I. Background and Summary

About Supporting the Language of Kaua'i, Inc.

Supporting the Language of Kaua'i, Inc. (SLK) is a community-based non-profit organization dedicated to enhancing and preserving the native Hawaiian language.

(See "Attachment A: Organizational Documents and Board Bios")

Goals and objectives

Through the Kawaikini Project, Supporting the Language of Kaua'i, Inc. is promoting the preservation and use of the Hawaiian language in educational instruction and improving academic achievement for primary and secondary students. Kawaikini Project involves the construction of school facilities for Kawaikini New Century Public Charter School, a newly authorized K-12 public charter school that will be opening its doors in the 2008-2009 academic year. (See "Attachment B: Charter Authorization Letter from the Charter School Review Panel").

The multi-phased project will see the construction of the following high-quality modular and stationary buildings: four 24' x 60' classrooms, one 24' x 60' administration building, one 60' x 60' all-purpose building and cafeteria, one 24' x 60' resource center, one 12' x 40' restroom, including all infrastructure, ADA ramps, etc.

(See "Attachment C: Plot Plan")

Public purpose and need to be served

On the island of Kaua'i, viable school facilities options are limited island-wide, and this shortage is especially acute in the central part of the island. Statewide, many public charter schools have been established without a solid facilities foundation and their programs have suffered because of it. For this reason Kawaikini's Local School Board has put much effort into its Facilities Plan, which it believes will provide the necessary stability and resources to enable the school to achieve its educational mission.

The facilities to be constructed will also serve a larger community need by creating a community facility that will be used for public meetings, community gatherings, and other public purposes.

Target population to be served

Kawaikini NCPCS will serve students 5 to 18 years of age living within the county of Kaua'i. Kawaikini expects an enrollment of approximately 80 students for school year 2008-2009 with a ten percent increase per year up to a maximum enrollment of 150 students. Current student population and projected demographic information suggest that the served population will be predominantly low- and moderate-income families, and that 80%-90% will be Hawaiian and other minority persons.

(See "Attachment D: Geographic Coverage")

Geographic coverage

Being centrally located, the K-12 Hawaiian Immersion public charter school program will serve all communities of Kaua'i.

II. Service Summary and Outcomes

Scope of work

To implement its educational program Kawaikini NCPCS will use the current proposed funding to construct school facilities to support its educational program. The facilities will consist of eight buildings and three septic systems designed by a septic design specialist: four 24'x60' dual modular classrooms, one 24'x60' modular office, one 24'x60' resource center, one 12'x40' modular restroom and a 60'x60' multi-purpose building with restrooms and kitchen.

A modular contractor will design, deliver and raise all modular buildings and a General Contractor hired by Kawaikini will frame and build the 60'x60' multi-purpose structure on site. The 60'x60' structure will be designed by our Head Architect/Contractor.

All site preparation, infrastructure and the building of two dual classrooms, a restroom and an office building is scheduled for completion on or before school starts in August 2008 and will house all Kawaikini students. Safety perimeter fencing will be installed prior to August 2008.

Beginning August 2008, the project time-line will include two 24'x60' dual modular classrooms that will house the middle and high school students. A 24'x60' modular resource center will be raised and will service all students. A 60'x60' multi-purpose unit will consist of one boys and one girls restroom, a full

kitchen and a 40'x60' meeting / eating area. The completion date is set at approximately August 2009.

The final phase will encompass green technology, landscaping, playground equipment and perimeter fencing.

Tasks and responsibilities

The Kawaikini project will be implemented by a team of experts and will be overseen by a Project Coordinator under the supervision of the SLK board. Tasks will be coordinated by the project coordinator as per Attachment E.

(See "Attachment E: Tasks and Responsibilities")

Projected annual timeline for accomplishing the results or outcomes of the service

Supporting the Language of Kaua'i Inc. has begun preliminary planning for the Kawaikini Project. The projected completion date for the Kawaikini Project is August 2009.

(See "Attachment F: Projected Annual Timeline")

Quality assurance and evaluation plans

To assure the proper monitoring, evaluation and improving of results, Kawaikini will adopt a Quality Assurance (QA) plan that will ensure that Quality control activities are conducted throughout the course of the project. The QA plan will consist of four distinct stages at which comprehensive reviews of the content and accuracy of the plans and the implementation of the proposal will be conducted. The four stages are:

- The Scope Verification Meeting – To gather the necessary original plans and other useful background information, review all scoping documents, and review cost estimates from the programming of the project and compare it to the programmed cost.
- The Plan Review Meeting - to ensure the project design is proceeding according to the scope of work agreed to at the Scope Verification Meeting.
- The Omissions and Errors Check (OEC) Meeting – to review the final plan/proposal package to ensure the package is complete.
- Submission of Final Plans.
- The Implementation Review Meeting(s) – regular meetings to ensure the project implementation is proceeding according to the final submitted plans.

- The final project report and audit – to ensure accountability and documented performance of all activities.

Measures of effectiveness

Supporting the Language of Kaua'i, Inc. will report on the progress of the project using a standard set of performance measures. The Measures of Effectiveness (MOEs) that will be used to assess the effectiveness of the facilities construction project are:
