JUSTIFICATION SHEET

DEPARTMENT: Land and Natural Resources

TITLE: A BILL FOR AN ACT RELATING TO THE HAWAII OCEAN AND COASTAL COUNCIL.

PURPOSE: To provide statutory authority to continue the Hawaii Ocean and Coastal Council.

MEANS: Add a new chapter to the Hawaii Revised Statutes.

JUSTIFICATION: Directed leadership and coordinated actions among all government agencies are critical to address Hawaii's ocean and coastal concerns, including, but not limited to user conflicts, protection of our natural, cultural, and historical resources, and health and safety. The multitude of public and private organizations with an interest in ocean and coastal matters need a mechanism for cooperation, collaboration and coordination.

In 2005, Governor Linda Lingle issued Executive Order (EO) No. 2005-01, establishing the Hawaii Ocean and Coastal Council (Council) in recognition of the need to protect Hawaii's near-shore waters and coastline, to gather information and provide advice and recommendations on direction and planning for addressing Hawaii's ocean and coastal matters throughout the State to foster coordinated approaches that support local initiatives on ocean and coastal concerns.

In spite of the Council having been terminated as a result of a condition of the EO, there is still a need to continue the leadership actions provided by the Council, not only to eliminate unnecessary duplication of effort and provide maximum leveraging and coordination of existing state funding from all concerned agencies,

but to also help promote increased and targeted participation and funding from cooperating entities.

Impact on the public: Directed leadership and coordination would eliminate duplicative actions and pool resources in addressing Hawaii's ocean and coastal concerns, including, but not limited to user conflicts, protection of our natural, cultural, and historical resources, and health and safety.

Impact on the department and other agencies: Would continue to foster and organize coordinated approaches among various executive departments, federal and county agencies, and international and local initiatives in addressing Hawaii's ocean and coastal concerns.
