
A BILL FOR AN ACT

RELATING TO YOUTH SUICIDE PREVENTION.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 SECTION 1. The legislature finds that more children and
2 young adults die from suicide each year than from cancer, heart
3 disease, AIDS, birth defects, stroke, and chronic lung disease
4 combined. Nationally, over four thousand youths take their
5 lives annually, making suicide the third largest cause of death
6 between the ages of ten and twenty-four.

7 In Hawaii, suicide is the second leading cause of death
8 among fifteen to twenty-four years old. Rates of youth suicide
9 have been on the rise in the last decade among both females and
10 males and among all ethnic groups. In Hawaii, males are more
11 likely than females to commit suicide, and native Hawaiian
12 youths are the most likely ethnic group to attempt or commit
13 suicide.

14 Research demonstrates that youth suicide is linked to
15 underlying mental health problems that can be addressed through
16 early intervention and prevention strategies. The legislature
17 notes that such intervention and prevention strategies have been
18 listed as a national health priority to deal with rising rates

1 of youth suicide. Furthermore, Congress passed federal
2 legislation in 2004, and appropriated \$82,000,000 over the next
3 three years, for statewide programs designed to help prevent
4 youth suicide. Many states have already developed comprehensive
5 statewide youth suicide and early intervention and prevention
6 strategies that seek to provide effective early intervention and
7 prevention services.

8 Suicide is a serious public health tragedy affecting
9 children and young adults in Hawaii. The legislature declares
10 that preserving and protecting the lives of children and young
11 adults is a priority for the State. The legislature further
12 finds and declares that preventing youth suicide is necessary
13 for the health, safety, and welfare of the residents of the
14 State. Accordingly, the purpose of this Act is to establish a
15 youth suicide prevention program for Hawaii.

16 SECTION 2. Chapter 321, Hawaii Revised Statutes, is
17 amended by adding a new section to be appropriately designated
18 and to read as follows:

19 "§321- Youth suicide prevention program. (a) The
20 department of health shall establish and operate a statewide
21 youth suicide early intervention and prevention program that

9 shall be provided, but shall not be limited, to the following
10 entities:

- 14 (4) The department of education;
- 15 (5) Public organizations;

18 (d) The department of health may develop and submit
19 proposals for funding from federal agencies and private
20 organizations to support the purposes of this section.

21 (e) The department of health may adopt rules in accordance
22 with chapter 91 to implement the purposes of this section."

1 SECTION 3. There is appropriated out of the general
 2 revenues of the State of Hawaii the sum of \$, or so much
 3 thereof as may be necessary for fiscal year 2007-2008, and the
 4 same sum, or so much thereof as may be necessary for fiscal year
 5 2008-2009, for implementation of the statewide youth suicide
 6 early intervention and prevention program pursuant to section
 7 321- , Hawaii Revised Statutes.

8 The sum appropriated shall be expended by the department of
 9 health for the purposes of this Act.

10 SECTION 4. New statutory material is underscored.

11 SECTION 5. This Act shall take effect upon its approval;
 12 provided that:

- 13 (1) Section 3 shall take effect on July 1, 2007; and
 14 (2) This Act shall be repealed on June 30, 2009.
