# A BILL FOR AN ACT

RELATING TO DIGITAL MEDIA.

### BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

- SECTION 1. The legislature finds that the film industry in
  Hawaii is an important component of a diversified economy, and
  that its financial impact can be strengthened significantly if
  existing incentives are adjusted.
- 5 The film industry has generated approximately \$160,000,000
- 6 in tax revenues for Hawaii since 1992. The State has long
- 7 recognized the benefits of the film industry, and the dynamic
- 8 synergy it brings to our top industry, tourism. The legislature
- 9 has supported the growth of the film industry by developing the
- 10 Hawaii film studio, establishing a film school at the University
- 11 of Hawaii, streamlining the permitting process, and offering
- 12 other incentives to attract film and television productions to
- 13 the state.
- 14 The legislature also finds that there has been a dramatic
- 15 increase in the number of state and local governments attempting
- 16 to attract film productions. These jurisdictions have
- 17 experienced dramatic increases in in-state spending and
- 18 significant growth in workforce and infrastructure development.

- 1 In New Mexico, production spending increased by \$162,000,000
- 2 since the state's incentive legislation passed in 2002.
- 3 Louisiana saw cumulative film expenditures rise to \$800,000,000,
- 4 since its legislation passed in 2002. New York City enjoyed an
- 5 increase of \$600,000,000 in new production and the creation of
- 6 6,000 new jobs since the state and city passed the "Made in NY"
- 7 fifteen per cent incentive package in August 2004 and January
- 8 2005, respectively. More productions in Hawaii would stimulate
- 9 more direct and indirect tax revenue. According to the
- 10 department of business, economic development, and tourism, the
- 11 film industry averages \$100,000,000 in direct spending annually,
- which generates \$13,000,000 in direct and indirect tax revenues.
- 13 If annual production expenditures could be tripled, the State
- 14 would stand to gain more than \$39,000,000 in tax revenues.
- The legislature further finds that it is desirable to
- 16 provide tools to the film industry to encourage similar dramatic
- 17 growth in Hawaii because the film industry:
- 18 (1) Infuses significant amounts of new money into the
- economy, which is dispersed across many communities
- and businesses and which benefits a wide array of
- 21 residents;
- 22 (2) Creates skilled, high-paying jobs;

1	(3) Has a natural dynamic synergy with Hawaii's top
2	industry, tourism, and is used as a destination
3	marketing tool for the visitor industry; and
4	(4) Is a clean, nonpolluting industry that values the
5	natural beauty of Hawaii and its diverse multicultural
6	population and array of architecture.
7	The legislature also finds that the industry has a strong
8	desire to hire locally and invests in training and workforce
9	development of island-based personnel. The three television
10	series and one independent feature film that filmed in Hawaii in
11	2004 (North Shore, Hawaii, LOST, and Tides of War) had crews
12	consisting of eighty-five to ninety per cent Hawaii residents.
13	It is the intent of this Act to continue to encourage this
14	industry practice of hiring a significant number of residents
15	and to support training and educational initiatives and
16	opportunities.
17	The legislature finds that series cancellations in recent
18	years were due, in part, to the absence of cost-effective
19	incentives that take into account the front-end budgeting
20	methods normally used by the film industry and that allow for
21	lower production costs. If this issue was addressed, a greater

number of significant projects would be attracted to the islands 1 and help build our local film industry infrastructure. 2 Therefore, it is the purpose of this Act to encourage the 3 growth of the film industry by: 4 By providing enhanced incentives that attract more 5 film and television productions to Hawaii, thereby 6 generating tax revenues; 7 Providing jobs and income for residents; (2) 8 Supporting tourism and the natural beauty of Hawaii; (3) 9 10 and Enabling the state to compete effectively against (4)11 other jurisdictions that offer similar incentives. 12 SECTION 2. Section 235-17, Hawaii Revised Statutes, is 13 amended to read as follows: 14 "§235-17 Motion picture, digital media, and film 15 production[+] income tax credit. (a) [There] Any law to the 16 contrary notwithstanding, there shall be allowed to each 17 taxpayer subject to the taxes imposed by this chapter, an income 18 tax credit which shall be deductible from the taxpayer's net 19 income tax liability, if any, imposed by this chapter for the 20

taxable year in which the credit is properly claimed.
