18 improvement district plan pursuant to chapter 91 and, after

1 consideration of comments received and appropriate revision,
2 shall submit the improvement district plan to the governor for
3 the governor's approval.

4 After approval, the governor shall submit to the

18 "[~~f~~]**S46-78**[~~}]~~ **Improvement districts, initiation by the**

4 transportation[-] or state department of land and natural
5 resources. The petition of the department of transportation or
6 department of land and natural resources shall include the
7 necessary surveys, maps, plans and other data for the betterment
8 or improvement. Upon approval of the petition by the
9 legislative body of the county, the county shall proceed in the
10 same manner as though the plan for the proposed construction or
11 improvement had been initiated by the legislative body of the
12 county on its own motion, provided that the county may abandon
13 the proceedings prior to adoption of the resolution creating the
14 improvement district.

15 The provisions of the assessment statutes or ordinances
16 shall be applicable to the proposed construction or improvement
17 insofar as practicable, provided that the costs thereof shall be
18 assessed against the land specially benefited either on a
19 frontage basis, according to area of the land within the

1 The state department of transportation or state department
2 of land and natural resources shall assume, except for the cost
3 to be borne by the board of water supply of the county, the cost

7 project, and the costs allocable to state land and land exempted
8 by the improvement district statutes from the payment of
9 improvement assessments; provided that where lands owned by the
10 county, including the board of water supply of the county, form
11 part of the improvement district, the county or the board of
12 water supply of the county, whichever is applicable, shall pay
13 the costs allocable to such lands. Nothing contained herein
14 however, shall be construed to prohibit any county from
15 participating in the costs of an improvement district which is
16 initiated upon petition by the department of transportation[-]
17 or department of land and natural resources.

18 Upon filing the petition for the creation of an improvement
19 district, the department of transportation or department of land
20 and natural resources shall deposit with the county an amount
21 adequate to cover the administrative costs of the county. In
22 addition, the department of transportation or department of land

1 and natural resources shall from time to time upon request of
2 the county deposit the necessary sums to cover the costs of
3 acquiring land required for the project. Upon award of any
4 contract, either for the entire project or separately for the
5 different kinds of work to be performed, the department of
6 transportation or department of land and natural resources shall
7 deposit with the county the amount the State is obliged to pay
8 towards the contract price; provided that if the completion of
9 the contract will extend beyond the fiscal year in which the
10 contract is executed, the department of transportation or
11 department of land and natural resources may deposit with the
12 county, if the contract is to be completed during the next
13 succeeding fiscal year, at least fifty per cent or, if the
14 contract by its terms will not be completed until beyond the
15 next succeeding fiscal year, at least thirty-three and one third
16 per cent of the amount the State is obliged to pay toward the
