
SENATE CONCURRENT RESOLUTION

ESTABLISHING A SPECIAL MENTAL HEALTH TASK FORCE TO STUDY WHETHER
HAWAII SHOULD PROVIDE A CONTINUUM OF MENTAL HEALTH CARE FOR
INCARCERATED PERSONS.

1 WHEREAS, chapter 334, part VIII, Hawaii Revised Statutes,
2 relating to involuntary outpatient mental health treatment,
3 provides procedures and criteria for the involuntary outpatient
4 treatment for persons in need of mental health services; and
5

6 WHEREAS, the existing law on involuntary outpatient mental
7 health treatment was originally enacted by Act 251, Session Laws
8 of Hawaii 1984, and remains today in substantially the same
9 language; and
10

11 WHEREAS, the involuntary outpatient treatment law provides
12 for a maximum outpatient treatment period of not more than one
13 hundred eighty days or six months; and
14

15 WHEREAS, existing law does not provide for follow-up mental
16 health treatment after the expiration of six months, which in
17 many instances is sorely needed for the benefit of the patient
18 and the safety of society; and
19

20 WHEREAS, in Hawaii, a white paper submitted to the 2002
21 National Conference on Mental Health Statistics, by a professor
22 at the University of Hawaii at Manoa, Department of Psychology,
23 and the Adult Mental Health Division of the Hawaii Department of
24 Health, estimates that the population with severe and persistent
25 mental illness is 2.6 per cent of adults, or approximately
26 24,000 people; and
27

28 WHEREAS, the white paper found that 4,500 adults were
29 served by the Adult Mental Health Division, leaving a
30 discrepancy of nearly 20,000 adults who may not have received
31 needed mental health services, correcting for such variables as
32 insurance coverage and Medicaid; and

1
2 WHEREAS, persons who have been discharged from further
3 treatment after a maximum period of six months have a high
4 probability of needing continuous mental health care, but in all
5 likelihood do not receive such care because of a lack of further
6 professional attention and care; and

7
8 WHEREAS, discharged persons may go on to become involved in
9 the criminal justice system; and

10
11 WHEREAS, *The Honolulu Advertiser*, on January 14, 2007,
12 reported on its investigation that found that the care of
13 mentally ill inmates in Hawaii's prison system is so deficient
14 that many fail to get treatment and are subjected to conditions
15 considered harmful and likely to worsen their symptoms; and

16
17 WHEREAS, the prison mental health services are one
18 component of the total mental health care system in Hawaii in
19 which the entry point for mental health services is assisted
20 outpatient treatment; and

21
22 WHEREAS, a special mental health task force would be able
23 to expertly assess whether Hawaii should provide some form of
24 post-involuntary outpatient mental health care, and assess the
25 quality and effectiveness of mental health services provided to
26 incarcerated persons; now, therefore,

27
28 BE IT RESOLVED by the Senate of the Twenty-fourth
29 Legislature of the State of Hawaii, Regular Session of 2007, the

 18

19 BE IT FURTHER RESOLVED that the special mental health task
 20 force is requested to report its findings and recommendations,
