Representative Maile Shimabukuro, Chair Representative Karl Rhoads, Vice-Chair Committee on Human Services and Housing

Community Alliance Partners – Hawai`i Island Continuum of Care to End Homelessness (808) 329-7133 hawaiicap@gmail.com

CPH Public Hearing Date: 2/14/08 in Conference Room 329

Support of HB 2797: Relating to the Kaloko Housing Program

The Community Alliance Partners (CAP) is a partnership of homeless, social service, and healthcare providers, business owners, housing developers, faith-based organizations, county housing, and interested individuals who address issues which impact the island's homeless population and other housing needs to find solutions and funding opportunities.

The goal of the Kaloko Housing Program is to provide an urgently needed replacement for West Hawaii's only family shelter program, Kawaihae Transitional Housing, which currently provides 66% of the Big Island services for this target population. This program's closing, slated for June 2009, will leave only 12 units to service the families of the entire island. It will also address the source of the West Hawaii housing crisis by increasing the inventory of affordable, service-enriched rental units for working families.

According to the 2007 Homeless Point-in-Time study, over 65% of the state's homeless population in the rural counties is on the Big Island. The growing number of homeless families is up 27% over the 2005 count. Closing the Kawaihae facility leaves the Big Island with the <u>lowest</u> number of transitional housing units for families in the entire state.

Because of this critical community issue, the CAP has launched a comprehensive grassroots effort with Big Island stakeholders to educate and solicit input regarding perceived need. From these efforts, we have collected over 1,200 supporting signatures from faith-based organizations, social service and healthcare agencies, local businesses, and homeless individuals. Please see the 2nd page for a list of participating organizations.

The outpouring of written testimony supporting HB 2797 from local constituents and the entire CAP demonstrates the urgency for the committee to act righteously on behalf of the people of the Big Island. We believe the Kaloko Housing program will improve outcomes for participating families by offering on-site services with greater access to healthcare, employment, education, and community life.

Thank you for the opportunity to testify.

David Garcia, CAP Chair

Sonia Scadden, CAP Legislative Advocate
