 289 Education and Military Affairs on S.B. No. 1817

The purpose of this measure is to authorize the Department of Education to conduct criminal history record checks of providers, subcontractors, and institute of higher education trainees who work or train in close proximity to public school students.

Testimony in support of the measure was submitted by the Department of Education, Department of Human Resources Development, Hawaii State Teachers Association, and Hawaii Youth Services Network.

Your Committees find that state public employment laws require that all applicants and employees be of responsible and reputable character. While the Department of Education has procedures in place that address criminal history record checks for teachers and other employees who work in close proximity to children, it does not cover all department personnel. This measure will extend the coverage for individuals who may not necessarily be employees of the State, but who have contact with school children.

A technical, nonsubstantive amendment was made to conform to legislative drafting style.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1817, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1817, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 290 Education and Military Affairs on S.B. No. 1659

The purpose of this measure is to enable the Department of Education charter schools to receive federal grant monies under the Individuals with Disabilities Education Act.

Testimony in support of the measure was submitted by the Department of Education and Governor.

Your Committee finds that in order to ensure that a parent or guardian is part of the team to determine programs and services for a student with a disability attending a public charter school, section 302A-1188, Hawaii Revised Statutes, must be aligned with the federal Individuals with Disabilities Education Act. The alignment will further ensure that the State will continue to receive federal grant monies to assist each student to receive an appropriate education.

After further discussion, your Committee has amended this measure by providing that if the new century charter school is unable to provide required services, the department shall provide the services according to the student's individualized educational program or parents. Technical, nonsubstantive amendments were also made.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1659, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1659, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 291 Education and Military Affairs on S.B. No. 1396

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the repair and maintenance of state educational facilities.

Testimony in support of the measure was submitted by the Department of Education and the General Contractors Association of Hawaii.

Your Committee finds that the Department of Education has a longstanding backlog of repair and maintenance projects. Over the years, a number of funding mechanisms have been implemented to assist the department in lowering the list of projects. This measure attempts to further reduce the backlog by appropriating additional bond funding at a time when the municipal bond interest rates are at an all time low and would be a prudent fiscal policy.

Your Committee feels that strong efforts must be made to assist in the reduction of the project backlog and therefore has increased the bond appropriation to \$200,000,000.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1396, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1396, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 292 Education and Military Affairs on S.B. No. 1644

The purpose of this measure is to provide additional funding to new century charter schools for maintaining their facilities and allowing them to access state land and facilities.

Testimony in support of the measure was submitted by Hookakoo Corporation, Kamehameha Schools, Kalau Ku Mana, Waimea Middle School, and Kualapuu Elementary School. The Charter School Administrative Office, Department of Education, and Governor submitted comments.

Your Committee finds that many states have provided their charter schools with funding programs for facilities maintenance, and have authorized the use of unused state buildings and lands by the schools. This measure implements similar programs in Hawaii.

Recently, the Department of Accounting and General Services reported that an average of \$50,000,000 was spent each year to prevent the increase of public school repair and maintenance projects. Approximately one hundred eighty thousand students are enrolled in public schools. By dividing this annual repair and maintenance figure by the public school enrollment figure, it can be determined that the Department of Education spends approximately \$300 per pupil for basic level repair and maintenance. Your Committee finds this figure to be a reasonable amount to allot to new century charter schools for their facilities.

Your Committee has amended this measure by clarifying the per pupil facilities amount and purpose section.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1644, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1644, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 293 (Joint) Education and Military Affairs and Energy, Environment, and International Affairs on S.B. No. 1662

The purpose of this measure is to appropriate funds to the Department of Education to develop a plan to provide air conditioning in all public school facilities within ten years and incorporate the use of energy conservation initiatives throughout the department's facilities.

Testimony in support of the measure was submitted by the Department of Education and Hawaii State Teachers Association.

Your Committees find that providing a quality learning experience is enhanced when distractions are kept at a minimum. Providing air conditioned classrooms and facilities will assist students in remaining focused during their educational instruction. This measure will provide funding for the department to plan for future installation of air conditioning throughout the public schools. Further, your Committees find that the department should be more environmentally conscious; this measure therefore encourages energy conservation measures in the public schools.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1662 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 294 (Joint) Commerce, Consumer Protection and Housing and Transportation and Government Operations on S.B. No. 72

The purpose of this measure is to make permanent the exemption from the rental motor vehicle surcharge tax for vehicles being rented to replace a vehicle under repair.

The Department of Transportation testified in support of the measure. The Department of Taxation presented comments on the measure.

Current law establishes a daily surcharge tax against a lessor on the rental of a motor vehicle. The law also provides that during an eight-year period that ends on August 31, 2007, no surcharge shall be assessed on a vehicle that is being rented by the lessor to replace a vehicle of the lessee that is under repair, subject to the lessor's retention of the repair order for four years for verification purposes.

This measure makes the exemption permanent by repealing its sunset date. Your Committees find that this measure will not result in a revenue loss to the State.

Your Committees have amended this measure to correctly reflect the language of the Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 72, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 72, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 5 (Hee, Ige, Kanno, Sakamoto, Whalen).

SCRep. 295 (Joint) Commerce, Consumer Protection and Housing and Transportation and Government Operations on S.B. No. 982

The purpose of this measure is to appropriate moneys to retrofit public buildings for the purpose of increasing the number of emergency public shelters.

The Department of Defense (DOD), Hawaii Hurricane Relief Fund (HHRF), Structural Engineers Association of Hawaii, and an individual testified in support of this measure.

Your Committees find that currently the State has an emergency shelter shortfall of 124,000 spaces. The funds appropriated under this measure would help to reduce this shortage by enabling the DOD to retrofit buildings at thirty-two facilities throughout the State, including twenty-nine schools and three community centers.

Your Committees have amended this measure:

- (1) By deleting the appropriation from the HHRF to the General Fund since interest income from the Hurricane Reserve Trust Fund is already transferred and deposited into the General Fund;
- (2) To require that buildings designated to be retrofitted are accessible to the general public; and
- (3) By making a technical amendment for the purpose of style.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 982, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 982, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 5 (Hee, Ige, Kanno, Sakamoto, Whalen).

SCRep. 296 Higher Education on S.B. No. 1747

The purpose of this measure is to appropriate \$900,000, to the University of Hawaii for the repair, maintenance, and operation of the Harold L. Lyon Arboretum.

Your Committee received testimony in support of this measure from the University of Hawaii, Lyon Arboretum, University of Colorado Museum-Botany Section, Sierra Club, Na Leo Pohai, Hoomaluhia Botanical Garden, Hawaii Tropical Botanical Garden, Floribunda Palms & Exotics, the Steering Committee of the Lyon Arboretum, and fifty-four individuals.

Lyon Arboretum, established in 1918, consists of 193.5 acres in upper Manoa valley. It may be the only biological field research facility in a tropical rainforest owned and operated by a university in the United States. It is a repository for rare and endangered native Hawaiian plants, an educational program for children and adults, and a teaching and scientific research resource for the University. Testimony presented described Lyon Arboretum as a "rare botanical life boat," a "valuable asset," a "crown jewel," a "botanical gem in the heart of Honolulu," a "precious and delicate watershed."

The December 2004 State Auditor report admonished the University on its failed obligations to be proper stewards and the University's neglect led to mismanagement, lack of financial support, physical deterioration of the facilities, and serious safety and compliance problems.

This measure is intended to appropriate funds that are essential to the restoration of Lyon Arboretum's infrastructure. Your Committee finds that Lyon Arboretum is a resource of great value and is at the forefront of efforts to conserve and restore the highly-endangered flora of Hawaii.

Your Committee has amended this measure by appropriating \$900,000 for each year of the biennium.

The Committee's approval of this measure is a bold first step to allow Lyon Arboretum to recover from years of neglect and to grow towards its full potential and responsibility to our students, the State and the scientific community as well as to future generations.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1747, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1747, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Chun Oakland).

SCRep. 297 Higher Education on S.B. No. 1787

The purpose of this measure is to appropriate funds to establish a University of Hawaii-West Oahu university center in Kapolei or Waianae.

Your Committee received testimony in support of the measure from the University of Hawaii-West Oahu.

Your Committee finds that university centers were established to provide access to higher education services in geographic areas without baccalaureate-granting campuses. Any of the ten campuses in the system can provide degree programs using the services provided by the respective center.

There is a good reason to consider an establishment of a University Center in western Oahu. Given the traffic congestion, any services that can be provided without requiring students to drive to the Manoa campus would be advantageous. Currently, Leeward Community College supports an education center in Waianae. The establishment of a university center in Kapolei that would be affiliated with University of Hawaii-West Oahu would be the first step in fulfilling the promise to deliver a full range of educational opportunities to the region.

Your Committee further finds that there is a need to establish university centers in communities that otherwise lack access to programs offered elsewhere in the University of Hawaii system. Your Committee further finds that a university center, either in Kapolei or Waianae, would provide students with educational opportunities that they would not be able to attain because they do not have the means or the transportation to attend the Pearl City or the Manoa campus.

Your Committee has amended this measure by making an appropriation of funds of \$1.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1787, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1787, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Chun Oakland).

SCRep. 298 Higher Education on S.B. No. 1188

The purpose of this measure is to authorize the issuance of general obligation bonds for capital improvement projects for the design and construction of temporary facilities at the University of Hawaii-West Oahu.

Your Committee received testimony in support of the measure from the University of Hawaii-West Oahu (UH).

In March 2003, a re-accreditation team of the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges visited the UH-West Oahu campus and a Formal Notice of Concern was issued to the UH with a finding that the academic infrastructure was insufficient.

This measure is intended to rectify the plant deficiencies problem of the UH. Your Committee finds that the two new portable buildings will not be covered by the allotted funds and additional moneys are needed to cover the increased costs of the materials and to address health and safety issues. The two portable buildings are urgently needed for current staff as well as anticipated new staff. At this time, storage areas have been converted to office space and staff members are doubled up in cramped spaces. These temporary facilities are necessary because no construction of permanent buildings for the new campus are expected to be completed prior to 2008. Faculty and staff at West Oahu need to use these temporary facilities now and for the immediate future.

Your Committee has amended this measure by changing the effective date to July 1, 2020 to continue discussions on this measure.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1188, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1188, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Chun Oakland).

SCRep. 299 Higher Education on S.B. No. 1164

The purpose of this measure is to appropriate funds for faculty positions for Ilokano, Filipino, and Philippine studies at the University of Hawaii at Manoa.

Your Committee received testimony in support of this measure from the University of Hawaii (UH), UH Department of Hawaiian and Indo-Pacific Languages and Literature, GUMIL Oahu, and seventy-nine individuals.

Your Committee finds that funding and positions are urgently needed to stabilize the Philippine studies program. Your Committee further finds that there is a compelling need to increase the number of classes for the growing number of Filipino and non-Filipino students interested in Philippine studies and Philippine languages.

The UH has the largest number of students on any United States campus taking a Philippine language and is the only institution that offers a Bachelor of Arts degree in Philippine language and literature. Filipino students and other faculty expressed concern in recent semesters because some courses in Filipino and Ilokano were not regularly offered by lecturers or instructors. The UH Philippine Studies Center, part of the School for Hawaiian, Asian and Pacific Studies is well known locally, nationally, and internationally for scholarship and research of faculty who teach in various Manoa academic departments, such as ethnic studies, American studies, education, history, sociology, and political science.

Your Committee has amended this bill by inserting \$250,000 to fund three faculty positions for Ilokano, Filipino, and Philippine studies and one vacant Filipino language position at UH and curriculum development and instruction for other campuses.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1164, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1164, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Trimble).

SCRep. 300 Higher Education on S.B. No. 1160

The purpose of this measure is to make an appropriation to the University of Hawaii (UH) for all campuses to increase diversity of and student success by promoting additional student support services for students with disabilities, underrepresented groups, single parents on welfare, and other non-traditional students.

Your Committee received testimony in support of this measure from the University of Hawaii, University of Hawaii Women's Center, University of Hawaii Lesbian, Gay, Bisexual and Transgender Student Services, XYZ: Gay-Straight Alliance at UH Manoa, the Honolulu Community College Skills Center and five individuals.

Your Committee finds that this measure would strengthen and expand programs that serve students who are under-represented and under-served, including students with disabilities and various ethnic groups. Your Committee further finds that the campus programs promoting diversity and programs for under-represented students, students with disabilities, and under-served groups would assure the success of these students as they would be able to remain in school and eventually graduate.

Programs at the UH system and campuses need to be expanded to increase the number of underrepresented ethnic groups and to support other groups that contribute to campus diversity. The Board of Regents policy on non-discrimination and affirmative action states "[T]he University is committed to a policy on non-discrimination on the basis of race, sex, age, religion, color, national origin, ancestry, court records, sexual orientation, or veteran status."

This measure is consistent with the University's strategic goals on access and social justice as well as federal, state and university policies on non-discrimination and affirmative action. Your Committee believes that inclusion and diversity contributes to a rich academic environment and workforce development.

Your Committee has amended this measure by inserting the sum of \$2,500,000 for seventeen positions for all campuses.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1160, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1160, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Trimble).

SCRep. 301 Higher Education on S.B. No. 1159

The purpose of this measure is to make an appropriation for funding and positions for the expansion of the ethnic studies, labor history, and diversity curriculum for all of the University of Hawaii campuses.

Your Committee received testimony in support of this measure from the University of Hawaii Ethnic Studies Department and two individuals.

Your Committee finds that students on all of the campuses of the University of Hawaii system will benefit from the various ethnic studies, labor history, and diversity curriculum. Your Committee further finds that ethnic studies classes are unique in that the program emphasizes active community participation in local communities.

As an example, the Hawaiian Studies program at the University of Hawaii at Manoa was founded in 1980 and became a full-fledged academic department in 1987, and the ethnic studies program was founded in 1970 and became a full-fledged academic department in 1995. The ethnic studies program provides instruction, research, and community service on race, ethnicity, and class in Hawaii as well as comparative studies of groups in the United States and around the world. Ethnic studies classes are unique in that the program emphasizes praxis, or active community participation in local communities. Ethnic studies believes in community service, ongoing interaction with local communities on the basis of a two-way exchange of learning and information, and the use of undergraduate students as peer teaching assistants. Ethnic studies faculty have special expertise in the history of Native Hawaiians, Japanese, Chinese, Koreans, Filipinos, African Americans, Native Americans, and Caucasians. Areas needing additional development include Samoans and other Pacific islanders, Laotians, and Vietnamese in Hawaii.

Your Committee has amended this bill by making an appropriation of \$300,000 for five faculty positions and student employment funds to develop and offer additional courses in ethnic studies, including Hawaiian studies, as well as labor history and diversity curriculum at all campuses of the University of Hawaii.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1159, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1159, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Sakamoto).

SCRep. 302 Higher Education on S.B. No. 1063

The purpose of this measure is to appropriate funds for a tropical golf course and landscape management program at the University of Hawaii.

Your Committee received testimony in support of this measure from American Society of Landscape Architects – Hawaii Chapter, Ko Olina Resort & Marina, Hawaii Island Landscape Association, Hualalai Resort, Kauai Nursery & Landscaping, Inc., Irrigation Hawaii Limited, JKMD, Inc., Puanani Landscape/Maintenance, Inc., and one individual. The Department of Agriculture and the University of Hawaii (UH) college of tropical agriculture and human resources (CTAHR) supported the intent of this measure.

Your Committee finds that Hawaii's unique climate, soils, and environment present obstacles for local golf course management because the needs of tropical golf courses differ from conventional courses in temperate climates. The lack of expertise has created a shortage of local experts in this field. Your Committee further finds UH can address this shortage of local expertise by establishing a tropical golf course and turfgrass management program and by hiring individuals with tropical golf course expertise for two faculty positions.

Your Committee has amended this measure by:

- (1) Specifying an appropriation of \$1 to develop a program of tropical golf course and landscape management; and
- (2) Adding the contents of S.B. No. 1064 to this measure, designated as Part II, to appropriate \$250,000 for fiscal years 2005-2006 and 2006-2007 to enable CTAHR's department of natural resources and environmental management to hire two faculty members with expertise in resource management and conservation.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1063, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1063, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Trimble).

SCRep. 303 Higher Education on S.B. No. 997

The purpose of this measure is to authorize the issuance of \$30 million in general obligation bonds to provide for the infrastructure of the University of Hawaii's West Oahu campus development.

Your Committee received testimony in support of the measure from the Acting Chancellor of the University of Hawaii-West Oahu, the University of Hawaii Professional Assembly, and the Estate of James Campbell. Your Committee received testimony in opposition to the measure by one individual.

Your Committee finds that the issuance of general obligation bonds for this capital improvement project would enable the University of Hawaii at West Oahu to go forward with plans to build a new campus in Kapolei and serve as an incentive for any public-private development partnerships.

Your Committee finds that since 1976, governors, legislators, and university presidents have talked about building a four-year college in West Oahu. A generation of students has harbored the dream of a West Oahu campus while taking classes in a Manoa warehouse, in rented rooms in an Aiea commercial building, and in portable buildings squatting on either end of the Leeward Community College campus in Pearl City. The promise of a permanent campus has been made and broken repeatedly. Mr. President, this year your Committee has the commitment, the wherewithal, the funds, – the responsibility to make this dream come true and make good on all broken promises.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 997 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Chun Oakland).

SCRep. 304 Higher Education on S.B. No. 948

The purpose of this measure is to authorize the Board of Regents of the University of Hawaii to enter into contracts with private entities for the construction of facilities, university projects, and university systems, particularly to expedite the construction of a four-year West Oahu campus, a new cancer research center, and additional student housing at the Manoa campus.

Your Committee received testimony in support of the measure from University of Hawaii, University of Hawaii Professional Assembly, and University of Hawaii Capital Improvement Projects Department. The Hawaii Government Employees Association Bargaining Unit 8 supported the intent of the measure but raised concerns regarding privatization.

Your Committee finds that having the University of Hawaii Board of Regents enter into contracts with private partnerships needs additional discussion. In particular, your Committee is concerned about state liability for potential breaches of contracts by the Board of Regents, open and honest negotiations with private vendors at a public hearing, and whether or not the Board of Regents' efforts would lead to privatization of government services.

Your Committee has amended the bill by changing the effective date from upon approval to July 1, 2020, to allow time for further discussion.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 948, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 948, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Chun Oakland).

SCRep. 305 Higher Education on S.B. No. 581

The purpose of this measure is to provide tuition refunds at the University of Hawaii (UH) for qualified children of certain rescue and emergency personnel, law enforcement, and military personnel killed in the line of duty or declared prisoners of war or missing in action.

Specifically, the measure provides tuition refunds to:

- (1) Rescue and emergency personnel;
- (2) Members of the Hawaii National Guard or military reserve who are called into active duty; and

- (2) Active duty military personnel, who are unable to attend college for more than sixty days in a semester as a result of their military duties.

Your Committee received testimony in support of this measure from two individuals. Your Committee received comments from the Department of the Defense and the UH.

Your Committee finds that this measure will assure that the sacrifice of a public servant's life is recognized, and that their children will be partly compensated for the loss of a parent by receiving the financial support for college that this parent could have provided.

Your Committee finds that the war in Iraq and the epidemic of "ice" in Hawaii have increase the chances that our law enforcement and military personnel may have to sacrifice their lives in the line of duty. The tuition refund here is a small but significant effort by the State to assist the families of those who die, become prisoners of war, or are declared missing in action in the line of duty. Your Committee also finds that the tuition refund for military personnel who are mobilized and miss significant portions of the semester is appropriate.

Testimony of the UH indicates that it recognizes the significance of the contribution made by members of law enforcement and military personnel and the importance of their safety to the service of citizens. The UH currently provides refunds at the request of members of the Hawaii National Guard and military reserve who are called to active duty, as well as military personnel already on active duty who are unable to attend college due to military obligations. The UH has the authority to provide these refunds and has consistently done so. Any monies refunded are limited to those paid by the student out-of-pocket and do not include third-party payments, such as financial aid from the federal government.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 581 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Baker, Sakamoto).

SCRep. 306 Higher Education on S.B. No. 667

The purpose of this measure is to make an emergency appropriation of \$25,000,000 to pay for unanticipated flood losses that were incurred as a result of the October 30, 2004 Manoa flood.

Your Committee received testimony in support of the measure from the University of Hawaii (UH) and University of Hawaii Professional Assembly.

This measure is intended to rectify the losses incurred and damages suffered by the UH in the recent severe Manoa floods. On October 30th, 2004 a flash flood ripped through the University of Hawaii at Manoa campus. A four-foot high wall of water hit the Biomedical Sciences building on the Manoa campus, flooding that building the physical plant (Auxiliary Services) buildings, the PBRC, Ag Sciences III and an adjoining warehouse. The Institute for Biogenesis research and first floor of Biomed were inundated with water – over the tops of lab benches – and the auditorium flooded. The main transformer blew, melting the main electrical supply cable to the electrical substation, and setting off sprinklers on the first floor.

The ground floor facilities of Hamilton Library Phases I and II – the map and photo collections, the government documents repository, and the Library and Information Science offices and classrooms - were completely flooded to the ceilings. Walls and wiring were torn out and the collections, books, and periodicals, housed there were destroyed. The library's subbasement – where mechanical and electrical equipment was located – was submerged. In the worst parts of the flood path the landscape was gouged out and large holes were tunneled into the ground.

In all, power was interrupted to thirty five buildings, with Agricultural Sciences III, Biomedical Sciences, Sherman Lab and Hamilton Library sustaining enough infrastructure damage to require isolation from the main electrical circuits before the rest of the campus could be powered up again. Critical research and animal care areas were of paramount concern, while 3,000 pounds of dry ice was distributed to preserve samples and other materials that needed to be kept cold or frozen. The quick response of faculty and administration helped to stabilize the campus, limit losses, and restore operations in a timely fashion. Cleanup proceeded with faculty, students and community volunteers all pitching in. Library collections were placed in freezer trucks supplied by Matson and Horizon Lines, so they could be preserved. Humidity problems and mold blooms were addressed by removing wet and muddy carpet and with dehumidifiers and fans, but these had limited effectiveness in buildings that lacked power and air conditioning.

Temporary offices and accommodations for research faculty at alternate sites are currently a high priority while plans to restore the operational environment are ongoing. Mold has been a continuing problem with abatement a high priority in areas that did not receive priority during the immediate recovery. Rains the following weekend knocked power out again, requiring further emergency services for research areas, and emergency generation for several facilities on campus.

A specialist disaster remediation team was hired over the November 6-7 weekend to help reduce humidity and conduct an intensive cleanup in four power-isolated buildings. Some buildings were still without permanent power – including Biomedical Sciences and Hamilton Library. Classes scheduled in these buildings – and some others - have been relocated.

Your Committee finds that the catastrophic damages suffered and the loss incurred from the October 30, 2004 floods have had a major impact on the services the University is able to provide for students, researchers, and the public. In order to replace documents and books as well as restore and renovate the University of Hawaii, an emergency appropriation and an increase in the ceiling of the

state risk revolving fund is vital. Without an increase of the ceiling of the state risk revolving fund, the fund will not be able to repay the general fund for the amounts provided to the University of Hawaii for the flood repairs.

Your Committee has amended this measure by inserting an appropriation of \$25,000,000 general revenues for the cleaning, repairing, or replacing of damaged or destroyed university property and for reimbursing the University of Hawaii for funds that have already been spent for those purposes.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 667, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 667, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Inouye).

SCRep. 307 (Joint) Higher Education and Judiciary and Hawaiian Affairs on S.B. No. 1158

The purpose of this measure is to require the University of Hawaii to award partial to full tuition waivers to all Native Hawaiian and Hawaiian students throughout the University of Hawaii system.

Your Committees received testimony in support of this measure from the University of Hawaii Hawaiian Studies Program, Department of Education, Office of Hawaiian Affairs, the University of Hawaii Student Caucus, and Hawaiian Civic Clubs. Your Committees received testimony in opposition of this measure from two individuals. The Attorney General submitted comments on this measure.

The discrepancy between the number of Native Hawaiian students in public schools and the University of Hawaii (UH) is immense. According to Census 2000 statistics, Native Hawaiians account for 32.4 percent or approximately 59,677 of the 184,187 children in the public school system. The Native Hawaiian population in the State of Hawaii is approximately 20 percent or 239,655 of the 1,211,537 state population (Census 2000). Yet Native Hawaiians represent only 13.6 percent or 6,555 of the 48,173 students in the UH system. Tuition waivers will assist in lessening the gap in educational parity for Native Hawaiians.

In its report to the Governor and the Legislature in 1991, the Hui 'Imi task force on Hawaiian services found that Hawaiians consider a good education as a key to the ability to find high paying jobs and rewarding careers. The report also indicated that Native Hawaiians regard education as the key to self-sufficiency and self-determination, which is the key to leading the young Native Hawaiian population out of the cycle of dependency upon society and low self-esteem.

Your Committees find that it has become increasingly difficult for students of Hawaiian or part-Hawaiian ancestry to afford college tuition. Your Committees further find that it is necessary to offer tuition waivers to those qualified students within the UH system who are of Hawaiian ancestry.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1158 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Baker, Sakamoto).

SCRep. 308 (Joint) Higher Education and Judiciary and Hawaiian Affairs on S.B. No. 1398

The purpose of this measure is to establish two types of scholarships at the University of Hawaii:

- (1) Hawaiian language study scholarships for students studying the Hawaiian language; and
- (2) Teacher education programs for students who can demonstrate fluency in Hawaiian or in a non-English language used in the delivery of education to disadvantaged immigrant children in Hawaii public, charter, or laboratory schools.

Your Committees received testimony in support of this measure from the University of Hawaii Hawaiian Studies Program, University of Hawaii-Hilo, Department of Education (DOE), and University of Hawaii-West Oahu, and six individuals.

Your Committees find that the promotion of the study of Hawaiian language and the needs of students from non-native English backgrounds are essential to the State and that such promotion must be an integrated effort between lower and higher education.

Your Committees further find that the University of Hawaii needs to take bold action on behalf of promoting the Hawaiian language and the needs of students of non-native English background for the public schools.

Hawaiian is an official language of the State and the promotion of its study for all Hawaii public school students regardless of ethnicity is mandated by Article X, section 4 of the State Constitution. In addition, Article XII, section 7 reaffirms and protects traditional and customary rights relating to Hawaiian culture of which the language is a central component while Article IX, section 9 reaffirms the power of the State to preserve and develop the cultural arts of its various ethnic groups.

The DOE testified in support noting that section 4 of the bill highlights the non-discriminatory intent of the bill. The DOE further noted the positive benefits for Hawaii's children in the bill.

Your Committees note that, in his testimony, Dr. Kalena Silva of the University of Hawaii at Hilo stated that the dire effects of the major social and political events of 1893 that caused the extreme decline of the Hawaiian language and culture have not been fully addressed. Your Committees view scholarships for students studying Hawaiian as a way to promote the study of the Hawaiian language for all Hawaii's people in accordance with the constitutional mandate. Your Committees find that this measure is strengthened by its additional focus on service to the public schools by those receiving scholarships and its inclusion of fluent speakers of languages other than Hawaiian in such service to the public schools.

Your Committees have amended this measure by adding scholarships for graduate programs, with the same criteria as the teacher education programs. Your Committees have also made technical, nonsubstantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1398, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1398, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Baker, Sakamoto).

SCRep. 309 (Joint) Higher Education and Judiciary and Hawaiian Affairs on S.B. No. 1408

The purpose of this measure is to propose an amendment to article X, section 6, of the Constitution of the State of Hawaii to authorize the board of regents to issue general obligation bonds.

The Attorney General submitted comments on this measure.

Your Committees find that the University of Hawaii Board of Regents has been granted autonomy in the past that allows the Board of Regents to manage its own administration. In principle, although your Committees find the concept of authorizing the University of Hawaii to issue general obligation bonds appropriate, there are some concerns on the procedure and the legality of this proposition.

Your Committees find a need for more discussion regarding the Board of Regents' autonomy to issue general obligation bonds, and are passing out this measure to continue the discussion on this issue.

As affirmed by the records of votes of the members of your Committees on Higher Education and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1408 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Baker, Sakamoto).

SCRep. 310 Higher Education on S.B. No. 904

The purpose of this measure is to clarify and add certainty to the law relating to the University of Hawaii's authority to manage and control public activities on its lands.

Specifically, the measure provides express statutory authority to the University to allow it to adopt rules to enforce its authority on these lands, including the authority to set, charge, and collect fines for violations of its rules.

Your Committee received testimony in support of this measure from the University of Hawaii, the University of Hawaii Professional Assembly, and the Department of Land and Natural Resources.

Pursuant to the Constitution and statutes of the State of Hawaii, the University of Hawaii is vested with autonomous authority to control and manage its educational and proprietary affairs. This authority extends to the use and oversight of lands and real property owned, leased, or otherwise transferred from various owners, including state, federal, or private entities, to the University for the furtherance of its educational, research, and agricultural experimentation.

Your Committee finds that this autonomous authority should carry with it the necessary legal means to supervise, oversee, and permit public activities on those lands.

Your Committee finds that there needs to be further discussion to address concerns raised about the approval and authority granted to the University from the Department of Land and Natural Resources to manage and control activities on properties owned or possessed, the potential liability, type of violations, fees, and costs.

Your Committee has amended this measure by deleting the new language specifying that the Board of Regents may set, charge, and collect fines for violations with its rules; the maximum fee schedule; and the ability to assess the costs of related contested case hearings.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 904, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 904, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Trimble).

SCRep. 311 (Joint) Higher Education and Labor on S.B. No. 900

The purpose of this measure is to prohibit the State's annual contribution for any employee who elects to be a member of the University of Hawaii's optional retirement system from exceeding six per cent of the Internal Revenue Code federal tax limit on annual compensation, rather than six per cent of \$100,000. This measure also repeals the optional retirement system's sunset date.

Your Committees received favorable testimony from the University of Hawaii.

The University of Hawaii's testimony likened the increase in the maximum amount that the State would contribute for an employee under the optional retirement system as being on par with the contribution limit applied under the Employee Retirement System.

While this is true in words, this is false in its impact. Your Committees are concerned that requiring the State to contribute up to the federal tax limit has a much more significant impact due to the significant number of university employees making more than \$100,000 as compared with the rest of state government. For example, while the Governor of the State of Hawaii is paid \$94,780 the President of the University of Hawaii is paid over \$300,000.

Your Committees believes that while the application of the policy of using the federal tax limit sounds fair, its implementation will be much more costly than when applied to a typical state department. For instance, the University of Hawaii's report to the 2005 Legislature on "Salaries Paid to Executive/Managerial and Faculty Employees" reports that there are over four hundred forty employees whose annual compensation is over \$100,000.

Your Committees further believe that the University of Hawaii has sought and received a level of autonomy unparalleled with that of any executive branch agency. However, throughout the 2005 legislative session, it has become apparent that the University has used autonomy as an excuse not to be accountable for state funds appropriated in the past and reallocated over time. As such, university officials are unable to detail to the Legislature where general funds for various vacant positions have gone and for what reasons.

In light of this lack of accountability, your Committees have chosen to exercise caution and choose to maintain the maximum contribution the State will make to six per cent of \$100,000. It should be noted that current law requires the University to pay for any difference between the State's contribution and that to which the employee is entitled.

Finally, your Committees believe that more discussion is warranted to determine the financial impact to the State and the negative, if any, impact from maintaining the State's maximum contribution at six per cent of \$100,000. Therefore, your Committees have amended the effective date of this bill to be July 1, 2020.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor with reservations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 900, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 900, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 312 (Joint) Health and Human Services on S.B. No. 129

The purpose of this measure is to require community residential alternatives for persons with developmental disabilities or mental retardation to be in a setting of the person's choice if the person or the person's family and friends determine that the person can be sustained with supports, and the supports are attached to the person.

The Department of Human Services, the State Council on Developmental Disabilities, Hawaii Disability Rights Center, Kona Krafts, and two individuals submitted testimony in support of this measure. The Department of Health submitted comments.

Your Committees find that this measure was recommended by the Residential Settings Task Force after it was asked to identify issues and solutions regarding individuals with developmental disabilities and their choice of residential settings. This measure acknowledges a person's right to determine where the person wants to live and with who as long as supports are provided and those supports follow that person in the community. It directs the department to provide residential alternatives for these individuals and gives the individuals greater choice and participation in the process.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 129 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 313 (Joint) Health and Human Services on S.B. No. 869

The purpose of this measure is to allow an individual with developmental disabilities to receive unlicensed home and community based services.

The Department of Human Services, the State Council on Developmental Disabilities, Hawaii Disability Rights Center, The Arc of Kauai, Kona Krafts, and two individuals submitted testimony in support of this measure. The Department of Health submitted comments.

Your Committees find that services for individuals with developmental disabilities have evolved to allow consumers greater freedom of choice and an increased role in directing the implementation of services. The same should apply when fulfilling the housing needs of the developmental disabled. This measure gives an individual with developmental disabilities the right to make a choice to live in a home or to share a home that is not licensed as long as adequate supports are present.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 869 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 314 (Joint/Majority) Health and Human Services on S.B. No. 562

The purpose of this measure is to require the Department of Health to provide caregiver support services.

One individual submitted testimony in support of this measure.

Your Committees find that families, not institutions, are the primary providers of long-term care for older adults in the State. The need for personal care due to physical, sensory, cognitive, and self-care disabilities increases with age. By 2020, more than one in four individuals will be sixty years old or older. As Hawaii's population ages, many more families will be providing higher levels of long-term care to frail and disabled older adults at home. This measure recognizes that families are an important part of the solution to serious long-term care system problems and provides a mechanism to assist family caregivers and helps keep Hawaii's elderly out of costly institutional care.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 562 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 315 (Joint) Health and Human Services on S.B. No. 1713

The purpose of this measure is to promote improved patient care at Kalaupapa.

Specifically, this measure declares the Legislature's intent to ensure that all residents of Kalaupapa are treated with dignity, respect, courtesy, and sensitivity by the Department of Health. In addition, the measure requires the Department to ensure the residents' personal liberties, autonomy, and dignity.

Your Committees find that patient residents of Kalaupapa have endured many hardships and stigmas as Hansen's disease patients and deserve to be treated with respect. While the Department can assist in achieving this goal, your Committees find that the Department cannot completely ensure that residents of Kalaupapa are treated with dignity, respect, courtesy, and sensitivity in all of their life's interactions. Rather, the Department can only ensure appropriate treatment in the areas that it has control over and only for patient residents, rather than for all residents, of Kalaupapa.

Accordingly, your Committees have amended this measure to clarify the following:

- (1) The Legislature's declaration applies to all patient residents;
- (2) The Department of Health is to honor and uphold the protections extended under chapter 326, Hawaii Revised Statutes, to patient residents at Kalaupapa to the extent possible within their purview; and
- (3) The Department is directed to promote, rather than ensure, the personal liberty, autonomy, and dignity of all patient residents at Kalaupapa.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1713, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1713, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 316 (Joint) Health and Energy, Environment, and International Affairs on S.B. No. 12

The purpose of this measure is to reestablish a litter control office within the Department of Health.

Kokua Kalihi Valley and eight individuals submitted testimony in support of this measure. The Department of Health submitted testimony in opposition.

Your Committees find that when the State eliminated the Litter Control Office in 1995, the expectation was that private resources would be found to continue the work. However, as the proponents point out, on every island and in most communities litter remains a major problem. This measure will reestablish state leadership and support for community clean-up programs.

As affirmed by the records of votes of the members of your Committees on Health and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 12 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Hemmings, Whalen).

SCRep. 317 Human Services on S.B. No. 675

The purpose of this measure is to strengthen and improve the operations and administration of the State Child Support Enforcement Agency.

Specifically this measure:

- (1) Complies with federal statutory requirements relating to the issuance of, the calculation of income withholding for, obligor and obligee duties under, and enforcement issues relating to or arising under, a child support order; and
- (2) Streamlines the child support enforcement process administered by the Child Support Enforcement Agency with respect to service of process, notice relating to the termination of income withholding for child support orders, and identification of the type of information that may be disclosed at an administrative hearing conducted for child support purposes.

Testimony in support of the measure was submitted by the Department of the Attorney General.

Your Committee finds that this measure is designed to improve and streamline the operations of the Child Support Enforcement Agency with respect to the child support and child support enforcement process in Hawaii so that it satisfies applicable federal statutory requirements. Compliance with these requirements is critical to maintaining the State's eligibility for federal welfare funding and federal funding of child support enforcement programs.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 318 Human Services on S.B. No. 1196

The purpose of this measure is to establish a tax credit for employers who hire individuals with disabilities of twenty per cent of the qualified first-year wages for that year, not to exceed \$6,000.

Testimony in support of the measure was submitted by the State Council on Developmental Disabilities, Disability and Communication Access Board, Winners at Work, and The Chamber of Commerce of Hawaii. The Department of Taxation submitted testimony in opposition and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that despite the passage of the employment provisions of the Americans with Disabilities Act, individuals with disabilities are an underemployed population. In particular, finding employers for individuals with developmental disabilities is more difficult than for individuals with other physical disabilities or chronic health conditions. This measure provides an incentive to address the employment needs of individuals with disabilities.

Your Committee has amended this measure to clarify the definition of an "individual with disabilities".

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1196, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1196, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 319 (Joint) Human Services and Health on S.B. No. 1199

The purpose of this measure is to allow all licensed health care providers to share medical information with other licensed health care providers of children under the Child Protective Services System.

Testimony in support of this measure was submitted by the Department of Human Services and the Legal Aid Society of Hawaii.

Your Committees find that the sharing of information between licensed health care providers who provide services to children in child welfare cases is in the best interests of the child and will help to ensure that these children receive appropriate medical care. The sharing of medical information is necessary for children, especially if they move from one family to another. The ability of health care providers to freely share this information with other health care providers will allow children to have more consistent care.

Your Committees have adopted the amendment suggested by the Department of Human Services to verify the identity of the health care provider, and to share the information with the assigned child welfare services worker for inclusion into the child's care record.

As affirmed by the records of votes of the members of your Committees on Human Services and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1199, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1199, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hanabusa, Ihara, Whalen).

SCRep. 320 (Joint) Human Services and Commerce, Consumer Protection and Housing on S.B. No. 1854

The purpose of this measure is to authorize an increase in the maximum state rental subsidy from \$160 to \$300 per month.

The Housing and Community Development Corporation of Hawaii and Pacific Housing Assistance Corporation testified in support of this measure.

Currently, the maximum monthly stipend the State may pay to a housing owner on behalf of a tenant qualified under the State Rent Supplement Program is \$160 per month, an amount that has not changed since the program was established almost four decades ago in 1967.

This measure increases the maximum monthly stipend to \$300. Your Committees find that increasing the stipend will allow the program to provide more meaningful financial assistance to qualified tenants, especially the elderly, the disabled, and those on fixed incomes.

As affirmed by the records of votes of the members of your Committees on Human Services and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1854 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Espero, Ihara, Sakamoto, Trimble).

SCRep. 321 (Majority) Human Services on S.B. No. 1849

The purpose of this measure is to authorize a personal needs allowance for eligible care home residents.

Testimony in support of this measure was submitted by the Hawaii Disability Rights Center, the Kokua Council, and five individuals. Testimony in opposition to this measure was submitted by the Department of Human Services.

The Committee finds that this measure will help residents in care homes buy basic necessities such as clothing and toiletries, and help maintain at least a minimum level of independence and decision making. Your Committee believes that an increase in funding, which has not occurred since 1988, is necessary to assist individuals who live in care homes to purchase basic necessities and maintain their personal dignity.

Your Committee recommends an on-going evaluation of the measure to provide eligible care home residents with \$50 per month only if provider reimbursement rates also increase by \$50 plus an amount greater than the amount they are currently receiving.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1849 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Kokubun).

SCRep. 322 (Joint) Water, Land, and Agriculture, Media, Arts, Science and Technology and Energy, Environment, and International Affairs on S.B. No. 1692

The purpose of this measure is to address issues relating to bioprospecting by establishing a temporary bioprospecting commission.

Testimony in support of this measure was submitted by Life of the Land, Waikiki Hawaiian Civic Club, Women's Coalition, and two individuals. Testimony in opposition to this measure was submitted by the Department of Agriculture, Department of Business, Economic Development, and Tourism, Office of Hawaiian Affairs, and Hawaiian Alliance for Responsible Technology & Science. Comments were also submitted by the Office of Information Practices and the University of Hawaii.

Hawaii's biological diversity and biological resources are assets of the public trust and the general public. Your Committees find that these resources have a great potential for economic benefit in medicine, scientific research, biotechnology, and commercial development. If properly regulated, the potential benefit could create market-driven incentives and generate financial resources for the conservation and sustainable development of Hawaii's biological resources. Thus, this measure establishes a commission to develop a comprehensive plan for the preservation of biological diversity and biological resources as it relates to bioprospecting on public lands and in the state marine waters.

Further, because the Office of Hawaiian Affairs has a vested interest in Hawaii's biological diversity and biological resources, your Committees noted suggestions to have the Office of Hawaiian Affairs and other organizations contribute as a funding source to this measure.

Your Committees have amended this measure by:

- (1) Limiting the scope of the commission's plan to only bioprospecting;
- (2) Limiting the inventory of projects to only ongoing bioprospecting activities;
- (3) Changing the composition of the commission by:
 - (a) Increasing the number of commission members to fifteen;
 - (b) Requiring five Hawaiian members with a demonstrated background in traditional and customary use of biological or genetic resources, the preservation of biological or genetic resources, indigenous and traditional technologies, or scientific or legal procedures for the protection or commercialization of biological and genetic resources; and
 - (c) Requiring two members from the biotechnology industry;
- (4) Requiring the commission to hold "meetings" rather than "public hearings" to conform to chapter 92 requirements; and
- (5) Making technical, nonsubstantive stylistic changes.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Media, Arts, Science, and Technology and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1692, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1692, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Hanabusa, Ige).

SCRep. 323 (Joint) Water, Land, and Agriculture and Transportation and Government Operations on S.B. No. 1791

The purpose of this measure is to conduct a regional traffic flow study and perform a supplemental environmental impact statement for the Kakaako community development district area.

Testimony in support of this measure was submitted by the Hawaii Community Development Authority (HCDA) and three individuals.

Your Committees find that developments in the Kakaako area have increased, potentially creating greater traffic congestion in the area; however, the extent of the congestion still needs to be determined in order to resolve the traffic issues. This measure requires:

- (1) The HCDA to conduct regional traffic studies in the Kakaako and Kapiolani areas on Oahu; and
- (2) A supplemental environmental impact statement to be performed for the traffic study area.

Your Committees have amended this measure by:

- (1) Requiring HCDA to submit its written report to the Governor and the Legislature by December 31, 2006 rather than December 31, 2005; and
- (2) Deleting the dollar amount of the appropriation and has left it blank for the Committee on Ways and Means to determine at a later date.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1791, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1791, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 4 (Baker, English, Kanno, Hemmings).

SCRep. 324 Health on S.B. No. 1278

The purpose of this measure is to provide a tax credit for improvements made to federally qualified health centers.

The Healthcare Association of Hawaii and Hawaii Primary Care Association submitted testimony in support of this measure. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that Hawaii's federally qualified health centers, which are all not-for-profit Hawaii corporations, are in various stages of developing and improving their health care facilities. Federally qualified health centers are "safety net" primary health service providers serving predominantly uninsured, poor, and indigent people of Hawaii regardless of their ability to pay. A new federally mandated medical prospective payment system that began in 2001 for federally qualified health centers has effectively eliminated a mechanism for these centers to recoup costs associated with future capital improvements, thus severely limiting their ability to serve the public. This measure will provide a mechanism to help defray federally qualified health center capital costs without putting undue strain on the State's budget.

Upon further consideration, your Committee has amended this measure by lowering the threshold for the credit to \$150,000, and specifying that the amount of the qualified improvement tax credit shall be equal to:

- (1) Twenty-five percent of the qualified improvement costs incurred up to \$2,000,000;
- (2) Fifteen percent of the qualified improvement costs incurred that total between \$2,000,000 and \$5,000,000; and
- (3) Ten percent of the qualified improvement costs incurred that total \$5,000,000 or more.

Further, your Committee has amended this measure by deleting the proviso that each federally qualified health center's tax credit shall be limited to an amount totaling thirty-five percent of its total audited expenditures for its fiscal year ending 2005, or \$300,000, whichever is greater.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1278, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1278, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 325 Health on S.B. No. 122

The purpose of this measure is to delete certain provisions regarding records made in the regular course of business and statements made by persons in attendance at meetings of peer review committees or quality assurance committees that were previously exempt from the prohibition relating to discovery.

The Healthcare Association of Hawaii and Hawaii Pacific Health submitted testimony in support of this measure. Consumer Lawyers of Hawaii submitted testimony in opposition.

Your Committee finds that the law protects the proceedings and the records of peer review committees or quality assurance committees from discovery. However, it does not protect other information obtained in peer review from discovery. As the Healthcare Association of Hawaii noted in its testimony, the peer review process was established to improve patient safety by facilitating the development of the organizational changes that are needed to prevent medical errors. Without the protections provided by peer review, medical staff may fear sanctions being lodged against them and therefore they may not be forthcoming with the kind of information that leads to workable solutions. "Case review forums" are meetings convened by the administrative or professional staff of licensed hospitals and clinics for the presentation and critique of cases for educational purposes. This measure ensures that these forums are protected, as well.

Upon further consideration, your Committee has amended this measure by keeping the current law intact except for the addition of the definition of "case review forum" and for adding case review forum to the proceedings protected from discovery, and by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 122, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 122, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 326 Health on S.B. No. 1470

The purpose of this measure is to clarify that the practice of naturopathy includes the administration of natural medicine through the appropriate means, including injection.

The Board of Examiners in Naturopathy, the Hawaii Society of Naturopathic Physicians, and eight individuals submitted testimony in support of this measure. The Hawaii Medical Association, and three individuals submitted testimony in opposition.

Your Committee finds that according to the Board of Examiners in Naturopathy, the practice of naturopathy includes utilization of natural medicines using the appropriate route of administration, including injection. This proponent testified that the administration of natural medicine using injections is within the scope and practice of naturopathy as it is taught at naturopathic colleges, and students are clinically trained in the use of injections. Furthermore, applicants for licensure are required to take and pass a national examination that includes questions on the procedures for intravenous, intramuscular, and subcutaneous injections and vaccinations.

Upon further consideration, your Committee has amended this measure by changing the effective date to July 1, 2010, in order to facilitate further discussion on this issue.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1470, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 327 Health on S.B. No. 707

The purpose of this measure is to limit special damages claims in civil actions when such claims arise out of medical or other health care services paid for by a government program, such as Medicare or Medicaid.

The Attorney General submitted testimony in support of this measure. The Consumer Lawyers of Hawaii submitted testimony in opposition.

Your Committee finds that according to the Attorney General, special damages compensate claimants for specific out-of-pocket financial expenses and losses. An example is the medical expenses incurred by a claimant who was in an automobile accident, and needed treatment for injuries. If the claimant is liable for a sum to the hospital for medical services, our justice system would award that sum to the claimant as special damages.

However, recent decisions prohibit limiting special damages to the amount of out-of-pocket financial expenses and losses. An award is made based on the amount of the liability and not necessarily what was paid for the service. So for instance, if a medical provider bills the claimant \$5,000 but is required to accept a Medicaid reimbursement of a lesser amount, the claimant gets the difference between the billed amount and the collateral amount owed to Medicaid. According to the Attorney General, this results in an inequitable "windfall" to the claimant. This measure would limit special damages to the amount actually paid.

Upon further consideration, your Committee has amended this measure by changing the effective date to July 1, 2010, so that additional discussion can be had on this issue.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 707, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 707, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 328 (Joint) Health, Human Services and Media, Arts, Science and Technology on S.B. No. 1358

The purpose of this measure is to require the Department of Human Services, Maui Memorial Medical Center, and the Maui Community College nursing program to conduct a two-year study of in-home telehealth monitoring services to high-risk/high-cost Medicaid patients with frequent hospitalizations.

The Maui Community College and Hawaii Health Systems Corporation submitted testimony in support of this measure.

Your Committees find that the population of blind, elderly, and disabled Medicaid patients in Hawaii is increasing. The cost of caring for these patients is also increasing. Innovative care strategies can be utilized, such as in-home telehealth services, to try to reduce hospital re-admissions and lengths of stay in hospitals for patients with frequent hospitalizations. The Maui Community College testified that telehealth provides direct communication between patients from their home to the health care provider. It includes transfer of video images and physiologic data, such as blood pressures, heart rates, and blood sugar readings. The telehealth pilot study in this measure provides the opportunity for patients with chronic conditions to have regular, consistent contact with a nurse practitioner with the goal of reducing health care costs and improving the quality of life for patients.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1358 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 4 (Kokubun, Tsutsui, Hogue, Trimble).

SCRep. 329 (Joint) Health and Human Services on S.B. No. 3

The purpose of this measure is to authorize the Department of Health to reimburse developmental disabilities residential services for individuals with developmental disabilities or mental retardation.

The Judiciary, the State Council on Developmental Disabilities, the Disability and Communication Access Board, Hawaii Disability Rights Center, Kona Krafts, the Arc of Kauai, Alternative Care Services, Inc., the Arc of Hawaii, and one individual submitted testimony in support of this measure. The Department of Human Services and the Department of Health submitted comments.

Your Committees find that developmental disabilities residential service providers provide important residential care services for individuals with developmental disabilities or mental retardation. As the State Council on Developmental Disabilities testified, providers of these services are not being adequately reimbursed for the quality residential services they provide to these individuals. The current system of categorizing, licensing, and reimbursing providers of residential services is fragmented and does not offer the flexibility needed to adequately reimburse providers of residential services. This measure broadens the category of "domiciliary homes" with "residential settings" which allows for more flexibility and latitude.

Upon further consideration, your Committees amended this measure by deleting the phrase "if appropriate" from subsection 321-15.9(a) and added "with the exception of a residence of the person's choice if the person with the help of family and friends, if necessary, determines that the person can be sustained with supports, and the supports are attached to the person" to ensure that individuals living in their own apartments would not be displaced.

Your Committee has also amended this measure by changing the effective date to 2010 to encourage ongoing discussion of this issue.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 3, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 3, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 330 (Joint) Health and Human Services on S.B. No. 789

The purpose of this measure is to provide the Department of Human Services with emergency funds to reimburse Department of Human Services developmental disabilities or mental retardation Medicaid waiver providers for fiscal year 2004-2005.

The Department of Human Services, the Department of Health, the State Council on Developmental Disabilities, the Hawaii Disabilities Rights Center, Kona Krafts, Alternative Care Services, Inc., and one individual submitted testimony in support of this measure.

Your Committees find that the Department of Health's program to provide home and community based services for the developmentally disabled or mentally retarded, also known as the Title XIX Waiver Program, will expend all appropriated funds before the end of the current fiscal year. The Department needs additional funds to meet its fiscal obligations to support its developmentally disabled or mentally retarded clients with services as required by state law and to continue to fulfill its obligations under a settlement agreement.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 789 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 331 Water, Land, and Agriculture on S.B. No. 1897

The purpose of this measure is to require twenty-five per cent of the real estate conveyance tax collected to be deposited into the land conservation fund and allows grants to state agencies, counties, and nonprofit land conservation organizations to acquire interest in lands having a value as a resource to the State.

Testimony in support of this measure was submitted by the Department of Agriculture, Office of Hawaiian Affairs, a Hawaii County Council member, County of Maui Department of Water Supply, Conservation Council for Hawai'i, Enterprise Honolulu, Hawaii Agriculture Resource Center, Hawaii's Thousand Friends, the Nature Conservancy, Oahu Conservation Partnership, Pahala Plantation Cottages, Rocky Mountain Institute, Sierra Club, the Trust for Public Land, and thirty-eight individuals.

Testimony in opposition to this measure was submitted by the Department of Taxation and Land Use Research Foundation of Hawaii. Comments were also submitted by the Department of Land and Natural Resources and the Tax Foundation of Hawaii.

Your Committee finds that Hawaii's natural resources are vital to the State's economy, culture, and quality of life. However, there is very little funding allocated to protect and manage Hawaii's precious natural and cultural assets. Thus, this measure provides a better-equipped funding mechanism for land conservation and allows grants to acquire interest in lands having a value as a resource to the State.

Your Committee has amended this measure to make technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1897, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1897, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hemmings).

SCRep. 332 Business and Economic Development on S.B. No. 1009

The purpose of this measure is to implement an individual development account contribution tax credit, to permit a fiduciary organization to expend private moneys for program administration, to extend the deadline for adoption of rules, and to increase the contribution ceiling.

Testimony in support of this measure was submitted by Aloha United Way, Legal Aid Society of Hawaii, the Hawaii Alliance for Community-Based Economic Development, and two individuals. Your Committee also received comments from the Department of Taxation and the Tax Foundation of Hawaii.

Your Committee finds that individual development accounts promote financial self-sufficiency by encouraging low-income residents to save for home purchases, post-secondary education, or to open a small business. Hawaii's individual development account programs provide financial literacy training to low-income individuals on the importance of saving for a goal. This measure supports those efforts by creating an incentive for private contributions to individual development account programs.

Your Committee has amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1009, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1009, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 333 Business and Economic Development on S.B. No. 1075

The purpose of this measure is to prohibit the public display of monkeys in commercial establishments or businesses.

Your Committee received testimony in support of this measure from the Hawaiian Humane Society, Animal Rights Hawaii Advocates for Animals, the Honolulu Zoo and Honolulu Zoological Society, and one individual. Your Committee also received comments from the Department of Agriculture.

Your Committee views this measure as a way to prevent the public display of monkeys in a commercial establishment or business, which subjects the animals to an unnatural habitat in which they are exposed to abnormal stimulation and may receive insufficient nutritional and veterinary care.

Your Committee has amended the measure to allow the one-time commercial use of monkeys and other non-human primates for purposes of television and motion picture filming and circus performances. The measure also has been amended to exclude certified animal sanctuary habitats from its prohibitions and by adding two definitions. Your Committee also has amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1075, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1075, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 334 (Joint) Water, Land, and Agriculture and Higher Education on S.B. No. 1456

The purpose of this measure is to establish an agribusiness incubator in the Waialua district.

Testimony in support of this measure was submitted by the Department of Agriculture, University of Hawaii College of Tropical Agriculture and Human Resources, and Castle & Cooke Hawaii.

Your Committees find that the development of an agribusiness incubator will further the State's responsibility to promote diversified agriculture and increase agricultural self-sufficiency. This measure will authorize the issuance of general obligation bonds to the University of Hawaii for the planning, design, and construction of an agribusiness incubator in the Waialua district.

Your Committees have amended this measure by deleting the dollar amount in the appropriation and have left it blank for the Committee on Ways and Means to determine at a later date.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1456, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1456, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, English, Trimble).

SCRep. 335 Business and Economic Development on S.B. No. 1696

The purpose of this measure is to allow fiduciaries to invest in Hawaii venture capital investments without incurring liability for violation of the prudent investor or person rule.

Your Committee heard testimony in favor of this measure from the Department of Business, Economic Development, and Tourism and one individual.

Your Committee finds that additional sources of venture capital are needed to develop a vibrant technology industry in the State. Your Committee further finds that local funds are not being invested locally because investment advisors are returns driven and that the returns on local investments are lower than other investments. Thus, fiduciaries avoid risking personal liability and invest in projects that have the highest return in order to satisfy the prudent investor rule. Your Committee views this measure as providing a safe harbor for fiduciaries who invest venture capital funds in Hawaii, and believes it will give local investors stronger rationales to consider Hawaii investments.

As affirmed by the record of votes of the members of your Committee on Business and Economic Development that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1696 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Sakamoto).

SCRep. 336 Water, Land, and Agriculture on S.B. No. 918

The purpose of this measure is to require one member from the coastal zone management public advisory body to be appointed from a list of three nominees submitted by the Office of Hawaiian Affairs.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs and Hawaii's Thousand Friends. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources and the Office of Planning.

Your Committee finds that the sound and prudent management of all state lands and coastal resources is of critical importance to native Hawaiians both as a revenue source for their self-determination and for the preservation of their cultural and religious practices. The State's decisions concerning management of coastal zone resources directly affect native Hawaiians. The Office of Hawaiian Affairs, as the agency charged with the betterment of native Hawaiians, needs to contribute to the State's stewardship over these resources. Thus, this measure will allow the Office of Hawaiian Affairs to play a part in the process of selecting members of the coastal management public advisory body.

Your Committee has amended this measure by:

- (1) Providing that the members of the public advisory body shall be appointed by the director of the lead agency in consultation with the chairperson of the Board of Trustees for the Office of Hawaiian Affairs; and
- (2) Requiring this measure to be applied to new appointments and reappointments after its effective date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 918, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 918, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hemmings).

SCRep. 337 Water, Land, and Agriculture on S.B. No. 919

The purpose of this measure is to provide a better funding mechanism for the natural area reserves system by increasing the conveyance tax and the amount of conveyance tax revenues paid into the general, rental housing trust, and natural area reserve funds.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, City and County of Honolulu Board of Water Supply, Conservation Council for Hawai'i, Hawaii's Thousand Friends, Ko'olau Mountains Watershed Partnership, the Nature Conservancy, Rocky Mountain Institute, Sierra Club, the Trust for Public Land, and twenty individuals.

Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources, Cendant, Hawaii Association of Realtors, and Land Use Research Foundation of Hawaii. Comments were also submitted by the Department of Taxation and Tax Foundation of Hawaii.

Your Committee finds that Hawaii's natural resources are vital to the State's economy, culture, and quality of life. However, there is very little funding allocated to protect and manage Hawaii's precious natural and cultural assets. Thus, this measure provides a better-equipped funding mechanism for the natural area reserves system.

Your Committee also noted that there were concerns regarding the conveyance tax increases. Specifically, conveyance tax revenues are one of the least dependable sources for funding because it relies on real estate transactions. Thus, your Committee requests the Committee on Ways and Means to evaluate the potential benefits or impacts of applying a sliding scale conveyance tax percentage to real estate transactions.

Your Committee has amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 919, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 919, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hemmings).

SCRep. 338 Water, Land, and Agriculture on S.B. No. 951

The purpose of this measure is to appropriately punish a person starting a fire on lands controlled by the Department of Land and Natural Resources by including the costs of fighting the fire as damage for purposes of meeting the requirements of the criminal property damage statutes in the penal code.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources. Comments were also submitted by the Office of the Public Defender.

Your Committee finds that fires intentionally set within forest and preservation lands threaten wildlife and plant life, including rare and endangered species. They cause damage to personal and public property and can even threaten lives. Thus, this measure increases the penalties for intentionally setting fires.

Your Committee has amended this measure by:

- (1) Deleting the provision that allows the cost of any federal, state, or county efforts to extinguish the fire to be considered as "property damage";
- (2) Increasing the fines for intentionally setting a fire to no less than \$2,500 and no more than \$10,000; and
- (3) Making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 951, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 951, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 339 Water, Land, and Agriculture on S.B. No. 955

The purpose of this measure is to appropriate funds to the Hawaii Farm Bureau for agricultural research and market development.

Testimony in support of this measure was submitted by the Department of Agriculture, University of Hawaii College of Tropical Agriculture and Human Resources, County of Maui Office of Economic Development, Big Island Farm Bureau, Gay & Robinson Inc., Growing Creations LLC, Hawaii Agriculture Research Center, Hawaii Cattlemen's Council, Hawaiian Commercial & Sugar Company, Hawaii Crop Improvement Association, Hawaii Farm Bureau, Kauai Coffee, Meadow Gold Dairies, Pineapple Growers Association of Hawaii, and Quality Turfgrass. Testimony in opposition was submitted by one individual.

Your Committee finds that a revived and revitalized state agricultural industry would help to diversify Hawaii's economy, sustain and stabilize Hawaii's food supply, and protect the open space and lifestyle that Hawaii residents and visitors value. This measure provides funding for the Hawaii Farm Bureau to conduct agricultural research and market development to revitalize the agricultural industry.

Your Committee has amended this measure by deleting the dollar amount of the appropriation and left it blank for determination by the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 955, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 955, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 340 Water, Land, and Agriculture on S.B. No. 1095

The purpose of this measure is to appropriate funds for capital improvements on the Molokai irrigation system.

Testimony in support of this measure was submitted by the Department of Agriculture, County of Maui Office of Economic Development, Hawaii Agriculture Research Center, Hawaii Crop Improvement Association, Hawaii Farm Bureau, Molokai Farm Bureau, and Molokai Properties Limited.

Your Committee finds that recent flooding on Molokai has destroyed or impaired recent improvements to the Molokai irrigation system and threatens the effective operation of the system. This measure authorizes the issuance of general obligation bonds and appropriates funds for capital improvements on the system.

Your Committee has amended this measure by deleting the dollar amount of the appropriation and left it blank for determination by the Committee on Ways and Means.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1095, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1095, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 341 Water, Land, and Agriculture on S.B. No. 1155

The purpose of this measure is to require the Commission on Water Resource Management to establish a Hawaii drought preparedness plan to be included in the Hawaii Water Plan.

Testimony in support of this measure was submitted by the Department of Agriculture, Big Island Farm Bureau, Hawaii Agriculture Research Center, Hawaii Crop Improvement Association, Hawaii Farm Bureau, and Pineapple Growers Association of Hawaii. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Over the past several years, drought declarations have been issued intermittently, providing relief to stricken areas through emergency conservation measures and emergency appropriations. However, no current statewide strategy has been prepared for mitigating or responding to drought conditions. Your Committee finds that a statewide drought preparedness plan is needed.

Your Committee has amended this measure by:

- (1) Deleting the dollar amount of the appropriation and left it blank to allow the Committee on Ways and Means to determine; and
- (2) Making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1155, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1155, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 342 Water, Land, and Agriculture on S.B. No. 1266

The purpose of this measure is to authorize the Department of Land and Natural Resources to establish, limit, or revoke permits in state boating facilities.

Testimony in support of this measure was submitted by two individuals. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources, Hawaii Boaters Political Action Association, Ocean Tourism Coalition, and one individual.

Your Committee finds that as more people participate in ocean recreation activities, more conflicts between ocean users, as well as marine wildlife develop. Thus, this measure will assist the Department of Land and Natural Resources in managing the current and future ocean activity permits.

Your Committee has amended this measure by:

- (1) Requiring the Department of Land and Natural Resources to “establish” rather than “maximize” the number of small boat harbor or commercial permits; and
- (2) Limiting the types of permits to only small boat harbor permits.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1266, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1266, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 343 Water, Land, and Agriculture on S.B. No. 1267

The purpose of this measure is to appropriate funds to the Department of Agriculture for the aquaculture development program to hire a contractor to tag and monitor sharks along the Leeward coast of Oahu from Pearl Harbor to Kaena Point.

Testimony in support of this measure was submitted by two individuals. Testimony in opposition was submitted by the Department of Agriculture. Comments were also submitted by Cates International, Inc.

Your Committee finds that there are growing incidents of shark attacks in this State. In order to understand shark activity, there is a need to collect and interpret data about shark movements and habits of migration. Thus, this measure will appropriate the necessary funds to tag and monitor sharks along the Leeward coast of Oahu.

Your Committee has amended this measure by requiring the Department of Land and Natural Resources in conjunction with the Hawaii Institute of Marine Biology to execute the project.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1267, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1267, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 344 Water, Land, and Agriculture on S.B. No. 1268

The purpose of this measure is to authorize the Agribusiness Development Corporation to issue revenue bonds to obtain agricultural land and enable them to provide lease management services.

Testimony in support of this measure was submitted by the University of Hawaii College of Tropical Agriculture and Human Resources and Hawaii Farm Bureau. Comments were also submitted by the Agribusiness Development Corporation and Hawaii Agriculture Research Center.

The area from Waialua to Central Oahu is considered prime agricultural land with optimum growing conditions and access to affordable agricultural water. Your Committee believes that, as much as possible, these lands should be kept in use for agriculture. This measure secures a portion of these lands to ensure that farming will continue in the future.

Your Committee adopted the amendments suggested by the Agribusiness Development Corporation. They are as follows:

- (1) The Corporation “may” rather than “shall” contract with a financial institution to provide lease management services;
- (2) “Lease management services” is expanded to include the collection of lease rent and any other moneys owed to the corporation “related to” the lease of agricultural land under its control; and
- (3) The fifty-five year lease terms for the lands acquired in central Oahu was deleted.

Your Committee also noted that the U.S. Department of Agriculture Natural Resources Conservation Service implemented a Farm and Ranch Lands Protection Program that provides funding to protect working agricultural land from conversion to non-agricultural uses. It was noted in the testimony from the Hawaii Agriculture Research Center that last year, money was allocated for the State, counties, or qualifying nonprofit organizations to utilize; however, the funding went unused.

This year, money was also earmarked for this State, and your Committee hopes that the money is not returned unused again. Thus, your Committee has further amended this measure by providing that the Corporation may purchase, accept, and maintain permanent conservation easements in accordance with the Natural Resources Conservation Service Farm and Ranch Lands Protection Program.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1268, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1268, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 345 Water, Land, and Agriculture on S.B. No. 1409

The purpose of this measure is to reauthorize the Department of Land and Natural Resources (DLNR) to issue long-term leases to qualified individuals.

Testimony in support of this measure was submitted by Hoʻulu Hou Project, Native Hawaiian Legal Corporation, Native Hawaiian Protocol and Consultant Services, and one individual. The DLNR and one individual opposed this measure.

Long-term residential leases were given by DLNR to individuals who lived continuously in Kahana valley or had permits allowing them to live in certain parcels of land in Kahana valley pursuant to Act 5, Session Laws of Hawaii 1987. The authority to issue leases expired on January 1, 1992. However, more families would like an opportunity to also sign long-term leases.

This measure:

- (1) Reauthorizes DLNR to issue long-term residential leases to qualified individuals currently residing in Kahana valley with the condition that they participate in the interpretive program;
- (2) Authorizes DLNR to subdivide and provide a residential subdivision in Kahana valley for individuals who receive long-term leases under this measure; and
- (3) Establishes a Kahana valley state park advisory committee.

Your Committee has amended this measure by:

- (1) Deleting provisions that authorize DLNR to subdivide and provide residential subdivisions in Kahana valley;
- (2) Increasing the number of members of the Kahana valley state park advisory committee from five members to seven members;
- (3) Providing that the advisory committee shall be appointed without regard to section 26-34, Hawaii Revised Statutes;
- (4) Providing two members of the Kahana Community Association, as designated by the association, shall serve on the committee;
- (5) Deleting the provision that designates one member of the committee from the Kahana Unity Council;
- (6) Providing one member of the committee shall be designated by the Office of Hawaiian Affairs; and
- (7) Making technical, nonsubstantive changes for clarity, consistency, and style.

Your Committee also noted that a letter from the Department of the Attorney General was received expressing concerns about the constitutionality of this measure. However, your Committee passed this measure with the intent that the Committee on Judiciary and Hawaiian Affairs review the letter from the Attorney General and determine the appropriate action for this measure.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1409, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1409, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hooser).

SCRep. 346 Water, Land, and Agriculture on S.B. No. 1461

The purpose of this measure is to appropriate funds to conduct a pilot project for the Kaiaka Bay, Oahu watershed and action plan.

Testimony in support of this measure was submitted by Haleiwa Community Gardens Association, Resource Management Systems LLC, and twenty-five individuals.

Your Committee finds that Kaiaka Bay, Oahu is an area that has recently experienced a burgeoning of residential, commercial, and agricultural growth and development. These pressures make Kaiaka Bay a prime candidate for a watershed assessment in the areas of tropical plant and soil science, geographical information systems technology and tools, community education, and participatory outreach assistance.

Your Committee has amended this measure by replacing the dollar amount of the appropriation with a blank amount for the Committee on Ways and Means to determine at a later date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1461, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1461, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 347 (Joint/Majority) Water, Land, and Agriculture and Business and Economic Development on S.B. No. 1848

The purpose of this measure is to appropriate funds to complete the Haena State Park master plan and for three state park positions on Kauai.

Testimony in support of this measure was submitted by the Poipu Beach Resort Association, Kauai Planning and Action Alliance, and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committees find that thousands of visitors visit Haena State Park every year. It is one of the most visited parks in the State. However, the park is in desperate need of repairs and maintenance. A master plan was initiated to address the park's long-term objectives. This measure appropriates the necessary funds to complete the Haena State Park's master plan.

Your Committees have amended this measure by amending the amount of the appropriation for the completion of the master plan to \$250,000 based on the testimony submitted by the Department of Land and Natural Resources.

Your Committees have further amended this measure by deleting the appropriations for the botanist IV, the general construction and maintenance supervisor, and the park caretaker II positions pending a more comprehensive evaluation of the maintenance positions for all state parks.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1848, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1848, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Trimble). Excused, 3 (English, Sakamoto, Hemmings).

SCRep. 348 Water, Land, and Agriculture on S.B. No. 1879

The purpose of this measure is to amend the state enterprise zone program to encourage agricultural activity.

Testimony in support of this measure was submitted by the Department of Agriculture, County of Maui's Office of Economic Development, Big Island Farm Bureau, Hawaii Cattlemen's Council, Hawaii Agriculture Research Center, Hawaii Crop Improvement Association, and Hawaii Farm Bureau. Comments were also submitted by the Department of Business, Economic Development, and Tourism and the Department of Taxation.

Your Committee finds that state enterprise zone programs are a very good business incentive to encourage agriculture activity. However, it is very difficult for agricultural businesses to meet some of the existing requirements for these programs. Thus, this measure provides amendments to the program requirements by:

- (1) Allowing agricultural businesses to be eligible for tax incentives in the event of force majeure; and
- (2) Allowing agricultural businesses to meet annual gross revenue requirement if the businesses are unable to meet annual full-time employee requirements.

Your Committee amended this measure by:

- (1) Including processors of agricultural products to be included as businesses that may remain eligible for tax incentives during a force majeure event;
- (2) Adding a new definition for "leased employees";
- (3) Amending the definition for "full-time employees" to include leased employees or employees under a joint employer relationship;
- (4) Deleting obsolete language for enterprise zone designations;
- (5) Clarifying that enterprise zone firms cannot claim the same tax credits or exemptions in other tax incentive programs; and
- (6) Making technical, nonsubstantive changes for style and clarification purposes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1879, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1879, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 349 Water, Land, and Agriculture on S.B. No. 1880

The purpose of this measure is to promote the construction of drought mitigating water storage facilities.

Testimony in support of this measure was submitted by the Department of Agriculture, Department of Land and Natural Resources, Department of Taxation, County of Maui's Office of Economic Development, Big Island Farm Bureau, Hawaii Agriculture Research Center, Hawaii Cattlemen's Council, Hawaii Crop Improvement Association, Hawaii Farm Bureau, and Pineapple Growers Association of Hawaii. Comments were also submitted by the Tax Foundation of Hawaii.

Your Committee finds that farmers and ranchers suffer great losses to their crops and livestock during periods of drought. These losses often take farmers and ranchers years to recover. However, these losses can be minimized by the construction of water storage facilities to alleviate water problems during times of drought. Thus, this measure promotes the construction of water storage facilities by:

- (1) Increasing the tax credit amount to twenty per cent; and
- (2) Making the tax credit available until December 31, 2008.

Your Committee also noted that this measure provides a tax credit for the cost of construction or repair to "ancillary structures." However, the term "ancillary structures" is not defined. Your Committee recommends that the Committee on Ways and Means solicit testimony that clarifies this term.

Your Committee has amended this measure by extending rather than repealing the cut off date for the tax credit.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1880, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1880, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 350 Water, Land, and Agriculture on S.B. No. 1883

The purpose of this measure is to designate the Milolii fisheries management area in south Kona as a community-based subsistence fishing area, preserving and maintaining its legacy as a traditional Hawaiian fishing village.

Testimony in support of this measure was submitted by the Nature Conservancy, Pa'a Pono Milolii, Trust for Public Land, and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that Milolii is well known as one of the last predominantly traditional Hawaiian fishing villages. The community is still dependent on near-shore fish for a significant portion of its nutritional needs. However, the marine resources there have been depleting in recent years primarily because of over-harvesting. Thus, this measure will require the Department of Land and Natural Resources to adopt strategies to ensure long-term sustainable populations of fish and marine species and encourage studies of fishing management.

Your Committee has amended this measure to make technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1883, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1883, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, none.

SCRep. 351 Water, Land, and Agriculture on S.B. No. 1884

The purpose of this measure is to require counties to adopt ordinances that require subdividers or developers to connect existing accesses to the shoreline with lateral public access along the shoreline as a condition to final approval of a subdivision.

Testimony in support of this measure was submitted by the Mayor of the County of Kauai, Life of the Land, and Sierra Club. Testimony in opposition to this measure was submitted by the Land Use Research Foundation of Hawaii. The Department of Land and Natural Resources submitted comments.

Your Committee finds that the public may be able to access shorelines or other coastal areas; however, they may not be able to safely travel from one access point to another due to shoreline erosion or other natural barriers. This measure will require counties to adopt ordinances to address this issue.

Your Committee also noted concerns that although lateral public access for shorelines would apply to subdivisions of six or more lots, the same provisions may not apply to properties classified under the condominium property regime. Thus, the parcel, which may have many more units than a six-lot subdivision, would not be required to provide the same lateral public access.

Your Committee has amended this measure by amending the definition of “lateral public access” to mean “land for public access for pedestrian travel alongside a shoreline or coastline.”

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1884, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1884, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, none.

SCRep. 352 (Joint) Water, Land, and Agriculture and Energy, Environment, and International Affairs on S.B. No. 1903

The purpose of this measure is to exempt seawater air conditioning district cooling systems from the Public Utility Commission regulation.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs and Honolulu Seawater Air Conditioning. Comments were also submitted by the Public Utilities Commission and the City and County of Honolulu Board of Water Supply.

Seawater air conditioning district cooling systems are a renewable energy technology that has the potential to provide a contribution to Hawaii’s renewable portfolio standard requirements. Your Committees find that support for the development of renewable and efficient energy systems in the State is in the public’s interest.

Thus, your Committees further find that because the seawater air conditioning systems shall:

- (1) Involve a limited number of customers;
- (2) Be monitored and controlled by a board of managers;
- (3) Use long-term contracts;
- (4) Have costs that are stable; and
- (5) Have a large burden in reporting costs because it is a relatively small system,

public utility regulation of these systems are not necessary. Thus, this measure exempts the systems from the Public Utility Commission’s regulations.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1903 and recommend that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 353 (Joint) Higher Education and Education and Military Affairs on S.B. No. 1641

The purpose of this measure is to create a center for school redesign at the University of Hawaii at Manoa. The center will provide technical support to public secondary schools to develop small schools and learning communities.

Your Committees received testimony in support of this measure from the University of Hawaii, the University of Hawaii Office of School Redesign, Department of Education, and Hawaii Educational Policy Center.

Too many high school students do not acquire the skills, knowledge, or disposition needed to graduate or to succeed in later life. The current education system was designed for a past era. It is necessary today to redesign high schools to meet current needs of students and ensure they are prepared for the future. We want all students to graduate ready for college and work, and to participate in a democratic society.

Your Committees find that there is compelling evidence that high school students who are in small schools consisting of fewer than five hundred students reach higher levels of achievement and are more likely to attend college. This is particularly true if the small schools create learning communities designed to help all students feel as though they are part of the group, and if these learning communities address each student’s individual learning style and interest.

Your Committees have amended this bill by specifying the members of the advisory committee of the center for school redesign.

As affirmed by the records of votes of the members of your Committees on Higher Education and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1641, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1641, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Baker).

SCRep. 354 (Joint) Higher Education and Education and Military Affairs on S.B. No. 876

The purpose of this measure is to expand the teacher national board certification incentive program to include teacher educators in the University of Hawaii system.

Your Committees received testimony in support of this measure from the University of Hawaii, Department of Education, and Hawaii State Teachers Association.

The expansion of the teacher national board certification incentive program to include teacher educators in the University of Hawaii system will have a profound impact on teacher education in Hawaii. National board certified teachers have to prove that they: 1) are committed to students and their learning; 2) know the subjects they teach and how to teach those subjects to students; 3) are responsible for managing and monitoring student learning; 4) think systematically about their practice and learn from experience; and 5) are members of learning communities.

Your Committees find that section 38 of Act 51 of the Regular Session of 2004 created a teacher national board certification incentive program in the Department of Education. The program demonstrates the State's commitment and support of public school teachers who have achieved national board certification by awarding monetary bonuses for earning the certification and maintaining it.

Your Committees further find that amending the program to include teacher educators would have several positive impacts. If the incentive program were expanded, teacher educators would be encouraged to seek national board certification and their students would benefit by having faculty with national credentials. Furthermore, teacher educators with national board certification would be better able to develop preparation and professional development programs linked with national standards that would prepare student teachers for national board certification. The retention rate of teacher educator faculty would also be enhanced and deans and department chairs would be able to use the incentive program as a recruiting tool.

Your Committee has amended this measure by inserting the expending agency language that was recommended by the Department of Education "that funds should be appropriated and processed through the University of Hawaii system."

As affirmed by the records of votes of the members of your Committees on Higher Education and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 876, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 876, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Baker).

SCRep. 355 (Joint) Energy, Environment, and International Affairs and Transportation and Government Operations on S.B. No. 1553

The purpose of this measure is to direct the Department of Health to develop rules to achieve the maximum feasible reduction of greenhouse gases emitted by passenger vehicles, light-duty trucks, and other noncommercial personal vehicles.

Testimony in support of the measure was given by the Sierra Club. Testimony in opposition to the measure was received from the Department of Health and the Alliance of Automobile Manufacturers.

Your Committees find that reduction of greenhouse gases emitted from noncommercial motor vehicles is necessary to maintain and improve the health of the environment in which Hawaii's residents live. Your Committees also find that a proactive approach to the problem of greenhouse gases is warranted, and that the measure provides appropriate exclusionary provisions for motor vehicles.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1553 and recommend that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 5 (Hanabusa, Kanno, Menor, Hemmings, Whalen).

SCRep. 356 (Joint) Energy, Environment, and International Affairs and Commerce, Consumer Protection and Housing on S.B. No. 1714

The purpose of this measure is to designate seawater air conditioning (SWAC) as a renewable energy, require SWAC systems to be used in state facilities where feasible, and require construction bids for state facilities to include SWAC technology where feasible.

Testimony in support of the measure was received from Honolulu Seawater Air Conditioning, LLC. The Department of Commerce and Consumer Affairs offered comments.

Your Committees find that SWAC technology is a promising source of renewable energy that can efficiently provide air conditioning and thus reduce energy costs. Your Committees also find that the State should be proactive in adopting this renewable energy technology for its buildings where feasible.

Your Committees have amended the measure by deleting reference to providing a preference to bidders on state projects that incorporate SWAC technologies into their proposals, since bidders will be required to incorporate SWAC district cooling in all bidding documents for state facilities where it is feasible and available.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1714, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1714, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Espero, Hanabusa, Kokubun, Sakamoto).

SCRep. 357 (Joint) Energy, Environment, and International Affairs and Media, Arts, Science and Technology on S.B. No. 1004

The purpose of this measure is to establish a task force to address the problem of management of computer and other electronic solid wastes statewide.

Testimony in support of the measure was received from Covanta Energy Group. The Department of Health provided testimony supporting the intent of the measure and offered comments.

Your Committees find that computers, televisions, and many other electronic products contain hazardous materials that, when introduced into the environment through disposal, may pose a health threat to humans and contaminate the environment. As more electronic and computer products become obsolete, the amount of discarded electronic materials will amplify the health and safety concerns.

Your Committees have amended the measure to include three additional individuals to serve on the Electronic Waste Task Force. These individuals shall be representatives from companies in the computer manufacturing and distribution industry, such as IBM Corporation, Dell, Inc., and Apple Computer, Inc. Your Committees believe that the computer industry can bring a needed perspective on its products and can assist in bringing about solutions to electronic waste concerns.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1004, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1004, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Hanabusa).

SCRep. 358 (Joint) Energy, Environment, and International Affairs and Water, Land, and Agriculture on S.B. No. 1894

The purpose of this measure is to include the concepts of sustainable development and self-sustainability into the Hawaii State Planning Act.

Testimony in favor of the measure was received by a member of the Maui County Council, two University of Hawaii professors, and one individual. The Office of Planning and Hawaiian Electric Company, Inc., gave testimony that supported the intent of the measure and offered comments. The Board of Land and Natural Resources offered comments. Testimony from the Department of Business, Economic Development, and Tourism opposed the use of the term “self-sustainability” in the measure. The Land Use Research Foundation offered testimony in opposition to the measure.

Your Committees have amended this bill by replacing the term “self-sustainability” and its definition with “sustainability” and a corresponding definition. Your Committees have responded to the concerns raised by both the Board of Land and Natural Resources and the Department of Business, Economic Development, and Tourism that the term “self-sustainability” connotes isolationism and insularity and fails to acknowledge that Hawaii interacts, trades, and cooperates with others. Your Committees have also amended this bill by making technical, nonsubstantive, amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1894, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1894, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 359 (Joint) Energy, Environment, and International Affairs and Transportation and Government Operations on S.B. No. 1710

The purpose of this measure is to require the Department of Health to adopt rules that would achieve the greatest feasible reduction in greenhouse gas emissions from noncommercial, personal vehicles, and sets the average greenhouse gas emission percentage reduction for new vehicles, commencing with the 2009 model year.

Testimony in support of the measure was provided by the Sierra Club. Testimony in opposition to the measure was received from the Department of Health and the Alliance of Automobile Manufacturers.

Your Committees find that reduction of greenhouse gases emitted from noncommercial motor vehicles is necessary to maintain and improve the health of the environment in which Hawaii's citizens live. Your Committees also find that a proactive approach to the problem of greenhouse gases is warranted, and that the measure provides appropriate exclusionary provisions for motor vehicles.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1710, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1710, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Hanabusa, Kanno, Menor, Hemmings, Whalen).

SCRep. 360 Energy, Environment, and International Affairs on S.B. No. 1785

The purpose of this measure is to require Hawaii Superferry, Inc., to prepare an environmental impact statement for its superferry project.

Testimony in support of the measure was received from the Mayor of Maui County, the County Council of Kauai County, the Sierra Club, Matson Navigation Co., Horizon Lines, Tropical Orchid Farm, Inc., Fragrant Orchids of Maui, and 25 individuals. Testimony in opposition to the measure was received from Hawaii Superferry, Inc. The ILWU provided comments.

Your Committee finds that due to the scope and operation of the Superferry project there will be significant impacts to the environment. The economic, social, and cultural welfare of the islands may also be impacted. Your Committee therefore finds that an environmental impact statement pursuant to chapter 343, Hawaii Revised Statutes, is the appropriate vehicle to identify these impacts and to determine what options are available to address these impacts.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1785 and recommends that it pass Second Reading and be referred to the Committee on Transportation and Government Operations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 361 Energy, Environment, and International Affairs on S.B. No. 1554

The purpose of this measure is to permanently establish the Emergency Environmental Workforce Program to assist the counties in their fight against invasive species, such as miconia, the coqui frog, and the fire ant.

Testimony in support of the measure was received from the Department of Agriculture, a member of the Maui County Council, and the Nature Conservancy. The Department of Land and Natural Resources and the Hawaii Pest Control Association support the intent of the measure and provided comments.

Your Committee finds that the emergency environmental workforce established by Act 4, Third Special Session of 2001, was effective in providing meaningful employment opportunities to those impacted by the economic downturn in the wake of the September 11, 2001 national tragedy. The program was also effective in combating invasive species such as the miconia plant and the coqui frog. Your Committee believes the same benefits will accompany a permanent Emergency Environmental Workforce Program, especially given the magnitude of the invasive species problem in Hawaii.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1554 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 362 Energy, Environment, and International Affairs on S.B. No. 1114

The purpose of this measure is to provide a tax credit for the cost of energy storage systems installed for the storage of electricity, or another useful energy product created by electricity, in order to shift electric load to off-peak periods.

Testimony in support of the measure was received from Hawaiian Electric Company, Inc., PowerLight Corporation, St. Francis Hospital, the Building Industry Association, Economy Plumbing & Sheet Metal, Inc., the Plumbing & Mechanical Contractors Association of Hawaii, three private schools, the Hawaii Association of Independent Schools, the Waikiki Beach Marriott Resort, Off-Peak/Elite Energy Group, LLC, Elite Mechanical, Inc., and Chaney Brooks. Testimony in opposition to the measure was received from the Department of Taxation. Comments were received from the Department of Commerce and Consumer Affairs, the Gas Company, and the Tax Foundation of Hawaii.

Your Committee finds that energy storage technologies are an important element of demand-side management, and can help alleviate peak electric loads by shifting these loads to off-peak hours. Thus, energy storage technologies merit a tax credit to provide an incentive to build these systems. Your Committee recognizes the Department of Taxation's concern that, in its estimation, the tax credit may result in \$2 million less in tax revenue for fiscal year 2007. Your Committee believes that there will be further opportunity to review the fiscal implications of this measure.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1114 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hemmings).

SCRep. 363 Health on S.B. No. 130

The purpose of this measure is to authorize the Department of Health to adopt rules to establish an administrative process allowing involuntary medication of psychiatric patients institutionalized at the Hawaii state operated or funded psychiatric facility in order to alleviate mental illness and restore competency while protecting the rights of patients.

The Hawaii Government Employees Association, the Hawaii Psychiatric Medical Association, and one individual submitted testimony in support of this measure. The Office of the Public Defender, the Hawaii Disability Rights Center, and one individual submitted testimony in opposition. The Department of Health submitted comments.

Your Committee finds that mental health patients deserve the same degree of personal autonomy as other citizens when they receive services. This includes participating in the decision-making process regarding their treatment. However, as the proponents noted, there are limited circumstances when involuntary treatment is appropriate and only if the person is at imminent risk of danger to themselves or others.

The Hawaii Government Employees Association testified that the patient population has changed as more forensic patients come through the prison system and the courts. These patients exhibit some form of prison behaviors, such as intimidation of other patients and staff and violence for the purpose of intimidation and control. While the risk of physical attack is not a new development, there is a difference in the premeditation, motivation, and ferocity of attacks. According to one proponent, there have been several unprovoked, brutal assaults on staff members. This measure establishes a process to allow involuntary medication of certain psychiatric patients institutionalized at the Hawaii State Hospital in order to alleviate mental illness and restore competency while protecting the rights of patients.

Upon further consideration and at the recommendation of several stakeholders, your Committee has amended this measure by establishing a streamlined judicial process, in lieu of an administrative process, by which the Department of Health can seek a court order to permit involuntary medication of mental health patients to ensure safety in Department of Health operated or funded psychiatric inpatient facilities.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 130, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 130, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 364 Media, Arts, Science and Technology on S.B. No. 629

The purpose of this measure is to appropriate funds for legislative proceedings audio and video streaming over the internet.

Your Committee received testimony in support of this measure from the Employers' Chamber of Commerce, the League of Women Voters of Hawaii, and 'Olelo Community Television.

Your Committee finds that media streaming via the internet will provide an opportunity for additional community involvement in the legislative process by enabling access to legislative floor sessions and committee hearings when it is convenient for them. Your Committee believes that this measure will encourage public discussion of important issues and provide insight into the lawmaking process.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 629 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 365 Media, Arts, Science and Technology on S.B. No. 819

The purpose of this measure is to provide that certain funds collected under chapter 6E, Hawaii Revised Statutes, shall be deposited into the Hawaii historic preservation special fund.

Specifically, this measure provides that:

- (1) All penalties, fines, and other charges collected shall be deposited into the Hawaii historic preservation special fund;
- (2) Special fund moneys may be expended for staff positions and operational and administrative costs.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources and the Office of Hawaiian Affairs. Your Committee received comments from the Native Hawaiian Legal Corporation.

Your Committee finds that recent legislation authorized the department to assess penalties, fines, and other administrative charges under chapter 6E, Hawaii Revised Statutes. Your Committee finds that this measure clarifies that the Department of Land and Natural Resources shall deposit penalties, fines, and other collected charges into the Hawaii Historic Preservation Special Fund and that the department may expend special fund moneys to defray operating and administrative costs. Your Committee believes that this measure will improve the department's ability to administer the state historic preservation program.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 819 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 366 Media, Arts, Science and Technology on S.B. No. 1699

The purpose of this measure is to increase the Hawaii State Foundation on Culture and the Arts' general fund appropriation.

Your Committee received testimony in support of this measure from the Honolulu Academy of the Arts, the Musicians' Association of Hawaii, the Hawaii United Okinawa Association, Douglas Trade Shows, the Portuguese Association of Maui, and seventeen individuals. Your Committee received comments on this measure from the Department of Accounting and General Services.

Your Committee finds that the Hawaii State Foundation on Culture and the Arts biennium grants program is the largest source of public funding for arts programming in the State. The foundation supports cultural, artistic, historical, and humanitarian programs in Hawaii communities, with funds disbursed statewide. The state arts foundation's grants support projects that provide access to the arts for residents and visitors alike, preserve and perpetuate the arts and culture of native Hawaiians, enhance and promote cultural tourism efforts, encourage young audiences, and develop young talent. Your Committee finds that this measure demonstrates the strong legislative support for culture and the arts in Hawaii's communities and in the quality of life of Hawaii's people.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1699 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ige).

SCRep. 367 (Joint) Education and Military Affairs and Transportation and Government Operations on S.B. No. 1825

The purpose of this measure is to exempt members of the National Guard and Reserves from county vehicular taxes and fees for noncommercial motor vehicles.

Testimony in favor of this measure was submitted by the Department of Defense, Department of Transportation, and The Chamber of Commerce of Hawaii.

Your Committees find that the nation's National Guard and Reserves make up more than fifty percent of the U.S. military. As a result, members of the Hawaii National Guard and reserves are being recalled to active duty on a frequent basis. Incentives and benefits such as this exemption demonstrate our support of their sacrifices on behalf of our nation.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1825 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 12. Noes, none. Excused, 1 (Kanno).

SCRep. 368 Education and Military Affairs on S.B. No. 1671

The purpose of this measure is to provide funds for the construction of new public school facilities.

Testimony in support of the measure was submitted by the Department of Education and Land Use Research Foundation of Hawaii. The Department of Accounting and General Services, State Procurement Office, and Department of Taxation submitted comments on this measure.

Your Committee finds that although there is a long list of backlog school construction projects, the large gap between the amount needed each year and the amount actually appropriated remains. Alternative sources of funding need to be explored. This measure contains provisions that will assist the department in reducing the backlog of projects.

Your Committee further finds that exemptions to chapters 42F, 103, and 103D, Hawaii Revised Statutes are not necessary and has amended the measure to delete those provisions.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1671, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1671, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 369 Education and Military Affairs on S.B. No. 638

The purpose of this measure is to propose a state constitutional amendment to allow the student member of the Board of Education to vote, except on issues pertaining to personnel of fiscal matters.

Testimony in support of the measure was submitted by the Department of Education and Board of Education.

Your Committee finds that the student Board of Education member provides a valuable perspective and insight on educational needs that adult board members may not have. While student board members enhance the board's understanding and knowledge of current school issues and student concerns, they are not afforded a vote as are all the other official members. Throughout the years, the student board members have shown themselves equally committed to the public education system and should be allowed a more practical role as an official member of the board.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 638 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 370 Education and Military Affairs on S.B. No. 1483

The purpose of this measure is to authorize the issuance of special purpose revenue bonds for Waimea Country School to finance or refinance the planning, acquisition, construction, or improvement of its educational facilities.

Testimony in support of the measure was submitted by the Hawaii Association of Independent Schools and Waimea Country School. The Department of Budget and Finance submitted comments.

Your Committee finds that the State allows the issuance of special purpose revenue bonds for private school construction and renovation. This method of funding provides a worthy school such as Waimea Country School with the necessary resources to fund a variety of school projects to minimize its reliance on alumni contributions, parents, and friends or other financial services. Your Committee notes that special purpose revenue bonds such as this do not have an impact on, or detract from, public school funding.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1483 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 371 Education and Military Affairs on S.B. No. 1093

The purpose of this measure is to authorize the issuance of special purpose revenue bonds of no more than \$30 million for Hualalai Academy.

Testimony in support of this measure was submitted by the Hawaii Association of Independent Schools and Hualalai Academy. Comments on this measure were also submitted by the Department of Budget and Finance.

Your Committee finds that the issuance of special purpose revenue bonds for Hualalai Academy serves a valuable public purpose by making much-needed educational facilities available to the students of Hawaii. Specifically, Hualalai Academy is planning to add a twelfth grade in 2006, and the school requires substantial improvements to campus facilities in order to better serve the student body population as well as the community as a whole. Your Committee notes that special purpose revenue bonds of this type do not take funding away from public education.

Your Committee has amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1093, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1093, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 372 Education and Military Affairs on S.B. No. 1705

The purpose of this measure is to reduce the amount of general excise tax revenues deposited into the state educational facilities improvement special fund by the amount of certificates of participation authorized for that fiscal year.

Testimony in support of the measure was submitted by an individual. The Department of Education testified in opposition the measure. The Department of Taxation and the Tax Foundation of Hawaii submitted comments.

Your Committee finds that the scarcity of funding provided to public school facilities may easily become a crisis if the State does not explore alternative funding sources. As facility needs increase, your Committee recognizes that it may be beneficial to have alternatives to traditional general bond financing available. However, the Department of Education has expressed concerns regarding the reduction of revenues to the special fund which provides funding for public school facilities.

Upon further consideration, your Committee would like to continue exploring this alternative funding source.

Your Committee has amended the bill by changing its effective date to June 30, 2005.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1705, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1705, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 373 Education and Military Affairs on S.B. No. 873

The purpose of this measure is to require the Department of Education to staff qualified pre-school teachers and pre-school teacher aides in junior kindergartens beginning with the 2007-2008 school year.

Testimony in support of the measure was submitted by the Department of Education, University of Hawaii, Hawaii Teacher Standards Board, Hawaii Association for the Education of Young Children, and an individual. The Hawaii State Teachers Association and Good Beginnings Alliance submitted testimony in opposition.

Your Committee finds that junior kindergarten is not a pre-school and thus it would not be appropriate to employ pre-school teachers for junior kindergarten classrooms. The most current policy recommendations call for teachers in early childhood programs to have at least a bachelor's degree and specialized training in early childhood education.

Upon further consideration, your Committee has amended this measure to require the Hawaii Teacher Standards Board to consider requiring junior kindergarten teachers to have a bachelors degree in elementary education and junior kindergarten aides to have at least an associate's degree in early childhood education for an accredited program.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 873, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 873, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

**SCRep. 374 (Joint) Energy, Environment, and International Affairs and Transportation and Government Operations
on S.B. No. 1427**

The purpose of this measure is to require all state agencies to purchase electric vehicles, hybrid electric vehicles, or fuel cell vehicles for their use, beginning January 1, 2006, to the extent that these types of vehicles are available.

Testimony in support of the measure was received from the Rocky Mountain Institute and the Sierra Club. The Department of Accounting and General Services offered comments.

Your Committees find that the reduction of greenhouse gas emissions from vehicles is important to the health of Hawaii's citizens and the environment, and that the State can lead by example by purchasing energy-efficient vehicles for its use. Your Committees acknowledge the concern of the Comptroller that energy efficient vehicles of the type enumerated in the measure may not be available at a cost equal to comparable gas powered vehicles. Your Committees find, however, that a provision in the measure requiring purchases only to the extent that high energy-efficient vehicles are available addresses this concern.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1427 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 5 (Hanabusa, Kanno, Menor, Hemmings, Whalen).

SCRep. 375 (Joint) Energy, Environment, and International Affairs and Business and Economic Development on S.B. No. 1000

The purpose of this measure is to require the Public Utilities Commission to establish a renewable energy credits trading program, direct the Department of Business, Economic Development, and Tourism to analyze the feasibility of the State becoming a member of the Chicago Climate Exchange, and establish an advisory committee on renewable energy credits trading.

Testimony in support of the measure was received from the Hawaii Renewable Energy Alliance. Testimony in opposition to the measure was received from the Department of Business, Economic Development, and Tourism. The Public Utilities Commission, the Department of Commerce and Consumer Affairs, and Covanta Energy Group provided comments.

Your Committees find that the establishment of a renewable energy credits trading program locally, and investigation as to the feasibility of participating in the Chicago Climate Exchange, will help provide a market-based incentive system to reduce the production of greenhouse gases by allowing its members to bank and trade renewable energy credits. Your Committees also find that the formation of a Renewable Energy Credits Trading Program Advisory Committee, coupled with a study to determine the feasibility of the State becoming a member of the Chicago Climate Exchange, is aimed at providing further analysis so that decisions regarding these programs are made with all necessary information.

Your Committees have amended this measure by making a technical, nonsubstantive amendment for clarity and style.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1000, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1000, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Hanabusa, Sakamoto, Hemmings).

SCRep. 376 Water, Land, and Agriculture on S.B. No. 925

The purpose of this measure is to require the Governor to appoint one member of the Land Use Commission from a list of three nominees submitted by the Office of Hawaiian Affairs.

Testimony in support of this measure was submitted by the Land Use Commission and Office of Hawaiian Affairs. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources and Office of Planning.

Your Committee finds that the sound and prudent management of all state land resources is of critical importance to Hawaiians both as a revenue source for their self-determination and for the preservation of their cultural and religious practices. The State's decisions concerning land use directly affect native Hawaiians. The Office of Hawaiian Affairs, as the agency charged with the betterment of native Hawaiians, needs to contribute to the State's stewardship over these resources. Thus, this measure will allow the Office of Hawaiian Affairs to play a part in the process of selecting members of the Land Use Commission.

Your Committee has amended this measure by applying the new requirements to new appointments and reappointments after the measure's effective date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 925, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hemmings).

SCRep. 377 Water, Land, and Agriculture on S.B. No. 669

The purpose of this measure is to authorize the Board of Agriculture to rent the animal quarantine property and facilities to third parties.

Testimony in support of this measure was submitted by the Department of Agriculture, the Chamber of Commerce of Hawaii, the Hawaii Business Roundtable, and the Hawaiian Humane Society.

Your Committee finds that recent modifications to the animal quarantine program have lowered the number of cats and dogs requiring long-term confinement in quarantine. This reduction has left much of the property, including the kennels, empty.

This measure provides alternative uses for the animal quarantine property and facilities by allowing the Board of Agriculture to rent unused space. Specifically, this measure:

- (1) Allows the Board of Agriculture to contract with third parties for the use or rental of animal quarantine property or facilities; and
- (2) Requires all money collected from the use or rent of the property or facilities to be deposited into the Animal Quarantine Special Fund.

Your Committee has amended this measure by:

- (1) Clarifying that all revenues generated by the use or rental of the animal quarantine property or facilities be used to defray operational costs of the animal quarantine program, as well as minimize the animal quarantine fees;
- (2) Making technical amendments for the purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 669, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 669, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hooser).

SCRep. 378 Water, Land, and Agriculture on S.B. No. 917

The purpose of this measure is to require the Governor to appoint one member of the Commission on Water Resource Management from a list of three nominees submitted by the Office of Hawaiian Affairs.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources.

Your Committee finds that the sound and prudent management of all state lands and coastal resources is of critical importance to native Hawaiians both as a revenue source for their self-determination and for the preservation of their cultural and religious practices. The State's decisions concerning water use directly affect native Hawaiians. The Office of Hawaiian Affairs, as the agency charged with the betterment of native Hawaiians, needs to contribute to the State's stewardship over these resources. Thus, this measure will allow the Office of Hawaiian Affairs to play a part in the process of selecting members of the Commission on Water Resource Management.

Your Committee has amended this measure by:

- (1) Removing one of the Governor's appointments on the nominating committee for the Commission on Water Resource Management;
- (2) Providing that the Office of Hawaiian Affairs shall appoint one member of the nominating committee for the Commission on Water Resource Management; and
- (3) Requiring this measure to be applied to new appointments and reappointments after its effective date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 917, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 917, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Fukunaga, Hemmings).

SCRep. 379 Labor on S.B. No. 740

The purpose of this measure is to clarify and correct existing language in chapter 88, Hawaii Revised Statutes, and to conform the law to current practices.

Testimony in support of this measure was submitted by the Employees' Retirement System (ERS) and the Hawaii State Teachers Association.

Your Committee finds that within chapter 88, Hawaii Revised Statutes, clarification is needed to correct existing language and to conform the law to current practices. This measure makes several housekeeping amendments that provide as follows:

- (1) Includes language to comply with federal income tax limits on compensation in determining ordinary death benefits;
- (2) Specifies which appointed county positions qualify for contributory plan membership;
- (3) Conforms the law to current practices and allows the ERS to calculate a retiree's pension based on the benefit formula at the time of retirement rather than separation from service;
- (4) Requires the counties to remit employer contributions to the ERS on a monthly rather than semimonthly basis;
- (5) Specifies that the cost to convert noncontributory plan service to hybrid plan service will be based on the member's age in full years and the member's basic rate of pay as of June 30, 2006; and
- (6) Eliminates the deadlines for claiming and purchasing hybrid plan membership service and allows for the acquisition of qualifying service at any time prior to retirement, in line with current contributory plan procedures.

Your Committee has amended this measure by making technical, nonsubstantive amendments to change formatting and for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 740, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 740, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 380 (Joint/Majority) Labor and Transportation and Government Operations on S.B. No. 933

The purpose of this measure is to clarify the law regarding the requirement of the payment of prevailing wages to apply to all laborers, mechanics, required assistants, helpers, tenders, and apprentices on a public works project.

Testimony in support of this measure was submitted by the Hawaii Building and Construction Trades Council, AFL-CIO and the Hawaii State Association of Electrical Workers.

Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations (DLIR), the General Contractors Association of Hawaii, and the Hawaii Chapter of the Associated Builders and Contractors, Inc.

Your Committees find that prevailing wage standards exist in order to prevent contractors from unfairly depressing the wages of those working on public works projects, thereby enabling them to unfairly underbid such projects. Under the current law, all laborers and mechanics working onsite at a public works project are entitled to prevailing wages, as determined by the Director of DLIR; however, the law does not extend to those laborers and mechanics working on the project but not at the job site. Your Committees further find that the payment of prevailing wages to required assistants, helpers, tenders, and apprentices of those laborers and mechanics, whether on or off the job site, is also not required under the law at present. These individuals, however, should also be receiving the payment of prevailing wages to ensure uniformity in the execution of public works projects. Therefore, your Committees determine that the establishment of clear standards in the law will provide equally patent guidelines for DLIR to follow in its enforcement of prevailing standards.

Your Committees believe that this measure should continue to advance throughout the legislative session and have amended this measure by changing the effective date of the Act to July 1, 2050 in order to facilitate further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Labor and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 933, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 933, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, 1 (Slom). Excused, 4 (Hee, Menor, Taniguchi, Whalen).

SCRep. 381 (Joint/Majority) Labor and Transportation and Government Operations on S.B. No. 935

The purpose of this measure is to require any state funded construction project to establish certified payroll and comply with the Davis Bacon Act.

Testimony in support of this measure was submitted by the International Brotherhood of Electrical Workers Local Union 1186 and the Hawaii State Association of Electrical Workers. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations.

Your Committees find that it is crucial to ensure that minimum standards of prevailing wages and that proper reporting and monitoring, including through certified payroll, are maintained for public works projects. In order to affect the greatest number of

projects possible where government funds are utilized, your Committees determine that the law should be expanded to include projects funded by special purpose revenue bonds and to remove the requirement that a governmental contracting agency be a party to the contract.

Your Committees have amended this measure by deleting the definition of “governmental contracting agency” in section 104-2(a), as applicable to that subsection.

As affirmed by the records of votes of the members of your Committees on Labor and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 935, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 935, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, 1 (Slom). Excused, 4 (Hee, Menor, Taniguchi, Whalen).

SCRep. 382 (Majority) Labor on S.B. No. 1053

The purpose of this measure is to appropriate funds to increase efforts to educate employers and employees of the requirements of the Prepaid Health Care Act (PHCA) and to increase compliance with the PHCA through monitoring and auditing of employers.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations (DLIR).

Your Committee finds that although Hawaii mandates health coverage for employees within the State under the PHCA, which was enacted in 1974, many employers and employees are unaware of many of the requirements and benefits provided for under the law. Your Committee determines that increased efforts are necessary in order to better educate the public regarding their rights and responsibilities under the PHCA. Additionally, funds are necessary to allow the DLIR to ensure compliance with the PHCA through enhanced monitoring and auditing of employers.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1053 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 383 Labor on S.B. No. 61

The purpose of this measure is to authorize an employer, upon receipt of written authorization by an employee, to provide the employee with an electronic record which contains the employee's total gross and net compensation, deductions, the date of payment, and the pay period covered, in lieu of a printed, typewritten, or handwritten record.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations and Verizon Hawaii.

Your Committee finds that under the current law, an employer is only authorized to provide an employee with a printed, typewritten, or handwritten record of payment. However, with the advancements in technology in the workplace, the law must also evolve to accommodate additional forms of transmitting and receiving information. Therefore, your Committee determines that the utilization of electronic payment stubs will provide employers with a cost-effective alternative for the transmission of wage information to those employees who request electronic records.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 61 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 384 (Majority) Labor on S.B. No. 579

The purpose of this measure is to allow for the establishment of a three-year volunteer employees' beneficiary association (VEBA) trust pilot program that allows public employee organizations to provide health benefits to its members.

Specifically, this bill:

- (1) Exempts employees covered by VEBA trusts from mandatory participation in the Hawaii Employer-Union Health Benefits Trust Fund (EUTF) pursuant to chapter 87A, Hawaii Revised Statutes;
- (2) Allows public employee organizations that establish VEBA trusts to provide health benefits to members both during their employment and throughout their retirement years; and
- (3) Provides current retirees, who were members of a public employee organization prior to their retirement, with a one-time option of electing to participate in either the Hawaii EUTF or a VEBA trust established by their public employee organization.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association, the Hawaii State Teachers Association – Retired, and eight individuals. Testimony in opposition to this measure was submitted by the Department of Human Resources Development and the Department of Budget and Finance.

Your Committee finds that with the escalating cost of medical coverage, alternate methods for the provision of health benefits to public employees must be explored and analyzed. Your Committee further finds that a pilot program for the establishment of VEBA trusts will provide valuable insight to the viability of VEBA trusts as a cost-savings mechanism for the State. Your Committee determines that information provided indicates that VEBA trusts will provide public employees with an option for health care coverage, apart from participation in the EUTF, without any increase in cost to the State or the various counties. Your Committee believes that this measure will help to encourage increased competition and result in lower premium rates for public employee health insurance.

Your Committee has amended this measure to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 579, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 579, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 385 (Majority) Labor on S.B. No. 977

The purpose of this measure is to provide protection for public employees who report information on the misuse or waste of public funds or the commission of fraud by other public employees or public bodies.

Testimony in support of this measure was submitted by the Department of Human Resources Development and the Hawaii Government Employees Association. Comments on this measure were also submitted by the Department of Labor and Industrial Relations.

Your Committee finds that although the law provides for the protection of employees against discharge, threats or other discrimination as the result of the employee's act of whistleblowing, additional protection should be afforded to public employees. Many public employees are reluctant to report the misuse of public funds or the commission of fraud by other public employees or a public body for fear of retaliation. Your Committee determines that the law must encourage public employees to come forward and report these types of acts in order to promote efficient, effective and honest government, through the protection of public employees who report such acts.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 977 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 386 Labor on S.B. No. 1052

The purpose of this measure is to provide coverage under the employer-union health benefits trust fund (EUTF) for children who are in a parent-child relationship with an employee-beneficiary and qualify as a dependent under the federal tax laws.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association and the EUTF. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations and the Department of Budget and Finance.

Your Committee finds that under the current law, a child is considered a dependent beneficiary, eligible for EUTF benefits, if the child is "a legally adopted child, stepchild, foster child, or recognized natural child who lives with the employee-beneficiary." The law does not, however, recognize other children in a parent-child relationship with an employee-beneficiary if they do not fall under the above definition. In Hawaii, many individuals are involved in relationships where they are raising a grandchild, niece, nephew, sibling, or hanai child. Your Committee believes that we must also take care of these children by ensuring that they do not become one of the many individuals who are currently uninsured. Therefore, your Committee determines that because these children are in a parent-child type relationship with the employee-beneficiary, the employee-beneficiary provides financial support for these children, and these children may otherwise be without health care coverage, their inclusion in the EUTF should be permitted.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1052 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 387 Labor on S.B. No. 1044

The purpose of this measure is to clarify when the Director of Labor and Industrial Relations shall commence proceedings for penalties for violations of the law relating to the payment of wages and other compensation.

This measure also imposes a fine of not less than \$500 for violations and not less than \$1000 for wilful or repeat violations of the law.

Testimony in support of this measure was submitted by the Hawaii State AFL-CIO and the Labor Democrats. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations.

Your Committee finds that under the current law there is little to deter an employer from violations of the wages and compensation law, as all that is required of an employer who fails to pay wages in accordance with chapter 388, Hawaii Revised Statutes (HRS), is back pay plus interest. Enforcement by the Director is also inadequate, as the Director's ability to seek penalties for violations of chapter 388, HRS, is wholly discretionary. Your Committee believes that stronger penalties are necessary in order not only to punish, but also to deter employers from violating chapter 388, HRS, and by requiring the Director to take appropriate action against violators.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with a new section regarding fines, which provides that:

- (1) A fine imposed shall be \$25 or ten percent of wages due for the first complaint;
- (2) A fine imposed shall be not less than \$100 or the amount of the wages due for a second complaint within two years of the first; and
- (3) A hearing on an appeal of a fine shall be held by a hearings officer in conformance with chapter 91, HRS.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1044, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1044, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 388 Labor on S.B. No. 1190

The purpose of this measure is to provide members of collective bargaining unit (12), police officers, with a state income tax exemption for salaries and wages as set forth in the collective bargaining agreement for unit (12).

Testimony in support of this measure was submitted by the State of Hawaii Organization of Police Officers. Testimony in opposition to this measure was submitted by Department of Taxation.

Your Committee finds that a shortage of police officers and viable candidates for becoming police officers exists within the State, and that efforts must be made to equitably compensate, retain, and recruit qualified individuals to fill these positions. During these difficult financial times, innovative methods for attracting and retaining qualified candidates must be explored. Therefore, your Committee determines that exempting the wages and salary of police officers from the state income tax provides an attractive benefit and incentive for our existing dedicated police officers and new recruits.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1190 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 389 (Majority) Labor on S.B. No. 1192

The purpose of this measure is to require the number of exempt positions not to exceed one percent of the number of full-time equivalent civil service positions.

This measure also requires the Department of Human Resources Development to make an annual report to the Legislature as to the current number and percentage of civil service exempt positions within the State.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Judiciary. Comments on the measure were also submitted by the Department of Human Resources Development.

Your Committee finds that in order to ensure that the rights and privileges of civil service are provided whenever possible, it is important for the number of exempt positions within the State to be both limited and monitored. However, due to the nature of the work and personnel involved, your Committee believes that the Judiciary should be excluded from this limitation. Your Committee further finds that the Department of Human Resources Development is the appropriate entity to monitor and report the appropriate information to the Legislature. Furthermore, it is unclear as to the specific percentage of exempt employees that would be desirable at

this time; however, your Committee also believes that this measure should continue to advance in the Legislature as further discussion on the issue will eventually produce a appropriate percentage amount.

Accordingly, your Committee has amended this measure by:

- (1) Excluding the Judiciary from the limitation on the number of exempt employees allowed within the State;
- (2) Including a blank percentage amount for the number of exempt positions allowed within the State; and
- (3) Making a technical, nonsubstantive amendment for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1192, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1192, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 390 Labor on S.B. No. 1194

The purpose of this measure is to provide for the election of members to the Board of Trustees (Board) of the Deferred Compensation Plan pursuant to rules adopted by the Board.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association. Comments on the measure were submitted by the Department of Human Resources Development.

Your Committee finds that under the current law, aside from the ex officio members of the Board, the remaining five members of the Board are appointed by the Governor, with the advice and consent of the Senate. However, to better represent the interests of the members of the deferred compensation plan, the remaining Board members should instead be elected by the plan members themselves. Your Committee determines that this method of selection will allow the decision making of the Board to be brought closer to its own constituency.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1194 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 391 Labor on S.B. No. 1277

The purpose of this measure is to extend the protection of the Whistleblowers' Protection Act to employees who report violations or information demonstrating danger to public health or safety to their employers or to government agencies.

This measure also provides that the statute of limitations period of two years does not begin to run until a physically or mentally incapacitated aggrieved employee is able to return to work.

Testimony in support of this measure was submitted by the Department of Human Resources Development. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations, the Chamber of Commerce of Hawaii, and the Society of Human Resource Management.

Your Committee finds that although it is in the best interest of the public in general for employees to report observed violations of laws or situations that may pose a danger to public health and safety, many employees choose not to due to the fear of retaliation by their employers. The current law provides some protection for employees who are brave enough to speak out against observed illegalities in the workplace; however, the law does not protect individuals who report violations that may pose a danger to health or public safety. Your Committee determines that the law should provide protection for employees who report such violations as this will help to preserve and promote efficient and safe workplaces.

Additionally, your Committee finds that currently, the statute of limitations continues to run for individuals who are physically or mentally incapacitated and unable to work, and thus unable to adequately prosecute a claim for a violation of the Whistleblowers' Protection Act. In order to provide such individuals with an adequate opportunity to properly prepare and defend a claim under the law, the statute of limitation period should be tolled during the time of the individual's incapacity.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1277 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 392 (Majority) Labor on S.B. No. 58

The purpose of this measure is to prohibit public and private hospitals from requiring nurses to work overtime, except in the case of a publicly declared state of emergency.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, the Hawaii Nurses' Association, and four individuals.

Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations, the Department of Health, Kapiolani Medical Center for Women and Children, Kapiolani Medical Center at Pali Momi, the Queen's Medical Center, Kaiser Permanente, and the Healthcare Association of Hawaii.

Your Committee finds that nurses perform a very vital function in the provision of quality health care to patients. Nurses are highly dedicated individuals who work lengthy shifts, often volunteer for additional shifts, and at all times exhibit a high level of skill and professionalism. Your Committee further finds that due to the demanding nature of the job and the long shifts involved, nurses should not be required to work overtime to cover routine personnel shortages. The practice compromises both the level of patient care provided and a nurse's ability to adequately perform the nurse's duties. Hospitals should instead practice alternative means of covering routine personnel shortages rather than automatically resorting to forcing nurses to work overtime and placing nurses in danger of losing their jobs or facing other adverse action resulting from patient abandonment.

However, your Committee believes that certain circumstances necessitate the use of mandatory overtime, including when a state of emergency exists within a particular health care facility. Your Committee determines that should circumstances arise, such as a power failure, or a natural disaster or traffic accident that may prevent nurses from attending work, the health care facility should be permitted to declare a state of emergency and require mandatory overtime for the duration of the emergency.

Accordingly, your Committee has amended this measure by:

- (1) Including language in the purpose section to allow for mandatory overtime when a state of emergency is declared within a health care facility;
- (2) Including language to authorize the use of mandatory overtime when the appropriate authority has declared a state of emergency within a health care facility; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 58, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 58, S.D. 1, and be referred to the Committee on Health.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 393 (Majority) Labor on S.B. No. 1578

The purpose of this measure is to maximize the weekly benefit amount that an eligible individual who is unemployed is entitled to receive, regardless of the wages earned by the eligible individual.

Testimony in support of this measure was submitted by the ILWU Local 142 and the Hawaii State Teachers Association. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations and the Hawaii Chamber of Commerce.

Your Committee finds that under the current law, individuals who are eligible for unemployment benefits receive a weekly benefit that is reduced by the amount of their weekly earnings in excess of fifty dollars. In Hawaii, many individuals must work multiple jobs in order to support themselves and their families. However, if these individuals become eligible for unemployment benefits, due to a loss of one of those jobs, but continue to receive earnings from other part-time employment, they are penalized for their employment through the reduction in their weekly benefit. As a result, the existing law presents a deterrent for those individuals seeking employment or individuals with multiple employers who are eligible for unemployment benefits. Your Committee determines that these eligible individuals should be allowed to maximize their employment opportunities while at the same time being encouraged to resume work to the fullest extent possible by allowing them to receive their weekly benefit amount unreduced for any wages earned.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1578 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 394 Labor on S.B. No. 1783

The purpose of this measure is to change the composition of the Board of Trustees (Board) of the Employer-Union Health Benefits Trust Fund (EUTF) from ten to fourteen members.

This measure also:

- (1) Amends the appointment procedures by requiring six trustees to be selected by each of the six exclusive representatives of the bargaining units in section 89-6(a), Hawaii Revised Statutes, with a seventh to represent retirees, selected by the aforementioned six exclusive representatives;
- (2) Changes the term of a trustee from four years to a term that is determined at the pleasure of the appointing or selecting authority;
- (3) Amends procedures for filling vacancies to be in the same manner in which the trustee who vacated the position was appointed or selected; and
- (4) Amends the number of members necessary for quorum.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and the Hawaii State Teachers Association. Testimony in opposition to this measure was submitted by the Department of Budget and Finance. Comments on this measure were also submitted by the Department of Human Resources of the City and County of Honolulu.

Your Committee finds that better representation of the employee-beneficiaries of the EUTF is necessary to protect the interests of the employee-beneficiaries. The expansion of the Board will provide fairer representation by allowing a trustee to be selected by each of the six exclusive representatives of the bargaining units under section 89-6(a), Hawaii Revised Statutes. Your Committee further finds that the current four-year term limit does not allow for ample time to truly benefit from a trustee's knowledge and abilities obtained and developed regarding the complex subject matters involving in the health care industry and plan administration. Therefore, at will terms will better serve the EUTF and its members.

Your Committee has amended this measure by changing the number of trustee votes representing the employee-beneficiaries from five to four for the matter to be handled by dispute resolution.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1783, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1783, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 395 (Joint) Education and Military Affairs and Human Services on S.B. No. 35

The purpose of this measure is to create a one-year pilot program for universal access to early childhood education for children age five or younger whose families are unable to afford quality early childhood education. This measure also appropriates funds for the pilot program and the preschool open doors program.

Testimony in support of this measure was submitted by the Department of Education, Department of Human Services, Good Beginnings Alliance, Institute for Native Pacific Education and Culture, Blueprint for Change, Family Support Services of West Hawaii, Hawaii Association for the Education of Young Children, and twenty individuals. The Atherton Family Foundation submitted comments.

Your Committees find that the movement towards universal childhood education is consistent with trends around the nation. More communities are realizing how critical pre-kindergarten services are to the proper development and preparation of young children to succeed in school. The initiatives in this measure will further the State's efforts in providing quality early childhood education to families that are unable to afford programs.

In consideration of the supportive testimony submitted, your Committees have amended this measure to extend the pilot project to two years and include the development of a quality rating system.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 35, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 35, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Ihara, Kokubun, Tsutsui).

SCRep. 396 (Joint) Education and Military Affairs and Judiciary and Hawaiian Affairs on S.B. No. 1533

The purpose of this measure is to propose a constitutional amendment to require a seventeen-member Board of Education.

Specifically:

- (1) The Board of Education would be composed of seventeen voting members elected in a nonpartisan manner;
- (2) Each school board district would be composed of three representative districts; and

- (3) The chief election officer would delineate districts until the 2010 reapportionment plan is adopted.

Testimony in support of the measure was submitted by the Hawaii State Teachers Association, one member of the Board of Education, and an individual. The Office of Elections, and Hawaii Government Employees Association submitted comments.

Your Committees find that this measure allows for the exploration of alternative structures to provide the voter a better opportunity to communicate their needs and issues to a Board of Education member. This alternative direction will allow the board members to be more easily identifiable and accountable to their constituents.

Although there were relevant concerns raised by testifiers, your Committees find merit in the proposed structure. It is the intention of your Committees to approve this measure so as to continue the discussion of the need for improving the structure of the board.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1533 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Hee, Ihara).

SCRep. 397 Media, Arts, Science and Technology on S.B. No. 1171

The purpose of this measure is to establish a method by which the State can collect current use taxes now being lost on electronic commerce sales.

Testimony in support of the measure was received from the Retail Merchants of Hawaii, the Hawaii Government Employees Association, and the law firm of Chun, Kerr, Dodd, Beaman, and Wong. The Department of Taxation took no position on the measure. The Tax Foundation of Hawaii submitted comments.

Specifically, the measure requires the Department of Taxation (Department) to study issues dealing with the Streamlined Sales Tax Project and make recommendations to the Legislature through informational briefings by November 2005. The measure also requires the Department to submit proposed legislation to the Legislature prior to the convening of the 2006 Regular Session to implement a streamlined sales and use tax.

Your Committee finds that, according to the National Conference of State Legislatures, in 2003, Hawaii lost approximately \$112,000,000 to \$117,000,000 in state and local revenues due to the State's inability to capture tax revenues from electronic commerce transactions. The National Conference of State Legislatures, based on a study conducted by the University of Tennessee, estimates that, by 2008, Hawaii will lose between \$157,000,000 and \$245,500,000, and states that, if nothing is done by that time, Hawaii stands to be one of the top ten states in terms of tax revenues lost in electronic commerce transactions.

A February 11, 2005, Honolulu Advertiser article reported that, according to a study conducted by Scarborough Research, a New York-based media research firm, fifty-two per cent of homes, or a projected 316,380 people in Honolulu, access the Internet via a pricier broadband connection, compared with a national average of thirty-three per cent. The Honolulu Advertiser article noted that this is the second time Honolulu has ranked first in broadband use on the survey conducted by the New York-based media research firm.

According to the Scarborough study, ten per cent of Honolulu's broadband users spent \$2,500 or more in the past year, compared with a national average of nine per cent. Seventeen per cent of local broadband users spent between \$1,000 and \$2,499 a month, versus fifteen per cent nationally. The Honolulu Advertiser article concluded from the study's findings that Honolulu internet users with broadband connections spend more money online per month than high-speed surfers in other major cities across the United States.

The article stated that the most shopped-for items by Honolulu users were airline tickets, clothing or accessories, books, computer hardware and software, and CDs, tapes, and other music. Your Committee notes that all these transactions are retail transactions and, as such, would be subject to the State's existing use tax. Unfortunately, because no uniform means of collecting the State's use tax exists for electronic commerce transactions, the use taxes on the vast majority of these transactions go uncollected.

Your Committee also finds that, as of January 1, 2003, the Department of Taxation established a use tax project to collect more use tax on automobiles imported into the State. The use tax project involved the development and issuance of a new G-27 (Motor Vehicle Use Tax Certification) tax form by the Department of Taxation in order to make it easier for registrants of vehicles imported into the State to pay for the use tax at the same time they register the vehicle with a county. In the 2002 tax year, prior to the use tax project's establishment, the Department of Taxation collected \$48,913 from non-business taxpayers registering imported vehicles. In the 2003 tax year, after the implementation of the use tax project, the Department of Taxation's collections for the same category jumped over seven hundred per cent to \$385,079. The results of this project show the potential of how the State can capture a greater amount of uncollected tax revenue if the State adopts a mechanism that provides a more efficient means of tax identification and collection. Your Committee believes that the uniform streamlined sales and use tax can be that mechanism.

Your Committee further finds that the 2001-2003 Hawaii Tax Review Commission recommended that the State participate in the Streamlined Sales Tax Project. To this end, the Legislature enacted Act 173, Session Laws of Hawaii 2003, which authorized the State to engage in interstate discussions to develop a simplified sales and use tax system.

Act 173, Session Laws of Hawaii 2003, codified as Chapter 255D, Hawaii Revised Statutes, is substantially similar to the model legislation drafted and recommended by the National Conference of State Legislatures for adoption by the states. The model legislation and Chapter 255D, Hawaii Revised Statutes, direct the revenue departments of participating states to engage in multi-state discussions to develop a simpler, uniform, and fairer system of sales and use taxation, that removes the burden imposed on retailers, preserves state sovereignty, and enhances the ability of the United States firms to compete in the global economy.

To assist the Department of Taxation, Chapter 255D, Hawaii Revised Statutes, also established an advisory council that was to be appointed by the Governor with whom the Department was to confer with when developing and advocating the State's streamlined sales and use tax policy.

To date, no advisory council members have been appointed and the advisory council has yet to be convened. Therefore, your Committee has amended the measure by adding provisions that amend Chapter 255D, Hawaii Revised Statutes, by repealing the establishment of the advisory council and all references appertaining thereto.

Your Committee believes that, based on the estimated revenue losses to the State attributable to uncollected electronic commerce transactions that are subject to Hawaii's existing use taxes, the State should immediately act upon the agreement of Project participating states to enact a uniform streamlined sales and use tax. Your Committee further believes that the provisions of the amended measure accomplish this purpose.

Your Committee has also made a few technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1171, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1171, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ige).

SCRep. 398 Labor on S.B. No. 424

The purpose of this measure is to prohibit weekly unemployment benefit payments from being reduced by pension payments received under the Social Security Act or the Railroad Retirement Act of 1974.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations and the Hawaii State Teachers Association.

Your Committee finds that under the current law, pension benefits are deducted from an individual's unemployment insurance weekly benefit amount based upon the amount the employee contributed to the pension plan. Therefore, if the employee has made a zero to forty-nine percent contribution to the pension plan, then one hundred percent of the pension benefit is deducted; if the employee has made a fifty to ninety-nine percent contribution to the pension plan, then fifty percent of the pension benefit is deducted; and if the employee has made a one hundred percent contribution to the pension plan, there is no deduction.

In Hawaii, the age of the workforce is increasing. Many retired individuals return to the workforce due to economic reasons or due to a need for knowledgeable and skilled workers that cannot otherwise be fulfilled. In either situation, your Committee determines that these individuals should not be penalized when they are collecting Social Security benefits earned after years of work and contributions.

Accordingly, in order to ensure that the intent of the measure is appropriately accomplished, your Committee has amended the measure by:

- (1) Clarifying that notwithstanding subsections (a) and (b) of section 383-23.5, Hawaii Revised Statutes, weekly unemployment benefits shall not be reduced by payments received under the Social Security Act or the Railroad Retirement Act of 1974; and
- (2) Changing the effective date of the Act to January 1, 2006 in order to ensure proper and accurate application of the new requirements.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 424, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 424, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 399 (Majority) Labor on S.B. No. 533

The purpose of this measure is to amend the definition of "sick leave" under the family leave law and to allow the use of sick leave in excess of the statutory minimum amount for temporary disability benefits for family leave purposes.

Testimony in support of this measure was submitted by the Hawaii State AFL-CIO, the United Public Workers, AFSCME, Local 646, AFL-CIO, the Hawaii State Teachers Association, and the ILWU Local 142. Testimony in opposition to this measure was

submitted by the Society for Human Resource Management. Comments on this measure were submitted by the Department of Labor and Industrial Relations (DLIR) and the Department of Human Resources Development.

Your Committee finds that in 2003, the Legislature enacted Act 44, Session Laws of Hawaii 2003, which allowed employees with sick leave benefits to utilize up to ten days of accrued and available sick leave for family leave purposes. Subsequent to this enactment, the Legislature further determined that the intent of Act 44 was not being effectuated by DLIR in its enforcement. The denial of the use of sick leave benefits for family leave purposes was apparently due to a loophole wherein the statutory minimum amount of temporary disability insurance benefits required may be less than the minimum amount required under an employer's self-insured plan that is accepted by DLIR. Once accepted by DLIR, no sick leave in excess of the minimum amount specified under the plan may be utilized for family leave purposes, although such is in excess of the statutory minimum amount of TDI benefits. Your Committee believes that amendments to the current law are necessary in order to reflect the true intent of Act 44.

Additionally, your Committee finds that DLIR has indicated that it has or will be seeking an Attorney General's opinion regarding the issue of whether the further extension of the application of Act 44 to benefits plans subject to the Employee Retirement Income Security Act would be preempted. Your Committee believes that this measure should continue to move forward through the legislative process; however, it also finds that this issue should continue to be monitored to determine whether further amendments to the law are necessary.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 533 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 400 Labor on S.B. No. 741

The purpose of this measure is to authorize the Board of Trustees of the Employees' Retirement System (ERS) to include the post retirement allowance as an actuarial assumption in the calculation of a member's retirement benefit.

Testimony in support of this measure was submitted by the Employees' Retirement System, the Hawaii State Teachers Association, and the Hawaii Fire Fighters Association.

Your Committee finds that beneficiaries of the ERS are entitled to a post retirement allowance providing for a fixed annual increase in the benefits payable to them. The ERS, unlike most public pensions with similar retirement benefit provisions, does not include the effect of post retirement adjustments in the actuarial assumptions on which the actuarial equivalency of benefit options are determined. However, the effect of the post retirement allowance is one of the assumptions which the ERS' actuary utilizes to value the system's assets and liabilities. Your Committee determines that the current law should specifically authorize the Board to approve the effect of post retirement allowances as an assumption for the purpose of establishing amounts payable under the benefit options available pursuant to sections 88-83, 88-283, and 88-333, Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 741 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 401 Labor on S.B. No. 1566

The purpose of this measure is to exclude members of collective bargaining unit (12) from participation in the employer-union health benefits trust fund (EUTF).

Testimony in support of this measure was submitted by the State of Hawaii Organization of Police Officers. Testimony in opposition to this measure was submitted by the Hawaii Government Employees Association. Comments on the measure were also submitted by the EUTF and the Department of Budget and Finance.

Your Committee finds that members of collective bargaining unit (12), police officers, provide a unique and invaluable service to the community. Over the years, a shortage of police officers and viable candidates for becoming police officers has existed within the State, and efforts must be made to equitably compensate, retain, and recruit qualified individuals to fill these positions. Due to financial constraints, alternative methods for adequately compensating these individuals must be explored.

Your Committee further finds that the cost of health care benefits has and will continue to increase over the years. The provision of affordable health care presents an attractive benefit both for retaining existing police officers and recruiting new police officers.

Additionally, your Committee determines that, based upon representations by SHOPO, more affordable health care benefits can be obtained if police officers are excluded from the EUTF and allowed to obtain health coverage on their own.

Accordingly, your Committee has amended this measure by:

- (1) Including an amendment to section 87A-32, Hawaii Revised Statutes, to provide for county contributions to SHOPO for health care coverage outside of the EUTF; and
- (2) Changing the effective date of the Act to July 1, 2050 in order to facilitate further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1566, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1566, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 402 (Joint) Labor and Education and Military Affairs on S.B. No. 1640

The purpose of this measure is to limit the State's ability to recover moneys from a public school teacher, due to an overpayment error of the Department of Education (DOE), to two years from the date of the overpayment.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association and the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the DOE and the Department of Accounting and General Services.

Your Committees find that overpayments may occur within the DOE for a number of different reasons, including reclassification errors, incorrect payment of shortage differentials, payment after the employee has terminated service, or duplicative payments when a teacher transfers between school systems. Your Committees further find that these errors may not always be readily detectable. Thus, if the DOE does not detect the error, then the teacher will most likely not detect the error as well. As a result, the repayment of an overpayment by a teacher can cause an unexpected financial burden, particularly in light of the current economic climate. Therefore, your Committees determine that a reasonable limit on the time within which the DOE can recover overpayment moneys should be imposed in order to balance the interests of both the DOE and the teachers.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1640 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 403 (Joint) Labor and Education and Military Affairs on S.B. No. 1865

The purpose of this measure is to amend the composition of the workforce development council (WDC) to include the private business sector chairpersons from the four county workforce investment boards, or their designees.

This measure also:

- (1) Limits the term of the four members of the WDC from the legislature to two years;
- (2) Amends the duties of the WDC to include job training program funding disbursement and a determination of the actual time required to complete programs; and
- (3) Appropriates funds for job training and education programs of the Department of Education and the University of Hawaii.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations, the WDC, and the University of Hawaii.

Your Committees find that in 2004, the Legislature passed H.C.R. 112, H.D. 1, which sought specific information on actions undertaken with regard to the identification and development of industry clusters, the development of labor supply and demand matrices, and the expansion of the educational pipeline. In response, the WDC indicated that increased numbers of individuals must continue on to post-secondary education because jobs in the future will require advanced education. Therefore, your Committees find that the WDC's comprehensive state plan should be amended to include provisions aligning job training and education programs in the K-12 grades and post-secondary settings with needs in today's labor market and by obtaining an assessment on the length of time for the completion of these types of programs.

Additionally, your Committees determine that in order to ensure that the local workforce investment boards are adequately represented and that open communication exists, the chairpersons of the county workforce investment boards should be members of the WDC.

Your Committees have amended this measure by:

- (1) Including language to provide for the appropriation of funds for the entire 2005-2007 biennium;
- (2) Changing the effective date of the Act to July 1, 2050 in order to facilitate further discussion on the matter; and

- (3) Making a technical, nonsubstantive amendment for purposes of clarity and style.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1865, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1865, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 404 Transportation and Government Operations on S.B. No. 505

The purpose of this measure is to exclude Piers 1 and 2 from the Kakaako Community Development District.

Your Committee received testimony in support of this measure from the ILWU Local 142, The Chamber of Commerce of Hawaii, Matson Navigation Company, Young Brothers, Limited, North West Cruiseship Association, Waldron Steamship Co., Ltd., Maritime Consultants of the Pacific, Inchcape Shipping Services, Aloha Cargo Transportation, and one individual. Testimony in opposition was received from the Department of Transportation (DOT), Department of Business, Economic Development and Tourism (DBEDT), and Hawaii Community Development Authority (HCDA).

Your Committee notes the difference of opinion as to whether Honolulu's main waterfront should be a part of the comprehensive development plan for the Kakaako area or be a part of the DOT. Testimony of the DOT, DBEDT, and HCDA indicates that they recognize the importance and need for expanding commercial cargo space in Honolulu Harbor. However, they also recognize the competing importance of people-oriented maritime uses such as cruise ship activities that create the greatest return on investment to the State.

There are currently two significant and perhaps irreconcilable approaches to planning for Honolulu Harbor. One approach would emphasize cargo shipping, container space, and related parking. The other approach would emphasize holistic planning to meld the waterfront with the surrounding community development. The latter approach would plan for cruise ships and terminals. Both uses are of utmost importance. As an island state, Hawaii depends upon moving cargo and people in a constant stream of economic flow. The main artery of this flow is Pier 1 and Pier 2. The root of the problem is a lack of space.

Your Committee urges the DOT to plan prudently for Hawaii's future by ensuring there are sufficient cargo ship and container facilities, if not at Honolulu Harbor then at Barbers Point and Kalaeloa. Your Committee passes this measure on the basis that Hawaii must maintain the flow of shipping into and out of the State. Shipping is the lifeline of our citizens.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 505 and recommends that it pass Second Reading and be referred to the Committee on Water, Land, and Agriculture.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 405 Transportation and Government Operations on S.B. No. 706

The purpose of this measure is to require the suspension of driver's licenses of persons under age twenty-one for violating the law prohibiting consumption, possession, or use of alcohol by minors.

Your Committee received testimony in support of this measure from the Office of the Lieutenant Governor, State Attorney General, Department of Education, Department of Health (DOH), Department of Human Services, Honolulu Prosecuting Attorney, Honolulu Police Department, a State Representative, a Kauai County Council member, Hawaii Food Industry Association, Mothers Against Drunk Driving Hawaii, University of Hawaii Parent Association, Sassy Magazine, and one individual. Testimony in opposition was received from the Public Defender.

This measure is part of the Hawaii Drug Control Plan, the framework for the State to move forward with a coordinated and comprehensive approach to address illicit drug use and underage drinking. Alcohol is the number one drug of choice for teens in Hawaii and is commonly recognized as a gateway drug. The continued use of alcohol often leads to illicit drug use. It has been reported that underage drinking cost the State \$182 million in 2001.

Excessive amounts of alcohol can impair judgment, provoke risky and violent behavior, and slow down reaction time. An intoxicated person behind the wheel of a car is a lethal weapon on the road. Furthermore, according to the DOH, researchers have associated drinking with early sexual intercourse and, as a result, unintended pregnancies and sexually transmitted diseases. When alcohol is consumed in combination with other drugs, the results can be even more devastating.

Underage drinking is an extremely prevalent problem. It has been estimated that a higher percentage of youths between ages twelve and twenty use alcohol (twenty-nine percent) than use tobacco (23.3 percent) or illicit drugs (14.9 percent). National statistics show that in 2002, about two million minors age twelve to twenty drank five or more drinks on an occasion, five or more times a month. Alcohol consumption is responsible for death and injury in motor vehicle accidents, as well as homicides, suicides, sexual assaults, and unintentional injuries.

A driver's license is the prized possession of teenagers. Knowledge that a conviction for underage possession of alcohol will result in temporary loss of driving privileges is likely to deter many potential underage drinkers from possessing alcohol until they are legally entitled to do so. This measure can save lives by deterring underage drinking and drunk driving.

Your Committee has amended this measure by:

- (1) Increasing the license suspension period to a minimum of one hundred eighty days;
- (2) Requiring seventy-five hours of community service;
- (3) Requiring an eight to twelve hour program of alcohol abuse education and counseling, with the costs to be borne by the offender or the offender's parent or guardian; and
- (4) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 706, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 706, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 406 (Joint/Majority) Transportation and Government Operations and Intergovernmental Affairs on S.B. No. 963

The purpose of this measure is to create a county highways task force within the Department of Transportation (DOT) to oversee the transfer of all state highway functions to the counties.

Your Committees received testimony in support of this measure from the Honolulu Department of Transportation Services. Testimony in opposition was received from the DOT.

This measure would make each county responsible for the highways that are located in that county, and to transfer funding for state highways to the counties. The intent of your Committees is for the task force to determine the feasibility of a transfer and the elements of implementation. Your Committees do not intend that federal highway funding be placed at risk, and request the task force to address this issue as well.

Your Committees have amended this measure by requiring the task force to conduct a comprehensive review of the functions of the state division of highways and the transportation functions of the counties to determine the pros and cons of consolidation, with recommendations relating to the feasibility of a transfer.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 963, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 963, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, 1 (Slom). Excused, 4 (English, Kanno, Nishihara, Whalen).

SCRep. 407 Transportation and Government Operations on S.B. No. 1127

The purpose of this measure is to delete the requirement that small purchase contracts require offerors to produce documents to the procurement officer to prove that they are incorporated or organized under, or registered to do business in, the State, and comply with business regulations.

Your Committee received testimony in support of this measure from the Department of Accounting and General Services (DAGS), Department of Budget and Finance, Hawaii County, Honolulu Department of Budget and Fiscal Services, and Kauai Water Department. Comments were received from the State Procurement Office (SPO).

This measure reduces the administrative burden on state and county agencies by eliminating the need to verify vendor and contractor compliance in procurement procedures for purchases less than \$25,000.

Your Committee has amended this measure on the recommendation of DAGS and SPO by repealing references to incorporation, registration, and organization under Hawaii law as being unnecessary if the other requirements under the law are met.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1127, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1127, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 408 (Joint) Transportation and Government Operations and Intergovernmental Affairs on S.B. No. 1222

The purpose of this measure is to authorize actions by the State and counties to recover the costs of search and rescue against a person whose failure to exercise reasonable care or failure to comply with the law or public safety warnings necessitated the search and rescue.

Your Committees find that search and rescue operations are enormously expensive, depending on the degree of difficulty, involving personnel and search craft. Oftentimes, the rescue was necessitated by the victim's own heedless and careless behavior. This measure clarifies current law to allow recovery in those kinds of situations.

Your Committees have amended this measure by making a technical, nonsubstantive amendment.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1222, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1222, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (English, Kanno, Nishihara, Whalen).

SCRep. 409 (Joint) Transportation and Government Operations, Water, Land, and Agriculture and Intergovernmental Affairs on S.B. No. 1595

The purpose of this measure is to repeal the automatic permit approval law set forth in section 91-13.5, Hawaii Revised Statutes.

Your Committees received testimony in support of this measure from the University of Hawaii Environmental Center, Life of the Land, Sierra Club, Protect Ohana, and Ilio'ulaokalani Coalition. Testimony in opposition was received from the Department of Land and Natural Resources, Land Use Research Foundation of Hawaii, and Building Industry Association-Hawaii. Comments were submitted from the Public Utilities Commission.

Your Committees find that the automatic permit approval law was intended to expedite the permit approval process. Delays are most commonly caused by a heavy caseload or by a failure to obtain a quorum for board voting. The law was adopted to ensure that the administrative failure to timely consider a permit did not cause the applicant to suffer lengthy and costly delays.

Automatic approvals are most controversial in cases involving construction projects because of the potential detrimental effect on the environment. Developers incur mounting costs with longer delays, yet automatically approving their permits can have a seriously negative impact on the public.

Your Committees believe that this measure needs further discussion to balance the competing interests to reach a fair and reasonable result. Therefore, your Committees have amended this measure by changing the effective date to July 1, 2020.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Water, Land, and Agriculture and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1595, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1595, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 5 (Baker, Hooser, Kanno, Nishihara, Slom).

SCRep. 410 Health on S.B. No. 784

The purpose of this measure is to clarify and specify the management and control of service provided by the twelve hospitals of the Hawaii Health Systems Corporation.

Hawaii Health Systems Corporation submitted testimony in support of this measure. The Hawaii Government Employees Association submitted testimony in opposition.

Your Committee finds that the business of health care is not only highly competitive, it is dynamic and constantly changing. As Hawaii Health Systems Corporation noted in its testimony, the changing environment creates many opportunities for improving on quality of care, increasing the services that can be offered and for enhancing the delivery of that care. However, if a health care organization does not have the flexibility and authority to make prudent operational and management decisions, that same dynamic health care delivery environment can also result in the loss of millions of dollars in revenue, or result in millions of dollars in unnecessary costs.

Upon further consideration, your Committee has amended this measure by adding a provision that establishes a decision-making process before making the determination to substantially reduce or eliminate any direct patient care services, including that any action recommended as a result of the process be reported to the Legislature within ten days of board approval.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 784, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 411 Health on S.B. No. 1310

The purpose of this measure is to add violence against health care professionals to the offenses of assault in the second degree and terroristic threatening in the first degree.

The Healthcare Association of Hawaii and one individual submitted testimony in support of this measure. The Office of the Public Defender submitted testimony in opposition.

Your Committee finds that health care workers face a high level of risk of work-related assaults and threats stemming from several factors, including the increasing presence of handguns and other weapons among patients, their families, and friends. The Healthcare Association of Hawaii cited one national study that revealed in a ten year period, one hundred and six occupational violence-related deaths occurred among pharmacists, physicians, registered nurses, nurses' aides, and health care workers in other occupational categories. Violence and threats are also a problem among emergency medical service personnel. Many of the threats are the result of mental illness, emotional distress, lack of the provider's medical capabilities, drug or alcohol abuse, or a manifestation of a medical condition. This measure will promote awareness and act as a deterrent to help ensure the safety of health care workers.

Your Committee has amended this measure by making technical, non-substantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1310, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1310, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 412 Health on S.B. No. 115

The purpose of this measure is to appropriate funds to the Department of Health to provide cost-effective medical care for uninsured Hawaii residents.

The Healthcare Association of Hawaii and Hawaii Primary Care Association submitted testimony in support of this measure. The Department of Health submitted comments.

Your Committee finds that approximately ten percent of the population of the State has no public or private health insurance. As the Healthcare Association of Hawaii testified, nonprofit, community-based, health care centers in particular have proven to be effective in providing comprehensive primary care services to residents of poor and disadvantaged communities. This measure appropriates funds that will enable these providers to serve Hawaii's relatively large population of uninsured people.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 115 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 413 Health on S.B. No. 1469

The purpose of this measure is to establish a surcharge for each marriage license granted for additional benefit and compensation for non-civil service agents who issue the licenses.

The Department of Health submitted comments.

Your Committee finds that the current benefit and compensation rate for a non-civil service marriage license agent is nine dollars per license. This rate has not changed since 1998. The legislature finds that the current benefit and compensation is insufficient to meet the operating costs of an agent. This measure will increase the benefit and compensation for a non-civil service agent and ensure that these services remain readily available to people throughout the State.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1469 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 414 Health on S.B. No. 1624

The purpose of this measure is to exempt physicians licensed in the State of Hawaii from the requirement of obtaining preauthorization prior to treating Medicaid recipients suffering from human immunodeficiency virus, acquired immune deficiency virus, hepatitis C, or transplant patients in need of immunosuppressives.

Testimony in support of the measure was received from the National Association of Hepatitis Task Forces, the Hepatitis Hale Treatment & Support Program and the Hepatitis Prevention, Education, Treatment, and Support Network of Hawaii, and two individuals. Testimony in opposition to the measure was received from the Department of Human Services.

Your Committee finds that the present requirement of preauthorization in order to treat a Medicaid patient suffering from human immunodeficiency virus, acquired immune deficiency virus, hepatitis C, or being a transplant patient in need of immunosuppressives, hinders the ability of a physician to quickly respond to the sometimes rapidly deteriorating health of a patient afflicted with these illnesses and conditions. Your Committee also finds that a preauthorization exemption for physicians licensed in this State will allow these physicians to promptly respond to the medical needs of these patients and will afford them the flexibility to tailor medication treatment to meet patients' needs.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1624 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 415 (Joint) Media, Arts, Science and Technology and Transportation and Government Operations on S.B. No. 33

The purpose of this measure is to implement a statewide telecommuting policy for state employees in order to reduce Hawaii's dependence on fossil fuel, significantly reduce traffic congestion on Hawaii's roadways, and afford Hawaii residents more time with their families.

Your Committees received comments regarding this measure from the Department of Human Resources Development, which supports the intent of the measure.

Your Committees heard testimony that the Department of Human Resources Development has implemented alternative measures to help achieve the same goals as telecommuting, while affording employees more time with their families, by promoting flexibility in employees' work schedules through an alternative workweek program and flexible working hours policy and procedure for full-time and part-time employees. Your Committees find that the Department of Human Resources Development's strategies are a good first step to reaching the stated goals. Your Committees believe that adopting a statewide telecommuting policy will expedite the reduction of Hawaii's dependence on fossil fuel, reduce traffic congestion, and support Hawaii's families.

Your Committees have amended this measure by transferring its provisions to chapter 78, Hawaii Revised Statutes, in order to apply to all state employees and by deleting subsection (c) on rulemaking as it is unnecessary. Your Committees also have amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 33, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 33, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 3 (Baker, English, Kanno).

SCRep. 416 (Joint) Media, Arts, Science and Technology and Transportation and Government Operations on S.B. No. 1547

The purpose of this measure is to authorize the Governor to establish a fair access commission and to require the fair access commission and the joint legislative access committee to review, evaluate, and make recommendations for improving the level of access by neighbor island and rural Oahu residents.

Your Committees received testimony in support of this measure from Citizen Voice.

Your Committees find that although a centralized government provides for efficient coordination of state functions and services, information accessibility for neighbor island and rural Oahu residents remains an ongoing challenge. A statewide fair access commission was last convened in 1989, and your Committees believe that the commission will prove useful again. Your Committees further believe that this commission, working in conjunction with the joint legislative access committee, would ensure fair access to legislative proceedings and information for all of Hawaii's communities, including neighbor island and rural Oahu residents.

Your Committees have amended this measure by adding fair access to the judiciary, subject to public access limitations as provided in chapter 92F, Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1547, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1547, S.D. 1, and be referred to the Committees on Judiciary and Hawaiian Affairs and Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Baker, English, Kanno).

SCRep. 417 Transportation and Government Operations on S.B. No. 608

The purpose of this measure is to require every physician and surgeon attending or treating a traumatic injury to report that injury to the police if the injury was caused in a motor vehicle collision resulting in serious injury or death.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney, Honolulu Police Department, and The Queen's Medical Center. Testimony in opposition was received from the Board of Medical Examiners.

Section 453-14, Hawaii Revised Statutes, mandates the reporting of certain suspicious injuries or wounds by physicians or surgeons to the police. This measure would add the reporting of those kinds of injuries as a result of a motor vehicle collision resulting in serious injury or death. The information required to be reported is the name of the injured person, description of the nature, type, and extent of the injury, and other pertinent information useful to the police.

This measure is an outgrowth of concerns raised about the privacy prohibitions in the federal Health Insurance Portability and Accountability Act (HIPAA) and the possibility of liability for disclosure of information. Your Committee notes that HIPAA already provides an exemption for the release of health care or medical information for legitimate law enforcement purposes.

The information sought by law enforcement is extremely critical, particularly in cases involving motor vehicle crashes where evidence of drug or alcohol use is necessary to prove impaired driving and negligent homicide cases.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 608 and recommends that it pass Second Reading and be referred to the Committees on Commerce, Consumer Protection, and Housing and Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, 1 (Kanno).

SCRep. 418 Transportation and Government Operations on S.B. No. 773

The purpose of this measure is to provide protections to law enforcement officers when they are engaged in civil defense functions of protecting vital facilities, critical infrastructure, or public properties from a potential or actual terrorist threat or act, or by engaging in operations or otherwise responding to any potential or actual terrorist threat or act.

Your Committee received testimony in support of this measure from the State Department of Defense and Hawaii County Police Chief.

Under current law, law enforcement officers engaged in civil defense are not afforded the same protections as members of the state militia, National Guard, active duty military, and Coast Guard even though they are asked to engage in the same role in a civil defense function.

Your Committee believes that law enforcement officers need to have the same protections and immunities as the National Guard enjoys during the exercise of civil defense functions. It is well known that police are the first responders and are on the scene even before the National Guard is called in.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 773 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 419 Transportation and Government Operations on S.B. No. 1343

The purpose of this measure is to require all emergency shelters in the State to be in compliance with recommended Federal Emergency Management Agency (FEMA) hurricane standards for doors and windows.

Your Committee received testimony in support of this measure from the State Department of Defense (DOD), Oahu Civil Defense Agency, and Select Building Products Hawaii, LLC.

The primary objective for providing community shelters is ensuring the safety of the occupants within the shelters, most commonly in hurricanes. FEMA has conducted studies to determine design parameters for shelters intended to provide protection from tornadoes, hurricanes, and other extreme wind events. FEMA has found that, to a large extent, wind damage and building failure are preventable

through compliance with up-to-date building codes and engineering standards and the use of construction techniques proven to minimize wind damage.

Testimony on this measure indicates that windows and doors are the most important elements of a shelter. Secure windows and doors prevent the roof from flying off, causing flying debris. Your Committee notes the recommendation of the DOD that this measure be amended to change the FEMA standards to "modern standards". FEMA standards are more stringent than modern standards. However, your Committee is not satisfied with the vague terminology of "modern standards" that could mean anything. Your Committee encourages the DOD to rework the language as this measure continues through the legislative process.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1343 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 420 Transportation and Government Operations on S.B. No. 1477

The purpose of this measure is to make an appropriation to the Department of Labor and Industrial Relations to develop a feasibility study for a Hawaii state fire and emergency training facility.

Your Committee received testimony in support of this measure from the Department of Labor and Industrial Relations.

Your Committee finds that it is imperative that Hawaii's first responders be adequately trained and prepared to respond to terrorist attacks. The proposed study would develop a needs assessment, operations plan, cost-benefit analysis, and site requirements. The study would also make recommendations concerning specialized training that is not currently provided by county fire departments. This training includes urban search and rescue operations, hazardous materials handling and disposal, weapons of mass destruction detection and safety protocols, and combating terrorism.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1477 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 421 (Joint) Energy, Environment, and International Affairs and Health on S.B. No. 680

The purpose of this measure is to clarify an ambiguity caused by the current language in section 342H-30(c), Hawaii Revised Statutes, which inadvertently may be read to apply to solid waste of less than one cubic yard.

Testimony in support of the measure was received from the Department of Health, which indicated that it was working with the Attorney General on this matter. The Attorney General supported the measure and offered proposed amendments.

Your Committees find that the measure clears up an ambiguity caused by the current language in section 342H-30(c), Hawaii Revised Statutes, regarding the amount of solid waste that is subject to the prohibitions of that section. Your Committees also find that the proposed amendments offered by the Attorney General to remove the criminal offense from section 342H-30 and create a new section for it, thus distinguishing between civil enforcement and criminal prosecution, offer further clarity. Your Committees find that the proposed amendments offered by the Attorney General address the concern for greater clarity in the solid waste control law.

Your Committees have amended the bill by moving all criminal penalties into a new, separate petty misdemeanor section.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 680, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 680, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Hemmings, Whalen).

SCRep. 422 (Joint) Higher Education and Health on S.B. No. 116

The purpose of this measure is to establish a nursing scholars program to attract baccalaureate-prepared nurses into master's and doctoral programs that will prepare them for academic careers in nursing.

Your Committees received testimony from the University of Hawaii School of Nursing and Dental Hygiene, Hawaii Government Employees Association, The Queens Medical Center, and Healthcare Association of Hawaii. The Department of Taxation provided comments.

This measure is intended to encourage baccalaureate-prepared nurses to enter graduate programs by providing the financial security to allow them to decrease the amount of paid work they undertake while in the program. This will not only decrease financial worries, but will empower students to be successful.

Nurses are primary caregivers of patients in settings such as hospitals and long-term care facilities, so a nurse shortage will be damaging to health care quality. It is imperative for a sufficient number of Hawaii residents to be educated to become nurses.

Hawaii's registered nurse workforce is aging. The 2005 projected shortage of registered nurses is 1,518, and this is expected to grow to 2,267 by 2010.

Providing assistance to students is an important part of a multifaceted response to the nursing shortage. This measure provides an incentive and added opportunity for men and women of the State to enter a graduate nursing program which will give them the educational preparation to teach nurses.

Your Committees find that the shortage of registered nurses will threaten the health and welfare of Hawaii's citizens. Hawaii's nursing schools are turning away applicants. One of the primary reasons for this is a lack of qualified faculty. The faculty shortage is attributed to various factors, such as limited financial incentives to pursue a career in nursing education, a need to maintain one's income while pursuing a graduate degree, and significant tuition and loan expenses for students who pursue graduate studies in nursing. Increasing faculty positions is an essential step towards training the next generation of nurses and reversing the nursing shortage.

Your Committees further find that it is necessary to increase the number of qualified nursing faculty to meet the demand for registered nurses in the next decade. It is necessary to increase the number of graduate students pursuing master's degrees and doctoral degrees in nursing so that they may become qualified nursing educators upon completion of their advanced degrees.

Your Committees have amended this measure by deleting the duplicate appropriation and expending agency sections. Your Committees did not appropriate funds at this time.

As affirmed by the records of votes of the members of your Committees on Higher Education and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 116, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 116, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (Hanabusa, Trimble).

SCRep. 423 Labor on S.B. No. 54

The purpose of this measure is to allow any elective officer who attains the age of sixty-five to retire and receive a service retirement allowance while continuing to fill an elective position.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, the Hawaii State Teachers Association, one Honolulu City Council member, one Kauai County Council member, and two Maui County Council members. The Employees' Retirement System submitted comments on this measure.

Your Committee finds that under the current law, only members of the Legislature are eligible to receive pensions upon attaining the age of sixty-five while continuing to serve in elective positions. However, no similar right is afforded to the executive branch or to elected officials at the county level. Your Committee determines that in order to provide parity among elected officials throughout the State, this same right should be extended to include all elective officers, as defined under section 88-21. This amendment to the law will serve to provide equity as well as attract a more diverse group of candidates for elected public service.

Your Committee has amended this measure by changing the effective date of the Act to July 1, 2050 to facilitate further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 54, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 54, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 424 (Majority) Higher Education on S.B. No. 1538

The purpose of this measure is to propose amendments to article X, section 6, and article XVIII of the Constitution of the State of Hawaii to modify the University of Hawaii Board of Regents' appointment process.

Your Committee received testimony in support of the measure from the University of Hawaii Professional Assembly.

The present system of direct nomination of members of the Board of Regents by the Governor has the potential for being overly political and thus interfering with the desire of the Legislature to increase the autonomy of the University of Hawaii system. The system of nomination could be considerably improved by narrowing the choice of nominees to a list of individuals who have been carefully chosen by a knowledgeable nominees evaluation commission of the Board of Regents.

Your Committee finds that there is a need for a constitutional amendment for the modification of the appointment process of the Board of Regents. Your Committee further finds that this measure will provide the University of Hawaii with greater autonomy to attain its long-range objectives, strengthen the selection process for regents, and provide an independent screening body to assist in identifying outstanding candidates.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1538 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Chun Oakland).

SCRep. 425 Higher Education on S.B. No. 1399

The purpose of this measure is to make an appropriation of funds to improve safety and security measures on all of the University of Hawaii (UH) campuses.

Your Committee received testimony in support of this measure from the Hawaii Government Employees Association, University of Hawaii Student Caucus, Parents and Friends of the University of Hawaii at Manoa, and one individual. The University of Hawaii supports the intent of the bill.

Your Committee finds that, in order to encourage and foster academic achievement and personal growth, the UH campuses must remain safe and productive environments. Safety and security issues have been long standing concerns on UH campuses statewide. With the growth of the university system, an increase in crimes against persons and property has become a concern. Your Committee believes that, in order to encourage and foster academic achievement and personal growth, all of the campuses within the UH system must remain safe and productive environments.

Approval of this measure will help address problems on all the campuses of the University that make students feel intimidated, apprehensive and afraid. The University must promptly reduce, and in the longer term, end property crimes, assaults and other serious incidents in order to create a safe and secure campus.

Your Committee has amended this measure by making an appropriation of \$200,000 for improvements to safety and security on all campuses of the UH system.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1399, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1399, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Trimble).

SCRep. 426 (Majority) Higher Education on S.B. No. 1257

The purpose of this measure is to establish a candidate advisory council to screen and propose candidates for appointment to the Board of Regents of the University of Hawaii.

Your Committee received testimony in support of the measure by the University of Hawaii Professional Assembly and the University of Hawaii Student Caucus.

The present system of direct nomination of members of the Board of Regents by the Governor has the potential for being overly political and thus interfering with the desire of the Legislature to increase the autonomy of the University of Hawaii system. The system of nomination could be considerably improved by narrowing the choice of nominees to a list of individuals who have been carefully chosen by a knowledgeable candidate advisory council representing diverse interests and concerns of the people of Hawaii relative to their public university system.

This measure is intended to establish a candidate advisory council to assist the Governor in determining criteria for, screening of, and proposing qualified candidates for membership on the board. The advisory council would recommend two to four candidates for each place on the Board of Regents within thirty days of a vacancy occurring. The Governor would select one nominee from that list. The advisory council would have to follow specified criteria for candidate qualifications.

Your Committee has amended this measure by:

- (1) Changing the number of members to serve on the advisory commission from eleven to twelve and adding a representative from the Hawaii Government Employees Association Bargaining Unit 8; and
- (2) Changing the University of Hawaii's student government name from the Associated Students of the University of Hawaii to the Systemwide Student Association, to reflect the new name of that entity.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1257, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1257, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Trimble). Excused, none.

SCRep. 427 (Majority) Higher Education on S.B. No. 1256

The purpose of this measure is to propose an amendment to article X, section 6, of the Constitution of the State of Hawaii to modify the University of Hawaii Board of Regents' appointment process.

Your Committee received testimony in support of the measure from the University of Hawaii Professional Assembly, Hawaii Government Employees Association Bargaining Unit 8, the University of Hawaii Student Caucus, and one individual.

The present system of direct nomination of members of the Board of Regents by the Governor has the potential for being overly political and thus interfering with the desire of the Legislature to increase the autonomy of the University of Hawaii system. The system of nomination could be considerably improved by narrowing the choice of nominees to a list of individuals who have been carefully chosen by a knowledgeable candidate advisory council.

Your Committee finds that modifying the selection process for the Board of Regents as provided in this measure will increase the regents' autonomy, modernize the University's governance, and strengthen the selection process by providing an independent screening body to identify outstanding candidates.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1256 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Trimble). Excused, none.

SCRep. 428 Higher Education on S.B. No. 905

The purpose of this measure is to consolidate fifteen existing special and revolving funds into four new special funds and modify another.

The University of Hawaii testified in support of this measure.

The University of Hawaii has over forty special and revolving funds systemwide. This measure repeals fifteen of those funds and transfers the balance into five special funds. The five special fund accounts will then continue to receive revenue from the originating purposes. The University further stated that this measure supports certain recommendations made by the Auditor in her 2004 report, "Review of Revolving Funds, Trust Funds, and Trust Accounts of the Department of the Attorney General, the Department of Business, Economic Development and Tourism, and the University of Hawaii."

Your Committee expressed concern that programs previously benefiting from the revenue generated will not have access to their funds under the new consolidated special fund account. In response, University officials stated that internal accounts will be maintained to identify revenue attributed to specific programs. The University believes that consolidation of these individual accounts will lead to increased efficiency and lower the administrative cost of managing multiple special and revolving funds.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 905 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 429 (Joint/Majority) Higher Education and Labor on S.B. No. 1402

The purpose of this measure is to prohibit fringe benefits costs from being calculated in the University of Hawaii budget.

Your Committees received testimony in support of the measure from the University of Hawaii. Your Committees received testimony in opposition to the measure by the Department of Budget and Finance.

Your Committees find that the fringe benefits for the University of Hawaii personnel should be calculated as part of its budget. The University of Hawaii testified that it could not reconcile the amount of fringe benefits charged to their budget and argued that inclusion of this amorphous amount created the incorrect perception that their budget had been increasing over time. Your Committees are concerned about the impact that inclusion of fringe benefit costs have on the University budget.

As affirmed by the records of votes, with two reservations and one nay, of the members of your Committees on Higher Education and Labor, that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1402 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, 1 (Slom). Excused, none.

SCRep. 430 (Joint/Majority) Education and Military Affairs and Labor on S.B. No. 1636

The purpose of this measure is to establish annual increment salary increases for teachers and creates a comprehensive evaluation process for teachers.

The Department of Education submitted testimony in support of the measure. The Department of Budget and Finance and Hawaii State Teachers Association submitted testimony in opposition.

Your Committees find that in order to successfully retain qualified and quality educators, the Department of Education should offer competitive incentives. Furthermore, to ensure a quality educational system, staff evaluation and teacher improvement is an essential element. This measure provides necessary programs to improve both teacher retention and recruitment, as well as the educational system as a whole.

Upon further consideration, your Committees have amended the measure to:

- (1) Include language to require teachers to receive their normal annual increase except as provided by law;
- (2) Provide a 3.14% annual increment for teachers who earn less than \$50,000 and have completed a year's satisfactory service;
- (3) Establish that teachers with an annual salary of \$50,000 or more with positive evaluations shall automatically receive a 3.14% biannual increment; and
- (4) Change the effective date to July 1, 2020.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1636, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1636, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, 1 (Slom). Excused, 2 (Chun Oakland, Hooser).

SCRep. 431 (Joint) Education and Military Affairs and Human Services on S.B. No. 1634

The purpose of this measure is to expand early childhood education facilities.

Specifically, this measure would:

- (1) Require the Department of Education to use empty classrooms and identify construction sites for early childhood education facilities;
- (2) Authorize the department to inspect early childhood education facilities;
- (3) Request studies on the progress of various early childhood education programs and the age limits for public school junior kindergarten; and
- (4) Appropriate funds.

Testimony in support of this measure was submitted by the Department of Education, Department of Human Services, Hawaii State Teachers Association, Good Beginnings Alliance, and Hawaii Association for the Education of Young Children. The Legislative Reference Bureau submitted comments.

Your Committees find that there has been a great demand for early childhood education facilities. As more parents become aware of the importance of preschool education, the demand for programs and facilities will increase further. There are a variety of options available for parents to send their children to early childhood education programs. However, no matter which program is chosen, it is of critical importance to ensure that the facilities are safe and conducive to learning. This measure will assist in the improvement and further development of early childhood education.

Upon further consideration, your Committees have amended this measure to include the following provisions:

- (1) Adding the Hawaii Association of Independent Schools and Good Beginnings Alliance to the task force;
- (2) Providing the foundation for a future office of early education;
- (3) Studying the feasibility of required pre-kindergarten;

- (4) Directing the Department of Human Services to work with the counties on streamlining the permitting process for early education facilities; and
- (5) Adding an appropriation section for Department of Education facilities renovations and classroom supplies.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1634, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1634, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 432 Education and Military Affairs on S.B. No. 1663

The purpose of this measure is to establish a per pupil allocation funding mechanism based on the consolidated annual financial report plus known, quantifiable supplemental requirements to new century charter schools. This measure also appropriates funds for the per pupil allocations.

Testimony in favor of the measure was submitted by the Charter School Administrative Office, Kualapuu Elementary School, Waimea Middle School, Halau Ku Mana, Kamehameha Schools, and Hookakoo Corporation. The Department of Education and Governor submitted comments.

Your Committee finds discrepancies in the funding of new century charter schools. Inappropriate figures reported at the Department of Budget and Finance inadvertently reduced appropriations to the charter schools. As a result, charter schools did not receive funding for fringe benefits and increases in collective bargaining. This measure will allocate sufficient funding to charter schools comparable to regular public schools to provide all public students with equitable resources.

Upon further consideration, your Committee has amended this measure by requiring, rather than allowing, the Legislature to make additional quantifiable appropriations to the charter schools.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1663, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1663, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Chun Oakland).

SCRep. 433 (Joint) Education and Military Affairs and Human Services on S.B. No. 38

The purpose of this measure is to appropriate funds to non-school hour programs for children or youth enrolled in school.

Testimony in support of the measure was submitted by the Department of Education, Office of Youth Services, and Blueprint for Change. The Department of Human Services submitted testimony in opposition to the measure.

Your Committees find that the State lacks sufficient options for non-school hour structured programs and activities for students in grades six to eight. Structured learning environments and social activities during non-school hours, while parents or guardians may still be at work, are valuable programs that strengthen protective factors for youth.

Your Committees believe that providing optional quality non-school hour programs should be open to all youth regardless of their educational situation. Therefore, this measure has been amended to include:

- (1) Provisions to allow home school students to participate in extracurricular activities in public schools;
- (2) Establishment of a task force to review the State's after-school activities programs; and
- (3) \$4,000,000 each for the Department of Education, Office of Youth Services, and the counties for non-school hour programs.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 38, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 38, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 434 Commerce, Consumer Protection and Housing on S.B. No. 763

The purpose of this measure is to authorize the payment of a flat fee to a physician who serves on an external review panel that reviews health coverage disputes.

The Department of Commerce and Consumer Affairs testified in support of this measure. The Hawaii Medical Service Association presented comments on the measure.

The Patients' Bill of Rights and Responsibilities Act, codified in chapter 432E, Hawaii Revised Statutes, established external review panels to review health coverage disputes. The three-member panels include a physician licensed to practice medicine in the State. Participation on the panel requires physicians to take time off from their medical practices for anywhere from four to eight hours, and this loss of work time is a disincentive for participation.

This measure establishes an incentive for a physician to serve by authorizing payment of a flat \$400 fee. Your Committee finds that this fee will help to encourage broader participation by the medical community and promote more diverse representation on the panels. Your Committee further finds that, with typically fewer than twenty-five hearings scheduled per year, the total annual cost of the fee payment is not expected to exceed \$10,000.

Your Committee has amended this measure by making a technical, stylistic change.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 763, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 763, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 435 Commerce, Consumer Protection and Housing on S.B. No. 770

The purpose of this measure is to replace the current law regulating mortgage brokers and solicitors with a new regulatory program that transfers oversight of the mortgage brokering industry within the Department of Commerce and Consumer Affairs from the Professional and Vocational Licensing (PVL) Division to the Division of Financial Institutions (DFI).

The Department of Commerce and Consumer Affairs, Hawaii Bankers Association, Mortgage Bankers Association of Hawaii, and Hawaii Association of Mortgage Brokers testified in support of this measure. Hawaii Lending Specialists, Commercial and Business Lending, Donald Lau Mortgage Broker, Inc., Cendant Timeshare Resort Group, and Primerica Financial Services Home Mortgages, Inc. testified in opposition to the measure. The Hawaii Financial Services Corporation presented comments on the measure.

This measure repeals chapter 454, Hawaii Revised Statutes, the law regulating the practice of mortgage brokering and mortgage soliciting, and replaces it with a new law that regulates mortgage brokers only and places the program under the jurisdiction of DFI, rather than PVL. The program's key provisions require licensing of mortgage brokers, establish pre-licensing and periodic examination requirements, mandate continuing education for licensees, increase bonding requirements, require compliance with federal and state lending laws, and establish mandatory disclosure requirements.

Your Committee finds that this measure proposes broad changes in the regulation of mortgage brokering that have raised concerns among those it proposes to regulate. Testimony received from your Committee indicated that some of the measure's provisions are ambiguous, overlap with federal law, and may have unintended consequences resulting in overly broad penalties and restricted practices.

Your Committee further finds that the proposed regulatory scheme warrants a more detailed review and discussions between DFI and members of the industry, and, therefore, the parties should convene during the legislative interim to develop enabling legislation for consideration by the 2006 Legislature.

Additionally, and in consideration of the above, any changes effected this session to the current regulatory program should be narrowly drawn, pending further review of the proposed new law. Accordingly, your Committee has amended this measure by replacing its contents with language that, rather than establishing a new regulatory program, transfers jurisdiction of the current program from PVL to DFI by:

- (1) Redefining "mortgage commissioner" or "commissioner" to mean the Commissioner of Financial Institutions, rather than the Director of Commerce and Consumer affairs;
- (2) Requiring an applicant for a mortgage broker or solicitor license to register with the Commissioner of Financial Institutions, rather than with the Business Registration Division; and
- (3) Authorizing the Commissioner of Financial Institutions, rather than the Director of Commerce and Consumer Affairs, to establish regulatory fees applicable to mortgage brokers and solicitors.

Your Committee has also amended this measure to take effect on July 1, 2006, rather than July 1, 2005.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 770, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 770, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 436 Commerce, Consumer Protection and Housing on S.B. No. 801

The purpose of this measure is to repeal the Kalapana Disaster Relief Program.

The Department of Human Services testified in support of the measure. The County of Hawaii opposed the measure. The Hawaii County Economic Opportunity Council submitted comments.

The Kalapana Disaster Relief Program was established in 1991 to provide low-interest acquisition, home construction, and mortgage loans to Kalapana residents who were dispossessed of their homes and land by the Kilauea eruptions. One mortgage loan was made under the program and this loan has since been paid off. Therefore, this measure repeals the program.

Your Committee has amended this measure to include an appropriation of \$350,000 for each year of the 2005-2007 fiscal biennium to the Kikala-Keokea Revolving Fund. The Fund was established in 2001 to provide low-interest home construction loans to displaced Kalapana residents with long-term leases on ceded lands in the Kikala-Keokea homestead area. Your Committee finds that this measure supports home ownership and preservation of native culture and rights.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 801, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 801, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 437 (Joint) Commerce, Consumer Protection and Housing and Human Services on S.B. No. 1198

The purpose of this measure is to establish a state policy to develop and provide affordable housing for grandparents raising children.

Testimony in support of this measure was submitted by the Kokua Council and two individuals. The Office of Planning and the Housing and Community Development Corporation of Hawaii submitted testimony in opposition to this measure.

The Hawaii State Planning Act provides general objectives and policies for housing based on both income and community needs. However, your Committees find that the provisions in the state plan are not specific enough to address the growing housing needs of grandparents who raise children. This measure amends the Hawaii State Planning Act to create specific objectives and policies to develop affordable and adequate housing for families with children being raised by grandparents.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1198 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Espero, Ihara, Sakamoto, Trimble).

SCRep. 438 (Joint) Commerce, Consumer Protection and Housing and Human Services on S.B. No. 1717

The purpose of this measure is to require full reimbursement of costs to agencies that provide shelter to the homeless under the Housing and Community Development Corporation of Hawaii's homeless shelter stipend program.

The Hawaii Youth Services Network and an individual testified in support of this measure. The Housing and Community Development Corporation of Hawaii opposed the measure.

Your Committees find that stipend payments made by the State to provider agencies under a contract to provide emergency and transitional shelter to homeless families and individuals do not fully reimburse the agencies' costs. This measure would require full reimbursement.

Your Committees further find that current funding levels for the State's homeless shelter stipend program do not support full reimbursement to providers and that this requirement would force the State to terminate some of its shelter contracts.

Your Committees have amended this measure by replacing its contents with language that appropriates funds for homeless shelter stipend payments.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1717, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1717, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 4 (Espero, Ihara, Sakamoto, Trimble).

SCRep. 439 Commerce, Consumer Protection and Housing on S.B. No. 1805

The purpose of this measure is to require the convening of a committee to develop legislation to bifurcate the public housing administration and housing finance and development functions of the Housing and Community Development Corporation of Hawaii (HCDCH), and to establish the functions in two separate agencies.

The Hawaii Association of Realtors, Pacific Housing Assistance Corporation, and Hawaii Community Reinvestment Corporation testified in support of this measure. The Housing and Community Development Corporation of Hawaii submitted comments on the measure.

One of the recommendations made by the Affordable Housing Task Force created pursuant to Senate Concurrent Resolution No. 135, Senate Draft 1 (2004) was to separate HCDCH into two agencies, one whose function was to administer public housing in the State, and another responsible for housing finance and development. One of the Task Force's working groups found that only Alaska and Hawaii have a combined housing finance and public housing agency and concluded that the operations of a combined agency are cumbersome, inefficient, and slow the allocation of resources for the production of new housing units.

This measure establishes a committee of representatives from government, housing developers, financial institutions, the real estate industry, affordable housing advocacy groups, and other stakeholders in the State's affordable housing situation to develop legislation to effectuate the Task Force's recommendation of separating HCDCH into two separate entities. The committee is required to make recommendations on organizational structure and functions, staffing and budgetary needs, and develop an implementation timeline that targets a January 2007 operational date for the two agencies. This measure further requires a report to the 2006 Legislature and appropriates funds for the committee's operations.

Your Committee has amended this measure:

- (1) To include HCDCH on the committee's membership;
- (2) To identify the Department of Human Services, rather than HCDCH, as the expending agency for the appropriation; and
- (3) By making technical, stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1805, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1805, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 440 Commerce, Consumer Protection and Housing on S.B. No. 1852

The purpose of this measure is to authorize the issuance of general obligation bonds for the repair, renovation, and construction of low-income housing.

This measure also requires the Housing and Community Development Corporation of Hawaii (HCDCH) to repair all vacant low-income units by December 31, 2008.

Testimony in support of this measure was submitted by the Affordable Housing and Homeless Alliance and two individuals. Testimony in opposition to this measure was submitted by HCDCH.

Your Committee finds that currently, the supply of local low-income housing is far outweighed by the demand. A waiting period of two to five years currently exists for both state and federal low-income housing projects. Your Committee further finds that there are many vacant state and federal low-income housing units within the State; however, many of them are also uninhabitable. Your Committee believes that if these units were repaired and renovated, they could be made available to house those individuals who have been placed on waiting lists. This measure provides for the financing of necessary repairs and renovations through the authorization of the issuance of general obligation bonds and the application of federal capital fund program grants administered by the U.S. Department of Housing and Urban Development (HUD). Grant moneys from HUD are designated for improvements to federal low-income housing units, including the redesign, reconstruction, and reconfiguration of public housing projects, reduction of vacancies, and the demolition and replacement of existing low-income housing units.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1852, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1852, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 441 Health on S.B. No. 1100

The purpose of this measure is to permit only registered pharmacists to dispense, distribute, or sell pseudoephedrine, an over-the-counter cold remedy that is increasingly used in the clandestine manufacture of crystal methamphetamine, or “ice.”

This bill would also require that pseudoephedrine be displayed and stored behind the counter under the direct supervision of a registered pharmacist, permit the registered pharmacist to dispense, distribute, or sell not more than six grams of pseudoephedrine to an individual within any thirty day period, except by prescription, and similarly limit the amount of pseudoephedrine a customer may purchase. The bill would also require purchasers to produce identification prior to a purchase of pseudoephedrine and require the pharmacist to keep a log of purchases made.

Your Committee received testimony in support of this measure from the Community Work Day Program and eleven private individuals. Testimony supporting the intent of the bill, but requesting amendments, was provided by the State Drug Control Liaison, the Interim Director of Public Safety, the Hawaii Pharmacists Association, and Kaiser Permanente. The Board of Pharmacy and Longs Drugs provided comments and suggested amendments. Testimony in opposition to the bill was received from Legislative Information Services of Hawaii, the Hawaii Food Industry Association, Times Super Market, the Community Alliance on Prisons, and a private individual.

Your Committee finds that, in the course of Hawaii’s ongoing “ice” epidemic, there has been an increase in complaints of suspicious odors produced by individuals manufacturing illicit drugs like crystal methamphetamine in clandestine laboratories. The latest generation of these makeshift laboratories is easily set up in kitchens, garages, apartments, and hotel rooms where they pose a serious threat of fire, explosion, toxic pollution, and exposure to deadly chemicals and gases. These laboratories have a severe impact on our community, the most devastating of which is the abuse and neglect of children.

Your Committee further finds that pseudoephedrine has been the primary precursor chemical used to manufacture crystal methamphetamine in Hawaii and is readily available in over-the-counter cold remedies. It is diverted to these clandestine laboratories by individuals purchasing multiple boxes of these products or by stealing them off the shelves of retail stores. Over thirty states and the United States Congress are considering or have acted to place over-the-counter pseudoephedrine products behind the counter or to limit the quantity that a customer can purchase in a single retail transaction, or both.

Presently, Hawaii’s law on the sale and distribution of over-the-counter pseudoephedrine or combination products is less stringent than federal law and contains a loophole that permits individuals hired by street chemists to obtain these products and later sell them to individuals who use them to manufacture methamphetamine. By contrast, in 2004, Oklahoma enacted a new pseudoephedrine regulation that contains four critical components:

- (1) Removal of pseudoephedrine products from all retail shelves (by addition to the list of Schedule V controlled substances);
- (2) Limit on sales of pseudoephedrine products to nine grams or three packages over a thirty-day period to any single customer;
- (3) Permit sales only through a pharmacist at a licensed pharmacy, with a customer photo identification, signature, and a written record for each sale; and
- (4) Exempt certain liquid and gel-cap products containing pseudoephedrine and other products that are extremely difficult or impossible to convert to methamphetamine.

As a result of this new regulation, Oklahoma has realized a fifty to seventy per cent reduction in the incidence of methamphetamine laboratories throughout communities in that state. Not only did the regulation reduce the number methamphetamine laboratories almost immediately, but equally important, it has continued to be effective: April saw a forty-eight per cent reduction; May a fifty-one per cent reduction; June a fifty-one per cent reduction; July a fifty-five per cent reduction; and August a sixty-five per cent reduction.

At the same time, consumers do not feel inconvenienced. A 2003 study conducted by the University of Northern Iowa, Center for Social and Behavioral Research, indicated the following with regard to consumer’s retail purchases of pseudoephedrine products:

- Eighty-four per cent purchased pseudoephedrine products at least once in the past year;
- Seventy-three per cent purchased pseudoephedrine products less than six times a year;
- Ninety-five per cent purchased one package of pseudoephedrine products at a time;
- Eighty-five per cent said limiting the amount of pseudoephedrine products that could be purchased would be of little or no inconvenience and eighty-two per cent support that idea.
- Eighty-two per cent said showing identification to purchase pseudoephedrine products would be of little or no inconvenience, and seventy-nine per cent support that idea.
- Seventy-six per cent said asking a pharmacist for the pseudoephedrine products would be little or no inconvenience, and seventy-nine per cent support that idea.

The results of this study have been confirmed by the actual experience in Oklahoma, where very few complaints have been received from consumers, retailers, or pharmacists.

Accordingly, your Committee has amended the measure by:

- (1) Adding pseudoephedrine to the list of stimulant controlled substances in Schedule V;
- (2) Permitting only a registered pharmacist, or a clerk or technician under the supervision of a registered pharmacist, to dispense, sell, or distribute pseudoephedrine;
- (3) Limiting the amount of pseudoephedrine that a pharmacist may dispense, sell, or distribute and that a customer may purchase, other than by prescription;
- (4) Requiring identification of the purchaser and maintenance of a log of purchases;
- (5) Exempting liquid forms of pseudoephedrine and permitting the Department of Public Safety to exempt other products by rule; and
- (6) Making technical, nonsubstantive changes for clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1100, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1100, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 442 (Joint) Health and Human Services on S.B. No. 127

The purpose of this measure is to provide that the plans of care for developmentally disabled persons provide for “support” and not training, of persons in the licensed developmental disabilities domiciliary homes, and to require the Department of Health to determine the rate of payment for residents in licensed homes without specifying the methodology.

The Department of Health, the State Council on Developmental Disabilities, the Disability and Communication Access Board, Kona Krafts, the Arc in Hawaii, and two individuals submitted testimony in support of this measure. The Department of Human Services submitted comments.

Your Committees find that broadening the term “training” to “support” more accurately reflects the nature of residential programming. This measure also clarifies the Department of Health’s responsibility in the licensure and oversight of these homes. It also allows the Department of Health to establish a fee schedule for the reimbursement of such residential services and requires the department to set the rate of payment.

Upon further consideration and at the recommendation of the Department of Health, your Committees have amended this measure by keeping the language that determines the rate of payment for residents in the developmental disabilities domiciliary homes pursuant to section 346-53, Hawaii Revised Statutes, and added a provision that the rate of any additional subsidy payment for the reimbursement of developmental disabilities domiciliary homes services shall be determined by the Department of Health.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 127, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 127, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 443 (Joint) Health and Human Services on S.B. No. 1482

The purpose of this measure is to appropriate funds for Bay Clinic, Inc. for the construction of a new medical building and repairs and renovations to reopen an existing building.

The Hawaii County Department of Research and Development, Bay Clinic, Inc., and Hawaii Primary Care Association submitted testimony in support of this measure. The Department of Human Services submitted comments.

Your Committees find that the County of Hawaii has the largest proportionate share of people on welfare and food stamps, and on fixed incomes such as Social Security, disability, and pensions, than the other counties. All of Bay Clinic’s health centers target the uninsured and the Medicaid population, which makes them a vital part of the health system on the island of Hawaii.

According to Bay Clinic, Inc., the Hilo Bay Clinic’s building is no longer adequate for the provision of medical services to a growing Hilo community. During the last twelve years that Bay Clinic has been in the building providing services, onsite medical visits have increased four hundred percent from three thousand visits per year in 1993 to over twelve thousand visits in 2004. In addition, the dental clinic that Bay Clinic operates in Keaau, Puna district, is taxed to capacity with low-income or uninsured Hilo, Puna, and Ka’u residents trying to access care. The dental clinic has a waiting list and a waiting period of over four months to accept a new patient with non-emergency needs. Bay Clinic proposes to construct a new building in Hilo dedicated to the provision of medical services. The current medical services building will be renovated and used for dental services.

Your Committees have amended this measure by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1482, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1482, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Kokubun, Tsutsui, Trimble).

SCRep. 444 (Joint) Health and Commerce, Consumer Protection and Housing on S.B. No. 1237

The purpose of this measure is to provide a tax credit to employers who provide health care coverage for their part-time employees at the lesser of fifty percent of premiums paid or a dollar amount per part-time employee.

Hawaii Medical Service Association submitted testimony in support of this measure. The Tax Foundation of Hawaii submitted comments.

Your Committees find that Hawaii's prepaid health care law does not require employers to provide health care coverage for their part-time employees. As a result, many workers who are not regular or full-time employees in one job but instead work a combined twenty hours or more at two or more part-time jobs are left without health care coverage. As the proponent noted, this measure strikes a fair balance between encouraging employers to do the right thing for their employees while not compelling them to do so.

Your Committees have amended this measure by making technical, non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1237, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1237, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hanabusa, Ige, Whalen).

SCRep. 445 (Joint) Health and Commerce, Consumer Protection and Housing on S.B. No. 131

The purpose of this measure is to authorize and fund the creation of a captive insurance company by the Hawaii Health Systems Corporation to provide medical malpractice and hospital professional and general liability coverage to the Hawaii Health Systems Corporation, the Department of Health, the University of Hawaii's John A. Burns School of Medicine, and their physicians.

The Department of Health, the Department of Commerce and Consumer Affairs; Hawaii Health Systems Corporation; medical staff members of Leahi Hospital, Maui Memorial Medical Center, Kona Community Hospital, Hilo Medical Center, and Hawaii Health Systems Corporation; Healthcare Association of Hawaii; and the University of Hawaii's John A. Burns School of Medicine submitted testimony in support of this measure.

Your Committees find that the cost of medical malpractice and hospital professional and general liability coverage continues to rise and that stability in risk financing is needed for the Hawaii Health Systems Corporation, and the physicians serving this entity. The escalating costs of premiums, lack of insurers providing coverage in Hawaii, decreased limits of available coverage, and coverage restrictions, make it important to establish a captive insurance company to insure and control exposure to the liability risks of the aforementioned entity.

Upon further consideration, your Committees have amended this measure by specifying the Hawaii Health Systems Corporation only and as a five-year pilot project, and by making technical, non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 131, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 131, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hanabusa, Ige, Whalen).

SCRep. 446 Water, Land, and Agriculture on S.B. No. 1081

The purpose of this measure is to provide funding to develop an education and job training program center for the Pouhala marsh.

Your Committee received testimony in support of this measure from the Department of Land and Natural Resources, a City and County of Honolulu council member, Hawaii Nature Center, and the Waipahu Community Association.

The Pouhala marsh consists of a remnant fishpond and coastal marsh located in the western lagoon of Pearl Harbor on Oahu. Over the years, the marsh has severely and significantly suffered from urban development, water pollution, and alien plant invasion. Recently, the Pouhala Marsh Ecosystem Restoration and Community Development Project has worked to restore the habitat for Hawaiian and migratory birds and to develop a comprehensive natural resources management education and training program.

However, your Committee finds that more work needs to be done to restore the marsh. This measure appropriates moneys to:

- (1) Develop an education and job training center;
- (2) Provide safe access for local high school students involved in wetland research projects;
- (3) Serve as the staging area for ongoing volunteer work programs; and
- (4) Serve as a base of operations for interns and youth job-corps participants working on research and maintenance project in the marsh.

Your Committee has amended this measure by deleting the dollar amount of the appropriation and has left it blank for the Committee on Ways and Means to determine at a later date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1081, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1081, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 447 Water, Land, and Agriculture on S.B. No. 1891

The purpose of this measure is to amend the fee requirements for small boat harbors.

Testimony in opposition to this measure was submitted by Alii Nui, Aqua Lung Pacific, Expedition, Frogman Charters, Jack's Diving Locker, Lahaina Divers, Maui Dive Shop, Maui-Molokai Sea Cruises, Ocean Tourism Coalition, and Trilogy Excursions. Comments were also submitted by the Department of Land and Natural Resources.

The purpose of this measure is to require:

- (1) Owners of commercial vessels moored in state small boat harbors to pay fees of at least three per cent of their gross revenues derived from the use of the vessel; and
- (2) Fees and penalties collected through rules relating to harbors to be deposited into the Boating Special Fund.

Your Committee noted overwhelming testimony in opposition to this measure. However, all of the testimony in opposition requested that changes be made to this measure to accommodate their unique commercial boating activities industry.

Based on the testimonies received, your Committee has amended this measure by:

- (1) Requiring owners to pay a fee based on a percentage of the gross revenues derived from the use of the vessel or three per cent of the gross revenues, whichever is greater;
- (2) Expanding the types of fees and penalties that shall be deposited into the Boating Special Fund;
- (3) Inserting an effective date of July 1, 2050 to ensure further discussions on this measure; and
- (3) Making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1891, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1891, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 448 (Joint/Majority) Higher Education and Labor on S.B. No. 464

The purpose of this measure is to amend chapter 78, Hawaii Revised Statutes, by adding a new section that would require the Board of Regents of the University of Hawaii to pay a penalty to its employees for late payments of wage.

Your Committees received testimony in support of this measure from the University of Hawaii Student Caucus. Your Committees received testimony in opposition from the University of Hawaii.

This measure attempts to encourage the University of Hawaii to pay its employees within one pay period following the designated pay day by penalizing the University \$100 for each instance of a violation. According to the UH Student Caucus, it is not unusual for newly hired graduate students, regardless of national origin, to go for months without receiving their first pay check. These graduate students are typically hired to conduct research, serve as teaching assistants, as well as assist with other services as hired by the University.

Your Committees received testimony from the University of Hawaii that non-payment of wages typically is the result of incomplete information provided by the graduate student and other circumstances beyond the control of the University.

In recognition of the fact that the University does not deny that graduate students are paid well beyond a reasonable time frame, but claims it is something that is beyond their control, the Committee would like to encourage that a resolution be found and has amended the effective date of this bill to July 1, 2010.

As affirmed by the records of votes of the members of your Committees on Higher Education and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 464, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 464, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, 1 (Slom). Excused, none.

SCRep. 449 Media, Arts, Science and Technology on S.B. No. 1379

The purpose of this measure is to require a complete inventory of Hawaii's World War II bunkers and their entry into the Hawaii Register of Historic places as appropriate.

Your Committee received testimony in support of this measure from three individuals, including two World War II veterans, and comments from the Department of Land and Natural Resources.

Your Committee believes that creating an inventory of World War II bunkers is an important step toward preserving these historic structures, and remembering and honoring Hawaii's veterans. Your Committee finds that, because the State does not maintain a record of the exact number and location of its World War II bunkers, more information is required to determine the time required to conduct a survey and complete the inventory.

In order to reduce the burden on the limited staff resources of the state historic preservation division, it is your Committee's intent that the Department of Land and Natural Resources shall establish partnerships with the military, volunteer organizations, and veterans groups to complete the survey and inventory of Hawaii's World War II bunkers.

Your Committee has amended this measure by changing the effective date to July 1, 2020, for purposes of further discussion. Your Committee also has amended this measure by making technical, nonsubstantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1379, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1379, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 450 (Joint) Media, Arts, Science and Technology and Business and Economic Development on S.B. No. 1792

The purpose of this measure is to appropriate funds to establish an international business and technology incubator program in Hawaii.

Testimony in support of this measure was submitted by the High Technology Development Corporation and one individual.

Your Committees find that the international business and technology incubator program will attract and assist foreign technology companies seeking to establish a presence in the United States by providing a one-stop service center with business formation services, merchant banking, and expert assistance throughout the public offering cycle. The incubator program also will attract corporations from China, Japan, Korea, Singapore, and other Asia Pacific nations that already are established and profitable.

Your Committees find that because the incubator is operated by an agency of the Hawaii State government, it will be more attractive to companies in China and Japan, which are accustomed to working almost exclusively with and among government entities. Hawaii also offers the advantages of location, time zone, a multi-lingual population, and quality of life that make it an attractive alternative to other locations in the United States.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1792 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 2 (English, Trimble).

SCRep. 451 Transportation and Government Operations on S.B. No. 590

The purpose of this measure is to clarify that when the mandatory forty-eight hour term of imprisonment for operating a vehicle under the influence of an intoxicant is added to the mandatory term of imprisonment, the total does not exceed the maximum terms of imprisonment permitted for the degree of offense.

Your Committee received testimony in support of this measure from the Honolulu Prosecuting Attorney.

This measure clears up current ambiguity in the law, which has been the subject of court rulings.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 590 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 452 Transportation and Government Operations on S.B. No. 1387

The purpose of this measure is to make an appropriation to assist the State Civil Defense Division to add staffing to provide the state emergency operating center with an around the clock, year round watch capability.

Your Committee received testimony in support of this measure from the State Department of Defense, Honolulu Police Department, Oahu Civil Defense Agency, and Hawaiian Electric Company, Inc.

Your Committee finds that Hawaii is at risk to every conceivable natural and man-made disaster, many of which may strike at any moment with little or no advance warning. With the ongoing war on terrorism, our nation also faces the risk of terrorist attacks.

Your Committee further finds that every available minute is needed to assess potentially dangerous situations and be in a position to coordinate warnings and actions to protect lives and property. In order to strengthen Hawaii's emergency management system, the expansion of Hawaii's emergency operations is essential, including providing an around the clock, year round emergency operating center. A 24/7 operation provides the watch capability to monitor threat information and to disseminate that capability to monitor threat information and to disseminate that information, and provides early warning for natural and man-made hazards.

Currently, by agreement, the Honolulu Police Department Communications Division has provided the State since 1975 an early warning system (State Warning Point) through the 911 call center and radio dispatching. Your Committee finds that this function should rightfully belong to the State.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1387 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 453 Judiciary and Hawaiian Affairs on S.B. No. 433

The purpose of this measure is to establish an election by mail pilot project in one or more precincts to be conducted during the 2006 federal or state primary or general election and make an appropriation for the administration and implementation of this pilot project.

The Office of Elections offered comments on the measure.

Your Committee finds that to reduce a steady three-decade decline in voter participation among Hawaii voters as well as eliminate "barriers" to voting, the Legislature must adopt and implement additional voter friendly initiatives such as voting by mail. Election by mail is used exclusively in Oregon and this program's effectiveness in getting people to vote is evidenced by Oregon's high voter participation rate, which is among the highest in the nation.

Your Committee has amended this measure so that it conforms more closely to the absentee ballot procedure and process currently utilized by the Office of Elections.

Specifically your Committee has:

- (1) Eliminated the election by mail pilot project and made this election by mail program permanent and applicable to all federal, state, county primary, general and special elections to be conducted at an unspecified future primary election date;
- (2) Established the procedures and processes for the mailing of ballot packages to eligible voters and handling undeliverable ballot packages;
- (3) Required public notice before an election by mail is conducted;
- (4) Established requirements for voting by mail, including procedures for returning the return identification envelope either by mail or at designated places of deposit;
- (5) Created procedures for obtaining a replacement ballot; and

- (6) Established the method of counting mail-in ballots.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 433, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 433, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Hee, Ihara).

SCRep. 454 Judiciary and Hawaiian Affairs on S.B. No. 467

The purpose of this measure is to promote parity in treatment options and social service programs that are available for female offenders and female adjudicated youth in relation to their male counterparts.

Specifically, this measure:

- (1) Requires the enactment of a range of similar high quality prison-based programs for female offenders and female adjudicated youth that are offered to their male counterparts;
- (2) Enacts standards relating to the type of prison programs available for women that are responsive to the health, psychological, social, economic, and educational needs of women;
- (3) Institutes a grant-in-aid program to allow private agencies to be actively involved in the development and implementation of programs tailored specifically for female offenders and female adjudicated youth;
- (4) Imposes duties upon the Director of Public Safety regarding the implementation of the grant-in-aid program, requiring increased collaboration with women advocacy groups to ensure the success and viability of these initiatives, and providing an annual report to the Legislature on both the progress as well as issues that have arisen in the area of female offender treatment programs; and
- (5) Enacts gender responsive community-based programs for female adjudicated youth and women and makes appropriations for both programs.

Testimony in support of this measure was submitted by the Hawaii Women Lawyers, the Hawaii State Coalition Against Domestic Violence, the Hawaii Juvenile Justice Project, the ACLU of Hawaii, Ka Hale Ho'ala Hou No Na Wahine, the Community Alliance on Prisons, Hawaii Youth Services Network, the League of Women Voters of Hawaii, and ten individuals. The Department of Public Safety testified in opposition to the measure. The Hawaii Paroling Authority offered comments on the measure.

Your Committee finds that parity issues relating to the treatment and social services available for female offenders and female adjudicated youth both in prison and in the community have been ignored for far too long by Hawaii's criminal justice system. These women and young women must be given access to at least the same level of care and programs currently provided for their male counterparts in order to break the cycle of recidivism and enable them to become productive members of society.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 467, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 467, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 455 Judiciary and Hawaiian Affairs on S.B. No. 824

The purpose of this measure is to make the two part-time positions of the Hawaii Paroling Authority full-time and increase the level of compensation paid to reflect this full-time status.

Testimony in support of this measure was submitted by the Hawaii Paroling Authority, two members of the Hawaii Paroling Authority, and the Department of the Prosecuting Attorney for the City and County of Honolulu.

Your Committee finds that the workload and responsibilities placed on board members of the Hawaii Paroling Authority is not only significant, but also increasing. Parole board members are responsible for setting minimum terms of imprisonment, granting parole and setting conditions for parole, determining whether to discharge an individual from parole, determining whether parole should be revoked, and making recommendations for pardons and commutations. This workload is extremely daunting and the two part-time parole board members are expected to handle these responsibilities in addition to their full-time jobs. By making these part-time positions full-time and the salary of parole board members commensurate with this full-time status, parole board members will be able to devote their full attention and energies to the various duties and responsibilities entrusted to them.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 824 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 456 Judiciary and Hawaiian Affairs on S.B. No. 1551

The purpose of this measure is to enhance the administration and enforcement of the State's "Sunshine Law" codified in chapter 92, Hawaii Revised Statutes.

Specifically, this measure:

- (1) Authorizes the Office of Information Practices to be responsible for the enforcement of the Sunshine Law;
- (2) Eliminates the need to prove that an agency's final action was taken in violation of an agency's rulemaking authority or ruled in a willful manner to void the agency's final action;
- (3) Allows the Office of Information Practices to waive the fees assessed to access a government record if the Office of Information Practices determines that the waiver is in the public's interest and the costs will not unduly interfere with or disrupt the operations of the agency for which the waiver is requested; and
- (4) Modifies the appointment process for the Director of the Office of Information Practices by requiring the Judicial Council to screen and select two or more candidates for the Director position, one of whom will then be appointed by the Governor for a six-year term.

Testimony in support of this measure was submitted by the Office of Information Practices and the League of Women Voters for Hawaii. Testimony in opposition to the measure was submitted by the Department of Education and the Society of Professional Journalists-Hawaii Chapter.

Your Committee finds that the Office of Information Practices is currently responsible for administering the State's Sunshine Law, but lacks any enforcement authority. This measure would address this shortcoming. Further, this measure makes it easier to void the final action of the agency that may have been taken in violation of the Sunshine Law. The requirement that the violation be willful before a final action can be voided is changed so that proof of a violation is all that is necessary to void the agency's final action.

Your Committee also finds that costs associated with accessing a public document are prohibitive in nature and act as a "barrier" that discourages individuals with a legitimate request for the government document from accessing it based solely on financial concerns. This measure would permit the Office of Information Practices to make appropriate waivers of fees where the waiver is in the public's interest and the waiver will not disrupt the operations of the agency. Your Committee is aware of the concerns expressed by the Office of Information Practices in its testimony with respect to being responsible for the waiver of all fees. Notwithstanding the Office of Information Practices' reluctance, it is critical that the Office of Information Practices acts as the final arbiter regarding the waiver of fees to ensure a consistent and fair determination as to whether the waiver of fees is in the public interest.

Your Committee also finds that the change in the manner of appointment as well as the term of appointment for the Director of the Office of Information Practices is appropriate, given the scope and duties of that position.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1551 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 457 Judiciary and Hawaiian Affairs on S.B. No. 1781

The purpose of this measure is to appropriate funds for community-based reintegration programs for former inmates transitioning back into the community.

Testimony in support of the measure was submitted by the ACLU of Hawaii, the Community Alliance on Prisons, Victory Ohana Prison Ministries, and four individuals. The Department of Public Safety and the Hawaii Paroling Authority offered comments on the measure.

Your Committee finds that there is a lack of sufficient community-based reintegration programs available for former inmates making the transition back into the community. These programs are vital to the long-term success of these individuals in becoming productive members of society as well as helping to break the cycle of recidivism. The investment that is made into these programs is not only worthwhile, but also cost-effective when compared to the cost of incarcerating former inmates repeatedly for committing additional offenses.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1781 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 458 (Joint/Majority) Tourism and Business and Economic Development on S.B. No. 1186

The purpose of this measure is to adjust the hotel construction and remodeling tax credit to eight percent on January 1, 2006, to four percent on July 1, 2009, and to repeal the tax credit on July 1, 2012.

Testimony in support of this measure was provided by Cendant Corporation/Fairfield Resorts, Hawaii Hotel and Lodging Association, Hawaii Resort Developers Conference, the Hawaii Tourism Authority, Outrigger Hotels, ARDA-Hawaii, and the Subcontractors Association of Hawaii. Testimony in opposition to this measure was provided by the Department of Taxation. Comments were submitted by the Department of Business, Economic Development, and Tourism and the Tax Foundation of Hawaii.

Your Committees find that a tax credit is an excellent means to boost Hawaii's tourism and construction industries, and that extension of this tax credit is warranted. This tax credit will not only provide an incentive to hotel owners and contractors to remodel or build new hotels, it will also provide a wide range of employment positions that offer other opportunities for economic growth. A targeted tax credit aimed at full service hotels offers an option to offset the financial incentive of a conversion. Your Committees believe that this measure will encourage improvement and enhancement of the tourism industry, which includes improving the physical infrastructure for the comfort and enjoyment of visitors.

Your Committees have amended this measure by:

- (1) Targeting the tax credit to qualified full service hotel facilities only;
- (2) Defining qualified full service hotel facility; and
- (3) Sunsetting the hotel construction and remodeling tax credit on July 1, 2012.

As affirmed by the records of votes of the members of your Committees on Tourism and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1186, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1186, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, 1 (Trimble). Excused, 2 (Hee, Sakamoto).

SCRep. 459 Tourism on S.B. No. 1729

The purpose of this measure is to redistribute the transient accommodations tax to facilitate the Hawaii Tourism Authority with existing and expanded programs, and to clarify the administrative authority of the Hawaii Tourism Authority.

Testimony in support of this measure was submitted by the Hawaii Hotel and Lodging Association, the Hawaii State Foundation on Culture and the Arts, and the Hawaii Tourism Authority. Testimony in opposition to this measure was submitted by the Department of Business, Economic Development and Tourism, the Department of Budget and Finance, and the Tax Foundation of Hawaii. Comments were submitted by the Department of Taxation.

Your Committee finds that the State's investment in tourism is critical to ensure that Hawaii maintains a successful and sustainable tourism industry. It is imperative that the Authority be given additional resources to effectively and efficiently implement its programs, which will contribute to an increased focus in areas such as safety and security, workforce development, communications, and state parks and trails. Your Committee believes that redistributing the transient accommodations tax will aid the Hawaii Tourism Authority to fulfill its mission and strategic plan.

Your Committee has amended this measure by:

- (1) Requiring that moneys that are placed in interest bearing accounts are in accordance with statutory securities and investment guidelines;
- (2) Allocating transient accommodations tax revenues to be deposited into the state parks special fund, the special land and development fund, a sub-account in the tourism special fund for safety and security, and the general fund;
- (3) Limiting the oversight of the Hawaii Tourism Authority's hiring of personnel by the Governor and executive agencies to times when the Authority receives general funds from the State;
- (4) Changing the date from January 1, 2002 to January 1, 2006 as the time that excess deposits in the convention center enterprise special fund are deposited into the general fund;
- (5) Repealing the transient accommodations tax trust fund; and
- (6) Changing statutory cross references to the Hawaii statewide trail and access program and to the state parks special fund.

As affirmed by the record of votes of the members of your Committee on Tourism that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1729, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1729, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Hee).

SCRep. 460 Health on S.B. No. 1447

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds for the planning, development, and construction of a medical facility in West Maui to provide expanded urgent care, emergent/emergency care, and long-term care services.

Specifically, this bill authorizes the issuance of an unspecified amount of general obligation bonds for this purpose.

Your Committee received testimony in support of this bill from a member of the Maui County Council, Maui Memorial Medical Center, West Maui Improvement Foundation, Maui County Planning Department, Maui Land & Pineapple Company, Inc., and four individuals. Two individuals submitted comments.

Your Committee finds that a total of \$16,250,000 previously appropriated for the Kulamalu skilled nursing/intermediate care facility in the General Appropriations Act of 2003, as amended by the Supplemental Appropriations Act of 2004, will lapse as of June 30, 2006. Your Committee believes that this money, previously appropriated out of the general obligation bond fund, should be made available for the purpose of funding the planning, development, and construction of the medical facility in West Maui.

Accordingly, your Committee has amended this bill by:

- (1) Deleting reference to any specific site for the facility on page 2, lines 9-11, and replacing the reference with “on donated land”;
- (2) Adding a section that lapses the general obligation bond authorization and any funds appropriated under Act 200, Session Laws of Hawaii 2003, as amended by Act 41, Session Laws of Hawaii 2004, for the purpose of constructing the Kulamalu skilled nursing/intermediate care facility;
- (3) Inserting \$16,250,000 as the amount of general obligation bonds to be authorized for issuance and appropriating the moneys therefrom for the planning, development, and construction of the medical facility in West Maui;
- (4) Requiring the Hawaii Health Systems Corporation to partner with Maui Memorial Medical Center to carry out the project in cooperation with health care providers and other stakeholders in West Maui; and
- (5) Making technical, nonsubstantive amendments for the purposes of clarity and consistency, including appropriately re-numbering the sections of the bill.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1447, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1447, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 461 Health on S.B. No. 1704

The purpose of this measure is to authorize the issuance of revenue bonds in a principal amount not to exceed \$22,000,000 to finance the design and construction of a nine hundred car parking facility at the Maui Memorial Medical Center.

Your Committee received testimony from two members of the Maui County Council, Healthcare Association of Hawaii, Maui Memorial Medical Center, and Hawaii Government Employees' Association in support of this measure. The Departments of Budget and Finance and Accounting and General Services both submitted testimony recommending that the measure be amended to authorize the Hawaii Healthcare Systems Corporation to be the issuer of the bonds.

Your Committee has amended this measure:

- (1) To provide that the bonds authorized to be issued in the amount of \$22,000,000 shall be reimbursable general obligation bonds and not revenue bonds;
- (2) To make an appropriation of \$22,000,000, or so much thereof as may be necessary, for fiscal years 2005-2006 and 2006-2007 to be expended by the Hawaii Healthcare Systems Corporation for the purpose of this measure; and
- (3) By making technical nonsubstantive changes for clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1704, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1704, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 462 (Joint) Energy, Environment, and International Affairs and Transportation and Government Operations on S.B. No. 1002

The purpose of this measure is to establish standards for the discharge of graywater, other wastewater, and air emissions from cruise ships and commercial passenger vessels into the marine waters and air of the State. The measure provides for monitoring and recordkeeping, and provides criminal penalties for violations.

Testimony supporting the measure was received from two individuals. The Department of Health, which attached testimony provided by the Attorney General during the 2004 Legislature, Norwegian Cruise Lines, NCL America, and the North West Cruiseship Association offered testimony in opposition to the measure. The Office of Hawaiian Affairs and the Sierra Club provided comments.

Your Committees find that increased scrutiny of cruise ship and commercial passenger vessel voyages is necessary to protect the waters of the State from environmental degradation due to discharge of graywater and other wastewater, and air pollution. Your Committees further find that the measure provides a sensible regulatory scheme to protect the marine environment in the State. This measure has taken into account the concerns raised previously by the Attorney General regarding jurisdictional issues. Your Committees recognize that creating a regulatory scheme is an ongoing process, and this measure incorporates the work done in conjunction with the Environmental Protection Agency, Region 9, to address federal preemption concerns.

Your Committees have amended this measure by deleting language that would establish an environmental compliance fee and a commercial passenger vessel environmental compliance special fund. Your Committees have also amended the measure to delete reference to appropriations into, or out of, the proposed commercial passenger vessel environmental compliance special fund.

As affirmed by the records of votes of the members of your Committees on Energy, Environment, and International Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1002, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1002, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair and Vice Chair on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 5 (Hanabusa, Kanno, Menor, Hemmings, Whalen).

SCRep. 463 (Joint) Business and Economic Development and Media, Arts, Science and Technology on S.B. No. 1378

The purpose of this measure is to recognize the Pearl Harbor historic trail to meet the necessary requirements for federal funding opportunities to support the planning, construction, and completion of the trail.

Testimony in support of this measure was submitted by the Windward Ahupua'a Alliance, the Hawaii Bicycling League, and five individuals.

Your Committees find that the Pearl Harbor historic trail will create a multi-use path that runs from Halawa landing to Waipahu for use by Oahu residents and visitors alike. The multi-use path will offer a transportation corridor for pedestrians and bicyclists, create an outdoor recreation and transportation network, foster historic and environmental preservation and education, and create economic opportunities for community businesses. Your Committees believe that this measure supports completion of the trail by enabling the Pearl Harbor historic trail to qualify for federal funding opportunities.

Your Committees have made technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1378, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1378, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (English, Trimble).

SCRep. 464 (Joint) Business and Economic Development and Water, Land, and Agriculture on S.B. No. 1414

The purpose of this measure is to exempt voyaging canoes from moorage fees charged by the Department of Land and Natural Resources.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs, the 'Aha Punana Leo, and three individuals. Your Committees also received comments from the Department of Land and Natural Resources.

Your Committees believe that voyaging canoes, which are designed, built, and operated in the traditional manner of Pacific Islanders, play an important role in preserving the traditional Hawaiian culture. Voyaging canoes also are dynamic models of

Hawaiian culture at work, which can be used as a platform for education and language preservation and revitalization. Your Committees find that this measure supports the educational and cultural value of traditional Polynesian voyaging canoes.

It is your Committees' intent that the Board of Land and Natural Resources give consideration to a permanent mooring site for the voyager canoe Hokule'a, and work with the Polynesian Voyaging Society to determine appropriate sites for establishing a permanent mooring.

As introduced, this measure exempts voyaging canoes from state moorage fees. Your Committees have amended the measure to clarify that the exemption applies to inter-island moorage fees only.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1414, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1414, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (English, Sakamoto, Hemmings).

SCRep. 465 (Joint) Business and Economic Development and Transportation and Government Operations on S.B. No. 1697

The purpose of this measure is to fund start-up operations of an integrated airline training center.

Your Committees received testimony in support of this measure from the University of Hawaii and Global Flyers Corporation. Your Committees also received comments from the Department of Business, Economic Development, and Tourism.

Your Committees find that the projected worldwide doubling of commercial aircraft will lead to a substantial increase in the demand for trained commercial pilots. Your Committees further find that a unique opportunity exists to establish Hawaii as a preferred source of training for new airline pilots in the Asia-Pacific region. Hawaii is ideally situated to take advantage of this opportunity because of its central-Pacific location, the presence of ideal flight training weather, excellent training facilities already in existence at Kalaeloa airport, participation by Alton Training L.L.C. (the largest provider of airline flight simulator training), integrated courseware from Global Flyers Corp. that reduces training time and cost while also improving student success rates, the availability of experienced airline training managers to operate the program, and a unique cultural environment that will be comfortable for pilot trainees from the Asia-Pacific region. Your Committees believe that an investment in the start-up costs of this program will yield significant future benefits including the creation of new jobs and increased tax revenues.

Your Committees have amended this measure to clarify that appropriated funds shall be expended for the initial start-up costs associated with the program, and to require the Department of Business, Economic Development, and Tourism to establish benchmarks and prepare a detailed report of program progress.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1697, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1697, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Hee, Kanno, Sakamoto, Whalen).

SCRep. 466 (Joint) Business and Economic Development and Transportation and Government Operations on S.B. No. 1734

The purpose of this measure is to establish investment tax credits for Hawaii taxpayers who invest in the private development of the motor sports recreation and public safety training and educational facility at Kalaeloa, Parcel 9.

Your Committees received testimony in support of this measure from Pacific Karting Club, Hawaii Motor Sports Center, Acquisition Research Corporation, and eleven individuals. Your Committees received testimony in opposition from the Department of Taxation and the Chamber of Commerce of Hawaii, and comments from the Hawaii Community Development Authority.

Your Committees recognize the importance of a motor sports facility for racing events, keeping street racers off of public highways, and police and safety training programs. Your Committees further recognize the growing popularity of motor sports racing throughout the world, and its potential for revenue generation. During the closure process of Naval Air Station, Barbers Point, the State and the City and County of Honolulu recognized the need to replace the existing motor sports facility at Campbell Industrial Park with a state of the art motor sports recreation and public safety training and educational facility and set aside a parcel of land for this purpose.

Your Committees believe that creating a tax credit for qualified investments in a new motor sports facility will continue to reduce street racing and its inherent dangers, provide a safe environment for racing, create jobs during the design, planning, and construction of the facility, and provide a facility for safety training programs for state and county law enforcement officials.

Your Committees have amended this measure to prohibit a taxpayer from claiming more than one tax benefit for the same construction costs. Your Committees further have amended this measure by incorporating certain provisions of House Bill No. 994 that:

- (1) Limit the availability of the tax credit to the general excise tax and transient accommodation tax generated by the construction and operation of the motor sports recreation and public safety training and educational facility; and
- (2) Direct the Department of Business, Economic Development, and Tourism to calculate the amount of tax credit to be allowed in any one year using existing models to determine the rate of general excise tax and transient accommodations tax earned as a percentage of construction and operation of the motor sports recreation and public safety training and educational facility.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1734, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1734, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (Hee, Kanno, Sakamoto, Whalen).

SCRep. 467 (Majority) Higher Education on S.B. No. 1788

The purpose of this measure is to extend the terms of members of the University of Hawaii's Board of Regents from four to ten years.

The University of Hawaii Professional Assembly (UHPA) testified in support of this measure.

Your Committee finds that, while there are a variety of term lengths found among universities across the country, on average governing officials serve between six to eight years. The University of Hawaii has sought and received increased levels of autonomy over the last 18 years. The responsibility of managing a state university system comprising more than 10 major campuses, over 50,000 students and an \$800 million budget can be a daunting task for volunteers. Your Committee finds that responsibility to ensure successful management of the University requires a length of term that will allow regents the opportunity to learn the "ins and outs" of the University's operations. Such a length of term will not only provide the governing body with experienced members, but will also send the message that the regents have made a full commitment to time and effort.

Your Committee has amended this measure to clarify that the term of office, other than that of the student member, shall be limited to one ten-year term, and that the appointment process is subject to Senate confirmation pursuant to the Hawaii State Constitution.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1788, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1788, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, 1 (Trimble). Excused, 1 (Chun Oakland).

SCRep. 468 Media, Arts, Science and Technology on S.B. No. 1168

The purpose of this measure is to authorize the issuance of general obligation bonds for renovations to the Hawaii State Art Gallery.

Your Committee received testimony in support of this measure from the Hawaii State Foundation on Culture and Arts and the Hawaii Consortium of the Arts. Your Committee also received comments regarding this measure from the Department of Accounting and General Services.

Your Committee finds that the Hawaii State Foundation on Culture and the Arts is continuing to bring culture and the arts into the lives of Hawaii's people. Since its opening in 2002, the Hawaii State Art Museum has received thousands of visitors, including residents, artists, educators, government officials, lawmakers, and school children. Your Committee finds that the facilities are a popular venue for social and charitable gatherings. When finalized, renovations to the Hawaii State Art Gallery will include a visitors center, gift shop, and café. Your Committee finds that completing renovations to the kitchen and cafeteria will enable the gallery to procure food concessionaire services, which will generate revenue to support the gallery.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1168 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Ige).

SCRep. 469 (Joint/Majority) Health and Human Services on S.B. No. 1468

The purpose of this measure is to ban smoking in all areas of airports and hospitals.

The Department of Health, Hawaii County Council members, American Heart Association, American Cancer Society, the American Lung Association of Hawaii, Coalition for a Tobacco Free Hawaii, and seven individuals submitted testimony in support of this measure.

Your Committees find that airports and hospitals should be free of second-hand smoke. According to the Coalition for a Tobacco Free Hawaii, second-hand smoke is the third leading cause of preventable death in this country, killing fifty-three thousand nonsmokers in the United States each year, and even a half-hour of second-hand smoke exposure can cause heart damage similar to that of habitual smokers.

A ban on smoking in all areas of airports and hospitals protects visitors, patients, and employees alike. This more stringent measure will prevent unnecessary and unwanted exposure to the harmful chemicals and carcinogens that are present in cigarette smoke.

Your Committees have amended this measure by expanding the ban on smoking in an airport to cover all areas from curb to cabin at all state airports, to close any potential loopholes.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1468, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1468, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 470 Health on S.B. No. 1535

The purpose of this measure is to make an appropriation for a grant to the Oral Health Institute of the Pacific for continued operations of dental clinics and services on the island of Maui.

The State Planning Council on Developmental Disabilities, and eight individuals submitted testimony in support of this measure. The Department of Health and the Maui County Dental Society submitted comments.

Your Committee finds that the Oral Health Institute of the Pacific provides increased access to oral health services by providing clinical dental services and case management to special needs patients, and under-served children and adults. These underserved children and adults are Medicaid, QUEST, or SCHIP recipients, or are uninsured and have not had access to oral health services in many years. This measure is necessary to provide much needed dental services that are not being provided in the private sector to these populations on Maui.

Upon further consideration, your Committee has amended this measure by redrafting the findings section and adding a purpose section to specify that the purpose of the measure is to make an appropriation to the Oral Health Institute of the Pacific so that it can continue to provide much needed dental services for QUEST, SCHIP, and Medicaid recipients, as well as the uninsured, who cannot obtain dental services from the private sector on Maui.

Your Committee also has amended this measure by making technical, non-substantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1535, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1535, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 471 Health on S.B. No. 1239

The purpose of this measure is to authorize trained and supervised medical psychologists working in federally qualified health centers or other licensed health clinics located in federally designated medically underserved areas to prescribe psychotropic medications for the treatment of mental illness.

The Hawaii Psychological Association, the Hawaii Primary Care Association, the American Psychological Association, the National Association of Social Workers, Molokai Community Health Center, Hana Community Health Center, Napu'uwai Native Hawaiian Health Care System, Kokua Kalihi Valley Comprehensive Family Services, Argosy University, Health Psychology Associates, Inc., Waimanalo Health Center, and twenty-seven individuals submitted testimony in support of this measure.

The Hawaii Medical Association, the American Association of Applied and Preventive Psychology, the National Alliance for the Mentally Ill Oahu, the Hawaii Psychiatric Medical Association, and forty-six individuals submitted testimony in opposition. The Board of Medical Examiners, the Board of Psychology, and one individual submitted comments.

Your Committee finds that Hawaii suffers a significant shortage of available mental health care services in certain areas. As the Hawaii Primary Care Association noted, community health centers are at a distinct disadvantage when recruiting mental health professionals. They have limited resources. Their salary scales are generally not competitive with other health settings. And they tend to serve challenging patients, with multiple risk factors, in geographically isolated areas.

Psychologists with appropriate credentials have been allowed to prescribe medication to active duty personnel and their families in federal facilities and the Indian Health Service for years. These psychologists actively collaborate with primary care physicians to provide combined therapy and psychopharmacological care of native Hawaiians at seven federally qualified health centers. To date,

thousands of native Hawaiians and other ethnic minorities have received the necessary combined therapy and psychopharmacological care that was solely lacking to address significant mental and behavioral health care needs.

The delivery of comprehensive, accessible, and affordable medical care may be enhanced by providing trained medical psychologists, licensed in Hawaii, with limited prescriptive authority. Appropriately trained prescribing psychologists can provide badly needed psychological and psychopharmacological treatment to the underserved populations of Hawaii. The measure is set to be repealed on July 1, 2013, which provides sufficient time to determine the impact of this authorization and gauge its effectiveness.

Upon further consideration, your Committee has amended this measure by increasing the minimum number of didactic classroom instruction for a conditional prescription certificate to five hundred hours; increasing the requisite supervised practicum to at least two years; and increasing the number of requisite patient contact hours to four hundred and fifty hours.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1239, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1239, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 472 Water, Land, and Agriculture on S.B. No. 212

The purpose of this measure is to appropriate funds to the Commission on Water Resource Management for two new positions.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources, Office of Hawaiian Affairs, Earthjustice, Hanalei Watershed Hui, Native Hawaiian Legal Corporation, Sierra Club, and one individual.

Your Committee finds that the Commission on Water Resource Management's Stream Protection and Management Branch and the Survey Branch are in need of one position each to carry out their extensive duties. Specifically, this measure appropriates funds to provide for a:

- (1) Hydrologist IV position to assist the Stream Protection and Management Branch's Instream Use Protection Section with testing to establish necessary instream flow standards; and
- (2) Geologist I position to assist the understaffed Survey Branch with accomplishing its tasks of data analyses for aquifer tests, groundwater and surface water interaction, and groundwater interpretation, and advising other departments on geological matters.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 212, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 473 Water, Land, and Agriculture on S.B. No. 361

The purpose of this measure is to appropriate funds for three positions to service the lower Hamakua ditch project on the island of Hawaii.

Testimony in support of this measure was submitted by the Department of Agriculture, Big Island Farm Bureau, and Hawaii Farm Bureau.

Your Committee finds that currently, work on the lower Hamakua ditch project on the island of Hawaii is serviced by a private contractor. However, your Committee further finds that the same work could be performed using the Agricultural Resource Management Division's personnel at a cost that is lower than what the current contractor is charging. This measure provides an appropriation to fund three positions, two irrigation service worker II positions and one supervisor position, and the necessary equipment to service the lower Hamakua ditch project.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 361, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 474 Water, Land, and Agriculture on S.B. No. 386

The purpose of this measure is to explore for potential water sources in the Ocean View area on the island of Hawaii.

Testimony in support of this measure was submitted by the County of Hawaii Mayor, a Hawaii County Council member, Big Island Farm Bureau, Hawaii Ranchos Road Maintenance Corporation, Ocean View Community Association, Inc., Ocean View Community Development Corporation, Vitulli's Iki Plantation, and five individuals.

The Ocean View area on the island of Hawaii is growing rapidly with the development of over eleven thousand affordable vacant subdivided lots. With this type of growth potential, your Committee finds that it is imperative that potential water sources for this area are explored. This measure authorizes the issuance of general obligation bonds for the exploration of potential water sources and to establish an exploratory and production well in the Ocean View area on the island of Hawaii.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 386, S.D. 1, and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 475 (Joint/Majority) Labor and Education and Military Affairs on S.B. No. 1250

The purpose of this measure is to require the Board of Education to develop a classification/compensation plan for substitute teachers' pay commensurate with their educational training and academic qualifications.

Testimony in support of this measure was submitted by the Department of Education (DOE), the Hawaii State Teachers Association – Retired, and two individuals. Testimony in opposition to this measure was submitted by the Laborers' International Union of North America Local 368, AFL-CIO; Substitute Teachers Professional Alliance; and five individuals.

Your Committees find that the Legislature, in 1996, adopted Act 89, Session Laws of Hawaii 1996, and intended that substitute teachers be paid a specific per diem rate based on the annual entry salary step rate established for licensed Class II teachers, with increases based on the most current teachers' salary schedule. In so doing, the Legislature intended that this single rate for substitute teachers would increase as licensed teachers' raises were negotiated, ensuring that the pay for substitute teachers would increase fairly over time.

Your Committees further find that the DOE has failed to pay the required per diem rate required in section 320A-624(e), Hawaii Revised Statutes. Since 1996, the pay for a new Class II teacher has increased by more than forty percent, from approximately \$25,436 to \$36,851. During that same period, substitute teachers' pay has risen from \$100.94 to only \$112.53 – barely eleven percent. Your Committees believes that it was clearly not the intent of the Legislature to have such a disparity in pay increases between substitute teachers and licensed teachers. Substitute teachers are essential to the efficient and effective operation of our public schools; however, they have not been getting their due under the current law.

Accordingly, your Committees have amended this measure by:

- (1) Ensuring that the minimum per diem rate for substitute teachers is based on the current per diem rate formula in section 302A-624(e), Hawaii Revised Statutes;
- (2) Specifying that the Board of Education may utilize a list of criteria in determining the compensation rate beyond the minimum per diem rate for substitute teachers;
- (3) Including language to specify that the appropriation for retroactive pay owed to the substitute teachers shall be utilized to pay for in the class action lawsuits of Garner v. Department of Education (Civil No. 03-1-000305), and Klitternick v. Hamamoto (Civil No. 05-1-0031-01); and
- (4) Changing the effective date of the Act to July 1, 2050, and section 3 of the Act to take effect on July 1, 2060, in order to facilitate further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1250, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1250, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, 2 (Hogue, Slom). Excused, 3 (Hooser, Taniguchi, Tsutsui).

SCRep. 476 Human Services on S.B. No. 572

The purpose of this measure is to require open hearings in family court child protective services matters unless the parent of the child determines that it is not in the best interest of the child, and further allows the parent to determine whether the presence of a non-lawyer advocate is in the best interest of the child.

Testimony in favor of this measure was submitted by four individuals. The Department of Human Services and Judiciary submitted comments on this measure.

Your Committee finds that currently a neutral judicial officer determines the best interest of a child during family court proceedings. Although the Department's and Judiciary's testimony take no position on the issue, your Committee feels that it is a legislative policy decision and has approved this measure in order to continue this important discussion.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 572 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 477 (Joint/Majority) Human Services, Health and Commerce, Consumer Protection and Housing on S.B. No. 841

The purpose of this measure is to provide employers with a non-refundable tax credit for the purchase of qualified long-term care insurance premiums paid for their employees.

The Governor, the Department of Health, the Department of Taxation, the American Council of Life Insurers, Healthcare Association of Hawaii, the Chamber of Commerce of Hawaii, AssistGuide, Inc., and the National Association of Insurance and Financial Advisors submitted testimony in support of this measure.

Your Committees find that the rapid growth of the elderly and disabled populations will result in extraordinary demands on the delivery of long-term care services. Providing long-term care to family members in need negatively impacts worker productivity in the workforce. This measure encourages employers to purchase qualified long-term care insurance contracts for their employees and ensures that such qualified long-term care insurance contracts cover both home and community-based care in addition to coverage for long-term care in intermediate care facilities and skilled nursing facilities.

Upon further consideration, your Committees have amended this measure by changing the effective date to July 1, 2010 to encourage further discussion of this matter, including a drop-dead provision, and making technical, non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Human Services and Health and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 841, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 841, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, 1 (Trimble). Excused, 4 (Hanabusa, Ige, Ihara, Kokubun).

SCRep. 478 (Joint/Majority) Labor and Higher Education on S.B. No. 1889

The purpose of this measure is to amend the standards for apprenticeship agreements to provide for assurances of qualified training personnel, adequate job supervision, and the requisite licenses.

This measure also requires the Director of Labor and Industrial Relations to establish an apprenticeship council whose purpose shall be to promote and approve apprenticeship programs.

Testimony in support of this measure was submitted by the International Brotherhood of Painters and Allied Trades, Drywall Tapers, Finishers and Allied Workers Local Union 1944, AFL-CIO. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations (DLIR), the Associated Builders and Contractors, Inc., and Building Industry Association of Hawaii.

Your Committees find that under the current law, the Director of DLIR has the discretion to convene an apprenticeship council which, if established, serves in only an advisory capacity. Your Committees determine that although the Director should have the discretion of determining the composition of an apprenticeship council, the law should mandate the establishment of an apprenticeship council whose purpose should be more than advisory, but instead to promote and approve of apprenticeship programs. Furthermore, your Committees believe that it is prudent to include in the standards for apprenticeship agreements that assurances of qualified training personnel, adequate job supervision, and the requisite specialty licenses be provided for in order to maintain the highest standards in apprenticeship programs. Equally, assurances that a need continues to exist for parallel programs is essential to ensure that only necessary and appropriate programs that meet the "equal to or better than" standard are approved.

As affirmed by the records of votes of the members of your Committees on Labor and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1889 and recommend that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, 2 (Slom, Trimble). Excused, 3 (Ihara, Inouye, Sakamoto).

SCRep. 479 (Majority) Labor on S.B. No. 32

The purpose of this measure is to increase the minimum wage amount and to provide for an automatic annual adjustment for cost-of-living increases.

Testimony in support of this measure was submitted by the Hawaii State Teachers Association, the United Public Workers, ILWU Local 142, the Hawaii State AFL-CIO, the Labor Democrats of Oahu County, and one individual. Testimony in opposition to this measure was submitted by the Department of Business, Economic Development and Tourism; the Chamber of Commerce of Hawaii; the Retail Merchants of Hawaii; the Hawaii Business League; and three individuals. Comments on the measure were submitted by the Department of Labor and Industrial Relations.

Your Committee finds that although the minimum wage amount was recently increased, effective in 2003, the increase has failed to keep pace with the escalating rate of inflation. As a result, a worker's purchasing power has continued to diminish over time. In Hawaii, the cost of living is higher than that of much of the rest of the nation, which compels many individuals to work two jobs just to make ends meet. As we have turned the corner, heading towards improved economic times, your Committee believes that it is necessary to assist entry-level workers to allow them to share in this period of economic growth and prosperity. Prior to the most recent increase, no previous adjustment had been made to the minimum wage amount since 1993. In order to avoid the Legislature's need to continually revisit the issue year after year and to prevent the necessity for large increases when no adjustment has been made for several years, an automatic annual adjustment should be instituted. Furthermore, your Committee's intent is that the Department of Business, Economic Development and Tourism shall annually calculate and publish the gross state product deflator to be utilized in making the annual adjustment.

Your Committee further finds that some concern exists regarding the current tip credit law. The law currently allows an employer to presume that tipped employees are receiving a certain level of tips each pay period, thereby allowing the employees' pay to be reduced accordingly. A majority of the states across the nation have tip credit laws. Of those states with tip credit laws, the amount of the tip credit ranges from about one to three dollars, well over the twenty-five cents allowed here in Hawaii. Testimony received by your Committee indicates that one way in which to address the financial burden imposed upon employers due to increases in the minimum wage amount is to raise the tip credit amount to offset the additional costs. Your Committee believes that the issue should be further examined throughout the session so as to determine whether such an increase is appropriate.

Accordingly, your Committee has amended this measure as follows:

- (1) By adding a purpose section to explain the need for an increase in the minimum wage;
- (2) By including language to increase the minimum wage amount to \$7.00 per hour beginning July 1, 2005;
- (3) By amending the formula for calculating the annual automatic adjustment to the minimum wage amount to provide that the minimum wage amount shall:
 - (A) Increase annually based upon the percent increase in the gross state product deflator published annually by the Department of Business, Economic Development and Tourism; and
 - (B) Not be adjusted if there is no increase in the gross state product deflator; and
- (4) By requiring that the automatic annual adjustment be effective on April 1 of each year.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 32, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 32, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Slom). Excused, none.

SCRep. 480 (Majority) Labor on S.B. No. 55

The purpose of this measure is to require the provision of a rest or meal period of at least thirty consecutive minutes for an employee who works five or more continuous hours, unless a collective bargaining agreement provides an express provision for meal breaks.

Testimony in support of this measure was submitted by the Department of Education, the Hawaii Civil Rights Commission, the Hawaii State AFL-CIO, the Hawaii State Teachers Association, the United Public Workers, the ILWU Local 142, and an individual.

Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations, the Hawaii Business League, the Society for Human Resource Management - Hawaii Chapter, and the Retail Merchants of Hawaii.

Comments on this measure were also submitted by Covanta Energy Group and the Hawaii Transportation Association.

Your Committee finds that pursuant to Act 172, Session Laws of Hawaii (SLH) 1999, the Legislature provided for the right to employees to express breastmilk during a meal period or other break. Specifically, Act 172, SLH 1999 provided that an employee could not be prohibited from expressing breastmilk during any meal or other break required by law. However, your Committee further finds that neither federal nor state wage and hour laws currently require an employer to provide employees over the age of sixteen a meal period irrespective of the number of consecutive hours employees work.

Therefore, your Committee determines that employees who work more than five consecutive hours should be provided at least a thirty-minute meal break, which will safeguard the health and safety of employees, promote work efficiency and productivity, and permit employees to express breastmilk during any meal break. Furthermore, your Committee believes that this provision should not be applicable if a collective bargaining agreement already provides for meal breaks or under certain other circumstances.

Accordingly, your Committee has amended this measure by:

- (1) Including language to indicate that no rest or meal period need be provided to an employee who elects not to utilize a rest or meal period;
- (2) Creating an exception for an employer who is the operator of a continuously operating facility regulated by an environmental permit; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 55, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 55, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 481 (Joint) Labor and Education and Military Affairs on S.B. No. 87

The purpose of this measure is to establish a new collective bargaining unit for substitute teachers and other part-time employees of the Department of Education.

This measure also provides the members of the new collective bargaining unit the right to strike.

Testimony in support of this measure was submitted by the Office of the Governor, the Hawaii State AFL-CIO, the Substitute Teachers Professional Alliance, the Laborers' International Union of North America Local 368, AFL-CIO, and seven individuals.

Testimony in opposition to this measure was submitted by the Department of Education (DOE), the Department of Budget and Finance, the Hawaii Government Employees Association, and the Hawaii State Teachers Association – Retired. Comments on the measure were also submitted by the Department of Human Resources Development.

Your Committees find that under the existing law, substitute teachers lack the necessary representation to protect, preserve, and promote their rights. However, substitute teachers fulfill an important role in bridging the gaps between shortages that arise from the absence of full-time, permanent teaching staff and any additional interim teaching staff needs within the DOE. Your Committees believe that substitute teachers should be afforded representation equal to that of their bargaining unit (5) equivalents.

Your Committees further find that in 2003, the Legislature passed SB1426, which created a separate collective bargaining unit for substitute teachers; however, the measure was vetoed by the Governor. Among the Governor's concerns with the measure was the fact that the scope of the measure was overly broad in that the Governor believed that the measure covered all casual workers within the DOE. This measure has been appropriately drafted to address the concerns of the administration to limit its application only to substitute teachers.

Additionally, your Committees acknowledge that many retired teachers, who are retired members of collective bargaining unit (5), serve as substitute teachers and may not wish to be part of a new collective bargaining unit for substitute teachers. Your Committees are mindful of the concerns of these retired teachers and of the fact that an exception may be necessary for them in order to protect their unique interests.

Accordingly, your Committees have amended this measure by changing the effective date of the Act to July 1, 2050 in order to facilitate further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 87, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 87, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hooser, Taniguchi, Tsutsui).

SCRep. 482 (Majority) Labor on S.B. No. 473

The purpose of this measure is to appropriate funds for job training for underemployed and unemployed persons, specifically focusing on training applicants in construction industry vocations and other skilled trades, high technology vocations, maritime industry vocations, culinary arts, general equivalency degree programs, and labor shortage areas.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations. Testimony in opposition this measure was submitted by the Department of Human Services. Comments on this measure were submitted by the University of Hawaii.

The purpose of this measure is to repeal the law that prohibits picketing at the residence or dwelling place of an individual during a labor dispute.

Testimony in support of this measure was submitted by the Hawaii State AFL-CIO, the Hawaii State Teachers Association, the Hawaii Building & Construction Trades Council, and one individual. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations, the Honolulu Police Department, the Hawaii Hotel & Lodging Association, the Maui Hotel Association, and the Hilton Hotels Corporation.

Your Committee finds that the enforcement of chapter 379A, Hawaii Revised Statutes (HRS), is unconstitutional and preempted by the National Labor Relations Act (NLRA). The United States Supreme Court has consistently held that state laws are powerless to restrict a labor union's peaceful picketing activity, because the legality of picketing is decided solely under federal law. The Court held in *Garner v. Teamsters, Local 776*, 346 U.S. 485 (1953), that the Pennsylvania state court did not have jurisdiction to enjoin or punish peaceful picketing during the course of a labor dispute because its jurisdiction was preempted by the NLRA and that the state law prohibiting such conduct was void as a matter of law.

Your Committee further finds that in Hawaii, several incidents have occurred wherein the attempted enforcement of chapter 379A, HRS, resulted in the issuance of letters of admonishment by legal counsel for the unions. These letters indicated that the enforcement of section 379A-1, HRS, could result in the filing of a lawsuit against any officer as well as the government for false arrest and constitutional violations. Consequently, no enforcement of this law has resulted. Your Committee determines that if a law is unenforceable and in conflict with federal labor laws and policy, it should not remain in the statutes, as its continued existence places law enforcement officials at risk of lawsuits for false arrest and acts to divest individuals of constitutionally protected rights.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536 and recommends that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 485 (Joint) Labor and Transportation and Government Operations on S.B. No. 807

The purpose of this measure is to adjust the salaries for twenty-three positions set by statute that are not under the review of the Executive Salary Commission.

Specifically, this measure adjusts the salary levels for positions within the:

- (1) Hawaii Labor Relations Board;
- (2) Stadium Authority;
- (3) Civil Defense Agency;
- (4) Housing and Community Development Corporation of Hawaii;
- (5) Public Utilities Commission;
- (6) Office of Solid Waste Management;
- (7) Executive Office on Aging;
- (8) Hawaii Paroling Authority;
- (9) Office of Veterans' Services;
- (10) Labor and Industrial Relations Appeals Board;
- (11) Office of Community Services;
- (12) Office of the Public Defender; and
- (13) Hawaii State Ethics Commission.

Testimony in support of this measure was submitted by the Department of Budget and Finance, the Department of Health, the Housing and Community Development Corporation of Hawaii, the Hawaii Paroling Authority, the Hawaii State Ethics Commission, and the Advisory Board on Veterans Services.

Your Committees find that in 2004, the Executive Salary Commission adjusted the salary levels for deputy directors within the State. However, the salary levels for the aforementioned positions are currently established by statute and are beyond the review of the Executive Salary Commission. Additionally, the salary ranges for many of these positions have remained unchanged for over a decade. Based upon the current law, it appears that several of these positions were intended by the Legislature to be compensated within the same salary range as deputy directors or assistants; others require adjustment by the proper authority, as appropriate.

Therefore, your Committees determine that it is necessary to provide for the adequate compensation of the individuals in these positions at a level commensurate with their responsibilities, experience, and performance in order to recruit and retain qualified individuals.

As affirmed by the records of votes of the members of your Committees on Labor and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 807 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 4 (Hee, Menor, Taniguchi, Whalen).

SCRep. 486 Labor on S.B. No. 809

The purpose of this measure is to authorize the use of available funds for automation purposes for the administration of benefits.

This measure also appropriates \$5 million dollars from the special fund for disability benefits for automation of the disability compensation division for the processing of workers' compensation claims.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations (DLIR) and the Employers' Chamber of Commerce. Testimony in opposition to this measure was submitted by the ILWU Local 142.

Your Committee finds that under the current law, the special fund for disability benefits is utilized primarily for the payment of claims filed by unemployed disabled individuals and by disabled employees of noncomplying or bankrupt employers in accordance with section 392-65, Hawaii Revised Statutes. Your Committee further finds that there is a great need to upgrade the computer systems and software that is used by the Disability Compensation Division in order to enhance the efficiency of processing workers' compensation claims and to ensure that injured employees will receive their compensation benefits on a timely basis. DLIR has indicated that the fund currently carries a balance in excess of \$8,200,000; however, average expenses paid out of the fund only equal approximately \$156,000 per year. Additionally, DLIR has represented that the Auditor has expressed concern regarding the unnecessary surplus contained within the special fund. Therefore, your Committee determines that purpose of the special fund should be expanded to finance improved automation efforts within the Disability Compensation Division.

Your Committee has amended this measure by changing the effective date of the Act to July 1, 2050 to facilitate further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 809, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 809, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 487 Labor on S.B. No. 812

The purpose of this measure is to simplify the method of the pension deduction for unemployment benefits to provide for no deduction of pension benefits if the claimant made any contribution to a retirement plan.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations, the Hawaii State Retired Teachers Association, and the AARP Hawaii.

Your Committee finds that under section 3304(a)(15) of the Federal Unemployment Tax Act, for employers to receive credit against the federal unemployment tax, the weekly benefit amount of an individual must be reduced by the weekly amount of "governmental or other pension, retirement or retired pay, annuity, or any other similar period payment which is based on the previous work of the individual." This requirement applies only to payments made under a plan maintained or contributed to by a base-period or chargeable employer.

Your Committee further finds that under the current state law, pension benefits are deducted from an individual's unemployment insurance weekly benefit amount based upon the amount the employee contributed to the pension plan. Therefore, if the employee has made a zero to forty-nine percent contribution to the pension plan, then the pension benefit is deducted by one hundred percent; if the employee has made a fifty to ninety-nine percent contribution to the pension plan, then the pension benefit is deducted by fifty percent; and if the employee has made a one hundred percent contribution to the pension plan, then there is no deduction.

In Hawaii, the age of the workforce is increasing. Many retired individuals return to the workforce due to economic reasons or due to a need for knowledgeable and skilled workers that cannot otherwise be fulfilled. In either situation, your Committee determines that these individuals should not be penalized when they have made some contribution to their pension plans, regardless of the proportion.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 812, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 812, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 488 Labor on S.B. No. 813

The purpose of this measure is to amend the law relating to the use of unemployment trust fund moneys to conform to P.L. 107-147, Temporary Extended Unemployment Compensation Act of 2002, because the requirements for Reed Act funds distributed in 2002 differ from those of prior special Reed Act distributions.

Additionally, this measure appropriates \$10,000,000 from the unemployment insurance trust fund to:

- (1) Improve the services of the unemployment insurance and workforce development divisions through information upgrades;
- (2) Expand employment services to the unemployed to the State's public libraries and community colleges;
- (3) Provide additional funding to the local workforce investment boards to improve employer outreach and services, labor force pool expansion, and capacity building; and
- (4) Fund shared costs for the operation of one-stop career centers.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations, the Office of Economic Development for the County of Kauai, the Mayor of Kauai, the Kauai Economic Development Board, the Hawaii Flooring Association, the Hawaii Business League, the Roofing Contractors Association of Hawaii, the Kauai Chamber of Commerce, the ILWU Local 142, and eleven individuals.

Comments were also submitted by the Mayor of the County of Hawaii and Department of Community Services for the City and County of Honolulu.

Your Committee finds that in 2002, the Department of Labor and Industrial Relations received approximately \$31,000,000 in federal Reed Act funds. These funds have been placed within the unemployment trust fund, which can be utilized for the payment of benefits and expenses incurred for the administration of the unemployment compensation laws, as well as for public employment offices. Your Committee further finds that Reed Act distributions made prior to P.L. 107-147 were restricted to unemployment insurance administration purposes only. Additionally, under section 303(a)(8) of the Social Security Act, state laws must include provisions for the expenditure of all moneys. Therefore, your Committee determines that the current law must be amended to allow for the utilization of the 2002 Reed Act funds.

Furthermore, your Committee finds that the utilization of these funds is necessary not only to improve the State's automated unemployment insurance and workforce development division services, but also to address the specific needs of the local workforce investment boards of the four counties. Your Committee also determines that another area of concern involves educating and training immigrants from the Freely Associated States so that they may become skilled and qualified members of our workforce.

Accordingly, your Committee has amended this measure by:

- (1) Specifying that the sum of \$6,000,000 shall be allocated to the four county workforce investment boards for the following:
 - (A) Employer outreach and services;
 - (B) Labor force pool expansion;
 - (C) Capacity building; and
 - (D) Servicing and maintaining the America one-stop operating system;
- (2) Specifying that the sum of \$1,000,000 shall be allocated to the Leeward community college workforce development program for job training and education for immigrants from the Freely Associated States; and
- (3) Making technical, nonsubstantive changes for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 813, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 813, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 489 Labor on S.B. No. 817

The purpose of this measure is to improve the administration of unemployment taxes and eliminate the practice of "dumping" whereby some employers and financial advisors use acquisitions or restructuring schemes, including shifting of workforce and payroll, to pay lower state unemployment taxes.

Testimony in support of this measure was submitted by the Department of Labor and Industrial Relations.

Your Committee finds that pursuant to the State Unemployment Taxes Act (SUTA) Dumping Prevention Act of 2004, P.L. 108-295, the Social Security Act was amended with respect to the administration of unemployment taxes and benefits. The Act requires, as a condition of state eligibility for grants for unemployment compensation administration, changes to state unemployment compensation laws to prevent SUTA dumping. SUTA dumping involves employers and financial advisors using acquisitions or restructuring schemes, including shifting of workforce and payroll, in order to pay lower state unemployment taxes than their unemployment experience would normally allow. Therefore, in order to maintain federal certification to enjoy the benefits of the Federal Unemployment Tax Act tax offset credit and federal administrative grants for the state unemployment insurance program, changes in the current law must be made.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 817, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 817, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 490 (Joint) Labor and Judiciary and Hawaiian Affairs on S.B. No. 916

The purpose of this measure is to allow trustees of the Office of Hawaiian Affairs who were in service on July 1, 2002, with fewer than five years of employees' retirement system (ERS) membership service, and who elected to become ERS members prior to October 1, 2002, to purchase their service credit pursuant to section 88-59, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs.

Your Committees find that pursuant to Act 183, Session Laws of Hawaii 2002 (SLH 2002), the OHA trustees were authorized to become members of the ERS; however, the law did not contemplate the manner in which trustees would be able to obtain credit for service rendered during the period between July 1, 1993 and July 1, 2002. As a result, trustees who could claim prior service credit after having served the requisite number of years, were eligible for retirement, and did not wish to seek an additional term in office would be unable to acquire full credit for past service. Your Committees determine that this measure is necessary in order to cure an unintended inequity created by Act 183, SLH 2002, thereby rectifying an oversight in legislation wherein it was intended that the same retirement benefits afforded to other elected salaried officials would be extended to OHA trustees. Thus, this measure will ensure consistency in the retirement benefits extended to OHA trustees.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 916 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 1 (Taniguchi).

SCRep. 491 (Joint/Majority) Labor and Transportation and Government Operations on S.B. No. 942

The purpose of this measure is to amend the law regarding privatization to include restrictions on the privatization of public services and to enhance government accountability.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Department of Human Resources Development, the Department of Taxation, and the Office of Collective Bargaining. Comments on this measure were also submitted by the Office of Information Practices.

Your Committees find that government accountability is of paramount importance in order to ensure the continuity of quality public services as well as to improve the delivery of government services. Careful scrutiny should be conducted in determining whether and which privatization contracts should be awarded so as not merely to assume that cost savings will inure to the benefit of the government when this may not be the case. Upon award of a privatization contract, continued monitoring and scrutiny should persist, as often privatization contracts involve less public disclosure than normally involved in the public sector.

Your Committees determine that this measure adequately addresses these issues through the requirement that there be either legislative or county council approval of privatization contracts with a value in excess of \$500,000, the detailed criteria for the award of a privatization contract, the heightened review of contractors and contract costs, increased monitoring and enforcing of privatization contracts, and additional disclosure requirements. This measure also provides for managed competition to allow public employees the opportunity to submit proposals improving the operations, efficiency, or organization of the program to be privatized, thereby assuring fairness as well as efficiency in the privatization process.

Accordingly, your Committees have amended this measure by:

- (1) Deleting the proviso that determinations regarding the disclosure of a particular record or type of record be made by the state or county department;

- (2) Clarifying that the Act does not affect the current sunset date contained within Act 90, Session Laws of Hawaii 2001 by providing that section 2 of the Act shall be repealed on June 30, 2007; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and style and to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the records of votes of the members of your Committees on Labor and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 942, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 942, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, 2 (Baker, Slom). Excused, 4 (Hee, Menor, Taniguchi, Whalen).

SCRep. 492 (Joint/Majority) Labor and Transportation and Government Operations on S.B. No. 962

The purpose of this measure is to provide for the manner in which the prevailing wages for laborers and mechanics on public work projects and certain private work projects is to be established.

This measure also allows any individual to bring suit for injunctive relief for violations of chapter 104, Hawaii Revised Statutes.

Testimony in support of this measure was submitted by the Hawaii Carpenters Union. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations.

Your Committees find that in order to ensure continuity and equitable standards among laborers and mechanics throughout the State, the applicability of the prevailing wages law should be extended to include certain types of private projects which are subsidized by the State or involve land leased by the State. Under these circumstances, State or county purposes are served, therefore warranting inclusion under the State's Davis Bacon Act, chapter 104, Hawaii Revised Statutes. Your Committees further find that the determination of prevailing wages is currently the responsibility of the Director of Labor and Industrial Relations with a formula and guidelines established in the administrative rules. In order to provide clear guidance on the calculation of prevailing wages, your Committees determine that codification of these rules is necessary.

Additionally, the law currently fails to contemplate a remedy for an aggrieved individual to enjoin a contractor from continuous violations of chapter 104, Hawaii Revised Statute, although recovery of unpaid wages is provided for. Your Committees determine that other forms of redress should be provided to further ensure enforcement of the law and to protect other contractors from falling subject to unfair competition.

Accordingly, your Committees have amended this measure by:

- (1) Amending the definition of "public work" to include:
 - (A) Projects subsidized by state tax credits or county tax exemptions, or those undertaken through the use of state or county land;
 - (B) Contracts between private persons when more than twenty-five percent of the property is leased for use by the State and:
 - (i) The lease is entered into prior to the effective date of the contract; or
 - (ii) Construction work is performed pursuant to plan, specifications, or criteria established by the State or county;
- (2) Deleting language that provided for rate clarification regarding the prevailing wage where there is no majority of those employed by the State who are paid at the same rate as corresponding classes of laborers or mechanics on similar projects; and
- (3) Clarifying that a civil action for injunctive relief may be brought by any individual against any person alleged to be in violation of the chapter 104, or the director for failure to act under any duty imposed by chapter 104.

As affirmed by the records of votes of the members of your Committees on Labor and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 962, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 962, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, 1 (Slom). Excused, 4 (Hee, Menor, Taniguchi, Whalen).

SCRep. 493 Higher Education on S.B. No. 898

The purpose of this measure is to repeal the sunset provision of Act 321, Sessions Laws of 1986, which allowed the University of Hawaii to assume authority for all matters relating to its acquisition of goods and services.

Your Committee received testimony in support of the measure by the University of Hawaii System.

Your Committee finds that the sunset date should be repealed to allow the University of Hawaii to retain its duties rather than relinquish them to the Department of Accounting and General Services. The University of Hawaii has used the greater flexibility in this Act to increase its efficiency in financial administration.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 898 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Inouye).

SCRep. 494 Labor on S.B. No. 1352

The purpose of this measure is to entitle state and county employees to seven days of paid leave per year if they are bone marrow donors, and thirty days of paid leave if they are organ donors.

Testimony in support of this measure was submitted by the Department of Human Resources Development, the Hawaii State Teachers Association, the National Kidney Foundation of Hawaii, the Transplant Association of Hawaii, and twenty-seven individuals. The Department of Human Resources Development submitted testimony in support of the intent of this measure, but also raised concerns with the measure as introduced.

Your Committee finds that the number of individuals in need of organ and bone marrow transplants far outnumbers the available number of organs and living organ donors. Every day, approximately fifteen Americans will die while awaiting a transplant. In spite of continuing medical and technological advances and breakthroughs, more needs to be done to increase the supply of organs.

Your Committee further finds that under the federal law, in 1999, the Organ Donor Leave Act was enacted, which increased the amount of paid leave time that federal employees are permitted to take if they serve as organ donors to thirty days of paid leave, annually. Your Committee supports and encourages individuals who choose to bravely and generously serve as organ and bone marrow donors throughout the State and wishes to provide its public employees with adequate leave time in order to serve in this capacity.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1352 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 495 (Joint/Majority) Labor and Education and Military Affairs on S.B. No. 1395

The purpose of this measure is to provide civil service benefits in the executive branch civil service system for those employees who are members of the Department of Education (DOE) civil service system.

Testimony in support of this measure was submitted by the DOE and the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Department of Human Resources Development.

Your Committees find that Act 51, Session Laws of Hawaii 2004, mandated the transfer of certain functions from various state agencies to the DOE. Act 51 also provided for the DOE to establish a separate personnel system under the control of the Board of Education. Your Committees believe that the rights and benefits of DOE civil service employees, whether or not transferred pursuant to Act 51, should be maintained and not diminished due to the transfer or the institution of a separate personnel system.

Your Committees have amended this measure by changing the effective date of the Act to July 1, 2050 in order to facilitate further discussion on the matter.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1395, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1395, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, 1 (Slom). Excused, 2 (Chun Oakland, Hooser).

SCRep. 496 (Joint/Majority) Labor and Human Services on S.B. No. 1773

The purpose of this measure is to prohibit the Department of Human Resources Development from eliminating the social worker class.

This measure also restores employees transferred from the social worker class and transfers those hired subsequent to the elimination of the social worker class into the appropriate separate classes.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, the School of Social Work of the University of Hawaii at Manoa, the National Association of Social Workers, and eleven individuals. Testimony in opposition to this measure was submitted by the Department of Human Resources Development (DHRD), the Department of Human Services, the Department of Health, the Department of Public Safety, and the Hawaii Paroling Authority.

Your Committees find that on May 1, 2004, DHRD eliminated the social worker classification and replaced it with a social worker/human services professional (SW/HSP) classification. This reclassification occurred subsequent to the Legislature's passage of S.C.R. 127, C.D.1, wherein the Legislature sought the delay of the reclassification pending consultation and coordination with various interested groups. The reclassification was accomplished presumably to address the current shortage of qualified individuals to serve as social workers within the State. However, your Committees determine that the reclassification acts to divest social workers with advanced degrees in social work of their well-earned title, by also allowing individuals without degrees to be referred to as social workers under the SW/HSP class. Your Committees believe that the Legislature has previously recognized the unique services provided by social workers, their specialized education and training, and seeks to restore their status as well as to raise the standards within the State by transitioning the current exempt State social workers into licensed social workers.

Additionally, your Committees determine that the issue regarding the reclassification of social workers to SW/HSP positions must be revisited, as representations by DHRD have indicated that they recognize no appreciable difference between those individuals now serving in SW/HSP positions who hold degrees versus those who do not. Efforts should again be made by DHRD to develop and implement a new plan for the reclassification of SW/HSPs into separate classes and should also ensure that HSP positions do not outnumber newly reclassified SW positions. Instead, your Committees believe that a more even, or fifty-fifty division among the two types of classes should be sought in order to ensure fairness as well as a high level of professional standards.

Finally, your Committees find that the reclassification of the social worker series included a new parole officer series. Your Committees recognize the difficulties faced by the Hawaii Paroling Authority in recruiting qualified individuals and believes that this class should not be affected by any changes in the SW/HSP class.

Accordingly, your Committees have amended this measure by:

- (1) Including language to indicate that a fifty-fifty balance between positions available in a social worker class and a human services professional class;
- (2) Including language which prohibits DHRD from eliminating the social worker classification in the future;
- (3) Requires newly hired state social workers and all federal and county social workers to be licensed beginning July 1, 2007; and
- (4) Including an exemption for individuals who were reclassified in parole officer positions within the Hawaii Paroling Authority.

As affirmed by the records of votes of the members of your Committees on Labor and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1773, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1773, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, 2 (Slom, Trimble). Excused, 3 (Hooser, Kokubun, Taniguchi).

SCRep. 497 (Majority) Labor on S.B. No. 1784

The purpose of this measure is to amend the definition of employee under the Employer-Union Health Benefits Trust Fund to include part-time employees working twenty or more hours per week.

This measure also provides for membership in the Employees' Retirement System for part-time employees working twenty or more hours per week.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association and the Hawaii State Teachers Association.

Comments on this measure were submitted by the Department of Budget and Finance, the Department of the Attorney General, and the Board of Trustees of the Hawaii Employer-Union Health Benefits Trust Fund.

Your Committee finds that part-time employees serve a valuable function in our state government, providing substitute and seasonal coverage, thereby often reducing operational overtime costs. However, these employees are historically excluded from many of the benefits afforded to full-time public servants, the most important of these benefits being health and retirement benefits. Your Committee determines that in recognition of their dedicated service, part-time employees working at least twenty hours per week should be extended the benefits of health and retirement benefits.

Additionally, your Committee finds that half-time teachers who are members of collective bargaining unit (5), pursuant to subsection 89-6(a), Hawaii Revised Statutes, work only 17.5 hours per week, but believes that these individuals are working a half-time equivalent and should also be afforded the same benefits as part-time employees under this measure.

Accordingly, your Committee has amended this measure by:

- (1) Amending the definition of employee under section 87A-1, Hawaii Revised Statutes, to include half-time teachers who are members of bargaining unit (5); and
- (2) Providing that half-time teachers who are members of bargaining unit (5) are eligible for membership in the Employees' Retirement System.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1784, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1784, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 498 (Majority) Labor on S.B. No. 1808

The purpose of this measure is to amend the law relating to workers' compensation, including mandating further requirements for vocational rehabilitation providers, limiting the Director of Labor and Industrial Relations' rulemaking authority, and specifying procedures for the filing of claims.

Testimony in support of this measure was submitted by the Department of Human Resources Development, the Hawaii State AFL-CIO, the Hawaii Government Employees Association, the Rehabilitation Association of Hawaii, the Hawaii Rehabilitation Counseling Association, Sestak Rehabilitation Services, the ILWU Local 142, the Hawaii State Teachers Association, the Hawaii Chapter of the American Physical Therapy Association, and twelve individuals. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations (DLIR), the Department of Commerce and Consumer Affairs, the Building Industry Association of Hawaii, and one individual. Comments on this measure were also submitted by one individual.

Your Committee finds that this bill incorporates into chapter 386 the substantive definitions, standards, criteria, and policies in effect on January 1, 2005 under currently existing rules and regulations, policies, and case law in the relevant substantive areas in order to preserve and protect the prerogative of the legislative branch of government and to prevent the abuse of power.

Last year the administration proposed an omnibus bill to reform the State's workers compensation system purporting to reduce the average cost of workers' compensation premiums. By seeking the enactment of a workers' compensation omnibus bill during the 2004 legislative session the administration implicitly recognized that without changes in chapter 386, the executive branch lacked sufficient authority to implement policy changes in the foregoing areas. The 2004 Legislature rejected the omnibus bill resoundingly.

Unable to achieve its objective through legislation, it now appears the administration is seeking to do through rulemaking in 2005 what it could not achieve during the 2004 legislative session. On February 7, 2005, DLIR held a hearing on proposed rules to affect major changes in Hawaii's workers' compensation laws regarding compensability, medical care and treatment, vocational rehabilitation and other benefits, attorney's fees, and procedures for investigating and handling claims through arbitration. The proposed rule changes substantially track the areas identified in the 2004 omnibus bill (S.B. 2961), and if adopted would significantly limit the rights and benefits of workers under Hawaii's workers' compensation laws. The administration has given every indication that it intends to cut workers' rights and benefits retroactively by applying their proposed rules to all claims regardless of when they were filed.

Your Committee believes these actions by the Department of Labor and Industrial Relations to make changes to Hawaii Administrative Rules, chapters 12-10, 12-14, and 12-15 represents a usurpation of legislative authority. In a democratic system the role of formulating policy is reserved exclusively for those in the legislative branch. See *Sherman v. Sawyer*, 63 Haw. 55, 621 P.2d 349 (1980) ("Legislative power" is defined as power to enact laws and to declare what law shall be). Under the separation of powers doctrine the authority of the executive branch is restricted to executing and applying the laws enacted by legislators.

Your Committee determines that the law, under the current administrative rules regarding the disability compensation division, should be maintained through codification, as well as amended through the inclusion of provisions that allow for further refinement of the law and the system. In section 7 the measure proscribes changes through rulemaking under section 386-72, HRS, after January 1, 2005, with a drop-dead clause effective January 1, 2011.

Your Committee also believes that this measure appropriately provides for adequate care and assistance for injured individuals, through appropriate vocational rehabilitation, in order for them to return to gainful employment. Furthermore, the measure successfully clarifies issues of discovery, places reasonable limits on the amount of information required to be furnished by treating physicians, provides guidance on the award of attorney's fees, limits the Director's rulemaking authority to ensure that the current rules are maintained, authorizes the insurance commissioner to investigate and prosecute complaints of workers' compensation fraud, and adds language relating to parties successfully bringing a claim of fraud.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1808 and recommends that it pass Second Reading and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Ihara).

SCRep. 499 (Joint) Labor and Education and Military Affairs on S.B. No. 1824

The purpose of this measure is to require the State to compensate state employees and officers on active duty in hostile fire zones the difference between their higher state pay and their military pay.

Testimony in support of this measure was submitted by the Department of Human Resources Development, the Department of Defense, the Chamber of Commerce of Hawaii, and the Hawaii National Guard Enlisted Association. Testimony in opposition was received from one individual.

Your Committees find that as the war on terrorism rages on, several units of the Hawaii Army National Guard and the Army Reserves have been ordered to active duty. Many of our public employees are also dedicated members of our National Guard and Army Reserves and, as a result, they and their families face multiple forms of hardship, including financial hardship due to the reduction in pay experienced as a result of their service. Your Committees further find that recruiting and retaining members of our state National Guard and Army Reserves is in the best interest of all of the citizens of Hawaii. Therefore, we must support all measures that will facilitate their ability to serve as well as encourage others to participate in such noble service.

Accordingly, your Committees have amended this measure by:

- (1) Clarifying that hostile fire zones are those designated by presidential executive order;
- (2) Placing a cap on the amount of compensation an individual can receive; and
- (3) Making the provisions retroactive to apply to state officers and employees who completed their tours of duty in hostile fire zones during calendar years 2003 and 2004.

As affirmed by the records of votes of the members of your Committees on Labor and Education and Military Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1824, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1824, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Chun Oakland, Hooser).

SCRep. 500 Labor on S.B. No. 1888

The purpose of this measure is to extend the term of the members of the Hawaii Labor Relations Board (HLRB) from six to ten years.

This measure also adjusts the salary of the chairperson of the HLRB to be at least equal to that of the deputy director of the Department of Labor and Industrial Relations and the salary of the other HLRB members to be equal to ninety-five percent of the chairperson's salary.

Testimony in support of this measure was submitted by the United Public Workers. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations and the Department of the Attorney General.

Your Committee finds that HLRB members serve the valuable function of adjudicating cases arising under the State's collective bargaining laws. Service on the HLRB requires individuals to have specialized knowledge and expertise in the area of employee relations. Your Committee further finds that the State is better served by having the members of this type of body serve an extended term of ten rather than six years. Additionally, your Committees determine that it is necessary to provide for the adequate compensation of the individuals serving on the HLRB at a level commensurate with their responsibilities, experience, and performance in order to attract qualified individuals.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1888 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 1 (Ihara).

SCRep. 501 Judiciary and Hawaiian Affairs on S.B. No. 551

The purpose of this measure is to enact a fee schedule for court appointed fact-finders that assist a family court judge in making child custody and visitation determinations.

Testimony in support of this measure was submitted by the Hawaii State Coalition Against Domestic Violence, the Domestic Violence Clearinghouse and Legal Hotline, and three individuals. The Judiciary offered comments on the measure.

Your Committee finds that the lack of a statutorily established fee schedule for court appointed fact-finders means that there is a lack of uniformity and consistency in which fees are assessed or charged by these individuals. Enacting a uniform fee schedule will not only provide much needed clarity for all parties, but also allow the court to be more actively involved in ensuring that the fees charged by court appointed fact-finders do not exceed statutory caps or, in the event that the statutory cap must be exceeded, that the court is able to impose reasonable conditions based upon the needs of the parties and the type of issues involved in the case.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 551, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 551, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 502 Judiciary and Hawaiian Affairs on S.B. No. 552

The purpose of this measure is to appropriate funds for the expansion of the Kids First program in the Judiciary in order to provide co-parenting classes for individuals involved in a high-conflict divorce.

Testimony in support of the measure was submitted by the Children's Rights Council of Hawaii and three individuals. Testimony in opposition to the measure was submitted by the Legal Aid Society of Hawaii. The Judiciary, Domestic Violence Clearinghouse and Legal Hotline, and the Hawaii State Coalition Against Domestic Violence offered comments.

Your Committee finds that the Kids First Program is an important educational program for couples going through a high conflict divorce. This program helps address and resolve important emotional, psychological, and mental issues that are present in both adults and children as they make the transition to a post-divorce family structure and setting. In order to implement this program, the Judiciary will develop and implement guidelines for determining or classifying "high-conflict" divorce cases for eligibility purposes as well as ensure that where allegations of domestic abuse are involved or raised, these divorcing parents are not required to attend co-parenting classes together.

Your Committee has amended this measure by permitting the Family Court to assess or apportion the costs of these co-parenting classes to individuals who have the financial resources to pay for these classes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 552, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 552, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 503 (Joint) Judiciary and Hawaiian Affairs and Labor on S.B. No. 825

The purpose of this measure is to make deputy sheriffs and the Sheriff Division Administrator eligible for similar retirement benefits afforded to other law enforcement and safety personnel upon reaching twenty-five years of credited service, regardless of age.

Testimony in support of the measure was submitted by the Department of Public Safety and the Hawaii Government Employees Association.

Your Committees find that deputy sheriffs perform the same law enforcement and public safety functions that are assigned to police officers, firefighters, and other safety personnel, but are not afforded the same retirement benefits as these individuals. This measure seeks to establish parity among law enforcement personnel with respect to retirement benefits by applying the same retirement criteria to deputy sheriffs that is presently being used by other law enforcement personnel which would enable deputy sheriffs to retire after twenty-five years of credited service, regardless of age.

Your Committees have amended this measure by making technical, non-substantive amendments for purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Judiciary and Hawaiian Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 825, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 825, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 1 (Taniguchi).

SCRep. 504 (Joint) Judiciary and Hawaiian Affairs and Labor on S.B. No. 828

The purpose of this measure is to allow state correctional officers to retire after twenty-five years of credited service, regardless of age.

Testimony in support of this measure was submitted by the Department of Public Safety, the United Public Workers, and seventy-six state correctional officers.

Your Committees find that state correctional officers perform the same law enforcement and public safety functions as police officers, firefighters, and other safety personnel, but are not able to utilize the same retirement criteria afforded to other law enforcement personnel. This measure is designed to promote parity in retirement eligibility by allowing state correctional officers to retire after accumulating twenty-five years of credited service, regardless of age.

Your Committees have amended this measure by making technical, non-substantive amendments for purposes of clarity.

As affirmed by the records of votes of the members of your Committees on Judiciary and Hawaiian Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 828, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 828, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 1 (Taniguchi).

SCRep. 505 Judiciary and Hawaiian Affairs on S.B. No. 995

The purpose of this measure is to repeal the mandatory retirement age of seventy for all state judges and justices.

Testimony in support of this measure was submitted by one individual.

Your Committee finds that the mandatory retirement age of seventy for all state judges and justices means that a number of highly qualified and extremely productive jurists were forced to retire from the bench for no other reason than they had attained the age of seventy. This mandatory retirement age has deprived the State of experienced, well-respected, and knowledgeable judges who are still able to make meaningful contributions to the practice of law and the administration of justice, even after they have attained the age of seventy and beyond.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 995 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 506 Judiciary and Hawaiian Affairs on S.B. No. 965

The purpose of this measure is to repeal the existing law on electronic eavesdropping, commonly referred to as the wiretapping law, and to replace it with a wiretapping and electronic surveillance law that is organized and more compatible with federal law on the same subject.

In addition, this measure establishes an electronic surveillance unit in the Department of the Attorney General to review all wiretapping applications and to make written recommendations to the court for approval or disapproval of the application. The measure also creates exceptions from criminal liability for individuals who are designated by investigative or law enforcement officers as providers of special assistance in wiretapping, and creates procedures for conducting wiretapping in emergency situations without a prior court order.

Testimony in support of the measure was submitted by the Office of the Lieutenant Governor, the Department of the Attorney General, the Department of the Prosecuting Attorney for the County of Maui, the Hawaii County Police Department, Mothers Against Drunk Driving, and one individual. Testimony in opposition to the measure was submitted by the Office of the Public Defender and the ACLU of Hawaii. Offering comments on the measure were the Department of the Prosecuting Attorney for the City and County of Honolulu, the Department of Public Safety, and the Honolulu Police Department.

Your Committee has amended this measure by deleting the electronic surveillance unit as well as the requirements for a memorandum by the Attorney General recommending approval or disapproval of the application for a wiretap. Your Committee believes that the establishment of an electronic surveillance unit with specific authority being accorded to the Attorney General to make recommendations to the court is not only unnecessary, but may also compromise the impartial and independent role of the Judiciary in determining the propriety of a specific wiretap application.

Your Committee also amended the measure by removing any special exceptions given to individuals who are designated by law enforcement officers engaging in wiretapping activities. Although special exceptions may be appropriate under specific and special circumstances, your Committee believes that the law enforcement officers should not have the authority to grant that exception. Instead, your Committee believes that a court, after considering the application for a wiretap and the facts and circumstances that are included in an application, may include such protective orders or conditions as the court determines to be necessary.

The emergency provision of the measure that allows for a wiretap without a court order has also been deleted. An impartial and independent evaluation by the court between the zealous pursuit to obtain a wiretap for suspected criminal activity and the established right to privacy is not only necessary, but can be obtained within a relatively short period of time. The Judiciary places a judge on twenty-four hour call for the express purpose of issuing warrants and similar orders, and if absolutely necessary, should be able to make a judicial determination in the event of an emergency.

Your Committee has also made other amendments to the bill regarding the preservation of existing law on the use of the contents of a wiretap that violates law, and the deletion of limitations on an aggrieved person's right to suppress the evidence or appeal an adverse ruling in addition to all other remedies and sanctions to which the aggrieved person may be entitled. Your Committee replaced the need for probable cause for the issuance of a court order for a pen register or trap and trace device. Instead of requiring that federal law be incorporated into Hawaii law, your Committee believes that Hawaii law must be interpreted taking into consideration Hawaii's Constitution and history protecting an individual's right to privacy.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 965, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 965, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 507 Judiciary and Hawaiian Affairs on S.B. No. 1689

The purpose of this measure is to establish a comprehensive public funding program for state legislative candidates and candidates for the offices of Governor and Lieutenant Governor who agree to abide by campaign contribution and expenditure limits.

Testimony in support of the measure was submitted by the Mayor of Hawaii County, a member of the Hawaii County Council, the Vice-Chair of the Maui County Council, the Hawaii Democratic Party-Oahu County Committee, the AARP of Hawaii, Hawaii Clean Elections, the Hawaii State Coalition Against Domestic Violence, Interfaith Alliance Hawaii, the Kokua Council, the League of Women Voters of Hawaii, Life of the Land, Americans for Democratic Action-Hawaii Chapter, and forty-three individuals. Testimony in opposition to the measure was submitted by the Department of Budget and Finance, the Department of Taxation, and the Campaign Spending Commission. Offering comments on the measure was the Office of Elections.

Your Committee finds that a number of states, such as Arizona and Maine, have enacted laws that allow for publicly funded campaigns for state elective office. Based upon the positive experiences of these states both in terms of increasing voter participation and allowing more people to participate as candidates for elective office, your Committee finds that Hawaii should also enact a similar comprehensive public funding program for state legislative candidates as well as for the Office of Governor and Lieutenant Governor.

Your Committee has amended this measure by:

- (1) Changing the expending agency for purpose of the appropriation to the Department of Accounting and General Services; and
- (2) Making technical, non-substantive changes for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1689, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1689, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Hee).

SCRep. 508 (Joint) Higher Education and Water, Land, and Agriculture on S.B. No. 1065

The purpose of this measure is to appropriate funds to the University of Hawaii to enable its College of Tropical Agriculture and Human Resources (CTAHR) to conduct crucial research and outreach to develop and promote high-value agricultural products, breeding programs, and related activities.

Your Committees received testimony in support of this measure from CTAHR, Department of Agriculture, Aloun Farms, Big Island Candies, Hawaii Crop Improvement Association, Hawaii Commercial & Sugar Company, Pineapple Growers Association of Hawaii, and one individual. Your Committees received testimony in opposition to this measure from four individuals.

Hawaii's agriculture and value-added products contribute \$2,400,000,000 to the State's economy and employ more than thirty-eight thousand people. During the past twenty years, diversified agriculture in Hawaii has more than doubled. The prime agricultural lands released from sugar and pineapple production present a rare window of opportunity to further agricultural development.

Currently, about one hundred thousand acres of former sugar and pineapple land lie fallow, awaiting economically viable agribusinesses. If all of this land could be put to productive use in successful agricultural ventures, an additional \$1,700,000,000 to \$4,400,000,000 could be added to the State's economy.

From the mid-1990s to the beginning of the current decade, CTAHR lost \$3.5 trillion in state appropriations and thirty six faculty positions, jeopardizing the college's efforts to assist the agribusiness community. In response, the Legislature passed Act 234, Session Law of Hawaii 2001, which provided \$500,000 in funding for fiscal years 2002 and 2003. CTAHR used the Act 234 funds to fill nine faculty positions, including extension agents on Hawaii and Maui and professors at the University of Hawaii at Manoa. Act 234 expressed the Legislature's intent to add the \$500,000 appropriation to the University of Hawaii base budget, but budgetary restrictions prevented the University from rolling these funds into the 2003-2005 budget. In 2004, the Legislature passed Act 223, which appropriated \$500,000 for CTAHR research programs in fiscal year 2005.

By adding \$500,000 to the University's base budget, this measure enables CTAHR to retain the nine faculty hired with Act 234 funds. This money will ensure that these faculty members can continue their important work by:

- (1) Addressing the pest, disease, and nutrition issues faced by Hawaii growers;
- (2) Introducing new products to the Hawaii market;

- (3) Promoting Hawaii products in the State, on the mainland, and around the world;
- (4) Creating cutting-edge technologies and developing new value-added goods; and
- (5) Investigating how Hawaii's forests and watersheds can be managed to support industries while protecting natural resources.

Your Committees find that Hawaii must diversify its economic base beyond a reliance on tourism. A revived state agricultural industry holds the promise of not only diversifying Hawaii's economy, but also improving the food security of our isolated islands and preserving the green space and lifestyle that Hawaii's citizens and visitors value.

Your Committees further find that in order for Hawaii's agricultural industry to take advantage of this opportunity, it must produce high quality, market-driven products that offset Hawaii's high costs of land, labor, water, and transportation. This requires that the agricultural industry have access to the highest quality, state-of-the-art research and outreach programs. CTAHR is engaged in several areas of research and outreach that have already contributed to the resurgence of agriculture in Hawaii.

Your Committees have amended this measure by making an appropriation of \$500,000 for the fiscal year 2005-2006 only and by removing the fiscal year 2006-2007.

As affirmed by the records of votes of the members of your Committees on Higher Education and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1065, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1065, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, English, Trimble).

SCRep. 509 (Joint) Higher Education and Media, Arts, Science and Technology on S.B. No. 1506

The purpose of this measure is to make an appropriation to Leeward Community College to purchase mobile high definition television production facilities that include transportation and production equipment.

Your Committees received testimony in support of this measure from Leeward Community College (LCC) and twenty individuals.

LCC's TVPro program has international students who have come to Hawaii from all over the globe, including Greece, England, Germany, and Japan, to enroll in that program. LCC's TVPro also has students with baccalaureate and post-graduate degrees from prestigious film and television schools including the University of Southern California and University of California at Los Angeles. Students enroll in LCC's TVPro because of its hands-on instruction and professional skills that will land them a successful career.

Most college film or TV programs have a job placement rate of 11 to 13 per cent. LCC's TVPro has never had less than an 89 per cent placement rate consistently over 17 years, making it one of the most successful programs in the United States, at quadruple the national average. LCC's TVPro students and graduates work in every TV station in Hawaii, in Hollywood, on major TV networks, many feature films, virtually every TV show and movie that comes to Hawaii, and elsewhere around the world. At least 50 per cent of the entire staff of KITV are LCC's TVPro graduates.

Over the past 17 years, TVPro has never asked for or received any state funds for equipment. All of the equipment currently in LCC's TVPro possession have been acquired through federal grants including Title III and Carl Perkins funds. However, the Federal Communications Commission is requiring all TV stations to broadcast fully digital by 2006. Unfortunately, this technology is quite expensive. As a vocational program, it costs more for the hands-on instruction and the tools. LCC's TVPro acknowledges that the funding requested is a large sum of money, but the program is in dire need of new technology tools to teach its students.

Your Committees find that purchasing mobile high definition television production facilities would be an asset as well as beneficial to the LCC's TVPro program.

As affirmed by the records of votes of the members of your Committees on Higher Education and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1506 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Ihara, Sakamoto, Trimble).

SCRep. 510 Higher Education on S.B. No. 1064

The purpose of this measure is to appropriate funds to the University of Hawaii to enable the Department of Natural Resources and Environmental Management of the University of Hawaii College of Tropical Agriculture and Human Resources to hire faculty with expertise in resource management and conservation.

Pursuant to prior concurrence with the Chair of the Senate Committee on Judiciary and Hawaiian Affairs, your Committee has amended this measure by replacing it entirely with the contents of SB 906. SB 906 was heard jointly by your Committees on Higher Education and Judiciary and Hawaiian Affairs prior to your Committee on Higher Education's hearing on SB 1064. At the joint hearing on SB 906, the chairs of your Committees noted that the title of SB 906 was in conflict with the intent and contents of the bill, thereby rendering it defective. Your Committees felt that improving governance of the University of Hawaii's Community Colleges is

a matter of great importance and therefore agreed that the measure should go forward with technical amendments in the form of SB 1064.

This measure proposes a constitutional amendment to establish the University of Hawaii Community College System as a separate and independent entity with its own Board of Regents, require the members of the two boards of regents to be appointed through selection commissions, and require the members of the two boards to serve ten-year terms.

Testimony in opposition to this measure was received from the Hawaii Government Employees Association, while the University of Hawaii provided a concerned response.

Your Committee finds that while there are economies of scale in maintaining the community colleges as part of the University of Hawaii System, there is no assurance that the community colleges will always receive equitable financing or be held accountable for their programs and use of taxpayer money. A separate board dedicated to managing the community colleges would be tasked with this specific responsibility and held accountable for their actions.

Also, as the “step-children of Manoa”, community colleges have not been the driving force behind the policy of governance by the Board of Regents. As a result, the latest change to the management of the community colleges has resulted in each campus being given near complete autonomy and is now headed by its own chancellor. This change has arguably been a bane to the financial and programmatic survival of the community colleges.

The Accrediting Commission for Community and Junior Colleges, Western Association of Schools and Colleges (ACCJC) is the body responsible for accrediting community colleges. In a January 31, 2005 letter to University of Hawaii Interim President David McClain, the ACCJC was highly critical of the reorganizations that have occurred since 2003. By way of background, then President Evan Dohelle moved to eliminate the Office of the Chancellor for Hawaii’s community colleges and created a structure of seven colleges reporting directly to the President of the University. The ACCJC’s letter stated, “. . . confusion continues about the respective roles of campus and system administrators in determining campus priorities, and this lack of distinction continues to challenge the ability of each college to meet accreditation standards.” The ACCJC further stated, “The Commission remains concerned that a lack of clarity persists about operational decisions distinct to the role and mission of the community colleges within the University of Hawaii system.”

Following its November 15-18, 2004 visit to the University of Hawaii, the ACCJC issued a 15 page report on the reorganization of the University of Hawaii Community Colleges. Their report identified four concerns specifically in the areas of:

- The delegation of personnel functions to the individual campuses and continuing the role of the personnel function at the system level;
- Development and implementation of a regular assessment of institutional effectiveness;
- The role of the governing board as a policy making body; and
- Staffing and funding of the University system structure that resulted from reorganization of the community colleges that began in May 2003, including the elimination of the position of Chancellor for Community Colleges and the restructured reporting lines for the colleges.

Excerpts from this report highlight the need to establish a dedicated single governing body with a chief executive solely responsible for the management and direction of the community college system.

Specifically, the report says:

- Page 5: “Because the University reorganization did not clearly give the Associate Vice President authority over the colleges in the areas of his responsibility, his staff are concerned about whether they have the authority to do what needs to be done. The unit’s claim that it ‘coordinates’ the colleges in areas of its expertise are apparently true only when colleges agree to be ‘coordinated’.”
- Page 6: “The President communicates with his immediate staff, the University System-wide Support staff; the Associate Vice Presidents for Community Colleges are one reporting level lower in the organizational structure and are not always getting or giving key personnel information.”
- Page 8: “The Council of Community College Chancellors is delegated responsibility for implementing changes . . . The Council tends to share information more than make decisions, and staff of the Colleges told the (ACCJC) Team bluntly ‘it is not a decision-making body’ . . . The inability of either council or of a super-ordinate to decide how the colleges might collectively approach at least core elements of program review, result in each college pursuing its own local strategy or, as in some cases, not acting at all on this matter.”
- Page 11: “The (ACCJC) Team’s view is that as a state system-wide board, the Board of Regents needs to be prepared to devote sufficient time and attention to the issues of community colleges’ educational quality and program improvement . . . The Team urges the Board of Regents, the University of Hawaii President, and the Community College Chancellors, to explore how the Board of Regents can be organized to fulfill its responsibilities to the specific community college mission.”

- Page 12: “The Commission’s original concern...was that the Community College System-wide Support services be identified and maintained at a level sufficient to support the Community Colleges. The Team believes it is clear that the reorganization (first or second) has not established a clear organizational structure with clearly defined roles or authority and responsibility between the colleges and the system that effectively supports the colleges in their mission and function.”

Your Committee finds that perhaps the ACCJC’s report is best summed up in one statement by the reviewers, “The Team believes that the State will find it very challenging to continue to operate the Community College system without identifying a clear ‘head’ of that system.” The Board of Regents has adopted a “change as you go” attitude in managing the reorganization of the Community Colleges with respect to that of the University of Hawaii system. Your Committee finds that while the University is working at yet another reorganization at a cost of \$1.5 million, there is still a lack of commitment on the Board of Regents part to return the Community Colleges to an efficient and well managed system that it once was under a single system wide Chancellor.

Finally, your Committee recognizes that the community colleges not only enroll the majority of all students in the University of Hawaii system, they enroll an even larger majority of students whose place of residency is our State. The need for the attention from this body is further increased by the high proportion of such students who are the first in their family to attend college and the large numbers of such students that are from disadvantaged backgrounds. Your Committee finds that the University of Hawaii system as it is presently organized places the needs of these students last.

Your Committee believes that the findings contained in the ACCJC report reinforces the need to establish a separate board of regents to manage the University of Hawaii Community Colleges. Your Committee also finds that in light of the fact that University Presidents may come and go, it is the responsibility of this Legislature to ensure that no harm is done to the governance and management of this institution for the welfare of Hawaii’s people and economy.

As affirmed by the record of votes of the members of your Committee on Higher Education that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1064, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1064, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Trimble).

SCRep. 511 (Joint) Education and Military Affairs and Commerce, Consumer Protection and Housing on S.B. No. 639

The purpose of this measure is to remove the Housing and Community Development Corporation of Hawaii from managing the Department of Education teacher housing, and to authorize the department to manage its teacher housing.

Testimony in support of the measure was submitted by the Department of Education and Housing and Community Development Corporation of Hawaii.

Your Committees find that the teacher housing program has been an effective recruitment and retention tool for isolated communities that have very limited affordable housing for educational personnel. Furthermore, Act 51, Session Laws of Hawaii 2004, encouraged the transfer of educational functions in other departments and agencies to the Department of Education. However, adequate resources and the development of property management capacity must also be transferred to implement the intent of this measure.

Upon further consideration, your Committees have amended this measure to:

- (1) Extend the effective date to July 1, 2007 to give the department adequate time to develop the capacity to manage the teacher housing inventory, as it is outside their area of expertise;
- (2) Require the department to report their discussions with the corporation to the legislature; and
- (3) Make a technical, nonsubstantive amendment for the purpose of clarity.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 639, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 639, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Espero, Ige).

SCRep. 512 (Joint) Education and Military Affairs and Higher Education on S.B. No. 1811

The purpose of this measure is to clarify that students participating in the running start program may receive a credit for their college coursework at the institution and at their high school and expands the availability of college courses in which the participants may enroll. This measure also releases the Department of Education from liability for students participating in the program when exiting their campus to conduct activities outside of the program.

Testimony in support of the measure was submitted by the Department of Education and University of Hawaii.

Your Committees find that the running start program allows high school students to enroll in college level courses at the University of Hawaii. The purpose of the program is to provide the student with a head start in their college coursework. However, the intent is not to hinder the student's progress toward a timely graduation. This measure clarifies that students participating in the program will be able to receive credit for college coursework as well as high school credit, provided that the course is aligned with the Board of Education's curriculum requirements.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1811 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 1 (Baker).

SCRep. 513 (Joint/Majority) Education and Military Affairs and Judiciary and Hawaiian Affairs on S.B. No. 908

The purpose of this measure is to establish the department of education as a political subdivision headed by the board of education.

This measure also establishes an educational restructuring and transition committee to assist in the restructuring of the department of education and the public educational system.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Department of Budget and Finance and one individual. Comments on this measure were also submitted by the Board of Education.

Your Committees find that an educational crisis exists in Hawaii's public educational system in that it suffers from numerous deficiencies which results in low test scores, the weakening of teaching staff, and low learning expectations. Your Committees further find that the development of a system that provides answers to funding issues as well as accountability problems is crucial to a successful public school system. Additionally, the reform of the governance of the statewide educational system through the establishment of clear lines of authority and responsibility in fiscal matters, policy issues, and managerial oversight is an issue that must also be addressed.

Your Committees have determined that establishing the Department of Education (DOE) as a political subdivision will allow the DOE to effectively and efficiently utilize its existing resources in an autonomous manner, by which it is accountable only to the public at large. The creation of an educational restructuring and transition committee will help to facilitate the restructuring of the DOE and the public educational system. Furthermore, your Committees believe that this committee should be formed immediately in order to begin to address the numerous issues involved in the restructuring of the DOE and the public school system.

Accordingly, your Committees have amended this measure by:

- (1) Changing the effective date of the Act to make section 12, which establishes the educational restructuring and transition committee, to be effective upon approval, prior to the constitutional amendment being placed on the ballot; and
- (2) By adding two members of the business community to the committee.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 908, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 908, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, 1 (Hogue). Excused, 2 (Hee, Ihara).

SCRep. 514 (Joint) Education and Military Affairs and Health on S.B. No. 860

The purpose of this measure is to clarify that health aides shall be provided for all public schools, including all new century charter schools and new century conversion charter schools.

Testimony in favor of the measure was submitted by the Department of Education, Charter School Administrative Office, and Hawaii Academy of Arts and Science Public Charter School. The Department of Health submitted comments.

Your Committees find that there are over five thousand five hundred students attending new century charter schools. It is only appropriate for all public school students, in charter schools and regular schools, to receive the same services and level of support. This measure clarifies the State's duty to provide charter school students the same access to health aides as the regular public school students.

Although Act 51, Session Laws of Hawaii 2004, included assurances that issues such as these would be provided for, your Committees have amended this measure to change its effective date to July 1, 2020. It is the intent of your Committees to ensure that health care services are provided to charter schools.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 860, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 860, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 515 Education and Military Affairs on S.B. No. 434

The purpose of this measure is to exempt the Department of Education from liability when a person employed by the department participates in parent teacher association activities, and to make that person personally liable for willful acts committed during those activities.

Testimony in opposition to the measure was submitted by the Hawaii State Teachers Association and Consumer Lawyers of Hawaii.

Your Committee finds that the Parent Teacher Association plays a critical role in assisting public schools function effectively by ensuring primary stakeholders in schools work together collaboratively. Through a variety of activities, the association supports the achievement of academic and financial goals of schools.

Although some concerns were raised, your Committee has approved this measure with amendments to continue the discussion of what the department should be liable for regarding parent teacher association activities. Your Committee has amended this measure by:

- (1) Requiring the board to establish a policy to encourage participation in parent and teacher activities;
- (2) Directing the board to report the policy to the Legislature; and
- (3) Requiring the Attorney General to assist the board if requested.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 434, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 434, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 516 (Joint) Health and Human Services on S.B. No. 527

The purpose of this measure is to allow area office on aging of each county the option to purchase health and human services for the aged through chapter 103F or chapter 103D.

The Executive Office on Aging, Waianae Coast Comprehensive Health Center, the National Association of Social Workers, and one individual submitted testimony in support of this measure. The Department of Budget and Finance submitted comments.

Your Committees find that expenditures from the emergency budget and reserve fund established by section 328L-3, Hawaii Revised Statutes, are needed to meet the emergency economic situation currently facing the State.

Upon further consideration, your Committees amended this measure by deleting the provision pertaining to the Executive Office on Aging that would give county offices on aging the ability to decide whether to make procurements through chapter 103D or chapter 103F, Hawaii Revised Statutes, and appropriated funds from the emergency budget and reserve fund for various health and human services programs for fiscal year 2006-2007.

Your Committees note that testimony was given regarding incorporation of that part of the earlier version of this measure that pertained to the Executive Office on Aging. The original purpose of this measure was to give county offices on aging the ability to decide whether to make procurements through chapter 103D or chapter 103F, Hawaii Revised Statutes. Your Committees respectfully request the Committee on Ways and Means to include this provision into the measure that it is considering regarding procurement.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 527, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 527, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 4 (Kokubun, Tsutsui, Trimble, Whalen).

SCRep. 517 Health on S.B. No. 132

The purpose of this measure is to adopt the Hospital Infections Disclosure Act that requires hospitals to establish a system of infection data gathering and reporting to the Department of Health and the public.

Your Committee finds that Hawaii's hospitals are too diverse in the patient populations they serve and the services they offer to permit meaningful comparison of nosocomial infection rates. The measure erroneously assumes that publication of comparisons of infection rates will stimulate hospitals to reduce those rates for competitive reasons. However, most of Hawaii's hospitals operate at near full capacity. Furthermore, the necessary groundwork to implement a hospital-acquired infection reporting system is not yet in place to allow useful comparison of infection rates and quality of care among different hospitals.

Accordingly, your Committee has amended this measure by deleting its contents and replacing it with a measure that establishes a task force in the Department of Health to design a system for reporting hospital-acquired infections to the public.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 132, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 132, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 518 Media, Arts, Science and Technology on S.B. No. 785

The purpose of this measure is to allow public meetings by video teleconferencing to continue even if the video connectivity is interrupted or stopped.

Your Committee received testimony in support of this measure from the State Council on Developmental Disabilities and Hawaii Health Systems Corporation. Your Committee also received comments regarding this measure from the Office of Information Practices.

Your Committee finds that conducting public meetings via video teleconference allows more people to participate or observe the meetings, especially for neighbor island residents and boards with members at different sites throughout the State. Video teleconferencing is convenient, cost-effective for the State, and saves residents travel costs and time. Your Committee further finds that the State has a very sophisticated teleconferencing capability and infrastructure. Occasionally, technical problems affect the video connectivity, however, audio connections usually can be restored quickly. Your Committee believes that this measure balances the duties of a board to hold public meetings as required by the Sunshine Law, chapter 92, part I, Hawaii Revised Statutes, with the public's right to participate in the board's discussions, deliberations, and decisions.

Your Committee notes concerns raised by the State Council on Developmental Disabilities regarding video teleconferencing and teleconferencing, and believe this measure addresses these issues.

Your Committee has amended this measure to require board consideration to allow a member to participate via teleconference if video teleconferencing facilities are unavailable. Your Committee also has amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 785, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 785, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 519 (Joint) Media, Arts, Science and Technology and Water, Land, and Agriculture on S.B. No. 821

The purpose of this measure is to establish criminal penalties for violations against state historic sites and aviation artifacts.

Your Committees received testimony in support of this measure from the Department of Land and Natural Resources and received comments from the Native Hawaiian Legal Corporation.

Your Committees find that the State has a strong interest in preserving and protecting Hawaii's historic sites and aviation artifacts. At present, the Department of Land and Natural Resources' only recourse against violators of chapter 6E, Hawaii Revised Statutes, is to pursue civil penalties where historic properties were knowingly destroyed. Your Committees find that this remedy is inadequate and does not deter future violations. Your Committees believe that this measure will strengthen the department's authority and enforcement mechanisms by providing criminal penalties in addition to existing civil penalties.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 821 and recommend that it pass Second Reading and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 1 (Hooser).

SCRep. 520 Media, Arts, Science and Technology on S.B. No. 1304

The purpose of this measure is to increase the membership of the Hawaii Television and Film Board, outline specific administrative procedures and functions, and appropriate funds to the board's special fund.

Your Committee received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; the Big Island Film Office; the Maui Film Office; and the Honolulu Film Office.

This measure is intended to enable local writers, directors and producers to create parts for local actors filmed by local crews. It complements the film/digital media production credit established in SB No. 541, SD1, Relating to Digital Media, by making it possible for talented Hawaii filmmakers to obtain financing for their productions through a separate grants process.

Just as Acts 221/215 were intended to provide start-up financing for high-tech start-ups in early stages of development, the Hawaii Film and Television Development Special Fund will provide seed financing that independent and budding filmmakers can use to leverage non-state funding sources. Since many of these filmmakers' projects would not be eligible for the film/digital media production credits, the Special Fund takes on special significance for independent filmmakers.

Your Committee has amended this measure by increasing the appropriation to \$2,000,000 and by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1304, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1304, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ige).

SCRep. 521 Health on S.B. No. 1226

The purpose of this measure is to appropriate funds for a case manager to assist individuals with viral hepatitis with medical, housing, and ongoing counseling assistance referrals and acceptance.

Life Foundation, Hepatitis Hale Treatment & Support Program, Hawaii Chapter of the American Liver Foundation, and three individuals submitted testimony in support of this measure. The Department of Health submitted testimony in opposition.

Your Committee finds that there is a growing concern regarding the spread of chronic hepatitis in Hawaii. Conservative estimates indicate that approximately twenty thousand people are currently living with the hepatitis C virus. There are many people who are homeless and have chronic hepatitis C virus that may die from this chronic disease unless they are treated. Hawaii presently lacks a case management program to assist the homeless population that is infected with chronic hepatitis and that is at risk of spreading the infection to others. A case management program will assist the homeless and other hepatitis patients get referrals to and acceptance for medical coverage, housing, and ongoing counseling. Similar services for the HIV/AIDS population are purchased by the Department rather than provided by Department personnel.

Therefore, upon further consideration, your Committee has amended this measure by requiring the Department of Health to contract for case management services to establish a hepatitis C virus (HCV) case management pilot program.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1226, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1226, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 522 (Majority) Labor on S.B. No. 535

The purpose of this measure is to:

- (1) Prohibit an employer or labor organization from discriminating against an employer who uses accrued and available sick leave in accordance with a valid collective bargaining agreement or employment policy; and
- (2) Clarify that the term "employee" includes an employee with a non-chronic condition of a short-term nature.

Testimony in support of this measure was submitted by the Hawaii State AFL-CIO, the United Public Workers, AFSCME, Local 646, AFL-CIO, the Hawaii State Teachers Association, and the ILWU Local 142.

Testimony in opposition to this measure was submitted by the Hawaii Civil Rights Commission, the Chamber of Commerce of Hawaii, Verizon Hawaii, the Society for Human Resource Management, and the Retail Merchants of Hawaii.

Comments on the measure were submitted by the Department of Labor and Industrial Relations (DLIR) and the Department of Human Resources Development.

Your Committee finds that the existence of "no-fault" attendance policies may arbitrarily and unfairly penalize employees who rightfully utilize available sick leave benefits provided by employers. To this end, an employee who legitimately uses sick leave and

an employee who is absent from work though the abuse of sick leave benefits are both considered absent for purposes of the no-fault policy and may be disciplined as a result of these absences. Your Committee determines that employees who legitimately utilize sick leave benefits that they have accrued and are available to them, verified by a valid doctor's excuse, should not be unfairly penalized. Your Committee further finds that jurisdiction over the enforcement of this provision is more properly placed with DLIR, which is adequately equipped to handle its administration.

Accordingly, your Committee has amended this measure as follows:

- (1) By deleting the newly created section within part I of chapter 378, Hawaii Revised Statutes; and
- (2) By including an amendment to section 378-32, HRS, to:
 - (A) Prohibit an employer or labor organization from discriminating against an employer who uses accrued and available sick leave in accordance with a valid collective bargaining agreement or employment policy; and
 - (B) Clarify that the term "employee" covers an individual with a non-chronic condition of a short-term nature.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 535, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 535, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 523 Labor on S.B. No. 738

The purpose of this measure is to allow the Employees' Retirement System to compromise or settle claims for benefits, including those claims arising over the detrimental reliance by ERS members on erroneous information provided by the ERS, as approved by the Attorney General.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Employees' Retirement System (ERS), and the Hawaii State Teachers Association.

Your Committee finds that the Attorney General has opined that, under the current law, the ERS is not authorized to compromise or settle claims in which an ERS member has detrimentally relied on erroneous information provided by the ERS, if this would result in the member receiving benefits that the member is not entitled to receive by statute. Therefore, the current law does not provide for the more effective and efficient disposition of cases wherein an ERS member has made a decision, based upon erroneous information obtained from the ERS, which may result in severely adverse consequences to the member. Your Committee further finds that situations may occur in which a member is mistakenly or incorrectly credited with service to which the member is not entitled as a matter of law. As the courts may find that this situation was established through the detrimental reliance of a member on information obtained from the ERS, the ERS should be authorized to compromise or settle the case instead of having to participate in full blown litigation unless this is necessary.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 738, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 738, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 1 (Taniguchi).

SCRep. 524 (Majority) Labor on S.B. No. 290

The purpose of this measure is to amend the law regarding appropriate issues for negotiations in collective bargaining.

Specifically, this measure:

- (1) Provides for the ability to negotiate over discretionary issues of collective bargaining;
- (2) Provides that nothing in the section shall be construed as inconsistent with the right of public employees to engage in collective bargaining; and
- (3) Clarifies that chapter 89 shall supercede all other laws to the contrary.

Testimony in support of this measure was submitted by the United Public Workers, the Hawaii State Teachers Association, and the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Judiciary, the Department of Human Resources Development, the Department of Human Resources of the City and County of Honolulu, the Department of Personnel Services of the County of Maui, the Department of Civil Service of the County of Hawaii, the University of Hawaii, and the Hawaii State Personnel Council.

In 1988 the Legislature amended section 89-9(d), Hawaii Revised Statutes (HRS), to expand the scope of collective bargaining in the public sector, pursuant to Act 399, Session Laws of Hawaii 1988. The intent of the change was to protect contract provisions

which would otherwise be considered invalid because of a literal reading of what is commonly referred to as the management rights clause in section 89-9(d), HRS. As explained in relevant portions of the House Standing Committee Report Number 986-88:

Your Committee has also reviewed the history of public sector collective bargaining and the contract which have been negotiated under section 89-9. To avoid any conflict which might otherwise arise between a literal reading of section 89-9(d) and existing provisions of these contracts, we have amended that section.

1998 House Journal, at 1193.

Your Committee has again conducted a similar review and find that nearly all agreements in the public sector contain or refer to standards, criteria, and procedures relating to the employee hiring, promotions, transfer, assignment, retention, suspension, demotion, discharge, disciplinary actions, layoffs and displacement for lack of work and other similar personnel actions. Based on the history, past practice, and intent of chapter 89, there is no sound reason why these contract provisions should be subject to challenge based on any claim to "management rights." These topics traditionally fall in the category of "terms and conditions of employment" as the phrase is used in section 89-9(a), HRS. They are mandatory subjects of collective bargaining, and retaining reference to them in section 89-9(d), HRS, can only lead to confusion and misapprehension. Accordingly, your Committee believes deleting references to all mandatory subjects of collective bargaining from section 89-9(d), HRS, is necessary and appropriate.

At the same time, your Committee has retained in section 89-9(d), HRS those matters which are considered excluded matters or subjects. Excluded subjects are those over which the legislature has historically established uniform requirements by statute. There is no intent by your Committee to change this category or to modify the intent of subsections 89-9(d), (e), or (f), HRS.

Consistent with the public policy favoring joint decision making between employers and employees, your Committee has clarified section 89-9, HRS, by expressly providing for a category known as permissive subjects of bargaining. These are matters over which an employer may wish to negotiate, at its discretion. For example, while there is no duty to negotiate over the merit principles and the principle of equal pay for equal work, the employer can negotiate over compliance with the merit principles or the principle of equal pay for equal work. The same shall apply to other such topics referred to in section 89-9(g), HRS.

Your Committee, in section 89-9(h), HRS, has added a provision to avoid literal and absurd interpretations of the statute which are inconsistent with the intent and purpose of Article XIII, section 2 of the State Constitution.

Finally, the measure clarifies the intent of section 89-19, HRS, to ensure that the preemption clause is not misconstrued or restricted by arbitrary and capricious considerations like the date of enactment.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 290, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 525 (Majority) Labor on S.B. No. 294

The purpose of this measure is to increase the minimum wage amount to \$7.00 beginning July 1, 2005, and provide for an annual automatic increase thereafter.

This measure also provides temporary tax relief to employers by lowering the maximum taxable wage base for calendar years 2005 through 2007.

Testimony in support of this measure was submitted by the ILWU Local 142 and the Hawaii State Teachers Association. Testimony in opposition to this measure was submitted by the Department of Labor and Industrial Relations, the Department of Environmental Services of the City and County of Honolulu, National Federation of Independent Business Hawaii, the Chamber of Commerce of Hawaii, the Retail Merchants of Hawaii, the Hawaii Restaurant Association, and four individuals.

Your Committee finds that although the minimum wage amount was recently increased effective in 2003, the increase has failed to keep pace with the escalating rate of inflation. As a result, a worker's purchasing power has continued to diminish over time. In Hawaii, the cost of living is higher than that of much of the rest of the nation, which compels many individuals to work two jobs just to make ends meet. As we have turned the corner, heading towards improved economic times, your Committee believes that it is necessary to assist entry-level workers to allow them to share in this period of economic growth and prosperity. Prior to the most recent increase, no previous adjustment had been made to the minimum wage amount since 1993. In order to avoid the Legislature's need to continually revisit the issue year after year and to prevent the necessity for large increases when no adjustment has been made for several years, an automatic annual adjustment should be instituted. It is also your Committee's intent that the Department of Business, Economic Development and Tourism shall annually calculate and publish the gross state product deflator to be utilized in making the annual adjustment. Furthermore, your Committee does not believe that high inflation should disproportionately increase the minimum wage adjustment amount and believes that a cap should be placed upon the adjustment.

Your Committee further finds that some concern exists regarding the current tip credit law. The law currently allows an employer to presume that tipped employees are receiving a certain level of tips each pay period, thereby allowing the employees' pay to be reduced accordingly. A majority of the states across the nation have tip credit laws. Of those states with tip credit laws, the amount of the tip credit ranges from about one to three dollars, well over the twenty-five cents allowed here in Hawaii. Testimony received by your Committee indicates that one way in which to address the financial burden imposed upon employers due to increases in the

minimum wage amount is to raise the tip credit amount to offset the additional costs. Your Committee believes that the issue should be further examined throughout the session so as to determine whether such an increase is appropriate.

Additionally, your Committee finds that although Hawaii is fortunate to enjoy one of the lowest unemployment rates in the country, unemployment insurance tax relief is long overdue for employers within the State as well. Therefore, your Committee determines that at least temporary tax relief for calendar years 2005, 2006, and 2007 should be provided in order to promote business growth and economic prosperity through the creation of new jobs, the expansion of benefits, and the provision of pay increases to employees.

Accordingly, your Committee has amended this measure as follows:

- (1) By amending the formula for calculating the annual automatic adjustment to the minimum wage amount to provide that the minimum wage amount shall increase annually based upon the percent increase in the gross state product deflator published annually by the Department of Business, Economic Development and Tourism; and
- (2) By including language that places a cap on the annual adjustment of up to no more than fifty cents per year.

As affirmed by the record of votes of the members of your Committee on Labor that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 294, S.D. 1, as amended herein, and recommends that it be referred to the Committee on Ways and Means in the form attached hereto as S.B. No. 294, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 2. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 526 (Joint/Majority) Labor and Judiciary and Hawaiian Affairs on S.B. No. 1193

The purpose of this measure is to ensure that civil service employees who transferred from executive branch agencies to the Department of Education under Act 51, Session Laws of Hawaii 2004, are eligible to apply for intra- and inter-departmental transfer and promotional opportunities within the executive branch.

Testimony in support of this measure was submitted by the Department of Education (DOE) and the Hawaii Government Employees Association. Testimony in opposition to this measure was submitted by the Department of Human Resources Development.

Your Committees find that Act 51, Session Laws of Hawaii 2004, mandated the transfer of certain functions from various state agencies to the DOE. Act 51 also provided for the DOE to establish a separate personnel system under the control of the Board of Education. Your Committees believe that the rights and benefits of DOE civil service employees, whether or not transferred pursuant to Act 51, should be maintained and not diminished due to the transfer or the institution of a separate personnel system.

Accordingly, your Committees have amended this measure by ensuring that all DOE civil service employees, including those transferred under Act 51, are eligible for inter-and intra-departmental transfer and promotional opportunities within the executive branch.

As affirmed by the records of votes of the members of your Committees on Labor and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1193, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1193, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, 1 (Slom). Excused, 1 (Taniguchi).

SCRep. 527 (Joint) Media, Arts, Science and Technology and Transportation and Government Operations on S.B. No. 332

The purpose of this measure is to exempt the High Technology Development Corporation and the Natural Energy Laboratory of Hawaii from the state procurement code.

Your Committees received testimony in support of this measure from the High Technology Development Corporation (HTDC); the Natural Energy Laboratory of Hawaii Authority (NELHA); UHV Engineering, Co.; HydraFLX Systems LLC; and one individual. Your Committees received testimony in opposition from the Department of Accounting and General Services. Your Committees also received comments on this measure from the State Procurement Office and one individual.

Your Committees find that the High Technology Development Corporation's 1983 enabling statute exempted HTDC from the law for competitive bidding, an exemption further clarified in 2000. Testimony from NELHA noted that the authority had been exempt from the procurement requirements since its inception thirty years ago. NELHA also noted that the authority has not had any negative findings in a financial audit during that period, while expending over \$60,000,000 in state funds and nearly the same in federal funds.

Your Committees heard that despite such exemplary records, these agencies were included in blanket changes to the procurement code without due consideration of the nature of the agencies. HTDC and NELHA must have the ability to capitalize on ideas in a timely and responsive manner as an essential tool for economic success and survival in a global marketplace. Your Committees further find that the state procurement code does not offer sufficient flexibility and timely responses to meet these needs. Although future individually granted exemptions from the procurement code are available, your Committees believe that the response is not quick

enough for time-critical processes of the High Technology Development Corporation and the Natural Energy Laboratory of Hawaii Authority.

Although your Committees understand the State's desire to standardize purchase requirements, exemptions are currently in effect for the Hawaii Tourism Authority, the Research Corporation of the University of Hawaii and the Hurricane Relief Fund. The mandates for innovative programs to aid Hawaii's economic expansion and diversification — tasked to both HTDC and NELHA — require at least equal procurement flexibility.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 332, S.D. 1, and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 10. Noes, none. Excused, 2 (Ihara, Kanno).

SCRep. 528 Media, Arts, Science and Technology on S.B. No. 625

The purpose of this measure is to clarify the legislature's intent that public, educational, and governmental (PEG) access organizations be subject to public scrutiny by requiring that the Department of Commerce and Consumer Affairs' contracts with access organizations contain minimum requirements for public access to the organizations' meetings and records.

Your Committee received testimony in support of this measure from the League of Women Voters. Your Committees received testimony in opposition from 'Olelo Community Television, although it supports the intent of this measure. Your Committee also received comments regarding this measure from the Department of Commerce and Consumer Affairs and the Office of Information Practices.

Your Committee heard testimony from the Department of Commerce and Consumer Affairs regarding its ongoing contract negotiations with PEG access groups. Your Committee is confident that more stringent requirements can be negotiated by the department as part of this process.

Your Committee has amended this measure by deleting the provisions of section 1, which are unnecessary.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 625, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 625, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 529 (Joint) Water, Land, and Agriculture and Intergovernmental Affairs on S.B. No. 1593

The purpose of this measure is to expand and enhance the use of rural districts in Hawaii.

Testimony in support of this measure was submitted by the Department of Agriculture, Land Use Commission, C&H Farms, and Land Use Research Foundation of Hawaii. Testimony in opposition to this measure was submitted by the Office of Hawaiian Affairs, the City and County of Honolulu Department of Planning and Permitting, Hawaii Association of Realtors, Hawaii's Thousand Friends, Native Hawaiian Legal Corporation, and Sierra Club. Comments were also submitted by the Department of Land and Natural Resources, Office of Planning, and Office of Information Practices.

Your Committees find that rural districts are a special resource within our State, and by creating more opportunities to utilize the rural designation, citizens will look at their land not just as real estate but as the means to build communities. Thus, this measure will:

- (1) Allow counties to work with the Office of Planning to develop policy and recommend statutory amendments to the land use law and petition for district boundary amendments which would expand and enhance the use of rural districts;
- (2) Convene an advisory group for redefining rural districts;
- (3) Allow counties an opportunity to reclassify areas of land into rural land use districts; and
- (4) Appropriate the necessary funds to accomplish these tasks.

Your Committees have amended this measure by:

- (1) Clarifying the language within this measure to enable rather than mandate the counties to perform the study, convene advisory groups, develop work plans, develop criteria for mapping lands, and develop procedures for amending rural district boundaries;
- (2) Clarifying requirements for the study to review boundaries;
- (3) Clarifying the scope of the advisory group;

- (4) Providing that the advisory group may conduct public hearings in accordance with Chapter 92, Hawaii Revised Statutes;
- (5) Providing that the one-time reclassifications to rural districts shall be limited to lands that were classified as agricultural and subdivided prior to June 4, 1976; and
- (6) Making technical, nonsubstantive stylistic changes.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1593, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1593, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Fukunaga, Inouye, Nishihara).

SCRep. 530 Water, Land, and Agriculture on S.B. No. 1588

The purpose of this measure is to amend agricultural theft laws.

Testimony in support of this measure was submitted by the Department of Agriculture, City and County of Honolulu Department of the Prosecuting Attorney, County of Maui Office of Economic Development, Big Island Farm Bureau, Hawaii Agriculture Research Center, Hawaii Cattlemen's Council, Hawaii Crop Improvement Association, Hawaii Farm Bureau, Hawaiian Marine Enterprises, and Pineapple Growers Association of Hawaii.

Your Committee finds that agricultural theft is a critical problem for Hawaii's farmers, especially in sparsely populated areas that are isolated from law enforcement. Thus, this measure strengthens current theft laws by providing that possession of agricultural commodities or livestock without proper certificates is prima facie evidence that the commodities were obtained knowing its character, nature, and value.

Testimony from the Department of the Prosecuting Attorney indicated that the sign requirements for agricultural theft and trespass laws are inconsistent with each other. Thus, your Committee noted that language should be drafted to make the sign requirements in both laws consistent. Currently, the Prosecuting Attorney's Office and the Farm Bureau are conferring on this matter and will submit the revised sign requirements to the Committee on Judiciary and Hawaiian Affairs.

Your Committee has amended this measure by:

- (1) Amending the crime of theft in the second degree to include agricultural products that exceed twenty-five pounds; and
- (2) Making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1588, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1588, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 531 Transportation and Government Operations on S.B. No. 989

The purpose of this measure is to make various appropriations to enhance the civil defense functions and programs for (1) six new positions to implement around-the-clock operations; (2) additional sirens to cover gap areas and maintenance and repair costs; and (3) hardening of buildings by retrofitting.

Your Committee received testimony in support of this measure from the State Department of Defense (DOD) and Honolulu Police Department.

Your Committee finds that every available minute is needed to assess potentially dangerous situations and be in a position to coordinate warnings and actions to protect lives and property. In order to strengthen Hawaii's emergency management system, the expansion of Hawaii's emergency operations is essential, including providing an around-the-clock, year round emergency operating center. A 24/7 operation provides the watch capability to monitor threat information and to disseminate that information, and provides early warning for natural and man-made hazards. Currently, by agreement, the Honolulu Police Department Communications Division has provided the State since 1975 an early warning system (State Warning Point) through the 911 call center and radio dispatching. This function should rightfully belong to the State.

In 2002, the state civil defense initiated a 15-year modernization program to add sirens in coverage gap areas and to replace older siren systems. The current requirement for 151 siren systems in coverage gap areas is estimated to cost \$9.2 million. Upgrading 131 older sirens is estimated at \$8 million.

This measure would allow the retrofitting of school buildings to increase the number of emergency shelter spaces by 19,400, a significant step toward meeting the shelter shortfall of 124,000 spaces. The DOD will coordinate the retrofit activities with other state agencies and with the four county civil defense agencies.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 989 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 532 Transportation and Government Operations on S.B. No. 1835

The purpose of this measure is to authorize the issuance of general obligation bonds to modernize the state civil defense siren warning system.

Your Committee received testimony in support of this measure from the State Department of Defense.

In 2002, the state civil defense initiated a 15-year modernization program to add sirens in coverage gap areas and to replace older siren systems. The current requirement for 151 siren systems in coverage gap areas is estimated to cost \$9.2 million. Upgrading 131 older sirens is estimated at \$8 million.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1835 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 533 Transportation and Government Operations on S.B. No. 1833

The purpose of this measure is to authorize the issuance of general obligation bonds and appropriate funds to revise current tsunami inundation maps from a one-dimensional format to a clearer two-dimensional format.

Your Committee received testimony in support of this measure from the State Department of Defense, Oahu Civil Defense Agency, and Hawaiian Electric Company, Inc.

Tsunamis are Hawaii's number one natural disaster killer and a year-round threat. Hawaii's densely populated and developed coastlines are at significant risk of inundation from a tsunami. In early 2004, the state civil defense initiated multi-year contracts with the University of Hawaii and the Department of Land and Natural Resources to update tsunami evacuation maps using the latest two dimensional tsunami inundation modeling technology, targeting complex coastlines, bays, harbors, and marinas.

This measure would enable Hawaii residents and visitors to be provided with the awareness and appropriate guidance needed to react in the face of a tsunami event. In view of the recent hurricane in the Indian Ocean, your Committee believes it imperative that the State is adequately prepared to deal with this disaster.

At current levels of federal funding (\$153,000 annually) completion of the project for complex coastlines would take five to ten years. Updating maps for the remaining populated coastlines throughout Hawaii would take an additional ten to fifteen years. The appropriation provided by this measure would serve to accelerate the update of Hawaii's tsunami evacuation maps.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1833 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 534 (Joint) Higher Education and Human Services on S.B. No. 1774

The purpose of this measure is to appropriate funds to Leeward Community College for the continuation of the workforce development program established pursuant to Act 225, Session Laws of Hawaii 2004.

Your Committees received testimony in support of this measure from the University of Hawaii, Micronesian Community Network, Micronesian United of Hawaii, and one individual.

The Freely Associated States (FAS) are composed of the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau. The United Micronesian Association, an umbrella organization representing citizens of the FAS, met with officials from Leeward Community College to establish a framework, understanding, and partnership for the purposes of providing employment and training instruction to assist with job readiness, job placement, and job retention. The program includes basic education skills training, occupational skills training, English as a second language, and mentoring.

Hawaii attracts migrating citizens from the FAS who seek education, health, and economic advancement for themselves and their families. These students and their families lack both the language skills and the cultural awareness necessary to adapt to, let alone excel in, their new environment. However, the State is currently ill-equipped to facilitate their assimilation into our community. Your Committees find that it is incumbent upon the community to assist these FAS citizens and decrease the likelihood that they will need to rely upon public assistance in the future. Providing FAS communities with a coordinated, culturally coherent support system that addresses education, health, and employment training, is vital to the development of an educated and productive workforce within these communities.

Pursuant to Act 225, Session Laws of Hawaii 2004, Leeward Community College was tasked with developing a program to provide services to students from the Freely Associated States in order to ensure their success in school through cultural education and integration, language, employment, and legal services. As part of the community college system, Leeward Community College is sensitive to cultural awareness and education and is also dedicated to offering quality workforce programs. As such, Leeward Community College is an ideal candidate for shepherding a workforce program to provide comprehensive services to the FAS communities.

Your Committees further find that the Act did not provide funding. This measure would provide that necessary funding to carry out a very worthy and necessary program to help one of Hawaii's growing and neglected segments of the population.

As affirmed by the records of votes of the members of your Committees on Higher Education and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1774 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 535 Transportation and Government Operations on S.B. No. 1244

The purpose of this measure is to authorize the Governor to order the release of up to ten per cent of moneys in the emergency and budget reserve fund for emergency assistance to residents and businesses sustaining damage from natural disasters, and to make an appropriation for emergency assistance.

Your Committee received testimony in support of this measure from the State Department of Defense and American Red Cross-Hawaii State Chapter.

When a natural disaster strikes, residents and businesses of the State are often twice victimized. The damage caused by a natural disaster is often extensive and repair or replacement costs are prohibitive. Emergency relief from governmental agencies to meet the immediate needs of victims is often delayed or unavailable for extended periods. For some victims of natural disasters, the delay in receiving emergency assistance can mean a total loss of their homes or businesses.

Your Committee finds that there is an urgent need to provide victims with prompt emergency relief during or immediately after a natural disaster. One source of immediate funding is the emergency and budget reserve fund. Your Committee believes that there are adequate safeguards in this measure to ensure against any unauthorized or capricious expenditure of moneys.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1244 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 536 (Joint/Majority) Human Services and Labor on S.B. No. 939

The purpose of this measure is to prohibit the Department of Human Resources Development from eliminating the social worker series classification.

This measure also restores the worker class if eliminated before the effective date of this Act.

Testimony in support of this measure was submitted by the National Association of Social Workers, the School of Social Work of the University of Hawaii at Manoa, and six individuals. Testimony in opposition to this measure was submitted by the Department of Human Services, the Department of Human Resources Development (DHRD), the Department of Health, and the Hawaii Paroling Authority.

Your Committees find that on May 1, 2004, DHRD eliminated the social worker classification and replaced it with a social worker/human services professional (SW/HSP) classification. This reclassification occurred subsequent to the Legislature's passage of S.C.R. 127, C.D.1, wherein the Legislature sought the delay of the reclassification pending consultation and coordination with various interested groups. The reclassification was accomplished presumably to address the current shortage of qualified individuals to serve as social workers within the State. However, your Committees determine that the reclassification acts to divest social workers with advanced degrees in social work of their well-earned title, by also allowing individuals without degrees to be referred to as social workers under the SW/HSP class.

Your Committees believe that the Legislature has previously recognized the services provided by social workers and the uniqueness of their status. In recognition of the foregoing, your Committees believe that social workers with advanced degrees in social work should be placed in a separate class which acknowledges and appreciates their specialized education and training, while also recognizing the knowledge and abilities of those in social work positions prior to May 1, 2004.

Finally, your Committees find that the reclassification of the social worker series included a new parole officer series. Your Committees recognize the difficulties faced by the Hawaii Paroling Authority in recruiting qualified individuals and believes that this class should not be affected by any changes in the SW/HSP class.

Accordingly, your Committees have amended this measure by:

- (1) Including language to specify the manner in which individuals transferred into the SW/HSP class and newly hired individuals into the SW/HSP class shall be treated; and
- (2) Including an exemption for parole officer positions that were formerly part of the social worker class prior to May 1, 2004.

As affirmed by the records of votes of the members of your Committees on Human Services and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 939, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 939, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 4. Noes, 2 (Slom, Trimble). Excused, 3 (Hooser, Kokubun, Taniguchi).

SCRep. 537 Human Services on S.B. No. 474

The purpose of this measure is to extend the individual development account tax credit for five years, authorize financial institutions to claim the tax credit and use part of the private funds contributed for ministerial purposes, and raise the contribution and tax credit ceiling from \$1,000,000 to \$2,000,000.

Testimony in support of the measure was submitted by the Legal Aid Society and Hawaii Alliance for Community-Based Economic Development. The Department of Taxation and Tax Foundation of Hawaii submitted comments.

Your Committee finds that individual development accounts (IDA) assist individuals with improving their financial understanding and encourages saving toward the goal of homeownership, higher education costs, or start-up costs for a small business. Participants earn less than two hundred per cent of the federal poverty line. In the last six years, over five hundred IDAs were opened in the State and participants saved over \$500,000 which was matched by \$800,000 in matching funds.

The extension of the tax credit and other proposed amendments will provide the necessary opportunity for IDAs to generate funds through private contributions. Upon further consideration, your Committee has amended this measure to retain the \$1,000,000 amount in tax credits for private individuals, businesses, and organizations.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 474, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 474, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Hooser, Ihara).

SCRep. 538 Transportation and Government Operations on S.B. No. 1136

The purpose of this measure is to require competitive bidding on small purchases of construction contracts for drilling and soil testing.

Your Committee received testimony in support of this measure from Leslie's Drilling Co. Testimony in opposition was received from the Department of Accounting and General Services (DAGS). Your Committee received comments on this measure from the State Procurement Office.

According to testimony of DAGS, in most instances the State has a need for general construction work, of which drilling and soil testing are sub-parts. It is neither practical nor beneficial for the State to procure the drilling and soil testing from other than the general contractor which can provide that work.

Your Committee nonetheless believes that drilling and soil testing contractors should not be effectively excluded from bidding on projects because the general contractor has absorbed that work. Your Committee is concerned about the small business contractor in this line of work that needs to survive financially with government contracts.

Your Committee has amended this measure by changing the effective date to July 1, 2020, in the interests of further discussions.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1136, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1136, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Kanno, Whalen).

SCRep. 539 (Joint) Transportation and Government Operations and Intergovernmental Affairs on S.B. No. 1591

The purpose of this measure is to appropriate funds for the “roads in limbo” program, to repair and maintain roads in Hawaii County that were created or acquired by the State, but for which ownership or jurisdiction is disputed by the county or the State.

Your Committees received testimony in support of this measure from the Mayor of Hawaii County and a Hawaii County Council member.

The Hawaii County Mayor expressed a desire to develop a partnership with the State to deal with the longstanding issue of “roads in limbo”. This term refers to roads, some in existence and some only referred to on paper, that in many instances date back to the Territorial days. These roads were established by the Territorial government and have since been ignored by the State and the counties.

Your Committee has amended this measure by deleting the appropriation amount.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1591, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1591, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 4 (English, Kanno, Nishihara, Whalen).

SCRep. 540 (Majority) Transportation and Government Operations on S.B. No. 609

The purpose of this measure is to allow counties to increase by ordinance the certificate of motor vehicle registration fee from \$5 to \$10.

Your Committee received testimony in support of this measure from the Maui County Council, Hawaii Department of Environmental Management, and four Maui County Council members.

This measure provides more money to the counties to remove and dispose of abandoned or derelict vehicles on public highways. Any fee collected in excess of \$2 goes for this purpose by law. The counties are experiencing a growing problem with more automobiles that are left abandoned, some of which are derelict, which is an eyesore and a huge expense.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 609 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Whalen). Excused, 2 (Baker, Kanno).

SCRep. 541 Water, Land, and Agriculture on S.B. No. 1892

The purpose of this measure is to amend the method of appraising agricultural lands.

Testimony in support of this measure was submitted by the Hawaii Agriculture Research Center, and Hawaii Farm Bureau. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources. Comments were also submitted by the Department of Agriculture.

Your Committee finds that lessees with scheduled rental re-openings are faced with significant increases in their lease rents because the appraisals performed are currently based on the land’s fair market value. Your Committee further finds that to address this growing problem, the appraisals of lease rents for re-openings should be based on a method that encourages public lands to be used for agriculture, as mandated by article XI, section 10 of the Constitution of the State of Hawaii.

This measure provides that the method for calculating rental rates at re-opening for state agricultural leases shall be determined by adding the rental of the lease at inception to the product of the rental of the lease at inception and the non-compounded sum of inflation rates. However, your Committee notes that this method may need further consideration. Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050 to ensure ongoing discussions on this issue.

Your Committee has also amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1892, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1892, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 542 Transportation and Government Operations on S.B. No. 960

The purpose of this Act is to appropriate funds for tsunami preparedness efforts.

Your Committee received testimony in support of this measure from the State Department of Defense (DOD).

Tsunami preparedness includes maintaining and installing new siren systems, updating evacuation maps in phone books, constructing additional shelter space and retrofitting existing public buildings that could serve as emergency shelters, providing around-the-clock alert staff for the civil defense division, and expanding public education campaigns emphasizing the need for tsunami preparedness.

This measure would allow, among other things, the retrofitting of school buildings to increase the number of emergency shelter spaces by 19,400, a significant step toward meeting the shelter shortfall of 124,000 spaces. The DOD will coordinate the retrofit activities with other state agencies and with the four county civil defense agencies.

This measure would also allow a 24/7 staffing of civil defense. This watch capability will provide real-time threat information monitoring and dissemination, and early warning for natural and man-made hazards including terrorism.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 960 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 2 (Baker, Kanno).

SCRep. 543 (Joint) Commerce, Consumer Protection and Housing and Media, Arts, Science and Technology on S.B. No. 769

The purpose of this measure is to authorize the Department of Commerce and Consumer Affairs to issue rebates to cable television subscribers.

The Department of Commerce and Consumer Affairs (DCCA) and PBS Hawaii testified in support of this measure. The League of Women Voters presented comments on the measure.

Under DCCA's administrative rules, each cable television operator is required to pay an annual fee of one per cent of the preceding year's income received from cable television subscribers. The fee is paid into the Compliance Resolution Fund to cover the costs of administering the cable television regulatory program.

On occasion, the amounts collected by DCCA have exceeded the Department's administrative costs, resulting in a surplus of funds. This measure would allow DCCA to return this surplus to cable television subscribers in the form of a rebate.

Your Committees have amended this measure:

- (1) By deleting language that would have exempted the decision and order process from the requirements of the Administrative Procedure Act, chapter 91, Hawaii Revised Statutes;
- (2) To require DCCA to conduct a study of the highest and best uses for franchise fees authorized pursuant to chapter 440G, Hawaii Revised Statutes, and to report its findings and recommendations to the 2006 Legislature; and
- (3) By making technical, stylistic changes.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 769, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 769, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 3 (Espero, Ihara, Sakamoto).

SCRep. 544 (Joint) Commerce, Consumer Protection and Housing and Media, Arts, Science and Technology on S.B. No. 1170

The purpose of this measure is to establish the offense of abuse of commercial electronic mail.

The Office of the Public Defender submitted comments on the measure.

This measure addresses the problem of "phishing", a scam in which cyber criminals attempt to steal a consumer's personal financial information such as credit card numbers, passwords, and account information by posing as a bank, credit card company, or other

legitimate business, and transmitting a request for this information through bogus electronic mail messages (emails) from a website that appears to be authentic. The Anti-Phishing Working Group, an organization whose members include banks, Internet service providers, and technology vendors, recorded 1,142 “phishing” sites in October 2004, and report that spoofed sites are multiplying at a rate of twenty-five per cent per month, with up to five per cent of recipients responding to these bogus emails.

This measure proposes to criminalize the act of “phishing” by establishing the offense of abuse of commercial electronic mail, and provides for civil remedies, in addition to criminal penalties.

Your Committees have amended this measure by replacing its contents with language that establishes the Hawaii Anti-Phishing Task Force within the Department of the Attorney General to examine options to prevent electronic commerce-based crimes in the State. The Task Force, comprised of representatives from state and federal law enforcement, the Office of Consumer Protection, the Legislature, and the financial services industry, is required to submit its findings and recommendations to the 2006 Legislature.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1170, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1170, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 3 (English, Espero, Sakamoto).

SCRep. 545 (Joint) Commerce, Consumer Protection and Housing and Intergovernmental Affairs on S.B. No. 179

The purpose of this measure is to facilitate community input on and county review of proposed affordable housing projects.

Testimony in support of this measure was received from the chairperson and three members of the Maui County Council. The Housing and Community Development Corporation of Hawaii (HCDCH), Department of Planning and Permitting of the City and County of Honolulu, Department of Community Services of the City and County of Honolulu, Office of Housing and Community Development of the County of Hawaii, and Pacific Housing Assistance Corporation testified in opposition to this measure.

This measure requires HCDCH to hold a public hearing in the community plan area in which an affordable housing project is proposed to be constructed. Additionally, the measure increases from forty-five to seventy days the time period for a county council to consider and approve or disapprove a proposed housing project, but permits the council to act on amendments to the project beyond the seventy-five day deadline.

Your Committees find that requiring a hearing to be held in the affected community plan area would permit those who would most directly be impacted by the project to provide public comment, and would enable the Corporation and developer to consider these comments prior to submitting their application to the counties for review.

Your Committees further find that the current forty-five day timeline for county legislative approval or disapproval does not permit the legislative bodies adequate time to consider an application, a process which involves public meetings and, often, site inspections. This measure would allow the counties additional time to review the application and facilitate a more meaningful review.

Your Committees have amended this measure:

- (1) To increase the time period for the county’s review of a proposed housing project to sixty days, rather than to forty-five days; and
- (2) To permit the counties to consider amendments to the project, but still subject to the sixty-day timeline.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 179, S.D. 1, as amended herein, and recommend that it be referred to the Committee on Ways and Means in the form attached hereto as S.B. No. 179, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Espero, Inouye, Sakamoto).

SCRep. 546 Commerce, Consumer Protection and Housing on S.B. No. 1336

The purpose of this measure is to amend the lease to fee conversion provisions for condominiums and cooperative housing corporations.

Testimony in support of this measure was submitted by the Queen Lili’uokalani Trust, St. Francis Healthcare System of Hawaii, Small Landowners Association of Hawaii, Small Landowners of Oahu, and two individuals. The Hawaii Council of Associations of Apartment Owners and the Hawaii Independent Condominium and Cooperative Owners submitted testimony in opposition to this measure.

This measure provides that a co-owner or co-lessor who is not a party to the offer to sell the leased fee interest will be given the right of first refusal. The co-owner or co-lessor must exercise the right within a specified time period, or the association of owners or cooperative housing corporations will then be given the right of first refusal for lease to fee conversions.

Your Committee finds that further discussions are necessary regarding these issues. Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050 to ensure further discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1336, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1336, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 547 Commerce, Consumer Protection and Housing on S.B. No. 665

The purpose of this measure is to make an emergency appropriation of \$3,050,000 for fiscal year 2004-2005 for the wireless enhanced 911 fund.

Testimony in support of this measure was submitted by the Department of Accounting and General Services.

Your Committee finds that beginning July 2, 2004, wireless phone lines are being assessed a fee of \$.66 per month, as required by Act 159, Session Laws of Hawaii (SLH) 2004. Although Act 159, SLH 2004, created the wireless enhanced 911 fund, no accompanying appropriation was made to allow the wireless enhanced 911 board to meet its basic operational needs, including travel reimbursements for board members, the ability to execute professional services contracts for operations, and to adequately reimburse public safety answer points and wireless carriers for improvements made to enhance 911 service. Therefore, your Committee determines that the emergency appropriation of funds is necessary to allow the wireless enhanced 911 board to fulfill its intended purpose.

Your Committee has amended this measure by making technical, nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 665, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 665, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 548 Commerce, Consumer Protection and Housing on S.B. No. 748

The purpose of this measure is to update the laws regulating escrow depositories.

The Department of Commerce and Consumer Affairs testified in support of this measure. The Hawaii Association of Realtors submitted comments.

This measure comprehensively updates chapter 449, Hawaii Revised Statutes, the law regulating the practices of escrow depositories. The proposed changes reflect changes in industry practices, and are intended to reduce the regulatory burden on licensees and provide more flexibility in regulating the industry while continuing to ensure consumer protection. Some of the major changes in the law include:

- (1) Permitting limited liability companies to be licensed as escrow depositories;
- (2) Enabling the Division of Financial Institutions to more closely scrutinize the financial responsibility of proposed directors and officers of an applicant for a license, including through the use of fingerprinting and criminal background checks;
- (3) Increasing the escrow depository bond requirement of \$100,000 by an additional \$5,000 per branch; and
- (4) Requiring escrow depositories that are eligible to deposit escrow funds in sweep accounts to disclose that these accounts are not federally insured and may involve risks, including the possible loss of value.

Your Committee has amended this measure:

- (1) To conform the definitions of "director", "officer" and "shareholder" to definitions established in federal regulations;
- (2) To expand the definition of "person" to include a limited liability company;
- (3) To clarify that a designated principal escrow officer may also serve as an officer and director of the escrow depository licensee; and
- (4) By making technical, nonsubstantive changes to reflect preferred drafting style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 748, as amended herein, and recommends

that it pass Second Reading in the form attached hereto as S.B. No. 748, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 549 (Majority) Commerce, Consumer Protection and Housing on S.B. No. 1010

The purpose of this measure is to generate funding for the development of affordable housing by establishing a new conveyance tax on sales of residential condominiums and single family homes for \$600,000 or more.

The Department of Community Services of the City and County of Honolulu, Pacific Housing Assistance Corporation, and Hawaii Government Employees Association testified in support of this measure. The Department of Taxation, Department of Land and Natural Resources, Housing and Community Development Corporation of Hawaii, Nature Conservancy, Hawaii Association of Realtors, Land Use Research Foundation of Hawaii, Cendant Timeshare Resort Group, and The Chamber of Commerce of Hawaii opposed the measure. The Tax Foundation of Hawaii submitted comments.

This measure establishes a conveyance tax on sales of residential condominiums and homes of \$600,000 or more and requires the deposit of these revenues into the Housing Finance Revolving Fund (HFRF) to support the construction of affordable housing.

Your Committee has amended this measure by increasing the threshold for the imposition of the new conveyance tax from \$600,000 to \$850,000. Your Committee also made technical amendments for purposes of clarity and style.

Finally, while your Committee supports additional funding for affording housing, it has concerns about this measure's effect upon other beneficiaries of conveyance tax revenues. It is not your Committee's intent, in the process of generating additional funding for affordable home development, to reduce funding for other conveyance tax beneficiaries, including the Natural Area Reserve Fund and the Rental Housing Trust Fund. Accordingly, your Committee respectfully requests that, that upon the receipt of this measure, the Committee on Ways and Means further review this issue.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1010, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1010, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Hogue). Excused, 1 (Ige).

SCRep. 550 Commerce, Consumer Protection and Housing on S.B. No. 1133

The purpose of this measure is to amend the rental motor vehicle surcharge tax.

Testimony in support of this measure was submitted by Avis Rent A Car, Budget Rent A Car, Catrala-Hawaii, and Dollar Thrifty Automotive Group, Inc. The Department of Taxation and the Department of Transportation submitted testimony in opposition to this measure. Comments were also submitted by the Tax Foundation of Hawaii.

In 1999, the Legislature temporarily raised the rental motor vehicle tax from \$2 to \$3 per day, starting on September 1, 1999 and ending on August 31, 2007. The purpose of the increase was to temporarily produce added revenues for the general fund. However, your Committee finds that no other industry has been assessed and endured a similar tax increase to assist the State's general fund. This measure repeals the increased rental motor vehicle surcharge tax of \$3 per day and restores the \$2 per day tax.

Your Committee further finds that since the inception of the tax increase, the general fund has realized better than anticipated revenues. However, your Committee also notes that the increase does not help Hawaii's competitive image as a tourist destination. Thus, your Committee finds that these competing interests merit further consideration and has amended this measure by inserting an effective date of July 1, 2050 to ensure more discussion on this issue.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1133, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1133, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 551 Commerce, Consumer Protection and Housing on S.B. No. 1223

The purpose of this measure is to authorize the holder of a dishonored check to raise the service charge to not more than \$30.

Testimony in support of this measure was submitted by the Hawaii Collectors Association, Inc., the Medical Collection Agency of Hawaii, Inc., Select Consulting Service, Maui Collection Service, Inc., and the Honolulu Collection Corporation. Comments on the measure were also submitted by the Department of Commerce and Consumer Affairs.

Your Committee finds that under the current law, a service charge of \$20 may be imposed for a dishonored check against the responsible party. This charge is intended to allow a payee or holder of a dishonored check to attempt to recoup moneys, including but not limited to the following, to cover any bank service charge, the time used to redeposit the check, the time used to contact the check writer to transmit a replacement payment, and the loss of goods or services if the check is not replaced. Your Committee determines that although these types of costs may be minimal in nature, the aggregation of these costs multiplied by the number of businesses throughout the State is substantial and can have a serious impact on our State's economy. Therefore, an increase in the amount recoverable is necessary to ensure that businesses and other holders of dishonored checks are able to adequately cover their costs of doing business.

Your Committee has amended this measure by:

- (1) Changing the maximum amount to be charged as a service charge for a dishonored check from \$30 to a blank amount; and
- (2) Changing the effective date of the Act to July 1, 2050 to facilitate further discussion on the matter.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1223, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1223, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 552 Commerce, Consumer Protection and Housing on S.B. No. 1777

The purpose of this measure is to appropriate funds to inform the public of their rights as consumers under the real estate laws, including information regarding complaints and access to the proper authorities.

Testimony in support of this measure was submitted by the ILWU Local 142 and the Hawaii Association of Realtors. Comments on the measure were also submitted by the Real Estate Commission.

Your Committee finds that unfortunately, much of the public is uninformed of the relevant laws or the process relating to even the simplest of real estate transactions. This lack of knowledge can have a devastating affect on homeowners, resulting in the loss of their homes due to foreclosure. Your Committee believes that increased educational efforts will help to ensure that our residents are properly equipped with the requisite knowledge of their rights, including whom to turn to should they have questions or complaints regarding the real estate laws.

Your Committee has amended this measure by making a technical, nonsubstantive amendment to accurately reflect the name of the regulated industries complaints office.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1777, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1777, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 553 Health on S.B. No. 140

The purpose of this measure is to prohibit the inclusion of any clause that allows an insurer, mutual benefit society, or health maintenance organization full discretionary authority to set type and scope of medical coverage to be provided in health insurance contracts with employers issued after December 31, 2005.

The Insurance Commissioner, Pahio Resorts, Inc., the Hawaii Coalition for Health, and the Employers' Chamber of Commerce submitted testimony in support of this measure. Kaiser Permanente, the Hawaii Medical Service Association, and America's Health Insurance Plans submitted testimony in opposition.

Your Committee finds that certain health insurers in the State employ a variety of clauses in their health insurance contracts with employers that unfairly burden Hawaii employers with risk of liability. One such clause requires employers to pay for legal and medical expenses if a worker appeals a denial of medical coverage to the State's external review panel or court and the insurer loses. Another clause allows broad discretionary authority to insurers to set the type and scope of medical coverage provided to Hawaii employers.

Your Committee notes that according to the Office of the Insurance Commissioner, the "discretionary authority" clause that gives insurers broad powers to define medical coverage is illegal in Maine and Minnesota.

Upon further consideration, your Committee has amended this measure by deleting the word "full" as it relates to "discretionary authority" to avoid any misinterpretation that degrees of discretionary authority less than "full" discretionary authority are not precluded.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 140, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 554 Health on S.B. No. 126

The purpose of this measure is to establish the circumstances under which insurers, mutual benefit societies, and health maintenance organizations are required to provide employers with employer-sponsored group health claims experience, and what types of information can be requested and provided.

The Hawaii Association of Health Plans, Kaiser Permanente, the Hawaii Medical Service Association, and HMAA submitted testimony in support of this measure. The Insurance Commissioner, Summerlin Life & Health Insurance Company, and one individual submitted testimony in opposition. The Employers' Chamber of Commerce and the Consumer Lawyers of Hawaii submitted comments.

Your Committee finds that the federal Health Insurance Portability and Accountability Act of 1996, commonly referred to as HIPAA, establishes guidelines for health insurers to follow in protecting private member information. It is in the best interest of the entire community that individual privacy be both valued and protected and that individuals not be penalized for their respective health conditions. This measure defines what type of health care information and under what circumstances this information can be provided to employer groups.

Upon further consideration, your Committee has amended this measure by:

- (1) Limiting the fee that an insurer, mutual benefit society, or health maintenance organization may charge an employer for providing information to fifty dollars;
- (2) Deleting the sections related to immunity from civil liability;
- (3) Applying the measure to employer groups of twenty-five or more employees; and
- (4) Limiting the amount of time the insurer has to provide the information to no later than sixty days.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 126, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 126, S.D. 1, and be referred to the Committee on Commerce, Consumer Protection, and Housing.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Whalen).

SCRep. 555 Health on S.B. No. 757

The purpose of this measure is to implement medical malpractice tort reforms to address the adverse impact of medical malpractice lawsuits on patient access to health care services and the escalating costs of health care.

Specifically, the measure proposes the following with respect to medical tort actions:

- (1) Imposes a cap on the award of noneconomic and punitive damages and attorneys' fees;
- (2) Allocates damages in proportion to the degree of negligence;
- (3) Changes the applicable statute of limitations;
- (4) Prohibits joint liability; and
- (5) Allows periodic payment of future damages.

The increasing cost of malpractice insurance and the escalating monetary awards for noneconomic damages recovered in medical malpractice lawsuits are major factors in the current physician shortage experienced by the State of Hawaii. As a result of the malpractice situation, many physicians are choosing to retire early, limit their practice, or refrain from practicing in Hawaii. Access to health care is of particular concern in the neighbor islands, where relatively few doctors and fewer specialists and sub-specialists continue to practice. The malpractice situation also contributes to the already high cost of health care.

Your Committee has amended this bill by replacing its contents as follows:

- (1) Imposing a cap of \$375,000 on noneconomic damages recoverable in medical tort claims against a health care provider; provided that the provider maintains a minimum of \$1,000,000 of professional liability coverage;

- (2) Prohibiting an insurer providing professional liability insurance coverage for a health care provider in the State from increasing premium rates between July 1, 2005 and December 31, 2005;
- (3) Commencing January 1, 2006, requiring insurers providing professional liability insurance coverage to implement rates that are the lower of the following:
 - (A) Not greater than the rate effective on January 1, 2003, or
 - (B) Seventy-five per cent of the lowest rate in effect between January 1, 2003 and December 31, 2005;
- (4) Commencing January 1, 2007, prohibiting insurers providing professional liability insurance coverage from increasing rates by two and one half per cent in any twelve month period;
- (5) Exempting insurers from the foregoing caps if implementation of the caps will result in imminent insolvency or failure to earn a fair rate of return;
- (6) Providing for the immediate repeal of the cap on noneconomic damages if any insurer fails to comply with the premium rate caps imposed by the measure;
- (7) Allowing any person to bring a declaratory judgment for the determination of an insurer's noncompliance with the premium rate caps imposed by the measure; and
- (8) Making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 757, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 757, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Tsutsui).

SCRep. 556 (Joint) Health and Human Services on S.B. No. 1540

The purpose of this measure is to permit parents or guardians to admit individuals under the age of eighteen to nonemergency psychiatric treatment facilities without the consent or countersignature of the individual.

The Department of Health and the Hawaii Psychiatric Medical Association submitted testimony in support of this measure. The Public Defender submitted comments.

Your Committees find that the current law enables the Judiciary to force a child into treatment after a series of entanglements with the law or after a determination of "dangerousness." As the Hawaii Psychiatric Medical Association testified, very few children refer themselves for mental health treatment. Parents are placed in the difficult situation of watching their child deteriorate, begin to fail at school, and become increasingly unable to help themselves maintain socially-acceptable standards of behavior. As the proponent pointed out, often a youth with a mental health disorder will use drugs or alcohol to "self-medicate." This measure gives parents or guardians an opportunity to intervene before the child moves past important early treatment opportunities or makes a series of legal mistakes.

Your Committees have amended this measure by changing the definition of "neutral factfinder" to mean a mental health clinician instead of a natural person who need not be law-trained or a judicial or administrative officer, and by making technical nonsubstantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1540, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1540, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 557 (Joint) Health and Commerce, Consumer Protection and Housing on S.B. No. 1209

The purpose of this measure is to establish a pharmaceutical cost management council to consider strategies to manage increasing costs of prescription drugs and increase access to prescription drugs for all Hawaii residents.

AARP Hawaii, Kokua Council, and nine individuals submitted testimony in support of this measure. The Department of Human Resources Development and Hawaii Medical Service Association submitted comments. The Department of Human Services and Pharmaceutical Research and Manufacturers of America submitted testimony in opposition.

Your Committees find that the rising cost of prescription drugs has imposed a significant hardship on individuals who have limited budgets, are uninsured, or who have prescription coverage that is unable to control costs successfully due to cost shifting and disparate

pricing policies. There is an increasing need for residents of Hawaii to have affordable access to prescription drugs. The collaborative approach taken by this measure should provide a greater opportunity for dialogue on potential solutions in a coordinated manner.

Your Committees have amended this measure by changing the effective date to July 1, 2010, to enable continued discussion on this matter, and by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1209, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1209, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Hanabusa, Ige).

SCRep. 558 (Joint/Majority) Health and Human Services on S.B. No. 1236

The purpose of this measure is to discourage smoking, especially by young people, by increasing the tax on cigarettes.

A Hawaii County Council member, the American Lung Association, the American Heart Association, the American Cancer Society, the Hawaii Medical Service Association, the Coalition for a Tobacco Free Hawaii, the Tobacco Prevention and Control Advisory Board, and one individual submitted testimony in support of this measure. The Tax Foundation of Hawaii submitted comments.

Your Committees find that increasing the tax on cigarettes is the most effective way to prevent young people from becoming daily smokers. It has been estimated that a ten per cent increase in the price of cigarettes decreases the number of youngsters who start smoking by three to seven per cent in the long term.

The longer a person smokes, the greater the likelihood the person has of developing smoking-related health problems. According to the testimony of the American Cancer Society, leukemia and other cancers of the cervix, kidneys, pancreas, and stomach have been linked to smoking. Smoking is also associated with heart disease, stroke, emphysema, bronchitis, low birth weight babies, Sudden Infant Death Syndrome, increased frequency of colds and ear infections, and asthma. Research has demonstrated that smoking harms nearly every organ of the body, damaging overall health even if no specific disease develops.

Your Committees stress that this measure is made to deter addiction and not to generate revenue. It is expected that many current smokers will avoid the higher prices by quitting, cutting back, or switching to less expensive cigarettes. Those who stopped smoking in response to the cigarette tax increase would greatly improve their own health, which could also significantly reduce their health costs.

Your Committees have amended this measure by increasing the excise tax per cigarette 2 cents for the next three years, for a cumulative tax of 7 cents on September 30, 2005, 8 cents on June 30, 2006, and 8.5 cents on June 30, 2007. This amounts to a total tax of \$1.40, \$1.60, and \$1.70, respectively, per pack of twenty cigarettes. This equals an additional increase of 40 cents per pack each year based on twenty cigarettes per pack.

Your Committees further amended this measure by earmarking twenty-five per cent of the tax imposed to be paid into the general fund, twenty-five per cent to be paid to the Department of Health for health promotion and disease prevention programs, and fifty per cent to be paid into the Hawaii Tobacco Prevention and Control Trust Fund.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1236, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1236, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 559 (Joint) Health and Commerce, Consumer Protection and Housing on S.B. No. 802

The purpose of this measure is to create a state pharmacy assistance program to provide benefits to certain elderly and disabled individuals to assist in defraying costs for medically necessary prescriptions under the new federal Medicare Part D Drug Benefit Program.

The Department of Human Services and the Department of Health submitted testimony in support of this measure. Pharmaceutical Research and Manufacturers of America submitted testimony in opposition.

Your Committees find that with the rising cost of prescription medication, many seniors and disabled individuals who are living on fixed incomes find it hard to make ends meet, even though they receive Medicare benefits. Some of these Medicare-eligible individuals are also Medicaid recipients who now enjoy one hundred percent drug coverage benefits under Medicaid. However, with their mandatory participation in the new Federal Medicare Modernization Act, these same individuals will lose their current level of drug coverage. Establishing a state pharmacy assistance program would assist current Medicaid recipients to retain more of their current drug benefits as well as increase the population of Medicare individuals who may take advantage of this drug benefit. This program will also facilitate the enrollment and coordination of benefits between the state pharmacy assistance program and the new Medicare Part D drug benefit program.

Your Committees have amended this measure by:

- (1) Substituting “and is meant to cover pharmaceutical costs that are not covered by the medicare part D program” in proposed section 346-D(b), Hawaii Revised Statutes, with “subject to receipt of sufficient rebates pursuant to section 346-B(g), as determined by the department”;
- (2) Adding proposed subsection 346-D(c), Hawaii Revised Statutes, regarding funding the state pharmacy assistance program with state appropriations derived from revenues to the State from rebates paid by pharmaceutical manufacturers;
- (3) Deleting the entire proposed section 346-E and replacing it with a provision regarding spending authority that requires the department to expend all revenues received from the rebates; and
- (4) Making technical, non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 802, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 802, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Hanabusa, Ige).

SCRep. 560 (Joint) Health, Human Services and Commerce, Consumer Protection and Housing on S.B. No. 1440

The purpose of this measure is to reduce the cost of prescription drugs for Hawaii residents, while maintaining high quality drug therapies.

Specifically, the bill:

- (1) Adds new definitions for:
 - (a) “Board” or “drug utilization review board”;
 - (b) “Department”;
 - (c) “Director”;
 - (d) “Health benefits plan”;
 - (e) “Health insurer”;
 - (f) “Participating health benefits plan”;
 - (g) “Program” or “pharmacy best practices and cost control program”; and
 - (h) “State public assistance program”;
- (2) Establishes a pharmacy best practices and cost control program, which requires the Directors of Human Services and Health to implement a preferred statewide drug list;
- (3) Establishes a drug utilization review board;
- (4) Authorizes use of prescription drugs not on the preferred drug list under certain circumstances;
- (5) Authorizes the Director of Human Services to contract with a third party with expertise in management of pharmacy benefits to implement all or part of the program;
- (6) Establishes reporting and oversight procedures;
- (7) Requires the Director to use the program’s preferred drug list to negotiate with pharmaceutical companies for supplemental rebates or price discounts for medicaid and other state public assistance health benefit plans;
- (8) Establishes a pharmacy discount plan to be implemented by July 1, 2006;
- (9) Requires disclosures of gifts and other economic benefits provided by pharmaceutical marketers to physicians, hospitals, and similar health care providers;
- (10) Requires development of criteria for standardized tamper-resistance prescription pads; and
- (11) Requires the Director of Human Services to request a Section 1115 medicaid waiver or medicaid amendment to maximize federal participation in Hawaii’s state pharmaceutical assistance programs; and

- (12) Requires state health care policies to promote outcomes based assessment and treatment through development of a statewide quality assurance system and an effective quality improvement process.

The Hawaii State Teachers Association, Kokua Council, AARP Hawaii, and six individuals submitted testimony in support of this measure. The Department of Human Services and the Pharmaceutical Research and Manufacturers of America submitted testimony in opposition. The Board of Pharmacy, the Office of Information Practices, and the Hawaii Medical Service Association submitted comments.

Your Committees find that, according to AARP Hawaii, more money is spent on prescription drugs each year than on electricity, telephone service, and new cars. The cost of prescription drugs is soaring, rising by double digits year after year. This measure seeks to create a more balanced market and to initiate effective quality assurance and cost containment tools to reduce the high cost of providing prescription drugs while maintaining the high quality in prescription drug therapies for Hawaii's residents.

Upon further consideration, your Committees have amended this measure by:

- (1) Deleting the following provisions:
 - (a) The proposed "Definitions";
 - (b) The pharmacy best practices and cost control program;
 - (c) The drug utilization review board;
 - (d) The authorization to use prescription drugs not on the preferred drug list under certain circumstances;
 - (e) The authority of the Director of Human Services to contract with a third party to implement the pharmacy best practices and cost control program;
 - (f) The reporting and oversight procedures;
 - (g) The requirement for the Director to negotiate with pharmaceutical companies for supplemental rebates or price discounts;
 - (h) The pharmacy discount plan to be implemented by July 1, 2006;
 - (i) The requirement for standardized tamper-resistance prescription pads; and
 - (j) The requirement for the Director of Human Services to request a Section 1115 medicaid waiver or medicaid amendment to maximize federal participation in Hawaii's state pharmaceutical assistance programs; and
- (2) Adding the following:
 - (a) Clarification that the pharmaceutical manufacturers disclosures include the name of the recipient of the economic benefit; and
 - (b) Requirements for pharmacy benefit management disclosure and transparency.

Also, the bill's effective date was changed from July 1, 2005 to July 1, 2020 and technical nonsubstantive amendments were made for the purpose of clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1440, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1440, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 11. Noes, none. Excused, 4 (Ige, Kokubun, Tsutsui, Trimble).

SCRep. 561 (Joint) Health and Judiciary and Hawaiian Affairs on S.B. No. 1419

The purpose of this measure is to change the name of the Domestic Violence Prevention Special Fund to Domestic Violence and Sexual Assault Special Fund and to specify by statute the percentage of funds to go to domestic violence prevention and treatment and sexual assault prevention and treatment.

The Sex Abuse Treatment Center and two individuals submitted testimony in support of this measure. The Department of Health, the Hawaii State Coalition Against Domestic Violence, and the Domestic Violence Clearinghouse and Legal Hotline submitted comments.

Your Committees find that the Domestic Violence Prevention Special Fund was established as a revenue stream to provide prevention and education services that are key to ending violence. However, as one proponent noted, since the inception of the fund,

the guidelines and procedures to access the special account have not been clearly defined. This measure clarifies the target population to be served through the account in accordance with the original intent of the fund.

Upon further consideration, your Committees have amended this measure by deleting the percentage allocation of the moneys in the special fund between domestic violence prevention and treatment and sexual assault prevention and treatment because it would be problematic to distinguish between some programs. Your Committees have also amended this measure by specifying that the department work with domestic violence service providers to develop a strategic plan focus on domestic violence and requiring the Department of Health to provide the legislature with a detailed report on how the plan is being implemented.

Your Committees have further amended this measure by requiring the Department of Health to work with the sexual assault strategic planning groups to implement the recommendations of the January 2005 strategic plan entitled, "Shaping Tomorrow, The Future of Sexual Violence Programs in Hawaii" that was presented by the Sexual Violence Strategic Planning Group, and to report implementation progress to the Legislature prior to the convening of the 2006 regular session.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1419, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1419, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 1 (Tsutsui).

SCRep. 562 (Joint) Health and Judiciary and Hawaiian Affairs on S.B. No. 1201

The purpose of this measure is to appropriate funds for state agencies and the counties for crystal methamphetamine (ice) treatment, prevention, rehabilitation, education, environmental damage assessment, and program monitoring initiatives.

The Department of the Attorney General, the Department of Public Safety, the Department of Education, one member of the Hawaii County Council, Drug Addiction Services of Hawaii, Inc., Community Alliance on Prisons, Hawaii Youth Services Network, Coalition For A Drug-Free Hawaii, Hawaii Juvenile Justice Project, Hina Mauka, and two individuals submitted testimony in support of this measure. The Department of Health and the Judiciary submitted comments.

Your Committees find that a joint house-senate task force convened public hearings in 2003 and found that ice use and abuse had reached epidemic proportions, destroying families and resulting in increased criminal activities as well as increasing the burden on public resources such as child welfare, health, and social services. The task force recommended the formulation of a multi-pronged approach that combined treatment, prevention, rehabilitation, public education, crime prevention, and law enforcement initiatives designed to prevent future generations from engaging in substance abuse as well as to treat the present generation of ice abusers. This measure sustains and expands these important efforts to ensure that this public health crisis does not fade into the background.

Upon further consideration, your Committees have made the following amendments:

- (1) Removed sections 10, 11, 12, and 13, and any related language at the request of the Judiciary;
- (2) In section 2, replaced lines 19-22 with "establish and sustain school-based treatment in all public high schools and all public middle and intermediate schools";
- (3) In section 8, added "with an emphasis on native Hawaiian culturally based programs";
- (4) Changed the Weed and Seed appropriation to a grant to the YMCA of Honolulu pursuant to chapter 42F and changed the language to read that the funds are "to maintain and enhance existing efforts at federally designated Weed and Seed sites, and to assist new communities in obtaining federal designation as Weed and Seed sites";
- (5) Changed the "grant-in-aid" for the Being Empowered program to "grant" and "chapter 42D" to "chapter 42F" and specified that Maui Economic Opportunity, Inc. is the receiving agency; and
- (6) Made technical and non-substantive amendments for clarity and style.

Your Committees note that the monies under sections 10, 11, 12, and 13 duplicate monies requested in the Judiciary's appropriations bills and it requested support of its funding as included in those bills.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1201, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1201, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 2 (English, Tsutsui).

SCRep. 563 Education and Military Affairs on S.B. No. 1221

The purpose of this measure is to appropriate funds to phase in the reduction of class size in grades three, four, and five to twenty-five students per classroom.

Testimony in support of the measure was submitted by the Department of Education and Hawaii State Teachers Association.

Your Committee finds that numerous studies have proven smaller class size enhances student achievement. In Act 51, Session Laws of Hawaii 2004, the Legislature provided for the reduction of class size in kindergarten, grade one, and grade two. This measure will expand this trend. Not only students benefit from smaller class size. Teachers assigned to smaller class size classrooms experience fewer discipline problems and are able to move more quickly through their curriculum.

Upon further consideration, your Committee has amended this measure by adding the following provisions:

- (1) Requiring the department to reduce the ratio of students to teachers in kindergarten to grade two to not more than eighteen students to one teacher;
- (2) Requiring additional part-time teachers, aides, or both be added when one to twenty-six ratio is exceeded in grades three to five;
- (3) Providing funds for part-time teachers and tutors in needy elementary and intermediate schools; and
- (4) Appropriating funds for the reduction of class size in kindergarten to grade two.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1221, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1221, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Chun Oakland, Tsutsui).

SCRep. 564 Education and Military Affairs on S.B. No. 1423

The purpose of this measure is to authorize the issuance of \$2,000,000 in general obligation bonds and make an appropriation for planning and design for Pulelehua Elementary School, a new elementary school in west Maui.

Testimony in support of the measures was submitted by the Mayor of the County of Maui and Maui Land and Pineapple Company, Inc.

Your Committee finds that there is no elementary school in the growing area of Honokowai-Napili and the two existing Lahaina complex elementary schools will soon be over their capacity. The department has stated that is planning to build a new elementary school at west Maui in 2011, and is agreeable to building the new school in Pulelehua. However, with the growing population, there is a sense of urgency in the acceleration of the timetable to construct new facilities. For example, in the 2004-2005 school year, one class at King Kamehameha III School had to start its year underneath a tent. This is not an optimal educational environment. Your Committee finds it appropriate to expedite the construction of needed facilities more conducive to learning.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1423 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 565 Media, Arts, Science and Technology on S.B. No. 541

The purpose of this measure is to augment incentives that attract digital media, television, and film production companies to the State by changing the motion picture and film production income tax credit to an unspecified amount against a taxpayer's income tax and transient accommodations tax liability.

Testimony in support of the measure was received from an individual. The Departments of Taxation and Business, Economic Development, and Tourism supported the intent of the measure.

The Tax Foundation of Hawaii and one individual submitted comments on the measure.

Your Committee views this measure as an integral component of a comprehensive strategy to enhance the State's position in the competitive world of digital media production while solidifying Hawaii's digital media infrastructure and labor force so that it can play a significant and starring role in Hawaii's 21st century economy. Without the incentives that this measure provides, Hawaii will stand to lose millions of dollars in potential future revenues generated by the various digital media productions that would have otherwise been attracted to the State if not for finding more favorable incentives elsewhere in the world.

Your Committee further believes that the specific goal of Hawaii's digital media production tax credits should be to diversify Hawaii's economy through the expansion of the State's motion picture, television, film, music, and other digital media production capabilities and to support and build the local workforce and infrastructure needed to sustain the long-term growth and vitality of

Hawaii's digital media industry. By thinking globally and acting locally, this measure establishes production tax credits that also seek to maximize the amount of production work in Hawaii as a means of providing on-the-job training for the local digital media industry and technical workforce.

Your Committee envisions a digital media production industry in Hawaii that would be able to accommodate a \$300,000,000 production project. Such a production would employ at least sixteen thousand industry professionals (animators, producers, directors, etc.) - four times the State's current digital media employment capacity of four thousand professionals. This long-term vision will require the State and the digital media industry to partner in supporting the growth of digital media programs such as those at Waianae High School, Moanalua High School, Kalaheo High School, and the Kamehameha Schools, as well as the University of Hawaii's Academy for Creative Media to provide the existing workforce with innovative on-the-job training and mentoring programs and educational opportunities for aspiring secondary and post secondary students interested in digital media-related careers.

One successful example of such an incentive program is New Mexico's fifteen per cent production expenditure tax credit and fifty per cent wage reimbursement program. Due to its lack of experienced production crew personnel, New Mexico established a Workforce Training and Mentorship Program so that local residents could receive on the job training and, as such, New Mexico would benefit by keeping the skills learned within the state.

Another success story can be found in New Zealand, where the government believed that the chronicling of New Zealand's rich culture and heritage through song, dance, and chant was an important reason to support its local filmmakers. This support eventually provided Peter Jackson with the incentives necessary to convince New Line Cinema to spend \$300,000,000 on filming the Lord of the Rings Trilogy there. This project was followed by the \$100,000,000-plus productions of The Last Samurai, Narnia, and King Kong.

Based on the successful incentive paradigms utilized in New Mexico and New Zealand, your Committee has developed a strategy to tie the future use of the so-called "Act 221" high technology business tax credit, as amended by Act 215, Session Laws of Hawaii 2004 (Act 221) by digital media production companies to participation in training and educational programs for Hawaii residents.

In light of the potential positive impact the measure could provide on the State's economy, your Committee has amended the measure by:

- (1) Incorporating the language and concepts from S.B. No. 651, Relating to Motion Picture and Film Production and S.B. No. 716, Relating to Tax Credits for the Film And Television Industry;
- (2) Amending section 235-7.3, Hawaii Revised Statutes, to add digital media to the definition of "performing arts products" so that it mirrors the definition of "performing arts products" added to section 235-110.9, Hawaii Revised Statutes;
- (3) Amending section 235-110.9, Hawaii Revised Statutes, to add a new definition for "performing arts products", and to add language to the definition of "qualified high technology business" to clarify that businesses claiming the tax credit under this section in taxable years beginning after December 31, 2005, shall provide proof to the Department of Business, Economic Development, and Tourism of educational or in-kind support of Hawaii secondary or post-secondary performing arts programs, employment of Hawaii residents, and use of facilities in the State;
- (4) Increasing the existing four per cent tax credit on Hawaii qualified production expenditures to fifteen per cent for productions on Oahu and twenty per cent for productions on the neighbor islands;
- (5) Allowing a qualified production to receive a wage reimbursement tax credit for an unspecified percentage of the wages paid to below-the-line hires that are Hawaii residents;
- (6) Deleting the tax credit for transient accommodations taxes established under section 235-17(b), Hawaii Revised Statutes;
- (7) Requiring that motion picture or film productions expend a minimum of \$200,000 in the State to qualify for the tax credit;
- (8) Requiring that a sound recording production expend a minimum of \$20,000 in the State to qualify for the tax credit;
- (9) Requiring that a production that qualifies for the tax credit provide the State with a shared-card, end-title credit;
- (10) Requiring that productions interested in claiming the tax credit be pre-qualified by the Department of Business, Economic Development, and Tourism;
- (11) Establishing record keeping and reporting requirements for the Departments of Business, Economic Development, and Tourism and Taxation;
- (12) Defining terms such as "below-the-line hires", "commercials", "digital media", "post-production", "production", "qualified production", and "qualified production costs";
- (13) Prohibiting the claiming of tax credits under both the production expenditure tax credit established under section 235-17, Hawaii Revised Statutes, as well as the investment tax credit established under section 235-110.9, Hawaii Revised Statutes;
- (14) Capping tax credit claims at \$8,000,000 per production;

- (15) Requiring the Department of Business, Economic Development, and Tourism, in consultation with the Department of Taxation and the county film offices, to develop an appropriate revenue generation and economic benefit model to determine the economic impact of the enhanced film and digital media tax credits established under this Act;
- (16) Requiring the Department of Business, Economic Development, and Tourism, beginning with the 2005 Regular Session, to annually submit reports on the film and digital media production expenditure, revenue projection, and revenue realization information to the Legislature until the 2011 Regular Session; and
- (17) Making the amendments made to the enhanced film and digital media tax credits applicable to taxable years beginning after December 31, 2004.

During its deliberations, your Committee heard concerns over the potential tax revenue loss to the State if the enhanced film and digital media tax credits contained in this measure were enacted. Your Committee received comments from the Department of Business, Economic Development, and Tourism opining that, if a film or digital media production claimed the already available "Act 221" high technology business tax credit, the State could stand to lose substantially more tax revenue than if the same production claimed the enhanced tax credits provided under this measure. The Department of Business, Economic Development, and Tourism bases its opinion on the fact that, under Act 221, investors are allowed to claim the value of Hawaii-generated capital at a 2:1 ratio against their tax liability. Essentially, under Act 221, each Hawaii investment dollar invested generates \$2 of tax credit. Under this measure, the production tax credit is only a dollar-for-dollar credit, up to a maximum of fifteen or twenty per cent of the total cost of production expenses realized in Hawaii.

Your Committee believes that the amended measure will provide the incentives necessary to attract more digital media productions to the State while concomitantly finding innovative ways to bolster the State's economy, developing the local digital media production industry, training future local digital media pioneers, and maintaining fiscal responsibility.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 541, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 541, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (English).

SCRep. 566 (Joint) Human Services and Higher Education on S.B. No. 51

The purpose of this measure is to change the method for calculating a former foster child's eligibility to receive higher education board allowances while attending college from a maximum age to a maximum time period, and to prohibit the use of federal funds to pay the allowance if the former foster child is twenty-one years or older.

Your Committees received testimony in support of this measure from the University of Hawaii, the Hawaii Youth Services Network, the Legal Aid Society of Hawaii, and Hale 'Opio Kaua'i Inc. Your Committees also received comments on this measure from the Department of Human Services.

Your Committees find that many children living in foster care have difficulties adjusting to new schools and graduating from high school. Upon emancipation, these children may not recognize the benefits of additional educational or vocational support and so do not immediately seek transition services. Your Committees find that, by changing the criteria for determining eligibility from a maximum age to a maximum time period, this measure will include children who put off seeking transitional support services. Without higher education, former foster children face a bleak future because they often lack the skills to obtain a living wage. Your Committees believe that this measure will work in conjunction with other services designed to help former foster children transition to self-sufficiency and become thriving, successful adults.

As affirmed by the records of votes of the members of your Committees on Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 51 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 567 Human Services on S.B. No. 23

The purpose of this measure is to appropriate funds to Health for All to operate a three-year pilot project at the Waipahu Community Adult Day Health Care Center.

One individual submitted testimony in support of this measure. The Department of Human Services and the Department of Health submitted comments.

Health for All is a community-based safety net health and social services agency serving low-income people in the most ethnically diverse and impoverished communities. Based in Sacramento, California, Health for All is a nonprofit 501(c)(3) organization. Health for All serves people who would not otherwise receive appropriate health and social services, including disadvantaged children, adolescents, young parents, and the frail elderly. The organization operates two major programs, adult day health care centers and community clinics.

This measure funds the operation of a three-year pilot project at the Waipahu Community Adult Day Health Care Center and Youth Day Care Center at the Hikimoe Street facility. The program helps adults continue to live in the community instead of at a long-term care facility.

Upon further consideration, your Committee has amended this measure by:

- (1) Making an appropriation of \$100,000 in each year of the fiscal biennium; and
- (2) Requiring Health for All to submit an annual report detailing its expenditures to the Legislature.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 23, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 23, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 568 (Joint) Human Services and Higher Education on S.B. No. 244

The purpose of this measure is to establish within the Kapiolani Community College a long-term care resource program initiative.

Your Committee received testimony in support of this measure from Kapiolani Community College (KCC), Department of Health, Health Care Association of Hawaii, Hawaii Alliance for Retired Americans, Kokua Council, the Policy Advisory Board for Elder Affairs, and two individuals.

The long-term care resources program would expand the quality and quantity of home- and community-based long-term care workers, improve the support and training of family caregivers, and promote active aging. The program would serve as a model for other community colleges in the University of Hawaii (UH) system.

Hawaii is at the cusp of significant demographic changes over the next decade. Currently, Hawaii's population of individuals over sixty-five years of age is increasing at a rate two to three times the national average. The number of nursing home beds available is not even fifty per cent of the national average, and Hawaii's home- and community-based infrastructure does not adequately meet Hawaii's chronic care management needs. The infrastructure must be expanded to accommodate a broader range of home- and community-based, long-term care options for the rapidly growing elderly population.

KCC is viewed as the flagship community college for nursing, long-term care, allied healthcare and education. KCC's core healthcare curricula focuses on the expansion of the paraprofessional healthcare workforce. KCC is well positioned to play a role in strengthening the State's capacity to provide affordable home- and community-based long-term care for its residents.

In August 2003, KCC held a meeting with all of the community colleges and their respective community agencies to review and discuss the present and future role of the state colleges. Community colleges are well-dispersed throughout the State and possess the capacity to provide the training for the long-term care workforce across the healthcare spectrum.

A critical element for the expansion of home- and community-based long-term care options is the development of an adequate long-term care workforce. Three components associated with a workforce development strategy that places an emphasis on expanding affordable care options for the elderly are: (1) the paraprofessional worker; (2) family caregivers; and (3) active aging of the elderly.

Your Committees find that helping the elderly stay in their homes as they age reduces admission to costly institutional or residential long-term care facilities. Your Committees further find that there are approximately three hundred vacant positions and thus there is no need for two additional full-time equivalent positions as set forth in the measure.

KCC is committed to collaborating with other colleges in the University system to enable a statewide approach to address the aging and long-term care issues. KCC, with input from caregiver coalition groups, has collaborated with the Executive Office on Aging to ensure that key information and elements have been incorporated into this measure. This measure reflects KCC's plans to build an effective program targeting Hawaii's aging and long-term care needs with its educational resources and expertise.

Your Committees have amended this measure by deleting the two full time equivalent positions.

As affirmed by the records of votes of the members of your Committees on Human Services and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 244, S.D. 1, as amended herein, and recommend that it be referred to the Committee on Ways and Means in the form attached hereto as S.B. No. 244, S.D. 2.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 569 (Joint) Human Services and Judiciary and Hawaiian Affairs on S.B. No. 803

The purpose of this measure is to allow the Office of Youth Services (OYS) to obtain criminal history and child abuse record information on employees, prospective employees, and volunteers of its providers and subcontractors in certain positions.

Testimony in support of this measure was submitted by the Department of Human Resources Development, the Office of Youth Services, the Honolulu Police Department, the Hawaii Youth Services Network, and Hale 'Opio Kaua'i, Inc.

Your Committees find that our youth, particularly at-risk youth, should be cared for and protected. The OYS is an agency that provides a range of services to at-risk youth in Hawaii, including the provision of youth services centers, alternatives to incarceration, intensive supervision of juvenile offenders released into the community, and diversion services for status offenders and non-violent law violators. Many of these services are provided through contracts with private agencies. Your Committees further find that it is in the best interest of the State, our youth, and provider agencies to obtain criminal history and child abuse record information on employees, prospective employees, and volunteers of providers and subcontractors in positions that necessitate close proximity to youth when providing services on behalf of the OYS.

Furthermore, your Committees have concerns regarding the permissive nature of the measure and the fact that a similar measure, SB790, which provides for criminal history record checks for those working with the elderly or the disabled, is more comprehensive in nature, including immunity provisions for state employees relying in good faith upon criminal record checks. Further disparities between this measure and SB790 raise concerns regarding the possibly disparate treatment of different classes of individuals. However, your Committees determine that this measure should continue to proceed throughout the session so as to allow for further discussions and revisions, as appropriate.

Accordingly, your Committees have amended this measure by:

- (1) Requiring the executive director of OYS to adopt rules pursuant to chapter 91 to carry out the purposes of chapter 325D;
- (2) Changing the effective date of the Act to July 1, 2050, and the effective date of section 1 of the Act to July 1, 2060, in order to facilitate further discussion on matter; and
- (3) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 803, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 803, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 570 (Joint) Human Services and Judiciary and Hawaiian Affairs on S.B. No. 921

The purpose of this measure is to provide early childhood education at every native Hawaiian homestead.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, Good Beginnings Alliance, Kamehameha Schools, Support Partnerships to Assure Ready Kids, and three individuals. Comments were also submitted by the Department of Hawaiian Home Lands.

Your Committees find that early childhood education reduces academic achievement gaps in grades K-12. Programs like Play-and-Learn Mornings offer a way for young children, parents, grandparents, and family child care providers to meet for informal play activities, and children who attend these sessions are more ready for elementary school than children who have no early education experiences.

Your Committees also find that the native Hawaiian population is considered a young population with children ages birth to five representing over one-third of the State's population. It is estimated that only twenty-three per cent of all three- and four-year olds attend preschool, and that percentage is even lower for native Hawaiian children. Your Committees believe that providing early childhood education at every native Hawaiian homestead would help Hawaiian children prepare for successful elementary school experiences. Thus, this measure appropriates funds to provide Play-and-Learn Mornings at every native Hawaiian homestead community.

Your Committees have amended this measure by designating the Department of Human Services to be the expending agency for the appropriation.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 921, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 921, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 571 Water, Land, and Agriculture on S.B. No. 1451

The purpose of this measure is to develop and demonstrate comprehensive watershed management measures to improve the water quality of Lake Wilson and to reduce contaminated sediments in statewide waterways.

Testimony in support of this measure was submitted by the International Longshore and Warehouse Union Local 142, University of Hawaii Environmental Center, University of Hawaii Center for Conservation, Research, and Training, and one individual. The Department of Health submitted testimony in opposition to this measure.

Your Committee finds that with growing concerns over the preservation of Hawaii's environment, ecosystems, and water quality, it is increasingly in the State's best interest to address these problems through innovative, comprehensive watershed management measures that are cost-effective and sustainable. Thus, this measure appropriates funds to:

- (1) Develop comprehensive strategies that establish broad water quality management goals for the entire Lake Wilson catchment, consistent with comprehensive watershed management (phase 1); and
- (2) Secure funding and coordinate the implementation of the strategies identified in phase 1 (phase 2).

Your Committee also noted that similar research as outlined in this measure may have already been completed by the University of Hawaii Environmental Center on other areas in Hawaii using EPA grant funds. Thus, your Committee finds that further discussion is necessary to explore funding from other sources used for conducting such research. Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050 to ensure further discussion on this issue.

Your Committee has also amended this measure by deleting the dollar amount of the appropriations and has left them blank for the Committee on Ways and Means to determine at a later date.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1451, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1451, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Hooser).

SCRep. 572 (Joint) Water, Land, and Agriculture and Higher Education on S.B. No. 1474

The purpose of this measure is to direct the Auditor to evaluate the existing approval and decision-making procedures for the Mauna Kea Science Reserve and determine the feasibility and necessity for the creation of a Mauna Kea Science Reserve Authority.

Testimony in support of this measure was submitted by the Hawaii Government Employees Association, KAHEA, the Hawaiian-Environmental Alliance, Mauna Kea Anaina Hou, the Royal Order of Kamehameha I, Sierra Club, and one individual. Testimony in opposition to this measure was submitted by the Department of Land and Natural Resources. Comments were also submitted by the University of Hawaii Interim Vice President for Research and the University of Hawaii at Hilo Office of Mauna Kea Management.

The Office of Mauna Kea Management was established under the University of Hawaii Hilo to assume the authority for overall management of operational matters and minor projects of the Mauna Kea Science Reserve. Mauna Kea is now considered one of the world's premier sites for astronomical research because the rarified atmosphere surrounding its summit makes for excellent viewing conditions. Mauna Kea now hosts the world's premier observatories, which are owned by some of the wealthiest nations. In consideration for their use of the Mauna Kea summit, these nations pay the University of Hawaii (UH) one dollar per year in lease rent, or no lease rent at all, provided that the University receives limited use of the observatories. The astronomy research facilities located on the summit of Mauna Kea bring international recognition and status to the UH and its Institute for Astronomy. Supporting national and international astronomy programs is an important goal and acknowledges the scientific and educational benefits that can be realized from these endeavors.

However, your Committees find that there is still some public dissatisfaction with the management structure. Thus, your Committees find that there is a need to consider a new project approval process for development within the Mauna Kea Science Reserve. Such an approval process should ensure that decision-making procedures are open to public scrutiny.

Your Committees further find there is a need for the Auditor to analyze the transfer of management authority of the science reserve to a new Mauna Kea Science Reserve Authority. This consideration is aimed at ensuring that the management of the science reserve is conducted in an independent manner that is in the State's best interests. The resulting management scheme must protect the area's natural, cultural, and historic resources while it adequately and timely addresses the concerns of local groups with a strong interest in the mountain. A new and independent management authority would create and implement the necessary management and fiscal processes to protect the important natural, cultural, and historic resources of the science reserve, while giving due consideration to its multiple-use management objectives.

Your Committees have amended this measure by making clarifying amendments to the purpose section to more accurately reflect proposals provided in public testimonies about the management plan and the authority for projects at the Mauna Kea Science Reserve.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Higher Education that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1474, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1474, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 3 (Chun Oakland, English, Trimble).

SCRep. 573 (Joint) Business and Economic Development and Commerce, Consumer Protection and Housing on S.B. No. 717

The purpose of this measure is to transfer the Business Action Center from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism; the Department of Commerce and Consumer Affairs; and the Hawaii Association of Realtors.

Your Committees find that the Business Action Center was begun as a pilot project by the Department of Business, Economic Development, and Tourism to facilitate the licensing and registration process for small businesses. Your Committees believe that the Business Action Center's functions and mission are more closely aligned with those of the Department of Commerce and Consumer Affairs. The Business Action Center fits in with the Department of Commerce and Consumer Affairs' mission as it complements and directly expands the services that the Business Registration Division of the department provides to its customers. The Business Action Center is already a participant in the Hawaii Business Express, the State's one-stop portal for starting a new business and it currently uses many of the department's forms.

Your Committees believe that transferring the Business Action Center from the Department of Business, Economic Development, and Tourism to the Department of Commerce and Consumer Affairs will provide opportunities for the Business Action Center to develop beyond a pilot project and expand to additional locations across the state to better serve the State's small business community.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 717 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, none.

SCRep. 574 (Joint) Business and Economic Development, Energy, Environment, and International Affairs and Media, Arts, Science and Technology on S.B. No. 1374

The purpose of this measure is to direct the Department of Business, Economic Development, and Tourism to convene a working group to develop a strategic plan that ensures Hawaii will actively participate in, and benefit from, the emergence of the People's Republic of China as an economic and global leader.

Your Committees received testimony in support of the measure from DFS Hawaii, the East-West Center, and one individual. Your Committees received comments from the Department of Business, Economic Development, and Tourism.

Your Committees recognize the economic opportunities available for Hawaii as the People's Republic of China continues to implement its "Go West Campaign." Hawaii's geographic location, and the experience, knowledge, skills, and cultural sensitivities of our multi-cultural and multi-ethnic population provide the State with a unique opportunity to take advantage of the explosive economic development in the Pacific-Asian countries, most particularly China. Ensuring Hawaii's participation in the economic development in the People's Republic of China requires a comprehensive strategic plan.

Your Committees have amended this measure by:

- (1) Including an appropriation to the Department of Business, Economic Development, and Tourism to prepare a comprehensive China-Hawaii economic strategic plan;
- (2) Adding the President of the Senate and the Speaker of the House of Representatives, or their designees, as members of the Hawaii-China working group; and
- (3) Amending the dates for appointing and convening the working group.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Energy, Environment, and International Affairs and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1374, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1374, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 5 (Hanabusa, Ihara, Menor, Sakamoto, Hemmings).

SCRep. 575 (Joint) Business and Economic Development and Water, Land, and Agriculture on S.B. No. 1377

The purpose of this measure is to establish a tax credit for qualified costs in the development of private marina facilities.

Your Committees received testimony in support of this measure from the Hawaii Resort Developers Conference. Your Committees received testimony in opposition from the Department of Taxation and comments from the Tax Foundation of Hawaii.

Your Committees find that offering tax credits to developers for private marina development will provide ocean- and marine-related businesses and enthusiasts with more opportunities to succeed in business and enjoy Hawaii's natural environment. The development of private marina facilities will attract visitors from local, national, and international markets and complement the tourist markets of each island by creating a broad-based tourist destination.

Upon discussion of the appropriate limitations per project and annual aggregates, your Committees have amended the aggregate cap to \$2,000,000 annually and to allow tax credits for not more than five projects per year. Your Committees have also amended this measure by making technical, nonsubstantive amendments for the purposes of style and clarity. Your Committees also have clarified that this measure includes tax credits for renovating publicly-owned small boat harbors in addition to the tax credits proposed for developers of private marinas.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1377, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1377, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (English, Sakamoto, Hemmings).

SCRep. 576 (Joint) Business and Economic Development and Commerce, Consumer Protection and Housing on S.B. No. 1380

The purpose of this measure is to establish the Small Business Bill of Rights.

Your Committees received testimony in support of this measure from The Hawaii Business League, the National Federation of Independent Business – Hawaii, and the Small Business Regulatory Review Board. Your Committees received comments on this measure from the Department of Business, Economic Development, and Tourism; the Small Business Regulatory Review Board; and the Office of the Ombudsman.

Your Committees find that small businesses are an essential element in strengthening and diversifying Hawaii's economy and creating jobs. Your Committees find that the Small Business Bill of Rights provides a list of current rights to which small businesses are entitled in a single document. This measure is a positive step toward educating small business owners about their rights.

Your Committees have amended this measure by amending the provisions of section 2, paragraph (14) relating to the Office of the Ombudsman. Your Committees also have amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1380, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1380, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, none.

SCRep. 577 (Joint) Business and Economic Development, Water, Land, and Agriculture and Intergovernmental Affairs on S.B. No. 1381

The purpose of this measure is to require the Department of Land and Natural Resources to work with the county parks departments to identify state parks that should be transferred to the county and appropriate funds to plan the transfer.

Your Committees received testimony in opposition to this measure from the Hawaii Government Employees Association. Your Committees received comments regarding this measure from the Department of Land and Natural Resources and the City and County of Honolulu Department of Parks and Recreation.

Your Committees find that state parks exhibit Hawaii's finest natural and cultural resources, in which island residents and visitors alike experience and learn about Hawaii's extraordinary natural resources and cultural heritage. Your Committees further find that the missions of the state and county parks differ. State parks operate mainly to provide and preserve unique places of natural, cultural, and scenic importance, and county parks operate mainly neighborhood and district or community parks for its residents. Your Committees recognize, however, that some state parks fit better into the county programs. Your Committees believe that this is an opportunity to examine the state and county park programs to determine if further exchanges of park areas would improve efficiency and service to the public.

Your Committees find that this determination merits further investigation and have amended this measure to require that the Department of Land and Natural Resources work with the county parks departments in an attempt to identify at least one park in each county that should be transferred from State to county and at least one park that should be transferred from county to State. Your Committees further have amended this measure to require the department to include the parks identified in each county in its report to the legislature and to include recommendations regarding funding and revenue sources.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Water, Land, and Agriculture and Intergovernmental Affairs that are attached to this report, your Committees are in accord with the intent and

purpose of S.B. No. 1381, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1381, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 11. Noes, none. Excused, 4 (Baker, Hooser, Inouye, Sakamoto).

SCRep. 578 (Joint) Business and Economic Development and Media, Arts, Science and Technology on S.B. No. 1721

The purpose of this measure is to establish a permanent cultural public market within the City and County of Honolulu on State-owned land within the Kakaako Makai area.

Specifically, the public market will provide a venue for the:

- (1) Exposure, education, and awareness of the many ethnic groups in Hawaii and the host Hawaiian culture;
- (2) Sales of ethnic foods, produce, and products;
- (3) Exhibition and showcasing of cultural artwork and crafts;
- (4) Showcasing of entertainers and artists; and
- (5) Presentation of information on the culture and history of the various ethnic groups in Hawaii.

Your Committees received testimony in support of this measure from the Office of Hawaiian Affairs and twenty-seven individuals. Your Committees received comments from the Department of Business, Economic Development, and Tourism and the Hawaii Community Development Authority.

Your Committees find that a permanent state cultural marketplace will stimulate business activities and create a gathering place for the community, while preserving and promoting the diversity of the State's population. A permanent cultural marketplace affords local artisans and crafters an opportunity to display and sell their wares by setting affordable rents. It is the intent of your Committees that the cultural market will become a pedestrian attraction that would also attract customers to the Kakaako district.

Your Committees believe the issue of what level of involvement of local developers, contractors, and other businesses in the planning, design, and construction of the permanent cultural marketplace shall be required raises concerns that merit further discussion. Accordingly, your Committees have inserted an effective date of July 1, 2010 to ensure ongoing discussions on this issue.

As affirmed by the records of votes of the members of your Committees on Business and Economic Development and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1721, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1721, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 2 (English, Sakamoto).

SCRep. 579 (Joint) Health and Judiciary and Hawaiian Affairs on S.B. No. 786

The purpose of this measure is to allow the Hawaii Health Systems Corporation to obtain criminal history information on persons who are employed or seeking employment to serve as volunteers, providers, or subcontractors in any of the corporation's health facilities.

The Department of Human Resources Development and Hawaii Health Systems Corporation submitted testimony in support of this measure.

Your Committees find that the Hawaii Health Systems Corporation provides a broad range of health care services including acute, long-term care, and rural health care services. Hawaii Health Systems Corporation currently checks an applicant's local record of convictions before hiring the applicant. However, local criminal checks do not list out-of-state convictions. Access to the FBI data bank is limited to those agencies that have specific statutes mandating criminal history checks. This measure will facilitate Hawaii Health Systems Corporation's criminal history checks of applicants for employment.

Upon further consideration, your Committees have amended this measure by limiting the criminal history checks to those persons whose positions may place them in close proximity to patients, and by making technical, non-substantive amendments for clarity and style.

As affirmed by the records of votes of the members of your Committees on Health and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 786, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 786, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 1 (Tsutsui).

SCRep. 580 Health on S.B. No. 1473

The purpose of this measure is to prohibit development of state-owned land on Waimano Ridge until an updated master plan is developed and reviewed by the Waimano Ridge neighborhood boards.

The Manana Community Association, two vice-presidents of the Pearl City Community Association, and two individuals submitted testimony in support of this measure. The Department of Health submitted testimony in opposition. The Office of Information Practices submitted comments.

Your Committee finds that certain uses of state-owned lands in the Waimano Ridge area of Oahu have created unnecessary friction between the state administration and the surrounding community residents. In 2000, the state administration announced that it would be operating a juvenile sex offender treatment facility at the site of the former Waimano home for the developmentally disabled without giving any prior notice to the surrounding community. This was not well received by the community as, prior to the announcement, the facility was already being built without community notice or input.

As pointed out by proponents of this measure, it is necessary to update the master plan that the community and the Department of Health prepared years ago. This measure provides for an update of the master plan and provides for the community's input in the formulation of the updated master plan.

Upon further consideration, your Committee has amended this measure by deleting the provision that required the development and approval of a master plan before any new or expanded use or further development of existing leased lands or facilities on state-owned land in the Waimano ridge area could be granted or approved.

Your Committee has further amended this measure by requiring any state or county agency, commission, or department to give the community associations and community boards surrounding the Waimano Ridge area at least ninety days notice of any new or expended use or further development of existing leased lands or facilities on state-owned land in the Waimano ridge area. Your Committee also changed the effective date to July 1, 2020, to encourage further discussion of this matter.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1473, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1473, S.D. 1, and be referred to the Committee on Water, Land, and Agriculture.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 581 Health on S.B. No. 791

The purpose of this measure is to allow the Department of Health to license special treatment facilities and therapeutic living programs, and place clean and sober homes under the purview of the counties and not the Department of Health.

The Office of the Lieutenant Governor, the Department of Health, the Salvation Army Family Treatment Services, and one individual submitted testimony in support of this measure.

Your Committee finds that there is a need to ensure a continuum of health care settings for individuals requiring therapeutic or rehabilitative services and care which would include persons recovering from substance abuse. As the Department of Health noted in its testimony, clean and sober homes do not provide rehabilitative or therapeutic care or services, but do provide housing for persons recovering from substance abuse. Therefore, clean and sober homes do not require oversight from the Department of Health and should be under the purview of the counties.

Upon further consideration, your Committee has amended this measure by amending the county zoning statute to include a definition of "drug rehabilitation home"; deleting the words "from a more restrictive treatment setting" from the definition of "therapeutic living programs"; by making section 5 effective on December 31, 2007; and by making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 791, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 791, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 582 (Joint) Media, Arts, Science and Technology and Water, Land, and Agriculture on S.B. No. 1457

The purpose of this measure is to acquire lands adjacent to the Kohala Historical Sites State Monument to provide public access to the cluster of historical sites, including the Mo'okini Heiau, and to protect the historical sites by providing additional buffers.

Your Committees received testimony in support of this measure from Mo'okini Luakini, Inc. Your Committees also received comments regarding this measure from the Department of Land and Natural Resources, and Kamehameha Schools.

Your Committees find that Act 166, Session Laws of Hawaii 1992, now codified as section 6E-38.5, Hawaii Revised Statutes, was intended to preserve and protect an important cluster of historical sites in North Kohala on the island of Hawaii. Collectively, this cluster of sites is known as the Kohala Historical Sites State Monument. Act 166 mandated that certain real property be acquired in

order to ensure the unimpaired preservation of the visual, cultural, and historical aspect of the monument, and to provide an adequate buffer surrounding the sites.

Your Committees find that the additional land has not been acquired, despite the State's efforts to do so through gifts or land exchanges. Your Committees support the acquisition of the lands adjacent to the monument as necessary to provide public access to the Kohala Historical Sites State Monument, including the Mo'okini Heiau, and to protect the site. Your Committees further believe that this measure is critical in ensuring that the Department of Land and Natural Resources renews its efforts to acquire, through land exchange, the lands necessary to protect and preserve the Kohala Historical Sites State Monument.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1457 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 5. Noes, none. Excused, 3 (English, Hooser, Ige).

SCRep. 583 (Joint) Education and Military Affairs and Commerce, Consumer Protection and Housing on S.B. No. 1254

The purpose of this measure is to transfer jurisdiction of private trade, vocational, and trade schools from the Department of Education to the Department of Commerce and Consumer Affairs.

Testimony in support of the measure was submitted by the Department of Education.

Your Committees find that the Department of Education is not sufficiently equipped to adequately monitor the commercial aspect of vocational and trade schools, as these entities are essentially in business for profit. These types of schools function as retail businesses and thus consumers should be provided with consumer protection services. This measure will transfer the regulation of these schools to the more appropriate Department of Commerce and Consumer Affairs which contains the knowledge and expertise to ensure quality services will be provided by these businesses.

Upon further consideration, your Committees have amended this measure to:

- (1) Allow the Department of Education to provide educational programs for appropriate schools;
- (2) Direct the Legislative Reference Bureau to conduct a study on which schools are more appropriately placed under the Department of Commerce and Consumer Affairs;
- (3) Make a technical, nonsubstantive amendment; and
- (4) Change the effective date to July 1, 2020.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1254, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1254, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Espero, Ige).

SCRep. 584 (Joint) Education and Military Affairs and Transportation and Government Operations on S.B. No. 1660

The purpose of this measure is to broaden the Department of Education's authority over capital improvement and repair and maintenance projects and transfers necessary functions from the Department of Accounting and General Services to the Department of Education.

Testimony in support of the measure was submitted by the Department of Education and Hawaii State Teachers Association.

Your Committees find that Act 51, Session Laws of Hawaii 2004, required the transfer of functions regarding the maintenance of school facilities from the Department of Accounting and General Services to the Department of Education. Accordingly, the Department of Education, needs to be able to manage the state educational facilities improvement special fund and capital and repair and maintenance programs. In transferring management to the Department of Education, your Committees believe that the improved coordination will reduce the backlog of public school facilities projects.

Upon further consideration, your Committees have amended this measure to establish the education design and construction project assessment fund which will allow the superintendent to make assessments on construction projects. Furthermore, the effective date of section 7 was changed to July 2, 2005.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1660, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1660, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 12. Noes, none. Excused, 1 (Kanno).

SCRep. 585 (Joint) Education and Military Affairs and Health on S.B. No. 1816

The purpose of this measure is to clarify the law on substance assessment referrals and make an appropriation to the Department of Education for referrals to be completed by certified substance abuse treatment counselors.

Testimony in support of the measure was submitted by the Lieutenant Governor and an individual. The Department of Education submitted testimony in opposition to the measure. The Drug Policy Action Group submitted comments.

Your Committees find that substance abuse treatment is successful in reducing arrests, hospitalization, and emergency room visits and that it is prudent to ensure students who meet the criteria for needing substance abuse treatment receive it. Removing students from school only serves to place them in an unsupervised environment where they may encounter risky situations. However, this measure assumes a zero tolerance substance abuse policy in school where students are removed from school while being referred for a substance abuse assessment.

The Department of Education raised strong concerns regarding its difficulties in implementing provisions in Act 44, Session Laws of Hawaii 2004. Currently, the department does not have the mechanisms, resources, or staff in place to adhere to the requirements of the law. The provisions regarding assessment and treatment are well intended, but the structures and mechanisms that the law requires do not exist in the Department of Education and Department of Health.

Furthermore, there is a shortage of certified substance abuse counselors who can complete the required assessment. Consequently, students waiting to be assessed or for treatment are placed in alternative learning centers which are currently filled. While parents are making good faith efforts to seek assessment and treatment, they are usually turned away for lack of funding and personnel.

The proposed changes in this measure contradict recent research regarding the efficacy of zero tolerance approaches. Moreover, the Joint Task Force on Ice and Drug Abatement recommended that the zero tolerance policies be amended to require treatment before student disciplinary action.

Upon further consideration, your Committees have amended this measure:

- (1) To restore deleted language that requires a student to be referred to treatment prior to disciplinary actions;
- (2) To clarify that professionals qualified under chapter 431M, Hawaii Revised Statutes, may assess students; and
- (3) By making technical, nonsubstantive amendments.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1816, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1816, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 586 (Joint) Education and Military Affairs and Media, Arts, Science and Technology on S.B. No. 1505

The purpose of this measure is to appropriate funds for the establishment of a two-year pilot computer recycling and disposal program in at least two public schools.

Testimony in support of the measure was submitted by the Department of Education, Department of Health, the Representative of the Nineteen District, Friends for Boys & Girls Club, and Hawaii Open Source Education Foundation. The American Chemistry Council submitted comments.

Your Committees find that with the progression of technology use today, old computers are being discarded and replaced with new ones at a rapid rate. Health risks are involved when hazardous materials from electronic devices such as computers and television monitors are released into the environment during incineration. The program in this measure would serve to lay the groundwork for developing possible strategies such as identifying proper disposal methods and services for obsolete used computers, as well as distributing used computers to disadvantaged schools.

Upon further consideration, your Committees have amended this measure to:

- (1) Request a report from the Department of Education; and
- (2) Require the Department of Education and the Department of Health to participate in task forces that deal with electronic waste.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Media, Arts, Science, and Technology that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1505, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1505, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Vice Chair and Chair on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Ihara, Tsutsui).

SCRep. 587 (Joint) Education and Military Affairs and Commerce, Consumer Protection and Housing on S.B. No. 1830

The purpose of this measure is to offer military veterans who served in the Iraq or Afghanistan conflicts priority for housing developed under charter 201G, Hawaii Revised Statutes.

Testimony in support of the measure was submitted by The Chamber of Commerce of Hawaii.

Your Committees find that the state's guardsmen and reservists are being called to active duty with greater regularity. This increase has seriously affected recruiting and retention. This measure will assist the Hawaii National Guard by providing housing incentives to retain a force capable of meeting the needs of the State while responding to the needs of the nation.

Upon further consideration, your Committees have amended this measure by requiring the Housing and Community Development Corporation of Hawaii to amend its administrative rules to include Iraq and Afghanistan war veterans in their priority list of applicants for housing programs.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1830, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1830, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.
Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Espero, Ige).

SCRep. 588 (Joint) Education and Military Affairs and Labor on S.B. No. 1642

The purpose of this measure is to implement various programs to encourage teacher retention and recruitment.

Testimony in support of the measure was submitted by the Department of Education, Department of Budget and Finance, University of Hawaii, Hawaii State Teachers Association, and an individual. The Department of Taxation and Hawaii Government Employees Association submitted comments.

Your Committees find that effective teaching is of high importance in the development of a successful educational system. Unfortunately, the State has been experiencing a teacher shortage. There are many reasons for this situation and there is no single answer to address this problem. However, it is clear that the State must recruit more people to the profession, prepare them well, assist with their matriculation during the first few years, provide on-going professional development, and most importantly, provide attractive compensation and working conditions to attract the best and brightest candidates.

Several commendable ideas were discussed during your Committee's hearing, from tax incentives to amending teacher licensing requirements. Therefore, your Committees have amended this measure to include additional provisions that would encourage teacher recruitment and retention. Among other amendments, the following provisions have been added to this measure:

- (1) An educator loan forgiveness program;
- (2) A statewide teacher induction program;
- (3) A comparability study of teacher tests in other key states;
- (4) Preparations for a package of incentives by the department, Hawaii State Teachers Association, and other effected businesses or individuals;
- (5) An action plan for teacher retention;
- (6) Appropriations for the following:
 - (a) Teacher cadet program;
 - (b) Various faculty positions in the University of Hawaii system;
 - (c) Educator loan forgiveness program;
 - (d) The comparability study;
 - (e) Positions at the Hawaii Teacher Standards Board;
 - (f) Professional development schools; and
 - (g) Financial incentives; and

- (7) Technical, substantive amendments for the purposes of clarity and style.

Furthermore, your Committees find that there are many policies and practices that are important to teachers but not consistently practiced. Thus your Committees urge further review and discussion, between all affected parties, of the following:

- (1) Providing time in the school schedule for teachers to work collaboratively;
- (2) Including teachers in the decision making processes at their schools;
- (3) Giving teachers time, opportunity, and expectations to develop their leadership capacity;
- (4) Communicating the administration's expectations for teacher performance;
- (5) Providing teachers with opportunities for new roles and responsibilities; and
- (6) Being open to discussing job-related issues with teachers.

As affirmed by the records of votes of the members of your Committees on Education and Military Affairs and Labor that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1642, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1642, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Chun Oakland, Taniguchi, Tsutsui).

SCRep. 589 (Joint) Commerce, Consumer Protection and Housing and Health on S.B. No. 940

The purpose of this measure is to modify the review process for health coverage disputes arising under managed care plans.

The Coalition and three individuals testified in support of this measure. The Department of Commerce and Consumer Affairs, Kaiser Permanente, and Hawaii Medical Service Association testified in opposition to this measure.

Currently, complaints regarding health care coverage under managed care plans that are not successfully resolved under the plan's internal review process may be referred to the Insurance Commissioner (Commissioner) for referral to a three-member external review panel. This measure modifies this process by requiring that complaints arising under managed care plans subject to ERISA be submitted for review to an independent review organization.

Disputes arising under non-ERISA plans and involving amounts of \$500 or more will continue to be referred to the external review panel for hearing. This measure also requires the Commissioner to retain a tax exempt organization to serve as the State Health Consumer Advocate to assist the Commissioner in carrying out the Commissioner's duties under chapter 432E, Hawaii Revised Statutes.

Your Committees have concerns that this measure establishes a dual system of dispute resolution for ERISA and non-ERISA managed care plans, and find that the issues raised herein require further review and discussion. Accordingly, your Committees have amended this measure by inserting an effective date of July 1, 2050.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 940, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 940, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Ige, Whalen).

SCRep. 590 Commerce, Consumer Protection and Housing on S.B. No. 1335

The purpose of this measure is to amend the landlord tenant code to explicitly prohibit the unlawful possession of dangerous, harmful, or detrimental drugs by the tenant or a person under the tenant's control.

The City and County of Honolulu Department of the Prosecuting Attorney, the Honolulu Police Department, and the Hawaii Association of Realtors submitted testimony in support of this measure. Comments were received from one individual.

This measure specifically:

- (1) Prohibits tenants and guests from unlawfully possessing dangerous, harmful, or detrimental drugs within the premises or the immediate vicinity of the dwelling unit. Noncompliance with this provision allows the landlord to immediately file a summary proceeding for possession;
- (2) Provides that a written notice or report issued by a government law enforcement officer or agency regarding the possession of unlawful drugs may be used as evidence in the summary proceeding in accordance with the Hawaii Rules of Evidence; and

- (3) Provides that the standard of proof for possessing unlawful drugs shall be by a preponderance of the evidence.

Your Committee has amended this measure by:

- (1) Requiring the written notice to include:
 - (a) A statement regarding the possession of the dangerous, harmful, or detrimental drug on the landlord's property;
 - (b) The specific date of the possession; and
 - (c) The name of the arresting officer; and
- (2) Making technical, nonsubstantive changes for the purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1335, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1335, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 591 Commerce, Consumer Protection and Housing on S.B. No. 798

The purpose of this measure is to facilitate the development of affordable housing in Hawaii through various strategies, including expanding the use of and prohibiting the raiding of special housing funds, streamlining the approval process, increasing conveyance tax allocations to the Rental Housing Trust Fund, and modifying standards for affordable housing projects.

Testimony in support of this measure was received from the Office of the Governor, Department of Taxation, Housing and Community Development Corporation of Hawaii, Department of Community Services of the City and County of Honolulu, Pacific Housing Assistance Corporation, The Nature Conservancy, Hawaii Association of Realtors, and The Affordable Housing and Homeless Alliance. The University of Hawaii and Life of the Land opposed the measure. The Land Use Research Foundation presented comments.

This measure establishes the Affordable Homes Act of 2005. Among other things, the Act:

- (1) Prohibits the raid of eight special housing funds;
- (2) Abolishes the Rental Housing Trust Fund Advisory Commission to avoid duplication in the review process for housing development applications;
- (3) Exempts from Land Use Commission approval affordable housing projects of fifty acres or less;
- (4) Changes the standard for an affordable housing project from one that requires the project to be primarily designed for lower income persons to one that requires the project provide a reasonable number of lower income housing units;
- (5) Permits the Dwelling Unit Revolving Fund to be used for permanent financing, in addition to interim financing; and
- (6) Permits for-profit entities to qualify for loans from the Rental Housing Trust Fund.

Your Committee has amended this measure:

- (1) To expand the time frame for completion of an affordable housing project claiming an exemption from general excise taxes, by extending the outside "start of construction" date from December 31, 2006 to June 30, 2007, and by extending the "completion" date from December 31, 2007 to June 30, 2009;
- (2) By amending the definition of "affordable housing units" to delete references to unit size specifications;
- (3) By amending the proposed standard for an affordable housing project from one that considers whether the project provides a "reasonable number" of lower income housing units to one that considers whether a project provides a certain percentage of lower income housing units;
- (4) With respect to the requirements for projects receiving preference under the Rental Housing Trust Fund Program, by removing specific percentages relating to:
 - (A) The total number of units the project must provide for persons with incomes at or below thirty per cent of the median family income; and
 - (B) The threshold median family income applicable to the requirement for the provision of the maximum number of units; and

- (5) By making technical amendments to reflect preferred drafting style and to correctly reflect the language of the Hawaii Revised Statutes.

Additionally, in order to facilitate further discussion and review of the issues raised in this measure, your Committee has inserted therein an effective date of July 1, 2050.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 798, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 798, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 592 (Joint) Media, Arts, Science and Technology and Transportation and Government Operations on S.B. No. 666

The purpose of this measure is to allow government agencies to create, accept, retain, or store electronic records and to convert their paper and microfilm records to electronic formats.

Your Committees received testimony in support of this measure from the Department of the Attorney General, the Department of Accounting and General Services, the Department of Defense, the Department of Human Resources Development, the Office of Information Practices, and the University of Hawaii.

Your Committees find that although many existing state laws require record retention by state and county agencies, the authorized storage methods are only paper, microfiche, or microfilm. Your Committees further find that Act 6, Session Laws of Hawaii 2002, authorized the supreme court to create and retain court case, fiscal, and administrative records in electronic format and to convert existing records to electronic form. Your Committees believe that by allowing all government agencies to store records in electronic format this measure will effectively reduce the significant paperwork and associated costs in the daily operations of state government.

Your Committees have amended this measure to clarify the disposal of government records. Your Committees also have amended this measure by making technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Transportation and Government Operations that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 666, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 666, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 3 (Baker, English, Kanno).

SCRep. 593 (Joint) Media, Arts, Science and Technology and Business and Economic Development on S.B. No. 1695

The purpose of this measure is to increase and authorize the issuance of contingent tax credits by the Hawaii Strategic Development Corporation, authorize the corporation to extend guarantees and incur debt, and authorize the corporation to transfer the credits as needed.

Testimony in support of this measure was submitted by the Department of Business, Economic Development, and Tourism; the Hawaii Strategic Development Corporation; Hawaii Venture Capital Association; Hawaii Technology Trade Association; Economic Development Alliance of Hawaii; and Oceanit.

Your Committees find that there is a critical shortage of seed and venture capital resources in the State, which emerging technology firms and expansion-oriented companies need to succeed. Your Committees support the intent of this measure, and find that increasing the amount of the authorized tax credits and the annual aggregate limit on the transfer of tax credits that may be claimed will more effectively attract new venture capital investments in Hawaii's emerging and expanding companies. Your Committees find, however, that this measure should incorporate the provisions of S.B. No. 720 with respect to the inclusion of insurance premium taxes as a tax for which credits may be provided. Your Committees believe this provision will add an additional pool of taxpayers to whom the credits may be sold, which will support additional investment in Hawaii's high growth businesses.

Your Committees have amended this measure by incorporating language from Senate Bill No. 720. As amended, this measure:

- (1) Increases the limitation on carry over tax credits, as allowed in Section 211G-12(c), Hawaii Revised Statutes, to not more than an aggregate total of \$20,000,000;
- (2) Includes insurance premium taxes on the list of taxes for which credits may be provided; and
- (3) Incorporates technical, non-substantive amendments for the purposes of style and clarity.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Business and Economic Development that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1695, as

amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1695, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, none. Excused, 3 (English, Ihara, Trimble).

SCRep. 594 Media, Arts, Science and Technology on S.B. No. 1794

The purpose of this measure is to appropriate funds to promote film and digital media production activity in the State.

Your Committee received testimony in support of this measure from the Big Island Film Office, Maui Film Office, and Kauai Film Office. Your Committee received comments from the Department of Business, Economic Development, and Tourism.

Your Committee finds that the film and digital media industry generates significant economic activity worldwide, prompting several countries to offer financial incentives to attract film and digital media productions. Your Committee believes Hawaii must take an active role to promote Hawaii as the world's premier tropical film location, which can double for a variety of looks and locations. Your Committee finds that this measure will help Hawaii attract film and digital media productions and keep pace with national and international competition.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1794 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ige).

SCRep. 595 Commerce, Consumer Protection and Housing on S.B. No. 1841

The purpose of this measure is to require all state and county agencies to give affordable housing projects priority in permit and approval review and issuing processes.

This measure also exempts county housing projects from statutes, ordinances, charter provisions, and rules.

Testimony in support of this measure was submitted by the Housing and Community Development Corporation of Hawaii, the Department of Planning and Permitting of the City and County of Honolulu, and the Pacific Housing Assistance Corporation. Testimony in opposition to this measure was submitted by the Sierra Club - Hawaii Chapter, and Life of the Land.

Your Committee finds that the current lack of supply of affordable housing throughout the State has created a great division among the residents of our State. Those with limited resources are especially vulnerable during this period as many are desperately in need of affordable housing. In relation to this problem is the myriad and complex land use permit processes faced by real estate development projects. Your Committee determines that giving affordable housing projects priority in the permitting process over other projects, excluding public health and safety projects, will help to alleviate the current affordable housing shortage problem.

Additionally, your Committee finds that additional efforts to increase the supply of affordable housing should also be explored, including the redevelopment and revitalization of residential lands. Although a deterrent to redevelopment is the cost of public facilities, as interest rates on moneys necessary to finance such public facilities add significantly to their costs and more favorable interest rates would be available through the issuance of tax-exempt bonds, the issuance of revenue bonds presents a viable option for such redevelopment. Therefore, your Committee believes that expanding the authority of the Hawaii Community Development Authority to finance projects beyond the boundaries of Kakaako to include projects throughout the entire State will facilitate the redevelopment of affordable residential units.

Finally, your Committee finds that another facet of the affordable housing problem is that there is a shortage of units which may be deemed affordable. Many homes or condominiums are purchased by individuals and entities from outside of the State, which further exacerbates the shortage problem. Residential properties utilized for investment purposes are often luxury vacation properties owned by wealthy individuals. Therefore, your Committee determines that the imposition of a luxury tax on investment properties that are not used as permanent residences will help to subsidize affordable housing projects throughout the State.

Accordingly, your Committee has amended this measure by:

- (1) Deleting the exemption for county housing projects from statutes, ordinances, charter provisions, and rules;
- (2) Including language from S.B. 1182, which authorizes the Hawaii Community Development Authority to issue revenue bonds to finance infrastructure improvements statewide;
- (3) Including language from S.B. 1181, which imposes a luxury tax on real property classified as improved residential but not having a homeowners exemption and not used as a permanent residence or rented, and appropriating these funds to the counties;
- (4) Changing the effective date of the Act to July 1, 2050, in order to facilitate further discussion on the matter; and
- (5) Making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1841, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1841, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 596 Commerce, Consumer Protection and Housing on S.B. No. 141

The purpose of this measure is to create an exemption for the development of workforce housing and affordable housing on leased residential lots.

Testimony in support of this measure was submitted by the Housing and Community Development Corporation of Hawaii, the Land Use Research Foundation of Hawaii, and Hawaii Reserves, Inc.

Your Committee finds that in Hawaii, the cost of living has been and continues to be high. A significant contributing factor to the high cost of living is the high cost of housing, which is in turn significantly impacted by the high cost of land. Chapter 516, Hawaii Revised Statutes, was enacted to address the shortage of fee simple residential land and the inflation of residential land values. Although it has helped to create more fee simple residential land, spiraling inflationary land values have severely negatively impacted the ability of Hawaii's workforce to afford home ownership. Your Committee determines that an exemption from the lease-to-fee conversion law for workforce and affordable housing leased on residential lots will create an attractive incentive for landowners to put land into affordable residential development on a long-term lease basis.

Accordingly, your Committee has amended this measure by:

- (1) Adding three new definitions for the terms "sustainable affordable development"; "sustainable affordable lease"; and "sustainable affordable lessee's share of appreciation";
- (2) Amending the language regarding the exemption to include that a sustainable affordable lease is exempt from part II of chapter 516, Hawaii Revised Statutes (HRS), sections 516-63, 516-65, and 516-66, HRS; and limiting the lessee's compensation under section 516-70, HRS, to the sustainable affordable lessee's share of appreciation;
- (3) Limiting the amendment to the exemption under chapter 519, HRS, to section 519-2; and
- (4) Making technical, nonsubstantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 141, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 141, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 597 Commerce, Consumer Protection and Housing on S.B. No. 702

The purpose of this measure is to update the antitrust laws governing mergers and acquisitions.

The Attorney General and ML Macadamia Nut Orchards, L.P. testified in support of this measure.

Current law prohibits certain acquisitions by and among corporations, but does not prohibit these transactions when one of the entities involved is not a corporation, but some other form of business entity. This limitation makes the legal process to challenge mergers and acquisitions more difficult and cumbersome.

This measure broadens the scope of the law to include its application to other business entities by expanding the definition of "person" to include various business entities, and amending the mergers and acquisitions law to apply to a person, rather than a corporation.

Additionally, this measure authorizes a court to award attorney's fees and costs to a prevailing party in actions brought to challenge a merger or acquisition, and repeals an obsolete provision. Your Committee finds that these amendments to the law will facilitate enforcement of the antitrust laws to the benefit of businesses and consumers.

Your Committee has amended this measure:

- (1) To authorize a court, in an action challenging a merger or acquisition, to order the divestiture or other disposition of a party's assets to eliminate the substantial lessening of competition or the tendency to create a monopoly;
- (2) To retain statutory language in the mergers and acquisition law relating to the "holding" of assets in order to continue to effect the legislature's intent in its establishment of the law; and

- (3) By making technical changes to reflect preferred drafting style and to correctly reflect the language of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 702, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 702, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Sakamoto).

SCRep. 598 Education and Military Affairs on S.B. No. 1869

The purpose of this measure is to appropriate funds for the Hawaii Civil Air Patrol for operational expenses.

Testimony in favor of the measure was submitted by the Department of Defense, Oahu Civil Defense Agency, Oahu Veterans Council, The Chamber of Commerce of Hawaii, and an individual.

Your Committee finds the Hawaii civil defense system, supported by the patrol, is crucial to the civil defense warning system for a tsunami. Additionally, the patrol performs other important missions for civil defense such as air reconnaissance, aerial damage assessments, inland search and rescue, and small cargo delivery.

Although the department raised funding concerns, your Committee has decided not to amend the measure but leave in the \$100,000 appropriation for further discussion.

As affirmed by the record of votes of the members of your Committee on Education and Military Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1869 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Vice Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Tsutsui).

SCRep. 599 Judiciary and Hawaiian Affairs on S.B. No. 557

The purpose of this measure is to institute better oversight and accountability with respect to role of custody evaluators in child custody and visitation determinations, regulate and defray the amount of fees charged by experts retained by the parties or the court, and conduct a review of the operations of the Hawaii Family Court.

Specifically, this measure:

- (1) Replaces custody evaluators with court appointed fact-finders who only report facts and do not make recommendations concerning child custody or visitation arrangements;
- (2) Establishes the Family First Revolving Funds to pay for the expenses of retaining and utilizing an expert in assisting a judge in a custody or visitation dispute; and
- (3) Enacts the Family Court Review Commission to conduct an unbiased and public review of the processes and procedures of the Hawaii Family Court, court appointed service providers, and other issues relating to case management in the Family Court, including increasing the use of alternative dispute resolution in family court proceedings.

Testimony in support of the measure was submitted by the Children's Rights Council, Domestic Violence Clearinghouse and Legal Hotline, Hawaii State Coalition Against Domestic Violence, and six individuals. The Judiciary offered comments on the measure.

Your Committee finds that better oversight regarding the performance of custody evaluators must be instituted. There is a concern that the recommendations of the custody evaluators are given too much weight by Family Court judges. Therefore, this measure amends the functions of custody evaluators by making them fact-finders. Further your Committee also finds that issues relating to the accountability of custody evaluators and other court appointed personnel warrant further review and discussion.

Your Committee has amended this measure by:

- (1) Endowing the Family Court with the authority to order the parties to pay for all or a portion of the fees charged by an expert or a person retained by a party or the court, as opposed to utilizing the Family First Revolving Fund as the exclusive source of compensation for payment of these fees; and
- (2) Removing the Family Court Review Commission from this measure in response to concerns voiced by the Judiciary with respect to a potential separation of powers violation by the Legislature in requiring the Judiciary to administer and conduct an audit of the Judiciary's internal processes, procedures, and personnel. Your Committee recommends that the Committee on Ways and Means obtain a legal opinion from the Senate Majority Office on this issue before proceeding.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 557, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 557, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 600 Judiciary and Hawaiian Affairs on S.B. No. 708

The purpose of this measure is to amend laws governing the registration of sex offenders and offenders against children and allowing the public to access information relating to those offenders.

Specifically, this measure:

- (1) Establishes separate registries for sex offenders and offenders against children;
- (2) Complies with the requirements of the federal Wetterling Act by providing that sexually violent predators, repeat offenders, and offenders who commit aggravated sexual offenses may not terminate their registration requirements;
- (3) Enables certain offenders, who no longer pose a danger to the public, to petition a court for the termination of their registration and public access requirements after a specified period of time has elapsed;
- (4) Establishes tolling provisions that allow for the tolling of registration and public access requirements during periods of subsequent imprisonment or confinement;
- (5) Replaces pre-access hearings with the right to post-access hearings for offenders seeking to end public access as the duration and nature of the public access is based on the level of the offense committed;
- (6) Establishes procedures for the court to determine, based upon an evaluation for mental abnormality or personality disorder conducted by an expert, whether the offender is a sexually violent predator; and
- (7) Makes an appropriation for county and state personnel assisting in implementing and administering registration and public access procedures.

Testimony in support of the measure was submitted by the Department of the Attorney General, the Department of the Prosecuting Attorney for the City and County of Honolulu, the Honolulu Police Department, the Sex Abuse Treatment Center, and Kalani Iki Neighborhood Board #2. Testimony in opposition to the measure was submitted by the Office of the Public Defender and the ACLU of Hawaii.

Your Committee finds that establishing a proper balance between upholding the public's right to access information on registered offenders and an offender's due process rights is a challenging task that this measure seeks to accomplish.

Your Committee has amended this measure by:

- (1) Allowing for the automatic termination of registration requirements for specific offenses or based upon a class of felony for which the covered offender was convicted of and upon the expiration of a specified time period;
- (2) Establishing presumptions that must be applied by a court in a civil proceeding to determine the appropriate level of access and identifying information that must be made available to the public regarding a covered offender;
- (3) Determining both the scope and nature of information that must be made available to the public as part of the registration and public access requirement;
- (4) Delineating the covered offenders that are subject to public Internet access as well as covered offenders that are subject to on-site public access at a police station and the duration of this access;
- (5) Allowing a covered offender to petition the court to limit, modify, or terminate public access if the covered offender is able to satisfy specific statutory criteria by a preponderance of the evidence;
- (6) Allowing the Attorney General to file an objection challenging the automatic termination of covered offender registration and public access requirements placed on a covered offender; and
- (7) Making technical, non-substantive changes for purposes of clarity.

Your Committee has amended this measure in response to concerns voiced by the Department of the Attorney General and the Office of the Public Defender. This measure, which incorporates suggestions made by both offices, strikes the proper balance with respect to upholding the public's right, under the Hawaii Constitution, to access information on covered offenders and protecting the due process and privacy rights of covered offenders.

Your Committee also incorporated some of the suggestions made by the Attorney General by including a "sexually violent predator" within the measure with respect to registration and public access provisions in order to comply with the federal Wetterling

Act requirements. Your Committee has also made technical, non-substantive amendments with respect to the calculation or “running” of certain time periods for purposes of clarity.

However, your Committee has chosen not to adopt the suggestions made by the Attorney General with respect to defining “aggravated sexual offense” to mean one sexual offense. This term currently encompasses the following offenses: an act of sexual penetration; more than one sexual offense with a victim under the age of twelve; and an act of penetration with a victim under the age of fourteen. A person may commit the offense of “aggravated sexual assault” under this measure with the commission of just one sexual offense.

Your Committee has also chosen not to amend the type of information regarding street address information for an offender based upon the level of dangerousness of the offender as advocated by the Attorney General. This type of “dangerousness” determination is clearly set forth in regard to the types of offenders that are subject to registration requirements, the length of time that these offenders must be registered, and the type of information that is available to the public both on the Internet and at a police station.

Finally, your Committee has chosen not to remove the provisions relating to the presumptions a court must apply with respect to covered offenders based upon claims of unfairness to the government. The basis for enacting a sex offender registration is not one of fairness to the government, but of properly balancing the rights of offenders and the community. Fairness to government should not be included as part of this determination.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 708, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 708, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 601 (Joint) Judiciary and Hawaiian Affairs and Human Services on S.B. No. 1775

The purpose of this measure is to provide a child-friendly visitation center at any correctional facility to facilitate appropriate child visitation with incarcerated parents. This measure also authorizes the issuance of general obligation bonds for the construction and design of child-friendly visitation centers at these facilities.

Testimony in support of this measure was submitted by the Department of Public Safety, Good Beginnings Alliance, Blueprint for Change, Hawaii Coalition for Dads, Hawaii Juvenile Justice Project, Hawaii Youth Services Network, and two individuals.

Your Committees find that studies indicate that children of incarcerated individuals suffer from a multitude of negative consequences when they are separated from that parent at a young age. It is vital that an environment be developed and nurtured within a prison setting that fosters the development of emotional, psychological, and communication skills in both the parent and child.

Your Committees have amended this measure by:

- (1) Expanding the availability of this child-friendly visitation center to include both male and female correctional facilities;
- (2) Appropriating funds for two consecutive fiscal years for the planning and design of child-friendly visitation facilities; and
- (3) Removing the establishment of a task force designed to assist the Department of Public Safety in making recommendations regarding the development of these child-friendly facilities.

As affirmed by the records of votes of the members of your Committees on Judiciary and Hawaiian Affairs and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1775, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1775, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 8. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 602 (Joint/Majority) Health and Human Services on S.B. No. 491

The purpose of this measure is to establish the Physical Activity and Nutrition Coalition Task Force for the State.

The American Heart Association, American Academy of Pediatrics, American Cancer Society, Kapi`olani Medical Center for Women & Children, Hawaii Medical Services Association, and Papa Ola Lokahi submitted testimony in support of this measure. The Department of Education submitted testimony in opposition. The Department of Health submitted comments.

Your Committees find that obesity is considered to be the major health issue of the twenty-first century. People who are overweight or obese are at risk for numerous health conditions including type two diabetes, hypertension, cardiovascular disease, dyslipidemia, some types of cancer, gallstones, osteoarthritis, rheumatoid arthritis, premature death, sleep apnea, and respiratory problems, as well as poorer physical functioning status and lower life expectancy.

Obesity rates have soared throughout the United States, with approximately one-third of the adult population in Hawaii self-reporting that they are overweight. Obesity in childhood is a predicator for obesity in adulthood. The number of overweight children in the United States has doubled in the past thirty years.

Obesity is a problem that needs to be addressed on a variety of levels. While increasing physical activity and developing habits of proper nutrition are considered effective methods for curbing rates of obesity, Hawaii does not yet have a plan to put such strategies into place. A physical activity and nutrition coalition task force can develop a state nutrition and physical activity plan to address obesity in Hawaii and can be central in supporting physical activity and proper nutrition for its residents.

Your Committees have amended this measure by:

- (1) Defining the scope as obesity in children and adults in Hawaii;
- (2) Having the task force members appointed by the Governor;
- (3) Including a representative of the American Cancer Society as one of the task force members; and
- (4) Directing the task force to submit its findings and recommendations no later than twenty days prior to the convening of the regular session of the legislature beginning in 2006.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 491, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 491, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 603 (Joint/Majority) Human Services and Judiciary and Hawaiian Affairs on S.B. No. 790

The purpose of this measure is to authorize the Departments of Health and Human Services to establish standards for conducting criminal background checks on all current and prospective individuals, including adult volunteers, who provide care and other social services to the frail, elderly, or the disabled adult residents of care facilities.

Testimony in support of this measure was submitted by the Department of Health, the Department of Human Services, the Healthcare Association of Hawaii, the Hawaii Coalition of Care Home Administrators, the Hawaii Long Term Care Association, the Kokua Council, and three individuals.

Your Committees find that background checks should be conducted to ensure the reputable and responsible character of service provider employees who have direct contact with elderly and disabled individuals.

Your Committees have amended this measure by:

- (1) Requiring that background checks only be conducted on prospective or future employees of health care facilities that serve elderly and disabled individuals;
- (2) Clarifying that these background checks encompass individuals providing services to the Adult and Community Care Services Branch clients of the Department of Human Services; and
- (2) Making the effective date defective in order to promote continuing discussion on this matter.

Your Committees have serious concerns with this measure in light of numerous unresolved issues relating to the liability of the State for authorizing and conducting background checks on the employees of private entities, the scope of immunity, if any, afforded to the State given that the immunity provisions are rebuttable, as well as other issues relating to the administration and implementation of this program. However, your Committees have decided to move this measure forward, thereby providing the Departments of Health and Human Services additional time to resolve the concerns of your Committees.

As affirmed by the records of votes of the members of your Committees on Human Services and Judiciary and Hawaiian Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 790, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 790, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, 2 (English, Hee). Excused, 2 (Kokubun, Trimble).

SCRep. 604 Human Services on S.B. No. 1620

The purpose of this measure is to provide treatment services for child victims of intrafamilial sexual abuse.

Testimony in support of this measure was submitted by the Judiciary, Family and Therapeutic Services and the Safe and Sound program of Catholic Charities Hawaii, and three individuals.

Your Committee finds that helping child victims of intrafamilial sexual abuse receive the mental health treatment they need is an important component of victim advocacy. This measure appropriates the necessary funds for intrafamilial sexual abuse treatment services. Specifically, the services include psychological treatment and case management services for child victims and their families who are not covered under the child protective services system of the Department of Human Services.

Your Committee has amended this measure by:

- (1) Changing the appropriation amount from \$200,000 to \$314,381 to add an additional therapist and outreach worker. The two positions will allow the Safe and Sound program to increase its services by fifty per cent, which amounts to approximately seventy-five to one hundred additional clients per year; and
- (2) Appropriating the same sum for fiscal year 2006-2007.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1620, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1620, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 605 Judiciary and Hawaiian Affairs on S.B. No. 145

The purpose of this measure is to amend various provisions of the Hawaii Revised Statutes and the Session Laws of Hawaii pursuant to chapter 23G, Hawaii Revised Statutes, to correct errors, update references, clarify language, and delete obsolete or unnecessary language.

Your Committee finds that all of the statutory amendments proposed by the measure are of a purely technical nature and either contain no substantive changes to the law, or, if they have any substantive effect, are done simply to correct the types of errors noted in this report.

Your Committee finds the reasons for the respective technical amendments made in the bill are as follows:

Section 1. Section 26-6(b), HRS, contains two sets of paragraphs numbered (1) to (10) and (1) to (4), respectively. Referencing or citing these paragraphs causes ambiguity because, for example, a reference to “section 26-6(b)(1)” could mean either of two paragraphs numbered “(1)”.

Section 26-6(b), HRS, should be amended by designating the second set of paragraphs (1) to (4) as subsection (c) and redesignating the existing subsections (c) thru (e) as subsections (d) thru (f) to eliminate the ambiguity.

Section 2. L 2004, c 93 transferred all rights, powers, functions, and duties relating to the administration of chapter 467B, HRS, from the department of commerce and consumer affairs to the department of the attorney general. Section 467B-12, HRS, as amended by section 12 of Act 93, now provides that every fundraising counsel or professional solicitor, prior to any solicitation, must file a registration statement accompanied by a \$250 fee with the attorney general.

Section 26-9(o), HRS, currently provides in part that every person registered under chapter 467B shall pay a fee to the department of commerce and consumer affairs for deposit into the compliance resolution fund. As L 2004, c 93 transferred the collection of fees for chapter 467B, HRS, from the department of commerce and consumer affairs to the department of the attorney general, the reference to “chapter 467B” in section 26-9(o), HRS, should be deleted.

In addition, the penultimate paragraph in section 26-9(o), HRS, provides in part that ““compliance resolution” means a determination of whether...(5) any person subject to chapter 467B has complied with that chapter....” Again, as L 2004, c 93 transferred all rights, powers, functions and duties of the department of commerce and consumer affairs relating to the administration of chapter 467B, HRS, to the department of the attorney general, the penultimate paragraph in section 26-9(o), HRS, should be amended by deleting subparagraph (5) and its reference to any person subject to chapter 467B, HRS.

Section 3. L 2004, c 128 amended §76-16(b)(16), HRS, by making a style change that created subparagraphs that make the department of education’s positions of administrative assistant to the state librarian and administrative assistant to the superintendent of education appear to be part of the department of health.

Section 76-16(b), HRS, should be amended to restore paragraph (16) to its original form to remove any ambiguity in the separate departmental positions.

Section 4. L 2004, c 16 amended section 26-35, HRS, by designating the existing language of the section as subsection (a) and adding a subsection (b) providing sovereign immunity for every board or commission established or placed within a state department. Act 16 also made a conforming amendment to section 201B-5, HRS, by adding the subsection (a) designation to the section 26-35, HRS, reference, and in doing so, excludes the applicability of sovereign immunity for the Hawaii tourism authority.

Section 201B-5 should be amended to include reference to the new subsection (b).

Section 5. When section 243-4(c)(3), HRS, was last amended by L 1971, c 51, which added, among other things, the phrase “the tax as provided by paragraphs (1) and (2) of this section”. It appears that this phrase was intended to apply to paragraphs (1) and (2) of subsection (c) and not to paragraphs (1) and (2) of subsections (a) or (b). To correct this ambiguity, section 243-4(c)(3), HRS, should be amended to substitute the word “subsection” for “section”.

Section 6. When L 2004, c 216, §30 amended section 245-23, HRS, by deleting the exemption of the tax department from the requirements of chapter 103D relating to procurement, it failed to make a conforming amendment to the section heading of section 245-23, HRS, to reflect this change.

Section 245-23, HRS, should be amended by deleting the word “procurement” from the section heading to make it consistent with the section as amended by L 2004, c 216, §30.

Section 7. When 249-31, HRS, was amended by L 2004, c 158, §3, the existing text of the section was designated as subsection (a) and a new subsection (b) was added. Subsection (b) directed that the moneys collected from each annual motor vehicle registration fee should go into two separate funds -- the state highway fund and the emergency medical services special fund. However, subsection (a) was not amended to conform to the new funding directives of subsection (b), as it still requires all proceeds to be paid into the state highway fund.

To conform, section 249-31(a), HRS, should be amended by deleting the phrase “to be paid into the state highway fund” to eliminate the conflict with subsection (b).

Also in section 249-31(a), HRS, the reference to “sections 249-3 to 249-6” is changed to “sections 249-4 and 249-6” to remove obsolete references to section 249-3, 249-3.5, and 249-5, HRS, which were repealed by L 1995, c 164, §§5 to 7.

Section 8. L 2004, c 216, part III repeals statutory exemptions from chapter 103D effective January 1, 2005. Section 255D-4, HRS, authorizes the department of taxation to enter into the streamlined sales and use tax cooperative agreement with member states. When section 255D-4, HRS, was amended by Act 216, §31, by removing the phrase “and the joint procurement not subject to chapter 103D”, that modified “with other member states, of goods and services in furtherance of the cooperative agreement”, the sentence became incomplete.

Section 255D-4, HRS, should be amended by restoring the deleted phrase.

Section 9. L 2004, c 199, §2 amended section 271-38, HRS, by adding reference to “section 271-19” to the list of sections the department of transportation shall assign a motor vehicle safety officer to enforce the motor carrier law when requested to do so by the public utilities commission. The definition of “enforcement officer” in section 269-1, HRS, currently does not include “section 271-19” as one of sections the department of transportation assigns a motor vehicle safety officer to enforce the motor carrier law when requested to do so by the public utilities commission.

Section 269-1, HRS, should be amended by adding the reference to “section 271-19” to conform to the amendment of section 271-38, HRS, by L 2004, c 199, §2.

Section 10. L 2001, c 88, §§3 and 10(1) repealed chapter 87, HRS, the Hawaii “public employees health fund” law and replaced it with chapter 87A, HRS, relating to the “Hawaii employer-union health benefits trust fund”.

Section 269-2(b), HRS, still contains reference to the repealed chapter 87, HRS. Section 269-2(b), HRS, should be amended to change repealed chapter 87, HRS, to chapter 87A, HRS.

Section 11. Section 269-17.5(b), HRS, contains the term “United States Immigration and Naturalization Services”. The Homeland Security Act of 2002, signed by the President on November 25, 2002, transferred the Immigration and Naturalization Services to the new Department of Homeland Security, with immigration service functions placed into a new United States Citizenship and Immigration Services.

Section 269-17.5(b), HRS, should thus be amended by replacing “United States Immigration and Naturalization Services” with the new “United States Citizenship and Immigration Services.”

Section 12. L 2004, c 199, §2 amended section 271-38, HRS, by adding “section 271-19” to the list of sections the department of transportation shall assign a motor vehicle safety officer to enforce the motor carrier law when requested to do so by the public utilities commission. The definition of “enforcement officer” in section 271-4(15), HRS, currently does not include “section 271-19” as one of sections the department of transportation assigns a motor vehicle safety officer to enforce the motor carrier law when requested to do so by the public utilities commission.

Section 271-4(15), HRS, should be amended by adding the reference to “section 271-19” to conform to the amendment of section 271-38, HRS, by L 2004, c 199, §2.

Section 13. Paragraph (7) of section 302A-433, HRS, contains the term “United States Immigration and Naturalization Service”. The Homeland Security Act of 2002, signed by the President on November 25, 2002, transferred the Immigration and Naturalization Services to the new Department of Homeland Security, with immigration service functions placed into a new United States Citizenship and Immigration Services.

Section 302A-433(7), HRS, should thus be amended by replacing “United States Immigration and Naturalization Service” with the new “United States Citizenship and Immigration Services.”

Section 14. Section 302A-1185(c)(2)(B), HRS, as amended by L 2004, c 132, §1, provides that “[a]n accounting of the percentage of student enrollment who transferred from public schools...shall also be submitted by the charter school administrative office to the legislature *no later than twenty days of each regular session*”. The words “prior to the convening” appear to have been inadvertently omitted after “twenty days”.

In addition, section 302A-1185(c)(3), HRS, is missing the word “provide” before “[t]he remaining ten per cent per pupil allocation for a new century charter school no later than January 1 of each year as a contingency balance to ensure fiscal responsibility.”

Section 302A-1185(c)(2)(B) and (c)(3) should be amended to include the missing words.

Section 15. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires

Section 327G-3(c), HRS, relating to advance mental health care directives, should be amended by substituting the word “guardian” for “guardian of the person” to make it consistent with the term as amended by Act 161 and as defined in section 327G-2, HRS.

Section 16. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires.

Section 327G-9(a), HRS, relating to advance mental health care directives, should be amended by substituting the word “guardian” for “guardian of the person” to make it consistent with the term as amended by Act 161 and as defined in section 327G-2, HRS.

Section 17. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires.

Section 327G-14(5), HRS, relating to advance mental health care directives, should be amended by substituting the word “guardian” for “guardian of the person” to make it consistent with the term as amended by Act 161 and as defined in section 327G-2, HRS.

Section 18. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires.

Section 333F-1, HRS, relating to services for persons with developmental disabilities or mental retardation, should be amended by substituting the word “guardian” for “guardian of the person” to make it consistent with the term as amended by Act 161.

Section 19. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires.

Section 333F-11(b), HRS, relating to services for persons with developmental disabilities or mental retardation, should be amended by substituting the word “guardian” for “guardian of the person” to make it consistent with the term as amended by Act 161.

Section 20. L 2004, c 47, created the Rx plus preferred drug list, codified as section 346-312.5, HRS. Subsection (d)(4) refers to the “America Medical Association Drug Evaluations”. The correct term is “American Medical Association Drug Evaluations”.

Section 346-312.5(d)(4), HRS, should be amended by changing the term “America Medical Association Drug Evaluations” to “American Medical Association Drug Evaluations”.

Section 21. L 2004, c 161, §12, amended the text, but not the heading of section 353-25, HRS, by replacing the term “guardian” with “conservator”.

Section 353-25, HRS, should be amended by replacing the word “guardian” with “conservator” in the section heading to conform with the section as amended by Act 161.

Section 22. L 2004, c 161, §13, amended section 353-26, HRS, by replacing the term “guardian” with “conservator”.

Section 353-26, HRS, should be amended by replacing the word “guardian” with “conservator”, to conform the section as amended by Act 161.

Section 23. L 2004, c 44, §10, amended section 353-66(f), HRS, by replacing the term “drug treatment program” with “substance abuse treatment program”. However, the second sentence still contains the term “substance abuse program”.

Section 353-66(f), HRS, should be amended by replacing the term “substance abuse program” with “substance abuse treatment program”, to conform the subsection as amended by Act 44.

Section 24. L 2004, c 171, §3, enacted section 414D-233, HRS. Section 414D-233(a), HRS, refers to the “director”. There is no definition of “director” in chapter 414D, HRS. The chapter defines a “department director” as the director of commerce and consumer affairs.

Section 414D-233(a), HRS, should be amended by deleting the brackets around “department” to ratify the revisor’s insertion of “department” before “director” to conform to the definition provided in chapter 414D.

Section 25. Section 467B-2, HRS, relating to filing requirements for charitable organizations, was repealed by Act 120, Session Laws of Hawaii 1996. In section 431:10-202, HRS, of the Insurance Code, the definition of an “insurable interest” contains reference to a charitable organization “as defined in section 467B-1 and registered under section 467B-2”. Reference to registration under repealed section 467B-2 should be deleted.

Section 431:10-202, HRS, as a definitional section, was also amended by deleting the subsection designations and formatting the definitions to conform to the style used in the Hawaii Revised Statutes.

Section 26. Section 431:10C-109(c), HRS, contains reference to section 607-17, HRS, relating to attorney’s fees provided in promissory notes or contracts. Section 607-17, HRS, was repealed by Act 200, Session Laws of Hawaii 1993. Act 200 added provisions for these circumstances to section 607-14, HRS, which is already referenced in section 431:10C-109(c), HRS.

Section 431:10C-109(c), HRS, should be amended by deleting reference to the repealed section 607-17, HRS.

Section 27. The motor vehicle insurance administration revolving fund was repealed by Act 163, Session Laws of Hawaii 1999. Act 163 also established the insurance regulation fund and transferred unencumbered balances from the motor vehicle insurance administration revolving fund to the insurance regulation fund.

Section 431:10C-307.8(d), HRS, still states that funding for the insurance fraud investigations unit shall come from the repealed motor vehicle insurance administration revolving fund. The insurance commissioner is now authorized to expend moneys from the compliance resolution fund for investigators and other personnel (section 431:2-215(b), HRS). Section 431:10C-307.8, HRS, should thus be amended by repealing obsolete subsection (d).

Section 28. Article 17 of the Insurance Code (the Insurance Information Protection Act) was repealed by Act 339, Session Laws of Hawaii 1993. Article 17 regulated the use and disclosure of personal information obtained by an insurance company when an insurance policy was required in connection with a loan agreement. Current law on protection of consumer financial information is found in article 3A, which applies to all insurers licensed or authorized to do business in the State.

Section 431:19-102.2(b), HRS, still contains reference to repealed article 17. Section 431:19-102.2(b), HRS, should be amended by deleting reference to repealed article 17 and making other minor changes to conform to the style used in the Hawaii Revised Statutes.

Section 29. Act 253, Session Laws of Hawaii 2000, repealed chapter 77, HRS. Section 431P-3(h), HRS, still contains reference to this repealed chapter.

Section 431P-3(h), HRS, should be amended by deleting reference to repealed chapter 77.

Section 30. Act 169, Session Laws of Hawaii 1999, repealed chapter 327D, HRS, relating to medical treatment decisions, and enacted chapter 327E, HRS, the Uniform Health-Care Decisions Act in its place.

Section 432E-4(c), HRS, still contains reference to the repealed chapter 327D. Section 432E-4(c), HRS, should be amended by substituting the reference to chapter 327D, HRS, with chapter 327E, HRS. Section 432E-4(c), HRS, should also be amended by replacing the term “living wills” with “advanced health-care directives” to conform to the terminology found in chapter 327E.

Section 31. Section 453D-12(a)(9), HRS, states that “violating any condition or limitation upon which a condition or temporary license was issued” may be grounds for the director of commerce and consumer affairs to revoke, suspend, deny, or refuse to renew, etc., a mental health counselor license. Subsection (a)(9) should read “violating any condition or limitation upon which a conditional or temporary license was issued” [Emphasis added].

Section 453D-12(a)(9), HRS, should be amended to correct this typographical error.

Section 32. The last paragraph of section 461-11.5, HRS, as enacted by L 2004, c 190, §5, provided that “Nothing in this subsection shall be construed....” Section 461-11.5, HRS, does not contain any subsections.

Section 461-11.5, HRS, should be amended by deleting the brackets around “section” to ratify the revisor’s substitution of “section” for “subsection” to make proper reference.

Section 33. L 2001, c 68, §2 amended section 478-8(b), HRS, by adding paragraph (6). The first sentence of paragraph (6) provided that “Indebtedness secured by a time share interest defined in 514E-1....” The revisor added the missing word “section” before “514E-1.” The second sentence of paragraph (6) also provided that “This subsection shall not be deemed to....” The revisor changed the word “subsection” to “paragraph” to properly reflect reference to paragraph (6).

Section 478-8(b)(6), HRS, should be amended by deleting the brackets around the words “section” and “paragraph” to ratify the revisor’s insertion of those words for proper reference.

Section 34. L 1991, c 153, §2 added section 486-36 to chapter 486, HRS. The third sentence of the penultimate paragraph of section 486-36(1), HRS, provided that “After a hearing pursuant to this subsection....” As section 486-36(1), HRS, is a paragraph rather than a subsection, the revisor replaced the word “subsection” with “paragraph.”

Section 486-36(1), HRS, should be amended by deleting the brackets around “paragraph” to ratify the revisor’s insertion of that word for proper reference.

Section 35. Prior to amendment by L 1998, c 219, §12, section 507-46, HRS, was one continuous paragraph. When amended by Act 219, paragraphs (1) to (3), contained in the first proviso, for priority of liens for claims filed by certain persons for wages for labor performed in the completion of the improvement, were block indented along with the second proviso. The second proviso should not have been continued as blocked text under paragraph (3).

Section 507-46, HRS, should be amended by moving the proviso in paragraph (3) out to the left margin so that it will not appear to be included in that paragraph.

Section 36. L 2004, c 161 §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires.

Section 551A-2, HRS, relating to the office of the public guardian, contain the terms “guardian of the person” and “guardians of the person” in subsections (c), (d), and (f), but Act 161 only amended subsection (a).

Subsections (c), (d), and (f) of section 551A-2, HRS, should be amended by substituting the word “guardian” for “guardian of the person” and “guardians” for “guardians of the person” to conform those terms consistent as amended by Act 161.

Section 37. Article V of chapter 560, was amended by L 2004, c 161, §1, by adding four new parts. In article V, section 560:5-409(d), HRS, reference is made to the “determination of incapacity of the protected person under article 3”. Guardianship of incapacitated persons falls under “part 3” of article V.

Section 560:5-409(d), HRS, should be amended by changing a protected person under “article 3” to a protected person under “part 3”.

Section 38. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires.

Section 560:5-601, HRS, relating to the sterilization rights of incapacitated persons, should be amended by substituting the word “guardian” for “guardian of the person” in the definition of “ward” to conform the term as amended by Act 161.

Section 39. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardian” wherever the term “guardian of the person”, or like term, appears, as the context requires, and by substituting the word “conservator” wherever the term “guardian of the property”, or like term, appears, as the context requires.

Section 560:6-101, HRS, relating to nonprobate transfers, should be amended by substituting the word “guardian” for “guardian of the person” and “conservator” for “guardian of the property” in the definition of “party” to conform those terms as amended by Act 161.

Section 40. L 2004, c 161, §36 amended various sections of the Hawaii Revised Statutes by substituting the word “guardianship” wherever the term “guardianship of the person”, or like term, appears, as the context requires.

Section 571-2, HRS, relating to the family courts, should be amended by substituting the word “guardianship” for “guardianship of the person” in the definition of “guardianship of a minor” to conform the term as amended by Act 161.

Section 41. Section 578-8(c), HRS, contains the term “United States Immigration and Naturalization Service”. The Homeland Security Act of 2002, signed by the President on November 25, 2002, transferred the Immigration and Naturalization Services to the new Department of Homeland Security, with immigration service functions placed into a new United States Citizenship and Immigration Services.

Section 578-8(c), HRS, should thus be amended by replacing “United States Immigration and Naturalization Service” with the new “United States Citizenship and Immigration Services.”

Section 42. L 2004, c 231, §§1 and 2 amended sections 601-3.7(a) and 607-4(a), HRS, respectively, to provide that in addition to the fees collected for administrative costs associated with the processing of civil filings under section 607-4(b)(10), HRS, one half of fees collected for administrative costs associated with the processing of traffic citations under paragraphs (7), (8), and (9) of section 607-4(b), HRS, also be deposited in the judiciary computer system special fund. However, when amending section 607-4(a), HRS, L 2004, c 231, §2 deleted “subsection (b)(10)” when it added the phrase “one half of the fees collected pursuant to paragraphs (7), (8), and (9) of subsection (b)”.

Section 607-4(a), HRS, should thus be amended by restoring the reference to section 607-4(b)(10), HRS, to make it consistent with section 601-3.7(a), HRS, as amended.

Section 43. When enacted by L 2004, c 119, §2, the word “rejected” was inadvertently omitted in the last sentence of section 672E-5(a), HRS, (“the settlement offer shall be deemed _____.”). Also, the word “provide” was inadvertently omitted in subsection (b) (“the claimant shall _____ unfettered access to perform and complete....”). The prior draft of this Act contained both words.

Section 672E-5, HRS should be amended by deleting the brackets around “rejected” and “provide” to ratify the revisor’s insertion of these omitted terms.

Section 44. L 2003, c 214, §5 provides that “upon the Internal Revenue Service’s determination that Hawaii 3R’s is a qualified nonprofit organization under section 501(c)(3) of the Internal Revenue Code, Act 309, Session Laws of Hawaii 2001, is amended by

repealing section 3 [codified as §302A-1502.5].” Hawaii 3R’s has received notification from the Internal Revenue Service by letter dated April 3, 2003, of determination as a qualified nonprofit organization under section 501(c)(3).

Section 302A-1502.5, HRS, should thus be formally repealed to remove this now obsolete law from the books.

Section 45. L 2003, c 80, §2 amended L 2000, c 39, §4 by extending the repeal and reenactment of section 514A-90, HRS, from December 31, 2003 to December 31, 2007. However, L 2003, c 53, §3 provides that the amendments made to section 514A-90(b), HRS, by Act 53, “shall not be repealed when section 514A-90 is reenacted on December 31, 2003, pursuant to section 4 of Act 39, Session Laws of Hawaii 2000”.

L 2003, c 53, §3 should be amended to change the repeal and reenactment date of December 31, 2003 to December 31, 2007, to make it consistent with the date as amended by L 2003, c 80, §2.

Section 46. L 2004, c 10, §7 made a technical amendment to section 201B-2, HRS, which was intended to be permanent. However, Act 10 does not exempt this amendment to section 201B-2, HRS, from the June 30, 2007, repeal and reenactment provision contained in a later Act, L 2004, c 58, §14(2).

L 2004, c 10, §18 should therefore be amended to exempt Act 10’s amendment to section 201B-2, HRS, from the repeal and reenactment provision of L 2004, c 58, §14(2).

Section 47. The prefatory language of L 2004, c 29, §2 states that “section (b)” of section 163D-3, HRS, is amended.

To eliminate any possible ambiguity, the prefatory language of L 2004, c 29, §2 should be amended to state that “subsection (b)” of section 163D-3, HRS, was amended.

Section 48. The prefatory language of L 2004, c 51, §6 provides that “Section 302A, Hawaii Revised Statutes, is amended...”, and sets out section 302A-101, HRS.

To eliminate any possible ambiguity, the prefatory language of L 2004, c 51, §6 should be amended to state that “section 302A-101” was amended.

Section 49. L 2004, c 57, §5, amended section 28-8.3, HRS, by adding the office of elections and the campaign spending commission to the list of agencies allowed to employ or retain attorneys under section 28-8.3, HRS. However, Act 57 did not exempt these amendments to section 28-8.3, HRS, from the repeal and reenactment provision of L 2004, c 58, §14(2) on June 30, 2007, which would cause the office of elections’ and the campaign spending commission ’s authority to employ attorneys to lapse on that date.

Section 17 of L 2004, c 57, should be amended to exempt the amendments made to section 28-8.3, HRS, by L 2004, c 57, §5, from the repeal and reenactment provision of L 2004, c 58, §14(2).

Section 50. L 2004, c 58 amended sections 28-8.3, 40-1, 40-4, 40-6, 201B-2, and 201B-11, HRS, to, among other things, allow the Hawaii Tourism Authority to hire private attorneys and appoint a sports coordinator, require the Authority to deposit interest and revenues from any project into the tourism special fund, and exempt the Authority from state audit and accounting requirements.

Act 58 took effect on May 6, 2004. Pursuant to Act 58, §14(2), Act 58 is repealed on June 30, 2007, and sections 28-8.3, 40-1, 40-4, 40-6, 201B-2, and 201B-11, HRS, are reenacted in the form in which they read on June 29, 2005.

Pursuant to L 1998, c 115, §24, sections 40-1, 40-4, and 40-6, HRS, are subject to repeal on June 30, 2005, and reenactment in the form in which they read on June 30, 1986. The repeal and reenactment provision of L 1998, c 115 affects the University of Hawaii and the department of education. Thus, on June 30, 2005, references to the University of Hawaii and the department of education are deleted from sections 40-1, 40-4, and 40-6, HRS.

L 2004, c 58, §14(1) exempted Act 58’s amendments to sections 40-1, 40-4, and 40-6 from L 1998, c 115, §24’s repeal and reenactment. Consequently, on June 30, 2005, L 2004, c 58’s amendments affecting the Hawaii Tourism Authority will be retained.

However, if, as presently provided by L 2004, c 58, §14(2), on June 30, 2007, sections 28-8.3, 40-1, 40-4, 40-6, 201B-2, and 201B-11 are reenacted to the form in which they read on June 29, 2005, the amendments affecting not only the Hawaii Tourism Authority, but also the University of Hawaii and the department of education will be retained in sections 40-1, 40-4, and 40-6.

Act 58 should be amended to remedy this apparent inadvertent error, so that the amendments affecting the Hawaii Tourism Authority, the University of Hawaii, and the department of education are all deleted when Act 58 is repealed on June 30, 2007.

Section 51. L 2004, c 141, established the “One Call Center,” codified as chapter 269E, and made conforming amendments to sections 269-30 and 269-33, HRS. Act 141 is repealed on June 30, 2009. However, Act 141 did not provide for the reenactment of sections 269-30 and 269-33, HRS, when the Act 141 amendments are repealed on June 30, 2009. This leaves it open to question as to whether only the 2004 amendments will be repealed, or the underlying statutes as well.

To eliminate this ambiguity, L 2004, c 141, §7 should be amended to reenact sections 269-30 and 269-33, HRS, in the form in which they read prior to the L 2004, c 141 amendments.

Section 52. L 2004, c 190, §6, added eight new definitions to section 461-1, HRS, to be repealed on July 1, 2010. Act 190, §6 provided that section 461-1, HRS, was to be reenacted in the form it read on the day before the effective date of Act 190 (July 1, 2004). Section 461-1, HRS, was also amended by L 2004, c 165, §2, which added two new definitions.

The amendments by Act 165 were intended to be permanent and should be exempted from Act 190's repeal and reenactment provision.

Section 53. L 2004, c 190, §6, added eight new definitions to section 461-1, HRS, to be repealed on July 1, 2010. Act 190, §6 provided that section 461-1, HRS, was to be reenacted in the form it read on the day before the effective date of Act 190 (July 1, 2004). Section 461-1, HRS, was also amended by L 2004, c 239, §1, which amended the definition of the "practice of pharmacy".

The amendments by Act 239 were intended to be permanent and should be made exempt from Act 190's repeal and reenactment provision.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 145 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 606 Judiciary and Hawaiian Affairs on S.B. No. 470

The purpose of this measure is to expand the scope of the DNA registration law to mandate the collection of DNA samples, using buccal swabs, from all convicted felons.

Testimony in support of the measure was submitted by the Department of Public Safety and Department of the Prosecuting Attorney for the County of Kauai. Testimony in opposition to the measure was submitted by the Honolulu Police Department and the Office of the Public Defender. The Department of the Attorney General and the Department of the Prosecuting Attorney for the City and County of Honolulu offered comments on the measure.

Your Committee finds that mandating DNA testing for all convicted felons is an effective law enforcement tool that, when used in conjunctions with a DNA database, will enable the State to collect and maintain profiles of convicted offenders for use in ongoing as well as "cold case" law enforcement investigations.

Your Committee has amended this measure by:

- (1) Specifying that individuals convicted of murder or any offense in chapter 846E, Hawaii Revised Statutes, must provide a DNA sample immediately;
- (2) Requiring the Attorney General to provide notice requesting DNA samples from all individuals convicted of a Class A, B, and C felony offenses;
- (3) Establishing the process and procedure for collecting and testing blood specimens, buccal swab samples, and print impressions from parole violators; persons on parole or probation; individuals housed in state, federal, or private correctional or detention facilities; and individuals arriving in Hawaii who are required to provide a DNA sample;
- (4) Designating the Honolulu Police Department as the administrator of this program and authorizing the Honolulu Police Department to either designate itself or another entity as the repository for all biological samples collected under this program;
- (5) Establishing the process and procedures for obtaining a replacement specimen;
- (6) Enacting a procedure for the expungement of an individual's DNA profile and DNA sample;
- (7) Establishing a post-conviction DNA testing process;
- (8) Making an appropriation to provide financial assistance for county and state law enforcement officials enforcing and administering the provisions of the State's DNA program; and
- (9) Making technical, non-substantive changes for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 470, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 470, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 607 (Joint) Health and Human Services on S.B. No. 1420

The purpose of this measure is to prohibit the Department of Human Services from restricting payment for a recipient's access to psychotropic medication.

The Mental Health Association in Hawaii, the Hawaii Disability Rights Center, United Self-Help, and one individual submitted testimony in support of this measure. The Department of Human Services submitted testimony in opposition.

Your Committees find that access to the range of new and effective medications is crucial to mental health consumers' successful treatment and recovery. The Hawaii Disability Rights Center testified that the pharmacological approach to treating mental illness is far different from that used to treat physical ailments. Given the intricacies of individual human brain chemistry, it requires pinpoint precision to achieve a fine balance so that the delicate desired outcome of mental stability can be achieved. Many factors influence how patients respond to specific medications, such as age, race, ethnicity, gender, and health status. As one proponent testified, it is not the same as prescribing a standard antibiotic for the treatment of a common infection. Therefore, many states exempt mental health medications from preferred drug lists.

Upon further consideration, your Committees have amended this measure by requiring the Department of Human Services to recognize individuals who have not received a decision on their application to be presumptively eligible for psychotropic medication coverage until an eligibility decision is made, and exempting licensed medical care providers from preauthorization for prescription psychotropic medication.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1420, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1420, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 3 (Kokubun, Tsutsui, Trimble).

SCRep. 608 Health on S.B. No. 466

The purpose of this measure is to create an income tax credit for physicians and dentists who practice in medically or dentally underserved areas of the State.

Healthcare Association of Hawaii, the American College of Obstetricians and Gynecologists, and Consumer Lawyers of Hawaii submitted testimony in support of this measure. The Department of Taxation submitted testimony in opposition. The Legislative Tax Bill Service submitted comments.

Your Committee finds that there is a serious crisis in the provision of medical and dental services to the poor and uninsured in medically underserved areas of the State, particularly in the rural areas. Financial incentives extended to physicians and dentists will provide an impetus to treat the poor and medically underserved in those areas. Proponents noted that medical malpractice insurance premiums are reaching levels that discourage the practice of medicine, and that an ideal incentive for physicians to treat the poor and uninsured is to provide them with an income tax credit for a portion of the amounts paid for medical malpractice insurance premiums. Certain specialties, especially orthopedics and obstetrics-gynecology and others in short supply are especially scarce in underserved areas.

Upon further consideration, your Committee has amended this measure by limiting eligibility to specific physicians who practice neurosurgery, orthopedics, obstetrics-gynecology, or emergency room medicine.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 466, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 466, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 609 (Joint/Majority) Health and Human Services on S.B. No. 1515

The purpose of this measure is to reinstate the Hawaii Tobacco Settlement Special Fund's exemption from the assessment of central services and administrative expenses.

The American Heart Association, American Cancer Society, Coalition for a Tobacco Free Hawaii, and the Tobacco Prevention and Control Advisory Board submitted testimony in support of this measure. The Department of Budget and Finance submitted testimony in opposition. The Department of Health and the American Lung Association of Hawaii submitted comments.

Your Committees find that the Hawaii Tobacco Settlement Special Fund was previously exempt from the five per cent deduction. The deduction amounts to several million dollars each year that could be spent on programs and services that improve the health of Hawaii's residents. As the Coalition for a Tobacco Free Hawaii highlighted in its testimony, the intent of the fund was to offset the costs that the State incurs as a result of tobacco use. The Centers for Disease Control and Prevention recommends that Hawaii invest between \$10,778,000 and \$23,448,000 annually to establish effective tobacco prevention and control programs. In 2004, approximately \$8,000,000 was made available by the State for tobacco use.

The American Heart Association estimates that there are close to 1,100 tobacco-related deaths in Hawaii each year. Further, over twenty-four per cent of Hawaii high school students reported being current cigarette smokers, and the numbers are rising. The funds

should be spent on prevention programs and other measures aimed at discouraging individuals, especially youth, from smoking and assisting others who want to quit.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1515 and recommend that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.
Ayes, 6. Noes, 1 (Trimble). Excused, 3 (Hooser, Kokubun, Whalen).

SCRep. 610 Commerce, Consumer Protection and Housing on S.B. No. 743

The purpose of this measure is to repeal the current uniform securities law, chapter 485, Hawaii Revised Statutes, and to adopt the 2002 Uniform Securities Act.

The Commissioner of Securities, Investment Company Institute, and Hawaii Commission to Promote Uniform Legislation testified in support of the measure. The Hawaii Bankers Association and American Council of Life Insurers opposed the measure. The Office of Information Practices and Securities Industry Association presented comments on the measure.

This measure proposes to adopt the 2002 Uniform Securities Act. The proposed new act gives the state securities regulator broad powers to investigate, prosecute, and sanction individuals and firms that engage in securities transactions. Additionally, the new law better aligns Hawaii's securities law with the laws of other states, thereby promoting consistent regulation and facilitating the ability of businesses to conduct transactions on a nationwide business. Your Committee finds that this measure will enable more efficient and effective regulation of the securities industry by the State.

Your Committee has amended this measure:

- (1) To amend the definition of "broker-dealer" by replacing language referencing a bank or savings institution with language referencing a depository institution to identify entities not included within the definition of "broker-dealer";
- (2) By making amendments throughout the Hawaii Revised Statutes to conform to the repeal of chapter 485, Hawaii Revised Statutes; and
- (3) By making numerous technical amendments for the purposes of clarity and consistency, to reflect preferred drafting style, and to correctly reflect the language of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 743, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 743, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 611 Human Services on S.B. No. 25

The purpose of this measure is to ensure that developmental disabilities residential service providers are adequately reimbursed for the residential services they provide.

Testimony in support of this measure was submitted by the Hawaii State Department of Health, State Council on Developmental Disabilities, Judiciary's Office of the Public Guardian, The Arc in Hawaii, The Arc of Hilo, Hawaii Disability Rights Center, Kona Krafts, Opportunities for the Retarded, Inc, and one individual. The Department of Human Services deferred to the Department of Health on this measure.

Your Committee finds that developmental disabilities residential service providers provide important residential care services for individuals with developmental disabilities or mental retardation. Presently, the providers of these services are not being adequately reimbursed by the State for the high quality residential services they provide to these individuals. As a result, a number of developmental disabilities homes have been forced to close due to a lack of adequate funding, and others have been deterred from opening homes. This is a significant concern to the State given that the majority of these individuals would have been cared for by the State at Waimano Training School and Hospital prior to its closing in June 1999. Thus, your Committee believes that providers of developmental disabilities residential services should be adequately reimbursed.

Your Committee has amended this measure by adding an appropriation for the 2006-2007 fiscal year.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 25, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 25, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hooser, Kokubun).

SCRep. 612 (Majority) Human Services on S.B. No. 41

The purpose of this measure is to authorize the Department of Human Services to establish a youth transition care program for former foster care children and other children not younger than eighteen years and not older than twenty-two, and to make an appropriation.

Your Committee finds that despite an increase in the number of foster care children statewide, these individuals and their foster parents remain largely “invisible” in the community and often lack the necessary resources and social services to assist these children and their caregivers.

When foster children attain the age of eighteen, most lack adequate housing options. This situation is a microcosm of the larger homelessness problem confronting the State where it is estimated that the number of homeless persons has doubled since 1999. On any given day there are more than six thousand homeless persons in Hawaii, of which more than fourteen per cent are children under the age of eighteen. Further, only twenty-two per cent of Hawaii’s homeless are able to sleep in shelters. It is estimated that approximately two hundred youth up to age twenty-one are in need of transitional living services each year. This population includes one hundred youth exiting foster care and one hundred youth who have run away from home or have been thrown out of homes. As such, it is critical that short-term housing options be offered for these youths as they make the transition to adulthood.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 41 and recommends that it pass Second Reading and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, 1 (Trimble). Excused, 2 (Hooser, Kokubun).

SCRep. 613 Human Services on S.B. No. 45

The purpose of this measure is to require the Office of Youth Services to obtain legislative approval before transferring any incarcerated juveniles from the Hawaii Youth Correctional Facility to an out-of-state correctional facility.

Your Committee finds that it is vital that notice be given to the Legislature before any out-of-state transfer of youths under the jurisdiction of the Hawaii Youth Correctional Facility takes place. This measure is the result of recent action taken by the Office of Youth Services which recently transferred incarcerated juveniles from the Hawaii Youth Correctional Facility to an out-of-state youth correctional facility, without notice to their parents or legal guardians. Your Committee finds that it is vital that children remain close to their families in order to achieve the highest level of rehabilitation.

Your Committee has amended this measure by requiring notice be provided to the Legislature via the budgetary process.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 45, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 45, S.D. 1, and be referred to the Committee on Judiciary and Hawaiian Affairs.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Kokubun, Trimble).

SCRep. 614 Human Services on S.B. No. 1780

The purpose of this measure is to place the State Commission on Fatherhood, created by Act 156, Session Laws of Hawaii 2003, under the Department of Human Services for administrative purposes, extend the repeal date of Act 156 to June 30, 2007, and make an appropriation out of general revenues to fund the Commission.

Testimony in support of the measure was received by the Department of Human Services, the State Commission on Fatherhood, and the Hawaii Coalition for Dads.

Your Committee finds that the extension of the repeal date of Act 156 from June 30, 2005, to June 30, 2007, will give the Commission additional needed time to work towards its goals of promoting the role of fathers in promoting healthy childhood development and healthy families. Your Committee also finds that funds are needed to help achieve these goals.

Your Committee has amended the measure by designating that \$50,000 per fiscal year be appropriated for fiscal years 2005-2006 and 2006-2007. Further, your Committee has amended the measure by designating the funding for the commission come from monies the State receives from the Temporary Assistance for Needy Families (TANF) program.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1780, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1780, S.D. 1, and be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 615 Ways and Means on S.B. No. 834

The purpose of this short form measure is to serve as a legislative vehicle to conform Hawaii's income tax law to the federal Internal Revenue Code.

Your Committee has amended the measure by inserting provisions that amend Chapter 235, Hawaii Revised Statutes, to conform with:

- (1) Amendments contained in the Working Families Tax Relief Act of 2004 (P.L. No. 108-311; October 4, 2004) by:
 - (A) Making uniform the definition of "child." (Currently, Hawaii already closely follows the federal definition of "child" for net income tax purposes (e.g., determining whether a person is a dependent)); and
 - (B) Making permanent the research and development credit under section 41 of the Internal Revenue Code to which Hawaii's income tax law conforms, with modifications;
- (2) Amendments contained in the American Jobs Creation Act of 2004 (P.L. No. 108-357, October 22, 2004) by:
 - (A) Extending the above-the-line deduction for expenses incurred by elementary and secondary schoolteachers for materials used by a teacher in the classroom available under section 62 of the Internal Revenue Code;
 - (B) Providing the taxpayer with an election to take an itemized deduction for state and local general sales taxes instead of an itemized deduction for state and local income taxes; and
 - (C) Imposing enhanced substantiation requirements for the charitable deduction under section 170 of the Internal Revenue Code, for contributions of motor vehicles, boats, and airplanes valued at more than \$500 limited to charity's sales proceeds; and
- (3) Amendments contained in the Pension Funding Equity Act of 2004 (P.L. No. 108-218, April 10, 2004) by temporarily replacing the thirty-year treasury rate with a rate based on long-term corporate bonds for determining the plan's current liability for funding and deduction purposes. (Hawaii has traditionally conformed to the interest provisions under section 412 of the Internal Revenue Code.)

In addition, the amended measure also makes operative a provision from P.L. No. 109-001 (the Act to accelerate the income tax benefits for charitable cash contributions for the relief of victims of the Indian Ocean tsunami), which was passed by Congress in 2005. The Department of Taxation has requested that this amendment be included in the measure, though it is not a law that was adopted by Congress during the 2004 calendar year. This amendment would ensure that taxpayers filing their 2004 tax returns may claim the deduction for contributions made in January 2005, as allowed on the federal level.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 834, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 834, S.D. 1, and be recommitted to the Committee on Ways and Means, for further consideration.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, none. Excused, 4 (Inouye, Kanno, Kim, Trimble).

SCRep. 616 Commerce, Consumer Protection and Housing on S.B. No. 117

The purpose of this measure is to provide express statutory authority for the Housing and Community Development Corporation of Hawaii (HCDCH) to modify and amend contracts and agreements previously executed by the Housing Finance and Development Corporation (HFDC).

HCDCH and Kaanapali Development Corporation testified in support of this measure.

Act 350, Session Laws of Hawaii 1997 (Act 350) consolidated HFDC, the Hawaii Housing Authority, and the Rental Housing Trust Fund Commission into a single agency, the HCDCH. In consolidating the agencies, Act 350 also transferred their jurisdiction and authority, functions, powers, and duties to the newly created agency; all permits, deeds, leases, loans, contracts, and other agreements executed by the consolidated agencies remain in full force and effect.

This measure further clarifies that HCDCH succeeded to the rights and obligations of the subsumed agencies by expressly establishing HCDCH's authority to amend housing project agreements executed between HFDC and developers.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 117 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 617 Commerce, Consumer Protection and Housing on S.B. No. 797

The purpose of this measure is to make housekeeping amendments to the laws governing the operations of the State's housing agency.

The Housing and Community Development Corporation of Hawaii (HCDCH) and a member of the Maui County Council testified in support of this measure.

Your Committee finds that when the Hawaii Housing Authority and the Housing Finance Development Corporation were consolidated into HCDCH, the carryover of common terminology used in different contexts created ambiguity in the law. For instance, the term "housing project" used in the context of public housing has a different meaning when used in the context of affordable housing.

This measure clarifies the law by redefining the term "housing project" as "public housing project" to distinguish between low-income housing projects and affordable housing developments, and by making conforming amendments throughout chapter 201G, Hawaii Revised Statutes. Additionally, this measure corrects inconsistencies in the requirements governing the sale of housing units, including public housing units.

Your Committee made technical amendments to this measure to reflect preferred drafting style and to correctly reflect the language in the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 797, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 797, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 618 (Joint) Commerce, Consumer Protection and Housing and Health on S.B. No. 760

The purpose of this measure is to lower the ceiling on the maximum amount of reserves that a managed care plan may hold and to require refunds of excess reserves to subscribers.

The Department of Commerce and Consumer Affairs and an individual testified in support of this measure. The Hawaii Medical Service Association (HMSA), HMSA Board of Directors, Mutual Benefit Association of Hawaii, Voluntary Employees' Benefit Association of Hawaii, Hawaii Association of Health Plans, HMAA, Kaiser Permanente, Hawaii Pacific Health, and three individuals opposed the measure.

This measure reduces the maximum amount of reserves a managed care plan may hold from fifty per cent to thirty per cent of annual expenses, and repeals the authority for a managed care plan to apply excess reserves to reduce future premium rates. The measure also requires a refund of excess reserves to subscribers, unless the managed care plan needs the reserves to meet anticipated increases in enrollment or for capital investments, or can show that the excess reserves are the result of temporary fluctuations in investments and will not persist.

Your Committees have amended this measure:

- (1) By deleting language that requires a managed care plan to refund excess reserves, subject to certain exceptions;
- (2) To prohibit the Insurance Commissioner (Commissioner) from approving a managed care plan's request for a rate increase if the plan's net worth exceeds thirty per cent of its annual health care expenditures and operating expenses, as reported on its most recently filed financial statement; and
- (3) To allow the Commissioner to approve a rate increase notwithstanding excess reserves if there is evidence that the managed care plan may sustain a negative cash flow due to a high amount of reimbursements in the next reporting period, subject to the requirement of filing a report with the Governor and Legislature.

As affirmed by the records of votes of the members of your Committees on Commerce, Consumer Protection, and Housing and Health that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 760, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 760, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 8. Noes, none. Excused, 2 (Ige, Whalen).

SCRep. 619 Judiciary and Hawaiian Affairs on S.B. No. 264

The purpose of this measure is to amend the law relating to courts.

Your Committee has amended this bill by inserting language allowing defendants traveling from the islands of Molokai and Lanai to attend criminal cases being heard in the second judicial circuit to be reimbursed for travel expenses and provided per diem by the State.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 264, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 264, S.D. 1, and be recommitted to the Committee on Judiciary and Hawaiian Affairs, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hee, Whalen).

SCRep. 620 Judiciary and Hawaiian Affairs on S.B. No. 255

The purpose of this short form bill is to amend the law relating to the Attorney General.

Your Committee has amended this bill by inserting language proposing an amendment to the Constitution of the State of Hawaii providing for the election of the Attorney General by qualified voters of this State.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 255, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 255, S.D. 1, and be recommitted to the Committee on Judiciary and Hawaiian Affairs, for further consideration.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Hee, Whalen).

SCRep. 621 (Joint) Water, Land, and Agriculture and Energy, Environment, and International Affairs on S.B. No. 956

The purpose of this measure is to amend plant and non-domestic animal importation laws to allow the Department of Agriculture to inspect imported commodities for pests.

Testimony in support of this measure was submitted by the Department of Agriculture, the University of Hawaii College of Tropical Agriculture and Human Resources, Crop Care Hawaii, LLC, Hawaii Agriculture Research Center, Hawaii Farm Bureau, the Nature Conservancy, Kaupo Ranch, Ltd., and one individual.

Your Committees find that imported commodities are considered “high risk” for pests and should receive the level of attention necessary to protect Hawaii from foreign species invasions. This measure allows the Department of Agriculture to adopt rules that identify specific articles on bills of lading for inspection for pests.

Your Committees have amended this measure to:

- (1) Include other types of shipping documents that may be reviewed for specific articles that are subject to inspection for pests; and
- (2) Make technical, nonsubstantive changes for the purpose of clarity, consistency, and style.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Energy, Environment, and International Affairs that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 956, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 956, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 4. Noes, none. Excused, 2 (Fukunaga, Hanabusa).

SCRep. 622 (Joint) Intergovernmental Affairs and Water, Land, and Agriculture on S.B. No. 1586

The purpose of this measure is to conform the statutes on the Hawaii County Board of Water Supply (board) with current provisions of the Hawaii County Charter.

Your Committee received testimony in support of this measure from the Hawaii County Corporation Counsel.

This measure provides that the nine appointed members of the board be appointed by the mayor, with approval of the county council, and with at least one member being a resident of each council district. The members would select their chairperson and vice chairperson. Removal of a member from office is at the discretion of the mayor.

Your Committees find that there exists a home rule issue in making the county boards of water subject to state statute. Your Committees note that chapter 54, Hawaii Revised Statutes (HRS), relating to water systems, was enacted in 1961 when not all counties had a board of water supply. As stated by the Standing Committee on County in House Standing Committee Report No. 149 on H.B. 1166 (1961), “The purpose of this bill is to create independent boards of water supply for counties that do not have such boards at the present time.” Your Committees further note that Hawaii County is the only county with a separate law, as Act 86, Session Laws of Hawaii 1949, established a board of water supply of the County of Hawaii.

Your Committees find that chapter 54, HRS, may need to be revised to reflect the current situation wherein all counties have their own boards of water supply which are governed by county charter and ordinance. However, this would require input from the counties at a future time.

As affirmed by the records of votes of the members of your Committees on Intergovernmental Affairs and Water, Land, and Agriculture that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1586 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 7. Noes, none. Excused, 4 (English, Fukunaga, Inouye, Kim).

SCRep. 623 Judiciary and Hawaiian Affairs on S.B. No. 438

The purpose of this measure is to require members of the Board of Regents of the University of Hawaii, the Board of Land and Natural Resources, the Board of Agriculture, and the Hawaiian Homes Commission to file public financial interest disclosure statements with the State Ethics Commission.

Testimony in support of the measure was submitted by the State Ethics Commission, the Hawaiian Homes Commission, and the League of Women Voters of Hawaii. Comments were received from the Department of Land and Natural Resources.

Your Committee finds that these four boards serve as the executive decision-maker for state departments or agencies and thus should not be excluded from the same financial interest disclosure requirements imposed on other state departments headed by a single executive. Further, your Committee finds that this public disclosure requirement will promote trust and transparency in the operations and management of these executive boards and will not dissuade qualified individuals from serving on these executive boards.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 438 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 624 Judiciary and Hawaiian Affairs on S.B. No. 439

The purpose of this measure is to enable the State Ethics Commission to impose a fine, not to exceed \$500, for a violation of the State Ethics Code where no fine is currently authorized.

Testimony in support of this measure was submitted by the State Ethics Commission and the League of Women Voters of Hawaii.

Your Committee finds that despite being responsible for administering the State Ethics Code, the State Ethics Commission lacks the power and authority to issue a fine for violations of the State Ethics Code. By endowing the State Ethics Commission with this authority, your Committee finds that this would deter state officials and employees from engaging in conduct that is prohibited under the State Ethics Code.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 439 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 625 Judiciary and Hawaiian Affairs on S.B. No. 440

The purpose of this measure is to strengthen and clarify Hawaii's campaign spending law.

Specifically, this measure:

- (1) Prohibits fundraising on state or county property and creates a misdemeanor offense for violations of this prohibition;
- (2) Limits contributions from non-residents, including a noncandidate committee organized under the laws of another state, to thirty per cent of the total contributions received by a candidate or candidate's committee;
- (3) Prohibits campaign contributions from corporations, labor unions, and banks, but allows these entities to establish a separate segregated fund from which to make campaign contributions;
- (4) Reduces the time period from ten years to four years that county clerks must preserve all reports filed with the Campaign Spending Commission;
- (5) Extends the requirement of electronically filing reports with the Campaign Spending Commission to include candidates for the State Senate, State House of Representatives, and the Office of Hawaiian Affairs, while still allowing campaigns without access to the Internet to file reports by non-electronic means;

- (6) Prohibits campaign contributions from being used or given to community or charitable organizations during an election, but allows surplus funds to be used or given to these same organizations during a ninety-day period after the election;
- (7) Imposes a \$25,000 cap on an individual's or entity's contributions to all candidates, reduces the cap on contributions to political parties to \$25,000, and clarifies that contribution caps are also applicable to noncandidate committees;
- (8) Prohibits campaign contributions from state and county government contractors;
- (9) Clarifies provisions relating to loans made to a candidate or the candidate's committee by requiring that the terms of the loan, including the interest rate and repayment schedule, be disclosed and that the loan, with certain exceptions, be reported as a campaign contribution;
- (10) Prohibits campaign contributions received by a candidate for a specific federal, state, or county office from being used by the same candidate for another federal, state, or county office;
- (11) Prohibits the deposit of campaign contributions until all relevant information relating to the date and amount of the contribution as well as the identity of the donor is on file with the Commission;
- (12) Mandates the return of all campaign contributions if a candidate, committee, or individual who receives contributions for an elective office does not file nomination papers;
- (13) Increases the amount of public funds available to candidates for the Office of Hawaiian Affairs from \$100 to \$1500;
- (14) Allows publicly funded candidates to receive public funds in both the primary and general election by raising qualifying campaign contributions only in the primary election and matches \$2 for every \$1 raised in excess of the minimum amount of qualifying campaign contributions;
- (15) Clarifies that candidates in special elections are not eligible for public funding; and
- (16) Makes technical, non-substantive amendments for purposes of clarity and to conform to the requirements of federal law.

The Campaign Spending Commission submitted testimony in support of the measure. The Hawaii Government Employees Association submitted testimony in opposition to the measure. The Department of the Attorney General offered comments on the measure.

Your Committee finds that this measure is designed to promote trust, transparency, and fairness in the conduct of Hawaii's elections by making necessary amendments to Hawaii's campaign spending laws. This measure is designed to provide greater accountability to the public by prohibiting campaign contributions from certain organizations and entities as well as requiring the disclosure of additional information with respect to the source and conditions upon which campaign contributions are made to candidates. This measure also implements "caps" in regard to the amount of contributions that may be donated to candidates as well as regulates the ability of candidates to utilize campaign contributions for non-election-related purposes. Further, this measure is designed to reduce a candidate's reliance on campaign contributions by making the option of publicly funded campaigns a more attractive alternative for candidates.

Your Committee seeks to provide guidance and clarification with respect to two provisions in this measure. The prohibition against fundraising on state or county property would not preclude a candidate from hosting a campaign-related function or event at a school cafeteria or other state or county forum, if these premises and facilities are also available, on similar terms and conditions, for use by members of the public or community groups.

The second clarification concerns the prohibition on contributions or donations by candidates to community organizations, including community service, educational, youth, recreational, charitable, scientific, or literary organizations during an election period. Your Committee is mindful that this restriction may negatively impact community organizations that a candidate has consistently supported over the years. However, any negative impact that may arise from the enforcement of this prohibition is ameliorated by a provision in this measure that allows for the disbursement of surplus campaign funds to these organizations during a ninety-day period after the election.

Your Committee has amended this measure by:

- (1) Removing labor unions from the prohibition against contributions or expenditures that applies to banks and corporations;
- (2) Clarifying the time period that the ban on contributions and solicitations from state and county government contractor applies to include the execution of the contract through the completion of the government contract;
- (3) Including the purchase of property between a government contractor and a county or state government agency in determining the applicability of the restriction against soliciting or receiving contributions from government contractors;
- (4) Removing the ability of the Campaign Spending Commission to issue a public censure against a candidate who fails to comply with the Code of Fair Campaign Practices. This amendment is designed to conform Hawaii's law to the recent ruling by a federal court in the Ancheta case which struck down similar provisions as unconstitutional;

- (5) Modifying the prohibition against a candidate using campaign contributions received for a specific state or county office for another political office, by permitting this transfer if the candidate obtains the written consent of the donor regarding the subsequent use of that contribution;
- (6) Clarifying the public financing law to allow a candidate to receive public funds, provided that the candidate is able to obtain the minimum amount of qualifying contributions at least once for that election period; and
- (7) Making technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 440, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 440, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 626 Judiciary and Hawaiian Affairs on S.B. No. 595

The purpose of this measure is to implement a training program for poll watchers as well as change the deadline for qualified political parties to submit its list of poll watchers from ten days to ninety days prior to an election.

Your Committee received testimony in support of the measure from the Office of Election and the League of Women Voters of Hawaii. Testimony in opposition to the measure was submitted by the Hawaii Government Employees Association.

Your Committee finds that it is crucial that poll watchers be properly trained in election laws and procedures to ensure that these individuals do not become a distraction for voters or hinder the ability of precinct officials in carrying out their duties and responsibilities on election day. This training will minimize any potential disruptions and allow for the orderly administration of an election at each polling location. This measure also changes the submission deadline for qualified political parties to submit names for poll watchers from ten days to ninety days before an election.

Your Committee has amended this measure by changing the submission deadline by which qualified political parties must submit the names of individuals who will serve as poll watchers to thirty days before an election.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 595, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 595, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 627 (Majority) Judiciary and Hawaiian Affairs on S.B. No. 600

The purpose of this measure is to raise the minimum age for allowable transfers of rifles or shotguns from eighteen to twenty-one years of age.

Testimony in support of this measure was submitted by the Honolulu Police Department. Testimony in opposition was submitted by the Hawaii Rifle Association.

Your Committee finds that raising the minimum age for permissible transfers of shotguns and rifles will ensure that access to these weapons is reserved for individuals who are familiar and experienced with these types of firearms.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 600 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Whalen). Excused, none.

SCRep. 628 Judiciary and Hawaiian Affairs on S.B. No. 695

The purpose of this measure is to ratify the National Crime Prevention and Privacy Compact.

Testimony in support of this measure was submitted by the Department of the Attorney General.

Your Committee finds that ratification of the National Crime Prevention and Privacy Compact will enable the State to administer criminal history records as well as process background checks in a more expeditious and cost effective manner. The adoption of the National Crime Prevention and Privacy Compact will also enable Hawaii to participate in the FBI National Fingerprint File and become a member on the Compact Council that establishes policies relating to use and exchange of criminal justice data.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 695 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 629 Transportation and Government Operations on S.B. No. 532

The purpose of this measure is to increase the membership of the Metropolitan Planning Organization (MPO) from thirteen to fourteen members to add the Chairperson of the Citizen's Advisory Group.

Your Committee received testimony in support of this measure from the Citizen's Advisory Group (CAG).

The CAG is created pursuant to section 279E-7(14), Hawaii Revised Statutes, to present technical or other expert opinions or facts to the MPO. CAG consists of non-governmental organizations and the City and County of Honolulu Neighborhood Boards. Your Committee finds that the CAG is a knowledgeable organization and competent to give advice to the MPO on traffic planning matters.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 532 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Menor).

SCRep. 630 Transportation and Government Operations on S.C.R. No. 25

The purpose of this measure is to request the Department of Accounting and General Services (DAGS) to ensure that all new state public buildings erected in areas not served by a public shelter include a portion of the building designated to serve as a public shelter.

Your Committee finds that many areas of the State do not have a designated public shelter in case of emergencies that threaten the surrounding communities. There is a severe shortage of public shelter space in Hawaii, and the public looks to the State and the counties to open public buildings as shelters during hurricanes, tropical storms, and other natural disasters.

In lieu of constructing actual public shelters, a portion of new public buildings could serve as public shelters if designed and constructed accordingly. Your Committee further finds that this arrangement will be a cost-effective way to provide more suitable public shelters.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 25 and recommends that it be referred to the Committee on Ways and Means.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 3 (Hee, Kanno, Menor).

SCRep. 631 Commerce, Consumer Protection and Housing on S.B. No. 107

The purpose of this measure is to establish definitions for the terms "master development" and "person", and to clarify the definitions of "blanket lien", and "project" in the time share law.

The Department of Commerce and Consumer Affairs, Starwood Vacation Ownership, Marriott International, Inc., American Resort Development Association, Cendant Timeshare Resort Group, and Paho Resorts testified in support of this measure.

This measure establishes additional definitions and amends existing definitions in the time share law to reflect industry practices. More specifically, this measure:

- (1) Defines "master development" to mean a real estate development that consists of more than one project, including but not limited to a planned community association with one or more sub-associations;
- (2) Establishes a standard definition of "person" that includes an individual and business entities in their various forms;
- (3) Clarifies the definition of "blanket lien" to include a master lease, and to exclude taxes and assessments not yet due and payable, a lien for common expenses on an individual time share unit, a lease or conveyance document that demises a single condominium apartment, and trustee's fees not yet due and payable; and
- (4) Redefines "project" to include an individual condominium project, two or more contiguous condominium projects that operate as a single project, an individual cooperative housing project, an individual subdivision of single-family homes, and an individual subdivision of townhomes, and to exclude a master development.

Your Committee finds that this measure will facilitate the development and administration of time share projects in the State.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 107 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Sakamoto, Hogue).

SCRep. 632 Commerce, Consumer Protection and Housing on S.B. No. 1798

The purpose of this measure is to exempt condominium associations from the requirements governing cumulative voting by members of nonprofit corporations.

Testimony in support of this measure was submitted by an individual. The Hawaii Independent Condominium and Cooperative Owners presented comments on the measure.

Condominium associations that are incorporated as nonprofit corporations are subject to the nonprofit corporations law codified in chapter 414D, Hawaii Revised Statutes (Chapter 414D). Chapter 414D establishes requirements for cumulative voting to elect or remove directors. However, many condominium associations have bylaws that establish their own procedures for cumulative voting.

Your Committee finds that having dual sets of requirements for cumulative voting has resulted in problems when the statutory requirements are invoked in order to preclude the use of cumulative voting that would have otherwise been permitted under an association's bylaws or to establish requirements for removal greater than that contained in an association's bylaws.

This measure addresses the potential conflict and uncertainty created by the dual requirements by providing that the nonprofit corporation laws governing cumulative voting do not apply to incorporated condominium associations. Your Committee further finds that this exemption is consistent with the principle of condominium self-governance.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1798 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Sakamoto, Hogue).

SCRep. 633 Judiciary and Hawaiian Affairs on S.B. No. 436

The purpose of this measure is to require the disclosure of business and real property interests held by state officials and employees outside of Hawaii under the State's financial disclosure law.

Testimony in support of this measure was submitted by the State Ethics Commission, the League of Women Voters of Hawaii, and Citizen Voice.

Your Committee finds that requiring disclosure of business and real property interests held within and outside of Hawaii by state officials and employees is an important facet of the disclosure law as these interests, whether within or outside of Hawaii, may be affected by official action taken by these public officials or employees.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 436 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 634 Judiciary and Hawaiian Affairs on S.B. No. 437

The purpose of this measure is to require state employees to recuse themselves from taking any official action affecting a business or other undertaking in which that employee's brother, sister, parent, or emancipated child has a substantial financial interest.

Testimony in support of the measure was submitted by the State Ethics Commission and the League of Women Voters of Hawaii.

Currently, the law requires recusal when the state employee's action would directly affect a business or undertaking in which the employee, the employee's spouses or dependent children has a substantial financial interest. This measure will prohibit a state employee from taking any official action that affects a business or undertaking in which the employee's brother, sister, parent, and emancipated child has a substantial financial interest.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 437 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 635 Judiciary and Hawaiian Affairs on S.B. No. 603

The purpose of this measure is to create a misdemeanor offense of misuse of 911 telephone emergency services when an individual accesses 911 and knowingly causes a false alarm or recklessly makes a false complaint or report.

Testimony in support of the measure was submitted by the Department of the Prosecuting Attorney for the City and County of Honolulu, the Office of the Prosecuting Attorney for the County of Kauai, the Honolulu Police Department, the Maui County Police Department, and the Hawaii County Police Department.

Your Committee finds that the 911 telephone emergency system functions as an important lifeline for Hawaii's citizens who require the immediate assistance of medical, fire fighting, and law enforcement personnel. The misuse of the 911 telephone emergency system not only wastes important public resources in responding to false emergencies, but also diverts critical police, firefighter, and emergency service personnel from legitimate needs. The creation of a misdemeanor offense will prevent the misuse of the 911 telephone emergency system and ensure that these services are reserved for individuals who legitimately require immediate assistance.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 603 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 636 Judiciary and Hawaiian Affairs on S.B. No. 607

The purpose of this measure is to provide that an individual commits the felony offense of theft in the second degree if the individual is arrested with stolen property belonging to three or more persons regardless of the value of the stolen property.

Testimony in support of this measure was submitted by the Department of the Prosecuting Attorney for the City and County of Honolulu, the Honolulu Police Department, the County of Hawaii Police Department, the Office of the Prosecuting Attorney for the County of Kauai, the Maui County Police Department, and the Hawaii Visitor Industry Security Association. Testimony in opposition to the measure was submitted by the Office of the Public Defender, the Community Alliance on Prisons, and one individual.

Your Committee finds that this measure is designed to address situations where an individual is arrested and has in his or her possession items that belong to three or more individuals, but collectively these items do not meet the \$300 threshold value required to qualify for felony theft. This offense would apply to situations arising in the context of identity theft where a defendant may have in his or her possession mail or other identifying documents belonging to three or more individuals as well as thefts of multiple items from several individuals regardless of the value of these items.

Your Committee has amended this measure by requiring that the theft of these items be carried out as part of a common scheme or plan. This not only provides a temporal relationship between the acts of the defendant, but also demonstrates the intent of the defendant to commit multiple thefts against more than one individual.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 607, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 607, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 637 Judiciary and Hawaiian Affairs on S.B. No. 681

The purpose of this measure is to remove a duplicate definition of "sexual conduct" from a section of the Hawaii Penal Code.

Testimony in support of this measure was submitted by the Department of the Attorney General.

Your Committee finds that this measure will promote clarity by removing a duplicate definition of "sexual conduct" in a section of the Hawaii Penal Code.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 681 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 638 Judiciary and Hawaiian Affairs on S.B. No. 700

The purpose of this measure is to clarify and strengthen Hawaii's nuisance abatement law.

Specifically, this measure:

- (1) Establishes that the preponderance of the evidence standard is the standard of proof applicable to nuisance abatement actions;
- (2) Authorizes a court to issue a protective order to prohibit the disclosure of the identity of a witness when presented with evidence of acts or prior threats of violence by any defendant or any other person;
- (3) Subjects an individual who knowingly violates a protective order to civil as well as criminal contempt of court; and
- (4) Enables a court to enter an order suspending or revoking a business, professional, operational, or liquor license of an entity involved in maintaining, aiding, abetting, or permitting the nuisance.

Testimony in support of this measure was submitted by the Department of the Attorney General, the Office of Lieutenant Governor, and the Honolulu Police Department.

Your Committee finds that nuisance abatement actions enable residents to remove drug houses or businesses that engage in illegal drug related activity from their communities. This measure clarifies that the preponderance of the evidence standard applies to these civil actions and allows a court to issue a protective order to prevent the disclosure of the identity of a witness when there are acts or prior threats of violence made against them by the defendant or any person.

Your Committee has amended the protective order provision by limiting the scope of the protective order to defendants involved in a nuisance abatement action and who have engaged in acts of violence or made prior threats of violence against a witness. The amendment ensures that this protective order is not overly broad in scope and will not be applied to persons who are not directly involved in the threatening activity for which the protective order was issued. Additionally, your Committee has made technical, non-substantive amendments for purposes of clarity.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 700, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 700, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 639 Energy, Environment, and International Affairs on Gov. Msg. Nos. 169, 170, 171, 172

Recommending that the Senate advise and consent to the nominations of the following:

ENVIRONMENTAL COUNCIL.

- G.M. No. 169 DENISE E. ANTOLINI, for a term to expire 06-30-2008;
- G.M. No. 170 ROBERT A. KING, for a term to expire 06-30-2008;
- G.M. No. 171 EILEEN O'HORA-WEIR, for a term to expire 06-30-2008; and
- G.M. No. 172 ORLAN L. PETERSON JR., for a term to expire 06-30-2008

Your Committee received written and oral testimony in support of all nominees by the Director of the Office of Environmental Quality Control.

Your Committee received written and oral testimony in support of DENISE E. ANTOLINI from the Environmental Coordinator of the University of Hawaii Environmental Center, and written testimony from a professor of law at the University of Hawaii School of Law, an attorney and former associate to Ms. Antolini, and a project manager for Parsons Brinckerhoff Quade & Douglas, Inc. The nominee also submitted a written statement.

Your Committee finds that DENISE E. ANTOLINI received an A.B. degree from Princeton University, a master's degree in public policy, and a law degree from the University of California, Berkeley. Ms. ANTOLINI has practiced law for the past fifteen years, clerked for a Federal district court judge, was the managing attorney of the Hawaii office of the Sierra Club Legal Defense fund, and since 1996 has been a professor of law at the University of Hawaii, William Richardson School of Law, where she is the Co-Director of the Environmental Law Program.

Your Committee received written testimony in support of ROBERT A. KING from the CEO of Maui Land & Pineapple Company. The nominee also submitted a written statement noting that he would be unable to appear before your Committee.

Your Committee finds that ROBERT A. KING attended the California State University, Chico, and studied agricultural engineering. Since 1981 Mr. KING has been the owner of King Diesel, and since 1996 has also been the President of Pacific Biodiesel, a renewable fuel and recycling concern.

Your Committee received written testimony in support of EILEEN O'HORA-WEIR from the Director of the Department of Environmental Management for the County of Hawaii.

Your Committee finds that EILEEN O'HORA-WEIR received an A.S. from the City College of San Francisco, a B.S. from the University of Hawaii at Hilo, an M.A. from the University of Hawaii at Manoa, and a Ph.D. in Natural Resource Economics from the University of Hawaii. Ms. O'HORA-WEIR has had a variety of research, consulting, and teaching experiences in education, economics, and energy. Ms. O'HORA-WEIR also has been Executive Director of Recycle Hawaii. Further, Ms. O'HORA-WEIR has experience in county government, both as a planner and as the Recycling Program Coordinator for the Department of Environmental Management, County of Hawaii. Ms. O'HORA-WEIR is also an organic farmer.

Your Committee received testimony in support of ORLAN L. PETERSON, JR., from the Director of the Office of Environmental Quality Control.

Your Committee finds that ORLAN L. PETERSON, Jr., received a B.A. from Chaminade University and an M.S. in Administration from Central Michigan University. Mr. PETERSON was on active duty in the United States Army and then spent almost twenty nine years with the Hawaii National Guard. Mr. PETERSON currently is with the Hawaii Army National Guard Environmental Program. Mr. Peterson has received numerous military honors, including the Legion of Merit, the Distinguished Flying Cross for Valor, and the Bronze Star. Mr. Peterson has also been involved with the clean up of the Ala Wai Canal and its tributaries and wetland projects in the Heeia Kea area.

Your Committee has reviewed the general histories, resumes, statements, and other information submitted by the nominees, and finds all nominees hereinabove to have the necessary qualifications to be appointed to the Environmental Council.

Your Committee notes that only one of the four nominees, DENISE E. ANTOLINI, appeared before your Committee and answered questions posed by your Committee.

Although your Committee finds that all nominees meet the minimum qualifications to serve on the Environmental Council, it is seriously concerned that the failure of three of the four nominees to appear before your Committee indicates a belief on the part of these nominees that the confirmation process is an inconvenient imposition on their time or an unwanted opportunity for the Legislature and the public to examine their nominations. The confirmation process is the public's opportunity to evaluate nominees to determine whether their nominations are in the public's best interest. Your Committee takes the confirmation process very seriously, and the failure of these nominees to appear hampers your Committee's ability to carry out its duty to the public. Your Committee also believes that these absences call into question the attendance record of, and work done by, these nominees during their interim appointments. Further, your Committee finds that these absences call into question whether the Environmental Council has outlived its usefulness as state regulation of the environment continues to mature and the regulatory scheme becomes more complete.

As affirmed by the record of votes of the members of your Committee on Energy, Environment and International Affairs, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Hooser).

SCRep. 640 (Joint) Health, Human Services and Ways and Means on S.B. No. 1235

The purpose of this measure is to extend the Program for All-inclusive Care for the Elderly (PACE) in the Department of Health's Maluhia long-term care health center to June 30, 2007.

Testimony in support of this measure was submitted by the Department of Human Services and Hawaii Health Systems Corporation.

Your Committees find that PACE provides a complete package of services that enhances the quality of life for elderly participants. A benefit to families, as well as the State, is that PACE costs less than what Medicare, Medicaid, and private individuals currently pay for long-term care. Thus, your Committees believe that PACE should be extended because it allows the viability of a cost-effective statewide program offering quality community-based, long-term care programs to be evaluated.

As affirmed by the records of votes of the members of your Committees on Health and Human Services and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1235 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 15. Noes, none. Excused, 5 (Hanabusa, Kanno, Kim, Sakamoto, Whalen).

SCRep. 641 Human Services on Gov. Msg. Nos. 256, 257, 258, 259, 260, 261, 262, and 264

Recommending that the Senate advise and consent to the nominations of the following:

STATE REHABILITATION COUNCIL

G.M. No. 256 DEBRA T. FARMER, for a term to expire 06-30-2006;

G.M. No. 257 GERALDINE M. FERGE, for a term to expire 06-30-2007;

G.M. No. 258 LARRY GELLER, for a term to expire 06-30-2007;

G.M. No. 259 PRISCILLA B. HAVRE, for a term to expire 06-30-2007;

G.M. No. 260 KATIE KEIM, for a term to expire 06-30-2007;

G.M. No. 261 GAIL LERCH, for a term to expire 06-30-2007;

G.M. No. 262 JULIE K. SMITH, for a term to expire 06-30-2007;

G.M. No. 264 VIRGINIA G. TOMPKINS, for a term to expire 06-30-2007

Your Committee has reviewed the personal histories, résumés, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the State Rehabilitation Council (Council).

Your Committee received testimony in support of DEBRA T. FARMER from the Hawaii State Board of Education and the Council. Ms. Farmer currently works as an Administrator in the Special Education Section of the Department of Education. She has worked for the Department of Education in various capacities from 1976-1981 and 1988-present. She is a member of the National Secondary Principals Association, the Exceptional Children's Council, the Special Education Advisory Council, and the Maui Mental Health Council. Ms. Farmer was active in her community through her participation with the Cathedral School Board and other church organizational activities.

Your Committee received testimony in support of GERALDINE M. FERGE from the Council. Mrs. Ferge has been gainfully employed for all of her adult life in the administrative and financial areas of the construction industry here in Hawaii. She is currently employed by Central Construction Inc. In 1998, she became physically challenged due to a spinal stroke that left her partially paralyzed. Through medical technology and strenuous physical therapy, she now functions independently. As a beneficiary of rehabilitation, she can speak to allowing the physically challenged an opportunity to be productive citizens in the community. Ms. Ferge is active in her community through her participation with the Valley Isle Timing Association.

Your Committee received testimony in support of LARRY GELLER from the Council. Mr. Geller is an advocate for Felix children and for persons with disabilities, and received an interim appointment to the Council in 2004. He currently works as a Public Information Coordinator for the Assistive Technology Resource Centers of Hawaii, and as the Executive Director for the Hawaii Coalition for Health. He was formerly secretary of the Honolulu Community-Media Council. He is a board member of the Drug Policy Forum of Hawaii, and is president of Kokua Council, one of the oldest advocacy organizations in Hawaii.

Your Committee received testimony in support of PRISCILLA B. HAVRE, M.Ed., CRC, from the Council. Ms. Havre is currently working for Ballesteros, Havre & Associates, Inc. as an independent provider of vocational rehabilitation services. She is also a court qualified expert witness in employability assessments. She has been professionally affiliated with the local chapters of the Rehabilitation Association of Hawaii and the Hawaii Rehabilitation Counselors Association since 1980. She was also the Executive Board Vice President of Network Enterprises, Inc., from 1997 to 2003.

Your Committee received testimony in support of KATIE KEIM from the Council. Ms. Keim currently works for the Department of Human Services, Ho'opono Rehabilitation Teacher for the Blind. She is a member of Toastmasters International, Disabled Business Persons Association, National Federation of the Blind National Rehabilitation Division, and secretary of the National Federation of the Blind Hawaii. Ms. Keim is active in her community through her participation in the Honolulu Sunrise Rotary, the Gold Coast Neighborhood Association, and Tropic Seas, Inc.

Your Committee expressed concerns regarding a potential conflict of interest between Ms. Keim's employment with Ho'opono Rehabilitation and serving on the Council. Testimony was submitted by John Nolan, Director of Vocational Rehabilitation and Services, who assured the Committee that should a conflict of interest arise, Ms. Keim would be recused from discussion and decision-making on any such issue.

Your Committee received testimony in support of GAIL LERCH from the Council and one individual. Ms. Lerch currently works as the Vice President of Human Resources at Hawaii Pacific Health where she is responsible for strategy, planning, and management. She holds a bachelor's degree in nursing from Purdue University, and a master's degree in business administration from Hawaii Pacific University. She is active in her community through her participation in Hospice Hawaii, Easter Seals, United Cerebral Palsy, the Hawaii Nurses Association, and the Society of Human Resources National.

Your Committee received testimony in support of JULIE K. SMITH, PhD, from the Council. Ms. Smith currently works as a professor within the Department of Special Education at the University of Hawaii. Her professional memberships include the Council for Exceptional Children in the divisions of behavioral disorders and teacher education, Association of Supervision and Curriculum Development, and Kappa Delta Pi. Her professional service includes serving on ad hoc and standing committees at the University of Hawaii at Manoa.

Your Committee received testimony in support of VIRGINIA G. TOMPKINS by the Council. Mrs. Tompkins is currently the Administrator for the Veterans Affairs Geriatrics Rehabilitation Transitional Extended Care Facility at Tripler Medical Center which followed careers as a nurse, teacher, and banker. She has also been appointed the EEO manager for the Veterans Administration Medical Center and Regional Office. Mrs. Tompkins has worked with research projects and vocational rehabilitation programs for veterans both locally and nationally.

As affirmed by the record of votes of the members of your Committee on Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 642 Judiciary and Hawaiian Affairs on S.B. No. 122

The purpose of this measure is to exempt from discovery the proceedings and records discussed at a case review forum.

Testimony in support of this measure was submitted by Kaiser Permanente, the Consumer Lawyers of Hawaii, Healthcare Association of Hawaii, and one individual.

This measure exempts from discovery the proceedings and records discussed at a case review forum. This forum is convened by the administrative or professional staff of a licensed hospital or clinic to present and critique cases for educational purposes.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 122, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 643 (Majority) Judiciary and Hawaiian Affairs on S.B. No. 536

The purpose of this measure is to repeal the prohibition against picketing at the residence or dwelling of any individual.

Testimony in support of the measure was submitted by the Hawaii State Teachers Association and the ILWU Local 142. Testimony in opposition to the measure was submitted by the Department of Labor and Industrial Relations, the Honolulu Police Department, the Hawaii Association of Realtors, and the Hawaii Hotel & Lodging Association.

This measure removes the prohibition against picketing at the residence or dwelling of any individual. Your Committee finds that this prohibition touches upon important constitutional issues as well as potential preemption issues with respect to federal law on this issue.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 536 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 2 (Chun Oakland, Whalen). Excused, none.

SCRep. 644 (Majority) Judiciary and Hawaiian Affairs on S.B. No. 925

The purpose of this measure is to require the Governor to appoint one member of the Land Use Commission from a list of three nominees submitted by the Office of Hawaiian Affairs.

Testimony in support of the measure was submitted by the Office of Hawaiian Affairs, the Land Use Commission, and one individual. Testimony in opposition to the measure was submitted by the State Office of Planning, the Department of Land and Natural Resources, and the Hawaii Association of Realtors.

This measure ensures native Hawaiian representation on the Land Use Commission. Sound and prudent management of all state land resources is of critical importance to native Hawaiians both as a revenue source for their self-determination as well as for the preservation of their religious and cultural practices.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 925, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, 1 (Whalen). Excused, none.

SCRep. 645 Judiciary and Hawaiian Affairs on S.B. No. 1170

The purpose of this measure is to establish the Hawaii anti-phishing task force to review other jurisdictions' efforts to regulate and curtail electronic commerce related criminal activities.

Your Committee finds that this measure addresses the recent phenomenon of "phishing", whereby confidential personal information is divulged under false pretenses and often used for identity theft. This measure convenes a task force with the responsibility of reviewing other jurisdictions' approaches to curtailing electronic commerce-related criminal activity and submitting findings and recommendations to the Legislature prior to the convening of the 2006 legislative session.

Your Committee has amended the bill by making a technical amendment.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1170, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1170, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 646 Judiciary and Hawaiian Affairs on S.B. No. 1512

The purpose of this measure is to authorize the Director of Health to establish domestic violence fatality review teams to review domestic violence related fatalities.

Testimony in support of the measure was submitted by the Department of the Attorney General, the Department of Health, the Judiciary, the Office of the Prosecuting Attorney for the County of Hawaii, the Honolulu Police Department, the Domestic Violence Clearinghouse and Legal Hotline, and the Hawaii State Coalition Against Domestic Violence.

This measure authorizes the Director of Health to convene domestic violence fatality review teams, comprised of individuals with multidisciplinary and multi-agency backgrounds, to conduct reviews of domestic violence related fatalities with the goal of reducing the occurrences of preventable domestic violence related fatalities.

Your Committee has amended this measure by broadening the definition of "victim" to include both adults and children.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1512, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1512, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 647 Judiciary and Hawaiian Affairs on S.B. No. 1742

The purpose of this measure is to propose amendments to the Hawaii Constitution relating to the Judicial Selection Commission.

Specifically, this measure:

- (1) Establishes a rotation among the appointive authorities to ensure that a Judicial Selection Commission member from the neighbor islands is appointed;
- (2) Requires the publication of the biographies of Judicial Selection Commission members; and
- (3) Prohibits Judicial Selection Commission members from actively supporting or opposing a political candidate or ballot question while serving as a member of the Commission.

Testimony in support of the measure was submitted by the League of Women Voters of Hawaii and one individual.

Your Committee finds that the Hawaii Constitution does not expressly stipulate which appointive authority is required to appoint an individual from the neighbor islands to the Judicial Selection Commission. This measure seeks to remedy this situation by implementing a rotation among the appointive authorities under which this responsibility would be shared. Further, this measure requires the publication of the biographies of Judicial Selection Commission members as well as prohibits Judicial Selection Commission members from actively supporting or opposing a political candidate or ballot question while serving as a member of the Commission.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1742 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 648 (Majority) Judiciary and Hawaiian Affairs on S.B. No. 1884

The purpose of this measure is to require the counties to adopt ordinances that require subdividers or developers to connect existing accesses to the shoreline with lateral public access along the shoreline as a condition to the final approval of a subdivision.

Testimony in support of the measure was submitted by the Department of Land and Natural Resources, the County of Kauai, a member of the Maui County Council, Sierra Club-Hawaii Chapter, and Life of the Land. Testimony in opposition to the measure was submitted by the City and County of Honolulu, the Land Use Research Foundation, and the Hawaii Association of Realtors.

This measure establishes additional requirements for county ordinances in requiring a subdivider or developer to connect existing accesses to the shoreline with lateral public access along the shoreline as a condition to the final approval of a subdivision. Your Committee finds that this measure will enable the public to freely traverse to and from the shoreline.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1884, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, 1 (Whalen). Excused, none.

SCRep. 649 Commerce, Consumer Protection and Housing on S.B. No. 111

The purpose of this measure is to exempt from the registration and filing requirements of the securities law the offer or sale by a licensed real estate salesperson or broker of a rental management contract under an apartment rental program.

Chun, Kerr, Dodd, Beaman and Wong and Outrigger Resorts testified in support of this measure. The Commissioner of Securities presented comments.

Currently, the securities law exempts from registration and filing requirements a transaction involving the offer or sale by a licensed real estate salesperson or broker of a condominium apartment, coupled with a rental management contract under an apartment rental program. This measure broadens the exemption to apply to the offer and sale of a rental management contract under an apartment rental program, regardless of whether the management contract offer or sale is made in conjunction and concurrently with an offer or sale of an apartment.

Your Committee finds that after the sale of a condominium apartment has been transacted, it is common practice for the apartment's owner, especially an absentee owner with a unit located in a resort area, to make the unit available for inclusion in a short-term rental pool. This measure would relieve rental pool operators from the burdensome requirements of registering and filing the management contract offer or sale with the Securities Division so long as the transaction is conducted by a licensed real estate salesperson or broker. Your Committee further finds that broadening the exemption will not weaken consumer protection since these transactions are still subject to regulatory oversight under the real estate licensing law and the anti-fraud provisions of the securities law.

Your Committee has amended this measure by:

- (1) Adding a conforming amendment to Act 164, Session Laws of Hawaii 2004, and conforming the measure's effective date provision to this addition; and
- (2) Making technical amendments for stylistic purposes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 111, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 111, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 650 Commerce, Consumer Protection and Housing on S.B. No. 119

The purpose of this measure is to require continuing education as a condition for renewal of an architect's license.

The Board of Professional Engineers, Architects, Surveyors, and Landscape Architects, American Institute of Architects - Hawaii State Council, Riecke Sunnland Kono Architects, Ltd., Maui Architectural Group, Kimmey Unabia Architects, Ltd., Garduque Architects, Ferraro Choi and Associates, Ltd., and Mason Architects testified in support of this measure.

Your Committee finds that the practice of architecture requires keeping current and informed on issues facing the profession, including consumer protection issues, such as those related to building security, indoor air quality, energy efficiency, and access for persons with disabilities. This measure would help to ensure that architect licensees continue to develop and update their knowledge and expertise throughout their careers by requiring annual continuing education as a condition of license renewal.

Your Committee made technical amendments to this measure to clarify the requirements for an exemption from the continuing education requirement. More specifically, the measure, as amended:

- (1) Deletes references to a license on inactive status, since this status is not recognized under architect licensure;
- (2) Clarifies that an exemption for military duty is for active duty deployment during a state or national crisis;
- (3) Clarifies that an exemption due to illness requires documentation from a licensed physician;
- (4) Permits an exemption for a licensee who is retired from the practice of architecture and no longer performing architectural services; and

- (5) Provides that exemption from the continuing education requirement is subject to the approval of the Board of Professional Engineers, Architects, Surveyors, and Landscape Architects.

Your Committee made additional clarifying amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 119, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 119, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Hogue).

SCRep. 651 Commerce, Consumer Protection and Housing on S.B. No. 625

The purpose of this measure is to require the Department of Commerce and Consumer Affairs to establish minimum requirements for public access to the meetings and meeting records of public, educational, and governmental access (PEG) organizations and to include the requirements in organization contracts.

Your Committee received testimony in support of this measure from one individual. Your Committee received testimony in opposition from the Community Television Producers Association, 'Olelo Community Television, the League of Women Voters of Hawai'i, and one individual. Your Committee also received comments from the Department of Commerce and Consumer Affairs and the Office of Information Practices.

Your Committee finds that public access to PEG organization records is critical to ensure the organizations' accountability. The various PEG organizations differ in their policies for public access to board meetings and meeting records. Your Committee further finds that this measure ensures the public's right to participate in PEG organization meetings and access meeting records.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 625, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ige, Hogue).

SCRep. 652 Commerce, Consumer Protection and Housing on S.B. No. 753

The purpose of this measure is to repeal the law that limits pooled insurance to construction projects estimated to cost \$50,000,000 or more for the total construction project.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Hawaii Independent Insurance Agents Association, and King & Neel, Inc. Testimony in opposition to this measure was submitted by the Subcontractors Association of Hawaii. Comments on this measure were also submitted by the Hawaii Medical Service Association.

Your Committee finds that under the current law, an insurer may offer pooled insurance only for construction projects that are estimated to cost \$50,000,000 or more for the total construction project. Pooled insurance allows a group of companies, including a general contractor and its subcontractors, to approach insurance companies and ask that the entire group or pool of companies be insured as a unit for the construction of a particular project. This group approach allows companies to take advantage of lower premiums since their risks are spread across all the companies involved in the project. It also aids smaller construction firms who might otherwise have difficulty obtaining insurance on their own and helps to lower the cost of construction by allowing pooled insurance arrangements for housing and other building projects.

Your Committee further finds that the current limitation prevents many contractors and subcontractors performing work on multi-million dollar projects from benefiting from the utilization of pooled insurance. Therefore, your Committee determines that the \$50,000,000 limitation should be removed in order to allow the construction industry, and ultimately the public, to benefit by another option for insurance coverage being made available under pooled insurance.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 753 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 653 Commerce, Consumer Protection and Housing on S.B. No. 754

The purpose of this measure is to conform the insurance code to federal law and national standards.

The Department of Commerce and Consumer Affairs testified in support of this measure. The American Council of Life Insurers presented comments.

In 2001, the State enacted the Producer Licensing Model Act in compliance with the federal mandate of the Gramm-Leach-Bliley Act. In the following three years, the Insurance Division continued to bring the insurance code into compliance with federal law and national standards. This measure continues those efforts, and among other things:

- (1) Requires the examination of domestic insurers every five years, rather than every three years;
- (2) Authorizes extended suspensions of an insurer's certificate of authority;
- (3) Repeals the requirement that adjusters and independent bill reviewers maintain an office in the State;
- (4) Repeals the one-year limitation on license suspensions for adjusters and independent bill reviewers;
- (5) Prohibits adjusters from receiving compensation on a contingency fee basis;
- (6) Authorizes the electronic filing of policy revisions that alter coverage and requires a filing to include an analysis of a revision's impact on rates;
- (7) Clarifies the scope of a liquidator's authority prior to and during a hearing;
- (8) Streamlines the process for the liquidator's recovery of unpaid premiums by authorizing the recovery of unpaid premiums owed to the insolvent insurer and establishing original jurisdiction to determine premium collection cases in the liquidation court; and
- (9) Makes amendments to conform to the Interstate Insurance Product Regulation Compact.

By bringing the insurance code into further alignment with federal law and national standards, your Committee finds that this measure will promote greater efficiency and consistency in the administration of the insurance laws.

Your Committee has amended this measure:

- (1) To retain the requirement that adjusters and independent bill reviewers maintain an office in this State;
- (2) To remove the proposed prohibition on contingency fees for adjusters; and
- (3) By making technical, stylistic amendments.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 754, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 754, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 654 Commerce, Consumer Protection and Housing on S.B. No. 766

The purpose of this measure is to facilitate license restoration for persons serving in the military during a state or national crisis who hold professional and vocational licenses in the State.

The Department of Commerce and Consumer Affairs and The Chamber of Commerce of Hawaii testified in support of this measure.

Your Committee finds that, according to a survey by the National Governors Association, one of the challenges facing regular, National Guard, and reserve military members is maintaining a state professional or vocational license in good standing while deployed on active duty. The survey further reports that twenty-four states have made special accommodations for the license renewals of these military members.

This measure proposes to make similar accommodations by relaxing license restoration requirements for members of the armed forces, National Guard, and reserves whose professional and vocational licenses expire while the members are on active duty deployment during a state or national crisis, or within four months of being discharged or released therefrom. Under this measure, restoration shall be permitted simply upon payment of the renewal fee within one hundred twenty days of being discharged or released from active duty deployment, unless licensure is also subject to verification of the licensee's financial integrity. Otherwise, the license shall be reinstated without the need to pay a penalty, apply as a new applicant, or comply with continuing education requirements. Your Committee finds this measure will help to support the efforts of Hawaii's men and women in uniform who risk their lives to protect our State and nation.

Your Committee has amended this measure by making technical amendments for the purposes of style and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 766, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 766, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Hogue).

SCRep. 655 Commerce, Consumer Protection and Housing on S.B. No. 768

The purpose of this measure is to clarify the law regarding the prohibition on no rules combat, extreme or ultimate fighting, and other similar competitions.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs.

Your Committee finds that under the current law, the prohibition on no rules combat, extreme or ultimate fighting, or similar competitions, pursuant to Chapter 440D, Hawaii Revised Statutes, is unclear and, thus, not properly enforced within the State. Your Committee further finds that over the past twenty-five years, the aforementioned combat contests have resulted in thirteen deaths and six cases of serious injuries nationwide. There is great concern over the protection and safety of the individuals participating in these types of combat contests, evidenced through the prohibition of some form of unarmed combat in thirteen states and the regulation of unarmed combat in twenty-four states.

Your Committee determines that further clarification of the law is necessary in order to protect against unnecessary deaths or injuries resulting from unarmed combat competitions held within the State. The inclusion of additional requirements for ensuring that a safe yet competitive and entertaining environment is maintained at these types of contests will act to better serve those participating in the events as well as the public.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 768, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 768, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Hogue).

SCRep. 656 Commerce, Consumer Protection and Housing on S.B. No. 1802

The purpose of this measure is to clarify certain definitions and requirements in the captive insurance law.

The Department of Commerce and Consumer Affairs and an individual testified in support of this measure.

This measure clarifies the scope and requirements of the captive insurance law by:

- (1) Replacing references to companies with references to entities in the definitions of “affiliated company”, “parent”, “pure captive insurance company”, and “pure nonprofit captive insurance company” to reflect the law’s broader application to legal entities other than companies;
- (2) Providing a cross reference to the insurance code provision establishing requirements for service of process upon the Insurance Commissioner (Commissioner) as an agent for an insurer; and
- (3) Repealing the prohibition on the ownership of more than ten per cent of outstanding stock by a stockholder of a risk retention captive.

Your Committee finds that these amendments provide greater clarity on the application of the captive insurance law and that the repeal of the prohibition on stock ownership eliminates a cumbersome requirement that has proven difficult to administer.

Your Committee further finds the current requirement of a triennial examination for a captive insurance company is costly for captives and may not be necessary as to those companies that are well-managed and that have undergone prior triennial examinations with no reports of adverse findings. Accordingly, your Committee has amended this measure to allow the Commissioner to conduct an examination of a captive insurance company once every five years, rather than once every three years, provided that the company has already undergone a triennial examination.

Your Committee has further amended this measure by making technical amendments for purposes of clarity, consistency, and style.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1802, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1802, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 657 Commerce, Consumer Protection and Housing on S.B. No. 711

The purpose of this measure is to update and clarify the requirements of the Small Business Regulatory Flexibility Act.

The Department of Business, Economic Development and Tourism and National Federation of Independent Business testified in support of this measure.

This measure clarifies and amends the requirements of the Small Business Regulatory Flexibility Act, which was enacted in 1998 to provide regulatory relief for small businesses in the State. More specifically, this measure:

- (1) Defines “rule”, as the term relates to an agency regulation subject to review by the Small Business Regulatory Review Board (Board), consistent with the Administrative Procedure Act;
- (2) Requires proposed rules that may affect small businesses to be submitted for review when the rules are essentially complete and before they are submitted to the Governor for approval for public hearing;
- (3) Authorizes the Board to review proposed new or amended agency rules, in addition to existing rules;
- (4) Allows a Board member to serve more than one term as chairperson;
- (5) Requires the Board’s annual report to the Legislature to contain a summary of rule review comments to the agencies;
- (6) Replaces the biennial periodic review of an agency’s rules with a five-year review; and
- (7) Makes technical, housekeeping revisions.

Your Committee finds that this measure enhances the State’s efforts to provide relief to small businesses from burdensome and unnecessary regulation and helps to further Hawaii’s position as a leader in the area of small business regulatory reform.

Your Committee has amended this measure by making technical amendments for the purpose of style and to correctly reflect the language of the Hawaii Revised Statutes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 711, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 711, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Ige, Hogue).

SCRep. 658 Commerce, Consumer Protection and Housing on S.B. No. 118

The purpose of this measure is to require the Board of Dental Examiners to accept the results of regional examinations for the licensure of dentists and dental hygienists.

This measure also provides that the national examination, once available, shall supercede the state and all regional examinations.

Testimony in support of this measure was submitted by the Board of Dental Examiners, the Hawaii Dental Hygienists’ Association, the Hawaii Medical Service Association, and five individuals.

Your Committee finds that although there is currently no national examination for dentists or dental hygienists, the development and implementation of national uniform examinations are anticipated within the next year. As these professions move towards nationwide uniformity in terms of the standards for licensure, Hawaii must also conform to this ideal. Your Committee further finds that the standardization of examination in these professions will aid in the mobility of dentists and dental hygienists to move in and out of the State, while ensuring that the highest standards and qualifications are maintained within the professions. This measure provides for the smooth and uninterrupted transition of qualifications for licensure as dentists and dental hygienists through the utilization of regional examinations, in conjunction with the state examination, until such time as the national examination is made available.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 118, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 118, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 659 Commerce, Consumer Protection and Housing on S.B. No. 1285

The purpose of this measure is to replace references to a panel or panel members to the kupuna council or kupuna council members, with regards to the regulation of traditional Hawaiian healing practices.

This measure also:

- (1) Prohibits the kupuna council members from being sued in relation to their selection, convening, or certification process;

- (2) Expands the practice to include all traditional Hawaiian healers, rather than only traditional native Hawaiian healers; and
- (3) Requires the kupuna council to be separate and independent from the State.

Testimony in support of this measure was submitted by the Office of Hawaiian Affairs, the Waianae Coast Comprehensive Health Center, the Traditional Native Hawaiian Healing Center, and the Nanakuli Homestead Association. Comments on the measure were also submitted by Papa Ola Lokahi.

Your Committee finds that the protection and preservation of native Hawaiian practices is of paramount importance during these changing times. Efforts must be made to ensure that the ancient practices are neither lost nor altered. To this end, the less involvement in terms of government restrictions and regulations is crucial to the unfettered practice and preservation of traditional native Hawaiian healing practices. Your Committee determines that changes to the law are necessary in order to accurately represent the Hawaiian culture and the practice, through references to the kupuna council, through the removal of the threat of lawsuits associated with the internal regulation of the practice, and through the ability of the kupuna council to exist autonomously from the State.

Your Committee has amended this measure by making technical, nonsubstantive amendments for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1285, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1285, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 660 Commerce, Consumer Protection and Housing on S.B. No. 953

The purpose of this measure is to require the disclosure of nearby agricultural lands in the sale of residential real property.

The Department of Agriculture and City and County of Honolulu testified in support of this measure. The Hawaii Association of Realtors opposed the measure.

Currently, the law requires residential property sellers to make certain disclosure to buyers, including the subject property's location within areas that render it vulnerable to floods and tsunami inundation, and expose it to noise and flight activity. This measure establishes an additional requirement to disclose whether the subject property is within one thousand lineal feet of land zoned or classified for agricultural use. Your Committee finds that this requirement will help to alert potential purchasers of nearby agricultural activity and the conditions that accompany it, such as the presence of chemicals and fertilizers, dust, noise, and odors.

Your Committee further finds that the county planning commissions do not prepare, adopt, or maintain zoning maps. Therefore, your Committee has amended this measure to clarify that the county maps used to ascertain the zoning or classification of land in conducting the disclosure are maps adopted by the counties, rather than maps prepared by the county planning commission.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 953, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 953, S.D. 1.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 661 Ways and Means on S.B. No. 101

The purpose of this measure is to clarify the law with respect to modifying the state budget.

Specifically, the bill makes a technical amendment to the budgetary provision concerning the director of finance's authority to modify or amend a previous allotment.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 101 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 14. Noes, none. Excused, 1 (English).

SCRep. 662 Ways and Means on S.B. No. 842

The purpose of this measure is to clarify the applicability of withholding requirements under the Hawaii Real Property Tax Act to nonresident single member limited liability companies that elected not to be taxed as corporations.

The Hawaii Real Property Tax Act requires buyers of real property to withhold five per cent of the gross proceeds of the sale to ensure that appropriate tax returns are filed and taxes are paid by the seller. Under present law, non-resident single member limited

liability companies that have not elected to be taxed as corporations are exempt from this withholding requirement. As a result, these companies have little incentive to file the appropriate tax returns or to pay the State any taxes due. Further, because the single member is a nonresident, the Department of Taxation is at a serious disadvantage in enforcing compliance.

Your Committee finds that this bill closes the loophole by clarifying that where the single member limited liability company has elected not to be taxed as a corporation, withholding requirements may apply to the sales transaction, depending upon the residency of the single member.

Your Committee has amended the measure by clarifying that nothing in the measure shall be construed to create any inference with respect to the proper tax treatment of single member limited liability companies for taxable years prior to the taxable year beginning on January 1, 2005. Technical nonsubstantive amendments were also made for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 842, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 842, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 663 Ways and Means on S.B. No. 840

The purpose of this measure is to clarify the income tax withholding requirements for an employer with an annual withholding tax liability in excess of \$40,000.

The measure also provides a sufficient number of banking days to remit the withholding to the State and requires that all income tax withholding returns be filed with the Director of Taxation in the First Taxation District, rather than in the taxation district in which the employer has the employer's principal place of business.

Your Committee finds that the measure clarifies that the filing of an income tax withholding return and the remission of the complete amount of tax withheld for an employer with an annual withholding tax liability in excess of \$40,000 shall be done on a semi-weekly basis. The measure also provides that if the semi-weekly filing deadline falls on a nonbanking day, the taxpayer will have an additional three banking days beyond the semi-weekly filing deadline to file the return and remit the taxes withheld.

Your Committee has amended the measure by deleting the requirement that the measure apply retroactively to January 1, 2005, and by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 840, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 840, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 664 Ways and Means on S.B. No. 460

The purpose of this measure is to allow taxpayers to appeal a tax refund claim when the Department of Taxation fails to act on the claim within one hundred eighty days after the claim was filed.

Additionally, this measure allows taxpayers to appeal a tax refund claim within thirty days after the department denies a claim.

Your Committee finds that under the current law if the Department of Taxation ignores a refund claim indefinitely, then the taxpayer has no relief. Simple fairness requires that a taxpayer who makes a refund claim should have some way to get a hearing if the claim is not paid. A similar federal law applies to claims for federal tax refunds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 460 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 665 Ways and Means on S.B. No. 102

The purpose of this measure is to clarify the definition of "state funds" with respect to the deposit of state funds in the treasury.

The measure clarifies that "state funds" means "moneys that have come into the possession of a state officer or employee who has the responsibility on behalf of the State for the initial custody, accountability, and disposition of the moneys."

Your Committee finds that this clarification is necessary to ensure the proper accountability and disposition of state funds.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 102 and recommends that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, 1 (English).

SCRep. 666 (Majority) Ways and Means on S.B. No. 1673

The purpose of this measure is to require appropriation transfers and changes to be reported to the Legislature and put into effect only with legislative approval.

Your Committee finds that the intent of the Legislature in enacting section 37-74(d), Hawaii Revised Statutes, concerning appropriation transfers or changes between programs and agencies, is now and was originally that these transfers and changes shall not be put into effect without legislative approval. However, the administration has made appropriation transfers and changes without legislative approval, including but not limited to the tourism liaison, and only reported these after-the-fact to the legislature. This bill will require the administration to report proposed transfers and changes to the Legislature and permit implementation of them only with legislative approval.

Your Committee has amended this bill to clarify its intent and by making technical nonsubstantive changes.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1673, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1673, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 3 (Hemmings, Slom, Trimble). Excused, 2 (Hooser, Kanno).

SCRep. 667 (Majority) Ways and Means on S.B. No. 736

The purpose of this measure is to authorize the assessment of a fixed fee for administering the issuance of special purpose revenue bonds.

Chapter 39A, Hawaii Revised Statutes, allows the Department of Budget and Finance to be reimbursed for "actual expenses incurred" by the Department for the issuance of special purpose revenue bonds. This creates an unknown cost factor to the entities assisted by the bonds, since "actual expenses incurred" cannot be determined until completion of the bond sale.

Your Committee finds that establishment of a fixed fee that is paid up front will accord all parties eligible for special purpose revenue bonds with a greater degree of certainty with respect to the expenses that will be incurred in structuring their bond issue.

Your Committee has amended the bill by making technical, nonsubstantive amendments for the purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 736, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 736, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 11. Noes, 2 (Slom, Trimble). Excused, 2 (Hooser, Kanno).

SCRep. 668 Ways and Means on S.B. No. 944

The purpose of this measure is to fund, for fiscal biennium 2005-2007, all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining units (1), nonsupervisory employees in blue collar positions, and (10), institutional, health, and correctional workers.

Additionally, the measure also funds, for fiscal biennium 2005-2007, the salary increases and other cost adjustments authorized under chapter 89C, Hawaii Revised Statutes, for employees who are excluded from collective bargaining.

Although no sums have been appropriated or authorized from the sources of funding indicated in the measure, your Committee believes that a vehicle for funding these collective bargaining cost items, salary increases, and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for units (1) and (10) will eventually produce a settlement.

Your Committee has amended the measure by:

- (1) Inserting language that authorizes the various departments and agencies to expend the funds allotted;
- (2) Inserting language to clarify that the appropriations made for officers and employees who are subject to chapter 89C, Hawaii Revised Statutes, are for those excluded employees who are under the same compensation plans as those officers and employees within collective bargaining units (1) and (10); and

- (3) Making technical, nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 944, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 944, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, 1 (English).

SCRep. 669 Ways and Means on S.B. No. 945

The purpose of this measure is to fund, for fiscal biennium 2005-2007, all collective bargaining cost items in the agreement negotiated with the exclusive bargaining representative of collective bargaining unit (5), teachers and other personnel of the Department of Education under the same pay schedule, including part-time employees working less than twenty hours a week who are equal to one-half of a full-time equivalent.

Additionally, the measure also funds, for fiscal biennium 2005-2007, the salary increases and other cost adjustments authorized under chapter 89C, Hawaii Revised Statutes, for employees who are excluded from collective bargaining.

Although no sums have been appropriated or authorized from the sources of funding indicated in the measure, your Committee believes that a vehicle for funding these collective bargaining cost items, salary increases, and other cost adjustments should continue to advance in the Legislature as negotiations between the State and the exclusive bargaining representative for unit (5) will eventually produce a settlement.

Your Committee has amended the measure by:

- (1) Inserting language that authorizes the various departments and agencies to expend the funds allotted;
- (2) Inserting language to clarify that the appropriations made for officers and employees who are subject to chapter 89C, Hawaii Revised Statutes, are for those excluded employees who are under the same compensation plans as those officers and employees within collective bargaining unit (5); and
- (3) Making technical, nonsubstantive amendments for the purpose of style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 945, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 945, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 14. Noes, none. Excused, 1 (English).

SCRep. 670 (Joint) Tourism and Commerce, Consumer Protection and Housing on S.B. No. 1141

The purpose of this measure is to redefine "developer" in the time sharing plan law to exclude a person owning not more than twelve time share interests who did not create the plan and offers it for resale, and an association employing a third party to sell its time share interests acquired for non-payment of assessments to owner-occupants.

Testimony in support of this measure was submitted by one individual. Testimony in opposition to this measure were submitted by Candant Timeshare Resort Group, Inc. and Fairfield Resorts, Inc. Comments on this measure were also submitted by the Department of Commerce and Consumer Affairs and the American Resort Development Association's Hawaii chapter.

Your Committees find that individuals and associations that own time share units in Hawaii sometimes have units that they cannot sell, do not want, or cannot afford, and subsequently sell these units to real estate brokers. Currently, a person is prohibited from purchasing a time share unit from an owner and re-selling it unless the person occupies the unit or registers with the State pursuant to section 237D-4. This measure will exempt a person who owns not more than twelve interests in a time share plan from the definition of developer, and those associations that take back their own inventory to be treated as re-sales and not require the same registration that is required of developers.

Your Committee amended this measure by altering the effective date to July 1, 2010 to encourage further discussion.

As affirmed by the records of votes of the members of your Committees on Tourism and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1141, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1141, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 9. Noes, none. Excused, 2 (Hee, Ige).

SCRep. 671 Commerce, Consumer Protection and Housing on S.B. No. 108

The purpose of this measure is to exempt time share sales agents from the licensure requirement for mortgage brokers and solicitors.

Pahio Resorts, Inc., Starwood Vacation Ownership, Marriott International, Inc., American Resort Development Association-Hawaii, Cendant Timeshare Resort Group, and Fairfield Resorts, Inc. testified in support of this measure. The Department of Commerce and Consumer Affairs opposed the measure.

This measure establishes an exemption from the mortgage broker and solicitor licensure requirement for a licensed real estate salesperson or broker who sells time share interests on behalf of a time share plan developer that is licensed as a mortgage broker.

Your Committee finds that the conduct of entities involved in time share sales is subject to regulation under the time share law and, additionally, under professional and vocational licensing laws; a time share plan developer is required to be licensed as a mortgage broker and a sales agent who sells time share interests on behalf of the developer is required to be licensed as a real estate salesperson or broker. This measure would avoid redundancy in licensing by exempting time share sales agents from the licensing requirement for mortgage brokers and solicitors.

Your Committee further finds that, notwithstanding the above, there continue to be concerns that time share sales consumers will not be adequately protected if sales agents are exempted from licensure as mortgage brokers or solicitors. Testimony was received that time share sales often involve the provision of financing through the developer, and as a mortgage broker, the developer is subject to compliance with certain federal consumer protection laws and other requirements in transacting the financing agreement. Under this measure, a consumer would not have recourse under the mortgage broker and solicitor law against a sales agent who failed to comply with the law's requirements.

To address these concerns, your Committee has amended this measure to provide that:

- (1) The acts or conduct of a time share plan developer's authorized representative shall be deemed to be the acts or conduct of the developer for purposes of the mortgage brokers and solicitors license suspension and revocation law; and
- (2) A real estate licensee who engages in conduct that is grounds for suspension of a mortgage broker or solicitor license is subject to disciplinary action under the real estate licensing law.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 108, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 108, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 672 Commerce, Consumer Protection and Housing on S.B. No. 756

The purpose of this measure is to establish an expedited certification process for a foreign health maintenance organization (HMO).

The Department of Commerce and Consumer Affairs and Kaiser Permanente testified in support of this measure.

Your Committee finds that Hawaii's health insurance market is served by a small number of health insurers, mutual benefit societies, and HMOs. This measure would facilitate the entry of more HMOs into the Hawaii market by establishing an expedited process for the certification of a foreign HMO. A foreign HMO is an entity that operates as a domestic HMO in another state under a certificate of authority issued by its home state. Therefore, the foreign HMO has already met the necessary requirements to operate in its home state and has been subject to scrutiny and examination by a regulatory authority.

More specifically, this measure authorizes the Insurance Commissioner (Commissioner) to waive the filing by a foreign HMO of any information required to be filed in an application for a certificate of authority. This "fast track" certification process is similar to that available to foreign insurers under the insurance code. The Commissioner would retain the right to require the foreign HMO to submit to the certification process if determined to be in the public interest. Your Committee further finds that this measure would foster competition in the State's health insurance market and provide Hawaii's consumers and employers with greater choices in healthcare coverage.

Your Committee has amended this measure:

- (1) To allow a waiver only as to the filing of information or documents relating to the HMO's organization, governance, management, contract forms between a class of providers and the HMO, form of evidence of coverage to be issued to enrollees, power of attorney, and statement of geographic areas served; and
- (2) By making a technical amendment for the purpose of clarification.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 756, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 756, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 673 Commerce, Consumer Protection and Housing on S.B. No. 1140

The purpose of this measure is to authorize additional loan fees that may be charged by financial services loan companies.

The Hawaii Financial Services Association testified in support of this measure. The Department of Commerce and Consumer Affairs and Hawaii Bankers Association submitted comments on the measure.

Currently, financial services loan companies are limited in the fees they may charge in connection with a loan transaction to those specifically authorized by statute or rule. This measure proposes to remove this restriction, and additionally, to specifically authorize the imposition of fees for a dishonored check received for payment on a loan, real property tax services, wire transfers, and administrative costs related to the processing of non-real estate and open-end consumer loans.

Your Committee has amended this measure:

- (1) To retain the current law's prohibition on a financial services loan company charging a fee other than one specifically authorized by statute or rule;
- (2) To allow a financial services loan company to charge a returned check fee, up to \$20, for all loan transactions, not just consumer loans, subject to certain requirements and restrictions;
- (3) By deleting language authorizing the imposition of a \$75 administrative fee for the processing of non-real estate consumer loans and open-end consumer loans, and otherwise amending section 412:9-305(b), Hawaii Revised Statutes, relating to permissible charges on an open-end consumer loan;
- (4) By repealing language requiring consumer loan fees to be bona fide and reasonable and not unfair or deceptive, but establishing a limit on the total fees that may be charged on a consumer mortgage loan of one per cent of the principal amount of the loan;
- (5) To prohibit a third party or affiliate or subsidiary of a financial service loan company that receives loan fees from the company for rendering loan-related services from rebating or refunding money to the financial services loan company;
- (6) To expand the category of permissible consumer loan-related fees to include fees for real property tax services and wire transfers;
- (7) By adding a savings clause provision;
- (8) By changing the effective date to July 1, 2005; and
- (9) By making technical, stylistic amendments.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1140, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1140, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 674 Commerce, Consumer Protection and Housing on S.B. No. 761

The purpose of this measure is to amend the definition of "serious mental illness" to include obsessive compulsive disorder, dissociative disorder, delusional disorder, and major depression.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs, the Department of Health, the Hawaii Disability Rights Center, the National Association of Social Workers, the Hawaii Psychological Association, the Queen's Medical Center, Kaiser Permanente, the Hawaii Psychiatric Medical Association, the National Alliance for the Mentally Ill-Oahu, the National Alliance of the Mentally Ill-Hawaii, the Mental Health Association in Hawaii, the Hawaii Medical Service Association, the Hawaii Medical Association, and two individuals.

Your Committee finds that pursuant to Act 121, Session Laws of Hawaii 1999, certain medical disorders, including obsessive compulsive disorder, dissociative disorder, delusional disorder, and major depression, were removed from the definition of "serious mental illness" under Chapter 431M, Hawaii Revised Statutes. The deletion of these conditions from the definition of "serious mental illness" runs counter to the national trend in mental health care which is to expand mandated mental health treatment benefits through parity with other physical illnesses. This trend is based largely upon the assumption that it is discriminatory to restrict or offer less access to health care in the area of mental health care relative to other areas of health care. Your Committee believes that the inclusion of obsessive compulsive disorder, dissociative disorder, delusional disorder, and major depression is necessary to promote parity in insurance coverage in the treatment of mental illnesses in the same manner as physical illnesses. Furthermore, this expansion of coverage will act to improve the health of the people of Hawaii, while helping to reduce the overall costs of care over the long term.

Your Committee has amended this measure by making a technical, nonsubstantive amendment for purposes of consistency and clarity.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 761, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 761, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 675 Commerce, Consumer Protection and Housing on S.B. No. 1230

The purpose of this measure is to delay the repeal of Act 132, Session Laws of Hawaii (SLH) 2001, as amended, which allows the Insurance Commissioner to monitor the solvency of dental service corporations and dental service organizations.

Testimony in support of this measure was submitted by the Department of Commerce and Consumer Affairs (DCCA).

Your Committee finds that Act 132, SLH 2001, authorized the DCCA to protect the interests of consumers by closing insolvent dental insurance plans that failed to pay claims and by pursuing claims against the principal agents of these plans in order to recover assets on behalf of the policyholders and providers. Under Act 132, SLH, the Insurance Commissioner's authority was established for one year, but has subsequently been extended over the past three years. Although the DCCA has successfully instituted action against the Hawaii Dental Health Plan (HDHP), it is still awaiting information from the federal government regarding any other outstanding claims against the HDHP. Therefore, your Committee determines that an extension of the duration of the Commissioner's authority in this capacity is necessary in order to allow the liquidation proceedings against the HDHP to be brought to a conclusion.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1230 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 676 Media, Arts, Science and Technology on Gov. Msg. Nos. 198, 199 and 200

Recommending that the Senate advise and consent to the nominations of the following:

KING KAMEHAMEHA CELEBRATION COMMISSION

G.M. No. 198 CECILIA K. AKIM, for a term to expire 06-30-2008;

G.M. No. 199 PONI ELLIOT KAMAUU, for a term to expire 06-30-2008; and

G.M. No. 200 CASINA K. WATERMAN, for a term to expire 06-30-2008

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the King Kamehameha Celebration Commission.

CECILIA K. AKIM was born and raised in Hawaii. She graduated from Sacred Hearts Academy and attended the University of Hawaii. Ms. Akim has been an active member of the Ahahui Ka'ahumanu since 1966. She has been involved with the Punaluu Community Association for twenty-five years, and the Laie Community Association for fifteen years. Ms. Akim has been a dancer her entire life, and is very proud of Hawaii and her Hawaiian heritage. Ms. Akim has served as an interim commission member representing Ahahui Ka'ahumanu since September 2004.

Your Committee received testimony in support of PONI ELLIOT KAMAUU from the Papakolea Community Development Corporation. Mr. Kamauu is a lifelong Hawaii resident who was educated at Brigham Young University, Hawaii Campus. Mr. Kamauu is dedicated to perpetuating Hawaiian culture through sharing traditional hula, chant, and knowledge. He served as the Hawaiian Cultural Teacher (kumu) for two years at the Papakolea After School Program, and is presently the kumu at Halau Kaleihulumamo. He has been employed by the Department of Education as a Hawaiian Studies teacher since 1989. Mr. Kamauu is a member of the Papakolea Homestead Association and Hui Mamakakaua (Daughters and Sons of Hawaiian Warriors). He looks forward to carrying on a family tradition of service by representing the Papakolea Homestead Association on the commission.

Your Committee received testimony on behalf of CASINA K. WATERMAN from seven individuals. Ms. Waterman is the president of the Queen Emma Hawaiian Civic Club and has served as the chair of various committees for the Oahu Council of Hawaiian Civic Clubs and the Association of Hawaiian Civic Clubs, as well as the Queen Emma Hawaiian Civic Club. She is committed to perpetuating Hawaiian culture, music, language, history, education, native rights, historical and cultural sites, and the overall advancement of Native Hawaiians. Ms. Waterman has served as a commission member representing the Association of Hawaiian Civic Clubs since July 2000.

Your Committee finds that these nominees possess a strong commitment to the Native Hawaiian community as well as an understanding of the cultural values unique to Hawaii. Further, these nominees are dedicated to perpetuating and educating others in the history of Hawaii's first monarch. As such, these nominees are well qualified to serve on the King Kamehameha Celebration Commission.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 677 Media, Arts, Science and Technology on Gov. Msg. No. 229

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE NATURAL ENERGY LABORATORY OF HAWAII AUTHORITY

G.M. No. 229 RICHARD HENDERSON, for a term to expire 06-30-2008

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds the nominee to have the necessary qualifications to be appointed to the Board of Directors of the Natural Energy Laboratory of Hawaii Authority.

Your Committee received testimony in support of Mr. Henderson's nomination from the Department of Business, Economic Development, and Tourism.

RICHARD HENDERSON graduated from Punahou School and earned a bachelor's degree in economics at the University of Pennsylvania, Wharton School of Finance and Commerce. He is a successful businessman and former state senator. Drawing on his diverse background, knowledge, experience, and expertise, Mr. Henderson has demonstrated his ability to forge public-private relationships and is leading the Natural Energy Laboratory of Hawaii Authority toward self-sufficiency. He understands how technology fits into Hawaii's economic future and is a strategic thinker who is guiding the Authority to increased integration with the community. Mr. Henderson currently serves as the Chair of the Board of Directors of the Natural Energy Laboratory of Hawaii, and is seeking reappointment to the board.

Based upon his responses to questions posed, your Committee finds the nominee to be especially qualified to lead NELHA's transition from a technology incubator to an agency poised to deliver key economic benefits to the Big Island and to the State. NELHA was launched during his tenure in the state legislature, and he is very familiar with the unique challenges it has faced over succeeding years. He pointed out the need for potable water as a key ingredient in its future success, and is committed to helping the agency move to a higher level of development.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be eminently well-qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 678 Media, Arts, Science and Technology on Gov. Msg. No. 273

Recommending that the Senate advise and consent to the nomination of the following:

BOARD OF DIRECTORS OF THE HAWAII STRATEGIC DEVELOPMENT CORPORATION

G.M. No. 273 EDWARD H.W. YOUNG, for a term to expire 06-30-2007

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds the nominee to have the necessary qualifications to be appointed to the Board of Directors of the Hawaii Strategic Development Corporation.

Your Committee received testimony in support of the nomination from the Department of Business, Economic Development, and Tourism; the Hawaii Strategic Development Corporation; the Hawaii Technology Trade Association; HiBeam; and one individual.

EDWARD H.W. YOUNG earned a bachelor's degree in accounting from the University of Hawaii at Manoa. He has extensive professional experience in the private banking industry, in which he assisted many start-up technology firms. His knowledge and skills have contributed significantly to the development of Hawaii's technology industry and venture capital community, partly through the pivotal role that his prior company's TIGR program played since 1999-2000. Mr. Young is Project Manager of the Hawaii Technology Development Venture at Enterprise Honolulu, a federal program promoting commercialization of dual use technology. He was a founding member of the Hawaii Technology Trade Association and served as its treasurer for five years, and was also a founding member of HiBeam (Hawaii Business and Entrepreneur Acceleration Mentors). Mr. Young is an ardent supporter of economic development and diversification, particularly in the area of emerging and technology industries. He has served on the board as an interim member since mid-2004, and his financial services experience make him an ideal choice for expanded venture financing activities of the board.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the

nominee to be very qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 679 Media, Arts, Science and Technology on Gov. Msg. Nos. 190, 191, 192 and 193

Recommending that the Senate advise and consent to the nominations of the following:

HAWAII HISTORIC PLACES REVIEW BOARD

- G.M. No. 190 DAWN E. DUENSING, for a term to expire 06-30-2008;
G.M. No. 191 VICTORIA N. KNEUBUHL, for a term to expire 06-30-2006;
G.M. No. 192 MICHIKO KODAMA-NISHIMOTO, for a term to expire 06-30-2008; and
G.M. No. 193 PETER R. MILLS, for a term to expire 06-30-2008

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the Hawaii Historic Places Review Board.

Your Committee received testimony on behalf of DAWN E. DUENSING from the Department of Land and Natural Resources and three individuals. Ms. Duensing earned bachelor's and master's degrees from Northern Illinois University and a Graduate Certificate in Historic Preservation from the University of Hawaii at Manoa. Ms. Duensing has extensive experience in matters relating to cultural resources, including experience as a cultural resources planner, historical researcher, preservation planner, architectural historian, historic structure cataloguer, and national register of historic places nominations drafter. She has served as an interim board member representing the discipline of history since July 2004.

Your Committee received testimony on behalf of VICTORIA N. KNEUBUHL from the Department of Land and Natural Resources. Ms. Kneubuhl earned a bachelor's degree with a concentration in Hawaiian cultural studies from Antioch University and a master's degree from the University of Hawaii. She is the director of educational programs at the Manoa Heritage Center. Ms. Kneubuhl has extensive experience developing educational and interpretive programs to preserve and share Hawaiian history. She is also an accomplished playwright who has received numerous accolades for her works about Hawaiian history. Ms. Kneubuhl has served as an interim board member specializing in Hawaiiana since July 2004.

Your Committee received testimony on behalf of MICHIKO KODAMA-NISHIMOTO from the Department of Land and Natural Resources. Ms. Kodama-Nishimoto earned bachelor's degrees in history and anthropology from the University of Hawaii at Manoa, and has worked as a historian at the Center for Oral History for over twenty-five years. She has been a volunteer with the American Cancer Society, the American Youth Soccer Organization, and National Junior Basketball. Ms. Kodama-Nishimoto has served as an interim board member representing the discipline of history since July 2004.

Your Committee received testimony on behalf of PETER R. MILLS, Ph.D. from the Department of Land and Natural Resources and two individuals. Dr. Mills earned bachelor's degrees in anthropology and psychology from the University of Vermont, a master's degree in anthropology from Washington State University, and a Ph.D. in anthropology from the University of California at Berkeley. Dr. Mills is an associate professor of anthropology at the University of Hawaii at Hilo, and he has extensive experience in review and compliance procedures for National Register determinations of eligibility and the National Register nomination process for historic properties. He is currently working with the university to develop a cultural resource management master's degree program to help address Hawaii's historic preservation challenges. Dr. Mills has served as an interim board member representing the discipline of archeology since July 2004.

Through questioning by your Committee, all of the nominees demonstrated a solid understanding of the issues and resource challenges faced by the Hawaii Historic Places Review Board, and will be able to make strong contributions towards its improvement.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be fully qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 680 Media, Arts, Science and Technology on Gov. Msg. No. 146

Recommending that the Senate advise and consent to the nomination of the following:

STATE FOUNDATION ON CULTURE AND THE ARTS COMMISSION

- G.M. No. 146 GEORJA SKINNER, for a term to expire 06-30-2008

Your Committee has reviewed the personal history, resume, and statement submitted by the nominee, and finds the nominee to have the necessary qualifications to be appointed to the State Foundation on Culture and the Arts Commission.

Your Committee received testimony in support of Ms. Skinner's nomination from the Department of Business, Economic Development, and Tourism; the Hawaii State Foundation on Culture and the Arts; the Academy for Creative Media at the University of Hawaii; the Garden Island Arts Council; the Hawaii Consortium for the Arts; and sixteen individuals.

GEORJA SKINNER received an Associate of Arts degree from Los Angeles City College in Radio and Film Production. Ms. Skinner is the president of Skinner Entertainment, a marketing and production firm with offices in Hawaii and California that has specialized in developing Hawaii and Pacific Rim film projects for clients in Hawaii, New York, and Los Angeles since 1999. She is the Marketing and Sponsorship Director for the annual Maui Writers Conference, and serves as the production liaison for Lions Gate Entertainment, negotiating deals with sponsors, hotels, airlines, and locations for upcoming Hawaii-based television shows. Ms. Skinner was also the production liaison for 20th Century Fox Television's movie of the week "Baywatch Blast" in 2001.

While serving as the Maui film commissioner, Ms. Skinner established the first film office for the County of Maui, leading its efforts in the development of the film, television, culture, and arts programs. After her tenure as film commissioner ended, Ms. Skinner was instrumental in the creation of the Hawaii Filmmakers Initiative, a nonprofit organization that supports education in digital media.

Ms. Skinner has served as an interim commission member since July 2004. Since her appointment, she has been an active participant at commission meetings and has contributed significantly to its communication, marketing, and public relations efforts. More importantly, she can play a significant role in bridging new initiatives being undertaken by the State Foundation on Culture and the Arts and the Department of Business, Economic Development, and Tourism's Arts, Film, and Entertainment Division, particularly in digital media.

As affirmed by the record of votes of the members of your Committee on Media, Arts, Science, and Technology that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominee, has found the nominee to be qualified for the position to which nominated and recommends that the Senate advise and consent to the nomination.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Ihara).

SCRep. 681 Human Services on Gov. Msg. Nos. 196, and 197

Recommending that the Senate advise and consent to the nominations of the following:

STATEWIDE COUNCIL ON INDEPENDENT LIVING

G.M. No. 196 WAYNETTE K.Y. CABRAL, for a term to expire 06-30-2007; and

G.M. No. 197 PINA LEMUSU, for a term to expire 06-30-2007

Your Committee has reviewed the personal histories, resumes, and statements submitted by the nominees, and finds the nominees to have the necessary qualifications to be appointed to the Statewide Council on Independent Living.

Testimony in support of Waynette K.Y. Cabral was submitted by the Statewide Independent Living Council of Hawaii and an individual. Mrs. Cabral holds bachelor's and master's degrees in social work from the University of Hawaii and has twenty-eight years experience in the field of developmental disabilities. Presently, she is employed with the State Council on Developmental Disabilities where she has spent eighteen years in various positions, with the last two and half years as its executive director.

Testimony in support of Pina Lemusu was submitted by the Statewide Independent Living Council of Hawaii. During Ms. Lemusu's first term as a member she has brought her unique perspectives and experience to the work that the council performs. She is currently a graduate student at the University of Hawaii at Manoa studying Rehabilitation Counseling and holds a degree in Justice Administration from the University of Hawaii at West Oahu.

Your Committee members diligently questioned the nominees regarding their vision and priorities regarding the promotion of independent living and integration of persons with disabilities into the community and to aid individuals in achieving their goals and basic human rights. The nominees demonstrated a commitment to proactively protect and improve the Statewide Council on Independent Living. Your Committee believes that the nominees adequately responded to the Committee's inquiries.

As affirmed by the record of votes of the members of your Committee on Human Services that is attached to this report, your Committee, after full consideration of the background, experience, and qualifications of the nominees, has found the nominees to be qualified for the positions to which nominated and recommends that the Senate advise and consent to the nominations.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Ihara, Kokubun).

SCRep. 682 (Joint) Health and Human Services on S.C.R. No. 24

The purpose of this measure is to request the Hawaii State Council on Developmental Disabilities to continue the Residential Settings Task Force to identify issues and solutions regarding individuals with developmental disabilities and their choice of residential setting.

The Judiciary's Office of the Public Guardian, the Department of Health, the State Council on Developmental Disabilities, the Disability and Communication Access Board, the Hawaii Disability Rights Center, the Arc of Kauai, the Arc in Hawaii, and Alternative Care Services, Inc. submitted testimony in support of this measure.

Your Committees find that a second year of work is necessary for the Task Force to do further analysis to fully address how to increase residential options, including residency in unlicensed homes, for individuals with developmental disabilities. The Task Force agreed by a majority of its members to continue its work, which will include addressing increasing residential options; further analysis of statutes, administrative rules, policies, and directives; and discussing and outlining the details of recommendations that were not included in the recent report.

As affirmed by the records of votes of the members of your Committees on Health and Human Services that are attached to this report, your Committees concur with the intent and purpose of S.C.R. No. 24 and recommend that it be referred to the Committee on Ways and Means.

Signed by the Chairs on behalf of the Committees.

Ayes, 6. Noes, none. Excused, 4 (Hanabusa, Ihara, Kokubun, Whalen).

SCRep. 683 Health on S.C.R. No. 20

The purpose of this measure is to designate the month of January as cervical cancer awareness month.

The American Cancer Society submitted testimony in support of this measure.

Your Committee finds that, as the proponent noted, cervical cancer is one of the most preventable cancers with a high rate of early detection through screening. If detected before it can spread, the survival rate at ten years is ninety nine percent. It is imperative to stress the importance of cervical cancer detection and treatment as there are still many women in Hawaii who are unaware of the dangers of cervical cancer and the relative ease of detection and treatment.

Your Committee further finds that this measure will bring awareness to the importance of cervical cancer detection and treatment and will recognize and applaud the valuable role that families and advocates of cervical cancer victims play in helping our medical community advance the fight against this disease.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 20 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 684 Health on S.C.R. No. 7

The purpose of this measure is to request the development of a statewide strategic plan to promote obesity prevention and healthy lifestyles.

The Department of Health, the Department of Education, Kaiser Permanente, the American Cancer Society, and Kokua Kalihi Valley submitted testimony in support of this measure.

Your Committee finds that in 2002, more than one-half of Hawaii's adult population was overweight or obese, and in some communities and populations in Hawaii, childhood obesity is twice the national average for children age six to eleven years of age. Hawaii spends about \$290,000,000, or 4.9 percent of its total medical expenditures on obesity-related medical conditions.

Your Committee further finds that the promotion of healthy lifestyle choices, including diet and nutrition education and physical activities, helps decrease the prevalence of childhood obesity and its related adverse health effects.

As affirmed by the record of votes of the members of your Committee on Health that is attached to this report, your Committee concurs with the intent and purpose of S.C.R. No. 7 and recommends its adoption.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hanabusa, Whalen).

SCRep. 685 (Majority) Ways and Means on S.B. No. 1749

The purpose of this measure is to require the Joint Legislative Budget Committee to hold public hearings to ascertain facts and make recommendations on the decision of the Governor or the Director of Finance to restrict or withhold funds appropriated by the Legislature.

The bill also requires the Governor or the Director of Finance to give prior written notice to the Joint Legislative Budget Committee prior to restricting or withholding any funds appropriated by the Legislature, including the reasons therefor.

Your Committee finds that the budget process includes many oversight activities. During the appropriation process the Legislature must determine the overall value of a program compared to other programs that compete for the same funding from limited state resources. However, past practice has indicated the Administration's disregard for the Legislature's diligence in carefully crafting a sound budget and appropriations thereunder. In many instances, the Administration has restricted, withheld, or otherwise failed to expend moneys appropriated by the Legislature for purposes that were painstakingly scrutinized during numerous public hearings and legislative deliberations. By authorizing the Joint Legislative Budget Committee to conduct public hearings on gubernatorial budget restrictions, withholding of funds, and other actions that result in the nonexpenditure of lawfully budgeted and appropriated funds, the Legislature and the general citizenry of the State will be able to ascertain, in a public venue, the reasons for the Administration's actions.

Your Committee amended the measure by:

- (1) Authorizing the Joint Legislative Budget Committee to hold public hearings, rather than mandating it to do so;
- (2) Clarifying the scope of what types of nonexpenditure actions taken by the Administration may trigger the holding of public hearings by the Joint Legislative Budget Committee;
- (3) Moving the prior written notice requirement imposed on the Governor and the Director of Finance to chapter 37, Hawaii Revised Statutes, as your Committee believes that it is more appropriately placed in the chapter of law that relates to the State Budget;
- (4) Adding a section to the measure that amends section 37-34(a), Hawaii Revised Statutes, to require that the allotment estimates submitted by executive departments and agencies to the Director of Finance include the entire amounts budgeted and appropriated in the budget acts and any other appropriation act passed by the Legislature; and
- (5) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1749, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1749, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 2 (Slom, Trimble). Excused, 2 (Hooser, Kanno).

SCRep. 686 (Majority) Ways and Means on S.B. No. 1870

The purpose of this measure is to impose a general excise tax on owner-builders on the value of the building of their own personal residences.

The tax is to be imposed in addition to the tax imposed under section 237-13, Hawaii Revised Statutes, which imposes the general excise tax on various classes of taxpayers. The rate of the tax is unspecified but is to be levied on the value of the construction, renovation, or alteration of the owner-builder's personal residence that is the subject of a building permit. The bill further provides that the value of work performed by a licensed subcontractor is to be deducted from the value of work to be assessed the tax. Finally, the bill requires the counties to collect this tax, as a condition to issuing the permit, and to remit the moneys to the Department of Taxation.

Your Committee has amended this bill by making a technical amendment and by changing the effective date to September 1, 2099 to facilitate further discussion on the merits of the bill.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1870, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1870, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 11. Noes, 3 (Hemmings, Slom, Trimble). Excused, 1 (English).

SCRep. 687 (Majority) Ways and Means on S.B. No. 1745

The purpose of this measure is to provide tax relief to the victims of the Manoa flood of 2004.

Your Committee finds that the heavy rain and flood of October 2004 had devastating consequences for residents of Manoa Valley. Approximately one hundred forty homes and several automobiles sustained damage caused by the torrential downpour that overflowed the banks of Manoa Stream. Fortunately, the flooding did not cause any serious injuries or deaths, but the property damage it left in its wake is still being felt by many Manoa families.

This bill provides a modicum of relief to the victims of the Manoa flood in the form of a one-time non-refundable tax credit not to exceed \$2,000. The tax credit applies to losses of real or personal property caused by the heavy rain and flood.

Your Committee has amended the bill by specifying that the tax credit applies to chapter 235, Hawaii Revised Statutes, relating to personal income tax, and may be used only for the non-reimbursable expenses incurred by flood victims. Your Committee has also amended the bill by making a technical amendment that has no substantive effect.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1745, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1745, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 13. Noes, 1 (Trimble). Excused, 1 (English).

SCRep. 688 (Majority) Ways and Means on S.B. No. 631

The purpose of this measure is to require the Governor or the Director of Finance to hold public hearings prior to restricting or withholding funds appropriated by the Legislature.

The measure also requires that the public hearing be conducted pursuant to chapter 92, Hawaii Revised Statutes, the State's "sunshine law".

Your Committee finds that the budget process includes many oversight activities. During the appropriation process, the Legislature must determine the overall value of a program compared to other programs that compete for the same funding from limited state resources. However, past practice has indicated the Administration's disregard for the Legislature's diligence in carefully crafting a sound budget and appropriations thereunder. In many instances, the Administration has restricted, withheld, or otherwise failed to expend moneys appropriated by the Legislature for purposes that were painstakingly scrutinized during numerous public hearings and legislative deliberations. By requiring the Governor or the Director of Finance to conduct public hearings on gubernatorial budget restrictions, withholding of funds, and other actions that result in the nonexpenditure of lawfully appropriated funds, the Legislature and the general citizenry of the State will be able to ascertain, in a public venue, the reasons for the Administration's actions.

Your Committee has amended the measure by:

- (1) Clarifying the scope of what types of nonexpenditure actions taken by the Administration will trigger the holding of public hearings requirement;
- (2) Adding a section to the measure that amends section 37-34(a), Hawaii Revised Statutes, to require that the allotment estimates submitted by executive departments and agencies to the Director of Finance include the entire amounts budgeted and appropriated in the budget acts and any other appropriation act passed by the Legislature;
- (3) Removing the requirement that the Governor or the Director of Finance comply with the public hearing requirements of chapter 92, Hawaii Revised Statutes, and replacing it with public notice and hearing requirements more specifically tailored to the measure's intent; and
- (4) Making technical, nonsubstantive amendments for clarity and style.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 631, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 631, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 10. Noes, 3 (Hemmings, Slom, Trimble). Excused, 2 (Hooser, Kanno).

SCRep. 689 (Joint) Media, Arts, Science and Technology and Commerce, Consumer Protection and Housing on S.B. No. 978

The purpose of this measure is to establish that the criteria for selecting proceedings to be broadcast by the legislative broadcast program shall be related to matters of public interest.

Your Committees received testimony in support of this measure from the League of Women Voters of Hawaii, Citizen Voice, the Employers' Chamber of Commerce, and one individual.

Your Committees find that the legislative broadcast program generally has been effective in allowing citizens access to legislative proceedings broadcast on cable public access channels. This measure expands existing provisions by requiring standards for broadcast selection to be based upon the public interest. Your Committees find that this criteria will ensure citizens better access to information about wide-ranging issues of public interest, such as bills having the greatest impact on the general population, those involving large expenditures, those of greatest concern and interest to the largest number of residents, and those on controversial topics.

As affirmed by the records of votes of the members of your Committees on Media, Arts, Science, and Technology and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 978 and recommend that it pass Second Reading and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 5. Noes, none. Excused, 4 (English, Espero, Ihara, Sakamoto).

SCRep. 690 Commerce, Consumer Protection and Housing on S.B. No. 1348

The purpose of this measure is to require associations of apartment owners to maintain certain records on the property if the association or a resident manager maintains an office on the property.

The Hawaii Independent Condominium and Cooperative Owners and one individual submitted testimony in support of this measure. Mililani Town Association submitted testimony in opposition to this measure.

Currently, the law requires financial statements and board of directors' meeting minutes to be available for review by apartment owners at a convenient place designated by the board of directors. This measure clarifies that the financial statements and the board of directors' meeting minutes must be available at the association of apartment owner's office or the resident manager's office if either office is located on the property.

Your Committee noted concerns that many of the "offices" located on apartment properties are simply resident manager's apartments and may not have the space or be equipped to handle the amendments provided in this measure. Thus, your Committee finds that this issue raises concerns that merit further discussion. Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050 to ensure ongoing discussions on this issue.

Your Committee has further amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1348, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1348, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 691 Commerce, Consumer Protection and Housing on S.B. No. 80

The purpose of this measure is to require that markings of vehicles for motor carrier vehicles be legible during daylight hours from fifty feet away while the motor carrier vehicle is stationary.

Testimony in support of this measure was submitted by the Department of Transportation and the Hawaii Transportation Association.

Your Committee finds that pursuant to Act 119, Session Laws of Hawaii 1997, marking requirements for motor carrier vehicles were established under state law. Your Committee further finds that the federal regulations, under the Federal Motor Carrier Safety Improvement Act, have subsequently been amended. Your Committee determines that this measure is necessary in order to make state law conform to the federal regulations, which are widely considered to be the uniform standard throughout the country.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 80 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 692 (Joint) Transportation and Government Operations and Ways and Means on S.B. No. 668

The purpose of this measure is to require the Procurement Policy Board to adopt rules effectuating set-asides for small businesses and imposing mandatory evaluation criteria designed to encourage the use of small businesses as subcontractors on large contracts.

Your Committees received testimony in support of this measure from the Department of Business, Economic Development, and Tourism, Department of Accounting and General Services, The Chamber of Commerce of Hawaii, Environet, Inc., HARK, Inc., and The Limtiaco Company.

The intent of this measure is to establish procurement preferences in government contracts to enhance competition by expanding the pool of available vendors and contractors. The result would promote the growth and development of small businesses.

Your Committees find that many small businesses feel that they are not effectively able to compete with larger local and mainland firms in competition for state contracts and purchases. This measure would require the Procurement Policy Board to develop detailed procedures needed to put in place a small business program, including set-asides. This would set guidelines for the procurement officers to determine which contracts to set aside for small business purchases. As an example of the effectiveness of this approach, the federal contracting programs provide that larger businesses prepare a "small subcontracting plan" as part of their bid.

As affirmed by the records of votes of the members of your Committees on Transportation and Government Operations and Ways and Means that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 668, S.D. 1, and recommend that it pass Third Reading.

Signed by the Chairs on behalf of the Committees.
Ayes, 14. Noes, none. Excused, 5 (English, Hooser, Menor, Hemmings, Whalen).

SCRep. 693 Judiciary and Hawaiian Affairs on S.B. No. 121

The purpose of this measure is to allow brewpubs to sell malt beverages in recyclable containers for off-premises consumption as well as permit brewpubs to sell malt beverages directly to class two restaurant licensees.

Testimony in support of the measure was submitted by Sam Choy's Big Aloha Brewery, Fish and Game Brewing Co., Waimea Brewing Company, Cask Brewing Systems, Stone Brewing & Distributing Co., and nine individuals.

This measure allows brewpubs to sell malt beverages for off-premises consumption in recyclable containers as well as permits brewpubs to sell malt beverages to class two restaurant licensees. Your Committee finds that this measure will increase the venues in which consumers are afforded the opportunity to purchase and sample locally brewed malt beverages.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 121 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 694 Judiciary and Hawaiian Affairs on S.B. No. 743

The purpose of this measure is to repeal the current uniform securities law, chapter 485, Hawaii Revised Statutes, and to adopt the 2002 Uniform Securities Act.

The Commissioner of Securities, the Hawaii Bankers Association, the Investment Company Institute, and the Hawaii Commission to Promote Uniform Legislation testified in support of the measure. The Securities Industry Association, and the National Association of Insurance and Financial Advisors-Hawaii Chapter, testified in opposition to the measure. The Office of Information Practices and the American Council of Life Insurers offered comments on the measure.

This measure adopts the 2002 Uniform Securities Act. Under this Act, state securities regulators are granted the power to investigate, prosecute, and sanction individuals and firms engaged in security transactions. Your Committee finds that this measure will conform Hawaii's securities law to federal securities law as well as make Hawaii's securities law uniform with other states.

Your Committee has amended this measure by:

- (1) Making technical, non-substantive amendments for purposes of clarity and style; and
- (2) Making the effective date defective in order to promote continuing discussion on this measure.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 743, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 743, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 695 Judiciary and Hawaiian Affairs on S.B. No. 1135

The purpose of this measure is to clarify permissible credit card interest rates as well as define the term "interest" to include credit card related fees or charges.

Testimony in support of the measure was submitted by the Hawaii Bankers Association, the Hawaii Credit Union League, and the Hawaii Financial Services Association.

This measure provides that the eighteen per cent annual interest rate limit on credit cards applies only to the numeric periodic rate and not to finance charges. Further, this measure also clarifies the type of fees that constitute "interest" under Hawaii's usury law. Your Committee finds that this bill will prevent Hawaii financial institutions from being placed at a disadvantage relative to out-of-state financial institutions.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1135 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 696 Judiciary and Hawaiian Affairs on S.B. No. 1256

The purpose of this measure is to propose a constitutional amendment to the Hawaii Constitution modifying the appointment process for the University of Hawaii Board of Regents.

Offering comments on the measure was the University of Hawaii.

This measure proposes a constitutional amendment to modify the appointment process for the University of Hawaii Board of Regents. Your Committee finds that this measure proposes a candidate advisory council to screen and nominate potential candidates for appointment to the Board of Regents by the Governor.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1256 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 697 Judiciary and Hawaiian Affairs on S.B. No. 1257

The purpose of this measure is to institute a candidate advisory council for the purpose of screening and nominating candidates for appointment by the Governor to the University of Hawaii Board of Regents.

The University of Hawaii offered comments on the measure.

This measure institutes a candidate advisory council for the purpose of screening and nominating candidates for appointment by the Governor to the University of Hawaii Board of Regents. Your Committee finds that this measure will provide enabling legislation that provides statutory authority with respect to the powers, duties, and responsibilities of this newly created candidate advisory council.

Your Committee has amended this measure by increasing the terms of the University of Hawaii Board of Regent members, excluding the student member, from four years to ten years.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1257, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1257, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 698 Judiciary and Hawaiian Affairs on S.B. No. 40

The purpose of this measure is to authorize a minor's caregiver to consent to health care services for the minor and to establish requirements for a valid caregiver consent affidavit.

Testimony in support of the measure was submitted by the Department of Human Services, Na Tutu-Grandparents Raising Grandchildren Coalition, the Kokua Council, and three individuals.

This measure authorizes a minor's caregiver, with or without the permission of the minor's parents, guardians, or custodian, to authorize health care services, including immunization, dental, and mental health, for the minor. Your Committee finds that this measure provides another avenue for minors to obtain access to vital health care services, provided that the minor's caregiver complies with the requirements of the affidavit for caregiver consent for minor's health care.

Your Committee has amended this measure by:

- (1) Requiring the caregiver to present a notarized affidavit of caregiver consent before medical and dental services may be performed on the minor;
- (2) Limiting caregiver consent for health care decisions relating to primary and preventive medical and dental care as well as diagnostic testing; and
- (3) Permitting treatment by or under the supervision of an advanced practice nurse.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 40, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 40, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 699 Judiciary and Hawaiian Affairs on S.B. No. 45

The purpose of this measure is to require the Office of Youth Services to provide notice to the Legislature, through the budgetary process, when incarcerated juveniles from the Hawaii Youth Correctional Facility are transferred to an out-of-state youth correctional facility.

Testimony in support of the measure was submitted by the Hawaii Juvenile Justice Project, Hawaii Youth Services Network, and two individuals. Testimony in opposition to the measure was submitted by Department of Human Services, the Office of Youth Services, and the Hawaii Juvenile Justice State Advisory Council.

This measure is designed to provide notice to the Legislature, through the budgetary process, when juveniles housed in the Hawaii Youth Correctional Facility are transferred to an out-of-state youth correctional facility. Your Committee finds that this notice requirement will enable the Legislature to remain apprised as to the number of Hawaii juveniles housed in out-of-state youth correctional facilities.

Your Committee has amended this measure by making technical, non-substantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 45, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 45, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 700 Judiciary and Hawaiian Affairs on S.B. No. 675

The purpose of this measure is to streamline and clarify laws relating to child support orders and the Child Support Enforcement Agency.

Specifically, this measure:

- (1) Allows the Child Support Enforcement Agency to issue income withholding orders based upon a request from the obligee and a determination by the Child Support Enforcement Agency that the income withholding is appropriate;
- (2) Requires that child support enforcement orders contain language requiring the obligor to keep the Child Support Enforcement Agency apprised of information concerning whether the obligor has access to medical insurance coverage as well as require the submission of identifying information by the obligor and obligee;
- (3) Modifies the service of process requirements for the Child Support Enforcement Agency; and
- (4) Allows the Child Support Enforcement Agency to terminate the requirement for the responsible parent's employer or union to enroll a dependent child as a beneficiary in the group medical health plan by sending notice to the employer or union.

Testimony in support of the measure was submitted by the Department of the Attorney General.

This measure streamlines and clarifies the processes and procedures relating to the Child Support Enforcement Agency and the enforcement of child support orders in Hawaii. Your Committee finds that this measure is designed to comply with federal statutory requirements relating to child support orders, thereby making the State eligible to receive federal funding for child support enforcement programs.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 675 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 701 Judiciary and Hawaiian Affairs on S.B. No. 826

The purpose of this measure is to give employees and officers with the Department of Public Safety and the Department of the Attorney General the same authority as police officers to be required to report child abuse cases and allowed to take a child victim into protective custody.

Testimony in support of this measure was submitted by the Department of Public Safety and the Department of Human Services.

This measure enables officers and employees with the Department of Public Safety and the Department of the Attorney General to report child abuse cases as well as take a child victim into protective custody. Presently, law enforcement officers and employees with the Department of Public Safety and the Department of the Attorney General are not specifically named as a reporting entity in statute and thus lack the authority to take a child victim of abuse into protective custody. Your Committee finds that this measure would address these shortcomings as well as increase the number of law enforcement personnel able to respond and report child abuse cases.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 826 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 702 Judiciary and Hawaiian Affairs on S.B. No. 1210

The purpose of this measure is to extend the authorization of the Family Child Care Home law to allow family child care homes located in townhouses and condominium projects to continue operations.

Testimony in support of the measure was submitted by the Department of Human Services and Good Beginnings Alliance.

The measure repeals the sunset date of the Family Child Care Home law and allows family child care homes located in condominium projects and townhouses to continue operations. Your Committee finds that this measure will ensure continued access to child care related services that are available within these settings.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1210 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 703 Judiciary and Hawaiian Affairs on S.B. No. 1298

The purpose of this measure is to include within an environmental impact statement a determination as to whether a racial, ethnic, socioeconomic, or other group will bear a disproportionate burden of any negative environmental impacts of a proposed action.

Testimony in support of the measure was submitted by the University of Hawaii Environmental Center, Life of the Land and two individuals. Offering comments on the measure was the Office of Environmental Quality Control.

Your Committee finds that information on whether a racial, ethnic, socioeconomic, or other group will bear a disproportionate burden of any negative environmental impacts of a proposed action will guide policymakers, including the executive branch, in ensuring environmental equality among all groups. A suggestion that the Governor issue an executive order implementing the guidelines and principles of environmental equality to avoid the protracted process of rule making under chapter 91, Hawaii Revised Statutes, is worthy of additional attention and study. Your Committee will be considering a resolution requesting the Governor to examine the feasibility of implementing guidelines and principles of environmental equality by an executive order.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1298 and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 6. Noes, none. Excused, none.

SCRep. 704 Judiciary and Hawaiian Affairs on S.B. No. 1476

The purpose of this measure is to amend Hawaii's laws relating to fireworks.

Specifically, this measure:

- (1) Modifies existing firework terminology to be consistent with federal law;
- (2) Clarifies that a fireworks permit applies to both the use and purchase of fireworks;
- (3) Prohibits any person from selling or offering to sell in exchange for consideration any fireworks or articles pyrotechnic; and
- (4) Regulates the importation of aerial devices, display fireworks, or articles pyrotechnic.

Testimony in support of the measure was submitted by the State Fire Council, the Legislative Information Services of Hawaii, and the Hawaii Food Industry Association.

This measure amends various provisions of Hawaii's fireworks laws to conform to federal requirements, provides that fireworks permits are required for both the use and purchase of fireworks, and regulates the importation of aerial devices, display fireworks, and articles pyrotechnic. Your Committee finds that this measure is designed to address issues relating to the use, sale, permitting, and importation of specific types of fireworks in Hawaii.

Your Committee has amended this measure by:

- (1) Clarifying that it is unlawful for a licensee to sell, offer to sell, give, offer, donate, or exchange for consideration any fireworks to an individual who lacks the required permit; and
- (2) Making technical, non-substantive amendments for purposes of clarity and style.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1476, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1476, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 705 Judiciary and Hawaiian Affairs on S.B. No. 1548

The purpose of this measure is to establish standards for the selection of County Ethics Commission members.

Testimony in support of the measure was submitted by the State Ethics Commission.

This measure establishes standards for the selection of County Ethics Commission members. Your Committee finds that the selection process is designed to promote the impartiality and independence of Commission members.

Your Committee has amended this measure by placing the County Ethics Commission in chapter 46, Hawaii Revised Statutes, along with other provisions relating to county government.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1548, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1548, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ihara).

SCRep. 706 (Majority) Judiciary and Hawaiian Affairs on S.B. No. 427

The purpose of this measure is to require children ages four to seven, and under certain height and weight minimums, be properly secured in a child safety or booster seat.

Testimony in support of this measure was submitted by the Department of Transportation, the Department of Health, the Honolulu Police Department, the Maui County Police Department, one member of the Hawaii County Council, the American Academy of Pediatrics, the Keiki Injury Prevention Coalition, Mothers Against Drunk Driving-Hawaii Chapter, State Farm Mutual Automobile Insurance Company, the Waianae Coast Comprehensive Health Center, and three individuals. Testimony in opposition to the measure was submitted by the Office of the Public Defender.

This measure requires that children who are at least four years of age but less than eight years of age, and under certain weight and height minimums, be properly secured in a child safety or booster seat. Your Committee finds that child safety or booster seats are important safety equipment that can prevent or limit serious injury to young children involved in a car accident.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 427, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, 1 (Whalen). Excused, 1 (Ihara).

SCRep. 707 (Majority) Judiciary and Hawaiian Affairs on S.B. No. 428

The purpose of this measure is to modify and amend Hawaii's driver licensing laws relating to drivers under the age of eighteen.

Specifically, this measure:

- (1) Establishes a provisional licensing program for persons under the age of eighteen;
- (2) Requires that a driver with a provisional license driving after 11:00 p.m. and before 5:00 a.m. be accompanied by a licensed parent or guardian;
- (3) Allows a driver with a provisional license to drive after 11:00 p.m. and before 5:00 a.m. without a licensed parent or guardian if the driver is traveling to or from work or a school related activity and limits that driver to transporting one passenger under the age of eighteen; and
- (4) Establishes processes and procedures relating to the revocation and reissuance of a provisional driver's license.

Testimony in support of the measure was submitted by the Department of Health, the Department of Transportation, the Honolulu Police Department, the Department of Education, the Department of the Prosecuting Attorney for the City and County of Honolulu, the American Academy of Pediatrics, the Hawaii Insurers Council, State Farm Mutual Automobile Insurance Company, the Keiki Injury Prevention Coalition, Mothers Against Drunk Driving-Hawaii Chapter, and three individuals. Testimony in opposition to the measure was submitted by the Office of the Public Defender. Offering comments on the measure were the Judiciary and the Department of Customer Services for the City and County of Honolulu.

This measure implements a provisional licensing program for individuals under the age of eighteen and regulates the time period as well as the characteristics and number of passengers that are allowed to accompany these individuals in the course of driving. Your Committee finds that this provisional licensing program, which includes processes and procedures for revoking and reissuing provisional licenses, addresses concerns in the community with respect to the operation of motor vehicles by minors.

Your Committee has amended this measure as follows:

- (1) Making technical, non-substantive amendments for purposes of clarity and style; and

- (2) Changing the effective date to January 9, 2006 in response to testimony submitted by the Department of Customer Services for the City and County of Honolulu.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 428, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 428, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, 1 (Whalen). Excused, 2 (English, Ihara).

SCRep. 708 Judiciary and Hawaiian Affairs on S.B. No. 706

The purpose of this measure is to require the suspension of the driver's licenses of a person under the age of twenty-one who violates laws relating to the consumption, possession, or use of alcohol.

Testimony in support of the measure was submitted by the Office of the Lieutenant Governor, the Department of the Attorney General, the Department of Health, the Department of Education, the Office of Youth Services, a member of the Kauai County Council, the Department of the Prosecuting Attorney for the City and County of Honolulu, the Honolulu Police Department, the Hawaii Food Industry Association, Mothers Against Drunk Driving-Hawaii Chapter, and three individuals. Testimony in opposition the measure was submitted by the Office of the Public Defender.

This measure requires the driver's license suspension of an individual under the age of twenty-one for a mandatory one hundred eighty day period for violating laws prohibiting the consumption, possession, or use of alcohol by individuals under the age of twenty-one. Your Committee finds that this measure is designed to address concerns in the community relating to the dangers associated with underage drinking and driving.

Your Committee has amended this measure by including a savings clause.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 706, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 706, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 709 Judiciary and Hawaiian Affairs on S.B. No. 1588

The purpose of this measure is to amend laws relating to agricultural theft.

Specifically, this measure:

- (1) Incorporates a prima facie element to the offense of theft in the second degree whereby possession of agricultural commodities without ownership and movement certificates permits an inference that the commodities were obtained with the knowledge of the character, nature, and value of the commodity;
- (2) Incorporates a prima facie element to the offense of theft of livestock whereby possession of livestock without a livestock ownership and movement certificate is prima facie evidence that the livestock was obtained with the knowledge of the character, nature, and value of the livestock; and
- (3) Includes theft of agricultural products in excess of twenty-five pounds within the offense of theft in the second degree.

Testimony in support of this measure was submitted by the Department of Agriculture, the Department of the Prosecuting Attorney for the City and County of Honolulu, the Department of the Prosecuting Attorney for the County of Maui, the Hawaii Agriculture Research Center, the Hawaii Farm Bureau Federation, the Big Island Farm Bureau, the Maui County Farm Bureau, the Hawaii Association of Realtors, the Hawaii Crop Improvement Association, the Pineapple Growers Association of Hawaii, and two individuals.

Your Committee finds that agricultural theft is a significant problem for Hawaii's farmers and consumers. Economic losses resulting from agricultural theft can be significant and can force farmers to go out of business. This measure is designed to address this problem by strengthening and clarifying Hawaii's theft laws.

Your Committee has amended this measure by:

- (1) Including the theft of agricultural commodities with a value of more than \$100 but less than \$20,000, and commodities or products in excess of twenty-five pounds in weight, within the offense of theft in the second degree;
- (2) Establishing that possession of agricultural products or commodities without the required ownership and movement certificates is prima facie evidence that the products or commodities are or have been stolen;
- (3) Establishing that possession of livestock without the required ownership and transportation certificate is prima facie evidence that the livestock is or has been stolen; and

(4) Clarifying the signage requirements with respect to agricultural theft.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1588, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1588, S.D. 2.

Signed by the Chair on behalf of the Committee.

Ayes, 6. Noes, none. Excused, none.

SCRep. 710 (Majority) Ways and Means on S.B. No. 1410

The purpose of this measure is to provide Hawaii residents an earned income tax credit equal to five per cent of earned income tax credit provided under the Internal Revenue Code.

Your Committee is in agreement with the intent of this measure but has left the amount of the tax credit, stated as a per cent of the federal earned income tax credit, unspecified to facilitate further discussion on this matter. Your Committee has also made technical nonsubstantive changes for purposes of clarity and consistency.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1410, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1410, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 13. Noes, 1 (Trimble). Excused, 1 (English).

SCRep. 711 (Majority) Ways and Means on S.B. No. 1748

The purpose of this measure is to prohibit the Director of Finance from reducing any budget estimate submitted by a department except if the prohibition results in a budget shortfall.

The bill also requires the Director of Finance to predicate any budget allotment reduction on the *actual* state tax revenues or other revenue source collected or received, instead of basing the reduction on estimates or projections.

This bill identifies and remedies two areas of the state budgetary law to assist and expedite the release and eventual use of legislative appropriations. Your Committee is also concerned about another area of the state budgetary law regarding grants under chapter 42F, Hawaii Revised Statutes.

Your Committee finds that grant recipients provide a multitude of services to the public. Without these services, the State would be hard pressed to develop the physical and community infrastructure and the public confidence necessary to effectively and efficiently provide these services. But just as the State is dependent on grant recipients, grant recipients depend on the State for funding of their programs and services. A problem arises when the Governor does not decide definitively whether to release or allocate the funds for a grant. In that instance, recipients are caught in a dilemma of whether to seek other financing for their programs and services, or wait until the Governor decides on the fate of their grant.

To assist grant recipients and to provide the Governor with a process that focuses on unreleased grants, your Committee has amended the bill to require the Governor to provide regular notice to recipients of unreleased grants on the status of their grants. Your Committee finds that this amendment will provide recipients with useful information to ultimately assist them in determining their financing source.

As affirmed by the record of votes of the members of your Committee on Ways and Means that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1748, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1748, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 10. Noes, 3 (Hemmings, Slom, Trimble). Excused, 2 (Hooser, Kanno).

SCRep. 712 Energy, Environment, and International Affairs on S.B. No. 15

The purpose of this measure is to prohibit adding chemicals to public and private water systems for purposes other than to make the water supply safe and potable. Adding chemicals to the water supply to treat people for physical or mental ailments would be prohibited.

Testimony in support of the measure was received from Citizens for Safe Drinking Water, the Oahu County Committee of the Democratic Party of Hawaii, and 22 individuals. Several petitions voicing support for the measure, signed by a number of individuals, were also submitted. Testimony in opposition to the measure was received from the Director of Health, Hawaii Dental Service, the Hawaii Dental Hygienists' Association, and a dentist.

Your Committee finds that Hawaii is known for its pristine, refreshing waters; they should be protected in as pure a state as possible. Your Committee finds that certain chemicals, such as chlorine, are necessary additives to protect the public from water-borne diseases. However, your Committee also finds that other chemicals, added ostensibly as medication to treat or prevent certain

illnesses, negatively affect the purity of the water supply. Further, your Committee finds that some people may have adverse reactions to some of these kinds of additives, and will thus be unable to drink water from public and private water systems. Your Committee also finds that application of this prohibition statewide is necessary to provide the benefits of this measure to all state residents.

Your Committee has amended this measure by noting that the prohibition on additives does not apply to any federal or military water systems that service only federal or military properties. Your Committee has also amended this measure to recognize that federal laws and regulations regarding additives in drinking water are unaffected by this measure. Your Committee has further amended this measure by providing that violation of this measure's provisions regarding water additives shall result in a \$25,000 penalty per day, per violation.

As affirmed by the record of votes of the members of your Committee on Energy, Environment, and International Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 15, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 15, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 3. Noes, none. Excused, 2 (Hooser, Hemmings).

SCRep. 713 (Joint) Water, Land, and Agriculture and Commerce, Consumer Protection and Housing on S.B. No. 1015

The purpose of this measure is to require disclosure of all agricultural lands within five hundred feet of reclassified land.

Testimony in support of this measure was submitted by the Department of Agriculture, Big Island Farm Bureau, Hawaii Farm Bureau, and Kauai County Farm Bureau. Comments were also submitted by the Land Use Commission and the Hawaii Association of Realtors.

Your Committees find that as agricultural lands are reclassified to other classifications, agricultural operations that remain on neighboring parcels may cause mud, dust, spray drift, noise, and odor problems for the new owners. However, eliminating problems like odors or relocating the agriculture operations to new areas are usually expensive and may cause extreme economic hardship to the farmer. This measure requires instruments of conveyance for reclassified properties to disclose all agricultural parcels within five hundred feet. Specifically, disclosure is required if the property:

- (1) Has been reclassified from agricultural to any other classification;
- (2) Is conveyed; and
- (3) Is within five hundred feet of another parcel classified as agricultural.

Your Committees have amended this measure by:

- (1) Changing the distance required for disclosure from five hundred feet to one thousand feet;
- (2) Including farming operations under the Hawaii Right to Farm Act, chapter 165, Hawaii Revised Statutes, as uses to be disclosed;
- (3) Clarifying that all properties classified as part of an agricultural district at any time prior to a conveyance will be subject to the provisions in this measure; and
- (4) Making technical, nonsubstantive changes for style, consistency, and clarity.

As affirmed by the records of votes of the members of your Committees on Water, Land, and Agriculture and Commerce, Consumer Protection, and Housing that are attached to this report, your Committees are in accord with the intent and purpose of S.B. No. 1015, as amended herein, and recommend that it pass Second Reading in the form attached hereto as S.B. No. 1015, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chairs on behalf of the Committees.

Ayes, 9. Noes, none. Excused, 2 (Fukunaga, Ige).

SCRep. 714 Water, Land, and Agriculture on S.B. No. 1301

The purpose of this measure is to clarify the Department of Land and Natural Resources' authority over commercial activities in the Waianae coast area.

Testimony in support of this measure was submitted by the Department of Land and Natural Resources (Department), Office of Hawaiian Affairs, Hawaii Boaters Political Action Association, Save Diamond Head Waters, and six individuals.

Few sectors of the tourism industry have experienced the same level of growth in a concentrated period of time as ocean-based commercial operations. As the popularity of interacting with ocean resources increases, commercial operations face the challenge of providing a service while respecting other users and the environment.

Your Committee finds that the Waianae coast area has been experiencing difficulty balancing the competing interests between dolphin tour operations and akule fisheries. This measure:

- (1) Clarifies the Department's authority over commercial activities in state waters in the Waianae coast area; and
- (2) Requires the Department to consider user conflicts, address environmental concerns, and balance the commercial activities along the coastline when determining whether to issue permits for commercial ocean activities.

Your Committee has amended this measure by adopting the Department's amendments to:

- (1) Create an ocean recreation management area for west Oahu between the Honolulu International Airport reef runway and Kaena point; and
- (2) Allow rather than require the Department to reissue withdrawn or revoked commercial activities permits.

Your Committee has further amended this measure by:

- (1) Limiting the number of permits for the Waianae coast area to the number of permits issued as of January 1, 2005;
- (2) Allowing the Department to adopt administrative rules pursuant to chapter 91, Hawaii Revised Statutes, for both the ocean recreation management area and the commercial permits in the Waianae coast area; and
- (3) Making technical, nonsubstantive changes for style, clarity, and consistency.

Your Committee also noted concerns that user conflicts in coastal areas are not localized just in Waianae. Rather, it is a problem that is affecting ocean recreation and commercial activities on many shores on most of the islands, indicating that these problems are endemic throughout the State. Therefore, your Committee notes that a statewide review of all shores may eventually be necessary in order to manage problems between competing user interests.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1301, S.D. 1, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1301, S.D. 2.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 1 (Fukunaga).

SCRep. 715 Water, Land, and Agriculture on S.B. No. 1473

The purpose of this measure is to provide adequate notification prior to any expanded use or contemplated development of state-owned land in the Waimano Ridge area of Oahu and require the Department of Health to propose an updated master plan.

Testimony in support of this measure was submitted by the Manana Community Association, Pearl City Community Association, Pearl City Neighborhood Board number twenty-one, and six individuals. The Department of Health submitted testimony in opposition to this measure, and comments were also submitted by the Office of Information Practices.

Your Committee finds that in the early 1990s, a master plan was established for the Waimano Ridge area on Oahu. The master plan was developed through a collaborative effort between the state government and the community, designing a plan for a "totally integrated community" where activities on the state-owned Waimano Ridge lands (Waimano Ridge) would be community friendly.

Since the master plan was developed, many citizens in the community have been disturbed by the placement of a juvenile sex offender treatment facility, as well as with testing of viruses and other potentially dangerous specimens at Waimano Ridge. Your Committee finds that an updated master plan should be prepared and better public notification procedures of Waimano Ridge uses and developments should be implemented. Accordingly, this measure requires:

- (1) The Department of Health to notify the surrounding communities of any new or expanded uses or development at Waimano Ridge; and
- (2) That an updated master plan be prepared for Waimano Ridge. The Department of Health, Waimano Ridge homeowners, interested members of the Pearl City community, and other stakeholders will be included in the drafting process.

As affirmed by the record of votes of the members of your Committee on Water, Land, and Agriculture that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1473, S.D. 1, and recommends that it pass Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 3. Noes, none. Excused, 2 (English, Fukunaga).

SCRep. 716 Commerce, Consumer Protection and Housing on S.B. No. 1349

The purpose of this measure is to amend record keeping requirements for associations of apartment owners.

Hawaii Independent Condominium and Cooperative Owners and one individual submitted testimony in support of this measure. The Mililani Town Association submitted testimony in opposition to this measure.

Currently, the law requires associations of apartment owners (associations) to retain certain financial records for the current and past year. This measure amends the record keeping requirements for associations by requiring them to retain these records for the current year, as well as the prior four years.

Your Committee noted concerns that there are associated costs and burdens for retaining records including storage and cataloging. However, your Committee also noted that some associations already retain their financial records for three years for tax purposes. Your Committee finds that these competing views merit further consideration. Accordingly, your Committee has amended this measure by inserting an effective date of July 1, 2050 to ensure ongoing discussions on this issue.

Your Committee has further amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1349, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1349, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 717 Commerce, Consumer Protection and Housing on S.B. No. 693

The purpose of this measure is to facilitate fundraising through the use of charitable gift annuities by clarifying and streamlining the requirements governing nonprofit organizations.

Testimony in support of this measure was received from the Attorney General, Department of Commerce and Consumer Affairs, Myerberg Shain and Associates, The Nature Conservancy, Hawaii Alliance of Nonprofit Organizations, Hawaii Community Foundation, Punahou School, American Heart Association, and five individuals.

Under current law, charities that issue charitable gift annuities must annually certify that their reserves on outstanding annuity agreements have been calculated in accordance with "accepted actuarial standards". This requirement has been interpreted by some charities to require that they incur the significant cost of actuarial services in order to calculate reserves, making the issuance of annuities difficult and impracticable.

This measure simplifies and streamlines the reserves calculation requirement by requiring that reserves be calculated in accordance with mortality tables and discount rates to be determined by the Insurance Commissioner, rather than in accordance with accepted actuarial standards. Your Committee finds that this amendment will allow most charities to utilize commercially available software to calculate their reserves.

Additionally, this measure:

- (1) Clarifies that the business activities conducted by a qualified charity in the State shall be in the form of program services or fundraising, and shall have been undertaken "consecutively", rather than "continuously", for ten years;
- (2) Clarifies that the filing deadline for a charity's annual compliance statement is March 15th of each year; and
- (3) Provides that no surplus shall be required for any portion of a gift annuity that is reinsured by an authorized insurer.

Your Committee has amended this measure by deleting the proposed amendment to require a charity to have conducted business in this State consecutively, rather than continuously, for ten years. Your Committee also made technical, stylistic amendments to the measure.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 693, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 693, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Ige).

SCRep. 718 Commerce, Consumer Protection and Housing on S.B. No. 74

The purpose of this measure is to amend the requirements for obtaining commercial driver's licenses.

The Hawaii Transportation Association submitted testimony in support of this measure. The Department of Transportation submitted testimony in opposition to this measure.

Currently, the law requires applicants for a commercial driver's license to be at least twenty-one years old. However, there is a shortage of commercial drivers in Hawaii and the age requirement for commercial licenses makes recruiting younger individuals, such as high school seniors, difficult because they have to wait years to obtain a license.

Your Committee finds that lowering the age requirement will increase the number of qualified individuals for commercial drivers which will begin to alleviate the commercial driver shortage.

Your Committee has amended this measure by making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 74, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 74, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 719 Commerce, Consumer Protection and Housing on S.B. No. 76

The purpose of this measure is to clarify penalties for motor vehicle size and weight violations.

The Department of Transportation and Hawaii Transportation Association submitted testimony in support of this measure.

The law currently provides that fines for violating vehicle size requirements; vehicle gross weight, axle, and wheel load requirements; or any exceptions to the vehicle requirements, shall be no more than \$600 and no less than the amounts set forth in section 291-37, Hawaii Revised Statutes (HRS). This measure removes the \$600 “maximum fine” requirement for first violations.

Your Committee has amended this measure by:

- (1) Clarifying that the amounts listed in section 291-37, HRS, are set penalty amounts, rather than minimum fines, for first violations; and
- (2) Making technical, nonsubstantive stylistic changes.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 76, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 76, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 5. Noes, none. Excused, 1 (Ige).

SCRep. 720 Commerce, Consumer Protection and Housing on S.B. No. 1624

The purpose of this measure is to exempt physicians from the requirement of obtaining preauthorization to prescribe medication for Medicaid patients with HIV/AIDS or Hepatitis C and for Medicaid patients who have undergone organ transplants.

Testimony in support of this measure was submitted by the American Liver Foundation-Hawaii Chapter; Hepatitis Hale Treatment and Support Program; Hepatitis Prevention, Education, Treatment and Support Network of Hawaii; National Association of Hepatitis Task Forces; and two individuals. Testimony in opposition to this measure was submitted by the Department of Human Services.

Your Committee finds that organ transplant patients and patients with HIV/AIDS and Hepatitis C require timely treatment to stabilize their conditions and to avoid permanent injury. Your Committee further finds that the process for obtaining preauthorization under the Medicaid program to prescribe medications for HIV/AIDS and Hepatitis C patients and immunosuppressives for organ transplant patients is difficult and time consuming for practitioners. This measure facilitates timely treatment by waiving the preauthorization requirement for physicians who prescribe medications and immunosuppressives for Medicaid beneficiaries suffering from HIV/AIDS, Hepatitis C, or who have undergone an organ transplant.

Your Committee has amended this measure by making technical, stylistic amendments.

As affirmed by the record of votes of the members of your Committee on Commerce, Consumer Protection, and Housing that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1624, as amended herein, and recommends that it pass Third Reading in the form attached hereto as S.B. No. 1624, S.D. 1.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (Espero, Sakamoto).

SCRep. 721 Judiciary and Hawaiian Affairs on S.B. No. 829

The purpose of this measure is to regulate the use, distribution, and monitoring of drug products containing ephedrine, phenylpropanolamine, and pseudoephedrine as well as amend other provisions of Hawaii’s controlled substances law.

Specifically, this measure:

- (1) Classifies ephedrine, pseudoephedrine, and phenylpropanolamine as schedule V controlled substances;
- (2) Prohibits a pharmacy from dispensing, selling, or distributing, without a prescription, any product containing certain quantities of ephedrine, pseudoephedrine, or phenylpropanolamine;
- (3) Clarifies time limits on filling and holding schedule II controlled substances prescriptions on the part of pharmacists;

- (4) Removes the exemption on over-the-counter retail sales of pseudoephedrine and ephedrine combination products; and
- (5) Amends Hawaii's electronic prescription accountability system relating to the ability of law enforcement to disseminate information to other state governmental prescription monitoring programs.

Testimony in support of the measure was submitted by the Department of Public Safety, the Honolulu Police Department, the Department of the Prosecuting Attorney for the City and County of Honolulu, Times Supermarket, Longs Drugs, and one individual. Testimony in opposition to the measure was submitted by the Legislative Information Services of Hawaii and the Hawaii Food Industry Association.

Your Committee finds that this measure regulates the use, dispensing, and monitoring of drug products that contain ephedrine, pseudoephedrine, and phenylpropanolamine as well as amends other provisions of Hawaii's controlled substances law.

Your Committee has amended this measure by:

- (1) Deleting provisions that classify ephedrine, pseudoephedrine, and phenylpropanolamine as schedule V controlled substances;
- (2) Removing the requirement that a licensed pharmacist or registered pharmacy technician be the only individuals authorized to dispense, sell, or distribute drug products containing certain quantities of ephedrine or pseudoephedrine;
- (3) Deleting the identification requirements imposed on individuals purchasing drug products that contain ephedrine or pseudoephedrine; and
- (4) Removing the mandatory thirty-day period under which a person is limited to purchasing, receiving, or acquiring no more than nine grams of any product, mixture, or preparation containing ephedrine, pseudoephedrine, and phenylpropanolamine.

In place of these provisions, your Committee has included the following:

- (1) Requiring wholesalers and distributors of drugs that contain the active ingredients ephedrine or pseudoephedrine to provide monthly sales reports to the Department of Public Safety;
- (2) Limiting the amount of ephedrine as well as pseudoephedrine contained in a drug product that may be sold over-the-counter;
- (3) Restricting the number of drug products containing pseudoephedrine or ephedrine that may be purchased in one transaction;
- (4) Authorizing retailers to restrict access to drug products containing ephedrine or pseudoephedrine;
- (5) Requiring retailers to establish educational program for its employees relating to methamphetamine production; and
- (6) Establishing the misdemeanor criminal offense of unauthorized sale of ephedrine or pseudoephedrine for retailers that violate requirements with respect to the over-the-counter sale of drug products containing ephedrine or pseudoephedrine.

As affirmed by the record of votes of the members of your Committee on Judiciary and Hawaiian Affairs that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 829, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 829, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.
Ayes, 4. Noes, none. Excused, 2 (English, Ihara).

SCRep. 722 Transportation and Government Operations on S.B. No. 1362

The purpose of this measure is to authorize the Department of Transportation (DOT) to tow and dispose of abandoned vehicles.

Your Committee received testimony in support of this measure from the Housing and Community Development Corporation of Hawaii (HCDCH), the Mayor of Maui, a Maui County Council member, Gentry Homes Ltd., and five individuals. Testimony in opposition was received from the Department of Transportation.

Current law permits the counties to tow and dispose of abandoned vehicles. This measure would confer that same authority upon the DOT. Although testimony indicated that the counties willingly remove abandoned vehicles, your Committee finds that this measure would enhance the ability of government to remove abandoned vehicles if the DOT had the same authority.

Your Committee has amended this measure on the recommendation of the HCDCH by conferring similar authority upon the DOT and the counties to remove abandoned vehicles on private roads pending their dedication to the State or county and defining an abandoned vehicle for this purpose.

As affirmed by the record of votes of the members of your Committee on Transportation and Government Operations that is attached to this report, your Committee is in accord with the intent and purpose of S.B. No. 1362, as amended herein, and recommends that it pass Second Reading in the form attached hereto as S.B. No. 1362, S.D. 1, and be placed on the calendar for Third Reading.

Signed by the Chair on behalf of the Committee.

Ayes, 5. Noes, none. Excused, 2 (Menor, Whalen).

SCRep. 723 Commerce, Consumer Protection and Housing on S.B. No. 602

The purpose of this measure is to require pawnshops and secondhand dealers to file daily electronic reports of pawnshop transactions with the police department.

The Honolulu Police Department, Hawaii Tourism Authority, State Farm Mutual Automobile Insurance Company, and an individual testified in support of this measure. The Hawaii Pawnbrokers Association, Waipahu Pawn Shop, Kaneohe Pawn, and one individual opposed the measure.

Your Committee finds that stolen property is typically sold to pawnbrokers and secondhand dealers, and that access by the police to current and timely information on merchandise received by these businesses increases the likelihood of recovering stolen property before it is sold or destroyed.
