H.B. NO. 3178

A BILL FOR AN ACT

RELATING TO CIVIL PENALTIES FOR VIOLATIONS ON PUBLIC LANDS.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

SECTION 1. The State must remain vigilant in its duty to 1 2 protect Hawaii's natural resources for the benefit of all of its residents and future generations. The legislature finds that in 3 recent years, there has been an increase in the intentional 4 violation of and blatant disregard for state natural resources 5 laws. Consequently, the State has been under considerable 6 strain in fulfilling that obligation, due to ineffective 7 enforcement tools, limited resources, and a shortage of 8 enforcement personnel. Existing civil penalties for most 9 10 violations are nominal and do not appear to deter such behavior effectively. 11

Increasing penalties for civil violations of the State's natural resources laws is an effective means for deterring unlawful behavior by imposing serious consequences for such violations. The purpose of this Act is to increase civil penalty fine amounts for violations on public lands and to clarify penalties for encroachment on public lands. Page 2

Report Title: Civil Penalties; Public Lands

Description:

Increases civil penalty fine amounts for violations on public lands and clarifies penalties for encroachment on public lands.

JUSTIFICATION SHEET

- DEPARTMENT: Land and Natural Resources
- TITLE: A BILL FOR AN ACT RELATING TO CIVIL PENALTIES FOR VIOLATIONS ON PUBLIC LANDS.
- PURPOSE: To increase civil penalty fine amounts for violations on public lands and to clarify penalties for encroachment on public lands.
- MEANS: Amend section 171-6, Hawaii Revised Statutes (HRS).
- JUSTIFICATION: The State has a public trust obligation to protect Hawaii's natural resources for the benefit of all of its residents and future generations. There has been an increase in the intentional violation of and blatant disregard for state natural resources laws. Consequently, the Department has been under considerable strain in fulfilling that obligation, due to ineffective enforcement tools, limited resources, and a shortage of enforcement personnel.

Existing civil penalties for most violations are nominal and do not appear to be a serious deterrent for such behavior. Examples of such behavior include the operation of unpermitted surf schools and other unauthorized commercial activities on public beaches, operation of all-terrain vehicles on unencumbered or other restricted public lands, damage to archeological, historical, or geologic features, and destruction, defacing, or removal of natural features or natural resources on public Increasing penalties for civil lands. violations of the State's natural resources laws is an effective means for deterring unlawful behavior by imposing serious consequences for such violations.

1133178

The existing statutory remedy for encroachment on public lands requires the violator to restore public land, if altered, to its original condition and assume the costs thereof, but does not require the payment of administrative costs and damages incurred by the Department. Other infractions of chapter 171, HRS, or any rules adopted thereunder for which violation a penalty is not otherwise provided, require the violator to pay for administrative costs and damages incurred by the Department. This bill corrects that inconsistency by requiring the violator who encroaches on public land to be liable for administrative costs incurred by the Department and for payment of damages.

Finally, for theft and damage to natural resources, the bill provides the Board of Land and Natural Resources with some leeway in determining an appropriate fine by considering the market value of the natural resource damaged or taken, and such factors as the loss of the natural resource to its natural habitat and environment.

<u>Impact on the public:</u> Public access to public areas such as beaches will be enhanced by the removal of unauthorized operations crowding such areas. Public safety will be promoted by the reduction in unregulated and unsafe activities occurring in public areas.

Impact on the department and other agencies: This bill would provide the Department with more effective tools to enforce violations of our natural resources laws and maximize the impact of the State's limited resources and enforcement personnel.
