
A BILL FOR AN ACT

RELATING TO AGRICULTURE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that a viable agriculture
2 industry requires a steady, reliable supply of water. However,
3 drought conditions continue to adversely affect our farms and
4 ranches, hampering our ability to produce quality products on a
5 consistent basis throughout the year.

6 The legislature believes that to address the negative
7 impact of droughts, mitigation measures laid out in the Hawaii
8 drought plan must be implemented. The goal of the Hawaii
9 drought plan is to develop coordinated emergency response
10 mechanisms, while at the same time outlining steps toward
11 mitigating the effects of future drought occurrences. The
12 Hawaii drought plan provides clear policies and specifies
13 response entities to implement immediate, short- and long-term
14 response measures to mitigate the impact of droughts.

15 The legislature also finds that in 2004, county drought
16 committees were formed for each of the four counties in Hawaii.
17 Each of the county drought committees developed a drought
18 mitigation strategy for their respective counties, with a focus

1 on drought mitigation projects. These county drought mitigation
2 strategies represent local needs and concerns of each county and
3 are incorporated by reference into the Hawaii drought plan.

4 The legislature further finds that to adequately implement
5 the Hawaii drought plan, sufficient funding to the counties is
6 necessary to address the many challenges that our agriculture
7 industry faces in preparing for droughts.

8 The purpose of this Act is to provide funding to pursue
9 drought mitigation projects and measures in each county of the
10 state.

11 SECTION 2. There is appropriated out of the general
12 revenues of the State of Hawaii the sum of \$4,000,000 or so much
13 thereof as may be necessary for fiscal year 2007-2008 for
14 drought mitigation projects and measures in each county of the
15 state.

16 The sum appropriated shall be expended by the department of
17 land and natural resources for the purposes of this Act.

18 SECTION 3. This Act shall take effect on July 1, 2007.
