

GOV. MSG. NO. 1088

EXECUTIVE CHAMBERS  
HONOLULU

LINDA LINGLE  
GOVERNOR

July 11, 2007

The Honorable Colleen Hanabusa, President  
and Members of the Senate  
Twenty-Fourth State Legislature  
State Capitol, Room 409  
Honolulu, Hawaii 96813

Dear Madam President and Members of the Senate:

Re: Senate Bill No. 1792 SD3 HD3 CD2

On July 10, 2007, Senate Bill No. 1792 entitled "A Bill for an Act Relating to the Hawaii Health Systems Corporation" became law without my signature, pursuant to Section 16 of Article III of the State Constitution.

The purpose of this bill is to create five regional boards within the Hawaii Health Systems Corporation (HHSC), to give these regional boards authority over the operation and governance of HHSC facilities that are located within their regions, to retain the central corporation and increase the membership of the HHSC Board, to exempt the HHSC Board and the regional boards from the Sunshine Laws, and to exempt the regional boards from the Public Procurement Code.

The bill contemplates that the regional boards will exercise substantial control and responsibility for the management of the HHSC facilities and other assets located in their regions, while HHSC and the HHSC Board will act upon corporation-wide matters. Regional boards will be able to retain revenues that are generated by facilities located within their regions, and the regional boards will be responsible for developing budgets and submitting them to the HHSC board for submission to the Legislature. Both HHSC and the regional boards will have authority to contract for goods, services, and construction.

I support the intent of this bill to give local regions more control over the operation of the HHSC facilities that are located in their area. However, I did not sign the bill because this bill poses a number of concerns that could adversely affect the operation of the HHSC hospitals, which is our State's "safety net" of medical facilities.

Among my concerns is this bill exempts the regional boards and the HHSC Board from Part I of this State's Sunshine Law in chapter 92, Hawaii Revised Statutes. This bill also exempts the regional boards from Hawaii's Public Procurement Code. These two exemptions remove transparency, openness, and accountability in the administration of this State's public hospitals, including the utilization of public funds by the regional boards.

Exempting the HHSC Board and the regional boards from "open meetings" requirements of the Sunshine Law means that they will no longer be required to, among other things, post notice of their meetings, allow the public to attend and testify at meetings, or make their minutes publicly available. The HHSC's Board and regional boards will be able to set policy, enter into contracts, begin or conduct lawsuits, and oversee the administration of public health facilities without wide community scrutiny or participation. Although this bill requires each regional board to hold two informational community meetings per year to take comments on the region's performance, this is a far lesser standard of public participation and scrutiny than is provided for under the Sunshine Law.

A governmental agency with the authority to expend funds also should be in compliance with the Procurement Code, which promotes the policy of fair and equitable treatment of all persons and companies who deal with the government, fosters effective broad-based competition, and increases public confidence in public procurement. Open bidding procedures assure that the State obtains value and that potential vendors/contractors are treated fairly. The Procurement Code establishes a time-tested, fair, and reliable set of rules and processes for award of contracts. To the extent that agencies may need specific purchases to be exempted from the Code requirements, the Code provides an exemption process.

I also have concerns about the timetable for implementation of this bill. Within 15 days, I must receive a total of 120 names of candidates for the regional boards from the Senate President, House Speaker, Management Advisory Committees, and HHSC staff. Thereafter, I have 30 days to select the 60 most qualified persons--12 persons for each region.

In addition to this timetable for selecting regional board members, SB 1792 specifically provides for a new selection of HHSC corporate board members--some of whose terms will prematurely expire in December 2007 and the rest of whose terms will prematurely expire in September 2008. Even supporters of this bill have expressed concern that with a 100% turnover in the HHSC Board at the same time that the regional boards are being constituted, HHSC, as a whole, will lose the "institutional knowledge" of HHSC Board members. At the time of great change in corporate governance, vis-à-vis the constitution of the new regional boards and the sharing of authority and obligations with HHSC, it would appear unwise to have further changes in the governance of HHSC.

I also remain concerned that this bill requires the Governor to select candidates solely from enumerated lists. The Governor's ability to select the most qualified person to fill a vacancy should not be so narrowly restricted.

Additionally, I am concerned that this bill comes at a time when HHSC is facing serious fiscal difficulties and has just assumed responsibility for a new facility--Kahuku Hospital. It is my hope that funding for each respective region will be set based upon true need and not solely as a function of the political power of a respective region's elected officials.

The Honorable Colleen Hanabusa, President  
and Members of the Senate

Although I cannot in good conscience endorse this bill with my signature, I wish to reaffirm my commitment to improving the access of local communities in decision-making regarding their health care providers. I have consistently held the position for more than twenty-five years that the government which is closest to the people is the government that can best meet the needs of its citizens. It is refreshing to note that the Legislature has finally recognized this in passing this measure.

For the foregoing reasons, I allowed Senate Bill 1792 to become law as Act 290, effective July 10, 2007, without my signature.

Sincerely,

LINDA LINGLE

## A BILL FOR AN ACT

RELATING TO THE HAWAII HEALTH SYSTEMS CORPORATION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1           SECTION 1. The legislature finds that the State's  
2 community hospital system, Hawaii health systems corporation, is  
3 the fourth largest public hospital system in the nation. The  
4 Hawaii health system corporation's public health facilities  
5 provide essential safety-net hospital and long-term care  
6 services throughout the state and are often the only hospitals  
7 in many rural communities. Due to rapid changes taking place in  
8 the health care industry, the legislature acknowledges that the  
9 governing structure of our public hospital system must provide  
10 the appropriate flexibility and autonomy needed to compete and  
11 remain viable and respond to the needs of the specific  
12 communities served by furthering the development of centers of  
13 excellence in health care.

14           The current administrative arrangement places the public  
15 hospital system in a single statewide public agency, the Hawaii  
16 health systems corporation, which operates with some autonomy  
17 from the executive branch. This arrangement is the result of

RES 114

S.B. NO.

1792  
S.D. 3  
H.D. 3  
C.D. 2

1 landmark legislation, Act 262, Session Laws of Hawaii 1996 (Act  
 2 262), after years of study. Act 262 was largely the result of  
 3 the work of a task force established pursuant to Act 266,  
 4 Session Laws of Hawaii 1994, charged with studying the  
 5 establishment of an agency for community hospitals, then a  
 6 division of the department of health. On December 20, 1994, the  
 7 task force issued its report to the governor and the legislature  
 8 entitled "The Preliminary Report of the Governor's Task Force on  
 9 the Establishment of an Agency for Community Hospitals." Many  
 10 of the recommendations of the task force were adopted by the  
 11 legislature, resulting in passage of Act 262, and the creation  
 12 of the Hawaii health systems corporation in 1996.

13 One significant recommendation of the task force included  
 14 the establishment of regional system boards of directors, along  
 15 with the system-wide board. The task force stated that:

16 "The Hawaii Health Systems Corporation should  
 17 administer the state facilities in a decentralized  
 18 fashion, with the facilities to be grouped into five  
 19 regions. Three regions should be formed for the  
 20 facilities of Kauai, Oahu and Maui Counties  
 21 respectively, and the Big Island should be divided  
 22 into Eastern and Western regions. Each region should

1 have an operating Board of Directors consisting of  
2 nine members. Regional Boards should be initially  
3 appointed by the Governor with the advice and consent  
4 of the Senate, and should subsequently be self  
5 perpetuating (i.e., with future Board appointments  
6 made by the current Board)."

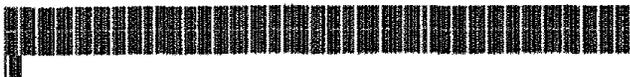

7 During the 1996 conference committee hearings on S.B. No.  
8 2522, which ultimately became Act 262, the regional board  
9 concept was replaced with regional management advisory  
10 committees. The management advisory committees represent the  
11 communities in which the hospitals are located and meet with the  
12 management of the facilities and the executives of the Hawaii  
13 health systems corporation to give the communities a voice in  
14 the provision of these vital safety-net hospital services.  
15 However, the legislature finds that the Hawaii health systems  
16 corporation has developed strong administrative and clinical  
17 leadership in all five regions and is now ready for the  
18 implementation of the regional system boards recommendation.  
19 Further, the regional system board concept would enhance the  
20 ability of local communities and stakeholders to participate in  
21 the decision-making and operation of their own community  
22 hospitals. It is consistent with the original intent of the

1 legislature in creating Hawaii health systems corporation that  
2 more than one system would be established, one for each region,  
3 as well as an umbrella system. While the management advisory  
4 committees have been diligent in representing the communities,  
5 their role has been solely advisory. Local community  
6 stakeholders, through independent regional system boards, are in  
7 the best position to make the critical decisions relating to the  
8 local operation of their community hospitals. Additionally,  
9 regional system boards would have the ability to address local  
10 needs and concerns in a more timely fashion.

11 The hospitals, through the Hawaii health systems  
12 corporation, should still engage in state-wide activities where  
13 a system-wide approach may provide economies of scale,  
14 efficiencies, and inter-regional collaboration and cooperation.

15 The purpose of this Act is to advance the State's  
16 commitment to provide quality health care for the people of  
17 Hawaii, by moving forward on the original task force  
18 recommendation of community-based governance and establishing  
19 regional system boards for all regions, to be governed by a  
20 community-based regional system board of directors, and to  
21 provide the necessary authority for each region to accomplish  
22 the goal of community-based governance. The Hawaii health

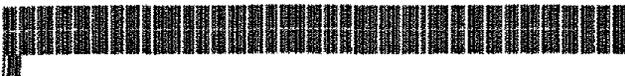

1 system corporation will continue to provide system-wide  
2 functions and governance with enhanced representation of  
3 regional system board members.

4 SECTION 2. Chapter 323F, Hawaii Revised Statutes, is  
5 amended by adding three new sections to be appropriately  
6 designated and to read as follows:

7 "§323F-A Regional system boards. (a) There is hereby  
8 established a regional system board of directors to govern each

3 duly noticed meeting from a list of qualified  
4 candidates submitted by the medical executive

3 chapters 76 and 89 shall be governed by policies adopted by each  
4 regional system board. These policies and guidelines shall be  
5 consistent with policies and guidelines adopted by the  
6 corporation board after consultation with the regional system  
7 boards.

22 amended as follows:

1 1. By amending subsection (a) to read:

22 retained by the board of directors of the Hawaii health systems
