REQUESTING THE DEPARTMENT OF AGRICULTURE TO CONVENE A WORKING GROUP OF STAKEHOLDERS TO PROVIDE AN ECONOMIC ANALYSIS OF THE INCENTIVE MEASURES APPROVED FOR IMPORTANT AGRICULTURAL LANDS.

1 WHEREAS, the passage of Act 183, Session Laws of Hawaii
2 2005 (Act 183), established the process for identifying
3 important agricultural lands as mandated in article XI, section
4 3 of the Hawaii State Constitution; and

5
6 WHEREAS, Act 183 recognized that it is critical not only to
7 establish policies for and to identify important agricultural
8 lands, but also to provide incentives for agricultural viability
9 in Hawaii, particularly for agricultural enterprises that farm
10 important agricultural lands, and for landowners of important
11 agricultural lands; and

12
13 WHEREAS, these incentives should be designed to promote
14 agricultural viability resulting in the long term retention of
15 important agricultural lands; and

16
17 WHEREAS, Act 183 directed the Department of Agriculture, in
18 consultation with the Department of Business, Economic
19 Development, and Tourism and the Department of Taxation, to
20 facilitate a meeting process with stakeholders in the
21 agricultural industry to develop and implement a comprehensive
22 and integrated framework of incentives and programs that will:

- 23
24 (1) Promote agricultural viability;
- 25
26 (2) Sustain the growth of the agricultural industry in
27 Hawaii; and
- 28
29 (3) Develop the long term use and protection of important
30 agricultural lands for agricultural use in Hawaii

3

4 WHEREAS, furthermore, the Department of Agriculture was
5 requested to submit a report to the Legislature of stakeholder
6 findings and recommendations before the 2007 Regular Session;
7 and
8

9 WHEREAS, Act 183 also provided a process to map important
10 agricultural lands by the counties, which is then followed by
11 the designation of important agricultural lands, as mapped by
12 the counties, three years after the enactment of legislation
13 establishing incentives and protections for important
14 agricultural lands and agricultural viability; and
15

16 WHEREAS, Act 183 further recognized that, in addition to
17 state incentives programs, it was equally important to include
18 county incentive programs to provide a comprehensive set of
19 incentives for agriculture to be viable on important
20 agricultural lands; and
21

22 WHEREAS, the Legislature has deliberated on several of the
23 incentive measures submitted by the Department of Agriculture,
24 the Hawaii Farm Bureau Federation, the Land Use Research
25 Foundation, and several other stakeholders in the agricultural
26 industry; and
27

28 WHEREAS, the Legislature, in consultation with stakeholders
29 in the agricultural industry, will need to evaluate whether the
30 incentive measures approved for important agricultural lands are
31 adequate to begin the designation process; now, therefore,
